Technology, Society, Environment Studies

Graduation Requirements

In addition to the requirements listed below, students must satisfy:

 the University regulations including the process of Academic Performance Evaluation (see the Academic Regulations of the University section of this Calendar).

Students should consult with the Institute when planning their program and selecting courses.

Program Requirements

Minor in Technology, Society, Environment Studies (TSE) (4.0 credits)

This minor is available to all degree students.

Requirements

Total Credits

1.	1.0 credit in:		1.0
	ENSC 2001 [0.5]	Earth Resources and Natural Hazards: Environmental Impacts	
	ISCI 2002 [0.5]	Human Impacts on the Environment	
2.	1.0 credit in:		1.0
	TSES 3001 [0.5]	Technology-Society Interactions	
	TSES 3002 [0.5]	Energy and Sustainability	
3.	1.0 credit from:		1.0
	ISCI 1001 [0.5] & ISCI 2000 [0.5]	Introduction to the Environment and Natural Laws	
	TSES 2305 [1.0]	Ancient Science and Technology	
	CLCV 2305 [1.0]	Ancient Science and Technology	
4.	1.0 credit from:		1.0
	TSES 4001 [0.5]	Technology and Society: Risk	
	TSES 4002 [0.5]	Technology and Society: Forecasting	
	TSES 4003 [0.5]	Technology and Society: Innovation	
	TSES 4005 [0.5]	Information Technology and Society	
	TSES 4006 [0.5]	Technology and Society: Work	
	TSES 4007 [0.5]	Product Life Cycle Analysis	
	TSES 4008 [0.5]	Environmentally Harmonious Lifestyles	
	TSES 4009 [0.5]	Special Topics	
	TSES 4010 [0.5]	Special Topics	
	TSES 4011 [0.5]	Technology and Society: Development	
	TSES 4012 [0.5]	Science and Fiction: Creating Tomorrow	
	TSES 4014 [0.5]	Technology-Society: Time	
5. The remaining requirements of the major discipline(s) and degree must be satisfied.			

Note: This Minor is designed for all degree students. There are no requirements for OAC Science credits or University level credits in Natural Sciences. Students with one or more OAC and/or university credits in science can replace ISCI 1001 and ISCI 2000 with TSES 2305, and/

or additional half-credit 4000-level TSE courses. Students who have taken courses equivalent to ENSC 2001 and/ or ISCI 2002 can also replace all or part of requirement 1 with 4000-level TSE courses. Any substitution requires permission of the Chair of TSE.

Technology, Society, Environment Studies Faculty of Science

TSES 2006 [0.5 credit] Ecology and Culture

Cultural adaptations to the environment are set within globalization processes. New ecologies - symbolic, historical and political - arise out of the hubris of classical models. The advocacy role of applied ecological anthropology and the consequences of Western cultures' adaptive capacities will be examined.

Also listed as ANTH 2815.

Prerequisite(s): ANTH 1001 and ANTH 1002 or SOCI 1001 and SOCI 1002 and second-year standing, or permission of the Department of Sociology and Anthropology.

Lectures three hours a week.

TSES 2305 [1.0 credit] Ancient Science and Technology

Development of science and technology in the ancient world and their practical application. The craftsman and artisan in society; the attitude of intellectuals to science and manual labour. Effects of the institution of slavery. Suitable for students with no previous knowledge of Greece or Rome.

Also listed as CLCV 2305.

Prerequisite(s): second-year standing or equivalent. Lectures two hours a week.

TSES 3001 [0.5 credit] Technology-Society Interactions

Ethical issues in introducing technology; historical review of technology and human development; effects on society of medical and communications technologies; automation and its effects on society, especially work; impact of technology on international affairs, especially through multinational enterprises. Guest lectures.

Precludes additional credit for TSES 3000 and

TSES 3500.
Prerequisite(s): at least second-year standing.

Prerequisite(s): at least second-year standing. Lectures and workshops three hours per week.

TSES 3002 [0.5 credit] Energy and Sustainability

4.0

History of energy use by humans; utilization of renewable energy sources; energy and agriculture; energy and mineral resources; options for electricity generation; nuclear energy; risks of accidents in large systems, e.g. nuclear plants, hydroelectric dams. Guest lectures. Precludes additional credit for TSES 3000 and TSES 3500.

Prerequisite(s): at least second-year standing. Lectures and workshops three hours per week.

