Accreditation of the University

Accreditation

Carleton University, a founding member of the Council of Ontario Universities, enjoys full accreditation by the Ministry of Advanced Education and Skills Development of the Province of Ontario.

All programs of study leading to a Bachelor of Engineering degree are accredited by the Canadian Engineering Accreditation Board of Engineers Canada.

The Bachelor of Architecture degree offered by the School of Architecture is recognized by the Canadian Architectural Certification Board as a prerequisite to apply for certification of academic qualifications for registration to practice as an architect in a provincial association.

The Bachelor's, Master's and Doctoral programs offered by the Sprott School of Business are accredited by the Association to Advance Collegiate Schools of Business (AACSB International) and by the Network of International Business Schools (NIBS).

The Bachelor of Computer Science Honours Degree Program is accredited by the Accreditation Council of the Canadian Information Processing Society.

The B.Sc. Honours Chemistry and B.Sc. Honours Chemistry with Concentration in Nanotechnology are accredited by the Canadian Society for Chemistry.

The School of Industrial Design was established at Carleton on the recommendation of a study prepared by the Association of Canadian Industrial Designers. Initial funding for the school was supplied by Design Canada, Ministry of Industry, Trade and Commerce.

The Bachelor of Mathematics Honours Degree Program in Statistics is accredited by the Statistical Society of Canada (SSC).

The Bachelor of Social Work and Master of Social Work degree programs have been fully accredited by the Canadian Association of Social Work Education.

Carleton University participates in the Ontario Student Assistance Program, other provincial assistance programs and the Canada Student Loans Program, and is recognized for the Quebec Loans and Bursaries Program.

Carleton University's degree programs are recognized in the United States by the William D. Ford Federal Direct Loan (Direct Loan) Program and by the U.S. Department of Veterans Affairs.

Disclaimer

Disclaimer

The Carleton University Undergraduate and Graduate Calendars are published several months in advance of the beginning of the academic year and are intended to assist readers to understand the academic and administrative structure, policies and procedures of the University, and to describe the academic programs offered. By the act of registration each student becomes bound by the policies and regulations of Carleton University. Students are responsible for familiarizing themselves with the general information, rules, and regulations of Carleton University, as well as the specific requirements of each program, degree, diploma or certificate sought. It is the student's responsibility to ensure that the courses chosen are appropriate to the program requirements.

Carleton University reserves the right to make changes in the information contained in the University Calendars without prior notice. Not every course listed in the Undergraduate or Graduate Calendar will necessarily be offered in any academic year. Carleton reserves the right to limit the number of students who enrol in any program or course. While reasonable efforts will be made to offer courses as required within programs, admission to a program does not guarantee admission to any given course. If there is an inconsistency between the Undergraduate or Graduate Calendars and such regulations and policies as established by resolution of Senate, the version of such material as it is established by Senate will prevail.

Carleton University does not accept, and hereby expressly disclaims, any and or all responsibility or liability to any person, persons or group, either direct or indirect, consequential or otherwise, arising out of any one or more of such changes and, specifically, the University hereby disclaims liability to any person who may suffer loss as a result of reliance upon any information contained in the University Calendars. Additions and corrections will be posted at the Updates page.

Carleton University disclaims all responsibility and liability for loss or damage suffered or incurred by any student or other party as a result of delays in or termination of its services, courses or classes for any reason whatsoever including but not limited to by reason of force majeure, fire, flood, riots, war, strikes, lock#outs, damage to University property, financial exigency or other events beyond the reasonable control of the University. Carleton University also disclaims any and all liability for damages arising as a result of errors, interruptions or disruptions to operations or connected with its operations or its campuses, arising out of computer failure or non#compliance of its computing systems.

Copyright Compliance

Carleton University is committed to compliance in all copyright matters. Noncompliance is a violation of the Canadian Copyright Act. In addition to any actions that might be taken by any copyright owner or its licensing agent, the University will take steps against any breach of this policy. See <http://www.library.carleton.ca/copyright/> for guidelines on copyright compliance.

The Academic Year (Graduate and Undergraduate Studies)

This schedule contains the dates prescribed by the University Senate for academic activities. Dates relating to fee payment, cancellation of course selections, late charges, and other fees or charges will be published in the Important Dates and Deadlines section of the Registration Website (carleton.ca/registration).

The academic year is divided into three terms:

Summer term: May - August

Fall term: September - December

Winter term: January - April

Courses are offered in the following patterns:

Early summer: May - June

Late summer: July - August

Full summer: May - August

Early fall: September - October

Late fall: November - December

Full fall: September - December

Early winter: January - February

Late winter: March - April

Full winter: January - April

Fall/winter: September - April

Courses are offered during the day and in the evening.

Date	Activity
SUMMER TERM 2022	
March 1, 2022	Last day for receipt of applications for admission to an undergraduate degree program for the summer term.
April 28, 2022	Deadline for course outlines to be made available to students registered in early and full summer courses.
May 1, 2022	Last day for receipt of applications for undergraduate degree program transfers for the summer term.
May 5, 2022	Early summer and full summer classes begin.

May 12, 2022	Last day for registration and course changes (including auditing) for early summer courses.
May 13, 2022	Graduate students who have not electronically submitted their final thesis copy to the Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in spring 2022 and must register for the summer 2022 term.
May 19, 2022	Last day for registration and course changes (including auditing) for full summer courses.
May 20, 2022	Last day to withdraw from early summer and full summer courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript.
May 20-June 1, 2022	Fall/winter and winter term deferred final examinations will be held.
May 23, 2022	Statutory holiday. University closed.
May 27, 2022	Last day to request Formal Examination Accommodation Forms for June examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.
June 10, 2022	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, for early summer courses before the official examination period (see Examination Regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
June 17, 2022	Last day of early summer classes. (NOTE: full summer classes resume July 4.)

	Last day for take home examinations to be assigned, with the exception of those conforming to the Examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.	July 25, 2022	Last day for graduate students to submit their supervisor-approved thesis, in examinable form to the department.
	Classes will follow a Monday schedule.	July 29, 2022	Last day to request Formal Examination Accommodation Forms for August examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.
	Last day for academic withdrawal from early summer courses.	August 1, 2022	Statutory holiday. University closed.
June 18-19, 2022	Last day for handing in term assignments, subject to any earlier course deadline.	August 9, 2022	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, before the official examination period (see Examination Regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
June 20-26, 2022	No classes or examinations take place.	August 16, 2022	Last day of late summer and full summer classes.
June 26, 2022	Final examinations in early summer courses and mid-term examinations in full summer courses may be held. Examinations are normally held all seven days of the week.		Last day for take home examinations to be assigned, with the exception of those conforming to the Examination Regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
	All take home examinations are due on this day, with the exception of those conforming to the Examination regulations in the Academic Regulations University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.	June 27, 2022	Deadline for course outlines to be made available to students registered in late-summer courses.
July 1, 2022	Statutory holiday. University closed.	July 4, 2022	Late summer classes begin. Full summer classes resume.
July 11, 2022	Last day for registration and course changes (including auditing) for late summer courses.	July 22, 2022	Last day to withdraw from late summer courses with a full fee adjustment.
July 22-24, 2022	Early summer term deferred final examinations to be held.	August 17-18, 2022	No classes or examinations take place.
		August 19-25, 2022	Final examinations in late summer and full summer courses may be held. Examinations are normally held all seven days of the week.

August 25, 2022 All take home examinations are due on this day, with the exception of those conforming to the Examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.

September 23-25, 2022 Full and late summer term deferred final examinations to be held.

Date Activity

FALL TERM 2022

August 31, 2022 Deadline for course outlines to be made available to students registered in full fall, early fall and fall/winter courses.

September 1, 2022 Last day for receipt of applications from potential fall (November) graduates.

September 5, 2022 Statutory holiday. University closed.

September 6, 2022 Academic orientation (undergraduate and graduate students).

Orientation for new Teaching Assistants.

All new students are expected to be on campus. Class and laboratory preparation, departmental introductions for students, and other academic preparation activities will be held.

September 7, 2022 Fall term begins. Full fall, early fall, and fall/winter classes begin.

September 13, 2022 Last day for registration and course changes (including auditing) in early fall courses.

September 20, 2022 Last day for registration and course changes (including auditing) in full fall, late fall, and fall/winter courses.

Last day to withdraw from early fall courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript.

Graduate students who have not electronically submitted their final thesis copy to the Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in fall 2022 and must register for the fall 2022 term.

September 23-25, 2022 Full summer and late summer term deferred final examinations will be held.

September 30, 2022 Last day to withdraw from full fall and fall/winter courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript.

Last day to request Formal Examination Accommodation Forms for Oct/Nov final examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.

October 1, 2022 Last day for academic withdrawal from early fall courses.

October 7, 2022 December examination schedule (fall term final and fall/winter mid-terms) available online.

October 10, 2022 Statutory holiday. University closed.

October 14, 2022 Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, in early fall term undergraduate courses, before the official Oct/ Nov final examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).

October 15, 2022	Last day for receipt of applications for admission to an undergraduate degree program for the winter term from applicants whose documents originate from outside Canada or the United States.	November 18-20, 2022	Early fall undergraduate deferred final examinations will be held.
October 21, 2022	Last day of early fall classes. Last day for final take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.	November 25, 2022	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, in full fall term or fall/winter undergraduate courses, before the official December final examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
	Last day that can be specified by a course instructor as a due date for term work for early fall courses.	December 1, 2022	Last day for receipt of applications from potential winter (February) graduates. Last day for graduate students to submit their supervisor-approved thesis, in examinable form to the department.
October 24, 2022	Deadline for course outlines to be made available to students registered in late fall courses.	December 2, 2022	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, in late fall term undergraduate courses, before the official final examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
October 24-28, 2022	Fall break, no classes.		
October 29-30, November 5-6, 2022	Final examinations in early fall undergraduate courses will be held.		
October 31, 2022	Late fall classes begin.		
November 11, 2022	Last day to withdraw from late fall term courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript. Last day to request Formal Examination Accommodation Forms for December full fall and late fall final examinations and fall/winter midterm examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.	December 9, 2022	Fall term ends. Last day of full fall and late fall classes. Classes follow a Monday schedule. Last day for final take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
November 15, 2022	Last day for academic withdrawal from full fall and late fall courses. Last day for receipt of applications for admission to an undergraduate degree program for the winter term.		

Last day that can be specified by a course instructor as a due date for term work for full and late fall courses.

Last day for receipt of applications for undergraduate degree program transfers for winter term.

December 10-22, 2022

Final examinations in full fall and late fall courses and mid-term examinations in fall/winter courses will be held. Examinations are normally held all seven days of the week.

December 22, 2022

All final take-home examinations are due on this day, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.

December 25, 2022 through January 3, 2023 inclusive

University closed.

April 7, 2023	Statutory holiday. University closed.	May 19-31, 2023	Full winter, late winter, and fall/winter deferred final examinations will be held.
April 12, 2023	Winter term ends. Last day of full winter, late winter, and fall/winter classes.	June 1, 2023	Last day for receipt of applications for admission to an undergraduate program for the fall/winter session except for applications due March 1 or April 1.
	Classes follow a Friday schedule. Last day for final take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.	June 15, 2023	Last day for receipt of applications for undergraduate degree program transfers for the fall term.
	Last day that can be specified by a course instructor as a due date for term work for full winter and late winter courses.	Date	Activity
April 13-14, 2023	No classes or examinations take place.	SUMMER TERM 2023	
April 15-27, 2023	Final examinations in full winter, late winter, and fall/winter courses will be held. Examinations are normally held all seven days of the week.	March 1, 2023	Last day for receipt of applications for admission to an undergraduate degree program for the summer term.
		April 27, 2023	Deadline for course outlines to be made available to students registered in early summer and full summer courses.
		May 1, 2023	Last day for receipt of applications for undergraduate degree program transfers for the summer term.
		May 4, 2023	Summer term begins. Early summer and full summer classes begin.

May 10, 2023	Last day for registration and course changes (including auditing) in early summer courses.	June 9, 2023	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade in early summer term undergraduate courses before the official examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
May 12, 2023	Graduate students who have not electronically submitted their final thesis copy to the Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in spring 2023 and must register for the summer 2023 term.		
May 17, 2023	Last day for registration and course changes (including auditing) in full summer courses. Last day to withdraw from early summer courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript.	June 16, 2023	Last day of early summer classes. (NOTE: full summer classes resume July 4.) Last day for take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
May 19-31, 2023	Full winter, late winter, and fall/winter term deferred final examinations will be held.		Classes follow a Monday schedule.
May 22, 2023	Statutory holiday. University closed.		Last day for handing in term work, subject to any earlier course deadline.
May 26, 2023	Last day to request Formal Examination Accommodation Forms for June examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.	June 17-18, 2023	No classes or examinations take place.
May 31, 2023	Last day to withdraw from full summer courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript.	June 19-25, 2023	Final examinations in early summer courses and mid-term examinations in full summer courses will be held. Examinations are normally held all seven days of the week.
June 1, 2023	Last day for academic withdrawal from early summer courses.	June 25, 2023	All final take-home examinations are due on this day, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
		June 27, 2023	Deadline for course outlines to be made available to students registered in late summer courses.
		July 3, 2023	Statutory holiday (July 1 observed). University closed.

July 4, 2023	Late summer classes begin and full summer classes resume.		
July 10, 2023	Last day for registration and course changes (including auditing) in late summer courses.		Last day for final take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
July 17, 2023	Last day to withdraw from late summer courses with a full fee adjustment. Withdrawals after this date will result in a permanent notation of WDN on the official transcript.		Last day for handing in term work, subject to any earlier course deadline.
July 21-23, 2023	Early summer term deferred final examinations will be held.	August 17-18, 2023	No classes or examinations take place.
July 24, 2023	Last day for graduate students to submit their supervisor-approved thesis, in examinable form to the department.	August 19-25, 2023	Final examinations in full summer and late summer courses will be held. Examinations are normally held all seven days of the week.
July 28, 2023	Last day to request Formal Examination Accommodation Forms for August final examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.	August 25, 2023	All final take-home examinations are due on this day, with the exception of those conforming to the examinations regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
August 1, 2023	Last day for academic withdrawal from full and late summer courses.	September 22-24, 2023	Full and late summer term deferred final examinations will be held.
August 7, 2023	Statutory holiday. University closed.	Date	Activity
August 9, 2023	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade in late summer and full summer term undergraduate courses before the official examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).	FALL TERM 2023	
August 16, 2023	Last day of full summer and late summer classes. Classes follow a Monday schedule.	August 29, 2023	Deadline for course outlines to be made available to students registered in full fall, early fall, and fall/winter courses.
		September 1, 2023	Last day for receipt of applications from potential fall (November) graduates.
		September 4, 2023	Statutory holiday. University closed.
		September 5, 2023	Academic orientation (undergraduate and graduate students).
			Orientation for new Teaching Assistants.

	All new students are expected to be on campus. Class and laboratory preparation, departmental introductions for students, and other academic preparation activities will be held.	October 13, 2023	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, in early fall term undergraduate courses, before the official Oct/Nov final examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/General Regulations of the Graduate Calendar).
September 6, 2023	Fall term begins. Full fall, early fall, and fall/winter classes begin.		
September 12, 2023	Last day for registration and course changes (including auditing) in early fall courses.		
September 19, 2023	Last day for registration and course changes (including auditing) in full fall, late fall, and fall/winter courses. Last day to withdraw from early fall courses with a full fee adjustment.	October 15, 2023	Last day for receipt of applications for admission to an undergraduate degree program for the winter term from applicants whose documents originate from outside Canada or the United States.
	Graduate students who have not electronically submitted their final thesis copy to the Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in fall 2023 and must register for the fall 2023 term.	October 20, 2023	Last day of early fall classes. Last day for final take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/General Regulations of the Graduate Calendar.
September 22-24, 2023	Full summer and late summer term deferred final examinations will be held.		Last day that can be specified by a course instructor as a due date for term work for early fall courses.
September 30, 2023	Last day to withdraw from full fall and fall/winter courses with a full fee adjustment.		
October 1, 2023	Last day for academic withdrawal from early fall courses. Last day to request Formal Examination Accommodation Forms for Oct/Nov final examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.	October 23, 2023	Deadline for course outlines to be made available to students registered in late fall courses.
		October 23-27, 2023	Fall break, no classes.
		October 28-29, November 4-5, 2023	Final examinations in early fall undergraduate courses will be held.
		October 30, 2023	Late fall classes begin.
		November 10, 2023	Last day to withdraw from late fall term courses with a full fee adjustment.
October 6, 2023	December examination schedule (fall term final and fall/winter mid-terms) available online.	November 15, 2023	Last day for academic withdrawal from full fall and late fall courses.
October 9, 2023	Statutory holiday. University closed.

	Last day for receipt of applications for admission from candidates who wish to be guaranteed consideration for financial assistance (including Carleton fellowships, scholarships and teaching assistantships) administered by Carleton University. Candidates whose applications are received after the March 1 deadline may be considered for the award of a fellowship, scholarship or teaching assistantship (Graduate students only).	April 1, 2024	Last day for receipt of applications for admission to an undergraduate degree program for the fall/winter session from applicants whose documents originate from outside Canada or the United States, except for applications due February 1 or March 1.
March 8, 2024	Last day to withdraw from late winter term courses with a full fee adjustment.		
March 15, 2024	Last day for academic withdrawal from full winter, late winter, and fall/winter courses. Last day to request Formal Examination Accommodation Forms for April full winter, late winter, and fall/winter final examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.	April 3, 2024	Last day for receipt of applications from potential spring (June) graduates. Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, in late winter term undergraduate courses, before the official final examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
March 15-17, 2024	Early winter undergraduate deferred final examinations will be held.	April 10, 2024	Winter term ends. Last day of full winter, late winter, and fall/winter classes.
March 27, 2024	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade, in full winter term or fall/winter undergraduate courses, before the official April final examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).		Classes follow a Friday schedule. Last day for final take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
March 29, 2024	Statutory holiday. University closed.	April 11-12, 2024	Last day that can be specified by a course instructor as a due date for term work for full winter and late winter courses. No classes or examinations take place.
		April 13-25, 2024	Final examinations in full winter, late winter, and fall/winter courses will be held. Examinations are normally held all seven days of the week.

April 25, 2024	All final take-home examinations are due on this day, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.	May 10, 2024	Last day for registration and course changes (including auditing) in early summer courses. Graduate students who have not electronically submitted their final thesis copy to the Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in spring 2024 and must register for the summer 2024 term.
May 1, 2024	Last day for receipt of applications for undergraduate internal degree transfers to allow for registration for the summer session.	May 17, 2024	Last day for registration and course changes (including auditing) in full summer courses. Last day to withdraw from early summer courses with a full fee adjustment.
May 10, 2024	Graduate students who have not electronically submitted their final thesis copy to the Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in spring 2024 and must register for the summer 2024 term.	May 19-29, 2024	Full winter, late winter, and fall/winter term deferred final examinations will be held.
May 17-29, 2024	Full winter, late winter, and fall/winter deferred final examinations will be held.	May 20, 2024	Statutory holiday. University closed.
June 1, 2024	Last day for receipt of applications for admission to an undergraduate program for the fall/winter session except for applications due March 1 or April 1.	May 31, 2024	Last day to withdraw from full summer courses with a full fee adjustment.
June 15, 2024	Last day for receipt of applications for undergraduate degree program transfers for the fall term.	June 1, 2024	Last day for academic withdrawal from early summer courses. Last day to request Formal Examination Accommodation Forms for June examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.
Date	Activity	June 11, 2024	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade in early summer term undergraduate courses before the official examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
SUMMER TERM 2024			
March 1, 2024	Last day for receipt of applications for admission to an undergraduate degree program for the summer term.	June 18, 2024	Last day of early summer classes. (NOTE: full summer classes resume July 2.)
April 29, 2024	Deadline for course outlines to be made available to students registered in early summer and full summer courses.		
May 1, 2024	Last day for receipt of applications for undergraduate degree program transfers for the summer term.		
May 6, 2024	Summer term begins. Early summer and full summer classes begin.		

	Last day for take-home examinations to be assigned in early summer courses, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
	Last day that can be specified by a course instructor as a due date for term work for early summer courses.
June 19-20, 2024	No classes or examinations take place.
June 21-27, 2024	Final examinations in early summer courses and mid-term examinations in full summer courses will be held. Examinations are normally held all seven days of the week.
June 25, 2024	Deadline for course outlines to be made available to students registered in late summer courses.
June 27, 2024	All final take-home examinations are due on this day, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
July 1, 2024	Statutory holiday. University closed.
July 2, 2024	Late summer classes begin and full summer classes resume.
July 8, 2024	Last day for registration and course changes (including auditing) in late summer courses.
July 15, 2024	Last day to withdraw from late summer courses with a full fee adjustment.
July 19-21, 2024	Early summer term deferred final examinations will be held.
July 22, 2024	Last day for graduate students to submit their supervisor-approved thesis, in examinable form to the department.

August 1, 2024	Last day for academic withdrawal from full and late summer courses.
	Last day to request Formal Examination Accommodation Forms for August final examinations to the Paul Menton Centre for Students with Disabilities. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.
August 5, 2024	Statutory holiday. University closed.
August 7, 2024	Last day for summative tests or examinations, or formative tests or examinations totaling more than 15% of the final grade in late summer and full summer term undergraduate courses before the official examination period (see examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar).
August 14, 2024	Last day of late summer and full summer classes.
	Classes follow a Monday schedule.
	Last day for final take-home examinations to be assigned, with the exception of those conforming to the examination regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.
	Last day that can be specified by a course instructor as a due date for term work for late summer and full summer courses.
August 15-16, 2024	No classes or examinations take place.
August 17-23, 2024	Final examinations in full summer and late summer courses will be held. Examinations are normally held all seven days of the week.

August 23, 2024

All final take-home examinations are due on this day, with the exception of those conforming to the examinations regulations in the Academic Regulations of the University section of the Undergraduate Calendar/ General Regulations of the Graduate Calendar.

September 20-22, 2024

Full and late summer term deferred final examinations will be held.

Glossary

Glossary

The following glossary of definitions is intended to provide explanations of how certain important terms are used throughout the Calendar. In rare cases where a discrepancy may occur between the definition provided in this Glossary and the use of the term in the remainder of the Calendar, the term as used in the remainder of the Calendar takes precedence.

The Glossary is not intended to be exhaustive; students should refer to Carleton's web site for other important information (e.g., carleton.ca/registrar; gradstudents.carleton.ca).

Except where noted, all definitions apply to undergraduate and graduate students.

| A | B | C | D | E | F | G | H | I | J | K | L | M |
| N | O | P | Q | R | S | T | U | V | W | X | Y | Z |

Notation	Description
A	
Academic Continuation Evaluation (ACE)	The ACE is the end-of-term assessment of student academic standing in undergraduate degree programs and special studies. The possible outcomes of an ACE are <i>Eligible to Continue</i> , <i>Academic Warning</i> , <i>Required to Withdraw for Two Terms</i> , <i>Continue in Non-Honours</i> , <i>Continue in Alternate</i> , <i>Dismissed from Program</i> , or <i>Required to Withdraw for Two Years</i> .
Auditing Student	A student who attends a course for interest and not for credit. Formal registration is required.
B	
Bachelor's Program	An undergraduate, non-honours academic program of study requiring a minimum of 15.0 credits.
C	
Calendar	The official publication of academic regulations, academic programs and course descriptions as approved by the Senate.
Certificate	An undergraduate certificate is a stand-alone Credential that may be taken concurrently with a bachelor's program or independently. It is normally constituted by a structured set of at least four credits of sequential courses of different levels in a particular discipline or area of study that introduces students to, or extends their knowledge of, that discipline or area of study.
Challenge for Credit	Undergraduate academic course credit gained through examination based on a student's prior learning experience gained through professional or work experience. A successful challenge for credit is noted in the student's record as CH. (An unsuccessful challenge for credit is noted as UCH). A CH is neither included in the CGPA calculation nor used to satisfy the degree program residency requirement. Challenge for Credit is not available in all courses.
Collaborative Specialization	At the graduate level the term "collaborative specialization" refers to an Option added to a degree program that provides an experience in a discipline or intellectual area in addition to that provided in the student's home program and meets the requirements identified by the Quality Council's corresponding definition.
Concentration	A program Element recorded on the transcript and diploma constituted by at least 3.5 credits of required courses at the undergraduate level and 1.5 credits of required courses at the Master's level that concentrates on a particular area of study within the program and provides the student with specific expertise, knowledge and/or practice. At the Doctoral level, a concentration is constituted by at least three curricular academic requirements, excluding the dissertation, residency and language requirements, that form a distinctive area of study related to the concentration.
Co-operative Education	An undergraduate or graduate Option comprising work periods combined with academic study to acquire work-related experience; the co-op option is intended to complement the student's academic study.
Core	A course or group of courses that are a subset of the courses that constitute a major in an undergraduate program. These are courses of special importance to undergraduate programs and are subject to specific CGPA requirements.
Cotutelle	An Option in any Ph.D. program. Doctoral students undertake to complete the requirements of a Ph.D. program in both their home university and a partner university in another country.

Course	<p>A course is a unit of teaching that may count as credit towards a Credential. Courses typically last one academic term and focus on one subject area with a prescribed sequence of units of study (lectures, seminars, tutorials, workshops, laboratories, assignments, essays, tests, examinations and so on). Courses are delivered by one or more instructors and have a fixed roster of students.</p> <p>Courses have unique eight-character alphanumeric course codes, titles and descriptions. The credit value is indicated in square brackets following the course number.</p>
Course Numbering	<p>The first number in a course designation (e.g. 0000, 1000, 2000, 3000, 4000) indicates the knowledge level of a course and not the year of registration or year standing one requires to enroll in it. One can enroll in any course provided one meets the prerequisites. Prerequisites come in many forms and combinations such as but not limited to year standing, completion of other courses, registration in a specific program, permission of the Department, and specific CGPA requirements. 0000-level courses are those that may be required to satisfy prerequisites. 1000-level courses are typically introductory or foundation level courses. 2000-level and 3000-level courses are typically intermediate to upper-intermediate level courses. 4000-level courses are typically advanced level courses. 5000 and 6000-level are graduate level courses.</p>
Course Outline	<p>Instructors are required to provide students in each course a written Course Outline (distributed in class or electronically), on or before the first teaching day for undergraduate courses, and before the last date for late registration for graduate courses. The course outline must specify all the elements that will contribute to the final grade, as well as the overall grade breakdown for the course.</p>
Courses Set Aside	<p>Courses that do not contribute to the fulfilment of graduation requirements within the student's program:</p> <ol style="list-style-type: none"> 1. Extra to the Degree (ETD): Passed credits that are in excess of the required credits; 2. No Credit for Degree (NCD): Passed credits that are ineligible for credit in the student's program; 3. Forfeit: Repeated courses, course equivalencies, preclusions, and courses placed in this category by an academic standing committee or an appeal committee.
Credential	<p>An academic qualification awarded by the University Senate upon successful completion of an academic program. All credentials are either degrees (bachelors, masters, or doctoral), diplomas, or certificates.</p>
Credit	<p>The academic value of a course (for example, 0.0, 0.5, 1.0, et cetera).</p>
Credits Not in the Major	<p>Credits Not in the Major are credits that must be taken in programs that require Credits Not in the Major from disciplines and intellectual areas other than those which constitute the discipline, disciplines or intellectual area of the major in such programs. Credits Not in the Major constitute one form of restricted electives.</p>
Cumulative Grade Point Average (CGPA)	<p>The key assessment tool for undergraduate Academic Continuation Evaluation, and graduate and undergraduate graduation requirements and distinctions. The CGPA may be used in assessments for scholarships, medals, and other milestones. The CGPA is the average of grade points earned on all courses required for and counting towards graduation from the student's current program (overall CGPA), or the average of grade points earned on a subset of such courses (for example, those constituting the Major or a Minor) at the time the CGPA is calculated.</p>
D	
Degree	<p>A Credential at the Bachelor, Master or Doctoral level awarded by the University Senate upon the successful completion of a prescribed set and sequence of program requirements at a specified standard of performance.</p>

Diploma	<p>Post-baccalaureate Diploma: a stand-alone undergraduate credential for candidates already possessing a bachelor's degree intended to: (a) qualify candidates for consideration for entry into a Master's program; (b) bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline; (c) provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas; or, (d) provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.</p> <p>Post-baccalaureate diplomas are normally constituted by at least three and a maximum of five credits of advanced undergraduate courses.</p> <p>Graduate Diploma:</p> <p>Type 1: Awarded when a candidate admitted to a master's program leaves the program after completing a certain proportion of the requirements. Students are not admitted directly to a Type 1 Diploma.</p> <p>Type 2: Offered concurrently with a master's or doctoral degree, the admission to which requires that the candidate be already admitted to the master's or doctoral degree program. A Type 2 Diploma represents an additional, usually interdisciplinary, qualification of 2 to 3 credits.</p> <p>Type 3: A stand-alone, direct-entry program of 2 to 3 credits, generally developed by a unit already offering a related master's (and sometimes doctoral) degree, and designed to meet the needs of a particular clientele or market.</p>
Dual Degree	<p>A Dual Degree program is a joint partnership at the undergraduate or Master's level where a co-enrolment agreement exists between Carleton and another post-secondary institution. Students simultaneously complete a program at both institutions, receiving two diplomas. Students must meet the admission criteria and must fulfill all the program requirements of both institutions within the normal time to completion.</p>
E	
Element	<p>Elements are: (i) Undergraduate: majors, minors, concentrations, and specializations; there are a maximum number of elements that may be taken in conjunction with a program at the undergraduate level; (ii) Graduate: concentrations.</p> <p>Elements are recorded on the transcript and the diploma.</p>
Equivalency	<p>Courses that are of equal credit value and which are considered to be similar enough that they always preclude one another and may serve interchangeably for the other in terms of prerequisites, co-requisites, and program requirements. These will be identified in the calendar as 'Also Listed As', and are commonly referred to as 'cross-listed courses'.</p>
Experiential Learning	<p>Experiential learning is the application of theory and academic content to real-world experiences within the classroom, the community, or the workplace. It may be undertaken independently or in teams. It advances learning outcomes and encourages reflection and application of skills and knowledge in contexts that prepare students for the workplace and civil society.</p>
F	
Field	<p>A Field occurs only at the graduate level, and is defined as an identifiable area of research activity undertaken by a group of faculty of sufficient number.</p>
Flex Term	<p>Flex Term refers to the timing of delivery of 'asynchronous' on-line courses that are currently restricted to special students and in which they may register at any time. Special students may engage with the material of these courses at their own pace. The delivery of 'asynchronous' on-line courses does not therefore conform to the usual beginning and end of Carleton University terms.</p>
Formative Assessment	<p>Formative assessments are those assessments of a student's work carried out during the course that act to provide feedback and guidance to the student in addition to assessing the student's performance.</p>
Free Elective	<p>Free electives are any approved credit course normally at the 1000-level or higher – including courses from the discipline, disciplines or intellectual areas that identify the major of the degree program in question – that may be taken to make up the number of credits required for the degree program in question.</p>
G	
Good Academic Standing	<p>At the undergraduate level, good academic standing signifies that a student is meeting the requirements to be eligible for continuation in their program as defined in Section 3.2.6 of the <i>Academic Regulations of the University</i>.</p>

H	
Honours Bachelor's Program	An undergraduate Bachelor's program requiring a minimum of 20.0 credits that may demand a higher academic standard than a non-honours program. Pathways to completion may be constituted by a thesis, research essay, capstone project, or other significant project.
I	
Internship	<p>An internship is constituted through a course or sequence of courses that provides students with work experience directly related to the subject matter of their degree program. There are two types of undergraduate internships:</p> <ol style="list-style-type: none"> 1. Program Internship: an Option constituted by a structured sequence of at least 4.0 credits of courses of different levels in an honours bachelor's program taken in a work environment off-campus. A program internship provides students with extensive professional work experience directly related to the subject matter of their program. 2. Course Internship: an individual course within a degree program taken in a work environment either on- or off-campus that provides students with professional work experience directly related to the subject matter of their program.
L	
Learning Outcomes	Learning outcomes are discipline-specific statements that describe the observable skills or abilities associated with the essential knowledge, behaviours, and/or values all students are expected to acquire by the end of a course or program of study.
Letter of Permission	A formal document issued by the University Registrar approving a student to register in a course at another institution in lieu of a Carleton course in the student's academic program. The Letter of Permission must be issued before the student takes the course for credit in a Carleton program at another institution.
M	
Major	A program Element recorded on the transcript and diploma. The major is constituted by the required course credits in one or more defined disciplines or intellectual areas that define the principle focus of a student's undergraduate program and constitute the basis for the calculation of the Major CGPA.
Major CGPA	The Major CGPA is calculated as the average grade points earned on the courses that constitute the major.
Mention : francais	An undergraduate Option noted on the transcript denoting specified courses taken in French, which may be used to fulfil program requirements.
Minor	A program Element at the undergraduate level recorded on the transcript and diploma. A minor is a structured set of credits that form a distinct subset of a program or intellectual area. Each Minor requires at least 4.0 and at most 5.0 credits. Access to minors may be restricted. A minor introduces a student to, or extends their knowledge of, a discipline or intellectual area.
O	
Option	An optional addition to or component of a program with requirements distinct from those of an Element: (i) Undergraduate: co-operative education, study abroad, Mention : francais, program internship; (ii) Graduate: co-operative education, Cotutelle (in Ph.D. programs), Dual Master's Degree (in master's programs), collaborative specialization. Options may be taken in addition to elements and are recorded on the transcript and the diploma.
P	
Pathway	A pathway through a program is a route to completion such as: stream, thesis, research essay, research project, or course only. Pathways may be chosen in addition to Elements and Options, and are not recorded on the diploma but are recorded on the transcript.
Practical Assessments	Practical assessments are those assessments, such as exams or term work, of a student's work where the tasks and conditions are similar to what they would experience in a work environment and are designed to complement their academic skills and competencies.
Prerequisite	A required course or courses that must be completed successfully before registering in the course that requires the prerequisite.
Preclusion	Courses that contain sufficient content in common that credit may not be earned for more than one of the courses. Courses that preclude one another are not necessarily considered equivalent and may or may not be interchangeable to fulfil program or specific element requirements.

Program	<p>A specified combination of academic requirements in a discipline or intellectual area of study which leads to a credential (for example, B.A. in Philosophy, Ph.D. in History, M.Sc. in Chemistry, Graduate Diploma in Public Policy and Program Evaluation, Certificate in the Teaching of English as a Second Language).</p> <p>There are five types of programs at the undergraduate level:</p> <ol style="list-style-type: none"> 1. Single-Discipline Program: A Single-Discipline program is a program of at least 15.0 credits in which the courses that constitute the program's major are drawn overwhelmingly from one discipline or intellectual area. 2. Thematic Program: A Thematic program is an interdisciplinary program of at least 15.0 credits that concentrates on a particular interdisciplinary intellectual area or theme, and draws on courses within its major from at least three disciplines or intellectual areas. 3. Single-Discipline Honours Program: A Single-Discipline Honours program is a program of at least 20.0 credits in which the courses that constitute the program's major are drawn overwhelmingly from one discipline or intellectual area. Pathways to completion constituted by a thesis, research essay or significant project may demand a higher academic standard than a course-based pathway. 4. Combined Honours Program: A Combined Honours program is a program of at least 20.0 credits in which a student fulfils the requirements for combined honours majors in two such majors from two different programs. Pathways to completion constituted by a thesis, research essay or significant project may demand a higher academic standard than a course-based pathway. 5. Thematic Honours Program: A Thematic Honours program is an interdisciplinary program of at least 20.0 credits that concentrates on a particular interdisciplinary intellectual area or theme, and draws on courses within its major from at least three disciplines or intellectual areas. Pathways to completion constituted by a thesis, research essay or significant project may demand a higher academic standard than a course-based pathway.
R	
Restricted Elective	<p>Restricted electives are courses required to fulfil elective requirements in an undergraduate program that are not free electives. The courses that may fulfil restricted elective requirements in any program are in other words prescribed by the program.</p> <p>Students should refer to individual program descriptions to determine the courses that may fulfil restricted elective requirements for a program.</p>
S	
Specialization	<p>At the undergraduate level, the term 'specialization' is reserved for specific areas of concentration in programs in which the courses constituting the program's specializations are delivered overwhelmingly by academic units other than the academic unit administering the program.</p> <p>At the graduate level only collaborative specializations exist. See definition for 'collaborative specialization'.</p>
Special Students	<p>Students not admitted to a program or a degree leading to a Credential.</p>
Status	<p>Full-time status for tuition fee purposes:</p> <ol style="list-style-type: none"> 1. Undergraduate students are full-time when registered in a 60% course load per term as defined by the student's academic program: for example, registered in at least 1.5 credits per term in a 2.5 credit normal term course load. Undergraduate students should consult the website of the Academic Advising Centre to determine their eligibility for various Provincial and University services according to the number of credits taken each term. 2. Graduate students are normally admitted and must stay continuously registered as full-time. Students may apply to the Dean of Graduate and Postdoctoral Affairs for exemption from full-time status in exceptional circumstances (for example, medical circumstances); exemptions are normally granted for one term. <p>Part-time status for tuition fee purposes:</p> <ol style="list-style-type: none"> 1. Undergraduate students are part-time when registered in less than a 60% course load per term as defined by the student's academic program (for example, registered in less than 1.5 credits per term). 2. Graduate students may be admitted as part-time students and will be required to continue and complete their program as part-time; a part-time student is not eligible to register in more than 1.25 credits per term, including audit courses.

Stream	A Pathway within an undergraduate program normally constituted by at least 1.5 credits of courses that facilitate concentration on a particular area of study within the program. Streams are not recorded on the diploma but are recorded on the transcript.
Summative Assessment	Summative assessments are those assessments of a student's work carried out at the end of a course or the end of specific components of a course whose sole purpose is to constitute a judgement on a student's performance in the course or a specific component of the course.
T	
Term GPA	Within the Academic Continuation Evaluation for undergraduate and special students, the Term GPA is the ratio of the grade points earned on a course or courses to the total credit value completed in the term of assessment.
Topics Courses	Selected Topics courses normally address topics which fall within a narrow range of topics within a common theme indicated by the course title. Students may not repeat selected topics courses for credit. Special Topics normally address topics chosen from a broad range of topics within a discipline. Their topics vary widely from year-to-year. Students may repeat special topics courses for credit when the topics vary.
Transfer Credit	Academic credit granted for individual courses successfully completed at another institution, either upon admission (admitted with advanced standing from secondary school, or transfer from college or university) or while registered with a Letter of Permission or on exchange.
Transcript	The official record of a student's academic registration and accomplishments at Carleton University.
U	
Undeclared Students	Undergraduate students admitted to a degree who have not chosen a program ('declared a major') within that degree; normally, students are required to choose a program ('declare a major') upon or before completing 3.5 credits.
W	
Withdrawal	A formal process for discontinuing studies in a course or a program. Undergraduate students who wish to drop all courses and terminate their registration in the academic program must follow the procedure available through the Registrar's Office. Students who have been away from the University for nine or more consecutive terms will be withdrawn and must re-apply for admission. Graduate students who wish to drop all courses and terminate their registration in the academic program must notify their department in writing of their intention to withdraw. Students who do not register for three consecutive terms or do not register continuously in their thesis, research essay, or independent research project will be withdrawn and must re-apply for admission.

Regulations

Academic Regulations of the University - Table of Contents

Effective Fall 2019: The Undergraduate Academic Regulations of the University have been renumbered to better represent regulation categories. Click here for a comprehensive list of links to the new regulations.

For questions related to this reorganization, please contact courseleaf@carleton.ca.

1. STUDENT RESPONSIBILITY

- 1.1 Student Responsibility
- 1.2 The Comprehensive Regulations

2. REGISTRATION, EVALUATION AND STUDENT RECORDS

2.1 Course Registration

- 2.1.1 Permission to Register
- 2.1.2 Full- and Part-time Study
- 2.1.3 Course Selection and Registration
- 2.1.4 Course Load
- 2.1.5 Payment of Fees
- 2.1.6 Withdrawal
- 2.1.7 Deregistration
- 2.1.8 Auditing Student
- 2.1.9 Credit for Closely-related Courses
- 2.1.10 Two-term Courses
- 2.1.11 Challenge for Credit

2.2 Credit Requirements and Limitations

- 2.2.1 Maximum Number of Credits Below the 2000-level
- 2.2.2 Minimum Number of Residency Credits
- 2.2.3 Advanced Credits
- 2.2.4 Transfer of Credit Prior to Admission
- 2.2.5 Transfer of Credit Subsequent to Admission
- 2.2.6 Credit for ESL courses

10.1 Academic Integrity Policy

10.1 Academic Integrity Policy

10.2 Offenses of Conduct: Discrimination and Harassment

10.2.1 Carleton University's Human Rights Policy

10.2.2 Unacceptable Conduct

10.2.3 Enforcement

10.2.4 Formal Procedures

Academic Integrity and Offenses of Conduct

10.1 Academic Integrity Policy

10.1 Academic Integrity Policy

The University has adopted a policy to deal with allegations of academic misconduct. This policy is expressed in the document *Carleton University Academic Integrity Policy*, effective July 1, 2006 and last updated in June 2021. The policy describes in detail its scope of application, principles, definitions, rights and responsibilities, academic integrity standards, procedures, sanctions, transcript notations, appeal process, and records implications.

The complete policy is available at: <https://carleton.ca/secretariat/wp-content/uploads/Academic-Integrity-Policy-2021.pdf>

10.2 Offenses of Conduct: Discrimination and Harassment

10.2.1 Carleton University's Human Rights Policy

The University has in place policies and procedures to deal with allegations of discrimination and harassment, including sexual harassment. These are outlined in detail in the Carleton University Human Rights Policies and Procedures, effective May 1, 2001.

10.2.2 Unacceptable Conduct

Unacceptable conduct is outlined in the policy and includes discrimination or harassment based on race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, political affiliation or belief, sex, sexual orientation, gender identity, age, marital status, family status, or disability/handicap within the meaning of the Ontario Human Rights Code. Unacceptable conduct also includes threatening, stalking and unwelcome communication either in person or through electronic or other means. For the three policy sections below, the definition of prohibited behaviour is described in the italicized section that follows.

From the *Anti-Racism and Ethnocultural Relations Policy*

1. The University prohibits discrimination and harassment, including conduct on the basis of race, ancestry, place of origin, colour, ethnic origin and citizenship that:"

From the *Gender Equality Policy*

1. The University prohibits discrimination and harassment, including conduct on the basis of sex, gender or gender identity that:"

From the *Sexual Orientation Equality Policy*

1. The University prohibits discrimination and harassment, including conduct on the basis of sexual orientation or perceived sexual orientation that:
 - 5.1 Is abusive, demeaning or threatening including behaviour such as name calling; derogatory remarks, gestures and physical attacks; or display of derogatory or belittling pictures and graffiti; or
 - 5.2 Biases administrative and appointment decisions, employment and workplace practices, tenure, promotion, appointment, leave and salary determinations; or
 - 5.3 Biases academic decisions such as admissions, grading, the application of Regulations and scheduling of academic activities; or
 - 5.4 Misuses power, authority or influence; or
 - 5.5 *Discriminates in the provision of goods and services, or access to premises, accommodation and other facilities.*"

From the *Sexual Harassment Prevention Policy*

1. Sexual harassment occurs when an individual engages in sexually harassing behaviour or inappropriate conduct of a sexual nature that is known, or ought reasonably be known, to be unwelcome, and that:
 - 6.1 Interferes with the academic or employment performance or participation in a University-related activity for the person harassed; and/or
 - 6.2 Is associated with an expressed or implied promise of employment-related or academic-related consequence for the person harassed (including reward, reprisal or condition of study or employment); and/or
 - 6.3 Provides a basis for academic or employment decisions affecting the person harassed; and/or
 - 6.4 Creates an abusive, demeaning, or threatening study, work or living environment for the person harassed; and/or
 - 6.5 Excludes the person harassed from rights and/or privileges to which they are entitled.
2. Sexually harassing behaviour may be physical, verbal or psychological. It may be conveyed directly or by telephone, writing or electronic means. Examples of inappropriate sexual conduct include:

- 7.1 Unwelcome sexual solicitations, flirtations or advances; sexually suggestive comments, gestures, threats or verbal abuse;
- 7.2 Unwarranted touching or physical contact of a sexual nature, coerced consent to sexual contact, or sexual assault;
- 7.3 Inappropriate display or transmission of sexually suggestive or explicit pictures, posters, objects or graffiti;
- 7.4 Leering, compromising invitations, or demands for sexual favours;
- 7.5 Degrading, demeaning or insulting sexual comment or content, including unwelcome remarks, taunting, jokes or innuendo about a person's body, sexuality, sexual orientation or sexual conduct;
- 7.6 Misuse of position or authority to secure sexual favours;
- 7.7 Persistent, unwanted attention or requests for sexual contact after a consensual relationship has ended; or
- 7.8 A course of sexualized comment or conduct that interferes with the dignity or privacy of an individual or group."

10.2.3 Enforcement

Enforcement of this policy is carried out according to the procedures established in the policy. The procedures include the provision of advice and information to complainants and respondents and allow for various methods of informal resolution, including mediation.

Students with concerns regarding discrimination, harassment, stalking, sexist or racist behaviour, or any other prohibited action as outlined in the Human Rights Policy, should call or meet with a member of Equity Services for advice and guidance on how to handle the situation. This service is confidential and does not compel the student to take any further action.

Formal complaints must be made in writing and directed to the Dean or Vice President responsible for the area where the complaint took place. Staff in Equity Services are available to assist with the preparation of a formal complaint. Complaints must be made within 12 months after the last alleged incident of discrimination or harassment unless exceptional circumstances apply in which case the University Secretary may grant an extension of up to an additional 12 months.

10.2.4 Formal Procedures

The procedure for formal complaints is outlined below:

1. An allegation shall be made in writing to the Dean of the Faculty in which the program to which the respondent has been admitted belongs or, in the circumstances where the respondent has not been admitted to a program, to the Dean of the Faculty where the majority of courses in which the respondent has registered are administered. An allegation against a student in residence when made by another

student in residence which involves the complainant's enjoyment of their accommodation shall be made to the Vice-President (Academic). The Dean, or the Vice-President (Academic), as the case may be, shall cause to have an investigation conducted and, upon receipt of the report of the investigation, shall either 1) dismiss the allegation on the grounds of insufficient evidence or lack of jurisdiction by the university, or 2) accept that the allegation is founded and seek the agreement of the respondent to a remedy, or 3) refer the matter to the President. A Dean's dismissal of the allegation may be appealed, within ten working days, to the Vice-President (Academic) who may, in turn, either 1) again dismiss the allegation, or 2) accept that the allegation is founded and propose a remedy to the respondent, or 3) refer the matter to the President. In the case of students in residence, where the original allegation has been made to the Vice-President (Academic) and is dismissed, appeal shall be directly to the President who may either 1) again dismiss the allegation, or 2) accept that the allegation is founded and propose a remedy to the respondent, or 3) refer the matter to a tribunal appointed by the Senate.

2. In the instance where the matter has been referred to the President, the latter shall decide whether the University shall conduct a hearing before a tribunal appointed by the Senate. If the allegation is proven, the tribunal shall decide upon one of the following sanctions. The student may be:
 - a. expelled;
 - b. suspended for a period of time from all studies at the University;
 - c. restricted in their use of University facilities; and/or
 - d. given a reprimand.

Should the President decide not to conduct a hearing before a tribunal, the allegation shall be deemed to have been dismissed, but the President shall give written reasons for such a decision, and these reasons shall be communicated to the parties involved.

1. In the instance where the complainant wants redress from the University without the involvement of the respondent, or where the respondent is unknown or is not a member of the University community, and/or where there is a claim that the University has failed or has been negligent in providing a safe, non-hostile environment, the allegation of an offence shall be made in writing to the President, who shall cause an investigation to be conducted. Upon receipt of the report of the investigation, the President may order any relief they deem fit, and shall give written reasons for the decision; which reasons shall be communicated to the complainant.

Information about procedure governing tribunals is available from the Clerk of Senate: senate@carleton.ca.

Academic Regulations for Certificate Students

7.1 Academic Regulations and Requirements for Undergraduate Certificates

In addition to the requirements presented here, students must satisfy the university regulations (see the *Academic Regulations of the University* section of this Calendar).

Definition

An undergraduate certificate is defined as a structured set of at least 4.0 undergraduate credits in a particular discipline or area of study that introduces the student to — or extends their knowledge of — that discipline or area of study. It is normally constituted by a structured set of sequential courses. An undergraduate certificate is a stand-alone credential that may be taken concurrently with a bachelor's program or independently. When taken concurrently, the student is simultaneously considered a Degree Student and a Certificate Student.

Program Requirements

- A minimum of 4.0 credits
- Minimum grade requirements may apply
- Consult the individual program entries for details

Academic Regulations for Degree Students

3.1 Program Regulations

3.1.1 Academic Nomenclature

For a list of common definitions and terms of the University, please consult the Glossary section of this Calendar.

3.1.2 Regulations Governing a Student's Program

Curriculum and regulations are subject to change as the University updates and improves its undergraduate programs. These changes may include alterations to course offerings, program requirements, and academic regulations. In establishing transition policies that determine how these changes will impact in-program students, the University is guided by the intent that students retain the same or improved overall opportunities to succeed.

The following policies are in effect:

3.1.2.1 When a degree student is admitted to the University, the regulations and program requirements for their credential are those in effect at the time of admission. If a student changes program elements in a calendar year subsequent to the term of admission, their program will be governed by the calendar requirements in effect when the change is approved. The general academic regulations governing the student, however, will continue to be those in effect at the time of admission to the University.

3.1.2.2 If, in subsequent years, the student is readmitted to the same or another program, the academic regulations

of the University and the program requirements in effect at the time of readmission will govern the student.

3.1.2.3 As curricular or regulatory changes are introduced in subsequent years, in-program students may choose to complete their studies under the new academic regulations of the University and/or new program requirements. Students who wish to change their calendar year to that which is currently in effect should contact the Registrar's Office.

3.1.2.4 Notwithstanding 3.1.2.1, when circumstances prevent continued application of regulations, program requirements or courses of a previous Calendar, appropriate replacement policies guiding students in adapting to the new situation will be developed and communicated to students.

3.1.2.5 The online version of the Calendar is the official version. Changes approved after the publication date will be posted on the Calendar website.

3.1.3 Absence from the University

Normally, a student is considered to be present at the University in a term in which they have remained registered in a course until after the last day for withdrawal with a full fee adjustment. A student who is not present at the University is considered to be absent from the University.

Degree students who have not been present at the University for more than nine consecutive terms must apply for readmission through Admission Services.

Students who have completed the requirements for the degree and program in which they are registered will be automatically considered for graduation after three consecutive terms of absence from the University.

3.1.4 Voluntary Withdrawal from a Program

Undergraduate students who wish to voluntarily withdraw from their program, without academic penalty, may do so by contacting the Registrar's Office prior to the deadline to withdraw from courses (see Academic Year). The notation "Voluntary Withdrawal from Program" will appear on the official transcript.

3.1.5 Types of Programs

The undergraduate programs of the University are divided into the following categories:

Honours Programs

Honours programs require a minimum of 20.0 credits, and demand a higher academic standard than non-honours programs.

Non-Honours Programs

Non-honours programs require 15.0 or 20.0 credits. Major programs require 20.0 credits.

Engineering and Design programs

Accredited programs offered by the Faculty of Engineering and Design are in Engineering, in Industrial Design, and in Architecture. These programs require at least 20.0 credits and assume a credit load of at least 2.5 credits per term of

study. Some programs within the Faculty of Engineering and Design have time limits for completion.

All of the above programs may include additional elements.

See also Section 2.1.4 Credit Load.

3.1.6 Program Structure

Program Elements

The courses that make up a program are separated into certain standard categories that give the program its structure, allow effective assessment of the student's progress and permit the inclusion of additional notations on the transcript and diploma.

Major

In most programs certain course credits are identified as constituting the Major. The Major specifies the required course credits in one or more defined disciplines, themes, or fields that are the principal focus of a student's program. These programs with a defined Major calculate a Major CGPA in addition to the overall average. A Combined Honours program may be structured with two Majors, one in each contributing discipline or, in some cases, as a single Major. A multidisciplinary program is structured as a single Major drawing together courses from several disciplines.

Note that the use of the term Major as a program element, above, is distinct from the degree program called Major (e.g. B.Sc.Major).

Core

Some programs specify a limited set of credits that constitute a Core. These are courses of special importance to the program and are subject to specific CGPA or minimum grade requirements.

Concentration or Specialization

A Concentration or Specialization is a defined set of courses which provides a student with specific expertise, knowledge and/or practice and so further distinguishes the program in a recognizable way. The credits in the concentration or specialization may or may not be part of the Major. The minimum number of credits for a concentration or specialization at the undergraduate level is 3.5 credits.

Stream

A Stream is a pattern of courses within the program that guides the student's studies and is distinctive from other patterns.

Additions to a Program

Option

An Option is an addition to a program, the pursuit of which does not affect eligibility for the degree without the Option. Registration in the Option does not change the degree requirements. An example is the Co-operative Education Option.

Other additions to a program that do interact with program requirements include: *Mention : français* (see

the Academic Regulations for the Bachelor of Arts), concurrent certificates and concurrent diplomas.

Minor

A Minor is a defined set of courses in a discipline or field that either introduces or extends knowledge of that discipline or field. A Minor may have its own admission requirements. Minors are only available to students already registered as Carleton degree students. Each Minor requires at least 4.0 and at most 5.0 credits. In some circumstances, credits in excess of those required for the main degree may be required to complete the Minor.

3.1.7 University Year Standing

Students in degree programs are given a Year Standing according to the number of credits completed with passing grades and counting towards the degree. The categories are as follows:

First Year:

Fewer than 4.0 credits completed successfully and counting towards the degree.

Second Year:

4.0 through 8.5 credits completed successfully and counting towards the degree.

Third Year:

9.0 through 13.5 credits completed successfully and counting towards the degree.

Fourth Year:

14.0 or more credits completed successfully and counting towards the degree and in a program requiring more than 15.0 credits.

Programs in the Faculty of Engineering and Design identify specific courses that must be completed for a particular year status in that program, which does not necessarily conform to the above formula. Refer to the Engineering and Design section of this Calendar for details.

Year standing assessment occurs regularly and as final grades are received.

3.1.8 Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. See the Undeclared program section of this Calendar for recommended registration information. Normally, Undeclared students are required to be eligible to enter a program within their degree upon or before completing 3.5 credits. Undeclared students should consult Academic Advising Centre for guidance in planning their studies prior to registration.

3.1.9 Changes of Degree and Program

Minimum CGPA requirements for Change of Program Element

Application is made through Carleton Central (Change of Program Element application) for change of program applications in the following cases:

- students who wish to change to a different program within the same degree;
- students who wish to add, drop, or change a Concentration, Specialization, or Minor.

Table 1: Minimum CGPAs Required in New Program Element

Program Credits Completed	Honours	15 Credit Non-Honours	20 Credit Non-Honours
0.0 to 5.5	Overall 4.00	Overall 4.00	Overall 4.00
5.75 to 10.0	Overall 4.00, Major 5.50	Overall 4.00, Major 3.00	Overall 4.00, Major 3.50
10.25 to 15.0	Overall 4.00, Major 6.00	Overall 4.00, Major 4.00	Overall 4.00, Major 3.50
15.25 or more	Overall 5.00, Major 6.50	N/A	Overall 4.00, Major 4.00

Not all program combinations are possible. Additional requirements may apply to certain program elements; please consult with the specific units for the options available.

Co-op Option

Application is made through the Co-op Office for admission to and withdrawal from the Co-op Option.

Application through Admissions Services

The following situations require students to reapply for admission through Admissions Services:

- currently registered students who wish, or who are required, to change their degree;
- students who have been *Required to Withdraw for Two Terms (WT)* or *Required to Withdraw for Two Years (WY)* and wish to return to their original program after the required absence from studies at Carleton University (see Section 3.2.3 of the *Academic Regulations of the University*);
- students who, after completing an undergraduate degree, wish to complete an additional undergraduate degree or certificate;
- students who have left the university and wish to return to a different degree;
- students who have attended another post-secondary institution (except on a letter of permission or exchange program), and wish to transfer obtained credits to their Carleton credential;
- Special Students who wish to be formally admitted to Carleton University (see Section 15 of the *General Admissions Requirements and Procedures*); and
- students who have been away from the university for nine or more consecutive terms.

3.1.10 Course Categories and Courses Set Aside

3.1.10.1 Course Categories

The requirements for some programs may include specific named categories of courses. These categories are defined either in the main regulations section of the

calendar or within the program description. Students should refer to the regulations and course categories for their program for details.

3.1.10.2 Courses Set Aside

Three categories of courses that do not contribute to the fulfilment of graduation requirements may appear on a student's degree audit report:

Extra to the Degree (ETD)

Passed credits that could have counted towards the degree but are in excess of the credits required for graduation are *Extra to Degree*. These credits may be considered for advanced standing in a subsequent degree. This category includes, for example, passed credits at the 1000 level in excess of the 7.0-credit limit.

No Credit for Degree (NCD)

Passed credits that are ineligible for credit in the student's program are *No Credit for Degree*. These credits may be considered for advanced standing in a subsequent degree. This category includes, for example, courses specifically prohibited from credit in a particular degree.

Forfeit

Courses that cannot be used for credit in this or any subsequent program. This category includes:

1. repeated courses;
2. courses considered equivalent to courses taken later in time;
3. courses precluded for credit by courses taken later in time;
4. courses placed in this category by committee decision.

3.1.11 Maximum Number of Program Elements

In addition to the student's Major(s), the maximum allowed combined number of Minors, Concentrations and Specializations for any student is two. Note that this restriction does not apply to the Co-op Option, *Mention : français* or Streams.

3.1.12 Combined Honours Programs

In some cases, combined honours programs are defined with a single unified major which incorporates the credits from both disciplines. In other cases, requirements are established separately by each discipline and combined according to the registration of the student in a particular combined honours pattern (for example, B.A. Honours). In the latter case, when a particular course satisfies the requirements for both majors, the course will be used to fulfil the requirements for one major and a different course at the same level will be required to satisfy the other major.

3.1.13 Simultaneous and Subsequent Degrees

1. A student who has graduated with a Carleton University degree in a particular program will not be subsequently admitted to the same degree and program. Specifically, students who have graduated with a:
 - a. B.A., B.A.S., B.Co.M.S., B.Sc., B. Econ., B. Cog. Sc. or B.Math. degree may apply subsequently for admission to the same degree if they apply for a different major or, if they graduated with a 15.0

credit degree or Major degree, they apply for an Honours degree with the same major.

- b. B.Eng. or B.I.T. degree may apply subsequently for admission to the same degree only if they apply for a significantly different program. A program with distinct streams constitutes a single program for this rule.
 - c. B.I.D., B.Com., B.I.B., B.C.S., B.Mus., B.H.Sc., B.Hum., B.S.W., B.G.In.S., B.J., B.J.Hum., B.M.P.D. or B.P.A.P.M. may not apply subsequently for admission to the same degree.
 - d. B.J., B.Hum. may not apply to the B.J.Hum., and B.J.Hum. may not apply to B.J. or B.Hum.
2. A student who has graduated with a Carleton University degree that includes a minor will not be subsequently admitted to the same minor.
 3. A student who has successfully completed a post-secondary credential will not be admitted to the B.A. or B.Sc. in Open Studies.
 4. A student who has successfully completed a university degree in a given discipline will not be admitted to a minor in the same discipline in conjunction with subsequent degree studies.
 5. A student will only be admitted to one degree and program at a time. The student's record will show only one active degree and program in any given term. Note that certain Certificates and Diplomas do allow concurrent degree studies.
 6. A Carleton University degree student is not allowed simultaneously to be registered in degree studies at another post-secondary institution without the permission of Carleton University.

3.1.14 Restrictions on Credit for Certain Courses

Some courses may not be used for credit in certain programs. Restrictions may be listed in the course descriptions, the academic regulations for certain degree programs, and/or in this section.

1. Co-operative Education (Co-op) work term and report courses do not count for credit in any degree.
2. In addition, B.A. students in Economics and B.Econ. students will not receive credit for MATH courses below the 1000-level.
3. Students in the B.Mus. degree will not receive credit for MUSI 1106 or MUSI 1107.
4. Students in the B.Com. or the B.I.B. degree will not receive credit for BIT 2001, BIT 2002 or any 0000-level mathematics course.
5. Students in the B.Com. degree will not receive credit for BUSI 3602 or COMP 1001.
6. Students admitted with advanced standing to the B.Com., B.C.S., B.I.B., B.Hum., B.P.A.P.M., B.I.T., B.G.In.S. or B.Eng. degree will not receive credit on admission for courses with a grade below C- taken earlier.
7. For courses excluded from the B.Sc. see the Academic Regulations for the Bachelor of Science Degree section of this Calendar. For courses excluded from the

B.Math. see the Mathematics programs section of this Calendar.

3.2 Academic Progression

3.2.1 Academic Continuation Evaluation for Degree Students

The Academic Continuation Evaluation as described in this section applies to Degree Students. The corresponding process for Special Students is described in Section 6.6 of this Calendar.

Note: in addition to the regulations listed below, some programs specify additional requirements that must be fulfilled. Consult specific program pages in this Calendar for additional information regarding: B.A.S., B.Eng., B.Hum., B.I.B., B.I.D., B.J., B.J.Hum., B.M.P.D., B.Mus., B.P.A.P.M., and B.S.W.

The Academic Continuation Evaluation (ACE) is the end-of-term assessment of a student's status in their degree. The first evaluation is made once 5.5 or more credits have been completed at Carleton University and/or through the University of Ottawa Exchange, and all final grades in a specific term are available. Subsequent evaluations occur at the end of each term provided a course has been completed. A completed course is any course registration, including repeated courses, that results in a grade or notation other than WDN, IP, CTN, or AUD. Courses that result in a notation of CR, NR, SAT, or UNS do not count towards the CGPA. Courses in the category of Courses Set Aside on the Academic Audit will not count toward the evaluation unless taken while on *Academic Warning* (AW), at which time they will be used in the term GPA calculation.

The basis of the evaluation is the student's Overall CGPA. The evaluation is made by comparing the Overall CGPA to the minimum required by the student's program in the specific credit range. The possible outcomes of an Academic Continuation Evaluation (ACE) are as follows:

Eligible to Continue (EC), *Academic Warning* (AW), *Required to Withdraw for Two Terms* (WT), *Eligible to Continue in Non-Honours* (CN), *Continue in Alternate* (CA), *Dismissed from Program* (DP), or *Required to Withdraw for Two Years* (WY).

The status *Eligible to Continue* (EC) signifies that the student's Overall CGPA meets the minimum required for continuation in the program.

The status *Academic Warning* (AW) signifies that the student's Overall CGPA with respect to the academic standards of the program is deficient. The student may continue in the degree but must achieve a term GPA equivalent to the Overall CGPA at the next ACE, required in their program and credit range. In order to clear *Academic Warning* (AW), the student must raise their Overall CGPA to the minimum required. Some programs include additional assessments which may also lead to the status *Academic Warning* (AW); see Section 3.2.7 for information. Clearing *Academic Warning* (AW) may take a student more than one term. *Academic Warning* (AW) does not appear on the official transcript.

The status *Required to Withdraw for Two Terms* (WT) signifies that the student must leave their degree for at least two academic terms. See also Section 3.2.3. *Required to Withdraw for Two Terms* (WT) occurs if at least one of the following conditions applies:

- the student has an Overall CGPA that is less than 1.00;
- while on *Academic Warning* (AW), the student has failed to achieve the minimum required term GPA;
- the student was Admitted with Additional Requirements and has failed to satisfy those requirements.

The status *Eligible to Continue in Non-Honours* (CN) is applied at an Academic Continuation Evaluation (ACE) if the student:

- is in an Honours B.A., B.C.S., B.Cog.Sc., B.Co.M.S., B.Econ., B.G.In.S., B.H.Sc., B.Math., or B.Sc. program;
- would be *Required to Withdraw for Two Terms* (WT) at this ACE due to a low overall CGPA, and;
- meets or exceeds the minimum requirements for *Eligible to Continue in Non-Honours* (CN).

The student's program will be changed to the corresponding non-honours program. The student may apply to change this program within the degree, as long as they would be *Eligible to Continue* (EC) in the subsequent program.

The statuses *Continue in Alternate* (CA) and *Dismissed from Program* (DP) indicate that the student's performance has fallen below a minimum standard and, in consequence, the student is removed from—and cannot be readmitted to—that same program. These ACE statuses are restricted to some professional and limited-enrolment programs where there is high demand and limited space in its required courses. The degrees and programs that use these statuses are: B.Com., B.Eng., B.Hum., B.I.B., B.I.D., B.J., B.J.Hum., B.Mus., and B.P.A.P.M. The statuses *Continue in Alternate* (CA) or *Dismissed from Program* (DP) are assigned if any of the conditions for *Required to Withdraw for Two Terms* (WT) apply, in addition to any conditions set by the program. The status *Continue in Alternate* (CA) is assigned if the student's overall CGPA is at least 1.00. A student with status *Continue in Alternate* (CA) is permitted to continue at the University, and may apply through Admissions Services for admission to another degree or through the Registrar's Office to Special studies. The status *Dismissed from Program* (DP) is assigned if the Overall CGPA is less than 1.00. A student with status *Dismissed from Program* (DP) may apply for admission to Special studies only.

If a student receives a status of *Required to Withdraw for Two Terms* (WT) or *Dismissed from Program* (DP) at an Academic Continuation Evaluation (ACE) in the student's current degree, and they have a previous decision of *Required to Withdraw for Two Terms* (WT) or *Dismissed from Program* (DP) on record in this degree, another degree, or Special studies, then the student will be removed from the current degree with the standing *Required to Withdraw for Two Years* (WY). A student with the status *Required to Withdraw for Two*

Years (WY) is not eligible for any studies at the University—including Special studies—for at least two calendar years. See Section 3.2.3.

3.2.2 Three Attempts of a Course (Engineering)

A student in the Bachelor of Engineering degree may attempt a course no more than three times. An attempt shall include courses in which the student has earned a final letter grade, CR, NR, SAT, or UNS.

