M.A. Political Science

About the Program

The Department of Political Science offers a 5.0 credit MA program. Most students complete this program in two years. The MA in Political Science emphasizes the development of theoretical competence and rigorous analytical skills in the study of politics. The program can be completed through coursework only, or through a combination of coursework and a thesis or major research paper. While there are no formal specializations within the degree program, students may choose courses from a wide variety of fields, including Political Theory, International Relations, Comparative Politics, Canadian Politics, Gender and Politics and Public Policy. All of these fields are well represented by internationally-recognized faculty members who are available for thesis and research essay supervision.

Academic Regulations

See the General Regulations (<http://www.carleton.ca/calendars/2012-13/grad/gradregulations>) section of this Calendar.

All master's candidates must obtain a B standing or better (GPA 8.0). One grade of C+ may be allowed.

Admission Requirements

The normal requirement for admission to the master's program is B.A.(Honours) (or the equivalent) in Political Science, with at least high honours standing.

The Faculty of Graduate Studies and Research requires applicants whose native language is not English to be tested for proficiency in English. Applicants to the Political Science graduate program must submit a CAEL Assessment score of a minimum of 70 or a TOEFL score of a minimum of 237 (computer-based) or 580 (regular).

Honours graduates in fields other than political science will be considered on the basis of their academic background and standing, and will be judged on a case-by-case basis. Those with only minor deficiencies may be required to take certain specified courses, while others whose degrees are less closely related to political science may be required to register in the qualifying year, at the discretion of the Department. Graduates of three-year programs in political science will be required either to complete the fourth year of an honours degree and reapply, or register in the

qualifying year (see above), depending on work completed to date and academic standing.

Program Requirements

Details on all program requirements are provided in the departmental Guidelines for M.A. Candidates.

All master's candidates will fulfill a 5.0-credit program requiring departmental approval. A maximum of 1.0 credit may be taken at the 4000-level. The student may choose to take a maximum of 1.0 credit outside the Department of Political Science.

All candidates, in consultation with the Department, will pursue their degree by following one of three program patterns:

1. 5.0 credits in approved courses
2. Research Essay (1.0 credit) and 4.0 credits in approved courses
3. Thesis (2.0 credits) and 3.0 credits in approved courses

All M.A. students must complete a language requirement prior to graduation. This language will normally be French, except where a degree of proficiency in another language is deemed appropriate in relation to the student's program of studies. The language requirement may be satisfied by passing a Departmental French language test. Departmental language tests are administered twice a year. The language requirement may also be satisfied by passing an approved language course with a grade of B- or better. This course will normally be FINS 2105. Students whose research interests require research skills beyond the basic methods requirement may obtain permission from the Department to substitute this advanced research skill for the language requirement.

It is anticipated that candidates will enter having taken some political theory at the undergraduate level. Those who have not will be required to take PSCI 2300, a 1.0-credit course over and above the normal M.A. program requirements.

It is anticipated that candidates will enter having taken a methods course at the undergraduate level. Those who have not may be required, depending on the course pattern chosen, to take PSCI 5700, a 0.5-credit course which can be included as part of the 5.0-credit requirement. When appropriate and related significantly to the program of study, another methods course, such as PSCI 5304, PSCI 5701 or PSCI 5702 may be substituted for PSCI 5700.

Defences

In the case of the student choosing a thesis, the thesis will be evaluated by three people: the student's thesis supervisor from the Department, a second reader from the Department, and an external third reader who is generally from another Carleton Department but may sometimes come from outside the University. A thesis must be defended orally before the three evaluators. No letter grade is assigned, but notations of Pass with Distinction, Satisfactory, and Unsatisfactory are assigned.

In the case of the student choosing a research essay, that essay will be evaluated by two of the Department's faculty members including the supervisor and a second reader, and a letter grade will be assigned. An oral defence of the essay is not required but may be requested by the supervisor or second reader.

Co-op Option

A co-op option is available to full-time students in the M.A. program. Students admitted to this option must satisfactorily complete two work terms in order to graduate with a co-op designation on their transcripts. These work terms are four months in duration and locate students in government departments or other organizations in order to work at a junior officer level. Students register in PSCI 5913 for each Co-operative Work Term; however the coordination of the work terms is done by the University's Co-op office.

Washington Center Internship Program

The Washington Center Internship Program is open to full time master's students who have completed at least two terms of study at Carleton. Admission is open to students with at least a 9.5 GPA in Political Science graduate courses. Successful completion of the program satisfies the requirements for one term of full-time study (1.5 credits). Students spend one term (fall, winter or summer) in Washington, D.C. They serve four days a week as an intern in Washington, D.C. and also take two seminar courses offered by faculty of The Washington Center. The normal 1.5 credit course load for participants in the program is:

PSCI 5904 [0.5]	Washington Center Internship
PSCI 5905 [0.5]	Washington Center Seminar I
PSCI 5906 [0.5]	Washington Center Seminar II

Full information on the program and application forms can be obtained from the Department of Political Science.

Course Selection

Within the scope of the regulations, the following undergraduate courses (fully described in the Undergraduate Calendar) may be taken by M.A. students.

Please note that not all of these courses are offered every year. Students should consult the timetable published each year in early June.

Political Science

Students are encouraged to look for courses within Carleton in the Departments of Economics, Geography, History, Law, Philosophy, and Sociology and Anthropology; the Schools of Business, Journalism and Communication, Public Administration, and the Norman Paterson School of International Affairs; and in the Institutes of European and Russian Studies, and Political Economy. They are equally strongly encouraged to look for courses in the Departments of Political Science and Philosophy at the University of Ottawa.

