Includes: Experiential Learning Activity

Prerequisite(s): STAT 2507 and HLTH 2001, or permission of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 3302 [0.5 credit]**Immunity and Immune-Related Disorders**

Basic processes relevant to the immune system; the relationship between immune activity and functioning as related to the development of particular pathologies, such as virally-related illness, autoimmune disorders, inflammatory illnesses, and interactions with social and economic factors that promote immune-related disturbances.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002 and BIOL 2200 or permission of the department.

Lecture three hours a week, laboratory four hours a week. Labs require regular participation outside of the scheduled lab time.

HLTH 3303 [0.5 credit]**Molecular and Cellular Pathology II**

Advanced concepts in cell signaling and function, cell injury and death, tissue structure and wound healing and repair. This course will integrate genetic, biochemical and physiological mechanisms that contribute to health and disease.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002.

Lecture three hours a week, lab four hours a week.

HLTH 3401 [0.5 credit]**Diseases of Childhood**

Epidemiological, psychological and physiological basis for disease in childhood and adolescence. Topics will be discussed from a global and Canadian perspective and include the medicalization of these diseases.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture three hours a week.

HLTH 3402 [0.5 credit]**Diseases of Aging**

Aging is accompanied by increased illness related to cardiovascular, immune and neurodegenerative processes. This course assesses the fundamental mechanisms that determine these pathological conditions. Molecular mechanisms and psychosocial determinants; intervention and therapeutic strategies.

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of department.

Lecture three hours a week.

HLTH 3403 [0.5 credit]**Gender and Health**

The role of gender on psychosocial and biological mechanisms that alter the course of disease and treatment; health issues unique to women (e.g., reproductive and maternal health); the role of gender across cultures.

Prerequisite(s): HLTH 2002 and HLTH 2003, or permission of the department.

Lecture and seminar three hours a week.

HLTH 3404 [0.5 credit]**Psychosocial and Biological Interactions in Health**

The psychosocial and biological mechanisms that interact to influence health outcomes. Cultural, political, socioeconomic, and psychological factors that can impact the biological mechanisms underlying both mental and physical health; epigenetic and genetic alterations; implications for psychosocial interventions.

Precludes additional credit for HLTH 4402 (no longer offered).

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture and seminar three hours a week.

HLTH 3503 [0.5 credit]**Disability and Chronic Health Conditions**

An interdisciplinary view of disability and chronic health conditions, including risk factors, prevalence, and the trajectory of such conditions. Functional impact based on life stage. Strategies for health promotion, prevention, accommodations, treatment, and rehabilitation.

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture three hours a week.

HLTH 3901 [0.5 credit]**Emerging Issues in Health Sciences I**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses, and for skills development including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3902 [0.5 credit]**Emerging Issues in Health Sciences II**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3903 [0.5 credit]**Emerging Issues in Health Sciences III**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3904 [0.5 credit]**Emerging Issues in Health Sciences IV**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3905 [0.5 credit]**Emerging Issues in Health Sciences V**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 4101 [0.5 credit]**Global Health Governance**

Contemporary issues and debates in global health governance and effects on health monitoring and outcomes at individual and population levels. Historical patterns of global health, its regulatory framework, principal coordinating mechanisms and emerging challenges, and implications of globalization and international trade policies.

Prerequisite(s): HLTH 3101, or permission of the department.

Lecture and seminar three hours per week.

HLTH 4102 [0.5 credit]**New Health Technologies**

Overview of new and emerging health technologies, including medical and assistive devices, diagnostics and screening, genetics, reproduction, tissue regeneration, imaging, and health informatics. Health technology assessment methods and issues. Regulatory, ethical and social implications; considerations in the developing world.

Prerequisite(s): HLTH 1000 or HLTH 1001 and third-year standing or higher, or permission of the department. Also offered at the graduate level, with different requirements, as HLTH 5350, for which additional credit is precluded.

Lecture and seminar three hours a week.

HLTH 4201 [0.5 credit]**Applied Health Statistics**

Statistics concepts and procedures used in the analysis of health data; techniques commonly used to analyze data collected from different types of epidemiological and experimental study designs; how to interpret and present statistical findings.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 3201 and STAT 2507 or permission of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 4202 [0.5 credit]**Health Program Evaluation Tools and Methods**

Introduction to concepts, principles and processes of evaluating health care programs and interventions. Methodological tools including needs assessment, project management skills, use of health information management databases. Issues in communication with stakeholders, including change management and decision making.

Prerequisite(s): HLTH 2001 and STAT 2507 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4301 [0.5 credit]**Pandemics and Infectious Disease**

Factors that influence disease processes, including viruses, bacteria, protozoa, fungi and infectious agents, how these agents come to have the effects that they do in a given individual, how they spread within and how to limit their spread.

Prerequisite(s): HLTH 2004 and HLTH 3302 or permission of the department.

Lecture three hours a week.

HLTH 4302 [0.5 credit]**Inflammatory and Endocrine Factors in Diseases**

Inflammatory and hormonal processes and their relevance to disease states. Immune-related disorders, heart disease and stroke, metabolic syndrome, diabetes, psychiatric conditions, and neurodegenerative disorders. The contribution of psychosocial and genetic factors to diseases.

Prerequisite(s): HLTH 3302 or BIOL 4200 or BIOC 4200 or permission of the department.

Lecture three hours a week.

HLTH 4303 [0.5 credit]**Fundamentals in Pharmacology and Toxicology**

Introduction to pharmacological principles, xenobiotics and their interactions within living systems. Topics include biological mechanisms of action of xenobiotics on macromolecules, cells and their effects on various organ systems. Social, legal and governmental policies will be discussed.

Prerequisite(s): HLTH 3303 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4401 [0.5 credit]**Maternal and Perinatal Determinants of Health**

The integrated genetic, physiologic and environmental events occurring in early life that impact pregnancy, fetal/infant development and disease risk throughout the lifecourse, with a focus on the mechanisms driving these events.

Prerequisite(s): HLTH 2003 and HLTH 3302 or permission of the department.

Lecture three hours a week.

HLTH 4502 [0.5 credit]**Disabilities and Disorders Related to Sensory Nervous System**

Congenital and acquired disabilities related to sensory organs and processes, including visual and hearing impairments, vestibular and balance disorders, reflex problems, and others. Interdisciplinary approach to causes, mechanisms, accessibility, accommodations and interventions.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 3501 (no longer offered).

Prerequisite(s): Either 1) HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306), or 2) NEUR 3206, or 3) permission of the department.

Lecture three hours a week, workshop two hours a week.

HLTH 4503 [0.5 credit]**Trauma-related Disability and Impairments**

Biomedical and psychosocial factors associated with trauma-related illnesses, stressors, injuries and disabilities, including traumatic brain injury, spinal cord injury, fractures, amputations, burns, post-traumatic stress disorder, and others. Short- and long-term considerations for care and rehabilitation.

Precludes additional credit for HLTH 3502 (no longer offered).

Prerequisite(s): HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306) or permission of the department.

Lecture three hours a week.

HLTH 4601 [0.5 credit]**Environmental Pollution and Health**

Introduction to environmental and occupational health; detection, assessment, management and mitigation of chemical, physical and biological hazards.

Prerequisite(s): HLTH 3104 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4701 [0.5 credit]**Knowledge Translation**

The application of knowledge translation in the formulation of policy and the development of skills required to maximize the impact of scientific findings through real world programs and policies and communication skills for diverse audiences.

Prerequisite(s): fourth-year standing and permission of the Department of Health Science and permission of the instructor.

Also offered at the graduate level, with different requirements, as HLTH 5300, for which additional credit is precluded.

Seminar three hours a week.

HLTH 4901 [0.5 credit]**Directed Studies in Health**

Independent study, open to third- and fourth-year students to explore a particular health related topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the B.H.Sc. program, in addition to permission of the Faculty supervisor and the Department of Health Sciences.

HLTH 4906 [1.0 credit]**Capstone course – Research Essay**

Independent critical review and research proposal on a health- related topic, using library, database and/or bioinformatics resources, under the supervision of the course instructor. Seminar topics include identification and critical review of resources, development of scientific writing skills, and formulation of health science-related research.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4907, HLTH 4908 (no longer offered), HLTH 4909, HLTH 4910.

Prerequisite(s): fourth-year standing in the B.H.Sc.

Honours and permission of the Department of Health Sciences.

Lecture/seminar three hours a week.

HLTH 4907 [1.0 credit]**Capstone Course – Group Research Project**

A collaborative project on a health related topic. Students, working together as a team, will complete a research project and develop communication and research skills under the supervision of the faculty supervisor. Evaluation will be based on a written report and oral presentation.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4908 (no longer offered), HLTH 4909, HLTH 4910.

Prerequisite(s): fourth-year standing in the B.H.Sc.

Honours program, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 9.0, and permission of the Faculty supervisor and the Department of Health Sciences.

Seminars three hours a week as scheduled by the course instructor; other hours as arranged with the Faculty Adviser.

HLTH 4909 [1.0 credit]

Capstone Course – Field Placement and Research Project

Field placement providing practical experience in a health-related field. Placements may be in institutional or community settings, governmental or non-governmental organizations. Sites may vary each year. Evaluation based on a written report and an oral presentation.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4907, HLTH 4908 (no longer offered), HLTH 4910.

Prerequisite(s): fourth-year standing in B.H.Sc. Honours, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 9.0 and permission of the Department of Health Sciences.

Schedules may vary depending on the field placement site, but students are required to spend a minimum of eight hours per week on-site and attend required seminars as arranged by the course instructor.

HLTH 4910 [1.0 credit]

Honours Individual Research Thesis

An independent health related research project under the direct supervision of a faculty member. Evaluation will be based on a written thesis and oral poster presentation (oral or poster).

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4907, HLTH 4908, HLTH 4909.

Prerequisite(s): fourth-year standing in B.Sc. Honours Health Sciences, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 10.0, and permission of the Faculty advisor and the Department of Health Sciences. Permission will depend, in part, on capacity, such that meeting the minimum requirements does not guarantee enrollment in this research thesis course.

History

This section presents the requirements for programs in:

- History B.A. Honours
- History B.A. Combined Honours
- History B.A.
- Minor in History
- Specialization in Global and Transnational History B.G.In.S. Honours
- Stream in Global and Transnational History B.G.In.S.

Program Requirements

Course Categories

The following field definitions are used to classify history courses:

1. the world before 1750 (Field a)
2. modern Europe (Field b)
3. North America (Field c)
4. Asia, Africa, the Caribbean, and Latin America (Field d)
5. ideas, culture, and society (Field e)

The field classification of each course is included with the course description. Courses that do not have a history field classification cannot be used to meet the history field requirements of degree programs in History.

History

B.A. Honours (20.0 credits)

The requirements for this program are modified when the Honours Research Project is included.

Normal Pattern

A. Credits Included in the Major CGPA (10.0 credits)	
1. 7.0 credits in history including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying:	7.0
a. 1.0 credit at the 1000-level	
b. 2.0 credits at the 2000-level	
c. 3.0 credits at the 3000-level	
d. 1.0 credit at the 2000- or 3000-level.	
2. 0.5 credit in:	0.5
HIST 2809 [0.5] The Historian's Craft	
3. 0.5 credit in:	0.5
HIST 3810 [0.5] Historical Theory	
4. 2.0 credits in 4000-level history seminars	2.0
B. Credits Not Included in the Major CGPA (10.0 credits)	
5. 8.0 credits in electives not in HIST	8.0
6. 2.0 credits in free electives (may be HIST)	2.0
Total Credits	20.0

Honours Research Project Pattern

A. Credits Included in the Major CGPA (10.0 credits)	
1. 6.0 credits in history including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying:	6.0
a. 1.0 credit at the 1000-level	
b. 2.0 credits at the 2000-level	
c. 2.0 credits at the 3000-level	
d. 1.0 credit at the 2000- or 3000-level	
2. 0.5 credit in:	0.5
HIST 2809 [0.5] The Historian's Craft	
3. 0.5 credit in:	0.5
HIST 3810 [0.5] Historical Theory	
4. 2.0 credits in 4000-level history seminars	2.0
5. 1.0 credits in:	1.0
HIST 4910 [1.0] Honours Research Project	
B. Credits Not Included in the Major CGPA (10.0 credits)	
6. 8.0 credits in electives not in HIST	8.0
7. 2.0 credits in free electives (may be HIST)	2.0
Total Credits	20.0

Notes:

1. One (1.0) of the history seminar credits in Item 4 above may, with departmental approval, be replaced with a credit in a discipline other than history. The replacement credit will count as part of the Major CGPA.

- Students should endeavour to have one course at the 2000-or 3000-level in the area of each fourth-year seminar.
- Students wishing to follow the Honours Research Project Pattern must consult with the Department. The decision to commit to this pattern should be made before the end of the fall term in the preceding academic year.

History

B.A. Combined Honours (20.0 credits)

A. Credits Included in the History Major CGPA (6.0 credits)

1. 4.0 credits in history including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying:	4.0
a. 1.0 credit in HIST at the 1000-level	
b. 2.0 credits in HIST at the 2000-level	
c. 1.0 credit in HIST at the 3000-level	
2. 0.5 credit in:	0.5
HIST 2809 [0.5] The Historian's Craft	
3. 0.5 credit in:	0.5
HIST 3810 [0.5] Historical Theory	
4. 1.0 credit in 4000-level history seminar(s)	1.0
B. Additional Credit Requirements (14.0 credits)	14.0
5. The requirements of the other discipline must be satisfied	
6. Sufficient free elective credits to make 20.0 credits for the degree.	
Total Credits	20.0

History

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 7.0 credits in history including 0.5 credit in each of four of the five history fields below the 4000-level and satisfying:	7.0
a. 1.0 credit in HIST at the 1000-level	
b. 2.5 credits in HIST at the 2000-level	
c. 0.5 credit in HIST 2809	
d. 3.0 credits in HIST at the 3000-level	
B. Credits Not Included in the Major CGPA (8.0 credits)	
2. 6.0 credits not in HIST	7.0
3. 2.0 credit in free electives (may be HIST)	1.0
Total Credits	15.0

Minor in History (4.0 credits)

Open to all undergraduate degree students not in history programs or the B.G.In.S. Specialization or Stream in Global and Transnational History.

Requirements

1. 1.0 credit in HIST at the 1000 level or FYSM 1405	1.0
2. 1.0 credit in HIST at the 2000 level	1.0
3. 1.0 credit in HIST at the 3000 level	1.0
4. 1.0 credit in HIST from any combination of courses at the 2000, 3000, or 4000 level	1.0

5. The remaining requirements of the major discipline(s) and degree must be satisfied

Total Credits 4.0

Bachelor of Global and International Studies (B.G.In.S.)

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Global and Transnational History

B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses	4.5
GINS 1000 [0.5] Global History	
GINS 1010 [0.5] International Law and Politics	
GINS 1020 [0.5] Ethnography, Globalization and Culture	
GINS 2000 [0.5] Ethics and Globalization	
GINS 2010 [0.5] Globalization and International Economic Issues	
GINS 2020 [0.5] Global Literatures	
GINS 3010 [0.5] Global and International Theory	
GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change	
GINS 4090 [0.5] Honours Seminar in Global and International Studies	
2. 0.0 credit in: International Experience Requirement Preparation	
GINS 1300 [0.0] International Experience Requirement Preparation	
3. 7.5 credits in: the Specialization	
a. 1.0 credit in: Foundations	1.0
HIST 1707 [1.0] World History	
b. 1.0 credit from: Regional History	1.0
HIST 2308 [0.5] Colonial Latin America	
HIST 2309 [0.5] Modern Latin America	
HIST 2312 [0.5] History of the Indian Ocean World	
HIST 2506 [0.5] Introduction to Women's and Gender History	
HIST 2706 [0.5] Ancient and Pre-Colonial Africa	
HIST 2707 [0.5] Modern Africa	
HIST 2710 [0.5] Introduction to Caribbean History	
HIST 2802 [0.5] War and Society in Modern Europe, 1789-1914	
HIST 2803 [0.5] War and Society in Modern Europe, 1914-1950	
c. 4.0 credits from: Themes in History	4.0
HIST 2000 [1.0] Medieval Europe	
HIST 2204 [0.5] Early Modern Europe 1350-1650	
HIST 2206 [0.5] Early Modern Europe 1600-1800	
HIST 2809 [0.5] The Historian's Craft	
HIST 3001 [0.5] History at the Movies	
HIST 3106 [0.5] Social History of Sexuality	
HIST 3109 [0.5] Social History of Alcohol	
HIST 3111 [0.5] History of Humanitarian Aid	
HIST 3115 [0.5] Childhood and Youth in History	

HIST 3120 [0.5]	History of the Body	
HIST 3213 [0.5]	The Enlightenment	
HIST 3214 [0.5]	The Enlightenment and Its Aftermath	
HIST 3216 [0.5]	The Scientific Revolution	
HIST 3217 [0.5]	Empire and Globalization	
HIST 3310 [0.5]	Animals in History	
HIST 3304 [0.5]	Canada-United States Relations	
HIST 3306 [0.5]	Canada's International Policies	
HIST 3500 [0.5]	Canadian Immigration 1760-1875	
HIST 3510 [0.5]	Indigenous Peoples of Canada	
HIST 3511 [0.5]	Themes in Indigenous History	
HIST 3704 [0.5]	Aztecs	
HIST 3710 [0.5]	Themes in Caribbean History	
HIST 3714 [0.5]	Holocaust Encounters	
HIST 3715 [0.5]	Themes in South Asian History	
HIST 3717 [0.5]	Gender and Sexuality in Africa	
HIST 3800 [0.5]	International History 1914-41	
HIST 3801 [0.5]	International History 1941-90	
HIST 3809 [0.5]	Historical Representations	
HIST 3810 [0.5]	Historical Theory	
HIST 3811 [0.5]	History of Historical Thought	
HIST 3905 [0.5]	Topics in International History	
HIST 3906 [0.5]	Topics in World History	
HIST 3907 [0.5]	Transnational Topic	
HIST 3908 [0.5]	Thematic Topic	
d. 0.5 credit in: Advanced Core		0.5
HIST 3813 [0.5]	Problems in Global and Transnational Histories	
e. 1.0 credit from: Honours Seminars		1.0
HIST 4700 [1.0]	Seminar in World History	
HIST 4802 [1.0]	Seminar in International History	
HIST 4805 [1.0]	Seminar on a Transnational or Thematic Topic	
B. Credits Not Included in the Major CGPA (8.0 credits)		
4. 8.0 credits in free electives		8.0
C. Additional Requirements		
5. The International Experience requirement must be met.		
6. The Language requirement must be met.		
Total Credits		20.0

Stream in Global and Transnational History B.G.In.S. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)		
1. 4.0 credits in: Core Courses		4.0
GINS 1000 [0.5]	Global History	
GINS 1010 [0.5]	International Law and Politics

Modern Thought and Culture: the Twentieth Century

A broad examination of Western thought and culture in the 20th century with a focus on Europe and emphasis on major thinkers and intellectual, ideological, and cultural movements. The course is intended for students from varied disciplinary backgrounds. (Field e).

Precludes additional credit for HIST 2101 and HIST 3100 (no longer offered).

Lectures/groups three hours a week.

HIST 2204 [0.5 credit]

Early Modern Europe 1350-1650

A survey of the major social, political and cultural developments in continental Europe from the 14th to the 17th centuries. (Field a).

Precludes additional credit for HIST 2203 (no longer offered).

Lectures/groups three hours a week.

HIST 2206 [0.5 credit]

Early Modern Europe 1600-1800

A survey of the major social, political and cultural developments in continental Europe during the 17th and 18th centuries. (Field a).

Precludes additional credit for HIST 2203 (no longer offered).

Lectures/groups three hours a week.

HIST 2207 [1.0 credit]

Nineteenth-Century Europe

A study of critical episodes in the history of continental Europe during the nineteenth century. Themes may include the struggles for democracy in France, modernizing reform in Russia, and national unification in Italy and Germany. (Field b).

Lectures/groups three hours a week.

HIST 2301 [0.5 credit]**Canadian Political History**

An historical survey of political experiences in Canada. (Field c).

Precludes additional credit for HIST 2303 (no longer offered).

Lectures/groups three hours a week.

HIST 2304 [1.0 credit]**Social and Cultural History of Canada**

A thematic exploration of how the spaces of home, work, and play have been historically produced, understood, and experienced in Canada. (Field c).

Lectures/groups three hours a week.

HIST 2308 [0.5 credit]**Colonial Latin America**

From ancient civilizations to the era of Independence, this class follows conquest, colonization and development of national identity in the countries of Latin America. (Field d). Precludes additional credit for HIST 2307 (no longer offered).

Lectures/groups three hours a week.

HIST 2309 [0.5 credit]**Modern Latin America**

From the Wars of Independence until the end of the twentieth century, this class follows the emergence of Latin American nations, their economies, politics, culture and international relations. (Field d).

Precludes additional credit for HIST 2307 (no longer offered).

Lectures/groups three hours a week.

HIST 2311 [0.5 credit]**Environmental History of Canada**

A survey of Canadian history considering nature, landscape and geography. Topics include the history of energy regimes and climate change; Indigenous ecological knowledge; colonization and settlement; resource extraction; commodity production; environmental policies and movements. (Field c or e).

Precludes additional credit for HIST 2310 (no longer offered).

Lectures/groups three hours a week.

HIST 2312 [0.5 credit]**History of the Indian Ocean World**

The Indian Ocean is one of the oldest maritime highways in the history of humanity and also an epicentre of global economy in the pre-modern world. The aim of the course is to familiarize students with the non-Western antecedents of modern global history. (Field d).

Precludes additional credit for HIST 3716 (no longer offered).

Lectures/groups three hours a week.

HIST 2401 [0.5 credit]**History of the United States to 1865**

A survey of United States politics and society from the American Revolution to the Civil War. (Field c).

Precludes additional credit for HIST 2400 (no longer offered).

Lectures/groups three hours a week.

HIST 2402 [0.5 credit]**History of the United States from 1865**

A survey of United States politics and society from Reconstruction to the era of globalization. (Field c).

Precludes additional credit for HIST 2400 (no longer offered).

Lectures/groups three hours a week.

HIST 2501 [0.5 credit]**Early Modern Britain**

A survey of significant political and social developments in Britain from the 15th to the 18th century. (Field a).

Precludes additional credit for HIST 2500 [1.0], no longer offered.

Lectures/groups three hours a week.

HIST 2502 [0.5 credit]**Modern Britain**

A survey of significant political and social developments in Britain from the 18th to the late 20th century. (Field b).

Precludes additional credit for HIST 2500 [1.0], no longer offered.

Lectures/groups three hours a week.

Lectures and workshops on historical methods and materials. Topics will include the discovery, evaluation, use and analysis of documents in historical context, non-documentary evidence, statistics, and bibliographical tools. Includes: Experiential Learning Activity

Precludes additional credit for HIST 2808 [1.0 credit], no longer offered.

Prerequisite(s): open only to History majors with at least second-year standing.

Lectures/groups three hours a week.

HIST 2811 [0.5 credit]**Public History from Memory to Museums**

Historical representation in the public arena and public engagement with the past, including archives, museums, films, novels, and video games. This course will involve online work, collaborative projects, and field trips. (Field e). Includes: Experiential Learning Activity

Lectures three hours a week or online.

HIST 2812 [0.5 credit]**Special Subject in Public History**

A lecture course on a special topic, theme, or period in public history. Topic varies from year to year. (Field e).

Lectures three hours a week.

HIST 2902 [0.5 credit]**History of Ancient Greece I**

The history of ancient Greece from the Bronze Age through the Archaic period. (Field a).

Also listed as CLCV 2902.

Precludes additional credit for CLCV 2900, HIST 2900 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2903 [0.5 credit]**History of Ancient Greece II**

The history of ancient Greece from the classical period to Alexander. (Field a).

Also listed as CLCV 2903.

Precludes additional credit for CLCV 2900, HIST 2900 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2904 [0.5 credit]**History of Ancient Rome I**

The history of ancient Rome from early Rome to the end of the Republic (Field a).

Also listed as CLCV 2904.

Precludes additional credit for CLCV 2901 and HIST 2901 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2905 [0.5 credit]**History of Ancient Rome II**

The history of ancient Rome from the end of the Republic to the coming of Islam. (Field a).

Also listed as CLCV 2905.

Precludes additional credit for CLCV 2901, HIST 2901 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

HIST 2910 [0.5 credit]**Special Subject in History**

A lecture course on a special topic, theme, or period. Topic varies from year to year. (Field will depend on topic).

Lectures/groups three hours a week.

HIST 2911 [1.0 credit]**History of Science**

The history of science from Antiquity to the atomic age. (Field a, b, or e).

Precludes additional credit for HIST 3201 (no longer offered).

Lectures/groups three hours a week.

HIST 3000 [0.5 credit]**Topics in Ancient History**

A study of a selected topic in ancient history. (Field a).

Also listed as CLCV 3000.

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

History of insanity from the eighteenth to the twentieth century. Themes include changing public and medical understandings of madness, patients' experiences and artistic portrayals of mental hospital life, cultural representations of madness in various media, and the history of the asylum. (Field e).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Online course.

HIST 3604 [0.5 credit]**Gender and Sexuality in Modern Europe**

Exploration of gender, sexuality, and women's history in Modern Europe. (Field b or e).

Precludes additional credit for HIST 3603 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3704 [0.5 credit]**Aztecs**

An examination of the Aztec social system, culture, religion, and philosophy both before and after the Spanish conquest. (Field a or d).

Prerequisite(s): A 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3708 [0.5 credit]**Reformation Europe**

A history of the Protestant and Catholic Reformations of the sixteenth century, with special emphasis on the theological disputes of the protagonists and the impact of these disputes on the social, political and cultural developments of the era. (Field a).

Also listed as RELI 3220.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3710 [0.5 credit]**Themes in Caribbean History**

Key themes in the making of the Caribbean. Topics may include slavery and emancipation, Indian and Chinese migration, colonialism, the independence movement, and race relations. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3712 [0.5 credit]**Social History of Mexico**

The ways that indigenous peoples such as the Aztecs and the Maya mixed with Spaniards and African slaves to create a society and a culture that is particular to Mexico. Thematic emphasis on certain periods of Mexican history. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3713 [0.5 credit]**Gender and Sexuality in Latin America**

An exploration of gender and sexualities in Latin America from the pre-conquest period to the end of the twentieth century. (Field d or e).

Precludes additional credit for HIST 3705 and HIST 3707 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3714 [0.5 credit]**Holocaust Encounters**

An examination of the experiences of different Jewish communities before, during, and after the Holocaust. Issues to be discussed include antisemitism, relations with non-Jewish neighbors, perpetrator motivation, local collaboration, resistance, postwar trials, and memory. (Field b).

Also listed as RELI 3140.

Prerequisite(s): a 2000-level History course or third-year standing and 1.0 credit in History.

Lectures three hours a week.

HIST 3715 [0.5 credit]**Themes in South Asian History**

Key themes in South Asian history. Topics may include the Mughal empire, the British colonial era, the creation and development of states in India, Pakistan, Bangladesh, and Sri Lanka, and various 20th century historical phenomenon. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3717 [0.5 credit]**Gender and Sexuality in Africa**

An exploration of gender and sexualities in Africa from the beginning of colonial rule until the beginning of the 21st century. (Field d or e).

Precludes additional credit for HIST 3711 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3718 [0.5 credit]**Germans and Jews**

An examination of Jewish society, culture and religious practice in modern and contemporary Germany. Issues to be explored include emancipation, acculturation, secularization, religious adjustment, anti-Semitism, the Holocaust, emigration, and the role of migration in transforming the contemporary community. (Field b).

Also listed as RELI 3141.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3719 [0.5 credit]**South African War, 1899-1902**

Examines causes, major events and consequences of the war. Themes include: the war as part of the Scramble for Africa, emergence of settler nationalism, British "scorched earth policy", establishment of concentration camps, importance of gender, African involvement, international responses, and long-term effects. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3800 [0.5 credit]**International History 1914-41**

A survey of international history from the First World War to the outbreak of the Second World War, focusing on peacemaking, inter-war diplomacy, anti-imperialism, global capitalism, migration, labour, and the origins of the Second World War. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3801 [0.5 credit]**International History 1941-90**

A survey of international history from the Second World War to the end of the Cold War that examines the conflict over the reconstruction of the postwar world, including decolonization, emergence of the European Union, and other dimensions of global order and disorder. (Field b). Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3805 [0.5 credit]**Twentieth-Century China**

A political history of China from the 1911 Revolution to the present. Emphasis on the development of Chinese communism and the People's Republic since 1949. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3806 [0.5 credit]**Japan Since 1945**

A political, intellectual and economic history of Japan in the twentieth century, concentrating on the period since the end of the Pacific War. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3807 [0.5 credit]**Practicum in History**

An historical research project in a museum or public institution in the Ottawa area conducted under the supervision of the external institution and the History Department. Work includes reading, reports, and meetings. Students should be prepared to devote one day a week to the project.

Includes: Experiential Learning Activity

Prerequisite(s): General or Honours history student with third- or fourth- year standing and a CGPA of 9.00 or better in history courses, and permission of the Department.

HIST 3809 [0.5 credit]**Historical Representations**

An examination of how historical narratives have been produced in relation to sites of public memory. The public presentation of history through a wide range of themes, which may include museum exhibits, commemorations and popular culture. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3810 [0.5 credit]**Historical Theory**

An examination of a wide range of theoretical approaches to history, and a critical reflection on history as a discipline. Precludes additional credit for HIST 3808 [1.0], no longer offered.

Prerequisite(s): third-year standing in an Honours History program. It is strongly recommended that HIST 3810 be taken prior to enrolment in 4000-level history seminars.

Lectures two hours a week and one hour discussion group.

HIST 3811 [0.5 credit]**History of Historical Thought**

An examination of questions concerning the nature and value of historical inquiry and the meaning of the course of history. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3812 [0.5 credit]**Digital History**

The digital representation of history, exploring the approaches, issues, and methods of working in this environment. Topics may include gaming, virtual environments, digital research tools, public digital history. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3812.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3813 [0.5 credit]**Problems in Global and Transnational Histories**

Historical encounters across geographical regions and ways in which historians studied them. Categories of "national," "international," "transnational," "world," and "global" history will be evaluated. Themes include: imperialism, postcolonialism, the environment, migration, trade, religion, the body, war, culture, disease. (Field d or e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history including at least 0.5 credit in Field d courses (Asia, Africa, the Caribbean, and Latin America).

Lectures three hours a week.

HIST 3814 [0.5 credit]**Crafting Digital History**

This course applies the creative use of information and media/computing technologies to address the digital cultural heritage issues of public historians, archaeologists, and anthropologists. Topics may include webscraping, data mining, designing and implementing research databases, and visual storytelling of those results. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3814.

Precludes additional credit for HIST 3907 Section "B" offered in winter 2015 and HIST 3907 Section "O" offered in winter 2016.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

HIST 3815 [0.5 credit]**Group Practicum**

A class-based group historical research project done in collaboration with an external institution under the supervision of the institution and the Department. Work includes readings, reports, and meetings. Students should be prepared to devote one full day per week to the project. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in a History program and permission of the Department.

HIST 3902 [0.5 credit]**Topics in European History**

A lecture course on a special topic in European history. Topic varies from year to year. (Field will depend on topic.).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3903 [0.5 credit]**Topics in Canadian History**

A lecture course on a special topic in Canadian history. Topic varies from year to year. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3904 [0.5 credit]**Topics in U.S. History**

A lecture course on a special topic in United States history. Topic varies from year to year. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3905 [0.5 credit]**Topics in International History**

A lecture course on a special topic in international political or economic history. Topic varies from year to year. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3906 [0.5 credit]**Topics in World History**

A lecture course on a special topic in African, Asian, Caribbean, or Latin American history. Topic varies from year to year. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3907 [0.5 credit]**Transnational Topic**

A lecture course on a special topic that takes a transnational approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3908 [0.5 credit]**Thematic Topic**

A lecture course on a special topic that takes a thematic approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3909 [0.5 credit]**Topic in Public History**

A lecture course on a special topic, theme, or period in public history. Topic varies from year to year. (Field e).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

HIST 4006 [1.0 credit]**Seminar in Medieval History**

An examination of a selected problem in the history of medieval Europe.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4007 [0.5 credit]**Medieval History**

Selected topic in Medieval History. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4100 [1.0 credit]**Seminar in Early Modern European History**

A study of a selected problem in the history of Europe during the early modern period.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4101 [0.5 credit]**Early Modern European History**

Selected topic in the history of Europe during the early modern period. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4200 [1.0 credit]**Seminar in European History**

Examination of a selected problem or period in the history of Continental Europe.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4201 [0.5 credit]**Modern European History**

Selected topic in the history of Europe. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4210 [0.5 credit]**Topics in Ancient History**

Intended for Honours students in History and Classics who should normally be in their third- or fourth-year.

Also listed as CLCV 4210.

Precludes additional credit for CLCV 4209, HIST 4209 (no longer offered).

Prerequisite(s): CLCV 2902 (HIST 2902) and CLCV 2903 (HIST 2903) or CLCV 2904 (HIST 2904) and CLCV 2905 (HIST 2905) or CLCV 3201 (HIST 3009) or CLCV 3202 (HIST 3101) or permission of the Department.
Seminar three hours a week.

HIST 4302 [1.0 credit]**Canada: Ideas & Culture**

A seminar on ideas, culture, and society in Canada.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4303 [0.5 credit]**Society and Culture in Canada**

A 0.5 credit seminar course that examines a selected topic on ideas, culture, and society in Canada. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.
Seminar three hours a week.

HIST 4304 [1.0 credit]**Canada: Politics & Society**

A seminar on politics and society in Canada.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4305 [0.5 credit]**Political History in Canada**

A 0.5 credit seminar course that examines a selected topic on politics and society in Canada. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.
Seminar three hours a week.

HIST 4400 [1.0 credit]**Seminar in U.S. History**

An examination of a selected problem or period in the history of the United States.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4401 [0.5 credit]**United States History**

A 0.5 credit seminar course that examines a selected topic in the history of the United States. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.
Seminar three hours a week.

HIST 4500 [1.0 credit]**Seminar in British History**

An explanation of a selected problem or period in the history of Great Britain.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4505 [1.0 credit]**Seminar in Women's and Gender History**

A seminar on the history of women and gender. The particular approach, themes, and historical period will be specified each year.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.
Seminar three hours a week.

HIST 4506 [0.5 credit]**Gender, Sexuality and Women's History**

A 0.5 credit seminar course that examines a selected topic on the history of women and gender. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4600 [1.0 credit]**Seminar in Russian History**

An examination of a selected problem or period in the history of Imperial or post-Imperial Russia.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4604 [0.5 credit]**Central Europe, Past and Present**

Evolution and current status of Central Europe from periods of foreign control in the late nineteenth and twentieth centuries to independent statehood. Particular emphasis will be placed on national accommodations and conflicts.

Also listed as EURR 4204.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4605 [0.5 credit]**The Balkans in Transition – 1918 to 1989**

The seminar uses the concept of transition to understand the Balkan encounter with modernity and Europe. Key periods to be examined include the interwar era and the period of communist rule, with an emphasis on political, social and economic themes.

Also listed as EURR 4101.

Prerequisite(s): fourth-year standing and one of PSCI 3704, PSCI 3208, PSCI 3209, HIST 2600; or permission of the Department.

Seminar three hours a week.

HIST 4606 [0.5 credit]**Contemporary Europe: From Postwar to the European Union**

History of contemporary Europe from 1945 to present covering both eastern and western halves of the continent and including social, cultural, political, and economic dimensions.

Includes: Experiential Learning Activity

Also listed as EURR 4303.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminars three hours a week.

HIST 4607 [0.5 credit]**Imperial Russia and the Russian Revolution**

Examination of the expansion and downfall of tsarist Russia from the eighteenth century to the revolutionary era and the establishment of Bolshevik rule. Topics include the relationship between the monarchy and subject peoples, social and economic change, and daily life.

Includes: Experiential Learning Activity

Also listed as EURR 4305.

Also offered at the graduate level, with different requirements, as HIST 5607, for which additional credit is precluded.

Seminar three hours a week.

HIST 4608 [0.5 credit]**The Soviet Union**

Examination of the rise of the Soviet Union to a global power and subsequent tensions that promoted its collapse. The course will analyze Stalinism, the Second World War, the Thaw, and Brezhnev and Gorbachev eras through the lens of the USSR's citizens.

Includes: Experiential Learning Activity

Also listed as EURR 4306.

Also offered at the graduate level, with different requirements, as HIST 5608, for which additional credit is precluded.

Seminar three hours a week.

HIST 4700 [1.0 credit]**Seminar in World History**

An examination of a selected problem or period in the history of Asia, Africa, the Caribbean or Latin America.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4701 [0.5 credit]**African History**

A 0.5 credit seminar course that examines a selected topic in the history of Africa. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4702 [0.5 credit]**South Asian History**

A 0.5 credit seminar course that examines a selected topic in the history of South Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4703 [0.5 credit]**The Global South**

A 0.5 credit seminar course that examines a selected topic in the history of the Global South. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4704 [0.5 credit]**Caribbean and Latin American History**

A 0.5 credit seminar course that examines a selected topic in Caribbean and Latin American history. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4705 [0.5 credit]**Asian History**

A 0.5 credit seminar course that examines a selected topic in the history of Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4802 [1.0 credit]**Seminar in International History**

An examination of a selected problem or period in the history of international relations.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4805 [1.0 credit]**Seminar on a Transnational or Thematic Topic**

A seminar on a transnational or thematic topic. The particular topic will be specified each year.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4806 [0.5 credit]**Global and Transnational History**

Selected topic in global and transnational history. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4910 [1.0 credit]**Honours Research Project**

The project will be a substantial piece of original research conducted under the supervision of a faculty member in History. The medium of presentation will be agreed upon between student and supervisor, and may include a research paper, a documentary film, or a web-based project.

Includes: Experiential Learning Activity

Precludes additional credit for HIST 4908, HIST 4909 (no longer offered).

Prerequisite(s): fourth-year standing in History Honours program, a minimum GPA of 9.0 (B+) in the History major, and permission of the department, or in exceptional circumstances with permission of the department only.

HIST 4915 [0.5 credit]**Topics in History**

Intended for Honours students in History. Topics will vary from year to year.

Prerequisite(s): fourth-year standing in Honours History or permission of the Department. It is strongly recommended that HIST 3810 be taken prior to enrolment in 4000-level history seminars.

Seminar three hours a week.

HIST 4916 [0.5 credit]**Topic in Public History**

Topics will vary from year to year. (Field e).

Prerequisite(s): HIST 2811 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4920 [1.0 credit]**Seminar in Public History**

Topics will vary from year to year. (Field e).

Prerequisite(s): HIST 2811 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HUMR 2202 [0.5] Power Relations and Human Rights	
4. 2.5 credits, comprised of 0.5 credit from each of the five Thematic Groups (see list under Course Categories)	2.5
5. 1.0 credit at the 4000-level from Thematic Groups and/or Human Rights Electives (see lists under Course Categories)	1.0
6. 1.5 credits from Thematic Groups and/or Human Rights Electives (see lists under Course Categories)	1.5
B. Additional Credit Requirements (13.0 credits)	13.0
7. The requirements for the other discipline must be satisfied	
8. Sufficient free electives to make 20.0 credits total for the program	
Total Credits	20.0

Human Rights and Social Justice B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)	
1. 1.0 credit from:	1.0
HUMR 1001 [1.0] Introduction to Human Rights	
FYSM 1104 [1.0] Human Rights: Issues and Investigations	
FYSM 1502 [1.0] Selected Topics in Legal Studies (specifically the section on Global Governance and Human Rights)	
or an approved First-Year Seminar	
2. 0.5 credit in:	0.5
HUMR 2001 [0.5] Human Rights: Theories and Foundations	
3. 0.5 credit in:	0.5
HUMR 2202 [0.5] Power Relations and Human Rights	
4. 0.5 credit from:	0.5
LAWS 2105 [0.5] Social Justice and Human Rights	
PHIL 2103 [0.5] Philosophy of Human Rights	
PSCI 3307 [0.5] Politics of Human Rights	
5. 2.5 credits, comprised of 0.5 credit from each of the five Thematic Groups (see list under Course Categories)	2.5
6. 1.0 credit at the 3000- or 4000-level from Thematic Groups and/or Human Rights Electives (see lists under Course Categories)	1.0
7. 1.0 credit from Thematic groups and/or Human Rights Electives (see lists under Course Categories)	1.0
B. Credits Not Included in the Major CGPA (8.0 credits)	
8. 8.0 credits in free electives.	8.0
Total Credits	15.0

Minor in Human Rights and Social Justice (4.0 credits)

Open to all undergraduate students not in Human Rights and Social Justice B.A. programs.	
Requirements:	
1. 1.0 credit from:	1.0
HUMR 1001 [1.0] Introduction to Human Rights	
FYSM 1104 [1.0] Human Rights: Issues and Investigations	
2. 1.0 credit in:	1.0
HUMR 2001 [0.5] Human Rights: Theories and Foundations	
HUMR 2202 [0.5] Power Relations and Human Rights	

3. 1.0 credit at the 2000-level or higher in Human Rights (HUMR) courses	1.0
4. 1.0 credit at the 3000-level or higher in Human Rights (HUMR) courses	1.0
Total Credits	4.0

Course Categories by Thematic Group

Some of the Human Rights Electives have prerequisites that are not explicitly included in the program. Students should plan to have credit for the prerequisites of each course in their program or ask to have the prerequisite waived.

		Human Rights (HUMR) Courses	
		HUMR 1001 [1.0 credit]	
		Introduction to Human Rights	
			Human rights from an interdisciplinary perspective. Topics may include the foundations and nature of rights, roots of inequality and oppression, aboriginal rights, racism, women and rights, sexual orientation, state and corporate power, economic exploitation, the environment and rights, warfare, torture, and social movements. Prerequisites: second-year standing.
			Lecture and discussion groups three hours a week.
		HUMR 2001 [0.5 credit]	
		Human Rights: Theories and Foundations	
			Historical overview of the theoretical and philosophical approaches underlying the human rights movement and relevant to the normative ideals and aspirations of human rights and to the strategies of their implementation. Prerequisite(s): second-year standing.
			Lectures and discussion groups three hours a week.

HUMR 2102 [0.5 credit]**Sexuality, Gender, and Security**

Historical and contemporary analysis of surveillance, security, and regulation of sexuality, race, class, and gender. Students will critically examine how 'subversives' were created through discourse and administrative logics such as policy and law.

Includes: Experiential Learning Activity

Also listed as SXST 2102.

Prerequisite(s): second year standing or permission from the Institute.

Lectures and discussions three hours a week.

HUMR 2202 [0.5 credit]**Power Relations and Human Rights**

The study of power from a critical, transnational perspective; the impact on human rights of different forms and modalities of power, including those emanating from the state and corporations and those implicated in socio-economic and other hierarchical relations.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2301 [0.5 credit]**Human Rights and Sexualities**

Human rights issues in various cultural contexts concerning sex and/or gender, with attention to sexual minorities such as gay, lesbian, and transgendered persons. Forms of discrimination against sexual minorities and the mechanisms and strategies for redress.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2401 [0.5 credit]**Political Repression: Impacts and Responses**

Canada is home-in-exile to many who have faced severe and often life-threatening political repression such as imprisonment, torture, surveillance, population transfer, etc. This course examines the impacts on survivors of political repression, and strategies used to overcome its legacies.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2402 [0.5 credit]**Agents of Political Violence**

The processes used in preparing individuals to commit torture, murder and other forms of violence on behalf of a state or associated organizations, and how such violence is justified by its direct perpetrators, their commanders (police/military and political), and members of their society.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2502 [0.5 credit]**Social and Political Movements**

The underlying conditions and developments of historical and contemporary social and political movements; specific social movements such as civil rights or gay rights.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 3001 [0.5 credit]**Special Topics in Human Rights**

This advanced seminar will cover current and topical issues and/or debates in human rights, and will enable students to engage in focused discussions and analyses of these issues. Topics will vary from year to year.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3002 [0.5 credit]**Right to the City**

"The right to the city" as an emerging focus of advocacy and analysis in urban movements for social justice around especially the local and transnational dimensions of the "right to the city" movement.

Precludes additional credit for HUMR 3001 if taken prior to 2013-14.

Prerequisite(s): third year standing.

Lectures three hours a week.

HUMR 3202 [0.5 credit]**Human Rights and Resistance**

This course problematizes human rights paradigms and critically examines the limitations of the political within liberal democracies. Bringing together theory and politics, alternative approaches to activism are explored. Topics may include struggles grounded in radical democracy, anti-capitalism, and social justice perspectives.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3301 [0.5 credit]**Racialization, Racism and Human Rights**

The forms and effects of systemic race-based human rights abuses. Topics may include immigration and refugee policies and practices, anti-apartheid regimes, racial profiling, the racial politics of "nationhood" and armed conflict, civil rights and resistance movements in differing cultural contexts.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3302 [0.5 credit]**Culture, Religion, and Women's Human Rights**

The impact of cultural and religious traditions on women's human rights. Topics may include the impact of gender roles on the status of women, cultural relativism, and strategies used to advance women's human rights such as NGOs engagements with CEDAW.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3303 [0.5 credit]**Children's Rights**

This course examines children's rights from a range of historical, cultural, and global perspectives. Topics may include the rights for Indigenous children, children with disabilities, female, trans and queer children, children in armed conflict and refugees in Canada and transnational contexts.

Also listed as CHST 3303.

Precludes additional credit for CHST 3901 (no longer offered).

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3304 [0.5 credit]**Disability Rights**

A critical approach to the study of disability rights that explores the intersections of disability with race, sexuality, gender, colonialism, 'health', and other discourses.

Precludes additional credit for HUMR 4303 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week.

HUMR 3401 [0.5 credit]**Histories of Persecution and Genocide**

Case studies in persecution and/or genocide in different cultural contexts. The social, political, and legal conditions that have enabled the institutional or state-sanctioned persecution of targeted groups, and the circumstances that had an impact on their decline.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3501 [0.5 credit]**Social, Economic and Cultural Rights**

The development of social, economic and cultural rights, including rights to housing, healthcare, education and employment. Topics may include the international geopolitics of the historical tension between these rights and civil and political rights.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3502 [0.5 credit]**Corporations and Human Rights**

Corporate involvement in human rights violations, with attention to how corporations encourage, participate in, and benefit from political repression and warfare. How the relationship between corporate and state interests affects the implementation of measures for corporate accountability.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3503 [0.5 credit]**Global Environmental Justice**

Overview of critical debates on environmental issues from a global social justice perspective. Topics may include corporate mining, food sovereignty, poverty, economic exploitation, Indigenous cosmologies and environmental justice, militarization and environmental degradation, privatization of water and climate change.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3504 [0.5 credit]**Public Health and Human Rights**

Through a social-scientific analysis of AIDS, this course explores HIV/AIDS as a case study for understanding the politics of public health. Students will critically interrogate the authority of science and explore avenues for democratizing biomedicine and public health policy in various national and policy contexts.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 3001 Section "A" if taken in 2013-14 and 2014-15.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 4201 [0.5 credit]**Citizenship and Human Rights**

The relationship between citizenship and human rights; how large groups of people, including non-citizens and refugees, are excluded from entitlements to rights. Why human rights rest on citizenship, and with what implications.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4302 [0.5 credit]**Transgender Human Rights**

Critical analyses of human rights through an examination of transgender subjectivities. The systemic erasure of trans people within society and the struggles of some activists to normalize trans identities.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4305 [0.5 credit]**Disability and Social Justice**

An intersectional national/transnational approach to social justice issues such as poverty/exploitation, labour, representation, decolonization, race/racism, sexuality and gender from a critical disability studies perspective.

Prerequisite(s): fourth-year standing in Human Rights or Disability Studies.

Seminar three hours a week.

HUMR 4401 [0.5 credit]**Gender, Citizenship and Social Justice in a Transnational World**

This seminar critically engages with transnational, gendered, classed, and racialized discursive practices of citizenship, human rights, the geopolitics of knowledge and processes of dehumanization through the lenses of decolonial social justice.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4402 [0.5 credit]**Terror and Human Rights**

The human rights implications of terror, terrorism and/or the "war on terror." Topics may include the use of terrorism as a justification for the use of military force, and the impact of racial profiling, arrest warrants, security certificates; detentions; and deportations.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4404 [0.5 credit]**Rights of Refugees and Displaced Persons**

Contemporary issues concerning the rights of refugees and displaced persons, from social, political, and legal perspectives; Canadian and international dimensions of these issues.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4502 [0.5 credit]**Global Indigenous Knowledges and Movements**

Indigenous Peoples contributions to world knowledge through community resistance, social movements and scholarship. How processes of corporate globalization impact Indigenous Peoples lives as an ongoing process of normalizing a reconfigured modern coloniality of power.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4905 [0.5 credit]**Practicum Placement in Human Rights I**

This course provides students with the opportunity to spend one day per week (6-8 hours) working and learning at a human rights-related government, research or advocacy organization. A written report is required at the end of the placement. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Human Rights or permission of the Institute.

HUMR 4906 [0.5 credit]**Practicum Placement in Human Rights II**

This course provides students with the opportunity to spend one day per week (6-8 hours) working and learning at a human rights-related government, research or advocacy organization. A written report is required at the end of the placement. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Human Rights and a GPA of 9.8 or higher or permission of the Institute.

HUMR 4907 [0.5 credit]**Special Topic in Human Rights**

This course features a detailed study of a special topic in any area of Human Rights. Topics and themes will vary from year to year.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4908 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with an instructor.

Includes: Experiential Learning Activity

Prerequisite(s): normally restricted to students with at least 3.0 credits of Human Rights courses with at least a CGPA of 9.0 or better in Human Rights courses and permission of the Institute.

Humanities

This section presents the requirements for programs in:

- Humanities B.Hum. Honours
- Humanities B.Hum. Combined Honours
- Biology and Humanities B.Hum. Combined Honours

The B.Hum. Honours is available with a Study Year Abroad option. Consult the B.Hum. Honours program requirements for more information.

Program Requirements**Language Requirement**

Language courses are normally selected from the following list and chosen in consultation with the College's Academic Advisor. It may be necessary to fulfill a prerequisite before taking these courses.

- GREK 2200 and GREK 2201
- LATN 2200 and LATN 2201
- FREN 1100 [1.0] or FREN 2100 [1.0]
- GERM 2010 and GERM 2020, or GERM 2110 [1.0]
- ITAL 2010 and ITAL 2020, or ITAL 2110 [1.0]
- RELI 2010
- RUSS 2010 and RUSS 2020
- SPAN 2010 and SPAN 2020, or SPAN 2110 [1.0]

Humanities**B.Hum. Honours (20.0 credits)**

1. 4.0 credits in Humanities Core:	4.0

PSCI 2301 [0.5]	History of Political Thought I	
PSCI 2302 [0.5]	History of Political Thought II	
7. 5.0 credits in:		5.0
a. 1.0 credit at the 2000 level or above		
b. 1.0 credit from:		
HUMS 4901 [0.5]	Research Seminar: Antiquity to the Middle Ages	
HUMS 4902 [0.5]	Research Seminar: Renaissance to Enlightenment	
HUMS 4903 [0.5]	Research Seminar: Romanticism to the Present	
HUMS 4904 [0.5]	Research Seminar: Non-Western Traditions	
c. 1.0 credit from:		
ENGL 3305 [0.5]	Shakespeare and the Stage	
ENGL 3306 [0.5]	Shakespeare and Film	
HIST 2204 [0.5]	Early Modern Europe 1350-1650	
HIST 2206 [0.5]	Early Modern Europe 1600-1800	
HUMS 3500 [0.5]	Ancient and Medieval Intellectual History	
HUMS 3550 [0.5]	Renaissance and Early Modern Intellectual History	
PHIL 3002 [0.5]	17th Century Philosophy	
PHIL 3003 [0.5]	18th Century Philosophy	
d. 2.0 credits in electives		
or (for Study Year Abroad)		
a. 5.0 pre-approved credits to be taken at an accredited international institution. Acceptable courses that cannot be equivalenced in a specific discipline will be equivalenced as HUMS courses.		
8. 2.0 credits in free electives.		2.0
Total Credits		20.0

Note: for **Item 3** above, students who transfer into the B. Hum. may use up to 2.0 credits of any previously completed art and/or music courses (with the exception of advanced placement courses); students who study abroad may use up to 2.0 credits of art and/or music courses taken abroad; students enrolled in a Combined Honours in Humanities and Art History or Humanities and Music may substitute up to 1.0 credit of music or art from their combined discipline for the respective requirement or part thereof.

Humanities

B.Hum. Combined Honours (20.0 credits)

Students already admitted to the B.Hum. may register for a Combined Honours degree in Humanities and any other discipline offered within the B.A. Honours degree as a Combined Honours. . They may also register for a Combined Honours with any other degree program at Carleton that allows the combination. Credits used to satisfy Items 1 through 7 below may also be used to satisfy up to 2.0 credits of the requirements of the other discipline under Item 8. A core seminar in Humanities used to fulfill the requirements of the other discipline will satisfy the 1.5 advanced credit requirement of that discipline. In this case the requirement that advanced credits be 3000-level or above is waived.

Requirements

1. 4.0 credits in Humanities Core:		4.0
HUMS 1000 [1.0]	Myth and Symbol	
HUMS 2000 [1.0]	Reason and Revelation	
HUMS 3000 [1.0]	Culture and Imagination	
HUMS 4000 [1.0]	Politics, Modernity and the Common Good	
2. 3.0 credits in:		3.0
HUMS 1005 [0.5]	Early Human Cultures	
HUMS 1200 [0.5]	Humanities and Classical Civilisation	
HUMS 3200 [1.0]	European Literature	
HUMS 4103 [0.5]	Science in the Modern World	
HUMS 4500 [0.5]	Modern Intellectual History	
3. 2.0 credits in:		2.0
HUMS 2101 [0.5]	Art from Antiquity to the Medieval World	
HUMS 2102 [0.5]	Modern European Art 1527-2000	
HUMS 3102 [0.5]	Western Music 1000-1850	
HUMS 3103 [0.5]	Western Music 1850-2000	
(See Note, below)		
4. 2.0 credits in:		2.0
RELI 1731 [0.5]	Varieties of Religious Experience	
RELI 2710 [1.0]	Maccabees to Muhammad	
CLCV 2008/ENGL 2012	Greek and Roman Epic	
or		
CLCV 2010/ENGL 2016	Greek and Roman Drama	
5. 1.0 credit fulfilling the language requirement		1.0
6. 0.5 credit at the 2000 level or above		0.5
7. 0.5 credit from:		0.5
HUMS 4901 [0.5]	Research Seminar: Antiquity to the Middle Ages	

HUMS 4902 [0.5]	Research Seminar: Renaissance to Enlightenment	
HUMS 4903 [0.5]	Research Seminar: Romanticism to the Present	
HUMS 4904 [0.5]	Research Seminar: Non-Western Traditions	
8. 7.0 credits in	electives that include the requirements for the other discipline of the combined degree or the minor.	7.0
Total Credits		20.0

Note: For Item 3 above, students who transfer into the B. Hum. may use up to 2.0 credits of any previously completed art and/or music courses (with the exception of advanced placement courses); students who study abroad may use up to 2.0 credits of art and/or music courses taken abroad; students enrolled in a Combined Honours in Humanities and Art History or Humanities and Music may substitute up to 1.0 credit of music or art from their combined discipline for the respective requirement or part thereof.

Biology and Humanities

B.Hum. Combined Honours (20.0 credits)

A. Credits Included in the Humanities CGPA:

1. 4.0 credits in	Humanities Core:	4.0
HUMS 1000 [1.0]	Myth and Symbol	
HUMS 2000 [1.0]	Reason and Revelation	
HUMS 3000 [1.0]	Culture and Imagination	
HUMS 4000 [1.0]	Politics, Modernity and the Common Good	
2. 1.5 credits in:		1.5
HUMS 1200 [0.5]	Humanities and Classical Civilisation	
HUMS 3200 [1.0]	European Literature	
3. 1.0 credit in:		1.0
HUMS 1005 [0.5]	Early Human Cultures	
RELI 1731 [0.5]	Varieties of Religious Experience or 1.0 credit in an approved Beginner's-level language.	
4. 2.0 credits in:		2.0
HUMS 2101 [0.5]	Art from Antiquity to the Medieval World	
HUMS 2102 [0.5]	Modern European Art 1527-2000	
HUMS 3102 [0.5]	Western Music 1000-1850	
HUMS 3103 [0.5]	Western Music 1850-2000 (See Note, below)	
5. 1.5 credits in:		1.5
RELI 2710 [1.0]	Maccabees to Muhammad	
CLCV 2008/ENGL 2	Greek and Roman Epic or	
CLCV 2010/ENGL 2	Greek and Roman Drama	
6. 0.5 credit from:		0.5
HUMS 4901 [0.5]	Research Seminar: Antiquity to the Middle Ages	
HUMS 4902 [0.5]	Research Seminar: Renaissance to Enlightenment	
HUMS 4903 [0.5]	Research Seminar: Romanticism to the Present	
HUMS 4904 [0.5]	Research Seminar: Non-Western Traditions	

7. 1.0 credit fulfilling the language requirement		1.0
8. 0.5 credit at	the 2000-level or above.	0.5
B. Credits Included in the Biology CGPA:		
9. 3.0 credits in:		3.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2001 [0.5]	Animals: Form and Function or BIOL 2002 [0.5]	
	Plants: Form and Function	
BIOL 2104 [0.5]	Introductory Genetics	
BIOL 2200 [0.5]	Cellular Biochemistry or BIOL 2201 [0.5]	
	Cell Biology and Biochemistry	
BIOL 2303 [0.5]	Microbiology or BIOL 2600 [0.5]	
	Ecology	
10. 2.0 credits from:		2.0
CHEM 1001 [0.5]	General Chemistry I & CHEM 1002 [0.5]	
	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I & CHEM 1006 [0.5]	
	Elementary Chemistry II	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	
CHEM 2207 [0.5]	Introduction to Organic Chemistry I & CHEM 2208 [0.5]	
	Introduction to Organic Chemistry II	
11. 3.0 credits in	BIOL or BIOC at the 3000 level or above.	3.0
Total Credits		20.0

Note:

- For Item 4 above, students who transfer into the B. Hum. may use up to 2.0 credits of any previously completed art and/or music courses (with the exception of advanced placement courses); students who study abroad may use up to 2.0 credits of art and/or music courses taken abroad; students enrolled in a Combined Honours in Humanities and Art History or Humanities and Music may substitute up to 1.0 credit of music or art from their combined discipline for the respective requirement or part thereof.
- For Items 3 and 7 above, students who must take a beginner's-level prerequisite to their Intermediate Language Requirement should do so in place of RELI 1731 & HUMS 1005. Students who are already able to demonstrate a proficiency in a second-language at an intermediate level may have the requirement waived, and in that case may be required to take an additional elective credit at the 2000-level or above in order to bring their total number of credits up to the required 20.0.
- For items 9 and 10, students taking CHEM 1005 and CHEM 1006 will be required to obtain a grade of B- or higher in CHEM 1006 to take BIOL 2200, and more advanced courses in BIOC and CHEM and advanced laboratory courses in BIOL for which BIOL 2200 is a prerequisite.

B.Hum. with Minor

Students already admitted to the B.Hum may add a minor to their program in any other discipline in the University which offers a minor. Students registered in the Humanities - B.Hum. Honours who add a minor follow the requirements listed under items 6 to 8 of Humanities

- B.Hum. Combined Honours instead of the requirements listed under items 6 to 8 of the Humanities - B.Hum. Honours degree.

Humanities (HUMS) Courses

HUMS 1000 [1.0 credit]

Myth and Symbol

Recurring symbols in myth, epic and ritual representing the relation between the sacred and the profane, the origin of the cosmos, the basis of community, and formative human experiences. Primary sources drawn from ancient India and China, Mesopotamia, the Hebrew Bible, and Indigenous cultures.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 1005 [0.5 credit]

Early Human Cultures

Cultural experiences of small scale societies, including kinship, rituals, magic, social structure, and subsistence. Reading may include the works of classic anthropologists such as Maine, Tylor, Morgan, and Boas.

Precludes additional credit for ANTH 1001 and ANTH 1003.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 1200 [0.5 credit]

Humanities and Classical Civilisation

The ideas which animated ancient Greek and Roman civilisation and which influenced later western cultural movements through a reading of literary, historical, and philosophical works. Authors include Homer, Herodotus, Thucydides, the Greek Tragedians, Plato, Vergil, and Cicero.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 1500 [0.5 credit]

Introduction to the Humanities: Five Books that Changed the World

A reading-intensive course on five influential books from Antiquity to the present day. Works may include the Bible, the Bhagavad Gita, Homer's Odyssey, Plato's Republic, Dante's Inferno, Machiavelli's The Prince, Shakespeare's Hamlet, Mary Shelley's Frankenstein, Nietzsche's Beyond Good and Evil, Marx's Communist Manifesto.

Prerequisite(s): enrolment in a degree program in the Faculty of Arts and Social Sciences, or the Faculty of Public Affairs. Students enrolled in the BHum. program are not eligible to register in this course.

Lecture three hours per week.

HUMS 2000 [1.0 credit]

Reason and Revelation

The origins of philosophy in ancient Greece and its pursuit in the medieval West, with special attention to knowledge, happiness, and love. Readings include works by Plato, Aristotle, Plotinus, Augustine, Boethius, Aquinas, and Dante.

Prerequisite(s): HUMS 1000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 2101 [0.5 credit]

Art from Antiquity to the Medieval World

A chronological and thematic survey of the Arts from the earliest times to ca. 1400.

Precludes additional credit for HUMS 4101 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 2102 [0.5 credit]

Modern European Art 1527-2000

A chronological and thematic survey of the Arts from the sixteenth to the twenty-first century.

Precludes additional credit for HUMS 4101 (no longer offered) and HUMS 3101 (no longer offered).

Prerequisite(s): HUMS 2101 and restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3000 [1.0 credit]

Culture and Imagination

Major forms of literary, artistic, and philosophical expression from 1500-1800. Sources drawn from renaissance humanism, reformation theology, enlightenment and romantic philosophy.

Prerequisite(s): HUMS 2000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 3102 [0.5 credit]

Western Music 1000-1850

Introduction to basic theory, harmony, history and interpretation of Western music including the Medieval, Renaissance, Baroque, Classical and early Romantic periods.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3103 [0.5 credit]**Western Music 1850-2000**

Western music from the mid-nineteenth century to the present with emphasis on the seminal contributions of Liszt, Wagner, Mahler, Debussy, Stravinsky, Schönberg and others.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): HUMS 3102 and restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 3200 [1.0 credit]**European Literature**

Major movements and works from Dante's Divine Comedy through Voltaire's *Candide*. Themes include the New Humanism vs. old Chivalry in the Renaissance and Baroque periods; the rise of the modern novel and drama; reason, nature, and the Enlightenment project.

Also listed as ENGL 3201.

Prerequisite(s): HUMS 2000 and third-year standing in the Bachelor of Humanities program. English students should have third-year standing with a GPA of B or above.

Lectures three hours a week.

HUMS 3500 [0.5 credit]**Ancient and Medieval Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from Archaic Greece to the High Middle Ages.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 3550 [0.5 credit]**Renaissance and Early Modern Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from the Early Renaissance to 1800.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 4000 [1.0 credit]**Politics, Modernity and the Common Good**

Modern and post-modern ways of thinking and doing, including revolutionary new ideas in politics, philosophy, culture, economics, and international relations. Thinkers considered include Arendt, Foucault, Hegel, Heidegger, Hobbes, Kant, Marx, Nietzsche, Polanyi, Rousseau, Said, and Taylor.

Includes: Experiential Learning Activity

Prerequisite(s): HUMS3000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 4001 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

HUMS 4002 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program and Good Standing in the program.

HUMS 4103 [0.5 credit]**Science in the Modern World**

An introduction to the major scientific ideas of our time (such as Big Bang theory, molecular genetics, evolution, atomic structure), and the impact of technology on society (e.g. global warming, pollution, genetically modified foods, viral infections).

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4100 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4500 [0.5 credit]**Modern Intellectual History**

Examination of some of the major ideas and ideologies from 1800 to the present, including romanticism, liberalism, nationalism, symbolism, socialism, Freudianism, communism, feminism, and postmodernism.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4104.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4901 [0.5 credit]**Research Seminar: Antiquity to the Middle Ages**

An interdisciplinary seminar on a selected topic in the humanities from Antiquity to the Middle Ages. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4902 [0.5 credit]

Research Seminar: Renaissance to Enlightenment

An interdisciplinary seminar on a selected topic in the humanities from the Renaissance to the Enlightenment. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4903 [0.5 credit]

Research Seminar: Romanticism to the Present

An interdisciplinary seminar on a selected topic in the humanities from Romanticism to the present. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4904 [0.5 credit]

Research Seminar: Non-Western Traditions

An interdisciplinary seminar on a selected topic in the humanities as expressed in aboriginal and Non-Western cultures. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

Indigenous Studies

This section presents the requirements for programs in:

- Indigenous Studies B.A. Combined Honours
- Minor in Indigenous Studies

Program Requirements

Indigenous Studies

B.A. Combined Honours (20.0 Credits)

A. Credits Included in the Indigenous Studies Major (7.0 credits)

1. 1.0 credit in:		1.0
INDG 1010 [0.5]	Introduction to Indigenous Peoplehood Studies	
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters	
2. 1.5 credits in:		1.5
INDG 2011 [0.5]	Contemporary Indigenous Studies	
INDG 2015 [0.5]	Indigenous Ecological Ways of Knowing	
INDG 2020 [0.5]	Decolonizing Gender, Sex, and Sexuality	
3. 1.0 credit in:		1.0
INDG 3001 [0.5]	Indigenous Governance	
INDG 3015 [0.5]	Indigenous Ecological Ways of Knowing and the Academy	
4. 1.0 credit in:		1.0
INDG 4001 [0.5]	Indigeneity in the City	
INDG 4011 [0.5]	Indigenous Representations	
5. 1.5 credits from the list of Approved INDG electives		1.5

6. 1.0 credit at the 4000-level from the list of Approved INDG electives 1.0

B. Additional Requirements (13.0 credits) 13.0

7. The requirements for Combined Honours in the other discipline must be satisfied

8. Sufficient free electives to achieve a total of 20.0 credits for the program

Total Credits 20.0

Indigenous Studies Electives

The following courses are deemed by the School of Indigenous and Canadian Studies to have significant Indigenous content, and can be included where appropriate as part of a minor in Indigenous Studies. Carleton courses not on this list may be applied as approved Indigenous Studies electives, but they must be approved by the Undergraduate Supervisor. Students taking courses at the University of Ottawa should consult with the Undergraduate Supervisor to gain approval for substituting them as approved Indigenous Studies electives.

African Studies

AFRI 1001 [0.5]	Introduction to African Studies I
AFRI 1002 [0.5]	Introduction to African Studies II
AFRI 3001 [0.5]	Globalization and Popular Culture in Africa
AFRI 3100 [0.5]	African Studies Abroad: Selected Topics
AFRI 4000 [0.5]	Advanced Topics in African Studies
AFRI 4050 [0.5]	Selected Topics in African Studies

Anthropology

ANTH 2610 [0.5]	Studies in Indigenous Peoples of North America: Current Issues in Anthropological Research
ANTH 2620 [0.5]	Ethnography of Sub-Saharan Africa
ANTH 2630 [0.5]	Studies in Asian Societies: Current Issues in Anthropological Research
ANTH 2640 [0.5]	Andean Ethnography
ANTH 2650 [0.5]	Ethnography of Mesoamerica
ANTH 2660 [0.5]	Ethnography of North Africa
ANTH 2670 [0.5]	Ethnography of Brazil
ANTH 3570 [0.5]	Studies in Art, Culture and Society
ANTH 3600 [0.5]	Studies in Anthropology and Indigenous Peoples
ANTH 4610 [0.5]	Advanced Studies in Indigenous Peoples
ANTH 4620 [0.5]	Advanced Studies in Contemporary Sub-Saharan Africa: Current Issues in Anthropological Research
ANTH 4730 [0.5]	Colonialism and Post-Colonialism

Art History

ARTH 2005 [0.5]	Arts of the First Peoples: The Woodlands, the Plains and the Subarctic
ARTH 2006 [0.5]	Arts of the First Peoples: The Southwest, the West Coast and the Arctic
ARTH 2008 [0.5]	Inuit Art
ARTH 4005 [0.5]	Topics in Contemporary Indigenous Art

Canadian Studies

CDNS 4800 [1.0]	Internship Practicum
CDNS 4801 [0.5]	Internship/Practicum
CDNS 4802 [0.5]	Internship/Practicum
CDNS 4901 [0.5]	Selected Topics in Canadian Studies
CDNS 4902 [0.5]	Selected Topics in Canadian Studies
CDNS 4903 [0.5]	Études dirigées I
CDNS 4904 [0.5]	Études dirigées II
CDNS 4905 [0.5]	Directed Studies I
CDNS 4906 [0.5]	Directed Studies II
CDNS 4907 [1.0]	Directed Studies III

(Provided they have Indigenous content)

Child Studies

CHST 3002 [0.5]	Special Topics in Child Studies
-----------------	---------------------------------

English

ENGL 2926 [0.5]	African Literatures I
ENGL 2927 [0.5]	African Literatures II
ENGL 2936 [0.5]	South Asian Literatures I
ENGL 2937 [0.5]	South Asian Literatures II
ENGL 2956 [0.5]	Literatures of the Americas I
ENGL 2957 [0.5]	Literatures of the Americas II
ENGL 3960 [0.5]	Studies in Indigenous Literature
ENGL 3965 [0.5]	Intro to Postcolonial Theory
ENGL 3972 [0.5]	Studies in Postcolonial Literature
ENGL 4960 [0.5]	Indigenous Literatures I
ENGL 4961 [0.5]	Indigenous Literatures II
ENGL 4975 [0.5]	Issues in Postcolonial Theory
ENGL 4976 [0.5]	Issues in Postcolonial Literature

First Year Seminar

FYSM 1900 [1.0]	Selected Topics In the Study of Academic Discourses (specifically the section on Aboriginal Topics)
-----------------	---

Geography

GEOG 3209 [0.5]	Sustainability and Environment in the South
GEOG 3501 [0.5]	Geographies of the Canadian North

History

HIST 2308 [0.5]	Colonial Latin America
HIST 2309 [0.5]	Modern Latin America
HIST 2311 [0.5]	Environmental History of Canada
HIST 2706 [0.5]	Ancient and Pre-Colonial Africa
HIST 2707 [0.5]	Modern Africa
HIST 2710 [0.5]	Introduction to Caribbean History
HIST 3505 [0.5]	Women in Canada
HIST 3510 [0.5]	Indigenous Peoples of Canada

HIST 3712 [0.5]	Social History of Mexico
HIST 3713 [0.5]	Gender and Sexuality in Latin America
HIST 3715 [0.5]	Themes in South Asian History
HIST 3717 [0.5]	Gender and Sexuality in Africa

Human Rights

HUMR 3503 [0.5]	Global Environmental Justice
-----------------	------------------------------

HUMR 4502 [0.5]	Global Indigenous Knowledges and Movements
-----------------	--

Latin and Caribbean Studies

LACS 1001 [0.5]	Introduction to Latin American and Caribbean Studies I
LACS 1002 [0.5]	Introduction to Latin American and Caribbean Studies II
LACS 4001 [0.5]	Issues in Latin American and Caribbean Studies

Law

LAWS 2201 [0.5]	Persons and Property
LAWS 2202 [0.5]	Obligations
LAWS 2501 [0.5]	Law, State and Constitution
LAWS 2502 [0.5]	Law, State and Citizen
LAWS 3504 [0.5]	Law and Aboriginal Peoples
LAWS 4504 [0.5]	Indigenous Criminal Justice

Linguistics and Language Studies

LANG 1010 [0.5]	Introduction to a Language I
LANG 1020 [0.5]	Introduction to a Language II

(When the language offered is an Indigenous language of Canada)

Music

MUSI 3106 [0.5]	Popular Musics of the World
MUSI 4104 [0.5]	First Peoples Music in Canada
MUSI 4105 [0.5]	Issues and Processes in African Music

Political Science

PSCI 3101 [0.5]	Politics of War in Africa
PSCI 3105 [0.5]	Imperialism
PSCI 3203 [0.5]	Government and Politics in the Middle East
PSCI 3204 [0.5]	Politics of Latin America
PSCI 3205 [0.5]	Mexican Politics
PSCI 3700 [0.5]	Government and Politics of South Asia
PSCI 4109 [0.5]	The Politics of the Canadian Charter of Rights and Freedoms
PSCI 4203 [0.5]	Southern Africa After Apartheid
PSCI 4206 [0.5]	Indigenous Politics of North America
PSCI 4207 [0.5]	Globalization, Adjustment and Democracy in Africa

Sexuality Studies

SXST 2101 [0.5]	Sexuality Studies: A Critical Introduction
SXST 3104 [0.5]	Transnational Sexualities

Social Work

SOWK 4102 [0.5]	Indigenous Peoples and Social Policy
-----------------	--------------------------------------

South Asian Studies

SAST 1001 [0.5]	Introduction to South Asian Studies I
SAST 1002 [0.5]	Introduction to South Asian Studies II

Women's and Gender Studies

WGST 2800 [0.5]	Intersectional Identities
WGST 3803 [0.5]	Feminisms and Transnationalism
WGST 3807 [0.5]	Gendered Violence

Minor in Indigenous Studies (4.0 credits)

The Minor in Indigenous Studies is open to all undergraduate degree students.

Requirements:

1. 1.0 credit in:		1.0
INDG 1010 [0.5]	Introduction to Indigenous Peoplehood Studies	
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters	
2. 1.0 credit from:		1.0
INDG 2011 [0.5]	Contemporary Indigenous Studies	
INDG 2012 [0.5]	Anishinaabe Studies	
INDG 2013 [0.5]	Haudenosaunee Studies	
INDG 2015 [0.5]	Indigenous Ecological Ways of Knowing	
INDG 2020 [0.5]	Decolonizing Gender, Sex, and Sexuality	
3. 1.0 credit from:		1.0
INDG 3001 [0.5]	Indigenous Governance	
INDG 3011 [0.5]	Indigenous Rights, Resistance, and Resurgence	
INDG 3015 [0.5]	Indigenous Ecological Ways of Knowing and the Academy	
INDG 3901 [0.5]	Selected Topics in Indigenous Studies	
INDG 4001 [0.5]	Indigeneity in the City	
INDG 4011 [0.5]	Indigenous Representations	
INDG 4015 [0.5]	Land as a Relation	
INDG 4020 [0.5]	Practicum	
INDG 4905 [0.5]	Directed Studies I	
4. 1.0 credit from	the list of approved Indigenous Studies Electives	1.0
5.	The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits		4.0

Indigenous Studies (INDG) Courses

INDG 1000 [1.0 credit]

Introduction to Indigenous Studies

Survey of historical and contemporary issues relating to Indigenous peoples in Canada. Cultural traditions and the social interactions between Indigenous and non-Indigenous societies are approached from an interdisciplinary perspective.

Online only.

INDG 1010 [0.5 credit]

Introduction to Indigenous Peoplehood Studies

This course begins by looking at Creation Stories of different Indigenous peoples and builds to discuss Indigenous worldviews, ways of living, ecological relationships, inter-Indigenous relations and diplomacy among Indigenous peoples. Course materials are rooted in self-situated and collective understandings of Indigenous peoples.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 1011 [0.5 credit]

Introduction to Indigenous-Settler Encounters

An interdisciplinary examination of the history of relations between different Indigenous peoples and settler populations from first meetings to the mid-20th century. Topics vary by year, but may include diplomatic relations, trade, spirituality and religion, military alliances, policy, education.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 2011 [0.5 credit]

Contemporary Indigenous Studies

Indigenous and non-Indigenous perspectives on issues since the 1960s. Topics include: contemporary explorations of treaty relationship and governance, cultural appropriation, identity politics, urban Aboriginality and contemporary social and cultural issues.

Precludes additional credit for CDNS 2100 and CDNS 2011.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

INDG 2012 [0.5 credit]

Anishinaabe Studies

In-depth look at the Anishinaabe peoples. Topics may include: Anishinaabe creation stories, migration, the clan system, worldviews; oral, written, and recorded history; treaties, contemporary events, ecological knowing, cultural production, relations with settler-colonies and other nations, self-governance, diplomatic relations.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups three hours a week.

INDG 2013 [0.5 credit]

Haudenosaunee Studies

Focuses on the Haudenosaunee from the founding of the Confederacy to present. Discussion of the culture, language, and structure of Haudenosaunee society, the Kaienerekowa (Great Law of Peace) and the Code of Handsome Lake, symbolism, and contemporary issues, including the impact of Euro-Canadian government policies.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2015 [0.5 credit]

Indigenous Ecological Ways of Knowing

Indigenous peoples' relationships with the non-human world in both historical and contemporary contexts. Topics may include: the origins of Indigenous ecological ways of knowing, Indigenous languages, collective stewardship, water, land, and challenges to maintaining traditional knowledge.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2020 [0.5 credit]**Decolonizing Gender, Sex, and Sexuality**

Effects of colonization in unbalancing Indigenous peoples' lives through the imposition of constructions of gender, sex, and sexuality, and the ways that Indigenous peoples are working to restore balance to their families and communities. Topics vary by year.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2709 [0.5 credit]**Indigenous Drama**

A study of dramatic literatures and theatre practice from Indigenous theatre makers, including playwrights, directors and other practitioners.

Also listed as ENGL 2709.

Prerequisite(s): second-year standing or permission of the School.

Lecture three hours per week

INDG 3001 [0.5 credit]**Indigenous Governance**

An examination and discussion of different Indigenous forms of governance. Topics will vary by year and may include: Indigenous ways of knowing and forms of governance, community leadership, diplomatic relations, and struggles for self-determination.

Prerequisite(s): third-year standing in Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3011 [0.5 credit]**Indigenous Rights, Resistance, and Resurgence**

Indigenous approaches to restoring balance within their nations. Topics include: direct action; political organizing; land claims; rights, courts, and legal action; everyday acts of resistance and resurgence such as petitioning, social media, arts-based movements, and community initiatives.

Includes: Experiential Learning Activity

Precludes additional credit for INDG 3010.

Prerequisite(s): third-year standing in Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3015 [0.5 credit]**Indigenous Ecological Ways of Knowing and the Academy**

The relationship between Indigenous traditional ecological knowledges and the academy. Topics include: linguistic barriers, tensions in diffuse ways of knowing, research ethics with respect to Indigenous traditional knowledge, and working with knowledge holders.

Prerequisite(s): third-year standing in Indigenous and Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3901 [0.5 credit]**Selected Topics in Indigenous Studies**

Topics vary from year to year.

Prerequisite(s): third- or fourth-year standing, or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4001 [0.5 credit]**Indigeneity in the City**

This course begins with an examination of the relationship between Indigenous peoples and the construction of cities and urban space. Culminates in the undertaking of research projects that directly link students to the urban Indigenous community in Ottawa.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4011 [0.5 credit]**Indigenous Representations**

Through an examination of instances of Indigenous misrepresentation, students will explore how Indigenous peoples have used cultural production in various forms (such as literature, film, television, visual arts, music, performance) to put forth their own visions of their peoples, worldviews, and lives.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

INDG 4015 [0.5 credit]**Land as a Relation**

This is an intensive 14-day field course that brings students together with knowledge holders on the land. The connections between Indigenous ways of knowing, the land, Indigenous languages, and the land's non-human inhabitants, will be explored. Locations and course fee varies by year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Fourteen-day field course.

INDG 4020 [0.5 credit]**Practicum**

Students will learn to apply their knowledge of topics in Indigenous Studies with a local organization whose mandate involves working with and/or for Indigenous peoples. To be arranged in consultation with the Program Coordinator.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

INDG 4901 [0.5 credit]**Selected Topics in Indigenous Studies**

Topics vary from year to year.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4905 [0.5 credit]**Directed Studies I**

An optional course normally restricted to fourth-year Honours students in Canadian Studies or Indigenous Studies and to Qualifying-year Graduate students.

Includes supervised reading and written work in an Indigenous Studies area.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Industrial Design

This section presents the requirements for programs in:

- Industrial Design B.I.D.
- Minor in Design

Program Requirements**Industrial Design****B.I.D. (20.0 credits)****First Year****1. 5.0 credits in:** 5.0

IDES 1000 [0.5] Theory and History of Design

IDES 1001 [0.5] Industrial Design Analysis

IDES 1300 [0.5] Projects IA

IDES 1301 [0.5] Projects IB

ECON 1000 [1.0] Introduction to Economics

MATH 1107 [0.5] Linear Algebra I

PSYC 1001 [0.5] Introduction to Psychology I

PSYC 1002 [0.5] Introduction to Psychology II

PHYS 1007 [0.5] Elementary University Physics I

Second Year**2. 4.0 credits in:** 4.0

IDES 2101 [0.5] Design for Manufacturing A

IDES 2102 [0.5] Design for Manufacturing B

IDES 2105 [0.5] Computer Applications

IDES 2205 [0.5] Sensory Aspects of Design for User Experience

IDES 2300 [0.5] Projects IIA

IDES 2302 [0.5] Projects IIB

IDES 2600 [0.5] Human Factors/Ergonomics in Design

PSYC 3702 [0.5] Perception

3. 1.0 credit in free electives 1.0**Third Year****4. 2.0 credits in:** 2.0

IDES 3310 [0.5] Projects IIIA

IDES 3302 [0.5] Projects IIIB

IDES 3502 [0.5] Contextual Nature of Products

IDES 3601 [0.5] Research for Design

5. 0.5 credit in: 0.5

BUSI 2204 [0.5] Basic Marketing

6. 1.0 credit in free electives at the 2000-level or above 1.0

7. 1.5 credits from: 1.5

IDES 3107 [0.5] Design and Sustainability

IDES 3104 [0.5] Exhibition Design

IDES 3105 [0.5] Visual Communication and Package Design

IDES 3106 [0.5] Advanced Computer Applications

IDES 3202 [0.5] Advanced. Studies in Form and Colour

IDES 3305 [0.5] Special Studies

IDES 3306 [0.5] Special Studies

Fourth Year**8. 3.5 credits in:** 3.5

IDES 4001 [0.5] Industrial Design Seminar

IDES 4002 [0.5] Professional Practice

IDES 4301 [0.5] Minor Projects

IDES 4310 [1.5] Capstone Project

IDES 4400 [0.5] Internship Field Report

9. 1.5 credits in free electives at the 3000-level or above 1.5

Total Credits 20.0

Notes:

1. Fourth-year students are required to register in IDES 4301 and IDES 4310 in the same academic year.
2. One successfully completed Industrial Design Co-op work term between the third and fourth year of study or completion of IDES 4305 is equivalent to IDES 4400.
3. The electives chosen should serve to deepen the student's understanding of fields related to Industrial Design or disciplines that are relevant for industrial designers.

Minor in Design (4.0 credits)

This minor is open to all undergraduate degree students not in the Industrial Design program.

Only students pursuing undergraduate programs requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits toward their degrees with a minimum overall CGPA of 7.00 may be admitted to the Minor in Design.

1. 1.5 credits in: 1.5

IDES 1000 [0.5] Theory and History of Design

IDES 1001 [0.5] Industrial Design Analysis

IDES 2205 [0.5] Sensory Aspects of Design for User Experience

2. 2.5 credits from: 2.5

IDES 2600 [0.5] Human Factors/Ergonomics in Design

IDES 3104 [0.5] Exhibition Design

IDES 3105 [0.5] Visual Communication and Package Design

IDES 3107 [0.5] Design and Sustainability

IDES 3305 [0.5] Special Studies

IDES 3306 [0.5] Special Studies

IDES 3502 [0.5] Contextual Nature of Products

IDES 3601 [0.5] Research for Design

IDES 4001 [0.5] Industrial Design Seminar

IDES 4101 [0.5] Adv. Studies in Manufacturing

IDES 4200 [0.5] Form Organization

IDES 4305 [0.5] Special Studies

IDES 4306 [0.5] Special Studies

3. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Industrial Design (IDES) Courses

IDES 1000 [0.5 credit]

Theory and History of Design

The theoretical and historical background of industrial design and design; disciplinary foundations and interdisciplinary connections; methodological aspects and economic and social contexts; contemporary scenarios in design; technological innovation and manufacturing processes.

Also listed as ARCH 2006.

Lectures three hours a week.

IDES 1001 [0.5 credit]

Industrial Design Analysis

Principles of comparative product design analysis covering marketing and sales, manufacturing techniques and materials, ambiance and qualities of the object/context relationship, and design analysis from the perspective of the designer, the end-user and the environment.

Includes: Experiential Learning Activity

Also listed as ARCH 2101.

Prerequisite(s): IDES 1000 or ARCH 2006.

Lectures three hours a week.

IDES 1300 [0.5 credit]

Projects IA

An introduction to the skills and processes of industrial design including drawing and sketching as an aid to design, basics of line, shape, ideation, and visualization, product drawing, presentation techniques, basic model making, studio equipment and practices, introduction to the design process.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1000 (may be taken concurrently).

Studio and lectures six hours a week.

IDES 1301 [0.5 credit]

Projects IB

Aspects of industrial design theory and practice, specifically those dealing with principles of product development, fundamentals of form and colour and case studies. Students will explore the design process with emphasis on creative problem-solving techniques and visual communication in design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1300.

Studio and lectures six hours a week.

IDES 2101 [0.5 credit]

Design for Manufacturing A

Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. Influences and role of assembly, finishing, production tooling, and costing.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1001, IDES 1301.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2102 [0.5 credit]

Design for Manufacturing B

Continuation of IDES 2101. Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. The influences and role of assembly, finishing, production tooling, costing are addressed.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2101 or permission of the School of Industrial Design.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2105 [0.5 credit]

Computer Applications

Provides industrial design students with a working knowledge of design related 3D computer applications, as well as graphic manipulation and illustration software. Labs and projects are oriented towards building a foundation in software and group work skills for studio courses.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301.

Lecture and tutorials three hours a week.

IDES 2205 [0.5 credit]

Sensory Aspects of Design for User Experience

An exploration of multi-sensory qualities derived from and designed into products to optimize product-interaction experiences. Visual, tactile, auditory, and other related sensory aspects of design and design principles that contribute to the product multi-sensory characteristics while adding meaning and emotional value.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 2203 (no longer offered).

Prerequisite(s): IDES 1001 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 2300 [0.5 credit]**Projects IIA**

Principles of design sketching used in the industrial design process. Topics include: sketching as a tool for problem definition; idea exploration and form development; rendering techniques and the communication of design concepts; basic physical prototyping and modeling-making techniques.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1001 and IDES 1301, or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2302 [0.5 credit]**Projects IIB**

Introduction to the design principles associated with adapting products to an existing product semantic.

Topics covered: principles of design, product semantics, design analysis, design synthesis, design evaluation, and modeling techniques. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2600 [0.5 credit]**Human Factors/Ergonomics in Design**

Foundation course in human factors/ergonomics providing an overview of physical and cognitive considerations in product design and related design fields. Anthropometrics, biomechanical considerations, cognition, social interaction, and emotional interaction are introduced in relation to supporting user experience, health and safety, performance and productivity.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 1001 and PSYC 1002, or PSYC 1000.

Lectures and discussion three hours a week.

IDES 3104 [0.5 credit]**Exhibition Design**

Exhibition design is explored through lectures, case studies, field trips and guest lectures. Students participate in exercises and apply design skills to a variety of exhibition design realms. Introduces students to the potential of the built environment for exploring a range of diverse exhibit applications.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3105 [0.5 credit]**Visual Communication and Package Design**

A survey of visual communication and package design principles relevant to industrial designers. Product/brand definition and corporate identity through package design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3106 [0.5 credit]**Advanced Computer Applications**

Examination of complex product geometry utilizing 3D computer applications. Topics include spline, surface and solids construction, surface verification tools, and rendering tools and techniques. Workflow, robust design, reverse design techniques and 3D printing will be explored through exercises.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2105.

Lecture and tutorials three hours a week.

IDES 3107 [0.5 credit]**Design and Sustainability**

Explores the industrial designer's role in creating more environmentally and socially responsible products.

Addresses imperatives and drivers for integrating sustainability into products. Includes: sustainable design strategies, strategies and tools, sustainable design business case, circular economy model for designed products, and case studies.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3202 [0.5 credit]**Advanced. Studies in Form and Colour**

Students may continue the research and study encountered in IDES 2205, IDES 2300 and IDES 2302 by doing advanced research in the phenomena of form and/or colour and their communicative functions in products. Directed Study.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lecture and tutorials three hours a week.

IDES 3302 [0.5 credit]**Projects IIIB**

Introduction to the principles of innovation as found in industrial design. Invention, innovation, entrepreneurship, basic mechanisms. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 3301 (no longer offered).

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 3305 [0.5 credit]**Special Studies**

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3306 [0.5 credit]**Special Studies**

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3310 [0.5 credit]**Projects IIIA**

Introduction to the design principles associated with the evaluation and re-design of an existing product. Topics include: user/machine relationship, component packaging, and manufacturability. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 3300 (no longer offered).

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Studio and lectures twelve hours a week.

IDES 3502 [0.5 credit]**Contextual Nature of Products**

Cultural subjects which have an influence on contemporary industrial design. The perspective of the course is anthropological: the context and cultural relevance of industrial design.

Prerequisite(s): IDES 1000 (ARCH 2006).

Lectures and tutorials three hours a week.

IDES 3601 [0.5 credit]**Research for Design**

Basic design research techniques to foster design exploration. Methods focus on understanding context and user experience to produce meaningful, actionable insights and design opportunities. Processes include qualitative and quantitative research, as well as creative and evaluative research with people. Teamwork and collaboration are explored.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2600.

Lectures or laboratory three hours a week.

IDES 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

IDES 4001 [0.5 credit]**Industrial Design Seminar**

Topics vary yearly and address key contemporary industrial design issues. There is a focus on writing, discussion, and debate. Students organize a seminar with design professionals and other community experts including student and professional presentations, interaction, and discussion.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Seminar three hours a week.

IDES 4002 [0.5 credit]**Professional Practice**

The organizational aspects of consultancies and client responsibilities within the framework of corporate management. Topics include: the form of contracts for consultancy, determination of fees, legal implications, patents and copyrights. Guest lecturers.

Precludes additional credit for IDES 3503 (no longer offered).

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Lectures and discussion three hours a week.

IDES 4101 [0.5 credit]**Adv. Studies in Manufacturing**

Advanced manufacturing concepts and workflows are examined through a series of workshops and minor projects utilizing state-of-the-art equipment.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2101 and IDES 2102.

Lectures or laboratory three hours a week.

IDES 4200 [0.5 credit]**Form Organization**

Using form organization as a tool to design, the definition and prescription of monolithic solids by means of an abstract system; making and verifying materialized approximations of such solids.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 and IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials and laboratory six hours a week.

IDES 4301 [0.5 credit]**Minor Projects**

Advanced skills-based course that enhances student experience in novel, experimental processes and techniques in design. Workshop-style activities and short projects focus on increasing skill competence and versatility in a variety of fields. Emphasis on time management and the ability to work independently.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 4305 [0.5 credit]

Special Studies

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4306 [0.5 credit]

Special Studies

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4310 [1.5 credit]

Capstone Project

Application of design principles in a comprehensive design project. Problem area should be product-oriented and of sufficient complexity. Normally undertaken in consultation with off-campus organizations and/or industry. Supervised by faculty and/or sessional members.

Includes: Experiential Learning Activity
Precludes additional credit for IDES 4300 (no longer offered).

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week in Fall and twelve hours a week in Winter.

IDES 4400 [0.5 credit]

Internship Field Report

Work experience related to industrial design. Following the internship period (to be approved by the Director), a comprehensive report describing observations and insights will be submitted. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Tutorial hours arranged.

Information Technology

This section presents the requirements for programs in:

- Information Resource Management B.I.T.
- Interactive Multimedia and Design B.I.T.
- Network Technology B.I.T.
- Optical Systems and Sensors B.I.T.

Program Requirements

Course Categories

- Carleton University Electives
- Algonquin college Electives

Please check the current lists of approved electives on the program web site.

Information Resource Management

B.I.T. (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 2.5 credits in:	2.5
BIT 1400 [0.5]	Introduction to Programming and Problem Solving
IRM 1002 [0.5]	Reference and Information Services
IRM 1005 [0.5]	Web Interface Development
IRM 1006 [0.5]	Subject Analysis and Indexing
IRM 1007 [0.5]	Cataloguing
2. 3.0 credits in:	3.0
BIT 2008 [0.5]	Multimedia Data Management
BIT 2400 [0.5]	Intermediate Programming
IRM 2002 [0.5]	Legal and Business Information
IRM 2003 [0.5]	Classification
IRM 2004 [0.5]	Information Management and Digital Preservation
IRM 2005 [0.5]	Advanced Cataloguing
3. 2.5 credits in:	2.5
IRM 3001 [0.5]	Scientific and Medical Information
IRM 3003 [0.5]	Legal Issues in Information Resource Management
IRM 3006 [0.5]	Data Analysis and Research Methodology
IRM 3007 [0.5]	Practicum for IRM
IRM 3008 [0.5]	Metadata for IRM
4. 2.0 credits in:	2.0
IRM 4000 [0.5]	Library Software
IRM 4004 [0.5]	Big Data Analytics and Applications
IRM 4900 [1.0]	IRM Capstone Project
B. Credits Not Included in the Major (10.0 credits)	
5. 1.5 credits in:	1.5
IRM 1003 [0.5]	Collections management
IRM 1004 [0.5]	Reader's Advisory Services
IRM 1008 [0.5]	Introduction to Information Resource Management
6. 1.5 credits in:	1.5
BIT 2000 [0.5]	Introduction to Statistics
BIT 2001 [0.5]	Introduction to Business
BIT 2002 [0.5]	Marketing in the IT sector
7. 1.0 credit in:	1.0
CCDP 3006 [0.5]	Communication Skills for IRM
IRM 3004 [0.5]	Project management
8. 1.0 credit in:	1.0
IRM 4001 [0.5]	Archives and Special Collections
IRM 4002 [0.5]	Network Technology
9. 1.0 credit in French Language (see Note 2, below)	1.0

10. 4.0 credits in electives to be fulfilled by courses taken to complete a Minor (see Note 1, below) 4.0

Total Credits 20.0

Notes:

- 1. Additional requirements:** students must complete a Minor in another academic discipline.
- 2. Language requirement:** all students are expected to improve their current French language skill by one credit. Should a student be assessed as fluently bilingual, 1.0 credit of alternate language courses will be accepted. Canadian Aboriginal languages would be encouraged in such cases.

Interactive Multimedia and Design B.I.T. (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 2.0 credits in: 2.0

IMD 1001 [0.5]	Visual Communication
IMD 1002 [0.5]	Visual Dynamics
IMD 1004 [0.5]	Design Processes
IMD 1005 [0.5]	Web Development

2. 3.0 credits in: 3.0

BIT 2008 [0.5]	Multimedia Data Management
BIT 2400 [0.5]	Intermediate Programming
IMD 2003 [0.5]	Audio and Video
IMD 2007 [0.5]	Intro to 3D Animation
IMD 2900 [1.0]	Design Studio 1

3. 3.0 credits in: 3.0

IMD 3004 [0.5]	Human Computer Interaction and Design
IMD 3005 [0.5]	Sensor-Based Interaction
IMD 3900 [1.0]	Design Studio 2
IMD 3901 [1.0]	Design Studio 3

4. 2.5 credits in: 2.5

8. 1.5 credits in: 1.5

IMD 4002 [0.5]	Technology and Culture
IMD 4005 [0.5]	Advanced Topics in Multimedia
IMD 4008 [0.5]	Mobile User Interface Design and Development

9. 1.0 credit in Arts and Humanities elective outside the faculties of Business, Science and Engineering. 1.0

10. 1.0 credit in electives for IMD, and/or Directed Studies 1.0

BIT 4000 [0.5]	Directed Studies
----------------	------------------

Total Credits 20.0

Retention of Work (Interactive Multimedia and Design Program Only)

A portfolio represents a record of the student's progress and design experience over the years, and is an indispensable requirement for any future job application. A portfolio is started in first year and continues to expand until graduation. The School, therefore, requires that each student produce reproductions (on a digital storage device, e.g. flash drive) of their work at the end of each term. One copy of the work should be put in the student's portfolio and the other turned in to the instructor for retention in the School's archives. (This facilitates retrospective exhibitions of work, accreditation, publications and any future references for pedagogic purposes.) Original work is the property of the students, but the School retains the right to keep work of merit for up to four years after the date of submission. The School will make every effort to preserve the work in good condition, and will give authorship credit and take care of its proper use.

Information Resource Management (IRM) Courses

IRM 1002 [0.5 credit]

Reference and Information Services

Introduction to the theory and techniques needed to conduct reference interviews and interpret reference queries. Students learn to select and use general reference sources such as dictionaries, encyclopedias, directories, bibliographies, periodical indexes, almanacs, and handbooks in print, and electronic formats. Includes: Experiential Learning Activity
Prerequisite(s): restricted to students in the B.I.T. degree program.
Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1003 [0.5 credit]**Collections management**

Introduction to the principals of collections management including techniques and procedures for selecting, ordering and receiving library materials, accounting, collection development and automated acquisitions. Students also learn policies and procedures required for circulation, document delivery and interlibrary loans.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1004 [0.5 credit]**Reader's Advisory Services**

Students become familiar with fiction and non-fiction materials available to various categories of clients and learn how to market them. In addition, students further develop through various assignments their researching, writing, speaking, listening and communication skills.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 1005 [0.5 credit]**Web Interface Development**

Combining graphics, text, audio and video to develop websites on an individual basis and in groups, using latest versions of HyperText Markup Language(HTML), Cascading Style Sheets (CSS), JavaScript and data interchange formats such as Extensible Markup Language(XML) and JavaScript Object Notation(JSON).

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

IRM 1006 [0.5 credit]**Subject Analysis and Indexing**

Students learn the basic theory of subject analysis and indexing methods used to provide access to library materials and literature. Practical instruction makes use of thesauri, as well as standard subject heading lists, such as Sears and Library of Congress.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hour a week.

IRM 1007 [0.5 credit]**Cataloguing**

The catalogue is the main finding aid to the collection of the library. Students learn the basic principles and concepts of international standards used to describe library materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 1001 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. program. Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1008 [0.5 credit]**Introduction to Information Resource Management**

Students develop understanding of the concepts of information retrieval, creation, evaluation, organization and client service. Knowledge of legal and ethical implications of information and current trends in the field is studied. Through in-class lectures and hands-on activities, students gain an overview of the field.

Precludes additional credit for IRM 1000 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 2002 [0.5 credit]**Legal and Business Information**

Students develop skills in planning and executing information searches and evaluating print and electronic resources. Students learn to locate information on selected topics, compile subject-specific annotated bibliographies and instruct library clients in the use of specialized materials and databases.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1002.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 2003 [0.5 credit]**Classification**

How to interpret and apply Dewey Decimal and Library of Congress Classification systems. Also includes analysis of the subject content of materials, building notation, using tables, shelf-listing techniques and creating unique book numbers.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1006.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 2004 [0.5 credit]**Information Management and Digital Preservation**

Essentials of information management in an organization including the life cycle management of files in paper and the electronic environment. This course will also cover contemporary issues in information management and digital preservation.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1008.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 2005 [0.5 credit]**Advanced Cataloguing**

Libraries purchase and provide access to a wide variety of print and electronic resources. Building on work done in IRM 1007, students learn to interpret international cataloguing standards to describe more complex materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 2001.

Prerequisite(s): IRM 1007.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3001 [0.5 credit]**Scientific and Medical Information**

Students enhance their knowledge of print and electronic reference sources in science and technology. Students learn to compile specialized subject-specific bibliographies and assignments provide training in the use of science and technology reference sources.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 2002.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3003 [0.5 credit]**Legal Issues in Information Resource Management**

In-depth analysis and assessment of copyright and other forms of intellectual property. Legal issues related to information technology. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, Charter and human rights issues, and security.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 3004 [0.5 credit]**Project management**

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of information management using case studies.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in the Information resource management program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3006 [0.5 credit]**Data Analysis and Research Methodology**

Introduction to the logic and design of research. Qualitative and quantitative research methodology with emphasis on the application and interpretation of statistical techniques for data analysis. These may include, but are not limited to, bivariate and multivariate analysis, distribution analysis, visual data analysis, market basket analysis.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3002 (no longer offered).

Prerequisite(s): BIT 2000.

Lectures three hours a week.

IRM 3007 [0.5 credit]**Practicum for IRM**

Students will design and complete a project related to information management under the supervision of a faculty member or librarian. This course provides the opportunity to apply knowledge gained in previous courses.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Information resource management program.

Tutorial/laboratory eight hours a week.

IRM 3008 [0.5 credit]**Metadata for IRM**

Students develop an understanding of key metadata schema and apply standards to describe range of digital resources. The metadata schemes include focus on Dublin Core (DC) and MODS with select coverage of specialist schema. Through in-class lectures and hands-on activities, students apply metadata schemes.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3000 (no longer offered).

Prerequisite(s): IRM 2005.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 4000 [0.5 credit]**Library Software**

Using skills and knowledge of automated systems already developed in introductory courses, students learn the theory and receive the hands-on practice needed to use library databases. A component on choosing and comparing library software is included.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4001 [0.5 credit]**Archives and Special Collections**

Principles and methods used by archivists and record managers in organizing their collections for better access and retrieval. Students also learn aspects of physical bibliography, the book trade, preservation and conservation of books and how to exhibit such material.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 4002 [0.5 credit]**Network Technology**

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4004 [0.5 credit]**Big Data Analytics and Applications**

Introduction to Big Data. Topics include: big data mining and analysis techniques like Association Rule Mining, Classification, Clustering, Linear Regression, using R, Hadoop, Hadoop Distributed File System, and related technologies. Applications on other domains like networks, finance, and/or business.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3006.

Lectures three hours a week.

IRM 4900 [1.0 credit]**IRM Capstone Project**

Student-initiated project developed in association with a project supervisor and external information resource management advisor. Project is supported by a written report, seminar discussions and final presentation. All proposals must be approved by the IRM Program Project Committee.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3004, IRM 3007 or LIB 2030 and LIB 2047 and fourth year standing in the IRM program.

Tutorial hours arranged.

Information Technology (BIT) Courses**BIT 1000 [0.5 credit]****Mathematics I for NET**

Tailored for students in the Network Technology program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1100, BIT 1200, ECON 1401, ECON 1402, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401, MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1001 [0.5 credit]**Mathematics II for NET**

Tailored for students in the Network Technology program, this course covers systems of linear equations, vector space of n-tuples, subspaces and bases, matrix transformations, kernel, range, matrix algebra and determinants, inner products and orthogonality, eigenvalues, diagonalization and applications.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1101, BIT 1201, ECON 1401, ECON 1402, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401, MATH 1402.

Prerequisite(s): BIT 1000.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1002 [0.5 credit]**Physics for Information Technology I**

An introductory course on energy, thermodynamics, sound and electromagnetic waves, optics, and modern physics. Practical skills are learned in the laboratory, which is a required part of the course.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1203, PHYS 1001, PHYS 1003, PHYS 1007.

Prerequisite(s): BIT 1100.

Lectures three hours a week, tutorial three hours/ laboratory three hours alternate weeks.

BIT 1006 [0.5 credit]**Elective**

Students must choose from among a list of approved Electives at Algonquin College.

Precludes additional credit for BIT 2003 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

BIT 1007 [0.5 credit]**Physics for NET**

An introductory course on energy, electrical networks (AC and DC circuits, resistance, impedance, capacitance), electrostatics (electric fields, static electricity), electromagnetism, electromagnetic waves, optics, and other topics in modern physics. Practical skills are learned in the laboratory, which is a required part of the course.

Precludes additional credit for BIT 1003 (no longer offered), BIT 1204, PHYS 1002, PHYS 1004, PHYS 1008. Prerequisite(s): BIT 1000, Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial three hours/ laboratory three hours alternate weeks

BIT 1100 [0.5 credit]**Mathematics I for IMD**

Tailored for students in the Interactive Multimedia Design program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1000, BIT 1200, ECON 1401, ECON 1402, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401, MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1101 [0.5 credit]**Mathematics II for IMD**

Tailored for students in the interactive Multi-media Design program, this course covers systems of linear equations, vector space of n-tuples, subspaces and bases, matrix transformations, kernel, range, matrix algebra and determinants, inner products and orthogonality, eigenvalues, diagonalization and applications.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1001, BIT 1201, ECON 1401, ECON 1402, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401, MATH 1402.

Prerequisite(s): BIT 1100.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1200 [0.5 credit]**Calculus**

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1000, BIT 1100, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent.

Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1201 [0.5 credit]**Linear Algebra**

Systems of linear equations; vector space of n-tuples, subspaces and bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product.

Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications.

Note: MATH 1119 is not an acceptable substitute for BIT 1201.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1001, BIT 1101, MATH 1102, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School. restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1203 [0.5 credit]**Newtonian Physics**

Mechanics, properties of matter, thermodynamics.

Applications chosen in part from the life sciences.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, PHYS 1001, PHYS 1003, PHYS 1007.

Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent; or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 or BIT 1200 (may be taken concurrently); or (iii) permission of the Department. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1204 [0.5 credit]**Electromagnetism & Modern Physics**

Electricity and magnetism, DC and AC circuits, wave motion and light. Elements of modern physics. Applications chosen in part from the life sciences. Includes: Experiential Learning Activity
Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, PHYS 1002, PHYS 1004, PHYS 1008.
Prerequisite(s): BIT 1203 or PHYS 1001 or PHYS 1003 or PHYS 1007 or permission of the Department. Restricted to students in the B.I.T. degree program.
Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1400 [0.5 credit]**Introduction to Programming and Problem Solving**

Introduction to basic concepts of algorithm design and computer programming in C/C++. Topics include computer architecture, algorithms and pseudocode, basic operators, variables and functions, program control with iteration and conditionals, I/O operations, text processing, structures, arrays, pointers, and debugging.
Includes: Experiential Learning Activity
Precludes additional credit for COMP 1005, COMP 1405, IMD 1003, ITEC 1400, NET 1000 and PLT 1000.
Prerequisite(s): restricted to students in the B.I.T. degree program.
Lectures three hours a week, tutorial/laboratory three hours a week.

BIT 2000 [0.5 credit]**Introduction to Statistics**

This course covers data analysis, introduction to probability theory, some standard discrete and continuous distributions and their application to interval estimation and significance testing, computational aspects of statistics.
Includes: Experiential Learning Activity
Precludes additional credit for BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, STAT 2606, and STAT 3502.
Prerequisite(s): restricted to students in the BIT degree program.
Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 2001 [0.5 credit]**Introduction to Business**

An overview of the most fundamental business functions. The management of people, human resources, marketing, accounting and finances, business law and operations.
Includes: Experiential Learning Activity
Prerequisite(s): restricted to students in the B.I.T. degree program.
Lectures: three hours a week.

BIT 2002 [0.5 credit]**Marketing in the IT sector**

Basic problems and practices in marketing. Marketing strategies, planning, packaging, branding and promotion at the level of the individual firm; distribution channels.
Includes: Experiential Learning Activity
Precludes additional credit for BUSI 2204.
Prerequisite(s): restricted to students in the B.I.T. degree program.
Lectures three hours a week.

BIT 2006 [0.5 credit]**Elective**

Students must choose from among a list of approved Electives at Algonquin College.
Precludes additional credit for BIT 3003 (no longer offered).
Prerequisite(s): restricted to students in the B.I.T. degree program.
Lectures three hours a week, or as arranged.

BIT 2008 [0.5 credit]**Multimedia Data Management**

Concepts and fundamentals of database systems. Design of relational databases, normalisation, referential integrity, structured query language (SQL), server-side scripting, organisation of multimedia content, dynamic page loading, storage and compression of media, media network considerations, digital watermarking and rights management.
Includes: Experiential Learning Activity
Precludes additional credit for ITEC 2000, IMD 2000 (no longer offered), IRM 2000 (no longer offered).
Prerequisite(s): BIT 1400 and IMD 1005 or IRM 1005.
Lecture three hours a week, tutorial/laboratory two hours a week.

BIT 2010 [0.5 credit]**Differential Equations & Multivariate Calculus**

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.
Prerequisite(s): BIT 1200.
Lectures three hours a week, tutorial one hour a week.

BIT 2400 [0.5 credit]**Intermediate Programming**

Introduction to object-oriented programming using C++ language. Topics include detailed study of pointers and structures, encapsulation of data and code through objects and classes, inheritance, polymorphism, object-oriented program design, class libraries, user interface objects and event-driven systems.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1006, COMP 1406, IMD 2004, ITEC 2400, NET 2006 and PLT 2004.

Prerequisite(s): BIT 1400. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory three hours a week.

BIT 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

BIT 4000 [0.5 credit]**Directed Studies**

Independent study under the supervision of a member of the School of Information Technology, open only to students in the B.I.T. program. Students are required to obtain their supervisor's written approval prior to registration and are limited to one such course in their program.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School of Information Technology.

BIT 4001 [0.5 credit]**Selected Topics in Information Technology**

Topics not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Prerequisite(s): third-year standing in the BIT Program or permission of the department.

Lecture three hours a week.

Interactive Multimedia and Design (IMD) Courses**IMD 1000 [0.5 credit]****Introduction to Interactive Multimedia Design**

Overview of interactive multimedia design including copyright, user-centred design, web design and mark-up languages, general logic design, multimedia project management, design processes for animated film, video game development, visual effects in movies, ethics and current trends in the field.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 1100.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lecture three hours a week.

IMD 1001 [0.5 credit]**Visual Communication**

Visual communication techniques commonly used to draft concepts and ideas to support scripts for film, animation, HCI, and/or game development. Topics include: storyboarding, composition, vanishing point, line quality, visual timing, perspective, depth of field, body language and life drawing. A digital drawing tablet is required.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 1000 and IMD 1002.

Workshop three hours a week.

IMD 1002 [0.5 credit]**Visual Dynamics**

Fundamentals of composition with emphasis on realistic rendering. Students learn how to execute thumbnails and design comprehensives. Topics include illustration, type, colour, texture, proximity and unity, alignment, repetition and continuity, contrast, size relationships, balance, rhythm, negative space, cropping and view selection.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1004 [0.5 credit]**Design Processes**

Design fundamentals using industry standard software techniques and workflow are explored. Topics include: gestalt principles, grids systems, colour, texture, raster and vector image production, and typography. Students design for publication to output such as Web, print, and electronic book formats. Required digital drawing tablet.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1005 [0.5 credit]**Web Development**

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid XHTML, cascading style sheets (CSS), JavaScript and XML structures.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 1005.

Prerequisite(s): IMD 1000 and IMD 1004.

Workshop five hours a week.

IMD 2003 [0.5 credit]**Audio and Video**

The creation, production and editing of audio and video for multimedia applications. Topics include single camera recording and capture techniques through to post-production editing. Emphasis is placed on production and operation skills while adhering to industry standard costs and deadlines.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 1000 and IMD 1002.

Workshop four hours a week.

IMD 2006 [0.5 credit]**Introduction to Computer Games**

Basic concepts in the design and development of computer games, including: fundamentals of production cycle, genres, gameplay and game mechanics, story and character development, level design, artificial intelligence for games, game user interface, and common development tools.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400 and second-year standing in the IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 2007 [0.5 credit]**Intro to 3D Animation**

Introduction to the basics of 3D computer animation.

Topics include: introduction of 3D animation packages, 12 Principles of Animation, character design, character animation (walking/locomotion, motion, and poses), soft-body animation (shape interpolation and facial animation), and acting for animators.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 2005 (no longer offered).

Prerequisite(s): BIT 1002 and second-year standing in the IMD program.

Lecture/workshop three hours a week.

IMD 2900 [1.0 credit]**Design Studio 1**

Advanced practical studio-based sessions in project management and web development. Topics include: project management styles, team collaboration techniques, prototyping, project and content management, marketing, testing, and product evaluation culminating into a major group web project using client-side and server-side technologies.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the IMD program.

Studio/lecture eight hours a week.

IMD 3002 [0.5 credit]**3D Computer Graphics**

Technical aspects of 3D computer graphics.

Homogeneous transformations, viewing pipeline, cinematography, modeling techniques (explicit and implicit), scene composition, level of detail methods, advanced lighting techniques (BRDF, IBL, subsurface-scattering), 2D/3D texturing, local/global illumination, rendering methods, and shaders.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 1101, BIT 2400 and IMD 3900.

Lectures three hours a week, tutorial/laboratory two hours per week.

IMD 3004 [0.5 credit]**Human Computer Interaction and Design**

Introduction to concepts centered on Human-Computer Interaction from hardware and software perspectives.

Topics include design principles, usability principles and engineering, solving user-centred problems, device interaction, and graphical user interface design (2D and 3D interfaces).

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 3005 [0.5 credit]**Sensor-Based Interaction**

Development of interactive applications that connect the physical and virtual space. Topics include using external devices and sensor hardware, sensing objects and people, gestural input, computer vision, processing of live audio input, and networked software and devices.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 2001 (no longer offered).

Prerequisite(s): BIT 2400.

Lecture/ workshop four hours a week.

IMD 3006 [0.5 credit]**Software Design for Multimedia Applications**

Provides students with knowledge and expertise to design and develop complex software systems and programs for common multimedia applications. Topics include: data structures, system and requirement analysis, component identification, common design patterns, and working with reusable components.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 3900 [1.0 credit]**Design Studio 2**

Intermediate practical studio sessions covering the creative aspects of 3D graphics and animation. Topics include: environment and character modeling, texturing, using bump/displacement maps, advanced materials, 3D cameras, various lighting, keyframe animation, and rendering methods.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2007 and third-year standing in the IMD program.

Studio/lecture eight hours a week.

IMD 3901 [1.0 credit]**Design Studio 3**

Studio-based course focuses on interdisciplinary group work, and the use of reality-based/ natural-based interfaces for multiuser interaction, understanding social and environmental context in physical design, basic networking, advanced sound design, and haptic feedback.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program, IMD 2900 and IMD 3005.

Studio/lecture eight hours a week.

IMD 4002 [0.5 credit]**Technology and Culture**

An examination of the relationship between communication technology and society. The course examines the factors that contribute to changes in the collection, storage and distribution of information and the cultural implications of these changes.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program.

Seminar three hours a week.

IMD 4005 [0.5 credit]**Advanced Topics in Multimedia**

Advanced topics in multimedia industry not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 4004 (no longer offered).

Prerequisite(s): fourth-year standing in the IMD program.

Lecture three hours a week.

IMD 4006 [0.5 credit]**Advanced Computer Gaming**

Provides students with knowledge and expertise to design and develop professional computer games with advanced and novel features. Topics include: target audience and inclusive/accessible design, interaction design and emerging technologies, artificial intelligence, interactive stories, procedural content generation, serious games and gamification.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2006 and IMD 3002.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4007 [0.5 credit]**Advanced Animation and Visual FX**

Advanced topics in animation and visual FX, covering the more technical aspects, including: match-moving, image-based lighting, chromakeying, motion capture of face and body, character rigging (Forward/Inverse kinematics, controls, weighting), retargeting, particle systems, and dynamic systems (cloth, fluid, and hair).

Includes: Experiential Learning Activity

Precludes additional credit for IMD 4003 (no longer offered).

Prerequisite(s): IMD 2007, IMD 3002 and IMD 3900.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4008 [0.5 credit]**Mobile User Interface Design and Development**

Design, development, and evaluation of user interfaces for mobile applications. Topics include: user-centered design methods and develop mobile applications employing the various input and output capabilities available on mobiles, e.g., multi-touch, device motion/rotation, video/audio capture, vibration.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3004 and IMD 3006.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4901 [1.5 credit]**IMD Capstone Project**

Student-initiated digital media project, under the supervision of a project advisor, consisting of complete end-to-end production, from design to final product. Development will be assessed via design documents, project plans, progress presentations, culminating in a final exposition in front of a panel of industry experts.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2900, IMD 3004, IMD 3900, IMD 3901 and fourth-year standing in the IMD program.

Tutorial hours arranged.

Network Technology (NET) Courses**NET 1001 [0.5 credit]****Computer Technology Basics**

Construction and function of PCs. Introduces technical concepts and terminology relating to system boards, system busses, input/output devices, memory, microprocessors and peripherals. Interaction of software and hardware; data storage; performance issues.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

NET 1002 [0.5 credit]**Networking Fundamentals**

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 1006 [0.5 credit]**Routing and Switching**

Introduction to routing and switching concepts including, static and dynamic routing, trunking and VLANs. Topics include configuring routers and switches and resolving common configuration and reachability issues.

Includes: Experiential Learning Activity

Precludes additional credit for NET 1005 (no longer offered).

Prerequisite(s): NET 1002.

Lecture three hours a week, tutorial/laboratory three hours a week.

NET 2000 [0.5 credit]**Intermediate Networking**

Architecture, components and operations of routers and switches in larger and more complex networks. Topics include configuration and troubleshooting of OSPF (with introduction to multi-area), EIGRP, STP, redundancy techniques and WiFi in SOHO environments.

Includes: Experiential Learning Activity

Prerequisite(s): NET 1006.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 2001 [0.5 credit]**Wide Area Networking**

Theory and technologies extending LANs to WANs including the relevant networking architectures and services. Data link protocols for WAN, network security, tunneling, VPNs and network monitoring, with a focus on implementation and troubleshooting.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2000.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 2007 [0.5 credit]**Basics of Transmission Systems**

Introduction to the fundamentals of information transmissions systems used in physical layer of the Internet. Covers time- and frequency-domain concepts, digital and analog transmission, signal encoding, sampling, modulation, demodulation, error detection and correction. Examples: DSL, Cable modem, and wireless LAN. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 1001 and BIT 1007.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 2008 [0.5 credit]**DevOps**

Exposure to unifying software development (Dev) and software operation (Ops). Use of Python to monitor and automate network management tasks.

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 2009 [0.5 credit]**Assembly and Machine Language**

Structured approach to assembly language programming. Topics include data and address registers, data and address busses, condition code register and stack pointers, machine code format, instruction sizes, operand encoding, translation of source code into machine language, and how the processor executes instructions. Also listed as OSS 2009, PLT 2009 (no longer offered). Precludes additional credit for NET 1004 (no longer offered), PLT 1007 (no longer offered).

Prerequisite(s): BIT 2400.

Structured approach to assembly language programming. Topics include data and address registers, data and address busses, condition code register and stack pointers, machine code format, instruction sizes, operand encoding, translation of source code into machine language, and how the processor executes instructions. Lectures three hours a week, tutorial/laboratory one hour a week.

NET 2010 [0.5 credit]**Desktop and Server Environments I**

Using Linux and Windows Server, study of the basic features such as file system, system utilities, memory management, boot process troubleshooting and UI customizations. Client-Server architecture is examined with a focus on basic Server configuration and administration. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity. Precludes additional credit for NET 2002 (no longer offered).

Prerequisite(s): NET 1001.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 2011 [0.5 credit]**Desktop and Server Environments II**

Using Unix and Linux Operating systems, study of the command line and network Server operating environments. Configuring Services and Protocols such as DNS, NTP, SSH, SMB, SMTP, POP3, IMAP, HTTP, and DHCP. Basic Server security using firewalls is also introduced. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Precludes additional credit for NET 2003 (no longer offered).

Prerequisite(s): NET 2010.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 3000 [0.5 credit]**Database Concepts and SQL**

Concepts and fundamentals of relational database systems. Students learn how to design relational databases starting from a conceptual data model, following accepted logical and physical design principles. Topics include normalisation, referential integrity, SQL, DDL and SQL DML & ODBC and data extraction/ filtering techniques.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the Networking program.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 3001 [0.5 credit]**Real-time Systems**

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as OSS 3001, PLT 3002 (no longer offered).

Prerequisite(s): NET 2009.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3004 [0.5 credit]**Data Structures**

Specification and design of abstract data types and their implementation as stacks, queues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion, re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as OSS 3004.

Precludes additional credit for PLT 3010 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3006 [0.5 credit]**Network Management and Measurements**

Key network management models (FCAPS, TMN), protocols and standards, such as SNMP. Introduction to and use of various management tools and methodologies. Current trends in network management and measurement. Security issues in collecting networking management information.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3000 and NET 3004.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3007 [0.5 credit]**Network Security**

Basics of network security. Students are introduced to the goals of IT security, common threats and countermeasures including firewalls, intrusion detection and prevention systems (IDPS) and virtual private networks. Several operating environments will be studied as examples. Also includes a section on computer ethics.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2001.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3008 [0.5 credit]**Advanced Network Routing**

Routing IP at the enterprise level, within and between, autonomous systems. Advanced control and optimization of routing protocols and manipulation of traffic paths with a focus on multi-area OSPF and EIGRP. Working knowledge of Internet reachability via BGP.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2001.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 3010 [0.5 credit]**Web Programming**

Architectures, protocols and languages used to develop dynamic Web content, including HyperText Markup Language (HTML, DHTML), Universal Resource Identifiers (URI) and HyperText Transport Protocol (HTTP) and Common Gateway Interface (CGI). JavaScript and Java are used to model cross-platform Web programming.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400, NET 3000.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3011 [0.5 credit]**Advanced Network Switching**

VLANs and inter-VLAN routing in a multilayer switched environment. Variants of STP and the use of related enhancements. Techniques for network redundancy and load balancing. Securing a switched infrastructure. Architectures and techniques for delivering converged and multimedia traffic (voice, video) in the enterprise.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2001.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 3012 [0.5 credit]**IP Architectures and Solutions**

An exploration of deployment options that can be implemented atop of a MPLS network. The focus is on technologies and architectures that serve to enhance IP delivery, or IP service leveraging the MPLS infrastructure.

Includes Layer 2 and 3 tunneling techniques. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3008.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3900 [0.5 credit]**Wireless Networks**

Design and configuration of Wi-Fi networks as used in commercial and enterprise venues. Topics include 802.11 family of protocols, wireless transmission, RF design, security methods and protocols, and system design. Topologies include campus, bridge and remote access.

Includes: Experiential Learning Activity

Includes: Experiential Learning Activity

Prerequisite(s): NET 2007.

Lectures two hours a week, tutorial/laboratory three hours a week.

NET 4000 [0.5 credit]**Emerging Network Technologies**

Overview of technologies, protocols and techniques related to Information Technology networking that are either in their early stage of adoption or are not yet mainstream (i.e. beta or prototype stage). Focus will vary from year to year to reflect the evolutionary nature of this domain.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5110, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4001 [0.5 credit]**Network Simulation**

Introduction to discrete event simulation; fundamental stochastic models for networking; queueing theory; deterministic algorithms for networking; confidence intervals; introduction to network modeling. Use of simulation tools to develop and test scenarios including traffic monitoring, congestion, routing protocols, resource utilization and growth planning.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2000.

Also offered at the graduate level, with different requirements, as ITEC 5113, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4003 [0.5 credit]**Computer Systems Architecture**

History and evolution of computers. Models and functional descriptions of CPU, bus, memory, I/O. Internal data transfer and storage concepts. Bus protocols. Memory organization and cache principles. Digital logic and simple logic designs of CPU, buses, memory. Concepts of virtual machines, parallel computing, cloud computing.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in the Networking program, NET 2003 and NET 3001.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 4005 [0.5 credit]**Networked Applications**

Architectures for computing in modern data networks that adopt the Internet architecture. Topics covered include socket programming, RPC and RMI. Client-server and peer-to-peer models. Emerging application architectures.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3004 and NET 3010.

Also offered at the graduate level, with different requirements, as ITEC 5114, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4007 [0.5 credit]**Multimedia Networking**

Audio and video compression. H.261, JPEG, MPEG and DVI. Accessing audio and video from a web server. Real Time Streaming Protocol (RTSP). Multimedia operating systems. Multimedia database. Network support for multimedia applications. Multimedia synchronization.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5111, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4009 [0.5 credit]**Troubleshooting IP Networks**

Integrates planned maintenance and troubleshooting techniques, including, tools, applications and formalized methodologies. Study of issues in focused areas (such as routed vs. switched environments, addressing services, performance, security, multimedia), culminating in problem resolution throughout a complex enterprise network.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3011, NET 3008.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 4010 [0.5 credit]**Secure Mobile Networking**

The concept, principle and rationale of mobile networking. Mobile network architecture, protocols, mobility management, routing and mobile TCP/IP; Security challenges, vulnerabilities and threats in mobile networks; Security defense techniques and countermeasures in mobile networks.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5112, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 4011 [0.5 credit]**Advanced Topics in Network Security**

Understanding classes of advanced attacks. Building secure networks. Adversarial Machine Learning. Security in clouds, virtualized networks, and IoT. Understanding impact of OS and software security issues. Security in next generation networks such as 5G.

Prerequisite(s): NET 3007.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4901 [1.0 credit]**NET Capstone Project**

This course provides the opportunity to apply knowledge gained in previous courses towards the design and implementation of a major Networking related project. Working in teams or as individuals under the direction of faculty members, students undertake projects internally or in collaboration with industry.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Networking program.

Tutorial hours arranged.

Optical Systems and Senors (OSS) Courses**OSS 1002 [0.5 credit]****Applications in Photonics & Optoelectronics**

Survey of the history and future of photonics. Photonics benefits and impact on technology and society. Emerging applications of photonics in industry and commercial products. The forces (business, social, political, economic, technical, and educational) that influence the development, adoption and success or failure of technologies.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1002 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 1003 [0.5 credit]**Optics/Optical Fibers (Principles)**

Principles of optics, optical fiber, waveguides and hands-on experience with optical components. Optical fiber manufacturing and variety of industrial applications. Topics covered include: optical sources, detectors, fiber modes and mode-coupling, couplers, multiplexers, optical amplifiers, physical layer of optical networks, dispersion and nonlinear effects management.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1003 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 1005 [0.5 credit]**Introduction to Optics**

Physics of waves, optics and light propagation through lectures and lab experiments. Geometrical optics, refraction and reflection, interference, diffraction and polarization, thin lens equation, laser beams, Michelson interferometer, birefringence, and Abbe theory of imaging. Electromagnetic spectrum, quantum nature of light, photons, and photoelectric effect.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1005 (no longer offered).

Prerequisite(s): BIT 1203, restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory three hours a week.

OSS 1006 [0.5 credit]**Introduction to Automation and Simulation**

Introduction to basic programming in both the Matlab and Labview environments. Program development, basic structures (loops, control structures), I/O, data visualization and graphing will be covered. Students will learn to use Labview to develop basic applications and model simple physical systems with Matlab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1006 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory two hours a week.

OSS 2001 [0.5 credit]**Fundamentals of Light Sources**

Introduction to incoherent light sources and lasers. Lasers operation, energy levels, quantum mechanics basics. Pumping/excitation, population inversion, laser cavity design, gain and loss, and characteristics of laser emission. An extensive lab manual of relevant experiments, variety of lasers, spectrometers, and detection equipment will be used.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2001 (no longer offered).

Prerequisite(s): BIT 1201. Restricted to students in the BIT degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2002 [0.5 credit]**Optical Communication Networks I**

Fiber-laser implementation and optical networks, topologies, OSI, SONET/SDH, synchronous payload envelope, virtual tributaries, optimized mapping techniques, and optical carriers (OC-n/STM-m). Extensive lab manual and hands-on experience using state-of-the-art Optophotonics Lab to work on OAM; P, facility/equipment, synchronization, bandwidth management, and performance monitoring and other functionalities.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2002 (no longer offered).

Prerequisite(s): OSS 1003 or PLT 1003 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 2003 [0.5 credit]**Laser Systems**

Laser theory, devices and systems. Safety procedures, laser power supplies, and laser system applications. Solid state, gas, and other types of lasers. Basic material processing, micro machining, bio/medical, and military applications will be covered. Hands-on experience with advanced laser equipment in lab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2003 (no longer offered).

Prerequisite(s): OSS 2001 or PLT 2001 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2005 [0.5 credit]**Circuits and Signals**

Students learn properties of electricity and measurement techniques. Topics covered include RMS, average, applied, peak-to-peak and instantaneous values. Lab experiments deal with RC and RL circuits and LC filters. RLC circuits, and series and parallel resonance are also covered.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2005 (no longer offered).

Prerequisite(s): BIT 1204 or PHYS 1004 or PHYS 1002.

Restricted to students in the BIT degree program.

Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2006 [0.5 credit]**Integrated Circuits**

Fundamentals of logic circuitry in digital systems are studied including basic logic gates, Boolean algebra, signal decoding, logic circuit design, flip-flop circuits, timers and counters. The proper use of semi-conductor components is demonstrated through the use of laboratory experiments.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 2507, PLT 2006 (no longer offered).

Prerequisite(s): OSS 2005 or PLT 2005 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2008 [0.5 credit]**Manufacturing Photonics Components**

Manufacturing techniques and methods used to produce photonics components and devices/systems. Micro assembly, adhesives, optical tests and measurement, lean manufacturing and quality control standards (Telcordia). Laboratory exposure to optical component production processes: grinding, polishing, coating, mounting, tolerance and accuracy.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1004 and PLT 2008 (no longer offered).

Prerequisite(s): OSS 1002 or PLT 1002 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory two hours a week.

OSS 2009 [0.5 credit]**Assembly and Machine Language**

Structured approach to assembly language programming. Topics include data and address registers, data and address busses, condition code register and stack pointers, machine code format, instruction sizes, operand encoding, translation of source code into machine language, and how the processor executes instructions.

Includes: Experiential Learning Activity

Also listed as NET 2009.

Precludes additional credit for PLT 1007 (no longer offered), NET 1004 (no longer offered), PLT 2009 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory one hour a week.

OSS 2010 [0.5 credit]**Signals and Systems**

This course provides a solid theoretical foundation for the analysis and processing of experimental data, and real-time experimental control methods. Topics include various properties of signals and systems, convolution, the Fourier transform, sampling theorem, z-transform, spectral analysis, filter design, and system identification.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2010 (no longer offered).

Prerequisite(s): BIT 1200 and BIT 1201. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial one hour a week.

OSS 3000 [0.5 credit]**Optical Communication Networks II**

Operation, management and maintenance of metro/long haul optical network elements and systems. Hands-on skills using GUI, Transaction Language One (TL1), optical network management to perform line and path protection, alarm provisioning, security and data communications, optical network backup and restore, load upgrade and installation management.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3000 (no longer offered).

Prerequisite(s): OSS 2002 or PLT 2002 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3001 [0.5 credit]**Real-time Systems**

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as NET 3001.

Precludes additional credit for PLT 3002 (no longer offered).

Prerequisite(s): OSS 2009 or PLT 2009 (no longer offered).

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 3002 [0.5 credit]**Design of Optical Components and Systems**

Optical ray-tracing for analysing systems of sources, lenses, mirrors, prisms, fibers, diffractive elements, MEMS. Zemax® fundamentals, pupils, aspherics, non-sequential tracing, aberrations, image metrics, optimization/merit functions. Applications: imaging, illumination, lasers. Trade-offs, mechanical constraints, tolerances and cost. Physical optics modeling of beam propagation. Near-field diffraction and waveguides.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3004 (no longer offered).

Prerequisite(s): OSS 1003 or PLT 1003 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3003 [0.5 credit]**Fundamentals of Electromagnetics**

Review of basic vector calculus followed by an introduction to electrostatics and magnetostatics. Maxwell's equations and EM wave solutions. EM waves in dielectrics media, reflection, refraction, Fresnel relations and Brewster angle. Introduction to guided waves emphasizing slab waveguides.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3003 (no longer offered).

Prerequisite(s): BIT 1204 and BIT 2010.

Lecture and tutorial three hours a week.

OSS 3004 [0.5 credit]**Data Structures**

Specification and design of abstract data types and their implementation as stacks, queues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion, re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as NET 3004.

Precludes additional credit for PLT 3010 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 3009 [0.5 credit]**Project Management**

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of photonics using case studies.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3009 (no longer offered).

Prerequisite(s): third year standing in the Optical Systems and Sensors program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 3012 [0.5 credit]**Digital Signal Processing**

Operations-related topics including: sampling/reconstruction of continuous time signals, Fourier and Z-transforms, Discrete Fourier Transform (DFT), Fast Fourier Transform (FFT). Examination of other time and frequency domain techniques for designing and applying infinite impulse response (IIR) and finite impulse response (FIR) digital filters.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3012 (no longer offered).

Prerequisite(s): OSS 2010 or PLT 2010 (no longer offered).

Lectures three hours a week, tutorial one hour a week.

OSS 3013 [0.5 credit]**Software Design for Optical Systems and Sensors**

Provides students with knowledge and expertise to design and develop complex software systems and programs for common optical systems and sensors. Topics include: system and requirement analysis, algorithms, component identification, common design patterns, and working with reusable components.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3013 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial two hours a week.

OSS 3014 [0.5 credit]**Optical Waves, Waveguides, and Sensors**

Analysis of guided-wave propagation and sensors. Topics include Maxwell's time-dependent wave equations, dielectric waveguides (slab, planar, segmented, rib, strip), optical fibres (modes, dispersion relations, propagation in dispersive media, nonlinear fibres), beam propagation methods, free space beam propagation, waveguide devices, and study of sensors technology.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3014 (no longer offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4001 [0.5 credit]**Optoelectronic Devices**

Review of semiconductors, semiconductor lasers, detectors, photovoltaics. Electro, magneto and acousto-optic modulation devices. Transmitters, receivers, photo diodes, fiber sensors, and amplifiers, Mach-Zehnder interferometers. Polarization-mode dispersion. Experiments on non-linear optical elements, Sagnac and ring resonator, optical modulation.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4001 (no longer offered).

Prerequisite(s): OSS 3004 or PLT 3004 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4004 [0.5 credit]**Medical Imaging and Biosensors**

Biological and medical photonics. Effect of light on biological systems, medical imaging, medical treatments, biological research and bio/medical applications. Laser manipulation of cells, laser surgery, and photo-therapy. Biophotonic lab experiments with scanning confocal microscopes, endoscopes, DNA scanners.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4004 (no longer offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4006 [0.5 credit]**Image Processing**

Developing and evaluating algorithms for extracting the necessary information signals. Topics include filter design, fast transforms, adaptive filters, spectrum estimation and modeling, sensor array processing, image processing, motion estimation from images, applications in biomed, computer-aided tomography, image restoration, robotic vision, and pattern recognition.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4006 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4008 [0.5 credit]**Remote Sensing**

Introduction to the basics of remote sensing, characteristics of remote sensors, and applications. Topics include: image acquisition and data collection, LIDAR sensors and platforms and derived digital products, imagery analysis, topographic mapping, and 3D modeling of urban infrastructure for autonomous vehicles.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4008 (no longer offered).

Prerequisite(s): OSS 3014 or PLT 3014 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4009 [0.5 credit]**Computer Vision**

Introduction to topics in computer vision, including: fundamentals of image formation, camera imaging geometry, camera models, camera calibration, structure from motion, feature detection and matching, depth and stereo, image stabilization, image classification, automated alignment, scene understanding, recognition, and image searching.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4009 (no longer offered).

Prerequisite(s): OSS 4006 or PLT 4006 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4900 [1.0 credit]**OSS Capstone Project**

Research project develops students' ability to direct own learning and pursue advanced study in variety of subjects. Select topic, perform literature search, theoretical background, preliminary measurements, calculations, and design. Present findings in a preliminary thesis. Encourage writing technical papers. Research opportunities with industry and academia.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4900 (no longer offered).

Prerequisite(s): fourth-year standing.

Tutorial hours arranged.

Interdisciplinary Science and Practice

This section presents the requirements for programs in:

- Interdisciplinary Science and Practice B.Sc. Honours
- Interdisciplinary Science and Practice B.Sc.

Interdisciplinary Science and Practice B.Sc. Honours (20.0 credits)**A. Credits Included in the Major CGPA (10.0 credits)**

1. 4.0 credits in:		4.0
ISAP 1001 [0.5]	Introduction to Interdisciplinary Science	
ISAP 1002 [0.5]	Seminar in Interdisciplinary Science	
ISAP 2001 [0.5]	Foundations in Critical Inquiry	
ISAP 2002 [0.5]	Research Principles for Interdisciplinary Science	
ISAP 3001 [0.5]	Principles and Applications in Data Analysis	
ISAP 3002 [0.5]	Applications in Interdisciplinary Research	
ISAP 3003 [0.5]	Science Communication	
ISAP 3004 [0.5]	Science Policy	
2. 1.0 credit from:		1.0
ISAP 4906 [1.0]	Capstone Course - Group Research Project	
ISAP 4907 [1.0]	Capstone Course - Research Essay	
ISAP 4908 [1.0]	Capstone Course - Individual Research Project	
3. 1.0 credit in:		1.0

COMP 1005 [0.5]	Introduction to Computer Science I	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
4. 0.5 credit from:		0.5
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
5. 0.5 credit from:		0.5
COMP 1006 [0.5]	Introduction to Computer Science II	
STAT 2509 [0.5]	Introduction to Statistical Modeling II	
6. 1.0 credit from the Faculty of Science at the 2000 level or higher		1.0
7. 2.0 credits from the Faculty of Science at the 3000 level or higher		2.0
B. Credits Not Included in the Major CGPA (10.0 credits)		
8. 1.0 credit in:		1.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
9. 2.0 credits in Approved Experimental Science Courses as defined in the Regulations for the Bachelor of Science		2.0
10. 2.0 credits from the Faculty of Science at the 2000 level or higher		2.0
11. 2.0 credit in Approved courses outside the Faculties of Science and Engineering and Design, as defined in the Regulations for the Bachelor of Science. Note: students in the ISAP program may not use NSCI 1000 in this category.		2.0
12. 3.0 credits in free electives		3.0
13. Students are required to complete one minor from the Faculty of Science. A second minor (from any faculty, including Science) is encouraged. Students should consult with their academic advisor to ensure compliance with this requirement.		
Total Credits		20.0

Interdisciplinary Science and Practice B.Sc. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 4.0 credits in:		4.0
ISAP 1001 [0.5]	Introduction to Interdisciplinary Science	
ISAP 1002 [0.5]	Seminar in Interdisciplinary Science	
ISAP 2001 [0.5]	Foundations in Critical Inquiry	
ISAP 2002 [0.5]	Research Principles for Interdisciplinary Science	
ISAP 3001 [0.5]	Principles and Applications in Data Analysis	
ISAP 3002 [0.5]	Applications in Interdisciplinary Research	
ISAP 3003 [0.5]	Science Communication	
ISAP 3004 [0.5]	Science Policy	
2. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
3. 0.5 credit from:		0.5
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
4. 0.5 credit from:		0.5
COMP 1006 [0.5]	Introduction to Computer Science II	
STAT 2509 [0.5]	Introduction to Statistical Modeling II	

5. 1.0 credit from the Faculty of Science at the 2000 level or higher		1.0
6. 1.0 credit from the Faculty of Science at the 3000 level or higher		1.0
B. Credits Not Included in the Major CGPA (7.0 credits)		
7. 1.0 credit in:		1.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
8. 2.0 credits in Approved Experimental Science Courses as defined in the Regulations for the Bachelor of Science		2.0
9. 1.0 credit from the Faculty of Science at the 2000 level or higher		1.0
10. 1.0 credit in Approved courses outside the Faculties of Science and Engineering and Design, as defined in the Regulations for the Bachelor of Science. Note: students in the ISAP program may not use NSCI 1000 in this category.		1.0
11. 2.0 credits in free electives		2.0
12. Students are required to complete one Minor from the Faculty of Science. A second Minor from outside the Faculty of Science may be possible. Students should consult with their academic advisor to ensure compliance with this requirement.		
Total Credits		15.0

Interdisciplinary Science and Practice (ISAP) Courses

ISAP 1001 [0.5 credit]

Introduction to Interdisciplinary Science

What is interdisciplinarity and what are the challenges and opportunities of collaboration within and across disciplines in science and beyond? Topics include types of biases, public datasets and science communication. Lectures and discussion three hours per week.

ISAP 1002 [0.5 credit]

Seminar in Interdisciplinary Science

Exploring the role of interdisciplinarity in discovery and innovation, and discussion of selected issues facing society and the role of science. Topics include finding information, collaboration and science communication tools.

Prerequisite(s): ISAP 1001.

Seminar three hours per week.

ISAP 2001 [0.5 credit]

Foundations in Critical Inquiry

What is science and the scientific method? Topics include the scientific method, credible sources of information, knowledge gaps, the impact of scientific discoveries, and discussion of their local and global implications.

Prerequisite(s): ISAP 1002 or permission of the Institute.

Lecture three hours per week, workshop two hours per week.

ISAP 2002 [0.5 credit]**Research Principles for Interdisciplinary Science**

Exploring how research is conducted. Topics include publicly available databases, the role of communication in research, stakeholders and participants, and the process of identifying knowledge gaps and developing research questions.

Prerequisite(s): ISAP 2001 or permission of the Institute.

Lecture three hours per week.

ISAP 3001 [0.5 credit]**Principles and Applications in Data Analysis**

Development of strategies for obtaining and analyzing data. Topics include: survey of publicly available science-data resources; identification of coincidental, correlational and causal relationships; statistical data-analysis techniques; concepts of risk and error propagation in measured and calculated values. Applications in the physical and biological sciences.

Prerequisite(s): ISAP 2002, COMP 1005 and STAT 2507.

Lecture three hours per week, workshop two hours per week.

ISAP 3002 [0.5 credit]**Applications in Interdisciplinary Research**

Application of skills from Interdisciplinary Science and Practice (ISAP) courses to develop a research proposal. Topics include: research ethics; identification of stakeholders; inclusive consultation, collaboration and dissemination strategies.

Prerequisite(s): ISAP 2002.

Lecture three hours per week, workshop two hours per week.

ISAP 3003 [0.5 credit]**Science Communication**

How is science perceived and how has science been communicated? Students will use case studies to assess examples of science communication with varying outcomes. Topics include the principles of effective science communication, the range of tools available, and knowing the audience.

Includes: Experiential Learning Activity

Prerequisite(s): ISAP 2002.

Lecture and seminar three hours per week.

ISAP 3004 [0.5 credit]**Science Policy**

Exploration of how science-related policy is developed and the impact of policy on science. Topics include policy frameworks, stakeholder roles, power relationships, commercialization and the funding of science.

Prerequisite(s): ISAP 3003.

Lecture and seminar three hours per week.

ISAP 4901 [0.5 credit]**Directed Studies**

Independent or group study, open to third- and fourth-year students to explore a particular topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Interdisciplinary Science and Practice (ISAP) program and permission of the instructor.

ISAP 4906 [1.0 credit]**Capstone Course - Group Research Project**

Students will collaborate on a project that addresses a real-world issue in a team environment. Focus includes: design and completion of a research project; development of communication, critical inquiry, data analysis and research skills; and the opportunity to develop initiative, creativity and self-reliance.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4907, ISAP 4908.

Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program and permission of the Institute.

Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4907 [1.0 credit]**Capstone Course - Research Essay**

A substantial, independent essay or research proposal-based critical review and research proposal, using library, database and/or bioinformatic resources, under the direct supervision of the instructor. Topics include identification and critical review of resources, development of writing skills and formulation of research question and strategy.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4906, ISAP 4908.

Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program.

Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4908 [1.0 credit]**Capstone Course - Individual Research Project**

An independent research project under the direct supervision of a faculty adviser. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4906, ISAP 4907.

Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program, a major CGPA of 9.0 or higher, and permission of the Institute.

Lectures and discussion as scheduled by the course coordinator; other hours as arranged with the faculty advisor.

Italian (Minor)

This section presents the requirements for programs in:

- Minor in Italian

Minor in Italian (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in ITAL	3.0
2. 1.0 credit in ITAL at the 3000-level or higher	1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language.	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Italian (ITAL) Courses

Students should note that they cannot go backward in a sequence of levels in language courses.

ITAL 1010 [0.5 credit]

First-Year Italian I

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for ITAL 1110. Four hours a week.

ITAL 1020 [0.5 credit]

First-Year Italian II

Continuation of first-year Italian. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for ITAL 1110. Prerequisite(s): grade of C or higher in ITAL 1010, or permission of the School. Four hours a week.

ITAL 1110 [1.0 credit]

Intensive First-Year Italian

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for ITAL 1010 and ITAL 1020. Eight hours a week (one term).

ITAL 2010 [0.5 credit]

Second-Year Italian I

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for ITAL 2110. Prerequisite(s): grade of C or higher in ITAL 1020 or ITAL 1110, or permission of the School. Four hours a week.

ITAL 2020 [0.5 credit]

Second-Year Italian II

Continuation of second-year Italian. Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for ITAL 2110. Prerequisite(s): grade of C or higher in ITAL 2010, or permission of the School. Four hours a week.

ITAL 2110 [1.0 credit]

Intensive Second-Year Italian

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for ITAL 2010 or ITAL 2020. Prerequisite(s): grade of C or higher in ITAL 1020, ITAL 1110, or permission of the School. Eight hours a week (one term).

ITAL 3110 [1.0 credit]

Intensive Third-Year Italian

Further study of Italian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Prerequisite(s): grade of C or higher in ITAL 2000 (no longer offered), ITAL 2020, ITAL 2110, or permission of the School. Six hours a week (one term).

ITAL 4110 [1.0 credit]**Intensive Fourth-Year Italian**

Advanced spoken and written Italian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Prerequisite(s): grade of C or higher in ITAL 3110, or permission of the School.

Six hours a week (one term).

ITAL 4900 [1.0 credit]**Independent Study**

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

ITAL 4901 [0.5 credit]**Independent Study**

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

Japanese Language (Minor)

This section presents the requirements for programs in:

- Minor in Japanese Language

Minor in Japanese Language (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in JAPA	3.0
2. 1.0 credit in JAPA at the 3000-level or higher	1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Placement for Language Students

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to

complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Japanese (JAPA) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

JAPA 1010 [0.5 credit]**First-Year Japanese I**

For students with no knowledge of Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1110.

Four hours a week.

JAPA 1020 [0.5 credit]**First-Year Japanese II**

Continuation of first-year Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1110.

Prerequisite(s): grade of C or higher in JAPA 1010, or permission of the School.

Four hours a week.

JAPA 1110 [1.0 credit]**Intensive First-Year Japanese**

For students with no knowledge of Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1010 and JAPA 1020. Eight hours a week (one term).

JAPA 2110 [1.0 credit]**Intensive Second-Year Japanese**

Further study of Japanese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 1020 or JAPA 1110, or permission of the School.

Eight hours a week (one term).

JAPA 3010 [0.5 credit]**Third-Year Japanese I**

Further study of Japanese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies.

Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 2110, or permission of the School.

Three hours a week.

JAPA 3011 [0.5 credit]**Reading in Japanese – Kanji I**

Intended for students taking JAPA 3010 and those who want to learn kanji in depth and become proficient in reading various Japanese texts. The course is intended primarily for students who do not use Chinese characters in their first language.

Prerequisite(s): grade of C or higher in JAPA 2110 or permission of the School.

Three hours a week.

JAPA 3020 [0.5 credit]**Third-Year Japanese II**

Continuation of third-year Japanese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 3010, or permission of the School.

Three hours a week.

JAPA 3021 [0.5 credit]**Reading in Japanese – Kanji II**

A continuation of Reading in Japanese – Kanji I. Further development of reading skills in Japanese. Intended primarily for students who do not use Chinese characters in their first language.

Prerequisite(s): grade of C or higher in JAPA 3011 or permission of the School.

Three hours a week.

JAPA 4010 [0.5 credit]**Fourth-Year Japanese I**

Development of speaking and writing abilities more complex than those used in daily communication.

Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 3020, or permission of the School.

Three hours a week.

JAPA 4020 [0.5 credit]**Fourth-Year Japanese II**

Continuation of fourth-year Japanese. Further development of speaking and writing abilities more complex than those used in daily communication.

Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 4010, or permission of the School.

Three hours a week.

JAPA 4210 [0.5 credit]**Functional Contemporary Japanese I**

Further study of Japanese to reach a more advanced level, aimed at developing speaking and writing abilities more complex than those used in daily communication.

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in JAPA 4020 or permission of the School.

Three hours a week.

JAPA 4220 [0.5 credit]**Functional Contemporary Japanese II**

Continuation of JAPA 4210. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in JAPA 4210 or permission of the School.

Three hours a week.

JAPA 4900 [1.0 credit]**Independent Study**

Research in a topic in Japanese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, a grade of C or higher in JAPA 4020 or equivalent, or permission of the School.

JAPA 4901 [0.5 credit]**Independent Study**

Research in a topic in Japanese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, JAPA 4020 or equivalent, or permission of the School.

Journalism

This section presents the requirements for programs in:

- Journalism B.J. Honours
- Journalism with Concentration in Health Sciences B.J. Honours

- Journalism B.J. Combined Honours
- Media Production and Design B.M.P.D. Honours
- Minor in News Media and Information

Program Requirements

Journalism

B.J. Honours (20.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 1.0 credit in:		1.0
JOUR 1001 [0.5]	Foundations of Journalism: Journalism in Context	
JOUR 1002 [0.5]	Foundations of Journalism: Journalism in Practice	
2. 2.0 credits in:		2.0

HIST 2304 [1.0]	Social and Cultural History of Canada	
HIST 2311 [0.5]	Environmental History of Canada	
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters	
8. 7.0 credits in free electives. Free elective credits may include JOUR courses in the 43XX, 44XX and 45XX series, 4003, 4004 and 4005.		7.0
Total Credits		20.0

Bachelor of Journalism Combined Honours

Bachelor of Journalism students may take Combined Honours programs in which Journalism is combined with another discipline. Students may choose a Combined Honours program in Journalism and Communication and Media Studies, or from Combined Honours programs offered within the B.A. The Journalism requirements for the Combined Honours program are normally the same as those for the Bachelor of Journalism with Honours listed above. The requirements of the other discipline are the same as those listed for the B.A. Combined Honours program in that discipline. Students are advised to consult the Combined Honours entry of their second discipline in this calendar for details. Combined Honours programs in Journalism and other disciplines are available only to students registered in Journalism.

Journalism with Concentration in Health Sciences

B.J. Honours (20.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 1.0 credit in:	1.0
JOUR 1001 [0.5] Foundations of Journalism: Journalism in Context	
JOUR 1002 [0.5] Foundations of Journalism: Journalism in Practice

Journalism (JOUR) Courses

JOUR 1001 [0.5 credit]

Foundations of Journalism: Journalism in Context

This course charts a history of the fourth estate in the West from the invention of the printing press to the ascendance of networked digital communication, focusing on the political, economic and technological contexts that have shaped the news media as institutions and industries.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1002 [0.5 credit]

Foundations of Journalism: Journalism in Practice

The course introduces students to the concepts, issues and challenges in the contemporary Canadian media environment that will shape their professional role as practicing journalists. It will also provide students with an initial opportunity to practice some basic journalistic skills.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1003 [0.5 credit]

Discovering Journalism: Traditional Tales to Tweets

Journalism's evolution as community creator and guardian of democracy; its greatest scoops and worst misdeeds. From ancient news-sharing to 21st-century expression in blogs, tweets and investigative masterpieces, this course surveys ethical, political and economic contexts of journalism. Not open to Journalism majors.

Lecture three hours a week.

JOUR 2003 [0.5 credit]

Delivering Journalism: Innovators v. Imposters

Activists, imposters and innovators increasingly crowd in on traditional journalism's role of presenting reliable news and fair discussion. How is public awareness now shaped – and misshaped – and how must journalism reshape, update and defend its borders to serve communities better?.

Prerequisite(s): JOUR 1001, JOUR 1002, JOUR 1003, or permission of the School of Journalism and Communication.

Lecture and discussion three hours a week.

JOUR 2106 [0.5 credit]

The Documentary

Examination of the work of individual film makers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered. Also listed as FILM 2106.

Precludes additional credit for JOUR 2105, FILM 2105.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

JOUR 2201 [1.0 credit]

Fundamentals of Reporting

Introduction to the techniques journalists use to gather information quickly, accurately and ethically, and to present reports and features in clear, engaging ways. Newsroom exercises provide experience in reporting, writing, editing and using digital tools, including photography and social media.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Lectures, discussion and practicum six hours a week.

JOUR 2202 [0.5 credit]**Digital Journalism Toolkit**

An introduction to the digital tools and social media journalists use to gather, verify and present material to audiences. Lab exercises provide experience producing photographs, audio, and video for journalistic storytelling and the use of social media tools and platforms for reporting and publishing.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Students must be enrolled in this course concurrently with JOUR 2201.

Lectures and lab three hours a week.

JOUR 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): JOUR 1001, JOUR 1002, COMS 1001, COMS 1002, or JOUR 1003 and enrollment in the Minor in News Media and Information, or enrollment in the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management, or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

JOUR 3105 [0.5 credit]**Questions of Documentary Practice**

Theoretical implications of documentary film and documentary television practice.

Also listed as FILM 3105.

Prerequisite(s): 1.0 credit in Film Studies at the 2000-level, or permission of the School.

JOUR 3207 [0.5 credit]**Audio Journalism**

In this workshop students will build on the principles and practices of audio journalism to produce stories and audio in various formats suitable for radio and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3208 [0.5 credit]**Video Journalism**

In this workshop students will build on the principles and practices of video journalism to produce stories and video in various formats suitable for television and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3225 [0.5 credit]**Reporting in Depth**

Long-form journalistic writing skills development; techniques for thorough investigation of timely public issues. Study of outstanding feature and investigative writing examples. Students will pursue their own reporting projects.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and practicum three hours a week.

JOUR 3235 [0.5 credit]**Digital Journalism**

Further development of digital journalism skills. Students will produce journalism for online audiences using formats including written and spoken language, still and moving images.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs three hours a week.

JOUR 3300 [0.5 credit]**Media Ethics in a Digital World**

Ethical issues related to production and dissemination of news and other forms of content as they relate to digital environments. Different approaches to ethical decision-making and their application in contemporary settings. Also listed as MPAD 3300.

Precludes additional credit for JOUR 3215 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202 and JOUR 2501 with a grade of C or higher in each, or JOUR 1003, JOUR 2003 and JOUR 2501 with a grade of C or higher in each and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

JOUR 3400 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3401 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3402 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3407 [0.5 credit]**Comparative Media Studies**

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as COMS 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): third-year standing in B.J. Hons. or permission of the School of Journalism and Communication.

Lectures three hours a week.

JOUR 4001 [0.5 credit]**Journalism Now - and Next**

Changes occurring in the media, in the public's relationship with the media and how journalists and news organizations respond. Practical issues and challenges in the professional life of a journalist.

Also listed as MPAD 4001.

Precludes additional credit for JOUR 4000 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Journalism or in the Bachelor of Media Production and Design, or fourth-year standing and enrollment in the Minor in News Media and Information, or fourth-year standing in the Strategic Public Opinion stream of the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management.

Lectures and discussion three hours a week.

JOUR 4003 [0.5 credit]**The Digital Hub: Advanced Multimedia**

A workshop designed to give students instruction in digital reporting and publishing as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3235 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5003, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4004 [0.5 credit]**The Digital Hub: Advanced Audio**

A workshop designed to give students instruction in audio journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4206 (no longer offered).

Prerequisite(s): JOUR 3207 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5004, for which additional credit is precluded.

Workshops averaging eight hours per week.

JOUR 4005 [0.5 credit]**The Digital Hub: Advanced Video**

A workshop designed to give students instruction in video journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4207 (no longer offered).

Prerequisite(s): JOUR 3208 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5005, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4100 [0.5 credit]**Special Topic**

Examination of a topic in journalism not covered in depth in other courses. Seminar three hours a week.

Seminar three hours a week.

JOUR 4101 [0.5 credit]**Special Topic**

An examination of a topic in journalism not covered in depth in other courses. Topics may vary from year to year. Seminar three hours a week.

JOUR 4300 [0.5 credit]**Specialized Journalism: Special Topic**

Examination of a topic not covered in depth in other specialized journalism courses. Topics may vary from year to year. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Also listed as MPAD 4300.

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5300, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4301 [0.5 credit]**Specialized Journalism: Business and the Markets**

Core skills development for business journalism: reading financial documents, covering activities of corporations, functioning of stock and other markets, trade policy and the broader economy, focus on contemporary business news and local publicly-traded companies. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5301, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4302 [0.5 credit]**Specialized Journalism: Business and Canadian Society**

The intersection between business and public policy, from climate change to taxation, pensions, labour and corporate social responsibility. What business does and how the media covers it. Emphasis on explanatory/analytical reporting, production of a related data project as an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5302, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4303 [0.5 credit]**Specialized Journalism: Health and Science**

The culture of health science research and major trends; key challenges confronting researchers and health science journalists around the world. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5303, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4304 [0.5 credit]**Specialized Journalism: Environment and Science**

Major trends and research culture in climate and environmental sciences, focusing on key global concerns. Issues facing researchers and journalists. Focus on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5304, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4305 [0.5 credit]**Specialized Journalism: Canada and the U.S.**

Exploration of the unique issues in Canada-U.S. relations, from diplomacy to trade. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5315, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4306 [0.5 credit]**Specialized Journalism: Canada and the World**

Diplomacy, war, terrorism, migration, the international economy, development and other issues of interest to journalists who want to write about Canada and international affairs. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5306, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4308 [0.5 credit]**Specialized Journalism: Sports and Sport Culture**

Workshop equipping students with the skills to move beyond the clichés of sports writing and live event coverage. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5308, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4309 [0.5 credit]**Specialized Journalism: Arts and Culture**

Students are introduced to arts and culture journalism, exploring issues and trends that are key to understanding and covering the arts and related cultural policy in Canada. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5309, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4310 [0.5 credit]**Specialized Journalism: Justice and the Law**

Areas of law that journalists may encounter along with a practical explanation of how law works. Students gain the language and tools needed to successfully analyze and write about legal issues. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5310, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4311 [0.5 credit]**Specialized Journalism: Justice and Journalists**

Examination of the Supreme Court of Canada, and the role of journalists in covering it. Students attend hearings and gain insight into the court's role in the making and shaping of Canada. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5311, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4400 [0.5 credit]**Professional Skills: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in B.J. Honours or permission of the School.

Seminar three hours a week.

JOUR 4401 [0.5 credit]**Professional Skills: Data Storytelling**

Instruction in telling stories from data. Focus on searching for, analyzing and mapping data, turning numbers into powerful narratives.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4402 [0.5 credit]**Professional Skills: Longform Writing**

Instruction in longform story production. Focus on researching and writing, including the art and craft of writing for magazines.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4403 [0.5 credit]**Professional Skills: Strategic Communication**

Workshop pairing student teams with non-profit groups that are in need of strategic communication advice.

Instruction in planning and implementation.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4404 [0.5 credit]**Professional Skills: Freelancing for Media Professionals**

Workshop preparing students to compete in a market that values the skills and mindset of entrepreneurial media workers.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4500 [0.5 credit]**Investigating Journalism: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Also listed as MPAD 4500.

Prerequisite(s): third- or fourth-year standing in B.J.

Honours or permission of the School.

Seminar three hours a week.

JOUR 4501 [0.5 credit]**Investigating Journalism: Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis.

Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as MPAD 4501.

Precludes additional credit for JOUR 4307 (no longer offered).

Prerequisite(s): third- or fourth-year standing in B.J. Hons. or permission of the School.

Seminar three hours a week.

JOUR 4502 [0.5 credit]**Investigating Journalism: Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as MPAD 4502.

Prerequisite(s): fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4503 [0.5 credit]**Investigating Journalism: Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous peoples in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as MPAD 4503.

Prerequisite(s): third-or fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4504 [0.5 credit]**Investigating Journalism: The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda?.

Includes: Experiential Learning Activity

Also listed as MPAD 4504.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 4505 [1.0 credit]**Investigating Journalism: The Power and Politics of Government**

In-depth exploration of Canada's government, public policy and politics; parliamentary debate and committee hearings. Explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4201 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4900 [1.0 credit]**Honours Tutorial**

Students analyze some major achievements in contemporary journalism, through individual or group research. Students also have the opportunity to acquire background and experience in the managerial aspects and production of print and broadcast journalism.

Prerequisite(s): fourth-year B.J. (Honours) standing.

Journalism and Humanities

This section presents the requirements for programs in:

- Bachelor of Journalism and Humanities B.J. Hum.

Program Requirements**Intermediate Language Requirement**

1. GREK 2200 and GREK 2201
2. LATN 2200 and LATN 2201
3. FREN 1100 or FREN 2100
4. GERM 2010 and GERM 2020, or GERM 2110
5. ITAL 2010 and ITAL 2020, or ITAL 2110
6. RELI 2010
7. RUSS 2010 and RUSS 2020
8. SPAN 2010 and SPAN 2020, or SPAN 2110

**Bachelor of Journalism and Humanities
B.J. Hum. (20.0 credits)**

Note: students must enrol in this degree in their first year of study.

1.0 credit in approved electives		
Total Credits		20.0

Notes

- For **Item 9** above, students who transfer into the B.J. Hum. may use up to 1.0 credit of any previously completed art and/or music courses (with the exception

of advanced placement courses). Students normally take HUMS 2101 and HUMS 2102, or HUMS 3102 and HUMS 3103. Other combinations of these requirements may be allowed at the discretion of the College of the Humanities.

- For **Items 13** and **14** above, students who must take a beginner's level prerequisite to their intermediate language requirement should do so in place of RELI 1731 and HUMS 1005. Students who are already able to demonstrate a proficiency in a second language at an intermediate level may have the requirement waived, and in that case may be required to take an additional elective credit at the 2000-level or above in order to bring their total number of credits up to the required 20.0.

Humanities (HUMS) Courses

HUMS 1000 [1.0 credit]

Myth and Symbol

Recurring symbols in myth, epic and ritual representing the relation between the sacred and the profane, the origin of the cosmos, the basis of community, and formative human experiences. Primary sources drawn from ancient India and China, Mesopotamia, the Hebrew Bible, and Indigenous cultures.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 1005 [0.5 credit]

Early Human Cultures

Cultural experiences of small scale societies, including kinship, rituals, magic, social structure, and subsistence. Reading may include the works of classic anthropologists such as Maine, Tylor, Morgan, and Boas.

Precludes additional credit for ANTH 1001 and ANTH 1003.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 1200 [0.5 credit]

Humanities and Classical Civilisation

The ideas which animated ancient Greek and Roman civilisation and which influenced later western cultural movements through a reading of literary, historical, and philosophical works. Authors include Homer, Herodotus, Thucydides, the Greek Tragedians, Plato, Vergil, and Cicero.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 1500 [0.5 credit]**Introduction to the Humanities: Five Books that Changed the World**

A reading-intensive course on five influential books from Antiquity to the present day. Works may include the Bible, the Bhagavad Gita, Homer's *Odyssey*, Plato's *Republic*, Dante's *Inferno*, Machiavelli's *The Prince*, Shakespeare's *Hamlet*, Mary Shelley's *Frankenstein*, Nietzsche's *Beyond Good and Evil*, Marx's *Communist Manifesto*.

Prerequisite(s): enrolment in a degree program in the Faculty of Arts and Social Sciences, or the Faculty of Public Affairs. Students enrolled in the BHum. program are not eligible to register in this course.

Lecture three hours per week.

HUMS 2000 [1.0 credit]**Reason and Revelation**

The origins of philosophy in ancient Greece and its pursuit in the medieval West, with special attention to knowledge, happiness, and love. Readings include works by Plato, Aristotle, Plotinus, Augustine, Boethius, Aquinas, and Dante.

Prerequisite(s): HUMS 1000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 2101 [0.5 credit]**Art from Antiquity to the Medieval World**

A chronological and thematic survey of the Arts from the earliest times to ca. 1400.

Precludes additional credit for HUMS 4101 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 2102 [0.5 credit]**Modern European Art 1527-2000**

A chronological and thematic survey of the Arts from the sixteenth to the twenty-first century.

Precludes additional credit for HUMS 4101 (no longer offered) and HUMS 3101 (no longer offered).

Prerequisite(s): HUMS 2101 and restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3000 [1.0 credit]**Culture and Imagination**

Major forms of literary, artistic, and philosophical expression from 1500-1800. Sources drawn from renaissance humanism, reformation theology, enlightenment and romantic philosophy.

Prerequisite(s): HUMS 2000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 3102 [0.5 credit]**Western Music 1000-1850**

Introduction to basic theory, harmony, history and interpretation of Western music including the Medieval, Renaissance, Baroque, Classical and early Romantic periods.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3103 [0.5 credit]**Western Music 1850-2000**

Western music from the mid-nineteenth century to the present with emphasis on the seminal contributions of Liszt, Wagner, Mahler, Debussy, Stravinsky, Schönberg and others.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): HUMS 3102 and restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 3200 [1.0 credit]**European Literature**

Major movements and works from Dante's *Divine Comedy* through Voltaire's *Candide*. Themes include the New Humanism vs. old Chivalry in the Renaissance and Baroque periods; the rise of the modern novel and drama; reason, nature, and the Enlightenment project.

Also listed as ENGL 3201.

Prerequisite(s): HUMS 2000 and third-year standing in the Bachelor of Humanities program. English students should have third-year standing with a GPA of B or above.

Lectures three hours a week.

HUMS 3500 [0.5 credit]**Ancient and Medieval Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from Archaic Greece to the High Middle Ages.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 3550 [0.5 credit]**Renaissance and Early Modern Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from the Early Renaissance to 1800.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 4000 [1.0 credit]**Politics, Modernity and the Common Good**

Modern and post-modern ways of thinking and doing, including revolutionary new ideas in politics, philosophy, culture, economics, and international relations. Thinkers considered include Arendt, Foucault, Hegel, Heidegger, Hobbes, Kant, Marx, Nietzsche, Polanyi, Rousseau, Said, and Taylor.

Includes: Experiential Learning Activity

Prerequisite(s): HUMS3000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 4001 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

HUMS 4002 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program and Good Standing in the program.

HUMS 4103 [0.5 credit]**Science in the Modern World**

An introduction to the major scientific ideas of our time (such as Big Bang theory, molecular genetics, evolution, atomic structure), and the impact of technology on society (e.g. global warming, pollution, genetically modified foods, viral infections).

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4100 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4500 [0.5 credit]**Modern Intellectual History**

Examination of some of the major ideas and ideologies from 1800 to the present, including romanticism, liberalism, nationalism, symbolism, socialism, Freudianism, communism, feminism, and postmodernism.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4104.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4901 [0.5 credit]**Research Seminar: Antiquity to the Middle Ages**

An interdisciplinary seminar on a selected topic in the humanities from Antiquity to the Middle Ages. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4902 [0.5 credit]**Research Seminar: Renaissance to Enlightenment**

An interdisciplinary seminar on a selected topic in the humanities from the Renaissance to the Enlightenment. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4903 [0.5 credit]**Research Seminar: Romanticism to the Present**

An interdisciplinary seminar on a selected topic in the humanities from Romanticism to the present. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4904 [0.5 credit]**Research Seminar: Non-Western Traditions**

An interdisciplinary seminar on a selected topic in the humanities as expressed in aboriginal and Non-Western cultures. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

Journalism (JOUR) Courses**JOUR 1001 [0.5 credit]****Foundations of Journalism: Journalism in Context**

This course charts a history of the fourth estate in the West from the invention of the printing press to the ascendance of networked digital communication, focusing on the political, economic and technological contexts that have shaped the news media as institutions and industries.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1002 [0.5 credit]**Foundations of Journalism: Journalism in Practice**

The course introduces students to the concepts, issues and challenges in the contemporary Canadian media environment that will shape their professional role as practicing journalists. It will also provide students with an initial opportunity to practice some basic journalistic skills.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1003 [0.5 credit]**Discovering Journalism: Traditional Tales to Tweets**

Journalism's evolution as community creator and guardian of democracy; its greatest scoops and worst misdeeds.

From ancient news-sharing to 21st-century expression in blogs, tweets and investigative masterpieces, this course surveys ethical, political and economic contexts of journalism. Not open to Journalism majors.

Lecture three hours a week.

JOUR 2003 [0.5 credit]**Delivering Journalism: Innovators v. Imposters**

Activists, imposters and innovators increasingly crowd in on traditional journalism's role of presenting reliable news and fair discussion. How is public awareness now shaped – and misshaped – and how must journalism reshape, update and defend its borders to serve communities better?.

Prerequisite(s): JOUR 1001, JOUR 1002, JOUR 1003, or permission of the School of Journalism and Communication.

Lecture and discussion three hours a week.

JOUR 2106 [0.5 credit]**The Documentary**

Examination of the work of individual film makers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered.

Also listed as FILM 2106.

Precludes additional credit for JOUR 2105, FILM 2105.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

JOUR 2201 [1.0 credit]**Fundamentals of Reporting**

Introduction to the techniques journalists use to gather information quickly, accurately and ethically, and to present reports and features in clear, engaging ways. Newsroom exercises provide experience in reporting, writing, editing and using digital tools, including photography and social media.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Lectures, discussion and practicum six hours a week.

JOUR 2202 [0.5 credit]**Digital Journalism Toolkit**

An introduction to the digital tools and social media journalists use to gather, verify and present material to audiences. Lab exercises provide experience producing photographs, audio, and video for journalistic storytelling and the use of social media tools and platforms for reporting and publishing.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Students must be enrolled in this course concurrently with JOUR 2201.

Lectures and lab three hours a week.

JOUR 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court.

Also listed as COMS 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): JOUR 1001, JOUR 1002, COMS 1001, COMS 1002, or JOUR 1003 and enrollment in the Minor in News Media and Information, or enrollment in the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management, or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

JOUR 3105 [0.5 credit]**Questions of Documentary Practice**

Theoretical implications of documentary film and documentary television practice.

Also listed as FILM 3105.

Prerequisite(s): 1.0 credit in Film Studies at the 2000-level, or permission of the School.

JOUR 3207 [0.5 credit]**Audio Journalism**

In this workshop students will build on the principles and practices of audio journalism to produce stories and audio in various formats suitable for radio and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3208 [0.5 credit]**Video Journalism**

In this workshop students will build on the principles and practices of video journalism to produce stories and video in various formats suitable for television and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3225 [0.5 credit]**Reporting in Depth**

Long-form journalistic writing skills development; techniques for thorough investigation of timely public issues. Study of outstanding feature and investigative writing examples. Students will pursue their own reporting projects.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and practicum three hours a week.

JOUR 3235 [0.5 credit]**Digital Journalism**

Further development of digital journalism skills. Students will produce journalism for online audiences using formats including written and spoken language, still and moving images.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs three hours a week.

JOUR 3300 [0.5 credit]**Media Ethics in a Digital World**

Ethical issues related to production and dissemination of news and other forms of content as they relate to digital environments. Different approaches to ethical decision-making and their application in contemporary settings. Also listed as MPAD 3300.

Precludes additional credit for JOUR 3215 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202 and JOUR 2501 with a grade of C or higher in each, or JOUR 1003, JOUR 2003 and JOUR 2501 with a grade of C or higher in each and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

JOUR 3400 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3401 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3402 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3407 [0.5 credit]**Comparative Media Studies**

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as COMS 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): third-year standing in B.J. Hons. or permission of the School of Journalism and Communication.

Lectures three hours a week.

JOUR 4001 [0.5 credit]**Journalism Now - and Next**

Changes occurring in the media, in the public's relationship with the media and how journalists and news organizations respond. Practical issues and challenges in the professional life of a journalist.

Also listed as MPAD 4001.

Precludes additional credit for JOUR 4000 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Journalism or in the Bachelor of Media Production and Design, or fourth-year standing and enrollment in the Minor in News Media and Information, or fourth-year standing in the Strategic Public Opinion stream of the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management.

Lectures and discussion three hours a week.

JOUR 4003 [0.5 credit]**The Digital Hub: Advanced Multimedia**

A workshop designed to give students instruction in digital reporting and publishing as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3235 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5003, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4004 [0.5 credit]**The Digital Hub: Advanced Audio**

A workshop designed to give students instruction in audio journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4206 (no longer offered).

Prerequisite(s): JOUR 3207 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5004, for which additional credit is precluded.

Workshops averaging eight hours per week.

JOUR 4005 [0.5 credit]**The Digital Hub: Advanced Video**

A workshop designed to give students instruction in video journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4207 (no longer offered).

Prerequisite(s): JOUR 3208 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5005, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4100 [0.5 credit]**Special Topic**

Examination of a topic in journalism not covered in depth in other courses. Seminar three hours a week.

Seminar three hours a week.

JOUR 4101 [0.5 credit]**Special Topic**

An examination of a topic in journalism not covered in depth in other courses. Topics may vary from year to year.

Seminar three hours a week.

JOUR 4300 [0.5 credit]**Specialized Journalism: Special Topic**

Examination of a topic not covered in depth in other specialized journalism courses. Topics may vary from year to year. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Also listed as MPAD 4300.

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5300, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4301 [0.5 credit]**Specialized Journalism: Business and the Markets**

Core skills development for business journalism: reading financial documents, covering activities of corporations, functioning of stock and other markets, trade policy and the broader economy, focus on contemporary business news and local publicly-traded companies. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5301, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4302 [0.5 credit]**Specialized Journalism: Business and Canadian Society**

The intersection between business and public policy, from climate change to taxation, pensions, labour and corporate social responsibility. What business does and how the media covers it. Emphasis on explanatory/analytical reporting, production of a related data project as an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5302, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4303 [0.5 credit]**Specialized Journalism: Health and Science**

The culture of health science research and major trends; key challenges confronting researchers and health science journalists around the world. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5303, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4304 [0.5 credit]**Specialized Journalism: Environment and Science**

Major trends and research culture in climate and environmental sciences, focusing on key global concerns. Issues facing researchers and journalists. Focus on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5304, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4305 [0.5 credit]**Specialized Journalism: Canada and the U.S.**

Exploration of the unique issues in Canada-U.S. relations, from diplomacy to trade. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5315, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4306 [0.5 credit]**Specialized Journalism: Canada and the World**

Diplomacy, war, terrorism, migration, the international economy, development and other issues of interest to journalists who want to write about Canada and international affairs. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5306, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4308 [0.5 credit]**Specialized Journalism: Sports and Sport Culture**

Workshop equipping students with the skills to move beyond the clichés of sports writing and live event coverage. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5308, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4309 [0.5 credit]**Specialized Journalism: Arts and Culture**

Students are introduced to arts and culture journalism, exploring issues and trends that are key to understanding and covering the arts and related cultural policy in Canada. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5309, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4310 [0.5 credit]**Specialized Journalism: Justice and the Law**

Areas of law that journalists may encounter along with a practical explanation of how law works. Students gain the language and tools needed to successfully analyze and write about legal issues. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5310, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4311 [0.5 credit]**Specialized Journalism: Justice and Journalists**

Examination of the Supreme Court of Canada, and the role of journalists in covering it. Students attend hearings and gain insight into the court's role in the making and shaping of Canada. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5311, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4400 [0.5 credit]**Professional Skills: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in B.J. Honours or permission of the School.

Seminar three hours a week.

JOUR 4401 [0.5 credit]**Professional Skills: Data Storytelling**

Instruction in telling stories from data. Focus on searching for, analyzing and mapping data, turning numbers into powerful narratives.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4402 [0.5 credit]**Professional Skills: Longform Writing**

Instruction in longform story production. Focus on researching and writing, including the art and craft of writing for magazines.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4403 [0.5 credit]**Professional Skills: Strategic Communication**

Workshop pairing student teams with non-profit groups that are in need of strategic communication advice.

Instruction in planning and implementation.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4404 [0.5 credit]**Professional Skills: Freelancing for Media Professionals**

Workshop preparing students to compete in a market that values the skills and mindset of entrepreneurial media workers.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4500 [0.5 credit]**Investigating Journalism: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Also listed as MPAD 4500.

Prerequisite(s): third- or fourth-year standing in B.J.

Honours or permission of the School.

Seminar three hours a week.

JOUR 4501 [0.5 credit]**Investigating Journalism: Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis. Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as MPAD 4501.

Precludes additional credit for JOUR 4307 (no longer offered).

Prerequisite(s): third- or fourth-year standing in B.J. Hons. or permission of the School.

Seminar three hours a week.

JOUR 4502 [0.5 credit]**Investigating Journalism: Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as MPAD 4502.

Prerequisite(s): fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4503 [0.5 credit]**Investigating Journalism: Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous peoples in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as MPAD 4503.

Prerequisite(s): third- or fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4504 [0.5 credit]**Investigating Journalism: The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda?.

Includes: Experiential Learning Activity

Also listed as MPAD 4504.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 4505 [1.0 credit]**Investigating Journalism: The Power and Politics of Government**

In-depth exploration of Canada's government, public policy and politics; parliamentary debate and committee hearings. Explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4201 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4900 [1.0 credit]**Honours Tutorial**

Students analyze some major achievements in contemporary journalism, through individual or group research. Students also have the opportunity to acquire background and experience in the managerial aspects and production of print and broadcast journalism.

Prerequisite(s): fourth-year B.J. (Honours) standing.

Latin American and Caribbean Studies

This section presents the requirements for programs in:

- Specialization in Latin American and Caribbean Studies B.G.In.S. Honours
- Stream in Latin American and Caribbean Studies B.G.In.S.
- Minor in Latin American and Caribbean Studies

Program Requirements**Bachelor of Global and International Studies (B.G.In.S.)**

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Latin American and Caribbean Studies**B.G.In.S. Honours (20.0 credits)****A. Credits Included in Major CGPA (12.0 credits)**

1. 4.5 credits in: Core Courses		4.5
GINS 1000 [0.5]	Global History	
GINS 1010 [0.5]	International Law and Politics	
GINS 1020 [0.5]	Ethnography, Globalization and Culture	
GINS 2000 [0.5]	Ethics and Globalization	
GINS 2010 [0.5]	Globalization and International Economic Issues	
GINS 2020 [0.5]	Global Literatures	
GINS 3010 [0.5]	Global and International Theory	
GINS 3020 [0.5]	Places, Boundaries, Movements and Global Environmental Change	
GINS 4090 [0.5]	Honours Seminar in Global and International Studies	

2. 0.0 credit in: International Experience Requirement Preparation

GINS 1300 [0.0] International Experience Requirement Preparation

3. 7.5 credits in: the Specialization 7.5

Note: Language Requirement - Students choosing the Latin America and Caribbean Studies Specialization must fulfil their language requirement with a language relevant to Latin America and the Caribbean other than English. The Program Director will maintain a list of those languages suitable for meeting this requirement.

Latin American and Caribbean Studies (LACS) Courses

LACS 1001 [0.5 credit]

Introduction to Latin American and Caribbean Studies I

An introduction to the history, culture, societies, and literatures of the region. Students will get a broad overview of the region and will be introduced to the disciplines used to study these societies.

Lectures three hours per week.

LACS 1002 [0.5 credit]

Introduction to Latin American and Caribbean Studies II

An interdisciplinary introduction to the major political, economic, environmental, and geographical issues confronting the region.

Lectures three hours per week.

LACS 4001 [0.5 credit]

Issues in Latin American and Caribbean Studies

An examination of the major issues confronting Latin America and the Caribbean including democratization, economic integration, indigenous and women's movements, human rights, social justice, and political change.

Prerequisite(s): fourth year standing or permission of the Institute.

Seminar three hours per week.

LACS 4819 [0.5 credit]

Latin America and the World

Latin America's changing relations with states, international institutions and non-state actors in the Global North and South. Topics may include security, South-South cooperation, trade, investment and transnational migration and drug trafficking.

Also listed as PSCI 4819.

Prerequisite(s): fourth-year standing or permission from the Institute.

Seminar three hours a week.

Korean Language (Minor)

This section presents the requirements for programs in:

- Minor in Korean Language

Minor in Korean Language (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. **3.0 credits in KORE** 3.0
2. **1.0 credit in KORE** at the 3000-level or higher 1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above, as follows:

a. 1.0 credit in:

ALDS 2203 [0.5] Linguistic Theory and Second-Language Learning

ALDS 4203 [0.5] Methods and Practice in Language Pedagogy

b. courses at the 2000-level or higher in another discipline relevant to the language

4. The remaining requirements of the major discipline(s) and degree must be satisfied

Total Credits

4.0

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Korean (KORE) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students should note that they cannot go backward in a sequence of levels in language courses.

KORE 1010 [0.5 credit]

First-Year Korean I

For students with no knowledge of Korean. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for LANG 1010, when the language of instruction was Korean.

Four hours a week.

KORE 1020 [0.5 credit]

First-Year Korean II

Continuation of first-year Korean. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for LANG 1020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1010, or in LANG 1010 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2010 [0.5 credit]**Second-Year Korean I**

Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for LANG 2010, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1020, or in LANG 1020 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2020 [0.5 credit]**Second-Year Korean II**

Continuation of second-year Korean. Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 2010, or in LANG 2010 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 3010 [0.5 credit]**Third-Year Korean I**

Continuation of the study of Korean to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009 (when the language of instruction was Korean).

Prerequisite(s): grade of C or higher in KORE 2020 or LANG 2020 (if taken in winter 2017), or permission of the School.

Seminar three hours a week.

KORE 3020 [0.5 credit]**Third-Year Korean II**

Continuation of third-year Korean. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009 (when the language of instruction was Korean).

Prerequisite(s): grade of C or higher in KORE 3010, or permission of the School.

Seminar three hours a week.

KORE 4010 [0.5 credit]**Fourth-Year Korean I**

Development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in KORE 3020, or permission of the School.

Seminar three hours a week.

KORE 4020 [0.5 credit]**Fourth-Year Korean II**

Continuation of Fourth-Year Korean. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains.

Compulsory attendance.

Prerequisite(s): grade of C or higher in KORE 4010, or permission of the School.

Seminar three hours a week.

Law

This section presents the requirements for programs in:

- Law B.A. Honours
- Law B.A. Combined Honours
- Law and Human Rights B.A. Combined Honours
- Law with Concentration in Law, Policy and Government B.A. Honours
- Law with Concentration in Law, Policy and Government B.A. Combined Honours
- Law with Concentration in Business Law B.A. Honours
- Law with Concentration in Business Law B.A. Combined Honours
- Law with Concentration in Transnational Law and Human Rights B.A. Honours
- Law with Concentration in Transnational Law and Human Rights B.A. Combined Honours
- Law B.A.
- Specialization in Global Law and Social Justice B.G.In.S. Honours
- Stream in Global Law and Social Justice B.G.In.S.
- Minor in Law
- Mention : français : Law

Program Requirements

Law

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 1.0 credit in:		1.0
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
2. 0.5 credit from:		0.5
LAWS 2201 [0.5]	Persons and Property	
LAWS 2202 [0.5]	Obligations	
3. 0.5 credit from:		0.5
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
4. 0.5 credit from:		0.5
LAWS 2105 [0.5]	Social Justice and Human Rights	
LAWS 2501 [0.5]	Law, State and Constitution	
LAWS 2502 [0.5]	Law, State and Citizen	
LAWS 2601 [0.5]	Public International Law	
5. 0.5 credit from	Items 2-4 not already used to fulfil those items.	0.5
6. 1.0 credit in:		1.0

LAWS 2908 [0.5]	Approaches in Legal Studies I	
LAWS 3908 [0.5]	Approaches in Legal Studies II	
7. 3.0 credits in LAWS	at the 4000-level or above or in IPAF 4900 (with permission of the department).	3.0
8. 2.0 credits in LAWS		2.0
B. Credits Not Included in the Major CGPA (11.0 credits)		
9. 8.0 credits in	electives not in LAWS	8.0
10. 3.0 credits in	free electives.	3.0
Total Credits		20.0

Notes:

- Students with a Major in Law are encouraged, but not required, to consider completing a Minor in another discipline in order to broaden their exposure to that discipline.

Law

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Law Major CGPA (6.5 credits)

1. 1.0 credit in:		1.0
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
2. 0.5 credit from:		0.5
LAWS 2201 [0.5]	Persons and Property	
LAWS 2202 [0.5]	Obligations	
3. 0.5 credit from:		0.5
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
4. 0.5 credit from:		0.5
LAWS 2105 [0.5]	Social Justice and Human Rights	
LAWS 2501 [0.5]	Law, State and Constitution	
LAWS 2502 [0.5]	Law, State and Citizen	
LAWS 2601 [0.5]	Public International Law	
5. 0.5 credit from	Items 2-4 not already used to fulfil those items.	0.5
6. 1.0 credit in:		1.0
LAWS 2908 [0.5]	Approaches in Legal Studies I	
LAWS 3908 [0.5]	Approaches in Legal Studies II	
7. 0.5 credit in LAWS	at the 3000 level or above	0.5
8. 2.0 credits in LAWS	at the 4000 level or above	2.0
B. Additional Requirements (13.5 credits)		13.5
9. The requirements from the other discipline must be satisfied		
10. Sufficient free electives to make up 20.0 credits total for the program.		
Total Credits		20.0

Law and Human Rights

B.A. Combined Honours (20.0 credits)

Students may complete a B.A.(Honours) in Law and Human Rights. Students must complete the Law - B.A. Combined Honours requirements stated above. The Human Rights requirements are offered jointly by the Departments of Law, Philosophy, Political Science and Sociology: please consult the Human Rights program entry for details concerning the Human Rights component of the program.

Law with Concentration in Law, Policy and Government

B.A. Honours (20.0 credits)

Continuation in this concentration requires a minimum CGPA of 6.50 over credits in the concentration. The courses defining the Concentration in Law, Policy and Government are those in **Items 2, 7, 8, 9** below.

A. Credits Included in the Major CGPA (10.5 credits)

1. 1.0 credit in:		1.0
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
2. 1.0 credit in:		1.0
LAWS 2501 [0.5]	Law, State and Constitution	
LAWS 2502 [0.5]	Law, State and Citizen	
3. 0.5 credits from:		0.5
LAWS 2201 [0.5]	Persons and Property	
LAWS 2202 [0.5]	Obligations	
4. 0.5 credit from:		0.5
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
5. 0.5 credit from:		0.5
LAWS 2105 [0.5]	Social Justice and Human Rights	
LAWS 2601 [0.5]	Public International Law	
(or 0.5 credit from Items 3-4 not already used to fulfil those items)		
6. 1.0 credit in:		1.0
LAWS 2908 [0.5]	Approaches in Legal Studies I	
LAWS 3908 [0.5]	Approaches in Legal Studies II	
7. 1.5 credits in:		1.5
LAWS 3005 [0.5]	Law and Regulation	
LAWS 3506 [0.5]	Administrative Law	
LAWS 4801 [0.5]	Risk and the Legal Process	
8. 2.0 credits from:		2.0
LAWS 3106 [0.5]	Law and Social Regulation	
LAWS 3405 [0.5]	Labour Law	
LAWS 3500 [0.5]	Constitutional Law	
LAWS 3502 [0.5]	Regulating Freedom of Expression in Canada	
LAWS 3503 [0.5]	Equality and Discrimination	
LAWS 3504 [0.5]	Law and Aboriginal Peoples	
LAWS 3509 [0.5]	The Charter of Rights Topics	
LAWS 3800 [0.5]	Law of Environmental Quality	
9. 1.5 credits from:		1.5
LAWS 4006 [0.5]	Religion and State in Canada	
LAWS 4101 [0.5]	Contemporary Justice Theories	
LAWS 4102 [0.5]	Controversies in Rights Theory	
LAWS 4507 [0.5]	Administrative Law and Control	
LAWS 4510 [0.5]	Topics in Law, Policy and Government	
LAWS 4603 [0.5]	Transitional Justice

Law (LAWS) Courses

Note: some graduate courses may also be open to interested fourth-year students with permission of the Department.

LAWS 1001 [0.5 credit]

Introduction to Legal Studies 1

Introduction to legal studies: concepts, sources, nature and functions of law; historical, cultural and constitutional foundations of Canadian legal system; common and civil law traditions; statutory interpretation; precedent; legal institutions; frameworks for analyzing formal and informal conceptions of law and its role in society.

Precludes additional credit for LAWS 1000 (no longer offered).

Lectures and discussion three hours a week.

LAWS 1002 [0.5 credit]

Introduction to Legal Studies 2

Introduction to legal rules and theoretical approaches for critically understanding the creation, interpretation and enforcement of those rules; the role of judges, juries, lawyers, and lay persons; adjudication and alternative dispute resolution; relationship of law with social change and justice; challenges of access to justice.

Precludes additional credit for LAWS 1000 (no longer offered).

Lectures and discussion three hours a week.

LAWS 2105 [0.5 credit]

Social Justice and Human Rights

Theories and practices of law and social justice. Issues examined may include: civil democracy and repression; global governance and the rule of law; democratic movements and social power; human rights instruments, regimes and remedies; armed conflict; and humanitarian intervention.

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200 or HUMR 1001 [1.0] or PAPM 1000 [1.0].

Lectures three hours a week.

LAWS 2201 [0.5 credit]

Persons and Property

Origins and scope of the concept of person in law and how concepts of legal personality change over time. Origins and scope of the concept of property and how concepts of property change over time.

Precludes additional credit for LAWS 2003 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2202 [0.5 credit]**Obligations**

The concepts employed by the law for creating and enforcing legal obligations between persons within society, including contract, tort, fiduciary obligation and restitution. Consideration is given to the role of persons and the role of the state in ordering private legal obligations.

Precludes additional credit for LAWS 2003 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2301 [0.5 credit]**Criminal Justice System**

The institutional and social production of criminal law in Canada. Processes, personnel, and agencies in the criminal legal system. The role of discretion and mechanisms of accountability. The accused and the place of the victim. Issues and problems in sentencing and punishment.

Precludes additional credit for LAWS 2004 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2302 [0.5 credit]**Criminal Law**

The legal and social dimensions of criminal liability and responsibility in Canada, including issues and problems surrounding mens rea, actus reus, and the attachment of liability. Excuses and justifications, the Canadian Criminal Code and the role of the Charter in the criminal legal system.

Precludes additional credit for LAWS 2004 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2501 [0.5 credit]**Law, State and Constitution**

Law relating to the state, society and the constitution, with a focus on the historical framework, federalism, and constitutional reform in Canada.

Precludes additional credit for LAWS 2005 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAMP 1000 [1.0].

Lectures three hours a week.

LAWS 2502 [0.5 credit]**Law, State and Citizen**

Law relating to the state and its relationship to individuals and groups in society, with a focus on the administrative process, basic values and the Charter.

Precludes additional credit for LAWS 2005 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAMP 1000 [1.0].

Lectures three hours a week.

LAWS 2601 [0.5 credit]**Public International Law**

Examination of the role of law in contemporary international relations. Nature, history and sources of international law; international personality of states; status of international organizations and individuals; creation and effect of international obligations; importance and functions of law in the settlement of international disputes.

Precludes additional credit for LAWS 3603 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAMP 1000 [1.0].

Lectures three hours a week.

LAWS 2908 [0.5 credit]**Approaches in Legal Studies I**

Introduction to interdisciplinary research and analysis in law and legal studies; finding and analyzing primary and secondary legal sources; introduction to the interrelationship between theory, practice and research. Students are strongly encouraged to take this course in the second year of their program.

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 1001 and LAWS 1002 or LAWS 1000 (no longer offered).

Lectures and tutorials three hours a week.

LAWS 3001 [0.5 credit]**Women and the Legal Process**

How the legal process has affected the status of women. Areas of concentration within the Canadian context include the criminal law, citizenship and immigration, education, employment, and welfare and social services.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3003 [0.5 credit]**Contracts**

The enforcement of promises and agreements; basic doctrines and underlying principles of the law of contract are studied from formation of the contract to remedies for breach of contract; role of contract for economic and social purposes is also considered.

Prerequisite(s): LAWS 2202 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3005 [0.5 credit]**Law and Regulation**

Definitions and goals of regulation; contemporary theories and debates about legal and non-legal approaches to regulation. Approaches studied may include market mechanisms, public agency regulation, self-regulation and governance in co-operation with associations in civil society.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.

Lectures three hours a week.

LAWS 3006 [0.5 credit]**Mediation**

Theory and practice of mediation; historical roots and influences; contrasts with formal litigation and other dispute resolution processes; issues of social and legal control; critiques, including feminist, Marxist and critical race theory; issues of power, gender, race and class; application to contemporary issues and disputes.

Prerequisite(s): (LAWS 1001 and LAWS 1002) and (1.0 credit in LAWS at the 2000 level or 0.5 credit in LAWS at the 2000 level and BUSI 2601).

Lectures three hours a week.

LAWS 3101 [0.5 credit]**Philosophy of Law: The Nature of Law**

The concept of law, leading theories of law and related concepts such as rules and obligations, power and authority, coercion, and justice.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3102 [0.5 credit]**Philosophy of Law: The Logic of the Law**

Legal reasoning and analysis of concepts of particular significance to the law, including justice, rights and duties, liability, punishment, ownership and possession.

Also listed as PHIL 3102.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3105 [0.5 credit]**Theory of Law and Politics**

Theories of law and politics; prominent thinkers and schools of thought; influence on legal and political institutions. Topics include law and ethics, justice and equity, positivism and natural law, state absolutism, codifications, and anthropological and historical theories of law and society.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level, or 0.5 credit in LAWS at the 2000 level and PSCI 1100.

Lectures three hours a week.

LAWS 3106 [0.5 credit]**Law and Social Regulation**

A study of sociological theories of law as well as the nature of legal institutions. Impacts of legal regulation on various social institutions and on processes of social debate and conflict.

Also listed as SOCI 3480.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3201 [0.5 credit]**Business Enterprise Frameworks**

Forms of carrying on business activity: proprietorships, partnerships, corporations and Crown entities. The rights and obligations of such business enterprises both internally and in relation with other persons. The relationship between legal form and economic function. The role of state intervention.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3202 [0.5 credit]**Intellectual Property**

Critical assessment of copyright, patents, trademarks, trade secrets and other forms of intellectual property; regulation and governance of information technology including self-regulation, standard setting, licensing, competition policy and international dimensions.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.

Lectures three hours a week.

LAWS 3203 [0.5 credit]**The Legal Nature of Property**

An examination of the nature and functions of property as a legal and social institution, with particular reference to theories of property, the scope of property interests, and the relationship between individual property rights and the state.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3205 [0.5 credit]**Consumer Law**

Need for consumer protection in the provision of goods and services; traditional legal protection by statute and common law; legislative responses to consumer pressures; judicial response in recent Canadian, English and American law; reform of consumer law.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3206 [0.5 credit]**Banking Law**

The law relating to banks and banking; the nature of the legal relationship created; legal rights and duties of the parties involved. Consumer and corporate aspects of banking (including computerization and electronic funds transfers); regulations of banking.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3207 [0.5 credit]**International Transactions**

Topics may include: the international sale of goods, finance of transnational transactions, international carriage of goods, insurance, agency and trading houses; other forms of trade, e.g., counter-trade, foreign investment; settlement of international disputes by litigation and arbitration.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3208 [0.5 credit]**International Trade Regulation**

International regulation of trade and investment through bilateral, regional and multilateral treaties and agreements. Topics may include: WTO, NAFTA, the EU, UNCTAD, intergovernmental commodity agreements, dispute settlement.

Prerequisite(s): (0.5 credit from LAWS 2202, LAWS 2501, LAWS 2601, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3209 [0.5 credit]**Canadian Correctional Policies in Historical Perspective**

History of corrections in Canada in the context of the international evolution of western penal systems, Canadian corrections in the twentieth century and expansion of alternatives to prison after WWII; criminological debates about the theoretical and empirical significance of historical milestones in corrections.

Prerequisite(s): LAWS 2301 and LAWS 2302.

Lectures three hours a week.

LAWS 3303 [0.5 credit]**Torts**

Principles of legal liability for harm caused to the person or property of others; examination of policy rationales justifying and limiting liability; responsiveness to changing social values and conditions. Particular focus on negligence law; may also consider nuisance, intentional torts and other topics.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3305 [0.5 credit]**Crime and State in History**

The history of the relationship between the criminal law system and society. Changing issues in the criminal law and the nature of institutional responses, covering medieval to early nineteenth-century England and nineteenth to early twentieth-century Canada.

Also listed as HIST 3305.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level, or 0.5 credit in LAWS at the 2000 level and 0.5 credit in HIST at the 2000 level.

Lectures three hours a week.

LAWS 3306 [0.5 credit]**Crime, Law, Process and Politics**

Criminal law process in Canada; structure and use of the process examined for fairness, defects, and possible reform initiatives. Issues concerning gender, race and class bias in the implementation and application of the criminal law.

Prerequisite(s): LAWS 2301 and LAWS 2302.

Lectures three hours a week.

LAWS 3307 [0.5 credit]**Youth and Criminal Law**

A review of the Youth Criminal Justice Act within the framework of the Canadian justice system, with particular emphasis on historical and philosophical developments and objectives. Current topics include: constitutional issues, procedure, confessions, transfers, sentencing options, alternative measures, reviews, and possible amendments.

Prerequisite(s): LAWS 2301 and LAWS 2302.

Lectures three hours a week.

LAWS 3308 [0.5 credit]**Punishment and the Law**

This course explores justifications and practices of punishment and social control from a socio-legal perspective. Rationalizations and justifications for punishment are considered. Different forms of punishment and control within the law will be examined as well as different theoretical perspectives of punishment.

Prerequisite(s): LAWS 2301 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3401 [0.5 credit]**Employment Law**

Legal regulation of the employment relationship; its contractual basis; defining employment; rights and duties of employees and employers; termination of employment; statutory regulation through employment standards legislation, human rights codes, workers' compensation acts, occupational health and safety and related statutes.

Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3405 [0.5 credit]**Labour Law**

Role of law in industrial relations; effect of law on collective bargaining relationships; recognition of bargaining agent; regulation of bargaining; administration of the collective agreement; methods of conflict resolution.

Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3500 [0.5 credit]**Constitutional Law**

An investigation of the Canadian constitution. Sovereignty, the nature and units of executive, legislative, and judicial power in Canada as interpreted by the courts. The distribution of powers under the Canadian constitution, including an investigation of contemporary problems of federalism. Problems of judicial review.

Prerequisite(s): (LAWS 2501 or PSCI 2003) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3501 [0.5 credit]**Law in the Information Society**

Legal responses to challenges of the information society. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, control of objectionable content, Charter and human rights issues, and security.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3502 [0.5 credit]**Regulating Freedom of Expression in Canada**

The claimed relationship between freedom of expression and Canadian democracy, including the historical development of the right and various limits on it, and the regulatory structures governing contemporary media, criminalized and commercial expression, and use of media in the courtroom.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3503 [0.5 credit]**Equality and Discrimination**

Human rights issues and law in Canada; history and present day experiences of discrimination; critical exploration of laws effectiveness in responding to discrimination; meaning(s) of equality and discrimination; focus on Human Rights Codes - interpretation, administration, enforcement with some reference to s.15 of the Charter.

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3504 [0.5 credit]**Law and Aboriginal Peoples**

The legal situation of aboriginal peoples in Canada. Topics include status, aboriginal rights, treaties, legislative jurisdiction and the constitutional framework, aboriginal claims, and self-government. Comparative references to aboriginal policy in other countries.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3506 [0.5 credit]**Administrative Law**

Structure and procedure of Canadian administrative authorities; policy, statutory and judicial environments in which they operate. Topics include techniques for implementing public policy and structuring public authorities; statutory interpretation; procedural safeguards; exercise of statutory discretion; reconciling efficiency and fairness.

Prerequisite(s): LAWS 2502 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3508 [0.5 credit]**Health Law**

Legal/ethical issues in health care regulation. Topics may include: regulation of health professions; economics of health care; informed consent/choice; regulation of drugs, devices and research; medical malpractice and other liability; mental health issues; patient/client records.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3509 [0.5 credit]**The Charter of Rights Topics**

Selected issues in the Canadian Charter of Rights and Freedoms. The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): (0.5 Credit from LAWS 2105, LAWS 2201, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3602 [0.5 credit]**International Human Rights**

The developing international law relating to the protection of human rights. General concepts, rules and institutions. Specific issues include self-determination, aboriginal rights, the refugee problem, and torture. The inherent problems and overall potential of international law.

Precludes additional credit for LAWS 4604 (no longer offered).

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2502, LAWS 2601 or HUMR 2001) and 0.5 credit in LAWS at the 2000 level or PAMP 1000.

Lectures three hours a week.

LAWS 3604 [0.5 credit]**International Organizations**

Nature, character, legal status and jurisdiction of intergovernmental international organizations. Rights and duties of states arising from membership in international organizations. Distinction between international and supra-national institutions. United Nations system, selected subsidiary organs, and specialized agencies; non-governmental organizations at times of crisis.

Prerequisite(s): LAWS 2601 and 0.5 credit in LAWS at the 2000 level or PAMP 1000.

Lectures three hours a week.

LAWS 3800 [0.5 credit]**Law of Environmental Quality**

Various aspects of environmental law; pollution control, legal actions and remedies; legal foundations for participation in decision-making processes. Social, economic and political forces influencing the formulation and implementation of environmental law. Alternative forms of regulation that may articulate different demands.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3804 [0.5 credit]**Law of the Family**

Legal framework surrounding the family and family relationships in Canadian society. Topics include marriage and cohabitation, matrimonial support, custody and access, and dissolution of marriage. State interventions through law; law and change in family structures; equality issues; dispute resolution processes.

Also listed as SOWK 3804.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3903 [0.5 credit]**Selected Legal Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3904 [0.5 credit]**Selected Legal Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level and permission of Department.

Lectures three hours a week.

LAWS 3908 [0.5 credit]**Approaches in Legal Studies II**

Advanced approaches to interdisciplinary research and analysis in law and legal studies. Emphasis on the important role of theory. Approaches considered will vary by section, and may include theoretical, quantitative, qualitative, literary, or historical approaches.

Prerequisite(s): LAWS 2908 and third-year Honours standing. Honours students are strongly encouraged to take this course in the third year of their program.

Lectures three hours a week.

LAWS 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): registration in the B.A. Honours (concentration in Business Law or concentration in Law, Policy and Government) Cooperative Program, completion of Co-op preparation classes offered by the Co-op office and permission of the Department.

LAWS 4001 [0.5 credit]**Law, Family and Gender**

Relationship between family law and ideology of the family, gender roles and the reproduction of family structures. Social ramifications of family law; potential for family law reform as an agency of social change.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3001 or LAWS 3804, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4002 [0.5 credit]**Feminist Theories of Law**

The literature comprising feminist perspectives on law; theoretical bases of these perspectives; place of feminist theories within other critiques of law; significance of different feminist theories for equality theory and law reform strategies; unique contributions of the various perspectives.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4006 [0.5 credit]**Religion and State in Canada**

Legal nature of the interaction of religion and state within an historical framework. Emphasis on Canada after the Charter of Rights and Freedoms and on religious pluralism and resistance to state intervention in religion. Interdisciplinary readings drawn from legal, historical and theological sources.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4100 [0.5 credit]**Modern Legal Theory**

Realist and post-realist legal scholarship; emphasis on Canadian, American and British approaches. Topics include the Canadian treatise tradition, American legal realism, empirical approaches to legal problems, the sociological movement in law, critical and Canadian feminist legal scholarship, Marxian theories of law, normative economic theory.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4101 [0.5 credit]**Contemporary Justice Theories**

Selected major contemporary theories of justice such as those associated with Rawls, Walzer, and Habermas, with emphasis on both their procedural and substantive elements and their concrete ramifications for law, policy and political practice.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4102 [0.5 credit]**Controversies in Rights Theory**

This course examines selected controversies in rights theories, practices, and/or historiography. Illustrative questions may include: Are rights universal or culturally relative? Can rights be justified after the demise of natural rights philosophy? Do rights undermine difference? Do communities benefit from a rights-based culture?.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4103 [0.5 credit]**Special Topic in the Philosophy of Law**

Detailed study of a special topic in philosophy of law.

Also listed as PHIL 4407.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4104 [0.5 credit]**Special Topic in the Philosophy of Law**

Detailed study of a special topic in philosophy of law.

Also listed as PHIL 4408.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4105 [0.5 credit]**Global Justice Theory**

Selected theories of global justice as they pertain to legality, which may include questions such as the justice of military force and just war theory, global social justice and global inequality, sovereignty and cosmopolitan conceptions of justice, demands for global democracy and human rights.

Prerequisite(s): LAWS 2105, LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4106 [0.5 credit]**Law and Violence**

Examination of how law defines, justifies, and addresses individual, collective and state violence: contemporary and historical case studies; theoretical inquiries into the relationship between law, legality and different forms of violence.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4107 [0.5 credit]**Law in Modern Society**

Sociological and legal theory accounts of the changing role and function of law in modern society with particular reference to advanced capitalist societies. Topics include: the welfare state and the use of regulatory law; juridification and legalization; counter-trends, deregulation, informalism, legal pluralism.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4200 [0.5 credit]**International Economic Law**

Selected topics in international economic law. May include: the legal regulation of international economic activity; methods of dispute settlement; standardization and development of an autonomous international trade law; and selected conventions and institutions governing international economic law.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3207 or LAWS 3208, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4202 [0.5 credit]**Accountability of Management**

Role, function, and legal regulation of persons managing business enterprises. Status, social responsibility, fiduciary obligations and rights. Control and accountability of managers, obligations owed to the enterprise unit itself, constitutional rights of members, standards imposed by statutory regulation.

Prerequisite(s): LAWS 2908, LAWS 3201 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4204 [0.5 credit]**Legal Issues in eCommerce**

An examination of selected legal topics relevant to the conduct of electronic commerce. Topics include types of regulation, government support, jurisdiction challenges, contract disputes and consumer protection. Court and alternative dispute resolution policy of Domain Names challenges are also included.

Prerequisite(s): LAWS 2908, LAWS 2201, LAWS 2202 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4209 [0.5 credit]**Topics in Business Law**

Examination of a selected advanced topic in business law. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 2201 or LAWS 2202, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4302 [0.5 credit]**Regulation of Corporate Crime**

Legal, policy and theoretical perspectives on the regulation of corporate crime. Nature and causes of corporate crime. Selected case studies on the role of the state in regulating corporate behaviour. Failure of the criminal justice system to respond to corporate crime.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4303 [0.5 credit]**Drugs, The User and The State**

This course explores the state's attempts to control drugs and drug users by exploring different aspects of national and international drug control. The Canadian experience of drug control, viewed from different perspectives, will be explored within a broader socio-legal context.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4304 [0.5 credit]**Policing and Social Surveillance**

Theoretical consideration of the emergence and transformation of “policing” activities through an examination of law and changes in social relations, with special attention to the myriad agencies involved in contemporary security provision. Evolving notions of risk, surveillance, the state, and the private-public dichotomy. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4305 [0.5 credit]**Criminal Justice Reform**

Social transformation and criminal justice reform. Theoretical and practical reasons for the use of criminal law as an instrument of social control. Specific reform initiatives and processes. Alternate responses to social problems. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4306 [0.5 credit]**Criminal Law Issues**

Selected issues and problems in the area of criminal law. The topics may vary from year to year depending on demand and interest and are announced in advance of registration. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4307 [0.5 credit]**Medical Criminal Law Issues**

Legal-medical issues, conflicts and relationships in the field of social control. Topics include mental disorder and criminal liability, diversion of offenders to civil commitment in hospital, insanity, automatism, fitness to stand trial, prediction of dangerousness, regulation of psychoactive drugs. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4308 [0.5 credit]**Sentencing**

Theories of sentencing, current sentencing laws and practices, perceptions of sentencing. Data on sentencing practice across Canada. Reforms in other jurisdictions. Critical review of the Canadian Sentencing Commission. Multidisciplinary approach using research and theory in law, criminology, social psychology and sociology. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4309 [0.5 credit]**State Security and Dissent**

Historical and contemporary analysis of legal responses of Canadian governments to dissent, political opposition, insurrection, etc. Includes trial of political offences (treason, sedition, riot), national security measures (War Measures/Emergencies Act, Official Secrets Act), and other special powers (police, labour, immigration, parliamentary privilege, etc.). Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and 0.5 credit from LAWS 3305, LAWS 3503, LAWS 3509, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4311 [0.5 credit]**Human Rights in Canadian Prisons**

Correctional law in the Canadian criminal justice system; competing objectives of punishment and rehabilitation in the context of respect for the rule of law and human rights; protection of human rights of prisoners in Canada and in international and comparative contexts. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4402 [0.5 credit]**Employment Dispute Resolution**

Theory and practice of dispute resolution in employment relations; analysis of such techniques as negotiation, grievance and interest arbitration, mediation, investigation and litigation applied to a range of employment disputes such as collective agreements, termination of employment, discrimination, harassment, occupational health and safety. Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3006, LAWS 3401, LAWS 3405, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4503 [0.5 credit]**Law, Disability and Society**

Exploration of the ways in which law promotes or hinders the inclusion of disabled persons in society. Consideration of different theories of 'disability' and the creation of barriers faced by disabled persons. Topics may include barriers affecting education, employment, transportation, benefits, and life/death decisions. Prerequisite(s): LAWS 2908 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4504 [0.5 credit]**Indigenous Criminal Justice**

Indigenous peoples and the administration of Canadian criminal justice including policing, courts, corrections and aftercare. Content and effects of past and present policies, processes and laws. Alternatives such as self-government and self-determination; potential approaches to an appropriate justice system for Indigenous peoples.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4507 [0.5 credit]**Administrative Law and Control**

Examination of characteristics and selected problems of control of administrative action. Topics include: varieties of traditional and constitutional, legal and judicial control, impact of the Charter, reforms to administrative law control systems in Canada, and comparisons with developments outside Canada.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3005 or LAWS 3506, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4510 [0.5 credit]**Topics in Law, Policy and Government**

Examination of a selected advanced topic in the area of law, policy and government. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2501, LAWS 2502, LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4601 [0.5 credit]**Transnational Law and Human Rights**

Examination of the role of law in addressing human rights issues that transcend traditional categories of domestic and international law; the potential and limits of law in addressing human rights issues; the growth of transnational approaches to law and human rights.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3503 or LAWS 3602, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4603 [0.5 credit]**Transitional Justice**

Legal and ethical responses to human rights violations in the transition to democracy. Dilemmas of the rule of law; truth and reconciliation; prosecution and punishment; amnesty; retribution and revenge; restorative justice; administrative remedy; reparations; International case studies. Theoretical arguments about justice in context of country.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4605 [0.5 credit]**Topics in International Law**

Topics vary from year to year and are announced in advance. May include transnational environmental issues; the international law of armed conflict, peacekeeping and neutrality; the law of international treaties and transnational agreements; state responsibility under international law.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4606 [0.5 credit]**International Law of Armed Conflict**

UN Charter prohibition of the use of force. Exceptional, permissible uses of armed force. Role of Security Council in determining legality of armed intervention. Collective security, peacemaking, peacekeeping, neutrality, prohibited means of warfare. Humanitarian International Law, Geneva Red Cross Conventions, war crimes, International Criminal Court.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4607 [0.5 credit]**Immigration and Refugee Law**

Immigrants and refugees; demographics; Canadian, international and human rights law and policy. The Canadian Immigration Act. Legal and social problems including entry and removal, family reunion, citizenship, remedies, the rights of clandestine migrants; settlement rights; non-discrimination; asylum; a nation's right to determine membership.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2502 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4610 [0.5 credit]**Special Topics in Transnational Law and Human Rights**

Examination of a selected advanced topic in the area of transnational law and human rights. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4701 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced well in advance of registration each year. This course is part of the Summer School in Criminal Justice and Social Policy and is offered by the Department of Law.

Also listed as SOWK 4701.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4702 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced.

Also listed as SOWK 4702 and SOCI 4702.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4703 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced well in advance of registration each year. This course is part of the Summer School in Criminal Justice and Social Policy and is offered by the School of Social Work.

Also listed as SOWK 4703.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4800 [0.5 credit]**Environment and Social Justice**

The potential of environmental law to protect the environment and people while promoting opportunities for informed participation in environmental decision making by groups traditionally excluded from these processes; contemporary issues of social justice raised by legal regulation of the environment.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4801 [0.5 credit]**Risk and the Legal Process**

Application of risk assessment and management in various legal arenas including insurance, liability and tort, litigation management, environmental protection, and sentencing and parole.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4802 [0.5 credit]**Criminal Jury Trials**

Critical analysis of the criminal jury system including its history and context, the role of the judge, jury dynamics and jury composition. Perspectives and roles of the accused, victims, police, defence counsel, Crown attorney, judges, juries, media, politicians and the public.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4901 [0.5 credit]**Tutorial in Law**

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department).

Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

LAWS 4902 [0.5 credit]**Tutorial in Law**

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department).

Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

LAWS 4903 [0.5 credit]**Advanced Legal Topics**

The topics of this course vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4904 [0.5 credit]**Advanced Legal Topics**

The topics of this course vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908, fourth-year Honours standing, and permission of Department.

Seminars three hours a week.

LAWS 4905 [1.0 credit]**Full-Year Service Learning Placement**

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization.

Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4906 [0.5 credit]

Service Learning Placement

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization. Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4908 [1.0 credit]

Honours Paper

Students in the BA Honours Law program may write an Honours paper under the supervision of a faculty member of the Department of Law (guidelines are posted by the Department). Students intending to undertake graduate studies are encouraged to complete an Honours paper.

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 3908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher and written acceptance by a faculty member.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

Linguistics (Bachelor of Arts)

This section presents the requirements for programs in:

- Linguistics B.A. Honours
- B.A. Honours in Linguistics with a Concentration in Linguistic Theory
- B.A. Honours in Linguistics with a Concentration in Psycholinguistics and Communication Disorders
- Linguistics B.A. Combined Honours
- Linguistics and Discourse Studies B.A. Combined Honours
- Linguistics B.A.
- Minor in Linguistics

Linguistics

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.5 credits)

1. 1.5 credit in:	1.5
LING 1001 [0.5]	Introduction to Linguistics I
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS
LING 1002 [0.5]	Introduction to Linguistics II
2. 1.0 credit in:	1.0
LING 2005 [0.5]	Linguistic Analysis
LING 2007 [0.5]	Phonetics
3. 2.0 credits in:	2.0
LING 3004 [0.5]	Syntax I
LING 3005 [0.5]	Morphology I
LING 3007 [0.5]	Phonology I

LING 3505 [0.5]	Semantics	
4. 2.0 credits in LING at the 4000 level		2.0
5. 3.0 credits in LING, excluding LING 1100		3.0
B. Credits Not Included in the Major CGPA (10.5 credits)		
6. 5.0 credits not in LING or ALDS		5.0
7. 5.5 credits in free electives (maximum 2.5 credits in LING)		5.5
C. Additional Requirements		
8. School Language Proficiency Requirement must be satisfied		
Total Credits		20.0

B.A. Honours in Linguistics with a Concentration in Linguistic Theory (20.0 credits)

A. Credits Included in the Major CGPA (9.5 credits)

1. 1.0 credit in:	1.0	
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
LING 1001 [0.5]	Introduction to Linguistics I	
2. 1.0 credit in:	1.0	
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics	
3. 1.0 credit in:	1.0	
LING 3004 [0.5]	Syntax I	
LING 3007 [0.5]	Phonology I	
4. 1.0 credit in LING at the 4000 level		1.0
5. 2.0 credits in LING, excluding LING 1100		2.0
6. 3.5 credits in Degree Concentration:		3.5
a. 1.0 credit in:		
LING 3005 [0.5]	Morphology I	
LING 3505 [0.5]	Semantics	
b. 1.0 credit from:		
LING 4004 [0.5]	Syntax II	
LING 4005 [0.5]	Morphology II	
LING 4007 [0.5]	Phonology II	
LING 4505 [0.5]	Formal Semantics	
LING 4510 [0.5]	Lexical Semantics	
c. 1.5 credits in LING, excluding LING 1100		
B. Credits Not Included in the Major CGPA (10.5 credits)		
7. 5.0 credits not in LING or ALDS		5.0
8. 3.0 credits not in LING		3.0
9. 2.5 credits in free electives		2.5
C. Additional Requirements		
9. School Language Proficiency Requirement must be satisfied.		
Total Credits		20.0

B.A. Honours in Linguistics with a Concentration in Psycholinguistics and Communication Disorders (20.0 credits)

A. Credits Included in the Major CGPA (9.5 credits)

1. 1.0 credit in:	1.0
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS
LING 1001 [0.5]	Introduction to Linguistics I

2. 1.0 credit in:		1.0
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics	
3. 1.0 credit in:		1.0
LING 3004 [0.5]	Syntax I	
LING 3007 [0.5]	Phonology I	
4. 1.0 credit in LING at the 4000 level		1.0
5. 2.0 credits in LING, excluding LING 1100		2.0
6. 3.5 credits in Degree Concentration:		3.5
a. 0.5 credit in:		
LING 1002 [0.5]	Introduction to Linguistics II	
b. 2.0 credits in:		
LING 2604 [0.5]	Communication Disorders I	
LING 3601 [0.5]	Language Processing and the Brain	
LING 3603 [0.5]	Child Language	
LING 3604 [0.5]	Communication Disorders II	
c. 1.0 credit from:		
LING 4601 [0.5]	Cognitive Neuroscience of Language	
LING 4603 [0.5]	First Language Acquisition	
LING 4605 [0.5]	Psycholinguistic Research Methods	
LING 4606 [0.5]	Statistics for Language Research	
B. Credits not Included in the Major CGPA (10.5)		
7. 5.0 credits not in LING or ALDS		5.0
8. 3.0 credits not in LING		3.0
9. 2.5 credits in free electives		2.5
C. Additional Requirements		
9. School Language Proficiency Requirement must be satisfied		
Total Credits		20.0

Linguistics

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 1.0 credit in:		1.0
LING 1001 [0.5]	Introduction to Linguistics I	
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
2. 1.0 credit in:		1.0
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics	
3. 2.0 credits in:		2.0
LING 3004 [0.5]	Syntax I	
LING 3005 [0.5]	Morphology I	
LING 3007 [0.5]	Phonology I	
LING 3505 [0.5]	Semantics	
4. 1.0 credit in LING at the 4000-level		1.0
5. 1.0 credit in LING, excluding LING 1100		1.0
B. Additional Requirements (14.0 credits)		14.0
6. The requirements of the other discipline must be satisfied		
7. Sufficient free electives to make a total of 20.0 credits for the program		
8. School Language Proficiency Requirement must be satisfied		
Total Credits		20.0

Linguistics and Discourse Studies

B.A. Combined Honours (20.0 credits)

Honours Linguistics and Honours Applied Linguistics and Discourse Studies are combined into the Linguistics and Discourse Studies B.A. Combined Honours.

A. Credits Included in the Major CGPA (12.0 credits)

1. 1.5 credits in:		1.5
LING 1001 [0.5]	Introduction to Linguistics I	
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
LING 1002 [0.5]	Introduction to Linguistics II	
2. 1.0 credit in:		1.0
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics	
3. 2.0 credits in:		2.0
LING 3004 [0.5]	Syntax I	
LING 3005 [0.5]	Morphology I	
LING 3007 [0.5]	Phonology I	
LING 3505 [0.5]	Semantics	
4. 1.0 credit in LING at the 4000 level		1.0
5. 1.0 credit in LING, excluding LING 1100		1.0
6. 1.0 credit in:		1.0
ALDS 2201 [0.5]	Analysis of Oral Language Use	
ALDS 2202 [0.5]	Analysis of Written Language Use	
7. 1.0 credit in ALDS at the 3000 level or above		1.0
8. 1.0 credit in ALDS at the 4000 level		1.0
9. 2.5 credits in ALDS		2.5
B. Additional Requirements (8.0 credits)		
10. Sufficient free electives to make a total of 20.0 credits for the program		
11. School Language Proficiency Requirement must be satisfied		
Total Credits		20.0

Linguistics

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.5 credits)

1. 1.5 credit in:		1.5
LING 1001 [0.5]	Introduction to Linguistics I	
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
LING 1002 [0.5]	Introduction to Linguistics II	
2. 1.0 credit in:		1.0
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics	
3. 2.0 credits in:		2.0
LING 3004 [0.5]	Syntax I	
LING 3005 [0.5]	Morphology I	
LING 3007 [0.5]	Phonology I	
LING 3505 [0.5]	Semantics	
4. 2.0 credits in LING, excluding LING 1100		2.0
B. Credits Not Included in the Major CGPA (8.5 credits)		
5. 5.0 credits not in LING or ALDS		5.0
6. 1.0 credit not in LING		1.0
7. 2.5 credits in free electives		2.5
C. Additional Requirement		

8. School Language Proficiency Requirement must be satisfied

Total Credits 15.0

Minor in Linguistics (4.0 credits)

Open to all undergraduate degree students in programs other than Linguistics.

Requirements (4.0 credits)

1. 1.0 credit in: 1.0

LING 1001 [0.5] Introduction to Linguistics I

ALDS 1001 [0.5] Language Matters: Introduction to ALDS

2. 1.0 credit in: 1.0

LING 2005 [0.5] Linguistic Analysis

LING 2007 [0.5] Phonetics

3. 1.0 credit in: 1.0

LING 3004 [0.5] Syntax I

LING 3007 [0.5] Phonology I

4. 1.0 credit in LING, excluding LING 1100 1.0

5. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Linguistics (LING) Courses

LING 1001 [0.5 credit]

Introduction to Linguistics I

Nature of language and linguistic knowledge. Formal description and analysis of language: phonetics, phonology, morphology, syntax and semantics. Precludes additional credit for LALS 1000 and LALS 1001 (no longer offered).

Lecture and tutorial three hours a week.

LING 1002 [0.5 credit]

Introduction to Linguistics II

Survey of topics in linguistics: language change, sociolinguistics, language acquisition and processing. May include language typology, language contact and writing systems.

Prerequisite(s): LING 1001 (may be taken concurrently).

Lectures three hours a week.

LING 1100 [0.5 credit]

The Mysteries of Language

This course explores some intriguing mysteries of language - whether it is unique to humans, how children master its complexities so easily, how the brain handles language, how languages are born and die. These questions lead us to interesting discoveries about the human mind.

Precludes additional credit for LALS 1100 (no longer offered).

Lectures three hours a week.

LING 2005 [0.5 credit]

Linguistic Analysis

Phonological, morphological and syntactic analysis of linguistic data. Coursework consists primarily of practical exercises in data analysis.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2003 (no longer offered) or LALS 2005 (no longer offered).

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2007 [0.5 credit]

Phonetics

Description of speech sounds; transcription systems; articulation; acoustics of speech sounds; perception of speech sounds; cross-linguistic diversity and phonetic universals; the role of phonetics in grammar.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2001/LING 2001 (no longer offered), and LALS 3001 if taken prior to 2004.

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2504 [0.5 credit]

Language and Communication

Some of the central topics in the study of language and communication as pursued by linguists and philosophers.

Topics include: the nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as PHIL 2504, COMS 2504.

Precludes additional credit for LALS 2504, LALS 2800 [1.0], MCOM 2504, MCOM 2800 [1.0], and PHIL 2800 [1.0].

Prerequisite(s): second-year standing.

Lectures three hours a week.

LING 2604 [0.5 credit]

Communication Disorders I

A survey course highlighting congenital, developmental and acquired disorders of speech, language, fluency, hearing and voice; prevalence, current research, assessment and intervention approaches for each disorder will be presented.

Also listed as ALDS 2604.

Precludes additional credit for LALS 2604 (no longer offered).

Prerequisite(s): second year standing or permission of the instructor.

Lectures three hours a week.

LING 2802 [0.5 credit]

History of the English Language

A historical study of the English language, its structure, variety, and cultural contexts, with an introduction to grammatical terminology and constructions.

Also listed as ENGL 2105.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

LING 3004 [0.5 credit]**Syntax I**

Introduction to syntactic theory. Representation and analysis of sentence structure, syntactic relations and syntactic dependencies. Testing of grammatical hypotheses.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3004 (no longer offered).

Prerequisite(s): LING 2005.

Lecture and tutorial three hours a week.

LING 3005 [0.5 credit]**Morphology I**

Introduction to word structure and morphological theory. Topics include inflectional and derivational morphology, morphological processes, and interaction of morphology with phonology and syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3005 (no longer offered).

Prerequisite(s): LING 2005 and LING 2007.

Lectures three hours a week.

LING 3007 [0.5 credit]**Phonology I**

The sound-systems of languages, analysis of phonological structure; generative phonology; phonological rules and derivations; cross-linguistic diversity and universals; segmental phonology; stress; tone.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3002/LING 3002 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2007.

Lecture and tutorial three hours a week.

LING 3009 [0.5 credit]**Special Topic in Linguistics**

Selected topics in general linguistics not ordinarily treated in the regular course program. Contents of the course vary from year to year.

Lectures and discussion three hours per week.

LING 3504 [0.5 credit]**Pragmatics**

The study of language in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as PHIL 3504.

Precludes additional credit for LALS 2800 [1.0], LALS 3504, MCOM 3504, MCOM 2800 [1.0], and PHIL 2800 [1.0].

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/COMM 2504/LING 2504 or PHIL 3506, or LING 3505 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3505 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as PHIL 3506.

Precludes additional credit for LALS 3505 (no longer offered).

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/LING 2504/COMM 2504 or PHIL 3504/LING 3504, or permission of the Department of Philosophy or School of Linguistics and Language Studies. Lectures three hours a week.

LING 3601 [0.5 credit]**Language Processing and the Brain**

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as PSYC 3709.

Precludes additional credit for LALS 2601 and LALS 3601 (no longer offered).

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3603 [0.5 credit]**Child Language**

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as PSYC 3508.

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3604 [0.5 credit]**Communication Disorders II**

In-depth evaluation of current psycholinguistic models of processes underlying communication disorders and the biomedical support for such models. Emphasis on contrasting developmental disorders with acquired disorders. Additional exploration of other modalities (sign language, reading).

Also listed as ALDS 3604.

Precludes additional credit for LING 3009 Section "A", if taken Winter 2013.

Prerequisite(s): LING 2604.

Lectures three hours a week.

LING 3701 [0.5 credit]**Corpus Linguistics**

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as ALDS 3701.

Precludes additional credit for LALS 3701 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

LING 3702 [0.5 credit]**Sociolinguistics**

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as ALDS 3202.

Precludes additional credit for LALS 2701 and ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing.

Lecture three hours a week.

LING 3801 [0.5 credit]**Structure of a Specific Language**

Description and analysis of the structure of a specific language applying phonology, morphology, syntax, and semantics. Language to be studied will be announced in advance by the School.

Precludes additional credit for LALS 3801 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2005 or LING 2007.

Lectures three hours a week.

LING 3810 [0.5 credit]**Historical Linguistics I**

Language change; sound change; analogy; the comparative method; internal reconstruction; the philological method; historical linguistics and pre-history; language change and theories of grammar.

Precludes additional credit for LING 3101.

Prerequisite(s): LING 2007.

Lectures three hours a week.

LING 3811 [0.5 credit]**Language Typology and Universals**

Cross-linguistic survey of syntactic and morphological patterns found in the languages of the world. Typological classification and identification of language universals.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3001.

Prerequisite(s): LING 2005.

Lectures three hours a week.

LING 3900 [1.0 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 3901 [0.5 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 4004 [0.5 credit]**Syntax II**

Advanced topics in syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4002/LING 4002 (no longer offered).

Prerequisite(s): LING 3004 or permission of the instructor.

Seminars three hours a week.

LING 4005 [0.5 credit]**Morphology II**

Advanced topics in morphology.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3005.

Seminars three hours a week.

LING 4007 [0.5 credit]**Phonology II**

Advanced topics in phonology.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4001/LING 4001 (no longer offered).

Prerequisite(s): LING 3002 (no longer offered), or LING 3007, or permission of the instructor.

Seminars three hours a week.

LING 4009 [0.5 credit]**Special Topic in Linguistics**

Examination of a topic or more specialized area in linguistics or language study. Topic to be announced.

Prerequisite(s): third- or fourth-year standing in Linguistics or permission of the instructor. This course is repeatable for credit when the topic changes.

Also offered at the graduate level, with different requirements, as LING 5009, for which additional credit is precluded.

Seminars three hours a week.

LING 4412 [0.5 credit]**Diversité du français**

Études des variétés du français, dans ses dimensions spatiales. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Seminars three hours a week.

LING 4413 [0.5 credit]**Diachronie du français**

Étude du français, dans ses dimensions historiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Seminars three hours a week.

LING 4414 [0.5 credit]**Analyse du français**

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students will submit written assignments in English.

Also listed as FREN 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Seminars three hours a week.

LING 4415 [0.5 credit]**Variation du français**

Étude des variations internes de la langue, dans des dimensions orales/écrites. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students submit assignments in English.

Also listed as FREN 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Seminars three hours a week.

LING 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Includes: Experiential Learning Activity

Also listed as PHIL 4505.

Precludes additional credit for LALS 4507 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

LING 4510 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Includes: Experiential Learning Activity

Also listed as PHIL 4055.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506.

Also offered at the graduate level, with different requirements, as LING 5510, for which additional credit is precluded.

Seminar three hours a week.

LING 4601 [0.5 credit]**Cognitive Neuroscience of Language**

Further study of psychological and neurolinguistic mechanisms of adult language processing. May include topics from first language acquisition.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4601 (no longer offered).

Prerequisite(s): LING 3601 or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5601, for which additional credit is precluded.

Seminars three hours a week.

LING 4603 [0.5 credit]**First Language Acquisition**

Advanced topics in language acquisition and development and the relative contributions of the environment, cognitive development, and inborn knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3603.

Also offered at the graduate level, with different requirements, as LING 5603, for which additional credit is precluded.

Seminars three hours a week.

LING 4604 [0.5 credit]**Practicum in Speech Language Pathology**

Through seven-hour-a-week field placements, students pursue personal learning objectives concerning the clinical application of the psycholinguistics of communication disorders and cognitive development. A term paper integrates experiential knowledge gained in the placement with theoretical and empirical knowledge gained from the student's program of study.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3604, fourth-year Honours standing in B.A. or B.Sc. in Linguistics with a Concentration in Psycholinguistics and Communication Disorders with a CGPA of 10.0 in the major, and permission from the School of Linguistics and Language Studies.

Field placement one day a week.

LING 4605 [0.5 credit]**Psycholinguistic Research Methods**

Experimental methodologies used in current psycholinguistic studies. Topics include experimental design and techniques, descriptive statistics, and interpreting and reporting research findings.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4009 Section "A" (2015-16 and 2016-17) and LING 4009 Section "B" (2013-14) and LING 4009 Section "C" (2017-18).

Prerequisite(s): third- or fourth-year Honours standing in Linguistics or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5605, for which additional credit is precluded.

Seminar three hours a week.

LING 4606 [0.5 credit]**Statistics for Language Research**

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as ALDS 4606.

Precludes additional credit for ALDS 4906/LING 4009 Section "B" if taken Winter 2015 or Winter 2016.

Prerequisite(s): PSYC 2002 or NEUR 2002, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5606 and ALDS 5604, for which additional credit is precluded.

Seminar three hours a week.

LING 4801 [0.5 credit]**Linguistic Field Methods**

With a language consultant, students discover the phonological, morphological, and syntactic structures of the target language using linguistic elicitation. Language will vary from year to year, but will normally be a non-European language. Language documentation, data management, ethical issues surrounding research in Indigenous communities.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005 and LING 2007.

Also offered at the graduate level, with different requirements, as ALDS 5801, for which additional credit is precluded.

Lectures three hours a week.

LING 4802 [0.5 credit]**Historical Linguistics II**

A theory-intensive course that will study the development of English starting with Proto-Indo-European progressing through Common Germanic to the stages of English itself. Topics include phonological sound changes, phonemic inventories, and morphological and syntactic typology. Precludes additional credit for LING 4101.

Prerequisite(s): LING 3001 (no longer offered) or LING 3101 (no longer offered) or LING 3811.

Also offered at the graduate level, with different requirements, as LING 5802, for which additional credit is precluded.

Seminars three hours a week.

LING 4805 [0.5 credit]**Old English**

Introduction to Anglo-Saxon literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language.

Also listed as ENGL 4105.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

LING 4900 [1.0 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4901 [0.5 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4905 [1.0 credit]

Honours Project in Experimental Linguistics

Students choose existing study in linguistic literature, replicate the study, present findings, compare to original study. Practical experience gathering and preparing materials, running experiments, analyzing data, interpreting findings; real, important contributions to the field of linguistics via replication studies (as mandated by the scientific method).

Includes: Experiential Learning Activity

Precludes additional credit for LING 4910.

Prerequisite(s): fourth-year Honours standing in Linguistics, with a Major CGPA of 9.0, and permission of the instructor.

Unscheduled.

LING 4910 [1.0 credit]

Honours Thesis in Linguistics

Open to all candidates for the B.A. (Honours) in Linguistics. A thesis project selected in consultation with the School and carried out under the direction of a faculty supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4905.

Prerequisite(s): fourth-year Honours standing in Linguistics with a CGPA of 10.0 in the major; one of LING 3004, LING 3007, LING 3505, or LING 3601; and permission of the instructor.

Linguistics (Bachelor of Science)

This section presents the requirements for programs in:

- B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Neuroscience)
- B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Psychology)
- B.Sc. Honours in Linguistics with a Concentration in Psycholinguistics and Communication Disorders (Neuroscience)
- B.Sc. Honours in Linguistics with a Concentration in Psycholinguistics and Communication Disorders (Psychology)

B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Neuroscience) (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 1.0 credit in:		1.0
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
LING 1001 [0.5]	Introduction to Linguistics I	
2. 1.0 credit in:		1.0
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics	
3. 1.0 credit in:		1.0
LING 3004 [0.5]	Syntax I	
LING 3007 [0.5]	Phonology I	
4. 1.0 credit in LING at the 4000 level		1.0
5. 1.5 credits in LING, excluding LING 1100		1.5

6. 3.5 credits from the Concentration:		3.5
a. 1.0 credit in:		
LING 3005 [0.5]	Morphology I	
LING 3505 [0.5]	Semantics	
b. 1.0 credit from:		
LING 4004 [0.5]	Syntax II	
LING 4005 [0.5]	Morphology II	
LING 4007 [0.5]	Phonology II	
LING 4505 [0.5]	Formal Semantics	
LING 4510 [0.5]	Lexical Semantics	

c. 1.5 credits in LING, excluding LING 1100		
B. Credits Not Included in the Major CGPA (11.0 credits)		

7. 3.5 credits in Neuroscience		3.5
a. 2.0 credits in:		
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease	
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease	
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience	
NEUR 2002 [0.5]	Introduction to Statistics in Neuroscience	

b. 1.5 credits from:		
NEUR 2201 [0.5]	Cellular and Molecular Neuroscience	
NEUR 2202 [0.5]	Neurodevelopment and Plasticity	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience	
NEUR 3207 [0.5]	Systems Neuroscience	
NEUR 3303 [0.5]	The Neuroscience of Consciousness	

8. 1.5 credits in:		1.5
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 3306 [0.5]	Human Anatomy and Physiology	

9. 1.0 credit from:		1.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	

10. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	

11. 4.0 credits in free electives		4.0
--	--	-----

C. Additional Requirements		
12. School Language Proficiency Requirement must be satisfied		

Total Credits		20.0
---------------	--	------

B.Sc. Honours in Linguistics with a Concentration in Linguistic Theory (Psychology) (20.0 credits)

A. Credits included in the Major CGPA (9.0 credits)

1. 1.0 credit in:		1.0
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
LING 1001 [0.5]	Introduction to Linguistics I	
2. 1.0 credit in:		1.0
LING 2005 [0.5]	Linguistic Analysis	

LING 2007 [0.5]	Phonetics	
3. 1.0 credit in:		1.0
LING 3004 [0.5]	Syntax I	
LING 3007 [0.5]	Phonology I	
4. 1.0 credit in LING at the 4000 level		1.0
5. 1.5 credits in LING, excluding LING 1100		1.5
6. 3.5 credits from the Concentration:		3.5
a. 1.0 credit in:		
LING 3005 [0.5]	Morphology I	
LING 3505 [0.5]	Semantics	
b. 1.0 credit from:		
LING 4004 [0.5]	Syntax II	
LING 4005 [0.5]	Morphology II	
LING 4007 [0.5]	Phonology II	
LING 4505 [0.5]	Formal Semantics	
LING 4510 [0.5]	Lexical Semantics	
c. 1.5 credits in LING (excluding LING 1100)		
B. Credits Not Included in the Major CGPA (11.0 credits)		
7. 3.5 credits in Psychology:		3.5
a. 2.0 credits in:		
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
PSYC 2001 [0.5]	Introduction to Research Methods in Psychology	
PSYC 2002 [0.5]	Introduction to Statistics in Psychology	
b. 1.5 credits from:		
PSYC 2307 [0.5]	Human Neuropsychology I	
PSYC 2700 [0.5]	Introduction to Cognitive Psychology	
PSYC 3307 [0.5]	Human Neuropsychology II	
PSYC 3506 [0.5]	Cognitive Development	
PSYC 3702 [0.5]	Perception

Total Credits 20.0

Linguistics (LING) Courses

LING 1001 [0.5 credit]

Introduction to Linguistics I

Nature of language and linguistic knowledge. Formal description and analysis of language: phonetics, phonology, morphology, syntax and semantics. Precludes additional credit for LALS 1000 and LALS 1001 (no longer offered).

Lecture and tutorial three hours a week.

LING 1002 [0.5 credit]

Introduction to Linguistics II

Survey of topics in linguistics: language change, sociolinguistics, language acquisition and processing. May include language typology, language contact and writing systems.

Prerequisite(s): LING 1001 (may be taken concurrently).

Lectures three hours a week.

LING 1100 [0.5 credit]

The Mysteries of Language

This course explores some intriguing mysteries of language - whether it is unique to humans, how children master its complexities so easily, how the brain handles language, how languages are born and die. These questions lead us to interesting discoveries about the human mind.

Precludes additional credit for LALS 1100 (no longer offered).

Lectures three hours a week.

LING 2005 [0.5 credit]

Linguistic Analysis

Phonological, morphological and syntactic analysis of linguistic data. Coursework consists primarily of practical exercises in data analysis.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2003 (no longer offered) or LALS 2005 (no longer offered).

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2007 [0.5 credit]**Phonetics**

Description of speech sounds; transcription systems; articulation; acoustics of speech sounds; perception of speech sounds; cross-linguistic diversity and phonetic universals; the role of phonetics in grammar.
Includes: Experiential Learning Activity
Precludes additional credit for LALS 2001/LING 2001 (no longer offered), and LALS 3001 if taken prior to 2004.
Prerequisite(s): LING 1001.
Lecture and tutorial three hours a week.

LING 2504 [0.5 credit]**Language and Communication**

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. Topics include: the nature of meaning; the connections between language, communication and cognition; language as a social activity.
Also listed as PHIL 2504, COMS 2504.
Precludes additional credit for LALS 2504, LALS 2800 [1.0], MCOM 2504, MCOM 2800 [1.0], and PHIL 2800 [1.0].
Prerequisite(s): second-year standing.
Lectures three hours a week.

LING 2604 [0.5 credit]**Communication Disorders I**

A survey course highlighting congenital, developmental and acquired disorders of speech, language, fluency, hearing and voice; prevalence, current research, assessment and intervention approaches for each disorder will be presented.
Also listed as ALDS 2604.
Precludes additional credit for LALS 2604 (no longer offered).
Prerequisite(s): second year standing or permission of the instructor.
Lectures three hours a week.

LING 2802 [0.5 credit]**History of the English Language**

A historical study of the English language, its structure, variety, and cultural contexts, with an introduction to grammatical terminology and constructions.
Also listed as ENGL 2105.
Prerequisite(s): second-year standing or permission of the department.
Lectures three hours a week.

LING 3004 [0.5 credit]**Syntax I**

Introduction to syntactic theory. Representation and analysis of sentence structure, syntactic relations and syntactic dependencies. Testing of grammatical hypotheses.
Includes: Experiential Learning Activity
Precludes additional credit for LALS 3004 (no longer offered).
Prerequisite(s): LING 2005.
Lecture and tutorial three hours a week.

LING 3005 [0.5 credit]**Morphology I**

Introduction to word structure and morphological theory. Topics include inflectional and derivational morphology, morphological processes, and interaction of morphology with phonology and syntax.
Includes: Experiential Learning Activity
Precludes additional credit for LALS 3005 (no longer offered).
Prerequisite(s): LING 2005 and LING 2007.
Lectures three hours a week.

LING 3007 [0.5 credit]**Phonology I**

The sound-systems of languages, analysis of phonological structure; generative phonology; phonological rules and derivations; cross-linguistic diversity and universals; segmental phonology; stress; tone.
Includes: Experiential Learning Activity
Precludes additional credit for LALS 3002/LING 3002 (no longer offered).
Prerequisite(s): LING 2001 (no longer offered) or LING 2007.
Lecture and tutorial three hours a week.

LING 3009 [0.5 credit]**Special Topic in Linguistics**

Selected topics in general linguistics not ordinarily treated in the regular course program. Contents of the course vary from year to year.
Lectures and discussion three hours per week.

LING 3504 [0.5 credit]**Pragmatics**

The study of language in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.
Also listed as PHIL 3504.
Precludes additional credit for LALS 2800 [1.0], LALS 3504, MCOM 3504, MCOM 2800 [1.0], and PHIL 2800 [1.0].
Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/COMM 2504/LING 2504 or PHIL 3506, or LING 3505 or permission of the Department of Philosophy or School of Linguistics and Language Studies.
Lectures three hours a week.

LING 3505 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as PHIL 3506.

Precludes additional credit for LALS 3505 (no longer offered).

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/LING 2504/COMM 2504 or PHIL 3504/LING 3504, or permission of the Department of Philosophy or School of Linguistics and Language Studies. Lectures three hours a week.

LING 3601 [0.5 credit]**Language Processing and the Brain**

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as PSYC 3709.

Precludes additional credit for LALS 2601 and LALS 3601 (no longer offered).

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3603 [0.5 credit]**Child Language**

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as PSYC 3508.

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3604 [0.5 credit]**Communication Disorders II**

In-depth evaluation of current psycholinguistic models of processes underlying communication disorders and the biomedical support for such models. Emphasis on contrasting developmental disorders with acquired disorders. Additional exploration of other modalities (sign language, reading).

Also listed as ALDS 3604.

Precludes additional credit for LING 3009 Section "A", if taken Winter 2013.

Prerequisite(s): LING 2604.

Lectures three hours a week.

LING 3701 [0.5 credit]**Corpus Linguistics**

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as ALDS 3701.

Precludes additional credit for LALS 3701 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

LING 3702 [0.5 credit]**Sociolinguistics**

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as ALDS 3202.

Precludes additional credit for LALS 2701 and ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing.

Lecture three hours a week.

LING 3801 [0.5 credit]**Structure of a Specific Language**

Description and analysis of the structure of a specific language applying phonology, morphology, syntax, and semantics. Language to be studied will be announced in advance by the School.

Precludes additional credit for LALS 3801 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2005 or LING 2007.

Lectures three hours a week.

LING 3810 [0.5 credit]**Historical Linguistics I**

Language change; sound change; analogy; the comparative method; internal reconstruction; the philological method; historical linguistics and pre-history; language change and theories of grammar.

Precludes additional credit for LING 3101.

Prerequisite(s): LING 2007.

Lectures three hours a week.

LING 3811 [0.5 credit]**Language Typology and Universals**

Cross-linguistic survey of syntactic and morphological patterns found in the languages of the world. Typological classification and identification of language universals.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3001.

Prerequisite(s): LING 2005.

Lectures three hours a week.

LING 3900 [1.0 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 3901 [0.5 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 4004 [0.5 credit]**Syntax II**

Advanced topics in syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4002/LING 4002 (no longer offered).

Prerequisite(s): LING 3004 or permission of the instructor.

Seminars three hours a week.

LING 4005 [0.5 credit]**Morphology II**

Advanced topics in morphology.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3005.

Seminars three hours a week.

LING 4007 [0.5 credit]**Phonology II**

Advanced topics in phonology.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4001/LING 4001 (no longer offered).

Prerequisite(s): LING 3002 (no longer offered), or

LING 3007, or permission of the instructor.

Seminars three hours a week.

LING 4009 [0.5 credit]**Special Topic in Linguistics**

Examination of a topic or more specialized area in linguistics or language study. Topic to be announced.

Prerequisite(s): third- or fourth-year standing in Linguistics or permission of the instructor. This course is repeatable for credit when the topic changes.

Also offered at the graduate level, with different requirements, as LING 5009, for which additional credit is precluded.

Seminars three hours a week.

LING 4412 [0.5 credit]**Diversité du français**

Études des variétés du français, dans ses dimensions spatiales. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Seminars three hours a week.

LING 4413 [0.5 credit]**Diachronie du français**

Étude du français, dans ses dimensions historiques.

Le contenu précis de ce cours varie selon les années.

Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English.

Also listed as FREN 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Seminars three hours a week.

LING 4414 [0.5 credit]**Analyse du français**

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Le contenu précis de ce cours varie selon les années. Consulter le site web

du Département de français pour obtenir les détails.

Course is taught in French, but students will submit written assignments in English.

Also listed as FREN 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Seminars three hours a week.

LING 4415 [0.5 credit]**Variation du français**

Étude des variations internes de la langue, dans des dimensions orales/écrites. Le contenu précis de ce cours varie selon les années. Consulter le site web du

Département de français pour obtenir les détails. Course is taught in French, but students submit assignments in English.

Also listed as FREN 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Seminars three hours a week.

LING 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Includes: Experiential Learning Activity

Also listed as PHIL 4505.

Precludes additional credit for LALS 4507 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

LING 4510 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Includes: Experiential Learning Activity

Also listed as PHIL 4055.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506.

Also offered at the graduate level, with different requirements, as LING 5510, for which additional credit is precluded.

Seminar three hours a week.

LING 4601 [0.5 credit]**Cognitive Neuroscience of Language**

Further study of psychological and neurolinguistic mechanisms of adult language processing. May include topics from first language acquisition.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4601 (no longer offered).

Prerequisite(s): LING 3601 or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5601, for which additional credit is precluded.

Seminars three hours a week.

LING 4603 [0.5 credit]**First Language Acquisition**

Advanced topics in language acquisition and development and the relative contributions of the environment, cognitive development, and inborn knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3603.

Also offered at the graduate level, with different requirements, as LING 5603, for which additional credit is precluded.

Seminars three hours a week.

LING 4604 [0.5 credit]**Practicum in Speech Language Pathology**

Through seven-hour-a-week field placements, students pursue personal learning objectives concerning the clinical application of the psycholinguistics of communication disorders and cognitive development. A term paper integrates experiential knowledge gained in the placement with theoretical and empirical knowledge gained from the student's program of study.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3604, fourth-year Honours standing in B.A. or B.Sc. in Linguistics with a Concentration in Psycholinguistics and Communication Disorders with a CGPA of 10.0 in the major, and permission from the School of Linguistics and Language Studies.

Field placement one day a week.

LING 4605 [0.5 credit]**Psycholinguistic Research Methods**

Experimental methodologies used in current psycholinguistic studies. Topics include experimental design and techniques, descriptive statistics, and interpreting and reporting research findings.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4009 Section "A" (2015-16 and 2016-17) and LING 4009 Section "B" (2013-14) and LING 4009 Section "C" (2017-18).

Prerequisite(s): third- or fourth-year Honours standing in Linguistics or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5605, for which additional credit is precluded.

Seminar three hours a week.

LING 4606 [0.5 credit]**Statistics for Language Research**

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as ALDS 4606.

Precludes additional credit for ALDS 4906/LING 4009 Section "B" if taken Winter 2015 or Winter 2016.

Prerequisite(s): PSYC 2002 or NEUR 2002, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5606 and ALDS 5604, for which additional credit is precluded.

Seminar three hours a week.

LING 4801 [0.5 credit]**Linguistic Field Methods**

With a language consultant, students discover the phonological, morphological, and syntactic structures of the target language using linguistic elicitation. Language will vary from year to year, but will normally be a non-European language. Language documentation, data management, ethical issues surrounding research in Indigenous communities.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005 and LING 2007.

Also offered at the graduate level, with different requirements, as ALDS 5801, for which additional credit is precluded.

Lectures three hours a week.

LING 4802 [0.5 credit]**Historical Linguistics II**

A theory-intensive course that will study the development of English starting with Proto-Indo-European progressing through Common Germanic to the stages of English itself. Topics include phonological sound changes, phonemic inventories, and morphological and syntactic typology. Precludes additional credit for LING 4101.

Prerequisite(s): LING 3001 (no longer offered) or LING 3101 (no longer offered) or LING 3811.

Also offered at the graduate level, with different requirements, as LING 5802, for which additional credit is precluded.

Seminars three hours a week.

LING 4805 [0.5 credit]**Old English**

Introduction to Anglo-Saxon literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language.

Also listed as ENGL 4105.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

LING 4900 [1.0 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4901 [0.5 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4905 [1.0 credit]**Honours Project in Experimental Linguistics**

Students choose existing study in linguistic literature, replicate the study, present findings, compare to original study. Practical experience gathering and preparing materials, running experiments, analyzing data, interpreting findings; real, important contributions to the field of linguistics via replication studies (as mandated by the scientific method).

Includes: Experiential Learning Activity

Precludes additional credit for LING 4910.

Prerequisite(s): fourth-year Honours standing in Linguistics, with a Major CGPA of 9.0, and permission of the instructor.

Unscheduled.

LING 4910 [1.0 credit]**Honours Thesis in Linguistics**

Open to all candidates for the B.A. (Honours) in Linguistics. A thesis project selected in consultation with the School and carried out under the direction of a faculty supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4905.

Prerequisite(s): fourth-year Honours standing in Linguistics with a CGPA of 10.0 in the major; one of LING 3004, LING 3007, LING 3505, or LING 3601; and permission of the instructor.

Mandarin Chinese (Minor)

This section presents the requirements for programs in:

- Minor in Mandarin Chinese

Minor in Mandarin Chinese (4.0 credits)

Open to all undergraduate degree students.

Requirements:

- | | |
|---|-----|
| 1. 3.0 credits in CHIN | 3.0 |
| 2. 1.0 credit in CHIN at the 3000-level or higher | 1.0 |
| 3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language. | |
| 4. The remaining requirements of the major discipline(s) and degree must be satisfied. | |

Total Credits 4.0

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Chinese (CHIN) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

CHIN 1010 [0.5 credit]

First-Year Mandarin Chinese I

For students with no knowledge of Mandarin. Oral skills; basic reading and writing skills. Placement test for non-literate speakers of other Chinese languages. Not open to students already literate in any Chinese language. Compulsory attendance. Precludes additional credit for CHIN 1110. Four hours a week.

CHIN 1020 [0.5 credit]

First-Year Mandarin Chinese II

Continuation of first-year Mandarin Chinese. Oral skills; basic reading and writing skills. Compulsory attendance. Precludes additional credit for CHIN 1110. Prerequisite(s): grade of C or higher in CHIN 1010, or permission of the School. Four hours a week.

CHIN 1110 [1.0 credit]

Intensive First-Year Mandarin Chinese

For students with no knowledge of Mandarin Chinese. Oral skills; basic reading and writing skills. Placement test for non-literate speakers of other Chinese languages. Not open to students already literate in any Chinese language. Compulsory attendance. Precludes additional credit for CHIN 1010 and CHIN 1020. Eight hours a week (one term).

CHIN 2010 [0.5 credit]

Second-Year Mandarin Chinese I

Further study of Mandarin Chinese to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for CHIN 2110. Prerequisite(s): grade of C or higher in CHIN 1020 or CHIN 1110, or permission of the School. Four hours a week.

CHIN 2020 [0.5 credit]

Second-Year Mandarin Chinese II

Continuation of second-year Mandarin Chinese. Further study of Mandarin Chinese to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2110.

Prerequisite(s): grade of C or higher in CHIN 2010 or permission of the School.

Four hours a week.

CHIN 2110 [1.0 credit]

Intensive Second-Year Mandarin Chinese

Further study of Mandarin Chinese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2010 and CHIN 2020.

Prerequisite(s): grade of C or higher in CHIN 1020 or CHIN 1110, or permission of the School.

Eight hours a week (one term).

CHIN 3010 [0.5 credit]

Third-Year Mandarin Chinese I

Continuation of the study of Mandarin Chinese to reach a more advanced level, including ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 2020, or CHIN 2110, or permission of the School.

Three hours a week.

CHIN 3015 [0.5 credit]

Mandarin Chinese for Heritage Speakers

For students who have attained Mandarin Chinese proficiency in an informal setting, this course provides an opportunity to build on their existing language skills and to develop them in a formal academic setting. The course will formalize grammar awareness and enhance Mandarin Chinese literacy skills.

Precludes additional credit for 1000 and 2000 level CHIN courses, and also for CHIN 3010.

Prerequisite(s): permission of the School.

Three hours a week.

CHIN 3020 [0.5 credit]

Third-Year Mandarin Chinese II

Continuation of third-year Mandarin Chinese. Progress toward reaching a more advanced level, including ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 3010 or CHIN 3015, or permission of the School.

Three hours a week.

CHIN 4010 [0.5 credit]**Fourth-Year Mandarin Chinese I**

Development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance. Prerequisite(s): grade of C or higher in CHIN 3020, or permission of the School. Three hours a week.

CHIN 4020 [0.5 credit]**Fourth-Year Mandarin Chinese II**

Continuation of fourth-year Mandarin Chinese. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance. Prerequisite(s): grade of C or higher in CHIN 4010, or permission of the School. Three hours a week.

CHIN 4210 [0.5 credit]**Functional Contemporary Mandarin Chinese I**

Further study of Mandarin Chinese to reach a more advanced level, aimed at developing speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains. Prerequisite(s): grade of C or higher in CHIN 4020, or permission of the School. Three hours a week.

CHIN 4220 [0.5 credit]**Functional Contemporary Mandarin Chinese II**

Continuation of CHIN 4210. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains. Prerequisite(s): grade of C or higher in CHIN 4210 or permission of the School. Three hours a week.

CHIN 4380 [0.5 credit]**Topics in Chinese Culture and Society**

Selected topics in Chinese culture and society. Repeatable once for credit when topic varies. Taught in English. Prerequisite(s): Third-year standing in the Minor in Mandarin Chinese, or permission of the instructor. Three hours a week.

CHIN 4900 [1.0 credit]**Independent Study**

Research in a topic in Mandarin Chinese language, literature or linguistics under the supervision of a member of the School. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in the Minor in Mandarin Chinese, grade of C or higher in CHIN 4020 or equivalent, and permission of the School.

CHIN 4901 [0.5 credit]**Independent Study**

Research in a topic in Mandarin Chinese language, literature or linguistics under the supervision of a member of the School. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in the Minor in Mandarin Chinese, grade of C or higher in CHIN 4020 or equivalent, and permission of the School.

Mathematics and Statistics

This section presents the requirements for programs in:

- Mathematics B. Math. Honours
- Mathematics with Concentration in Stochastics B. Math. Honours
- Computational and Applied Mathematics and Statistics with Concentration B.Math. Honours
- Concentration in Applied Analysis
- Concentration in Applied Statistics and Probability
- Concentration in Discrete Mathematics
- Statistics B. Math. Honours
- Statistics with Concentration in Actuarial Science B. Math. Honours
- Mathematics B. Math.
- Computer Mathematics B. Math.
- Statistics B. Math.
- Computer Science and Mathematics: Concentration in Computing Theory and Numerical Methods B. Math. Combined Honours
- Computer Science and Mathematics: Concentration in Statistics and Computing B. Math. Combined Honours
- Mathematics and Physics B.Sc. Double Honours
- Economics and Mathematics B.Math. Combined Honours
- Economics and Statistics B.Math. Combined Honours
- Mathematics (Combined B.Math./M.Sc.) B.Math.
- Statistics (Combined B.Math./M.Sc.) B.Math.
- Minor in Mathematics
- Minor in Statistics

Program Requirements**Course Prerequisites**

The following courses central to B.Math. programs have grade requirements in their prerequisites:

- MATH 2000 requires C+ in (MATH 1002(no longer offered) or MATH 2052) , or B+ in (MATH 2007 or MATH 1005), and C+ in (MATH 1102(no longer offered) or MATH 2152), or B+ in (MATH 1107 or MATH 1104).
- MATH 2100 requires C+ in (MATH 1102(no longer offered) or MATH 2152), or B+ in MATH 2107.
- MATH 2454 requires C+ in (MATH 1002(no longer offered) or MATH 2052 or MATH 2007 or MATH 1005), and C+ in (MATH 1102(no longer offered) or MATH 2152 or MATH 2107).
- STAT 2655 requires C+ in (MATH 1002(no longer offered) or MATH 2052 or MATH 2007 or MATH 1005), and C+ in (MATH 1102(no longer offered) or MATH 2152 or MATH 1107 or MATH 1104).
- MATH 2007 requires MATH 1004 or C- in (MATH 1007 or MATH 1009).
- MATH 2107 requires MATH 1104 or C- in MATH 1107

Course Categories for B.Math. Programs

2000-level Honours Sequence

The following courses constitute the 2000-level Honours Sequence:

MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis
MATH 2100 [1.0]	Algebra
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)
MATH 2907 [0.5]	Directed Studies (Honours)

3000-level Honours Sequence

The following courses constitute the 3000-level Honours Sequence. Courses in the 3000-level Honours Sequence have grade levels in their prerequisites

MATH 3001 [0.5]	Real Analysis I (Honours)
MATH 3002 [0.5]	Real Analysis II (Honours)
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)
MATH 3106 [0.5]	Introduction to Group Theory (Honours)
MATH 3158 [0.5]	Rings and Fields (Honours)
MATH 3306 [0.5]	Elements of Set Theory (Honours)
MATH 3355 [0.5]	Number Theory and Applications (Honours)
MATH 3806 [0.5]	Numerical Analysis (Honours)
MATH 3807 [0.5]	Mathematical Software (Honours)
MATH 3855 [0.5]	Discrete Structures and Applications (Honours)
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)
STAT 3553 [0.5]	Regression Modeling (Honours)

STAT 3558 [0.5]	Elements of Probability Theory (Honours)
-----------------	--

STAT 3559 [0.5]	Mathematical Statistics (Honours)
-----------------	-----------------------------------

Natural Science Electives

All courses with the following subject codes:

BIOC, BIOL, CHEM, ENSC, EARTH, ISCI, NSCI, PHYS

APPROVED ARTS OR SOCIAL SCIENCES ELECTIVES

All courses offered by the Faculty of Arts and Social Sciences and the Faculty of Public Affairs are acceptable as Arts or Social Sciences Electives except for the following courses, which are only accepted for credit as free electives in any program of the School. See item 3 under Prohibited and Restricted Courses below concerning Computer Mathematics programs.

Business

BUSI 1001 [0.5]	Principles of Financial Accounting
BUSI 1002 [0.5]	Management Accounting
BUSI 1004 [0.5]	Financial Accounting for Business Students
BUSI 1005 [0.5]	Managerial Accounting for Business Students
BUSI 1402 [0.5]	Introduction to Business Information and Communication Technologies
BUSI 2001 [0.5]	Intermediate Accounting I
BUSI 2002 [0.5]	Intermediate Accounting II
BUSI 2402 [0.5]	Business Applications Development
BUSI 3001 [0.5]	Accounting for Business Combinations
BUSI 3008 [0.5]	Intermediate Management Accounting and Control

Economics

ECON 4005 [0.5]	Operations Research II
-----------------	------------------------

Geography

GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3108 [0.5]	Soil Properties
GEOG 4000/ENST 4100 [0.5]	Directed Studies in Geography
GEOG 4005/ENST 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103/ENVE 4102 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Geomatics

GEOM 2007 [0.5]	Geographic Information Systems
GEOM 3002 [0.5]	Introduction to Remote Sensing
GEOM 3005 [0.5]	Geospatial Analysis
GEOM 3007 [0.5]	Cartographic Theory and Design
GEOM 4003 [0.5]	Remote Sensing of the Environment
GEOM 4008 [0.5]	Advanced Topics in Geographic Information Systems
GEOM 4009 [0.5]	Applications in Geographic Information Systems

Psychology

PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 4001 [0.5]	Special Topics in Psychology

Prohibited and Restricted Courses

1. MATH 1805/COMP 1805 can be counted only as a half-credit free elective in Mathematics and Statistics programs.
2. The following courses may not be counted for academic credit (even as free electives) in any program offered by the School of Mathematics and Statistics: BIOL 3604, COMS 3001, CRCJ 3001, ECON 1401, ECON 1402, ECON 2201 (no longer offered), ECON 2202 (no longer offered), ECON 2210, ECON 2220, ECON 2400 (no longer offered), ECON 3001, ECON 4001, ECON 4002, ECON 4004, ECON 4025, ECON 4706, ECON 4707, ECON 4713, ECOR 2606, GEOG 2006, GEOG 3003, NEUR 2001, NEUR 2002, NEUR 3001, NEUR 3002, PSCI 2702, PSYC 2001, PSYC 2002, PSYC 3000 [1.0], SOCI 3000, SOCI 3002, SOCI 4009, SOWK 3001, SYSC 2510.
Students who have completed ECON 2201 (no longer offered) and ECON 2202 (no longer offered) and enter a B.Math. General program may be exempted from taking STAT 2507 and STAT 2509 only with permission of the School of Mathematics and Statistics, and provided the grade in ECON 2201 (no longer offered) and ECON 2202 (no longer offered) is B- or higher in each.
3. BUSI 1402, BUSI 2402 and COMP 1001 may not count for credit in the Computer Mathematics Honours or General program, even as free electives.
4. Only one of MATH 3806, COMP 3806 (no longer offered), CMPS 3800 (no longer offered) or MATH 3800 may count for credit in a B.Math. program.

Mathematics

B. Math. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.5 credits)

1. 2.5 credits in:		2.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2152 [0.5]	Introductory Algebra II	
2. 3.5 credits in:		3.5
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2100 [1.0]	Algebra	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	

STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
3. 2.0 credits in:		2.0
MATH 3001 [0.5]	Real Analysis I (Honours)	
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)	
MATH 3106 [0.5]	Introduction to Group Theory (Honours)	
MATH 3158 [0.5]	Rings and Fields (Honours)	
4. 0.5 credit from:		0.5
MATH 3002 [0.5]	Real Analysis II (Honours)	
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
5. 1.0 credit from 3000-level Honours Sequence		1.0
6. 1.5 credits in MATH or STAT at the 4000-level or higher		1.5
7. 0.5 credit in:		0.5
MATH 4905 [0.5]	Honours Project (Honours)	
B. Credits Not Included in the Major CGPA (8.5 credits)		
8. 4.0 credits not in MATH, STAT or COMP, consisting of:		4.0
a. 1.0 credit in Natural Science Electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		
9. 4.5 credits in free electives		4.5
Total Credits		20.0

Mathematics with Concentration in Stochastics

B. Math. Honours (20.0 credits)

Items 3, 4, 5 and 6 in the Mathematics degree requirements are replaced by:

3. 3.0 credits in:		3.0
MATH 3001 [0.5]	Real Analysis I (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
STAT 4501 [0.5]	Probability Theory (Honours)	
4. 0.5 credit from:		0.5
STAT 3553 [0.5]	Regression Modeling (Honours)	
MATH 3801 [0.5]	Linear Programming	
5. 0.5 credit in STAT at the 4000-level		0.5
6. 1.0 credit in MATH or STAT at the 4000-level or higher		1.0
Total Credits		5.0

Computational and Applied Mathematics and Statistics with Concentration

B. Math. Honours (20.0 credits)

A. Credits included in the Major CGPA (14.0 credits)

1. 7.0 credits in:		7.0
COMP 1405 [0.5]	Introduction to Computer Science I	
COMP 1406 [0.5]	Introduction to Computer Science II	
COMP 2401 [0.5]	Introduction to Systems Programming	

COMP 2402 [0.5]	Abstract Data Types and Algorithms	
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2152 [0.5]	Introductory Algebra II	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
2. 6.5 credits in	one of the concentrations described below, also included in the Major CGPA:	6.5
3. 0.5 credit in:		0.5
MATH 4905 [0.5]	Honours Project (Honours)	
B. Credits Not Included in the Major CGPA (6.0 credits)		
4. 1.0 credit in	Natural Science electives at the 1000 level or above	1.0
5. 3.0 credits from	Natural Science, or Approved Arts and Social Sciences electives	3.0
6. 2.0 credits in	free electives	2.0
Total Credits		20.0

Concentration in Applied Analysis (6.5 credits)

Requirements:

2a. 3.0 credits in:		3.0
MATH 2100 [1.0]	Algebra	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)	
MATH 3806 [0.5]	Numerical Analysis (Honours)	
MATH 3855 [0.5]	Discrete Structures and Applications (Honours)	
2b. 1.0 credit from:		1.0
MATH 4700 [0.5]	Partial Differential Equations (Honours)	
MATH 4701 [0.5]	Topics in Differential Equations (Honours)	
MATH 4703 [0.5]	Dynamical Systems (Honours)	
MATH 4708 [0.5]	Asymptotic Methods of Applied Mathematics (Honours)	
MATH 4806 [0.5]	Numerical Linear Algebra (Honours)	
MATH 4816 [0.5]	Numerical Analysis for Differential Equations (Honours)	
2c. 0.5 credit in MATH at the 4000 level		0.5
2d. 2.0 credits in MATH or STAT at the 3000 level or above		2.0
Total Credits		6.5

Concentration in Applied Statistics and Probability (6.5 credits)

Requirements:

2a. 2.5 credits in:		2.5
----------------------------	--	------------

MATH 3107 [0.5]	Linear Algebra III	
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5]	Regression Modeling (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
2b. 1.5 credits from:		1.5
STAT 4500 [0.5]	Parametric Estimation (Honours)	
STAT 4502 [0.5]	Survey Sampling (Honours)	
STAT 4503 [0.5]	Applied Multivariate Analysis (Honours)	
STAT 4504 [0.5]	Statistical Design and Analysis of Experiments (Honours)	
STAT 4506 [0.5]	Nonparametric Statistics (Honours)	
STAT 4508 [0.5]	Stochastic Models (Honours)	
STAT 4509 [0.5]	Advanced Mathematical Modeling (Honours)	
STAT 4555 [0.5]	Monte Carlo Simulation (Honours)	
STAT 4601 [0.5]	Data Mining I (Honours)	
STAT 4603 [0.5]	Time Series and Forecasting (Honours)	
STAT 4604 [0.5]	Statistical Computing (Honours)	
2c. 2.5 credits in MATH or STAT at the 3000 level or above		2.5
Total Credits		6.5

Concentration in Discrete Mathematics (6.5 credits)

Requirements:

2a. 3.0 credits in:		3.0
MATH 2100 [1.0]	Algebra	
MATH 3801 [0.5]	Linear Programming	
MATH 3802 [0.5]	Combinatorial Optimization	
MATH 3806 [0.5]	Numerical Analysis (Honours)	
MATH 3855 [0.5]	Discrete Structures and Applications (Honours)	
2b. 1.0 credit from:		1.0
MATH 4109 [0.5]	Fields and Coding Theory (Honours)	
MATH 4801 [0.5]	Topics in Combinatorics (Honours)	
MATH 4802 [0.5]	Introduction to Mathematical Logic (Honours)	
MATH 4803 [0.5]	Computable Functions (Honours)	
MATH 4805 [0.5]	Theory of Automata (Honours)	
MATH 4807 [0.5]	Game Theory (Honours)	
MATH 4808 [0.5]	Graph Theory and Algorithms (Honours)	
MATH 4811 [0.5]	Combinatorial Design Theory (Honours)	
2c. 0.5 credit in MATH at the 4000 level		0.5
2d. 2.0 credits in MATH or STAT at the 3000 level or above		2.0
Total Credits		6.5

Statistics

B. Math. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits)

1. 2.5 credits in:		2.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	

MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2152 [0.5]	Introductory Algebra II	
2. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
3. 6.0 credits in:		6.0
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3806 [0.5]	Numerical Analysis (Honours)	
MATH 4905 [0.5]	Honours Project (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5]	Regression Modeling (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
STAT 4500 [0.5]	Parametric Estimation (Honours)	
4. 1.0 credit from:		1.0
MATH 2100 [1.0]	Algebra	
or		
MATH 3107 [0.5]	Linear Algebra III	
and 0.5 credit from:		
3000-level Honours Sequence, or:		
MATH 3705 [0.5]	Mathematical Methods I	
MATH 3801 [0.5]	Linear Programming	
MATH 3807 [0.5]	Mathematical Software (Honours)	
MATH 3809 [0.5]	Introduction to Number Theory and Cryptography	
or Mathematics or Statistics at the 4000-level or higher		
5. 0.5 credit from the 3000-level Honours Sequence or MATH or STAT at the 4000-level or higher		0.5
6. 1.5 credits in STAT at the 4000-level		1.5
B. Credits Not Included in the Major CGPA (7.5 credits)		
7. 4.0 credits not in MATH, STAT or COMP, consisting of:		4.0
a. 1.0 credit in Natural Science Electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		
8. 3.5 credits in free electives		3.5
Total Credits		20.0

Statistics with Concentration in Actuarial Science

B. Math. Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.0 credits)

1. 2.5 credits in:		2.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	

MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2152 [0.5]	Introductory Algebra II	
2. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
3. 6.5 credits in:		6.5
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3806 [0.5]	Numerical Analysis (Honours)	
MATH 4905 [0.5]	Honours Project (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
STAT 2660 [0.5]	Mathematics for Finance (Honours)	
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5]	Regression Modeling (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
STAT 4500 [0.5]	Parametric Estimation (Honours)	
4. 1.0 credit in:		1.0
MATH 3107 [0.5]	Linear Algebra III	
and 0.5 credit from:		
3000-level Honours Sequence, or:		
MATH 3705 [0.5]	Mathematical Methods I	
MATH 3801 [0.5]	Linear Programming	
MATH 3807 [0.5]	Mathematical Software (Honours)	
MATH 3809 [0.5]	Introduction to Number Theory and Cryptography	
or Mathematics or Statistics at the 4000-level or higher		
5. 1.0 credit in:		1.0
STAT 3661 [0.5]	Life Contingent Risk Modelling I	
STAT 3662 [0.5]	Life Contingent Risk Modelling II	
6. 1.0 credit in:		1.0
STAT 4508 [0.5]	Stochastic Models (Honours)	
STAT 4603 [0.5]	Time Series and Forecasting (Honours)	
B. Credits Not Included in the Major CGPA (7.0 credits):		
7. 3.0 credits in:		3.0
BUSI 1001 [0.5]	Principles of Financial Accounting	
BUSI 1002 [0.5]	Management Accounting	
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure	
ECON 2102 [0.5]	Intermediate Macroeconomics I	
8. 2.5 credits in:		2.5
BUSI 2504 [0.5]	Business Finance I	
BUSI 2505 [0.5]	Business Finance II	
BUSI 3500 [0.5]	Applied Corporate Finance	
BUSI 3502 [0.5]	Investments	
BUSI 3512 [0.5]	Derivatives	

or

ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium	
ECON 3050 [0.5]	Introduction to Financial Economics	
ECON 4051 [0.5]	Financial Asset Pricing	
ECON 4052 [0.5]	Corporate Financial Economics	
and one of:		
ECON 2103 [0.5]	Intermediate Macroeconomics II	
ECON 3607 [0.5]	Monetary and Financial Institutions	
ECON 4053 [0.5]	Financial Market Modeling	
9. 1.0 credit in	Natural Science electives	1.0
10. 0.5 credit in	free electives	0.5
Total Credits		20.0

Mathematics

B. Math. (15.0 credits)

A. Credits Included in the Major CGPA (7.5 credits)

1. 0.5 credit in:		0.5
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
2. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
or MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 2007 [0.5]	Elementary Calculus II	
or MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
Note: MATH 1052 may replace MATH 1007 and MATH 2052 may replace MATH 2007.		
3. 1.0 credit in:		1.0
MATH 1107 [0.5]	Linear Algebra I	
or MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2107 [0.5]	Linear Algebra II	
Note: MATH 1102 may replace MATH 1107 and MATH 2107.		
4. 2.0 credits in:		2.0
MATH 2008 [0.5]	Intermediate Calculus	
MATH 2108 [0.5]	Abstract Algebra I	
MATH 2404 [0.5]	Ordinary Differential Equations I	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
5. 3.0 credits from:		3.0
STAT 2509 [0.5]	Introduction to Statistical Modeling II	
MATH or STAT at the 3000-level or higher		
Excluding:		
MATH 3101 [0.5]	Algebraic Structures with Computer Applications	
STAT 3502 [0.5]	Probability and Statistics	
B. Credits Not Included in the Major CGPA (7.5 credits)		
6. 4.0 credits not in	MATH, STAT or COMP, consisting of:	4.0
a. 1.0 credit in Natural Science Electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		
7. 3.5 credits in	free electives.	3.5
Total Credits		15.0

Computer Mathematics

B. Math. (15.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 0.5 credit in:		0.5
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
2. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
or MATH 1004 [0.5]	Calculus for Engineering or Physics	
and		
MATH 2007 [0.5]	Elementary Calculus II	
or MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
Note: MATH 1052 may replace MATH 1007 and MATH 2052 may replace MATH 2007.		
3. 1.0 credit in:		1.0
MATH 1107 [0.5]	Linear Algebra I	
or MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
and		
MATH 2107 [0.5]	Linear Algebra II	
Note: MATH 1152 may replace MATH 1107 and MATH 2152 may replace MATH 2107.		
4. 2.5 credits in:		2.5
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
COMP 2401 [0.5]	Introduction to Systems Programming	
COMP 2402 [0.5]	Abstract Data Types and Algorithms	
COMP 2404 [0.5]	Introduction to Software Engineering	
5. 2.5 credits in:		2.5
MATH 2008 [0.5]	Intermediate Calculus	
MATH 3804 [0.5]	Design and Analysis of Algorithms I	
MATH 3825 [0.5]	Discrete Structures and Applications	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
STAT 2605 [0.5]	Probability Models	
6. 0.5 credit from:		0.5
MATH 2108 [0.5]	Abstract Algebra I	
MATH 3101 [0.5]	Algebraic Structures with Computer Applications	
7. 1.0 credit from:		1.0
MATH 3801 [0.5]	Linear Programming	
MATH 3802 [0.5]	Combinatorial Optimization	
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
MATH 3807 [0.5]	Mathematical Software (Honours)	
MATH 3809 [0.5]	Introduction to Number Theory and Cryptography	
8. 1.0 credit in	MATH or STAT at the 3000 level	1.0
9. 0.5 credit in	MATH or STAT at the 2000 level or higher	0.5
B. Credits Not Included in the Major CGPA (4.5 credits)		
10. 4.0 credits not in	MATH, STAT or COMP, consisting of:	4.0
a. 1.0 credit in Natural Science Electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		

11. 0.5 credit in free electives. 0.5

Total Credits 15.0

Statistics

B. Math. (15.0 credits)

A. Credits Included in the Major CGPA (7.5 credits)

1. 0.5 credit in: 0.5

MATH 1800 [0.5] Introduction to Mathematical Reasoning

2. 1.0 credit in: 1.0

MATH 1007 [0.5] Elementary Calculus I
or MATH 1004 [0.5] Calculus for Engineering or Physics

MATH 2007 [0.5] Elementary Calculus II
or MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics

Note: MATH 1052 may replace MATH 1007 and MATH 2052 may replace MATH 2007.

3. 1.0 credit in: 1.0

MATH 1107 [0.5] Linear Algebra I
or MATH 1104 [0.5] Linear Algebra for Engineering or Science

MATH 2107 [0.5] Linear Algebra II

Note: MATH 1152 may replace MATH 1107 and MATH 2152 may replace MATH 2107.

4. 4.0 credits in: 4.0

MATH 2008 [0.5] Intermediate Calculus
STAT 2507 [0.5] Introduction to Statistical Modeling I
STAT 2509 [0.5] Introduction to Statistical Modeling II

STAT 3503 [0.5] Regression Analysis

STAT 3504 [0.5] Analysis of Variance and Experimental Design

STAT 3507 [0.5] Sampling Methodology

STAT 3508 [0.5] Elements of Probability Theory

STAT 3509 [0.5] Mathematical Statistics

5. 0.5 credit from: 0.5

BUSI 1402 [0.5] Introduction to Business Information and Communication Technologies

COMP 1005 [0.5] Introduction to Computer Science I

ECOR 1606 [0.5] Problem Solving and Computers

6. 0.5 credit in MATH or STAT at the 2000 level 0.5

B. Credits Not Included in the Major CGPA (7.5 credits)

7. 4.0 credits not in MATH, STAT or COMP, consisting of: 4.0

a. 1.0 credit in Natural Science Electives

b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives

8. 3.5 credits in free electives. 3.5

Total Credits 15.0

Computer Science and Mathematics: Concentration in Computing Theory and Numerical Methods

B. Math. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (16.0 credits)

1. 4.5 credits in: 4.5

MATH 1052 [0.5] Calculus and Introductory Analysis I

MATH 1152 [0.5] Introductory Algebra I

MATH 1800 [0.5] Introduction to Mathematical Reasoning

MATH 2000 [1.0] Multivariable Calculus and Fundamentals of Analysis

MATH 2052 [0.5] Calculus and Introductory Analysis II

MATH 2100 [1.0] Algebra

MATH 2152 [0.5] Introductory Algebra II

2. 6.0 credits in: 6.0

COMP 1405 [0.5] Introduction to Computer Science I

COMP 1406 [0.5] Introduction to Computer Science II

COMP 2401 [0.5] Introduction to Systems Programming

COMP 2402 [0.5] Abstract Data Types and Algorithms

COMP 2404 [0.5] Introduction to Software Engineering

COMP 2406 [0.5] Fundamentals of Web Applications

COMP 2804 [0.5] Discrete Structures II

COMP 3000 [0.5] Operating Systems

COMP 3004 [0.5] Object-Oriented Software Engineering

COMP 3005 [0.5] Database Management Systems

COMP 3804 [0.5] Design and Analysis of Algorithms I

COMP 3805 [0.5] Discrete Structures and Applications (Honours)

3. 0.5 credit from: 0.5

COMP 4905 [0.5] Honours Project

MATH 4905 [0.5] Honours Project (Honours)

Concentration in Computing Theory and Numerical Methods

4. 3.0 credits from: 3.0

MATH 2454 [0.5] Ordinary Differential Equations (Honours)

STAT 2559 [0.5] Basics of Statistical Modeling (Honours)

STAT 2655 [0.5] Introduction to Probability with Applications (Honours)

MATH 3801 [0.5] Linear Programming

MATH 3806 [0.5] Numerical Analysis (Honours)

COMP 4804 [0.5] Design and Analysis of Algorithms II

5. 0.5 credit from: 0.5

MATH 3001 [0.5] Real Analysis I (Honours)

MATH 3002 [0.5] Real Analysis II (Honours)

MATH 3003 [0.5] Advanced Differential Calculus (Honours)

MATH 3057 [0.5] Functions of a Complex Variable (Honours)

MATH 3008 [0.5] Ordinary Differential Equations (Honours)

6. 1.0 credit from: 1.0

MATH 4109 [0.5] Fields and Coding Theory (Honours)

MATH 4801 [0.5] Topics in Combinatorics (Honours)

MATH 4802 [0.5] Introduction to Mathematical Logic (Honours)

MATH 4803 [0.5] Computable Functions (Honours)

MATH 4805 [0.5] Theory of Automata (Honours)

MATH 4806 [0.5]	Numerical Linear Algebra (Honours)	
MATH 4807 [0.5]	Game Theory (Honours)	
MATH 4808 [0.5]	Graph Theory and Algorithms (Honours)	
MATH 4811 [0.5]	Combinatorial Design Theory (Honours)	
MATH 4816 [0.5]	Numerical Analysis for Differential Equations (Honours)	
MATH 4821 [0.5]	Quantum Computing (Honours)	
MATH 4822 [0.5]	Wavelets and Digital Signal Processing (Honours)	
7. 0.5 credit in COMP	at the 3000 level or above.	0.5
B. Credits Not Included in the Major CGPA (4.0 credits)		
8. 4.0 credits not in MATH, STAT, or COMP	consisting of:	4.0
a. 1.0 credit in Natural Science electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		
<hr/> Total Credits		20.0

Note:

The following courses offered by the School of Business and the Faculty of Engineering are treated as Computer Science courses in this program:

Business

BUSI 2400 [0.5]	Foundations of Information Systems	
BUSI 4400 [0.5]	IS Strategy, Management and Acquisition	
BUSI 4406 [0.5]	Business Analytics	

Engineering

SYSC 3303 [0.5]	Real-Time Concurrent Systems	
SYSC 4005 [0.5]	Discrete Simulation/Modeling	
SYSC 4507 [0.5]	Computer Systems Architecture	

**Computer Science and Mathematics:
Concentration in Statistics and Computing
B. Math. Combined Honours (20.0 credits)**

A. Credits Included in the Major CGPA (16.0 credits)

1. 4.5 credits in:		4.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2100 [1.0]	Algebra	
MATH 2152 [0.5]	Introductory Algebra II	
2. 6.0 credits in:		6.0
COMP 1405 [0.5]	Introduction to Computer Science I	
COMP 1406 [0.5]	Introduction to Computer Science II	
COMP 2401 [0.5]	Introduction to Systems Programming	
COMP 2402 [0.5]	Abstract Data Types and Algorithms	
COMP 2404 [0.5]	Introduction to Software Engineering	

COMP 2406 [0.5]	Fundamentals of Web Applications	
COMP 2804 [0.5]	Discrete Structures II	
COMP 3000 [0.5]	Operating Systems	
COMP 3004 [0.5]	Object-Oriented Software Engineering	
COMP 3005 [0.5]	Database Management Systems	
COMP 3804 [0.5]	Design and Analysis of Algorithms I	
COMP 3805 [0.5]	Discrete Structures and Applications (Honours)	
3. 0.5 credit from:		0.5
COMP 4905 [0.5]	Honours Project	
MATH 4905 [0.5]	Honours Project (Honours)	
Concentration:		
4. 3.0 credits in:		3.0
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3806 [0.5]	Numerical Analysis (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
5. 0.5 credit from:		0.5
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5]	Regression Modeling (Honours)	
6. 1.0 credit in STAT	at the 4000 level	1.0
7. 0.5 credit in COMP	at the 4000 level	0.5
B. Credits Not Included in the Major CGPA (4.0 credits)		
8. 4.0 credits not in MATH, STAT, or COMP	consisting of:	4.0
a. 1.0 credit in Natural Science electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		
<hr/> Total Credits		20.0

**Mathematics and Physics
B.Sc. Double Honours (21.5 credits)**

Note that the following courses have minimum grade requirements in their prerequisites. Refer to the section Course Prerequisites under the Mathematics and Statistics programs sections of the calendar.

MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2100 [1.0]	Algebra	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
A. Credits Included in the Major CGPA (17.0 credits)		
1. 7.5 credits in:		7.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	

MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2100 [1.0]	Algebra	
MATH 2152 [0.5]	Introductory Algebra II	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3001 [0.5]	Real Analysis I (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)	
MATH 3705 [0.5]	Mathematical Methods I	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
2. 0.5 credit from:		0.5
MATH 3002 [0.5]	Real Analysis II (Honours)	
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)	
MATH 3106 [0.5]	Introduction to Group Theory (Honours)	
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3606 [0.5]	Modern Physics II	
3. 1.0 credit in	4000-level or higher MATH, STAT	1.0
4. 1.0 credit from:		1.0
PHYS 1001 [0.5]	Foundations of Physics I	
& PHYS 1002 [0.5]	Foundations of Physics II (recommended)	
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II (with an average grade of B- or higher)	
5. 2.0 credits in:		2.0
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics	
PHYS 2604 [0.5]	Modern Physics I	
6. 3.0 credits in:		3.0
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3701 [0.5]	Elements of Quantum Mechanics	
PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 4409 [0.5]	Thermodynamics and Statistical Physics	
PHYS 4707 [0.5]	Introduction to Quantum Mechanics I	
PHYS 4708 [0.5]	Introduction to Quantum Mechanics II	
7. 1.0 credit in	PHYS at the 4000-level	1.0
8. 1.0 credit from:		1.0
a.	MATH 4905 or PHYS 4907 or PHYS 4908 plus 0.5 credit 4000-level MATH or PHYS	
b.	PHYS 4909 [1.0]	
B. Credits Not Included in the Major CGPA (4.5 credits)		
9. 1.0 credit from:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
& BIOL 1104 [0.5]	Foundations of Biology II	
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
ERTH 1006 [0.5]	Exploring Planet Earth	
& ERTH 1009 [0.5]	The Earth System Through Time	
10. 0.5 credit in:		0.5
COMP 1005 [0.5]	Introduction to Computer Science I	
11. 0.5 credit from:		0.5
NSCI 1000 [0.5]	Seminar in Science	
Approved courses outside the faculties of Science and Engineering and Design		
12. 1.5 credits in	approved courses outside the faculties of Science and Engineering and Design	1.5
13. 1.0 credit in	free electives	1.0
Total Credits		21.5

Economics and Mathematics		
B.Math. Combined Honours (20.0 credits)		
A. Credits Included in the Major CGPA (15.5 credits)		
1. 7.5 credits in:		7.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2100 [1.0]	Algebra	
MATH 2152 [0.5]	Introductory Algebra II	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3001 [0.5]	Real Analysis I (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
2. 0.5 credit from:		0.5
MATH 3002 [0.5]	Real Analysis II (Honours)	
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)	
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)	
3. 0.5 credit in:		0.5
MATH 4905 [0.5]	Honours Project (Honours)	
4. 1.0 credit in	MATH or STAT at the 4000-level	1.0
5. 4.0 credits in:		4.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure	

ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium	
ECON 2102 [0.5]	Intermediate Macroeconomics I	
ECON 2103 [0.5]	Intermediate Macroeconomics II	
ECON 4020 [0.5]	Advanced Microeconomic Theory	
ECON 4021 [0.5]	Advanced Macroeconomic Theory	
6. 2.0 credits in ECON at the 4000-level		2.0
B. Credits Not Included in the Major CGPA (4.5 credits)		
7. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
8. 1.0 credit in Natural Science Electives		1.0
9. 2.5 credits in free electives		2.5
Total Credits		20.0

Notes:

- An Honours Essay (ECON 4908 [1.0]) may be written by students with Overall and Major CGPAS of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may count for 1.0 credit in ECON at the 4000-level. Qualified students who choose to pursue the Honours Essay option must first complete an Honours Essay prospectus to the satisfaction of both their adviser and the Department of Economics Undergraduate Supervisor.
- The following courses do not count for credit in this program: ECON 1401, ECON 1402, ECON 2201 (no longer offered), ECON 2202 (no longer offered), ECON 2210, ECON 2220, ECON 2400 (no longer offered), ECON 3001, ECON 4001, ECON 4002, ECON 4004, ECON 4025, ECON 4706, ECON 4707, and ECON 4713.

Economics and Statistics

B.Math. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (15.5 credits)

1. 8.5 credits in:		8.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I	
MATH 1152 [0.5]	Introductory Algebra I	
MATH 1800 [0.5]	Introduction to Mathematical Reasoning	
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis	
MATH 2052 [0.5]	Calculus and Introductory Analysis II	
MATH 2152 [0.5]	Introductory Algebra II	
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3107 [0.5]	Linear Algebra III	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5]	Regression Modeling (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	

STAT 3559 [0.5]	Mathematical Statistics (Honours)	
STAT 4502 [0.5]	Survey Sampling (Honours)	
STAT 4503 [0.5]	Applied Multivariate Analysis (Honours)	
2. 0.5 credit in:		0.5
MATH 4905 [0.5]	Honours Project (Honours)	
3. 0.5 credit in STAT at the 4000 level		0.5
4. 4.0 credits in:		4.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure	
ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium	
ECON 2102 [0.5]	Intermediate Macroeconomics I	
ECON 2103 [0.5]	Intermediate Macroeconomics II	
ECON 4020 [0.5]	Advanced Microeconomic Theory

5. 2.0 credits in ECON at the 4000 level		2.0
B. Credits Not Included in the Major CGPA (4.5 credits)		
6. 1.0 credit in:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
7. 1.0 credit in Natural Science Electives		1.0
8. 2.5 credits in free electives		2.5
Total Credits		20.0

Notes:

- An Honours Essay ECON 4908 [1.0] may be written by students with Overall and Major CGPAs of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may count for 1.0 credit in ECON at the 4000-level. Qualified students who choose to pursue the Honours Essay option must first complete an Honours Essay prospectus to the satisfaction of both their adviser and the Department of Economics Undergraduate Supervisor.
- MATH 2100 [1.0] may replace MATH 3107 and 0.5 credit in free electives in this program.
- The following courses do not count for credit in this program: ECON 1401, ECON 1402, ECON 2201 (no longer offered), ECON 2202 (no longer offered), ECON 2210, ECON 2220, ECON 2400 (no longer offered), ECON 3001, ECON 4001, ECON 4002, ECON 4004, ECON 4025, ECON 4706, ECON 4707, and ECON 4713.

Program Requirements for Combined B.Math./M.Sc.

This "fast-track" program combines the requirements for Bachelor of Mathematics in Mathematics or Statistics, and Master of Science in Mathematics, into a sequence that will enable exceptional students to complete in four years of study.

Entry to this program directly from an Ontario High School requires both of the following:

1. an average of 90 per cent or better on Grade 12 Mathematics: Advanced Functions and Grade 12 Mathematics: Calculus and Vectors;
2. an average of 85 per cent or better over six credits in Grade 12 courses of University or University/College type.

Admission, continuation and graduation from the undergraduate portion of the program requires a Major CGPA of 11.0 or better and Overall CGPA of 10.00 or better.

Before entry into the fourth year of this program, students must: obtain a recommendation from the School of Mathematics and Statistics to continue, apply to graduate with a B.Math. General degree, by the end of January of their third year, and submit an application for graduate studies to the School by mid-February.

Undergraduate Portion

Students may apply for admission to either the Mathematics or the Statistics versions of the program.

Mathematics (Combined B.Math./M.Sc.) B.Math. (15.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 7.5 credits in: 7.5

MATH 1052 [0.5] Calculus and Introductory Analysis I

MATH 1152 [0.5] Introductory Algebra I

MATH 1800 [0.5] Introduction to Mathematical Reasoning

MATH 2000 [1.0] Multivariable Calculus and Fundamentals of Analysis

MATH 2052 [0.5] Calculus and Introductory Analysis II

MATH 2100 [1.0] Algebra

MATH 2152 [0.5] Introductory Algebra II

MATH 2454 [0.5] Ordinary Differential Equations (Honours)

MATH 3001 [0.5] Real Analysis I (Honours)

MATH 3057 [0.5] Functions of a Complex Variable (Honours)

MATH 3106 [0.5] Introduction to Group Theory (Honours)

MATH 3158 [0.5] Rings and Fields (Honours)

STAT 2655 [0.5] Introduction to Probability with Applications (Honours)

2. 0.5 credit from: 0.5

MATH 3002 [0.5] Real Analysis II (Honours)

MATH 3003 [0.5] Advanced Differential Calculus (Honours)

MATH 3008 [0.5] Ordinary Differential Equations (Honours)

3. 0.5 credit from 3000-level Honours Sequence or MATH or STAT at the 4000-level or higher 0.5

4. 1.5 credits at the 4000-level or higher in MATH or STAT 1.5

B. Credits Not Included in the Major CGPA (5.0 credits)

5. 4.0 credits not in MATH, STAT or COMP, consisting of: 4.0

a. 1.0 credit in Natural Science Electives

b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives

6. 1.0 credit in free electives 1.0

Total Credits 15.0

Students wishing to specialize in Stochastics may, with the permission of the School, replace **Credits Included in the Major CGPA** of the Mathematics version with:

1. 6.0 credits in: 6.0

MATH 1052 [0.5] Calculus and Introductory Analysis I

MATH 1152 [0.5] Introductory Algebra I

MATH 1800 [0.5] Introduction to Mathematical Reasoning

MATH 2000 [1.0] Multivariable Calculus and Fundamentals of Analysis

MATH 2052 [0.5] Calculus and Introductory Analysis II

MATH 2100 [1.0] Algebra

MATH 2152 [0.5] Introductory Algebra II

MATH 2454 [0.5] Ordinary Differential Equations (Honours)

STAT 2559 [0.5] Basics of Statistical Modeling (Honours)

STAT 2655 [0.5] Introduction to Probability with Applications (Honours)

2. 2.0 credits in: 2.0

MATH 3001 [0.5] Real Analysis I (Honours)

STAT 3506 [0.5] Stochastic Processes and Applications (Honours)

STAT 3558 [0.5] Elements of Probability Theory (Honours)

STAT 3559 [0.5] Mathematical Statistics (Honours)

3. 0.5 credit from: 0.5

MATH 3002 [0.5] Real Analysis II (Honours)

MATH 3003 [0.5] Advanced Differential Calculus (Honours)

MATH 3057 [0.5] Functions of a Complex Variable (Honours)

MATH 3008 [0.5] Ordinary Differential Equations (Honours)

4. 1.5 credits at the 4000-level or higher in MATH or STAT 1.5

Total Credits 10.0

Statistics (Combined B.Math./M.Sc.) B.Math. (15.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 8.5 credits in: 8.5

MATH 1052 [0.5] Calculus and Introductory Analysis I

MATH 1152 [0.5] Introductory Algebra I

MATH 1800 [0.5] Introduction to Mathematical Reasoning

MATH 2000 [1.0] Multivariable Calculus and Fundamentals of Analysis

MATH 2052 [0.5] Calculus and Introductory Analysis II

MATH 2100 [1.0] Algebra

MATH 2152 [0.5] Introductory Algebra II

MATH 2454 [0.5]	Ordinary Differential Equations (Honours)	
MATH 3001 [0.5]	Real Analysis I (Honours)	
STAT 2559 [0.5]	Basics of Statistical Modeling (Honours)	
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)	
STAT 3506 [0.5]	Stochastic Processes and Applications (Honours)	
STAT 3553 [0.5]	Regression Modeling (Honours)	
STAT 3558 [0.5]	Elements of Probability Theory (Honours)	
STAT 3559 [0.5]	Mathematical Statistics (Honours)	
2. 1.5 credits in MATH or STAT at the 4000 level or above		1.5
B. Credits Not Included in the Major CGPA (5.0 credits)		
3. 4.0 credits not in MATH, STAT, or COMP consisting of:		4.0
a. 1.0 credit in Natural Science Electives		
b. 3.0 credits from Natural Science, or Approved Arts and Social Sciences electives		
4. 1.0 credit in free electives		1.0
Total Credits		15.0

Graduate Portion - M.Sc.

During the graduate portion of the "fast-track" program, the student is registered as a graduate student and is covered by the regulations of the Faculty of Graduate Studies.

5. 1.5 credits at the 5000-level or higher in MATH or STAT		1.5
6. 1.0 credit at the 5000-level or higher in mathematics or statistics or from another department or school		1.0
7. Either:		2.0
MATH 4905 and 1.5 credits in MATH or STAT at the 5000-level or higher		
or		
an M.Sc. thesis in Mathematics		
Total Credits		4.5

Minor in Mathematics (4.0 credits)

This minor is open to students in all undergraduate programs except programs of the School of Mathematics and Statistics.

Requirements

1. 1.0 credit from:		1.0
MATH 1007 [0.5] Elementary Calculus I & MATH 2007 [0.5] Elementary Calculus II		
or		
MATH 1004 [0.5] Calculus for Engineering or Physics & MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics		
or		
MATH 1052 [0.5] Calculus and Introductory Analysis I & MATH 2052 [0.5] I Calculus and Introductory Analysis II		
2. 1.0 credit from:		1.0
MATH 1107 [0.5] Linear Algebra I or MATH 1104 [0.5] Linear Algebra for Engineering or Science MATH 2107 [0.5] Linear Algebra II		

or		
MATH 1152 [0.5] Introductory Algebra I & MATH 2152 [0.5] Introductory Algebra II		
3. 0.5 credit from:		0.5
MATH 1800 [0.5] Introduction to Mathematical Reasoning		
or		
0.5 credit in MATH at 2000-level		
4. 1.0 credit in MATH at the 2000-level or higher		1.0
5. 0.5 credit in MATH at the 3000-level or higher		0.5
6. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Note: As a prerequisite, MATH 1800 opens more options at the 2000-level and above. It is recommended that students taking MATH 1800 do so as early as possible.

Minor in Statistics (4.0 credits)

This minor is open to students in all undergraduate programs except programs of the School of Mathematics and Statistics.

Requirements:

1. 0.5 credit from:		0.5
MATH 1004 [0.5] Calculus for Engineering or Physics		
MATH 1007 [0.5] Elementary Calculus I		
MATH 1009 [0.5] Calculus: with Applications to Business		
MATH 1052 [0.5] Calculus and Introductory Analysis I		
2. 0.5 credit from:		0.5
MATH 1104 [0.5] Linear Algebra for Engineering or Science		
MATH 1107 [0.5] Linear Algebra I		
MATH 1119 [0.5] Linear Algebra: with Applications to Business		
MATH 1152 [0.5] Introductory Algebra I		
3. 1.0 credit from:		1.0
STAT 2507 [0.5] Introduction to Statistical Modeling I & STAT 2509 [0.5] Introduction to Statistical Modeling II		
or		
STAT 3502 [0.5] Probability and Statistics & STAT 2509 [0.5] Introduction to Statistical Modeling II		
or		
STAT 2606 [0.5] Business Statistics I & STAT 2607 [0.5] Business Statistics II		
or		
ECON 2210 [0.5] Introductory Statistics for & ECON 2220 [0.5] Economics Introductory Econometrics		
4. 1.5 credits in:		1.5
STAT 3503 [0.5] Regression Analysis		
STAT 3504 [0.5] Analysis of Variance and Experimental Design		
STAT 3507 [0.5] Sampling Methodology		
5. 0.5 credit from:		0.5

BUSI 1402 [0.5]	Introduction to Business Information and Communication Technologies (Business students only)	
COMP 1005 [0.5]	Introduction to Computer Science I	
ECOR 1606 [0.5]	Problem Solving and Computers (Engineering students only)	
6. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Notes:

1. With approval an alternate introductory statistics course may be used to satisfy Item 3 above.

Mathematics (MATH) Courses

Note:

- See also the course listings under Statistics (STAT) in this Calendar.

Prerequisites for First-year Mathematics Courses in B.Math. Programs

Students who do not have the required Ontario Grade 12 Mathematics courses or equivalents may take MATH 0005 Precalculus: Functions and Graphs and MATH 0006 Precalculus: Trigonometric Functions and Complex Numbers in lieu of Advanced Functions, MATH 0107 Algebra and Geometry in lieu of the algebra component of Calculus and Vectors. These 0000-level mathematics courses serve as alternate prerequisites for MATH 1052 Calculus and Introductory Analysis I and MATH 1152 Introductory Algebra I. These courses would be in addition to the minimum 15.0 credits required in General programs, or 20.0 credits required in Honours programs.

MATH 0005 [0.5 credit]

Precalculus: Functions and Graphs

Review of algebraic manipulations. Polynomials: the remainder theorem, and the factor theorem; graphing. Real and Complex roots. Absolute values. Inequalities. Functions, including composition of functions, and Inverse functions. Logarithmic and exponential functions.

Not available for degree credit for students who have successfully completed: Grade 12 Mathematics - Advanced Functions, or an equivalent High School functions course.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 0006 [0.5 credit]

Precalculus: Trigonometric Functions and Complex Numbers

Angles and the unit circle, radian measure. Definitions of trigonometric functions. Fundamental relations, Law of Sines and Cosines. Analytic trigonometry, graphs, inverse functions. Trigonometric identities and equations. Applications in science and engineering. Complex numbers in polar form, de Moivre's Theorem, n-th roots of complex numbers.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 0009 [0.5 credit]

Calculus and Vectors

Limits and continuity. Differentiation rules. Trigonometric, logarithmic, and exponential functions, and their derivatives. Curve sketching. Optimization problems. Introduction to vectors. Dot and cross products. Projections. Equations of lines and planes. Intersection points and distances between points, lines, and planes. Precludes additional credit for MATH 0007.

Prerequisite(s): Grade 12 Mathematics (Advanced Functions); or both MATH 0005 and MATH 0006; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 0107 [0.5 credit]

Algebra and Geometry

Vectors in the plane and in 3-space. Linear combinations and linear independence. Equations of lines and planes in space. Solution of systems of linear equations. Proofs by induction. Binomial Theorem. Logic.

Prerequisite(s): Grade 11 Functions (University/College Preparation) or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1004 [0.5 credit]

Calculus for Engineering or Physics

Limits. Differentiation of the elementary functions. Rules of differentiation. Inverse trigonometric functions. Applications of differentiation: max-min problems, curve sketching, approximations. Definite and indefinite integrals, techniques of integration. Applications to areas and volumes.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1007, MATH 1009, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005 and MATH 0006, or equivalent. Restricted to students in the Faculty of Engineering, or in certain B.Sc. and B.A.S. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 1005 [0.5 credit]**Differential Equations and Infinite Series for Engineering or Physics**

First-order differential equations. Second-order linear equations with constant coefficients, undetermined coefficients, variation of parameters. Sequences and series, convergence tests, estimation of sums. Power series, Taylor series, remainders. Fourier series.

Precludes additional credit for BIT 2004 (no longer offered), BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 2007, MATH 2052, and MATH 2404.

Prerequisite(s): i) MATH 1004; and ii) MATH 1104 (or MATH 1107), either previously or concurrently; or equivalents; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 1007 [0.5 credit]**Elementary Calculus I**

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1009, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1009 [0.5 credit]**Calculus: with Applications to Business**

Applications of mathematics to business. Limits. Differentiation of the elementary functions. Rules of differentiation. Max-min problems, curve sketching. Functions of several variables, partial differentiation, constrained max-min. Definite and indefinite integrals.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, BUSI 1705 (no longer offered), MATH 1002 (no longer offered), MATH 1004, MATH 1007, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1052. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1052 [0.5 credit]**Calculus and Introductory Analysis I**

Properties of the real numbers. Limits. Sequences and series. Elementary functions. Continuity. Derivatives. Extreme values. Mean Value Theorem. L'Hospital's rules. Antiderivatives. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1007, MATH 1009, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005 and MATH 0006 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and one half hours a week.

MATH 1104 [0.5 credit]**Linear Algebra for Engineering or Science**

Systems of linear equations. Matrix algebra. Determinants. Invertible matrix theorem. Cramer's rule. Vector space R^n ; subspaces, bases. Eigenvalues, diagonalization. Linear transformations, kernel, range. Complex numbers (including De Moivre's theorem). Inner product spaces and orthogonality. Applications.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1107, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152. Note: MATH 1119 is not an acceptable substitute for MATH 1104.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School. Restricted to students in the Faculty of Engineering, the School of Computer Science, or in certain B.Sc. and B.A.S. programs where specified.

Lectures three hours a week and tutorial one hour a week.

MATH 1107 [0.5 credit]**Linear Algebra I**

Systems of linear equations; vector space of n-tuples, subspaces, bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product. Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications. Note: MATH 1119 is not an acceptable substitute for MATH 1107.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week and tutorial one hour a week.

MATH 1119 [0.5 credit]**Linear Algebra: with Applications to Business**

Introduction to systems of linear equations, geometric interpretation in two and three dimensions, introduction to matrices, vector addition and scalar multiplication, linear dependence, matrix operations, rank, inversion, invertible matrix theorem, determinants. Use of illustrative examples related to business.

Precludes additional credit for for, but is not an acceptable substitute for: BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107, BUSI 1704 (no longer offered), MATH 1109 (no longer offered), MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D.

Prerequisite(s): Ontario Grade 12 Mathematics of Data Management; or Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 1152 [0.5 credit]**Introductory Algebra I**

Properties of numbers. Modular arithmetic. Fields, including complex numbers and finite fields. Vector spaces. Matrix algebra. Solutions of linear systems. Linear dependence. Spanning sets. Bases. Subspaces. The rank-nullity theorem. Linear transformations. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005, MATH 0006, and MATH 0107 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and a half hours a week.

MATH 1401 [0.5 credit]**Elementary Mathematics for Economics I**

Functional relations: functional forms and error terms. Graphing economic magnitudes: scatter diagrams, time-series graphs, functional relationships. Applied calculus: mechanics of differentiation and integration, elasticity, consumer/producer surplus. Applied algebra: solving systems of linear equations and Keynesian national-income analysis. Problem solving approaches.

Also listed as ECON 1401.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201; MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1107, MATH 1119, MATH 1152.

Prerequisite(s): Ontario Grade 12 U Advanced Functions, or MATH 0005, or equivalent; and ECON 1000 or FYSM 1003, which may be taken concurrently with MATH 1401/ECON 1401.

Lectures three hours a week, tutorial one hour a week.

MATH 1402 [0.5 credit]**Elementary Mathematics for Economics II**

Calculus: including partial differentiation, definite and indefinite integrals, techniques of integration, and unconstrained optimization. Vectors and matrices: scalar multiplication, inner product, linear dependence, matrix operations, rank, invertible matrix theorem, and determinants. Economic applications such as profit maximization, comparative statics, and the Leontief input-output model.

Also listed as ECON 1402.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201; MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1107, MATH 1119, MATH 1152.

Prerequisite(s): ECON 1000 or FYSM 1003 with a grade of C- or higher, and ECON 1401/MATH 1401 with a grade of C- or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 1800 [0.5 credit]**Introduction to Mathematical Reasoning**

Elementary logic, propositional and predicate calculus, quantifiers, sets and functions, bijections and elementary counting, the concept of infinity, relations, well ordering and induction. The practice of mathematical proof in elementary number theory and combinatorics.

Precludes additional credit for MATH 1805/COMP 1805.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1805 [0.5 credit]**Discrete Structures I**

Introduction to discrete mathematics and discrete structures. Topics include: propositional logic, predicate calculus, set theory, complexity of algorithms, mathematical reasoning and proof techniques, recurrences, induction, finite automata and graph theory. Material is illustrated through examples from computing.

Includes: Experiential Learning Activity

Also listed as COMP 1805.

Precludes additional credit for MATH 1800.

Prerequisite(s): one Grade 12 university preparation Mathematics course; and one of: COMP 1005 or COMP 1405 or SYSC 1100 (which may be taken concurrently).

Lectures three hours a week, tutorial one hour a week.

MATH 2000 [1.0 credit]**Multivariable Calculus and Fundamentals of Analysis**

Higher dimensional calculus, chain rule, gradient, line and multiple integrals with applications. Use of implicit and inverse function theorems. Real number axioms, limits, continuous functions, differentiability, infinite series, uniform convergence, the Riemann integral.

Precludes additional credit for BIT 2005 (no longer offered), MATH 2004, MATH 2008, and MATH 3009.

Prerequisite(s): i) MATH 1002 with a grade of C+ or higher, or (MATH 2007 or MATH 1005 with a grade of B+ or higher and permission of the School); and ii) MATH 1102 with a grade of C+ or higher, or MATH 1107 or MATH 1104 with a grade of B+ or higher; and iii) MATH 1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2004 [0.5 credit]**Multivariable Calculus for Engineering or Physics**

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.

Precludes additional credit for BIT 2005, MATH 2000, and MATH 2008.

Prerequisite(s): i) MATH 1005 or MATH 2007; and ii) MATH 1104 or MATH 1107; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 2007 [0.5 credit]**Elementary Calculus II**

Techniques of integration, improper integrals. Polar coordinates, parametric equations. Indeterminate forms, sequences and series, Taylor's formula and series.

Precludes additional credit for BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 1005, MATH 2052.

Prerequisite(s): i) MATH 1004, or a grade of C- or higher in MATH 1007; or MATH 1052 and permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2008 [0.5 credit]**Intermediate Calculus**

Partial differentiation, chain rule, gradient, line and multiple integrals with applications, transformations of multiple integrals.

Precludes additional credit for BIT 2005 (no longer offered), MATH 2000, and MATH 2004.

Prerequisite(s): one of MATH 1002, MATH 1005 or MATH 2007, and one of MATH 1102, MATH 1104 or MATH 1107.

Lectures three hours a week and one hour tutorial.

MATH 2052 [0.5 credit]**Calculus and Introductory Analysis II**

Definite, indefinite integrals. Improper integrals. The fundamental theorem of calculus. An introduction to differential equations. Sequences and series of functions. Power series. Taylor's formulae. Uniform convergence. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 2007, MATH 1002 (no longer offered), MATH 1005, MATH 2007.

Prerequisite(s): (i) MATH1052 with a grade of C- or higher or (MATH1007 or MATH1004 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one and one half hours a week.

MATH 2100 [1.0 credit]**Algebra**

Introduction to group theory: permutation groups, Lagrange's theorem, normal subgroups, homomorphism theorems. Introduction to ring theory: ring of polynomials, integral domains, ideals, homomorphism theorems. Hermitian forms, spectral theorem for normal operators, bilinear and quadratic forms, classical groups.

Precludes additional credit for MATH 2108 and MATH 3101.

Prerequisite(s): i) MATH 1102 with a grade of C+ or higher, or (MATH 2107 with a grade of B+ or higher and permission of the School); and ii) MATH 1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2107 [0.5 credit]**Linear Algebra II**

Finite-dimensional vector spaces (over \mathbb{R} and \mathbb{C}), subspaces, linear independence and bases. Linear transformations and matrices. Inner product spaces (over \mathbb{R} and \mathbb{C}); Orthonormal bases. Eigenvalues and diagonalization. Bilinear and quadratic forms; principal axis theorem.

Precludes additional credit for MATH 1102 (no longer offered), MATH 2152.

Prerequisite(s): i) MATH 1104, or a grade of C- or higher in MATH 1107 or MATH 1109; and ii) a grade of C- or higher in MATH 1007 or equivalent; or MATH 1152 and permission of the School. Note: in item i), MATH 1119 is NOT acceptable as a substitute for MATH 1109.

Lectures three hours a week and one hour tutorial.

MATH 2108 [0.5 credit]**Abstract Algebra I**

Sets and relations, number theory, group theory, ring theory, cardinal numbers.

Precludes additional credit for MATH 3101 and MATH 2100.

Prerequisite(s): i) MATH 1102 or MATH 2107; and ii) MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or COMP 1805 or MATH 1805; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 2152 [0.5 credit]**Introductory Algebra II**

Linear transformations. Determinants. Eigenvalues and eigenspaces. Diagonalization and other canonical forms. Inner products. An emphasis is placed on proofs and theory.

Precludes additional credit for MATH 1102 (no longer offered) and MATH 2107.

Prerequisite(s): (i) MATH1152 with a grade of C- or higher or (MATH1107 or MATH1104 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one and a half hours a week.

MATH 2210 [0.5 credit]**Introduction to Geometry**

An introduction to classical geometry; Euclidean plane geometry; plane tiling; polytopes in three and four dimensions; curved surfaces; Euler characteristic. This course is intended for a general audience, and is available to B.Math. students for credit only as a free elective.

Prerequisite(s): Grade 12 Mathematics and second-year standing.

Lectures three hours a week, tutorial one hour a week.

MATH 2404 [0.5 credit]**Ordinary Differential Equations I**

First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for BIT 2004 (no longer offered), MATH 1005, MATH 2454.

Prerequisite(s): MATH 1002 and MATH 1102 (or MATH 1107 and MATH 2007).

Lectures three hours a week and one hour tutorial.

MATH 2454 [0.5 credit]**Ordinary Differential Equations (Honours)**

Existence and uniqueness theorems. First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for MATH 2404, BIT 2004 (no longer offered).

Prerequisite(s): MATH 1002 or MATH 2007 or MATH 1005 with a grade of C+ or higher, and MATH 1102 or MATH 2107 with a grade of C+ or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 2800 [0.5 credit]**Discrete Mathematics and Algorithms**

An introduction to discrete mathematics and algorithms in the context of the computational sciences. Basic number theory and counting methods, algorithms for strings, trees and sequences. Applications to DNA and protein sequencing problems. Analysis and complexity of algorithms.

Also listed as CMPS 2800.

Precludes additional credit for Only one of MATH 1805/COMP 1805 or MATH 2800/CMPS 2800 may count for credit in a B.Math. program.

Prerequisite(s): COMP 1006 and at least one of MATH 1007, MATH 1107, or STAT 2507.

Lectures three hours a week.

MATH 2907 [0.5 credit]**Directed Studies (Honours)**

Available only to Honours students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3001 [0.5 credit]**Real Analysis I (Honours)**

Metric spaces and their topologies, continuous maps, completeness, compactness, connectedness, introduction to Banach spaces.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or (MATH 3009 and MATH 1800) each with a grade of B or higher, and permission of the instructor; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3002 [0.5 credit]**Real Analysis II (Honours)**

Function spaces, pointwise and uniform convergence, Weierstrass approximation theorem, Lebesgue measure and Lebesgue integral on the real line, Hilbert space, Fourier series.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3003 [0.5 credit]**Advanced Differential Calculus (Honours)**

Review of multivariable differentiation and integration. Vector fields, differential forms and exterior algebra. Introduction to manifolds and tangent bundles. Stokes' Theorem. Applications such as differential equations and the calculus of variations.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3007 [0.5 credit]**Functions of a Complex Variable**

Analytic functions, contour integration, residue calculus, conformal mapping. Intended for non-engineering students.

Precludes additional credit for MATH 3057 and PHYS 3807.

Prerequisite(s): one of MATH 2004, MATH 2008 or MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3008 [0.5 credit]**Ordinary Differential Equations (Honours)**

Analytic ordinary differential equations: series solutions of ordinary differential equations about ordinary and regular singular points. Asymptotic solutions. Sturm-Liouville theory. Bessel and Legendre functions. Fourier series.

Precludes additional credit for MATH 3404 and PHYS 3808.

Prerequisite(s): i) MATH 2000 with a grade of C- or higher, or (MATH 3009 with a grade of B or higher, and permission of the instructor); and ii) MATH 2454 with a grade of C- or higher, or (MATH 2404 with a grade of B or higher, and permission of the instructor).

Lectures three hours a week and one hour tutorial.

MATH 3009 [0.5 credit]**Introductory Analysis**

The real number system, sequences and series, functions of a single real variable, derivatives, the definite integral, uniform convergence.

Precludes additional credit for MATH 2000.

Prerequisite(s): one of MATH 2004, MATH 2008, MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3057 [0.5 credit]**Functions of a Complex Variable (Honours)**

Analytic functions, contour integration, residue calculus, conformal mappings.

Precludes additional credit for MATH 3007 and PHYS 3807.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3101 [0.5 credit]**Algebraic Structures with Computer Applications**

Introduction to algebraic structures: groups, rings, fields, lattices, and Boolean algebras; with applications of interest to students in Computer Science. This course may not be used to meet the 3000-level course requirements in any General or Honours program in Mathematics and Statistics.

Precludes additional credit for MATH 2108 and MATH 2100.

Prerequisite(s): i) MATH 2107 or MATH 1102; and ii) either COMP 1805/MATH 1805 or MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3106 [0.5 credit]**Introduction to Group Theory (Honours)**

Homomorphism theorems; groups acting on sets; permutation groups and groups of matrices; Sylow theory for finite groups; finitely generated abelian groups; generators and relations; applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3107 [0.5 credit]**Linear Algebra III**

Similarity and unitary triangularization of matrices. Direct methods of solving a system of linear equations. Iterative techniques. Bounds for eigenvalues. Power method and deflation techniques of approximation. Emphasis is primarily on computational aspects.

Prerequisite(s): i) a grade of C- or higher in MATH 1102 or MATH 2107; and ii) credit in MATH 1002 or MATH 2007; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3108 [0.5 credit]**Abstract Algebra II**

Groups and rings. Permutations. Finite symmetry groups. Polynomials, unique factorization domains. Quotient rings, ideals. Field extensions, finite fields. Polynomial equations. Geometric constructions - three famous problems: duplication of the cube, trisection of an arbitrary angle, quadrature of the circle.

Precludes additional credit for MATH 3106 and MATH 3158.

Prerequisite(s): MATH 2108, or permission of the School. Lectures three hours a week and one hour tutorial.

MATH 3158 [0.5 credit]**Rings and Fields (Honours)**

Rings, integral domains, Euclidean and principal ideal domains, fields, polynomial rings over a field, algebraic extensions of fields, the fundamental theorem of Galois theory, finite fields, applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher, or (MATH 2108 or MATH 3101 with a grade of B or higher and MATH 1800 with a grade of B or higher and permission of the instructor), or permission of the School. Lectures three hours a week, tutorial one hour a week.

MATH 3206 [0.5 credit]**Plane Projective Geometry**

Axioms of Desarguesian geometry, principle of duality; projectivities, perspectivities, and the fundamental theorem; collineations (homologies and elations); correlations (polarities and conics); algebraic model; projective curves; introduction to finite projective planes.

Precludes additional credit for MATH 3256.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101. Lectures three hours a week and one hour tutorial.

MATH 3210 [0.5 credit]**Euclidean and Non-Euclidean Geometry**

Euclidean isometry and similarity groups; geometry of circles; inversion; hyperbolic geometry: Poincaré disk model of the hyperbolic plane.

Precludes additional credit for MATH 3205.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101. Lectures three hours a week, tutorial one hour a week.

MATH 3306 [0.5 credit]**Elements of Set Theory (Honours)**

Axioms of set theory. Development of the systems of natural numbers and the real numbers. Axiom of choice, Zorn's lemma, well-ordering. The Schröder-Bernstein theorem, cardinal numbers, ordinal numbers, transfinite induction, cardinal and ordinal arithmetics.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School. Lectures three hours a week and one hour tutorial.

MATH 3355 [0.5 credit]**Number Theory and Applications (Honours)**

Congruences, distribution of primes, arithmetic functions, primitive roots, quadratic residues, quadratic reciprocity law, continued fractions, Diophantine equations, and applications: public key cryptography, primality testing and factoring in relation to cryptography.

Precludes additional credit for MATH 3809.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B- or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3404 [0.5 credit]**Ordinary Differential Equations II**

Series solutions of ordinary differential equations of second order about regular singular points; asymptotic solutions. Systems of ordinary differential equations of first order; matrix methods. Existence and uniqueness theorems. Nonlinear autonomous systems of order 2; qualitative theory. Numerical solutions of ordinary differential equations.

Precludes additional credit for MATH 3008.

Prerequisite(s): MATH 2404, MATH 2008; and MATH 1102 or MATH 2107.

Lectures three hours a week and one hour tutorial.

MATH 3705 [0.5 credit]**Mathematical Methods I**

Laplace transforms, series solutions of ordinary differential equations, the Frobenius method. Fourier series and Fourier transforms, solutions of partial differential equations of mathematical physics, boundary value problems, applications.

Precludes additional credit for PHYS 3808. This course may be taken for credit as a 3000-level Honours Mathematics course by students in any Honours program in the School of Mathematics and Statistics.

Prerequisite(s): i) MATH 1005 or MATH 2404, and ii) MATH 2004 or MATH 2008 or MATH 2009; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3800 [0.5 credit]**Mathematical Modeling and Computational Methods**

Design and analysis of mathematical models for problems in science. Computational methods, including function evaluation, interpolation, solution of linear equations, root finding, integration, solution of differential equations, Fourier series and Monte Carlo methods.

Includes: Experiential Learning Activity

Also listed as CMPS 3800.

Precludes additional credit for MATH 3806/COMP 3806.

Prerequisite(s): i) MATH 1107 or MATH 1104; ii) MATH 1005 or MATH 2007; and iii) knowledge of a computer language.

Lectures three hours a week, laboratory one hour a week.

MATH 3801 [0.5 credit]**Linear Programming**

Systems of linear inequalities, formulation of linear programming problems, geometric method, the simplex method, duality theory, complementary slackness, sensitivity analysis, branch-and-bound method and cutting plane method for integer linear programming, applications and extensions.

Precludes additional credit for ECON 4004, SYSC 3200.

Prerequisite(s): MATH 1102 or MATH 2107, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3802 [0.5 credit]**Combinatorial Optimization**

Network flow problems, network simplex method, max-flow min-cut problem, integral polyhedra, minimum-weight spanning tree problem, maximum matching problem, maximum stable set problem, introduction to approximation algorithms.

Prerequisite(s): MATH 3801 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3804 [0.5 credit]**Design and Analysis of Algorithms I**

An introduction to the design and analysis of algorithms.

Topics include: recurrence relations, sorting and searching, divide-and-conquer, dynamic programming, greedy algorithms, NP-completeness.

Also listed as COMP 3804.

Prerequisite(s): i) one of COMP 2402 or SYSC 2100; and ii) one of COMP 2804 or MATH 3855 or MATH 3825 or COMP 3805.

Lectures three hours a week.

MATH 3806 [0.5 credit]**Numerical Analysis (Honours)**

Elementary discussion of error, polynomial interpolation, quadrature, linear systems of equations and matrix inversion, non-linear equations, difference equations and ordinary differential equations. Implementation of numerical methods using a computer language.

Includes: Experiential Learning Activity

Precludes additional credit for MATH 3800.

Prerequisite(s): i) MATH 2000 with a grade of C- or higher; and ii) MATH 1102 with a grade of C- or higher, or (MATH 1107 or MATH 1104 with a grade of B or higher and permission of the instructor).

Lectures three hours a week, laboratory one hour a week.

MATH 3807 [0.5 credit]**Mathematical Software (Honours)**

Implementation of numerical methods using numerical software packages. Development of scientific and/or operations research applications using application programming interfaces of numerical or optimization libraries. Functional programming for data analysis and machine learning. Experience working with Python, C++, or Java is essential.

Includes: Experiential Learning Activity

Also listed as COMP 3807.

Prerequisite(s): A grade of C- or higher in MATH 3806 or COMP 3806.

Lectures three hours a week, laboratory one hour a week.

MATH 3808 [0.5 credit]**Mathematical Analyses of Games of Chance**

This course covers mathematics used in the modern casino gaming industry. The topics include probabilities, odds, house advantages, variance and risks, optimal strategies, random walks and gambler's ruin, and gaming revenue estimation. Examples are taken from various games such as Roulette, Blackjack, and Poker.

Prerequisite(s): one of STAT 2655, STAT 2605, STAT 2507, STAT 2606, STAT 3502, or MATH 3825 or MATH 3855.

Lectures three hours a week, tutorial one hour a week.

MATH 3809 [0.5 credit]**Introduction to Number Theory and Cryptography**

Congruences, distribution of primes, general cryptographic systems, public key cryptographic systems and authentication using number theory, primality testing and factoring in relation to cryptography, continued fractions and Diophantine equations.

Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100; knowledge of a computer language.

Lectures three hours a week and one hour tutorial.

MATH 3819 [0.5 credit]**Modern Computer Algebra**

Algorithms for multiplication, division, greatest common divisors and factorization over the integers, finite fields and polynomial rings. Basic tools include modular arithmetic, discrete Fourier transform, Chinese remainder theorem, Newton iteration, and Hensel techniques. Some properties of finite fields and applications to cryptography.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100, or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

MATH 3825 [0.5 credit]**Discrete Structures and Applications**

Enumeration: elementary methods, inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory and algorithms: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes.

Precludes additional credit for MATH 3805 (no longer offered), and MATH 3855 and COMP 3805.

Prerequisite(s): MATH 2108 or MATH 3101.

Lectures three hours a week, tutorial one hour a week.

MATH 3855 [0.5 credit]**Discrete Structures and Applications (Honours)**

Enumeration: inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes. Designs and finite geometries. Symmetry and counting.

Also listed as COMP 3805.

Precludes additional credit for MATH 3805 (no longer offered) and MATH 3825.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101) with a grade of B or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 3907 [0.5 credit]**Directed Studies**

Available only to students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3999 [0.0 credit]**Co-operative Work Term Report (Honours)**

On completion of each work term, the student must submit to the School of Mathematics and Statistics a written report on the work performed. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Co-operative Education Option of an Honours program offered by the School of Mathematics and Statistics, and permission of the School.

MATH 4002 [0.5 credit]**Fourier Analysis (Honours)**

Fourier series, Fourier integrals; introduction to harmonic analysis on locally compact abelian groups, Plancherel Theorem, Pontryagin duality; selected applications.

Prerequisite(s): MATH 3001 or permission of the School.

Lectures three hours a week.

MATH 4003 [0.5 credit]**Functional Analysis (Honours)**

Banach spaces and bounded linear operators, Hahn-Banach extension and separation, dual spaces, bounded inverse theorems, uniform boundedness principle, applications. Compact operators.

Prerequisite(s): MATH 4007 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5008, for which additional credit is precluded.

Lectures three hours a week.

MATH 4007 [0.5 credit]**Measure and Integration Theory (Honours)**

Lebesgue measure and integration on the real line; sigma algebras and measures; integration theory; L_p spaces; Fubini's theorem; decomposition theorems and Radon-Nikodym derivatives.

Prerequisite(s): MATH 3001 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5007, for which additional credit is precluded.

Lectures three hours a week.

MATH 4102 [0.5 credit]**Group Representations and Applications (Honours)**

An introduction to the group representations and character theory, with selected applications.

Prerequisite(s): MATH 3106, or a grade of B or higher in MATH 3108.

Also offered at the graduate level, with different requirements, as MATH 5102, for which additional credit is precluded.

Lectures three hours a week.

MATH 4105 [0.5 credit]**Rings and Modules (Honours)**

Fundamental concepts in rings and modules, structure theorems, applications.

Prerequisite(s): MATH 3158 or permission of the School.

Lectures three hours a week.

MATH 4106 [0.5 credit]**Group Theory (Honours)**

Fundamental principles as applied to abelian, nilpotent, solvable, free and finite groups; representations.

Prerequisite(s): MATH 3106 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5106, for which additional credit is precluded.

Lectures three hours a week.

MATH 4107 [0.5 credit]**Commutative Algebra (Honours)**

Fields, including algebraic and transcendental extensions, Galois theory, valuation theory; Noetherian commutative rings, including Noether decomposition theorem and localization.

Prerequisite(s): MATH 3158 or permission of the School.

Lectures three hours a week.

MATH 4108 [0.5 credit]**Homological Algebra and Category Theory (Honours)**

Axioms of set theory; categories, functors, natural transformations; free, projective, injective and flat modules; tensor products and homology functors, derived functors; dimension theory.

Prerequisite(s): MATH 3158 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5108, for which additional credit is precluded.

Lectures three hours a week.

MATH 4109 [0.5 credit]**Fields and Coding Theory (Honours)**

Introduction to field theory, emphasizing the structure of finite fields, primitive elements and irreducible polynomials. The influence of computational problems will be considered. Theory and applications of error-correcting codes: algebraic codes, convolution codes, decoding algorithms, and analysis of code performance.

Prerequisite(s): MATH 2100, or MATH 3101 or MATH 2108 or equivalent; or permission of the School.

Lectures three hours a week.

MATH 4205 [0.5 credit]**Introduction to General Topology (Honours)**

Topological spaces, maps, subspaces, product and identification topologies, separation axioms, compactness, connectedness.

Prerequisite(s): MATH 3001 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5205, for which additional credit is precluded.

Lectures three hours a week.

MATH 4206 [0.5 credit]**Introduction to Algebraic Topology (Honours)**

An introduction to homotopy theory. Topics include the fundamental group, covering spaces and the classification of two-dimensional manifolds.

Prerequisite(s): MATH 3106 and MATH 4205; or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5206, for which additional credit is precluded.

Lectures three hours a week.

MATH 4207 [0.5 credit]**Foundations of Geometry (Honours)**

A study of at least one modern axiom system of Euclidean and non-Euclidean geometry, embedding of hyperbolic and Euclidean geometries in the projective plane, groups of motions, models of non-Euclidean geometry.

Prerequisite(s): MATH 3106 (may be taken concurrently) or permission of the School.

Lectures three hours a week.

MATH 4208 [0.5 credit]**Introduction to Differentiable Manifolds (Honours)**

Introduction to differentiable manifolds; Riemannian manifolds; vector fields and parallel transport; geodesics; differential forms on a manifold; covariant derivative; Betti numbers.

Prerequisite(s): MATH 3002 or permission of the School.

Lectures three hours a week.

MATH 4305 [0.5 credit]**Analytic Number Theory (Honours)**

Dirichlet series, characters, Zeta-functions, prime number theorem, Dirichlet's theorem on primes in arithmetic progressions, binary quadratic forms.

Prerequisite(s): MATH 3057 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5305, for which additional credit is precluded.

Lectures three hours a week.

MATH 4306 [0.5 credit]**Algebraic Number Theory (Honours)**

Algebraic number fields, bases, algebraic integers, integral bases, arithmetic in algebraic number fields, ideal theory, class number.

Prerequisite(s): MATH 3158 (may be taken concurrently) or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5306, for which additional credit is precluded.

Lectures three hours a week.

MATH 4600 [0.5 credit]**Case Studies in Operations Research (Honours)**

Applications of the principles of Operations Research to practical problems in business, management, and science. Students present at least one case and analyze cases in the published literature. Cases may also be presented by visiting practitioners.

Includes: Experiential Learning Activity

Precludes additional credit for Students in Honours Mathematics/Statistics programs may only take course as a free option.

Prerequisite(s): STAT 2509 (or STAT 2559) and MATH 3801; or permission of the School.

Seminars three hours a week.

MATH 4700 [0.5 credit]**Partial Differential Equations (Honours)**

First-order partial differential equations. Classification of second-order linear partial differential equations; the diffusion equation, wave equation and Laplace's equation; separation of variables; Fourier and Laplace transform methods for the solution of initial/boundary value problems; Green's functions.

Prerequisite(s): MATH 3057 and one of MATH 3008 or MATH 3705, or permission of the School.

Lectures three hours a week.

MATH 4701 [0.5 credit]**Topics in Differential Equations (Honours)**

Topics in the theory and application of differential equations; for example, hyperbolic systems, fluid dynamics, nonlinear wave equations, optimal mass transport, control theory, calculus of variations.

Prerequisite(s): i) MATH 3008; and ii) one of MATH 3001 or MATH 3057; or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5407, for which additional credit is precluded.

Lectures three hours a week.

MATH 4703 [0.5 credit]**Dynamical Systems (Honours)**

Basic concepts of dynamical systems. Vector formulation for systems. Theory of autonomous systems in one, two and higher dimensions. Limit sets, stability. Phase plane, qualitative interpretation, limit cycles and attractors. Parametric dependence, bifurcations and chaos. Applications.

Prerequisite(s): MATH 3001 and MATH 3008 or permission of the School.

Lectures three hours a week.

MATH 4708 [0.5 credit]**Asymptotic Methods of Applied Mathematics (Honours)**

Asymptotic series: properties, matching, application to differential equations. Asymptotic expansion of integrals: elementary methods, methods of Laplace, stationary phase and steepest descent, Watson's lemma, Riemann-Lebesgue lemma. Perturbation methods: regular and singular perturbation for differential equations, multiple scale analysis, boundary layer theory, WKB theory.

Prerequisite(s): MATH 3057 and at least one of MATH 3008 or MATH 3705, or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5408, for which additional credit is precluded.

Lectures three hours a week.

MATH 4801 [0.5 credit]**Topics in Combinatorics (Honours)**

An in-depth study of one or more topics from: generating functions, Polya's theory of counting, block designs, coding theory, partially ordered sets and Ramsey theory.

Prerequisite(s): MATH 2100 and MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4802 [0.5 credit]**Introduction to Mathematical Logic (Honours)**

Symbolic logic, propositional and predicate calculi, set theory and model theory, completeness.

Prerequisite(s): MATH 2100 or permission of the School.

Lectures three hours a week.

MATH 4803 [0.5 credit]**Computable Functions (Honours)**

Recursive functions and computability, algorithms, Church's thesis, Turing machines, computational logic, NP-completeness.

Also listed as COMP 4803.

Prerequisite(s): MATH 2100 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4805 [0.5 credit]**Theory of Automata (Honours)**

Finite automata and regular expressions, properties of regular sets, context-free grammars, pushdown automata, deterministic context-free languages. Turing machines, the Chomsky hierarchy. Undecidability, intractable problems.

Also listed as COMP 4805.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5605, for which additional credit is precluded.

Lectures three hours a week.

MATH 4806 [0.5 credit]**Numerical Linear Algebra (Honours)**

Matrix computations, conditioning/stability, direct methods for linear systems, classical iterative methods: Jacobi, Gauss-Seidel; modern iterative methods, Arnoldi decomposition, GMRES and other Krylov subspace-based methods for sparse and structured matrices; numerical solution of eigenvalue problems, implementation using suitable programming language, application to differential equations/optimization problems.

Also listed as COMP 4806.

Prerequisite(s): MATH 1102 or MATH 2107; MATH 2000 and MATH 3806; or permission of the School.

Lectures three hours a week.

MATH 4807 [0.5 credit]**Game Theory (Honours)**

One-player games, two-player zero-sum games, multi-player games, games in normal form, games in extensive form, utility theory, Nash equilibrium and Nash arbitration scheme, games in characteristic function form, cooperative solutions, dominations, stable sets, core, Shapley value, applications of game theory.

Prerequisite(s): MATH 3801 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5607, for which additional credit is precluded.

Lectures three hours a week.

MATH 4808 [0.5 credit]**Graph Theory and Algorithms (Honours)**

Paths, circuits, Eulerian and Hamiltonian graphs, connectivity, colouring problems, matching, Ramsey theory, network flows.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4809 [0.5 credit]**Mathematical Cryptography (Honours)**

Topics covered include: a general survey of public key cryptography; classical applications of finite fields and number theory; relevant background in geometry and algebraic curves; computational issues concerning elliptic curves; elliptic curve cryptosystems; security issues.

Prerequisite(s): MATH 3158, or permission of the School.

Lectures three hours a week.

MATH 4811 [0.5 credit]**Combinatorial Design Theory (Honours)**

Existence and construction of combinatorial designs: finite geometries, pairwise balanced designs, balanced incomplete block designs, Steiner triple systems, symmetric designs, PBD closure, latin squares, transversal designs, and applications to information theory.

Prerequisite(s): MATH 3855, or permission of the School.

Lectures three hours a week.

MATH 4816 [0.5 credit]**Numerical Analysis for Differential Equations (Honours)**

Floating point arithmetic; numerical solution of ODEs; finite difference methods for PDEs; stability, accuracy and convergence: von Neumann analysis, CFL condition, Lax Theorem. Finite element methods: boundary value problems and elliptic PDEs. Spectral and pseudo-spectral methods.

Prerequisite(s): MATH 2454 and MATH 3806, or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5806, for which additional credit is precluded.

Lectures three hours a week.

MATH 4821 [0.5 credit]**Quantum Computing (Honours)**

Space of quantum bits; entanglement. Observables in quantum mechanics. Density matrix and Schmidt decomposition. Quantum cryptography. Classical and quantum logic gates. Quantum Fourier transform. Shor's quantum algorithm for factorization of integers.

Prerequisite(s): MATH 1102 (or MATH 2107) with a grade of C+ or better, and permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5821, for which additional credit is precluded.

Lectures three hours a week.

MATH 4822 [0.5 credit]**Wavelets and Digital Signal Processing (Honours)**

Lossless compression methods. Discrete Fourier transform and Fourier-based compression methods. JPEG and MPEG. Wavelet analysis. Digital filters and discrete wavelet transform. Daubechies wavelets. Wavelet compression.

Prerequisite(s): MATH 1102 (or MATH 2107) with a grade of C+ or better, and permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5822, for which additional credit is precluded.

Lectures three hours a week.

MATH 4905 [0.5 credit]**Honours Project (Honours)**

Consists of a written report on some approved topic or topics in the field of mathematics, together with a short lecture on the report.

Includes: Experiential Learning Activity

Prerequisite(s): B.Math.(Honours) students only.

MATH 4906 [0.5 credit]**Directed Studies (Honours)**

Prerequisite(s): B.Math.(Honours) students only.

MATH 4907 [0.5 credit]**Directed Studies (Honours)**

Prerequisite(s): B.Math.(Honours) students only.

Statistics (STAT) Courses**STAT 2507 [0.5 credit]****Introduction to Statistical Modeling I**

A data-driven introduction to statistics. Basic descriptive statistics, introduction to probability theory, random variables, discrete and continuous distributions, contingency tables, sampling distributions, distribution of sample mean, Central Limit Theorem, interval estimation and hypothesis testing. A statistical software package will be used.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2606, and STAT 3502. May not be counted for credit in any program if taken after successful completion of STAT 2559.

Prerequisite(s): an Ontario Grade 12 university-preparation Mathematics or equivalent, or permission of the School of Mathematics and Statistics.

Lectures three hours a week, laboratory one hour a week.

STAT 2509 [0.5 credit]**Introduction to Statistical Modeling II**

A data-driven approach to statistical modeling. Basics of experimental design, analysis of variance, simple linear regression and correlation, nonparametric procedures. A statistical software package will be used.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 2607, ECON 2202, ECON 2220.

Prerequisite(s): STAT 2507 or STAT 2606 or STAT 3502; or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 2559 [0.5 credit]**Basics of Statistical Modeling (Honours)**

Estimation and hypothesis testing for one and two samples, analysis of categorical data, basics of experimental design, analysis of variance, simple linear regression and correlation. Nonparametric procedures. A statistical software package will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 2655 or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 2605 [0.5 credit]**Probability Models**

Basic probability; discrete random variables with focus on binomial and Poisson random variables; continuous random variables, transformation theorem, simulating continuous random variables; exponential random variable, normal random variable, sums of random variables, central limit theorem. Elements of Markov chains, and introduction to Poisson processes.

Precludes additional credit for STAT 2655 and STAT 3502.

Prerequisite(s): MATH 1007 or MATH 1004 or MATH 1002, and MATH 1104 or MATH 1107 (or MATH 1102).

Restricted to students in Bachelor of Computer Science, Bachelor of Mathematics in Computer Mathematics, and Bachelor of Engineering in Communications Engineering.

Lectures three hours a week, tutorial one hour a week.

STAT 2606 [0.5 credit]**Business Statistics I**

Introduction to statistical computing; probability concepts; descriptive statistics; estimation and testing of hypotheses. Emphasis on the development of an ability to interpret results of statistical analyses with applications from business. Restricted to students in the School of Business.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, and STAT 3502.

Prerequisite(s): An Ontario Grade 12 university-preparation Mathematics or equivalent, or permission of the School of Mathematics and Statistics.

Lectures three hours a week and laboratory one hour a week.

STAT 2607 [0.5 credit]**Business Statistics II**

Topics include: experimental design, multiple regression and correlation analysis, covariance analysis, and introductory time series. Use of computer packages.

Restricted to students in the School of Business.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 2509, ECON 2202, ECON 2220.

Prerequisite(s): STAT 2606.

Lectures three hours a week and one hour laboratory.

STAT 2655 [0.5 credit]**Introduction to Probability with Applications (Honours)**

Probability axioms, basic combinatorial analysis, conditional probability and independence, discrete and continuous random variables, joint and conditional distributions, expectation and moments, probability and moment generating functions, Chebyshev's inequality and weak law of large numbers, central limit theorem, sampling distributions, simulation and applications to descriptive statistics.

Precludes additional credit for STAT 2605.

Prerequisite(s): MATH 1002 with a grade of C+ or higher or MATH 2007 or MATH 1005 with a grade of B+ or higher; and MATH 1102 with a grade of C+ or higher or MATH 2107 with a grade of B+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 2660 [0.5 credit]**Mathematics for Finance (Honours)**

Interest rates, growth of money, discount functions, yield rates, time value of money, annuities, cash flows and portfolios, loans, mortgages, bonds, immunization, swaps, hedging and investment strategies, stocks and financial markets, arbitrage.

Prerequisite(s): i) one of MATH 1002 or MATH 2007 or MATH 1005, grade of C+ or higher; and ii) one of MATH 1102 or MATH 1107 or MATH 1104, grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3502 [0.5 credit]**Probability and Statistics**

Axioms of probability; conditional probability and independence; random variables; distributions: binomial, Poisson, hypergeometric, normal, gamma; central limit theorem; sampling distributions; point estimation: maximum likelihood, method of moments; confidence intervals; testing of hypotheses: one and two populations; engineering applications: acceptance sampling, control charts, reliability.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, STAT 2507, STAT 2605, and STAT 2606.

Prerequisite(s): MATH 2004 and enrolment in the Faculty of Engineering or B.Sc. programs of the Department of Physics [except Double Honours Mathematics and Physics].

Lectures three hours a week and one hour laboratory.

STAT 3503 [0.5 credit]**Regression Analysis**

Review of simple and multiple regression with matrices, Gauss-Markov theorem, polynomial regression, indicator variables, residual analysis, weighted least squares, variable selection techniques, nonlinear regression, correlation analysis and autocorrelation. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3553.

Prerequisite(s): i) STAT 2509 or STAT 2607 or ECON 2202 or ECON 2220 or equivalent; and ii) MATH 1102 or MATH 1107 or MATH 1119 or equivalent; or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3504 [0.5 credit]**Analysis of Variance and Experimental Design**

Single and multifactor analysis of variance, orthogonal contrasts and multiple comparisons, analysis of covariance; nested, crossed and repeated measures designs; completely randomized, randomized block, Latin squares, factorial experiments, related topics. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 4504.

Prerequisite(s): STAT 3503 or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3506 [0.5 credit]**Stochastic Processes and Applications (Honours)**

Conditional probability and conditional expectation; Stochastic modeling; discrete time Markov chains including classification of states, stationary and limiting distributions; exponential distribution and the Poisson processes; queueing models; applications to computer systems, operations research and social sciences.

Prerequisite(s): STAT 2655 with a grade of C- or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3507 [0.5 credit]**Sampling Methodology**

The sample survey as a vehicle for information collection in government, business, scientific and social agencies. Topics include: planning a survey, questionnaire design, simple random, stratified, systematic and cluster sampling designs, estimation methods, problem of non-response, related topics.

Includes: Experiential Learning Activity

Prerequisite(s): one of: STAT 2507, STAT 2509, STAT 2606, STAT 2607, ECON 2201, ECON 2202, ECON 2210, ECON 2220, or equivalent; or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3508 [0.5 credit]**Elements of Probability Theory**

Discrete and continuous distributions, moment-generating functions, marginal and conditional distributions, transformation theory, limiting distributions.

Precludes additional credit for STAT 3558 and STAT 3608.

Prerequisite(s): i) MATH 2008 (or MATH 2004 or MATH 2009); and ii) one of STAT 2507, STAT 2606, ECON 2200, or ECON 2201 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3509 [0.5 credit]**Mathematical Statistics**

Point and interval estimation, sufficient statistics, hypothesis testing, chi-square tests with enumeration data. Precludes additional credit for STAT 3559.

Prerequisite(s): STAT 3508 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3553 [0.5 credit]**Regression Modeling (Honours)**

Linear regression - theory, methods and application(s). Normal distribution theory. Hypothesis tests and confidence intervals. Model selection. Model diagnostics. Introduction to weighted least squares and generalized linear models.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3503.

Prerequisite(s): i) STAT 2559 with a grade of C- or higher, or STAT 2509 with a grade of B or higher; and ii) a grade of C- or higher in MATH 1102 or MATH 1107 or MATH 1104; or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 3558 [0.5 credit]**Elements of Probability Theory (Honours)**

Random variables and moment-generating functions, concepts of conditioning and correlation; laws of large numbers, central limit theorem; multivariate normal distribution; distributions of functions of random variables, sampling distributions, order statistics.

Precludes additional credit for STAT 3508 and STAT 3608.

Prerequisite(s): i) STAT 2655 with a grade of C- or higher; and ii) MATH 2000 with a grade of C- or higher, or (a grade of C+ or higher in MATH 2008 or MATH 2004, and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3559 [0.5 credit]**Mathematical Statistics (Honours)**

Empirical distribution functions, Monte Carlo methods, elements of decision theory, point estimation, interval estimation, tests of hypotheses, robustness, nonparametric methods.

Precludes additional credit for STAT 3509.

Prerequisite(s): STAT 3558 with a grade of C- or higher; or (STAT 3508 with a grade of B or higher, and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3660 [0.5 credit]**Actuarial Mathematics I**

Severity, frequency models, loss models, risk measures, value at risk, stochastic processes, Poisson process, characteristics of actuarial models, creating new univariate distributions, heavy-tailed distributions, mixed distributions, coverage modifications.

Prerequisite(s): STAT 2655, or permission from the school.

Lectures three hours a week, tutorial one hour a week.

STAT 3661 [0.5 credit]**Life Contingent Risk Modelling I**

Mixed distributions; conditional expectations; introduction to life insurance; traditional and modern insurance contracts; underwriting; premiums; pension plans and retirement benefits; survival models; reserves; present value random variable; force of mortality; life tables; insurance benefits; annuities; premium calculation.

Prerequisite(s): STAT 2660 and STAT 3506 with grades of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3662 [0.5 credit]**Life Contingent Risk Modelling II**

Policy values; multiple state models; formulae for probability; Markov multiple state models; pension mathematics; yield curves; interest rate risk; emerging costs for life insurance; equity linked insurance; deterministic and stochastic pricing; reserving, participating, and universal life insurance.

Prerequisite(s): STAT 3661 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 4500 [0.5 credit]**Parametric Estimation (Honours)**

Preliminaries on probability theory; exact and asymptotic sampling distributions; unbiasedness, consistency, efficiency, sufficiency and completeness; properties of maximum likelihood estimators; least squares estimation of location and scale parameters based on order statistics and sample quantiles; Best Asymptotically Normal (BAN) estimators.

Prerequisite(s): STAT 3559 or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5600, for which additional credit is precluded.

Lectures three hours a week.

STAT 4501 [0.5 credit]**Probability Theory (Honours)**

Introduction to probability, characteristic functions, probability distributions, limit theorems.

Prerequisite(s): STAT 3506 and STAT 3558 or permission of the School.

Lectures three hours a week.

STAT 4502 [0.5 credit]**Survey Sampling (Honours)**

Basic concepts in sampling from finite populations; simple random sampling; stratified sampling; choice of sampling unit; cluster and systematic sampling; introduction to multistage sampling; ratio estimation; sampling with unequal probabilities and with replacement; replicated sampling; related topics.

Prerequisite(s): i) STAT 2559 or STAT 2509; and ii) either STAT 3559, or a grade of C + or better in STAT 3509; or permission of the School.

Lectures three hours a week.

STAT 4503 [0.5 credit]**Applied Multivariate Analysis (Honours)**

Selected topics in regression and correlation non-linear models. Multivariate statistical methods, principal components, factor analysis, multivariate analysis of variance, discriminant analysis, canonical correlation, analysis of categorical data.

Prerequisite(s): STAT 3553 or (STAT 3509 and STAT 3503) or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5509, for which additional credit is precluded.

Lectures three hours a week.

STAT 4504 [0.5 credit]**Statistical Design and Analysis of Experiments (Honours)**

An extension of the designs discussed in STAT 2559 to include analysis of the completely randomized design, designs with more than one blocking variable, incomplete block designs, fractional factorial designs, multiple comparisons; and response surface methods.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3504 and ECON 4706. PSYC 3000 is precluded for additional credit for students registered in a Mathematics program.

Prerequisite(s): STAT 3553 or STAT 3503; or permission of the School of Mathematics and Statistics.

Lectures three hours a week, laboratory one hour a week.

STAT 4506 [0.5 credit]**Nonparametric Statistics (Honours)**

Order statistics; projections; U-statistics; L-estimators; rank, sign, and permutation test statistics; nonparametric tests of goodness-of-fit, homogeneity, symmetry, and independence; nonparametric density estimation; nonparametric regression analysis: kernel estimators, orthogonal series estimators, smoothing splines; high-dimensional inference and false discovery.

Prerequisite(s): STAT 3559 or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5516, for which additional credit is precluded.

Lectures three hours a week.

STAT 4507 [0.5 credit]**Statistical Inference (Honours)**

Sufficient statistics, simple and composite hypotheses, most powerful and similar region test, distribution-free tests, confidence intervals, goodness-of-fit and likelihood ratio tests, large sample theory, Bayesian and likelihood methods, sequential tests.

Prerequisite(s): STAT 4500 or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5501, for which additional credit is precluded.

Lectures three hours a week.

STAT 4508 [0.5 credit]**Stochastic Models (Honours)**

Review of discrete Markov chains and Poisson processes; continuous time Markov chains; pure jump Markov processes, and birth and death processes including the Q-matrix approach; the Kolmogorov equations; renewal theory; introduction to Brownian motion; queueing theory.

Prerequisite(s): STAT 3506 or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5701, for which additional credit is precluded.

Lectures three hours a week.

STAT 4509 [0.5 credit]**Advanced Mathematical Modeling (Honours)**

Real-life situations in the physical, social, and life sciences are often modeled using mathematical tools. This course will examine various models and techniques used in their analysis, e.g., matrix procedures in connection with population models. Students will use a computer package to obtain numerical results.

Prerequisite(s): i) MATH 2454 and STAT 2655 (or MATH 2404 and STAT 2605) and ii) STAT 3506; or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5601, for which additional credit is precluded.

Lectures three hours a week.

STAT 4555 [0.5 credit]**Monte Carlo Simulation (Honours)**

Basic ideas and algorithms of Monte Carlo; simulation of basic stochastic processes. Brownian motion and the Poisson process, applications to financial modelling, queueing theory. Output analysis; variance reduction. Markov chain Monte Carlo methods; Gibbs sampling, simulated annealing and Metropolis-Hastings samplers with applications.

Includes: Experiential Learning Activity
Precludes additional credit for STAT 3555 (no longer offered).

Prerequisite(s): STAT 3558, or a grade of B or higher in STAT 3508, or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 4601 [0.5 credit]**Data Mining I (Honours)**

Data visualization; knowledge discovery in datasets; unsupervised learning: clustering algorithms; dimension reduction; supervised learning: pattern recognition, smoothing techniques, classification. Computer software will be used.

Includes: Experiential Learning Activity
Prerequisite(s): STAT 3553 or STAT 3503 or MATH 3806, or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4603 [0.5 credit]**Time Series and Forecasting (Honours)**

Time series regression. Nonstationary and stationary time series models. Nonseasonal and seasonal time series models. ARIMA (Box-Jenkins) models. Smoothing methods. Parameter estimation, model identification, diagnostic checking. Forecasting techniques. A statistical software package will be used.

Includes: Experiential Learning Activity
Prerequisite(s): STAT 3553 or STAT 3503, or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4604 [0.5 credit]**Statistical Computing (Honours)**

Statistical computing techniques, pseudo-random number generation, tests for randomness, numerical algorithms in statistics; optimization techniques; environments for data analysis, efficient programming techniques; statistics with mainstream software.

Includes: Experiential Learning Activity
Prerequisite(s): STAT 3553 or STAT 3503 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4607 [0.5 credit]**Bayesian Statistical Analysis (Honours)**

Probability basics for Bayesian statistics. Bayesian inference for simple exponential families. Markov Chain Monte Carlo for posterior inference. Empirical Bayes. Hierarchical Bayes. Bayesian inference for the multivariate normal model. Bayesian linear regression. More advanced topics may be included. Computer software will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4660 [0.5 credit]**Actuarial Mathematics II**

Empirical models, complete data, grouped data, credibility theory, failure time, accuracy, kernel estimation, goodness of fit tests, Bayesian analysis, inference for loss models, frequentist estimation, model selection.

Prerequisite(s): STAT 3660 with C+ or higher, or permission of the school.

Lectures three hours a week, tutorial one hour a week.

STAT 4661 [0.5 credit]**Life Contingent Risk Modelling II**

Policy values; multiple state models; formulae for probability; Markov multiple state models; pension mathematics; yield curves; interest rate risk; emerging costs for life insurance; equity linked insurance; deterministic and stochastic pricing; reserving, participating, and universal life insurance.

Prerequisite(s): STAT 3661 with a grade of C+ or higher; or permission of the School.

Media Production and Design

This section presents the requirements for programs in:

- Media Production and Design B.M.P.D. Honours

Program Requirements**Media Production and Design
B.M.P.D. Honours (20.0 credits)****A. Credits Included in the Major (12.0 credits)****1. 2.5 credits in:** 2.5

ITEC 1005 [0.5]	Web Development
ITEC 1100 [0.5]	Introduction to Interactive Media Design
ITEC 1400 [0.5]	Introduction to Programming and Problem Solving
MPAD 1001 [0.5]	Introduction to Storytelling: The Context
MPAD 1002 [0.5]	Introduction to Storytelling: The Practice

2. 3.5 credits in: 3.5

ITEC 2000 [0.5]	Multimedia Data Management
ITEC 2100 [0.5]	Data Visualization
MPAD 2001 [0.5]	Basics of Visual Communication I
MPAD 2002 [0.5]	Basics of Visual Communication II
MPAD 2003 [0.5]	Introductory Data Storytelling
MPAD 2004 [0.5]	Writing for Media
MPAD 2501 [0.5]	Media Law

3. 3.5 credits in: 3.5

ITEC 2400 [0.5]	Intermediate Programming
ITEC 3100 [0.5]	Immersive Storytelling
MPAD 3001 [0.5]	Storytelling and Social Media
MPAD 3002 [0.5]	Civic Engagement and Public Institutions I
MPAD 3003 [0.5]	Civic Engagement and Public Institutions II: Minor Design Project
MPAD 3300 [0.5]	Media Ethics in a Digital World
MPAD 3501 [0.5]	Internet and Big Data Law

4. 2.0 credits in: 2.0

MPAD 4000 [1.0]	Capstone Project
MPAD 4001 [0.5]	Media Industries Now and Next
MPAD 4200 [0.5]	Freelance Media Survival Skills

5. 0.5 credit from: 0.5

MPAD 4300 [0.5]	Special Topic
MPAD 4500 [0.5]	Special Topic
MPAD 4501 [0.5]	Gender, Identity and Inequality
MPAD 4502 [0.5]	Journalism and Conflict
MPAD 4503 [0.5]	Journalism, Indigenous Peoples and Canada
MPAD 4504 [0.5]	The Media and International Development

B. Credits Not Included in the Major (8.0 credits)**6. 8.0 credits in free electives** 8.0

Total Credits 20.0

Information Technology (ITEC) Courses**ITEC 1005 [0.5 credit]****Web Development**

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid HTML5, cascading style sheets (CSS3), JavaScript and XML structures.

Precludes additional credit for IMD 1005.

Lectures and tutorials five hours a week.

ITEC 1100 [0.5 credit]**Introduction to Interactive Media Design**

Overview of interactive multimedia design: user-centred and web design, mark-up languages, project management, design processes for video games, visual effects in movies, ethics, current trends in the field.

Precludes additional credit for IMD 1000.

Prerequisite(s): For students not enrolled in CSIT programs.

Lectures three hours a week.

ITEC 1400 [0.5 credit]**Introduction to Programming and Problem Solving**

Introduction to systematic problem solving including defining and modelling problems, testing, debugging and results analysis, numeric methods, data presentations and abstraction, class relationships and program style and documentation.

Precludes additional credit for BIT 1400, IMD 1003 (no longer offered), NET 1000 (no longer offered), PLT 1000 (no longer offered).

Lectures/tutorials six hours a week.

ITEC 2000 [0.5 credit]**Multimedia Data Management**

Issues involving the back-end organization of information focusing on databases and database design, server-side scripting, the structured query language (SQL), digital rights management, and watermarking.

Precludes additional credit for BIT 2008, COMP 2006 (no longer offered), IRM 2000 (no longer offered), IMD 2000 (no longer offered).

Lectures and tutorials five hours a week.

ITEC 2100 [0.5 credit]**Data Visualization**

Web-based data visualization techniques and systems.

Good design practices for visualization, tools for visualization of data from a variety of fields, and programming of interactive web-based visualizations focusing on JavaScript, CSS, SVG and the D3 library.

Includes: Experiential Learning Activity

Lectures/labs five hours a week.

ITEC 2400 [0.5 credit]**Intermediate Programming**

Introduction to object oriented programming using C++ language. Topics include detailed study of pointers and structures, inheritance, polymorphism, object-oriented program design, class libraries, user interface objects.

Precludes additional credit for BIT 2400, IMD 2004 (no longer offered), PLT 2004 (no longer offered).

Lectures three hours a week, tutorial three hours a week.

ITEC 3100 [0.5 credit]**Immersive Storytelling**

The craft of digital storytelling, creating compelling online and game-engine packages. Using a variety of narrative formats, interactive tools, and digital content, including blogs and RSS feeds, developing an in-depth story using leading edge technologies and techniques.

Includes: Experiential Learning Activity

Workshop three hours a week.

Media Production and Design (MPAD) Courses**MPAD 1001 [0.5 credit]****Introduction to Storytelling: The Context**

Theories, origins and evolution of story within society as the digital age shapes the way we construct and consume narratives. How stories are conceived through words, sound and images, and how they resonate with and influence audiences.

Lectures three hours a week.

MPAD 1002 [0.5 credit]**Introduction to Storytelling: The Practice**

Finding and telling stories in engaging ways using text and basic images. Assignments build basic skills in research, interviewing, writing, storytelling, editing and ethics. How to structure and pitch for publication.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1001.

Workshop three hours a week.

MPAD 2001 [0.5 credit]**Basics of Visual Communication I**

Introduction to visual storytelling through video. Students develop editorial and technical skills to produce video stories that include scripting to images. Students will also learn the basics of video shooting on a range of equipment as well as basic video editing skills.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2002 [0.5 credit]**Basics of Visual Communication II**

This course expands from video theory and practice to still photography and multimedia projects, with emphasis on hands-on work with a theoretical underpinning, giving students the practical and technical skills to tell stories in multiple formats.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2001.

Workshop three hours a week.

MPAD 2003 [0.5 credit]**Introductory Data Storytelling**

Governments use data for tracking. Numbers guide public policy and can become powerful and important stories. Students will gain a theoretical understanding of the promise and pitfalls of data availability alongside the practical skills needed for powerful data-based storytelling.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2004 [0.5 credit]**Writing for Media**

This course tests student baseline skills, then develops writing capabilities tailored to specific media formats. Coursework is based on the principle that the best way to improve technique is through regular writing and timely constructive critiques.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, JOUR 2501.

Prerequisite(s): Second-year standing in the Bachelor of Media Production and Design program.

Lectures three hours a week.

MPAD 3001 [0.5 credit]**Storytelling and Social Media**

Social media in storytelling. Theory-based lectures, hands-on course modules, discussions and presentations. Students will learn tactics to apply social media for research, gathering information, finding contacts and promoting their own work.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2004.

Lecture three hours a week.

MPAD 3002 [0.5 credit]**Civic Engagement and Public Institutions I**

Expert sources from Canadian institutions discuss covering the economy, justice, environment and security. How public policy is made, the role of the public and how the media analyze information, develop ideas, and produce stories.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design or the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

MPAD 3003 [0.5 credit]**Civic Engagement and Public Institutions II: Minor Design Project**

Group work building on the fall term course. Production of a public institutions mini-project involving the various development stages that will be employed in the final year capstone project, including the creation of a detailed design document to guide group projects.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 3002.

Workshop three hours a week.

MPAD 3300 [0.5 credit]**Media Ethics in a Digital World**

An examination of ethical issues relating to production of news and other forms of information content, particularly as they relate to digital environments. Discussion of various approaches to ethical decision-making, application in contemporary settings.

Also listed as JOUR 3300.

Prerequisite(s): MPAD 2501.

Lectures three hours a week.

MPAD 3501 [0.5 credit]**Internet and Big Data Law**

The legal use of big data to create content and analyze information. Who owns data; privacy and security implications within a legal landscape fraught with legal concerns and policy challenges.

Prerequisite(s): JOUR 2501 or MPAD 2501 and third-year standing in the Bachelor of Media Production and Design or in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

MPAD 3600 [0.5 credit]**Special Topic**

Examination of a topic in storytelling and media not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design program.

Lecture three hours a week.

MPAD 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2002.

MPAD 4000 [1.0 credit]**Capstone Project**

Student groups develop a capstone project beginning with story development and planning, completion of a story design document including project description, research, key vistas and sketches or storyboards. Group presentations leading to final media project at the end of second term.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2002, MPAD 3003, ITEC 2100, ITEC 2400 and fourth-year standing in the Bachelor of Media Production and Design program.

MPAD 4001 [0.5 credit]**Media Industries Now and Next**

Changes in the media, the public's relationship with the media and how journalists, news organizations and other media players respond. Practical issues and challenges in the professional life of an information producer.

Also listed as JOUR 4001.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Lectures and discussions three hours a week.

MPAD 4200 [0.5 credit]**Freelance Media Survival Skills**

Preparation for freelancing to publications and production houses. Resumes, finding potential buyers, interviews, establishing and marketing an individual as a business, accounting and management and dealing with taxes and benefits. Pitching stories, ideas and services.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Lectures three hours a week.

MPAD 4300 [0.5 credit]**Special Topic**

Students will choose a topic from a list of journalism options, to be announced each year.

Also listed as JOUR 4300.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4500 [0.5 credit]**Special Topic**

Examination of a topic in storytelling and media not covered in depth in other courses.

Also listed as JOUR 4500.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4501 [0.5 credit]**Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis.

Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as JOUR 4501.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4502 [0.5 credit]**Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as JOUR 4502.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4503 [0.5 credit]**Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous people in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as JOUR 4503.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4504 [0.5 credit]**The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda.

Includes: Experiential Learning Activity

Also listed as JOUR 4504.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

Medieval and Early Modern Studies (Minor)

This section presents the requirements for programs in:

- Minor in Medieval and Early Modern Studies

Program Requirements**Minor in Medieval and Early Modern Studies (4.0 credits)**

This minor is available to all undergraduate degree students.

Requirements:

1. 1.0 credit in:	1.0
MEMS 2001 [0.5] Discovering the Medieval and Early & MEMS 3001 [0.5] Modern Past	
Researching the Medieval and Early Modern Past	
2. 2.0 credits from Approved Medieval and Early Modern Studies Electives at the 2000-level or higher, with the exception of 1.0 credit in approved language training which may be at the 1000-level or higher.	2.0
3. 1.0 credit from Approved Medieval and Early Modern Studies Electives at the 3000-level or higher.	1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Notes:

1. Courses used to fulfil **Items 2 and 3** above must be from more than one unit.
2. Other courses may be substituted for the credits specified in **Items 2 and 3**, when material on Medieval and Early Modern topics are central to the course. Such substitutions must be individually approved by the program coordinator, through the College of the Humanities. Students are encouraged to consult course descriptions of Special Topics courses in the related academic units.

Approved Medieval and Early Modern Studies Electives

Note: access to these courses is not guaranteed, and may depend upon space availability and the satisfaction of other requirements such as course prerequisites.

Medieval and Early Modern Studies (MEMS) Courses

MEMS 2001 [0.5 credit]

Discovering the Medieval and Early Modern Past

An introduction to the Late Antique, Medieval and Early Modern worlds. Organized thematically, students will be introduced to interdisciplinary exploration of core topics. Prerequisite(s): second-year standing. Lectures and discussion groups three hours a week.

MEMS 3001 [0.5 credit]

Researching the Medieval and Early Modern Past

Continued interdisciplinary study of the Late Antique, Medieval and Early Modern worlds, with a focus on how to develop a deeper analysis of the core topics examined in MEMS 2001.

Prerequisite(s): MEMS 2001, or permission of the Program Coordinator. Lectures three hours a week.

Migration and Diaspora Studies (B.G.In.S. Specialization and Stream)

This section presents the requirements for programs in:

- Specialization in Global Migration and Transnationalism B.G.In.S. Honours
- Stream in Global Migration and Transnationalism B.G.In.S.

Program Requirements

Bachelor of Global and International Studies (B.G.In.S.)

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Global Migration and Transnationalism B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 4.5 credits in Core Courses		4.5
GINS 1000 [0.5]	Global History	
GINS 1010 [0.5]	International Law and Politics	
GINS 1020 [0.5]	Ethnography, Globalization and Culture	
GINS 2000 [0.5]	Ethics and Globalization	
GINS 2010 [0.5]	Globalization and International Economic Issues	
GINS 2020 [0.5]	Global Literatures	
GINS 3010 [0.5]	Global and International Theory	
GINS 3020 [0.5]	Places, Boundaries, Movements and Global Environmental Change	
GINS 4090 [0.5]	Honours Seminar in Global and International Studies	
2. 0.0 credit in International Experience Requirement Preparation		
GINS 1300 [0.0]	International Experience Requirement Preparation	
3. 7.5 credits in the Specialization		7.5

a. 1.0 credits in Foundations

ANTH 1001 [0.5] Introduction to Anthropology

ANTH 1002 [0.5] Introduction to Issues in Anthropology

CDNS 1102 [0.5] Introduction to Canada and the World

ENGL 1009 [0.5] Literature in Global Context

ENGL 1010 [0.5] Writing Essays about Literature

FYSM 1408 [1.0] World Literature in French

GEOG 1020 [0.5] People, Places and Environments

HIST 1707 [1.0] World History

PSCI 1200 [0.5] World Politics

PSCI 1501 [0.5] Politics of Migration

SOCI 1001 [0.5] Introduction to Sociology I

SOCI 1002 [0.5] Introduction to Sociology II

b. 0.5 credit in Specialization Core Course

MGDS 2000 [0.5] Global Migration and Transnationalism

c. 3.5 credits from Global Migration and Transnationalism Thematic Categories

Must include 0.5 credit from each category:

1) Transnationalism in the Arts, Literature, and Music

2) Historical, Cultural, and Regional Contexts

3) Citizenship, Identity, and Rights

4) International Migration, Globalization, and Politics

At least 1.0 credit must be at the 3000-level. Only 0.5 credit at the 1000-level.

d. 1.0 credits from: Advanced Approaches in Global Migration and Transnationalism

AFRI 3005 [0.5] African Migrations and Diasporas

ECON 3370 [0.5] The Economics of Migration

ENGL 3940 [0.5] Studies in Diaspora Lit.

HIST 3500 [0.5] Canadian Immigration 1760-1875

HIST 3507 [0.5] Canadian Immigration from 1875

PSCI 3608 [0.5] Migration Governance

SOCI 3019 [0.5] Sociology of International Migration

e. 1.5 credits from Approved 4000-level Honours Courses in Global Migration and Transnationalism

Notes:

1) Please see the list of Approved Courses in Global Migration and Transnationalism in this calendar for courses that fulfill the above thematic category and 4000-level Honours requirements.

2) Courses in the Specialization that potentially fulfill more than one specialization requirement can only be counted once.

3) Some upper-level courses on this list may have specific prerequisites. Students are encouraged to consult the course calendar when planning their schedules to be aware of those prerequisites and to fulfill them before registering. Prerequisites that do not count towards the Major CGPA may be counted towards free electives.

B. Credits Not Included in the Major CGPA (8.0 credits)

4. 8.0 credits in: Free Electives 8.0

C. Additional Requirements

5. The International Experience requirements must be met.

6. The Language requirement must be met.

Total Credits 20.0

Stream in Global Migration and Transnationalism B.G.In.S. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 4.0 credits in Core Courses 4.0

GINS 1000 [0.5] Global History

GINS 1010 [0.5] International Law and Politics

GINS 1020 [0.5] Ethnography, Globalization and Culture

GINS 2000 [0.5] Ethics and Globalization

GINS 2010 [0.5] Globalization and International Economic Issues

GINS 2020 [0.5] Global Literatures

GINS 3010 [0.5] Global and International Theory

GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change

2. 4.0 credits in the Stream 4.0

a. 1.0 credit from Foundations

ANTH 1001 [0.5] Introduction to Anthropology

ANTH 1002 [0.5] Introduction to Issues in Anthropology

CDNS 1102 [0.5] Introduction to Canada and the World

ENGL 1009 [0.5] Literature in Global Context

ENGL 1010 [0.5] Writing Essays about Literature

FYSM 1408 [1.0] World Literature in French

GEOG 1020 [0.5] People, Places and Environments

HIST 1707 [1.0] World History

PSCI 1501 [0.5] Politics of Migration

SOCI 1001 [0.5] Introduction to Sociology I

SOCI 1002 [0.5] Introduction to Sociology II

b. 0.5 credit in Stream Core Course

MGDS 2000 [0.5] Global Migration and Transnationalism

c. 2.5 credits from Global Migration and Transnationalism Thematic Categories

1) Transnationalism in the Arts, Literature, and Music

2) Historical, Cultural, and Regional Contexts

3) Citizenship, Identity, and Rights

4) International Migration, Globalization, and Politics

Must include 0.5 credit in at least three of the four categories. Only 0.5 credit at the 1000 level. At least 1.0 credit must be at the 3000 level.

B. Credits Not Included in the Major CGPA (7.0 credits)

3. 7.0 credits in Free Electives 7.0

C. Additional Requirements

4. The Language requirement must be met.

Total Credits 15.0

Migration and Diaspora Studies (MGDS) Courses

MGDS 2000 [0.5 credit]

Global Migration and Transnationalism

Introduction to the social, cultural, economic and political implications of the movement of people with a multidisciplinary and multiscale approach to topics such as migration and immigration, diaspora identities, global culture, and transnationalism.

Prerequisite(s): second-year standing.

Lecture and discussion three hours a week.

MGDS 4900 [0.5 credit]

Special Topics in Migration and Diaspora Studies

Advanced topics in Migration and Diaspora Studies. Topics vary from term to term.

Prerequisite(s): Fourth-year standing or permission of the department.

Also offered at the graduate level, with different requirements, as MGDS 5900, for which additional credit is precluded.

Seminar three hours a week

Music

This section presents the requirements for programs in:

- Music B.Mus. Honours
- Music B.A. Honours
- Music B.A. Combined Honours
- Music B.A.
- Minor in Music
- Certificate in Carillon Studies

Program Requirements

Course Categories for Music Programs

Music History and Musicology

MUSI 1000 [0.5]	Introduction to the Study of Music
MUSI 1001 [0.5]	A History of Western Classical Music: Medieval to the Present
MUSI 1002 [0.5]	Issues in Popular Music
MUSI 2005 [0.5]	Introduction to Jazz History
MUSI 2006 [0.5]	Popular Musics before 1945
MUSI 2007 [0.5]	Popular Musics after 1945
MUSI 2008 [0.5]	Music of the World's Peoples
MUSI 2009 [0.5]	Music of Asia
MUSI 2100 [0.5]	Music in an Age of Power, Plague, and Courtly Love
MUSI 2101 [0.5]	Music in an Age of Devotion, Seduction, and Rebirth
MUSI 2102 [0.5]	Music in an Age of Spectacle, Commerce, and Colonization
MUSI 2103 [0.5]	Music in an Age of Order, Invention, and Revolution
MUSI 2104 [0.5]	Music in an Age of Passion, Imagination, and Iconoclasm
MUSI 2107 [0.5]	Music in an Age of Tumult, Innovation, and Pluralism
MUSI 3103 [0.5]	Music in Canada
MUSI 3104 [0.5]	Popular Musics of Canada
MUSI 3106 [0.5]	Popular Musics of the World

MUSI 3108 [0.5]	Musics of the Middle East and North Africa
MUSI 3301 [0.5]	Music and Religion
MUSI 3302 [0.5]	Music and Gender I
MUSI 3400 [0.5]	A History of Opera before 1800
MUSI 3401 [0.5]	A History of Opera from 1800 to 1945
MUSI 3402 [0.5]	Film Music
MUSI 3403 [0.5]	Music Industries
MUSI 3405 [0.5]	Musical Theatre
MUSI 3406 [0.5]	Instrumental Music: Music for Orchestra
MUSI 3407 [0.5]	Instrumental Music: Chamber Music
MUSI 4005 [0.5]	Issues in Jazz Studies
MUSI 4006 [0.5]	Issues in the Study of Popular Music
MUSI 4007 [0.5]	The Composer in Context
MUSI 4102 [0.5]	Theory and Methods in Ethnomusicology
MUSI 4103 [0.5]	Ethnomusicology of Canadian Traditions
MUSI 4104 [0.5]	First Peoples Music in Canada
MUSI 4105 [0.5]	Issues and Processes in African Music
MUSI 4303 [0.5]	Music and Gender II
MUSI 4304 [0.5]	Music and Globalization
MUSI 4306 [0.5]	Music and Wellbeing in a Global Context
MUSI 4908 [1.0]	Honours Essay in Musicology
Theory and Composition	
MUSI 1107 [0.5]	Elementary Materials of Music
MUSI 1700 [0.5]	Theoretical Studies: Foundations of Music Theory
MUSI 1701 [0.5]	Theoretical Studies: Common Practice I
MUSI 1710 [0.5]	Theoretical Studies: Aural Training I
MUSI 1711 [0.5]	Theoretical Studies: Applied Rhythmic Training I
MUSI 2601 [0.5]	Orchestration and Instrumentation
MUSI 2602 [0.5]	Composition I
MUSI 2608 [0.5]	Computer Music I: Fundamentals of Electronic Music Production
MUSI 2609 [0.5]	Computer Music II: Production, Collaboration and Performance
MUSI 2700 [0.5]	Theoretical Studies: Common Practice II
MUSI 2701 [0.5]	Theoretical Studies: Popular Music Practice
MUSI 2703 [0.5]	Theoretical Studies VI: Practical Keyboard Skills
MUSI 2710 [0.5]	Theoretical Studies: Aural Training II
MUSI 2711 [0.5]	Theoretical Studies: Applied Rhythmic Training II
MUSI 3602 [0.5]	Composition II
MUSI 3700 [0.5]	Theoretical Studies: Seminar in Theory and Analysis

MUSI 3701 [0.5]	Theoretical Studies: Jazz Styles and Structures
MUSI 4602 [0.5]	Composition III
MUSI 4700 [0.5]	Theoretical Studies: Advanced Seminar in Theory and Analysis
MUSI 4701 [0.5]	Introduction to Jazz Arranging
MUSI 4704 [0.5]	Tonal Counterpoint
MUSI 4705 [0.5]	Post-Tonal Theory and Analysis
MUSI 4906 [1.0]	Honours Portfolio in Composition

Performance

MUSI 1900 [0.5]	Performance I
MUSI 1901 [0.5]	Performance II
MUSI 2900 [0.5]	Performance III
MUSI 2901 [0.5]	Performance IV
MUSI 3900 [0.5]	Performance V
MUSI 3901 [0.5]	Performance VI

Ensemble

These courses are graded Sat/Uns.

MUSI 1912 [0.0]	Choral Ensemble I
MUSI 1913 [0.0]	Choral Ensemble II
MUSI 1914 [0.0]	Instrumental Ensemble I
MUSI 1915 [0.0]	Instrumental Ensemble II
MUSI 2912 [0.0]	Choral Ensemble III
MUSI 2913 [0.0]	Choral Ensemble IV
MUSI 2914 [0.0]	Instrumental Ensemble III
MUSI 2915 [0.0]	Instrumental Ensemble IV
MUSI 3912 [0.0]	Choral Ensemble V
MUSI 3913 [0.0]	Choral Ensemble VI
MUSI 3914 [0.0]	Instrumental Ensemble V
MUSI 3915 [0.0]	Instrumental Ensemble VI
MUSI 4912 [0.0]	Choral Ensemble VII
MUSI 4913 [0.0]	Choral Ensemble VIII
MUSI 4914 [0.0]	Instrumental Ensemble VII
MUSI 4915 [0.0]	Instrumental Ensemble VIII

Practicum Courses

MUSI 4800 [0.5]	Practicum in Music
MUSI 4801 [0.5]	Practicum in Music

Special Topics

MUSI 3200 [0.5]	Special Topics
MUSI 3201 [0.5]	Special Topics
MUSI 3205 [0.5]	Specialized Studies
MUSI 3206 [0.5]	Specialized Studies in Performance
MUSI 3604 [0.5]	Computer Music Projects
MUSI 4200 [0.5]	Special Topics
MUSI 4201 [0.5]	Special Topics
MUSI 4205 [0.5]	Specialized Studies
MUSI 4206 [0.5]	Specialized Studies in Performance
MUSI 4209 [1.0]	Specialized Studies

Prohibited and Restricted Courses

Performance courses are open only to students in the B.Mus. program. All ensemble (choir, jazz, early music, Indian classical music, chamber music, etc.) courses are open (without credit) to members of the public.

Music

B.Mus. Honours (20.0 credits)

A. Credits Included in the Major CGPA (14.5 credits)

1. Performance: 3.0 credits in:	3.0
MUSI 1900 [0.5]	Performance I
MUSI 1901 [0.5]	Performance II
MUSI 2900 [0.5]	Performance III
MUSI 2901 [0.5]	Performance IV
MUSI 3900 [0.5]	Performance V
MUSI 3901 [0.5]	Performance VI
2. Music Theory:	
a. 4.0 credits in:	4.0
MUSI 1700 [0.5]	Theoretical Studies: Foundations of Music Theory
MUSI 1701 [0.5]	Theoretical Studies: Common Practice I
MUSI 1710 [0.5]	Theoretical Studies: Aural Training I
MUSI 1711 [0.5]	Theoretical Studies: Applied Rhythmic Training I
MUSI 2700 [0.5]	Theoretical Studies: Common Practice II
MUSI 2701 [0.5]	Theoretical Studies: Popular Music Practice
MUSI 2710 [0.5]	Theoretical Studies: Aural Training II
MUSI 2711 [0.5]	Theoretical Studies: Applied Rhythmic Training II
b. 0.5 credit from:	0.5
MUSI 3700 [0.5]	Theoretical Studies: Seminar in Theory and Analysis
MUSI 3701 [0.5]	Theoretical Studies: Jazz Styles and Structures
MUSI 4700 [0.5]	Theoretical Studies: Advanced Seminar in Theory and Analysis
MUSI 4701 [0.5]	Introduction to Jazz Arranging
MUSI 4704 [0.5]	Tonal Counterpoint
MUSI 4705 [0.5]	Post-Tonal Theory and Analysis
3. Music History and Musicology:	
a. 2.0 credits in:	2.0
MUSI 1000 [0.5]	Introduction to the Study of Music
MUSI 1001 [0.5]	A History of Western Classical Music: Medieval to the Present
MUSI 1002 [0.5]	Issues in Popular Music
MUSI 2008 [0.5]	Music of the World's Peoples
b. 0.5 credit in Music History and Musicology at the 2000-level	0.5
c. 0.5 credit from one of the following Canadian music courses:	0.5
MUSI 3103 [0.5]	Music in Canada
MUSI 3104 [0.5]	Popular Musics of Canada
MUSI 4103 [0.5]	Ethnomusicology of Canadian Traditions
MUSI 4104 [0.5]	First Peoples Music in Canada
d. 0.5 credit in Music History and Musicology at the 3000-level	0.5
4. 3.5 credits in MUSI, satisfying:	3.5
a. 1.0 credit in MUSI at the 2000-level	
b. 1.0 credit in MUSI at the 3000-level	

c. 1.5 credit in MUSI at the 4000-level	
B. Credits Not Included in the Major CGPA (5.5 credits)	
5. 3.0 credits not in MUSI, not cross-listed with MUSI	3.0
6. 2.5 credits in free electives	2.5
C. Additional Non-Credit Requirements	
7. Satisfactory performance in one full year (two consecutive terms) of Choir. It is strongly recommended that students fulfil this requirement by participating in MUSI 1912 and MUSI 1913 in their first year of B.Mus study.	
8. Satisfactory performance in six further Ensemble courses, which may be fulfilled by further choir participation or by some other ensemble (see list in Course Categories, above).	
Total Credits	20.0

Music

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)	
1. 1.5 credits from:	1.5
MUSI 1000 [0.5] Introduction to the Study of Music	
MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present	
MUSI 1002 [0.5] Issues in Popular Music	
MUSI 2008 [0.5] Music of the World's Peoples	
2. 0.5 credit in Music History and Musicology at the 2000-level	0.5
3. 1.0 credit in Music History and Musicology at the 3000-level	1.0
4. 2.0 credits in MUSI at the 2000-level	2.0
5. 2.0 credits in MUSI at the 3000-level	2.0
6. 2.0 credits in MUSI at the 4000-level	2.0
7. 1.0 credit in MUSI	1.0
B. Credits Not Included in the Major CGPA (10.0 credits)	
8. 8.0 credits in electives not in MUSI	8.0
9. 2.0 credits in free electives	2.0
Total Credits	20.0

Music

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)	
1. 1.5 credits from:	1.5
MUSI 1000 [0.5] Introduction to the Study of Music	
MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present	
MUSI 1002 [0.5] Issues in Popular Music	
MUSI 2008 [0.5] Music of the World's Peoples	
2. 1.5 credits in MUSI at the 2000-level	1.5
3. 2.0 credits in MUSI at the 3000-level	2.0
4. 1.0 credit in MUSI at the 4000-level	1.0
5. 1.0 credit in MUSI	1.0
B. Additional Requirements (13.0 credits)	13.0
6. The requirements from the other discipline must be satisfied	
7. Sufficient free electives to make 20.0 credits total for the program	
Total Credits	20.0

Music

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)	
1. 1.5 credits from:	1.5
MUSI 1000 [0.5] Introduction to the Study of Music	
MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present	
MUSI 1002 [0.5] Issues in Popular Music	
MUSI 2008 [0.5] Music of the World's Peoples	
2. 0.5 credit in Music History and Musicology at the 2000-level	0.5
3. 2.0 credits in MUSI at the 2000-level	2.0
4. 2.0 credits in MUSI at the 3000-level	2.0
5. 1.0 credit in Music	1.0
B. Credits Not Included in the Major CGPA (8.0 credits)	
6. 6.0 credits in electives not in MUSI	6.0
7. 2.0 credit in free electives	2.0
Total Credits	15.0

Minor in Music (4.0 credits)

Open to all undergraduate degree students not in Music programs.

Requirements

1. 1.0 credit from:	1.0
MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present	
MUSI 1002 [0.5] Issues in Popular Music	
MUSI 2008 [0.5] Music of the World's Peoples	
2. 1.0 credit in MUSI at the 2000-level	1.0
3. 1.0 credit in MUSI at the 3000-level	1.0
4. 1.0 credit in MUSI	1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Certificate in Carillon Studies (4.0 credits)

While the Certificate in Carillon Studies may be completed as an independent, stand-alone certificate, all courses taken in completion of the curriculum outlined above may be applied for credit toward the Bachelor of Music or B.A. Music degrees, should a certificate student opt to apply for acceptance to one of these programs. Since the courses are transferable in this way, it will also be possible for students currently enrolled in one of Carleton's undergraduate Music programs to concurrently complete the Certificate in Carillon Studies.

Successful completion requires grades of C or higher in all courses.

Year One (2.0 credits)

Requirements	
1. 1.0 credit in Performance Studies:	1.0
MUSI 1900 [0.5] Performance I	
MUSI 1901 [0.5] Performance II	
2. 0.5 credit from:	0.5
MUSI 1000 [0.5] Introduction to the Study of Music	
MUSI 1001 [0.5] A History of Western Classical Music: Medieval to the Present	

MUSI 1710 [0.5]	Theoretical Studies: Aural Training I	
3. 0.5 credit from:		0.5
MUSI 4200 [0.5]	Special Topics	
MUSI 4800 [0.5]	Practicum in Music	
Music elective as approved by both the Dominion Carillonneur and the Supervisor of Performance Studies		
Year Two (2.0 credits)		
Requirements		
1. 1.0 credit in	Performance Studies:	1.0
MUSI 2900 [0.5]	Performance III	
MUSI 2901 [0.5]	Performance IV	
2. 0.5 credit from:		0.5
MUSI 3103 [0.5]	Music in Canada	
MUSI 3104 [0.5]	Popular Musics of Canada	
MUSI 4103 [0.5]	Ethnomusicology of Canadian Traditions	
MUSI 4104 [0.5]	First Peoples Music in Canada	
MUSI 2602 [0.5]	Composition I	
3. 0.5 credit from:		0.5
MUSI 4201 [0.5]	Special Topics	
MUSI 4801 [0.5]	Practicum in Music	
Music elective as approved by both the Dominion Carillonneur and the Supervisor of Performance Studies		
Total Credits		4.0

Music (MUSI) Courses

Note: the majority of courses are open to non-Majors; students are advised to consult the Discipline. Priority is given to Music students.

MUSI 1000 [0.5 credit]

Introduction to the Study of Music

Introduction to issues and methods in the study of music. Development of writing and research skills; methodological approaches in all academic areas of music (historical musicology, ethnomusicology, popular music studies, music theory).

Prerequisite(s): first-year enrolment in the B.Mus., B.A. Music or B.A. Hons. Music program.

Lectures three hours a week.

MUSI 1001 [0.5 credit]

A History of Western Classical Music: Medieval to the Present

Western classical music from the medieval period to the present. Major historical periods (Medieval, Renaissance, Baroque, Classical, Romantic, Modern, Postmodern) are examined through representative music ranging from Gregorian chant to contemporary experimental trends.

Lectures three hours a week.

MUSI 1002 [0.5 credit]

Issues in Popular Music

History of world popular music from the 19th century until the present. Topics may include the growth of the music industry, the impact of technology, stardom, world music, the role of the press, copyright, censorship, and sexuality.

Lectures three hours a week.

MUSI 1003 [0.5 credit]

Understanding Music

Through musical examples drawn from diverse cultures and historical periods, students develop the ability to describe and analyze different aspects of music and deepen their appreciation of music as a cultural experience. Prior musical knowledge is not required. Lectures three hours a week.

MUSI 1107 [0.5 credit]

Elementary Materials of Music

An introduction to the rudiments of music and aural training. Successful completion of this course will fulfil the prerequisite for entry into MUSI 1700. Not available to B.Mus. students for credit.

Lectures three hours a week.

MUSI 1700 [0.5 credit]

Theoretical Studies: Foundations of Music Theory

An introduction to the organizational principles underlying tonal music including intervals, scales, rhythm, metre, chords, counterpoint, form, cadences, and harmonic progressions.

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1701 [0.5 credit]

Theoretical Studies: Common Practice I

A study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period, with emphasis on the development of analytical and written skills of diatonic music.

Prerequisite(s): MUSI 1700 or permission of the Discipline.

Lectures three hours a week.

MUSI 1710 [0.5 credit]

Theoretical Studies: Aural Training I

A study of ear training, sight singing, and basic keyboard skills in relation to classical and popular musics, with emphasis on melodic, harmonic, and formal structures.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1711 [0.5 credit]

Theoretical Studies: Applied Rhythmic Training I

A study of the rhythm of selected classical, popular, and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1900 [0.5 credit]

Performance I

Individual vocal or instrumental instruction in classical, traditional or popular idioms.

Includes: Experiential Learning Activity

Prerequisite(s): audition and enrolment in the B.Mus. program.

MUSI 1901 [0.5 credit]**Performance II**

Individual vocal or instrumental instruction in classical, traditional or popular idioms.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1900 and enrolment in the B.Mus. program.

MUSI 1912 [0.0 credit]**Choral Ensemble I**

Participation in a choral ensemble, by arrangement with the Supervisor of Performance and Practical Studies.

Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1913 [0.0 credit]**Choral Ensemble II**

A continuation of MUSI 1912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1914 [0.0 credit]**Instrumental Ensemble I**

Participation in an instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies.

Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1915 [0.0 credit]**Instrumental Ensemble II**

A continuation of MUSI 1914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2005 [0.5 credit]**Introduction to Jazz History**

A survey of ragtime and jazz from their roots in pre-twentieth-century black music and white music to contemporary jazz idioms, including an examination of New Orleans jazz and Dixieland, swing, bebop, cool jazz, and free jazz.

Precludes additional credit for MUSI 2205.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2006 [0.5 credit]**Popular Musics before 1945**

Selected aspects of the development of Anglo-American popular musics from their roots in the nineteenth century until the shifts and tensions which led to the advent of rock-and-roll and soul in the 1950s. Genres to be examined include blues, country, the sentimental ballad, Broadway music.

Precludes additional credit for MUSI 2203, MUSI 2206, MUSI 2208.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2007 [0.5 credit]**Popular Musics after 1945**

Selected aspects of the development of Anglo-American and world popular musics from the advent of rock 'n' roll and soul to the present. Early rock 'n' roll, British rhythm 'n' blues, Motown, West Coast music, punk, heavy metal, new wave, disco and country.

Precludes additional credit for MUSI 2207, MUSI 2208, MUSI 2209.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2008 [0.5 credit]**Music of the World's Peoples**

A survey of musical traditions from various regions of the world, with an emphasis on the sociocultural contexts in which those musics are created and performed.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2300.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2009 [0.5 credit]**Music of Asia**

A comparative and analytical study of music in Asia, including India, China, Korea, Indonesia, Japan, and the Arabic world, through an examination of the music, musical instruments and theoretical systems.

Precludes additional credit for MUSI 2301.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2100 [0.5 credit]**Music in an Age of Power, Plague, and Courtly Love**

The music of the “dark ages” is illuminated in the context of politics, spectacle, devotion, celebration, compositional process, manuscript culture, dissemination, musical notation, plague, and courtly love. “Medievalism” is examined as an aesthetic of the era (ca. 400-1400) and as reinterpreted in our modern world.

Precludes additional credit for MUSI 2000.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2101 [0.5 credit]**Music in an Age of Devotion, Seduction, and Rebirth**

This course brings to life the Renaissance (1400-1600), when music played a vital role in lavish courts, grand cathedrals, and vibrant cities. Madrigals, masses, and motets are examined in the context of politics, religion, gender, manuscript and print culture, rhetoric, art, and architecture.

Precludes additional credit for MUSI 2001.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2102 [0.5 credit]**Music in an Age of Spectacle, Commerce, and Colonization**

The Baroque (1600-1750) was simultaneously shaped by absolutist regimes, competing religions, and an emerging public sphere. Music and culture from Monteverdi to Bach and Handel are investigated in the contexts of power, (geo)politics, religion, aesthetics, gender, socio-economics, dissemination, genre, and compositional practices.

Precludes additional credit for MUSI 2001.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2103 [0.5 credit]**Music in an Age of Order, Invention, and Revolution**

Peace and revolution, faith and secularism, noble privilege and bourgeois commerce: fundamental contradictions underlying the creative work of Mozart, Haydn, and Beethoven. This course studies their compositions—operas, sacred works, symphonies, chamber music—within the political, social and cultural institutions of their times (ca. 1730-1815).

Precludes additional credit for MUSI 2002.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2104 [0.5 credit]**Music in an Age of Passion, Imagination, and Iconoclasm**

This course examines European art music of the nineteenth century, a revolutionary period of socio-political change when inspiration, subjectivity, radical idealism, expressive intensity, cultural nationalism, and the primacy of the individual creative voice were held up as primary aesthetic ideals.

Precludes additional credit for MUSI 2002.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2107 [0.5 credit]**Music in an Age of Tumult, Innovation, and Pluralism**

A survey of European classical music of the 20th century. Idioms to be examined in the socio-political climate of the period include impressionism, expressionism, nationalism, neo-classicism, music of political commitment, contemporary opera and musical theatre, serialism, chance, textural composition, process music and neo-romanticism.

Precludes additional credit for MUSI 2105, 2106.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2601 [0.5 credit]**Orchestration and Instrumentation**

Introduction to the fundamentals of effective and professional arranging. All aspects of the various instruments of the orchestra and matters having to do with the practicalities of orchestration for both small and large ensembles, and accepted professional standards of score presentation.

Prerequisite(s): MUSI 1701 and MUSI 1710 and

MUSI 1711, or permission of the instructor.

Lecture three hours a week.

MUSI 2602 [0.5 credit]**Composition I**

Introduction to theories and technicalities involved in original creative writing through the preparation of individual assignments; based in the practice of recent music in the Western Classical tradition while allowing for the music of other Western styles and traditions to be addressed.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701 and MUSI 1710 and

MUSI 1711, or permission of the instructor. MUSI 2601 is recommended.

Lectures and workshops three hours a week.

MUSI 2605 [0.5 credit]**Choral Conducting**

Introduction to the special stylistic features of choral music from the Renaissance to the present as well as to a variety of practical techniques (vocal production, gesture, conducting patterns, diction, etc.).

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program or permission of the instructor.

Lectures three hours a week.

MUSI 2608 [0.5 credit]**Computer Music I: Fundamentals of Electronic Music Production**

Introduction to the theory and practice of electronic music creation, focusing on audio editing, synthesis, sampling, beat-making, signal processing, and sound design, using a variety of professional-grade software packages.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2603 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week, plus individual studio time.

MUSI 2609 [0.5 credit]**Computer Music II: Production, Collaboration and Performance**

Computer-based music-making with an emphasis on collaborative approaches and performance-oriented tools and techniques. Introduces practices of remixing, live sound manipulation, preparation of original material for performance, and the use of hardware controllers in live performance and real-time musical collaboration using mobile technologies.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2603 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week, plus individual studio time.

MUSI 2700 [0.5 credit]**Theoretical Studies: Common Practice II**

A continuation of the study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period and early twentieth century, with emphasis on chromaticism and the development of analytical and written skills.

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Lectures three hours a week.

MUSI 2701 [0.5 credit]**Theoretical Studies: Popular Music Practice**

A study of the rhythmic, melodic, harmonic and formal structures of popular musics.

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Lectures three hours a week.

MUSI 2703 [0.5 credit]**Theoretical Studies VI: Practical Keyboard Skills**

A practical study of rhythm, harmony and melody on the keyboard, with an emphasis on vocal and instrumental accompaniment and the development of improvisation skills in a variety of styles.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Labs three hours a week.

MUSI 2710 [0.5 credit]**Theoretical Studies: Aural Training II**

A continuation of the study of ear training, sight singing, and basic keyboard skills in relation to classical and popular musics, with emphasis on melodic, harmonic, and formal structures.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701, MUSI 1710.

Lectures three hours a week.

MUSI 2711 [0.5 credit]**Theoretical Studies: Applied Rhythmic Training II**

A continuation of the study of the rhythm of common-practice and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1700, MUSI 1711.

Lectures three hours per week.

MUSI 2900 [0.5 credit]**Performance III**

A continuation of MUSI 1901.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 1901, or permission of the Discipline.

MUSI 2901 [0.5 credit]**Performance IV**

A continuation of MUSI 2900.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 2900, or permission of the Discipline.

MUSI 2912 [0.0 credit]**Choral Ensemble III**

A continuation of MUSI 1913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2913 [0.0 credit]**Choral Ensemble IV**

A continuation of MUSI 2912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2914 [0.0 credit]**Instrumental Ensemble III**

A continuation of MUSI 1915. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week through either the fall or winter term, and participation in concerts.

MUSI 2915 [0.0 credit]**Instrumental Ensemble IV**

A continuation of MUSI 2914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3103 [0.5 credit]**Music in Canada**

An examination of various issues related to the study of music in Canada and by Canadians, and an examination of various genres of Canadian music, including art music, folk music, popular music, First Peoples music and music of various immigrant groups.

Precludes additional credit for MUSI 3100 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3104 [0.5 credit]**Popular Musics of Canada**

A survey of popular musics in Canada from early colonial times to the present. The course will consider a wide range of musical styles and genres, along with related cultural and historical issues.

Precludes additional credit for MUSI 3100.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3106 [0.5 credit]**Popular Musics of the World**

Popular musics of the world, including those of Africa, Asia, Central and Eastern Europe, Latin America, the Caribbean and Oceania. Special attention to the interaction between some world popular musics and the Western record industry.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3107 [0.5 credit]**Classical Indian Music**

An introduction to the history and theory of classical Indian music including ragas, instruments, rhythm and improvisation.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, or permission of the instructor.

Lectures three hours a week.

MUSI 3108 [0.5 credit]**Musics of the Middle East and North Africa**

An examination of various musics, devotional traditions, and shifting cultural and art movements in the region, resulting from processes of globalization, political change, and technological innovation. Course sessions will include close and critical discussion of selected texts, audio-visual examples, and ethnomusicological documentary films.

Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3200 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3201 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3205 [0.5 credit]**Specialized Studies**

Courses designed for Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum GPA of 9.0 in Music.

Individual instruction.

MUSI 3206 [0.5 credit]**Specialized Studies in Performance**

Courses designed for Music Honours students who have acquired an extensive background through performance. Course offerings change from year to year.

Prerequisite(s): permission of the instructor, and a minimum GPA of 9.0 in Music.

Individual instruction.

MUSI 3301 [0.5 credit]**Music and Religion**

An examination of the integral role music plays in religion and sacred ritual in different world cultures and religions. Through various case studies, the course broadly considers how sacred soundscapes shape people's worldviews, identities, and experiences within and outside of their communities.

Also listed as RELI 3301.

Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3302 [0.5 credit]**Music and Gender I**

The role of gender in the theory and practice of music in western and non-western cultures.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3303 [0.5 credit]**Introduction to Music Therapy**

Literature, practice and theory of music therapy. The use of music (improvisation, the voice, and reception) with various populations, including children and adults with special needs, people in long term care, people with neurological disorders, and in palliative care.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

MUSI 3400 [0.5 credit]**A History of Opera before 1800**

A survey of the development of opera from the beginnings to about 1800. The major monuments of Italian, French, German and English opera, by such composers as Monteverdi, Cavalli, Scarlatti, Purcell, Lully, Gluck, Rameau, Mozart and Haydn.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3401 [0.5 credit]**A History of Opera from 1800 to 1945**

A study of romantic and contemporary opera through an examination of selected works from Weber's *Der Freischütz* to Britten's *Peter Grimes*, including an investigation of national styles from Wagnerian music drama and Italian verismo to Russian realism and German expressionism.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3402 [0.5 credit]**Film Music**

The use of music in film, from the silent era to the present day, studying the techniques, styles and theory of film music through the examination of selected scenes.

Also listed as FILM 3402.

Prerequisite(s): second-year standing.

Lectures three hours a week, screening two hours a week.

MUSI 3403 [0.5 credit]**Music Industries**

An introduction to the structure and history of the music industries.

Also listed as COMS 3404.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3405 [0.5 credit]**Musical Theatre**

A survey of the styles, works, and artists of the musical theatre genre as well as the artistic elements that comprise musical theatre.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3406 [0.5 credit]**Instrumental Music: Music for Orchestra**

Origins and development of orchestral music from its beginnings as an independent form in the 18th century to the present. Major symphonies and symphonic poems by composers like Haydn, Beethoven, Liszt, Brahms, Strauss, and Shostakovich. Brief examination of concerto and ballet music.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3407 [0.5 credit]**Instrumental Music: Chamber Music**

History of chamber music and the cultural contexts within which it rose to prominence in Europe and North America in the 18th, 19th and 20th centuries. Genres by representative composers including the sonata, duos, trios, quartets, quintets, sextets, divertimenti, and works for small chamber orchestra.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3602 [0.5 credit]**Composition II**

Designed to enable students to develop abilities in the writing of original music. The study and appreciation of modern and contemporary styles and techniques are encouraged.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 3600 (no longer offered).

Prerequisite(s): MUSI 2601, MUSI 2602, and MUSI 2700, or permission of the instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 3603 [0.5 credit]**Computer Music Techniques**

An introduction to the techniques of sound synthesis primarily through practical experience at the digital synthesizer and computer. The basics of machine operations, software and computer applications to composition and synthesis. Enrolment is limited.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, and either MUSI 2603 or MUSI 2608 or MUSI 2609, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3604 [0.5 credit]**Computer Music Projects**

Examination of the various applications of digital equipment through the realization of original projects. Students may focus on studio composition, software development or analytic research. Appropriate compositional techniques and problem solving strategies are also discussed. Enrolment is limited.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, and either MUSI 2603 (no longer offered) or MUSI 2608 or MUSI 2609, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3605 [0.5 credit]**Instrumental Conducting**

Introduction to the practice of conducting Instrumental music from the Classical era to the present as well as to a variety of practical techniques (rehearsal techniques, gesture, conducting patterns, score study, etc.).

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus.

program or permission of the instructor.

MUSI 3700 [0.5 credit]**Theoretical Studies: Seminar in Theory and Analysis**

Selected topic in music theory. Topics will change yearly and may include: methods of music analysis, analysis of selected works, styles and structures of common practice or post common practice period, music, modal, tonal, or post-tonal counterpoint, history of music theory.

Precludes additional credit for MUSI 3500.

Prerequisite(s): MUSI 2700 or permission of the instructor.

Seminars three hours a week.

MUSI 3701 [0.5 credit]**Theoretical Studies: Jazz Styles and Structures**

Techniques of arranging and composition for small and large ensembles will be studied through the examination of selected works drawn from the jazz repertoire. Works will be selected for stylistic and theoretical analysis, for exercises in aural recognition, and for arranging purposes.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4203 (taken in 1994-95) or MUSI 4204 (taken in 1995-96).

Prerequisite(s): MUSI 2701 or permission of the instructor.

Workshops three hours a week.

MUSI 3702 [0.5 credit]**Introduction to Physics and Psychoacoustics of Music**

Basic topics in physics and psychoacoustics, with an emphasis on those concepts that are most useful for music performance, analysis, composition, and musicology.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3703 [0.5 credit]**Improvisation in Theory and Practice**

Selected forms of improvisation from diverse musical and cultural traditions. In addition to weekly seminar meetings, the class will engage in experiential forms of learning by actively improvising in a weekly performance-oriented seminar.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Discussion and performance seminars three hours a week.

MUSI 3900 [0.5 credit]**Performance V**

A continuation of MUSI 2901.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B. Mus. and

MUSI 2901, or permission of the Discipline.

MUSI 3901 [0.5 credit]**Performance VI**

A continuation of MUSI 3900.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and MUSI 3900, or permission of the Discipline.

MUSI 3912 [0.0 credit]**Choral Ensemble V**

A continuation of MUSI 2913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3913 [0.0 credit]**Choral Ensemble VI**

A continuation of MUSI 3912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3914 [0.0 credit]**Instrumental Ensemble V**

A continuation of MUSI 2915. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3915 [0.0 credit]**Instrumental Ensemble VI**

A continuation of MUSI 3914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4000 [0.5 credit]**Performance VII**

This is an optional performance course for B.Mus. students with high academic standing.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4900, MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 3901, A- or higher average in second- and third-year MUSI performance courses, and permission of the Music performance supervisor.
Individual instruction.

MUSI 4001 [0.5 credit]**Performance VIII**

This is an optional performance course for B.Mus. students with high academic standing.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4002, MUSI 4003, MUSI 4900 (no longer offered), MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus. standing, MUSI 4000 with A- or higher, and permission of the Music performance supervisor.
Individual instruction.

MUSI 4002 [0.5 credit]**Graduating Demo Recording**

A graduation recording of substantial duration arranged in consultation with the discipline. A proposal must be submitted one week before the last day for course changes. All recording costs must be borne by the student.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4001, MUSI 4003, MUSI 4900 (no longer offered), MUSI 4901 (no longer offered), MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 4000 with a grade of A- or higher, and permission of both the relevant associate music instructor and the music performance supervisor.
Individual instruction.

MUSI 4003 [0.5 credit]**Graduating Recital**

Public recital arranged in consultation with the Supervisor of Performance and Practical Studies. An outline of the program must be submitted one week before the last day for course changes.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4001, MUSI 4002, MUSI 4900, MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 4000 with A- or higher, and permission of both the relevant associate music instructor and the Music performance supervisor.
Individual instruction.

MUSI 4005 [0.5 credit]**Issues in Jazz Studies**

An examination of key issues in the study of jazz including history/historiography, gender, genre, race, politics, identity and performance.

Prerequisite(s): MUSI 2005 and third-year standing.

MUSI 4006 [0.5 credit]**Issues in the Study of Popular Music**

An introduction to current issues in the study of popular music. The course will be organized around a series of case studies.

Prerequisite(s): third-year standing, MUSI 1002, and at least one of MUSI 2005, 2006, or 2007.

Seminars three hours a week.

MUSI 4007 [0.5 credit]**The Composer in Context**

Examination of the life and music of a selected composer, and the historical, social, cultural, and political factors that shaped the context within which she/he worked. Focus on history, biography, musical style and analysis.

Prerequisite(s): MUSI 1000, and MUSI 1700, and at least one from: MUSI 2100, MUSI 2101, MUSI 2102, MUSI 2103, MUSI 2104, MUSI 2105 (no longer offered), MUSI 2106 (no longer offered) or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4102 [0.5 credit]**Theory and Methods in Ethnomusicology**

Selected readings and discussion of major works in ethnomusicology, focusing on schools of thought and contemporary issues. Introduction to a variety of methods and strategies for ethnomusicological research, including field work, musical transcription and data analysis.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, or permission of the instructor.

Seminars three hours a week.

MUSI 4103 [0.5 credit]**Ethnomusicology of Canadian Traditions**

Issues of anthropological, sociological, and analytical significance are examined in the context of selected developments in folklore and ethnomusicological research on Canadian traditions.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5015, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4104 [0.5 credit]**First Peoples Music in Canada**

The context and significance of musical expressions of selected Canadian Indigenous groups and the contributions of individuals in the creation of music and meaning in First Peoples' communities.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5016, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4105 [0.5 credit]**Issues and Processes in African Music**

Surveying five different geographic regions of Africa, traditional and modern musical styles will be studied through the lens of the global, local and social issues surrounding them.

Prerequisite(s): third year standing, or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4200 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4201 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. Course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4205 [0.5 credit]**Specialized Studies**

Courses designed for Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum CGPA of 9.0 in Music.

Individual instruction.

MUSI 4206 [0.5 credit]**Specialized Studies in Performance**

Courses designed for Music Honours students who have acquired an extensive background through performance. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum CGPA of 9.0 in Music.

Individual instruction.

MUSI 4209 [1.0 credit]**Specialized Studies**

A course designed for Music Honours students who have acquired an extensive background through courses in theory, musicology or composition. Course offerings change from year to year.

Prerequisite(s): permission of the instructor.

MUSI 4303 [0.5 credit]**Music and Gender II**

The relationship between the social and formal organization of music and the social and formal organization of sexual difference. The role of music in the social construction of gender; the role of gender in the determination of musical style and taste.

Precludes additional credit for MUSI 3303 or MUSI 4204 (taken in 1992-93).

Prerequisite(s): MUSI 3302 or permission of the instructor.

Seminars three hours a week.

MUSI 4304 [0.5 credit]**Music and Globalization**

Examining music's role in the multifaceted and complex processes of globalization. Drawing on case studies of "world musics", this course explores how sound and music negotiate histories of post/colonialism, cultural and economic imperialism, and constructions of sameness and difference in "world music" contexts.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5017, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4306 [0.5 credit]**Music and Wellbeing in a Global Context**

An examination of the ways in which music contributes to mental, social and physical wellbeing throughout the world, drawing from the fields of neuroscience, medical ethnomusicology, community music and cross-cultural studies.

Prerequisite(s): fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4602 [0.5 credit]**Composition III**

A continuation of MUSI 3602, focusing on the development of creative individual approaches to music composition.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 3600 (no longer offered).

Prerequisite(s): MUSI 3602, or permission of the instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 4700 [0.5 credit]**Theoretical Studies: Advanced Seminar in Theory and Analysis**

A study of a selected topic in music theory. Topics will change yearly and may include: methods of music analysis; analysis of selected works; styles and structures of common practice or post common practice period music; modal, tonal, or post-tonal counterpoint; history of music theory.

Prerequisite(s): MUSI 2700 or permission of the instructor.

Seminars three hours a week.

MUSI 4701 [0.5 credit]**Introduction to Jazz Arranging**

The art of arranging for small and large jazz ensembles is introduced through analysis of recordings by artists such as Duke Ellington, Fletcher Henderson, Count Basie, Rob McConnell, and Maria Schneider. Topics may include 2-, 3-, and 4-voice writing in a jazz idiom.

Prerequisite(s): MUSI 3701 or permission of the instructor.

Seminars three hours a week.

MUSI 4702 [0.5 credit]**Topics in Music Perception and Cognition**

Selected advanced topics in the perception and cognition of music. Where appropriate, emphasis will be placed upon areas of overlap between psychological research and issues in aesthetics and cultural theory.

Prerequisite(s): third-year standing and MUSI 3702, or permission of the department.

Seminars three hours a week.

MUSI 4704 [0.5 credit]**Tonal Counterpoint**

This course deals with the development of writing skills and knowledge of counterpoint as manifest in the Baroque era. Topics may include invention, canon, fugue, dance forms, the compositional language of J. S. Bach, and contrapuntal techniques in the late 18th century and beyond.

Prerequisite(s): MUSI 2700, or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4705 [0.5 credit]**Post-Tonal Theory and Analysis**

Fundamentals of post-tonal music theory and analysis.

Neo-tonal, atonal, twelve-tone and third-stream jazz.

Students will develop the critical skills to understand these theoretical tools and be conversant with some of the aesthetic precepts associated with them.

Prerequisite(s): MUSI 2700 or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4800 [0.5 credit]**Practicum in Music**

Practical experience in music-specific projects such as recording studios, librarianship, research, multimedia, etc. at local institutions. A maximum of one credit of practicum may be offered in fulfilment of Music requirements.

Includes: Experiential Learning Activity

Prerequisite(s): Honours Music registration with third- or fourth-year standing and a B+ or better average in Music courses; and permission of the Practica Supervisor.

MUSI 4801 [0.5 credit]**Practicum in Music**

Practical experience in music-specific projects such as recording studios, librarianship, research, multimedia, etc. at local institutions. A maximum of one credit of practicum may be offered in fulfilment of Music requirements.

Includes: Experiential Learning Activity

Prerequisite(s): Honours Music registration with third- or fourth-year standing and a B+ or better average in Music courses; and permission of the Practica Supervisor.

MUSI 4906 [1.0 credit]**Honours Portfolio in Composition**

The course requires the composition of an original work of substantial proportions, with an accompanying analytical paper. Application to the Discipline for permission to register must be received by September 1.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4600.

Prerequisite(s): fourth-year standing, MUSI 3600 and permission of the Discipline.

MUSI 4908 [1.0 credit]**Honours Essay in Musicology**

An Honours research essay of approximately 50 pages. A written outline of the project must be submitted to the Honours committee changes by the first day of classes. Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing, A- or higher average, and permission of the Discipline.

MUSI 4909 [1.0 credit]**Portfolio in New Media**

The course requires the creation of an original work (or works) of substantial proportions using applications in the electronic studios. A high level of independence and originality will be required. Requests to the Discipline for permission to register must be received by September 1. Includes: Experiential Learning Activity
Prerequisite(s): permission of the instructor.

MUSI 4912 [0.0 credit]**Choral Ensemble VII**

A continuation of MUSI 3913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns. Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Choral Director. Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4913 [0.0 credit]**Choral Ensemble VIII**

A continuation of MUSI 4912. Registration, but not participation, is restricted to students in the B. Mus. program. Graded Sat/Uns. Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Choral Director. Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4914 [0.0 credit]**Instrumental Ensemble VII**

A continuation of MUSI 3915. Registration, but not participation, is restricted to students in the B.Mus. program Graded Sat/Uns. Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Ensemble Director. Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4915 [0.0 credit]**Instrumental Ensemble VIII**

A continuation of MUSI 4914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns. Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Ensemble Director. Ensemble work approximately two hours a week throughout either the fall or winter term participation in concerts.

Nanoscience

This section presents the requirements for programs in:

- Nanoscience B.Sc. Honours

Program Requirements**Nanoscience****B.Sc. Honours (20.0 credits)****A. Credits Included in the Major CGPA (11.5 credits)**

1. 5.0 credits in:	5.0
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry
CHEM 3100 [0.5]	Physical Chemistry II
CHEM 3107 [0.5]	Experimental Methods in Nanoscience
CHEM 3503 [0.5]	Inorganic Chemistry I
CHEM 3600 [0.5]	Introduction to Nanotechnology
CHEM 4908 [1.0]	Research Project and Seminar
2. 1.0 credit from:	1.0
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
3. 1.0 credit from:	1.0
CHEM 4103 [0.5]	Surface Chemistry and Nanostructures
CHEM 4104 [0.5]	Physical Methods of Nanotechnology
CHEM 4201 [0.5]	Macromolecular Nanotechnology
4. 3.5 credits in:	3.5
ELEC 2501 [0.5]	Circuits and Signals
ELEC 2507 [0.5]	Electronics I
ELEC 3908 [0.5]	Physical Electronics
ELEC 3105 [0.5]	Basic EM and Power Engineering
ELEC 4609 [0.5]	Integrated Circuit Design and Fabrication
ELEC 4700 [0.5]	The Physics and Modeling of Advanced Devices and Technologies
ELEC 4704 [0.5]	Nanoscale Technology and Devices
5. 1.0 credit from:	1.0
ELEC 2607 [0.5]	Switching Circuits
ELEC 3500 [0.5]	Digital Electronics
ELEC 3509 [0.5]	Electronics II

ELEC 3909 [0.5]	Electromagnetic Waves	
B. Credits Not Included in the Major CGPA (8.5 credits)		
6. 2.5 credits in:		2.5
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
STAT 3502 [0.5]	Probability and Statistics	
7. 1.0 credits in:		1.0
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
8. 1.5 credits in Advanced Science Faculty Electives:		1.5
9. 0.5 credit in Science Continuation (not CHEM)		0.5
10. 0.5 credit in:		0.5
NSCI 1000 [0.5]	Seminar in Science	
(or approved courses outside the faculties of Science and Engineering and Design)		
11. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design		1.5
12. 1.0 credit in free electives		1.0
Total Credits		20.0

Neuroscience

This section presents the requirements for programs in:

- Neuroscience and Mental Health B.Sc. Honours
- Neuroscience and Mental Health B.Sc. Major
- Neuroscience and Mental Health B.Sc.
- Neuroscience B.Sc. Combined Honours
- Minor in Neuroscience and Mental Health

Program Requirements

Course Categories for B.Sc. Programs

The program descriptions for B.Sc. Combined Honours Neuroscience make use of the course categories defined for all B.Sc. programs (see Academic Regulations for the Bachelor of Science Degree):

- Science Faculty Electives
- Science Continuation Courses
- Free Electives

Neuroscience and Mental Health

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major (10.5 credits)

1. 5.5 credits in:		5.5
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease	
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease	
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience	
NEUR 2002 [0.5]	Introduction to Statistics in Neuroscience	

NEUR 2201 [0.5]	Cellular and Molecular Neuroscience	
NEUR 2202 [0.5]	Neurodevelopment and Plasticity	
NEUR 3001 [0.5]	Data Analysis in Neuroscience I	
NEUR 3002 [0.5]	Data Analysis in Neuroscience II	
NEUR 3204 [0.5]	Neuropharmacology	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience	
NEUR 3207 [0.5]	Systems Neuroscience	
2. 1.0 credit in:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
3. 1.5 credit from:		1.5
NEUR 3301 [0.5]	Genetics of Mental Health	
NEUR 3303 [0.5]	The Neuroscience of Consciousness	
NEUR 3304 [0.5]	Hormones and Behaviour	
NEUR 3401 [0.5]	Environmental Toxins and Mental Health	
NEUR 3402 [0.5]	Impact of Lifestyle and Social Interactions on Mental Health	
NEUR 3403 [0.5]	Stress and Mental Health	
NEUR 3501 [0.5]	Neurodegeneration and Aging	
NEUR 3502 [0.5]	Neurodevelopmental Determinants of Mental Health	
4. 0.5 credit from:		0.5
NEUR 4301 [0.5]	Neurobiology of Energy Homeostasis	
NEUR 4302 [0.5]	Sex and the Brain	
NEUR 4303 [0.5]	Indigenous Health & Mental Health	
NEUR 4305 [0.5]	Immune-Brain Interactions	
NEUR 4306 [0.5]	The Neural Basis of Addiction	
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy	
5. 0.5 credit from:		0.5
NEUR 4200 [0.5]	Seminar on Current Advances in Neuroscience	
NEUR 4202 [0.5]	Seminar on Current Research in Neuroscience and Psychiatric Disease	
NEUR 4203 [0.5]	Seminar on Current Research in Neuroscience and Clinical Neurology	
6. 1.0 credit from:		1.0
NEUR 4905 [1.0]	Honours Workshop	
NEUR 4907 [1.0]	Honours Essay and Research Proposal	
NEUR 4908 [1.0]	Honours Research Thesis	
8. 0.5 credit in Advanced Science Faculty Electives		0.5
B. Credits Not Included in the Major CGPA (9.5 credits)		
8. 2.0 credits in:		2.0
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
PHYS 1007 [0.5]	Elementary University Physics I	
PHYS 1008 [0.5]	Elementary University Physics II	
9. 0.5 credit from:		0.5
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
10. 1.0 credit in:		1.0
BIOL 2201 [0.5]	Cell Biology and Biochemistry	
or BIOL 2200 [0.5]	Cellular Biochemistry	

BIOL 2107 [0.5]	Fundamentals of Genetics	
11. 1.0 credit in	Science Continuation Courses	1.0
12. 2.0 credits in	approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
13. 3.0 credits in	free electives.	3.0
Total Credits		20.0

Neuroscience and Mental Health

B.Sc. Major (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 5.5 credits in:		5.5
NEUR 1202 [0.5]	Neuroscience of Mental Health and Psychiatric Disease	
NEUR 1203 [0.5]	Neuroscience of Mental Health and Neurological Disease	
NEUR 2001 [0.5]	Introduction to Research Methods in Neuroscience

11. **2.0 credits** in approved courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) 2.0

Total Credits 20.0

Minor in Neuroscience and Mental Health (4.0 credits)

The Minor in Neuroscience is available to students registered in degree programs other than those offered by the Department of Neuroscience.

Requirements:

1. **2.0 credits in:** 2.0

NEUR 1202 [0.5] Neuroscience of Mental Health and Psychiatric Disease

NEUR 1203 [0.5] Neuroscience of Mental Health and Neurological Disease

NEUR 2201 [0.5] Cellular and Molecular Neuroscience

NEUR 2202 [0.5] Neurodevelopment and Plasticity

2. **2.0 credits from:** 2.0

NEUR 3204 [0.5] Neuropharmacology

NEUR 3301 [0.5] Genetics of Mental Health

NEUR 3303 [0.5] The Neuroscience of Consciousness

NEUR 3304 [0.5] Hormones and Behaviour

NEUR 3401 [0.5] Environmental Toxins and Mental Health

NEUR 3402 [0.5] Impact of Lifestyle and Social Interactions on Mental Health

NEUR 3403 [0.5] Stress and Mental Health

NEUR 3501 [0.5] Neurodegeneration and Aging

NEUR 3502 [0.5] Neurodevelopmental Determinants of Mental Health

NEUR 4301 [0.5] Neurobiology of Energy Homeostasis

NEUR 4302 [0.5] Sex and the Brain

NEUR 4303 [0.5] Indigenous Health & Mental Health

NEUR 4306 [0.5] The Neural Basis of Addiction

Total Credits 4.0

Neuroscience (NEUR) Courses

NEUR 1202 [0.5 credit]

Neuroscience of Mental Health and Psychiatric Disease

Clinical symptoms of psychiatric disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, substance abuse, and personality disorders.

Precludes additional credit for NEUR 1201 (no longer offered).

Lecture three hours a week.

NEUR 1203 [0.5 credit]

Neuroscience of Mental Health and Neurological Disease

Clinical symptoms of neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Lectures three hours a week.

NEUR 2001 [0.5 credit]

Introduction to Research Methods in Neuroscience

A general introduction to research methodologies employed within neuroscience. Topics covered include research designs and techniques, basic descriptive statistics, and how to interpret and report research findings.

Precludes additional credit for PSYC 2000 and PSYC 2001.

Prerequisite(s): second-year standing.

Lecture three hours a week, online labs/tutorials.

NEUR 2002 [0.5 credit]

Introduction to Statistics in Neuroscience

A general introduction to statistical techniques employed within contemporary neuroscience. Topics covered include basic data analysis using descriptive and inferential statistics (t-tests, ANOVA, correlation, chi-square). Precludes additional credit for ENST 2006, GEOG 2006, PSYC 2002.

Prerequisite(s): PSYC 2001 or NEUR 2001.

Lectures three hours a week, online labs/tutorials.

NEUR 2003 [0.5 credit]

Introduction to Techniques in Neuroscience

Introduction to common techniques used in neuroscience research. Brain imaging, animal behaviour, electrophysiology, immunohistochemistry and microscopy, genomics, transgenics, cell culture, and DSM-IV-based clinical assessment.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures three hours a week.

NEUR 2004 [0.5 credit]

Fundamentals of Scientific Writing in Neuroscience

Introduction to various forms of scientific writing appropriate to neuroscience, with a focus in fundamental skills in scientific writing.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in a Neuroscience program and one of NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and workshops three hours a week.

NEUR 2201 [0.5 credit]**Cellular and Molecular Neuroscience**

Core principles in cellular and molecular neuroscience, including signal transmission along and between neurons, ion channels and transporters, intracellular signaling pathways, and regulation of gene expression.

Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered).

Prerequisite(s): Either NEUR 1201 and NEUR 1203, or NEUR 1202 and NEUR 1203, or both BIOL 1103 and BIOL 1104.

Lectures three hours a week, online labs.

NEUR 2202 [0.5 credit]**Neurodevelopment and Plasticity**

Core principles in nervous system development from embryogenesis to plasticity in the adult brain. Topics include neural induction, neurogenesis, apoptosis, neuronal migration and axon growth, synaptogenesis and synaptic pruning both under normal conditions and in psychopathology.

Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered).

Prerequisite(s): NEUR2201.

Lectures three hours a week, online labs.

NEUR 2801 [0.5 credit]**Neuroscience and Creativity**

Abnormal brain function associated with mental illness or substance abuse has been commonly depicted in or been the inspiration for important cultural works including movies, music, paintings and literature. The neurobiological basis of creativity in individuals with and without mental illness.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and seminars three hours a week.

NEUR 3001 [0.5 credit]**Data Analysis in Neuroscience I**

Introducing software for analyzing neuroscience data. Drawing graphs, correlations, regression, with a focus on the appropriate use of statistical methods and interpretation of results.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001 and PSYC 2002, or NEUR 2001 and NEUR 2002.

Lectures three hours a week, online labs/workshops.

NEUR 3002 [0.5 credit]**Data Analysis in Neuroscience II**

Use of software for analyzing neuroscience data. Various forms of ANOVA, and an introduction to nonparametric statistical tests; the appropriate use of statistical methods and interpretation of results.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3001.

Lectures three hours a week, online labs/workshops.

NEUR 3203 [0.5 credit]**Field Course in Animal Behaviour**

Offered in the Department of Biology as BIOL 3605. Only those modules dealing with animal behaviour topics may be offered for Neuroscience credit.

Includes: Experiential Learning Activity

Also listed as BIOL 3605.

Precludes additional credit for PSYC 3203.

Prerequisite(s): permission of the department.

NEUR 3204 [0.5 credit]**Neuropharmacology**

Introduction to synaptic mechanisms and the arrangements of the transmitter-specific brain systems, followed by a discussion of neuro-pharmacological bases of normal and abnormal behaviour and of the behavioural effects of various classes of psychoactive drugs such as stimulants, tranquilizers, opiates.

Precludes additional credit for PSYC 3204 (no longer offered).

Prerequisite(s): NEUR 2200 or NEUR 2201.

Lectures and seminars three hours a week.

NEUR 3206 [0.5 credit]**Sensory and Motor Neuroscience**

Exploration of major topics in sensory processing and motor control, with a focus on underlying mechanisms and neurobiological principles. Topics include all sensory systems (such as vision, somatosensation and audition) plus motor system components including lower and upper motor neurons, basal ganglia, and cerebellum.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 3200 (no longer offered), NEUR 3200 (no longer offered), PSYC 3202 (no longer offered) and NEUR 3202 (no longer offered).

Prerequisite(s): NEUR 1201 or both NEUR 1202 and NEUR 1203, and either NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week, laboratory three hours a week.

NEUR 3207 [0.5 credit]**Systems Neuroscience**

Neural systems underlying complex behaviours including emotion, motivation, and sleep, and the role of association cortices in brain function.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 3200 (no longer offered) and PSYC 3200 (no longer offered).

Prerequisite(s): NEUR 1201 or both NEUR 1202 and NEUR 1203, and either NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week, laboratory three hours a week.

NEUR 3301 [0.5 credit]**Genetics of Mental Health**

Most common mental health diseases have a genetic component. By focusing on specific diseases, this course will discuss how disease susceptibility genes are identified, and describe the genetic, genomic and epigenetic mechanisms through which DNA alterations can predispose to disease.

Prerequisite(s): BIOL 2104 or BIOL 2107, and NEUR 2200 or NEUR 2201.

Lectures three hours a week.

NEUR 3303 [0.5 credit]**The Neuroscience of Consciousness**

Consciousness remains one of the least understood aspects of the nervous system. This course explores neural mechanisms underlying consciousness, changes in consciousness associated with sleep, coma, vegetative states, drugs, and other stimuli, and considers the evolutionary basis of consciousness, and its relationship with awareness.

Prerequisite(s): NEUR 2200 or NEUR 2202.

Lectures three hours a week.

NEUR 3304 [0.5 credit]**Hormones and Behaviour**

The effects of hormones throughout life at all levels of the nervous system. The role of hormones in mediating behaviours that are both basic (feeding, reproduction and social interactions) and complex (motivation, emotion, learning and memory).

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3401 [0.5 credit]**Environmental Toxins and Mental Health**

Exposure to environmental toxins from the air, water or food can interfere with neuronal function, alter neurodevelopment, and damage the brain. This course will explore associations between toxins and diseases such as Parkinson's disease, multiple sclerosis and depression, focusing on mechanisms underlying development of pathology.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3402 [0.5 credit]**Impact of Lifestyle and Social Interactions on Mental Health**

Healthy lifestyle choices and positive social interactions can reduce the incidence of pathological conditions such as depression, obesity, cardiovascular disease and impaired immunity. This course focuses on psychosocial and neurobiological mechanisms that underlie the relationship between lifestyle, social interactions and health.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3403 [0.5 credit]**Stress and Mental Health**

Stressful events can have profound repercussions on physical and psychological well-being. This course examines the psychosocial and biological processes by which stressors predispose to both physical (immune-related disorders, diabetes, heart disease) and psychological (acute stress disorder, posttraumatic stress disorder, depression, anxiety) pathologies.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3501 [0.5 credit]**Neurodegeneration and Aging**

Neurodegeneration is particularly acute in the aging population, and is characteristic of diseases such as Alzheimer's, Parkinson's, multiple sclerosis and Huntington's disease. This course will explore mechanisms underlying neurodegeneration, plus recent advances aimed at the restoration of nervous tissue, potentially curing these pathologies.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3502 [0.5 credit]**Neurodevelopmental Determinants of Mental Health**

Development of the human brain, the generation and differentiation of the various cell types, and the formation of the vast network of neural connections. How neurodevelopmental dysregulation can result in pathologies including dyslexia, ADHD, schizophrenia and autism.

Prerequisite(s): NEUR 2200, or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

NEUR 4001 [0.5 credit]**Special Topics in Neuroscience**

Each section of NEUR 4001 deals with a different topic. Topics change yearly. Students may register in more than one section of NEUR 4001 but can register in each section only once.

Prerequisite(s): NEUR 3200, or NEUR 3204 and NEUR 3206 and NEUR 3207, or permission of the Department.

Lectures three hours a week.

NEUR 4200 [0.5 credit]**Seminar on Current Advances in Neuroscience**

Headline research in neuroscience. Topics may include technical and conceptual advances, ethical issues, medical improvement, and social impacts of neuroscience research.

Precludes additional credit for PSYC 4200 (no longer offered).

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminar three hours a week.

NEUR 4202 [0.5 credit]**Seminar on Current Research in Neuroscience and Psychiatric Disease**

Recent research in clinical neuroscience including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, substance abuse, and personality disorders.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminar three hours a week.

NEUR 4203 [0.5 credit]**Seminar on Current Research in Neuroscience and Clinical Neurology**

Recent research in neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminars three hours a week.

NEUR 4301 [0.5 credit]**Neurobiology of Energy Homeostasis**

Focus on neuroanatomical and molecular mechanisms underlying how mammals adapt to changes and challenges in the environment. Topics include regulation of feeding, energy expenditure, water balance, and temperature regulation.

Prerequisite(s): NEUR 3304.

Lectures three hours a week.

NEUR 4302 [0.5 credit]**Sex and the Brain**

Neurobiological processes behind reproductive behaviours in various animal species including humans. Evaluation of data concerning neurobiological differences between sexes, biological determinants of sexual orientation, and relating to neurobiology of sex disorders.

Precludes additional credit for NEUR 3302 (no longer offered).

Prerequisite(s): NEUR 3304.

Lectures three hours a week

NEUR 4303 [0.5 credit]**Indigenous Health & Mental Health**

The physical and mental health issues of Indigenous people in the context of the cultural, environmental, developmental and biological factors that contribute to comorbid conditions and greater risk and resilience.

Prerequisite(s): 3rd year standing or above.

Lectures three hours a week.

NEUR 4305 [0.5 credit]**Immune-Brain Interactions**

Communication between the brain and the immune system; messengers mediating the interaction. How disturbances of immune-brain signaling can lead to disease (multiple sclerosis, Parkinson's) and to changes in mood and cognition.

Precludes additional credit for NEUR 3305 (no longer offered).

Prerequisite(s): NEUR 3200 or NEUR 3207.

Lectures three hours a week.

NEUR 4306 [0.5 credit]**The Neural Basis of Addiction**

How substance and behavioural addictions impact neural function to ultimately lead to the neuropathology of addiction in vulnerable populations. Contemporary neurobiological theories of addiction will also be addressed.

Precludes additional credit for NEUR 3306.

Prerequisite(s): NEUR 3204.

Lecture three hours a week.

NEUR 4600 [0.5 credit]**Advanced Lab in Neuroanatomy**

Advanced experiential learning in neuroanatomy, histology and microscopy.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3200 or both NEUR 3206 and

NEUR 3207, fourth-year standing in a Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.

NEUR 4801 [0.5 credit]**Neuroethics**

Ethical issues of key importance to current neurobiological research. Topics may include the use of animals in research, stem cell research, genetic diagnosis and gene therapy, neuroimaging, and the effect on identity and autonomy of manipulations such as psychopharmaceuticals and psychosurgery.

Prerequisite(s): NEUR 3200 or both NEUR 3206 and NEUR 3207.

Lectures and seminars three hours a week.

NEUR 4900 [0.5 credit]

Independent Study

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally students may not offer more than one credit of independent study in their total program.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth- year standing and permission of the Department.

NEUR 4905 [1.0 credit]

Honours Workshop

The course will focus on active learning in areas that include written and oral communication, evaluation and interpretation of results, statistics and data management, emphasizing transferable skills that will be most appropriate for non-research career paths.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4907 and NEUR 4908.

Prerequisite(s): fourth-year standing in an Honours Neuroscience program and permission of the Department.

Lectures and seminars three hours a week, and colloquia three hours a week.

NEUR 4907 [1.0 credit]

Honours Essay and Research Proposal

An independent essay based critical review and research proposal on a topic in neuroscience, using library resources, under the direct supervision of a Faculty advisor. Evaluation is based on a written report.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4905 and NEUR 4908.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.

Seminar three hours a week and colloquia three hours a week.

NEUR 4908 [1.0 credit]

Honours Research Thesis

An independent research project undertaken under the direct supervision of a faculty advisor typically from the Department of Neuroscience. Evaluation is based on a written report and poster.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4905 and NEUR 4907.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum CGPA of 9.0 and permission of the Department.

Colloquia three hours a week.

Open Studies

This section presents the requirements for programs in:

- Open Studies Program Requirements B.A.
- Open Studies Program Requirements B.Sc.

Open Studies Program

Bachelor of Arts

Students can find it difficult to decide which thematic or discipline-specific program they want to take for their academic studies. The Open Studies program typically enables students to begin their studies with a broad set of topics to help them narrow their focus and transition into a thematic or discipline-specific program. The recommended course pattern for students is outlined *below*. Students are normally expected to apply to enter a thematic or discipline-specific program before beginning their second year of study and will be required to meet with an academic advisor at the Academic Advising Centre who will offer support in making this decision.

Advanced standing entry into the B.A. Open Studies program is restricted. Please consult with an academic advisor for more information.

Academic Standing for Open Studies Programs

For purposes of Academic Performance Evaluation, students in Open Studies programs are assessed using only the Overall CGPA.

First-year Course Selection for B.A. Open Studies Students

To give themselves the greatest range of choices and transition to a more specific program, first-year Open Studies B.A. students should conform to the following guidelines in selecting their initial courses.

Open Studies B.A. students should register in:

1. A B.A. First-year seminar (FYSM);
2. Courses in at least three different disciplines leading to programs within the Faculty of Arts and Social Sciences or the Faculty of Public Affairs.

Open Studies Program Requirements B.A. (15.0 credits)

Enrolment in the B.A. Open Studies program is restricted. Please consult with an academic advisor for more information.

1. 6.0 credits from disciplines in the Faculty of Arts and Social Sciences or the Faculty of Public Affairs	6.0
2. 9.0 credits in free electives	9.0
Total Credits	15.0

Notes:

1. Students must complete 2.0 credits at the 3000 level or above;
2. Subject to individual program restrictions, students may be eligible to declare a Minor.

In addition to the requirements presented here, students must satisfy the Bachelor of Arts regulations, including the Breadth Requirement, and University regulations common to all undergraduate students, including the Minimum Number of Carleton Credits (Residency and Advanced credits), the Maximum Number of Credits Below the 2000-level, and the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

Open Studies Program Bachelor of Science

Students can find it difficult to decide which thematic or discipline-specific program they want to take for their academic studies. The Open Studies program enables students to begin their studies with a broad set of topics to help them narrow their focus and transition into a thematic or discipline-specific program. The recommended course pattern for students is outlined *below*. Students are normally expected to apply to enter a thematic or discipline-specific program before beginning their second year of study and will be required to meet with an academic advisor at the Academic Advising Centre who will offer support in making this decision.

Advanced standing entry into the B.Sc. Open Studies program is restricted. Please consult with an academic advisor for more information.

Academic Standing for Open Studies Programs

For purposes of Academic Performance Evaluation, students in Open Studies programs are assessed using only the Overall CGPA.

First-year Course Selection for B.Sc. Open Studies Students

To give themselves the greatest range of choices and transition to a more specific program, first-year Open Studies B.Sc. students should conform to the following guidelines in selecting their initial courses.

Open Studies B.Sc. students should register in:

1. 2.0 credits in Experimental Science	2.0
2. 1.0 credit in Mathematics	1.0
3. 1.0 credit in Mathematics, Experimental Science or Computer Science	1.0
4. 1.0 credit chosen from:	1.0
NSCI 1000 [0.5] Seminar in Science	
and/or approved courses outside the faculties of Science and Engineering and Design	
Total Credits	5.0

Course Categories

Experimental Science Courses

Biology

BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II

Chemistry

CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II

Earth Sciences

ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics

PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion

PHYS 1007 [0.5] Elementary University Physics I

PHYS 1008 [0.5] Elementary University Physics II

Appropriate Mathematics Courses

Calculus

MATH 1007 [0.5] Elementary Calculus I

Algebra

MATH 1107 [0.5] Linear Algebra I

Appropriate Computer Science Courses

COMP 1005 [0.5] Introduction to Computer Science I

COMP 1006 [0.5] Introduction to Computer Science II

Approved Courses Outside the Faculties of Science and Engineering and Design

Approved courses outside the faculties of Science and Engineering and Design are specified in the *Academic Regulations for the Bachelor of Science Degree* section of this Calendar.

Open Studies Program Requirements B.Sc. (15.0 credits)

Enrolment in the B.Sc. Open Studies programs is restricted. Please consult with an academic advisor for more information.

1. 6.0 credits from disciplines in the Faculty of Science or the Faculty of Engineering and Design	6.0
2. 9.0 credits in free electives	9.0
Total Credits	15.0

Notes:

1. Students must complete 2.0 credits at the 3000 level or above;
2. Subject to individual program restrictions, students may be eligible to declare a Minor.

In addition to the requirements presented here, students must satisfy the Bachelor of Science regulations, including the Breadth and Experimental Science Requirements, and University regulations common to all undergraduate students, including the Minimum Number of Carleton Credits (Residency and Advanced credits), the Maximum Number of Credits Below the 2000-level, and the process of Academic Performance Evaluation (consult the Academic Regulations of the University section of this Calendar).

Philosophy

This section presents the requirements for programs in:

- Philosophy B.A. Honours
- Philosophy with Concentration in Philosophy, Ethics and Public Affairs B.A. Honours
- Philosophy B.A. Combined Honours
- Philosophy B.A.
- Minor in Philosophy
- Mention : Français

Program Requirements

Course Categories for Philosophy

For purposes of program description the Philosophy courses are classified as follows.

History of Philosophy

PHIL 2005 [1.0]	Greek Philosophy and the Western Tradition
PHIL 2101 [0.5]	History of Ethics
PHIL 2201 [0.5]	Introduction to Marxist Philosophy
PHIL 2202 [0.5]	Topics in Marxist Philosophy
PHIL 2700 [0.5]	Asian Philosophy
PHIL 3000 [0.5]	Topics in Ancient Philosophy
PHIL 3001 [0.5]	Early Greek Philosophy
PHIL 3002 [0.5]	17th Century Philosophy
PHIL 3003 [0.5]	18th Century Philosophy
PHIL 3005 [0.5]	19th Century Philosophy
PHIL 3009 [0.5]	Topics in European Philosophy
PHIL 3010 [0.5]	Philosophical Traditions
PHIL 3104 [0.5]	The Roots of Analytic Philosophy
PHIL 3330 [0.5]	Topics in History of Social and Political Philosophy

Ethics, Society, and Aesthetics (ESA)

PHIL 2020 [0.5]	Issues in Practical Philosophy
PHIL 2101 [0.5]	History of Ethics
PHIL 2103 [0.5]	Philosophy of Human Rights
PHIL 2104 [0.5]	Computer Ethics
PHIL 2106 [0.5]	Information Ethics
PHIL 2201 [0.5]	Introduction to Marxist Philosophy
PHIL 2306 [0.5]	Philosophy and Feminism
PHIL 2307 [0.5]	Gender and Philosophy
PHIL 2380 [0.5]	Introduction to Environmental Ethics
PHIL 2408 [0.5]	Bioethics
PHIL 2601 [0.5]	Philosophy of Religion
PHIL 2807 [0.5]	Philosophy of Art
PHIL 2901 [0.5]	Truth and Propaganda
PHIL 3010 [0.5]	Philosophical Traditions
PHIL 3102 [0.5]	Philosophy of Law: The Logic of Law
PHIL 3320 [0.5]	Contemporary Ethical Theory
PHIL 3330 [0.5]	Topics in History of Social and Political Philosophy
PHIL 3340 [0.5]	Topics in Contemporary Social and Political Philosophy
PHIL 3350 [0.5]	Philosophy, Ethics, and Public Affairs
PHIL 3360 [0.5]	Philosophy, Economics, and Public Policy
PHIL 3380 [0.5]	Environments, Technology and Values
PHIL 3450 [0.5]	Topics in Aesthetics

Language, Mind and World (LMW)

PHIL 2010 [0.5]	Issues in Theoretical Philosophy
PHIL 2301 [0.5]	Introduction to the Philosophy of Science
PHIL 2405 [0.5]	Philosophy of the Paranormal

PHIL 2501 [0.5]	Introduction to Philosophy of Mind
PHIL 2504 [0.5]	Language and Communication
PHIL 2520 [0.5]	Introduction to Philosophical Logic
PHIL 2540 [0.5]	Personal Identity and the Self
PHIL 2550 [0.5]	Moral Psychology
PHIL 2601 [0.5]	Philosophy of Religion
PHIL 2901 [0.5]	Truth and Propaganda
PHIL 3005 [0.5]	19th Century Philosophy
PHIL 3010 [0.5]	Philosophical Traditions
PHIL 3104 [0.5]	The Roots of Analytic Philosophy
PHIL 3140 [0.5]	Epistemology
PHIL 3150 [0.5]	Metaphysics
PHIL 3301 [0.5]	Issues in the Philosophy of Science
PHIL 3306 [0.5]	Symbolic Logic
PHIL 3501 [0.5]	Philosophy of Cognitive Science
PHIL 3502 [0.5]	Mind and Action
PHIL 3504 [0.5]	Pragmatics
PHIL 3506 [0.5]	Semantics
PHIL 3530 [0.5]	Philosophy of Language

Philosophy Courses Open to First-Year Students

Please note that not all of these courses are offered each year.

PHIL 1000 [0.5]	Introductory Philosophy: Fields, Figures and Problems
PHIL 1100 [1.0]	Looking at Philosophy
PHIL 1200 [0.5]	The Meaning of Life
PHIL 1301 [0.5]	Mind, World, and Knowledge
PHIL 1500 [1.0]	Contemporary Moral, Social and Religious Issues
PHIL 1550 [0.5]	Introduction to Ethics and Social Issues
PHIL 1610 [0.5]	Great Philosophical Ideas, Part 1
PHIL 1620 [0.5]	Great Philosophical Ideas, Part 2
PHIL 1700 [0.5]	Philosophy of Love and Sex
PHIL 2001 [0.5]	Introduction to Logic
PHIL 2003 [0.5]	Critical Thinking

Philosophy

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 2.0 credits in:		2.0
PHIL 2005 [1.0]	Greek Philosophy and the Western Tradition	
PHIL 3002 [0.5]	17th Century Philosophy	
PHIL 3003 [0.5]	18th Century Philosophy	
2. 1.0 credit in:		1.0
PHIL 2010 [0.5]	Issues in Theoretical Philosophy	
PHIL 2020 [0.5]	Issues in Practical Philosophy	
3. 0.5 credit from:		0.5
PHIL 2001 [0.5]	Introduction to Logic	
PHIL 2003 [0.5]	Critical Thinking	
4. 1.5 credits in Ethics, Society and Aesthetics at the 2000-level or higher		1.5
5. 1.5 credits in Language, Mind and World at the 2000-level or higher		1.5
6. 1.5 credits in PHIL		1.5

7. 2.0 credits in PHIL at the 4000-level or higher	2.0
B. Credits Not Included in the Major CGPA (10.0 credits)	
8. 8.0 credits not in PHIL	8.0
9. 2.0 credits in free electives	2.0
Total Credits	20.0

Philosophy with Concentration in Philosophy, Ethics and Public Affairs

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 1.0 credit in:	1.0
PHIL 2010 [0.5] Issues in Theoretical Philosophy	
PHIL 2020 [0.5] Issues in Practical Philosophy	
2. 2.0 credits from:	2.0
PHIL 2101 [0.5] History of Ethics	
PHIL 3320 [0.5] Contemporary Ethical Theory	
PHIL 3330 [0.5] Topics in History of Social and Political Philosophy	
PHIL 3340 [0.5] Topics in Contemporary Social and Political Philosophy	
PHIL 3350 [0.5] Philosophy, Ethics, and Public Affairs	
PHIL 3360 [0.5] Philosophy, Economics, and Public Policy	
3. 2.0 credits in Philosophy from:	2.0
PHIL 1500 [1.0] Contemporary Moral, Social and Religious Issues (satisfies two of four requirements)	
PHIL 1550 [0.5] Introduction to Ethics and Social Issues	
PHIL 2103 [0.5] Philosophy of Human Rights	
PHIL 2104 [0.5] Computer Ethics	
PHIL 2106 [0.5] Information Ethics	
PHIL 2201 [0.5] Introduction to Marxist Philosophy	
PHIL 2202 [0.5] Topics in Marxist Philosophy	
PHIL 2306 [0.5] Philosophy and Feminism	
PHIL 2307 [0.5] Gender and Philosophy	
PHIL 2380 [0.5] Introduction to Environmental Ethics	
PHIL 2408 [0.5] Bioethics	
PHIL 2901 [0.5] Truth and Propaganda	
4. 1.5 credits in History of Philosophy	1.5
5. 1.0 credit in Language, Mind and World	1.0
6. 2.0 credits in PHIL at the 4000 level or above	2.0
7. 2.5 credits in PHIL	2.5

B. Credits Not Included in the Major CGPA (8.0 credits)

Please note that some of the following courses may have PSCI prerequisites.

8. 1.0 credit in:	1.0
PSCI 2301 [0.5] History of Political Thought I	
PSCI 2302 [0.5] History of Political Thought II	
9. 2.0 credits from:	2.0
PSCI 3109 [0.5] The Politics of Law and Morality	
PSCI 3300 [0.5] Politics and Literature	
PSCI 3302 [0.5] Comparative Political Thought	
PSCI 3303 [0.5] Feminist Political Theory	
PSCI 3307 [0.5] Politics of Human Rights	

PSCI 3308 [0.5] Modern Political Thought	
PSCI 3309 [0.5] Modern Ideologies	
PSCI 3311 [0.5] History of Muslim Political Thought	
PSCI 3312 [0.5] Enlightenment Political Thought	
PSCI 3709 [0.5] Ancient and Medieval Political Thought	
PSCI 4302 [0.5] Political Thought in the Modern Muslim Middle East	
PSCI 4311 [0.5] Political Theories of Democracy and Empire I	
PSCI 4312 [0.5] Political Theories of Democracy and Empire II	

10. 2.0 credits not in PHIL	2.0
11. 3.0 credits in free electives	3.0
Total Credits	20.0

Philosophy

B.A. Combined Honours (20.0 credits)

Combined Honours programs are available in Philosophy with any other Carleton program that allows for Combined Honours and can accommodate 7.0 credits in Philosophy.

A. Credits Included in the Philosophy CGPA (7.0 credits)

1. 1.5 credits in:	1.5
History of Philosophy or	
HUMS 2000 [1.0] Reason and Revelation (and .5 credit in History of Philosophy, only applicable to B.Hum)	
2. 1.0 credit in:	1.0
PHIL 2010 [0.5] Issues in Theoretical Philosophy	
PHIL 2020 [0.5] Issues in Practical Philosophy	
3. 0.5 credit from:	0.5
PHIL 2001 [0.5] Introduction to Logic	
PHIL 2003 [0.5] Critical Thinking	
4. 1.0 credit in Language, Mind, and World	1.0
5. 1.0 credit in Ethics, Society and Aesthetics	1.0
6. 1.0 credit in PHIL at the 4000-level or above	1.0
7. 1.0 credit in PHIL or 1.0 credit from:	1.0
FYSM 1210 [0.5] Special Topics in Philosophy	
FYSM 1211 [0.5] Looking at Philosophy	
FYSM 1212 [0.5] Contemporary Moral, Social, and Religious Issues	
FYSM 1300 [1.0] History of Philosophy	

B. Additional Credit Requirements (13.0 credits): 13.0

8. The requirements of the other discipline must be satisfied

9. Sufficient free electives to make 20.0 credits in total for the program

Total Credits	20.0
----------------------	-------------

Philosophy

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 1.0 credit in History of Philosophy	1.0
2. 1.0 credit in PHIL, which may be satisfied by:	1.0
FYSM 1210 [0.5] Special Topics in Philosophy	
FYSM 1211 [0.5] Looking at Philosophy	
FYSM 1212 [0.5] Contemporary Moral, Social, and Religious Issues	

FYSM 1300 [1.0]	History of Philosophy	
3. 0.5 credit from:		0.5
PHIL 2001 [0.5]	Introduction to Logic	
PHIL 2003 [0.5]	Critical Thinking	
4. 0.5 credit in 3000-level or higher PHIL		0.5
5. 3.0 credits in 2000-level or higher PHIL		3.0
B. Credits Not Included in the Major CGPA (9.0 credits)		
6. 6.0 credits not in PHIL		6.0
7. 3.0 credits in free electives		3.0
Total Credits		15.0

Minor in Philosophy (4.0 credits)

Requirements

1. 2.0 credit in PHIL at the 2000-level or above		2.0
2. 0.5 credit from:		0.5
PHIL 2001 [0.5]	Introduction to Logic	
PHIL 2003 [0.5]	Critical Thinking	
3. 0.5 credit in PHIL at the 3000-level or above		0.5
4. 1.0 credit in PHIL or 1.0 credit from:		1.0
FYSM 1210 [0.5]	Special Topics in Philosophy	
FYSM 1211 [0.5]	Looking at Philosophy	
FYSM 1212 [0.5]	Contemporary Moral, Social, and Religious Issues	
FYSM 1300 [1.0]	History of Philosophy	
5. The remaining requirements of the major discipline(s) and degree must be satisfied		
Total Credits		4.0

Mention : Français (4.0 credits)

Students in the B.A. (Honours) or B.A. (General) program in Philosophy may qualify for the notation *Mention : Français* by fulfilling the requirements outlined below. Those wishing to pursue this option should consult with the Department's Undergraduate Supervisor, whose approval is required for all courses under *Mention : Français*.

Philosophy courses presented in fulfilment of *Mention : Français* requirements can double as courses to satisfy Philosophy B.A. (General) or B.A. (Honours) requirements.

To graduate with the notation *Mention : Français*, Philosophy students must include in their program the following:

1. 1.0 credit in French language chosen in consultation with the French Department to perfect the student's French language skills.		1.0
2. 1.0 credit taught in French at Carleton and concerned with the study of the heritage and culture of French Canada		1.0
3. 1.0 credit from:		1.0
PHIL 3901 [0.5]	Independent Study	
PHIL 3902 [0.5]	Independent Study	
PHIL 3903 [0.5]	Independent Study	
PHIL 3906 [0.5]	Independent Study	
PHIL 3907 [0.5]	Independent Study	
PHIL 3908 [0.5]	Independent Study	

with philosophical works read in French and papers submitted in French to be assessed by two members of the Philosophy Department knowledgeable in the language, or 1.0 credit in Philosophy at the 3000-level taught in French at another university and acceptable to the Philosophy Department. In addition, Philosophy students in B.A. Honours or Combined Honours must include:

4. 1.0 credit from special projects:		1.0
PHIL 4900 [1.0]	Tutorial	
PHIL 4901 [0.5]	Tutorial	
PHIL 4902 [0.5]	Tutorial	
PHIL 4903 [0.5]	Tutorial	
PHIL 4904 [0.5]	Tutorial	
PHIL 4906 [0.5]	Tutorial	

in French, supervised by a member of the Department of Philosophy, or earned in a Philosophy seminar or seminars at the 4000-level taught in French at another university and acceptable to the Philosophy Department. Students must, in addition, satisfy the Honours requirement of 2.0 Carleton credits at the 4000-or 5000-level in Philosophy (1.0 for Combined Honours).

5. Combined Honours students must meet the Mention : Français requirements of both Honours disciplines.

Total Credits	4.0

Philosophy (PHIL) Courses

PHIL 1000 [0.5 credit]

Introductory Philosophy: Fields, Figures and Problems

What is metaphysics? Who was Socrates? What is Freedom? This introduction sketches many branches of philosophy and the important problems associated with each. It introduces great philosophers, present and past, and traces enduring philosophical themes.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211, PHIL 1100. This course is not suitable for students with previous formal study of philosophy.

PHIL 1100 [1.0 credit]

Looking at Philosophy

Introduction to philosophy: the nature of logical thinking; the existence of God; the objectivity of values; the meaning of life; free will, determinism and responsibility; the relation between mind and body; immortality; the possibility of knowledge. This course is not intended for Majors.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211 and PHIL 1000.

Lectures three hours a week.

PHIL 1200 [0.5 credit]**The Meaning of Life**

An introduction to concerns expressed by the perennial philosophical question, "What is the meaning of life?" Students will be familiarized with the major philosophical approaches to life's meaning through a consideration of various contemporary and late modern works in the philosophy of life.

Lectures three hours a week.

PHIL 1301 [0.5 credit]**Mind, World, and Knowledge**

Introduction to a variety of philosophical works, including contemporary, on such topics as: the nature of being, the mental, the external, consciousness, perception, experience, meaning, truth, the nature of knowledge, scientific understanding, and how language and thought represent the world.

Precludes additional credit for PHIL 1006 (no longer offered), PHIL 1501 (no longer offered).

Lectures three hours per week.

PHIL 1500 [1.0 credit]**Contemporary Moral, Social and Religious Issues**

Moral theories, atheism or theism, feminism, and free will. Moral arguments concerning abortion, affirmative action, racism, human rights, children's rights, world hunger, capital punishment, euthanasia, censorship, pornography, legal paternalism, animal rights and environmental protection.

Precludes additional credit for FYSM 1209 and PHIL 1550.

Lectures three hours a week.

PHIL 1550 [0.5 credit]**Introduction to Ethics and Social Issues**

An introduction to understanding, assessing, and formulating ethical arguments concerning controversial issues. Particular issues studied, such as world hunger, capital punishment, abortion, animal rights, terrorism, may vary each time the course is offered.

Precludes additional credit for FYSM 1209 and PHIL 1500.

Lectures three hours a week.

PHIL 1610 [0.5 credit]**Great Philosophical Ideas, Part 1**

Major figures and developments in philosophy from the early Greeks to the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments.

Precludes additional credit for FYSM 1300, PHIL 1600.

Lectures three hours a week.

PHIL 1620 [0.5 credit]**Great Philosophical Ideas, Part 2**

Major figures and developments in philosophy after the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments.

Precludes additional credit for FYSM 1300, PHIL 1600. Lectures three hours a week.

PHIL 1700 [0.5 credit]**Philosophy of Love and Sex**

A survey of philosophical classics, on themes of romantic love, self-love, altruistic love, sexuality, eroticism and the passion/reason dichotomy, from Plato's Symposium to Foucault's History of Sexuality; and an examination of related contemporary issues in light of these perspectives.

Lectures three hours a week.

PHIL 2001 [0.5 credit]**Introduction to Logic**

An introduction to the techniques and philosophical implications of formal logic with emphasis on translation of expressions into symbolic form, testing for logical correctness, the formulation and application of rules of inference, and the relation between logic and language. Open to first-year students.

Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2003 [0.5 credit]**Critical Thinking**

Assessment of reasoning and the development of cogent patterns of thinking. Reference to formal logic is minimal. Practice in criticizing examples of reasoning and in formulating one's own reasons correctly and clearly. Open to first-year students.

Lectures three hours a week.

PHIL 2005 [1.0 credit]**Greek Philosophy and the Western Tradition**

The Greek tradition from its pre-Socratic beginnings to Hellenistic and Roman philosophy (Cynicism, Epicureanism, Stoicism, Scepticism); focus on Socrates, Plato, and Aristotle. Its conservation and reappropriation in the Middle Ages and Renaissance.

Also listed as CLCV 2105.

Precludes additional credit for PHIL 2006, CLCV 2006, PHIL 2007, CLCV 2007 (no longer offered).

Prerequisite(s): 0.5 credit in PHIL, or second-year standing.

Lectures three hours a week.

PHIL 2010 [0.5 credit]**Issues in Theoretical Philosophy**

Issues drawn from epistemology, metaphysics, philosophy of mind, philosophy of language, and related fields will be examined through careful study of significant philosophical texts after 1900, along with some ensuing debates.

Prerequisite(s): enrolment in Honours or Combined Honours Philosophy programs, or in philosophy, Ethics, and Public Affairs, or permission of the Department.

Lectures and discussion three hours a week.

PHIL 2020 [0.5 credit]**Issues in Practical Philosophy**

Issues drawn from ethics, social and political philosophy, and related fields will be examined through careful study of significant philosophical texts, along with some ensuing debates.

Includes: Experiential Learning Activity

Prerequisite(s): enrolment in Honours or Combined Honours Philosophy programs, or in philosophy, Ethics, and Public Affairs, or permission of the Department.

Lectures and discussion three hours a week.

PHIL 2101 [0.5 credit]**History of Ethics**

An introduction to ethical theories through a study of some of the major figures in moral philosophy, such as Aristotle, Hume, Kant and Mill.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2103 [0.5 credit]**Philosophy of Human Rights**

Philosophical introduction to human rights sources, concepts, justifications, consequences, and challenges to them. Evolution of selected human rights as a) demands made in political struggles; b) declarations supported by moral or political principles and arguments; c) codes ratified and implemented by governments and international organizations.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2104 [0.5 credit]**Computer Ethics**

Philosophical foundations of computer ethics. The ethical impact of computerization on intellectual property rights, the right to privacy, and freedom of expression; ethical issues of risk management and reliability; professional codes. Ethical problems posed by specific technologies and research areas may also be included.

Precludes additional credit for PHIL 2106.

Prerequisite(s): a course in philosophy or second-year standing. Primarily intended for Computer Science students.

Lectures three hours a week.

PHIL 2106 [0.5 credit]**Information Ethics**

Ethical aspects of the influence of information technology on intellectual property rights, privacy, free speech, work and society. Also included are an introduction to philosophical ethics and discussions of moral responsibilities of IT professionals, codes of professional ethics, hacker ethics, viruses and software piracy.

Precludes additional credit for PHIL 2104.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2201 [0.5 credit]**Introduction to Marxist Philosophy**

The evolution of Marx's social and political views in the setting of 18th - and 19th - century anarchism, liberalism and conservatism. Themes of humanism, freedom, rights, the state, democracy, alienation, and inequality, primarily as they develop into the theory of historical materialism.

Precludes additional credit for PHIL 2200.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2202 [0.5 credit]**Topics in Marxist Philosophy**

The dialectical materialism of Marx, Engels, and Lenin is compared with traditional materialist, idealist, and mechanist philosophy. Marxist views on issues such as equality, ethical objectivity, human well-being, matter and mind, the existence of God, knowledge versus skepticism, freedom of the will, and justice.

Precludes additional credit for PHIL 2200.

Prerequisite(s): PHIL 2201 or 0.5 credit in the history of philosophy at the 2000-level or above.

Lectures three hours a week.

PHIL 2301 [0.5 credit]**Introduction to the Philosophy of Science**

Philosophical issues arising out of the attempt to understand the world scientifically. Topics may include: scientific methodology, revolution, observation, explanation, causation, induction, reduction, the difference between natural and social scientific understanding, realism, instrumentalism, constructivism.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2306 [0.5 credit]**Philosophy and Feminism**

A study of philosophical issues arising from feminism. The course includes discussions of the relations between feminism, reason and ideological commitment, as well as critical evaluation of contemporary views on selected topics (e.g. abortion, pornography and censorship, affirmative action, and beauty).

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2307 [0.5 credit]**Gender and Philosophy**

Topics may include the role of gender categories in the history of philosophy, theories of gender and sexual orientation, the politics of gender and sexuality, the place of the body in philosophical theory, and the influence of gender and gender metaphors on science and medicine.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2380 [0.5 credit]**Introduction to Environmental Ethics**

Major questions in environmental ethics: How should human beings view their relationship to the rest of nature? Is responsible stewardship of the environment compatible with current technology? Must future generations be protected? Do animals, other life forms, endangered species, ecosystems and/or the biosphere have value/ rights?.

Precludes additional credit for PHIL 1804.

Lectures three hours a week.

PHIL 2405 [0.5 credit]**Philosophy of the Paranormal**

Examination of claims, concepts, theories and methods in parapsychology. Their scientific character and the relation of paranormal phenomena to philosophical issues such as survival of death, human nature, time, space, causality and perception.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2408 [0.5 credit]**Bioethics**

Ethical and political issues in medicine, public health, biotechnology, and the life sciences. Topics may include reproductive ethics, research on human subjects, animal research and treatment, justice and health care, physician-patient relationships, death and the end of life, and genetic engineering.

Precludes additional credit for PHIL 3408.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2501 [0.5 credit]**Introduction to Philosophy of Mind**

An introduction to major philosophical issues concerning human cognition. Topics may include: the relation of mind to body, knowledge of other minds, the relation of mental states to personhood and personal identity, mental illness, consciousness, intentionality, action, mental realism.

Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2504 [0.5 credit]**Language and Communication**

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. The nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as COMS 2504, LING 2504.

Precludes additional credit for COMM 2800, LALS 2504, LALS 2800 and PHIL 2800.

Prerequisite(s): second-year standing.

Lectures three hours a week.

PHIL 2520 [0.5 credit]**Introduction to Philosophical Logic**

An introduction to features of rational thinking activity, its expression, and its relation to the world, focusing on such topics as predication, truth, negation, necessity, entailment, logical form, or quantification.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2540 [0.5 credit]**Personal Identity and the Self**

Philosophical perspectives on personal identity, the self, and the underlying issue of the relationship of the mind to the body. Both philosophical and psychological concepts of identity are discussed, as are related issues such as memory, introspection, and self-knowledge.

Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2550 [0.5 credit]**Moral Psychology**

An examination of psychological underpinnings of morality, focusing on studies at the intersection of philosophy, psychiatry, and psychology.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2601 [0.5 credit]**Philosophy of Religion**

A study of philosophical issues arising from religion. Topics may include: arguments for and against the existence of God, religious experience, death and the afterlife, miracles, God and evil, the relationship between religion and science, and the relationship between religion and ethics.

Also listed as RELI 2738.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2700 [0.5 credit]**Asian Philosophy**

An examination of South Asian and East Asian philosophical texts, from the period of the Upanishads and early Buddhism in India to modern philosophical movements. Historical sources may include Hindu, Buddhist, Jain, Confucian or Taoist texts, with a focus on metaphysical, epistemological or ethical themes.

Prerequisite(s): second-year standing.

Lectures three hours a week. May be offered as an online course in selected terms.

PHIL 2807 [0.5 credit]**Philosophy of Art**

Philosophical approaches to the study of art. Topics such as: the nature of art and artistic value; representation and symbolism in art; art and artifice; art and the emotions; art, culture and ideology; post-structuralism and art; theories of creativity; relationship between artworks and audiences.

Also listed as ARTH 2807.

Lecture three hours a week.

PHIL 2901 [0.5 credit]**Truth and Propaganda**

Ancient and modern techniques of persuasion from analytical, ethical and jurisprudential perspectives.

Objectivity and bias, advertising and public relations ethics, the viability of democracy in the light of pressures on and within the modern mass media.

Precludes additional credit for PHIL 2900 (no longer offered).

Prerequisite(s): 0.5 credit in PHIL or second-year standing.

Lectures three hours per week.

PHIL 3000 [0.5 credit]**Topics in Ancient Philosophy**

A study of philosophers, texts, problems and issues in ancient philosophy, generally with a focus on Plato and Aristotle.

Also listed as CLCV 3011.

Prerequisite(s): 0.5 credit in philosophy and second-year standing, or permission of the department.

Lectures three hours a week.

PHIL 3001 [0.5 credit]**Early Greek Philosophy**

A study of the pre-Socratic Greek philosophers and of the Sophists and Socrates.

Also listed as CLCV 3001.

Prerequisite(s): CLCV 2105 or PHIL 2005 or permission of the Department.

Lectures three hours a week.

PHIL 3002 [0.5 credit]**17th Century Philosophy**

European philosophy of the 17th century. Representative works of writers such as Francis Bacon, Descartes, Spinoza, Leibniz, and Locke.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 3003 [0.5 credit]**18th Century Philosophy**

European philosophy of the 18th century. Representative works of writers such as Berkeley, Hume, and Kant.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 3005 [0.5 credit]**19th Century Philosophy**

European philosophy in the 19th century. May include Hegel, Marx, Schopenhauer, Kierkegaard, Nietzsche, Mill. Precludes additional credit for PHIL 3007.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the Department.

Lectures three hours a week.

PHIL 3009 [0.5 credit]**Topics in European Philosophy**

A study of philosophers, texts, problems and issues in any period of European philosophy.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3010 [0.5 credit]**Philosophical Traditions**

A study of philosophers, texts, and doctrines beyond the Western tradition. Traditions covered will vary but may include Asian, African, Muslim or Aboriginal philosophy, possibly with critical comparison to Western counterparts. Precludes additional credit for PHIL 2004.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

PHIL 3102 [0.5 credit]**Philosophy of Law: The Logic of Law**

Legal reasoning and analysis of concepts of particular significance to the law, including justice, rights and duties, liability, punishment, ownership and possession.

Also listed as LAWS 3102.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 3104 [0.5 credit]**The Roots of Analytic Philosophy**

In the context of the work of such writers as Frege and Bradley, a discussion of early philosophical works of Russell, Moore and Wittgenstein. In addition some early representatives of positivism and pragmatism may be examined.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures and seminar three hours a week.

PHIL 3140 [0.5 credit]**Epistemology**

Fundamental issues concerning the relation between evidence, rationality, and knowledge. Topics may include: skepticism, the nature of belief, the structure of justification, the relative contributions of reason and sense experience to knowledge, innate knowledge, the problem of induction, and the knowledge of other minds.

Precludes additional credit for PHIL 2300.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program or permission of the department.

PHIL 3150 [0.5 credit]**Metaphysics**

Philosophical issues concerning the fundamental nature of being. Topics may include: time and temporality, space, substance, universals/particulars, identity, causation, freedom/determinism, the nature of norms.

Precludes additional credit for PHIL 2302.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program, or permission of the department.

PHIL 3301 [0.5 credit]**Issues in the Philosophy of Science**

Selected topic(s) in the philosophy of science or in the philosophy of a particular science (such as philosophy of mathematics, philosophy of physics, philosophy of biology, and philosophy of the social sciences).

Prerequisite(s): PHIL 2301 or permission of the department.

Lectures three hours a week.

PHIL 3306 [0.5 credit]**Symbolic Logic**

A review of the basic techniques of propositional and predicate logic. Natural deduction and consistency trees. Soundness and completeness. Alternative semantics. Extensions to basic logic: identity, modal logic with possible world semantics, three valued systems, deontic logic.

Precludes additional credit for PHIL 3305.

Prerequisite(s): PHIL 2001 or permission of the Department.

Lectures three hours a week.

PHIL 3320 [0.5 credit]**Contemporary Ethical Theory**

Critical study of modern ethical theories, their views on the nature of morality and the justification of moral claims. Topics may include utilitarianism, libertarianism, communitarianism, egoism, neo-Kantianism, virtue ethics, social contract ethics, feminist ethics, and moral rights.

Precludes additional credit for PHIL 2102.

Prerequisite(s): PHIL 2020 or PHIL 2101 or permission of the department.

Lectures three hours a week.

PHIL 3330 [0.5 credit]**Topics in History of Social and Political Philosophy**

A critical examination of selected topics and perspectives in the history of social and political philosophy.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3340 [0.5 credit]**Topics in Contemporary Social and Political Philosophy**

A critical examination of some contemporary approaches to topics in social and political philosophy, such as liberalism, feminism, contractarianism, Marxism, libertarianism, and communitarianism.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3350 [0.5 credit]**Philosophy, Ethics, and Public Affairs**

Advanced study of a set of public policy issues, a particular theory or group of theories, or a particular philosopher, concerning philosophical and ethical aspects of public affairs.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3360 [0.5 credit]**Philosophy, Economics, and Public Policy**

The course explores issues at the intersection of philosophy and economics, with a special focus on socially and politically relevant issues. Topics may include: efficiency, cooperation, equity and distributive justice, commodification and the moral limits of markets.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3380 [0.5 credit]**Environments, Technology and Values**

Advanced treatment of ethical issues concerning technologies and environments, including: sustainable development, women and the environment, biological diversity, intrinsic or natural value or rights of non-humans, humans' relation to the rest of the natural world, obligations to future generations, liberty versus equality.

Precludes additional credit for PHIL 2804.

Prerequisite(s): PHIL 1804 or PHIL 2380 and third-year standing, or permission of the Department.

Lectures three hours a week.

PHIL 3450 [0.5 credit]**Topics in Aesthetics**

Topics may include theories of aesthetic norms and valuation from ancient Greece onward, or applications of aesthetic theory to various genres of art.

Precludes additional credit for PHIL 2400, PHIL 3400, PHIL 3401, and PHIL 3402.

Prerequisite(s): At least 0.5 credit in philosophy, or HUMS 1000, or ARTH 2807, or permission of the Department.

Seminar two hours a week.

PHIL 3501 [0.5 credit]**Philosophy of Cognitive Science**

Philosophical issues arising from cognitive science.

Topics may include: the proper methodology for studying the mind, the very possibility of a "science of mind", the computer model of the mind and reactions to it.

Prerequisite(s): PHIL 2501 or PHIL 2502 or second-year standing in Cognitive Science, or permission of the department.

PHIL 3502 [0.5 credit]**Mind and Action**

Philosophical thought concerning the relation between mentality and agency. Topics may include: the relation between belief, desire, and behaviour; rationality and normativity; representing and doing; subjectivity and intersubjectivity; physical and psychological laws; mental causation. Authors may include: Wittgenstein, Heidegger, Ryle, Sellars, Anscombe, Davidson, Taylor, McDowell.

Prerequisite(s): PHIL 2501 or PHIL 2502, or permission of the Department.

PHIL 3504 [0.5 credit]**Pragmatics**

The study of language use in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as LING 3504.

Precludes additional credit for LALS 2800 [1.0], LALS 3504, MCOM 2800 [1.0], MCOM 3504 and PHIL 2800 [1.0].

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/LING 3505/PHIL 3506; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3506 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as LING 3505.

Precludes additional credit for LALS 3505.

Prerequisite(s): third-year standing, and one of LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or PHIL/LALS/LING 3504; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3530 [0.5 credit]**Philosophy of Language**

An intensive introduction to philosophy of language. Topics may include meaning, reference and truth, speech acts, the nature of concepts, language learning, metaphor, compositionality, context-sensitivity.

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/LING 3504 or LALS/LING 3505/PHIL 3506; or permission of the department.

Lectures three hours a week.

PHIL 3901 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3902 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3903 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3906 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3907 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3908 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 4003 [0.5 credit]**Seminar in philosophy Before the Modern Period**

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4004 [0.5 credit]**Seminar in philosophy Before the Modern Period**

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4005 [0.5 credit]**Seminar in Modern Philosophy**

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4006 [0.5 credit]**Seminar in Modern Philosophy**

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4007 [0.5 credit]**Seminar in Contemporary Philosophy**

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4008 [0.5 credit]**Seminar in Contemporary Philosophy**

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4055 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Also listed as LING 4510.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506.

Also offered at the graduate level, with different requirements, as LING 5510 and PHIL 5660, for which additional credit is precluded.

Seminars three hours a week.

PHIL 4100 [0.5 credit]**Special Topic**

Detailed study of a special topic in philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5000, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4210 [0.5 credit]**Seminar in philosophy of Language or Linguistics**

Detailed study of selected issues or the work of selected philosophers in philosophy of language or on philosophical topics in linguistics.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4220 [0.5 credit]**Seminar in philosophy of Mind or Cognition**

Detailed study of selected issues or the work of selected philosophers in philosophy of mind or philosophical aspects of cognition.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4230 [0.5 credit]**Seminar in Metaphysics, Epistemology, or Philosophy of Science**

Detailed study of selected issues or the work of selected philosophers in metaphysics, epistemology, or philosophy of science.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5250, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4300 [0.5 credit]**Seminar in Ethical Theory or Meta-Ethics**

Detailed study of selected issues pertaining to ethical theory or issues of meta-ethics such as realism, relativism, moral knowledge.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5300, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4320 [0.5 credit]**Seminar in Ethics or Moral Philosophy**

Detailed study of selected issues in ethics or moral philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4330 [0.5 credit]**Seminar in Social or Political Philosophy**

Detailed study of selected issues in social or political philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4403 [0.5 credit]**Special Topic in Applied Ethics**

Detailed study of a special topic in applied ethics.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4404 [0.5 credit]**Special Topic in Applied Ethics**

Detailed study of a special topic in applied ethics.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4405 [0.5 credit]**Special Topic in Aesthetics or Philosophy of Art**

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4406 [0.5 credit]**Special Topic in Aesthetics or Philosophy of Art**

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4407 [0.5 credit]**Special Topic in Philosophy of Law**

Detailed study of a special topic in philosophy of law.

Also listed as LAWS 4103.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4408 [0.5 credit]**Special Topic in Philosophy of Law**

Detailed study of a special topic in philosophy of law.

Also listed as LAWS 4104.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4503 [0.5 credit]**Special Topic in Philosophy of Computing**

Detailed study of a special topic in philosophy of computing.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4504 [0.5 credit]**Special Topic in Philosophy of Computing**

Detailed study of a special topic in philosophy of computing.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Also listed as LING 4505.

Precludes additional credit for LALS 4507 (no longer offered).

Prerequisite(s): LALS 3505 or LING 3505 or PHIL 3506 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

PHIL 4603 [0.5 credit]**Special Topic in Feminist Philosophy**

Detailed study of a special topic in feminist philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4604 [0.5 credit]**Special Topic in Feminist Philosophy**

Detailed study of a special topic in feminist philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4606 [0.5 credit]**Special Topic in Continental Philosophy**

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4607 [0.5 credit]**Special Topic in Continental Philosophy**

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4701 [0.5 credit]**Special Topic in Logic**

Detailed study of a special topic in Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4702 [0.5 credit]**Special Topic in Logic**

Detailed study of a special topic in Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4703 [0.5 credit]**Special Topic in Philosophical Logic**

Detailed study of a special topic in Philosophical Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4704 [0.5 credit]**Special Topic in Philosophical Logic**

Detailed study of a special topic in Philosophical Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4900 [1.0 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4901 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4902 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4903 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4904 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4906 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

Physics

This section presents the requirements for programs in:

- Physics (Astrophysics Stream) B.Sc. Honours
- Physics (Experimental Stream) B.Sc. Honours
- Physics (Theory Stream) B.Sc. Honours
- Physics B.Sc. Major
- Applied Physics B.Sc. Honours
- Mathematics and Physics B.Sc. Double Honours
- Biology and Physics B.Sc. Combined Honours
- Chemistry and Physics B.Sc. Combined Honours
- Minor in Physics

The Department of Physics also offers the program: Engineering Physics - B.Eng. Consult the Engineering program section for details about this program.

Program Requirements

Course Categories for Physics

The program descriptions below make use of the following course categories, which are defined in the B.Sc. Regulations section.

- Approved Courses Outside the Faculties of Science and Engineering and Design
- Free Elective

Physics (Astrophysics Stream)

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 1.0 credit from:	1.0
PHYS 1001 [0.5]	Foundations of Physics I
& PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and
& PHYS 1004 [0.5]	Thermodynamics
	Introductory Electromagnetism and
	Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
& PHYS 1008 [0.5]	Elementary University Physics II
	(with an average grade of B- or
	higher)
2. 2.5 credits in:	2.5
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2203 [0.5]	Astronomy
PHYS 2305 [0.5]	Electricity and Magnetism
PHYS 2401 [0.5]	Thermal Physics
PHYS 2604 [0.5]	Modern Physics I
3. 5.0 credits in:	5.0
PHYS 3009 [0.5]	Third Year Physics Laboratory:
	Selected Experiments and
	Seminars with Observational
	Astronomy
PHYS 3308 [0.5]	Electromagnetism
PHYS 3606 [0.5]	Modern Physics II
PHYS 3701 [0.5]	Elements of Quantum Mechanics
PHYS 3802 [0.5]	Advanced Dynamics
PHYS 3807 [0.5]	Mathematical Physics I
PHYS 4201 [0.5]	Astrophysics
PHYS 4202 [0.5]	Cosmology
PHYS 4409 [0.5]	Thermodynamics and Statistical
	Physics
PHYS 4707 [0.5]	Introduction to Quantum Mechanics
	I
4. 1.0 credit from:	1.0
a. PHYS 4907 plus 0.5 credit 4000-level PHYS	
b. PHYS 4908 plus 0.5 credit 4000-level PHYS	
c. PHYS 4909 [1.0]	
5. 0.5 credit in PHYS at the 4000-level or above	0.5
6. 0.5 credit in PHYS, COMP, MATH and/or STAT at the 3000-level or above	0.5
B. Credits Not Included in the Major CGPA (9.5 credits)	
7. 1.0 credit from:	1.0
BIOL 1103 [0.5]	Foundations of Biology I
& BIOL 1104 [0.5]	Foundations of Biology II
CHEM 1001 [0.5]	General Chemistry I
& CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
& CHEM 1006 [0.5]	Elementary Chemistry II
ERTH 1006 [0.5]	Exploring Planet Earth
& EARTH 1009 [0.5]	The Earth System Through Time
8. 3.5 credits in:	3.5
MATH 1004 [0.5]	Calculus for Engineering or Physics

MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
MATH 2107 [0.5]	Linear Algebra II	
MATH 3705 [0.5]	Mathematical Methods I	
STAT 3502 [0.5]	Probability and Statistics	
9. 0.5 credit in:		0.5
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
10. 1.0 credits from:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
& COMP 1006 [0.5]	Introduction to Computer Science II	
or		
ECOR 1606 [0.5]	Problem Solving and Computers	
& ECOR 2606 [0.5]	Numerical Methods	
11. 0.5 credit at the 2000-level or higher in COMP, MATH, or PHYS		0.5
12. 0.5 credit in:		0.5
NSCI 1000 [0.5]	Seminar in Science (or approved courses outside the faculties of Science and Engineering and Design)	
Approved courses outside the faculties of Science and Engineering and Design		
13. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design		1.5
14. 1.0 credit in free electives		1.0
Total Credits		20.0

Physics (Experimental Stream)

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.0 credits)

1. 1.0 credit from:		1.0
PHYS 1001 [0.5]	Foundations of Physics I	
& PHYS 1002 [0.5]	Foundations of Physics II (recommended)	
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics	
	Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II (with an average grade of B- or higher)	
2. 2.0 credits in:		2.0
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics	
PHYS 2604 [0.5]	Modern Physics I	
3. 1.0 credit in:		1.0
ELEC 2501 [0.5]	Circuits and Signals	
ELEC 2507 [0.5]	Electronics I	
4. 4.5 credits in:		4.5
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	

PHYS 3701 [0.5]	Elements of Quantum Mechanics	
PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 3807 [0.5]	Mathematical Physics I	
PHYS 4409 [0.5]	Thermodynamics and Statistical Physics	
PHYS 4008 [0.5]	Fourth-Year Physics Laboratory: Selected Experiments and Workshop	
PHYS 4707 [0.5]	Introduction to Quantum Mechanics I	
5. 1.0 credit from:		1.0
a. PHYS 4907 [0.5] plus 0.5 credit 4000-level PHYS		
b. PHYS 4908 [0.5] plus 0.5 credit 4000-level PHYS		
c. PHYS 4909 [1.0]		
6. 1.0 credit in 4000-level or above PHYS (PHYS 4807 is recommended for 0.5 credit)		1.0
7. 0.5 credit in 3000-level or above PHYS, COMP, ELEC, MATH and/or STAT		0.5
B. Credits Not Included In the Major CGPA (9.0 credits)		
8. 1.0 credit from:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
& BIOL 1104 [0.5]	Foundations of Biology II	
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
ERTH 1006 [0.5]	Exploring Planet Earth	
& EARTH 1009 [0.5]	The Earth System Through Time	
9. 3.0 credits in:		3.0
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
MATH 3705 [0.5]	Mathematical Methods I	
STAT 3502 [0.5]	Probability and Statistics	
10. 0.5 credit in:		0.5
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
11. 1.0 credit from:		1.0
COMP 1005 [0.5]	Introduction to Computer Science I	
& COMP 1006 [0.5]	Introduction to Computer Science II	
or		
ECOR 1606 [0.5]	Problem Solving and Computers	
& ECOR 2606 [0.5]	Numerical Methods	
12. 0.5 credit at the 2000-level or higher in COMP, MATH, or PHYS		0.5
13. 0.5 credit from:		0.5
NSCI 1000 [0.5]	Seminar in Science	
Approved courses outside the faculties of Science and Engineering and Design		
14. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design		1.5
15. 1.0 credit in free electives		1.0
Total Credits		20.0

Physics (Theory Stream)

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 1.0 credit from: 1.0

PHYS 1001 [0.5] Foundations of Physics I
& PHYS 1002 [0.5] Foundations of Physics II
(recommended)

PHYS 1003 [0.5] Introductory Mechanics and
& PHYS 1004 [0.5] Thermodynamics
Introductory Electromagnetism and
Wave Motion

PHYS 1007 [0.5] Elementary University Physics I
& PHYS 1008 [0.5] Elementary University Physics II
(with an average grade of B- or
higher)

2. 2.0 credits in: 2.0

PHYS 2202 [0.5] Wave Motion and Optics

PHYS 2305 [0.5] Electricity and Magnetism

PHYS 2401 [0.5] Thermal Physics

PHYS 2604 [0.5] Modern Physics I

3. 4.5 credits in: 4.5

PHYS 3007 [0.5] Third Year Physics Laboratory:
Selected Experiments and
Seminars

PHYS 3308 [0.5] Electromagnetism

PHYS 3606 [0.5] Modern Physics II

PHYS 3701 [0.5] Elements of Quantum Mechanics

PHYS 3802 [0.5] Advanced Dynamics

PHYS 3807 [0.5] Mathematical Physics I

PHYS 4409 [0.5] Thermodynamics and Statistical
Physics

PHYS 4707 [0.5] Introduction to Quantum Mechanics
I

PHYS 4708 [0.5] Introduction to Quantum Mechanics
II

4. 1.0 credit from: 1.0

a. PHYS 4907 plus 0.5 credit 4000-level PHYS

b. PHYS 4908 plus 0.5 credit 4000-level PHYS

c. PHYS 4909 [1.0]

5. 1.0 credit in PHYS at the 4000-level or above 1.0

6. 1.0 credit in PHYS, COMP, MATH and/or STAT at the 3000-level or above 1.0

B. Credits Not Included in the Major CGPA (9.5 credits)

7. 1.0 credit from: 1.0

BIOL 1103 [0.5] Foundations of Biology I
& BIOL 1104 [0.5] Foundations of Biology II

CHEM 1001 [0.5] General Chemistry I
& CHEM 1002 [0.5] General Chemistry II

CHEM 1005 [0.5] Elementary Chemistry I
& CHEM 1006 [0.5] Elementary Chemistry II

ERTH 1006 [0.5] Exploring Planet Earth
& EARTH 1009 [0.5] The Earth System Through Time

8. 3.5 credits in: 3.5

MATH 1004 [0.5] Calculus for Engineering or Physics

MATH 1005 [0.5] Differential Equations and Infinite
Series for Engineering or Physics

MATH 1104 [0.5] Linear Algebra for Engineering or

PHYS 2202 [0.5] Wave Motion and Optics

PHYS 2305 [0.5] Electricity and Magnetism

PHYS 2401 [0.5] Thermal Physics

PHYS 2604 [0.5] Modern Physics I

3. 1.0 credit in approved computer science, engineering, mathematics or statistics electives at the 2000-level or higher which may include 0.5 credit 1000-level computer science 1.0

4. 2.0 credits in: 2.0

PHYS 3007 [0.5] Third Year Physics Laboratory:
Selected Experiments and
Seminars

PHYS 3308 [0.5] Electromagnetism

PHYS 3606 [0.5] Modern Physics II

or PHYS 3608 [0.5] Modern Applied Physics

PHYS 3701 [0.5] Elements of Quantum Mechanics

5. 1.0 credit in PHYS at the 4000-level 1.0

6. 1.5 credit in PHYS at the 3000-level or above 1.5

7. 0.5 credit in ELEC and/or science faculty electives (excluding TSES) at the 3000-level or above 0.5

B. Credits Not Included In the Major CGPA (11.0 credits)

8. 1.0 credit from:	1.0
BIOL 1103 [0.5] Foundations of Biology I & BIOL 1104 [0.5] Foundations of Biology II	
CHEM 1001 [0.5] General Chemistry I & CHEM 1002 [0.5] General Chemistry II	
CHEM 1005 [0.5] Elementary Chemistry I & CHEM 1006 [0.5] Elementary Chemistry II	
ERTH 1006 [0.5] Exploring Planet Earth & ERTH 1009 [0.5] The Earth System Through Time	
9. 3.0 credits in:	3.0
MATH 1004 [0.5] Calculus for Engineering or Physics	
MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5] Linear Algebra for Engineering or Science	
MATH 2004 [0.5] Multivariable Calculus for Engineering or Physics	
MATH 3705 [0.5] Mathematical Methods I	
STAT 2507 [0.5] Introduction to Statistical Modeling I or STAT 3502 [0.5] Probability and Statistics	
10. 0.5 credit from:	0.5
COMP 1005 [0.5] Introduction to Computer Science I ECOR 1606 [0.5] Problem Solving and Computers	
11. 3.5 credits in Advanced Science Faculty Electives and/or approved courses outside the Faculties of Science and Engineering selected in consultation with the Department to complement the study of physics; these credits may be used with an additional 0.5 credit to complete the requirements of a minor designation	3.5
12. 0.5 credit from:	0.5
NSCI 1000 [0.5] Seminar in Science Approved courses outside the faculties of Science and Engineering and Design	
13. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design	1.5
14. 1.0 credit in free electives	1.0
Total Credits	20.0

Applied Physics**B.Sc. Honours (20.0 credits)****A. Credits Included in the Major CGPA (11.0 credits)**

1. 1.0 credit from:	1.0
PHYS 1001 [0.5] Foundations of Physics I & PHYS 1002 [0.5] Foundations of Physics II (recommended)	
PHYS 1003 [0.5] Introductory Mechanics and & PHYS 1004 [0.5] Thermodynamics Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5] Elementary University Physics I & PHYS 1008 [0.5] Elementary University Physics II (with an average grade of B- or higher)	
2. 2.0 credits in:	2.0
PHYS 2202 [0.5] Wave Motion and Optics	
PHYS 2305 [0.5] Electricity and Magnetism	
PHYS 2401 [0.5] Thermal Physics	
PHYS 2604 [0.5] Modern Physics I	
3. 1.0 credit in:	1.0

ELEC 2501 [0.5] Circuits and Signals	
ELEC 2507 [0.5] Electronics I	
4. 0.5 credit from:	0.5
ECOR 2606 [0.5] Numerical Methods	
MATH 3800 [0.5] Mathematical Modeling and Computational Methods	
5. 4.0 credits in:	4.0
PHYS 3007 [0.5] Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3308 [0.5] Electromagnetism	
PHYS 3608 [0.5] Modern Applied Physics	
PHYS 3701 [0.5] Elements of Quantum Mechanics	
PHYS 3802 [0.5] Advanced Dynamics	
PHYS 3807 [0.5] Mathematical Physics I	
PHYS 4008 [0.5] Fourth-Year Physics Laboratory: Selected Experiments and Workshop	
PHYS 4707 [0.5] Introduction to Quantum Mechanics I	
6. 1.0 credit from:	1.0
PHYS 3207 [0.5] Topics in Biophysics	
PHYS 4203 [0.5] Physical Applications of Fourier Analysis	
PHYS 4208 [0.5] Modern Optics	
PHYS 4608 [0.5] Nuclear Physics	
PHYS 4807 [0.5] Computational Physics	
7. 0.5 credit from:	0.5
ELEC 3509 [0.5] Electronics II	
ELEC 3908 [0.5] Physical Electronics	
COMP at the 3000-level	
PHYS at the 4000-level	
8. 1.0 credit from:	1.0
a. PHYS 4907 plus 0.5 credit 4000-level PHYS	
b. PHYS 4908 plus 0.5 credit 4000-level PHYS	
c. PHYS 4909 [1.0]	
B. Credits Not Included in the Major CGPA (9.0 credits)	
9. 1.0 credit from:	1.0
BIOL 1103 [0.5] Foundations of Biology I & BIOL 1104 [0.5] Foundations of Biology II	
CHEM 1001 [0.5] General Chemistry I & CHEM 1002 [0.5] General Chemistry II	
CHEM 1005 [0.5] Elementary Chemistry I & CHEM 1006 [0.5] Elementary Chemistry II	
ERTH 1006 [0.5] Exploring Planet Earth & ERTH 1009 [0.5] The Earth System Through Time	
10. 3.0 credits in:	3.0
MATH 1004 [0.5] Calculus for Engineering or Physics	
MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5] Linear Algebra for Engineering or Science	
MATH 2004 [0.5] Multivariable Calculus for Engineering or Physics	
STAT 3502 [0.5] Probability and Statistics	
MATH 3705 [0.5] Mathematical Methods I	
11. 0.5 credit from:	0.5

12. 4.0 credits in:	4.0
a. (COMP 1006 and COMP 2401) or (SYSC 2006 and SYSC 2004)	
b. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design	
c. 1.5 credit in free electives	
13. 0.5 credit from:	0.5
NSCI 1000 [0.5] Seminar in Science	
Approved courses outside the faculties of Science and Engineering and Design	
Total Credits	20.0

Mathematics and Physics

B.Sc. Double Honours (21.5 credits)

Note that the following courses have minimum grade requirements in their prerequisites. Refer to the section Course Prerequisites under the Mathematics and Statistics programs sections of the calendar.

MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis
MATH 2100 [1.0]	Algebra
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)

A. Credits Included in the Major CGPA (17.0 credits)

1. 7.5 credits in:	7.5
MATH 1052 [0.5]	Calculus and Introductory Analysis I
MATH 1152 [0.5]	Introductory Algebra I
MATH 1800 [0.5]	Introduction to Mathematical Reasoning
MATH 2000 [1.0]	Multivariable Calculus and Fundamentals of Analysis
MATH 2052 [0.5]	Calculus and Introductory Analysis II
MATH 2100 [1.0]	Algebra
MATH 2152 [0.5]	Introductory Algebra II
MATH 2454 [0.5]	Ordinary Differential Equations (Honours)
MATH 3001 [0.5]	Real Analysis I (Honours)
MATH 3008 [0.5]	Ordinary Differential Equations (Honours)
MATH 3057 [0.5]	Functions of a Complex Variable (Honours)
MATH 3705 [0.5]	Mathematical Methods I
STAT 2655 [0.5]	Introduction to Probability with Applications (Honours)
2. 0.5 credit from:	0.5
MATH 3002 [0.5]	Real Analysis II (Honours)
MATH 3003 [0.5]	Advanced Differential Calculus (Honours)
MATH 3106 [0.5]	Introduction to Group Theory (Honours)
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
3. 1.0 credit in 4000-level or higher MATH, STAT	1.0
4. 1.0 credit from:	1.0

PHYS 1001 [0.5]	Foundations of Physics I
& PHYS 1002 [0.5]	Foundations of Physics II (recommended)
PHYS 1003 [0.5]	Introductory Mechanics and
& PHYS 1004 [0.5]	Thermodynamics
	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
& PHYS 1008 [0.5]	Elementary University Physics II (with an average grade of B- or higher)

5. 2.0 credits in:

PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2305 [0.5]	Electricity and Magnetism
PHYS 2401 [0.5]	Thermal Physics
PHYS 2604 [0.5]	Modern Physics I

6. 3.0 credits in:

PHYS 3308 [0.5]	Electromagnetism
PHYS 3701 [0.5]	Elements of Quantum Mechanics
PHYS 3802 [0.5]	Advanced Dynamics
PHYS 4409 [0.5]	Thermodynamics and Statistical Physics
PHYS 4707 [0.5]	Introduction to Quantum Mechanics I
PHYS 4708 [0.5]	Introduction to Quantum Mechanics II

7. 1.0 credit in PHYS at the 4000-level

1.0

8. 1.0 credit from:

a. MATH 4905 or PHYS 4907 or PHYS 4908 plus 0.5 credit 4000-level MATH or PHYS	
b. PHYS 4909 [1.0]	

B. Credits Not Included in the Major CGPA (4.5 credits)

9. 1.0 credit from:

BIOL 1103 [0.5]	Foundations of Biology I
& BIOL 1104 [0.5]	Foundations of Biology II
CHEM 1001 [0.5]	General Chemistry I
& CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
& CHEM 1006 [0.5]	Elementary Chemistry II
ERTH 1006 [0.5]	Exploring Planet Earth
& EARTH 1009 [0.5]	The Earth System Through Time

10. 0.5 credit in:

COMP 1005 [0.5]	Introduction to Computer Science I
-----------------	------------------------------------

11. 0.5 credit from:

NSCI 1000 [0.5]	Seminar in Science
	Approved courses outside the faculties of Science and Engineering and Design

12. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design

1.5

13. 1.0 credit in free electives

1.0

Total Credits 21.5

Biology and Physics

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits)

1. 1.0 credit from:	1.0
PHYS 1001 [0.5]	Foundations of Physics I
& PHYS 1002 [0.5]	Foundations of Physics II (recommended)

PHYS 1003 [0.5] & PHYS 1004 [0.5]	Introductory Mechanics and Thermodynamics Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5] & PHYS 1008 [0.5]	Elementary University Physics I Elementary University Physics II (with an average grade of B- or higher)	
2. 3.5 credits in:		3.5
PHYS 2604 [0.5]	Modern Physics I	
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics	
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3207 [0.5]	Topics in Biophysics	
PHYS 3701 [0.5]	Elements of Quantum Mechanics	
3. 1.0 credit from:		1.0
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	
PHYS 3802 [0.5]	Advanced Dynamics	
4. 1.0 credit from:		1.0
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	
PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 3807 [0.5]	Mathematical Physics I	
PHYS 4203 [0.5]	Physical Applications of Fourier Analysis	
PHYS 4409 [0.5]	Thermodynamics and Statistical Physics	
PHYS 4707 [0.5]	Introduction to Quantum Mechanics I	
5. 4.0 credits in:		4.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2200 [0.5]	Cellular Biochemistry	
BIOL 2104 [0.5]	Introductory Genetics	
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 3201 [0.5]	Cell Biology	
BIOL 3104 [0.5]	Molecular Genetics	
BIOL 3305 [0.5]	Human and Comparative Physiology	
6. 1.0 credit from:		1.0
BIOL 3501 [0.5]	Biomechanics	
BIOL 4106 [0.5]	Advances in Molecular Biology	
BIOL 4109 [0.5]	Laboratory Techniques in Molecular Genetics	
BIOL 4201 [0.5]	Advanced Cell Culture and Tissue Engineering	
BIOL 4202 [0.5]	Mutagenesis and DNA Repair	
BIOL 4301 [0.5]	Current Topics in Biotechnology	
BIOL 4306 [0.5]	Animal Neurophysiology	
BIOL 4309 [0.5]	Studies in Human Performance	
BIOL 4319 [0.5]	Studies in Exercise Physiology	
7. 1.0 credit from:		1.0
BIOL 4905 [1.0]	Honours Workshop	
BIOL 4907 [1.0]	Honours Essay and Research Proposal	
BIOL 4908 [1.0]	Honours Research Thesis	
PHYS 4909 [1.0]	Fourth-Year Project	
PHYS 4907 plus 0.5 credit	4000-level PHYS	
PHYS 4908 plus 0.5 credit	4000-level PHYS	
B. Credits Not Included in the Major CGPA (7.5 credits)		
8. 1.0 credit in:		1.0
CHEM 1001 [0.5] & CHEM 1002 [0.5]	General Chemistry I General Chemistry II (See Note, below)	
9. 1.5 credits in:		1.5
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
10. 2.0 credits in:		2.0
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
MATH 3705 [0.5]	Mathematical Methods I	
MATH 3800 [0.5]	Mathematical Modeling and Computational Methods	
11. 0.5 credit in:		0.5
COMP 1005 [0.5]	Introduction to Computer Science I	
12. 2.0 credits in	approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
13. 0.5 credit in	free electives	0.5
Total Credits		20.0

Note: For **Item 8** above, CHEM 1001 and CHEM 1002 are strongly recommended for this program. Students may substitute CHEM 1001 and CHEM 1002 with CHEM 1005 and CHEM 1006, respectively. Students choosing CHEM 1005 and CHEM 1006 will be required to obtain a grade of B- or higher in CHEM 1006 to take BIOL 2200 and more advanced courses in BIOC and CHEM. Students completing CHEM 1005 with a grade of B- or higher are encouraged to register for CHEM 1002.

Chemistry and Physics

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.0 credits)

1. 1.0 credit from:		1.0
PHYS 1001 [0.5] & PHYS 1002 [0.5]	Foundations of Physics I Foundations of Physics II (recommended)

ECOR 2606 [0.5]	Numerical Methods	
12. 0.5 credit from:		0.5
NSCI 1000 [0.5]	Seminar in Science	
Approved courses outside the faculties of Science and Engineering and Design		

13. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000, if not used above)	1.5
14. 1.0 credit in free electives.	1.0
Total Credits	20.0

Minor in Physics (4.0 credits)

The Minor in Physics is available to students registered in degree programs other than those offered by the Department of Physics. Careful attention must be paid to prerequisites. NOTE: PHYS 1007 and PHYS 1008 are acceptable only if the average grade over these two courses is at least 7.0 (B-).

Requirements

1. 0.5 credit from:		0.5
PHYS 1001 [0.5]	Foundations of Physics I	
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics	
PHYS 1007 [0.5]	Elementary University Physics I (see note below)	
2. 0.5 credit from:		0.5
PHYS 1002 [0.5]	Foundations of Physics II	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
PHYS 1008 [0.5]	Elementary University Physics II (see note below)	
3. 1.0 credit in:		1.0
PHYS 2604 [0.5]	Modern Physics I	
PHYS 3701 [0.5]	Elements of Quantum Mechanics	
4. 2.0 credits from:		2.0
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics

PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 3807 [0.5]	Mathematical Physics I	
PHYS at the 4000-level		
Total Credits		4.0

Physics (PHYS) Courses

PHYS 1001 [0.5 credit]

Foundations of Physics I

This calculus-based course on classical mechanics covers kinematics, dynamics, gravitation, and oscillatory motion.

This is a specialist course for students intending to take further courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1003, PHYS 1007.

Prerequisite(s): Grade 12 Mathematics: Advanced Functions and Grade 12 Mathematics: Calculus and Vectors or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently); or permission of the Physics Department. Grade 12 Physics is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1002 [0.5 credit]

Foundations of Physics II

An introduction to electricity, magnetism, electromagnetic fields, and wave motion. This is a specialist course for students intending to take further courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1004, PHYS 1008.

Prerequisite(s): PHYS 1001, or PHYS 1003, or PHYS 1007 with a grade of B-; MATH 1004 or MATH 1002 (may be taken concurrently) or MATH 2052 (may be taken concurrently); or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1003 [0.5 credit]

Introductory Mechanics and Thermodynamics

Mechanics, gravitation, oscillations, and thermodynamics.

The application of calculus to solve problems in these areas of physics is introduced. This course is intended for students in the physical sciences and engineering.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1007.

Prerequisite(s): Grade 12 Physics or equivalent, plus Grade 12 Mathematics: Advanced Functions or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently). Note that Grade 12 Mathematics: Calculus and Vectors is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1004 [0.5 credit]

Introductory Electromagnetism and Wave Motion

This calculus-based course introduces potential energy, work, electricity, magnetism, oscillations and waves.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1008.

Prerequisite(s): MATH 1004, ECOR 1101 or

ECOR 1053(The ECOR course may be taken concurrently) or PHYS 1001 or PHYS 1003 or PHYS 1007 (a grade of at least B- is required for PHYS 1007), or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1007 [0.5 credit]

Elementary University Physics I

Mechanics, properties of matter, thermodynamics.

Applications chosen in part from the life sciences. For students who lack the prerequisites for PHYS 1001 or PHYS 1003, or who do not intend to take upper-year courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1003.

Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent, or MATH 0107 (may be taken concurrently); or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 (may be taken concurrently); or (iii) permission of the Physics Department.

Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1008 [0.5 credit]

Elementary University Physics II

Electricity and magnetism, DC and AC circuits, wave motion and light. Elements of modern physics.

Applications chosen in part from the life sciences.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1004.

Prerequisite(s): PHYS 1001 or PHYS 1003 or PHYS 1007.

Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1901 [0.5 credit]

Planetary Astronomy

Description of the known stellar, galactic and extra-galactic systems together with the instruments used to study them. Modern ideas concerning the structure, origin and evolution of our own planet. Formation of the Moon - Earth system. Study of the planets in our solar system.

Precludes additional credit for PHYS 2203.

Lectures two and one-half hours a week.

PHYS 1902 [0.5 credit]**From our Star to the Cosmos**

Starting with the Sun, the course studies its composition and source of power, then compares our Sun with the other stars in the galaxy and beyond. Modern ideas concerning the structure, origin and evolution of the universe, pulsars and supernovae are examined.

Precludes additional credit for PHYS 2203.

Lectures two and one-half hours a week.

PHYS 1905 [0.5 credit]**Physics Behind Everyday Life**

Examination of the physics behind everyday life. Topics may include transportation, sports, weather and climate, electricity, and sustainable energy. No science background is required. Faculty of Science students may only take this course as a free elective.

Includes: Experiential Learning Activity

Online Course.

PHYS 2004 [0.5 credit]**Modern Physics for Engineers**

Introduction to aspects of modern physics relevant to engineering. Thermal radiation. Concepts of relativistic kinematics. Wave-particle duality. Elements of quantum mechanics. Optical and x-ray spectra, lasers. Nuclear physics and applications. Condensed matter physics. Precludes additional credit for PHYS 2604.

Prerequisite(s): PHYS 1002 or PHYS 1004 or PHYS 1008 with a grade of B- or better, plus MATH 1004 and MATH 1104 or equivalent. Restricted to B.Eng. students not in the Engineering Physics program. Students in programs other than B.Eng. must obtain permission of the Department.

Lectures three hours a week.

PHYS 2101 [0.5 credit]**Mechanics and Properties of Matter**

Equations of motion for a single particle. Harmonic oscillation. Noninertial reference frames. Orbits in a central force field. Motion of systems of particles and of rigid bodies. Introduction to special relativity. Laboratory experiments in classical mechanics and properties of matter.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall average of B- or better; MATH 1004 and MATH 1104, or MATH 1002 and MATH 1102.

Lectures three hours a week, laboratory three hours a week, tutorials (optional) once a week.

PHYS 2202 [0.5 credit]**Wave Motion and Optics**

Geometrical optics. Types of waves, vibrating string and the classical wave equation. General solutions for traveling waves. Superposition and interference, coherence, wave packets, waves in 2 and 3 dimensions. Propagation of electromagnetic waves. Light and physical optics, oscillator model for dispersion, diffraction, polarization, and refraction.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1104 or MATH 1102 or MATH 2152, and MATH 2004 or MATH 2000 (may be taken concurrently).

Lectures three hours a week, laboratory three hours a week.

PHYS 2203 [0.5 credit]**Astronomy**

The observational basis of astronomy. The history of astronomy, properties of light, solar system observations and stellar astronomy.

Precludes additional credit for PHYS 1901 and PHYS 1902.

Prerequisite(s): PHYS 1002 or PHYS 1004 or permission of the department. PHYS 1008 with a grade of B- or better may also be used if MATH 1004 or MATH 1007 or MATH 1002 or MATH 2052 have been successfully completed.

Lectures three hours a week.

PHYS 2305 [0.5 credit]**Electricity and Magnetism**

Electrostatic field and potential, Gauss' law. Properties of conductors. Magnetic effects from currents. Motion of charges in electric and magnetic fields. Energy in electric and magnetic fields. Electromagnetic induction. Maxwell's equations in vacuum using vector differential and integral calculus.

Prerequisite(s): PHYS 1001, PHYS 1002, or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or higher; MATH 2004 or MATH 2000 (may be taken concurrently).

Lectures three hours a week.

PHYS 2306 [0.5 credit]**Physics of Electrical and Electronic Measurements I**

D.C. and A.C. circuit theory. Resonant circuits. Basic measuring devices, the oscilloscope; impedances, bandwidth, noise; vacuum tubes, transistors, useful approximations for circuit design; feedback, amplifiers, oscillators; operational circuits; digital circuits. Lectures emphasize the physical basis of instrument design.

Laboratory emphasizes modern digital instrumentation.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1001, PHYS 1002 or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or better.

Lectures three hours a week, laboratory three hours a week.

PHYS 2401 [0.5 credit]**Thermal Physics**

Introduction to thermodynamics and statistical mechanics. Temperature and thermodynamic equilibrium. Work, internal energy and heat; first law. Kinetic theory of gases. Basic probability theory. Microscopic states and entropy. Absolute temperature, reversibility and the second law of thermodynamics. Thermodynamic processes and applications.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004, (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B-); plus MATH 1004 and MATH 1104 or MATH 1002 (no longer offered) and MATH 1102 (no longer offered), or MATH 2052 and MATH 2152.

Lectures three hours a week.

PHYS 2604 [0.5 credit]**Modern Physics I**

The course is designed to provide a logical transition from classical to modern physics. Special relativity. Rutherford scattering, atomic models. Thermal radiation. Photoelectric effect, Compton scattering. Bohr theory of the hydrogen atom. Atomic energy states, optical spectra, lasers. X-rays. Radioactivity. Quantum Mechanics.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 2004.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1004 and MATH 1104, or MATH 1002 (no longer offered) and MATH 1102 (no longer offered) or MATH 2052 and MATH 2152.

Lectures three hours a week, laboratory three hours a week.

PHYS 2903 [0.5 credit]**Physics Towards the Future**

From classical phenomena to aspects of modern physics and recent advances. Topics may include light and colour, music and sound, cell phones, the galaxy and beyond. No science background is required. Faculty of Science students may only take this course as a free elective.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Online course.

PHYS 3007 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Seminars**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3008, PHYS 3009.

Prerequisite(s): PHYS 2202 and PHYS 2604, or permission of the Department.

Six hours a week.

PHYS 3008 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Workshop**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3007, PHYS 3009.

Prerequisite(s): PHYS 2202 and PHYS 2604, or permission of the department.

Six hours a week.

PHYS 3009 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Seminars with Observational Astronomy**

Students complete a small number of experiments selected from astronomy, astrophysics, modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. At least one astronomy/astrophysics related experiment is required. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3007, PHYS 3008.

Prerequisite(s): PHYS 2202, PHYS 2604 and PHYS 2203 or permission of the Department.

Six hours a week.

PHYS 3207 [0.5 credit]**Topics in Biophysics**

Introduction to biophysics. Random motion of molecules and diffusion; viscosity and the circulatory system; laws of thermodynamics and physical forces responsible for chemical reactions, molecular self-assembly and recognition; enzyme kinetics and molecular machines; nerve impulse and its propagation.

Prerequisite(s): PHYS 2604 or permission of the Department.

Lectures three hours a week, tutorial or seminar one hour a week.

PHYS 3308 [0.5 credit]**Electromagnetism**

Electrostatics field and magnetostatics in the presence of matter. Solving Laplace's and Poisson's equations. Multipole expansions. Vector potential. Faraday's laws of induction; Maxwell's equations in matter. Waves in vacuum and dielectric media, guided waves.

Precludes additional credit for ELEC 3909.

Prerequisite(s): PHYS 2202, PHYS 2604, PHYS 2305, MATH 2004 or MATH 2008, and MATH 3705, or permission of the Department.

Lectures three hours a week.

PHYS 3402 [0.5 credit]**Heat and Thermodynamics**

Zeroth, First, Second and Third Laws of Thermodynamics; enthalpy, Helmholtz and Gibbs functions and the Maxwell relations; phase transitions; thermodynamics of magnetism; cryogenics cooling by Joule-Thompson effect, adiabatic expansion of a gas, adiabatic demagnetization, helium dilution refrigeration; black body radiation; negative temperatures.

Prerequisite(s): PHYS 2101 and PHYS 2305, MATH 2007, MATH 2008, MATH 2107 and MATH 2401 or permission of the Department.

Lectures three hours a week.

PHYS 3606 [0.5 credit]**Modern Physics II**

Elements of condensed matter physics, semiconductors, superconductivity. Elements of nuclear physics, fission, fusion, power generation. Introduction to particle physics. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging.

Includes: Experiential Learning Activity

Also listed as PHYS 3608.

Prerequisite(s): PHYS 2604 and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory two hours a week.

PHYS 3608 [0.5 credit]**Modern Applied Physics**

Elements of condensed matter physics, semiconductors, superconductivity. Modern optics. Elements of nuclear physics, fission, fusion, power generation. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging.

Includes: Experiential Learning Activity

Also listed as PHYS 3606.

Prerequisite(s): PHYS 2604 and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory three hours a week.

PHYS 3701 [0.5 credit]**Elements of Quantum Mechanics**

Analysis of interference experiments with waves and particles; fundamental concepts of quantum mechanics, Schrödinger equation; angular momentum, atomic beams; hydrogen atom; atomic and molecular spectroscopy; Pauli principle; simple applications in the physics of elementary particles.

Prerequisite(s): PHYS 2604, MATH 2000 [1.0] (may be taken concurrently), or MATH 2004 or MATH 2008, and MATH 3705 (may be taken concurrently), or permission of the Department.

Lectures three hours a week.

PHYS 3801 [0.5 credit]**Classical Mechanics**

Introduction to Lagrangian and Hamiltonian mechanics: Poisson brackets, tensors and dyadics; rigid body rotations: introductory fluid mechanics coupled systems and normal coordinates; relativistic dynamics.

Prerequisite(s): PHYS 2101, PHYS 2202, PHYS 2305, MATH 2007, MATH 2008, MATH 2107, MATH 2401 or permission of the Department.

Lectures three hours a week.

PHYS 3802 [0.5 credit]**Advanced Dynamics**

Equations of motion for a single particle. Oscillatory Motion. Lagrangian and Hamiltonian formulations of mechanics. Central force motion. Motion of systems of particles and of rigid bodies.

Prerequisite(s): PHYS 2202, PHYS 2604, and MATH 2004, or permission of the Department.

Lectures three hours a week.

PHYS 3807 [0.5 credit]**Mathematical Physics I**

Boundary Value problems involving curvilinear coordinates; spherical harmonics, Bessel functions, Green's functions. Functions of a complex variable: analytic functions, contour integration, residue calculus.

Precludes additional credit for MATH 3007 or MATH 3057.

Prerequisite(s): PHYS 2202, MATH 2004, MATH 3705 or permission of the Department.

Lectures three hours a week, tutorial one hour a week.

PHYS 3808 [0.5 credit]**Mathematical Physics II**

Solution of second-order total differential equations by Frobenius' method. Sturm-Liouville theory. Special functions: Legendre, Bessel, Hermite, Laguerre and associated functions. Partial differential equations: method of separation of variables, eigenfunctions and eigenvalues and eigenfunction expansions. Green's function techniques for solving inhomogeneous partial differential equations.

Precludes additional credit for MATH 3004, MATH 3008, MATH 3705, and PHYS 3806.

Prerequisite(s): PHYS 3807 or MATH 3007 or permission of the Department.

Lectures three hours a week.

PHYS 3999 [0.0 credit]**Co-operative Work Term Report**

Provides practical experience for students enrolled in the Co-operative option. Students must receive satisfactory evaluations from their work term employer. Written and oral reports will be required. Graded as Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Physics Co-operative education option and permission of the Department.

PHYS 4007 [0.5 credit]**Fourth-Year Physics Laboratory: Selected Experiments and Seminars**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 3606 (or PHYS 3608) and registration in the Engineering Physics program.

Laboratory, six hours a week.

PHYS 4008 [0.5 credit]**Fourth-Year Physics Laboratory: Selected Experiments and Workshop**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 3007.

Six hours a week.

PHYS 4201 [0.5 credit]**Astrophysics**

Stellar evolution, including stellar modeling, main sequence stars, red giants and the end states of stars such as neutron stars and black holes. Galactic structure and dynamics. Neutrino astrophysics.

Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently).

Also offered at the graduate level, with different requirements, as PHYS 5401, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4202 [0.5 credit]**Cosmology**

Observational evidence for the Big Bang. Cosmological space-time, expansion dynamics and contents of the universe. Physical processes in the expanding universe, inflation, nucleosynthesis, the cosmic microwave background, dark matter, and dark energy.

Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently).

Also offered at the graduate level, with different requirements, as PHYS 5402, for which additional credit is precluded.

Lectures three hours per week.

PHYS 4203 [0.5 credit]**Physical Applications of Fourier Analysis**

Fourier transform, convolution. Sampling theorem. Applications to imaging: descriptors of spatial resolution, filtering. Correlation, noise power. Discrete Fourier transform, FFT. Filtering of noisy signals. Image reconstruction in computed tomography and magnetic resonance. Laplace transform. Integral transforms, application to boundary value problems.

Prerequisite(s): MATH 3705, or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5313, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4208 [0.5 credit]**Modern Optics**

Electromagnetic wave propagation; reflection, refraction; Gaussian beams, guided waves. Laser theory: stimulated emission, cavity optics, modes, gain and bandwidth; atomic and molecular lasers. Mode locking, Q switching. Diffraction theory, coherence, Fourier optics, holography, laser applications. Optical communication systems, nonlinear effects: devices, fibre sensors, integrated optics.

Prerequisite(s): PHYS 2202, PHYS 3606 (or PHYS 3608), and PHYS 3308 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5318, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4307 [0.5 credit]**Electromagnetic Radiation**

Electromagnetic wave propagation in a vacuum, dielectrics, conductors, and ionized gases, reflection, refraction, polarization at the plane boundary between two media; waveguide and transmission line propagation; dipole and quadrupole radiation fields; antenna systems. Electromagnetic mass, radiation pressure. Tensor notation, transformation of the electromagnetic fields.

Prerequisite(s): PHYS 3308, PHYS 3801, PHYS 3807 and PHYS 3808 (except for Mathematics and Physics Double Honours students), or permission of the Department.

Lectures three hours a week.

PHYS 4407 [0.5 credit]**Statistical Physics**

Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics are derived, and applied in appropriate physical situations. Fluctuations. Kinetics and transport processes, including the Boltzmann transport equation and some of its applications.

Prerequisite(s): PHYS 3402, PHYS 2602 or PHYS 3601, PHYS 3701 or PHYS 3602, PHYS 4707 (may be taken concurrently); or permission of the Department.

Lectures three hours a week.

PHYS 4409 [0.5 credit]**Thermodynamics and Statistical Physics**

The three Laws of Thermodynamics, enthalpy, Helmholtz and Gibbs functions. Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics.

Precludes additional credit for PHYS 3402 and PHYS 4407.

Prerequisite(s): PHYS 3701 (may be taken concurrently), MATH 2004 and MATH 3705, or permission of the Department.

PHYS 4508 [0.5 credit]**Solid State Physics**

An introduction to solid state physics. Topics include crystal structure, phonons and lattice vibrations, conductors, semiconductors, insulators and superconductivity.

Prerequisite(s): PHYS 3606 or PHYS 3608, and PHYS 3701, or permission of the Department.

Lectures three hours a week.

PHYS 4602 [0.5 credit]**Physics of Elementary Particles**

Standard Model. Properties of leptons, quarks, hadrons. Fundamental interactions: photon, gluons, W/Z bosons. Higgs boson. Conservation laws, invariance principles, quantum numbers. Decay rates and scattering cross-sections. Quantum electrodynamics and chromodynamics. Resonances. Weak interactions, CKM matrix, parity and CP violation. Neutrino masses and oscillations. Future directions.

Prerequisite(s): PHYS 4707 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5602, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4608 [0.5 credit]**Nuclear Physics**

Ground state properties of nuclei. Nuclear models, binding energy, properties of excited nuclei. Alpha, beta and gamma decay. Passage of radiation through matter, detectors. Nuclear reactions, cross sections, fission, fusion. Elements of neutron physics.

Prerequisite(s): PHYS 3606 or PHYS 3608 or permission of the Department.

Lectures three hours a week.

PHYS 4707 [0.5 credit]**Introduction to Quantum Mechanics I**

The basic interpretative postulates of quantum mechanics; applications of wave mechanics and operator methods to various quantum mechanical systems; quantum mechanical treatment of angular momentum.

Prerequisite(s): PHYS 3701 and PHYS 3807 or equivalent, or permission of the Department.

Lectures three hours a week.

PHYS 4708 [0.5 credit]**Introduction to Quantum Mechanics II**

Scattering theory and application; bound state problems; approximation methods.

Prerequisite(s): PHYS 4707 or permission of the Department.

Lectures three hours a week.

PHYS 4804 [0.5 credit]**Introduction to General Relativity**

Special relativity using tensor analysis. Curved spacetime with physics applications which may include the solar system, stars, black holes and gravitational waves.

Introduction to differential geometry and Einstein's field equations.

Prerequisite(s): PHYS 3308, PHYS 3802 and PHYS 3807 or equivalent, or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5804, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4807 [0.5 credit]**Computational Physics**

Computational methods used in analysis of experimental data. Introduction to probability and random variables. Monte Carlo methods for simulation of random processes. Statistical methods for parameter estimation and hypothesis tests. Confidence intervals. Multivariate data classification. Unfolding methods. Examples primarily from particle and medical physics.

Prerequisite(s): third year standing in a physics program and an ability to program in FORTRAN, Java, C or C++, and permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5002, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4901 [0.5 credit]**Special Topics in Physics**

Each year, at the direction of the Department, a course on a special topic may be offered.

Prerequisite(s): permission of the Department.

PHYS 4907 [0.5 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Fall term only.

PHYS 4908 [0.5 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Winter term only.

PHYS 4909 [1.0 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project

Political Science

This section presents the requirements for programs in:

- Political Science B.A. Honours
- Political Science B.A. Combined Honours
- Political Science B.A.
- Concentration in Canadian Politics
- Concentration in Comparative Politics and Area Studies (Global North)
- Concentration in Comparative Politics and Area Studies (Global South)
- Concentration in Gender and Politics
- Concentration in International Relations
- Concentration in North American Politics
- Concentration in Political Theory
- Concentration in Public Affairs and Policy Analysis
- Specialization in Global Politics B.G.In.S. Honours
- Stream in Global Politics B.G.In.S.
- Minor in Political Science
- Mention : Français : Political Science
- Washington Center Internship Program

Program Requirements**Course Categories**

The following categories of Political Science courses are used in the program descriptions:

Canadian Government and Politics

PSCI 2002 [0.5]	Canadian Politics and Civil Society
PSCI 2003 [0.5]	Canadian Political Institutions
PSCI 2401 [0.5]	Public Affairs Analysis
PSCI 3000 [0.5]	Canadian Provincial Politics
PSCI 3004 [0.5]	Political Parties and Elections in Canada

PSCI 3005 [0.5]	Ontario Government and Politics
PSCI 3006 [0.5]	Social Power in Canadian Politics
PSCI 3007 [0.5]	Constitutional Politics in Canada
PSCI 3109 [0.5]	The Politics of Law and Morality
PSCI 3401 [0.5]	Canadian Public Administration
PSCI 3402 [0.5]	Canadian Public Policy
PSCI 3406 [0.5]	Public Affairs and Media Strategies
PSCI 3606 [0.5]	Canadian Foreign Policy
PSCI 3607 [0.5]	North American Security and Defence Policy
PSCI 4001 [0.5]	Topics in Canadian Government and Politics
PSCI 4003 [0.5]	Politics and the Media
PSCI 4005 [0.5]	Canadian Federalism
PSCI 4006 [0.5]	Legislatures and Representation in Canada
PSCI 4008 [0.5]	National Security and Intelligence in the Modern State
PSCI 4009 [0.5]	Quebec Politics
PSCI 4010 [0.5]	Executive Power in Canadian Politics
PSCI 4107 [0.5]	Political Participation in Canada
PSCI 4109 [0.5]	The Politics of the Canadian Charter of Rights and Freedoms

Comparative Politics and International Relations

PSCI 2101 [0.5]	Comparative Politics of the Global North
PSCI 2102 [0.5]	Comparative Politics of the Global South
PSCI 2200 [0.5]	Introduction to U.S. Politics
PSCI 2500 [0.5]	Gender and Politics
PSCI 2601 [0.5]	International Relations: Global Politics
PSCI 2602 [0.5]	International Relations: Global Political Economy
PSCI 3100 [0.5]	Politics of Development in Africa
PSCI 3101 [0.5]	Politics of War in Africa
PSCI 3102 [0.5]	Politics of Development of China
PSCI 3103 [0.5]	State, Society and Economy in Northeast Asia
PSCI 3105 [0.5]	Imperialism
PSCI 3107 [0.5]	The Causes of War
PSCI 3108 [0.5]	Politics of Popular Culture
PSCI 3109 [0.5]	The Politics of Law and Morality
PSCI 3200 [0.5]	U.S. Constitutional Politics
PSCI 3203 [0.5]	Government and Politics in the Middle East
PSCI 3204 [0.5]	Politics of Latin America
PSCI 3205 [0.5]	Mexican Politics
PSCI 3206 [0.5]	European Democracies
PSCI 3207 [0.5]	The Government and Politics of European Integration
PSCI 3208 [0.5]	Politics in Russia and Ukraine: Power and Contestation
PSCI 3209 [0.5]	Reconstruction and Transformation in Europe and Eurasia
PSCI 3302 [0.5]	Comparative Political Thought
PSCI 3307 [0.5]	Politics of Human Rights

PSCI 3405 [0.5]	Comparative Public Policy Analysis
PSCI 3406 [0.5]	Public Affairs and Media Strategies
PSCI 3407 [0.5]	Public Opinion and Public Policy
PSCI 3502 [0.5]	Gender and Politics: Global South
PSCI 3600 [0.5]	International Institutions
PSCI 3601 [0.5]	Theories of International Politics
PSCI 3603 [0.5]	Strategic Thought and International Security
PSCI 3606 [0.5]	Canadian Foreign Policy
PSCI 3607 [0.5]	North American Security and Defence Policy
PSCI 3700 [0.5]	Government and Politics of South Asia
PSCI 3702 [0.5]	Israeli-Palestinian Relations
PSCI 3703 [0.5]	Governing in the Global Economy
PSCI 3704 [0.5]	Government and Politics of Central and Eastern Europe
PSCI 3801 [0.5]	Environmental Politics
PSCI 3802 [0.5]	Globalization and Human Rights
PSCI 3805 [0.5]	Politics of Race
PSCI 4003 [0.5]	Politics and the Media
PSCI 4005 [0.5]	Canadian Federalism
PSCI 4008 [0.5]	National Security and Intelligence in the Modern State
PSCI 4103 [0.5]	The Modern State
PSCI 4104 [0.5]	Development in the Global South - Theory and Practice
PSCI 4105 [0.5]	Selected Problems in Development in the Global South
PSCI 4203 [0.5]	Southern Africa After Apartheid
PSCI 4204 [0.5]	Elections
PSCI 4206 [0.5]	Indigenous Politics of North America
PSCI 4207 [0.5]	Globalization, Adjustment and Democracy in Africa
PSCI 4209 [0.5]	Westminster Democracies: Parliaments, Parties and Elections
PSCI 4303 [0.5]	Governmentality and Politics
PSCI 4400 [0.5]	Socio-Technical Change and Public Policy Design
PSCI 4403 [0.5]	Reproductive Rights Policy in North America
PSCI 4409 [0.5]	Issues in Development Management
PSCI 4500 [0.5]	Gender and Globalization
PSCI 4501 [0.5]	Politics of Identity in Europe and the Russian Area
PSCI 4502 [0.5]	Post-Soviet States and Societies
PSCI 4503 [0.5]	Politics of Central Eurasia
PSCI 4504 [0.5]	Politics of the Caucasus and Caspian Basin
PSCI 4505 [0.5]	Transitions to Democracy
PSCI 4506 [0.5]	Women and Politics in North America
PSCI 4601 [0.5]	Foreign Policies of Soviet Successor States
PSCI 4603 [0.5]	Analysis of International Political Economy
PSCI 4604 [0.5]	Selected Problems in International Political Economy

PSCI 4605 [0.5]	Gender in International Relations
PSCI 4606 [0.5]	American Foreign Policy
PSCI 4607 [0.5]	Politics of North America
PSCI 4608 [0.5]	European Integration and European Security
PSCI 4609 [0.5]	Selected Topics in European Integration Studies
PSCI 4800 [0.5]	Advanced International Relations Theory
PSCI 4801 [0.5]	Selected Problems in Global Politics
PSCI 4802 [0.5]	International Politics of Africa
PSCI 4803 [0.5]	Foreign Policies of Major East Asian Powers
PSCI 4805 [0.5]	Political Economy of Global Money and Finance
PSCI 4806 [0.5]	Transatlantic Security Issues
PSCI 4807 [0.5]	Politics of Citizenship and Migration
PSCI 4808 [0.5]	Global Environmental Politics
PSCI 4817 [0.5]	International Politics of Forced Migration
PSCI 4819 [0.5]	Latin America in the World

4000-level Seminar

All courses in the range PSCI 4001 [0.5] to PSCI 4909 [1.0]

Departmental Language Requirement

The Department requires Honours students to demonstrate proficiency in at least one language other than English, normally French. Honours students are required to demonstrate such proficiency, normally through the completion of any first-year course (or its approved equivalent) in a language offered at Carleton.

For students who consider that they already have proficiency in French, the Department of Political Science conducts a French language examination twice a year, in November and February. For students who consider themselves proficient in a second language other than French, arrangements may be made to examine the student in that language, depending on faculty resource availability. Exams in languages other than French will normally be written at the same time as the French examination – twice a year, in November and February. Departmental language examinations may not be repeated in case of failure. Students whose high school transcript shows the primary language of instruction to be other than English may apply to have the examination requirement waived. For students in the Canadian concentration, French must be used to satisfy the language requirement.

Bachelor of Arts

Political Science

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 1.0 credit in:		1.0
PSCI 1100 [0.5]	Democracy in Theory and Practice & PSCI 1200 [0.5]	World Politics
2. 2.0 credits in:		2.0

PSCI 2301 [0.5]	History of Political Thought I	
PSCI 2302 [0.5]	History of Political Thought II	
PSCI 2701 [0.5]	Introduction to Research Methods in Political Science	
PSCI 2702 [0.5]	Quantitative Research Methods in Political Science	
3. 1.0 credit in	Canadian Government and Politics	1.0
4. 1.0 credit in	Comparative Politics and International Relations	1.0
5. 1.0 credit in:		1.0
PSCI 4908 [1.0]	Honours Research Essay (with a grade of B- or better)	
4000-level seminars		
6. 1.0 credit in	a 4000-level seminar	1.0
7. 2.0 credits in	PSCI at the 3000-level or above or in IPAF 4900 (with permission of the department).	2.0
B. Credits Not Included in the Major CGPA (11.0 credits)		
8. 8.0 credits in	electives not in PSCI	8.0
9. 3.0 credits in	free electives	3.0
C. Additional Requirements		
10. Departmental language requirement must be met		
Total Credits		20.0

Notes

- At least 1.0 credit in 4000-level seminars must be completed at Carleton University.
- Item 5: candidates with fourth-year Honours standing in Political Science and a Major CGPA of 9.00 or better may present an Honours Research Essay PSCI 4908 [1.0] on some topic involving independent investigation; they may be examined orally on this essay and must receive a grade of B- or better in this course. PSCI 4908 [1.0] must be taken at Carleton University. Students who wish to present an Honours Research Essay must identify a faculty supervisor and require permission of the Supervisor of Undergraduate Studies. Students who do not write an Honours Research Essay are required to complete 1.0 credit in Political Science in the form of one or more 4000-level seminars.

Political Science

B.A. Combined Honours (20.0 credits)

B. Credits Not Included in the Major CGPA (9.0 credits)		
5. 6.0 credits not in	PSCI	7.0
6. 3.0 credits in	free electives	2.0
Total Credits		15.0

Concentrations

The concentrations described below are open to all students in Political Science Honours, Combined Honours or General programs. The maximum number of Political Science credits that can be counted towards the degree is 12.0 credits for an Honours program, 8.0 for a General program and 9.0 for a Combined Honours program. Concentrations are open to students in the General program in Political Science though it may be difficult to meet the requirements of the Concentrations within the 15.0 credits required for the General degree, so that courses extra to the primary degree may have to be taken.

Concentration in Canadian Politics (3.5 credits)

B. Credits Not Included in the Major CGPA (7.0 credits)

3. 7.0 credits in: Free Electives	7.0
c. Additional Requirements	
4. The Language Requirement must be met.	
Total Credits	15.0

Minor in Political Science (4.0 credits)

The Minor in Political Science is not available to students enrolled in the B.A. Honours programs in Global Politics or the B.G.In.S. Specialization or Stream in Global Politics.

Requirements:

1. 1.0 credit from:	1.0
PSCI 1100 [0.5] Democracy in Theory and Practice & PSCI 1200 [0.5] World Politics	
2. 1.0 credit in PSCI at the 2000-level	1.0
3. 1.0 credit in PSCI at the 2000-level or above	1.0
4. 1.0 credit in PSCI at the 3000-level or above	1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Mention : Français: Political Science (4.0 credits)

Students who wish to qualify for the *Mention : Français* notation in Political Science may do so by taking the following pattern of courses in their degree program:

Requirements

1. 1.0 credit in the advanced study of the French language (a minimum of):	1.0
FREN 1100 [1.0] French 3	
2. 1.0 credit in:	1.0
FREN 2202 [0.5] Introduction aux études littéraires 1 & FREN 2203 [0.5] Introduction aux études littéraires 2	
3. 1.0 credit in:	1.0
PSCI 3900 [1.0] Études dirigées	
4. Honours students are required to take:	1.0
PSCI 4909 [1.0] Mémoire de recherche	

Note: With the prior approval of the department, students may substitute appropriate courses taught in French at the University of Ottawa, or courses taken at a francophone university on a Letter of Permission for Items 3 and 4 above.

Washington Center Internship Program (2.5 credits)

The Washington Center Internship Program is open to Honours or Combined Honours Political Science students in the third year or the first term of fourth year. Admission is open to students with at least a 9.5 GPA in Political Science. Successful completion of the program satisfies the requirements for one term of full-time study (2.5 credits). Students spend one term (fall, winter or summer) in Washington D.C. They serve four days a week as an intern in Washington D.C. and also take two seminar courses offered by faculty of The Washington Center. The normal 2.5 credit course load for participants in the programme is:

PSCI 3905 [1.5] Washington Center Internship	1.5
PSCI 4905 [0.5] Washington Center Seminar I	0.5
PSCI 4906 [0.5] Washington Center Seminar II	0.5
Total Credits	2.5

Full information on the program and application forms can be obtained from the Department of Political Science.

Political Science (PSCI) Courses

PSCI 1100 [0.5 credit]

Democracy in Theory and Practice

Introduction to modern political ideas such as liberty, equality, the rule of law, representation, participation (including gender aspects), the impact of these ideas on political and policy making institutions in Canada; other countries may be examined. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000, PSCI 1001, and PSCI 1003.

Lectures two hours a week, tutorials one hour a week.

PSCI 1200 [0.5 credit]

World Politics

Compares politics in selected states and world regions, including political institutions and cultures, development, public policy making, and gender. Global issues and international relations among states, international organizations, and other actors. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000 (no longer offered), PSCI 1002, GPOL 1000 (no longer offered) and GPOL 1500.

Lectures two hours a week, tutorials one hour a week.

PSCI 1500 [0.5 credit]

Technology, Nature, Power

Social media, self-driving cars, genetic manipulation: technology is transforming both the human experience and the natural world. This course explores interactions among technological change, the evolution of social and political order, and the transformation of the environment (for example, with climate change).

Lectures two hours a week.

PSCI 1501 [0.5 credit]

Politics of Migration

Introduction to concepts and theories that help explain the complex phenomenon of human migration, including the social and political relevance of different types of migration to Canada and in other regions and the political responses to migration and mobility today.

Lectures two hours a week, tutorials one hour a week.

PSCI 2002 [0.5 credit]

Canadian Politics and Civil Society

An examination of the cultural, social, and economic context of Canadian politics, including interest groups and social movements, regionalism, language, ethnicity, and gender.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2003 [0.5 credit]

Canadian Political Institutions

An examination of Canadian political institutions, including federalism, Parliament, the constitution, political parties and the electoral system.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2101 [0.5 credit]

Comparative Politics of the Global North

Domestic politics in states of the Global North.

Comparison of political and economic regimes, political institutions, actors, political processes and cultures, and patterns of public policy making.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2102 [0.5 credit]**Comparative Politics of the Global South**

Introduction to domestic politics in post-colonial and developing states of the Global South. Topics may include nationalism, authoritarianism, economic development, revolution, democratization, and the politics of gender, religion, and ethnicity.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2200 [0.5 credit]**Introduction to U.S. Politics**

An examination of several important aspects of the U.S. political system, including separation of powers, checks and balances, and federalism.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorial one hour a week.

PSCI 2301 [0.5 credit]**History of Political Thought I**

Western political thought from classical times to the Renaissance: Plato, Aristotle, and other thinkers.

Precludes additional credit for PSCI 2300 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2302 [0.5 credit]**History of Political Thought II**

Western political thought from the Renaissance:

Machiavelli, Hobbes, Locke, Rousseau and other thinkers.

Precludes additional credit for PSCI 2300 [1.0] (no longer offered).

Prerequisite(s): PSCI 2301 or permission of the department.

Lectures two hours a week, tutorials one hour a week.

PSCI 2401 [0.5 credit]**Public Affairs Analysis**

Introduction to central concepts and processes involved in public affairs. Exploration of public issues, policy approaches and decision-making structures using theoretical, empirical and applied approaches.

Precludes additional credit for PSCI 2400 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2500 [0.5 credit]**Gender and Politics**

Introduction to gender and politics of diversity, including how feminist activism and organizing finds expression in the political process and structures of representation such as political parties, legislatures and the state.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2601 [0.5 credit]**International Relations: Global Politics**

Introduction to theories, concepts and issues in global politics. Topics may include conflict and intervention, peace and security, international institutions, norms and ethics, human rights, gender, culture, and globalization. Precludes additional credit for GPOL 1000 (no longer offered), GPOL 1500.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2602 [0.5 credit]**International Relations: Global Political Economy**

Introduction to the international political economy.

Topics may include contemporary changes in the global political economy, multinational corporations, foreign economic policy, global and regional economic institutions, environmental issues, international development and relations between rich and poor countries.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2701 [0.5 credit]**Introduction to Research Methods in Political Science**

Introduction to the logic and design of research.

Measurement and inference in qualitative and quantitative political science.

Precludes additional credit for PSCI 2700 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2702 [0.5 credit]**Quantitative Research Methods in Political Science**

The logic and methods of the quantitative study of politics, with emphasis on the application and interpretation of statistical techniques for data analysis. Students are strongly encouraged to take this course the same year as PSCI 2701.

Includes: Experiential Learning Activity

Precludes additional credit for ENST 2006, GEOG 2006, PSCI 2700 (no longer offered).

Prerequisite(s): PSCI 2701 or permission of the Department.

Lectures two hours a week, tutorials one hour a week.

PSCI 3000 [0.5 credit]**Canadian Provincial Politics**

A comparative examination of the nature of Canadian provincial politics. Topics include: political culture, history, party systems, electoral systems and voting behaviour.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3004 [0.5 credit]**Political Parties and Elections in Canada**

The evolution of the party system, the growth of major and minor party movements and the electoral process in Canada.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3005 [0.5 credit]**Ontario Government and Politics**

A survey of the political process and political institutions in Ontario.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3006 [0.5 credit]**Social Power in Canadian Politics**

The role of social forces in the Canadian political process, including interest groups, social movements, elites and classes.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3007 [0.5 credit]**Constitutional Politics in Canada**

The politics of the Canadian constitution. Particular attention to historical and contemporary constitutional reform.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3100 [0.5 credit]**Politics of Development in Africa**

The historical background of African independence, and contemporary struggle for democracy and economic development in Africa.

Prerequisite(s): third-year standing and one of AFRI 1002, GPOL 1000, GPOL 1500, GPOL 2500 or PSCI 2102.

Lectures three hours a week.

PSCI 3101 [0.5 credit]**Politics of War in Africa**

The recurrent crises of war, and political instability in Africa, along with regional and international efforts to resolve them.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3102 [0.5 credit]**Politics of Development of China**

The evolving structures and processes of government in (greater) China with particular emphasis on politics in the People's Republic of China and secondary emphasis on Taiwan and Hong Kong.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3103 [0.5 credit]**State, Society and Economy in Northeast Asia**

The relationship between government structures, society and the economy in Northeast Asia with particular emphasis on Japan and Korea.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3105 [0.5 credit]**Imperialism**

Ideologies, practices, and legacies of western dominance over Asia, Africa, and Latin America. Examines the complexities of imperial control and the colonial relationship from the nineteenth century to present.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3107 [0.5 credit]**The Causes of War**

Alternate theories of the causes of war. Such alternate perspectives as biological, social and comparative historical approaches, including the results of peace research activities of the past two decades.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2601.

Lectures three hours a week.

PSCI 3108 [0.5 credit]**Politics of Popular Culture**

Examines political themes in popular culture. Cultural media may include film, literature, television, music, cartoons/comics, and the news media. Political themes may include war, ethnicity, nationalism, revolution, citizenship, gender and sexuality.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3109 [0.5 credit]**The Politics of Law and Morality**

Politics of moral regulation in Canada, the United States and other jurisdictions. The treatment in law and public policy of such human rights issues as: capital punishment, sexual orientation, euthanasia, abortion, new reproductive technologies, racial discrimination, religious and equality rights.

Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003 or PSCI 2101.

Lectures three hours a week.

PSCI 3200 [0.5 credit]**U.S. Constitutional Politics**

The central role played by the U.S. Constitution in the country's political life, from the Framers to current controversies. Includes issues of race, class and gender.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3203 [0.5 credit]**Government and Politics in the Middle East**

The evolution and functioning of political systems in the Middle East region, with emphasis on the problems of political stability, the impact of the West, the role of Islam, and war and peace.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3204 [0.5 credit]**Politics of Latin America**

An overview of the evolution of Latin American political systems, including the impact of the European conquest, democratization, economic liberalization, state-civil society relations, gender politics, revolutionary movements, and relations with the United States.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3205 [0.5 credit]**Mexican Politics**

An introduction to the politics, society and economy of Mexico. Topics include processes of democratization and economic liberalization, human rights, the environment, the role of women, labour, and indigenous peoples, and social policy. Special emphasis on Mexico's role in the North American political economy.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of

GPOL 1500, GPOL 2500, PSCI 2102 or PSCI 2602.

Lectures three hours a week.

PSCI 3206 [0.5 credit]**European Democracies**

A comparative examination of select controversies over democracy in specific European countries, considered within the context of 20th century historical trends, as well as contemporary political debates.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3207 [0.5 credit]**The Government and Politics of European Integration**

The process of European integration; the European Union and its institutions; core EU policies, challenges to the integration process (e.g. democratic legitimacy, enlargement); theories of European integration.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3208 [0.5 credit]**Politics in Russia and Ukraine: Power and Contestation**

Political development in post-Soviet Russia and Ukraine, including examination of the complicated relationship between the two states. Historical perspectives, institutional context (including federalism) and comparative insights.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3209 [0.5 credit]**Reconstruction and Transformation in Europe and Eurasia**

The politics of dramatic political changes, such as revolution, secession, constitutional revision, and systemic reform. The course will include selected historical and comparative cases from Central and Eastern Europe and the former Soviet Union.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3210 [0.5 credit]**Electoral Politics in the U.S.**

An overview of specific aspects of U.S. electoral politics, including presidential and congressional elections, incumbency, the two-party system, campaign spending limits, the role of the media, and voter turnout.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3300 [0.5 credit]**Politics and Literature**

A study of imaginative prose in which political ideas and/or political settings dominate. Literature as political communication, the impact of literature upon politics, the peculiar value of literature in the study of politics and its shortcomings.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3302 [0.5 credit]**Comparative Political Thought**

A comparative survey of political thought focusing on a range of traditions that may include readings from Aboriginal, African, Chinese, Indian, Jewish, Latin American, Muslim, and Persian perspectives.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3303 [0.5 credit]**Feminist Political Theory**

Introduction to feminist philosophical responses to sexism, taking into consideration the different waves of feminist discourse. Topics may include the concept of gender; women's diversity and its implications; 'intersectionality'; gender, capitalism and the family; and new approaches to feminist knowledge and feminist agency.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3307 [0.5 credit]**Politics of Human Rights**

Politics of human rights in its historical and cultural context, including: early liberal theories of natural rights; utilitarian and Marxist critiques; contemporary rights debates; different generations of rights; feminism and women's rights; cultural relativism; state sovereignty; and, problems of implementation and enforcement.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3308 [0.5 credit]**Modern Political Thought**

A survey of trends in modern political thought, including some of liberalism, conservatism, neo-conservatism, Marxist and neo-Marxist socialism, communitarianism, postmodernism and globalization.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3309 [0.5 credit]**Modern Ideologies**

A survey of ideologies, mainly since 1900, including some of nationalism, utopian socialism, communism, fascism, populism, environmentalism and feminism.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3311 [0.5 credit]**History of Muslim Political Thought**

A survey of political thought among Muslims, tracing the emergence and influence of juridical, philosophical and administrative approaches to politics on Muslim civilization.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3312 [0.5 credit]**Enlightenment Political Thought**

Major Enlightenment thinkers and major themes of Enlightenment political thought. Topics may include reason, religion, toleration, liberty, equality, the foundations of political authority, autonomy, morals, taste, progress, history or commerce.

Prerequisite(s): third-year standing.

Lecture three hours a week.

PSCI 3401 [0.5 credit]**Canadian Public Administration**

Study of the institutions and dynamics of government in Canada, with emphasis on political context, administrative reforms, policy development and ongoing challenges. Analysis may include federal, provincial and/or municipal levels of government.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing and one of PSCI 2002, PSCI 2003, PSCI 2401, or PAMP 2000.

Lectures three hours a week.

PSCI 3402 [0.5 credit]**Canadian Public Policy**

Policy communities and policy networks in Canada with particular attention paid to policy issues, the political environment, policy instruments, impact and outcomes.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003, PSCI 2401, or PAMP 2000.

Lectures three hours a week.

PSCI 3405 [0.5 credit]**Comparative Public Policy Analysis**

The formation and impact of public policy: a variety of political systems as well as a variety of policy areas. Emphasis on developing skills for the analysis of policy formation and impact.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2101, PSCI 2400, PSCI 2401, or PAMP 2000.

Lectures three hours a week.

PSCI 3406 [0.5 credit]**Public Affairs and Media Strategies**

The public affairs and issue management strategies of corporations, government departments, and other institutions in Canada from a comparative perspective.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3407 [0.5 credit]**Public Opinion and Public Policy**

Theories about the origins and dynamics of public opinion, the ways in which public opinion influences government policy and decision-making, and how decision-makers are able to shape public opinion.

Prerequisite(s): PSCI 2701 and PSCI 2702.

Lectures three hours a week.

PSCI 3410 [0.5 credit]**Introduction to Political Management**

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as POLM 3000 and COMS 3100.

Prerequisite(s): third-year standing.

Lecture three hours a week.

PSCI 3502 [0.5 credit]**Gender and Politics: Global South**

A contemporary approach to the role of gender in political systems of the South. Topics may include gender and development, human rights, social policies, globalization, state-civil society relations, political participation and citizenship.

Prerequisite(s): third-year standing and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2102, PSCI 2500 or PSCI 3307.

Lectures three hours a week.

PSCI 3600 [0.5 credit]**International Institutions**

Origins, structure and functioning of international institutions with emphasis on the United Nations as well as regional organizations. Topics include peace and security, international aid and development, human rights and the control of global resources.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3601 [0.5 credit]**Theories of International Politics**

Examination of the major theoretical approaches to the study of international politics. Topics may include realism, liberalism, Marxism, constructivism, feminism, and poststructuralism.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2601.

Lectures three hours a week.

PSCI 3603 [0.5 credit]**Strategic Thought and International Security**

The ideas of classical and contemporary strategic thinkers. International security issues and concepts.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3606 [0.5 credit]**Canadian Foreign Policy**

The traditions, domestic influences, objectives, capabilities, and decision-making processes, and analysis of selected contemporary issues.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2002, PSCI 2003, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3607 [0.5 credit]**North American Security and Defence Policy**

The evolution of Canadian and U.S. security and defence policy as it pertains to North America. Contemporary issues and development.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3608 [0.5 credit]**Migration Governance**

Advanced introduction to the politics of human mobility and migration, including attempts by states and other actors to influence migration and mobility and emerging types of governance at the national, regional and global levels.

Prerequisite(s): third-year standing or permission of the Department.

Lecture three hours a week.

PSCI 3609 [0.5 credit]**Global Politics of Food**

Drawing on theories of international relations, political economy, and public policy-making, this course examines the global, national and local politics of food production and distribution. Topics include food security, free trade versus fair trade, the environmental sustainability of food systems, food sovereignty and food aid.

Prerequisite(s): third-year standing or permission of the Department.

Lecture three hours a week.

PSCI 3700 [0.5 credit]**Government and Politics of South Asia**

Patterns of colonialism, evolving political regimes and issues in development and foreign policy in the countries of South Asia, including India, Pakistan, Bangladesh, Sri Lanka, and other member states of SAARC.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2102.

Lectures three hours a week.

PSCI 3702 [0.5 credit]**Israeli-Palestinian Relations**

The origins and evolution of the Israeli-Palestinian conflict and peace process.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3703 [0.5 credit]**Governing in the Global Economy**

The main approaches and policy issues in the political economy of advanced industrialized states. The relationship between state and market and the ways in which national states have responded to the pressures of governing in an increasingly interdependent global economy.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2602.

Lectures three hours a week.

PSCI 3704 [0.5 credit]**Government and Politics of Central and Eastern Europe**

A comparative examination of Central and Eastern European states and societies. Topics discussed include political institutions and processes, societal structures and collective identities, patterns of post-communist transformation, the impact of European integration, relations with Russia and post-Soviet States.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3709 [0.5 credit]**Ancient and Medieval Political Thought**

The significance for political theory of the ancient and medieval controversies over nature/convention, power/knowledge, time/eternity, theory/practice, and science/mysticism. Thinkers such as Homer, the pre-Socratics, Plato and Aristotle, the neo-Platonists, Augustine, and the Scholastics.

Prerequisite(s): (PSCI 2301 and PSCI 2302) or permission of the Department.

Lectures three hours a week.

PSCI 3801 [0.5 credit]**Environmental Politics**

Environmental issues in contemporary political argument. Topics include: environmental movements and green parties, environmental ethics and animal rights, economic approaches to environmental management, the politics of sustainable development, and the international politics of the environment.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3802 [0.5 credit]**Globalization and Human Rights**

An examination of the various dimensions and meanings of globalization and its relationship with human rights. The main emphasis will be on the implications of the emerging global economy for economic, social, political and cultural rights.

Also listed as SOCI 3027, ANTH 3027.

Prerequisite(s): third-year standing and one of:

GPOL 1500, SOCI 1010 [1.0], ANTH 1003[1.0], ANTH 1010[1.0], ISSC 1001[1.0], PSCI 2601, PSCI 2602, LAWS 2105, PHIL 2103 or (ANTH 1001 and ANTH 1002), or (SOCI 1001 and SOCI 1002).

Lectures three hours a week.

PSCI 3805 [0.5 credit]**Politics of Race**

The meaning, sources and practice of racialism, as well as efforts to combat it, in a comparative context. Case studies will include South Africa, the United States, and Canada.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3809 [0.5 credit]**Selected Topics in Political Science**

A lecture course on a selected contemporary topic in Political Science. Topic may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3900 [1.0 credit]**Études dirigées**

Une programme de lectures choisies et de travaux écrits dans le domaine de spécialisation d'un membre du département. Consulter le conseiller des études de premier cycle (Undergraduate supervisor) pour les sujets offerts.

Prerequisite(s): third-year standing in the Political Science Mention : Français program.

PSCI 3905 [1.5 credit]**Washington Center Internship**

One-term internship at The Washington Center in D.C.; options in American politics, international affairs, and other areas. Evaluation by Washington Center faculty, but governed by Carleton University Political Science Department regulations. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210 and permission of the department.

PSCI 3906 [1.0 credit]**Full-Year Political Science Internship**

Internship gives students the opportunity to work with an organization whose focus relates to politics over a full academic year. Students complete a research paper related to their internship. Students must identify an organization to host the internship and a faculty member to provide supervision.

Includes: Experiential Learning Activity

Precludes additional credit for GPOL 3100, PSCI 3907, Carleton/Leeds Parliamentary Exchange and the Washington Internship.

Prerequisite(s): third-year Honours standing with a minimum Political Science CGPA of 9.0 or permission of the Department.

PSCI 3907 [0.5 credit]**One-Term Political Science Internship**

Internship gives students the opportunity to work with an organization whose focus relates to politics over one academic term. Students complete a research paper related to their internship. Students must identify an organization to host the internship and a faculty member to provide supervision.

Includes: Experiential Learning Activity

Precludes additional credit for GPOL 3100, PSCI 3906, Carleton/Leeds Parliamentary Exchange and the Washington Internship.

Prerequisite(s): third-year Honours Standing with a minimum Political Science CGPA of 9.0 or permission of the Department.

PSCI 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

PSCI 4001 [0.5 credit]**Topics in Canadian Government and Politics**

A seminar focused on selected topics in Canadian government and politics.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4003 [0.5 credit]**Politics and the Media**

The role of the mass media in the Canadian political system from a comparative perspective.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4005 [0.5 credit]**Canadian Federalism**

The evolution and contemporary operation of the Canadian federal system; the social, political, economic, and structural features underlying its operational performance, resilience in crisis, and potential for adaptation.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, PSCI 2003 or PSCI 2101.

Also offered at the graduate level, with different requirements, as PSCI 5101, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4006 [0.5 credit]**Legislatures and Representation in Canada**

The role of Parliament and of the individual M.P. in terms of policy making, party discipline, and differing conceptions of representation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5006, for which additional credit is precluded.

Seminar three hours per week.

PSCI 4008 [0.5 credit]**National Security and Intelligence in the Modern State**

The state's response to foreign espionage, alleged subversion, terrorism, and counterintelligence. Major focus on the Canadian experience, but with extensive use of materials chronicling the practices of KGB, CIA, BIS, ASIO, MOSSAD, etc.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4009 [0.5 credit]**Quebec Politics**

Society, culture, economy and politics in Quebec. Special attention to the politically relevant changes since 1960 and the central place of Quebec within the Canadian federation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4010 [0.5 credit]**Executive Power in Canadian Politics**

Consideration of prime ministers, premiers, cabinet ministers and senior public service leadership in Canadian politics and government.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5010, for which additional credit is precluded.

PSCI 4103 [0.5 credit]**The Modern State**

A survey of recent thinking about the state in western societies drawing on perspectives such as those of feminists, Marxists, Weberians, poststructuralists and others. Topics may include: the rise of the modern state, economic governance, the public sphere, citizenship, sovereignty and territoriality.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4104 [0.5 credit]**Development in the Global South - Theory and Practice**

Different theoretical approaches to the concept of development in the Global South and their relevance for selected countries in Latin America, Africa and Asia.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4105 [0.5 credit]**Selected Problems in Development in the Global South**

Topics may include global issues of trade, finance and production, changing patterns of foreign aid, and the role of microfinance, mining, non-governmental organizations, migration, anti-poverty programs and activism in promoting development.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4107 [0.5 credit]**Political Participation in Canada**

The causes and implications of political participation by individuals with special reference to Canada. Topics include citizen participation in campaign and party organizations, political protest movements, interest groups, and community associations.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 2700, or (PSCI 2701 and PSCI 2702).

Seminar three hours a week.

PSCI 4109 [0.5 credit]**The Politics of the Canadian Charter of Rights and Freedoms**

The genesis and impact of the Charter of Rights and Freedoms. Particular emphasis on the politics of aboriginal, language, and equality rights.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4203 [0.5 credit]**Southern Africa After Apartheid**

The pathology of apartheid, the reasons for its end, and prospects for democratization and development in Southern Africa in the era of globalization.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5203, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4204 [0.5 credit]**Elections**

The conduct and meaning of elections in contemporary states. Attention to the connection of elections to concepts of representation, policy mandates, and political parties, and to electoral systems and referendums.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, GPOL 2500, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 2700, or (PSCI 2701 and PSCI 2702).

Also offered at the graduate level, with different requirements, as PSCI 5204, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4206 [0.5 credit]**Indigenous Politics of North America**

Issues of governance regarding the original peoples of Canada, Mexico and the United States since the European invasion. Contemporary movements for restoration of cultural, political, socio-economic, land and self-governance rights, emphasizing domestic and international strategies.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, GPOL 2500, PSCI 2001, PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, or PSCI 3205.

Also offered at the graduate level, with different requirements, as PSCI 5100, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4207 [0.5 credit]**Globalization, Adjustment and Democracy in Africa**

The nature of global pressures in Africa, as states go through political and economic change.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5107, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4209 [0.5 credit]**Westminster Democracies: Parliaments, Parties and Elections**

Examination of party and parliamentary democracy in the five principal Anglophone parliamentary democracies:

Australia, Canada, Ireland, New Zealand and the United Kingdom. Consideration is given to the effects of different electoral systems and institutional arrangements on electoral politics, political participation, and party organization.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 2500, PSCI 2003, PSCI 2101, or PSCI 2102.

Seminar three hours a week.

PSCI 4210 [0.5 credit]**Political Identity through Graphic Novels**

Examination of the sources and dynamics of political identity through the medium of graphic novels and graphic memoirs. Themes may include collective memory, genocide, prostitution, violent conflict, civil rights, race and ethnicity, revolution, Indigenous issues, mental health, and gender and sexuality.

Prerequisite(s): fourth year standing or permission of the Department.

Seminar three hours a week.

PSCI 4302 [0.5 credit]**Political Thought in the Modern Muslim Middle East**

Contemporary secular and religious responses to the challenges of modernity. Readings include writings of Arab, Turkish, and Iranian intellectuals.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of (PSCI 2301 and PSCI 2302) or PSCI 3311.

Also offered at the graduate level, with different requirements, as PSCI 5305, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4303 [0.5 credit]**Governmentality and Politics**

Examination of Foucault's concept of governmentality and work which has developed this idea, especially the relevance of governmentality for global political studies. Topics may include sovereignty, biopolitics, technopolitics, neoliberalism and citizenship.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5303 and SOCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4308 [0.5 credit]**History of Political Enquiry**

An examination of methods adopted by major thinkers in the history of political philosophy, amidst changing understandings of metaphysics and science. Thinkers to be considered may include Plato, Aristotle, Descartes, Bacon, Kant, Hegel, Nietzsche, and Heidegger, among others.

Precludes additional credit for PSCI 4304 (no longer offered).

Prerequisite(s): PSCI 2301 and PSCI 2302 or permission of the Department.

Seminar three hours a week.

PSCI 4309 [0.5 credit]**Contemporary Approaches to Political Enquiry**

An examination of contemporary critiques and developments in modern science and social science. Thinkers to be considered may include Gadamer, Strauss, Oakeshott, Voegelin, Polanyi, Feuerabend, Heidegger, Kojève, Schmitt, Foucault, and Derrida.

Precludes additional credit for PSCI 4304 (no longer offered).

Prerequisite(s): PSCI 2301 and PSCI 2302 or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5309, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4311 [0.5 credit]**Political Theories of Democracy and Empire I**

An exploration of how ancient and modern conceptions of empire differ and how the pursuit of empire abroad can undermine good government at home in political theories including Thucydides, Plato, Aristotle and Xenophon.

Precludes additional credit for PSCI 4310 (no longer offered).

Prerequisite(s): fourth-year Honours standing and (PSCI 2301 and PSCI 2302) or permission of the Department.

Seminar three hours a week.

PSCI 4312 [0.5 credit]**Political Theories of Democracy and Empire II**

An exploration of how ancient and modern conceptions of empire differ and how the pursuit of empire abroad can undermine good government at home in political theories including Machiavelli, Hobbes, Hegel, Tocqueville and Heidegger.

Precludes additional credit for PSCI 4310 (no longer offered).

Prerequisite(s): fourth-year Honours standing, (PSCI 2301 and PSCI 2302) and PSCI 4311 or permission of the Department.

Seminar three hours a week.

PSCI 4316 [0.5 credit]**Contemporary Political Theory I**

Focus on the main currents of political thought in late and post-modernity; the relation between classical and modern philosophy, tyranny and technology, existentialism and nihilism. Thinkers such as Strauss, Kojève, Nietzsche, Arendt, Heidegger and Schmitt may be read.

Precludes additional credit for PSCI 4305 (no longer offered).

Prerequisite(s): fourth-year Honours standing and (PSCI 2301 and PSCI 2302) or permission of the Department.

Seminar three hours a week.

PSCI 4317 [0.5 credit]**Contemporary Political Theory II**

Continues and expands themes examined in PSCI 4316, and will include post-modernism, investigations of technology and globalization, terrorism and trans-humanism. Representative thinkers may include Derrida, Foucault, Deleuze, Bataille, Rosen, Voegelin, Habermas and Steiner.

Precludes additional credit for PSCI 4305 (no longer offered).

Prerequisite(s): fourth-year Honours standing; PSCI 2301, PSCI 2302 and PSCI 4316, or permission of the Department.

Seminar three hours a week.

PSCI 4318 [0.5 credit]**Concepts of Political Community I**

Critical survey of concepts of political community, including the common good, justice, citizenship, leadership, democracy, and legitimacy, from ancient, modern, and contemporary political theory.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5308, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4319 [0.5 credit]**Concepts of Political Community II**

A continued critical survey of concepts of political community, including the common good, justice, citizenship, statesmanship, democracy, and legitimacy, from ancient, modern, and contemporary political theory. Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5309, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4400 [0.5 credit]**Socio-Technical Change and Public Policy Design**

Joint implications of contemporary science, technology and demographics for the design of public policy. The main emphasis of the course will be general patterns of change and design relating to public policy.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4403 [0.5 credit]**Reproductive Rights Policy in North America**

The interaction between social movements, legislatures and courts in formulating reproductive rights policy in Canada, the U.S. and Mexico.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4404 [0.5 credit]**The Design and Evolution of Public Institutions**

An examination of the emergence, development and collapse of institutional collective action in a broad historical framework, with attention to probable future scenarios for change. Readings are taken from anthropology, economics, history and empirical political theory.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4407 [0.5 credit]**Public Policy: Content and Creation**

The content and creation of public policy. Focus on the explanation, prediction and design of policy. Perspectives and examples are drawn from a variety of frameworks and from both Canadian and non-Canadian contexts.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2400, PSCI 2401, PSCI 3402, PSCI 3405, PSCI 3409 or PAMP 2000.

Seminar three hours a week.

PSCI 4408 [0.5 credit]**Public Affairs Management and Analysis**

Theories and practice in the management of public affairs, including the environment and administration of the public sector, public opinion, and public communications.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2401, PSCI 3401, PSCI 3404 or PAMP 2000.

Seminars three hours a week.

PSCI 4409 [0.5 credit]**Issues in Development Management**

An examination of the application of organization theory to policy implementation and evaluation for developing and transitional systems, with an emphasis on the role of cultural differences and divergent value systems in development management.

Also listed as INAF 4202.

Prerequisite(s): ECON 3508 and fourth-year standing in the B.P.A.P.M. program and registration in either the International Studies specialization or the Development Studies specialization or permission of the Department. Lectures or seminars three hours a week.

PSCI 4500 [0.5 credit]**Gender and Globalization**

How globalization affects women's involvement in politics and how they organize to conceptualize and pursue gender justice in official politics; grass roots projects and cultural transformations; ideology; stand-alone movements; and mixed-sex movements like nationalism and democratization.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 2500, PSCI 3500, PSCI 3502.

Seminars three hours a week.

PSCI 4501 [0.5 credit]**Politics of Identity in Europe and the Russian Area**

The relationships between political transformation, identity-building, ethnicity, and gender politics in post-communist states, considered in comparison with select countries in Central and/or Western Europe.

Includes: Experiential Learning Activity

Also listed as EURR 4205.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2500, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

PSCI 4502 [0.5 credit]**Post-Soviet States and Societies**

The relationship between social forces and state structures at both the national and local levels in the USSR and the post-communist states.

Also listed as EURR 4002.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of EURR 2001, EURR 2002, GPOL 1000, GPOL 1500, PSCI 3208, PSCI 3209, PSCI 3704, PSCI 3705, or HIST 2600.
Seminar three hours a week.

PSCI 4503 [0.5 credit]**Politics of Central Eurasia**

Examination of the Caucasus and Central Asia, from Chechnya to former Soviet republics of the region, Afghanistan and Chinese Turkestan. Interests of Russia, China, and the United States. Emphasis on underdevelopment, oil and gas, terrorism, Islam.

Includes: Experiential Learning Activity

Also listed as EURR 4207.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4504 [0.5 credit]**Politics of the Caucasus and Caspian Basin**

Examination of the South Caucasus (Azerbaijan, Georgia, Armenia), the Russian-held North Caucasus, including Chechnya, and relations with Iran. Emphasis on state and society, oil and gas, transregional communications, interests of western powers, ethnic relations.

Includes: Experiential Learning Activity

Also listed as EURR 4209.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4505 [0.5 credit]**Transitions to Democracy**

A comparative analysis of processes of democratization. Diverse theoretical approaches to understanding the timing, causes, nature, and limitations of democratization. Examples from Europe and Russia, Latin America, Africa, and Asia.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2102, PSCI 3100, PSCI 3204, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

PSCI 4506 [0.5 credit]**Women and Politics in North America**

The efforts of women in North America to increase their political role through public activism, including in party organizations, social movements, legislatures, courts and the executive branch of government.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4507 [0.5 credit]**The Balkans since 1989**

Selected topics in Balkan politics and society since the collapse of communism in 1989, focusing on the democratic transition and the EU accession process. The legacies of communist rule, democratization and the many national questions that still exist in the region.

Also listed as EURR 4102.

Prerequisite(s): fourth year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4601 [0.5 credit]**Foreign Policies of Soviet Successor States**

The foreign policies of the USSR and of Russia and selected other successor states, with special emphasis on the search for a new security order.

Also listed as EURR 4208.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of EURR 2001, EURR 2002, GPOL 1000, GPOL 1500, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 3107, PSCI 3208, PSCI 3209, PSCI 3600, PSCI 3603, PSCI 3703.
Seminar three hours a week.

PSCI 4603 [0.5 credit]**Analysis of International Political Economy**

Various theoretical approaches to the study of the international political economy, with a focus on historical development and changing international structures.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.
Seminar three hours a week.

PSCI 4604 [0.5 credit]**Selected Problems in International Political Economy**

Contemporary problems and issues in the international political economy, with particular attention given to advanced industrial countries.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.
Seminar three hours a week.

PSCI 4605 [0.5 credit]**Gender in International Relations**

Analysis of feminist approaches to international relations. Substantive issues include the role of women in war and militarization, the gender dimensions of global political economy and gender issues in international development.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3500, PSCI 3303 or PSCI 3502.
Seminars three hours a week.

PSCI 4606 [0.5 credit]**American Foreign Policy**

The sources, trends and conflicting interpretations of the international roles of the United States since World War II. Foreign policy machinery and processes assessed in terms of the relative importance of perceptions, ideology, self-interest, and domestic and foreign pressures.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2101, PSCI 2601, PSCI 2602, PSCI 3200, PSCI 3201, PSCI 3603, PSCI 3703.
Seminar three hours a week.

PSCI 4607 [0.5 credit]**Politics of North America**

A seminar examining the evolving relationship between Canada, the United States and Mexico, including political, economic, social, environmental and defence aspects.

Includes: Experiential Learning Activity
Precludes additional credit for PSCI 5607.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4608 [0.5 credit]**European Integration and European Security**

A seminar focusing on issues related to the formation of supra-national decision-making structures in Europe.

Includes: Experiential Learning Activity
Also listed as EURL 4104.

Prerequisite(s): fourth-year Honours standing or permission of the department.
Also offered at the graduate level, with different requirements, as PSCI 5608, and as EURL 4104/5104, for which additional credit is precluded.
Seminar three hours a week.

PSCI 4609 [0.5 credit]**Selected Topics in European Integration Studies**

A seminar focusing on selected topics related to European integration in the post-World War II period.

Also listed as EURL 4106.
Prerequisite(s): fourth-year Honours standing or permission of the department.
Seminar three hours a week.

PSCI 4610 [0.5 credit]**Politics of Migration Management**

Seminar course that critically engages with innovative policies and instruments under the umbrella of 'migration management', and the proliferation of actors (states, international organizations, NGOs, private companies etc) involved in shaping and contributing to migration governance.

Prerequisite(s): fourth-year Honours standing or permission of the department.
Seminar three hours a week.

PSCI 4701 [0.5 credit]**Intermediate Polimetrics for Micro Data**

Research designs and statistical techniques primarily used in analyzing survey data. Selected topics may vary from year to year. Students doing Honours papers based on micro data are advised to take this course.

Includes: Experiential Learning Activity
Prerequisite(s): PSCI 2700 or (PSCI 2701 and PSCI 2702), or permission of the Department.
Also offered at the graduate level, with different requirements, as PSCI 5701, for which additional credit is precluded.
Seminar three hours a week.

PSCI 4702 [0.5 credit]**Intermediate Research Methods for Applied Political Science**

Applied methods for policy, politics and public affairs. Primarily quantitative, but may have qualitative elements.

Includes: Experiential Learning Activity
Prerequisite(s): PSCI 2700 or (PSCI 2701 and PSCI 2702), or permission of the Department.
Also offered at the graduate level, with different requirements, as PSCI 5702, for which additional credit is precluded.
Seminar three hours a week.

PSCI 4800 [0.5 credit]**Advanced International Relations Theory**

Exploration of concepts, themes, and practices in contemporary international relations theory. Topics may include anarchy, empire, sovereignty, power, institutions, inequality, security, war, ethics, governance, and identity.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3303, PSCI 3307.
Seminar three hours a week.

PSCI 4801 [0.5 credit]**Selected Problems in Global Politics**

The application of international relations theories to specific global problems, both historical and contemporary. Selected issues may focus on one or more of conflict analysis, terrorism, the environment, migration, globalization and global civil society.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3107, PSCI 3600, PSCI 3601, PSCI 3603, and PSCI 3703.
Seminar three hours a week.

PSCI 4802 [0.5 credit]**International Politics of Africa**

Focus on a particular theme related to the interactions of African states within the African subsystem and with other sectors in the international system.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3100 or PSCI 3101.
Seminar three hours a week.

PSCI 4803 [0.5 credit]**Foreign Policies of Major East Asian Powers**

The foreign policies of the East Asian powers, with special attention to China and Japan; an analysis of the domestic sources of policy, capabilities, interests, decision-making processes and foreign relations.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 3102, or PSCI 3103.

Seminar three hours a week.

PSCI 4805 [0.5 credit]**Political Economy of Global Money and Finance**

An exploration of the organization of the global monetary and financial system. Issues covered include the relationship between global finance and the state, the politics of world money, and the problems associated with regulating internationally-active financial institutions.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.

Also offered at the graduate level, with different requirements, as PSCI 5802, for which additional credit is precluded.

Seminars three hours a week.

PSCI 4806 [0.5 credit]**Transatlantic Security Issues**

NATO as a political and military alliance. NATO and 21st century threats. Security roles for the E.U. Broader transatlantic security issues.

Precludes additional credit for PSCI 5803.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2601, PSCI 3603, PSCI 3607, or GPOL 1500.

Seminars three hours a week.

PSCI 4807 [0.5 credit]**Politics of Citizenship and Migration**

How flows of people -- migrants, temporary workers and refugees -- challenge state sovereignty, citizenship and belonging. Emphasis on role of the state, supranational structures and international organizations in migration and mobility.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4808 [0.5 credit]**Global Environmental Politics**

Global politics of transboundary environmental issues such as biodiversity protection, climate change and desertification. The perspectives, actors, institutions and economic relationships affecting international policy responses to these issues.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2401, PSCI 2601, PSCI 2602, or PSCI 3801.

Seminar three hours a week.

PSCI 4809 [0.5 credit]**Honours Seminar on a Selected Topic in Political Science**

A seminar on a selected contemporary topic in Political Science. Topic may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4817 [0.5 credit]**International Politics of Forced Migration**

The relationship between international politics and the causes, consequences and responses to forced migration, internal displacement and refugees. Seminars and case studies are used to examine the evolution of the global refugee regime and the challenges it faces today.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4819 [0.5 credit]**Latin America in the World**

Latin America's changing relations with states, international institutions and non-state actors in the Global North and South. Topics may include security, South-South cooperation, trade, investment and transnational migration and drug trafficking.

Also listed as LACS 4819.

Prerequisite(s): fourth year standing or permission from the Department.

Seminar three hours a week.

PSCI 4900 [1.0 credit]**Tutorial in a Selected Field**

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4901 [0.5 credit]**Tutorial in a Selected Field**

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4902 [0.5 credit]**Tutorial in a Selected Field**

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4905 [0.5 credit]**Washington Center Seminar I**

A seminar offered by The Washington Center, governed by Carleton regulations, and co-ordinated by Carleton's Department of Political Science.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210.

Seminar three hours a week.

PSCI 4906 [0.5 credit]**Washington Center Seminar II**

A seminar offered by The Washington Center, governed by Carleton regulations, and co-ordinated by Carleton's Department of Political Science.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210.

Seminar three hours a week.

PSCI 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. Students are responsible for locating a faculty member willing to supervise the essay. Departmental regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Political Science with a Political Science CGPA of 9.00 or better, or permission of the Supervisor of Undergraduate Studies.

PSCI 4909 [1.0 credit]**Mémoire de recherche**

Un travail de recherche dans le domaine de spécialisation d'un membre du département. Consulter le conseiller des études de premier cycle (Undergraduate supervisor) pour les sujets offerts.

Prerequisite(s): fourth-year Honours standing in the Political Science Mention : Français program.

Psychology

This section presents the requirements for programs in:

- Psychology B.A. Honours
- Psychology B.A. Combined Honours
- Concentration in Cognitive Psychology
- Concentration in Developmental Psychology
- Concentration in Forensic Psychology
- Concentration in Health Psychology
- Concentration in Organizational Psychology
- Concentration in Social/Personality Psychology
- Stream in Mental Health and Well-Being
- Psychology B.A.
- Psychology B.Sc. Honours

- Minor in Human Resources and Management for B.A. Honours Psychology
- Minor in Psychology

Program Requirements**Psychology****B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (9.0 credits):**

1. 1.0 credit in:		1.0
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
2. 1.0 credit in:		1.0
PSYC 2001 [0.5]	Introduction to Research Methods in Psychology	
PSYC 2002 [0.5]	Introduction to Statistics in Psychology	
3. 0.5 credit from:		0.5
PSYC 2307 [0.5]	Human Neuropsychology I	
PSYC 2700 [0.5]	Introduction to Cognitive Psychology	
4. 0.5 credit from:		0.5
PSYC 2301 [0.5]	Introduction to Health Psychology	
PSYC 2801 [0.5]	Organizational Psychology I	
5. 1.0 credit from:		1.0
PSYC 2100 [0.5]	Introduction to Social Psychology	
PSYC 2400 [0.5]	Introduction to Forensic Psychology	
PSYC 2500 [0.5]	Foundations of Developmental Psychology	
PSYC 2600 [0.5]	Introduction to the Study of Personality	
6. 1.0 credit from:		1.0
PSYC 3000 [1.0]	Design and Analysis in Psychological Research	
7. 2.0 credits from:		2.0
a. Thesis pathway:		
i. 1.0 credit from:		
PSYC 3100 [1.0]	Social Psychology (Honours Seminar)	
PSYC 3300 [1.0]	Health (Honours Seminar)	
PSYC 3400 [1.0]	Forensic Psychology (Honours Seminar)	
PSYC 3500 [1.0]	Developmental Psychology (Honours Seminar)	
PSYC 3600 [1.0]	Personality (Honours Seminar)	
PSYC 3700 [1.0]	Cognition (Honours Seminar)	
PSYC 3805 [1.0]	Organizational Psychology (Honours Seminar)	
ii. 1.0 credit in:		
PSYC 4908 [1.0]	Thesis for B.A. with Honours in Psychology	
or		
b. Project pathway		
i. 1.0 credit in PSYC at 3000-level or higher		
ii. 1.0 credit in:		
PSYC 4910 [1.0]	Project for B.A. with Honours in Psychology	
8. 1.0 credit in PSYC at 3000-level or higher		1.0
9. 1.0 credit in PSYC		1.0

B. Credits Not Included in the Major CGPA (11.0 credits):	
10. 2.0 credits from BIOL, CHEM, COMP, EARTH, ISCI, MATH, NEUR, PHYS, STAT, or TSES	2.0
11. 3.0 credits at the 2000 level and above, not in PSYC	3.0
12. 3.0 credits, not in PSYC	3.0
13. 3.0 credits free electives	3.0
Total Credits	20.0

Note: Registration in the seminars in Requirement 7 a) i) requires a Major CGPA of at least 9.00. Registration in the thesis course PSYC 4908 [1.0] requires a Major CGPA of at least 10.00.

Psychology

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.0 credits):	
1. 1.0 credit in:	1.0
PSYC 1001 [0.5] Introduction to Psychology I	
PSYC 1002 [0.5] Introduction to Psychology II	
2. 1.0 credit in:	1.0
PSYC 2001 [0.5] Introduction to Research Methods & PSYC 2002 [0.5] in Psychology	
Introduction to Statistics in Psychology	
3. 0.5 credit from:	0.5
PSYC 2307 [0.5] Human Neuropsychology I	
PSYC 2700 [0.5] Introduction to Cognitive Psychology	
4. 0.5 credit from:	0.5
PSYC 2301 [0.5] Introduction to Health Psychology	
PSYC 2801 [0.5] Organizational Psychology I	
5. 1.0 credit from:	1.0
PSYC 2100 [0.5] Introduction to Social Psychology	
PSYC 2400 [0.5] Introduction to Forensic Psychology	
PSYC 2500 [0.5] Foundations of Developmental Psychology	
PSYC 2600 [0.5] Introduction to the Study of Personality	
6. 1.0 credit in:	1.0
PSYC 3000 [1.0] Design and Analysis in Psychological Research	
7. 2.0 credits from:	2.0
a. Thesis pathway	
i. 1.0 credit from:	
PSYC 3100 [1.0] Social Psychology (Honours Seminar)	
PSYC 3300 [1.0] Health (Honours Seminar)	
PSYC 3400 [1.0] Forensic Psychology (Honours Seminar)	
PSYC 3500 [1.0] Developmental Psychology (Honours Seminar)	
PSYC 3600 [1.0] Personality (Honours Seminar)	
PSYC 3700 [1.0] Cognition (Honours Seminar)	
PSYC 3805 [1.0] Organizational Psychology (Honours Seminar)	
ii. 1.0 credit in:	
PSYC 4908 [1.0] Thesis for B.A. with Honours in Psychology	
or	

b. Project pathway

i. 1.0 credit in PSYC at 3000-level or higher	
ii. 1.0 credit in:	
PSYC 4910 [1.0] Project for B.A. with Honours in Psychology	

B. Additional Requirements (13.0 credits): 13.0

8. The requirements for Combined Honours in the other discipline must be satisfied.	
9. 2.0 credits from BIOL, CHEM, COMP, EARTH, ISCI, MATH, NEUR, STAT, PHYS or TSES	
10. Sufficient free electives to make 20.0 credits total for the program	
Total Credits	20.0

Notes:

- All students in B.A. Combined Honours Psychology must complete an Honours Project in either Psychology or the other discipline.
- Students who choose to complete PSYC 4908 or PSYC 4910 to meet Item 7 must also complete Items 2 and 6.
- For Item 7 above, please consult with an advisor in the Department of Psychology for acceptable alternatives to PSYC 4910 and PSYC 4908. If Item 8 is completed in the other discipline, Items 2 and 6 above may be replaced by credits from the other discipline with the permission of the Department of Psychology. In this case, replacement credits in Psychology must be completed so that a minimum of 7.0 credits in Psychology is presented at graduation.

Concentration in Cognitive Psychology (3.5 credits)

This concentration is open to all students in the B.A. Honours Psychology, B.Sc. Honours Psychology, and the B.A. Combined Honours program. Only one concentration may be taken in a Psychology program. A maximum of 12.0 credits may be counted towards a B.A. or B.Sc. Honours Psychology degree.

1. 0.5 credit in:	0.5
PSYC 2700 [0.5] Introduction to Cognitive Psychology	
2. 3.0 credits from:	3.0
CGSC 3201 [0.5] Cognitive Processes	
PSYC 2307 [0.5] Human Neuropsychology I	
PSYC 3307 [0.5] Human Neuropsychology II	
PSYC 3506 [0.5] Cognitive Development	
PSYC 3508 [0.5] Child Language	
PSYC 3700 [1.0] Cognition (Honours Seminar)	
PSYC 3702 [0.5] Perception	
PSYC 3709 [0.5] Language Processing and the Brain	
PSYC 3710 [0.5] Introduction to Human Factors	
PSYC 3901 [0.5] Practicum in Community Psychology	
PSYC 3902 [0.5] Practicum in Community Psychology	
PSYC 3905 [1.0] Practicum in Community Psychology	

PSYC 4001 [0.5]	Special Topics in Psychology
PSYC 4700 [0.5]	Advanced Topics in Cognitive Psychology
PSYC 4900 [0.5]	Independent Study
PSYC 4902 [0.5]	Independent Study
PSYC 4907 [1.0]	Thesis for B.Sc. with Honours in Psychology
PSYC 4908 [1.0]	Thesis for B.A. with Honours in Psychology
PSYC 4909 [1.0]	Project for B.Sc. with Honours in Psychology
PSYC 4910 [1.0]	Project for B.A. with Honours in Psychology
<hr/>	
Total Credits	3.5

Notes:

1. If PSYC 3901, PSYC 3902 or PSYC 3905 are presented in partial fulfillment of **Item 2** above, the placements must be consistent with the theme of the concentration.
2. If PSYC 4001 is presented in partial fulfillment of Item 2 above, the focus of the special topic must be consistent with the theme of the concentration.
3. If PSYC 4900 or PSYC 4902 are presented in partial fulfillment of Item 2 above, the focus of the independent study must be consistent with the theme of the concentration.
4. If PSYC 4907, PSYC 4908, PSYC 4909 or PSYC 4910 are presented in partial fulfillment of Item 2 above, the focus of the thesis or project must be consistent with the theme of the concentration.

Concentration in Developmental Psychology (3.5 credits)

This concentration is open to all students in the B.A. Honours Psychology, B.Sc. Honours Psychology, and the B.A Combined Honours program. Only one concentration may be taken in a Psychology program. A maximum of 12.0 credits may be counted towards a B.A. or B.Sc. Honours Psychology degree.

1. 0.5 credit in:	0.5
PSYC 2500 [0.5]	Foundations of Developmental Psychology
2. 3.0 credits from:	3.0
PSYC 3500 [1.0]	Developmental Psychology (Honours Seminar)
PSYC 3505 [0.5]	Exceptional Children
PSYC 3506 [0.5]	Cognitive Development
PSYC 3507 [0.5]	Social Development
PSYC 3508 [0.5]	Child Language
PSYC 3509 [0.5]	Adolescence and Emerging Adulthood
PSYC 3901 [0.5]	Practicum in Community Psychology
PSYC 3902 [0.5]	Practicum in Community Psychology
PSYC 3905 [1.0]	Practicum in Community Psychology
PSYC 4001 [0.5]	Special Topics in Psychology

PSYC 4500 [0.5]	Advanced Topics in Developmental Psychology
PSYC 4900 [0.5]	Independent Study
PSYC 4902 [0.5]	Independent Study
PSYC 4907 [1.0]	Thesis for B.Sc. with Honours in Psychology
PSYC 4908 [1.0]	Thesis for B.A. with Honours in Psychology
PSYC 4909 [1.0]	Project for B.Sc. with Honours in Psychology
PSYC 4910 [1.0]	Project for B.A. with Honours in Psychology
<hr/>	
Total Credits	3.5

Notes:

1. If PSYC 3901, PSYC 3902 or PSYC 3905 are presented in partial fulfillment of Item 2 above, the placements must be consistent with the theme of the concentration.
2. If PSYC 4001 is presented in partial fulfillment of Item 2 above, the focus of the special topic must be consistent with the theme of the concentration.
3. If PSYC 4900 or PSYC 4902 are presented in partial fulfillment of Item 2 above, the focus of the independent study must be consistent with the theme of the concentration.
4. If PSYC 4907, PSYC 4908, PSYC 4909 or PSYC 4910 are presented in partial fulfillment of Item 2 above, the focus of the thesis or project must be consistent with the theme of the concentration.

Concentration in Forensic Psychology (3.5 credits)

This concentration is open to all students in the B.A. Honours Psychology, B.Sc. Honours Psychology, and the B.A. Combined Honours program. Only one concentration may be taken in a Psychology program. A maximum of 12.0 credits may be counted towards a B.A. or B.Sc. Honours Psychology degree.

1. 1.0 credit in:	1.0
PSYC 2400 [0.5]	Introduction to Forensic Psychology
PSYC 3402 [0.5]	Criminal Behaviour
2. 2.5 credits from:	2.5
PSYC 3400 [1.0]	Forensic Psychology (Honours Seminar)
PSYC 3403 [0.5]	Addiction
PSYC 3901 [0.5]	Practicum in Community Psychology
PSYC 3902 [0.5]	Practicum in Community Psychology
PSYC 3905 [1.0]	Practicum in Community Psychology
PSYC 4001 [0.5]	Special Topics in Psychology
PSYC 4400 [0.5]	Advanced Topics in Forensic Psychology
PSYC 4402 [0.5]	Police Psychology
PSYC 4403 [0.5]	Female Offenders
PSYC 4404 [0.5]	Sex Offenders
PSYC 4900 [0.5]	Independent Study

PSYC 4902 [0.5]	Independent Study
PSYC 4907 [1.0]	Thesis for B.Sc. with Honours in Psychology
PSYC 4908 [1.0]	Thesis for B.A. with Honours in Psychology
PSYC 4909 [1.0]	Project for B.Sc. with Honours in Psychology
PSYC 4910 [1.0]	Project for B.A. with Honours in Psychology
Total Credits	3.5

Notes:

1. If PSYC 3901, PSYC 3902 or PSYC 3905 are presented in partial fulfillment of Item 2 above, the placements must be consistent with the theme of the concentration.
2. If PSYC 4001 is presented in partial fulfillment of Item 2 above, the focus of the special topic must be consistent with the theme of the concentration.
3. If PSYC 4900 or PSYC 4902 are presented in partial fulfillment of Item 2 above, the focus of the independent study must be consistent with the theme of the concentration.
4. If PSYC 4907, PSYC 4908, PSYC 4909 or PSYC 4910 are presented in partial fulfillment of Item 2 above, the focus of the thesis or project must be consistent with the theme of the concentration.

Concentration in Health Psychology (3.5 credits)

This concentration is open to all students in the B.A. Honours Psychology, B.Sc. Honours Psychology, and the B.A Combined Honours program. Only one concentration may be taken in a Psychology program. A maximum of 12.0 credits may be counted towards a B.A. or B.Sc. Honours Psychology degree.

1. 0.5 credit in:	0.5
PSYC 2301 [0.5]	Introduction to Health Psychology
2. 3.0 credits from:	3.0
PSYC 3300 [1.0]	Health (Honours Seminar)
PSYC 3301 [0.5]	Sport and Performance Psychology
PSYC 3302 [0.5]	Positive Psychology
PSYC 3403 [0.5]	Addiction
PSYC 3604 [0.5]	Clinical Psychology and Mental Illness
PSYC 3901 [0.5]	Practicum in Community Psychology
PSYC 3902 [0.5]	Practicum in Community Psychology
PSYC 3905 [1.0]	Practicum in Community Psychology
PSYC 4001 [0.5]	Special Topics in Psychology
PSYC 4301 [0.5]	Advanced Topics in Health Psychology

PSYC 4907 [1.0]	Thesis for B.Sc. with Honours in Psychology
PSYC 4908 [1.0]	Thesis for B.A. with Honours in Psychology

PSYC 4909 [1.0]	Project for B.Sc. with Honours in Psychology
PSYC 4910 [1.0]	Project for B.A. with Honours in Psychology
Total Credits	3.5

Notes:

1. If PSYC 3901, PSYC 3902, or PSYC 3905 are presented in partial fulfillment of Item 2 above, the placements must be consistent with the theme of the concentration.
2. If PSYC 4001 is presented in partial fulfillment of Item 2 above, the focus of the special topic must be consistent with the theme of the concentration.
3. If PSYC 4900 or PSYC 4902 are presented in partial fulfillment of Item 2 above, the focus of the independent study must be consistent with the theme of the concentration.
4. If PSYC 4907, PSYC 4908, PSYC 4909 or PSYC 4910 are presented in partial fulfillment of Item 2 above, the focus of the thesis or project must be consistent with the theme of the concentration.

Concentration in Organizational Psychology (3.5 credits)

This concentration is open to all students in the B.A. Honours Psychology, B.Sc. Honours Psychology and the B.A Combined Honours program. Only one concentration may be taken in a Psychology program. A maximum of 12.0 credits may be counted towards a B.A. or B.Sc. Honours Psychology degree.

1. 0.5 credit in:	0.5
PSYC 2801 [0.5]	Organizational Psychology I
2. 3.0 credits from:	3.0
PSYC 2100 [0.5]	Introduction to Social Psychology
PSYC 3801 [0.5]	Organizational Psychology II
PSYC 3802 [0.5]	Transition to Career
PSYC 3805 [1.0]	Organizational Psychology (Honours Seminar)
PSYC 3901 [0.5]	Practicum in Community Psychology
PSYC 3902 [0.5]	Practicum in Community Psychology
PSYC 3905 [1.0]	Practicum in Community Psychology
PSYC 4001 [0.5]	Special Topics in Psychology
PSYC 4801 [0.5]	Occupational Health Psychology
PSYC 4802 [0.5]	Advanced Topics in Organizational Psychology
PSYC 4900 [0.5]	Independent Study
PSYC 4902 [0.5]	Independent Study
PSYC 4907 [1.0]	Thesis for B.Sc. with Honours in Psychology
PSYC 4908 [1.0]	Thesis for B.A. with Honours in Psychology
PSYC 4909 [1.0]	Project for B.Sc. with Honours in Psychology

PSYC 4910 [1.0]	Project for B.A. with Honours in Psychology	
Total Credits		3.5

Notes:

1. If PSYC 3901, PSYC 3902 or PSYC 3905 are presented in partial fulfillment of Item 2 above, the placements must be consistent with the theme of the concentration.
2. If PSYC 4001 is presented in partial fulfillment of Item 2 above, the special topic must be consistent with the theme of the concentration.
3. If PSYC 4900 or PSYC 4902 are presented in partial fulfillment of item 2 above, the focus of the independent study must be consistent with the theme of the concentration.
4. If PSYC 4907, PSYC 4908, PSYC 4909 or PSYC 4910 are presented in partial fulfillment of Item 2 above, the focus of the thesis or project must be consistent with the theme of the concentration.

Concentration in Social/Personality Psychology (3.5 credits)

This concentration is open to all students in the B.A. Honours Psychology, B.Sc. Honours Psychology, and the B.A Combined Honours program. Only one concentration may be taken in a Psychology program. A maximum of 12.0 credits may be counted towards a B.A. or B.Sc. Honours Psychology degree.

1. 1.0 credit in:		1.0
PSYC 2100 [0.5]	Introduction to Social Psychology	
PSYC 2600 [0.5]	Introduction to the Study of Personality	
2. 2.5 credits from:		2.5
PSYC 3100 [1.0]	Social Psychology (Honours Seminar)	
PSYC 3104 [0.5]	Intergroup Relations: The Psychology of Conflict and Violence	
PSYC 3106 [0.5]	Close Relationships	
PSYC 3302 [0.5]	Positive Psychology	
PSYC 3405 [0.5]	Psychology of Motivation and Emotion	
PSYC 3600 [1.0]	Personality (Honours Seminar)	
PSYC 3603 [0.5]	Psychology of Women	
PSYC 3901 [0.5]	Practicum in Community Psychology	
PSYC 3902 [0.5]	Practicum in Community Psychology	
PSYC 3905 [1.0]	Practicum in Community Psychology	
PSYC 4001 [0.5]	Special Topics in Psychology	
PSYC 4100 [0.5]	Advanced Topics in Social Psychology	
PSYC 4900 [0.5]	Independent Study	
PSYC 4902 [0.5]	Independent Study	
PSYC 4907 [1.0]	Thesis for B.Sc. with Honours in Psychology	
PSYC 4908 [1.0]	Thesis for B.A. with Honours in Psychology	

PSYC 4909 [1.0]	Project for B.Sc. with Honours in Psychology	
PSYC 4910 [1.0]	Project for B.A. with Honours in Psychology	
Total Credits		3.5

Notes:

1. If PSYC 3901, PSYC 3902 or PSYC 3905 are presented in partial fulfillment of Item 2 above, the focus of the placement must be consistent with the theme of the concentration.
2. If PSYC 4001 is presented in partial fulfillment of Item 2 above, the focus of the special topic must be consistent with the theme of the concentration.
3. If PSYC 4900 or PSYC 4902 are presented in partial fulfillment of Item 2 above, the focus of the independent study must be consistent with the theme of the concentration.
4. If PSYC 4907, PSYC 4908, PSYC 4909 or PSYC 4910 are presented in partial fulfillment of Item 2 above, the focus of the thesis or project must be consistent with the theme of the concentration.

Stream in Mental Health and Well-Being (2.5 credits)

The stream in Mental Health and Well-Being has limited enrollment and is restricted to students registered in the B.A. Honours Psychology program or B.Sc. Honours Psychology program with a concentration who have attained fourth-year standing, have a Major CGPA of 10.0 or above, and Department approval.

Students enrolled in the stream must satisfy the requirements for the Bachelor of Arts or Bachelor of Science in Psychology while satisfying the credit requirement for the concentration and the stream through appropriate choice of courses.

Students in the Concentration in Health Psychology must complete 1.0 credit from the list of concentration courses in consultation with the Department in addition to PSYC 3302 and PSYC 3604. Students in the Concentration in Social/Personality Psychology must complete 0.5 credit from the list of concentration courses in consultation with the Department in addition to PSYC 3302.

Requirements

1. 2.5 credits in:		2.5
PSYC 3302 [0.5]	Positive Psychology	
PSYC 3604 [0.5]	Clinical Psychology and Mental Illness	
PSYC 4330 [1.0]	Community Mental Health and Well-Being	
PSYC 4333 [0.5]	Clinical Psychology: Assessment and Intervention	

Psychology B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits):

1. 1.0 credit in:		1.0
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	

2. 1.0 credit in:		1.0
PSYC 2001 [0.5]	Introduction to Research Methods in Psychology	
PSYC 2002 [0.5]	Introduction to Statistics in Psychology	
3. 0.5 credit from:		0.5
PSYC 2307 [0.5]	Human Neuropsychology I	
PSYC 2700 [0.5]	Introduction to Cognitive Psychology	
4. 0.5 credit from:		0.5
PSYC 2301 [0.5]	Introduction to Health Psychology	
PSYC 2801 [0.5]	Organizational Psychology I	
5. 1.0 credit from:		1.0
PSYC 2100 [0.5]	Introduction to Social Psychology	
PSYC 2400 [0.5]	Introduction to Forensic Psychology	
PSYC 2500 [0.5]	Foundations of Developmental Psychology	
PSYC 2600 [0.5]	Introduction to the Study of Personality	
6. 1.0 credit in PSYC at 3000-level or above		1.0
7. 1.0 credit in PSYC		1.0
B. Credits Not Included in the Major CGPA (9.0 credits):		
8. 3.0 credits, not in PSYC		4.0
9. 3.0 credits at the 2000-level and above, not in PSYC		3.0
10. 3.0 credits in free electives		2.0
Total Credits		15.0

Course Categories for B.Sc. Programs

The program description for B.Sc. Psychology makes use of the course categories defined for all B.Sc. programs (see Academic Regulations for the Bachelor of Science Degree):

- Science Faculty Electives
- Science Continuation Courses
- Free Elective

Psychology

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits):

1. 1.0 credit in:		1.0
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
2. 1.0 credit in:		1.0
PSYC 2001 [0.5]	Introduction to Research Methods in Psychology	
PSYC 2002 [0.5]	Introduction to Statistics in Psychology	
3. 0.5 credit from:		0.5
PSYC 2307 [0.5]	Human Neuropsychology I	
PSYC 2700 [0.5]	Introduction to Cognitive Psychology	
4. 0.5 credit from:		0.5
PSYC 2301 [0.5]	Introduction to Health Psychology	
PSYC 2801 [0.5]	Organizational Psychology I	
5. 1.0 credit from:		1.0
PSYC 2100 [0.5]	Introduction to Social Psychology	
PSYC 2400 [0.5]	Introduction to Forensic Psychology	

PSYC 2500 [0.5]	Foundations of Developmental Psychology	
PSYC 2600 [0.5]	Introduction to the Study of Personality	
6. 1.0 credit in:		1.0
PSYC 3000 [1.0]	Design and Analysis in Psychological Research	
7. 2.0 credits from:		2.0
a. Thesis Stream		
i. 1.0 credit from:		
PSYC 3100 [1.0]	Social Psychology (Honours Seminar)	
PSYC 3300 [1.0]	Health (Honours Seminar)	
PSYC 3400 [1.0]	Forensic Psychology (Honours Seminar)	
PSYC 3500 [1.0]	Developmental Psychology (Honours Seminar)	
PSYC 3600 [1.0]	Personality (Honours Seminar)	
PSYC 3700 [1.0]	Cognition (Honours Seminar)	
PSYC 3805 [1.0]	Organizational Psychology (Honours Seminar)	
ii. 1.0 credit in:		
PSYC 4907 [1.0]	Thesis for B.Sc. with Honours in Psychology	
or		
b. Project Stream		
i. 1.0 credit in PSYC at 3000-level or higher		
ii. 1.0 credit in:		
PSYC 4909 [1.0]	Project for B.Sc. with Honours in Psychology	
8. 1.0 credit in PSYC at 3000-level or higher		1.0
9. 1.0 credit in PSYC		1.0
B. Credits Not Included in the Major CGPA (11.0 credits):		
10. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
11. 2.0 credits from:		2.0
BIOL 1103 [0.5]	Foundations of Biology I	
& BIOL 1104 [0.5]	Foundations of Biology II	
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
GEOG 1010 [0.5]	Global Environmental Systems	
ERTH 1006 [0.5]	Exploring Planet Earth	
ERTH 1009 [0.5]	The Earth System Through Time	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics Introductory Electromagnetism and Wave Motion	
12. 1.0 credit from Science Faculty Electives or from a discipline other than Psychology outside the faculties of Science and Engineering and Design (NSCI 1000 recommended)		1.0
13. 2.0 credits from a discipline other than Psychology outside the faculties of Science and Engineering and Design		2.0

14. 1.0 credit in Science Continuation (not PSYC)	1.0
15. 1.0 credit in BIOL, CHEM, EARTH, MATH, STAT or PHYS at the 2000-level or above	1.0
16. 3.0 credits in free electives	3.0
Total Credits	20.0

Note: registration in the seminars in **Item 7 a) i)** requires a Major CGPA of at least 9.0. Registration in the thesis course PSYC 4907 [1.0] requires a Major CGPA of at least 10.0.

Minor in Human Resources and Management for B.A. Honours Psychology (5.0 credits)

Only students pursuing Bachelor of Arts Honours with a Major in Psychology who have completed at least 4.0 credits toward their degrees with a minimum overall CGPA of 7.00 may be admitted to Minor in Human Resources and Management. Students must successfully complete PSYC 2801 prior to entry in to the Minor, with a minimum grade of B+. PSYC 3801 must be successfully completed prior to taking any of the 4000-level BUSI courses listed in the Minor. Enrolment is limited.

Students who are required to leave the Minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Students are required to present a Minor CGPA of 6.50 or higher at graduation in order to be awarded a Minor in Human Resources and Management for B.A. Honours Psychology.

Requirements

1. 1.0 credits in:	1.0
PSYC 2801 [0.5] Organizational Psychology I	
PSYC 3801 [0.5] Organizational Psychology II	
2. 1.0 credits in:	1.0
BUSI 3102 [0.5] Introduction to Human Resources Management	
BUSI 3103 [0.5] Introduction to Organization Theory	
3. 2.0 credits from:	2.0
BUSI 3104 [0.5] Managing Individual Performance	
BUSI 3105 [0.5] Managing and Motivating Teams	
BUSI 3106 [0.5] Managing Conflict and Negotiation	
BUSI 4104 [0.5] Strategic Human Resources Management	
BUSI 4105 [0.5] Managing Change	
BUSI 4112 [0.5] Organizational Leadership	
4. 0.5 credit in:	0.5
BUSI 2204 [0.5] Basic Marketing	
5. 0.5 credit from:	0.5
BUSI 2800 [0.5] Entrepreneurship	
BUSI 3209 [0.5] Consumer Behaviour	
Total Credits	5.0

Minor in Psychology

Open to all undergraduate students in programs other than Psychology.

Requirements

1. 1.0 credit in:	1.0
PSYC 1001 [0.5] Introduction to Psychology I	

PSYC 1002 [0.5] Introduction to Psychology II	
2. 1.0 credit in:	1.0
PSYC 2001 [0.5] Introduction to Research Methods & PSYC 2002 [0.5] in Psychology	
Introduction to Statistics in Psychology	
3. 2.0 credits in PSYC at the 2000-level or above	2.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Psychology (PSYC) Courses

PSYC 1001 [0.5 credit]

Introduction to Psychology I

A survey of topics associated with psychology's role as a natural science, including neuroscience, cognition, and learning.

Precludes additional credit for PSYC 1000.

Lecture three hours a week.

PSYC 1002 [0.5 credit]

Introduction to Psychology II

A survey of topics associated with psychology's role as a social science, including social psychology, personality, clinical psychology, and mental health.

Precludes additional credit for PSYC 1000.

Prerequisite(s): PSYC 1001.

Lecture three hours a week.

PSYC 2001 [0.5 credit]

Introduction to Research Methods in Psychology

A general introduction to research methodologies employed within contemporary psychology. Topics covered include research designs (experimental, quasi-experimental) and techniques (observations, surveys), basic descriptive statistics, and how to interpret and report research findings.

Precludes additional credit for NEUR 2001 and PSYC 2000 (no longer offered).

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lecture three hours a week. May include laboratories.

PSYC 2002 [0.5 credit]

Introduction to Statistics in Psychology

A general introduction to statistical techniques employed within contemporary psychology. Topics include basic data analysis using descriptive and inferential statistics (t-tests, ANOVA, correlation, chi-square).

Precludes additional credit for NEUR 2002.

Prerequisite(s): PSYC 2001.

Lecture three hours a week. May include laboratories.

PSYC 2100 [0.5 credit]**Introduction to Social Psychology**

Introduction to social psychology, including a survey of theories, issues, methods, and findings. This course will explore how social situations may influence people's thoughts, feelings, and behaviours. Topics may include social cognition, self-knowledge, persuasion, interpersonal attraction, aggression, and prosocial behaviour.

Precludes additional credit for SOCI 2150.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2301 [0.5 credit]**Introduction to Health Psychology**

Introduction to health psychology, including a survey of theories, issues, methods, and findings. Using a multidisciplinary approach, topics may include the reciprocal interactions among physical health and illness, and psychological factors, including emotional well-being, coping and appraisal processes.

Precludes additional credit for PSYC 3406.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2307 [0.5 credit]**Human Neuropsychology I**

Introduction to study of brain-behaviour relationships, including a survey of theories, issues, methods, and findings. Topics may include basic anatomy and physiology of the human nervous system, including sensory and motor functions. Neural basis of language, perception, emotion, learning, memory, decision making and social cognition.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2400 [0.5 credit]**Introduction to Forensic Psychology**

Introduction to forensic psychology, including a survey of theories, issues, methods, and findings. Topics covered may include development of offending, eyewitness testimony, victim studies, risk assessment, offender rehabilitation, offender classification, and police studies.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2500 [0.5 credit]**Foundations of Developmental Psychology**

Introduction to developmental psychology, including a survey of theories, issues, methods, and findings. Topics may include biological underpinnings and genetics, as well as selected aspects of language, cognitive, moral, emotional, and social development.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2600 [0.5 credit]**Introduction to the Study of Personality**

Introduction to the study of personality, including a survey of theories, issues, methods, and findings. Explores the factors that contribute to people's personality and influence how they interact with others. Topics may include traits, motives, the self, physiology, the unconscious, relationships, stress and coping.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2700 [0.5 credit]**Introduction to Cognitive Psychology**

Introduction to cognitive processes, including a survey of theories, issues, methods and findings. Topics covered may include pattern recognition, attention, imagery, learning (animal and human), memory, language, and thinking.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2801 [0.5 credit]**Organizational Psychology I**

Introduction to the study of organizational psychology, including a survey of theories, issues, methods, and findings. Examines individual and group behaviour in organizational settings. Topics may include understanding work-related attitudes, behaviour, motivation, and stress, personnel selection, personality in the workplace, organizational justice, and leadership.

Precludes additional credit for PSYC 3105, PSYC 3803 (no longer offered).

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours per week.

PSYC 3000 [1.0 credit]**Design and Analysis in Psychological Research**

Techniques in data analysis, probability, sampling distributions, and procedures of estimation. Topics include classical, Bayesian, and distribution free approaches to hypothesis testing, linear regression and curve fitting, and analysis of variance methods in experimental design. Techniques are applied with appropriate statistical software (e.g., SPSS, Excel).

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing, PSYC 2001, and PSYC 2002.

Lectures and tutorial four hours a week.

PSYC 3001 [0.5 credit]**Psychological Testing**

An introduction to theory and issues pertaining to psychological tests. Topics include the creation, assessment, scoring, and interpretation of results across different testing formats (questionnaires, surveys, structured interviews, performance-based measurements). Classical and modern techniques will be incorporated. Students will apply psychological testing theory through assignments.

Prerequisite(s): PSYC 2001 and PSYC 2002.

Lectures three hours a week.

PSYC 3100 [1.0 credit]**Social Psychology (Honours Seminar)**

An introduction to theory and research in social psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2100, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3104 [0.5 credit]**Intergroup Relations: The Psychology of Conflict and Violence**

In-depth coverage of the social psychology of relations within and between large societal groups. Topics may include social identity, stereotyping, prejudice, and intergroup emotions, with emphasis on their role in promoting conflict and paths to pro-social intergroup relations.

Also listed as SOWK 3103.

Precludes additional credit for PSYC 3103 (no longer offered).

Prerequisite(s): PSYC 2100.

Lectures three hours per week.

PSYC 3106 [0.5 credit]**Close Relationships**

A consideration of relationship science, with a focus on social psychological theory and empirical approaches to the study of close relationships such as dating and marital relationships, and friendships. Topics may include relationship initiation, relationship maintenance, and coping with the dissolution of relationships.

Prerequisite(s): PSYC 2100.

Lectures three hours per week.

PSYC 3300 [1.0 credit]**Health (Honours Seminar)**

An applied introduction to theory and research in health psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2301, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3301 [0.5 credit]**Sport and Performance Psychology**

How psychological processes influence outcomes across sport and performance environments. Topics may include self-confidence, goal-setting, arousal regulation, imagery, group dynamics, burnout, injury recovery, and how person and situational factors affect the pursuit of excellence.

Prerequisite(s): one of PSYC 2100, PSYC 2301, PSYC 2500, PSYC 2600.

Lectures three hours a week.

PSYC 3302 [0.5 credit]**Positive Psychology**

A review of theoretical, historical, and empirical scholarship in positive psychology. Drawing widely across traditional sub-disciplines, content focuses on human strengths, well-being, resilience, and virtue to understand internal, external, and developmental contributors to health and happiness.

Prerequisite(s): one of PSYC 2100, PSYC 2301, PSYC 2500, PSYC 2600.

Lectures three hours a week.

PSYC 3307 [0.5 credit]**Human Neuropsychology II**

Cortical metabolism and research methods for assessment of cortical function, neuropsychological testing in the context of neurological, psychiatric and cognitive disorders caused by nervous system damage or genetic anomaly.

Precludes additional credit for PSYC 3207 (no longer offered).

Prerequisite(s): PSYC 2307.

Lectures three hours a week.

PSYC 3400 [1.0 credit]**Forensic Psychology (Honours Seminar)**

An applied introduction to theory and research in forensic psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2400, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3402 [0.5 credit]**Criminal Behaviour**

A review of theoretical and empirical research in the study of criminal behaviour. Examination of offender assessment and classification, prevalence and types of offenders, and effectiveness of offender treatment including understanding specific populations of offenders such as Indigenous offenders, women offenders and violent offenders.

Prerequisite(s): PSYC 2400.

Lectures three hours a week.

PSYC 3403 [0.5 credit]**Addiction**

Neurobiological and social bases of drug and behavioural addictions. Contemporary theoretical approaches to addiction; approaches to current prevention and treatment. Prerequisite(s): one of PSYC 2301, PSYC 2307, PSYC 2400.

Lectures three hours a week.

PSYC 3405 [0.5 credit]**Psychology of Motivation and Emotion**

This course will explore motivational and emotional factors involved in human behaviour emphasizing various perspectives, theories, and research pertaining to physiological, cognitive, and social needs. Topics may include what factors motivates people, how motivation changes over time, and how one person can motivate another individual.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 3500 [1.0 credit]**Developmental Psychology (Honours Seminar)**

An introduction to theory and research in developmental psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2500, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3505 [0.5 credit]**Exceptional Children**

An overview of childhood exceptionalities including intellectual differences, communication disorders, sensory and physical impairments, developmental and behavioural problems.

Prerequisite(s): PSYC 2500.

Lectures three hours a week.

PSYC 3506 [0.5 credit]**Cognitive Development**

Human cognitive development is examined with a focus on memory, thinking and language through the life span. Topics may include perceptual and language development, emergent literacy, development of strategies and development of reading and arithmetic skills.

Prerequisite(s): PSYC 2500 or PSYC 2700.

Lectures three hours a week.

PSYC 3507 [0.5 credit]**Social Development**

Development of the individual with a focus on social cognition and social behaviour. Topics may include the role of temperament in development, parental roles, siblings and peers in social/emotional development, development of prosocial and aggressive behaviour, moral development and development of self and other understanding.

Prerequisite(s): PSYC 2500.

Lectures three hours a week.

PSYC 3508 [0.5 credit]**Child Language**

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as LING 3603.

Precludes additional credit for LALS 2603 (no longer offered).

Prerequisite(s): LALS 1000 or LALS 1001 or LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours per week.

PSYC 3509 [0.5 credit]**Adolescence and Emerging Adulthood**

The physical, cognitive, social and moral development of adolescents and emerging adults in multiple contexts including family, peers, media and culture. Major theories and contemporary issues and concerns.

Prerequisite(s): PSYC 2500.

Lectures three hours a week.

PSYC 3600 [1.0 credit]**Personality (Honours Seminar)**

An introduction to theory and research in personality psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2600, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3603 [0.5 credit]**Psychology of Women**

An examination of theories and research regarding the similarities and differences in women's and men's psychological processes. Psychological issues relevant to women (e.g., women's health concerns, women's sexuality, violence toward women and children) will be examined as well as feminist and traditional research methods.

Prerequisite(s): one of PSYC 2100, PSYC 2500, PSYC 2600.

Lectures three hours a week.

PSYC 3604 [0.5 credit]**Clinical Psychology and Mental Illness**

History of the concept of mental illness. Theory and selected research dealing with the nature and etiology of mental illness.

Prerequisite(s): PSYC 2500 or PSYC 2600.

Lectures three hours a week.

PSYC 3700 [1.0 credit]**Cognition (Honours Seminar)**

An introduction to theory and research in cognitive psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2700, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3702 [0.5 credit]**Perception**

Introduction to theory, research methods and principles associated with the study of perceptual processes.

Examples of how perceptual principles can be applied to solve problems in communications, transportation, medicine, industrial design, manufacturing, marketing, food and beverage industries (flavoring, blending, and scenting, etc.).

Precludes additional credit for NEUR 3202.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 3709 [0.5 credit]**Language Processing and the Brain**

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as LING 3601.

Precludes additional credit for LALS 2601 and LALS 3601 (no longer offered).

Prerequisite(s): LALS 1000 or LALS 1001 or LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

PSYC 3710 [0.5 credit]**Introduction to Human Factors**

Theoretical foundation, philosophy and practical application of techniques for analyzing from a psychological perspective how people interact with designed environments. A major goal is to determine how these environments should be designed to suit human capabilities.

Precludes additional credit for PSYC 2800 (no longer offered).

Prerequisite(s): PSYC 2001 and PSYC 2002.

Lecture three hours a week.

PSYC 3801 [0.5 credit]**Organizational Psychology II**

Advanced coverage of the current theory and practices in Organizational Psychology. Selected topics may include workplace socialization, job attitudes, deviant work behaviours, leadership, teams and group dynamics, work-related stress and health, and organizational change and development.

Prerequisite(s): PSYC 2801.

Lectures three hours per week.

PSYC 3802 [0.5 credit]**Transition to Career**

Within the context of an active learning environment, examines traditional and current models in career psychology. Topics may include the concepts of change and transitions, self-assessments, vocational psychology, and workplace onboarding. Students will examine their personal and professional transition from university to the work world.

Includes: Experiential Learning Activity

Prerequisite(s): third or fourth year standing in Psychology.

Lectures three hours a week.

PSYC 3805 [1.0 credit]**Organizational Psychology (Honours Seminar)**

An introduction to theory and research in organizational psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis. Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2801, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department. Seminars and laboratories six hours a week.

PSYC 3901 [0.5 credit]**Practicum in Community Psychology**

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues. Includes: Experiential Learning Activity Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3902 [0.5 credit]**Practicum in Community Psychology**

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues. Includes: Experiential Learning Activity Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3905 [1.0 credit]**Practicum in Community Psychology**

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues. Includes: Experiential Learning Activity Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3999 [0.0 credit]**Co-operative Work Term**

Co-operative Work Term. Includes: Experiential Learning Activity Work Term.

PSYC 4001 [0.5 credit]**Special Topics in Psychology**

Each section of PSYC 4001 deals with a different topic. Topics change yearly. Students may register in more than one section of PSYC 4001 but can register in each section only once. Prerequisite(s): each section will have its own. Lectures or seminars three hours a week.

PSYC 4003 [0.5 credit]**Origins of Modern Psychology**

An overview of the evolution of psychology, with an emphasis on psychology as a specialized area of knowledge and practice in the late-nineteenth and twentieth centuries. Topics covered may include the history of a particular period, content area, or cultural context. Precludes additional credit for PSYC 2003. Prerequisite(s): third or fourth-year standing in a Psychology Honours program. Lectures or seminars three hours per week.

PSYC 4100 [0.5 credit]**Advanced Topics in Social Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in Social psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2100. Lectures or seminars three hours a week.

PSYC 4301 [0.5 credit]**Advanced Topics in Health Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in health psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2301. Lectures or seminars three hours a week.

PSYC 4330 [1.0 credit]**Community Mental Health and Well-Being**

An examination of theory, research, and the practice of approaches to support peers and their well-being. Students will apply the concepts learned during the seminars in field placements. Includes: Experiential Learning Activity Prerequisite(s): fourth-year Honours standing in Psychology, Mental Health and Well-Being Stream. Seminar three hours per week.

PSYC 4333 [0.5 credit]**Clinical Psychology: Assessment and Intervention**

An advanced seminar on clinical psychology and mental health. Students will learn about frequently used treatment modalities and common factors across treatments. Research methodology and recent advances dealing with a variety of common mental disorders will also be reviewed and discussed. Includes: Experiential Learning Activity Prerequisite(s): PSYC 3604 and fourth-year Honours standing in Psychology. Lecture or seminar three hours per week.

PSYC 4400 [0.5 credit]**Advanced Topics in Forensic Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in Forensic psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2400. Lectures or seminars three hours a week.

PSYC 4402 [0.5 credit]**Police Psychology**

Critical examination of theory and empirical research in the area of police psychology. Topics covered may include police culture, police selection, police suicide, police personality, stress debriefing, fitness evaluations, police training, crisis negotiations, and investigative techniques. Prerequisite(s): third- or fourth-year standing and PSYC 2400. Lectures or seminars three hours per week.

PSYC 4403 [0.5 credit]**Female Offenders**

Feminist and social learning approaches to the assessment and treatment of female offenders. Theories and research relevant to selected patterns of law breaking and selected female offender types. Prerequisite(s): third- or fourth-year standing and PSYC 3402. Lectures or seminars three hours a week.

PSYC 4404 [0.5 credit]**Sex Offenders**

Theory and research concerning the etiology and maintenance of sexual offending; assessment, treatment, and management of sex offenders. Introduction to fundamental issues and controversies in the area. Prerequisite(s): third- or fourth-year standing, PSYC 2400, and PSYC 3402. Lectures or seminars three hours a week.

PSYC 4500 [0.5 credit]**Advanced Topics in Developmental Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in developmental psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing, and one of PSYC 3500, PSYC 3505, PSYC 3506, PSYC 3507. Lectures or seminars three hours a week.

PSYC 4600 [0.5 credit]**Advanced Topics in Personality Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in personality psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2600. Lectures or seminars three hours a week.

PSYC 4700 [0.5 credit]**Advanced Topics in Cognitive Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in cognitive psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing, and PSYC 2700. Lectures or seminars three hours a week.

PSYC 4801 [0.5 credit]**Occupational Health Psychology**

The application of psychological knowledge to enhance employee physical and mental health, safety and well-being, and more broadly, to enrich organizational life. Students will be able to learn and analyze critically the relevant methodological, theoretical, and empirical Occupational Health Psychology literature. Prerequisite(s): third or fourth-year standing and one of PSYC 2100, PSYC 2301, PSYC 2801. Lectures or seminars three hours a week.

PSYC 4802 [0.5 credit]**Advanced Topics in Organizational Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in organizational psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2801. Lectures or seminars three hours a week.

PSYC 4900 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally, students may not include more than one credit of independent study in their total program. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in Psychology and permission of the Department. Mentored work.

PSYC 4902 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally, students may not include more than one credit of independent study in their total program. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in Psychology and permission of the Department. Mentored work.

PSYC 4907 [1.0 credit]**Thesis for B.Sc. with Honours in Psychology**

Open to all candidates for the B.Sc. degree with Honours in Psychology. A thesis project is conducted under the direct supervision of a Faculty Adviser from the Department of Psychology.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4906 (no longer offered).

Prerequisite(s): fourth-year Honours standing in Psychology with a major CGPA of 10.0; PSYC 3000; one of PSYC 3100, PSYC 3300, PSYC 3400, PSYC 3500, PSYC 3600, or PSYC 3700, or PSYC 3805; and permission of the Department.

Lectures as scheduled by the instructor; other hours as arranged with the Faculty Adviser.

PSYC 4908 [1.0 credit]**Thesis for B.A. with Honours in Psychology**

A thesis supervised by a Faculty Adviser. Students review the appropriate literature, contribute to the design of a study or experiment, conduct data analyses, and produce an APA style written report. Students may also present a research poster at the Psychology Undergraduate Research Event.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4905 (no longer offered).

Prerequisite(s): fourth-year Honours standing in Psychology with a major CGPA of 10.0, PSYC 3000; one of PSYC 3100, PSYC 3300, PSYC 3400, PSYC 3500, PSYC 3600, PSYC 3700, PSYC 3805; and permission of the Department.

Lectures during the fall term given by the course instructor and mentored work arranged by the Faculty Adviser.

PSYC 4909 [1.0 credit]**Project for B.Sc. with Honours in Psychology**

Within an active learning environment, students develop oral presentations and written documents that may include annotated bibliographies, essays, and presentation slides. They must also present a research poster at the Psychology Undergraduate Research Event. Students select an area of psychological research of interest to them.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4906 (no longer offered), PSYC 4907, and PSYC 4908.

Prerequisite(s): fourth-year standing in B.Sc. (Honours) in Psychology, and PSYC 3000.

Seminars three hours a week.

PSYC 4910 [1.0 credit]**Project for B.A. with Honours in Psychology**

Within an active learning environment, students develop oral presentations and written documents that may include annotated bibliographies, essays, and presentation slides. They must also present a research poster at the Psychology Undergraduate Research Event. Students select an area of psychological research of interest to them.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4905 (no longer offered), PSYC 4907 and PSYC 4908.

Prerequisite(s): fourth-year standing in B.A (Honours) in Psychology, and PSYC 3000.

Seminars three hours a week.

Public Affairs and Policy Management

This section presents the requirements for programs in:

- Specialization in Communication and Policy Studies (Communication Technologies and Regulation) B.P.A.P.M.
- Specialization in Communication and Policy Studies (Strategic Public Opinion) B.P.A.P.M.
- Specialization in Development Policy Studies (Global Economic Relations) B.P.A.P.M.
- Specialization in Development Policy Studies (Rights and Human Development) B.P.A.P.M.
- Specialization in Development Policy Studies (Indigenous Policy) B.P.A.P.M.
- Specialization in International Policy Studies (International Relations and Conflict) B.P.A.P.M.
- Specialization in International Policy Studies (Security and Intelligence) B.P.A.P.M.
- Specialization in Public Policy and Administration (Economic Policy) B.P.A.P.M.
- Specialization in Public Policy and Administration (Environmental and Sustainable Energy Policy) B.P.A.P.M.
- Specialization in Public Policy and Administration (Social Policy) B.P.A.P.M.
- Specialization in Public Policy and Administration (Indigenous Policy) B.P.A.P.M.

Graduate Pathways

Accelerated pathways or advanced standing with transfer of credits to graduate programs at Carleton University may be available to eligible BPAPM students. Please consult the Graduate Calendar for the pathway requirements for the MA degree in International Affairs offered by the Norman Paterson School of International Affairs, the MPPA degree offered by the School of Public Policy and Administration, the MPM degree offered by the Clayton H. Riddell Graduate Program in Political Management, and the MA degree in European, Russian and Eurasian Studies.

Program Requirements

Language Requirement for B.P.A.P.M.

Prior to graduation, students must satisfy a language proficiency requirement in one of the following ways:

1. successful completion of an approved French language credit (FREN 1100);
2. placement at a demonstrated competency level equivalent to satisfactory completion of FREN 1100 following a self-assessment questionnaire and interview administered by the Department of French (for students who already possess demonstrated capacity in French);
3. successful completion of French Immersion in high school or possession of a Bilingual Diploma or Certificate.

Students should note that they will be required to use one of their elective credits if they choose to satisfy the language requirement through an approved French language credit.

For students whose first language is not English, or for students whose Specialization interests require a language other than French, the Language Requirement may be met by substituting another language for French. Permission for substitution may be sought from the Program Coordinator. Students registering in the Specialization in International Studies should note the additional language requirement.

Bachelor of Public Affairs and Policy Management (B.P.A.P.M.)

Before the second year of study, students in this program must register in one of the specializations listed below.

Specialization in Communication and Policy Studies (Communication Technologies and Regulation)

B.P.A.P.M. (20.0 credits)

Specialization in Communication and Policy Studies (Strategic Public Opinion)

B.P.A.P.M. (20.0 credits)

A. Credits Included in the Major (10.0 credits)

C. Additional Requirement

16. In addition to satisfying the French language requirement, students must successfully complete 1.0 credit in a language or possess an equivalent level of proficiency as demonstrated by successfully completing a language test. The language may be either French at a level higher than FREN 1100, or, with the permission of the Director, another language directly relevant to their studies. Students registered in the International Policy Studies specialization will be required to use one of their elective credits if they satisfy this additional language requirement through course work.

Total Credits 20.0

Specialization in Public Policy and Administration (Economic Policy) B.P.A.P.M. (20.0 credits)

Public Affairs and Policy Management (PAPM) Courses

PAPM 1001 [0.5 credit]

Policy: Analysis, Implementation, and Evaluation

The processes of policy-making, implementation and evaluation. Forces that shape policy deliberations and alternative tools for managing policy action and policy evaluation. Theoretical approaches to understanding the origins of policy, and methods by which programs are designed and assessed.

Includes: Experiential Learning Activity

Precludes additional credit for PAPM 2000.

Lecture two hours a week, discussion one hour per week.

PAPM 2001 [0.5 credit]

Foundations of Public Policy: Political Thought

Theoretical, philosophical and ethical foundations for the study of public affairs and policy management. Drawing from classic and contemporary texts in political philosophy and theory, students consider issues relating to the nature of democracy, civic society and social organizations, the public, public affairs, public interest.

Precludes additional credit for PAPM 1000.

Lecture two hours a week, discussion one hour a week.

PAPM 2002 [0.5 credit]

Foundations of Public Policy: Economic Thought

Theoretical, philosophical and ethical foundations for the study of public affairs and policy management. Drawing from classic and contemporary texts in economic philosophy and theory, students consider issues relating to the nature of democracy, civic society and social organizations, the public, public affairs, public interest.

Precludes additional credit for PAPM 1000.

Lecture two hours a week, discussion one hour a week.

PAPM 3000 [0.5 credit]

Policy Research

An examination of the research strategies and techniques relevant to policy analysis and evaluation. Using the case study method, the role of research and research organizations in the policy process is discussed. The issue of ethical dilemmas in policy research is also considered.

Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2701 and PSCI 2702, or COMM 2001, or ECON 2201 and ECON 2202 and Good Standing in the Bachelor of Public Affairs and Policy Management program.

Lecture and discussion three hours a week.

PAPM 3999 [0.0 credit]

Co-operative Work Term

Includes: Experiential Learning Activity

PAPM 4000 [0.5 credit]**Capstone Seminar in Public Affairs and Policy Management**

Policy workshop focusing on the application of public affairs analysis to develop problem solving and research skills. Seminar is policy-focused and organized by area of Specialization in the program. Students, working in small groups, examine concrete policy problems, actual or simulated, in specific institutional contexts.

Includes: Experiential Learning Activity

Prerequisite(s): PAPM 3000 and Good Standing in the Bachelor of Public Affairs and Policy Management program.

Seminar three hours a week.

PAPM 4099 [0.5 credit]**Policy Seminar**

Students address a specific policy problem or problems, in interaction with local, national or international policy experts or practitioners. Emphasis on policy analysis, research, and communication skills.

Includes: Experiential Learning Activity

Seminar three hours per week.

PAPM 4100 [0.5 credit]**Special Topics in Public Affairs and Policy Management**

Analysis of selected issues in public affairs and policy management not ordinarily treated in the regular course program. The choice of topics will vary from year to year. Students should consult with the College regarding the topic offered.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program or permission of the Kroeger College.

Seminar three hours per week.

PAPM 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. Students are responsible for locating a faculty member willing to supervise the essay. Departmental regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Public Affairs and Policy Management program with a Major CGPA or 9.0 or better, or permission of the Director of the Public Affairs and Policy Management program.

Religion

This section presents the requirements for programs in:

- Religion B.A. Honours
- Religion B.A. Combined Honours
- Religion B.A.
- Specialization in Global Religions: Identity and Community B.G.In.S. Honours

- Stream in Global Religions: Identity and Community B.G.In.S.
- Minor in Christianity Studies
- Minor in Islamic Studies
- Minor in Jewish Studies
- Minor in Religion

Program Requirements

Religion

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 1.0 credit in Foundations 1.0

RELI 1710 [0.5] Judaism, Christianity, Islam

RELI 1715 [0.5] South Asian Religions
or RELI 1716 [0.5] East Asian Religions

2. 1.5 credits from Traditions and Contexts: Judaism, Christianity, and Islam (at least 0.5 must be at the third-year level) 1.5

RELI 2110 [0.5] Judaism

RELI 2121 [0.5] Hebrew Bible

RELI 3140 [0.5]	Holocaust Encounters
RELI 3141 [0.5]	Germans and Jews
3. 1.5 credits in RELI or another discipline on a Jewish theme (see Note, below)	1.5
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Note: Approval of the Religion Coordinator is required when selecting courses for Item 3 above.

Minor in Religion (4.0 credits)

Open to all undergraduate degree students not in Religion programs.

Requirements

1. 1.0 credit 1000-level RELI	1.0
2. 1.0 credit 2000-level or higher RELI	1.0
3. 1.0 credit 3000-level or higher RELI	1.0
4. 1.0 credit in RELI	1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Religion (RELI) Courses

Language courses RELI 1010 [1.0] Elementary Language Tutorial, RELI 2010 [1.0] Intermediate Language Tutorial and RELI 3010 [1.0] Advanced Language Tutorial are intended for students specializing in a particular religious tradition. They are offered according to the availability of members of the Discipline. Courses taken at the 2000-level or above will be mainly independent study under the supervision of a member of the Discipline. Students interested in taking these courses should consult the Coordinator.

RELI 1010 [1.0 credit]

Elementary Language Tutorial

Elementary study of the language required for studying a religious tradition.

Precludes additional credit for RELI 1902 (no longer offered).

Prerequisite(s): Major/Minor in Religion or permission of the department.

Tutorial two hours a week.

RELI 1710 [0.5 credit]

Judaism, Christianity, Islam

A survey of the history, beliefs and practices of these major religious traditions.

Includes: Experiential Learning Activity

Precludes additional credit for RELI 1000.

Lecture three hours a week.

RELI 1715 [0.5 credit]

South Asian Religions

A survey of the history, beliefs, and practices of South Asian religious traditions including Hinduism, Buddhism, Jainism, and Sikhism.

Precludes additional credit for RELI 1001 (no longer offered) and RELI 1711 (no longer offered).

Lecture three hours a week.

RELI 1716 [0.5 credit]

East Asian Religions

A survey of the history, beliefs, and practices of East Asian religious traditions including Buddhism, Daoism, Confucianism, and Shinto.

Precludes additional credit for RELI 1001 (no longer offered) and RELI 1711 (no longer offered).

Lecture three hours a week.

RELI 1720 [0.5 credit]

Indigenous Religions in Global Context

This course illuminates a recent category of "World Religions" by examining cases from all five continents, as well as in diaspora (e.g., Brazilian Candomblé, Roma/Sinti religion). Key considerations include the study of minority religions, religion in oral cultures, myth and ritual studies, colonialism, globalization.

Includes: Experiential Learning Activity

Lecture three hours a week.

RELI 1731 [0.5 credit]

Varieties of Religious Experience

The variety of religious experiences and their interpretations: myth, literature, art and religious doctrine. Topics include time, self, the other, journey and wisdom. Examples ranging from shamanistic experience to the abstractions of Buddhist philosophy.

Precludes additional credit for RELI 1205, RELI 1206, RELI 1402, RELI 2002, and RELI 2741.

Prerequisite(s): restricted to students registered in the Bachelor of Humanities & Religion program.

Lecture three hours a week.

RELI 1741 [0.5 credit]

Global Religions: Identity and Community

An introduction to major issues in the study of religion in global contexts, drawing on historical and contemporary examples.

Lecture three hours a week.

RELI 2010 [1.0 credit]

Intermediate Language Tutorial

Intermediate study of the language required for studying a religious tradition. Restricted to students registered in a Religion program.

Precludes additional credit for RELI 2902 (no longer offered).

Prerequisite(s): RELI 1902 or RELI 1010 or permission of the department.

Tutorial two hours a week.

RELI 2110 [0.5 credit]

Judaism

The history of Judaism and the Jewish people from the Second Temple until the present day. The organization, basic beliefs, social and ethical practices of the Jews and Judaism.

Precludes additional credit for RELI 1008 and RELI 2508.

Lecture three hours a week.

RELI 2121 [0.5 credit]

Hebrew Bible

Introduces the Hebrew Bible within historical and religious frameworks. All texts are in English.

Precludes additional credit for RELI 3505C taught in 2007-2008.

Prerequisite(s): RELI 1710 or RELI 1000 or RELI 2110 or RELI 2508 or permission of the department.

Lecture three hours a week.

RELI 2122 [0.5 credit]**Early Judaism**

Judaism and the Jewish people from the Maccabees to the Rabbinic Age. Sectarian movements (Pharisees, Sadducees, Qumran Covenanters) Christianity's rise; revolutionaries (Zealots, Bar Kochba), Jewish responses to Hellenism, reshaping of Judaism after destruction of the Second Temple, Rabbinic Judaism in Palestine and the Diaspora.

Precludes additional credit for RELI 2701.

Prerequisite(s): second-year standing.

Lecture three hours a week.

RELI 2220 [0.5 credit]**Early Christianity**

Introduction to the critical study of the writings of the New Testament with discussion of their Hellenistic and Jewish background, the historical Jesus, Paul and his letters, and historical and sociological explanations for the rise of the early church and interpretation of its writings.

Precludes additional credit for RELI 1003, RELI 1200 and RELI 2207.

Lecture three hours a week.

RELI 2225 [0.5 credit]**Christianity 300-1500**

This course examines the development of Christian practices and teachings from late antiquity to early modernity, with a special emphasis on their historical diversity and the complex dynamics of church formation. Students should expect to read (in English) both primary and secondary sources.

Precludes additional credit for RELI 1007, RELI 2507, and RELI 2210 (no longer offered).

Lecture three hours a week.

RELI 2226 [0.5 credit]**Christianity 1500-1900**

Developments in Christian practices and teachings over the early modern and modern periods, especially in relation to social changes commonly associated with modernity including: urbanization, state formation, industrialization, colonization, the development of capitalist economies.

Precludes additional credit for RELI 1007, RELI 2507 and RELI 2210 (no longer offered).

Lecture three hours a week.

RELI 2230 [0.5 credit]**Global Christianity**

Survey of recent and current Christian movements around the world, both by region and thematically, with emphasis on institutions and networks that connect Christian communities across national boundaries.

Special consideration is given to the cultural and political capacities of such Christian communities and networks.

Lecture three hours a week.

RELI 2310 [0.5 credit]**Islam**

The study of Muslim religious tradition and investigation of its organization, basic beliefs, social and ethical principles and practices.

Precludes additional credit for RELI 1009 and RELI 2509.

Lecture three hours a week.

RELI 2320 [0.5 credit]**Islam in the Modern World**

An examination of Islam in the last two hundred years, including the nature of the Islamic resurgence and the new forms of Islamic vitality.

Precludes additional credit for RELI 2704 and RELI 2702.

Prerequisite(s): second-year standing.

Lecture three hours a week.

RELI 2330 [0.5 credit]**The Qur'an**

An examination of the Qur'an's content, form, style, central themes, canonization, and classical and contemporary interpretive traditions.

Prerequisite(s): RELI 1710 or RELI 2310 or permission of the department.

Lecture three hours a week.

RELI 2350 [0.5 credit]**Classical Islamic Thought**

A survey of the development of the central ideas and schools of Islamic theology and philosophy from the eighth century to the end of the seventeenth century CE.

Precludes additional credit for RELI 3320 or RELI 3321.

Lecture three hours a week.

RELI 2410 [0.5 credit]**Buddhism**

Basic beliefs and practices of the Buddhist tradition and a brief survey of its development and transformations in India, Sri Lanka, Southeast Asia, Tibet, China and Japan.

Precludes additional credit for RELI 1006 and RELI 2106.

Lecture three hours a week.

RELI 2510 [0.5 credit]**Hinduism**

Basic beliefs, practices, and social structures of the Hindu tradition as reflected in Hindu scriptures, myths and symbols, and philosophical schools.

Precludes additional credit for RELI 1005 and RELI 2005.

Lecture three hours a week.

RELI 2515 [0.5 credit]**Religion and Aesthetics in India**

Myths and symbols of the Indian tradition expressed in Hindu and Buddhist art. Hindu theories of beauty and the interface of the arts with the spiritual traditions of India.

Precludes additional credit for RELI 2005 (if taken before 2007-2008) and RELI 2008.

Prerequisite(s): second-year standing.

Lecture three hours a week.

RELI 2535 [0.5 credit]**Religion and Gender**

An exploration of women and religion in historical and contemporary contexts.

Lecture three hours a week.

RELI 2600 [0.5 credit]**Religions of China**

Survey of the origins, development, and diffusion of Chinese religious traditions, including Confucianism, Daoism, Chinese Buddhism and popular religion(s).

Includes: Experiential Learning Activity

Lecture three hours a week.

RELI 2710 [1.0 credit]**Maccabees to Muhammad**

The early history, literature and ideas of Judaism, Christianity and Islam from 200 BCE to 750 CE.

Precludes additional credit for RELI 2208.

Prerequisite(s): restricted to students in the Bachelor of Humanities & Religion program.

Lecture three hours per week.

RELI 2711 [0.5 credit]**Love and Its Myths**

Major devotional movements in Hinduism and Christianity, focusing on the love of the divine and philosophical accounts of these ideas over time.

Lecture three hours a week.

RELI 2712 [0.5 credit]**Religious Diversity of Canada**

An historical survey emphasizing the interactions of various religious traditions in Canada, including indigenous religions, Christian missionary and colonial traditions, immigrant and global diaspora religions.

Precludes additional credit for RELI 2307 Section A (2007-2008).

Lectures three hours a week.

RELI 2713 [0.5 credit]**Mysticism**

An historical and functional study of mystical experience in its religious context, relying on examples from selected traditions such as the Christian, Buddhist, Hindu, Jewish and Muslim.

Precludes additional credit for RELI 2300.

Lecture three hours a week.

RELI 2720 [0.5 credit]**Indigenous Religions of Canada**

Religions of Inuit, First Nations and Métis peoples, past and present. Considerations include concepts of tradition, syncretism and "creative ritual." Primary sources may include textual, visual and oral materials. Course may include fieldwork, as well as in-class presentations by community elders.

Lecture three hours a week.

RELI 2731 [0.5 credit]**Dimensions of Modern Atheism**

A historical survey of Western atheism as a major world religious tradition.

Prerequisite(s): second-year standing or permission of the department.

Lecture three hours a week.

RELI 2732 [0.5 credit]**Death and Afterlife**

The meaning of death and afterlife in some religious traditions and secular philosophies with emphasis on the Hindu teaching of the immortal soul; the Hebraic idea of collective survival; the Christian doctrine of resurrection of the body; the Buddhist conception of no-soul and nirvana.

Precludes additional credit for RELI 2308.

Lecture three hours a week.

RELI 2735 [0.5 credit]**Greek Religion**

A study of religion in ancient Greece.

Also listed as CLCV 2103.

Precludes additional credit for CLCV 2102, RELI 2734, RELI 2102.

Lecture three hours a week.

RELI 2736 [0.5 credit]**Religion and Society**

Cross-cultural survey of religious institutions, focusing on theories and methodologies in the study of religion. Topics may include myth, totemism, cults, ritual, belief systems, altered states of consciousness, new religious and/or new age movements and the relationship of religion with other social institutions and processes.

Includes: Experiential Learning Activity

Also listed as ANTH 2550.

Lectures and workshop three hours a week.

RELI 2737 [0.5 credit]**Roman Religion**

A study of religion in ancient Rome.

Also listed as CLCV 2104.

Precludes additional credit for CLCV 2102 and RELI 2734 and RELI 2102.

Lecture three hours a week.

RELI 2738 [0.5 credit]**Philosophy of Religion**

A study of philosophical issues arising from religion. Topics may include: arguments for and against the existence of God, religious experience, death and the afterlife, miracles, God and evil, the relationship between religion and science, and the relationship between religion and ethics.

Also listed as PHIL 2601.

Prerequisite(s): a course in philosophy or second-year standing.

Lecture three hours a week.

RELI 2741 [0.5 credit]**Interpretations of Religion**

Introduction to the academic study of religion by considering its fundamental components: myth, symbol, scripture, doctrine, code, and ritual, drawing material from a variety of world religions.

Precludes additional credit for RELI 2002 (no longer offered), RELI 1205 (no longer offered), RELI 1402 (no longer offered), RELI 1731, RELI 1730 (no longer offered).
Lecture, three hours per week.

RELI 2750 [0.5 credit]**Sikhism**

An examination of the basic beliefs, practices, and social structures of the Sikh tradition as reflected in Sikh scriptures, history and philosophical schools.

Lecture three hours a week

RELI 2840 [0.5 credit]**Topics in Religion**

Content of this course may vary from year to year. Please check departmental website for information on the topic.

Precludes additional credit for repeated topics.
Lecture three hours a week.

RELI 3010 [1.0 credit]**Advanced Language Tutorial**

Advanced study of the language required for studying a religious tradition.

Precludes additional credit for RELI 3902 (no longer offered).

Prerequisite(s): RELI 2902 (no longer offered) or RELI 2010 or permission of the department.

Tutorial two hours a week.

RELI 3130 [0.5 credit]**Love, Sex and Marriage in Judaism**

The Jewish tradition's teachings, laws and customs surrounding love, sex and marriage in historical perspective with emphasis on contemporary Jewish life.
Lecture three hours a week.

RELI 3131 [0.5 credit]**Judaism and Gender**

An interdisciplinary survey of Judaism and gender highlighting the status and role of gender within Jewish thought, law, practice and experience.

Lecture three hours a week.

RELI 3140 [0.5 credit]**Holocaust Encounters**

An examination of the experiences of different Jewish communities before, during, and after the Holocaust. Issues to be discussed include anti-Semitism, relations with non-Jewish neighbours, perpetrator motivation, local collaboration, resistance, postwar trials and memory.
Also listed as HIST 3714.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3141 [0.5 credit]**Germans and Jews**

An examination of Jewish society, culture and religious practice in modern and contemporary Germany. Issues to be explored include emancipation, acculturation, secularization, religious adjustment, anti-Semitism, the Holocaust, emigration, and the role of migration in transforming the contemporary community.

Also listed as HIST 3718.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3220 [0.5 credit]**Reformation Europe**

A history of the Protestant and Catholic Reformations of the sixteenth century, with emphasis on the theological disputes of the protagonists and the impact of these disputes on the social, political and cultural developments of the era.

Also listed as HIST 3708.

Precludes additional credit for RELI 3708 (no longer offered).

Prerequisite(s): 0.5 credit at the 2000-level in HIST or third-year standing.

Lecture three hours a week.

RELI 3230 [0.5 credit]**Jesus of Nazareth**

A study of the historical records of the life of Jesus, the methods used to interpret them, and the resulting images of Jesus.

Precludes additional credit for RELI 2205, RELI 3208 and RELI 3105.

Prerequisite(s): RELI 2207 or RELI 2220 or permission of the department.

Lectures three hours a week.

RELI 3231 [0.5 credit]**Paul of Tarsus**

The social, religious, and historical context of Paul, the communities he founded, and the letters he wrote to them.

Precludes additional credit for RELI 3300 and RELI 3106.

Prerequisite(s): RELI 2207 or RELI 2220 or permission of the department.

Lecture three hours a week.

RELI 3232 [0.5 credit]**Christian Discipline**

An historical survey of key Christian thought and practices at the individual and collective level. Topics may include self-discipline, body discipline, monastic discipline, church discipline and social discipline.

Precludes additional credit for RELI 3302 Section "A" taught in 2007-2008.

Prerequisite(s): third-year standing or permission of the department.

RELI 3250 [0.5 credit]**Evangelical Christianity in Social-Historical Perspective**

The development of some protestant Christianities in relation to material factors, such as colonialism, industrial or consumer capitalism, imperialism, and in relation to major ideological trends, such as nationalism, economic or political liberalism and atheism.

Lecture three hours a week.

RELI 3301 [0.5 credit]**Music and Religion**

An examination of the integral role music plays in religion and sacred ritual in different world cultures and religions. Through various case studies, the course broadly considers how sacred soundscapes shape people's worldviews, identities, and experiences within and outside of their communities.

Also listed as MUSI 3301.

Prerequisite(s): second-year standing.

Seminars three hours a week.

RELI 3322 [0.5 credit]**Shi'i Islam**

An introduction to the historical, doctrinal, and socio-political development of Shi'i Islam from the middle of the seventh century to the end of the twentieth century CE.

Prerequisite(s): RELI 2310.

Lecture three hours a week.

RELI 3330 [0.5 credit]**Sufism**

An introduction to the main practical and theoretical dimensions of Islam's mystical tradition as seen through the life and work of its key representatives.

Prerequisite(s): RELI 2710 or RELI 2713 or permission of the department.

Lecture three hours a week.

RELI 3331 [0.5 credit]**Islam and Gender**

Introduction to ideas about gender in Muslim societies past and present. Topics include: gender in the Qur'an, the Hadith and Islamic law, sexualities, social change, and current debates on gender and sexuality in Muslim communities.

Prerequisite(s): RELI 2310 or WGST 2803 Section "A" or permission of the department.

Lecture three hours a week.

RELI 3340 [0.5 credit]**The Life and Image of Muhammad**

Overview of the life and teaching of the Prophet Muhammad, and the most salient motifs and features of Muslim devotion to him.

Precludes additional credit for RELI 2340.

Prerequisite(s): RELI 1710 or RELI 2310 or permission of the department.

Lecture three hours a week.

RELI 3350 [0.5 credit]**The Hadith Literature: An Introduction**

Transmission and cultural importance of the Hadith for medieval Muslims, along with contemporary debates about its origins. (Course readings in English; students may also elect to read the primary source texts in their Arabic original.)

Prerequisite(s): RELI 2310 or permission of the department.

Lecture three hours a week.

RELI 3420 [0.5 credit]**Early Buddhism**

The development of early Buddhist philosophy, psychology and practice with emphasis on the Pali Canon and its commentators.

Precludes additional credit for RELI 3215.

Prerequisite(s): RELI 2106 or RELI 2410 or permission of the department.

Lecture three hours a week.

RELI 3422 [0.5 credit]**Buddhism Beyond India**

The rise of the Mahayana and the dissemination and development of Buddhist thought and practice outside of India.

Precludes additional credit for RELI 3217.

Prerequisite(s): RELI 2106 or RELI 2410 or permission of the department.

Lecture three hours a week.

RELI 3520 [0.5 credit]**Early Hinduism**

A historical survey of Hinduism from the Vedic era to the development of devotional Hinduism. Vedic religion and developments in early Hindu Philosophy and sectarian Hinduism.

Precludes additional credit for RELI 3015.

Lecture three hours a week.

RELI 3522 [0.5 credit]**Modern Hinduism**

A survey of major developments in Hinduism since the period of colonial British rule. The development of "reform" Hinduism in the 18th and 19th centuries, and the emergence of Hindu nationalist movements in the 20th century.

Precludes additional credit for RELI 3007.

Lecture three hours a week.

RELI 3710 [0.5 credit]**Religions and the Environment**

Attitudes in the major world religions to nature and the environment and recent responses by religious traditions to ecological degradation and crisis. Includes examination of religious sensibilities expressed in environmentalism. Precludes additional credit for RELI 2307 (Section A taken fall 2003, fall 2004, fall 2005, summer 2006) and RELI 3100 taken in 2008.

Prerequisite(s): third-year standing and RELI 1000 or RELI 1710 or RELI 1001 or RELI 1711; or permission of the department.

Lecture three hours a week.

RELI 3722 [0.5 credit]**Religion and Violence**

A thematic course that examines putative cases of "religion and violence" from a range of world traditions, but also interrogates aspects of the "religion and violence" rubric itself.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3732 [0.5 credit]**Studies in Greek Art**

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year.

Also listed as ARTH 3102, CLCV 3306.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

RELI 3733 [0.5 credit]**Studies in Roman Art**

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year.

Also listed as ARTH 3105, CLCV 3307.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

RELI 3734 [0.5 credit]**Religion, Gender, and Sexuality**

How religious communities and thinkers past and present have attempted to construct gender and sexuality.

Lecture three hours a week.

RELI 3741 [0.5 credit]**Classical Approaches to Religion**

Examination of reflection on the nature and origin of religion from the ancient world up to key figures and founders of the discipline of the systematic, critical, and scientific study of religion in the nineteenth and early twentieth century.

Prerequisite(s): second-year standing.

Lecture three hours per week.

RELI 3840 [0.5 credit]**Topics in Religion**

Content of this course may vary from year to year. Please check departmental website for information on the topic.

Precludes additional credit for repeated topics.

Lecture three hours a week.

RELI 3850 [0.5 credit]**Topics in the Study of Religion Abroad**

This travel course explores religion in its historical and/or contemporary contexts in a particular geographic locale.

Travel destinations, religious traditions studied, course content, and themes vary from year to year.

Prerequisite(s): third year standing and 1.0 credit of study in the area related to the year's topic religion, and permission of the department. Permission of the department is required to repeat this course.

Hours to be arranged. Costs associated with the course are borne by the student.

RELI 4741 [0.5 credit]**Contemporary Issues in the Study of Religion**

Late twentieth and twenty-first century scholarship on religion including debate on theoretical and methodological approaches.

Includes: Experiential Learning Activity

Precludes additional credit for RELI 3301, RELI 4301, RELI 4740 (no longer offered).

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program, or permission of the department.

Seminar three hours per week.

RELI 4840 [0.5 credit]**Tutorial**

A tutorial on a topic in religious studies. Contents of the tutorial to be arranged with the supervising faculty member.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program, or permission of the department.

RELI 4850 [0.5 credit]**Seminar in the Study of Religion**

Content of this course may vary from year to year. Please consult the departmental website for information on the topic.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program, or permission of the department.

Also offered at the graduate level, with different requirements, as RELI 5850, for which additional credit is precluded.

Seminar three hours a week.

RELI 4990 [1.0 credit]

Honours Research Essay

Honours research paper (approx. 40 pages) is due on the last day of winter term classes. Written proposal due to the Proposal Board on the first day of fall term classes. Please consult department document for full requirements and information.

Includes: Experiential Learning Activity

Precludes additional credit for RELI 4908 and RELI 4909.

Prerequisite(s): 10.0 CGPA and fourth-year standing in the Honours B.A. Religion program, or permission of the department.

Russian (Minor)

This section presents the requirements for programs in:

- Minor in Russian

Minor in Russian (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in RUSS	3.0
2. 1.0 credit in RUSS at the 3000-level or higher	1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language.	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

RUSS 1010 [0.5 credit]

First-Year Russian I

For students with no knowledge of Russian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for RUSS 1110.

Four hours a week.

RUSS 1020 [0.5 credit]

First-Year Russian II

Continuation of first-year Russian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for RUSS 1110.

Prerequisite(s): grade of C or higher in RUSS 1010, or permission of the School.

Four hours a week.

RUSS 1110 [1.0 credit]

Intensive First-Year Russian

For students with no knowledge of Russian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for RUSS 1010 and RUSS 1020.

Eight hours a week (one term).

RUSS 2010 [0.5 credit]

Second-Year Russian I

Further study of Russian to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 1020 or RUSS 1110, or permission of the School.

Four hours a week.

RUSS 2020 [0.5 credit]

Second-Year Russian II

Continuation of second-year Russian. Further study of Russian to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 2010, or permission of the School.

Four hours a week.

RUSS 3010 [0.5 credit]

Third-Year Russian I

Further study of Russian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 2020, or permission of the School.

Three hours a week.

RUSS 3015 [0.5 credit]**Russian for Heritage Speakers I**

For students who have attained Russian language proficiency in informal settings or who completed elementary school in a Russian speaking country. The course builds literacy skills, formalizes grammar awareness, and develops writing and reading language skills in a formal academic setting. Precludes additional credit for all 1000 through 3000 level Russian courses. Prerequisite(s): Permission of the School. Online.

RUSS 3020 [0.5 credit]**Third-Year Russian II**

Continuation of third-year Russian. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Prerequisite(s): grade of C or higher in RUSS 3010, or permission of the School. Three hours a week.

RUSS 3025 [0.5 credit]**Russian for Heritage Speakers II**

Further study of Russian to enhance students' literacy skills and formalize grammar awareness in a formal academic setting. Emphasis on the use of formal and academic language in oral and written form; further development of writing and reading skills. Precludes additional credit for all 1000 through 3000 level Russian courses. Prerequisite(s): RUSS 3015 or permission of the School. Online.

RUSS 4010 [0.5 credit]**Fourth-Year Russian I**

Advanced spoken and written Russian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance. Prerequisite(s): grade of C or higher in RUSS 3020, or permission of the School. Three hours a week.

RUSS 4020 [0.5 credit]**Fourth-Year Russian II**

Continuation of fourth-year Russian. Advanced spoken and written Russian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance. Prerequisite(s): grade of C or higher in RUSS 4010, or permission of the School. Three hours a week.

RUSS 4115 [0.5 credit]**Russian for Social Studies**

Russian language skills for translation of modern history and social science texts from Russian into English, with an emphasis on syntax. Compulsory attendance. Includes: Experiential Learning Activity. Precludes additional credit for Russian translation offered under EURR 4901. Prerequisite(s): permission of the School. Not open to students with native-like Russian proficiency. Three hours a week.

RUSS 4120 [0.5 credit]**Russian for Research**

Russian language skills for conducting research in modern history and social sciences, with an emphasis on practice and theory of translation from Russian into English. Compulsory attendance. Includes: Experiential Learning Activity. Precludes additional credit for Russian translation offered under EURR 4902. Prerequisite(s): grade of C in RUSS 4115, or permission of the School. Not open to students with native-like Russian proficiency. Three hours a week.

RUSS 4900 [1.0 credit]**Independent Study**

Research in a topic in Russian language, literature or linguistics under the supervision of a member of the School. Includes: Experiential Learning Activity. Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Russian, grade of C or higher in RUSS 3020 or equivalent, or permission of the School.

RUSS 4901 [0.5 credit]**Independent Study**

Research in a topic in Russian language, literature or linguistics under the supervision of a member of the School. Includes: Experiential Learning Activity. Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Russian, grade of C or higher in RUSS 3020, or equivalent, or permission of the School.

Sexuality Studies (Minor)

This section presents the requirements for programs in:

- Minor in Sexuality Studies

Program Requirements**Minor in Sexuality Studies (4.0 credits)**

This minor is available to all undergraduate degree students.

Requirements

1. 1.0 credit in:	1.0
SXST 2101 [0.5]	Sexuality Studies: A Critical Introduction

SXST 4101 [0.5]	Interdisciplinary Studies of Sexuality	
2. 1.0 credit from	Approved Sexuality Studies Electives at the 2000-level or higher	1.0
3. 1.0 credit from	Approved Sexuality Studies Electives at the 3000-level or higher	1.0
4. 1.0 credit from	Approved Sexuality Studies	1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied		
Total Credits		4.0

Notes:

1. Courses used to fulfil **Items 2** through **4** above must be from more than one discipline.
2. Other courses may be substituted for the credits specified in item two, when material on sexuality is central to the course. Such substitutions must be individually approved by the Pauline Jewett Institute of Women's and Gender Studies. Students are encouraged to consult course descriptions of Special Topics courses.

Approved Sexuality Studies Electives

Note: access to these courses is not guaranteed, and may depend on space availability and the satisfaction of other requirements such as course prerequisites.

Sexuality Studies (SXST) Courses

SXST 2101 [0.5 credit]

Sexuality Studies: A Critical Introduction

While sexuality is often considered the most private and 'natural' of personal concerns, it is saturated with issues of social power, historical change, and public politics. This course offers a critical introduction to interdisciplinary studies of sexuality, focusing on history, theory, and cultural practice.

Includes: Experiential Learning Activity

Precludes additional credit for DIST 2101 (no longer offered).

Prerequisite(s): second-year standing or permission of the Institute.

Lectures and discussion groups three hours a week.

SXST 2102 [0.5 credit]

Sexuality, Gender, and Security

Historical and contemporary analysis of surveillance, security, and regulation of sexuality, race, class, and gender. Students will critically examine how 'subversives' were created through discourse and administrative logics such as policy and law.

Includes: Experiential Learning Activity

Also listed as HUMR 2102.

Prerequisite(s): second year standing.

Lectures and discussions three hours a week.

SXST 3103 [0.5 credit]

Sexuality and Disability

Exploration of ways that embodied categories of sex and gender, as well as desire are mediated through mainstream and alternative discourses of disability.

Topics may include: crip theory, mental health issues, and LGBTQ sexualities.

Prerequisite(s): third-year standing or permission of the Institute.

Lecture three hours a week.

SXST 3104 [0.5 credit]

Transnational Sexualities

Students analyze sex, gender and sexuality as power relations within, and between nation-states comprising the Global North and South, as well as new knowledge created through national border crossings. Topics may include: Orientalism, colonialization, and diasporic identities.

Prerequisite(s): third-year standing and SXST 2101.

Lecture three hours a week.

SXST 3106 [0.5 credit]

Queer(ing) Archives

Examination of the archival turn in historical and theoretical perspective with an emphasis on sexuality, race, and gender as subjectivities in queer, trans, and colonial archives.

Also listed as HIST 3102.

Prerequisite(s): third-year standing.

Seminar three hours a week.

SXST 4101 [0.5 credit]

Interdisciplinary Studies of Sexuality

A study of selected issues in sexuality studies considered from an interdisciplinary perspective. The course may focus on any one, or combination of, sexuality studies in relation to history, theory, and/or cultural practice.

Includes: Experiential Learning Activity

Precludes additional credit for DIST 4101 (no longer offered).

Prerequisite(s): SXST 2101 and fourth-year standing.

Seminar three hours a week.

SXST 4102 [0.5 credit]

Queer Theory

A critical approach to gender and sexuality by engaging in key debates and texts in the field of queer theory and studies.

Prerequisite(s): SXST 2101 and fourth-year standing.

Also offered at the graduate level, with different requirements, as WGST 5102, for which additional credit is precluded.

Seminar three hours a week.

SXST 4103 [0.5 credit]

Politics of Kink

This seminar analyzes critically the existence and regulation of non-normative sexual attitudes, behaviours and practices. Topics may include: non-monogamy, sadomasochism, pornography.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SXST 4104 [0.5 credit]

Sexuality and Political Economy

An interdisciplinary and intersectional approach to issues in the area of Sexuality Studies focusing on socio-economic relations (e.g. class location, consumption) and the ways they mediate sex, gender, and sexual subject formation and governance. SXST 4101.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year standing.

Seminar three hours a week.

SXST 4105 [0.5 credit]

Queer Ecologies

Students engage with debates within sexuality studies and transgender studies regarding the interwoven relationships between gender, race, indigeneity, desire, bodies and ecological politics. Topics may include: climate change, gendered and sexualized landscapes, and speciesism.

Prerequisite(s): fourth-year standing or by permission of the department.

Seminar three hours a week.

SXST 4106 [0.5 credit]

Queer Aesthetics: Affect, Cultural Production, Sexuality

Critical examination of affective economies made in and through LGBTQ cultural production. Drawing from feminist, queer, trans and queer of colour critique, students will consider how queer affect, sentiment and emotions uniquely circulate in art and aesthetic objects.

Prerequisite(s): fourth-year standing or permission of the Institute.

Seminar three hours a week.

Social Work

This section presents the requirements for programs in:

- Bachelor of Social Work B.S.W.

Senate Policy on Social Work Professional Suitability

Students in the Bachelor of Social Work are expected to conform to the Canadian Association of Social Workers (CASW) Code of Ethics and the Ontario College of Social Workers and Social Service Workers (OCSWSSW) Code of Ethics and Standards of Practice. Students who violate these codes of ethics may be required, in accordance with the Senate Policy on Social Work Professional Suitability, to withdraw from the program with either the status Continue in Alternate (CA) or the status Dismissed from Program (DP).

Program Requirements

Bachelor of Social Work B.S.W. (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 4.5 credits in: 4.5

SOWK 1001 [0.5]	Introduction to Social Welfare
SOWK 1002 [0.5]	Introduction to Social Work
SOWK 2001 [0.5]	Structural Analysis and Social Work
SOWK 2005 [0.5]	Values and Ethics for Social Work
SOWK 2100 [0.5]	The Political Economy of the Social Welfare State
SOWK 2202 [0.5]	Introduction to Social Work Practice with Individuals and Families
SOWK 2203 [0.5]	Introduction to Social Work Practice with Groups and Communities
SOWK 3100 [0.5]	Social Policy and Administration
SOWK 4000 [0.5]	Social Work and Indigenous Peoples

2. 1.0 credit in: 1.0

SOWK 3001 [0.5] Introduction to Research Methods in Social Work

SOWK 3002 [0.5] Introduction to Statistical Analysis in Social Work

3. 2.0 credits from: 2.0

SOWK 3600 [2.0] Practicum I (Fall and Winter)

SOWK 3601 [2.0] Practicum I (Winter Term)

SOWK 3602 [2.0] Practicum I (Fall term)

4. 0.5 credit from: 0.5

SOWK 4001 [0.5] Advanced Social Work Practice with Individuals and Families

SOWK 4002 [0.5] Advanced Social Work Practice with Groups

SOWK 4003 [0.5] Advanced Social Work Practice with Communities

SOWK 4004 [0.5] Social Policy Development and Practice

5. 0.5 credit from: 0.5

SOWK 4300 [0.5] Social Work and Persons with Disabilities

SOWK 4303 [0.5] Gender and Sexuality

6. 2.0 credits from: 2.0

SOWK 4600 [2.0] Practicum II (Fall or Summer Terms)

SOWK 4601 [1.0] Practicum IIA
& SOWK 4602 [1.0] Practicum IIB

B. Credits Not Included in the Major CGPA (9.5 credits)

7. 2.0 credits in ANTH, CRCJ, ECON, HIST, HUMR, INDG, LAWS, PAMP, PSCI, PSYC, SOCI, or WGST 2.0

8. 6.0 credits not in SOWK 6.0

9. 1.5 credits in: 1.5

Free electives, or

or

SOWK 4908 [1.0] Honours Essay

and 0.5 credit in free electives.

Total Credits 20.0

Work Experience and Credit for Practicum I (SOWK 3600, SOWK 3601, SOWK 3602)

On admission to the B.S.W. program, students who have four or more years of human service work experience may apply to the B.S.W. Field Co-ordinator for waiver of the 2.0 credit requirement for SOWK 3600 [2.0], SOWK 3601 [2.0] or SOWK 3602 [2.0].

If successful, they will be granted 1.0 elective credit in Social Work and will be required to take 1.0 additional elective credit in Social Work in lieu of SOWK 3600 [2.0], SOWK 3601 [2.0] or SOWK 3602 [2.0]. Full documentation of work experience and references are required.

Applications must be received by September 1 of each year.

Social Work (SOWK) Courses

SOWK 1001 [0.5 credit]

Introduction to Social Welfare

Explores definitions of social welfare and the structure of the Canadian welfare state; evolution and devolution of the welfare state in Canada; social welfare and its relationship to social work, social change, and social justice.

Precludes additional credit for SOWK 1000 (no longer offered).

Lecture three hours a week.

SOWK 1002 [0.5 credit]

Introduction to Social Work

Introduction to the profession of social work; evolution of the social work profession in Canada; social work knowledge, values and skills. Explores professional and regulatory social work bodies and international linkages.

Precludes additional credit for SOWK 1000 (no longer offered).

Lectures three hours a week.

SOWK 2001 [0.5 credit]

Structural Analysis and Social Work

Evolution of structural social work, theories and critiques of structural social work and contemporary issues and challenges.

Precludes additional credit for SOWK 2000 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2005 [0.5 credit]

Values and Ethics for Social Work

Focuses on knowledge and skills for ethical decision-making in social work; understanding social work values and ethics, accountability and the professional use of self.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 2000 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2100 [0.5 credit]

The Political Economy of the Social Welfare State

Political economic theories as lenses for structural analysis of social problems and policies affecting social work practice in Canada.

Prerequisite(s): SOWK 1001 and SOWK 1002 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 2202 [0.5 credit]

Introduction to Social Work Practice with Individuals and Families

Understand and develop skills required for working with individuals and families; active listening; use of self; engagement; rapport-building; interviewing and interventions; empathy; interpersonal and professional collaboration; supervision.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3201 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2203 [0.5 credit]

Introduction to Social Work Practice with Groups and Communities

Introduces students to theory and practice skills for group work and community work; structural social work with groups and communities.

Precludes additional credit for SOWK 3200 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2300 [0.5 credit]

Drugs in Society: Theory, Policy, Practice

Examines extent and nature of alcohol, prescription and illicit drug use, theories of drug dependence, history of drug policy; contemporary drug strategies and treatment in Canada.

Precludes additional credit for SOWK 2003 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002.

Lecture three hours a week.

SOWK 2301 [0.5 credit]

Working with Children and Youth

Preventative and protective social work intervention with children and youth. Issues addressed include child neglect, abuse and violence in the context of family; organizational mandate and social political contexts.

Programs and services for children and youth.

Precludes additional credit for SOWK 2201 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002.

Lecture three hours a week.

SOWK 3001 [0.5 credit]

Introduction to Research Methods in Social Work

Research methods used in social work; research paradigms; quantitative and qualitative analysis in social work and social welfare; stages in conducting research.

Precludes additional credit for SOWK 2501 (no longer offered) and SOWK 2500 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3002 [0.5 credit]**Introduction to Statistical Analysis in Social Work**

Fundamentals of statistical analysis; descriptive and inferential statistics and their use in social work research. Statistical tests including Chi-Square, t-tests, correlations and simple linear regressions.

Precludes additional credit for SOWK 2500 (no longer offered), SOWK 2502 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3100 [0.5 credit]**Social Policy and Administration**

Understanding the welfare state and social policy in Canada; exploring issues in administration including program design and implementation; understanding and developing skills in policy-making and policy analysis. Canadian focus; recognition of the distinctiveness of social policy in Quebec.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3206 [0.5 credit]**Community Development and Social Change in an International Context**

Introduction to theories, models and methods of community organizing as a strategy for social change in an international context.

Prerequisite(s): SOWK 1001 and SOWK 1002; or PAPM 2000, or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3207 [0.5 credit]**Human Rights Practice in Civil Society**

Examines the advocacy role and capacity of organizations in civil society to increase popular participation in promoting and protecting human rights; includes transnational and national non-governmental organizations, grassroots movements, community organizations, and virtual or Internet-based organizations.

Prerequisite(s): SOWK 1001 and SOWK 1002 or PAPM 1000 or HUMR 1001 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3400 [0.5 credit]**Special Topics in Social Work**

Theory, policy or direct practice topics not covered in the regular course program. Choice of topics varies from year to year.

Prerequisite(s): SOWK 1001 and SOWK 1002 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3600 [2.0 credits]**Practicum I (Fall and Winter)**

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3601, SOWK 3602.

Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

352 hours of field work over two terms and concurrent practicum seminars.

SOWK 3601 [2.0 credits]**Practicum I (Winter Term)**

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor; 352 field hours and compulsory field seminars. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3600, SOWK 3602.

Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

352 hours of field work over one term and concurrent practicum seminars.

SOWK 3602 [2.0 credits]**Practicum I (Fall term)**

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor; 352 field hours and compulsory field seminars. Limited enrolment in this course subject to discretion of Field coordinator. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3601, SOWK 3600.

Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

352 hours of field work over one term and concurrent practicum seminars.

SOWK 3804 [0.5 credit]**Law of the Family**

Legal framework surrounding the family and family relationships in Canadian society. Topics include marriage and cohabitation, matrimonial support, custody and access, and dissolution of marriage. State interventions through law; law and change in family structures; equality issues; dispute resolution processes.

Also listed as LAWS 3804.

Prerequisite(s): LAWS 1000, LAWS 2201 and LAWS 2003. Lectures three hours a week.

SOWK 4000 [0.5 credit]**Social Work and Indigenous Peoples**

Social work in partnership with Indigenous peoples in Canada; impact of the past on current relationships; rebuilding through dialogue and respect; understanding Indigenous social work.

Precludes additional credit for SOWK 4200.

Prerequisite(s): third-year standing in Bachelor of Social Work.

Lecture three hours each week.

SOWK 4001 [0.5 credit]**Advanced Social Work Practice with Individuals and Families**

Advanced theory, methods, techniques, and skills for direct social work practice with individuals and families; individual and family assessments, treatment planning, intervention skills, and evaluation.

Includes: Experiential Learning Activity

Prerequisite(s): SOWK 2202 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4002 [0.5 credit]**Advanced Social Work Practice with Groups**

Advanced theory, methods, techniques, and skills for social work with groups; knowledge of group work and various group formats; and social work interventions in group process.

Prerequisite(s): SOWK 2203 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4003 [0.5 credit]**Advanced Social Work Practice with Communities**

Advanced theory, methods, techniques and skills for engaging in community-based practice. Politics and challenges of social work community organizing and strategies and skills for community work.

Prerequisite(s): SOWK 2203 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4004 [0.5 credit]**Social Policy Development and Practice**

Social policy development processes in government and non-governmental agencies; refining skills in evaluating and critiquing processes of policy formation; role of lobbying and social activism.

Prerequisite(s): SOWK 3100 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4102 [0.5 credit]**Indigenous Peoples and Social Policy**

History of colonization, legacy of colonialism, Royal Proclamation, BNA Act, treaties, impact of residential schools; implications of government social policy for Indigenous peoples in Canada; importance of self-determination and Declaration on the Rights of Indigenous Peoples.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4103 [0.5 credit]**Practice and Policy in Immigration**

History of immigration policies in Canada; direct practice with immigrants and refugees; diaspora, settlement and integration issues; immigrants and refugee women; intergenerational family relations; resources and community organizing.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4105 [0.5 credit]**Management of Non-Profit Organizations**

Introduction to theories, models and methods of managing non-profit organizations; role, nature and values of the non-profit sector in a market society; practical knowledge of management in different types of non-profit organizations (e.g. cooperatives, voluntary associations, public advocacy and community service organizations).

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4204 [0.5 credit]**Social Work and Aging**

Social perspectives on aging with focus on models of practice that contribute to the independence of elderly people. Social programs and policies, such as social insurance, social services, housing, public health and health care. Social, psychological and political issues related to independence in later life.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4206 [0.5 credit]**Feminist Counselling**

Examines theory and practice of feminist counselling, feminist counselling skills development.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4209 [0.5 credit]**Special Topics in Direct Social Work Practice**

Theory and knowledge development of direct practice topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4210 [0.5 credit]**Special Topics in Direct Social Work Practice**

Theory and knowledge development of direct practice topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4211 [0.5 credit]**Special Topics in Social Policy**

Theory and knowledge development of social policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): SOWK 3100 and third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4212 [0.5 credit]**Special Topics in Social Policy**

Theory and knowledge development of social policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): SOWK 3100 and third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4213 [0.5 credit]**Special Topics in Social Work**

Theory and knowledge development of a combination of practice and policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4214 [0.5 credit]**Special Topics in Social Work**

Theory and knowledge development of a combination of practice and policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4300 [0.5 credit]**Social Work and Persons with Disabilities**

Social work theory and practice with persons with disabilities. Structural analysis of theory, models, policies and practices; disability rights; critical analysis of medical model and ableism.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4301 [0.5 credit]**Racialization and Social Work**

Social work and racialization; racism and consequences; critical analysis of cultural formations, difference, and identities; critical examination of whiteness and privilege.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4302 [0.5 credit]**Poverty and Social Welfare Policy**

Social work analysis of theories of poverty and economic inequality; labour force participation; poverty and wealth and income distribution in Canada and international comparisons; Canadian social policies and poverty. Precludes additional credit for SOWK 4101 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4303 [0.5 credit]**Gender and Sexuality**

Social work and social, political, institutional and economic relations shaping everyday experiences of gender and sexuality and implications for contemporary social work.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4600 [2.0 credits]**Practicum II (Fall or Summer Terms)**

Development, application, testing and integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or in social administration and policy. Graded Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 4601, SOWK 4602.

Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, and permission of the School of Social Work. Student must be in good academic standing in the BSW program. 352 hours of fieldwork and concurrent practicum seminars.

SOWK 4601 [1.0 credit]**Practicum IIA**

Development, application, testing, integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or social administration and policy. Graded Sat/Uns. Part one of two part practicum taken consecutively with SOWK 4602.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 4600.

Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, and permission of the School of Social Work. Student must be in good academic standing in the BSW program. 176 hours of fieldwork and concurrent practicum seminars.

SOWK 4602 [1.0 credit]**Practicum IIB**

Development, application, testing, integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or social administration and policy. Graded Sat/Uns. Part two of two part practicum taken consecutively with SOWK 4601.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 4600.

Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, SOWK 4601 and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

176 hours of fieldwork and concurrent practicum seminars.

SOWK 4701 [0.5 credit]**Special topic in Criminal Justice and Social Policy**

Selected topic in criminal justice and social policy. Topics announced in advance. Part of the Summer School in Criminal Justice and Social Policy and offered by the Department of Law.

Also listed as LAWS 4701.

Prerequisite(s): fourth-year Honours standing or permission of the School of Social Work.

SOWK 4702 [0.5 credit]**Special topic in Criminal Justice and Social Policy**

Selected topic in criminal justice and social policy. Topics announced in advance. Part of the Summer School in Criminal Justice and Social Policy and offered by the Department of Sociology.

Also listed as LAWS 4702, SOCI 4702.

Prerequisite(s): fourth-year Honours standing or permission of the School of Social Work.

SOWK 4703 [0.5 credit]**Special topic in Criminal Justice and Social Policy**

Selected topic in criminal justice and social policy. Topics announced in advance. Part of the Summer School in Criminal Justice and Social Policy and offered by the School of Social Work.

Also listed as LAWS 4703.

Prerequisite(s): fourth-year Honours standing or permission of the School of Social Work.

SOWK 4908 [1.0 credit]**Honours Essay**

Research essay under supervision of accredited faculty member. Project may be in the form of case study, historical study or other form that meets the approval of faculty advisor.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Social Work and permission of the School of Social Work.

Sociology

This section presents the requirements for programs in:

- Sociology B.A. Honours
- Sociology B.A. Combined Honours
- Sociology B.A.
- Stream in Social Justice
- Specialization in Global Inequalities and Social Change B.G.In.S. Honours
- Stream in Global Inequalities and Social Change B.G.In.S.
- Minor in Sociology

Program Requirements**Sociology****B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (9.0 credits)**

1. 1.0 credit from:		1.0
SOCI 1001 [0.5]	Introduction to Sociology I	
& SOCI 1002 [0.5]	Introduction to Sociology II	
SOCI 1003 [1.0]	Introduction to Sociological Perspectives	
2. 0.5 credit in:		0.5

B. Credits Not Included in the Major CGPA (7.0 credits)		
3. 7.0 credits in: Free Electives		7.0
C. Additional Requirements		
4. The Language requirement must be met.		
Total Credits		15.0

Minor in Sociology (4.0 credits)

Open to all undergraduate degree students in programs other than Sociology or the B.G.In.S. Stream/ Specialization in Global Inequalities and Social Change. Students in any Anthropology major should select courses carefully if they wish to use courses from the major in their minor Sociology. Such students should always consult the department.

Requirements

1. 1.0 credit from:		1.0
SOCI 1001 [0.5]	Introduction to Sociology I	
& SOCI 1002 [0.5]	Introduction to Sociology II	
SOCI 1003 [1.0]	Introduction to Sociological Perspectives	
2. 1.0 credit in:		1.0
Methods: SOCI 2000 plus one of SOCI 2001 or SOCI 3000		
or		
Theory: SOCI 2005 [1.0]		
3. 2.0 credits in SOCI at the 2000-level or above		2.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Sociology (SOCI) Courses

SOCI 1001 [0.5 credit]

Introduction to Sociology I

Introduction to the discipline of sociology; theory, methods, history; key thinkers, concepts and disciplinary subfields in sociology; issues and problems in contemporary society. Emphasis on the everyday world of lived experience and social relations. Topics may include class, gender, sexuality, racialization, culture, social interaction. Includes: Experiential Learning Activity. Precludes additional credit for SOCI 1003. Lectures/discussion groups three hours a week.

SOCI 1002 [0.5 credit]

Introduction to Sociology II

This course will further explore and expand upon the key thinkers, concepts and disciplinary subfields in sociology. The focus of analysis will shift from the everyday world to social institutions and structural processes. Topics may include globalization, education, media, health, social movements, colonialism, urbanization. Includes: Experiential Learning Activity. Precludes additional credit for SOCI 1003, SOCI 1005. Prerequisite(s): SOCI 1001. Lectures/discussion groups three hours a week.

SOCI 1003 [1.0 credit]

Introduction to Sociological Perspectives

Introduction to the discipline of sociology; theory, methods and history; key thinkers, concepts and disciplinary subfields in sociology; issues and problems in contemporary society. Precludes additional credit for SOCI 1000, SOCI 1001 and SOCI 1002. Lectures/discussion groups three hours a week.

SOCI 1005 [0.5 credit]

Sociology for Bachelor of Commerce Students

The origins of sociology, why sociology matters, and how it is practiced. Concepts such as class, race, ethnicity, gender, sexual orientation, work, organization, and social movements help students develop their sociological 'eye' for thinking critically about society and their place within it. Precludes additional credit for SOCI 1002. Prerequisite(s): restricted to B.Com. students. Lecture three hours a week.

SOCI 2000 [0.5 credit]

Foundations of Sociological Inquiry

Introduction to sociological inquiry through the study of sociological approaches to knowledge, the relationship of theory to methods, introduction to different methodological traditions including their epistemological foundations, value and limitations. Students will acquire foundational academic skills. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours per week.

SOCI 2001 [0.5 credit]

Introduction to Qualitative Research Methods

Introduction to theory and practice of qualitative research methods involving human participants: research design; ethics; data analysis; data generation methods. Methods may include: qualitative interviewing, ethnography, oral history, focus groups, observation. Additional topics may include: historical development/debates in qualitative research/key historical studies. Includes: Experiential Learning Activity. Precludes additional credit for SOCI 2003 (no longer offered). Prerequisite(s): SOCI 2000. Lectures/discussion groups or labs three hours a week.

SOCI 2005 [1.0 credit]**Histories of Sociological Thought**

Traces theoretical traditions in sociological thought, situating traditions within historical, social and intellectual contexts. At least four of the following will be covered: orientalism, imperialism, colonialism; capitalism, social organization, rationalization; subject formation, identity; self and the everyday; work and leisure; and, social change and revolution.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2010 [0.5 credit]**Critical Approaches to Economic Inequality**

Theoretical and empirical examination of economic inequalities in Canada. Topics may include the experience of economic marginalization, how economic inequality is reproduced, how economic inequalities intersect with other forces, such as gender and racialized inequality, and struggles to transform the economic organisation of society.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 3405 (no longer offered) and SOCI 3407 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2020 [0.5 credit]**Race and Ethnicity**

Introduction to some of the recent theoretical literature and research on the issues of race, racism and ethnicity. Concepts, controversies and definitions dealing with race and ethnicity from the Canadian context and internationally.

Also listed as ANTH 2020.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2030 [0.5 credit]**Work, Industry and Occupations**

An analysis of work practices and settings in societies.

Topics of interest include the development of industrial and postindustrial societies; the experience of work, the structuring of work in organizations and in the society; conflict, resistance and labour relations, and the impact of new technologies.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2035 [0.5 credit]**Technology, Culture and Society**

Introduction to the principal theories and methods used by Science and Technology Studies (STS) scholars to examine the social and cultural shaping of technology. The substantive focus of the course is on the design, development, production, diffusion, consumption and use of technology.

Also listed as DIGH 2035.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2040 [0.5 credit]**Food, Culture and Society**

The sociological analysis of food and eating. The relationship between food and identity; the development of social movements organized around food; and more generally, on practices relating to the production, preparation, and consumption of food.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2043 [0.5 credit]**Sociology of the Family**

How do we conceptualize the family? How has family changed over history? What are the diverse realities of families today? This course examines different family forms, relations and dynamics, emphasizing the relationship between family and larger social forces, such as gender, immigration or class.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2045 [0.5 credit]**Gender and Society**

How gender and gender relations play out in everyday lives, and how people resist, reproduce, or reinforce gender norms. Considers how gender shapes experiences of family, school, work, media, relationships, bodies, violence, etc. Canadian and global cases are examined.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 2407 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2050 [0.5 credit]**Sociology of Health**

Critical approaches to understanding health, illness and healthcare and how social, cultural, political and economic factors affect our health, our experiences with illness, and our encounters with healthcare systems.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2060 [0.5 credit]**Girlhood in Contemporary Contexts: Anthropological and Sociological Perspectives**

Drawing on anthropological and sociological approaches, students will explore girls' lives in diverse cultural, political, economic, and social contexts. Topics may include: movement and migration, education, media, imaging and humanitarianism, consumerism, agency and activism, health, and violence.

Also listed as ANTH 2060.

Prerequisite(s): second year standing or permission of the instructor.

Two hour lecture plus one hour tutorial per week.

SOCI 2150 [0.5 credit]**Social Psychology**

Theoretical and empirical consideration of society and the individual. Topics include the public realm, situations, roles and interpersonal relations. Beliefs, attitudes, interests and opinions, leadership and decision making, conformity, coercion and compromise may be also examined.

Precludes additional credit for PSYC 2100.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2160 [0.5 credit]**War and Society**

Sociological theory and research on large-scale conflict. How society and culture shape warfare through processes of socialization, bureaucratization, and ideological representation. Social impacts of war in terms of gender, race and ethnicity, class relations, and cultural values.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2170 [0.5 credit]**Foundations in Social Justice**

Introduction to the study of social justice and the theorization of social justice sociology. Critical examination of resistance to oppression, social movements and solidarity both in Canada and transnationally. Exploration of the relationship between the university and community-based action.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2445 [0.5 credit]**Sociology of Deviance**

The construction of deviant behaviour and the consequences of such construction for both deviant and conforming persons. Emphasis upon deviance as a normal and necessary result of the socio-cultural processes resulting from, and affecting the activities of a viable society.

Precludes additional credit for SOCI 2505 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2450 [0.5 credit]**Crime and Society**

Social reactions to crime, criminalization processes, and the criminal justice system, and their intersection with power relations and social inequalities.

Precludes additional credit for SOCI 2701.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2702 [0.5 credit]**Power and Social Change**

An investigation of power and culture, with a focus on how ordinary people contribute to social change. Topics may include activism, leisure, consumption, identity, fashion, sexuality, tourism, health, pollution and work.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2705 [0.5 credit]**Popular Culture in the Digital Age**

An examination of various approaches to analyzing digital media and their role in the production and consumption of contemporary cultural forms and practices. Students will reflect upon their use of digital media and the influence they have on their lives and popular culture, more generally.

Also listed as DIGH 2705.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2810 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2820 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2910 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information.

SOCI 2920 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information.

SOCI 3000 [0.5 credit]**Descriptive Statistics in Social Research**

The conceptual foundations of descriptive statistics and applications of these statistics using software (SPSS or Stata) to analyze and interpret social science data. Topics include frequency distributions, graphs, measures of central tendency and dispersion, measures of association, bivariate regression, and introduction to multivariate statistics.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 2002 (no longer offered).

Prerequisite(s): SOCI 2000 and third-year standing.

Lectures/computer labs three hours a week.

SOCI 3002 [0.5 credit]**Inferential Statistics in Social Research**

Inferential statistics and hypotheses testing used in social science research. Topics may include relationship between samples and population, methods of sample selection, central limit theorem, confidence levels and confidence intervals, overview of selected hypothesis tests, multivariate data analysis and multiple regression analysis.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 3003 (no longer offered).

Prerequisite(s): SOCI 3000 or CRCJ 3001 and third-year standing.

Lectures/computer labs three hours a week.

SOCI 3004 [0.5 credit]**Qualitative Research: Approaches and Strategies**

Specialized examination of select strategies or approaches to qualitative research. Topics may include: advanced application of research design involving human participants; historical research methods; textual/document-based research; visual sociologies; critical methodologies (such as feminist or decolonizing methods).

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 2001 and third-year standing.

Lectures/computer labs three hours per week.

SOCI 3006 [0.5 credit]**Thinking the Social: Theories and Approaches**

Examination of a select sociological tradition or thinker, or theoretically intensive study of a sociological area. Consult the department for topics offered.

Precludes additional credit for SOCI 3005 (no longer offered), SOCI 4006 (no longer offered).

Prerequisite(s): SOCI 2005 and third-year standing.

Lectures/discussion groups three hours a week.

SOCI 3010 [0.5 credit]**Power, Oppression and Resistance**

What makes inequalities so persistent? Theoretical and empirical examination of the intersection of social inequalities in Canada and globally, including class, gender, race and ethnicity and age; study of resistance to structures and cultures of inequalities.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3019 [0.5 credit]**Sociology of International Migration**

This course draws from global and interdisciplinary theoretical perspectives to examine primarily though not exclusively Canadian immigration policy and the socio-historical forces shaping policy, migration patterns, permanent, temporary and circular migration, the experiences of immigrants, refugees and migrants; and diasporic and transnational communities and identities.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours per week.

SOCI 3020 [0.5 credit]**Studies in Race and Ethnicity**

Race, racism and ethnicity in Canada and internationally. Critical perspectives on race and ethnicity, which intersect with other social relations. Racism, Eurocentrism, Orientalism, nationalism, colonialism, international migration, citizenship, and diasporic cultures.

Also listed as ANTH 3020.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3027 [0.5 credit]**Globalization and Human Rights**

Examination of the various dimensions and meanings of globalization and its relationship with human rights, with emphasis on the implications of the emerging global economy for economic, social, political and cultural rights. Also listed as ANTH 3027, PSCI 3802.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3030 [0.5 credit]**Studies in Work, Industry and Occupations: Authority and Expertise**

The nature and place of expert knowledge in societies. The development of the practices and organization of the professions and their relation to social stratification, the state, patriarchy and gender; the systematic development of knowledge in societies.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 2508 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3035 [0.5 credit]**Science, Culture and Society: Social Studies of Science**

Principal theories and methods used by Science and Technology Studies scholars to examine the social construction of scientific knowledge. Topics may include the demarcation of science from non-science, the relationship between experts and laypersons, and the study of scientific controversies.

Also listed as ANTH 3035.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3038 [0.5 credit]**Studies in Urban Sociology**

Issues related to people and the urban environment, including the historical process of urbanization, rural-urban transition, the diffusion of urban values and life styles, contemporary urban problems such as urban renewal, pollution and the pressures of the urban environment on social institutions.

Precludes additional credit for SOCI 2504 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3040 [0.5 credit]**Studies in the Sociology of Gender**

Sociological and feminist perspectives; applied understandings of gender, gender relations; women's and men's lives in contemporary Canadian society and in historical and cross-cultural terms. Multiple intersections between gender, race, ethnicity, class and sexuality.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3044 [0.5 credit]**Sociology of Sex and Sexuality**

Key concepts of sex, sexuality, gender, eroticism and pleasure. The history of sex and sexuality. The regulation of sexual relations and practices. Social movements relating to sexuality, gender identities and sexual equality. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3045 [0.5 credit]**Children and Childhood in a Globalized World**

A socio-historical and cross-cultural exploration of constructions, deconstructions, and the experience of childhood in Canada and internationally. Compulsory schooling, child labour, protection and regulation in law, the commodification and equalization of childhood, children's social movements, and the emergence of children's rights discourses.

Also listed as ANTH 3045.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3050 [0.5 credit]**Studies in the Sociology of Health**

Current theory and research on health, disease and social responses to health issues. Topics include population differences incidence and prevalence of morbidity and mortality, access to care and government health policy. Focus upon cultural definitions of health and their consequences for health promotion practices.

Precludes additional credit for SOCI 3705.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3055 [0.5 credit]**Studies in Addictions**

Survey of alcohol and other drug use in cross-cultural and sub-group perspectives. Relationships between culture, social structure and patterns of use of psychoactive substances. Topics may include: substance use and the life cycle; gender and psychoactive substances; problem and non-problem use.

Precludes additional credit for SOCI 3001.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3056 [0.5 credit]**Women and Health**

Women's health issues and how they relate to social, political and economic factors. The intersection of gender, ethnicity, class, sexual orientation and able-bodiedness with women's health.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Seminar 3 hours per week.

SOCI 3060 [0.5 credit]**Critical Disability Studies**

Course engages contemporary disability theory, culture, and activism to consider bodily difference and its relation to the workings of power and social control, accessibility, normalization, ableism, and medicalization. Students will gain an understanding of the contemporary debates, theories, and methodologies of critical disability studies. Also listed as DBST 3060.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lectures three hours a week.

SOCI 3160 [0.5 credit]**Political Violence**

Sociological examination of political violence. Theoretical analysis of violence as social action that is historically situated and shaped by cultural and economic forces; the relationship between political violence and identity, nation/nationalism, modernity and globalisation.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third year standing.

Lectures three hours a week.

SOCI 3170 [0.5 credit]**Social Justice in Action**

Current debates in social justice theory and practice. The course includes substantial engagement with community actors, including activists and advocates as guest speakers. Students will be exposed to social justice principles applied in the community through a variety of approaches.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3210 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3220 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3300 [0.5 credit]**Studies in the Sociology of Education**

Critical analysis of selected work in educational sociology. Topics may include sociological theories of education, school ethnography, contemporary educational policy and practice. Note: Topic will vary in keeping with the interests of students and instructor.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3410 [0.5 credit]**Studies in Criminal Justice**

Developments in criminal justice are examined in the context of broader social issues. Particular emphasis will be placed on contemporary developments in criminal justice institutions, programs and practices.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 3808 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3420 [0.5 credit]**Studies in Gender and Criminal Justice**

An overview of current issues related to women as both perpetrators and victims of crime and the Canadian criminal justice system's response to them. Topics may include woman abuse, sexual assault, and federally sentenced women.

Precludes additional credit for SOCI 3201 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3430 [0.5 credit]**Studies in Collective Action and Social Movements**

What is a social movement? How do sociologists distinguish between social movements and revolutions? What factors influence social movement development? What do they look like? Theoretical and empirical study of the relationship between social movements and social change.

Precludes additional credit for SOCI 3408 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3450 [0.5 credit]**Studies in Law Enforcement**

A comparative examination of contemporary law enforcement. Topics may include public versus private policing, centralized versus decentralized policing, and transnational policing.

Precludes additional credit for SOCI 3507 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3480 [0.5 credit]**Law and Social Regulation**

A study of sociological theories of law as well as the nature of legal institutions. Impacts of legal regulation on various social institutions and on processes of social debate and conflict.

Also listed as LAWS 3106.

Precludes additional credit for SOCI 3801 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3570 [0.5 credit]**Studies in Art, Culture and Society**

Aesthetic practices and institutions. Production and reception of diverse art forms (visual, musical, corporeal, etc.) in various sociocultural contexts. Institutions dedicated to supporting such practices (e.g., museums, theatres, festivals, rituals) are examined through a range of theoretical perspectives.

Also listed as ANTH 3570.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3710 [0.5 credit]**Introduction to Cultural Studies**

Research and theory in the interdisciplinary area of Cultural Studies. Contemporary cultural change in the advanced industrialized societies and its impact on everyday life.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 3710.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3805 [0.5 credit]**Studies in Population**

Historical and current debates on population growth. Historical declines in fertility and mortality from an international perspective. Contemporary demographic issues such as low fertility, longevity revolution, population aging, inequalities in health, migration and refugees.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3910 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information, as departmental permission is required.

SOCI 3920 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information, as departmental permission is required.

SOCI 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

SOCI 4002 [0.5 credit]**Advanced Studies in Sociological Theory**

Close study of the works of an author, tendency, or school of thought in theoretical sociology. Topic will vary in keeping with interests of the students and instructor.

Prerequisite(s): SOCI 3006 and fourth-year standing.

Seminar three hours a week.

SOCI 4003 [0.5 credit]**Advanced Studies in Qualitative Research**

In-depth study into selected issues in qualitative research design, implementation and data analysis. Topics covered may include participant observation, ethnomethodology, ethnography, grounded theory, discourse analysis, narrative analysis, textual analysis, and document analysis. Intersections between epistemologies and methodologies.

Precludes additional credit for ANTH 4003.

Prerequisite(s): SOCI 3004 and fourth-year standing.

Seminar three hours a week.

SOCI 4009 [0.5 credit]**Advanced Studies in Quantitative Research**

Study of specific quantitative methodological issues. Focus may be on one or two of the following topics: quantitative research design, sampling techniques, survey research methods and various statistical research methods including OLS and logistic regression.

Precludes additional credit for SOCI 4840 (no longer offered).

Prerequisite(s): SOCI 3002 and fourth-year standing.
Seminar/lab three hours a week.

SOCI 4020 [0.5 credit]**Advanced Studies in Race and Ethnicity**

Selected topics in race and ethnicity in an international context. Specific topics will vary according to instructors' research interests.

Also listed as ANTH 4020.

Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4039 [0.5 credit]**Women in Contemporary Middle East Societies**

Socio-economic, political and cultural realities of Middle Eastern women with focus on their lived experiences, voices and stories. Focus on women in Palestine/Israel with consideration of other Middle Eastern women.

Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4040 [0.5 credit]**Feminist Sociology of Intersectionality**

Theoretical and empirical examination of gender relations and gendered inequality with emphasis on the complex intersection of gender with race, ethnicity, religion, class, sexuality, (dis)ability and other relations of power in feminist scholarship, social justice movements, law and policy.

Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4043 [0.5 credit]**Families in the 21st Century**

Examination of contemporary family forms including single-parent-, blended/step-, LGBTQ- and common-law families. Topics may include theoretical perspectives; reproductive technologies; globalization; migration; interracial families; cohabitation; separation/divorce; motherhood/fatherhood; childcare/domestic labour; children/youth; intergenerational relations; social class/poverty; family policies and family law.

Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4160 [0.5 credit]**War, Terrorism and State Terrorism**

Critical theoretical and empirical analysis of violent political conflict. Examination of transformations and continuities of war, terrorism and state terrorism; modalities of political violence, such as torture or disappearance; responses to violent conflict; and the representation and construction of political violence.

Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4170 [0.5 credit]**Community-Engaged Sociology**

Students will apply their sociological education working with community organizations in small teams to research issues and advocate for positive social change. Each team's project will include public education, sociological analysis and creating a tangible product for the partner organization.

Includes: Experiential Learning Activity
Prerequisite(s): third-year or fourth-year standing, or permission from the instructor of SOCI 4170.
Lectures, discussion and project work three hours a week.

SOCI 4200 [0.5 credit]**War, Security and Citizenship**

Critical theoretical and multidisciplinary examination of violent conflict, security and citizenship. How wars produce a variety of abject and new subjects, create and reproduce citizenship hierarchies, and expand and contract citizenship entitlements.

Also listed as ANTH 4200.
Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4410 [0.5 credit]**Advanced Studies in Criminology**

Crime, criminal justice, social processes relating to the implementation of criminal justice policy, or other aspects of criminality and deviance.

Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4480 [0.5 credit]**Advanced Studies in the Sociology of Law**

Contemporary debates about the role of law in society focusing on the potential and limits of law as a vehicle of social transformation.

Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4700 [0.5 credit]**Honours Capstone Seminar**

Students carry out a small-scale research project to hone transferable skills acquired over the course of the degree programme.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing.
Seminar three hours a week.

SOCI 4702 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced.

Also listed as LAWS 4702, SOWK 4702.

Prerequisite(s): fourth-year standing.

Seminars three hours a week.

SOCI 4730 [0.5 credit]**Colonialism and Post-Colonialism**

Comparative ethnographic and historical approaches to colonialism including topics such as the formation of colonial regimes, colonial governmentality, servile labour systems, missionization, anti-colonial resistance, cultural hybridization and post-colonial memory. Exploration of debates over the relation between colonialism and the production of social scientific knowledge.

Also listed as ANTH 4730.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4750 [0.5 credit]**Advanced Studies in Globalization and Citizenship**

Selected topics on the confluence of processes of globalization, development and citizenship; examination of debates about the meaning and impact of globalization on patterns of inequality and citizenship both internationally and within Canada, and about strategies for progressive development.

Also listed as ANTH 4750.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4810 [0.5 credit]**Advanced Studies in Social Policy**

An examination of sociological research and social intervention.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4850 [0.5 credit]**Contemporary Problems in Sociology**

Selected problems in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4860 [0.5 credit]**Contemporary Problems in Sociology**

Selected problems in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4900 [1.0 credit]**Honours Thesis**

An independent research project under the supervision of a faculty member. Seminar supports students through each stage of the research process: development of a research question, designing the project, crafting a proposal, carrying out data generation and analysis, and writing the final thesis.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Sociology B.A. Honours with a CGPA of 9.00 or higher in the Major or by permission of the instructor. Students are strongly encouraged to locate a faculty member to supervise their Honours Thesis prior to the start of this course.

Seminars on a bi-weekly basis (three hours).

SOCI 4910 [0.5 credit]**Tutorial in Sociology**

Consult the Department for information.

SOCI 4920 [0.5 credit]**Tutorial in Sociology**

Consult the Department for information.

South Asian Studies (Minor)

This section presents the requirements for programs in:

- Minor in South Asian Studies

Program Requirements**Minor in South Asian Studies (4.0 credits)**

This minor is available to all undergraduate degree students.

Requirements:

1. 1.0 credit in:		1.0
SAST 1001 [0.5]	Introduction to South Asian Studies I	
SAST 1002 [0.5]	Introduction to South Asian Studies II	
2. 2.0 credits in	Approved South Asian Studies Electives at the 1000-level or higher (see list below)	2.0
3. 1.0 credit in	Approved South Asian Studies Electives at the 3000-level or higher (see list below)	1.0
Total Credits		4.0

Approved South Asian Studies Electives

Other courses not listed here may be used if they have sufficient South Asian content and advance approval of the department.

Anthropology

ANTH 2020 [0.5]	Race and Ethnicity
ANTH 2630 [0.5]	Studies in Asian Societies: Current Issues in Anthropological Research
ANTH 3020 [0.5]	Studies in Race and Ethnicity
ANTH 4020 [0.5]	Advanced Studies in Race and Ethnicity

Art History

ARTH 2007 [0.5]	Asian Art
ARTH 3007 [0.5]	Modern Asian Art

English Language and Literature

ENGL 2936 [0.5]	South Asian Literatures I
-----------------	---------------------------

ENGL 2937 [0.5]	South Asian Literatures II
ENGL 3940 [0.5]	Studies in Diaspora Lit.
ENGL 3965 [0.5]	Intro to Postcolonial Theory
ENGL 3972 [0.5]	Studies in Postcolonial Literature

Film Studies

FILM 2606 [0.5]	History of World Cinema I
FILM 2607 [0.5]	History of World Cinema II

History

HIST 1707 [1.0]	World History
HIST 2312 [0.5]	History of the Indian Ocean World
HIST 2910 [0.5]	Special Subject in History
HIST 3217 [0.5]	Empire and Globalization
HIST 3715 [0.5]	Themes in South Asian History

Music

MUSI 2009 [0.5]	Music of Asia
MUSI 3107 [0.5]	Classical Indian Music

Philosophy

PHIL 2700 [0.5]	Asian Philosophy
-----------------	------------------

Political Science

PSCI 3700 [0.5]	Government and Politics of South Asia
-----------------	---------------------------------------

Religion

RELI 1715 [0.5]	South Asian Religions
RELI 2410 [0.5]	Buddhism
RELI 2510 [0.5]	Hinduism
RELI 2515 [0.5]	Religion and Aesthetics in India
RELI 2711 [0.5]	Love and Its Myths
RELI 2750 [0.5]	Sikhism
RELI 3420 [0.5]	Early Buddhism
RELI 3520 [0.5]	Early Hinduism
RELI 3522 [0.5]	Modern Hinduism

South Asian Studies (SAST) Courses

SAST 1001 [0.5 credit]

Introduction to South Asian Studies I

An introduction to South Asian studies, including history, literature, religion, philosophy and the arts.

Includes: Experiential Learning Activity

Lecture three hours per week.

SAST 1002 [0.5 credit]

Introduction to South Asian Studies II

An introduction to contemporary dimensions of South Asia including cultural, social and political thought and practice.

Includes: Experiential Learning Activity

Lecture three hours per week.

Spanish (Minor)

This section presents the requirements for programs in:

- Minor in Spanish

Minor in Spanish (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in SPAN	3.0
2. 1.0 credit in SPAN at the 3000-level or higher	1.0

3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language.

4. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits	4.0
---------------	-----

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Spanish (SPAN) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

SPAN 1010 [0.5 credit]

First-Year Spanish I

For students with no knowledge of Spanish. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for SPAN 1110.

Four hours a week.

SPAN 1020 [0.5 credit]

First-Year Spanish II

Continuation of first-year Spanish. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for SPAN 1110.

Prerequisite(s): grade of C or higher in SPAN 1010, or permission of the School.

Four hours a week.

SPAN 1110 [1.0 credit]**Intensive First-Year Spanish**

For students with no knowledge of Spanish. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for SPAN 1010 or SPAN 1020. Eight hours a week (one term).

SPAN 2010 [0.5 credit]**Second-Year Spanish I**

Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for SPAN 2110. Prerequisite(s): grade of C or higher in SPAN 1020, SPAN 1110, or permission of the School. Four hours a week.

SPAN 2020 [0.5 credit]**Second-Year Spanish II**

Continuation of second-year Spanish. Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for SPAN 2110. Prerequisite(s): grade of C or higher in SPAN 2010, or permission of the School. Four hours a week.

SPAN 2110 [1.0 credit]**Intensive Second-Year Spanish**

Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for SPAN 2010, SPAN 2020. Prerequisite(s): grade of C or higher in SPAN 1020, SPAN 1110, or permission of the School. Eight hours a week (one term).

SPAN 3010 [0.5 credit]**Third-Year Spanish I**

Continuation of the study of Spanish to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Precludes additional credit for SPAN 3110. Prerequisite(s): grade of C or higher in SPAN 2020, SPAN 2110, or permission of the School. Three hours a week.

SPAN 3020 [0.5 credit]**Third-Year Spanish II**

Continuation of third-year Spanish. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Precludes additional credit for SPAN 3110. Prerequisite(s): grade of C or higher in SPAN 3010 or SPAN 3015, or permission of the School. Three hours a week.

SPAN 3110 [1.0 credit]**Intensive Third-Year Spanish**

Continuation of the study of Spanish to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Precludes additional credit for SPAN 3010, SPAN 3020. Prerequisite(s): grade of C or higher in SPAN 2020, SPAN 2110, or permission of the School. Six hours a week (one term).

SPAN 3220 [0.5 credit]**Introduction to Spanish Linguistics**

Introduction to principles of linguistic analysis, illustrated through Spanish. Sound systems, word structures and sentence structures of Spanish. Basic principles of language variation and change, as evidenced in the development of Spanish. Linguistic aspects of bilingualism as manifested in Spanish/English bilinguals. Prerequisite(s): SPAN 3020 or SPAN 3110 or permission of the School. Three hours a week.

SPAN 4010 [0.5 credit]**Fourth-Year Spanish I**

Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance. Precludes additional credit for SPAN 4110. Prerequisite(s): grade of C or higher in SPAN 3020, SPAN 3110, or permission of the School. Three hours a week.

SPAN 4015 [0.5 credit]**Spanish for Heritage Speakers I**

For students who have attained Spanish language proficiency in informal settings. This course formalizes grammar awareness, enhances literacy skills, and develops existing language abilities in a formal academic setting. Precludes additional credit for all SPAN courses numbered 4110 and below. Prerequisite(s): permission of the School. Online.

SPAN 4020 [0.5 credit]**Fourth-Year Spanish II**

Continuation of fourth-year Spanish. Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance. Precludes additional credit for SPAN 4110. Prerequisite(s): grade of C or higher in SPAN 4010, or permission of the School. Three hours a week.

SPAN 4025 [0.5 credit]**Spanish for Heritage Speakers II**

For students who have started to develop existing Spanish language abilities in a formal academic setting. This course enhances students' written expression while building on advanced knowledge of Spanish grammar and vocabulary.

Precludes additional credit for all SPAN courses numbered 4110 and below.

Prerequisite(s): SPAN 4015 or permission of the School.
Online.

SPAN 4110 [1.0 credit]**Intensive Fourth-Year Spanish**

Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study.

Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for SPAN 4010 or SPAN 4020.

Prerequisite(s): grade of C or higher in SPAN 3020, SPAN 3110, or permission of the School.

Six hours a week (one term).

SPAN 4215 [0.5 credit]**Spanish for Specific Purposes**

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in SPAN 4020 or SPAN 4110, or permission of the School.

Three hours a week.

SPAN 4320 [0.5 credit]**Topics in Spanish Linguistics**

Selected topic in Spanish linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): LING 1001 or SPAN 3220, and grade of C or higher in SPAN 4020 or 4110, or permission of the School.

Three hours a week.

SPAN 4380 [0.5 credit]**Topics in Spanish-speaking Cultures**

Selected topics in Spanish-speaking cultures and societies. Development of advanced language skills.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in SPAN 4020 or SPAN 4110, or permission of the School.

Three hours per week.

SPAN 4900 [1.0 credit]**Independent Study**

Research in a topic in Spanish language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Spanish, grade of C or higher in SPAN 4020 or SPAN 4110 or equivalent, or permission of the School.

SPAN 4901 [0.5 credit]**Independent Study**

Research in a topic in Spanish language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Spanish, grade of C or higher in SPAN 4020 or SPAN 4110 or equivalent, or permission of the School.

Technology, Society, Environment Studies

This section presents the requirements for programs in:

- Minor in Technology, Society, Environment Studies (TSE)

Program Requirements**Minor in Technology, Society, Environment Studies (TSE) (4.0 credits)**

This minor is available to all undergraduate degree students.

Requirements

1. 1.0 credit in:		1.0
ENSC 2001 [0.5]	Earth Resources and Natural Hazards: Environmental Impacts	
ISCI 2002 [0.5]	Human Impacts on the Environment	
2. 1.0 credit in:		1.0
TSES 3001 [0.5]	Technology-Society Interactions	
TSES 3002 [0.5]	Energy and Sustainability	
3. 1.0 credit from:		1.0
ISCI 1001 [0.5]	Introduction to the Environment	
& ISCI 2000 [0.5]	Natural Laws	
TSES 2305 [1.0]	Ancient Science and Technology	
CLCV 2305 [1.0]	Ancient Science and Technology	
4. 1.0 credit from:		1.0
TSES 4001 [0.5]	Technology and Society: Risk	
TSES 4002 [0.5]	Technology and Society: Forecasting	
TSES 4003 [0.5]	Technology and Society: Innovation	
TSES 4005 [0.5]	Information Technology and Society	
TSES 4006 [0.5]	Technology and Society: Work	
TSES 4007 [0.5]	Product Life Cycle Analysis	
TSES 4008 [0.5]	Environmentally Harmonious Lifestyles	
TSES 4009 [0.5]	Special Topics	
TSES 4010 [0.5]	Special Topics	

TSES 4011 [0.5]	Technology and Society: Development
TSES 4012 [0.5]	Science and Fiction: Creating Tomorrow
TSES 4014 [0.5]	Technology-Society: Time

5. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits	4.0
---------------	-----

Note: This Minor is designed for all degree students. There are no requirements for OAC Science credits or University level credits in Natural Sciences. Students with one or more OAC and/or university credits in science can replace ISCI 1001 and ISCI 2000 with TSES 2305, and/or additional half-credit 4000-level TSE courses. Students who have taken courses equivalent to ENSC 2001 and/or ISCI 2002 can also replace all or part of requirement 1 with 4000-level TSE courses. Any substitution requires permission of the Chair of TSE.

Technology, Society, Environment (TSES) Courses

TSES 2006 [0.5 credit]

Ecology and Culture

Cultural adaptations to the environment are set within globalization processes. New symbolic, historical and political ecologies arise out of the hubris of classical models. The advocacy role of applied ecological anthropology and the consequences of Western cultures' adaptive capacities will be examined.

Prerequisite(s): second year standing or equivalent.

Lectures three hours a week.

TSES 2305 [1.0 credit]

Ancient Science and Technology

Development of science and technology in the ancient world and their practical application. The craftsman and artisan in society; the attitude of intellectuals to science and manual labour. Effects of the institution of slavery. Suitable for students with no previous knowledge of Greece or Rome.

Also listed as CLCV 2305.

Prerequisite(s): second-year standing or equivalent.

Lectures two hours a week.

TSES 3001 [0.5 credit]

Technology-Society Interactions

Ethical issues in introducing technology; historical review of technology and human development; effects on society of medical and communications technologies; automation and its effects on society, especially work; impact of technology on international affairs, especially through multinational enterprises. Guest lectures.

Includes: Experiential Learning Activity

Precludes additional credit for TSES 3000 and TSES 3500.

Prerequisite(s): at least second-year standing.

Lectures and workshops three hours per week.

TSES 3002 [0.5 credit]

Energy and Sustainability

History of energy use by humans; utilization of renewable energy sources; energy and agriculture; energy and mineral resources; options for electricity generation; nuclear energy; risks of accidents in large systems, e.g. nuclear plants, hydroelectric dams. Guest lectures.

Includes: Experiential Learning Activity

Precludes additional credit for TSES 3000 and TSES 3500.

Prerequisite(s): at least second-year standing.

Lectures and workshops three hours per week.

TSES 3500 [0.5 credit]

Interactions in Industrial Society

Ethical issues involving technology; effects on society of automation, medical and communications technologies; technology and international affairs; energy use by humans; renewable energy sources; energy in agriculture and mineral extraction; electricity generation; nuclear energy; accidents in large systems, e.g. nuclear plants and hydroelectric dams.

Precludes additional credit for TSES 3001, TSES 3002 and TSES 3000.

Prerequisite(s): at least second-year standing.

Lectures three hours per week for both terms.

TSES 4001 [0.5 credit]

Technology and Society: Risk

Examines the complex practice of evaluating technology's impact on society and the environment; risk analysis; cost-benefit analysis; technology regulation; retrospective project assessment; necessary aspects of assessment and assessment examples. Guest lecturers.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4002 [0.5 credit]

Technology and Society: Forecasting

Methods used for forecasting technological and social change; technological and social change portrayed in literature; science fiction factors involved in such change. Guest lecturers.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4003 [0.5 credit]

Technology and Society: Innovation

Technological and social innovation, especially in Canada: historical examples; the relation of innovation to economic development; analysis of the steps involved; effect on employment; impediments and incentives. Guest lecturers.

Prerequisite(s): third-year standing or equivalent.

Lectures and seminars three hours a week.

TSES 4005 [0.5 credit]**Information Technology and Society**

Investigation of the human and social impacts of electronic information and communication on our working, educational, and personal lives from various disciplinary perspectives; problem issues and competing values in the creation, manipulation, dissemination, and control of information are identified; resolution initiatives encouraged. Guest lecturers.

Prerequisite(s): third-year standing or equivalent.

Lectures and seminars three hours a week.

TSES 4006 [0.5 credit]**Technology and Society: Work**

Explores the relationship between technology, employment and the individual; work organizations; employment restructuring; rural/urban split; the impact of information technologies; demographic impacts and globalization; Canadian issues and public policy explored. Guest lecturers.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4007 [0.5 credit]**Product Life Cycle Analysis**

Life cycle analysis of products and processes, from resource extraction through design and use to waste management or recycling; social and environmental implications of product design and use; how we value material objects and the environment; consumerism; evolution of design. Guest lectures.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4008 [0.5 credit]**Environmentally Harmonious Lifestyles**

Brief history of humans as part of the ecosystem; religious and ethical views; current degree of ecosystem disturbance by industrial society; innovations in products and services furthering the sustainability of the ecosystem, emphasis on the Canadian context. Guest lecturers and a major project.

Prerequisite(s): third-year standing or equivalent.

Lectures and seminars three hours a week.

TSES 4009 [0.5 credit]**Special Topics**

Reading course for students who wish to investigate a particular topic relevant to TSES.

Prerequisite(s): third-year standing or equivalent and permission of the Chair of TSE.

TSES 4010 [0.5 credit]**Special Topics**

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): third-year standing or equivalent.

Lectures three hours a week.

TSES 4011 [0.5 credit]**Technology and Society: Development**

Created in collaboration with Engineers Without Borders Carleton, the course explores appropriate ways of meeting technological needs of communities. Uses Canadian and African case studies to examine how capacity building has a greater impact than simple delivery of technological goods.

Prerequisite(s): third-year standing or equivalent.

Lectures three hours a week.

TSES 4012 [0.5 credit]**Science and Fiction: Creating Tomorrow**

Scenarios are used to speculate about the planned future. Science fiction and speculative fiction project ideas about imagined futures. Using readings from scenarios, speculative fiction and science fiction the course explores the mutual shaping of fiction, science and technology.

Prerequisite(s): third-year standing or equivalent.

TSES 4014 [0.5 credit]**Technology-Society: Time**

Time is a universal human experience, but it presents some profound mysteries. It governs our behaviour on personal, societal and cultural levels. This course will bring together experts from physics, sociology, philosophy, biology, literature and psychology to illuminate our understanding.

Prerequisite(s): third-year standing or equivalent.

Lectures three hours a week.

Women's and Gender Studies

This section presents the requirements for programs in:

- Women's and Gender Studies B.A. Honours
- Women's and Gender Studies B.A. Combined Honours
- Women's and Gender Studies B.A.
- Specialization in Global Genders and Sexualities B.G.In.S. Honours
- Stream in Global Genders and Sexualities B.G.In.S.
- Minor in Women's and Gender Studies

Program Requirements**Women's and Gender Studies****B.A. Honours (20.0 credits)****A. Credits included in the Major CGPA (9.0 credits)**

1. 1.0 credit from:		1.0
WGST 1808 [1.0]	Introduction to Women's and Gender Studies	
FYSM 1402 [1.0]	Issues in Women's and Gender Studies	
2. 1.0 credit in:		1.0
WGST 2800 [0.5]	Intersectional Identities	
WGST 2801 [0.5]	Activism, Feminisms, and Social Justice	
3. 1.0 credit in:		1.0
WGST 3809 [0.5]	Feminist Thought	
WGST 3810 [0.5]	Feminist Research	
4. 3.0 credits from	WGST at the 3000- or 4000-level	3.0

5. 1.0 credit from WGST at the 4000-level	1.0
6. 2.0 credits from WGST or WGST Approved Electives	2.0
B. Credits not included in the Major CGPA (11.0 credits)	
7. 8.0 credits not in WGST	8.0
8. 3.0 credits in free electives	3.0
Total Credits	20.0

Women's and Gender Studies

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Women's and Gender Studies Major CGPA (7.0 credits)

1. 1.0 credit from:	1.0
WGST 1808 [1.0] Introduction to Women's and Gender Studies	
FYSM 1402 [1.0] Issues in Women's and Gender Studies	
2. 1.0 credit in:	1.0
WGST 2800 [0.5] Intersectional Identities	
WGST 2801 [0.5] Activism, Feminisms, and Social Justice	
3. 1.0 credit in:	1.0
WGST 3809 [0.5] Feminist Thought	
WGST 3810 [0.5] Feminist Research	
4. 1.5 credit from WGST at the 2000- or 3000-level	1.5
5. 1.5 credits from WGST or WGST Approved Electives at the 2000- or 3000-level	1.5
6. 0.5 credit from WGST at the 4000-level	0.5
7. 0.5 credit from WGST or WGST Approved Electives at the 4000-level	0.5
B. Additional Requirements (13.0 credits)	13.0
8. The requirements for Combined Honours in the other discipline must be met	
9. Sufficient electives to make a total of 20.0 credits for the degree	
Total Credits	20.0

Women's and Gender Studies

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 1.0 credit from:	1.0
WGST 1808 [1.0] Introduction to Women's and Gender Studies	
FYSM 1402 [1.0] Issues in Women's and Gender Studies	
2. 1.0 credit in:	1.0
WGST 2800 [0.5] Intersectional Identities	
WGST 2801 [0.5] Activism, Feminisms, and Social Justice	
3. 1.0 credit in:	1.0
WGST 3809 [0.5] Feminist Thought	
WGST 3810 [0.5] Feminist Research	
4. 1.0 credit from WGST or WGST Approved Electives at the 3000-level	1.0
5. 2.0 credits from WGST or WGST Approved Electives at the 2000-level	2.0
B. Credits Not Included in the Major CGPA (9.0 credits)	
6. 6.0 credits in electives not in WGST	6.0

7. 3.0 credits in free electives	3.0
Total Credits	15.0

Specialization in Global Genders and Sexualities B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses	4.5
GINs 1000 [0.5] Global History	
GINs 1010 [0.5] International Law and Politics	
GINs 1020 [0.5] Ethnography, Globalization and Culture	
GINs 2000 [0.5] Ethics and Globalization	
GINs 2010 [0.5] Globalization and International Economic Issues	
GINs 2020 [0.5] Global Literatures	
GINs 3010 [0.5] Global and International Theory	
GINs 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change	
GINs 4090 [0.5] Honours Seminar in Global and International Studies	
2. 0.0 credit in: International Experience Requirement Preparation	
GINs 1300 [0.0] International Experience Requirement Preparation	
3. 7.5 credits in: The Specialization	
a. 1.5 credits in: Foundations	1.5
WGST 1808 [1.0] Introduction to Women's and Gender Studies	
SXST 2101 [0.5] Sexuality Studies: A Critical Introduction	
b. 2.0 credits from: Theorizing Bodies and Borders	2.0
SXST 2102 [0.5] Sexuality, Gender, and Security	
WGST 2800 [0.5] Intersectional Identities	
WGST 2803 [0.5] Body Matters: The Politics of Bodies	
WGST 2811 [0.5] Masculinities	
SXST 3103 [0.5] Sexuality and Disability	
SXST 3104 [0.5] Transnational Sexualities	
SXST 3106 [0.5] Queer(ing) Archives	
WGST 3809 [0.5] Feminist Thought	
WGST 3810 [0.5] Feminist Research	
c. 2.5 credits from: Advocacy and Activism	2.5
HUMR 2202 [0.5] Power Relations and Human Rights	
HUMR 2301 [0.5] Human Rights and Sexualities	
WGST 2801 [0.5] Activism, Feminisms, and Social Justice	
WGST 2812 [0.5] Selected Topics in Women's and Gender Studies	
WGST 3812 [0.5] Selected Topics in Women's and Gender Studies	
HUMR 3202 [0.5] Human Rights and Resistance	
WGST 3803 [0.5] Feminisms and Transnationalism	
WGST 3806 [0.5] Girlhoods	
WGST 3807 [0.5] Gendered Violence	
d. 1.5 credits from: Honours Seminars in Global Gender and Sexuality	1.5
HUMR 4302 [0.5] Transgender Human Rights	
HUMR 4401 [0.5] Gender, Citizenship and Social Justice in a Transnational World	

SXST 4101 [0.5]	Interdisciplinary Studies of Sexuality	
SXST 4103 [0.5]	Politics of Kink	
WGST 4812 [0.5]	Selected Topics in Women's and Gender Studies	
B. Credits Not Included in the Major CGPA (8.0 credits)		
4. 8.0 credits in: free electives		8.0
C. Additional Requirements		
5. The International Requirement must be met		
6. The Language Requirement must be met.		
Total Credits		20.0

Stream in Global Genders and Sexualities B.G.In.S. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)		
1. 4.0 credits in: Core Courses		4.0
GINS 1000 [0.5]	Global History	
GINS 1010 [0.5]	International Law and Politics	
GINS 1020 [0.5]	Ethnography, Globalization and Culture

WGST 3803 [0.5]	Feminisms and Transnationalism	
WGST 3806 [0.5]	Girlhoods	
WGST 3807 [0.5]	Gendered Violence	
WGST 3812 [0.5]	Selected Topics in Women's and Gender Studies	
B. Credits Not Included in the Major CGPA (7.0 credits)		
3. 7.0 credits in free electives		7.0

C. Additional Requirements

4. The Language Requirement must be met.	
Total Credits	15.0

Minor in Women's and Gender Studies (4.0 credits)

The minor in Women's and Gender Studies is open to all undergraduate degree students not in Women's and Gender Studies programs.

Requirements:

1. 1.0 credit from:		1.0
WGST 1808 [1.0]	Introduction to Women's and Gender Studies	
FYSM 1402 [1.0]	Issues in Women's and Gender Studies	
2. 1.0 credit in:		1.0
WGST 2800 [0.5]	Intersectional Identities	
WGST 2801 [0.5]	Activism, Feminisms, and Social Justice	
3. 1.0 credit from WGST Approved Electives at the 2000-level or above		1.0
4. 1.0 credit from WGST Approved Electives at the 3000-level		1.0
5. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Women's and Gender Studies Approved Electives

The following course offerings are listed for the convenience of students. Detailed course descriptions will be found under the appropriate departmental course listings.

Note: Special Topics courses and other courses offered by units throughout the University may in any given year contain substantial material on gender and/or women's experience. Recent examples include certain courses in art history, geography, history, journalism and sociology.

Women's and Gender Studies Approved Electives

Anthropology		
ANTH 2040 [0.5]	Anthropology and Gender	
Art History		
ARTH 4600 [0.5]	Art, Architecture, and Gender	
Communication and Media Studies		
COMS 4604 [0.5]	Media, Gender and Sexuality	
Economics		
ECON 3380 [0.5]	The Economics of Gender and Ethnicity	
English Language and Literature		
ENGL 2108 [0.5]	Women and Literature	
ENGL 2109 [0.5]	Gender, Sexuality and Literature	
Film Studies		
FILM 3301 [0.5]	Topics in Cinema, Gender, and Sexuality	
History		
HIST 2506 [0.5]	Introduction to Women's and Gender History	
HIST 3106 [0.5]	Social History of Sexuality	

HIST 3406 [0.5]	African-American Women
HIST 3505 [0.5]	Women in Canada
HIST 3713 [0.5]	Gender and Sexuality in Latin America
HIST 3717 [0.5]	Gender and Sexuality in Africa
HIST 4505 [1.0]	Seminar in Women's and Gender History
Human Rights	
HUMR 2301 [0.5]	Human Rights and Sexualities
HUMR 4401 [0.5]	Gender, Citizenship and Social Justice in a Transnational World
Law	
LAWS 3001 [0.5]	Women and the Legal Process
LAWS 3503 [0.5]	Equality and Discrimination
LAWS 3804 [0.5]	Law of the Family
LAWS 4001 [0.5]	Law, Family and Gender
LAWS 4002 [0.5]	Feminist Theories of Law
Music	
MUSI 3302 [0.5]	Music and Gender I
MUSI 4303 [0.5]	Music and Gender II
Philosophy	
PHIL 2306 [0.5]	Philosophy and Feminism
PHIL 2307 [0.5]	Gender and Philosophy
PHIL 4005 [0.5]	Seminar in Modern Philosophy
PHIL 4603 [0.5]	Special Topic in Feminist Philosophy
PHIL 4604 [0.5]	Special Topic in Feminist Philosophy
Political Science	
PSCI 2500 [0.5]	Gender and Politics
PSCI 3303 [0.5]	Feminist Political Theory
PSCI 3502 [0.5]	Gender and Politics: Global South
PSCI 4403 [0.5]	Reproductive Rights Policy in North America
PSCI 4500 [0.5]	Gender and Globalization
PSCI 4501 [0.5]	Politics of Identity in Europe and the Russian Area
PSCI 4506 [0.5]	Women and Politics in North America
PSCI 4605 [0.5]	Gender in International Relations
Psychology	
PSYC 3603 [0.5]	Psychology of Women
Public Administration	
PADM 4213 [0.5]	Gender and Public Policy
Religion	
RELI 3131 [0.5]	Judaism and Gender
Sexuality Studies	
SXST 2101 [0.5]	Sexuality Studies: A Critical Introduction
SXST 3104 [0.5]	Transnational Sexualities
SXST 4101 [0.5]	Interdisciplinary Studies of Sexuality
SXST 4104 [0.5]	Sexuality and Political Economy
Social Work	
SOWK 3804 [0.5]	Law of the Family
SOWK 4206 [0.5]	Feminist Counselling
Sociology	
SOCI 2043 [0.5]	Sociology of the Family

SOCI 2045 [0.5]	Gender and Society
SOCI 3040 [0.5]	Studies in the Sociology of Gender
SOCI 3044 [0.5]	Sociology of Sex and Sexuality
SOCI 3056 [0.5]	Women and Health
SOCI 3420 [0.5]	Studies in Gender and Criminal Justice
SOCI 4039 [0.5]	Women in Contemporary Middle East Societies
SOCI 4040 [0.5]	Feminist Sociology of Intersectionality
Women's and Gender Studies	
WGST 2803 [0.5]	Body Matters: The Politics of Bodies
WGST 2811 [0.5]	Masculinities
WGST 2812 [0.5]	Selected Topics in Women's and Gender Studies
WGST 2814 [0.5]	Gender, Sexuality and Cultural Production
WGST 3803 [0.5]	Feminisms and Transnationalism
WGST 3806 [0.5]	Girlhoods
WGST 3807 [0.5]	Gendered Violence
WGST 3812 [0.5]	Selected Topics in Women's and Gender Studies
WGST 4812 [0.5]	Selected Topics in Women's and Gender Studies

Women's and Gender Studies (WGST) Courses

WGST 1808 [1.0 credit]

Introduction to Women's and Gender Studies

Overview of the major issues in women's and gender studies. Topics include the social construction of femininity and masculinity, violence, sexuality, representations of women, the treatment of women in the workplace and in education, women and the arts, and women's health. Includes: Experiential Learning Activity
Precludes additional credit for FYSM 1402.
Lectures and discussion three hours a week.

WGST 2800 [0.5 credit]

Intersectional Identities

Critical examination of the multiple intersections between gender, as a relation of power and social identity, as these intersect with (neo)colonialism, racism, poverty, ableism and heterosexism in a globalized world.
Includes: Experiential Learning Activity
Prerequisite(s): one of WGST 1808, HUMR 1001, FYSM 1402 or FYSM 1403 or permission of the Institute of Women's and Gender Studies.
Lectures and discussion three hours a week.

WGST 2801 [0.5 credit]

Activism, Feminisms, and Social Justice

A comparative, interdisciplinary examination of feminist activism in the modern era. A range of perspectives and materials are used to examine the objectives, scope, and impact of feminists' efforts to effect social and political change in different historical, cultural, and national settings.
Includes: Experiential Learning Activity
Prerequisite(s): second-year standing.
Lectures and discussion three hours a week.

WGST 2803 [0.5 credit]**Body Matters: The Politics of Bodies**

Introduction to feminist studies of globalization and politics of bodies. Globalization of ideas, cultures, economics and politics, movement of bodies, bodies as spaces for disrupting norms of sex, gender, race, class, ability, sexuality, embodiment and embodied resistance in a globalized world.

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week.

WGST 2811 [0.5 credit]**Masculinities**

Theoretical, experiential, cultural and policy issues around masculinities studies. The complexities of masculinities; the intersections of feminist and masculinity studies.

Topics may include hegemonic, racialized, homosexual, and Other(ed) masculinities. Feminist theories and transnational perspectives frame course content and discussions.

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week.

WGST 2812 [0.5 credit]**Selected Topics in Women's and Gender Studies**

An interdisciplinary analysis of one or more topics in women's and gender studies.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week. This course is repeatable when the topic changes.

WGST 2814 [0.5 credit]**Gender, Sexuality and Cultural Production**

How gender and cultural (re)production (literature, visual/performing arts, social media) and consumption articulate, circulate, and transform each other within economic, political, and social contexts. Emphasis on role, object, processes, and representations.

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week.

WGST 3803 [0.5 credit]**Feminisms and Transnationalism**

Feminist analyses of the diversity of transnational experiences around rights, health, education, motherhood, fathering, work, social media and technological change, among others. Topics may include: migration, environment, wars/conflicts, neocolonialism, diaspora, human trafficking, refugee issues and displaced populations.

Prerequisite(s): third-year standing, and 1.0 credit in WGST; or permission of the Institute.

WGST 3806 [0.5 credit]**Girlhoods**

The emerging discipline of girlhood studies; social and cultural constructions of girlhood and categories of difference. Topics may include the commercialization of girlhood, popular culture and girls, negotiating identities, violence, sexualities, agency and activism in a globalizing world.

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute.

Lecture three hours a week.

WGST 3807 [0.5 credit]**Gendered Violence**

Theories, concepts and contexts of the complex manifestations of gendered violence in the lives of women, men and children globally.

Precludes additional credit for WGST 3005 Section "A", if taken in Winter 2012 and WGST 3005 Section "A" if taken in Fall 2009.

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute of Women's and Gender Studies.

Lecture three hours a week.

WGST 3809 [0.5 credit]**Feminist Thought**

Interdisciplinary approach introducing students to contemporary feminist thought and theories. Themes, issues and conflicts in feminist theorizing, including: debates around the concept of 'woman', sex wars, the politics of difference, epistemology, ontology, feminist knowledge, and power.

Includes: Experiential Learning Activity

Precludes additional credit for WOMN 3808 no longer offered).

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute of Women's and Gender Studies.

Lecture three hours a week.

WGST 3810 [0.5 credit]**Feminist Research**

Examination of feminist methodologies and critiques of prevailing approaches to the construction of knowledge. Feminist epistemology, subjectivity, and ethics in feminist research are central themes.

Includes: Experiential Learning Activity

Precludes additional credit for WOMN 3808 (no longer offered).

Prerequisite(s): third-year standing and 1.0 credit in WGST, or permission of the Institute of Women's and Gender Studies.

Lecture three hours a week.

WGST 3812 [0.5 credit]**Selected Topics in Women's and Gender Studies**

An interdisciplinary analysis of one or more topics in women's and gender studies.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and 1.0 credit in WGST.

Lecture three hours a week.

WGST 4003 [0.5 credit]**Traversing Feminisms**

Interdisciplinary overview of key historical concepts and issues in Women's and Gender Studies in the areas of theory, epistemology, and research design. Topics will vary from year to year. Provides additional background for students entering Women's and Gender Studies from other disciplines.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Institute.

Also offered at the graduate level, with different requirements, as WGST 5003, for which additional credit is precluded.

Seminar three hours a week.

WGST 4800 [0.5 credit]**Women's and Gender Studies Practicum**

Experience in research through a combination of classroom seminars and a field placement. Each project will be negotiated individually as a contract between the student, instructor and institutional partner.

Includes: Experiential Learning Activity

Precludes additional credit for WGST 4903 (no longer offered).

Prerequisite(s): WGST 3809 and WGST 3810, and fourth-year standing with a minimum 6.5 CGPA in B.A. Hons. Women's and Gender Studies program or permission of the Institute.

WGST 4801 [1.0 credit]**Women's and Gender Studies Practicum**

Experience in applied feminisms through a combination of classroom seminars and internship. Each project will be negotiated individually as a contract between the student, instructor and institutional partner. Students must complete both the in-class and the internship portion of the course.

Includes: Experiential Learning Activity

Precludes additional credit for WGST 4800, WGST 4903 and WGST 4904 (no longer offered).

Prerequisite(s): WGST 3809, WGST 3810, and fourth-year standing with a minimum 6.5 CGPA in B.A. Hons. Women's and Gender Studies program or permission of the Institute.

Also offered at the graduate level, with different requirements, as WGST 5920, for which additional credit is precluded.

This full-credit course is offered intensively in one term.

WGST 4811 [1.0 credit]**Honours Research Project in Women's and Gender Studies**

Students will undertake a major research project on some aspect of women's and gender studies under the supervision of a faculty member.

Includes: Experiential Learning Activity

Prerequisite(s): a major CGPA of at least 11.00, plus WGST 3809 and WGST 3810 and fourth-year standing in B.A. Hons. Women's and Gender Studies program, or permission of the Institute of Women's and Gender Studies.

WGST 4812 [0.5 credit]**Selected Topics in Women's and Gender Studies**

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing and 1.0 credit in Women's and Gender Studies or permission of the Institute of Women's and Gender Studies.

Seminar three hours a week. This course is repeatable when the topic changes.

WGST 4814 [0.5 credit]**Independent Study**

Reading or research course supervised by a faculty member. Written proposal approved by the supervisor must be submitted before last day of course changes.

Normally, only 0.5 credit of independent study may be counted in the program.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in a Women's and Gender Studies program or permission of the Institute of Women's and Gender Studies.

Courses

Summer session: some of the courses listed in this Calendar are offered during the summer. Hours and scheduling for summer session courses will differ significantly from those reported in the fall/winter Calendar. To determine the scheduling and hours for summer session classes, consult the class schedule at central.carleton.ca

Not all courses listed are offered in a given year. For an up-to-date statement of course offerings for the current session and to determine the term of offering, consult the class schedule at central.carleton.ca

Aerospace Engineering (AERO)

Aerospace Engineering (AERO) Courses

AERO 2001 [0.5 credit]

Aerospace Engineering Graphical Design

Engineering drawing techniques; fits and tolerances; working drawings; fasteners. Elementary descriptive geometry; true length, true view, and intersection of geometric entities; developments. Assignments will make extensive use of Computer-Aided Design (CAD) and will include the production of detail and assembly drawings from actual physical models.

Includes: Experiential Learning Activity

Also listed as MAAE 2001.

Prerequisite(s): Second-year status in Engineering.

Lectures and tutorials two hours a week, laboratory four hours a week.

AERO 3002 [0.5 credit]

Aerospace Design and Practice

Design approach and phases. Design integration. Influence of mission and other requirements on vehicle configuration. Trade-off studies, sizing and configuration layout. Flight vehicle loads, velocity-load factor diagram. Structural design: overall philosophy, role in design process, methods.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2001 and third-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

AERO 3101 [0.5 credit]

Lightweight Structures

Structural concepts; theory of elasticity; bending, torsion and shear in thin-walled beams having single or multi-cell sections; work and energy principles; deformation and force analysis of advanced structures, including stiffened thin-wall panels; finite element methods. Stability and buckling of thin-walled structures.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 3202.

Lectures three hours a week; problem analysis one hour a week.

AERO 3240 [0.5 credit]

Orbital Mechanics

Review of translational kinematics and dynamics. Keplerian two-body problem: Kepler's laws, orbital elements, orbit determination. Orbital perturbations: oblateness of the Earth, atmospheric drag. Orbital maneuvers and interplanetary flights. Advanced topics.

Prerequisite(s): MAAE 2101.

Lectures three hours per week, tutorial one hour per week.

AERO 3700 [0.5 credit]

Aerospace Materials

Properties, behaviour and manufacturing methods for metals, polymers and ceramics used in aerospace applications. Specialty alloys for gas turbines. Properties and manufacture of aerospace composites. Behaviour of materials in space.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours a week; problem analysis one hour a week.

AERO 3841 [0.5 credit]

Spacecraft Design I

Design of spacecraft and spacecraft subsystems with emphasis on mission requirements and current design methods: spacecraft configuration, payload, structural, attitude control, thermal, power, and other related subsystems. Spacecraft integration and testing.

Includes: Experiential Learning Activity

Prerequisite(s): AERO 3240.

Lectures three hours a week, tutorials or laboratories three hours per week.

AERO 4003 [0.5 credit]

Aerospace Systems Design

Stress and deflection analysis; fatigue, safe life, damage tolerant design. Propulsion systems integration; landing gear; control and other subsystems. Mechanical component design. Airworthiness regulations and certification procedures. Weight and cost estimation and control. System reliability. Design studies of aircraft or spacecraft components.

Includes: Experiential Learning Activity

Prerequisite(s): AERO 3002 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

AERO 4009 [0.5 credit]

Aviation Management and Certification

Product development, quality control. Strategic organizational analysis and design. Airworthiness, type certification and planning, delegation of authority, airplane flight manual. Aerospace system design and safety.

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours per week.

AERO 4300 [0.5 credit]

Acoustics and Noise Control

Behaviour of compressible fluids, sound waves and properties of sound sources; measurement of sound; human perception of sound; prediction methods based on energy considerations; sound propagation in realistic environments: outdoors, rooms, ducts; absorption and transmission loss, noise control; case studies.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 3004 and (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4302 [0.5 credit]**Aerodynamics and Heat Transfer**

Differential equations of motion. Viscous and inviscid regions. Potential flow: superposition; thin airfoils; finite wings; compressibility corrections. Viscous flow: thin shear layer approximation; laminar layers; transition; turbulence modeling. Convective heat transfer: free versus forced convection; energy and energy integral equations; turbulent diffusion.

Prerequisite(s): MAAE 3300 or MECH 3310.

Also offered at the graduate level, with different requirements, as MECH 5000, for which additional credit is precluded.

Lectures three hours a week.

AERO 4304 [0.5 credit]**Computational Fluid Dynamics**

Differential equations of motion. Numerical integration of ordinary differential equations. Potential flows: panel methods; direct solution; vortex-lattice methods. Finite-difference formulations: explicit versus implicit methods; stability. Parabolized and full Navier-Stokes equations; conservation form. Transonic and supersonic flows: upwind differencing. Grid transformations. Computer-based assignments.

Prerequisite(s): (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4306 [0.5 credit]**Aerospace Vehicle Performance**

Morphology of aircraft and spacecraft. Performance analysis of fixed wing aircraft: drag estimation, propulsion, take-off, climb and landing, endurance, payload/range, manoeuvres; operational economics. Performance analysis of rotor craft: rotor-blade motion, hovering and vertical ascent, forward flight, and autorotation. Rocket propulsion; escape velocity; orbital dynamics.

Prerequisite(s): (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4308 [0.5 credit]**Aircraft Stability and Control**

Static stability and control: equilibrium requirements; longitudinal stability requirements; neutral points; manoeuvring flight; control forces and control requirements; lateral static stability certification requirements. Dynamic stability: axis systems; governing equations; phugoid and short period modes; lateral dynamic modes. Closed-loop control.

Prerequisite(s): MAAE 3500 and fourth-year status in Engineering.

Also offered at the graduate level, with different requirements, as MECH 5101, for which additional credit is precluded.

Lectures three hours a week.

AERO 4402 [0.5 credit]**Aerospace Propulsion**

Propulsion requirements, effects of Mach Number, altitude, and application; basic propeller theory; propeller, turboshaft, turbojet, turbofan and rocket; cycle analysis and optimization for gas turbine power plant; inter-relationships between thermodynamic, aerodynamic and mechanical designs; rocket propulsion; selection of aeroengines.

Precludes additional credit for MECH 4401.

Prerequisite(s): MAAE 2400, (MAAE 3300 or MECH 3310), and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4442 [0.5 credit]**Transatmospheric and Spacecraft Propulsion**

Planetary/interplanetary environments and effects. Launch and spacecraft propulsion: liquid/solid/hybrid rockets, ram/scramjets, combined cycle engines, electrothermal, electromagnetic, electrostatic, nuclear, and propellantless propulsion. Trajectory analysis, multi-staging, separation dynamics. Advanced engine concepts.

Prerequisite(s): MAAE 2400, (MAAE 3300 OR MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4446 [0.5 credit]**Heat Transfer for Aerospace Applications**

Fundamentals of heat transfer with emphasis on aerospace systems design. Conduction, convection and radiation modes of heat transfer. Radiation exchange between surfaces and view factors. Radiation in spacecraft thermal control. High speed flight and reentry heating.

Precludes additional credit for MECH 4406.

Prerequisite(s): MAAE 2400 and (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4540 [0.5 credit]**Spacecraft Attitude Dynamics and Control**

Rigid body dynamics. The dynamic behavior of spacecraft. Environmental torques. The design of attitude control systems. Gravity gradient, spin, and dual spin stabilization. Attitude manoeuvres. The design of automatic control systems. Impacts of attitude stabilization techniques on mission performance.

Prerequisite(s): AERO 3240 and MAAE 3500 and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4602 [0.5 credit]**Introductory Aeroelasticity**

Review of structural behaviour of lifting surface elements; structural dynamics, Laplace Transforms, dynamic stability; modal analysis; flutter, Theodorsen's theory; flutter of a typical section; wing flutter, T-tail flutter, propeller whirl flutter; gust response; buffeting, limit cycle flutter.

Prerequisite(s): (MAAE 3300 or MECH 3310) and SYSC 3600 and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4607 [0.5 credit]**Rotorcraft Aerodynamics and Performance**

Rotorcraft history and fundamentals. Momentum theory: hover, axial climb and descent, autorotation, forward flight, momentum theory for coaxial and tandem rotors. Blade element analysis. Rotor airfoil aerodynamics. Rotor blade dynamics and trim. Helicopter performance, height-velocity curves, conceptual design. High-speed rotorcraft.

Prerequisite(s): MAAE 3004 and (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.

Lectures three hours per week.

AERO 4608 [0.5 credit]**Composite Materials**

Reinforcing mechanisms in composite materials; material properties. Strength and elastic constants of unidirectional composites; failure criteria. Analysis of laminated plates; bending and eigenvalue problems. Environmental effects and durability. Damage tolerance. Design of composite structures.

Prerequisite(s): MAAE 2202 and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4609 [0.5 credit]**Joining of Materials**

Design for joining: base material and component geometry. Selection of joining method and filler material; Adhesive bonding; Soldering; Brazing; Diffusion bonding; Resistance welding; Fusion welding (GTAW, EB, laser and plasma arc); Friction welding; NDE. Emphasis on Aerospace materials and applications.

Prerequisite(s): MAAE 2700 and fourth-year status in Engineering.

Lectures three hours per week.

AERO 4842 [0.5 credit]**Spacecraft Design II**

System view of spacecraft. Requirements definition. Spacecraft payloads (remote sensing, imaging systems, astronomy instrumentation etc.). Exploration missions. Implications for systems and missions. Space system design case studies.

Includes: Experiential Learning Activity

Precludes additional credit for AERO 4802 (no longer offered).

Prerequisite(s): AERO 3841 and fourth-year status in Engineering.

Lectures three hours a week, tutorials or laboratories one hour per week.

African Studies (AFRI)

African Studies (AFRI) Courses**AFRI 1001 [0.5 credit]****Introduction to African Studies I**

Introduction to African studies, including history, geography, literature, and the arts.

Lecture three hours per week, or two-hour lecture and one hour discussion group per week.

AFRI 1002 [0.5 credit]**Introduction to African Studies II**

Introduction to contemporary political, economic, and social dimensions of Africa.

Lecture three hours per week.

AFRI 2002 [0.5 credit]**The Horn of Africa**

The economic, social and political challenges facing the Horn of Africa, placing them in historical and global context. These countries may be discussed: Djibouti, Eritrea, Ethiopia, Somalia, Sudan, South Sudan.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2003 [0.5 credit]**The Great Lakes Region of Africa**

The economic, social and political challenges facing the Great Lake Regions of Africa, including the 1994 Rwanda genocide and its aftermath. These countries may be discussed: Burundi, Democratic Republic of Congo, Kenya, Rwanda, Tanzania, Uganda.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2004 [0.5 credit]**North Africa**

The economic, social and political challenges facing Egypt and the Maghreb countries of North Africa, including the "Arab Spring". These countries may be discussed: Algeria, Egypt, Libya, Morocco, Mauritania, Tunisia, Western Sahara.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2005 [0.5 credit]**West Africa**

The economic, social and political challenges facing countries of West Africa, including domestic issues and regional relations. These countries may be discussed: Benin, Burkina Faso, Cape Verde, Cote d'Ivoire, Gambia, Ghana, Guinea, Guinea Bissau, Liberia, Mali, Niger, Nigeria, Senegal, Sierra Leone, Togo.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2006 [0.5 credit]**Southern Africa**

The economic, social and political challenges facing the countries of southern Africa, including the legacies of apartheid. These countries may be discussed: Angola, Botswana, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Swaziland, Tanzania, Zambia, Zimbabwe.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 3001 [0.5 credit]**Globalization and Popular Culture in Africa**

This course examines new popular life-worlds in Africa. Though potentially "elusive" to conceptualize, this course shows how these forms of popular culture are related to the role of youth culture and social media in an age of globalization and democratization.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3002 [0.5 credit]**Regions in Africa: Cultures, Society, Politics**

Using dominant linguistic borderlines that have shaped much of the African experience in the last century, this course will look at themes cutting across culture, geography, society and politics in francophone, anglophone, lusophone and arabophone Africa. Precludes additional credit for AFRI 2001 (no longer offered).

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3003 [0.5 credit]**African Social and Political Thought**

The African communitarian tradition. Contemporary African social and political thought, situated in their broad historical contexts.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3004 [0.5 credit]**The African City**

Historical emergence and contemporary issues of the African city.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3005 [0.5 credit]**African Migrations and Diasporas**

Movements of African peoples, from the slave trade era to the present. African diaspora communities around the world and their relationship with Africa.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3100 [0.5 credit]**African Studies Abroad: Selected Topics**

Based at one of Carleton's partner universities in Africa, course will include lectures, seminars, guest speakers, field visits and group research projects to examine a topic in African studies, as selected by the instructor. Topic and location may change annually.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and approval by the Director of the Institute of African Studies.

AFRI 3609 [0.5 credit]**African Cinema**

Major moments, debates, figures and movements in African cinema around such categories as the colonial, the anti-colonial, the postcolonial, the national, the continental, the diasporic, the global, race, Afro-futurism, and world cinema, interrogating in the process the very category of "African cinema."

Also listed as FILM 3609.

Prerequisite(s): 1.0 credit in FILM and third year standing or permission of instructor.

Lecture and screening three hours a week, lecture one hour a week.

AFRI 3900 [0.5 credit]**Placement**

Placement for one term with an African focus.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Institute of African Studies.

AFRI 3916 [0.5 credit]**Spoken Word Poetry Workshop**

This intermediate-level workshop-based course explores traditions of spoken words poetry while requiring students to create and perform their own spoken word poems.

Includes: Experiential Learning Activity

Also listed as ENGL 3916.

Prerequisite(s): third-year standing or a 2000-level writing workshop and permission of the instructor.

Workshops three hours a week

AFRI 4000 [0.5 credit]**Advanced Topics in African Studies**

Seminar examining a specialized topic in African studies.

The topic will vary from year to year.

Prerequisite(s): fourth-year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Seminar three hours per week.

AFRI 4003 [0.5 credit]**History of 'The African Child'**

Students will analyze the history of the figure of 'the African child' using a range of visual, sources from colonial officials, anthropologists, historians, advertisers, charity and development workers, and African children themselves.

Includes: Experiential Learning Activity

Also listed as CHST 4003.

Precludes additional credit for CHST 4001 if taken in 2014-15.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

AFRI 4050 [0.5 credit]**Selected Topics in African Studies**

Selected topics in African studies not ordinarily treated in the regular course program. The choice of topic varies from year to year. Students should check with the institute regarding the topic offered.

Prerequisite(s): fourth-year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Also offered at the graduate level, with different requirements, as AFRI 5050., for which additional credit is precluded.

Seminar three hours per week.

AFRI 4900 [0.5 credit]**Tutorial in African Studies**

A tutorial on selected topics in which seminars are not available.

Prerequisite(s): Permission of the Institute of African Studies and agreement of an instructor.

American Sign Language (ASLA)

American Sign Language (ASLA) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

ASLA 1010 [0.5 credit]**First-Year American Sign Language I**

For students with little or no knowledge of the language or culture of deaf people. Basic communicative competence in American Sign Language. Anthropological, sociolinguistic, and sociocultural aspects of deaf culture. Compulsory attendance.

Precludes additional credit for ASLA 1110.

Four hours a week.

ASLA 1020 [0.5 credit]**First-Year American Sign Language II**

Continuation of first-year American Sign Language. Basic communicative competence plus anthropological, sociolinguistic, and sociocultural aspects of deaf culture. Compulsory attendance.

Precludes additional credit for ASLA 1110.

Prerequisite(s): grade of C or higher in ASLA 1010, or permission of the School.

Four hours a week.

ASLA 1110 [1.0 credit]**Intensive First-Year American Sign Language**

For students with little or no knowledge of the language or culture of deaf people. Basic communicative competence in American Sign Language. Anthropological, sociolinguistic, and sociocultural aspects of deaf culture. Compulsory attendance.

Precludes additional credit for ASLA 1010 or ASLA 1020.

Eight hours a week (one term).

ASLA 2010 [0.5 credit]**Second-Year American Sign Language I**

Study of American Sign Language beyond the elementary level. Study of targeted lexical and grammatical features, as well as specific conversational skills. Further exploration of the culture of deaf people. Compulsory attendance.

Precludes additional credit for ASLA 2110.

Prerequisite(s): grade of C or higher in ASLA 1020, ASLA 1110, or permission of the School.

Four hours a week.

ASLA 2020 [0.5 credit]**Second-Year American Sign Language II**

Continuation of second-year American Sign Language. Study of targeted lexical and grammatical features, as well as specific conversational skills. Further exploration of the culture of deaf people. Compulsory attendance.

Precludes additional credit for ASLA 2110.

Prerequisite(s): grade of C or higher in ASLA 2010, or permission of the School.

Four hours a week.

ASLA 2110 [1.0 credit]**Intensive Second-Year American Sign Language**

Further study of American Sign Language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ASLA 2010 and ASLA 2020.

Prerequisite(s): grade of C or higher in ASLA 1020 or ASLA 1110, or permission of the School.

Eight hours a week (one term).

ASLA 3010 [0.5 credit]**Third-Year American Sign Language I**

Receptive and expressive mastery of grammar and lexicon of American Sign Language. Advanced conversation skills across different registers. Advanced insight into the culture of the deaf community. Compulsory attendance.

Prerequisite(s): grade of C or higher in ASLA 2020, ASLA 2110, or permission of the School.

Three hours a week.

ASLA 3020 [0.5 credit]**Third-Year Advanced American Sign Language II**

Continuation of third-year American Sign Language. Receptive and expressive mastery of grammar and lexicon of American Sign Language. Advanced conversation skills across different registers. Advanced insight into the culture of the deaf community. Compulsory attendance.

Prerequisite(s): grade of C or higher in ASLA 3010, or permission of the School.

Three hours a week.

ASLA 4010 [0.5 credit]**Fourth-Year American Sign Language I**

Focus on the development of receptive and productive skills above what is expected in everyday conversation. Skills in specific contexts such as social services, health, business and government. Compulsory attendance.

Prerequisite(s): grade of C or higher in ASLA 3020, or permission of the School.

Three hours a week.

ASLA 4020 [0.5 credit]**Fourth-Year American Sign Language II**

Continuation of fourth-year American Sign Language. Focus on the development of receptive and productive skills above what is expected in everyday conversation. Skills in specific contexts such as social services, health, business and government. Compulsory attendance.

Prerequisite(s): grade of C or higher in ASLA 4010, or permission of the School.

Three hours a week.

ASLA 4900 [1.0 credit]**Independent Study**

Research in a topic in American Sign Language or deaf culture under the supervision of a member of the School. Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in American Sign Language, grade of C or higher in ASLA 4020 or equivalent, or permission of the School.

ASLA 4901 [0.5 credit]**Independent Study**

Research in a topic in American Sign Language or deaf culture under the supervision of a member of the School. Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in American Sign Language, grade of C or higher in ASLA 4020 or equivalent, or permission of the School.

Anthropology (ANTH)

Anthropology (ANTH) Courses**ANTH 1001 [0.5 credit]****Introduction to Anthropology**

An examination of a range of anthropological approaches to the study of humankind and culture; may include discussions of human evolution, the study of cultures and societies past and present, and the study of language and symbolism.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 1000 (no longer offered), HUMS 1005.

Lectures/discussions three hours a week.

ANTH 1002 [0.5 credit]**Introduction to Issues in Anthropology**

Examination of anthropological issues in the study of social institutions such as the family, economy, politics and belief systems. Debates about gender, development, cultural differences, health and the environment may also be examined.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 1000 (no longer offered).

Lectures/discussions three hours a week.

ANTH 2001 [1.0 credit]**Foundations in Socio-Cultural Anthropology**

Exploration of basic anthropological concepts and analytical strategies through case studies. Emphasis on socio-cultural diversity as documented by ethnographic research with attention to the role of culture in articulating gender, kinship, economic and political relations.

Includes: Experiential Learning Activity

Prerequisite(s): ANTH 1001 or ANTH 1002.

Lectures and discussions three hours a week.

ANTH 2020 [0.5 credit]**Race and Ethnicity**

Introduction to some of the recent theoretical literature and research on the issues of race, racism and ethnicity. Concepts, controversies and definitions dealing with race and ethnicity from the Canadian context and internationally.

Also listed as SOCI 2020.

Lectures and workshop three hours a week.

ANTH 2040 [0.5 credit]**Anthropology and Gender**

The study of gender in anthropology, including its theoretical, cross-cultural and ethnographic aspects. Emphasis on gender as a sociocultural process that is at once discursive and embodied, and that varies in distinct cultural, socio-historical, geopolitical, and economic contexts.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 2408 (no longer offered).

Lectures and workshop three hours a week.

ANTH 2060 [0.5 credit]**Girlhood in Contemporary Contexts: Anthropological and Sociological Perspectives**

Drawing on anthropological and sociological approaches, students will explore girls' lives in diverse cultural, political, economic, and social contexts. Topics may include: movement and migration, education, media, imaging and humanitarianism, consumerism, agency and activism, health, and violence.

Also listed as SOCI 2060.

Prerequisite(s): second-year standing or permission of the instructor.

Two hour lecture plus one hour tutorial per week.

ANTH 2070 [0.5 credit]**Psychological Anthropology**

Exploration of the relative and the universal in relations between the psychological self and the cultural environment. Topics may include anthropology of psychiatric institutions and practices, the cultural relativity of emotions, the self in everyday life and ritual.

Lecture/discussion groups three hours a week.

ANTH 2080 [0.5 credit]**Humans/Animals: the More-than-Human in Anthropology**

Examination of relationships between humans and animals in the anthropological canon, including: multispecies ethnography, the role of the 'more than human' in Indigenous legal orders, posthumanist and STS theory, relationships between humans and animals and other non-human entities in the Anthropocene.

Lecture/discussion groups three hours per week.

ANTH 2500 [0.5 credit]**Culture and Symbols**

The representation and construction of culture through symbols. Topics may include material culture, rituals, archetypes, myths and mythmaking.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 3304 (no longer offered).

Lectures and workshop three hours a week.

ANTH 2510 [0.5 credit]**Theories of Human Nature**

Critical, cross-cultural exploration of theories of human nature. Begins with a survey of western anthropological models of human consciousness and examines scientific, philosophical and religious perspectives with reference to ethnographic research on myth, religion and science produced by western and non-western cultures.

Lectures and discussion three hours a week.

ANTH 2550 [0.5 credit]**Religion and Society**

Cross-cultural survey of religious institutions, focusing on theories and methodologies in the study of religion. Topics may include myth, totemism, cults, ritual, belief systems, altered states of consciousness, new religious and/or new age movements and the relationship of religion with other social institutions and processes.

Includes: Experiential Learning Activity

Also listed as RELI 2736.

Lectures and workshop three hours a week.

ANTH 2610 [0.5 credit]**Studies in Indigenous Peoples of North America: Current Issues in Anthropological Research**

Examination of a range of issues related to particular indigenous communities and regions of North America.

Topics include political, socio-economic, and cultural transformations, Aboriginal title and rights, collaborative research, and other topics relevant to indigenous communities and indigenous - non-indigenous relations.

Precludes additional credit for ANTH 3610 (no longer offered).

Lecture/discussion groups three hours a week.

ANTH 2620 [0.5 credit]**Ethnography of Sub-Saharan Africa**

Examination of selected areas of contemporary Sub-Saharan Africa through current anthropological research.

Topics may include war and displacement, religion, politics, international development, history, popular culture, colonialism, witchcraft, health and kinship.

Precludes additional credit for ANTH 3620 (no longer offered).

Lecture/discussion groups three hours a week.

ANTH 2630 [0.5 credit]**Studies in Asian Societies: Current Issues in Anthropological Research**

Examination of contemporary Asia through anthropological research. Topics may include cultural practices, religion, health issues, economics, politics, history, colonialism and social change. Emphasis will vary by sub-region from year to year, e.g., focusing on South, East or Southeast Asia.

Lectures and discussion three hours a week.

ANTH 2635 [0.5 credit]**Tradition and Modernity in the Pacific**

Relationships between contemporary Pacific societies and the rest of the world. Topics may include colonialism and its aftermaths, cultural revival, mining, Christianity, alternative modernities, diasporas, and indigenous media.

Lecture/discussion groups three hours a week.

ANTH 2640 [0.5 credit]**Andean Ethnography**

Ethnographic survey of the Andes. The formation of "indigenous" communities and their relation to urban centres and nation-states. Topics may include state formation, social movements, agrarian reform, political economy of food, class, ethnicity and racism, rural-urban migration, community.

Lectures and discussion three hours a week.

ANTH 2650 [0.5 credit]**Ethnography of Mesoamerica**

Ethnographic survey of Mexico and Guatemala focusing on a variety of rural and urban communities throughout the area with emphasis on indigenous groups. Topics may include nationalism, ethnicity, social organization, gender, cosmology and material culture.

Lectures and discussion three hours a week.

ANTH 2660 [0.5 credit]**Ethnography of North Africa**

Introduction to societies and cultures of North Africa.

Topics may include: history and socio-cultural role of Islam, the relations between Arabs and Berbers, ethnography of religious institutions, ritual practices, everyday life, gender, colonialism and post-colonialism, problems of state and religion.

Lectures and discussion three hours a week.

ANTH 2670 [0.5 credit]**Ethnography of Brazil**

Examination of selected areas of contemporary Brazil through current anthropological research. Topics may include: processes of nation-formation, colonialism, gender and sexuality, race and racism, health, everyday life, urban ethnography, popular culture, social movements, and institutions such as religion, the family and the state.

Lectures and discussion three hours a week.

ANTH 2680 [0.5 credit]**Anthropology of "Mainstream" North America**

Examination of contemporary North American society. Topics may include social class, success myths, schooling, immigration, cities, the self, television, romance, youth sub cultures; how what is seen as "mainstream" is determined.

Lectures/discussion groups three hours a week

ANTH 2690 [0.5 credit]**Ethnography of a Selected Area**

Ethnography of a selected area. Area to be announced.

Lectures and discussion three hours a week.

ANTH 2815 [0.5 credit]**Selected Topics in Anthropology**

Selected topics in anthropology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Lecture/discussion groups three hours a week.

ANTH 2825 [0.5 credit]**Selected Topics in Anthropology**

Selected topics in anthropology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Lectures/discussion groups three hours a week.

ANTH 2850 [0.5 credit]**Development and Underdevelopment**

International development and its socio-cultural practices with consequences at local, national and international levels. Topics may include modernization, dependency, globalization, and development as discourse, political ecology, gender, indigenous knowledge, social movements, and non-governmental organizations.

Includes: Experiential Learning Activity

Lectures and workshop three hours a week.

ANTH 2915 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the Department for information.

ANTH 2925 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the department for information.

ANTH 3005 [0.5 credit]**Ethnographic Research Methods**

Exploration of methodological issues in ethnographic research through lectures, discussion, individual research projects. Research design, ethical review, participant observation, ethnographic interviewing, writing/analyzing fieldnotes, and examining how a researcher's subject position and relation to the community under study influence the creation of ethnographic knowledge.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 2003.

Prerequisite(s): ANTH 2001 [1.0].

Lectures three hours a week.

ANTH 3007 [0.5 credit]**History of Anthropological Theory**

Analysis of the development of anthropological thought since the end of the eighteenth to the mid-twentieth century. The development of various theoretical approaches within their historical, social, intellectual and biographical contexts. The implications of these issues may be explored through ethnographies.

Precludes additional credit for ANTH 2005 and ANTH 3100.

Prerequisite(s): ANTH 2001 [1.0].

Lectures three hours a week.

ANTH 3008 [0.5 credit]**Contemporary Theories in Anthropology**

Contemporary trends in anthropological analyses. Discussion of anthropological theory in its contemporary, interdisciplinary context.

Precludes additional credit for ANTH 3006 (no longer offered), ANTH 3100.

Prerequisite(s): ANTH 2001.

Lecture/discussion groups three hours per week.

ANTH 3010 [0.5 credit]**Language, Culture, and Globalization**

Theoretical and methodological contributions of anthropology to the study of communicative practices in a variety of social and cultural contexts. Language practices, ideologies, and globalization as they intersect with culture, power, race, ethnicity, indigeneity, gender, nationhood and political economy.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours per week.

ANTH 3020 [0.5 credit]**Studies in Race and Ethnicity**

Race, racism and ethnicity in Canada and internationally. Critical perspectives on race and ethnicity as they intersect with other social relations. Racism, Eurocentrism, Orientalism, nationalism, colonialism, international migration, citizenship, and diasporic cultures.

Also listed as SOCI 3020.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

ANTH 3025 [0.5 credit]**Anthropology and Human Rights**

Examines the concepts of “cultural relativism” and “universalism.” What are human rights? Who has them? How do notions of “human rights” evolve? What about other, non-Western concepts of “individual,” “collectivity,” “rights” and “responsibilities”? What about human rights violations and abuses?.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3027 [0.5 credit]**Studies in Globalization and Human Rights**

Examination of the various dimensions and meanings of globalization and its relationship with human rights. Main emphasis will be on the implications of the emerging global economy for economic, social, political and cultural rights.

Also listed as SOCI 3027, PSCI 3802.

Prerequisite(s): 0.5 credit 2000-level ANTH, or SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or HUMR 1001 [1.0].

Lectures three hours a week.

ANTH 3035 [0.5 credit]**Science, Culture and Society: Social Studies of Science**

Principal theories and methods used by Science and Technology Studies scholars to examine the social construction of scientific knowledge. Topics may include the demarcation of science from non-science, the relationship between experts and laypersons, and the study of scientific controversies.

Also listed as SOCI 3035.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3037 [0.5 credit]**Studies in Information Systems and Social Power**

Knowledge/power relations in historical and comparative perspective, with attention to information devices, techniques, and practices.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3040 [0.5 credit]**The Global Middle Class**

The growing numbers of people who could be considered “middle class” are central to both “cultural” and “economic” globalization. This course examines what it means to be middle class theoretically, historically, and cross-culturally.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture/discussion groups three hours a week.

ANTH 3045 [0.5 credit]**Children and Childhood in a Globalized World**

A socio-historical and cross-cultural exploration of constructions, deconstructions, and the experience of childhood in Canada and internationally. Compulsory schooling, child labour, protection and regulation in law, the commodification and equalization of childhood, children’s social movements, and the emergence of children’s rights discourses.

Also listed as SOCI 3045.

Prerequisite(s): 0.5 credit ANTH, or SOCI 1001 and SOCI 1002, or SOCI 1003 and third-year standing.

Lecture three hours a week.

ANTH 3215 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program. The choice of topics varies from year to year. Check with the Department regarding the topic offered.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3225 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program. The choice of topics varies from year to year. Check with the Department regarding the topic offered.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3310 [0.5 credit]**Studies in Medical Anthropology**

Cross-cultural study of the body, illness, healing, health and well-being. Sociocultural factors in the causation, diagnosis, management and meaning of illness. Biocultural and political-economic dimensions of ill health. Ritual and symbolic healing. Ethical concerns and public health applications of anthropology.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3355 [0.5 credit]**Anthropology and the Environment**

Environmental concerns affect everyone, unevenly. How does anthropology illuminate the cultural, social, political and ecological differentiation resulting from and constituting environmental processes? The range of responses considered may address issues of resource access and exploitation, as well as transnational transformations in the concept of nature.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

ANTH 3360 [0.5 credit]**Jokes, Humor, Laughter**

Anthropological inquiries into the phenomenon of humor. Psychoanalytic, semiotic and phenomenological perspectives are applied to ethnographic materials from a variety of cultural contexts.

Lecture/discussion groups three hours per week.

ANTH 3510 [0.5 credit]**Ritual**

Cross-cultural study of ritual, religious and secular, its role in various social processes and relation to other activities. Exploration of variability of ritual and the range of theories that have been developed to account for what ritual does, including intellectualist, functionalist and performative.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures and discussion three hours a week.

ANTH 3550 [0.5 credit]**Studies in Visual Anthropology**

Examination of the anthropological experience as reflected in film/video and still photography. A number of problems are considered, including selectivity, bias, the effect of the observer's presence, and problems in reconstructing past events in film. Issues of media-literacy will be examined. Precludes additional credit for ANTH 3107 (no longer offered).

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3570 [0.5 credit]**Studies in Art, Culture and Society**

Thematic investigation of genres, forms and styles of art, culture and society. Topics may include current debates on social structure and artistic creativity; ideology, cultural memory and politics, patronage and art; cross-cultural representations, taste, social mobility and art; modernism and the avant-garde.

Also listed as SOCI 3570.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3580 [0.5 credit]**Anthropology of Material Culture and Museums**

How diverse societies are materialized in a wide range of cultural materials from clothing, housing and memorials to more ephemeral materializations such as food, gardens, dance, ritual props and music-making. Emphasis on museum practices and the cultural politics of display.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures and discussion three hours a week.

ANTH 3600 [0.5 credit]**Studies in Anthropology and Indigenous Peoples**

Problems in the interpretation and analysis of various forms of encounters between indigenous peoples and colonizing powers will be examined. Topics may include patterns and practices of contact, cultural syncretism, conquest, domination, relations of ruling, cultural hegemony, resistance and non-compliance.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 3109 (no longer offered).

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3800 [0.5 credit]**Studies in Applied and Participatory Anthropology**

History, significant approaches, and key topics of applied anthropology and participatory research. Participatory and non-participatory anthropological research on social problems within activities of intervention, which may include policy processes, development projects, evaluation exercises, impact assessments, and advocacy work.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3915 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the Department for information.

ANTH 3925 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the Department for information.

ANTH 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ANTH 4000 [0.5 credit]**Field Placement in Anthropology**

This course is intended to provide students with practical experience through a field placement equivalent to one day a week. Students are responsible to secure their field placement in a relevant organization with the approval of a Faculty member acting as Field placement coordinator.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours Anthropology standing and permission of the Department.

ANTH 4005 [0.5 credit]**Health and Globalization**

An anthropological examination of the health impacts of global processes, relationships, and movements.

May include topics such as economic development and disease, migration and health, medical tourism, transnational reproduction, and the global circulation of bodies, organs, medical technologies, drugs, and pathogens.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4006 [0.5 credit]**Decolonizing Methodologies in the 21st Century: Practicing Engaged Anthropology**

Examination of the breadth of critical literature on 'decolonizing methodologies' within and adjacent to anthropology in the 20th and 21st centuries. The course will equip students with an in-depth understanding of critiques of the discipline's methods and ethics while practicing an engaged anthropology.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours per week.

ANTH 4007 [0.5 credit]**Advanced Studies in Anthropological Theory and Methods**

The course examines debates in theory and methodology currently facing the discipline through a survey of leading-edge issues and approaches.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4020 [0.5 credit]**Advanced Studies in Race and Ethnicity**

An advanced seminar that explores selected topics in race and ethnicity in an international context. Specific topics will vary according to instructors' research interests.

Also listed as SOCI 4020.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4036 [0.5 credit]**Science and Technology Studies: Selected Topics**

The course is concerned with broadening students' understanding of Science and Technology Studies (STS) by focusing on a relevant topic. Topics may vary from year to year. Students should check with the Department regarding the topic offered.

Precludes additional credit for SOCI 4401 (no longer offered).

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4109 [0.5 credit]**Ethnography, Gender and Globalization**

Intersections of gender and globalization; ethnographic focus on how the movements of people, goods, ideas, and capital are transforming existing formations of gender and sexualities. Topics and approaches may vary from year to year.

Prerequisite(s): third-year standing or permission of instructor.

Also offered at the graduate level, with different requirements, as ANTH 5109, for which additional credit is precluded.

Seminar three hours a week.

ANTH 4200 [0.5 credit]**War, Security and Citizenship**

Critical theoretical and multidisciplinary examination of violent conflict, security and citizenship. How wars produce a variety of abject and new subjects, create and reproduce citizenship hierarchies, and expand and contract citizenship entitlements.

Also listed as SOCI 4200.

Prerequisite(s): fourth year standing.

Seminar three hours a week.

ANTH 4215 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program. The choice of topic varies from year to year. Check with the department regarding the topic offered.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4225 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program. The choice of topic varies from year to year. Check with the department regarding the topic offered.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4355 [0.5 credit]**Anthropology of Natural Resources**

Anthropology of natural resources. Topics may include economies, ecologies, cultural and social dynamics of fishing, forestry, lands, mining, oil, wildlife, at varying analytical scales, including a critical examination of the term "natural resource" itself.

Prerequisite(s): third- year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as ANTH 5355, for which additional credit is precluded.

Lectures and discussions three hours a week.

ANTH 4500 [0.5 credit]**Advanced Studies in Culture and Symbols**

Contemporary debates in theory and methods regarding analysis of the symbolic processes.

Precludes additional credit for ANTH 4705 (no longer offered).

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4550 [0.5 credit]**Advanced Studies in Visual Anthropology**

Exploration of media representations of the cultural other through student projects based on contemporary anthropological analysis of cross-cultural multimedia: video, photography, mapping and the Internet. The role of media in the dissemination of anthropological research and as the subject of anthropological analysis.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4560 [0.5 credit]**Economic Anthropology**

Anthropology's holistic, comparative and critical contribution to the study of livelihood. How practices and understandings of production, circulation, consumption, and property vary cross-culturally. Relevant theoretical debates including those among formalist (neo-classical), substantivist, Marxist, and interpretive approaches over the applicability of capitalist thinking.

Prerequisite(s): third-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as ANTH 5560, for which additional credit is precluded.

Seminar three hours a week.

ANTH 4590 [1.0 credit]**Capstone Seminar in Globalization, Culture, and Power**

This course is dedicated to developing individual student research projects. Through seminar discussions, these student projects will benefit from an introduction to research design and methodologies, analysis and interpretation, as well as issues surrounding ethics, representation, and knowledge production.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the BGINS Globalization, Culture and Power program with a minimum 9.0 GPA or permission of the instructor.

Seminar three hours a week.

ANTH 4610 [0.5 credit]**Advanced Studies in Indigenous Peoples**

This research-based seminar focuses on specific conceptual and methodological issues pertaining to contemporary anthropological research involving Indigenous peoples and communities. Topical focus may vary from year to year.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4620 [0.5 credit]**Advanced Studies in Contemporary Sub-Saharan Africa: Current Issues in Anthropological Research**

Research-based seminar that explores the issues and debates related to anthropological research in contemporary sub-Saharan Africa with emphasis on theoretical, methodological, analytical, ethical, practical and applied problems in anthropological research in that area.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4730 [0.5 credit]**Colonialism and Post-Colonialism**

Comparative ethnographic and historical approaches to colonialism including topics such as the formation of colonial regimes, colonial governmentality, servile labour systems, missionization, anti-colonial resistance, cultural hybridization and post-colonial memory. Exploration of debates over the relation between colonialism and the production of social scientific knowledge.

Also listed as SOCI 4730.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4750 [0.5 credit]**Advanced Studies in Globalization and Citizenship**

Selected topics on the confluence of processes of globalization, development and citizenship. Examination of debates about the meaning and impact of globalization on patterns of inequality and citizenship both internationally and within Canada, and about strategies for progressive development.

Also listed as SOCI 4750.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

ANTH 4780 [0.5 credit]**Anthropology of Personhood**

Exploration of anthropological approaches to personhood and diversity in constructions of the self in various socio-cultural and historical contexts.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4900 [1.0 credit]**Honours Research Paper in Anthropology**

Candidates with a GPA in ANTH of 9.0 or above, can present a research essay. Students develop their essay proposal and HRP through seminar discussion. Problems of style, sources, conceptualization, design, analysis and interpretation are discussed. Students are strongly encouraged to take this course.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing.

ANTH 4915 [0.5 credit]**Tutorial in Anthropology**

Consult the Department for information.

ANTH 4925 [0.5 credit]**Tutorial in Anthropology**

Consult the Department for information.

Applied Linguistics and Discourse Studies (ALDS)

Applied Linguistics and Discourse Studies (ALDS) Courses

ALDS 1001 [0.5 credit]**Language Matters: Introduction to ALDS**

Core topics in applied linguistics and discourse studies. First and second language acquisition; sign language; language teaching and assessment; language in society; language, identity and power; discourse analysis; written language and literacy.

Precludes additional credit for LALS 1000 and LALS 1002 (no longer offered).

Lectures three hours a week.

ALDS 2201 [0.5 credit]**Analysis of Oral Language Use**

Introduction to the analysis of oral language in use; distinctions between spoken and written language; theoretical and methodological approaches such as speech act theory, ethnography of communication, conversation analysis, and discourse analysis; classroom interaction; interaction in first- and second-language acquisition; analysis of spoken language corpora.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2201 (no longer offered).

Prerequisite(s): ALDS 1001 or permission of the instructor.

Lectures three hours a week.

ALDS 2202 [0.5 credit]**Analysis of Written Language Use**

Introduction to the analysis of written language in use, including theoretical and methodological approaches such as rhetorical genre studies (including academic and workplace writing); adult literacy studies; text-structure analysis; discourse analysis (including critical discourse analysis); analysis of textual corpora.

Includes: Experiential Learning Activity

Prerequisite(s): ALDS 1001 or FYSM 1004 or ENGL 1000 or COMS 1000 or COMS 1001 or permission of the instructor.

Lectures three hours a week.

ALDS 2203 [0.5 credit]**Linguistic Theory and Second-Language Learning**

Critical study of linguistic theory and description applied to second-language learning; a brief consideration of similarities and differences in first- and second-language development, bilingualism and types of linguistic error and their significance.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2203 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

ALDS 2604 [0.5 credit]**Communication Disorders I**

A survey course highlighting congenital, developmental and acquired disorders of speech, language, fluency, hearing and voice; prevalence, current research, assessment and intervention approaches for each disorder will be presented.

Also listed as LING 2604.

Precludes additional credit for LALS 2604 (no longer offered).

Prerequisite(s): second-year standing, or permission of the instructor.

Lectures three hours a week.

ALDS 2704 [0.5 credit]**Bilingualism**

The linguistic nature of bilingualism. The structure of bilingual societies and the relation between societal and individual bilingualism. The role of bilingualism in language education.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2704 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

ALDS 2705 [0.5 credit]**Language and Power**

How social conditions engender different linguistic choices. Attention to linguistic resources for expressing ideological beliefs and for maintaining and reinforcing power structures in institutional and social sites.

Includes: Experiential Learning Activity

Precludes additional credit for FYSM 1205 or LALS 2705 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

ALDS 3201 [0.5 credit]**Cross-Cultural Communication**

Introduction to cross-cultural communication in social, academic and professional settings. Application of theoretical perspectives to case study analysis; pedagogical/training topics as relevant to students' disciplines; collaborative work with other language and cultural groups as feasible.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3903 if taken in 2009 or 2010, or ALDS 3903 if taken in 2011.

Prerequisite(s): third-year standing, and one of LING 1001 or ALDS 1001, or permission of the School.

Lectures three hours a week.

ALDS 3202 [0.5 credit]**Sociolinguistics**

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as LING 3702.

Precludes additional credit for LALS 2701 and ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing.

Lectures three hours a week.

ALDS 3205 [0.5 credit]**English as a Global Language**

The origins, development and globalization of the English language. Establishment of Standard English; spread of English in the Inner circle and in expanding circles; world Englishes; linguistic features of English varieties. English as a global language; learning and teaching English as an international language.

Includes: Experiential Learning Activity

Prerequisite(s): ALDS 1001 and LING 1001.

Seminars three hours a week.

ALDS 3301 [0.5 credit]**Introduction to Deaf Studies**

A critical introduction to Deaf community and culture as they relate to a social model of disability, to ethnicity, and to issues of diversity and inclusion. Discourse analysis of research and policy in education for Deaf students from early childhood and beyond.

Includes: Experiential Learning Activity

Also listed as DBST 3301.

Precludes additional credit for ALDS 3903A if taken in Winter term 2016 or Winter term 2018, and ALDS 4906A, if taken in Fall term 2016.

Prerequisite(s): third-year standing in Linguistics or Applied Linguistics and Discourse Studies or enrolment in the Minor in Disability Studies.

Seminars three hours a week.

ALDS 3401 [0.5 credit]**Research and Theory in Academic Writing**

Study of contemporary research and theory (1970s to present) on academic writing in elementary, secondary and post-secondary school, with emphasis on writing in university. Consideration of what academic writing entails, how writing fosters learning, and how instruction can help students develop their writing abilities.

Includes: Experiential Learning Activity

Also listed as ENGL 3908.

Precludes additional credit for LALS 2407 [1.0], ENGL 2907, LALS 3400, LALS 3401, ENGL 3907.

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ALDS 3402 [0.5 credit]**Research and Theory in Workplace Writing**

Study of contemporary research and theory (1980s to present) in writing in workplace settings. Consideration of how writing is used in accomplishing work, how novices learn to write effectively, and what the implications are for pedagogy.

Includes: Experiential Learning Activity

Also listed as ENGL 3909.

Precludes additional credit for LALS 2407 [1.0], ENGL 2907, LALS 3400, LALS 3402, ENGL 3907.

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ALDS 3405 [0.5 credit]**Second Language Writing**

Theory and practice of second language (L2) writing: how people learn to write in a second language, and how L2 writing courses for specific groups of learners can be designed.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3405 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 3414 [0.5 credit]**Introduction to Professional Writing and Editing**

The fundamental skills of professional writing and editing, including writing for specific audiences, document design, revision strategies, copyediting.

Also listed as ENGL 3414.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week.

ALDS 3604 [0.5 credit]**Communication Disorders II**

In-depth evaluation of current psycholinguistic models of processes underlying communication disorders and the biomedical support for such models. Emphasis on contrasting developmental disorders with acquired disorders. Additional exploration of other modalities (sign language, reading).

Also listed as LING 3604.

Precludes additional credit for LING 3009 Section "A", if taken Winter 2013.

Prerequisite(s): ALDS 2604 or LING 2604.

Lectures three hours a week.

ALDS 3701 [0.5 credit]**Corpus Linguistics**

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as LING 3701.

Precludes additional credit for LALS 3701 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 3705 [0.5 credit]**Adult Literacy**

The extent and social contexts of restricted literacy in Canadian society; approaches to and debates surrounding the teaching and learning of adult literacy.

Precludes additional credit for LALS 4906 (if taken in 1994-95 or 1995-96) and LALS 3705 (no longer offered).

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ALDS 3706 [0.5 credit]**Discourse Analysis**

Principles of and studies in discourse analysis, including both conversational and textual/documentary analysis. The major focus is on language use in structuring social relationships.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3706 or LALS 4203 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 3900 [1.0 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Applied Linguistics and Discourse Studies.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

ALDS 3901 [0.5 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Applied Linguistics and Discourse Studies.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

ALDS 3903 [0.5 credit]**Special Topic in Applied Linguistics and Discourse Studies**

Selected topics in Applied Linguistics and Discourse Studies not ordinarily treated in the regular course program.

Lectures three hours per week.

ALDS 4201 [0.5 credit]**Language Testing**

The principles of test construction as applied to testing language proficiency, achievement and aptitude.

Structural, notional, discrete point and integrative tests.

Diagnostic assessment of language development, language disorders, and literacy. Students are expected to create, analyze and evaluate language tests.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4201 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 4203 [0.5 credit]**Methods and Practice in Language Pedagogy**

Integrates theory and description of language learning and teaching with practical work in one of the languages offered by the School. Requires observation in a language classroom, along with practical work facilitating in-class or language lab activities, or developing teaching materials.

Includes: Experiential Learning Activity

Precludes additional credit for ALDS 3803 (no longer offered).

Prerequisite(s): permission of the language instructor for the language class in which practical work will be conducted; proficiency in the language in question, as determined by either completion of the prerequisites for 4010 of that language, or assessment by the language instructor; or permission of the School.

Seminars and in-class practicum.

ALDS 4206 [1.0 credit]**Practicum in Teaching ESL**

Investigates the processes of classroom learning with observation and some teaching experience in ESL classes. Normally taken concurrently with ALDS 4305 and ALDS 4306.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the concurrent CTESL program, or enrolment in the post-graduate CTESL program.

ALDS 4207 [0.5 credit]**ESL Literacy**

The nature of everyday literacy and literacy skills.

Analyzing the structure of everyday literacy texts and demands. Issues in literacy for second-language learners.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4207 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 4208 [0.5 credit]**Languages for Specific Purposes**

An introduction to Languages for Specific Purposes - language instruction tailored to specific groups of learners, e.g. English for Science, for Business, for the Workplace, for Academic Purposes. Research and teaching methodology. Emphasis on EAP/ESP research and instruction at Carleton.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4208 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Also offered at the graduate level, with different requirements, as ALDS 5208, for which additional credit is precluded.

Lectures three hours a week.

ALDS 4209 [0.5 credit]**Teaching English as a Foreign Language: Methodology for Global Contexts**

An introduction to the principles of teaching language in a foreign-language context; review of teaching approaches; practical examination, development and evaluation of instructional materials.

Includes: Experiential Learning Activity

Prerequisite(s): ALDS 4305 and fourth-year standing in the concurrent CTESL program, enrolment in the post-graduate CTESL program, the BGIInS Specialization in Teaching English in Global Contexts, or permission of the instructor.

Lectures three hours a week.

ALDS 4305 [0.5 credit]**Teaching English Language: Methodology I**

Classification of classroom teaching methods and materials; adaptation of teaching materials for particular situations; creation of teaching materials; teaching techniques and strategies.

Includes: Experiential Learning Activity

Precludes additional credit for ALDS 4205.

Prerequisite(s): fourth-year standing in the concurrent CTESL program, enrolment in the post-graduate CTESL program, or the BGIInS Specialization in Teaching English in Global Contexts, or permission of the instructor.

Seminars four hours a week.

ALDS 4306 [0.5 credit]**Teaching English as a Second Language: Methodology II**

Classification of classroom teaching methods and materials used in an international context; adaptation of teaching materials for particular situations; creation of teaching materials for global English language education; teaching techniques and strategies.

Includes: Experiential Learning Activity

Precludes additional credit for ALDS 4205.

Prerequisite(s): ALDS 4305 and fourth-year standing in the concurrent CTESL program, enrolment in the post-graduate CTESL program, or permission of the instructor. Seminars four hours a week.

ALDS 4308 [0.5 credit]**English for Specific Purposes**

An introduction to English for Specific Purposes – English language instruction tailored to specific groups of learners (e.g., English for Academic Purposes, and English for a range of specific occupational and professional purposes). This course explores effective practices in course and materials design.

Prerequisite(s): third-year standing in the BGIInS Honours Specialization in Teaching English in Global Contexts, or enrolment in the CTESL program, or permission of the instructor.

Seminars three hours a week.

ALDS 4403 [0.5 credit]**Writing and Knowledge-Making in the Disciplines**

The role of writing in constructing knowledge in academic disciplines, as viewed from contemporary socio-cultural perspectives. Consideration of how the goals, values, and assumptions of different disciplines shape their writing in distinctive ways and what implications this holds for pedagogy.

Includes: Experiential Learning Activity

Also listed as ENGL 4909.

Prerequisite(s): third-year standing.

Lectures three hours a week.

ALDS 4404 [0.5 credit]**Writing and Knowledge-Making in the Professions**

The role of writing in constructing knowledge in the professions, as viewed from contemporary socio-cultural perspectives. How the goals, values, and assumptions of different professions shape their writing in distinctive ways and the implications for theory, research, and practice.

Includes: Experiential Learning Activity

Also listed as ENGL 4004.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week.

ALDS 4405 [0.5 credit]**Teaching Writing in School and the Workplace**

Introduction to approaches for teaching writing in elementary and secondary school, in university, and in the workplace, with a focus on socio-cultural theories of language and learning. Discussion of applications of these approaches to classroom and workplace teaching.

Includes: Experiential Learning Activity

Also listed as ENGL 4515.

Precludes additional credit for LALS 4906 if taken in 2010, or ALDS 4906A if taken in 2011.

Prerequisite(s): third-year standing, or permission of the instructor.

Lectures three hours a week.

ALDS 4414 [0.5 credit]**Professional Writing I**

The role of writing in government and NGOs.

Consideration of various genres, practices and styles of government and NGO writing, including, grant proposals, administrative reports, press releases, briefing notes, recommendation reports.

Includes: Experiential Learning Activity

Also listed as ENGL 4414.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week. May include a work placement.

ALDS 4415 [0.5 credit]**Professional Writing II**

The role of writing in science-related fields and in the health professions. Consideration of various genres, practices and styles of scientific and health-related writing, including, research reports, grant proposals, case reports, popularizations of science, press releases.

Includes: Experiential Learning Activity

Also listed as ENGL 4415.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week. May include a work placement.

ALDS 4602 [0.5 credit]**Second Language Acquisition**

Current issues in second language acquisition; factors influencing success in acquiring a second or additional language, discourse and culture. Emphasis on theoretical concepts, empirical research, and practical implications for language teaching.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4602 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 4606 [0.5 credit]**Statistics for Language Research**

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as LING 4606.

Precludes additional credit for ALDS 4906/LING 4009

Section "B" if taken Winter 2015 or Winter 2016.

Prerequisite(s): PSYC 2002 or NEUR 2002, or permission of the instructor.

Also offered at the graduate level, with different requirements, as ALDS 5604 and LING 5606, for which additional credit is precluded.

Seminars three hours a week.

ALDS 4709 [0.5 credit]**Systemic-Functional Linguistics**

Functions of language in the exchange of meanings between people in a wide variety of communicative situations. Semantic and syntactic resources at risk in these different contexts. Interactions between language and the social context.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4709 and LALS 5102 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or Linguistics, or Journalism, or Communication Studies, or permission of the instructor.

Also offered at the graduate level, with different requirements, as ALDS 5102, for which additional credit is precluded.

Lectures three hours a week.

ALDS 4801 [0.5 credit]**Major Structures of English**

This course is intended to familiarize students with the structure of the English language, highlighting important contrasts between English and other languages as well as grammatical difficulties for ESL learners.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4801 (no longer offered) or LALS 5103 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 4900 [1.0 credit]**Independent Study**

Permits fourth-year Honours students to pursue their interests in a selected area of applied linguistics and discourse studies.

Prerequisite(s): permission of the instructor.

ALDS 4901 [0.5 credit]**Independent Study**

Permits fourth-year Honours students to pursue their interests in a selected area of applied linguistics and discourse studies.

Prerequisite(s): permission of the instructor.

ALDS 4906 [0.5 credit]**Special Topic in Applied Linguistics and Discourse Studies**

Selected topics in applied linguistics and discourse studies. Contents of this course vary from year to year.

Lectures three hours a week.

ALDS 4908 [1.0 credit]**Honours Project in Applied Linguistics and Discourse Studies**

Individually designed intensive practicum or research experience. May involve (a) practicum or work study placement in writing or literacy studies, language syllabus design or test development; (b) intensive research activity in an area of Applied Linguistics and Discourse Studies. All projects include substantial written work.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Applied Linguistics and Discourse Studies, a CGPA of 9.00 or better, or permission of the School.

Tutorial hours arranged.

Arabic (ARAB)

Arabic (ARAB) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

ARAB 1110 [1.0 credit]**Intensive First-Year Arabic**

For students with no knowledge of Arabic. Oral skills, reading and writing. Compulsory attendance.

Eight hours a week (one term).

ARAB 2110 [1.0 credit]**Intensive Second-Year Arabic**

Further study of Arabic to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in ARAB 1110 or permission of the School.

Eight hours a week (one term).

ARAB 3010 [0.5 credit]**Third-Year Arabic I**

Further study of Arabic to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in ARAB 2110, or permission of the School.

Three hours a week.

ARAB 3015 [0.5 credit]**Arabic for Heritage Speakers**

For students who have attained Arabic proficiency in an informal setting, this course provides an opportunity to build on their existing language skills and to develop them in a formal academic setting. The course will formalize grammar awareness and enhance Arabic literacy skills.

Precludes additional credit for 1000- and 2000-level Arabic courses, and for ARAB 3010.

Prerequisite(s): permission of the School.

Three hours a week.

ARAB 3020 [0.5 credit]**Third-Year Arabic II**

Continuation of third-year Arabic to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in ARAB 3010 or ARAB 3015, or permission of the School.

Three hours a week.

Archaeology (ARCY)

Archaeology (ARCY) Courses**ARCY 1008 [0.5 credit]****Introduction to Archaeology I**

Introduction to the history, theory and practice of field archaeology. Excavations from all time periods and global regions will be discussed. Focus will be placed on excavation methods and technology, including dating, that enhance understanding of sites both on land and underwater.

Also listed as CLCV 1008.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week

ARCY 1009 [0.5 credit]**Introduction to Archaeology II**

Continues the examination of various aspects of field archaeology begun in ARCY 1008 (also CLCV 1008). This course places greater focus on recent approaches to the interpretation of remains. These include environmental, cognitive and bioarchaeological approaches.

Also listed as CLCV 1009.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week.

ARCY 3000 [0.5 credit]**Archaeological Field Work I**

Students will participate for a minimum of three weeks on an archaeological field project (ie. excavation or survey). They will learn archaeological documentation and the analysis, recording, and processing of finds. The field project may be anywhere in the world and any time period.

Includes: Experiential Learning Activity

Prerequisite(s): ARCY 1008 and ARCY 1009 or CLCV 1008 and CLCV 1009 or CLCV 2300 (no longer offered) and permission of the unit. Permission of the unit is required to repeat this course.

Field work

ARCY 3301 [0.5 credit]**Field Work I: Greek and Roman World**

Students will participate for a minimum of three weeks on an archaeological field project (ie. excavation or survey) relevant to the Greek and Roman world. They will learn archaeological documentation and the analysis, recording, and processing of finds.

Includes: Experiential Learning Activity

Also listed as CLCV 3301.

Prerequisite(s): ARCY 1008 and ARCY 1009 or CLCV 1008 and CLCV 1009 or CLCV 2300 (no longer offered) and permission of the unit. Permission of the unit is required to repeat this course.

Field work

ARCY 4000 [0.5 credit]**Field Work II: Greek and Roman World**

Students participate for a minimum of three weeks in a position of responsibility (for example, as a trench supervisor or lab assistant) on an archaeological field project relevant to the Greek and Roman world.

Includes: Experiential Learning Activity

Also listed as CLCV 4000.

Prerequisite(s): 0.5 credit in fieldwork at third year level and permission of the unit. Permission of the unit is required to repeat this course.

Field Work

ARCY 4100 [0.5 credit]
Archaeological Field Work II

Students participate for a minimum of three weeks in a position of responsibility on an archaeological field project (eg. trench supervisor or lab assistant). The field project may be anywhere in the world and any time period. Includes: Experiential Learning Activity
Prerequisite(s): 0.5 credit in fieldwork at third year level and permission of the unit. Permission of the unit is required to repeat this course.
Field work

Architecture - Design Studios/Design Thesis/Research (ARCS)

Architecture - Studio (ARCS) Courses

ARCS 1005 [0.5 credit]

Drawing

Free-hand drawing as a way of observing and understanding the world. Various media and techniques introduced through a wide range of studio and outdoor exercises. (Core Course).
Includes: Experiential Learning Activity
Precludes additional credit for ARCN 1005.
Prerequisite(s): registration in the B.A.S. program.
Six hours a week.

ARCS 1105 [1.0 credit]

Studio 1

Spatial and temporal experience of architecture through various drawings and modeling exercises. Observation of existing and imagination of possible architectural environments. On location at selected sites. (Core Course).
Includes: Experiential Learning Activity
Prerequisite(s): registration in the B.A.S. program.
Studio eight hours a week.

ARCS 2105 [1.5 credit]

Studio 2

Development of cultural imagination within the field of architecture. Inhabitation and spatial definition are explored through analysis and design of small-scale environments. Representational skills developed, including the conventions of architectural drawing and modeling. (Core Course).
Includes: Experiential Learning Activity
Prerequisite(s): ARCS 1005 and ARCS 1105.
Twelve hours studio, plus one hour lecture per week.

ARCS 2106 [1.5 credit]

Studio 3

Small-scale building projects explore architectural design as a form of cultural expression. Consideration of site, program, and the materials of building as the means for shaping architecture. (Core Course).
Includes: Experiential Learning Activity
Prerequisite(s): ARCS 1005 and ARCS 1105.
Twelve hours studio, plus one hour lecture per week.

ARCS 3105 [1.5 credit]

Studio 4

Sensory components of architecture: their use, effect, and symbolic potential. Light and lighting, sound, the sensation of heat and cold, and related phenomena studied in modest building proposals. Social considerations of architecture. The conventions of architectural drawing. (Core Course).
Includes: Experiential Learning Activity
Prerequisite(s): ARCS 2105 and ARCS 2106.
Twelve hours studio, plus one hour lecture per week.

ARCS 3107 [1.0 credit]

Studio 5

Building materials and practices within the context of increasingly complex building programs. Social context of architecture in relation to material expression. Modeling is stressed. (Core Course).
Includes: Experiential Learning Activity
Precludes additional credit for ARCS 3106 (no longer offered).
Prerequisite(s): ARCS 2105 and ARCS 2106.
Eight hours studio, plus one hour lecture per week.

ARCS 4105 [1.5 credit]

Studio 6

Issues of program and site as the culturally defining aspects of architectural practice within complex urban and social situations, using difficult sites and hybrid programs. Projects brought to a high degree of formal and graphic resolution. (Core Course).
Includes: Experiential Learning Activity
Prerequisite(s): ARCS 3105 and ARCS 3107.
Twelve hours studio, plus one hour lecture per week.

ARCS 4107 [1.0 credit]

Studio 7

The role of architecture in culture, with emphasis on site and program with respect to their historic, social, and ecological implications. Synthesis of issues, methods and techniques of the undergraduate studio program. (Core Course).
Includes: Experiential Learning Activity
Precludes additional credit for ARCS 4106 (no longer offered).
Prerequisite(s): ARCS 3105 and ARCS 3107.
Eight hours studio, plus one hour lecture per week.

Architecture - Technical (ARCC)

Architecture - Technical (ARCC) Courses

ARCC 1202 [0.5 credit]

History of Structures

A survey of the history, theory, and science of structures pertaining to buildings and civic works. Structural systems, construction techniques, materials and details, and the cultural factors involved in the synthesis of traditional structural design.

Includes: Experiential Learning Activity

Prerequisite(s): registration in B.A.S.

Lectures three hours a week, laboratory is block scheduled.

ARCC 2001 [0.5 credit]

Structures in Architecture

Survey of structural planning, including a historical survey of structural systems, details and the study of the factors involved in the synthesis of a suitable structural scheme. The course is intended as a survey of the science and the structural properties of materials. (Elective Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 1103.

Lectures three hours a week, laboratory is block scheduled.

ARCC 2202 [0.5 credit]

Architectural Technology 1

General introduction to materials and methods of construction with focus on wood and timber frame construction. Site conditions, foundations, structure and envelope design in terms of their response to local climate: sun (light and heat) wind, moisture. (Core course).

Prerequisite(s): permission of the School.

Lectures three hours a week.

ARCC 2203 [0.5 credit]

Architectural Technology 3

Wood frame, post and beam, steel and concrete systems and construction techniques. Structural systems and building envelope principles and practise are explored in conjunction with mechanical and electrical systems in smaller buildings. Emphasis on precedent, tradition and methodology of architectural detailing for construction.

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 2202 and third-year standing for B.A.S. students and third-year standing for students in B.Eng. Architectural Conservation and Sustainability.

Lectures three hours a week.

ARCC 3004 [0.5 credit]

Workshop: Energy and Form

Relationship between environmental factors, energy and architectural form. Ways in which buildings and building elements can be planned and designed to take advantage of natural cycles in order to minimize the need for supportive energy inputs. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCC 3202 [0.5 credit]

Architectural Technology 4

Medium scale steel, concrete, and wood frame buildings as case studies to explore approaches to building science principles, building envelope design, advanced construction methods and materials, acoustics and sound control, and fire protection. Focus on sustainable design strategies and environment impact. (Core course).

Prerequisite(s): ARCC 2203 and third-year standing for B.A.S. students or ARCC 2203 and third-year standing for students in B.Eng. Architectural Conservation.

Lectures three hours a week.

ARCC 3301 [1.0 credit]

Conservation Studio 1: Historical Analysis and Adaptive Re-use

Historical building projects exploring architecture as a form of cultural expression. Consideration of site, program and materials. Introduction of conservation, sustainability and adaptive re-use principles, development standards, architectural codes, using case studies in Ottawa and elsewhere. Physical, digital drawings and models to explore designs.

Includes: Experiential Learning Activity

Prerequisite(s): CDNS 2400, ARCC 3501, ARCS 1005, ARCS 1105, ARCN 2105, ARCN 2106 and third-year standing in BAS (Conservation and Sustainability) or permission of the School.

Lecture and workshop eight hours a week.

ARCC 3302 [1.0 credit]

Conservation Studio 2

The role of architecture in culture, stressing site and program with respect to their historic, social and ecological implications. Synthesis of issues, methods and techniques of the conservation and sustainability curriculum. (Core course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 3301 or permission of the School.

Lecture and workshop eight hours a week.

ARCC 3305 [0.5 credit]

Materials Application

Application of building materials, including the forming of building parts and the design of joints for performance and assembly. Practical constructions using new technology are emphasized. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCC 3501 [0.5 credit]

Fundamentals of Conservation and Sustainability

The question of historical and cultural value is explored through readings and discussions. Methodology is examined and tested through design exercises and historical research practices on heritage properties.

Prerequisite(s): second year standing in B.A.S. or permission of the school.

Lecture three hours a week.

ARCC 3902 [0.5 credit]**Architectural Technology**

A specific aspect of architecture in the area of architectural technology. Offerings vary from year to year. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCC 4100 [0.5 credit]**Lighting for Architecture**

A study of daylighting and/or lighting design techniques, with a focus on project-based learning. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 2203 or permission of the School.

Lecture, seminar, workshop or field work six hours a week.

ARCC 4102 [0.5 credit]**Acoustics in Architecture**

Sound in enclosures, including interior design of auditoria and special applications. Sound reproduction and reinforcement systems. Acoustic privacy and protection, sound control in buildings, materials for noise control, community noise, industrial noise. Acoustic measurements and instrumentation. (Elective Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 3002.

Lectures two hours, laboratory two hours a week.

ARCC 4103 [0.5 credit]**Energy and Form**

Energy as a criterion in decision-making for architectural design. Conventional energy resources and state-of-the-art alternative energy resource systems with respect to building shape, size, materials, openings, orientation, siting, and use. (Elective Course).

Precludes additional credit for ARCC 3003.

Lectures three hours a week.

ARCC 4200 [0.5 credit]**Structural Morphology**

Interdisciplinary study of structural and developmental morphology focusing on dynamic generative design processes, integrative systems, spatial modulations and fundamental generative principles of spatial form and structure as it relates to architecture. (Workshop).

Includes: Experiential Learning Activity

Lectures, seminar, workshop or field work six hours a week.

ARCC 4202 [0.5 credit]**Wood Engineering**

Introduction to structural design in timber. Properties, anatomy of wood, wood products, factors affecting strength and behaviour, strength evaluation and testing. Design of columns, beams and beam-columns. Design of trusses, frames, glulam structures, plywood components, formwork, foundations, connections, connectors.

Inspection, maintenance and repair. (Elective course).

Also listed as CIVE 4202.

Prerequisite(s): CIVE 2200, CIVE 2700.

Lectures three hours a week, problem analysis three hours alternate weeks.

ARCC 4207 [0.5 credit]**Advanced Building Assessment**

In-depth study of the conventions, methods, and tools used in the assessment of buildings and their sties including traditional field survey, photogrammetry, laser scanning technologies, and hybrid representations.

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 4900 (no longer offered).

Prerequisite(s): enrolment in the BAS Conservation and Sustainability program and fourth-year standing.

Laboratories, lectures, field trips, six hours a week.

ARCC 4300 [0.5 credit]**Building Materials**

Contemporary and traditional construction techniques and materiality are discussed within the framework of current practices, with emphasis on the analysis of material properties, structure and sustained performance, as well as their contribution to the adaptive reuse of existing and/or historical building. (Elective Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 3300.

Laboratories, lectures, field trips four hours a week.

ARCC 4301 [1.5 credit]**Conservation Studio 3**

Issues of program and site as the culturally defining aspects of sustainable architectural practice within complex urban and social situations, using difficult sites, historically significant buildings and/or locations and hybrid programs. projects brought to a high degree of formal and graphic resolution. (Core course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 3302 or permission of the School.

Twelve hours studio, plus one hour lecture per week.

ARCC 4302 [1.0 credit]**Conservation Studio 4**

Conservation decision-making process and contemporary conservation concepts in the development of a design for the adaptive reuse, in Ottawa and elsewhere.

Consideration of sustainability aspects, site, program, and materials.

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 3301, ARCC 3302, ARCC 4301

and fourth-year standing in BAS (Conservation and Sustainability) or permission of the School.

Studio eight hours per week.

ARCC 4400 [0.5 credit]**Design for Construction**

Design in relation to materials and building construction including the effects of building codes, zoning bylaws, approvals, processes and legislation, the organization of the building industry, and cost estimating control. (Elective Course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 3300 or permission of the School.

Lectures, seminars, field work three hours a week.

ARCC 4500 [0.5 credit]**Design Economics**

Principles of building economics. Determinants and prediction of building costs. Uncertainty and investment economics. Creative cost control for buildings during schematic design, design development, construction document preparation and construction. Economic evaluation during all phases of design process; emphasis on sustainable strategies.

Precludes additional credit for ARCC 3500.

Prerequisite(s): fourth-year standing in the B.A.S. program or permission of the School.

Three hours a week.

ARCC 4801 [0.5 credit]**Architectural Technology**

A specific aspect of architecture in the area of architectural technology. Topics vary from year to year. (Elective Course).

Prerequisite(s): permission of the School.

ARCC 4808 [0.5 credit]**Independent Study**

(Elective Course).

ARCC 4909 [1.0 credit]**Honours Project**

Students propose a topic of study in Conservation & Sustainability for approval and produce a substantial research project, supervised by BAS faculty. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in BAS (Conservation and Sustainability).

Architecture - Techniques (ARCN)

Architecture - Techniques (ARCN) Courses**ARCN 1005 [0.5 credit]****Introduction to Drawing: Seeing Through the Hand**

Fundamental concepts of line and line weight, light and shadow, perspective, contrast and composition. Exercises will include some mixed media and will introduce students to drawing as a way of translating ideas into images.

Includes: Experiential Learning Activity

Precludes additional credit for ARCS 1005.

One hour lecture and two hours drawing/discussion.

ARCN 2105 [0.5 credit]**Digital Practice and Theory**

Computer modeling as a medium of architectural analysis, documentation, and presentation. Principles and techniques of 2D drawing and 3D modeling. Extensive practical work using appropriate applications. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): second-year B.A.S. standing or permission of the School.

Lectures three hours a week.

ARCN 2106 [0.5 credit]**Introduction to Multimedia**

Analogue and digital systems and graphic processes used in the making of images. Fundamentals of still photography and videography combined with current computer technologies in the application of visual communication techniques.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 2106.

Lectures three hours a week, laboratory three hours a week.

ARCN 3003 [0.5 credit]**Theatre Production**

Design and fabrication of theatre productions, one of which is staged on campus. Visiting directors, designers, technical consultants and others. Visits to theatres and production facilities. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3206 [0.5 credit]**Computer Applications**

Application of existing software and programming techniques to various architectural problems. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3302 [0.5 credit]**The Anatomy of Architecture**

The architectural anatomy of selected contemporary buildings. Use of graphic techniques of analysis to develop an understanding of their basic compositional principles and language. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3303 [0.5 credit]**Architecture as Painting**

Analysis of architecture for its elemental, formal and narrative properties. These relationships through the medium of painting. Architecture as analogy to painting. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3400 [0.5 credit]**Visual Design**

Development of the capacity to visualize and communicate in several graphic media. Development of sensitivity to form, structure, space, texture and colour. May involve historical investigation. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3401 [0.5 credit]**Photography**

Traditional and alternative techniques for image making and manipulation. Basic image formation techniques, advanced darkroom manipulations, past-darkroom imaging, and digital imaging within a theoretical overview of current photographic processes and techniques. (Workshop).

Includes: Experiential Learning Activity
Prerequisite(s): permission of the School.
Lecture, seminar, lab or field work six hours a week.

ARCN 3901 [0.5 credit]**Architectural Techniques**

A specific aspect of architecture in the area of architectural techniques. Topics vary from year to year. (Elective Course).

Prerequisite(s): permission of the School.

ARCN 3902 [0.5 credit]**Architectural Techniques**

A specific aspect of architecture in the area of architectural techniques and cooperative problem solving. Topics vary from year to year. (Workshop).

Includes: Experiential Learning Activity
Prerequisite(s): permission of the School.
Lecture, seminar, lab or field work six hours a week.

ARCN 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ARCN 4100 [0.5 credit]**Historic Site Recording and Assessment**

Methods of heritage building documentation including hand recording, photography, rectified photography, total station, gps, photogrammetry, and laser scanning. Non-destructive testing techniques; environmental assessment tools for determining air quality and energy efficiency. Multidisciplinary teams for all project work.

Includes: Experiential Learning Activity
Also listed as CIVE 3207.
Precludes additional credit for ARCN 3100 (no longer offered).
Prerequisite(s): second-year standing in B.A.S. Conservation and Sustainability.
Lectures three hours a week, lab or field work two hours a week.

ARCN 4102 [0.5 credit]**Problems in Computing**

Various types of non-numeric data, their representation within primary and secondary storage, and the manipulation of various representations. Comparative evaluation of languages for non-numeric problems. (Elective Course).

Includes: Experiential Learning Activity
Precludes additional credit for ARCN 3102.
Prerequisite(s): permission of the School.
Lectures two hours a week, laboratory two hours a week.

ARCN 4103 [0.5 credit]**Digital Fabrication and Theory**

The changing relationship of architectural design and digital technology with a focus on 1:1 constructions using emerging computational software and fabrication techniques. (Workshop/Elective Course).

Includes: Experiential Learning Activity
Prerequisite(s): permission of the School.
Lectures two hours a week, laboratory two hours a week.

ARCN 4200 [0.5 credit]**Building Pathology and Rehabilitation**

Deterioration mechanisms for concrete, timber, steel and masonry structures. Identification of design deficiencies; criteria for selection and design of rehabilitation systems. Design techniques to reduce deterioration in new construction and historical structures.

Includes: Experiential Learning Activity
Also listed as CIVE 4601.
Prerequisite(s): ARCN 4100 and third-year standing in B.A.S. Conservation and Sustainability.
Lectures three hours a week, lab/field work two hours a week.

ARCN 4808 [0.5 credit]**Independent Study**

(Elective Course).
Includes: Experiential Learning Activity

Architecture - Theory/History (ARCH)

Architecture - Theory/History (ARCH) Courses

ARCH 1000 [0.5 credit]**Introduction to Architecture**

Architecture in the matrix of human conditions: linkages among architecture, fine arts, humanities, social sciences, physical sciences, mathematics and philosophy. Architectural ideas will be introduced through a discussion of cities, buildings and landscapes. (Core Course).
Lectures three hours a week.

ARCH 1005 [0.5 credit]**Contemporary Society**

The relationship of architecture, architectural thought and the architectural profession to the societies in which they exist (and which they must serve). Topics are selected to emphasize key issues. (Elective Course).
Lectures and seminars, three hours a week.

ARCH 2006 [0.5 credit]**Theory and History of Design**

The theoretical and historical background of industrial design and design; disciplinary foundations and interdisciplinary connections; methodological aspects and economic and social contexts; contemporary scenarios in design; technological innovation and manufacturing processes. (Elective course).
Also listed as IDES 1000.
Lectures three hours a week.

ARCH 2101 [0.5 credit]**Industrial Design Analysis**

Principles of comparative product design analysis covering marketing and sales, manufacturing techniques and materials, ambiance and qualities of the object/context relationship, and design analysis from the perspective of the designer, the end-user and the environment. (Elective course).

Includes: Experiential Learning Activity

Also listed as IDES 1001.

Prerequisite(s): ARCH 2006 or IDES 1000.

Lectures three hours a week.

ARCH 2300 [0.5 credit]**Introduction to Modern Architecture**

Architectural and urban ideals of modernism with emphasis upon the development of the avant-garde in the early twentieth century. The phenomenon of modern architecture within the broader framework of the development of western thought. (Core Course).

Precludes additional credit for ARCH 3009.

Prerequisite(s): B.A.S. students require ARTH 1100 or ARTH 1200 and ARTH 1101 or ARTH 1201.

Lectures three hours a week.

ARCH 3208 [0.5 credit]**Urban Space Architecture**

Design explorations that are directed towards the search for aesthetic form and meaning in urban space, with particular application to the Canadian context. Project-oriented. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCH 3902 [0.5 credit]**Theory of Architecture**

Workshop focuses on one specific aspect of architecture in the area of theory and history. Workshop offerings change from year to year. (Workshop).

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCH 4002 [0.5 credit]**Canadian Architecture**

Canadian architecture from the seventeenth century to the present day, covering both stylistic and technological developments. Building styles, methods, and materials in the context of social and economic conditions and construction techniques. (Theory/History Elective).

Includes: Experiential Learning Activity

Also listed as ARTH 3002.

Precludes additional credit for ARCH 3002.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures, seminars three hours a week.

ARCH 4004 [0.5 credit]**Architectural Theory**

An exploration of architectural intentions in the early period of Western history, with special emphasis on Renaissance treatises and ideas. Architectural intentions in relation to shifting world-views as a basis of historical interpretation. (Theory/History Elective).

Precludes additional credit for ARCH 3007.

Lectures three hours a week.

ARCH 4006 [0.5 credit]**Origins of Modernism**

Exploration of architectural theories with special emphasis on the European context from the seventeenth century to the late nineteenth century. (Theory/History Elective).

Precludes additional credit for ARCH 3008.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4008 [0.5 credit]**Foundations of Modernism**

Major critical perspectives as applied to architecture as a fine art. The debate between classicism and romanticism with consideration of its cultural roots. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4009 [0.5 credit]**Theory of the Avant-Garde**

Exploration of architectural theories with special emphasis on the development of the avant-garde in the early twentieth century, looking at the avant-garde within the larger framework of modernism. (Theory/History Elective).

Precludes additional credit for ARCH 3009.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4105 [0.5 credit]**Theories of Landscape Design**

Introduction to landscape architecture as the organization of outdoor space. Historical, cultural, economic and political factors as a basis for interpreting spatial organization in urban and rural areas of human settlement. Emphasis on the period from the fifteenth to the nineteenth century. (Theory/History Elective).

Prerequisite(s): second-year standing or above.

Lectures three hours a week.

ARCH 4200 [0.5 credit]**Architectural Conservation Philosophy and Ethics**

Analysis of philosophical theories and related approaches to the material transformation of buildings. Micro-histories in architectural conservation theory and practice; overview of historical and contemporary concepts in architectural conservation. Preservation, restoration, rehabilitation, reconstruction, adaptive re-use, conservation anamnesis, diagnosis.

Precludes additional credit for ARCH 3100 (no longer offered).

Prerequisite(s): third-year standing B.A.S. or third-year status in B.Eng. (Architectural Conservation and Sustainability).

Lectures three hours a week.

ARCH 4201 [0.5 credit]**History of Modern Housing**

Study of housing as a function of social organization, demographics, market demand and public policy. Topics include the evolution of housing form, the role of the state, and the participation of architects in the housing marketplace in the 19th and 20th century. (Theory/History Elective).

Prerequisite(s): third-year standing in the B.A.S. program or permission of the School.

Lectures three hours a week.

ARCH 4204 [0.5 credit]**The Design Professions**

Architecture and design professions in relation to traditional professions and to occupations in art and design. Professions in the development of culture and society; education, career and work; knowledge in the design professions; and the nature of design practice. (Elective Course).

Also listed as SOCI 4204.

Prerequisite(s): third-year standing in the B.A.S. program; fourth-year standing in Sociology; fourth-year standing in the B.A. Honours Architecture/Art History program; or permission of the School.

Seminar three hours a week.

ARCH 4205 [0.5 credit]**User-Building Synopsis**

Projects to develop skills in the analysis of building performance. Examination of occupancy analysis, safety and risk assessment, post-occupancy evaluation, and social impact assessment. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCH 4206 [0.5 credit]**Recycling Architecture in Canada and Abroad**

Concepts of mediating old and new architecture at the scale of the city through to the detail of the construction joint. Issues in sustainability and cultural identity illuminated by recycled architecture and adaptive reuse are explored through readings, drawings and case studies. (Theory/History Elective).

Prerequisite(s): third-year standing in the B.A.S. program or by permission of the instructor or fourth-year standing in the B.Eng. Architectural Conservation and Sustainability program.

Lectures three hours a week.

ARCH 4300 [0.5 credit]**Neo-Classical Architecture**

18th - and 19th - century architecture and urban form in Western Europe. Emphasis on the cultural and philosophical framework of rising modernity to illuminate architectural production and theory as well as the development of urban form. (Theory/History Elective).

Precludes additional credit for ARCH 1201 and ARCH 2200.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4301 [0.5 credit]**Post-War Architecture**

Theoretical, ideological and artistic debates that have influenced the development of world architecture since 1950. (Theory/History Elective).

Also listed as ARTH 4604.

Prerequisite(s): ARCH 2300 or ARTH 3609 or permission of the instructor.

Lecture or seminar three hours per week.

ARCH 4302 [0.5 credit]**Pre-Columbian Architecture**

Monumental temples of the ancient Mesoamericans are compared with other world traditions at similar levels of cultural development. Selected examples considered in terms of morphology, technology, iconography, social/political context, world view and general architectural theory. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4303 [0.5 credit]**Greek Architecture**

Architecture of Greek antiquity and its relationship to its philosophical, artistic, and mythical contexts. The development of the idea of the city; the presence of architecture within its symbolic landscape. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4304 [0.5 credit]**The Architecture of Rome**

Rome in its classical to late-antique periods. Its founding mythologies and landscape. In-depth analysis of Rome, with special attention to its public buildings. Early Christian architecture within the Roman context. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.
Lectures three hours a week.

ARCH 4305 [0.5 credit]**Medieval Architecture**

Gothic architecture and its relation to its philosophic and artistic predecessors. Special attention to the coexistence of the monastic tradition, late Romanesque building, and new experiments in gothic during this period, marked by intellectual and political ferment. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.
Lectures three hours a week.

ARCH 4306 [0.5 credit]**Renaissance Theory**

The rise of architectural theory within the context of the Italian Renaissance. Canonic texts explored and compared in the context of the architectural developments of the period. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.
Lectures three hours a week.

ARCH 4307 [0.5 credit]**Muslim Architecture**

Historical and theoretical discussions about the architecture of Muslim cultures. Selected sites and monuments from eighth to eighteenth century, covering the vast geography from North Africa to Southeast Asia. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.
Lectures three hours a week.

ARCH 4308 [0.5 credit]**Asian Architecture**

Anthropological history of the architecture of the Near and Far East. The architecture and urban form of Ancient Egypt, Anatolia, Sumer and Persia; ancient China and India. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.
Lectures three hours a week.

ARCH 4309 [0.5 credit]**Mesoamerican Architecture**

Selected works of Mesoamerican architecture in terms of iconography, morphology, technology, function, historical development, and concept. Mesoamerican architectural features compared with other world traditions. Emphasis on design. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.
Lectures three hours a week.

ARCH 4400 [0.5 credit]**Theory**

A survey of the architectural and urban history of a specific culture. These discussions address the present reality of a country, region or city being visited by the fourth year of the program. (Elective Course).

Prerequisite(s): clear standing to fourth year and permission of the School.
Lectures three hours a week.

ARCH 4502 [0.5 credit]**Research and Criticism**

Preparation for the independent research and design work. Work related to the nature of research and criticism in architecture, with emphasis on current issues. (Theory/History Elective).

Includes: Experiential Learning Activity
Lectures and seminars three hours a week.

ARCH 4505 [0.5 credit]**Seminar in Theory and History**

History and theory of architecture. Topics will vary from year to year. Limited enrolment. (Elective Course).

Prerequisite(s): fourth-year standing in the B.A.S. or B.A. (Honours) Architecture/Art History programs, or permission of the School.
Lectures three hours a week.

ARCH 4801 [0.5 credit]**Theory of Architecture**

An aspect of architecture in the area of theory and history. Topics vary from year to year. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.
Lectures three hours a week.

ARCH 4808 [0.5 credit]**Independent Study**

(Elective Course).

ARCH 4900 [0.5 credit]**Directed Reading**

Supervised readings and research projects. Guidelines must be obtained from BAS Academic Advisors prior to registration. (Core course).

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in B.A.S (Philosophy and Criticism).

ARCH 4909 [1.0 credit]**Honours Project**

Students propose a topic of study in Philosophy and Criticism for approval and produce a substantial research project, supervised by BAS faculty. (Core course).

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in B.A.S (Philosophy and Criticism).

Architecture - Urban (ARCU)

Architecture - Urban (ARCU) Courses

ARCU 2100 [0.5 credit]

Selected Topics in Urbanism

Seminar in selected topics related to Urbanism at an introductory level.

Lecture and discussion three hours per week.

ARCU 2303 [1.0 credit]

Fundamentals of Urbanism

Through readings, discussions and projects, students will examine a number of the forces that produce the built environment and explore a variety of approaches to documenting, representing, analyzing, organizing and controlling the growth, shape, density, and mix of uses associated with cities.

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 3501 (no longer offered).

Prerequisite(s): ARCS 1005 and ARCS 1105, or permission of instructor.

Eight hours studio, plus one hour lecture per week.

ARCU 3100 [0.5 credit]

The Morphology of the City

Primary structural, spatial and formal organization and elements that characterize the morphology of cities; historical and contemporary significance for architecture and urban design. (Core).

Prerequisite(s): second or third-year standing in B.A.S. program or permission of the School.

Lecture two hours a week and tutorial one hour a week.

ARCU 3203 [0.5 credit]

Landscape Architecture

Practical significance of landscape elements as they relate to built-form by integrating structure and site. (Workshop).

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 3303 [1.0 credit]

Urbanism Studio 1: Urbanism in the Core

Intensification, revitalization, gentrification, brownfield redevelopment, sustainability, development standards, form-based codes, and the larger impact of migration on urban density. Through design, students explore the ramifications of practices, policies, pressures, processes and cultural preferences on the evolving form and function of the urban core.

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 3102 (no longer offered) and ARCU 3301 (no longer offered).

Prerequisite(s): ARCN 2105 and ARCU 2303, and third-year standing in BAS (Urbanism) or permission of the School.

Eight hours studio, plus one hour lecture per week.

ARCU 3304 [1.0 credit]

Urbanism Studio 2: Urbanism on the Periphery

Urbanization, sprawl, growth models, land consumption, containment strategies (smart growth, greenbelts, growth boundaries), edge cities, the Just City, Ecological Urbanism, and informal suburbanization in developed and developing countries. Through design, students explore the impact of practices, pressures, processes and cultural preferences on the expanding city.

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 3101 (no longer offered) and ARCU 3302 (no longer offered).

Prerequisite(s): ARCN 2105, ARCU 2303 and third-year standing in BAS (Urbanism) or permission of the School.

Eight hours studio, plus one hour lecture per week.

ARCU 3405 [0.5 credit]

Urban Design

Project-based workshop investigating current design attitudes and solutions affecting the physical morphology of cities. Formally sophisticated urban design projects. Various procedures and basic urban design ideas. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 3409 [0.5 credit]

City Organization and Planning Processes

Interdisciplinary investigation, analysis and synthesis of the institutions, processes, environments and demography of Canadian cities. Guest lecturers. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 3902 [0.5 credit]

Urban Studies

A specific aspect of architecture in the area of urban studies. Topics vary from year to year. (Workshop).

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 4103.

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 4103 [0.5 credit]

Cities

The complex reality of individual cities, including Istanbul, Barcelona, Beijing, Mexico City, San Francisco, Mumbai and Johannesburg. Topics include patterns of development, social movements, political conflicts, energy dependence and climate change.

Precludes additional credit for ARCU 3902.

Lecture three hours per week.

ARCU 4300 [0.5 credit]**History of Theories of Urbanism**

Theories of urbanism throughout history; emphasis on schools of post-WWII academic thought. The impact of Marxist theory, location and systems theory; the expanding array of models, tools and techniques that have contributed to various theorizations of urbanism.

Prerequisite(s): ARCU 3100.

ARCU 4303 [1.5 credit]**Urbanism Studio 3: Housing**

Housing as it affects urban form. The design of multi-unit housing in a variety of forms and for a range of demographic groups. After thorough research of applicable codes and bylaws, students engage the design of housing at the site, building and detail level.

Includes: Experiential Learning Activity

Prerequisite(s): ARCU 3303 and ARCU 3304 and fourth-year standing in B.A.S. Urbanism or permission of the School.

Studio twelve hours a week and one hour lecture.

ARCU 4304 [1.0 credit]**Urbanism Studio 4: Global Perspectives**

Urbanization as a global phenomenon. Study of various forms of urbanization and de-urbanization in relation to economic, political and cultural forces. Through design, students explore the (trans)formation of settlements and communities outside of the North American context.

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 4909 (no longer offered).

Prerequisite(s): ARCU 3303 and ARCU 3304 and fourth-year standing in B.A.S. Urbanism or permission of the School.

Eight hours studio, plus one hour lecture per week.

ARCU 4400 [0.5 credit]**City Organization and Planning**

Structure, form and functioning of cities. Infra-structure, facilities and networks, ecosystems, demographic and social organization, government, quality of life, goals and perceptions, urban management, development, regulation and codes, design, planning and policy-making. (Elective Course).

Precludes additional credit for ARCU 3400.

Three hours a week.

ARCU 4500 [0.5 credit]**Human Shelter**

Background factors pertaining to housing in both industrial and developing countries; traditional and contemporary housing approaches; social housing; and people's right to adequate housing. Guest lecturers. (Elective Course).

Precludes additional credit for ARCU 3500.

Three hours a week.

ARCU 4600 [0.5 credit]**Post-WWII Urbanism**

Urban renewal in the post-war period in response to housing shortages, suburbanization, transportation infrastructure and other factors. Gentrification and the emerging form of the post-industrial city, including new urbanism and sustainable communities. Case studies from Canada, Europe and the U.S. (Theory/History Elective).

Prerequisite(s): ARCU 3100 and third or fourth-year standing in the B.A.S. Urbanism program or permission of the School.

Lectures three hours a week.

ARCU 4700 [0.5 credit]**Urban Utopias**

Urban utopias throughout history, with emphasis on the 20th century. Garden Cities, anti-urbanism and radical decentralization, the city in the region, Italian Rationalist cities, Le Corbusier and CIAM, post-WWII New Towns (England, Scandinavia and the US), Sustainable Urbanism.

Prerequisite(s): third or fourth-year standing in B.A.S. Urbanism program or permission of the School.

Lectures three hours a week.

ARCU 4801 [0.5 credit]**Topics in Urbanism**

Advanced seminar in selected topics related to urbanism. Topics may include histories and theories related to urban systems, design, and planning. (Core course).

Prerequisite(s): third-year standing in B.A.S. (Urbanism) or permission of the Instructor.

Seminar three hours per week.

ARCU 4808 [0.5 credit]**Independent Study**

(Elective Course).

Includes: Experiential Learning Activity

ARCU 4901 [0.5 credit]**Topics in Applied Urbanism**

Advanced investigation into issues related to urbanism and urban form. Topics will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.A.S. (Urbanism) or permission of Instructor.

Lecture three hours per week.

Art History (ARTH)

Art History (ARTH) Courses**ARTH 1100 [0.5 credit]****Art and Society: Prehistory to the Renaissance**

A survey of art, architecture and artifacts from prehistory to the Renaissance. Ways of understanding visual culture through this span of history.

Precludes additional credit for ARTH 1000.

Lectures two hours a week, tutorial one hour a week.

ARTH 1101 [0.5 credit]**Art and Society: Renaissance to the Present**

A survey of art, architecture and related visual forms in their expanding contexts from the Renaissance to the present. Ways of understanding visual culture through this span of history.

Precludes additional credit for ARTH 1000.

Lectures two hours a week, tutorial one hour a week.

ARTH 1105 [0.5 credit]**Art as Visual Communication**

A variety of visual material is organized topically to examine the elements of art (line, shape, value, colour, texture, space), the principles of pictorial organization, the materials and techniques of art, and recurrent tendencies in artistic styles and outlooks.

Lectures three hours a week.

ARTH 1200 [0.5 credit]**History and Theory of Architecture: Prehistory to 1500**

An introduction to the history of architecture from prehistory to ca. 1500, considering technological, formal, intellectual and social developments that informed the built environment through a range of building types.

Lectures two hours a week, tutorial one hour a week.

ARTH 1201 [0.5 credit]**History and Theory of Architecture: 1500 to Present**

An introduction to the history of architecture from ca. 1500 to the present, considering technological, formal, intellectual, and social developments that informed the built environment through a range of building types.

Precludes additional credit for ARTH 2608 (no longer offered).

Lectures two hours a week, tutorial one hour a week.

ARTH 2002 [0.5 credit]**Canadian Historical Art**

A survey of historical Canadian art, from the period of European settlement to the early twentieth century, examining craft and fine art, amateur and professional artists, art institutions, gender, nationalism, regionalism and ethnicity. Students will be exposed to works in the National Capital region.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2003 [0.5 credit]**Canadian Twentieth-Century and Contemporary Art**

A survey of twentieth-century and contemporary Canadian art in a variety of media within social, political and cultural contexts. Regionalism, multiculturalism, nationalism, gender, race and identity will be considered in relation to local and national collections in Ottawa.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2005 [0.5 credit]**Arts of the First Peoples: The Woodlands, the Plains and the Subarctic**

Introduction to the visual arts of Indigenous peoples of the eastern and central regions of North America. A post-colonial perspective will be used to consider selected examples of creative production from time immemorial to the present.

Prerequisite(s): second-year standing or permission of the discipline.

Lectures three hours a week.

ARTH 2006 [0.5 credit]**Arts of the First Peoples: The Southwest, the West Coast and the Arctic**

Introduction to the visual arts of Indigenous peoples of the western and northern regions of North America. A post-colonial perspective will be used to consider selected examples of visual materials from time immemorial to the present.

Prerequisite(s): second-year standing or permission of the discipline.

Lectures three hours a week.

ARTH 2007 [0.5 credit]**Asian Art**

Surveys Asian art from second-century China to post-war Japan. Representational strategies of court artists and artists from the capital are compared with artists on the periphery. Articulation of power in tombs, palaces and war propaganda is examined, as is the individual and the eccentric.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2008 [0.5 credit]**Inuit Art**

Survey of visual art produced by Canadian Inuit from the circumpolar area.

Precludes additional credit for ARTH 3104.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2009 [0.5 credit]**Art Live: Art History Workshop**

Examination of techniques, materials and institutions of art history; lectures and workshops on art historical research and writing, the materials of art, professional skills; site visits to art institutions.

Includes: Experiential Learning Activity

Prerequisite(s): ARTH 1100 and ARTH 1101, or permission of the discipline. Restricted to students enrolled in B.A. Honours or General Art History.

Lecture three hours a week.

ARTH 2102 [0.5 credit]**Greek Art and Archaeology**

The art, architecture and archaeology of ancient Greece. Vase painting, sculpture, architecture, town planning and analogous arts are studied.

Also listed as CLCV 2303.

Precludes additional credit for CLCV 2302 (no longer offered), ARTH 2100 (no longer offered).

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2105 [0.5 credit]**Roman Art and Archaeology**

The art, architecture and archaeology of the ancient Romans. Vase painting, sculpture, architecture, town planning and analogous arts are studied.

Also listed as CLCV 2304.

Precludes additional credit for CLCV 2302 (no longer offered), ARTH 2100 (no longer offered).

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2106 [0.5 credit]**Chinese Art and Visual Culture**

A survey of Chinese art from the pre-modern era to re-inventions of traditions in modern and contemporary art. Artworks in various media (ink painting, calligraphy, Buddhist sculpture, ceramics, lacquer and garden architecture) will be studied in their historical, cultural and socio-political contexts.

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2107 [0.5 credit]**Islamic Architecture and Art**

Survey of artistic movements in Islamic art and architecture in the Mediterranean, the Near East, and Central and South Asia, from the seventh century to ca. 1450. Commonalities and differences between major dynastic visual cultures will be explored.

Prerequisite(s): second-year standing or permission of the Discipline.

Lecture three hours a week.

ARTH 2108 [0.5 credit]**Art Worlds**

Survey of an area of global art history. Topics may vary from year to year, and will be posted on the School for Studies in Art and Culture website.

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2202 [0.5 credit]**Medieval Architecture and Art**

A survey of architecture and art in Europe from ca. 313-1500 C.E. Sacred, secular, and domestic works will be discussed with reference to cultural meaning, social function, structure, and form.

Precludes additional credit for ARTH 2200 and ARTH 2201.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2300 [0.5 credit]**Italian Renaissance Art**

An examination of major works of art and architecture, issues and themes in the Italian Renaissance; emphasis on the fifteenth and sixteenth centuries, with a look at roots in the fourteenth.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2310 [0.5 credit]**Architecture of the Early Modern World [1400-1750]**

An examination of architecture from the late medieval period to the 18th century with particular attention paid to architecture and design cultures within the European and Islamic worlds and their cross-cultural interactions.

Precludes additional credit for ARTH 3305 (no longer offered).

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2404 [0.5 credit]**Art of the 17th and 18th Centuries**

Tracing developments in 17th- and 18th-century painting, graphic art, sculpture, and architecture. Introduction to artists, art works, and issues central to the relationship between art and society.

Precludes additional credit for ARTH 2403 (no longer offered), ARTH 2405 (no longer offered) and ARTH 2406 (no longer offered).

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2502 [0.5 credit]**Art of the 19th Century**

Tracing developments in 19th-century painting, graphic art, sculpture, and architecture. Introduction to artists, art works, and issues central to the relationship between art and modernity.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2510 [0.5 credit]**Architecture of the 18th and 19th Centuries**

A survey of key monuments, theories, forms and technological developments of eighteenth- and nineteenth-century architecture.

Precludes additional credit for ARTH 3809 Section "B" taken in 2014.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2600 [0.5 credit]**Modern European Art 1900-1945**

Major artistic movements in Europe from about 1900 to 1945.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2601 [0.5 credit]**History and Theory of Photography**

Issues, themes, movements in photography and individual photographers from the origins of the medium to the present.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2610 [0.5 credit]**Twentieth-Century Architecture**

Developments in architectural form and culture through the course of the twentieth century, with emphasis on the formation and subsequent critique of the Modern Movement.

Precludes additional credit for ARTH 3609 and ARCH 3009.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2710 [0.5 credit]**Experiencing Architecture**

Development of critical thinking, writing, and looking skills in connection to architecture, through a combination of site visits, workshops and classroom exercises.

Includes: Experiential Learning Activity

Prerequisite(s): ARTH 1200 and ARTH 1201 or permission of the discipline. Restricted to students in the B.A.

Honours or General History and Theory of Architecture program.

Lecture three hours a week.

ARTH 2807 [0.5 credit]**Philosophy of Art**

Philosophical approaches to the study of art. Topics such as: the nature of art and artistic value; representation and symbolism in art; art and artifice; art and the emotions; art, culture and ideology; post-structuralism and art; theories of creativity; relationship between artworks and audiences.

Also listed as PHIL 2807.

Lectures three hours a week.

ARTH 3000 [0.5 credit]**Themes in Canadian Art**

Selected aspects of Canadian art in a variety of media. Students will be exposed to works in the National Capital region.

Prerequisite(s): ARTH 2002 or ARTH 2003 or (for a photography topic) ARTH 2601 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3002 [0.5 credit]**Canadian Architecture**

Canadian architecture from the seventeenth century to the present day, covering both stylistic and technological developments. Building styles, methods, and materials in the context of social and economic conditions and construction techniques.

Includes: Experiential Learning Activity

Also listed as ARCH 4002.

Prerequisite(s): ARTH 1100 and ARTH 1101, or ARTH 1200 and ARTH 1201, or ARCH 1002 and ARCH 1201, and second-year standing or higher, or permission of the Discipline.

ARTH 3003 [0.5 credit]**Architecture and Representation**

Examination of the intersections between architecture, representations, and cultures.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing, or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3005 [0.5 credit]**American Architecture**

The cultural history of the United States as expressed through its architectural heritage. Selected buildings and complexes from the earliest settlements through the early twentieth century are examined.

Prerequisite(s): ARTH 1201 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3007 [0.5 credit]**Modern Asian Art**

Modern and contemporary art in East Asia, beginning in Japan with the 1868 Meiji revolution and the 1911 revolution in China.

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

ARTH 3008 [0.5 credit]**Contemporary Chinese Art and Art History**

Modern and contemporary art in China and beyond from the reform period in 1979 until today. Artworks will be examined in terms of their (art-)historical, discursive, socio-political, infrastructural and transcultural conditions of production and reception.

Prerequisite(s): second-year standing or permission of the discipline.

Lectures three hours a week.

ARTH 3100 [0.5 credit]**History and Methods of Art and Architectural History**

The study of the history of art and architectural history and the methodologies and research tools employed.

Precludes additional credit for ARTH 3106 (no longer offered).

Prerequisite(s): third-year or higher standing in Art History or History and Theory of Architecture, or permission of the discipline.

Seminar three hours a week.

ARTH 3102 [0.5 credit]**Studies in Greek Art**

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year. This course is repeatable for credit when the topic changes.

Also listed as CLCV 3306, RELI 3732.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

ARTH 3105 [0.5 credit]**Studies in Roman Art**

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year.

Also listed as CLCV 3307, RELI 3733.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

ARTH 3107 [0.5 credit]**History and Methods of Architectural History**

The study of the methodologies and research approaches employed by architectural historians.

Prerequisite(s): ARTH 3100 and third-year standing or higher in History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 3108 [0.5 credit]**History and Methods of Art History**

The study of current methodologies and research tools employed by art historians.

Precludes additional credit for ARTH 3106 (no longer offered).

Prerequisite(s): ARTH 3100 and third-year standing or higher in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 3400 [0.5 credit]**History of Printmaking**

Exploration of printmaking techniques from the 16th century to the present focusing on the work of famous and lesser-known printmakers. Topics may include: printmaking genres (from fine art prints to caricature), originality versus reproduction, book illustration, the art market, posters and propaganda.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3507 [0.5 credit]**The Artist in Context**

An examination of one artist's or group of artists' life and work. Relevant artistic, intellectual, social, political and theoretical contexts are considered.

Prerequisite(s): ARTH 1101 or ARTH 2502 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3600 [0.5 credit]**Art Since 1945**

Contemporary art in the global context from 1945 to the present, including Abstract Expressionism, Pop Art, Postmodernism, object art, performance art and installations.

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

Lecture three hours a week.

ARTH 3701 [0.5 credit]**Art and Architecture on Site**

The study of art and/or architecture on site outside the National Capital Region, in Canada or internationally.

May include a combination of study in Ottawa and on site. Locations vary. Students are expected to bear all travel and other costs arising from site visits.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the department. Applicants will normally have third-year standing with a minimum of 1.0 credit in Art History or History and Theory of Architecture and a GPA of 8.0 or above.

Hours to be arranged. Locations will vary.

ARTH 3705 [0.5 credit]**Selected Museum Exhibition**

This seminar complements a major exhibition held at a specific museum. Students enrolled in this course are expected to bear all travel and other costs arising from required visits to the museum.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or higher or permission of the Discipline.

Seminar and/or lectures three hours a week.

ARTH 3710 [0.5 credit]**Architecture and Empire**

The impact of imperial power and aspiration on the built environment, from the Ancient world to the present day, taking 'empire' in its broadest political, social and economic sense.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing or permission of the Discipline.

Seminar and/or lectures three hours a week.

ARTH 3809 [0.5 credit]**A Closer Look at Art and Visual Culture**

Selected aspects of art history and visual culture from ancient times to the present.

Prerequisite(s): third-year standing or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3810 [0.5 credit]**A Closer Look at the Designed Environment**

Selected aspects of the history of the designed environment, from ancient times to the present.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3900 [0.5 credit]**Practicum in Art History**

Practical experience gained by working on specific projects under the supervision of the staff of one of the museums and cultural institutions in the Ottawa area. A maximum of 1.0 credit of practicum may be offered in fulfilment of Art History requirements.

Includes: Experiential Learning Activity

Prerequisite(s): B.A. or B.A. (Honours) Art History registration with third-year standing or higher and a CGPA of 9.00 or better in Art History courses, or permission of the Discipline.

ARTH 4000 [0.5 credit]**Topics in Canadian Art**

Selected topics in Canadian art. Students will be exposed to works in the collections of the National Capital region.

Prerequisite(s): one of ARTH 2002, ARTH 2003, ARTH 3000 and fourth-year standing in Art History, or permission of the Discipline.

Seminars three hours a week.

ARTH 4003 [0.5 credit]**Topics in Contemporary Chinese Art**

Critical examination of contemporary Chinese art. Topics include socially engaged art, historiographies of Chinese contemporary art, re-inventions of traditions, gender and politics of the body, exhibition histories and infrastructures of contemporary art in China.

Prerequisite(s): fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4005 [0.5 credit]**Topics in Contemporary Indigenous Art**

This course will use critical theory to examine aspects of contemporary visual art created by the Inuit and First Peoples in North America.

Prerequisite(s): ARTH 2005 or ARTH 2006 and fourth-year standing in Art History or permission of the Discipline.

Seminar three hours a week.

ARTH 4007 [0.5 credit]**Topics in Asian Art**

A selected topic in East Asian Art, which may include 19th century Ukiyo-e woodblock prints, The Gutai Group, performance art in China and Japan, and contemporary Chinese art.

Prerequisite(s): fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4008 [0.5 credit]**Transnational Theory**

Critical examination of transnational theories of cultural analysis, including Orientalism, Post-Colonial theory, translation theory and theories of cultural hybridity.

Precludes additional credit for ARTH 3103.

Prerequisite(s): fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4107 [0.5 credit]**Topics in Islamic Architecture and Art**

Selected aspects of Islamic Architecture and Art.

Prerequisite(s): ARTH 2107 or ARTH 2310 and fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4202 [0.5 credit]**Topics in Medieval Architecture and Art**

Selected aspects of Medieval or Medievalist Architecture and Art.

Prerequisite(s): ARTH 2202 and fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4305 [0.5 credit]**Topics in Renaissance Art**

Selected aspects of Renaissance art and society.

Prerequisite(s): ARTH 2300 and fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4402 [0.5 credit]**Topics in Art of the 18th and 19th Centuries**

Selected aspects of 18th-century and/or 19th-century art.

Precludes additional credit for ARTH 4406 (no longer offered), ARTH 4505 (no longer offered).

Prerequisite(s): ARTH 2404 or ARTH 2405 or ARTH 2406 or ARTH 2502 and fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4600 [0.5 credit]**Art, Architecture, and Gender**

Art and/or architectural creation, reception and/or historiography through the lens of gender identities.

Prerequisite(s): fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4602 [0.5 credit]**Issues in the Theory and History of Photography**

Relates the themes of selected theoretical texts on photography to specific examples of photographic practice.

Prerequisite(s): ARTH 2601 and fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4610 [0.5 credit]**Topics in Modern Architecture or Design**

Selected topics in architecture and design of the Modern era.

Prerequisite(s): ARTH 2610 and fourth-year standing in the History and Theory of Art History or Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4701 [0.5 credit]**Art and Architecture on Site**

Intensive study of art and/or architecture on site outside the National Capital region, in Canada or internationally. May include a combination of study in Ottawa and on site. Students are expected to bear all travel and other costs arising from site visits.

Includes: Experiential Learning Activity

Prerequisite(s): Permission of the department. Applicants will normally have fourth-year standing in Art History or History and Theory of Architecture and a GPA of 8.0 or above.

Hours to be arranged. Locations vary.

ARTH 4705 [0.5 credit]**Seminar: Selected Museum Exhibition**

Studies a major exhibition held at a specific museum.

Students enrolled in this course are expected to bear all travel and other costs arising from required visits to the museum.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Art History and permission of the Discipline.

Lectures and/or seminar three hours a week.

ARTH 4800 [0.5 credit]**Topics in Architectural History**

Selected aspects of architectural history from ancient times to the present.

Prerequisite(s): fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4809 [0.5 credit]**Topics in Art History and Criticism**

Selected aspects of art history and/or criticism from ancient times to the present.

Prerequisite(s): fourth-year standing in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 4900 [0.5 credit]**Directed Readings and Research**

Supervised readings and research projects. Guidelines must be obtained from the Undergraduate Supervisor prior to registration. A written project outline, approved by the supervising Art History faculty member, must be submitted to the Supervisor of Undergraduate Studies by the last day for course changes.

Prerequisite(s): fourth-year Honours standing in Art History and permission of the Discipline.

ARTH 4909 [1.0 credit]**Honours Research Essay**

An essay of approximately 10,000 words, resulting from independent research, supervised by Art History faculty.

Prerequisite(s): fourth-year Honours standing in Art History with a CGPA of 9.00 or better calculated over all courses in Art History; and permission of the Discipline.

Biochemistry (BIOC)

Biochemistry (BIOC) Courses**BIOC 2200 [0.5 credit]****Cellular Biochemistry**

Cellular functions and their interrelationships. Introduction to thermodynamics, membrane structure and function, transport mechanisms, basic metabolic pathways, energy production and utilization, communications between cells. It is strongly recommended that Biology Majors and Honours students take this course in their second year of study.

Includes: Experiential Learning Activity

Also listed as BIOL 2200.

Precludes additional credit for BIOL 2201.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), (CHEM 1006 or CHEM 1002) or permission of the Institute. It is strongly recommended that students in Biochemistry programs take this course in their second year of study.

Lectures three hours a week, laboratory or tutorial four hours a week.

BIOC 2300 [0.5 credit]**Physical Biochemistry**

Energy of biological systems, molecular interactions, diffusion principles, introduction to protein folding, structure and thermodynamics, ligand binding and nucleic acid structures; experimental design and data management.

Precludes additional credit for CHEM 2103.

Prerequisite(s): BIOC 2200 (can be taken concurrently with BIOC 2300) and MATH 1007 and MATH 1107, and (PHYS 1007 and PHYS 1008) or (PHYS 1003 and PHYS 1004).

Lectures three hours a week, tutorials three hours a week.

BIOC 2400 [0.5 credit]**Independent Research I**

Students carry out a laboratory research project under the supervision of a faculty member from the Institute of Biochemistry. A research report must be submitted by the last day of classes for evaluation by the Director and Faculty supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to Honours students of second-year standing in a Biochemistry program with a GPA of 10.0 or higher in first year, and approval of the Director and a Faculty supervisor.

Laboratory research for at least three hours a week over two terms.

BIOC 3008 [0.5 credit]**Bioinformatics**

A practical exploration in the application of information technology to biochemistry and molecular biology. Insight into biological knowledge discovery via molecular structure and function prediction, comparative genomics and biological information management.

Includes: Experiential Learning Activity

Also listed as BIOL 3008 and COMP 3308.

Prerequisite(s): BIOC 2200 or BIOL 2200; or permission of the Institute.

Lecture two hours a week, computer workshop three hours a week.

BIOC 3101 [0.5 credit]**General Biochemistry I**

Chemistry, structure and function of proteins, lipids, carbohydrates and nucleic acids. Monomers, linkages and types of biochemical polymers that are formed. Mechanism of action of enzymes, regulatory control mechanisms of proteins and integration of biochemical pathways.

Precludes additional credit for CHEM 3401.

Prerequisite(s): (BIOC 2200 or BIOL 2200), and (CHEM 2203 and CHEM 2204) or (CHEM 2207 and CHEM 2208) or permission of the Institute.

Lectures three hours a week.

BIOC 3102 [0.5 credit]**General Biochemistry II**

Anabolic and catabolic processes. Regulation of cell compartment (membranes, mitochondria, chloroplast, peroxisome, nuclei) composition. Genetic controls of transcription, translation and post-translational modification of protein structure and function. Biochemical processes of disease, development, and toxicology.

Prerequisite(s): BIOC 3101 and BIOL 2104.

Lectures three hours a week.

BIOC 3103 [0.5 credit]**Practical Biochemistry I**

Introduction to experimental biochemistry and the theory and concepts dealt with in BIOC 3101, and BIOC 3202.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 3006 (no longer offered).

Prerequisite(s): BIOC 2200/BIOL2200 and CHEM 2203 or permission of the Institute. CHEM 2204 and (BIOC 2300 or CHEM 2103) are also recommended. It is highly recommended that BIOC 3101 and BIOC 3202 be taken concurrently.

Laboratory four hours a week, tutorial one hour per week.

BIOC 3104 [0.5 credit]**Practical Biochemistry II**

Introduction to experimental biochemistry and the theory and concepts dealt with in BIOC 3101, BIOC 3102, and BIOC 3202.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 3006 (no longer offered).

Prerequisite(s): BIOC 3103. It is highly recommended that BIOC 3102 be taken concurrently.

Laboratory four hours a week, tutorial one hour a week.

BIOC 3202 [0.5 credit]**Biophysical Techniques and Applications**

Theory and applications of current biochemical/biophysical instrumentation and techniques including biophysical spectroscopy, molecular structure determination, calorimetry, and mass spectrometry.

Precludes additional credit for BIOC 4002.

Prerequisite(s): BIOC 2200 or permission of the Institute.

Lectures three hours a week.

BIOC 3203 [0.5 credit]**Biochemical Pharmacology**

Biochemical principles of pharmacology, including receptor mechanisms, signal transduction, pharmacokinetics, and pharmacodynamics. Genome-wide association studies, pharmacogenomics, and personalized medicine will also be included.

Prerequisite(s): BIOC 2200 or BIOL 2200, or permission of the Institute.

Lectures three hours a week.

BIOC 3400 [0.5 credit]**Independent Research II**

Students carry out a laboratory research project under the supervision of faculty member from the Institute of Biochemistry. A research report must be submitted by the last day of classes for evaluation by the Director and Faculty supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to Honours students of third-year standing in a Biochemistry program with a GPA of 10.0 or higher in second year, and approval of the Director and Faculty supervisor.

Laboratory research for at least three hours a week over two terms.

BIOC 3999 [0.0 credit]**Co-operative Work Term**

Practical experience for students enrolled in the co-operative option. Students must receive a satisfactory evaluation from their work term employer; and present a written report describing their work term project. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Biochemistry co-operative option and permission of the Institute.

BIOC 4001 [0.5 credit]**Methods in Biochemistry**

Principles and applications of modern biochemical methodology, including ultracentrifugation, electrophoresis, ELISA, EMSA, experimental planning, ligand binding kinetics, fluorescence spectroscopy, affinity purification, and in vitro translation.

Includes: Experiential Learning Activity

Prerequisite(s): BIOC 3103 and BIOC 3104 or permission of the Institute.

Lectures and discussion two hours, laboratory four hours a week.

BIOC 4004 [0.5 credit]**Industrial Biochemistry**

The application of biochemistry to the production of biological compounds useful in nutrition, medicine, and the food and chemical industries. General strategies for efficient production of these compounds by controlling the activities of living cells or enzymes.

Prerequisite(s): BIOC 3101 and BIOC 3102 (BIOC 3102 may be taken concurrently), or permission of the Institute. Lecture three hours a week.

BIOC 4005 [0.5 credit]**Biochemical Regulation**

Regulation at the transcriptional, translational and metabolic level; regulation of cell and subcellular organelle function and other timely topics may be included.

Prerequisite(s): BIOC 3101 and BIOC 3102.

Lectures three hours a week.

BIOC 4007 [0.5 credit]**Membrane Biochemistry**

Biochemical and biophysical aspects of biomembrane structure and function. Topics may include: membrane lipids and proteins, lipid polymorphism, model membranes, liposomes, membrane biogenesis, the membrane cytoskeleton, membrane trafficking, membrane fusion, exocytosis and signal transduction across membranes.

Prerequisite(s): BIOL 2200 or BIOC 2200, or BIOC 3101 (which may be taken concurrently with BIOC 4007), or permission of the Institute.

Lectures two hours a week and workshop two hours a week.

BIOC 4008 [0.5 credit]**Computational Systems Biology**

Modeling and simulation of metabolic and regulatory networks towards understanding complex and highly dynamic cellular systems. Biotechnological applications include metabolic engineering, synthetic biology, and drug discovery.

Includes: Experiential Learning Activity

Also listed as COMP 4308.

Prerequisite(s): BIOC 3101 or permission of the Institute.

Lecture one and a half hours per week, workshop one and a half hours per week.

BIOC 4009 [0.5 credit]**Biochemistry of Disease**

The biochemical basis of disease including genetic and metabolic disorders such as cancer, neurological degenerative conditions, diabetes, stroke and microbial infections.

Prerequisite(s): BIOC 3101 and BIOC 3102, or permission of the Institute.

Lectures three hours a week.

BIOC 4200 [0.5 credit]**Immunology**

The organization and function of the immune system, including the anatomy of the immune system, the properties and behaviour of cells of the immune system, and the molecular and genetic bases of the immune response.

Also listed as BIOL 4200.

Prerequisite(s): BIOL 3201 or permission of the Institute.

Lectures three hours a week.

BIOC 4201 [0.5 credit]**Advanced Cell Culture and Tissue Engineering**

Theory and application of current techniques and developments in cell culture as applied to research questions in the field of stem cells and tissue engineering.

Includes: Experiential Learning Activity

Also listed as BIOL 4201.

Prerequisite(s): BIOL 3201 or permission of the Institute.

Laboratory four hours per week, tutorial one hour a week.

BIOC 4202 [0.5 credit]**Mutagenesis and DNA Repair**

A mechanistic study of mutagenesis and DNA repair.

Topics include DNA structure perturbations, spontaneous and induced mutagenesis, the genetics and biochemistry of DNA repair and recombination, and the role of mutations in the development of genetic disease and cancer.

Also listed as BIOL 4202.

Prerequisite(s): BIOL 3104 and BIOL 2200/BIOC 2200, or permission of the Institute.

Lectures and tutorial three hours a week.

BIOC 4203 [0.5 credit]**Advanced Metabolism**

Structure, biochemical derivation and function of secondary metabolites such as toxins and antibiotics.

Examples from plant, fungal and animal systems.

Prerequisite(s): BIOC 3101 and BIOC 3102, or permission of the Institute.

Lectures three hours a week.

BIOC 4204 [0.5 credit]**Protein Biotechnology**

An advanced lecture, discussion and seminar course covering the theory, development and current techniques of protein and enzyme engineering. Topics to be discussed may also include applications in biotechnology, nanotechnology and new frontiers in basic and applied research.

Precludes additional credit for BIOC 4002.

Prerequisite(s): BIOC 3101 and BIOC 3202 (may be taken concurrently), or permission of the Institute.

Lectures two hours a week, workshop two hours a week.

BIOC 4708 [0.5 credit]**Principles of Toxicology**

Basic theorems of toxicology with examples of current research problems. Toxic risk is defined as the product of intensive hazard and extensive exposure. Each factor is assessed in scientific and social contexts and illustrated with many types of experimental material.

Prerequisite(s): (BIOC 3101 and BIOC 3102), or (CHEM 2204, CHEM 2303, FOOD 3001, and FOOD 3005), or permission of the Institute.

Also offered at the graduate level, with different requirements, as BIOL 6402, CHEM 5708, for which additional credit is precluded.

Lectures three hours a week.

BIOC 4901 [0.5 credit]**Selected Topics in Biochemistry**

Selected topics of current interest in biochemistry are offered upon approval by the Director in consultation with members of the Institute.

BIOC 4906 [1.0 credit]**Interdisciplinary Research Project**

Collaborative, interdisciplinary research project approved by the Director. Requires co-supervision, with at least one faculty member from the Institute of Biochemistry. Evaluation is based on a written thesis and poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 4907 and BIOC 4908.

Prerequisite(s): (BIOC 3103 and BIOC 3104) and (BIOC 3101 and BIOC 3102) or equivalent, eligibility to continue in Honours Biochemistry or in Biochemistry and Biotechnology, permission of the Institute.

BIOC 4907 [1.0 credit]**Honours Essay and Research Proposal**

An independent research study using library or computational resources. The candidate will prepare a critical review of a topic approved by a faculty adviser. Evaluation will be based on a written report and a poster presentation of the project.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 4906 [1.0] and BIOC 4908 [1.0].

Prerequisite(s): fourth-year standing in an Honours Biochemistry program and permission of the Institute.

BIOC 4908 [1.0 credit]**Research Project**

Students carry out a research project approved by the Director, under the supervision of a faculty member of the Institute, in either the Biology or Chemistry departments. Evaluation is based on a written thesis and poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 4906 and BIOC 4907.

Prerequisite(s): (BIOC 3103 and BIOC 3104) and (BIOC 3101 and BIOC 3102) or equivalent, and eligibility to continue in Honours Biochemistry or in Biochemistry and Biotechnology.

Biology (BIOL)

Biology (BIOL) Courses**BIOL 1010 [0.5 credit]****Biotechnology and Society**

A course for students interested in the science behind recent advances in biotechnology. The different ways in which biotechnology is being applied in agriculture, health care, and the environment will be examined.

Precludes additional credit for Credit will not be given if taken concurrently with, or after BIOL 2200 or BIOC 2200 or BIOL 2201. Students in Biology and Biochemistry programs may only take this course as a free elective.

Lectures three hours a week.

BIOL 1103 [0.5 credit]**Foundations of Biology I**

A research-oriented course focusing on the scientific process of biological exploration at the cellular level. Topics include cell organization, metabolism, genetics, and reproduction.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 1003 (no longer offered).

Prerequisite(s): Ontario 4U/M in Biology (or equivalent), or Ontario 4U/M in Chemistry (or equivalent).

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 1104 [0.5 credit]**Foundations of Biology II**

A research-oriented course focusing on the scientific process of biological exploration at the macroscale. Topics include evolution, diversity of life, and ecological relationships.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 1004 (no longer offered).

Prerequisite(s): Ontario 4U/M in Biology (or equivalent) or BIOL 1103.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 1105 [0.5 credit]**Biological Methods, Analysis and Interpretation**

Formulation of biological research questions, development of hypotheses and predictions, design of experiments, collection and analysis of data, interpretation and presentation of results.

Lectures three hours a week.

BIOL 1902 [0.5 credit]**Natural History**

A course designed primarily for students in non-biology programs to investigate the natural history of plants and animals, and the communities in which they occur. Particular attention is paid to the Ottawa region, but appropriate examples from other locales are also included. Lectures three hours a week.

BIOL 2001 [0.5 credit]**Animals: Form and Function**

An introduction to the diverse structures of animals (both invertebrates and vertebrates) in relationship to their functions, discussed within an evolutionary framework.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 2002 [0.5 credit]**Plants: Form and Function**

An introduction to the structure and development of higher plants (at cellular, morphological and organism levels) discussed in relation to their function.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 2005 [0.5 credit]**Human Physiology**

Topics may include: neurophysiology, sensory reception, the skeletal system, muscular contraction, the cardiovascular system, the respiratory system, and the gastrointestinal system. Preclusion: credit will not be given if taken concurrently with, or after BIOL 3305 or BIOL 3306.

Precludes additional credit for Students in Biology and Biochemistry programs may only take this course as a free elective.

Prerequisite(s): BIOL 1003 or BIOL 1103 and (CHEM 1001 and CHEM 1002) or (CHEM 1005 and CHEM 1006) or permission of the Department.

Lectures three hours a week.

BIOL 2104 [0.5 credit]**Introductory Genetics**

Lecture/laboratory course on the mechanisms of inheritance and the nature of gene structure, composition and function, introducing both classical Mendelian genetics and modern molecular genetics. It is strongly recommended that this course be taken by Biology majors in their second year of study.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 2106 (no longer offered) and BIOL 2107. Credit for BIOL 2106 will only be given if taken before BIOL 2104.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 2107 [0.5 credit]**Fundamentals of Genetics**

Mechanisms of inheritance and the nature of gene structure, composition and function, introducing both classical Mendelian genetics and modern molecular genetics.

Precludes additional credit for BIOL 2104 and BIOL 2106 (no longer offered).

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week.

BIOL 2200 [0.5 credit]**Cellular Biochemistry**

Cellular functions and their interrelationships. Introduction to thermodynamics, membrane structure and function, transport mechanisms, basic metabolic pathways, energy production and utilization, communications between cells. It is strongly recommended that Biology Majors and Honours students take this course in their second year of study.

Includes: Experiential Learning Activity

Also listed as BIOC 2200.

Precludes additional credit for BIOL 2201.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), (CHEM 1001 and CHEM 1002) or (CHEM 1005 and CHEM 1006), or permission of the Department.

Lectures three hours a week, laboratory or tutorial four hours a week.

BIOL 2201 [0.5 credit]**Cell Biology and Biochemistry**

A study of the molecular, metabolic and structural organization of cells in relation to function. This course is recommended for students not taking upper year Biology laboratory courses for which BIOL/BIOC laboratories are prerequisites.

Precludes additional credit for BIOL 2200, BIOC 2200.

Prerequisite(s): (BIOL 1003 or BIOL 1103) and (CHEM 1002 or CHEM 1006), or permission of the Department.

Lectures three hours a week.

BIOL 2301 [0.5 credit]**Biotechnology I**

An introductory course on the science, technology, entrepreneurial skills and business considerations related to biotechnology. The course will survey broadly across the disciplines of Biology, including applications in agriculture, health, environment and industry.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the department.

Lectures and workshops three hours a week

BIOL 2303 [0.5 credit]**Microbiology**

The biology of the bacteria, Archaea, Viruses and Protozoans, from the fundamentals of cell chemistry, molecular biology, structure and function, to their involvement in ecological and industrial processes and human disease.

Also listed as ENVE 2002.

Prerequisite(s): BIOL 1003 or BIOL 1103.

Lectures three hours a week.

BIOL 2600 [0.5 credit]**Ecology**

The scientific study of interactions of living organisms and their environment, and how these affect the distribution and abundance of life. Topics include energy transformation and flow, nutrient cycling, population and community dynamics, human impacts on ecosystems, conservation issues. Laboratory includes field and computer exercises.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), or permission of the Department.

Lectures three hours a week, laboratory or tutorial four hours a week.

BIOL 2903 [0.5 credit]**Natural History and Ecology of Ontario**

Introduction to the remarkable diversity and ecological relationships of Ontario's flora and fauna, which are explored in a habitat context.

Precludes additional credit for BIOL 1903 (no longer offered).

Prerequisite(s): BIOL 1004 or BIOL 1104 or BIOL 1902.

Lectures three hours a week.

BIOL 3004 [0.5 credit]**Insect Diversity**

Introductory course dealing with the taxonomic diversity, anatomy, behavior and physiology of insects, as well as their impacts on ecosystems, agriculture and animal and human health.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4601.

Prerequisite(s): BIOL 2001.

Lectures three hours a week.

BIOL 3008 [0.5 credit]**Bioinformatics**

A practical exploration in the application of information technology to biochemistry and molecular biology. Insight into biological knowledge discovery via molecular structure and function prediction, comparative genomics and biological information management.

Includes: Experiential Learning Activity

Also listed as BIOC 3008, COMP 3308.

Prerequisite(s): BIOC 2200 or BIOL 2200, or permission of the Department.

Lectures two hours a week, computer workshop three hours a week.

BIOL 3102 [0.5 credit]**Mycology**

This introductory course will cover the morphology, physiology, life cycles, evolution, ecology and biotechnology of the fungi.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2104 or BIOL 2107.

Lectures three hours a week.

BIOL 3104 [0.5 credit]**Molecular Genetics**

A lecture course dealing with modern advances in molecular genetics.

Prerequisite(s): BIOL 2104 or BIOL 2107 or permission of the Department.

Lectures three hours a week.

BIOL 3111 [0.5 credit]**Vertebrate Evolution: Mammals, Reptiles, and Birds**

Evolution of mammals, reptiles and birds. Emphasis on surveying amniote diversity, and the origin of key amniote transformations, as evidenced by the fossil record.

Also listed as EARTH 3111.

Prerequisite(s): BIOL 2001 or EARTH 1009, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

BIOL 3112 [0.5 credit]**Vertebrate Evolution: Fish and Amphibians**

Evolution of fish and amphibians. Emphasis on surveying fish and amphibian diversity, and the origin of key transformations of these groups, as evidenced by the fossil record.

Also listed as EARTH 3112.

Prerequisite(s): BIOL 2001 or EARTH 1009, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

BIOL 3201 [0.5 credit]**Cell Biology**

A lecture and laboratory course on the structure, composition, and function of eukaryotic cells.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2104 and BIOL 2200/BIOC 2200, or permission of the Department.

Lectures three hours a week, laboratory four hours a week.

BIOL 3202 [0.5 credit]**Principles of Developmental Biology**

Introduction to the underlying principles and mechanisms governing development in multicellular animals and plants. Differentiation, growth, morphogenesis, and patterning will be examined at the organismal, cellular, and molecular levels to provide a balanced view of developmental phenomena in key model organisms.

Prerequisite(s): BIOL 2104 or BIOL 2107 and one of BIOL 2001 or BIOL 2002, or permission of the Department.

Lectures three hours a week.

BIOL 3205 [0.5 credit]**Plant Biochemistry and Physiology**

A lecture and laboratory course consisting of selected topics in metabolism and physiology of plants, including photosynthesis, nutrient uptake and transport, intermediary and secondary metabolism, germination, growth and development.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2002 and BIOL 2200/BIOC 2200, or permission of the Department.

Lectures three hours a week, laboratory four hours a week.

BIOL 3301 [0.5 credit]**Biotechnology II**

An interdisciplinary course on interactions between science, invention and innovation in biotechnology. Case studies related to regional biotechnology opportunities; social and ethical issues impacting biotechnology.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2301, BIOL 2104, and BIOL 2200/BIOC 2200 or permission of the department.

Lectures and laboratory/workshops three hours a week

BIOL 3303 [0.5 credit]**Experimental Microbiology**

Intensive training in laboratory techniques in microbiology, using bacteria and other microorganisms to demonstrate processes of cell growth, metabolism, gene expression, rapid evolution, gene transfer, microbial community dynamics and interactions with other organisms.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2104, BIOL 2200/BIOC 2200 and BIOL 2303, or permission of the Department.

Lecture/tutorial one and a half hours a week, laboratory four hours a week.

BIOL 3305 [0.5 credit]**Human and Comparative Physiology**

The properties of physiological systems and components of humans and other animals with an emphasis on physical and chemical bases.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 3306.

Prerequisite(s): BIOL 2200/BIOC 2200 and BIOL 2001. A credit in PHYS at the 1000-level is strongly recommended.

Lectures three hours a week, laboratory four hours a week.

BIOL 3306 [0.5 credit]**Human Anatomy and Physiology**

The anatomy and physiology of the neuromuscular, cardiovascular, respiratory, and excretory systems of humans with comparison to other animals.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 3305.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), and (CHEM 1001 and CHEM 1002) or (CHEM 1005 and CHEM 1006), and third year standing.

Lectures three hours per week.

BIOL 3307 [0.5 credit]**Advanced Human Anatomy and Physiology**

The anatomy and physiology of the endocrine, skeletal, digestive, immunological, and reproductive systems, with additional emphasis on the embryological origins of the major physiological systems.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3305 or BIOL 3306.

Lectures three hours per week, workshop or laboratory four hours per week.

BIOL 3501 [0.5 credit]**Biomechanics**

Properties of muscles, tendons, bones, joints and the co-ordinated use of these structures. Human and other animal locomotion and fitness, bird flight, especially the soaring of the vulture and the albatross, and animal migration are covered in detail.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104).

Lectures three hours a week, workshop two hours a week.

BIOL 3601 [0.5 credit]**Ecosystems and Environmental Change**

Exploration of the unique contribution of the ecosystem approach to ecology, and of early key literature in ecosystem ecology through to current work on global environmental change.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600.

Lectures three hours a week, laboratory four hours a week in six sessions.

BIOL 3602 [0.5 credit]**Conservation Biology**

The science of biology as applied to the problem of maintaining species diversity. Topics include: history of conservation biology, valuation of species, indices of biodiversity, extinction, conservation genetics, conservation planning in parks and reserves, landscape ecology and case studies of conservation problems.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600 or permission of the Department.

Lectures three hours a week and laboratory/workshop three hours a week.

BIOL 3604 [0.5 credit]**Statistics for Biologists**

Introduction to the analysis of biological data. Students analyze real biological data sets in weekly laboratory sessions. Methods introduced include simple linear, polynomial, and multiple regression analysis, analysis of variance, nonparametric tests, tests of independence and logistic regression analysis.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 1105 or STAT 2507.

Lectures one and one-half hours and laboratory two and one-half hours a week.

BIOL 3605 [0.5 credit]**Field Course I**

An intensive study of living organisms under natural conditions. Credit is based on two weeks of full-time fieldwork with attendant assignments. Transportation and room and board costs are borne by the student. Ontario Universities Program in Field Biology; see offered modules for specific prerequisites.

Includes: Experiential Learning Activity

Also listed as NEUR 3203, for animal behaviour modules only.

Prerequisite(s): at least one course in BIOL beyond the 1000-level and written permission of the Department.

Students may take both BIOL 3605 and BIOL 3606 for credit, but neither may be used to repeat a particular module.

All day, approximately six days a week.

BIOL 3606 [0.5 credit]**Field Course II**

An intensive study of living organisms under natural conditions. Credit is based on two weeks of full-time fieldwork with attendant assignments. Transportation and room and board costs are borne by the student. Ontario Universities Program in Field Biology; see offered modules for specific prerequisites.

Includes: Experiential Learning Activity

Prerequisite(s): at least one course in BIOL beyond the 1000-level and written permission of the Department.

Students may take both BIOL 3605 and BIOL 3606 for credit, but neither can be used to repeat a particular module.

All day, approximately six days a week.

BIOL 3608 [0.5 credit]**Principles of Biogeography**

Contemporary and past controls on distribution of plants and animals at global, regional and local scales; significance of these distributions.

Includes: Experiential Learning Activity

Also listed as GEOG 3104.

Prerequisite(s): BIOL 2600 or GEOG 1010 or permission of the Department.

Lectures, laboratory, and fieldwork five hours a week.

BIOL 3609 [0.5 credit]**Evolutionary Concepts**

Evolution is the change in population properties across generations. Genetic variation, mutation, selection, drift, gene flow, genome evolution, speciation, development, biodiversity, fossils, and macro-evolution.

Prerequisite(s): BIOL 2104 or BIOL 2107 or permission of the instructor.

Lectures three hours a week.

BIOL 3611 [0.5 credit]**Evolutionary Ecology**

The term "adaptation" is meaningful only with respect to an ecological context. Ecological contexts lead to evolutionary outcomes such as diverse mating systems, ageing, sexual reproduction, sexual dimorphism, geographic variation, phenotypic plasticity, and diverse life histories.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4608.

Prerequisite(s): BIOL 2600.

Lectures three hours a week; one field trip.

BIOL 3612 [0.5 credit]**Computational Methods in Ecology and Evolution**

Introduction to the development and use of computer programs to address biological problems. Topics include the development of programs to analyse ecological data, models of population dynamics, deterministic chaos, cellular automata, simulations of foraging behaviour and evolutionary computation.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600 or permission of the Department.

Lectures two hours per week, workshop three hours per week.

BIOL 3801 [0.5 credit]**Plants and Herbivores**

Exploration of the chemical, physiological, ecological and evolutionary interactions that underlie the relationship between plants and their insect herbivores.

Prerequisite(s): BIOL 2001 and BIOL 2002.

Lectures/seminars three hours a week.

BIOL 3802 [0.5 credit]**Animal Behaviour**

Advanced study of animal behaviour including the environmental, genetic, and neural influences on behaviour. Topics such as predator-prey interactions, mating behaviour, migration, parental care and social interactions are interpreted in an evolutionary context. Prerequisite(s): BIOL 2001 or BIOL 2600 or permission of the Department.

Lectures and workshop/tutorials three hours a week.

BIOL 3804 [0.5 credit]**Social Evolution**

Diversity in social behaviour from evolutionary and ecological perspectives. Topics include ecological determinants of social living, social networks, social foraging, inclusive fitness, kin selection, altruism, cooperation, and mating systems and strategies. Prerequisite(s): BIOL 2001 and BIOL 2600, or permission of the Department.

Lectures three hours a week.

BIOL 3901 [0.5 credit]**Research Proposal**

The development of a competitive research proposal in consultation with an advisor.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in an Honours Biology program and permission of the Department.

BIOL 3902 [0.5 credit]**Topics in Biology I**

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): third-year standing in a Biology program or permission of the Department.

Lecture, seminars, or workshops three hours per week.

BIOL 3999 [0.0 credit]**Co-operative Work Term Report**

Practical experience for students enrolled in the Co-operative Option. Students must receive satisfactory evaluations from their work term employer. Written reports describing the work term project will be required. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Biology Co-operative Option and permission of the Department.

BIOL 4008 [0.5 credit]**Molecular Plant Development**

Recent advances in plant development including molecular, biochemical, genomics, and proteomics studies.

Prerequisite(s): BIOL 2002 or permission of the Department.

Lectures three hours a week.

BIOL 4102 [0.5 credit]**Molecular Ecology**

The interface of molecular biology, ecology and population biology. Topics include experimental design and a survey and critique of molecular genetic methods to study ecology.

Prerequisite(s): BIOL 2104 or BIOL 2107 and BIOL 2600; BIOL 3104 or one of BIOL 3601, BIOL 3602 (may be taken concurrently), or permission of the Department.

Lectures three hours a week.

BIOL 4103 [0.5 credit]**Population Genetics**

Evolution of gene frequencies, including selection, mutation, genetic drift, inbreeding, gene flow, and population structure.

Prerequisite(s): BIOL 2104 or BIOL 2107 or permission of the Department. A course in statistics is highly recommended.

Lectures and seminars three hours a week.

BIOL 4104 [0.5 credit]**Evolutionary Genetics**

An overview of the molecular evidence of evolution, speciation as well as the phylogenetic analysis of biological sequence data and biometrical traits.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 2001 or BIOL 2002) and (BIOL 2104 or BIOL 2107) or permission of the Department. A course in statistics is recommended.

Lectures and computer lab three hours a week.

BIOL 4106 [0.5 credit]**Advances in Molecular Biology**

Review of the application of high throughput approaches to research in molecular and cellular biology and biochemistry with an emphasis on gene function and human disease progression.

Prerequisite(s): BIOL 2303 and (BIOL 3104 or BIOL 3201).

Lectures and seminars three hours a week.

BIOL 4109 [0.5 credit]**Laboratory Techniques in Molecular Genetics**

This laboratory course provides practical familiarity with commonly used techniques in molecular genetics. The laboratory is suitable for students with a developing interest in problems of molecular and cellular biology and biochemistry.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2200/BIOC 2200 and BIOL 2303 and BIOL 3104 or permission of the Department.

Lecture/laboratory six hours a week in two sessions.

BIOL 4200 [0.5 credit]**Immunology**

The organization and function of the immune system, including the anatomy of the immune system, the properties and behaviour of cells of the immune system, and the molecular and genetic bases of the immune response.

Also listed as BIOC 4200.

Prerequisite(s): BIOL 3201 or permission of the Department.

Lectures three hours a week.

BIOL 4201 [0.5 credit]**Advanced Cell Culture and Tissue Engineering**

Theory and application of current techniques and developments in cell culture as applied to research questions in the field of stem cells and tissue engineering. Includes: Experiential Learning Activity

Also listed as BIOC 4201.

Prerequisite(s): BIOL 3201 or permission of the Department.

Laboratory four hours per week, tutorial one hour a week. Labs require regular participation outside of the scheduled lab time to maintain cell cultures and set up or complete experiments.

BIOL 4202 [0.5 credit]**Mutagenesis and DNA Repair**

A mechanistic study of mutagenesis and DNA repair. Topics include DNA structure perturbations, spontaneous and induced mutagenesis, the genetics and biochemistry of DNA repair and recombination, and the role of mutations in the development of genetic disease and cancer.

Also listed as BIOC 4202.

Prerequisite(s): BIOL 3104 and BIOL 2200/BIOC 2200 or permission of the Department.

Lectures and tutorial three hours a week.

BIOL 4203 [0.5 credit]**Evolution of Sex**

The evolution of sex, including meiosis, syngamy, sex determination, sex chromosomes, and gender from organismal, genetic, and developmental perspectives; the origin, maintenance, function, and ubiquity of sex.

Prerequisite(s): BIOL 2104 or BIOL 2107.

Lectures three hours a week.

BIOL 4206 [0.5 credit]**Human Genetics**

A survey of human genetic variation and mutation in a molecular genetics context. Topics may include molecular basis of diseases, chromosomal abnormalities, genomic imprinting, cancer genetics, genomics, gene mapping and gene therapy.

Prerequisite(s): BIOL 3104 or permission of the Department.

Lectures three hours a week.

BIOL 4207 [0.5 credit]**Advanced Embryology & Developmental Biology**

A laboratory-based exploration of techniques and recent developments in the use of model embryological systems as applied to questions of development and human health. Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3201 or BIOL 3202 or permission of the Department.

Laboratory four hours per week, tutorial one hour a week. Labs require regular participation outside of the scheduled lab time to set up or complete experiments.

BIOL 4209 [0.5 credit]**Advanced Plant Physiology**

An advanced course dealing with recent developments in selected topics of plant physiology.

Prerequisite(s): BIOL 3205 and CHEM 2203, CHEM 2204 or permission of the Department.

Lectures/discussion three hours a week.

BIOL 4300 [0.5 credit]**Applied Microbiology**

Studies of the application of microorganisms. Topics may include: microbial communities, and agricultural, pharmaceutical, industrial and health sciences.

Prerequisite(s): (BIOL 2200/BIOC 2200 or BIOL 2201), BIOL 2303 and (BIOL 3104 or BIOL 3303) or permission of the Department.

Lectures and tutorial three hours a week.

BIOL 4301 [0.5 credit]**Current Topics in Biotechnology**

Explorations of developing biotechnologies in areas such as microbial products, protein engineering, plant genetic engineering, environmental remediation, pharmaceuticals production and medical diagnostics and therapy.

Prerequisite(s): BIOL 3301 or permission of the department.

Lectures and tutorials three hours a week.

BIOL 4303 [0.5 credit]**Advances in Microbiology**

Exploration of current microbiology including the molecular biology of infectious agents, use of model micro-organisms to study human cells and diseases, and functional genomics and proteomics. Special attention will be paid to the field's "big questions". Students will critically examine a number of research proposals.

Prerequisite(s): BIOL 2303 and (BIOL 3104 or BIOL 3303 or BIOC 3102) or permission of the Department.

Lectures three hours per week.

BIOL 4306 [0.5 credit]**Animal Neurophysiology**

A course dealing with recent advances made in particular areas of animal neurophysiology.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4305.

Prerequisite(s): BIOL 3305 or BIOL 3306, or permission of the Department.

Lectures two hours a week, workshops or laboratory four hours a week.

BIOL 4309 [0.5 credit]**Studies in Human Performance**

Biomechanical underpinnings of human performance including the quantitative analysis of human motion in normal activities and in athletic performance. Students will learn modern motion capture methods. This course will require students to design and execute an independent project.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3307 and fourth-year standing, or permission of the department.

Lecture three hours per week, workshop/labs three hours per week.

BIOL 4317 [0.5 credit]**Neuroethology: The Neural Basis of Animal Behaviour**

Proximate mechanisms underlying animal behaviour.

Focus on evolution of nervous systems in response to environmental selection pressures. Topics include: genetic and hormonal influences on behaviour (e.g. maternal care); unique sensory worlds (e.g. magnetic); various levels of neural integration, from simple reflexes to complex social behaviour.

Prerequisite(s): BIOL 3305 or BIOL 3306, or permission of the Department.

Lectures three hours a week.

BIOL 4318 [0.5 credit]**Adaptations to Extreme Environments**

Lectures, discussions and student presentations will be used to examine adaptations of animals to extreme environments (e.g. desert) or lifestyles (e.g. diving), at the physiological, biochemical and molecular levels. Emphasis on becoming familiar with the current primary literature.

Prerequisite(s): BIOL 3305, or permission of the Department.

Lectures/workshops three hours a week.

BIOL 4319 [0.5 credit]**Studies in Exercise Physiology**

Physiological mechanisms underlying human athletic performance. Exercise physiology and cardio-respiratory activity, metabolic regulation and musculoskeletal function. Practical experience will be gained in the workshop/laboratory based experimental sessions.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3307 and fourth-year standing, or permission of the department.

Lectures two hours per week, workshop/labs three hours per week.

BIOL 4500 [0.5 credit]**The Biology of Birds**

Introduction to ornithology, the study of birds; the evolution of birds, migration, geographic variation, adaptations for flight, feeding, reproduction; extinction and preservation.

Prerequisite(s): BIOL 2001 or permission of the department.

Lectures three hours per week.

BIOL 4501 [0.5 credit]**The Taxonomy of Birds**

The taxonomy of birds and species identification are learned through the use of study skins in the lab. Field excursions allow first-hand study of various species. Participants must acquire a pair of binoculars and one of the recommended field guides.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2001 or permission of the department.

Laboratory/field excursions four hours per week.

BIOL 4502 [0.5 credit]**Herpetology**

Herpetology is the study of amphibians and reptiles. The behaviours, physiological ecology, conservation and identification of amphibians and reptiles will be examined through lectures, seminars and hands-on activities.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2001.

Lectures or seminars three hours per week.

BIOL 4503 [0.5 credit]**Fish Ecology, Conservation and Management**

Introduction to the diversity and environmental biology of the world's fishes. Applied issues in fisheries management, conservation, and aquaculture. Workshops expose students to techniques in fisheries science through hands-on demonstrations and field excursions.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600 or permission of the Department.

Lectures/seminars two hours a week, plus labs/workshops two hours a week.

BIOL 4504 [0.5 credit]**Ecology of Freshwater Invertebrates**

Overview of the diversity and ecology of freshwater invertebrates. Aquatic invertebrates from local bodies of water will be sampled and identified in the lab. Experiments on the ecology and behaviour of model species of freshwater invertebrates will also be conducted in the lab.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2001 and BIOL 2600.

Seminar and lab four hours a week.

BIOL 4505 [0.5 credit]**Coral Reefs**

Examining the diversity of life on coral reefs and their interactions across ecological scales, from the biochemistry of zooxanthellae symbiosis to landscape scale trophodynamics, reticulate evolution, and reef fisheries. Emphasis is on synthesis writing drawn from the current primary literature.

Prerequisite(s): BIOL 2600.

Lectures/seminars three hours a week

BIOL 4506 [0.5 credit]**Cactus Biology**

Covers the cactus family over its entire range, including most of the western hemisphere, with discussion on their anatomy, physiology, ecology, evolution, and classification. Topics include how cacti are both typical flowering plants in some regards, and atypical in others.

Prerequisite(s): BIOL 2002.

Lectures/seminars three hours a week

BIOL 4507 [0.5 credit]**Ecological Parasitology**

Key concepts in the ecological study of parasites and pathogens, underpinned by evolutionary thinking and relevant to fundamental and applied questions of co-evolution, disease ecology, epidemiology, emerging infectious diseases, environmental parasitology, evolutionary transitions, host species range, immunity, resistance, tolerance, transmission mode, and virulence.

Prerequisite(s): BIOL 2600 and one of the following:

BIOL 3601, BIOL 3604, BIOL 3609, BIOL 3611, BIOL 3612, BIOL 3801, BIOL 3802, BIOL 3804.

Lectures or seminars 3 hours per week.

BIOL 4602 [0.5 credit]**Evolutionary Applications across Disciplines: From Medicine to Conservation**

Evolutionary principles contributing to advancements across fields including medicine, agriculture, conservation, climate change, and engineering. Topics include evolution of virulence, causes of variation in human health, evolution of resistance to pesticides, interventions for recovery of species at risk, and biomimetic modeling in engineering and architecture.

Prerequisite(s): BIOL 1104 and third-year standing.

Lectures/workshops three hours per week.

BIOL 4603 [0.5 credit]**Insect Evolution and Biology**

Major questions on the origin, evolution and adaptation of structures and physiology of terrestrial arthropods, especially insects.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3004, or permission of the Department.

Lectures two hours a week, laboratory four hours a week.

BIOL 4604 [0.5 credit]**Landscape Ecology**

Landscape ecology is the study of how landscape structure affects the abundance and distribution of organisms. The focus of this course is on research methods and results in landscape ecology. Applications in forestry, agriculture, and species conservation.

Prerequisite(s): BIOL 2600 or equivalent, BIOL 3601 or BIOL 3602 or BIOL 3608 or equivalent, and fourth-year standing in Biology, Geography, or Environmental Sciences.

Lecture three hours a week.

BIOL 4802 [0.5 credit]**Advanced Animal Behaviour**

Contemporary issues in behavioural ecology. Topics may include the relevance of behavioural ecology to conservation biology, to new insights into human social behaviour, and will be selected through consultation between professor and students.

Prerequisite(s): BIOL 3802 or BIOL 3804, or permission of the Department.

Lectures or workshops three hours a week.

BIOL 4901 [0.5 credit]**Directed Special Studies**

Independent or group study, open to third- and fourth-year students to explore a particular topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Prerequisite(s): permission of the Department. Students normally may not offer more than 1.0 credit of Directed Special Studies in their program.

BIOL 4902 [0.5 credit]**Topics in Biology II**

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): fourth-year standing in a Biology program or permission of the Department.

Lecture, seminars, or workshops three hours per week.

BIOL 4905 [1.0 credit]**Honours Workshop**

Within the context of an active learning environment, students participate in a variety of activities which may include literature reviews and critiques, media releases and response papers, oral presentations, and posters. Projects are focused on an area of biological research of interest to the student.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4907 and BIOL 4908.

Prerequisite(s): fourth-year standing in an Honours biology program and permission of the Department.

Workshops three hours per week.

BIOL 4907 [1.0 credit]**Honours Essay and Research Proposal**

An independent critical review and research proposal, using library resources, under the direct supervision of a Faculty advisor. Evaluation is based on a written report and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4905 and BIOL 4908.

Prerequisite(s): fourth-year standing in an Honours Biology program and permission of the Department.

BIOL 4908 [1.0 credit]**Honours Research Thesis**

An independent research project undertaken in the field and/or the laboratory, under the direct supervision of a faculty adviser. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4905 and BIOL 4907.

Prerequisite(s): fourth-year standing in an Honours biology program with a minimum CGPA of 8.0 in the major or permission of the Department.

Business (BUSI)

Business (BUSI) Courses**Notes:**

1. Some business courses are open to students in select programs only. Please refer to the current BUSI Course Priority List found at: sprott.carleton.ca/registration
2. B.Com. and B.I.B. students should use Business (BUSI) prefix for registering in courses that are cross-listed.
3. Not all courses listed are offered in a given year, consult the class schedule at central.carleton.ca for a list of current course offerings.

BUSI 1001 [0.5 credit]**Principles of Financial Accounting**

Discussion of the concepts of asset valuation and income measurement underlying the preparations and interpretation of financial statements.

Precludes additional credit for BUSI 1003 and BUSI 1004.

Prerequisite(s): second-year standing, or permission of the Sprott School of Business.

Lecture three hours a week.

BUSI 1002 [0.5 credit]**Management Accounting**

An introduction to the use of accounting data for the purposes of planning and control of operations.

Precludes additional credit for BUSI 1003 and BUSI 1005.

Prerequisite(s): second-year standing and BUSI 1001, or permission of the Sprott School of Business.

Lecture three hours a week.

BUSI 1003 [0.5 credit]**Survey of Accounting**

Introduction to accounting information, the basic accounting cycle, and consideration of selected financial statement topics. Analysis of cost behavior and the uses and limitations of accounting information in planning, controlling and decision-making processes.

Precludes additional credit for BUSI 1001, BUSI 1002, BUSI 1004 and BUSI 1005. No credit for students in B.Com., BIB or B.Econ. (Honours Economics, Concentration in Financial Economics).

Lecture three hours a week.

BUSI 1004 [0.5 credit]**Financial Accounting for Business Students**

Introduction to accounting for business organizations. The student will be introduced to the accounting process and the preparation and analysis of the balance sheet, income statement, and cash flow statement.

Precludes additional credit for BUSI 1001 and BUSI 1003.

Prerequisite(s): BUSI 1701 or BUSI 1800. Restricted to B.Com. and B.I.B. students.

Lectures three hours a week.

BUSI 1005 [0.5 credit]**Managerial Accounting for Business Students**

Introduction to the development and use of accounting information within a business organization for effective management including: planning, directing, motivating, and controlling activities and behaviours.

Precludes additional credit for BUSI 1002 and BUSI 1003.

Prerequisite(s): BUSI 1004. Restricted to B.Com. and B.I.B. students.

Lectures three hours a week.

BUSI 1402 [0.5 credit]**Introduction to Business Information and Communication Technologies**

Introduction to ICT in organizations. Topics may include spreadsheets, databases, statistical software, website design and implementation, collaboration software including wikis, blogs and social networking, GPS, m-Commerce.

Lectures three hours a week.

BUSI 1701 [0.5 credit]**Introduction to International Business**

Introduction to the principles and practices of international business. Topics include the impact of culture and the political, economic, and legal systems on global strategy, international institutions, theories of cross-border trade, and the characteristics and effects of regional trade blocs.

Precludes additional credit for BUSI 2701, BUSI 2703.

Prerequisite(s): restricted to B.I.B. students.

Lecture three hours and tutorial one hour a week.

BUSI 1800 [0.5 credit]**Introduction to Business**

Introduction to contemporary businesses in a complex economy, their role in the society, their history. The various functions that come together to define a business will be examined. All forms of business communications emphasized.

Prerequisite(s): restricted to B.Com. students with first-year or second-year standing.

Lectures three hours and tutorial one hour a week.

BUSI 1801 [0.5 credit]**Foundations of Business**

Introduction to contemporary businesses in a complex economy and their role in the society. An overview of the various functions that come together to define a business will be examined.

Precludes additional credit for BUSI 1800. No credit in B.Com. or B.I.B. programs.

Lectures three hours a week.

BUSI 1995 [0.0 credit]**Employability Passport I**

An introduction to the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students registered in B.Com. or B.I.B.

Participation in employability events and initiatives throughout the year.

BUSI 2001 [0.5 credit]**Intermediate Accounting I**

An examination of accounting and reporting issues related primarily to asset valuation and revenue recognition.

Prerequisite(s): BUSI 1001 and BUSI 1002, or BUSI 1004 and BUSI 1005 with a grade of C or higher in each.

Lecture three hours a week.

BUSI 2002 [0.5 credit]**Intermediate Accounting II**

An examination of accounting and reporting issues related primarily to liabilities and equities.

Precludes additional credit for BUSI 2506.

Prerequisite(s): BUSI 2001, and BUSI 2504 or BUSI 2503 with a grade of C or higher in each.

Lecture three hours a week.

BUSI 2005 [0.5 credit]**Income Tax Fundamentals**

A foundation course that aims to introduce the fundamental concepts of income tax laws and regulations as significant elements in the planning and decision making process of taxpayers and managers. Problems, issues and planning associated with the Income Tax Act are discussed.

Precludes additional credit for BUSI 3005 and BUSI 4005.

Prerequisite(s): BUSI 1001 or BUSI 1004 with a grade of C- or higher.

Lecture three hours a week.

BUSI 2101 [0.5 credit]**Organizational Behaviour**

Models of individual and small group behaviour in organizations. Topics include motivation, communication, job design, leadership and group dynamics to provide systematic explanations of employee and managerial behaviour in organizations.

Precludes additional credit for BUSI 2121, BUSI 2702, BUSI 3602.

Prerequisite(s): second-year standing. Restricted to B.Com. students.

Lectures three hours, and tutorial one and a half hours a week.

BUSI 2121 [0.5 credit]**Introduction to Organizational Behaviour**

Individual and small group behaviors in organizations and management of the same.

Precludes additional credit for BUSI 2101, BUSI 2702, BUSI 3602.

Prerequisite(s): second-year standing.

Lecture three hours a week.

BUSI 2204 [0.5 credit]**Basic Marketing**

Basic problems and practices in marketing. Marketing planning tools and strategies of firms.

Precludes additional credit for BIT 2002 and BUSI 2208.

Lecture three hours a week.

BUSI 2208 [0.5 credit]**Introduction to Marketing**

Overview of the marketing function within the firm. Introduction to key marketing concepts and principles; business environment analysis, strategic decision making (segmentation, targeting, positioning), marketing mix planning (product, price, place promotion). Analysis of marketing problems using cases and major project.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2204.

Prerequisite(s): BUSI 1004, ECON 1001 and ECON 1002 (or ECON 1000) and one of BUSI 1701, PSYC 1002, SOCI 1005. Restricted to B.Com. or B.I.B. students.

Lecture three hours a week.

BUSI 2301 [0.5 credit]**Introduction to Operations Management**

Concepts, models, and managerial issues in planning, designing, operating and controlling systems of manufacturing goods or providing services. Emphasis on basic ideas and tools.

Precludes additional credit for BUSI 3300 (no longer offered).

Prerequisite(s): second-year standing and STAT 2606.

Restricted to selected Sprott programs.

Lecture three hours a week.

BUSI 2400 [0.5 credit]**Foundations of Information Systems**

Management issues associated with information systems in organizations. Definition, description, fundamental technologies impacts and development of information systems, and associated ethical issues.

Prerequisite(s): second-year standing.

Lecture three hours a week.

BUSI 2402 [0.5 credit]**Business Applications Development**

Introduction to programming. Fundamentals of structured and object-oriented programming using an OO programming language. Treatment of objects, abstraction and inheritance, event-driven programming, iteration, sequence and selection. Consideration of algorithms for searching, sorting, string processing and numerical analysis. Emphasis on the development of business applications.

Precludes additional credit for COMP 1006 and COMP 1406.

Prerequisite(s): second-year standing.

Lecture three hours and tutorial one hour a week.

BUSI 2503 [0.5 credit]**Introduction to Finance**

Basic issues and practices in finance. Survey of business firms' financing, investment, and payout decisions.

Emphasis on understanding the principals, resources and trade-offs in the financial area of a business.

Precludes additional credit for BUSI 2504 and ECON 3050. No credit for students in B.Com., BIB or B.Econ. (Honours Economics, Concentration in Financial Economics).

Prerequisite(s): second-year standing.

Lecture three hours a week.

BUSI 2504 [0.5 credit]**Business Finance I**

Business firms' financing, capital investment, and dividend policy decisions, cost of capital and short-term asset management problems.

Precludes additional credit for BUSI 2503.

Prerequisite(s): BUSI 1005, and ECON 1001 and ECON 1002 (or ECON 1000) or ECOR 3800. Restricted to selected Sprott programs.

Lecture three hours and tutorial one hour a week.

BUSI 2505 [0.5 credit]**Business Finance II**

Capital investment and financing decisions in the context of risk and return tradeoffs. Primary and derivative securities, and their role in risk management. Mergers, corporate restructuring, the theory of principal-agent relationships, and financial planning, forecasting, and control.

Prerequisite(s): BUSI 1002 or BUSI 1005, BUSI 2504 with a grade of C or higher in each; ECON 1001 and ECON 1002 (or ECON 1000) and MATH 1009 with a grade of C- or higher in each.

Lecture three hours a week.

BUSI 2506 [0.5 credit]**Financial Statement Analysis**

Analysis and interpretation of an entity's financial statements and annual report from a user perspective. Ratio analysis is used to analyze firm performance and make forecasts of future performance.

Precludes additional credit for BUSI 2002.

Prerequisite(s): BUSI 2504 with a grade of C or higher.

Lectures three hours a week.

BUSI 2601 [0.5 credit]**Business Law**

The legal system and legal ordering as they affect those engaged in business activities. Emphasis on the law of tort, law of contract, agency and bailment, business associations (partnerships/proprietorships/corporations) and real estate.

Lecture three hours a week.

BUSI 2701 [0.5 credit]**Fundamentals of International Business**

Introduction to the context and operation of international business. Topics include international trade theory, trade agreements and blocs, international finance, global marketing, international human resource management and global strategy.

Precludes additional credit for BUSI 1701, BUSI 2703.

Prerequisite(s): BUSI 1800.

Lecture three hours a week.

BUSI 2702 [0.5 credit]**Introduction to International Management**

Applies principles of organizational behavior and organizational theory to the operations of international businesses. Includes discussion of appropriate strategies and structures. Introduces concepts of cross-cultural communication.

Precludes additional credit for BUSI 2101, BUSI 2121, BUSI 3602.

Prerequisite(s): second-year standing in B.I.B. and BUSI 1701.

Lectures three hours a week.

BUSI 2703 [0.5 credit]**Introduction to International Business**

Introduction to contemporary businesses in a complex economy, their role in society and their history. Examination of the various functions that come together to define a business with an emphasis on all forms of business communications.

Precludes additional credit for BUSI 1701, BUSI 2701.

Prerequisite(s): second-year standing. No credit for students in B.Com. or BIB.

Lectures three hours per week.

BUSI 2800 [0.5 credit]**Entrepreneurship**

Overview of the basics of entrepreneurship, with emphasis on idea generation and identification, team building, business models, initial strategies and feasibility. A number of organization types will be studied.

Prerequisite(s): BUSI 1800 or BUSI 1801 and second-year standing.

Lecture three hours a week.

BUSI 2995 [0.0 credit]**Employability Passport II**

An intermediate course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 1995.

Participation in employability events and initiatives throughout the year.

BUSI 3001 [0.5 credit]**Accounting for Business Combinations**

Accounting problems associated with business combinations, with attention to the preparation of consolidated financial statements. Discussion may extend to financial reporting and diversified companies, reorganizations, etc. Selection of topics may vary from year to year.

Prerequisite(s): BUSI 2002 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3005 [0.5 credit]**Taxation I**

Federal income tax laws and regulations and their impact on an individual's financial and business decisions. Problems, issues and planning associated with the Income Tax Act and concerned with the computation of taxable income and taxes payable by an individual are discussed. Precludes additional credit for BUSI 2005.

Prerequisite(s): BUSI 2001 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3007 [0.5 credit]**Auditing I**

Auditing theory, methodology and application.

Precludes additional credit for BUSI 4007 (no longer offered).

Prerequisite(s): BUSI 2001.

Lecture three hours a week.

BUSI 3008 [0.5 credit]**Intermediate Management Accounting and Control**

The use of accounting information for cost control and performance evaluation. Emphasis is on cost accumulation systems, performance evaluation, control models and analytical tools.

Prerequisite(s): BUSI 1002 or BUSI 1005 with a grade of C- or higher in each.

Lecture three hours a week.

BUSI 3102 [0.5 credit]**Introduction to Human Resources Management**

Human Resource Management function in large formal organizations. Topics include human resources planning, recruitment, selection, performance evaluation, career development and training, compensation and benefits and the role of the professional personnel manager.

Prerequisite(s): second-year standing and one of BUSI 2101, BUSI 2121, BUSI 2702, BUSI 3602, or PSYC 2801.

Lectures three hours a week.

BUSI 3103 [0.5 credit]**Introduction to Organization Theory**

Macro-organization theory. Structuring of organizations in a complex global economy. Effects of the external environment, technology, culture and organizational goals on the structure, processes and effectiveness of the organization.

Prerequisite(s): second-year standing and one of BUSI 2101, BUSI 2121, BUSI 2702, or PSYC 2801.

Lectures three hours a week.

BUSI 3104 [0.5 credit]**Managing Individual Performance**

Managing the performance of self and others. Topics include self awareness, motivation, leadership, communication, diversity, and creativity. Extensive use is made of self-assessments and experiential learning.

Prerequisite(s): BUSI 2101, BUSI 2121, BUSI 2702, or PSYC 2801 with a grade of C or higher.

Lecture three hours a week.

BUSI 3105 [0.5 credit]**Managing and Motivating Teams**

Principles of working in and managing teams. Topics include self-awareness, team formation, team development, team dynamics, team leadership and team motivation.

Prerequisite(s): BUSI 2101, BUSI 2121, BUSI 2702, or PSYC 2801 with a grade of C or higher.

Lecture three hours a week.

BUSI 3106 [0.5 credit]**Managing Conflict and Negotiation**

Analysis of the sources and forms of conflict and effective approaches to managing conflict. Exploration of the effectiveness of various strategies of negotiations.

Prerequisite(s): BUSI 2101, BUSI 2121, BUSI 2702, or PSYC 2801 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3117 [0.5 credit]**Developing Creative Thinking**

Increases student skills in areas beyond technical expertise, with a focus on the importance of fluidity, risk taking, and idea generation. Emphasis on creativity as a process, with exposure to various techniques and concepts including Design Thinking at multiple levels (individual, group, organization).

Prerequisite(s): third-year standing and one of BUSI 2101 or BUSI 2702 with a grade of C- or higher; or permission of the Sprott School of Business.

Lecture three hours a week.

BUSI 3119 [0.5 credit]**Sustainability and the Role of Business**

Concepts of sustainability within business and management contexts. Complex relationships among business, society and the environment and explores the nature of business in today's world where addressing environmental and social issues is becoming increasingly important.

Prerequisite(s): third year standing.

Lecture three hours a week.

BUSI 3204 [0.5 credit]**Digital Marketing**

Introduction and assessment of key new marketing tools and approaches, including internet marketing, relationship marketing, direct marketing; effective adoption and implementation of these tools and approaches across industries and organizations.

Prerequisite(s): BUSI 2204 or BUSI 2208 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3205 [0.5 credit]**Marketing Communications**

Promotion as communication process and marketing tool. Integrating advertising, direct/digital marketing, interactive media, sales promotion, public relations, personal selling through strategic planning (research, budgeting, organizing, creative and media strategy), execution, and campaign evaluation. Regulatory, ethical, social issues considerations.

Prerequisite(s): BUSI 2208 or BUSI 2204 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3207 [0.5 credit]**Marketing Research**

Concepts essential for understanding and conducting applied marketing research. Methods for collecting, analyzing, and interpreting data relevant to marketing decision-making. Experience in research techniques through case studies, exercises and project.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3100.

Prerequisite(s): BUSI 2204 or BUSI 2208 with a grade of C or higher; STAT 2607 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3208 [0.5 credit]**Business-to-Business Marketing**

Theories and practice of marketing in business-to-business markets with emphasis on high technology businesses, including strategic marketing management, buyer behaviour and competitive analysis, sales management, new product management, and international issues.

Prerequisite(s): BUSI 2204 or BUSI 2208 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3209 [0.5 credit]**Consumer Behaviour**

Introduction to the application of psychological theories and methodologies to consumer behaviour. How consumer behaviour is shaped by internal influences. Topics include perception, learning, memory, motivation, affect, personality, the self, attitudes and decision-making. Precludes additional credit for BUSI 4206 (no longer offered).

Prerequisite(s): third-year standing, and BUSI 2204 or BUSI 2208 with a grade of C or higher.

Lecture three hours a week.

BUSI 3301 [0.5 credit]**Supply Chain Fundamentals**

Managing networks of organizations from suppliers to end-users. Planning and coordination of all activities involved in procurement, conversion, and logistics in the global environment.

Precludes additional credit for BUSI 4303 (no longer offered).

Prerequisite(s): second-year standing; BUSI 2301 with a grade of C or higher each and STAT 2606 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3305 [0.5 credit]**Logistics and Transportation**

Overview of logistics and transportation concepts, their roles in creating overall supply chain value. Strategic management and integration on the global basis of core activities, functions, and processes; network design and planning, performance metrics, recent trends in logistics and transportation.

Prerequisite(s): third-year standing; BUSI 2301 with a grade of C or higher, and STAT 2606 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3308 [0.5 credit]**Simulation Methods in Business**

Concepts of computer simulation through case studies, worked examples and hands-on project experience. Generation of random variables, input modeling, model design, analysis of output, and experimental design. Emphasizes static simulations with spreadsheets and discrete-event simulations with specialized software. Includes: Experiential Learning Activity
Prerequisite(s): third-year standing; BUSI 2301 with a grade of C or higher and one of ECON 2202 or STAT 2607 with a grade of C- or higher.
Lecture three hours and tutorial two hours a week.

BUSI 3309 [0.5 credit]**Project Management**

Identification, selection, initiation, and organization of projects; risk assessment; project scheduling, performance monitoring and control, and termination. Emphasizes on foundations, principles and supporting techniques. Precludes additional credit for BUSI 4308.
Prerequisite(s): third-year standing, BUSI 2301 and STAT 2606.
Lecture three hours a week.

BUSI 3400 [0.5 credit]**Data and Information Management**

Information management, database administration, Entity-Relationship Model, database development life cycle: planning, analysis, design, implementation, and maintenance of database management systems. Construction of a database. Introduction to SQL, distributed databases, object-oriented databases, and data warehousing.
Precludes additional credit for COMP 3005.
Prerequisite(s): BUSI 2400 with a grade of C or higher.
Lecture three hours and tutorial one hour a week.

BUSI 3401 [0.5 credit]**Applications Development for Online Environments**

Analysis, design and implementation of electronic business systems. Topics include advanced object-oriented programming, advanced SQL programming, XML, using ASP.NET, MTS and SQL Server.
Precludes additional credit for BUSI 4401 (no longer offered).
Prerequisite(s): BUSI 2402 and BUSI 3400, or COMP 3005 (with a grade of C- or higher in each).
Lecture three hours a week.

BUSI 3402 [0.5 credit]**Systems Analysis and Design**

Methods of analysis of computer-based information systems. The systems development life cycle, planning, analysis, design, implementation and maintenance. Structured and object-oriented methods will be used. Use of a CASE tool.
Precludes additional credit for SYSC 3100, BUSI 3403, (no longer offered) and BUSI 3404 (no longer offered).
Prerequisite(s): one of BUSI 2400, or COMP 2404, or SYSC 2004 (with a grade of C or higher).
Lecture three hours and tutorials one hour a week.

BUSI 3405 [0.5 credit]**Enterprise Architecture**

Exploration of the significance of cross-functional business processes in the context of e-business transformation. Includes process analysis and modeling techniques. Also considers the application of enterprise resource planning systems, workflow technologies, intranets, and extranets to facilitate process flows inside and outside the organization.
Prerequisite(s): BUSI 2400 and BUSI 3103 with a grade of C- or higher.
Lecture three hours a week.

BUSI 3500 [0.5 credit]**Applied Corporate Finance**

An examination of the major issues in corporate finance and applied financial management. Topics include: introduction to portfolio theory, the capital asset pricing model, cost of capital, capital structure and dividend policy, lease financing, capital budgeting under uncertainty, mergers and consolidations.
Prerequisite(s): BUSI 2505 with a grade of C+ or higher, STAT 2606 and ECON 2009 with a grade of C- or higher in each.
Lecture three hours a week.

BUSI 3502 [0.5 credit]**Investments**

Procedures and methods of investment analysis. Stock and bond markets. Government regulation of securities markets. Valuation of common stocks and fixed income securities. Options, warrants, convertibles and commodities.
Prerequisite(s): BUSI 2505 with a grade of C+ or higher, STAT 2606 and ECON 2009 with a grade of C- or higher in each.
Lecture three hours a week.

BUSI 3512 [0.5 credit]**Derivatives**

Derivative instruments and their use for speculation and hedging. Analysis of different markets where instruments trade, and their characteristics. Pricing models highlighted to determine how individuals and corporations can better manage risk; exotics and newer innovations.
Precludes additional credit for BUSI 4512 (no longer offered).
Prerequisite(s): BUSI 2505 with a grade of C+ or higher, STAT 2606 and ECON 2009 with a grade of C- or higher in each.
Lecture three hours a week.

BUSI 3600 [0.5 credit]**Entrepreneurial Strategies**

Within the changing environment, an examination of entrepreneurial strategies related to different functional areas for new ventures and small businesses.
Prerequisite(s): BUSI 2800 with a grade of C- or higher.
Lecture three hours a week.

BUSI 3602 [0.5 credit]**Designing Organizational Systems: An Overview**

Key models and theories of organizational strategy, structure, processes, effectiveness, and individual and group behavior in organizations. Organizational structure, goals, and effectiveness; leadership, motivation and job design.

Precludes additional credit for BUSI 2101, BUSI 2702, BUSI 2121. No credit for students in B.Com. or B.I.B. programs.

Prerequisite(s): third-year standing in the B.P.A.P.M. program.

Lecture three hours a week.

BUSI 3611 [0.5 credit]**Managing the Family Enterprise**

How family businesses are different, what makes them different and how to effectively manage these differences. Challenges arising from the tension between family and business pressures from governance, management and succession planning perspectives.

Prerequisite(s): BUSI 1005 or BUSI 1002, and BUSI 2101 or BUSI 2121 or BUSI 2702, and third year standing.

Lecture three hours a week.

BUSI 3629 [0.5 credit]**Corporate Governance and Strategy**

The role of governance in organizations. Mission and vision statements, values and objectives. Shaping, implementation and evaluation of corporate strategy. Management of risk and environmental analysis.

Precludes additional credit for BUSI 4609, BUSI 4709. No credit in B.Com. or B.I.B. programs.

Prerequisite(s): Enrolment in the Post-Baccalaureate Diploma in Accounting, or BUSI 1001 and BUSI 1002, or equivalents.

Lecture three hours a week.

BUSI 3700 [0.5 credit]**Cross-cultural Communication**

Principles of communication across cultural boundaries are applied to both interpersonal and commercial interactions. Critical incidents and commentary are analyzed. Students submit periodic reports, evaluated by the instructor at Carleton.

Prerequisite(s): restricted to B.I.B. students who are participating in an academic exchange.

Online course.

BUSI 3703 [0.5 credit]**International and Comparative Management**

The management of large organizations spanning national boundaries, including domestic firms with international markets, and multinational corporations. Difficulties of maintaining communication and control in international operations in disparate cultural settings.

Prerequisite(s): second-year standing and BUSI 2101 or BUSI 2702 with a grade of C or higher.

Lecture three hours a week.

BUSI 3704 [0.5 credit]**The Environment of International Business**

Theories linking environmental factors and business strategy as a basis for study of some major factors and institutions shaping international business strategy.

International trade patterns, regionalization, shifts in international finance, research and development and transnational data flows.

Prerequisite(s): third-year standing, and BUSI 2101 or BUSI 2702 with a grade of C or higher; and ECON 1001 and ECON 1002 (or ECON 1000) with a grade of C- or higher in each.

Lecture three hours a week.

BUSI 3705 [0.5 credit]**International Buyer Behaviour**

Behaviour of end-consumers, business and government buyers, and investors in the international context. National, cross-national, and subnational segments and behaviour differences. Adaptation vs. standardisation strategies in the context of socio-psychological, legal, technological, international procurement rules, and other constraints and opportunities.

Prerequisite(s): third-year standing, BUSI 2204 or BUSI 2208, and BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 3706 [0.5 credit]**International Business Negotiations**

Introduction to theory and practice of negotiation in the international business context. Analysis of techniques of conflict resolution and improving ways to reach agreements.

Prerequisite(s): second-year standing and BUSI 2701 or BUSI 2702 with a grade of C- or higher in each.

Lecture three hours a week.

BUSI 3800 [0.5 credit]**Business Case Analysis**

Analysis, solution and presentation of complex business issues through cases.

Includes: Experiential Learning Activity

Prerequisite(s): minimum 7.0 Major CGPA in B.Com. or B.I.B. and permission of the Sprott School of Business.

Lecture three hours and tutorial one hour a week.

BUSI 3810 [0.5 credit]**Business Development**

Business development, growth and expansion through financing activities and new customer acquisition.

Prerequisite(s): BUSI 2800 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3820 [0.5 credit]**Practicum in Business Design**

Students will apply entrepreneurial concepts and engage in designing an entrepreneurial project. Students will prepare in groups a business plan, including in-depth analysis and recommendations.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 2800 with a grade of C- or higher, and third-year standing.

Lecture three hours a week.

BUSI 3995 [0.0 credit]**Employability Passport III**

An advanced course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 2995.

Participation in employability events and initiatives throughout the year.

BUSI 3999 [0.0 credit]**Co-operative Work Term**

This course covers the deliverables associated with the co-op work term such as the site visit, work term report submission and employer evaluation.

Includes: Experiential Learning Activity

Prerequisite(s): This course is for students on a university approved co-op work term.

BUSI 4005 [0.5 credit]**Taxation II**

An intensive review of federal income tax laws and regulations as significant elements in the planning and decision making process of taxable Canadian corporations. Emphasis on the tax planning function of corporate management and the associated accounting and reporting aspects.

Precludes additional credit for BUSI 2005.

Prerequisite(s): BUSI 3005 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4008 [0.5 credit]**Advanced Management Accounting and Control**

Builds on concepts covered in management and cost accounting courses. Integrates relevant issues from other functional areas: strategic uses of cost management, budgeting, and performance evaluation systems in managerial planning and control.

Prerequisite(s): BUSI 3008 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4104 [0.5 credit]**Strategic Human Resources Management**

Systems, strategies and practices used to effectively leverage human capital in organizations. How to think strategically about managing human assets, and what must be done to successfully implement these systems, strategies and practices.

Prerequisite(s): BUSI 3102 and BUSI 3103 (with a grade of C- or higher in each).

Lecture three hours per week.

BUSI 4105 [0.5 credit]**Managing Change**

An overview of current thinking about change management. Topics covered include understanding the forces for and barriers to change, diagnosing the environment around change and implementing change.

Prerequisite(s): third-year standing and BUSI 2101 or BUSI 2702 or BUSI 3602 or PSYC 2801 with a grade of C- or higher.

Lectures three hours a week.

BUSI 4108 [0.5 credit]**Organizational Learning**

Contemporary training and development challenges facing individuals, organizations, and communities and the role of information technology in enhancing individual and collective skills development, capabilities, core competencies, intellectual capital and competitiveness.

Prerequisite(s): BUSI 3103 or BUSI 3602 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4111 [1.0 credit]**Training and Development**

Emphasizes contingency approach to training and development; relevant to organizations of all sizes and resource capacities. Effective training and development is conceptualized as a process that integrates extensive front and back-end planning, implementation, and evaluation activities.

Prerequisite(s): third-year standing and BUSI 2101 (or BUSI 2121 or BUSI 2702) with a grade of B- or higher and permission of the Sprott School of Business.

Lecture three hours and tutorial one hour per week.

BUSI 4112 [0.5 credit]**Organizational Leadership**

Critical examination of theories of leadership and trends in contemporary research; discussion of practical methods for building leadership capacity.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and BUSI 2101 or BUSI 2702 or BUSI 3602 or PSYC 2801 with a grade of C- or higher.

Lecture and field work as needed.

BUSI 4117 [1.0 credit]**Creative Thinking**

Increases student skills in areas beyond technical expertise, with a focus on the importance of fluidity, risk taking, and idea generation. Emphasis on creativity as a process, with exposure to various techniques and concepts including Design Thinking at multiple levels (individual, group, organization).

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3117B taken prior to 2020/21.

Prerequisite(s): third-year standing and one of BUSI 2101 or BUSI 2702 with a grade of C- or higher and permission of the Sprott School of Business.

Lecture three hours a week.

BUSI 4129 [0.5 credit]**Managing the Arts**

Challenges of managing arts organizations with emphasis on the changing environment of arts consumption and funding. Tensions arising from blending artistic and aesthetic dimensions with functional considerations when judging organizational and personal issues form a continuing theme.

Prerequisite(s): third year standing.

Also offered at the graduate level, with different requirements, as MGMT 5129, for which additional credit is precluded.

Lecture three hours a week.

BUSI 4201 [0.5 credit]**Marketing Metrics**

An overview of essential marketing metrics used for enhancing marketing decisions. The course consists of seven core modules: share metrics, margins and profits, pricing, product and portfolio management, sales force management, promotion profitability, and customer profitability.

Prerequisite(s): BUSI 1005 and BUSI 2208.

Lecture three hours a week.

BUSI 4203 [0.5 credit]**Marketing In Not-for-Profit Organizations**

Theories and practices of marketing in not-for-profit organizations including government. Similarities and differences between marketing in not-for-profit and for-profit organizations, and the key issues faced by marketers in developing marketing strategies in not-for-profit organizations.

Prerequisite(s): third-year standing and BUSI 2204 or BUSI 2208 with a grade of C or higher.

Lecture three hours a week.

BUSI 4205 [0.5 credit]**International Marketing Strategy**

The marketing function in international markets from a strategic and managerial perspective. Environments of foreign markets in relation to marketing research, international branding and positioning, and product, price, distribution, and communication strategies. International expansion methods and foreign market evaluation and selection.

Prerequisite(s): third-year standing and BUSI 2204 or BUSI 2208 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4208 [0.5 credit]**Marketing Management**

In depth analysis and applications of the managerial aspects of marketing. Marketing strategy development and implementation theory and practice.

Prerequisite(s): third year standing, BUSI 2208 and one of BUSI 3205 or BUSI 3207 with a grade of C or higher in each.

Lecture three hours a week.

BUSI 4209 [0.5 credit]**Consumer Culture Theory**

Consumer behaviour from a macro and interpretive approach, as a social and cultural phenomenon; the relationships between consumers, the marketplace and cultural meaning.

Precludes additional credit for BUSI 4206 (no longer offered).

Prerequisite(s): third year standing and BUSI 3209 with a grade of C or higher.

Lecture three hours a week.

BUSI 4229 [0.5 credit]**Marketing in the Arts and Culture Sectors**

Advanced study of marketing within the arts and culture sectors. Facilitates sophisticated understanding of the knowledge and skills required for marketing managers to respond to changing market environments in order to bring arts and culture offerings to their target audiences.

Prerequisite(s): third year standing and BUSI 2204 or BUSI 2208 with a grade of C or higher.

Also offered at the graduate level, with different requirements, as MKTG 5229, for which additional credit is precluded.

Lecture three hours a week.

BUSI 4301 [0.5 credit]**Decision Models for Managers**

Management science concepts for decision-making with less risk and better outcomes. Emphasis on practical applications in the context of SCM. Model formulation and solving, solutions interpretation and managerial insights. Role of management science in achieving sustainable competitive advantage.

Precludes additional credit for BUSI 2300, ECON 4005.

Prerequisite(s): third-year standing and BUSI 2301 with a grade of C or higher, and one of ECON 2202 or STAT 2607 with a grade of C- or higher.

BUSI 4302 [0.5 credit]**Management of Quality**

Quality concepts and methods surrounding the definition, mapping, implementation, improvement of business processes in organizations and global supply chains.

Prerequisite(s): third-year standing, BUSI 2301 with a grade of C or higher and STAT 2606 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4304 [0.5 credit]**Procurement and Contracting**

Core supply chain procurement processes in the private and public sectors involved in the acquisition of goods and services, including sourcing, purchasing, contracting, supplier collaboration and relationship development and management. Emphasis on concepts, principles, practices, and techniques.

Prerequisite(s): third-year standing; BUSI 2301 with a C grade or higher.

Lecture three hours a week.

BUSI 4331 [0.5 credit]**E-Supply Chain Technology and Management**

The strategic and operational issues of SCM driven by information and communication technologies (ICT). Internet-enabled technology to support the SCM processes both within the firm and across the supply chain in sourcing, producing and delivering.

Precludes additional credit for BUSI 4431 (no longer offered).

Prerequisite(s): third year standing and BUSI 2301 and BUSI 2400 with a grade of C or higher in each.

Lecture three hours a week.

BUSI 4400 [0.5 credit]**IS Strategy, Management and Acquisition**

Comprehensive treatment of current trends and management issues associated with information systems within organizations of local, national and international scope. Issues and techniques of information systems planning, administration, resource management and new technology adoption. Case studies are used.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, BUSI 2400 and BUSI 3103 (or BUSI 3602) with a grade of C- or higher in each.

Lecture three hours a week.

BUSI 4404 [0.5 credit]**IT Infrastructure**

Challenges and issues managers face in assembling the infrastructure for IT service delivery. IT Service levels, data communications, networks (LAN, MAN, WAN, wireless), internetworking, SOA, web services, SaaS, server and storage virtualization, network security, business continuity and disaster recovery.

Prerequisite(s): third-year standing and BUSI 2400 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4406 [0.5 credit]**Business Analytics**

Evolution of decision support systems. Business intelligence. Data mining and warehousing. Web analytics. Mobile apps for business analytics. Strategic use of information systems for competitive advantage.

Prerequisite(s): third-year standing and BUSI 2400 with a grade of C or higher.

Lecture three hours a week.

BUSI 4408 [0.5 credit]**Social Analytics**

Covers the process, tool and techniques necessary to acquire, clean and analyze text that has been generated on social platforms. Social network analysis, sentiment analysis, topic extraction, co-occurrence analysis.

Prerequisite(s): BUSI 2400, BUSI 2208, STAT 2607, 3rd year standing. Restricted to students enrolled in B.Com, BIB.

Also offered at the graduate level, with different requirements, as ITIS 5408, for which additional credit is precluded.

Lecture three hours a week.

BUSI 4500 [0.5 credit]**Advanced Corporate Finance**

An in-depth examination of some of the major theoretical issues in corporate finance. This course requires analyses and presentations of both articles from the finance literature and case studies.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing; and BUSI 3500, BUSI 3502, BUSI 3512 with a grade of C- or higher in each and STAT 2607 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4502 [0.5 credit]**Portfolio Management**

Analysis of investment requirements for individuals and institutional investors: liquidity, risk and return; portfolio design, construction, management and control; performance measurement; capital market theory.

Prerequisite(s): fourth-year standing; and BUSI 3500, BUSI 3502 and BUSI 3512 with a grade of C- or higher in each and STAT 2607 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4503 [0.5 credit]**Applied Portfolio Management**

Participants of the Sprott Student Investment Fund will be exposed to equity research, analysis, valuation, and portfolio composition. The course allows fund members to fully understand stock selection and fund management, and expose them to the methods and techniques used by industry.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 3502 and permission of the Sprott School of Business.

Workshops three hours a week.

BUSI 4504 [0.5 credit]**International Finance**

Management of corporate finance as it is affected by the requirements of international business. Issues related to international acquisitions, global investments, volatile exchange rates and hedging techniques. Role of international markets in financing corporate activity.

Precludes additional credit for BUSI 3504 (no longer offered) and BUSI 3505 (no longer offered).

Prerequisite(s): BUSI 2505 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4505 [0.5 credit]**Global Financial Markets and Institutions**

Comprehensive view of the world's financial markets and institutions. The primary focus will be on the purpose and practice of financial institutions, and the specifics of the financial instruments available to the firm and investor.

Prerequisite(s): BUSI 2505 with a grade of C+ or higher, STAT 2606 and ECON 2009 with a grade of C- or higher in each.

Lecture three hours a week.

BUSI 4510 [0.5 credit]**Mergers and Acquisitions**

The theory and practice of mergers and acquisitions; the best ways to analyze, design and implement mergers and acquisitions transactions. A highly practical planning-based approach to managing the acquisition process will be employed.

Prerequisite(s): BUSI 3500 and BUSI 3502 with a grade of C- or higher in each, and STAT 2607 with a grade of C- or higher.

Lecture three hours per week.

BUSI 4511 [0.5 credit]**Fixed Income Analysis**

Valuation of fixed income securities and interest rate derivatives including bonds, mortgage- and asset-based securities. Analytic tools used in bond portfolio and interest rate risk management including yield curve construction, duration and convexity, and term structure models.

Prerequisite(s): BUSI 3502, BUSI 3512 with a grade of C- or higher in each, and STAT 2607 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4515 [0.5 credit]**Micro Finance**

Theory and practice of microfinance, its achievements and current challenges; basic skills needed to manage microfinance institutions. The future of microfinance and of financing for development in general. A mix of cases and lectures will be used.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 2505 with a grade of C+ or higher, STAT 2606 and ECON 2009 with a grade of C- or higher in each, fourth year standing and enrollment in the Global Financial Management and Systems concentration in the BIB.

Also offered at the graduate level, with different requirements, as FINA 5515, for which additional credit is precluded.

Lecture three hours a week.

BUSI 4601 [0.5 credit]**Business Ethics**

Use of ethical reasoning to analyze business decisions. The ethical content of these decisions. The role of ethics in business situations. Practice in ethical reasoning. Major ethical systems.

Precludes additional credit for BUSI 4705.

Prerequisite(s): fourth-year standing B.Com. Note that B.Com. concentration in International Business students require BUSI 4705.

Lectures three hours a week.

BUSI 4607 [0.5 credit]**Management of Technology and Innovation**

Integration of technology and strategy; design of technological strategy; development of new business around new technology; and management of corporate research and development, including pre-competitive consortia.

Prerequisite(s): third-year standing, and BUSI 2204 or BUSI 2208, and BUSI 3103 with a grade of C- or higher in each.

Lecture three hours a week.

BUSI 4608 [0.5 credit]**Canadian Business History**

The place of business in Canadian society, economics and politics. The internal dynamics of Canadian business (organization, strategy, the rise of the manager), and its external implications (competition, foreign investment, business- government relations).

Also listed as HIST 3205.

Prerequisite(s): fourth-year standing in B.Com. or B.I.B.

Lectures three hours a week.

BUSI 4609 [0.5 credit]**Strategic Management**

Analysis and evaluation of the organization's corporate and business strategies; integration and synthesis of knowledge acquired in the program by application of acquired functional skills to strategic decision making.

Precludes additional credit for BUSI 3629, BUSI 4709.

Prerequisite(s): fourth-year standing in all B.Com. and successful completion of all 2000- and 3000- level courses in the Major requirement. Note that B.Com. concentration in International Business students require BUSI 4709.

Lectures three hours a week.

BUSI 4704 [0.5 credit]**The Business Environment in Europe**

The economic, political, legal, and cultural environment for doing business in the European Union and other regions in Europe. Patterns of foreign trade and investment, market characteristics, science and technology, regulation and European integration, and business culture.

Also listed as EURR 4704.

Precludes additional credit for EURR 4006 (no longer offered), BUSI 4604 (no longer offered).

Prerequisite(s): third-year standing.

Seminar three hours a week.

BUSI 4705 [0.5 credit]**Ethics and Cross-cultural Interaction**

Perceptions and behaviors that characterize interactions among individuals from various cultural backgrounds, with emphasis on ethical issues that may arise when business crosses cultural boundaries. Various systems, both organizational and individual, for dealing with contrasting expectations are discussed.

Precludes additional credit for BUSI 4601.

Prerequisite(s): fourth-year standing in B. Com. (International Business Concentration) or B.I.B., and BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 4706 [0.5 credit]**International Human Resource Management**

Theoretical and process issues in the recruitment, selection, training, evaluation and repatriation of personnel in multi-country organizations. Issues are examined from the perspective of organizations, expatriates and local employees of multinational firms.

Prerequisite(s): third-year standing, BUSI 3102, and one of BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 4707 [0.5 credit]**Regionalism and Globalization**

Trends in globalization versus supra- and sub-national regionalism. Role of international institutions (e.g. OECD, WTO). Strategy adaptation and integration within and across trade blocs (e.g. NAFTA, EU, Mercosur, ASEAN). Strategies for sub-national markets with similarities across different countries.

Prerequisite(s): third-year standing in B.Com., B.I.B., or Minor in Business, and BUSI 2701 or BUSI 2702.

Lectures three hours a week.

BUSI 4708 [0.5 credit]**International Expansion and Operations**

Internationalization process. Methods of international expansion including exporting, greenfield investment, acquisition, joint venture, and licensing. Theories of international market selection, investment location, and market service.

Prerequisite(s): fourth-year standing, and BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 4709 [0.5 credit]**Strategic Management for International Business**

Development and implementation of strategies within and across international markets. Emphasis on developing strategic perspectives that incorporate the environment, the state of the industry, and the capabilities of the firm. Integrates skills, concepts and theories learned in functional areas.

Precludes additional credit for BUSI 3629, BUSI 4609.

Prerequisite(s): fourth-year standing in B.Com. (International Business Concentration) or B.I.B., and successful completion of all 2000- and 3000-level courses in the Major requirement.

Lectures three hours a week, tutorial one hour a week.

BUSI 4710 [0.5 credit]**International New Ventures**

Challenges facing entrepreneurs in the creation and growth of competitive knowledge-based new international ventures or 'born globals'. Identification of opportunities abroad, strategies and logistics, sourcing, international deal making and business models.

Prerequisite(s): BUSI 2702 or BUSI 3703, and third-year standing.

Lecture three hours a week.

BUSI 4717 [0.5 credit]**Managing Globalization in Emerging Economies**

Critical examination of the managerial and institutional issues of globalization from the perspectives of emerging economies. Indigenous and international institutions' role in the evolution of a competitive and inclusive global economy and society. Discerning lessons of experience for newly globalizing societies.

Precludes additional credit for BUSI 4902 (no longer offered).

Prerequisite(s): fourth year standing in B.Com, BIB, or Minor in Business, ECON 1001 and ECON 1002 (or ECON 1000).

Lectures three hours a week.

BUSI 4719 [0.5 credit]**Practicum in International Business**

Students will engage in an approved international experience, abroad or within Canada, that fosters the development of a global mindset. This experience will allow students to integrate and apply the material learned in previous International Business courses.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B.Com. International Business concentration and permission of the Sprott School of Business.

BUSI 4800 [0.5 credit]**Business Case Analysis II**

TBD.

Prerequisite(s): BUSI 3800, fourth-year standing in B.Com. or B.I.B. and permission of the School of Business.

BUSI 4810 [0.5 credit]**Practicum in Business Creation**

Students apply concepts and engage in groups to implement the design of an entrepreneurship project per their business plan developed in BUSI 3820. The projects provide opportunities for experiential learning.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 3820.

Lectures three hours per week.

BUSI 4901 [0.5 credit]**Topics in Business I**

A selected topics course may be offered. Topics may vary. Consult the School's website for available topics and prerequisite information. Eligibility for this course to serve as an option for specific concentrations is to be established by the School.

Prerequisite(s): Vary based on section. Please refer to sprott.carleton.ca/registration for section specific prerequisites.

Lecture three hours a week.

BUSI 4902 [0.5 credit]**Topics in Business II**

A selected topics course may be offered. Topics may vary. Consult the School's website for available topics and prerequisite information. Eligibility for this course to serve as an option for specific concentrations is to be established by the School.

Prerequisite(s): Vary based on section. Please refer to sprott.carleton.ca/registration for section specific prerequisites.

Lecture three hours a week.

BUSI 4904 [1.0 credit]**Directed Studies I**

Reading course on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): fourth-year standing in B.Com. or B.I.B. and permission of the School of Business.

BUSI 4905 [0.5 credit]**Directed Studies II**

Reading course on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): fourth-year standing in B.Com. or B.I.B. and permission of the School of Business.

BUSI 4906 [1.0 credit]**Research Project for Business**

Provides students with opportunity to conduct research in their area of interest and present the research in an undergraduate thesis format. Conducted under the supervision of a faculty advisor from Sprott, with the specific deliverable determined by Supervisor and student, and approved by Sprott School.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Com. or B.I.B. and permission of the School of Business.

BUSI 4995 [0.0 credit]**Employability Passport IV**

An advanced course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 3995.

Participation in employability events and initiatives throughout the year.

Canadian Studies (CDNS)

Canadian Studies (CDNS) Courses**CDNS 1000 [1.0 credit]****Introduction to Canadian Studies**

Introduction to interdisciplinary Canadian Studies and diversity's role in defining Canada. Examination of the relationship between national identity and values in an evolving Canada. Topics include: Indigenous peoples, language and ethnicity, race, technology, gender, the arts, and international relations.

Two hour lecture, one hour weekly discussion group.

CDNS 1001 [0.5 credit]**Studying Canada**

Introduction to interdisciplinary Canadian Studies and approaches to the critical study of Canada.

Lectures/groups three hours a week.

CDNS 1002 [0.5 credit]**Themes in the Study of Canada**

Examination of various themes and issues that affect Canadians and Canadian society. Topics may include Indigenous peoples, literature, language and ethnicity, race, gender, culture and cultural producers, the environment, and international relations.

Lectures/groups three hours a week.

CDNS 1101 [0.5 credit]**Ottawa: Exploring National Institutions**

An interdisciplinary examination of Ottawa, looking at its history, evolution, and role as Canada's capital. This course investigates various national institutions related to public policy, governance, history, culture and the arts. Field trips and topics vary from year to year.

Includes: Experiential Learning Activity

Lecture/groups three hours a week.

CDNS 1102 [0.5 credit]**Introduction to Canada and the World**

Introductory examination of interdisciplinary themes, ideas, and debates related to Canada and its place in the world.

Topics vary from year to year.

Lecture/groups three hours a week.

CDNS 2000 [0.5 credit]**Debating Canada**

An in-depth examination of key debates that have shaped the nature of Canada, focusing on major thinkers and the debates their ideas produced. Topics vary annually.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2210 [0.5 credit]**Introduction to the Study of Canadian Culture**

The challenges of constructing a national culture in Canada. Topics may include: colonialism and its cultural legacies, cultural nationalism, cultural policies and institutions, popular culture, technology, regionalism, fears of Americanization, gender, multiculturalism, globalization and cultural hybridity.

Precludes additional credit for CDNS 2200.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2300 [0.5 credit]**Critical Nationalism**

This course questions whether a national identity is possible or even desirable within an increasingly diverse and complex Canada. Examination of the construction of Canadian identities, competing nationalisms within Canadian borders and critical evaluation of the role of nationalism.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2400 [0.5 credit]**Heritage Conservation in Canada**

Approaches to heritage conservation. Topics include built heritage, movable heritage, collections and museums, and intangible heritage. Heritage as a source of memory and identity in Canadian and Aboriginal life.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2510 [0.5 credit]**Introduction to Québec Society (English version)**

This course surveys geographical, historical, demographic, cultural, political and social developments in Québec, relations with English Canada and debates on identity and nationalism. Also available in French as CDNS 2511/ FINS 2511.

Also listed as FINS 2510.

Precludes additional credit for CDNS 2511 and FINS 2511.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours per week.

CDNS 2511 [0.5 credit]**Introduction à la société et à la culture québécoises (version française)**

Ce cours permettra de découvrir et d'analyser des référents dominants de la trame historique du Québec de même que les débats entourant l'identité et le nationalisme et les relations avec le Canada anglais.

Also listed as CDNS 2510/FINS 2510 (English), FINS 2511 (French).

Precludes additional credit for CDNS 2510/ FINS 2510.

Prerequisite(s): niveau de deuxième année ou permission de L'École d'études canadiennes.

Exclusivement en ligne. Équivalent d'un cours de trois heures par semaine, accessible toute la semaine.

CDNS 2600 [0.5 credit]**Branding Canada**

What does it mean to sell a country the same way one sells coffee? This course examines the rise of nation-branding in Canada. It discusses the ways governments brand Canada internationally and domestically and the ways corporations brand themselves as "Canadian" to customers.

Two hour lecture and one hour discussion group a week.

CDNS 3000 [0.5 credit]**Producing Knowledge**

Investigates the theory and methods used in qualitative approaches to research, offering hands-on experience and discussion of the underlying beliefs and claims implicit in scholarly work. Examines the ethical and practical dilemmas confronting researchers and develops student skills in gathering, interpreting, and presenting knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3400 [0.5 credit]**Feminists and Feminism in Canada**

Interdisciplinary examination of feminism's impact on Canadian history, culture and politics, and Canadian approaches to feminism in a global context. Surveys the role of feminist thinkers, activists and organizations in shaping Canadian society.

Also listed as WGST 3400.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3550 [0.5 credit]**Interfaces between English and French Canadian Cultures**

Exploration of intercultural encounters between French and English Canadians in political, popular and "official" cultures, through an examination of media, art, music, literature, cinema and the built environment.

Also listed as FINS 3550.

Precludes additional credit for CDNS 2500 and FINS 2500.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3600 [0.5 credit]**Cultural Politics and Identities in Canada**

Interdisciplinary study of questions related to identity, belonging, and Canadianness. Intersections of individual and group dimensions of "being Canadian" and state efforts to define the Canadian identity. Topics may include: religion, sexuality, immigrant and diasporic relations, race and ethnicity, region, nationalisms, and multiculturalism.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3610 [0.5 credit]**The Canadian Political Economy Tradition**

An examination of the political economy tradition in Canada, looking at explanations of Canada's political, economic, social and cultural development, and Canada's evolving position in the global economy.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3620 [0.5 credit]**Canada-US Relations**

Comparative, interdisciplinary examination of Canada and the United States, including the evolution of the Canada-US relationship. Historical, sociological, cultural, and political approaches are used. Topics covered may include the economy, defence, foreign policy, diplomacy, borderlands, Indigenous peoples, and culture.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3700 [0.5 credit]**Cultural Traditions in Canada**

Aspects of cultural heritage, folklore and/or cultural traditions in Canadian folk art, music, dance, storytelling and performance. The genesis of these various expressions, and the cultural contexts that have ensured their survival.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3901 [0.5 credit]**Selected Topics in Canadian Studies**

Topics vary from year to year.

Prerequisite(s): permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4000 [0.5 credit]**Capstone Seminar in Advanced Research in Canadian Studies**

Emphasis on refining analytic and research skills, including teamwork skills and using knowledge to solve problems outside the university. Students will engage in a collective research project in partnership with a local, national or international organization.

Includes: Experiential Learning Activity

Prerequisite(s): CDNS 3000 and fourth-year standing in Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4010 [0.5 credit]**Language, Culture, and Power in Canada**

The relationship between language use and political, economic, and cultural power in Canada. Topics may include cultural and linguistic pluralism, bilingualism, Aboriginal language revitalization, discourses of endangerment, the role of media and the state and in legitimizing language use.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4200 [0.5 credit]**Canadian Popular Culture**

An interdisciplinary seminar using cultural studies methods to explore how popular cultural texts, images, rituals and practices are constructed, disseminated, regulated, consumed and reappropriated by Canadian institutions, corporations, cultural groups and individuals.

Prerequisite(s): fourth-year honours standing, or permission of the School.

Seminar three hours a week.

CDNS 4300 [0.5 credit]**Contested Spaces and Communities**

Exploration of the relationship between space, culture, and identities in Canada. Analysis of concepts, practices and conflicts which may include: urban/rural space, the suburbs, regionalism, gender and space, public/private space, national spaces, borderlands, indigenous territories, cultural survival, collective identity, and memory.

Prerequisite(s): fourth-year honours standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4400 [0.5 credit]**Cultural Landscape and Cultural Identity in Canada**

Cultural landscape appreciation and the development of Canadian individual and collective cultural identities, through the lenses of history, geography, planning, and representational/literary sources of expression. Cultural landscapes as a tool for understanding physical and mental landscapes and their shaping of identity.

Precludes additional credit for CDNS 3200.

Prerequisite(s): fourth-year honours standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4403 [0.5 credit]**Heritage Conservation and Sustainability**

Exploration of the recent shift in heritage conservation discourse that embraces objectives of environmental, social, and economic sustainability. Investigation of synergies and gaps between natural and cultural conservation ideas. Introduction to theory, principles and practices through analysis of Canadian and international research, policy and projects.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School.

Also offered at the graduate level, with different requirements, as CDNS 5403, for which additional credit is precluded.

Seminar three hours a week.

CDNS 4500 [0.5 credit]**Canada and the World**

Interdisciplinary examination of Canada's role in the global political economy and its impact on issues such as work, community, public services, and the state.

Precludes additional credit for CDNS 3301.

Prerequisite(s): fourth-year honours standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4510 [0.5 credit]**Québec Studies**

Advanced seminar focusing on selected aspects of Québec history, society, culture and/or politics.

Also listed as FINS 4510.

Precludes additional credit for CDNS 3510 or FINS 3510.

Prerequisite(s): fourth-year standing and CDNS 3500 or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4800 [1.0 credit]**Internship Practicum**

Practicum placements are available in institutional settings, primarily in the Ottawa area. Students must meet regularly with the academic evaluator and submit a final written report. A maximum of 1.0 practicum credits may be taken in fulfillment of Canadian Studies requirements.

Includes: Experiential Learning Activity

Precludes additional credit for CDNS 3800, CDNS 3801, CDNS 3802 and CDNS 3803.

Prerequisite(s): permission of the School and fourth-year Honours standing in a Indigenous and Canadian Studies program.

CDNS 4801 [0.5 credit]**Internship/Practicum**

Practicum placements are available in institutional settings, primarily in the Ottawa area. Students must meet regularly with the academic evaluator and submit a final written report. A maximum of 1.0 practicum credits may be taken in fulfillment of Canadian Studies requirements.

Includes: Experiential Learning Activity

Precludes additional credit for CDNS 3800, CDNS 3801, CDNS 3802 and CDNS 3803.

Prerequisite(s): permission of the School and fourth-year Honours standing in a Indigenous and Canadian Studies program.

CDNS 4802 [0.5 credit]**Internship/Practicum**

Practicum placements are available in institutional settings, primarily in the Ottawa area. Students must meet regularly with the academic evaluator and submit a final written report. A maximum of 1.0 practicum credits may be taken in fulfillment of Canadian Studies requirements.

Includes: Experiential Learning Activity

Precludes additional credit for CDNS 3800, CDNS 3801, CDNS 3802 and CDNS 3803.

Prerequisite(s): permission of the School and fourth year Honours standing in an Indigenous and Canadian Studies program.

CDNS 4901 [0.5 credit]**Selected Topics in Canadian Studies**

Topics vary from year to year.

Prerequisite(s): permission of the School of Indigenous and Canadian Studies.

CDNS 4902 [0.5 credit]**Selected Topics in Canadian Studies**

Topics vary from year to year.

Prerequisite(s): permission of the School of Indigenous and Canadian Studies.

CDNS 4903 [0.5 credit]**Études dirigées I**

Cours facultatif offert seulement aux étudiants de quatrième année Honours en Études canadiennes (Mention : Français). Ce cours comprend des lectures dirigées et des travaux écrits dans un domaine relié aux Études canadiennes.

Prerequisite(s): permission of the School of Indigenous and Canadian Studies.

CDNS 4904 [0.5 credit]**Études dirigées II**

Cours facultatif offert seulement aux étudiants de quatrième année Honours en Études canadiennes (Mention : Français). Ce cours comprend des lectures dirigées et des travaux écrits dans un domaine relié aux Études canadiennes.

Prerequisite(s): permission of the School.

CDNS 4905 [0.5 credit]**Directed Studies I**

An optional course normally restricted to fourth-year Honours students in Canadian Studies and to Qualifying-year Graduate students. Includes supervised reading and written work in a Canadian Studies area.

Prerequisite(s): permission of the School of Indigenous and Canadian Studies.

CDNS 4906 [0.5 credit]**Directed Studies II**

An optional course normally restricted to fourth-year Honours students in Canadian Studies and to Qualifying-year graduate students. Includes supervised reading and written work in a Canadian Studies area.

Prerequisite(s): permission of the School of Indigenous and Canadian Studies.

CDNS 4907 [1.0 credit]**Directed Studies III**

An optional course normally restricted to fourth-year Honours students in Canadian Studies and to Qualifying-year graduate students. Includes supervised reading and written work in a Canadian Studies area.

Prerequisite(s): permission of the School of Indigenous and Canadian Studies.

Centre for Initiatives in Education (CIED)

Centre for Initiatives in Education (CIED)**Courses****CIED 1001 [0.5 credit]****Selected Topics in Academic Discourse**

Selected topics in academic discourse. Topics vary from year to year, and/or section to section, as determined by the Centre for Initiatives in Education.

Lecture three hours a week.

CIED 1200 [0.5 credit]**Special Topics Seminar**

The development of academic writing, reading, research and analytical skills through the examination of selected topics in the instructor's field of expertise.

Prerequisite(s): restricted to returning students in the Enriched Support Program/Indigenous Enriched Support Program.

Seminar three hours a week.

CIED 2100 [1.0 credit]**Academic Discourse: Theory and Practice**

Inquiry into the theoretical nature of academic language, with emphasis on the social nature of academic writing. Incorporates practical strategies for understanding and enhancing growth in writing.

Prerequisite(s): restricted to returning students in the Enriched Support Program.

Seminar three hours a week.

Chemistry (CHEM)

Chemistry (CHEM) Courses**CHEM 1001 [0.5 credit]****General Chemistry I**

This maths-intensive course covers introduction to periodicity, gas laws, equilibrium, bonding, electrochemistry, and organic chemistry. This is a specialist course for students intending to take second year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1005, CHEM 1101.

Prerequisite(s): Ontario 4U/M in Chemistry or equivalent. Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1002 [0.5 credit]**General Chemistry II**

This maths-intensive course covers an introduction to solution chemistry, acids and bases, thermodynamics, and kinetics. Specialist course for students intending to take second year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1006.

Prerequisite(s): CHEM 1005 with a minimum grade of B-, or CHEM 1001.

Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1003 [0.5 credit]**The Chemistry of Food, Health and Drugs**

Aspects of chemistry relating to food, food additives, drugs (illicit and beneficial) and their relation to metabolism and health. Topics may include: proteins, carbohydrates, fats, vitamins, cofactors, enzymes, steroids, electrolyte and pH balance, trace elements. Available only as a free option for Science students.

Prerequisite(s): a course in Chemistry (e.g. Ontario Grade 11).

Lectures three hours a week.

CHEM 1004 [0.5 credit]**Drugs and the Human Body**

No science background required. Topics include drug origins, laws, metabolism and dependence, pharmaceutical industry, over the counter medications, placebo effect, antibiotics, pain killers, stimulants, alcohol, marijuana, hallucinogens, birth control and steroids. Students in Science programs may use this course only as a free elective.

Lectures three hours a week.

CHEM 1005 [0.5 credit]**Elementary Chemistry I**

Introduction to stoichiometry, periodicity, gas laws, equilibrium, bonding, and organic chemistry with emphasis on examples of relevance to the life sciences. For students who lack the prerequisite for CHEM 1001 or who are not intending to take upper year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1001, CHEM 1101.

Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1006 [0.5 credit]**Elementary Chemistry II**

Introduction to solution chemistry, acids and bases, thermodynamics, and kinetics, with emphasis on examples of relevance to the life sciences. For students who lack the prerequisite for CHEM 1002 or who are not intending to take upper year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1002.

Prerequisite(s): CHEM 1001 or CHEM 1005.

Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1007 [0.5 credit]**Chemistry of Art and Artifacts**

The chemistry of arts and artifacts created throughout the ages (Paleolithic, Neolithic, Bronze, Iron, Middle and Modern) will be examined. Basic chemical principles will be explored and reviewed when required. Students in Science programs may use this course only as a free elective.

Lectures three hours a week.

CHEM 1101 [0.5 credit]**Chemistry for Engineering Students**

Topics include stoichiometry, atomic and molecular structure, thermodynamics and chemical equilibrium, acid-base chemistry, carbon dioxide in water, alkalinity, precipitation, electrochemistry, kinetics and basic organic chemistry. Laboratory component emphasizes techniques and methods of basic experimental chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1001, and CHEM 1005.

Prerequisite(s): Ontario 4U/M in Chemistry or equivalent.

Lectures three hours a week, laboratory three hours every other week.

CHEM 2103 [0.5 credit]**Physical Chemistry I**

Basic principles of thermodynamics. Development of the laws of thermodynamics, enthalpy, entropy and free energy, and their applications to phase equilibria, electrochemistry, and kinetics. Brief introduction to quantum mechanics.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 2300, CHEM 2101 (no longer offered) and CHEM 2102 (no longer offered).

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002, MATH 1004, MATH 1107, PHYS 1007 and PHYS 1008 or PHYS 1003 and PHYS 1004.

Lectures three hours a week, problems one hour a week, laboratory three hours a week.

CHEM 2203 [0.5 credit]**Organic Chemistry I**

Structure, organization, and scope of organic chemistry including molecular structures of well-known and important organic chemicals, types of chemical reactions, and spectroscopic methods used in identification. Training in the handling and purification of organic compounds, organic chemical reactions, and the use of infrared spectroscopy.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 2207.

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002.

Lectures three hours a week and laboratory three hours a week.

CHEM 2204 [0.5 credit]**Organic Chemistry II**

Further discussion of chemical bonding in organic compounds, nomenclature, stereochemistry, and a systematic coverage of the chemical reactions of organic functional groups. Laboratory experience in organic chemical reactions, use of infrared spectroscopy and other techniques to determine the structure of unknown organic compounds.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 2208 and CHEM 2206.

Prerequisite(s): CHEM 2203.

Lectures three hours a week and laboratory three hours a week.

CHEM 2207 [0.5 credit]**Introduction to Organic Chemistry I**

Structure, organization, and scope of organic chemistry, including molecular structures of well-known and important organic chemicals, types of chemical reactions, and spectroscopic methods used in identification.

Precludes additional credit for CHEM 2203.

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002.

Lectures three hours a week.

CHEM 2208 [0.5 credit]**Introduction to Organic Chemistry II**

Further discussion of the chemical bonding in organic compounds, nomenclature, stereochemistry, and a systematic coverage of chemical reactions of the organic functional groups.

Precludes additional credit for CHEM 2204 and CHEM 2206.

Prerequisite(s): CHEM 2207 or CHEM 2203.

Lectures three hours a week.

CHEM 2302 [0.5 credit]**Analytical Chemistry I**

Introduction to quality assurance measures, calibration strategies and the fundamentals of solution-based analytical measurement processes. Qualitative and quantitative analysis using potentiometric and electrolysis techniques including ion selective electrodes, coulometry, amperometry and voltammetry. Redox, acid/base and EDTA titrations in the context of various buffer systems.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 2300.

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002 or CHEM 1101 and (MATH 1007 or MATH 1004).

Lectures three hours a week, laboratory three hours a week.

CHEM 2303 [0.5 credit]**Analytical Chemistry II**

Spectrophotometric analysis using Uv-Vis, fluorescence and FTIR instrumentation. Modern separation methods including CE, GC and LC. Recent techniques and applications using mass spectrometry. Applications of all of the above to real-world analysis including the advancement of environmental, biochemistry and health-related research.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 2300 and CHEM 2301.

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002, or CHEM 1101, and (MATH 1007 or MATH 1004).

Lectures three hours a week, laboratory three hours a week.

CHEM 2400 [0.5 credit]**Independent Research I**

Students carry out a laboratory research project under the supervision of a faculty member from the Department of Chemistry. A research report must be submitted by the last day of classes for evaluation by the Chair and Faculty supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to Honours students having second-year standing in a Chemistry program with an overall CGPA of 10.0 or higher, and approval of the Chair and a Faculty supervisor.

Laboratory research for at least three hours a week over two terms.

CHEM 2501 [0.5 credit]**Introduction to Inorganic and Bioinorganic Chemistry**

The basic concepts of inorganic chemistry, including the origins of elemental properties, simple theories of bonding, intermolecular forces, main group and transition metal chemistry, coordination chemistry. Inorganic ions in biochemistry, including ion transport and storage, oxygen carriers and hydrolases, redox proteins.

Precludes additional credit for CHEM 3506.

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002.

Lectures three hours a week, tutorial one hour a week.

CHEM 2800 [0.5 credit]**Foundations for Environmental Chemistry**

A basis of chemistry needed to understand the environment: composition of the atmosphere and natural waters; equilibrium; surface properties; kinetics and spectroscopy; physical and chemical properties of chemicals in the environment. Limited enrolment course. Priority is given to students in Environmental Science/Engineering.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 1006 with a minimum grade of B- or CHEM 1002, or CHEM 1101, (MATH 1007 or MATH 1004).

Lectures three hours a week, laboratory three hours a week.

CHEM 3100 [0.5 credit]**Physical Chemistry II**

Further development of thermodynamic equations and their applications to mass changes, chemical potential, chemical equilibria, transport properties and advanced phase equilibria. Use of partial differentials and development of Maxwell's relations will also be covered.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 2102.

Prerequisite(s): CHEM 2103 or BIOC 2300, and MATH 1005 or MATH 2007.

Lectures three hours a week, problems one hour a week, laboratory three hours a week.

CHEM 3101 [0.5 credit]**Quantum Chemistry**

Classical equations of motion, harmonic oscillator, diatomic and polyatomic molecules, molecular mechanics, quantum mechanics, Schrödinger equation and wave functions, vibrational spectra, hydrogen atom, quantum numbers, electronic spectra, bonding in small molecules.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 2103, MATH 2007 and MATH 2008.

Lectures three hours a week, tutorial one hour per week.

CHEM 3102 [0.5 credit]**Methods of Computational Chemistry**

Molecular orbital theory of organic and inorganic chemistry. Applications of computational chemistry to chemical bonding, aromaticity, molecular spectra. Semi-empirical and ab initio electronic structure theory. Comparison of theoretical methods used to obtain molecular properties. Introduction to statistical thermodynamics.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 3101.

Lectures and problems three hours a week.

CHEM 3106 [0.5 credit]**Computational Chemistry Methods Laboratory**

Industry-standard quantum chemistry software is used for Hartree-Fock, density functional, and post Hartree-Fock correlation calculations. Results are applied to problems in molecular structure, thermodynamics, vibrational spectroscopy, and kinetics. The UNIX operating system, Bourne-shell programming, and Python scripting are also introduced.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 3102 (may be taken concurrently).

Laboratory three hours a week.

CHEM 3107 [0.5 credit]**Experimental Methods in Nanoscience**

Thin film production and characterization, scanning electron microscopy, synthesis of metal nanoparticles and particle size determination, computational modeling of nanostructures.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 3100.

Laboratory four hours a week.

CHEM 3201 [0.5 credit]**Advanced Organic Chemistry I**

Instrumental methods for determining organic structures. Selected organic reactions with emphasis on mechanisms and reactive intermediates.

Prerequisite(s): CHEM 2204 or CHEM 2206 or CHEM 2208.

Lectures three hours a week, tutorial one and a half hours per week.

CHEM 3202 [0.5 credit]**Advanced Organic Chemistry II**

Continued mechanistic survey of additional organic reactions with emphasis on synthetic usefulness and stereochemistry. Interspersed with selected topics such as instrumental methods, photochemistry, literature of organic chemistry, natural and synthetic polymers, heterocycles, terpenes and alkaloids.

Prerequisite(s): CHEM 3201 or equivalent.

Lectures three hours a week, tutorial one and a half hours per week.

CHEM 3205 [0.5 credit]**Experimental Organic Chemistry**

A laboratory-based course including advanced concepts and techniques in organic synthesis, structure determination, and the rates and mechanisms of reactions. Students are responsible for literature surveys, acquisition of theoretical background, and design of experimental procedures.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 2204 or CHEM 2206 and CHEM 3201.

Laboratory four hours a week.

CHEM 3305 [0.5 credit]**Advanced Analytical Chemistry Laboratory**

Advanced instrumentally based techniques of analysis. Emphasis on identification and quantitation of low-level contaminants in environmental matrices using chromatographic and spectroscopic methods, including sampling, cleanup, measurement and reporting of results.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 2302 or CHEM 2303.

Laboratory four hours a week.

CHEM 3400 [0.5 credit]**Independent Research II**

Students carry out a laboratory research project supervised by a Chemistry faculty member. A research report must be submitted by the last day of classes for evaluation by the Chair and Faculty supervisor; expectations of student performance and evaluation exceed that of CHEM 2400.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to Honours students having third-year standing in a Chemistry program with an overall CGPA of 10.0 or higher, and approval of the Chair and a Faculty supervisor.

Laboratory research for at least three hours a week over two terms.

CHEM 3401 [0.5 credit]**Physical Aspects of Biochemistry**

Chemistry, structure and function of nucleic acids, proteins, carbohydrates, and lipids. Thermodynamics of biological systems, chemical mechanisms and organic transformations. Intended for Chemistry Majors. Precludes additional credit for BIOC 2200, BIOL 2200, and BIOC 3101.

Prerequisite(s): CHEM 2103 and CHEM 2204.

Lectures three hours a week.

CHEM 3503 [0.5 credit]**Inorganic Chemistry I**

Symmetry, identification of Raman and infrared active vibrations, symmetry-adapted molecular orbital theory of polyatomic molecules, electron deficient bonding, bonding in coordination complexes, solid state bonding, ionic lattices. Laboratory will introduce the student to a range of synthetic techniques and physical methods of characterization.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 3507.

Prerequisite(s): CHEM 2501.

Lectures three hours a week, tutorial one hour a week and laboratory four hours a week.

CHEM 3504 [0.5 credit]**Inorganic Chemistry II**

Physical properties of coordination complexes, ligand substitutions and electron transfer reaction mechanisms, organometallic chemistry: bonding, nomenclature and catalysis. Laboratory will introduce the student to a range of synthetic techniques and physical methods of characterization.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 3508.

Prerequisite(s): CHEM 3503.

Lectures three hours a week, tutorial one hour a week and laboratory four hours a week.

CHEM 3507 [0.5 credit]**General Inorganic Chemistry I**

Symmetry, identification of Raman and infrared active vibrations, symmetry-adapted molecular orbital theory of polyatomic molecules, electron deficient bonding, bonding in coordination complexes, solid state bonding, ionic lattices.

Precludes additional credit for CHEM 3503.

Prerequisite(s): CHEM 2501.

Lectures three hours a week, tutorial one hour a week.

CHEM 3508 [0.5 credit]**General Inorganic Chemistry II**

Physical properties of coordination complexes, ligand substitutions and electron transfer reaction mechanisms, organometallic chemistry: bonding, nomenclature and catalysis.

Precludes additional credit for CHEM 3504.

Prerequisite(s): CHEM 3503 or CHEM 3507.

Lectures three hours a week, tutorial one hour a week.

CHEM 3600 [0.5 credit]**Introduction to Nanotechnology**

Nanoscale units, bulk vs. nanoproperties, electrons, atoms and ions, metals, band structure, electrical conduction, biosystems, molecular devices, quantum mechanics and optics, tools for measuring nanostructures. Production of nanostructures: self assembly, nanoscale crystal growth, polymerization. Applications to sensors, magnets, electronics, drug delivery. Toxicology of nanostructures.

Prerequisite(s): CHEM 3100.

Lectures three hours a week.

CHEM 3700 [0.5 credit]**Industrial Applications of Chemistry**

Uses of chemistry in a number of industries: fertilizers, electrochemical, metallurgical, petrochemical, pulp and paper, plastics, pharmaceutical. Interaction of chemistry with economic, political, engineering, environmental, health, legal considerations. Guest lecturers.

Prerequisite(s): (BIOC 2300 or CHEM 2103) and one of CHEM 2207 or CHEM 2203.

Lecture three hours a week.

CHEM 3800 [0.5 credit]**The Chemistry of Environmental Pollutants**

Inorganic and organic environmental pollutants: their toxicology, production, use pattern and known effects on the environment. Aspects of risk and regulation. Chemistry involved in water and sewage treatment.

Prerequisite(s): CHEM 2207 or CHEM 2203 or CHEM 2800.

Lectures three hours a week.

CHEM 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

CHEM 4100 [0.5 credit]**Advanced Topics in Physical Chemistry I**

Principles of Group Theory as applied to Chemistry. Point groups, character tables, symmetry orbitals, molecular orbitals, aromaticity, allowed and forbidden reactions, sandwich complexes. Selection rules in spectroscopy, molecular vibrations.

Prerequisite(s): CHEM 3102.

CHEM 4102 [0.5 credit]**Advanced Topics in Physical Chemistry II**

Statistical thermodynamics, energy states, equilibrium, partition functions for diatomic molecules. Chemical kinetics: rate laws, solution of differential equations, transition state theory, bimolecular reactions in gases and in solution, chain reactions, catalysis, atmospheric chemical reactions and photochemistry.

Prerequisite(s): CHEM 3102.

Lectures and seminars three hours a week.

CHEM 4103 [0.5 credit]**Surface Chemistry and Nanostructures**

Surface structure, thermodynamics and kinetics, specifically regarding adsorption/desorption and high vacuum models. Nanoscale structures and their formation, reactivity and characterization. Thin films, carbon nanotubes, self-assembled monolayers and supramolecular aggregates.

Prerequisite(s): CHEM 3600 and CHEM 3107.

Also offered at the graduate level, with different requirements, as CHEM 5108, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4104 [0.5 credit]**Physical Methods of Nanotechnology**

An overview of methods used in nanotechnology. Principles of scanning probe techniques ranging from surface physics to biology. State of the art methods to create nanostructures for future applications in areas such as nanolithography, nanoelectronics, nano-optics, data storage and bio-analytical nanosystems.

Prerequisite(s): CHEM 3600 and CHEM 3107.

Lectures three hours a week.

CHEM 4201 [0.5 credit]**Macromolecular Nanotechnology**

Biological and synthetic macromolecules related to nanoscale phenomena. Challenges and opportunities associated with natural and synthetic polymers on the nanoscale. Molecular recognition, self-assembled nanostructures, scaffolds and templates, functional nanomaterials, amphiphilic architectures, nanocomposites, and nanomachines. Applications to sensing, biomaterials, drug delivery, and polymer based devices.

Prerequisite(s): CHEM 3600 or permission of the department.

Also offered at the graduate level, with different requirements, as CHEM 5207, CHEM 5208, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4202 [0.5 credit]**Advanced Topics in Organic Chemistry I**

Topics include 2-dimensional ¹H and ¹³CNMR spectroscopy and structure determination of complex organic molecules.

Prerequisite(s): CHEM 3201.

Also offered at the graduate level, with different requirements, as CHEM 5407, for which additional credit is precluded.

CHEM 4203 [0.5 credit]**Synthetic Organic Chemistry**

The application of reactions to the synthesis of organic molecules. Emphasis on design of synthetic sequences, new reagents, and stereoselectivity. Topics include advanced methods for synthesis and reactions of alkenes, carbonyls, and enolates, functional group interconversion, oxidation and reduction, protecting groups, rearrangements, and metal-catalyzed cross-coupling.

Prerequisite(s): CHEM 3201 and CHEM 3202.

Lectures and seminars three hours a week.

CHEM 4204 [0.5 credit]**Organic Polymer Chemistry**

Introduction to basic principles of polymer chemistry, industrial and synthetic polymers, different types of polymerization and polymer characterization. Study of commodity plastics, engineering thermoplastics, and specialty polymers, with emphasis on their synthesis.

Prerequisite(s): CHEM 3201 or equivalent.

Also offered at the graduate level, with different requirements, as CHEM 5406, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4205 [0.5 credit]**Reactivity and Mechanism in Organic Chemistry**

The application of frontier molecular orbital theory (HOMO-LUMO interactions) to organic reactions, including thermal and photochemical cycloadditions of pi-systems (including 1,3-dipoles) and rearrangements. Reactions of radicals and carbenes; conformational analysis, stereochemical effects, and methods for the determination of reaction mechanisms.

Prerequisite(s): CHEM 3202 and CHEM 3503 (may be taken concurrently).

Lectures and seminars three hours a week.

CHEM 4206 [0.5 credit]**Natural Products Chemistry**

A survey of the major classes of natural products with respect to their structural elucidation, synthesis, biosynthesis and bioactivity, with emphasis on compounds that have medicinal importance.

Prerequisite(s): CHEM 3201 and CHEM 3202.

Lectures and seminars three hours a week.

CHEM 4301 [0.5 credit]**Advanced Topics in Analytical Chemistry I**

Trace and ultratrace analytical chemistry. Sampling and sample preservation. The problems of the blank. Trace and ultratrace analysis. Sampling and sample preparation. Atomic absorption, fluorescence and emission spectroscopy.

Prerequisite(s): CHEM 2103 and one of CHEM 2302 or CHEM 2303.

Lectures and seminars three hours a week.

CHEM 4302 [0.5 credit]**Advanced Topics in Analytical Chemistry II**

Solutions and separations in analytical chemistry. Stability of aqueous solutions of standards and samples. Complex formation, multi-step and competing equilibria and their application to the design of selective methods of separation and determination. Electroanalytical techniques. Electroanalytical chemistry of aqueous solutions. Phase equilibria and solvent extraction.

Prerequisite(s): CHEM 2103 and one of CHEM 2302 or CHEM 2303.

Lectures and seminars three hours a week.

CHEM 4304 [0.5 credit]**Advanced Applications In Mass Spectrometry**

Detailed breakdown of the physical, electrical and chemical operation of mass spectrometers. Applications in MS ranging from the analysis of small molecules to large biological macromolecules. Descriptions of the use of mass spectrometry in industry as well as commercial opportunities in the field.

Prerequisite(s): CHEM 2103 or BIOC 2300, and one of CHEM 2302 or CHEM 2303.

Also offered at the graduate level, with different requirements, as CHEM 5109, for which additional credit is precluded.

Lectures and seminars three hours a week.

CHEM 4305 [0.5 credit]**Environmental Chemistry and Toxicology**

Overview of environmental chemistry and toxicology principles including chemical sources, fate, and effects in the environment. Examining organic reactions occurring in abiotic environments and biological systems, and studying aspects of toxicant disposition and biotransformation. Emphasis on contemporary problems in human health and the environment.

Prerequisite(s): CHEM 2203 or CHEM 2207, and CHEM 2800 or CHEM 2103, or BIOC 3101 or permission of the department.

Also offered at the graduate level, with different requirements, as CHEM 5606, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4406 [0.5 credit]**Pharmaceutical Drug Design**

Important elements of rational drug design. Ligand-receptor interactions, structure-activity relationships, molecular modeling of pharmacophores, structure and mechanism-based approaches to drug design. Enzyme inhibition in chemotherapy and design of anti-viral drugs. Includes: Experiential Learning Activity

Prerequisite(s): CHEM 2103 and (CHEM 2203 or CHEM 2207), BIOC 3101 and (BIOC 3102 or BIOC 3008).

Lectures and laboratory five hours a week.

CHEM 4407 [0.5 credit]**Polymer Modeling**

Polymer architectures; Flexible and rigid rod polymers; Rotational isomeric states (RIS); Molecular mechanics, Ramachandran Map, Helix parameters; internal and external parameters; regular and random coil structures; molecular dynamics; calculation of end-to-end distance, NMR chemical shifts; conformational entropy and properties.

Prerequisite(s): MATH 1107 and CHEM 2204 or permission of the department.

Lectures three hours per week.

CHEM 4502 [0.5 credit]**Radiochemistry**

A study of nuclear stability and decay; chemical studies of nuclear phenomena. Applications of radioactivity.

Prerequisite(s): CHEM 2302, CHEM 2303, and CHEM 3100, or permission of the Department.

Also offered at the graduate level, with different requirements, as CHEM 5905, for which additional credit is precluded.

Lectures and seminars three hours a week.

CHEM 4503 [0.5 credit]**Advanced Topics in Inorganic Chemistry I**

A quantitative basis for ligand field theory; unreal and real wavefunctions of d-orbitals; derivation of the energies of d-orbitals using variational principle, secular determinants, and ligand field operators; the effect of ligand field on free ion term symbols, wavefunction descriptions of terms symbols; applications.

Prerequisite(s): CHEM 3504 and CHEM 3101.

Lectures three hours a week.

CHEM 4504 [0.5 credit]**Advanced Topics in Inorganic Chemistry II**

Reactivity of inorganic coordination compounds. Thermodynamic and kinetic factors affecting reactivity. Industrial and biochemical processes catalyzed by metal coordination compounds. Experimental methodologies, data analysis and rate law evaluation used to obtain reaction mechanisms leading to improved methods of catalysis.

Prerequisite(s): CHEM 3504 or equivalent.

Lectures three hours a week.

CHEM 4505 [0.5 credit]**Application of Physical Methods to Electron Transfer Chemistry**

Spectroscopic techniques (i.e. UV-visible NIR, IR, EPR) and electrochemistry methods that are used to study photochemical and thermal intermolecular and intramolecular electron transfer in transition metal complexes are presented. Electron transfer theory and redox-active (non-innocent) ligands are discussed.

Prerequisite(s): CHEM 3504.

Lectures three hours a week.

CHEM 4700 [0.5 credit]**Special Topics in Chemistry**

A topic of current interest in any branch of chemistry. Only one special topics course may be presented for credit.

Prerequisite(s): permission of the Department.

CHEM 4800 [0.5 credit]**Atmospheric Chemistry**

Properties of natural atmospheric constituents; biogeochemical cycles involving gases; chemical reactions in the atmosphere; anthropogenic atmospheric pollutants (e.g., chlorofluorocarbons, sulphur and nitrogen oxides, photochemical smog sources and effects on the biosphere. Relation between the structure of molecules and their spectral and reactive properties.

Prerequisite(s): CHEM 2103 or CHEM 2800.

Lectures three hours a week.

CHEM 4907 [1.0 credit]**Honours Essay and Research Proposal**

Students conduct an independent research study using library resources, and prepare a critical review and study proposal on a topic approved by a faculty supervisor. A written report and oral poster presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 4908, FOOD 4907 and FOOD 4908.

Prerequisite(s): fourth year standing in an Honours Chemistry program and permission of the department.

CHEM 4908 [1.0 credit]**Research Project and Seminar**

Senior students in Honours Chemistry carry out a research project under the direction of one of the members of the Department. A written report and an oral presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 4907, FOOD 4907 and FOOD 4908.

Prerequisite(s): any two of CHEM 3106, CHEM 3107, CHEM 3205, CHEM 3305 and CHEM 3504 and permission of the department.

Laboratory and associated work equivalent to at least eight hours a week for two terms.

Childhood and Youth Studies (CHST)

Childhood and Youth Studies (CHST) Courses**CHST 1003 [1.0 credit]****Introduction to Childhood and Youth Studies**

An introduction to multiple approaches to studying childhood and youth through a diverse range of historical periods and cultural contexts. Students will apply an interdisciplinary lens to explore the ways that children and youth have been discussed, researched, and understood. Precludes additional credit for CHST 1000 (no longer offered), CHST 1002 (no longer offered).

Lecture and discussion groups three hours a week.

CHST 2001 [0.5 credit]**Experiential Learning in Childhood and Youth Studies**

An examination of the philosophies, purposes, methods, techniques, and issues of childhood and youth studies through engagement with children and youth in campus and community settings. Students will make connections to theoretical and curriculum frameworks and current debates and perspectives.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in Childhood and Youth Studies.

Lecture and discussion three hours a week.

CHST 2003 [0.5 credit]**Introduction to Research Methods in Childhood and Youth Studies**

An introduction to the foundations of research involving children and youth. Students will learn research paradigms and strategies for designing and conducting research with children and young people. Ethical considerations and the involvement of children as co-researchers will be emphasized.

Precludes additional credit for CHST 2000 (no longer offered).

Prerequisite(s): second-year standing in Childhood and Youth Studies.

Lectures and discussion groups three hours a week.

CHST 2011 [0.5 credit]**Children's Literature**

Introduction to the critical study of children's literature. Also listed as ENGL 2011.

Precludes additional credit for ENGL 2006 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

CHST 3000 [0.5 credit]**Conceptualizing Adolescence in Childhood and Youth Studies**

A comprehensive interdisciplinary overview of key issues, research, and theoretical developments in the study of childhood and youth. Students will explore the different and often conflicting conceptualizations of adolescence and examine youth theories and their implications.

Prerequisite(s): Third year standing in Childhood and Youth Studies.

Lectures three hours a week.

CHST 3002 [0.5 credit]**Special Topics in Child Studies**

Analysis of selected topics relevant to theory, research, and practice involving children and youth. The choice of topics will vary from year to year. Students should consult with the Institute regarding the topic offered.

Prerequisite(s): Third-year standing in Childhood and Youth Studies, or permission of the department.

Lectures three hours a week.

CHST 3003 [0.5 credit]**Theoretical Advances in Developmental Sciences**

Developments and advances in theories of human development and their applications. Population-based models of child development, bio-ecological frameworks, and epigenetic theories with emphasis on interdisciplinary frameworks relating to childhood and youth.

Prerequisite(s): Third year standing in the Childhood and Youth Studies Program or permission of the department.

Lecture three hours a week.

CHST 3101 [0.5 credit]**Research Seminar**

This seminar is designed for students who wish to complete an Honours research project in their 4th year. Students will select a topic of study, investigate methodological and ethical considerations, and implement the key steps involved in designing rigorous research projects in diverse settings.

Precludes additional credit for CHST 3100 (no longer offered).

Prerequisite(s): CHST 2003 or CHST 2000 (no longer offered), and third-year standing in Childhood and Youth Studies.

Seminar three hours a week.

CHST 3103 [0.5 credit]**Critical Approaches to Child Development**

A critical examination of philosophical, ideological, and discursive perspectives on childhood and youth. Students will analyze normative constructs reproduced in developmental discourses and research, particularly concerning gender, racism, disability, and oppressive practices.

Precludes additional credit for CHST 3001 (no longer offered).

Prerequisite(s): Third-year standing in Childhood and Youth Studies.

Lecture three hours a week.

CHST 3201 [0.5 credit]**Children's Knowledges, Cultures, and Representations**

An analysis of the ways children construct social relations through cultures and systems of representations. Students will investigate how children's knowledges and identities are constructed through their relationships with the world and develop theoretical and practical approaches for working with children from diverse cultures.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Seminar three hours a week.

CHST 3202 [0.5 credit]**Reconceptualizing Early Childhood Education and Care**

A study of historical, contemporary, global, and local conversations about the professional field of early childhood education and care and its diverse practices and contexts. Topics may include reconciliation, anti-racist pedagogies, asset-based practices, inclusiveness, caring in context, and critical reflection.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Seminar three hours a week.

CHST 3203 [0.5 credit]**Youth Culture and Activism**

An exploration of youth cultures and participation in local, national, and global contexts. Students will examine youth engagement and advocacy, including definitions of citizenship, theories of resistance, the construction of "youth" as a social category, and the impact of technology and social media.

Prerequisite(s): Third-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 3204 [0.5 credit]**Literary Representations of Childhood and Youth**

An examination of the ways in which childhood, children, and youth have been represented in creative literature (fiction, poetry, drama, and/or creative nonfiction).

Also listed as ENGL 3204.

Prerequisite(s): third-year standing, or permission of the department.

Seminar three hours a week.

CHST 3205 [0.5 credit]**Race, Childhood, and Youth**

An examination of historical and contemporary issues, debates, and methodologies pertaining to the studies of race, ethnicities, and racialization in childhood and youth studies. Students will also theorize the intersectionality of race, racism, racialization, racial and ethnic formations, nationalism, and colonialism in a contemporary context.

Prerequisite(s): third-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 3302 [0.5 credit]**Children, Policy, and Practice**

An introduction to the concepts of policy and practice and how these are influenced by history, economy, geography, and culture. Topics may include provincial, national, and international economic, social, and educational policies concerning children and youth.

Precludes additional credit for CHST 4000 (no longer offered).

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Lecture three hours a week.

CHST 3303 [0.5 credit]**Children's Rights**

This course examines children's rights from a range of historical, cultural, and global perspectives. Topics may include the rights for Indigenous children, children with disabilities, female, trans and queer children, children in armed conflict and refugees in Canada and transnational contexts.

Also listed as HUMR 3303.

Precludes additional credit for CHST 3901 (no longer offered).

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Lecture three hours a week.

CHST 3304 [0.5 credit]**Disability and Childhood: Transnational Perspectives**

Drawing on theory and research in disabled children's childhood studies, sociology of childhood, disability studies, and girlhood studies, this course examines the discursive and material constructions of disabled youth and childhood in transnational contexts in relation to emerging neo-colonial, neo-imperialist, and neo-liberal ideologies.

Also listed as DBST 3304.

Prerequisite(s): third-year standing in Childhood and Youth Studies or Disability Studies, or permission of the department.

Lecture three hours a week.

CHST 3305 [0.5 credit]**Childhood and Youth in Indigenous Contexts**

An introduction to indigenous perspectives and contexts, both historical and contemporary, in relation to practice with Indigenous children, youth, families, and communities. Students will explore critical theory and necessary protocols for respectful entry into child and youth care practice within Indigenous contexts.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Childhood and Youth Studies or Indigenous Studies, or permission of the department.

Seminar three hours a week.

CHST 3904 [1.0 credit]**Service-Learning in Community Settings**

Students will learn to apply their knowledge pertaining to children and youth to a policy- or practice-oriented work environment. Students will complete a term paper and other assignments documenting gains in experiential knowledge. Graded SAT/UNS.

Includes: Experiential Learning Activity

Prerequisite(s): students with third- or fourth-year standing in Childhood and Youth Studies may apply to the Undergraduate Advisor for permission.

Field placement six hours per week in a community setting, and regular class forum.

CHST 4001 [0.5 credit]**Advanced Topics in Child Studies**

In-depth analysis of theoretical, empirical, and applied topics related to children and youth in Canada and/or internationally. Topics may include poverty and social inequality, child and youth health, social media and social change. This course is repeatable when the topic changes.

Prerequisite(s): fourth-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 4003 [0.5 credit]**History of 'The African Child'**

Students will analyze the history of the figure of 'the African child' using a range of visual, sources from colonial officials, anthropologists, historians, advertisers, charity and development workers, and African children themselves.

Includes: Experiential Learning Activity

Also listed as AFRI 4003.

Precludes additional credit for CHST 4001 if taken in 2014-15.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

CHST 4004 [0.5 credit]**Theories of Inclusion in Childhood and Youth Education**

An examination of the ways that educational discourses construct and perpetuate marginalization of disadvantaged individuals across historical, political, and educational contexts. Students will explore inclusive and exclusive approaches to education and care and how these discursive and material conditions shape the learning experiences of children.

Prerequisite(s): third-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 4101 [0.5 credit]**Children, Youth, and Popular Culture**

A critical examination how popular culture, including consumer culture and digital media, mediates the identities, aspirations, and experiences of children and youth. Students will engage in critical dialogue about media culture and ideology and use cultural production to explore counter-narratives to problematic media representations.

Prerequisite(s): fourth-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 4102 [0.5 credit]**Queer and Trans Youth**

An examination of the ways that queer and trans youth have been conceptualized in research, media, literature, policy, and education. A range of multimedia sources will be used to explore the ways queer and trans youth are using language to render themselves intelligible.

Prerequisite(s): fourth-year standing in Childhood and Youth Studies or Women's and Gender Studies, or permission of the department.

Seminar three hours a week.

CHST 4900 [0.5 credit]**Independent Study**

A reading or research course for students who wish to investigate a particular topic of interest within Child Studies. Normally students may not take more than one credit of Independent Study in their total program.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Childhood and Youth Studies and permission of the Institute.

CHST 4908 [1.0 credit]**Honours Research Project**

Interdisciplinary research project for students in the Honours Research Project stream. Projects will be completed under the supervision of the course instructor and a content specialist. Students must contact the Undergraduate Advisor to request approval to register in this course.

Includes: Experiential Learning Activity

Prerequisite(s): CHST 3101, fourth-year standing in Childhood and Youth Studies with a Major CGPA of 10.0 or higher, and permission of the Undergraduate Advisor.

Chinese (CHIN)

Chinese (CHIN) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

CHIN 1010 [0.5 credit]**First-Year Mandarin Chinese I**

For students with no knowledge of Mandarin. Oral skills; basic reading and writing skills. Placement test for non-literate speakers of other Chinese languages. Not open to students already literate in any Chinese language.

Compulsory attendance.

Precludes additional credit for CHIN 1110.

Four hours a week.

CHIN 1020 [0.5 credit]**First-Year Mandarin Chinese II**

Continuation of first-year Mandarin Chinese. Oral skills; basic reading and writing skills. Compulsory attendance.

Precludes additional credit for CHIN 1110.

Prerequisite(s): grade of C or higher in CHIN 1010, or permission of the School.

Four hours a week.

CHIN 1110 [1.0 credit]**Intensive First-Year Mandarin Chinese**

For students with no knowledge of Mandarin Chinese. Oral skills; basic reading and writing skills. Placement test for non-literate speakers of other Chinese languages. Not open to students already literate in any Chinese language.

Compulsory attendance.

Precludes additional credit for CHIN 1010 and CHIN 1020.

Eight hours a week (one term).

CHIN 2010 [0.5 credit]**Second-Year Mandarin Chinese I**

Further study of Mandarin Chinese to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2110.

Prerequisite(s): grade of C or higher in CHIN 1020 or CHIN 1110, or permission of the School.

Four hours a week.

CHIN 2020 [0.5 credit]**Second-Year Mandarin Chinese II**

Continuation of second-year Mandarin Chinese. Further study of Mandarin Chinese to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2110.

Prerequisite(s): grade of C or higher in CHIN 2010 or permission of the School.

Four hours a week.

CHIN 2110 [1.0 credit]**Intensive Second-Year Mandarin Chinese**

Further study of Mandarin Chinese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for CHIN 2010 and CHIN 2020.

Prerequisite(s): grade of C or higher in CHIN 1020 or CHIN 1110, or permission of the School.

Eight hours a week (one term).

CHIN 3010 [0.5 credit]**Third-Year Mandarin Chinese I**

Continuation of the study of Mandarin Chinese to reach a more advanced level, including ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 2020, or CHIN 2110, or permission of the School.

Three hours a week.

CHIN 3015 [0.5 credit]**Mandarin Chinese for Heritage Speakers**

For students who have attained Mandarin Chinese proficiency in an informal setting, this course provides an opportunity to build on their existing language skills and to develop them in a formal academic setting. The course will formalize grammar awareness and enhance Mandarin Chinese literacy skills.

Precludes additional credit for 1000 and 2000 level CHIN courses, and also for CHIN 3010.

Prerequisite(s): permission of the School.

Three hours a week.

CHIN 3020 [0.5 credit]**Third-Year Mandarin Chinese II**

Continuation of third-year Mandarin Chinese. Progress toward reaching a more advanced level, including ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 3010 or CHIN 3015, or permission of the School.

Three hours a week.

CHIN 4010 [0.5 credit]**Fourth-Year Mandarin Chinese I**

Development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 3020, or permission of the School.

Three hours a week.

CHIN 4020 [0.5 credit]**Fourth-Year Mandarin Chinese II**

Continuation of fourth-year Mandarin Chinese. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in CHIN 4010, or permission of the School.

Three hours a week.

CHIN 4210 [0.5 credit]**Functional Contemporary Mandarin Chinese I**

Further study of Mandarin Chinese to reach a more advanced level, aimed at developing speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in CHIN 4020, or permission of the School.

Three hours a week.

CHIN 4220 [0.5 credit]**Functional Contemporary Mandarin Chinese II**

Continuation of CHIN 4210. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in CHIN 4210 or permission of the School.

Three hours a week.

CHIN 4380 [0.5 credit]**Topics in Chinese Culture and Society**

Selected topics in Chinese culture and society. Repeatable once for credit when topic varies. Taught in English.

Prerequisite(s): Third-year standing in the Minor in Mandarin Chinese, or permission of the instructor.

Three hours a week.

CHIN 4900 [1.0 credit]**Independent Study**

Research in a topic in Mandarin Chinese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Mandarin Chinese, grade of C or higher in CHIN 4020 or equivalent, and permission of the School.

CHIN 4901 [0.5 credit]**Independent Study**

Research in a topic in Mandarin Chinese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Mandarin Chinese, grade of C or higher in CHIN 4020 or equivalent, and permission of the School.

Civil Engineering (CIVE)

Civil Engineering (CIVE) Courses

CIVE 2004 [0.5 credit]

GIS, Surveying, CAD and BIM

Engineering geometry and spatial graphics. Fundamentals of surveys. Digital surveying tools; total station, GPS. Computer-Aided Drafting (CAD). Geographic Information Systems (GIS). Spatial referencing. Building Information Modelling (BIM). Integrated design using digital tools. Field exercises using software to process and evaluate spatial data.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 1010 or (ECOR 1051, ECOR 1052, ECOR 1053 and ECOR 1054) or (GEOM 1004 for students in BSc in Geomatics), and second-year status in Engineering.

Lectures three hours a week, problem analysis and laboratories three hours a week.

CIVE 2005 [0.5 credit]

Architectural Technology 2

Technical issues involved in architectural design of buildings from ancient times to the present. Technological innovation and materials related to structural developments, and the organization and design of structures. Basic concepts of calculus, equilibrium, and mechanics of materials.

Precludes additional credit for Not eligible for use for Bachelor of Engineering degree requirements.

Prerequisite(s): ARCC 2202.

Lectures three hours a week, laboratory three hours a week.

CIVE 2101 [0.5 credit]

Engineering Mechanics

Virtual work. Friction. Relative motion of particles. Kinematics of a rigid body: translation, rotation; general plane motion; absolute and relative motion. Kinetics of a rigid body: equations of motion; work-energy; impulse-momentum; conservation of momentum and energy. Conservative forces and potential energy.

Precludes additional credit for MAAE 2101.

Prerequisite(s): MATH 1004, MATH 1104 and second-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

CIVE 2200 [0.5 credit]

Mechanics of Solids I

Stress and strain. Stress-strain relationship: Hooke's law. Torsion of circular shafts. Bending moment and shear force distribution. Flexural stresses. Deflection. Shear stress in beams. Stresses in thin-walled cylinders. Transformation of 2D stress and strain: Mohr's circle. Buckling of columns.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 2202.

Prerequisite(s): MATH 1004 and second-year status in Engineering for B.Eng. or CIVE 2005 for B.A.S. with Concentration in Conservation and Sustainability.

Lectures three hours a week, problem analysis and laboratory three hours a week.

CIVE 2700 [0.5 credit]

Civil Engineering Materials

Introduction to material science. Structure of atoms. Crystallography. Crystal Imperfections. Characteristics, behaviour and use of Civil Engineering materials: steel, concrete, asphalt, wood, polymers, composites. Specifications. Physical, chemical and mechanical properties. Quality control and material tests. Fatigue. Corrosion. Applications in construction and rehabilitation of structures.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 2700.

Prerequisite(s): second year status for students in an Engineering program or second year standing in a B.A.S. major in Conservation and Sustainability.

Lectures three hours a week, problem analysis and laboratory three hours a week.

CIVE 3202 [0.5 credit]

Mechanics of Solids II

Shear flow. Definition of shear centre, Saint Venant and warping torsional constants. Behaviour, governing differential equations and solutions for torsion, beam-columns, lateral torsional buckling of doubly symmetric beams, axially loaded doubly symmetric, singly symmetric and asymmetric columns. Failure criterion, fatigue and fracture.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 3202.

Prerequisite(s): CIVE 2200.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

CIVE 3203 [0.5 credit]

Introduction to Structural Analysis

Concepts and assumptions for structural analysis: framed structures; joints; supports; compatibility and equilibrium; stability and determinacy; generalized forces and displacements. Principle of Virtual Work: unknown force calculations; influence lines. Complementary Virtual Work: displacement calculations, indeterminate analysis. Introduction to the Stiffness Method of Analysis.

Prerequisite(s): CIVE 2200 and MATH 1004.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3204 [0.5 credit]**Introduction to Structural Design**

Building systems and structural form. Design Philosophy and design process. Limit states design. National Building Code of Canada. Determination of dead, live, snow, wind, and earthquake loads.

Prerequisite(s): CIVE 2200.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3205 [0.5 credit]**Design of Structural Steel Components**

Introduction to CAN/CSA - S16, design and behaviour concepts; shear lag, block shear, local plate buckling, lateral torsional buckling, instantaneous centre, inelastic strength and stability. Design of tension members, axially loaded columns, beams, beam-columns, simple bolted and welded connections.

Prerequisite(s): CIVE 2200 and CIVE 2700.

Recommended prerequisite: CIVE 3204.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3206 [0.5 credit]**Design of Reinforced Concrete Components**

Introduction to CAN/CSA - A23.3; design and behaviour concepts; flexural analysis at service loads; shear, bond, Whitney stress block, under, over reinforced behaviour, ultimate strength. Flexural design of singly reinforced, doubly reinforced T-beams, one-way slabs. Shear design for beams. One-way, two-way slab systems, columns.

Prerequisite(s): CIVE 2200 and CIVE 2700.

Recommended prerequisite: CIVE 3204.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3207 [0.5 credit]**Historic Site Recording and Assessment**

Methods of heritage documentation including hand recording, photography, rectified photography, total station, gps, photogrammetry, and laser scanning. Non-destructive testing techniques; environmental assessment tools for determining air quality and energy efficiency. Multidisciplinary teams for all project work.

Includes: Experiential Learning Activity

Also listed as ARCN 4100.

Prerequisite(s): third-year status in B.Eng. in Architectural Conservation and Sustainability Engineering.

Lectures three hours a week, lab or field work two hours a week.

CIVE 3208 [0.5 credit]**Geotechnical Mechanics**

Soil composition and soil classification. Soil properties, compaction, seepage and permeability. Concepts of pore water pressure, capillary pressure and hydraulic head. Principle of effective stress, stress-deformation and strength characteristics of soils, consolidation, stress distribution with soils, and settlement. Laboratory testing.

Includes: Experiential Learning Activity

Also listed as EARTH 4107.

Prerequisite(s): third-year status in Engineering, or permission of the department. Additional recommended background: EARTH 2404 or equivalent.

Lectures three hours a week, laboratory three hours alternate weeks.

CIVE 3209 [0.5 credit]**Building Science**

Building envelope design and analysis; applied heat transfer and moisture transport; solar radiation; hygrothermal modelling; control of rain, air, vapour, and heat; materials for wall, window, curtain wall, roof, and foundation systems; building envelope retrofit case studies; building code; envelope construction.

Prerequisite(s): MAAE2400 and third-year status in B.Eng. Architectural Conservation and Sustainability Engineering or in Civil Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3304 [0.5 credit]**Transportation Engineering and Planning**

Transportation and the socio-economic environment; modal and intermodal systems and components; vehicle motion, human factors, system and facility design; traffic flow; capacity analysis; planning methodology; environmental impacts; evaluation methods.

Also listed as GEOG 4304.

Prerequisite(s): third-year status in Engineering, or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

CIVE 4200 [0.5 credit]**Matrix Analysis of Framed Structures**

Review of basic structural concepts. Betti's law and applications. Matrix flexibility method, flexibility influence coefficients. Development of stiffness influence coefficients. Stiffness method of analysis: beams; plane trusses and frames; space trusses and frames. Introduction to the finite element method.

Prerequisite(s): CIVE 3203.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4201 [0.5 credit]**Finite Element Methods in Civil Engineering**

Introduction to the theory and application of finite element methods. The relationship with virtual work, Rayleigh-Ritz, system of linear equations, polynomial interpolation, numerical integration, and theory of elasticity is explored. Isoparametric formulations of structural and plane elements are examined. Geotechnical and nonlinear problems are introduced.

Prerequisite(s): CIVE 2200 and fourth year status in engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4202 [0.5 credit]**Wood Engineering**

Structural design in timber. Properties, anatomy of wood, wood products, factors affecting strength and behaviour, strength evaluation and testing. Design of columns, beams and beam-columns. Design of trusses, frames, glulam structures, plywood components, formwork, foundations, connections and connectors. Inspection, maintenance and repair.

Also listed as ARCC 4202.

Prerequisite(s): CIVE 2200, CIVE 2700 and third-year status in B.Eng.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4208 [0.5 credit]**Geotechnical Engineering**

Strength of soils, steady state seepage, flownets and piping. Stress distribution in soils. Earth pressures: at rest, active and passive. Design of flexible and rigid retaining structures. Stability of excavations, slopes and embankments. Settlement of foundations. Bearing capacity of footings.

Prerequisite(s): CIVE 3208.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4209 [0.5 credit]**Highway Engineering**

Highway planning; highway location and geometric design; traffic engineering; highway capacity; soil classifications; subgrade and base materials; highway drainage; frost action; structural design of rigid and flexible pavements; highway economics and finance; maintenance and rehabilitation.

Prerequisite(s): Fourth year status in engineering.

Recommended prerequisites: CIVE 2004, CIVE 3304 and CIVE 3208.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4301 [0.5 credit]**Foundation Engineering**

A critical study of the theories in soil mechanics and their application to the solution of geotechnical engineering problems. Field investigations, laboratory and field testing, shallow foundations, special footings, mat foundations, pile foundations and excavations. Discussion of new methods and current research.

Prerequisite(s): CIVE 4208.

Lectures three hours a week, laboratory three hours alternate weeks.

CIVE 4302 [0.5 credit]**Reinforced and Prestressed Concrete Design**

Reinforced concrete shear and torsion design. Two-way slab design by Direct Design and Equivalent Frame Method. Behaviour and design of slender reinforced concrete columns. Prestressed concrete concepts; flexural analysis and design; shear design; anchorage zone design; deflection and prestress loss determination.

Prerequisite(s): CIVE 3202, CIVE 3203 and CIVE 3206.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4303 [0.5 credit]**Urban Planning**

A systematic approach to urban planning; urban sprawl; data collection; forecasting; standards; space requirements; land use; zoning; transportation; land development; site selection; land capability; layout; evaluation; housing; urban renewal and new towns.

Prerequisite(s): fourth-year status in Engineering, second-year standing in B.A.S. (Urbanism), or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4307 [0.5 credit]**Municipal Hydraulics**

Fluid flow fundamentals. Hydraulics of pipe systems. Open channel flow. Prediction of sanitary and storm sewage, flow rates. Design of water distribution systems, culverts, sanitary and storm sewers. Pumps and measuring devices. Hydraulic and flow control structures.

Prerequisite(s): MAAE 2300.

Lectures three hours a week, problem analysis one and a half hours a week.

CIVE 4308 [0.5 credit]**Behaviour and Design of Steel Structures**

Behaviour and design of open web steel joists, steel and composite decks, composite beams and columns, stud girders, and plate girders. Design of moment connections, base plates and anchor bolts, and bracing connections. Stability of rigid and braced frames. Design for lateral load effects.

Prerequisite(s): CIVE 3205 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4400 [0.5 credit]**Construction/Project Management**

Systems approach to project planning and control. Analysis of alternative network planning methods: CPM, precedence and PERT; planning procedure; computer techniques and estimating; physical, economic and financial feasibility; implementation feedback and control; case studies.

Prerequisite(s): fourth-year status in Engineering. Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4403 [0.5 credit]**Masonry Design**

Introduction to structural design in masonry. Properties of masonry materials and assemblages. Behaviour and design of beams, walls and columns. Selected topics including veneer wall systems, differential movement, workmanship, specifications, inspection, maintenance and repair. Lowrise and highrise building design.

Prerequisite(s): CIVE 3204, CIVE 3206 and fourth-year status in Engineering or permission of the Department. Also offered at the graduate level, with different requirements, as CIVE 5200, for which additional credit is precluded. Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4407 [0.5 credit]**Municipal Engineering**

Introduction to fundamentals of municipal engineering. Water quality: physical, chemical and biological parameters. Water treatment: softening mixing, flocculation, sedimentation, filtration, disinfection, fluoridation. Biological processes. Wastewater treatment: primary, secondary and tertiary treatment. Sludge disposal and wastewater reuse. Solid waste management.

Prerequisite(s): fourth-year status in Engineering. Lectures three hours a week, problem analysis one and a half hours a week

CIVE 4500 [0.5 credit]**Computer Methods in Civil Engineering**

Advanced software development for Civil Engineering applications. Examples may be chosen from surveying, transportation, geotechnical and/or structural engineering. Software technologies include object-oriented programming, data base management, Internet-based applications and graphical user interfaces.

Prerequisite(s): Fourth-year status in Engineering. Also offered at the graduate level, with different requirements, as CIVE 5602, for which additional credit is precluded. Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4601 [0.5 credit]**Building Pathology and Rehabilitation**

Deterioration mechanisms for concrete, timber, steel and masonry structures. Identification of design deficiencies; criteria for selection and design of rehabilitation systems. Design techniques to reduce deterioration in new construction and historical structures.

Includes: Experiential Learning Activity
Also listed as ARCN 4200.
Prerequisite(s): CIVE 3207 and fourth-year status in B.Eng. in Architectural Conservation and Sustainability Engineering.
Lectures three hours a week, lab/field work two hours a week.

CIVE 4614 [0.5 credit]**Building Fire Safety**

Understanding fire-structure interaction and the concepts of fire severity and resistance; behaviour of steel, concrete, and timber buildings exposed to fires; compartment fire dynamics; correlations and computer models to predict fire dynamics; fire retardants; laboratory-scale fire experiments; performance-based approach for building fire safety design.

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering, or permission of the Department. Lectures three hours a week, problem analysis and laboratories one and one-half hours per week.

CIVE 4907 [1.0 credit]**Engineering Research Project**

A research project in engineering analysis, design or development carried out by individual students or small teams, for an opportunity to develop initiative, self-reliance, creative ability and engineering judgment and is normally intended for students with high CGPAs and an interest in graduate studies.

Includes: Experiential Learning Activity
Precludes additional credit for CIVE 4917.
Prerequisite(s): fourth-year status in Engineering and permission of the department.

CIVE 4917 [0.5 credit]**Undergraduate Directed Study**

Student carries out a study, analysis, and solution of an engineering problem which results in a written final report. Carried out under close supervision of a faculty member. Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity
Precludes additional credit for CIVE 4907.
Prerequisite(s): permission of the Department and completion of, or concurrent registration in, CIVE 4918.
Self study.

CIVE 4918 [1.0 credit]**Design Project**

Teams of students develop professional level experience through a design project that incorporates fundamentals acquired in previous mathematics, science, engineering, and complementary studies courses. A final report and oral presentations are required.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 3800 and fourth-year status in Engineering. Certain projects may have additional requirements.

Lectures two hours alternate weeks, problem analysis three hours a week.

Classical Civilization (CLCV)

Classical Civilization (CLCV) Courses**CLCV 1002 [0.5 credit]****Survey of Greek Civilization**

Introduction to the study of Greek antiquity and the discipline of Classics and its methodologies. Greek culture and society are set in their historical contexts and studied through readings from representative ancient authors (in English translation) and through the art and architecture of the period.

Precludes additional credit for CLCV 1000, and CLCV 1109.

Lecture three hours a week.

CLCV 1003 [0.5 credit]**Survey of Roman Civilization**

Introduction to the study of Roman antiquity and the discipline of Classics and its methodologies. The culture and society are set in their historical context and studied through readings from representative ancient authors (in English translation) and through the art and architecture of the period.

Precludes additional credit for CLCV 1000 and CLCV 1109.

Lecture three hours a week.

CLCV 1004 [0.5 credit]**Elementary Language Tutorial I**

Elementary study of an ancient language.

Prerequisite(s): Permission of the unit.

Tutorial two hours a week plus out-of-class requirements.

CLCV 1005 [0.5 credit]**Elementary Language Tutorial II**

Elementary study of an ancient language.

Prerequisite(s): Permission of the department.

Tutorial two hours a week plus out-of-class requirements.

CLCV 1008 [0.5 credit]**Introduction to Archaeology I**

Introduction to the history, theory and practice of field archaeology. Excavations from all time periods and global regions will be discussed. Focus will be placed on excavation methods and technology, including dating, that enhance understanding of sites both on land and underwater.

Also listed as ARCY 1008.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week.

CLCV 1009 [0.5 credit]**Introduction to Archaeology II**

Continues the examination of various aspects of field archaeology begun in CLCV 1008. This course places greater focus on recent approaches to the interpretation of remains. These include environmental, cognitive and bioarchaeological approaches.

Also listed as ARCY 1009.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week.

CLCV 2004 [0.5 credit]**Intermediate Language Tutorial I**

Intermediate study of an ancient language.

Prerequisite(s): permission of the unit.

Tutorial two hours a week plus out-of-class requirements.

CLCV 2005 [0.5 credit]**Intermediate Language Tutorial II**

Intermediate study of an ancient language.

Prerequisite(s): permission of the unit.

Tutorial two hours a week plus out-of-class requirements.

CLCV 2008 [0.5 credit]**Greek and Roman Epic**

An examination of the genre of epic in Greco-Roman antiquity, including a close reading of translations of Homer and Vergil.

Also listed as ENGL 2012.

Precludes additional credit for CLCV 2009 and ENGL 2009 (no longer offered).

Prerequisite(s): second year standing or permission of the unit.

Lecture three hours a week.

CLCV 2010 [0.5 credit]**Greek and Roman Drama**

An examination of the genres of tragedy and comedy in Greco-Roman antiquity.

Also listed as ENGL 2605.

Precludes additional credit for CLCV 2009 or ENGL 2009 (no longer offered).

Prerequisite(s): second year standing or permission of the unit.

Lecture three hours a week.

CLCV 2100 [0.5 credit]**Scientific and Medical terminology**

Examination of Ancient Greek and Latin roots of technical terms found in the sciences, engineering, and medicine. Lecture three hours a week.

CLCV 2103 [0.5 credit]**Greek Religion**

A study of religion in ancient Greece. Also listed as RELI 2735. Precludes additional credit for CLCV 2102 and RELI 2734. Lecture three hours a week.

CLCV 2104 [0.5 credit]**Roman Religion**

A study of religion in ancient Rome. Also listed as RELI 2737. Precludes additional credit for CLCV 2102 and RELI 2734. Lecture three hours a week.

CLCV 2105 [1.0 credit]**Greek Philosophy and the Western Tradition**

The Greek tradition from its pre-Socratic beginnings to Hellenistic and Roman philosophy (Cynicism, Epicureanism, Stoicism, Scepticism); focus on Socrates, Plato and Aristotle. Its conservation and reappropriation in the Middle Ages and Renaissance. Also listed as PHIL 2005. Precludes additional credit for PHIL 2006, CLCV 2006, PHIL 2007, CLCV 2007 (no longer offered).

CLCV 2303 [0.5 credit]**Greek Art and Archaeology**

The art, architecture and archaeology of ancient Greece. Vase painting, sculpture, architecture, town planning and analogous arts. Also listed as ARTH 2102. Precludes additional credit for CLCV 2302 (no longer offered) and ARTH 2100 (no longer offered). Prerequisite(s): second-year standing or permission of the unit. Lecture three hours a week.

CLCV 2304 [0.5 credit]**Roman Art and Archaeology**

The art, architecture and archaeology of the ancient Romans. Vase painting, sculpture, architecture, town planning and analogous arts are studied. Also listed as ARTH 2105. Precludes additional credit for CLCV 2302 and ARTH 2100. Prerequisite(s): second-year standing or permission of the unit.

CLCV 2305 [1.0 credit]**Ancient Science and Technology**

The development and application of ancient science and technology in the fields of ancient engineering, machinery, metallurgy, transport, building, agriculture and Hippocratic medicine; the social position of craftsmen and artisans, the attitude of intellectuals to science and manual labour, the effects of slavery. Also listed as TSES 2305. Prerequisite(s): second-year standing or permission of the Department. This course is suitable for students with no previous knowledge of Greece or Rome. Lecture three hours a week.

CLCV 2500 [0.5 credit]**Classical Mythology**

A study of classical mythology, emphasizing its use in Greek and Roman literature and its place in classical art and religion. There is some discussion of classical myths in terms of contemporary interpretations of myth. Also listed as ENGL 2500. Precludes additional credit for CLCV 2000 and ENGL 2007 (no longer offered). Prerequisite(s): second-year standing or permission of the unit. Lecture three hours a week.

CLCV 2902 [0.5 credit]**History of Ancient Greece I**

The history of ancient Greece from the Bronze Age through the Archaic period. Also listed as HIST 2902. Precludes additional credit for CLCV 2900 and HIST 2900. Prerequisite(s): second-year standing or permission of unit. Lecture three hours a week.

CLCV 2903 [0.5 credit]**History of Ancient Greece II**

The history of ancient Greece from the classical period to Alexander. Also listed as HIST 2903. Precludes additional credit for CLCV 2900 and HIST 2900. Prerequisite(s): second-year standing or permission of the unit. Lecture three hours a week.

CLCV 2904 [0.5 credit]**History of Ancient Rome I**

The history of ancient Rome from early Rome to the end of the Republic. Also listed as HIST 2904. Precludes additional credit for CLCV 2901 and HIST 2901. Prerequisite(s): second-year standing or permission of the unit. Lecture three hours a week.

CLCV 2905 [0.5 credit]**History of Ancient Rome II**

The history of ancient Rome from the end of the Republic to the coming of Islam.

Also listed as HIST 2905.

Precludes additional credit for CLCV 2901 (no longer offered) and HIST 2901 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lecture three hours a week.

CLCV 2906 [0.5 credit]**Studies in Classical Civilization**

A study of a selected topic in ancient history, literature, languages, culture, archaeology and/or technology.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3000 [0.5 credit]**Topics in Ancient History**

A study of a selected topic in ancient history.

Also listed as HIST 3000.

Prerequisite(s): third-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3001 [0.5 credit]**Early Greek Philosophy**

A study of the pre-Socratic philosophers and of the Sophists and Socrates.

Also listed as PHIL 3001.

Prerequisite(s): CLCV 2105 or PHIL 2005 or permission of the Philosophy department.

Lectures three hours a week.

CLCV 3003 [0.5 credit]**Topics in Classical Civilization**

A study of a selected topic in classical civilization.

Prerequisite(s): third-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3010 [0.5 credit]**The Later Roman Empire**

The study of major developments - administrative, ecclesiastical, cultural and societal - of the later Roman Empire.

Also listed as HIST 3010.

Precludes additional credit for CLCV 3002 and HIST 3002.

Prerequisite(s): a 2000-level CLCV course.

Lecture three hours a week.

CLCV 3011 [0.5 credit]**Topics in Ancient Philosophy**

A study of philosophers, texts, problems and issues in ancient philosophy, generally with a focus on Plato and Aristotle.

Also listed as PHIL 3000.

Prerequisite(s): 0.5 credit in PHIL and second-year standing, or permission of the Philosophy department.

Lectures three hours a week.

CLCV 3201 [0.5 credit]**Studies in Greek History**

Study of a period or theme in Greek History.

Also listed as HIST 3009.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3202 [0.5 credit]**Studies in Roman History**

Study of a period or theme in Roman History.

Also listed as HIST 3101.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3215 [0.5 credit]**Ancient Greek Science**

The history of Greek physical science from the Presocratics to Ptolemy. (Field a or e).

Also listed as HIST 3215.

Precludes additional credit for HIST 2201 or HIST 3210 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lecture three hours a week.

CLCV 3301 [0.5 credit]**Field Work I: Greek and Roman World**

Students will participate for a minimum of three weeks on an archaeological field project (i.e., excavation or survey) relevant to the Greek and Roman world. They will learn archaeological documentation and the analysis, recording, and processing of finds.

Includes: Experiential Learning Activity

Also listed as ARCY 3301.

Prerequisite(s): CLCV 1008 and CLCV 1009 or CLCV 2300 and permission of the unit. Permission of the unit is required to repeat this course.

CLCV 3306 [0.5 credit]**Studies in Greek Art**

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year.

Also listed as ARTH 3102, RELI 3732.

Precludes additional credit for RELI 3731 and ARTH 3101 (no longer offered) and RELI 3306 (if taken summer 2005, summer 2006, summer 2007).

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3307 [0.5 credit]**Studies in Roman Art**

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year.

Also listed as ARTH 3105, RELI 3733.

Precludes additional credit for RELI 3731 and ARTH 3101 (no longer offered) and RELI 3306 (if taken summer 2005, summer 2006, summer 2007).

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3400 [0.5 credit]**Greek and Roman Studies Abroad**

This course combines academic study in Canada with first hand examination of museum collections and sites of the ancient world, normally in Greece and Italy. Course content varies from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): 1.0 credit in Greek and Roman Studies, any level (CLCV, GREK, or LATN. Permission of the unit is required to repeat this course.

Hours to be arranged.

CLCV 3701 [0.5 credit]**Studies in Greek Literature**

A study of an author or topic in Greek literature. Contents of this course vary from year to year.

Also listed as ENGL 3008.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) at second year level or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 3702 [0.5 credit]**Studies in Roman Literature**

A study of an author or topic in Roman literature.

Also listed as ENGL 3009.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) at second year level or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

CLCV 4000 [0.5 credit]**Field Work II: Greek and Roman World**

Students participate for a minimum of three weeks in a position of responsibility (for example, as a trench supervisor or lab assistant) on an archaeological field project relevant to the Greek and Roman world.

Includes: Experiential Learning Activity

Also listed as ARCY 4000.

Prerequisite(s): CLCV 3300 and permission of the unit.

Permission of the unit is required to repeat this course.

Field work

CLCV 4210 [0.5 credit]**Topics in Ancient History**

Intended for Honours students in History and Classics who should normally be in the third and fourth-years.

Includes: Experiential Learning Activity

Also listed as HIST 4210.

Prerequisite(s): CLCV 2902 (HIST 2902), CLCV 2903 (HIST 2903) or CLCV 2904 (HIST 2904), CLCV 2905 (HIST 2905) or CLCV 3201 or CLCV 3202 or permission of the unit.

Seminar three hours a week.

CLCV 4800 [0.5 credit]**Seminar in Greek and Roman Studies**

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Greek and Roman Studies B.A. program, or permission of the department.

Seminar three hours a week.

CLCV 4801 [0.5 credit]**Seminar in Greek and Roman Studies**

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Greek and Roman Studies B.A. program, or permission of the department.

Seminar three hours a week.

CLCV 4900 [0.5 credit]**Directed Readings and Research**

These courses consist of supervised readings and research projects in a specific area of Classical Civilization to be chosen in consultation with the Honours Supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing and permission of the unit.

Co-operative Education (COOP)

Co-op (COOP) Courses**COOP 1000 [0.0 credit]****Co-op Preparation**

This mandatory course introduces Co-op students to the Co-operative Education Program, job search, application, and interview processes while preparing students for the transition from university to a professional work environment. Graded SAT/UNSAT.

Prerequisite(s): Restricted to co-op students.

Online eight-week six-module course.

Cognitive Science (CGSC)

Cognitive Science (CGSC) Courses

CGSC 1001 [0.5 credit]

Mysteries of the Mind

Challenges faced in understanding the mind, and some of the approaches cognitive science has brought to bear on them. Topics may include the nature of knowledge, how we learn, the extent to which human thinking is rational, biases in thinking, and evolutionary influences on cognition.

Lectures three hours per week.

CGSC 1005 [0.5 credit]

Computational Methods in Cognitive Science

Introduction to computational methods, with an emphasis on programming. Topics and assignments will focus on applications in cognitive science. No prior computing experience required.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1005, COMP 1405.

Lecture three hours and tutorial one and a half hours a week.

CGSC 2001 [0.5 credit]

Theories in Cognitive Science

An integrated background of the discipline of Cognitive Science, with an historical overview (1940's onward) and examination of the extent to which the discipline has assimilated the collective knowledge of contributing disciplines (e.g., psychology, philosophy, linguistics, artificial intelligence and neuroscience).

Prerequisite(s): second-year standing and FYSM 1607 or CGSC 1001, or permission of the Department.

Lectures three hours a week.

CGSC 2002 [0.5 credit]

Methods in Cognitive Science

Selected topics in cognitive science covered from the perspectives of psychology, computer science, linguistics, philosophy, and other related disciplines. Students may be required to complete independent research projects.

Includes: Experiential Learning Activity

Prerequisite(s): CGSC 1001 or FYSM 1607, second year standing, or permission of the Department. Restricted to students enrolled in B.Cog.Sc. General or Honours.

Seminars and tutorials six hours per week.

CGSC 3004 [0.5 credit]

Philosophy and Cognitive Science

An examination of the significance and role of philosophy in cognitive science. Topics may include: philosophical methods for studying the mind, prospects for naturalizing consciousness and intentionality, assessing competing models of the mind.

Prerequisite(s): CGSC 2001 and PHIL 2501, and third-year standing.

Seminar three hours per week.

CGSC 3201 [0.5 credit]

Cognitive Processes

An examination of research findings on cognitive processes. Topics may include attention, speech perception, memory, intelligence, reasoning, learning, working memory, reading, and mathematics.

Prerequisite(s): third-year standing, and CGSC 2001 or PSYC 2700.

Seminar three hours per week.

CGSC 3301 [0.5 credit]

Language and Cognitive Science

Issues related to language and cognitive science are examined through a detailed consideration of selected topics.

Prerequisite(s): third-year standing, and CGSC 2001.

Seminar three hours per week.

CGSC 3501 [0.5 credit]

Cognitive Neuroscience

Issues related to the role of cognitive neuroscience research in cognitive science are examined through a detailed consideration of selected topics.

Prerequisite(s): third-year standing and CGSC 2001.

Seminar, three hours per week.

CGSC 3601 [0.5 credit]

Artificial Intelligence and Cognitive Science

An introduction to the contribution of artificial intelligence and computer modeling of cognitive processes to cognitive science.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 4001.

Prerequisite(s): third-year standing and CGSC 2002 and (CGSC 1005 or COMP 1005). Restricted to students enrolled in B.Cog.Sc. Honours.

Seminars and labs six hours per week.

CGSC 3908 [0.5 credit]

Honours Seminar in Cognitive Science

Major theories and empirical approaches within Cognitive Science are examined through a detailed consideration of selected topics. Students are required to complete independent research projects to prepare for their fourth-year honours theses.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 3001 (no longer offered) and CGSC 3002 (no longer offered).

Prerequisite(s): third year standing, CGSC 2001 and CGSC 2002, and enrolment in B. Cog. Sc. Honours with a CGPA in the major requirements of 8.0.

Seminars and tutorials six hours per week.

CGSC 3999 [0.0 credit]

Co-operative Work Term

Includes: Experiential Learning Activity

CGSC 4601 [0.5 credit]**Cognitive Modelling in Cognitive Science**

Introduction to the field of cognitive modelling. Different modelling systems and how to evaluate them against human data; how to create cognitive models using the ACT-R cognitive architecture.

Prerequisite(s): third year standing, CGSC 2001, and (CGSC 1005 or COMP 1005).

Also offered at the graduate level, with different requirements, as CGSC 5106, for which additional credit is precluded.

Seminar three hours per week, tutorial one and a half hours per week.

CGSC 4801 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest.

Normally students may not offer more than one credit of independent study in their total program (including independent study credits taken through other departments).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and permission of the Department.

CGSC 4802 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest.

Normally students may not offer more than one credit of independent study in their total program (including independent study credits taken through other departments).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and permission of the Department.

CGSC 4900 [0.5 credit]**Special Topics in Cognitive Science**

The topic of this course will vary from year to year. Students may register in more than one section of CGSC 4900 but may register in each section only once.

Prerequisite(s): each section will have its own prerequisites and permission of the department if is required.

Seminar three hours per week.

CGSC 4908 [1.0 credit]**Honours Thesis**

Interdisciplinary thesis. In developing a thesis, students must consult the Undergraduate Supervisor. Only the Undergraduate Supervisor can assign a supervisor or grant approval to register in this course. Faculty regulations governing Honours Research Essays and Honours Theses apply.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 4909.

Prerequisite(s): fourth year standing, CGSC 3908, and enrolment in B.Cog.Sc. Honours with a major CGPA of 8.0.

CGSC 4909 [1.0 credit]**Honours Project**

Interdisciplinary project. Students engage in one or more group research projects.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 4908.

Prerequisite(s): 4th year standing, enrolment in B. Cog. Sc. Honours.

Seminar

Communication and Media Studies (COMS)

Communication and Media Studies (COMS) Courses

COMS 1001 [0.5 credit]**Foundations in Communication and Media Studies**

An exploration of past and present media, patterns of change, and key approaches to their study.

Includes: Experiential Learning Activity

Precludes additional credit for COMS 1000, COMM 1101. Lecture and discussion groups.

COMS 1002 [0.5 credit]**Current Issues in Communication and Media**

An exploration of communication and media in relation to contemporary political, technological and cultural issues, with a focus on Canada.

Includes: Experiential Learning Activity

Precludes additional credit for COMS 1000, COMM 1101. Lecture and discussion groups.

COMS 2003 [0.5 credit]**Theoretical Foundations in Communication and Media Studies**

The development of communication theory in the context of major social, economic and cultural periods and events. Emphasis on the central debates and traditions that have shaped and defined the field.

Precludes additional credit for COMM 2101 (no longer offered) and COMM 2100 (no longer offered).

Prerequisite(s): COMS 1001 and COMS 1002, or JOUR 1001 and JOUR 1002, and second-year standing in Communication and Media Studies (including BGrNS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures and discussion groups three hours a week

COMS 2004 [0.5 credit]**Introduction to Communication Research**

Introduction to the scientific method as interpreted through major traditions in Communication and Media Studies. The course addresses the relationship between theory and evidence, research design, ethics and data management.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 2000 (no longer offered), COMM 2001 (no longer offered).

Prerequisite(s): COMS 1001 and COMS 1002, or JOUR 1001 and JOUR 1002, and second year standing in Communication and Media Studies (including BGrNS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

COMS 2200 [0.5 credit]**Big Data and Society**

How big data and small data shape society. Databases as a form of media. Topics may include: data policy and regulation, the politics and ethics of big data, data and decision-making, and data as discourse.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year standing or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2300 [0.5 credit]**Communication as Propaganda**

How business, government, and civil society actors have used media messages to persuade, influence, and manipulate the public. The impacts of propaganda on individuals and society, the roles of different media technologies in facilitating propaganda, and public resistance to propaganda.

Precludes additional credit for COMM 2301 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002 or PAMP 1000, and second-year standing in Communication and Media Studies (including BPAMP and BGrNS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2500 [0.5 credit]**Communication and Science**

How expert knowledge (particularly scientific, medical, and technical) is communicated in the public realm. Topics may include scientific advances and new technologies, health risks, environmental/ climate change, and cultural/ ideological positioning of science.

Prerequisite(s): second-year standing or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media including the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common-law limitations on freedoms of the press, including publication bans, libel and contempt of court.

Also listed as JOUR 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002 or PAMP 1000, and second-year standing in Communication and Media Studies (including BPAMP related specializations), or permission of the School of Journalism and Communication.

Lecture three hours a week.

COMS 2504 [0.5 credit]**Language and Communication**

Some of the central topics in the study of language and communication as pursued by linguists and philosophers, including the nature of meaning, the connections between language, communication and cognition, and language as a social activity.

Also listed as PHIL 2504, LING 2504.

Precludes additional credit for COMM 2504 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

COMS 2600 [0.5 credit]**Communication and Culture**

An introduction to the major industries, institutions, regulatory frameworks and key organizations responsible for cultural production in Canada.

Precludes additional credit for COMM 2401 (no longer offered), COMM 2601 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002, and second-year standing in Communication and Media Studies, or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2700 [0.5 credit]**Global Media and Communication**

An introduction to global media and communication, with an emphasis on debates about media power and expansion, digitalization, technology transfer, and societal implications/changes. Students will investigate historical and contemporary contexts of global and transnational communication through a variety of approaches and perspectives.

Precludes additional credit for COMM 3405/JOUR 3405 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002, and second-year standing in Communication and Media Studies (including BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3001 [0.5 credit]**Quantitative Research in Communication**

An introduction to basic statistical methods in media and communication studies.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3001 (no longer offered).

Prerequisite(s): COMS 2004, or PAPM 2000, and third-year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lecture and lab three hours a week.

COMS 3002 [0.5 credit]**Qualitative Research in Communication**

An introduction to interpretive methods in media and communication studies.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3002 (no longer offered).

Prerequisite(s): COMS 2004, or PAPM 2000, and third-year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

COMS 3100 [0.5 credit]**Introduction to Political Management**

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as POLM 3000, PSCI 3410.

Precludes additional credit for COMM 3100 (no longer offered).

Prerequisite(s): third-year standing.

Lectures three hours a week.

COMS 3108 [0.5 credit]**Media Industries and the Network Society**

Examines the theoretical frameworks and major issues and debates relating to media industries and institutions in Canada and internationally.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3108 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3109 [0.5 credit]**Communication, Culture and Identity**

Examines the relationship between media, communication, and identity categories. The course explores identity formation as a cultural phenomenon including questions of race, ethnicity, gender, class, and sexuality.

Precludes additional credit for COMM 3109 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3302 [0.5 credit]**Political Communication**

Examines the relationship between various kinds of communication and political activity in a variety of contexts. Case studies will be drawn from speeches, political campaigns, and debates, using a variety of media forms, from photographs to web sites.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3302 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3308 [0.5 credit]**Critical Studies in Advertising and Consumer Culture**

A critical analysis of major constructs and basic mechanisms of advertising, social marketing and other aspects of consumer culture. The course examines the social, political-economic and cultural implications of consumer culture.

Precludes additional credit for COMM 3301 (no longer offered) and COMM 3308 (no longer offered).

Prerequisite(s): third-year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures and discussion groups three hours a week.

COMS 3310 [0.5 credit]**Critical Perspectives of Public Relations**

A critical examination of key aspects of public relations, including histories of PR, media representations of PR, gender and public relations, and the role of PR in business, politics and civil society.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4304 (no longer offered).

Prerequisite(s): third-year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3311 [0.5 credit]**Media and Communication in Regional Contexts**

Provides a historical overview of the development of media technologies, and an understanding of the place of media within the political, regulatory, and legal activities of different international regions (e.g., Europe, Asia, Africa, Latin America, etc.).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3400 [0.5 credit]**Ethical Controversies in Media and Communication**

Explores ethical problems and controversies relating to research in media and communication. Focuses on rights and responsibilities of researchers and practitioners as relates to media consumers, producers, and professional communicators in an age when communication circulates quickly within and across borders and other boundaries.

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3401 [0.5 credit]**Communications Regulation in Canada**

Examines historical and contemporary issues in the regulation of communication practices and institutions in Canada.

Precludes additional credit for COMM 3401 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3403 [0.5 credit]**Communication, Technology and Culture**

Examines the relationship between communication technology and society, including factors that contribute to changes in the collection, storage and distribution of information and their cultural implications.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3403 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lecture three hours a week.

COMS 3404 [0.5 credit]**Music Industries**

An introduction to the structure and history of the music industries.

Also listed as MUSI 3403.

Precludes additional credit for COMM 3404 (no longer offered).

Prerequisite(s): second year standing.

Lectures three hours a week.

COMS 3406 [0.5 credit]**Media Audiences and Users**

Examines the role of audiences in contemporary media industries. Topics include history of audience studies, ratings and the audience commodity, active audience theory, and media fandom.

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3407 [0.5 credit]**Comparative Media Studies**

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as JOUR 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): Third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3410 [0.5 credit]**Visual Media and Communication**

Examines the central importance of visual imagery in contemporary media, culture and everyday life. Draws connections between historical/contemporary explanations of 'the visual,' and how texts and technologies reflect the context and cultural values of the environments that produce them, and the challenges for regulation.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3411 [0.5 credit]**Alternative Media and Social Activism**

Examines links between media and activism through the lens of past and present social movements and protest events. Addresses leading theories that help conceptualize various types of activist movements, with a focus on the role of media in shaping activist identity and political opportunity.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3412 [0.5 credit]**Communication and Health**

The concept of health as a sociocultural phenomenon; the many ways that health issues are communicated, defined, represented, and framed.

Prerequisite(s): third year standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3500 [0.5 credit]**Current Issues in Communication and Media Theory**

Examines theoretical debates and issues facing the field of Communication and Media Studies today.

Precludes additional credit for COMM 2101, COMM 2102 (no longer offered).

Prerequisite(s): COMS 2003 and third-year standing in Communication and Media Studies (including BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures and discussion groups three hours a week.

COMS 3800 [0.5 credit]**Special Topic in Communication and Media Studies**

A selected topic not ordinarily treated in the regular course program. The choice of topic varies from year to year. Check with the Communication and Media Studies program regarding the topic offered.

Prerequisite(s): third-year standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lecture three hours a week.

COMS 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

COMS 4004 [0.5 credit]**Communication and Discourse**

Examines the development of theory and methods related to discourse and its use in the analysis of images and texts.

Precludes additional credit for COMM 4004 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4006 [0.5 credit]**Professional Communication Research**

Students will work in a team-based environment to carry out empirical research in support of current faculty-led projects. In addition to learning advanced research techniques, students will develop project management and collaborative research skills.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4000 (no longer offered), COMM 4002 (no longer offered).

Prerequisite(s): COMS 3001 or COMS 3002, and fourth-year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Seminar three hours a week.

COMS 4305 [0.5 credit]**Media and Religion**

Critical examination of the ways religion mediates communicative practices, engages with media technologies, and is mediated in mainstream or popular culture. Topics may include: secularization and post-secularization; the politics of representation; religious organizations as communicative actors; fundamentalism.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4306 [0.5 credit]**Media and Conflict**

Media representations of conflict such as war and terrorism, and how they influence the collective imagination.

Precludes additional credit for COMM 4306 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4307 [0.5 credit]**Politics, Communication, and the Publicity State**

Examines the histories, key actors, issues and trends in political communication, including the shift of government communication from information to promotion, its reliance on publicity practices, issues and crisis management, and implications for democratic citizenship.

Precludes additional credit for COMM 4307 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4311 [0.5 credit]**Environmental Communication**

Examines environmental, animal, and earth observing media and pays special attention to the production of visual materials. The course explores the influence of media systems on the production, dissemination, and meaning of environmental observations and looks at sites of contemporary environmental contention.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4312 [0.5 credit]**Crisis and Risk Communication**

Examines crises and risks from the perspective of communication. The course explores the role of various media in shaping risk perceptions and constructions of crisis, the politics of crisis and risk management, symbolic dimensions in crisis construction, and ethical dilemmas.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4313 [0.5 credit]**Screen Studies**

Issues in the past, present and future of film, television and related media. Screens are examined as media that represent and shape values and culture, as technologies that are produced and purchased, and as objects that are regulated through policy.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4315 [0.5 credit]**Communication and the Built Environment**

How communication occurs in conjunction with the built environment, with special attention to cultural artefacts such as houses, schools, factories, prisons, office buildings, roads, parks, and the urban (and suburban) environment. Various models, theories, and philosophies of the built environment are considered.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4316 [0.5 credit]**Indigenous Media in Global Contexts**

Overview of Indigenous global media exploring film and film festivals, television networks, media arts, and the Internet. We will discuss struggles over mediated self-representation as well as debates over what constitutes Indigenous media relating to aesthetics, community affiliation, and identity.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4317 [0.5 credit]**Digital Media and Global Network Society**

Critical and institutional approaches to the expansion of digital media in the context of international media regulation, globalization, media concentration and ownership, and the global flows of networked communication and information.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth year Honours standing in Communication and Media Studies (including BPAPM and BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4337 [0.5 credit]**Communication and Public Affairs Strategies**

This hands-on course teaches students how to develop, design, and execute a public affairs strategy. Emphasis on understanding the interaction between public institutions and stakeholders and how effective public affairs strategies can be designed to help organizations achieve goals through public or opinion leader persuasion.

Includes: Experiential Learning Activity

Also listed as PAMP 4000.

Prerequisite(s): fourth-year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4401 [0.5 credit]**Global Internet Policy and Governance**

Public interest and policy battles over critical internet resources and implications for development of the internet, citizens' rights and freedoms, the economy, and democratic culture; common carriage, privacy, security and surveillance, access, speech rights, and diversity of information sources.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4401 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM and BGLnS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4403 [0.5 credit]**Digital Media Industries**

Key approaches to the study of media as industries and how economics, markets and technologies intersect with social choices, politics and power to shape how decisions are made about the design, ownership, organization and control of media.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4403 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4405 [0.5 credit]**The Networked Self**

How notions of identity are changing as we conduct our lives through networked media and communication such as social media, online search, the Internet of Things, and wearable devices. Subjectivity, personhood, posthumanism, algorithmic control, and privacy.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4406 [0.5 credit]**Open Government and Communication**

The contemporary open government movement; how communication can be used to improve governance and to foster a more collaborative relationship between governments and citizens. Access to information, the challenges of open data, expectations of transparency, and models of citizen engagement/consultation.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year Honours standing in Communication and Media Studies (including BPAPM and BGLnS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4407 [0.5 credit]**Communication and Critical Data Studies**

Theoretical perspectives, ethical problems, and contemporary issues relevant to communication and data studies. Students will critically examine the rise of 'big data' and 'datafication' as socio-technical phenomena that have become a crucial part of our communication landscape.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4408 [0.5 credit]**Creative Work**

Contemporary trends affecting creative work in cultural industries. How careers in the arts, culture and media are increasingly desirable as a way for individual workers to find personal fulfillment and as a means of reinvigorating post-industrial economies.

Prerequisite(s): fourth-year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4410 [0.5 credit]**Mobile Media**

Critical examination of the history, development, and expansion of mobile media and its impact on culture, connectivity, and practice; locative media practices, geo-coding, wireless communication, mobile technologies, and user experience in everyday life.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4411 [0.5 credit]**Algorithmic Culture**

The ways in which computerized algorithms engage in the traditional work of culture: the sorting, classifying, and hierarchizing of people, places, objects, and ideas to produce new habits of thought, conduct, expression, and material outcomes.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4412 [0.5 credit]**Game Studies**

Games as media. The history of gaming and mediated play in terms of technology and form, industry, labour, gender and subcultural practice.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4501 [0.5 credit]**Digital Media Production**

This workshop introduces practice-based tools and techniques relevant in contemporary professional communication, such as basic web development, podcasting, and digital photography.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4502 [0.5 credit]**Storytelling in the Digital Age**

In this workshop students learn to write compelling stories for the digital age. They engage with examples of great storytelling across print and online platforms, from magazines and newspapers to blogs and podcasts, to gain a deeper understanding of what makes some stories stand out.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4503 [0.5 credit]**Visualizing Social Media: Hashtags, keywords, & conversations**

This workshop introduces a range of methods and practices in data mining and analytics. Techniques include data and text mining, data analysis (including sentiment and social network analysis), data visualization and modeling. Opportunity to work with analytics and mapping software on students' own projects.

Includes: Experiential Learning Activity

Prerequisite(s): COMS 3001 and fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4504 [0.5 credit]**Engaging the Public: Stakeholders, participation & consultation**

This workshop introduces the challenges of conceptualizing and conducting public consultations. This includes audience or participant selection, a range of consultation techniques and formats, marketing and communication, analysis, as well as an awareness of policies and regulations governing consultations.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4505 [0.5 credit]**Professional Writing and Speaking**

In this workshop students develop skills in professional written communication, such as press releases, blogs, op-eds, policy briefs, and speeches. Students will also hone their public speaking skills presenting their written work in different formats.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4506 [0.5 credit]**Event Management and Community Partnerships**

This workshop introduces the stages of event management for potential community partners. This includes conceptualization, marketing and sponsorships, production and financing, to risk management.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4602 [0.5 credit]**Children, Youth and Media**

Historical and contemporary ways in which children and youth relate to the media and popular culture.

Precludes additional credit for COMM 4602 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4603 [0.5 credit]**Diaspora and Communication**

The impact of various forms of diasporic communication on the shaping of contemporary national and international society.

Precludes additional credit for COMM 4603 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4604 [0.5 credit]**Media, Gender and Sexuality**

Critical examination of the intersection of media and gender, including constructions of femininity, masculinity, and other issues of sexuality.

Precludes additional credit for COMM 3601 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4605 [0.5 credit]**Media, Race and Ethnicity**

Critical examination of how issues of race and ethnicity intersect with contemporary media.

Precludes additional credit for COMM 3602 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4606 [0.5 credit]**Global Media and Popular Culture**

Key theories and concepts that have shaped the study of global media and its impact on popular cultures around the world.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4607 [0.5 credit]**Communication and Food**

Food in and as communication. Food and identity, food and culture, food environments, food systems, food politics, and food and community development.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4608 [0.5 credit]**Sound Studies**

How hearing and listening practices have changed over time, and the role of sound technology in shaping our understanding of each other, our world, and ourselves.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies, or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4800 [0.5 credit]**Special Topic in Communication and Media Studies**

A selected topic not ordinarily treated in the regular course program. The choice of topic varies from year to year. Check with the Communication and Media Studies program regarding the topic offered.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4908 [1.0 credit]**Honours Research Essay**

The Honours Research Essay (HRE) provides eligible students with an opportunity to complete an independent research essay under the supervision of a faculty member. The HRE must be completed over two consecutive academic terms, beginning in the fall term.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4908 (no longer offered).

Prerequisite(s): fourth year honours standing in Communication and Media Studies (including BGIInS related specializations), with a CGPA of 10.0 or higher, or permission of the Undergraduate Supervisor.

Unscheduled.

Communication Courses for Disciplines and Professions (CCDP)

Communication Courses for Disciplines and Professions (CCDP) Courses

CCDP 2000 [0.5 credit]**Communication Skills for Computer Science Students**

Development of competence in written and oral communication in computer science. Focus on professional written documents (reports, technical descriptions, manuals, proposals, memos, letters) and related oral work (oral communication in university and workplace settings). Attendance and participation are compulsory.

Precludes additional credit for ALSS 2000.

Prerequisite(s): enrolment in Bachelor of Computer Science and successful completion of all ESLR requirements. This course may not be taken concurrently with any ESLA course.

Lectures and tutorials three hours a week.

CCDP 2004 [0.5 credit]**Communication Skills for NET**

Development of competence in written and oral communication in relation to network design, development, and management. Focus on technical reports, proposals, and other related project documents; formal and informal oral presentations.

Includes: Experiential Learning Activity

Precludes additional credit for NET 2004 (no longer offered).

Prerequisite(s): restricted to students with second-year standing in the B.I.T. degree program.

Lecture and tutorial three hours a week.

CCDP 2100 [0.5 credit]**Communication Skills for Engineering Students**

Development of competence in written and oral communication in engineering. Focus on professional written documents (proposals, technical explanations, research reports, summaries); written responses to engineering communications; related oral work.

Attendance and participation are compulsory.

Includes: Experiential Learning Activity

Prerequisite(s): enrolment in Bachelor of Engineering and successful completion of all ESLR requirements.

This course may not be taken concurrently with any ESLA course. Not repeatable for credit when successfully completed with a grade of C or higher.

Seminars three hours a week.

CCDP 3003 [0.5 credit]**Communication Skills for IMD**

Development of competence in written and oral communication related to multimedia design. Needs analyses, use-case scenarios, development and management of content, technical reports, and related project documents; oral presentations.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 3003 (no longer offered).

Prerequisite(s): restricted to students with third-year standing in the B.I.T. degree program.

Lecture and tutorial three hours a week.

CCDP 3006 [0.5 credit]**Communication Skills for IRM**

Development of competence in written and oral communication in relation to information resource management. Focus on reports, proposals, technical documentation and other related project documents. Also covers formal and informal oral presentations.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students with third-year standing in the B.I.T. degree program.

Lecture and tutorial three hours a week.

CCDP 3008 [0.5 credit]**Communication Skills for OSS**

Development of competence in written and oral communication. Focus on technical reports, proposals, and other related project documents; formal and informal oral presentations.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3008.

Prerequisite(s): enrolment in B.I.T. and successful completion of all ESLR requirements. This course may not be taken concurrently with any ESLA course. Not repeatable for credit when successfully completed with a grade of C or higher.

Seminars three hours a week.

Computer Science (COMP)

Computer Science (COMP) Courses**Notes:**

1. Some of the following Computer Science courses are cross-listed from other parts of the Calendar. In every such case, only one course is actually offered and the two numbers are alternate identifiers for this single course. Students in the B.C.S. program should register in such a course under the Computer Science (COMP) number.

COMP 0999 [0.0 credit]**COMP Matters****COMP 1001 [0.5 credit]****Introduction to Computational Thinking for Arts and Social Science Students**

An introduction to computational thinking and its applications to the arts and social sciences. Students will gain computational thinking skills by exploring data representation, basic programming concepts, a selection of algorithms, and advanced usage of software packages for the arts and social sciences.

Precludes additional credit for COMP 1004 (no longer offered). This course cannot be taken for credit by students in Business, Engineering, Computer Science, Mathematics or Science.

Lectures three hours a week.

COMP 1005 [0.5 credit]**Introduction to Computer Science I**

A first course in programming, emphasizing problem solving and computational thinking. Topics include pseudocode, variables, conditionals, iteration, arrays, objects, functions, sorting, searching, and simulation.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1405, ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, SYSC 1005, SYSC 1100 (no longer offered), CGSC 1005, BIT 1400.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1006 [0.5 credit]**Introduction to Computer Science II**

A second course in programming emphasizing problem solving and computational thinking in an object-oriented language. Topics include abstraction, mutable data structures, methods, inheritance, polymorphism, recursion, program efficiency, testing and debugging.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2402, COMP 1406, SYSC 1101 (no longer offered), SYSC 2004, BIT 2400.

Prerequisite(s): one of COMP 1005, COMP 1405, ECOR 1051, ECOR 1606, SYSC 1005, BIT 1400, CGSC 1005.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1405 [0.5 credit]**Introduction to Computer Science I**

A first course in programming for B.C.S. students emphasizing problem solving and computational thinking. Topics include pseudocode, variables, conditionals, iteration, arrays, objects, functions, sorting, searching, and simulation.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1005, ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, SYSC 1005, SYSC 1100 (no longer offered), CGSC 1005, BIT 1400.

Prerequisite(s): restricted to students registered in the B.C.S. program, combined Honours in Computer Science and Mathematics, Honours Computer Mathematics, and Honours Computer Statistics.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1406 [0.5 credit]**Introduction to Computer Science II**

A second course in programming for BCS students, emphasizing problem solving and computational thinking in an object-oriented language. Topics include abstraction, mutable data structures, methods, inheritance, polymorphism, recursion, program efficiency, testing and debugging.

Precludes additional credit for COMP 1006, SYSC 1101 (no longer offered), SYSC 2004, BUSI 2402, BIT 2400.

Prerequisite(s): one of COMP 1405, COMP 1005, ECOR 1051, ECOR 1606, SYSC 1005, BIT 1400, CGSC 1005. Restricted to students registered in the B.C.S. program, combined Honours in Computer Science and Mathematics, Honours Computer Mathematics, and Honours Computer Statistics.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1501 [0.5 credit]**Introduction to Computer Game Design**

Introduction to computer game programming interfaces. Topics may include: game balance and level design; storytelling and narrative; basic game architecture; sprite-based games and isometric games; representation of scenes; user interaction; architecture of game consoles; development tools for game consoles; interaction with game peripherals.

Prerequisite(s): one of COMP 1405, COMP 1005, ECOR 1051, ECOR 1606, SYSC 1005.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1601 [0.5 credit]**Introduction to Mobile Application Development**

Introduction to developing mobile applications using the Mac OS X platform. Topics include: the Objective-C programming language; development tools; framework API's; and the Quartz graphic system. Extensive practical experience with development for Apple mobile devices such as the iPhone.

Includes: Experiential Learning Activity

Prerequisite(s): one of COMP 1405, COMP 1005, ECOR 1051, ECOR 1606, SYSC 1005.

Lecture/lab four hours a week.

COMP 1805 [0.5 credit]**Discrete Structures I**

Introduction to discrete mathematics and discrete structures. Topics include: propositional logic, predicate calculus, set theory, complexity of algorithms, mathematical reasoning and proof techniques, recurrences, induction, finite automata and graph theory. Material is illustrated through examples from computing.

Includes: Experiential Learning Activity

Also listed as MATH 1805.

Precludes additional credit for MATH 1800.

Prerequisite(s): one Grade 12 university preparation mathematics course.

Lectures three hours a week, tutorial one hour a week.

COMP 1910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. This course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): Permission of the School and registration in internship option.

COMP 1911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the BCS.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1910 and registration in internship option.

COMP 2401 [0.5 credit]**Introduction to Systems Programming**

Introduction to system-level programming with fundamental OS concepts, procedures, primitive data types, user-defined types. Topics may include process management, memory management, process coordination and synchronization, inter-process communication, file systems, networking, pointers, heap and stack memory management, and system/library calls.

Precludes additional credit for COMP 1002 (no longer offered), COMP 1402 (no longer offered), COMP 2001 (no longer offered), SYSC 2006.

Prerequisite(s): one of COMP 1406, COMP 1006 or SYSC 2004, with a minimum grade of C-.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 2402 [0.5 credit]**Abstract Data Types and Algorithms**

Introduction to the design and implementation of abstract data types and to complexity analysis of data structures.

Topics include: stacks, queues, lists, trees and graphs. Special attention is given to abstraction, interface specification and hierarchical design using an object-oriented programming language.

Precludes additional credit for COMP 2002 (no longer offered), SYSC 2002 (no longer offered), SYSC 2100.

Prerequisite(s): one of COMP 1406, COMP 1006, SYSC 2004, with a minimum grade of C-.

Lectures three hours a week.

COMP 2404 [0.5 credit]**Introduction to Software Engineering**

Introduction to object-oriented software development, with emphasis on design and implementation of medium-sized programs. Topics include abstraction, modularity, encapsulation, reusability, and design patterns.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2004 (no longer offered), SYSC 3010, SYSC 3110.

Prerequisite(s): COMP 2401.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 2406 [0.5 credit]**Fundamentals of Web Applications**

Introduction to Internet application development; emphasis on computer science fundamentals of technologies underlying web applications. Topics include: scripting and functional languages, language-based virtual machines, database query languages, remote procedure calls over the Internet, and performance and security concerns in modern distributed applications.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2005 (no longer offered), COMP 2006 (no longer offered), COMP 2405 (no longer offered).

Prerequisite(s): one of COMP 1006, COMP 1406, SYSC 2004, with a minimum grade of C-.

Lectures three hours a week and tutorial one and a half hours a week.

COMP 2501 [0.5 credit]**Computer Game Design and Development**

Topics may include: user interaction in multiplayer games, representation of animated scenes, tools for game character development, special effects, sound programming, game AI, motion planning and control, collision detection and physics, digital rights management.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1104, COMP 1501, and COMP 2401.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 2601 [0.5 credit]**Mobile Applications**

Development of applications for mobile environments taking advantage of gesture-based input and using location and presence services. Topics include introduction to low-level network services and mobile platforms, description of architectural patterns, principles of mobile development and interaction styles for network service usage.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1601.

Lecture/lab four hours a week.

COMP 2801 [0.5 credit]**Introduction to Robotics**

An introduction to the field of mobile robots and their applications from a computer science perspective.

The course will discuss common robot programming architectures and strategies. Students will build various robot configurations and experiment with a variety of sensors using behavior-based programming.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1807 (no longer offered).

Prerequisite(s): one of COMP 1406, COMP 1006 or SYSC 2004 with a minimum grade of C-.

Lab four hours a week.

COMP 2804 [0.5 credit]**Discrete Structures II**

A second course in discrete mathematics and discrete structures. Topics include: counting, sequences and sums, discrete probability, basic statistics, recurrence relations, randomized algorithms. Material is illustrated through examples from computing.

Prerequisite(s): COMP 1805 with a minimum grade of C-, or permission of the School of Computer Science.

Lectures three hours a week.

COMP 2910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1911 and registration in internship option.

COMP 2911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the BCS.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 2910 and registration in internship option.

COMP 3000 [0.5 credit]**Operating Systems**

Operating system implementation course stressing fundamental issues in design and how they relate to modern computer architectures. Assignments involve the modification and extension of a multitasking operating system.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3001 (no longer offered), SYSC 4001.

Prerequisite(s): COMP 2401, and one of COMP 2402, SYSC 2100.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 3002 [0.5 credit]**Compiler Construction**

The structure, organization and design of the phases of a compiler are considered: lexical translators, syntactical translators, scope handlers, type checkers, code generators and optimizers. Components of a compiler will be implemented.

Prerequisite(s): one of COMP 2402, SYSC 2100.

Lectures three hours a week.

COMP 3004 [0.5 credit]**Object-Oriented Software Engineering**

Development of object-oriented software systems: theory and practice. Topics include: Computer ethics, software development processes, requirement specification, class and scenario modeling, state modeling, UML, design patterns, traceability. Students are to complete a team project.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3020, SYSC 3100 (no longer offered), SYSC 3120, SYSC 4120, SYSC 4800 (no longer offered).

Prerequisite(s): COMP 2401, one of COMP 2404, SYSC 3010, SYSC 3110 and COMP 2406 or SYSC 4504.

Lectures three hours a week.

COMP 3005 [0.5 credit]**Database Management Systems**

Introduces students to concepts of database management systems, database design and file structures. Topics include: entity-relationship modeling and object oriented database design, data models (relational, network and object oriented), the relational algebra, SQL, normalization theory, physical data organization, object oriented databases and OQL.

Precludes additional credit for BUSI 3400.

Prerequisite(s): COMP 1805 or MATH 1800 with a minimum grade of C-, plus: COMP 2402 or (SYSC 2004 and SYSC 2100).

Lectures three hours a week.

COMP 3007 [0.5 credit]**Programming Paradigms**

An introduction to alternative programming paradigms such as functional, constraint-based, concurrent, and logic programming.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3101.

Prerequisite(s): COMP 1805 with a minimum grade of C-, and either COMP 2402 or both of SYSC 2004 and SYSC 2100.

Lectures three hours a week.

COMP 3008 [0.5 credit]**Human-Computer Interaction**

Fundamentals of the underlying theories, design principles, development and evaluation practices of human-computer interaction (HCI). Topics may include: theories of interaction, user interface frameworks, desktop, web, mobile, and immersive applications, usability inspection and testing methods, and qualitative and quantitative approaches to HCI research.

Prerequisite(s): one of COMP 2404, SYSC 3010, SYSC 3110 and COMP 2406 or SYSC 4504.

Lectures three hours a week.

COMP 3009 [0.5 credit]**Computer Graphics**

An overview of computer graphics covering rendering, modeling, and animation. Topics include geometric primitives and modeling; image formation algorithms such as ray tracing and the Z-buffer; lighting, shading, and texture; and introduction to physics-based animation and character animation.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 2401, COMP 2402, MATH 1007, and MATH 1104.

Lectures/lab four hours a week.

COMP 3203 [0.5 credit]**Principles of Computer Networks**

This is an introductory course to the field of Network Computing. Topics include: Protocol Architectures and Internetworking, Types of Networks, Communication Protocols, End-System and Network Traffic Management, Structure of Routing and Congestion Control.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4602.

Prerequisite(s): COMP 2401, and one of COMP 2402, SYSC 2100.

Lectures three hours a week.

COMP 3301 [0.5 credit]**Technical Writing for Computer Science**

Technical communication for computer science majors, concentrating on writing scientific papers and technical reports. Principles of clarity and precision in writing and communication. Practical exercises and readings from recent technical publications will be used.

Prerequisite(s): COMP 2402 and COMP 2404.

Lectures three hours a week.

COMP 3308 [0.5 credit]**Bioinformatics**

This practical interdisciplinary course will provide a broad overview of bioinformatics in which computer science and mathematics are applied to solve problems in molecular biology. Topics include gene prediction, sequence alignment, phylogeny, molecular interactions, macromolecular structure prediction and biological databases.

Includes: Experiential Learning Activity

Also listed as BIOC 3008 and BIOL 3008.

Prerequisite(s): BIOC 2200 or BIOL 2200, or permission of the Biochemistry Institute.

Lecture two hours a week, computer workshop three hours a week.

COMP 3400 [0.5 credit]**Computational Logic and Automated Reasoning**

Applications of formal logic in computer science. Symbolic logics such as classical predicate calculus are used to represent domain knowledge, to model computational problems and to solve them by means of automated reasoners. Applications include artificial intelligence, software engineering, data management and hardware verification.

Prerequisite(s): COMP 2804.

Lectures three hours a week.

COMP 3501 [0.5 credit]**Foundations of Game Programming and Computer Graphics**

Mathematical concepts of 3D engines. Topics may include: illumination and visibility determination; quaternions; homogeneous coordinates; transforms; ray tracing; bump mapping; portal systems; polygonal techniques; shadows; and linear and rotational physics.

Prerequisite(s): one of COMP 2402, SYSC 2100, and one of COMP 2404, SYSC 3010, SYSC 3110, and COMP 2501.

Lectures three hours a week.

COMP 3801 [0.5 credit]**Algorithms for Modern Data Sets**

Algorithm design techniques for modern data sets arising in, for example, data mining, web analytics, epidemic spreads, search engines and social networks. Topics may include streaming, memory hierarchy aware, game theoretic, parallel, distributed, cloud-based, and probabilistic algorithms.

Prerequisite(s): COMP 2804 with a minimum grade of B+.

Lecture three hours a week.

COMP 3803 [0.5 credit]**Introduction to Theory of Computation**

Theoretical aspects of computer science. Topics include: formal languages and automata theory, computability theory.

Precludes additional credit for COMP 2805 (no longer offered).

Prerequisite(s): COMP 2804.

Lectures three hours a week.

COMP 3804 [0.5 credit]**Design and Analysis of Algorithms I**

An introduction to the design and analysis of algorithms. Topics include: divide-and-conquer, dynamic programming, linear programming, greedy algorithms, graph algorithms, NP-completeness.

Also listed as MATH 3804.

Prerequisite(s): one of COMP 2402 or SYSC 2100, and either COMP 2804 or both of MATH 2007 and MATH 2108 or equivalents.

Lectures three hours a week.

COMP 3805 [0.5 credit]**Discrete Structures and Applications (Honours)**

Enumeration: inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes. Designs and finite geometries. Symmetry and counting.

Also listed as MATH 3855.

Precludes additional credit for MATH 3805 (no longer offered) and MATH 3825.

Prerequisite(s): MATH 2100 or a grade of B or higher in MATH 2108 or MATH 3101.

Lectures three hours a week and one hour tutorial.

COMP 3807 [0.5 credit]**Mathematical Software**

Incorporation of basic numerical methods into efficient, reliable software. The course includes examination of existing software systems, e.g. linear systems, non-linear systems, optimization, or differential equations.

Includes: Experiential Learning Activity

Also listed as MATH 3807.

Prerequisite(s): A grade of C- or higher in COMP 3806 or MATH 3806.

COMP 3910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 2911 and registration in internship option.

COMP 3911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 3910 and registration in internship option.

COMP 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

COMP 4000 [0.5 credit]**Distributed Operating Systems**

An advanced course emphasizing the principles of distributed operating systems including networking protocols, distributed file systems, remote IPC mechanisms, graphical user interfaces, load balancing, and process migration. Case studies include current "standards" as well as novel systems under development.

Includes: Experiential Learning Activity

Prerequisite(s): one of COMP 3203 or SYSC 4602, and one of COMP 3000 or SYSC 4001.

Lectures three hours a week.

COMP 4001 [0.5 credit]**Distributed Computing**

Overview of distributed computing. Topics include: computational models, communication complexity, design and analysis of distributed algorithms and protocols, fault-tolerant protocols, synchronous computations. Applications may include: communication in data networks, control in distributed system (e.g., election, distributed mutual exclusion), manipulation of distributed data (e.g., ranking).

Prerequisite(s): COMP 1805 with a minimum grade of C-, COMP 2401 and COMP 2406 or SYSC 4504.

Lectures three hours a week.

COMP 4002 [0.5 credit]**Real-Time 3D Game Engines**

The design and implementation of game engines for real-time 3D games including topics such as camera control, environmental effects, articulated models, terrain, vegetation, collision detection, particles, emitters, triggers, portals, waypoints, mirrors, and shadows.

Prerequisite(s): one of COMP 2404, SYSC 3010, SYSC 3110.

Lectures three hours a week.

COMP 4003 [0.5 credit]**Transaction Processing Systems**

Concepts and architectures of transaction processing systems and on-line transaction processing, with emphasis on data integration systems. Transaction properties and models, embedded-SQL, active rules, consistency maintenance, serializability, concurrency control, recovery, data integration systems and federated databases, introduction to transactions in web services and workflow systems.

Prerequisite(s): COMP 3005 and one of COMP 2404, SYSC 3010, SYSC 3110.

Lectures three hours a week.

COMP 4004 [0.5 credit]**Software Quality Assurance**

Introduction to the theory and practice of Software Quality Assurance. Topics include: functional requirements analysis, system requirement analysis, verification and validation, traceability, white box testing, integration testing, object-oriented testing, tools, and management issues.

Precludes additional credit for SYSC 4101.

Prerequisite(s): COMP 3004.

Lectures three hours a week.

COMP 4009 [0.5 credit]**Programming for Clusters and Multi-Core Processors**

Introduction to parallel architectures, programming languages and algorithms for processor clusters and multi-core processors. Distributed memory architectures, cluster computing, message passing parallel programming, multi-core processors, shared memory parallel programming, use of thread libraries, parallel performance analysis.

Prerequisite(s): COMP 2804, and one of COMP 2402, SYSC 2100, and one of COMP 2404, SYSC 3010, SYSC 3110.

Lectures three hours a week.

COMP 4102 [0.5 credit]**Computer Vision**

The basic ideas and techniques of computer vision.

The central theme is reconstructing 3D models from 2D images. Topics include: image formation, image feature extraction, camera models, camera calibration, structure from motion, stereo, recognition, augmented reality, image searching.

Prerequisite(s): one of MATH 1104 or MATH 1107, and one of COMP 2404, SYSC 3010, SYSC 3110.

Lectures three hours a week.

COMP 4106 [0.5 credit]**Artificial Intelligence**

Several areas in knowledge-based systems are covered, including recent approaches to machine learning and data mining, inference methods, knowledge-based and fuzzy systems, heuristic search, and natural language processing.

Prerequisite(s): COMP 2804, one of COMP 2404, SYSC 3010, SYSC 3110 and one of COMP 2402, SYSC 2100.

Lectures three hours a week.

COMP 4107 [0.5 credit]**Neural Networks**

Theory and application of neural networks to problems in machine learning. Topics include: biological models, perceptron and other neuron types, feed forward and recurrent architectures, learning algorithms and applications in pattern recognition and sequence prediction.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 2804, one of COMP 2404, SYSC 3010, SYSC 3110 and one of MATH 1104 or MATH 1107.

Lectures three hours a week.

COMP 4108 [0.5 credit]**Computer Systems Security**

Introduction to information security in computer and communications systems, including network, operating systems, web and software security; Passwords, authentication applications, privacy, data integrity, anonymity, secure email, IP security, security infrastructures, firewalls, viruses, intrusion detection, network attacks.

Precludes additional credit for SYSC 4810.

Prerequisite(s): one of COMP 3203 or SYSC 4602, and one of COMP 3000, SYSC 3001, SYSC 4001.

Lectures three hours a week, tutorials one and a half hours a week.

COMP 4109 [0.5 credit]**Applied Cryptography**

Practical aspects of cryptography. Pseudo random number generation, symmetric cryptography (stream and block ciphers), modes of operation, hash functions, message and entity authentication protocols, zero knowledge, pitfalls deploying public-key encryption and digital signatures, key distribution, secret-sharing.

Prerequisite(s): one of COMP 2402 or SYSC 2100 and COMP 2804.

Lectures three hours a week.

COMP 4111 [0.5 credit]**Data Management for Business Intelligence**

Application of computational techniques to support business activities, such as decision making, business understanding, data analysis, business process automation, learning from data, producing and using data-centric business models, ontology-based data access and integration, data quality assessment and cleaning and use of contextual data.

Prerequisite(s): COMP 3005.

Also offered at the graduate level, with different requirements, as COMP 5111, for which additional credit is precluded.

Lectures three hours a week.

COMP 4202 [0.5 credit]**Computational Aspects of Geographic Information Systems**

Through recent advances in navigation systems, mobile devices, and new software such as Mapquest and Google Earth, GIS is becoming increasingly important and exciting from a CS perspective. This course lays the algorithmic foundations to understand, use and further this technology.

Prerequisite(s): COMP 3804 or equivalent.

Also offered at the graduate level, with different requirements, as COMP 5204, for which additional credit is precluded.

Lecture three hours a week.

COMP 4203 [0.5 credit]**Wireless Networks and Security**

An introduction to wireless networks covering both networking issues and security aspects of modern wireless environments. Fundamentals of mobile LANs, ad hoc, sensor networks, secure routing, searching, clustering, multicasting, localization, mobile IP/TCP, confidentiality, key establishment, authentication, broadcasting, RFIDs, and rogue attacks.

Prerequisite(s): COMP 3203 or SYSC 4602.

Lectures three hours a week.

COMP 4206 [0.5 credit]**Evolving Information Networks**

Convergence of social and technological networks. Interplay between information content, entities creating it and technologies supporting it. Structure and analysis of such networks, models abstracting their properties, techniques link analysis, search, mechanism design, power laws, cascading, clustering and connections with work in social sciences.

Prerequisite(s): COMP 2401, and one of COMP 1805, MATH 1805, and one of COMP 2406, SYSC 4504.

Also offered at the graduate level, with different requirements, as COMP 5310, for which additional credit is precluded.

Lecture three hours a week.

COMP 4308 [0.5 credit]**Computational Systems Biology**

Modeling and simulation of metabolic and regulatory networks towards understanding complex and highly dynamic cellular systems. Biotechnological applications include metabolic engineering, synthetic biology, and drug discovery.

Includes: Experiential Learning Activity

Also listed as BIOC 4008.

Prerequisite(s): BIOC 3101 or permission of the Biochemistry Institute.

Lecture one and a half hours per week, workshop one and a half hours per week.

COMP 4501 [0.5 credit]**Advanced Facilities for Real-Time Games**

A practical course on advanced facilities of game engines. Such facilities include notions such as physics engines, shadow mapping, lighting with thousands of lights, relief mapping, ambient occlusion, water flow, deferred rendering, occlusion culling, water effects, mirrors, and screen space reflection.

Prerequisite(s): COMP 3501.

Lectures three hours a week.

COMP 4601 [0.5 credit]**Intelligent Web-based Information Systems**

Introduction to the principles and practice of creation, delivery and analysis of multimedia content in web-based systems. Topics include analysis of webs of documents, social network analysis, recommender systems and problems of trust, reputation and influence in e-commerce systems.

Includes: Experiential Learning Activity

Prerequisite(s): one of COMP 2601, COMP 2406, SYSC 4504, and one of COMP 2404, SYSC 3010, or SYSC 3110.

Lecture/lab four hours a week.

COMP 4602 [0.5 credit]**Social Networking**

Introduction to virtual communities, overlay networks and social networking. Topics include architectural principles for heterogeneous social networking platforms, trust and reputation as social concepts, agent-based computing, and extraction of trends and patterns from information exchanged between community members.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3601.

Prerequisite(s): COMP 2601, or one of COMP 2404, SYSC 3010, SYSC 3110, and COMP 2406 or SYSC 4504.

Lectures/labs four hours per week.

COMP 4803 [0.5 credit]**Computable Functions**

Recursive functions and computability, algorithms, Church's thesis, Turing machines, computational logic, NP-completeness.

Also listed as MATH 4803.

Prerequisite(s): MATH 2100 or COMP 3805 or permission of the School.

COMP 4804 [0.5 credit]**Design and Analysis of Algorithms II**

A second course on the design and analysis of algorithms. Topics include: advanced recurrence relations, algebraic complexity, advanced graph algorithms, amortized analysis, algorithms for NP-complete problems, randomized algorithms.

Prerequisite(s): COMP 3804 or permission of the School.

Lectures three hours a week.

COMP 4805 [0.5 credit]**Theory of Automata**

Finite automata and regular expressions, properties of regular sets, context-free grammars, pushdown automata, deterministic context-free languages. Turing machines, the Chomsky hierarchy. Undecidability, intractable problems. Also listed as MATH 4805.

Precludes additional credit for MATH 5605.

Prerequisite(s): COMP 3805 or MATH 3106 or MATH 3158 (or MATH 3100) or permission of the School.

Lectures three hours a week.

COMP 4806 [0.5 credit]**Numerical Linear Algebra**

Study of matrix inversion techniques; techniques of finding eigenvalues and eigenvectors, solution of systems of linear equations; direct and indirect methods, their comparison and error analysis; applications in optimization and other areas.

Also listed as MATH 4806.

Prerequisite(s): MATH 2152 or MATH 1102 (no longer offered) or MATH 2107; and MATH 2000 and COMP 3806, or permission of the School.

Lectures three hours a week.

COMP 4900 [0.5 credit]**Advanced Topics in Computer Science**

Selected topics in Computer Science offered by members of the School of Computer Science.

Prerequisite(s): permission of the School of Computer Science.

Lectures three hours a week and up to three hours of tutorials a week.

COMP 4901 [0.5 credit]**Directed Studies**

Independent study under the supervision of a member of the School of Computer Science, open only to students in the B.C.S. program. Students are required to obtain their supervisor's written approval prior to registration and are limited to two such courses in their program.

Prerequisite(s): permission of the School of Computer Science.

COMP 4905 [0.5 credit]**Honours Project**

Under the supervision of a faculty member, Honours students complete a major Computer Science project in fourth year. Permission to register is granted once an approved project proposal is submitted to the Department. See deadlines and details on the School web site.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4906.

Prerequisite(s): registration in the B.C.S. Honours program or one of the Combined Computer Science Honours programs and permission of the School of Computer Science.

COMP 4906 [1.0 credit]**Honours Thesis**

An independent research project under the direct supervision of a faculty advisor. Permission to register is granted once an approved project proposal is submitted to the School of Computer Science. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4905.

Prerequisite(s): fourth-year standing in a B.C.S. Honours program with a minimum CGPA of 9.0 in the major and permission of the School of Computer Science.

COMP 4910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 3911 and registration in internship option.

COMP 4911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 4910 and registration in internship option.

Criminology and Criminal Justice (CRCJ)

Criminology and Criminal Justice (CRCJ) Courses

CRCJ 1000 [0.5 credit]**Introduction to Criminology and Criminal Justice**

Overview of the field, including the foundational approaches of criminology and criminal justice, crime as an object of study; criminal law and criminality in Canada; (neo) classical, aetiological and social reaction perspectives; alternative criminologies.

Lectures/tutorials three hours a week.

CRCJ 2100 [0.5 credit]**Criminological Theories**

Comprehensive survey of the plurality of criminological theories, from phrenology to contemporary theories concerned with issues related to crime and punishment. Students are encouraged to develop critical and reflexive thinking on various criminological issues and theories.

Prerequisite(s): CRCJ 1000 and second-year standing.

Lectures three hours per week.

CRCJ 2200 [0.5 credit]**Contemporary Issues in Criminology & Criminal Justice**

Survey of contemporary criminological and criminal justice issues, ranging from criminalization, crime prevention, and surveillance strategies to debates about the criminal justice system, punishment, and reintegration. Specific topics will vary from year to year.

Prerequisite(s): CRCJ 1000 and second-year standing in Criminology and Criminal Justice.

Lecture three hours per week.

CRCJ 3001 [0.5 credit]**Quantitative Methods in Criminology**

Methods used conducting quantitative research. Topics include measuring and manipulating variables, reliability, validity, sampling, experimental, quasi-experimental designs and ethics.

Prerequisite(s): CRCJ 1000 and third-year standing in the B.A Honours program in Criminology and Criminal Justice. Lectures and seminar three hours a week, laboratory one hour a week.

CRCJ 3002 [0.5 credit]**Qualitative Methods in Criminology**

Methods used conducting qualitative research. Topics include field research, interviewing, ethnographic research, content analysis and ethics.

Includes: Experiential Learning Activity

Prerequisite(s): CRCJ 1000 and third-year standing in the B.A Honours program in Criminology and Criminal Justice. Lectures and seminar three hours a week, laboratory one hour a week.

CRCJ 3100 [0.5 credit]**Policing (in)Security**

Theories and case studies addressing contemporary efforts to police the world of (in)securities. Emphasis on Canadian dynamics within these broader transformations.

Prerequisite(s): CRCJ 1000 and third-year standing.

Lecture and discussion three hours per week.

CRCJ 3201 [0.5 credit]**Selected Criminological Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): CRCJ 1000 and third-year standing.

Lectures three hours per week.

CRCJ 3202 [0.5 credit]**Selected Criminological Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): CRCJ 1000 and third-year standing.

Lectures three hours per week.

CRCJ 3901 [1.0 credit]**Practicum in Criminology I**

Through a field placement in an agency setting, students are provided the opportunity to obtain practical involvement in various aspects of criminal justice.

Discussion and presentations in the Seminar Class and required term papers integrate applied, theoretical and empirical knowledge.

Includes: Experiential Learning Activity

Precludes additional credit for LAWS 3905, PSYC 3903, PSYC 3904, and SOCI 3806. CRCJ 3901 may not be repeated.

Prerequisite(s): third-year standing in Criminology and Criminal Justice, including all of the 1000- and 2000- level requirements in the Major CGPA and permission of the Institute.

Field placement eight hours a week, seminar three hours a week.

CRCJ 3902 [1.0 credit]**Practicum in Criminology II**

Through a field placement in an agency setting, students are provided the opportunity to obtain practical involvement in various aspects of criminal justice.

Discussion and presentations in the Seminar Class and required term papers integrate applied, theoretical and empirical knowledge.

Includes: Experiential Learning Activity

Precludes additional credit for LAWS 3905, PSYC 3903, PSYC 3904, and SOCI 3806. CRCJ 3902 may not be repeated.

Prerequisite(s): third-year Honours standing in Criminology and Criminal Justice including all of the 1000- and 2000-level requirements in the Major CGPA and permission of the Institute.

Field placement eight hours a week, seminar three hours a week.

CRCJ 4001 [0.5 credit]**Special Topics in Criminology**

Examination of a special topic in criminology. Topics to be announced in advance of registration each year.

Prerequisite(s): fourth-year standing in B.A. Honours

Criminology and Criminal Justice or by permission of the Institute.

Seminar three hours per week.

CRCJ 4002 [0.5 credit]**Special Topics in Criminology**

Examination of a special topic in criminology. Topics to be announced in advance of registration each year.

Prerequisite(s): fourth-year standing in B.A. Honours

Criminology and Criminal Justice or by permission of the Institute.

Seminar three hours per week.

CRCJ 4100 [0.5 credit]**Psychology of the Jury**

This course will explore the jury system in Canada and other countries. Jury selection, deliberation, and instructions will be discussed, in addition to a number of legal and extra-legal influences on jury decision-making.

Prerequisite(s): CRCJ 1000 and fourth-year standing.

Lecture three hours per week.

CRCJ 4200 [0.5 credit]**Policing Sex**

This seminar explores the policing of consensual sexual practices, paying particular attention to the theorization of consent, harm, liberation and agency in a sexual and legal context.

Prerequisite(s): CRCJ 1000 and fourth-year standing.

Lecture three hours per week.

CRCJ 4300 [0.5 credit]**Social Control**

Introduction to social control from early theorizations linking social control to the genesis of the self, to preoccupations with the sorting of humans and the guiding of their conducts, including contemporary engagements with moralization, penal intensification, sovereign exceptionality, and immigration control.

Prerequisite(s): CRCJ 1000 and fourth-year standing.

Lecture three hours per week.

CRCJ 4908 [1.0 credit]**Honours Thesis**

A research project conducted under the direct supervision of a faculty adviser from Criminology and Criminal Justice, Psychology, Law or Sociology. Mandatory workshops and symposiums are scheduled during the year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.A. Honours program in Criminology and Criminal Justice with a CGPA of 10.00 or better in the Major and permission of the Institute.

Workshops and symposiums as scheduled.

Digital Humanities (DIGH)

Digital Humanities (DIGH) Courses**DIGH 2001 [0.5 credit]****Introduction to Digital Humanities**

An introduction to the principal debates in and approaches to the Digital Humanities.

Also listed as ENGL 2400.

Prerequisite(s): second-year standing or permission of the College of Humanities.

Lecture three hours a week.

DIGH 2002 [0.5 credit]**Digital Humanities: Theory and Method**

A multidisciplinary survey of core theories, methodologies and tools within the Digital Humanities. Assignments will include collaborative work and applied projects.

Includes: Experiential Learning Activity

Also listed as ENGL 2401.

Prerequisite(s): second-year standing or permission of the College of Humanities.

Lecture and workshop three hours a week.

DIGH 2035 [0.5 credit]**Technology, Culture and Society**

Principal theories and methods used by Science and Technology Studies (STS) scholars to examine the social and cultural shaping of technology. The substantive focus of the course is on the design, development, production, diffusion, consumption and use of technology.

Also listed as SOCI 2035.

Precludes additional credit for SOCI 2400.

Prerequisite(s): SOCI 1001 and SOCI 1002, or ANTH 1001 or ANTH 1002.

Lectures/discussion groups three hours a week.

DIGH 2705 [0.5 credit]**Popular Culture in the Digital Age**

An examination of various approaches to analyzing digital media and their role in the production and consumption of contemporary cultural forms and practices. Students will reflect upon their use of digital media and the influence they have on their lives and popular culture, more generally.

Also listed as SOCI 2705.

Prerequisite(s): SOCI 1001 and SOCI 1002, or ANTH 1001 or ANTH 1002.

Lecture/discussion groups three hours a week.

DIGH 3001 [0.5 credit]**The Book in the Digital Age**

A multidisciplinary course focused on the social, economic and political dimensions of the book in its manuscript, print and digital forms.

Also listed as ENGL 3401.

Prerequisite(s): third-year standing, or permission of the College of Humanities.

Lecture three hours a week.

DIGH 3035 [0.5 credit]**Science, Culture and Society: Social Studies of Science**

Principal theories and methods used by Science and Technology Studies scholars to examine the social construction of scientific knowledge. Topics may include the demarcation of science from non-science, the relationship between experts and laypersons, and the study of scientific controversies.

Also listed as SOCI 3035, ANTH 3035.

Prerequisite(s): DIGH 2035 or SOCI 2035 and third-year standing.

Lecture three hours a week.

DIGH 3812 [0.5 credit]**Digital History**

The digital representation of history, exploring the approaches, issues, and methods of working in this environment. Topics may include gaming, virtual environments, digital research tools, public digital history. (Field e).

Includes: Experiential Learning Activity

Also listed as HIST 3812.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lecture three hours a week.

DIGH 3814 [0.5 credit]**Crafting Digital History**

This course applies the creative use of information and media/computing technologies to address the digital cultural heritage issues of public historians, archaeologists, and anthropologists. Topics may include webscraping, data mining, designing and implementing research databases, and visual storytelling of those results. (Field e).

Includes: Experiential Learning Activity

Also listed as HIST 3814.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

DIGH 4001 [0.5 credit]**Studies in Digital Humanities**

A study of current issues and debates in Digital Humanities.

Also listed as ENGL 4155.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Seminar or lecture three hours a week.

DIGH 4002 [0.5 credit]**Digital Culture and the Text I**

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year.

Also listed as ENGL 4125.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Seminar or lecture three hours a week.

DIGH 4003 [0.5 credit]**Digital Culture and the Text II**

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year.

Also listed as ENGL 4145.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Seminar or lecture three hours a week.

DIGH 4004 [0.5 credit]**Digital Humanities Workshop**

This workshop will provide students with the opportunity to complete an individual or collaborative capstone project in the Digital Humanities.

Includes: Experiential Learning Activity

Also listed as ENGL 4404.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Workshop three hours a week.

DIGH 4005 [0.5 credit]**Digital Humanities Practicum**

Practical experience gained by working on projects under the supervision of the staff of a participating public- or private-sector institution or organization, including a final written assignment or equivalent project. A maximum of 1.0 practicum credit may be applied towards degree requirements.

Includes: Experiential Learning Activity

Also listed as ENGL 4405.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Practicum.

Disability Studies (DBST)

Disability Studies (DBST) Courses**DBST 1001 [0.5 credit]****Introduction to Disability Studies**

Challenging negative stereotypes of disability by allowing students the opportunity to explore disability through many different venues including history, theory, culture, ethics, policy and disability rights. Reframing disability from personal tragedy to issues of oppression, access, inclusion and equality.

Lectures and discussion groups three hours per week.

DBST 2001 [0.5 credit]**Disabling Society**

Interdisciplinary approach to the debates and theories that challenge the normative values, knowledge sources, and cultural representations of disablement in society.

Prerequisite(s): second-year standing and DBST 1001.

Lecture and discussion three hours a week.

DBST 3001 [0.5 credit]**Disability Studies: Policy and Activism**

The complex legal, policy and discursive frameworks that shape the lives of persons with disability and the history of the emergence of the disability rights movement as a scholarly and activist challenge to, and renegotiation of, those frameworks.

Includes: Experiential Learning Activity

Precludes additional credit for DBST 4001 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week.

DBST 3060 [0.5 credit]**Critical Disability Studies**

Course engages contemporary disability theory, culture, and activism to consider bodily difference and its relation to the workings of power and social control, accessibility, normalization, ableism, and medicalization. Students will gain an understanding of the contemporary debates, theories, and methodologies of critical disability studies.

Also listed as SOCI 3060.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lectures three hours a week.

DBST 3301 [0.5 credit]**Introduction to Deaf Studies**

A critical introduction to Deaf community and culture as they relate to a social model of disability, to ethnicity, and to issues of diversity and inclusion. Discourse analysis of research and policy in education for Deaf students from early childhood and beyond.

Also listed as ALDS 3301.

Precludes additional credit for ALDS 3903A if taken in Winter term 2016 or Winter term 2018, and ALDS 4906A if taken in Fall term 2016.

Prerequisite(s): third-year standing in Linguistics or Applied Linguistics and Discourse Studies or enrolment in the Minor in Disability Studies.

Seminars three hours a week.

DBST 3304 [0.5 credit]**Disability and Childhood: Transnational Perspectives**

Drawing on theory and research in disabled children's childhood studies, sociology of childhood, disability studies, and girlhood studies, this course examines the discursive and material constructions of disabled youth and childhood in transnational contexts in relation to emerging neo-colonial, neo-imperialist, and neo-liberal ideologies.

Also listed as CHST 3304.

Prerequisite(s): third-year standing in Childhood and Youth Studies or Disability Studies.

Lecture three hours a week.

DBST 3900 [0.5 credit]**Independent Study**

Essays, discussions, and/or examinations based on a bibliography constructed by the student in consultation with an instructor.

Prerequisite(s): third or fourth-year standing in the Disability Studies Minor and a CGPA of 9.0 or higher.

Earth Sciences (ERTH)

Earth Sciences (ERTH) Courses**ERTH 1006 [0.5 credit]****Exploring Planet Earth**

Origin of the Earth, concepts of geological time, and exploration of the interaction and duration of geological processes that shape the surface to deep interior of our planet, the climate, and formation of rocks and earth resources.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 1001 (no longer offered), ERTH 1010, ERTH 2404.

Prerequisite(s): a 4U/M level in Advanced Functions and at least one of Biology, Chemistry, Earth and Space Sciences or Physics are recommended. This course is for students who are enrolled in the Faculty of Science.

Lectures three hours a week, a laboratory three hours a week, and a field excursion.

ERTH 1009 [0.5 credit]**The Earth System Through Time**

Origin and co-evolution of Earth and life over its 4.56 billion year history. Connections between plate tectonics, rock formation, climate and global change. Early marine life, colonization of land, mass extinctions, and the use of fossils for interpreting past ecosystems.

Includes: Experiential Learning Activity

Precludes additional credit for GEOL 1008 (no longer offered), ERTH 1011.

Prerequisite(s): This course is for students who are enrolled in the Faculty of Science.

Lectures three hours a week, a laboratory three hours a week.

ERTH 1010 [0.5 credit]**Our Dynamic Planet Earth**

Origin of the Earth, concepts of geological time, and exploration of the interaction and duration of geological processes that shape the surface to deep interior of our planet, the climate, and formation of rocks and earth resources.

Precludes additional credit for ERTH 1001 (no longer offered) and ERTH 1006.

Prerequisite(s): a 4U/M level in Advanced Functions and at least one of Biology, Chemistry, Earth and Space Sciences or Physics are recommended. This course is for students who are not enrolled in the Faculty of Science.

Lectures three hours a week.

ERTH 1011 [0.5 credit]**Evolution of the Earth**

Origin and co-evolution of Earth and life over its 4.56 billion year history. Connections between plate tectonics, rock formation, climate and global change. Early marine life, colonization of land, mass extinctions and the use of fossils for interpreting past ecosystems.

Precludes additional credit for GEOL 1008 (no longer offered) and ERTH 1009.

Prerequisite(s): a 4U/M level in Advanced Functions and at least one of Biology, Chemistry, Earth and Space Sciences or Physics are recommended; ERTH 1010 is normally taken prior to this course. This course is for students who are not enrolled in the Faculty of Science.

Lectures three hours a week.

ERTH 2004 [0.5 credit]**Maps, Satellites and the Geospatial Revolution**

Introduction to the creation and use of maps using a variety of geospatial tools to better understand and resolve physical, social and environmental problems. Overview of geomatics (cartography and map design, geographic information systems, GPS, remote sensing).

Also listed as GEOM 1004.

Precludes additional credit for GEOM 2004 (no longer offered).

Lectures and laboratory, four hours a week.

ERTH 2012 [0.5 credit]**Planet Hollywood**

Earth Science concepts and content portrayed in Hollywood films are sometimes accurate but more frequently misrepresented. This course will examine popular Hollywood films to critically evaluate the Earth Science concepts and content that they present and directly compare them to the actual science. Online modules, bi-weekly film screenings and discussions four hours per week.

ERTH 2102 [0.5 credit]**Mineralogy to Petrology**

Chemical, optical and crystallographic properties of common rock-forming minerals, with introduction to common mineral assemblages of igneous, sedimentary, and metamorphic rocks.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 3202 (no longer offered).

Prerequisite(s): EARTH 1006 and (ERTH 1009 or GEOG 2013) and (CHEM 1001 or CHEM 1005) and (CHEM 1002 or CHEM 1006) and (MATH 1004 or MATH 1007) and (MATH 1104 or MATH 1107).

Lectures two hours a week and laboratory three hours a week.

ERTH 2104 [0.5 credit]**Igneous Systems, Geochemistry and Processes**

The sources and magmatic evolution of volcanic and plutonic rocks systems, with emphasis on geochemical, mineralogical, and textural characteristics, and relations to igneous processes.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 3202 (no longer offered).

Prerequisite(s): (CHEM 1001 or CHEM 1005) and (CHEM 1002 or CHEM 1006), (MATH 1004 or MATH 1007), (MATH 1104 or MATH 1107) and EARTH 2102.

Lectures three hours a week, laboratory three hours a week and a field excursion.

ERTH 2105 [0.5 credit]**Geodynamics**

The structure, composition, and rheological properties of the Earth: lithosphere, mantle and core. Plate tectonics and its relation to geophysical fields, driving mechanisms, and processes at plate boundaries and in plate interiors.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 3805 (no longer offered).

Prerequisite(s): EARTH 1006 and (ERTH 1009 or GEOG 2013).

Lectures two hours a week and a laboratory three hours a week.

ERTH 2312 [0.5 credit]**Paleontology**

Introduction to macrofossil and microfossil groups, their paleoenvironmental significance, and principles of evolutionary paleoecology.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 2316, GEOL 2301 (no longer offered) and GEOL 2306 (no longer offered).

Prerequisite(s): EARTH 1006 and (ERTH 1009 or GEOG 2013).

Lectures two hours a week and a laboratory three hours a week.

ERTH 2314 [0.5 credit]**Sedimentation and Stratigraphy**

Origin of sediments and their transport, distribution, and primary structures; processes of sediment-to-rock transformation; spatial patterns; controls of stratigraphy; methods of correlation.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 2318.

Prerequisite(s): EARTH 1006 and (ERTH 1009 or GEOG 2013).

Lectures three hours a week and a laboratory three hours a week.

ERTH 2316 [0.5 credit]**Paleoecology**

Introduction to macrofossil and microfossil groups, their paleoenvironmental significance, and principles of evolutionary paleoecology.

Precludes additional credit for EARTH 2312. Not available for credit in B.Sc. Earth Sciences programs.

Prerequisite(s): EARTH 1006 and EARTH 1009. Priority given to students in the Minor in Earth Sciences.

Lectures two hours a week.

ERTH 2318 [0.5 credit]**Sedimentology**

Origin of sediments and their transport, distribution, and primary structures; processes of sediment-to-rock transformation; spatial patterns; controls of stratigraphy and methods of correlation.

Precludes additional credit for EARTH 2314. Not available for credit in B.Sc. Earth Sciences programs.

Prerequisite(s): EARTH 1006 and EARTH 1009. Priority given to students in the Minor in Earth Sciences.

Lectures three hours a week.

ERTH 2401 [0.5 credit]**Dinosaurs**

A general introduction to dinosaurs, their place in evolution, their social behaviour, the Mesozoic landscape and extinction theories.

Lectures three hours a week.

ERTH 2402 [0.5 credit]**Climate Change: An Earth Sciences Perspective**

An exploration of the often dramatic climate changes that have occurred through earth history from a geological perspective, emphasizing the history of earth climates, geological causes of climate change and impact that rapid climate change has had on the biosphere.

Lectures three hours a week.

ERTH 2403 [0.5 credit]**Introduction to Oceanography**

An environmental approach to understanding the oceans; introducing the physical and biological aspects of oceanography, marine resources and marine pollution.

Precludes additional credit for EARTH 3206.

Lectures three hours per week.

ERTH 2404 [0.5 credit]**Engineering Geoscience**

Applications of the basic concepts of geology, earth materials and earth processes to practical engineering and environmental science. Topics include rock and soil mechanics, slope stability, hydrogeology, geological hazards, and site investigations. Overview of related geophysical methods.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 2414 (no longer offered) and EARTH 1006.

Prerequisite(s): completion of first year of any B.Eng. program.

Lectures three hours a week and a laboratory three hours a week.

ERTH 2406 [0.5 credit]**Geology and Map Interpretation**

Analysis and interpretation of geological features and processes using rocks, maps and cross sections.

Introduction to computational methods.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2102 and EARTH 2004.

Lectures two hours a week and a laboratory three hours a week.

ERTH 2415 [0.5 credit]**Natural Disasters**

Physical characteristics and causes of natural disasters of geological origin such as volcanic eruptions, earthquakes, tsunamis, landslides, hurricanes and meteor impacts.

Discussion on historical perspective, societal impact and mitigation strategies. Emphasis on Canadian case histories.

Precludes additional credit for EARTH 1003 (no longer offered).

Prerequisite(s): second-year standing in any degree program. With the exception of the Minor in Earth Sciences, available as a free elective only in any B.Sc. program, including Earth Sciences.

Lectures three hours a week.

ERTH 2419 [0.5 credit]**On the Origin of Planets**

Origin and evolution of all planetary objects in the solar system. Topics include the geology of comets, asteroids, the terrestrial planets and rocky moons, Earth's formation and early evolution, ocean worlds, the search for exoplanets and detection of extraterrestrial life.

Lectures three hours a week.

ERTH 2802 [0.5 credit]**Field Geology I**

Field analysis using geological, geophysical and computational methods leading to the interpretation of the origins of geological features and processes.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2406 and permission of the department.

Field work for two weeks off campus. A supplementary fee will apply.

ERTH 3002 [0.5 credit]**Gemology**

Gemstones including their physical and chemical properties, geological formation and geographic occurrence. Introduction to gemological laboratory methods.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2102.

Lectures two hours a week and laboratory two hours a week.

ERTH 3003 [0.5 credit]**Geochemistry and Geochronology**

Geochemical composition of reservoirs from the deep Earth to surface environments. Use of geochemistry and isotope geochemistry to track geological processes. Introduction to a variety of scientific dating methods (geochronology).

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 2101 (no longer offered).

Prerequisite(s): EARTH 2102, EARTH 2104 and EARTH 2105.

Lecture three hours a week and a laboratory two hours a week.

ERTH 3111 [0.5 credit]**Vertebrate Evolution: Mammals, Reptiles, and Birds**

Evolution of mammals, reptiles and birds. Emphasis on surveying amniote diversity, and the origin of key amniote transformations, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as BIOL 3111.

Prerequisite(s): EARTH 1009 or BIOL 2001, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

ERTH 3112 [0.5 credit]**Vertebrate Evolution: Fish and Amphibians**

Evolution of fish and amphibians. Emphasis on surveying fish and amphibian diversity, and the origin of key transformations of these groups, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as BIOL 3112.

Prerequisite(s): ERTH 1009 or BIOL 2001, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

ERTH 3113 [0.5 credit]**Geology of Human Origins**

The origin and evolution of our species from geological, biological and cultural perspectives. The course traces human ancestry from our primate roots through time and changing environments, and explores controversies, frauds, and misperceptions.

Prerequisite(s): any 1000 or 2000 level Earth Sciences or Biology course.

Lectures three hours per week.

ERTH 3203 [0.5 credit]**Sedimentology**

A 10-day field study of modern and ancient sedimentary and ecological systems and their stratigraphy in a geological region outside of the Ottawa area. Subsequent in-class seminars examine significant changes in sedimentary environments through Earth's history. A supplementary fee will apply.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3201 (no longer offered).

Prerequisite(s): ERTH 2314, enrolment in one of the ERTH Honours, Combined Honours or Major programs, a 2000-level CGPA of 8.0 and permission of the Department.

Ten-day off-campus field course.

ERTH 3204 [0.5 credit]**Mineral Deposits**

Analysis and interpretation of the geological and geochemical processes responsible for mineral deposit genesis in a global context.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2104.

Lectures and laboratory five hours a week.

ERTH 3205 [0.5 credit]**Physical Hydrogeology**

Principles of deep- to shallow fluid flow within the Earth's crust, and introduction to the exploration, development and management of groundwater as a global resource.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 1006 and (ERTH 1009 or GEOG 2013).

Lecture three hours a week and a laboratory three hours a week.

ERTH 3206 [0.5 credit]**Sedimentary Depositional Systems**

Application of sedimentary facies in class and local field-based settings to interpret modern and ancient depositional environments and stratigraphic succession related to climatic and oceanographic influences.

Subsequent in-class seminars examine significant changes in sedimentary environments through Earth's history.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3208 (no longer offered).

Prerequisite(s): ERTH 2314.

Field and class based instruction, 6 hours a week.

ERTH 3207 [0.5 credit]**Metamorphic Petrology and Processes**

Genesis of metamorphic rocks as determined from field, petrographic and geochemical data.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3202 (no longer offered).

Prerequisite(s): ERTH 2104.

Lectures two hours a week, a laboratory three hours a week and a field excursion.

ERTH 3405 [0.5 credit]**Geophysical Methods**

An introduction to the tools of applied geophysics including seismology, electrical, magnetic, and gravitational surveying methods.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 2405 (no longer offered).

Prerequisite(s): ERTH 2105.

Lecture two hours a week and a laboratory three hours a week.

ERTH 3806 [0.5 credit]**Structural Geology**

Structures and deformational processes in a variety of crustal settings. Applications to geological engineering and mineral and petroleum exploration.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2105 and ERTH 2406.

Lecture two hours a week and a laboratory three hours a week.

ERTH 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ERTH 4003 [0.5 credit]**Directed Studies in Geology**

One or more projects involving at least 15 days field and/or laboratory research, not related to thesis research.

Assessment based on written reports and an oral presentation. Expenses for long-distance travel are borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in any B.Sc. Hons. or Combined Hons. program in Earth Sciences.

Schedule to be arranged.

ERTH 4004 [0.5 credit]**Special Topics in Earth Sciences**

Field, laboratory or literature research, not related to thesis research. Assessment based on written reports and an oral presentation. Expenses for travel are borne by the student.

Prerequisite(s): fourth-year standing in any B.Sc. Hons. or Combined Hons. program in Earth Sciences. Major CGPA 8.5 or higher at time of registration for the course.

Schedule to be arranged.

ERTH 4005 [0.5 credit]**Micropaleontology**

Paleoecological and biostratigraphic significance, and evolutionary history of marine and freshwater microorganisms.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2312.

Lectures, seminars and/or laboratory five hours a week.

ERTH 4006 [0.5 credit]**Geobiology**

Exploration of the relationship between micro- and macro-evolutionary processes and the Earth's physical and chemical environment. Paleobiology and evolutionary ecology in the context of paleoceanography, paleolimnology and paleoclimatology. May include one or two weeks of field based instruction with costs borne by the student.

Prerequisite(s): EARTH 2312.

Field excursions in addition to lectures or seminars three hours a week.

ERTH 4007 [0.5 credit]**Evolutionary Developmental Paleobiology**

This course explores the mechanistic basis of organismic evolution from genetic, morphogenetic and epigenetic perspectives, within a phylogenetic context of living and extinct vertebrates.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2312 or BIOL 2001, and BIOL 2104.

Lectures or seminars three hours per week.

ERTH 4107 [0.5 credit]**Geotechnical Mechanics**

Soil composition and soil classification. Soil properties, compaction, seepage and permeability. Concepts of pore water pressure, capillary pressure and hydraulic head. Principle of effective stress, stress-deformation and strength characteristics of soils, consolidation, stress distribution with soils, and settlement. Laboratory testing.

Includes: Experiential Learning Activity

Also listed as CIVE 3208.

Prerequisite(s): EARTH 2406 and EARTH 3405.

Lectures three hours a week, laboratory three hours alternate weeks.

ERTH 4206 [0.5 credit]**Contaminant and Remediation Hydrogeology**

Geochemical and physical processes controlling contaminant release, migration, and fate in groundwater along with the processes and techniques used for contaminant mitigation and remediation. Examples will include organic and inorganic contaminants in a variety of settings.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 3003 and EARTH 3205.

Lectures and seminars three hours per week.

ERTH 4209 [0.5 credit]**Mineral Exploration Field Geology**

Introduction to the essentials of conducting geological mapping campaign in the Canadian Shield in a field area that has seen considerable industry exploration for volcanogenic massive sulfide mineralization. Activities include outcrop and trench mapping, strain analysis, interpretation of geophysical data, drilling proposals, report writing.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 3209.

Prerequisite(s): EARTH 2104, EARTH 3207, EARTH 3806.

Field work for two weeks off-campus. A supplementary fee will apply.

ERTH 4303 [0.5 credit]**Resources of a Finite Earth**

Earth's resources: where they occur, how they are concentrated, how they are extracted and used, how human exploitation of natural resources affects the environment, and the limits to growth imposed by finite supplies of natural resources.

Prerequisite(s): third-year standing in any degree program.

Lectures three hours a week.

ERTH 4305 [0.5 credit]**Carbonate Sedimentology**

The origin, composition and diagenesis of carbonate rocks. Study of modern and ancient platform systems; development of facies models; petrographic and geochemical analysis of limestones and dolostones.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 3203 or EARTH 3206.

Lecture two hours a week and a laboratory three hours a week.

ERTH 4306 [0.5 credit]**Resource Basin Analysis**

Surface and subsurface geological and geophysical techniques used to define the distribution and origin of geological basins, the architecture of basin fill, and characterize the distribution of water, petroleum and mineral resources.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3203 or ERTH 3206, ERTH 3205, and ERTH 3806.

Lectures, seminars and laboratory five hours a week.

ERTH 4402 [0.5 credit]**Structural Geology**

A study of the structural evolution of mountain belts, with emphasis on field methods.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3806.

Lectures, seminars and laboratory five hours a week.

ERTH 4403 [0.5 credit]**Tectonic Evolution of Canada**

Geologic evolution of Canada focusing on geological styles and tectonic processes of Archean cratons, Proterozoic and Phanerozoic orogenic belts.

Prerequisite(s): ERTH 3806.

Lectures and seminars three hours a week.

ERTH 4504 [0.5 credit]**Advanced Igneous Petrology**

Volcanology, petrology, mineralogy and geochemistry of igneous rocks and their tectonic setting. May include one to two weeks of field-based instruction with costs borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3003.

Field excursions in addition to lectures or seminars three hours per week.

ERTH 4507 [0.5 credit]**Advanced Metamorphic Petrology**

Introduction to the quantitative analysis of pressure-temperature-time trajectories and rock-forming processes during metamorphic petrogenesis; may include one or two weeks of field-based instruction, with costs borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2802 and ERTH 3207.

Field excursions, lectures, or seminars three hours per week.

ERTH 4707 [0.5 credit]**Engineering Seismology**

Seismological topics with engineering applications. Characterization of seismicity and seismic sources (areas and faults). Seismic hazard analysis. Empirical and theoretical modeling of strong ground motion in time and frequency domains.

Prerequisite(s): (MATH 1004 or MATH 1007), (MATH 1104 or MATH 1107), STAT 2507 and ERTH 3405 or permission of the department.

Also offered at the graduate level, with different requirements, as ERTH 5707, for which additional credit is precluded.

Lectures three hours a week.

ERTH 4801 [0.5 credit]**Physics of the Earth**

The physical properties of the solid Earth. Gravitational, magnetic and palaeomagnetic fields; seismology and earthquake occurrence; heat flow and thermal history. Geodynamic processes.

Prerequisite(s): ERTH 3405 and ERTH 3806.

Also offered at the graduate level, with different requirements, as ERTH 5701, for which additional credit is precluded.

Lectures three hours a week.

ERTH 4803 [0.5 credit]**Radiogenic Isotope Geology**

Use of radiogenic isotope systems to understand the differentiation history and evolution of large-scale isotopic reservoirs. Data, models and interpretations behind our present day knowledge and understanding of the Earth's history. Assessment of geochronological results and interpretations.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3003.

Also offered at the graduate level, with different requirements, as ERTH 5609, for which additional credit is precluded.

Lectures, seminars or laboratories three hours per week.

ERTH 4804 [0.5 credit]**Exploration Geophysics**

Application of geophysical methods to explore for petroleum and mineral resources, with emphasis on seismic and electromagnetic methods. Case histories illustrate the concepts.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3405.

Lectures and laboratories five hours per week.

ERTH 4807 [0.5 credit]**Field Geology II**

Field camp integrating advanced field, theory and experimental data. Assessment is based on reports, seminars, and oral examinations. Part of the cost is borne by the student. Departmental funding assistance is available for only one 4000-level field course per student.

Includes: Experiential Learning Activity

Prerequisite(s): completion of the third-year Earth Sciences course requirements and permission of the Department. A supplementary fee will apply.

Field work off campus.

ERTH 4808 [0.5 credit]**Vertebrate Paleontology Field Camp**

Field camp extends the student's vertebrate paleontological knowledge by integrating field, theory, and experimental data. Assessment based on written reports and seminars. Part of the cost is borne by the student.

Departmental funding assistance is available for only one 4000-level field course per student.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 3111 or EARTH 3112, and

ERTH 3113. A Major CGPA of 8.5 or higher and permission of the department is required at the time of registration.

Field work for two weeks off campus. A supplementary fee will apply.

ERTH 4815 [0.5 credit]**Natural Hazards in Canada**

Overview of the main natural hazards (such as floods, landslides, forest fires, earthquakes) and severe weather phenomena (such as ice storms, hail, tornadoes) in the Canadian environment. Risk of catastrophic events and their impact on society and infrastructure.

Prerequisite(s): third-year standing in earth science programs or permission of the department.

Also offered at the graduate level, with different requirements, as EARTH 5215 and IPIS 5505, for which additional credit is precluded.

Lectures three hours a week.

ERTH 4820 [0.5 credit]**Research Methods in Earth Sciences**

Research approaches, methodologies and resources in Earth Sciences; analytical methods in Earth Sciences; data acquisition, evaluation and interpretation; principles and strategies of scientific and professional writing; and communication of results.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Earth Sciences programs.

Lectures, seminars, or laboratories three hours a week. May also include visits to other research institutes or workshops with visiting instructors.

ERTH 4908 [1.0 credit]**Honours Thesis**

Independent studies. Requires prior written approval of a topic from a supervisor and the course co-ordinator. Oral and written proposal, progress and defence reports are required.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 4909, EARTH 4910.

Prerequisite(s): restricted to B.Sc. Honours and Combined Honours EARTH programs. Major CGPA 8.5 or higher at time of registration for the course.

ERTH 4909 [0.5 credit]**Research in Earth Sciences**

Understanding research methods, data interpretation and presentation, through readings, seminars and/or laboratory projects related to a topic selected by the student with approval of a faculty advisor.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 4908, EARTH 4910.

Prerequisite(s): restricted to B.Sc. Honours and Combined Honours Earth Sciences programs.

ERTH 4910 [1.0 credit]**Honours Thesis in Resource Evaluation**

Independent studies: Analysis and interpretation of geological, environmental and/or financial data to determine economic value of a natural resource, and its viability for sustainable development. Requires approval of the supervisor and course coordinator. Oral and written proposal, progress and defense reports are required.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 4908 and EARTH 4909.

Prerequisite(s): Restricted to B.Sc. Honours in Earth Sciences with Concentration in Finance: Resource Valuation. Major CGPA 8.5 or higher at time of registration for the course.

Economics (ECON)

Economics (ECON) Courses

ECON 1000 [1.0 credit]**Introduction to Economics**

An introduction to the major tools and policy problems of economics. Economic analysis is applied to a variety of contemporary problems such as pollution, poverty, the control of monopoly, unemployment, inflation, and international economic problems.

Precludes additional credit for ECON 1001, ECON 1002, and FYSM 1003.

Lectures three hours a week, discussion groups one hour every two weeks.

ECON 1001 [0.5 credit]**Introduction to Microeconomics**

An introduction to the major tools and policy problems of microeconomics. Economic analysis is applied to a variety of contemporary issues such as taxation, pollution, wage determination, poverty, market power, and international trade.

Precludes additional credit for ECON 1000 and FYSM 1003.

Lectures three hours a week, discussion groups one hour every two weeks.

ECON 1002 [0.5 credit]**Introduction to Macroeconomics**

An introduction to the major tools and policy problems of macroeconomics. Economic analysis is applied to a variety of contemporary problems such as: saving, investment and interest rates; unemployment; money and inflation; exchange rates; fiscal and monetary policy.

Precludes additional credit for ECON 1000 and FYSM 1003.

Lectures three hours a week, discussion groups one hour every two weeks.

ECON 1401 [0.5 credit]**Elementary Mathematics for Economics I**

Functional relations: functional forms and error terms. Graphing economic magnitudes: scatter diagrams, time-series graphs, functional relationships. Applied calculus: mechanics of differentiation and integration, elasticity, consumer/producer surplus. Applied algebra: solving systems of linear equations and Keynesian national-income analysis. Problem solving approaches.

Also listed as MATH 1401.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201, MATH 1007, MATH 1009, MATH 1104, MATH 1107, MATH 1119, MATH 1052, MATH 1152.

Prerequisite(s): Ontario Grade-12 U Advanced Functions, or MATH 0005, or equivalent; and ECON 1001 or ECON 1000 or FYSM 1003, which may be taken concurrently with ECON 1401.

Lectures three hours a week, tutorials one hour a week.

ECON 1402 [0.5 credit]**Elementary Mathematics for Economics II**

Calculus: including partial differentiation, definite and indefinite integrals, techniques of integration, and unconstrained optimization. Vectors and matrices: scalar multiplication, inner product, linear dependence, matrix operations, rank, invertible matrix theorem, and determinants. Economic applications such as profit maximization, comparative statics, and the Leontief input-output model.

Also listed as MATH 1402.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1201, BIT 1200, MATH 1007, MATH 1009, MATH 1104, MATH 1107, MATH 1119, MATH 1052, MATH 1152.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher, and ECON 1401 or MATH 1401 with a grade of C- or higher.

Lectures three hours a week, tutorials one hour a week.

ECON 2001 [0.5 credit]**Intermediate Microeconomics for Non-Mathematical Majors**

The main topics in microeconomic theory presented in a relatively non-technical manner (e.g., without the requiring knowledge of calculus) with illustrations of their applications. Not open to students in any Economics, B.Com., B.C.S., B.Eng., B.I.D., B.I.B., B.Math., or B.Sc. program.

Precludes additional credit for ECON 2002 (no longer offered), ECON 2003 (no longer offered), ECON 2009, ECON 2020, and ECON 2030.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 2009 [0.5 credit]**Managerial Economics**

An economic analysis of managerial decision-making. Elements of production and cost; price and output determination under perfectly and imperfectly competitive market structures; the role of information; topics in business strategy; and the impact of government intervention. Not open to students in any Economics program.

Precludes additional credit for ECON 2001, ECON 2002 (no longer offered), ECON 2003 (no longer offered), and ECON 2020.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher; MATH 1009 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and half hours a week.

ECON 2020 [0.5 credit]**Intermediate Microeconomics I: Producers and Market Structure**

Theory of the firm: elements of production and cost; input allocation, pricing, and firm behaviour under perfectly and imperfectly competitive market structures; the role of information; game theory and public policy, including basic competition policy.

Precludes additional credit for ECON 2001, ECON 2002 (no longer offered), ECON 2003 (no longer offered), and ECON 2009.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher; ECON 1401 (or equivalent) with a grade of C- or higher; and ECON 1402 (or equivalent), which may be taken concurrently with ECON 2020.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2030 [0.5 credit]**Intermediate Microeconomics II: Consumers and General Equilibrium**

Theory of consumer choice and demand; applications to intertemporal choice, labour supply, and/or choice under uncertainty; welfare analysis; general equilibrium theory; externalities and the role of government.

Precludes additional credit for ECON 2001, ECON 2002 (no longer offered), and ECON 2003 (no longer offered).

Prerequisite(s): ECON 2020 with a grade of C- or higher or ECON 2009 with a grade of C+ or higher, and ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2101 [0.5 credit]**Intermediate Macroeconomics for Non-Mathematical Majors**

The main topics in macroeconomic theory presented in a relatively non-technical manner (e.g., without the requiring knowledge of calculus) with illustrations of their application. Not open to students in any Economics, B.Com., B.C.S., B.Eng., B.I.D., B.Math., or B.Sc. program.

Precludes additional credit for ECON 2102 and ECON 2103.

Prerequisite(s): ECON 1002 or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 2102 [0.5 credit]**Intermediate Macroeconomics I**

An introduction to the macroeconomic modeling of output in the short and long run, and to fixed-price models of the closed and open economy over the business cycle. Policy prescriptions in relation to the business cycle are analysed.

Precludes additional credit for ECON 2101.

Prerequisite(s): ECON 1002 or ECON 1000 or FYSM 1003 with a grade of C- or higher; ECON 1401 (or equivalent) with a grade of C- or higher; and ECON 1402 (or equivalent), which may be taken concurrently with ECON 2102.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2103 [0.5 credit]**Intermediate Macroeconomics II**

An extension of macroeconomic modeling to the dynamics of wage-price adjustment in the intermediate and long run, to the theoretical foundations of basic macroeconomic relationships, and to contemporary policy issues arising in relation to the business cycle and long-run growth.

Precludes additional credit for ECON 2101.

Prerequisite(s): ECON 2102 with a grade of C- or higher, ECON 1001 with a grade of C- or higher, and ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2210 [0.5 credit]**Introductory Statistics for Economics**

Basic statistical methods for the study of economics.

Topics include descriptive statistics, elementary probability theory, sampling distributions, estimation and hypothesis testing for one and two population parameters.

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2200 (no longer offered), ECON 2201 (no longer offered), STAT 2507, STAT 2606, and STAT 3502.

Prerequisite(s): ECON 1401 (or equivalent) with a grade of C- or higher; ECON 1402 (or equivalent), which may be taken concurrently with ECON 2210.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2220 [0.5 credit]**Introductory Econometrics**

Topics include correlation, simple and multiple linear regression, and an introduction to statistical computing using an econometrics package. Emphasis on understanding appropriate methods and their properties, as distinct from their formal theoretical development. Empirical applications.

Precludes additional credit for ECON 2200 (no longer offered), ECON 2202 (no longer offered), STAT 2509, and STAT 2607.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2708 [0.5 credit]**Applied Data Analysis**

An introduction to concepts and tools for using various forms of data to study applied economic problems. Topics may include identifying relevant datasets, collecting and cleaning both research-ready and user-assembled data sets, data visualization, and summary statistics. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1005 with a grade of C- or higher; and ECON 1402 (or equivalent), with a grade of C- or higher; and ECON 2210 (or equivalent), with a grade of C+ or higher.

Lectures three hours a week.

ECON 3001 [0.5 credit]**Mathematical Methods of Economics**

Constrained optimization via Lagrange and Kuhn-Tucker conditions; implicit functions and implicit differentiation; comparative static methods applied to models such as utility maximization and least-cost production; homogeneous functions; concave and convex functions; compounding and exponential functions; economic models involving integration; differential equations.

Precludes additional credit for ECON 2400 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher; and ECON 1401 and ECON 1402 (or equivalent) with a grade of C- or higher in each and a combined grade point average in ECON 1401 and ECON 1402 of 6.50 or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3050 [0.5 credit]**Introduction to Financial Economics**

The major theories and basic tools used to address modern financial economic issues. Topics may include time value of money, bond and stock valuation, investment criteria, capital budgeting, the risk-return tradeoff, options and option valuation, cost of capital, and the fundamentals of international corporate finance.

Precludes additional credit for BUSI 2503, BUSI 2504, ECON 2504 (no longer offered), BUSI 2505, and ECON 2505 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002 each with a grade of C- or higher, or ECON 1000 or FYSM 1003 with a grade of C- or higher, ECON 1402 (or equivalent) with a grade of C- or higher, and BUSI 1002 or BUSI 1005 with a grade of C- or higher.

Lectures three hours a week.

ECON 3201 [0.5 credit]**Economic Thought and Policy in Canada**

An account of the interrelationship between economic theories expounded in Canada and their issue in national policy.

Precludes additional credit for ECON 3404 (no longer offered).

Prerequisite(s): an introductory course in one of the social sciences or Canadian history.

Lectures three hours a week.

ECON 3220 [0.5 credit]**Canadian Economic History**

A survey of Canadian economic history from the sixteenth century to the present.

Also listed as HIST 3220.

Precludes additional credit for ECON 2305 or HIST 2305 (no longer offered), ECON 3203 (no longer offered), ECON 3202 or HIST 3203 (no longer offered), and ECON 3207 or HIST 3204 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3230 [0.5 credit]**Selected Topics in Economic History**

An examination of the economic development of North America or Europe or other possible selected sets of countries. Countries examined vary from year to year. Also listed as HIST 3230.

Precludes additional credit for ECON 3005 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 3300 [0.5 credit]**Public Policy Toward Business**

The interaction of government and business in the Canadian economy. Reasons for government involvement in selected public policy areas. Topics covered may include competition policy, regulation of firms by boards and commissions, environmental regulation, and public enterprise.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3360 [0.5 credit]**Introduction to Labour Economics**

Basic principles of labour economics including market, institutional, and sociological forces. Technology and labour demand, wage systems, human capital, internal wage structure, market discrimination, female labour-force entry, wage-price spiral, household labour supply, and wage determination.

Precludes additional credit for ECON 3506 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4305 (no longer offered) or ECON 4306 (no longer offered) or ECON 4360.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3365 [0.5 credit]**Introduction to Industrial Relations**

An introduction to industrial relations covering such topics as: industrial relations systems, the functioning of trade unions, collective bargaining in Canada, and Canadian public policy in industrial relations.

Precludes additional credit for BUSI 3107 (no longer offered) and ECON 3507 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4365 or ECON 4605 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3370 [0.5 credit]**The Economics of Migration**

An introduction to the economic aspects of migration.

Topics include, among others: the economics of migration within countries; the economics of host country integration of immigrants; the impact of immigration on outcomes in the host country; the impacts of emigration on the home country.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3380 [0.5 credit]**The Economics of Gender and Ethnicity**

The impact of gender and ethnicity on labour-market outcomes. Topics may include: employment, work, earnings, and poverty; discrimination and policy responses; immigration; the economics of the household; gender and development; micro-credit; labour standards. Precludes additional credit for ECON 3100 (no longer offered) and ECON 3810 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3403 [0.5 credit]**Introduction to Public Economics: Expenditures**

The role and nature of the government sector in the economy, the theory of public goods, the equity and efficiency effects of public expenditures, voting rules and fiscal politics, techniques of public expenditure analysis, and intergovernmental fiscal relations.

Precludes additional credit for ECON 3003 (no longer offered) and ECON 3408 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4402 (no longer offered) or ECON 4403.

Prerequisite(s): ECON 1001 and ECON 1002 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3405 [0.5 credit]**Introduction to Public Economics: Taxation**

The role and nature of the government sector in the economy, principles of taxation, tax equity, incidence and excess burden of taxes, structure of taxes in the economy, role of personal, corporate, sales and wealth taxes, fiscal stabilization policy, and the economics of public debt. Precludes additional credit for ECON 3003 (no longer offered) and ECON 3407 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4401 (no longer offered) or ECON 4404.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3420 [0.5 credit]**Economic Theories of Federalism**

Economic dimensions of federalism, with reference to Canadian experience. Issues include: fiscal federalism; impact of federal economic policies on provincial economies; decentralization possibilities for fiscal and economic development policies; and consequences of policies such as provincial trade barriers and impediments to factor flows.

Precludes additional credit for ECON 3206 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3450 [0.5 credit]**Political Economy in the Modern State**

An examination of the role of government in the economy, with emphasis on alternate forms of social coordination and the advantages and disadvantages of each form in the Canadian system.

Precludes additional credit for ECON 3305 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3460 [0.5 credit]**Introduction to Health Economics**

Health as an economic good: demand and need; supply and cost. Public health and personal health care.

Alternative health-care delivery systems: financing, performance, quality, and cost effectiveness.

Preclusion: credit will not be given if taken concurrently with or after ECON 4460.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3508 [0.5 credit]**Introduction to Economic Development**

A discussion of the principles of economic development.

Application to the problems of the developing countries.

Precludes additional credit for ECON 3603 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4507.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3509 [0.5 credit]**Development Planning and Project Evaluation**

An introduction to the tools used in the planning and evaluation of development projects. Topics include the theory, application, strengths and limitations of cost-benefit analysis and competing approaches, and an examination of project evaluation techniques.

Precludes additional credit for ECON 3604 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3510 [0.5 credit]**African Economic Development**

Domestic and international aspects of development problems and policies in the African context. Topics may include human resource development, growth and poverty reduction, domestic resource mobilization, the implications of ethnic diversity, governance, and institutions, and issues of trade, investment, aid, migration, and health.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3600 [0.5 credit]**Introduction to International Economics**

A discussion of theory and policy in international trade and finance. Intended for students planning to take only 0.5 credit in international economics at the 3000-level.

Precludes additional credit for ECON 3601 and ECON 3602. Credit will not be given if taken concurrently with or after ECON 4601 or ECON 4602.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 3601 [0.5 credit]**Introduction to International Trade**

An extension of the basic principles of economics to international trade. Topics covered include the theory of international specialization, tariffs and other barriers to trade, trade liberalization and economic integration, international movements of labour and capital, trade and development.

Precludes additional credit for ECON 3600. Credit will not be given if taken concurrently with or after ECON 4601.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3602 [0.5 credit]**International Monetary Problems**

A discussion of the theory and institutions of the international monetary system, and the related balance of payments problems of nation states.

Precludes additional credit for ECON 3600. Credit will not be given if taken concurrently with or after ECON 4602.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3607 [0.5 credit]**Monetary and Financial Institutions**

The behaviour of financial intermediaries and institutions such as the Bank of Canada, banks and trust companies, and regulatory bodies such as the Canada Deposit Insurance Corporation and the Superintendent of Financial Institutions.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3706 [0.5 credit]**Applied Econometrics**

Introduction to applied econometric methods with emphasis on the use of the regression model for empirical research. Real-world examples are used extensively to illustrate key concepts. Hands-on computer exercises are an integral part of the course.

Includes: Experiential Learning Activity

Precludes additional credit for ECON 4706.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003, ECON 2201 (or equivalent) with a grade of C- or higher, and ECON 2202 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3801 [0.5 credit]**Regional Economics**

Unequal distribution of economic activity between spatially defined regions. The pattern in Canada since World War II and the outlook for the future is evaluated, considering "natural" adjustment mechanisms and policy tools.

Precludes additional credit for ECON 3401 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3803 [0.5 credit]**The Economics of Natural Resources**

The application of economic analysis to questions concerning natural-resource use, management and conservation, as well as market failures and environmental effects. Policy problems relating to natural resources are discussed.

Precludes additional credit for ECON 3805 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3804 [0.5 credit]**Environmental Economics**

Microeconomic analysis of environmental issues.

Frameworks for measuring environmental costs and benefits. The efficiency of alternative pollution control policies. Applications include air and water pollution and global environmental problems such as ozone depletion and global warming.

Precludes additional credit for ECON 3806 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3807 [0.5 credit]**European Economic Integration**

A discussion of the theories of free trade areas and customs, monetary, and economic unions, and the related historical experience of Europe. Topics include: currency area and the euro, coordination of fiscal policy and the EU budget, common agricultural policy, labour mobility, and regional policy.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3808 [0.5 credit]**The Economics of Transition**

The transition from state ownership and central planning to mixed ownership structure with resource allocation by market mechanisms. "Classical socialism" is criticized and the processes of transition in countries of Central and Eastern Europe, the former Soviet Union, and Asia are compared.

Precludes additional credit for ECON 3700 (no longer offered), ECON 3701 (no longer offered), and ECON 3702 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3820 [0.5 credit]**Topics in Canadian Economic Policy**

Economic analysis applied to selected policy areas, issues or institutions. One or more of the following topics may be dealt with: decision-making by bureaucratic institutions, policy problems arising from poverty, the economics of natural resources and pollution, urban economics.

Precludes additional credit for ECON 3800 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3840 [0.5 credit]**An Economic Analysis of Law**

An introduction to the application of economic principles and methodology to a variety of legal problems with emphasis on the theory of property rights and the allocation of resources.

Precludes additional credit for ECON 3204 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3850 [0.5 credit]**Economics of Information and the Media**

An introduction to the economics of information and the media, with a focus on the analysis of production and distribution of information, the application of theory to selected communications-media industries in Canada, and the analysis of existing Canadian policies.

Precludes additional credit for ECON 3200 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4205 (no longer offered) or ECON 4850.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3856 [0.5 credit]**Housing Economics**

Examination of housing markets, housing finance, and government housing policy using the tools of microeconomics. Models of demand, supply, and market equilibrium emphasizing the special characteristics of housing, including heterogeneity, durability, and spatial fixity. Relationships to other goods and markets and the wider macroeconomy.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3860 [0.5 credit]**Agricultural Economics**

An examination of the agricultural industry in the national economy and in low-income societies, with emphasis on the working out of the basic forces that determine supply and demand for the industry, and the functional distribution of income among the factors of production.

Precludes additional credit for ECON 3406 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3864 [0.5 credit]**Transportation Economics**

Factors affecting demand for and supply of transportation services; demand elasticities and cost structures of various modes of transport; transportation service pricing. Topics may include transport demand forecasting, transportation investment and project appraisal, and the role of transport in economic development.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3870 [0.5 credit]**Comparative Economic Systems**

Analysis of the structure, institutions, and performance of alternative economic systems, including capitalism, socialism, and communism. Selected countries are studied as examples of these systems.

Precludes additional credit for ECON 4806 (no longer offered) and ECON 4807 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3880 [0.5 credit]**Special Studies in Economics**

Content may vary from year to year and is announced in advance of the registration period.

Precludes additional credit for ECON 3402 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures and/or seminars three hours a week.

ECON 3900 [0.5 credit]**Research Methods in Economics**

The process of doing basic research in economics: development of the research proposal, finding and critically evaluating relevant literature, model development, methods for locating and collecting economic data, analytical methods, and writing mechanics. This course has a strong practical focus.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2030 with a grade of C+ or higher, ECON 2103 with a grade of C+ or higher, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Seminars three hours a week.

ECON 3920 [0.5 credit]**Professional Practice of Economics**

Development of skills used by professional economists, including writing professional documents such as policy briefs and memos, data visualization, communication of economic ideas in non-technical terms, presentation skills, and team-based problem solving.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2030 with a grade of C+ or higher, ECON 2103 with a grade of C+ or higher, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Seminars three hours a week.

ECON 3999 [0.0 credit]**Co-operative Work Term**

Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Honours Economics or Applied Economics Co-operative Education option, satisfactory completion of the Co-op preparation classes offered by the Co-operative Education Office, and permission of the Department.

ECON 4001 [0.5 credit]**Mathematical Analysis in Economics**

Analysis and algebra: set theory, sequences and series, quadratic forms, separation and fixed-point theorems. Static optimization: the Weierstrass, Lagrange, and Kuhn-Tucker theorems; convexity and quasi-convexity; the envelope theorem. Dynamic optimization: the Maximum Principle and Bellman's equation. Applications of these tools to economic theory.

Prerequisite(s): ECON 3001 with a grade of C+ or higher. Lectures three hours a week, tutorials one and a half hours a week.

ECON 4002 [0.5 credit]**Statistical Analysis in Economics**

Probability: including conditional probability, random variables and distributions, unconditional and conditional expectations. Distributions: including special distributions and their properties, and sampling distributions of estimators. Nonparametric methods and limit theorems; stochastic processes; simulation and bootstrap methods. Applications of these tools to economic theory.

Precludes additional credit for STAT 3500 (no longer offered), STAT 3508, and STAT 3558.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C+ or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4004 [0.5 credit]**Operations Research I**

Linear programming, duality, sensitivity analysis, transportation and network problems. Both theory and a wide range of applications are studied.

Precludes additional credit for BUSI 2300 (no longer offered), MATH 3801, and SYSC 3200.

Prerequisite(s): ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4005 [0.5 credit]**Operations Research II**

Dynamic programming, inventory models, queuing, simulation, and non-linear programming.

Prerequisite(s): ECON 1402 (or equivalent) with a grade of C- or higher, and ECON 2210 (or equivalent) or STAT 2605 or STAT 3502 with a grade of C- or higher.

Lectures three hours a week.

ECON 4020 [0.5 credit]**Advanced Microeconomic Theory**

Advanced theory of individual economic behaviour in production, consumption, and general equilibrium. Elementary tools of mathematics are employed in the exposition of most topics.

Precludes additional credit for ECON 4200 (no longer offered).

Prerequisite(s): ECON 2020 (or ECON 2009) and ECON 2030 each with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4020.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4021 [0.5 credit]**Advanced Macroeconomic Theory**

An introduction to advanced macroeconomic models. Topics may include analysis of business cycles, inflation, unemployment, economic growth, fiscal and monetary policy, consumption decisions of households, and investment decisions of firms.

Precludes additional credit for ECON 4201 (no longer offered).

Prerequisite(s): ECON 2102 with a grade of C+ or higher; ECON 2103 with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4021.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4025 [0.5 credit]**Game Theory and Economics**

Analysis of strategic behaviour using non-cooperative game theory. Topics include extensive-form and strategic-form representation of games, and solution concepts for games of complete and incomplete information such as Nash equilibrium, subgame perfect equilibrium, and perfect Bayesian equilibrium. Economic applications will be presented.

Prerequisite(s): ECON 2020 (or ECON 2009) and ECON 2030 each with a grade of C+ or higher or ECON 2002 (no longer offered) and ECON 2003 (no longer offered) each with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4025.

Lectures three hours a week.

ECON 4026 [0.5 credit]**Macroeconomic Dynamics**

Dynamic models as applied to topics such as economic growth, business cycles, consumption, investment, inflation, and real-financial linkages. Empirical and/or policy issues may also be discussed.

Prerequisite(s): ECON 2102 with a grade of C+ or higher; ECON 2103 with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4026.

Lectures three hours a week.

ECON 4030 [0.5 credit]**Economics of Uncertainty and Information**

Uncertainty, imperfect information, and asymmetric information in the allocation of resources and the performance of markets and alternative coordinating mechanisms.

Precludes additional credit for ECON 4006 (no longer offered) and ECON 4260 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4051 [0.5 credit]**Financial Asset Pricing**

Factors that drive security prices and models that attempt to account for aspects of security returns, including the generic arbitrage pricing model, the capital asset pricing model (CAPM), the consumption CAPM, and the intertemporal CAPM.

Precludes additional credit for BUSI 3500, ECON 3500 (no longer offered), BUSI 3502, ECON 3502 (no longer offered).

Prerequisite(s): ECON 3050 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4052 [0.5 credit]**Corporate Financial Economics**

Optimization and corporate finance. Corporate governance and managerial compensation. Capital structure and the Modigliani-Miller theorem. Agency theory and asymmetric information. The issue of equity, debt, and other securities. Dividend policy. Investment and capital budgeting, NPV, and real options.

Precludes additional credit for BUSI 3500 (or ECON 3500, no longer offered) and BUSI 3502 (or ECON 3502, no longer offered).

Prerequisite(s): ECON 3050 with a grade of C- or higher, and ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4053 [0.5 credit]**Financial Market Modeling**

The modeling of the evolution of prices in (near) efficient markets and the evaluation of functions of these prices such as guarantees, options, warrants, futures, and other types of derivatives. Arrow-Debreu state-contingent claims. Notions of complete and incomplete markets.

Precludes additional credit for ECON 4100 (no longer offered) and ECON 4504 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 3001 with a grade of C- or higher.

Lectures three hours a week.

ECON 4056 [0.5 credit]**Insurance Economics**

The theory of insurance founded on probability and decision theory. The optimal design of insurance policies from a risk-sharing and an information economics perspective. Principal-agent problems including adverse selection, asymmetric information, and moral hazard with implications for insurance. The interaction between insurance and other markets.

Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4057 [0.5 credit]**Behavioural Financial Economics**

Market efficiency and the limits of arbitrage. Heuristics and biases identified by behavioural decision theorists and their effect on the behaviour of managers and investors. Behavioural theories of market trading volume and asset prices. Behavioural approaches to corporate financial economics problems.

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 3050 with a grade of C- or higher.

Lectures three hours a week.

ECON 4108 [0.5 credit]**Behavioural Economics**

Major factors underlying economic behaviour, including various views of the role of rationality in economic analyses of individual decision-making and institutional design and a detailed treatment of behavioural heuristics and biases and their implications for nudging techniques that aim to improve economic outcomes.

Prerequisite(s): ECON 2030 with a grade of C- or higher.

Lectures three hours a week.

ECON 4109 [0.5 credit]**Experimental Economics**

An introduction to the use of and insights gained from both laboratory- and field-type experimental methods in economic research. Topics include analysis of individual rationality, performance of markets, and design of economic systems. In-class experiments are an integral part of the course.

Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 with a grade of C- or higher.

Lectures three hours a week.

ECON 4209 [0.5 credit]**Selected Topics in the History of Economic Thought**

The development of economic thought through time in relation to selected economic problems.

Precludes additional credit for ECON 4105 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C+ or higher or ECON 2003 (no longer offered) with a grade of C+ or higher, and ECON 2103 with a grade of C+ or higher.

Also offered at the graduate level, with different requirements, as ECON 5209, for which additional credit is precluded.

Lectures and/or seminars three hours a week.

ECON 4230 [0.5 credit]**Economic History**

The application of economic theory and quantitative techniques to selected topics in economic history, which may include historical patterns of growth and welfare, nineteenth-century globalization, technological change, the development of agriculture, industrialization, the Great Depression, and the origins of central banks.

Prerequisite(s): ECON 2030 with a grade of C- or higher, ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Also offered at the graduate level, with different requirements, as ECON 5230, for which additional credit is precluded.

Lectures three hours a week.

ECON 4301 [0.5 credit]**Market Structure and Firm Behaviour**

Various theoretical and empirical studies of firm and market organization with emphasis on the pricing, advertising, investment and locational behaviour of firms in imperfectly competitive markets.

Precludes additional credit for ECON 4300 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4302 [0.5 credit]**Competition and Regulatory Policy**

Public policies relating to competition and regulation.

Topics may include: Ramsey pricing, peak-load pricing, cross-subsidization, access pricing (ECPR), multi-part pricing and price discrimination, predatory and targeted pricing, vertical restrictions, traditional regulation (including rate-of-return regulation), incentive regulation (including price caps), and the political economy of regulation.

Precludes additional credit for ECON 4300 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4309 [0.5 credit]**Applied Industrial Economics**

The empirical application of microeconomics, with special emphasis on the Canadian economy. Topics include: consumer demand, firm production and investment, and industrial and trade structure.

Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502) with a grade of C- or higher.

Lectures three hours a week.

ECON 4360 [0.5 credit]**Labour Economics**

The application of price theory to the labour market. Topics include models of labour supply and labour demand, human capital and the economics of education, and unions and their impact on the labour market.

Precludes additional credit for ECON 4305 (no longer offered) and ECON 4306 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4365 [0.5 credit]**Industrial Relations**

Economic analysis of selected industrial relations and labour market policy problems. Topics include unionization, strike activity, the economics of occupational health and safety, pension policy, and the impact of new technology on the labour market.

Precludes additional credit for ECON 4605 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4403 [0.5 credit]**Public Economics: Expenditures**

A discussion of the theory of government expenditures and an examination of empirical attempts to quantify the theory. Examination of current topics such as expenditures and grants in the Canadian federation.

Precludes additional credit for ECON 4402 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4404 [0.5 credit]**Public Economics: Taxation**

A discussion of the theory of taxation and an examination of empirical attempts to quantify the theory. Some topics of current interest, such as the redistribution of income in Canada and tax reform, are examined.

Precludes additional credit for ECON 4401 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4407 [0.5 credit]**Project Evaluation**

Techniques and problems in the evaluation of public and private projects. Examination of alternative approaches to public decision-making including cost-benefit analysis, cost-effectiveness analysis, and multiple-objective frameworks. Case studies of projects in various areas such as natural resources, the environment, human resources, public services, and transportation.

Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502) with a grade of C- or higher.

Lectures three hours a week.

ECON 4460 [0.5 credit]**Health Economics**

Economic analysis of the organization, financing, and utilization of health-care services. Topics include supply and demand of health care, the impact of private and social health insurance on demand, and policy issues in the provision of health care in Canada.

Prerequisite(s): ECON 2030 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4507 [0.5 credit]**The Economics of Development**

An examination of some theoretical approaches to the economics of development, together with analysis of some economic policy issues of a largely internal character, such as intersectoral investment allocation, income distribution, unemployment, and investment in human development.

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 2103 with a grade of C- or higher.

Lectures three hours a week.

ECON 4508 [0.5 credit]**International Aspects of Economic Development**

An analysis of the international economic policy problems of development in Asia, Africa and Latin America, focusing on international trade, direct foreign investment, technological transfer, regional integration, debt and development financing, and international migration.

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 2103 with a grade of C- or higher.

Lectures three hours a week.

ECON 4601 [0.5 credit]**International Trade Theory and Policy**

International trade theory and its implications for economic policy. Topics such as determinants of trade and specialization, gains from trade and commercial policy, international factor mobility, growth and development.

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4602 [0.5 credit]**International Monetary Theory and Policy**

International monetary theory and its implications for economic policy. Topics such as sources of disequilibrium and adjustment in the balance of payments under fixed versus flexible exchange rates, international capital movements, and international monetary reform.

Prerequisite(s): ECON 2103 with a grade of C- or higher.

Lectures three hours a week.

ECON 4670 [0.5 credit]**Monetary Theory and Policy**

The role of money and the monetary system in determining income, employment, and price level; techniques of monetary policy; the relationship between monetary and fiscal policy.

Precludes additional credit for ECON 4607 (no longer offered) and ECON 4608 (no longer offered).

Prerequisite(s): ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4700 [0.5 credit]**Measurement Economics**

National accounting and index numbers. Topics may include: the measurement of output and income, capital and depreciation, productivity, employment and unemployment, poverty and inequality, household production, pollution and resource depletion, and the balance of payments; price indexes; standard-of-living indexes; and international comparisons.

Prerequisite(s): ECON 2030 with a grade of C- or higher, ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4706 [0.5 credit]**Econometrics I**

An introduction to econometric theory and analysis of the classical normal linear regression model. Topics include estimation methods, hypothesis testing, multicollinearity, indicator variables, heteroscedasticity, and an introduction to time-series methods.

Precludes additional credit for ECON 3706.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C+ or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4707 [0.5 credit]**Econometrics II**

An extension of ECON 4706. Topics include model specification, diagnostic checks, qualitative and limited dependent variables, panel data, and simultaneous equations models.

Prerequisite(s): ECON 4706 with a grade of C+ or higher, or STAT 3503 with a grade of C+ or higher.

Lectures three hours a week.

ECON 4708 [0.5 credit]**Economic Data Science - Analytics**

An introduction to methods of statistical and machine learning analytics for economic analysis. Tools relevant for both small and large data sets will be covered. Topics may include approaches to classification, dimension reduction strategies, and prediction models and tools. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2708 with a grade of C+ or higher; and ECON 4706 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week.

ECON 4709 [0.5 credit]**Economic Data Science - Applications**

Application of data science and machine learning methods to real-world economic problems. Students will apply their data science knowledge in hands-on projects to answer topical research questions. This course has a strong practical focus. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 4708 with a grade of C+ or higher.

Lectures three hours a week.

ECON 4713 [0.5 credit]**Time-Series Econometrics**

An introduction to the basic concepts and tools of time-series econometrics. Topics include stationary and non-stationary time series, identification, estimation and forecasting, unit root testing, cointegration analysis, error-correction models and ARCH models, together with relevant economic applications.

Precludes additional credit for ECON 4803 (no longer offered) and STAT 4603.

Prerequisite(s): ECON 4706 with a grade of C- or higher, or STAT 3503 with a grade of C- or higher.

Lectures three hours a week.

ECON 4714 [0.5 credit]**Advanced Topics in Applied Econometrics**

Advanced coverage of one or more areas of current interest in applied econometrics. An empirical research project may be required.

Includes: Experiential Learning Activity

Precludes additional credit for ECON 4804 (no longer offered).

Prerequisite(s): ECON 4706 with a grade of C+ or higher; and ECON 4707, which may be taken concurrently with ECON 4714.

Lectures three hours a week.

ECON 4800 [0.5 credit]**Spatial Economics**

Spatial dimensions of economic activity and organization. Theories of urban agglomeration effects, transport costs, forward and backward linkages, and associated spatial dynamics; empirical analysis of spatial economic clusters; effects of globalization and economic growth on the spatial structure of production and the associated policy response.

Prerequisite(s): ECON 2030 with a grade of C- or higher, ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4850 [0.5 credit]**Advanced Economics of Information and Media**

The economics of information production, its distribution through broadcasting, publishing or the Internet, its exchange through telephone and e-mail networks, and its use in private and public organizations. An analysis of telecommunications, broadcasting, copyright, privacy, and Internet policy.

Precludes additional credit for ECON 4205 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4880 [0.5 credit]**Special Topics in Economics**

Selected advanced topics of interest to upper-year Honours Economics and Applied Economics students. Topics may vary from year to year and are announced in advance of the registration period.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2030 with a grade of C+ or higher or ECON 2003 (no longer offered) with a grade of C+ or higher; ECON 2103 with a grade of C+ or higher; and ECON 3706 or ECON 4706, which may be taken concurrently with ECON 4880 or may be waived by permission of the Department.

Lectures and/or seminars three hours a week.

ECON 4903 [0.5 credit]**Tutorial in Economics**

An additional tutorial in economics may be taken subsequent to, or concurrently with, ECON 4890 or ECON 4901 or ECON 4902.

Prerequisite(s): permission of the Department.

ECON 4904 [0.5 credit]**Tutorial in Economics**

An additional tutorial in economics may be taken subsequent to, or concurrently with, ECON 4890 or ECON 4901 or ECON 4902.

Prerequisite(s): permission of the Department.

ECON 4905 [0.5 credit]**Honours Capstone Seminar**

The development of individual research projects in suitable economics topic areas with the exchange of results at each stage through in-class discussions and written and oral reports and culminating in a major research paper by each course registrant.

Includes: Experiential Learning Activity

Precludes additional credit for ECON 4890, ECON 4900 (no longer offered), ECON 4901, and ECON 4902.

Prerequisite(s): ECON 3900 with a grade of C+ or higher, ECON 3920 with a grade of C+ or higher, and registration in an Honours Economics program.

Seminars three hours a week.

ECON 4908 [1.0 credit]**Honours Essay**

Students taking Honours in Economics or Applied Economics may write an Honours essay during their final year. This essay counts for one credit. Students work under an individual faculty adviser.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Department.

ECON 4990 [0.5 credit]**Research and Writing in Economics**

Development of fundamental research and writing skills pertinent to the discipline of economics. Writing summary reviews of economics texts of increasing sophistication; writing up empirical and/or theoretical results of increasing complexity.

Prerequisite(s): registration in the Post-Baccalaureate Diploma in Economics program and/or permission of the Department.

Seminars three hours a week, tutorials one and a half hours a week.

Electronics (ELEC)

Electronics (ELEC) Courses**ELEC 1908 [0.5 credit]****First Year Project**

A practical introduction to engineering design. Students work in small teams to specify, design and implement a system, formally managing the project progress and submitting oral and written reports. Professionalism: engineering ethics; health and safety. Technology, society and the environment.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Engineering Physics program.

Lectures and tutorials three hours a week, laboratory four hours a week.

ELEC 2501 [0.5 credit]**Circuits and Signals**

Properties of signals. Basic circuit elements: voltage and current sources. Kirchhoff's laws, linearity, superposition. Thevenin and Norton's theorems. Circuit simplification. AC steady-state analysis: impedance, admittance, phasors, frequency response. Transient response of RL and RC circuits: form of response, initial and final conditions. RLC circuits: resonance.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 3605.

Prerequisite(s): MATH 1005 (may be taken concurrently) and (PHYS 1004 or PHYS 1002), and second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

ELEC 2507 [0.5 credit]**Electronics I**

Qualitative semiconductor physics, leading to the diode equation. Diode applications. Operational amplifiers and their application in feedback configurations including active filters. Introduction to bipolar transistors and MOSFETs, analysis of biasing circuits. Transistor applications including small signal amplifiers.

Includes: Experiential Learning Activity

Precludes additional credit for OSS 2006, PLT 2006 (no longer offered).

Prerequisite(s): MATH 1005, ELEC 2501, and second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

ELEC 2602 [0.5 credit]**Electric Machines and Power**

Modeling and analysis of basic electric power systems. Single-phase and three-phase circuits: real and reactive power, per-phase analysis, power factor correction. Electro-mechanical energy conversion: operation, characteristics and analysis of transformers, DC-, induction-, and synchronous electric machines. Motor and generator operation.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1004 and ELEC 2501, and second-year status in Engineering.

Lectures 3 hours per week. Laboratory and problem analysis 3 hours per week alternate weeks.

ELEC 2607 [0.5 credit]**Switching Circuits**

Boolean algebra, gate, combinatorial circuits. DeMorgan notation, sum-of-product and product-of-sum forms. Logic arrays, PLAs and PALs. Flip-flops, latches, sequential circuits, state graphs and state minimization. Counters and controllers. Hazards. Asynchronous sequential circuits, race free assignment, realization.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2310.

Prerequisite(s): PHYS 1004 or PHYS 1002 and second-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 3105 [0.5 credit]**Basic EM and Power Engineering**

Electrostatics and magnetostatics. Solution of Poisson's and Laplace's equations. The Lorenz equation and force. Time varying fields. Magnetic circuits and transformers. DC and AC machines. Basic three-phase power.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005, MATH 2004, and (PHYS 1004 or PHYS 1002), and second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 3500 [0.5 credit]**Digital Electronics**

Digital circuit design using verilog and logic synthesis, the electronic properties of logic gates, electrical interfacing between logic families, asynchronous to synchronous interfacing, clock distribution and timing, VLSI design options. Students implement substantial circuits with field-programmable gate arrays.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2507 and ELEC 2607.

Lectures three hours a week, laboratory three hours a week.

ELEC 3508 [0.5 credit]**Power Electronics**

Power transformers. DC and AC motors. Power semiconductor devices: Thyristors, Triacs, MCTs, IGBTs). Converter circuits: controlled AC to DC rectifiers, choppers, DC to AC inverters, AC voltage controllers, cycloconverters. Protection of conversion circuits. Applications to high-efficiency control of electric machines and electromechanical energy conversion devices.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2501 and ELEC 2507.

Lectures three hours per week, laboratories/problem analysis three hours per week.

ELEC 3509 [0.5 credit]**Electronics II**

Introduction to semiconductor devices and ICs. DC, AC and switching properties of BJTs. Linear amplifiers; bandwidth considerations; two-port analysis. Large signal amplifiers; power amplifiers; transformerless circuits. Feedback and operational amplifiers; gain, sensitivity, distortion and stability. Filter design. Oscillators.

Includes: Experiential Learning Activity

Precludes additional credit for : ELEC 3509 may not be taken for credit by students in the Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering programs.

Prerequisite(s): ELEC 2507.

Lectures three hours a week, laboratory three hours a week.

ELEC 3605 [0.5 credit]**Electrical Engineering**

DC circuits: elements, sources, analysis. Single phase AC circuits: phasors, RLC circuits, real and reactive power, impedance, network analysis, three phase systems. Power transformers. DC motors: operation and characteristics. AC motors: single phase and three phase.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 2501.

Prerequisite(s): MATH 1005 and (PHYS 1004 or PHYS 1002), and second-year status in Engineering.

Lectures three hours a week, problem analysis 1.5 hours a week.

ELEC 3907 [0.5 credit]**Engineering Project**

Student teams work on open-ended projects based on previously acquired knowledge. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, a series of project reports, and oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2607, ELEC 2507, and ((ECOR 1051, ECOR 1052, ECOR 1053 and ECOR 1054) or (ECOR 2606)), and enrolment in the Electrical Engineering program.

Lecture two hours per week, laboratory six hours per week.

ELEC 3908 [0.5 credit]**Physical Electronics**

Fundamentals of device physics and operation of the pn junction, bipolar transistor and MOSFET. Basic integrated circuit processing and application to diodes, BJTs and MOSFETs. Correlation between processing, structure, operation and modeling. Consideration of parasitic and small-geometry effects, reliability and process variation.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 4705.

Prerequisite(s): ELEC 2507.

Lectures three hours a week, problem analysis two hours a week.

ELEC 3909 [0.5 credit]**Electromagnetic Waves**

Maxwell's equations and EM wave solutions. Polarization. Poynting vector. EM waves in dielectrics and conductors; skin depth. Reflection and refraction. Standing waves. Fresnel relations, Brewster angle. Transmission lines. Line termination, basic impedance matching and transformation. Smith charts. Introduction to guided waves; slab waveguide.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3308.

Prerequisite(s): ELEC 3105 or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

ELEC 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ELEC 4502 [0.5 credit]**Microwave Circuits**

Introduction to microwave semiconductor devices, microwave passive components, microwave integrated circuit technology, and microwave circuit measurements. Basic network theory and scattering matrix description of circuits. Design of matching networks, filters, amplifiers and oscillators at microwave frequencies.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 4503; may be taken concurrently.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4503 [0.5 credit]**Radio Frequency Lines and Antennas**

Introduction to distributed circuits, travelling and standing waves, reflection coefficient, SWR, impedance transformation, Smith charts. Introduction to transmission lines; coaxial, rectangular waveguide, resonators, optical fibers. Introduction to antennas; gain, directivity, effective area. Introduction to linear arrays.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3909.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4504 [0.5 credit]**Avionics Systems**

Electromagnetic spectrum. Air data sensing, display. Communications systems. Navigation and landing systems; ground-based, inertial and satellite systems. Airborne radar. Guidance, control for aircraft, autopilots; stability augmentation; active control; sensor requirements; display techniques. Aircraft power systems. Safety systems. Vehicle/systems integration, certification. Precludes additional credit for AERO 4504 (no longer offered).

Prerequisite(s): fourth-year status in Engineering.

Not open to students in Electrical Engineering, Computer Systems Engineering, Engineering Physics or Communications Engineering.

Lecture three hours a week.

ELEC 4505 [0.5 credit]**Telecommunication Circuits**

A course of study of the commonly used circuit components in modern telecommunication systems. Both analog and digital systems are included. The design of the hardware is emphasized. Examples are drawn from broadcasting, telephony and satellite systems.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3509 and (SYSC 3501 or SYSC 3503).

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4506 [0.5 credit]**Computer-Aided Design of Circuits and Systems**

Basic principles of Computer-Aided Design tools used for analysis and design of communication circuits and systems. Frequency and time-domain analysis. Noise and distortion analysis. Transmission line effects. Sensitivity analysis and circuit performance optimization. Digital simulation.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4509 [0.5 credit]**Communication Links**

Fundamentals; decibel, intermodulation, 1dB compression, dynamic range, SNR, noise figure, noise temperature, antenna gain, EIRP, G/T. Line-of-sight links; receiver, diversity, fade margin. Satellite links; link calculations, multiple accessing, earth stations. Fiber links, fiber types, sources, detectors, systems.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

ELEC 4600 [0.5 credit]**Radar and Navigation**

Radar: operation, minimum detectable signal, propagation effects. Surveillance Radars: Moving Target indicator and Pulse Doppler operation. Radio Navigation: pulsed and CW operation. Operational systems: Loran C., VOR/DME, TACAN, Global Positioning system. Inertial Navigation. Navigation Co-ordinate Systems. Techniques for determining best estimates of position.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering or permission of the Department.

Lectures three hours a week, problem analysis 3 hours alternate weeks.

ELEC 4601 [0.5 credit]**Microprocessor Systems**

Interfacing aspects in microprocessor systems.

Microprocessors and bus structures, internal architecture, instruction set and pin functions. Memory interfacing, input-output, interrupts, direct memory accesses, special processors and multiprocessor systems.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3006 (no longer offered), SYSC 3320, SYSC 3601.

Prerequisite(s): ELEC 2607 and one of SYSC 2003 or SYSC 3003 (no longer offered) or SYSC 3006 or permission of the Department.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4602 [0.5 credit]**Electrical Power Engineering**

The electric power system. Major components: induction and synchronous machines, power transformers and connections, transmission. Analysis: balanced and unbalanced three-phase systems, symmetrical components, load flow. Operation: frequency control, steady state and transient generator stability, voltage collapse, thermal constraints. Variable speed drives, power quality.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2501 or ELEC 3605.

Lectures three hours a week, problem analysis two hours a week.

ELEC 4609 [0.5 credit]**Integrated Circuit Design and Fabrication**

Introduction to nMOS IC design: static logic gates, noise margin, transmission gates, factors influencing switching speed, dynamic logic, input protection, output buffers, circuit simulation with SPICE. Laboratory work includes design and layout of a simple nMOS IC that is fabricated and returned for testing.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3500 or ELEC 3908.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4700 [0.5 credit]**The Physics and Modeling of Advanced Devices and Technologies**

Fabrication, operation and modeling of advanced devices for information technology. Topics: physics of materials, quantum mechanics of solids, optical transitions, physical analysis and models for state-of-the-art electronic/optical technologies and materials. Technologies: MOS and III-V based transistors, solid-state optical devices, MEMS and nano-technology based devices.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3908.

Lectures three hours a week, problem analysis two hours alternate weeks.

ELEC 4702 [0.5 credit]**Fiber Optic Communications**

Fundamentals of optoelectronics with application to fiber optic communications. Optical fibre: modes, losses, dispersion, splices, coupling to sources. Optical sources: LEDs, laser diodes. Optical detectors: photoconductor, pin and avalanche photodiodes. Optical receiver design. Fiber optic communications systems: intensity modulation/direct detection; coherent homodyne or heterodyne detection.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3908 and ELEC 3909.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4703 [0.5 credit]**Solar Cells**

Semiconductor band structure, photogeneration, the solar spectrum. Detailed analysis of monocrystalline silicon solar cells. Solar cells based on thin film materials: amorphous silicon, III-V materials, organics, titania-dye cells. Cells for concentrator systems. Photovoltaic power systems. Solar cells for building envelopes.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2501 and ELEC 2507 and fourth-year status in Sustainable and Renewable Energy Engineering, or ELEC 2501 and ELEC 2507 and fourth-year status in Engineering with permission of the instructor.

Lectures three hours per week, laboratories/problem analysis three hours alternate weeks.

ELEC 4704 [0.5 credit]**Nanoscale Technology and Devices**

Engineering at the nanoscale. Quantum confinement and the effect of scale. Analysis tools: microscopy, spectroscopy. Fabrication: thin films, nanoparticles, nanotubes, graphene, organics. Structures and properties: quantum wells, nanocrystals, nanostructuring. Applications and devices: electronics, optoelectronics, photonics.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3908, ELEC 3909.

Lectures three hours a week, problem analysis 1.5 hours a week.

ELEC 4705 [0.5 credit]**Electronic Materials, Devices and Transmission Media**

Review of solid-state theory, conductors, semiconductors, superconductors, insulators, and optical and magnetic properties. Devices used in modern high speed electronic and communication systems: transistors, lasers, photodiodes, fiber optics, Josephson junctions. Implications of material properties on fabrication and operation of devices and circuits.

Precludes additional credit for ELEC 3908.

Prerequisite(s): fourth-year status in Engineering. Not available for credit to students in Electrical Engineering or Engineering Physics.

Lectures three hours a week.

ELEC 4706 [0.5 credit]**Digital Integrated Electronics**

Lectures and hands-on experience introduce advanced concepts in digital interfacing and hardware simulation. Industry standard programmable ASIC design tools, interfacing techniques and System on a Chip are introduced along with hardware modeling and design flow. A modern laboratory includes software and hardware digital design tools.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3500.

Lectures two hours a week, laboratory three hours a week.

ELEC 4707 [0.5 credit]**Analog Integrated Electronics**

Emphasis on integration of analog signal processing techniques in monolithic IC technology. Continuous active filter design. MOS IC technology. OP amp design. Basic sampled data concepts; Z-transform analysis, switched capacitor filters. Noise aspects. Bipolar technology: radio frequency IC design.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3509.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4708 [0.5 credit]**Advanced Digital Integrated Circuit Design**

Advanced Verilog, test benches. VLSI design based on CMOS technology, characteristics of CMOS logic circuits, cell libraries, building blocks, structured design, testing, Computer-Aided Design tools. Laboratory emphasis on design synthesis from Verilog.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering and ELEC 3500 or permission of the Department.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4709 [0.5 credit]**Integrated Sensors**

Overview of sensor technologies with emphasis on devices suitable for integration with silicon integrated circuits. Sensor design and fabrication principles including signal conditioning; discussion of automotive, biomedical, and other instrumentation applications.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4906 [0.5 credit]**Special Topics**

At the discretion of the Engineering Faculty Board, a course dealing with selected advanced topics of interest to students in Biomedical and Electrical, Communications, Computer Systems, Electrical and Software Engineering and Engineering Physics may be offered.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4907 [1.0 credit]**Engineering Project**

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in a major design project. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3907, ECOR 3800, ECOR 4995 (may be taken concurrently) and fourth-year status in Engineering.

Lecture one hour a week, laboratory seven hours a week.

ELEC 4908 [1.0 credit]**Engineering Physics Project**

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in a major design project approved for Engineering Physics. Lectures devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 3800, fourth-year status in Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites or corequisites.

Lecture one hour a week, laboratory seven hours a week.

Engineering Core (ECOR)

Engineering Core (ECOR) Courses

ECOR 1010 [0.5 credit]

Introduction to Engineering

Technology, society and the environment. Graphical design communication: sketching, graphical projections; CAD. Managing data: statistical methods; spreadsheets. Design analysis: matrix programming software; symbolic computer algebra systems. Design process: proposals; reports; presentations; reporting software.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1000 (no longer offered), ECOR 1047, ECOR 1054.

Lectures four hours per week, laboratories two hours per week.

ECOR 1041 [0.25 credit]

Computation and Programming

Software development as an engineering discipline, using a modern programming language. Language syntax and semantics. Tracing and visualizing program execution.

Program style and documentation. Testing and debugging tools and techniques.

Precludes additional credit for COMP 1005, COMP 1405, ECOR 1051, ECOR 1606, SYSC 1005.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1042 [0.25 credit]

Data Management

Container data types: sequences, sets, maps. Modules. Data files. Incremental, iterative development of programs. Number systems: binary, decimal. Digital representation of integers and floating point numbers. Introduction to designing and implementing numerical algorithms.

Precludes additional credit for COMP 1005, COMP 1405, ECOR 1051, ECOR 1606, SYSC 1005.

Prerequisite(s): ECOR 1041 with a minimum grade of C- and MATH 1004 (may be taken concurrently). This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1043 [0.25 credit]

Circuits

Electrical Quantities (Voltage, Charge, Current, Power). Conservation of charge and energy. Mathematical models of simple devices. Elementary circuit theory for passive elements. Thévenin's and superposition theorem. Signal filtering and amplification. Time and frequency domain.

Circuit design and simulation.

Precludes additional credit for ECOR 1052.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1044 [0.25 credit]

Mechatronics

Mechatronics applications. Analog to digital signal conversion. Control systems and PID controllers. Input devices, including sensors. Data collection and processing. Output devices, including displays, actuators, and motors. Project design and economics. Environmental Impact of mechatronics engineering. System failures and failsafe design.

Precludes additional credit for ECOR 1052.

Prerequisite(s): ECOR 1041 with a minimum grade of C- and ECOR 1043 with a minimum grade of C-. This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1045 [0.25 credit]

Statics

Cartesian vector representation of forces. Components of forces. Particle equilibrium and free body diagrams. Moments and cross product. Centre of gravity and centroids. Rigid body equilibrium.

Precludes additional credit for ECOR 1053, ECOR 1101.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1046 [0.25 credit]

Mechanics

2D truss analysis (method of joints/sections). Normal stress/strain and shear stress/strain. 2D frames and machines. Internal loads - normal, shear and moment at a point. Shear and moment diagrams.

Precludes additional credit for ECOR 1053.

Prerequisite(s): ECOR 1045 with a minimum grade of C-. This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1047 [0.25 credit]

Visual Communication

Graphs and sketches, flow charts, block diagrams. Visual presentation, projection and perspectives of objects.

3D sketching. Free hand drawing. Reading engineering drawings and schematics. Introduction to scaling, dimensioning and tolerancing. Introduction to CAD.

Precludes additional credit for ECOR 1054, ECOR 1010.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1048 [0.25 credit]**Dynamics**

Kinematics and kinetics of a particle. Principle of work and energy. Conservation of energy, conservative forces, potential energy. Principles of impulse and momentum, conservation of momentum for a system of particles. Precludes additional credit for ECOR 1054, ECOR 1101. Prerequisite(s): ECOR 1045 with a minimum grade of C-. This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1050 [2.0 credits]**Foundations of Engineering**

Foundations of engineering analysis and problem solving, the design process, project management and team work. Modules covering Engineering Profession (Act, Law and Practice); Visual Communication; Statics; Mechanics; Dynamics; Electronics; Computing; Data Management; and Mechatronics. Most modules are project based. Precludes additional credit for ECOR 1010, ECOR 1101, ECOR 1606, and ECOR 2606. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

ECOR 1051 [0.5 credit]**Fundamentals of Engineering I**

Software development as an engineering discipline, using a modern programming language. Tracing and visualization of program execution. Testing and debugging. Data management: digital representation of numbers; numerical algorithms; storing data in files; container data types: sequences, sets, maps. Includes: Experiential Learning Activity Precludes additional credit for COMP 1005, COMP 1405, ECOR 1041, ECOR 1042, ECOR 1606, SYSC 1005. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1052 [0.5 credit]**Fundamentals of Engineering II**

Electrical Quantities. Conservation of mass and energy. Mathematical models of simple devices. Elementary circuit theory for passive elements. Signal filtering and amplification. Time and frequency domain. Circuit design and simulation. Digital and analog signals. Mechatronics applications. Output devices. System failures and failsafe design. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1043, ECOR 1044. Prerequisite(s): ECOR 1051 (may be taken concurrently). Lectures three hours per week, laboratories three hours per week.

ECOR 1053 [0.5 credit]**Fundamentals of Engineering III**

Components of forces. Particle equilibrium and free body diagrams. Moments and cross product. Centre of gravity and centroids. Rigid body equilibrium. 2D Truss analysis (method of joints/sections). Normal stress/strain and Shear stress/strain. 2D frames and machines. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1045, ECOR 1046, ECOR 1101. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1054 [0.5 credit]**Fundamentals of Engineering IV**

Engineering drawings and schematics. Graphs and sketches, flow charts, block diagrams. Computer-assisted design. Kinematics/Kinetics of a particle. Principles of work and energy. The Engineering Profession and Act. Organization and time management. Project management. Business, entrepreneurship and intellectual property. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1010, ECOR 1047, ECOR 1048. Prerequisite(s): ECOR 1053 (may be taken concurrently). Lectures three hours per week, laboratories three hours per week.

ECOR 1055 [0.0 credit]**Introduction to Engineering Disciplines I**

Overview of professional activities oriented to the student's discipline of study: Architectural Conservation and Sustainability. Civil and Environmental. Aerospace and Mechanical. Electrical. Engineering Physics. Computer Systems, Communications and Software. Biomedical (Electrical and Mechanical). Sustainable and Renewable Energy. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures 1.5 hours per week.