Some required courses for Engineering degrees have a prerequisite requirement that a minimum grade be achieved in one or more prerequisite courses. If, for any course required for their engineering degree, a student has not earned the required prerequisite grade necessary for that course **by their third attempt** of the prerequisite course, the student will not be permitted to register in the required course, they can not meet the requirements to graduate, and must leave the degree with the status *Continue in Alternate* (CA) or *Dismissed from Program* (DP).

If **on the third attempt** of a course the student does not achieve a passing grade, the student cannot meet the requirements to graduate (see the Bachelor of Engineering regulations) and must leave the degree with the status *Continue in Alternate* (CA) or *Dismissed from Program* (DP).

3.2.3 Readmission after being Ineligible to Continue

Required to Withdraw for Two Terms (WT), *Required to Withdraw for Two Years* (WY), *Continue in Alternate* (CA), and *Dismissed from Program* (DP) are Academic Continuation Evaluation decisions applied to a particular degree.

- Students who have been *Required to Withdraw for Two Terms* (WT) will be inadmissible to their original degree for a minimum of two terms, and may apply immediately to Special studies or seek admission through Admissions Services to other degrees at the University for which they are eligible.
- Students with a decision of *Continue in Alternate* (CA) may apply immediately as Special students, or seek admission through Admissions Services to other degrees at the University for which they are eligible.
- Students with the decision of *Dismissed from Program* (DP) will be inadmissible to any program for a minimum of two terms and may only study as a Special student.
- Students with the decision of *Continue in Alternate* (CA) or *Dismissed from Program* (DP) will not be permitted to re-apply to their original degree and should choose an alternate degree program to complete their studies.

Students who have been *Required to Withdraw for Two Terms* (WT) and wish subsequently to be re-admitted to their original degree must petition through Admission Services, providing an explanation of the circumstances leading up to the withdrawal, what has occurred during

the period of withdrawal, and the student's new academic goals. See also Section 3.1.9.

Required to Withdraw for Two Years (WY) applies to all studies at the University including Special studies. After a WY decision, students wishing to be considered for readmission to a degree program must wait two years and then make an appeal to the Faculty Committee on Admissions and Studies. When being considered for readmission after a WY decision, students may be required to complete certain specific courses in order to demonstrate a reasonable expectation of success. The CGPA will be based upon successful and unsuccessful credits attempted upon readmission.

3.2.4 The Cumulative Grade Point Average

The Cumulative Grade Point Average (CGPA) is the key assessment tool for graduation and/or eligibility to continue in a degree program. The CGPA is the ratio of the grade points earned on a set of courses to the total credit value of these courses. In calculating the CGPA, the grade points contributed by each course are multiplied by the credit value of the course. For example, A+ is equal to 12.00 grade points. For a 0.5 credit course, it is equal to 6.00 grade points (12/2). The CGPA is truncated to two decimal places (with no rounding).

The Overall CGPA includes all courses that satisfy requirements of the student's program or would have satisfied such requirements if a passing grade had been obtained. In particular, an F grade is included in the calculation until it is removed through course repetition or replacement. When a course is repeated, the best grade is used. Some exceptions for those in the Bachelor of Engineering apply (<https://calendar.carleton.ca/undergrad/undergradprograms/engineering/#regulationstext>). All Carleton credits counting toward advanced standing in the degree program are included in the CGPA calculation. All credits obtained through the University of Ottawa Exchange agreement are included in the CGPA calculation.

Courses with the following grading notations are not included in the calculation of the CGPA: Aegrotat (AEG), Challenge for Credit (CH), Credit (CR), Extra to the Degree (ETD), No Credit for the Degree (NCD), No Record (NR), Satisfactory (SAT), Withdrawn (WDN), Unsuccessful Challenge for Credit (UCH), Unsatisfactory (UNS), or Forfeit.

A CGPA calculated for a program component, such as Major or Core, is calculated in the same way using only the courses in the program element.

3.2.4.1 Term Grade Point Average

The Term Grade Point Average (GPA) is the ratio of the grade points earned on a course or set of courses to the total credit value attempted in an individual term. The Term GPA is calculated on all courses attempted in the term, regardless of whether said courses can be used to satisfy the student's program requirements. Accordingly, these courses can include, but are not limited to: program credits, courses set aside, courses excess to the degree, repeated courses.

3.2.5 Assessment in Program Elements

In conjunction with the Academic Continuation Evaluation (ACE), additional averages are calculated for program elements. A CGPA is calculated over the courses contributing to any Minor, Concentration, or Specialization. Students with a CGPA that is below the minimum required for a Minor, Concentration, or Specialization may be removed from that program element.

3.2.6 Minimum CGPA Requirements

To be *Eligible to Continue (EC)* in a degree program, the standard CGPA requirements used in the Academic Continuation Evaluation are presented in Table 1. Undergraduate degree students who do not meet the minimum requirements presented in Table 1 may be placed on *Academic Warning (AW)* or required to withdraw from their degree (WT, WY). See Section 3.2.1 Academic Continuation Evaluation of the *Academic Regulations of the University*.

Table 1: Standard Minimum CGPA Requirements to be Eligible to Continue (EC)

Program of Study	Fewer than 5.5 credits complete	Between 5.5 and 15.25 credits complete	15.5 or more credits complete	Graduation
Honours	n/a	Overall 4.00	Overall 5.00 (see Note 3 below)	Overall 5.00, Major 6.50
BAS Design	n/a	Overall 4.00	Overall 4.00	Overall 4.00
Engineering	n/a	Overall 5.00	Overall 5.00	Overall 5.00
BID	n/a	Overall 3.50	Overall 4.00	Overall 4.00
15 Credit Non-Honours	n/a	Overall 4.00	n/a	Overall 4.00, Major 4.00
20 Credit Non-Honours	n/a	Overall 4.00	Overall 4.00	Overall 4.00, Major 4.00

Notes:

1. Credits Complete are the course credits earned in the courses the student has completed, with either a passing or a failing grade, that would contribute to the credits required for graduation in the student's program had they been passed. This includes credits obtained through transfer, advanced standing, letters of permission, or exchange. Credits Complete does not include courses from which the student has withdrawn.
2. Certain Honours programs may have different minimum Overall and/or Major CGPA requirements from those indicated above. Programs with exceptions are listed in Section 3.2.7 Additional ACE Information for Certain Degrees of the *Academic Regulations of the University*.

- Students in an Honours program who meet the 15.5 credits complete threshold must refer to Section 3.4.6 Minimum CGPA Requirements for Graduation of the *Academic Regulations of the University* for important information about the Major CGPA assessment.

The standard minimum CGPA requirements for Minors, Concentrations, and Specializations are not formally assessed in the Academic Continuation Evaluation, but may also be used to determine whether a student can remain in a particular Minor, Concentration, or Specialization.

Table 2: Standard Minimum CGPA Requirements for Minors, Concentrations, Specializations

Program of Study	Fewer than 5.5 credits complete	Between 5.5 and 15.25 credits complete	15.5 or more credits complete	Graduation
Honours	n/a	5.50	6.50	6.50
Engineering	n/a	4.50	5.00	5.00
BID	n/a	3.50	4.00	4.00
15 Credit Non-Honours	n/a	3.50	n/a	4.00
20 Credit Non-Honours	n/a	3.50	4.00	4.00

Note: certain Minors, Concentrations, and Specializations may have different minimum requirements from those indicated above. Consult the specific program requirements for information.

3.2.7 Additional Information Concerning Academic Continuation Evaluation for Some Degrees

The standard regulations for Academic Continuation Evaluation are modified for certain degrees. Please see the particular degree for more information.

- Bachelor of Architectural Studies
- Bachelor of Humanities
- Bachelor of Industrial Design
- Bachelor of International Business
- Bachelor of Journalism
- Bachelor of Journalism and Humanities
- Bachelor of Media Production and Design
- Bachelor of Music
- Bachelor of Public Affairs and Policy Management
- Bachelor of Social Work

3.3 Academic Petitions and Appeals

3.3.1 Undergraduate Academic Petitions

The Senate of the University establishes academic rules, regulations and deadlines which are designed to ensure that academic standards are upheld and that all students

are treated fairly and equitably. However, the University does understand that extenuating circumstances beyond a student's control can occur and adversely affect a student's ability to meet academic obligations. In those instances, a student may submit a petition, which is a formal request for accommodation with regard to normal rules, regulations and deadlines of the University. The following procedures are concerned with academic regulations and admission decisions. There is a separate review and appeal process for reconsideration of grades in term work and final examinations (see Sections 3.3.4 and 3.3.5 below). Concerns related to the offering of a particular course are within the jurisdiction of the Dean of the Faculty offering the course.

There are two types of circumstances that might warrant a request for an exception to published rules, regulations or deadlines. One type of petition concerns personal circumstances such as illness, unanticipated occupational commitments, or other unanticipated serious events. The second type concerns whether a rule or regulation has been properly or fairly applied to a student's record.

A student seeking accommodation with respect to an academic regulation, rule or deadline submits a petition in writing to the Registrar's Office. Unless subject to an earlier deadline, petitions must be submitted by the following deadlines:

January 30

- for petitions arising from the fall term

June 30

- for petitions arising from the winter term

September 30

- for petitions arising from the summer session

Students can obtain from the Registrar's Office the required Academic Petition form, information about the procedures to be followed, and details regarding the documentation needed to support a petition. Students seeking reconsideration of an admission decision must submit an application in writing to the Admission Services Office.

3.3.2 Undergraduate Appeals

An appeal is the process by which a student may challenge, in writing, the decision on a petition. Students may initiate an appeal by submitting an Academic Appeal Form to the Registrar's Office. Such appeals must be submitted within 14 days of receiving the decision on the original petition. It is the student's responsibility to ensure that the appeal submission is complete and includes all relevant matters which the committee should consider in rendering its decision. The Senate Undergraduate Studies Committee makes the final decision on an appeal.

3.3.3 Procedural Review

Students may request a procedural review of decisions made by the Senate Undergraduate Studies Committee. The review is initiated by a communication, in writing, to the Clerk of Senate. Procedural review is restricted to confirmation by the Clerk that (i) proper procedures have been followed as set out in the appropriate

approved policy, (ii) that issues of bias have been properly addressed, and (iii) that the decision reached is within the scope of the delegated authority and is consistent with previous practice. A procedural review will not change the decision of an appeal. However, the Clerk will decide whether proper procedures have been followed and establish if any further actions are required.

3.3.4 Informal Appeal of Grade

There may be a number of circumstances in which students will have questions regarding their grades. These questions may be about understanding the grading scheme; about the grade awarded for a specific piece of work, including work that has not been returned; or about the determination of the final grade. Wherever possible, both during the term and after, concerns about the grading of student work should be settled informally between the student and the instructor. As a result of this informal appeal process the original grade may be raised, lowered or left unchanged.

Students have the right to have questions regarding their grades addressed and to view all material, including material that has not been returned such as final examinations. In some cases, the original submitted work will remain in the possession of the University and the viewing of this work may be supervised. In cases where a student has concerns regarding the determination of their final grade, the student will be provided with a list of their grades on all components of the course and a description of how their final grade was calculated.

Students should initiate this process within seven working days of the day on which the official grade in question was made available. The informal appeal process should address the concern within 15 working days of the day on which the grade was made available through Carleton Central.

3.3.5 Formal Appeal of Grade

A student may submit a formal appeal of grade when the informal appeal process has not addressed their concerns. The appeal must be submitted to the Registrar's Office with required supporting documentation, normally within 20 working days of the day on which the grade was made available to the student, or the informal appeal process was completed (if applicable). The resolution of an appeal of grade is the responsibility of the Dean of the Faculty offering the course. The appeal must be specific to one or more graded components of the course and/or the calculation of the final grade.

On receiving a formal appeal from the Registrar's Office, the Faculty Dean may decide not to proceed with the appeal if, in the opinion of the Dean, reasonable grounds have not been established as a basis for the appeal. Circumstances which may result in a decision not to proceed may include, for example, cases where the Dean determines that the informal process has adequately addressed the student's concerns or where the Dean determines that a reasonable expectation of error or bias in the original grade has not been established. If the Dean

decides not to proceed with the appeal, the student will be informed of the reasons for the decision.

In proceeding with an appeal, the Dean may assign reassessment of the work to one or more qualified readers other than the instructor. In this case, the identity of the reader(s) will not be made known to the appellant and the identity of the appellant will not be made known to the reader(s). After due consultation, the Dean, as chief academic officer of the Faculty, will assign the grade. The decision of the Dean is final. As a result of this formal appeal process the original grade may be raised, lowered or left unchanged. The student will be given a concise explanation of the decision.

3.4 Graduation Requirements

2.2.2/3.4.1 Minimum Number of Residency Credits

To be eligible for graduation with a Carleton degree, certificate or diploma, each student must present a certain number of credits earned at Carleton University which have not been presented to fulfil any degree that has been previously awarded, including a degree or degrees at Carleton University. These are referred to as residency credits. Courses taken under the University of Ottawa Exchange Agreement do not count as residency credits.

All degree students must present a minimum of 5.0 residency credits at graduation, with the following exceptions:

The minimum number of residency credits for students in the Dual Degree, B.Eng., B.I.D, B.I.T. and B.A.S. Design program is half of the total number of credits required for the program. The residency requirement for B.A.S. students not in Design is the standard minimum of 5.0 residency credits at graduation.

To obtain a minor, a student must present at least 2.0 residency credits counting toward that minor.

To obtain an undergraduate certificate from Carleton University, students must present residency credits including a minimum of 4.0 credits taken at Carleton. The residency for certificates taken concurrently with a Carleton degree may be satisfied with credits used also to satisfy the degree residency requirement.

To obtain a post-baccalaureate diploma from Carleton University, students must present residency credits including a minimum of 3.0 credits taken at Carleton.

2.2.3/3.4.2 Advanced Credits

The credits presented at graduation that are credits completed at Carleton after admission, credits completed at Carleton within the last ten years for which advanced standing has been granted and credits completed as part of the University of Ottawa Exchange or another formal domestic or international Exchange, must include:

1. For Honours degrees, at least 3.0 credits in the major and at the 3000 level or above;
2. For Combined Honours degrees, at least 1.5 credits in each major and at the 3000 level or above;

- For Major degrees, at least 3.0 credits in the major and at the 2000 level or above;
- For 15.0 credit degrees, at least 3.0 credits at the 2000-level or above and, if applicable, in the major.

3.4.3 Graduation Requirements

In order for students to receive their credential, they must fulfil:

- all the requirements of the department(s), school(s) or institute(s) in which they are taking the program;
- all Faculty regulations;
- all University regulations;
- all financial obligations to the University.

The student is responsible for meeting graduation requirements and is strongly encouraged to discuss their program requirements with the Undergraduate Adviser for their program. The degree audit report (available on Carleton Central) is a guide to be used in consultation with the Undergraduate Adviser to discuss the student's academic progress.

3.4.4 Application for Graduation

Students must apply online for graduation via Carleton Central. Online applications must be completed by the following deadlines:

- for Spring Graduation (June): April 1
- for Fall Graduation (November): September 1
- for Winter Graduation (February): December 1

Visit carleton.ca/registrar for further information regarding graduation.

3.4.5 Automatic Graduation from the University

Students who have completed the requirements for the degree and program in which they are registered will be automatically considered for graduation after three consecutive terms of absence from the University.

3.4.6 Minimum CGPA Requirements for Graduation

Students in an Honours program who have completed 15.5 credits or more, but have a Major CGPA less than 6.00, will be placed in a corresponding non-honours program where applicable, provided they meet the minimum overall CGPA required for continuation. The student may apply to change this program within the degree, as long as they would be *Eligible to Continue* (EC) in the subsequent program. Honours programs with no corresponding non-honours program will be assessed using the program rules reflected in Section 3.2.7 of the *Academic Regulations of the University*.

Note: students in the Bachelor of International Business (Honours) and Bachelor of Commerce (Honours) must refer to the Program Regulations for Business.

Table 3: Standard Minimum CGPA Requirements for Graduation

	Overall	Major(s)	Concentration or Specialization	Minor
Honours Degrees	5.00	6.50	6.50	6.50
Engineering Degrees	5.00	not used	n/a	5.00
Architecture (Design), B.I.D.	4.00	not used	n/a	4.00
15 and 20 Credit Non-Honours Degrees	4.00	4.00	4.00	4.00
BCom Non-Honours Degree	5.00	5.00	n/a	5.00
Post-Baccalaureate Diploma	6.50			

Note: some programs have higher requirements. Consult the specific program requirements for information.

3.4.7 Recognition of High Academic Achievement

Graduating students in any undergraduate degree will have exceptional academic achievement recognized if the student:

- Has completed at least 10.0 credits toward the degree at Carleton University, and:
- For the designation High Distinction, has an Overall CGPA equal to or greater than 10.40;
- For the designation Distinction, has an Overall CGPA less than 10.40 and equal to or greater than 9.80.

These recognitions of exceptional merit will be recorded on the student's transcript and diploma.

3.4.8 Recognition of Study Abroad

Carleton University recognizes students who successfully complete a pattern of study at a non-Canadian university comprising a significant international experience with a notation on both the student's transcript and diploma. To qualify for a notation, the pattern of study must be either an approved pattern of study under a recognized International Exchange program, or an alternate pattern of study approved by the Dean.

The notation *with Study Term Abroad* will be used when the equivalent of 2.0 to 3.5 credits of courses are successfully completed, normally within one term.

The notation *with Study Year Abroad* will be used when the equivalent of 4.0 or more credits of courses are successfully completed, normally within one year.

Academic Regulations for Special Students

6.1 Special Students

Special students may be admitted to a degree program if their academic achievement at Carleton University indicates a reasonable probability of future academic success. Previous post-secondary studies at other institutions will also be taken into consideration at the time the application for admission is evaluated. Students with previous, unsuccessful post-secondary studies should contact the Admissions Services before attempting to qualify for admission on the basis of studies as a Special student.

6.2 Application

Applications to study as a Special student are submitted online to the Registrar's Office at <https://carleton.ca/registrar/special-students/>. Applications must include transcripts from the most recent study (high school, post-secondary), as well as the application fee. Documentation provided must satisfy the English language requirements of the University (see 6.3 below).

6.3 Proficiency in English

Special students must satisfy the University English language proficiency requirement listed in the Admissions Regulations section.

6.4 Course Selection

Special students are eligible to register in most courses provided they meet prerequisites. Space in certain courses may be limited and some courses are restricted to degree students. Restrictions and prerequisites are listed in the Class Schedule and the Calendar course description.

Special students planning on applying for admission to a program in the future are advised to note the specific Faculty requirements for course selection and the admission requirements for Special students as listed in this Calendar.

6.5 Course Load

Special students may enrol in a maximum of 1.0 credit in each of the summer, fall, and winter terms.

Special students who have completed at least 1.0 credit taken at Carleton University and have an Overall CGPA of at least 7.0 may petition to the Registrar's Office to register in a maximum of 1.5 credits in each of the summer, fall, and winter terms. Permission from the Registrar's Office is required.

Special students may enrol in 2.5 credits in each of the fall and winter terms, and in 2.0 credits in the summer term, if the student holds an undergraduate degree from a recognized post-secondary institution and presents official documentation to confirm their degree.

Students studying with an official approved Letter of Permission from a recognized post secondary institution

will be permitted to enrol in the course load indicated on their Letter of Permission.

6.6 Academic Continuation Evaluation

Academic Continuation Evaluation (ACE) for Special students is carried out at the same time as for degree students. Special students receive their first Academic Continuation Evaluation once they have completed 2.0 credits since the most recent admission to Special studies. Subsequent evaluations occur at the end of each term provided a course has been completed. The result of an Academic Continuation Evaluation is that the student is *Eligible to Continue* (EC), on *Academic Warning* (AW), or is *Required to Withdraw for Two Terms* (WT).

The status *Eligible to Continue* (EC) signifies that a Special student's Overall CGPA meets or exceeds the minimum 3.00 required for continuation.

A Special student is considered to be on *Academic Warning* (AW) at an Academic Continuation Evaluation if:

- their Overall CGPA is at least 1.00 but less than 3.00, and they were *Eligible to Continue* (EC) before the evaluation;
- the previous evaluation was *Academic Warning* (AW), and the Term GPA for the current evaluation is 3.00 or greater but the Overall CGPA is less than 3.00.

A Special student is *Required to Withdraw for Two Terms* (WT) at an Academic Continuation Evaluation if:

- they are on *Academic Warning* (AW) and do not achieve a Term GPA of 3.00; or,
- their CGPA is less than 1.00 at the time of any Academic Continuation Evaluation.

A Special student who is *Required to Withdraw for Two Terms* (WT) may not return to Special studies for two terms.

6.7 Special Students Enrolling in Graduate-Level Courses

Anyone wishing to enrol in a graduate-level course as a Special student must obtain permission from the appropriate department. Requests are submitted through the registration system as a Course Override Request. Anyone considering pursuing a graduate degree is urged to contact the Faculty of Graduate and Postdoctoral Affairs prior to registration as a Special student.

Academic Regulations for Students with Disabilities

8.1 Academic Regulations for Students with Disabilities

Carleton University is strongly committed to providing access and accommodation for all individuals with identified and duly assessed disabilities. The University has a Senate-approved policy on academic accommodation that forms part of its Human Rights Policy. This policy should be consulted for further information and is available at: carleton.ca/equity. The policy promotes efforts to accommodate students with disabilities so that

they will have the opportunity to meet learning objectives and be fairly evaluated in their performance. In no case, however, does academic accommodation negotiate away, lower, or remove the academic standards and learning objectives of any course or program, rule, regulation, or policy at the University.

The Paul Menton Centre for Students with Disabilities is the designated unit at the University for assisting the Carleton community in integrating persons with disabilities into all aspects of Carleton's academic and community life. The Paul Menton Centre provides assessment of academic accommodation, advises students on strategies to open a dialogue with instructors and acts as consultant, facilitator, coordinator and advocate in this area for all members of the University community.

The Paul Menton Centre provides individualized support services, based on appropriate and current documentation, to persons who are deaf or hard of hearing, with learning disabilities, attention deficit disorder (ADD), visual impairments, head injuries, physical disabilities including mobility impairments, or who have psychiatric, other medical or non-visible disabilities.

Students are responsible for applying for special services by making an appointment with the appropriate coordinator at the Paul Menton Centre. All requests will be considered on the basis of individual need. Students are advised to come to the Centre early in the term to discuss service requests.

Examination accommodations for all tests and examinations (in-class, CUOL, or formally scheduled) must be arranged by specific deadline dates. Please consult the Paul Menton Centre for a list of deadlines. Note that it may not be possible to fulfil accommodation requests received after the specified deadlines.

Academic Regulations for Students with Religious Obligations

9.1 Academic Regulations for Students with Religious Obligations

Carleton University accommodates students who, due to religious obligation, must miss an examination, test, assignment deadline, laboratory, or other compulsory event. The University has a Senate-approved policy on religious accommodation that forms part of its Human Rights Policy, available at: carleton.ca/equity.

Accommodation will be worked out directly and on an individual basis between the student and the instructor(s) involved. Students should make a formal written request to the instructor(s) for alternative dates and/or means of satisfying requirements. Such requests should be made during the first two weeks of any given academic term*, or as soon as possible after a need for accommodation is known to exist, but in no case later than the penultimate week of classes in that term. Instructors will make reasonable accommodation in a way that shall avoid academic disadvantage to the student.

Students unable to reach a satisfactory arrangement with their instructor(s) should contact the Director of Equity

Services. Instructors who have questions or wish to verify the nature of the religious event or practice involved should also contact this officer.

*When a student's presence is required prior to the date on which classes begin (e.g. for field trips or orientation activities), any student who cannot meet this expectation of attendance for reasons of religious accommodation should notify the Registrar's Office in advance.

Examinations

4.1 Undergraduate Examination Regulations

Students writing tests and examinations should be aware of the rules governing examination conduct. These rules include those listed in the Academic Integrity section of this Calendar and information about policy and procedures for writing examinations distributed at the final examination.

For examinations scheduled during the official examination period, it may be necessary to schedule examinations during the day for classes held in the evening and vice versa, or on Saturday and Sunday.

All tests and examinations are subject to the following rules:

1. Tests or examinations given in class may not exceed the time allotted for the class;
2. The schedule for any term tests or examinations to be held outside class time must be communicated in the course outline. Students who are unable to write during this scheduled time must be accommodated before the last day of classes.
3. If there is a final examination in the summer term, it will be held during the official examination period;
4. If there is a final examination or an end-of-term examination in a multi-term course, this examination will be held in the official examination period;
5. No summative tests or final examinations may be held during the last two weeks of fall or winter terms, or during the last week of each half of the summer term. Please note that practical exams, where the material cannot be tested during formal examination period, are exempt from this rule provided (i) students are made aware of the practical exam requirement at the start of the term via the course outline, and (ii) the examination contributes to no more than 15% of the final grade. If provision (i) above is met but the examination comprises more than 15% of the final grade, Dean approval is required prior to informing students via the course outline.
6. Formative tests or examinations may be held during the last two weeks of classes of fall or winter terms, or during the last week of each half of the summer term, provided they do not total more than 15% of the final grade. The purpose of formative tests or examinations is to provide feedback to students on a component of the course content.
7. No tests or examinations may be held between the end of classes in a term and the beginning of formally scheduled examinations;

8. Normally, final take-home examinations in any term will be assigned on or before the last day of classes and are due on the last day of the official examination period. Final take-home examinations not set according to this normal practice must be formally scheduled by Scheduling and Examination Services and are subject to overload rules. In all cases the rules for take-home examinations must be well communicated to students by course instructors.
9. Students are not required to write with an exam conflict (defined as two examinations scheduled at the same time) nor in an exam overload, defined as (i) 3 or more examinations scheduled in 3 consecutive time slots, (ii) 4 or more examinations scheduled in 5 consecutive time slots, or (iii) 5 or more examinations scheduled in 7 consecutive time slots, where a time slot refers to the morning, afternoon, or evening time slot on an exam day.

4.2 Examination Rules of Conduct

From the *Carleton University Academic Integrity Policy*, <https://carleton.ca/senate/wp-content/uploads/Academic-Integrity-Policy1.pdf>:

The University is committed to ensuring fairness and consistency in the completion of examinations. As part of this commitment, students are required to follow proper examinations procedures. A student who commits a violation of this Policy on an examination, test, or take-home examination, or obtains or produces an answer or unfair advantage, are subject to sanction under this Policy. This includes but is not limited to:

1. bringing to the examination/test room any unauthorized material;
2. writing an examination or part of it, by consulting any person or materials outside the confines of the examination room without permission to do so;
3. intentionally leaving answer papers exposed to view;
4. attempting to read other students' examination papers;
5. speaking to another student (even if the subject matter is irrelevant to the test);
6. disrupting or delaying a test or examination;
7. failing to comply with the instruction of a University official administering an examination.

Further to the University's Academic Integrity Policy statement, a violation of the policy may also occur by breaching one of the Policy and Procedures for Writing Examinations.

Please visit the University's Human Rights Policy and Offenses of Conduct sections of this Calendar for more information.

4.3 Deferred Final Examinations

4.3.1 Deferred Final Examinations

Students who are unable to write a final examination because of a serious illness/emergency or other circumstances beyond their control may apply for accommodation. Normally, the accommodation for a missed final examination will be granting the student the opportunity to write a deferred examination. In

specific cases when it is not possible to offer a deferred examination, and with the approval of the Dean, an alternate accommodation may be made.

The application for a deferral must:

1. be made in writing to the Registrar's Office no later than three working days after the original final examination or the due date of the take-home examination; and,
2. be fully supported by appropriate documentation and, in cases of illness, by a medical certificate dated no later than one working day after the examination, or by appropriate documents in other cases. Medical documents must specify the date of the onset of the illness, the (expected) date of recovery, and the extent to which the student was/is incapacitated during the time of the examination. The University's preferred medical form can be found at the Registrar's Office here.

4.3.2 Missed Deferred Examinations

Students will not be given a deferral of a deferred examination.

Students granted a deferred final examination who are then unable to write the deferred final examination will receive the earned grade in the course (which may be an F).

Students granted a deferred final examination who are then unable to write the deferred final examination due to properly documented personal or medical conditions may appeal to receive one of the notations *Aegrotat* (AEG) or *Withdrawn* (WDN) for the course as assigned by the appropriate appeal committee. (Students may not petition for one of these alternate notations if they attended the deferred examination but did not complete it for personal or medical reasons unless the circumstances satisfy the requirements for Early Departure from Final Examinations in section 4.3.3 below.) NOTE: If a student would be unable to pass the course as specified in the course outline, regardless of the result of a final examination, a grade of F may still result. If a student is passing the term work and is able to pass the course as specified in the course outline, based on the results of a final examination, then a withdrawn (WDN) may be granted.

Aegrotat standing may be considered for applicants for deferred finals but will be granted only if a substantial proportion of the term work has been completed and is of high quality. AEG denotes a pass standing.

Students who have obtained approval for a deferred examination in a Carleton University Online (CUOL) course will have access to course materials after the end of the academic term of the original course.

Deferred final examinations are scheduled in the time period approved by Senate. Please refer to the Academic Schedule for deferred examination dates.

4.3.3 Early Departure from Final Examinations

Students are expected to assess their medical situation/ability to write an examination prior to entering the examination room. Students who do not write a final

examination because of illness or other circumstances beyond their control may apply to write a deferred examination. Section 4.3.1 of this calendar outlines the regulations governing deferral of final examinations.

Students are expected to complete a final examination once begun. If the student experiences a significant deterioration of health while the examination is in progress, it may be possible to submit a petition to apply to write a deferred examination.

A significant deterioration during an exam is a situation whereby the student requires immediate and/or emergency medical attention. In such circumstances, a student will be required to seek appropriate documentation to confirm that the medical situation caused significant, acute symptoms during the examination that completely prohibited the student from completing the exam, describing the specific impacts on the student's ability to continue the exam.

A student must then petition to the Registrar's Office within three (3) business days of the examination with appropriate supporting documentation.

Minor illnesses and ongoing chronic illnesses under medical management will normally not be considered valid grounds for granting a deferred final examination.

4.4 Deferred Term Work

In some situations, students are unable to complete term work because of illness or other circumstances beyond their control, which forces them to delay submission of the work.

1. Students who claim illness, injury or other extraordinary circumstances beyond their control as a reason for missed term work are held responsible for immediately informing the instructor concerned and for making alternate arrangements with the instructor and in all cases this must occur no later than three (3) working days after the term work was due. The alternate arrangement must be made before the last day of classes in the term as published in the academic schedule. Normally, any deferred term work will be completed by the last day of term. In all cases, formative evaluations providing feedback to the student should be replaced with formative evaluations. In the event the altered due date must extend beyond the last day of classes in the term, the instructor will assign a grade of zero for the work not submitted and submit the student's earned grade accordingly; the instructor may submit a change of grade at a later date. Term work cannot be deferred by the Registrar.
2. In cases where a student is not able to complete term work due to illness or injury for a significant period of time/or long term, the instructor and/or student may elect to consult with the Registrar's Office (undergraduate courses) or Graduate Registrar (graduate courses) to determine appropriate action.
3. If a student is concerned the instructor did not respond to the request for academic accommodation or did not provide reasonable accommodation, the student should consult with the department/

school/institute chair/director. If a mutually agreeable accommodation to complete course requirements prior to the course grade submission deadline cannot be achieved, the Associate Dean will become involved. If academic accommodation is not granted, and the student receives word **after** the academic withdrawal deadline, the student may submit a petition to the Registrar's Office (undergraduate courses)/Graduate Registrar (graduate courses) for a final grade of WDN (Withdrawn) in the course(s). If academic accommodation is not granted, and the student receives word **prior** to the academic withdrawal deadline, the student may elect to withdraw from the course(s).

4. Furthermore, if academic accommodation is granted, but the student is unable to complete the accommodation according to the terms set out by the instructor as a result of further illness, injury or extraordinary circumstances beyond their control, the student may submit a petition to the Registrar's Office (undergraduate courses)/Graduate Registrar (graduate courses). Please note, however, that the course instructor will be required to submit an earned final grade and further consideration will only be reviewed according to established precedents and deadlines. (More information: Undergraduate | Graduate).

Grading

5.1 Credit

To obtain credit in a course, students must satisfy the course requirements as published in the course outline.

5.2 The Course Outline

The instructor is required to provide a formal statement to students called the Course Outline. The course outline must be made available to all Carleton students registered in that course, on or before the required date found in the schedule for The Academic Year, normally one week prior to the start of a term.

The course outline must specify:

1. Complete calendar description.
2. Proposed list of topics to be covered.
3. Mandatory Required Materials to be acquired.
4. All the elements that will contribute to the cumulative grade earned and the overall approximate grade breakdown for the course. The elements and grade breakdown may initially be approximate, but are normally confirmed no later than the last day of registration for the term. If faculty deviate from section 5.4 on the grading system, the grading system that will be used must be clearly indicated. If additional requirements beyond the cumulative grade earned must be satisfied in order to pass the course, this should be clearly identified in the course outline.
5. Due dates for major course elements should be indicated. The dates may be tentative initially, but are normally confirmed no later than the last day of registration for the term. If changes to due dates are required students should be given at least two weeks

notice. Final scheduled exam dates are excluded from the information provided, and will be presented at a later date in the term.

6. TA information, as available.
7. Any required time commitments occurring outside of the formally scheduled lectures, tutorials, labs and discussion groups. Changes may be required but students should be given at least two weeks notice. These time commitments are specific to course requirements and do not imply study time or group work, for example.
8. The outline must also include/reference all University policies governing academic accommodation.

5.3 Early Feedback Guideline

Providing feedback to students on academic work, completed or in progress, is an integral part of teaching and learning in that it allows students to measure their understanding of material, the success of their learning strategies, and their progress on learning objectives. While the nature and frequency of such feedback will vary with the course and level, Carleton University is committed to providing students with appropriate and timely feedback on their work. Accordingly, wherever possible, and especially in first- and second-year courses, instructors are urged to include academic work that is assigned, evaluated and returned prior to the 25th teaching day of each term. More generally, all instructors are urged to include academic work that is assigned, evaluated and returned prior to the 40th teaching day of each term.

The spirit of this guideline should be followed during the summer term. In particular, all instructors are urged to include academic work that is assigned, evaluated, and returned at least two days prior to the last day to withdraw from the course in the Early, Late, or Full Summer term.

Course outlines should provide an indication of approximately when the first graded piece of work will be returned to students. In cases where a course does not lend itself to early feedback, this should be clearly noted on the course outline.

5.4 Grading System

Standing in a course is determined by the course instructor, subject to the approval of the faculty Dean. Standing in courses will be shown by alphabetical grades. The system of grades used, with corresponding grade points and the percentage conversion, is listed below. Grade points indicated are for courses with 1.0 credit value. Where the course credit is greater or less than one credit, the grade points are adjusted proportionately.

Grade	Point Equivalence	Percentage Conversion
A+	12	90-100
A	11	85-89
A-	10	80-84
B+	9	77-79
B	8	73-76
B-	7	70-72
C+	6	67-69

C	5	63-66
C-	4	60-62
D+	3	57-59
D	2	53-56
D-	1	50-52
F	0	less than 50

In cases where the final examination is not written and was not explicitly a requirement to successfully complete the course, the cumulative grade earned on term work without the missing examination will be assigned.

If the grade conversion deviates from the percentage conversion presented above, the faculty member must notify the class in the course outline.

Other grades and notations in current use by the University are as follows:

Notation	Description
AEG	Aegrotat. Pass standing is granted under special circumstances by an academic appeal committee, in response to an application from or on behalf of a student, on the basis of course work when no further assessment is considered feasible. AEG has no impact on the CGPA calculation.
AUD	AUD. No Academic Credit, no impact on CGPA. Audit indicates the course was taken for interest and not for academic credit.
CEX	Current International Exchange. An interim notation.
CH	Credit granted under challenge for credit policy. CH has no impact on the CGPA calculation.
CLP	Current Letter of Permission. An interim notation.
CR	Credit granted for a passed course under the First Year Grading Policy (see Section 5.4.3). CR has no impact on the CGPA calculation.
CTN	Continuing. No academic credit and no impact on the CGPA. Assigned by the Registrar's Office to the first half of a course taught consecutively over two terms.
CUO	Current University of Ottawa Exchange. An interim notation.
CUR	Current registration. An interim notation assigned by the Registrar's Office to indicate the student is currently registered in the course.
DEF	Deferred Final Examination and/or final course work. An interim notation administratively assigned by the Registrar's Office upon approval of a request to write a deferred final examination or defer submission of final course work. DEF must be replaced by a final grade within the prescribed time or be replaced with F.
F	Failure. The grade of F is assigned when the student has failed to meet the conditions of "satisfactory performance" defined in the Course Outline. F carries 0.0 grade points.

GNA	Grade not available. An interim notation administratively assigned by the Faculty when a grade is not available, and must be replaced with a final grade.	DNC	Did not complete the course. No academic credit or impact on the CGPA calculation. In credit courses, the notation DNC is assigned by the appropriate appeal committee in the case of a student, who, having achieved satisfactory performance during the term, and has been granted a deferred final examination in the course then is unable to write the deferred examination due to continued and documented personal or medical reasons. In the case of audited courses, DNC is assigned by the instructor when the student has registered to audit the course and has not satisfied the requirements for successful audit.
IP	In Progress – a notation (IP) assigned to a course by a faculty member when: At the undergraduate level, an undergraduate thesis or course has not been completed by the end of the period of registration. At the graduate level, a graduate thesis, research essay, independent research project or comprehensive examination has not been completed by the end of the period of registration. The IP notation may also be used at the graduate level when a research seminar has not been completed by the end of the period of registration provided the research seminar has been approved by Graduate Faculty Board as being eligible for the use of this notation. In the case of re-registration in any of the above courses, the IP notation will remain; a final grade will normally be assigned in the final period of registration. Where there is no re-registration in any of the above courses, the IP notation must be replaced with an appropriate notation or grade within the prescribed time period, or be replaced by a notation of WDN.	EXC	Satisfactory performance on International Exchange, EXC has no impact on the CGPA calculation.
NR	Denotes a failed course under the First Year Grading Policy (see Section 5.4.3). The notation does not appear on the transcript but is retained for internal purposes as required. NR has no impact on the CGPA calculation.	FND	Failure with no deferred final examination allowed. The grade FND is assigned only when the student has failed the course on the basis of inadequate term work as specified in the Course Outline. FND carries 0.0 grade points.
SAT	Satisfactory performance in an option or course taken at Carleton, or on Letter of Permission or an approved exchange. SAT has no impact on the CGPA calculation.	FNS	Failure without access to a supplemental examination because of incomplete term work or unacceptably low standing. No academic credit.
UCH	Unsuccessful attempt for CH. UCH has no impact on the CGPA calculation.	FWS	Failure with access to supplemental examinations.
UNS	Unsatisfactory performance in an option or course taken at Carleton, or on a Letter of Permission or approved exchange. UNS has no impact on the CGPA calculation.	INC	Incomplete may be assigned to a Graduate course in which the student has been approved to submit an assignment after the final deadline date. Incomplete must be replaced with a letter grade within forty days of the end of classes. If the Incomplete is not changed to a letter grade within forty days of the end of classes, the Incomplete will be changed to a grade of F, which will remain as a permanent entry on the student's record. In exceptional cases students may petition the Dean of the Faculty of Graduate and Postdoctoral Affairs to have the Incomplete remain on the student record. For circumstances that go beyond the forty-day period (i.e. medical), students may apply for a deferral (refer to Special/Deferred Final Examinations, Section 9.3).
WDN	Withdrawn. Students may withdraw on or before the academic withdrawal deadline (noted in the Academic Year section of the Calendar). No academic credit, no impact on the CGPA. WDN is a permanent notation that appears on the official transcript for students who withdraw after the full fee adjustment date in each term (also noted in the Academic Year section of the Calendar).	LOP	Satisfactory performance on Letter of Permission, LOP has no impact on the CGPA calculation.
		P	Pass.
		PWD	Pass With Distinction.

The following notations are no longer in use by the University:

Notation Description

ABS Absent from a required final examination. ABS is assigned only when the student is absent from the required final examination and has achieved satisfactory performance during the term as specified in the course outline. ABS is equivalent to an F and it carries 0.0 grade points.

5.4.1 A course is considered to be *completed* when the course registration results in a notation or grade other than WDN, IP, CTN, CUR, AUD, CEX, CLP, DEF, GNA, or CUO.

5.4.2 A course is considered to be *successfully completed* if the course is completed with a passing grade, SAT, CH, AEG, or CR.

5.4.3 First Year Grading Policy

For students entering their first year of studies at Carleton with no previous post-secondary studies the following grading policy shall apply during the **first two terms** of registration in a Carleton undergraduate degree program:

1. Any F or UNS grades earned in any course taken will be automatically converted to NR (No Record). **Note:** NR will not be recorded on the transcript but will be retained for internal use and accessible for other purposes as required.
2. Any passing grades earned in any course may be converted to a CR (Credit), at the request of the student, to a maximum of 2.0 credits during the first two terms. Students must request conversion prior to the last day of registration for the following term. **Note:** CR will be recorded on the transcript, and the earned grade will be retained for internal use and accessible for other purposes as required.
3. All non-financial WDNs of courses taken under this policy will not be recorded on the transcript but will be retained for internal use and accessible for other purposes as required.

5.5 Change of Grade

Final grades are posted after grades are approved. Once posted, final grades may only be changed through informal or formal appeals of grade processes (see Sections 3.3.4 and 3.3.5 of the *Academic Regulations of the University*).

Any instructor-initiated changes beyond the formal and informal appeal process must be completed by the instructor and approved by the faculty dean, or designate within 6 months of the last day of the exam period.

Any changes beyond this 6 month period must be initiated after consultation with the faculty dean or designate.

Unless an appeal has been initiated prior to the awarding of a degree, grades that have been used towards the awarding of a degree are not eligible for a change of grade.

Registration, Evaluation and Student Records

2.1 Registration

2.1.1 Permission to Register

To be eligible to register for an academic term, students must meet the following requirements:

1. Students new to Carleton must be formally admitted to a program OR Special student studies;
2. Returning students must be academically eligible to continue in their programs;
3. There must be no outstanding fees on the student account with the University;
4. The student must not have been suspended from the University for disciplinary reasons;
5. International students must be enrolled in or have received permission for exemption from the University Health Insurance Plan (UHIP).

Registration information for the fall and winter terms is emailed to newly admitted and returning students by May 1 (carleton.ca/registration). Information regarding summer term is available from the Registrar's Office by February 1 (carleton.ca/summer).

2.1.2 Full- and Part-time Study

When responding to a legitimate request from an external agency that has not supplied its own definition, the following definitions are used:

1. A *full-time undergraduate student* is one who is registered in at least 1.5 credits per academic term.
2. A *full course load* is the normal maximum course load as defined by the student's program and is evaluated term by term.

2.1.3 Course Selection and Registration

Course selection must be completed according to the requirements of the faculty or school and major department(s) in which the student is registering. Students should seek the advice of their program advisor, academic unit, or the Academic Advising Centre.

Students planning to undertake professional training beyond their undergraduate studies should ensure that their undergraduate programs meet the requirements for admission to, or registration in, their intended post-graduate program.

Students are not permitted to register in course timetable conflicts.

All course selection and course change activity within the published deadlines (adds, drops, change of section) is completed using Carleton Central at central.carleton.ca. These activities are limited by deadlines set out in the Academic Year section of this Calendar. It is the student's responsibility to understand and meet these deadlines.

2.1.4 Course Load

In most undergraduate programs, the normal course load is the equivalent of 2.5 credits in each of the fall and winter terms and the equivalent of 1.0 credit in each of the early and late periods of the summer term. In some programs, higher course loads may apply. Full-session courses are considered to have their credit weight evenly distributed over the terms. For example, a two-term 1.0 credit course is considered to contribute 0.5 credit to course load in each term.

A student is registered in a course overload if the student is registered in more credit equivalents per term than the normal load for their program. Students with an Overall CGPA of 7.00 who have completed a minimum of 4.0 credits at Carleton may choose to register in a course overload, to a maximum of 0.5 credit above the normal course load for their program in each of the fall and winter terms and in either the early or late period of the summer term. Students requiring permission for course overloads should contact the Registrar's Office.

2.1.5 Payment of Fees

A student is responsible for all tuition and other fees resulting from registration in any and all courses. The

student remains responsible for paying this debt whether or not the student attends or participates in the class or classes unless they withdraw within the published deadline set out in the Academic Year section of this calendar. Student Accounts may be viewed through Carleton Central and are the administrative responsibility of the Business Office.

For fee payment policies and deadlines, please visit the Student Accounts website.

2.1.6 Withdrawal

Students are responsible for formally withdrawing from a course or courses within the published deadlines. Ceasing to attend or participate in classes, or informing an instructor of intent to withdraw, does not constitute withdrawal. Withdrawal is completed by using Carleton Central at central.carleton.ca. The official date of withdrawal from the course(s) is the date on which the student successfully completes the necessary withdrawal action.

Students must withdraw from a course or courses on or before the appropriate last date for withdrawal as indicated in the Academic Year section of this Calendar. Withdrawal is not permitted after the published deadlines (noted in the Academic Year section of the Calendar each term). Students who withdraw after the full fee adjustment date in each term and by the academic withdrawal deadline will receive the grading notation of WDN on their transcript for the course(s) from which they withdraw. Please consult section 5.4 *Grading System* of this Calendar for more information.

Withdrawal activity may affect academic standing as prescribed by regulations governing the program, as well as status with the University (full-time or part-time). Consult the Registrar's Office for information and guidance. A student who withdraws from a course retains no academic credit for any part of that course. Withdrawing from a course may have serious consequences for scholarships, OSAP and other student financial support programs. Students are advised to consult the Awards Office for guidance.

Fee adjustments for students who are withdrawing from a course, or courses, will be calculated as of the date of successful completion of withdrawal via Carleton Central.

2.1.7 Deregistration

After due process, the University may deregister a student under the following circumstances:

1. if it is determined that the student does not meet all of the requirements for permission to register as set out in 2.1.1 above;
2. if it is determined that an applicant for admission has, in the process, provided false or incomplete information;
3. if the student does not have - or, when requested, present proof of - the course prerequisite(s);
4. if the student is registered in a course timetable conflict;

5. if it is determined that the student has not met the additional admission requirements, including satisfying the English language proficiency requirements of the University;
6. if it is determined that the student has not met the requirements of a conditional offer of admission;
7. if the student is not properly registered in the two terms of a full-session course.

2.1.8 Auditing Student

An auditing student is defined as a student who attends a course for interest and not for credit. Auditing students may typically only enrol in lecture or seminar courses. Formal registration is required but the student does not receive academic credit for the course. Permission to audit a course is required from the instructor and students may be required to satisfy all registration requirements. Permission will also be subject to capacity, and generally will not be provided until after courses commence. The student may attend classes but will not receive formal evaluation and/or grading on any submitted material. The student should discuss with the instructor the conditions and expectations under which an auditing student may be permitted to participate, including attendance and participation in class discussion and group work, and the submission of any material.

A request to change course registration from audit to credit status, or credit to audit, must be received by the Registrar's Office no later than the last day to add a course (of that duration) in the term. Students must satisfy all registration requirements to register in the course for academic credit. Students may not retroactively appeal to change the registration status from audit to credit, but may subsequently re-register in the course for credit. Graduate students are limited to a maximum of 1.0 course-weight audit registration per program.

2.1.9 Credit for Closely-related Courses

The University recognizes three distinct close relationships between courses.

Courses *preclude* credit for each other if they contain sufficient content in common that credit may not be earned for more than one of the courses. Should two or more courses be taken that preclude each other, only the most recent attempt will be available for program credit; the remaining earlier attempt(s) will be forfeited. Courses that preclude each other are not necessarily considered equivalent and may or may not be interchangeable in fulfilling degree requirements.

Courses are *equivalent* if the appropriate academic unit(s) consider the content of the courses to be sufficiently similar that either course may be used to fulfil a program requirement. Courses designated as equivalent to each other cannot both count for credit: credit is retained only for the most recent attempt. Examples of equivalent courses arise frequently in advanced standing and when new curriculum is introduced.

Two courses are *cross-listed* if they are the same course listed under two different subject codes, usually by two different academic units.

In all cases, credit will be given for only one of the courses in any equivalent, precluded or cross-listed pair. Students planning to enrol in such courses are advised to consult with their academic advisor in advance of registration to ensure that the course number under which they will be enrolling is appropriate to their program. Changes to resolve incorrect course selection due to equivalence, preclusion or cross-listing may not be made after the last day for course changes in the term (see the Academic Year section of this Calendar).

2.1.10 Two-term Courses

Certain courses may be taught over two academic terms. Students are registered in the same section of the course, and any linked components, in both terms. Changes cannot be made after the last day for course changes. These courses will be clearly identified in the registration information. The most common example is a 1.0-credit course taught over the fall and winter terms.

In place of a grade, the first term course will be assigned the notation *CTN*. The second term course will be assigned the final grade for the entire course. Credit will be given only for the complete course taught over two consecutive terms in corresponding sections. No partial credit will be given for part of the course.

2.1.11 Challenge for Credit

Challenge for credit is a Carleton University policy that enables students to gain undergraduate academic credit for their own learning and experience through work and related professional experience. It is not intended to overlap in scope with transfer of credits or admission with advanced standing.

This policy gives the student the opportunity to be examined on, and receive credit for, a recognized Carleton course without meeting the normal requirements of registration, attendance, and instruction. Students wishing to challenge for credit should inquire at the Registrar's Office and provide documentation to support the challenge. If the academic department is satisfied that the student has adequate experience and learning related to the course in question, it sets an appropriate examination. If the student is successful in the examination, the course is credited to his or her academic record.

Not all courses offered at the university are open to challenge for credit. Students must register in the course with the status of challenge and fees apply. Students seeking more information should contact the Registrar's Office.

Challenge for credit is available only to students formally admitted to and registered in a program leading to a degree, diploma or certificate. Special students are not eligible to apply for challenge for credit. Students may challenge for credit in a course only if they are *Eligible to Continue* (EC) in their program. A student may not challenge for credit more than once in the same course.

Students who challenge for credit are not permitted access to the course materials available to registered students.

A successful challenge for credit is denoted on the student's record by the notation CH. An unsuccessful challenge attempt is denoted by UCH. These notations have no impact on the CGPA calculation. Credits obtained by challenge may not be used to satisfy the residency requirement for the student's degree program or major discipline (see Section 2.2.2 or 3.4.1).

2.2 Credit Requirements and Limitations

2.2.1 Maximum Credits Below the 2000 Level

A student may count a maximum of 7.0 credits below the 2000 level toward fulfilment of graduation requirements.

Credits in excess of this limit will be set aside as Extra to the Degree (ETD), No Credit for the Degree (NCD) or Forfeit. This allows students to increase their CGPA by pushing out low grades below the 2000 level through replacement by higher grades at the same level.

2.2.2/3.4.1 Minimum Number of Residency Credits

To be eligible for graduation with a Carleton degree, certificate or diploma, each student must present a certain number of credits earned at Carleton University which have not been presented to fulfil any degree that has been previously awarded, including a degree or degrees at Carleton University. These are referred to as residency credits. Courses taken under the University of Ottawa Exchange Agreement do not count as residency credits.

All degree students must present a minimum of 5.0 residency credits at graduation, with the following exceptions:

The minimum number of residency credits for students in the Dual Degree, B.Eng., B.I.D, B.I.T. and B.A.S. Design program is half of the total number of credits required for the program. The residency requirement for B.A.S. students not in Design is the standard minimum of 5.0 residency credits at graduation.

To obtain a minor, a student must present at least 2.0 residency credits counting toward that minor.

To obtain an undergraduate certificate from Carleton University, students must present residency credits including a minimum of 4.0 credits taken at Carleton. The residency for certificates taken concurrently with a Carleton degree may be satisfied with credits used also to satisfy the degree residency requirement.

To obtain a post-baccalaureate diploma from Carleton University, students must present residency credits including a minimum of 3.0 credits taken at Carleton.

2.2.3/3.4.2 Advanced Credits

The credits presented at graduation that are credits completed at Carleton after admission, credits completed at Carleton within the last ten years for which advanced standing has been granted and credits completed as part of the University of Ottawa Exchange or another formal domestic or international Exchange, must include:

1. For Honours degrees, at least 3.0 credits in the major and at the 3000 level or above;
2. For Combined Honours degrees, at least 1.5 credits in each major and at the 3000 level or above;
3. For Major degrees, at least 3.0 credits in the major and at the 2000 level or above;
4. For 15.0 credit degrees, at least 3.0 credits at the 2000-level or above and, if applicable, in the major.

2.2.4 Transfer of Credit Prior to Admission

When a student is considered for admission, credit may be granted for individual courses successfully completed at other recognized post-secondary institutions, if:

1. the individual courses are relevant to a student's proposed program; and,
2. the appropriate academic department recommends such action.

Each application is evaluated on its own merits.

2.2.5 Transfer of Credit Subsequent to Admission

Letter of Permission

Students who have been formally admitted to a degree, certificate or diploma program may apply to take courses at other recognized post-secondary institutions on Letters of Permission and have the credits transferred to their Carleton programs. The following conditions must be met:

1. the student must have successfully completed at least 3.0 credits or have met the required program residency requirements at Carleton University;
2. the student must present the minimum CGPA requirements for graduation in their credential;
3. the student must obtain formal approval from the Registrar's Office prior to commencing each course.

Grades for successfully completed courses taken on Letters of Permission are transferred back to Carleton University as SAT (Satisfactory) and are not included in CGPA calculations. A course taken on Letter of Permission and failed is recorded with the grade UNS (Unsatisfactory). Failures are not included in CGPA calculations. A higher level of performance may be required in a course that would have contributed to any programmatic CGPA had the grade been transferred.

University of Ottawa Exchange Agreement

Degree Students may register to take courses at the University of Ottawa to be credited to their Carleton University degree. The following regulations apply:

1. Students with second-year standing and above must be *Eligible to Continue* (EC) in their most recent Academic Continuation Evaluation (ACE). If the student has not yet received an ACE decision, they must have an overall CGPA of 4.00.
2. For students with first-year standing, a maximum of two half-credit courses may be taken at the University of Ottawa that year.

3. Only courses to be credited as part of the current degree requirements at Carleton may be taken under the terms of the exchange.
4. The cumulative total number of credits taken at Carleton and counting towards the degree must be greater than the total number of credits taken and/or proposed to be taken at the University of Ottawa.
5. Courses taken on the Exchange Agreement shall not count as courses taken at Carleton under residency requirements.
6. Grades for courses taken on the Exchange Agreement will be reported on the Carleton transcript and will be included in the calculation of the CGPAs.
7. Approval by Carleton University does not guarantee registration at the University of Ottawa.

Students withdrawing from University of Ottawa exchange agreement courses must notify the University of Ottawa by the appropriate deadlines, or a failing grade of F may be recorded.

International Exchange Agreements

Undergraduate students may be eligible to take advantage of other exchange agreements with universities throughout the world. Unless otherwise specified in a specific exchange agreement or Senate-approved program regulation, the minimum academic requirement is second-year standing or higher, and a minimum overall CGPA of 7.00. For details on these exchanges, students should consult the International Student Services Office at least one year in advance of the proposed exchange. Grades for successfully completed courses taken on International Exchange will not be transferred. Successfully completed courses will be recorded as SAT (Satisfactory) and unsuccessfully completed courses will be recorded as UNS (Unsatisfactory). A higher level of performance may be required in a course that would have contributed to any programmatic CGPA had the grade been transferred. Such a course with a passing grade below the minimum required will not count towards the degree.

Dual Degree Agreement

Undergraduate students who have been formally admitted to a degree may be eligible to complete concurrent degrees from Carleton University and a partner institution under the Dual Degree Policy and program-specific articulation agreement provided the following regulations are met:

1. the student must be registered in a degree program and must be in good academic standing;
2. only courses to be credited as part of the current degree requirements at Carleton may be taken under the terms of the agreement;
3. courses taken under this agreement shall count as courses taken at Carleton under residency and advanced residency requirements (see 2.2.2/3.4.1 Minimum Number of Residency Credits and 2.2.3/3.4.2 Advanced Credits for more information);
4. grades for courses taken under this agreement will be reported on the Carleton transcript and will be included in the calculation of the CGPAs;

5. for details on the application process, students should consult with the appropriate Academic Department and the Registrar's Office.

2.2.6 Credit for ESL Courses

A student in a degree program may receive credit for previously completed English as a Second Language courses from the sequence ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905, with the following restrictions:

1. for students in degrees offered by the Faculty of Arts and Social Sciences or the Faculty of Public Affairs, up to 2.0 credits will be counted toward the degree;
2. for students in degrees offered by the Sprott School of Business, credit will be allowed only for ESLA 1900 (or ESLA 1905);
3. for students in degrees offered by the Faculty of Science, credit will be allowed only for ESLA 1900 (or ESLA 1905);
4. for students in the Bachelor of Engineering degree, no credits from this sequence will be counted toward the degree;
5. for students in the Bachelor of Industrial Design degree or the Bachelor of Architectural Studies degree, credit will be allowed only for ESLA 1900 (or ESLA 1905).

2.3 Student Records

2.3.1 Electronic Communication

The University provides each student with an email address and uses this as an official channel of communication with the student. A message sent to a student's University-provided email address constitutes an official communication with the student. Students are responsible for monitoring their University email address on a regular basis for as long as they are active in the academic affairs of the University. Requests from students regarding academic or administrative issues must be sent from the student's University-provided email address.

2.3.2 Student Record Information: Names and Addresses

Names

As the University is committed to the integrity of its student records, students are required to provide their complete, legal name on applications for admission or on personal data forms required for registration. Any requests to change a name, by means of alteration, deletion, substitution or addition, must be accompanied by appropriate supporting documentation. Upon making an application for graduation, students may be asked to provide proof of their legal name.

Addresses

Students are responsible for keeping their address and phone number information current. Students are required to maintain and update their address and phone number information through Carleton Central. Incorrect address information may delay the receipt of important academic information.

2.3.3 Records Retention Policy

The University's records retention policy provides for the destruction of physical student file folders and their contents after five years have elapsed since the last registration. Carleton University student academic history information is retained electronically in perpetuity. This policy applies to all students who are formally admitted and registered at the University. Students who go through the admissions process but do not accept an offer of admission will have their files destroyed at the end of the admissions cycle. Further information on the policy can be obtained by contacting the Registrar's Office.

2.3.4 Disclosure of Information

Carleton University is required to disclose personal information such as Ontario Education Numbers, student characteristics and educational outcomes to the Ministry of Training, Colleges and Universities under s. 15 of the Ministry of Training, Colleges and Universities Act, R.S.O. 1990, Chapter M. 19, as amended. The ministry collects this data for purposes such as planning, allocating and administering public funding to colleges, universities and other post-secondary educational and training institutions and to conduct research and analysis, including longitudinal studies, and statistical activities conducted by or on behalf of the ministry for purposes that relate to post-secondary education and training. Further information on how the Ministry of Training, Colleges and Universities uses this personal information is available on the ministry's website.

Further information on the collection and use of student-level enrolment-related data can be obtained from the Ministry of Training, Colleges and Universities website: ontario.ca/page/ministry-training-colleges-universities.

In accordance with the Freedom of Information and Protection of Privacy Act (FIPPA), all personal and academic information is considered confidential and will not be disclosed to a third party without the authorization of the person to whom the information pertains. In addition, the University will disclose at the time of collection of personal information the purpose for which that information will be used. For further information, see carleton.ca/privacy/policies

2.3.5 Use of Student Work in Program Assessment

All academic programs at Carleton University are reviewed cyclically under the mandate of the Ontario Universities Council on Quality Assurance. Several programs at Carleton University are also accredited by professional bodies and must undergo review for continuing accreditation.

Student records and student work such as portfolios, exams, assignments, and theses may be used in the review and evaluation of academic programs. Appropriate steps will be taken to ensure that information and material used in the evaluation of a program is kept confidential and that the processes comply with applicable privacy regulations. These reviews may involve bodies external to the University, for example, in complying with reviews

required by the government or professional accreditation bodies.

Student Responsibility

1.1 STUDENT RESPONSIBILITY

It is the student's responsibility to remain informed of all University rules and regulations as well as those pertaining to their program. Ignorance of the rules and regulations will not be accepted as grounds for waiving them.

Acceptance by the University of a registration does not exempt the student from any academic regulation or requirement.

The Senate of Carleton University may at any time require a student to withdraw from the University if his or her conduct, attendance, work, or progress is deemed unsatisfactory.

Further information:

- Carleton University disclaimer statement
- Academic Integrity Policy

1.2 The Comprehensive Regulations

1.2.1 The Senate of Carleton University may at any time require a student to withdraw from the University if the student's conduct, attendance, work or progress is deemed unsatisfactory.

1.2.2 Registration in courses does not exempt the student from any academic or University regulation.

Bachelor of Architectural Studies

Academic Continuation Evaluation for Bachelor of Architectural Studies

B.A.S. Conservation and Sustainability, B.A.S. Urbanism

Students in these programs are Honours students, and follow the continuation requirements governing Honours programs as described in Section 3.2.6 of the *Academic Regulations of the University*, with the additions and amendments listed below.

Students with 15.5 or more program credits completed, but who have a Major CGPA less than 6.00, will be required to leave the B.A.S. Conservation and Sustainability or B.A.S. Urbanism programs with the decision *Required to Withdraw for Two Terms (WT)*.

B.A.S. Design

B.A.S. Design students follow the continuation requirements governing the B.A.S. Design program as described in Section 3.2.6 of the *Academic Regulations of the University*, with the additions and amendments listed below.

All B.A.S. Programs

The following additions and amendments apply to all B.A.S. programs:

1. Whenever the student is assessed, the Core minimum is applied, as described in point 2 below.

2. The status *Eligible to Continue (EC)* requires a minimum grade of C- in each B.A.S. Core course.
3. The B.A.S. Core Courses consist of the following:

B.A.S. Design

ARCS 1005 [0.5]	Drawing
ARCS 1105 [1.0]	Studio 1
ARCS 2105 [1.5]	Studio 2
ARCS 2106 [1.5]	Studio 3
ARCS 3105 [1.5]	Studio 4
ARCS 3107 [1.0]	Studio 5
ARCS 4105 [1.5]	Comprehensive Studio
ARCS 4107 [1.0]	Option Studio

B.A.S. Urbanism

ARCS 1005 [0.5]	Drawing
ARCS 1105 [1.0]	Studio 1
ARCS 2303 [1.0]	Urbanism Studio 1: Fundamentals of Urbanism
ARCS 2304 [1.0]	Urbanism Studio 2: Urbanism in the Core
ARCS 3304 [1.0]	Urbanism Studio 3: Urbanism on the Periphery
ARCS 3306 [1.0]	Urbanism Studio 5: Global Perspectives
ARCS 4105 [1.5]	Comprehensive Studio

B.A.S. Conservation and Sustainability

ARCS 1005 [0.5]	Drawing
ARCS 1105 [1.0]	Studio 1
ARCS 2302 [1.0]	Conservation Studio 1
ARCS 3301 [1.0]	Conservation Studio 2
ARCS 3302 [1.0]	Conservation Studio 3
ARCS 4301 [1.5]	Conservation Studio 4
ARCC 3502 [0.5]	Introduction to Architectural Conservation

4. Students whose Academic Continuation Evaluation results in the status *Required to Withdraw for Two Terms (WT)* must leave the B.A.S. degree. Application for readmission to any B.A.S. program may be made after this time.

See the *Academic Regulations of the University* section of the Calendar for additional information.

Bachelor of Arts

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the

Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics,

Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by

demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Bachelor of Cognitive Science

Academic Regulations and Requirements for the Bachelor of Cognitive Science Degree

The regulations presented below apply to all Bachelor of Cognitive Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.Cog.Sc. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM (one 1.0-credit FYSM or two 0.5-credit FYSMs) and can only register in a FYSM while they have first-year standing in their B.Cog.Sc. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Change of Program Within the B.Cog.Sc. Degree

Students may transfer to a program within the B.Cog.Sc. degree. Applicants must normally be *Eligible to Continue* (EC) in their year level, in addition to meeting

the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*. Other applications for change of program will be considered on their merits; students may be admitted to the new program if they are *Eligible to Continue* (EC) or on *Academic Warning* (AW).

Applications to declare or change programs within the B.Cog.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration, or Specialization requires the student to be meeting the minimum CGPAs defined in Section 3.1.9 Changes of Program and Degree, in the *Academic Regulations of the University*.

Mention : français

Students registered in the B.Cog.Sc. may earn the notation *Mention : français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below.

Students in the B.Cog.Sc. Honours program must present:

1. 1.0 credit in the French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level taken in French. These credits may come from any of Philosophy, Psychology, Computer Science, Linguistics, Neuroscience, or Cognitive Science, without restriction.

Students in the B.Cog.Sc. program must present:

1. 1.0 credit in the French language;
2. 1.0 credit devoted to the history and culture of French Canada
3. 1.0 credit at the 2000- or 3000-level taken in French. This credit may come from any of Philosophy, Psychology, Computer Science, Linguistics, Neuroscience, or Cognitive Science, without restriction.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this

Calendar for information regarding study on Exchange or Letter of Permission.

Bachelor of Engineering Degree

Regulations

The regulations presented in this section apply to all Bachelor of Engineering programs.

Academic Continuation Evaluation

In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see Section 3.2 Academic Progression, in the *Academic Regulations of the University*), with the following additions and amendments:

1. In Engineering programs, all credits are included in the Major CGPA, making it identical to the Overall CGPA.
2. Students who are not assigned the status *Eligible to Continue* (EC) or *Academic Warning* (AW) will be required to leave the degree with either the status *Continue in Alternate* (CA) or *Dismissed from Program* (DP).

Graduation

Students in Engineering programs are covered by the common University regulations regarding graduation, with the following additions and amendments.

1. Students entering an Engineering program with Advanced Standing will receive transfer credit for at most ten of the credits required for their program.
2. To be eligible for graduation, the most recent grade in every course used to meet the requirements of the Bachelor of Engineering degree must be a passing grade.

Course Load

Regulations regarding Course Load and Overload can be found in the *Academic Regulations of the University* section of this Calendar. The normal course load in Engineering is defined as the number of credits required in the student's program for the current year status of the students. Since the programs in Engineering require more than 20.0 credits in total, the normal course load is more than 5.0 credits in some years of the program. Registration in more than this number of credits constitutes an overload.

Co-operative Education Programs

All Engineering programs are available with or without participation in the Co-operative Education option.

