# Computer Science

The Co-operative Education Option is available in Computer Science. See the Co-operative Education section of this Calendar for details.

## Graduation Requirements

In addition to the requirements listed below, students must satisfy the University regulations common to all undergraduate students (see the *Academic Regulations of the University* section of this Calendar).

Students should consult with the School when planning their program and selecting courses.

## Course Categories

The following categories of courses are used in defining the program requirements in Computer Science.

### Computer Science (COMP)

In addition to the courses with subject code COMP, the following courses offered by the Sprott School of Business, the Faculty of Engineering and Design, and the Faculty of Arts and Social Sciences are relevant to the B.C.S. program and the Combined Honours programs. These courses are counted as Computer Science credits in B.C.S., Minor in Computer Science and Combined Honours program requirements:
