

# Academic Performance Evaluation

---

Academic Performance Evaluation for Special students is carried out at the same time as for Degree students. Special students receive their first Academic Performance Evaluation when the student has accumulated 2.0 credits worth of attempts. Subsequent evaluations occur when the student has completed an additional 2.0 credits worth of attempts or more.

Special students who have completed at least 2.0 credits of attempts and at most 3.5 credits at the time of the Academic Performance Evaluation are considered to be in *Good Standing* if their CGPA is at least 3.0. Otherwise they will receive a status of *Academic Warning*.