Year Status Prerequisites

Year Status in Engineering is used in some course prerequisites to limit access to only those students who have sufficient preparation. In particular, students will not have access to second, third or fourth year engineering, science or mathematics courses until they have achieved second year status. Similarly, to take some specific engineering, science and mathematics courses in third or fourth year, that year status must be achieved. For

additional information on prerequisites, see the individual course descriptions.

2nd year status: Students may not continue into 2000-level (or higher) engineering courses unless all the following requirements are met:

1. Successful completion of all ECOR 1040 series of courses with a minimum grade of C-;
2. Successful completion of MATH 1004, MATH 1104, CHEM 1101 (or CHEM 1001 and CHEM 1002), and PHYS 1004 (or PHYS 1001 and PHYS 1002);
3. Successful completion of all English as a Second Language Requirements, and any additional requirements as determined in the admission process.

Students may not continue into 3000-level (or higher) engineering courses until they complete all first-year requirements (including ECOR 1055, ECOR 1056, and ECOR 1057).

3rd year status: Students may not take courses with third-year status in Engineering as a prerequisite until successful completion of all first-year requirements and at least 4.0 credits from the second-year requirements of their current program.

4th year status: Students may not take courses with fourth-year status in Engineering as a prerequisite until successful completion of all second-year requirements and at least 3.5 credits from the third-year requirements of their current program.

Time Limit

The Bachelor of Engineering degree must be completed within eight calendar years of initial registration. Students who do not complete their program requirements within this limit will be given the status *Continue in Alternate* (CA).

Academic Appeals

The Engineering Committee on Admission and Studies handles all academic appeals.

Global and International Studies

B.G.In.S. Regulations

The regulations presented in this section apply to all Bachelor of Global and International Studies programs.

In addition to the program requirements and requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.G.In.S degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit of FYSM and can only register in a FYSM while they have first-year standing in their B.G.In.S program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as

a Second Language (ESLA) credit are not permitted to register in a FYSM.

Change of Specialization or Stream Within the B.G.In.S Degree

Students may change specialization or stream, or change from/to specialization or stream within the B.G.In.S. during the first or subsequent years of study if, upon entry to the new specialization or stream, they would be in good academic standing.

Minors

Students may apply to the Registrar's Office to be admitted to a minor during their first or subsequent years of study. Acceptance into a minor is normally subject to meeting the minimum CGPA requirements described in Section 3.1.9 of the *Academic Regulations of the University*, as well as any specific requirements of the intended minor as published in the relevant Calendar entry. B.G.In.S. Honours students may take a maximum of one minor. B.G.In.S. students may take a maximum of two minors.

Bachelor of Industrial Design

Regulations

The regulations presented in this section apply to all students in the Bachelor of Industrial Design program.

In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

Year Status and General Prerequisites

In the Bachelor of Industrial Design degree program, year status is defined as follows:

1st year: Admission to the program.

2nd year: Successful completion of IDES 1001, IDES 1301 and must not be deficient in any more than one of the other first year courses.

3rd year: Successful completion of IDES 2302 and all first and second year course requirements.

4th year: Successful completion of IDES 3302 and all third year course requirements.

Bachelor of Information Technology

Regulations

The regulations presented in this section apply to all students in the Bachelor of Information Technology program.

In addition to the program requirements, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

Joint Status

A student registered in the BIT degree has student status at both Algonquin College and Carleton University. At

Algonquin College the student is considered to be a post-secondary student; at Carleton University, the student is considered to be a degree student. Students registered in the BIT degree have access to all student services on the Carleton University campus and selected services on the Algonquin College campus.

Academic Regulations

The academic regulations governing the B.I.T. are the academic regulations of Carleton University. These regulations are defined in full in the Academic Regulations of the University section of this Calendar and apply to B.I.T. students on both campuses. Within the context of these regulations, B.I.T. is considered to be a non-honours degree, with a defined Major CGPA, and requires 20.0 credits. Courses with the designations BIT, NET or IMD are not normally transferable to Engineering, Computer Science, or other programs at Carleton University.

Students should note that there are significant differences between the academic regulations of Carleton University and Algonquin College, it is the regulations of Carleton University that apply in all cases as related both to course registrations and program rules.

At Carleton University, the chief examination officer of the BIT is the Dean of Engineering and Design. At Algonquin College, grades are approved by the Dean of the respective School.

Graduation

In order to graduate with the Bachelor of Information Technology Degree and the Advanced Diploma of Technology or Advanced Diploma of Applied Arts, the student must:

1. satisfy all requirements for the program of study;
2. be recommended for graduation by Bachelor of Information Technology Academic Council;
3. be approved for graduation by the Senate of Carleton University;
4. be approved for graduation by the Registrar of Algonquin College.

Discipline

The regulations, procedures and sanctions that apply to student discipline on either campus, both concerning Instructional Offences and Offences of Conduct are those of Carleton University and are described in the Carleton University Undergraduate Calendar. However, while students are on Algonquin's campus, they are expected to follow Algonquin's Directives regarding Student Misconduct and Use of Electronic Devices.

Bachelor of Science Degree

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in Science Continuation courses in each of the two majors;**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received fewer than 10.0 transfer credits; or,
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received 10.0 or more transfer credits.

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program within the B.Sc. Degree

To transfer to a program within the B.Sc. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.10 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrolment limitations, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is meeting the minimum CGPAs described in Section 3.1.9 of the *Academic Regulations of the University*, as well as being subject to any specific requirements of the intended Minor,

Concentration, or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of Experimental Science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)
BIOL (Biology) Biochemistry students may use BIOL 2005 only as a free elective.

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business

MATH 1401 [0.5] Elementary Mathematics for Economics I

MATH 1402 [0.5] Elementary Mathematics for Economics II

Post-Baccalaureate Diploma

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Co-operative Education

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job.

It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Co-op Continuation Requirements by Program

B.A. Honours Anthropology

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the B.A. Honours Anthropology Program;
2. Have a minimum overall CGPA of 7.0 and major CGPA of 8.0 in the first two years of academic study;
3. Successfully completed, by the start-date of the first work term, the required first-year courses, second-year courses, and any two of ANTH 3005, ANTH 3007 or ANTH 3008.

Students in B.A. Honours Anthropology must successfully complete three (3) work terms to obtain the Co-op designation.

Co-op Work Term Course: ANTH 3999

Work/Study Pattern:

B.A. Honours Environmental Studies

- Maintain full-time status in each study term (2.0 credits);

- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the B.A. Honours Environmental Studies program;
2. Obtained and maintained an overall minimum CGPA of 9.5 and a minimum major CGPA of 9.5;
3. Have obtained third-year standing;
4. Successfully completed, by the start date of the first work term:
 - a. the required second-year methods courses in their program (ENST 2005, ENST 2006)
 - b. the required field course in their program (ENST 3900)
5. Be registered as a full-time student.

B.A. Honours Environmental Studies students must successfully complete three (3) work terms to obtain the Co-op designation.

B.Sc. Honours Interdisciplinary Science and Practice

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student (2.0 credits) in the Bachelor of Science Honours in Interdisciplinary Science and Practice;
2. Successfully completed, by the start date of the first work term, the following 2.0 credits: ISAP 3001, ISAP 3002, ISAP 3003, ISAP 3004.
3. Have obtained third-year standing;
4. Obtained and maintained a major CGPA of 9.0 or higher and an overall CGPA of 7.5 or higher in the first three years of academic study;

B.Sc. Honours Interdisciplinary Science and Practice students must successfully complete three (3) work terms to obtain the co-op designation.

B.Sc. Honours Neuroscience and Mental Health, Combined Honours Neuroscience and Biology

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

B.Sc. Honours Neuroscience and Mental Health and B.Sc. Combined Honours Neuroscience and Biology students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course for Neuroscience and Mental Health: NEUR 3999

Work Term Course for Combined Honours Neuroscience and Biology: NEUR 3999, BIOL 3999

Bachelor of Mathematics Honours, Combined B.Math/M.Sc.

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to:

Students in any of these programs (excluding Biostatistics) must satisfy the following:

1. Completion of 5.0 or more credits (at least 2.0 in Mathematics/Statistics) at Carleton in any Honours program (excluding Biostatistics), or the Combined B.Math./M.Sc. ("Fast Track") programs, offered by the School of Mathematics and Statistics
2. A major CGPA of 8.00 or higher and an overall CGPA of 6.50 or higher

Students in the B.Math. (Combined Honours) Biostatistics program must satisfy the following:

1. Full-time student in the B.Math. Biostatistics program;
2. An overall CGPA of 8.00 or higher;
3. Successfully completed all required first year courses before beginning the first work term
4. Students must be eligible for third-year standing when they return for a study term after their first work term.

Students in these programs must successfully complete four (4) work terms to obtain the co-op designation.

Enriched Support Program/ Indigenous Enriched Support Program

General Information

The Enriched Support Program (ESP) is operated by the Centre for Initiatives in Education (CIE). The ESP is a program for students whose academic potential has not been realized in high school and who do not meet university admission requirements. The program gives these students the opportunity to demonstrate their abilities within the context of university-level courses. ESP students attend three credits with regularly admitted students and are graded according to the same standards. ESP students also enrol in mandatory, content-related workshops designed to provide the academic support these students need to make the transition to university-level work.

The Indigenous Enriched Support Program (IESP) is operated by the Centre for Indigenous Support and Community Engagement (CISCE), and is designed for First Nations (status & non-status), Métis, and Inuit learners who wish to pursue post-secondary education. IESP is ideal for students who do not meet the full criteria for a degree program, are unsure about what program they wish to pursue, who are returning to school after some time away, or are simply looking for additional support during the transition to post-secondary education.

General Information

The Indigenous Enriched Support Program (IESP) is designed for First Nations (status & non-status), Métis, and Inuit learners who wish to pursue post-secondary education. Students attend three credits with regularly-admitted students and are graded according to the same standards, while benefiting from a supportive environment of peer mentors, academic coaches, academic advising, and personalized seminars. Upon completion of the program, students will qualify and be supported in the process of applying for a degree program.

The Indigenous Enriched Support Program is ideal for students who do not meet the full criteria for a degree program, are unsure about what program they wish to pursue, who are returning to school after some time away, or are simply looking for additional support during the transition to post-secondary education.

All currently registered and prospective IESP students (see Student Classification, below) should contact the CISCE for application and registration information.

Admission to the IESP

Students wishing to apply for admission to the IESP should contact the CISCE directly. For details and an application form, visit <https://carleton.ca/indigenous/cisce/iesp/registration/>.

IESP Student Classification

IESP students fall under the Special Student designation at Carleton University. Special students are those who

have not been admitted to a degree program but who are taking degree-credit courses to qualify for admission.

IESP Students

Under the Special Student designation, IESP students enrol in the same courses and meet the same course requirements as students in degree programs. IESP students choose their credits from a specific selection of IESP-supported courses.

Registrarial services for IESP students are provided by the Centre for Indigenous Support and Community Engagement, and the Registrar's Office. IESP students are also encouraged to consult the appropriate Faculty regulations for information about degree programs they intend to apply for upon successful completion of the IESP.

Proficiency in English

Since the instructional language of the University is English, applicants to the IESP must be able to understand and be understood in both written and oral English. See Section 4, English Language Proficiency in the *General Admissions Requirements and Procedures* for the statement of policy governing applicants whose first language is not English.

Course Load and Course Selection

Normally, IESP students may enrol in a maximum of 3.0 credits per academic session (fall/winter) and no more than the equivalent of 1.5 credits (e.g. three half-credit courses) in any one term. Course selection is limited to IESP-designated courses, many of which emphasize reading and writing skills, and are selected in consultation with an IESP academic advisor. For two of these courses, students also attend regular weekly small-group seminars, where they are given extra support and guidance in dealing with the course material. These seminars are designed to develop the skills and strategies necessary for university-level critical thinking, analysis, reading, and writing.

Students wishing to be admitted to a degree upon completion of the IESP are advised to note the specific Faculty requirements for course selection and the admission requirements as they are listed in this Calendar. Individuals seeking admission who need further information should inquire at Admissions Services or consult an IESP academic advisor.

Course Change and Course Withdrawal

Students must contact an IESP academic advisor for assistance with course changes and withdrawals.

Deferred Final Examinations

Please consult Section 4.3 of the *Academic Regulations of the University* in this Calendar.

Financial Assistance

IESP students interested in obtaining financial assistance are advised to contact the Student Awards Office at carleton.ca/awards.

Admission to a Degree Program upon Completion of IESP

IESP students are subject to the same admission requirements as Special Students. These requirements are outlined in Section 15. Special Studies (Non-Degree) in the *General Admission Requirements and Procedures*.

General Information

The Enriched Support Program (ESP) is operated by the Centre for Initiatives in Education (CIE). The ESP is a program for students whose academic potential has not been realized in high school and who do not meet university admission requirements. The program gives these students the opportunity to demonstrate their abilities within the context of university-level courses. ESP students attend three credits with regularly admitted students and are graded according to the same standards. ESP students also enrol in mandatory, content-related workshops designed to provide the academic support these students need to make the transition to university-level work.

All currently registered and prospective ESP students (see Student Classification, below) should contact the CIE for application and registration information.

Admission to the ESP

Students wishing to apply for admission to the ESP should contact the CIE directly. For details and an application form, visit: carleton.ca/esp

ESP Student Classification: ESP students fall under the Special Student designation at Carleton University. Special students are those who have not been admitted to a degree program but who are taking degree-credit courses to qualify for admission.

ESP Students

Under the Special Student designation, ESP students enrol in the same courses and meet the same course requirements as students in degree programs. ESP students choose their credits from a specific selection of ESP supported courses.

Registrarial services for ESP students are provided by the Centre for Initiatives in Education and the Registrar's Office. ESP students are also encouraged to consult the appropriate Faculty regulations for information about degree programs they intend to apply for upon successful completion of the ESP.

Proficiency in English

Since the instructional language of the University is English, applicants to the ESP must be able to understand and be understood in both written and oral English. See Section 4. English Language Proficiency, in the *General Admissions Requirements and Procedures* for the statement of policy governing applicants whose first language is not English.

Course Load

Normally, ESP students may enrol in a maximum of 3.0 credits per academic session (fall/winter) and no more than the equivalent of 1.5 credits (e.g. three half-

credit courses) in any one term. Course selection is limited to ESP-designated courses, many of which emphasize reading and writing skills. For two of these courses, students also attend regular weekly small-group workshops, where they are given extra support and guidance in dealing with the course material. The workshops are designed to develop the skills and strategies necessary for university-level critical thinking, analysis, reading and writing.

ESP-Supported Courses

ESP students wishing to be admitted eventually to a degree program are advised to note the specific Faculty requirements for course selection and the admission requirements as they are listed in this Calendar. Individuals seeking admission who need further information should inquire at Admissions Services or the ESP Student Advisory Office.

Course Change and Course Withdrawal

Students must contact an ESP Advisor for assistance with course changes and withdrawals.

Deferred Final Examinations

Please consult Section 4.3 of the *Academic Regulations of the University* in this Calendar.

Financial Assistance

ESP students interested in obtaining financial assistance are advised to contact the Student Awards Office at carleton.ca/awards.

Admission to a Degree Program upon Completion of ESP

ESP students are subject to the same admission requirements as Special Students. These requirements are outlined in Section 15. Special Studies (Non-Degree) in the *General Admission Requirements and Procedures*.

Indigenous Enriched Support Program

General Information

The Indigenous Enriched Support Program (IESP) is designed for First Nations (status & non-status), Métis, and Inuit learners who wish to pursue post-secondary education. Students attend three credits with regularly-admitted students and are graded according to the same standards, while benefiting from a supportive environment of peer mentors, academic coaches, academic advising, and personalized seminars. Upon completion of the program, students will qualify and be supported in the process of applying for a degree program.

The Indigenous Enriched Support Program is ideal for students who do not meet the full criteria for a degree program, are unsure about what program they wish to pursue, who are returning to school after some time away, or are simply looking for additional support during the transition to post-secondary education.

All currently registered and prospective IESP students (see Student Classification, below) should contact the CII for application and registration information.

Admission to the IESP

Students wishing to apply for admission to the IESP should contact the CII directly. For details and an application form, visit carleton.ca/indigenous/cii/iesp/registration/.

IESP Student Classification

IESP students fall under the Special Student designation at Carleton University. Special students are those who have not been admitted to a degree program but who are taking degree-credit courses to qualify for admission.

IESP Students

Under the Special Student designation, IESP students enrol in the same courses and meet the same course requirements as students in degree programs. IESP students choose their credits from a specific selection of IESP-supported courses.

Registrarial services for IESP students are provided by the Centre for Indigenous Initiatives and the Registrar's Office. IESP students are also encouraged to consult the appropriate Faculty regulations for information about degree programs they intend to apply for upon successful completion of the IESP.

Proficiency in English

Since the instructional language of the University is English, applicants to the IESP must be able to understand and be understood in both written and oral English. See Section 4, English Language Proficiency in the *General Admissions Requirements and Procedures* for the statement of policy governing applicants whose first language is not English.

Course Load and Course Selection

Normally, IESP students may enrol in a maximum of 3.0 credits per academic session (fall/winter) and no more than the equivalent of 1.5 credits (e.g. three half-credit courses) in any one term. Course selection is limited to IESP-designated courses, many of which emphasize reading and writing skills, and are selected in consultation with an IESP academic advisor. For two of these courses, students also attend regular weekly small-group seminars, where they are given extra support and guidance in dealing with the course material. These seminars are designed to develop the skills and strategies necessary for university-level critical thinking, analysis, reading, and writing.

Students wishing to be admitted to a degree upon completion of the IESP are advised to note the specific Faculty requirements for course selection and the admission requirements as they are listed in this Calendar. Individuals seeking admission who need further information should inquire at Admissions Services or consult an IESP academic advisor.

Course Change and Course Withdrawal

Students must contact an IESP academic advisor for assistance with course changes and withdrawals.

Deferred Final Examinations

Please consult Section 4.3 of the *Academic Regulations of the University* in this Calendar.

Financial Assistance

IESP students interested in obtaining financial assistance are advised to contact the Student Awards Office at carleton.ca/awards.

Admission to a Degree Program upon Completion of IESP

IESP students are subject to the same admission requirements as Special Students. These requirements are outlined in Section 15. Special Studies (Non-Degree) in the *General Admission Requirements and Procedures*.

Admission Regulations

General Admissions Requirements and Procedures

1. General Admission Requirements

Persons wishing to follow programs of study leading to a degree or diploma or certificate must be formally admitted to the University.

Persons wishing to register in credit courses without having been formally admitted to the University may do so as Special students. See 15. *Special Studies (Non-Degree)* below, for more information.

An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca/requirements for further details.

Applicants should note that meeting the minimum requirements of a program does not guarantee admission to the University. Applications from students whose grades do not meet the requirements in a given year or program will be considered individually. Students in this category may be asked to provide additional information to assist the University in determining where there are special circumstances that would permit their admission to Carleton.

This publication contains admission requirements for the 2021-22 academic year only. Students wishing to apply for 2022-23 should contact Admissions Services for information on requirements and procedures.

Individuals who are in any doubt about their eligibility for admission are encouraged to inquire at Admissions Services.

2. Accessibility for Students with Disabilities

Carleton University is committed to making reasonable accommodation to individuals with disabilities, and actively encourages application from students with disabilities. This commitment includes gaining an understanding of the circumstances of an individual's disabilities and adjusting services to all academically qualified individuals to compete on an equitable basis.

Students are encouraged to contact the Paul Menton Centre for Students with Disabilities for further information to enable them to assess the extent to which specialized services will be available.

Academic accessibility is intrinsically linked to physical accessibility. Carleton is committed to continually monitoring and upgrading physical accessibility to whatever extent is possible.

A Senate standing committee monitors the needs and problems of students with disabilities in conjunction with

their academic problems and makes recommendation for improvements.

3. Multiple Undergraduate Programs

Students who already possess an undergraduate degree, certificate, or diploma from another university or from Carleton University may apply for admission to a second undergraduate program. To be eligible for graduation, there are a minimum number of Carleton credits that must be successfully completed. Please see Section 2.2.2 Minimum Number of Residency Credits and Section 2.2.3 Advanced Credits in the *Academic Regulations of the University*.

4. English Language Proficiency

The language of instruction at Carleton University is English. For admission, students will need to demonstrate that their knowledge and use of English are strong enough for studies in an English language university. Students can do this by:

Demonstrating that they have studied full-time for the last three years in a high school, college, or university in Canada, the United States, the United Kingdom, or any other country in which the primary language is English and where the language of instruction in the relevant educational institution was exclusively English.

Students choosing this option should note the following:

- Time spent in English as a Second Language (ESL) courses will not be counted towards meeting these requirements.
- Language requirements will not be waived based on letters written by educators, or as a result of completing senior-level high school English courses.

OR by submitting an English as a Second Language (ESL) test result.

Option 1

Admission with no English as a Second Language Requirements (ESLR)

Students who demonstrate English language proficiency by submitting transcripts that meet the requirements above, or who submit any of the scores shown in Table 1 below, may be eligible for an offer of admission with no further ESL requirements, and may begin full-time studies in an undergraduate degree, or as a Special student.

Table 1: minimum test scores required for admission with no ESLR

English Language Test	Score	Type of Offer
Cambridge English Assessment	176 or above C1 Advanced or C2 Proficiency, with minimum 169 in each component	Offer to undergraduate degree program or Special studies with no ESLR. May begin full-time studies.

Canadian Academic English Language Assessment (CAEL)	70 or above overall, with minimum score of 60 in each band	Offer to undergraduate degree program or Special studies with no ESLR. May begin full-time studies.
IELTS (Academic)	6.5 with minimum 6.0 in each band	Offer to undergraduate degree program or Special studies with no ESLR. May begin full-time studies.
Internet-based (iBT) TOEFL	86 or above, with minimum score of 22 in writing and speaking, and minimum 20 in reading and listening	Offer to undergraduate degree program or Special studies with no ESLR. May begin full-time studies.
Pearson Test of English (PTE) Academic	60 or above, with minimum score of 60 in each Communicative Skill	Offer to undergraduate degree program or Special studies with no ESLR. May begin full-time studies.

Applicants whose first language is French must present transcripts to indicate that they have taken four years of *anglais* (English) in a Canadian secondary school in order to be admitted without an English as a Second Language Requirement.

**Option 2
Admission with English as a Second Language Requirements (ESLR) — Foundation ESL courses required**

Applicants who do not meet the requirements stated in Option 1, and who submit official English language test scores within the ranges listed in Table 2 below, may be offered admission with an English as a Second Language Requirement (ESLR). These applicants may be offered admission to an undergraduate degree program or as a Special student. When they first start their program, these students will be required to take Carleton's ESL Foundation courses along with a limited number of courses from their degree program. This admission with an ESLR allows students to earn academic credits from degree courses taken while completing the English language requirements.

Table 2: minimum test scores required for admission with an ESLR

English Language Test	Score	Type of Offer
Canadian Academic English Language Assessment (CAEL)	40-69 overall, with minimum score of 30 in each band, and a minimum average of 40 over writing, reading, and listening	Offer to undergraduate degree program or Special studies with ESLR. Must complete Foundation ESL courses.
IELTS (Academic)	5.0-6.4, with a minimum score of 4.5 in each band, and a minimum average of 5.0 in writing, reading, and listening	Offer to undergraduate degree program or Special studies with ESLR. Must complete Foundation ESL courses.
Internet-based (iBT) TOEFL	61-85 overall, with a minimum score of 15 in each section	Offer to undergraduate degree program or Special studies with ESLR. Must complete Foundation ESL courses.

Please note that students beginning their studies with an English Language Requirement (ESLR) are not eligible for admission to the following programs:

- Architectural Studies
- Health Sciences
- Humanities
- Industrial Design
- Information Technology
- International Business
- Journalism
- Journalism and Humanities
- Media Production and Design
- Public Affairs and Policy Management
- Post-Baccalaureate Diplomas (all)

Students admitted with an ESLR are required to:

1. Complete the ESLR within one calendar year of their first enrolment in credit courses.
 - To satisfy the ESLR, students must earn a minimum grade of B- in ESLA 1900 Advanced English as a Second Language for Academic Purposes.
 - Students can satisfy the ESLR at any time by submitting an approved English Language assessment result that meets the levels stated in Table 1 above.
 - In exceptional circumstances, permission to continue registration in ESLA courses after the one calendar year deadline has passed (an ESLR extension) will be granted by the University's School of Linguistics and Language Studies (SLaLS). Registration will be denied to students

who have not satisfied the ESLR if they do not show continuous registration, attendance, and progress in their required ESLA courses (as determined by SLaLS).

2. Register and attend the required credit ESLA course(s) every term until the ESLR has been satisfied.
 - ESLA registration must start in the student's first term of study.
 - ESLA registration is required in order to register in any other course(s).
 - Students who have not registered appropriately will be deregistered from all credit courses. This includes those students registered in credit courses but not the required ESLA course registration, those registered in more non-ESLA credits than their test results permit, those registered with expired ESLR placements, and those whose ESLA period has not been extended.
 - Students who do not achieve the minimum final grade required to advance to the next level of an ESLA course after three attempts at one level will not be permitted to register in any credit courses for one calendar year. Such students must take a SLaLS-approved English language proficiency test and place into a higher ESLA course level before returning to their studies.

Students considering a break in study or withdrawing from their ESLA course should contact SLaLS to discuss their ESLR standing. After a break in studies or lack of completion of an ESLA course for three terms or longer, students may be required to re-take a SLaLS-approved English language proficiency test, and must receive permission to continue registration in ESLA courses before returning to their studies.

For further information regarding English language proficiency requirements and admission, contact Admissions Services (undergraduate degree applicants) or the Registrar's Office (special student applicants). For information on English as a Second Language (ESLA) credit courses, placement, and ESLR standing, contact the School of Linguistics and Language Studies (SLaLS).

5. Dates of Entry

Students may be admitted to register in January, May and July as well as in September. (See the Academic Year section of this Calendar.)

6. Concurrent Studies

The Concurrent Studies program enables secondary school students to begin university-level study while completing any outstanding requirements for their high school diploma. The availability of the Concurrent Studies program will be of particular interest to those students in semestered schools who are not taking a full load of high school credits in their final year of study. Students in non-semestered high schools may also wish to take advantage of this opportunity in their final year if they are not taking a full credit load.

Students who wish to take advantage of the Concurrent Studies program will register as Special students.

Special students may normally enrol in a maximum of 1.0 credit in each of the fall term, winter term and summer session. With admission to a degree program, program requirements for a degree will be reduced by the number of credits successfully completed as part of the Concurrent Studies program that are appropriate to the degree. Other universities normally grant credit on admission for courses taken at Carleton as a Special student.

7. High School Applicants

Ontario

The minimum admission requirements to be considered are:

1. the completion of the OSSD; and
2. six 4U/M *courses*, including specific program prerequisites.

The overall admission average and mix of 4U/M courses required is dependent upon the degree or program for which the student is applying. Detailed admission requirements for each undergraduate degree program can be found in the "Summary of Admission Requirements" following this section.

Holding the minimum admission requirements only establishes eligibility for consideration to Carleton University programs. Admission averages and required marks will vary from year to year and will be determined by the availability of places and by the number of applicants. The overall admission average may be higher than the stated minimum requirements.

Students who feel that their high school grade average does not reflect their potential are encouraged to apply to the Enriched Support Program. For more information, see the Enriched Support Program information following the Admissions section of this Calendar.

Quebec

Students from the Province of Québec may apply for admission into first year either upon completion of the Grade 12 program or after completing work towards the Collegial diploma. (See the information on Québec CEGEPs in this section.)

Other Canadian Provinces

Applicants to degree programs at Carleton must normally be admissible to a university in their own province.

The United States

1. Applicants who have completed Grade 12 in the United States or in a U.S. overseas school will be considered for admission to first year. The Grade 12 program must include at least four academic units, and a minimum of 16 academic units must have been completed in Grades 9 to 12.
2. An average of B- or higher is required for admission. For Honours programs and some limited enrolment programs, a higher average may be required.
3. Applicants are encouraged to submit SAT or ACT scores to supplement their application for admission to the University.

Advanced Placement (AP)

Applicants who have completed AP exams with a minimum grade of 4 will be granted appropriate advanced standing credit, subject to the discretion of the appropriate Faculty, to a maximum of 3.0 credits.

International Baccalaureate (IB)

Students applying on the basis of having completed the IB diploma must possess a minimum score of 28 points. Applicants should have completed the diploma with six subjects: three higher level (HL) and three subsidiary level (SL). Students should also include the specific subject requirements for the program for which they are applying among their higher level and subsidiary level subjects. Usually we expect prerequisite courses to be at the higher level. Students with a minimum score of 28 may be given transfer credit for higher level courses with grades of 5 or higher, to a maximum of 3.0 credits.

Other High School Systems

Applicants who have completed high school diploma requirements in other than Canadian or American high school systems will be considered for admission at the appropriate level of entry. Individuals from foreign systems of education will be considered for admission to first year only if they are able to present sufficient evidence that their secondary school background is appropriate to this level of entry with respect to academic content and level of achievement.

Generally speaking, such applicants must meet requirements for admission to a university in their own country.

8. Special Requirements for Overseas Students

Translation of Documents

The University must be in receipt of all official documents by May 1. Applicants from non-English speaking countries must arrange to submit certified English translations of their academic documents.

9. Transfers from Post-Secondary Institutions: General Information

An applicant who is attending or has attended institutions of post-secondary education must present:

1. Official certified transcripts of academic records mailed directly to this University by the registrars of the institutions attended, and
2. Applicants who have taken only one year of study past the secondary school level may be required to submit an official transcript of high school marks mailed directly to Carleton University by the high school concerned.

Credit may be received for courses taken at other recognized institutions if:

1. Courses are relevant to a student's proposed program, and
2. The appropriate department recommends that such courses be credited to a student's program. Each application will be evaluated on its own merits.

Please note that performance indicators other than letter or numeric grades are not acceptable for transfer credit

(i.e. PSD [passed], CR [credit], EXP [exempt], EXM [exam], etc.).

To be eligible for graduation, students transferring from other post-secondary institutions must complete a minimum number of Carleton credits. Please see Section 2.2.2 Minimum Number of Residency Credits and Section 2.2.3 Advanced Credits in the *Academic Regulations of the University*.

10. Transfers from Post-Secondary Institutions: Universities

Students applying from other recognized universities may be admitted if they are eligible to continue at the institution from which they wish to transfer and if they meet the requirements.

Carleton University subscribes to the following General Policy on the Transfer of Course Credits, as adopted by the Council of Ontario Universities:

Acceptance of transfer credits among Ontario universities shall be based on the recognition that, while learning experiences may differ in a variety of ways, their substance may be essentially equivalent in terms of their content and rigour. Insofar as possible, acceptance of transfer should allow for the maximum recognition of previous learning experience in university-level courses.

Subject to degree, grade and program requirements, any course offered for credit by one university shall be accepted for credit by another Ontario university when there is an essential equivalency in course content.

Please contact Carleton's Admissions Services for information about transferring specific courses.

Students who apply for admission to an undergraduate degree program who already possess an undergraduate degree from either Carleton or another university, are required to complete a minimum number of Carleton credits. (See Sections 2.2.2 and 2.2.3 of the *Academic Regulations of the University*.)

11. Transfers from Post-Secondary Institutions: Ontario Colleges

Students from Ontario Colleges who have successfully completed a minimum of two terms in a two- or three-year diploma program or a four-year Applied Degree program and who present a minimum 3.0 grade point average (B standing in the Carleton University grading system) will be considered for admission to a degree program.

12. Transfers from Quebec CEGEPs

Admission Requirements

1. A CEGEP applicant who has completed successfully 12 "General" or pre-university courses will be considered for admission to first year, without advanced standing. The overall average required is dependent upon the degree or program for which the student is applying.
2. CEGEP applicants who have successfully completed more than 12 "General" or pre-university courses will be considered for admission with advanced standing based on the number of courses in excess of 12 and

not to exceed the equivalent in credits of the first year of the program to which they are admitted. The overall average required and the advanced standing credits are dependent upon the degree or program for which the student is applying.

All applicants should note that failures in their CEGEP studies can adversely affect their admissibility.

Information on prerequisite subjects and detailed admission requirements can be found at admissions.carleton.ca.

13. Provisional Admission

Some transfer applicants (those who have attended a Canadian university, an Ontario College, or a Quebec CEGEP, and have demonstrated better than average academic achievement) will automatically be considered for provisional admission. The provisional approval will be given prior to the completion of the student's current year, and will provide a detailed statement of the credits to be granted upon transfer. Admission will be confirmed upon presentation of a final transcript that indicates the successful completion of all courses with suitable standing.

14. Mature Applicants

Mature Applicants are persons who satisfy all of the following requirements:

1. are Canadian citizens or permanent residents of Canada, and
2. do not meet the normal admission requirements as published in this Calendar, and
3. have been away from full-time studies for a minimum of two calendar years, and
4. have not attended a university or college as full-time students.

Applicants who meet the definition of Mature Applicant will be considered for admission to programs in the Faculty of Arts and Social Sciences or in the Faculty of Public Affairs, or to a degree program in Engineering, Architecture, Computer Science, Humanities, Industrial Design, Mathematics, Science, Information Technology, or Social Work. Mature Applicants are not usually considered for admission to programs in Business, Journalism, Music, or Public Affairs and Policy Management. If, however, at the end of their first year in another degree program, they meet the requirements for one of the above-mentioned programs, they can apply to transfer to that program.

These applicants are required to submit biographical information and a transcript of their most recent studies.

Mature Applicants may be admitted to the first year of an undergraduate degree program if they have:

1. secondary school graduation in an academic program (the overall average required is dependent upon the degree or program for which the student is applying), or
2. completed, as a Special student at Carleton University, one appropriate full credit (or two half-credits) with C-

or higher standing in the first attempt (or in both of the first two half-credit course attempts), or

3. other academic or work experience which, in the opinion of the admissions committee, indicates a likelihood of success at university.

Note: Persons applying for admission as Mature Applicants without the prerequisites will not normally be considered until the prerequisite subjects have been successfully completed. The prerequisite subjects (4U or equivalents) are found under Prerequisite Subjects (Section 18). All applications are reviewed on an individual basis.

Admission to the Faculty of Arts and Social Sciences, or to the Faculty of Public Affairs

Mature Applicants will normally be admitted to the first year of a B.A. or B.Co.M.S. or B.G.In.S. or B.MPD or B.Econ degree program in the Faculties of Arts and Social Sciences or Public Affairs, or the first year of the undergraduate degree program in Humanities or Social Work.

Admission to the Schools of Architecture, Computer Science, and Industrial Design

Mature Applicants can be considered for admission to the first year in the Schools of Architecture, Computer Science, or Industrial Design. The required prerequisite subjects (4U or equivalents) for Architectural Studies, Computer Science, and for Industrial Design are found under Prerequisite Subjects at the end of this section.

Persons applying for admission to these undergraduate degree programs without the prerequisites will not normally be considered until the prerequisite subjects have been successfully completed. All applications are reviewed on an individual basis.

Admission to the Faculty of Engineering

Mature Applicants can be considered for admission to first year of a degree program in the Faculty of Engineering. The required prerequisite subjects (4U or equivalent) for Engineering are found under Prerequisite Subjects at the end of this section. A grade of 60 percent or higher is required in each prerequisite subject.

Persons applying for admission to this undergraduate degree program without the necessary prerequisites will not normally be considered until the prerequisite subjects have been successfully completed. All applications are reviewed on an individual basis.

Admission to the Faculty of Science

Mature Applicants can be considered for admission to the first year of a program in the Faculty of Science. The required prerequisite subjects (4U or equivalent) for Science are found under Prerequisite Subjects at the end of this section.

Persons applying for admission to this undergraduate degree program without the necessary prerequisites will not normally be considered until the prerequisite subjects have been successfully completed. All applications are reviewed on an individual basis.

Mature Applicants are not usually considered for admission to Honours programs in Science. If, however, at the end of the first year of a 15.0 credit program, they meet the requirements for one of the Honours programs, they can apply to transfer to that program.

Admission to the Bachelor of Information Technology

Mature Applicants can be considered for admission to first year of the Bachelor of Information Technology. The required prerequisite subjects (4U or equivalent) for BIT are found under Prerequisite Subjects at the end of this section.

Special Students Wishing to Apply as Mature Applicants

Special students who meet all of the criteria for Mature Applicants can be considered for admission as Mature Applicants if:

1. they have completed, as a Special student, at Carleton University, one appropriate full credit (or two half-credits) with a C- or higher standing in the first attempt (or in both of the first two half-credit attempts), and
2. they are eligible to continue as Special students at Carleton University, and
3. they have completed any additional degree program prerequisite subjects that may be required for a particular program.

Mature Applicants who, as Special students at Carleton University, have not obtained a grade of C- or higher in one full credit (or two half-credits), in the first attempt (or in both of the first two half-credit attempts), can attempt to qualify for subsequent admission through additional courses as a Special student at the University.

Individuals seeking admission under the Mature Applicant status who need further information should inquire at Admissions Services.

15. Special Studies (Non-Degree)

Special students may be admitted to a degree program if their academic achievement at Carleton University indicates a reasonable probability of future academic success. Previous post-secondary studies at other institutions will also be taken into consideration at the time the application for admission is evaluated. Students with previous, unsuccessful post-secondary studies should contact Admissions Services before attempting to qualify for admission on the basis of studies as a Special student.

A Special student can normally be considered for admission after completing 4.0 credits (or the equivalent), and if the student would be *Eligible to Continue* if admitted. Students seeking admission are not considered for admission until the necessary prerequisites have been successfully completed in addition to the 4.0 approved credits (or the equivalent). The prerequisite subjects (4U/4M courses or equivalents) are found on the Admissions Services website.

If fewer than 4.0 credits have been completed, a Special student will be considered for admission after completion of:

2.0 credits (or the equivalent) with a CGPA of 8.00 or higher, or

2.5 credits (or the equivalent) with a CGPA of 7.00 or higher, or

3.0 credits (or the equivalent) with a CGPA of 6.00 or higher, or

3.5 credits (or the equivalent) with a CGPA of 5.00 or higher.

Special students wishing to apply for admission to the Faculty of Engineering, or the Schools of Architecture, Business, Computer Science, Industrial Design, Information Technology, Journalism, or Social Work, or to the Bachelor of Humanities, or Bachelor of Public Affairs and Policy Management programs, are urged to consult with Admissions Services.

16. Prerequisite Subjects

Certain degree programs require grade 4U courses (prerequisite subjects) or the equivalent as follows: (See *Summary of Admission Requirements* following this section for specific minimum averages and required marks.)

B.A., all majors

English

B.A. Biology

Chemistry

B. Architectural Studies

English

Physics

Advanced functions

Note: a portfolio is required.

B. Cognitive Science

English

B. Commerce

Advanced functions

Calculus and vectors

English

B. Communication and Media Studies

English

B. Computer Science

Advanced functions and calculus and vectors

B. Economics

English, Advanced functions

B. Engineering

Advanced functions

Chemistry

Physics

And one of: calculus and vectors or biology or earth and space science

B. Global and International Studies

English

B. Health Sciences (Honours)

Advanced functions and two of: biology, chemistry, earth and space science, physics

B. Humanities (combined Honours with Biology)

Chemistry or biology

B. Industrial Design

Advanced functions

Physics

Note: a portfolio is required and attending an information session at the School is recommended.

B. Information Technology

Interactive Multimedia and Design

Advanced functions

Note: a portfolio is required.

Information Resource Management

English and one of:

Advanced functions or

Calculus and vectors or

Mathematics of data management

Network Technology

Advanced functions or

Calculus and vectors or

Mathematics of data management

Optical Systems and Sensors

Advanced functions

B. International Business

Advanced functions

Calculus and vectors

English

B. Journalism

English

B. Journalism and Humanities

English

B. Mathematics

Advanced functions

Calculus and vectors

B. Media Production and Design

English and one of: advanced functions or calculus and vectors or mathematics of data management

B. Science (Honours)

Advanced functions and two of: biology, chemistry, earth and space science, physics

B. Science (15.0 credit/Major)

Advanced functions and two of: calculus and vectors, biology, chemistry, earth and space science, physics

17. Previous Carleton Degree Students

All former students who have been formally admitted to a degree or diploma or certificate program at the undergraduate level and who are seeking readmission either to that program or to another program are governed by differing regulations, depending upon the faculty or school that offers the program.

Please refer to the relevant program section of this Calendar or, if there is no specific entry dealing with readmission in that section, consult the Registrar's Office to determine whether or not it is necessary to submit a new application for admission. Please note that previous Carleton students applying to limited enrolment programs must apply by the published deadlines.

18. Documents

Documents submitted in support of an application for admission become the property of the University. Carleton University retains electronic students files for all students

admitted for the 2014 summer term and beyond. Original documents that have been digitized for inclusion in the student's file are destroyed in compliance with the University's privacy policies. In some cases, original documents may be returned to the applicant. Contact Admissions Services for more information.

The University may nullify an admission and revoke a registration if it finds that an applicant for admission or registration has, in the process, provided false or incomplete information.

Applicants who are unable to submit documents of previous academic studies as a result of natural disaster, armed conflict, or the securing of refugee status are subject to the following policy:

- Applicants who are unable to submit supporting documents will not be admitted. They will be encouraged to register as Special students and qualify for admission by taking courses at the University.
- Applicants who can submit official transcripts but cannot submit course descriptions will be admitted to first year if:
 - their academic record meets the standards required by the program for which they are applying, and
 - their high school studies include prerequisite subjects for admission to first year.
- Applications from candidates who can provide course descriptions based on their recollection of the courses which they have taken will be treated according to the same procedures as those which apply to applicants who cannot submit course descriptions (see 2. above).

Architectural Studies

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Architectural Studies (B.A.S.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include English, Physics, and Advanced Functions. Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement. Calculus and Vectors is strongly recommended.

Note: a portfolio is required. Detailed information about the portfolio requirements can be found on the Undergraduate Admissions website at admissions.carleton.ca.

Advanced Standing

Applications for admission to the second or subsequent years will be assessed on their merits. Applicants must normally be *Eligible to Continue* in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applicants will also be required to complete a portfolio which will assist in the evaluation of their suitability for the program. Detailed information about the portfolio requirements can be found at admissions.carleton.ca.

Students will not receive credit for courses graded below C-.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the B.A.S. program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Arts

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for

admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market

may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions and Calculus and Vectors are recommended.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

B.A. Honours Criminology and Criminal Justice

Admission to Criminology and Criminal Justice (CCJ) with advanced standing and transfer within the B.A. to CCJ by change of major is limited. Students require a minimum overall CGPA of 7.50 and will be admitted to the Honours program. Access to the CCJ B.A. degree is limited to CCJ B.A. Honours registered students who apply to transfer and to graduates of the Algonquin College Police Foundations program.

Direct Admission to the First Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European, Russian, and Eurasian Studies, French, Geography, Geography with a Concentration in Physical Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Cognitive Science

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Cognitive Science (B.Cog.Sci.) (Honours)
- Bachelor of Cognitive Science (B.Cog.Sci.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

The cut-off average for admission will be set annually and will normally be above the minimum requirement.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*. Advanced standing will be granted only for those subjects that are assessed as being appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Cognitive Science Honours;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Commerce

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Commerce (B.Com.) (Honours)
- Bachelor of Commerce (B.Com.)

Admission Requirements

First Year

Bachelor of Commerce (B.Com.) (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include English (or *anglais*), Advanced Functions, and Calculus and Vectors. Applicants who do not present with Calculus and Vectors must successfully complete MATH 0009 at Carleton in the Fall semester of first year in order to be eligible to continue.

Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Bachelor of Commerce (B.Com.)

No direct entry; access is restricted.

Advanced Standing

Bachelor of Commerce (B.Com.) (Honours)

Applications for admission to the second or subsequent years will be assessed on their merits. Students must

present a major CGPA of 6.50 (C+/B-) or higher, and an overall CGPA of 8.00 (B) or higher. Advanced standing will be granted only for those courses that are determined to be appropriate.

Current Carleton students may also be assessed for admission to second and subsequent years if they present BUSI 1001 and BUSI 1002 with an average of 8.0 or higher (with no individual grade below C+) and a Major CGPA of 6.50 (C+/B-) or higher.

Applications by B.I.B. (Honours) students for admission to the second or subsequent years of B.Com. (Honours) will be assessed on their merits. Students must present a Major CGPA and an Overall CGPA consistent with the Academic Continuation Evaluation requirements for B.Com. (Honours) students. Advanced standing will be granted for those courses determined to be appropriate.

Bachelor of Commerce (B.Com.)

No direct entry. Access is restricted to students in the Bachelor of Commerce (Honours) and Bachelor of International Business (Honours). (See Regulations for Business.)

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Commerce (Honours) program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Communication and Media Studies

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Communication and Media Studies (B.Co.M.S.) (Honours)
- Bachelor of Communication and Media Studies (B.Co.M.S.)

Admission Requirements

First Year

B. Co.M.S. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

B. Co.M.S.

Access to the B.Co.M.S. degree is limited to B.Co.M.S. (Honours) students who apply to transfer.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Communication and Media Studies (Honours);
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Computer Science

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Computer Science (B.C.S.) (Honours)
- Bachelor of Computer Science (B.C.S.) (Major)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent, including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions, and Calculus and Vectors.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Students must typically present a minimum CGPA of 7.00 (B-) in order to be considered for admission. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected. Students will not receive credit for courses graded below C-.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Computer Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are

described in the Co-operative Education Regulations section of this Calendar.

Economics

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Economics (B.Econ.) (Honours)
- Bachelor of Economics (B.Econ.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*) and 4U Advanced Functions (or equivalent). MATH 0005 taken at Carleton with

a minimum grade of C- also satisfies the Advanced Functions requirement.

Applicants who do not present with Advanced Functions or MATH 0005 may be admitted conditionally with the requirement that they complete MATH 0005 with a minimum grade of C- in their first term of study in the degree in order to be eligible to continue.

Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option
Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in a Bachelor of Economics Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the *Co-operative Education Regulations* section of this Calendar.

Engineering

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite

averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Engineering (B. Eng.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include four prerequisite 4U courses: Advanced Functions, Chemistry, Physics, and one of Calculus and Vectors (recommended), or Biology, or Earth and Space Science. Although it is not an admission requirement, at least one 4U course in either English or French is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Successful applicants will have individual academic subjects, completed with grades of C- or higher, evaluated for academic standing, provided the academic work has been completed at another university or degree-granting college, or in another degree program at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option
Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Engineering degree;
3. be eligible for work in Canada (for off-campus work placements).

Meeting the above entrance requirements only establishes eligibility for admission to the program. Enrolment in the co-op option may be limited at the discretion of the department.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Bachelor of Global and International Studies

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum

admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Global and International Studies (B.G.In.S.) (Honours)
- Bachelor of Global and International Studies (B.G.In.S.)

Admission Requirements

First Year

B.G.In.S. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*) and a FIF4U course for students applying to the Specialization in French and Francophone Studies. Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

B.G.In.S.

No direct entry; access is restricted.

Advanced Standing

B.G.In.S. (Honours)

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and stream selected. Students who have completed more than 7.0 credits of post-secondary study are not typically considered for transfer.

B.G.In.S.

No direct entry. Access is restricted to students in the B.G.In.S. (Honours) program who apply to transfer.

Health Sciences

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility

for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Health Sciences (B.H.Sc.) (Honours)
- Bachelor of Health Sciences (B.H.Sc.)

Admission Requirements

First Year

B.H.Sc. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Biology, Chemistry, Earth and Space Sciences, or Physics. Calculus and Vectors is strongly recommended. A 4U course in English is recommended.

B.H.Sc.

No direct entry; access is restricted.

Advanced Standing

B.H.Sc. (Honours)

The program maintains a number of places for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA of 9.00 (B+) or higher.

B.H.Sc.

No direct entry. Access is restricted to students in the B.H.Sc. (Honours) program who apply to transfer.

Humanities

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow

the recommendations will not be disadvantaged in the admission process.

Degrees

- B. Hum. (Honours)
- B. Hum. and Biology (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The Bachelor of Humanities and Biology option must include 4U Chemistry or 4U Biology.

Note: applicants with lower averages may be asked to submit a portfolio in support of their application. For detailed information about the portfolio and whether you are required to submit one, please consult admissions.carleton.ca.

Advanced Standing

The College maintains a number of places in second and third year for students who wish to transfer from Carleton or elsewhere. Applications will be assessed on their merits but normally an overall CGPA of 8.00 (B) or higher is required. On admission, students will not receive credit for courses graded below C-.

Transferring from the B.J.Hum. to the B.J. or B.Hum.

A student who wishes to transfer from the B.J.Hum. to the B.J. or the B.Hum. may apply through Admissions and will be accepted if, upon entry to the new program, they would be *Eligible to Continue* in the new degree program.

Industrial Design

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Industrial Design (B.I.D.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and Physics. Calculus and Vectors, Design Technology, and Visual Arts are strongly recommended.

Candidates must present a portfolio of any kind of work that could demonstrate creativity and aptitude for the study of industrial design. Detailed information about the portfolio requirements can be found at admissions.carleton.ca. Attending an information session at the School is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits and on space availability in the program. Advanced standing will be granted only for those courses that are determined to be appropriate.

Applicants will also be required to complete a portfolio which will assist in the evaluation of their suitability for the program. Detailed information about the portfolio requirements can be found at admissions.carleton.ca.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Industrial Design program;
3. be eligible for work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Information Technology

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also

require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Information Technology (B.I.T.)

The Bachelor of Information Technology is offered jointly with Algonquin College.

Admission Requirements

First Year

To be eligible for admission to the first year of the Bachelor of Information Technology, the applicant must have the Ontario Secondary School Diploma (OSSD) or equivalent, including a minimum of six 4U or M courses.

For Information Resource Management: the six 4U or M courses must include English and one of Advanced Functions or Calculus and Vectors or Mathematics of Data Management. Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

For Interactive Multimedia and Design: the six 4U or M courses must include Advanced Functions. In addition, candidates for BIT in Interactive Multimedia and Design must submit a portfolio of any kind of work that demonstrates the applicant's creativity and aptitude in design work. Detailed information about the portfolio requirements can be found at admissions.carleton.ca

For Network Technology: the six 4U or M courses must include one of Advanced Functions or Calculus and Vectors or Mathematics of Data Management (Calculus and Vectors recommended).

For Optical Systems & Sensors: the six 4U or M courses must include Advanced Functions.

Advanced Standing

Applications for advanced standing towards the program leading to the Bachelor of Information Technology degree will be evaluated on an individual basis upon admission to the program. Students may request that additional courses be considered for advanced standing. Such requests may be made only once, and must be received by the BIT Joint Council (comprised of instructors from Carleton University and Algonquin College) by August 30 of the year in which the student is admitted to the program. Requests must follow the submission format outlined on the BIT web site.

Only university- and college-level courses in which a student has achieved a grade of C- or higher are eligible to be considered for Advanced Standing.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in one of the programs of the Information Technology degree stated in this section;
3. be eligible for work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the Co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

International Business

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of International Business (B.I.B.) (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include English (or *anglais*), Advanced Functions, and Calculus and Vectors. Applicants who do not present with Calculus and Vectors must successfully complete MATH 0009 at Carleton in the Fall semester of first year in order to be eligible to continue.

Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Advanced Standing

Applications for admission to second and subsequent years will be assessed on their merits, subject to available spaces. Advanced standing will be granted only for those courses that are determined to be appropriate. Students must present an Overall CGPA of 8.00 (equivalent to B average) or better.

Applications by B.Com. (Honours) students for admission to the second or subsequent years of B.I.B. will be assessed on their merits. Students must present a major CGPA and an overall CGPA consistent with the Academic Continuation Evaluation requirements for B.I.B. students. Advanced standing will be granted only for those courses determined to be appropriate.

The design of the B.I.B. program is premised on a full year of study abroad (at third year) after the preparations leading to it are successfully completed at Carleton. Students who are admitted with advanced standing may need to delay their study abroad requirement until first- and second-year curricula are completed, and consequently delay graduation.

Some transferred credits (normally electives) may have to be forfeited in order to meet the third-year Study Abroad Requirement of a minimum 4.0 credits completed during year abroad.

Journalism

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- B.J. (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include 4U English. Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy

the 4U English prerequisite requirement. The Bachelor of Journalism with a Concentration in Health Sciences must also include one 4U Math, and either 4U Chemistry or 4U Biology.

Note: Students who already hold an undergraduate degree in another field are not eligible to apply for the B.J. (Honours) program. These students should consult the information on the Master of Journalism or the Master of Arts in Communication in the Faculty of Graduate Studies and Research Calendar.

Advanced Standing

The School also maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an overall CGPA of 9.00 (B+) or higher.

Transferring from the B.J.Hum. to the B.J. or B.Hum. Degree

A student who wishes to transfer from the B.J.Hum. to the B.J. or the B.Hum. may apply through Admissions, and will be accepted if, upon entry to the new program, they would be *Eligible to Continue* (EC) in the new degree program.

Journalism and Humanities

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Journalism and Humanities (B.J.Hum.) (Honours)

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include 4U English. Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Note: students who already hold an undergraduate degree are not eligible to apply for the B.J.Hum. (Honours).

Advanced Standing/Transfer into the Second Year of the B.J.Hum.

The school maintains a number of places in second year for students who wish to transfer from Carleton or elsewhere. Normally, offers are made to students with an Overall CGPA equivalent to 9.00 (B+) or higher. Transfer also requires a Core Humanities CGPA of at least 6.00. An additional year may be necessary for transfer students to complete their degree requirements. Transfers into higher years will not be considered.

Mathematics and Statistics

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Mathematics (B. Math.) (Honours)
- Bachelor of Mathematics (B.Math.)

Admission Requirements

B.Math Honours

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions, and Calculus and Vectors.

The overall admission cut-off average and/or the prerequisite course average may be considerably higher than the stated minimum requirements for admission to the combined B.Math./M.Sc. in Mathematics or Statistics.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed

as being appropriate for the program and the stream selected.

B.Math

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions, and Calculus and Vectors.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Mathematics Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market (and thus the availability of co-op placement) may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Media Production and Design

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Media Production and Design (B.M.P.D. Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses.

The six 4U or M courses must include English and one of Advanced Functions, or Calculus and Vectors, or Mathematics of Data Management. Advanced Functions is recommended. Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those assessed to be appropriate for the program.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Media Production and Design program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market (and thus the availability of co-op placement) may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Music

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and

admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- B.Mus. (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. Although it is not an admission requirement, a 4U course in English is recommended.

Note: An audition is required; for more information on the audition, consult admissions.carleton.ca.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those courses assessed as being appropriate for the program selected.

Public Affairs and Policy Management

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- B.P.A.P.M. (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses.

Advanced Standing

Applications for admission with advanced standing to the program will be assessed on their merits. Normally, offers are made to students with an overall CGPA of 9.00 (B+) or higher. Students must also present at least one of the following: ECON 1001, ECON 1002, or a second-year Political Science course with a minimum grade of B.

Advanced standing will be granted only for those courses deemed appropriate to the program. Students will not receive credit for courses graded below C-.

Co-op Option

Direct Admission to the first year of the Co-op Option
Applicants must:

1. meet the required overall admission cut-off average and/or prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the B.P.A.P.M. (Honours) program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Science

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience and Biology, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions, and two of Biology, Chemistry, Earth and Space Sciences, or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics, and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics, Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

B.Sc. Major and B.Sc.

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science, or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level. Advanced

standing will be granted only for those subjects deemed appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Social Work

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- B.S.W. (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. Although it is not an admission requirement, a 4U course in English is strongly recommended.

Preference will be given to applicants with human service work experience, which may be met by employment and/or volunteer experience. Applicants will be asked to complete a supplementary application that will assist in the evaluation of their suitability for the program. Detailed

information about the supplementary application can be found at admissions.carleton.ca.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level, and will be considered for transfer into the B.S.W. program when spaces are available. Students who have completed an undergraduate degree are normally admitted into the program with third-year standing. Applicants will be asked to complete a supplementary application that will assist in the evaluation of their suitability for the program. Detailed information about the supplementary application can be found at admissions.carleton.ca.

Community College Applicants

Pathway agreements between the School of Social Work at Carleton University and several community colleges have been negotiated to facilitate the application of their graduates in their human or social service worker programs to Carleton's Bachelor of Social Work degree. Detailed information about these agreements can be found on the Admissions website: admissions.carleton.ca.

Certificate in Carillon Studies

Admission Requirements

To be eligible for admission to the Certificate in Carillon Studies, applicants must have:

- Successful audition (a minimum piano proficiency level equivalent to Royal Conservatory of Music Grade 9 is expected);
- Grade II Theory Rudiments, Royal Conservatory of Music (or equivalent);
- Approval of the relevant SSAC/Music Associate Performance Instructor (normally the Dominion Carillonneur);
- Approval of the Music Program.

Certificate in Multidisciplinary Studies in Mental Health and Well-Being

Admission Requirements

To be eligible for admission to the Certificate in Multidisciplinary Studies in Mental Health and Well-Being, applicants must:

- have successfully completed any undergraduate degree, or;
- meet the admission requirements for the Bachelor of Arts, or;
- be currently enrolled and *Eligible to Continue*, and meeting the CGPA thresholds defined in Section 3.1.9 of the *Academic Regulations of the University*, in any degree offered at Carleton.

Note: Students who are currently enrolled in, or have graduated from, a degree in Psychology with the Stream in Mental Health and Well-Being are not eligible for this program. Students who hold a degree in Psychology may be required to take additional credits to fulfill the

certificate residency requirement; see Section 2.2.2 of the *Academic Regulations of the University*, Minimum Number of Residency Credits.

Certificate in Nunavut Public Service Studies

Certificate

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*) with a grade of 60 percent or higher. For applicants whose first language is not English, the requirement of 4U English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar. Special consideration will be extended to other applicants under Mature Applicant regulations (see Mature and Special Admissions, in the Admissions Regulations and Procedures section of this Calendar).

Candidates may be admitted with advanced standing, but must take at least 3.0 credits for the Certificate from Carleton University.

Certificate in Professional Writing (C.P.W.)

Admission Requirements

To be eligible for admission to the Certificate in Professional Writing, applicants must present:

- Second-year standing in any Honours degree, excluding the English BA Honours Concentration in Creative Writing or the English BA Honours Concentration in Drama Studies;
- A Major CGPA of 7.50 or higher;
- A statement of purpose and a sample of their academic or professional writing, and;
- Permission of the Professional Writing Program.

Certificate in Science and Policy

Admission Requirements

To be eligible for admission to the Certificate in Science and Policy, applicants require:

- Completion of at least 4.0 credits in any undergraduate degree program with a minimum of a CGPA of 7.0 or higher, or;
- Completion of a college diploma (or equivalent) or a university degree in any discipline with a minimum average grade of B.

Placement in the Science or non-Science pathway will be assessed at the time of admission.

Certificate in Science Communication

Admission Requirements

Current Carleton students who wish to enrol in this certificate concurrently with their degree program should

contact the Institute of Environmental and Interdisciplinary Science.

Certificate in the Teaching of English as a Second Language (CTESL)

Admission Requirements (C.T.E.S.L.)

To be eligible for admission to the 5.0 credit CTESL program students must have already obtained a degree and have extensive experience in teaching, or are registered in an Honours degree at Carleton University with an overall CGPA of 7.00 (B-) or higher. Students registered in the concurrent CTESL program who fail to complete their degree cannot receive the CTESL.

Post-Baccalaureate Diploma

Admission

- Students must normally have an undergraduate degree in the discipline or in a related discipline with an overall GPA of 8.0 or higher,
- **OR** admission by permission of a department, school, or institute.

Students may be required to present completed university-level courses with minimum grade requirements.

Students may be granted advanced standing to a maximum of 1.0 credit. Advanced standing does not negate the 3.0-credit residency requirement.

Access to Courses

Upon admission to a post-baccalaureate diploma, students may register for all diploma/discipline-specific courses without presenting prerequisite courses that are not components of the diploma. Note that for specific diplomas the permissions in courses outside of the discipline must be arranged in advanced.

Students pursuing a post-baccalaureate diploma are treated as students with fourth-year standing.

A co-operative education option is not available in conjunction with a post-baccalaureate diploma.

Post-Baccalaureate Diploma in Accounting

Diploma

- **Post-Baccalaureate Diploma in Accounting**

Normally, students are required to have completed an undergraduate degree with a minimum B- average or higher, and have completed BUSI 1004 and BUSI 1005 (or equivalent) with a grade of C or higher.

Post-Baccalaureate Diploma in Cognitive Science

Diploma

- **Post-Baccalaureate Diploma in Cognitive Science**

Admission to this program requires the permission of the Department of Cognitive Science. Normally, students are

required to have completed an undergraduate degree with a minimum B average or higher to be admitted. Applications will be reviewed on a case-by-case basis.

Post-Baccalaureate Diploma in Economics

Diploma

- **Post-Baccalaureate Diploma in Economics**

To be eligible for admission to the Post-Baccalaureate Diploma in Economics students must normally have:

1. an undergraduate degree with a GPA of 9.0 or higher, preferably with honours,
2. successfully completed university-level introductory (micro- and macro-) economics, calculus, and linear algebra with a grade of C+ or higher in each, and
3. permission of the Department of Economics.

Students may be granted advanced standing to a maximum of 1.0 credit. Advanced standing does not negate the 3.0 credit residency requirement.

Note: students who already hold an honours undergraduate degree in economics are encouraged to apply for admission to graduate programs in economics through the Graduate Admissions web site at graduate.carleton.ca.

Post-Baccalaureate Diploma in Professional Writing

Diploma

- **Post-Baccalaureate Diploma in Professional Writing**

To be eligible for admission to the Post-Baccalaureate Diploma in Professional Writing students must normally present an honours undergraduate degree with a GPA of 8.0 or higher.

African Studies

This section presents the requirements for programs in:

- African Studies B.A. Combined Honours
- African Studies B.A.
- Specialization in Africa and Globalization B.G.In.S. Honours
- Stream in Africa and Globalization B.G.In.S.
- Minor in African Studies

Program Requirements

Some of the courses listed have prerequisites that are not explicitly included in the program. Students should note that it is their responsibility to ensure that they have completed the prerequisites for any courses that they wish to take.

Other courses with relevant subject matter such as special topics or courses taken on exchange at the University of Ottawa may be substituted, with permission of the Institute.

Institute Language Requirement

The Institute requires Honours students to demonstrate proficiency in at least one language relevant to Africa other than English. The Institute will maintain a list of those languages suitable for meeting this requirement. Students may demonstrate proficiency either through the completion of any first-year course (or its approved equivalent) in a relevant language offered at Carleton or through passing a language proficiency test administered by the Institute. In the case of the language proficiency test, availability of the test in a given language will depend upon faculty resource availability.

African Studies

B.A. Combined Honours (20.0 credits)

A. Credits included in the African Studies Major CGPA (7.0 credits)

1. 1.0 credit from: Foundations	1.0
AFRI 1001 [0.5] Introduction to African Studies I & AFRI 1002 [0.5] Introduction to African Studies II or FYSM 1901 [1.0] Selected Topics in African Studies	
2. 1.0 credit from: African Regions	1.0
AFRI 2002 [0.5] The Horn of Africa	
AFRI 2003 [0.5] The Great Lakes Region of Africa	
AFRI 2004 [0.5] North Africa	
AFRI 2005 [0.5] West Africa	
AFRI 2006 [0.5] Southern Africa	
3. 1.0 credit from: Intermediate African Studies	1.0
AFRI 3001 [0.5] Globalization and Popular Culture in Africa	
AFRI 3002 [0.5] Regions in Africa: Cultures, Society, Politics	
AFRI 3003 [0.5] African Social and Political Thought

8. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits **4.0**

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have

completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC),

Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree.

The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing

part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view

the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;

2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

African Studies (AFRI) Courses

AFRI 1001 [0.5 credit]

Introduction to African Studies I

Introduction to African studies, including history, geography, literature, and the arts. Lecture three hours per week, or two-hour lecture and one hour discussion group per week.

AFRI 1002 [0.5 credit]

Introduction to African Studies II

Introduction to contemporary political, economic, and social dimensions of Africa. Lecture three hours per week.

AFRI 2002 [0.5 credit]

The Horn of Africa

The economic, social and political challenges facing the Horn of Africa, placing them in historical and global context. These countries may be discussed: Djibouti, Eritrea, Ethiopia, Somalia, Sudan, South Sudan. Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies. Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2003 [0.5 credit]

The Great Lakes Region of Africa

The economic, social and political challenges facing the Great Lake Regions of Africa, including the 1994 Rwanda genocide and its aftermath. These countries may be discussed: Burundi, Democratic Republic of Congo, Kenya, Rwanda, Tanzania, Uganda. Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies. Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2004 [0.5 credit]**North Africa**

The economic, social and political challenges facing Egypt and the Maghreb countries of North Africa, including the "Arab Spring". These countries may be discussed: Algeria, Egypt, Libya, Morocco, Mauritania, Tunisia, Western Sahara.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2005 [0.5 credit]**West Africa**

The economic, social and political challenges facing countries of West Africa, including domestic issues and regional relations. These countries may be discussed:

Benin, Burkina Faso, Cape Verde, Cote d'Ivoire, Gambia, Ghana, Guinea, Guinea Bissau, Liberia, Mali, Niger, Nigeria, Senegal, Sierra Leone, Togo.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 2006 [0.5 credit]**Southern Africa**

The economic, social and political challenges facing the countries of southern Africa, including the legacies of apartheid. These countries may be discussed: Angola, Botswana, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Swaziland, Tanzania, Zambia, Zimbabwe.

Prerequisite(s): AFRI 1001 or AFRI 1002 or FYSM 1901 or permission of the Institute of African Studies.

Lecture three hours a week, or two-hour lecture and one-hour discussion group per week.

AFRI 3001 [0.5 credit]**Globalization and Popular Culture in Africa**

This course examines new popular life-worlds in Africa. Though potentially "elusive" to conceptualize, this course shows how these forms of popular culture are related to the role of youth culture and social media in an age of globalization and democratization.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3002 [0.5 credit]**Regions in Africa: Cultures, Society, Politics**

Using dominant linguistic borderlines that have shaped much of the African experience in the last century, this course will look at themes cutting across culture, geography, society and politics in francophone, anglophone, lusophone and arabophone Africa. Precludes additional credit for AFRI 2001 (no longer offered).