ECOR 1056 [0.0 credit]**Introduction to Engineering Disciplines II**

Selected lectures designed to provide students with exposure to the breadth of Engineering disciplines. Online course.

ECOR 1057 [0.0 credit]**Engineering Profession**

Professional Engineers Act. Engineering documentation. History of the profession. Engineering practice: system life cycle, practice within the discipline, designing with others. Health and safety. Engineering Ethics, Equity and Diversity. Introduction to engineering law : Business, Entrepreneurship and Intellectual Property. Online course

ECOR 1101 [0.5 credit]**Mechanics I**

Introduction to mechanics. Scalars and vectors. Concurrent forces: resultant and components. Statics of particles. Moments and couples. Force system resultants. Rigid body equilibrium. Frames and machines. Internal forces. Kinematics and kinetics of particles. Conservation theorems: work-energy; impulse-momentum. Centroids and centres of gravity.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1045, ECOR 1048, ECOR 1053.

Prerequisite(s): MATH 1004 and MATH 1104.

Lectures three hours a week, tutorials and problem analysis three hours a week.

ECOR 1606 [0.5 credit]**Problem Solving and Computers**

Introduction to engineering problem solving. Defining and modeling problems, designing algorithmic solutions, using procedural programming, selection and iteration constructs, functions, arrays, converting algorithms to a program, testing and debugging. Program style, documentation, reliability. Applications to engineering problems; may include numerical methods, sorting and searching.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 1005, SYSC 1100 (no longer offered), SYSC 1102 (no longer offered), COMP 1005, COMP 1405, ECOR 1041, ECOR 1042, ECOR 1051.

Lectures three hours a week, laboratory three hours a week.

ECOR 2050 [0.5 credit]**Design and Analysis of Engineering Experiments**

Statistics and the design of engineering experiments. Basic exploratory data analysis. Central limit theorem. Hypothesis testing: t-test, chi-square test, type-I and type-II errors, multiple-comparison problem. Statistical bias. Design of experiments: randomization, blocking and replication, randomized blocking designs, factorial design. Statistical software packages.

Includes: Experiential Learning Activity

Prerequisite(s): 2nd Year Status in Engineering.

Lectures three hours a week, problem analysis and laboratory three hours a week.

ECOR 2606 [0.5 credit]**Numerical Methods**

Numerical algorithms and tools for engineering and problem solving. Sources of error and error propagation, solution of systems of linear equations, curve fitting, polynomial interpolation and splines, numerical differentiation and integration, root finding, solution of differential equations. Software tools.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2606 (no longer offered).

Prerequisite(s): MATH 1005 and (ECOR 1606 or SYSC 1005) and (ECOR 1010 or ELEC 1908).

Lectures three hours a week, laboratory one hour a week.

ECOR 2995 [0.0 credit]**Engineering Portfolio**

Students will be asked to reflect on their skills, strengths and weaknesses as preparation for the professional practice course. Engineering students must submit samples of their writing and communications (including, for example, laboratory reports and professional memos). Online

ECOR 3800 [0.5 credit]**Engineering Economics**

Introduction to engineering economics; cash flow calculations; methods of comparison of alternatives; structural analysis; replacement analysis; public projects; depreciation and income tax; effects of inflation; sensitivity analysis; break-even analysis; decision making under risk and uncertainty.

Prerequisite(s): third-year status in Engineering or (ECOR 1051, ECOR 1052, ECOR 1053 and ECOR 1054).

Lectures three hours a week.

ECOR 4995 [0.5 credit]**Professional Practice**

Presentations by faculty and external lecturers on the Professional Engineers Act, professional ethics and responsibilities, practice within the discipline and its relationship with other disciplines and to society, health and safety, environmental stewardship, principles and practice of sustainable development. Communication skills are emphasized.

Precludes additional credit for MAAE 4905, CIVE 4905, SYSC 3905 or ELEC 3905 (all no longer offered).

Prerequisite(s): ECOR 2995 and fourth-year status in Engineering.

Lectures three hours a week.

English (ENGL)

English (ENGL) Courses

ENGL 1002 [0.5 credit]

Writing and Language I

The first half of an introduction to the principles, styles, and structures of effective writing, including essay writing. Course offered only in Nunavut as part of Certificate in Nunavut Public Service Studies Program.

Includes: Experiential Learning Activity

Precludes additional credit for ENGL 1005 (no longer offered).

Lectures and workshop three hours a week.

ENGL 1003 [0.5 credit]

Writing and Language II

The second half of an introduction to the principles, styles, and structures of effective writing, including essay writing. Course offered only in Nunavut as part of Certificate in Nunavut Public Service Studies Program.

Includes: Experiential Learning Activity

Precludes additional credit for ENGL 1005 (no longer offered).

Prerequisite(s): ENGL 1002.

Lectures and workshop three hours a week.

ENGL 1008 [0.5 credit]

English Grammar: Fundamentals

A practical and intensive overview of English grammar designed for students who want to improve their understanding of grammar for their own writing and reading. This is not an ESL course.

Lectures three hours a week.

ENGL 1009 [0.5 credit]

Literature in Global Context

Introduction to the study of literature from a global perspective. Students will be exposed to writers from various locations and to methods for studying literature across national boundaries.

Lecture three hours a week.

ENGL 1010 [0.5 credit]

Writing Essays about Literature

An intensive writing course focusing on the formulation and construction of a literary essay.

Precludes additional credit for ENGL 1020.

Lectures three hours a week.

ENGL 1020 [0.5 credit]

Effective Writing

The rhetorical principles, skills, and structures necessary for the kind of writing done at the university level. Clear and effective composition as a mode of research, discovery, analysis, and persuasion. Open to students from all disciplines.

Precludes additional credit for ENGL 1010.

Prerequisite(s): English Majors in search of a dedicated writing course should take ENGL 1010 instead of ENGL 1020.

Lectures three hours a week.

ENGL 1100 [0.5 credit]

Literature, Law, and Criminality

An introductory course whose readings focus on the intersections between literature, law, and criminality. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1200, ENGL 1300, ENGL 1400, ENGL 1600, FYSM 1004.

Lecture three hours a week.

ENGL 1200 [0.5 credit]

Literature, Science, and Technology

An introductory course whose readings focus on the intersections between literature, science, and technology. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1300, ENGL 1400, ENGL 1600, FYSM 1004.

Lectures three hours a week.

ENGL 1300 [0.5 credit]

Literature, Psychology, and the Mind

An introductory course whose readings focus on the intersections between literature, psychology, and the mind. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1400, ENGL 1600, FYSM 1004.

Lectures three hours a week.

ENGL 1400 [0.5 credit]

Literature, Art, and Culture

An introductory course whose readings focus on the intersections between literature, art, and culture. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1300, ENGL 1600, FYSM 1004.

Lectures three hours a week.

ENGL 1500 [0.5 credit]

Introduction to Creative Writing

An introduction to the practice of creative writing, focusing on poetry, the short story, creative non-fiction, and drama. Emphasis is also placed on contextualizing creative writing as an academic discipline, a mode of self-expression, and a professional industry.

Includes: Experiential Learning Activity

Lectures and workshops three hours a week.

ENGL 1600 [0.5 credit]**Literature and Magic**

An introductory course whose readings focus on the intersections between literature and magic. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1300, ENGL 1400, FYSM 1004.

Lecture three hours a week.

ENGL 1609 [0.5 credit]**Introduction to Drama Studies**

An introduction to drama studies, combining attention to theatre history, conventions, and devices, with attention to theatrical practice, and interpretation of selected dramatic texts. Students will develop a vocabulary for speaking and writing with confidence about theatrical productions, theatre practice, and dramatic texts.

Lecture three hours a week.

ENGL 2005 [0.5 credit]**Theory and Criticism**

An introduction to theories and methods of literary analysis. Through the study of literature, theory, and criticism, students will explore disciplinary history, critical terms, textual analysis, and research methods.

Prerequisite(s): second-year standing or permission of the department.

Lecture three hours a week.

ENGL 2008 [1.0 credit]**Myth and Symbol**

A literary study of myths and symbols from oral traditions to contemporary forms through selected interdisciplinary and theoretical approaches.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2011 [0.5 credit]**Children's Literature**

An introduction of the critical study of children's literature. Also listed as CHST 2011.

Precludes additional credit for ENGL 2006 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2012 [0.5 credit]**Greek and Roman Epic**

An examination of the genre of epic in Greco-Roman antiquity, including a close reading of translations of Homer and Vergil.

Also listed as CLCV 2008.

Precludes additional credit for CLCV 2009, ENGL 2009.

Prerequisite(s): second year standing or permission of the unit.

Lecture three hours a week.

ENGL 2100 [0.5 credit]**Topics in Popular Culture**

Study of a selected topic related to popular culture.

Precludes additional credit for ENGL 2101.

Prerequisite(s): second-year standing or permission of the department.

Lecture three hours a week.

ENGL 2101 [0.5 credit]**Introduction to Popular Culture**

This online course is designed to expose majors and non-majors to an introductory course in the study of popular culture. Course requirements will feature a variety of assignments but no formal essay. Consult the English Department's website for detailed information.

Precludes additional credit for ENGL 2100.

Prerequisite(s): second-year standing or permission of the department. English Majors may take this course only as a free elective.

Online course.

ENGL 2103 [0.5 credit]**Introduction to the Novel**

A historical and critical study of the novel.

Precludes additional credit for ENGL 2003 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2104 [0.5 credit]**Drama Workshop**

A course dealing with the rudiments of theatrical performance: voice, movement, improvisation, interpretation. Exercises are based upon examples drawn from classical and contemporary repertoires.

Includes: Experiential Learning Activity

Precludes additional credit for ENGL 2000 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Workshop three hours a week.

ENGL 2105 [0.5 credit]**History of the English Language**

A historical study of the English language, its structure, variety, and cultural contexts, with an introduction to grammatical terminology and constructions.

Also listed as LING 2802.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2107 [0.5 credit]**Science Fiction**

A study of the history and traditions of science fiction, speculative fiction, fantasy, and utopia, covering various periods, nationalities, genres, and/or media.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2108 [0.5 credit]**Women and Literature**

Representations of women and the construction of femininity in selected literary texts, the position of women as readers and authors, and the impact of feminist criticism on literary analysis.

Precludes additional credit for ENGL 2902 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2109 [0.5 credit]**Gender, Sexuality and Literature**

How literature represents, reproduces, and resists cultural notions of gender and sexuality. Topics may include: gender and sexuality in relation to literary history, production, and reception; literature by/about "deviant" or subcultural sexualities and genders.

Precludes additional credit for ENGL 2902 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2200 [0.5 credit]**Creativity, Imagination, and Writing**

This course not only surveys theories about the imagination and creativity but also teaches various rhetorical exercises and strategies for sparking inventive thinking and new ideas to fire the writing process. Consult the English Department's website for detailed information.

Prerequisite(s): second-year standing or permission of the department. Students in English may take this course only as a free elective.

Lectures three hours a week.

ENGL 2201 [0.5 credit]**The Pleasures of Reading**

This course introduces majors and non-majors to a selection of known and unknown "masterpieces." Texts may be grouped to explore specific themes. Requirements include a variety of assignments but no formal essay. Consult the English Department's website for detailed information.

Prerequisite(s): second-year standing or permission of the department. Students in English may take this course only as a free elective.

Lectures three hours a week.

ENGL 2202 [0.5 credit]**Weird Fiction**

Introduction to a sub-category of speculative fiction that spans from traditional ghost stories and tales of the macabre to the "New Weird": contemporary writing that overthrows the clichés, conventions, and expectations of fantasy, horror, and science fiction.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2301 [0.5 credit]**Literatures and Cultures 500-1500**

A study of the period between 500 and 1500, with attention to cultural, historical, geographical, and literary contexts.

Precludes additional credit for ENGL 2300 (no longer offered).

Prerequisite(s): Second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2302 [0.5 credit]**Literatures and Cultures 1500-1700**

A study of the period between 1500 and 1700, with attention to cultural, historical, geographical, and literary contexts.

Precludes additional credit for ENGL 2300 (no longer offered).

Prerequisite(s): Second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2400 [0.5 credit]**Introduction to Digital Humanities**

An introduction to the principal debates in and approaches to the Digital Humanities.

Also listed as DIGH 2001.

Prerequisite(s): second-year standing or permission of the department.

Lecture three hours a week.

ENGL 2401 [0.5 credit]**Digital Humanities: Theory and Method**

A multidisciplinary survey of core theories, methodologies and tools within the Digital Humanities. Assignments will include collaborative work and applied projects.

Includes: Experiential Learning Activity

Also listed as DIGH 2002.

Prerequisite(s): second-year standing or permission of the department.

Lecture and workshop three hours a week.

ENGL 2500 [0.5 credit]**Classical Mythology**

A study of classical mythology, emphasizing its use in Greek and Roman literature and its place in classical art and religion. There is some discussion of classical myths in terms of contemporary interpretations of myth.

Also listed as CLCV 2500.

Precludes additional credit for ENGL 2007/CLCV 2000 (no longer offered).

Prerequisite(s): second-year standing or permission of the unit.

Lectures three hours a week.

ENGL 2600 [0.5 credit]**History of World Cinema I**

Historical survey of world cinema primarily from 1895 to 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as FILM 2606.

Precludes additional credit for ENGL 2608 (no longer offered) and FILM 2608 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120 or a 1000-level English course, and second-year standing, or permission of the discipline.

Lecture and screening three hours a week, lecture one hour a week.

ENGL 2601 [0.5 credit]**History of World Cinema II**

Historical survey of world cinema primarily since 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as FILM 2607.

Precludes additional credit for ENGL 2608 (no longer offered) and FILM 2608 (no longer offered).

Prerequisite(s): ENGL 2600 or FILM 2606 or permission of the department.

Lecture and screening three hours a week, lecture one hour a week.

ENGL 2605 [0.5 credit]**Greek and Roman Drama**

An examination of the genres of tragedy and comedy in Greco-Roman antiquity.

Also listed as CLCV 2010.

Precludes additional credit for CLCV 2009, ENGL 2009.

Prerequisite(s): second year standing or permission of the unit.

Lecture three hours a week.

ENGL 2609 [0.5 credit]**Drama: Modes and Movements**

A study of dramatic texts and traditions, offering attention to major dramatic modes and movements such as Ritual, Dance, Naturalism, Expressionism, Absurdism, Political Theatre, Feminist Theatre, and Global/Intercultural Theatre. Each will be investigated in the context of performance videos, live performances, and/or written text.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2700 [0.5 credit]**American Literatures I**

Introduction to the traditions of American literature through 1865.

Precludes additional credit for ENGL 2702 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2701 [0.5 credit]**American Literatures II**

Introduction to the traditions of American literature after 1865.

Precludes additional credit for ENGL 2702 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2709 [0.5 credit]**Indigenous Drama**

A study of dramatic literatures and theatre practice from Indigenous theatre makers, including playwrights, directors, and other practitioners.

Also listed as INDG 2709.

Prerequisite(s): second-year standing, or permission of the Department.

Lectures three hours a week.

ENGL 2802 [1.0 credit]**Indigenous and Canadian Literatures**

A survey of Canadian literary cultures in English from their beginnings to the present that frames them in the wider context of Indigenous writing and storytelling. This course is writing-attentive.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2900 [0.5 credit]**Literature of the Self**

A study of developments in the literary representation of the self. The course considers a wide range of major texts from the Middle Ages to the present.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2901 [0.5 credit]**Writing Poetry**

A workshop involving regular assignments in writing poetry and practical criticism based on this work. Permission to register in this course requires the student to submit a writing sample. Instructions can be found at carleton.ca/english.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

Workshop three hours a week.

ENGL 2903 [0.5 credit]**Writing Fiction**

A workshop involving regular assignments in writing prose fiction and practical criticism based on this work. Permission to register in this course requires the student to submit a writing sample. Instructions can be found at carleton.ca/english.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

Workshop three hours a week.

ENGL 2906 [0.5 credit]**Culture and Society**

A study of literature in relation to its social and political contexts. Topics and periods vary.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2908 [0.5 credit]**Celtic Literatures**

The literatures of Ireland, Scotland, and/or Wales. Topics will vary in national and historical scope and may be organized by theme, author, and/or genre.

Precludes additional credit for ENGL 2602 and ENGL 2606 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2910 [0.5 credit]**Book Arts Workshop**

This experiential learning course immerses students in the practical arts and histories of book production.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or permission of the department.

Workshop three hours a week.

ENGL 2915 [0.5 credit]**Writing Creative Nonfiction**

A workshop involving regular assignments in reading and writing creative nonfiction and practical criticism based on this work. Permission to register in this course requires the student to submit a writing sample. Instructions can be found at carleton.ca/english.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

Workshop three hours a week.

ENGL 2920 [0.5 credit]**Topics in Decolonization and Migration I**

An introduction to the study of literature and culture in the context of topics such as empire and decolonization, diaspora, migration and globalization, race, and ethnicity. Themes, authors, and geographical and temporal focus will vary.

Prerequisite(s): Second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2926 [0.5 credit]**African Literatures I**

An introductory survey of modern African literatures, discourses, and cultural production in the first half of the 20th century.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2927 [0.5 credit]**African Literatures II**

A survey of modern African literatures, discourses, and cultural production from the era of political independence from colonialism (the 1960s) to the present.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2936 [0.5 credit]**South Asian Literatures I**

An introductory historical survey of the literatures of South Asia to the early colonial era, starting with the Indian epics and concluding with literary traditions of 18th-century India.

Precludes additional credit for ENGL 2502 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2937 [0.5 credit]**South Asian Literatures II**

An introductory survey of literatures of South Asia from the colonial and postcolonial eras. Topics include the nationalist movement, neo-colonialism, and post-colonialism.

Precludes additional credit for ENGL 2502 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2956 [0.5 credit]**Literatures of the Americas I**

Introduction to comparative and transnational approaches to the literatures and oratures of the Caribbean, and North and South America, with emphasis on the pre-colonial and colonial eras.

Precludes additional credit for ENGL 2909 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 2957 [0.5 credit]**Literatures of the Americas II**

Introduction to comparative and transnational approaches to 20th- and 21st-century writing from the Caribbean, and North and South America.

Precludes additional credit for ENGL 2909 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

ENGL 3003 [0.5 credit]**Literatures in Translation**

A study of non-English literatures in translation with a special focus on cultural and historical contexts.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3007 [0.5 credit]**Reading Poetry**

This course is designed to enable students to develop skills in reading and writing about poetry. Readings will be chosen from a variety of authors, periods, and/or genres.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3008 [0.5 credit]**Studies in Greek Literature**

A study of an author or topic in Greek literature. Contents of this course vary from year to year.

Also listed as CLCV 3701.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) at second year level or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

ENGL 3009 [0.5 credit]**Studies in Roman Literature**

A study of an author or topic in Roman literature.

Also listed as CLCV 3702.

Prerequisite(s): 1.0 credit in CLCV courses (or equivalent) at second year level or permission of the unit. Permission of the unit is required to repeat this course.

Lecture three hours a week.

ENGL 3010 [0.5 credit]**The Secret Lives of Poems**

This course is designed to enable students to develop skills in reading and writing about great works of poetry. Course requirements will feature a combination of creative and critical exercises, but no formal essay.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3011 [0.5 credit]**Comics and Graphic Novels**

An introduction to the critical study of comic books and graphic narrative.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3105 [0.5 credit]**History of Literary Theory**

Introduction to ideas about literature, aesthetics, authorship, and readership as these have circulated in periods before the twentieth century.

Precludes additional credit for ENGL 3000 (no longer offered), and ENGL 3001 (no longer offered).

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3106 [1.0 credit]**Theories and Critical Practices**

This course offers students an interdisciplinary foundation in cultural, critical, and literary theories and practices. This course is writing attentive.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3200 [0.5 credit]**Medieval Literature**

A study of selected topics and texts from medieval literature.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3201 [1.0 credit]**European Literature**

Major movements and works from Dante's Divine Comedy through Voltaire's *Candide*. Themes include the New Humanism vs. old Chivalry in the Renaissance and Baroque periods; the rise of the modern novel and drama; reason, nature, and the Enlightenment project.

Also listed as HUMS 3200.

Prerequisite(s): HUMS 2000 and third-year standing in the Bachelor of Humanities program for Humanities Students.

English students should have third year standing with a CGPA of 8.0 or higher.

Lectures three hours a week.

ENGL 3202 [0.5 credit]**Chaucer**

A study of Chaucer's works including some attention to the Middle English language in which he wrote.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3204 [0.5 credit]**Literary Representations of Childhood and Youth**

An examination of the ways in which childhood, children, and youth have been represented in creative literature (fiction, poetry, drama, and/or creative nonfiction).

Also listed as CHST 3204.

Prerequisite(s): third-year standing.

Lecture three hours a week.

ENGL 3305 [0.5 credit]**Shakespeare and the Stage**

Introduction to the study of early modern play-texts written by Shakespeare and/or his contemporaries.

Precludes additional credit for ENGL 3304 (no longer offered).

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3306 [0.5 credit]**Shakespeare and Film**

A study of film adaptations of selected plays by Shakespeare.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3401 [0.5 credit]**The Book in the Digital Age**

A multidisciplinary course focused on the social, economic and political dimensions of the book in its manuscript, print and digital forms.

Also listed as DIGH 3001.

Prerequisite(s): third-year standing, or permission of the English Department.

Lecture three hours a week.

ENGL 3402 [0.5 credit]**18th-Century Literature**

A detailed study of authors and movements of the period 1660 to 1780.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3414 [0.5 credit]**Introduction to Professional Writing and Editing**

The fundamental skills of professional writing and editing, including writing for specific audiences, document design, revision strategies, copyediting.

Also listed as ALDS 3414.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week.

ENGL 3500 [0.5 credit]**Literatures and Cultures 1700-1900**

A study of the period between 1700 and 1900, with attention to cultural, historical, geographical, and literary contexts.

Precludes additional credit for ENGL 3502 (no longer offered).

Prerequisite(s): Third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3501 [0.5 credit]**Literatures and Cultures 1900-Now**

A study of the period between 1900 and the present, with attention to cultural, historical, geographical, and literary contexts.

Precludes additional credit for ENGL 3502 (no longer offered).

Prerequisite(s): Third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3553 [0.5 credit]**The 19th-Century Novel**

A study of the English novel in the 19th century.

Precludes additional credit for ENGL 3503 (no longer offered).

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3601 [0.5 credit]**20th- and 21st-Century Poetry**

A study of 20th and 21st-century poetry in English. Topics and authors may vary.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3603 [0.5 credit]**20th- and 21st-century Fiction**

A study of 20th- and 21st-century fiction in English. Topics and authors may vary.

Prerequisite(s): Third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3605 [0.5 credit]**Modern and Contemporary Literary Theory**

Introduction to contemporary approaches to literary texts, such as formalist, structuralist, deconstructive, psychoanalytic, Marxist, historicist, and feminist. Topics may include: the nature and role of literature, of author and reader, of canons, ideology, gender, sexuality, and race. Precludes additional credit for ENGL 3002 (no longer offered).

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3609 [0.5 credit]**Drama: Contemporary Criticism**

A study of dramatic texts and performance practices in contemporary professional theatre. Topics vary according to the season programs of professional theatre in Ottawa. Students will attend a number of productions, determined by the instructor. Field trip fees will apply.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3702 [0.5 credit]**American Culture**

A study of American writing in its cultural and historical contexts.

Precludes additional credit for ENGL 3703 (no longer offered).

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3801 [0.5 credit]**Canadian Poetry**

A study of Canadian poetry in its social and political contexts.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

ENGL 3803 [0.5 credit]**Canadian Fiction**

A study of Canadian fiction in its social and political contexts.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

ENGL 3804 [0.5 credit]**Literature and Culture in Europe**

A survey of the literature and cultural texts that have defined Europe. Examination of fiction and non-fiction texts that have contributed to and reflected the development of European culture and society.

Also listed as EURR 3001.

Prerequisite(s): second year standing.

Lecture and discussion three hours a week.

ENGL 3805 [0.5 credit]**Literature and Culture in Russia and Eurasia**

A survey of the literature and cultural texts that have defined Russian and neighbouring Slavic countries. Examination of fiction and non-fiction texts that have contributed to and reflected the development of Russian and Slavic culture and society.

Also listed as EURR 3002.

Prerequisite(s): second-year standing.

Lecture and discussion three hours a week.

ENGL 3902 [0.5 credit]**Writing Screenplays**

An intermediate workshop involving regular assignments in writing for film. Permission to register in this course requires the student to submit a writing sample.

Instructions can be found at carleton.ca/english.

Includes: Experiential Learning Activity

Also listed as FILM 3902.

Prerequisite(s): a 2000-level creative writing workshop and permission of the instructor.

Workshops three hours a week.

ENGL 3903 [0.5 credit]**Writing Fiction (Intermediate)**

An intermediate workshop involving regular assignments in writing prose fiction and practical criticism. Permission to register in this course requires the student to submit a writing sample. Instructions can be found at carleton.ca/english.

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level creative writing workshop and permission of the instructor.

Workshop three hours a week.

ENGL 3904 [0.5 credit]**Intermediate Drama Workshop**

A course dealing with techniques of characterization, principles of ensemble performance, scene analysis for actors and directors, styles of performance.

Includes: Experiential Learning Activity

Precludes additional credit for ENGL 2001 (no longer offered).

Prerequisite(s): ENGL 2104 or permission of the Department.

Workshop three hours a week.

ENGL 3906 [0.5 credit]**Writing Popular Fiction**

An intermediate workshop in creative writing that focuses on the development of writing skills specific to the crafting of narratives in such genres as Speculative Fiction, Young Adult Fiction, and Historical Fiction. Permission to register requires the student to submit a writing sample.

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level creative writing workshop and permission of the instructor.

Workshop three hours a week.

ENGL 3908 [0.5 credit]**Research and Theory in Academic Writing**

Study of contemporary research and theory (1970s to present) on academic writing in elementary, secondary and post-secondary school, with emphasis on writing in university. Consideration of what academic writing entails, how writing fosters learning, and how instruction can help students develop their writing abilities.

Includes: Experiential Learning Activity

Also listed as ALDS 3401.

Precludes additional credit for LALS 2407 [1.0], ENGL 2907, LALS 3400, LALS 3401, ENGL 3907.

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ENGL 3909 [0.5 credit]**Research and Theory in Workplace Writing**

Study of contemporary research and theory (1980s to present) in writing in workplace settings. Consideration of how writing is used in accomplishing work, how novices learn to write effectively, and what the implications are for pedagogy.

Includes: Experiential Learning Activity

Also listed as ALDS 3402.

Precludes additional credit for LALS 2407[1.0], ENGL 2907, LALS 3400, ENGL 3907.

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ENGL 3910 [0.5 credit]**From Degree to Career**

This experiential-learning course prepares students in English for their transition into the workplace. Project-based activities (including readings and research) and guest speakers will teach students to identify, develop, and apply the skills and knowledge gained from a degree in English studies.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing or permission of the department.

Lectures and workshops three hours a week.

ENGL 3911 [0.5 credit]**Cultural Studies**

This course explores cultural expression across diverse media, theorizing culture as a form of struggle that shapes material conditions, fuels knowledge production, and informs lived experience.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3915 [0.5 credit]**Special Topics in Writing**

An intermediate workshop that involves regular creative writing assignments and practical criticism based on this work. Topics will vary. Permission to register requires the student to submit a writing sample. Submission instructions and yearly special topics can be found at carleton.ca/english/.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing, a 2000-level creative writing workshop, and permission of the instructor.

Workshop three hours a week.

ENGL 3916 [0.5 credit]**Spoken Word Poetry Workshop**

This intermediate-level workshop-based course explores traditions of spoken word poetry while requiring students to create and perform their own spoken word poems.

Includes: Experiential Learning Activity

Also listed as AFRI 3916.

Prerequisite(s): third-year standing or a 2000-level writing workshop and permission of the instructor.

Workshops three hours a week.

ENGL 3920 [0.5 credit]**Literary Ecological Fieldwork**

This interdisciplinary, experiential fieldwork course brings together literature, culture, and ecology studies. At least 50% of class periods will be devoted to short field work excursions in the Ottawa region. These excursions will be complemented by classroom discussion time. Field trip fees will apply.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the department.

Field work and lectures three hours a week.

ENGL 3930 [0.5 credit]**Topics in Decolonization and Migration II**

An intermediate study of literature, culture, and research in the context of topics such as empire and decolonization, diaspora, migration and globalization, race, and ethnicity. Themes, authors, and geographical and temporal focus will vary.

Prerequisite(s): Third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3940 [0.5 credit]**Studies in Diaspora Lit.**

A study of diaspora literatures and cultures.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3960 [0.5 credit]**Studies in Indigenous Literature**

A study of Indigenous literatures and cultures.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3965 [0.5 credit]**Intro to Postcolonial Theory**

A survey of major concepts and key figures in postcolonial theory.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3972 [0.5 credit]**Studies in Postcolonial Literature**

A study of postcolonial literatures and cultures. Topics may vary from year to year. Selected course numbers may be repeated with the permission of the Department. The most recent guide is available at carleton.ca/english/.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ENGL 4001 [0.5 credit]**Studies in Poetry**

A study of a selected topic in poetry.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4003 [0.5 credit]**Studies in the Novel**

A study of a selected topic in the novel.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4004 [0.5 credit]**Writing and Knowledge-Making in the Professions**

The role of writing in constructing knowledge in the professions, as viewed from contemporary socio-cultural perspectives. Consideration of how the goals, values, and assumptions of different professions shape their writing in distinctive ways and what implications this holds for theory, research, and practice.

Includes: Experiential Learning Activity

Also listed as ALDS 4404.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week.

ENGL 4005 [0.5 credit]**Studies in Literary Theory**

Study of a selected topic in literary theory and criticism.

Precludes additional credit for ENGL 4000 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4105 [0.5 credit]**Old English**

Introduction to Anglo-Saxon literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language.

Also listed as LING 4805.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4115 [0.5 credit]**Culture and the Text**

Topics will vary from year to year.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4125 [0.5 credit]**Digital Culture and the Text I**

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year.

Also listed as DIGH 4002.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the Department.

Seminar or lecture three hours a week.

ENGL 4135 [0.5 credit]**Studies in Publishing**

Topics will vary from year to year.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4145 [0.5 credit]**Digital Culture and the Text II**

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year.

Also listed as DIGH 4003.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the Department.

Seminar or lecture three hours a week.

ENGL 4155 [0.5 credit]**Studies in Digital Humanities**

A study of current issues and debates in the Digital Humanities.

Also listed as DIGH 4001.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the English Department.

Seminar or lecture three hours a week.

ENGL 4208 [0.5 credit]**Studies in Medieval Literature**

A study of a selected topic in Medieval literature; requires previous experience reading medieval English.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4301 [0.5 credit]**Studies in Renaissance Literature**

A study of a selected topic in Renaissance literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4401 [0.5 credit]**Studies in 18th-Century Literature**

A study of a selected topic in Restoration or 18th-century literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4404 [0.5 credit]**Digital Humanities Workshop**

This workshop will provide students with the opportunity to complete an individual or collaborative capstone project in the Digital Humanities.

Includes: Experiential Learning Activity

Also listed as DIGH 4004.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the English Department.

Workshop three hours a week.

ENGL 4405 [0.5 credit]**Digital Humanities Practicum**

Practical experience gained by working on projects under the supervision of the staff of a participating public- or private-sector institution or organization, including a final written assignment or equivalent project. A maximum of 1.0 practicum credit may be applied towards degree requirements.

Includes: Experiential Learning Activity

Also listed as DIGH 4005.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the English Department.

Practicum.

ENGL 4414 [0.5 credit]**Professional Writing I**

The role of writing in government and NGOs.

Consideration of various genres, practices and styles of government and NGO writing, including grant proposals, administrative reports, press releases, briefing notes, recommendation reports.

Includes: Experiential Learning Activity

Also listed as ALDS 4414.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week. May include a work placement.

ENGL 4415 [0.5 credit]**Professional Writing II**

The role of writing in science-related fields and in the health professions. Consideration of various genres, practices and styles of scientific and health-related writing, including research reports, grant proposals, case reports, popularizations of science, press releases.

Includes: Experiential Learning Activity

Also listed as ALDS 4415.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week. May include a work placement.

ENGL 4500 [0.5 credit]**Studies in Romanticism**

A study of a selected topic, 1770-1830.

Precludes additional credit for ENGL 4407 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4515 [0.5 credit]**Teaching Writing in School and the Workplace**

Introduction to approaches for teaching writing in elementary and secondary school, in university, and in the workplace, with a focus on socio-cultural theories of language and learning. Discussion of applications of these approaches to classroom and workplace teaching.

Includes: Experiential Learning Activity

Also listed as ALDS 4405.

Precludes additional credit for LALS 4906 if taken in 2010, or ALDS 4906A if taken in 2011.

Prerequisite(s): third-year standing, or permission of the instructor.

Seminar three hours a week.

ENGL 4550 [0.5 credit]**Studies in Victorian Literature**

A study of a selected topic in 19th-century British literature, 1830-1900.

Precludes additional credit for ENGL 4501 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4600 [0.5 credit]**The Great Russian Novel**

A study of masterpieces of the Russian tradition, to be selected from among works by writers such as Tolstoy, Dostoevsky, Gogol, Turgenev, Bely, Bulgakov, and Nabokov. All novels will be read in English translation.

Also listed as EURR 4103.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4601 [0.5 credit]**Studies in Contemporary Poetry**

A comparative and transnational approach to 20th- and 21st-century poetry.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4605 [0.5 credit]**Theatre Production Seminar**

This course offers students advanced engagement with the theory and application of theatrical crafts and includes participation in a writing, acting, or technical capacity on a class production.

Includes: Experiential Learning Activity

Prerequisite(s): ENGL 3904 or permission of the department; and prior or concurrent participation in a production with Sock'n'Buskin or another local theatre company.

Seminar three hours a week.

ENGL 4607 [0.5 credit]**Studies in 20th- and 21st-century Literature**

A study of a selected topic in literature of the 20th and 21st century.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4609 [0.5 credit]**Global Stages and Theories**

An advanced study of dramatic texts from transnational, postcolonial, or European contexts. This course will offer sustained attention to specific theatre traditions, theatrical practice, and interpretation of texts. Topics and points of emphasis vary from year to year.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4708 [0.5 credit]**Studies in American Literature I**

A study of a selected topic in American literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4709 [0.5 credit]**Studies in American Literature II**

A study of a selected topic in American literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4802 [0.5 credit]**Race, Ethnicity and Canadian Lit.**

A study of Canadian literature that engages with notions of race and ethnicity.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4806 [0.5 credit]**Studies in Canadian Literature I**

A study of a selected topic in Canadian literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4807 [0.5 credit]**Studies in Canadian Literature II**

A study of a selected topic in Canadian literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4908 [1.0 credit]**Independent Study**

Independent research and writing, under the supervision of English faculty, requiring an essay of approximately 10,000 words. A written proposal outlining the project must be submitted to the undergraduate supervisor by July 31.

Not available to students in a Combined Honours program.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in English with a CGPA of 10.0 in English courses, and permission of the undergraduate supervisor.

ENGL 4909 [0.5 credit]**Writing and Knowledge-Making in the Disciplines**

The role of writing in constructing knowledge in academic disciplines, as viewed from contemporary socio-cultural perspectives. Consideration of how the goals, values, and assumptions of different disciplines shape their writing in distinctive ways and what implications this holds for pedagogy.

Includes: Experiential Learning Activity

Also listed as ALDS 4403.

Precludes additional credit for LALS 5406 (no longer offered) or ALDS 5602 (no longer offered) or LALS 5602 (no longer offered).

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ENGL 4910 [0.5 credit]**Independent Creative Writing Project**

Independent creative writing, under the supervision of Departmental faculty, requiring the production of a poetry manuscript (10-15 poems), a one-act play, a 10,000-word novella, or two short stories. A written proposal outlining the project must be submitted to the faculty supervisor by July 31.

Includes: Experiential Learning Activity

Prerequisite(s): completion of required credits for the Creative Writing Concentration, fourth-year Honours standing in English with a CGPA OF 10.0 in English courses, and permission of the Undergraduate Supervisor in conjunction with the faculty supervisor.

ENGL 4915 [0.5 credit]**Advanced Writing Workshop**

An advanced workshop involving regular assignments in creative writing and practical criticism based on this work.

Topics will vary.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in English, a 3000-level creative writing workshop, or permission of the instructor. Permission to register in this course requires the student to submit a writing sample. Instructions on this process and on yearly special topics can be found at carleton.ca/english.

Workshop three hours a week.

ENGL 4947 [0.5 credit]**Issues in Diaspora Literature**

A study of a selected topic in diaspora literature and culture.

Precludes additional credit for ENGL 4907 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4950 [0.5 credit]**Topics in Postcolonial and Diaspora Lit. and Theory**

A study of a selected topic in postcolonial and/or diaspora literatures and theories. Themes, authors, and geographical and temporal focus will vary.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4960 [0.5 credit]**Indigenous Literatures I**

A study of the literatures produced by Indigenous storytellers and writers, with a focus on the oral tradition and life writing.

Precludes additional credit for ENGL 4808 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4961 [0.5 credit]**Indigenous Literatures II**

A study of the contemporary period of Indigenous literature, examining the historical and mythic influences on the literature.

Precludes additional credit for ENGL 4808 and ENGL 4809 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4975 [0.5 credit]**Issues in Postcolonial Theory**

A study of a selected issue in postcolonial and/or diaspora theory.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4976 [0.5 credit]**Issues in Postcolonial Literature**

A study of a selected topic in postcolonial literature and culture.

Precludes additional credit for ENGL 4906 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

English as a Second Language (ESLA)

English as a Second Language (ESLA) Courses**ESLA 1300 [1.0 credit]****Introductory English as a Second Language for Academic Purposes**

For students with little or no experience with academic English. Introduction to integrated language strategies, critical thinking, and basic research techniques for success at university. Attendance and participation are compulsory.

Includes: Experiential Learning Activity

Prerequisite(s): placement by an approved English language proficiency test, as determined by the School.

Not open to native speakers of English.

Six hours a week (one term), plus a two-hour weekly lab.

ESLA 1500 [1.0 credit]**Intermediate English as a Second Language for Academic Purposes**

For students with moderate experience with academic English. Development and application of academic language conventions, critical thinking and research strategies for success at university. Attendance and participation are compulsory.

Prerequisite(s): grade of C or higher in ESLA 1300 or placement by an approved English language proficiency test, as determined by the School. Not open to native speakers of English.

Six hours a week (one term).

ESLA 1900 [1.0 credit]**Advanced English as a Second Language for Academic Purposes**

For students needing further refinement of academic English. Analysis and synthesis of academic texts and consolidation of academic language and research practices. Attendance and participation are compulsory.

Prerequisite(s): grade of C+ or higher in ESLA 1500 or placement by an approved English language proficiency test, as determined by the School. Not open to native speakers of English.

Six hours a week (one term).

ESLA 1905 [1.0 credit]**Advanced English as a Second Language for Engineering Students**

ESP (English for Specific Purposes) for students in Engineering and Industrial Design needing further refinement of academic English. Development of technical communication skills: reports, design projects, schematics, and oral presentations appropriate to academic and professional needs. Attendance and participation are compulsory.

Prerequisite(s): grade of C+ or higher in ESLA 1500 or placement by an approved English language proficiency test, as determined by the School. Not open to native speakers of English.

Three hours a week (two terms) or six hours a week (one term).

ESLA 1906 [0.5 credit]**Advanced ESL Writing for Specific Disciplines**

Strategies for writing academic papers in specific disciplines. Individual sections limited to students from a specified discipline. Not open to native speakers of English.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the academic unit housing the specified discipline.

Three hours a week plus tutorials one hour a week (one term).

ESLA 2000 [0.5 credit]**English Language Development for Specific Purposes I**

For students in designated programs. Designed primarily for students whose first language is not English. Topics to be determined.

Prerequisite(s): permission of the School.

Three hours a week.

ESLA 3000 [0.5 credit]**English Language Development for Specific Purposes II**

For students in designated programs. Designed primarily for students whose first language is not English. Topics to be determined.

Prerequisite(s): permission of the School.

Three hours a week.

Environmental Engineering (ENVE)

Environmental Engineering (ENVE) Courses**ENVE 1001 [0.5 credit]****Architecture and the Environment**

Impacts of the environment on architecture; deterioration, freeze/thaw, solar heat, air pollution, moisture; Impacts of architecture on the environment; ecologic footprint, energy consumption, air quality, waste generation; designing with the environment; renewable energy, effective siting and landscape, passive solar energy, natural lighting, energy efficiency.

Lectures three hours a week, problem analysis one and a half hours a week.

ENVE 2001 [0.5 credit]**Process Analysis for Environmental Engineering**

Material and energy balances for reacting and non-reacting systems. Applications in mining, metallurgy, pulp and paper, power generation, energy utilization. Emissions to the environment per unit product or service generated. Introduction to life cycle analysis, comparative products and processes.

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent, and MAAE 2400 (may be taken concurrently), and second-year status in Engineering.

Lectures two hours a week, problem analysis three hours a week.

ENVE 2002 [0.5 credit]**Microbiology**

The biology of the Bacteria, Archaea, Viruses and Protozoans, from the fundamentals of cell chemistry, molecular biology, structure and function, to their involvement in ecological and industrial processes and human disease.

Also listed as BIOL 2303.

Prerequisite(s): BIOL 1103 or CHEM 1002 or CHEM 1101 or equivalent.

Lectures three hours a week.

ENVE 3001 [0.5 credit]**Water Treatment Principles and Design**

Theoretical aspects of unit operations for water treatment with design applications. Topics include water characteristics and contaminants, coagulation, flocculation, sedimentation, filtration, adsorption, ion exchange, membrane processes, disinfection and disinfection by-products, and management of water treatment residuals. Laboratory procedures: settling operations, filtration, aeration, and adsorption.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 3002.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 3002 [0.5 credit]**Environmental Engineering Systems Modeling**

Engineered systems for pollution abatement; chemical reaction engineering; reaction kinetics and rate data analysis; design and modeling of reactors; single and multiple reactions; ideal and nonideal reactors; single and multi-parameter models; biochemical reaction engineering; process control. Laboratory procedures: reactor systems performance: Batch, CSTR and PFR.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent and MATH 2004, and second-year status in Engineering.

Additional recommended background: ENVE 2001.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 3003 [0.5 credit]**Water Resources Engineering**

A quantitative analysis of natural water systems and the development of these systems as a resource.

Components of the hydrologic cycle. Quantitative analysis of stream flow. Probability concepts in water resources.

Reservoir design and operation. Hydraulic properties and availability of groundwater. Storm water management.

Also listed as GEOG 4103.

Prerequisite(s): third-year status in Engineering.

Lectures three hours a week, problem analysis one hour a week.

ENVE 3004 [0.5 credit]**Contaminant and Pollutant Transport in the Environment**

Physical phenomenon governing the transport of contaminants in the environment: diffusion, advection, dispersion, sorption, interphase transfer. Derivation and application of transport equations in air, surface and groundwater pollution; analytical and numerical solutions. Equilibrium partitioning of contaminants among air, water, sediment, and biota.

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent; ENVE 3002.

Lectures three hours a week, problem analysis one hour a week.

ENVE 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ENVE 4002 [0.5 credit]**Environmental Geotechnical Engineering**

Landfill design; hydrogeologic principles, water budget, landfill liners, geosynthetics, landfill covers, quality control/quality assurance, clay leachate interaction, composite liner design and leak detection. Landfill operation, maintenance and monitoring. Case studies of landfill design and performance. Geotechnical design of environmental control and containment systems.

Prerequisite(s): ENVE 3004, CIVE 3208.

Also offered at the graduate level, with different requirements, as ENVE 5201/EVG 7201, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week.

ENVE 4003 [0.5 credit]**Air Pollution and Emissions Control**

Air pollutants, classification, sources, and effects. Ambient air quality objectives and monitoring. Pollutant formation mechanisms in combustion. Major pollutant categories and control methods. Indoor air quality. Laboratory procedures: emissions from boilers and IC engines, particulate size distribution and control, IAQ parameters.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering or permission of the department.

Also offered at the graduate level, with different requirements, as ENVE 5101/EVG 5101, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 4005 [0.5 credit]**Wastewater Treatment Principles and Design**

Theoretical aspects of unit operations and processes for wastewater treatment with design applications. Topics include wastewater characteristics, flow rates, primary treatment, chemical unit processes, biological treatment processes, advanced wastewater treatment, disinfection, biosolids treatment and disposal. Laboratory procedures: activated sludge, anaerobic growth, chemical precipitation, disinfection.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 3001, ENVE 3002.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 4006 [0.5 credit]**Contaminant Hydrogeology**

Theory of flow through porous media. Site investigation: geology, hydrology and chemistry. Contaminant transport. Unsaturated and multiphase flow. Numerical modeling. Site remediation and remediation technologies.

Prerequisite(s): ENVE 3004 and MAAE 2300. Additional recommended background: ENVE 3003.

Also offered at the graduate level, with different requirements, as ENVE 5301/EVG 7301, for which additional credit is precluded.

Lectures three hours a week, problem analysis one and a half hours a week.

ENVE 4101 [0.5 credit]**Waste Management**

Municipal, hazardous, and mine waste management. Waste composition and potential impacts, collection and transport, recycling and reuse, biological and thermal treatments, isolation. Integrated waste management planning.

Prerequisite(s): ENVE 3001, ENVE 3002 and ENVE 3004.

Also offered at the graduate level, with different requirements, as ENVE 5203/EVG 5203, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week.

ENVE 4104 [0.5 credit]**Environmental Planning and Impact Assessment**

Canada and U.S. environmental regulations. Framework for Environmental Impact Assessment, survey techniques for impact assessment and EIA review process. Case studies of selected engineering projects. Environmental planning, management of residuals and environmental standards. Risk assessment, policy development and decision-making. Fault-tree analysis.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 3004 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

ENVE 4105 [0.5 credit]**Green Building Design**

Concepts, calculations, modeling; design of green buildings and their components; sustainable sites and landscaping; passive design; building envelope; building materials; daylighting; heating, cooling, and ventilation; building-integrated renewable energy systems; indoor environmental quality; overview of building standards and codes.

Prerequisite(s): fourth-year status in B.Eng. Architectural Conservation and Sustainability Engineering, Environmental Engineering or Civil Engineering or fourth-year standing in B.A.S. concentration in Conservation and Sustainability.

Lectures three hours a week, problem analysis one and a half hours per week.

ENVE 4106 [0.5 credit]**Indoor Environmental Quality**

Indoor environmental quality (air quality, thermal, visual, and acoustic comfort); physical and chemical parameters for characterization. Types and sources of indoor air pollution and discomfort; measurement techniques. Heating, ventilation, air conditioning, lighting practices and issues. Modelling of and design for indoor environmental quality.

Prerequisite(s): fourth year status in B.Eng. Architectural Conservation and Sustainability Engineering or B.Eng. Environmental Engineering or fourth year standing in B.A.S. concentration in Conservation and Sustainability. Also offered at the graduate level, with different requirements, as ENVE 5104, for which additional credit is precluded.

Lectures three hours a week, problem analysis and laboratory three hours alternate weeks.

ENVE 4107 [0.5 credit]**Building Services Engineering**

This course provides details on how buildings are designed and operated. The materials provide foundational knowledge to understand building services: mechanical, electrical, plumbing systems with associated controls.

Prerequisite(s): CIVE 3209, ENVE 4105 (may be taken concurrently).

Lecture three hours per week, problem analysis three hours every other week.

ENVE 4200 [0.5 credit]**Climate Change and Engineering**

Survey of the physical science of climate change, impacts on the built environment, and climate adaptation in engineering. Greenhouse gases, global warming, paleoclimatology, and Earth system responses. Climate change impacts on structural, water, transportation, and energy systems. Climate vulnerability assessment, examples of design adaptation.

Prerequisite(s): Fourth-year status in Engineering. Also offered at the graduate level, with different requirements, as ENVE 5200, for which additional credit is precluded.

Lecture three hours per week, problem analysis three hours every other week.

ENVE 4907 [1.0 credit]**Engineering Research Project**

A research project in engineering analysis, design or development carried out by individual students or small teams, for an opportunity to develop initiative, self-reliance, creative ability and engineering judgment and is normally intended for students with high CGPAs and an interest in graduate studies.

Includes: Experiential Learning Activity
Precludes additional credit for ENVE 4917.

Prerequisite(s): fourth-year status in Engineering and permission of the department.

ENVE 4917 [0.5 credit]**Undergraduate Directed Study**

Student carries out a study, analysis, and solution of an engineering problem which results in a written final report. Carried out under close supervision of a faculty member. Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity
Precludes additional credit for ENVE 4907.

Prerequisite(s): permission of the Department and completion of, or concurrent registration in, ENVE 4918. Self study.

ENVE 4918 [1.0 credit]**Design Project**

Teams of students develop professional level experience through a design project that incorporates fundamentals acquired in previous mathematics, science, engineering, and complementary studies courses. A final report and oral presentations are required.

Includes: Experiential Learning Activity
Prerequisite(s): ECOR 3800 and fourth-year Status in Engineering. Certain projects may have additional requirements.

Lectures two hours alternate weeks, problem analysis three hours a week.

Environmental Science (ENSC)

Environmental Science (ENSC) Courses

ENSC 1500 [0.5 credit]

Environmental Science Seminar

The purpose and nature of the program; society's view on the natural and human-modified environment; major environmental issues and their scientific aspects; preparation and presentation of paper and seminars.

Includes: Experiential Learning Activity

Prerequisite(s): enrolment in the Environmental Science program.

Lectures, seminars and workshops four hours a week.

ENSC 2000 [0.5 credit]

Environmental Science Field Methods

A field-based course introducing students to practical methods in environmental science. Topics will include earth sciences, geography, biology, and chemistry related aspects of environmental sciences and will focus on quantitative techniques to assess environmental impacts and management. A supplementary fee will apply.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 1006 and BIOL 1004 or BIOL 1104, CHEM 1001 and CHEM 1002 and permission of the Institute.

Field trips, lectures and workshops, seven hours per week (delivered on a single day and on up to two mandatory weekend trips).

ENSC 2001 [0.5 credit]

Earth Resources and Natural Hazards: Environmental Impacts

Environmental impact of mineral, energy and water resource exploitation and impact of hazardous Earth processes such as volcanic eruptions, earthquakes and others: their prediction and mitigation.

Lectures three hours per week.

ENSC 2002 [0.5 credit]

Methods and Analysis in Environmental Science

Study and application of qualitative and quantitative techniques in environmental science, including study design, data collection and assembly, database manipulation, data analysis, and critically evaluating scientific information.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 2507 or permission from the Institute.

Lectures and seminars three hours a week.

ENSC 3000 [0.5 credit]

Environmental Science and Management: Theory and Practice

Theoretical and practical perspectives related to environmental science and management; Emphasis on real-world problems associated with human activities and development of solutions in natural and built environments; Hands-on experience with environmental monitoring and restoration. A supplementary fee will apply.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Environmental Science or permission of the Institute.

Field trips, lectures and workshops, 7 hours per week (delivered on a single day).

ENSC 3106 [0.5 credit]

Aquatic science and Management

Fundamentals of aquatic science. The physical, chemical, and biotic aspects of lake, river, and estuary systems including human impacts, management and conservation.

Includes: Experiential Learning Activity

Also listed as GEOG 3106.

Prerequisite(s): third-year standing and a second year science or engineering course.

Workshop four hours per week.

ENSC 3509 [0.5 credit]

Group Research in Environmental Science

Major project relating to an issue involving environmental science; effective methods of team research and presentation of group work. May include field work during class time or on weekends.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Honours Environmental Science program or permission of the Institute.

Lectures, seminars and workshops three hours a week.

ENSC 3700 [0.5 credit]

Topics in Environmental Science

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): Third year standing in the Environmental Science program or permission of the Institute.

ENSC 3906 [0.5 credit]

Project Planning for Environmental Research

Independent or group study on the fundamentals of scientific investigation, which may include use of literature, learning of research techniques, and development of a research proposal, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): Good standing in third year Environmental Science and permission of the Institute.

ENSC 3999 [0.0 credit]**Co-operative Work Term**

Practical experience for students enrolled in the Co-operative Option. To receive course credit a student must receive satisfactory evaluations from their work term employer. Written reports describing the work term project will be required. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Environmental Science Co-operative Option and permission of the Institute. Four-month work term.

ENSC 4001 [0.5 credit]**Environmental Science Practicum**

Experience working in the environmental science sector, applying academic training to practical environmental issues. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Environmental Science program.

ENSC 4002 [0.5 credit]**Environmental Decisions**

The regulatory and scientific aspects of environmental management decisions, including risk analysis and mitigation, managing chronic and acute environmental impacts, and conservation of species and landscapes. Students will use real-world case studies to learn traditional and cutting-edge decision-making tools.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in any B.Sc. program or permission of the Institute.

Workshops three hours per week.

ENSC 4003 [0.5 credit]**Food Systems and the Environment**

This course explores issues of food systems and their sustainability. We will discuss aspects of food systems, including production, distribution, consumption, waste management, and their impact on communities and the environment.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in B.Sc. or B.HSc. program or permission of the Institute.

Lecture three hours per week.

ENSC 4700 [0.5 credit]**Topics in Environmental Science**

Prerequisite(s): third-year standing in the Environmental Science program or permission of the Institute.

Lectures and discussion three hours a week.

ENSC 4901 [0.5 credit]**Directed Projects**

Independent or group study, for fourth-year students to explore a particular project, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Institute. Students normally may not offer more than 1.0 credit of Directed Special Studies in their program.

ENSC 4906 [1.0 credit]**Honours Research Project**

An independent investigation into an aspect of environmental science supervised by a member of the faculty. Approval of the topic and the research schedule must be obtained from the project supervisor and the course coordinator before the last date for registration.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Honours Environmental Science program, a major CGPA 8.0 and permission of the Institute.

independent study

Environmental Studies (ENST)

Environmental Studies (ENST) Courses**ENST 1000 [0.5 credit]****Introduction to Environmental Studies**

A critical introduction to the scholarly field of environmental studies, with an emphasis on society-environment entanglements. It is designed to engage with environmental issues. Possible themes include population, scarcity, institutions, commons, risks, hazards, markets, political economy, and the social construction of nature.

Precludes additional credit for FYSM 1100 and ENST 1001 (no longer offered).

Lecture two hours and workshops/tutorials one hour weekly.

ENST 1020 [0.5 credit]**People, Places and Environments**

Introduction to human geography. Examination of relationships between people, communities, society and the natural environment at local to global scales.

Population change, cultural patterns, and historical, economic, political and environmental forces that shape human activity and experiences from place to place.

Includes: Experiential Learning Activity

Also listed as GEOG 1020.

Lectures two hours a week and tutorial one hour a week.

ENST 2000 [0.5 credit]**Environmental Justice**

Contemporary and foundational theories, practice and praxis of environmental justice in Canadian and comparative settings. Combine and communicate about aspects of the physical, built and social environments to understand how uneven conditions develop. Strategies and ideas to move towards greater equity and good environmental relationships.

Prerequisite(s): second-year standing in the Environmental Studies program or permission of the Department.

Lecture two hours a week, discussion one hour a week.

ENST 2001 [0.5 credit]**Sustainable Futures: Environmental Challenges and Solutions**

Individual and collective responses to pressing environmental problems. Innovative ways in which the environment can be protected and restored, taking into consideration socioeconomic, political and cultural factors. Topics include environmental lifestyles, sustainable communities, food systems, environmental design, and political activism.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the Environmental Studies program or permission of the Department.

Lectures, seminars and field work three hours a week.

ENST 2005 [0.5 credit]**Introduction to Qualitative Research**

Introduction to the research process, from generating questions through to reporting results. Topics include intensive and extensive research approaches; the use of surveys, interviews and other data collection methods; the analysis of qualitative information; and the ethical dimensions of doing research with people and communities.

Includes: Experiential Learning Activity

Also listed as GEOG 2005.

Prerequisite(s): 1.0 credit in GEOG or ENST at the 1000-level and second-year standing, or permission of the Department.

Lectures two hours a week, workshop two hours a week.

ENST 2006 [0.5 credit]**Introduction to Quantitative Research**

Introduction to solving problems using descriptive and inferential statistical methods. Graphical and numerical tools to describe distributions. Probability, sampling and estimates, and hypothesis testing. Fundamentals of spatial statistics and analysis.

Includes: Experiential Learning Activity

Also listed as GEOG 2006.

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), NEUR 2002, PSCI 2702, STAT 2507, STAT 2606.

Lectures two hours a week, laboratory two hours a week.

ENST 2500 [0.5 credit]**Climate Change: Social Science Perspectives**

An introduction to climate change as a political, economic and socio-cultural phenomenon, including the political-economic and world-historical causes of anthropogenic greenhouse gas emissions; variations in impact and vulnerability; climate justice and other political movements; global mitigation and adaptation strategies; and proposals for radical systemic change.

Includes: Experiential Learning Activity

Also listed as GEOG 2500.

Prerequisite(s): second-year standing or permission of the department.

Lectures two hours a week, discussion groups one hour a week.

ENST 3000 [0.5 credit]**Nature, Environment and Society**

Overview of social science perspectives analyzing the relationship of society and the environment. Examination of environmental problems, solutions, conditions, and interventions through the study of concepts, theories, and research drawn from a range of scholarly approaches to questions of nature.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Environmental Studies or permission of the department.

Lecture and discussion three hours a week.

ENST 3022 [0.5 credit]**Environmental and Natural Resources**

Exploration of complexity, dynamics, uncertainty and equity issues underpinning environmental and resource issues; review and appraisal of selected contemporary methods to assess and manage environmental and natural resources.

Includes: Experiential Learning Activity

Also listed as GEOG 3022.

Prerequisite(s): third-year standing in Geography or Environmental Studies or BGIInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

ENST 3900 [0.5 credit]**Honours Field Course**

Field research, with a focus on data collection methods, analysis and presentation of findings. Design and conduct research that links the human and biophysical environment. Topics may change from year to year.

Includes: Experiential Learning Activity

Also listed as GEOG 3000.

Precludes additional credit for ENST 2900 (no longer offered).

Prerequisite(s): GEOG 2005/ ENST 2005 and GEOG 2006/ ENST 2006, third-year Honours standing in Environmental Studies, Geomatics, or Geography, or permission of the Department.

Normally consists of a multi-day field excursion in the Ottawa region. A supplementary charge may apply.

Consult the department regarding course details.

ENST 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ENST 4000 [0.5 credit]**Environmental Studies Seminar**

An advanced seminar designed to provide a capstone experience that builds upon and applies the analytical skills and interdisciplinary knowledge acquired in the Environmental Studies program. Topics vary year to year and by course section (see departmental website).

Includes: Experiential Learning Activity

Prerequisite(s): Registration is restricted to students eligible for fourth-year standing in the B.A. (Environmental Studies) Honours program.

Seminar three hours per week.

ENST 4001 [0.5 credit]**Environmental Studies Practicum I**

External agency setting provides the basis for translating academic training into practical involvement with environmental issues. Observation and involvement in issues and research methods used by professional environmental practitioners.

Includes: Experiential Learning Activity

Prerequisite(s): registration is restricted to students eligible for fourth-year standing in the B.A. (Environmental Studies) Honours program, and permission of the Environmental Studies Co-ordinator.

ENST 4002 [0.5 credit]**Environmental Studies Practicum II**

External agency setting provides the basis for translating academic training into practical involvement with environmental issues. Observation and involvement in issues and research methods used by environmental practitioners.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the fourth year of the Environmental Studies Honours program, and permission of the Environmental Studies Co-ordinator.

ENST 4004 [0.5 credit]**Environmental Impact Assessment**

Principles, scope and purpose of environmental impact assessment, from conceptual and methodological points of view; range of environmental issues, with emphasis on Canadian case studies.

Includes: Experiential Learning Activity

Also listed as GEOG 4004.

Prerequisite(s): GEOG 3022 or ENST 3022, and fourth-year Honours standing in Geography or Environmental Studies or Environmental Science, or permission of the Department.

Lectures and seminars three hours per week.

ENST 4005 [0.5 credit]**Directed Studies in Environmental Studies**

Students pursue their interest in a selected theme in environmental studies on a tutorial basis with a faculty member.

Prerequisite(s): permission of the Department.

ENST 4006 [0.5 credit]**Environmental Policy Analysis**

Critical examination of the creation, implementation and effectiveness of government policies related to environmental issues. Emphasis on perspectives, actors, institutions and social and economic relationships affecting policy responses to these issues, and on tools for analyzing the implications of specific policy choices.

Prerequisite(s): fourth-year Honours standing in Environmental Studies, Geography, or permission of the Department.

Seminar three hours per week.

ENST 4007 [0.5 credit]**Special Topics in Geography and Environmental Studies**

Selected topics in geography and/or environmental studies.

Also listed as GEOG 4007.

Precludes additional credit for GEOG 4006 (no longer offered).

Prerequisite(s): fourth-year Honours standing in the Department or permission of the Department.

Seminar three hours per week.

ENST 4022 [0.5 credit]**Seminar in People, Resources, and Environmental Change**

A selected topic or field of inquiry concerning natural resource use and environmental change.

Also listed as GEOG 4022.

Prerequisite(s): GEOG 3022 or ENST 3022 and fourth-year Honours standing in Geography or Environmental Studies or BGIInS Specialization in Globalization and Environment, or permission of the Department.

Seminar three hours per week.

ENST 4050 [0.5 credit]**Environmental and Geographic Education**

Selected theoretical and applied issues concerning environmental and geographic education.

Also listed as GEOG 4050.

Prerequisite(s): Third-year honours standing in Geography or Environmental Studies, or permission of the Department.

Seminar three hours per week.

ENST 4400 [0.5 credit]**Field Studies**

Field observation and methodology in a selected region, special topic or contemporary problem; on an individual or group basis.

Includes: Experiential Learning Activity

Also listed as GEOG 4000.

Prerequisite(s): third-year Honours standing and permission of the Department.

Hours to be arranged.

ENST 4906 [1.0 credit]**Honours Research Project**

An independent investigation into a select aspect of environmental studies, supervised by a faculty member.

Possible outcomes might include: workshops, audio-visual productions, lay publications, and field projects accompanied by an essay demonstrating the student's capacity to critically reflect on the research project.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4909, GEOM 4909, GEOG 4906, GEOM 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in Environmental Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

ENST 4907 [1.0 credit]**Honours Research Essay**

Interdisciplinary research essay on an environmental issue, carried out in consultation with a faculty supervisor. The student must consult with the undergraduate student advisor in selecting a project and a supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for ENST 4906, GEOG 4909, GEOM 4909, GEOG 4904/GEOM 4904 (no longer offered), GEOG 4906 and GEOM 4906.

Prerequisite(s): fourth-year Honours standing in Environmental Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

European, Russian and Eurasian Studies (EURR)

European and Russian Studies (EURR) Courses**EURR 1001 [0.5 credit]****Introduction to European and Russian Studies**

An introduction to the study of Europe and Russia, including aspects of the histories, societies, cultures, and politics of the region.

Includes: Experiential Learning Activity

Lectures/groups three hours a week.

EURR 2001 [0.5 credit]**Current Issues in European Politics and Society**

An interdisciplinary examination of social, political, and economic issues facing Europe, including the countries of the European Union, Eastern Europe, and Russia.

Prerequisite(s): second-year standing.

Lecture and discussion three hours a week.

EURR 2002 [0.5 credit]**Europe and Russia in the World**

The position of Europe, the European Union, and the Russian Federation in a global context, including geopolitical, economic, security, and human dimensions.

Prerequisite(s): second year standing.

Lecture and discussion three hours a week.

EURR 3001 [0.5 credit]**Literature and Culture in Europe**

A survey of the literature and cultural texts that have defined Europe. Examination of fiction and non-fiction texts that have contributed to and reflected the development of European culture and society.

Also listed as ENGL 3804.

Precludes additional credit for EURR 2000 or ENGL 2010.

Prerequisite(s): second year standing.

Lecture and discussion three hours a week.

EURR 3002 [0.5 credit]**Literature and Culture in Russia and Eurasia**

A survey of the literature and cultural texts that have defined Russian and neighboring Slavic countries. Examination of fiction and non-fiction texts that have contributed to and reflected the development of Russian and Slavic culture and society.

Also listed as ENGL 3805.

Precludes additional credit for EURR 2000 and ENGL 2010.

Prerequisite(s): second-year standing.

Lecture and discussion three hours a week.

EURR 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): registration in the B.A. European and Russian Studies (Honours) Co-operative option, completion of the Co-op preparation classes offered by the Co-op Office and permission of the Institute.

EURR 4002 [0.5 credit]**Post-Soviet States and Societies**

The relationship between social forces and state structures at both the national and local levels in the USSR and the post-Soviet states.

Also listed as PSCI 4502.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5002, PSCI 5110, for which additional credit is precluded.

Seminar three hours a week.

EURR 4003 [0.5 credit]**Social and Political Perspectives in Europe**

Social issues and policies in the European Union including European identity, democratic legitimacy, nationalist and extremist political movements, Euroscepticism, migration and immigration, social inclusion/exclusion and social models, gender and family policy, regional differentiation. Precludes additional credit for EURR 4000.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5003, for which additional credit is precluded.

Seminar three hours a week.

EURR 4008 [0.5 credit]**Nationalism and Ethnic Conflict in Eastern and Central Europe**

Ethnic basis of nationalism in the region. Ethnic politics and trends.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4100 [0.5 credit]**Nation-Building in Central and Eastern Europe**

Processes of nation building in the region examined in terms of a particular country, or set of countries.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5100, for which additional credit is precluded.

Seminar three hours a week.

EURR 4101 [0.5 credit]**The Balkans in Transition – 1918 to 1989**

The seminar uses the concept of transition to understand the Balkan encounter with modernity and Europe. Key periods to be examined include the interwar era and the period of communist rule, with an emphasis on political, social and economic themes.

Also listed as HIST 4605.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4102 [0.5 credit]**The Balkans since 1989**

Selected topics in Balkan politics and society since the collapse of communism in 1989, focusing on the democratic transition and the EU accession process. The legacies of communist rule, democratization and the many national questions that still exist in the region.

Also listed as PSCI 4507.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4103 [0.5 credit]**The Great Russian Novel**

A study of masterpieces of prose fiction from the Golden Age of Russian literature. Readings will be chosen from writers such as Turgenev, Tolstoy, Dostoevsky, Gogol, and/or others. All texts will be studied in English translation.

Also listed as ENGL 4600.

Prerequisite(s): Third-year standing.

Lecture three hours a week.

EURR 4104 [0.5 credit]**European Integration and European Security**

Issues related to the formation of supra-national decision-making structures in Europe.

Includes: Experiential Learning Activity

Also listed as PSCI 4608.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5104, for which additional credit is precluded.

Seminar three hours a week.

EURR 4106 [0.5 credit]**Selected Topics in European Integration Studies**

Selected topics related to European integration in the post-World War II period.

Also listed as PSCI 4609.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4107 [0.5 credit]**Russia's Regional and Global Ambitions**

Domestic conditions in Russia from 2000 to the present and the framing of Russia's foreign policy and strategic objectives towards the former Soviet republics and other key global actors, including the United States, the European Union, NATO and China.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5107, for which additional credit is precluded.

Seminar three hours a week.

EURR 4201 [0.5 credit]**Special Topics in European Studies**

A seminar focusing on selected topics related to Europe.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4202 [0.5 credit]**Special Topics in Russian and Eurasian Studies**

A seminar focusing on selected topics related to Russia and neighbouring countries.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5202, for which additional credit is precluded.

Seminar three hours a week.

EURR 4204 [0.5 credit]**Central Europe, Past and Present**

Evolution and current status of Central Europe from periods of foreign control in the late nineteenth and twentieth centuries to independent statehood, with emphasis on national accommodations and conflicts.

Also listed as HIST 4604.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5204, for which additional credit is precluded.

Seminar three hours a week.

EURR 4205 [0.5 credit]**Politics of Identity in Europe and the Russian Area**

The relationships between political transformation, identity-building, ethnicity, and gender politics in post-communist states, considered in comparison with select countries in Central and/or Western Europe.

Includes: Experiential Learning Activity

Also listed as PSCI 4501.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2500, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

EURR 4206 [0.5 credit]**Internship and Applied Policy Skills**

A seminar accompanying an unpaid internship placement to develop workplace and applied policy skills. Relating applied experience to academic literature. Writing skills for an applied policy setting. Internship placement: 12 days over 12 weeks.

Includes: Experiential Learning Activity

Prerequisite(s): open only to fourth-year EURUS B.A.

Honours students with a minimum B+ average and placement in an internship position in the same semester or in the previous semester (based on a competitive application process).

Also offered at the graduate level, with different requirements, as EURR 5301, for which additional credit is precluded.

Seminar: six three-hour seminar sessions.

EURR 4207 [0.5 credit]**Politics of Central Eurasia**

Examination of the Caucasus and Central Asia, from Chechnya to former Soviet republics of the region, Afghanistan and Chinese Turkestan. Interests of Russia, China, and the United States. Emphasis on underdevelopment, oil and gas, terrorism, Islam.

Includes: Experiential Learning Activity

Also listed as PSCI 4503.

Prerequisite(s): fourth year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4208 [0.5 credit]**Foreign Policies of Soviet Successor States**

The foreign policies of the USSR and of Russia and selected other successor states, with special emphasis on the search for a new security order.

Also listed as PSCI 4601.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4209 [0.5 credit]**Politics of the Caucasus and Caspian Basin**

Examination of the South Caucasus (Azerbaijan, Georgia, Armenia), the Russian-held North Caucasus, including Chechnya, and relations with Iran. Emphasis on state and society, oil and gas, transregional communications, interests of western powers, ethnic relations.

Includes: Experiential Learning Activity

Also listed as PSCI 4504.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4302 [0.5 credit]**EU Summer Study Abroad**

This course is open only to students in approved summer study options in Europe, particularly the EU Study Tour.

Includes: Experiential Learning Activity

Prerequisite(s): approval of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5302, for which additional credit is precluded.

EURR 4303 [0.5 credit]**Contemporary Europe: From Postwar to the European Union**

History of contemporary Europe from 1945 to present covering both eastern and western halves of the continent and including social, cultural, political, and economic dimensions.

Includes: Experiential Learning Activity

Also listed as HIST 4606.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5303, for which additional credit is precluded.

Seminar three hours a week.

EURR 4304 [0.5 credit]**Europe and International Migration**

Europe's role in international migration. Topics to be discussed may include migration and mobility as both assets and challenges for sending, transit, and destination countries, changing geographies of migration, inclusion and exclusion, political mobilization, and responses of European states and other actors.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5304, for which additional credit is precluded.

Seminar three hours a week.

EURR 4305 [0.5 credit]**Imperial Russia and the Russian Revolution**

Examination of the expansion and downfall of tsarist Russia from the eighteenth century to the revolutionary era and the establishment of Bolshevik rule. Topics include the relationship between the monarchy and subject peoples, social and economic change, and daily life.

Includes: Experiential Learning Activity

Also listed as HIST 4607.

Precludes additional credit for EURR 4203.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5305, for which additional credit is precluded.

Seminar three hours a week.

EURR 4306 [0.5 credit]**The Soviet Union: Power and Culture**

Examination of the rise of the Soviet Union to a global power and subsequent tensions that promoted its collapse. The course will analyze Stalinism, the Second World War, the Thaw, and Brezhnev and Gorbachev eras through the lens of the USSR's citizens.

Includes: Experiential Learning Activity

Also listed as HIST 4608.

Precludes additional credit for EURR 4203.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5306, for which additional credit is precluded.

Seminar three hours a week.

EURR 4704 [0.5 credit]**The Business Environment in Europe**

The economic, political, legal, and cultural environment for doing business in the European Union and other regions in Europe. Patterns of foreign trade and investment, market characteristics, science and technology, regulation and European integration, and business culture.

Also listed as BUSI 4704.

Precludes additional credit for EURR 4006 (no longer offered), BUSI 4604 (no longer offered).

Prerequisite(s): third-year standing.

Seminar three hours a week.

EURR 4900 [1.0 credit]**Tutorial in European and Russian Studies**

Tutorials or reading courses on selected topics may be arranged with the permission of the Institute and agreement of the instructor.

Prerequisite(s): permission of the Institute.

EURR 4901 [0.5 credit]**Tutorial in European and Russian Studies**

Tutorials or reading courses on selected topics may be arranged with the permission of the Institute and agreement of the instructor.

Prerequisite(s): permission of the Institute.

EURR 4902 [0.5 credit]**Tutorial in European and Russian Studies**

Tutorials or reading courses on selected topics may be arranged with the permission of the Institute and agreement of the instructor.

Prerequisite(s): permission of the Institute.

EURR 4908 [1.0 credit]**Honours Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by the supervisor and a second reader.

Students should consult with the Supervisor of Undergraduate Studies regarding the topic and supervisor. Institute's Honours Essay guidelines apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, a CGPA of 9.00 or higher in courses qualifying for credit in European and Russian Studies, and permission of the Institute.

Film Studies (FILM)

Film Studies (FILM) Courses

FILM 1101 [0.5 credit]

Introduction to Film Studies

Introduction to the study of film that emphasizes problems and methods of film analysis through the study of various types of films. Topics relating to the filmmaker, film genre, and film history are covered through a focus on questions of style and technique.

Precludes additional credit for FILM 1120, FILM 1000 (no longer offered), and FYSM 1510.

Lecture and screening three hours a week, discussion one hour a week.

FILM 1120 [0.5 credit]

Seminar in Film Studies

A seminar in the study of film that emphasizes problems and methods of film analysis through the study of a variety of types of films.

Precludes additional credit for FILM 1101, FILM 1000 (no longer offered) and FYSM 1510.

Prerequisite(s): enrolment in a Film Studies major.

Lecture and screening three hours a week, discussion one hour a week.

FILM 2001 [0.5 credit]

Film Theory and Analysis I

Introduction to major film theories and analytical practices.

The objective of this course is to familiarize students with the main theories and methods of analysis that have been developed for the study of film.

Precludes additional credit for FILM 2000 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120 and second-year standing; or permission of the Discipline.

Lecture and screening three hours a week, seminar one hour a week.

FILM 2002 [0.5 credit]

Film Theory and Analysis II

Building on the skills acquired in FILM 2001, this course considers specific debates in film theory, and provides students with advanced methods for film analysis.

Precludes additional credit for FILM 2000 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, and FILM 2001, and second-year standing; or permission of the Discipline.

Lecture and screening three hours a week, seminar one hour a week.

FILM 2101 [0.5 credit]

The Film Industry

The organization of the production, distribution and exhibition practices of various film industries. May include an examination of the relationship between a national film industry and its television industry.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2106 [0.5 credit]

The Documentary

An examination of the work of individual filmmakers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered.

Also listed as JOUR 2106.

Precludes additional credit for FILM 2105 (no longer offered), JOUR 2105 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2201 [0.5 credit]

National Cinema

This course examines the film production of specific countries in order to determine the themes, the styles, and the character of a national cinema.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2202 [0.5 credit]

Japanese Cinema

Various practices and movements in the history of Japanese cinema, ranging from the silent era to the current digital age.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2203 [0.5 credit]

Scandinavian Cinema

The development of cinema culture and film production in the Scandinavian countries, from the golden age of Scandinavian silent cinema to contemporary Nordic noir.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2204 [0.5 credit]

Indigenous Cinema and Media

A critical examination of films and other audiovisual media created by Indigenous artists, such as independent films, genre films, documentaries, web series, installations, and video games.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Department.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2206 [0.5 credit]**Canadian Cinema**

A critical examination of Canadian cinema and media and how it relates to other aspects of Canadian culture.

Precludes additional credit for FILM 2207 (no longer offered), FILM 2208 (no longer offered), FILM 2209 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120 or second-year standing; or permission of the Discipline.

Lecture and screening three hours a week, seminar one hour a week.

FILM 2401 [0.5 credit]**Authorship in Film and Media**

A detailed study of the themes, the characteristic style, development and influence of one or more directors.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2601 [0.5 credit]**Film Genres**

This course examines questions of generic form, drawing examples from world cinema.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2606 [0.5 credit]**History of World Cinema I**

Historical survey of world cinema primarily from 1895 to 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as ENGL 2600.

Precludes additional credit for FILM 2608 and ENGL 2608 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, and second-year standing, or permission of the discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2607 [0.5 credit]**History of World Cinema II**

Historical survey of world cinema primarily since 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as ENGL 2601.

Precludes additional credit for FILM 2608 and ENGL 2608 (no longer offered).

Prerequisite(s): FILM 2606 or ENGL 2600 or permission of the discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2801 [0.5 credit]**Film and Media Practice I**

Introduction to the basic principles of film and media practice. Emphasis may change from year to year, focusing alternately on narrative, experimental, animation or documentary techniques. This course is intended for Film Studies majors only.

Includes: Experiential Learning Activity

Prerequisite(s): FILM 1101 or FILM 1120.

Lecture/workshops four hours a week.

FILM 2809 [0.5 credit]**The Video Game**

Introduction to the video game as a popular media form, an emerging aesthetic, and a social and cultural practice.

Topics include: history of video games; game form; game industry; narrative; art and design; interactivity; theories of play.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3105 [0.5 credit]**Questions of Documentary Practice**

Theoretical implications of documentary film and documentary television practice.

Also listed as JOUR 3105.

Prerequisite(s): 1.0 credit in FILM at the 2000-level and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3206 [0.5 credit]**Topics in American Cinema**

Studies in various aspects of American cinema with emphasis on historical and critical issues.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3209 [0.5 credit]**Topics in Canadian Cinema**

Studies in various aspects of Canadian cinema. Topics may vary from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3301 [0.5 credit]**Topics in Cinema, Gender, and Sexuality**

A study of selected topics in gender and cinema with emphasis on critical and historical questions.

Prerequisite(s): 1.0 credit in FILM at the 2000-level and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3402 [0.5 credit]**Film Music**

The use of music in film, from the silent era to the present day. Techniques, styles and theory of film music through the examination of selected scenes.

Also listed as MUSI 3402.

Lectures three hours a week, screening two hours a week.

FILM 3506 [0.5 credit]**Topics in Film Theory**

Building on the skills acquired in FILM 2000, this course provides a critical study of advanced film theories. Topics may include aesthetics, ideological criticism, film and philosophy, and theories of technology and historiography. Precludes additional credit for FILM 3505 (no longer offered).

Prerequisite(s): FILM 2001 and FILM 2002 and third-year standing; or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3608 [0.5 credit]**Topics in Film History**

Studies of aspects of the history of world cinema.

Topics will vary from year to year and may include the examination of film movements, styles and genres, and/or comparative study of national, regional and/or world-wide trends.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3609 [0.5 credit]**African Cinema**

Major figures and movements in African cinema around such categories as the colonial, the anti-colonial, the postcolonial, the diasporic, the continental, race, Afro-futurism, and world cinema, interrogating in the process the very category of "African cinema".

Also listed as AFRI 3609.

Prerequisite(s): 1.0 credit in FILM and third year standing or permission of instructor.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3701 [0.5 credit]**Topics in Animation, Video, and Experimental Film**

A study of selected topics in animation, video or experimental film.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3800 [0.5 credit]**Film/Video Archival or Curatorial Practice**

Consideration of topics in film/video archival or curatorial practice, including questions related to cultural policy, exhibition, conservation, and interrelationship of media.

Students are expected to bear all travel and other costs arising from required visits to local facilities.

Includes: Experiential Learning Activity

Precludes additional credit for FILM 4800 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3801 [0.5 credit]**Film and Media Practice II**

Practical and conceptual approaches to film studies from the point of view of film and media practice. Emphasis may change from year to year, focusing alternately on narrative, experimental, animation or documentary techniques.

Includes: Experiential Learning Activity

Prerequisite(s): FILM 2001 and FILM 2801.

Lecture/workshops four hours a week.

FILM 3808 [0.5 credit]**Cinema and Technology**

The technological development of cinema. Topics may include advances in sound and colour processes, digital effects, exhibition technologies and new media.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3809 [0.5 credit]**Analyzing Digital Media**

History, aesthetics, and theories of digital media and culture. Key concepts in digital media studies, including: digital cinema, interactive documentaries, viral videos, web series, emerging immersive platforms.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3810 [0.5 credit]**Sound in Film and Media**

Questions related to sound in film and media such as: how is sound used to create narratives and emotions? How does sound affect our experience of actual and fictional worlds?.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3901 [0.5 credit]**Topics in Film Studies**

Selected topics and issues not ordinarily treated in the third-year course program.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3902 [0.5 credit]**Screenwriting Workshop**

An intermediate workshop involving regular assignments in writing for film.

Includes: Experiential Learning Activity

Also listed as ENGL 3902.

Prerequisite(s): a 2000-level creative writing workshop or permission of the instructor. Permission to register in this course requires the student to submit a portfolio. Instructions can be found at Carleton.ca/English.

Workshop three hours a week.

FILM 4001 [0.5 credit]**Research and Critical Methodologies**

Study of various methodologies for critical, theoretical and historical research in film studies.

Precludes additional credit for FILM 4000 (no longer offered).

Prerequisite(s): FILM 2002, 1.0 credit in FILM at the 3000-level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture two hours a week.

FILM 4002 [0.5 credit]**Topics in Moving Image Culture**

Selected aspects of the audio-visual cultures of the late nineteenth and twentieth centuries.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Seminar three hours a week.

FILM 4201 [0.5 credit]**Selected Topics in National Cinemas**

A study of a selected topic in national cinema.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4203 [0.5 credit]**Film Festivals and World Cinema**

Theoretical and critical study of the film festival as a phenomenon shaping our understanding of film culture, institutions, history and forms. Issues examined may include festivals as sites of cultural legitimation; as spectacle; their political economy; curation/programming; case studies of film festivals around the world.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4301 [0.5 credit]**Topics in Film and Philosophy**

Selected topics in philosophical approaches to the study of film, and an examination of the relations between film theory and philosophical aesthetics.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Also offered at the graduate level, with different requirements, as FILM 5109, for which additional credit is precluded.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4401 [0.5 credit]**Selected Topics in Film Authorship**

A study of questions of authorship in the cinema, concentrating on one or more filmmakers.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4501 [0.5 credit]**Selected Topics in Film Theory**

A study of a selected topic in film theory.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4805 [0.5 credit]**Practicum in Film and Film Studies**

Practical experience through working on specific projects under the supervision of staff at a museum, gallery, archive, or production company in the Ottawa area. A maximum of 0.5 credit Film Studies practica courses may be offered in fulfilment of Film Studies requirements. Graded SAT/UNS.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Film Studies, a CGPA of 9.00 or higher in Film Studies, and permission of the Discipline.

FILM 4901 [0.5 credit]**Special Topic**

Selected topics in film studies not ordinarily available in the regular course program. The choice of topic or topics will vary at least every two years and will be announced well in advance of the registration period.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Screening three hours a week, seminar two hours a week.

FILM 4904 [0.5 credit]**Independent Study**

For students who wish to study a specific topic. Proposed projects must be approved by the Program Committee.

Written request outlining the project must be submitted by the first day of the term. An essay is the usual assignment. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Film Studies and a CGPA of 10.00 or higher in Film Studies. Unscheduled.

First Year Seminar (FYSM)

First Year Seminar (FYSM) Courses**FYSM 1003 [1.0 credit]****Introduction to Economics**

An introduction to the major tools and policy problems of economics. Economic analysis is applied to a variety of contemporary problems such as pollution, poverty, the control of monopoly, unemployment, inflation and international economic problems.

Precludes additional credit for ECON 1000, ECON 1001, and ECON 1002.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B. Econ. or B.G.In.S. program. This course is an intensive version of ECON 1000 geared to students seeking a more in-depth and interactive introduction to economics.

Seminars three hours a week, tutorials one hour a week.

FYSM 1004 [1.0 credit]**Reading Literatures and Cultures**

Introduction to active literary reading skills, focusing on at least three literary genres including poetry, prose, and drama, with attention to literary, social, historical, and political contexts. This course is writing attentive. Strongly recommended for English majors. Consult English Department website for annual topics.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1300, ENGL 1400, and ENGL 1600.

Prerequisite(s): Normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1101 [1.0 credit]**Location is Everything**

Where we live affects who we are. The role of geographic location and environment on human perception, behaviour, and well-being, viewed at scales ranging from local to global; methods of collecting and interpreting information about location.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1104 [1.0 credit]**Human Rights: Issues and Investigations**

Arguments that have been used to defend differing positions on rights issues, past and present. The validity of contending arguments; social factors influencing widespread acceptance of popular views.

Precludes additional credit for HUMR 1001.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1105 [1.0 credit]**Reading the Web**

Academic writing and study skills through examination of the literacy and social interaction required for various media. Reading and writing on and for the Web and other forms of computer-mediated communications and cooperative work compared with writing for academic purposes.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1106 [1.0 credit]**Issues in Classics**

An investigation of important issues relating to the Greek and Roman worlds. Themes will be drawn from literature, history, art, religion and social life. All texts are in English. Precludes additional credit for CLCV 1000 (no longer offered).

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1107 [1.0 credit]**Social Justice and the City**

Struggles over social and economic inequality in the city, and their relationship to processes of urbanization and global change. Theories and case studies explaining how urban lives and form are shaped by social movements and urban politics. Broad introduction to critical urban geography.

Includes: Experiential Learning Activity

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1108 [0.5 credit]**Sustainable Environments**

The causes and consequences of environmental change; emphasis on the interactions of nature and human behaviour. Ways in which the environment can be protected and restored. Environmental issues that affect our own communities.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1204 [1.0 credit]**Language and Identity**

The creation and expression of social identities through language: gender, age, ethnic and social background.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Lectures three hours a week.

FYSM 1205 [1.0 credit]**Language and Power**

The role of language in maintaining and contesting power relations in domains such as the media, education, advertising, and politics. How meanings are made and exchanged through language in different situations.

Precludes additional credit for ALDS 2705.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Lectures three hours a week.

FYSM 1210 [0.5 credit]**Special Topics in Philosophy**

Selected topics in the study of philosophy. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Philosophy.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ., or B.G.In.S. program.

Seminars three hours per week.

FYSM 1211 [0.5 credit]**Looking at Philosophy**

An examination of the following: What is logical thinking? Does God exist? Are values relative? Do we have responsibilities? What is a just society? Do we have free will? What is the mind? What is the nature of reality?.

Precludes additional credit for FYSM 1208 (no longer offered), PHIL 1000 and PHIL 1100.

Seminars three hours per week.

FYSM 1212 [0.5 credit]**Contemporary Moral, Social, and Religious Issues**

Philosophical problems associated with such topical issues as feminism; atheism vs. theism; the meaning of life; moral relativism vs. moral objectivism; egoistic vs. non-egoistic ethics; euthanasia and capital punishment; legal paternalism; freedom of the will.

Precludes additional credit for FYSM 1209 (no longer offered), PHIL 1500, PHIL 1550.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours per week.

FYSM 1217 [0.5 credit]**Selected Topics in Communication and Media Studies**

Introductory communication and media studies seminar.

Topics offered may vary from year to year and will be announced in advance of the registration period by the Communication and Media Studies program.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program. (This course is not the equivalent of COMS 1000).

Seminar three hours a week.

FYSM 1300 [1.0 credit]**History of Philosophy**

The major figures and developments in philosophy from the early Greeks to the present. A primarily descriptive and comparative approach, through critical reasoning is included for comprehending philosophic development. Provides a background from which to understand the philosophical aspects of other disciplines.

Precludes additional credit for PHIL 1600.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1306 [1.0 credit]**Diversity in Psychological World Views**

Theories, research and applications of psychology from the perspective of different cultures and sub-cultures.

The validity of psychology across society; how it defines and changes people, and how it reflects and engineers particular social values and norms.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1307 [1.0 credit]**Psychology and Criminal Justice**

Theories, research, and practical applications of psychology to the criminal justice system. Topics may include eyewitness testimony, prediction of violence, classification and rehabilitation of offenders, victim studies, and judicial decision making.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S program.

Seminars three hours a week.

FYSM 1308 [1.0 credit]**Motivating Humans**

The psychology of human motivation. Everyday concepts such as laziness in relation to diverse theories and explanations of motivation such as drive-reduction, sociobiology, personal goals, self-actualization and spiritual awareness.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S program.

Seminars three hours a week.

FYSM 1310 [1.0 credit]**Selected Topics in Psychology**

Psychology is the scientific study of our thoughts, feelings and behavior. Course examines a selected topic in psychology. The specific topic will vary from year to year and will be announced in advance of the registration period.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1400 [1.0 credit]**Cognition: A Scientific Exploration of the Mind**

Theories, research, and applications of Cognitive Psychology. Research projects will familiarize students with the scientific method used to study pattern recognition, attention, memory, language and thinking.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1401 [1.0 credit]**Multiculturalism in Canada**

Issues relating to the development of and interaction among cultural communities, with major emphasis on the realities of "doing multiculturalism in Canada." Research teams; organized seminars with volunteers from Canadian cultural and community groups.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1402 [1.0 credit]**Issues in Women's and Gender Studies**

Emphasis on the development of writing, research and analytical skills through the intensive examination of selected topics in women's studies (e.g. popular culture, media, representation and identity, communications, women's writing, motherhood, sexuality, health, technology, law, politics). Specific themes will vary from year to year.

Precludes additional credit for WGST 1808.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1405 [1.0 credit]**Turning Points in History**

Introductory seminars emphasizing the development of writing, research, and analytical skills through the intensive examination of selected topics in modern history. Topics may vary from year to year. (Field will depend on topic.)

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1406 [1.0 credit]**How Ottawa Works: Exploring National Institutions**

The fundamental political, judicial and administrative institutions that made Canada a unique nation. Students will learn how government institutions are dealing with preservation and maintenance of Canadian cultural and social values.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1408 [1.0 credit]**World Literature in French**

An introduction to the diverse literatures of the francophone world through works from the Middle East, Canada, Africa, Europe and the Caribbean. For students who have completed the placement test on Carleton Central and have received a confirmation through their Carleton email account.

Prerequisite(s): normally restricted to students entering the first year of B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1409 [1.0 credit]**Social Change in Canada**

Interdisciplinary analysis of social change and how people change Canada, through an examination of movements like environmentalism, feminism, peace, and antiracism. Examination of broader efforts to reshape Canadian society, including culture-jamming and change through popular culture.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1501 [1.0 credit]**The Study of Religions**

Inquiries into the nature of religion and its interpretation, or a specific religious theme or a period of religious history. Specific topics will vary from year to year.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1502 [1.0 credit]**Selected Topics in Legal Studies**

Selected topics in legal studies. Course offerings for the current year are listed at: carleton.ca/first-year-seminars.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1503 [1.0 credit]**Contemporary Culture in Everyday Life**

The role of contemporary cultural forms in everyday life. Focus on the culture/power relationship with attention to the ways that popular forms such as television, film, music, and tourism facilitate or work against the cultural and economic interests of different societal groups.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1504 [1.0 credit]**Society and the Designed Environment**

Inquiry into the relation between human societies and the material environment which they inhabit and use. Focus is on the ways in which groups create the environments in which they live and the ways in which those environments influence and reproduce the groups.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1505 [1.0 credit]**Introduction to Applied Sociology**

Survey of the historic and contemporary contributions of Sociology to various applied fields, which may include official statistics, policy studies, consumer research, and workplace management. Focus on the philosophical, professional, and ethical distinctions between scholarly and applied sociology.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1506 [1.0 credit]**Topics in the Study of Societies**

Introductory seminar emphasizing the development of writing, research and analytical skills through the intensive examination of selected topics in the study of historic and contemporary societies.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1508 [1.0 credit]**Stress, Coping and Well-being**

How do you cope with stress? We live in a stressful world, and how we cope has implications for our happiness and well-being. We will examine theory and research on how stress affects our lives, how people cope, and what it means to be well-adjusted.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1509 [1.0 credit]**Special Studies in Art History, Film Studies and/or Music**

Topics and focus to be determined on a yearly basis. Precludes additional credit for FILM 1511.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1510 [1.0 credit]**Moving Image and Sound**

Introduction to the discipline of film studies through an examination of mise-en-scène, editing, cinematography, and sound in a selection of important films. Emphasis on the critical vocabulary needed for analysis of motion pictures and other audiovisual media.

Precludes additional credit for FILM 1000, FILM 1101, FILM 1120.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Lecture and screening three hours a week.

FYSM 1511 [0.5 credit]**Special Studies in Art History, Film Studies and/or Music**

Topics and focus to be determined on a yearly basis.
Includes: Experiential Learning Activity
Precludes additional credit for FYSM 1509.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminar three hours a week.

FYSM 1600 [1.0 credit]**Contemporary Controversies in Canadian Society**

An interdisciplinary exploration of key debates that currently affect Canadian society and culture. Topics may include: nationalism, race, language and ethnicity, sexuality, gender, Aboriginal governance, globalization, the environment, and human rights.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminar three hours a week.

FYSM 1602 [1.0 credit]**Selected Topics in Political Science**

Selected topics in politics and governance. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminar three hours a week.

FYSM 1603 [1.0 credit]**Full-Year Seminar in European and Russian Studies**

Topics offered may vary from year to year and will be announced in advance of the registration period by the Institute of European, Russian, and Eurasian Studies.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminar three hours a week.

FYSM 1607 [1.0 credit]**Cognitive Science: Thinking and Knowing**

Interdisciplinary examination of discoveries in linguistics, psychology, philosophy, and computer science concerning the question "What is cognition"? Issues may include the mind-brain controversy, the role of language in thought, and artificial versus natural intelligence.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Classes and seminars three hours a week.

FYSM 1608 [1.0 credit]**Selected Topics in Economics**

Content of this course may vary from year to year and will be announced in advance of the registration period by the Department of Economics.
Prerequisite(s): normally restricted to students entering the first year of a B.Econ., B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminars three hours a week.

FYSM 1609 [1.0 credit]**Integrated Studies in Public Affairs and Management**

An integrated multidisciplinary exploration of a topic of interest to disciplines within the Faculty of Public Affairs offering Bachelor of Arts programs.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Lecture one and a half hours a week, seminar two hours a week.

FYSM 1610 [1.0 credit]**Understanding Environmental Discourse**

An examination of how language and other symbol systems are used to portray and make arguments about ecology and the global environment, with a particular focus on climate change.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminars three hours a week.

FYSM 1611 [0.5 credit]**One-Term Seminar in Political Science**

One-term seminar on selected topics in politics and governance. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.
Precludes additional credit for FYSM 1602.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminar three hours a week.

FYSM 1614 [0.5 credit]**One-Term Seminar in European and Russian Studies**

Topics offered may vary from year to year and will be announced in advance of the registration period by the Institute of European, Russian, and Eurasian Studies.
Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.
Seminar three hours a week.

FYSM 1700 [0.5 credit]**Connecting Academics to Careers in Public Affairs**

An introduction to public affairs work and working life, and the development of skills and opportunities for students to plan their university courses and programs of study to connect to a career in public affairs.
Seminar three hours a week.

FYSM 1900 [1.0 credit]**Selected Topics In the Study of Academic Discourses**

Introductory seminar emphasizing the development of academic writing, research and analytical skills through the intensive examination of a selected topic in the instructor's field of expertise. Specific topics vary from section to section each year.

Includes: Experiential Learning Activity

Precludes additional credit for FYSM 1605.

Prerequisite(s): enrolment in the Enriched Support Program.

Seminar three hours a week.

FYSM 1901 [1.0 credit]**Selected Topics in African Studies**

Selected topics in the study of Africa. Topics offered may vary from year to year and will be announced in advance of the registration period by the Institute of African Studies.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1908 [0.5 credit]**One-Term Seminar in Economics**

Content of this course may vary from year to year and will be announced in advance of the registration period by the Department of Economics.

Prerequisite(s): normally restricted to students entering the first year of a B.Econ., B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

Food Science (FOOD)

Food Science (FOOD) Courses**FOOD 1001 [0.5 credit]****Introduction to Food Science**

Overview of the food industry. Production, processing, product development, packaging, chemistry, analysis, microbiology. Elements risk assessment, policy making and regulation.

Lectures three hours a week.

FOOD 2001 [0.5 credit]**Principles of Nutrition**

Roles of nutrients, lipids, proteins, carbohydrates, fluids and electrolytes. Digestion, absorption, transport, energy metabolism. Disorders including diabetes, cardiovascular disease and osteoporosis. Nutrition through the life cycle.

Prerequisite(s): CHEM 1002, BIOL 1103.

Lectures three hours a week.

FOOD 2002 [0.5 credit]**Food Processing**

Principles of major techniques used in food processing and preservation. Processing of specific food groups including cereals, oilseeds, dairy, beverages and frozen foods. Effects of processing on physico-chemical, rheological, and sensory characteristics. Role of research and development in food industry.

Prerequisite(s): FOOD 1001.

Lectures three hours a week.

FOOD 2003 [0.5 credit]**Regulation of the Canadian Food Industry**

Regulation of the Canadian food industry including regulators, regulatory powers, the process of enacting laws/regulation and food safety requirements. Food composition, standardization, advertising, labeling, packaging, ingredients, additives, and fortification requirements. Inspection, enforcement and compliance powers and policies.

Prerequisite(s): Second year standing.

Lectures three hours per week.

FOOD 2004 [0.5 credit]**Scientific Communication in Food Science**

Principles of effective scientific communication for scientific and non-scientific audiences. Applicable to laboratory reports, literature reviews, posters, presentations, and briefing notes.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001 and second-year standing in Food Science, or second year standing in Chemistry with a Concentration in Chemical Toxicology.

Workshop four hours a week.

FOOD 3001 [0.5 credit]**Food Chemistry**

Chemistry of the major components of foods such as proteins, lipids, carbohydrates and of the minor components such as enzymes, vitamins and various additives and their relationships to food stability and degradation.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001, FOOD 2001, CHEM 2204, BIOC 2200.

Lectures three hours a week and laboratory three hours a week.

FOOD 3002 [0.5 credit]**Food Analysis**

In-depth principles and practices of food proximate analysis. Introductory concepts of food adulteration and detection. Major techniques such as chromatography, colorimetry, spectroscopy, rheology.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001, FOOD 2001, FOOD 3001.

Lectures three hours a week, laboratory three hours a week.

FOOD 3003 [0.5 credit]**Food Packaging and Shelf Life**

An introduction to the materials used for food packaging, including their chemical and physical characteristics. Interactions of these materials with food products, and their effects on shelf life of food.

Prerequisite(s): FOOD 2002.

Lectures three hours a week.

FOOD 3004 [0.5 credit]**Food Engineering**

Principles of food engineering. Unit operation in food processing, heat and mass transfer, material balances, fluid mechanics.

Prerequisite(s): FOOD 2002 and MATH 1007.

Lectures three hours a week.

FOOD 3005 [0.5 credit]**Food Microbiology**

Foodborne diseases, microbial growth and survival, food spoilage, food fermentation. Techniques for detecting and quantifying microorganisms in foods.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001, FOOD 2001, BIOL 2303.

Lectures three hours a week, laboratory three hours a week.

FOOD 3999 [0.0 credit]**Co-operative Work Term**

Provides practical experience for students enrolled in the Co-operative option. Students must receive satisfactory evaluations from their work term employer. Written and oral reports will be required. Graded as Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): Registration in the Food Science Co-operative Education option and permission of the Department.

Work term.

FOOD 4001 [0.5 credit]**Food Quality Control**

Factors affecting quality in manufacturing and processing of foods and principles of quality control and quality assurance. Sampling plans and statistical methods.

Applications of physical, chemical, biological and microbiological tests in quality control. Quality systems and standards.

Prerequisite(s): FOOD 2002, FOOD 2003, and third or fourth year standing in Food Science.

Also offered at the graduate level, with different requirements, as FOOD 5104, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4002 [0.5 credit]**Analysis of Food Contaminants**

Official methods to identify food contaminants and adulterated foods. Includes agricultural chemicals, veterinary drugs, toxins, metals, and allergens. Interpretation of results in the context of current Canadian and international food safety regulations.

Includes: Experiential Learning Activity

Prerequisite(s): BIOC 3101 or CHEM 3205 or CHEM 3305, and fourth year standing in Food Science or Chemistry.

Laboratory four hours per week.

FOOD 4102 [0.5 credit]**Current Issues in Canadian Food Governance, Regulation and Policy**

Focus on the ever-changing and evolving issues in Canadian food governance, regulation and policy. Topical food safety, governance, policies, enforcement, trade and import/export issues and developments.

Prerequisite(s): FOOD 2003, and third or fourth year standing in Food Science.

Lectures three hours a week.

FOOD 4103 [0.5 credit]**Food Safety Risk Assessment**

The role of risk management in providing science-based approaches to solving food safety problems.

Risk management models and practical applications in critical risk management. An examination of actual risk assessments. Risk communication is addressed.

Prerequisite(s): BIOC 3101, FOOD 2004 and fourth-year standing in Food Science, or permission of the Department.

Lectures three hours a week.

FOOD 4201 [0.5 credit]**Advanced Nutrition and Metabolism**

Metabolism of macronutrients in the human body. Detailed catabolic and anabolic reactions of carbohydrates, lipids and proteins. Regulatory control points in healthy and diseased states. Discussion of the literature pertaining to nutrition, metabolism and chronic disease.

Prerequisite(s): FOOD 2001, BIOC 3101 and fourth year standing in Food Science.

Also offered at the graduate level, with different requirements, as FOOD 5101, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4202 [0.5 credit]**Micronutrients and Health**

Animal and plant-based sources of micronutrients.

Metabolism of vitamins and minerals in the human body and associated diseases throughout the life cycle. Micronutrient supplementation to promote human health.

Prerequisite(s): BIOC 2200 or BIOL 2200 and third or fourth year standing.

Lectures three hours a week.

FOOD 4203 [0.5 credit]**Functional Foods and Natural Health Products**

Study of the bioactive components of functional foods and natural health products, for the improvement of health and nutrition. Sources and chemistry of bioactives, mechanisms of actions, process technology, efficacy and safety. Role of research and development in industry in commercialization of new products.

Prerequisite(s): BIOC 2200 or BIOL 2200 and fourth year standing.

Also offered at the graduate level, with different requirements, as FOOD 5105, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4301 [0.5 credit]**Food Toxicology**

Principles of toxicology as they apply to endogenous plant toxicants, endogenous animal poisons, mycotoxins, pesticide residues, veterinary drugs, food additives, heavy metals, and toxicants produced as a result of processing.

Prerequisite(s): BIOC 3101, FOOD 3001 and fourth-year standing in Food Science.

Lectures three hours a week.

FOOD 4905 [1.0 credit]**Food Science Honours Workshop**

Active learning in areas that include information literacy, critical evaluation of scientific literature, written and oral communication, evaluation and interpretation of results, statistics and data management. Emphasizes transferable skills that are most appropriate for non-research career paths.

Includes: Experiential Learning Activity

Precludes additional credit for FOOD 4907, FOOD 4908.

Prerequisite(s): Fourth-year standing in Food Science and a minimum of 1.5 credits in FOOD at the 3000 level.

Workshop three hours a week.

FOOD 4907 [1.0 credit]**Food Science Honours Essay and Research Proposal**

Students conduct an independent research study using library resources, and prepare a critical review and study proposal on a topic approved by a faculty supervisor. A written report and an oral poster presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for FOOD 4905, FOOD 4908, CHEM 4907 and CHEM 4908.

Prerequisite(s): Fourth-year standing in the Food Science program, a minimum of 1.5 credits in FOOD at the 3000 level, minimum Major CGPA of 8.0, and permission of the department.

FOOD 4908 [1.0 credit]**Food Science Research Project**

Students in Food Science carry out a research project under the direction of a faculty member. A written report and an oral presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for FOOD 4905, FOOD 4907, CHEM 4907 and CHEM 4908.

Prerequisite(s): Fourth-year standing in the Food Science program, a minimum of 1.5 credits in FOOD at the 3000 level, minimum Major CGPA of 8.0, and permission of the department.

Laboratory and associated work equivalent to at least eight hours per week for two terms.

French (FREN)

French (FREN) Courses**French Placement for Language Students**

Students who have not previously taken a course in the French Department must complete the Placement Test on Carleton Central before registering, as per instructions received through their Carleton e-mail account. Students should note that they cannot go backward in a sequence of levels in language courses.

Students desiring a French credit to satisfy the language requirement of their department or school should consult that department or school.

FREN 1001 [1.0 credit]**French 1**

This course is designed for absolute beginners in the language. Classes use audio-visual methods, and emphasis is given to the spoken language. Introduction to reading and writing. Compulsory attendance. Limited enrolment. No auditors.

Prerequisite(s): placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 1002 [1.0 credit]**French 2**

Taught in French for students who have had exposure to French but who have difficulty using it in day-to-day communication. Emphasis on oral expression and comprehension; development of reading and writing skills. Oral practice, oral presentations, interviews, cultural activities, grammar exercises. Compulsory attendance and participation.

Prerequisite(s): Grade of C or higher in FREN 1001 or placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 1100 [1.0 credit]**French 3**

Taught in French. Emphasis on speaking, listening, reading and writing skills. Oral presentations, discussions, interviews, reading of novels and magazine articles, listening activities, grammar exercises, compositions. Attendance and participation are compulsory. Limited enrolment. No auditors.

Precludes additional credit for FREN 1110.

Prerequisite(s): Grade of C or higher in FREN 1002 or placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 1110 [1.0 credit]**French 3: Writing**

Taught in French. For students with low intermediate writing skills in French. Improvement of spelling, grammar, sentence-structure and vocabulary. Study of the processes involved in the production of a variety of texts. Introduction to the use of references. Self-correction. Attendance and participation compulsory.

Precludes additional credit for FREN 1100.

Prerequisite(s): Grade of C or higher in FREN 1002 or placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 2100 [1.0 credit]**French 4**

Taught in French. For non-francophone students. Advanced speaking, listening, reading and writing skills. Advanced level reading from various sources, including literary texts. Grammar exercises, essays, oral presentations. Attendance and participation are compulsory. Limited enrolment. No auditors.

Precludes additional credit for FREN 2110.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering.

Cours trois heures par semaine.

FREN 2110 [1.0 credit]**French 4: Writing**

Taught in French. For students with intermediate French writing skills. Refinement of spelling, grammar, sentence-structure and vocabulary; accuracy and textual organization. Essay-writing. Use and referencing of various sources. Self-correction. Attendance and participation compulsory.

Precludes additional credit for FREN 2100.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering. First week: compulsory placement. Limited enrolment. No auditors.

Cours trois heures par semaine.

FREN 2202 [0.5 credit]**Introduction aux études littéraires 1**

Survolt historique des littératures d'expression française : principaux auteurs, grands mouvements, évolution des genres. Initiation aux méthodes et notions d'analyse littéraire.

Precludes additional credit for FREN 2201.

Prerequisite(s): FREN 1100 or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2203 [0.5 credit]**Introduction aux études littéraires 2**

Survolt historique des littératures d'expression française au Québec et au Canada : principaux auteurs, grands mouvements, évolution des genres. Initiation aux méthodes et notions d'analyse littéraire.

Precludes additional credit for FREN 2201.

Prerequisite(s): FREN 1100 or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2401 [1.0 credit]**Introduction à la linguistique française**

Étude de la structure et du fonctionnement du système linguistique à travers l'analyse de données du français (de France et du Canada). La construction du sens, des sons au discours; code oral et écrit.

Prerequisite(s): FREN 1100 or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2701 [0.5 credit]**Travaux pratiques en français oral**

Travaux pratiques pour développer l'aisance et la fluidité dans l'expression orale. This course is not suitable for francophones.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering.

Cours trois heures par semaine.

FREN 3050 [0.5 credit]**Compétences critiques**

Initiation aux techniques et pratiques de la réflexion universitaire : documentation (bibliothèque, bases de données, bibliographies critiques), lecture (analyse, synthèse et évaluation critique de textes de savoir) et réflexion (cadre théorique, méthode d'analyse, pratique du discours raisonné).

Prerequisite(s): FREN 2202, FREN 2203 and FREN 2401, or permission of the Department.

Cours trois heures par semaine.

FREN 3060 [0.5 credit]**Perfectionnement de la grammaire par la pratique**

Analyse et pratique réfléchie des formes de la grammaire dans le discours: Structures des phrases, marques d'accord, concordance des temps, prépositions et compléments, homonymie et homographie, faux amis et anglicismes. Développement des techniques efficaces d'autocorrection et maîtrise d'outils informatisés.

Prerequisite(s): FREN 2202 and FREN 2203 or FREN 2401, or permission of the Department.

Cours trois heures par semaine.

FREN 3212 [0.5 credit]**Des manuscrits aux belles-lettres : de la littérature médiévale à l'humanisme**

Étude d'une sélection de textes, tirés de divers genres, permettant d'explorer les origines de la littérature française : oralité et écriture; chansons de geste; courtoisie; récits de voyages; littérature de la cour; humanisme. Différentes approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3213 [0.5 credit]**Du Baroque aux Lumières**

Étude des 17^e et 18^e siècles : raison et universalisme, encyclopédisme, construction et représentation de l'altérité, colonialisme et esclavagisme. Analyse d'importants développements littéraires : essai et conte philosophiques, théâtre et critique sociale, évolution du discours romanesque. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3214 [0.5 credit]**Révolutions, avant-gardes et ruptures : du 19^e siècle aux années 1950**

Étude de quelques grands mouvements ayant rythmé la vie des lettres francophones : romantisme, réalisme, naturalisme, symbolisme, surréalisme, modernisme. La littérature de la décolonisation et l'émergence de la littérature canadienne-française. Analyse des genres et de leur évolution. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3215 [0.5 credit]**Les ères du soupçon : contemporanéités de la littérature**

Études des principales orientations définissant les littératures francophones contemporaines depuis la fin de la Seconde Guerre mondiale : littérature engagée, existentialisme, nouveau roman. Littérature du Québec et du Canada français. Littératures postcoloniales, émergentes, transnationales. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3216 [0.5 credit]**Problématique littéraire**

Étude approfondie d'une problématique dans le champ des études littéraires. Lectures critiques, réflexion théorique et études d'œuvres littéraires.

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.

Cours trois heures par semaine.

FREN 3217 [0.5 credit]**Œuvre et auteur-e(s)**

Étude approfondie d'un(e) auteur(e) ou groupe d'auteur(e)s et de leur œuvre. Lectures critiques, théoriques et littéraires.

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.

Cours trois heures par semaine.

FREN 3218 [0.5 credit]**Genre et mouvement**

Étude approfondie d'un genre ou mouvement littéraire ayant marqué les littératures de langue française.

Conditions d'émergence (contextes: historique, social, artistique, etc). Textes théoriques et manifestes.

Principaux représentants. Influence (continuations, ruptures).

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.

Cours trois heures par semaine.

FREN 3251 [0.5 credit]**Introduction aux méthodes d'analyse littéraire**

Présentation et application de diverses approches théoriques du texte littéraire ou étude approfondie d'une approche théorique particulière (analyses structurelles, méthodes d'interprétation, contextualisation sociohistorique, poétique, etc.).

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.

Cours trois heures par semaine.

FREN 3411 [0.5 credit]**Phonétique et phonologie du français**

Étude empirique et théorique des éléments et systèmes phonétiques et phonologiques du français. Processus segmentaux et suprasegmentaux, structures syllabiques et prosodiques. Problèmes classiques de la phonologie française.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3412 [0.5 credit]**Morphologie du français**

Étude de la forme des unités lexicales et grammaticales du français et de leur portée signifiante. Analyse du système flexionnel du français et des mécanismes de formation des mots.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3413 [0.5 credit]**Syntaxe du français**

Études de la structure et des composantes de la phrase: mots et syntagmes. Analyse syntaxique de la phrase simple et complexe. Modèle hiérarchique de l'organisation de la phrase.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3414 [0.5 credit]**Sociolinguistique du français**

Le français, une réalité hétérogène. Approche variationniste, qualitative et quantitative, de l'étude du français dans ses dimensions dialectales, sociales et stylistiques. Variations intra-individuelles et entre individus. Facteurs externes de la variation interne du français.

Diversités du français.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3415 [0.5 credit]**Histoire du français**

Évolution interne de l'histoire du français et de ses influences externes. De sa naissance, présumée et réelle, à ses états actuels. Les langues contributrices. Contacts linguistiques. Dynamiques du changement linguistique. Véhicularisation et vernacularisation. Idéologies de la langue française.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3416 [0.5 credit]**Le français dans le monde**

Présentation des variétés de français parlé dans le monde, principalement à l'extérieur du Canada. Étude des aspects historiques et sociopolitiques de la diffusion du français. Analyse des traits linguistiques propres aux variétés. Colonisation, créolisation, emprunt linguistique, variation régionale, aménagement linguistique.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3417 [0.5 credit]**Le français au Canada**

Présentation des variétés de français parlé au Canada. Étude des aspects historiques et sociopolitiques de l'implantation du français en Nouvelle-France. Variétés laurentienne et acadienne. Analyse des traits linguistiques. Enjeux sociolinguistiques. Contact des langues, bilinguisme, minorités linguistiques.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3451 [0.5 credit]**Thème en linguistique**

Étude d'un thème particulier en linguistique française. Le contenu varie selon l'année.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3511 [0.5 credit]**Expression écrite et traduction**

Perfectionnement de l'expression écrite au moyen d'un apprentissage appliqué de la traduction. Analyses des principales interférences syntaxiques, sémantiques et discursives entre le français et l'anglais. Approfondissement des pratiques de textualisation: cohérence et cohésion, idiomatisation, registres, paraphrase, considérations stylistiques, etc. Approche privilégiant le texte pragmatique.

Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.

Cours trois heures par semaine.

FREN 3701 [0.5 credit]**Français oral**

Techniques avancées d'expression orale. This course is not suitable for francophones.

Prerequisite(s): one FREN course at the 2000 level, or permission of the Department.

Cours trois heures par semaine.

FREN 3702 [0.5 credit]**Français écrit**

Techniques avancées d'expression écrite.

Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.

Cours trois heures par semaine.

FREN 3900 [0.5 credit]**Apprentissage et enseignement du français langue seconde**

Initiation aux études des programmes au Canada et ailleurs. Processus d'acquisition des habiletés d'expression et de compréhension. Survol des théories passées et actuelles. Appréciation et critique de pratiques pédagogiques.

Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.

Cours trois heures par semaine.

FREN 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

FREN 4060 [0.5 credit]**Projet de recherche supervisé**

Développement d'un projet individuel supervisé en littérature ou en linguistique, amorcé dans un cours antérieur. Raffinement de l'expression et des idées. Présentation publique des résultats.

Prerequisite(s): fourth-year standing in the BA Honours in French.

Unscheduled

FREN 4212 [0.5 credit]**Littératures francophones**

Analyse de problématiques liées à la francophonie littéraire. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5212, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4213 [0.5 credit]**Littérature québécoise et canadienne d'expression française**

Étude approfondie portant sur un ou plusieurs aspects des littératures d'expression française au Canada. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5213, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4214 [0.5 credit]**Genre et mouvement**

Étude approfondie d'un thème, d'un mouvement, d'un genre dans le champ littéraire. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5214, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4215 [0.5 credit]**Problématiques contemporaines**

Étude de questions contemporaines dans le domaine littéraire. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5215, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4300 [0.5 credit]**Experiential learning in French and Francophone studies**

Topics in French language, literature or linguistics. Application of language skills in a francophone context. Topic and location may vary; consult Departmental website.

Includes: Experiential Learning Activity

Also offered at the graduate level, with different requirements, as FREN 5501, for which additional credit is precluded.

FREN 4412 [0.5 credit]**Diversité du français**

Études des variétés du français, dans ses dimensions spatiales. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Also listed as LING 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4413 [0.5 credit]**Diachronie du français**

Étude du français, dans ses dimensions historiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Also listed as LING 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4414 [0.5 credit]**Analyse du français**

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Also listed as LING 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the department.

Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4415 [0.5 credit]**Variation du français**

Étude des variations internes de la langue, dans ses dimensions orales et écrites. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.

Also listed as LING 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4511 [0.5 credit]**Traduction : méthodologie et pratique**

Initiation à différents principes et approches méthodologiques de la traduction. Analyse de texte appliquée à la traduction, repérage raisonné des difficultés, typologie des fautes de traduction, étude de divers procédés, documentation, terminologie et révision. Approche privilégiant une typologie textuelle variée.

Prerequisite(s): FREN 3511 or permission of the Department.

Cours trois heures par semaine.

FREN 4801 [1.0 credit]**Tutorial A**

Special topics in an aspect of French studies under the supervision of a faculty member.

Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FREN 4802 [0.5 credit]**Tutorial B**

Special topics in an aspect of French studies under the supervision of a faculty member.

Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FREN 4900 [0.5 credit]**Thème choisi en apprentissage et enseignement du français langue seconde**

Approfondissement de considérations théoriques et pratiques reliées à l'enseignement et l'apprentissage du français comme langue seconde. Analyse de composantes pédagogiques générales et en contexte, applications didactiques. Évaluation, critères et standards. Le contenu précis de ce cours varie selon les années. Consulter le site Web.

Prerequisite(s): fourth-year standing or permission of the Department.

Cours trois heures par semaine.

French Interdisciplinary Studies (FINS)

French Interdisciplinary Studies (FINS) Courses

These courses are intended to meet the needs of a broad range of students who are interested in expanding their knowledge of the French-language presence in other disciplines, or in improving their passive knowledge of written and spoken French (reading and listening) with a view to applying this knowledge in other disciplines.

Some FINS courses are offered with English as the language of instruction.

French Placement for Language Students

Students who have not previously taken a course in the French Department must complete the Placement Test on Carleton Central before registering as per instructions received through their Carleton e-mail account. Students should note that they cannot go backward in a sequence of levels in language courses. Students desiring a French credit to satisfy the language requirement of their department or school should consult that department or school.

FINS 2105 [0.5 credit]**French Reading I**

Development of reading skills, especially relating to academic texts. Basic French grammar and vocabulary. Given in English. Open to beginners. No auditors. Precludes additional credit for FREN 1006.

Prerequisite(s): permission of the Department.

Offered online. Equivalent to a weekly three-hour course, available all week.

FINS 2205 [0.5 credit]**Oral Comprehension I**

Training in basic comprehension of spoken French, through the study of selected and edited video and audio material. Oral documents in French; analyses, discussion, reporting and testing in English. No auditors.
Prerequisite(s): permission of the Department.

FINS 2510 [0.5 credit]**Introduction to Québec Society (English version)**

This course surveys geographical, historical, demographic, cultural, political and social developments in Québec, relations with English Canada and debates on identity and nationalism. This course is also offered in French as CDNS 2511/FINS 2511.

Also listed as CDNS 2510.

Precludes additional credit for CDNS 2511/FINS 2511.

Prerequisite(s): second-year standing or permission of the Department.

Lectures/groups three hours a week.

FINS 2511 [0.5 credit]**Introduction à la société et à la culture québécoises (version française)**

Ce cours exclusivement en ligne permettra de découvrir et d'analyser des référents dominants de la trame historique du Québec de même que les débats entourant l'identité et le nationalisme et les relations avec le Canada anglais. Also listed as CDNS 2510/FINS 2510 (in English), CDNS 2511.

Precludes additional credit for CDNS 2510 and FINS 2510.

Prerequisite(s): niveau de deuxième année ou permission de L'École d'études canadiennes.

Exclusivement en ligne. Équivalent d'un cours de trois heures par semaine, accessible toute la semaine.

FINS 3105 [0.5 credit]**French Reading II**

Reading knowledge for academic purposes. Advanced reading strategies. Individual reading in the student's specialization. Given in English. No auditors.

Precludes additional credit for FREN 1006.

Prerequisite(s): FINS 2105 or permission of the Department.

Offered online. Equivalent to a weekly three-hour course, available all week.

FINS 3205 [0.5 credit]**Oral Comprehension II**

Advanced training and practice in the comprehension of authentic oral materials in French. Individual assignments in the student's specialization. Oral documents in French; analysis, discussion, reporting and testing in English and French. No auditors.

Prerequisite(s): FINS 2205 or permission of the Department.

FINS 3405 [0.5 credit]**French for Special or Professional Purposes I**

Topics may vary from year to year. Consult the Web site.
Prerequisite(s): permission of the Department.

FINS 3406 [0.5 credit]**French for Special or Professional Purposes II**

Topics may vary from year to year. Consult the Web site.
Prerequisite(s): permission of the Department.

FINS 3407 [0.5 credit]**French for Special or Professional Purposes III**

Topics may vary from year to year. Consult the Web site.
Prerequisite(s): permission of the Department.

FINS 3550 [0.5 credit]**Interfaces between English and French Canadian Cultures**

Exploration of intercultural encounters between French and English Canadians in political, popular and "official" cultures, through an examination of media, art, music, literature, cinema and the built environment.

Also listed as CDNS 3550.

Precludes additional credit for FINS 2500 and CDNS 2500.

Prerequisite(s): third-year standing or permission of the Department.

Seminar three hours a week.

FINS 3801 [0.5 credit]**Selected Topics in French A**

Students may take a third-year course offered in the Department of French while submitting course work in English. This course does not count towards any degree program in French.

Prerequisite(s): third-year standing and permission of the Department.

Hours to be determined.

FINS 4510 [0.5 credit]**Québec Studies**

Advanced seminar focusing on selected aspects of Québec history, society, culture and/or politics.

Also listed as CDNS 4510.

Precludes additional credit for CDNS 3510 or FINS 3510.

Prerequisite(s): fourth-year standing and CDNS 3500, FINS 3500 or permission of the Department.

Seminar three hours a week.

FINS 4801 [0.5 credit]**Selected Topics in French A**

Students may take a fourth- or fifth-year special topic seminar offered in the Department of French while submitting written work in English. This course does not count towards credit in any degree program in French.

Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FINS 4802 [0.5 credit]**Selected Topics in French B**

Students may take a fourth- or fifth-year special topic seminar offered in the Department of French while submitting written work in English. This course does not count towards credit in any degree program in French. Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

Geography (GEOG)

Geography (GEOG) Courses

4000-level courses are normally restricted to students with fourth-year Honours standing. However, students with third-year standing may take 4000-level courses provided they have the necessary prerequisites, a Geography CGPA of 6.50 or better, and permission of the Department.

GEOG 1010 [0.5 credit]**Global Environmental Systems**

Principles, processes and interactions in the Earth's environment emphasizing the flow of energy and matter within global systems. Atmospheric and oceanic processes, earth surface processes and biogeochemical cycling. Case studies on the interaction between human activity and the natural environment.

Includes: Experiential Learning Activity

Lectures three hours a week, laboratory two hours a week.

GEOG 1020 [0.5 credit]**People, Places and Environments**

Introduction to human geography. Examination of relationships between people, communities, society and the natural environment at local to global scales. Population change, cultural patterns, and historical, economic, political and environmental forces that shape human activity and experiences from place to place.

Includes: Experiential Learning Activity

Also listed as ENST 1020.

Lectures two hours a week and tutorial one hour a week.

GEOG 1023 [0.5 credit]**Introduction to Cities and Urbanization**

Introduction to the study of cities, urbanization and suburbanization. Geography of urban experience, development and change across an urbanizing planet. Urbanization processes, patterns and issues in different cities and regions; the relationships among urban areas.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 2400 (no longer offered).

Lectures two hours per week and tutorials one hour per week.

GEOG 2005 [0.5 credit]**Introduction to Qualitative Research**

Introduction to the research process, from generating questions to reporting results. Topics include intensive and extensive research approaches; the use of surveys, interviews and other data collection methods; the analysis of qualitative information; and the ethical dimensions of doing research with people and communities.

Includes: Experiential Learning Activity

Also listed as ENST 2005.

Prerequisite(s): 1.0 credit in GEOG or ENST at the 1000-level and second-year standing, or permission of the Department.

Lectures two hours a week, workshop two hours a week.

GEOG 2006 [0.5 credit]**Introduction to Quantitative Research**

Introduction to solving problems using descriptive and inferential statistical methods. Graphical and numerical tools to describe distributions. Probability, sampling and estimates, and hypothesis testing. Fundamentals of spatial statistics and analysis.

Includes: Experiential Learning Activity

Also listed as ENST 2006.

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), NEUR 2002, PSCI 2702, STAT 2507, STAT 2606.

Lectures two hours a week, laboratory two hours a week.

GEOG 2013 [0.5 credit]**Weather and Water**

Introduction to climate, weather and the hydrological cycle. Physical properties of the atmosphere, radiation and energy balances, global circulation, atmospheric moisture and precipitation, weather systems and forecasting, mechanisms of climate change.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 1010 or EARTH 1006 or ISCI 1001.

Lectures three hours a week, laboratory three hours a week.

GEOG 2014 [0.5 credit]**The Earth's Surface**

Introduction to geomorphology. Weathering, slope and fluvial processes within drainage basins, and glacial and periglacial processes.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 1010 or EARTH 1006 or ISCI 1001.

Lectures three hours a week, laboratory three hours a week.

GEOG 2020 [0.5 credit]**Physical Environments of Canada**

Canada's physiography, climates, biogeography, soils, and landforms.

Prerequisite(s): GEOG 1010 or EARTH 1006 or EARTH 1010 or ISCI 1001.

Lectures three hours a week.

GEOG 2023 [0.5 credit]**Cities, Inequality and Urban Change**

Geographical perspectives on the uneven power relationships and politics that shape urban lives and urban space. Key topics may include housing and segregation, planning for sustainable cities, urban social movements, urban inequality and changing livelihoods.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 2400 (no longer offered).

Prerequisite(s): GEOG 1023, or second-year standing, or permission of the department.

Lectures two hours per week and tutorials one hour per week.

GEOG 2200 [0.5 credit]**Global Connections**

Globalization and global environmental change as linked processes. Geographical analysis of economic, cultural and political transformations acting at global, national and local scales. Choices and constraints underlying economic, social and environmental sustainability.

Prerequisite(s): second-year standing or permission of the Department.

Lectures three hours a week.

GEOG 2300 [0.5 credit]**Space, Place and Culture**

Introduction to social and cultural geography, including how theories of space, place, landscape, power, and knowledge can be used to understand the geographic dimensions of social and cultural life. Topics include culture and identity, migration and transnationalism, nature, gender, sexuality, race, colonialism, consumption, and work.

Prerequisite(s): second-year standing or permission of the Department.

Lectures two hours a week, discussion one hour a week.

GEOG 2500 [0.5 credit]**Climate Change: Social Science Perspectives**

An introduction to climate change as a political, economic and socio-cultural phenomenon, including the political-economic and world-historical causes of anthropogenic greenhouse gas emissions; variations in impact and vulnerability; climate justice and other political movements; global mitigation and adaptation strategies; and proposals for radical systemic change.

Includes: Experiential Learning Activity

Also listed as ENST 2500.

Prerequisite(s): second-year standing or permission of the Department.

Lectures two hours a week, discussion groups one hour a week.

GEOG 2600 [0.5 credit]**Geography Behind the Headlines**

Exploration of the geographical backgrounds to selected issues of current public interest, through geography's perspective of integrating human and physical environments. Issues selected will be structured from the global through the national/regional to the local, identifying the interdependencies among the scales.

Lecture three hours a week.

GEOG 3000 [0.5 credit]**Honours Field Course**

Field research, with a focus on data collection methods, analysis and presentation of findings. Design and conduct research that links the human and biophysical environment. Topics may change from year to year.

Includes: Experiential Learning Activity

Also listed as ENST 3900.

Precludes additional credit for ENST 2900 (no longer offered).

Prerequisite(s): GEOG 2005/ENST 2005 and GEOG 2006/ENST 2006, third-year Honours standing in Geography, Geomatics or Environmental Studies, or permission of the Department.

Normally consists of a multi-day field excursion in the Ottawa region. A supplementary charge may apply.

Consult the department regarding course details.

GEOG 3001 [0.5 credit]**Doing Qualitative Research**

Theory and methods used in qualitative approaches to research in human geography; hands-on experience and discussion of beliefs and claims underlying scholarly work. Ethical and practical dilemmas confronting researchers.

Gathering and interpreting qualitative information; representing knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2005 or ENST 2005.

Lecture and discussion three hours per week.

GEOG 3003 [0.5 credit]**Quantitative Geography**

Quantitative methods used in geographical research: multiple correlation and regression, principal component/factor analysis, spatial statistics, cluster analysis, and a review of other selected techniques. Computer-based analysis.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2006 or ENST 2006 or STAT 2507 or permission of the Department.

Lecture two hours a week, laboratory two hours a week.

GEOG 3010 [0.5 credit]**Field Methods in Physical Geography**

Field and laboratory approaches, methodologies and techniques in physical geography. Field projects will be undertaken to collect data for analysis, evaluation and presentation.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2006 or ENST 2006 or STAT 2507 and GEOG 2013 or GEOG 2014 or permission of the Department.

Normally consists of a multi-day field camp, including lodging, during Fall or Winter Break, and regular classroom meetings. A supplementary charge will apply.

GEOG 3021 [0.5 credit]**Geographies of Culture and Identity**

Examination of culture, identity and place over time. Colonial and other historical processes that have shaped societies from place to place; relationships between cultural groups and their natural surroundings; gender, ethnicity, nationality and other dimensions of identity; impacts of globalization.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2300 and third-year standing, or permission of the Department.

Lecture three hours a week.

GEOG 3022 [0.5 credit]**Environmental and Natural Resources**

Exploration of complexity, dynamics, uncertainty and equity issues underpinning environmental and resource issues; review and appraisal of selected contemporary methods to assess and manage environmental and natural resources.

Includes: Experiential Learning Activity

Also listed as ENST 3022.

Prerequisite(s): third-year standing in Geography or Environmental Studies or BGInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

GEOG 3023 [0.5 credit]**Cities in a Global World**

Introduces the study of cities as "systems of cities", the political economy of linkages between urban places located unevenly in space, and "cities as systems". Case studies of socio-cultural, political and economic relations within biophysical and built environments.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2023 and third-year standing, or permission of the department.

Lecture and discussion three hours a week.

GEOG 3024 [0.5 credit]**Understanding Globalization**

Geographical analysis of processes of globalization: theoretical frameworks, historical context and contemporary challenges.

Prerequisite(s): GEOG 2200 and third-year standing, or permission of the Department.

Lecture three hours a week.

GEOG 3025 [0.5 credit]**Geographies of Selected Regions**

Geographical analysis of key questions facing a selected region of the world. Attention will focus on selected topics within one or more regions and their related global context.

Prerequisite(s): third-year standing in a B.A. program or BGInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

GEOG 3026 [0.5 credit]**Topics in the Geography of Canada**

Selected topic concerning the geography of Canada. Topic varies from year to year.

Precludes additional credit for GEOG 2505 [no longer offered].

Prerequisite(s): GEOG 1020 or ENST 1020 and second-year standing, or permission of the Department.

Lecture three hours a week.

GEOG 3030 [0.5 credit]**Regional Field Excursion**

Guided and independent geographic field research, with a focus on data collection methods, and analysis and presentation of findings. Consists of an excursion outside of the Ottawa region. A supplementary charge may apply.

Includes: Experiential Learning Activity

Prerequisite(s): third-year Honours standing in Geography or BGInS Specialization in Globalization and Environment or permission of the Department.

A seven- to ten-day field excursion.

GEOG 3102 [0.5 credit]**Geomorphology**

Geomorphological agents of landscape change at the Earth's surface, emphasizing the role of water, ice and wind in erosion and deposition; use of geomorphic indicators in studies of environmental change. A supplementary charge may apply.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2014 and third-year standing, or permission of the Department.

Lectures two hours a week, laboratory two hours a week, one field excursion.

GEOG 3103 [0.5 credit]**Watershed Hydrology**

Principles of hydrology at local and watershed scales, emphasizing: soil moisture regimes; field data collection and analysis of surface water or snow and ice conditions; hydrologic processes in cold environments; and regional runoff regimes in Canada.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or permission of the Department.

Lectures three hours a week, laboratory two hours a week.

GEOG 3104 [0.5 credit]**Principles of Biogeography**

Contemporary and past controls on distribution of plants and animals at global, regional and local scales; significance of these distributions.

Includes: Experiential Learning Activity

Also listed as BIOL 3608.

Prerequisite(s): GEOG 1010 or BIOL 2600, or permission of the Department.

Lectures, laboratory, and fieldwork five hours a week.

GEOG 3105 [0.5 credit]**Climate and Atmospheric Change**

The global climate system, with emphasis on global change variability over the historical and modern periods; the changing composition of the atmosphere and its impact on climate; analysis and interpretation of climatic and atmospheric data; modeling of climate systems.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or permission of the Department.

Lecture two hours a week, laboratory two hours a week.

GEOG 3106 [0.5 credit]**Aquatic Science and Management**

Fundamentals of aquatic science. The physical, chemical, and biotic aspects of lake, river, and estuary systems including human impacts, management and conservation.

Includes: Experiential Learning Activity

Also listed as ENSC 3106.

Prerequisite(s): third-year standing and a second-year science or engineering course.

Workshop four hours per week.

GEOG 3108 [0.5 credit]**Soil Properties**

The physical and chemical properties of soils; soil-water relationships, weathering processes, soil mineralogy, cation exchange, soil pH. A plant-oriented perspective predominates.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or GEOG 2014 or permission of the Department.

Lectures and laboratory five hours a week.

GEOG 3206 [0.5 credit]**Health, Environment, and Society**

Factors influencing human health in an ecological framework involving population structure, habitat, and behaviour. Changes in the distribution of communicable and degenerative diseases are portrayed as being related to historical and contemporary development and globalization processes. Sources, types and characteristics of geographically referenced health information.

Prerequisite(s): third-year standing.

Lectures three hours a week.

GEOG 3209 [0.5 credit]**Sustainability and Environment in the South**

Analysis of the relationships between people and environment in selected regions in the South (Africa, Asia, Latin America). Emphasis on sustainable livelihoods and local action in relation to broader socio-economic and political processes. Regions selected vary from year to year.

Prerequisite(s): third-year standing and ENST 2000 or ENST 2001 or GEOG 2200 or GEOG 2300 or permission of the Department.

Lecture and discussion three hours a week.

GEOG 3404 [0.5 credit]**Geographies of Economic Development**

Geographical approaches to economic development and difference at local, regional and global scales.

Critical historical, cultural, social and political economic perspectives on 'development', including theories of the state, colonial power, and development institutions. Spatial dynamics and environmental impacts of economic activity.

Prerequisite(s): GEOG 2200 or permission of the Department.

Lectures three hours a week.

GEOG 3501 [0.5 credit]**Geographies of the Canadian North**

The physical characteristics, historical geography, economic resources, settlement patterns and problems and the future development of Arctic and Subarctic lands, focusing primarily on Canada.

Prerequisite(s): third-year standing or permission of the Department.

Lectures three hours a week.

GEOG 3700 [0.5 credit]**Population Geography**

The distributional aspects of population attributes; areal patterns of population characteristics and their spatial variations associated with differences in the nature of places; migratory movements within the framework of spatial models of interactions between locations.

Prerequisite(s): GEOG 2200 or GEOG 2300, or permission of the Department.

Lectures three hours a week.

GEOG 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

GEOG 4000 [0.5 credit]**Field Studies**

Field observation and methodology in a selected region; individual or group basis.

Includes: Experiential Learning Activity

Also listed as ENST 4400.

Prerequisite(s): third-year Honours standing and permission of the Department.

Hours to be arranged.

GEOG 4004 [0.5 credit]**Environmental Impact Assessment**

Principles, scope and purpose of environmental impact assessment, from conceptual and methodological points of view; range of environmental issues, with emphasis on Canadian case studies.

Includes: Experiential Learning Activity

Also listed as ENST 4004.

Prerequisite(s): GEOG 3022 or ENST 3022, and fourth-year Honours standing in Geography or Environmental Studies or Environmental Science, or permission of the Department.

Lectures and seminars three hours a week.

GEOG 4005 [0.5 credit]**Directed Studies in Geography**

Students pursue their interest in a selected theme in geography on a tutorial basis with a member of the Department.

Prerequisite(s): permission of the Department.

GEOG 4007 [0.5 credit]**Special Topics in Geography and Environmental Studies**

Selected topics in geography and/or environmental studies.

Also listed as ENST 4007.

Precludes additional credit for GEOG 4006.

Prerequisite(s): fourth-year Honours standing in the Department or permission of the Department.

Seminar three hours per week.

GEOG 4013 [0.5 credit]**Cold Region Hydrology**

An examination of cold region hydrologic processes via experimental and observational studies; analysis of hydrologic data and application of hydrologic models.

Prerequisite(s): GEOG 3103.

Lecture three hours a week.

GEOG 4017 [0.5 credit]**Global Biogeochemical Cycles**

Processes that control the fluxes and reservoirs of biologically active chemical constituents on land, in the atmosphere, and in the oceans. Interactions between biogeochemical cycles and the Earth's climate; impact of land use and fossil fuel emissions on biogeochemical cycles and global change.

Prerequisite(s): GEOG 3108 or permission of the Department.

Lectures three hours a week.

GEOG 4021 [0.5 credit]**Seminar in Culture, Identity and Place**

Selected topic or field of inquiry concerning the geographic dimensions of culture, identity and place.

Prerequisite(s): GEOG 3021 and fourth-year Honours standing in Geography or permission of the Department.

Seminar three hours a week.

GEOG 4022 [0.5 credit]**Seminar in People, Resources and Environmental Change**

A selected topic or field of inquiry concerning natural resource use and environmental change.

Also listed as ENST 4022.

Prerequisite(s): GEOG 3022 or ENST 3022 and fourth-year Honours standing in Geography or Environmental Studies or BGIInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours a week.

GEOG 4023 [0.5 credit]**Seminar in Special Topics on the City**

A selected topic or field of inquiry concerning urban geography.

Prerequisite(s): GEOG 3023 and fourth-year Honours standing in Geography or Environmental Studies or BGIInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours per week.

GEOG 4024 [0.5 credit]**Seminar in Globalization**

A selected issue or topic related to globalization.

Prerequisite(s): GEOG 3024 and fourth-year Honours standing in Geography or BGIInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours week.

GEOG 4040 [0.5 credit]**Geographic Thought**

Major intellectual issues and debates in the development of contemporary human geography, including history of geographic thought, geographic responses to social and political movements and debates, and geographic engagement with contemporary critical theory.

Prerequisite(s): fourth-year Honours standing in Geography or permission of the Department.

Seminar three hours per week.

GEOG 4050 [0.5 credit]**Environmental and Geographic Education**

Selected theoretical and applied issues concerning environmental and geographic education.

Also listed as ENST 4050.

Prerequisite(s): third-year Honours standing in Geography or Environmental Studies, or permission of the Department.

Seminar three hours per week.

GEOG 4101 [0.5 credit]**Two Million Years of Environmental Change**

Multidisciplinary scientific study of the changes in the physical environment of the Earth during the last two million years and methods of studying recent Earth history, with focus on current research.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in a B.Sc. program, or a third year Science Geography Elective or a third year EARTH course, or permission of the Department. Note: GEOG 3105 is recommended.

Lectures three hours a week.

GEOG 4103 [0.5 credit]**Water Resources Engineering**

A quantitative analysis of natural water systems and the development of these systems as a resource. Components of the hydrologic cycle. Quantitative analysis of stream flow. Probability concepts in water resources. Reservoir design and operation. Availability of groundwater. Storm water management.

Also listed as ENVE 3003.

Prerequisite(s): permission of the Department.

Recommended background: MAAE 2300.

Lectures three hours a week, problem analysis one hour a week.

GEOG 4104 [0.5 credit]**Microclimatology**

The formation of microclimates near the Earth's surface; energy and water flows; the interaction of atmospheric processes with the physical properties of surfaces.

Prerequisite(s): GEOG 2013 or permission of the Department.

Lectures three hours a week.

GEOG 4108 [0.5 credit]**Permafrost**

Distribution, development, and degradation of permafrost in Canada; thermal and hydrologic regime of permafrost terrain; development of landforms in permafrost regions; geotechnical consideration in northern construction.

Prerequisite(s): GEOG 3108 or permission of the Department.

Lectures three hours a week.

GEOG 4304 [0.5 credit]**Transportation Engineering and Planning**

Transportation and the socio-economic environment; modal and intermodal systems and components; vehicle motion; human factors, system and facility design; traffic flow; capacity analysis; planning methodology; environmental impacts; evaluation methods.

Also listed as CIVE 3304.

Prerequisite(s): third-year standing, or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

GEOG 4323 [0.5 credit]**Urban and Regional Planning**

History, theories, and practice of urban planning, as well as the policies, plans, and programs developed and implemented in diverse communities. Course topics may include the integration of community development and social planning, urban design, transportation and infrastructure, and environmental management.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 3023 and fourth-year standing in Geography or Environmental Studies, or permission of the department.

Lectures three hours per week.

GEOG 4406 [0.5 credit]**Practicum I**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4408.

Includes: Experiential Learning Activity

Also listed as GEOM 4406.

Prerequisite(s): fourth-year Honours standing in Geography or Geomatics and permission of the Department.

Field placement one day a week.

GEOG 4408 [0.5 credit]**Practicum II**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4406.

Includes: Experiential Learning Activity

Also listed as GEOM 4408.

Prerequisite(s): fourth-year Honours standing in Geography or Geomatics and permission of the Department.

Field placement of one day a week.

GEOG 4906 [1.0 credit]**Honours Research Project**

A research project based on a modeling, laboratory or field problem. The project is supervised by a member of the department and a written thesis and poster must be submitted.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOM 4906, GEOG 4909, GEOM 4909, ENST 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in B.Sc. Geography, and an approved research topic and adviser. Hours to be arranged with faculty adviser.

GEOG 4909 [1.0 credit]**Honours Research Thesis**

Independent design and implementation of a research project leading to the submission of a research thesis. Students work with an individual faculty adviser. The subject for research is decided upon in consultation with the supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4906, GEOM 4906, GEOM 4909, ENST 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in B.A. Geography or B.Globalization and International Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser. Hours to be arranged with faculty adviser.

Geomatics (GEOM)

Geomatics (GEOM) Courses**GEOM 1004 [0.5 credit]****Maps, Satellites and the Geospatial Revolution**

Introduction to the creation and use of maps using a variety of geospatial tools to better understand and resolve physical, social and environmental problems. Overview of geomatics (cartography and map design, geographic information systems, GPS, remote sensing).

Includes: Experiential Learning Activity

Also listed as EARTH 2004.

Precludes additional credit for GEOM 2004 (no longer offered).

Lectures and laboratory, four hours a week.

GEOM 2007 [0.5 credit]**Geographic Information Systems**

Data in a spatial context; spatial data structures, georeferencing, data query; mapping; creating spatial databases; selected topics in GIS application to environmental, land-use planning and market analysis issues.

Includes: Experiential Learning Activity

Lectures and laboratory, four hours a week.

GEOM 3002 [0.5 credit]**Introduction to Remote Sensing**

Principles and methods of remote sensing; visual interpretation of air photos and satellite imagery; digital image processing, analysis and classification for thematic mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 1004 or GEOM 2007, and second-year standing, or permission of the Department.

Lectures two hours a week, laboratory two hours a week.

GEOM 3005 [0.5 credit]**Geospatial Analysis**

Acquisition, manipulation, and display of spatially referenced information using Geographic Information Systems (GIS). Spatial modeling, site selection, and routing analysis in raster and vector GIS.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 2007.

Workshop three hours a week.

GEOM 3007 [0.5 credit]**Cartographic Theory and Design**

Principles of and issues in cartography, cartographic communication and map design; practical aspects of cartographic representation using multimedia and online mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 1004 or GEOM 2007 or permission of the Department.

Lectures and laboratory four hours a week.

GEOM 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

GEOM 4001 [0.5 credit]**Special Topics in Geomatics**

A seminar focusing on selected topics in geomatics including advanced theory and/or application.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Geomatics or permission of the department.

Laboratory or seminar three hours a week.

GEOM 4003 [0.5 credit]**Remote Sensing of the Environment**

Advanced image enhancement; land cover classification for thematic mapping; biophysical modeling; applications in resources, environment, and urban mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3002 and Honours standing, or permission of the Department.

Lectures two hours a week, laboratory two hours a week.

GEOM 4005 [0.5 credit]**Directed Studies in Geomatics**

Students pursue their interest in a selected theme in Geomatics on a tutorial basis with a member of the Department.

Prerequisite(s): permission of the Department.

GEOM 4008 [0.5 credit]**Advanced Topics in Geographic Information Systems**

Advanced methods and techniques in GIS applications including: positional and attribute error analysis, multiple criteria decision making, interpolation, elevation modeling and ortho-imaging, and spatial pattern measurement.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3005 and Honours standing.

Lectures two hours a week, laboratory two hours a week.

GEOM 4009 [0.5 credit]**Applications in Geographic Information Systems**

Project design and customization, application development within a GIS, digital atlas compilation and geomatics education.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3005 and (COMP 1006 or GEOG 3003), or permission of the department.

Workshop three hours a week.

GEOM 4406 [0.5 credit]**Practicum I**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4408.

Includes: Experiential Learning Activity

Also listed as GEOG 4406.

Prerequisite(s): fourth-year Honours standing in Geomatics or Geography and permission of the Department.

Field placement one day a week.

GEOM 4408 [0.5 credit]**Practicum II**

Experience in an employment environment through field placement. Observation and involvement in issues and research methods used by professional geographers. May be taken for credit in addition to GEOG/GEOM 4406.

Includes: Experiential Learning Activity

Also listed as GEOG 4408.

Prerequisite(s): fourth-year Honours standing in Geomatics or Geography and permission of the Department.

Field placement one day a week.

GEOM 4906 [1.0 credit]**Honours Research Project**

Candidates for B.Sc. with Concentration in Geomatics undertake a research project within their area of specialization. The project is supervised by a member of the department and a written report must be submitted. The candidate may be examined orally on the report.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4906, GEOG 4909, GEOM 4909, ENST 4906, and ENST 4907.

Prerequisite(s): fourth-year Honours standing in BSc Geomatics, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

GEOM 4909 [1.0 credit]**Honours Research Thesis**

Independent design and implementation of a research project leading to the submission of a research thesis. Students work with an individual faculty adviser. The subject for research is decided upon in consultation with the supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 4904 / GEOM 4904 (no longer offered), GEOG 4906, GEOM 4906, GEOG 4909, ENST 4906 and ENST 4907.

Prerequisite(s): fourth-year Honours standing in B.A. Geomatics, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

German (GERM)

German (GERM) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

GERM 1010 [0.5 credit]**First-Year German I**

For students with no knowledge of German. Oral skills, reading and writing. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 1110.

Four hours a week.

GERM 1020 [0.5 credit]**First-Year German II**

Continuation of first-year German. Oral skills, reading and writing. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 1110.

Prerequisite(s): grade of C or higher in GERM 1010, or permission of the School.

Four hours a week.

GERM 1110 [1.0 credit]**Intensive First-Year German**

For students with no knowledge of German. Oral skills, reading and writing. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 1010 and GERM 1020.

Eight hours a week (one term).

GERM 2000 [0.5 credit]**Reading in German I**

For students with no prior knowledge of German who would like to develop the skills to read a variety of German texts, including passages from scholarly journals, reports, online newspaper or magazine articles.

Includes: Experiential Learning Activity

Three hours a week.

GERM 2010 [0.5 credit]**Second-Year German I**

Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 2110.

Prerequisite(s): grade of C or higher in GERM 1020, GERM 1110, or permission of the School.

Four hours a week.

GERM 2020 [0.5 credit]**Second-Year German II**

Continuation of second-year German. Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 2110.

Prerequisite(s): grade of C or higher in GERM 2010, or permission of the School.

Four hours a week.

GERM 2110 [1.0 credit]**Intensive Second-Year German**

Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for GERM 2010 and GERM 2020.

Prerequisite(s): grade of C or higher in GERM 1020, GERM 1110, or permission of the School.

Eight hours a week (one term).

GERM 3000 [0.5 credit]**Reading in German II**

A continuation of Reading in German I. Further development of reading skills in German.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 2000 or permission of the School.

Three hours a week.

GERM 3110 [1.0 credit]**Intensive Third-Year German**

Continuation of the study of German to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 2020, GERM 2110, or permission of the School.

Six hours a week (one term).

GERM 4110 [1.0 credit]**Intensive Fourth-Year German**

Advanced spoken and written German with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 3110, or permission of the School.

Six hours a week (one term).

GERM 4215 [0.5 credit]**German for Specific Purposes**

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 4110, or permission of the School.

Three hours per week.

GERM 4380 [0.5 credit]**Topics in German-speaking Cultures**

Selected topics in German-speaking cultures and societies. Development of advanced language skills.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 4110, or permission of the School.

Three hours per week.

GERM 4900 [1.0 credit]**Independent Study**

Research in a topic in German language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in German, grade of C or higher in GERM 4110 or equivalent, or permission of the School.

GERM 4901 [0.5 credit]**Independent Study**

Research in a topic in German language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in German, grade of C or higher in GERM 4110 or equivalent, or permission of the School.

Global and International Studies (GINS)

Global and International Studies (GINS) Courses

GINS 1000 [0.5 credit]

Global History

Introduction to political, social, cultural, economic and military developments in global and international history.

Prerequisite(s): Enrolment in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 1010 [0.5 credit]

International Law and Politics

Introduction to the evolution of the international system, including the rise of the state, sovereignty, and the challenge of international cooperation. The role of international law in addressing global issues such as human rights, security and trade.

Prerequisite(s): Enrolment in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 1020 [0.5 credit]

Ethnography, Globalization and Culture

Introduction to the intersection of globalization processes with social and cultural diversity as examined through ethnography and ethnographic methods. Topics may include cultural survival, growing economic inequality, ecological vulnerabilities, health practices, human rights, and shifting racialized, gendered, religious, ethnic, and national identities.

Prerequisite(s): Enrolment in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 1100 [0.5 credit]

Global Development

Introduction to key questions and issues in development studies, taught from an inter-disciplinary perspective.

Lectures two hours a week, tutorials one hour a week.

GINS 1300 [0.0 credit]

International Experience Requirement Preparation

This mandatory course introduces BGIInS students to the International Experience Requirement (IER) and to the various policies and procedures associated with it. Graded SAT/UNS.

Prerequisite(s): first-year standing in BGIInS.

Online course.

GINS 2000 [0.5 credit]

Ethics and Globalization

Introduction to global ethical issues, focusing on alternative lines of ethical argument. Topics may include poverty and unequal development, climate change, war and terrorism, reparations for colonialism and slavery, international relief services, ill effects of globalization, trafficking and forced labour, democracy and global governance.

Prerequisite(s): Second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 2010 [0.5 credit]

Globalization and International Economic Issues

An introduction to the world economy, international trade and finance, and economic development. Social and economic implications for both rich and poor countries of lowered barriers to the international flows of goods, services, capital, labour, and information in the age of globalization.

Prerequisite(s): Second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 2020 [0.5 credit]

Global Literatures

A study of the global dynamics of the contemporary literary imagination and literary production; literature as cultural practice; the politics of literary circulation; the politics of language and translation.

Prerequisite(s): second-year standing in B.G.In.S.

Lectures two hours a week, tutorials one hour a week.

GINS 3010 [0.5 credit]

Global and International Theory

Advanced analysis of global and international theories from a variety of perspectives, including realism, liberalism, postmodernism, constructivism, post-structuralism, literary and critical approaches.

Prerequisite(s): third-year standing in B.G.In.S.

Lectures three hours a week.

GINS 3020 [0.5 credit]

Places, Boundaries, Movements and Global Environmental Change

Examination of the relationship between individual places and global social and environmental processes. The changing nature of regions, states and political boundaries in the context of political and economic globalization and international migration. Social science perspectives on climate change vulnerability, adaptation and mitigation.

Prerequisite(s): third-year standing in B.G.In.S.

Lectures three hours a week.

GINS 3100 [0.5 credit]

Global and International Group Project

Student teams work on a project related to global and international studies. Lectures are devoted to discussing group project-related issues and student presentations. A project proposal, a series of project reports and oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lecture one hour per week, tutorials two hours per week.

GINS 3200 [0.5 credit]**Experiential Learning Abroad**

An experiential learning opportunity combining volunteer work abroad with classroom instruction on the Carleton campus. Through experiential engagement outside Canada, together with critical reflection, students will learn about the challenges and rewards of global engagement.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing.

Lecture two hours a week plus a three week experiential learning trip abroad.

GINS 3300 [0.5 credit]**Global and International Studies Abroad: Selected Topics**

Based at a partner university around the world, and taught by a Carleton faculty member, the course will include lectures, seminars, guest speakers, field visits and group research projects to examine a topic in global and international studies. Topic and location will change annually.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and approval by the BGIInS Program Director.

Three week intensive course.

GINS 3900 [0.5 credit]**International Placement**

Placement for six weeks with a global and international focus.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B.G.In.S.

GINS 3901 [1.0 credit]**International Placement**

Placement for twelve weeks with a global and international focus.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B.G.In.S.

GINS 3930 [0.5 credit]**Carleton International Placement**

Placement for six weeks with a global and international focus for students outside of the BGIInS Program.

Includes: Experiential Learning Activity

Precludes additional credit for IPAF 3900.

Prerequisite(s): Third-year standing and minimum CGPA of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 3931 [1.0 credit]**Carleton International Placement**

Placement for twelve weeks with a global and international focus for students outside of the BGIInS Program.

Includes: Experiential Learning Activity

Precludes additional credit for IPAF 3901.

Prerequisite(s): Third-year standing and minimum CGPA of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 4090 [0.5 credit]**Honours Seminar in Global and International Studies**

Examination of key debates in global and international studies from a variety of disciplinary and interdisciplinary perspectives. Integration of knowledge from different areas of emphasis in global studies. A major research paper is required that undertakes to focus theoretical insight on practical concerns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S. Seminar three hours a week.

GINS 4900 [0.5 credit]**Tutorial in Global and International Studies**

A tutorial on selected topics in which seminars are not available.

Prerequisite(s): fourth-year Honours standing in B.G.In.S. and permission of the Program Director.

GINS 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. B.G.In.S. regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S. with a CGPA of 9.00 or higher, or permission of the Program Director.

Global Politics (GPOL)

Global Politics (GPOL) Courses**GPOL 1500 [0.5 credit]****Debates in Global Politics**

Theories, concepts and issues in international relations, global politics and global political economy. Topics may include conflict and intervention, peace and security, international institutions, human rights, gender, culture, globalization, multinational corporations, foreign policy, environmental issues, international development, and relations between rich and poor countries.

Precludes additional credit for PSCI 1200, PSCI 2601 and GPOL 1000.

Prerequisite(s): first-year standing in the Global Politics Specialization or Stream of the B.G.In.S. degree.

Lectures two hours a week, tutorials one hour a week.

GPOL 2500 [0.5 credit]**Debates in Comparative Politics**

Themes and debates in comparative politics, especially as they relate to the study and practice of Global Politics. Precludes additional credit for GPOL 1000 (no longer offered).

Prerequisite(s): second-year standing in the Global Politics Specialization or Stream in the BGIInS degree.

Lecture three hours a week.

GPOL 3000 [0.5 credit]**Themes in Global and Comparative Politics**

Themes and issues with a global and comparative focus, examining the role of key actors and applying theories and knowledge gained in previous Global Politics courses.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Global Politics program or third-year standing in the Global Politics Specialization or Stream in the BGIInS degree.

Seminar three hours a week.

GPOL 3100 [2.5 credits]**Internship in Global Politics**

The internship provides students with an opportunity to work with and study an organization whose institutional focus is on some international or regional aspect. Students will write a research paper on a topic related either to the organization or to the focus of the organization.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Global Politics program or third-year standing in the Global Politics Specialization of the BGIInS degree with a CGPA in the major of 9.00 or higher, or permission of the Department. Unscheduled.

GPOL 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member. The Honours Research Essay is evaluated by the supervisor and an appointed reader. Students are responsible for locating a faculty member willing to supervise the essay. Departmental regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Global Politics with a CGPA of 9.00 or fourth-year standing in the Global Politics Specialization in the BGIInS degree with a CGPA in the major of 9.00 or higher, or permission of the Department.

Unscheduled.

Greek (GREK)

Greek (GREK) Courses**GREK 1005 [0.5 credit]****Introduction to Greek I**

A course for beginners in ancient Greek, designed to give students a grasp of basic grammatical forms and vocabulary (with reference to English derivatives) through the reading of continuous Greek.

Includes: Experiential Learning Activity

Lectures and tutorials four hours a week.

GREK 1006 [0.5 credit]**Introduction to Greek II**

A course for students with some previous knowledge of the language: study of grammatical forms and constructions; acquisition of reading skills.

Includes: Experiential Learning Activity

Prerequisite(s): GREK 1005 or equivalent.

Lectures and tutorials four hours a week.

GREK 2200 [0.5 credit]**Intermediate Greek I**

Further study of the language; introduction to the reading of ancient Greek authors.

Includes: Experiential Learning Activity

Precludes additional credit for GREK 2001.

Prerequisite(s): GREK 1006 or equivalent.

Tutorials three hours a week.

GREK 2201 [0.5 credit]**Intermediate Greek II**

Continued study of the language; reading of selected prose and poetry by ancient Greek authors; development of translation skills.

Precludes additional credit for GREK 2001.

Prerequisite(s): GREK 2200 or equivalent.

Tutorials three hours a week.

GREK 3900 [0.5 credit]**Advanced Greek I**

Reading and critical discussion of selections from ancient Greek.

Prerequisite(s): GREK 2200, GREK 2201 or equivalent.

Tutorials three hours a week.

GREK 3901 [0.5 credit]**Advanced Greek II**

Reading and critical discussion of selections from ancient Greek.

Prerequisite(s): GREK 2200, GREK 2201 or equivalent.

Tutorials three hours a week.

GREK 4900 [0.5 credit]**Directed Study****GREK 4901 [0.5 credit]****Directed Study**

Health Sciences (HLTH)

Health Sciences (HLTH) Courses

HLTH 1000 [0.5 credit]

Fundamentals of Health

Introduction to what comprises a healthy body and mind, and what leads to illness and disease. Biomedical, psychosocial, and epidemiological approaches to current issues in the field of health. Policy and cultural/environmental contexts.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 1001.

Lectures three hours a week and group one hour a week.

HLTH 1001 [0.5 credit]

Principles of Health

Health and illness will be considered from an interdisciplinary perspective, including biomedical, cultural, psychosocial and environmental.

Precludes additional credit for HLTH 1000.

Lecture three hours a week.

HLTH 1002 [0.5 credit]

Health Science Communication

Introduction to using library, database and/or bioinformatics resources to develop informed verbal, non-verbal and written communication within the context of healthcare, public health and health research. Concepts in ethical scholarship, proper use of sources and plagiarism will be introduced.

Lecture three hours a week.

HLTH 2001 [0.5 credit]

Health Research Methods and Skills

An introduction to quantitative and qualitative methods and designs in health sciences research. Basic research skills will also be provided, including regulatory aspects of conducting research, information literacy skills, evaluating published research and other sources of evidence in the digital age.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 1000 or HLTH 1001.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 2002 [0.5 credit]

Molecular and Cellular Pathology

Introduction to the causes, natural history, and pathophysiology of common human diseases of various organ systems. Diseases related to structural and functional changes at the molecular, cellular and organ level.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 1000 and BIOL 1103.

Lecture three hours a week.

HLTH 2003 [0.5 credit]

Social Determinants of Health

Overview of the social determinants of health, ranging from early life experiences, poverty, social status, migration, and the physical environment. The relation between social determinants and environmental vulnerabilities, health behaviours, illness prevalence, treatment outcomes, and access to health care.

Prerequisite(s): HLTH 1000 or HLTH 1001.

Lecture three hours a week.

HLTH 2004 [0.5 credit]

Microbiology and Virology

Introduction to the pathogenic microorganisms, including fungal, bacterial, viral and prion. Biochemical, genetic, pathological and epidemiological aspects in the human context; their interaction with host defense systems and strategies for antibiotic and vaccine development.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 3301 (no longer offered).

Prerequisite(s): HLTH 1000 and BIOL 1103 or permission of the department.

Lecture three hours a week, and laboratory three hours a week.

HLTH 3101 [0.5 credit]

Global Health

Overview of issues in global health with focus on developing countries. Key indicators and determinants of global health, implementation and evaluation of global programs, challenges of research and interventions in the developing world, and key players in addressing global health issues.

Prerequisite(s): HLTH 2001 and HLTH 2003, or permission of the department.

Lecture and seminar, three hours per week.

HLTH 3102 [0.5 credit]

Indigenous Health in a Global World

The health conditions of Indigenous peoples in different regions of the world; social and biological factors that contribute to greater risk and poor health; strategies of Indigenous peoples to restore health to their peoples.

Prerequisite(s): HLTH 2001 and HLTH 2003, or permission of the department.

Lecture and seminar three hours per week.

HLTH 3103 [0.5 credit]

Health Policy and Canada's Health Care System

The history of Canada's health care system. The model of financing and intergovernmental responsibilities. Current and emerging policy debates facing our health care system, and the role of scientific evidence in decision-making and policy development.

Prerequisite(s): HLTH 1000 or HLTH 1001, or permission of the department.

Lecture and seminar three hours per week.

HLTH 3104 [0.5 credit]**Regulatory Issues and Human Health**

The general principles of health regulatory policies in Canada. The role of scientific evidence in developing legislation and regulations at different levels, including probable levels of risk, standards of evidence, cost-benefit analysis, ethical considerations, psychosocial factors influencing risk management and compliance, and evolving technologies.

Prerequisite(s): HLTH 1000 or HLTH 1001, or permission of the department.

Lecture and seminar three hours a week.

HLTH 3201 [0.5 credit]**Epidemiology**

Basic concepts of epidemiologic study designs and measures; inferences that are fundamental to the identification of causes and prevalence of diseases. Specialized issues within epidemiology including gene-environment interactions and the clustering of specific disease phenotypes.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 2507 and HLTH 2001, or permission of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 3302 [0.5 credit]**Immunity and Immune-Related Disorders**

Basic processes relevant to the immune system; the relationship between immune activity and functioning as related to the development of particular pathologies, such as virally-related illness, autoimmune disorders, inflammatory illnesses, and interactions with social and economic factors that promote immune-related disturbances.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002 and BIOL 2200 or permission of the department.

Lecture three hours a week, laboratory four hours a week. Labs require regular participation outside of the scheduled lab time.

HLTH 3303 [0.5 credit]**Molecular and Cellular Pathology II**

Advanced concepts in cell signaling and function, cell injury and death, tissue structure and wound healing and repair. This course will integrate genetic, biochemical and physiological mechanisms that contribute to health and disease.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002.

Lecture three hours a week, lab four hours a week.

HLTH 3401 [0.5 credit]**Diseases of Childhood**

Epidemiological, psychological and physiological basis for disease in childhood and adolescence. Topics will be discussed from a global and Canadian perspective and include the medicalization of these diseases.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture three hours a week.

HLTH 3402 [0.5 credit]**Diseases of Aging**

Aging is accompanied by increased illness related to cardiovascular, immune and neurodegenerative processes. This course assesses the fundamental mechanisms that determine these pathological conditions. Molecular mechanisms and psychosocial determinants; intervention and therapeutic strategies.

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of department.

Lecture three hours a week.

HLTH 3403 [0.5 credit]**Gender and Health**

The role of gender on psychosocial and biological mechanisms that alter the course of disease and treatment; health issues unique to women (e.g., reproductive and maternal health); the role of gender across cultures.

Prerequisite(s): HLTH 2002 and HLTH 2003, or permission of the department.

Lecture and seminar three hours a week.

HLTH 3404 [0.5 credit]**Psychosocial and Biological Interactions in Health**

The psychosocial and biological mechanisms that interact to influence health outcomes. Cultural, political, socioeconomic, and psychological factors that can impact the biological mechanisms underlying both mental and physical health; epigenetic and genetic alterations; implications for psychosocial interventions.

Precludes additional credit for HLTH 4402 (no longer offered).

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture and seminar three hours a week.

HLTH 3503 [0.5 credit]**Disability and Chronic Health Conditions**

An interdisciplinary view of disability and chronic health conditions, including risk factors, prevalence, and the trajectory of such conditions. Functional impact based on life stage. Strategies for health promotion, prevention, accommodations, treatment, and rehabilitation.

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture three hours a week.

HLTH 3901 [0.5 credit]**Emerging Issues in Health Sciences I**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses, and for skills development including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3902 [0.5 credit]**Emerging Issues in Health Sciences II**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3903 [0.5 credit]**Emerging Issues in Health Sciences III**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3904 [0.5 credit]**Emerging Issues in Health Sciences IV**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 3905 [0.5 credit]**Emerging Issues in Health Sciences V**

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and above in the BHSc program, an overall CGPA of at least 8.5 and permission of the Department of Health Sciences.

Seminars three hours a week.

HLTH 4101 [0.5 credit]**Global Health Governance**

Contemporary issues and debates in global health governance and effects on health monitoring and outcomes at individual and population levels. Historical patterns of global health, its regulatory framework, principal coordinating mechanisms and emerging challenges, and implications of globalization and international trade policies.

Prerequisite(s): HLTH 3101, or permission of the department.

Lecture and seminar three hours per week.

HLTH 4102 [0.5 credit]**New Health Technologies**

Overview of new and emerging health technologies, including medical and assistive devices, diagnostics and screening, genetics, reproduction, tissue regeneration, imaging, and health informatics. Health technology assessment methods and issues. Regulatory, ethical and social implications; considerations in the developing world.

Prerequisite(s): HLTH 1000 or HLTH 1001 and third-year standing or higher, or permission of the department.

Also offered at the graduate level, with different requirements, as HLTH 5350, for which additional credit is precluded.

Lecture and seminar three hours a week.

HLTH 4201 [0.5 credit]**Applied Health Statistics**

Statistics concepts and procedures used in the analysis of health data; techniques commonly used to analyze data collected from different types of epidemiological and experimental study designs; how to interpret and present statistical findings.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 3201 and STAT 2507 or permission of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 4202 [0.5 credit]**Health Program Evaluation Tools and Methods**

Introduction to concepts, principles and processes of evaluating health care programs and interventions. Methodological tools including needs assessment, project management skills, use of health information management databases. Issues in communication with stakeholders, including change management and decision making.

Prerequisite(s): HLTH 2001 and STAT 2507 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4301 [0.5 credit]**Pandemics and Infectious Disease**

Factors that influence disease processes, including viruses, bacteria, protozoa, fungi and infectious agents, how these agents come to have the effects that they do in a given individual, how they spread within and how to limit their spread.

Prerequisite(s): HLTH 2004 and HLTH 3302 or permission of the department.

Lecture three hours a week.

HLTH 4302 [0.5 credit]**Inflammatory and Endocrine Factors in Diseases**

Inflammatory and hormonal processes and their relevance to disease states. Immune-related disorders, heart disease and stroke, metabolic syndrome, diabetes, psychiatric conditions, and neurodegenerative disorders. The contribution of psychosocial and genetic factors to diseases.

Prerequisite(s): HLTH 3302 or BIOL 4200 or BIOC 4200 or permission of the department.

Lecture three hours a week.

HLTH 4303 [0.5 credit]**Fundamentals in Pharmacology and Toxicology**

Introduction to pharmacological principles, xenobiotics and their interactions within living systems. Topics include biological mechanisms of action of xenobiotics on macromolecules, cells and their effects on various organ systems. Social, legal and governmental policies will be discussed.

Prerequisite(s): HLTH 3303 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4401 [0.5 credit]**Maternal and Perinatal Determinants of Health**

The integrated genetic, physiologic and environmental events occurring in early life that impact pregnancy, fetal/infant development and disease risk throughout the lifecourse, with a focus on the mechanisms driving these events.

Prerequisite(s): HLTH 2003 and HLTH 3302 or permission of the department.

Lecture three hours a week.

HLTH 4502 [0.5 credit]**Disabilities and Disorders Related to Sensory Nervous System**

Congenital and acquired disabilities related to sensory organs and processes, including visual and hearing impairments, vestibular and balance disorders, reflex problems, and others. Interdisciplinary approach to causes, mechanisms, accessibility, accommodations and interventions.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 3501 (no longer offered).

Prerequisite(s): Either 1) HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306), or 2) NEUR 3206, or 3) permission of the department.

Lecture three hours a week, workshop two hours a week.

HLTH 4503 [0.5 credit]**Trauma-related Disability and Impairments**

Biomedical and psychosocial factors associated with trauma-related illnesses, stressors, injuries and disabilities, including traumatic brain injury, spinal cord injury, fractures, amputations, burns, post-traumatic stress disorder, and others. Short- and long-term considerations for care and rehabilitation.

Precludes additional credit for HLTH 3502 (no longer offered).

Prerequisite(s): HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306) or permission of the department.

Lecture three hours a week.

HLTH 4601 [0.5 credit]**Environmental Pollution and Health**

Introduction to environmental and occupational health; detection, assessment, management and mitigation of chemical, physical and biological hazards.

Prerequisite(s): HLTH 3104 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4701 [0.5 credit]**Knowledge Translation**

The application of knowledge translation in the formulation of policy and the development of skills required to maximize the impact of scientific findings through real world programs and policies and communication skills for diverse audiences.

Prerequisite(s): fourth-year standing and permission of the Department of Health Science and permission of the instructor.

Also offered at the graduate level, with different requirements, as HLTH 5300, for which additional credit is precluded.

Seminar three hours a week.

HLTH 4901 [0.5 credit]**Directed Studies in Health**

Independent study, open to third- and fourth-year students to explore a particular health related topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the B.H.Sc. program, in addition to permission of the Faculty supervisor and the Department of Health Sciences.

HLTH 4906 [1.0 credit]**Capstone course – Research Essay**

Independent critical review and research proposal on a health- related topic, using library, database and/or bioinformatics resources, under the supervision of the course instructor. Seminar topics include identification and critical review of resources, development of scientific writing skills, and formulation of health science-related research.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4907, HLTH 4908 (no longer offered), HLTH 4909, HLTH 4910.

Prerequisite(s): fourth-year standing in the B.H.Sc.

Honours and permission of the Department of Health Sciences.

Lecture/seminar three hours a week.

HLTH 4907 [1.0 credit]**Capstone Course – Group Research Project**

A collaborative project on a health related topic. Students, working together as a team, will complete a research project and develop communication and research skills under the supervision of the faculty supervisor. Evaluation will be based on a written report and oral presentation.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4908 (no longer offered), HLTH 4909, HLTH 4910.

Prerequisite(s): fourth-year standing in the B.H.Sc.

Honours program, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 9.0, and permission of the Faculty supervisor and the Department of Health Sciences.

Seminars three hours a week as scheduled by the course instructor; other hours as arranged with the Faculty Adviser.

HLTH 4909 [1.0 credit]**Capstone Course – Field Placement and Research Project**

Field placement providing practical experience in a health-related field. Placements may be in institutional or community settings, governmental or non-governmental organizations. Sites may vary each year. Evaluation based on a written report and an oral presentation.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4907, HLTH 4908 (no longer offered), HLTH 4910.

Prerequisite(s): fourth-year standing in B.H.Sc. Honours, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 9.0 and permission of the Department of Health Sciences.

Schedules may vary depending on the field placement site, but students are required to spend a minimum of eight hours per week on-site and attend required seminars as arranged by the course instructor.

HLTH 4910 [1.0 credit]**Honours Individual Research Thesis**

An independent health related research project under the direct supervision of a faculty member. Evaluation will be based on a written thesis and oral poster presentation (oral or poster).

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 4906, HLTH 4907, HLTH 4908, HLTH 4909.

Prerequisite(s): fourth-year standing in B.Sc. Honours Health Sciences, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 10.0, and permission of the Faculty advisor and the Department of Health Sciences. Permission will depend, in part, on capacity, such that meeting the minimum requirements does not guarantee enrollment in this research thesis course.

Hebrew (HEBR)

Hebrew (HEBR) Courses**HEBR 1904 [1.0 credit]****Introductory Hebrew I**

First level introduction for students with no knowledge of Hebrew. Presents essentials for biblical and modern Hebrew.

Includes: Experiential Learning Activity

Also listed as RELI 1011.

Three hours per week plus out-of-class requirements.

HEBR 2904 [1.0 credit]**Introductory Hebrew II**

Second level introduction to the Hebrew language. Through reading modern and classical texts as well as conversation, students will learn vocabulary, grammar, and common idioms.

Includes: Experiential Learning Activity

Also listed as RELI 2011.

Prerequisite(s): HEBR 1904 or RELI 1904, RELI 1011 or permission of the department.

Three hours per week plus out-of-class requirements.

HEBR 3904 [1.0 credit]**Advanced Hebrew**

Advanced study of the Hebrew language through reading modern and biblical texts as well as through listening to dialogues and short stories to learn the use of all language components including morphology, syntax, and expressions.

Includes: Experiential Learning Activity

Also listed as RELI 3011.

Prerequisite(s): RELI 2011, RELI 2904, HEBR 2904, or permission of the department.

Lecture three hours a week plus out-of-class requirements.

History (HIST)

History (HIST) Courses

Please note: not all of the following courses are offered in a given year. Consult the public class schedule at Carleton Central for the most up-to-date offerings. For further details concerning courses, see the departmental website at carleton.ca/history.

4000-level History **seminars** have limited enrolment. Priority in enrolment is given to students in History Honours and Combined Honours programs.

Topics in 4000-level History **seminars** change from year to year. Current topics are posted on the department's website at carleton.ca/history

HIST 1001 [1.0 credit]**The Making of Europe**

A survey of the major events, ideas and movements that have shaped Europe from Antiquity to the 21st century. (Field a or b).

Lectures/groups three hours a week.

HIST 1002 [1.0 credit]**Europe in the 20th Century**

An introduction to some of the major ideological, political, diplomatic, military, social, cultural and economic developments that have shaped contemporary Europe. (Field b).

Lectures/groups three hours a week.

HIST 1010 [0.5 credit]**History of Northern Canada**

A historical introduction to northern Canada from pre-contact times to the present. Open only to students in the Nunavut Public Administration certificate program. (Field c).

HIST 1300 [1.0 credit]**The Making of Canada**

An exploration of major themes in and debates about the shaping of Canada and its peoples, including the experience of Indigenous peoples and their interactions with settler society. (Field c).

Lectures/groups three hours a week.

HIST 1707 [1.0 credit]**World History**

This course will follow the global community from 1400 to the present exploring how global connections, movements and trends have shaped our world with a particular focus on the non-western world. (Field a or d).

Lectures/groups three hours a week.

HIST 1900 [0.5 credit]**Topics in History**

A lecture course on a special topic, theme, or period. Topic varies from year to year. (Field will depend on topic).

Lectures/groups three hours a week.

HIST 2000 [1.0 credit]**Medieval Europe**

The history of medieval Europe from the fourth to the fifteenth century. (Field a).

Precludes additional credit for HIST 2001 and HIST 2002 (no longer offered).

Lectures/groups three hours a week.

HIST 2005 [1.0 credit]**England During the Middle Ages**

A study concentrating on the political development of medieval England, A.D. 410-1485. (Field a).

Lectures/groups three hours a week.

HIST 2102 [0.5 credit]**Modern Thought and Culture: the Nineteenth Century**

A broad examination of Western thought and culture in the 19th century with a focus on Europe and emphasis on major thinkers and intellectual, ideological, and cultural movements. The course is intended for students from varied disciplinary backgrounds. (Field e).

Precludes additional credit for HIST 2101 and HIST 3100 (no longer offered).

Lectures/groups three hours a week.

HIST 2103 [0.5 credit]**Modern Thought and Culture: the Twentieth Century**

A broad examination of Western thought and culture in the 20th century with a focus on Europe and emphasis on major thinkers and intellectual, ideological, and cultural movements. The course is intended for students from varied disciplinary backgrounds. (Field e).

Precludes additional credit for HIST 2101 and HIST 3100 (no longer offered).

Lectures/groups three hours a week.

HIST 2204 [0.5 credit]**Early Modern Europe 1350-1650**

A survey of the major social, political and cultural developments in continental Europe from the 14th to the 17th centuries. (Field a).

Precludes additional credit for HIST 2203 (no longer offered).

Lectures/groups three hours a week.

HIST 2206 [0.5 credit]**Early Modern Europe 1600-1800**

A survey of the major social, political and cultural developments in continental Europe during the 17th and 18th centuries. (Field a).

Precludes additional credit for HIST 2203 (no longer offered).

Lectures/groups three hours a week.

HIST 2207 [1.0 credit]**Nineteenth-Century Europe**

A study of critical episodes in the history of continental Europe during the nineteenth century. Themes may include the struggles for democracy in France, modernizing reform in Russia, and national unification in Italy and Germany. (Field b).

Lectures/groups three hours a week.

HIST 2301 [0.5 credit]**Canadian Political History**

An historical survey of political experiences in Canada. (Field c).

Precludes additional credit for HIST 2303 (no longer offered).

Lectures/groups three hours a week.

HIST 2304 [1.0 credit]**Social and Cultural History of Canada**

A thematic exploration of how the spaces of home, work, and play have been historically produced, understood, and experienced in Canada. (Field c).

Lectures/groups three hours a week.

HIST 2308 [0.5 credit]**Colonial Latin America**

From ancient civilizations to the era of Independence, this class follows conquest, colonization and development of national identity in the countries of Latin America. (Field d).

Precludes additional credit for HIST 2307 (no longer offered).

Lectures/groups three hours a week.

HIST 2309 [0.5 credit]**Modern Latin America**

From the Wars of Independence until the end of the twentieth century, this class follows the emergence of Latin American nations, their economies, politics, culture and international relations. (Field d).

Precludes additional credit for HIST 2307 (no longer offered).

Lectures/groups three hours a week.

HIST 2311 [0.5 credit]**Environmental History of Canada**

A survey of Canadian history considering nature, landscape and geography. Topics include the history of energy regimes and climate change; Indigenous ecological knowledge; colonization and settlement; resource extraction; commodity production; environmental policies and movements. (Field c or e).

Precludes additional credit for HIST 2310 (no longer offered).

Lectures/groups three hours a week.

HIST 2312 [0.5 credit]**History of the Indian Ocean World**

The Indian Ocean is one of the oldest maritime highways in the history of humanity and also an epicentre of global economy in the pre-modern world. The aim of the course is to familiarize students with the non-Western antecedents of modern global history. (Field d).

Precludes additional credit for HIST 3716 (no longer offered).

Lectures/groups three hours a week.

HIST 2401 [0.5 credit]**History of the United States to 1865**

A survey of United States politics and society from the American Revolution to the Civil War. (Field c).

Precludes additional credit for HIST 2400 (no longer offered).

Lectures/groups three hours a week.

HIST 2402 [0.5 credit]**History of the United States from 1865**

A survey of United States politics and society from Reconstruction to the era of globalization. (Field c).

Precludes additional credit for HIST 2400 (no longer offered).

Lectures/groups three hours a week.

HIST 2501 [0.5 credit]**Early Modern Britain**

A survey of significant political and social developments in Britain from the 15th to the 18th century. (Field a).

Precludes additional credit for HIST 2500 [1.0], no longer offered.

Lectures/groups three hours a week.

HIST 2502 [0.5 credit]**Modern Britain**

A survey of significant political and social developments in Britain from the 18th to the late 20th century. (Field b).

Precludes additional credit for HIST 2500 [1.0], no longer offered.

Lectures/groups three hours a week.

HIST 2506 [0.5 credit]**Introduction to Women's and Gender History**

An introductory study of women's and gender history. Themes may include sexuality, masculinity, women's activism, consumer culture, religion, and reproductive rights. Geographic and temporal focus varies from year to year. (Field e).

Precludes additional credit for HIST 2504 (no longer offered).

Lectures/groups three hours a week.

Introduction to the history of the Caribbean that examines the indigenous populations, the role of colonialism and slavery in the construction of plantation societies, the impact of emancipation, and the social, cultural, economic, and political dynamics of the Caribbean in the post-emancipation period. (Field d).

Precludes additional credit for HIST 2704 (no longer offered).

Lectures/groups three hours a week.

HIST 2802 [0.5 credit]**War and Society in Modern Europe, 1789-1914**

A thematic study of the experience of war and its consequences. The European country or region to be studied, will vary from year to year. (Field b).

Precludes additional credit for HIST 2801 (no longer offered).

Lectures/groups three hours a week.

HIST 2803 [0.5 credit]**War and Society in Modern Europe, 1914-1950**

A thematic study of the experience of war and its consequences. The European country or region to be studied, will vary from year to year. (Field b).

Precludes additional credit for HIST 2801 (no longer offered).

Lectures/groups three hours a week.

HIST 2806 [1.0 credit]**History of Japan**

A survey of Japanese history from the legendary beginning of the country in 660 B.C. to the end of World War Two. (Field a or d).

Lectures/groups three hours a week.

HIST 2809 [0.5 credit]**The Historian's Craft**

Lectures and workshops on historical methods and materials. Topics will include the discovery, evaluation, use and analysis of documents in historical context, non-documentary evidence, statistics, and bibliographical tools. Includes: Experiential Learning Activity

Precludes additional credit for HIST 2808 [1.0 credit], no longer offered.

Prerequisite(s): open only to History majors with at least second-year standing.

Lectures/groups three hours a week.

HIST 2811 [0.5 credit]**Public History from Memory to Museums**

Historical representation in the public arena and public engagement with the past, including archives, museums, films, novels, and video games. This course will involve online work, collaborative projects, and field trips. (Field e). Includes: Experiential Learning Activity
Lectures three hours a week or online.

HIST 2812 [0.5 credit]**Special Subject in Public History**

A lecture course on a special topic, theme, or period in public history. Topic varies from year to year. (Field e).
Lectures three hours a week.

HIST 2902 [0.5 credit]**History of Ancient Greece I**

The history of ancient Greece from the Bronze Age through the Archaic period. (Field a).
Also listed as CLCV 2902.
Precludes additional credit for CLCV 2900, HIST 2900 (no longer offered).
Prerequisite(s): second-year standing or permission of the unit.
Lectures three hours a week.

HIST 2903 [0.5 credit]**History of Ancient Greece II**

The history of ancient Greece from the classical period to Alexander. (Field a).
Also listed as CLCV 2903.
Precludes additional credit for CLCV 2900, HIST 2900 (no longer offered).
Prerequisite(s): second-year standing or permission of the unit.
Lectures three hours a week.

HIST 2904 [0.5 credit]**History of Ancient Rome I**

The history of ancient Rome from early Rome to the end of the Republic (Field a).
Also listed as CLCV 2904.
Precludes additional credit for CLCV 2901 and HIST 2901 (no longer offered).
Prerequisite(s): second-year standing or permission of the unit.
Lectures three hours a week.

HIST 2905 [0.5 credit]**History of Ancient Rome II**

The history of ancient Rome from the end of the Republic to the coming of Islam. (Field a).
Also listed as CLCV 2905.
Precludes additional credit for CLCV 2901, HIST 2901 (no longer offered).
Prerequisite(s): second-year standing or permission of the unit.
Lectures three hours a week.

HIST 2910 [0.5 credit]**Special Subject in History**

A lecture course on a special topic, theme, or period. Topic varies from year to year. (Field will depend on topic).
Lectures/groups three hours a week.

HIST 2911 [1.0 credit]**History of Science**

The history of science from Antiquity to the atomic age. (Field a, b, or e).
Precludes additional credit for HIST 3201 (no longer offered).
Lectures/groups three hours a week.

HIST 3000 [0.5 credit]**Topics in Ancient History**

A study of a selected topic in ancient history. (Field a).
Also listed as CLCV 3000.
Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.
Lectures three hours a week.

HIST 3001 [0.5 credit]**History at the Movies**

Considering opportunities offered by historical feature film in the representation of the past, focusing on how historical themes and subjects have been treated in feature films, cinematic uses of the past, the role of film in shaping public memory and understanding the past. (Field e).
Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.
Lectures three hours a week.

A general examination of European religious life from the fourth to the fourteenth centuries, with special reference to the cultural and intellectual worlds of medieval monks, nuns, and clerics. (Field a or e).
Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.
Lectures three hours a week.

HIST 3007 [0.5 credit]**Medieval Intellectual Life**

A general examination of medieval European intellectual life during the High and Late Middle Ages, with special reference to its setting in the cathedral school and university. (Field a or e).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3009 [0.5 credit]**Studies in Greek History**

Study of a period or theme in Greek History. (Field a).

Also listed as CLCV 3201.

Prerequisite(s): CLCV 2902 and CLCV 2903 or HIST 2902 and HIST 2903 or permission of the unit. Permission of the unit is required to repeat this course.

Lectures three hours a week.

HIST 3010 [0.5 credit]**The Later Roman Empire**

The study of major developments - administrative, ecclesiastical, cultural and societal - of the later Roman Empire. (Field a).

Also listed as CLCV 3010.

Precludes additional credit for HIST 3002 (no longer offered).

Prerequisite(s): a 2000-level Classical Civilization course.

Lecture three hours a week.

HIST 3011 [0.5 credit]**Medieval Cosmology**

Medieval ideas of the cosmos from Macrobius to Dante. (Field a or e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3101 [0.5 credit]**Studies in Roman History**

Study of a period or theme in Roman History. (Field a).

Also listed as CLCV 3202.

Prerequisite(s): CLCV 2904 and CLCV 2905 or HIST 2904 and HIST 2905 or permission of the unit. Permission of the unit is required to repeat this course.

Lectures three hours a week.

HIST 3102 [0.5 credit]**Queer(ing) Archives**

Examination of the archival turn in historical and theoretical perspective with an emphasis on sexuality, race, and gender as subjectivities in queer, trans, and colonial archives.

Also listed as SXST 3106.

Prerequisite(s): third-year standing.

Seminar three hours a week.

HIST 3105 [0.5 credit]**Renaissance Europe**

The political and cultural history of Europe in the fourteenth, fifteenth and sixteenth centuries, with emphasis on the Italian Renaissance and its diffusion into England and France. (Field a).

Precludes additional credit for HIST 2105 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3106 [0.5 credit]**Social History of Sexuality**

Sexuality in Western society, Middle Ages to the present.

Themes include attitudes and behaviour; regulation of sexuality; gender; heterosexuality and homosexuality; prostitution; pornography; the politics of sex: stresses continuities and changes and the understanding of sexuality in contexts of place, class, gender, culture. (Field a).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

An intellectual and cultural history of Enlightenment and post-Enlightenment study of human society. Course work concentrates on close reading of significant primary texts. Representative figures include Burke, Kant, Malthus, Mill, Tocqueville. (Field e).

Precludes additional credit for HIST 3201 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3215 [0.5 credit]**Ancient Greek Science**

The history of Greek physical science from the Presocratics to Ptolemy. (Field a or e).

Also listed as CLCV 3215.

Precludes additional credit for HIST 2201 or HIST 3210 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3216 [0.5 credit]**The Scientific Revolution**

The history of astronomy and physics from Copernicus to Newton. (Field b or e).

Precludes additional credit for HIST 2201 or HIST 3210 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3217 [0.5 credit]**Empire and Globalization**

Varieties of European imperialism from the early modern period to the present. The role of imperialism and anti-imperialism in the development of globalization and European modernity. Comparison of various empires and the transnational linkages between them. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3220 [0.5 credit]**Canadian Economic History**

A survey of Canadian economic history from the sixteenth century to the present. (Field c or e).

Also listed as ECON 3220.

Precludes additional credit for ECON 2305 or HIST 2305 (no longer offered), ECON 3203 (no longer offered), ECON 3202 or HIST 3203 (no longer offered), and ECON 3207 or HIST 3204 (no longer offered).

Prerequisite(s): ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

HIST 3230 [0.5 credit]**Selected Topics in Economic History**

An examination of the economic development of North America or Europe or other possible selected sets of countries. Countries examined vary from year to year. (Field e).

Also listed as ECON 3230.

Precludes additional credit for ECON 3005 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

HIST 3301 [0.5 credit]**Quebec Since 1800**

A social, economic, political, cultural and intellectual history of Quebec with emphasis on the development of Quebec nationalism. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3304 [0.5 credit]**Canada-United States Relations**

An examination of diplomatic, economic, cultural and military relations, with particular attention to the twentieth century. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3800 [0.5 credit]**International History 1914-41**

A survey of international history from the First World War to the outbreak of the Second World War, focusing on peacemaking, inter-war diplomacy, anti-imperialism, global capitalism, migration, labour, and the origins of the Second World War. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3801 [0.5 credit]**International History 1941-90**

A survey of international history from the Second World War to the end of the Cold War that examines the conflict over the reconstruction of the postwar world, including decolonization, emergence of the European Union, and other dimensions of global order and disorder. (Field b). Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3805 [0.5 credit]**Twentieth-Century China**

A political history of China from the 1911 Revolution to the present. Emphasis on the development of Chinese communism and the People's Republic since 1949. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3806 [0.5 credit]**Japan Since 1945**

A political, intellectual and economic history of Japan in the twentieth century, concentrating on the period since the end of the Pacific War. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3807 [0.5 credit]**Practicum in History**

An historical research project in a museum or public institution in the Ottawa area conducted under the supervision of the external institution and the History Department. Work includes reading, reports, and meetings. Students should be prepared to devote one day a week to the project.

Includes: Experiential Learning Activity

Prerequisite(s): General or Honours history student with third- or fourth- year standing and a CGPA of 9.00 or better in history courses, and permission of the Department.

HIST 3809 [0.5 credit]**Historical Representations**

An examination of how historical narratives have been produced in relation to sites of public memory. The public presentation of history through a wide range of themes, which may include museum exhibits, commemorations and popular culture. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3810 [0.5 credit]**Historical Theory**

An examination of a wide range of theoretical approaches to history, and a critical reflection on history as a discipline. Precludes additional credit for HIST 3808 [1.0], no longer offered.

Prerequisite(s): third-year standing in an Honours History program. It is strongly recommended that HIST 3810 be taken prior to enrolment in 4000-level history seminars. Lectures two hours a week and one hour discussion group.

HIST 3811 [0.5 credit]**History of Historical Thought**

An examination of questions concerning the nature and value of historical inquiry and the meaning of the course of history. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3812 [0.5 credit]**Digital History**

The digital representation of history, exploring the approaches, issues, and methods of working in this environment. Topics may include gaming, virtual environments, digital research tools, public digital history. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3812.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3813 [0.5 credit]**Problems in Global and Transnational Histories**

Historical encounters across geographical regions and ways in which historians studied them. Categories of "national," "international," "transnational," "world," and "global" history will be evaluated. Themes include: imperialism, postcolonialism, the environment, migration, trade, religion, the body, war, culture, disease. (Field d or e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history including at least 0.5 credit in Field d courses (Asia, Africa, the Caribbean, and Latin America).

Lectures three hours a week.

HIST 3814 [0.5 credit]**Crafting Digital History**

This course applies the creative use of information and media/computing technologies to address the digital cultural heritage issues of public historians, archaeologists, and anthropologists. Topics may include webscraping, data mining, designing and implementing research databases, and visual storytelling of those results. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3814.

Precludes additional credit for HIST 3907 Section "B" offered in winter 2015 and HIST 3907 Section "O" offered in winter 2016.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

HIST 3815 [0.5 credit]**Group Practicum**

A class-based group historical research project done in collaboration with an external institution under the supervision of the institution and the Department. Work includes readings, reports, and meetings. Students should be prepared to devote one full day per week to the project. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in a History program and permission of the Department.

HIST 3902 [0.5 credit]**Topics in European History**

A lecture course on a special topic in European history. Topic varies from year to year. (Field will depend on topic.)

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3903 [0.5 credit]**Topics in Canadian History**

A lecture course on a special topic in Canadian history. Topic varies from year to year. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3904 [0.5 credit]**Topics in U.S. History**

A lecture course on a special topic in United States history. Topic varies from year to year. (Field c).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3905 [0.5 credit]**Topics in International History**

A lecture course on a special topic in international political or economic history. Topic varies from year to year. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3906 [0.5 credit]**Topics in World History**

A lecture course on a special topic in African, Asian, Caribbean, or Latin American history. Topic varies from year to year. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3907 [0.5 credit]**Transnational Topic**

A lecture course on a special topic that takes a transnational approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3908 [0.5 credit]**Thematic Topic**

A lecture course on a special topic that takes a thematic approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3909 [0.5 credit]**Topic in Public History**

A lecture course on a special topic, theme, or period in public history. Topic varies from year to year. (Field e).

Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

HIST 4006 [1.0 credit]**Seminar in Medieval History**

An examination of a selected problem in the history of medieval Europe.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4007 [0.5 credit]**Medieval History**

Selected topic in Medieval History. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4100 [1.0 credit]**Seminar in Early Modern European History**

A study of a selected problem in the history of Europe during the early modern period.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4101 [0.5 credit]**Early Modern European History**

Selected topic in the history of Europe during the early modern period. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4200 [1.0 credit]**Seminar in European History**

Examination of a selected problem or period in the history of Continental Europe.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4201 [0.5 credit]**Modern European History**

Selected topic in the history of Europe. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4210 [0.5 credit]**Topics in Ancient History**

Intended for Honours students in History and Classics who should normally be in their third- or fourth-year.

Also listed as CLCV 4210.

Precludes additional credit for CLCV 4209, HIST 4209 (no longer offered).

Prerequisite(s): CLCV 2902 (HIST 2902) and CLCV 2903 (HIST 2903) or CLCV 2904 (HIST 2904) and CLCV 2905 (HIST 2905) or CLCV 3201 (HIST 3009) or CLCV 3202 (HIST 3101) or permission of the Department.

Seminar three hours a week.

HIST 4302 [1.0 credit]**Canada: Ideas & Culture**

A seminar on ideas, culture, and society in Canada.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4303 [0.5 credit]**Society and Culture in Canada**

A 0.5 credit seminar course that examines a selected topic on ideas, culture, and society in Canada. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4304 [1.0 credit]**Canada: Politics & Society**

A seminar on politics and society in Canada.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4305 [0.5 credit]**Political History in Canada**

A 0.5 credit seminar course that examines a selected topic on politics and society in Canada. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4400 [1.0 credit]**Seminar in U.S. History**

An examination of a selected problem or period in the history of the United States.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4401 [0.5 credit]**United States History**

A 0.5 credit seminar course that examines a selected topic in the history of the United States. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4500 [1.0 credit]**Seminar in British History**

An explanation of a selected problem or period in the history of Great Britain.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4505 [1.0 credit]**Seminar in Women's and Gender History**

A seminar on the history of women and gender. The particular approach, themes, and historical period will be specified each year.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4506 [0.5 credit]**Gender, Sexuality and Women's History**

A 0.5 credit seminar course that examines a selected topic on the history of women and gender. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4600 [1.0 credit]**Seminar in Russian History**

An examination of a selected problem or period in the history of Imperial or post-Imperial Russia.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4604 [0.5 credit]**Central Europe, Past and Present**

Evolution and current status of Central Europe from periods of foreign control in the late nineteenth and twentieth centuries to independent statehood. Particular emphasis will be placed on national accommodations and conflicts.

Also listed as EURR 4204.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4605 [0.5 credit]**The Balkans in Transition – 1918 to 1989**

The seminar uses the concept of transition to understand the Balkan encounter with modernity and Europe. Key periods to be examined include the interwar era and the period of communist rule, with an emphasis on political, social and economic themes.

Also listed as EURR 4101.

Prerequisite(s): fourth-year standing and one of PSCI 3704, PSCI 3208, PSCI 3209, HIST 2600; or permission of the Department.

Seminar three hours a week.

HIST 4606 [0.5 credit]**Contemporary Europe: From Postwar to the European Union**

History of contemporary Europe from 1945 to present covering both eastern and western halves of the continent and including social, cultural, political, and economic dimensions.

Includes: Experiential Learning Activity

Also listed as EURR 4303.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminars three hours a week.

HIST 4607 [0.5 credit]**Imperial Russia and the Russian Revolution**

Examination of the expansion and downfall of tsarist Russia from the eighteenth century to the revolutionary era and the establishment of Bolshevik rule. Topics include the relationship between the monarchy and subject peoples, social and economic change, and daily life.

Includes: Experiential Learning Activity

Also listed as EURR 4305.

Also offered at the graduate level, with different requirements, as HIST 5607, for which additional credit is precluded.

Seminar three hours a week.

HIST 4608 [0.5 credit]**The Soviet Union**

Examination of the rise of the Soviet Union to a global power and subsequent tensions that promoted its collapse. The course will analyze Stalinism, the Second World War, the Thaw, and Brezhnev and Gorbachev eras through the lens of the USSR's citizens.

Includes: Experiential Learning Activity

Also listed as EURR 4306.

Also offered at the graduate level, with different requirements, as HIST 5608, for which additional credit is precluded.

Seminar three hours a week.

HIST 4700 [1.0 credit]**Seminar in World History**

An examination of a selected problem or period in the history of Asia, Africa, the Caribbean or Latin America.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4701 [0.5 credit]**African History**

A 0.5 credit seminar course that examines a selected topic in the history of Africa. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4702 [0.5 credit]**South Asian History**

A 0.5 credit seminar course that examines a selected topic in the history of South Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4703 [0.5 credit]**The Global South**

A 0.5 credit seminar course that examines a selected topic in the history of the Global South. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4704 [0.5 credit]**Caribbean and Latin American History**

A 0.5 credit seminar course that examines a selected topic in Caribbean and Latin American history. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4705 [0.5 credit]**Asian History**

A 0.5 credit seminar course that examines a selected topic in the history of Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4802 [1.0 credit]**Seminar in International History**

An examination of a selected problem or period in the history of international relations.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4805 [1.0 credit]**Seminar on a Transnational or Thematic Topic**

A seminar on a transnational or thematic topic. The particular topic will be specified each year.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4806 [0.5 credit]**Global and Transnational History**

Selected topic in global and transnational history. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4910 [1.0 credit]**Honours Research Project**

The project will be a substantial piece of original research conducted under the supervision of a faculty member in History. The medium of presentation will be agreed upon between student and supervisor, and may include a research paper, a documentary film, or a web-based project.

Includes: Experiential Learning Activity

Precludes additional credit for HIST 4908, HIST 4909 (no longer offered).

Prerequisite(s): fourth-year standing in History Honours program, a minimum GPA of 9.0 (B+) in the History major, and permission of the department, or in exceptional circumstances with permission of the department only.

HIST 4915 [0.5 credit]**Topics in History**

Intended for Honours students in History. Topics will vary from year to year.

Prerequisite(s): fourth-year standing in Honours History or permission of the Department. It is strongly recommended that HIST 3810 be taken prior to enrolment in 4000-level history seminars.

Seminar three hours a week.

HIST 4916 [0.5 credit]**Topic in Public History**

Topics will vary from year to year. (Field e).

Prerequisite(s): HIST 2811 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4920 [1.0 credit]**Seminar in Public History**

Topics will vary from year to year. (Field e).

Prerequisite(s): HIST 2811 and fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

Human Rights (HUMR)

Human Rights (HUMR) Courses

HUMR 1001 [1.0 credit]**Introduction to Human Rights**

Human rights from an interdisciplinary perspective. Topics may include the foundations and nature of rights, roots of inequality and oppression, aboriginal rights, racism, women and rights, sexual orientation, state and corporate power, economic exploitation, the environment and rights, warfare, torture, and social movements.

Precludes additional credit for FYSM 1104.

Lecture and discussion groups three hours a week.

HUMR 2001 [0.5 credit]**Human Rights: Theories and Foundations**

Historical overview of the theoretical and philosophical approaches underlying the human rights movement and relevant to the normative ideals and aspirations of human rights and to the strategies of their implementation.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2102 [0.5 credit]**Sexuality, Gender, and Security**

Historical and contemporary analysis of surveillance, security, and regulation of sexuality, race, class, and gender. Students will critically examine how 'subversives' were created through discourse and administrative logics such as policy and law.

Includes: Experiential Learning Activity

Also listed as SXST 2102.

Prerequisite(s): second year standing or permission from the Institute.

Lectures and discussions three hours a week.

HUMR 2202 [0.5 credit]**Power Relations and Human Rights**

The study of power from a critical, transnational perspective; the impact on human rights of different forms and modalities of power, including those emanating from the state and corporations and those implicated in socio-economic and other hierarchical relations.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2301 [0.5 credit]**Human Rights and Sexualities**

Human rights issues in various cultural contexts concerning sex and/or gender, with attention to sexual minorities such as gay, lesbian, and transgendered persons. Forms of discrimination against sexual minorities and the mechanisms and strategies for redress.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2401 [0.5 credit]**Political Repression: Impacts and Responses**

Canada is home-in-exile to many who have faced severe and often life-threatening political repression such as imprisonment, torture, surveillance, population transfer, etc. This course examines the impacts on survivors of political repression, and strategies used to overcome its legacies.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2402 [0.5 credit]**Agents of Political Violence**

The processes used in preparing individuals to commit torture, murder and other forms of violence on behalf of a state or associated organizations, and how such violence is justified by its direct perpetrators, their commanders (police/military and political), and members of their society.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 2502 [0.5 credit]**Social and Political Movements**

The underlying conditions and developments of historical and contemporary social and political movements; specific social movements such as civil rights or gay rights.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HUMR 3001 [0.5 credit]**Special Topics in Human Rights**

This advanced seminar will cover current and topical issues and/or debates in human rights, and will enable students to engage in focused discussions and analyses of these issues. Topics will vary from year to year.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3002 [0.5 credit]**Right to the City**

"The right to the city" as an emerging focus of advocacy and analysis in urban movements for social justice around especially the local and transnational dimensions of the "right to the city" movement.

Precludes additional credit for HUMR 3001 if taken prior to 2013-14.

Prerequisite(s): third year standing.

Lectures three hours a week.

HUMR 3202 [0.5 credit]**Human Rights and Resistance**

This course problematizes human rights paradigms and critically examines the limitations of the political within liberal democracies. Bringing together theory and politics, alternative approaches to activism are explored. Topics may include struggles grounded in radical democracy, anti-capitalism, and social justice perspectives.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3301 [0.5 credit]**Racialization, Racism and Human Rights**

The forms and effects of systemic race-based human rights abuses. Topics may include immigration and refugee policies and practices, anti-apartheid regimes, racial profiling, the racial politics of "nationhood" and armed conflict, civil rights and resistance movements in differing cultural contexts.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3302 [0.5 credit]**Culture, Religion, and Women's Human Rights**

The impact of cultural and religious traditions on women's human rights. Topics may include the impact of gender roles on the status of women, cultural relativism, and strategies used to advance women's human rights such as NGOs engagements with CEDAW.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3303 [0.5 credit]**Children's Rights**

This course examines children's rights from a range of historical, cultural, and global perspectives. Topics may include the rights for Indigenous children, children with disabilities, female, trans and queer children, children in armed conflict and refugees in Canada and transnational contexts.

Also listed as CHST 3303.

Precludes additional credit for CHST 3901 (no longer offered).

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3304 [0.5 credit]**Disability Rights**

A critical approach to the study of disability rights that explores the intersections of disability with race, sexuality, gender, colonialism, 'health', and other discourses. Precludes additional credit for HUMR 4303 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week.

HUMR 3401 [0.5 credit]**Histories of Persecution and Genocide**

Case studies in persecution and/or genocide in different cultural contexts. The social, political, and legal conditions that have enabled the institutional or state-sanctioned persecution of targeted groups, and the circumstances that had an impact on their decline.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3501 [0.5 credit]**Social, Economic and Cultural Rights**

The development of social, economic and cultural rights, including rights to housing, healthcare, education and employment. Topics may include the international geopolitics of the historical tension between these rights and civil and political rights.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3502 [0.5 credit]**Corporations and Human Rights**

Corporate involvement in human rights violations, with attention to how corporations encourage, participate in, and benefit from political repression and warfare. How the relationship between corporate and state interests affects the implementation of measures for corporate accountability.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3503 [0.5 credit]**Global Environmental Justice**

Overview of critical debates on environmental issues from a global social justice perspective. Topics may include corporate mining, food sovereignty, poverty, economic exploitation, Indigenous cosmologies and environmental justice, militarization and environmental degradation, privatization of water and climate change.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 3504 [0.5 credit]**Public Health and Human Rights**

Through a social-scientific analysis of AIDS, this course explores HIV/AIDS as a case study for understanding the politics of public health. Students will critically interrogate the authority of science and explore avenues for democratizing biomedicine and public health policy in various national and policy contexts.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 3001 Section "A" if taken in 2013-14 and 2014-15.

Prerequisite(s): third-year standing.

Lectures three hours a week.

HUMR 4201 [0.5 credit]**Citizenship and Human Rights**

The relationship between citizenship and human rights; how large groups of people, including non-citizens and refugees, are excluded from entitlements to rights. Why human rights rest on citizenship, and with what implications.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4302 [0.5 credit]**Transgender Human Rights**

Critical analyses of human rights through an examination of transgender subjectivities. The systemic erasure of trans people within society and the struggles of some activists to normalize trans identities.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4305 [0.5 credit]**Disability and Social Justice**

An intersectional national/transnational approach to social justice issues such as poverty/exploitation, labour, representation, decolonization, race/racism, sexuality and gender from a critical disability studies perspective.

Prerequisite(s): fourth-year standing in Human Rights or Disability Studies.

Seminar three hours a week.

HUMR 4401 [0.5 credit]**Gender, Citizenship and Social Justice in a Transnational World**

This seminar critically engages with transnational, gendered, classed, and racialized discursive practices of citizenship, human rights, the geopolitics of knowledge and processes of dehumanization through the lenses of decolonial social justice.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4402 [0.5 credit]**Terror and Human Rights**

The human rights implications of terror, terrorism and/or the "war on terror." Topics may include the use of terrorism as a justification for the use of military force, and the impact of racial profiling, arrest warrants, security certificates; detentions; and deportations.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4404 [0.5 credit]**Rights of Refugees and Displaced Persons**

Contemporary issues concerning the rights of refugees and displaced persons, from social, political, and legal perspectives; Canadian and international dimensions of these issues.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4502 [0.5 credit]**Global Indigenous Knowledges and Movements**

Indigenous Peoples contributions to world knowledge through community resistance, social movements and scholarship. How processes of corporate globalization impact Indigenous Peoples lives as an ongoing process of normalizing a reconfigured modern coloniality of power.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4905 [0.5 credit]**Practicum Placement in Human Rights I**

This course provides students with the opportunity to spend one day per week (6-8 hours) working and learning at a human rights-related government, research or advocacy organization. A written report is required at the end of the placement. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Human Rights or permission of the Institute.

HUMR 4906 [0.5 credit]**Practicum Placement in Human Rights II**

This course provides students with the opportunity to spend one day per week (6-8 hours) working and learning at a human rights-related government, research or advocacy organization. A written report is required at the end of the placement. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Human Rights and a GPA of 9.8 or higher or permission of the Institute.

HUMR 4907 [0.5 credit]**Special Topic in Human Rights**

This course features a detailed study of a special topic in any area of Human Rights. Topics and themes will vary from year to year.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HUMR 4908 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with an instructor.

Includes: Experiential Learning Activity

Prerequisite(s): normally restricted to students with at least 3.0 credits of Human Rights courses with at least a CGPA of 9.0 or better in Human Rights courses and permission of the Institute.

Humanities (HUMS)

Humanities (HUMS) Courses**HUMS 1000 [1.0 credit]****Myth and Symbol**

Recurring symbols in myth, epic and ritual representing the relation between the sacred and the profane, the origin of the cosmos, the basis of community, and formative human experiences. Primary sources drawn from ancient India and China, Mesopotamia, the Hebrew Bible, and Indigenous cultures.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 1005 [0.5 credit]**Early Human Cultures**

Cultural experiences of small scale societies, including kinship, rituals, magic, social structure, and subsistence. Reading may include the works of classic anthropologists such as Maine, Tylor, Morgan, and Boas.

Precludes additional credit for ANTH 1001 and ANTH 1003.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 1200 [0.5 credit]**Humanities and Classical Civilisation**

The ideas which animated ancient Greek and Roman civilisation and which influenced later western cultural movements through a reading of literary, historical, and philosophical works. Authors include Homer, Herodotus, Thucydides, the Greek Tragedians, Plato, Vergil, and Cicero.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 1500 [0.5 credit]**Introduction to the Humanities: Five Books that Changed the World**

A reading-intensive course on five influential books from Antiquity to the present day. Works may include the Bible, the Bhagavad Gita, Homer's *Odyssey*, Plato's *Republic*, Dante's *Inferno*, Machiavelli's *The Prince*, Shakespeare's *Hamlet*, Mary Shelley's *Frankenstein*, Nietzsche's *Beyond Good and Evil*, Marx's *Communist Manifesto*.

Prerequisite(s): enrolment in a degree program in the Faculty of Arts and Social Sciences, or the Faculty of Public Affairs. Students enrolled in the BHum. program are not eligible to register in this course.

Lecture three hours per week.

HUMS 2000 [1.0 credit]**Reason and Revelation**

The origins of philosophy in ancient Greece and its pursuit in the medieval West, with special attention to knowledge, happiness, and love. Readings include works by Plato, Aristotle, Plotinus, Augustine, Boethius, Aquinas, and Dante.

Prerequisite(s): HUMS 1000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 2101 [0.5 credit]**Art from Antiquity to the Medieval World**

A chronological and thematic survey of the Arts from the earliest times to ca. 1400.

Precludes additional credit for HUMS 4101 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 2102 [0.5 credit]**Modern European Art 1527-2000**

A chronological and thematic survey of the Arts from the sixteenth to the twenty-first century.

Precludes additional credit for HUMS 4101 (no longer offered) and HUMS 3101 (no longer offered).

Prerequisite(s): HUMS 2101 and restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3000 [1.0 credit]**Culture and Imagination**

Major forms of literary, artistic, and philosophical expression from 1500-1800. Sources drawn from renaissance humanism, reformation theology, enlightenment and romantic philosophy.

Prerequisite(s): HUMS 2000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 3102 [0.5 credit]**Western Music 1000-1850**

Introduction to basic theory, harmony, history and interpretation of Western music including the Medieval, Renaissance, Baroque, Classical and early Romantic periods.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3103 [0.5 credit]**Western Music 1850-2000**

Western music from the mid-nineteenth century to the present with emphasis on the seminal contributions of Liszt, Wagner, Mahler, Debussy, Stravinsky, Schönberg and others.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): HUMS 3102 and restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 3200 [1.0 credit]**European Literature**

Major movements and works from Dante's *Divine Comedy* through Voltaire's *Candide*. Themes include the New Humanism vs. old Chivalry in the Renaissance and Baroque periods; the rise of the modern novel and drama; reason, nature, and the Enlightenment project.

Also listed as ENGL 3201.

Prerequisite(s): HUMS 2000 and third-year standing in the Bachelor of Humanities program. English students should have third-year standing with a GPA of B or above.

Lectures three hours a week.

HUMS 3500 [0.5 credit]**Ancient and Medieval Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from Archaic Greece to the High Middle Ages.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 3550 [0.5 credit]**Renaissance and Early Modern Intellectual History**

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from the Early Renaissance to 1800.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor.

Lectures three hours a week.

HUMS 4000 [1.0 credit]**Politics, Modernity and the Common Good**

Modern and post-modern ways of thinking and doing, including revolutionary new ideas in politics, philosophy, culture, economics, and international relations. Thinkers considered include Arendt, Foucault, Hegel, Heidegger, Hobbes, Kant, Marx, Nietzsche, Polanyi, Rousseau, Said, and Taylor.

Includes: Experiential Learning Activity

Prerequisite(s): HUMS3000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 4001 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

HUMS 4002 [0.5 credit]**Directed Studies in the Humanities**

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program and Good Standing in the program.

HUMS 4103 [0.5 credit]**Science in the Modern World**

An introduction to the major scientific ideas of our time (such as Big Bang theory, molecular genetics, evolution, atomic structure), and the impact of technology on society (e.g. global warming, pollution, genetically modified foods, viral infections).

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4100 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4500 [0.5 credit]**Modern Intellectual History**

Examination of some of the major ideas and ideologies from 1800 to the present, including romanticism, liberalism, nationalism, symbolism, socialism, Freudianism, communism, feminism, and postmodernism.

Includes: Experiential Learning Activity

Precludes additional credit for HUMS 4104.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4901 [0.5 credit]**Research Seminar: Antiquity to the Middle Ages**

An interdisciplinary seminar on a selected topic in the humanities from Antiquity to the Middle Ages. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4902 [0.5 credit]**Research Seminar: Renaissance to Enlightenment**

An interdisciplinary seminar on a selected topic in the humanities from the Renaissance to the Enlightenment. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4903 [0.5 credit]**Research Seminar: Romanticism to the Present**

An interdisciplinary seminar on a selected topic in the humanities from Romanticism to the present. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4904 [0.5 credit]**Research Seminar: Non-Western Traditions**

An interdisciplinary seminar on a selected topic in the humanities as expressed in aboriginal and Non-Western cultures. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

Indigenous Studies (INDG)

Indigenous Studies (INDG) Courses

INDG 1000 [1.0 credit]**Introduction to Indigenous Studies**

Survey of historical and contemporary issues relating to Indigenous peoples in Canada. Cultural traditions and the social interactions between Indigenous and non-Indigenous societies are approached from an interdisciplinary perspective.

Online only.

INDG 1010 [0.5 credit]**Introduction to Indigenous Peoplehood Studies**

This course begins by looking at Creation Stories of different Indigenous peoples and builds to discuss Indigenous worldviews, ways of living, ecological relationships, inter-Indigenous relations and diplomacy among Indigenous peoples. Course materials are rooted in self-situated and collective understandings of Indigenous peoples.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 1011 [0.5 credit]**Introduction to Indigenous-Settler Encounters**

An interdisciplinary examination of the history of relations between different Indigenous peoples and settler populations from first meetings to the mid-20th century. Topics vary by year, but may include diplomatic relations, trade, spirituality and religion, military alliances, policy, education.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 2011 [0.5 credit]**Contemporary Indigenous Studies**

Indigenous and non-Indigenous perspectives on issues since the 1960s. Topics include: contemporary explorations of treaty relationship and governance, cultural appropriation, identity politics, urban Aboriginality and contemporary social and cultural issues.

Precludes additional credit for CDNS 2100 and CDNS 2011.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

INDG 2012 [0.5 credit]**Anishinaabe Studies**

In-depth look at the Anishinaabe peoples. Topics may include: Anishinaabe creation stories, migration, the clan system, worldviews; oral, written, and recorded history; treaties, contemporary events, ecological knowing, cultural production, relations with settler-colonies and other nations, self-governance, diplomatic relations.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups three hours a week.

INDG 2013 [0.5 credit]**Haudenosaunee Studies**

Focuses on the Haudenosaunee from the founding of the Confederacy to present. Discussion of the culture, language, and structure of Haudenosaunee society, the Kaienerekowa (Great Law of Peace) and the Code of Handsome Lake, symbolism, and contemporary issues, including the impact of Euro-Canadian government policies.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2015 [0.5 credit]**Indigenous Ecological Ways of Knowing**

Indigenous peoples' relationships with the non-human world in both historical and contemporary contexts. Topics may include: the origins of Indigenous ecological ways of knowing, Indigenous languages, collective stewardship, water, land, and challenges to maintaining traditional knowledge.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2020 [0.5 credit]**Decolonizing Gender, Sex, and Sexuality**

Effects of colonization in unbalancing Indigenous peoples' lives through the imposition of constructions of gender, sex, and sexuality, and the ways that Indigenous peoples are working to restore balance to their families and communities. Topics vary by year.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2709 [0.5 credit]**Indigenous Drama**

A study of dramatic literatures and theatre practice from Indigenous theatre makers, including playwrights, directors and other practitioners.

Also listed as ENGL 2709.

Prerequisite(s): second-year standing or permission of the School.

Lecture three hours per week

INDG 3001 [0.5 credit]**Indigenous Governance**

An examination and discussion of different Indigenous forms of governance. Topics will vary by year and may include: Indigenous ways of knowing and forms of governance, community leadership, diplomatic relations, and struggles for self-determination.

Prerequisite(s): third-year standing in Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3011 [0.5 credit]**Indigenous Rights, Resistance, and Resurgence**

Indigenous approaches to restoring balance within their nations. Topics include: direct action; political organizing; land claims; rights, courts, and legal action; everyday acts of resistance and resurgence such as petitioning, social media, arts-based movements, and community initiatives. Includes: Experiential Learning Activity

Precludes additional credit for INDG 3010.

Prerequisite(s): third-year standing in Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3015 [0.5 credit]**Indigenous Ecological Ways of Knowing and the Academy**

The relationship between Indigenous traditional ecological knowledges and the academy. Topics include: linguistic barriers, tensions in diffuse ways of knowing, research ethics with respect to Indigenous traditional knowledge, and working with knowledge holders.

Prerequisite(s): third-year standing in Indigenous and Canadian Studies or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3901 [0.5 credit]**Selected Topics in Indigenous Studies**

Topics vary from year to year.

Prerequisite(s): third- or fourth-year standing, or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4001 [0.5 credit]**Indigeneity in the City**

This course begins with an examination of the relationship between Indigenous peoples and the construction of cities and urban space. Culminates in the undertaking of research projects that directly link students to the urban Indigenous community in Ottawa.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4011 [0.5 credit]**Indigenous Representations**

Through an examination of instances of Indigenous misrepresentation, students will explore how Indigenous peoples have used cultural production in various forms (such as literature, film, television, visual arts, music, performance) to put forth their own visions of their peoples, worldviews, and lives.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

INDG 4015 [0.5 credit]**Land as a Relation**

This is an intensive 14-day field course that brings students together with knowledge holders on the land. The connections between Indigenous ways of knowing, the land, Indigenous languages, and the land's non-human inhabitants, will be explored. Locations and course fee varies by year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Fourteen-day field course.

INDG 4020 [0.5 credit]**Practicum**

Students will learn to apply their knowledge of topics in Indigenous Studies with a local organization whose mandate involves working with and/or for Indigenous peoples. To be arranged in consultation with the Program Coordinator.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

INDG 4901 [0.5 credit]**Selected Topics in Indigenous Studies**

Topics vary from year to year.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4905 [0.5 credit]**Directed Studies I**

An optional course normally restricted to fourth-year Honours students in Canadian Studies or Indigenous Studies and to Qualifying-year Graduate students. Includes supervised reading and written work in an Indigenous Studies area.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Industrial Design (IDES)

Industrial Design (IDES) Courses**IDES 1000 [0.5 credit]****Theory and History of Design**

The theoretical and historical background of industrial design and design; disciplinary foundations and interdisciplinary connections; methodological aspects and economic and social contexts; contemporary scenarios in design; technological innovation and manufacturing processes.

Also listed as ARCH 2006.

Lectures three hours a week.

IDES 1001 [0.5 credit]**Industrial Design Analysis**

Principles of comparative product design analysis covering marketing and sales, manufacturing techniques and materials, ambiance and qualities of the object/context relationship, and design analysis from the perspective of the designer, the end-user and the environment.

Includes: Experiential Learning Activity

Also listed as ARCH 2101.

Prerequisite(s): IDES 1000 or ARCH 2006.

Lectures three hours a week.

IDES 1300 [0.5 credit]**Projects IA**

An introduction to the skills and processes of industrial design including drawing and sketching as an aid to design, basics of line, shape, ideation, and visualization, product drawing, presentation techniques, basic model making, studio equipment and practices, introduction to the design process.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1000 (may be taken concurrently). Studio and lectures six hours a week.

IDES 1301 [0.5 credit]**Projects IB**

Aspects of industrial design theory and practice, specifically those dealing with principles of product development, fundamentals of form and colour and case studies. Students will explore the design process with emphasis on creative problem-solving techniques and visual communication in design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1300.

Studio and lectures six hours a week.

IDES 2101 [0.5 credit]**Design for Manufacturing A**

Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. Influences and role of assembly, finishing, production tooling, and costing.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1001, IDES 1301.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2102 [0.5 credit]**Design for Manufacturing B**

Continuation of IDES 2101. Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. The influences and role of assembly, finishing, production tooling, costing are addressed.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2101 or permission of the School of Industrial Design.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2105 [0.5 credit]**Computer Applications**

Provides industrial design students with a working knowledge of design related 3D computer applications, as well as graphic manipulation and illustration software. Labs and projects are oriented towards building a foundation in software and group work skills for studio courses.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301.

Lecture and tutorials three hours a week.

IDES 2205 [0.5 credit]**Sensory Aspects of Design for User Experience**

An exploration of multi-sensory qualities derived from and designed into products to optimize product-interaction experiences. Visual, tactile, auditory, and other related sensory aspects of design and design principles that contribute to the product multi-sensory characteristics while adding meaning and emotional value.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 2203 (no longer offered).

Prerequisite(s): IDES 1001 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 2300 [0.5 credit]**Projects IIA**

Principles of design sketching used in the industrial design process. Topics include: sketching as a tool for problem definition; idea exploration and form development; rendering techniques and the communication of design concepts; basic physical prototyping and modeling-making techniques.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1001 and IDES 1301, or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2302 [0.5 credit]**Projects IIB**

Introduction to the design principles associated with adapting products to an existing product semantic. Topics covered: principles of design, product semantics, design analysis, design synthesis, design evaluation, and modeling techniques. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2600 [0.5 credit]**Human Factors/Ergonomics in Design**

Foundation course in human factors/ergonomics providing an overview of physical and cognitive considerations in product design and related design fields. Anthropometrics, biomechanical considerations, cognition, social interaction, and emotional interaction are introduced in relation to supporting user experience, health and safety, performance and productivity.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 1001 and PSYC 1002, or PSYC 1000.

Lectures and discussion three hours a week.

IDES 3104 [0.5 credit]**Exhibition Design**

Exhibition design is explored through lectures, case studies, field trips and guest lectures. Students participate in exercises and apply design skills to a variety of exhibition design realms. Introduces students to the potential of the built environment for exploring a range of diverse exhibit applications.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3105 [0.5 credit]**Visual Communication and Package Design**

A survey of visual communication and package design principles relevant to industrial designers. Product/brand definition and corporate identity through package design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3106 [0.5 credit]**Advanced Computer Applications**

Examination of complex product geometry utilizing 3D computer applications. Topics include spline, surface and solids construction, surface verification tools, and rendering tools and techniques. Workflow, robust design, reverse design techniques and 3D printing will be explored through exercises.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2105.

Lecture and tutorials three hours a week.

IDES 3107 [0.5 credit]**Design and Sustainability**

Explores the industrial designer's role in creating more environmentally and socially responsible products. Addresses imperatives and drivers for integrating sustainability into products. Includes: sustainable design strategies, strategies and tools, sustainable design business case, circular economy model for designed products, and case studies.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3202 [0.5 credit]**Advanced. Studies in Form and Colour**

Students may continue the research and study encountered in IDES 2205, IDES 2300 and IDES 2302 by doing advanced research in the phenomena of form and/or colour and their communicative functions in products. Directed Study.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lecture and tutorials three hours a week.

IDES 3302 [0.5 credit]**Projects IIIB**

Introduction to the principles of innovation as found in industrial design. Invention, innovation, entrepreneurship, basic mechanisms. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 3301 (no longer offered).

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 3305 [0.5 credit]**Special Studies**

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3306 [0.5 credit]**Special Studies**

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3310 [0.5 credit]**Projects IIIA**

Introduction to the design principles associated with the evaluation and re-design of an existing product. Topics include: user/machine relationship, component packaging, and manufacturability. The design project(s) explore some or all of the design principles covered in the lectures.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 3300 (no longer offered).

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Studio and lectures twelve hours a week.

IDES 3502 [0.5 credit]**Contextual Nature of Products**

Cultural subjects which have an influence on contemporary industrial design. The perspective of the course is anthropological: the context and cultural relevance of industrial design.

Prerequisite(s): IDES 1000 (ARCH 2006).

Lectures and tutorials three hours a week.

IDES 3601 [0.5 credit]**Research for Design**

Basic design research techniques to foster design exploration. Methods focus on understanding context and user experience to produce meaningful, actionable insights and design opportunities. Processes include qualitative and quantitative research, as well as creative and evaluative research with people. Teamwork and collaboration are explored.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2600.

Lectures or laboratory three hours a week.

IDES 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

IDES 4001 [0.5 credit]**Industrial Design Seminar**

Topics vary yearly and address key contemporary industrial design issues. There is a focus on writing, discussion, and debate. Students organize a seminar with design professionals and other community experts including student and professional presentations, interaction, and discussion.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Seminar three hours a week.

IDES 4002 [0.5 credit]**Professional Practice**

The organizational aspects of consultancies and client responsibilities within the framework of corporate management. Topics include: the form of contracts for consultancy, determination of fees, legal implications, patents and copyrights. Guest lecturers.

Precludes additional credit for IDES 3503 (no longer offered).

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Lectures and discussion three hours a week.

IDES 4101 [0.5 credit]**Adv. Studies in Manufacturing**

Advanced manufacturing concepts and workflows are examined through a series of workshops and minor projects utilizing state-of-the-art equipment.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2101 and IDES 2102.

Lectures or laboratory three hours a week.

IDES 4200 [0.5 credit]**Form Organization**

Using form organization as a tool to design, the definition and prescription of monolithic solids by means of an abstract system; making and verifying materialized approximations of such solids.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 and IDES 2302 or permission of the School of Industrial Design.

Lectures, tutorials and laboratory six hours a week.

IDES 4301 [0.5 credit]**Minor Projects**

Advanced skills-based course that enhances student experience in novel, experimental processes and techniques in design. Workshop-style activities and short projects focus on increasing skill competence and versatility in a variety of fields. Emphasis on time management and the ability to work independently.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 4305 [0.5 credit]**Special Studies**

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4306 [0.5 credit]**Special Studies**

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4310 [1.5 credit]**Capstone Project**

Application of design principles in a comprehensive design project. Problem area should be product-oriented and of sufficient complexity. Normally undertaken in consultation with off-campus organizations and/or industry. Supervised by faculty and/or sessional members.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 4300 (no longer offered).

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week in Fall and twelve hours a week in Winter.

IDES 4400 [0.5 credit]**Internship Field Report**

Work experience related to industrial design. Following the internship period (to be approved by the Director), a comprehensive report describing observations and insights will be submitted. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Tutorial hours arranged.

Information Resource Management (IRM)

Information Resource Management (IRM) Courses

IRM 1002 [0.5 credit]

Reference and Information Services

Introduction to the theory and techniques needed to conduct reference interviews and interpret reference queries. Students learn to select and use general reference sources such as dictionaries, encyclopedias, directories, bibliographies, periodical indexes, almanacs, and handbooks in print, and electronic formats.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1003 [0.5 credit]

Collections management

Introduction to the principals of collections management including techniques and procedures for selecting, ordering and receiving library materials, accounting, collection development and automated acquisitions.

Students also learn policies and procedures required for circulation, document delivery and interlibrary loans.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1004 [0.5 credit]

Reader's Advisory Services

Students become familiar with fiction and non-fiction materials available to various categories of clients and learn how to market them. In addition, students further develop through various assignments their researching, writing, speaking, listening and communication skills.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 1005 [0.5 credit]

Web Interface Development

Combining graphics, text, audio and video to develop websites on an individual basis and in groups, using latest versions of HyperText Markup Language(HTML), Cascading Style Sheets (CSS), JavaScript and data interchange formats such as Extensible Markup Language(XML) and JavaScript Object Notation(JSON).

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

IRM 1006 [0.5 credit]

Subject Analysis and Indexing

Students learn the basic theory of subject analysis and indexing methods used to provide access to library materials and literature. Practical instruction makes use of thesauri, as well as standard subject heading lists, such as Sears and Library of Congress.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hour a week.

IRM 1007 [0.5 credit]

Cataloguing

The catalogue is the main finding aid to the collection of the library. Students learn the basic principles and concepts of international standards used to describe library materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 1001 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1008 [0.5 credit]

Introduction to Information Resource Management

Students develop understanding of the concepts of information retrieval, creation, evaluation, organization and client service. Knowledge of legal and ethical implications of information and current trends in the field is studied.

Through in-class lectures and hands-on activities, students gain an overview of the field.

Precludes additional credit for IRM 1000 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 2002 [0.5 credit]

Legal and Business Information

Students develop skills in planning and executing information searches and evaluating print and electronic resources. Students learn to locate information on selected topics, compile subject-specific annotated bibliographies and instruct library clients in the use of specialized materials and databases.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1002.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 2003 [0.5 credit]**Classification**

How to interpret and apply Dewey Decimal and Library of Congress Classification systems. Also includes analysis of the subject content of materials, building notation, using tables, shelf-listing techniques and creating unique book numbers.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1006.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 2004 [0.5 credit]**Information Management and Digital Preservation**

Essentials of information management in an organization including the life cycle management of files in paper and the electronic environment. This course will also cover contemporary issues in information management and digital preservation.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1008.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 2005 [0.5 credit]**Advanced Cataloguing**

Libraries purchase and provide access to a wide variety of print and electronic resources. Building on work done in IRM 1007, students learn to interpret international cataloguing standards to describe more complex materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 2001.