All courses selected will be subject to the approval of the Department, on grounds of appropriateness to the

program of study and the avoidance of excessive overlap between courses.

Ph.D. Political Science

About the Program

The Department of Political Science offers a 10.0 credit Ph.D. program. The Ph.D. program offers rigorous, focused study in two fields of Political Science. It includes coursework in two fields, comprehensive examinations in these fields, training in methodology, and the doctoral dissertation. Students choose two of the following fields:

- Political Theory
- International Relations
- Comparative Politics
- Canadian Politics
- Public Policy

All of these fields are well represented by internationally-recognized faculty members who are available for research supervision. The Ph.D. in Political Science emphasizes the development of theoretical competence and rigorous analytical skills in the study of politics. Doctoral students are also eligible to apply for the Collaborative Ph.D. in Political Economy.

Academic Regulations

See the General Regulations (<http://www.carleton.ca/calendars/2012-13/grad/gradregulations>) section of this Calendar.

Admission Requirements

The Ph.D. program in political science normally will be undertaken on a full-time basis. However, in cases of exceptional merit, the Department may accept a few candidates for the degree on a part-time basis.

The normal requirement for admission to the Ph.D. program is a master's degree (or its equivalent) in political science with high honours standing or better.

The Faculty of Graduate Studies and Research requires applicants whose native language is not English to be tested for proficiency in English. Applicants to the Political Science graduate program must submit a CAEL Assessment score of a minimum of 70 or a TOEFL score of a minimum of 237 (computer-based) or 580 (regular).

Applicants should note, however, that meeting the admission requirement does not guarantee admission to the program. Review of the department's competitive selection process indicates that students with a GPA below 10.0 (A-) in the master's program are generally not recommended for admission to the doctoral program. Students applying on the basis of a master's degree from other disciplines will be considered on a case-by-case basis, and may be required to take additional courses as part of the program.

Program Requirements

Details on all program requirements are provided in the departmental Guidelines for Ph.D. Candidates.

The normal program requirements for Ph.D. candidates are outlined in the General Regulations (<http://www.carleton.ca/calendars/2012-13/grad/gradregulations>) section of this Calendar.

It is anticipated that Ph.D. candidates will enter having taken some political theory at the undergraduate level, regardless of their desired field of specialization. Those who have not will be required to take PSCI 2300, in addition to the normal Ph.D. requirements.

If statistical proficiency is needed for the preparation of the thesis, students will also be expected to take a course in research methods which can be included as part of the 10.0-credit requirement (see section titled Research Skill Requirement).

All Ph.D. candidates will fulfill a 10.0-credit program requiring departmental approval. The student may choose to take a maximum of 1.0 credit outside the Department of Political Science.

At least 1.0 credit at the graduate level in each of the candidate's two major fields of study; a GPA of 9.0 or better must be obtained in these courses for students to be allowed to proceed to the comprehensive examinations.

Satisfactory completion of PSCI 6900 (0.5 credit), Ph.D. Field Examination I and PSCI 6905 (0.5 credit), Ph.D. Field Examination II. Field examinations are normally written on two occasions each year, in April and August.

Proficiency in a research skill, as outlined under research skill requirement

At least 1.0 credit will normally be taken during the second year of the program in fields allied to the major topics of the thesis. This credit will normally be fulfilled through regular course work rather than tutorials.

Successful completion of PSCI 6907 and PSCI 6908.

A public defence, in English, of a written thesis proposal

A 5.0-credit thesis, written in English or French, which will be defended publicly in English at an oral examination.

Full-time students are normally required to complete the comprehensive examinations within 12 months of entering the program, and must normally complete the public defence of the thesis proposal, preceded by its formal acceptance by the supervisory committee, within 24 months of entering the doctoral program.

Upon entry to the program, each Ph.D. candidate will be assigned a faculty member to advise them on their studies. Students' programs, including the choice of supervisor and the thesis committee, must be approved by the Department. The thesis supervisor will normally be chosen from among faculty members in the Department of Political Science. Upon approval of the thesis supervisor and the Department, committee members may be chosen from elsewhere within the University.

Research Skill Requirement

Ph.D. candidates must demonstrate the ability to use a research skill appropriate to their program. The research skill requirement will normally be satisfied before the

defence of the thesis proposal, and will take one of the following forms:

- An ability to read and translate French or another language appropriate to their course of study; or the ability to speak a language other than English sufficient to conduct interviews in that language
- An approved political science methods course, workshop, or colloquium, equivalent to 0.5 credit; or any one of the following courses (or an approved alternative):

PSCI 5700 [0.5]	Basic Research Methods
PSCI 5701 [0.5]	Intermediate Polimetrics for Micro Data
PSCI 5702 [0.5]	Intermediate Research Methods for Applied Political Science

Comprehensive Examinations

All Ph.D. candidates must successfully complete a written comprehensive examination in each of their two major fields. Field examinations normally take place once per year, in August. At the discretion of the Department, candidates may be required to take an oral examination following the written examination.

The fields of study for the Ph.D. comprehensive examination are to be chosen from the following list:

Political Theory

- Democracy in the Age of Global Technology
- Politics, Statecraft and the Common Good
- Tradition, Interpretation and Civic Hermeneutics