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3003 [0.5 credit]**African Social and Political Thought**

The African communitarian tradition. Contemporary African social and political thought, situated in their broad historical contexts.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3004 [0.5 credit]**The African City**

Historical emergence and contemporary issues of the African city.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3005 [0.5 credit]**African Migrations and Diasporas**

Movements of African peoples, from the slave trade era to the present. African diaspora communities around the world and their relationship with Africa.

Prerequisite(s): third year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Lecture three hours a week.

AFRI 3007 [0.5 credit]**Special Topic in African Studies**

A special topic related to African Studies, through one or more disciplinary lenses. Course content will vary from year to year.

Prerequisite(s): a 2000-level AFRI course or third-year standing and 1.0 credit in AFRI.

Lectures three hours a week.

AFRI 3100 [0.5 credit]**African Studies Abroad: Selected Topics**

Based at one of Carleton's partner universities in Africa, course will include lectures, seminars, guest speakers, field visits and group research projects to examine a topic in African studies, as selected by the instructor. Topic and location may change annually.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and approval by the Director of the Institute of African Studies.

AFRI 3200 [0.5 credit]**Thematic Topic**

A special topic that takes a thematic approach to African Studies. Course content will vary from year to year.

Prerequisite(s): a 2000-level AFRI course or third-year standing and 1.0 credit in AFRI.

Lectures three hours a week.

AFRI 3609 [0.5 credit]**African Cinema**

Major moments, debates, figures and movements in African cinema around such categories as the colonial, the anti-colonial, the postcolonial, the national, the continental, the diasporic, the global, race, Afro-futurism, and world cinema, interrogating in the process the very category of "African cinema."

Also listed as FILM 3609.

Prerequisite(s): 1.0 credit in FILM and third year standing or permission of instructor.

Lecture and screening three hours a week, lecture one hour a week.

AFRI 3900 [0.5 credit]**Placement**

Placement for one term with an African focus.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Institute of African Studies.

AFRI 3916 [0.5 credit]**Spoken Word Poetry Workshop**

This intermediate-level workshop-based course explores traditions of spoken words poetry while requiring students to create and perform their own spoken word poems.

Includes: Experiential Learning Activity

Also listed as ENGL 3916.

Prerequisite(s): third-year standing or a 2000-level writing workshop and permission of the instructor.

Workshops three hours a week

AFRI 4000 [0.5 credit]**Advanced Topics in African Studies**

Seminar examining a specialized topic in African studies. The topic will vary from year to year.

Prerequisite(s): fourth-year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Seminar three hours per week.

AFRI 4003 [0.5 credit]**History of 'The African Child'**

Students will analyze the history of the figure of 'the African child' using a range of visual, sources from colonial officials, anthropologists, historians, advertisers, charity and development workers, and African children themselves.

Includes: Experiential Learning Activity

Also listed as CHST 4003.

Precludes additional credit for CHST 4001 if taken in 2014-15.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

AFRI 4050 [0.5 credit]**Selected Topics in African Studies**

Selected topics in African studies not ordinarily treated in the regular course program. The choice of topic varies from year to year. Students should check with the institute regarding the topic offered.

Prerequisite(s): fourth-year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Also offered at the graduate level, with different requirements, as AFRI 5050, for which additional credit is precluded.

Seminar three hours per week.

AFRI 4060 [0.5 credit]**African Feminisms**

African feminisms as theoretical interventions and as political practice, and as diverse forms. Gender as a marker of power: status, hierarchy, social capability, and as a system of distribution of resources, responsibilities and solidarities.

Prerequisite(s): fourth-year standing and at least 1.0 credit in AFRI or permission of the Institute of African Studies.

Also offered at the graduate level, with different requirements, as AFRI 5060, for which additional credit is precluded.

Seminar three hours per week

AFRI 4900 [0.5 credit]**Tutorial in African Studies**

A tutorial on selected topics in which seminars are not available.

Prerequisite(s): Permission of the Institute of African Studies and agreement of an instructor.

American Sign Language (Minor)

This section presents the requirements for programs in:

- Minor in American Sign Language

Minor in American Sign Language (4.0 credits)

Open to all undergraduate degree students.

Requirements:

1. 3.0 credits in ASLA	3.0
2. 1.0 credit in ASLA at the 3000-level or higher	1.0
3. Subject to approval of the School, a maximum of 2.0 credits may be substituted for the above by taking courses at the 2000-level or higher in another discipline relevant to the language	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	

Total Credits **4.0**

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered

following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Continuation Evaluation (see the Academic Regulations of the University section of this Calendar).

American Sign Language (ASLA) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

ASLA 1010 [0.5 credit]

First-Year American Sign Language I

For students with little or no knowledge of the language or culture of deaf people. Basic communicative competence in American Sign Language. Anthropological, sociolinguistic, and sociocultural aspects of deaf culture. Compulsory attendance. Precludes additional credit for ASLA 1110. Four hours a week.

ASLA 1020 [0.5 credit]

First-Year American Sign Language II

Continuation of first-year American Sign Language. Basic communicative competence plus anthropological, sociolinguistic, and sociocultural aspects of deaf culture. Compulsory attendance. Precludes additional credit for ASLA 1110. Prerequisite(s): grade of C or higher in ASLA 1010, or permission of the School. Four hours a week.

ASLA 1110 [1.0 credit]

Intensive First-Year American Sign Language

For students with little or no knowledge of the language or culture of deaf people. Basic communicative competence in American Sign Language. Anthropological, sociolinguistic, and sociocultural aspects of deaf culture. Compulsory attendance. Precludes additional credit for ASLA 1010 or ASLA 1020. Eight hours a week (one term).

ASLA 2010 [0.5 credit]

Second-Year American Sign Language I

Study of American Sign Language beyond the elementary level. Study of targeted lexical and grammatical features, as well as specific conversational skills. Further exploration of the culture of deaf people. Compulsory attendance.

Precludes additional credit for ASLA 2110.

Prerequisite(s): grade of C or higher in ASLA 1020, ASLA 1110, or permission of the School.

Four hours a week.

ASLA 2020 [0.5 credit]

Second-Year American Sign Language II

Continuation of second-year American Sign Language. Study of targeted lexical and grammatical features, as well as specific conversational skills. Further exploration of the culture of deaf people. Compulsory attendance.

Precludes additional credit for ASLA 2110.

Prerequisite(s): grade of C or higher in ASLA 2010, or permission of the School.

Four hours a week.

ASLA 2110 [1.0 credit]

Intensive Second-Year American Sign Language

Further study of American Sign Language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ASLA 2010 and ASLA 2020.

Prerequisite(s): grade of C or higher in ASLA 1020 or ASLA 1110, or permission of the School.

Eight hours a week (one term).

ASLA 3010 [0.5 credit]

Third-Year American Sign Language I

Receptive and expressive mastery of grammar and lexicon of American Sign Language. Advanced conversation skills across different registers. Advanced insight into the culture of the deaf community. Compulsory attendance.

Prerequisite(s): grade of C or higher in ASLA 2020, ASLA 2110, or permission of the School.

Three hours a week.

ASLA 3020 [0.5 credit]

Third-Year Advanced American Sign Language II

Continuation of third-year American Sign Language. Receptive and expressive mastery of grammar and lexicon of American Sign Language. Advanced conversation skills across different registers. Advanced insight into the culture of the deaf community. Compulsory attendance.

Prerequisite(s): grade of C or higher in ASLA 3010, or permission of the School.

Three hours a week.

ASLA 4010 [0.5 credit]**Fourth-Year American Sign Language I**

Focus on the development of receptive and productive skills above what is expected in everyday conversation. Skills in specific contexts such as social services, health, business and government. Compulsory attendance. Prerequisite(s): grade of C or higher in ASLA 3020, or permission of the School. Three hours a week.

ASLA 4020 [0.5 credit]**Fourth-Year American Sign Language II**

Continuation of fourth-year American Sign Language. Focus on the development of receptive and productive skills above what is expected in everyday conversation. Skills in specific contexts such as social services, health, business and government. Compulsory attendance. Prerequisite(s): grade of C or higher in ASLA 4010, or permission of the School. Three hours a week.

ASLA 4900 [1.0 credit]**Independent Study**

Research in a topic in American Sign Language or deaf culture under the supervision of a member of the School. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in the Minor in American Sign Language, grade of C or higher in ASLA 4020 or equivalent, or permission of the School.

ASLA 4901 [0.5 credit]**Independent Study**

Research in a topic in American Sign Language or deaf culture under the supervision of a member of the School. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in the Minor in American Sign Language, grade of C or higher in ASLA 4020 or equivalent, or permission of the School.

Anthropology

This section presents the requirements for programs in:

- Anthropology B.A. Honours
- Anthropology B.A. Combined Honours
- Anthropology B.A.
- Specialization in Globalization, Culture and Power B.G.In.S. Honours
- Stream in Globalization, Culture and Power B.G.In.S.
- Minor in Anthropology
- Minor in Community Engagement

Program Requirements**Bachelor of Arts****Anthropology****B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (9.0 credits):**

1. 0.5 credit from:	0.5
ANTH 1001 [0.5]	Introduction to Socio-Cultural Anthropology

	or ANTH 1002 [0.5] Introduction to Issues in Anthropology	
2. 2.0 credits in:		2.0
ANTH 2001 [1.0]	Foundations in Socio-Cultural Anthropology	
ANTH 4900 [1.0]	Honours Research Paper in Anthropology (with a minimum 9.0 GPA or permission of instructor, or 1.0 credit in ANTH courses at the ANTH 3000-level or above)	
3. 1.0 credit from:	ANTH 2600 series	1.0
4. 1.5 credits in:		1.5
ANTH 3005 [0.5]	Ethnographic Research Methods	
ANTH 3007 [0.5]	History of Anthropological Theory	
ANTH 3008 [0.5]	Contemporary Theories in Anthropology	
5. 1.5 credits in ANTH	at the 1000 level and above	1.5
6. 1.0 credit in ANTH	and/or SOCI at the 2000 or above	1.0
7. 1.5 credits in ANTH	and/or SOCI at the 4000 or 5000 Level	1.5
B. Credits Not Included in the Major CGPA (11.0 credits):		
7. 0.5 credit in:		0.5
SOCI 1001 [0.5]	Introduction to Sociology I	
8. 8.0 credits not in SOCI	or ANTH	8.0
9. 2.5 credits in free electives		2.5
Total Credits		20.0

Anthropology**B.A. Combined Honours (20.0 credits)****A. Credits Included in the Anthropology Major CGPA (7.0 credits):**

1. 0.5 credit from:		0.5
ANTH 1001 [0.5]	Introduction to Socio-Cultural Anthropology	
	or ANTH 1002 [0.5] Introduction to Issues in Anthropology	
2. 1.0 credit in:		1.0
ANTH 2001 [1.0]	Foundations in Socio-Cultural Anthropology	
3. 1.0 credit from ANTH	2600 series	1.0
4. 1.5 credits in:		1.5
ANTH 3005 [0.5]	Ethnographic Research Methods	
ANTH 3007 [0.5]	History of Anthropological Theory	
ANTH 3008 [0.5]	Contemporary Theories in Anthropology	
5. 0.5 credit in ANTH	at the 1000-level and above	0.5
6. 0.5 credit in ANTH	and/or SOCI at the 2000 or above	0.5
7. 1.0 credit in ANTH	and/or SOCI at the 4000 or 5000 level	1.0
8. 1.0 credit in:		1.0
ANTH 4900 [1.0]	Honours Research Paper in Anthropology (with a minimum 9.0 GPA or permission of instructor, or 1.0 credit in ANTH courses at the ANTH 3000-level or above.)	

or

1.0 credit in ANTH at the 1000-level or higher if an Honours Essay is completed in the other discipline

B. Additional Requirements (13.0 credits): 13.0

9. The requirements for the other discipline must be satisfied

10. Sufficient credits in free electives to make 20.0 credits for the degree

11. Students are required to complete an Honours Essay. In those cases where the second discipline does not require an Honours Essay, alternative arrangements may be considered by the Co-ordinator of Honours (Anthropology)

Total Credits **20.0**

Anthropology B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 0.5 credit from:	0.5
ANTH 1001 [0.5] Introduction to Socio-Cultural Anthropology	
ANTH 1002 [0.5] Introduction to Issues in Anthropology	
2. 1.0 credit in:	1.0
ANTH 2001 [1.0] Foundations in Socio-Cultural Anthropology	
3. 1.0 credit from ANTH 2600 series	1.0
4. 1.5 credits in:	1.5
ANTH 3005 [0.5] Ethnographic Research Methods	
ANTH 3007 [0.5] History of Anthropological Theory	
ANTH 3008 [0.5] Contemporary Theories in Anthropology	
5. 1.5 credits in ANTH at the 1000-level or above	1.5
6. 0.5 credit in ANTH and/or SOCI at the 2000-level or above	0.5
B. Credits Not Included in the Major CGPA (9.0 credits)	
7. 0.5 credit in:	0.5
SOCI 1001 [0.5] Introduction to Sociology I	
8. 6.0 credits not in ANTH or SOCI	7.0
9. 2.5 credits in free electives	1.5
Total Credits	15.0

Bachelor of Global and International Studies (B.G.In.S.)

Note: Details regarding graduation requirements, the international experience requirement, and the language requirement for the B.G.In.S. degree can be found at the B.G.In.S. program page.

Specialization in Globalization, Culture and Power

B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses	4.5
GINS 1000 [0.5] Global History	
GINS 1010 [0.5] International Law and Politics	
GINS 1020 [0.5] Ethnography, Globalization and Culture	
GINS 2000 [0.5] Ethics and Globalization	
GINS 2010 [0.5] Globalization and International Economic Issues	
GINS 2020 [0.5] Global Literatures	
GINS 3010 [0.5] Global and International Theory	
GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change	

GINS 4090 [0.5] Honours Seminar in Global and International Studies

2. 0.0 credit in: International Experience Requirement Preparation

GINS 1300 [0.0] International Experience Requirement Preparation

3. 7.5 credits in: the Specialization **7.5**

a. 2.0 credits in: Foundations

ANTH 1001 [0.5] Introduction to Socio-Cultural Anthropology

or ANTH 1002 [0.5] Introduction to Issues in Anthropology

ANTH 2001 [1.0] Foundations in Socio-Cultural Anthropology

ANTH 3005 [0.5] Ethnographic Research Methods

b. 1.0 credit from: Culture and Globalization

ANTH 2850 [0.5] Development and Underdevelopment

ANTH 3010 [0.5] Language, Culture, and Globalization

ANTH 3027 [0.5] Studies in Globalization and Human Rights

ANTH 3040 [0.5] The Global Middle Class

ANTH 3045 [0.5] Children and Childhood in a Globalized World

GEOG 2300 [0.5] Space, Place and Culture

GEOG 3021 [0.5] Geographies of Culture and Identity

c. 1.0 credit from: Ethnography

ANTH 2610 [0.5] Studies in Indigenous Peoples of North America: Current Issues in Anthropological Research

ANTH 2620 [0.5] Ethnography of Sub-Saharan Africa

ANTH 2630 [0.5] Studies in Asian Societies: Current Issues in Anthropological Research

ANTH 2635 [0.5] Tradition and Modernity in the Pacific

ANTH 2640 [0.5] Andean Ethnography

ANTH 2645 [0.5] The Postcolonial Middle East

ANTH 2650 [0.5] Ethnography of Mesoamerica

ANTH 2660 [0.5] Ethnography of North Africa

ANTH 2670 [0.5] Ethnography of Brazil

ANTH 2680 [0.5] Anthropology of "Mainstream" North America

ANTH 2690 [0.5] Ethnography of a Selected Area

d. 2.0 credits from: Topical Explorations in Anthropology

ANTH 2020 [0.5] Race and Ethnicity

ANTH 2040 [0.5] Anthropology and Gender

ANTH 2060 [0.5] Girlhood in Contemporary Contexts: Anthropological and Sociological Perspectives

ANTH 2080 [0.5] Humans/Animals: the More-than-Human in Social Research

ANTH 2510 [0.5] Theories of Human Nature

ANTH 3007 [0.5] History of Anthropological Theory

ANTH 3008 [0.5] Contemporary Theories in Anthropology

ANTH 3800 [0.5] Studies in Applied and Participatory Anthropology

B. Credits Not Included in the Major CGPA (7.0 credits):

3. **7.0 credits in:** Free Electives 7.0

C. Additional Requirements

4. The Language requirement must be met.

Total Credits 15.0

Minor

Minor in Anthropology

Open to all undergraduate degree students in programs other than Anthropology or the B.G.In.S. Specialization or Stream in Globalization, Culture and Power. Students in any Sociology major should select courses carefully if they wish to use courses from the major in their minor Anthropology. Such students should always consult the department.

Requirements

1. **0.5 credit from:** 0.5

ANTH 1001 [0.5] Introduction to Socio-Cultural Anthropology
or ANTH 1002 [0.5] Introduction to Issues in Anthropology

2. **1.0 credit in:** 1.0

ANTH 2001 [1.0] Foundations in Socio-Cultural Anthropology

3. **2.5 credits in ANTH** at the 2000-level or above 2.5

4. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Minor in Community Engagement (4.0 credits)

This minor is open to all undergraduate degree students in any program. Students in any Sociology or Anthropology major should select courses carefully if they wish to use courses from the major in their minor. Such students should always consult the department.

Requirements:

1. **0.5 credit from:** 0.5

ANTH 2180 [0.5] Foundations in Community Engagement

SOCI 2180 [0.5] Foundations in Community Engagement

2. **0.5 credit from:** 0.5

ANTH 4171 [0.5] Community Engagement Capstone

SOCI 4171 [0.5] Community Engagement Capstone

3. **1.0 credit from** Engaging the Community courses: 1.0

5. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits **4.0**

Regulations

Anthropology Regulations

First Year Courses

Students may receive credit for ANTH 1001 and ANTH 1002, or ANTH 1003 (no longer offered). Only one of these credits will be included in the Major CGPA, the other will count against the total number of credits in sociology and/or anthropology.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits

of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science,

Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final

academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager

9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours Anthropology: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the B.A. Honours Anthropology Program;
2. Have a minimum overall CGPA of 7.0 and major CGPA of 8.0 in the first two years of academic study;
3. Successfully completed, by the start-date of the first work term, the required first-year courses, second-year courses, and any two of ANTH 3005, ANTH 3007 or ANTH 3008.

Students in B.A. Honours Anthropology must successfully complete three (3) work terms to obtain the Co-op designation.

Co-op Work Term Course: ANTH 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	W/S	Fall	W/S
Winter	S	Winter	S	Winter	S	Winter	W/S	Winter	S
Summer		Summer		Summer	W	Summer	W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Direct Admission to the First Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European, Russian, and Eurasian Studies, French, Geography, Geography with a Concentration in Physical Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Anthropology (ANTH) Courses

ANTH 1001 [0.5 credit]

Introduction to Socio-Cultural Anthropology

What does it mean to be human? Anthropologists have approached this question by using the ethnographic method to understand the diverse ways people create shared worlds of meaning. In this course students will learn how culture shapes experience, and how ethnography describes this process.

Includes: Experiential Learning Activity
Precludes additional credit for ANTH 1000 (no longer offered), HUMS 1005.

Lectures/discussions three hours a week.

ANTH 1002 [0.5 credit]

Introduction to Issues in Anthropology

This course introduces students to anthropology through in-depth consideration of selected issues facing contemporary cultures and societies. Selected issue(s) will reflect the expertise of the instructor and could include current debates related to race, gender, development, politics, economics, religion, technology, health and the environment.

Includes: Experiential Learning Activity
Precludes additional credit for ANTH 1000 (no longer offered).

Lectures/discussions three hours a week.

ANTH 2001 [1.0 credit]

Foundations in Socio-Cultural Anthropology

Exploration of basic anthropological concepts and analytical strategies through case studies. Emphasis on socio-cultural diversity as documented by ethnographic research with attention to the role of culture in articulating gender, kinship, economic and political relations.

Includes: Experiential Learning Activity
Prerequisite(s): ANTH 1001 or ANTH 1002.

Lectures and discussions three hours a week.

ANTH 2020 [0.5 credit]**Race and Ethnicity**

Introduction to some of the recent theoretical literature and research on the issues of race, racism and ethnicity. Concepts, controversies and definitions dealing with race and ethnicity from the Canadian context and internationally.

Also listed as SOCI 2020.

Lectures and workshop three hours a week.

ANTH 2040 [0.5 credit]**Anthropology and Gender**

The study of gender in anthropology, including its theoretical, cross-cultural and ethnographic aspects. Emphasis on gender as a sociocultural process that is at once discursive and embodied, and that varies in distinct cultural, socio-historical, geopolitical, and economic contexts.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 2408 (no longer offered).

Lectures and workshop three hours a week.

ANTH 2060 [0.5 credit]**Girlhood in Contemporary Contexts: Anthropological and Sociological Perspectives**

Drawing on anthropological and sociological approaches, students will explore girls' lives in diverse cultural, political, economic, and social contexts. Topics may include: movement and migration, education, media, imaging and humanitarianism, consumerism, agency and activism, health, and violence.

Also listed as SOCI 2060.

Prerequisite(s): second-year standing or permission of the instructor.

Two hour lecture plus one hour tutorial per week.

ANTH 2070 [0.5 credit]**Psychological Anthropology**

Exploration of the relative and the universal in relations between the psychological self and the cultural environment. Topics may include anthropology of psychiatric institutions and practices, the cultural relativity of emotions, the self in everyday life and ritual.

Lecture/discussion groups three hours a week.

ANTH 2080 [0.5 credit]**Humans/Animals: the More-than-Human in Social Research**

Examination of relationships between humans and animals in the sociological and broader social studies canon, including: multispecies ethnography, the role of the 'more than human' in Indigenous legal orders, posthumanist and STS theory, relationships between humans and animals and other non-human entities in the Anthropocene.

Also listed as SOCI 2080.

Lecture/discussion groups three hours per week.

ANTH 2180 [0.5 credit]**Foundations in Community Engagement**

Study of theoretical debates and practical applications relating to community engagement with a focus on Canadian examples. Exploration of the contested and complex meanings of community engagement in and between diverse communities, public institutions, non-profit sector and private enterprise with an emphasis on social justice.

Includes: Experiential Learning Activity

Also listed as SOCI 2180.

Prerequisite(s): Second year standing or permission of instructor.

Lecture, discussion and project work three hours a week.

ANTH 2500 [0.5 credit]**Culture and Symbols**

The representation and construction of culture through symbols. Topics may include material culture, rituals, archetypes, myths and mythmaking.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 3304 (no longer offered).

Lectures and workshop three hours a week.

ANTH 2510 [0.5 credit]**Theories of Human Nature**

Critical, cross-cultural exploration of theories of human nature. Begins with a survey of western anthropological models of human consciousness and examines scientific, philosophical and religious perspectives with reference to ethnographic research on myth, religion and science produced by western and non-western cultures.

Lectures and discussion three hours a week.

ANTH 2550 [0.5 credit]**Religion and Society**

Cross-cultural survey of religious institutions, focusing on theories and methodologies in the study of religion. Topics may include myth, totemism, cults, ritual, belief systems, altered states of consciousness, new religious and/or new age movements and the relationship of religion with other social institutions and processes.

Includes: Experiential Learning Activity

Also listed as RELI 2736.

Lectures and workshop three hours a week.

ANTH 2610 [0.5 credit]**Studies in Indigenous Peoples of North America: Current Issues in Anthropological Research**

Examination of a range of issues related to particular indigenous communities and regions of North America. Topics include political, socio-economic, and cultural transformations, Aboriginal title and rights, collaborative research, and other topics relevant to indigenous communities and indigenous - non-indigenous relations.

Precludes additional credit for ANTH 3610 (no longer offered).

Lecture/discussion groups three hours a week.

ANTH 2620 [0.5 credit]**Ethnography of Sub-Saharan Africa**

Examination of selected areas of contemporary Sub-Saharan Africa through current anthropological research. Topics may include war and displacement, religion, politics, international development, history, popular culture, colonialism, witchcraft, health and kinship.

Precludes additional credit for ANTH 3620 (no longer offered).

Lecture/discussion groups three hours a week.

ANTH 2630 [0.5 credit]**Studies in Asian Societies: Current Issues in Anthropological Research**

Examination of contemporary Asia through anthropological research. Topics may include cultural practices, religion, health issues, economics, politics, history, colonialism and social change. Emphasis will vary by sub-region from year to year, e.g., focusing on South, East or Southeast Asia.

Lectures and discussion three hours a week.

ANTH 2635 [0.5 credit]**Tradition and Modernity in the Pacific**

Relationships between contemporary Pacific societies and the rest of the world. Topics may include colonialism and its aftermaths, cultural revival, mining, Christianity, alternative modernities, diasporas, and indigenous media.

Lecture/discussion groups three hours a week.

ANTH 2640 [0.5 credit]**Andean Ethnography**

Ethnographic survey of the Andes. The formation of "indigenous" communities and their relation to urban centres and nation-states. Topics may include state formation, social movements, agrarian reform, political economy of food, class, ethnicity and racism, rural-urban migration, community.

Lectures and discussion three hours a week.

ANTH 2645 [0.5 credit]**The Postcolonial Middle East**

How do people live in the Middle East? What political, historical and religious forces shape their everyday life? This class draws on essays, ethnographies, and movies to challenge the narratives of chronic violence, excessive religiosity, and prehistoric misogyny that haunt our understanding of this region.

Lecture and discussion three hours a week.

ANTH 2650 [0.5 credit]**Ethnography of Mesoamerica**

Ethnographic survey of Mexico and Guatemala focusing on a variety of rural and urban communities throughout the area with emphasis on indigenous groups. Topics may include nationalism, ethnicity, social organization, gender, cosmology and material culture.

Lectures and discussion three hours a week.

ANTH 2660 [0.5 credit]**Ethnography of North Africa**

Introduction to societies and cultures of North Africa.

Topics may include: history and socio-cultural role of Islam, the relations between Arabs and Berbers, ethnography of religious institutions, ritual practices, everyday life, gender, colonialism and post-colonialism, problems of state and religion.

Lectures and discussion three hours a week.

ANTH 2670 [0.5 credit]**Ethnography of Brazil**

Examination of selected areas of contemporary Brazil through current anthropological research.

Topics may include: processes of nation-formation, colonialism, gender and sexuality, race and racism, health, everyday life, urban ethnography, popular culture, social movements, and institutions such as religion, the family and the state.

Lectures and discussion three hours a week.

ANTH 2680 [0.5 credit]**Anthropology of "Mainstream" North America**

Examination of contemporary North American society.

Topics may include social class, success myths, schooling, immigration, cities, the self, television, romance, youth sub cultures; how what is seen as "mainstream" is determined.

Lectures/discussion groups three hours a week

ANTH 2690 [0.5 credit]**Ethnography of a Selected Area**

Ethnography of a selected area. Area to be announced.

Lectures and discussion three hours a week.

ANTH 2815 [0.5 credit]**Selected Topics in Anthropology**

Selected topics in anthropology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Lecture/discussion groups three hours a week.

ANTH 2825 [0.5 credit]**Selected Topics in Anthropology**

Selected topics in anthropology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Lectures/discussion groups three hours a week.

ANTH 2850 [0.5 credit]**Development and Underdevelopment**

International development and its socio-cultural practices with consequences at local, national and international levels. Topics may include modernization, dependency, globalization, and development as discourse, political ecology, gender, indigenous knowledge, social movements, and non-governmental organizations.

Includes: Experiential Learning Activity

Lectures and workshop three hours a week.

ANTH 2915 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the Department for information.

ANTH 2925 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the department for information.

ANTH 3005 [0.5 credit]**Ethnographic Research Methods**

Broad overview of methods through lectures, discussion, and hands-on activities. Research design, ethics, participant-observation, interviewing and other methods, data analysis and ethnographic writing. Prepares students to apply methodological knowledge in careers and projects undertaken for the fourth-year honours research paper and/or ethnographic field course.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 2003.

Prerequisite(s): ANTH 2001 [1.0].

Lectures three hours a week.

ANTH 3007 [0.5 credit]**History of Anthropological Theory**

Analysis of the development of anthropological thought since the end of the eighteenth to the mid-twentieth century. The development of various theoretical approaches within their historical, social, intellectual and biographical contexts. The implications of these issues may be explored through ethnographies.

Precludes additional credit for ANTH 2005 and ANTH 3100.

Prerequisite(s): ANTH 2001 [1.0].

Lectures three hours a week.

ANTH 3008 [0.5 credit]**Contemporary Theories in Anthropology**

Contemporary trends in anthropological analyses.

Discussion of anthropological theory in its contemporary, interdisciplinary context.

Precludes additional credit for ANTH 3006 (no longer offered), ANTH 3100.

Prerequisite(s): ANTH 2001.

Lecture/discussion groups three hours per week.

ANTH 3010 [0.5 credit]**Language, Culture, and Globalization**

Theoretical and methodological contributions of anthropology to the study of communicative practices in a variety of social and cultural contexts. Language practices, ideologies, and globalization as they intersect with culture, power, race, ethnicity, indigeneity, gender, nationhood and political economy.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours per week.

ANTH 3020 [0.5 credit]**Studies in Race and Ethnicity**

Race, racism and ethnicity in Canada and internationally. Critical perspectives on race and ethnicity as they intersect with other social relations. Racism, Eurocentrism, Orientalism, nationalism, colonialism, international migration, citizenship, and diasporic cultures.

Also listed as SOCI 3020.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

ANTH 3025 [0.5 credit]**Anthropology and Human Rights**

Examines the concepts of "cultural relativism" and "universalism." What are human rights? Who has them? How do notions of "human rights" evolve? What about other, non-Western concepts of "individual," "collectivity," "rights" and "responsibilities"? What about human rights violations and abuses?.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3027 [0.5 credit]**Studies in Globalization and Human Rights**

Examination of the various dimensions and meanings of globalization and its relationship with human rights. Main emphasis will be on the implications of the emerging global economy for economic, social, political and cultural rights.

Also listed as SOCI 3027, PSCI 3802.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lectures three hours a week.

ANTH 3035 [0.5 credit]**Science, Culture and Society: Social Studies of Science**

Principal theories and methods used by Science and Technology Studies scholars to examine the social construction of scientific knowledge. Topics may include the demarcation of science from non-science, the relationship between experts and laypersons, and the study of scientific controversies.

Also listed as SOCI 3035.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3037 [0.5 credit]**Studies in Information Systems and Social Power**

Knowledge/power relations in historical and comparative perspective, with attention to information devices, techniques, and practices.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3040 [0.5 credit]**The Global Middle Class**

The growing numbers of people who could be considered “middle class” are central to both “cultural” and “economic” globalization. This course examines what it means to be middle class theoretically, historically, and cross-culturally. Prerequisite(s): second-year standing or permission of the instructor.

Lecture/discussion groups three hours a week.

ANTH 3045 [0.5 credit]**Children and Childhood in a Globalized World**

A socio-historical and cross-cultural exploration of constructions, deconstructions, and the experience of childhood in Canada and internationally. Compulsory schooling, child labour, protection and regulation in law, the commodification and equalization of childhood, children’s social movements, and the emergence of children’s rights discourses.

Also listed as SOCI 3045.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

ANTH 3215 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program. The choice of topics varies from year to year. Check with the Department regarding the topic offered.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3225 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program. The choice of topics varies from year to year. Check with the Department regarding the topic offered.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3310 [0.5 credit]**Studies in Medical Anthropology**

Cross-cultural study of the body, illness, healing, health and well-being. Sociocultural factors in the causation, diagnosis, management and meaning of illness.

Biocultural and political-economic dimensions of ill health. Ritual and symbolic healing. Ethical concerns and public health applications of anthropology.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3355 [0.5 credit]**Anthropology and the Environment**

Environmental concerns affect everyone, unevenly. How does anthropology illuminate the cultural, social, political and ecological differentiation resulting from and constituting environmental processes? The range of responses considered may address issues of resource access and exploitation, as well as transnational transformations in the concept of nature.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

ANTH 3360 [0.5 credit]**Jokes, Humor, Laughter**

Anthropological inquiries into the phenomenon of humor. Psychoanalytic, semiotic and phenomenological perspectives are applied to ethnographic materials from a variety of cultural contexts.

Lecture/discussion groups three hours per week.

ANTH 3510 [0.5 credit]**Ritual**

Cross-cultural study of ritual, religious and secular, its role in various social processes and relation to other activities. Exploration of variability of ritual and the range of theories that have been developed to account for what ritual does, including intellectualist, functionalist and performative.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures and discussion three hours a week.

ANTH 3550 [0.5 credit]**Studies in Visual Anthropology**

Examination of the anthropological experience as reflected in film/video and still photography. A number of problems are considered, including selectivity, bias, the effect of the observer’s presence, and problems in reconstructing past events in film. Issues of media-literacy will be examined. Precludes additional credit for ANTH 3107 (no longer offered).

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3570 [0.5 credit]**Studies in Art, Culture and Society**

Thematic investigation of genres, forms and styles of art, culture and society. Topics may include current debates on social structure and artistic creativity; ideology, cultural memory and politics, patronage and art; cross-cultural representations, taste, social mobility and art; modernism and the avant-garde.

Also listed as SOCI 3570.

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3580 [0.5 credit]**Anthropology of Material Culture and Museums**

How diverse societies are materialized in a wide range of cultural materials from clothing, housing and memorials to more ephemeral materializations such as food, gardens, dance, ritual props and music-making. Emphasis on museum practices and the cultural politics of display.

Prerequisite(s): second-year standing or permission of the instructor.

Lectures and discussion three hours a week.

ANTH 3600 [0.5 credit]**Studies in Anthropology and Indigenous Peoples**

Problems in the interpretation and analysis of various forms of encounters between indigenous peoples and colonizing powers will be examined. Topics may include patterns and practices of contact, cultural syncretism, conquest, domination, relations of ruling, cultural hegemony, resistance and non-compliance.

Includes: Experiential Learning Activity

Precludes additional credit for ANTH 3109 (no longer offered).

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3800 [0.5 credit]**Studies in Applied and Participatory Anthropology**

History, significant approaches, and key topics of applied anthropology and participatory research. Participatory and non-participatory anthropological research on social problems within activities of intervention, which may include policy processes, development projects, evaluation exercises, impact assessments, and advocacy work.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or permission of the instructor.

Lecture three hours a week.

ANTH 3915 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the Department for information.

ANTH 3925 [0.5 credit]**Course-Related Tutorials in Anthropology**

Consult the Department for information.

ANTH 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ANTH 4000 [0.5 credit]**Field Placement in Anthropology**

This course is intended to provide students with practical experience through a field placement equivalent to one day a week. Students are responsible to secure their field placement in a relevant organization with the approval of a Faculty member acting as Field placement coordinator.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours Anthropology standing and permission of the Department.

ANTH 4005 [0.5 credit]**Health and Globalization**

An anthropological examination of the health impacts of global processes, relationships, and movements. May include topics such as economic development and disease, migration and health, medical tourism, transnational reproduction, and the global circulation of bodies, organs, medical technologies, drugs, and pathogens.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4006 [0.5 credit]**Decolonizing Methodologies in the 21st Century: Practicing Engaged Anthropology**

Examination of the breadth of critical literature on 'decolonizing methodologies' within and adjacent to anthropology in the 20th and 21st centuries. The course will equip students with an in-depth understanding of critiques of the discipline's methods and ethics while practicing an engaged anthropology.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours per week.

ANTH 4007 [0.5 credit]**Advanced Studies in Anthropological Theory and Methods**

The course examines debates in theory and methodology currently facing the discipline through a survey of leading-edge issues and approaches.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4020 [0.5 credit]**Advanced Studies in Race and Ethnicity**

An advanced seminar that explores selected topics in race and ethnicity in an international context. Specific topics will vary according to instructors' research interests.

Also listed as SOCI 4020.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4036 [0.5 credit]**Science and Technology Studies: Selected Topics**

The course is concerned with broadening students' understanding of Science and Technology Studies (STS) by focusing on a relevant topic. Topics may vary from year to year. Students should check with the Department regarding the topic offered.

Precludes additional credit for SOCI 4401 (no longer offered).

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4100 [0.5 credit]**Ethnographic Field Course**

In this class, we explore a significant issue in our communities, learning how ethnographic methods can add new perspectives to our own experience and help us appreciate the experience of others. Students learn-through-doing their own small ethnographic projects, peer-to-peer feedback, and reflective discussion.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year standing or permission of the instructor.

Seminar three hours per week.

ANTH 4109 [0.5 credit]**Ethnography, Gender and Globalization**

Intersections of gender and globalization; ethnographic focus on how the movements of people, goods, ideas, and capital are transforming existing formations of gender and sexualities. Topics and approaches may vary from year to year.

Prerequisite(s): third-year standing or permission of instructor.

Also offered at the graduate level, with different requirements, as ANTH 5109, for which additional credit is precluded.

Seminar three hours a week.

ANTH 4171 [0.5 credit]**Community Engagement Capstone**

Students in the capstone will reflect on their engagement experiences and advance their critical understanding of community through a series of in-class activities and readings. Students will produce a public-facing artifact (e.g., blog, podcast, video) related to their experiences, potentially in collaboration with community partners.

Includes: Experiential Learning Activity

Also listed as SOCI 4171.

Prerequisite(s): ANTH 2180 and fourth year standing or permission of instructor.

Lecture, discussion and project work three hours per week.

ANTH 4200 [0.5 credit]**War, Security and Citizenship**

Critical theoretical and multidisciplinary examination of violent conflict, security and citizenship. How wars produce a variety of abject and new subjects, create and reproduce citizenship hierarchies, and expand and contract citizenship entitlements.

Also listed as SOCI 4200.

Prerequisite(s): fourth year standing.

Seminar three hours a week.

ANTH 4215 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program.

The choice of topic varies from year to year. Check with the department regarding the topic offered.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4225 [0.5 credit]**Selected Topics in Anthropology**

Topics not ordinarily treated in the regular course program.

The choice of topic varies from year to year. Check with the department regarding the topic offered.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4355 [0.5 credit]**Anthropology of Natural Resources**

Anthropology of natural resources. Topics may include economies, ecologies, cultural and social dynamics of fishing, forestry, lands, mining, oil, wildlife, at varying analytical scales, including a critical examination of the term "natural resource" itself.

Prerequisite(s): third-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as ANTH 5355, for which additional credit is precluded.

Seminars and discussions three hours a week.

ANTH 4500 [0.5 credit]**Advanced Studies in Culture and Symbols**

Contemporary debates in theory and methods regarding analysis of the symbolic processes.

Precludes additional credit for ANTH 4705 (no longer offered).

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4550 [0.5 credit]**Advanced Studies in Visual Anthropology**

Exploration of media representations of the cultural other through student projects based on contemporary anthropological analysis of cross-cultural multimedia: video, photography, mapping and the Internet. The role of media in the dissemination of anthropological research and as the subject of anthropological analysis.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4560 [0.5 credit]**Economic Anthropology**

Anthropology's holistic, comparative and critical contribution to the study of livelihood. How practices and understandings of production, circulation, consumption, and property vary cross-culturally. Relevant theoretical debates including those among formalist (neo-classical), substantivist, Marxist, and interpretive approaches over the applicability of capitalist thinking.

Prerequisite(s): third-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as ANTH 5560, for which additional credit is precluded.

Seminar three hours a week.

ANTH 4570 [0.5 credit]**Political Anthropology**

Can anthropology help us understand politics? Can ethnographic encounters help us approach political theory and political action differently? This seminar will focus on concepts (power, authority, equality) and practices (resistance, subjection, solidarity) through which anthropologists invite us to rethink the way we live together.

Prerequisite(s): third-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as ANTH 5570, for which additional credit is precluded.

Seminar three hours a week.

ANTH 4590 [1.0 credit]**Capstone Seminar in Globalization, Culture, and Power**

This course is dedicated to developing individual student research projects. Through seminar discussions, these student projects will benefit from an introduction to research design and methodologies, analysis and interpretation, as well as issues surrounding ethics, representation, and knowledge production.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the BGINS Globalization, Culture and Power program with a minimum 9.0 GPA or permission of the instructor.

Seminar three hours a week.

ANTH 4610 [0.5 credit]**Advanced Studies in Indigenous Peoples**

This research-based seminar focuses on specific conceptual and methodological issues pertaining to contemporary anthropological research involving Indigenous peoples and communities. Topical focus may vary from year to year.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4620 [0.5 credit]**Advanced Studies in Contemporary Sub-Saharan Africa: Current Issues in Anthropological Research**

Research-based seminar that explores the issues and debates related to anthropological research in contemporary sub-Saharan Africa with emphasis on theoretical, methodological, analytical, ethical, practical and applied problems in anthropological research in that area.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4730 [0.5 credit]**Colonialism and Post-Colonialism**

Comparative ethnographic and historical approaches to colonialism including topics such as the formation of colonial regimes, colonial governmentality, servile labour systems, missionization, anti-colonial resistance, cultural hybridization and post-colonial memory. Exploration of debates over the relation between colonialism and the production of social scientific knowledge.

Also listed as SOCI 4730.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4750 [0.5 credit]**Advanced Studies in Globalization and Citizenship**

Selected topics on the confluence of processes of globalization, development and citizenship. Examination of debates about the meaning and impact of globalization on patterns of inequality and citizenship both internationally and within Canada, and about strategies for progressive development.

Also listed as SOCI 4750.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

ANTH 4780 [0.5 credit]**Anthropology of Personhood**

Exploration of anthropological approaches to personhood and diversity in constructions of the self in various socio-cultural and historical contexts.

Prerequisite(s): third-year standing or permission of the instructor.

Seminar three hours a week.

ANTH 4900 [1.0 credit]**Honours Research Paper in Anthropology**

This course offers Honours students the opportunity to write an original research paper in their final year of study. Supported by the HRP supervisor, students develop their projects through seminar discussion addressing issues of research design, ethics, methodology, anthropological analysis, interpretation, and representation.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing.

ANTH 4915 [0.5 credit]**Tutorial in Anthropology**

Consult the Department for information.

ANTH 4925 [0.5 credit]**Tutorial in Anthropology**

Consult the Department for information.

Applied Linguistics and Discourse Studies

This section presents the requirements for programs in:

- Linguistics and Discourse Studies B.A. Combined Honours
- Applied Linguistics and Discourse Studies B.A. Honours
- Applied Linguistics and Discourse Studies B.A. Combined Honours
- Applied Linguistics and Discourse Studies B.A.
- Minor in Applied Linguistics and Discourse Studies
- Minor in Professional Writing
- Certificate in the Teaching of English as a Second Language (CTESL)
- Certificate in Professional Writing
- Post-Baccalaureate Diploma in Professional Writing
- Specialization in Teaching English in Global Contexts B.G.In.S. Honours
- Stream in Teaching English in Global Contexts B.G.In.S.

Linguistics and Discourse Studies**B.A. Combined Honours (20.0 credits)**

Honours Linguistics and Honours Applied Linguistics and Discourse Studies are combined into the Linguistics and Discourse Studies B.A. Combined Honours.

A. Credits Included in the Major CGPA (12.0 credits)

1. 1.5 credits in:	1.5
LING 1001 [0.5]	Introduction to Linguistics I
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS
LING 1002 [0.5]	Introduction to Linguistics II
2. 1.0 credit in:	1.0
LING 2005 [0.5]	Linguistic Analysis
LING 2007 [0.5]	Phonetics
3. 2.0 credits in:	2.0
LING 3004 [0.5]	Syntax I
LING 3005 [0.5]	Morphology I

LING 3007 [0.5]	Phonology I	
LING 3505 [0.5]	Semantics	
4. 1.0 credit in	LING at the 4000 level	1.0
5. 1.0 credit in	LING, excluding LING 1100	1.0
6. 1.0 credit in:		1.0
ALDS 2201 [0.5]	Analysis of Oral Language Use	
ALDS 2202 [0.5]	Analysis of Written Language Use	
7. 1.0 credit in	ALDS at the 3000 level or above	1.0
8. 1.0 credit in	ALDS at the 4000 level	1.0
9. 2.5 credits in	ALDS	2.5
B. Additional Requirements (8.0 credits)		8.0
10. Sufficient free electives to make a total of 20.0 credits for the program		
11. School Language Proficiency Requirement must be satisfied		
Total Credits		20.0

Applied Linguistics and Discourse Studies**B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (9.0 credits):**

1. 1.0 credit in:	1.0	
LING 1001 [0.5]	Introduction to Linguistics I	
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
2. 1.5 credits in:	1.5	
ALDS 2201 [0.5]	Analysis of Oral Language Use	
ALDS 2202 [0.5]	Analysis of Written Language Use	
ALDS 2203 [0.5]	Linguistic Theory and Second-Language Learning	
3. 0.5 credit from:	0.5	
ALDS 2604 [0.5]	Communication Differences and Disabilities I	
ALDS 2704 [0.5]	Bilingualism	
ALDS 2705 [0.5]	Language and Power	
LING 2007 [0.5]	Phonetics	
4. 1.5 credits from:	1.5	
ALDS 3201 [0.5]	Cross-Cultural Communication	
ALDS 3202 [0.5]	Sociolinguistics	
ALDS 3401 [0.5]	Research and Theory in Academic Writing	
ALDS 3402 [0.5]	Research and Theory in Workplace Writing	
ALDS 3405 [0.5]	Second Language Writing	
LING 3603 [0.5]	Child Language	
ALDS 3604 [0.5]	Communication Differences and Disabilities II	
ALDS 3701 [0.5]	Corpus Linguistics	
ALDS 3705 [0.5]	Adult Literacy	
ALDS 3706 [0.5]	Discourse Analysis	
ALDS 3903 [0.5]	Special Topic in Applied Linguistics and Discourse Studies	
5. 2.0 credits in	Applied Linguistics and Discourse Studies at the 4000-level	2.0
6. 2.5 credits in	Applied Linguistics and Discourse Studies, which may include	2.5
FYSM 1204 [1.0]	Language and Identity	
FYSM 1205 [1.0]	Language and Power	
B. Credits Not Included in the Major CGPA (11.0 credits):		

7. 5.0 credits not in ALDS or LING	5.0
8. 6.0 credits in free electives (maximum 2.5 in ALDS)	6.0
C. Additional Requirement:	
9. School Language Proficiency Requirement must be satisfied.	
Total Credits	20.0

Applied Linguistics and Discourse Studies B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 1.0 credit in:	1.0
LING 1001 [0.5] Introduction to Linguistics I	
ALDS 1001 [0.5] Language Matters: Introduction to ALDS	
2. 1.5 credits in:	1.5
ALDS 2201 [0.5] Analysis of Oral Language Use	
ALDS 2202 [0.5] Analysis of Written Language Use	
ALDS 2203 [0.5] Linguistic Theory and Second-Language Learning	
3. 1.5 credits in ALDS at the 4000-level	1.5
4. 2.0 credits in ALDS which may include:	2.0
FYSM 1204 [1.0] Language and Identity	
FYSM 1205 [1.0] Language and Power	

B. Additional Requirements (14.0 credits) 14.0

5. The requirements for the other discipline must be met	
6. Sufficient free electives to make a total of 20.0 credits for the program	
7. School Language Proficiency Requirement must be satisfied.	

Total Credits	20.0
----------------------	-------------

Applied Linguistics and Discourse Studies B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits):

1. 1.0 credit in:	1.0
ALDS 1001 [0.5] Language Matters: Introduction to ALDS	
LING 1001 [0.5] Introduction to Linguistics I	
2. 1.5 credits in:	1.5

ALDS 3414/ ENGL 3414 [0.5]	Introduction to Professional Writing and Editing	
3. 2.0 credits in:		2.0
ENGL 4135 [0.5]	Studies in Publishing	
ALDS 4404/ ENGL 4004 [0.5]	Writing and Knowledge-Making in the Professions	
ALDS 4414/ ENGL 4414 [0.5]	Professional Writing I	
ALDS 4415/ ENGL 4415 [0.5]	Professional Writing II	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Certificate in the Teaching of English as a Second Language (CTESL) (5.0 credits)

May be taken following successful completion of any undergraduate degree or concurrently with an Honours degree, provided the Major CGPA in the Honours program is at least 7.0.

Graduation

A candidate for the CTESL must obtain a grade of C or higher in all courses taken at Carleton University under the CTESL program.

Requirements

1. 1.0 credit in:		1.0
LING 1001 [0.5]	Introduction to Linguistics I	
ALDS 1001 [0.5]	Language Matters: Introduction to ALDS	
Note: LING 1001 and ALDS 1001 must be taken before or concurrently with other required courses.		
2. 3.0 credits in:		3.0
ALDS 4206 [1.0]	Practicum in Teaching ESL	
ALDS 4305 [0.5]	Teaching English Language: Methodology I	
ALDS 4306 [0.5]	Teaching English as a Second Language: Methodology II	
ALDS 4602 [0.5]	Second Language Acquisition	
ALDS 4801 [0.5]	Major Structures of English	
3. 1.0 credit in ALDS, or in LING from the courses below, or any other course approved by the Supervisor of CTESL:		1.0
LING 2005 [0.5]	Linguistic Analysis	
LING 2007 [0.5]	Phonetics	
LING 3601 [0.5]	Language Processing and the Brain	
LING 3603 [0.5]	Child Language	
Total Credits		5.0

Certificate in Professional Writing (5.0 credits)

Students may declare only one of the Professional Writing Certificate or the Professional Writing Minor. To be taken concurrently with an Honours degree, provided the Major CGPA in the Honours program is at least 7.50. Open to all undergraduate students not in the English BA Honours Concentration in Creative Writing or the English BA Honours Concentration in Drama Studies.

Graduation

A candidate for the Certificate in Professional Writing (CPW) must obtain a grade of C or higher in all courses taken at Carleton University under the CPW program.

Requirements:

1. 1.0 credit in:		1.0
ENGL 1008 [0.5]	English Grammar: Fundamentals	
ALDS 2202 [0.5]	Analysis of Written Language Use	
2. 3.0 credits in:		3.0
ALDS 3402/ ENGL 3909 [0.5]	Research and Theory in Workplace Writing	
ALDS 3414/ ENGL 3414 [0.5]	Introduction to Professional Writing and Editing	
ALDS 4404/ ENGL 4004 [0.5]	Writing and Knowledge-Making in the Professions	
ENGL 4135 [0.5]	Studies in Publishing	
ALDS 4414/ ENGL 4414 [0.5]	Professional Writing I	
ALDS 4415/ ENGL 4415 [0.5]	Professional Writing II	
3. 1.0 credit from:		1.0
ALDS 3401/ ENGL 3908 [0.5]	Research and Theory in Academic Writing	
ALDS 4403/ ENGL 4909 [0.5]	Writing and Knowledge-Making in the Disciplines	
ALDS 4405/ ENGL 4515 [0.5]	Teaching Writing in School and the Workplace	
Total Credits		5.0

Post-Baccalaureate Diploma in Professional Writing (5.0 credits)

Students applying for admission must have an Honours undergraduate degree with a GPA of 8.00 or higher. The PBD is a one-year, 5.0 credit post-degree option.

Graduation

A candidate for the post-baccalaureate diploma must obtain a grade of C- or higher in all courses taken at Carleton University under the post-baccalaureate program.

Requirements:

1. 1.0 credit in:		1.0
ENGL 1008 [0.5]	English Grammar: Fundamentals	
ALDS 2202 [0.5]	Analysis of Written Language Use	
2. 3.0 credits in:		3.0
ALDS 3402/ ENGL 3909 [0.5]	Research and Theory in Workplace Writing	
ALDS 3414/ ENGL 3414 [0.5]	Introduction to Professional Writing and Editing	
ALDS 4404/ ENGL 4004 [0.5]	Writing and Knowledge-Making in the Professions	
ENGL 4135 [0.5]	Studies in Publishing	
ALDS 4414/ ENGL 4414 [0.5]	Professional Writing I	
ALDS 4415/ ENGL 4415 [0.5]	Professional Writing II	
3. 1.0 credit from:		1.0
ALDS 3401/ ENGL 3908 [0.5]	Research and Theory in Academic Writing	
ALDS 4403/ ENGL 4909 [0.5]	Writing and Knowledge-Making in the Disciplines	

ALDS 4405/ Teaching Writing in School and the
ENGL 4515 [0.5] Workplace

Total Credits **15.0**

School Language Proficiency Requirement

Students in B.A. Honours, Combined Honours, or 15 credit programs of the School of Linguistics and Language Studies are required, at graduation, to have a working knowledge of a language other than English. Proficiency is determined by successful completion of a 1.0 credit university course in the language or by an oral or written test given by the School.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PADM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry.

and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the *Academic Regulations of the University* section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or

- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average

required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;

3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements (C.T.E.S.L.)

To be eligible for admission to the 5.0 credit CTESL program students must have already obtained a degree and have extensive experience in teaching, or are registered in an Honours degree at Carleton University with an overall CGPA of 7.00 (B-) or higher. Students registered in the concurrent CTESL program who fail to complete their degree cannot receive the CTESL.

Admission Requirements

To be eligible for admission to the Certificate in Professional Writing, applicants must present:

- Second-year standing in any Honours degree, excluding the English BA Honours Concentration in Creative Writing or the English BA Honours Concentration in Drama Studies;
- A Major CGPA of 7.50 or higher;

- A statement of purpose and a sample of their academic or professional writing, and;
- Permission of the Professional Writing Program.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Diploma

- **Post-Baccalaureate Diploma in Professional Writing**

To be eligible for admission to the Post-Baccalaureate Diploma in Professional Writing students must normally present an honours undergraduate degree with a GPA of 8.0 or higher.

Applied Linguistics and Discourse Studies (ALDS) Courses

ALDS 1001 [0.5 credit]

Language Matters: Introduction to ALDS

Core topics in applied linguistics and discourse studies. First and second language acquisition; sign language; language teaching and assessment; language in society; language, identity and power; discourse analysis; written language and literacy.

Lectures three hours a week.

ALDS 2201 [0.5 credit]

Analysis of Oral Language Use

Introduction to the analysis of oral language in use; distinctions between spoken and written language; theoretical and methodological approaches such as speech act theory, ethnography of communication, conversation analysis, and discourse analysis; classroom interaction; interaction in first- and second-language acquisition; analysis of spoken language corpora.

Includes: Experiential Learning Activity
Prerequisite(s): ALDS 1001 or permission of the instructor.
Lectures three hours a week.

ALDS 2202 [0.5 credit]

Analysis of Written Language Use

Introduction to the analysis of written language in use, including theoretical and methodological approaches such as rhetorical genre studies (including academic and workplace writing); adult literacy studies; text-structure analysis; discourse analysis (including critical discourse analysis); analysis of textual corpora.

Includes: Experiential Learning Activity
Prerequisite(s): ALDS 1001 or FYSM 1004 or ENGL 1000 or COMS 1000 or COMS 1001 or permission of the instructor.

Lectures three hours a week.

ALDS 2203 [0.5 credit]

Linguistic Theory and Second-Language Learning

Critical study of linguistic theory and description applied to second-language learning; a brief consideration of similarities and differences in first- and second-language development, bilingualism and types of linguistic error and their significance.

Includes: Experiential Learning Activity
Prerequisite(s): second-year standing.

Lectures three hours a week.

ALDS 2604 [0.5 credit]

Communication Differences and Disabilities I

A survey course highlighting a variety of communication differences and disabilities. Specific topics vary from year to year but typically will include speech, language, fluency and hearing differences and disabilities.

Also listed as LING 2604.

Prerequisite(s): second-year standing, or permission of the instructor.

Lectures three hours a week.

ALDS 2704 [0.5 credit]

Bilingualism

The linguistic nature of bilingualism. The structure of bilingual societies and the relation between societal and individual bilingualism. The role of bilingualism in language education.

Includes: Experiential Learning Activity
Prerequisite(s): second-year standing.

Lectures three hours a week.

ALDS 2705 [0.5 credit]

Language and Power

How social conditions engender different linguistic choices. Attention to linguistic resources for expressing ideological beliefs and for maintaining and reinforcing power structures in institutional and social sites.

Includes: Experiential Learning Activity
Precludes additional credit for FYSM 1205.

Prerequisite(s): second-year standing.
Lectures three hours a week.

ALDS 3201 [0.5 credit]**Cross-Cultural Communication**

Introduction to cross-cultural communication in social, academic and professional settings. Application of theoretical perspectives to case study analysis; pedagogical/training topics as relevant to students' disciplines; collaborative work with other language and cultural groups as feasible.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing, and one of LING 1001 or ALDS 1001, or permission of the School.

Lectures three hours a week.

ALDS 3202 [0.5 credit]**Sociolinguistics**

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as LING 3702.

Precludes additional credit for ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing.

Lectures three hours a week.

ALDS 3205 [0.5 credit]**English as a Global Language**

The origins, development and globalization of the English language. Establishment of Standard English; spread of English in the Inner circle and in expanding circles; world Englishes; linguistic features of English varieties. English as a global language; learning and teaching English as an international language.

Includes: Experiential Learning Activity

Prerequisite(s): ALDS 1001 and LING 1001.

Seminars three hours a week.

ALDS 3301 [0.5 credit]**Introduction to Deaf Studies**

A critical introduction to Deaf community and culture as they relate to a social model of disability, to ethnicity, and to issues of diversity and inclusion. Discourse analysis of research and policy in education for Deaf students from early childhood and beyond.

Includes: Experiential Learning Activity

Also listed as DBST 3301.

Precludes additional credit for ALDS 3903A if taken in Winter term 2016 or Winter term 2018, and ALDS 4906A, if taken in Fall term 2016.

Prerequisite(s): third-year standing in Linguistics or Applied Linguistics and Discourse Studies or enrolment in the Minor in Disability Studies.

Seminars three hours a week.

ALDS 3401 [0.5 credit]**Research and Theory in Academic Writing**

Study of contemporary research and theory (1970s to present) on academic writing in elementary, secondary and post-secondary school, with emphasis on writing in university. Consideration of what academic writing entails, how writing fosters learning, and how instruction can help students develop their writing abilities.

Includes: Experiential Learning Activity

Also listed as ENGL 3908.

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ALDS 3402 [0.5 credit]**Research and Theory in Workplace Writing**

Study of contemporary research and theory (1980s to present) in writing in workplace settings. Consideration of how writing is used in accomplishing work, how novices learn to write effectively, and what the implications are for pedagogy.

Includes: Experiential Learning Activity

Also listed as ENGL 3909.

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ALDS 3405 [0.5 credit]**Second Language Writing**

Theory and practice of second language (L2) writing: how people learn to write in a second language, and how L2 writing courses for specific groups of learners can be designed.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 3414 [0.5 credit]**Introduction to Professional Writing and Editing**

The fundamental skills of professional writing and editing, including writing for specific audiences, document design, revision strategies, copyediting.

Also listed as ENGL 3414.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week.

ALDS 3604 [0.5 credit]**Communication Differences and Disabilities II**

An in-depth examination of select topics in the field of communication differences and disabilities. An emphasis is placed on theoretical accounts of specific differences and disabilities and the cross-linguistic evidence for these accounts. Specific topics may vary from year to year.

Also listed as LING 3604.

Prerequisite(s): LING 1001 and one of ALDS 2604 or LING 2604.

Lectures three hours a week.

ALDS 3701 [0.5 credit]**Corpus Linguistics**

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as LING 3701.

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 3705 [0.5 credit]**Adult Literacy**

The extent and social contexts of restricted literacy in Canadian society; approaches to and debates surrounding the teaching and learning of adult literacy.

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ALDS 3706 [0.5 credit]**Discourse Analysis**

Principles of and studies in discourse analysis, including both conversational and textual/documentary analysis.

The major focus is on language use in structuring social relationships.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 3801 [0.5 credit]**Beyond the BA**

Students explore personal and professional transitions from undergraduate to entering the workforce or graduate school. Topics may include self-assessments, career management skills, and networking. Both academic and practical work, featuring interaction from career specialists, graduate schools, professionals, and employed ALDS graduates.

Includes: Experiential Learning Activity

Precludes additional credit for ALDS 3903C, if taken in Winter 2019; ALDS 3903B, if taken in Fall 2020 or Fall 2021.

Prerequisite(s): Third-year standing in ALDS or LING or permission of the School.

Seminars three hours a week.

ALDS 3900 [1.0 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Applied Linguistics and Discourse Studies.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

ALDS 3901 [0.5 credit]**Independent Study**

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Applied Linguistics and Discourse Studies.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the instructor.

ALDS 3903 [0.5 credit]**Special Topic in Applied Linguistics and Discourse Studies**

Selected topics in Applied Linguistics and Discourse Studies not ordinarily treated in the regular course program.

Lectures three hours per week.

ALDS 4201 [0.5 credit]**Language Testing**

The principles of test construction as applied to testing language proficiency, achievement and aptitude.

Structural, notional, discrete point and integrative tests.

Diagnostic assessment of language development, language disorders, and literacy. Students are expected to create, analyze and evaluate language tests.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 4203 [0.5 credit]**Methods and Practice in Language Pedagogy**

Integrates theory and description of language learning and teaching with practical work in one of the languages offered by the School. Requires observation in a language classroom, along with practical work facilitating in-class or language lab activities, or developing teaching materials.

Includes: Experiential Learning Activity

Precludes additional credit for ALDS 3803 (no longer offered).

Prerequisite(s): permission of the language instructor for the language class in which practical work will be conducted; proficiency in the language in question, as determined by either completion of the prerequisites for 4010 of that language, or assessment by the language instructor; or permission of the School.

Seminars and in-class practicum.

ALDS 4206 [1.0 credit]**Practicum in Teaching ESL**

Investigates the processes of classroom learning with observation and some teaching experience in ESL classes. Normally taken concurrently with ALDS 4305 and ALDS 4306.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the concurrent CTESL program, or enrolment in the post-graduate CTESL program.

ALDS 4207 [0.5 credit]**ESL Literacy**

The nature of everyday literacy and literacy skills. Analyzing the structure of everyday literacy texts and demands. Issues in literacy for second-language learners. Includes: Experiential Learning Activity
Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.
Lectures three hours a week.

ALDS 4208 [0.5 credit]**Languages for Specific Purposes**

An introduction to Languages for Specific Purposes - language instruction tailored to specific groups of learners, e.g. English for Science, for Business, for the Workplace, for Academic Purposes. Research and teaching methodology. Emphasis on EAP/ESP research and instruction at Carleton.
Includes: Experiential Learning Activity
Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.
Also offered at the graduate level, with different requirements, as ALDS 5208, for which additional credit is precluded.
Lectures three hours a week.

ALDS 4209 [0.5 credit]**Teaching English as a Foreign Language: Methodology for Global Contexts**

An introduction to the principles of teaching language in a foreign-language context; review of teaching approaches; practical examination, development and evaluation of instructional materials.
Includes: Experiential Learning Activity
Prerequisite(s): ALDS 4305 and fourth-year standing in the concurrent CTESL program, enrolment in the post-graduate CTESL program, the BGIInS Specialization in Teaching English in Global Contexts, or permission of the instructor.
Lectures three hours a week.

ALDS 4305 [0.5 credit]**Teaching English Language: Methodology I**

Classification of classroom teaching methods and materials; adaptation of teaching materials for particular situations; creation of teaching materials; teaching techniques and strategies.
Includes: Experiential Learning Activity
Precludes additional credit for ALDS 4205.
Prerequisite(s): fourth-year standing in the concurrent CTESL program, enrolment in the post-graduate CTESL program, or the BGIInS Specialization in Teaching English in Global Contexts, or permission of the instructor.
Seminars four hours a week.

ALDS 4306 [0.5 credit]**Teaching English as a Second Language: Methodology II**

Classification of classroom teaching methods and materials used in an international context; adaptation of teaching materials for particular situations; creation of teaching materials for global English language education; teaching techniques and strategies.
Includes: Experiential Learning Activity
Precludes additional credit for ALDS 4205.
Prerequisite(s): ALDS 4305 and fourth-year standing in the concurrent CTESL program, enrolment in the post-graduate CTESL program, or permission of the instructor.
Seminars four hours a week.

ALDS 4308 [0.5 credit]**English for Specific Purposes**

An introduction to English for Specific Purposes – English language instruction tailored to specific groups of learners (e.g., English for Academic Purposes, and English for a range of specific occupational and professional purposes). This course explores effective practices in course and materials design.
Prerequisite(s): ALDS 2203 or ALDS 4602 and third-year standing in the BGIInS Honours Specialization in Teaching English in Global Contexts, or enrolment in the CTESL program, or permission of the instructor.
Seminars three hours a week.

ALDS 4403 [0.5 credit]**Writing and Knowledge-Making in the Disciplines**

The role of writing in constructing knowledge in academic disciplines, as viewed from contemporary socio-cultural perspectives. Consideration of how the goals, values, and assumptions of different disciplines shape their writing in distinctive ways and what implications this holds for pedagogy.
Includes: Experiential Learning Activity
Also listed as ENGL 4909.
Prerequisite(s): third-year standing.
Lectures three hours a week.

ALDS 4404 [0.5 credit]**Writing and Knowledge-Making in the Professions**

The role of writing in constructing knowledge in the professions, as viewed from contemporary socio-cultural perspectives. How the goals, values, and assumptions of different professions shape their writing in distinctive ways and the implications for theory, research, and practice.
Includes: Experiential Learning Activity
Also listed as ENGL 4004.
Prerequisite(s): third-year standing or permission of the instructor.
Seminars three hours a week.

ALDS 4405 [0.5 credit]**Teaching Writing in School and the Workplace**

Introduction to approaches for teaching writing in elementary and secondary school, in university, and in the workplace, with a focus on socio-cultural theories of language and learning. Discussion of applications of these approaches to classroom and workplace teaching.

Includes: Experiential Learning Activity

Also listed as ENGL 4515.

Prerequisite(s): third-year standing, or permission of the instructor.

Lectures three hours a week.

ALDS 4414 [0.5 credit]**Professional Writing I**

The role of writing in government and NGOs.

Consideration of various genres, practices and styles of government and NGO writing, including, grant proposals, administrative reports, press releases, briefing notes, recommendation reports.

Includes: Experiential Learning Activity

Also listed as ENGL 4414.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week. May include a work placement.

ALDS 4415 [0.5 credit]**Professional Writing II**

The role of writing in science-related fields and in the health professions. Consideration of various genres, practices and styles of scientific and health-related writing, including, research reports, grant proposals, case reports, popularizations of science, press releases.

Includes: Experiential Learning Activity

Also listed as ENGL 4415.

Prerequisite(s): third-year standing or permission of the instructor.

Seminars three hours a week. May include a work placement.