Prerequisite(s): IRM 1007.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3001 [0.5 credit]**Scientific and Medical Information**

Students enhance their knowledge of print and electronic reference sources in science and technology. Students learn to compile specialized subject-specific bibliographies and assignments provide training in the use of science and technology reference sources.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 2002.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3003 [0.5 credit]**Legal Issues in Information Resource Management**

In-depth analysis and assessment of copyright and other forms of intellectual property. Legal issues related to information technology. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, Charter and human rights issues, and security.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 3004 [0.5 credit]**Project management**

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of information management using case studies.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in the Information resource management program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3006 [0.5 credit]**Data Analysis and Research Methodology**

Introduction to the logic and design of research. Qualitative and quantitative research methodology with emphasis on the application and interpretation of statistical techniques for data analysis. These may include, but are not limited to, bivariate and multivariate analysis, distribution analysis, visual data analysis, market basket analysis.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3002 (no longer offered).

Prerequisite(s): BIT 2000.

Lectures three hours a week.

IRM 3007 [0.5 credit]**Practicum for IRM**

Students will design and complete a project related to information management under the supervision of a faculty member or librarian. This course provides the opportunity to apply knowledge gained in previous courses.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Information resource management program.

Tutorial/laboratory eight hours a week.

IRM 3008 [0.5 credit]**Metadata for IRM**

Students develop an understanding of key metadata schema and apply standards to describe range of digital resources. The metadata schemes include focus on Dublin Core (DC) and MODS with select coverage of specialist schema. Through in-class lectures and hands-on activities, students apply metadata schemes.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3000 (no longer offered).

Prerequisite(s): IRM 2005.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 4000 [0.5 credit]**Library Software**

Using skills and knowledge of automated systems already developed in introductory courses, students learn the theory and receive the hands-on practice needed to use library databases. A component on choosing and comparing library software is included.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4001 [0.5 credit]**Archives and Special Collections**

Principles and methods used by archivists and record managers in organizing their collections for better access and retrieval. Students also learn aspects of physical bibliography, the book trade, preservation and conservation of books and how to exhibit such material.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 4002 [0.5 credit]**Network Technology**

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4004 [0.5 credit]**Big Data Analytics and Applications**

Introduction to Big Data. Topics include: big data mining and analysis techniques like Association Rule Mining, Classification, Clustering, Linear Regression, using R, Hadoop, Hadoop Distributed File System, and related technologies. Applications on other domains like networks, finance, and/or business.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3006.

Lectures three hours a week.

IRM 4900 [1.0 credit]**IRM Capstone Project**

Student-initiated project developed in association with a project supervisor and external information resource management advisor. Project is supported by a written report, seminar discussions and final presentation. All proposals must be approved by the IRM Program Project Committee.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3004, IRM 3007 or LIB 2030 and LIB 2047 and fourth year standing in the IRM program.

Tutorial hours arranged.

Information Technology (BIT)

Information Technology (BIT) Courses**BIT 1000 [0.5 credit]****Mathematics I for NET**

Tailored for students in the Network Technology program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1100, BIT 1200, ECON 1401, ECON 1402, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401, MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1001 [0.5 credit]**Mathematics II for NET**

Tailored for students in the Network Technology program, this course covers systems of linear equations, vector space of n-tuples, subspaces and bases, matrix transformations, kernel, range, matrix algebra and determinants, inner products and orthogonality, eigenvalues, diagonalization and applications.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1101, BIT 1201, ECON 1401, ECON 1402, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401, MATH 1402.

Prerequisite(s): BIT 1000.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1002 [0.5 credit]**Physics for Information Technology I**

An introductory course on energy, thermodynamics, sound and electromagnetic waves, optics, and modern physics. Practical skills are learned in the laboratory, which is a required part of the course.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1203, PHYS 1001, PHYS 1003, PHYS 1007.

Prerequisite(s): BIT 1100.

Lectures three hours a week, tutorial three hours/ laboratory three hours alternate weeks.

BIT 1006 [0.5 credit]**Elective**

Students must choose from among a list of approved Electives at Algonquin College.

Precludes additional credit for BIT 2003 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

BIT 1007 [0.5 credit]**Physics for NET**

An introductory course on energy, electrical networks (AC and DC circuits, resistance, impedance, capacitance), electrostatics (electric fields, static electricity), electromagnetism, electromagnetic waves, optics, and other topics in modern physics. Practical skills are learned in the laboratory, which is a required part of the course.

Precludes additional credit for BIT 1003 (no longer offered), BIT 1204, PHYS 1002, PHYS 1004, PHYS 1008.

Prerequisite(s): BIT 1000, Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial three hours/ laboratory three hours alternate weeks

BIT 1100 [0.5 credit]**Mathematics I for IMD**

Tailored for students in the Interactive Multimedia Design program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1000, BIT 1200, ECON 1401, ECON 1402, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401, MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1101 [0.5 credit]**Mathematics II for IMD**

Tailored for students in the interactive Multi-media Design program, this course covers systems of linear equations, vector space of n-tuples, subspaces and bases, matrix transformations, kernel, range, matrix algebra and determinants, inner products and orthogonality, eigenvalues, diagonalization and applications.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1001, BIT 1201, ECON 1401, ECON 1402, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401, MATH 1402.

Prerequisite(s): BIT 1100.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1200 [0.5 credit]**Calculus**

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1000, BIT 1100, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent.

Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1201 [0.5 credit]**Linear Algebra**

Systems of linear equations; vector space of n-tuples, subspaces and bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product. Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications. Note: MATH 1119 is not an acceptable substitute for BIT 1201.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1001, BIT 1101, MATH 1102, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School. restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1203 [0.5 credit]**Newtonian Physics**

Mechanics, properties of matter, thermodynamics.

Applications chosen in part from the life sciences.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, PHYS 1001, PHYS 1003, PHYS 1007.

Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent; or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 or BIT 1200 (may be taken concurrently); or (iii) permission of the Department. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1204 [0.5 credit]**Electromagnetism & Modern Physics**

Electricity and magnetism, DC and AC circuits,

wave motion and light. Elements of modern physics.

Applications chosen in part from the life sciences.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, PHYS 1002, PHYS 1004, PHYS 1008.

Prerequisite(s): BIT 1203 or PHYS 1001 or PHYS 1003 or PHYS 1007 or permission of the Department. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1400 [0.5 credit]**Introduction to Programming and Problem Solving**

Introduction to basic concepts of algorithm design and computer programming in C/C++. Topics include computer architecture, algorithms and pseudocode, basic operators, variables and functions, program control with iteration and conditionals, I/O operations, text processing, structures, arrays, pointers, and debugging.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1005, COMP 1405, IMD 1003, ITEC 1400, NET 1000 and PLT 1000.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory three hours a week.

BIT 2000 [0.5 credit]**Introduction to Statistics**

This course covers data analysis, introduction to probability theory, some standard discrete and continuous distributions and their application to interval estimation and significance testing, computational aspects of statistics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, STAT 2606, and STAT 3502.

Prerequisite(s): restricted to students in the BIT degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 2001 [0.5 credit]**Introduction to Business**

An overview of the most fundamental business functions.

The management of people, human resources, marketing, accounting and finances, business law and operations.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures: three hours a week.

BIT 2002 [0.5 credit]**Marketing in the IT sector**

Basic problems and practices in marketing. Marketing strategies, planning, packaging, branding and promotion at the level of the individual firm; distribution channels.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2204.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week.

BIT 2006 [0.5 credit]**Elective**

Students must choose from among a list of approved

Electives at Algonquin College.

Precludes additional credit for BIT 3003 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, or as arranged.

BIT 2008 [0.5 credit]**Multimedia Data Management**

Concepts and fundamentals of database systems.

Design of relational databases, normalisation, referential integrity, structured query language (SQL), server-side scripting, organisation of multimedia content, dynamic page loading, storage and compression of media, media network considerations, digital watermarking and rights management.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 2000, IMD 2000 (no longer offered), IRM 2000 (no longer offered).

Prerequisite(s): BIT 1400 and IMD 1005 or IRM 1005.

Lecture three hours a week, tutorial/laboratory two hours a week.

BIT 2010 [0.5 credit]**Differential Equations & Multivariate Calculus**

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.

Prerequisite(s): BIT 1200.

Lectures three hours a week, tutorial one hour a week.

BIT 2400 [0.5 credit]**Intermediate Programming**

Introduction to object-oriented programming using C++ language. Topics include detailed study of pointers and structures, encapsulation of data and code through objects and classes, inheritance, polymorphism, object-oriented program design, class libraries, user interface objects and event-driven systems.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1006, COMP 1406, IMD 2004, ITEC 2400, NET 2006 and PLT 2004.

Prerequisite(s): BIT 1400. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory three hours a week.

BIT 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

BIT 4000 [0.5 credit]**Directed Studies**

Independent study under the supervision of a member of the School of Information Technology, open only to students in the B.I.T. program. Students are required to obtain their supervisor's written approval prior to registration and are limited to one such course in their program.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School of Information Technology.

BIT 4001 [0.5 credit]**Selected Topics in Information Technology**

Topics not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Prerequisite(s): third-year standing in the BIT Program or permission of the department.

Lecture three hours a week.

Interactive Multimedia and Design (IMD)

Interactive Multimedia and Design (IMD) Courses**IMD 1000 [0.5 credit]****Introduction to Interactive Multimedia Design**

Overview of interactive multimedia design including copyright, user-centred design, web design and mark-up languages, general logic design, multimedia project management, design processes for animated film, video game development, visual effects in movies, ethics and current trends in the field.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 1100.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lecture three hours a week.

IMD 1001 [0.5 credit]**Visual Communication**

Visual communication techniques commonly used to draft concepts and ideas to support scripts for film, animation, HCI, and/or game development. Topics include: storyboarding, composition, vanishing point, line quality, visual timing, perspective, depth of field, body language and life drawing. A digital drawing tablet is required.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 1000 and IMD 1002.

Workshop three hours a week.

IMD 1002 [0.5 credit]**Visual Dynamics**

Fundamentals of composition with emphasis on realistic rendering. Students learn how to execute thumbnails and design comprehensives. Topics include illustration, type, colour, texture, proximity and unity, alignment, repetition and continuity, contrast, size relationships, balance, rhythm, negative space, cropping and view selection.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1004 [0.5 credit]**Design Processes**

Design fundamentals using industry standard software techniques and workflow are explored. Topics include: gestalt principles, grids systems, colour, texture, raster and vector image production, and typography. Students design for publication to output such as Web, print, and electronic book formats. Required digital drawing tablet.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1005 [0.5 credit]**Web Development**

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid xHTML, cascading style sheets (CSS), JavaScript and XML structures.

Includes: Experiential Learning Activity

Precludes additional credit for ITEC 1005.

Prerequisite(s): IMD 1000 and IMD 1004.

Workshop five hours a week.

IMD 2003 [0.5 credit]**Audio and Video**

The creation, production and editing of audio and video for multimedia applications. Topics include single camera recording and capture techniques through to post-production editing. Emphasis is placed on production and operation skills while adhering to industry standard costs and deadlines.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 1000 and IMD 1002.

Workshop four hours a week.

IMD 2006 [0.5 credit]**Introduction to Computer Games**

Basic concepts in the design and development of computer games, including: fundamentals of production cycle, genres, gameplay and game mechanics, story and character development, level design, artificial intelligence for games, game user interface, and common development tools.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400 and second-year standing in the IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 2007 [0.5 credit]**Intro to 3D Animation**

Introduction to the basics of 3D computer animation.

Topics include: introduction of 3D animation packages, 12 Principles of Animation, character design, character animation (walking/locomotion, motion, and poses), soft-body animation (shape interpolation and facial animation), and acting for animators.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 2005 (no longer offered).

Prerequisite(s): BIT 1002 and second-year standing in the IMD program.

Lecture/workshop three hours a week.

IMD 2900 [1.0 credit]**Design Studio 1**

Advanced practical studio-based sessions in project management and web development. Topics include: project management styles, team collaboration techniques, prototyping, project and content management, marketing, testing, and product evaluation culminating into a major group web project using client-side and server-side technologies.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the IMD program.

Studio/lecture eight hours a week.

IMD 3002 [0.5 credit]**3D Computer Graphics**

Technical aspects of 3D computer graphics.

Homogeneous transformations, viewing pipeline, cinematography, modeling techniques (explicit and implicit), scene composition, level of detail methods, advanced lighting techniques (BRDF, IBL, subsurface-scattering), 2D/3D texturing, local/global illumination, rendering methods, and shaders.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 1101, BIT 2400 and IMD 3900.

Lectures three hours a week, tutorial/laboratory two hours per week.

IMD 3004 [0.5 credit]**Human Computer Interaction and Design**

Introduction to concepts centered on Human-Computer Interaction from hardware and software perspectives.

Topics include design principles, usability principles and engineering, solving user-centred problems, device interaction, and graphical user interface design (2D and 3D interfaces).

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 3005 [0.5 credit]**Sensor-Based Interaction**

Development of interactive applications that connect the physical and virtual space. Topics include using external devices and sensor hardware, sensing objects and people, gestural input, computer vision, processing of live audio input, and networked software and devices.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 2001 (no longer offered).

Prerequisite(s): BIT 2400.

Lecture/ workshop four hours a week.

IMD 3006 [0.5 credit]**Software Design for Multimedia Applications**

Provides students with knowledge and expertise to design and develop complex software systems and programs for common multimedia applications. Topics include: data structures, system and requirement analysis, component identification, common design patterns, and working with reusable components.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 3900 [1.0 credit]**Design Studio 2**

Intermediate practical studio sessions covering the creative aspects of 3D graphics and animation. Topics include: environment and character modeling, texturing, using bump/displacement maps, advanced materials, 3D cameras, various lighting, keyframe animation, and rendering methods.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2007 and third-year standing in the IMD program.

Studio/lecture eight hours a week.

IMD 3901 [1.0 credit]**Design Studio 3**

Studio-based course focuses on interdisciplinary group work, and the use of reality-based/ natural-based interfaces for multiuser interaction, understanding social and environmental context in physical design, basic networking, advanced sound design, and haptic feedback.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program, IMD 2900 and IMD 3005.

Studio/lecture eight hours a week.

IMD 4002 [0.5 credit]**Technology and Culture**

An examination of the relationship between communication technology and society. The course examines the factors that contribute to changes in the collection, storage and distribution of information and the cultural implications of these changes.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program.

Seminar three hours a week.

IMD 4005 [0.5 credit]**Advanced Topics in Multimedia**

Advanced topics in multimedia industry not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 4004 (no longer offered).

Prerequisite(s): fourth-year standing in the IMD program.

Lecture three hours a week.

IMD 4006 [0.5 credit]**Advanced Computer Gaming**

Provides students with knowledge and expertise to design and develop professional computer games with advanced and novel features. Topics include: target audience and inclusive/accessible design, interaction design and emerging technologies, artificial intelligence, interactive stories, procedural content generation, serious games and gamification.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2006 and IMD 3002.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4007 [0.5 credit]**Advanced Animation and Visual FX**

Advanced topics in animation and visual FX, covering the more technical aspects, including: match-moving, image-based lighting, chromakeying, motion capture of face and body, character rigging (Forward/Inverse kinematics, controls, weighting), retargeting, particle systems, and dynamic systems (cloth, fluid, and hair).

Includes: Experiential Learning Activity

Precludes additional credit for IMD 4003 (no longer offered).

Prerequisite(s): IMD 2007, IMD 3002 and IMD 3900.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4008 [0.5 credit]**Mobile User Interface Design and Development**

Design, development, and evaluation of user interfaces for mobile applications. Topics include: user-centered design methods and develop mobile applications employing the various input and output capabilities available on mobiles, e.g., multi-touch, device motion/rotation, video/audio capture, vibration.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3004 and IMD 3006.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4901 [1.5 credit]**IMD Capstone Project**

Student-initiated digital media project, under the supervision of a project advisor, consisting of complete end-to-end production, from design to final product. Development will be assessed via design documents, project plans, progress presentations, culminating in a final exposition in front of a panel of industry experts.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2900, IMD 3004, IMD 3900, IMD 3901 and fourth-year standing in the IMD program.

Tutorial hours arranged.

Network Technology (NET)

Network Technology (NET) Courses**NET 1001 [0.5 credit]****Computer Technology Basics**

Construction and function of PCs. Introduces technical concepts and terminology relating to system boards, system busses, input/output devices, memory, microprocessors and peripherals. Interaction of software and hardware; data storage; performance issues.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

NET 1002 [0.5 credit]**Networking Fundamentals**

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 1006 [0.5 credit]**Routing and Switching**

Introduction to routing and switching concepts including, static and dynamic routing, trunking and VLANs. Topics include configuring routers and switches and resolving common configuration and reachability issues.

Includes: Experiential Learning Activity

Precludes additional credit for NET 1005 (no longer offered).

Prerequisite(s): NET 1002.

Lecture three hours a week, tutorial/laboratory three hours a week.

NET 2000 [0.5 credit]**Intermediate Networking**

Architecture, components and operations of routers and switches in larger and more complex networks. Topics include configuration and troubleshooting of OSPF (with introduction to multi-area), EIGRP, STP, redundancy techniques and WiFi in SOHO environments.

Includes: Experiential Learning Activity

Prerequisite(s): NET 1006.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 2001 [0.5 credit]**Wide Area Networking**

Theory and technologies extending LANs to WANs including the relevant networking architectures and services. Data link protocols for WAN, network security, tunneling, VPNs and network monitoring, with a focus on implementation and troubleshooting.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2000.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 2007 [0.5 credit]**Basics of Transmission Systems**

Introduction to the fundamentals of information transmissions systems used in physical layer of the Internet. Covers time- and frequency-domain concepts, digital and analog transmission, signal encoding, sampling, modulation, demodulation, error detection and correction. Examples: DSL, Cable modem, and wireless LAN. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 1001 and BIT 1007.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 2008 [0.5 credit]**DevOps**

Exposure to unifying software development (Dev) and software operation (Ops). Use of Python to monitor and automate network management tasks.

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 2009 [0.5 credit]**Assembly and Machine Language**

Structured approach to assembly language programming. Topics include data and address registers, data and address busses, condition code register and stack pointers, machine code format, instruction sizes, operand encoding, translation of source code into machine language, and how the processor executes instructions. Also listed as OSS 2009, PLT 2009 (no longer offered). Precludes additional credit for NET 1004 (no longer offered), PLT 1007 (no longer offered).

Prerequisite(s): BIT 2400.

Structured approach to assembly language programming. Topics include data and address registers, data and address busses, condition code register and stack pointers, machine code format, instruction sizes, operand encoding, translation of source code into machine language, and how the processor executes instructions. Lectures three hours a week, tutorial/laboratory one hour a week.

NET 2010 [0.5 credit]**Desktop and Server Environments I**

Using Linux and Windows Server, study of the basic features such as file system, system utilities, memory management, boot process troubleshooting and UI customizations. Client-Server architecture is examined with a focus on basic Server configuration and administration. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity. Precludes additional credit for NET 2002 (no longer offered).

Prerequisite(s): NET 1001.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 2011 [0.5 credit]**Desktop and Server Environments II**

Using Unix and Linux Operating systems, study of the command line and network Server operating environments. Configuring Services and Protocols such as DNS, NTP, SSH, SMB, SMTP, POP3, IMAP, HTTP, and DHCP. Basic Server security using firewalls is also introduced. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Precludes additional credit for NET 2003 (no longer offered).

Prerequisite(s): NET 2010.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 3000 [0.5 credit]**Database Concepts and SQL**

Concepts and fundamentals of relational database systems. Students learn how to design relational databases starting from a conceptual data model, following accepted logical and physical design principles. Topics include normalisation, referential integrity, SQL, DDL and SQL DML & ODBC and data extraction/ filtering techniques.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the Networking program.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 3001 [0.5 credit]**Real-time Systems**

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as OSS 3001, PLT 3002 (no longer offered).

Prerequisite(s): NET 2009.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3004 [0.5 credit]**Data Structures**

Specification and design of abstract data types and their implementation as stacks, queues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion, re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as OSS 3004.

Precludes additional credit for PLT 3010 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3006 [0.5 credit]**Network Management and Measurements**

Key network management models (FCAPS, TMN), protocols and standards, such as SNMP. Introduction to and use of various management tools and methodologies. Current trends in network management and measurement. Security issues in collecting networking management information.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3000 and NET 3004.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3007 [0.5 credit]**Network Security**

Basics of network security. Students are introduced to the goals of IT security, common threats and countermeasures including firewalls, intrusion detection and prevention systems (IDPS) and virtual private networks. Several operating environments will be studied as examples. Also includes a section on computer ethics.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2001.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3008 [0.5 credit]**Advanced Network Routing**

Routing IP at the enterprise level, within and between, autonomous systems. Advanced control and optimization of routing protocols and manipulation of traffic paths with a focus on multi-area OSPF and EIGRP. Working knowledge of Internet reachability via BGP.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2001.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 3010 [0.5 credit]**Web Programming**

Architectures, protocols and languages used to develop dynamic Web content, including HyperText Markup Language (HTML, DHTML), Universal Resource Identifiers (URI) and HyperText Transport Protocol (HTTP) and Common Gateway Interface (CGI). JavaScript and Java are used to model cross-platform Web programming.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400, NET 3000.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3011 [0.5 credit]**Advanced Network Switching**

VLANs and inter-VLAN routing in a multilayer switched environment. Variants of STP and the use of related enhancements. Techniques for network redundancy and load balancing. Securing a switched infrastructure. Architectures and techniques for delivering converged and multimedia traffic (voice, video) in the enterprise.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2001.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 3012 [0.5 credit]**IP Architectures and Solutions**

An exploration of deployment options that can be implemented atop of a MPLS network. The focus is on technologies and architectures that serve to enhance IP delivery, or IP service leveraging the MPLS infrastructure.

Includes Layer 2 and 3 tunneling techniques. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3008.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3900 [0.5 credit]**Wireless Networks**

Design and configuration of Wi-Fi networks as used in commercial and enterprise venues. Topics include 802.11 family of protocols, wireless transmission, RF design, security methods and protocols, and system design.

Topologies include campus, bridge and remote access.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2007.

Lectures two hours a week, tutorial/laboratory three hours a week.

NET 4000 [0.5 credit]**Emerging Network Technologies**

Overview of technologies, protocols and techniques related to Information Technology networking that are either in their early stage of adoption or are not yet mainstream (i.e. beta or prototype stage). Focus will vary from year to year to reflect the evolutionary nature of this domain.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5110, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4001 [0.5 credit]**Network Simulation**

Introduction to discrete event simulation; fundamental stochastic models for networking; queueing theory; deterministic algorithms for networking; confidence intervals; introduction to network modeling. Use of simulation tools to develop and test scenarios including traffic monitoring, congestion, routing protocols, resource utilization and growth planning.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2000.

Also offered at the graduate level, with different requirements, as ITEC 5113, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4003 [0.5 credit]**Computer Systems Architecture**

History and evolution of computers. Models and functional descriptions of CPU, bus, memory, I/O. Internal data transfer and storage concepts. Bus protocols. Memory organization and cache principles. Digital logic and simple logic designs of CPU, buses, memory. Concepts of virtual machines, parallel computing, cloud computing.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in the Networking program, NET 2003 and NET 3001.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 4005 [0.5 credit]**Networked Applications**

Architectures for computing in modern data networks that adopt the Internet architecture. Topics covered include socket programming, RPC and RMI. Client-server and peer-to-peer models. Emerging application architectures.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3004 and NET 3010.

Also offered at the graduate level, with different requirements, as ITEC 5114, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4007 [0.5 credit]**Multimedia Networking**

Audio and video compression. H.261, JPEG, MPEG and DVI. Accessing audio and video from a web server. Real Time Streaming Protocol (RTSP). Multimedia operating systems. Multimedia database. Network support for multimedia applications. Multimedia synchronization.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5111, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4009 [0.5 credit]**Troubleshooting IP Networks**

Integrates planned maintenance and troubleshooting techniques, including, tools, applications and formalized methodologies. Study of issues in focused areas (such as routed vs. switched environments, addressing services, performance, security, multimedia), culminating in problem resolution throughout a complex enterprise network.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3011, NET 3008.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 4010 [0.5 credit]**Secure Mobile Networking**

The concept, principle and rationale of mobile networking. Mobile network architecture, protocols, mobility management, routing and mobile TCP/IP; Security challenges, vulnerabilities and threats in mobile networks; Security defense techniques and countermeasures in mobile networks.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5112, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 4011 [0.5 credit]**Advanced Topics in Network Security**

Understanding classes of advanced attacks. Building secure networks. Adversarial Machine Learning. Security in clouds, virtualized networks, and IoT. Understanding impact of OS and software security issues. Security in next generation networks such as 5G.

Prerequisite(s): NET 3007.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4901 [1.0 credit]**NET Capstone Project**

This course provides the opportunity to apply knowledge gained in previous courses towards the design and implementation of a major Networking related project.

Working in teams or as individuals under the direction of faculty members, students undertake projects internally or in collaboration with industry.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Networking program.

Tutorial hours arranged.

Optical Systems and Sensors (OSS)

Optical Systems and Senors (OSS) Courses**OSS 1002 [0.5 credit]****Applications in Photonics & Optoelectronics**

Survey of the history and future of photonics. Photonics benefits and impact on technology and society. Emerging applications of photonics in industry and commercial products. The forces (business, social, political, economic, technical, and educational) that influence the development, adoption and success or failure of technologies.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1002 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 1003 [0.5 credit]**Optics/Optical Fibers (Principles)**

Principles of optics, optical fiber, waveguides and hands-on experience with optical components. Optical fiber manufacturing and variety of industrial applications. Topics covered include: optical sources, detectors, fiber modes and mode-coupling, couplers, multiplexers, optical amplifiers, physical layer of optical networks, dispersion and nonlinear effects management.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1003 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 1005 [0.5 credit]**Introduction to Optics**

Physics of waves, optics and light propagation through lectures and lab experiments. Geometrical optics, refraction and reflection, interference, diffraction and polarization, thin lens equation, laser beams, Michelson interferometer, birefringence, and Abbe theory of imaging. Electromagnetic spectrum, quantum nature of light, photons, and photoelectric effect.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1005 (no longer offered).

Prerequisite(s): BIT 1203, restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory three hours a week.

OSS 1006 [0.5 credit]**Introduction to Automation and Simulation**

Introduction to basic programming in both the Matlab and Labview environments. Program development, basic structures (loops, control structures), I/O, data visualization and graphing will be covered. Students will learn to use Labview to develop basic applications and model simple physical systems with Matlab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1006 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory two hours a week.

OSS 2001 [0.5 credit]**Fundamentals of Light Sources**

Introduction to incoherent light sources and lasers. Lasers operation, energy levels, quantum mechanics basics. Pumping/excitation, population inversion, laser cavity design, gain and loss, and characteristics of laser emission. An extensive lab manual of relevant experiments, variety of lasers, spectrometers, and detection equipment will be used.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2001 (no longer offered).

Prerequisite(s): BIT 1201. Restricted to students in the BIT degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2002 [0.5 credit]**Optical Communication Networks I**

Fiber-laser implementation and optical networks, topologies, OSI, SONET/SDH, synchronous payload envelope, virtual tributaries, optimized mapping techniques, and optical carriers (OC-n/STM-m). Extensive lab manual and hands-on experience using state-of-the-art Optophotonics Lab to work on OAM; P, facility/equipment, synchronization, bandwidth management, and performance monitoring and other functionalities.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2002 (no longer offered).

Prerequisite(s): OSS 1003 or PLT 1003 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 2003 [0.5 credit]**Laser Systems**

Laser theory, devices and systems. Safety procedures, laser power supplies, and laser system applications. Solid state, gas, and other types of lasers. Basic material processing, micro machining, bio/medical, and military applications will be covered. Hands-on experience with advanced laser equipment in lab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2003 (no longer offered).

Prerequisite(s): OSS 2001 or PLT 2001 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2005 [0.5 credit]**Circuits and Signals**

Students learn properties of electricity and measurement techniques. Topics covered include RMS, average, applied, peak-to-peak and instantaneous values. Lab experiments deal with RC and RL circuits and LC filters. RLC circuits, and series and parallel resonance are also covered.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2005 (no longer offered).

Prerequisite(s): BIT 1204 or PHYS 1004 or PHYS 1002.

Restricted to students in the BIT degree program.

Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2006 [0.5 credit]**Integrated Circuits**

Fundamentals of logic circuitry in digital systems are studied including basic logic gates, Boolean algebra, signal decoding, logic circuit design, flip-flop circuits, timers and counters. The proper use of semi-conductor components is demonstrated through the use of laboratory experiments.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 2507, PLT 2006 (no longer offered).

Prerequisite(s): OSS 2005 or PLT 2005 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2008 [0.5 credit]**Manufacturing Photonics Components**

Manufacturing techniques and methods used to produce photonics components and devices/systems. Micro assembly, adhesives, optical tests and measurement, lean manufacturing and quality control standards (Telcordia). Laboratory exposure to optical component production processes: grinding, polishing, coating, mounting, tolerance and accuracy.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1004 and PLT 2008 (no longer offered).

Prerequisite(s): OSS 1002 or PLT 1002 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory two hours a week.

OSS 2009 [0.5 credit]**Assembly and Machine Language**

Structured approach to assembly language programming. Topics include data and address registers, data and address busses, condition code register and stack pointers, machine code format, instruction sizes, operand encoding, translation of source code into machine language, and how the processor executes instructions.

Includes: Experiential Learning Activity

Also listed as NET 2009.

Precludes additional credit for PLT 1007 (no longer offered), NET 1004 (no longer offered), PLT 2009 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory one hour a week.

OSS 2010 [0.5 credit]**Signals and Systems**

This course provides a solid theoretical foundation for the analysis and processing of experimental data, and real-time experimental control methods. Topics include various properties of signals and systems, convolution, the Fourier transform, sampling theorem, z-transform, spectral analysis, filter design, and system identification.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2010 (no longer offered).

Prerequisite(s): BIT 1200 and BIT 1201. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial one hour a week.

OSS 3000 [0.5 credit]**Optical Communication Networks II**

Operation, management and maintenance of metro/long haul optical network elements and systems. Hands-on skills using GUI, Transaction Language One (TL1), optical network management to perform line and path protection, alarm provisioning, security and data communications, optical network backup and restore, load upgrade and installation management.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3000 (no longer offered).

Prerequisite(s): OSS 2002 or PLT 2002 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3001 [0.5 credit]**Real-time Systems**

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as NET 3001.

Precludes additional credit for PLT 3002 (no longer offered).

Prerequisite(s): OSS 2009 or PLT 2009 (no longer offered).

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 3002 [0.5 credit]**Design of Optical Components and Systems**

Optical ray-tracing for analysing systems of sources, lenses, mirrors, prisms, fibers, diffractive elements, MEMS. Zemax® fundamentals, pupils, aspherics, non-sequential tracing, aberrations, image metrics, optimization/merit functions. Applications: imaging, illumination, lasers. Trade-offs, mechanical constraints, tolerances and cost. Physical optics modeling of beam propagation. Near-field diffraction and waveguides.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3004 (no longer offered).

Prerequisite(s): OSS 1003 or PLT 1003 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3003 [0.5 credit]**Fundamentals of Electromagnetics**

Review of basic vector calculus followed by an introduction to electrostatics and magnetostatics. Maxwell's equations and EM wave solutions. EM waves in dielectrics media, reflection, refraction, Fresnel relations and Brewster angle. Introduction to guided waves emphasizing slab waveguides.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3003 (no longer offered).

Prerequisite(s): BIT 1204 and BIT 2010.

Lecture and tutorial three hours a week.

OSS 3004 [0.5 credit]**Data Structures**

Specification and design of abstract data types and their implementation as stacks, queues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion, re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as NET 3004.

Precludes additional credit for PLT 3010 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 3009 [0.5 credit]**Project Management**

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of photonics using case studies.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3009 (no longer offered).

Prerequisite(s): third year standing in the Optical Systems and Sensors program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 3012 [0.5 credit]**Digital Signal Processing**

Operations-related topics including: sampling/reconstruction of continuous time signals, Fourier and Z-transforms, Discrete Fourier Transform (DFT), Fast Fourier Transform (FFT). Examination of other time and frequency domain techniques for designing and applying infinite impulse response (IIR) and finite impulse response (FIR) digital filters.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3012 (no longer offered).

Prerequisite(s): OSS 2010 or PLT 2010 (no longer offered).

Lectures three hours a week, tutorial one hour a week.

OSS 3013 [0.5 credit]**Software Design for Optical Systems and Sensors**

Provides students with knowledge and expertise to design and develop complex software systems and programs for common optical systems and sensors. Topics include: system and requirement analysis, algorithms, component identification, common design patterns, and working with reusable components.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3013 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial two hours a week.

OSS 3014 [0.5 credit]**Optical Waves, Waveguides, and Sensors**

Analysis of guided-wave propagation and sensors. Topics include Maxwell's time-dependent wave equations, dielectric waveguides (slab, planar, segmented, rib, strip), optical fibres (modes, dispersion relations, propagation in dispersive media, nonlinear fibres), beam propagation methods, free space beam propagation, waveguide devices, and study of sensors technology.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3014 (no longer offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4001 [0.5 credit]**Optoelectronic Devices**

Review of semiconductors, semiconductor lasers, detectors, photovoltaics. Electro, magneto and acousto-optic modulation devices. Transmitters, receivers, photo diodes, fiber sensors, and amplifiers, Mach-Zehnder interferometers. Polarization-mode dispersion. Experiments on non-linear optical elements, Sagnac and ring resonator, optical modulation.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4001 (no longer offered).

Prerequisite(s): OSS 3004 or PLT 3004 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4004 [0.5 credit]**Medical Imaging and Biosensors**

Biological and medical photonics. Effect of light on biological systems, medical imaging, medical treatments, biological research and bio/medical applications. Laser manipulation of cells, laser surgery, and photo-therapy. Biophotonic lab experiments with scanning confocal microscopes, endoscopes, DNA scanners.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4004 (no longer offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4006 [0.5 credit]**Image Processing**

Developing and evaluating algorithms for extracting the necessary information signals. Topics include filter design, fast transforms, adaptive filters, spectrum estimation and modeling, sensor array processing, image processing, motion estimation from images, applications in biomed, computer-aided tomography, image restoration, robotic vision, and pattern recognition.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4006 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4008 [0.5 credit]**Remote Sensing**

Introduction to the basics of remote sensing, characteristics of remote sensors, and applications. Topics include: image acquisition and data collection, LIDAR sensors and platforms and derived digital products, imagery analysis, topographic mapping, and 3D modeling of urban infrastructure for autonomous vehicles.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4008 (no longer offered).

Prerequisite(s): OSS 3014 or PLT 3014 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4009 [0.5 credit]**Computer Vision**

Introduction to topics in computer vision, including: fundamentals of image formation, camera imaging geometry, camera models, camera calibration, structure from motion, feature detection and matching, depth and stereo, image stabilization, image classification, automated alignment, scene understanding, recognition, and image searching.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4009 (no longer offered).

Prerequisite(s): OSS 4006 or PLT 4006 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4900 [1.0 credit]**OSS Capstone Project**

Research project develops students' ability to direct own learning and pursue advanced study in variety of subjects. Select topic, perform literature search, theoretical background, preliminary measurements, calculations, and design. Present findings in a preliminary thesis. Encourage writing technical papers. Research opportunities with industry and academia.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4900 (no longer offered).

Prerequisite(s): fourth-year standing.

Tutorial hours arranged.

Information Technology (ITEC)

Information Technology (ITEC) Courses

ITEC 1005 [0.5 credit]**Web Development**

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid HTML5, cascading style sheets (CSS3), JavaScript and XML structures.

Precludes additional credit for IMD 1005.

Lectures and tutorials five hours a week.

ITEC 1100 [0.5 credit]**Introduction to Interactive Media Design**

Overview of interactive multimedia design: user-centred and web design, mark-up languages, project management, design processes for video games, visual effects in movies, ethics, current trends in the field.

Precludes additional credit for IMD 1000.

Prerequisite(s): For students not enrolled in CSIT programs.

Lectures three hours a week.

ITEC 1400 [0.5 credit]**Introduction to Programming and Problem Solving**

Introduction to systematic problem solving including defining and modelling problems, testing, debugging and results analysis, numeric methods, data presentations and abstraction, class relationships and program style and documentation.

Precludes additional credit for BIT 1400, IMD 1003 (no longer offered), NET 1000 (no longer offered), PLT 1000 (no longer offered).

Lectures/tutorials six hours a week.

ITEC 2000 [0.5 credit]**Multimedia Data Management**

Issues involving the back-end organization of information focusing on databases and database design, server-side scripting, the structured query language (SQL), digital rights management, and watermarking.

Precludes additional credit for BIT 2008, COMP 2006 (no longer offered), IRM 2000 (no longer offered), IMD 2000 (no longer offered).

Lectures and tutorials five hours a week.

ITEC 2100 [0.5 credit]**Data Visualization**

Web-based data visualization techniques and systems.

Good design practices for visualization, tools for visualization of data from a variety of fields, and programming of interactive web-based visualizations focusing on JavaScript, CSS, SVG and the D3 library.

Includes: Experiential Learning Activity

Lectures/labs five hours a week.

ITEC 2400 [0.5 credit]**Intermediate Programming**

Introduction to object oriented programming using C++ language. Topics include detailed study of pointers and structures, inheritance, polymorphism, object-oriented program design, class libraries, user interface objects.

Precludes additional credit for BIT 2400, IMD 2004 (no longer offered), PLT 2004 (no longer offered).

Lectures three hours a week, tutorial three hours a week.

ITEC 3100 [0.5 credit]**Immersive Storytelling**

The craft of digital storytelling, creating compelling online and game-engine packages. Using a variety of narrative formats, interactive tools, and digital content, including blogs and RSS feeds, developing an in-depth story using leading edge technologies and techniques.

Includes: Experiential Learning Activity

Workshop three hours a week.

Integrated Science (INSC)

Integrated Science (INSC) Courses

INSC 3907 [0.5 credit]

Topics in Integrated Science

Assignment(s) reviewing current research topics.

Prerequisite(s): at least 0.5 credit at the 3000-level or higher (may be taken concurrently) and permission of the ISI Director.

INSC 3909 [0.5 credit]

Independent Study

The student, under the supervision of a faculty member, prepares a study in the focus areas of the student's program. Prior to or immediately upon registration, the student must consult with the ISI Director for topic approval and course regulations.

Includes: Experiential Learning Activity

Prerequisite(s): at least 0.5 credit at the 3000-level or higher (may be taken concurrently) and permission of the ISI Director.

INSC 4907 [1.0 credit]

Honours Essay and Research Proposal

A review of current research, and a research proposal, under the supervision of a faculty advisor. (Note: the research project is not actually carried out.) Graded on the literature review, the research proposal, and an oral defense. The student arranges for a faculty advisor.

Includes: Experiential Learning Activity

Precludes additional credit for INSC 4908 [1.0].

Prerequisite(s): fourth-year standing in Honours Integrated Science and permission of the Integrated Science Institute.

INSC 4908 [1.0 credit]

Honours Project

Under the supervision of a faculty adviser, the student carries out a research project in the IS areas of study. Prior to or immediately upon registration, the student must consult with the ISI Director for topic approval and course regulations.

Includes: Experiential Learning Activity

Precludes additional credit for INSC 4907 [1.0].

Prerequisite(s): permission of the ISI Director.

Interdisciplinary Public Affairs (IPAF)

Interdisciplinary Public Affairs (IPAF) Courses

IPAF 1001 [0.5 credit]

Investigations in Public Affairs

An introductory course emphasizing the development of writing, research, and analytical skills through the concentrated investigation of selected topics in Public Affairs. Topics will be offered by various Departments within the Faculty of Public Affairs. Topics may vary from year to year.

Prerequisite(s): permission of the Department within the Faculty of Public Affairs.

Seminar three hours per week.

IPAF 2000 [0.5 credit]

Quantitative Approaches to Policy Analysis

Related approaches to collecting, interpreting, and presenting quantitative information in the context of specific public policy issues such as immigration, globalization, discrimination, health care, and the environment. Development of fundamental logical, numerical, and statistical skills.

Prerequisite(s): open to students in any program other than those leading to one of the following degrees:

B.Com., B.C.S., B.Eng., B.I.B., B.I.D., B.Math., B.Sc.

Lectures three hours a week, tutorials one and half hours a week.

IPAF 2800 [0.5 credit]

Selected Topics in Public Affairs

Specialized topics in the area of public affairs. Topics vary from year to year and are posted at carleton.ca/fpa in advance of the registration period.

Prerequisite(s): Normally restricted to students in the second year of a B.P.A.P.M., B.G.In.S., B.Econ, B.J., B.Co.M.S., B.S.W., or B.A. program in the Faculty of Public Affairs.

Lecture three hours per week

IPAF 3800 [0.5 credit]

Selected Topics in Public Affairs

Specialized topics in the area of public affairs. Topics vary from year to year and are posted at carleton.ca/fpa in advance of the registration period.

Prerequisite(s): Normally restricted to students in the third year of a B.P.A.P.M., B.G.In.S., B.Econ, B.J., B.Co.M.S., B.S.W., or B.A. program in the Faculty of Public Affairs.

Lecture three hours per week.

IPAF 3900 [0.5 credit]

International Placement

Placement for six weeks with a global and international focus. Graded SAT/UNS.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Optional international placement with hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

IPAF 3901 [1.0 credit]**International Placement**

Placement for twelve weeks with a global and international focus. Graded SAT/UNS.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Optional international placement with hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

IPAF 4800 [0.5 credit]**Selected Topics in Public Affairs**

Seminar on a specialized topic in the area of public affairs. Topics will vary from year to year and are posted at carleton.ca/fpa in advance of the registration period.

Prerequisite(s): fourth-year Honours standing or permission of the instructor.

Seminar three hours per week.

IPAF 4900 [0.5 credit]**Research Experience Course**

This course gives students an opportunity to participate in a research project designed by a faculty member. Students gain work experience, learn new materials, and acquire research-oriented skills. Course expectations, learning outcomes and evaluation criteria are established by the supervising faculty member.

Includes: Experiential Learning Activity

Prerequisite(s): third year honours standing, GPA of 9.5 and permission of department.

Interdisciplinary Science (ISCI)

Interdisciplinary Science (ISCI) Courses**ISCI 1001 [0.5 credit]****Introduction to the Environment**

The nature of the biosphere: scientific bases of important environmental issues; evolution of life; properties and dynamics of populations and ecosystems; biodiversity; introduction to identification skills; sustainability of renewable resources, including food. Not acceptable for credit in a Bachelor of Science program.

Precludes additional credit for ISCI 1000.

Prerequisite(s): a knowledge of Grade 10 advanced level Mathematics will be assumed.

Lectures/demonstrations three hours a week and project assignments.

ISCI 2000 [0.5 credit]**Natural Laws**

Fundamental concepts and their environmental application for the non-science student: properties of atoms and molecules, chemical reactions, nuclear processes, mechanics, thermodynamics, electricity and magnetism; applications to energy production and consumption. Precludes additional credit for ISCI 1002 (no longer offered). Not acceptable for credit in a Bachelor of Science program.

Prerequisite(s): ISCI 1001 or GEOG 1010 or permission of the Institute of Environmental Science.

Lecture/demonstrations three hours a week, a one-hour tutorial a week, and project assignments.

ISCI 2002 [0.5 credit]**Human Impacts on the Environment**

Air and water pollution; global climatic change; waste management; industrial chemicals; sources and uses of energy; nuclear energy and radiation; risk assessment of technological hazards. Acceptable only as a free elective in a Bachelor of Science program.

Prerequisite(s): ISCI 2000 or ISCI 1002 or two experimental science grade 12 U/M courses or one first year university experimental science credit.

Lectures/demonstrations three hours a week and project assignments.

Interdisciplinary Science and Practice (ISAP)

Interdisciplinary Science and Practice (ISAP) Courses**ISAP 1001 [0.5 credit]****Introduction to Interdisciplinary Science**

What is interdisciplinarity and what are the challenges and opportunities of collaboration within and across disciplines in science and beyond? Topics include types of biases, public datasets and science communication.

Lectures and discussion three hours per week.

ISAP 1002 [0.5 credit]**Seminar in Interdisciplinary Science**

Exploring the role of interdisciplinarity in discovery and innovation, and discussion of selected issues facing society and the role of science. Topics include finding information, collaboration and science communication tools.

Prerequisite(s): ISAP 1001.

Seminar three hours per week.

ISAP 2001 [0.5 credit]**Foundations in Critical Inquiry**

What is science and the scientific method? Topics include the scientific method, credible sources of information, knowledge gaps, the impact of scientific discoveries, and discussion of their local and global implications.

Prerequisite(s): ISAP 1002 or permission of the Institute.

Lecture three hours per week, workshop two hours per week.

ISAP 2002 [0.5 credit]**Research Principles for Interdisciplinary Science**

Exploring how research is conducted. Topics include publicly available databases, the role of communication in research, stakeholders and participants, and the process of identifying knowledge gaps and developing research questions.

Prerequisite(s): ISAP 2001 or permission of the Institute.

Lecture three hours per week.

ISAP 3001 [0.5 credit]**Principles and Applications in Data Analysis**

Development of strategies for obtaining and analyzing data. Topics include: survey of publicly available science-data resources; identification of coincidental, correlational and causal relationships; statistical data-analysis techniques; concepts of risk and error propagation in measured and calculated values. Applications in the physical and biological sciences.

Prerequisite(s): ISAP 2002, COMP 1005 and STAT 2507.

Lecture three hours per week, workshop two hours per week.

ISAP 3002 [0.5 credit]**Applications in Interdisciplinary Research**

Application of skills from Interdisciplinary Science and Practice (ISAP) courses to develop a research proposal. Topics include: research ethics; identification of stakeholders; inclusive consultation, collaboration and dissemination strategies.

Prerequisite(s): ISAP 2002.

Lecture three hours per week, workshop two hours per week.

ISAP 3003 [0.5 credit]**Science Communication**

How is science perceived and how has science been communicated? Students will use case studies to assess examples of science communication with varying outcomes. Topics include the principles of effective science communication, the range of tools available, and knowing the audience.

Includes: Experiential Learning Activity

Prerequisite(s): ISAP 2002.

Lecture and seminar three hours per week.

ISAP 3004 [0.5 credit]**Science Policy**

Exploration of how science-related policy is developed and the impact of policy on science. Topics include policy frameworks, stakeholder roles, power relationships, commercialization and the funding of science.

Prerequisite(s): ISAP 3003.

Lecture and seminar three hours per week.

ISAP 4901 [0.5 credit]**Directed Studies**

Independent or group study, open to third- and fourth-year students to explore a particular topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Interdisciplinary Science and Practice (ISAP) program and permission of the instructor.

ISAP 4906 [1.0 credit]**Capstone Course - Group Research Project**

Students will collaborate on a project that addresses a real-world issue in a team environment. Focus includes: design and completion of a research project; development of communication, critical inquiry, data analysis and research skills; and the opportunity to develop initiative, creativity and self-reliance.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4907, ISAP 4908.

Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program and permission of the Institute.

Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4907 [1.0 credit]**Capstone Course - Research Essay**

A substantial, independent essay or research proposal-based critical review and research proposal, using library, database and/or bioinformatic resources, under the direct supervision of the instructor. Topics include identification and critical review of resources, development of writing skills and formulation of research question and strategy.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4906, ISAP 4908.

Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program.

Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4908 [1.0 credit]**Capstone Course - Individual Research Project**

An independent research project under the direct supervision of a faculty adviser. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4906, ISAP 4907.

Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program, a major CGPA of 9.0 or higher, and permission of the Institute.

Lectures and discussion as scheduled by the course coordinator; other hours as arranged with the faculty advisor.

Interdisciplinary Studies (DIST)

Directed Interdisciplinary Studies (DIST) Courses

DIST 3901 [0.5 credit]

Themes in Interdisciplinary Inquiry

Examination of topics of interest to a number of disciplines, along with various methods and styles of thought used to study them. Students will synthesize the various perspectives. Open only to students in Directed Interdisciplinary Studies and Child Studies.

Prerequisite(s): third-year standing in Child Studies or Directed Interdisciplinary Studies.

Seminar three hours a week.

DIST 3902 [0.5 credit]

Selected Topics in Interdisciplinary Studies

An examination of one or more interdisciplinary topics selected by faculty to present interdisciplinary thought and research not available elsewhere in the university curriculum.

Prerequisite(s): third-year standing or permission of the Institute.

Seminar three hours a week.

DIST 4901 [0.5 credit]

Directed Reading

Individual or small-group tutorial related to the theme of a Directed Interdisciplinary Studies program. Written permission from the Director of Interdisciplinary Studies is required before registering; please contact the DIS administrator.

Prerequisite(s): for Directed Interdisciplinary Studies students with fourth year Honours standing and a CGPA of 9.00 or better or permission of the Institute.

DIST 4902 [0.5 credit]

Directed Reading

Individual or small-group tutorial related to the theme of a Directed Interdisciplinary Studies program. Written permission from the Director of Interdisciplinary Studies is required before registering; please contact the DIS administrator.

Prerequisite(s): for Directed Interdisciplinary Studies students with fourth year Honours standing and a CGPA of 9.00 or better or permission of the Institute.

DIST 4904 [0.5 credit]

Selected Topics in Interdisciplinary Studies

An examination of one or more interdisciplinary topics selected by faculty to present interdisciplinary thought and research not available elsewhere in the university curriculum.

Prerequisite(s): fourth-year standing or permission of the Institute.

Seminar three hours a week.

DIST 4905 [0.5 credit]

Directed Interdisciplinary Studies Fieldwork I

Fieldwork related to the theme of a Directed Interdisciplinary Studies program. A proposal with a fieldwork research question and a supervisor must be approved prior to registration. A paper relating the fieldwork to the student's DIS program must be submitted. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Directed Interdisciplinary Studies or permission of the Institute.

DIST 4906 [0.5 credit]

Directed Interdisciplinary Studies Fieldwork II

Fieldwork related to the theme of a Directed Interdisciplinary Studies program. A proposal with a fieldwork research question and a supervisor must be approved prior to registration. A paper relating the fieldwork to the student's DIS program must be submitted. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Directed Interdisciplinary Studies or permission of the Institute.

DIST 4907 [0.5 credit]

Honours Essay

Interdisciplinary research project designed to develop research and writing skills. Topics must be approved by the Program Coordinator also charged with marking the essay.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year standing.

DIST 4908 [1.0 credit]

Honours Project

Interdisciplinary project for Honours Directed Interdisciplinary Studies students. In selecting a project, students must consult with the D.I.S. Program Coordinator. Students will work closely with a supervisor. Approval from the Program Coordinator to register for this course is necessary.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year standing in the B.A. Honours Directed Interdisciplinary Studies program and a 9.0 CGPA or higher.

International Affairs (INAF)

International Affairs (INAF) Courses

INAF 3001 [0.5 credit]

Understanding Policy in a Global Context

Analysis of international policy processes relevant to governments, non-governmental organizations, international organizations and multinational corporations, drawing upon theories of international relations, political science, law and economics. Emphasis on analytical and normative aspects of public policy processes in international relations.

Prerequisite(s): third-year standing in the B.P.A.P.M. program and registration in the International Studies Specialization.

Lectures or seminars three hours per week.

INAF 3002 [0.5 credit]

Applied Policy in a Global Context

Applications of policy analysis to specific international problems with an emphasis on institutions, multiple levels of governance, the role of non-governmental actors, and complex interconnected policy issues. Cases are drawn from international problems such as security, economics, development, the environment, migration, and health.

Prerequisite(s): third-year standing in the B.P.A.P.M. program and registration in the International Studies Specialization, and successful completion of INAF 3001.

Lectures or seminars three hours per week.

INAF 4101 [0.5 credit]

Topics in Conflict and Conflict Management

An interdisciplinary course examining selected issues and policies in the area of conflict and conflict management.

Topics include subjects such as sources and causes of conflict, conflict mediation, and peacekeeping and peacebuilding.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the International Relations and Conflict Concentration of the International Policy Studies Specialization, or permission from Kroeger College and NPSIA.

Lecture or seminar three hours per week.

INAF 4201 [0.5 credit]

Topics in Security and Intelligence

An interdisciplinary course examining selected issues and policies in the area of security and intelligence.

Topics include subjects such as intelligence oversight and privacy, comparative defence and security policy, terrorism, and counterterrorism.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the Security and Intelligence Concentration of the International Policy Studies Specialization or permission from Kroeger College and NPSIA.

Lecture or seminar three hours per week.

INAF 4301 [0.5 credit]

Topics in Rights and Human Development

An interdisciplinary course examining selected issues and policies in the area of rights and human development.

Topics include subjects such as food security, access to water, income distribution and inequality, health and education.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the Rights and Human Development Concentration of the Development Policy Studies Specialization, or permission from Kroeger College and NPSIA.

Lecture or seminar three hours per week.

INAF 4401 [0.5 credit]

Topics in Global Economic Relations

An interdisciplinary course examining selected issues and policies in the area of globalization and global economic relations. Topics include trade and development, multinationals and corporate social responsibility, debt and finance, intellectual property, and migration.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the Global Economic Relations Concentration of the Development Policy Studies Specialization, or permission from Kroeger College and NPSIA.

Lecture or seminar three hours per week.

Italian (ITAL)

Italian (ITAL) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

ITAL 1010 [0.5 credit]

First-Year Italian I

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for ITAL 1110.

Four hours a week.

ITAL 1020 [0.5 credit]**First-Year Italian II**

Continuation of first-year Italian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for ITAL 1110.

Prerequisite(s): grade of C or higher in ITAL 1010, or permission of the School.

Four hours a week.

ITAL 1110 [1.0 credit]**Intensive First-Year Italian**

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for ITAL 1010 and ITAL 1020.

Eight hours a week (one term).

ITAL 2010 [0.5 credit]**Second-Year Italian I**

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ITAL 2110.

Prerequisite(s): grade of C or higher in ITAL 1020 or ITAL 1110, or permission of the School.

Four hours a week.

ITAL 2020 [0.5 credit]**Second-Year Italian II**

Continuation of second-year Italian. Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ITAL 2110.

Prerequisite(s): grade of C or higher in ITAL 2010, or permission of the School.

Four hours a week.

ITAL 2110 [1.0 credit]**Intensive Second-Year Italian**

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ITAL 2010 or ITAL 2020.

Prerequisite(s): grade of C or higher in ITAL 1020, ITAL 1110, or permission of the School.

Eight hours a week (one term).

ITAL 3110 [1.0 credit]**Intensive Third-Year Italian**

Further study of Italian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in ITAL 2000 (no longer offered), ITAL 2020, ITAL 2110, or permission of the School.

Six hours a week (one term).

ITAL 4110 [1.0 credit]**Intensive Fourth-Year Italian**

Advanced spoken and written Italian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Prerequisite(s): grade of C or higher in ITAL 3110, or permission of the School.

Six hours a week (one term).

ITAL 4900 [1.0 credit]**Independent Study**

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

ITAL 4901 [0.5 credit]**Independent Study**

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

Japanese (JAPA)

Japanese (JAPA) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

JAPA 1010 [0.5 credit]**First-Year Japanese I**

For students with no knowledge of Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1110.

Four hours a week.

JAPA 1020 [0.5 credit]**First-Year Japanese II**

Continuation of first-year Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1110.

Prerequisite(s): grade of C or higher in JAPA 1010, or permission of the School.

Four hours a week.

JAPA 1110 [1.0 credit]**Intensive First-Year Japanese**

For students with no knowledge of Japanese. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for JAPA 1010 and JAPA 1020.

Eight hours a week (one term).

JAPA 2110 [1.0 credit]**Intensive Second-Year Japanese**

Further study of Japanese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 1020 or JAPA 1110, or permission of the School.

Eight hours a week (one term).

JAPA 3010 [0.5 credit]**Third-Year Japanese I**

Further study of Japanese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies.

Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 2110, or permission of the School.

Three hours a week.

JAPA 3011 [0.5 credit]**Reading in Japanese – Kanji I**

Intended for students taking JAPA 3010 and those who want to learn kanji in depth and become proficient in reading various Japanese texts. The course is intended primarily for students who do not use Chinese characters in their first language.

Prerequisite(s): grade of C or higher in JAPA 2110 or permission of the School.

Three hours a week.

JAPA 3020 [0.5 credit]**Third-Year Japanese II**

Continuation of third-year Japanese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 3010, or permission of the School.

Three hours a week.

JAPA 3021 [0.5 credit]**Reading in Japanese – Kanji II**

A continuation of Reading in Japanese – Kanji I. Further development of reading skills in Japanese. Intended primarily for students who do not use Chinese characters in their first language.

Prerequisite(s): grade of C or higher in JAPA 3011 or permission of the School.

Three hours a week.

JAPA 4010 [0.5 credit]**Fourth-Year Japanese I**

Development of speaking and writing abilities more complex than those used in daily communication.

Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 3020, or permission of the School.

Three hours a week.

JAPA 4020 [0.5 credit]**Fourth-Year Japanese II**

Continuation of fourth-year Japanese. Further development of speaking and writing abilities more complex than those used in daily communication.

Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in JAPA 4010, or permission of the School.

Three hours a week.

JAPA 4210 [0.5 credit]**Functional Contemporary Japanese I**

Further study of Japanese to reach a more advanced level, aimed at developing speaking and writing abilities more complex than those used in daily communication.

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in JAPA 4020 or permission of the School.

Three hours a week.

JAPA 4220 [0.5 credit]**Functional Contemporary Japanese II**

Continuation of JAPA 4210. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Prerequisite(s): grade of C or higher in JAPA 4210 or permission of the School.

Three hours a week.

JAPA 4900 [1.0 credit]**Independent Study**

Research in a topic in Japanese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, a grade of C or higher in JAPA 4020 or equivalent, or permission of the School.

JAPA 4901 [0.5 credit]**Independent Study**

Research in a topic in Japanese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, JAPA 4020 or equivalent, or permission of the School.

Journalism (JOUR)

Journalism (JOUR) Courses**JOUR 1001 [0.5 credit]****Foundations of Journalism: Journalism in Context**

This course charts a history of the fourth estate in the West from the invention of the printing press to the ascendance of networked digital communication, focusing on the political, economic and technological contexts that have shaped the news media as institutions and industries.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1002 [0.5 credit]**Foundations of Journalism: Journalism in Practice**

The course introduces students to the concepts, issues and challenges in the contemporary Canadian media environment that will shape their professional role as practicing journalists. It will also provide students with an initial opportunity to practice some basic journalistic skills.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1000.

Prerequisite(s): for Journalism Honours students only.

Lectures and discussion three hours a week.

JOUR 1003 [0.5 credit]**Discovering Journalism: Traditional Tales to Tweets**

Journalism's evolution as community creator and guardian of democracy; its greatest scoops and worst misdeeds. From ancient news-sharing to 21st-century expression in blogs, tweets and investigative masterpieces, this course surveys ethical, political and economic contexts of journalism. Not open to Journalism majors.

Lecture three hours a week.

JOUR 2003 [0.5 credit]**Delivering Journalism: Innovators v. Imposters**

Activists, imposters and innovators increasingly crowd in on traditional journalism's role of presenting reliable news and fair discussion. How is public awareness now shaped – and misshaped – and how must journalism reshape, update and defend its borders to serve communities better?.

Prerequisite(s): JOUR 1001, JOUR 1002, JOUR 1003, or permission of the School of Journalism and Communication.

Lecture and discussion three hours a week.

JOUR 2106 [0.5 credit]**The Documentary**

Examination of the work of individual film makers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered. Also listed as FILM 2106.

Precludes additional credit for JOUR 2105, FILM 2105.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

JOUR 2201 [1.0 credit]**Fundamentals of Reporting**

Introduction to the techniques journalists use to gather information quickly, accurately and ethically, and to present reports and features in clear, engaging ways. Newsroom exercises provide experience in reporting, writing, editing and using digital tools, including photography and social media.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Lectures, discussion and practicum six hours a week.

JOUR 2202 [0.5 credit]**Digital Journalism Toolkit**

An introduction to the digital tools and social media journalists use to gather, verify and present material to audiences. Lab exercises provide experience producing photographs, audio, and video for journalistic storytelling and the use of social media tools and platforms for reporting and publishing.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program.

Students must be enrolled in this course concurrently with JOUR 2201.

Lectures and lab three hours a week.

JOUR 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): JOUR 1001, JOUR 1002, COMS 1001, COMS 1002, or JOUR 1003 and enrollment in the Minor in News Media and Information, or enrollment in the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management, or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

JOUR 3105 [0.5 credit]**Questions of Documentary Practice**

Theoretical implications of documentary film and documentary television practice.

Also listed as FILM 3105.

Prerequisite(s): 1.0 credit in Film Studies at the 2000-level, or permission of the School.

JOUR 3207 [0.5 credit]**Audio Journalism**

In this workshop students will build on the principles and practices of audio journalism to produce stories and audio in various formats suitable for radio and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3208 [0.5 credit]**Video Journalism**

In this workshop students will build on the principles and practices of video journalism to produce stories and video in various formats suitable for television and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3225 [0.5 credit]**Reporting in Depth**

Long-form journalistic writing skills development; techniques for thorough investigation of timely public issues. Study of outstanding feature and investigative writing examples. Students will pursue their own reporting projects.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and practicum three hours a week.

JOUR 3235 [0.5 credit]**Digital Journalism**

Further development of digital journalism skills. Students will produce journalism for online audiences using formats including written and spoken language, still and moving images.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each.

Lectures and labs three hours a week.

JOUR 3300 [0.5 credit]**Media Ethics in a Digital World**

Ethical issues related to production and dissemination of news and other forms of content as they relate to digital environments. Different approaches to ethical decision-making and their application in contemporary settings. Also listed as MPAD 3300.

Precludes additional credit for JOUR 3215 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202 and JOUR 2501 with a grade of C or higher in each, or JOUR 1003, JOUR 2003 and JOUR 2501 with a grade of C or higher in each and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

JOUR 3400 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3401 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3402 [0.5 credit]**Selected Topic in Journalism**

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3407 [0.5 credit]**Comparative Media Studies**

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as COMS 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): third-year standing in B.J. Hons. or permission of the School of Journalism and Communication.

Lectures three hours a week.

JOUR 4001 [0.5 credit]**Journalism Now - and Next**

Changes occurring in the media, in the public's relationship with the media and how journalists and news organizations respond. Practical issues and challenges in the professional life of a journalist.

Also listed as MPAD 4001.

Precludes additional credit for JOUR 4000 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Journalism or in the Bachelor of Media Production and Design, or fourth-year standing and enrollment in the Minor in News Media and Information, or fourth-year standing in the Strategic Public Opinion stream of the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management.

Lectures and discussion three hours a week.

JOUR 4003 [0.5 credit]**The Digital Hub: Advanced Multimedia**

A workshop designed to give students instruction in digital reporting and publishing as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3235 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5003, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4004 [0.5 credit]**The Digital Hub: Advanced Audio**

A workshop designed to give students instruction in audio journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4206 (no longer offered).

Prerequisite(s): JOUR 3207 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5004, for which additional credit is precluded.

Workshops averaging eight hours per week.

JOUR 4005 [0.5 credit]**The Digital Hub: Advanced Video**

A workshop designed to give students instruction in video journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4207 (no longer offered).

Prerequisite(s): JOUR 3208 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5005, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4100 [0.5 credit]**Special Topic**

Examination of a topic in journalism not covered in depth in other courses. Seminar three hours a week.

Seminar three hours a week.

JOUR 4101 [0.5 credit]**Special Topic**

An examination of a topic in journalism not covered in depth in other courses. Topics may vary from year to year. Seminar three hours a week.

JOUR 4300 [0.5 credit]**Specialized Journalism: Special Topic**

Examination of a topic not covered in depth in other specialized journalism courses. Topics may vary from year to year. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Also listed as MPAD 4300.

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5300, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4301 [0.5 credit]**Specialized Journalism: Business and the Markets**

Core skills development for business journalism: reading financial documents, covering activities of corporations, functioning of stock and other markets, trade policy and the broader economy, focus on contemporary business news and local publicly-traded companies. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5301, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4302 [0.5 credit]**Specialized Journalism: Business and Canadian Society**

The intersection between business and public policy, from climate change to taxation, pensions, labour and corporate social responsibility. What business does and how the media covers it. Emphasis on explanatory/analytical reporting, production of a related data project as an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5302, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4303 [0.5 credit]**Specialized Journalism: Health and Science**

The culture of health science research and major trends; key challenges confronting researchers and health science journalists around the world. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5303, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4304 [0.5 credit]**Specialized Journalism: Environment and Science**

Major trends and research culture in climate and environmental sciences, focusing on key global concerns. Issues facing researchers and journalists. Focus on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5304, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4305 [0.5 credit]**Specialized Journalism: Canada and the U.S.**

Exploration of the unique issues in Canada-U.S. relations, from diplomacy to trade. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5315, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4306 [0.5 credit]**Specialized Journalism: Canada and the World**

Diplomacy, war, terrorism, migration, the international economy, development and other issues of interest to journalists who want to write about Canada and international affairs. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5306, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4308 [0.5 credit]**Specialized Journalism: Sports and Sport Culture**

Workshop equipping students with the skills to move beyond the clichés of sports writing and live event coverage. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5308, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4309 [0.5 credit]**Specialized Journalism: Arts and Culture**

Students are introduced to arts and culture journalism, exploring issues and trends that are key to understanding and covering the arts and related cultural policy in Canada. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5309, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4310 [0.5 credit]**Specialized Journalism: Justice and the Law**

Areas of law that journalists may encounter along with a practical explanation of how law works. Students gain the language and tools needed to successfully analyze and write about legal issues. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5310, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4311 [0.5 credit]**Specialized Journalism: Justice and Journalists**

Examination of the Supreme Court of Canada, and the role of journalists in covering it. Students attend hearings and gain insight into the court's role in the making and shaping of Canada. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5311, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4400 [0.5 credit]**Professional Skills: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in B.J. Honours or permission of the School.

Seminar three hours a week.

JOUR 4401 [0.5 credit]**Professional Skills: Data Storytelling**

Instruction in telling stories from data. Focus on searching for, analyzing and mapping data, turning numbers into powerful narratives.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4402 [0.5 credit]**Professional Skills: Longform Writing**

Instruction in longform story production. Focus on researching and writing, including the art and craft of writing for magazines.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4403 [0.5 credit]**Professional Skills: Strategic Communication**

Workshop pairing student teams with non-profit groups that are in need of strategic communication advice.

Instruction in planning and implementation.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4404 [0.5 credit]**Professional Skills: Freelancing for Media Professionals**

Workshop preparing students to compete in a market that values the skills and mindset of entrepreneurial media workers.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4500 [0.5 credit]**Investigating Journalism: Special Topic**

Examination of a topic in journalism not covered in depth in other courses.

Also listed as MPAD 4500.

Prerequisite(s): third- or fourth-year standing in B.J. Honours or permission of the School.

Seminar three hours a week.

JOUR 4501 [0.5 credit]**Investigating Journalism: Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis. Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as MPAD 4501.

Precludes additional credit for JOUR 4307 (no longer offered).

Prerequisite(s): third- or fourth-year standing in B.J. Hons. or permission of the School.

Seminar three hours a week.

JOUR 4502 [0.5 credit]**Investigating Journalism: Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as MPAD 4502.

Prerequisite(s): fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4503 [0.5 credit]**Investigating Journalism: Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous peoples in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as MPAD 4503.

Prerequisite(s): third- or fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4504 [0.5 credit]**Investigating Journalism: The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda?.

Includes: Experiential Learning Activity

Also listed as MPAD 4504.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 4505 [1.0 credit]**Investigating Journalism: The Power and Politics of Government**

In-depth exploration of Canada's government, public policy and politics; parliamentary debate and committee hearings. Explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4201 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4900 [1.0 credit]**Honours Tutorial**

Students analyze some major achievements in contemporary journalism, through individual or group research. Students also have the opportunity to acquire background and experience in the managerial aspects and production of print and broadcast journalism.

Prerequisite(s): fourth-year B.J. (Honours) standing.

Korean (KORE)

Korean (KORE) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

KORE 1010 [0.5 credit]**First-Year Korean I**

For students with no knowledge of Korean. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for LANG 1010, when the language of instruction was Korean.

Four hours a week.

KORE 1020 [0.5 credit]**First-Year Korean II**

Continuation of first-year Korean. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for LANG 1020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1010, or in LANG 1010 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2010 [0.5 credit]**Second-Year Korean I**

Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2010, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1020, or in LANG 1020 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2020 [0.5 credit]**Second-Year Korean II**

Continuation of second-year Korean. Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 2010, or in LANG 2010 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 3010 [0.5 credit]**Third-Year Korean I**

Continuation of the study of Korean to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009 (when the language of instruction was Korean).

Prerequisite(s): grade of C or higher in KORE 2020 or LANG 2020 (if taken in winter 2017), or permission of the School.

Seminar three hours a week.

KORE 3020 [0.5 credit]**Third-Year Korean II**

Continuation of third-year Korean. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009 (when the language of instruction was Korean).

Prerequisite(s): grade of C or higher in KORE 3010, or permission of the School.

Seminar three hours a week.

KORE 4010 [0.5 credit]**Fourth-Year Korean I**

Development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in KORE 3020, or permission of the School.

Seminar three hours a week.

KORE 4020 [0.5 credit]**Fourth-Year Korean II**

Continuation of Fourth-Year Korean. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains.

Compulsory attendance.

Prerequisite(s): grade of C or higher in KORE 4010, or permission of the School.

Seminar three hours a week.

Language Studies (LANG)

Language Studies (LANG) Courses

Placement for Language Students

Note: a placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

LANG 1010 [0.5 credit]**Introduction to a Language I**

Introductory study of a selected language. Oral skills; basic reading and writing skills. The language taught will vary from year to year. Compulsory attendance.

Precludes additional credit for LANG 1110 (when offered in the same language).

Seminars four hours a week.

LANG 1020 [0.5 credit]**Introduction to a Language II**

Continuation of LANG 1010. Oral skills; basic reading and writing skills. Compulsory attendance.

Precludes additional credit for LANG 1110 (when offered in the same language).

Prerequisite(s): grade of C or higher in LANG 1010, or permission of the School.

Seminars four hours a week.

LANG 1110 [1.0 credit]**Intensive Introduction to a Language**

Introductory study of a selected language. Oral skills; basic reading and writing skills. The language taught will vary from year to year. Compulsory attendance.

Precludes additional credit for LANG 1010 and LANG 1020, when taken in the same language.

Seminar eight hours a week (one term).

LANG 2010 [0.5 credit]
Second-Year Language I

Further study of a selected language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2110, when taken in the same language.

Prerequisite(s): grade of C or higher in LANG 1020 or LANG 1110, or permission of the School.

Four hours a week.

LANG 2020 [0.5 credit]
Second-Year Language II

Continuation of second-year of a selected language. Further study of this language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2110, when taken in the same language, and LANG 2900.

Prerequisite(s): grade of C or higher in LANG 2010 or permission of the School.

Four hours a week.

LANG 2110 [1.0 credit]
Continuing Intensive Study of a Language

Further study of a selected language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. The language taught will vary from year to year. Compulsory attendance.

Precludes additional credit for LANG 2900, LANG 2010 and LANG 2020 (when offered in the same language).

Prerequisite(s): grade of C or higher in LANG 1020 or LANG 1110, or permission of the School.

Seminars eight hours a week (one term).

LANG 2900 [1.0 credit]
Supervised Autonomous Language Learning

Supervised autonomous language learning in a language for which second-year instruction is not available.

Guidance in compiling a language portfolio (oral and written skills) to document competence equivalent to completion of the 2020 level. Setting learning objectives, selecting materials, developing methods, strategies and learning tools.

Precludes additional credit for LANG 2020, LANG 2110.

Prerequisite(s): grade of C or higher in LANG 1020 or LANG 1110, and permission of the School.

Latin (LATN)

Latin (LATN) Courses

LATN 1005 [0.5 credit]
Introduction to Latin I

A course for beginners in Latin, designed to give students a grasp of basic grammatical forms and vocabulary (with reference to English derivatives) through the reading of continuous Latin.

Includes: Experiential Learning Activity

Lectures and practice periods four hours a week.

LATN 1006 [0.5 credit]
Introduction to Latin II

A course for students with some previous knowledge of the language: study of grammatical forms and constructions; acquisition of reading skills.

Includes: Experiential Learning Activity

Prerequisite(s): LATN 1005 or equivalent.

Lectures and practice periods four hours a week.

LATN 2200 [0.5 credit]
Intermediate Latin I

Further study of the language; introduction to the reading of Latin authors.

Includes: Experiential Learning Activity

Precludes additional credit for LATN 2001.

Prerequisite(s): LATN 1006 or equivalent.

Tutorials three hours a week.

LATN 2201 [0.5 credit]
Intermediate Latin II

Continued study of the language; reading of selected prose and poetry by Latin authors; development of translation skills.

Precludes additional credit for LATN 2001.

Prerequisite(s): LATN 2200 or equivalent.

Tutorials three hours a week.

LATN 3900 [0.5 credit]
Advanced Latin I

Reading and critical discussion of selections from Latin poetry.

Prerequisite(s): LATN 2200, LATN 2201 or equivalent.

Tutorials three hours a week.

LATN 3901 [0.5 credit]
Advanced Latin II

Reading and critical discussion of selections from Latin prose.

Prerequisite(s): LATN 2200, LATN 2201 or equivalent.

Tutorials three hours a week.

LATN 4900 [0.5 credit]
Directed Study

LATN 4901 [0.5 credit]
Directed Study

Latin American and Caribbean Studies (LACS)

Latin American and Caribbean Studies (LACS) Courses

LACS 1001 [0.5 credit]

Introduction to Latin American and Caribbean Studies I

An introduction to the history, culture, societies, and literatures of the region. Students will get a broad overview of the region and will be introduced to the disciplines used to study these societies.

Lectures three hours per week.

LACS 1002 [0.5 credit]

Introduction to Latin American and Caribbean Studies II

An interdisciplinary introduction to the major political, economic, environmental, and geographical issues confronting the region.

Lectures three hours per week.

LACS 4001 [0.5 credit]

Issues in Latin American and Caribbean Studies

An examination of the major issues confronting Latin America and the Caribbean including democratization, economic integration, indigenous and women's movements, human rights, social justice, and political change.

Prerequisite(s): fourth year standing or permission of the Institute.

Seminar three hours per week.

LACS 4819 [0.5 credit]

Latin America and the World

Latin America's changing relations with states, international institutions and non-state actors in the Global North and South. Topics may include security, South-South cooperation, trade, investment and transnational migration and drug trafficking.

Also listed as PSCI 4819.

Prerequisite(s): fourth-year standing or permission from the Institute.

Seminar three hours a week.

Law (LAWS)

Law (LAWS) Courses

Note: some graduate courses may also be open to interested fourth-year students with permission of the Department.

LAWS 1001 [0.5 credit]

Introduction to Legal Studies 1

Introduction to legal studies: concepts, sources, nature and functions of law; historical, cultural and constitutional foundations of Canadian legal system; common and civil law traditions; statutory interpretation; precedent; legal institutions; frameworks for analyzing formal and informal conceptions of law and its role in society.

Precludes additional credit for LAWS 1000 (no longer offered).

Lectures and discussion three hours a week.

LAWS 1002 [0.5 credit]

Introduction to Legal Studies 2

Introduction to legal rules and theoretical approaches for critically understanding the creation, interpretation and enforcement of those rules; the role of judges, juries, lawyers, and lay persons; adjudication and alternative dispute resolution; relationship of law with social change and justice; challenges of access to justice.

Precludes additional credit for LAWS 1000 (no longer offered).

Lectures and discussion three hours a week.

LAWS 2105 [0.5 credit]

Social Justice and Human Rights

Theories and practices of law and social justice. Issues examined may include: civil democracy and repression; global governance and the rule of law; democratic movements and social power; human rights instruments, regimes and remedies; armed conflict; and humanitarian intervention.

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200 or HUMR 1001 [1.0] or PAPM 1000 [1.0].

Lectures three hours a week.

LAWS 2201 [0.5 credit]

Persons and Property

Origins and scope of the concept of person in law and how concepts of legal personality change over time. Origins and scope of the concept of property and how concepts of property change over time.

Precludes additional credit for LAWS 2003 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2202 [0.5 credit]

Obligations

The concepts employed by the law for creating and enforcing legal obligations between persons within society, including contract, tort, fiduciary obligation and restitution. Consideration is given to the role of persons and the role of the state in ordering private legal obligations.

Precludes additional credit for LAWS 2003 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2301 [0.5 credit]**Criminal Justice System**

The institutional and social production of criminal law in Canada. Processes, personnel, and agencies in the criminal legal system. The role of discretion and mechanisms of accountability. The accused and the place of the victim. Issues and problems in sentencing and punishment.

Precludes additional credit for LAWS 2004 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2302 [0.5 credit]**Criminal Law**

The legal and social dimensions of criminal liability and responsibility in Canada, including issues and problems surrounding mens rea, actus reus, and the attachment of liability. Excuses and justifications, the Canadian Criminal Code and the role of the Charter in the criminal legal system.

Precludes additional credit for LAWS 2004 (no longer offered).

Prerequisite(s): LAWS 1001 and LAWS 1002.

Lectures three hours a week.

LAWS 2501 [0.5 credit]**Law, State and Constitution**

Law relating to the state, society and the constitution, with a focus on the historical framework, federalism, and constitutional reform in Canada.

Precludes additional credit for LAWS 2005 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAPM 1000 [1.0].

Lectures three hours a week.

LAWS 2502 [0.5 credit]**Law, State and Citizen**

Law relating to the state and its relationship to individuals and groups in society, with a focus on the administrative process, basic values and the Charter.

Precludes additional credit for LAWS 2005 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAPM 1000 [1.0].

Lectures three hours a week.

LAWS 2601 [0.5 credit]**Public International Law**

Examination of the role of law in contemporary international relations. Nature, history and sources of international law; international personality of states; status of international organizations and individuals; creation and effect of international obligations; importance and functions of law in the settlement of international disputes.

Precludes additional credit for LAWS 3603 (no longer offered).

Prerequisite(s): 1.0 credit from LAWS 1001, LAWS 1002, PSCI 1100, PSCI 1200, or PAPM 1000 [1.0].

Lectures three hours a week.

LAWS 2908 [0.5 credit]**Approaches in Legal Studies I**

Introduction to interdisciplinary research and analysis in law and legal studies; finding and analyzing primary and secondary legal sources; introduction to the interrelationship between theory, practice and research. Students are strongly encouraged to take this course in the second year of their program.

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 1001 and LAWS 1002 or LAWS 1000 (no longer offered).

Lectures and tutorials three hours a week.

LAWS 3001 [0.5 credit]**Women and the Legal Process**

How the legal process has affected the status of women. Areas of concentration within the Canadian context include the criminal law, citizenship and immigration, education, employment, and welfare and social services.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3003 [0.5 credit]**Contracts**

The enforcement of promises and agreements; basic doctrines and underlying principles of the law of contract are studied from formation of the contract to remedies for breach of contract; role of contract for economic and social purposes is also considered.

Prerequisite(s): LAWS 2202 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3005 [0.5 credit]**Law and Regulation**

Definitions and goals of regulation; contemporary theories and debates about legal and non-legal approaches to regulation. Approaches studied may include market mechanisms, public agency regulation, self-regulation and governance in co-operation with associations in civil society.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.

Lectures three hours a week.

LAWS 3006 [0.5 credit]**Mediation**

Theory and practice of mediation; historical roots and influences; contrasts with formal litigation and other dispute resolution processes; issues of social and legal control; critiques, including feminist, Marxist and critical race theory; issues of power, gender, race and class; application to contemporary issues and disputes.

Prerequisite(s): (LAWS 1001 and LAWS 1002) and (1.0 credit in LAWS at the 2000 level or 0.5 credit in LAWS at the 2000 level and BUSI 2601).

Lectures three hours a week.

LAWS 3101 [0.5 credit]**Philosophy of Law: The Nature of Law**

The concept of law, leading theories of law and related concepts such as rules and obligations, power and authority, coercion, and justice.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3102 [0.5 credit]**Philosophy of Law: The Logic of the Law**

Legal reasoning and analysis of concepts of particular significance to the law, including justice, rights and duties, liability, punishment, ownership and possession.

Also listed as PHIL 3102.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3105 [0.5 credit]**Theory of Law and Politics**

Theories of law and politics; prominent thinkers and schools of thought; influence on legal and political institutions. Topics include law and ethics, justice and equity, positivism and natural law, state absolutism, codifications, and anthropological and historical theories of law and society.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level, or 0.5 credit in LAWS at the 2000 level and PSCI 1100.

Lectures three hours a week.

LAWS 3106 [0.5 credit]**Law and Social Regulation**

A study of sociological theories of law as well as the nature of legal institutions. Impacts of legal regulation on various social institutions and on processes of social debate and conflict.

Also listed as SOCI 3480.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3201 [0.5 credit]**Business Enterprise Frameworks**

Forms of carrying on business activity: proprietorships, partnerships, corporations and Crown entities. The rights and obligations of such business enterprises both internally and in relation with other persons. The relationship between legal form and economic function. The role of state intervention.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3202 [0.5 credit]**Intellectual Property**

Critical assessment of copyright, patents, trademarks, trade secrets and other forms of intellectual property; regulation and governance of information technology including self-regulation, standard setting, licensing, competition policy and international dimensions.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.

Lectures three hours a week.

LAWS 3203 [0.5 credit]**The Legal Nature of Property**

An examination of the nature and functions of property as a legal and social institution, with particular reference to theories of property, the scope of property interests, and the relationship between individual property rights and the state.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3205 [0.5 credit]**Consumer Law**

Need for consumer protection in the provision of goods and services; traditional legal protection by statute and common law; legislative responses to consumer pressures; judicial response in recent Canadian, English and American law; reform of consumer law.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3206 [0.5 credit]**Banking Law**

The law relating to banks and banking; the nature of the legal relationship created; legal rights and duties of the parties involved. Consumer and corporate aspects of banking (including computerization and electronic funds transfers); regulations of banking.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3207 [0.5 credit]**International Transactions**

Topics may include: the international sale of goods, finance of transnational transactions, international carriage of goods, insurance, agency and trading houses; other forms of trade, e.g., counter-trade, foreign investment; settlement of international disputes by litigation and arbitration.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3208 [0.5 credit]**International Trade Regulation**

International regulation of trade and investment through bilateral, regional and multilateral treaties and agreements. Topics may include: WTO, NAFTA, the EU, UNCTAD, intergovernmental commodity agreements, dispute settlement.

Prerequisite(s): (0.5 credit from LAWS 2202, LAWS 2501, LAWS 2601, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3209 [0.5 credit]**Canadian Correctional Policies in Historical Perspective**

History of corrections in Canada in the context of the international evolution of western penal systems, Canadian corrections in the twentieth century and expansion of alternatives to prison after WWII; criminological debates about the theoretical and empirical significance of historical milestones in corrections. Prerequisite(s): LAWS 2301 and LAWS 2302. Lectures three hours a week.

LAWS 3303 [0.5 credit]**Torts**

Principles of legal liability for harm caused to the person or property of others; examination of policy rationales justifying and limiting liability; responsiveness to changing social values and conditions. Particular focus on negligence law; may also consider nuisance, intentional torts and other topics. Prerequisite(s): LAWS 2201 and LAWS 2202. Lectures three hours a week.

LAWS 3305 [0.5 credit]**Crime and State in History**

The history of the relationship between the criminal law system and society. Changing issues in the criminal law and the nature of institutional responses, covering medieval to early nineteenth-century England and nineteenth to early twentieth-century Canada. Also listed as HIST 3305. Prerequisite(s): 1.0 credit in LAWS at the 2000 level, or 0.5 credit in LAWS at the 2000 level and 0.5 credit in HIST at the 2000 level. Lectures three hours a week.

LAWS 3306 [0.5 credit]**Crime, Law, Process and Politics**

Criminal law process in Canada; structure and use of the process examined for fairness, defects, and possible reform initiatives. Issues concerning gender, race and class bias in the implementation and application of the criminal law. Prerequisite(s): LAWS 2301 and LAWS 2302. Lectures three hours a week.

LAWS 3307 [0.5 credit]**Youth and Criminal Law**

A review of the Youth Criminal Justice Act within the framework of the Canadian justice system, with particular emphasis on historical and philosophical developments and objectives. Current topics include: constitutional issues, procedure, confessions, transfers, sentencing options, alternative measures, reviews, and possible amendments. Prerequisite(s): LAWS 2301 and LAWS 2302. Lectures three hours a week.

LAWS 3308 [0.5 credit]**Punishment and the Law**

This course explores justifications and practices of punishment and social control from a socio-legal perspective. Rationalizations and justifications for punishment are considered. Different forms of punishment and control within the law will be examined as well as different theoretical perspectives of punishment. Prerequisite(s): LAWS 2301 and 0.5 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3401 [0.5 credit]**Employment Law**

Legal regulation of the employment relationship; its contractual basis; defining employment; rights and duties of employees and employers; termination of employment; statutory regulation through employment standards legislation, human rights codes, workers' compensation acts, occupational health and safety and related statutes. Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3405 [0.5 credit]**Labour Law**

Role of law in industrial relations; effect of law on collective bargaining relationships; recognition of bargaining agent; regulation of bargaining; administration of the collective agreement; methods of conflict resolution. Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3500 [0.5 credit]**Constitutional Law**

An investigation of the Canadian constitution. Sovereignty, the nature and units of executive, legislative, and judicial power in Canada as interpreted by the courts. The distribution of powers under the Canadian constitution, including an investigation of contemporary problems of federalism. Problems of judicial review. Prerequisite(s): (LAWS 2501 or PSCI 2003) and 0.5 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3501 [0.5 credit]**Law in the Information Society**

Legal responses to challenges of the information society. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, control of objectionable content, Charter and human rights issues, and security. Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3502 [0.5 credit]**Regulating Freedom of Expression in Canada**

The claimed relationship between freedom of expression and Canadian democracy, including the historical development of the right and various limits on it, and the regulatory structures governing contemporary media, criminalized and commercial expression, and use of media in the courtroom.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3503 [0.5 credit]**Equality and Discrimination**

Human rights issues and law in Canada; history and present day experiences of discrimination; critical exploration of laws effectiveness in responding to discrimination; meaning(s) of equality and discrimination; focus on Human Rights Codes - interpretation, administration, enforcement with some reference to s.15 of the Charter.

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3504 [0.5 credit]**Law and Aboriginal Peoples**

The legal situation of aboriginal peoples in Canada. Topics include status, aboriginal rights, treaties, legislative jurisdiction and the constitutional framework, aboriginal claims, and self-government. Comparative references to aboriginal policy in other countries.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3506 [0.5 credit]**Administrative Law**

Structure and procedure of Canadian administrative authorities; policy, statutory and judicial environments in which they operate. Topics include techniques for implementing public policy and structuring public authorities; statutory interpretation; procedural safeguards; exercise of statutory discretion; reconciling efficiency and fairness.

Prerequisite(s): LAWS 2502 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3508 [0.5 credit]**Health Law**

Legal/ethical issues in health care regulation. Topics may include: regulation of health professions; economics of health care; informed consent/choice; regulation of drugs, devices and research; medical malpractice and other liability; mental health issues; patient/client records.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3509 [0.5 credit]**The Charter of Rights Topics**

Selected issues in the Canadian Charter of Rights and Freedoms. The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): (0.5 Credit from LAWS 2105, LAWS 2201, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3602 [0.5 credit]**International Human Rights**

The developing international law relating to the protection of human rights. General concepts, rules and institutions.

Specific issues include self-determination, aboriginal rights, the refugee problem, and torture. The inherent problems and overall potential of international law.

Precludes additional credit for LAWS 4604 (no longer offered).

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2502, LAWS 2601 or HUMR 2001) and 0.5 credit in LAWS at the 2000 level or PAMP 1000.

Lectures three hours a week.

LAWS 3604 [0.5 credit]**International Organizations**

Nature, character, legal status and jurisdiction of intergovernmental international organizations. Rights and duties of states arising from membership in international organizations. Distinction between international and supra-national institutions. United Nations system, selected subsidiary organs, and specialized agencies; non-governmental organizations at times of crisis.

Prerequisite(s): LAWS 2601 and 0.5 credit in LAWS at the 2000 level or PAMP 1000.

Lectures three hours a week.

LAWS 3800 [0.5 credit]**Law of Environmental Quality**

Various aspects of environmental law; pollution control, legal actions and remedies; legal foundations for participation in decision-making processes. Social, economic and political forces influencing the formulation and implementation of environmental law. Alternative forms of regulation that may articulate different demands.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3804 [0.5 credit]**Law of the Family**

Legal framework surrounding the family and family relationships in Canadian society. Topics include marriage and cohabitation, matrimonial support, custody and access, and dissolution of marriage. State interventions through law; law and change in family structures; equality issues; dispute resolution processes.

Also listed as SOWK 3804.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3903 [0.5 credit]**Selected Legal Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3904 [0.5 credit]**Selected Legal Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level and permission of Department.

Lectures three hours a week.

LAWS 3908 [0.5 credit]**Approaches in Legal Studies II**

Advanced approaches to interdisciplinary research and analysis in law and legal studies. Emphasis on the important role of theory. Approaches considered will vary by section, and may include theoretical, quantitative, qualitative, literary, or historical approaches.

Prerequisite(s): LAWS 2908 and third-year Honours standing. Honours students are strongly encouraged to take this course in the third year of their program.

Lectures three hours a week.

LAWS 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): registration in the B.A. Honours (concentration in Business Law or concentration in Law, Policy and Government) Cooperative Program, completion of Co-op preparation classes offered by the Co-op office and permission of the Department.

LAWS 4001 [0.5 credit]**Law, Family and Gender**

Relationship between family law and ideology of the family, gender roles and the reproduction of family structures. Social ramifications of family law; potential for family law reform as an agency of social change.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3001 or LAWS 3804, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4002 [0.5 credit]**Feminist Theories of Law**

The literature comprising feminist perspectives on law; theoretical bases of these perspectives; place of feminist theories within other critiques of law; significance of different feminist theories for equality theory and law reform strategies; unique contributions of the various perspectives.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4006 [0.5 credit]**Religion and State in Canada**

Legal nature of the interaction of religion and state within an historical framework. Emphasis on Canada after the Charter of Rights and Freedoms and on religious pluralism and resistance to state intervention in religion. Interdisciplinary readings drawn from legal, historical and theological sources.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4100 [0.5 credit]**Modern Legal Theory**

Realist and post-realist legal scholarship; emphasis on Canadian, American and British approaches. Topics include the Canadian treatise tradition, American legal realism, empirical approaches to legal problems, the sociological movement in law, critical and Canadian feminist legal scholarship, Marxian theories of law, normative economic theory.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4101 [0.5 credit]**Contemporary Justice Theories**

Selected major contemporary theories of justice such as those associated with Rawls, Walzer, and Habermas, with emphasis on both their procedural and substantive elements and their concrete ramifications for law, policy and political practice.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4102 [0.5 credit]**Controversies in Rights Theory**

This course examines selected controversies in rights theories, practices, and/or historiography. Illustrative questions may include: Are rights universal or culturally relative? Can rights be justified after the demise of natural rights philosophy? Do rights undermine difference? Do communities benefit from a rights-based culture?.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4103 [0.5 credit]**Special Topic in the Philosophy of Law**

Detailed study of a special topic in philosophy of law. Also listed as PHIL 4407.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4104 [0.5 credit]**Special Topic in the Philosophy of Law**

Detailed study of a special topic in philosophy of law. Also listed as PHIL 4408.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4105 [0.5 credit]**Global Justice Theory**

Selected theories of global justice as they pertain to legality, which may include questions such as the justice of military force and just war theory, global social justice and global inequality, sovereignty and cosmopolitan conceptions of justice, demands for global democracy and human rights.

Prerequisite(s): LAWS 2105, LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4106 [0.5 credit]**Law and Violence**

Examination of how law defines, justifies, and addresses individual, collective and state violence: contemporary and historical case studies; theoretical inquiries into the relationship between law, legality and different forms of violence.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4107 [0.5 credit]**Law in Modern Society**

Sociological and legal theory accounts of the changing role and function of law in modern society with particular reference to advanced capitalist societies. Topics include: the welfare state and the use of regulatory law; juridification and legalization; counter-trends, deregulation, informalism, legal pluralism.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4200 [0.5 credit]**International Economic Law**

Selected topics in international economic law. May include: the legal regulation of international economic activity; methods of dispute settlement; standardization and development of an autonomous international trade law; and selected conventions and institutions governing international economic law.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3207 or LAWS 3208, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4202 [0.5 credit]**Accountability of Management**

Role, function, and legal regulation of persons managing business enterprises. Status, social responsibility, fiduciary obligations and rights. Control and accountability of managers, obligations owed to the enterprise unit itself, constitutional rights of members, standards imposed by statutory regulation.

Prerequisite(s): LAWS 2908, LAWS 3201 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4204 [0.5 credit]**Legal Issues in eCommerce**

An examination of selected legal topics relevant to the conduct of electronic commerce. Topics include types of regulation, government support, jurisdiction challenges, contract disputes and consumer protection. Court and alternative dispute resolution policy of Domain Names challenges are also included.

Prerequisite(s): LAWS 2908, LAWS 2201, LAWS 2202 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4209 [0.5 credit]**Topics in Business Law**

Examination of a selected advanced topic in business law. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 2201 or LAWS 2202, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4302 [0.5 credit]**Regulation of Corporate Crime**

Legal, policy and theoretical perspectives on the regulation of corporate crime. Nature and causes of corporate crime. Selected case studies on the role of the state in regulating corporate behaviour. Failure of the criminal justice system to respond to corporate crime.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4303 [0.5 credit]**Drugs, The User and The State**

This course explores the state's attempts to control drugs and drug users by exploring different aspects of national and international drug control. The Canadian experience of drug control, viewed from different perspectives, will be explored within a broader socio-legal context.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4304 [0.5 credit]**Policing and Social Surveillance**

Theoretical consideration of the emergence and transformation of “policing” activities through an examination of law and changes in social relations, with special attention to the myriad agencies involved in contemporary security provision. Evolving notions of risk, surveillance, the state, and the private-public dichotomy. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4305 [0.5 credit]**Criminal Justice Reform**

Social transformation and criminal justice reform. Theoretical and practical reasons for the use of criminal law as an instrument of social control. Specific reform initiatives and processes. Alternate responses to social problems. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4306 [0.5 credit]**Criminal Law Issues**

Selected issues and problems in the area of criminal law. The topics may vary from year to year depending on demand and interest and are announced in advance of registration. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4307 [0.5 credit]**Medical Criminal Law Issues**

Legal-medical issues, conflicts and relationships in the field of social control. Topics include mental disorder and criminal liability, diversion of offenders to civil commitment in hospital, insanity, automatism, fitness to stand trial, prediction of dangerousness, regulation of psychoactive drugs. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4308 [0.5 credit]**Sentencing**

Theories of sentencing, current sentencing laws and practices, perceptions of sentencing. Data on sentencing practice across Canada. Reforms in other jurisdictions. Critical review of the Canadian Sentencing Commission. Multidisciplinary approach using research and theory in law, criminology, social psychology and sociology. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4309 [0.5 credit]**State Security and Dissent**

Historical and contemporary analysis of legal responses of Canadian governments to dissent, political opposition, insurrection, etc. Includes trial of political offences (treason, sedition, riot), national security measures (War Measures/Emergencies Act, Official Secrets Act), and other special powers (police, labour, immigration, parliamentary privilege, etc.). Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and 0.5 credit from LAWS 3305, LAWS 3503, LAWS 3509, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4311 [0.5 credit]**Human Rights in Canadian Prisons**

Correctional law in the Canadian criminal justice system; competing objectives of punishment and rehabilitation in the context of respect for the rule of law and human rights; protection of human rights of prisoners in Canada and in international and comparative contexts. Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4402 [0.5 credit]**Employment Dispute Resolution**

Theory and practice of dispute resolution in employment relations; analysis of such techniques as negotiation, grievance and interest arbitration, mediation, investigation and litigation applied to a range of employment disputes such as collective agreements, termination of employment, discrimination, harassment, occupational health and safety,. Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3006, LAWS 3401, LAWS 3405, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4503 [0.5 credit]**Law, Disability and Society**

Exploration of the ways in which law promotes or hinders the inclusion of disabled persons in society. Consideration of different theories of 'disability' and the creation of barriers faced by disabled persons. Topics may include barriers affecting education, employment, transportation, benefits, and life/death decisions. Prerequisite(s): LAWS 2908 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4504 [0.5 credit]**Indigenous Criminal Justice**

Indigenous peoples and the administration of Canadian criminal justice including policing, courts, corrections and aftercare. Content and effects of past and present policies, processes and laws. Alternatives such as self-government and self-determination; potential approaches to an appropriate justice system for Indigenous peoples.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4507 [0.5 credit]**Administrative Law and Control**

Examination of characteristics and selected problems of control of administrative action. Topics include: varieties of traditional and constitutional, legal and judicial control, impact of the Charter, reforms to administrative law control systems in Canada, and comparisons with developments outside Canada.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3005 or LAWS 3506, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4510 [0.5 credit]**Topics in Law, Policy and Government**

Examination of a selected advanced topic in the area of law, policy and government. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2501, LAWS 2502, LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4601 [0.5 credit]**Transnational Law and Human Rights**

Examination of the role of law in addressing human rights issues that transcend traditional categories of domestic and international law; the potential and limits of law in addressing human rights issues; the growth of transnational approaches to law and human rights.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3503 or LAWS 3602, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4603 [0.5 credit]**Transitional Justice**

Legal and ethical responses to human rights violations in the transition to democracy. Dilemmas of the rule of law; truth and reconciliation; prosecution and punishment; amnesty; retribution and revenge; restorative justice; administrative remedy; reparations; International case studies. Theoretical arguments about justice in context of country.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4605 [0.5 credit]**Topics in International Law**

Topics vary from year to year and are announced in advance. May include transnational environmental issues; the international law of armed conflict, peacekeeping and neutrality; the law of international treaties and transnational agreements; state responsibility under international law.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4606 [0.5 credit]**International Law of Armed Conflict**

UN Charter prohibition of the use of force. Exceptional, permissible uses of armed force. Role of Security Council in determining legality of armed intervention. Collective security, peacemaking, peacekeeping, neutrality, prohibited means of warfare. Humanitarian International Law, Geneva Red Cross Conventions, war crimes, International Criminal Court.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4607 [0.5 credit]**Immigration and Refugee Law**

Immigrants and refugees; demographics; Canadian, international and human rights law and policy. The Canadian Immigration Act. Legal and social problems including entry and removal, family reunion, citizenship, remedies, the rights of clandestine migrants; settlement rights; non-discrimination; asylum; a nation's right to determine membership.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2502 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4610 [0.5 credit]**Special Topics in Transnational Law and Human Rights**

Examination of a selected advanced topic in the area of transnational law and human rights. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4701 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced well in advance of registration each year. This course is part of the Summer School in Criminal Justice and Social Policy and is offered by the Department of Law.

Also listed as SOWK 4701.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4702 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced.

Also listed as SOWK 4702 and SOCI 4702.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4703 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced well in advance of registration each year. This course is part of the Summer School in Criminal Justice and Social Policy and is offered by the School of Social Work.

Also listed as SOWK 4703.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4800 [0.5 credit]**Environment and Social Justice**

The potential of environmental law to protect the environment and people while promoting opportunities for informed participation in environmental decision making by groups traditionally excluded from these processes; contemporary issues of social justice raised by legal regulation of the environment.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4801 [0.5 credit]**Risk and the Legal Process**

Application of risk assessment and management in various legal arenas including insurance, liability and tort, litigation management, environmental protection, and sentencing and parole.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4802 [0.5 credit]**Criminal Jury Trials**

Critical analysis of the criminal jury system including its history and context, the role of the judge, jury dynamics and jury composition. Perspectives and roles of the accused, victims, police, defence counsel, Crown attorney, judges, juries, media, politicians and the public.

Prerequisite(s): LAWS 2908, CRCJ 3001 or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4901 [0.5 credit]**Tutorial in Law**

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department).

Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

LAWS 4902 [0.5 credit]**Tutorial in Law**

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department).

Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor.

Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

LAWS 4903 [0.5 credit]**Advanced Legal Topics**

The topics of this course vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4904 [0.5 credit]**Advanced Legal Topics**

The topics of this course vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908, fourth-year Honours standing, and permission of Department.

Seminars three hours a week.

LAWS 4905 [1.0 credit]**Full-Year Service Learning Placement**

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization.

Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4906 [0.5 credit]**Service Learning Placement**

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization. Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4908 [1.0 credit]**Honours Paper**

Students in the BA Honours Law program may write an Honours paper under the supervision of a faculty member of the Department of Law (guidelines are posted by the Department). Students intending to undertake graduate studies are encouraged to complete an Honours paper.

Includes: Experiential Learning Activity

Prerequisite(s): LAWS 3908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher and written acceptance by a faculty member. Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

Linguistics (LING)

Linguistics (LING) Courses**LING 1001 [0.5 credit]****Introduction to Linguistics I**

Nature of language and linguistic knowledge. Formal description and analysis of language: phonetics, phonology, morphology, syntax and semantics.

Precludes additional credit for LALS 1000 and LALS 1001 (no longer offered).

Lecture and tutorial three hours a week.

LING 1002 [0.5 credit]**Introduction to Linguistics II**

Survey of topics in linguistics: language change, sociolinguistics, language acquisition and processing. May include language typology, language contact and writing systems.

Prerequisite(s): LING 1001 (may be taken concurrently).

Lectures three hours a week.

LING 1100 [0.5 credit]**The Mysteries of Language**

This course explores some intriguing mysteries of language - whether it is unique to humans, how children master its complexities so easily, how the brain handles language, how languages are born and die. These questions lead us to interesting discoveries about the human mind.

Precludes additional credit for LALS 1100 (no longer offered).

Lectures three hours a week.

LING 2005 [0.5 credit]**Linguistic Analysis**

Phonological, morphological and syntactic analysis of linguistic data. Coursework consists primarily of practical exercises in data analysis.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2003 (no longer offered) or LALS 2005 (no longer offered).

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2007 [0.5 credit]**Phonetics**

Description of speech sounds; transcription systems; articulation; acoustics of speech sounds; perception of speech sounds; cross-linguistic diversity and phonetic universals; the role of phonetics in grammar.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 2001/LING 2001 (no longer offered), and LALS 3001 if taken prior to 2004.

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2504 [0.5 credit]**Language and Communication**

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. Topics include: the nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as PHIL 2504, COMS 2504.

Precludes additional credit for LALS 2504, LALS 2800 [1.0], MCOM 2504, MCOM 2800 [1.0], and PHIL 2800 [1.0].

Prerequisite(s): second-year standing.

Lectures three hours a week.

LING 2604 [0.5 credit]**Communication Disorders I**

A survey course highlighting congenital, developmental and acquired disorders of speech, language, fluency, hearing and voice; prevalence, current research, assessment and intervention approaches for each disorder will be presented.

Also listed as ALDS 2604.

Precludes additional credit for LALS 2604 (no longer offered).

Prerequisite(s): second year standing or permission of the instructor.

Lectures three hours a week.

LING 2802 [0.5 credit]**History of the English Language**

A historical study of the English language, its structure, variety, and cultural contexts, with an introduction to grammatical terminology and constructions.

Also listed as ENGL 2105.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

LING 3004 [0.5 credit]**Syntax I**

Introduction to syntactic theory. Representation and analysis of sentence structure, syntactic relations and syntactic dependencies. Testing of grammatical hypotheses.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3004 (no longer offered).

Prerequisite(s): LING 2005.

Lecture and tutorial three hours a week.

LING 3005 [0.5 credit]**Morphology I**

Introduction to word structure and morphological theory. Topics include inflectional and derivational morphology, morphological processes, and interaction of morphology with phonology and syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3005 (no longer offered).

Prerequisite(s): LING 2005 and LING 2007.

Lectures three hours a week.

LING 3007 [0.5 credit]**Phonology I**

The sound-systems of languages, analysis of phonological structure; generative phonology; phonological rules and derivations; cross-linguistic diversity and universals; segmental phonology; stress; tone.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 3002/LING 3002 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2007.

Lecture and tutorial three hours a week.

LING 3009 [0.5 credit]**Special Topic in Linguistics**

Selected topics in general linguistics not ordinarily treated in the regular course program. Contents of the course vary from year to year.

Lectures and discussion three hours per week.

LING 3504 [0.5 credit]**Pragmatics**

The study of language in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as PHIL 3504.

Precludes additional credit for LALS 2800 [1.0], LALS 3504, MCOM 3504, MCOM 2800 [1.0], and PHIL 2800 [1.0].

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/COMM 2504/LING 2504 or PHIL 3506, or LING 3505 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3505 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as PHIL 3506.

Precludes additional credit for LALS 3505 (no longer offered).

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/LING 2504/COMM 2504 or PHIL 3504/LING 3504, or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3601 [0.5 credit]**Language Processing and the Brain**

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as PSYC 3709.

Precludes additional credit for LALS 2601 and LALS 3601 (no longer offered).

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3603 [0.5 credit]**Child Language**

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as PSYC 3508.

Prerequisite(s): LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3604 [0.5 credit]**Communication Disorders II**

In-depth evaluation of current psycholinguistic models of processes underlying communication disorders and the biomedical support for such models. Emphasis on contrasting developmental disorders with acquired disorders. Additional exploration of other modalities (sign language, reading).

Also listed as ALDS 3604.

Precludes additional credit for LING 3009 Section "A", if taken Winter 2013.

Prerequisite(s): LING 2604.

Lectures three hours a week.

LING 3701 [0.5 credit]**Corpus Linguistics**

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as ALDS 3701.

Precludes additional credit for LALS 3701 (no longer offered).

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

LING 3702 [0.5 credit]**Sociolinguistics**

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as ALDS 3202.

Precludes additional credit for LALS 2701 and ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing.

Lecture three hours a week.

LING 3801 [0.5 credit]**Structure of a Specific Language**

Description and analysis of the structure of a specific language applying phonology, morphology, syntax, and semantics. Language to be studied will be announced in advance by the School.

Precludes additional credit for LALS 3801 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2005 or LING 2007.

Lectures three hours a week.

LING 3810 [0.5 credit]**Historical Linguistics I**

Language change; sound change; analogy; the comparative method; internal reconstruction; the philological method; historical linguistics and pre-history; language change and theories of grammar.

Precludes additional credit for LING 3101.

Prerequisite(s): LING 2007.

Lectures three hours a week.

LING 3811 [0.5 credit]**Language Typology and Universals**

Cross-linguistic survey of syntactic and morphological patterns found in the languages of the world. Typological classification and identification of language universals.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3001.

Prerequisite(s): LING 2005.

Lectures three hours a week.

LING 3900 [1.0 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 3901 [0.5 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

LING 4004 [0.5 credit]**Syntax II**

Advanced topics in syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4002/LING 4002 (no longer offered).

Prerequisite(s): LING 3004 or permission of the instructor.

Seminars three hours a week.

LING 4005 [0.5 credit]**Morphology II**

Advanced topics in morphology.
Includes: Experiential Learning Activity
Prerequisite(s): LING 3005.
Seminars three hours a week.

LING 4007 [0.5 credit]**Phonology II**

Advanced topics in phonology.
Includes: Experiential Learning Activity
Precludes additional credit for LALS 4001/LING 4001 (no longer offered).
Prerequisite(s): LING 3002 (no longer offered), or LING 3007, or permission of the instructor.
Seminars three hours a week.

LING 4009 [0.5 credit]**Special Topic in Linguistics**

Examination of a topic or more specialized area in linguistics or language study. Topic to be announced.
Prerequisite(s): third- or fourth-year standing in Linguistics or permission of the instructor. This course is repeatable for credit when the topic changes.
Also offered at the graduate level, with different requirements, as LING 5009, for which additional credit is precluded.
Seminars three hours a week.

LING 4412 [0.5 credit]**Diversité du français**

Études des variétés du français, dans ses dimensions spatiales. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English.
Also listed as FREN 4412.
Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.
Seminars three hours a week.

LING 4413 [0.5 credit]**Diachronie du français**

Étude du français, dans ses dimensions historiques.
Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English.
Also listed as FREN 4413.
Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.
Seminars three hours a week.

LING 4414 [0.5 credit]**Analyse du français**

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails.
Course is taught in French, but students will submit written assignments in English.
Also listed as FREN 4414.
Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.
Seminars three hours a week.

LING 4415 [0.5 credit]**Variation du français**

Étude des variations internes de la langue, dans des dimensions orales/écrites. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students submit assignments in English.
Also listed as FREN 4415.
Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.
Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.
Seminars three hours a week.

LING 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.
Includes: Experiential Learning Activity
Also listed as PHIL 4505.
Precludes additional credit for LALS 4507 (no longer offered).
Prerequisite(s): LING 3505 or PHIL 3506 or permission of the Department of Philosophy or School of Linguistics and Language Studies.
Seminars three hours a week.

LING 4510 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Includes: Experiential Learning Activity

Also listed as PHIL 4055.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506.

Also offered at the graduate level, with different requirements, as LING 5510, for which additional credit is precluded.

Seminar three hours a week.

LING 4601 [0.5 credit]**Cognitive Neuroscience of Language**

Further study of psychological and neurolinguistic mechanisms of adult language processing. May include topics from first language acquisition.

Includes: Experiential Learning Activity

Precludes additional credit for LALS 4601 (no longer offered).

Prerequisite(s): LING 3601 or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5601, for which additional credit is precluded.

Seminars three hours a week.

LING 4603 [0.5 credit]**First Language Acquisition**

Advanced topics in language acquisition and development and the relative contributions of the environment, cognitive development, and inborn knowledge.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3603.

Also offered at the graduate level, with different requirements, as LING 5603, for which additional credit is precluded.

Seminars three hours a week.

LING 4604 [0.5 credit]**Practicum in Speech Language Pathology**

Through seven-hour-a-week field placements, students pursue personal learning objectives concerning the clinical application of the psycholinguistics of communication disorders and cognitive development. A term paper integrates experiential knowledge gained in the placement with theoretical and empirical knowledge gained from the student's program of study.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3604, fourth-year Honours standing in B.A. or B.Sc. in Linguistics with a Concentration in Psycholinguistics and Communication Disorders with a CGPA of 10.0 in the major, and permission from the School of Linguistics and Language Studies.

Field placement one day a week.

LING 4605 [0.5 credit]**Psycholinguistic Research Methods**

Experimental methodologies used in current psycholinguistic studies. Topics include experimental design and techniques, descriptive statistics, and interpreting and reporting research findings.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4009 Section "A" (2015-16 and 2016-17) and LING 4009 Section "B" (2013-14) and LING 4009 Section "C" (2017-18).

Prerequisite(s): third- or fourth-year Honours standing in Linguistics or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5605, for which additional credit is precluded.

Seminar three hours a week.

LING 4606 [0.5 credit]**Statistics for Language Research**

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as ALDS 4606.

Precludes additional credit for ALDS 4906/LING 4009 Section "B" if taken Winter 2015 or Winter 2016.

Prerequisite(s): PSYC 2002 or NEUR 2002, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5606 and ALDS 5604, for which additional credit is precluded.

Seminar three hours a week.

LING 4801 [0.5 credit]**Linguistic Field Methods**

With a language consultant, students discover the phonological, morphological, and syntactic structures of the target language using linguistic elicitation. Language will vary from year to year, but will normally be a non-European language. Language documentation, data management, ethical issues surrounding research in Indigenous communities.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005 and LING 2007.

Also offered at the graduate level, with different requirements, as ALDS 5801, for which additional credit is precluded.

Lectures three hours a week.

LING 4802 [0.5 credit]**Historical Linguistics II**

A theory-intensive course that will study the development of English starting with Proto-Indo-European progressing through Common Germanic to the stages of English itself. Topics include phonological sound changes, phonemic inventories, and morphological and syntactic typology. Precludes additional credit for LING 4101.

Prerequisite(s): LING 3001 (no longer offered) or LING 3101 (no longer offered) or LING 3811.

Also offered at the graduate level, with different requirements, as LING 5802, for which additional credit is precluded.

Seminars three hours a week.

LING 4805 [0.5 credit]**Old English**

Introduction to Anglo-Saxon literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language.

Also listed as ENGL 4105.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

LING 4900 [1.0 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4901 [0.5 credit]**Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4905 [1.0 credit]**Honours Project in Experimental Linguistics**

Students choose existing study in linguistic literature, replicate the study, present findings, compare to original study. Practical experience gathering and preparing materials, running experiments, analyzing data, interpreting findings; real, important contributions to the field of linguistics via replication studies (as mandated by the scientific method).

Includes: Experiential Learning Activity

Precludes additional credit for LING 4910.

Prerequisite(s): fourth-year Honours standing in Linguistics, with a Major CGPA of 9.0, and permission of the instructor.

Unscheduled.

LING 4910 [1.0 credit]**Honours Thesis in Linguistics**

Open to all candidates for the B.A. (Honours) in Linguistics. A thesis project selected in consultation with the School and carried out under the direction of a faculty supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4905.

Prerequisite(s): fourth-year Honours standing in Linguistics with a CGPA of 10.0 in the major; one of LING 3004, LING 3007, LING 3505, or LING 3601; and permission of the instructor.

Mathematics (MATH)

Mathematics (MATH) Courses**Note:**

- See also the course listings under Statistics (STAT) in this Calendar.

Prerequisites for First-year Mathematics Courses in B.Math. Programs

Students who do not have the required Ontario Grade 12 Mathematics courses or equivalents may take MATH 0005 Precalculus: Functions and Graphs and MATH 0006 Precalculus: Trigonometric Functions and Complex Numbers in lieu of Advanced Functions, MATH 0107 Algebra and Geometry in lieu of the algebra component of Calculus and Vectors. These 0000-level mathematics courses serve as alternate prerequisites for MATH 1052 Calculus and Introductory Analysis I and MATH 1152 Introductory Algebra I. These courses would be in addition to the minimum 15.0 credits required in General programs, or 20.0 credits required in Honours programs.

MATH 0005 [0.5 credit]**Precalculus: Functions and Graphs**

Review of algebraic manipulations. Polynomials: the remainder theorem, and the factor theorem; graphing. Real and Complex roots. Absolute values. Inequalities. Functions, including composition of functions, and Inverse functions. Logarithmic and exponential functions. Not available for degree credit for students who have successfully completed: Grade 12 Mathematics - Advanced Functions, or an equivalent High School functions course.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 0006 [0.5 credit]**Precalculus: Trigonometric Functions and Complex Numbers**

Angles and the unit circle, radian measure. Definitions of trigonometric functions. Fundamental relations, Law of Sines and Cosines. Analytic trigonometry, graphs, inverse functions. Trigonometric identities and equations. Applications in science and engineering. Complex numbers in polar form, de Moivre's Theorem, n-th roots of complex numbers.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 0009 [0.5 credit]**Calculus and Vectors**

Limits and continuity. Differentiation rules. Trigonometric, logarithmic, and exponential functions, and their derivatives. Curve sketching. Optimization problems. Introduction to vectors. Dot and cross products. Projections. Equations of lines and planes. Intersection points and distances between points, lines, and planes. Precludes additional credit for MATH 0007.

Prerequisite(s): Grade 12 Mathematics (Advanced Functions); or both MATH 0005 and MATH 0006; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 0107 [0.5 credit]**Algebra and Geometry**

Vectors in the plane and in 3-space. Linear combinations and linear independence. Equations of lines and planes in space. Solution of systems of linear equations. Proofs by induction. Binomial Theorem. Logic.

Prerequisite(s): Grade 11 Functions (University/College Preparation) or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1004 [0.5 credit]**Calculus for Engineering or Physics**

Limits. Differentiation of the elementary functions. Rules of differentiation. Inverse trigonometric functions. Applications of differentiation: max-min problems, curve sketching, approximations. Definite and indefinite integrals, techniques of integration. Applications to areas and volumes.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1007, MATH 1009, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005 and MATH 0006, or equivalent. Restricted to students in the Faculty of Engineering, or in certain B.Sc. and B.A.S. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 1005 [0.5 credit]**Differential Equations and Infinite Series for Engineering or Physics**

First-order differential equations. Second-order linear equations with constant coefficients, undetermined coefficients, variation of parameters. Sequences and series, convergence tests, estimation of sums. Power series, Taylor series, remainders. Fourier series.

Precludes additional credit for BIT 2004 (no longer offered), BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 2007, MATH 2052, and MATH 2404.

Prerequisite(s): i) MATH 1004; and ii) MATH 1104 (or MATH 1107), either previously or concurrently; or equivalents; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 1007 [0.5 credit]**Elementary Calculus I**

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1009, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1009 [0.5 credit]**Calculus: with Applications to Business**

Applications of mathematics to business. Limits. Differentiation of the elementary functions. Rules of differentiation. Max-min problems, curve sketching. Functions of several variables, partial differentiation, constrained max-min. Definite and indefinite integrals. Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, BUSI 1705 (no longer offered), MATH 1002 (no longer offered), MATH 1004, MATH 1007, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1052. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1052 [0.5 credit]**Calculus and Introductory Analysis I**

Properties of the real numbers. Limits. Sequences and series. Elementary functions. Continuity. Derivatives. Extreme values. Mean Value Theorem. L'Hospital's rules. Antiderivatives. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1007, MATH 1009, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005 and MATH 0006 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and one half hours a week.

MATH 1104 [0.5 credit]**Linear Algebra for Engineering or Science**

Systems of linear equations. Matrix algebra. Determinants. Invertible matrix theorem. Cramer's rule. Vector space R^n ; subspaces, bases. Eigenvalues, diagonalization. Linear transformations, kernel, range. Complex numbers (including De Moivre's theorem). Inner product spaces and orthogonality. Applications.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1107, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152. Note: MATH 1119 is not an acceptable substitute for MATH 1104.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School. Restricted to students in the Faculty of Engineering, the School of Computer Science, or in certain B.Sc. and B.A.S. programs where specified.

Lectures three hours a week and tutorial one hour a week.

MATH 1107 [0.5 credit]**Linear Algebra I**

Systems of linear equations; vector space of n-tuples, subspaces, bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product. Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications. Note: MATH 1119 is not an acceptable substitute for MATH 1107.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week and tutorial one hour a week.

MATH 1119 [0.5 credit]**Linear Algebra: with Applications to Business**

Introduction to systems of linear equations, geometric interpretation in two and three dimensions, introduction to matrices, vector addition and scalar multiplication, linear dependence, matrix operations, rank, inversion, invertible matrix theorem, determinants. Use of illustrative examples related to business.

Precludes additional credit for for, but is not an acceptable substitute for: BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107, BUSI 1704 (no longer offered), MATH 1109 (no longer offered), MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D.

Prerequisite(s): Ontario Grade 12 Mathematics of Data Management; or Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 1152 [0.5 credit]**Introductory Algebra I**

Properties of numbers. Modular arithmetic. Fields, including complex numbers and finite fields. Vector spaces. Matrix algebra. Solutions of linear systems. Linear dependence. Spanning sets. Bases. Subspaces. The rank-nullity theorem. Linear transformations. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005, MATH 0006, and MATH 0107 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and a half hours a week.

MATH 1401 [0.5 credit]**Elementary Mathematics for Economics I**

Functional relations: functional forms and error terms. Graphing economic magnitudes: scatter diagrams, time-series graphs, functional relationships. Applied calculus: mechanics of differentiation and integration, elasticity, consumer/producer surplus. Applied algebra: solving systems of linear equations and Keynesian national-income analysis. Problem solving approaches.

Also listed as ECON 1401.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201; MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1107, MATH 1119, MATH 1152.

Prerequisite(s): Ontario Grade 12 U Advanced Functions, or MATH 0005, or equivalent; and ECON 1000 or FYSM 1003, which may be taken concurrently with MATH 1401/ECON 1401.

Lectures three hours a week, tutorial one hour a week.

MATH 1402 [0.5 credit]**Elementary Mathematics for Economics II**

Calculus: including partial differentiation, definite and indefinite integrals, techniques of integration, and unconstrained optimization. Vectors and matrices: scalar multiplication, inner product, linear dependence, matrix operations, rank, invertible matrix theorem, and determinants. Economic applications such as profit maximization, comparative statics, and the Leontief input-output model.

Also listed as ECON 1402.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201; MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1107, MATH 1119, MATH 1152.

Prerequisite(s): ECON 1000 or FYSM 1003 with a grade of C- or higher, and ECON 1401/MATH 1401 with a grade of C- or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 1800 [0.5 credit]**Introduction to Mathematical Reasoning**

Elementary logic, propositional and predicate calculus, quantifiers, sets and functions, bijections and elementary counting, the concept of infinity, relations, well ordering and induction. The practice of mathematical proof in elementary number theory and combinatorics.

Precludes additional credit for MATH 1805/COMP 1805.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1805 [0.5 credit]**Discrete Structures I**

Introduction to discrete mathematics and discrete structures. Topics include: propositional logic, predicate calculus, set theory, complexity of algorithms, mathematical reasoning and proof techniques, recurrences, induction, finite automata and graph theory. Material is illustrated through examples from computing.

Includes: Experiential Learning Activity

Also listed as COMP 1805.

Precludes additional credit for MATH 1800.

Prerequisite(s): one Grade 12 university preparation Mathematics course; and one of: COMP 1005 or or COMP 1405 or SYSC 1100 (which may be taken concurrently).

Lectures three hours a week, tutorial one hour a week.

MATH 2000 [1.0 credit]**Multivariable Calculus and Fundamentals of Analysis**

Higher dimensional calculus, chain rule, gradient, line and multiple integrals with applications. Use of implicit and inverse function theorems. Real number axioms, limits, continuous functions, differentiability, infinite series, uniform convergence, the Riemann integral.

Precludes additional credit for BIT 2005 (no longer offered), MATH 2004, MATH 2008, and MATH 3009.

Prerequisite(s): i) MATH 1002 with a grade of C+ or higher, or (MATH 2007 or MATH 1005 with a grade of B+ or higher and permission of the School); and ii) MATH 1102 with a grade of C+ or higher, or MATH 1107 or MATH 1104 with a grade of B+ or higher; and iii) MATH 1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2004 [0.5 credit]**Multivariable Calculus for Engineering or Physics**

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.

Precludes additional credit for BIT 2005, MATH 2000, and MATH 2008.

Prerequisite(s): i) MATH 1005 or MATH 2007; and ii) MATH 1104 or MATH 1107; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 2007 [0.5 credit]**Elementary Calculus II**

Techniques of integration, improper integrals. Polar coordinates, parametric equations. Indeterminate forms, sequences and series, Taylor's formula and series. Precludes additional credit for BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 1005, MATH 2052.

Prerequisite(s): i) MATH 1004, or a grade of C- or higher in MATH 1007; or MATH 1052 and permission of the School. Lectures three hours a week, tutorial one hour a week.

MATH 2008 [0.5 credit]**Intermediate Calculus**

Partial differentiation, chain rule, gradient, line and multiple integrals with applications, transformations of multiple integrals.

Precludes additional credit for BIT 2005 (no longer offered), MATH 2000, and MATH 2004.

Prerequisite(s): one of MATH 1002, MATH 1005 or MATH 2007, and one of MATH 1102, MATH 1104 or MATH 1107.

Lectures three hours a week and one hour tutorial.

MATH 2052 [0.5 credit]**Calculus and Introductory Analysis II**

Definite, indefinite integrals. Improper integrals. The fundamental theorem of calculus. An introduction to differential equations. Sequences and series of functions. Power series. Taylor's formulae. Uniform convergence. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 2007, MATH 1002 (no longer offered), MATH 1005, MATH 2007.

Prerequisite(s): (i) MATH1052 with a grade of C- or higher or (MATH1007 or MATH1004 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one and one half hours a week.

MATH 2100 [1.0 credit]**Algebra**

Introduction to group theory: permutation groups, Lagrange's theorem, normal subgroups, homomorphism theorems. Introduction to ring theory: ring of polynomials, integral domains, ideals, homomorphism theorems. Hermitian forms, spectral theorem for normal operators, bilinear and quadratic forms, classical groups.

Precludes additional credit for MATH 2108 and MATH 3101.

Prerequisite(s): i) MATH 1102 with a grade of C+ or higher, or (MATH 2107 with a grade of B+ or higher and permission of the School); and ii) MATH 1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2107 [0.5 credit]**Linear Algebra II**

Finite-dimensional vector spaces (over R and C), subspaces, linear independence and bases. Linear transformations and matrices. Inner product spaces (over R and C); Orthonormal bases. Eigenvalues and diagonalization. Bilinear and quadratic forms; principal axis theorem.

Precludes additional credit for MATH 1102 (no longer offered), MATH 2152.

Prerequisite(s): i) MATH 1104, or a grade of C- or higher in MATH 1107 or MATH 1109; and ii) a grade of C- or higher in MATH 1007 or equivalent; or MATH 1152 and permission of the School. Note: in item i), MATH 1119 is NOT acceptable as a substitute for MATH 1109.

Lectures three hours a week and one hour tutorial.

MATH 2108 [0.5 credit]**Abstract Algebra I**

Sets and relations, number theory, group theory, ring theory, cardinal numbers.

Precludes additional credit for MATH 3101 and MATH 2100.

Prerequisite(s): i) MATH 1102 or MATH 2107; and ii) MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or COMP 1805 or MATH 1805; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 2152 [0.5 credit]**Introductory Algebra II**

Linear transformations. Determinants. Eigenvalues and eigenspaces. Diagonalization and other canonical forms. Inner products. An emphasis is placed on proofs and theory.

Precludes additional credit for MATH 1102 (no longer offered) and MATH 2107.

Prerequisite(s): (i) MATH1152 with a grade of C- or higher or (MATH1107 or MATH1104 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one and a half hours a week.

MATH 2210 [0.5 credit]**Introduction to Geometry**

An introduction to classical geometry; Euclidean plane geometry; plane tiling; polytopes in three and four dimensions; curved surfaces; Euler characteristic. This course is intended for a general audience, and is available to B.Math. students for credit only as a free elective.

Prerequisite(s): Grade 12 Mathematics and second-year standing.

Lectures three hours a week, tutorial one hour a week.

MATH 2404 [0.5 credit]**Ordinary Differential Equations I**

First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for BIT 2004 (no longer offered), MATH 1005, MATH 2454.

Prerequisite(s): MATH 1002 and MATH 1102 (or MATH 1107 and MATH 2007).

Lectures three hours a week and one hour tutorial.

MATH 2454 [0.5 credit]**Ordinary Differential Equations (Honours)**

Existence and uniqueness theorems. First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for MATH 2404, BIT 2004 (no longer offered).

Prerequisite(s): MATH 1002 or MATH 2007 or MATH 1005 with a grade of C+ or higher, and MATH 1102 or MATH 2107 with a grade of C+ or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 2800 [0.5 credit]**Discrete Mathematics and Algorithms**

An introduction to discrete mathematics and algorithms in the context of the computational sciences. Basic number theory and counting methods, algorithms for strings, trees and sequences. Applications to DNA and protein sequencing problems. Analysis and complexity of algorithms.

Also listed as CMPS 2800.

Precludes additional credit for Only one of MATH 1805/COMP 1805 or MATH 2800/CMPS 2800 may count for credit in a B.Math. program.

Prerequisite(s): COMP 1006 and at least one of MATH 1007, MATH 1107, or STAT 2507.

Lectures three hours a week.

MATH 2907 [0.5 credit]**Directed Studies (Honours)**

Available only to Honours students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3001 [0.5 credit]**Real Analysis I (Honours)**

Metric spaces and their topologies, continuous maps, completeness, compactness, connectedness, introduction to Banach spaces.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or (MATH 3009 and MATH 1800) each with a grade of B or higher, and permission of the instructor; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3002 [0.5 credit]**Real Analysis II (Honours)**

Function spaces, pointwise and uniform convergence, Weierstrass approximation theorem, Lebesgue measure and Lebesgue integral on the real line, Hilbert space, Fourier series.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3003 [0.5 credit]**Advanced Differential Calculus (Honours)**

Review of multivariable differentiation and integration.

Vector fields, differential forms and exterior algebra.

Introduction to manifolds and tangent bundles. Stokes' Theorem. Applications such as differential equations and the calculus of variations.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3007 [0.5 credit]**Functions of a Complex Variable**

Analytic functions, contour integration, residue calculus, conformal mapping. Intended for non-engineering students.

Precludes additional credit for MATH 3057 and PHYS 3807.

Prerequisite(s): one of MATH 2004, MATH 2008 or MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3008 [0.5 credit]**Ordinary Differential Equations (Honours)**

Analytic ordinary differential equations: series solutions of ordinary differential equations about ordinary and regular singular points. Asymptotic solutions. Sturm-Liouville theory. Bessel and Legendre functions. Fourier series.

Precludes additional credit for MATH 3404 and PHYS 3808.

Prerequisite(s): i) MATH 2000 with a grade of C- or higher, or (MATH 3009 with a grade of B or higher, and permission of the instructor); and ii) MATH 2454 with a grade of C- or higher, or (MATH 2404 with a grade of B or higher, and permission of the instructor).

Lectures three hours a week and one hour tutorial.

MATH 3009 [0.5 credit]**Introductory Analysis**

The real number system, sequences and series, functions of a single real variable, derivatives, the definite integral, uniform convergence.

Precludes additional credit for MATH 2000.

Prerequisite(s): one of MATH 2004, MATH 2008, MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3057 [0.5 credit]**Functions of a Complex Variable (Honours)**

Analytic functions, contour integration, residue calculus, conformal mappings.

Precludes additional credit for MATH 3007 and PHYS 3807.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3101 [0.5 credit]**Algebraic Structures with Computer Applications**

Introduction to algebraic structures: groups, rings, fields, lattices, and Boolean algebras; with applications of interest to students in Computer Science. This course may not be used to meet the 3000-level course requirements in any General or Honours program in Mathematics and Statistics.

Precludes additional credit for MATH 2108 and MATH 2100.

Prerequisite(s): i) MATH 2107 or MATH 1102; and ii) either COMP 1805/MATH 1805 or MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3106 [0.5 credit]**Introduction to Group Theory (Honours)**

Homomorphism theorems; groups acting on sets; permutation groups and groups of matrices; Sylow theory for finite groups; finitely generated abelian groups; generators and relations; applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3107 [0.5 credit]**Linear Algebra III**

Similarity and unitary triangularization of matrices. Direct methods of solving a system of linear equations. Iterative techniques. Bounds for eigenvalues. Power method and deflation techniques of approximation. Emphasis is primarily on computational aspects.

Prerequisite(s): i) a grade of C- or higher in MATH 1102 or MATH 2107; and ii) credit in MATH 1002 or MATH 2007; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3108 [0.5 credit]**Abstract Algebra II**

Groups and rings. Permutations. Finite symmetry groups. Polynomials, unique factorization domains. Quotient rings, ideals. Field extensions, finite fields. Polynomial equations. Geometric constructions - three famous problems: duplication of the cube, trisection of an arbitrary angle, quadrature of the circle.

Precludes additional credit for MATH 3106 and MATH 3158.

Prerequisite(s): MATH 2108, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3158 [0.5 credit]**Rings and Fields (Honours)**

Rings, integral domains, Euclidean and principal ideal domains, fields, polynomial rings over a field, algebraic extensions of fields, the fundamental theorem of Galois theory, finite fields, applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher, or (MATH 2108 or MATH 3101 with a grade of B or higher and MATH 1800 with a grade of B or higher and permission of the instructor), or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3206 [0.5 credit]**Plane Projective Geometry**

Axioms of Desarguesian geometry, principle of duality; projectivities, perspectivities, and the fundamental theorem; collineations (homologies and elations); correlations (polarities and conics); algebraic model; projective curves; introduction to finite projective planes.

Precludes additional credit for MATH 3256.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101.

Lectures three hours a week and one hour tutorial.

MATH 3210 [0.5 credit]**Euclidean and Non-Euclidean Geometry**

Euclidean isometry and similarity groups; geometry of circles; inversion; hyperbolic geometry: Poincaré disk model of the hyperbolic plane.

Precludes additional credit for MATH 3205.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101.

Lectures three hours a week, tutorial one hour a week.

MATH 3306 [0.5 credit]**Elements of Set Theory (Honours)**

Axioms of set theory. Development of the systems of natural numbers and the real numbers. Axiom of choice, Zorn's lemma, well-ordering. The Schröder-Bernstein theorem, cardinal numbers, ordinal numbers, transfinite induction, cardinal and ordinal arithmetics.

Prerequisite(s): MATH 2100 with a grade of C- or higher;

or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3355 [0.5 credit]**Number Theory and Applications (Honours)**

Congruences, distribution of primes, arithmetic functions, primitive roots, quadratic residues, quadratic reciprocity law, continued fractions, Diophantine equations, and applications: public key cryptography, primality testing and factoring in relation to cryptography.

Precludes additional credit for MATH 3809.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B- or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3404 [0.5 credit]**Ordinary Differential Equations II**

Series solutions of ordinary differential equations of second order about regular singular points; asymptotic solutions. Systems of ordinary differential equations of first order; matrix methods. Existence and uniqueness theorems. Nonlinear autonomous systems of order 2; qualitative theory. Numerical solutions of ordinary differential equations.

Precludes additional credit for MATH 3008.

Prerequisite(s): MATH 2404, MATH 2008; and MATH 1102 or MATH 2107.

Lectures three hours a week and one hour tutorial.

MATH 3705 [0.5 credit]**Mathematical Methods I**

Laplace transforms, series solutions of ordinary differential equations, the Frobenius method. Fourier series and Fourier transforms, solutions of partial differential equations of mathematical physics, boundary value problems, applications.

Precludes additional credit for PHYS 3808. This course may be taken for credit as a 3000-level Honours Mathematics course by students in any Honours program in the School of Mathematics and Statistics.

Prerequisite(s): i) MATH 1005 or MATH 2404, and ii) MATH 2004 or MATH 2008 or MATH 2009; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3800 [0.5 credit]**Mathematical Modeling and Computational Methods**

Design and analysis of mathematical models for problems in science. Computational methods, including function evaluation, interpolation, solution of linear equations, root finding, integration, solution of differential equations, Fourier series and Monte Carlo methods.

Includes: Experiential Learning Activity

Also listed as CMPS 3800.

Precludes additional credit for MATH 3806/COMP 3806.

Prerequisite(s): i) MATH 1107 or MATH 1104; ii) MATH 1005 or MATH 2007; and iii) knowledge of a computer language.

Lectures three hours a week, laboratory one hour a week.

MATH 3801 [0.5 credit]**Linear Programming**

Systems of linear inequalities, formulation of linear programming problems, geometric method, the simplex method, duality theory, complementary slackness, sensitivity analysis, branch-and-bound method and cutting plane method for integer linear programming, applications and extensions.

Precludes additional credit for ECON 4004, SYSC 3200.

Prerequisite(s): MATH 1102 or MATH 2107, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3802 [0.5 credit]**Combinatorial Optimization**

Network flow problems, network simplex method, max-flow min-cut problem, integral polyhedra, minimum-weight spanning tree problem, maximum matching problem, maximum stable set problem, introduction to approximation algorithms.

Prerequisite(s): MATH 3801 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3804 [0.5 credit]**Design and Analysis of Algorithms I**

An introduction to the design and analysis of algorithms.

Topics include: recurrence relations, sorting and searching, divide-and-conquer, dynamic programming, greedy algorithms, NP-completeness.

Also listed as COMP 3804.

Prerequisite(s): i) one of COMP 2402 or SYSC 2100; and ii) one of COMP 2804 or MATH 3855 or MATH 3825 or COMP 3805.

Lectures three hours a week.

MATH 3806 [0.5 credit]**Numerical Analysis (Honours)**

Elementary discussion of error, polynomial interpolation, quadrature, linear systems of equations and matrix inversion, non-linear equations, difference equations and ordinary differential equations. Implementation of numerical methods using a computer language.

Includes: Experiential Learning Activity

Precludes additional credit for MATH 3800.

Prerequisite(s): i) MATH 2000 with a grade of C- or higher; and ii) MATH 1102 with a grade of C- or higher, or (MATH 1107 or MATH 1104 with a grade of B or higher and permission of the instructor).

Lectures three hours a week, laboratory one hour a week.

MATH 3807 [0.5 credit]**Mathematical Software (Honours)**

Implementation of numerical methods using numerical software packages. Development of scientific and/or operations research applications using application programming interfaces of numerical or optimization libraries. Functional programming for data analysis and machine learning. Experience working with Python, C++, or Java is essential.

Includes: Experiential Learning Activity

Also listed as COMP 3807.

Prerequisite(s): A grade of C- or higher in MATH 3806 or COMP 3806.

Lectures three hours a week, laboratory one hour a week.

MATH 3808 [0.5 credit]**Mathematical Analyses of Games of Chance**

This course covers mathematics used in the modern casino gaming industry. The topics include probabilities, odds, house advantages, variance and risks, optimal strategies, random walks and gambler's ruin, and gaming revenue estimation. Examples are taken from various games such as Roulette, Blackjack, and Poker.

Prerequisite(s): one of STAT 2655, STAT 2605, STAT 2507, STAT 2606, STAT 3502, or MATH 3825 or MATH 3855.

Lectures three hours a week, tutorial one hour a week.

MATH 3809 [0.5 credit]**Introduction to Number Theory and Cryptography**

Congruences, distribution of primes, general cryptographic systems, public key cryptographic systems and authentication using number theory, primality testing and factoring in relation to cryptography, continued fractions and Diophantine equations.

Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100; knowledge of a computer language.

Lectures three hours a week and one hour tutorial.

MATH 3819 [0.5 credit]**Modern Computer Algebra**

Algorithms for multiplication, division, greatest common divisors and factorization over the integers, finite fields and polynomial rings. Basic tools include modular arithmetic, discrete Fourier transform, Chinese remainder theorem, Newton iteration, and Hensel techniques. Some properties of finite fields and applications to cryptography.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100, or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

MATH 3825 [0.5 credit]**Discrete Structures and Applications**

Enumeration: elementary methods, inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory and algorithms: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes.

Precludes additional credit for MATH 3805 (no longer offered), and MATH 3855 and COMP 3805.

Prerequisite(s): MATH 2108 or MATH 3101.

Lectures three hours a week, tutorial one hour a week.

MATH 3855 [0.5 credit]**Discrete Structures and Applications (Honours)**

Enumeration: inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes. Designs and finite geometries. Symmetry and counting.

Also listed as COMP 3805.

Precludes additional credit for MATH 3805 (no longer offered) and MATH 3825.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101) with a grade of B or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 3907 [0.5 credit]**Directed Studies**

Available only to students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3999 [0.0 credit]**Co-operative Work Term Report (Honours)**

On completion of each work term, the student must submit to the School of Mathematics and Statistics a written report on the work performed. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Co-operative Education Option of an Honours program offered by the School of Mathematics and Statistics, and permission of the School.

MATH 4002 [0.5 credit]**Fourier Analysis (Honours)**

Fourier series, Fourier integrals; introduction to harmonic analysis on locally compact abelian groups, Plancherel Theorem, Pontryagin duality; selected applications.

Prerequisite(s): MATH 3001 or permission of the School.

Lectures three hours a week.

MATH 4003 [0.5 credit]**Functional Analysis (Honours)**

Banach spaces and bounded linear operators, Hahn-Banach extension and separation, dual spaces, bounded inverse theorems, uniform boundedness principle, applications. Compact operators.

Prerequisite(s): MATH 4007 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5008, for which additional credit is precluded.

Lectures three hours a week.

MATH 4007 [0.5 credit]**Measure and Integration Theory (Honours)**

Lebesgue measure and integration on the real line; sigma algebras and measures; integration theory; L_p spaces; Fubini's theorem; decomposition theorems and Radon-Nikodym derivatives.

Prerequisite(s): MATH 3001 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5007, for which additional credit is precluded.

Lectures three hours a week.

MATH 4102 [0.5 credit]**Group Representations and Applications (Honours)**

An introduction to the group representations and character theory, with selected applications.

Prerequisite(s): MATH 3106, or a grade of B or higher in MATH 3108.

Also offered at the graduate level, with different requirements, as MATH 5102, for which additional credit is precluded.

Lectures three hours a week.

MATH 4105 [0.5 credit]**Rings and Modules (Honours)**

Fundamental concepts in rings and modules, structure theorems, applications.

Prerequisite(s): MATH 3158 or permission of the School.

Lectures three hours a week.

MATH 4106 [0.5 credit]**Group Theory (Honours)**

Fundamental principles as applied to abelian, nilpotent, solvable, free and finite groups; representations.

Prerequisite(s): MATH 3106 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5106, for which additional credit is precluded.

Lectures three hours a week.

MATH 4107 [0.5 credit]**Commutative Algebra (Honours)**

Fields, including algebraic and transcendental extensions, Galois theory, valuation theory; Noetherian commutative rings, including Noether decomposition theorem and localization.

Prerequisite(s): MATH 3158 or permission of the School.

Lectures three hours a week.

MATH 4108 [0.5 credit]**Homological Algebra and Category Theory (Honours)**

Axioms of set theory; categories, functors, natural transformations; free, projective, injective and flat modules; tensor products and homology functors, derived functors; dimension theory.

Prerequisite(s): MATH 3158 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5108, for which additional credit is precluded.

Lectures three hours a week.

MATH 4109 [0.5 credit]**Fields and Coding Theory (Honours)**

Introduction to field theory, emphasizing the structure of finite fields, primitive elements and irreducible polynomials. The influence of computational problems will be considered. Theory and applications of error-correcting codes: algebraic codes, convolution codes, decoding algorithms, and analysis of code performance.

Prerequisite(s): MATH 2100, or MATH 3101 or MATH 2108 or equivalent; or permission of the School.

Lectures three hours a week.

MATH 4205 [0.5 credit]**Introduction to General Topology (Honours)**

Topological spaces, maps, subspaces, product and identification topologies, separation axioms, compactness, connectedness.

Prerequisite(s): MATH 3001 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5205, for which additional credit is precluded.

Lectures three hours a week.

MATH 4206 [0.5 credit]**Introduction to Algebraic Topology (Honours)**

An introduction to homotopy theory. Topics include the fundamental group, covering spaces and the classification of two-dimensional manifolds.

Prerequisite(s): MATH 3106 and MATH 4205; or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5206, for which additional credit is precluded.

Lectures three hours a week.

MATH 4207 [0.5 credit]**Foundations of Geometry (Honours)**

A study of at least one modern axiom system of Euclidean and non-Euclidean geometry, embedding of hyperbolic and Euclidean geometries in the projective plane, groups of motions, models of non-Euclidean geometry.

Prerequisite(s): MATH 3106 (may be taken concurrently) or permission of the School.

Lectures three hours a week.

MATH 4208 [0.5 credit]**Introduction to Differentiable Manifolds (Honours)**

Introduction to differentiable manifolds; Riemannian manifolds; vector fields and parallel transport; geodesics; differential forms on a manifold; covariant derivative; Betti numbers.

Prerequisite(s): MATH 3002 or permission of the School.
Lectures three hours a week.

MATH 4305 [0.5 credit]**Analytic Number Theory (Honours)**

Dirichlet series, characters, Zeta-functions, prime number theorem, Dirichlet's theorem on primes in arithmetic progressions, binary quadratic forms.

Prerequisite(s): MATH 3057 or permission of the School.
Also offered at the graduate level, with different requirements, as MATH 5305, for which additional credit is precluded.
Lectures three hours a week.

MATH 4306 [0.5 credit]**Algebraic Number Theory (Honours)**

Algebraic number fields, bases, algebraic integers, integral bases, arithmetic in algebraic number fields, ideal theory, class number.

Prerequisite(s): MATH 3158 (may be taken concurrently) or permission of the School.
Also offered at the graduate level, with different requirements, as MATH 5306, for which additional credit is precluded.
Lectures three hours a week.

MATH 4600 [0.5 credit]**Case Studies in Operations Research (Honours)**

Applications of the principles of Operations Research to practical problems in business, management, and science. Students present at least one case and analyze cases in the published literature. Cases may also be presented by visiting practitioners.

Includes: Experiential Learning Activity
Precludes additional credit for Students in Honours Mathematics/Statistics programs may only take course as a free option.

Prerequisite(s): STAT 2509 (or STAT 2559) and MATH 3801; or permission of the School.
Seminars three hours a week.

MATH 4700 [0.5 credit]**Partial Differential Equations (Honours)**

First-order partial differential equations. Classification of second-order linear partial differential equations; the diffusion equation, wave equation and Laplace's equation; separation of variables; Fourier and Laplace transform methods for the solution of initial/boundary value problems; Green's functions.

Prerequisite(s): MATH 3057 and one of MATH 3008 or MATH 3705, or permission of the School.
Lectures three hours a week.

MATH 4701 [0.5 credit]**Topics in Differential Equations (Honours)**

Topics in the theory and application of differential equations; for example, hyperbolic systems, fluid dynamics, nonlinear wave equations, optimal mass transport, control theory, calculus of variations.

Prerequisite(s): i) MATH 3008; and ii) one of MATH 3001 or MATH 3057; or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5407, for which additional credit is precluded.

Lectures three hours a week.

MATH 4703 [0.5 credit]**Dynamical Systems (Honours)**

Basic concepts of dynamical systems. Vector formulation for systems. Theory of autonomous systems in one, two and higher dimensions. Limit sets, stability. Phase plane, qualitative interpretation, limit cycles and attractors. Parametric dependence, bifurcations and chaos. Applications.

Prerequisite(s): MATH 3001 and MATH 3008 or permission of the School.

Lectures three hours a week.

MATH 4708 [0.5 credit]**Asymptotic Methods of Applied Mathematics (Honours)**

Asymptotic series: properties, matching, application to differential equations. Asymptotic expansion of integrals: elementary methods, methods of Laplace, stationary phase and steepest descent, Watson's lemma, Riemann-Lebesgue lemma. Perturbation methods: regular and singular perturbation for differential equations, multiple scale analysis, boundary layer theory, WKB theory.

Prerequisite(s): MATH 3057 and at least one of MATH 3008 or MATH 3705, or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5408, for which additional credit is precluded.

Lectures three hours a week.

MATH 4801 [0.5 credit]**Topics in Combinatorics (Honours)**

An in-depth study of one or more topics from: generating functions, Polya's theory of counting, block designs, coding theory, partially ordered sets and Ramsey theory.

Prerequisite(s): MATH 2100 and MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4802 [0.5 credit]**Introduction to Mathematical Logic (Honours)**

Symbolic logic, propositional and predicate calculi, set theory and model theory, completeness.

Prerequisite(s): MATH 2100 or permission of the School.
Lectures three hours a week.

MATH 4803 [0.5 credit]**Computable Functions (Honours)**

Recursive functions and computability, algorithms, Church's thesis, Turing machines, computational logic, NP-completeness.

Also listed as COMP 4803.

Prerequisite(s): MATH 2100 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4805 [0.5 credit]**Theory of Automata (Honours)**

Finite automata and regular expressions, properties of regular sets, context-free grammars, pushdown automata, deterministic context-free languages. Turing machines, the Chomsky hierarchy. Undecidability, intractable problems.

Also listed as COMP 4805.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5605, for which additional credit is precluded.

Lectures three hours a week.

MATH 4806 [0.5 credit]**Numerical Linear Algebra (Honours)**

Matrix computations, conditioning/stability, direct methods for linear systems, classical iterative methods: Jacobi, Gauss-Seidel; modern iterative methods, Arnoldi decomposition, GMRES and other Krylov subspace-based methods for sparse and structured matrices; numerical solution of eigenvalue problems, implementation using suitable programming language, application to differential equations/optimization problems.

Also listed as COMP 4806.

Prerequisite(s): MATH 1102 or MATH 2107; MATH 2000 and MATH 3806; or permission of the School.

Lectures three hours a week.

MATH 4807 [0.5 credit]**Game Theory (Honours)**

One-player games, two-player zero-sum games, multi-player games, games in normal form, games in extensive form, utility theory, Nash equilibrium and Nash arbitration scheme, games in characteristic function form, cooperative solutions, dominations, stable sets, core, Shapley value, applications of game theory.

Prerequisite(s): MATH 3801 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5607, for which additional credit is precluded.

Lectures three hours a week.

MATH 4808 [0.5 credit]**Graph Theory and Algorithms (Honours)**

Paths, circuits, Eulerian and Hamiltonian graphs, connectivity, colouring problems, matching, Ramsey theory, network flows.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4809 [0.5 credit]**Mathematical Cryptography (Honours)**

Topics covered include: a general survey of public key cryptography; classical applications of finite fields and number theory; relevant background in geometry and algebraic curves; computational issues concerning elliptic curves; elliptic curve cryptosystems; security issues.

Prerequisite(s): MATH 3158, or permission of the School.

Lectures three hours a week.

MATH 4811 [0.5 credit]**Combinatorial Design Theory (Honours)**

Existence and construction of combinatorial designs: finite geometries, pairwise balanced designs, balanced incomplete block designs, Steiner triple systems, symmetric designs, PBD closure, latin squares, transversal designs, and applications to information theory.

Prerequisite(s): MATH 3855, or permission of the School.

Lectures three hours a week.

MATH 4816 [0.5 credit]**Numerical Analysis for Differential Equations (Honours)**

Floating point arithmetic; numerical solution of ODEs; finite difference methods for PDEs; stability, accuracy and convergence: von Neumann analysis, CFL condition, Lax Theorem. Finite element methods: boundary value problems and elliptic PDEs. Spectral and pseudo-spectral methods.

Prerequisite(s): MATH 2454 and MATH 3806, or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5806, for which additional credit is precluded.

Lectures three hours a week.

MATH 4821 [0.5 credit]**Quantum Computing (Honours)**

Space of quantum bits; entanglement. Observables in quantum mechanics. Density matrix and Schmidt decomposition. Quantum cryptography. Classical and quantum logic gates. Quantum Fourier transform. Shor's quantum algorithm for factorization of integers.

Prerequisite(s): MATH 1102 (or MATH 2107) with a grade of C+ or better, and permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5821, for which additional credit is precluded.

Lectures three hours a week.

MATH 4822 [0.5 credit]**Wavelets and Digital Signal Processing (Honours)**

Lossless compression methods. Discrete Fourier transform and Fourier-based compression methods. JPEG and MPEG. Wavelet analysis. Digital filters and discrete wavelet transform. Daubechies wavelets. Wavelet compression.

Prerequisite(s): MATH 1102 (or MATH 2107) with a grade of C+ or better, and permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5822, for which additional credit is precluded.

Lectures three hours a week.

MATH 4905 [0.5 credit]**Honours Project (Honours)**

Consists of a written report on some approved topic or topics in the field of mathematics, together with a short lecture on the report.

Includes: Experiential Learning Activity

Prerequisite(s): B.Math.(Honours) students only.

MATH 4906 [0.5 credit]**Directed Studies (Honours)**

Prerequisite(s): B.Math.(Honours) students only.

MATH 4907 [0.5 credit]**Directed Studies (Honours)**

Prerequisite(s): B.Math.(Honours) students only.

Mechanical Engineering (MECH)

Mechanical Engineering (MECH) Courses**MECH 3002 [0.5 credit]****Machine Design and Practice**

The design of mechanical machine elements is studied from theoretical and practical points of view. Topics covered include: design factors, fatigue, and discrete machine elements. Problem analysis emphasizes the application to practical mechanical engineering problems.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2001 and MAAE 3202.

Lectures three hours a week, problem analysis three hours a week.

MECH 3310 [0.5 credit]**Biofluid Mechanics**

Applications of fundamental fluid mechanics to human circulatory and respiratory systems. Basic viscous flow theory including: blood flow in the heart and large arteries, air flow in extra-thoracic (nose-mouth throat) airways and lungs.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 2004 and MAAE 2300.

Lectures three hours per week, laboratories or tutorials three hours per week.

MECH 3700 [0.5 credit]**Principles of Manufacturing**

Manufacturing processes, materials. Casting: solidification and heat flow theory, defect formation, casting design.

Metal forming: elementary plasticity theory, plastic failure criteria, force and work calculations. Bulk and sheet forming. Joining: heat flow and defect formation, residual stresses. Machining theory and methods. Hardening:

diffusion, wear resistance.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours a week, problem analysis and laboratories three hours a week on alternate weeks.

MECH 3710 [0.5 credit]**Biomaterials**

Materials used in biomedical applications: metals, polymers, ceramics and composites. Material response and degradation. Properties of biologic materials; bone, cartilage, soft tissue. Materials selection for biocompatibility.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours per week, laboratories and problem analysis three hours per week.

MECH 4003 [0.5 credit]**Mechanical Systems Design**

Design of mechanical systems: establishing design criteria, conceptual design, design economics, value analysis, synthesis and optimization. Mechanical elements/systems: gear and flexible drive systems, fluid power systems. These elements are utilized in group design projects.

Includes: Experiential Learning Activity

Prerequisite(s): MECH 3002 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

MECH 4006 [0.5 credit]**Vehicle Engineering I**

The course emphasizes the engineering and design principles of road transport vehicles. Topics to be covered include: performance characteristics, handling behaviour and ride quality of road vehicles.

Prerequisite(s): MAAE 3004 and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4007 [0.5 credit]**Vehicle Engineering II**

Engineering and design principles of off-road vehicles and air cushion technology. Topics include: mechanics of vehicle-terrain interaction - terramechanics, performance characteristics of off-road vehicles, steering of tracked vehicles, air cushion systems and their performance, applications of air cushion technology to transportation.

Prerequisite(s): MAAE 3004 and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4013 [0.5 credit]**Biomedical Device Design**

Medical Devices: the industry and its regulation. Design methodologies. Examination of specific medical devices: surgical equipment, orthopedic devices, rehabilitation engineering, life support, artificial organs. Case studies. Includes: Experiential Learning Activity
Prerequisite(s): MECH 3710, MAAE 3202, and MECH 4210 and fourth-year status in Engineering.
Lectures three hours per week, laboratories or tutorial three hours per week.

MECH 4101 [0.5 credit]**Mechanics of Deformable Solids**

Course extends the student's ability in design and stress analysis. Topics include: introductory continuum mechanics, theory of elasticity, stress function approach, Lamé and Mitchell problems, stress concentrations, thermoelasticity and plasticity.
Prerequisite(s): MAAE 3202 and fourth-year status in Engineering.
Lectures three hours a week.

MECH 4102 [0.5 credit]**Corrosion and Corrosion Control**

Introduction to corrosion. Corrosion mechanisms. Thermodynamics of corrosion. Electro-chemical kinetics of corrosion. Corrosion: types, prevention, control, testing, monitoring and inspection techniques. Corrosion in specific metals (eg. Fe, Ni, Ti and Al). Corrosion issues in specific industries: power generation and chemical processing industries.
Prerequisite(s): Fourth-year status in Engineering.
Lectures three hours a week.

MECH 4103 [0.5 credit]**Fatigue and Fracture Analysis**

Elastic and elasto-plastic fracture mechanics. Fatigue design methods, fatigue crack initiation and growth Paris law and strain-life methods. Fatigue testing, scatter, mean stress effects and notches. Welded and built up structures, real load histories and corrosion fatigue. Damage tolerant design and fracture control plans.
Prerequisite(s): MAAE 3202 and fourth-year status in Engineering.
Lectures three hours a week.

MECH 4104 [0.5 credit]**Vibration Analysis**

Free and forced vibrations of one and two degree-of-freedom systems. Vibration measurement and isolation. Numerical methods for multi-degree-of-freedom systems. Modal analysis techniques. Dynamic vibration absorbers. Shaft whirling. Vibration of continuous systems: bars, plates, beams and shafts. Energy methods. Holzer method.
Prerequisite(s): MAAE 3004 and fourth-year status in Engineering.
Lectures three hours per week.

MECH 4105 [0.5 credit]**Introduction to Nuclear Engineering**

Atomic theory, nuclear physics, radioactivity, photoelectric effect, mass defect, binding energy, nuclides, neutron diffusion and moderation. Reactor theory, kinetics, control. Reactor types, reactor poisoning, xenon oscillations. Reactor materials, corrosion, fuel and fuel cycle. Nuclear medicine. Radiation protection, reactor safety fundamentals.
Prerequisite(s): Fourth-year status in Engineering.
Lectures three hours a week.

MECH 4210 [0.5 credit]**Biomechanics**

The biomechanics of biological systems; muscles and movement, nerves and motor control. Measurements of motion, strain and neural signals. The hand and manipulation; locomotion and the leg.
Includes: Experiential Learning Activity
Prerequisite(s): MAAE 2101 and fourth-year status in Engineering.
Lectures three hours per week, laboratories or tutorials three hours per week.

MECH 4305 [0.5 credit]**Fluid Machinery**

Types of machines. Similarity: performance parameters; characteristics; cavitation. Velocity triangles. Euler equation: impulse and reaction. Radial pumps and compressors: analysis, design and operation. Axial pumps and compressors: cascade and blade-element methods; staging; off-design performance; stall and surge. Axial turbines. Current design practice.
Prerequisite(s): (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.
Lectures three hours a week.

MECH 4401 [0.5 credit]**Power Plant Analysis**

Criteria of merit; selection of power plant for transportation and power generation applications; interrelation among mechanical, thermodynamic and aerodynamic design processes; jet propulsion, turbojets and turbofans; alternative proposals for vehicular power plant; combined cycle applications.
Precludes additional credit for AERO 4402.
Prerequisite(s): MAAE 2400 and fourth-year status in Engineering.
Lectures three hours a week.

MECH 4403 [0.5 credit]**Power Generation Systems**

Steam generators, solid, liquid, gaseous and biofuels and cycles. Geothermal, solar powerplants. Energy storage. Environmental aspects of power generation. Industrial use and auto-generation of energy. Energy intensity and efficiency of industrial processes and products.

Comparative analysis of raw material, energy, or product transport. Life-cycle analysis.

Includes: Experiential Learning Activity

Precludes additional credit for SREE 4001.

Prerequisite(s): MAAE 2300 and MAAE 2400 and fourth-year status in Engineering.

Lectures three hours a week and problem analysis three hours per week.

MECH 4406 [0.5 credit]**Heat Transfer**

Mechanisms of heat transfer: fundamentals and solutions. Steady and transient conduction: solution and numerical and electrical analog techniques. Convective heat transfer: free and forced convection for laminar and turbulent flows; heat exchangers. Heat transfer between black and grey surfaces, radiation shields, gas radiation, radiation interchange.

Precludes additional credit for AERO 4446.

Prerequisite(s): MAAE 2400 and (MAAE 3300, MECH 3310, or (ENVE 3001 and permission of the Department of Mechanical and Aerospace Engineering)) and fourth-year status in Engineering.

Lectures three hours a week. Problem analysis and laboratories three hours a week.

MECH 4407 [0.5 credit]**Heating and Air Conditioning**

Environmental demands for residential, commercial and industrial systems. Methods of altering and controlling environment. Air distribution. Refrigeration methods, equipment and controls. Integrated year-round air-conditioning and heating systems; heat pumps. Cooling load and air-conditioning calculations. Thermal radiation control. Component matching. System analysis and design.

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4408 [0.5 credit]**Thermofluids and Energy Systems Design**

Integration of fluid mechanics, thermodynamics, and heat transfer for design of energy conversion systems. Chemical kinetics and mass transfer. Efficient combustion, fuel cells and batteries. Efficient operation and design of engines, power generators, boilers, furnaces, incinerators, and co-generation systems. Emerging energy systems.

Prerequisite(s): MAAE 3400 and fourth-year status in Engineering.

Lectures three hours per week.

MECH 4501 [0.5 credit]**State Space Modeling and Control**

Review of matrices. Geometric structure and dynamics of linear systems. Controllability and observability. Pole placement design of controllers and observers. Design of regulator and servo systems. Transmission zeros.

Eigenstructure assignment. Relationship to frequency or classical control techniques. Computer solutions using MATLAB. Applications.

Precludes additional credit for SYSC 5502.

Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4503 [0.5 credit]**An Introduction to Robotics**

History of robotics and typical applications. Robotic actuators and sensors. Kinematics of manipulators, inverse kinematics, differential relationships and the Jacobian. Manipulator dynamics. Trajectory generation and path planning. Robot control and performance evaluation. Force control and compliance. Applications in manufacturing and other industries.

Prerequisite(s): MAAE 3500 and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4604 [0.5 credit]**Finite Element Methods**

Finite element methodology with emphasis on applications to stress analysis, heat transfer and fluid flow using the simplest one- and two-dimensional elements. Direct equilibrium, variational and Galerkin formulations. Computer programs and practical applications. Higher order elements.

Prerequisite(s): MAAE 3202 and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4704 [0.5 credit]**Integrated Manufacturing - CIMS**

Overview of the topics essential to CIMS including integration of design and assembly techniques, numerical analysis, statistical process control and related production technologies within the manufacturing enterprise.

Prerequisite(s): Fourth-year status in Engineering.

Also offered at the graduate level, with different requirements, as MECH 5704, for which additional credit is precluded.

Lectures three hours a week.

MECH 4705 [0.5 credit]**CAD/CAM**

Introduction to contemporary computer aided design and manufacturing (CAD/CAM) Topics covered include mathematical representation, solid modeling, drafting, mechanical assembly mechanism design, (CNC) machining. Current issues such as CAD data exchange standards, rapid prototyping, concurrent engineering, and design for X (DFX) are also discussed.

Prerequisite(s): MAAE 2001 and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4805 [0.5 credit]**Measurement and Data Systems**

Experimental data, accuracy and uncertainty analysis. Analog systems. Sensors. Signal conditioning. Op-Amps, instrumentation amplifiers, charge amplifiers, filters. Digital techniques. Encoders, A/D D/A converters. Data acquisition using microcomputers. Hardware and software considerations. Interfacing. Applications to measurement of motion, strain, force/torque, pressure, fluid flow, temperature.

Precludes additional credit for ELEC 4805.

Prerequisite(s): ECOR 2050 and fourth-year status in Engineering.

Lectures three hours a week.

MECH 4806 [0.5 credit]**Mechatronics**

Introduction to the integration of mechanical, electronic and software components to build mechatronic devices. Mechanical and electrical systems modeling, simulation and implementation. Basic automation and computer requirements. Design tools and examples of mechatronic applications.

Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourth-year status in Engineering.

Lectures three hours per week.

Mechanical and Aerospace Engineering (MAAE)

Mechanical and Aerospace Engineering (MAAE) Courses

MAAE 2001 [0.5 credit]**Engineering Graphical Design**

Engineering drawing techniques; fits and tolerances; working drawings; fasteners. Elementary descriptive geometry; true length, true view, and intersection of geometric entities; developments. Assignments will make extensive use of Computer-Aided Design (CAD) and will include the production of detail and assembly drawings from actual physical models.

Includes: Experiential Learning Activity

Also listed as AERO 2001.

Prerequisite(s): Second-year status in Engineering.

Lectures and tutorials two hours a week, laboratory four hours a week.

MAAE 2101 [0.5 credit]**Engineering Dynamics**

Review of kinematics and kinetics of particles: rectilinear and curvilinear motions; Newton's second law; energy and momentum methods. Kinematics and kinetics of rigid bodies: plane motion of rigid bodies; forces and accelerations; energy and momentum methods.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 2101.

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

MAAE 2202 [0.5 credit]**Mechanics of Solids I**

Review of Principles of Statics; friction problems; Concepts of stress and strain at a point; statically determinate and indeterminate stress systems; torsion of circular sections; bending moment and shear force diagrams; stresses and deflections in bending; buckling instability.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 2200.

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 2300 [0.5 credit]**Fluid Mechanics I**

Fluid properties. Units. Kinematics, dynamics of fluid motion: concepts of streamline, control volume, steady and one-dimensional flows; continuity, Euler, Bernoulli, steady flow energy, momentum, moment of momentum equations; applications. Fluid statics; pressure distribution in fluid at rest; hydrostatic forces on plane and curved surfaces; buoyancy.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

MAAE 2400 [0.5 credit]**Thermodynamics and Heat Transfer**

Basic concepts of thermodynamics: temperature, work, heat, internal energy and enthalpy. First law for closed and steady-flow open systems. Thermodynamic properties of pure substances; changes of phase; equation of state. Second law: entropy. Simple power and refrigeration cycles. Introduction to heat transfer: conduction, convection, radiation.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

MAAE 2700 [0.5 credit]**Engineering Materials**

Materials (metals, alloys, polymers) in engineering service; relationship of interatomic bonding, crystal structure and defect structure (vacancies, dislocations) to material properties; polymers, phase diagrams and alloys; microstructure control (heat treatment) and mechanical properties; material failure; corrosion.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 2700.

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3004 [0.5 credit]**Dynamics of Machinery**

Kinematic and dynamic analysis of mechanisms and machines. Mechanism force analysis. Static and dynamic balancing. Kinematic and dynamic analysis of cams. Free and forced vibration of single-degree-of-freedom systems. Introduction to multibody dynamics.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2101 and MATH 1005.

Lectures three hours a week, problem analysis and laboratories two hours a week.

MAAE 3202 [0.5 credit]**Mechanics of Solids II**

Stress and strain transformations: torsion of non-circular sections; unsymmetric bending and shear centre; energy methods; complex stresses and criteria of yielding; elementary theory of elasticity; axisymmetric deformations.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 3202.

Prerequisite(s): MAAE 2202 and MATH 1005 (co-req).

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3300 [0.5 credit]**Fluid Mechanics II**

Review of control volume analysis. Dimensional analysis and similitude. Compressible flow: isentropic flow relations, flow in ducts and nozzles, effects of friction and heat transfer, normal and oblique shocks, two-dimensional isentropic expansion. Viscous flow theory: hydrodynamic lubrication and introduction to boundary layers.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 2004 and MAAE 2300.

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3400 [0.5 credit]**Applied Thermodynamics**

Gas and vapour power cycles: reheat, regeneration, combined gas/vapour cycles, cogeneration. Heat pump and refrigeration cycles: vapour compression cycles, absorption refrigeration and gas refrigeration. Mixtures of perfect gases and vapours: psychometry and combustion. Principles of turbomachinery.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005 and MAAE 2400.

Lectures three hours a week, problem analysis and laboratories three hours a week.

MAAE 3500 [0.5 credit]**Feedback Control Systems**

Introduction to the linear feedback control. Analysis and design of classical control systems. Stability and the Routh-Hurwitz criteria. Time and frequency domain performance criteria, robustness and sensitivity. Root locus, Bode and Nyquist design techniques. Control system components and industrial process automation.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 4500 (no longer offered), SYSC 4505.

Prerequisite(s): MATH 3705 and (SYSC 3600 or SYSC 3610).

Lectures three hours a week, problem analysis and laboratories three hours a week.

MAAE 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

MAAE 4102 [0.5 credit]**Materials: Strength and Fracture**

Analysis and prevention of failures in metals; plasticity analysis and plastic collapse; micro-mechanisms of fracture, conditions leading to crack growth and transition temperature effects, fracture mechanics, fatigue, environmentally assisted cracking, non-destructive evaluation and testing.

Prerequisite(s): MAAE 2202 and MAAE 2700 and fourth-year status in Engineering.

Lectures three hours a week.

MAAE 4902 [0.5 credit]**Special Topics: Mechanical and Aerospace Engineering**

Selected advanced topics of interest to Aerospace and Mechanical Engineering students, subject to the discretion of the Faculty of Engineering and Design.

Prerequisite(s): permission of the Department.

Lecture three hours a week.

MAAE 4903 [0.5 credit]**Special Topics: Mech & Aero Eng.**

At the discretion of the Faculty, a course may be offered that deals with selected advanced topics of interest to Aerospace and Mechanical Engineering students.

Prerequisite(s): permission of the Department.

Lecture three hours a week.

MAAE 4904 [0.5 credit]**Special Topics: Mechanical and Aerospace Engineering**

Selected advanced topics of interest to Aerospace and Mechanical Engineering students, subject to the discretion of the Faculty of Engineering and Design.

Prerequisite(s): permission of department.

Lectures three hours a week.

MAAE 4906 [0.5 credit]**Special Topics: Mech and Aero Eng.**

At the discretion of the Faculty, a course may be offered that deals with selected advanced topics of interest to Aerospace and Mechanical Engineering students.

Prerequisite(s): permission of the Department.

MAAE 4907 [1.0 credit]**Engineering Design Project**

Team project in the design of an aerospace, biomedical, mechanical, or sustainable energy system. Opportunity to develop initiative, engineering judgement, self-reliance, and creativity in a team environment. Results submitted in a comprehensive report as well as through formal oral presentations.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year status in engineering and (completion of or concurrent registration in AERO 4003, AERO 4842, MECH 4003, MECH 4013, or SREE 4001, or permission of Department). Certain projects may have additional prerequisites.

MAAE 4917 [0.5 credit]**Undergraduate Directed Study**

Study, analysis, and solution of an engineering problem. Results presented in the form of a written report. Carried out under the close supervision of a faculty member.

Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Department and completion of, or concurrent registration in, MAAE 4907.

Media Production and Design (MPAD)

Media Production and Design (MPAD) Courses**MPAD 1001 [0.5 credit]****Introduction to Storytelling: The Context**

Theories, origins and evolution of story within society as the digital age shapes the way we construct and consume narratives. How stories are conceived through words, sound and images, and how they resonate with and influence audiences.

Lectures three hours a week.

MPAD 1002 [0.5 credit]**Introduction to Storytelling: The Practice**

Finding and telling stories in engaging ways using text and basic images. Assignments build basic skills in research, interviewing, writing, storytelling, editing and ethics. How to structure and pitch for publication.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1001.

Workshop three hours a week.

MPAD 2001 [0.5 credit]**Basics of Visual Communication I**

Introduction to visual storytelling through video. Students develop editorial and technical skills to produce video stories that include scripting to images. Students will also learn the basics of video shooting on a range of equipment as well as basic video editing skills.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2002 [0.5 credit]**Basics of Visual Communication II**

This course expands from video theory and practice to still photography and multimedia projects, with emphasis on hands-on work with a theoretical underpinning, giving students the practical and technical skills to tell stories in multiple formats.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2001.

Workshop three hours a week.

MPAD 2003 [0.5 credit]**Introductory Data Storytelling**

Governments use data for tracking. Numbers guide public policy and can become powerful and important stories. Students will gain a theoretical understanding of the promise and pitfalls of data availability alongside the practical skills needed for powerful data-based storytelling.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2004 [0.5 credit]**Writing for Media**

This course tests student baseline skills, then develops writing capabilities tailored to specific media formats.

Coursework is based on the principle that the best way to improve technique is through regular writing and timely constructive critiques.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.

Workshop three hours a week.

MPAD 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, JOUR 2501.

Prerequisite(s): Second-year standing in the Bachelor of Media Production and Design program.

Lectures three hours a week.

MPAD 3001 [0.5 credit]**Storytelling and Social Media**

Social media in storytelling. Theory-based lectures, hands-on course modules, discussions and presentations.

Students will learn tactics to apply social media for research, gathering information, finding contacts and promoting their own work.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2004.

Lecture three hours a week.

MPAD 3002 [0.5 credit]**Civic Engagement and Public Institutions I**

Expert sources from Canadian institutions discuss covering the economy, justice, environment and security. How public policy is made, the role of the public and how the media analyze information, develop ideas, and produce stories.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design or the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

MPAD 3003 [0.5 credit]**Civic Engagement and Public Institutions II: Minor Design Project**

Group work building on the fall term course. Production of a public institutions mini-project involving the various development stages that will be employed in the final year capstone project, including the creation of a detailed design document to guide group projects.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 3002.

Workshop three hours a week.

MPAD 3300 [0.5 credit]**Media Ethics in a Digital World**

An examination of ethical issues relating to production of news and other forms of information content, particularly as they relate to digital environments. Discussion of various approaches to ethical decision-making, application in contemporary settings.

Also listed as JOUR 3300.

Prerequisite(s): MPAD 2501.

Lectures three hours a week.

MPAD 3501 [0.5 credit]**Internet and Big Data Law**

The legal use of big data to create content and analyze information. Who owns data; privacy and security implications within a legal landscape fraught with legal concerns and policy challenges.

Prerequisite(s): JOUR 2501 or MPAD 2501 and third-year standing in the Bachelor of Media Production and Design or in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

MPAD 3600 [0.5 credit]**Special Topic**

Examination of a topic in storytelling and media not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design program.

Lecture three hours a week.

MPAD 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2002.

MPAD 4000 [1.0 credit]**Capstone Project**

Student groups develop a capstone project beginning with story development and planning, completion of a story design document including project description, research, key vistas and sketches or storyboards. Group presentations leading to final media project at the end of second term.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2002, MPAD 3003, ITEC 2100, ITEC 2400 and fourth-year standing in the Bachelor of Media Production and Design program.

MPAD 4001 [0.5 credit]**Media Industries Now and Next**

Changes in the media, the public's relationship with the media and how journalists, news organizations and other media players respond. Practical issues and challenges in the professional life of an information producer.

Also listed as JOUR 4001.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Lectures and discussions three hours a week.

MPAD 4200 [0.5 credit]**Freelance Media Survival Skills**

Preparation for freelancing to publications and production houses. Resumes, finding potential buyers, interviews, establishing and marketing an individual as a business, accounting and management and dealing with taxes and benefits. Pitching stories, ideas and services.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Lectures three hours a week.

MPAD 4300 [0.5 credit]**Special Topic**

Students will choose a topic from a list of journalism options, to be announced each year.

Also listed as JOUR 4300.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4500 [0.5 credit]**Special Topic**

Examination of a topic in storytelling and media not covered in depth in other courses.

Also listed as JOUR 4500.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4501 [0.5 credit]**Gender, Identity and Inequality**

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis.

Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as JOUR 4501.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4502 [0.5 credit]**Journalism and Conflict**

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as JOUR 4502.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4503 [0.5 credit]**Journalism, Indigenous Peoples and Canada**

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous people in the era of reconciliation.

Includes: Experiential Learning Activity

Also listed as JOUR 4503.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4504 [0.5 credit]**The Media and International Development**

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda.

Includes: Experiential Learning Activity

Also listed as JOUR 4504.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

Medieval and Early Modern Studies (MEMS)

Medieval and Early Modern Studies (MEMS) Courses

MEMS 2001 [0.5 credit]**Discovering the Medieval and Early Modern Past**

An introduction to the Late Antique, Medieval and Early Modern worlds. Organized thematically, students will be introduced to interdisciplinary exploration of core topics.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

MEMS 3001 [0.5 credit]**Researching the Medieval and Early Modern Past**

Continued interdisciplinary study of the Late Antique, Medieval and Early Modern worlds, with a focus on how to develop a deeper analysis of the core topics examined in MEMS 2001.

Prerequisite(s): MEMS 2001, or permission of the Program Coordinator.

Lectures three hours a week.

Migration and Diaspora Studies (MGDS)

Migration and Diaspora Studies (MGDS) Courses

MGDS 2000 [0.5 credit]**Global Migration and Transnationalism**

Introduction to the social, cultural, economic and political implications of the movement of people with a multidisciplinary and multiscale approach to topics such as migration and immigration, diaspora identities, global culture, and transnationalism.

Prerequisite(s): second-year standing.

Lecture and discussion three hours a week.

MGDS 4900 [0.5 credit]**Special Topics in Migration and Diaspora Studies**

Advanced topics in Migration and Diaspora Studies. Topics vary from term to term.

Prerequisite(s): Fourth-year standing or permission of the department.

Also offered at the graduate level, with different requirements, as MGDS 5900, for which additional credit is precluded.

Seminar three hours a week

Music (MUSI)

Music (MUSI) Courses

Note: the majority of courses are open to non-Majors; students are advised to consult the Discipline. Priority is given to Music students.

MUSI 1000 [0.5 credit]

Introduction to the Study of Music

Introduction to issues and methods in the study of music. Development of writing and research skills; methodological approaches in all academic areas of music (historical musicology, ethnomusicology, popular music studies, music theory).

Prerequisite(s): first-year enrolment in the B.Mus., B.A. Music or B.A. Hons. Music program.

Lectures three hours a week.

MUSI 1001 [0.5 credit]

A History of Western Classical Music: Medieval to the Present

Western classical music from the medieval period to the present. Major historical periods (Medieval, Renaissance, Baroque, Classical, Romantic, Modern, Postmodern) are examined through representative music ranging from Gregorian chant to contemporary experimental trends.

Lectures three hours a week.

MUSI 1002 [0.5 credit]

Issues in Popular Music

History of world popular music from the 19th century until the present. Topics may include the growth of the music industry, the impact of technology, stardom, world music, the role of the press, copyright, censorship, and sexuality.

Lectures three hours a week.

MUSI 1003 [0.5 credit]

Understanding Music

Through musical examples drawn from diverse cultures and historical periods, students develop the ability to describe and analyze different aspects of music and deepen their appreciation of music as a cultural experience. Prior musical knowledge is not required.

Lectures three hours a week.

MUSI 1107 [0.5 credit]

Elementary Materials of Music

An introduction to the rudiments of music and aural training. Successful completion of this course will fulfil the prerequisite for entry into MUSI 1700. Not available to B.Mus. students for credit.

Lectures three hours a week.

MUSI 1700 [0.5 credit]

Theoretical Studies: Foundations of Music Theory

An introduction to the organizational principles underlying tonal music including intervals, scales, rhythm, metre, chords, counterpoint, form, cadences, and harmonic progressions.

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1701 [0.5 credit]

Theoretical Studies: Common Practice I

A study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period, with emphasis on the development of analytical and written skills of diatonic music.

Prerequisite(s): MUSI 1700 or permission of the Discipline.
Lectures three hours a week.

MUSI 1710 [0.5 credit]

Theoretical Studies: Aural Training I

A study of ear training, sight singing, and basic keyboard skills in relation to classical and popular musics, with emphasis on melodic, harmonic, and formal structures.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1711 [0.5 credit]

Theoretical Studies: Applied Rhythmic Training I

A study of the rhythm of selected classical, popular, and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline.

Lectures three hours a week.

MUSI 1900 [0.5 credit]

Performance I

Individual vocal or instrumental instruction in classical, traditional or popular idioms.

Includes: Experiential Learning Activity

Prerequisite(s): audition and enrolment in the B.Mus. program.

MUSI 1901 [0.5 credit]

Performance II

Individual vocal or instrumental instruction in classical, traditional or popular idioms.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1900 and enrolment in the B.Mus. program.

MUSI 1912 [0.0 credit]

Choral Ensemble I

Participation in a choral ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1913 [0.0 credit]**Choral Ensemble II**

A continuation of MUSI 1912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1914 [0.0 credit]**Instrumental Ensemble I**

Participation in an instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1915 [0.0 credit]**Instrumental Ensemble II**

A continuation of MUSI 1914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2005 [0.5 credit]**Introduction to Jazz History**

A survey of ragtime and jazz from their roots in pre-twentieth-century black music and white music to contemporary jazz idioms, including an examination of New Orleans jazz and Dixieland, swing, bebop, cool jazz, and free jazz.

Precludes additional credit for MUSI 2205.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2006 [0.5 credit]**Popular Musics before 1945**

Selected aspects of the development of Anglo-American popular musics from their roots in the nineteenth century until the shifts and tensions which led to the advent of rock-and-roll and soul in the 1950s. Genres to be examined include blues, country, the sentimental ballad, Broadway music.

Precludes additional credit for MUSI 2203, MUSI 2206, MUSI 2208.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2007 [0.5 credit]**Popular Musics after 1945**

Selected aspects of the development of Anglo-American and world popular musics from the advent of rock `n` roll and soul to the present. Early rock `n` roll, British rhythm `n` blues, Motown, West Coast music, punk, heavy metal, new wave, disco and country.

Precludes additional credit for MUSI 2207, MUSI 2208, MUSI 2209.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2008 [0.5 credit]**Music of the World's Peoples**

A survey of musical traditions from various regions of the world, with an emphasis on the sociocultural contexts in which those musics are created and performed.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2300.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2009 [0.5 credit]**Music of Asia**

A comparative and analytical study of music in Asia, including India, China, Korea, Indonesia, Japan, and the Arabic world, through an examination of the music, musical instruments and theoretical systems.

Precludes additional credit for MUSI 2301.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2100 [0.5 credit]**Music in an Age of Power, Plague, and Courtly Love**

The music of the "dark ages" is illuminated in the context of politics, spectacle, devotion, celebration, compositional process, manuscript culture, dissemination, musical notation, plague, and courtly love. "Medievalism" is examined as an aesthetic of the era (ca. 400-1400) and as reinterpreted in our modern world.

Precludes additional credit for MUSI 2000.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2101 [0.5 credit]**Music in an Age of Devotion, Seduction, and Rebirth**

This course brings to life the Renaissance (1400-1600), when music played a vital role in lavish courts, grand cathedrals, and vibrant cities. Madrigals, masses, and motets are examined in the context of politics, religion, gender, manuscript and print culture, rhetoric, art, and architecture.

Precludes additional credit for MUSI 2001.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2102 [0.5 credit]**Music in an Age of Spectacle, Commerce, and Colonization**

The Baroque (1600-1750) was simultaneously shaped by absolutist regimes, competing religions, and an emerging public sphere. Music and culture from Monteverdi to Bach and Handel are investigated in the contexts of power, (geo)politics, religion, aesthetics, gender, socio-economics, dissemination, genre, and compositional practices.

Precludes additional credit for MUSI 2001.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2103 [0.5 credit]**Music in an Age of Order, Invention, and Revolution**

Peace and revolution, faith and secularism, noble privilege and bourgeois commerce: fundamental contradictions underlying the creative work of Mozart, Haydn, and Beethoven. This course studies their compositions—operas, sacred works, symphonies, chamber music—within the political, social and cultural institutions of their times (ca. 1730-1815).

Precludes additional credit for MUSI 2002.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2104 [0.5 credit]**Music in an Age of Passion, Imagination, and Iconoclasm**

This course examines European art music of the nineteenth century, a revolutionary period of socio-political change when inspiration, subjectivity, radical idealism, expressive intensity, cultural nationalism, and the primacy of the individual creative voice were held up as primary aesthetic ideals.

Precludes additional credit for MUSI 2002.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2107 [0.5 credit]**Music in an Age of Tumult, Innovation, and Pluralism**

A survey of European classical music of the 20th century. Idioms to be examined in the socio-political climate of the period include impressionism, expressionism, nationalism, neo-classicism, music of political commitment, contemporary opera and musical theatre, serialism, chance, textural composition, process music and neo-romanticism.

Precludes additional credit for MUSI 2105, 2106.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2601 [0.5 credit]**Orchestration and Instrumentation**

Introduction to the fundamentals of effective and professional arranging. All aspects of the various instruments of the orchestra and matters having to do with the practicalities of orchestration for both small and large ensembles, and accepted professional standards of score presentation.

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Lecture three hours a week.

MUSI 2602 [0.5 credit]**Composition I**

Introduction to theories and technicalities involved in original creative writing through the preparation of individual assignments; based in the practice of recent music in the Western Classical tradition while allowing for the music of other Western styles and traditions to be addressed.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor. MUSI 2601 is recommended.

Lectures and workshops three hours a week.

MUSI 2605 [0.5 credit]**Choral Conducting**

Introduction to the special stylistic features of choral music from the Renaissance to the present as well as to a variety of practical techniques (vocal production, gesture, conducting patterns, diction, etc.).

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program or permission of the instructor.

Lectures three hours a week.

MUSI 2608 [0.5 credit]**Computer Music I: Fundamentals of Electronic Music Production**

Introduction to the theory and practice of electronic music creation, focusing on audio editing, synthesis, sampling, beat-making, signal processing, and sound design, using a variety of professional-grade software packages.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2603 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week, plus individual studio time.

MUSI 2609 [0.5 credit]**Computer Music II: Production, Collaboration and Performance**

Computer-based music-making with an emphasis on collaborative approaches and performance-oriented tools and techniques. Introduces practices of remixing, live sound manipulation, preparation of original material for performance, and the use of hardware controllers in live performance and real-time musical collaboration using mobile technologies.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2603 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week, plus individual studio time.

MUSI 2700 [0.5 credit]**Theoretical Studies: Common Practice II**

A continuation of the study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period and early twentieth century, with emphasis on chromaticism and the development of analytical and written skills.

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Lectures three hours a week.

MUSI 2701 [0.5 credit]**Theoretical Studies: Popular Music Practice**

A study of the rhythmic, melodic, harmonic and formal structures of popular musics.

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Lectures three hours a week.

MUSI 2703 [0.5 credit]**Theoretical Studies VI: Practical Keyboard Skills**

A practical study of rhythm, harmony and melody on the keyboard, with an emphasis on vocal and instrumental accompaniment and the development of improvisation skills in a variety of styles.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701 and MUSI 1710 and MUSI 1711, or permission of the instructor.

Labs three hours a week.

MUSI 2710 [0.5 credit]**Theoretical Studies: Aural Training II**

A continuation of the study of ear training, sight singing, and basic keyboard skills in relation to classical and popular musics, with emphasis on melodic, harmonic, and formal structures.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701, MUSI 1710.

Lectures three hours a week.

MUSI 2711 [0.5 credit]**Theoretical Studies: Applied Rhythmic Training II**

A continuation of the study of the rhythm of common-practice and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1700, MUSI 1711.

Lectures three hours per week.

MUSI 2900 [0.5 credit]**Performance III**

A continuation of MUSI 1901.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 1901, or permission of the Discipline.

MUSI 2901 [0.5 credit]**Performance IV**

A continuation of MUSI 2900.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 2900, or permission of the Discipline.

MUSI 2912 [0.0 credit]**Choral Ensemble III**

A continuation of MUSI 1913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2913 [0.0 credit]**Choral Ensemble IV**

A continuation of MUSI 2912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 2914 [0.0 credit]**Instrumental Ensemble III**

A continuation of MUSI 1915. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week through either the fall or winter term, and participation in concerts.

MUSI 2915 [0.0 credit]**Instrumental Ensemble IV**

A continuation of MUSI 2914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3103 [0.5 credit]**Music in Canada**

An examination of various issues related to the study of music in Canada and by Canadians, and an examination of various genres of Canadian music, including art music, folk music, popular music, First Peoples music and music of various immigrant groups.

Precludes additional credit for MUSI 3100 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3104 [0.5 credit]**Popular Musics of Canada**

A survey of popular musics in Canada from early colonial times to the present. The course will consider a wide range of musical styles and genres, along with related cultural and historical issues.

Precludes additional credit for MUSI 3100.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3106 [0.5 credit]**Popular Musics of the World**

Popular musics of the world, including those of Africa, Asia, Central and Eastern Europe, Latin America, the Caribbean and Oceania. Special attention to the interaction between some world popular musics and the Western record industry.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3107 [0.5 credit]**Classical Indian Music**

An introduction to the history and theory of classical Indian music including ragas, instruments, rhythm and improvisation.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, or permission of the instructor.

Lectures three hours a week.

MUSI 3108 [0.5 credit]**Musics of the Middle East and North Africa**

An examination of various musics, devotional traditions, and shifting cultural and art movements in the region, resulting from processes of globalization, political change, and technological innovation. Course sessions will include close and critical discussion of selected texts, audio-visual examples, and ethnomusicological documentary films.

Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3200 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3201 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3205 [0.5 credit]**Specialized Studies**

Courses designed for Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum GPA of 9.0 in Music.

Individual instruction.

MUSI 3206 [0.5 credit]**Specialized Studies in Performance**

Courses designed for Music Honours students who have acquired an extensive background through performance. Course offerings change from year to year.

Prerequisite(s): permission of the instructor, and a minimum GPA of 9.0 in Music.

Individual instruction.

MUSI 3301 [0.5 credit]**Music and Religion**

An examination of the integral role music plays in religion and sacred ritual in different world cultures and religions. Through various case studies, the course broadly considers how sacred soundscapes shape people's worldviews, identities, and experiences within and outside of their communities.

Also listed as RELI 3301.

Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3302 [0.5 credit]**Music and Gender I**

The role of gender in the theory and practice of music in western and non-western cultures.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3303 [0.5 credit]**Introduction to Music Therapy**

Literature, practice and theory of music therapy. The use of music (improvisation, the voice, and reception) with various populations, including children and adults with special needs, people in long term care, people with neurological disorders, and in palliative care.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

MUSI 3400 [0.5 credit]**A History of Opera before 1800**

A survey of the development of opera from the beginnings to about 1800. The major monuments of Italian, French, German and English opera, by such composers as Monteverdi, Cavalli, Scarlatti, Purcell, Lully, Gluck, Rameau, Mozart and Haydn.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3401 [0.5 credit]**A History of Opera from 1800 to 1945**

A study of romantic and contemporary opera through an examination of selected works from Weber's *Der Freischütz* to Britten's *Peter Grimes*, including an investigation of national styles from Wagnerian music drama and Italian verismo to Russian realism and German expressionism.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3402 [0.5 credit]**Film Music**

The use of music in film, from the silent era to the present day, studying the techniques, styles and theory of film music through the examination of selected scenes.

Also listed as FILM 3402.

Prerequisite(s): second-year standing.

Lectures three hours a week, screening two hours a week.

MUSI 3403 [0.5 credit]**Music Industries**

An introduction to the structure and history of the music industries.

Also listed as COMS 3404.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3405 [0.5 credit]**Musical Theatre**

A survey of the styles, works, and artists of the musical theatre genre as well as the artistic elements that comprise musical theatre.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3406 [0.5 credit]**Instrumental Music: Music for Orchestra**

Origins and development of orchestral music from its beginnings as an independent form in the 18th century to the present. Major symphonies and symphonic poems by composers like Haydn, Beethoven, Liszt, Brahms, Strauss, and Shostakovich. Brief examination of concerto and ballet music.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3407 [0.5 credit]**Instrumental Music: Chamber Music**

History of chamber music and the cultural contexts within which it rose to prominence in Europe and North America in the 18th, 19th and 20th centuries. Genres by representative composers including the sonata, duos, trios, quartets, quintets, sextets, divertimenti, and works for small chamber orchestra.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3602 [0.5 credit]**Composition II**

Designed to enable students to develop abilities in the writing of original music. The study and appreciation of modern and contemporary styles and techniques are encouraged.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 3600 (no longer offered).

Prerequisite(s): MUSI 2601, MUSI 2602, and MUSI 2700, or permission of the instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 3603 [0.5 credit]**Computer Music Techniques**

An introduction to the techniques of sound synthesis primarily through practical experience at the digital synthesizer and computer. The basics of machine operations, software and computer applications to composition and synthesis. Enrolment is limited.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, and either MUSI 2603 or MUSI 2608 or MUSI 2609, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3604 [0.5 credit]**Computer Music Projects**

Examination of the various applications of digital equipment through the realization of original projects. Students may focus on studio composition, software development or analytic research. Appropriate compositional techniques and problem solving strategies are also discussed. Enrolment is limited.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, and either MUSI 2603 (no longer offered) or MUSI 2608 or MUSI 2609, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3605 [0.5 credit]**Instrumental Conducting**

Introduction to the practice of conducting Instrumental music from the Classical era to the present as well as to a variety of practical techniques (rehearsal techniques, gesture, conducting patterns, score study, etc.).

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program or permission of the instructor.

MUSI 3700 [0.5 credit]**Theoretical Studies: Seminar in Theory and Analysis**

Selected topic in music theory. Topics will change yearly and may include: methods of music analysis, analysis of selected works, styles and structures of common practice or post common practice period, music, modal, tonal, or post-tonal counterpoint, history of music theory.

Precludes additional credit for MUSI 3500.

Prerequisite(s): MUSI 2700 or permission of the instructor. Seminars three hours a week.

MUSI 3701 [0.5 credit]**Theoretical Studies: Jazz Styles and Structures**

Techniques of arranging and composition for small and large ensembles will be studied through the examination of selected works drawn from the jazz repertoire. Works will be selected for stylistic and theoretical analysis, for exercises in aural recognition, and for arranging purposes.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4203 (taken in 1994-95) or MUSI 4204 (taken in 1995-96).

Prerequisite(s): MUSI 2701 or permission of the instructor. Workshops three hours a week.

MUSI 3702 [0.5 credit]**Introduction to Physics and Psychoacoustics of Music**

Basic topics in physics and psychoacoustics, with an emphasis on those concepts that are most useful for music performance, analysis, composition, and musicology.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3703 [0.5 credit]**Improvisation in Theory and Practice**

Selected forms of improvisation from diverse musical and cultural traditions. In addition to weekly seminar meetings, the class will engage in experiential forms of learning by actively improvising in a weekly performance-oriented seminar.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Discussion and performance seminars three hours a week.

MUSI 3900 [0.5 credit]**Performance V**

A continuation of MUSI 2901.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in B. Mus. and MUSI 2901, or permission of the Discipline.

MUSI 3901 [0.5 credit]**Performance VI**

A continuation of MUSI 3900.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and MUSI 3900, or permission of the Discipline.

MUSI 3912 [0.0 credit]**Choral Ensemble V**

A continuation of MUSI 2913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3913 [0.0 credit]**Choral Ensemble VI**

A continuation of MUSI 3912. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3914 [0.0 credit]**Instrumental Ensemble V**

A continuation of MUSI 2915. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3915 [0.0 credit]**Instrumental Ensemble VI**

A continuation of MUSI 3914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4000 [0.5 credit]**Performance VII**

This is an optional performance course for B.Mus. students with high academic standing.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4900, MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 3901, A- or higher average in second- and third-year MUSI performance courses, and permission of the Music performance supervisor.
Individual instruction.

MUSI 4001 [0.5 credit]**Performance VIII**

This is an optional performance course for B.Mus. students with high academic standing.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4002, MUSI 4003, MUSI 4900 (no longer offered), MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus. standing, MUSI 4000 with A- or higher, and permission of the Music performance supervisor.
Individual instruction.

MUSI 4002 [0.5 credit]**Graduating Demo Recording**

A graduation recording of substantial duration arranged in consultation with the discipline. A proposal must be submitted one week before the last day for course changes. All recording costs must be borne by the student.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4001, MUSI 4003, MUSI 4900 (no longer offered), MUSI 4901 (no longer offered), MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 4000 with a grade of A- or higher, and permission of both the relevant associate music instructor and the music performance supervisor.
Individual instruction.

MUSI 4003 [0.5 credit]**Graduating Recital**

Public recital arranged in consultation with the Supervisor of Performance and Practical Studies. An outline of the program must be submitted one week before the last day for course changes.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4001, MUSI 4002, MUSI 4900, MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 4000 with A- or higher, and permission of both the relevant associate music instructor and the Music performance supervisor.

Individual instruction.

MUSI 4005 [0.5 credit]**Issues in Jazz Studies**

An examination of key issues in the study of jazz including history/historiography, gender, genre, race, politics, identity and performance.

Prerequisite(s): MUSI 2005 and third-year standing.

MUSI 4006 [0.5 credit]**Issues in the Study of Popular Music**

An introduction to current issues in the study of popular music. The course will be organized around a series of case studies.

Prerequisite(s): third-year standing, MUSI 1002, and at least one of MUSI 2005, 2006, or 2007.

Seminars three hours a week.

MUSI 4007 [0.5 credit]**The Composer in Context**

Examination of the life and music of a selected composer, and the historical, social, cultural, and political factors that shaped the context within which she/he worked. Focus on history, biography, musical style and analysis.

Prerequisite(s): MUSI 1000, and MUSI 1700, and at least one from: MUSI 2100, MUSI 2101, MUSI 2102, MUSI 2103, MUSI 2104, MUSI 2105 (no longer offered), MUSI 2106 (no longer offered) or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4102 [0.5 credit]**Theory and Methods in Ethnomusicology**

Selected readings and discussion of major works in ethnomusicology, focusing on schools of thought and contemporary issues. Introduction to a variety of methods and strategies for ethnomusicological research, including field work, musical transcription and data analysis.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, or permission of the instructor.

Seminars three hours a week.

MUSI 4103 [0.5 credit]**Ethnomusicology of Canadian Traditions**

Issues of anthropological, sociological, and analytical significance are examined in the context of selected developments in folklore and ethnomusicological research on Canadian traditions.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5015, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4104 [0.5 credit]**First Peoples Music in Canada**

The context and significance of musical expressions of selected Canadian Indigenous groups and the contributions of individuals in the creation of music and meaning in First Peoples' communities.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5016, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4105 [0.5 credit]**Issues and Processes in African Music**

Surveying five different geographic regions of Africa, traditional and modern musical styles will be studied through the lens of the global, local and social issues surrounding them.

Prerequisite(s): third year standing, or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4200 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4201 [0.5 credit]**Special Topics**

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. Course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4205 [0.5 credit]**Specialized Studies**

Courses designed for Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum CGPA of 9.0 in Music.

Individual instruction.

MUSI 4206 [0.5 credit]**Specialized Studies in Performance**

Courses designed for Music Honours students who have acquired an extensive background through performance. Course offerings change from year to year.

Prerequisite(s): permission of the department, and a minimum CGPA of 9.0 in Music.

Individual instruction.

MUSI 4209 [1.0 credit]**Specialized Studies**

A course designed for Music Honours students who have acquired an extensive background through courses in theory, musicology or composition. Course offerings change from year to year.

Prerequisite(s): permission of the instructor.

MUSI 4303 [0.5 credit]**Music and Gender II**

The relationship between the social and formal organization of music and the social and formal organization of sexual difference. The role of music in the social construction of gender; the role of gender in the determination of musical style and taste.

Precludes additional credit for MUSI 3303 or MUSI 4204 (taken in 1992-93).

Prerequisite(s): MUSI 3302 or permission of the instructor.

Seminars three hours a week.

MUSI 4304 [0.5 credit]**Music and Globalization**

Examining music's role in the multifaceted and complex processes of globalization. Drawing on case studies of "world musics", this course explores how sound and music negotiate histories of post/colonialism, cultural and economic imperialism, and constructions of sameness and difference in "world music" contexts.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5017, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4306 [0.5 credit]**Music and Wellbeing in a Global Context**

An examination of the ways in which music contributes to mental, social and physical wellbeing throughout the world, drawing from the fields of neuroscience, medical ethnomusicology, community music and cross-cultural studies.

Prerequisite(s): fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4602 [0.5 credit]**Composition III**

A continuation of MUSI 3602, focusing on the development of creative individual approaches to music composition.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 3600 (no longer offered).

Prerequisite(s): MUSI 3602, or permission of the instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 4700 [0.5 credit]**Theoretical Studies: Advanced Seminar in Theory and Analysis**

A study of a selected topic in music theory. Topics will change yearly and may include: methods of music analysis; analysis of selected works; styles and structures of common practice or post common practice period music; modal, tonal, or post-tonal counterpoint; history of music theory.

Prerequisite(s): MUSI 2700 or permission of the instructor. Seminars three hours a week.

MUSI 4701 [0.5 credit]**Introduction to Jazz Arranging**

The art of arranging for small and large jazz ensembles is introduced through analysis of recordings by artists such as Duke Ellington, Fletcher Henderson, Count Basie, Rob McConnell, and Maria Schneider. Topics may include 2-, 3-, and 4-voice writing in a jazz idiom.

Prerequisite(s): MUSI 3701 or permission of the instructor. Seminars three hours a week.

MUSI 4702 [0.5 credit]**Topics in Music Perception and Cognition**

Selected advanced topics in the perception and cognition of music. Where appropriate, emphasis will be placed upon areas of overlap between psychological research and issues in aesthetics and cultural theory.

Prerequisite(s): third-year standing and MUSI 3702, or permission of the department. Seminars three hours a week.

MUSI 4704 [0.5 credit]**Tonal Counterpoint**

This course deals with the development of writing skills and knowledge of counterpoint as manifest in the Baroque era. Topics may include invention, canon, fugue, dance forms, the compositional language of J. S. Bach, and contrapuntal techniques in the late 18th century and beyond.

Prerequisite(s): MUSI 2700, or permission of the instructor. Lectures and seminars three hours a week.

MUSI 4705 [0.5 credit]**Post-Tonal Theory and Analysis**

Fundamentals of post-tonal music theory and analysis.

Neo-tonal, atonal, twelve-tone and third-stream jazz.

Students will develop the critical skills to understand these theoretical tools and be conversant with some of the aesthetic precepts associated with them.

Prerequisite(s): MUSI 2700 or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4800 [0.5 credit]**Practicum in Music**

Practical experience in music-specific projects such as recording studios, librarianship, research, multimedia, etc. at local institutions. A maximum of one credit of practicum may be offered in fulfilment of Music requirements.

Includes: Experiential Learning Activity

Prerequisite(s): Honours Music registration with third- or fourth-year standing and a B+ or better average in Music courses; and permission of the Practica Supervisor.

MUSI 4801 [0.5 credit]**Practicum in Music**

Practical experience in music-specific projects such as recording studios, librarianship, research, multimedia, etc. at local institutions. A maximum of one credit of practicum may be offered in fulfilment of Music requirements.

Includes: Experiential Learning Activity

Prerequisite(s): Honours Music registration with third- or fourth-year standing and a B + or better average in Music courses; and permission of the Practica Supervisor.

MUSI 4906 [1.0 credit]**Honours Portfolio in Composition**

The course requires the composition of an original work of substantial proportions, with an accompanying analytical paper. Application to the Discipline for permission to register must be received by September 1.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4600.

Prerequisite(s): fourth-year standing, MUSI 3600 and permission of the Discipline.

MUSI 4908 [1.0 credit]**Honours Essay in Musicology**

An Honours research essay of approximately 50 pages.

A written outline of the project must be submitted to the Honours committee changes by the first day of classes.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, A- or higher average, and permission of the Discipline.

MUSI 4909 [1.0 credit]**Portfolio in New Media**

The course requires the creation of an original work (or works) of substantial proportions using applications in the electronic studios. A high level of independence and originality will be required. Requests to the Discipline for permission to register must be received by September 1. Includes: Experiential Learning Activity
Prerequisite(s): permission of the instructor.

MUSI 4912 [0.0 credit]**Choral Ensemble VII**

A continuation of MUSI 3913. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus.

program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4913 [0.0 credit]**Choral Ensemble VIII**

A continuation of MUSI 4912. Registration, but not participation, is restricted to students in the B. Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Choral Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4914 [0.0 credit]**Instrumental Ensemble VII**

A continuation of MUSI 3915. Registration, but not participation, is restricted to students in the B.Mus. program Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 4915 [0.0 credit]**Instrumental Ensemble VIII**

A continuation of MUSI 4914. Registration, but not participation, is restricted to students in the B.Mus. program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term participation in concerts.

Natural Science (NSCI)

Natural Science (NSCI) Courses**NSCI 1000 [0.5 credit]****Seminar in Science**

Cross-disciplinary survey of current issues in science, providing new science students with an orientation to the study of science at the university level. Structured around seminars, oral and written presentations.

Prerequisite(s): Restricted to students in the first year of B.Sc. programs or B.A. Biology programs.

Lectures and tutorials three hours a week.

NSCI 4901 [1.0 credit]**Science Journalism Independent Project**

Students will work with a health or life science research group and deliver an in-depth narrative on the relevant scientific research, lab dynamics and results.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Journalism and at least 3.5 credits completed in the concentration in Health Science, or permission of the School of Journalism and Communication.

Neuroscience (NEUR)

Neuroscience (NEUR) Courses**NEUR 1202 [0.5 credit]****Neuroscience of Mental Health and Psychiatric Disease**

Clinical symptoms of psychiatric disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, substance abuse, and personality disorders.

Precludes additional credit for NEUR 1201 (no longer offered).

Lecture three hours a week.

NEUR 1203 [0.5 credit]**Neuroscience of Mental Health and Neurological Disease**

Clinical symptoms of neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Lectures three hours a week.

NEUR 2001 [0.5 credit]**Introduction to Research Methods in Neuroscience**

A general introduction to research methodologies employed within neuroscience. Topics covered include research designs and techniques, basic descriptive statistics, and how to interpret and report research findings.

Precludes additional credit for PSYC 2000 and PSYC 2001.

Prerequisite(s): second-year standing.

Lecture three hours a week, online labs/tutorials.

NEUR 2002 [0.5 credit]**Introduction to Statistics in Neuroscience**

A general introduction to statistical techniques employed within contemporary neuroscience. Topics covered include basic data analysis using descriptive and inferential statistics (t-tests, ANOVA, correlation, chi-square).

Precludes additional credit for ENST 2006, GEOG 2006, PSYC 2002.

Prerequisite(s): PSYC 2001 or NEUR 2001.

Lectures three hours a week, online labs/tutorials.

NEUR 2003 [0.5 credit]**Introduction to Techniques in Neuroscience**

Introduction to common techniques used in neuroscience research. Brain imaging, animal behaviour, electrophysiology, immunohistochemistry and microscopy, genomics, transgenics, cell culture, and DSM-IV-based clinical assessment.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures three hours a week.

NEUR 2004 [0.5 credit]**Fundamentals of Scientific Writing in Neuroscience**

Introduction to various forms of scientific writing appropriate to neuroscience, with a focus in fundamental skills in scientific writing.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in a Neuroscience program and one of NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and workshops three hours a week.

NEUR 2201 [0.5 credit]**Cellular and Molecular Neuroscience**

Core principles in cellular and molecular neuroscience, including signal transmission along and between neurons, ion channels and transporters, intracellular signaling pathways, and regulation of gene expression.

Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered).

Prerequisite(s): Either NEUR 1201 and NEUR 1203, or NEUR 1202 and NEUR 1203, or both BIOL 1103 and BIOL 1104.

Lectures three hours a week, online labs.

NEUR 2202 [0.5 credit]**Neurodevelopment and Plasticity**

Core principles in nervous system development from embryogenesis to plasticity in the adult brain. Topics include neural induction, neurogenesis, apoptosis, neuronal migration and axon growth, synaptogenesis and synaptic pruning both under normal conditions and in psychopathology.

Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered).

Prerequisite(s): NEUR2201.

Lectures three hours a week, online labs.

NEUR 2801 [0.5 credit]**Neuroscience and Creativity**

Abnormal brain function associated with mental illness or substance abuse has been commonly depicted in or been the inspiration for important cultural works including movies, music, paintings and literature. The neurobiological basis of creativity in individuals with and without mental illness.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and seminars three hours a week.

NEUR 3001 [0.5 credit]**Data Analysis in Neuroscience I**

Introducing software for analyzing neuroscience data. Drawing graphs, correlations, regression, with a focus on the appropriate use of statistical methods and interpretation of results.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001 and PSYC 2002, or NEUR 2001 and NEUR 2002.

Lectures three hours a week, online labs/workshops.

NEUR 3002 [0.5 credit]**Data Analysis in Neuroscience II**

Use of software for analyzing neuroscience data. Various forms of ANOVA, and an introduction to nonparametric statistical tests; the appropriate use of statistical methods and interpretation of results.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3001.

Lectures three hours a week, online labs/workshops.

NEUR 3203 [0.5 credit]**Field Course in Animal Behaviour**

Offered in the Department of Biology as BIOL 3605. Only those modules dealing with animal behaviour topics may be offered for Neuroscience credit.

Includes: Experiential Learning Activity

Also listed as BIOL 3605.

Precludes additional credit for PSYC 3203.

Prerequisite(s): permission of the department.

NEUR 3204 [0.5 credit]**Neuropharmacology**

Introduction to synaptic mechanisms and the arrangements of the transmitter-specific brain systems, followed by a discussion of neuro-pharmacological bases of normal and abnormal behaviour and of the behavioural effects of various classes of psychoactive drugs such as stimulants, tranquilizers, opiates.

Precludes additional credit for PSYC 3204 (no longer offered).

Prerequisite(s): NEUR 2200 or NEUR 2201.

Lectures and seminars three hours a week.

NEUR 3206 [0.5 credit]**Sensory and Motor Neuroscience**

Exploration of major topics in sensory processing and motor control, with a focus on underlying mechanisms and neurobiological principles. Topics include all sensory systems (such as vision, somatosensation and audition) plus motor system components including lower and upper motor neurons, basal ganglia, and cerebellum.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 3200 (no longer offered), NEUR 3200 (no longer offered), PSYC 3202 (no longer offered) and NEUR 3202 (no longer offered).

Prerequisite(s): NEUR 1201 or both NEUR 1202 and NEUR 1203, and either NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week, laboratory three hours a week.

NEUR 3207 [0.5 credit]**Systems Neuroscience**

Neural systems underlying complex behaviours including emotion, motivation, and sleep, and the role of association cortices in brain function.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 3200 (no longer offered) and PSYC 3200 (no longer offered).

Prerequisite(s): NEUR 1201 or both NEUR 1202 and NEUR 1203, and either NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week, laboratory three hours a week.

NEUR 3301 [0.5 credit]**Genetics of Mental Health**

Most common mental health diseases have a genetic component. By focusing on specific diseases, this course will discuss how disease susceptibility genes are identified, and describe the genetic, genomic and epigenetic mechanisms through which DNA alterations can predispose to disease.

Prerequisite(s): BIOL 2104 or BIOL 2107, and NEUR 2200 or NEUR 2201.

Lectures three hours a week.

NEUR 3303 [0.5 credit]**The Neuroscience of Consciousness**

Consciousness remains one of the least understood aspects of the nervous system. This course explores neural mechanisms underlying consciousness, changes in consciousness associated with sleep, coma, vegetative states, drugs, and other stimuli, and considers the evolutionary basis of consciousness, and its relationship with awareness.

Prerequisite(s): NEUR 2200 or NEUR 2202.

Lectures three hours a week.

NEUR 3304 [0.5 credit]**Hormones and Behaviour**

The effects of hormones throughout life at all levels of the nervous system. The role of hormones in mediating behaviours that are both basic (feeding, reproduction and social interactions) and complex (motivation, emotion, learning and memory).

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3401 [0.5 credit]**Environmental Toxins and Mental Health**

Exposure to environmental toxins from the air, water or food can interfere with neuronal function, alter neurodevelopment, and damage the brain. This course will explore associations between toxins and diseases such as Parkinson's disease, multiple sclerosis and depression, focusing on mechanisms underlying development of pathology.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3402 [0.5 credit]**Impact of Lifestyle and Social Interactions on Mental Health**

Healthy lifestyle choices and positive social interactions can reduce the incidence of pathological conditions such as depression, obesity, cardiovascular disease and impaired immunity. This course focuses on psychosocial and neurobiological mechanisms that underlie the relationship between lifestyle, social interactions and health.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3403 [0.5 credit]**Stress and Mental Health**

Stressful events can have profound repercussions on physical and psychological well-being. This course examines the psychosocial and biological processes by which stressors predispose to both physical (immune-related disorders, diabetes, heart disease) and psychological (acute stress disorder, posttraumatic stress disorder, depression, anxiety) pathologies.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3501 [0.5 credit]**Neurodegeneration and Aging**

Neurodegeneration is particularly acute in the aging population, and is characteristic of diseases such as Alzheimer's, Parkinson's, multiple sclerosis and Huntington's disease. This course will explore mechanisms underlying neurodegeneration, plus recent advances aimed at the restoration of nervous tissue, potentially curing these pathologies.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3502 [0.5 credit]**Neurodevelopmental Determinants of Mental Health**

Development of the human brain, the generation and differentiation of the various cell types, and the formation of the vast network of neural connections. How neurodevelopmental dysregulation can result in pathologies including dyslexia, ADHD, schizophrenia and autism.

Prerequisite(s): NEUR 2200, or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

NEUR 4001 [0.5 credit]**Special Topics in Neuroscience**

Each section of NEUR 4001 deals with a different topic. Topics change yearly. Students may register in more than one section of NEUR 4001 but can register in each section only once.

Prerequisite(s): NEUR 3200, or NEUR 3204 and NEUR 3206 and NEUR 3207, or permission of the Department.

Lectures three hours a week.

NEUR 4200 [0.5 credit]**Seminar on Current Advances in Neuroscience**

Headline research in neuroscience. Topics may include technical and conceptual advances, ethical issues, medical improvement, and social impacts of neuroscience research.

Precludes additional credit for PSYC 4200 (no longer offered).

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminar three hours a week.

NEUR 4202 [0.5 credit]**Seminar on Current Research in Neuroscience and Psychiatric Disease**

Recent research in clinical neuroscience including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, substance abuse, and personality disorders.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminar three hours a week.

NEUR 4203 [0.5 credit]**Seminar on Current Research in Neuroscience and Clinical Neurology**

Recent research in neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminars three hours a week.

NEUR 4301 [0.5 credit]**Neurobiology of Energy Homeostasis**

Focus on neuroanatomical and molecular mechanisms underlying how mammals adapt to changes and challenges in the environment. Topics include regulation of feeding, energy expenditure, water balance, and temperature regulation.

Prerequisite(s): NEUR 3304.

Lectures three hours a week.

NEUR 4302 [0.5 credit]**Sex and the Brain**

Neurobiological processes behind reproductive behaviours in various animal species including humans. Evaluation of data concerning neurobiological differences between sexes, biological determinants of sexual orientation, and relating to neurobiology of sex disorders.

Precludes additional credit for NEUR 3302 (no longer offered).

Prerequisite(s): NEUR 3304.

Lectures three hours a week.

NEUR 4303 [0.5 credit]**Indigenous Health & Mental Health**

The physical and mental health issues of Indigenous people in the context of the cultural, environmental, developmental and biological factors that contribute to comorbid conditions and greater risk and resilience.

Prerequisite(s): 3rd year standing or above.

Lectures three hours a week.

NEUR 4305 [0.5 credit]**Immune-Brain Interactions**

Communication between the brain and the immune system; messengers mediating the interaction. How disturbances of immune-brain signaling can lead to disease (multiple sclerosis, Parkinson's) and to changes in mood and cognition.

Precludes additional credit for NEUR 3305 (no longer offered).

Prerequisite(s): NEUR 3200 or NEUR 3207.

Lectures three hours a week.

NEUR 4306 [0.5 credit]**The Neural Basis of Addiction**

How substance and behavioural addictions impact neural function to ultimately lead to the neuropathology of addiction in vulnerable populations. Contemporary neurobiological theories of addiction will also be addressed.

Precludes additional credit for NEUR 3306.

Prerequisite(s): NEUR 3204.

Lecture three hours a week.

NEUR 4600 [0.5 credit]**Advanced Lab in Neuroanatomy**

Advanced experiential learning in neuroanatomy, histology and microscopy.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3200 or both NEUR 3206 and

NEUR 3207, fourth-year standing in a Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.

NEUR 4801 [0.5 credit]**Neuroethics**

Ethical issues of key importance to current neurobiological research. Topics may include the use of animals in research, stem cell research, genetic diagnosis and gene therapy, neuroimaging, and the effect on identity and autonomy of manipulations such as psychopharmaceuticals and psychosurgery.

Prerequisite(s): NEUR 3200 or both NEUR 3206 and NEUR 3207.

Lectures and seminars three hours a week.

NEUR 4900 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally students may not offer more than one credit of independent study in their total program.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth- year standing and permission of the Department.

NEUR 4905 [1.0 credit]**Honours Workshop**

The course will focus on active learning in areas that include written and oral communication, evaluation and interpretation of results, statistics and data management, emphasizing transferable skills that will be most appropriate for non-research career paths.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4907 and NEUR 4908.

Prerequisite(s): fourth-year standing in an Honours Neuroscience program and permission of the Department.

Lectures and seminars three hours a week, and colloquia three hours a week.

NEUR 4907 [1.0 credit]**Honours Essay and Research Proposal**

An independent essay based critical review and research proposal on a topic in neuroscience, using library resources, under the direct supervision of a Faculty advisor. Evaluation is based on a written report.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4905 and NEUR 4908.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.

Seminar three hours a week and colloquia three hours a week.

NEUR 4908 [1.0 credit]**Honours Research Thesis**

An independent research project undertaken under the direct supervision of a faculty advisor typically from the Department of Neuroscience. Evaluation is based on a written report and poster.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4905 and NEUR 4907.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum CGPA of 9.0 and permission of the Department.

Colloquia three hours a week.

Performance in Public Sphere (PIPS)**Performance in the Public Sphere (PIPS) Courses****PIPS 2000 [0.5 credit]****Theories of Performance in the Public Sphere**

Introduction to the interdisciplinary field of Performance Studies. History and theory of public performance. Contemporary public performance in the Canadian context.

Prerequisite(s): Second-year standing or permission of the department.

Lectures three hours a week.

PIPS 2001 [0.5 credit]**Workshop in Contemporary and Historical Modes of Performance**

The course explores selected modes of performance drawn from a variety of historical periods and traditions. Students learn through seminars and experiential forms of learning in weekly, practice-based discussions and exercises.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year standing or permission of the department.

Workshop three hours per week.

PIPS 3000 [0.5 credit]**Site-Specific Performance**

This course gives students an opportunity to research, design, curate, and produce a site-specific performance in the national capital region as part of an interdisciplinary collaborative team.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing or permission of the department.

Workshop three hours per week.

PIPS 3001 [0.5 credit]**Experimental Uses of Technology in Performance**

Innovative uses of analogue and digital technologies in performance contexts. Issues in the design of lighting, audio, screen and interactive technologies related to public spaces, movement and performance.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing or permission of the department.

Workshop three hours per week.

PIPS 4200 [0.5 credit]**Special Topics in Performance and the Public Sphere**

Course focuses on one selected aspect of performance in the public sphere. Course offerings change from year to year.

Prerequisite(s): Fourth-year standing or permission of the department.

Seminar three hours per week.

PIPS 4800 [0.5 credit]**Practicum in Performance Studies**

The undergraduate practicum provides students an experiential-learning opportunity to apply their knowledge in Carleton Dominion-Chalmers Centre and other organizations and venues in the national capital region.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing or permission of the department.

Workshop three hours per week.

Philosophy (PHIL)

Philosophy (PHIL) Courses**PHIL 1000 [0.5 credit]****Introductory Philosophy: Fields, Figures and Problems**

What is metaphysics? Who was Socrates? What is Freedom? This introduction sketches many branches of philosophy and the important problems associated with each. It introduces great philosophers, present and past, and traces enduring philosophical themes.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211, PHIL 1100. This course is not suitable for students with previous formal study of philosophy.

PHIL 1100 [1.0 credit]**Looking at Philosophy**

Introduction to philosophy: the nature of logical thinking; the existence of God; the objectivity of values; the meaning of life; free will, determinism and responsibility; the relation between mind and body; immortality; the possibility of knowledge. This course is not intended for Majors.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211 and PHIL 1000.

Lectures three hours a week.

PHIL 1200 [0.5 credit]**The Meaning of Life**

An introduction to concerns expressed by the perennial philosophical question, "What is the meaning of life?" Students will be familiarized with the major philosophical approaches to life's meaning through a consideration of various contemporary and late modern works in the philosophy of life.

Lectures three hours a week.

PHIL 1301 [0.5 credit]**Mind, World, and Knowledge**

Introduction to a variety of philosophical works, including contemporary, on such topics as: the nature of being, the mental, the external, consciousness, perception, experience, meaning, truth, the nature of knowledge, scientific understanding, and how language and thought represent the world.

Precludes additional credit for PHIL 1006 (no longer offered), PHIL 1501 (no longer offered).

Lectures three hours per week.

PHIL 1500 [1.0 credit]**Contemporary Moral, Social and Religious Issues**

Moral theories, atheism or theism, feminism, and free will. Moral arguments concerning abortion, affirmative action, racism, human rights, children's rights, world hunger, capital punishment, euthanasia, censorship, pornography, legal paternalism, animal rights and environmental protection.

Precludes additional credit for FYSM 1209 and PHIL 1550. Lectures three hours a week.

PHIL 1550 [0.5 credit]**Introduction to Ethics and Social Issues**

An introduction to understanding, assessing, and formulating ethical arguments concerning controversial issues. Particular issues studied, such as world hunger, capital punishment, abortion, animal rights, terrorism, may vary each time the course is offered.

Precludes additional credit for FYSM 1209 and PHIL 1500.

Lectures three hours a week.

PHIL 1610 [0.5 credit]**Great Philosophical Ideas, Part 1**

Major figures and developments in philosophy from the early Greeks to the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments.

Precludes additional credit for FYSM 1300, PHIL 1600.

Lectures three hours a week.

PHIL 1620 [0.5 credit]**Great Philosophical Ideas, Part 2**

Major figures and developments in philosophy after the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments.

Precludes additional credit for FYSM 1300, PHIL 1600.

Lectures three hours a week.

PHIL 1700 [0.5 credit]**Philosophy of Love and Sex**

A survey of philosophical classics, on themes of romantic love, self-love, altruistic love, sexuality, eroticism and the passion/reason dichotomy, from Plato's Symposium to Foucault's History of Sexuality; and an examination of related contemporary issues in light of these perspectives.

Lectures three hours a week.

PHIL 2001 [0.5 credit]**Introduction to Logic**

An introduction to the techniques and philosophical implications of formal logic with emphasis on translation of expressions into symbolic form, testing for logical correctness, the formulation and application of rules of inference, and the relation between logic and language. Open to first-year students.

Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2003 [0.5 credit]**Critical Thinking**

Assessment of reasoning and the development of cogent patterns of thinking. Reference to formal logic is minimal. Practice in criticizing examples of reasoning and in formulating one's own reasons correctly and clearly. Open to first-year students.

Lectures three hours a week.

PHIL 2005 [1.0 credit]**Greek Philosophy and the Western Tradition**

The Greek tradition from its pre-Socratic beginnings to Hellenistic and Roman philosophy (Cynicism, Epicureanism, Stoicism, Scepticism); focus on Socrates, Plato, and Aristotle. Its conservation and reappropriation in the Middle Ages and Renaissance.

Also listed as CLCV 2105.

Precludes additional credit for PHIL 2006, CLCV 2006, PHIL 2007, CLCV 2007 (no longer offered).

Prerequisite(s): 0.5 credit in PHIL, or second-year standing.

Lectures three hours a week.

PHIL 2010 [0.5 credit]**Issues in Theoretical Philosophy**

Issues drawn from epistemology, metaphysics, philosophy of mind, philosophy of language, and related fields will be examined through careful study of significant philosophical texts after 1900, along with some ensuing debates.

Prerequisite(s): enrolment in Honours or Combined Honours Philosophy programs, or in philosophy, Ethics, and Public Affairs, or permission of the Department.

Lectures and discussion three hours a week.

PHIL 2020 [0.5 credit]**Issues in Practical Philosophy**

Issues drawn from ethics, social and political philosophy, and related fields will be examined through careful study of significant philosophical texts, along with some ensuing debates.

Includes: Experiential Learning Activity

Prerequisite(s): enrolment in Honours or Combined Honours Philosophy programs, or in philosophy, Ethics, and Public Affairs, or permission of the Department.

Lectures and discussion three hours a week.

PHIL 2101 [0.5 credit]**History of Ethics**

An introduction to ethical theories through a study of some of the major figures in moral philosophy, such as Aristotle, Hume, Kant and Mill.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2103 [0.5 credit]**Philosophy of Human Rights**

Philosophical introduction to human rights sources, concepts, justifications, consequences, and challenges to them. Evolution of selected human rights as a) demands made in political struggles; b) declarations supported by moral or political principles and arguments; c) codes ratified and implemented by governments and international organizations.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2104 [0.5 credit]**Computer Ethics**

Philosophical foundations of computer ethics. The ethical impact of computerization on intellectual property rights, the right to privacy, and freedom of expression; ethical issues of risk management and reliability; professional codes. Ethical problems posed by specific technologies and research areas may also be included.

Precludes additional credit for PHIL 2106.

Prerequisite(s): a course in philosophy or second-year standing. Primarily intended for Computer Science students.

Lectures three hours a week.

PHIL 2106 [0.5 credit]**Information Ethics**

Ethical aspects of the influence of information technology on intellectual property rights, privacy, free speech, work and society. Also included are an introduction to philosophical ethics and discussions of moral responsibilities of IT professionals, codes of professional ethics, hacker ethics, viruses and software piracy.

Precludes additional credit for PHIL 2104.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2201 [0.5 credit]**Introduction to Marxist Philosophy**

The evolution of Marx's social and political views in the setting of 18 th - and 19 th - century anarchism, liberalism and conservatism. Themes of humanism, freedom, rights, the state, democracy, alienation, and inequality, primarily as they develop into the theory of historical materialism.

Precludes additional credit for PHIL 2200.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2202 [0.5 credit]**Topics in Marxist Philosophy**

The dialectical materialism of Marx, Engels, and Lenin is compared with traditional materialist, idealist, and mechanist philosophy. Marxist views on issues such as equality, ethical objectivity, human well-being, matter and mind, the existence of God, knowledge versus skepticism, freedom of the will, and justice.

Precludes additional credit for PHIL 2200.

Prerequisite(s): PHIL 2201 or 0.5 credit in the history of philosophy at the 2000-level or above.

Lectures three hours a week.

PHIL 2301 [0.5 credit]**Introduction to the Philosophy of Science**

Philosophical issues arising out of the attempt to understand the world scientifically. Topics may include: scientific methodology, revolution, observation, explanation, causation, induction, reduction, the difference between natural and social scientific understanding, realism, instrumentalism, constructivism.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2306 [0.5 credit]**Philosophy and Feminism**

A study of philosophical issues arising from feminism. The course includes discussions of the relations between feminism, reason and ideological commitment, as well as critical evaluation of contemporary views on selected topics (e.g. abortion, pornography and censorship, affirmative action, and beauty).

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2307 [0.5 credit]**Gender and Philosophy**

Topics may include the role of gender categories in the history of philosophy, theories of gender and sexual orientation, the politics of gender and sexuality, the place of the body in philosophical theory, and the influence of gender and gender metaphors on science and medicine.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2380 [0.5 credit]**Introduction to Environmental Ethics**

Major questions in environmental ethics: How should human beings view their relationship to the rest of nature? Is responsible stewardship of the environment compatible with current technology? Must future generations be protected? Do animals, other life forms, endangered species, ecosystems and/or the biosphere have value/ rights?.

Precludes additional credit for PHIL 1804.

Lectures three hours a week.

PHIL 2405 [0.5 credit]**Philosophy of the Paranormal**

Examination of claims, concepts, theories and methods in parapsychology. Their scientific character and the relation of paranormal phenomena to philosophical issues such as survival of death, human nature, time, space, causality and perception.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2408 [0.5 credit]**Bioethics**

Ethical and political issues in medicine, public health, biotechnology, and the life sciences. Topics may include reproductive ethics, research on human subjects, animal research and treatment, justice and health care, physician-patient relationships, death and the end of life, and genetic engineering.

Precludes additional credit for PHIL 3408.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2501 [0.5 credit]**Introduction to Philosophy of Mind**

An introduction to major philosophical issues concerning human cognition. Topics may include: the relation of mind to body, knowledge of other minds, the relation of mental states to personhood and personal identity, mental illness, consciousness, intentionality, action, mental realism.

Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2504 [0.5 credit]**Language and Communication**

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. The nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as COMS 2504, LING 2504.

Precludes additional credit for COMM 2800, LALS 2504, LALS 2800 and PHIL 2800.

Prerequisite(s): second-year standing.

Lectures three hours a week.

PHIL 2520 [0.5 credit]**Introduction to Philosophical Logic**

An introduction to features of rational thinking activity, its expression, and its relation to the world, focusing on such topics as predication, truth, negation, necessity, entailment, logical form, or quantification.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2540 [0.5 credit]**Personal Identity and the Self**

Philosophical perspectives on personal identity, the self, and the underlying issue of the relationship of the mind to the body. Both philosophical and psychological concepts of identity are discussed, as are related issues such as memory, introspection, and self-knowledge.

Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2550 [0.5 credit]**Moral Psychology**

An examination of psychological underpinnings of morality, focusing on studies at the intersection of philosophy, psychiatry, and psychology.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2601 [0.5 credit]**Philosophy of Religion**

A study of philosophical issues arising from religion. Topics may include: arguments for and against the existence of God, religious experience, death and the afterlife, miracles, God and evil, the relationship between religion and science, and the relationship between religion and ethics.

Also listed as RELI 2738.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2700 [0.5 credit]**Asian Philosophy**

An examination of South Asian and East Asian philosophical texts, from the period of the Upanishads and early Buddhism in India to modern philosophical movements. Historical sources may include Hindu, Buddhist, Jain, Confucian or Taoist texts, with a focus on metaphysical, epistemological or ethical themes.