TSES 3500 [0.5 credit]

Interactions in Industrial Society

Ethical issues involving technology; effects on society of automation, medical and communications technologies; technology and international affairs; energy use by humans; renewable energy sources; energy in agriculture and mineral extraction; electricity generation; nuclear energy; accidents in large systems, e.g. nuclear plants and hydroelectric dams. Guest lecturers. Lectures in common with TSES 3001 and TSES 3002.

Precludes additional credit for TSES 3001, TSES 3002 and TSES 3000.

Prerequisite(s): at least second-year standing. Lectures three hours per week for both terms.

TSES 4001 [0.5 credit]

Technology and Society: Risk

Examines the complex practice of evaluating technology's impact on society and the environment; risk analysis; cost-benefit analysis; technology regulation; retrospective project assessment; necessary aspects of assessment and assessment examples. Guest lecturers.

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4002 [0.5 credit]

Technology and Society: Forecasting

Methods used for forecasting technological and social change; technological and social change portrayed in literature; science fiction factors involved in such change. Guest lecturers.

Prerequisite(s): third-year standing or equivalent. Lectures and workshops three hours a week.

TSES 4003 [0.5 credit]

Technology and Society: Innovation

Technological and social innovation, especially in Canada: historical examples; the relation of innovation to economic development; analysis of the steps involved; effect on employment; impediments and incentives. Guest lecturers. Prerequisite(s): third-year standing or equivalent. Lectures and seminars three hours a week.

TSES 4005 [0.5 credit]

Information Technology and Society

Investigation of the human and social impacts of electronic information and communication on our working, educational, and personal lives from various disciplinary perspectives; problem issues and competing values in the creation, manipulation, dissemination, and control of information are identified; resolution initiatives encouraged. Guest lecturers.

Prerequisite(s): third-year standing or equivalent. Lectures and seminars three hours a week.

TSES 4006 [0.5 credit]

Technology and Society: Work

Explores the relationship between technology, employment and the individual; work organizations; employment restructuring; rural/urban split; the impact of information technologies; demographic impacts and globalization; Canadian issues and public policy explored. Guest lecturers.

Prerequisite(s): third-year standing or equivalent. Lectures and workshops three hours a week.

TSES 4007 [0.5 credit]

Product Life Cycle Analysis

Life cycle analysis of products and processes, from resource extraction through design and use to waste management or recycling; social and environmental implications of product design and use; how we value material objects and the environment; consumerism; evolution of design. Guest lectures.

Prerequisite(s): third-year standing or equivalent. Lectures and workshops three hours a week.

TSES 4008 [0.5 credit]

Environmentally Harmonious Lifestyles

Brief history of humans as part of the ecosystem; religious and ethical views; current degree of disturbance of the ecosystem by industrial society; innovations in products and services furthering the sustainability of the ecosystem, with emphasis on the Canadian context. Guest lecturers and a major group project.

Prerequisite(s): third-year standing or equivalent and permission of the Chair of TSE.

Lectures and seminars three hours a week.

TSES 4009 [0.5 credit]

Special Topics

Reading course for students who wish to investigate a particular topic relevant to TSES.

Prerequisite(s): third-year standing or equivalent and permission of the Chair of TSE.

TSES 4010 [0.5 credit]

Special Topics

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): third-year standing or equivalent. Lectures three hours a week.

TSES 4011 [0.5 credit]

Technology and Society: Development

Created in collaboration with Engineers Without Borders Carleton, the course explores appropriate ways of meeting technological needs of communities. Uses Canadian and African case studies to examine how capacity building has a greater impact than simple delivery of technological goods.

Prerequisite(s): third-year standing or equivalent. Lectures three hours a week.

TSES 4012 [0.5 credit]

Science and Fiction: Creating Tomorrow

Scenarios are used to speculate about the planned future. Science fiction and speculative fiction project ideas about imagined futures. Using readings from scenarios, speculative fiction and science fiction the course explores the mutual shaping of fiction, science and technology. Prerequisite(s): third-year standing or equivalent.

TSES 4014 [0.5 credit] **Technology-Society: Time**

Time is a universal human experience, but it presents some profound mysteries. It governs our behaviour on personal, societal and cultural levels. This course will bring together experts from physics, sociology, philosophy, biology, literature and psychology to illuminate our understanding.

Prerequisite(s): third-year standing or equivalent. Lectures three hours a week.

Summer session: some of the courses listed in this Calendar are offered during the summer. Hours and scheduling for summer session courses will differ significantly from those reported in the fall/winter Calendar. To determine the scheduling and hours for summer session classes, consult the class schedule at central.carleton.ca

Not all courses listed are offered in a given year. For an up-to-date statement of course offerings for the current session and to determine the term of offering, consult the class schedule at central.carleton.ca