ALDS 4602 [0.5 credit]**Second Language Acquisition**

Current issues in second language acquisition; factors influencing success in acquiring a second or additional language, discourse and culture. Emphasis on theoretical concepts, empirical research, and practical implications for language teaching.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 4606 [0.5 credit]**Statistics for Language Research**

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as LING 4606.

Precludes additional credit for ALDS 4906/LING 4009 Section "B" if taken Winter 2015 or Winter 2016.

Prerequisite(s): third-year standing in Linguistics or Applied Linguistics and Discourse Studies or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as ALDS 5604 and LING 5606, for which additional credit is precluded.

Seminars three hours a week.

ALDS 4709 [0.5 credit]**Systemic-Functional Linguistics**

Functions of language in the exchange of meanings between people in a wide variety of communicative situations. Semantic and syntactic resources at risk in these different contexts. Interactions between language and the social context.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or Linguistics, or Journalism, or Communication Studies, or permission of the instructor.

Also offered at the graduate level, with different requirements, as ALDS 5102, for which additional credit is precluded.

Lectures three hours a week.

ALDS 4801 [0.5 credit]**Major Structures of English**

This course is intended to familiarize students with the structure of the English language, highlighting important contrasts between English and other languages as well as grammatical difficulties for ESL learners.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor.

Lectures three hours a week.

ALDS 4900 [1.0 credit]**Independent Study**

Permits fourth-year Honours students to pursue their interests in a selected area of applied linguistics and discourse studies.

Prerequisite(s): permission of the instructor.

ALDS 4901 [0.5 credit]**Independent Study**

Permits fourth-year Honours students to pursue their interests in a selected area of applied linguistics and discourse studies.

Prerequisite(s): permission of the instructor.

ALDS 4906 [0.5 credit]**Special Topic in Applied Linguistics and Discourse Studies**

Selected topics in applied linguistics and discourse studies. Contents of this course vary from year to year. Lectures three hours a week.

ALDS 4908 [1.0 credit]**Honours Project in Applied Linguistics and Discourse Studies**

Individually designed intensive practicum or research experience. May involve (a) practicum or work study placement in writing or literacy studies, language syllabus design or test development; (b) intensive research activity in an area of Applied Linguistics and Discourse Studies. All projects include substantial written work.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Applied Linguistics and Discourse Studies, a CGPA of 9.00 or better, or permission of the School.

Tutorial hours arranged.

Archaeology (Minor)

This section presents the requirements for programs in:

- Minor in Archaeology

Minor in Archaeology (4.0 credits)

Open to all undergraduate degree students.

Requirements:

- | | |
|---|------------|
| 1. 1.0 credit in: | 1.0 |
| ARCY 1008 [0.5] Introduction to Archaeology I
& ARCY 1009 [0.5] Introduction to Archaeology II | |
| Or | |
| CLCV 1008 [0.5] Introduction to Archaeology I
& CLCV 1009 [0.5] Introduction to Archaeology II | |
| 2. 1.0 credit in ARCY or approved electives at the 2000 level | 1.0 |
| 3. 1.0 credit in ARCY or approved electives at the 3000 level | 1.0 |
| 4. 1.0 credit in ARCY or approved electives at any level | 1.0 |
| 5. The remaining requirements of the major discipline(s) and degree must be satisfied. | |

Total Credits **4.0**

Approved Archaeology Electives

Other courses may be substituted for those specified below, when material on archaeology is central to the course. Such substitutions must be individually approved by the Greek and Roman Studies Program Coordinator.

Note: "R" designates that the course is repeatable.

Anthropology

ANTH 1001 [0.5]	Introduction to Socio-Cultural Anthropology
ANTH 3580 [0.5]	Anthropology of Material Culture and Museums

Art History

ARTH 1100 [0.0]	Art and Society: Prehistory to the Renaissance
-----------------	--

ARTH 1101 [0.0]	Art and Society: Renaissance to the Present
ARTH 1200 [0.0]	History and Theory of Architecture: Prehistory to 1500
ARTH 1201 [0.0]	History and Theory of Architecture: 1500 to Present
ARTH 2102 [0.5]	Greek Art and Archaeology
ARTH 2105 [0.5]	Roman Art and Archaeology
ARTH 2202 [0.5]	Medieval Architecture and Art
ARTH 2310 [0.5]	Architecture of the Early Modern World [1400-1750]
ARTH 2510 [0.5]	Architecture of the 18th and 19th Centuries
ARTH 3102 [0.5]	Studies in Greek Art
ARTH 3105 [0.5]	Studies in Roman Art

Biology

BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2005 [0.5]	Human Biology

Chemistry

CHEM 1007 [0.5]	Chemistry of Art and Artifacts
-----------------	--------------------------------

Digital Humanities

Technology, Society, Environment Studies

TSES 2305/ Ancient Science and Technology

CLCV 2305 [1.0]

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Continuation Evaluation (see the Academic Regulations of the University section of this Calendar).

Archaeology (ARCY) Courses

ARCY 1008 [0.5 credit]

Introduction to Archaeology I

Introduction to the history, theory and practice of field archaeology. Excavations from all time periods and global regions will be discussed. Focus will be placed on excavation methods and technology, including dating, that enhance understanding of sites both on land and underwater.

Also listed as CLCV 1008.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week

ARCY 1009 [0.5 credit]

Introduction to Archaeology II

Continues the examination of various aspects of field archaeology begun in ARCY 1008 (also CLCV 1008). This course places greater focus on recent approaches to the interpretation of remains. These include environmental, cognitive and bioarchaeological approaches.

Also listed as CLCV 1009.

Precludes additional credit for CLCV 2300 (no longer offered).

Lecture three hours a week.

ARCY 3000 [0.5 credit]

Archaeological Field Work I

Students will participate for a minimum of three weeks on an archaeological field project (ie. excavation or survey). They will learn archaeological documentation and the analysis, recording, and processing of finds. The field project may be anywhere in the world and any time period.

Includes: Experiential Learning Activity

Prerequisite(s): ARCY 1008 and ARCY 1009 or CLCV 1008 and CLCV 1009 or CLCV 2300 (no longer offered) and permission of the unit. Permission of the unit is required to repeat this course.

Field work

ARCY 3301 [0.5 credit]

Field Work I: Greek and Roman World

Students will participate for a minimum of three weeks on an archaeological field project (ie. excavation or survey) relevant to the Greek and Roman world. They will learn archaeological documentation and the analysis, recording, and processing of finds.

Includes: Experiential Learning Activity

Also listed as CLCV 3301.

Prerequisite(s): ARCY 1008 and ARCY 1009 or CLCV 1008 and CLCV 1009 or CLCV 2300 (no longer offered) and permission of the unit. Permission of the unit is required to repeat this course.

Field work

ARCY 4000 [0.5 credit]

Field Work II: Greek and Roman World

Students participate for a minimum of three weeks in a position of responsibility (for example, as a trench supervisor or lab assistant) on an archaeological field project relevant to the Greek and Roman world.

Includes: Experiential Learning Activity

Also listed as CLCV 4000.

Prerequisite(s): 0.5 credit in fieldwork at third year level and permission of the unit. Permission of the unit is required to repeat this course.

Field Work

ARCY 4100 [0.5 credit]

Archaeological Field Work II

Students participate for a minimum of three weeks in a position of responsibility on an archaeological field project (eg. trench supervisor or lab assistant). The field project may be anywhere in the world and any time period.

Includes: Experiential Learning Activity

Prerequisite(s): 0.5 credit in fieldwork at third year level and permission of the unit. Permission of the unit is required to repeat this course.

Field work

Architectural Studies

This section presents the requirements for programs in:

- Design B.A.S.
- Urbanism B.A.S. Honours
- Conservation and Sustainability B.A.S. Honours

The Azrieli School of Architecture and Urbanism cooperates with the School for Studies in Art and Culture in offering the History and Theory of Architecture B.A. and B.A. Honours programs (see the Art History program section of this Calendar for details).

Course Categories

Urbanism Core Electives

AFRI 3004 [0.5] The African City

ARCC 1202 [0.5] History of Structures

6. 0.5 credit in	Conservation and Sustainability core electives	0.5
7. 1.0 credits in	free electives	1.0
Total Credits		20.0

Regulations (B.Architectural Studies)

In addition to the specific program requirements, students must satisfy the academic regulations of the university, and the faculty regulations for the degree, below. Students should consult the School when planning their program and selecting courses.

Residency Requirement

B.A.S. Hons.

- Conservation and Sustainability
- Urbanism

To be eligible to graduate, students in these programs must present a minimum of 5.0 residency credits in their degree program.

B.A.S.

- Design

To be eligible to graduate, students in this program must present a minimum of half the total number of credits required in their program as residency credits.

For more information, consult section 2.2.2/3.4.1 Minimum Number of Residency Credits (Residency and Advanced Credits) in the Academic Regulations of the University section of this Calendar.

Retention of Work

Keeping a good portfolio is a most important part of architectural education. A portfolio represents a record of the student's progress and design experience over the years, and is an indispensable requirement for any future job application. A portfolio is started in first year and continues to expand until graduation. The School,

therefore, requires that each student produce reductions (normally 8 1/2 x 11 inch reproductions, colour or black and white, slides, and/or digital format CD) of his or her work at the end of each term. One copy of the work should be put in the student's portfolio and the other turned in to the instructor for retention in the School's archives. (This facilitates retrospective exhibitions of work, accreditation, publications and any future references for pedagogic purposes.) Original work is the property of the students, but the School retains the right to keep work of merit for up to two years after the date of submission. The School will make every effort to preserve the work in good condition, and will give authorship credit and take care of its proper use.

Academic Continuation Evaluation for Bachelor of Architectural Studies

B.A.S. Conservation and Sustainability, B.A.S. Urbanism

Students in these programs are Honours students, and follow the continuation requirements governing Honours programs as described in Section 3.2.6 of the *Academic Regulations of the University*, with the additions and amendments listed below.

Students with 15.5 or more program credits completed, but who have a Major CGPA less than 6.00, will be required to leave the B.A.S. Conservation and Sustainability or B.A.S. Urbanism programs with the decision *Required to Withdraw for Two Terms* (WT).

B.A.S. Design

B.A.S. Design students follow the continuation requirements governing the B.A.S. Design program as described in Section 3.2.6 of the *Academic Regulations of the University*, with the additions and amendments listed below.

All B.A.S. Programs

The following additions and amendments apply to all B.A.S. programs:

1. Whenever the student is assessed, the Core minimum is applied, as described in point 2 below.
2. The status *Eligible to Continue* (EC) requires a minimum grade of C- in each B.A.S. Core course.
3. The B.A.S. Core Courses consist of the following:

B.A.S. Design

ARCS 1005 [0.5]	Drawing
ARCS 1105 [1.0]	Studio 1
ARCS 2105 [1.5]	Studio 2
ARCS 2106 [1.5]	Studio 3
ARCS 3105 [1.5]	Studio 4
ARCS 3107 [1.0]	Studio 5
ARCS 4105 [1.5]	Comprehensive Studio
ARCS 4107 [1.0]	Option Studio

B.A.S. Urbanism

ARCS 1005 [0.5]	Drawing
ARCS 1105 [1.0]	Studio 1
ARCS 2303 [1.0]	Urbanism Studio 1: Fundamentals of Urbanism

ARCS 2304 [1.0] Urbanism Studio 2: Urbanism in the Core

ARCS 3304 [1.0] Urbanism Studio 3: Urbanism on the Periphery

ARCS 3306 [1.0] Urbanism Studio 5: Global Perspectives

ARCS 4105 [1.5] Comprehensive Studio

B.A.S. Conservation and Sustainability

ARCS 1005 [0.5] Drawing

ARCS 1105 [1.0] Studio 1

ARCS 2302 [1.0] Conservation Studio 1

ARCS 3301 [1.0] Conservation Studio 2

ARCS 3302 [1.0] Conservation Studio 3

ARCS 4301 [1.5] Conservation Studio 4

ARCC 3502 [0.5] Introduction to Architectural Conservation

4. Students whose Academic Continuation Evaluation results in the status *Required to Withdraw for Two Terms* (WT) must leave the B.A.S. degree. Application for readmission to any B.A.S. program may be made after this time.

See the *Academic Regulations of the University* section of the Calendar for additional information.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Architectural Studies: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the B.A.S. program;
2. Obtained and maintained an overall CGPA of 9.00 or higher.

Students in the Bachelor of Architectural Studies must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Report Course: ARCN 3999 [0.0]

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	W	Fall	S
Winter	S	Winter	S	Winter	S	Winter	W/S	Winter	S
Summer		Summer		Summer	W	Summer	W/S		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by

program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Architectural Studies (B.A.S.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include English, Physics, and Advanced Functions. Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement. Calculus and Vectors is strongly recommended.

Note: a portfolio is required. Detailed information about the portfolio requirements can be found on the Undergraduate Admissions website at admissions.carleton.ca.

Advanced Standing

Applications for admission to the second or subsequent years will be assessed on their merits. Applicants must normally be *Eligible to Continue* in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applicants will also be required to complete a portfolio which will assist in the evaluation of their suitability for the program. Detailed information about the portfolio requirements can be found at admissions.carleton.ca.

Students will not receive credit for courses graded below C-.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the B.A.S. program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Architecture - Studio (ARCS) Courses

ARCS 1005 [0.5 credit]

Drawing

Free-hand drawing as a way of observing and understanding the world. Various media and techniques introduced through a wide range of studio and outdoor exercises. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): registration in the B.A.S. program.

Six hours a week.

ARCS 1105 [1.0 credit]

Studio 1

Students from all BAS majors are introduced to the fundamentals of designing for the built environment using the conventions of varied modes of analog representation and physical making. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): registration in the B.A.S. program.

Studio eight hours per week.

ARCS 2105 [1.5 credit]

Studio 2

Supported by the core curriculum, focuses on small-scale building in a local context. Using analog methods, projects introduce the integration of basic structure and building systems while furthering fundamental concepts such as space, inhabitation, and materiality. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCS 1005 and ARCS 1105.

Twelve hours studio, plus one hour lecture per week.

ARCS 2106 [1.5 credit]

Studio 3

With a focus on small to medium scale building projects, projects consider analog and digital methods to advance consideration of site, program, and the materials as the means for shaping the built environment. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCS 1005 and ARCS 1105.

Twelve hours studio, plus one hour lecture per week.

ARCS 2302 [1.0 credit]**Conservation Studio 1**

Conservation methodologies will be tested and studied through design exercises and historical research on existing architectures, cities and landscapes. The emphasis on the understanding and the relation with the setting will be essential.

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 3502, ARCS 1005, ARCS 1105 and second-year standing in B.A.S. major Conservation and Sustainability or permission of the School.

Eight hours studio per week.

ARCS 2303 [1.0 credit]**Urbanism Studio 1: Fundamentals of Urbanism**

Through readings, discussions and projects, students will examine a number of the forces that produce the built environment and explore a variety of approaches to documenting, representing, analyzing, organizing and controlling the growth, shape, density, and mix of uses associated with cities.

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 2303 (no longer offered), ARCU 3501 (no longer offered).

Prerequisite(s): ARCS 1005 and ARCS 1105, or permission of instructor.

Eight hours studio, plus one hour lecture per week.

ARCS 2304 [1.0 credit]**Urbanism Studio 2: Urbanism in the Core**

Intensification, revitalization, gentrification, brownfield redevelopment, sustainability, development standards, form-based codes, and the larger impact of migration on urban density. Through design, students explore the ramifications of practices, policies, pressures, processes and cultural preferences on the evolving form and function of the urban core.

Includes: Experiential Learning Activity

Precludes additional credit for ARCS 3303 (no longer offered).

Prerequisite(s): ARCS 1105, and third-year standing in B.A.S. Urbanism major or permission of the School.

Eight hours studio, plus one hour lecture per week.

ARCS 3105 [1.5 credit]**Studio 4**

Supported by the core curriculum, focuses on a medium-scale building within a regional context. May include a small design-build. Projects further analog and digital methods. May introduce concepts like adaptive re-use while furthering the understanding of structure and building systems in a complex building. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCS 2105 and ARCS 2106.

Twelve hours studio, plus one hour lecture per week.

ARCS 3107 [1.0 credit]**Studio 5**

The Directed Studies Abroad (DSA) studio considers large-scale, mixed-use buildings in an international context. Design projects advance analog and digital methods to explore broader cultural and social conditions within a complex site often in conjunction with a site visit abroad. (Core Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCS 3106 (no longer offered).

Prerequisite(s): ARCS 2105 and ARCS 2106.

Eight hours studio, plus one hour lecture per week.

ARCS 3301 [1.0 credit]**Conservation Studio 2**

Historical building projects exploring architecture as a form of cultural expression. Consideration of site, program and materials. Introduction of conservation, sustainability and adaptive re-use principles, development standards, architectural codes, using case studies in Ottawa and elsewhere. Physical, digital drawings and models to explore designs. (Core).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 3301 (no longer offered).

Prerequisite(s): ARCC 3502, ARCS 2302 and third-year standing in B.A.S. Conservation and Sustainability major or permission of the School.

Studio eight hours per week.

ARCS 3302 [1.0 credit]**Conservation Studio 3**

The role of architecture in culture, stressing site and program with respect to their historic, social and ecological implications. Synthesis of issues, methods and techniques of the conservation and sustainability curriculum. (Core Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 3302 (no longer offered).

Prerequisite(s): ARCS 3301 and third-year standing in B.A.S. Conservation and Sustainability major or permission of the School.

Studio eight hours per week.

ARCS 3304 [1.0 credit]**Urbanism Studio 3: Urbanism on the Periphery**

Urbanization, sprawl, growth models, land consumption, containment strategies (smart growth, greenbelts, growth boundaries), edge cities, the Just City, Ecological Urbanism, and informal suburbanization in developed and developing countries. Through design, students explore the impact of practices, pressures, processes and cultural preferences on the expanding city.

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 3304 (no longer offered).

Prerequisite(s): ARCS 2303 and ARCS 2304 and third-year standing in B.A.S. Urbanism major or permission of the School.

Eight hours studio, plus one hour lecture per week.

ARCS 3306 [1.0 credit]**Urbanism Studio 5: Global Perspectives**

Urbanization as a global phenomenon. Study of various forms of urbanization and de-urbanization in relation to economic, political and cultural forces. Through design, students explore the (trans)formation of settlements and communities outside of the North American context.

Includes: Experiential Learning Activity

Precludes additional credit for ARCS 4304 (no longer offered).

Prerequisite(s): ARCS 2303 and ARCS 2304 and third-year standing in B.A.S. Urbanism major or permission of the School.

Eight hours studio, plus one hour lecture per week.

ARCS 4105 [1.5 credit]**Comprehensive Studio**

Focussing on multi-unit housing, students from BAS majors collaborate to develop strategies for redevelopment of large urban sites. Engages urban design, site planning, programming, adaptive reuse, and community consultation. Students produce detailed designs for buildings, emphasizing building systems and envelope design. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCS 3105 and ARCS 3107, or ARCS 3303 and ARCS 3304.

Twelve hours studio, plus one hour lecture per week.

ARCS 4107 [1.0 credit]**Option Studio**

Offers a range of topics for exploration. Students use analog and digital methods and techniques to culminate the undergraduate studio sequence while offering focused research-led investigation into key social, political, spatial issues. (Core Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCS 4106 (no longer offered).

Prerequisite(s): ARCS 3105 and ARCS 3107.

Eight hours studio, plus one hour lecture per week.

ARCS 4301 [1.5 credit]**Conservation Studio 4**

Issues of program and site as the culturally defining aspects of sustainable architectural practice within complex urban and social situations, using difficult sites, historically significant buildings and/or locations and hybrid programs. projects brought to a high degree of formal and graphic resolution. (Core Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 4301 (no longer offered).

Prerequisite(s): ARCS 3302 and fourth-year standing in B.A.S. Conservation and Sustainability major or permission of the School.

Twelve hours studio and one hour of lecture per week.

ARCS 4302 [1.0 credit]**Conservation Studio 5**

Conservation decision-making process and contemporary conservation concepts in the development of a design for the adaptive reuse, in Ottawa and elsewhere.

Consideration of sustainability aspects, site, program, and materials.

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 4302 (no longer offered).

Prerequisite(s): ARCS 4301 and fourth-year standing in B.A.S. Conservation and Sustainability major or permission of the School.

Studio eight hours per week.

ARCS 4303 [1.5 credit]**Urbanism Studio 4: Housing**

Housing as it affects urban form. The design of multi-unit housing in a variety of forms and for a range of demographic groups. After thorough research of applicable codes and bylaws, students engage the design of housing at the site, building and detail level.

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 4303 (no longer offered).

Prerequisite(s): ARCS 3303 and ARCS 3304 and fourth-year standing in B.A.S. Urbanism major or permission of the School.

Studio twelve hours per week and one hour lecture.

Architecture - Technical (ARCC) Courses**ARCC 1202 [0.5 credit]****History of Structures**

A survey of the history, theory, and science of structures pertaining to buildings and civic works. Structural systems, construction techniques, materials and details, and the cultural factors involved in the synthesis of traditional structural design.

Includes: Experiential Learning Activity

Prerequisite(s): registration in B.A.S.

Lectures three hours a week, laboratory is block scheduled.

ARCC 2001 [0.5 credit]**Structures in Architecture**

Survey of structural planning, including a historical survey of structural systems, details and the study of the factors involved in the synthesis of a suitable structural scheme.

The course is intended as a survey of the science and the structural properties of materials. (Elective Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 1103.

Lectures three hours a week, laboratory is block scheduled.

ARCC 2100 [0.5 credit]**Design and the Environment**

Examines varied methods and techniques to understand the people, places, and potentials of landscapes with a focus on equity and an ethics of care for social and physical environments.

Prerequisite(s): Second-year standing or permission of the School.

Lecture three hours per week

ARCC 2202 [0.5 credit]**Architectural Technology 1**

General introduction to materials and methods of construction with focus on wood and timber frame construction. Site conditions, foundations, structure and envelope design in terms of their response to local climate: sun (light and heat) wind, moisture. (Core course).

Prerequisite(s): permission of the School.

Lectures three hours a week.

ARCC 2203 [0.5 credit]**Architectural Technology 3**

Wood frame, post and beam, steel and concrete systems and construction techniques. Structural systems and building envelope principles and practise are explored in conjunction with mechanical and electrical systems in smaller buildings. Emphasis on precedent, tradition and methodology of architectural detailing for construction.

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 2202 and third-year standing for B.A.S. students and third-year standing for students in B.Eng. Architectural Conservation and Sustainability.

Lectures three hours a week.

ARCC 3004 [0.5 credit]**Workshop: Energy and Form**

Relationship between environmental factors, energy and architectural form. Ways in which buildings and building elements can be planned and designed to take advantage of natural cycles in order to minimize the need for supportive energy inputs. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCC 3202 [0.5 credit]**Architectural Technology 4**

Medium scale steel, concrete, and wood frame buildings as case studies to explore approaches to building science principles, building envelope design, advanced construction methods and materials, acoustics and sound control, and fire protection. Focus on sustainable design strategies and environment impact. (Core course).

Prerequisite(s): ARCC 2203 and third-year standing for B.A.S. students or ARCC 2203 and third-year standing for students in B.Eng. Architectural Conservation.

Lectures three hours a week.

ARCC 3305 [0.5 credit]**Materials Application**

Application of building materials, including the forming of building parts and the design of joints for performance and assembly. Practical constructions using new technology are emphasized. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCC 3502 [0.5 credit]**Introduction to Architectural Conservation**

Introduces conservation concepts to understand the values associated with existing buildings and landscapes. Through the analysis of sites and case studies, students will discuss the potentials and limitations of architectural conservation, as well as, testing its possibilities for sustainable retrofitting practices.

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 3501 (no longer offered).

Lectures three hours per week

ARCC 3902 [0.5 credit]**Architectural Technology**

A specific aspect of architecture in the area of architectural technology. Offerings vary from year to year. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCC 4100 [0.5 credit]**Lighting for Architecture**

A study of daylighting and/or lighting design techniques, with a focus on project-based learning. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 2203 or permission of the School.

Lecture, seminar, workshop or field work six hours a week.

ARCC 4102 [0.5 credit]**Acoustics in Architecture**

Sound in enclosures, including interior design of auditoria and special applications. Sound reproduction and reinforcement systems. Acoustic privacy and protection, sound control in buildings, materials for noise control, community noise, industrial noise. Acoustic measurements and instrumentation. (Elective Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 3002.

Lectures two hours, laboratory two hours a week.

ARCC 4103 [0.5 credit]**Energy and Form**

Energy as a criterion in decision-making for architectural design. Conventional energy resources and state-of-the-art alternative energy resource systems with respect to building shape, size, materials, openings, orientation, siting, and use. (Elective Course).

Precludes additional credit for ARCC 3003.

Lectures three hours a week.

ARCC 4200 [0.5 credit]**Structural Morphology**

Interdisciplinary study of structural and developmental morphology focusing on dynamic generative design processes, integrative systems, spatial modulations and fundamental generative principles of spatial form and structure as it relates to architecture. (Workshop).

Includes: Experiential Learning Activity

Lectures, seminar, workshop or field work six hours a week.

ARCC 4202 [0.5 credit]**Wood Engineering**

Introduction to structural design in timber. Properties, anatomy of wood, wood products, factors affecting strength and behaviour, strength evaluation and testing. Design of columns, beams and beam-columns. Design of trusses, frames, glulam structures, plywood components, formwork, foundations, connections, connectors.

Inspection, maintenance and repair. (Elective course).

Prerequisite(s): CIVE 2200, CIVE 2700.

Lectures three hours a week, problem analysis three hours alternate weeks.

ARCC 4207 [0.5 credit]**Advanced Building Assessment**

In-depth study of the conventions, methods, and tools used in the assessment of buildings and their sties including traditional field survey, photogrammetry, laser scanning technologies, and hybrid representations.

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 4900 (no longer offered).

Prerequisite(s): enrolment in the BAS Conservation and Sustainability program and fourth-year standing.

Laboratories, lectures, field trips, six hours a week.

ARCC 4300 [0.5 credit]**Building Materials**

Contemporary and traditional construction techniques and materiality are discussed within the framework of current practices, with emphasis on the analysis of material properties, structure and sustained performance, as well as their contribution to the adaptive reuse of existing and/or historical building. (Elective Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCC 3300.

Laboratories, lectures, field trips four hours a week.

ARCC 4400 [0.5 credit]**Design for Construction**

Design in relation to materials and building construction including the effects of building codes, zoning bylaws, approvals, processes and legislation, the organization of the building industry, and cost estimating control. (Elective Course).

Includes: Experiential Learning Activity

Prerequisite(s): ARCC 3300 or permission of the School.

Lectures, seminars, field work three hours a week.

ARCC 4500 [0.5 credit]**Design Economics**

Principles of building economics. Determinants and prediction of building costs. Uncertainty and investment economics. Creative cost control for buildings during schematic design, design development, construction document preparation and construction. Economic evaluation during all phases of design process; emphasis on sustainable strategies.

Precludes additional credit for ARCC 3500.

Prerequisite(s): fourth-year standing in the B.A.S. program or permission of the School.

Three hours a week.

ARCC 4801 [0.5 credit]**Architectural Technology**

A specific aspect of architecture in the area of architectural technology. Topics vary from year to year. (Elective Course).

Prerequisite(s): permission of the School.

ARCC 4808 [0.5 credit]**Independent Study**

(Elective Course).

ARCC 4909 [1.0 credit]**Honours Project**

Students propose a topic of study in Conservation & Sustainability for approval and produce a substantial research project, supervised by BAS faculty. (Core Course).

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in BAS (Conservation and Sustainability).

Architecture - Techniques (ARCN) Courses

ARCN 1005 [0.5 credit]

Introduction to Drawing: Seeing Through the Hand

Fundamental concepts of line and line weight, light and shadow, perspective, contrast and composition. Exercises will include some mixed media and will introduce students to drawing as a way of translating ideas into images.

Includes: Experiential Learning Activity

One hour lecture and two hours drawing/discussion.

ARCN 2105 [0.5 credit]

Introduction to Computer Modeling

Computer modeling as a medium of architectural analysis, documentation, and presentation. Principles and techniques of 2D drawing and 3D modeling. Extensive practical work using appropriate applications. (Core Course).

Includes: Experiential Learning Activity

Three hours lecture and three hours lab per week

ARCN 2106 [0.5 credit]

Introduction to Multimedia

Analogue and digital systems and graphic processes used in the making of images. Fundamentals of still photography and videography combined with current computer technologies in the application of visual communication techniques.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 2106.

Lectures three hours a week, laboratory three hours a week.

ARCN 3003 [0.5 credit]

Theatre Production

Design and fabrication of theatre productions, one of which is staged on campus. Visiting directors, designers, technical consultants and others. Visits to theatres and production facilities. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3206 [0.5 credit]

Computer Applications

Application of existing software and programming techniques to various architectural problems. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3302 [0.5 credit]

The Anatomy of Architecture

The architectural anatomy of selected contemporary buildings. Use of graphic techniques of analysis to develop an understanding of their basic compositional principles and language. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3303 [0.5 credit]

Architecture as Painting

Analysis of architecture for its elemental, formal and narrative properties. These relationships through the medium of painting. Architecture as analogy to painting. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3400 [0.5 credit]

Visual Design

Development of the capacity to visualize and communicate in several graphic media. Development of sensitivity to form, structure, space, texture and colour. May involve historical investigation. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3401 [0.5 credit]

Photography

Traditional and alternative techniques for image making and manipulation. Basic image formation techniques, advanced darkroom manipulations, past-darkroom imaging, and digital imaging within a theoretical overview of current photographic processes and techniques. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCN 3999 [0.0 credit]

Co-operative Work Term

Includes: Experiential Learning Activity

ARCN 4100 [0.5 credit]

Historic Site Recording and Assessment

Methods of heritage building documentation including hand recording, photography, rectified photography, total station, gps, photogrammetry, and laser scanning. Non-destructive testing techniques; environmental assessment tools for determining air quality and energy efficiency. Multidisciplinary teams for all project work.

Includes: Experiential Learning Activity

Also listed as CIVE 3207.

Precludes additional credit for ARCN 3100 (no longer offered).

Prerequisite(s): second-year standing in B.A.S.

Conservation and Sustainability.

Lectures three hours a week, lab or field work two hours a week.

ARCN 4102 [0.5 credit]**Problems in Computing**

Various types of non-numeric data, their representation within primary and secondary storage, and the manipulation of various representations. Comparative evaluation of languages for non-numeric problems. (Elective Course).

Includes: Experiential Learning Activity

Precludes additional credit for ARCN 3102.

Prerequisite(s): permission of the School.

Lectures two hours a week, laboratory two hours a week.

ARCN 4103 [0.5 credit]**Digital Fabrication and Theory**

The changing relationship of architectural design and digital technology with a focus on 1:1 constructions using emerging computational software and fabrication techniques. (Workshop/Elective Course).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lectures two hours a week, laboratory two hours a week.

ARCN 4200 [0.5 credit]**Building Pathology and Rehabilitation**

Deterioration mechanisms for concrete, timber, steel and masonry structures. Identification of design deficiencies; criteria for selection and design of rehabilitation systems. Design techniques to reduce deterioration in new construction and historical structures.

Includes: Experiential Learning Activity

Also listed as CIVE 4601.

Prerequisite(s): ARCN 4100 and third-year standing in B.A.S. Conservation and Sustainability.

Lectures three hours a week, lab/field work two hours a week.

ARCN 4808 [0.5 credit]**Independent Study**

(Elective Course).

Includes: Experiential Learning Activity

Architecture - Theory/History (ARCH) Courses**ARCH 1000 [0.5 credit]****Introduction to Architecture**

Architecture in the matrix of human conditions: linkages among architecture, fine arts, humanities, social sciences, physical sciences, mathematics and philosophy.

Architectural ideas will be introduced through a discussion of cities, buildings and landscapes. (Core Course).

Lectures three hours a week.

ARCH 1005 [0.5 credit]**Contemporary Society**

The relationship of architecture, architectural thought and the architectural profession to the societies in which they exist (and which they must serve). Topics are selected to emphasize key issues. (Elective Course).

Lectures and seminars, three hours a week.

ARCH 2006 [0.5 credit]**Theory and History of Design**

The theoretical and historical background of industrial design and design; disciplinary foundations and interdisciplinary connections; methodological aspects and economic and social contexts; contemporary scenarios in design; technological innovation and manufacturing processes. (Elective course).

Also listed as IDES 1000.

Lectures three hours a week.

ARCH 2101 [0.5 credit]**Industrial Design Analysis**

Principles of comparative product design analysis covering marketing and sales, manufacturing techniques and materials, ambiance and qualities of the object/context relationship, and design analysis from the perspective of the designer, the end-user and the environment. (Elective course).

Includes: Experiential Learning Activity

Also listed as IDES 1001.

Prerequisite(s): ARCH 2006 or IDES 1000.

Lectures three hours a week.

ARCH 2300 [0.5 credit]**Introduction to Modern Architecture**

Architectural and urban ideals of modernism with emphasis upon the development of the avant-garde in the early twentieth century. The phenomenon of modern architecture within the broader framework of the development of western thought. (Core Course).

Precludes additional credit for ARCH 3009.

Prerequisite(s): B.A.S. students require ARTH 1100 or ARTH 1200 and ARTH 1101 or ARTH 1201.

Lectures three hours a week.

ARCH 3208 [0.5 credit]**Urban Space Architecture**

Design explorations that are directed towards the search for aesthetic form and meaning in urban space, with particular application to the Canadian context. Project-oriented. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCH 3601 [0.5 credit]**Architectural Discourse I**

Examines ideas relevant to contemporary architectural discourses and practices focused on the development of critical thinking and communication skills situated in emerging inquiries within a longer lineage of existing architectural theory. (Core Course).

Prerequisite(s): Third-year standing or permission of the School.

Lecture 3 hours per week

ARCH 3902 [0.5 credit]**Theory of Architecture**

Workshop focuses on one specific aspect of architecture in the area of theory and history. Workshop offerings change from year to year. (Workshop).

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCH 4002 [0.5 credit]**Canadian Architecture**

Canadian architecture from the seventeenth century to the present. Building styles, methods, construction techniques, and materials in the context of social and economic conditions of both indigenous and settlement approaches to the built environment.

Includes: Experiential Learning Activity

Also listed as ARTH 3002.

Precludes additional credit for ARCH 3002.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures, seminars three hours a week.

ARCH 4004 [0.5 credit]**Architectural Theory**

An exploration of architectural intentions in the early period of Western history, with special emphasis on Renaissance treatises and ideas. Architectural intentions in relation to shifting world-views as a basis of historical interpretation. (Theory/History Elective).

Precludes additional credit for ARCH 3007.

Lectures three hours a week.

ARCH 4006 [0.5 credit]**Origins of Modernism**

Exploration of architectural theories with special emphasis on the European context from the seventeenth century to the late nineteenth century. (Theory/History Elective).

Precludes additional credit for ARCH 3008.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4008 [0.5 credit]**Foundations of Modernism**

Major critical perspectives as applied to architecture as a fine art. The debate between classicism and romanticism with consideration of its cultural roots. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4009 [0.5 credit]**Theory of the Avant-Garde**

Exploration of architectural theories with special emphasis on the development of the avant-garde in the early twentieth century, looking at the avant-garde within the larger framework of modernism. (Theory/History Elective).

Precludes additional credit for ARCH 3009.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4105 [0.5 credit]**Theories of Landscape Design**

Introduction to landscape architecture as the organization of outdoor space. Historical, cultural, economic and political factors as a basis for interpreting spatial organization in urban and rural areas of human settlement. Emphasis on the period from the fifteenth to the nineteenth century. (Theory/History Elective).

Prerequisite(s): second-year standing or above.

Lectures three hours a week.

ARCH 4200 [0.5 credit]**Architectural Conservation Philosophy and Ethics**

Analysis of philosophical theories and related approaches to the material transformation of buildings. Micro-histories in architectural conservation theory and practice; overview of historical and contemporary concepts in architectural conservation. Preservation, restoration, rehabilitation, reconstruction, adaptive re-use, conservation anamnesis, diagnosis.

Precludes additional credit for ARCH 3100 (no longer offered).

Prerequisite(s): ARCC 3502 and third-year standing in B.A.S.; OR third-year status in B.Eng. (Architectural Conservation and Sustainability).

Lectures three hours a week.

ARCH 4201 [0.5 credit]**History of Modern Housing**

Study of housing as a function of social organization, demographics, market demand and public policy. Topics include the evolution of housing form, the role of the state, and the participation of architects in the housing marketplace in the 19th and 20th century. (Theory/History Elective).

Prerequisite(s): third-year standing in the B.A.S. program or permission of the School.

Lectures three hours a week.

ARCH 4204 [0.5 credit]**The Design Professions**

Architecture and design professions in relation to traditional professions and to occupations in art and design. Professions in the development of culture and society; education, career and work; knowledge in the design professions; and the nature of design practice. (Elective Course).

Also listed as SOCI 4204.

Prerequisite(s): third-year standing in the B.A.S. program; fourth-year standing in Sociology; fourth-year standing in the B.A. Honours Architecture/Art History program; or permission of the School.

Seminar three hours a week.

ARCH 4205 [0.5 credit]**User-Building Synopsis**

Projects to develop skills in the analysis of building performance. Examination of occupancy analysis, safety and risk assessment, post-occupancy evaluation, and social impact assessment. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCH 4206 [0.5 credit]**Recycling Architecture in Canada and Abroad**

Concepts of mediating old and new architecture at the scale of the city through to the detail of the construction joint. Issues in sustainability and cultural identity illuminated by recycled architecture and adaptive reuse are explored through readings, drawings and case studies. (Theory/History Elective).

Prerequisite(s): third-year standing in the B.A.S. program or by permission of the instructor or fourth-year standing in the B.Eng. Architectural Conservation and Sustainability program.

Lectures three hours a week.

ARCH 4300 [0.5 credit]**Neo-Classical Architecture**

18 th - and 19 th- century architecture and urban form in Western Europe. Emphasis on the cultural and philosophical framework of rising modernity to illuminate architectural production and theory as well as the development of urban form. (Theory/History Elective). Precludes additional credit for ARCH 1201 and ARCH 2200.

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4301 [0.5 credit]**Post-War Architecture**

Theoretical, ideological and artistic debates that have influenced the development of world architecture since 1950. (Theory/History Elective).

Also listed as ARTH 4604.

Prerequisite(s): ARCH 2300 or ARTH 3609 or permission of the instructor.

Lecture or seminar three hours per week.

ARCH 4302 [0.5 credit]**Pre-Columbian Architecture**

Monumental temples of the ancient Mesoamericans are compared with other world traditions at similar levels of cultural development. Selected examples considered in terms of morphology, technology, iconography, social/ political context, world view and general architectural theory. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4303 [0.5 credit]**Greek Architecture**

Architecture of Greek antiquity and its relationship to its philosophical, artistic, and mythical contexts. The development of the idea of the city; the presence of architecture within its symbolic landscape. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4304 [0.5 credit]**The Architecture of Rome**

Rome in its classical to late-antique periods. Its founding mythologies and landscape. In-depth analysis of Rome, with special attention to its public buildings. Early Christian architecture within the Roman context. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4305 [0.5 credit]**Medieval Architecture**

Gothic architecture and its relation to its philosophic and artistic predecessors. Special attention to the coexistence of the monastic tradition, late Romanesque building, and new experiments in gothic during this period, marked by intellectual and political ferment. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4306 [0.5 credit]**Renaissance Theory**

The rise of architectural theory within the context of the Italian Renaissance. Canonic texts explored and compared in the context of the architectural developments of the period. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4307 [0.5 credit]**Muslim Architecture**

Historical and theoretical discussions about the architecture of Muslim cultures. Selected sites and monuments from eighth to eighteenth century, covering the vast geography from North Africa to Southeast Asia. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4308 [0.5 credit]**Asian Architecture**

Anthropological history of the architecture of the Near and Far East. The architecture and urban form of Ancient Egypt, Anatolia, Sumer and Persia; ancient China and India. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4309 [0.5 credit]**Mesoamerican Architecture**

Selected works of Mesoamerican architecture in terms of iconography, morphology, technology, function, historical development, and concept. Mesoamerican architectural features compared with other world traditions. Emphasis on design. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4400 [0.5 credit]**Theory**

A survey of the architectural and urban history of a specific culture. These discussions address the present reality of a country, region or city being visited by the fourth year of the program. (Elective Course).

Prerequisite(s): clear standing to fourth year and permission of the School.

Lectures three hours a week.

ARCH 4502 [0.5 credit]**Research and Criticism**

Preparation for the independent research and design work. Work related to the nature of research and criticism in architecture, with emphasis on current issues. (Theory/History Elective).

Includes: Experiential Learning Activity

Lectures and seminars three hours a week.

ARCH 4505 [0.5 credit]**Seminar in Theory and History**

History and theory of architecture. Topics will vary from year to year. Limited enrolment. (Elective Course).

Prerequisite(s): fourth-year standing in the B.A.S. or B.A. (Honours) Architecture/Art History programs, or permission of the School.

Lectures three hours a week.

ARCH 4601 [0.5 credit]**Architectural Discourse II**

Examines ideas and methods relevant to contemporary architectural discourse with a focus on cultural diversity and global perspectives. Architectural Discourse II builds on learned skills from previous work and acts as a preparatory course for research skills necessary at the graduate level. (Core Course).

Prerequisite(s): ARCH 3601 and fourth-year standing or permission of the School.

Lecture three hours per week.

ARCH 4801 [0.5 credit]**Special Topics**

An aspect of architecture in the area of theory and history. Topics vary from year to year. (Theory/History Elective).

Prerequisite(s): ARCH 2300 or permission of the School.

Lectures three hours a week.

ARCH 4808 [0.5 credit]**Independent Study**

(Elective Course).

ARCH 4900 [0.5 credit]**Directed Reading**

Supervised readings and research projects. Guidelines must be obtained from BAS Academic Advisors prior to registration. (Core course).

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.A.S (Philosophy and Criticism).

ARCH 4909 [1.0 credit]**Honours Project**

Students propose a topic of study in Philosophy and Criticism for approval and produce a substantial research project, supervised by BAS faculty. (Core course).

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.A.S (Philosophy and Criticism).

Architecture - Urban (ARCU) Courses**ARCU 2100 [0.5 credit]****Special Topics in Urbanism**

Seminar in selected topics related to Urbanism at an introductory level.

Lecture and discussion three hours per week.

ARCU 3100 [0.5 credit]**The Morphology of the City**

Primary structural, spatial and formal organization and elements that characterize the morphology of cities; historical and contemporary significance for architecture and urban design. (Core).

Prerequisite(s): First-year standing in the B.A.S. Urbanism major, second or third-year standing in other B.A.S. majors, or permission of the School.

Lecture two hours a week and tutorial one hour a week.

ARCU 3203 [0.5 credit]**Landscape Architecture**

Practical significance of landscape elements as they relate to built-form by integrating structure and site. (Workshop).

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 3405 [0.5 credit]**Urban Design**

Project-based workshop investigating current design attitudes and solutions affecting the physical morphology of cities. Formally sophisticated urban design projects. Various procedures and basic urban design ideas. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 3409 [0.5 credit]**City Organization and Planning Processes**

Interdisciplinary investigation, analysis and synthesis of the institutions, processes, environments and demography of Canadian cities. Guest lecturers. (Workshop).

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 3902 [0.5 credit]**Urban Studies**

A specific aspect of architecture in the area of urban studies. Topics vary from year to year. (Workshop).

Includes: Experiential Learning Activity

Precludes additional credit for ARCU 4103.

Prerequisite(s): permission of the School.

Lecture, seminar, lab or field work six hours a week.

ARCU 4103 [0.5 credit]**Cities**

Course addresses cities such as Istanbul, Mexico City, Venice, Paris, Ottawa, Mumbai, and New Orleans.

Topics presented by the instructor and guests include environmental resilience and climate change; social justice and informal settlement; smart cities and data privacy; and urban design, memory, and imagination.

Precludes additional credit for ARCU 3902.

Prerequisite(s): Second-year standing or permission of the Instructor.

Lecture two hours per week and tutorial one hour per week.

ARCU 4300 [0.5 credit]**Theories of Urbanism**

Contemporary urban theory and critical scholarship that engages evolving social, political, economic and environmental perspectives, addresses multiple scales, geographic contexts, and disciplinary boundaries, and investigates the expanding array of models, tools and techniques that have contributed to various theories of urbanism.

Prerequisite(s): ARCU 3100.

ARCU 4400 [0.5 credit]**City Organization and Planning**

Structure, form and functioning of cities. Infra-structure, facilities and networks, ecosystems, demographic and social organization, government, quality of life, goals and perceptions, urban management, development, regulation and codes, design, planning and policy-making. (Elective Course).

Precludes additional credit for ARCU 3400.

Three hours a week.

ARCU 4500 [0.5 credit]**Human Shelter**

Background factors pertaining to housing in both industrial and developing countries; traditional and contemporary housing approaches; social housing; and people's right to adequate housing. Guest lecturers. (Elective Course).

Precludes additional credit for ARCU 3500.

Three hours a week.

ARCU 4600 [0.5 credit]**Post-WWII Urbanism**

Urban renewal in the post-war period in response to housing shortages, suburbanization, transportation infrastructure and other factors. Gentrification and the emerging form of the post-industrial city, including new urbanism and sustainable communities. Case studies from Canada, Europe and the U.S. (Theory/History Elective).

Prerequisite(s): ARCU 3100 and third or fourth-year standing in the B.A.S. Urbanism program or permission of the School.

Lectures three hours a week.

ARCU 4700 [0.5 credit]**Urban Utopias**

Urban utopias throughout history, with emphasis on the 20th century. Garden Cities, anti-urbanism and radical decentralization, the city in the region, Italian Rationalist cities, Le Corbusier and CIAM, post-WWII New Towns (England, Scandinavia and the US), Sustainable Urbanism.

Prerequisite(s): third or fourth-year standing in B.A.S. Urbanism program or permission of the School.

Lectures three hours a week.

ARCU 4801 [0.5 credit]**Topics in Urbanism**

Advanced seminar in selected topics related to urbanism.

Topics may include histories and theories related to urban systems, design, and planning. (Core course).

Prerequisite(s): third-year standing in B.A.S. (Urbanism) or permission of the Instructor.

Seminar three hours per week.

ARCU 4808 [0.5 credit]**Independent Study**

(Elective Course).

Includes: Experiential Learning Activity

ARCU 4901 [0.5 credit]**Topics in Applied Urbanism**

Advanced investigation into issues related to urbanism and urban form. Topics will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.A.S. (Urbanism) or permission of Instructor.

Lecture three hours per week.

Art History

This section presents the requirements for programs in:

- Art History B.A. Honours
- Art History B.A. Combined Honours
- Art History B.A.
- Minor in Art History
- Post-Baccalaureate Diploma in Art History
- History and Theory of Architecture B.A. Honours
- History and Theory of Architecture B.A. Combined Honours
- History and Theory of Architecture B.A.

- Minor in History and Theory of Architecture
- Post-Baccalaureate Diploma in History and Theory of Architecture

Program Requirements

Art History

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 3.0 credits in:	3.0
ARTH 1100 [0.0] Art and Society: Prehistory to the Renaissance	
ARTH 1101 [0.0] Art and Society: Renaissance to the Present	
ARTH 1201 [0.0] History and Theory of Architecture: 1500 to Present	
ARTH 2009 [0.5] Art Live: Art History Workshop	
ARTH 3100 [0.5] History and Methods of Art and Architectural History	
ARTH 3108 [0.0] History and Methods of Art History	
2. 1.0 credit from:	1.0
ARTH 2102 [0.5] Greek Art and Archaeology	
ARTH 2105 [0.5] Roman Art and Archaeology	
ARTH 2107 [0.5] Islamic Architecture and Art	
ARTH 2202 [0.5] Medieval Architecture and Art	
ARTH 2300 [0.5] Italian Renaissance Art	
3. 1.0 credit from:	1.0
ARTH 2502 [0.5] Art of the 19th Century	
ARTH 2600 [0.5] Modern European Art 1900-1945	
ARTH 2601 [0.0] History and Theory of Photography	
4. 0.5 credit from:	0.5
ARTH 2002 [0.5] Historical Art in Canada	
ARTH 2003 [0.5] Canadian Twentieth-Century and Contemporary Art	
5. 0.5 credit from:	0.5
ARTH 2005 [0.5] Arts of the First Peoples: The Woodlands, the Plains and the Subarctic	
ARTH 2006 [0.5] Arts of the First Peoples: The Southwest, the West Coast and the Arctic	
ARTH 2007 [0.5] Asian Art	
ARTH 2008 [0.5] Inuit Art	
ARTH 2106 [0.5] Chinese Art and Visual Culture	
6. 1.0 credit in ARTH at the 3000 level	1.0
7. 2.0 credits in ARTH at the 4000 level	2.0
8. 1.0 credit in ARTH at the 2000 level or higher	1.0
B. Credits Not Included in the Major CGPA (10.0 credits)	
9. 8.0 credits in electives not in ARTH	8.0
10. 2.0 credits in free electives	2.0
Total Credits	20.0

Note:

- Art History majors may take up to 1.0 credit in studio art courses from an accredited university as an elective. Courses taken at another institution must be approved in a letter of permission from the Carleton University Registrar.

- No more than 1.0 credit may be taken as ARTH 4900 Directed Readings and Research or ARTH 4909 [1.0] Honours Research Essay.

Art History

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (6.5 credits)

1. 2.5 credits in:	2.5
ARTH 1100 [0.0] Art and Society: Prehistory to the Renaissance	
ARTH 1101 [0.0] Art and Society: Renaissance to the Present	
ARTH 2009 [0.5] Art Live: Art History Workshop	
ARTH 3100 [0.5] History and Methods of Art and Architectural History	
ARTH 3108 [0.0] History and Methods of Art History	
2. 0.5 credit from:	0.5
ARTH 2102 [0.5] Greek Art and Archaeology	
ARTH 2105 [0.5] Roman Art and Archaeology	
ARTH 2107 [0.5] Islamic Architecture and Art	
ARTH 2202 [0.5] Medieval Architecture and Art	
ARTH 2300 [0.5] Italian Renaissance Art	
3. 0.5 credit from:	0.5
ARTH 2502 [0.5] Art of the 19th Century	
ARTH 2600 [0.5] Modern European Art 1900-1945	
ARTH 2601 [0.0] History and Theory of Photography	
4. 0.5 credit from:	0.5
ARTH 2002 [0.5] Historical Art in Canada	
ARTH 2003 [0.5] Canadian Twentieth-Century and Contemporary Art	
5. 0.5 credit from:	0.5
ARTH 2005 [0.5] Arts of the First Peoples: The Woodlands, the Plains and the Subarctic	
ARTH 2006 [0.5] Arts of the First Peoples: The Southwest, the West Coast and the Arctic	
ARTH 2007 [0.5] Asian Art	
ARTH 2008 [0.5] Inuit Art	
ARTH 2106 [0.5] Chinese Art and Visual Culture	
6. 0.5 credit in ARTH at the 3000 level or above	0.5
7. 1.5 credits in ARTH at the 4000 level collectively	1.5
satisfying:	
a. 0.5 credit in ARTH (excluding ARTH 4900, ARTH 4909)	
b. 1.0 credit in ARTH at the 4000 level	
B. Additional Requirements (13.5 credits)	13.5
8. The requirements of the other discipline must be satisfied	
9. Sufficient free electives to make 20.0 credits in total for the program.	
Total Credits	20.0

Note:

- Art History majors may take up to 1.0 credit in studio art courses from an accredited university as an elective. Courses taken at another institution must be approved in a letter of permission from the Carleton University Registrar.

- No more than 1.0 credit may be taken as ARTH 4900 Directed Readings and Research or ARTH 4909 [1.0] Honours Research Essay.

Art History

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (6.5 credits)

1. 2.5 credits in:	2.5
ARTH 1100 [0.0] Art and Society: Prehistory to the Renaissance	
ARTH 1101 [0.0] Art and Society: Renaissance to the Present	
ARTH 1201 [0.0] History and Theory of Architecture: 1500 to Present	
ARTH 2009 [0.5] Art Live: Art History Workshop	
ARTH 3100 [0.5] History and Methods of Art and Architectural History	
2. 1.0 credit from:	1.0
ARTH 2102 [0.5] Greek Art and Archaeology	
ARTH 2105 [0.5] Roman Art and Archaeology	
ARTH 2107 [0.5] Islamic Architecture and Art	
ARTH 2202 [0.5] Medieval Architecture and Art	
ARTH 2300 [0.5] Italian Renaissance Art	
3. 1.0 credit from:	1.0
ARTH 2502 [0.5] Art of the 19th Century	
ARTH 2600 [0.5] Modern European Art 1900-1945	
ARTH 2601 [0.0] History and Theory of Photography	
4. 0.5 credit from:	0.5
ARTH 2002 [0.5] Historical Art in Canada	
ARTH 2003 [0.5] Canadian Twentieth-Century and Contemporary Art	
5. 0.5 credit from:	0.5
ARTH 2005 [0.5] Arts of the First Peoples: The Woodlands, the Plains and the Subarctic	
ARTH 2006 [0.5] Arts of the First Peoples: The Southwest, the West Coast and the Arctic	
ARTH 2007 [0.5] Asian Art	
ARTH 2008 [0.5] Inuit Art	
ARTH 2106 [0.5] Chinese Art and Visual Culture	
6. 1.0 credit in ARTH at the 3000 level	1.0
B. Credits Not Included in the Major CGPA (8.5 credits)	
7. 6.0 credits in electives not in ARTH	6.0
8. 2.5 credits in free electives	2.5
Total Credits	15.0

Note: Art History majors may take up to 1.0 credit in studio art courses from an accredited university as an elective. Courses taken at another institution must be approved in a letter of permission from the Carleton University Registrar.

Minor in Art History (4.0 credits)

Open to all undergraduate degree students not in Art History programs.

Requirements

1. 1.0 credit in:	1.0
ARTH 1100 [0.0] Art and Society: Prehistory to the Renaissance	

ARTH 1101 [0.0] Art and Society: Renaissance to the Present	
2. 1.5 credits in ARTH at the 2000-level	1.5
3. 1.5 credits in ARTH at the 3000- or 4000-level	1.5
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Post-Baccalaureate Diploma in Art History (4.0 credits)

Admission to this program requires the permission of the Art History program. Normally, students would be required to have completed an undergraduate degree with a minimum B average or higher to be admitted. Applications will be reviewed on a case-by-case basis.

Requirements:

1. 1.0 credit in:	1.0
ARTH 3100 [0.5] History and Methods of Art and Architectural History	
ARTH 3108 [0.0] History and Methods of Art History	
2. 2.0 credit in ARTH at the 2000-level or above (excluding ARTH 2009)	2.0
3. 1.0 credit in ARTH at the 4000-level	1.0
Total Credits	4.0

With the approval of the Art History undergraduate supervisor, 0.5 credit may be taken outside the department.

History and Theory of Architecture B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 3.0 credits in:	3.0
ARTH 1101 [0.0] Art and Society: Renaissance to the Present	
ARTH 1200 [0.0] History and Theory of Architecture: Prehistory to 1500	
ARTH 1201 [0.0] History and Theory of Architecture: 1500 to Present	
ARTH 2710 [0.5] Experiencing Architecture	
ARTH 3100 [0.5] History and Methods of Art and Architectural History	
ARTH 3107 [0.5] History and Methods of Architectural History	
2. 2.0 credits from:	2.0
ARTH 2102 [0.5] Greek Art and Archaeology	
ARTH 2105 [0.5] Roman Art and Archaeology	
ARTH 2107 [0.5] Islamic Architecture and Art	
ARTH 2202 [0.5] Medieval Architecture and Art	
ARTH 2310 [0.5] Architecture of the Early Modern World [1400-1750]	
ARTH 2510 [0.5] Architecture of the 18th and 19th Centuries	
ARTH 2610 [0.0] Twentieth-Century Architecture	
3. 1.0 credit from:	1.0
ARTH 3002/ ARCH 4002 [0.5] Canadian Architecture	
ARTH 3003 [0.5] Architecture and Representation	
ARTH 3005 [0.5] American Architecture	
ARTH 3701 [0.5] Art and Architecture on Site	

ARTH 3710 [0.5]	Architecture and Empire	
ARTH 3810 [0.5]	A Closer Look at the Designed Environment	
4. 1.0 credits in ARTH or ARCH at the 2000-level or higher		1.0
5. 0.5 credit from:		0.5
ARTH 4107 [0.5]	Topics in Islamic Architecture and Art	
ARTH 4202 [0.5]	Topics in Medieval Architecture and Art	
ARTH 4610 [0.5]	Topics in Modern Architecture or Design	
ARTH 4800 [0.5]	Topics in Architectural History	
6. 1.5 credits in ARTH or ARCH at the 4000-level		1.5
7. 1.0 credit from:		1.0
ARCH 4200 [0.5]	Architectural Conservation Philosophy and Ethics	
ARCN 4100 [0.5]	Historic Site Recording and Assessment	
CDNS 2400 [0.5]	Heritage Places and Practices in Canada	
CDNS 4400 [0.5]	Space, Landscape and Identity in Canada	
GEOG 1020 [0.5]	People, Places and Environments	
GEOG 2300 [0.5]	Space, Place and Culture	
GEOG 3021 [0.5]	Geographies of Culture and Identity	
HIST at the 1000-level or higher		
IDES 1000 [0.5]	Theory and History of Design	
B. Credits Not Included in the Major CGPA (10.0 credits)		
8. 8.0 credits in electives not in ARTH or Architecture		8.0
9. 2.0 credits in free electives.		2.0
Total Credits		20.0

Notes for programs in History and Theory of Architecture:

- No more than 1.5 credits may be taken as directed readings and/or the Honours Research essay.
- Architecture courses which are workshops or studio-based may not be taken for credit in these programs.
- Architecture courses taken to fulfill the requirements of these programs are not transferable to other programs in the Faculty of Arts and Social Sciences.

History and Theory of Architecture B.A. Combined Honours (20.0 credits)

A. Credits included in the major CGPA (6.5 Credits)

1. 2.5 credits in:		2.5
ARTH 1200 [0.0]	History and Theory of Architecture: Prehistory to 1500	
ARTH 1201 [0.0]	History and Theory of Architecture: 1500 to Present	
ARTH 2710 [0.5]	Experiencing Architecture	
ARTH 3100 [0.5]	History and Methods of Art and Architectural History	
ARTH 3107 [0.5]	History and Methods of Architectural History	
2. 1.5 credits from:		1.5
ARTH 2102 [0.5]	Greek Art and Archaeology	
ARTH 2105 [0.5]	Roman Art and Archaeology	

ARTH 2107 [0.5]	Islamic Architecture and Art	
ARTH 2202 [0.5]	Medieval Architecture and Art	
ARTH 2310 [0.5]	Architecture of the Early Modern World [1400-1750]	
ARTH 2510 [0.5]	Architecture of the 18th and 19th Centuries	
ARTH 2610 [0.0]	Twentieth-Century Architecture	
3. 1.0 credit from:		1.0
ARTH 3002/ ARCH 4002 [0.5]	Canadian Architecture	
ARTH 3003 [0.5]	Architecture and Representation	
ARTH 3005 [0.5]	American Architecture

6. The requirements of the other discipline must be satisfied		
7. Sufficient free electives to make 20.0 credits in total for the program		
Total Credits		20.0

History and Theory of Architecture B.A. (15.0 credits)

A. Credits Included in the Major CGPA

1. 2.5 credits in:		2.5
ARTH 1101 [0.0]	Art and Society: Renaissance to the Present	
ARTH 1200 [0.0]	History and Theory of Architecture: Prehistory to 1500	
ARTH 1201 [0.0]	History and Theory of Architecture: 1500 to Present	
ARTH 2710 [0.5]	Experiencing Architecture	
ARTH 3100 [0.5]	History and Methods of Art and Architectural History	
2. 1.5 credits from:		1.5
ARTH 2102 [0.5]	Greek Art and Archaeology	
ARTH 2105 [0.5]	Roman Art and Archaeology	
ARTH 2107 [0.5]	Islamic Architecture and Art	
ARTH 2202 [0.5]	Medieval Architecture and Art	
ARTH 2310 [0.5]	Architecture of the Early Modern World [1400-1750]	
ARTH 2510 [0.5]	Architecture of the 18th and 19th Centuries	
ARTH 2610 [0.0]	Twentieth-Century Architecture	
3. 1.0 credit from:		1.0
ARTH 3002/ ARCH 4002 [0.5]	Canadian Architecture	
ARTH 3003 [0.5]	Architecture and Representation	

ARTH 3005 [0.5]	American Architecture	
ARTH 3107 [0.5]	History and Methods of Architectural History	
ARTH 3701 [0.5]	Art and Architecture on Site	
ARTH 3710 [0.5]	Architecture and Empire	
ARTH 3810 [0.5]	A Closer Look at the Designed Environment	
4. 0.5 credit in ARTH or ARCH at the 2000-level or higher		0.5
5. 1.5 credits in ARTH or ARCH at the 3000-level		1.5
B. Credits Not Included in the Major CGPA		
6. 6.0 credits in electives not in ARTH or Architecture		6.0
7. 2.0 credit in free electives.		2.0
Total Credits		15.0

Notes for programs in History and Theory of Architecture:

- No more than 1.5 credits may be taken as directed readings and/or the Honours Research essay.
- Architecture courses which are workshops or studio-based may not be taken for credit in these programs.
- Architecture courses taken to fulfill the requirements of these programs are not transferable to other programs in the Faculty of Arts and Social Sciences.

Minor in History and Theory of Architecture (4.0 credits)

Open to all undergraduate degree students not in History and Theory of Architecture programs.

Requirements

1. 1.0 credit in:		1.0
ARTH 1200 [0.0]	History and Theory of Architecture: Prehistory to 1500	
ARTH 1201 [0.0]	History and Theory of Architecture: 1500 to Present	
2. 1.5 credits from:		1.5
ARTH 2102 [0.5]	Greek Art and Archaeology	
ARTH 2105 [0.5]	Roman Art and Archaeology	
ARTH 2107 [0.5]	Islamic Architecture and Art	
ARTH 2202 [0.5]	Medieval Architecture and Art	
ARTH 2310 [0.5]	Architecture of the Early Modern World [1400-1750]	
ARTH 2510 [0.5]	Architecture of the 18th and 19th Centuries	
ARTH 2610 [0.0]	Twentieth-Century Architecture	
3. 1.5 credits from:		1.5
ARTH 3002/ ARCH 4002 [0.5]	Canadian Architecture	
ARTH 3005 [0.5]	American Architecture	
ARTH 3100 [0.5]	History and Methods of Art and Architectural History	
ARTH 3710 [0.5]	Architecture and Empire	
ARTH 3810 [0.5]	A Closer Look at the Designed Environment	
ARTH 4107 [0.5]	Topics in Islamic Architecture and Art	
ARTH 4202 [0.5]	Topics in Medieval Architecture and Art	

ARTH 4610 [0.5]	Topics in Modern Architecture or Design	
ARTH 4800 [0.5]	Topics in Architectural History	
4. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Post-Baccalaureate Diploma in History and Theory of Architecture (4.0 credits)

Admission to this program requires the permission of the History and Theory of Architecture program. Normally, students would be required to have completed an undergraduate degree with a minimum B average or higher to be admitted. Applications will be reviewed on a case-by-case basis.

Requirements:

1. 1.0 credit in:		1.0
ARTH 3100 [0.5]	History and Methods of Art and Architectural History	
ARTH 3107 [0.5]	History and Methods of Architectural History	
2. 2.0 credit in ARTH at the 2000-level or above (excluding ARTH 2710)		2.0
3. 1.0 credit in ARTH at the 4000-level		1.0
Total Credits		4.0

With the approval of the History and Theory of Architecture undergraduate supervisor, 0.5 credit may be taken outside the department.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EARR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political

Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Art and Architectural History (ARTH) Courses

ARTH 1100 [0.5 credit]

Art and Society: Prehistory to the Renaissance

A survey of art, architecture and artifacts from prehistory to the Renaissance. Ways of understanding visual culture through this span of history.

Precludes additional credit for ARTH 1000.

Lectures two hours a week, tutorial one hour a week.

ARTH 1101 [0.5 credit]

Art and Society: Renaissance to the Present

A survey of art, architecture and related visual forms in their expanding contexts from the Renaissance to the present. Ways of understanding visual culture through this span of history.

Precludes additional credit for ARTH 1000.

Lectures two hours a week, tutorial one hour a week.

ARTH 1105 [0.5 credit]

Art as Visual Communication

A variety of visual material is organized topically to examine the elements of art (line, shape, value, colour, texture, space), the principles of pictorial organization, the materials and techniques of art, and recurrent tendencies in artistic styles and outlooks.

Lectures three hours a week.

ARTH 1200 [0.5 credit]

History and Theory of Architecture: Prehistory to 1500

An introduction to the history of architecture from prehistory to ca. 1500, considering technological, formal, intellectual and social developments that informed the built environment through a range of building types.

Lectures two hours a week, tutorial one hour a week.

ARTH 1201 [0.5 credit]

History and Theory of Architecture: 1500 to Present

An introduction to the history of architecture from ca. 1500 to the present, considering technological, formal, intellectual, and social developments that informed the built environment through a range of building types.

Precludes additional credit for ARTH 2608 (no longer offered).

Lectures two hours a week, tutorial one hour a week.

ARTH 2002 [0.5 credit]

Historical Art in Canada

A survey of historical art in Canada, from the seventeenth century to the early twentieth century. Topics may include craftwork, amateur and professional artists, art institutions, gender, nationalism, regionalism and ethnicity. Coverage will include artworks in local and national collections in the National Capital region.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2003 [0.5 credit]**Canadian Twentieth-Century and Contemporary Art**

A survey of twentieth-century and contemporary Canadian art in a variety of media within social, political and cultural contexts. Regionalism, multiculturalism, nationalism, gender, race and identity will be considered in relation to local and national collections in Ottawa.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2005 [0.5 credit]**Arts of the First Peoples: The Woodlands, the Plains and the Subarctic**

Introduction to the visual arts of Indigenous peoples of the eastern and central regions of North America. A post-colonial perspective will be used to consider selected examples of creative production from time immemorial to the present.

Prerequisite(s): second-year standing or permission of the discipline.

Lectures three hours a week.