Prerequisite(s): second-year standing.

Lectures three hours a week. May be offered as an online course in selected terms.

PHIL 2807 [0.5 credit]**Philosophy of Art**

Philosophical approaches to the study of art. Topics such as: the nature of art and artistic value; representation and symbolism in art; art and artifice; art and the emotions; art, culture and ideology; post-structuralism and art; theories of creativity; relationship between artworks and audiences.

Also listed as ARTH 2807.

Lecture three hours a week.

PHIL 2901 [0.5 credit]**Truth and Propaganda**

Ancient and modern techniques of persuasion from analytical, ethical and jurisprudential perspectives. Objectivity and bias, advertising and public relations ethics, the viability of democracy in the light of pressures on and within the modern mass media.

Precludes additional credit for PHIL 2900 (no longer offered).

Prerequisite(s): 0.5 credit in PHIL or second-year standing.

Lectures three hours per week.

PHIL 3000 [0.5 credit]**Topics in Ancient Philosophy**

A study of philosophers, texts, problems and issues in ancient philosophy, generally with a focus on Plato and Aristotle.

Also listed as CLCV 3011.

Prerequisite(s): 0.5 credit in philosophy and second-year standing, or permission of the department.

Lectures three hours a week.

PHIL 3001 [0.5 credit]**Early Greek Philosophy**

A study of the pre-Socratic Greek philosophers and of the Sophists and Socrates.

Also listed as CLCV 3001.

Prerequisite(s): CLCV 2105 or PHIL 2005 or permission of the Department.

Lectures three hours a week.

PHIL 3002 [0.5 credit]**17th Century Philosophy**

European philosophy of the 17th century. Representative works of writers such as Francis Bacon, Descartes, Spinoza, Leibniz, and Locke.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 3003 [0.5 credit]**18th Century Philosophy**

European philosophy of the 18th century. Representative works of writers such as Berkeley, Hume, and Kant.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 3005 [0.5 credit]**19th Century Philosophy**

European philosophy in the 19th century. May include Hegel, Marx, Schopenhauer, Kierkegaard, Nietzsche, Mill. Precludes additional credit for PHIL 3007.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the Department.

Lectures three hours a week.

PHIL 3009 [0.5 credit]**Topics in European Philosophy**

A study of philosophers, texts, problems and issues in any period of European philosophy.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3010 [0.5 credit]**Philosophical Traditions**

A study of philosophers, texts, and doctrines beyond the Western tradition. Traditions covered will vary but may include Asian, African, Muslim or Aboriginal philosophy, possibly with critical comparison to Western counterparts. Precludes additional credit for PHIL 2004.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

PHIL 3102 [0.5 credit]**Philosophy of Law: The Logic of Law**

Legal reasoning and analysis of concepts of particular significance to the law, including justice, rights and duties, liability, punishment, ownership and possession.

Also listed as LAWS 3102.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 3104 [0.5 credit]**The Roots of Analytic Philosophy**

In the context of the work of such writers as Frege and Bradley, a discussion of early philosophical works of Russell, Moore and Wittgenstein. In addition some early representatives of positivism and pragmatism may be examined.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures and seminar three hours a week.

PHIL 3140 [0.5 credit]**Epistemology**

Fundamental issues concerning the relation between evidence, rationality, and knowledge. Topics may include: skepticism, the nature of belief, the structure of justification, the relative contributions of reason and sense experience to knowledge, innate knowledge, the problem of induction, and the knowledge of other minds.

Precludes additional credit for PHIL 2300.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program or permission of the department.

PHIL 3150 [0.5 credit]**Metaphysics**

Philosophical issues concerning the fundamental nature of being. Topics may include: time and temporality, space, substance, universals/particulars, identity, causation, freedom/determinism, the nature of norms.

Precludes additional credit for PHIL 2302.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program, or permission of the department.

PHIL 3301 [0.5 credit]**Issues in the Philosophy of Science**

Selected topic(s) in the philosophy of science or in the philosophy of a particular science (such as philosophy of mathematics, philosophy of physics, philosophy of biology, and philosophy of the social sciences).

Prerequisite(s): PHIL 2301 or permission of the department.

Lectures three hours a week.

PHIL 3306 [0.5 credit]**Symbolic Logic**

A review of the basic techniques of propositional and predicate logic. Natural deduction and consistency trees. Soundness and completeness. Alternative semantics.

Extensions to basic logic: identity, modal logic with possible world semantics, three valued systems, deontic logic.

Precludes additional credit for PHIL 3305.

Prerequisite(s): PHIL 2001 or permission of the Department.

Lectures three hours a week.

PHIL 3320 [0.5 credit]**Contemporary Ethical Theory**

Critical study of modern ethical theories, their views on the nature of morality and the justification of moral claims. Topics may include utilitarianism, libertarianism, communitarianism, egoism, neo-Kantianism, virtue ethics, social contract ethics, feminist ethics, and moral rights.

Precludes additional credit for PHIL 2102.

Prerequisite(s): PHIL 2020 or PHIL 2101 or permission of the department.

Lectures three hours a week.

PHIL 3330 [0.5 credit]**Topics in History of Social and Political Philosophy**

A critical examination of selected topics and perspectives in the history of social and political philosophy.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3340 [0.5 credit]**Topics in Contemporary Social and Political Philosophy**

A critical examination of some contemporary approaches to topics in social and political philosophy, such as liberalism, feminism, contractarianism, Marxism, libertarianism, and communitarianism.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3350 [0.5 credit]**Philosophy, Ethics, and Public Affairs**

Advanced study of a set of public policy issues, a particular theory or group of theories, or a particular philosopher, concerning philosophical and ethical aspects of public affairs.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3360 [0.5 credit]**Philosophy, Economics, and Public Policy**

The course explores issues at the intersection of philosophy and economics, with a special focus on socially and politically relevant issues. Topics may include: efficiency, cooperation, equity and distributive justice, commodification and the moral limits of markets.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3380 [0.5 credit]**Environments, Technology and Values**

Advanced treatment of ethical issues concerning technologies and environments, including: sustainable development, women and the environment, biological diversity, intrinsic or natural value or rights of non-humans, humans' relation to the rest of the natural world, obligations to future generations, liberty versus equality.

Precludes additional credit for PHIL 2804.

Prerequisite(s): PHIL 1804 or PHIL 2380 and third-year standing, or permission of the Department.

Lectures three hours a week.

PHIL 3450 [0.5 credit]**Topics in Aesthetics**

Topics may include theories of aesthetic norms and valuation from ancient Greece onward, or applications of aesthetic theory to various genres of art.

Precludes additional credit for PHIL 2400, PHIL 3400, PHIL 3401, and PHIL 3402.

Prerequisite(s): At least 0.5 credit in philosophy, or HUMS 1000, or ARTH 2807, or permission of the Department.

Seminar two hours a week.

PHIL 3501 [0.5 credit]**Philosophy of Cognitive Science**

Philosophical issues arising from cognitive science. Topics may include: the proper methodology for studying the mind, the very possibility of a "science of mind", the computer model of the mind and reactions to it.

Prerequisite(s): PHIL 2501 or PHIL 2502 or second-year standing in Cognitive Science, or permission of the department.

PHIL 3502 [0.5 credit]**Mind and Action**

Philosophical thought concerning the relation between mentality and agency. Topics may include: the relation between belief, desire, and behaviour; rationality and normativity; representing and doing; subjectivity and intersubjectivity; physical and psychological laws; mental causation. Authors may include: Wittgenstein, Heidegger, Ryle, Sellars, Anscombe, Davidson, Taylor, McDowell. Prerequisite(s): PHIL 2501 or PHIL 2502, or permission of the Department.

PHIL 3504 [0.5 credit]**Pragmatics**

The study of language use in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as LING 3504.

Precludes additional credit for LALS 2800 [1.0], LALS 3504, MCOM 2800 [1.0], MCOM 3504 and PHIL 2800 [1.0].

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/LING 3505/PHIL 3506; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3506 [0.5 credit]**Semantics**

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics.

Also listed as LING 3505.

Precludes additional credit for LALS 3505.

Prerequisite(s): third-year standing, and one of LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or PHIL/LALS/LING 3504; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3530 [0.5 credit]**Philosophy of Language**

An intensive introduction to philosophy of language. Topics may include meaning, reference and truth, speech acts, the nature of concepts, language learning, metaphor, compositionality, context-sensitivity.

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/LING 3504 or LALS/LING 3505/PHIL 3506; or permission of the department.

Lectures three hours a week.

PHIL 3901 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3902 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3903 [0.5 credit]**Independent Study**

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3906 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3907 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3908 [0.5 credit]**Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 4003 [0.5 credit]**Seminar in philosophy Before the Modern Period**

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4004 [0.5 credit]**Seminar in philosophy Before the Modern Period**

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4005 [0.5 credit]**Seminar in Modern Philosophy**

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4006 [0.5 credit]**Seminar in Modern Philosophy**

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4007 [0.5 credit]**Seminar in Contemporary Philosophy**

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4008 [0.5 credit]**Seminar in Contemporary Philosophy**

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4055 [0.5 credit]**Lexical Semantics**

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Also listed as LING 4510.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506.

Also offered at the graduate level, with different requirements, as LING 5510 and PHIL 5660, for which additional credit is precluded.

Seminars three hours a week.

PHIL 4100 [0.5 credit]**Special Topic**

Detailed study of a special topic in philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5000, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4210 [0.5 credit]**Seminar in philosophy of Language or Linguistics**

Detailed study of selected issues or the work of selected philosophers in philosophy of language or on philosophical topics in linguistics.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4220 [0.5 credit]**Seminar in philosophy of Mind or Cognition**

Detailed study of selected issues or the work of selected philosophers in philosophy of mind or philosophical aspects of cognition.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4230 [0.5 credit]**Seminar in Metaphysics, Epistemology, or Philosophy of Science**

Detailed study of selected issues or the work of selected philosophers in metaphysics, epistemology, or philosophy of science.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5250, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4300 [0.5 credit]**Seminar in Ethical Theory or Meta-Ethics**

Detailed study of selected issues pertaining to ethical theory or issues of meta-ethics such as realism, relativism, moral knowledge.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5300, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4320 [0.5 credit]**Seminar in Ethics or Moral Philosophy**

Detailed study of selected issues in ethics or moral philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4330 [0.5 credit]**Seminar in Social or Political Philosophy**

Detailed study of selected issues in social or political philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4403 [0.5 credit]**Special Topic in Applied Ethics**

Detailed study of a special topic in applied ethics.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4404 [0.5 credit]**Special Topic in Applied Ethics**

Detailed study of a special topic in applied ethics.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4405 [0.5 credit]**Special Topic in Aesthetics or Philosophy of Art**

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4406 [0.5 credit]**Special Topic in Aesthetics or Philosophy of Art**

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4407 [0.5 credit]**Special Topic in Philosophy of Law**

Detailed study of a special topic in philosophy of law. Also listed as LAWS 4103.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4408 [0.5 credit]**Special Topic in Philosophy of Law**

Detailed study of a special topic in philosophy of law. Also listed as LAWS 4104.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4503 [0.5 credit]**Special Topic in Philosophy of Computing**

Detailed study of a special topic in philosophy of computing.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4504 [0.5 credit]**Special Topic in Philosophy of Computing**

Detailed study of a special topic in philosophy of computing.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4505 [0.5 credit]**Formal Semantics**

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Also listed as LING 4505.

Precludes additional credit for LALS 4507 (no longer offered).

Prerequisite(s): LALS 3505 or LING 3505 or PHIL 3506 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

PHIL 4603 [0.5 credit]**Special Topic in Feminist Philosophy**

Detailed study of a special topic in feminist philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4604 [0.5 credit]**Special Topic in Feminist Philosophy**

Detailed study of a special topic in feminist philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4606 [0.5 credit]**Special Topic in Continental Philosophy**

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4607 [0.5 credit]**Special Topic in Continental Philosophy**

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4701 [0.5 credit]**Special Topic in Logic**

Detailed study of a special topic in Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4702 [0.5 credit]**Special Topic in Logic**

Detailed study of a special topic in Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4703 [0.5 credit]**Special Topic in Philosophical Logic**

Detailed study of a special topic in Philosophical Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4704 [0.5 credit]**Special Topic in Philosophical Logic**

Detailed study of a special topic in Philosophical Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4900 [1.0 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note:

Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4901 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note:

Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4902 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note:

Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4903 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note:

Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4904 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note:

Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4906 [0.5 credit]**Tutorial**

Prerequisite(s): permission of the Department. Note:

Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

Physics (PHYS)

Physics (PHYS) Courses

PHYS 1001 [0.5 credit]

Foundations of Physics I

This calculus-based course on classical mechanics covers kinematics, dynamics, gravitation, and oscillatory motion.

This is a specialist course for students intending to take further courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1003, PHYS 1007.

Prerequisite(s): Grade 12 Mathematics: Advanced Functions and Grade 12 Mathematics: Calculus and Vectors or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently); or permission of the Physics Department. Grade 12 Physics is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1002 [0.5 credit]

Foundations of Physics II

An introduction to electricity, magnetism, electromagnetic fields, and wave motion. This is a specialist course for students intending to take further courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1004, PHYS 1008.

Prerequisite(s): PHYS 1001, or PHYS 1003, or PHYS 1007 with a grade of B-; MATH 1004 or MATH 1002 (may be taken concurrently) or MATH 2052 (may be taken concurrently); or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1003 [0.5 credit]

Introductory Mechanics and Thermodynamics

Mechanics, gravitation, oscillations, and thermodynamics.

The application of calculus to solve problems in these areas of physics is introduced. This course is intended for students in the physical sciences and engineering.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1007.

Prerequisite(s): Grade 12 Physics or equivalent, plus Grade 12 Mathematics: Advanced Functions or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently). Note that Grade 12 Mathematics: Calculus and Vectors is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1004 [0.5 credit]

Introductory Electromagnetism and Wave Motion

This calculus-based course introduces potential energy, work, electricity, magnetism, oscillations and waves.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1008.

Prerequisite(s): MATH 1004, ECOR 1101 or ECOR 1053 (The ECOR course may be taken concurrently) or PHYS 1001 or PHYS 1003 or PHYS 1007 (a grade of at least B- is required for PHYS 1007), or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1007 [0.5 credit]

Elementary University Physics I

Mechanics, properties of matter, thermodynamics.

Applications chosen in part from the life sciences. For students who lack the prerequisites for PHYS 1001 or PHYS 1003, or who do not intend to take upper-year courses in physics.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1003.

Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent, or MATH 0107 (may be taken concurrently); or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 (may be taken concurrently); or (iii) permission of the Physics Department.

Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1008 [0.5 credit]

Elementary University Physics II

Electricity and magnetism, DC and AC circuits, wave motion and light. Elements of modern physics.

Applications chosen in part from the life sciences.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1004.

Prerequisite(s): PHYS 1001 or PHYS 1003 or PHYS 1007.

Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1901 [0.5 credit]

Planetary Astronomy

Description of the known stellar, galactic and extra-galactic systems together with the instruments used to study them. Modern ideas concerning the structure, origin and evolution of our own planet. Formation of the Moon - Earth system. Study of the planets in our solar system.

Precludes additional credit for PHYS 2203.

Lectures two and one-half hours a week.

PHYS 1902 [0.5 credit]**From our Star to the Cosmos**

Starting with the Sun, the course studies its composition and source of power, then compares our Sun with the other stars in the galaxy and beyond. Modern ideas concerning the structure, origin and evolution of the universe, pulsars and supernovae are examined.

Precludes additional credit for PHYS 2203.

Lectures two and one-half hours a week.

PHYS 1905 [0.5 credit]**Physics Behind Everyday Life**

Examination of the physics behind everyday life. Topics may include transportation, sports, weather and climate, electricity, and sustainable energy. No science background is required. Faculty of Science students may only take this course as a free elective.

Includes: Experiential Learning Activity

Online Course.

PHYS 2004 [0.5 credit]**Modern Physics for Engineers**

Introduction to aspects of modern physics relevant to engineering. Thermal radiation. Concepts of relativistic kinematics. Wave-particle duality. Elements of quantum mechanics. Optical and x-ray spectra, lasers. Nuclear physics and applications. Condensed matter physics. Precludes additional credit for PHYS 2604.

Prerequisite(s): PHYS 1002 or PHYS 1004 or PHYS 1008 with a grade of B- or better, plus MATH 1004 and MATH 1104 or equivalent. Restricted to B.Eng. students not in the Engineering Physics program. Students in programs other than B.Eng. must obtain permission of the Department.

Lectures three hours a week.

PHYS 2101 [0.5 credit]**Mechanics and Properties of Matter**

Equations of motion for a single particle. Harmonic oscillation. Noninertial reference frames. Orbits in a central force field. Motion of systems of particles and of rigid bodies. Introduction to special relativity. Laboratory experiments in classical mechanics and properties of matter.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall average of B- or better; MATH 1004 and MATH 1104, or MATH 1002 and MATH 1102.

Lectures three hours a week, laboratory three hours a week, tutorials (optional) once a week.

PHYS 2202 [0.5 credit]**Wave Motion and Optics**

Geometrical optics. Types of waves, vibrating string and the classical wave equation. General solutions for traveling waves. Superposition and interference, coherence, wave packets, waves in 2 and 3 dimensions. Propagation of electromagnetic waves. Light and physical optics, oscillator model for dispersion, diffraction, polarization, and refraction.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1104 or MATH 1102 or MATH 2152, and MATH 2004 or MATH 2000 (may be taken concurrently).

Lectures three hours a week, laboratory three hours a week.

PHYS 2203 [0.5 credit]**Astronomy**

The observational basis of astronomy. The history of astronomy, properties of light, solar system observations and stellar astronomy.

Precludes additional credit for PHYS 1901 and PHYS 1902.

Prerequisite(s): PHYS 1002 or PHYS 1004 or permission of the department. PHYS 1008 with a grade of B- or better may also be used if MATH 1004 or MATH 1007 or MATH 1002 or MATH 2052 have been successfully completed.

Lectures three hours a week.

PHYS 2305 [0.5 credit]**Electricity and Magnetism**

Electrostatic field and potential, Gauss' law. Properties of conductors. Magnetic effects from currents. Motion of charges in electric and magnetic fields. Energy in electric and magnetic fields. Electromagnetic induction. Maxwell's equations in vacuum using vector differential and integral calculus.

Prerequisite(s): PHYS 1001, PHYS 1002, or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or higher; MATH 2004 or MATH 2000 (may be taken concurrently).

Lectures three hours a week.

PHYS 2306 [0.5 credit]**Physics of Electrical and Electronic Measurements I**

D.C. and A.C. circuit theory. Resonant circuits. Basic measuring devices, the oscilloscope; impedances, bandwidth, noise; vacuum tubes, transistors, useful approximations for circuit design; feedback, amplifiers, oscillators; operational circuits; digital circuits. Lectures emphasize the physical basis of instrument design.

Laboratory emphasizes modern digital instrumentation.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1001, PHYS 1002 or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or better.

Lectures three hours a week, laboratory three hours a week.

PHYS 2401 [0.5 credit]**Thermal Physics**

Introduction to thermodynamics and statistical mechanics. Temperature and thermodynamic equilibrium. Work, internal energy and heat; first law. Kinetic theory of gases. Basic probability theory. Microscopic states and entropy. Absolute temperature, reversibility and the second law of thermodynamics. Thermodynamic processes and applications.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004, (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B-); plus MATH 1004 and MATH 1104 or MATH 1002 (no longer offered) and MATH 1102 (no longer offered), or MATH 2052 and MATH 2152.

Lectures three hours a week.

PHYS 2604 [0.5 credit]**Modern Physics I**

The course is designed to provide a logical transition from classical to modern physics. Special relativity. Rutherford scattering, atomic models. Thermal radiation. Photoelectric effect, Compton scattering. Bohr theory of the hydrogen atom. Atomic energy states, optical spectra, lasers. X-rays. Radioactivity. Quantum Mechanics.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 2004.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1004 and MATH 1104, or MATH 1002 (no longer offered) and MATH 1102 (no longer offered) or MATH 2052 and MATH 2152.

Lectures three hours a week, laboratory three hours a week.

PHYS 2903 [0.5 credit]**Physics Towards the Future**

From classical phenomena to aspects of modern physics and recent advances. Topics may include light and colour, music and sound, cell phones, the galaxy and beyond. No science background is required. Faculty of Science students may only take this course as a free elective.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Online course.

PHYS 3007 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Seminars**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3008, PHYS 3009.

Prerequisite(s): PHYS 2202 and PHYS 2604, or permission of the Department.

Six hours a week.

PHYS 3008 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Workshop**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3007, PHYS 3009.

Prerequisite(s): PHYS 2202 and PHYS 2604, or permission of the department.

Six hours a week.

PHYS 3009 [0.5 credit]**Third Year Physics Laboratory: Selected Experiments and Seminars with Observational Astronomy**

Students complete a small number of experiments selected from astronomy, astrophysics, modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. At least one astronomy/astrophysics related experiment is required. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3007, PHYS 3008.

Prerequisite(s): PHYS 2202, PHYS 2604 and PHYS 2203 or permission of the Department.

Six hours a week.

PHYS 3207 [0.5 credit]**Topics in Biophysics**

Introduction to biophysics. Random motion of molecules and diffusion; viscosity and the circulatory system; laws of thermodynamics and physical forces responsible for chemical reactions, molecular self-assembly and recognition; enzyme kinetics and molecular machines; nerve impulse and its propagation.

Prerequisite(s): PHYS 2604 or permission of the Department.

Lectures three hours a week, tutorial or seminar one hour a week.

PHYS 3308 [0.5 credit]**Electromagnetism**

Electrostatics field and magnetostatics in the presence of matter. Solving Laplace's and Poisson's equations. Multipole expansions. Vector potential. Faraday's laws of induction; Maxwell's equations in matter. Waves in vacuum and dielectric media, guided waves.

Precludes additional credit for ELEC 3909.

Prerequisite(s): PHYS 2202, PHYS 2604, PHYS 2305, MATH 2004 or MATH 2008, and MATH 3705, or permission of the Department.

Lectures three hours a week.

PHYS 3402 [0.5 credit]**Heat and Thermodynamics**

Zeroth, First, Second and Third Laws of Thermodynamics; enthalpy, Helmholtz and Gibbs functions and the Maxwell relations; phase transitions; thermodynamics of magnetism; cryogenics cooling by Joule-Thompson effect, adiabatic expansion of a gas, adiabatic demagnetization, helium dilution refrigeration; black body radiation; negative temperatures.

Prerequisite(s): PHYS 2101 and PHYS 2305, MATH 2007, MATH 2008, MATH 2107 and MATH 2401 or permission of the Department.

Lectures three hours a week.

PHYS 3606 [0.5 credit]**Modern Physics II**

Elements of condensed matter physics, semiconductors, superconductivity. Elements of nuclear physics, fission, fusion, power generation. Introduction to particle physics. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging.

Includes: Experiential Learning Activity

Also listed as PHYS 3608.

Prerequisite(s): PHYS 2604 and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory two hours a week.

PHYS 3608 [0.5 credit]**Modern Applied Physics**

Elements of condensed matter physics, semiconductors, superconductivity. Modern optics. Elements of nuclear physics, fission, fusion, power generation. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging.

Includes: Experiential Learning Activity

Also listed as PHYS 3606.

Prerequisite(s): PHYS 2604 and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory three hours a week.

PHYS 3701 [0.5 credit]**Elements of Quantum Mechanics**

Analysis of interference experiments with waves and particles; fundamental concepts of quantum mechanics, Schrödinger equation; angular momentum, atomic beams; hydrogen atom; atomic and molecular spectroscopy; Pauli principle; simple applications in the physics of elementary particles.

Prerequisite(s): PHYS 2604, MATH 2000 [1.0] (may be taken concurrently), or MATH 2004 or MATH 2008, and MATH 3705 (may be taken concurrently), or permission of the Department.

Lectures three hours a week.

PHYS 3801 [0.5 credit]**Classical Mechanics**

Introduction to Lagrangian and Hamiltonian mechanics: Poisson brackets, tensors and dyadics; rigid body rotations: introductory fluid mechanics coupled systems and normal coordinates; relativistic dynamics.

Prerequisite(s): PHYS 2101, PHYS 2202, PHYS 2305, MATH 2007, MATH 2008, MATH 2107, MATH 2401 or permission of the Department.

Lectures three hours a week.

PHYS 3802 [0.5 credit]**Advanced Dynamics**

Equations of motion for a single particle. Oscillatory Motion. Lagrangian and Hamiltonian formulations of mechanics. Central force motion. Motion of systems of particles and of rigid bodies.

Prerequisite(s): PHYS 2202, PHYS 2604, and MATH 2004, or permission of the Department.

Lectures three hours a week.

PHYS 3807 [0.5 credit]**Mathematical Physics I**

Boundary Value problems involving curvilinear coordinates; spherical harmonics, Bessel functions, Green's functions. Functions of a complex variable: analytic functions, contour integration, residue calculus.

Precludes additional credit for MATH 3007 or MATH 3057.

Prerequisite(s): PHYS 2202, MATH 2004, MATH 3705 or permission of the Department.

Lectures three hours a week, tutorial one hour a week.

PHYS 3808 [0.5 credit]**Mathematical Physics II**

Solution of second-order total differential equations by Frobenius' method. Sturm-Liouville theory. Special functions: Legendre, Bessel, Hermite, Laguerre and associated functions. Partial differential equations: method of separation of variables, eigenfunctions and eigenvalues and eigenfunction expansions. Green's function techniques for solving inhomogeneous partial differential equations.

Precludes additional credit for MATH 3004, MATH 3008, MATH 3705, and PHYS 3806.

Prerequisite(s): PHYS 3807 or MATH 3007 or permission of the Department.

Lectures three hours a week.

PHYS 3999 [0.0 credit]**Co-operative Work Term Report**

Provides practical experience for students enrolled in the Co-operative option. Students must receive satisfactory evaluations from their work term employer. Written and oral reports will be required. Graded as Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Physics Co-operative education option and permission of the Department.

PHYS 4007 [0.5 credit]**Fourth-Year Physics Laboratory: Selected Experiments and Seminars**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 3606 (or PHYS 3608) and registration in the Engineering Physics program.

Laboratory, six hours a week.

PHYS 4008 [0.5 credit]**Fourth-Year Physics Laboratory: Selected Experiments and Workshop**

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 3007.

Six hours a week.

PHYS 4201 [0.5 credit]**Astrophysics**

Stellar evolution, including stellar modeling, main sequence stars, red giants and the end states of stars such as neutron stars and black holes. Galactic structure and dynamics. Neutrino astrophysics.

Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently).

Also offered at the graduate level, with different requirements, as PHYS 5401, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4202 [0.5 credit]**Cosmology**

Observational evidence for the Big Bang. Cosmological space-time, expansion dynamics and contents of the universe. Physical processes in the expanding universe, inflation, nucleosynthesis, the cosmic microwave background, dark matter, and dark energy.

Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently).

Also offered at the graduate level, with different requirements, as PHYS 5402, for which additional credit is precluded.

Lectures three hours per week.

PHYS 4203 [0.5 credit]**Physical Applications of Fourier Analysis**

Fourier transform, convolution. Sampling theorem. Applications to imaging: descriptors of spatial resolution, filtering. Correlation, noise power. Discrete Fourier transform, FFT. Filtering of noisy signals. Image reconstruction in computed tomography and magnetic resonance. Laplace transform. Integral transforms, application to boundary value problems.

Prerequisite(s): MATH 3705, or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5313, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4208 [0.5 credit]**Modern Optics**

Electromagnetic wave propagation; reflection, refraction; Gaussian beams, guided waves. Laser theory: stimulated emission, cavity optics, modes, gain and bandwidth; atomic and molecular lasers. Mode locking, Q switching. Diffraction theory, coherence, Fourier optics, holography, laser applications. Optical communication systems, nonlinear effects: devices, fibre sensors, integrated optics.

Prerequisite(s): PHYS 2202, PHYS 3606 (or PHYS 3608), and PHYS 3308 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5318, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4307 [0.5 credit]**Electromagnetic Radiation**

Electromagnetic wave propagation in a vacuum, dielectrics, conductors, and ionized gases, reflection, refraction, polarization at the plane boundary between two media; waveguide and transmission line propagation; dipole and quadrupole radiation fields; antenna systems. Electromagnetic mass, radiation pressure. Tensor notation, transformation of the electromagnetic fields.

Prerequisite(s): PHYS 3308, PHYS 3801, PHYS 3807 and PHYS 3808 (except for Mathematics and Physics Double Honours students), or permission of the Department.

Lectures three hours a week.

PHYS 4407 [0.5 credit]**Statistical Physics**

Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics are derived, and applied in appropriate physical situations. Fluctuations. Kinetics and transport processes, including the Boltzmann transport equation and some of its applications.

Prerequisite(s): PHYS 3402, PHYS 2602 or PHYS 3601, PHYS 3701 or PHYS 3602, PHYS 4707 (may be taken concurrently); or permission of the Department.

Lectures three hours a week.

PHYS 4409 [0.5 credit]**Thermodynamics and Statistical Physics**

The three Laws of Thermodynamics, enthalpy, Helmholtz and Gibbs functions. Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics.

Precludes additional credit for PHYS 3402 and PHYS 4407.

Prerequisite(s): PHYS 3701 (may be taken concurrently), MATH 2004 and MATH 3705, or permission of the Department.

PHYS 4508 [0.5 credit]**Solid State Physics**

An introduction to solid state physics. Topics include crystal structure, phonons and lattice vibrations, conductors, semiconductors, insulators and superconductivity.

Prerequisite(s): PHYS 3606 or PHYS 3608, and PHYS 3701, or permission of the Department.

Lectures three hours a week.

PHYS 4602 [0.5 credit]**Physics of Elementary Particles**

Standard Model. Properties of leptons, quarks, hadrons. Fundamental interactions: photon, gluons, W/Z bosons. Higgs boson. Conservation laws, invariance principles, quantum numbers. Decay rates and scattering cross-sections. Quantum electrodynamics and chromodynamics. Resonances. Weak interactions, CKM matrix, parity and CP violation. Neutrino masses and oscillations. Future directions.

Prerequisite(s): PHYS 4707 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5602, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4608 [0.5 credit]**Nuclear Physics**

Ground state properties of nuclei. Nuclear models, binding energy, properties of excited nuclei. Alpha, beta and gamma decay. Passage of radiation through matter, detectors. Nuclear reactions, cross sections, fission, fusion. Elements of neutron physics.

Prerequisite(s): PHYS 3606 or PHYS 3608 or permission of the Department.

Lectures three hours a week.

PHYS 4707 [0.5 credit]**Introduction to Quantum Mechanics I**

The basic interpretative postulates of quantum mechanics; applications of wave mechanics and operator methods to various quantum mechanical systems; quantum mechanical treatment of angular momentum.

Prerequisite(s): PHYS 3701 and PHYS 3807 or equivalent, or permission of the Department.

Lectures three hours a week.

PHYS 4708 [0.5 credit]**Introduction to Quantum Mechanics II**

Scattering theory and application; bound state problems; approximation methods.

Prerequisite(s): PHYS 4707 or permission of the Department.

Lectures three hours a week.

PHYS 4804 [0.5 credit]**Introduction to General Relativity**

Special relativity using tensor analysis. Curved spacetime with physics applications which may include the solar system, stars, black holes and gravitational waves.

Introduction to differential geometry and Einstein's field equations.

Prerequisite(s): PHYS 3308, PHYS 3802 and PHYS 3807 or equivalent, or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5804, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4807 [0.5 credit]**Computational Physics**

Computational methods used in analysis of experimental data. Introduction to probability and random variables. Monte Carlo methods for simulation of random processes. Statistical methods for parameter estimation and hypothesis tests. Confidence intervals. Multivariate data classification. Unfolding methods. Examples primarily from particle and medical physics.

Prerequisite(s): third year standing in a physics program and an ability to program in FORTRAN, Java, C or C++, and permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5002, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4901 [0.5 credit]**Special Topics in Physics**

Each year, at the direction of the Department, a course on a special topic may be offered.

Prerequisite(s): permission of the Department.

PHYS 4907 [0.5 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Fall term only.

PHYS 4908 [0.5 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Winter term only.

PHYS 4909 [1.0 credit]**Fourth-Year Project**

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written mid-term progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project

Political Management (POLM)

Political Management (POLM) Courses**POLM 3000 [0.5 credit]****Introduction to Political Management**

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as COMS 3100, PSCI 3410.

Precludes additional credit for COMM 3100 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week.

POLM 4010 [0.5 credit]**Polling and Opinion Research**

The different elements of opinion research such as opinion measurement, questionnaire design, interviewing, data analysis and interpretation, and how this helps understand the process by which citizens make decisions about political issues.

Prerequisite(s): POLM 3000.

Also offered at the graduate level, with different requirements, as POLM 5010, for which additional credit is precluded.

Seminar three hours a week.

POLM 4012 [0.5 credit]**Advocacy and Government Relations in Canada**

Through applied exercises, case studies and a project with an external organization, students will build knowledge and skills required for advocacy and government relations in the private and voluntary sectors.

Prerequisite(s): POLM 3000.

Also offered at the graduate level, with different requirements, as POLM 5012, for which additional credit is precluded.

Seminar three hours per week

Political Science (PSCI)

Political Science (PSCI) Courses**PSCI 1100 [0.5 credit]****Democracy in Theory and Practice**

Introduction to modern political ideas such as liberty, equality, the rule of law, representation, participation (including gender aspects), the impact of these ideas on political and policy making institutions in Canada; other countries may be examined. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000, PSCI 1001, and PSCI 1003.

Lectures two hours a week, tutorials one hour a week.

PSCI 1200 [0.5 credit]**World Politics**

Compares politics in selected states and world regions, including political institutions and cultures, development, public policy making, and gender. Global issues and international relations among states, international organizations, and other actors. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000 (no longer offered), PSCI 1002, GPOL 1000 (no longer offered) and GPOL 1500.

Lectures two hours a week, tutorials one hour a week.

PSCI 1500 [0.5 credit]**Technology, Nature, Power**

Social media, self-driving cars, genetic manipulation: technology is transforming both the human experience and the natural world. This course explores interactions among technological change, the evolution of social and political order, and the transformation of the environment (for example, with climate change).

Lectures two hours a week.

PSCI 1501 [0.5 credit]**Politics of Migration**

Introduction to concepts and theories that help explain the complex phenomenon of human migration, including the social and political relevance of different types of migration to Canada and in other regions and the political responses to migration and mobility today.

Lectures two hours a week, tutorials one hour a week.

PSCI 2002 [0.5 credit]**Canadian Politics and Civil Society**

An examination of the cultural, social, and economic context of Canadian politics, including interest groups and social movements, regionalism, language, ethnicity, and gender.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2003 [0.5 credit]**Canadian Political Institutions**

An examination of Canadian political institutions, including federalism, Parliament, the constitution, political parties and the electoral system.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2101 [0.5 credit]**Comparative Politics of the Global North**

Domestic politics in states of the Global North. Comparison of political and economic regimes, political institutions, actors, political processes and cultures, and patterns of public policy making.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2102 [0.5 credit]**Comparative Politics of the Global South**

Introduction to domestic politics in post-colonial and developing states of the Global South. Topics may include nationalism, authoritarianism, economic development, revolution, democratization, and the politics of gender, religion, and ethnicity.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2200 [0.5 credit]**Introduction to U.S. Politics**

An examination of several important aspects of the U.S. political system, including separation of powers, checks and balances, and federalism.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorial one hour a week.

PSCI 2301 [0.5 credit]**History of Political Thought I**

Western political thought from classical times to the Renaissance: Plato, Aristotle, and other thinkers. Precludes additional credit for PSCI 2300 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2302 [0.5 credit]**History of Political Thought II**

Western political thought from the Renaissance: Machiavelli, Hobbes, Locke, Rousseau and other thinkers. Precludes additional credit for PSCI 2300 [1.0] (no longer offered).

Prerequisite(s): PSCI 2301 or permission of the department.

Lectures two hours a week, tutorials one hour a week.

PSCI 2401 [0.5 credit]**Public Affairs Analysis**

Introduction to central concepts and processes involved in public affairs. Exploration of public issues, policy approaches and decision-making structures using theoretical, empirical and applied approaches. Precludes additional credit for PSCI 2400 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2500 [0.5 credit]**Gender and Politics**

Introduction to gender and politics of diversity, including how feminist activism and organizing finds expression in the political process and structures of representation such as political parties, legislatures and the state.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2601 [0.5 credit]**International Relations: Global Politics**

Introduction to theories, concepts and issues in global politics. Topics may include conflict and intervention, peace and security, international institutions, norms and ethics, human rights, gender, culture, and globalization. Precludes additional credit for GPOL 1000 (no longer offered), GPOL 1500.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2602 [0.5 credit]**International Relations: Global Political Economy**

Introduction to the international political economy. Topics may include contemporary changes in the global political economy, multinational corporations, foreign economic policy, global and regional economic institutions, environmental issues, international development and relations between rich and poor countries.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2701 [0.5 credit]**Introduction to Research Methods in Political Science**

Introduction to the logic and design of research. Measurement and inference in qualitative and quantitative political science.

Precludes additional credit for PSCI 2700 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2702 [0.5 credit]**Quantitative Research Methods in Political Science**

The logic and methods of the quantitative study of politics, with emphasis on the application and interpretation of statistical techniques for data analysis. Students are strongly encouraged to take this course the same year as PSCI 2701.

Includes: Experiential Learning Activity

Precludes additional credit for ENST 2006, GEOG 2006, PSCI 2700 (no longer offered).

Prerequisite(s): PSCI 2701 or permission of the Department.

Lectures two hours a week, tutorials one hour a week.

PSCI 3000 [0.5 credit]**Canadian Provincial Politics**

A comparative examination of the nature of Canadian provincial politics. Topics include: political culture, history, party systems, electoral systems and voting behaviour.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3004 [0.5 credit]**Political Parties and Elections in Canada**

The evolution of the party system, the growth of major and minor party movements and the electoral process in Canada.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3005 [0.5 credit]**Ontario Government and Politics**

A survey of the political process and political institutions in Ontario.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3006 [0.5 credit]**Social Power in Canadian Politics**

The role of social forces in the Canadian political process, including interest groups, social movements, elites and classes.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3007 [0.5 credit]**Constitutional Politics in Canada**

The politics of the Canadian constitution. Particular attention to historical and contemporary constitutional reform.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3100 [0.5 credit]**Politics of Development in Africa**

The historical background of African independence, and contemporary struggle for democracy and economic development in Africa.

Prerequisite(s): third-year standing and one of AFRI 1002, GPOL 1000, GPOL 1500, GPOL 2500 or PSCI 2102.

Lectures three hours a week.

PSCI 3101 [0.5 credit]**Politics of War in Africa**

The recurrent crises of war, and political instability in Africa, along with regional and international efforts to resolve them.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3102 [0.5 credit]**Politics of Development of China**

The evolving structures and processes of government in (greater) China with particular emphasis on politics in the People's Republic of China and secondary emphasis on Taiwan and Hong Kong.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3103 [0.5 credit]**State, Society and Economy in Northeast Asia**

The relationship between government structures, society and the economy in Northeast Asia with particular emphasis on Japan and Korea.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3105 [0.5 credit]**Imperialism**

Ideologies, practices, and legacies of western dominance over Asia, Africa, and Latin America. Examines the complexities of imperial control and the colonial relationship from the nineteenth century to present.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3107 [0.5 credit]**The Causes of War**

Alternate theories of the causes of war. Such alternate perspectives as biological, social and comparative historical approaches, including the results of peace research activities of the past two decades.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2601.

Lectures three hours a week.

PSCI 3108 [0.5 credit]**Politics of Popular Culture**

Examines political themes in popular culture. Cultural media may include film, literature, television, music, cartoons/comics, and the news media. Political themes may include war, ethnicity, nationalism, revolution, citizenship, gender and sexuality.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3109 [0.5 credit]**The Politics of Law and Morality**

Politics of moral regulation in Canada, the United States and other jurisdictions. The treatment in law and public policy of such human rights issues as: capital punishment, sexual orientation, euthanasia, abortion, new reproductive technologies, racial discrimination, religious and equality rights.

Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003 or PSCI 2101.

Lectures three hours a week.

PSCI 3200 [0.5 credit]**U.S. Constitutional Politics**

The central role played by the U.S. Constitution in the country's political life, from the Framers to current controversies. Includes issues of race, class and gender.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3203 [0.5 credit]**Government and Politics in the Middle East**

The evolution and functioning of political systems in the Middle East region, with emphasis on the problems of political stability, the impact of the West, the role of Islam, and war and peace.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3204 [0.5 credit]**Politics of Latin America**

An overview of the evolution of Latin American political systems, including the impact of the European conquest, democratization, economic liberalization, state-civil society relations, gender politics, revolutionary movements, and relations with the United States.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3205 [0.5 credit]**Mexican Politics**

An introduction to the politics, society and economy of Mexico. Topics include processes of democratization and economic liberalization, human rights, the environment, the role of women, labour, and indigenous peoples, and social policy. Special emphasis on Mexico's role in the North American political economy.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of GPOL 1500, GPOL 2500, PSCI 2102 or PSCI 2602.

Lectures three hours a week.

PSCI 3206 [0.5 credit]**European Democracies**

A comparative examination of select controversies over democracy in specific European countries, considered within the context of 20th century historical trends, as well as contemporary political debates.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3207 [0.5 credit]**The Government and Politics of European Integration**

The process of European integration; the European Union and its institutions; core EU policies, challenges to the integration process (e.g. democratic legitimacy, enlargement); theories of European integration.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3208 [0.5 credit]**Politics in Russia and Ukraine: Power and Contestation**

Political development in post-Soviet Russia and Ukraine, including examination of the complicated relationship between the two states. Historical perspectives, institutional context (including federalism) and comparative insights.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3209 [0.5 credit]**Reconstruction and Transformation in Europe and Eurasia**

The politics of dramatic political changes, such as revolution, secession, constitutional revision, and systemic reform. The course will include selected historical and comparative cases from Central and Eastern Europe and the former Soviet Union.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3210 [0.5 credit]**Electoral Politics in the U.S.**

An overview of specific aspects of U.S. electoral politics, including presidential and congressional elections, incumbency, the two-party system, campaign spending limits, the role of the media, and voter turnout.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3300 [0.5 credit]**Politics and Literature**

A study of imaginative prose in which political ideas and/or political settings dominate. Literature as political communication, the impact of literature upon politics, the peculiar value of literature in the study of politics and its shortcomings.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3302 [0.5 credit]**Comparative Political Thought**

A comparative survey of political thought focusing on a range of traditions that may include readings from Aboriginal, African, Chinese, Indian, Jewish, Latin American, Muslim, and Persian perspectives.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3303 [0.5 credit]**Feminist Political Theory**

Introduction to feminist philosophical responses to sexism, taking into consideration the different waves of feminist discourse. Topics may include the concept of gender; women's diversity and its implications; 'intersectionality'; gender, capitalism and the family; and new approaches to feminist knowledge and feminist agency.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3307 [0.5 credit]**Politics of Human Rights**

Politics of human rights in its historical and cultural context, including: early liberal theories of natural rights; utilitarian and Marxist critiques; contemporary rights debates; different generations of rights; feminism and women's rights; cultural relativism; state sovereignty; and, problems of implementation and enforcement.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3308 [0.5 credit]**Modern Political Thought**

A survey of trends in modern political thought, including some of liberalism, conservatism, neo-conservatism, Marxist and neo-Marxist socialism, communitarianism, postmodernism and globalization.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3309 [0.5 credit]**Modern Ideologies**

A survey of ideologies, mainly since 1900, including some of nationalism, utopian socialism, communism, fascism, populism, environmentalism and feminism.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3311 [0.5 credit]**History of Muslim Political Thought**

A survey of political thought among Muslims, tracing the emergence and influence of juridical, philosophical and administrative approaches to politics on Muslim civilization.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3312 [0.5 credit]**Enlightenment Political Thought**

Major Enlightenment thinkers and major themes of Enlightenment political thought. Topics may include reason, religion, toleration, liberty, equality, the foundations of political authority, autonomy, morals, taste, progress, history or commerce.

Prerequisite(s): third-year standing.

Lecture three hours a week.

PSCI 3401 [0.5 credit]**Canadian Public Administration**

Study of the institutions and dynamics of government in Canada, with emphasis on political context, administrative reforms, policy development and ongoing challenges. Analysis may include federal, provincial and/or municipal levels of government.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing and one of PSCI 2002, PSCI 2003, PSCI 2401, or PAMP 2000.

Lectures three hours a week.

PSCI 3402 [0.5 credit]**Canadian Public Policy**

Policy communities and policy networks in Canada with particular attention paid to policy issues, the political environment, policy instruments, impact and outcomes.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003, PSCI 2401, or PAMP 2000.

Lectures three hours a week.

PSCI 3405 [0.5 credit]**Comparative Public Policy Analysis**

The formation and impact of public policy: a variety of political systems as well as a variety of policy areas. Emphasis on developing skills for the analysis of policy formation and impact.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2101, PSCI 2400, PSCI 2401, or PAMP 2000.

Lectures three hours a week.

PSCI 3406 [0.5 credit]**Public Affairs and Media Strategies**

The public affairs and issue management strategies of corporations, government departments, and other institutions in Canada from a comparative perspective.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3407 [0.5 credit]**Public Opinion and Public Policy**

Theories about the origins and dynamics of public opinion, the ways in which public opinion influences government policy and decision-making, and how decision-makers are able to shape public opinion.

Prerequisite(s): PSCI 2701 and PSCI 2702.

Lectures three hours a week.

PSCI 3410 [0.5 credit]**Introduction to Political Management**

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as POLM 3000 and COMS 3100.

Prerequisite(s): third-year standing.

Lecture three hours a week.

PSCI 3502 [0.5 credit]**Gender and Politics: Global South**

A contemporary approach to the role of gender in political systems of the South. Topics may include gender and development, human rights, social policies, globalization, state-civil society relations, political participation and citizenship.

Prerequisite(s): third-year standing and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2102, PSCI 2500 or PSCI 3307.

Lectures three hours a week.

PSCI 3600 [0.5 credit]**International Institutions**

Origins, structure and functioning of international institutions with emphasis on the United Nations as well as regional organizations. Topics include peace and security, international aid and development, human rights and the control of global resources.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3601 [0.5 credit]**Theories of International Politics**

Examination of the major theoretical approaches to the study of international politics. Topics may include realism, liberalism, Marxism, constructivism, feminism, and poststructuralism.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2601.

Lectures three hours a week.

PSCI 3603 [0.5 credit]**Strategic Thought and International Security**

The ideas of classical and contemporary strategic thinkers. International security issues and concepts.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3606 [0.5 credit]**Canadian Foreign Policy**

The traditions, domestic influences, objectives, capabilities, and decision-making processes, and analysis of selected contemporary issues.

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2002, PSCI 2003, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3607 [0.5 credit]**North American Security and Defence Policy**

The evolution of Canadian and U.S. security and defence policy as it pertains to North America. Contemporary issues and development.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3608 [0.5 credit]**Migration Governance**

Advanced introduction to the politics of human mobility and migration, including attempts by states and other actors to influence migration and mobility and emerging types of governance at the national, regional and global levels.

Prerequisite(s): third-year standing or permission of the Department.

Lecture three hours a week.

PSCI 3609 [0.5 credit]**Global Politics of Food**

Drawing on theories of international relations, political economy, and public policy-making, this course examines the global, national and local politics of food production and distribution. Topics include food security, free trade versus fair trade, the environmental sustainability of food systems, food sovereignty and food aid.

Prerequisite(s): third-year standing or permission of the Department.

Lecture three hours a week.

PSCI 3700 [0.5 credit]**Government and Politics of South Asia**

Patterns of colonialism, evolving political regimes and issues in development and foreign policy in the countries of South Asia, including India, Pakistan, Bangladesh, Sri Lanka, and other member states of SAARC.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2102.

Lectures three hours a week.

PSCI 3702 [0.5 credit]**Israeli-Palestinian Relations**

The origins and evolution of the Israeli-Palestinian conflict and peace process.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and one of GPOL 1500, PSCI 2601 or PSCI 2602.

Lectures three hours a week.

PSCI 3703 [0.5 credit]**Governing in the Global Economy**

The main approaches and policy issues in the political economy of advanced industrialized states. The relationship between state and market and the ways in which national states have responded to the pressures of governing in an increasingly interdependent global economy.

Prerequisite(s): third-year standing and one of GPOL 1500 or PSCI 2602.

Lectures three hours a week.

PSCI 3704 [0.5 credit]**Government and Politics of Central and Eastern Europe**

A comparative examination of Central and Eastern European states and societies. Topics discussed include political institutions and processes, societal structures and collective identities, patterns of post-communist transformation, the impact of European integration, relations with Russia and post-Soviet States.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3709 [0.5 credit]**Ancient and Medieval Political Thought**

The significance for political theory of the ancient and medieval controversies over nature/convention, power/knowledge, time/eternity, theory/practice, and science/mysticism. Thinkers such as Homer, the pre-Socratics, Plato and Aristotle, the neo-Platonists, Augustine, and the Scholastics.

Prerequisite(s): (PSCI 2301 and PSCI 2302) or permission of the Department.

Lectures three hours a week.

PSCI 3801 [0.5 credit]**Environmental Politics**

Environmental issues in contemporary political argument. Topics include: environmental movements and green parties, environmental ethics and animal rights, economic approaches to environmental management, the politics of sustainable development, and the international politics of the environment.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3802 [0.5 credit]**Globalization and Human Rights**

An examination of the various dimensions and meanings of globalization and its relationship with human rights. The main emphasis will be on the implications of the emerging global economy for economic, social, political and cultural rights.

Also listed as SOCI 3027, ANTH 3027.

Prerequisite(s): third-year standing and one of:

GPOL 1500, SOCI 1010 [1.0], ANTH 1003[1.0], ANTH 1010[1.0], ISSC 1001[1.0], PSCI 2601, PSCI 2602, LAWS 2105, PHIL 2103 or (ANTH 1001 and ANTH 1002), or (SOCI 1001 and SOCI 1002).

Lectures three hours a week.

PSCI 3805 [0.5 credit]**Politics of Race**

The meaning, sources and practice of racialism, as well as efforts to combat it, in a comparative context. Case studies will include South Africa, the United States, and Canada.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3809 [0.5 credit]**Selected Topics in Political Science**

A lecture course on a selected contemporary topic in Political Science. Topic may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3900 [1.0 credit]**Études dirigées**

Une programme de lectures choisies et de travaux écrits dans le domaine de spécialisation d'un membre du département. Consulter le conseiller des études de premier cycle (Undergraduate supervisor) pour les sujets offerts.

Prerequisite(s): third-year standing in the Political Science Mention : Français program.

PSCI 3905 [1.5 credit]**Washington Center Internship**

One-term internship at The Washington Center in D.C.; options in American politics, international affairs, and other areas. Evaluation by Washington Center faculty, but governed by Carleton University Political Science Department regulations. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210 and permission of the department.

PSCI 3906 [1.0 credit]**Full-Year Political Science Internship**

Internship gives students the opportunity to work with an organization whose focus relates to politics over a full academic year. Students complete a research paper related to their internship. Students must identify an organization to host the internship and a faculty member to provide supervision.

Includes: Experiential Learning Activity

Precludes additional credit for GPOL 3100, PSCI 3907, Carleton/Leeds Parliamentary Exchange and the Washington Internship.

Prerequisite(s): third-year Honours standing with a minimum Political Science CGPA of 9.0 or permission of the Department.

PSCI 3907 [0.5 credit]**One-Term Political Science Internship**

Internship gives students the opportunity to work with an organization whose focus relates to politics over one academic term. Students complete a research paper related to their internship. Students must identify an organization to host the internship and a faculty member to provide supervision.

Includes: Experiential Learning Activity

Precludes additional credit for GPOL 3100, PSCI 3906, Carleton/Leeds Parliamentary Exchange and the Washington Internship.

Prerequisite(s): third-year Honours Standing with a minimum Political Science CGPA of 9.0 or permission of the Department.

PSCI 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

PSCI 4001 [0.5 credit]**Topics in Canadian Government and Politics**

A seminar focused on selected topics in Canadian government and politics.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4003 [0.5 credit]**Politics and the Media**

The role of the mass media in the Canadian political system from a comparative perspective.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4005 [0.5 credit]**Canadian Federalism**

The evolution and contemporary operation of the Canadian federal system; the social, political, economic, and structural features underlying its operational performance, resilience in crisis, and potential for adaptation.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, PSCI 2003 or PSCI 2101.

Also offered at the graduate level, with different requirements, as PSCI 5101, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4006 [0.5 credit]**Legislatures and Representation in Canada**

The role of Parliament and of the individual M.P. in terms of policy making, party discipline, and differing conceptions of representation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5006, for which additional credit is precluded.

Seminar three hours per week.

PSCI 4008 [0.5 credit]**National Security and Intelligence in the Modern State**

The state's response to foreign espionage, alleged subversion, terrorism, and counterintelligence. Major focus on the Canadian experience, but with extensive use of materials chronicling the practices of KGB, CIA, BIS, ASIO, MOSSAD, etc.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4009 [0.5 credit]**Quebec Politics**

Society, culture, economy and politics in Quebec. Special attention to the politically relevant changes since 1960 and the central place of Quebec within the Canadian federation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4010 [0.5 credit]**Executive Power in Canadian Politics**

Consideration of prime ministers, premiers, cabinet ministers and senior public service leadership in Canadian politics and government.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5010, for which additional credit is precluded.

PSCI 4103 [0.5 credit]**The Modern State**

A survey of recent thinking about the state in western societies drawing on perspectives such as those of feminists, Marxists, Weberians, poststructuralists and others. Topics may include: the rise of the modern state, economic governance, the public sphere, citizenship, sovereignty and territoriality.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4104 [0.5 credit]**Development in the Global South - Theory and Practice**

Different theoretical approaches to the concept of development in the Global South and their relevance for selected countries in Latin America, Africa and Asia.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4105 [0.5 credit]**Selected Problems in Development in the Global South**

Topics may include global issues of trade, finance and production, changing patterns of foreign aid, and the role of microfinance, mining, non-governmental organizations, migration, anti-poverty programs and activism in promoting development.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4107 [0.5 credit]**Political Participation in Canada**

The causes and implications of political participation by individuals with special reference to Canada. Topics include citizen participation in campaign and party organizations, political protest movements, interest groups, and community associations.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 2700, or (PSCI 2701 and PSCI 2702).

Seminar three hours a week.

PSCI 4109 [0.5 credit]**The Politics of the Canadian Charter of Rights and Freedoms**

The genesis and impact of the Charter of Rights and Freedoms. Particular emphasis on the politics of aboriginal, language, and equality rights.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4203 [0.5 credit]**Southern Africa After Apartheid**

The pathology of apartheid, the reasons for its end, and prospects for democratization and development in Southern Africa in the era of globalization.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5203, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4204 [0.5 credit]**Elections**

The conduct and meaning of elections in contemporary states. Attention to the connection of elections to concepts of representation, policy mandates, and political parties, and to electoral systems and referendums.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, GPOL 2500, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 2700, or (PSCI 2701 and PSCI 2702).

Also offered at the graduate level, with different requirements, as PSCI 5204, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4206 [0.5 credit]**Indigenous Politics of North America**

Issues of governance regarding the original peoples of Canada, Mexico and the United States since the European invasion. Contemporary movements for restoration of cultural, political, socio-economic, land and self-governance rights, emphasizing domestic and international strategies.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1500, GPOL 2500, PSCI 2001, PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, or PSCI 3205.

Also offered at the graduate level, with different requirements, as PSCI 5100, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4207 [0.5 credit]**Globalization, Adjustment and Democracy in Africa**

The nature of global pressures in Africa, as states go through political and economic change.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5107, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4209 [0.5 credit]**Westminster Democracies: Parliaments, Parties and Elections**

Examination of party and parliamentary democracy in the five principal Anglophone parliamentary democracies: Australia, Canada, Ireland, New Zealand and the United Kingdom. Consideration is given to the effects of different electoral systems and institutional arrangements on electoral politics, political participation, and party organization.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 2500, PSCI 2003, PSCI 2101, or PSCI 2102.

Seminar three hours a week.

PSCI 4210 [0.5 credit]**Political Identity through Graphic Novels**

Examination of the sources and dynamics of political identity through the medium of graphic novels and graphic memoirs. Themes may include collective memory, genocide, prostitution, violent conflict, civil rights, race and ethnicity, revolution, Indigenous issues, mental health, and gender and sexuality.

Prerequisite(s): fourth year standing or permission of the Department.

Seminar three hours a week.

PSCI 4302 [0.5 credit]**Political Thought in the Modern Muslim Middle East**

Contemporary secular and religious responses to the challenges of modernity. Readings include writings of Arab, Turkish, and Iranian intellectuals.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of (PSCI 2301 and PSCI 2302) or PSCI 3311.

Also offered at the graduate level, with different requirements, as PSCI 5305, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4303 [0.5 credit]**Governmentality and Politics**

Examination of Foucault's concept of governmentality and work which has developed this idea, especially the relevance of governmentality for global political studies. Topics may include sovereignty, biopolitics, technopolitics, neoliberalism and citizenship.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5303 and SOCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4308 [0.5 credit]**History of Political Enquiry**

An examination of methods adopted by major thinkers in the history of political philosophy, amidst changing understandings of metaphysics and science. Thinkers to be considered may include Plato, Aristotle, Descartes, Bacon, Kant, Hegel, Nietzsche, and Heidegger, among others.

Precludes additional credit for PSCI 4304 (no longer offered).

Prerequisite(s): PSCI 2301 and PSCI 2302 or permission of the Department.

Seminar three hours a week.

PSCI 4309 [0.5 credit]**Contemporary Approaches to Political Enquiry**

An examination of contemporary critiques and developments in modern science and social science. Thinkers to be considered may include Gadamer, Strauss, Oakeshott, Voegelin, Polanyi, Feuerabend, Heidegger, Kojève, Schmitt, Foucault, and Derrida.

Precludes additional credit for PSCI 4304 (no longer offered).

Prerequisite(s): PSCI 2301 and PSCI 2302 or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5309, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4311 [0.5 credit]**Political Theories of Democracy and Empire I**

An exploration of how ancient and modern conceptions of empire differ and how the pursuit of empire abroad can undermine good government at home in political theories including Thucydides, Plato, Aristotle and Xenophon. Precludes additional credit for PSCI 4310 (no longer offered).

Prerequisite(s): fourth-year Honours standing and (PSCI 2301 and PSCI 2302) or permission of the Department.

Seminar three hours a week.

PSCI 4312 [0.5 credit]**Political Theories of Democracy and Empire II**

An exploration of how ancient and modern conceptions of empire differ and how the pursuit of empire abroad can undermine good government at home in political theories including Machiavelli, Hobbes, Hegel, Tocqueville and Heidegger.

Precludes additional credit for PSCI 4310 (no longer offered).

Prerequisite(s): fourth-year Honours standing, (PSCI 2301 and PSCI 2302) and PSCI 4311 or permission of the Department.

Seminar three hours a week.

PSCI 4316 [0.5 credit]**Contemporary Political Theory I**

Focus on the main currents of political thought in late and post-modernity; the relation between classical and modern philosophy, tyranny and technology, existentialism and nihilism. Thinkers such as Strauss, Kojève, Nietzsche, Arendt, Heidegger and Schmitt may be read.

Precludes additional credit for PSCI 4305 (no longer offered).

Prerequisite(s): fourth-year Honours standing and (PSCI 2301 and PSCI 2302) or permission of the Department.

Seminar three hours a week.

PSCI 4317 [0.5 credit]**Contemporary Political Theory II**

Continues and expands themes examined in PSCI 4316, and will include post-modernism, investigations of technology and globalization, terrorism and trans-humanism. Representative thinkers may include Derrida, Foucault, Deleuze, Bataille, Rosen, Voegelin, Habermas and Steiner.

Precludes additional credit for PSCI 4305 (no longer offered).

Prerequisite(s): fourth-year Honours standing; PSCI 2301, PSCI 2302 and PSCI4316, or permission of the Department.

Seminar three hours a week.

PSCI 4318 [0.5 credit]**Concepts of Political Community I**

Critical survey of concepts of political community, including the common good, justice, citizenship, leadership, democracy, and legitimacy, from ancient, modern, and contemporary political theory.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5308, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4319 [0.5 credit]**Concepts of Political Community II**

A continued critical survey of concepts of political community, including the common good, justice, citizenship, statesmanship, democracy, and legitimacy, from ancient, modern, and contemporary political theory.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5309, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4400 [0.5 credit]**Socio-Technical Change and Public Policy Design**

Joint implications of contemporary science, technology and demographics for the design of public policy. The main emphasis of the course will be general patterns of change and design relating to public policy.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4403 [0.5 credit]**Reproductive Rights Policy in North America**

The interaction between social movements, legislatures and courts in formulating reproductive rights policy in Canada, the U.S. and Mexico.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4404 [0.5 credit]**The Design and Evolution of Public Institutions**

An examination of the emergence, development and collapse of institutional collective action in a broad historical framework, with attention to probable future scenarios for change. Readings are taken from anthropology, economics, history and empirical political theory.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4407 [0.5 credit]**Public Policy: Content and Creation**

The content and creation of public policy. Focus on the explanation, prediction and design of policy. Perspectives and examples are drawn from a variety of frameworks and from both Canadian and non-Canadian contexts.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2400, PSCI 2401, PSCI 3402, PSCI 3405, PSCI 3409 or PAPM 2000.

Seminar three hours a week.

PSCI 4408 [0.5 credit]**Public Affairs Management and Analysis**

Theories and practice in the management of public affairs, including the environment and administration of the public sector, public opinion, and public communications.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2401, PSCI 3401, PSCI 3404 or PAPM 2000.

Seminars three hours a week.

PSCI 4409 [0.5 credit]**Issues in Development Management**

An examination of the application of organization theory to policy implementation and evaluation for developing and transitional systems, with an emphasis on the role of cultural differences and divergent value systems in development management.

Also listed as INAF 4202.

Prerequisite(s): ECON 3508 and fourth-year standing in the B.P.A.P.M. program and registration in either the International Studies specialization or the Development Studies specialization or permission of the Department.

Lectures or seminars three hours a week.

PSCI 4500 [0.5 credit]**Gender and Globalization**

How globalization affects women's involvement in politics and how they organize to conceptualize and pursue gender justice in official politics; grass roots projects and cultural transformations; ideology; stand-alone movements; and mixed-sex movements like nationalism and democratization.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 2500, PSCI 3500, PSCI 3502. Seminars three hours a week.

PSCI 4501 [0.5 credit]**Politics of Identity in Europe and the Russian Area**

The relationships between political transformation, identity-building, ethnicity, and gender politics in post-communist states, considered in comparison with select countries in Central and/or Western Europe.

Includes: Experiential Learning Activity

Also listed as EURR 4205.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2101, PSCI 2102, PSCI 2500, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

PSCI 4502 [0.5 credit]**Post-Soviet States and Societies**

The relationship between social forces and state structures at both the national and local levels in the USSR and the post-communist states.

Also listed as EURR 4002.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of EURR 2001, EURR 2002, GPOL 1000, GPOL 1500, PSCI 3208, PSCI 3209, PSCI 3704, PSCI 3705, or HIST 2600.

Seminar three hours a week.

PSCI 4503 [0.5 credit]**Politics of Central Eurasia**

Examination of the Caucasus and Central Asia, from Chechnya to former Soviet republics of the region, Afghanistan and Chinese Turkestan. Interests of Russia, China, and the United States. Emphasis on underdevelopment, oil and gas, terrorism, Islam.

Includes: Experiential Learning Activity

Also listed as EURR 4207.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4504 [0.5 credit]**Politics of the Caucasus and Caspian Basin**

Examination of the South Caucasus (Azerbaijan, Georgia, Armenia), the Russian-held North Caucasus, including Chechnya, and relations with Iran. Emphasis on state and society, oil and gas, transregional communications, interests of western powers, ethnic relations.

Includes: Experiential Learning Activity

Also listed as EURR 4209.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4505 [0.5 credit]**Transitions to Democracy**

A comparative analysis of processes of democratization. Diverse theoretical approaches to understanding the timing, causes, nature, and limitations of democratization. Examples from Europe and Russia, Latin America, Africa, and Asia.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, GPOL 2500, PSCI 2102, PSCI 3100, PSCI 3204, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502, PSCI 3704, or PSCI 3705.

Seminar three hours a week.

PSCI 4506 [0.5 credit]**Women and Politics in North America**

The efforts of women in North America to increase their political role through public activism, including in party organizations, social movements, legislatures, courts and the executive branch of government.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4507 [0.5 credit]**The Balkans since 1989**

Selected topics in Balkan politics and society since the collapse of communism in 1989, focusing on the democratic transition and the EU accession process. The legacies of communist rule, democratization and the many national questions that still exist in the region.

Also listed as EURR 4102.

Prerequisite(s): fourth year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4601 [0.5 credit]**Foreign Policies of Soviet Successor States**

The foreign policies of the USSR and of Russia and selected other successor states, with special emphasis on the search for a new security order.

Also listed as EURR 4208.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of EURR 2001, EURR 2002, GPOL 1000, GPOL 1500, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 3107, PSCI 3208, PSCI 3209, PSCI 3600, PSCI 3603, PSCI 3703.

Seminar three hours a week.

PSCI 4603 [0.5 credit]**Analysis of International Political Economy**

Various theoretical approaches to the study of the international political economy, with a focus on historical development and changing international structures.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.

Seminar three hours a week.

PSCI 4604 [0.5 credit]**Selected Problems in International Political Economy**

Contemporary problems and issues in the international political economy, with particular attention given to advanced industrial countries.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.

Seminar three hours a week.

PSCI 4605 [0.5 credit]**Gender in International Relations**

Analysis of feminist approaches to international relations. Substantive issues include the role of women in war and militarization, the gender dimensions of global political economy and gender issues in international development.

Prerequisite(s): fourth-year Honours standing or permission of the Department and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3500, PSCI 3303 or PSCI 3502.

Seminars three hours a week.

PSCI 4606 [0.5 credit]**American Foreign Policy**

The sources, trends and conflicting interpretations of the international roles of the United States since World War II. Foreign policy machinery and processes assessed in terms of the relative importance of perceptions, ideology, self-interest, and domestic and foreign pressures.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2101, PSCI 2601, PSCI 2602, PSCI 3200, PSCI 3201, PSCI 3603, PSCI 3703.

Seminar three hours a week.

PSCI 4607 [0.5 credit]**Politics of North America**

A seminar examining the evolving relationship between Canada, the United States and Mexico, including political, economic, social, environmental and defence aspects.

Includes: Experiential Learning Activity

Precludes additional credit for PSCI 5607.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4608 [0.5 credit]**European Integration and European Security**

A seminar focusing on issues related to the formation of supra-national decision-making structures in Europe.

Includes: Experiential Learning Activity

Also listed as EURR 4104.

Prerequisite(s): fourth-year Honours standing or permission of the department.

Also offered at the graduate level, with different requirements, as PSCI 5608, and as EURR 4104/5104, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4609 [0.5 credit]**Selected Topics in European Integration Studies**

A seminar focusing on selected topics related to European integration in the post-World War II period.

Also listed as EURR 4106.

Prerequisite(s): fourth-year Honours standing or permission of the department.

Seminar three hours a week.

PSCI 4610 [0.5 credit]**Politics of Migration Management**

Seminar course that critically engages with innovative policies and instruments under the umbrella of 'migration management', and the proliferation of actors (states, international organizations, NGOs, private companies etc) involved in shaping and contributing to migration governance.

Prerequisite(s): fourth-year Honours standing or permission of the department.

Seminar three hours a week.

PSCI 4701 [0.5 credit]**Intermediate Polimetrics for Micro Data**

Research designs and statistical techniques primarily used in analyzing survey data. Selected topics may vary from year to year. Students doing Honours papers based on micro data are advised to take this course.

Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2700 or (PSCI 2701 and PSCI 2702), or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5701, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4702 [0.5 credit]**Intermediate Research Methods for Applied Political Science**

Applied methods for policy, politics and public affairs.

Primarily quantitative, but may have qualitative elements.

Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2700 or (PSCI 2701 and PSCI 2702), or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5702, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4800 [0.5 credit]**Advanced International Relations Theory**

Exploration of concepts, themes, and practices in contemporary international relations theory. Topics may include anarchy, empire, sovereignty, power, institutions, inequality, security, war, ethics, governance, and identity. Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3303, PSCI 3307.

Seminar three hours a week.

PSCI 4801 [0.5 credit]**Selected Problems in Global Politics**

The application of international relations theories to specific global problems, both historical and contemporary. Selected issues may focus on one or more of conflict analysis, terrorism, the environment, migration, globalization and global civil society.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3107, PSCI 3600, PSCI 3601, PSCI 3603, and PSCI 3703.

Seminar three hours a week.

PSCI 4802 [0.5 credit]**International Politics of Africa**

Focus on a particular theme related to the interactions of African states within the African subsystem and with other sectors in the international system.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2601, PSCI 2602, PSCI 3100 or PSCI 3101.

Seminar three hours a week.

PSCI 4803 [0.5 credit]**Foreign Policies of Major East Asian Powers**

The foreign policies of the East Asian powers, with special attention to China and Japan; an analysis of the domestic sources of policy, capabilities, interests, decision-making processes and foreign relations.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 3102, or PSCI 3103.

Seminar three hours a week.

PSCI 4805 [0.5 credit]**Political Economy of Global Money and Finance**

An exploration of the organization of the global monetary and financial system. Issues covered include the relationship between global finance and the state, the politics of world money, and the problems associated with regulating internationally-active financial institutions.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours or permission of the Department, and one of GPOL 1000, GPOL 1500, PSCI 2602, PSCI 3600, or PSCI 3703.

Also offered at the graduate level, with different requirements, as PSCI 5802, for which additional credit is precluded.

Seminars three hours a week.

PSCI 4806 [0.5 credit]**Transatlantic Security Issues**

NATO as a political and military alliance. NATO and 21st century threats. Security roles for the E.U. Broader transatlantic security issues.

Precludes additional credit for PSCI 5803.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2601, PSCI 3603, PSCI 3607, or GPOL 1500.

Seminars three hours a week.

PSCI 4807 [0.5 credit]**Politics of Citizenship and Migration**

How flows of people -- migrants, temporary workers and refugees -- challenge state sovereignty, citizenship and belonging. Emphasis on role of the state, supranational structures and international organizations in migration and mobility.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4808 [0.5 credit]**Global Environmental Politics**

Global politics of transboundary environmental issues such as biodiversity protection, climate change and desertification. The perspectives, actors, institutions and economic relationships affecting international policy responses to these issues.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2401, PSCI 2601, PSCI 2602, or PSCI 3801.

Seminar three hours a week.

PSCI 4809 [0.5 credit]**Honours Seminar on a Selected Topic in Political Science**

A seminar on a selected contemporary topic in Political Science. Topic may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4817 [0.5 credit]**International Politics of Forced Migration**

The relationship between international politics and the causes, consequences and responses to forced migration, internal displacement and refugees. Seminars and case studies are used to examine the evolution of the global refugee regime and the challenges it faces today.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4819 [0.5 credit]**Latin America in the World**

Latin America's changing relations with states, international institutions and non-state actors in the Global North and South. Topics may include security, South-South cooperation, trade, investment and transnational migration and drug trafficking.

Also listed as LACS 4819.

Prerequisite(s): fourth year standing or permission from the Department.

Seminar three hours a week.

PSCI 4900 [1.0 credit]**Tutorial in a Selected Field**

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4901 [0.5 credit]**Tutorial in a Selected Field**

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4902 [0.5 credit]**Tutorial in a Selected Field**

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4905 [0.5 credit]**Washington Center Seminar I**

A seminar offered by The Washington Center, governed by Carleton regulations, and co-ordinated by Carleton's Department of Political Science.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210.

Seminar three hours a week.

PSCI 4906 [0.5 credit]**Washington Center Seminar II**

A seminar offered by The Washington Center, governed by Carleton regulations, and co-ordinated by Carleton's Department of Political Science.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210.

Seminar three hours a week.

PSCI 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. Students are responsible for locating a faculty member willing to supervise the essay. Departmental regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Political Science with a Political Science CGPA of 9.00 or better, or permission of the Supervisor of Undergraduate Studies.

PSCI 4909 [1.0 credit]**Mémoire de recherche**

Un travail de recherche dans le domaine de spécialisation d'un membre du département. Consulter le conseiller des études de premier cycle (Undergraduate supervisor) pour les sujets offerts.

Prerequisite(s): fourth-year Honours standing in the Political Science Mention : Français program.

Portuguese (PORT)

Portuguese (PORT) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

PORT 1010 [0.5 credit]**First-Year Portuguese I**

For students with no knowledge of Portuguese. Oral skills; basic reading and writing skills. Compulsory attendance. Precludes additional credit for PORT 1110.

Four hours a week.

PORT 1020 [0.5 credit]**First-Year Portuguese II**

Continuation of first-year Portuguese. Oral skills; basic reading and writing skills. Compulsory attendance. Precludes additional credit for PORT 1110. Prerequisite(s): grade of C or higher in PORT 1010 or permission of the School. Four hours a week.

PORT 1110 [1.0 credit]**Intensive First-Year Portuguese**

For students with no knowledge of Portuguese. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for PORT 1010 and PORT 1020. Eight hours a week (one term).

PORT 2110 [1.0 credit]**Intensive Second-Year Portuguese**

Further study of Portuguese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Prerequisite(s): grade of C or higher in PORT 1110 or PORT 1020, or permission of the School. Eight hours a week (one term).

PORT 3110 [1.0 credit]**Intensive Third-Year Portuguese**

Continuation of the study of Portuguese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Prerequisite(s): grade of C or higher in PORT 2110, or permission of the School. Six hours a week (one term).

PORT 4110 [1.0 credit]**Intensive Fourth-Year Portuguese**

Advanced spoken and written Portuguese with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance. Prerequisite(s): grade of C or higher in PORT 3110, or permission of the School. Six hours a week (one term).

Psychology (PSYC)

Psychology (PSYC) Courses**PSYC 1001 [0.5 credit]****Introduction to Psychology I**

A survey of topics associated with psychology's role as a natural science, including neuroscience, cognition, and learning. Precludes additional credit for PSYC 1000. Lecture three hours a week.

PSYC 1002 [0.5 credit]**Introduction to Psychology II**

A survey of topics associated with psychology's role as a social science, including social psychology, personality, clinical psychology, and mental health. Precludes additional credit for PSYC 1000. Prerequisite(s): PSYC 1001. Lecture three hours a week.

PSYC 2001 [0.5 credit]**Introduction to Research Methods in Psychology**

A general introduction to research methodologies employed within contemporary psychology. Topics covered include research designs (experimental, quasi-experimental) and techniques (observations, surveys), basic descriptive statistics, and how to interpret and report research findings. Precludes additional credit for NEUR 2001 and PSYC 2000 (no longer offered). Prerequisite(s): PSYC 1001 and PSYC 1002. Lecture three hours a week. May include laboratories.

PSYC 2002 [0.5 credit]**Introduction to Statistics in Psychology**

A general introduction to statistical techniques employed within contemporary psychology. Topics include basic data analysis using descriptive and inferential statistics (t-tests, ANOVA, correlation, chi-square). Precludes additional credit for NEUR 2002. Prerequisite(s): PSYC 2001. Lecture three hours a week. May include laboratories.

PSYC 2100 [0.5 credit]**Introduction to Social Psychology**

Introduction to social psychology, including a survey of theories, issues, methods, and findings. This course will explore how social situations may influence people's thoughts, feelings, and behaviours. Topics may include social cognition, self-knowledge, persuasion, interpersonal attraction, aggression, and prosocial behaviour. Precludes additional credit for SOCI 2150. Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 2301 [0.5 credit]**Introduction to Health Psychology**

Introduction to health psychology, including a survey of theories, issues, methods, and findings. Using a multidisciplinary approach, topics may include the reciprocal interactions among physical health and illness, and psychological factors, including emotional well-being, coping and appraisal processes. Precludes additional credit for PSYC 3406. Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 2307 [0.5 credit]**Human Neuropsychology I**

Introduction to study of brain-behaviour relationships, including a survey of theories, issues, methods, and findings. Topics may include basic anatomy and physiology of the human nervous system, including sensory and motor functions. Neural basis of language, perception, emotion, learning, memory, decision making and social cognition.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2400 [0.5 credit]**Introduction to Forensic Psychology**

Introduction to forensic psychology, including a survey of theories, issues, methods, and findings. Topics covered may include development of offending, eyewitness testimony, victim studies, risk assessment, offender rehabilitation, offender classification, and police studies.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2500 [0.5 credit]**Foundations of Developmental Psychology**

Introduction to developmental psychology, including a survey of theories, issues, methods, and findings. Topics may include biological underpinnings and genetics, as well as selected aspects of language, cognitive, moral, emotional, and social development.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2600 [0.5 credit]**Introduction to the Study of Personality**

Introduction to the study of personality, including a survey of theories, issues, methods, and findings. Explores the factors that contribute to people's personality and influence how they interact with others. Topics may include traits, motives, the self, physiology, the unconscious, relationships, stress and coping.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2700 [0.5 credit]**Introduction to Cognitive Psychology**

Introduction to cognitive processes, including a survey of theories, issues, methods and findings. Topics covered may include pattern recognition, attention, imagery, learning (animal and human), memory, language, and thinking.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 2801 [0.5 credit]**Organizational Psychology I**

Introduction to the study of organizational psychology, including a survey of theories, issues, methods, and findings. Examines individual and group behaviour in organizational settings. Topics may include understanding work-related attitudes, behaviour, motivation, and stress, personnel selection, personality in the workplace, organizational justice, and leadership.

Precludes additional credit for PSYC 3105, PSYC 3803 (no longer offered).

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours per week.

PSYC 3000 [1.0 credit]**Design and Analysis in Psychological Research**

Techniques in data analysis, probability, sampling distributions, and procedures of estimation. Topics include classical, Bayesian, and distribution free approaches to hypothesis testing, linear regression and curve fitting, and analysis of variance methods in experimental design. Techniques are applied with appropriate statistical software (e.g., SPSS, Excel).

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing, PSYC 2001, and PSYC 2002.

Lectures and tutorial four hours a week.

PSYC 3001 [0.5 credit]**Psychological Testing**

An introduction to theory and issues pertaining to psychological tests. Topics include the creation, assessment, scoring, and interpretation of results across different testing formats (questionnaires, surveys, structured interviews, performance-based measurements). Classical and modern techniques will be incorporated. Students will apply psychological testing theory through assignments.

Prerequisite(s): PSYC 2001 and PSYC 2002.

Lectures three hours a week.

PSYC 3100 [1.0 credit]**Social Psychology (Honours Seminar)**

An introduction to theory and research in social psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2100, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3104 [0.5 credit]**Intergroup Relations: The Psychology of Conflict and Violence**

In-depth coverage of the social psychology of relations within and between large societal groups. Topics may include social identity, stereotyping, prejudice, and intergroup emotions, with emphasis on their role in promoting conflict and paths to pro-social intergroup relations.

Also listed as SOWK 3103.

Precludes additional credit for PSYC 3103 (no longer offered).

Prerequisite(s): PSYC 2100.

Lectures three hours per week.

PSYC 3106 [0.5 credit]**Close Relationships**

A consideration of relationship science, with a focus on social psychological theory and empirical approaches to the study of close relationships such as dating and marital relationships, and friendships. Topics may include relationship initiation, relationship maintenance, and coping with the dissolution of relationships.

Prerequisite(s): PSYC 2100.

Lectures three hours per week.

PSYC 3300 [1.0 credit]**Health (Honours Seminar)**

An applied introduction to theory and research in health psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2301, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3301 [0.5 credit]**Sport and Performance Psychology**

How psychological processes influence outcomes across sport and performance environments. Topics may include self-confidence, goal-setting, arousal regulation, imagery, group dynamics, burnout, injury recovery, and how person and situational factors affect the pursuit of excellence.

Prerequisite(s): one of PSYC 2100, PSYC 2301, PSYC 2500, PSYC 2600.

Lectures three hours a week.

PSYC 3302 [0.5 credit]**Positive Psychology**

A review of theoretical, historical, and empirical scholarship in positive psychology. Drawing widely across traditional sub-disciplines, content focuses on human strengths, well-being, resilience, and virtue to understand internal, external, and developmental contributors to health and happiness.

Prerequisite(s): one of PSYC 2100, PSYC 2301, PSYC 2500, PSYC 2600.

Lectures three hours a week.

PSYC 3307 [0.5 credit]**Human Neuropsychology II**

Cortical metabolism and research methods for assessment of cortical function, neuropsychological testing in the context of neurological, psychiatric and cognitive disorders caused by nervous system damage or genetic anomaly.

Precludes additional credit for PSYC 3207 (no longer offered).

Prerequisite(s): PSYC 2307.

Lectures three hours a week.

PSYC 3400 [1.0 credit]**Forensic Psychology (Honours Seminar)**

An applied introduction to theory and research in forensic psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2400, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3402 [0.5 credit]**Criminal Behaviour**

A review of theoretical and empirical research in the study of criminal behaviour. Examination of offender assessment and classification, prevalence and types of offenders, and effectiveness of offender treatment including understanding specific populations of offenders such as Indigenous offenders, women offenders and violent offenders.

Prerequisite(s): PSYC 2400.

Lectures three hours a week.

PSYC 3403 [0.5 credit]**Addiction**

Neurobiological and social bases of drug and behavioural addictions. Contemporary theoretical approaches to addiction; approaches to current prevention and treatment.

Prerequisite(s): one of PSYC 2301, PSYC 2307, PSYC 2400.

Lectures three hours a week.

PSYC 3405 [0.5 credit]**Psychology of Motivation and Emotion**

This course will explore motivational and emotional factors involved in human behaviour emphasizing various perspectives, theories, and research pertaining to physiological, cognitive, and social needs. Topics may include what factors motivates people, how motivation changes over time, and how one person can motivate another individual.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 3500 [1.0 credit]**Developmental Psychology (Honours Seminar)**

An introduction to theory and research in developmental psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2500, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3505 [0.5 credit]**Exceptional Children**

An overview of childhood exceptionalities including intellectual differences, communication disorders, sensory and physical impairments, developmental and behavioural problems.

Prerequisite(s): PSYC 2500.

Lectures three hours a week.

PSYC 3506 [0.5 credit]**Cognitive Development**

Human cognitive development is examined with a focus on memory, thinking and language through the life span. Topics may include perceptual and language development, emergent literacy, development of strategies and development of reading and arithmetic skills.

Prerequisite(s): PSYC 2500 or PSYC 2700.

Lectures three hours a week.

PSYC 3507 [0.5 credit]**Social Development**

Development of the individual with a focus on social cognition and social behaviour. Topics may include the role of temperament in development, parental roles, siblings and peers in social/emotional development, development of prosocial and aggressive behaviour, moral development and development of self and other understanding.

Prerequisite(s): PSYC 2500.

Lectures three hours a week.

PSYC 3508 [0.5 credit]**Child Language**

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as LING 3603.

Precludes additional credit for LALS 2603 (no longer offered).

Prerequisite(s): LALS 1000 or LALS 1001 or LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours per week.

PSYC 3509 [0.5 credit]**Adolescence and Emerging Adulthood**

The physical, cognitive, social and moral development of adolescents and emerging adults in multiple contexts including family, peers, media and culture. Major theories and contemporary issues and concerns.

Prerequisite(s): PSYC 2500.

Lectures three hours a week.

PSYC 3600 [1.0 credit]**Personality (Honours Seminar)**

An introduction to theory and research in personality psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2600, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3603 [0.5 credit]**Psychology of Women**

An examination of theories and research regarding the similarities and differences in women's and men's psychological processes. Psychological issues relevant to women (e.g., women's health concerns, women's sexuality, violence toward women and children) will be examined as well as feminist and traditional research methods.

Prerequisite(s): one of PSYC 2100, PSYC 2500, PSYC 2600.

Lectures three hours a week.

PSYC 3604 [0.5 credit]**Clinical Psychology and Mental Illness**

History of the concept of mental illness. Theory and selected research dealing with the nature and etiology of mental illness.

Prerequisite(s): PSYC 2500 or PSYC 2600.

Lectures three hours a week.

PSYC 3700 [1.0 credit]**Cognition (Honours Seminar)**

An introduction to theory and research in cognitive psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2700, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3702 [0.5 credit]**Perception**

Introduction to theory, research methods and principles associated with the study of perceptual processes.

Examples of how perceptual principles can be applied to solve problems in communications, transportation, medicine, industrial design, manufacturing, marketing, food and beverage industries (flavoring, blending, and scenting, etc.).

Precludes additional credit for NEUR 3202.

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lectures three hours a week.

PSYC 3709 [0.5 credit]**Language Processing and the Brain**

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as LING 3601.

Precludes additional credit for LALS 2601 and LALS 3601 (no longer offered).

Prerequisite(s): LALS 1000 or LALS 1001 or LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

PSYC 3710 [0.5 credit]**Introduction to Human Factors**

Theoretical foundation, philosophy and practical application of techniques for analyzing from a psychological perspective how people interact with designed environments. A major goal is to determine how these environments should be designed to suit human capabilities.

Precludes additional credit for PSYC 2800 (no longer offered).

Prerequisite(s): PSYC 2001 and PSYC 2002.

Lecture three hours a week.

PSYC 3801 [0.5 credit]**Organizational Psychology II**

Advanced coverage of the current theory and practices in Organizational Psychology. Selected topics may include workplace socialization, job attitudes, deviant work behaviours, leadership, teams and group dynamics, work-related stress and health, and organizational change and development.

Prerequisite(s): PSYC 2801.

Lectures three hours per week.

PSYC 3802 [0.5 credit]**Transition to Career**

Within the context of an active learning environment, examines traditional and current models in career psychology. Topics may include the concepts of change and transitions, self-assessments, vocational psychology, and workplace onboarding. Students will examine their personal and professional transition from university to the work world.

Includes: Experiential Learning Activity

Prerequisite(s): third or fourth year standing in Psychology.

Lectures three hours a week.

PSYC 3805 [1.0 credit]**Organizational Psychology (Honours Seminar)**

An introduction to theory and research in organizational psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis.

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2801, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3901 [0.5 credit]**Practicum in Community Psychology**

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues.

Includes: Experiential Learning Activity

Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3902 [0.5 credit]**Practicum in Community Psychology**

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues.

Includes: Experiential Learning Activity

Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3905 [1.0 credit]**Practicum in Community Psychology**

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues.
Includes: Experiential Learning Activity
Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3999 [0.0 credit]**Co-operative Work Term**

Co-operative Work Term.
Includes: Experiential Learning Activity
Work Term.

PSYC 4001 [0.5 credit]**Special Topics in Psychology**

Each section of PSYC 4001 deals with a different topic. Topics change yearly. Students may register in more than one section of PSYC 4001 but can register in each section only once.
Prerequisite(s): each section will have its own.
Lectures or seminars three hours a week.

PSYC 4003 [0.5 credit]**Origins of Modern Psychology**

An overview of the evolution of psychology, with an emphasis on psychology as a specialized area of knowledge and practice in the late-nineteenth and twentieth centuries. Topics covered may include the history of a particular period, content area, or cultural context.
Precludes additional credit for PSYC 2003.
Prerequisite(s): third or fourth-year standing in a Psychology Honours program.
Lectures or seminars three hours per week.

PSYC 4100 [0.5 credit]**Advanced Topics in Social Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in Social psychology. The specific content for this course will vary from year to year.
Prerequisite(s): fourth-year standing and PSYC 2100.
Lectures or seminars three hours a week.

PSYC 4301 [0.5 credit]**Advanced Topics in Health Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in health psychology. The specific content for this course will vary from year to year.
Prerequisite(s): fourth-year standing and PSYC 2301.
Lectures or seminars three hours a week.

PSYC 4330 [1.0 credit]**Community Mental Health and Well-Being**

An examination of theory, research, and the practice of approaches to support peers and their well-being. Students will apply the concepts learned during the seminars in field placements.
Includes: Experiential Learning Activity
Prerequisite(s): fourth-year Honours standing in Psychology, Mental Health and Well-Being Stream.
Seminar three hours per week.

PSYC 4333 [0.5 credit]**Clinical Psychology: Assessment and Intervention**

An advanced seminar on clinical psychology and mental health. Students will learn about frequently used treatment modalities and common factors across treatments. Research methodology and recent advances dealing with a variety of common mental disorders will also be reviewed and discussed.
Includes: Experiential Learning Activity
Prerequisite(s): PSYC 3604 and fourth-year Honours standing in Psychology.
Lecture or seminar three hours per week.

PSYC 4400 [0.5 credit]**Advanced Topics in Forensic Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in Forensic psychology. The specific content for this course will vary from year to year.
Prerequisite(s): fourth-year standing and PSYC 2400.
Lectures or seminars three hours a week.

PSYC 4402 [0.5 credit]**Police Psychology**

Critical examination of theory and empirical research in the area of police psychology. Topics covered may include police culture, police selection, police suicide, police personality, stress debriefing, fitness evaluations, police training, crisis negotiations, and investigative techniques.
Prerequisite(s): third- or fourth-year standing and PSYC 2400.
Lectures or seminars three hours per week.

PSYC 4403 [0.5 credit]**Female Offenders**

Feminist and social learning approaches to the assessment and treatment of female offenders. Theories and research relevant to selected patterns of law breaking and selected female offender types.
Prerequisite(s): third- or fourth-year standing and PSYC 3402.
Lectures or seminars three hours a week.

PSYC 4404 [0.5 credit]**Sex Offenders**

Theory and research concerning the etiology and maintenance of sexual offending; assessment, treatment, and management of sex offenders. Introduction to fundamental issues and controversies in the area.
Prerequisite(s): third- or fourth-year standing, PSYC 2400, and PSYC 3402.
Lectures or seminars three hours a week.

PSYC 4500 [0.5 credit]**Advanced Topics in Developmental Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in developmental psychology. The specific content for this course will vary from year to year.

Prerequisite(s): fourth-year standing, and one of PSYC 3500, PSYC 3505, PSYC 3506, PSYC 3507.

Lectures or seminars three hours a week.

PSYC 4600 [0.5 credit]**Advanced Topics in Personality Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in personality psychology. The specific content for this course will vary from year to year.

Prerequisite(s): fourth-year standing and PSYC 2600.

Lectures or seminars three hours a week.

PSYC 4700 [0.5 credit]**Advanced Topics in Cognitive Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in cognitive psychology. The specific content for this course will vary from year to year.

Prerequisite(s): fourth-year standing, and PSYC 2700.

Lectures or seminars three hours a week.

PSYC 4801 [0.5 credit]**Occupational Health Psychology**

The application of psychological knowledge to enhance employee physical and mental health, safety and well-being, and more broadly, to enrich organizational life. Students will be able to learn and analyze critically the relevant methodological, theoretical, and empirical Occupational Health Psychology literature.

Prerequisite(s): third or fourth-year standing and one of PSYC 2100, PSYC 2301, PSYC 2801.

Lectures or seminars three hours a week.

PSYC 4802 [0.5 credit]**Advanced Topics in Organizational Psychology**

In-depth exploration of theoretical and empirical issues related to selected topics in organizational psychology. The specific content for this course will vary from year to year.

Prerequisite(s): fourth-year standing and PSYC 2801.

Lectures or seminars three hours a week.

PSYC 4900 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally, students may not include more than one credit of independent study in their total program.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in Psychology and permission of the Department.

Mentored work.

PSYC 4902 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally, students may not include more than one credit of independent study in their total program.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in Psychology and permission of the Department.

Mentored work.

PSYC 4907 [1.0 credit]**Thesis for B.Sc. with Honours in Psychology**

Open to all candidates for the B.Sc. degree with Honours in Psychology. A thesis project is conducted under the direct supervision of a Faculty Adviser from the Department of Psychology.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4906 (no longer offered).

Prerequisite(s): fourth-year Honours standing in Psychology with a major CGPA of 10.0; PSYC 3000; one of PSYC 3100, PSYC 3300, PSYC 3400, PSYC 3500, PSYC 3600, or PSYC 3700, or PSYC 3805; and permission of the Department.

Lectures as scheduled by the instructor; other hours as arranged with the Faculty Adviser.

PSYC 4908 [1.0 credit]**Thesis for B.A. with Honours in Psychology**

A thesis supervised by a Faculty Adviser. Students review the appropriate literature, contribute to the design of a study or experiment, conduct data analyses, and produce an APA style written report. Students may also present a research poster at the Psychology Undergraduate Research Event.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4905 (no longer offered).

Prerequisite(s): fourth-year Honours standing in Psychology with a major CGPA of 10.0, PSYC 3000; one of PSYC 3100, PSYC 3300, PSYC 3400, PSYC 3500, PSYC 3600, PSYC 3700, PSYC 3805; and permission of the Department.

Lectures during the fall term given by the course instructor and mentored work arranged by the Faculty Adviser.

PSYC 4909 [1.0 credit]**Project for B.Sc. with Honours in Psychology**

Within an active learning environment, students develop oral presentations and written documents that may include annotated bibliographies, essays, and presentation slides. They must also present a research poster at the Psychology Undergraduate Research Event. Students select an area of psychological research of interest to them.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4906 (no longer offered), PSYC 4907, and PSYC 4908.

Prerequisite(s): fourth-year standing in B.Sc. (Honours) in Psychology, and PSYC 3000.

Seminars three hours a week.

PSYC 4910 [1.0 credit]**Project for B.A. with Honours in Psychology**

Within an active learning environment, students develop oral presentations and written documents that may include annotated bibliographies, essays, and presentation slides. They must also present a research poster at the Psychology Undergraduate Research Event. Students select an area of psychological research of interest to them.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 4905 (no longer offered), PSYC 4907 and PSYC 4908.

Prerequisite(s): fourth-year standing in B.A (Honours) in Psychology, and PSYC 3000.

Seminars three hours a week.

Public Affairs and Policy Management (PAPM)

Public Affairs and Policy Management (PAPM) Courses

PAPM 1001 [0.5 credit]**Policy: Analysis, Implementation, and Evaluation**

The processes of policy-making, implementation and evaluation. Forces that shape policy deliberations and alternative tools for managing policy action and policy evaluation. Theoretical approaches to understanding the origins of policy, and methods by which programs are designed and assessed.

Includes: Experiential Learning Activity

Precludes additional credit for PAPM 2000.

Lecture two hours a week, discussion one hour per week.

PAPM 2001 [0.5 credit]**Foundations of Public Policy: Political Thought**

Theoretical, philosophical and ethical foundations for the study of public affairs and policy management. Drawing from classic and contemporary texts in political philosophy and theory, students consider issues relating to the nature of democracy, civic society and social organizations, the public, public affairs, public interest.

Precludes additional credit for PAPM 1000.

Lecture two hours a week, discussion one hour a week.

PAPM 2002 [0.5 credit]**Foundations of Public Policy: Economic Thought**

Theoretical, philosophical and ethical foundations for the study of public affairs and policy management.

Drawing from classic and contemporary texts in economic philosophy and theory, students consider issues relating to the nature of democracy, civic society and social organizations, the public, public affairs, public interest.

Precludes additional credit for PAPM 1000.

Lecture two hours a week, discussion one hour a week.

PAPM 3000 [0.5 credit]**Policy Research**

An examination of the research strategies and techniques relevant to policy analysis and evaluation. Using the case study method, the role of research and research organizations in the policy process is discussed. The issue of ethical dilemmas in policy research is also considered.

Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2701 and PSCI 2702, or COMM 2001, or ECON 2201 and ECON 2202 and Good Standing in the Bachelor of Public Affairs and Policy Management program.

Lecture and discussion three hours a week.

PAPM 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

PAPM 4000 [0.5 credit]**Capstone Seminar in Public Affairs and Policy Management**

Policy workshop focusing on the application of public affairs analysis to develop problem solving and research skills. Seminar is policy-focused and organized by area of Specialization in the program. Students, working in small groups, examine concrete policy problems, actual or simulated, in specific institutional contexts.

Includes: Experiential Learning Activity

Prerequisite(s): PAPM 3000 and Good Standing in the Bachelor of Public Affairs and Policy Management program.

Seminar three hours a week.

PAPM 4099 [0.5 credit]**Policy Seminar**

Students address a specific policy problem or problems, in interaction with local, national or international policy experts or practitioners. Emphasis on policy analysis, research, and communication skills.

Includes: Experiential Learning Activity

Seminar three hours per week.

PAPM 4100 [0.5 credit]**Special Topics in Public Affairs and Policy Management**

Analysis of selected issues in public affairs and policy management not ordinarily treated in the regular course program. The choice of topics will vary from year to year. Students should consult with the College regarding the topic offered.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program or permission of the Kroeger College.

Seminar three hours per week.

PAPM 4908 [1.0 credit]**Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. Students are responsible for locating a faculty member willing to supervise the essay. Departmental regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Public Affairs and Policy Management program with a Major CGPA or 9.0 or better, or permission of the Director of the Public Affairs and Policy Management program.

Public Administration (PADM)

Public Administration (PADM) Courses**PADM 1501 [0.5 credit]****Public Administration in Nunavut**

An introduction to the theoretical, constitutional and practical basis of public administration in Nunavut.

Normally offered in Nunavut.

Prerequisite(s): enrolment in the Certificate for Nunavut Public Service Studies.

PADM 1502 [0.5 credit]**Management of Federal-Territorial Relations**

Introduction to managing the relationship between the territorial and federal governments, with examples drawn from Nunavut, the Northwest Territories and Yukon practices. Normally offered in Nunavut.

Prerequisite(s): enrolment in the Certificate for Nunavut Public Service Studies and successful completion of PSCI 1002 and PADM 1501.

PADM 3105 [0.5 credit]**Management in the Public Sector**

Consideration of constraints and opportunities of public-sector management, including government at all levels and para-statal organizations. Topics may include the accountability regimes, features of the human resource management context, administration of information and material resources, responsibilities and relationships of managers towards citizens.

Prerequisite(s): third-year standing in the B.P.A.P.M. program.

Seminar three hours a week.

PADM 4213 [0.5 credit]**Gender and Public Policy**

Policy and policy-making as they pertain to gender relations within the state and in society. The negative and positive effects of public policy on gender relations in the family and the labour market.

Precludes additional credit for PADM 4701, PADM 5701.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5213, for which additional credit is precluded.

PADM 4214 [0.5 credit]**Budgetary Policy in the Public Sector**

Selected aspects of the expenditure and revenue budget and budgetary process at all levels of government. Critical review of actual budgets and budgetary processes.

Precludes additional credit for PADM 5103.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5214, for which additional credit is precluded.

PADM 4220 [0.5 credit]**Regulation and Public Policy**

Political, economic, legal, and organizational theories of regulation in the Canadian and comparative context. Processes and consequences of regulatory practice in selected Canadian public policy fields.

Precludes additional credit for PADM 5002.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5220, for which additional credit is precluded.

PADM 4221 [0.5 credit]**Health Policy in Canada**

Canadian health policies and programs set in a comparative political-economic and institutional context. Precludes additional credit for PADM 4009, PADM 5009.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5221, for which additional credit is precluded.

PADM 4224 [0.5 credit]**Aboriginal Policy**

Canadian policies and programs on aboriginal peoples and aboriginal peoples' own policies as nations set in a comparative political-economic and institutional context. Precludes additional credit for PADM 4806, PADM 5806. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5224, for which additional credit is precluded.

PADM 4225 [0.5 credit]**Trade Policy**

Canadian multilateral and regional trade policies and programs set in a comparative political-economic and institutional context.

Precludes additional credit for PADM 4807, PADM 5807. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5225, for which additional credit is precluded.

PADM 4226 [0.5 credit]**Tax Policy**

Canadian tax policies set in a comparative political-economic and institutional context.

Precludes additional credit for PADM 4509, PADM 5509. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5226, for which additional credit is precluded.

PADM 4227 [0.5 credit]**Education Policy**

Canadian policies and programs in education set in a comparative political-economic and institutional context. Precludes additional credit for PADM 4809, PADM 5809.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5227, for which additional credit is precluded.

PADM 4228 [0.5 credit]**Social Policy**

The nature and historical development of social programs in capitalist countries, with particular focus on Canada. The course will concentrate on developing a critical understanding of the social forces shaping these programs.

Precludes additional credit for PADM 4604, PADM 5604.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5228, for which additional credit is precluded.

PADM 4230 [0.5 credit]**Ethics for Public Policy**

The development and application of ethical theories to examine not simply what governments could do, but what they should do on the basis of consequences, principles, or motivations. Applications could include policies affecting climate change, inequality, end of life, privacy, use of force.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5230, for which additional credit is precluded.

Seminar three hours a week.

PADM 4320 [0.5 credit]**Ethics for Public Policy**

Development and application of ethical theories to examine what governments should do, taking into account the outcomes, principles, or motivations of public policies and policy-making. Applications could include policies affecting climate change, income inequality, end of life, privacy, restitution, use of force.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5230, for which additional credit is precluded.

PADM 4611 [0.5 credit]**Science and Technology Policies**

Theory and practice regarding governmental policies for science and technology, and the use of scientific knowledge in the policy and regulatory processes of government. Concerns regarding the ethical issues and the transparency of science in government.

Precludes additional credit for PADM 5400.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5611, for which additional credit is precluded.

PADM 4612 [0.5 credit]**Industrial Policy, Innovation and Sustainable Production**

An examination of sustainable production theory and key drivers, barriers and opportunities influencing innovation in industrial systems and processes. The relationship of public policies and industry practices are explored in a number of sectors.

Precludes additional credit for PADM 4600, PADM 5600.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5612, for which additional credit is precluded.

PADM 4615 [0.5 credit]**Politics and Policy of Energy in Canada**

The dilemmas associated with energy policy in Canada. Economic, social and environmental dimensions of energy decision making; Canadian issues within the contexts of a changing international scene and long term energy transitions.

Precludes additional credit for PADM 5515.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5615, for which additional credit is precluded.

PADM 4616 [0.5 credit]**Environmental Policy**

Canadian environmental policies and programs in a comparative political-economic and institutional context.

Precludes additional credit for PADM 4008, PADM 5008.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5616, for which additional credit is precluded.

PADM 4817 [0.5 credit]**Health Policy in Developing Countries**

Debates regarding health policy in the developing world, in the context of the global health sector reform movement, trade and intellectual property regimes, and strategies of corporate and NGO actors. Issues of gender, class and the determinants of health.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as IDMG 5617/PADM 5817, for which additional credit is precluded.

Religion (RELI)

Religion (RELI) Courses

Language courses RELI 1010 [1.0] Elementary Language Tutorial, RELI 2010 [1.0] Intermediate Language Tutorial and RELI 3010 [1.0] Advanced Language Tutorial are intended for students specializing in a particular religious tradition. They are offered according to the availability of members of the Discipline. Courses taken at the 2000-level or above will be mainly independent study under the supervision of a member of the Discipline. Students interested in taking these courses should consult the Coordinator.

RELI 1010 [1.0 credit]**Elementary Language Tutorial**

Elementary study of the language required for studying a religious tradition.

Precludes additional credit for RELI 1902 (no longer offered).

Prerequisite(s): Major/Minor in Religion or permission of the department.

Tutorial two hours a week.

RELI 1710 [0.5 credit]**Judaism, Christianity, Islam**

A survey of the history, beliefs and practices of these major religious traditions.

Includes: Experiential Learning Activity
Precludes additional credit for RELI 1000.

Lecture three hours a week.

RELI 1715 [0.5 credit]**South Asian Religions**

A survey of the history, beliefs, and practices of South Asian religious traditions including Hinduism, Buddhism, Jainism, and Sikhism.

Precludes additional credit for RELI 1001 (no longer offered) and RELI 1711 (no longer offered).

Lecture three hours a week.

RELI 1716 [0.5 credit]**East Asian Religions**

A survey of the history, beliefs, and practices of East Asian religious traditions including Buddhism, Daoism, Confucianism, and Shinto.

Precludes additional credit for RELI 1001 (no longer offered) and RELI 1711 (no longer offered).

Lecture three hours a week.

RELI 1720 [0.5 credit]**Indigenous Religions in Global Context**

This course illuminates a recent category of "World Religions" by examining cases from all five continents, as well as in diaspora (e.g., Brazilian Candomblé, Roma/Sinti religion). Key considerations include the study of minority religions, religion in oral cultures, myth and ritual studies, colonialism, globalization.

Includes: Experiential Learning Activity
Lecture three hours a week.

RELI 1731 [0.5 credit]**Varieties of Religious Experience**

The variety of religious experiences and their interpretations: myth, literature, art and religious doctrine. Topics include time, self, the other, journey and wisdom. Examples ranging from shamanistic experience to the abstractions of Buddhist philosophy.

Precludes additional credit for RELI 1205, RELI 1206, RELI 1402, RELI 2002, and RELI 2741.

Prerequisite(s): restricted to students registered in the Bachelor of Humanities & Religion program.

Lecture three hours a week.

RELI 1741 [0.5 credit]**Global Religions: Identity and Community**

An introduction to major issues in the study of religion in global contexts, drawing on historical and contemporary examples.

Lecture three hours a week.

RELI 2010 [1.0 credit]**Intermediate Language Tutorial**

Intermediate study of the language required for studying a religious tradition. Restricted to students registered in a Religion program.

Precludes additional credit for RELI 2902 (no longer offered).

Prerequisite(s): RELI 1902 or RELI 1010 or permission of the department.

Tutorial two hours a week.

RELI 2110 [0.5 credit]**Judaism**

The history of Judaism and the Jewish people from the Second Temple until the present day. The organization, basic beliefs, social and ethical practices of the Jews and Judaism.

Precludes additional credit for RELI 1008 and RELI 2508.

Lecture three hours a week.

RELI 2121 [0.5 credit]**Hebrew Bible**

Introduces the Hebrew Bible within historical and religious frameworks. All texts are in English.

Precludes additional credit for RELI 3505C taught in 2007-2008.

Prerequisite(s): RELI 1710 or RELI 1000 or RELI 2110 or RELI 2508 or permission of the department.

Lecture three hours a week.

RELI 2122 [0.5 credit]**Early Judaism**

Judaism and the Jewish people from the Maccabees to the Rabbinic Age. Sectarian movements (Pharisees, Sadducees, Qumran Covenanters) Christianity's rise; revolutionaries (Zealots, Bar Kochba), Jewish responses to Hellenism, reshaping of Judaism after destruction of the Second Temple, Rabbinic Judaism in Palestine and the Diaspora.

Precludes additional credit for RELI 2701.

Prerequisite(s): second-year standing.

Lecture three hours a week.

RELI 2220 [0.5 credit]**Early Christianity**

Introduction to the critical study of the writings of the New Testament with discussion of their Hellenistic and Jewish background, the historical Jesus, Paul and his letters, and historical and sociological explanations for the rise of the early church and interpretation of its writings.

Precludes additional credit for RELI 1003, RELI 1200 and RELI 2207.

Lecture three hours a week.

RELI 2225 [0.5 credit]**Christianity 300-1500**

This course examines the development of Christian practices and teachings from late antiquity to early modernity, with a special emphasis on their historical diversity and the complex dynamics of church formation. Students should expect to read (in English) both primary and secondary sources.

Precludes additional credit for RELI 1007, RELI 2507, and RELI 2210 (no longer offered).

Lecture three hours a week.

RELI 2226 [0.5 credit]**Christianity 1500-1900**

Developments in Christian practices and teachings over the early modern and modern periods, especially in relation to social changes commonly associated with modernity including: urbanization, state formation, industrialization, colonization, the development of capitalist economies.

Precludes additional credit for RELI 1007, RELI 2507 and RELI 2210 (no longer offered).

Lecture three hours a week.

RELI 2230 [0.5 credit]**Global Christianity**

Survey of recent and current Christian movements around the world, both by region and thematically, with emphasis on institutions and networks that connect Christian communities across national boundaries. Special consideration is given to the cultural and political capacities of such Christian communities and networks.

Lecture three hours a week.

RELI 2310 [0.5 credit]**Islam**

The study of Muslim religious tradition and investigation of its organization, basic beliefs, social and ethical principles and practices.

Precludes additional credit for RELI 1009 and RELI 2509.

Lecture three hours a week.

RELI 2320 [0.5 credit]**Islam in the Modern World**

An examination of Islam in the last two hundred years, including the nature of the Islamic resurgence and the new forms of Islamic vitality.

Precludes additional credit for RELI 2704 and RELI 2702.

Prerequisite(s): second-year standing.

Lecture three hours a week.

RELI 2330 [0.5 credit]**The Qur'an**

An examination of the Qur'an's content, form, style, central themes, canonization, and classical and contemporary interpretive traditions.

Prerequisite(s): RELI 1710 or RELI 2310 or permission of the department.

Lecture three hours a week.

RELI 2350 [0.5 credit]**Classical Islamic Thought**

A survey of the development of the central ideas and schools of Islamic theology and philosophy from the eighth century to the end of the seventeenth century CE.

Precludes additional credit for RELI 3320 or RELI 3321.

Lecture three hours a week.

RELI 2410 [0.5 credit]**Buddhism**

Basic beliefs and practices of the Buddhist tradition and a brief survey of its development and transformations in India, Sri Lanka, Southeast Asia, Tibet, China and Japan.

Precludes additional credit for RELI 1006 and RELI 2106.

Lecture three hours a week.

RELI 2510 [0.5 credit]**Hinduism**

Basic beliefs, practices, and social structures of the Hindu tradition as reflected in Hindu scriptures, myths and symbols, and philosophical schools.

Precludes additional credit for RELI 1005 and RELI 2005.

Lecture three hours a week.

RELI 2515 [0.5 credit]**Religion and Aesthetics in India**

Myths and symbols of the Indian tradition expressed in Hindu and Buddhist art. Hindu theories of beauty and the interface of the arts with the spiritual traditions of India.

Precludes additional credit for RELI 2005 (if taken before 2007-2008) and RELI 2008.

Prerequisite(s): second-year standing.

Lecture three hours a week.

RELI 2535 [0.5 credit]**Religion and Gender**

An exploration of women and religion in historical and contemporary contexts.

Lecture three hours a week.

RELI 2600 [0.5 credit]**Religions of China**

Survey of the origins, development, and diffusion of Chinese religious traditions, including Confucianism, Daoism, Chinese Buddhism and popular religion(s).

Includes: Experiential Learning Activity

Lecture three hours a week.

RELI 2710 [1.0 credit]**Maccabees to Muhammad**

The early history, literature and ideas of Judaism, Christianity and Islam from 200 BCE to 750 CE.

Precludes additional credit for RELI 2208.

Prerequisite(s): restricted to students in the Bachelor of Humanities & Religion program.

Lecture three hours per week.

RELI 2711 [0.5 credit]**Love and Its Myths**

Major devotional movements in Hinduism and Christianity, focusing on the love of the divine and philosophical accounts of these ideas over time.

Lecture three hours a week.

RELI 2712 [0.5 credit]**Religious Diversity of Canada**

An historical survey emphasizing the interactions of various religious traditions in Canada, including indigenous religions, Christian missionary and colonial traditions, immigrant and global diaspora religions.

Precludes additional credit for RELI 2307 Section A (2007-2008).

Lectures three hours a week.

RELI 2713 [0.5 credit]**Mysticism**

An historical and functional study of mystical experience in its religious context, relying on examples from selected traditions such as the Christian, Buddhist, Hindu, Jewish and Muslim.

Precludes additional credit for RELI 2300.

Lecture three hours a week.

RELI 2720 [0.5 credit]**Indigenous Religions of Canada**

Religions of Inuit, First Nations and Métis peoples, past and present. Considerations include concepts of tradition, syncretism and "creative ritual." Primary sources may include textual, visual and oral materials. Course may include fieldwork, as well as in-class presentations by community elders.

Lecture three hours a week.

RELI 2731 [0.5 credit]**Dimensions of Modern Atheism**

A historical survey of Western atheism as a major world religious tradition.

Prerequisite(s): second-year standing or permission of the department.

Lecture three hours a week.

RELI 2732 [0.5 credit]**Death and Afterlife**

The meaning of death and afterlife in some religious traditions and secular philosophies with emphasis on the Hindu teaching of the immortal soul; the Hebraic idea of collective survival; the Christian doctrine of resurrection of the body; the Buddhist conception of no-soul and nirvana.

Precludes additional credit for RELI 2308.

Lecture three hours a week.

RELI 2735 [0.5 credit]**Greek Religion**

A study of religion in ancient Greece.

Also listed as CLCV 2103.

Precludes additional credit for CLCV 2102, RELI 2734, RELI 2102.

Lecture three hours a week.

RELI 2736 [0.5 credit]**Religion and Society**

Cross-cultural survey of religious institutions, focusing on theories and methodologies in the study of religion. Topics may include myth, totemism, cults, ritual, belief systems, altered states of consciousness, new religious and/or new age movements and the relationship of religion with other social institutions and processes.

Includes: Experiential Learning Activity

Also listed as ANTH 2550.

Lectures and workshop three hours a week.

RELI 2737 [0.5 credit]**Roman Religion**

A study of religion in ancient Rome.

Also listed as CLCV 2104.

Precludes additional credit for CLCV 2102 and RELI 2734 and RELI 2102.

Lecture three hours a week.

RELI 2738 [0.5 credit]**Philosophy of Religion**

A study of philosophical issues arising from religion. Topics may include: arguments for and against the existence of God, religious experience, death and the afterlife, miracles, God and evil, the relationship between religion and science, and the relationship between religion and ethics.

Also listed as PHIL 2601.

Prerequisite(s): a course in philosophy or second-year standing.

Lecture three hours a week.

RELI 2741 [0.5 credit]**Interpretations of Religion**

Introduction to the academic study of religion by considering its fundamental components: myth, symbol, scripture, doctrine, code, and ritual, drawing material from a variety of world religions.

Precludes additional credit for RELI 2002 (no longer offered), RELI 1205 (no longer offered), RELI 1402 (no longer offered), RELI 1731, RELI 1730 (no longer offered).

Lecture, three hours per week.

RELI 2750 [0.5 credit]**Sikhism**

An examination of the basic beliefs, practices, and social structures of the Sikh tradition as reflected in Sikh scriptures, history and philosophical schools.

Lecture three hours a week

RELI 2840 [0.5 credit]**Topics in Religion**

Content of this course may vary from year to year. Please check departmental website for information on the topic.

Precludes additional credit for repeated topics.

Lecture three hours a week.

RELI 3010 [1.0 credit]**Advanced Language Tutorial**

Advanced study of the language required for studying a religious tradition.

Precludes additional credit for RELI 3902 (no longer offered).

Prerequisite(s): RELI 2902 (no longer offered) or RELI 2010 or permission of the department.

Tutorial two hours a week.

RELI 3130 [0.5 credit]**Love, Sex and Marriage in Judaism**

The Jewish tradition's teachings, laws and customs surrounding love, sex and marriage in historical perspective with emphasis on contemporary Jewish life.

Lecture three hours a week.

RELI 3131 [0.5 credit]**Judaism and Gender**

An interdisciplinary survey of Judaism and gender highlighting the status and role of gender within Jewish thought, law, practice and experience.

Lecture three hours a week.

RELI 3140 [0.5 credit]**Holocaust Encounters**

An examination of the experiences of different Jewish communities before, during, and after the Holocaust. Issues to be discussed include anti-Semitism, relations with non-Jewish neighbours, perpetrator motivation, local collaboration, resistance, postwar trials and memory.

Also listed as HIST 3714.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3141 [0.5 credit]**Germans and Jews**

An examination of Jewish society, culture and religious practice in modern and contemporary Germany. Issues to be explored include emancipation, acculturation, secularization, religious adjustment, anti-Semitism, the Holocaust, emigration, and the role of migration in transforming the contemporary community.

Also listed as HIST 3718.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3220 [0.5 credit]**Reformation Europe**

A history of the Protestant and Catholic Reformations of the sixteenth century, with emphasis on the theological disputes of the protagonists and the impact of these disputes on the social, political and cultural developments of the era.

Also listed as HIST 3708.

Precludes additional credit for RELI 3708 (no longer offered).

Prerequisite(s): 0.5 credit at the 2000-level in HIST or third-year standing.

Lecture three hours a week.

RELI 3230 [0.5 credit]**Jesus of Nazareth**

A study of the historical records of the life of Jesus, the methods used to interpret them, and the resulting images of Jesus.

Precludes additional credit for RELI 2205, RELI 3208 and RELI 3105.

Prerequisite(s): RELI 2207 or RELI 2220 or permission of the department.

Lectures three hours a week.

RELI 3231 [0.5 credit]**Paul of Tarsus**

The social, religious, and historical context of Paul, the communities he founded, and the letters he wrote to them.

Precludes additional credit for RELI 3300 and RELI 3106.

Prerequisite(s): RELI 2207 or RELI 2220 or permission of the department.

Lecture three hours a week.

RELI 3232 [0.5 credit]**Christian Discipline**

An historical survey of key Christian thought and practices at the individual and collective level. Topics may include self-discipline, body discipline, monastic discipline, church discipline and social discipline.

Precludes additional credit for RELI 3302 Section "A" taught in 2007-2008.

Prerequisite(s): third-year standing or permission of the department.

RELI 3250 [0.5 credit]**Evangelical Christianity in Social-Historical Perspective**

The development of some protestant Christianities in relation to material factors, such as colonialism, industrial or consumer capitalism, imperialism, and in relation to major ideological trends, such as nationalism, economic or political liberalism and atheism.

Lecture three hours a week.

RELI 3301 [0.5 credit]**Music and Religion**

An examination of the integral role music plays in religion and sacred ritual in different world cultures and religions. Through various case studies, the course broadly considers how sacred soundscapes shape people's worldviews, identities, and experiences within and outside of their communities.

Also listed as MUSI 3301.

Prerequisite(s): second-year standing.

Seminars three hours a week.

RELI 3322 [0.5 credit]**Shi'i Islam**

An introduction to the historical, doctrinal, and socio-political development of Shi'i Islam from the middle of the seventh century to the end of the twentieth century CE.

Prerequisite(s): RELI 2310.

Lecture three hours a week.

RELI 3330 [0.5 credit]**Sufism**

An introduction to the main practical and theoretical dimensions of Islam's mystical tradition as seen through the life and work of its key representatives.

Prerequisite(s): RELI 2710 or RELI 2713 or permission of the department.

Lecture three hours a week.

RELI 3331 [0.5 credit]**Islam and Gender**

Introduction to ideas about gender in Muslim societies past and present. Topics include: gender in the Qur'an, the Hadith and Islamic law, sexualities, social change, and current debates on gender and sexuality in Muslim communities.

Prerequisite(s): RELI 2310 or WGST 2803 Section "A" or permission of the department.

Lecture three hours a week.

RELI 3340 [0.5 credit]**The Life and Image of Muhammad**

Overview of the life and teaching of the Prophet Muhammad, and the most salient motifs and features of Muslim devotion to him.

Precludes additional credit for RELI 2340.

Prerequisite(s): RELI 1710 or RELI 2310 or permission of the department.

Lecture three hours a week.

RELI 3350 [0.5 credit]**The Hadith Literature: An Introduction**

Transmission and cultural importance of the Hadith for medieval Muslims, along with contemporary debates about its origins. (Course readings in English; students may also elect to read the primary source texts in their Arabic original.)

Prerequisite(s): RELI 2310 or permission of the department.

Lecture three hours a week.

RELI 3420 [0.5 credit]**Early Buddhism**

The development of early Buddhist philosophy, psychology and practice with emphasis on the Pali Canon and its commentators.

Precludes additional credit for RELI 3215.

Prerequisite(s): RELI 2106 or RELI 2410 or permission of the department.

Lecture three hours a week.

RELI 3422 [0.5 credit]**Buddhism Beyond India**

The rise of the Mahayana and the dissemination and development of Buddhist thought and practice outside of India.

Precludes additional credit for RELI 3217.

Prerequisite(s): RELI 2106 or RELI 2410 or permission of the department.

Lecture three hours a week.

RELI 3520 [0.5 credit]**Early Hinduism**

A historical survey of Hinduism from the Vedic era to the development of devotional Hinduism. Vedic religion and developments in early Hindu Philosophy and sectarian Hinduism.

Precludes additional credit for RELI 3015.

Lecture three hours a week.

RELI 3522 [0.5 credit]**Modern Hinduism**

A survey of major developments in Hinduism since the period of colonial British rule. The development of "reform" Hinduism in the 18th and 19th centuries, and the emergence of Hindu nationalist movements in the 20th century.

Precludes additional credit for RELI 3007.

Lecture three hours a week.

RELI 3710 [0.5 credit]**Religions and the Environment**

Attitudes in the major world religions to nature and the environment and recent responses by religious traditions to ecological degradation and crisis. Includes examination of religious sensibilities expressed in environmentalism.

Precludes additional credit for RELI 2307 (Section A taken fall 2003, fall 2004, fall 2005, summer 2006) and RELI 3100 taken in 2008.

Prerequisite(s): third-year standing and RELI 1000 or RELI 1710 or RELI 1001 or RELI 1711; or permission of the department.

Lecture three hours a week.

RELI 3722 [0.5 credit]**Religion and Violence**

A thematic course that examines putative cases of "religion and violence" from a range of world traditions, but also interrogates aspects of the "religion and violence" rubric itself.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3732 [0.5 credit]**Studies in Greek Art**

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year. Also listed as ARTH 3102, CLCV 3306.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

RELI 3733 [0.5 credit]**Studies in Roman Art**

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year. Also listed as ARTH 3105, CLCV 3307.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

RELI 3734 [0.5 credit]**Religion, Gender, and Sexuality**

How religious communities and thinkers past and present have attempted to construct gender and sexuality.

Lecture three hours a week.

RELI 3741 [0.5 credit]**Classical Approaches to Religion**

Examination of reflection on the nature and origin of religion from the ancient world up to key figures and founders of the discipline of the systematic, critical, and scientific study of religion in the nineteenth and early twentieth century.

Prerequisite(s): second-year standing.

Lecture three hours per week.

RELI 3840 [0.5 credit]**Topics in Religion**

Content of this course may vary from year to year. Please check departmental website for information on the topic. Precludes additional credit for repeated topics.

Lecture three hours a week.

RELI 3850 [0.5 credit]**Topics in the Study of Religion Abroad**

This travel course explores religion in its historical and/or contemporary contexts in a particular geographic locale.

Travel destinations, religious traditions studied, course content, and themes vary from year to year.

Prerequisite(s): third year standing and 1.0 credit of study in the area related to the year's topic religion, and permission of the department. Permission of the department is required to repeat this course.

Hours to be arranged. Costs associated with the course are borne by the student.

RELI 4741 [0.5 credit]**Contemporary Issues in the Study of Religion**

Late twentieth and twenty-first century scholarship on religion including debate on theoretical and methodological approaches.

Includes: Experiential Learning Activity

Precludes additional credit for RELI 3301, RELI 4301, RELI 4740 (no longer offered).

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program, or permission of the department. Seminar three hours per week.

RELI 4840 [0.5 credit]**Tutorial**

A tutorial on a topic in religious studies. Contents of the tutorial to be arranged with the supervising faculty member.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program, or permission of the department.

RELI 4850 [0.5 credit]**Seminar in the Study of Religion**

Content of this course may vary from year to year. Please consult the departmental website for information on the topic.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program, or permission of the department.

Also offered at the graduate level, with different requirements, as RELI 5850, for which additional credit is precluded.

Seminar three hours a week.

RELI 4990 [1.0 credit]**Honours Research Essay**

Honours research paper (approx. 40 pages) is due on the last day of winter term classes. Written proposal due to the Proposal Board on the first day of fall term classes. Please consult department document for full requirements and information.

Includes: Experiential Learning Activity

Precludes additional credit for RELI 4908 and RELI 4909.

Prerequisite(s): 10.0 CGPA and fourth-year standing in the Honours B.A. Religion program, or permission of the department.

Russian (RUSS)

Russian (RUSS) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to

complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

RUSS 1010 [0.5 credit]**First-Year Russian I**

For students with no knowledge of Russian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for RUSS 1110.

Four hours a week.

RUSS 1020 [0.5 credit]**First-Year Russian II**

Continuation of first-year Russian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for RUSS 1110.

Prerequisite(s): grade of C or higher in RUSS 1010, or permission of the School.

Four hours a week.

RUSS 1110 [1.0 credit]**Intensive First-Year Russian**

For students with no knowledge of Russian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for RUSS 1010 and RUSS 1020.

Eight hours a week (one term).

RUSS 2010 [0.5 credit]**Second-Year Russian I**

Further study of Russian to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 1020 or RUSS 1110, or permission of the School.

Four hours a week.

RUSS 2020 [0.5 credit]**Second-Year Russian II**

Continuation of second-year Russian. Further study of Russian to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 2010, or permission of the School.

Four hours a week.

RUSS 3010 [0.5 credit]**Third-Year Russian I**

Further study of Russian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 2020, or permission of the School.

Three hours a week.

RUSS 3015 [0.5 credit]**Russian for Heritage Speakers I**

For students who have attained Russian language proficiency in informal settings or who completed elementary school in a Russian speaking country. The course builds literacy skills, formalizes grammar awareness, and develops writing and reading language skills in a formal academic setting. Precludes additional credit for all 1000 through 3000 level Russian courses. Prerequisite(s): Permission of the School. Online.

RUSS 3020 [0.5 credit]**Third-Year Russian II**

Continuation of third-year Russian. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Prerequisite(s): grade of C or higher in RUSS 3010, or permission of the School. Three hours a week.

RUSS 3025 [0.5 credit]**Russian for Heritage Speakers II**

Further study of Russian to enhance students' literacy skills and formalize grammar awareness in a formal academic setting. Emphasis on the use of formal and academic language in oral and written form; further development of writing and reading skills. Precludes additional credit for all 1000 through 3000 level Russian courses. Prerequisite(s): RUSS 3015 or permission of the School. Online.

RUSS 4010 [0.5 credit]**Fourth-Year Russian I**

Advanced spoken and written Russian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance. Prerequisite(s): grade of C or higher in RUSS 3020, or permission of the School. Three hours a week.

RUSS 4020 [0.5 credit]**Fourth-Year Russian II**

Continuation of fourth-year Russian. Advanced spoken and written Russian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance. Prerequisite(s): grade of C or higher in RUSS 4010, or permission of the School. Three hours a week.

RUSS 4115 [0.5 credit]**Russian for Social Studies**

Russian language skills for translation of modern history and social science texts from Russian into English, with an emphasis on syntax. Compulsory attendance. Includes: Experiential Learning Activity. Precludes additional credit for Russian translation offered under EURL 4901. Prerequisite(s): permission of the School. Not open to students with native-like Russian proficiency. Three hours a week.

RUSS 4120 [0.5 credit]**Russian for Research**

Russian language skills for conducting research in modern history and social sciences, with an emphasis on practice and theory of translation from Russian into English. Compulsory attendance. Includes: Experiential Learning Activity. Precludes additional credit for Russian translation offered under EURL 4902. Prerequisite(s): grade of C in RUSS 4115, or permission of the School. Not open to students with native-like Russian proficiency. Three hours a week.

RUSS 4900 [1.0 credit]**Independent Study**

Research in a topic in Russian language, literature or linguistics under the supervision of a member of the School. Includes: Experiential Learning Activity. Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Russian, grade of C or higher in RUSS 3020 or equivalent, or permission of the School.

RUSS 4901 [0.5 credit]**Independent Study**

Research in a topic in Russian language, literature or linguistics under the supervision of a member of the School. Includes: Experiential Learning Activity. Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Russian, grade of C or higher in RUSS 3020, or equivalent, or permission of the School.

Sexuality Studies (SXST)

Sexuality Studies (SXST) Courses

SXST 2101 [0.5 credit]

Sexuality Studies: A Critical Introduction

While sexuality is often considered the most private and 'natural' of personal concerns, it is saturated with issues of social power, historical change, and public politics. This course offers a critical introduction to interdisciplinary studies of sexuality, focusing on history, theory, and cultural practice.

Includes: Experiential Learning Activity

Precludes additional credit for DIST 2101 (no longer offered).

Prerequisite(s): second-year standing or permission of the Institute.

Lectures and discussion groups three hours a week.

SXST 2102 [0.5 credit]

Sexuality, Gender, and Security

Historical and contemporary analysis of surveillance, security, and regulation of sexuality, race, class, and gender. Students will critically examine how 'subversives' were created through discourse and administrative logics such as policy and law.

Includes: Experiential Learning Activity

Also listed as HUMR 2102.

Prerequisite(s): second year standing.

Lectures and discussions three hours a week.

SXST 3103 [0.5 credit]

Sexuality and Disability

Exploration of ways that embodied categories of sex and gender, as well as desire are mediated through mainstream and alternative discourses of disability. Topics may include: crip theory, mental health issues, and LGBTQ sexualities.

Prerequisite(s): third-year standing or permission of the Institute.

Lecture three hours a week.

SXST 3104 [0.5 credit]

Transnational Sexualities

Students analyze sex, gender and sexuality as power relations within, and between nation-states comprising the Global North and South, as well as new knowledge created through national border crossings. Topics may include: Orientalism, colonialization, and diasporic identities.

Prerequisite(s): third-year standing and SXST 2101.

Lecture three hours a week.

SXST 3106 [0.5 credit]

Queer(ing) Archives

Examination of the archival turn in historical and theoretical perspective with an emphasis on sexuality, race, and gender as subjectivities in queer, trans, and colonial archives.

Also listed as HIST 3102.

Prerequisite(s): third-year standing.

Seminar three hours a week.

SXST 4101 [0.5 credit]

Interdisciplinary Studies of Sexuality

A study of selected issues in sexuality studies considered from an interdisciplinary perspective. The course may focus on any one, or combination of, sexuality studies in relation to history, theory, and/or cultural practice.

Includes: Experiential Learning Activity

Precludes additional credit for DIST 4101 (no longer offered).

Prerequisite(s): SXST 2101 and fourth-year standing.

Seminar three hours a week.

SXST 4102 [0.5 credit]

Queer Theory

A critical approach to gender and sexuality by engaging in key debates and texts in the field of queer theory and studies.

Prerequisite(s): SXST 2101 and fourth-year standing.

Also offered at the graduate level, with different requirements, as WGST 5102, for which additional credit is precluded.

Seminar three hours a week.

SXST 4103 [0.5 credit]

Politics of Kink

This seminar analyzes critically the existence and regulation of non-normative sexual attitudes, behaviours and practices. Topics may include: non-monogamy, sadomasochism, pornography.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SXST 4104 [0.5 credit]

Sexuality and Political Economy

An interdisciplinary and intersectional approach to issues in the area of Sexuality Studies focusing on socio-economic relations (e.g. class location, consumption) and the ways they mediate sex, gender, and sexual subject formation and governance. SXST 4101.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year standing.

Seminar three hours a week.

SXST 4105 [0.5 credit]

Queer Ecologies

Students engage with debates within sexuality studies and transgender studies regarding the interwoven relationships between gender, race, indigeneity, desire, bodies and ecological politics. Topics may include: climate change, gendered and sexualized landscapes, and speciesism.

Prerequisite(s): fourth-year standing or by permission of the department.

Seminar three hours a week.

SXST 4106 [0.5 credit]**Queer Aesthetics: Affect, Cultural Production, Sexuality**

Critical examination of affective economies made in and through LGBTQ cultural production. Drawing from feminist, queer, trans and queer of colour critique, students will consider how queer affect, sentiment and emotions uniquely circulate in art and aesthetic objects.

Prerequisite(s): fourth-year standing or permission of the Institute.

Seminar three hours a week.

Social Work (SOWK)

Social Work (SOWK) Courses**SOWK 1001 [0.5 credit]****Introduction to Social Welfare**

Explores definitions of social welfare and the structure of the Canadian welfare state; evolution and devolution of the welfare state in Canada; social welfare and its relationship to social work, social change, and social justice.

Precludes additional credit for SOWK 1000 (no longer offered).

Lecture three hours a week.

SOWK 1002 [0.5 credit]**Introduction to Social Work**

Introduction to the profession of social work; evolution of the social work profession in Canada; social work knowledge, values and skills. Explores professional and regulatory social work bodies and international linkages.

Precludes additional credit for SOWK 1000 (no longer offered).

Lectures three hours a week.

SOWK 2001 [0.5 credit]**Structural Analysis and Social Work**

Evolution of structural social work, theories and critiques of structural social work and contemporary issues and challenges.

Precludes additional credit for SOWK 2000 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2005 [0.5 credit]**Values and Ethics for Social Work**

Focuses on knowledge and skills for ethical decision-making in social work; understanding social work values and ethics, accountability and the professional use of self.

Includes: Experiential Learning Activity
Precludes additional credit for SOWK 2000 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2100 [0.5 credit]**The Political Economy of the Social Welfare State**

Political economic theories as lenses for structural analysis of social problems and policies affecting social work practice in Canada.

Prerequisite(s): SOWK 1001 and SOWK 1002 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 2202 [0.5 credit]**Introduction to Social Work Practice with Individuals and Families**

Understand and develop skills required for working with individuals and families; active listening; use of self; engagement; rapport-building; interviewing and interventions; empathy; interpersonal and professional collaboration; supervision.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3201 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2203 [0.5 credit]**Introduction to Social Work Practice with Groups and Communities**

Introduces students to theory and practice skills for group work and community work; structural social work with groups and communities.

Precludes additional credit for SOWK 3200 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.

Lecture three hours a week.

SOWK 2300 [0.5 credit]**Drugs in Society: Theory, Policy, Practice**

Examines extent and nature of alcohol, prescription and illicit drug use, theories of drug dependence, history of drug policy; contemporary drug strategies and treatment in Canada.

Precludes additional credit for SOWK 2003 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002.

Lecture three hours a week.

SOWK 2301 [0.5 credit]**Working with Children and Youth**

Preventative and protective social work intervention with children and youth. Issues addressed include child neglect, abuse and violence in the context of family; organizational mandate and social political contexts. Programs and services for children and youth.

Precludes additional credit for SOWK 2201 (no longer offered).

Prerequisite(s): SOWK 1001 and SOWK 1002.

Lecture three hours a week.

SOWK 3001 [0.5 credit]**Introduction to Research Methods in Social Work**

Research methods used in social work; research paradigms; quantitative and qualitative analysis in social work and social welfare; stages in conducting research. Precludes additional credit for SOWK 2501 (no longer offered) and SOWK 2500 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3002 [0.5 credit]**Introduction to Statistical Analysis in Social Work**

Fundamentals of statistical analysis; descriptive and inferential statistics and their use in social work research. Statistical tests including Chi-Square, t-tests, correlations and simple linear regressions.

Precludes additional credit for SOWK 2500 (no longer offered), SOWK 2502 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3100 [0.5 credit]**Social Policy and Administration**

Understanding the welfare state and social policy in Canada; exploring issues in administration including program design and implementation; understanding and developing skills in policy-making and policy analysis. Canadian focus; recognition of the distinctiveness of social policy in Quebec.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3206 [0.5 credit]**Community Development and Social Change in an International Context**

Introduction to theories, models and methods of community organizing as a strategy for social change in an international context.

Prerequisite(s): SOWK 1001 and SOWK 1002; or PAPM 2000, or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3207 [0.5 credit]**Human Rights Practice in Civil Society**

Examines the advocacy role and capacity of organizations in civil society to increase popular participation in promoting and protecting human rights; includes transnational and national non-governmental organizations, grassroots movements, community organizations, and virtual or Internet-based organizations.

Prerequisite(s): SOWK 1001 and SOWK 1002 or PAPM 1000 or HUMR 1001 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3400 [0.5 credit]**Special Topics in Social Work**

Theory, policy or direct practice topics not covered in the regular course program. Choice of topics varies from year to year.

Prerequisite(s): SOWK 1001 and SOWK 1002 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3600 [2.0 credits]**Practicum I (Fall and Winter)**

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor.

Graded as Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3601, SOWK 3602.

Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

352 hours of field work over two terms and concurrent practicum seminars.

SOWK 3601 [2.0 credits]**Practicum I (Winter Term)**

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor; 352 field hours and compulsory field seminars. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3600, SOWK 3602.

Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

352 hours of field work over one term and concurrent practicum seminars.

SOWK 3602 [2.0 credits]**Practicum I (Fall term)**

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor; 352 field hours and compulsory field seminars. Limited enrolment in this course subject to discretion of Field coordinator. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3601, SOWK 3600.

Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

352 hours of field work over one term and concurrent practicum seminars.

SOWK 3804 [0.5 credit]**Law of the Family**

Legal framework surrounding the family and family relationships in Canadian society. Topics include marriage and cohabitation, matrimonial support, custody and access, and dissolution of marriage. State interventions through law; law and change in family structures; equality issues; dispute resolution processes.

Also listed as LAWS 3804.

Prerequisite(s): LAWS 1000, LAWS 2201 and LAWS 2003.

Lectures three hours a week.

SOWK 4000 [0.5 credit]**Social Work and Indigenous Peoples**

Social work in partnership with Indigenous peoples in Canada; impact of the past on current relationships; rebuilding through dialogue and respect; understanding Indigenous social work.

Precludes additional credit for SOWK 4200.

Prerequisite(s): third-year standing in Bachelor of Social Work.

Lecture three hours each week.

SOWK 4001 [0.5 credit]**Advanced Social Work Practice with Individuals and Families**

Advanced theory, methods, techniques, and skills for direct social work practice with individuals and families; individual and family assessments, treatment planning, intervention skills, and evaluation.

Includes: Experiential Learning Activity

Prerequisite(s): SOWK 2202 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4002 [0.5 credit]**Advanced Social Work Practice with Groups**

Advanced theory, methods, techniques, and skills for social work with groups; knowledge of group work and various group formats; and social work interventions in group process.

Prerequisite(s): SOWK 2203 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4003 [0.5 credit]**Advanced Social Work Practice with Communities**

Advanced theory, methods, techniques and skills for engaging in community-based practice. Politics and challenges of social work community organizing and strategies and skills for community work.

Prerequisite(s): SOWK 2203 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4004 [0.5 credit]**Social Policy Development and Practice**

Social policy development processes in government and non-governmental agencies; refining skills in evaluating and critiquing processes of policy formation; role of lobbying and social activism.

Prerequisite(s): SOWK 3100 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4102 [0.5 credit]**Indigenous Peoples and Social Policy**

History of colonization, legacy of colonialism, Royal Proclamation, BNA Act, treaties, impact of residential schools; implications of government social policy for Indigenous peoples in Canada; importance of self-determination and Declaration on the Rights of Indigenous Peoples.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4103 [0.5 credit]**Practice and Policy in Immigration**

History of immigration policies in Canada; direct practice with immigrants and refugees; diaspora, settlement and integration issues; immigrants and refugee women; intergenerational family relations; resources and community organizing.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4105 [0.5 credit]**Management of Non-Profit Organizations**

Introduction to theories, models and methods of managing non-profit organizations; role, nature and values of the non-profit sector in a market society; practical knowledge of management in different types of non-profit organizations (e.g. cooperatives, voluntary associations, public advocacy and community service organizations).

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4204 [0.5 credit]**Social Work and Aging**

Social perspectives on aging with focus on models of practice that contribute to the independence of elderly people. Social programs and policies, such as social insurance, social services, housing, public health and health care. Social, psychological and political issues related to independence in later life.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4206 [0.5 credit]**Feminist Counselling**

Examines theory and practice of feminist counselling, feminist counselling skills development.

Prerequisite(s): third- year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4209 [0.5 credit]**Special Topics in Direct Social Work Practice**

Theory and knowledge development of direct practice topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4210 [0.5 credit]**Special Topics in Direct Social Work Practice**

Theory and knowledge development of direct practice topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4211 [0.5 credit]**Special Topics in Social Policy**

Theory and knowledge development of social policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): SOWK 3100 and third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4212 [0.5 credit]**Special Topics in Social Policy**

Theory and knowledge development of social policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): SOWK 3100 and third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4213 [0.5 credit]**Special Topics in Social Work**

Theory and knowledge development of a combination of practice and policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4214 [0.5 credit]**Special Topics in Social Work**

Theory and knowledge development of a combination of practice and policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4300 [0.5 credit]**Social Work and Persons with Disabilities**

Social work theory and practice with persons with disabilities. Structural analysis of theory, models, policies and practices; disability rights; critical analysis of medical model and ableism.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4301 [0.5 credit]**Racialization and Social Work**

Social work and racialization; racism and consequences; critical analysis of cultural formations, difference, and identities; critical examination of whiteness and privilege.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4302 [0.5 credit]**Poverty and Social Welfare Policy**

Social work analysis of theories of poverty and economic inequality; labour force participation; poverty and wealth and income distribution in Canada and international comparisons; Canadian social policies and poverty. Precludes additional credit for SOWK 4101(no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4303 [0.5 credit]**Gender and Sexuality**

Social work and social, political, institutional and economic relations shaping everyday experiences of gender and sexuality and implications for contemporary social work.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4600 [2.0 credits]**Practicum II (Fall or Summer Terms)**

Development, application, testing and integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or in social administration and policy. Graded Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 4601, SOWK 4602.

Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, and permission of the School of Social Work. Student must be in good academic standing in the BSW program. 352 hours of fieldwork and concurrent practicum seminars.

SOWK 4601 [1.0 credit]**Practicum IIA**

Development, application, testing, integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or social administration and policy. Graded Sat/Uns. Part one of two part practicum taken consecutively with SOWK 4602.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 4600.

Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, and permission of the School of Social Work. Student must be in good academic standing in the BSW program. 176 hours of fieldwork and concurrent practicum seminars.

SOWK 4602 [1.0 credit]**Practicum IIB**

Development, application, testing, integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or social administration and policy. Graded Sat/Uns. Part two of two part practicum taken consecutively with SOWK 4601.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 4600.

Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, SOWK 4601 and permission of the School of Social Work. Student must be in good academic standing in the BSW program.

176 hours of fieldwork and concurrent practicum seminars.

SOWK 4701 [0.5 credit]**Special topic in Criminal Justice and Social Policy**

Selected topic in criminal justice and social policy. Topics announced in advance. Part of the Summer School in Criminal Justice and Social Policy and offered by the Department of Law.

Also listed as LAWS 4701.

Prerequisite(s): fourth-year Honours standing or permission of the School of Social Work.

SOWK 4702 [0.5 credit]**Special topic in Criminal Justice and Social Policy**

Selected topic in criminal justice and social policy. Topics announced in advance. Part of the Summer School in Criminal Justice and Social Policy and offered by the Department of Sociology.

Also listed as LAWS 4702, SOCI 4702.

Prerequisite(s): fourth-year Honours standing or permission of the School of Social Work.

SOWK 4703 [0.5 credit]**Special topic in Criminal Justice and Social Policy**

Selected topic in criminal justice and social policy. Topics announced in advance. Part of the Summer School in Criminal Justice and Social Policy and offered by the School of Social Work.

Also listed as LAWS 4703.

Prerequisite(s): fourth-year Honours standing or permission of the School of Social Work.

SOWK 4908 [1.0 credit]**Honours Essay**

Research essay under supervision of accredited faculty member. Project may be in the form of case study, historical study or other form that meets the approval of faculty advisor.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Social Work and permission of the School of Social Work.

Sociology (SOCI)

Sociology (SOCI) Courses**SOCI 1001 [0.5 credit]****Introduction to Sociology I**

Introduction to the discipline of sociology; theory, methods, history; key thinkers, concepts and disciplinary subfields in sociology; issues and problems in contemporary society.

Emphasis on the everyday world of lived experience and social relations. Topics may include class, gender, sexuality, racialization, culture, social interaction.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 1003.

Lectures/discussion groups three hours a week.

SOCI 1002 [0.5 credit]**Introduction to Sociology II**

This course will further explore and expand upon the key thinkers, concepts and disciplinary subfields in sociology. The focus of analysis will shift from the everyday world to social institutions and structural processes. Topics may include globalization, education, media, health, social movements, colonialism, urbanization.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 1003, SOCI 1005.

Prerequisite(s): SOCI 1001.

Lectures/discussion groups three hours a week.

SOCI 1003 [1.0 credit]**Introduction to Sociological Perspectives**

Introduction to the discipline of sociology; theory, methods and history; key thinkers, concepts and disciplinary subfields in sociology; issues and problems in contemporary society.

Precludes additional credit for SOCI 1000, SOCI 1001 and SOCI 1002.

Lectures/discussion groups three hours a week.

SOCI 1005 [0.5 credit]**Sociology for Bachelor of Commerce Students**

The origins of sociology, why sociology matters, and how it is practiced. Concepts such as class, race, ethnicity, gender, sexual orientation, work, organization, and social movements help students develop their sociological 'eye' for thinking critically about society and their place within it. Precludes additional credit for SOCI 1002.

Prerequisite(s): restricted to B.Com. students.

Lecture three hours a week.

SOCI 2000 [0.5 credit]**Foundations of Sociological Inquiry**

Introduction to sociological inquiry through the study of sociological approaches to knowledge, the relationship of theory to methods, introduction to different methodological traditions including their epistemological foundations, value and limitations. Students will acquire foundational academic skills.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours per week.

SOCI 2001 [0.5 credit]**Introduction to Qualitative Research Methods**

Introduction to theory and practice of qualitative research methods involving human participants: research design; ethics; data analysis; data generation methods. Methods may include: qualitative interviewing, ethnography, oral history, focus groups, observation. Additional topics may include: historical development/debates in qualitative research/key historical studies.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 2003 (no longer offered).

Prerequisite(s): SOCI 2000.

Lectures/discussion groups or labs three hours a week.

SOCI 2005 [1.0 credit]**Histories of Sociological Thought**

Traces theoretical traditions in sociological thought, situating traditions within historical, social and intellectual contexts. At least four of the following will be covered: orientalism, imperialism, colonialism; capitalism, social organization, rationalization; subject formation, identity; self and the everyday; work and leisure; and, social change and revolution.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2010 [0.5 credit]**Critical Approaches to Economic Inequality**

Theoretical and empirical examination of economic inequalities in Canada. Topics may include the experience of economic marginalization, how economic inequality is reproduced, how economic inequalities intersect with other forces, such as gender and racialized inequality, and struggles to transform the economic organisation of society.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 3405 (no longer offered) and SOCI 3407 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2020 [0.5 credit]**Race and Ethnicity**

Introduction to some of the recent theoretical literature and research on the issues of race, racism and ethnicity. Concepts, controversies and definitions dealing with race and ethnicity from the Canadian context and internationally.

Also listed as ANTH 2020.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2030 [0.5 credit]**Work, Industry and Occupations**

An analysis of work practices and settings in societies. Topics of interest include the development of industrial and postindustrial societies; the experience of work, the structuring of work in organizations and in the society; conflict, resistance and labour relations, and the impact of new technologies.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2035 [0.5 credit]**Technology, Culture and Society**

Introduction to the principal theories and methods used by Science and Technology Studies (STS) scholars to examine the social and cultural shaping of technology. The substantive focus of the course is on the design, development, production, diffusion, consumption and use of technology.

Also listed as DIGH 2035.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2040 [0.5 credit]**Food, Culture and Society**

The sociological analysis of food and eating. The relationship between food and identity; the development of social movements organized around food; and more generally, on practices relating to the production, preparation, and consumption of food.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2043 [0.5 credit]**Sociology of the Family**

How do we conceptualize the family? How has family changed over history? What are the diverse realities of families today? This course examines different family forms, relations and dynamics, emphasizing the relationship between family and larger social forces, such as gender, immigration or class.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2045 [0.5 credit]**Gender and Society**

How gender and gender relations play out in everyday lives, and how people resist, reproduce, or reinforce gender norms. Considers how gender shapes experiences of family, school, work, media, relationships, bodies, violence, etc. Canadian and global cases are examined.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 2407 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2050 [0.5 credit]**Sociology of Health**

Critical approaches to understanding health, illness and healthcare and how social, cultural, political and economic factors affect our health, our experiences with illness, and our encounters with healthcare systems.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2060 [0.5 credit]**Girlhood in Contemporary Contexts: Anthropological and Sociological Perspectives**

Drawing on anthropological and sociological approaches, students will explore girls' lives in diverse cultural, political, economic, and social contexts. Topics may include: movement and migration, education, media, imaging and humanitarianism, consumerism, agency and activism, health, and violence.

Also listed as ANTH 2060.

Prerequisite(s): second year standing or permission of the instructor.

Two hour lecture plus one hour tutorial per week.

SOCI 2150 [0.5 credit]**Social Psychology**

Theoretical and empirical consideration of society and the individual. Topics include the public realm, situations, roles and interpersonal relations. Beliefs, attitudes, interests and opinions, leadership and decision making, conformity, coercion and compromise may be also examined.

Precludes additional credit for PSYC 2100.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2160 [0.5 credit]**War and Society**

Sociological theory and research on large-scale conflict. How society and culture shape warfare through processes of socialization, bureaucratization, and ideological representation. Social impacts of war in terms of gender, race and ethnicity, class relations, and cultural values.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2170 [0.5 credit]**Foundations in Social Justice**

Introduction to the study of social justice and the theorization of social justice sociology. Critical examination of resistance to oppression, social movements and solidarity both in Canada and transnationally. Exploration of the relationship between the university and community-based action.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2445 [0.5 credit]**Sociology of Deviance**

The construction of deviant behaviour and the consequences of such construction for both deviant and conforming persons. Emphasis upon deviance as a normal and necessary result of the socio-cultural processes resulting from, and affecting the activities of a viable society.

Precludes additional credit for SOCI 2505 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2450 [0.5 credit]**Crime and Society**

Social reactions to crime, criminalization processes, and the criminal justice system, and their intersection with power relations and social inequalities.

Precludes additional credit for SOCI 2701.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2702 [0.5 credit]**Power and Social Change**

An investigation of power and culture, with a focus on how ordinary people contribute to social change. Topics may include activism, leisure, consumption, identity, fashion, sexuality, tourism, health, pollution and work.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2705 [0.5 credit]**Popular Culture in the Digital Age**

An examination of various approaches to analyzing digital media and their role in the production and consumption of contemporary cultural forms and practices. Students will reflect upon their use of digital media and the influence they have on their lives and popular culture, more generally.

Also listed as DIGH 2705.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2810 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2820 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2910 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information.

SOCI 2920 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information.

SOCI 3000 [0.5 credit]**Descriptive Statistics in Social Research**

The conceptual foundations of descriptive statistics and applications of these statistics using software (SPSS or Stata) to analyze and interpret social science data. Topics include frequency distributions, graphs, measures of central tendency and dispersion, measures of association, bivariate regression, and introduction to multivariate statistics.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 2002 (no longer offered).

Prerequisite(s): SOCI 2000 and third-year standing.

Lectures/computer labs three hours a week.

SOCI 3002 [0.5 credit]**Inferential Statistics in Social Research**

Inferential statistics and hypotheses testing used in social science research. Topics may include relationship between samples and population, methods of sample selection, central limit theorem, confidence levels and confidence intervals, overview of selected hypothesis tests, multivariate data analysis and multiple regression analysis.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 3003 (no longer offered).

Prerequisite(s): SOCI 3000 or CRCJ 3001 and third-year standing.

Lectures/computer labs three hours a week.

SOCI 3004 [0.5 credit]**Qualitative Research: Approaches and Strategies**

Specialized examination of select strategies or approaches to qualitative research. Topics may include: advanced application of research design involving human participants; historical research methods; textual/document-based research; visual sociologies; critical methodologies (such as feminist or decolonizing methods).

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 2001 and third-year standing.

Lectures/computer labs three hours per week.

SOCI 3006 [0.5 credit]**Thinking the Social: Theories and Approaches**

Examination of a select sociological tradition or thinker, or theoretically intensive study of a sociological area. Consult the department for topics offered.

Precludes additional credit for SOCI 3005 (no longer offered), SOCI 4006 (no longer offered).

Prerequisite(s): SOCI 2005 and third-year standing.

Lectures/discussion groups three hours a week.

SOCI 3010 [0.5 credit]**Power, Oppression and Resistance**

What makes inequalities so persistent? Theoretical and empirical examination of the intersection of social inequalities in Canada and globally, including class, gender, race and ethnicity and age; study of resistance to structures and cultures of inequalities.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3019 [0.5 credit]**Sociology of International Migration**

This course draws from global and interdisciplinary theoretical perspectives to examine primarily though not exclusively Canadian immigration policy and the socio-historical forces shaping policy, migration patterns, permanent, temporary and circular migration, the experiences of immigrants, refugees and migrants; and diasporic and transnational communities and identities.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours per week.

SOCI 3020 [0.5 credit]**Studies in Race and Ethnicity**

Race, racism and ethnicity in Canada and internationally. Critical perspectives on race and ethnicity, which intersect with other social relations. Racism, Eurocentrism, Orientalism, nationalism, colonialism, international migration, citizenship, and diasporic cultures.

Also listed as ANTH 3020.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3027 [0.5 credit]**Globalization and Human Rights**

Examination of the various dimensions and meanings of globalization and its relationship with human rights, with emphasis on the implications of the emerging global economy for economic, social, political and cultural rights. Also listed as ANTH 3027, PSCI 3802.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3030 [0.5 credit]**Studies in Work, Industry and Occupations: Authority and Expertise**

The nature and place of expert knowledge in societies. The development of the practices and organization of the professions and their relation to social stratification, the state, patriarchy and gender; the systematic development of knowledge in societies.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 2508 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3035 [0.5 credit]**Science, Culture and Society: Social Studies of Science**

Principal theories and methods used by Science and Technology Studies scholars to examine the social construction of scientific knowledge. Topics may include the demarcation of science from non-science, the relationship between experts and laypersons, and the study of scientific controversies.

Also listed as ANTH 3035.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3038 [0.5 credit]**Studies in Urban Sociology**

Issues related to people and the urban environment, including the historical process of urbanization, rural-urban transition, the diffusion of urban values and life styles, contemporary urban problems such as urban renewal, pollution and the pressures of the urban environment on social institutions.

Precludes additional credit for SOCI 2504 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3040 [0.5 credit]**Studies in the Sociology of Gender**

Sociological and feminist perspectives; applied understandings of gender, gender relations; women's and men's lives in contemporary Canadian society and in historical and cross-cultural terms. Multiple intersections between gender, race, ethnicity, class and sexuality.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3044 [0.5 credit]**Sociology of Sex and Sexuality**

Key concepts of sex, sexuality, gender, eroticism and pleasure. The history of sex and sexuality. The regulation of sexual relations and practices. Social movements relating to sexuality, gender identities and sexual equality. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3045 [0.5 credit]**Children and Childhood in a Globalized World**

A socio-historical and cross-cultural exploration of constructions, deconstructions, and the experience of childhood in Canada and internationally. Compulsory schooling, child labour, protection and regulation in law, the commodification and equalization of childhood, children's social movements, and the emergence of children's rights discourses.

Also listed as ANTH 3045.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3050 [0.5 credit]**Studies in the Sociology of Health**

Current theory and research on health, disease and social responses to health issues. Topics include population differences incidence and prevalence of morbidity and mortality, access to care and government health policy. Focus upon cultural definitions of health and their consequences for health promotion practices.

Precludes additional credit for SOCI 3705.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3055 [0.5 credit]**Studies in Addictions**

Survey of alcohol and other drug use in cross-cultural and sub-group perspectives. Relationships between culture, social structure and patterns of use of psychoactive substances. Topics may include: substance use and the life cycle; gender and psychoactive substances; problem and non-problem use.

Precludes additional credit for SOCI 3001.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3056 [0.5 credit]**Women and Health**

Women's health issues and how they relate to social, political and economic factors. The intersection of gender, ethnicity, class, sexual orientation and able-bodiedness with women's health.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Seminar 3 hours per week.

SOCI 3060 [0.5 credit]**Critical Disability Studies**

Course engages contemporary disability theory, culture, and activism to consider bodily difference and its relation to the workings of power and social control, accessibility, normalization, ableism, and medicalization. Students will gain an understanding of the contemporary debates, theories, and methodologies of critical disability studies.

Also listed as DBST 3060.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lectures three hours a week.

SOCI 3160 [0.5 credit]**Political Violence**

Sociological examination of political violence. Theoretical analysis of violence as social action that is historically situated and shaped by cultural and economic forces; the relationship between political violence and identity, nation/nationalism, modernity and globalisation.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third year standing.

Lectures three hours a week.

SOCI 3170 [0.5 credit]**Social Justice in Action**

Current debates in social justice theory and practice.

The course includes substantial engagement with community actors, including activists and advocates as guest speakers. Students will be exposed to social justice principles applied in the community through a variety of approaches.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3210 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3220 [0.5 credit]**Selected Topics in Sociology**

Selected topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3300 [0.5 credit]**Studies in the Sociology of Education**

Critical analysis of selected work in educational sociology. Topics may include sociological theories of education, school ethnography, contemporary educational policy and practice. Note: Topic will vary in keeping with the interests of students and instructor.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3410 [0.5 credit]**Studies in Criminal Justice**

Developments in criminal justice are examined in the context of broader social issues. Particular emphasis will be placed on contemporary developments in criminal justice institutions, programs and practices.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 3808 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3420 [0.5 credit]**Studies in Gender and Criminal Justice**

An overview of current issues related to women as both perpetrators and victims of crime and the Canadian criminal justice system's response to them. Topics may include woman abuse, sexual assault, and federally sentenced women.

Precludes additional credit for SOCI 3201 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3430 [0.5 credit]**Studies in Collective Action and Social Movements**

What is a social movement? How do sociologists distinguish between social movements and revolutions? What factors influence social movement development? What do they look like? Theoretical and empirical study of the relationship between social movements and social change.

Precludes additional credit for SOCI 3408 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3450 [0.5 credit]**Studies in Law Enforcement**

A comparative examination of contemporary law enforcement. Topics may include public versus private policing, centralized versus decentralized policing, and transnational policing.

Precludes additional credit for SOCI 3507 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3480 [0.5 credit]**Law and Social Regulation**

A study of sociological theories of law as well as the nature of legal institutions. Impacts of legal regulation on various social institutions and on processes of social debate and conflict.

Also listed as LAWS 3106.

Precludes additional credit for SOCI 3801 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3570 [0.5 credit]**Studies in Art, Culture and Society**

Aesthetic practices and institutions. Production and reception of diverse art forms (visual, musical, corporeal, etc.) in various sociocultural contexts. Institutions dedicated to supporting such practices (e.g., museums, theatres, festivals, rituals) are examined through a range of theoretical perspectives.

Also listed as ANTH 3570.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3710 [0.5 credit]**Introduction to Cultural Studies**

Research and theory in the interdisciplinary area of Cultural Studies. Contemporary cultural change in the advanced industrialized societies and its impact on everyday life.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 3710.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3805 [0.5 credit]**Studies in Population**

Historical and current debates on population growth. Historical declines in fertility and mortality from an international perspective. Contemporary demographic issues such as low fertility, longevity revolution, population aging, inequalities in health, migration and refugees. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3910 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information, as departmental permission is required.

SOCI 3920 [0.5 credit]**Course-Related Tutorials in Sociology**

Consult the Department for information, as departmental permission is required.

SOCI 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

SOCI 4002 [0.5 credit]**Advanced Studies in Sociological Theory**

Close study of the works of an author, tendency, or school of thought in theoretical sociology. Topic will vary in keeping with interests of the students and instructor. Prerequisite(s): SOCI 3006 and fourth-year standing. Seminar three hours a week.

SOCI 4003 [0.5 credit]**Advanced Studies in Qualitative Research**

In-depth study into selected issues in qualitative research design, implementation and data analysis. Topics covered may include participant observation, ethnomethodology, ethnography, grounded theory, discourse analysis, narrative analysis, textual analysis, and document analysis. Intersections between epistemologies and methodologies.

Precludes additional credit for ANTH 4003.

Prerequisite(s): SOCI 3004 and fourth-year standing.

Seminar three hours a week.

SOCI 4009 [0.5 credit]**Advanced Studies in Quantitative Research**

Study of specific quantitative methodological issues. Focus may be on one or two of the following topics: quantitative research design, sampling techniques, survey research methods and various statistical research methods including OLS and logistic regression.

Precludes additional credit for SOCI 4840 (no longer offered).

Prerequisite(s): SOCI 3002 and fourth-year standing.

Seminar/lab three hours a week.

SOCI 4020 [0.5 credit]**Advanced Studies in Race and Ethnicity**

Selected topics in race and ethnicity in an international context. Specific topics will vary according to instructors' research interests.

Also listed as ANTH 4020.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4039 [0.5 credit]**Women in Contemporary Middle East Societies**

Socio-economic, political and cultural realities of Middle Eastern women with focus on their lived experiences, voices and stories. Focus on women in Palestine/Israel with consideration of other Middle Eastern women.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4040 [0.5 credit]**Feminist Sociology of Intersectionality**

Theoretical and empirical examination of gender relations and gendered inequality with emphasis on the complex intersection of gender with race, ethnicity, religion, class, sexuality, (dis)ability and other relations of power in feminist scholarship, social justice movements, law and policy.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4043 [0.5 credit]**Families in the 21st Century**

Examination of contemporary family forms including single-parent-, blended/step-, LGBTQ- and common-law families. Topics may include theoretical perspectives; reproductive technologies; globalization; migration; interracial families; cohabitation; separation/divorce; motherhood/fatherhood; childcare/domestic labour; children/youth; intergenerational relations; social class/poverty; family policies and family law.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4160 [0.5 credit]**War, Terrorism and State Terrorism**

Critical theoretical and empirical analysis of violent political conflict. Examination of transformations and continuities of war, terrorism and state terrorism; modalities of political violence, such as torture or disappearance; responses to violent conflict; and the representation and construction of political violence.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4170 [0.5 credit]**Community-Engaged Sociology**

Students will apply their sociological education working with community organizations in small teams to research issues and advocate for positive social change. Each team's project will include public education, sociological analysis and creating a tangible product for the partner organization.

Includes: Experiential Learning Activity

Prerequisite(s): third-year or fourth-year standing, or permission from the instructor of SOCI 4170.

Lectures, discussion and project work three hours a week.

SOCI 4200 [0.5 credit]**War, Security and Citizenship**

Critical theoretical and multidisciplinary examination of violent conflict, security and citizenship. How wars produce a variety of abject and new subjects, create and reproduce citizenship hierarchies, and expand and contract citizenship entitlements.

Also listed as ANTH 4200.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4410 [0.5 credit]**Advanced Studies in Criminology**

Crime, criminal justice, social processes relating to the implementation of criminal justice policy, or other aspects of criminality and deviance.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4480 [0.5 credit]**Advanced Studies in the Sociology of Law**

Contemporary debates about the role of law in society focusing on the potential and limits of law as a vehicle of social transformation.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4700 [0.5 credit]**Honours Capstone Seminar**

Students carry out a small-scale research project to hone transferable skills acquired over the course of the degree programme.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4702 [0.5 credit]**Special Topic in Criminal Justice and Social Policy**

Examination of a selected topic in criminal justice and social policy. Topics to be announced.

Also listed as LAWS 4702, SOWK 4702.

Prerequisite(s): fourth-year standing.

Seminars three hours a week.

SOCI 4730 [0.5 credit]**Colonialism and Post-Colonialism**

Comparative ethnographic and historical approaches to colonialism including topics such as the formation of colonial regimes, colonial governmentality, servile labour systems, missionization, anti-colonial resistance, cultural hybridization and post-colonial memory. Exploration of debates over the relation between colonialism and the production of social scientific knowledge.

Also listed as ANTH 4730.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4750 [0.5 credit]**Advanced Studies in Globalization and Citizenship**

Selected topics on the confluence of processes of globalization, development and citizenship; examination of debates about the meaning and impact of globalization on patterns of inequality and citizenship both internationally and within Canada, and about strategies for progressive development.

Also listed as ANTH 4750.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4810 [0.5 credit]**Advanced Studies in Social Policy**

An examination of sociological research and social intervention.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4850 [0.5 credit]**Contemporary Problems in Sociology**

Selected problems in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4860 [0.5 credit]**Contemporary Problems in Sociology**

Selected problems in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4900 [1.0 credit]**Honours Thesis**

An independent research project under the supervision of a faculty member. Seminar supports students through each stage of the research process: development of a research question, designing the project, crafting a proposal, carrying out data generation and analysis, and writing the final thesis.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Sociology B.A. Honours with a CGPA of 9.00 or higher in the Major or by permission of the instructor. Students are strongly encouraged to locate a faculty member to supervise their Honours Thesis prior to the start of this course. Seminars on a bi-weekly basis (three hours).

SOCI 4910 [0.5 credit]**Tutorial in Sociology**

Consult the Department for information.

SOCI 4920 [0.5 credit]**Tutorial in Sociology**

Consult the Department for information.

South Asian Studies (SAST)

South Asian Studies (SAST) Courses**SAST 1001 [0.5 credit]****Introduction to South Asian Studies I**

An introduction to South Asian studies, including history, literature, religion, philosophy and the arts.

Includes: Experiential Learning Activity

Lecture three hours per week.

SAST 1002 [0.5 credit]**Introduction to South Asian Studies II**

An introduction to contemporary dimensions of South Asia including cultural, social and political thought and practice.

Includes: Experiential Learning Activity

Lecture three hours per week.

Spanish (SPAN)

Spanish (SPAN) Courses**Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

SPAN 1010 [0.5 credit]**First-Year Spanish I**

For students with no knowledge of Spanish. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for SPAN 1110.

Four hours a week.

SPAN 1020 [0.5 credit]**First-Year Spanish II**

Continuation of first-year Spanish. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for SPAN 1110.

Prerequisite(s): grade of C or higher in SPAN 1010, or permission of the School.

Four hours a week.

SPAN 1110 [1.0 credit]**Intensive First-Year Spanish**

For students with no knowledge of Spanish. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for SPAN 1010 or SPAN 1020.

Eight hours a week (one term).

SPAN 2010 [0.5 credit]**Second-Year Spanish I**

Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for SPAN 2110.

Prerequisite(s): grade of C or higher in SPAN 1020, SPAN 1110, or permission of the School.

Four hours a week.

SPAN 2020 [0.5 credit]**Second-Year Spanish II**

Continuation of second-year Spanish. Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for SPAN 2110.

Prerequisite(s): grade of C or higher in SPAN 2010, or permission of the School.

Four hours a week.

SPAN 2110 [1.0 credit]**Intensive Second-Year Spanish**

Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for SPAN 2010, SPAN 2020.

Prerequisite(s): grade of C or higher in SPAN 1020, SPAN 1110, or permission of the School.

Eight hours a week (one term).

SPAN 3010 [0.5 credit]**Third-Year Spanish I**

Continuation of the study of Spanish to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies.

Compulsory attendance.

Precludes additional credit for SPAN 3110.

Prerequisite(s): grade of C or higher in SPAN 2020, SPAN 2110, or permission of the School.

Three hours a week.

SPAN 3020 [0.5 credit]**Third-Year Spanish II**

Continuation of third-year Spanish. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for SPAN 3110.

Prerequisite(s): grade of C or higher in SPAN 3010 or SPAN 3015, or permission of the School.

Three hours a week.

SPAN 3110 [1.0 credit]**Intensive Third-Year Spanish**

Continuation of the study of Spanish to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for SPAN 3010, SPAN 3020.

Prerequisite(s): grade of C or higher in SPAN 2020, SPAN 2110, or permission of the School.

Six hours a week (one term).

SPAN 3220 [0.5 credit]**Introduction to Spanish Linguistics**

Introduction to principles of linguistic analysis, illustrated through Spanish. Sound systems, word structures and sentence structures of Spanish. Basic principles of language variation and change, as evidenced in the development of Spanish. Linguistic aspects of bilingualism as manifested in Spanish/English bilinguals.

Prerequisite(s): SPAN 3020 or SPAN 3110 or permission of the School.

Three hours a week.

SPAN 4010 [0.5 credit]**Fourth-Year Spanish I**

Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Precludes additional credit for SPAN 4110.

Prerequisite(s): grade of C or higher in SPAN 3020, SPAN 3110, or permission of the School.

Three hours a week.

SPAN 4015 [0.5 credit]**Spanish for Heritage Speakers I**

For students who have attained Spanish language proficiency in informal settings. This course formalizes grammar awareness, enhances literacy skills, and develops existing language abilities in a formal academic setting.

Precludes additional credit for all SPAN courses numbered 4110 and below.

Prerequisite(s): permission of the School.

Online.

SPAN 4020 [0.5 credit]**Fourth-Year Spanish II**

Continuation of fourth-year Spanish. Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Precludes additional credit for SPAN 4110.

Prerequisite(s): grade of C or higher in SPAN 4010, or permission of the School.

Three hours a week.

SPAN 4025 [0.5 credit]**Spanish for Heritage Speakers II**

For students who have started to develop existing Spanish language abilities in a formal academic setting. This course enhances students' written expression while building on advanced knowledge of Spanish grammar and vocabulary.

Precludes additional credit for all SPAN courses numbered 4110 and below.

Prerequisite(s): SPAN 4015 or permission of the School.

Online.

SPAN 4110 [1.0 credit]**Intensive Fourth-Year Spanish**

Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for SPAN 4010 or SPAN 4020.

Prerequisite(s): grade of C or higher in SPAN 3020, SPAN 3110, or permission of the School.

Six hours a week (one term).

SPAN 4215 [0.5 credit]**Spanish for Specific Purposes**

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in SPAN 4020 or SPAN 4110, or permission of the School.

Three hours a week.

SPAN 4320 [0.5 credit]**Topics in Spanish Linguistics**

Selected topic in Spanish linguistics.

Includes: Experiential Learning Activity

Prerequisite(s): LING 1001 or SPAN 3220, and grade of C or higher in SPAN 4020 or 4110, or permission of the School.

Three hours a week.

SPAN 4380 [0.5 credit]**Topics in Spanish-speaking Cultures**

Selected topics in Spanish-speaking cultures and societies. Development of advanced language skills.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in SPAN 4020 or SPAN 4110, or permission of the School.

Three hours per week.

SPAN 4900 [1.0 credit]**Independent Study**

Research in a topic in Spanish language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Spanish, grade of C or higher in SPAN 4020 or SPAN 4110 or equivalent, or permission of the School.

SPAN 4901 [0.5 credit]**Independent Study**

Research in a topic in Spanish language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in the Minor in Spanish, grade of C or higher in SPAN 4020 or SPAN 4110 or equivalent, or permission of the School.

Statistics (STAT)

Statistics (STAT) Courses**STAT 2507 [0.5 credit]****Introduction to Statistical Modeling I**

A data-driven introduction to statistics. Basic descriptive statistics, introduction to probability theory, random variables, discrete and continuous distributions, contingency tables, sampling distributions, distribution of sample mean, Central Limit Theorem, interval estimation and hypothesis testing. A statistical software package will be used.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2606, and STAT 3502. May not be counted for credit in any program if taken after successful completion of STAT 2559.

Prerequisite(s): an Ontario Grade 12 university-preparation Mathematics or equivalent, or permission of the School of Mathematics and Statistics.

Lectures three hours a week, laboratory one hour a week.

STAT 2509 [0.5 credit]**Introduction to Statistical Modeling II**

A data-driven approach to statistical modeling. Basics of experimental design, analysis of variance, simple linear regression and correlation, nonparametric procedures. A statistical software package will be used.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 2607, ECON 2202, ECON 2220.

Prerequisite(s): STAT 2507 or STAT 2606 or STAT 3502; or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 2559 [0.5 credit]**Basics of Statistical Modeling (Honours)**

Estimation and hypothesis testing for one and two samples, analysis of categorical data, basics of experimental design, analysis of variance, simple linear regression and correlation. Nonparametric procedures. A statistical software package will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 2655 or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 2605 [0.5 credit]**Probability Models**

Basic probability; discrete random variables with focus on binomial and Poisson random variables; continuous random variables, transformation theorem, simulating continuous random variables; exponential random variable, normal random variable, sums of random variables, central limit theorem. Elements of Markov chains, and introduction to Poisson processes. Precludes additional credit for STAT 2655 and STAT 3502. Prerequisite(s): MATH 1007 or MATH 1004 or MATH 1002, and MATH 1104 or MATH 1107 (or MATH 1102). Restricted to students in Bachelor of Computer Science, Bachelor of Mathematics in Computer Mathematics, and Bachelor of Engineering in Communications Engineering. Lectures three hours a week, tutorial one hour a week.

STAT 2606 [0.5 credit]**Business Statistics I**

Introduction to statistical computing; probability concepts; descriptive statistics; estimation and testing of hypotheses. Emphasis on the development of an ability to interpret results of statistical analyses with applications from business. Restricted to students in the School of Business. Includes: Experiential Learning Activity. Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, and STAT 3502. Prerequisite(s): An Ontario Grade 12 university-preparation Mathematics or equivalent, or permission the School of Mathematics and Statistics. Lectures three hours a week and laboratory one hour a week.

STAT 2607 [0.5 credit]**Business Statistics II**

Topics include: experimental design, multiple regression and correlation analysis, covariance analysis, and introductory time series. Use of computer packages. Restricted to students in the School of Business. Includes: Experiential Learning Activity. Precludes additional credit for STAT 2509, ECON 2202, ECON 2220. Prerequisite(s): STAT 2606. Lectures three hours a week and one hour laboratory.

STAT 2655 [0.5 credit]**Introduction to Probability with Applications (Honours)**

Probability axioms, basic combinatorial analysis, conditional probability and independence, discrete and continuous random variables, joint and conditional distributions, expectation and moments, probability and moment generating functions, Chebyshev's inequality and weak law of large numbers, central limit theorem, sampling distributions, simulation and applications to descriptive statistics. Precludes additional credit for STAT 2605. Prerequisite(s): MATH 1002 with a grade of C+ or higher or MATH 2007 or MATH 1005 with a grade of B+ or higher; and MATH 1102 with a grade of C+ or higher or MATH 2107 with a grade of B+ or higher; or permission of the School. Lectures three hours a week, tutorial one hour a week.

STAT 2660 [0.5 credit]**Mathematics for Finance (Honours)**

Interest rates, growth of money, discount functions, yield rates, time value of money, annuities, cash flows and portfolios, loans, mortgages, bonds, immunization, swaps, hedging and investment strategies, stocks and financial markets, arbitrage. Prerequisite(s): i) one of MATH 1002 or MATH 2007 or MATH 1005, grade of C+ or higher; and ii) one of MATH 1102 or MATH 1107 or MATH 1104, grade of C+ or higher; or permission of the School. Lectures three hours a week, tutorial one hour a week.

STAT 3502 [0.5 credit]**Probability and Statistics**

Axioms of probability; conditional probability and independence; random variables; distributions: binomial, Poisson, hypergeometric, normal, gamma; central limit theorem; sampling distributions; point estimation: maximum likelihood, method of moments; confidence intervals; testing of hypotheses: one and two populations; engineering applications: acceptance sampling, control charts, reliability. Includes: Experiential Learning Activity. Precludes additional credit for BIT 2000, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2201 (no longer offered), ECON 2210, STAT 2507, STAT 2605, and STAT 2606. Prerequisite(s): MATH 2004 and enrolment in the Faculty of Engineering or B.Sc. programs of the Department of Physics [except Double Honours Mathematics and Physics]. Lectures three hours a week and one hour laboratory.

STAT 3503 [0.5 credit]**Regression Analysis**

Review of simple and multiple regression with matrices, Gauss-Markov theorem, polynomial regression, indicator variables, residual analysis, weighted least squares, variable selection techniques, nonlinear regression, correlation analysis and autocorrelation. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3553.

Prerequisite(s): i) STAT 2509 or STAT 2607 or ECON 2202 or ECON 2220 or equivalent; and ii) MATH 1102 or MATH 1107 or MATH 1119 or equivalent; or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3504 [0.5 credit]**Analysis of Variance and Experimental Design**

Single and multifactor analysis of variance, orthogonal contrasts and multiple comparisons, analysis of covariance; nested, crossed and repeated measures designs; completely randomized, randomized block, Latin squares, factorial experiments, related topics. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 4504.

Prerequisite(s): STAT 3503 or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3506 [0.5 credit]**Stochastic Processes and Applications (Honours)**

Conditional probability and conditional expectation; Stochastic modeling; discrete time Markov chains including classification of states, stationary and limiting distributions; exponential distribution and the Poisson processes; queueing models; applications to computer systems, operations research and social sciences.

Prerequisite(s): STAT 2655 with a grade of C- or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3507 [0.5 credit]**Sampling Methodology**

The sample survey as a vehicle for information collection in government, business, scientific and social agencies. Topics include: planning a survey, questionnaire design, simple random, stratified, systematic and cluster sampling designs, estimation methods, problem of non-response, related topics.

Includes: Experiential Learning Activity

Prerequisite(s): one of: STAT 2507, STAT 2509, STAT 2606, STAT 2607, ECON 2201, ECON 2202, ECON 2210, ECON 2220, or equivalent; or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3508 [0.5 credit]**Elements of Probability Theory**

Discrete and continuous distributions, moment-generating functions, marginal and conditional distributions, transformation theory, limiting distributions.

Precludes additional credit for STAT 3558 and STAT 3608.

Prerequisite(s): i) MATH 2008 (or MATH 2004 or MATH 2009); and ii) one of STAT 2507, STAT 2606, ECON 2200, or ECON 2201 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3509 [0.5 credit]**Mathematical Statistics**

Point and interval estimation, sufficient statistics, hypothesis testing, chi-square tests with enumeration data.

Precludes additional credit for STAT 3559.

Prerequisite(s): STAT 3508 or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3553 [0.5 credit]**Regression Modeling (Honours)**

Linear regression - theory, methods and application(s).

Normal distribution theory. Hypothesis tests and confidence intervals. Model selection. Model diagnostics. Introduction to weighted least squares and generalized linear models.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3503.

Prerequisite(s): i) STAT 2559 with a grade of C- or higher, or STAT 2509 with a grade of B or higher; and ii) a grade of C- or higher in MATH 1102 or MATH 1107 or MATH 1104; or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 3558 [0.5 credit]**Elements of Probability Theory (Honours)**

Random variables and moment-generating functions, concepts of conditioning and correlation; laws of large numbers, central limit theorem; multivariate normal distribution; distributions of functions of random variables, sampling distributions, order statistics.

Precludes additional credit for STAT 3508 and STAT 3608.

Prerequisite(s): i) STAT 2655 with a grade of C- or higher; and ii) MATH 2000 with a grade of C- or higher, or (a grade of C+ or higher in MATH 2008 or MATH 2004, and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3559 [0.5 credit]**Mathematical Statistics (Honours)**

Empirical distribution functions, Monte Carlo methods, elements of decision theory, point estimation, interval estimation, tests of hypotheses, robustness, nonparametric methods.

Precludes additional credit for STAT 3509.

Prerequisite(s): STAT 3558 with a grade of C- or higher; or (STAT 3508 with a grade of B or higher, and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3660 [0.5 credit]**Actuarial Mathematics I**

Severity, frequency models, loss models, risk measures, value at risk, stochastic processes, Poisson process, characteristics of actuarial models, creating new univariate distributions, heavy-tailed distributions, mixed distributions, coverage modifications.

Prerequisite(s): STAT 2655, or permission from the school.
Lectures three hours a week, tutorial one hour a week.

STAT 3661 [0.5 credit]**Life Contingent Risk Modelling I**

Mixed distributions; conditional expectations; introduction to life insurance; traditional and modern insurance contracts; underwriting; premiums; pension plans and retirement benefits; survival models; reserves; present value random variable; force of mortality; life tables; insurance benefits; annuities; premium calculation.

Prerequisite(s): STAT 2660 and STAT 3506 with grades of C+ or higher; or permission of the School.
Lectures three hours a week, tutorial one hour a week.

STAT 3662 [0.5 credit]**Life Contingent Risk Modelling II**

Policy values; multiple state models; formulae for probability; Markov multiple state models; pension mathematics; yield curves; interest rate risk; emerging costs for life insurance; equity linked insurance; deterministic and stochastic pricing; reserving, participating, and universal life insurance.

Prerequisite(s): STAT 3661 with a grade of C+ or higher; or permission of the School.
Lectures three hours a week, tutorial one hour a week.

STAT 4500 [0.5 credit]**Parametric Estimation (Honours)**

Preliminaries on probability theory; exact and asymptotic sampling distributions; unbiasedness, consistency, efficiency, sufficiency and completeness; properties of maximum likelihood estimators; least squares estimation of location and scale parameters based on order statistics and sample quantiles; Best Asymptotically Normal (BAN) estimators.

Prerequisite(s): STAT 3559 or permission of the School.
Also offered at the graduate level, with different requirements, as STAT 5600, for which additional credit is precluded.
Lectures three hours a week.

STAT 4501 [0.5 credit]**Probability Theory (Honours)**

Introduction to probability, characteristic functions, probability distributions, limit theorems.

Prerequisite(s): STAT 3506 and STAT 3558 or permission of the School.
Lectures three hours a week.

STAT 4502 [0.5 credit]**Survey Sampling (Honours)**

Basic concepts in sampling from finite populations; simple random sampling; stratified sampling; choice of sampling unit; cluster and systematic sampling; introduction to multistage sampling; ratio estimation; sampling with unequal probabilities and with replacement; replicated sampling; related topics.

Prerequisite(s): i) STAT 2559 or STAT 2509; and ii) either STAT 3559, or a grade of C+ or better in STAT 3509; or permission of the School.
Lectures three hours a week.

STAT 4503 [0.5 credit]**Applied Multivariate Analysis (Honours)**

Selected topics in regression and correlation non-linear models. Multivariate statistical methods, principal components, factor analysis, multivariate analysis of variance, discriminant analysis, canonical correlation, analysis of categorical data.

Prerequisite(s): STAT 3553 or (STAT 3509 and STAT 3503) or permission of the School.
Also offered at the graduate level, with different requirements, as STAT 5509, for which additional credit is precluded.
Lectures three hours a week.

STAT 4504 [0.5 credit]**Statistical Design and Analysis of Experiments (Honours)**

An extension of the designs discussed in STAT 2559 to include analysis of the completely randomized design, designs with more than one blocking variable, incomplete block designs, fractional factorial designs, multiple comparisons; and response surface methods.

Includes: Experiential Learning Activity
Precludes additional credit for STAT 3504 and ECON 4706. PSYC 3000 is precluded for additional credit for students registered in a Mathematics program.
Prerequisite(s): STAT 3553 or STAT 3503; or permission of the School of Mathematics and Statistics.
Lectures three hours a week, laboratory one hour a week.

STAT 4506 [0.5 credit]**Nonparametric Statistics (Honours)**

Order statistics; projections; U-statistics; L-estimators; rank, sign, and permutation test statistics; nonparametric tests of goodness-of-fit, homogeneity, symmetry, and independence; nonparametric density estimation; nonparametric regression analysis: kernel estimators, orthogonal series estimators, smoothing splines; high-dimensional inference and false discovery.

Prerequisite(s): STAT 3559 or permission of the School.
Also offered at the graduate level, with different requirements, as STAT 5516, for which additional credit is precluded.
Lectures three hours a week.

STAT 4507 [0.5 credit]**Statistical Inference (Honours)**

Sufficient statistics, simple and composite hypotheses, most powerful and similar region test, distribution-free tests, confidence intervals, goodness-of-fit and likelihood ratio tests, large sample theory, Bayesian and likelihood methods, sequential tests.

Prerequisite(s): STAT 4500 or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5501, for which additional credit is precluded.

Lectures three hours a week.

STAT 4508 [0.5 credit]**Stochastic Models (Honours)**

Review of discrete Markov chains and Poisson processes; continuous time Markov chains; pure jump Markov processes, and birth and death processes including the Q-matrix approach; the Kolmogorov equations; renewal theory; introduction to Brownian motion; queueing theory.

Prerequisite(s): STAT 3506 or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5701, for which additional credit is precluded.

Lectures three hours a week.

STAT 4509 [0.5 credit]**Advanced Mathematical Modeling (Honours)**

Real-life situations in the physical, social, and life sciences are often modeled using mathematical tools. This course will examine various models and techniques used in their analysis, e.g., matrix procedures in connection with population models. Students will use a computer package to obtain numerical results.

Prerequisite(s): i) MATH 2454 and STAT 2655 (or MATH 2404 and STAT 2605) and ii) STAT 3506; or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5601, for which additional credit is precluded.

Lectures three hours a week.

STAT 4555 [0.5 credit]**Monte Carlo Simulation (Honours)**

Basic ideas and algorithms of Monte Carlo; simulation of basic stochastic processes. Brownian motion and the Poisson process, applications to financial modelling, queueing theory. Output analysis; variance reduction. Markov chain Monte Carlo methods; Gibbs sampling, simulated annealing and Metropolis-Hastings samplers with applications.

Includes: Experiential Learning Activity

Precludes additional credit for STAT 3555 (no longer offered).

Prerequisite(s): STAT 3558, or a grade of B or higher in STAT 3508, or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 4601 [0.5 credit]**Data Mining I (Honours)**

Data visualization; knowledge discovery in datasets; unsupervised learning: clustering algorithms; dimension reduction; supervised learning: pattern recognition, smoothing techniques, classification. Computer software will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503 or MATH 3806, or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4603 [0.5 credit]**Time Series and Forecasting (Honours)**

Time series regression. Nonstationary and stationary time series models. Nonseasonal and seasonal time series models. ARIMA (Box-Jenkins) models. Smoothing methods. Parameter estimation, model identification, diagnostic checking. Forecasting techniques. A statistical software package will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503, or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4604 [0.5 credit]**Statistical Computing (Honours)**

Statistical computing techniques, pseudo-random number generation, tests for randomness, numerical algorithms in statistics; optimization techniques; environments for data analysis, efficient programming techniques; statistics with mainstream software.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4607 [0.5 credit]**Bayesian Statistical Analysis (Honours)**

Probability basics for Bayesian statistics. Bayesian inference for simple exponential families. Markov Chain Monte Carlo for posterior inference. Empirical Bayes. Hierarchical Bayes. Bayesian inference for the multivariate normal model. Bayesian linear regression. More advanced topics may be included. Computer software will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4660 [0.5 credit]**Actuarial Mathematics II**

Empirical models, complete data, grouped data, credibility theory, failure time, accuracy, kernel estimation, goodness of fit tests, Bayesian analysis, inference for loss models, frequentist estimation, model selection.

Prerequisite(s): STAT 3660 with C+ or higher, or permission of the school.

Lectures three hours a week, tutorial one hour a week.

STAT 4661 [0.5 credit]**Life Contingent Risk Modelling II**

Policy values; multiple state models; formulae for probability; Markov multiple state models; pension mathematics; yield curves; interest rate risk; emerging costs for life insurance; equity linked insurance; deterministic and stochastic pricing; reserving, participating, and universal life insurance.

Prerequisite(s): STAT 3661 with a grade of C+ or higher; or permission of the School.

Sustainable and Renewable Energy (SREE)

Sustainable and Renewable Energy (SREE) Courses

SREE 1000 [0.0 credit]**Introduction to Sustainable Energy**

The concept of energy sustainability. Energy-economy system. Global energy trends, the next 100 years. Energy reserves and resources. Primary and secondary clean energy. Energy use, efficiency and renewables. Energy and the environment/climate change. Sustainable energy choices and policies.

Prerequisite(s): registration in Sustainable and Renewable Energy Engineering.

Lectures one hour per week.

SREE 3001 [0.5 credit]**Sustainable and Renewable Energy Sources**

Primary energy sources and the pathways to use. Renewables: photovoltaic, solar-thermal, hydropower, geothermal, tidal. Fossil fuels and nuclear. Terrestrial, thermodynamic and electrical limitations.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 2001 and MAAE 2300 and (ELEC 3605 or ELEC 2501 or fourth-year status in Environmental Engineering).

Lectures three hours per week, laboratories/problem analysis one hour per week.

SREE 3002 [0.5 credit]**Electricity: Use, Distribution, Integration of Distributed Generation**

Electricity use in Ontario: rates, government incentives, smart use. Electricity Distribution: topology, reliability, load characteristics, voltage regulation, power loss, capacitors, economics of optimum choice, system protection.

Distributed Generation: guides and regulations, case study.

Includes: Experiential Learning Activity

Prerequisite(s): SREE 3001, ELEC 4602 and (ELEC 2501 or ELEC 3605).

Lectures three hours per week, laboratories three hours per week alternate weeks.

SREE 3003 [0.5 credit]**Sustainable and Renewable Electricity Generation**

Power system structures; photovoltaic (PV) cell model, PV current-voltage curves, maximum power point tracking, grid-connected PV systems; power flow of wind generation, grid connection of wind generator; energy storage classification, battery equivalent circuit model, battery charging and discharging; renewable generation; feed-in tariff program.

Includes: Experiential Learning Activity

Prerequisite(s): SREE 3001, ELEC 4602 and (ELEC 2501 or ELEC 3605).

Lectures three hours per week, laboratories three hours per week alternate weeks.

SREE 4001 [0.5 credit]**Efficient Energy Conversion**

Steam generators, solid, liquid, gaseous and biofuels and cycles. Geothermal, solar powerplants. Energy storage. Environmental aspects of power generation. Industrial use and auto-generation of energy. Energy intensity and efficiency of industrial processes and products. Comparative analysis of raw material, energy, or product transport. Life-cycle analysis.

Includes: Experiential Learning Activity

Precludes additional credit for MECH 4403.

Prerequisite(s): MAAE 2300, MAAE 2400 and fourth year status in Sustainable & Renewable Energy Engineering.

Lectures three hours per week, laboratories/problem analysis three hours per week.

SREE 4002 [0.5 credit]**The Energy Economy, Reliability and Risk**

Interrelationship between energy and economic policy and regulations. Reliability of energy supply systems. Risk analysis and its application to the generation, distribution and environmental impacts of energy. Risks analysis and management associated with natural and human and regulatory influences. Environmental and public health risk analysis.

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours per week.

SREE 4907 [1.0 credit]**Energy Engineering Project**

Student teams develop professional-level experience by applying, honing, integrating and extending previously acquired knowledge in a major design project. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 3800, SREE 3002 and SREE 3003, fourth-year status in Sustainable and Renewable Energy Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites or corequisites.

Lecture one hour a week, laboratory seven hours a week.

Systems and Computer Engineering (SYSC)

Systems and Computer Engineering (SYSC) Courses

Note: the Departments of Systems and Computer Engineering and Electronics offer courses in: Biomedical and Electrical Engineering, Communications Engineering, Computer Systems Engineering, Electrical Engineering, Software Engineering and Engineering Physics.

SYSC 1005 [0.5 credit]

Introduction to Software Development

Software development as an engineering discipline, using a modern programming language, Language syntax. Algorithm design. Tracing and visualizing program execution. Testing and debugging. Program style, documentation, reliability. Lab projects are drawn from a variety of application domains: digital image manipulation, computer games, robotics.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, SYSC 1100 (no longer offered), COMP 1005 and COMP 1405.

Lectures three hours a week, laboratory three hours a week.

SYSC 2001 [0.5 credit]

Computer Systems Foundations

Computer architecture and organization: CPU, cache, memory, input/output, bus structures, interrupts; computer arithmetic: integer and floating point; CPU: instruction sets, addressing modes, instruction encoding. Input/output: programmed, interrupt-driven, block-oriented. Examples from several modern processor families.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2320, SYSC 3006.

Prerequisite(s): ECOR 1606 or SYSC 1005. Additional recommended background: SYSC 2006.

Lectures three hours a week, laboratory two hours a week.

SYSC 2003 [0.5 credit]

Introductory Real-Time Systems

Principles of event-driven systems. Review of computer organization. Assemblers and linkers. Development of embedded applications. Programming external interfaces, programmable timer. Input/output methods: polling, interrupts. Real-time issues: concurrency, mutual exclusion, buffering. Introduction to concurrent processes.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3006 and SYSC 3310.

Prerequisite(s): SYSC 2001 and SYSC 2006.

Lectures three hours a week, laboratory two hours a week.

SYSC 2004 [0.5 credit]

Object-Oriented Software Development

Designing and implementing small-scale programs as communities of collaborating objects, using a dynamically-typed or statically-typed programming language.

Fundamental concepts: classes, objects, encapsulation, information hiding, inheritance, polymorphism. Iterative, incremental development and test-driven development.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 1101, COMP 1006 and COMP 1406.

Prerequisite(s): SYSC 2006 or permission of the department, and second-year status in Engineering.

Lectures three hours a week, laboratory two hours a week.

SYSC 2006 [0.5 credit]

Foundations of Imperative Programming

The imperative programming paradigm: assignment and state, types and variables, static and dynamic typing. Memory management and object lifetimes: static allocation, automatic allocation in activation frames, dynamic allocation. Function argument passing. Recursion. Data structures: dynamic arrays, linked lists. Encapsulation and information hiding; object-based programming.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 1102 (no longer offered), SYSC 2002 (no longer offered) and COMP 2401.

Prerequisite(s): (ECOR 1051 and ECOR 1052 and ECOR 1053 and ECOR 1054) or ECOR 1606 or SYSC 1005, and second-year status in Engineering.

Lectures three hours a week, laboratory two hours a week.

SYSC 2010 [0.5 credit]

Programming Project

Programming, testing, and debugging of small team-based software projects that use data from sensors to display results graphically. Modern programming tools: frameworks, libraries, version control, package management, tool chains. Sensors, signal acquisition, display, and basic filtering. Introductory network programming.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3010, SYSC 3110.

Prerequisite(s): 2nd year status in Biomedical and Electrical Engineering or Communications Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 2100 [0.5 credit]**Algorithms and Data Structures**

Thorough coverage of fundamental abstract collections: stacks, queues, lists, priority queues, dictionaries, sets, graphs. Data structures: review of arrays and linked lists; trees, heaps, hash tables. Specification, design, implementation of collections, complexity analysis of operations. Sorting algorithms.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2002 (no longer offered) and COMP 2402.

Prerequisite(s): SYSC 2006 with a minimum grade of C-, and second-year status in Engineering.

Lectures three hours a week, laboratory two hours a week.

SYSC 2310 [0.5 credit]**Introduction to Digital Systems**

Number systems: binary, decimal, hexadecimal. Digital representation of information. Computer arithmetic: integer, floating point, fixed point. Boolean logic, realization as basic digital circuits. Applications: simple memory circuits, synchronous sequential circuits for computer systems. Finite state machines, state graphs, counters, adders. Asynchronous sequential circuits. Races.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 2607.

Prerequisite(s): (ECOR 1051 and ECOR 1052 and ECOR 1053 and ECOR 1054) or ECOR 1606 or SYSC 1005, and enrolment in Computer Systems Engineering, Communications Engineering, or Software engineering, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 2320 [0.5 credit]**Introduction to Computer Organization and Architecture**

Computer organization: processor, memory, input/output, system bus. Microarchitecture. Instruction set architecture. Assembly language programming: addressing modes, instruction encoding, execution. Assembler. Simple digital I/O, programmable timer. Input/output methods: polling, hardware interrupts.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2001 and SYSC 3006.

Prerequisite(s): SYSC 2310 and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 2510 [0.5 credit]**Probability, Statistics and Random Processes for Engineers**

Discrete and continuous random variables. Joint and conditional probabilities, independence, sums of random variables. Expectation, moments, laws of large numbers. Introduction to statistics. Stochastic processes, stationarity, additive white Gaussian noise, Poisson processes. Markov processes, transition probabilities and rates, birth death processes, introduction to queueing theory.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1004 and MATH 1104, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3006 [0.5 credit]**Computer Organization**

Computer organization: processor, memory, input/output, system bus. Number systems: binary, decimal, hexadecimal. Assembly language programming: representation of data, instruction encoding, execution. Devices: keyboard, programmable timer, parallel interface. Input/output methods: polling, hardware/software interrupts.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2001, SYSC 2003, SYSC 2320 and SYSC 3310. May not be taken for credit by students in Computer Systems Engineering, Communications Engineering, or Software Engineering.

Prerequisite(s): SYSC 2006 and ELEC 2607.

Lectures three hours a week, laboratory two hours a week.

SYSC 3010 [0.5 credit]**Computer Systems Development Project**

Development of expertise in designing, implementing and testing industrial-quality embedded systems through team projects. Applying modern programming languages, system design practices, current development processes (refactoring, iterative and incremental development) as well as current team-management tools (communication, version control) to medium-scale projects.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2404, SYSC 2010, SYSC 2101 (no longer offered), and SYSC 3110.

Prerequisite(s): SYSC 2100 and either SYSC 2003 or SYSC 3310 (may be taken concurrently), and enrolment in Computer Systems Engineering.

Lectures two hours a week, laboratory three hours a week.

SYSC 3020 [0.5 credit]**Introduction to Software Engineering**

Introduction to software engineering principles, software development life-cycles. Modelling in software engineering. Current techniques, notations, methods, processes and tools used in software engineering. UML modelling. Introduction to software quality, software verification and validation, software testing.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3100, SYSC 3120, SYSC 4120 and COMP 3004.

Prerequisite(s): SYSC 2004 and (SYSC 2006 or SYSC 2002).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3101 [0.5 credit]**Programming Languages**

Principles underlying different kinds of programming languages (procedural, functional, logic programming) and their semantics. Overview of machinery needed for language support (compilers, interpreters and run-time systems).

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3007.

Prerequisite(s): SYSC 2004.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3110 [0.5 credit]**Software Development Project**

Development of expertise in designing, implementing and testing maintainable, reusable software through team projects. Applying modern programming languages, design patterns, frameworks, UML and modern development processes (detection of olfactible source code defects, refactoring, iterative and incremental development, version control techniques) to medium-scale projects.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2404, SYSC 2010, SYSC 2101 and SYSC 3010.

Prerequisite(s): SYSC 2004 and SYSC 2100, and enrolment in Software Engineering.

Lectures two hours a week, laboratory three hours a week.

SYSC 3120 [0.5 credit]**Software Requirements Engineering**

Current techniques, notations, methods, processes and tools used in Requirements Engineering. Requirements elicitation, negotiation, modeling requirements, management, validation. Skills needed for Requirements Engineering and the many disciplines on which it draws. Requirements analysis: domain modeling, modeling object interactions; UML modeling. Introduction to software development processes.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3020 and COMP 3004.

Prerequisite(s): SYSC 2004 and enrolment in Software Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3200 [0.5 credit]**Industrial Engineering**

Techniques of operations research for decision-making in complex engineering systems. Linear programming, network models, PERT, integer programming, dynamic programming, queuing systems and inventory models. Problem solving is emphasized.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2300, ECON 4004, or MATH 3801.

Prerequisite(s): MATH 1004 and MATH 1104 and

((ECOR 1051 and ECOR 1052 and ECOR 1053 and ECOR 1054) or ECOR 1606 or SYSC 1005), and second-year status in Engineering.

Lectures three hours a week, laboratory/problem analysis one and a half hours per week.

SYSC 3203 [0.5 credit]**Bioelectrical Systems**

Biomedical transducers, sensors, and biomedical actuators. Biomaterials and biocompatibility. Amplifier designs: inverting, noninverting, differential, and bioinstrumentation. Amplifier analysis: gain, sensitivity, distortion and stability. Filter design. Sampling and quantization. Electrical machines. Biomedical electrical safety and standards.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005 and (ELEC 2507 or ELEC 3605), and enrolment in Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 3303 [0.5 credit]**Real-Time Concurrent Systems**

Principles and practice of a systems engineering approach to the development of software for real-time, concurrent, distributed systems. Designing to achieve concurrency, performance, and robustness, using visual notations. Converting designs into programs. Introduction to hard real-time systems. Team project.

Includes: Experiential Learning Activity

Prerequisite(s): for students in the Faculty of Engineering and Design: (SYSC 2003 or SYSC 3310) and SYSC 2004. For students in Computer Science: COMP 2401 and COMP 2402.

Lectures three hours a week, laboratory two hours a week.

SYSC 3310 [0.5 credit]**Introduction to Real-Time Systems**

Principles of event-driven systems. Microcontroller organization. Development of embedded applications. Programming external interfaces, programmable timer. Input/output methods: polling, interrupts. Real-time issues: concurrency, mutual exclusion, buffering. Introduction to concurrent processes.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2003, SYSC 3006.

Prerequisite(s): SYSC 2006 with a minimum grade of C- and SYSC 2320.

Lectures three hours a week, laboratory two hours a week.

SYSC 3320 [0.5 credit]**Computer Systems Design**

System on Chip (SoC)-based computer system design. SoC internal organization. Cache memory. Interfacing: external memory, hardware subsystems. Direct memory access. Floating point units. Introduction to field programmable gate arrays.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3601 and ELEC 4601.

Prerequisite(s): SYSC 3310 and third year status in Computer Systems Engineering, or permission of the Department.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3500 [0.5 credit]**Signals and Systems**

Signals: energy and power signals, discrete-time and continuous. Linear systems and convolution. Fourier Transform; complex Fourier series; signal spectral properties and bandwidth. Laplace transform and transient analysis. Transfer functions, block diagrams. Baseband and passband signals, with applications to communications systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3600 and SYSC 3610.

Prerequisite(s): MATH 1005 and enrolment in Communications Engineering, and second-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 3501 [0.5 credit]**Communication Theory**

Review of signals, linear systems and Fourier theory; signal bandwidth and spectra; digital waveform coding; introduction to analog and digital modulation systems; synchronization; characterization and effects of noise; link budgets; communications media and circuits; applications to current communications systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3503.

Prerequisite(s): SYSC 3600 or SYSC 3610.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3503 [0.5 credit]**Communication Theory II**

Amplitude Modulation. Frequency Modulation. Performance of AM and FM in noise. Communication channels, channel models, noise sources, noise models. Digital modulation: ASK, FSK, PSK. Optimal reception, probability of error on the AWGN channel.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3501 or SYSC 4600.

Prerequisite(s): SYSC 3500 and (STAT 2605 or SYSC 2510).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3600 [0.5 credit]**Systems and Simulation**

Properties of linear systems. Linear dynamic models of engineering systems. Applications of the Laplace transform. Transfer functions. Block diagrams. Frequency and time response. System simulation with digital computers.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3500 or SYSC 3610.

Prerequisite(s): MATH 1005 and ((ECOR 1051 and ECOR 1052 and ECOR 1053 and ECOR 1054) or ECOR 1101 or PHYS 1001), and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 3601 [0.5 credit]**Microprocessor Systems**

Microprocessor-based system design for different microprocessor families. Microprocessors: internal organization, instruction sets, address generation, pin-outs, bus cycles, signalling waveforms. Interfacing memory and I/O devices. Interrupt structures, direct memory access. Floating point coprocessors. System bus standards. Introduction to DSPs.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3320 or ELEC 4601.

Prerequisite(s): ELEC 2607, and SYSC 2003 or permission of the department.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3610 [0.5 credit]**Biomedical Systems, Modeling, and Control**

Properties of linear systems. Linear dynamic models of biomedical systems. Biomedical application of the Laplace transforms. Transfer functions. Block diagram. Frequency and time response. Feedback, control, and stability. Biomedical systems modeling and control.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3500 or SYSC 3600.

Prerequisite(s): MATH 1005 and ((ECOR 1051 and ECOR 1052 and ECOR 1053 and ECOR 1054) or ECOR 1101) and enrolment in Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

SYSC 4001 [0.5 credit]**Operating Systems**

Introduction to operating system principles. Processes and threads. CPU scheduling. Managing concurrency: mutual exclusion and synchronization, deadlock and starvation. Managing memory and input/output. Concurrent programming, including interprocess communication in distributed systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3001 and COMP 3000.

Prerequisite(s): SYSC 2006 with a minimum grade of C-.

Lectures three hours a week, laboratory three hours a week.

SYSC 4005 [0.5 credit]**Discrete Simulation/Modeling**

Simulation as a problem solving tool. Random variable generation, general discrete simulation procedure: event table and statistical gathering. Analyses of simulation data: point and interval estimation. Confidence intervals. Overview of modeling, simulation, and problem solving using SIMSCRIPT, MODSIM, and other languages.

Includes: Experiential Learning Activity

Prerequisite(s): (ECOR 2050 or SYSC 2510 or STAT 2605 or STAT 3502) and fourth-year status in Engineering, or permission of the Department.

Also offered at the graduate level, with different requirements, as SYSC 5001, for which additional credit is precluded.

Lectures three hours a week, laboratory one hour a week.

SYSC 4101 [0.5 credit]**Software Validation**

Techniques for the systematic testing of software systems. Software validation and verification, software debugging, quality assurance, measurement and prediction of software reliability. Emphasis on the treatment of these topics in the context of real-time and distributed systems.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4004.

Prerequisite(s): SYSC 3120 or SYSC 3020.

Lectures three hours a week, laboratory/problem analysis three hours a week.

SYSC 4102 [0.5 credit]**Performance Engineering**

Techniques based on measurements and models, for predicting and evaluating the performance of computer systems. Instrumentation. Simple queueing models and approximations. Techniques for modifying software designs to improve performance.

Includes: Experiential Learning Activity

Prerequisite(s): (ECOR 2050 or STAT 3502) and SYSC 4001.

Also offered at the graduate level, with different requirements, as SYSC 5101, for which additional credit is precluded.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4106 [0.5 credit]**The Software Economy and Project Management**

Introduction to software project management and economics; Return on software investments; Software life cycle; Work breakdown structure, scheduling and planning; Risk analysis and management; Product size and cost estimation; Earn value management; Statistical process control; Managing project team and process improvement; Bidding and contract types.

Prerequisite(s): SYSC 3120 (may be taken concurrently)

or COMP 3004, and enrolment in Software Engineering or the Bachelor of Computer Science.

Lectures three hours a week.

SYSC 4120 [0.5 credit]**Software Architecture and Design**

Introduction and importance of software architectures and software system design in software engineering. Current techniques, modeling notations, methods, processes and tools used in software architecture and system design.

Software architectures, architectural patterns, design patterns, software qualities, software reuse.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3004, SYSC 3020 and SYSC 4800 (no longer offered).

Prerequisite(s): SYSC 3120.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4201 [0.5 credit]**Ethics, Research Methods and Standards for Biomedical Engineering**

Ethical theories, ethical decision-making, biomedical research ethics: informed consent, confidentiality, privacy, research ethics boards; research methods: hypothesis formulation, data collection, sampling bias, experimental design, statistical literacy; regulations for design, manufacture, certification of medical devices; impact of technology and research (social, political, financial).

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3605 or SYSC 3203.

Lectures three hours a week, problem analysis one and a half hours per week.

SYSC 4202 [0.5 credit]**Clinical Engineering**

Overview of the Canadian health care system; brief examples of other countries; clinical engineering and the management of technologies in industrialized and in developing countries; safety, reliability, quality assurance; introduction to biomedical sensor technologies; applications of telemedicine; impact of technology on health care.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Biomedical and Electrical or Biomedical and Mechanical Engineering.

Also offered at the graduate level, with different requirements, as BIOM 5406, for which additional credit is precluded.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 4203 [0.5 credit]**Bioinstrumentation and Signals**

Bioinstrumentation and biological signals; instrumentation systems, noise, electrical safety, and biocompatibility; bioelectric signals; biopotential electrodes: material properties, selection, and fabrication; measurement of flow and pressure; data acquisition; signal processing; biomedical imaging technologies; performance and characteristics of bioamplifier systems; major physiological systems and associated measurements.

Includes: Experiential Learning Activity

Prerequisite(s): (SYSC 3600 or SYSC 3500 or SYSC 3610) and (ELEC 2507 or ELEC 3605 or SYSC 3203) and fourth-year status in Biomedical and Electrical Engineering or fourth-year status in Biomedical and Mechanical Engineering.

Lectures three hours a week, laboratory/problem analysis three hours a week.

SYSC 4205 [0.5 credit]**Image Processing for Medical Applications**

Two-dimensional signals, filters, and Fourier transforms. Image acquisition, sampling, quantization and representation. Image perception. Digital and film cameras. Medical imaging technologies. Image processing operations: histogram, convolution, morphological, segmentation, registration. Image compression and formats.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005 and fourth-year status in Engineering.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4310 [0.5 credit]**Computer Systems Architecture**

Evolution of computer systems architecture to improve performance. Memory hierarchy, hardware accelerators. Instruction level parallelism, pipelining, vector processing, superscalar, out-of-order execution, speculative execution. Thread level parallelism, multi-core, many-core, heterogeneous systems. Processor-level interconnect bus, non-uniform memory access. Application-oriented architectures. Virtualization.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4507.

Prerequisite(s): SYSC 3320, and enrolment in Computer Systems Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4320 [0.5 credit]**Case Studies in Computer Systems**

Examples of several modern computer systems are presented in a computer systems context: system objectives, software and hardware components, interactions. The case studies present computer systems trends emerging in practice.

Prerequisite(s): SYSC 4310, and enrolment in Computer Systems Engineering.

Lectures three hours a week, problem analysis one hour a week.

SYSC 4405 [0.5 credit]**Digital Signal Processing**

Discrete time signal and system representation: time domain, z-transform, frequency domain. Sampling theorem. Digital filters: design, response, implementation, computer-aided design. Spectral analysis: the discrete Fourier transform and the FFT. Applications of digital signal processing.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3500 or SYSC 3600 or SYSC 3610.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4502 [0.5 credit]**Communications Software**

Communications software architectures, protocols and operating systems. Application layer protocols, APIs and socket programming. P2P algorithms, network virtualization, SDN. Reliable data transfer algorithms, FSM, MSC. Network security. Multimedia applications, RTSP, CDN, DASH, RTP, RTCP. Packet scheduling algorithms, DiffServ, IntServ, RSVP. Traffic classification, cross-layer optimization.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 2004 and SYSC 4602.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 4504 [0.5 credit]**Fundamentals of Web Development**

WWW architecture, web servers and browsers, core protocols. Web pages, their structure, interpretation and internal representation. Client-side and server-side programming. Data representation. Interfacing with databases and other server-side services. Cookies, state management, and privacy issues. Security. Web services.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 2004. Additional recommended

background: SYSC 4602 or SYSC 3303.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4505 [0.5 credit]**Automatic Control Systems I**

Review of Laplace transform techniques. Effects of feedback: frequency response, pole-zero positions. Compensation: root locus, Bode plots. State variables: formulation, solution of linear systems, examples of simple second-order non-linear systems. Discrete time systems: z-transforms. Signal reconstruction.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 3500, MAAE 4500 (no longer offered).

Prerequisite(s): MATH 2004 and (SYSC 3500 or SYSC 3600 or SYSC 3610).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4507 [0.5 credit]**Computer Systems Architecture**

Evolution of computer systems architecture, influences of changing technology, techniques to improve performance, memory hierarchy, hardware accelerators. Instruction level parallelism, pipelining, vector processing, superscalar, out of order execution, speculative execution. Thread level parallelism, multi-core, many-core, heterogeneous systems. Evolution of architectures for specific application domains.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4310.

Prerequisite(s): ELEC 2607 and (SYSC 2001 or SYSC 3006).

Lectures three hours a week, laboratory/problem analysis one hour a week.

SYSC 4600 [0.5 credit]**Digital Communications**

Review of probability, random variables, signal representation. Baseband data transmission: Nyquist criterion, equalization, optimal receiver, error probability. Digital modulation, performance. Synchronization. Introduction to information theory. Error detection and correction. Spread spectrum. Applications to current digital wired and wireless communications systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3503 and SYSC 4604.

Prerequisite(s): SYSC 3501 and STAT 3502.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4602 [0.5 credit]**Computer Communications**

Layered network architectures, TCP/IP suite, circuit switching, packet switching. Physical media, data transmission, multiplexing. Data link controls, MAC protocols, random access, polling, IEEE 802 standards. Bridges, switched Ethernet, VLANs. Routing algorithms, Internet routing protocols, datagram networks, virtual circuit networks. Transport protocols.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3203.

Prerequisite(s): ECOR 2050 or SYSC 2510 or STAT 2605 or STAT 3502 (may be taken concurrently), and third-year status in Biomedical and Electrical, Electrical, Communications, Computer Systems, Software, or Sustainable and Renewable Energy Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4604 [0.5 credit]**Digital Communication Theory**

Introduction to information theory, source coding and data compression, Error control coding, Trellis coded modulation, advanced topics of current interest: spread spectrum; digital wireless communications.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4600.

Prerequisite(s): SYSC 3503.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4607 [0.5 credit]**Wireless Communications**

Wireless radio channel characterization, diversity, equalization; cellular architecture, multiple access principles, spread spectrum systems, radio resource management; examples from modern wireless systems, networks, and standards, including cellular networks, WLANs, ad hoc networks, and satellite systems.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3501 or SYSC 3503.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4700 [0.5 credit]**Telecommunications Engineering**

Telecommunications as a national and international infrastructure. Systems view of network architecture: transmission, access, switching, multiplexing, signalling, and teletraffic. Network planning, management, security and control. Role of government, regulation and competition. Current telecommunications network evolution.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Electrical, Computer Systems or Communications Engineering, and (SYSC 3501 or SYSC 3503).

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4701 [0.5 credit]**Communications Systems Lab**

Project-oriented level experience in the design of communication systems to meet user requirements. Lectures on queuing theory and teletraffic analysis; system specification and design: requirements analysis, solution alternatives, evaluation of alternative technologies, design, costing, implementation, test.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Communications

Engineering or permission of the department.

Lectures two hours a week, laboratory four hours a week.

SYSC 4805 [0.5 credit]**Computer Systems Design Lab**

Project-oriented experience in the design of embedded computer systems. Lectures will discuss practical aspects related to the design and development of embedded systems, starting from sensor data acquisition and processing to decision systems, testing and embedded-system based project management, with practical application examples.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3320 or SYSC 3601, and enrolment in Computer Systems Engineering.

Lectures two hours a week, laboratory four hours a week.

SYSC 4806 [0.5 credit]**Software Engineering Lab**

Applying the full spectrum of engineering and programming knowledge acquired in the program through team projects in the laboratory. Practice in doing presentations and reviews. Lectures will discuss software engineering issues as they relate to the projects, from a mature point of view.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 4120, and enrolment in Software Engineering.

Lectures two hours a week, laboratory four hours a week.

SYSC 4810 [0.5 credit]**Introduction to Network and Software Security**

Fundamental concepts, terminologies, and theories of computer security; principles underlying common security controls; various types of threats and attacks on networks and software systems, how they work, and controls for dealing with them; security risk assessment and management; legal and ethical aspects of computer security.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4108.

Prerequisite(s): fourth-year status in Communications, Computer Systems or Software Engineering.

Lectures three hours a week, problem analysis one and a half hours a week.

SYSC 4906 [0.5 credit]**Special Topics**

At the discretion of the Department, a course dealing with selected advanced topics of interest to students in Biomedical and Electrical, Communications, Computer Systems, Electrical, Software Engineering, and Engineering Physics may be offered.

Prerequisite(s): permission of the Department.

SYSC 4907 [1.0 credit]**Engineering Project**

Student teams develop professional-level experience by applying previously acquired knowledge to a major design project. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites.

Lecture one hour a week, laboratory seven hours a week.

SYSC 4917 [1.0 credit]**Biomedical Engineering Project**

Student teams develop professional-level experience by applying previously acquired knowledge to a major design project in biomedical engineering. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Biomedical and Electrical Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites.

Lecture one hour a week, laboratory seven hours a week.

SYSC 4927 [1.0 credit]**Software Engineering Project**

Student teams gain professional-level experience by applying and extending previously acquired knowledge in a major design project in software engineering. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Software Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites.

Lecture one hour a week, laboratory seven hours a week.

SYSC 4937 [1.0 credit]**Communications Engineering Project**

Student teams gain professional-level experience by applying and extending previously acquired knowledge in a major design project in communications engineering. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Communications Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites.

Lecture one hour a week, laboratory seven hours a week.

Technology, Society, Environment Studies (TSES)

Technology, Society, Environment (TSES) Courses

TSES 2006 [0.5 credit]**Ecology and Culture**

Cultural adaptations to the environment are set within globalization processes. New symbolic, historical and political ecologies arise out of the hubris of classical models. The advocacy role of applied ecological anthropology and the consequences of Western cultures' adaptive capacities will be examined.

Prerequisite(s): second year standing or equivalent.

Lectures three hours a week.

TSES 2305 [1.0 credit]**Ancient Science and Technology**

Development of science and technology in the ancient world and their practical application. The craftsman and artisan in society; the attitude of intellectuals to science and manual labour. Effects of the institution of slavery. Suitable for students with no previous knowledge of Greece or Rome.

Also listed as CLCV 2305.

Prerequisite(s): second-year standing or equivalent.

Lectures two hours a week.

TSES 3001 [0.5 credit]**Technology-Society Interactions**

Ethical issues in introducing technology; historical review of technology and human development; effects on society of medical and communications technologies; automation and its effects on society, especially work; impact of technology on international affairs, especially through multinational enterprises. Guest lectures.

Includes: Experiential Learning Activity

Precludes additional credit for TSES 3000 and TSES 3500.

Prerequisite(s): at least second-year standing.

Lectures and workshops three hours per week.

TSES 3002 [0.5 credit]**Energy and Sustainability**

History of energy use by humans; utilization of renewable energy sources; energy and agriculture; energy and mineral resources; options for electricity generation; nuclear energy; risks of accidents in large systems, e.g. nuclear plants, hydroelectric dams. Guest lectures.

Includes: Experiential Learning Activity

Precludes additional credit for TSES 3000 and TSES 3500.

Prerequisite(s): at least second-year standing.

Lectures and workshops three hours per week.

TSES 3500 [0.5 credit]**Interactions in Industrial Society**

Ethical issues involving technology; effects on society of automation, medical and communications technologies; technology and international affairs; energy use by humans; renewable energy sources; energy in agriculture and mineral extraction; electricity generation; nuclear energy; accidents in large systems, e.g. nuclear plants and hydroelectric dams.

Precludes additional credit for TSES 3001, TSES 3002 and TSES 3000.

Prerequisite(s): at least second-year standing.

Lectures three hours per week for both terms.

TSES 4001 [0.5 credit]**Technology and Society: Risk**

Examines the complex practice of evaluating technology's impact on society and the environment; risk analysis; cost-benefit analysis; technology regulation; retrospective project assessment; necessary aspects of assessment and assessment examples. Guest lecturers.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4002 [0.5 credit]**Technology and Society: Forecasting**

Methods used for forecasting technological and social change; technological and social change portrayed in literature; science fiction factors involved in such change. Guest lecturers.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4003 [0.5 credit]**Technology and Society: Innovation**

Technological and social innovation, especially in Canada: historical examples; the relation of innovation to economic development; analysis of the steps involved; effect on employment; impediments and incentives. Guest lecturers.

Prerequisite(s): third-year standing or equivalent.

Lectures and seminars three hours a week.

TSES 4005 [0.5 credit]**Information Technology and Society**

Investigation of the human and social impacts of electronic information and communication on our working, educational, and personal lives from various disciplinary perspectives; problem issues and competing values in the creation, manipulation, dissemination, and control of information are identified; resolution initiatives encouraged. Guest lecturers.

Prerequisite(s): third-year standing or equivalent.

Lectures and seminars three hours a week.

TSES 4006 [0.5 credit]**Technology and Society: Work**

Explores the relationship between technology, employment and the individual; work organizations; employment restructuring; rural/urban split; the impact of information technologies; demographic impacts and globalization; Canadian issues and public policy explored. Guest lecturers.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4007 [0.5 credit]**Product Life Cycle Analysis**

Life cycle analysis of products and processes, from resource extraction through design and use to waste management or recycling; social and environmental implications of product design and use; how we value material objects and the environment; consumerism; evolution of design. Guest lectures.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent.

Lectures and workshops three hours a week.

TSES 4008 [0.5 credit]**Environmentally Harmonious Lifestyles**

Brief history of humans as part of the ecosystem; religious and ethical views; current degree of ecosystem disturbance by industrial society; innovations in products and services furthering the sustainability of the ecosystem, emphasis on the Canadian context. Guest lecturers and a major project.

Prerequisite(s): third-year standing or equivalent.

Lectures and seminars three hours a week.

TSES 4009 [0.5 credit]**Special Topics**

Reading course for students who wish to investigate a particular topic relevant to TSES.

Prerequisite(s): third-year standing or equivalent and permission of the Chair of TSE.

TSES 4010 [0.5 credit]**Special Topics**

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): third-year standing or equivalent.

Lectures three hours a week.

TSES 4011 [0.5 credit]**Technology and Society: Development**

Created in collaboration with Engineers Without Borders Carleton, the course explores appropriate ways of meeting technological needs of communities. Uses Canadian and African case studies to examine how capacity building has a greater impact than simple delivery of technological goods.

Prerequisite(s): third-year standing or equivalent.

Lectures three hours a week.

TSES 4012 [0.5 credit]**Science and Fiction: Creating Tomorrow**

Scenarios are used to speculate about the planned future. Science fiction and speculative fiction project ideas about imagined futures. Using readings from scenarios, speculative fiction and science fiction the course explores the mutual shaping of fiction, science and technology.

Prerequisite(s): third-year standing or equivalent.

TSES 4014 [0.5 credit]**Technology-Society: Time**

Time is a universal human experience, but it presents some profound mysteries. It governs our behaviour on personal, societal and cultural levels. This course will bring together experts from physics, sociology, philosophy, biology, literature and psychology to illuminate our understanding.

Prerequisite(s): third-year standing or equivalent.

Lectures three hours a week.

Women's and Gender Studies (WGST)

Women's and Gender Studies (WGST) Courses**WGST 1808 [1.0 credit]****Introduction to Women's and Gender Studies**

Overview of the major issues in women's and gender studies. Topics include the social construction of femininity and masculinity, violence, sexuality, representations of women, the treatment of women in the workplace and in education, women and the arts, and women's health.

Includes: Experiential Learning Activity

Precludes additional credit for FYSM 1402.

Lectures and discussion three hours a week.

WGST 2800 [0.5 credit]**Intersectional Identities**

Critical examination of the multiple intersections between gender, as a relation of power and social identity, as these intersect with (neo)colonialism, racism, poverty, ableism and heterosexism in a globalized world.

Includes: Experiential Learning Activity

Prerequisite(s): one of WGST 1808, HUMR 1001, FYSM 1402 or FYSM 1403 or permission of the Institute of Women's and Gender Studies.

Lectures and discussion three hours a week.

WGST 2801 [0.5 credit]**Activism, Feminisms, and Social Justice**

A comparative, interdisciplinary examination of feminist activism in the modern era. A range of perspectives and materials are used to examine the objectives, scope, and impact of feminists' efforts to effect social and political change in different historical, cultural, and national settings.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week.

WGST 2803 [0.5 credit]**Body Matters: The Politics of Bodies**

Introduction to feminist studies of globalization and politics of bodies. Globalization of ideas, cultures, economics and politics, movement of bodies, bodies as spaces for disrupting norms of sex, gender, race, class, ability, sexuality, embodiment and embodied resistance in a globalized world.

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week.

WGST 2811 [0.5 credit]**Masculinities**

Theoretical, experiential, cultural and policy issues around masculinities studies. The complexities of masculinities; the intersections of feminist and masculinity studies.

Topics may include hegemonic, racialized, homosexual, and Other(ed) masculinities. Feminist theories and transnational perspectives frame course content and discussions.

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week.

WGST 2812 [0.5 credit]**Selected Topics in Women's and Gender Studies**

An interdisciplinary analysis of one or more topics in women's and gender studies.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week. This course is repeatable when the topic changes.

WGST 2814 [0.5 credit]**Gender, Sexuality and Cultural Production**

How gender and cultural (re)production (literature, visual/performing arts, social media) and consumption articulate, circulate, and transform each other within economic, political, and social contexts. Emphasis on role, object, processes, and representations.

Prerequisite(s): second-year standing.

Lectures and discussion three hours a week.

WGST 3803 [0.5 credit]**Feminisms and Transnationalism**

Feminist analyses of the diversity of transnational experiences around rights, health, education, motherhood, fathering, work, social media and technological change, among others. Topics may include: migration, environment, wars/conflicts, neocolonialism, diaspora, human trafficking, refugee issues and displaced populations.

Prerequisite(s): third-year standing, and 1.0 credit in WGST; or permission of the Institute.

WGST 3806 [0.5 credit]**Girlhoods**

The emerging discipline of girlhood studies; social and cultural constructions of girlhood and categories of difference. Topics may include the commercialization of girlhood, popular culture and girls, negotiating identities, violence, sexualities, agency and activism in a globalizing world.

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute.

Lecture three hours a week.

WGST 3807 [0.5 credit]**Gendered Violence**

Theories, concepts and contexts of the complex manifestations of gendered violence in the lives of women, men and children globally.

Precludes additional credit for WGST 3005 Section "A", if taken in Winter 2012 and WGST 3005 Section "A" if taken in Fall 2009.

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute of Women's and Gender Studies.

Lecture three hours a week.

WGST 3809 [0.5 credit]**Feminist Thought**

Interdisciplinary approach introducing students to contemporary feminist thought and theories. Themes, issues and conflicts in feminist theorizing, including: debates around the concept of 'woman', sex wars, the politics of difference, epistemology, ontology, feminist knowledge, and power.

Includes: Experiential Learning Activity

Precludes additional credit for WOMN 3808 no longer offered).

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute of Women's and Gender Studies.

Lecture three hours a week.

WGST 3810 [0.5 credit]**Feminist Research**

Examination of feminist methodologies and critiques of prevailing approaches to the construction of knowledge. Feminist epistemology, subjectivity, and ethics in feminist research are central themes.

Includes: Experiential Learning Activity

Precludes additional credit for WOMN 3808 (no longer offered).

Prerequisite(s): third-year standing and 1.0 credit in WGST, or permission of the Institute of Women's and Gender Studies.

Lecture three hours a week.

WGST 3812 [0.5 credit]**Selected Topics in Women's and Gender Studies**

An interdisciplinary analysis of one or more topics in women's and gender studies.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and 1.0 credit in WGST.

Lecture three hours a week.

WGST 4003 [0.5 credit]**Traversing Feminisms**

Interdisciplinary overview of key historical concepts and issues in Women's and Gender Studies in the areas of theory, epistemology, and research design. Topics will vary from year to year. Provides additional background for students entering Women's and Gender Studies from other disciplines.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Institute.

Also offered at the graduate level, with different requirements, as WGST 5003, for which additional credit is precluded.

Seminar three hours a week.

WGST 4800 [0.5 credit]**Women's and Gender Studies Practicum**

Experience in research through a combination of classroom seminars and a field placement. Each project will be negotiated individually as a contract between the student, instructor and institutional partner.

Includes: Experiential Learning Activity

Precludes additional credit for WGST 4903 (no longer offered).

Prerequisite(s): WGST 3809 and WGST 3810, and fourth-year standing with a minimum 6.5 CGPA in B.A. Hons.

Women's and Gender Studies program or permission of the Institute.

WGST 4801 [1.0 credit]**Women's and Gender Studies Practicum**

Experience in applied feminisms through a combination of classroom seminars and internship. Each project will be negotiated individually as a contract between the student, instructor and institutional partner. Students must complete both the in-class and the internship portion of the course.

Includes: Experiential Learning Activity

Precludes additional credit for WGST 4800, WGST 4903 and WGST 4904 (no longer offered).

Prerequisite(s): WGST 3809, WGST 3810, and fourth-year standing with a minimum 6.5 CGPA in B.A. Hons. Women's and Gender Studies program or permission of the Institute.

Also offered at the graduate level, with different requirements, as WGST 5920, for which additional credit is precluded.

This full-credit course is offered intensively in one term.

WGST 4811 [1.0 credit]**Honours Research Project in Women's and Gender Studies**

Students will undertake a major research project on some aspect of women's and gender studies under the supervision of a faculty member.

Includes: Experiential Learning Activity

Prerequisite(s): a major CGPA of at least 11.00, plus WGST 3809 and WGST 3810 and fourth-year standing in B.A. Hons. Women's and Gender Studies program, or permission of the Institute of Women's and Gender Studies.

WGST 4812 [0.5 credit]**Selected Topics in Women's and Gender Studies**

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing and 1.0 credit in Women's and Gender Studies or permission of the Institute of Women's and Gender Studies.

Seminar three hours a week. This course is repeatable when the topic changes.

WGST 4814 [0.5 credit]**Independent Study**

Reading or research course supervised by a faculty member. Written proposal approved by the supervisor must be submitted before last day of course changes. Normally, only 0.5 credit of independent study may be counted in the program.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in a Women's and Gender Studies program or permission of the Institute of Women's and Gender Studies.