ARTH 2006 [0.5 credit]**Arts of the First Peoples: The Southwest, the West Coast and the Arctic**

Introduction to the visual arts of Indigenous peoples of the western and northern regions of North America. A post-colonial perspective will be used to consider selected examples of visual materials from time immemorial to the present.

Prerequisite(s): second-year standing or permission of the discipline.

Lectures three hours a week.

ARTH 2007 [0.5 credit]**Asian Art**

Surveys Asian art from second-century China to post-war Japan. Representational strategies of court artists and artists from the capital are compared with artists on the periphery. Articulation of power in tombs, palaces and war propaganda is examined, as is the individual and the eccentric.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2008 [0.5 credit]**Inuit Art**

Survey of visual art produced by Canadian Inuit from the circumpolar area.

Precludes additional credit for ARTH 3104.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2009 [0.5 credit]**Art Live: Art History Workshop**

Examination of techniques, materials and institutions of art history; lectures and workshops on art historical research and writing, the materials of art, professional skills; site visits to art institutions.

Includes: Experiential Learning Activity

Prerequisite(s): ARTH 1100 and ARTH 1101, or permission of the discipline. Restricted to students enrolled in the Art History B.A. or B.A. Honours.

Lecture three hours a week.

ARTH 2102 [0.5 credit]**Greek Art and Archaeology**

The art, architecture and archaeology of ancient Greece. Vase painting, sculpture, architecture, town planning and analogous arts are studied.

Also listed as CLCV 2303.

Precludes additional credit for CLCV 2302 (no longer offered), ARTH 2100 (no longer offered).

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2105 [0.5 credit]**Roman Art and Archaeology**

The art, architecture and archaeology of the ancient Romans. Vase painting, sculpture, architecture, town planning and analogous arts are studied.

Also listed as CLCV 2304.

Precludes additional credit for CLCV 2302 (no longer offered), ARTH 2100 (no longer offered).

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2106 [0.5 credit]**Chinese Art and Visual Culture**

A survey of Chinese art from the pre-modern era to re-inventions of traditions in modern and contemporary art. Artworks in various media (ink painting, calligraphy, Buddhist sculpture, ceramics, lacquer and garden architecture) will be studied in their historical, cultural and socio-political contexts.

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2107 [0.5 credit]**Islamic Architecture and Art**

Survey of artistic movements in Islamic art and architecture in the Mediterranean, the Near East, and Central and South Asia, from the seventh century to ca. 1450. Commonalities and differences between major dynastic visual cultures will be explored.

Prerequisite(s): second-year standing or permission of the Discipline.

Lecture three hours a week.

ARTH 2108 [0.5 credit]**Art Worlds**

Survey of an area of global art history. Topics may vary from year to year, and will be posted on the School for Studies in Art and Culture website.

Prerequisite(s): second-year standing or permission of the Department.

Lecture three hours a week.

ARTH 2202 [0.5 credit]**Medieval Architecture and Art**

A survey of architecture and art in Europe from ca. 313-1500 C.E. Sacred, secular, and domestic works will be discussed with reference to cultural meaning, social function, structure, and form.

Precludes additional credit for ARTH 2200 and ARTH 2201.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2300 [0.5 credit]**Italian Renaissance Art**

An examination of major works of art and architecture, issues and themes in the Italian Renaissance; emphasis on the fifteenth and sixteenth centuries, with a look at roots in the fourteenth.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2310 [0.5 credit]**Architecture of the Early Modern World [1400-1750]**

An examination of architecture from the late medieval period to the 18th century with particular attention paid to architecture and design cultures within the European and Islamic worlds and their cross-cultural interactions.

Precludes additional credit for ARTH 3305 (no longer offered).

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2404 [0.5 credit]**Art of the 17th and 18th Centuries**

Tracing developments in 17th- and 18th-century painting, graphic art, sculpture, and architecture. Introduction to artists, art works, and issues central to the relationship between art and society.

Precludes additional credit for ARTH 2403 (no longer offered), ARTH 2405 (no longer offered) and ARTH 2406 (no longer offered).

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2502 [0.5 credit]**Art of the 19th Century**

Tracing developments in 19th-century painting, graphic art, sculpture, and architecture. Introduction to artists, art works, and issues central to the relationship between art and modernity.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2510 [0.5 credit]**Architecture of the 18th and 19th Centuries**

A survey of key monuments, theories, forms and technological developments of eighteenth- and nineteenth-century architecture.

Precludes additional credit for ARTH 3809 Section "B" taken in 2014.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2600 [0.5 credit]**Modern European Art 1900-1945**

Major artistic movements in Europe from about 1900 to 1945.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2601 [0.5 credit]**History and Theory of Photography**

Issues, themes, movements in photography and individual photographers from the origins of the medium to the present.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2610 [0.5 credit]**Twentieth-Century Architecture**

Developments in architectural form and culture through the course of the twentieth century, with emphasis on the formation and subsequent critique of the Modern Movement.

Precludes additional credit for ARTH 3609 and ARCH 3009.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 2710 [0.5 credit]**Experiencing Architecture**

Development of critical thinking, writing, and looking skills in connection to architecture, through a combination of site visits, workshops and classroom exercises.

Includes: Experiential Learning Activity

Prerequisite(s): ARTH 1200 and ARTH 1201 or permission of the discipline. Restricted to students in the History and Theory of Architecture B.A. or B.A. Honours program.

Lecture three hours a week.

ARTH 2807 [0.5 credit]**Philosophy of Art**

Philosophical approaches to the study of art. Topics such as: the nature of art and artistic value; representation and symbolism in art; art and artifice; art and the emotions; art, culture and ideology; post-structuralism and art; theories of creativity; relationship between artworks and audiences.

Also listed as PHIL 2807.

Lectures three hours a week.

ARTH 3000 [0.5 credit]**Themes in Canadian Art**

Selected aspects of Canadian art in a variety of media. Students will be exposed to works in the National Capital region.

Prerequisite(s): ARTH 2002 or ARTH 2003 or (for a photography topic) ARTH 2601 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3002 [0.5 credit]**Canadian Architecture**

Canadian architecture from the seventeenth century to the present day, covering both stylistic and technological developments. Building styles, methods, and materials in the context of social and economic conditions and construction techniques.

Includes: Experiential Learning Activity

Also listed as ARCH 4002.

Prerequisite(s): ARTH 1100 and ARTH 1101, or ARTH 1200 and ARTH 1201, or ARCH 1002 and ARCH 1201, and second-year standing or higher, or permission of the Discipline.

ARTH 3003 [0.5 credit]**Architecture and Representation**

Examination of the intersections between architecture, representations, and cultures.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing, or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3005 [0.5 credit]**American Architecture**

The cultural history of the United States as expressed through its architectural heritage. Selected buildings and complexes from the earliest settlements through the early twentieth century are examined.

Prerequisite(s): ARTH 1201 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3007 [0.5 credit]**Modern Asian Art**

Modern and contemporary art in East Asia, beginning in Japan with the 1868 Meiji revolution and the 1911 revolution in China.

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

ARTH 3008 [0.5 credit]**Contemporary Chinese Art and Art History**

Modern and contemporary art in China and beyond from the reform period in 1979 until today. Artworks will be examined in terms of their (art-)historical, discursive, socio-political, infrastructural and transcultural conditions of production and reception.

Prerequisite(s): second-year standing or permission of the Discipline.

Lectures three hours a week.

ARTH 3100 [0.5 credit]**History and Methods of Art and Architectural History**

The study of the history of art and architectural history and the methodologies and research tools employed.

Precludes additional credit for ARTH 3106 (no longer offered).

Prerequisite(s): third-year or higher standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 3102 [0.5 credit]**Studies in Greek Art**

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year. This course is repeatable for credit when the topic changes.

Also listed as CLCV 3306, RELI 3732.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

ARTH 3105 [0.5 credit]**Studies in Roman Art**

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year.

Also listed as CLCV 3307, RELI 3733.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat.

Lecture three hours a week.

ARTH 3107 [0.5 credit]**History and Methods of Architectural History**

The study of the methodologies and research approaches employed by architectural historians.

Prerequisite(s): ARTH 3100 and third-year standing or higher in History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 3108 [0.5 credit]**History and Methods of Art History**

The study of current methodologies and research tools employed by art historians.

Precludes additional credit for ARTH 3106 (no longer offered).

Prerequisite(s): ARTH 3100 and third-year standing or higher in Art History, or permission of the Discipline.

Seminar three hours a week.

ARTH 3400 [0.5 credit]**History of Printmaking**

Exploration of printmaking techniques from the 16th century to the present focusing on the work of famous and lesser-known printmakers. Topics may include: printmaking genres (from fine art prints to caricature), originality versus reproduction, book illustration, the art market, posters and propaganda.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3507 [0.5 credit]**The Artist in Context**

An examination of one artist's or group of artists' life and work. Relevant artistic, intellectual, social, political and theoretical contexts are considered.

Prerequisite(s): ARTH 1101 or ARTH 2502 and second-year standing or higher, or permission of the Discipline.

Lectures three hours a week.

ARTH 3600 [0.5 credit]**Art Since 1945**

Contemporary art in the global context from 1945 to the present, including Abstract Expressionism, Pop Art, Postmodernism, object art, performance art and installations.

Prerequisite(s): second-year standing or higher, or permission of the Discipline.

Lecture three hours a week.

ARTH 3701 [0.5 credit]**Art and Architecture on Site**

The study of art and/or architecture on site outside the National Capital Region, in Canada or internationally.

May include a combination of study in Ottawa and on site. Locations vary. Students are expected to bear all travel and other costs arising from site visits.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Discipline. Applicants will normally have third-year standing with a minimum of 1.0 credit in Art History or History and Theory of Architecture and a GPA of 8.0 or above.

Hours to be arranged. Locations will vary.

ARTH 3705 [0.5 credit]**Selected Museum Exhibition**

This seminar complements a major exhibition held at a specific museum. Students enrolled in this course are expected to bear all travel and other costs arising from required visits to the museum.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or higher or permission of the Discipline.

Seminar and/or lectures three hours a week.

ARTH 3710 [0.5 credit]**Architecture and Empire**

The impact of imperial power and aspiration on the built environment, from the Ancient world to the present day, taking 'empire' in its broadest political, social and economic sense.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing or permission of the Discipline.

Seminar and/or lectures three hours a week.

ARTH 3809 [0.5 credit]**A Closer Look at Art and Visual Culture**

Selected aspects of art history and visual culture from ancient times to the present.

Prerequisite(s): third-year standing or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3810 [0.5 credit]**A Closer Look at the Designed Environment**

Selected aspects of the history of the designed environment, from ancient times to the present.

Prerequisite(s): ARTH 1100 or ARTH 1101 or ARTH 1200 or ARTH 1201 and second-year standing or permission of the Discipline.

Lectures and/or seminars three hours a week.

ARTH 3900 [0.5 credit]**Practicum in Art and Architectural History**

Practical experience gained by working on specific projects under the supervision of the staff of a museum, cultural institution, public- or private-sector organization associated with art, architecture, design, or heritage. A maximum of 1.0 credit in practicum courses may be used to fulfill program requirements.

Includes: Experiential Learning Activity

Prerequisite(s): B.A. or B.A. (Honours) in Art History or History and Theory of Architecture with third-year standing or higher and a CGPA of 9.00 or better in ARTH courses, and permission of the Discipline.

ARTH 4000 [0.5 credit]**Topics in Art in Canada**

Selected topics in art in Canada. Students will be exposed to works in local and national collections in the National Capital region.

Prerequisite(s): one of ARTH 2002, ARTH 2003, ARTH 3000 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminars three hours a week.

ARTH 4002 [0.5 credit]**Topics in Architecture in Canada**

Selected aspects of the designed environment in Canada.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the discipline.

ARTH 4003 [0.5 credit]**Topics in Contemporary Chinese Art**

Critical examination of contemporary Chinese art. Topics include socially engaged art, historiographies of Chinese contemporary art, re-inventions of traditions, gender and politics of the body, exhibition histories and infrastructures of contemporary art in China.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4005 [0.5 credit]**Topics in Contemporary Indigenous Art**

This course will use critical theory to examine aspects of contemporary visual art created by the Inuit and First Peoples in North America.

Prerequisite(s): ARTH 2005 or ARTH 2006 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4007 [0.5 credit]**Topics in Asian Art**

A selected topic in East Asian Art, which may include 19th century Ukiyo-e woodblock prints, The Gutai Group, performance art in China and Japan, and contemporary Chinese art.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4008 [0.5 credit]**Transnational Theory**

Critical examination of transnational theories of cultural analysis, including Orientalism, Post-Colonial theory, translation theory and theories of cultural hybridity.

Precludes additional credit for ARTH 3103.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4107 [0.5 credit]**Topics in Islamic Architecture and Art**

Selected aspects of Islamic Architecture and Art.

Prerequisite(s): ARTH 2107 or ARTH 2310 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4202 [0.5 credit]**Topics in Medieval Architecture and Art**

Selected aspects of Medieval or Medievalist Architecture and Art.

Prerequisite(s): ARTH 2202 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4305 [0.5 credit]**Topics in Renaissance Art**

Selected aspects of Renaissance art and society.

Prerequisite(s): ARTH 2300 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4402 [0.5 credit]**Topics in Art of the 18th and 19th Centuries**

Selected aspects of 18th-century and/or 19th-century art. Precludes additional credit for ARTH 4406 (no longer offered), ARTH 4505 (no longer offered).

Prerequisite(s): ARTH 2404 or ARTH 2405 or ARTH 2406 or ARTH 2502 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4600 [0.5 credit]**Art, Architecture, and Gender**

Art and/or architectural creation, reception and/or historiography through the lens of gender identities.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4602 [0.5 credit]**Issues in the Theory and History of Photography**

Relates the themes of selected theoretical texts on photography to specific examples of photographic practice.

Prerequisite(s): ARTH 2601 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4610 [0.5 credit]**Topics in Modern Architecture or Design**

Selected topics in architecture and design of the Modern era.

Prerequisite(s): ARTH 2610 and fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4701 [0.5 credit]**Art and Architecture on Site**

Intensive study of art and/or architecture on site outside the National Capital region, in Canada or internationally. May include a combination of study in Ottawa and on site. Students are expected to bear all travel and other costs arising from site visits.

Includes: Experiential Learning Activity

Prerequisite(s): Permission of the Discipline. Applicants will normally have fourth-year standing in Art History or History and Theory of Architecture and a CGPA of 8.0 or above.

Hours to be arranged. Locations vary.

ARTH 4705 [0.5 credit]**Seminar: Selected Museum Exhibition**

Studies a major exhibition held at a specific museum. Students enrolled in this course are expected to bear all travel and other costs arising from required visits to the museum.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Art History or History and Theory of Architecture and permission of the Discipline.

Lectures and/or seminar three hours a week.

ARTH 4800 [0.5 credit]**Topics in Architectural History**

Selected aspects of architectural history from ancient times to the present.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4809 [0.5 credit]**Topics in Art History and Criticism**

Selected aspects of art history and/or criticism from ancient times to the present.

Prerequisite(s): fourth-year standing in Art History or History and Theory of Architecture, or permission of the Discipline.

Seminar three hours a week.

ARTH 4900 [0.5 credit]**Directed Readings and Research**

Supervised readings and research projects. Guidelines must be obtained from the Undergraduate Supervisor prior to registration. A written project outline, approved by the supervising Art History or History and Theory of Architecture faculty member, must be submitted by the last day for course changes.

Prerequisite(s): fourth-year Honours standing in Art History or History and Theory of Architecture and permission of the Discipline.

ARTH 4909 [1.0 credit]**Honours Research Essay**

An essay of approximately 10,000 words, resulting from independent research, supervised by Art History or History and Theory of Architecture faculty.

Prerequisite(s): fourth-year Honours standing in Art History or History and Theory of Architecture with a minimum CGPA of 9.00 and permission of the Discipline.

Biochemistry

This section presents the requirements for programs in:

- Biochemistry B.Sc. Honours
- Biochemistry and Biotechnology B.Sc. Honours
- Computational Biochemistry B.Sc. Honours
- Biochemistry B.Sc. Major

Requirements for the program Biochemistry and Biotechnology are presented in the Biotechnology program section of this Calendar.

Program Requirements

Course Categories for Biochemistry

The program descriptions below make use of the following course categories that are defined in the Regulations for the B.Sc.

- Approved Courses Outside the Faculties of Science and Engineering and Design
- Free Electives

Biochemistry

B.Sc. Honours (20.0 credits)

A. Credits included in the Major CGPA (13.5 credits)

1. 2.0 credits in:		2.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2104 [0.5]	Introductory Genetics	
BIOL 3104 [0.5]	Molecular Genetics	
2. 0.5 credit from:		0.5
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
3. 0.5 credit from:		0.5
BIOL 3205 [0.5]	Plant Biochemistry and Physiology	
BIOL 3305 [0.5]	Human and Comparative Physiology	
BIOL 3307 [0.5]	Advanced Human Anatomy and Physiology	
4. 1.0 credit from:		1.0
BIOL 3102 [0.5]	Mycology	
BIOL 3201 [0.5]	Cell Biology	
BIOL 3202 [0.5]	Principles of Developmental Biology	
BIOL 3205 [0.5]	Plant Biochemistry and Physiology	
BIOL 3301 [0.5]	Biotechnology II	
BIOL 3303 [0.5]	Experimental Microbiology	
BIOL 3305 [0.5]	Human and Comparative Physiology	
BIOL 3306 [0.5]	Human Anatomy and Physiology	
BIOL 3307 [0.5]	Advanced Human Anatomy and Physiology	
BIOL 3501 [0.5]	Biomechanics	
BIOL 4008 [0.5]	Molecular Plant Development	
BIOL 4103 [0.5]	Population Genetics	
BIOL 4104 [0.5]	Evolutionary Genetics	
BIOL 4106 [0.5]	Advances in Molecular Biology	
BIOL 4109 [0.5]	Laboratory Techniques in Molecular Genetics	
BIOL 4200 [0.5]	Immunology	
BIOL 4201 [0.5]	Advanced Cell Culture and Tissue Engineering	
BIOL 4202 [0.5]	Mutagenesis and DNA Repair	
BIOL 4206 [0.5]	Human Genetics	
BIOL 4207 [0.5]	Advanced Embryology & Developmental Biology	
BIOL 4209 [0.5]	Advanced Plant Physiology	
BIOL 4300 [0.5]	Applied Microbiology	

BIOL 4301 [0.5]	Current Topics in Biotechnology	
BIOL 4304 [0.5]	Forensic Biology	
BIOL 4306 [0.5]	Animal Neurophysiology	
BIOL 4309 [0.5]	Studies in Human Performance	
BIOL 4317 [0.5]	Neuroethology: The Neural Basis of Animal Behaviour	
BIOL 4318 [0.5]	Adaptations to Extreme Environments	
BIOL 4319 [0.5]	Studies in Exercise Physiology	
5. 4.0 credits in:		4.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 2103 [0.5]	Physical Chemistry I	
or BIOC 2300 [0.5]	Physical Biochemistry	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	
CHEM 2303 [0.5]	Analytical Chemistry II	
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry	
CHEM 3201 [0.5]	Advanced Organic Chemistry I	
6. 0.5 credit from:		0.5
CHEM 3202 [0.5]	Advanced Organic Chemistry II	
CHEM 3205 [0.5]	Experimental Organic Chemistry	
7. 3.5 credits in:		3.5
BIOC 2200 [0.5]	Cellular Biochemistry	
BIOC 3101 [0.5]	General Biochemistry I	
BIOC 3102 [0.5]	General Biochemistry II	
BIOC 3103 [0.5]	Practical Biochemistry I	
BIOC 3104 [0.5]	Practical Biochemistry II	
BIOC 3202 [0.5]	Biophysical Techniques and Applications	
BIOC 4001 [0.5]	Methods in Biochemistry	
8. 0.5 credit from:		0.5
BIOC 3008 [0.5]	Bioinformatics	
BIOC 3203 [0.5]	Biochemical Pharmacology	
BIOC 4004 [0.5]	Industrial Biochemistry	
BIOC 4005 [0.5]	Biochemical Regulation	
BIOC 4007 [0.5]	Membrane Biochemistry	
BIOC 4008 [0.5]	Computational Systems Biology	
BIOC 4009 [0.5]	Biochemistry of Disease	
BIOC 4200 [0.5]	Immunology	
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering	
BIOC 4202 [0.5]	Mutagenesis and DNA Repair	
BIOC 4203 [0.5]	Advanced Metabolism	
BIOC 4204 [0.5]	Protein Biotechnology	
BIOC 4708 [0.5]	Principles of Toxicology	
9. 1.0 credit from:		1.0
BIOC 4906 [1.0]	Interdisciplinary Research Project	
BIOC 4907 [1.0]	Honours Essay and Research Proposal	
BIOC 4908 [1.0]	Research Project	
B. Credits Not Included in the Major CGPA (6.5 credits)		
10. 1.0 credit from:		1.0
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
or		

PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics	
& PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
11. 1.5 credits in:		1.5
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
12. 2.0 credits in	Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
13. 1.5 credits from:		1.5
BIOC courses listed in but not used to fulfill Item 8 above, one of:		
BIOC 2400 [0.5]	Independent Research I	
BIOC 3400 [0.5]	Independent Research II	
BIOC 4901 [0.5]	Selected Topics in Biochemistry	
BIOC 4008 [0.5]	Computational Systems Biology	
BIOL courses listed in but not used to fulfill Item 4 above		
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
BIOL 2301 [0.5]	Biotechnology I	
BIOL 2303 [0.5]	Microbiology	
CHEM courses listed in but not used to fulfill Item 6 above:		
CHEM 3100 [0.5]	Physical Chemistry II	
CHEM 3101 [0.5]	Quantum Chemistry	
CHEM 3102 [0.5]	Methods of Computational Chemistry	
CHEM 3106 [0.5]	Computational Chemistry Methods Laboratory	
CHEM 3107 [0.5]	Experimental Methods in Nanoscience	
CHEM 3504 [0.5]	Inorganic Chemistry II	
CHEM 3600 [0.5]	Introduction to Nanotechnology	
CHEM 3700 [0.5]	Industrial Applications of Chemistry	
CHEM 3800 [0.5]	The Chemistry of Environmental Pollutants	
CHEM 4201 [0.5]	Macromolecular Nanotechnology	
CHEM 4202 [0.5]	Advanced Topics in Organic Chemistry I	
CHEM 4203 [0.5]	Synthetic Organic Chemistry	
CHEM 4206 [0.5]	Natural Products Chemistry	
CHEM 4406 [0.5]	Pharmaceutical Drug Design	
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2604 [0.5]	Modern Physics I	
MATH 2007 [0.5]	Elementary Calculus II	
MATH 2008 [0.5]	Intermediate Calculus	
MATH 2107 [0.5]	Linear Algebra II	
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
COMP 2401 [0.5]	Introduction to Systems Programming	
14. 0.5 credit in	free electives.	0.5
Total Credits		20.0

Biochemistry and Biotechnology B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (15.0 credits)

1. 4.0 credits in:	4.0
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2301 [0.5]	Biotechnology I
BIOL 2303 [0.5]	Microbiology
BIOL 3104 [0.5]	Molecular Genetics

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in Science Continuation courses in each of the two majors;**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received fewer than 10.0 transfer credits; or,
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received 10.0 or more transfer credits.

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program within the B.Sc. Degree

To transfer to a program within the B.Sc. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.10 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrolment limitations, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is meeting the minimum CGPAs described in Section 3.1.9 of the *Academic Regulations of the University*, as well as being subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of Experimental Science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology

GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology

PSYC 2700 [0.5]	Introduction to Cognitive Psychology
-----------------	--------------------------------------

PSYC 3000 [1.0]	Design and Analysis in Psychological Research
-----------------	---

PSYC 3506 [0.5]	Cognitive Development
-----------------	-----------------------

PSYC 3700 [1.0]	Cognition (Honours Seminar)
-----------------	-----------------------------

PSYC 3702 [0.5]	Perception
-----------------	------------

PSYC 2307 [0.5]	Human Neuropsychology I
-----------------	-------------------------

PSYC 3307 [0.5]	Human Neuropsychology II
-----------------	--------------------------

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology) Biochemistry students may use BIOL 2005 only as a free elective.

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except EARTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except EARTH 1010, EARTH 1011 and EARTH 2415. Earth Sciences students may use EARTH 2401, EARTH 2402, and EARTH 2403 only as free electives.

Engineering
 ENSC 2001
 FOOD (Food Science and Nutrition)
 GEOM (Geomatics)
 HLTH (Health Science)
 ISAP (Interdisciplinary Science Practice)
 MATH (Mathematics)
 NEUR (Neuroscience)
 PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903
 Science Geography (see list above)
 Science Psychology (see list above)
 STAT (Statistics)
 TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All

email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op

program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process

and requirements with the International Student Services Office.

B.Sc. Biochemistry, Computational Biochemistry: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

B.Sc. Honours Biochemistry and Computational Biochemistry students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course: BIOC 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	*W/S	Winter	S
Summer	**O/W	Summer	*W	Summer	O/W	Summer	O/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience and Biology, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions, and two of Biology, Chemistry, Earth and Space Sciences, or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics, and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics, Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be

Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

B.Sc. Major and B.Sc.

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science, or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Biochemistry (BIOC) Courses

BIOC 2200 [0.5 credit]

Cellular Biochemistry

Cellular functions and their interrelationships. Introduction to thermodynamics, membrane structure and function, transport mechanisms, basic metabolic pathways, energy production and utilization, communications between cells. It is strongly recommended that Biology Majors and Honours students take this course in their second year of study.

Includes: Experiential Learning Activity

Also listed as BIOL 2200.

Precludes additional credit for BIOL 2201.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), (CHEM 1006 or CHEM 1002) or permission of the Institute. It is strongly recommended that students in Biochemistry programs take this course in their second year of study.

Lectures three hours a week, laboratory or tutorial four hours a week.

BIOC 2300 [0.5 credit]

Physical Biochemistry

Energy of biological systems, molecular interactions, diffusion principles, introduction to protein folding, structure and thermodynamics, ligand binding and nucleic acid structures; experimental design and data management.

Precludes additional credit for CHEM 2103.

Prerequisite(s): BIOC 2200 (can be taken concurrently with BIOC 2300) and MATH 1007 and MATH 1107, and (PHYS 1007 and PHYS 1008) or (PHYS 1003 and PHYS 1004).

Lectures three hours a week, tutorials three hours a week.

BIOC 2400 [0.5 credit]

Independent Research I

Students carry out a laboratory research project under the supervision of a faculty member from the Institute of Biochemistry. A research report must be submitted by the last day of classes for evaluation by the Director and Faculty supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to Honours students of second-year standing in a Biochemistry program with a GPA of 10.0 or higher in first year, and approval of the Director and a Faculty supervisor.

Laboratory research for at least three hours a week over two terms.

BIOC 3008 [0.5 credit]**Bioinformatics**

A practical exploration in the application of information technology to biochemistry and molecular biology. Insight into biological knowledge discovery via molecular structure and function prediction, comparative genomics and biological information management.

Includes: Experiential Learning Activity

Also listed as BIOL 3008 and COMP 3308.

Prerequisite(s): BIOC 2200 or BIOL 2200, or BIOL 2201, or permission of the Institute.

Lecture two hours a week, computer workshop three hours a week.

BIOC 3101 [0.5 credit]**General Biochemistry I**

Chemistry, structure and function of proteins, lipids, carbohydrates and nucleic acids. Monomers, linkages and types of biochemical polymers that are formed. Mechanism of action of enzymes, regulatory control mechanisms of proteins and integration of biochemical pathways.

Precludes additional credit for CHEM 3401.

Prerequisite(s): (BIOC 2200 or BIOL 2200), and (CHEM 2203 and CHEM 2204) or (CHEM 2207 and CHEM 2208) or permission of the Institute.

Lectures three hours a week.

BIOC 3102 [0.5 credit]**General Biochemistry II**

Anabolic and catabolic processes. Regulation of cell compartment (membranes, mitochondria, chloroplast, peroxisome, nuclei) composition. Genetic controls of transcription, translation and post-translational modification of protein structure and function. Biochemical processes of disease, development, and toxicology.

Prerequisite(s): BIOC 3101 and BIOL 2104.

Lectures three hours a week.

BIOC 3103 [0.5 credit]**Practical Biochemistry I**

Introduction to experimental biochemistry and the theory and concepts dealt with in BIOC 3101, and BIOC 3202.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 3006 (no longer offered).

Prerequisite(s): (BIOC 2200 or BIOL 2200) and CHEM 2203 or permission of the Institute. CHEM 2204 and (BIOC 2300 or CHEM 2103) are also recommended. It is highly recommended that BIOC 3101 and BIOC 3202 be taken concurrently.

Laboratory four hours a week, tutorial one hour per week.

BIOC 3104 [0.5 credit]**Practical Biochemistry II**

Introduction to experimental biochemistry and the theory and concepts dealt with in BIOC 3101, BIOC 3102, and BIOC 3202.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 3006 (no longer offered).

Prerequisite(s): BIOC 3103. It is highly recommended that BIOC 3102 be taken concurrently.

Laboratory four hours a week, tutorial one hour a week.

BIOC 3202 [0.5 credit]**Biophysical Techniques and Applications**

Theory and applications of current biochemical/biophysical instrumentation and techniques including biophysical spectroscopy, molecular structure determination, calorimetry, and mass spectrometry.

Precludes additional credit for BIOC 4002.

Prerequisite(s): BIOC 2200 or permission of the Institute.

Lectures three hours a week.

BIOC 3203 [0.5 credit]**Biochemical Pharmacology**

Biochemical principles of pharmacology, including receptor mechanisms, signal transduction, pharmacokinetics, and pharmacodynamics. Genome-wide association studies, pharmacogenomics, and personalized medicine will also be included.

Prerequisite(s): BIOC 2200 or BIOL 2200, or permission of the Institute.

Lectures three hours a week.

BIOC 3400 [0.5 credit]**Independent Research II**

Students carry out a laboratory research project under the supervision of faculty member from the Institute of Biochemistry. A research report must be submitted by the last day of classes for evaluation by the Director and Faculty supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to Honours students of third-year standing in a Biochemistry program with a GPA of 10.0 or higher in second year, and approval of the Director and Faculty supervisor.

Laboratory research for at least three hours a week over two terms.

BIOC 3999 [0.0 credit]**Co-operative Work Term**

Practical experience for students enrolled in the co-operative option. Students must receive a satisfactory evaluation from their work term employer; and present a written report describing their work term project. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Biochemistry co-operative option and permission of the Institute.

BIOC 4001 [0.5 credit]**Methods in Biochemistry**

Principles and applications of modern biochemical methodology, including ultracentrifugation, electrophoresis, ELISA, EMSA, experimental planning, ligand binding kinetics, fluorescence spectroscopy, affinity purification, and in vitro translation.

Includes: Experiential Learning Activity

Prerequisite(s): BIOC 3103 and BIOC 3104 or permission of the Institute.

Lectures and discussion two hours, laboratory four hours a week.

BIOC 4004 [0.5 credit]**Industrial Biochemistry**

The application of biochemistry to the production of biological compounds useful in nutrition, medicine, and the food and chemical industries. General strategies for efficient production of these compounds by controlling the activities of living cells or enzymes.

Prerequisite(s): BIOC 3101 and BIOC 3102 (BIOC 3102 may be taken concurrently), or permission of the Institute. Lecture three hours a week.

BIOC 4005 [0.5 credit]**Biochemical Regulation**

Regulation at the transcriptional, translational and metabolic level; regulation of cell and subcellular organelle function and other timely topics may be included.

Prerequisite(s): BIOC 3101 and BIOC 3102.

Lectures three hours a week.

BIOC 4007 [0.5 credit]**Membrane Biochemistry**

Biochemical and biophysical aspects of biomembrane structure and function. Topics may include: membrane lipids and proteins, lipid polymorphism, model membranes, liposomes, membrane biogenesis, the membrane cytoskeleton, membrane trafficking, membrane fusion, exocytosis and signal transduction across membranes.

Prerequisite(s): BIOL 2200 or BIOC 2200, or BIOC 3101 (which may be taken concurrently with BIOC 4007), or permission of the Institute.

Lectures two hours a week and workshop two hours a week.

BIOC 4008 [0.5 credit]**Computational Systems Biology**

Modeling and simulation of metabolic and regulatory networks towards understanding complex and highly dynamic cellular systems. Biotechnological applications include metabolic engineering, synthetic biology, and drug discovery.

Includes: Experiential Learning Activity

Also listed as COMP 4308.

Prerequisite(s): BIOC 3101 or permission of the Institute.

Lecture one and a half hours per week, workshop one and a half hours per week.

BIOC 4009 [0.5 credit]**Biochemistry of Disease**

The biochemical basis of disease including genetic and metabolic disorders such as cancer, neurological degenerative conditions, diabetes, stroke and microbial infections.

Prerequisite(s): BIOC 3101 and BIOC 3102, or permission of the Institute.

Lectures three hours a week.

BIOC 4200 [0.5 credit]**Immunology**

The organization and function of the immune system, including the anatomy of the immune system, the properties and behaviour of cells of the immune system, and the molecular and genetic bases of the immune response.

Also listed as BIOL 4200.

Prerequisite(s): BIOL 3201 or permission of the Institute.

Lectures three hours a week.

BIOC 4201 [0.5 credit]**Advanced Cell Culture and Tissue Engineering**

Theory and application of current techniques and developments in cell culture as applied to research questions in the field of stem cells and tissue engineering.

Includes: Experiential Learning Activity

Also listed as BIOL 4201.

Prerequisite(s): BIOL 3201 or permission of the Institute.

Laboratory four hours per week, tutorial one hour a week.

BIOC 4202 [0.5 credit]**Mutagenesis and DNA Repair**

A mechanistic study of mutagenesis and DNA repair.

Topics include DNA structure perturbations, spontaneous and induced mutagenesis, the genetics and biochemistry of DNA repair and recombination, and the role of mutations in the development of genetic disease and cancer.

Also listed as BIOL 4202.

Prerequisite(s): BIOL 3104 and BIOL 2200/BIOC 2200, or permission of the Institute.

Lectures and tutorial three hours a week.

BIOC 4203 [0.5 credit]**Advanced Metabolism**

Structure, biochemical derivation and function of secondary metabolites such as toxins and antibiotics.

Examples from plant, fungal and animal systems.

Prerequisite(s): BIOC 3101 and BIOC 3102, or permission of the Institute.

Lectures three hours a week.

BIOC 4204 [0.5 credit]**Protein Biotechnology**

An advanced lecture, discussion and seminar course covering the theory, development and current techniques of protein and enzyme engineering. Topics to be discussed may also include applications in biotechnology, nanotechnology and new frontiers in basic and applied research.

Precludes additional credit for BIOC 4002.

Prerequisite(s): BIOC 3101 and BIOC 3202 (may be taken concurrently), or permission of the Institute.

Lectures two hours a week, workshop two hours a week.

BIOC 4708 [0.5 credit]**Principles of Toxicology**

Basic theorems of toxicology with examples of current research problems. Toxic risk is defined as the product of intensive hazard and extensive exposure. Each factor is assessed in scientific and social contexts and illustrated with many types of experimental material.

Prerequisite(s): BIOC 3101 and fourth-year standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as BIOL 6402, CHEM 5708, for which additional credit is precluded.

Lectures three hours a week.

BIOC 4901 [0.5 credit]**Selected Topics in Biochemistry**

Selected topics of current interest in biochemistry are offered upon approval by the Director in consultation with members of the Institute.

BIOC 4906 [1.0 credit]**Interdisciplinary Research Project**

Collaborative, interdisciplinary research project approved by the Director. Requires co-supervision, with at least one faculty member from the Institute of Biochemistry.

Evaluation is based on a written thesis and poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 4907 and BIOC 4908.

Prerequisite(s): (BIOC 3103 and BIOC 3104) and (BIOC 3101 and BIOC 3102) or equivalent, eligibility to continue in Honours Biochemistry or in Biochemistry and Biotechnology, permission of the Institute.

BIOC 4907 [1.0 credit]**Honours Essay and Research Proposal**

An independent research study using library or computational resources. The candidate will prepare a critical review of a topic approved by a faculty adviser. Evaluation will be based on a written report and a poster presentation of the project.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 4906 [1.0] and BIOC 4908 [1.0].

Prerequisite(s): fourth-year standing in an Honours Biochemistry program and permission of the Institute.

BIOC 4908 [1.0 credit]**Research Project**

Students carry out a research project approved by the Director, under the supervision of a faculty member of the Institute, in either the Biology or Chemistry departments. Evaluation is based on a written thesis and poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 4906 and BIOC 4907.

Prerequisite(s): (BIOC 3103 and BIOC 3104) and (BIOC 3101 and BIOC 3102) or equivalent, and eligibility to continue in Honours Biochemistry or in Biochemistry and Biotechnology.

Biology

This section presents the requirements for programs in:

- Bioinformatics B.Sc. Honours
- Biology B.Sc. Honours
- Biology with Concentration in Biodiversity, Natural History, and Conservation Science B.Sc. Honours
- Biology with Concentration in Ecology, Evolution and Behaviour B.Sc. Honours
- Biology with Concentration in Health Science B.Sc. Honours
- Biology with Concentration in Molecular and Cellular Biology B.Sc. Honours
- Biology with Concentration in Physiology B.Sc. Honours
- Biology B.Sc. Major
- Biology B.Sc.
- Biology and Biotechnology B.Sc. Honours
- Biology and Earth Sciences B.Sc. Combined Honours
- Biology and Physics B.Sc. Combined Honours
- Neuroscience and Biology B.Sc. Combined Honours
- Biology B.A. Honours
- Biology B.A.
- Biology B.A. Combined Honours
- Biology and Humanities B.Hum. Combined Honours
- Minor in Biology

Program Requirements**Course Categories for Biology Programs**

The program descriptions below make use of the following course categories that are defined in the Bachelor of Science Regulations in this Calendar.

- Science Faculty Electives
- Advanced Science Faculty Electives
- Science Continuation
- Science Geography
- Science Psychology
- Approved Courses Outside the Faculties of Science and Engineering and Design
- Free Electives
- Restricted Courses: Students in the Biology B.Sc., Biology B.Sc. Major, and Biology B.Sc. Honours

programs (except students in the Biology B.A, Biology B.A. Honours and Biology B.A. Combined Honours programs) may use Technology, Society, Environment courses TSES 3001, TSES 3002, TSES 3500, TSES 4001, TSES 4002, TSES 4003, TSES 4005, TSES 4006, TSES 4007 to fulfill degree requirements, but only as free electives.

Bioinformatics

B.Sc. Honours (20.0 credits)

A. Credits included in the Major CGPA (12.5 credits)

1. 4.0 credits in: 4.0

BIOL 1103 [0.5] Foundations of Biology I

BIOL 1104 [0.5] Foundations of Biology II

BIOL 2104 [0.5] Introductory Genetics

BIOL 2200 [0.5] Cellular Biochemistry

BIOL 3104 [0.5] Molecular Genetics

BIOL 3008 [0.5] Bioinformatics

BIOL 4905 [1.0] Honours Workshop

or BIOC 4906 [1.0] Interdisciplinary Research Project

or BIOL 4907 [1.0] Honours Essay and Research Proposal

or BIOL 4908 [1.0] Honours Research Thesis

2. 0.5 credit from: 0.5

BIOL 2001 [0.5] Animals: Form and Function

BIOL 2002 [0.5] Plants: Form and Function

BIOL 2303 [0.5] Microbiology

BIOL 3102 [0.5] Mycology

BIOL 3305 [0.5] Human and Comparative Physiology

BIOL 3306 [0.5] Human Anatomy and Physiology

3. 3.5 credits from: 3.5

BIOC 2300 [0.5] Physical Biochemistry

BIOC 3101 [0.5] General Biochemistry I

BIOC 3102 [0.5] General Biochemistry II

BIOC 3202 [0.5] Biophysical Techniques and Applications

BIOC 4008 [0.5] Computational Systems Biology

BIOL 4104 [0.5] Evolutionary Genetics

BIOL 4106 [0.5] Advances in Molecular Biology

BIOC 4202 [0.5] Mutagenesis and DNA Repair

4. 1.0 credit in BIOL or BIOC or COMP or MATH or STAT at the 3000-level or higher 1.0

5. 0.5 credit from: 0.5

BIOL 3901 [0.5] Research Proposal

BIOL 4901 [0.5] Directed Special Studies

or 4000-level BIOL

6. 3.0 credits in 3.0

COMP 1005 [0.5] Introduction to Computer Science I

COMP 1006 [0.5] Introduction to Computer Science II

COMP 2401 [0.5] Introduction to Systems Programming

COMP 2402 [0.5] Abstract Data Types and Algorithms

COMP 2404 [0.5] Introduction to Software Engineering

COMP 2406 [0.5] Fundamentals of Web Applications

B. Credits not included in the Major CGPA (7.5)

7. 2.0 credits in: 2.0

CHEM 1001 [0.5] General Chemistry I

& CHEM 1002 [0.5] General Chemistry II

CHEM 2203 [0.5] Organic Chemistry I

& CHEM 2204 [0.5] Organic Chemistry II

8. 1.0 credit from: 1.0

PHYS 1007 [0.5] Elementary University Physics I

& PHYS 1008 [0.5] Elementary University Physics II

PHYS 1003 [0.5] Introductory Mechanics and

& PHYS 1004 [0.5] Thermodynamics
Introductory Electromagnetism and
Wave Motion

9. 2.0 credits in: 2.0

MATH 1007 [0.5] Elementary Calculus I

MATH 1107 [0.5] Linear Algebra I

STAT 2507 [0.5] Introduction to Statistical Modeling I

STAT 2509 [0.5] Introduction to Statistical Modeling
II

10. 2.0 credits in Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000) 2.0

11. 0.5 credit in free electives. 0.5

Total Credits 20.0

Biology

B.Sc. Honours (20.0 credits)

A. Credits included in the Major CGPA (11.5 credits)

1. 3.0 credits in: 3.0

BIOL 1103 [0.5] Foundations of Biology I

BIOL 1104 [0.5] Foundations of Biology II

BIOL 1105 [0.5] Biological Methods, Analysis and Interpretation

BIOL 2200 [0.5] Cellular Biochemistry

BIOL 4905 [1.0] Honours Workshop

or BIOL 4907 [1.0] Honours Essay and Research Proposal

or BIOL 4908 [1.0] Honours Research Thesis

2. 2.0 credits from: 2.0

BIOL 2001 [0.5] Animals: Form and Function

BIOL 2002 [0.5] Plants: Form and Function

BIOL 2104 [0.5] Introductory Genetics

BIOL 2303 [0.5] Microbiology

BIOL 2600 [0.5] Ecology

3. 0.5 credit from: 0.5

BIOL 3201 [0.5] Cell Biology

BIOL 3205 [0.5] Plant Biochemistry and Physiology

BIOL 3303 [0.5] Experimental Microbiology

BIOL 3305 [0.5] Human and Comparative Physiology

4. 1.0 credit in BIOL at the 2000-level or higher 1.0

5. 3.5 credits in BIOL or BIOC at the 3000-level or higher 3.5

6. 0.5 credit from 0.5

BIOL 3901 [0.5] Research Proposal

BIOL 4901 [0.5] Directed Special Studies

or 4000-level BIOL

7. 1.0 credit in Advanced Science Faculty Electives 1.0

B. Credits not included in the Major CGPA (8.5 credits)

8. 1.0 credit in 1.0

CHEM 1001 [0.5] General Chemistry I

& CHEM 1002 [0.5] General Chemistry II

9. 0.5 credit in: 0.5

MATH 1007 [0.5] Elementary Calculus I

10. 1.0 credit from:	1.0
COMP 1005 [0.5] Introduction to Computer Science I	
COMP 1006 [0.5] Introduction to Computer Science II	
MATH 1107 [0.5] Linear Algebra I	
PHYS 1007 [0.5] Elementary University Physics I or PHYS 1003 [0.5] Introductory Mechanics and Thermodynamics	
PHYS 1008 [0.5] Elementary University Physics II or PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion	
STAT 2507 [0.5] Introduction to Statistical Modeling I	
11. 1.0 credit in Science Faculty Electives	1.0
12. 2.0 credits in Science Continuation (not in BIOL)	2.0
13. 2.0 credits in Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
14. 1.0 credit in free electives.	1.0
Total Credits	20.0

Biology with Concentration in Biodiversity, Natural History, and Conservation Science B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.5 credits)

1. 2.5 credits in:	2.5
BIOL 1103 [0.5] Foundations of Biology I	
BIOL 1104 [0.5] Foundations of Biology II	
BIOL 1105 [0.5] Biological Methods, Analysis and Interpretation	
BIOL 4905 [1.0] Honours Workshop or BIOL 4907 [1.0] Honours Essay and Research Proposal or BIOL 4908 [1.0] Honours Research Thesis	
2. 2.5 credits in:	2.5
BIOL 2001 [0.5] Animals: Form and Function	
BIOL 2002 [0.5] Plants: Form and Function	
BIOL 2104 [0.5] Introductory Genetics	
BIOL 2200 [0.5] Cellular Biochemistry	
BIOL 2600 [0.5] Ecology	
3. 0.5 credit from:	0.5
BIOL 3201 [0.5] Cell Biology	
BIOL 3205 [0.5] Plant Biochemistry and Physiology	
BIOL 3303 [0.5] Experimental Microbiology	
BIOL 3305 [0.5] Human and Comparative Physiology	
BIOL 4207 [0.5] Advanced Embryology & Developmental Biology	
4. 3.0 credits in:	3.0
BIOL 2903 [0.5] Natural History and Ecology of Ontario	
BIOL 3602 [0.5] Conservation Biology	
BIOL 3604 [0.5] Statistics for Biologists	
BIOL 3608 [0.5] Principles of Biogeography	
BIOL 3609 [0.5] Evolutionary Concepts or BIOL 3611 [0.5] Evolutionary Ecology	
BIOL 4104 [0.5] Evolutionary Genetics	
5. 1.0 credit from:	1.0
BIOL 2303 [0.5] Microbiology	
BIOL 3004 [0.5] Insect Diversity	
BIOL 3102 [0.5] Mycology	

BIOL 3202 [0.5] Principles of Developmental Biology	
BIOL 3303 [0.5] Experimental Microbiology	
BIOL 3601 [0.5] Ecosystems and Environmental Change	
BIOL 3605 [0.5] Field Course I	
BIOL 3801 [0.5] Plants and Herbivores	
BIOL 3802 [0.5] Animal Behaviour	
6. 1.5 credits from:	1.5
BIOL 4103 [0.5] Population Genetics	
BIOL 4203 [0.5] Evolution of Sex	
BIOL 4207 [0.5] Advanced Embryology & Developmental Biology	
BIOL 4318 [0.5] Adaptations to Extreme Environments	
BIOL 4500 [0.5] The Biology of Birds	
BIOL 4501 [0.5] The Taxonomy of Birds	
BIOL 4502 [0.5] Herpetology	
BIOL 4503 [0.5] Fish Ecology, Conservation and Management	
BIOL 4504 [0.5] Ecology of Freshwater Invertebrates	
BIOL 4505 [0.5] Coral Reefs	
BIOL 4506 [0.5] Cactus Biology	
BIOL 4602 [0.5] Evolutionary Applications across Disciplines: From Medicine to Conservation	
BIOL 4603 [0.5] Insect Evolution and Biology	
BIOL 4604 [0.5] Landscape Ecology	
7. 0.5 credit in:	0.5
BIOL 3901 [0.5] Research Proposal or BIOL 4901 [0.5] Directed Special Studies or BIOL at 4000-level or above	
B. Credits Not Included in the Major CGPA (8.5 credits)	
8. 1.0 credit in:	1.0
CHEM 1001 [0.5] General Chemistry I	
CHEM 1002 [0.5] General Chemistry II	
9. 0.5 credit in:	0.5
MATH 1007 [0.5] Elementary Calculus I	
10. 1.0 credit from:	1.0
COMP 1005 [0.5] Introduction to Computer Science I	
COMP 1006 [0.5] Introduction to Computer Science II	
MATH 1107 [0.5] Linear Algebra I	
PHYS 1007 [0.5] Elementary University Physics I or PHYS 1003 [0.5] Introductory Mechanics and Thermodynamics	
PHYS 1008 [0.5] Elementary University Physics II or PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion	
STAT 2507 [0.5] Introduction to Statistical Modeling I	
11. 1.0 credit in Science Faculty electives	1.0
12. 2.0 credits in Science Continuation courses (not in BIOL)	2.0

Students are encouraged to consider the following courses as options:

ERTH 2312 [0.5] Paleontology	
ENSC 3106 [0.5] Aquatic Science and Management	

13. 2.0 credits in Approved Courses outside the Faculties of Science and Engineering and Design (may include NSCI 1000) 2.0

Students are encouraged to consider the following courses as options:

ENST 2000 [0.5]	Environmental Justice
ENST 2001 [0.5]	Sustainable Futures: Environmental Challenges and Solutions
ENST 3022 [0.5]	Environmental and Natural Resources
INDG 2015 [0.5]	Indigenous Ecological Ways of Knowing

14. 1.0 credit in free electives 1.0

Total Credits 20.0

Biology with Concentration in Ecology, Evolution and Behaviour B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.5 credits)

1. 2.5 credits in: 2.5

BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 1105 [0.5]	Biological Methods, Analysis and Interpretation
BIOL 4905 [1.0] or BIOL 4907 [1.0](Honours Essay and Research Proposal or BIOL 4908 [1.0](Honours Research Thesis	

2. 2.5 credits in: 2.5

BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology

3. 0.5 credit from: 0.5

BIOL 3201 [0.5]	Cell Biology
BIOL 3205 [0.5]	Plant Biochemistry and Physiology
BIOL 3303 [0.5]	Experimental Microbiology
BIOL 3305 [0.5]	Human and Comparative Physiology

4. 1.0 credit from: 1.0

BIOL 3609 [0.5]	Evolutionary Concepts
BIOL 3611 [0.5]	Evolutionary Ecology
BIOL 3802 [0.5]	Animal Behaviour

5. 2.0 credits from: 2.0

BIOL 3004 [0.5]	Insect Diversity
BIOL 3104 [0.5]	Molecular Genetics
BIOL 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
BIOL 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians

8. 2.0 credits in	Science Continuation (not in BIOL)	2.0
9. 1.0 credit in	Science Faculty Electives	1.0
10. 2.0 credits in	Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
11. 1.0 credit in	free electives.	1.0
Total Credits		15.0

Biology and Biotechnology B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (13 credits)

1. 6.5 credits in:		6.5
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 1105 [0.5]	Biological Methods, Analysis and Interpretation	
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
BIOL 2104 [0.5]	Introductory Genetics	
BIOL 2200 [0.5]	Cellular Biochemistry	
BIOL 2301 [0.5]	Biotechnology I	
BIOL 2303 [0.5]	Microbiology	
BIOL 3104 [0.5]	Molecular Genetics	
BIOL 3201 [0.5]	Cell Biology	
BIOL 3301 [0.5]	Biotechnology II	
BIOL 4301 [0.5]	Current Topics in Biotechnology	
2. 1.5 credit in:		1.5
BUSI 2800 [0.5]	Entrepreneurship	
BIOC 3101 [0.5]	General Biochemistry I	
BIOC 3102 [0.5]	General Biochemistry II	
3. 4.0 credits from:		4.0
BIOC 2300 [0.5]	Physical Biochemistry	
or CHEM 2103 [0.5]	Physical Chemistry I	
BIOL 3008 [0.5]	Bioinformatics	
BIOL 3103 [0.5]	Practical Biochemistry I	
BIOL 3104 [0.5]	Practical Biochemistry II	
BIOL 3202 [0.5]	Biophysical Techniques and Applications	
BIOL 3004 [0.5]	Insect Diversity	
BIOL 3102 [0.5]	Mycology	
BIOL 3205 [0.5]	Plant Biochemistry and Physiology	
BIOL 3303 [0.5]	Experimental Microbiology	
BIOL 3305 [0.5]	Human and Comparative Physiology	
BIOL 3501 [0.5]	Biomechanics	
BIOL 3901 [0.5]	Research Proposal	
CHEM 3700 [0.5]	Industrial Applications of Chemistry	
CHEM 3800 [0.5]	The Chemistry of Environmental Pollutants	

FOOD 3005 [0.5]	Food Microbiology	
BIOC 4001 [0.5]	Methods in Biochemistry	
BIOC 4004 [0.5]	Industrial Biochemistry	
BIOC 4005 [0.5]	Biochemical Regulation	
BIOC 4007 [0.5]	Membrane Biochemistry	
BIOC 4008 [0.5]	Computational Systems Biology	
BIOC 4009 [0.5]	Biochemistry of Disease	
BIOC 4203 [0.5]	Advanced Metabolism	
BIOC 4204 [0.5]	Protein Biotechnology	
BIOC 4708 [0.5]	Principles of Toxicology	
BIOL 4106 [0.5]	Advances in Molecular Biology	
BIOL 4109 [0.5]	Laboratory Techniques in Molecular Genetics	
BIOL 4200 [0.5]	Immunology	
BIOL 4201 [0.5]	Advanced Cell Culture and Tissue Engineering	
BIOL 4202 [0.5]	Mutagenesis and DNA Repair	
BIOL 4206 [0.5]	Human Genetics	
BIOL 4304 [0.5]	Forensic Biology	
BIOL 4901 [0.5]	Directed Special Studies	
TSES 4001 [0.5]	Technology and Society: Risk	
TSES 4002 [0.5]	Technology and Society: Forecasting	
4. 1.0 credit in:		1.0
BIOL 4905 [1.0]	Honours Workshop	
or BIOL 4907 [1.0]	(Honours Essay and Research Proposal	
or BIOL 4908 [1.0]	(Honours Research Thesis	
B. Credits Not Included in the Major CGPA (7.0 credits)		
5. 2.0 credits in:		2.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 2203 [0.5]	Organic Chemistry I	
& CHEM 2204 [0.5]	Organic Chemistry II (See Note, below)	
6. 0.5 credit in:		0.5
MATH 1007 [0.5]	Elementary Calculus I	
7. 1.5 credits from:		1.5
COMP 1005 [0.5]	Introduction to Computer Science I	
COMP 1006 [0.5]	Introduction to Computer Science II	
MATH 1107 [0.5]	Linear Algebra I	
PHYS 1007 [0.5]	Elementary University Physics I	
or PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics	
PHYS 1008 [0.5]	Elementary University Physics II	
or PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
8. 2.0 credits in	Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
9. 1.0 credit in	free electives.	1.0
Total Credits		20.0

Biology and Earth Sciences

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 1.5 credits in:		1.5
BIOL 1103 [0.5]	Foundations of Biology I	

BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2001 [0.5]	Animals: Form and Function	
2. 1.0 credit in:		1.0
ERTH 1006 [0.5]	Exploring Planet Earth	
ERTH 1009 [0.5]	The Earth System Through Time	
3. 0.5 credit from:		0.5
BIOL 2600 [0.5]	Ecology	
BIOL 3605 [0.5]	Field Course I	
4. 3.5 credits in BIOL or BIOC, with at least 1.0 credit at the 3000-level and 1.0 credit at the 4000-level		3.5
5. 3.0 credits in:		3.0
ERTH 2102 [0.5]	Mineralogy to Petrology	
ERTH 2312 [0.5]	Paleontology	
ERTH 2314 [0.5]	Sedimentation and Stratigraphy	
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds	
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians	
ERTH 3113 [0.5]	Geology of Human Origins	
6. 0.5 credit from:		0.5
ERTH 3203 [0.5]	Sedimentology	
ERTH 3206 [0.5]	Sedimentary Depositional Systems	
7. 1.0 credit in EARTH at the 4000-level		1.0
8. 1.0 credit from:		1.0
BIOL 4905 [1.0]	Honours Workshop	
BIOL 4907 [1.0]	Honours Essay and Research Proposal	
BIOL 4908 [1.0]	Honours Research Thesis	
ERTH 4908 [1.0]	Honours Thesis	
ERTH 4909 [0.5]	Research in Earth Sciences (and 0.5 credit in EARTH at the 4000-level)	
B. Credits Not Included in the Major CGPA (8.0 credits)		
9. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
10. 1.0 credit from:		1.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
11. 1.0 credit in:		1.0
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
12. 0.5 credit in:		0.5
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
13. 0.5 credit in:		0.5
COMP 1005 [0.5]	Introduction to Computer Science I	
14. 1.0 credit in Science Continuation courses		1.0
15. 2.0 credits in Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)		2.0
16. 1.0 credit in free electives		1.0
Total Credits		20.0

Biology and Physics

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits)

1. 1.0 credit from:		1.0
----------------------------	--	-----

PHYS 1001 [0.5]	Foundations of Physics I	
& PHYS 1002 [0.5]	Foundations of Physics II (recommended)	
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics	
& PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II (with an average grade of B- or higher)	
2. 3.5 credits in:		3.5
PHYS 2604 [0.5]	Modern Physics I	
PHYS 2202 [0.5]	Wave Motion and Optics	
PHYS 2305 [0.5]	Electricity and Magnetism	
PHYS 2401 [0.5]	Thermal Physics	
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars	
PHYS 3207 [0.5]	Topics in Biophysics	
PHYS 3701 [0.5]	Elements of Quantum Mechanics	
3. 1.0 credit from:		1.0
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	
PHYS 3802 [0.5]	Advanced Dynamics	
4. 1.0 credit from:		1.0
PHYS 3308 [0.5]	Electromagnetism	
PHYS 3606 [0.5]	Modern Physics II	
PHYS 3802 [0.5]	Advanced Dynamics	
PHYS 3807 [0.5]	Mathematical Physics I	
PHYS 4203 [0.5]	Physical Applications of Fourier Analysis	
PHYS 4409 [0.5]	Thermodynamics and Statistical Physics	
PHYS 4707 [0.5]	Introduction to Quantum Mechanics I	
5. 4.0 credits from:		4.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2200 [0.5]	Cellular Biochemistry	
BIOL 2104 [0.5]	Introductory Genetics	
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
BIOL 3201 [0.5]	Cell Biology	
BIOL 3104 [0.5]	Molecular Genetics	
BIOL 3305 [0.5]	Human and Comparative Physiology

BIOL 3501 [0.5]	Biomechanics	
BIOL 4106 [0.5]	Advances in Molecular Biology	
BIOL 4109 [0.5]	Laboratory Techniques in Molecular Genetics	
BIOL 4201 [0.5]	Advanced Cell Culture and Tissue Engineering	
BIOL 4202 [0.5]	Mutagenesis and DNA Repair	
BIOL 4301 [0.5]	Current Topics in Biotechnology	
BIOL 4306 [0.5]	Animal Neurophysiology	
BIOL 4309 [0.5]	Studies in Human Performance	
BIOL 4319 [0.5]	Studies in Exercise Physiology	

7. 1.0 credit from:	1.0
BIOL 4905 [1.0] Honours Workshop	
BIOL 4907 [1.0] Honours Essay and Research Proposal	
BIOL 4908 [1.0] Honours Research Thesis	
PHYS 4909 [1.0] Fourth-Year Project	
PHYS 4907 plus 0.5 credit 4000-level PHYS	
PHYS 4908 plus 0.5 credit 4000-level PHYS	
B. Credits Not Included in the Major CGPA (7.5 credits)	
8. 1.0 credit in:	1.0
CHEM 1001 [0.5] General Chemistry I & CHEM 1002 [0.5] General Chemistry II	
9. 1.5 credits in:	1.5
MATH 1004 [0.5] Calculus for Engineering or Physics	
MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5] Linear Algebra for Engineering or Science	
10. 2.0 credits in:	2.0
STAT 2507 [0.5] Introduction to Statistical Modeling I	
MATH 2004 [0.5] Multivariable Calculus for Engineering or Physics	
MATH 3705 [0.5] Mathematical Methods I	
MATH 3800 [0.5] Mathematical Modeling and Computational Methods	
11. 0.5 credit in:	0.5
COMP 1005 [0.5] Introduction to Computer Science I	
12. 2.0 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
13. 0.5 credit in free electives	0.5
Total Credits	20.0

Neuroscience and Biology

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (14.5 credits)

1. 5.5 credits in:	5.5
NEUR 1202 [0.5] Neuroscience of Mental Health and Psychiatric Disease	
NEUR 1203 [0.5] Neuroscience of Mental Health and Neurological Disease	
NEUR 2001 [0.5] Introduction to Research Methods in Neuroscience	
NEUR 2002 [0.5] Introduction to Statistics in Neuroscience	
NEUR 2201 [0.5] Cellular and Molecular Neuroscience	
NEUR 2202 [0.5] Neurodevelopment and Plasticity	
NEUR 3001 [0.5] Data Analysis in Neuroscience I	
NEUR 3002 [0.5] Data Analysis in Neuroscience II	
NEUR 3204 [0.5] Neuropharmacology	
NEUR 3206 [0.5] Sensory and Motor Neuroscience	
NEUR 3207 [0.5] Systems Neuroscience	
2. 3.0 credits in:	3.0
BIOL 1103 [0.5] Foundations of Biology I	
BIOL 1104 [0.5] Foundations of Biology II	
BIOL 2001 [0.5] Animals: Form and Function	
BIOL 2104 [0.5] Introductory Genetics	
BIOL 2200 [0.5] Cellular Biochemistry	

BIOL 3305 [0.5] Human and Comparative Physiology	
3. 1.5 credits in BIOL or BIOC at the 3000 level or above	1.5
4. 1.0 credit from:	1.0
NEUR 3301 [0.5] Genetics of Mental Health	
NEUR 3303 [0.5] The Neuroscience of Consciousness	
NEUR 3304 [0.5] Hormones and Behaviour	
NEUR 3401 [0.5] Environmental Toxins and Mental Health	
NEUR 3402 [0.5] Impact of Lifestyle and Social Interactions on Mental Health	
NEUR 3403 [0.5] Stress and Mental Health	
NEUR 3501 [0.5] Neurodegeneration and Aging	
NEUR 3502 [0.5] Neurodevelopmental Determinants of Mental Health	
NEUR 4301 [0.5] Neurobiology of Energy Homeostasis	
NEUR 4302 [0.5] Sex and the Brain	
NEUR 4303 [0.5] Indigenous Health & Mental Health	
NEUR 4305 [0.5] Immune-Brain Interactions	
NEUR 4306 [0.5] The Neural Basis of Addiction	
NEUR 4600 [0.5] Advanced Lab in Neuroanatomy	
5. 2.0 credits from:	2.0
BIOC 4007 [0.5] Membrane Biochemistry	
BIOL 2600 [0.5] Ecology	
BIOL 2301 [0.5] Biotechnology I	
BIOL 2303 [0.5] Microbiology	
BIOL 3307 [0.5] Advanced Human Anatomy and Physiology	
BIOL 3605 [0.5] Field Course I	
BIOL 3609 [0.5] Evolutionary Concepts	
BIOL 3802 [0.5] Animal Behaviour	
BIOL 3804 [0.5] Social Evolution	
BIOL 4306 [0.5] Animal Neurophysiology	
BIOL 4317 [0.5] Neuroethology: The Neural Basis of Animal Behaviour	
BIOL 4802 [0.5] Advanced Animal Behaviour	
CHEM 2204 [0.5] Organic Chemistry II	
6. 0.5 credit from:	0.5
NEUR 4200 [0.5] Seminar on Current Advances in Neuroscience	
NEUR 4202 [0.5] Seminar on Current Research in Neuroscience and Psychiatric Disease	
NEUR 4203 [0.5] Seminar on Current Research in Neuroscience and Clinical Neurology	
7. 1.0 credit from:	1.0
NEUR 4905 [1.0] Honours Workshop	
NEUR 4907 [1.0] Honours Essay and Research Proposal	
NEUR 4908 [1.0] Honours Research Thesis	
BIOL 4905 [1.0] Honours Workshop	
BIOL 4907 [1.0] Honours Essay and Research Proposal	
BIOL 4908 [1.0] Honours Research Thesis	
B. Credits not included in the Major CGPA (5.5 credits)	
8. 1.0 credit in:	1.0

MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
9. 1.5 credits in:		1.5
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 2203 [0.5]	Organic Chemistry I	
10. 1.0 credit in:		1.0
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
11. 2.0 credits in	approved courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
Total Credits		20.0

Biology

B.A. Honours (20.0 credits)

A. Credits included in the Major CGPA (8.0 credits)

1. 1.5 credit in:		1.5
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 1105 [0.5]	Biological Methods, Analysis and Interpretation	
2. 2.5 credits from:		2.5
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
BIOL 2104 [0.5]	Introductory Genetics	
or BIOL 2107 [0.5]	Fundamentals of Genetics	
BIOL 2200 [0.5]	Cellular Biochemistry	
or BIOL 2201 [0.5]	Cell Biology and Biochemistry	
BIOL 2303 [0.5]	Microbiology	
BIOL 2600 [0.5]	Ecology	
3. 0.5 credit from:		0.5
BIOL 3205 [0.5]	Plant Biochemistry and Physiology	
BIOL 3303 [0.5]	Experimental Microbiology	
BIOL 3305 [0.5]	Human and Comparative Physiology	
BIOL 3306 [0.5]	Human Anatomy and Physiology	
4. 1.5 credit in BIOL	at the 3000-level or higher	1.5
5. 1.0 credits in BIOL		1.0
6. 1.0 credit from:		1.0
BIOL 4905 [1.0]	Honours Workshop	
or BIOL 4907 [1.0]	Honours Essay and Research Proposal	
or BIOL 4908 [1.0]	Honours Research Thesis	

B. Credits not included in the Major CGPA (12.0 credits)

7. 1.0 credit from:		1.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
8. 1.0 credit in	Science Faculty Electives at the 2000-level or higher, not in BIOL	1.0
9. 1.0 credit in	Science Faculty Electives not in BIOL	1.0
10. 2.0 credits in	approved courses at the 2000 level outside of the faculties of Science and Engineering and Design	2.0
11. 4.0 credits in	approved courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)	4.0

12. 1.0 credit at	the 3000- or 4000-level	1.0
13. 2.0 credits in	free electives.	2.0
Total Credits		20.0

Biology

B.A. (15.0 credits)

Note: some advanced Biology courses with laboratory components will not be available to students enrolling in the B.A. program.

A. Credits included in the Major CGPA (6.0 credits)

1. 1.5 credit in:		1.5
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 1105 [0.5]	Biological Methods, Analysis and Interpretation	
2. 2.0 credits from:		2.0
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
BIOL 2107 [0.5]	Fundamentals of Genetics	
BIOL 2201 [0.5]	Cell Biology and Biochemistry	
BIOL 2303 [0.5]	Microbiology	
BIOL 2600 [0.5]	Ecology	
3. 2.5 credits in BIOL		2.5
B. Credits not included in the Major CGPA (9.0 credits)		
4. 1.0 credit from:		1.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
5. 1.0 credit in	Science Faculty Electives, not in BIOL	1.0
6. 4.0 credits in	approved courses outside of the faculties of Science and Engineering and Design (but may include NSCI 1000)	4.0
7. 1.0 credit at	the 2000-level or higher	1.0
8. 2.0 credits in	free electives.	2.0
Total Credits		15.0

Biology

B.A. Combined Honours (20.0 credits)

A. Credits included in the Biology Major CGPA (7.0 credits)

1. 1.5 credit in:		1.5
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 1105 [0.5]	Biological Methods, Analysis and Interpretation	
2. 2.5 credits from:		2.5
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
BIOL 2104 [0.5]	Introductory Genetics	
or BIOL 2107 [0.5]	Fundamentals of Genetics	
BIOL 2200 [0.5]	Cellular Biochemistry	
or BIOL 2201 [0.5]	Cell Biology and Biochemistry	
BIOL 2303 [0.5]	Microbiology	
BIOL 2600 [0.5]	Ecology	
3. 1.0 credit in BIOL	at the 3000-level or higher	1.0
4. 1.0 credit from:		1.0
BIOL 4905 [1.0]	Honours Workshop	

or BIOL 4907 [1.0] Honours Essay and Research Proposal or BIOL 4908 [1.0] Honours Research Thesis or equivalent from the other Honours department	
5. 1.0 credits from BIOL	1.0
B. Additional Requirements (13.0 credits)	
6. 1.0 credit from:	1.0
CHEM 1001 [0.5] General Chemistry I & CHEM 1002 [0.5] General Chemistry II	
CHEM 1005 [0.5] Elementary Chemistry I & CHEM 1006 [0.5] Elementary Chemistry II	
7. 1.0 credit in Science Faculty Electives, not in BIOL, at the 2000-level or higher	1.0
8. 1.0 credit in Science Faculty Electives, not in BIOL	1.0
9. 7.0 credits in approved courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000), to include the requirements for the other discipline	7.0
10. 3.0 credits in free electives.	3.0
Total Credits	20.0

Biology and Humanities

B.Hum. Combined Honours (20.0 credits)

A. Credits Included in the Humanities CGPA:

1. 4.0 credits in Humanities Core:	4.0
HUMS 1000 [1.0] Myth and Symbol	
HUMS 2000 [1.0] Reason and Revelation	
HUMS 3000 [1.0] Culture and Imagination	
HUMS 4000 [1.0] Politics, Modernity and the Common Good	
2. 1.5 credits in:	1.5
HUMS 1200 [0.5] Humanities and Classical Civilisation	
HUMS 3200 [1.0] European Literature	
3. 1.0 credit in:	1.0
HUMS 1005 [0.5] Early Human Cultures	
RELI 1731 [0.5] Varieties of Religious Experience or 1.0 credit in an approved Beginner's-level language.	
4. 2.0 credits in:	2.0
HUMS 2101 [0.5] Art from Antiquity to the Medieval World	
HUMS 2102 [0.5] Modern European Art 1527-2000	
HUMS 3102 [0.5] Western Music 1000-1850	
HUMS 3103 [0.5] Western Music 1850-2000 (See Note, below)	
5. 1.5 credits in:	1.5
RELI 2710 [1.0] Maccabees to Muhammad	
CLCV 2008/ ENGL 2012 [0.5]	
or	
CLCV 2010/ ENGL 2605 [0.5]	
6. 0.5 credit from:	0.5
HUMS 4901 [0.5] Research Seminar: Antiquity to the Middle Ages	
HUMS 4902 [0.5] Research Seminar: Renaissance to Enlightenment	
HUMS 4903 [0.5] Research Seminar: Romanticism to the Present	

HUMS 4904 [0.5] Research Seminar: Non-Western Traditions	
7. 1.0 credit fulfilling the language requirement	1.0
8. 0.5 credit at the 2000-level or above.	0.5
B. Credits Included in the Biology CGPA:	
9. 3.0 credits in:	3.0
BIOL 1103 [0.5] Foundations of Biology I	
BIOL 1104 [0.5] Foundations of Biology II	
BIOL 2001 [0.5] Animals: Form and Function or BIOL 2002 [0.5] Plants: Form and Function	
BIOL 2104 [0.5] Introductory Genetics or BIOL 2107 [0.5] Fundamentals of Genetics	
BIOL 2200 [0.5] Cellular Biochemistry or BIOL 2201 [0.5] Cell Biology and Biochemistry	
BIOL 2303 [0.5] Microbiology or BIOL 2600 [0.5] Ecology	
10. 2.0 credits from:	2.0
CHEM 1001 [0.5] General Chemistry I & CHEM 1002 [0.5] General Chemistry II	
CHEM 1005 [0.5] Elementary Chemistry I & CHEM 1006 [0.5] Elementary Chemistry II	
CHEM 2203 [0.5] Organic Chemistry I	
CHEM 2204 [0.5] Organic Chemistry II	
CHEM 2207 [0.5] Introduction to Organic Chemistry I & CHEM 2208 [0.5] Introduction to Organic Chemistry II	
11. 3.0 credits in BIOL or BIOC at the 3000 level or above.	3.0
Total Credits	20.0

Note:

- For Item 4 above, students who transfer into the B. Hum. may use up to 2.0 credits of any previously completed art and/or music courses (with the exception of advanced placement courses); students who study abroad may use up to 2.0 credits of art and/or music courses taken abroad; students enrolled in a Combined Honours in Humanities and Art History or Humanities and Music may substitute up to 1.0 credit of music or art from their combined discipline for the respective requirement or part thereof.
- For Items 3 and 7 above, students who must take a beginner's-level prerequisite to their Intermediate Language Requirement should do so in place of RELI 1731 & HUMS 1005. Students who are already able to demonstrate a proficiency in a second-language at an intermediate level may have the requirement waived, and in that case may be required to take an additional elective credit at the 2000-level or above in order to bring their total number of credits up to the required 20.0.
- For items 9 and 10, students taking CHEM 1005 and CHEM 1006 will be required to obtain a grade of B- or higher in CHEM 1006 to take BIOL 2200, and more advanced courses in BIOC and CHEM and advanced laboratory courses in BIOL for which BIOL 2200 is a prerequisite.

Minor in Biology (4.0 credits)

The Minor in Biology is available to students registered in degree programs other than those offered by the Department of Biology.

Requirements (4.0 credits)

1. 1.0 credit in:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
2. 1.0 credit from:		1.0
BIOL 1105 [0.5]	Biological Methods, Analysis and Interpretation	
BIOL 1010 [0.5]	Biotechnology and Society	
BIOL 1902 [0.5]	Natural History	
BIOL 2001 [0.5]	Animals: Form and Function	
BIOL 2002 [0.5]	Plants: Form and Function	
BIOL 2005 [0.5]	Human Biology	
BIOL 2107 [0.5]	Fundamentals of Genetics	
BIOL 2201 [0.5]	Cell Biology and Biochemistry	
BIOL 2303 [0.5]	Microbiology	
BIOL 2903 [0.5]	Natural History and Ecology of Ontario	
3. 1.0 credit in BIOL at the 2000-level or higher		1.0
4. 1.0 credit in BIOL at the 3000-level or higher		1.0
Total Credits		4.0

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfill any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option,

please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the

16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Honours Biology, Bioinformatics: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

B.Sc. Honours Biology and Bioinformatics students must successfully complete three (3) work terms to obtain the Co-op designation.

Work Term Course: BIOL 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	*W/S	Winter	S
Summer	**O/W	Summer	*W	Summer	O/W	Summer	O/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in Science Continuation courses in each of the two majors;**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received fewer than 10.0 transfer credits; or,
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received 10.0 or more transfer credits.

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program within the B.Sc. Degree

To transfer to a program within the B.Sc. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.10 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrolment limitations, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is meeting the minimum CGPAs described in Section 3.1.9 of the *Academic Regulations of the University*, as well as being subject to any specific requirements of the intended Minor,

Concentration, or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of Experimental Science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology) Biochemistry students may use BIOL 2005 only as a free elective.

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5] Education Research in Biology

CHEM 1003 [0.5] The Chemistry of Food, Health and Drugs

CHEM 1004 [0.5] Drugs and the Human Body

CHEM 1007 [0.5] Chemistry of Art and Artifacts

ERTH 1010 [0.5] Our Dynamic Planet Earth

ERTH 1011 [0.5] Evolution of the Earth

ERTH 2415 [0.5] Natural Disasters

ISCI 1001 [0.5] Introduction to the Environment

ISCI 2000 [0.5] Natural Laws

ISCI 2002 [0.5] Human Impacts on the Environment

MATH 0107 [0.5] Algebra and Geometry

PHYS 1901 [0.5] Planetary Astronomy

PHYS 1902 [0.5] From our Star to the Cosmos

PHYS 1905 [0.5] Physics Behind Everyday Life

PHYS 2903 [0.5] Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5] Introduction to Computational Thinking for Arts and Social Science Students

MATH 0005 [0.5] Precalculus: Functions and Graphs

MATH 0006 [0.5] Precalculus: Trigonometric Functions and Complex Numbers

MATH 1009 [0.5] Mathematics for Business

MATH 1119 [0.5] Linear Algebra: with Applications to Business

MATH 1401 [0.5] Elementary Mathematics for Economics I

MATH 1402 [0.5] Elementary Mathematics for Economics II

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies,

Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines.

Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Regulations

In addition program requirements described in this section, students must satisfy the Academic Regulations of the University, including the process of Academic Continuation Evaluation.

Students should consult the College and its website when planning their program and selecting courses.

Language Requirement

Language courses are normally selected from the following list and chosen in consultation with the College's Academic Advisor. It may be necessary to fulfill a prerequisite before taking these courses.

- GREK 2200 and GREK 2201
- LATN 2200 and LATN 2201
- FREN 1100 [1.0] or FREN 2100 [1.0]
- GERM 2010 and GERM 2020, or GERM 2110 [1.0]
- ITAL 2010 and ITAL 2020, or ITAL 2110 [1.0]
- RELI 2010
- RUSS 2010 and RUSS 2020
- SPAN 2010 and SPAN 2020, or SPAN 2110 [1.0]

Requirement for Full-Time Study

Students in the Humanities program must complete a minimum of 4.0 credits by the end of the summer session. The College may permit students to study abroad for a year while remaining registered in the program. For those students permitted to study abroad, Carleton credits commensurate to studies taken abroad will be determined by the College and awarded towards the student's degree. In exceptional circumstances (usually financial need or sickness) the College may also permit students to take a leave of absence for one year while remaining registered in the program.

Academic Continuation Evaluation for Bachelor of Humanities

Students in the Bachelor of Humanities degree follow the Academic Continuation Evaluation (ACE) regulations described in Section 3.2 of the *Academic Regulations of the University* with the following additions and amendments.

The Bachelor of Humanities degree defines an Overall CGPA and a Core CGPA.

HUMANITIES CORE COURSES

HUMS 1000 [1.0]	Myth and Symbol
HUMS 2000 [1.0]	Reason and Revelation
HUMS 3000 [1.0]	Culture and Imagination
HUMS 4000 [1.0]	Politics, Modernity and the Common Good

At each ACE assessment, Bachelor of Humanities students are evaluated on the basis of their Overall CGPA. The Core CGPA is assessed only at the end of each winter term.

Students are *Eligible to Continue* (EC) if the Overall CGPA is at least 6.50 and the Core CGPA is at least 6.50.

A student who does not receive the status *Eligible to Continue* (EC) but who has an Overall CGPA of at least 6.00 and a Core CGPA of at least 6.00 is placed on *Academic Warning* (AW).

A student is required to leave the program with the decision *Continue in Alternate* (CA) if:

1. the student was on *Academic Warning* (AW) and does not achieve *Eligible to Continue* (EC) at the next ACE assessment,
or
2. the student has an Overall CGPA of less than 6.00 or a Core CGPA of less than 6.00 when assessed.

Transfer from B.Hum. to B.J.Hum.

A student who has completed the first year of the B.Hum. and is *Eligible to Continue* (EC) may apply to transfer into the second year of the B.J. Hum. and will be accepted at the discretion of the School of Journalism and the College of Humanities, and must normally have an overall CGPA of 10.0 (A-) or higher. Transfers into higher years will not be considered.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience and Biology, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions, and two of Biology, Chemistry, Earth and Space Sciences, or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary

Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics, and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics, Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

B.Sc. Major and B.Sc.

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science, or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions and Calculus and Vectors are recommended.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Direct Admission to the First Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European, Russian, and Eurasian Studies, French, Geography, Geography with a Concentration in Physical Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Biology (BIOL) Courses

BIOL 1010 [0.5 credit]

Biotechnology and Society

A course for students interested in the science behind recent advances in biotechnology. The different ways in which biotechnology is being applied in agriculture, health care, and the environment will be examined.

Precludes additional credit for Credit will not be given if taken concurrently with, or after BIOL 2200 or BIOC 2200 or BIOL 2201. Students in Biology and Biochemistry programs may only take this course as a free elective. Lectures three hours a week.

BIOL 1103 [0.5 credit]

Foundations of Biology I

A research-oriented course focusing on the scientific process of biological exploration at the cellular level. Topics include cell organization, metabolism, genetics, and reproduction.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 1003 (no longer offered).

Prerequisite(s): Ontario 4U/M in Biology (or equivalent), or Ontario 4U/M in Chemistry (or equivalent).

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 1104 [0.5 credit]

Foundations of Biology II

A research-oriented course focusing on the scientific process of biological exploration at the macroscale. Topics include evolution, diversity of life, and ecological relationships.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 1004 (no longer offered).

Prerequisite(s): Ontario 4U/M in Biology (or equivalent) or BIOL 1103.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 1105 [0.5 credit]

Biological Methods, Analysis and Interpretation

Formulation of biological research questions, development of hypotheses and predictions, design of experiments, collection and analysis of data, interpretation and presentation of results.

Lectures three hours a week.

BIOL 1902 [0.5 credit]

Natural History

A course designed primarily for students in non-biology programs to investigate the natural history of plants and animals, and the communities in which they occur. Particular attention is paid to the Ottawa region, but appropriate examples from other locales are also included. Lectures three hours a week.

BIOL 2001 [0.5 credit]**Animals: Form and Function**

An introduction to the diverse structures of animals (both invertebrates and vertebrates) in relationship to their functions, discussed within an evolutionary framework.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 2002 [0.5 credit]**Plants: Form and Function**

An introduction to the structure and development of higher plants (at cellular, morphological and organism levels) discussed in relation to their function.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 2005 [0.5 credit]**Human Biology**

A course for non-specialists interested in how the human body works. Topics will include biological molecules, cells, genetics, and various organ systems. Examples will be used to connect concepts taught in the course with general knowledge of human health and disease.

Prerequisite(s): BIOL 1003 or BIOL 1103 and (CHEM 1001 and CHEM 1002) or (CHEM 1005 and CHEM 1006) or permission of the Department. Students in Biology and Biochemistry programs may only take this course as a free elective.

Lectures three hours a week.

BIOL 2104 [0.5 credit]**Introductory Genetics**

Lecture/laboratory course on the mechanisms of inheritance and the nature of gene structure, composition and function, introducing both classical Mendelian genetics and modern molecular genetics. It is strongly recommended that this course be taken by Biology majors in their second year of study.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 2106 (no longer offered) and BIOL 2107. Credit for BIOL 2106 will only be given if taken before BIOL 2104.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIOL 2107 [0.5 credit]**Fundamentals of Genetics**

Mechanisms of inheritance and the nature of gene structure, composition and function, introducing both classical Mendelian genetics and modern molecular genetics.

Precludes additional credit for BIOL 2104 and BIOL 2106 (no longer offered).

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the Department.

Lectures three hours a week.

BIOL 2200 [0.5 credit]**Cellular Biochemistry**

Cellular functions and their interrelationships. Introduction to thermodynamics, membrane structure and function, transport mechanisms, basic metabolic pathways, energy production and utilization, communications between cells. It is strongly recommended that Biology Majors and Honours students take this course in their second year of study.

Includes: Experiential Learning Activity

Also listed as BIOC 2200.

Precludes additional credit for BIOL 2201.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), (CHEM 1001 and CHEM 1002) or (CHEM 1005 and CHEM 1006), or permission of the Department.

Lectures three hours a week, laboratory or tutorial four hours a week.

BIOL 2201 [0.5 credit]**Cell Biology and Biochemistry**

A study of the molecular, metabolic and structural organization of cells in relation to function. This course is recommended for students not taking upper year Biology laboratory courses for which BIOL/BIOC laboratories are prerequisites.

Precludes additional credit for BIOL 2200, BIOC 2200.

Prerequisite(s): (BIOL 1003 or BIOL 1103) and (CHEM 1002 or CHEM 1006), or permission of the Department.

Lectures three hours a week.

BIOL 2301 [0.5 credit]**Biotechnology I**

An introductory course on the science, technology, entrepreneurial skills and business considerations related to biotechnology. The course will survey broadly across the disciplines of Biology, including applications in agriculture, health, environment and industry.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104) or permission of the department.

Lectures and workshops three hours a week

BIOL 2303 [0.5 credit]**Microbiology**

The biology of the bacteria, Archaea, Viruses and Protozoans, from the fundamentals of cell chemistry, molecular biology, structure and function, to their involvement in ecological and industrial processes and human disease.

Also listed as ENVE 2002.

Prerequisite(s): BIOL 1003 or BIOL 1103.

Lectures three hours a week.

BIOL 2600 [0.5 credit]**Ecology**

The scientific study of interactions of living organisms and their environment, and how these affect the distribution and abundance of life. Topics include energy transformation and flow, nutrient cycling, population and community dynamics, human impacts on ecosystems, conservation issues. Laboratory includes field and computer exercises.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), or permission of the Department.

Lectures three hours a week, laboratory or tutorial four hours a week.

BIOL 2903 [0.5 credit]**Natural History and Ecology of Ontario**

Introduction to the remarkable diversity and ecological relationships of Ontario's flora and fauna, which are explored in a habitat context.

Precludes additional credit for BIOL 1903 (no longer offered).

Prerequisite(s): BIOL 1004 or BIOL 1104 or BIOL 1902.

Lectures three hours a week.

BIOL 3004 [0.5 credit]**Insect Diversity**

Introductory course dealing with the taxonomic diversity, anatomy, behavior and physiology of insects, as well as their impacts on ecosystems, agriculture and animal and human health.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4601.

Prerequisite(s): BIOL 2001.

Lectures three hours a week.

BIOL 3008 [0.5 credit]**Bioinformatics**

A practical exploration in the application of information technology to biochemistry and molecular biology. Insight into biological knowledge discovery via molecular structure and function prediction, comparative genomics and biological information management.

Includes: Experiential Learning Activity

Also listed as BIOC 3008, COMP 3308.

Prerequisite(s): BIOC 2200 or BIOL 2200, or BIOL 2201, or permission of the Department.

Lectures two hours a week, computer workshop three hours a week.

BIOL 3102 [0.5 credit]**Mycology**

This introductory course will cover the morphology, physiology, life cycles, evolution, ecology and biotechnology of the fungi.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2104 or BIOL 2107.

Lectures three hours a week.

BIOL 3104 [0.5 credit]**Molecular Genetics**

A lecture course dealing with modern advances in molecular genetics.

Prerequisite(s): BIOL 2104 or BIOL 2107 or permission of the Department.

Lectures three hours a week.

BIOL 3111 [0.5 credit]**Vertebrate Evolution: Mammals, Reptiles, and Birds**

Evolution of mammals, reptiles and birds. Emphasis on surveying amniote diversity, and the origin of key amniote transformations, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as EARTH 3111.

Prerequisite(s): BIOL 2001 or EARTH 1009, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

BIOL 3112 [0.5 credit]**Vertebrate Evolution: Fish and Amphibians**

Evolution of fish and amphibians. Emphasis on surveying fish and amphibian diversity, and the origin of key transformations of these groups, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as EARTH 3112.

Prerequisite(s): BIOL 2001 or EARTH 1009, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

BIOL 3201 [0.5 credit]**Cell Biology**

A lecture and laboratory course on the structure, composition, and function of eukaryotic cells.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2104 and BIOL 2200/BIOC 2200, or permission of the Department.

Lectures three hours a week, laboratory four hours a week.

BIOL 3202 [0.5 credit]**Principles of Developmental Biology**

Introduction to the underlying principles and mechanisms governing development in multicellular animals and plants. Differentiation, growth, morphogenesis, and patterning will be examined at the organismal, cellular, and molecular levels to provide a balanced view of developmental phenomena in key model organisms.

Prerequisite(s): BIOL 2104 or BIOL 2107 and one of BIOL 2001 or BIOL 2002, or permission of the Department.

Lectures three hours a week.

BIOL 3205 [0.5 credit]**Plant Biochemistry and Physiology**

A lecture and laboratory course consisting of selected topics in metabolism and physiology of plants, including photosynthesis, nutrient uptake and transport, intermediary and secondary metabolism, germination, growth and development.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2002 and BIOL 2200/BIOC 2200, or permission of the Department.

Lectures three hours a week, laboratory four hours a week.

BIOL 3301 [0.5 credit]**Biotechnology II**

An interdisciplinary course on interactions between science, invention and innovation in biotechnology. Case studies related to regional biotechnology opportunities; social and ethical issues impacting biotechnology.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2301, BIOL 2104 or BIOL 2107, and BIOL 2200/BIOC 2200 or BIOL 2201, or permission of the department.

Lectures and laboratory/workshops three hours a week

BIOL 3303 [0.5 credit]**Experimental Microbiology**

Intensive training in laboratory techniques in microbiology, using bacteria and other microorganisms to demonstrate processes of cell growth, metabolism, gene expression, rapid evolution, gene transfer, microbial community dynamics and interactions with other organisms.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2104, BIOL 2200/BIOC 2200 and BIOL 2303, or permission of the Department.

Lecture/tutorial one and a half hours a week, laboratory four hours a week.

BIOL 3305 [0.5 credit]**Human and Comparative Physiology**

The properties of physiological systems and components of humans and other animals with an emphasis on physical and chemical bases.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 3306.

Prerequisite(s): BIOL 2200/BIOC 2200 and BIOL 2001.

Lectures three hours a week, laboratory four hours a week.

BIOL 3306 [0.5 credit]**Human Anatomy and Physiology**

The anatomy and physiology of the neuromuscular, cardiovascular, respiratory, and excretory systems of humans with comparison to other animals.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 3305.

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), and (CHEM 1001 and CHEM 1002) or (CHEM 1005 and CHEM 1006), and third year standing.

Lectures three hours per week.

BIOL 3307 [0.5 credit]**Advanced Human Anatomy and Physiology**

The anatomy and physiology of the endocrine, skeletal, digestive, immunological, and reproductive systems, with additional emphasis on the embryological origins of the major physiological systems.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3305 or BIOL 3306.

Lectures three hours per week, workshop or laboratory four hours per week.

BIOL 3501 [0.5 credit]**Biomechanics**

Properties of muscles, tendons, bones, joints and the co-ordinated use of these structures. Human and other animal locomotion and fitness, bird flight, especially the soaring of the vulture and the albatross, and animal migration are covered in detail.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 1003 and BIOL 1004) or (BIOL 1103 and BIOL 1104), and third-year standing.

Lectures three hours a week, workshop two hours a week.

BIOL 3601 [0.5 credit]**Ecosystems and Environmental Change**

Exploration of the unique contribution of the ecosystem approach to ecology, and of early key literature in ecosystem ecology through to current work on global environmental change.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600.

Lectures three hours a week, laboratory four hours a week in six sessions.

BIOL 3602 [0.5 credit]**Conservation Biology**

The science of biology as applied to the problem of maintaining species diversity. Topics include: history of conservation biology, valuation of species, indices of biodiversity, extinction, conservation genetics, conservation planning in parks and reserves, landscape ecology and case studies of conservation problems.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600 or permission of the Department.

Lectures three hours a week and laboratory/workshop three hours a week.

BIOL 3604 [0.5 credit]**Statistics for Biologists**

Introduction to the analysis of biological data. Students analyze real biological data sets in weekly laboratory sessions. Methods introduced include simple linear, polynomial, and multiple regression analysis, analysis of variance, nonparametric tests, tests of independence and logistic regression analysis.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 1105 or STAT 2507.

Lectures one and one-half hours and laboratory two and one-half hours a week.

BIOL 3605 [0.5 credit]**Field Course I**

An intensive study of living organisms under natural conditions. Credit is based on two weeks of full-time fieldwork with attendant assignments. Transportation and room and board costs are borne by the student. Ontario Universities Program in Field Biology; see offered modules for specific prerequisites.

Includes: Experiential Learning Activity

Also listed as NEUR 3203, for animal behaviour modules only.

Prerequisite(s): at least one course in BIOL beyond the 1000-level and written permission of the Department. Students may take both BIOL 3605 and BIOL 3606 for credit, but neither may be used to repeat a particular module.

All day, approximately six days a week.

BIOL 3606 [0.5 credit]**Field Course II**

An intensive study of living organisms under natural conditions. Credit is based on two weeks of full-time fieldwork with attendant assignments. Transportation and room and board costs are borne by the student. Ontario Universities Program in Field Biology; see offered modules for specific prerequisites.

Includes: Experiential Learning Activity

Prerequisite(s): at least one course in BIOL beyond the 1000-level and written permission of the Department. Students may take both BIOL 3605 and BIOL 3606 for credit, but neither can be used to repeat a particular module.

All day, approximately six days a week.

BIOL 3608 [0.5 credit]**Principles of Biogeography**

Contemporary and past controls on distribution of plants and animals at global, regional and local scales; significance of these distributions.

Includes: Experiential Learning Activity

Also listed as GEOG 3104.

Prerequisite(s): BIOL 2600 or GEOG 1010 or permission of the Department.

Lectures, laboratory, and fieldwork five hours a week.

BIOL 3609 [0.5 credit]**Evolutionary Concepts**

Evolution is the change in population properties across generations. Genetic variation, mutation, selection, drift, gene flow, genome evolution, speciation, development, biodiversity, fossils, and macro-evolution.

Prerequisite(s): BIOL 2104 or BIOL 2107 or permission of the instructor.

Lectures three hours a week.

BIOL 3611 [0.5 credit]**Evolutionary Ecology**

The term "adaptation" is meaningful only with respect to an ecological context. Ecological contexts lead to evolutionary outcomes such as diverse mating systems, ageing, sexual reproduction, sexual dimorphism, geographic variation, phenotypic plasticity, and diverse life histories.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4608.

Prerequisite(s): BIOL 2600.

Lectures three hours a week; one field trip.

BIOL 3612 [0.5 credit]**Computational Methods in Ecology and Evolution**

Introduction to the development and use of computer programs to address biological problems. Topics include the development of programs to analyse ecological data, models of population dynamics, deterministic chaos, cellular automata, simulations of foraging behaviour and evolutionary computation.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600 or permission of the Department.

Lectures two hours per week, workshop three hours per week.

BIOL 3801 [0.5 credit]**Plants and Herbivores**

Exploration of the chemical, physiological, ecological and evolutionary interactions that underlie the relationship between plants and their insect herbivores.

Prerequisite(s): BIOL 2001 and BIOL 2002.

Lectures/seminars three hours a week.

BIOL 3802 [0.5 credit]**Animal Behaviour**

Advanced study of animal behaviour including the environmental, genetic, and neural influences on behaviour. Topics such as predator-prey interactions, mating behaviour, migration, parental care and social interactions are interpreted in an evolutionary context.

Prerequisite(s): BIOL 2001 or BIOL 2600 or permission of the Department.

Lectures and workshop/tutorials three hours a week.

BIOL 3804 [0.5 credit]**Social Evolution**

Diversity in social behaviour from evolutionary and ecological perspectives. Topics include ecological determinants of social living, social networks, social foraging, inclusive fitness, kin selection, altruism, cooperation, and mating systems and strategies.

Prerequisite(s): BIOL 2001 and BIOL 2600, or permission of the Department.

Lectures three hours a week.

BIOL 3901 [0.5 credit]**Research Proposal**

The development of a competitive research proposal in consultation with an advisor.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in an Honours Biology program and permission of the Department.

BIOL 3902 [0.5 credit]**Topics in Biology I**

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): third-year standing in a Biology program or permission of the Department.

Lecture, seminars, or workshops three hours per week.

BIOL 3999 [0.0 credit]**Co-operative Work Term Report**

Practical experience for students enrolled in the Co-operative Option. Students must receive satisfactory evaluations from their work term employer. Written reports describing the work term project will be required. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Biology Co-operative Option and permission of the Department.

BIOL 4008 [0.5 credit]**Molecular Plant Development**

Recent advances in plant development including molecular, biochemical, genomics, and proteomics studies.

Prerequisite(s): BIOL 2002 or permission of the Department.

Lectures three hours a week.

BIOL 4102 [0.5 credit]**Molecular Ecology**

The interface of molecular biology, ecology and population biology. Topics include experimental design and a survey and critique of molecular genetic methods to study ecology.

Prerequisite(s): BIOL 2600 and (BIOL 2104 or BIOL 2107) or permission of the Department.

Lectures three hours a week.

BIOL 4103 [0.5 credit]**Population Genetics**

Evolution of gene frequencies, including selection, mutation, genetic drift, inbreeding, gene flow, and population structure.

Prerequisite(s): BIOL 2104 or BIOL 2107 or permission of the Department. A course in statistics is highly recommended.

Lectures and seminars three hours a week.

BIOL 4104 [0.5 credit]**Evolutionary Genetics**

An overview of the molecular evidence of evolution, speciation as well as the phylogenetic analysis of biological sequence data and biometrical traits.

Includes: Experiential Learning Activity

Prerequisite(s): (BIOL 2001 or BIOL 2002) and (BIOL 2104 or BIOL 2107) or permission of the Department. A course in statistics is recommended.

Lectures and computer lab three hours a week.

BIOL 4106 [0.5 credit]**Advances in Molecular Biology**

Review of the application of high throughput approaches to research in molecular and cellular biology and biochemistry with an emphasis on gene function and human disease progression.

Prerequisite(s): BIOL 2303 and (BIOL 3104 or BIOL 3201).

Lectures and seminars three hours a week.

BIOL 4109 [0.5 credit]**Laboratory Techniques in Molecular Genetics**

This laboratory course provides practical familiarity with commonly used techniques in molecular genetics. The laboratory is suitable for students with a developing interest in problems of molecular and cellular biology and biochemistry.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2200/BIOC 2200 and BIOL 2303 and BIOL 3104 or permission of the Department.

Lecture/laboratory six hours a week in two sessions.

BIOL 4200 [0.5 credit]**Immunology**

The organization and function of the immune system, including the anatomy of the immune system, the properties and behaviour of cells of the immune system, and the molecular and genetic bases of the immune response.

Also listed as BIOC 4200.

Prerequisite(s): BIOL 3201 or permission of the Department.

Lectures three hours a week.

BIOL 4201 [0.5 credit]**Advanced Cell Culture and Tissue Engineering**

Theory and application of current techniques and developments in cell culture as applied to research questions in the field of stem cells and tissue engineering.

Includes: Experiential Learning Activity

Also listed as BIOC 4201.

Prerequisite(s): BIOL 3201 or permission of the Department.

Laboratory four hours per week, tutorial one hour a week. Labs require regular participation outside of the scheduled lab time to maintain cell cultures and set up or complete experiments.

BIOL 4202 [0.5 credit]**Mutagenesis and DNA Repair**

A mechanistic study of mutagenesis and DNA repair.

Topics include DNA structure perturbations, spontaneous and induced mutagenesis, the genetics and biochemistry of DNA repair and recombination, and the role of mutations in the development of genetic disease and cancer.

Also listed as BIOC 4202.

Prerequisite(s): BIOL 3104 and BIOL 2200/BIOC 2200 or permission of the Department.

Lectures and tutorial three hours a week.

BIOL 4203 [0.5 credit]**Evolution of Sex**

The evolution of sex, including meiosis, syngamy, sex determination, sex chromosomes, and gender from organismal, genetic, and developmental perspectives; the origin, maintenance, function, and ubiquity of sex.

Prerequisite(s): BIOL 2104 or BIOL 2107.

Lectures three hours a week.

BIOL 4206 [0.5 credit]**Human Genetics**

A survey of human genetic variation and mutation in a molecular genetics context. Topics may include molecular basis of diseases, chromosomal abnormalities, genomic imprinting, cancer genetics, genomics, gene mapping and gene therapy.

Prerequisite(s): BIOL 3104 or permission of the Department.

Lectures three hours a week.

BIOL 4207 [0.5 credit]**Advanced Embryology & Developmental Biology**

A laboratory-based exploration of techniques and recent developments in the use of model embryological systems as applied to questions of development and human health. Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3201 or BIOL 3202 or permission of the Department.

Laboratory four hours per week, tutorial one hour a week. Labs require regular participation outside of the scheduled lab time to set up or complete experiments.

BIOL 4209 [0.5 credit]**Advanced Plant Physiology**

An advanced course dealing with recent developments in selected topics of plant physiology.

Prerequisite(s): BIOL 3205 and CHEM 2203, CHEM 2204 or permission of the Department.

Lectures/discussion three hours a week.

BIOL 4300 [0.5 credit]**Applied Microbiology**

Studies of the application of microorganisms. Topics may include: microbial communities, and agricultural, pharmaceutical, industrial and health sciences.

Prerequisite(s): (BIOL 2200/BIOC 2200 or BIOL 2201), BIOL 2303 and (BIOL 3104 or BIOL 3303) or permission of the Department.

Lectures and tutorial three hours a week.

BIOL 4301 [0.5 credit]**Current Topics in Biotechnology**

Explorations of developing biotechnologies in areas such as microbial products, protein engineering, plant genetic engineering, environmental remediation, pharmaceuticals production and medical diagnostics and therapy.

Prerequisite(s): BIOL 3301 or permission of the department.

Lectures and tutorials three hours a week.

BIOL 4303 [0.5 credit]**Advances in Microbiology**

Exploration of current microbiology including the molecular biology of infectious agents, use of model micro-organisms to study human cells and diseases, and functional genomics and proteomics. Special attention will be paid to the field's "big questions". Students will critically examine a number of research proposals.

Prerequisite(s): BIOL 2303 and (BIOL 3104 or BIOL 3303 or BIOC 3102) or permission of the Department.

Lectures three hours per week.

BIOL 4304 [0.5 credit]**Forensic Biology**

An introduction to forensics that covers topics in molecular biology, biochemistry, genetics, population genetics and statistics as they relate to forensic biology. The course will describe the techniques used to identify body fluids and generate DNA profiles as well as the interpretation of forensic results.

Prerequisite(s): (BIOL 2104 or BIOL 2107) and (BIOL 2200/BIOC 2200 or BIOL 2201) or permission of the Department.

Lectures three hours a week.

BIOL 4306 [0.5 credit]**Animal Neurophysiology**

A course dealing with recent advances made in particular areas of animal neurophysiology.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4305.

Prerequisite(s): BIOL 3305 or BIOL 3306, or permission of the Department.

Lectures two hours a week, workshops or laboratory four hours a week.

BIOL 4309 [0.5 credit]**Studies in Human Performance**

Biomechanical underpinnings of human performance including the quantitative analysis of human motion in normal activities and in athletic performance. Students will learn modern motion capture methods. This course will require students to design and execute an independent project.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3307 and fourth-year standing, or permission of the department.

Lecture three hours per week, workshop/labs three hours per week.

BIOL 4317 [0.5 credit]**Neuroethology: The Neural Basis of Animal Behaviour**

Proximate mechanisms underlying animal behaviour.

Focus on evolution of nervous systems in response to environmental selection pressures. Topics include: genetic and hormonal influences on behaviour (e.g. maternal care); unique sensory worlds (e.g. magnetic); various levels of neural integration, from simple reflexes to complex social behaviour.

Prerequisite(s): BIOL 3305 or BIOL 3306, or permission of the Department.

Lectures three hours a week.

BIOL 4318 [0.5 credit]**Adaptations to Extreme Environments**

Lectures, discussions and student presentations will be used to examine adaptations of animals to extreme environments (e.g. desert) or lifestyles (e.g. diving), at the physiological, biochemical and molecular levels. Emphasis on becoming familiar with the current primary literature.

Prerequisite(s): BIOL 3305, or permission of the Department.

Lectures/workshops three hours a week.

BIOL 4319 [0.5 credit]**Studies in Exercise Physiology**

Physiological mechanisms underlying human athletic performance. Exercise physiology and cardio-respiratory activity, metabolic regulation and musculoskeletal function. Practical experience will be gained in the workshop/laboratory based experimental sessions.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3307 and fourth-year standing, or permission of the department.

Lectures two hours per week, workshop/labs three hours per week.

BIOL 4500 [0.5 credit]**The Biology of Birds**

Introduction to ornithology, the study of birds; the evolution of birds, migration, geographic variation, adaptations for flight, feeding, reproduction; extinction and preservation.

Prerequisite(s): BIOL 2001 or permission of the department.

Lectures three hours per week.

BIOL 4501 [0.5 credit]**The Taxonomy of Birds**

The taxonomy of birds and species identification are learned through the use of study skins in the lab. Field excursions allow first-hand study of various species. Participants must acquire a pair of binoculars and one of the recommended field guides.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2001 or permission of the department.

Laboratory/field excursions four hours per week.

BIOL 4502 [0.5 credit]**Herpetology**

Herpetology is the study of amphibians and reptiles. The behaviours, physiological ecology, conservation and identification of amphibians and reptiles will be examined through lectures, seminars and hands-on activities.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2001.

Lectures or seminars three hours per week.

BIOL 4503 [0.5 credit]**Fish Ecology, Conservation and Management**

Introduction to the diversity and environmental biology of the world's fishes. Applied issues in fisheries management, conservation, and aquaculture. Workshops expose students to techniques in fisheries science through hands-on demonstrations and field excursions.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2600 or permission of the Department.

Lectures/seminars two hours a week, plus labs/workshops two hours a week.

BIOL 4504 [0.5 credit]**Ecology of Freshwater Invertebrates**

Overview of the diversity and ecology of freshwater invertebrates. Aquatic invertebrates from local bodies of water will be sampled and identified in the lab.

Experiments on the ecology and behaviour of model species of freshwater invertebrates will also be conducted in the lab.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 2001 and BIOL 2600.

Seminar and lab four hours a week.

BIOL 4505 [0.5 credit]**Coral Reefs**

Examining the diversity of life on coral reefs and their interactions across ecological scales, from the biochemistry of zooxanthellae symbiosis to landscape scale trophodynamics, reticulate evolution, and reef fisheries. Emphasis is on synthesis writing drawn from the current primary literature.

Prerequisite(s): BIOL 2600.

Lectures/seminars three hours a week

BIOL 4506 [0.5 credit]**Cactus Biology**

Covers the cactus family over its entire range, including most of the western hemisphere, with discussion on their anatomy, physiology, ecology, evolution, and classification. Topics include how cacti are both typical flowering plants in some regards, and atypical in others.

Prerequisite(s): BIOL 2002.

Lectures/seminars three hours a week

BIOL 4507 [0.5 credit]**Ecological Parasitology**

Key concepts in the ecological study of parasites and pathogens, underpinned by evolutionary thinking and relevant to fundamental and applied questions of co-evolution, disease ecology, epidemiology, emerging infectious diseases, environmental parasitology, evolutionary transitions, host species range, immunity, resistance, tolerance, transmission mode, and virulence.

Prerequisite(s): BIOL 2600 and one of the following:

BIOL 3601, BIOL 3604, BIOL 3609, BIOL 3611, BIOL 3612, BIOL 3801, BIOL 3802, BIOL 3804.

Lectures or seminars 3 hours per week.

BIOL 4602 [0.5 credit]**Evolutionary Applications across Disciplines: From Medicine to Conservation**

Evolutionary principles contributing to advancements across fields including medicine, agriculture, conservation, climate change, and engineering. Topics include evolution of virulence, causes of variation in human health, evolution of resistance to pesticides, interventions for recovery of species at risk, and biomimetic modeling in engineering and architecture.

Prerequisite(s): BIOL 1104 and third-year standing.

Lectures/workshops three hours per week.

BIOL 4603 [0.5 credit]**Insect Evolution and Biology**

Major questions on the origin, evolution and adaptation of structures and physiology of terrestrial arthropods, especially insects.

Includes: Experiential Learning Activity

Prerequisite(s): BIOL 3004, or permission of the Department.

Lectures two hours a week, laboratory four hours a week.

BIOL 4604 [0.5 credit]**Landscape Ecology**

Landscape ecology is the study of how landscape structure affects the abundance and distribution of organisms. The focus of this course is on research methods and results in landscape ecology. Applications in forestry, agriculture, and species conservation.

Prerequisite(s): BIOL 2600 or equivalent, BIOL 3601 or BIOL 3602 or BIOL 3608 or equivalent, and fourth-year standing in Biology, Geography, or Environmental Sciences.

Lecture three hours a week.

BIOL 4802 [0.5 credit]**Advanced Animal Behaviour**

Contemporary issues in behavioural ecology. Topics may include the relevance of behavioural ecology to conservation biology, to new insights into human social behaviour, and will be selected through consultation between professor and students.

Prerequisite(s): BIOL 3802 or BIOL 3804, or permission of the Department.

Lectures or workshops three hours a week.

BIOL 4810 [0.5 credit]**Education Research in Biology**

An introduction to the science of teaching and learning in biology. Students will be introduced to the foundational concepts in, and tools of, Discipline-Based Education Research (DBER) and will conduct their own DBER research project.

Includes: Experiential Learning Activity

Prerequisite(s): 4th year standing, or permission of the department This course can only be used by science students as a free elective.

Also offered at the graduate level, with different requirements, as BIOL 5810, for which additional credit is precluded.

Seminar three hours per week, classroom-based research one hour per week.

BIOL 4901 [0.5 credit]**Directed Special Studies**

Independent or group study, open to third- and fourth-year students to explore a particular topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Prerequisite(s): permission of the Department. Students normally may not offer more than 1.0 credit of Directed Special Studies in their program.

BIOL 4902 [0.5 credit]**Topics in Biology II**

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): fourth-year standing in a Biology program or permission of the Department.

Lecture, seminars, or workshops three hours per week.

BIOL 4905 [1.0 credit]**Honours Workshop**

Within the context of an active learning environment, students participate in a variety of activities which may include literature reviews and critiques, media releases and response papers, oral presentations, and posters. Projects are focused on an area of biological research of interest to the student.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4907 and BIOL 4908.

Prerequisite(s): fourth-year standing in an Honours biology program and permission of the Department.

Workshops three hours per week.

BIOL 4907 [1.0 credit]**Honours Essay and Research Proposal**

An independent critical review and research proposal, using library resources, under the direct supervision of a Faculty advisor. Evaluation is based on a written report and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4905 and BIOL 4908.

Prerequisite(s): fourth-year standing in an Honours Biology program and permission of the Department.

BIOL 4908 [1.0 credit]**Honours Research Thesis**

An independent research project undertaken in the field and/or the laboratory, under the direct supervision of a faculty adviser. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 4905 and BIOL 4907.

Prerequisite(s): fourth-year standing in an Honours biology program with a minimum CGPA of 8.0 in the major or permission of the Department.

Biotechnology

This section presents the requirements for programs in:

- Biochemistry and Biotechnology B.Sc. Honours
- Biology and Biotechnology B.Sc. Honours

Program Requirements**Biochemistry and Biotechnology****B.Sc. Honours (20.0 credits)****A. Credits Included in the Major CGPA (15.0 credits)****1. 4.0 credits in:** 4.0

BIOL 1103 [0.5] Foundations of Biology I

BIOL 1104 [0.5] Foundations of Biology II

BIOL 2104 [0.5] Introductory Genetics

BIOL 2301 [0.5] Biotechnology I

BIOL 2303 [0.5] Microbiology

BIOL 3104 [0.5] Molecular Genetics

BIOL 3301 [0.5] Biotechnology II

BIOL 4301 [0.5] Current Topics in Biotechnology

2. 0.5 credit from: 0.5

BIOL 2001 [0.5] Animals: Form and Function

BIOL 2002 [0.5] Plants: Form and Function

3. 0.5 credit from: 0.5

BIOL 3201 [0.5] Cell Biology

BIOL 3205 [0.5] Plant Biochemistry and Physiology

BIOL 3303 [0.5] Experimental Microbiology

BIOL 3305 [0.5] Human and Comparative Physiology

BIOL 4109 [0.5] Laboratory Techniques in Molecular Genetics

4. 0.5 credit from: 0.5

BIOL 3102 [0.5] Mycology

BIOL 3201 [0.5] Cell Biology

BIOL 3303 [0.5] Experimental Microbiology

BIOL 4106 [0.5] Advances in Molecular Biology

BIOL 4109 [0.5] Laboratory Techniques in Molecular Genetics

BIOL 4200 [0.5] Immunology

BIOL 4201 [0.5] Advanced Cell Culture and Tissue Engineering

BIOL 4300 [0.5] Applied Microbiology

BIOL 4303 [0.5] Advances in Microbiology

5. 3.0 credits in: 3.0

BIOC 2200 [0.5] Cellular Biochemistry

BIOC 3101 [0.5] General Biochemistry I

BIOC 3102 [0.5] General Biochemistry II

BIOC 3103 [0.5] Practical Biochemistry I

BIOC 3104 [0.5] Practical Biochemistry II

BIOC 3202 [0.5] Biophysical Techniques and Applications

6. 1.0 credit from: 1.0

BIOC 4907 [1.0] Honours Essay and Research Proposal

BIOC 4908 [1.0] Research Project

7. 1.0 credit from: 1.0

BIOL 3008 [0.5] Bioinformatics

or BIOC 3203 [0.5] Biochemical Pharmacology

BIOC 4004 [0.5] Industrial Biochemistry

BIOC 4005 [0.5] Biochemical Regulation

BIOC 4007 [0.5] Membrane Biochemistry

BIOC 4008 [0.5] Computational Systems Biology

BIOC 4009 [0.5] Biochemistry of Disease

BIOC 4200 [0.5] Immunology

BIOC 4201 [0.5] Advanced Cell Culture and Tissue Engineering

BIOC 4202 [0.5] Mutagenesis and DNA Repair

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

- 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in Science Continuation courses in each of the two majors;**

- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received fewer than 10.0 transfer credits; or,
- 1.0 credit in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received 10.0 or more transfer credits.

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program within the B.Sc. Degree

To transfer to a program within the B.Sc. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.10 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrolment limitations, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is meeting the minimum CGPAs described in Section 3.1.9 of the *Academic Regulations of the University*, as well as being subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of Experimental Science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry

BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering

Biology

BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology

Chemistry

CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry

Earth Sciences

ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology

Food Sciences

FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology

Geography

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties

Neuroscience

NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics

PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars

PHYS 3606 [0.5]	Modern Physics II
-----------------	-------------------

PHYS 3608 [0.5]	Modern Applied Physics
-----------------	------------------------

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology) Biochemistry students may use BIOL 2005 only as a free elective.

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Honours Biotechnology: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

Co-operative Education - Bachelor of Science

The following programs in the Bachelor of Science Honours offer a co-operative education option:

Applied Physics, Biochemistry (including computational), Bioinformatics, Biology (including computational), Biotechnology, Chemistry (including computational), Earth Sciences, Environmental Science, Food Science and Nutrition, Geomatics, Neuroscience, Neuroscience and Mental Health, Physical Geography and Physics.

Students in all streams of the Bachelor of Science must successfully complete three (3) work terms to obtain the co-op designation.

Co-op Admission and Continuation Requirements for Students in the Bachelor of Science

For admission to and continuation in the co-op option, all students must:

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000

Program-Specific Admission and Continuation Requirements:

Applied Physics, Biochemistry (including computational), Bioinformatics, Biology (including computational), Biotechnology, Chemistry (including computational), Earth Sciences, Environmental Science, Neuroscience, Neuroscience and Mental Health and Physics:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

Food Science and Nutrition

1. Registered as a full-time student in the Bachelor of Science Honours in Food Science and Nutrition;
2. Obtained and maintained a major CGPA of 9.0 or higher and an overall CGPA of 7.5 or higher in the first three years of academic study
3. Have obtained third-year standing;
4. Successfully completed, by the start date of the first work term, at least 2.0 credits from the following list of courses: FOOD 3001, FOOD 3002, FOOD 3003, FOOD 3004, and FOOD 3005

Geomatics and Physical Geography:

1. Registered in the Bachelor of Science (Honours) Programs in Physical Geography or Geomatics;
2. Obtained and maintained an overall minimum CGPA of 9.5 and a major CGPA of 9.5;
3. Have obtained third-year standing;
4. Successfully completed, by the start-date of the first work term:
 - a. the required second-year methods courses in their program (GEOG/ENST 2005, GEOG/ENST 2006)
 - b. the required field course in their program (ENST 3900/GEOG 3000/GEOG 3010/GEOG 3030)
5. Be registered as a full-time student.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for

admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience and Biology, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions, and two of Biology, Chemistry, Earth and Space Sciences, or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics, and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics, Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

B.Sc. Major and B.Sc.

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science, or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Business

This section presents the requirements for programs in:

- Bachelor of Commerce Honours
- Concentration in Accounting
- Concentration in Business Analytics
- Concentration in Entrepreneurship
- Concentration in Finance
- Concentration in Information Systems
- Concentration in International Business
- Concentration in Management
- Concentration in Marketing
- Concentration in Supply Chain Management
- Bachelor of Commerce
- Bachelor of International Business Honours
- Concentration in International Marketing and Trade
- Concentration in International Strategy and Human Resources Management
- Concentration in Global Financial Management and Systems
- Stream in Business Analytics
- Stream in Entrepreneurship
- Stream in Sustainability
- Minor in Arts Management
- Minor in Business
- Minor in Business for Bachelor of Engineering
- Minor in Business (Entrepreneurship)
- Minor in Business (Sustainability)
- Minor in Human Resources and Management for B.A. Honours Psychology
- Post-Baccalaureate Diploma in Accounting

Program Requirements

Bachelor of Commerce Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits):

1. 2.0 credits in:	2.0
BUSI 1004 [0.5]	Financial Accounting for Business Students
BUSI 1005 [0.5]	Managerial Accounting for Business Students
BUSI 1401 [0.5]	Foundations of Information Systems
BUSI 1800 [0.5]	Introduction to Business
2. 1.0 credit in:	1.0
ECON 1001 [0.5]	Introduction to Microeconomics
ECON 1002 [0.5]	Introduction to Macroeconomics
3. 0.5 credit in:	0.5
MATH 1009 [0.5]	Mathematics for Business
4. 1.0 credit in:	1.0
PSYC 1002 [0.5]	Introduction to Psychology II
SOCI 1005 [0.5]	Sociology for Bachelor of Commerce Students
5. 4.0 credits in:	4.0
BUSI 2101 [0.5]	Organizational Behaviour
BUSI 2208 [0.5]	Introduction to Marketing
BUSI 2301 [0.5]	Introduction to Supply and Operations Management
BUSI 2401 [0.5]	Introduction to Data Analytics

BUSI 2504 [0.5]	Business Finance I	
BUSI 2601 [0.5]	Business Law	
BUSI 2701 [0.5]	Fundamentals of International Business	
BUSI 2800 [0.5]	Entrepreneurship	
6. 0.5 credit in:		0.5
STAT 2601 [0.5]	Business Statistics	
7. 1.5 credits in:		1.5
BUSI 3102 [0.5]	Introduction to Human Resources Management	
BUSI 3103 [0.5]	Introduction to Organization Theory	
BUSI 3309 [0.5]	Project Management	
8. 1.0 credit in:		1.0
BUSI 4601 [0.5]	Business Ethics	
BUSI 4609 [0.5]	Strategic Management	
9. 1.0 credit in:	BUSI at the 4000-level	1.0
10. 0.0 credits in:	Business Career Preparation Requirement	0.0
BUSI 1995 [0.0]	Employability Passport I	
BUSI 2995 [0.0]	Employability Passport II	
BUSI 3995 [0.0]	Employability Passport III	
BUSI 4995 [0.0]	Employability Passport IV	
B. Credits Not Included in the Major CGPA (7.5 credits):		
11. 7.5 credits in	free electives.	7.5
Total Credits		20.0

Notes:

- BUSI 4601 and BUSI 4609 in **Item 8** above must be taken at the Sprott School of Business.
- The following courses cannot be used as free electives toward the B.Com. degree: ESLA 1300, ESLA 1500, and any 0000-level course such as MATH 0009 and MATH 0107.
- The 4000-level credit in **Item 9** above must be taken at the Sprott School of Business.
- Students may not continue into 3000-level or higher BUSI courses unless the following two minimum requirements are met: a) successful completion of BUSI 1800 and b) successful completion of BUSI 2800.
- Students require completion of BUSI 1995 to be eligible for registration in BUSI 2101, completion of BUSI 2995 to be eligible for registration in BUSI 3309, and completion of BUSI 3995 to be eligible for registration in BUSI 4609. BUSI 4995 must be completed as part of the degree requirements prior to graduation from the Bachelor of Commerce.

Concentrations in the B.Com. Program

Concentrations described below are open to students registered in the B.Com. program. Students enrolled in a concentration must satisfy the requirements for Bachelor of Commerce (above) while gaining credit for the requirements of the Concentration through appropriate choice of courses. Students in the Concentration in International Business take Business BUSI 4709 Strategic Management for International Business in place of BUSI 4609 Strategic Management and BUSI 4705 Ethics

and Cross-cultural Interaction in place of BUSI 4601 Business Ethics in the B.Com. requirements.

Declaration of Concentration(s)

Normally, students are expected to have declared their concentration(s), if any, before commencing the sixth credit into the program. Only under special circumstances would a student be allowed to enroll in a concentration after the completion of the thirteenth credit.

Declaration of Double Concentrations

To be eligible to declare a second concentration, a student must have completed at least 6.0 credits with a minimum overall CGPA of 8.0.

Concentration in Accounting (4.0 credits)

1. 2.5 credits in:		2.5
BUSI 2001 [0.5]	Intermediate Accounting I	
BUSI 2002 [0.5]	Intermediate Accounting II	
BUSI 3001 [0.5]	Accounting for Business Combinations	
BUSI 3005 [0.5]	Taxation I	
BUSI 3008 [0.5]	Intermediate Management Accounting and Control	
2. 1.5 credits from:		1.5
BUSI 2505 [0.5]	Business Finance II	
BUSI 3007 [0.5]	Auditing I	
BUSI 3040 [0.5]	Data Analytics and Information Systems for Accounting	
BUSI 4003 [0.0]	Accounting Theory	
BUSI 4005 [0.5]	Taxation II	
BUSI 4008 [0.5]	Advanced Management Accounting and Control	
Total Credits		4.0

Concentration in Business Analytics (4.5 credits)

1. 3.5 credits in:		3.5
STAT 2602 [0.5]	Statistical Models for Business Analytics and Finance	
BUSI 3400 [0.5]	Database Design	
BUSI 3406 [0.5]	Business Analytics Principles	
BUSI 3434 [0.5]	Data Visualization	
BUSI 4407 [0.5]	Business Analytics Methods	
BUSI 4410 [0.5]	Responsible Business Analytics	
BUSI 4414 [0.5]	Capstone in Business Analytics	
2. 1.0 credits from:		1.0
BUSI 2402 [0.5]	Business Applications Development	
BUSI 3401 [0.5]	Applications Development for Online Environments	
BUSI 3402 [0.5]	Systems Analysis and Design	
BUSI 3405 [0.5]	Enterprise Architecture	
BUSI 4201 [0.5]	Marketing Metrics	
BUSI 4301 [0.5]	Artificial Intelligence and Business Decision Models	
BUSI 4308 [0.5]	Simulation Modeling and Analytics	
BUSI 4331 [0.5]	Industry 4.0 Technologies and Applications	
BUSI 4400 [0.5]	IS Management and Strategy	
BUSI 4404 [0.5]	IT Infrastructure	

BUSI 4408 [0.5]	Social Analytics
-----------------	------------------

Total Credits 4.5

Concentration in Entrepreneurship (3.5 credits)

Available to students in the B.Com. or B.I.B. programs only, except those in the B.Com. or B.I.B. with the Stream in Entrepreneurship.

1. 2.0 credits in: 2.0

BUSI 3600 [0.5]	Entrepreneurial Strategies
BUSI 3810 [0.5]	Business Development
BUSI 3820 [0.5]	Practicum in Business Design
BUSI 4810 [0.5]	Practicum in Business Creation
or an approved elective for Entrepreneurship programs	

2. 1.5 credits from a list of approved courses including the following: 1.5

BUSI 3117 [0.5]	Developing Creative Thinking
BUSI 3210 [0.5]	Personal Selling
BUSI 3611 [0.5]	Managing the Family Enterprise
BUSI 4105 [0.5]	Managing Change
BUSI 4117 [1.0]	Creative Thinking
BUSI 4607 [0.5]	Management of Technology and Innovation
BUSI 4708 [0.5]	International Expansion and Operations
BUSI 4710 [0.5]	International New Ventures

Total Credits 3.5

Concentration in Finance (4.5 credits)

1. 3.5 credits in: 3.5

STAT 2602 [0.5]	Statistical Models for Business Analytics and Finance
BUSI 2505 [0.5]	Business Finance II
BUSI 3500 [0.5]	Applied Corporate Finance
BUSI 3502 [0.5]	Investments
BUSI 3512 [0.5]	Derivatives

LAWS 3208 [0.5]	International Trade Regulation
STAT 3503 [0.5]	Regression Analysis
STAT 3507 [0.5]	Sampling Methodology
Total Credits	4.5

Note: In Item 2 above, for further emphasis within this concentration, students may cluster courses in the following manners:

2a. E-Supply Chain Management:

BUSI 3208 [0.5]	Business-to-Business Marketing
BUSI 3400 [0.5]	Database Design
BUSI 3402 [0.5]	Systems Analysis and Design
BUSI 4301 [0.5]	Artificial Intelligence and Business Decision Models
BUSI 4309 [0.0]	Practicum in Supply Chain Management
BUSI 4400 [0.5]	IS Management and Strategy
BUSI 4607 [0.5]	Management of Technology and Innovation

2b. Supply Chain Management - Business Analytics:

BUSI 3400 [0.5]	Database Design
BUSI 4406 [0.5]	Business Analytics
BUSI 4408 [0.5]	Social Analytics
BUSI 4301 [0.5]	Artificial Intelligence and Business Decision Models
BUSI 4308 [0.5]	Simulation Modeling and Analytics
BUSI 4309 [0.0]	Practicum in Supply Chain Management
STAT 3503 [0.5]	Regression Analysis
STAT 3507 [0.5]	Sampling Methodology

2c. Global Supply Chain Management:

BUSI 3208 [0.5]	Business-to-Business Marketing
BUSI 3706 [0.5]	International Business Negotiations

BUSI 4301 [0.5]	Artificial Intelligence and Business Decision Models
BUSI 4309 [0.0]	Practicum in Supply Chain Management
BUSI 4708 [0.5]	International Expansion and Operations
ECON 3600 [0.5]	Introduction to International Economics
LAWS 3208 [0.5]	International Trade Regulation

Bachelor of Commerce (20.0 credits)

Enrolment in the Bachelor of Commerce program is restricted. Please consult with an academic advisor for more information.

A. Credits Included in the Major CGPA (11.5 credits):

1. 2.0 credits in:	2.0
BUSI 1004 [0.5]	Financial Accounting for Business Students
BUSI 1005 [0.5]	Managerial Accounting for Business Students
BUSI 1401 [0.5]	Foundations of Information Systems

MATH 1009 [0.5]	Mathematics for Business
4. 1.0 credits in:	1.0
PSYC 1002 [0.5]	Introduction to Psychology II
SOCI 1005 [0.5]	Sociology for Bachelor of Commerce Students
5. 4.0 credits in:	4.0
BUSI 2101 [0.5]	Organizational Behaviour
BUSI 2208 [0.5]	Introduction to Marketing
BUSI 2301 [0.5]	Introduction to Supply and Operations Management
BUSI 2401 [0.5]	Introduction to Data Analytics
BUSI 2504 [0.5]	Business Finance I
BUSI 2601 [0.5]	Business Law
BUSI 2701 [0.5]	Fundamentals of International Business
BUSI 2800 [0.5]	Entrepreneurship
6. 0.5 credits in:	0.5
STAT 2601 [0.5]	Business Statistics
7. 1.5 credits in:	1.5
BUSI 3102 [0.5]	Introduction to Human Resources Management
BUSI 3103 [0.5]	Introduction to Organization Theory
BUSI 3309 [0.5]	Project Management
8. 1.0 credits in:	1.0
BUSI 4601 [0.5]	Business Ethics
BUSI 4609 [0.5]	Strategic Management
9. 0.0 credits in:	0.0
Business Career Preparation Requirement	
BUSI 1995 [0.0]	Employability Passport I
BUSI 2995 [0.0]	Employability Passport II
BUSI 3995 [0.0]	Employability Passport III
BUSI 4995 [0.0]	Employability Passport IV

B. Credits Not Included in the Major CGPA (8.5 credits):

10. 8.5 credits in free electives	8.5
Total Credits	20.0

Notes:

- BUSI 4601 and BUSI 4609 in **Item 8** above must be taken at the Sprott School of Business.
- The following courses cannot be used as free electives toward the B.Com. degree: ESLA 1300, ESLA 1500, and any 0000-level course such as MATH 0009 and MATH 0107.
- Students may not continue into 3000-level or higher BUSI courses unless the following two minimum requirements are met: a) successful completion of BUSI 1800 and b) successful completion of BUSI 2800.
- Students require completion of BUSI 1995 to be eligible for registration in BUSI 2101, completion of BUSI 2995 to be eligible for registration in BUSI 3309, and completion of BUSI 3995 to be eligible for registration in BUSI 4609. BUSI 4995 must be completed as part of the degree requirements prior to graduation from the Bachelor of Commerce.
- Students graduating with a Bachelor of Commerce are ineligible from receiving a concentration in Commerce, regardless of whether those concentration courses were completed successfully.

Bachelor of International Business (Honours)

Program Requirements

The Bachelor of International Business (B.I.B.) program is characterized by the requirement that students spend third year in studies abroad.

Students in the B.I.B. program are required to specialize in one of the following languages: French, German, Japanese, Mandarin, or Spanish.

Language Training Component

Students may select French, German, Japanese, Mandarin, or Spanish as their specialization language for study.

Applicants to the program interested in languages other than those listed above should contact the Eric Sprott School of Business Supervisor of Undergraduate Programs to verify if the preferred language option may have become available after the publication of this calendar.

All first year Bachelor of International Business students will be assessed for ability in their selected language by the relevant language unit and placed in the appropriate courses as authorized by the language unit, unless a student fully tests out of a language (see note 5 below).

Students with some ability in their selected language may be allowed to pursue studies in that language on the understanding that they will effect a significant improvement in their ability.

The Year Abroad

The Year Abroad Requirement of the B.I.B. program is met by the successful completion of a minimum of 4.0 approved credits during the year of study abroad (this includes BUSI 3700 Cross-cultural Communication), with a minimum of 1.0 credit taught in the chosen language for the program. The B.I.B. student will study at one of Carleton's approved Exchange partner institutions, as a full-time student on Exchange for one academic year. Students could alternatively complete the Year Abroad Requirement of the B.I.B program by two other means;

1) the successful completion of a minimum of 2.0 approved credits during the year of study abroad (this includes BUSI 3700 Cross-cultural Communication), with a minimum of 0.5 credits taught in the chosen language for the program, along with a minimum 12 week pre-approved internship (BUSI 3701 Practicum in International Business I) in that country.

OR

2) the successful completion of a minimum 24 week pre-approved internship in a country where the language is spoken (BUSI 3701 Practicum in International Business I and BUSI 3702 Practicum in International Business II), along with the completion of BUSI 3700 Cross-cultural Communication.

Students who fully test out of one of the B.I.B. required languages will be eligible to spend their third year abroad in a country where one of Carleton's approved Exchange partner institutions exists. A student's country of origin is not an eligible country for their third year abroad unless approved by the School of Business.

In order to be eligible to participate in the year abroad, students must meet the following requirements:

- At the time of application, students must have achieved a minimum Major CGPA of 6.50.
- At the time of their pre-departure ACE, students must have:
 - successfully completed a minimum of 9.0 credits, including a minimum of 5.0 credits in the Major and all pre-departure requirements in the chosen B.I.B. language (French/German/Japanese/Mandarin/Spanish);
 - a minimum Major CGPA of 6.50;
 - a minimum Language CGPA of 6.50, if applicable based on placement.

The number of courses available in English in foreign schools may vary. Carleton credits commensurate to courses taken abroad will be determined by the Registrar's Office and awarded towards the student's degree.

Students are responsible for all traveling, living and incidental costs for fulfilling third-year requirements abroad. Tuition fees and compulsory miscellaneous fees will be paid to Carleton University according to Carleton University's fee structure. The student may be liable for compulsory miscellaneous fees assessed by the foreign institution, including possible fees for language courses.

A limited number of bursaries are available to offset costs. For details on how to apply for a bursary, contact the Awards Office.

Bachelor of International Business Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits)

1. 2.0 credits in:	2.0
BUSI 1004 [0.5]	Financial Accounting for Business Students
BUSI 1005 [0.5]	Managerial Accounting for Business Students
BUSI 1401 [0.5]	Foundations of Information Systems
BUSI 1701 [0.5]	Introduction to International Business
2. 2.0 credits in:	2.0
MATH 1009 [0.5]	Mathematics for Business
ECON 1001 [0.5]	Introduction to Microeconomics
ECON 1002 [0.5]	Introduction to Macroeconomics
STAT 2601 [0.5]	Business Statistics
3. 2.5 credits in:	2.5
BUSI 2208 [0.5]	Introduction to Marketing
BUSI 2301 [0.5]	Introduction to Supply and Operations Management
BUSI 2504 [0.5]	Business Finance I
BUSI 2702 [0.5]	Introduction to International Management
BUSI 3700 [0.5]	Cross-cultural Communication
4. 1.0 credit in (See Note 1, below):	1.0
BUSI 4705 [0.5]	Ethics and Cross-cultural Interaction
BUSI 4709 [0.5]	Strategic Management for International Business (See Note, below)
5. 1.5 credits from (See Note 2, below):	1.5
BUSI 3703 [0.5]	International and Comparative Management
BUSI 3704 [0.5]	The Environment of International Business
BUSI 3706 [0.5]	International Business Negotiations
BUSI 4707 [0.5]	Regionalism and Globalization
BUSI 4710 [0.5]	International New Ventures
BUSI 4717 [0.5]	Managing Globalization in Emerging Economies
- An approved 3000-level or higher course in International Business taken during the year abroad at one of Carleton's approved exchange partner institutions	
6. 1.5 credits in (See Note 3, below):	1.5
BUSI/ECON at the 2000-level or above	
7. 1.0 credit in:	1.0
BUSI at the 3000-level or above (except for BUSI 3701 and BUSI 3702)	
8. 1.0 credits in BUSI at the 4000-level	1.0
B. Credits Included in the Core CGPA (4.0 credits)	
9. 4.0 credits in one of French, German, Japanese, Mandarin, or Spanish	4.0
C. Credits Not Included in the Major or Core CGPA (3.5 credits):	

10. **3.5 credits** in free electives (see Notes 4 and 6, below) 3.5

Total Credits 20.0

Notes:

1. For **Item 4** above, BUSI 4705 and BUSI 4709 must be taken at the Sprott School of Business.
2. For **Item 5** above:
 - a) Students **without a Concentration** must choose 2.5 credits from the list in Item 5.
 - b) Students in **Concentration in International Marketing and Trade** must choose among BUSI 3706, BUSI 4707, BUSI 4710 and BUSI 4717 from the list in Item 5.
 - c) Students in **Concentration in International Strategy and Human Resources Management** must choose among BUSI 3704, BUSI 3706, BUSI 4710 and BUSI 4717 from the list in Item 5.
 - d) Students in **Concentration in Global Financial Management and Systems** must choose among BUSI 3704, BUSI 4707, BUSI 4710 and BUSI 4717 from the list in Item 5.
3. For **Items 6, 7, and 8** above, students **without a Concentration** must satisfy these requirements:
 - a) 1.0 credit from all courses listed in Item 1 of all Concentrations
 - b) 1.0 credit from all courses listed in Item 2 of all Concentrations
 - c) 1.0 credit from all courses listed in Item 3 of all Concentrations
4. The following courses cannot be used as free electives toward the B.I.B. degree: ESLA 1300, ESLA 1500, any course at the 0000-level including MATH 0007 (no longer offered), MATH 0107, and MATH 0009.
5. For **Item 9** above, students who successfully meet some or all of the language requirements through alternative testing will choose up to 4.0 elective credits approved by Sprott. Students who test out will not receive an ACE based in their Language Core CGPA.
6. For **Item 10** above, students may use BUSI 3701 and BUSI 3702 towards their free electives if they successfully complete an internship while abroad.
7. Students require completion of BUSI 1996 and BUSI 1997 to be eligible for registration in BUSI 2702, and completion of BUSI 2996 and BUSI 2997 to be eligible for the year abroad. BUSI 4996 must be completed as part of the degree requirements prior to graduation from the Bachelor of International Business (Honours).

Concentrations in the B.I.B. Program

Concentrations described below are open to students registered in the B.I.B. program. Students enrolled in a concentration must satisfy the requirements for Bachelor of International Business (above) while gaining credit for the requirements of the Concentration through appropriate choice of courses. The order in which the courses listed for the Concentrations are taken should be planned in advance. Students are therefore strongly advised to

consider their concentration choices by the end of their first year.

Courses taken at a foreign university during the year abroad must correspond to those below or, if different, be subject to evaluation and approval by the Eric Sprott School of Business.

Concentration in International Marketing and Trade (4.0 credits)

1. 2.0 credits in:	2.0
BUSI 3705 [0.5] International Buyer Behaviour	
BUSI 4205 [0.5] International Marketing Strategy	
BUSI 4708 [0.5] International Expansion and Operations	
ECON 3601 [0.5] Introduction to International Trade	
2. 1.0 credit from:	1.0
BUSI 3204 [0.5] Digital Marketing	
BUSI 3205 [0.5] Marketing Communications	
BUSI 3207 [0.5] Marketing Research	
BUSI 3208 [0.5] Business-to-Business Marketing	
BUSI 3209 [0.5] Consumer Behaviour	
BUSI 4203 [0.5] Marketing In Not-for-Profit Organizations	
BUSI 4208 [0.5] Marketing Management	
BUSI 4209 [0.5] Consumer Culture Theory	
BUSI 4229 [0.5] Marketing in the Arts and Culture Sectors	
0.5 credit of approved 3000-level or higher non-international course(s) in Marketing taken during the year abroad at one of Carleton's approved exchange partner institutions	
3. 1.0 credit from:	1.0
ECON 3602 [0.5] International Monetary Problems	
ECON 3807 [0.5] European Economic Integration	
ECON 3808 [0.5] The Economics of Transition	
ECON 3870 [0.5] Comparative Economic Systems	
ECON 4508 [0.5] International Aspects of Economic Development	
ECON 4601 [0.5] International Trade Theory and Policy	
ECON 4602 [0.5] International Monetary Theory and Policy	
GEOG 2200 [0.5] Global Connections	
GEOG 2300 [0.5] Space, Place and Culture	
GEOG 3404 [0.5] Geographies of Economic Development	
LAWS 3207 [0.5] International Transactions	
LAWS 3208 [0.5] International Trade Regulation	
PSCI 2601 [0.5] International Relations: Global Politics	
PSCI 2602 [0.5] International Relations: Global Political Economy	
PSCI 3600 [0.5] International Institutions	
1.0 credit of approved 2000-level or higher international non-business course(s) taken during the year abroad at one of Carleton's approved exchange partner institutions	
Total Credits	4.0

Concentration in International Strategy and Human Resources Management (4.0 credits)

1. 2.0 credits in:	2.0
BUSI 3703 [0.5]	International and Comparative Management
BUSI 4706 [0.5]	International Human Resource Management
BUSI 4707 [0.5]	Regionalism and Globalization
ECON 3601 [0.5]	Introduction to International Trade
2. 1.0 credit in:	1.0
BUSI 3102 [0.5]	Introduction to Human Resources Management
BUSI 3103 [0.5]	Introduction to Organization Theory
BUSI 3106 [0.5]	Managing Conflict and Negotiation
BUSI 3117 [0.5]	Developing Creative Thinking
BUSI 3119 [0.0]	Business and Environmental Sustainability
BUSI 4104 [0.5]	Strategic Human Resources Management
BUSI 4105 [0.5]	Managing Change
BUSI 4108 [0.5]	Organizational Learning
BUSI 4112 [0.5]	Organizational Leadership
BUSI 4117 [1.0]	Creative Thinking
BUSI 4129 [0.5]	Managing the Arts
0.5 credit of approved 3000-level or higher non-international course(s) in Management taken during the year abroad at one of Carleton's approved exchange partner institutions	
3. 1.0 credit from:	1.0
ECON 3360 [0.5]	Introduction to Labour Economics
ECON 3602 [0.5]	International Monetary Problems
ECON 3807 [0.5]	European Economic Integration
ECON 3808 [0.5]	The Economics of Transition
ECON 3870 [0.5]	Comparative Economic Systems
ECON 4508 [0.5]	International Aspects of Economic Development
ECON 4601 [0.5]	International Trade Theory and Policy
ECON 4602 [0.5]	International Monetary Theory and Policy
PSCI 2601 [0.5]	International Relations: Global Politics
PSCI 2602 [0.5]	International Relations: Global Political Economy
PSCI 3600 [0.5]	International Institutions
PSCI 3703 [0.5]	Governing in the Global Economy
1.0 credit of 2000-level or higher international non-business course(s) taken during the year abroad at one of Carleton's approved exchange partner institutions	
Total Credits	4.0

Concentration in Global Financial Management and Systems (4.0 credits)

1. 2.0 credits in:	2.0
BUSI 4504 [0.5]	International Finance
BUSI 4505 [0.5]	Global Financial Markets and Institutions
BUSI 4515 [0.5]	Micro Finance
ECON 3602 [0.5]	International Monetary Problems

2. 0.5 credit in:	0.5
BUSI 3512 [0.5]	Derivatives
3. 0.5 credit from:	0.5
0.5 credit of approved 3000-level or higher course(s) in Global Financial Management taken during the year abroad at one of Carleton's approved exchange partner institutions	
BUSI 3500 [0.5]	Applied Corporate Finance
BUSI 3502 [0.5]	Investments
4. 1.0 credit from:	1.0
BUSI 3500 [0.5]	Applied Corporate Finance (if not used toward Item 3, above)
BUSI 3502 [0.5]	Investments (If not used toward Item 3, above)
BUSI 4500 [0.5]	Advanced Corporate Finance
BUSI 4502 [0.5]	Portfolio Management
BUSI 4510 [0.5]	Mergers and Acquisitions
BUSI 4511 [0.5]	Fixed Income Analysis
ECON 3360 [0.5]	Introduction to Labour Economics
ECON 3601 [0.5]	Introduction to International Trade
ECON 3807 [0.5]	European Economic Integration
ECON 3808 [0.5]	The Economics of Transition
ECON 3870 [0.5]	Comparative Economic Systems
ECON 4508 [0.5]	International Aspects of Economic Development
ECON 4601 [0.5]	International Trade Theory and Policy
ECON 4602 [0.5]	International Monetary Theory and Policy
PSCI 2601 [0.5]	International Relations: Global Politics
PSCI 2602 [0.5]	International Relations: Global Political Economy

PSCI 4603 [0.5]	Analysis of International Political Economy
PSCI 4604 [0.5]	Selected Problems in International Political Economy
PSCI 4805 [0.5]	Political Economy of Global Money and Finance
1.0 credit of approved 2000-level or higher course(s) in International non-business taken during the year abroad at one of Carleton's approved exchange partner institutions	
Total Credits	4.0

Stream in Business Analytics (2.0 credits)

Available to students in the B.Com. or B.I.B. programs only, except those in the B.Com. or B.I.B. with the Concentration in Business Analytics.

1. 2.0 credits in:	2.0
STAT 2602 [0.5]	Statistical Models for Business Analytics and Finance
BUSI 3400 [0.5]	Database Design
BUSI 3406 [0.5]	Business Analytics Principles
BUSI 4407 [0.5]	Business Analytics Methods
Total Credits	2.0

Stream in Entrepreneurship (2.0 credits)

Available to students in the B.Com. or B.I.B. programs only, except those in the B.Com. or B.I.B. with the Concentration in Entrepreneurship.

1. 2.0 credits in:	2.0
BUSI 3600 [0.5] Entrepreneurial Strategies	
BUSI 3810 [0.5] Business Development	
BUSI 3820 [0.5] Practicum in Business Design	
BUSI 4810 [0.5] Practicum in Business Creation	
Total Credits	2.0

Stream in Sustainability (2.0 credits)

Available to students in the B.Com. or B.I.B. programs only.

1. 2.0 credits in:	2.0
BUSI 2819 [0.5] Sustainability Accounting and Social Finance	
BUSI 3119 [0.0] Business and Environmental Sustainability	
BUSI 4120 [0.5] Environmental Sustainability Management	
BUSI 4219 [0.5] Sustainability Marketing	
Total Credits	2.0

Minor in Arts Management (4.5 credits)

Only students pursuing undergraduate programs (except B.Com. and B.I.B.) requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits toward their degrees with a minimum overall GPA of 7.00 may be admitted to the Minor in Arts Management.

Students who are required to leave the minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Students are required to present a Minor CGPA of 5.00 or higher at graduation in order to be awarded a Minor in Arts Management.

Requirements:

1. 3.5 credits in:	3.5
BUSI 1003 [0.5] Survey of Accounting	
BUSI 2121 [0.5] Introduction to Organizational Behaviour	
BUSI 2204 [0.5] Basic Marketing	
BUSI 2503 [0.5] Introduction to Finance	
BUSI 2800 [0.5] Entrepreneurship	
BUSI 4129 [0.5] Managing the Arts	
BUSI 4229 [0.5] Marketing in the Arts and Culture Sectors	
2. 0.5 credit from:	0.5
BUSI 1401 [0.5] Foundations of Information Systems	
BUSI 1402 [0.5] Introduction to Business Information and Communication Technologies	
BUSI 2301 [0.5] Introduction to Supply and Operations Management	
BUSI 2400 [0.5] Foundations of Information Systems	

BUSI 3102 [0.5] Introduction to Human Resources Management	
BUSI 3104 [0.5] Managing Individual Performance	
BUSI 3105 [0.5] Managing and Motivating Teams	
BUSI 3106 [0.5] Managing Conflict and Negotiation	
BUSI 3117 [0.5] Developing Creative Thinking	
BUSI 3204 [0.5] Digital Marketing	
BUSI 3205 [0.5] Marketing Communications	
BUSI 3810 [0.5] Business Development	
BUSI 3820 [0.5] Practicum in Business Design	
BUSI 4205 [0.5] International Marketing Strategy	
BUSI 4112 [0.5] Organizational Leadership	
3. 0.5 credit from:	0.5
ARTH 3705 [0.5] Selected Museum Exhibition	
ARTH 4705 [0.5] Seminar: Selected Museum Exhibition	
FILM 2101 [0.5] The Film Industry	
MUSI 3403 [0.5] Music Industries	
- or an additional 0.5 credit BUSI from the list in Item 2, above	
4. The remaining requirements of the major discipline and degree must be satisfied.	
Total Credits	4.5

Minor in Business (4.0 credits)

Only students pursuing undergraduate programs (except B.Com. and B.I.B.) requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits toward their degrees with a minimum overall CGPA of 7.00 may be admitted to Minor in Business.

Students who are required to leave the Minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Students are required to present a Minor CGPA of 5.00 or higher at graduation in order to be awarded a Minor in Business.

Requirements

1. 1.0 credit from:	1.0
BUSI 1003 [0.5] Survey of Accounting and 0.5 credit in BUSI at the 2000-level or	
BUSI 1001 [0.5] Principles of Financial Accounting	
BUSI 1002 [0.5] Management Accounting	
2. 2.0 credits in:	2.0
BUSI 1401 [0.5] Foundations of Information Systems or BUSI 2400 [0.5] Foundations of Information Systems	
BUSI 2121 [0.5] Introduction to Organizational Behaviour	
BUSI 2204 [0.5] Basic Marketing	
BUSI 2503 [0.5] Introduction to Finance	
3. 1.0 credit in BUSI at the 2000-level or higher	1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Minor in Business for Bachelor of Engineering (4.0 credits)

Only students pursuing undergraduate Bachelor of Engineering programs who have completed at least 4.0 credits toward their degrees with a minimum overall CGPA of 5.00 may be admitted to Minor in Business for Bachelor of Engineering.

Students who are required to leave the Minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Students are required to present a Minor CGPA of 5.00 or higher at graduation in order to be awarded a Minor in Business for Bachelor of Engineering.

Requirements:

1. 2.5 credits in:	2.5
BUSI 1003 [0.5] Survey of Accounting	
BUSI 2121 [0.5] Introduction to Organizational Behaviour	
BUSI 2204 [0.5] Basic Marketing	
BUSI 2301 [0.5] Introduction to Supply and Operations Management	
BUSI 2503 [0.5] Introduction to Finance	
2. 1.5 credits from:	1.5
BUSI 1401 [0.5] Foundations of Information Systems	
BUSI 2400 [0.5] Foundations of Information Systems	
BUSI 2703 [0.5] Introduction to International Business	
BUSI 2800 [0.5] Entrepreneurship	
BUSI 3103 [0.5] Introduction to Organization Theory	
BUSI 3309 [0.5] Project Management	
BUSI 4105 [0.5] Managing Change	
3. The remaining requirements of the major discipline(s) must be satisfied.	
Total Credits	4.0

Minor in Business (Entrepreneurship) (4.0 credits)

Only students pursuing an undergraduate program (except B.Com. and B.I.B.) requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits toward their degree with a minimum Overall CGPA of 7.00 may be admitted to the Minor in Business (Entrepreneurship).

Students who are required to leave the Minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Students are required to present a Minor CGPA of 5.00 or higher at graduation in order to be awarded a Minor in Business (Entrepreneurship).

Requirements

1. 1.0 credit in:	1.0
BUSI 1800 [0.5] Introduction to Business	
BUSI 2800 [0.5] Entrepreneurship	
2. 2.0 credits in:	2.0
BUSI 3600 [0.5] Entrepreneurial Strategies	

BUSI 3810 [0.5] Business Development	
BUSI 3820 [0.5] Practicum in Business Design	
BUSI 4810 [0.5] Practicum in Business Creation	
3. 1.0 credit in BUSI at the 2000-level or higher	1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Minor in Business (Sustainability) (4.0 credits)

Only students pursuing an undergraduate program (except B.Com. and B.I.B.) requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits toward their degree with a minimum Overall CGPA of 7.00 may be admitted to the Minor in Business (Sustainability).

Students who are required to leave the Minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Students are required to present a Minor CGPA of 5.00 or higher at graduation in order to be awarded a Minor in Business (Sustainability).

Requirements

1. 1.0 credit in:	1.0
BUSI 1800 [0.5] Introduction to Business	
BUSI 2800 [0.5] Entrepreneurship	
2. 2.0 credits in:	2.0
BUSI 2819 [0.5] Sustainability Accounting and Social Finance	
BUSI 3119 [0.0] Business and Environmental Sustainability	
BUSI 4120 [0.5] Environmental Sustainability Management	
BUSI 4219 [0.5] Sustainability Marketing	
3. 1.0 credit in BUSI at the 2000-level or higher	1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Minor in Human Resources and Management for B.A. Honours Psychology (5.0 credits)

Only students pursuing Bachelor of Arts Honours with a Major in Psychology who have completed at least 4.0 credits toward their degrees with a minimum overall CGPA of 7.00 may be admitted to Minor in Human Resources and Management. Students must successfully complete PSYC 2801 prior to entry in to the Minor, with a minimum grade of B+. PSYC 3801 must be successfully completed prior to taking any of the 4000-level BUSI courses listed in the Minor. Enrolment is limited.

Students who are required to leave the Minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Students are required to present a Minor CGPA of 6.50 or higher at graduation in order to be awarded a Minor in Human Resources and Management for B.A. Honours Psychology.

Requirements

1. 1.0 credits in:	1.0
---------------------------	------------

PSYC 2801 [0.5]	Organizational Psychology I	
PSYC 3801 [0.5]	Organizational Psychology II	
2. 1.0 credits in:		1.0
BUSI 3102 [0.5]	Introduction to Human Resources Management	
BUSI 3103 [0.5]	Introduction to Organization Theory	
3. 2.0 credits from:		2.0
BUSI 3104 [0.5]	Managing Individual Performance	
BUSI 3105 [0.5]	Managing and Motivating Teams	
BUSI 3106 [0.5]	Managing Conflict and Negotiation	
BUSI 4104 [0.5]	Strategic Human Resources Management	
BUSI 4105 [0.5]	Managing Change	
BUSI 4112 [0.5]	Organizational Leadership	
4. 0.5 credit in:		0.5
BUSI 2204 [0.5]	Basic Marketing	
5. 0.5 credit from:		0.5
BUSI 2800 [0.5]	Entrepreneurship	
BUSI 3209 [0.5]	Consumer Behaviour	
Total Credits		5.0

Post-Baccalaureate Diploma in Accounting (4.5 credits)

Normally, students are required to have completed an undergraduate degree with a minimum B- average or higher, and have completed BUSI 1004 and BUSI 1005 (or equivalent) with a grade of C or higher in each course. Note: BUSI 1004 and 1005 must have been completed within the last 10 years to be considered as prerequisites for this program.

Requirements:

1. 4.5 credits in:		4.5
BUSI 2001 [0.5]	Intermediate Accounting I	
BUSI 2002 [0.5]	Intermediate Accounting II	
BUSI 2005 [0.5]	Income Tax Fundamentals	
BUSI 2503 [0.5]	Introduction to Finance	
BUSI 3001 [0.5]	Accounting for Business Combinations	
BUSI 3007 [0.5]	Auditing I	
BUSI 3008 [0.5]	Intermediate Management Accounting and Control	
BUSI 3629 [0.5]	Corporate Governance and Strategy	
BUSI 4008 [0.5]	Advanced Management Accounting and Control	
Total Credits		4.5

Regulations

In addition to the program requirements described here, students must satisfy the University regulations (see the *Academic Regulations of the University* section of this Calendar).

Students should consult with the School when planning their program and selecting courses.

Courses Used Towards Streams

Any courses completed toward the fulfilment of a Stream offered by the Sprott School of Business cannot be counted toward the fulfilment of any additional Stream(s),

or toward any Concentration, offered by the Sprott School of Business.

Bachelor of Commerce

Students may not continue into 3000-level or higher BUSI courses unless the following two minimum requirements are successfully met:

1. Successful completion of BUSI 1800; and,
2. Successful completion of BUSI 2800.

Graduation (B.Com. and B.I.B.)

Bachelor of Commerce

- A B.Com. (Honours) student who meets all of the Overall CGPA requirement of 5.0, the Major CGPA graduation requirement of 6.5, and the Concentration CGPA graduation requirement of 6.5 will graduate with B.Com. Honours with a concentration notation
- A B.Com. (Honours) student who meets both the Overall CGPA requirement of 5.0 and the Major CGPA graduation requirement of 6.5, but not the Concentration CGPA graduation requirement of 6.5 will graduate with B.Com. Honours without a concentration notation
- A B.Com. (Honours) student who meets the Overall CGPA graduation requirement of 5.0 and a Major CGPA of 5.0, regardless of the Concentration CGPA will graduate with B.Com. with neither a concentration nor an Honours notation

Bachelor of International Business

- A B.I.B. student who meets all of the Overall CGPA requirement of 5.0, the Major CGPA requirement of 6.5, the Core CGPA requirements of 6.5, and the Concentration CGPA requirement of 6.5 will graduate with B.I.B. Honours with a concentration notation
- A B.I.B. student who meets the Overall CGPA requirement of 5.0, the Major CGPA requirement of 6.5 and Core CGPA requirement of 6.5, but not the Concentration CGPA requirement of 6.5 will graduate with B.I.B. Honours without a concentration notation
- A B.I.B. student who meets the Overall CGPA requirement of 5.0 but not the Major CGPA requirement of 6.5 or the Core CGPA requirement of 6.5 is eligible to transfer through Admissions Services to the B.Com. with neither a concentration nor an Honours notation and will then follow the appropriate graduation path as laid out in the B.Com. requirements. See admissions.carleton.ca for more details.

Academic Continuation Evaluation for Bachelor of International Business

Students in B.I.B. are Honours students.

Students in the Bachelor of International Business follow the Academic Continuation Evaluation (ACE) regulations governing Honours programs (see Section 3.2 of the *Academic Regulations of the University*), with the following additions and amendments.

The B.I.B. defines a Language Core consisting of the required 4.0 credits in the language of specialization.

10.5 credits through completion:

- At each ACE assessment, B.I.B. students must meet the minimum Overall, Major, and Language Core CGPAs required for graduation. A B.I.B. student not meeting any one of the Overall, Major, or Language Core CGPA graduation requirements will be required to leave the B.I.B. program with the decision *Continue in Alternate* (CA). Note that if the student meets the minimum requirements to be *Eligible to Continue* (EC) as per progression requirements in the B.Com. (Honours), the student is eligible to transfer through Admissions Services. See admissions.carleton.ca for more details. The student will then follow the appropriate continuation path as laid out in the B.Com. (Honours) requirements.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Commerce Honours: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Have a major CGPA of 8.00 or higher and an overall CGPA of 6.50 or higher;
2. Successfully completed 6.0 credits in the major and have at least 6.0 credits remaining for completion of the B.Com. program prior to their first work term;
3. Registered as a full-time student in the Bachelor of Commerce program.

To obtain the co-op designation students must successfully complete three (3) work terms.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and**

Procedures section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Commerce (B.Com.) (Honours)
- Bachelor of Commerce (B.Com.)

Admission Requirements

First Year

Bachelor of Commerce (B.Com.) (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include English (or *anglais*), Advanced Functions, and Calculus and Vectors.

Applicants who do not present with Calculus and Vectors must successfully complete MATH 0009 at Carleton in the Fall semester of first year in order to be eligible to continue.

Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Bachelor of Commerce (B.Com.)

No direct entry; access is restricted.

Advanced Standing

Bachelor of Commerce (B.Com.) (Honours)

Applications for admission to the second or subsequent years will be assessed on their merits. Students must present a major CGPA of 6.50 (C+/B-) or higher, and an overall CGPA of 8.00 (B) or higher. Advanced standing will be granted only for those courses that are determined to be appropriate.

Current Carleton students may also be assessed for admission to second and subsequent years if they present BUSI 1001 and BUSI 1002 with an average of 8.0 or higher (with no individual grade below C+) and a Major CGPA of 6.50 (C+/B-) or higher.

Applications by B.I.B. (Honours) students for admission to the second or subsequent years of B.Com. (Honours) will be assessed on their merits. Students must present a Major CGPA and an Overall CGPA consistent with the Academic Continuation Evaluation requirements for B.Com. (Honours) students. Advanced standing will be granted for those courses determined to be appropriate.

Bachelor of Commerce (B.Com.)

No direct entry. Access is restricted to students in the Bachelor of Commerce (Honours) and Bachelor of International Business (Honours). (See Regulations for Business.)

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Commerce (Honours) program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the

number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of International Business (B.I.B.) (Honours)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include English (or *anglais*), Advanced Functions, and Calculus and Vectors. Applicants who do not present with Calculus and Vectors must successfully complete MATH 0009 at Carleton in the Fall semester of first year in order to be eligible to continue.

Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Advanced Standing

Applications for admission to second and subsequent years will be assessed on their merits, subject to available spaces. Advanced standing will be granted only for those courses that are determined to be appropriate. Students must present an Overall CGPA of 8.00 (equivalent to B average) or better.

Applications by B.Com. (Honours) students for admission to the second or subsequent years of B.I.B. will be assessed on their merits. Students must present a major CGPA and an overall CGPA consistent with the Academic Continuation Evaluation requirements for B.I.B. students.

Advanced standing will be granted only for those courses determined to be appropriate.

The design of the B.I.B. program is premised on a full year of study abroad (at third year) after the preparations leading to it are successfully completed at Carleton. Students who are admitted with advanced standing may need to delay their study abroad requirement until first- and second-year curricula are completed, and consequently delay graduation.

Some transferred credits (normally electives) may have to be forfeited in order to meet the third-year Study Abroad Requirement of a minimum 4.0 credits completed during year abroad.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Diploma

• Post-Baccalaureate Diploma in Accounting

Normally, students are required to have completed an undergraduate degree with a minimum B- average or higher, and have completed BUSI 1004 and BUSI 1005 (or equivalent) with a grade of C or higher.

Business (BUSI) Courses

Notes:

1. Some Business courses are open to students in select programs only. Please refer to the current BUSI Course Priority List found at: sprott.carleton.ca/registration
2. B.Com. and B.I.B. students should use Business (BUSI) prefix for registering in courses that are cross-listed.
3. Not all courses listed are offered in a given year; consult the class schedule at central.carleton.ca for a list of current course offerings.

BUSI 1001 [0.5 credit]

Principles of Financial Accounting

Discussion of the concepts of asset valuation and income measurement underlying the preparations and interpretation of financial statements.

Precludes additional credit for BUSI 1003 and BUSI 1004.

Prerequisite(s): second-year standing, or permission of the Sprott School of Business.

Lecture three hours a week.

BUSI 1002 [0.5 credit]

Management Accounting

An introduction to the use of accounting data for the purposes of planning and control of operations.

Precludes additional credit for BUSI 1003 and BUSI 1005.

Prerequisite(s): second-year standing and BUSI 1001, or permission of the Sprott School of Business.

Lecture three hours a week.

BUSI 1003 [0.5 credit]

Survey of Accounting

Introduction to accounting information, the basic accounting cycle, and consideration of selected financial statement topics. Analysis of cost behavior and the uses and limitations of accounting information in planning, controlling and decision-making processes.

Precludes additional credit for BUSI 1001, BUSI 1002, BUSI 1004 and BUSI 1005. No credit for students in B.Com., BIB or B.Econ. (Honours Economics, Concentration in Financial Economics).

Lecture three hours a week.

BUSI 1004 [0.5 credit]

Financial Accounting for Business Students

Introduction to accounting for business organizations. The student will be introduced to the accounting process and the preparation and analysis of the balance sheet, income statement, and cash flow statement.

Precludes additional credit for BUSI 1001 and BUSI 1003.

Prerequisite(s): BUSI 1701 or BUSI 1800. Restricted to B.Com. and B.I.B. students.

Lectures three hours a week.

BUSI 1005 [0.5 credit]

Managerial Accounting for Business Students

Introduction to the development and use of accounting information within a business organization for effective management including: planning, directing, motivating, and controlling activities and behaviours.

Precludes additional credit for BUSI 1002 and BUSI 1003.

Prerequisite(s): BUSI 1004. Restricted to B.Com. and B.I.B. students.

Lectures three hours a week.

BUSI 1401 [0.5 credit]**Foundations of Information Systems**

This course helps student to understand the critical role of information systems in organizations and their impact on social and ethical issues. Covers fundamental tools and skills for the development and management of information systems and business analytics in organizations.

Precludes additional credit for BUSI 2400.

Lecture three hours a week.

BUSI 1402 [0.5 credit]**Introduction to Business Information and Communication Technologies**

Introduction to ICT in organizations. Topics may include spreadsheets, databases, statistical software, website design and implementation, collaboration software including wikis, blogs and social networking, GPS, m-Commerce.

Lectures three hours a week.

BUSI 1701 [0.5 credit]**Introduction to International Business**

Introduction to the principles and practices of international business. Topics include the impact of culture and the political, economic, and legal systems on global strategy, international institutions, theories of cross-border trade, and the characteristics and effects of regional trade blocs. Precludes additional credit for BUSI 2701, BUSI 2703.

Prerequisite(s): restricted to B.I.B. students.

Lecture three hours and tutorial one hour a week.

BUSI 1800 [0.5 credit]**Introduction to Business**

Introduction to contemporary businesses in a complex economy, their role in the society, their history. The various functions that come together to define a business will be examined. All forms of business communications emphasized.

Lectures three hours and tutorial one hour a week.

BUSI 1801 [0.5 credit]**Foundations of Business**

Introduction to contemporary businesses in a complex economy and their role in the society. An overview of the various functions that come together to define a business will be examined.

Precludes additional credit for BUSI 1800. No credit in B.Com. or B.I.B programs.

Lectures three hours a week.

BUSI 1995 [0.0 credit]**Employability Passport I**

An introduction to the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students registered in B.Com. or B.I.B.

Participation in employability events and initiatives throughout the year.

BUSI 1996 [0.0 credit]**Employability Passport BIB I**

An introduction to the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students registered in B.I.B. Participation in employability events and initiatives throughout the year.

BUSI 1997 [0.0 credit]**Employability Passport BIB I**

An introduction to the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students registered in B.I.B. Participation in employability events and initiatives throughout the year.

BUSI 2001 [0.5 credit]**Intermediate Accounting I**

An examination of accounting and reporting issues related primarily to asset valuation and revenue recognition.

Prerequisite(s): second-year standing, and BUSI 1004 or BUSI 1001 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 2002 [0.5 credit]**Intermediate Accounting II**

An examination of accounting and reporting issues related primarily to liabilities and equities.

Precludes additional credit for BUSI 2506.

Prerequisite(s): BUSI 2001, and BUSI 2504 or BUSI 2503 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 2005 [0.5 credit]**Income Tax Fundamentals**

A foundation course that aims to introduce the fundamental concepts of income tax laws and regulations as significant elements in the planning and decision making process of taxpayers and managers. Problems, issues and planning associated with the Income Tax Act are discussed.

Precludes additional credit for BUSI 3005 and BUSI 4005.

Prerequisite(s): BUSI 1001 or BUSI 1004 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 2101 [0.5 credit]**Organizational Behaviour**

Models of individual and small group behaviour in organizations. Topics include motivation, communication, job design, leadership and group dynamics to provide systematic explanations of employee and managerial behaviour in organizations.

Precludes additional credit for BUSI 2121, BUSI 2702, BUSI 3602.

Prerequisite(s): second-year standing. Restricted to B.Com. students.

Lectures three hours, and tutorial one and a half hours a week.

BUSI 2121 [0.5 credit]**Introduction to Organizational Behaviour**

Individual and small group behaviors in organizations and management of the same.

Precludes additional credit for BUSI 2101, BUSI 2702, BUSI 3602.

Prerequisite(s): second-year standing.

Lecture three hours a week.

BUSI 2204 [0.5 credit]**Basic Marketing**

Basic problems and practices in marketing. Marketing planning tools and strategies of firms.

Precludes additional credit for BIT 2002 and BUSI 2208.

Lecture three hours a week.

BUSI 2208 [0.5 credit]**Introduction to Marketing**

Overview of the marketing function within the firm.

Introduction to key marketing concepts and principles; business environment analysis, strategic decision making (segmentation, targeting, positioning), marketing mix planning (product, price, place promotion). Analysis of marketing problems using cases and major project.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2204.

Prerequisite(s): BUSI 1004, ECON 1001 and ECON 1002 (or ECON 1000), and one of BUSI 1701, PSYC 1002, SOCI 1005.

Lecture three hours a week.

BUSI 2301 [0.5 credit]**Introduction to Supply and Operations Management**

Concepts, models, and managerial issues in planning, designing, operating and controlling systems across supply chains for the provision of goods and services. Emphasis on basic ideas and tools.

Precludes additional credit for BUSI 3300 (no longer offered).

Prerequisite(s): second-year standing. Restricted to selected Spratt programs.

Lecture three hours a week.

BUSI 2400 [0.5 credit]**Foundations of Information Systems**

This course helps student to understand the critical role of information systems in organizations and their impact on social and ethical issues. Covers fundamental tools and skills for the development and management of information systems and business analytics in organizations.

Lecture three hours a week.

BUSI 2401 [0.5 credit]**Introduction to Data Analytics**

This course prepares students to gather, manipulate, and clean data from a variety of sources within a programming environment. Students will be introduced to visual data exploration and the deployment of data-driven visual storytelling. Topics include: APIs, Data Science Programming, SQL, Relational/NoSQL databases, data visualization.

Prerequisite(s): BUSI 1401.

Lecture three hours a week.

BUSI 2402 [0.5 credit]**Business Applications Development**

Introduction to programming. Fundamentals of structured and object-oriented programming using an OO programming language. Treatment of objects, abstraction and inheritance, event-driven programming, iteration, sequence and selection. Consideration of algorithms for searching, sorting, string processing and numerical analysis. Emphasis on the development of business applications.

Precludes additional credit for COMP 1006 and COMP 1406.

Prerequisite(s): second-year standing.

Lecture three hours and tutorial one hour a week.

BUSI 2503 [0.5 credit]**Introduction to Finance**

Basic issues and practices in finance. Survey of business firms' financing, investment, and payout decisions. Emphasis on understanding the principals, resources and trade-offs in the financial area of a business.

Precludes additional credit for BUSI 2504 and

ECON 3050. No credit for students in B.Com., BIB or B.Econ. (Honours Economics, Concentration in Financial Economics).

Prerequisite(s): second-year standing.

Lecture three hours a week.

BUSI 2504 [0.5 credit]**Business Finance I**

Business firms' financing, capital investment, and dividend policy decisions, cost of capital and short-term asset management problems.

Precludes additional credit for BUSI 2503, ECON 3050.

Prerequisite(s): BUSI 1005, and ECON 1001 and ECON 1002 (or ECON 1000) or ECOR 3800. Restricted to selected Spratt programs.

Lecture three hours and optional tutorial.

BUSI 2505 [0.5 credit]**Business Finance II**

Capital investment and financing decisions in the context of risk and return tradeoffs. Primary and derivative securities, and their role in risk management. Mergers, corporate restructuring, the theory of principal-agent relationships, and financial planning, forecasting, and control.

Prerequisite(s): BUSI 1002 or BUSI 1005, and BUSI 2504 (with a grade of C or higher in each), ECON 1001 and ECON 1002 (or ECON 1000), and MATH 1009 (with a grade of C- or higher in each).
Lecture three hours a week.

BUSI 2506 [0.5 credit]**Financial Statement Analysis**

Analysis and interpretation of an entity's financial statements and annual report from a user perspective. Ratio analysis is used to analyze firm performance and make forecasts of future performance.

Precludes additional credit for BUSI 2002.

Prerequisite(s): BUSI 2504 with a grade of C or higher.
Lectures three hours a week.

BUSI 2601 [0.5 credit]**Business Law**

The legal system and legal ordering as they affect those engaged in business activities. Emphasis on the law of tort, law of contract, agency and bailment, business associations (partnerships/proprietorships/corporations) and real estate.

Lecture three hours a week.

BUSI 2701 [0.5 credit]**Fundamentals of International Business**

Introduction to the context and operation of international business. Topics include international trade theory, trade agreements and blocs, international finance, global marketing, international human resource management and global strategy.

Precludes additional credit for BUSI 1701, BUSI 2703.

Prerequisite(s): BUSI 1800.

Lecture three hours a week.

BUSI 2702 [0.5 credit]**Introduction to International Management**

Applies principles of organizational behavior and organizational theory to the operations of international businesses. Includes discussion of appropriate strategies and structures. Introduces concepts of cross-cultural communication.

Precludes additional credit for BUSI 2101, BUSI 2121, BUSI 3602.

Prerequisite(s): second-year standing in B.I.B. and BUSI 1701.

Lectures three hours a week.

BUSI 2703 [0.5 credit]**Introduction to International Business**

Introduction to contemporary businesses in a complex economy, their role in society and their history. Examination of the various functions that come together to define a business with an emphasis on all forms of business communications.

Precludes additional credit for BUSI 1701, BUSI 2701.

Prerequisite(s): second-year standing. No credit for students in B.Com. or BIB.

Lectures three hours per week.

BUSI 2800 [0.5 credit]**Entrepreneurship**

Overview of the basics of entrepreneurship, with emphasis on idea generation and identification, team building, business models, initial strategies and feasibility. A number of organization types will be studied.

Prerequisite(s): Second-year standing.

Lecture three hours a week.

BUSI 2819 [0.5 credit]**Sustainability Accounting and Social Finance**

This course offers different avenues for in-depth explorations in sustainability accounting, impact measurement and social finance for undergraduate students. Each module covers a special topic within responsible business, such as impact measurement, responsible finance, impact investing, responsible and ESG investing, sustainability accounting.

Prerequisite(s): second-year standing.

Lecture three hours a week.

BUSI 2995 [0.0 credit]**Employability Passport II**

An intermediate course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 1995.

Participation in employability events and initiatives throughout the year.

BUSI 2996 [0.0 credit]**Employability Passport BIB II**

An intermediate course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 1996 and BUSI 1997.

Participation in employability events and initiatives throughout the year.

BUSI 2997 [0.0 credit]**Employability Passport BIB II**

An intermediate course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 1996 and BUSI 1997.

Participation in employability events and initiatives throughout the year.

BUSI 3001 [0.5 credit]**Accounting for Business Combinations**

Accounting problems associated with business combinations, with attention to the preparation of consolidated financial statements. Discussion may extend to financial reporting and diversified companies, reorganizations, etc. Selection of topics may vary from year to year.

Prerequisite(s): BUSI 2002 with a grade of C- or higher.
Lecture three hours a week.

BUSI 3005 [0.5 credit]**Taxation I**

Federal income tax laws and regulations and their impact on an individual's financial and business decisions. Problems, issues and planning associated with the Income Tax Act and concerned with the computation of taxable income and taxes payable by an individual are discussed. Precludes additional credit for BUSI 2005.

Prerequisite(s): BUSI 2001 with a grade of C- or higher.
Lecture three hours a week.

BUSI 3007 [0.5 credit]**Auditing I**

Auditing theory, methodology and application. Precludes additional credit for BUSI 4007 (no longer offered).

Prerequisite(s): BUSI 2001.
Lecture three hours a week.

BUSI 3008 [0.5 credit]**Intermediate Management Accounting and Control**

The use of accounting information for cost control and performance evaluation. Emphasis is on cost accumulation systems, performance evaluation, control models and analytical tools.

Prerequisite(s): BUSI 1002 or BUSI 1005 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3040 [0.5 credit]**Data Analytics and Information Systems for Accounting**

Data analysis in accounting, working with and making sense of big data using various data analysis tools. Specific topics include; data collection, cleaning, analyzing, visualization, and decision making in different areas of accounting.

Includes: Experiential Learning Activity
Prerequisite(s): BUSI 1401 or BUSI 2400, and BUSI 3007 with a grade of C- or higher in each.
Lecture three hours a week.

BUSI 3102 [0.5 credit]**Introduction to Human Resources Management**

Human Resource Management function in large formal organizations. Topics include human resources planning, recruitment, selection, performance evaluation, career development and training, compensation and benefits and the role of the professional personnel manager.

Prerequisite(s): second-year standing, and one of BUSI 2101, BUSI 2121, BUSI 2702, BUSI 3602, PSYC 2801.
Lectures three hours a week.

BUSI 3103 [0.5 credit]**Introduction to Organization Theory**

Macro-organization theory. Structuring of organizations in a complex global economy. Effects of the external environment, technology, culture and organizational goals on the structure, processes and effectiveness of the organization.

Prerequisite(s): second-year standing, and one of BUSI 2101, BUSI 2121, BUSI 2702, PSYC 2801.
Lectures three hours a week.

BUSI 3104 [0.5 credit]**Managing Individual Performance**

Managing the performance of self and others. Topics include self awareness, motivation, leadership, communication, diversity, and creativity. Extensive use is made of self-assessments and experiential learning. Prerequisite(s): BUSI 2101, BUSI 2121, BUSI 2702, or PSYC 2801 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 3105 [0.5 credit]**Managing and Motivating Teams**

Principles of working in and managing teams. Topics include self-awareness, team formation, team development, team dynamics, team leadership and team motivation.

Prerequisite(s): BUSI 2101, BUSI 2121, BUSI 2702, or PSYC 2801 (with a grade of C or higher in each).
Lecture three hours a week.

BUSI 3106 [0.5 credit]**Managing Conflict and Negotiation**

Analysis of the sources and forms of conflict and effective approaches to managing conflict. Exploration of the effectiveness of various strategies of negotiations.

Prerequisite(s): BUSI 2101, BUSI 2121, BUSI 2702, or PSYC 2801 (with a grade of C- or higher in each).
Lecture three hours a week.

BUSI 3117 [0.5 credit]**Developing Creative Thinking**

Increases student skills in areas beyond technical expertise, with a focus on the importance of fluidity, risk taking, and idea generation. Emphasis on creativity as a process, with exposure to various techniques and concepts including Design Thinking at multiple levels (individual, group, organization).

Prerequisite(s): third-year standing, and BUSI 2101 or BUSI 2702 (with a grade of C- or higher in each) or permission of the Sprott School of Business.

Lecture three hours a week.

BUSI 3204 [0.5 credit]**Digital Marketing**

Introduction and assessment of key new marketing tools and approaches, including internet marketing, relationship marketing, direct marketing; effective adoption and implementation of these tools and approaches across industries and organizations.

Prerequisite(s): BUSI 2204 or BUSI 2208 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3205 [0.5 credit]**Marketing Communications**

Promotion as communication process and marketing tool. Integrating advertising, direct/digital marketing, interactive media, sales promotion, public relations, personal selling through strategic planning (research, budgeting, organizing, creative and media strategy), execution, and campaign evaluation. Regulatory, ethical, social issues considerations.

Prerequisite(s): BUSI 2208 or BUSI 2204 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3207 [0.5 credit]**Marketing Research**

Concepts essential for understanding and conducting applied marketing research. Methods for collecting, analyzing, and interpreting data relevant to marketing decision-making. Experience in research techniques through case studies, exercises and project.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3100.

Prerequisite(s): BUSI 2204 or BUSI 2208 (with a grade of C or higher in each), STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3208 [0.5 credit]**Business-to-Business Marketing**

Theories and practice of marketing in business-to-business markets with emphasis on high technology businesses, including strategic marketing management, buyer behaviour and competitive analysis, sales management, new product management, and international issues.

Prerequisite(s): BUSI 2204 or BUSI 2208 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3209 [0.5 credit]**Consumer Behaviour**

Introduction to the application of psychological theories and methodologies to consumer behaviour. How consumer behaviour is shaped by internal influences.

Topics include perception, learning, memory, motivation, affect, personality, the self, attitudes and decision-making.

Precludes additional credit for BUSI 4206 (no longer offered).

Prerequisite(s): third-year standing, and BUSI 2204 or BUSI 2208 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 3210 [0.5 credit]**Personal Selling**

Provides an introduction to and application of the principles of personal selling for persons pursuing any vocation, as well as those aspiring to careers in Marketing. Introduces basic concepts of professional selling including: customer analysis, communication skills, effective openings and closings, and customer relations.

Prerequisite(s): BUSI 2204 or BUSI 2208 with a grade of C- or higher.

Lecture 3 hours a week.

BUSI 3301 [0.5 credit]**Global Supply Chain Management**

Introduction to management of global supply chain. Topics include strategies for planning and coordinating of all activities involved in procurement, conversion, and logistics in the global environment.

Precludes additional credit for BUSI 4303 (no longer offered).

Prerequisite(s): second-year standing, and BUSI 2301 (with a grade of C or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3305 [0.5 credit]**Distribution Channels and Logistics**

In-depth examination of distribution channels and logistics; roles and interrelations in the achievement of marketing mix objectives and in creating competitive advantage. Channels design and management, managing logistics, warehousing, packaging and material handling, new trends in channels and logistics.

Prerequisite(s): third-year standing, and BUSI 2301 (with a grade of C or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3308 [0.5 credit]**Simulation Modeling and Analytics**

Concepts of computer simulation for predictive and prescriptive analytics through case studies, worked examples and hands-on projects. Emphasizes static simulations with spreadsheets, discrete-event, and agent-based simulations with specialized software. Input modeling, model design, experimental design, analysis of outputs.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing, and BUSI 2301 (with a grade of C or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture two hours and tutorial two hours a week.

BUSI 3309 [0.5 credit]**Project Management**

Identification, selection, initiation, and organization of projects; risk assessment; project scheduling, performance monitoring and control, and termination. Emphases on foundations, principles and supporting techniques.

Prerequisite(s): third-year standing, and STAT 2601 or STAT 2606.

Lecture three hours a week.

BUSI 3400 [0.5 credit]**Database Design**

Information management, database administration, Entity-Relationship Model, database development life cycle: planning, analysis, design, implementation, and maintenance of database management systems. Construction of a database. Introduction to SQL, distributed databases, object-oriented databases, and data warehousing.

Precludes additional credit for COMP 3005.

Prerequisite(s): BUSI 1401 or BUSI 2400 (with a grade of C or higher in each).

Lecture three hours and tutorial one hour a week.

BUSI 3401 [0.5 credit]**Applications Development for Online Environments**

Analysis, design and implementation of electronic business systems. Topics include advanced object-oriented programming, advanced SQL programming, XML, using ASP.NET, MTS and SQL Server.

Precludes additional credit for BUSI 4401 (no longer offered).

Prerequisite(s): BUSI 2402 and BUSI 3400, or COMP 3005 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3402 [0.5 credit]**Systems Analysis and Design**

Methods of analysis of computer-based information systems. The systems development life cycle, planning, analysis, design, implementation and maintenance. Structured and object-oriented methods will be used. Use of a CASE tool.

Precludes additional credit for SYSC 3100, BUSI 3403, (no longer offered) and BUSI 3404 (no longer offered).

Prerequisite(s): one of BUSI 1401, BUSI 2400, COMP 2404, SYSC 2004 (with a grade of C or higher in each).

Lecture three hours and tutorials one hour a week.

BUSI 3405 [0.5 credit]**Enterprise Architecture**

Exploration of the significance of cross-functional business processes in the context of e-business transformation.

Includes process analysis and modeling techniques.

Also considers the application of enterprise resource planning systems, workflow technologies, intranets, and extranets to facilitate process flows inside and outside the organization.

Prerequisite(s): BUSI 1401 or 2400, and BUSI 3103 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3406 [0.5 credit]**Business Analytics Principles**

Evolution of Decision Support Systems. Decision Making. Business Intelligence. Foundation of Business Analytics. Lifecycle & Best Practices. Strategy, platforms and Architecture. Data Sensemaking. Model Development. Precludes additional credit for BUSI 4406.

Prerequisite(s): BUSI 2401 and STAT 2602.

Lecture 3 hours a week.

BUSI 3434 [0.5 credit]**Data Visualization**

Visual representation and presentation of data to facilitate understanding. This includes visual data exploration, perception, interpretation, and communication in exploratory and declarative situations. Practical skill development using current data visualization software.

Prerequisite(s): BUSI 2401, STAT 2602.

Lecture three hours a week.

BUSI 3500 [0.5 credit]**Applied Corporate Finance**

An examination of the major issues in corporate finance and applied financial management. Topics include: introduction to portfolio theory, the capital asset pricing model, cost of capital, capital structure and dividend policy, lease financing, capital budgeting under uncertainty, mergers and consolidations.

Prerequisite(s): BUSI 2505 (with a grade of C+ or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3502 [0.5 credit]**Investments**

Procedures and methods of investment analysis. Stock and bond markets. Government regulation of securities markets. Valuation of common stocks and fixed income securities. Options, warrants, convertibles and commodities.

Prerequisite(s): BUSI 2505 (with a grade of C+ or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3512 [0.5 credit]**Derivatives**

Derivative instruments and their use for speculation and hedging. Analysis of different markets where instruments trade, and their characteristics. Pricing models highlighted to determine how individuals and corporations can better manage risk; exotics and newer innovations.

Precludes additional credit for BUSI 4512 (no longer offered).

Prerequisite(s): BUSI 2505 (with a grade of C+ or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 3600 [0.5 credit]**Entrepreneurial Strategies**

Within the changing environment, an examination of entrepreneurial strategies related to different functional areas for new ventures and small businesses.

Prerequisite(s): BUSI 2800 with a grade of C- or higher.

Lecture three hours a week.

BUSI 3602 [0.5 credit]**Designing Organizational Systems: An Overview**

Key models and theories of organizational strategy, structure, processes, effectiveness, and individual and group behavior in organizations. Organizational structure, goals, and effectiveness; leadership, motivation and job design.

Precludes additional credit for BUSI 2101, BUSI 2702, BUSI 2121. No credit for students in B.Com. or B.I.B. programs.

Prerequisite(s): third-year standing in the B.P.A.P.M. program.

Lecture three hours a week.

BUSI 3611 [0.5 credit]**Managing the Family Enterprise**

How family businesses are different, what makes them different and how to effectively manage these differences. Challenges arising from the tension between family and business pressures from governance, management and succession planning perspectives.

Prerequisite(s): third year standing, and BUSI 1005 or BUSI 1002, and one of BUSI 2101, BUSI 2121, BUSI 2702.

Lecture three hours a week.

BUSI 3629 [0.5 credit]**Corporate Governance and Strategy**

The role of governance in organizations. Mission and vision statements, values and objectives. Shaping, implementation and evaluation of corporate strategy. Management of risk and environmental analysis.

Precludes additional credit for BUSI 4609, BUSI 4709. No credit in B.Com. or B.I.B. programs.

Prerequisite(s): Enrolment in the Post-Baccalaureate Diploma in Accounting, or BUSI 1001 and BUSI 1002, or equivalents.

Lecture three hours a week.

BUSI 3700 [0.5 credit]**Cross-cultural Communication**

Principles of communication across cultural boundaries are applied to both interpersonal and commercial interactions. Critical incidents and commentary are analyzed. Students submit periodic reports, evaluated by the instructor at Carleton.

Prerequisite(s): restricted to B.I.B. students who are participating in an academic exchange.

Online course.

BUSI 3701 [0.5 credit]**Practicum in International Business I**

Students will engage in an approved international experience, abroad or within Canada, that fosters the development of a global mindset. This experience will allow students to integrate and apply the material learned in previous International Business courses.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 4719 and GINS 3930.

Prerequisite(s): Third-year standing in BIB and permission of the Sprott School of Business.

Experiential Learning Activity

BUSI 3702 [0.5 credit]**Practicum in International Business II**

Students will engage in an approved international experience, abroad or within Canada, that fosters the development of a global mindset. This experience will allow students to integrate and apply the material learned in previous International Business courses.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 4719 and GINS 3931.

Prerequisite(s): third-year standing in BIB and permission of the Sprott School of Business.

Experiential learning activity

BUSI 3703 [0.5 credit]**International and Comparative Management**

The management of large organizations spanning national boundaries, including domestic firms with international markets, and multinational corporations. Difficulties of maintaining communication and control in international operations in disparate cultural settings.

Prerequisite(s): second-year standing, and BUSI 2101 or BUSI 2702 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 3704 [0.5 credit]**The Environment of International Business**

Theories linking environmental factors and business strategy as a basis for study of some major factors and institutions shaping international business strategy. International trade patterns, regionalization, shifts in international finance, research and development and transnational data flows.

Prerequisite(s): third-year standing, and BUSI 2101 or BUSI 2702 (with a grade of C or higher in each), and ECON 1001 and ECON 1002 (or ECON 1000) (with a grade of C- or higher in each).
Lecture three hours a week.

BUSI 3705 [0.5 credit]**International Buyer Behaviour**

Behaviour of end-consumers, business and government buyers, and investors in the international context. National, cross-national, and subnational segments and behaviour differences. Adaptation vs. standardisation strategies in the context of socio-psychological, legal, technological, international procurement rules, and other constraints and opportunities.

Prerequisite(s): third-year standing, BUSI 2204 or BUSI 2208, and BUSI 2702 or BUSI 3703.
Lecture three hours a week.

BUSI 3706 [0.5 credit]**International Business Negotiations**

Introduction to theory and practice of negotiation in the international business context. Analysis of techniques of conflict resolution and improving ways to reach agreements.

Prerequisite(s): second-year standing, and BUSI 2701 or BUSI 2702 (with a grade of C- or higher in each).
Lecture three hours a week.

BUSI 3800 [0.5 credit]**Business Case Analysis**

Analysis, solution and presentation of complex business issues through cases.

Includes: Experiential Learning Activity
Prerequisite(s): minimum 7.0 Major CGPA in B.Com. or B.I.B. and permission of the Sprott School of Business.
Lecture three hours and tutorial one hour a week.

BUSI 3810 [0.5 credit]**Business Development**

Business development, growth and expansion through financing activities and new customer acquisition.
Prerequisite(s): BUSI 2800 with a grade of C- or higher.
Lecture three hours a week.

BUSI 3820 [0.5 credit]**Practicum in Business Design**

Students will apply entrepreneurial concepts and engage in designing an entrepreneurial project. Students will prepare in groups a business plan, including in-depth analysis and recommendations.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing, and BUSI 2800 with a grade of C- or higher.
Lecture three hours a week.

BUSI 3995 [0.0 credit]**Employability Passport III**

An advanced course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity
Prerequisite(s): BUSI 2995.
Participation in employability events and initiatives throughout the year.

BUSI 3996 [0.0 credit]**Employability Passport BIB III**

An advanced course in the knowledge and tools required for a career in Business.

Prerequisite(s): BUSI 2996 and BUSI 2997.

BUSI 3997 [0.0 credit]**Employability Passport BIB III**

An advanced course in the knowledge and tools required for a career in Business.

Prerequisite(s): BUSI 2996 and BUSI 2997.

BUSI 3999 [0.0 credit]**Co-operative Work Term**

This course covers the deliverables associated with the co-op work term such as the site visit, work term report submission and employer evaluation.

Includes: Experiential Learning Activity
Prerequisite(s): This course is for students on a university approved co-op work term.

BUSI 4005 [0.5 credit]**Taxation II**

An intensive review of federal income tax laws and regulations as significant elements in the planning and decision making process of taxable Canadian corporations. Emphasis on the tax planning function of corporate management and the associated accounting and reporting aspects.

Precludes additional credit for BUSI 2005.
Prerequisite(s): BUSI 3005 with a grade of C- or higher.
Lecture three hours a week.

BUSI 4008 [0.5 credit]**Advanced Management Accounting and Control**

Builds on concepts covered in management and cost accounting courses. Integrates relevant issues from other functional areas: strategic uses of cost management, budgeting, and performance evaluation systems in managerial planning and control.

Prerequisite(s): BUSI 3008 with a grade of C- or higher.
Lecture three hours a week.

BUSI 4104 [0.5 credit]**Strategic Human Resources Management**

Systems, strategies and practices used to effectively leverage human capital in organizations. How to think strategically about managing human assets, and what must be done to successfully implement these systems, strategies and practices.

Prerequisite(s): BUSI 3102 and BUSI 3103 (with a grade of C- or higher in each).

Lecture three hours per week.

BUSI 4105 [0.5 credit]**Managing Change**

An overview of current thinking about change management. Topics covered include understanding the forces for and barriers to change, diagnosing the environment around change and implementing change.

Prerequisite(s): third-year standing, and one of BUSI 2101, BUSI 2702, BUSI 3602, PSYC 2801 (with a grade of C- or higher in each).

Lectures three hours a week.

BUSI 4108 [0.5 credit]**Organizational Learning**

Contemporary training and development challenges facing individuals, organizations, and communities and the role of information technology in enhancing individual and collective skills development, capabilities, core competencies, intellectual capital and competitiveness.

Prerequisite(s): BUSI 3103 or BUSI 3602 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4111 [1.0 credit]**Training and Development**

Emphasizes contingency approach to training and development; relevant to organizations of all sizes and resource capacities. Effective training and development is conceptualized as a process that integrates extensive front and back-end planning, implementation, and evaluation activities.

Prerequisite(s): third-year standing, and one of BUSI 2101, BUSI 2121, BUSI 2702 (with a grade of B- or higher in each), and permission of the Sprott School of Business.

Lecture three hours and tutorial one hour per week.

BUSI 4112 [0.5 credit]**Organizational Leadership**

Critical examination of theories of leadership and trends in contemporary research; discussion of practical methods for building leadership capacity.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing, and one of BUSI 2101, BUSI 2702, BUSI 3602, PSYC 2801 (with a grade of C- or higher in each).

Lecture and field work as needed.

BUSI 4117 [1.0 credit]**Creative Thinking**

Increases student skills in areas beyond technical expertise, with a focus on the importance of fluidity, risk taking, and idea generation. Emphasis on creativity as a process, with exposure to various techniques and concepts including Design Thinking at multiple levels (individual, group, organization).

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3117B taken prior to 2020/21.

Prerequisite(s): third-year standing, and BUSI 2101 or BUSI 2702 (with a grade of C- or higher in each), and permission of the Sprott School of Business. Lecture three hours a week.

BUSI 4120 [0.5 credit]**Environmental Sustainability Management**

This course involves guest lectures, class discussions and group assignments evaluating the role of business in environmental problems. The course will delve into current conundrums of the role of business models to mitigate harm and adapt to change in search for solutions to environmental issues.

Prerequisite(s): BUSI 3119 and fourth-year standing.

Restricted to BCom, BIB and students registered in any of Sprott's Minor in Business offerings.

Lecture three hours a week.

BUSI 4129 [0.5 credit]**Managing the Arts**

Challenges of managing arts organizations with emphasis on the changing environment of arts consumption and funding. Tensions arising from blending artistic and aesthetic dimensions with functional considerations when judging organizational and personal issues form a continuing theme.

Prerequisite(s): third year standing.

Also offered at the graduate level, with different requirements, as MGMT 5129, for which additional credit is precluded.

Lecture three hours a week.

BUSI 4201 [0.5 credit]**Marketing Metrics**

An overview of essential marketing metrics used for enhancing marketing decisions. The course consists of seven core modules: share metrics, margins and profits, pricing, product and portfolio management, sales force management, promotion profitability, and customer profitability.

Prerequisite(s): BUSI 1005 and BUSI 2208.

Lecture three hours a week.

BUSI 4203 [0.5 credit]**Marketing In Not-for-Profit Organizations**

Theories and practices of marketing in not-for-profit organizations including government. Similarities and differences between marketing in not-for-profit and for-profit organizations, and the key issues faced by marketers in developing marketing strategies in not-for-profit organizations.

Prerequisite(s): third-year standing, and BUSI 2204 or BUSI 2208 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 4205 [0.5 credit]**International Marketing Strategy**

The marketing function in international markets from a strategic and managerial perspective. Environments of foreign markets in relation to marketing research, international branding and positioning, and product, price, distribution, and communication strategies. International expansion methods and foreign market evaluation and selection.

Prerequisite(s): third-year standing, and BUSI 2204 or BUSI 2208 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4208 [0.5 credit]**Marketing Management**

In depth analysis and applications of the managerial aspects of marketing. Marketing strategy development and implementation theory and practice.

Prerequisite(s): third year standing, BUSI 2208, and one of BUSI 3205 or BUSI 3207 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 4209 [0.5 credit]**Consumer Culture Theory**

Consumer behaviour from a macro and interpretive approach, as a social and cultural phenomenon; the relationships between consumers, the marketplace and cultural meaning.

Precludes additional credit for BUSI 4206 (no longer offered).

Prerequisite(s): third year standing, and BUSI 3209 (with a grade of C or higher).

Lecture three hours a week.

BUSI 4219 [0.5 credit]**Sustainability Marketing**

An overview of the roles of marketing in a sustainable society: advancing organizations' economic success while creating positive impacts on the environment and society; promoting consumers' sustainable lifestyle; advocating institutional change to facilitate sustainable production and consumption.

Includes: Experiential Learning Activity

Prerequisite(s): 3rd year standing. Restricted to BCom, BIB and students registered in any of Sprott's Minor in Business offerings.

lecture three hours a week

BUSI 4229 [0.5 credit]**Marketing in the Arts and Culture Sectors**

Advanced study of marketing within the arts and culture sectors. Facilitates sophisticated understanding of the knowledge and skills required for marketing managers to respond to changing market environments in order to bring arts and culture offerings to their target audiences.

Prerequisite(s): third year standing, and BUSI 2204 or BUSI 2208 (with a grade of C or higher in each).

Also offered at the graduate level, with different requirements, as MKTG 5229, for which additional credit is precluded.

Lecture three hours a week.

BUSI 4301 [0.5 credit]**Artificial Intelligence and Business Decision Models**

This course lays the foundations of Artificial Intelligence (AI) for business decision models using two currently dominant frameworks: Machine Learning and Deep Learning. This course discusses how to profit from AI through business model innovation in business domains including accounting, finance, marketing and supply chain.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2300, ECON 4005.

Prerequisite(s): third-year standing, BUSI 2401, and STAT 2601 or STAT 2606.

Lecture three hours and lab one hour per week.

BUSI 4302 [0.5 credit]**Management of Quality**

Quality concepts and methods surrounding the definition, mapping, implementation, improvement of business processes in organizations and global supply chains.

Prerequisite(s): third-year standing, BUSI 2301 (with a grade of C or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4304 [0.5 credit]**Procurement and Contracting**

Core supply chain procurement processes in the private and public sectors involved in the acquisition of goods and services, including sourcing, purchasing, contracting, supplier collaboration and relationship development and management. Emphasis on concepts, principles, practices, and techniques.

Prerequisite(s): third-year standing, and BUSI 2301 (with a C grade or higher).

Lecture three hours a week.

BUSI 4308 [0.5 credit]**Simulation Modeling and Analytics**

Concepts of computer simulation for predictive and prescriptive analytics through case studies, worked examples and hands-on projects. Emphasizes static simulations with spreadsheets, discrete-event, and agent-based simulations with specialized software. Input modeling, model design, experimental design, analysis of outputs.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3308.

Prerequisite(s): third-year standing; STAT 2601 or STAT 2606 with a grade of C- or higher.

Lecture two hours and tutorial two hours a week.

BUSI 4331 [0.5 credit]**Industry 4.0 Technologies and Applications**

This course shows how Industry 4.0 employs the IoT and AI technologies to achieve self-thinking supply chains. It demonstrates the use of Industry 4.0 in the transformation to smart industries. Lectures, demonstrations and hands-on exercises allow students to design, deploy and manage custom IoT solutions.

Precludes additional credit for BUSI 4431 (no longer offered).

Prerequisite(s): third year standing, and BUSI 2301 (with a grade of C or higher).

Lecture three hours a week and lab one hour a week.

BUSI 4400 [0.5 credit]**IS Management and Strategy**

Comprehensive treatment of current trends and management issues associated with information systems within organizations of local, national and international scope. Issues and techniques of information systems planning, administration, resource management and new technology adoption. Case studies are used.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, BUSI 1401 or BUSI 2400, and BUSI 3103 or BUSI 3602 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4404 [0.5 credit]**IT Infrastructure**

Challenges and issues managers face in assembling the infrastructure for IT service delivery. IT Service levels, data communications, networks (LAN, MAN, WAN, wireless), internetworking, SOA, web services, SaaS, server and storage virtualization, network security, business continuity and disaster recovery.

Prerequisite(s): third-year standing, and BUSI 1401 or BUSI 2400 (with a grade of C- or or higher each).

Lecture three hours a week.

BUSI 4406 [0.5 credit]**Business Analytics**

Evolution of decision support systems. Business intelligence. Data mining and warehousing. Web analytics. Mobile apps for business analytics. Strategic use of information systems for competitive advantage.

Precludes additional credit for BUSI 3406.

Prerequisite(s): third-year standing, and BUSI 1401 or BUSI 2400 (with a grade of C or higher in each).

Lecture three hours a week.

BUSI 4407 [0.5 credit]**Business Analytics Methods**

Frameworks and quantitative methods used in predictive and prescriptive business analytics for decision-making with less risk and better outcomes. Practical applications with various analytical tools across a range of industries. Data integration; model formulation, implementation, solutions, and managerial insights.

Prerequisite(s): Third-year standing, BUSI 3406 (with a grade of C or higher).

Lecture two hours and lab two hours a week.

BUSI 4408 [0.5 credit]**Social Analytics**

Covers the process, tool and techniques necessary to acquire, clean and analyze text that has been generated on social platforms. Social network analysis, sentiment analysis, topic extraction, co-occurrence analysis.

Prerequisite(s): third year standing, BUSI 1401 or BUSI 2400, and BUSI 2208, and STAT 2601 or STAT 2606. Restricted to students enrolled in B.Com, BIB, and the B.Econ Economic Data Science Concentration.

Lecture three hours a week.

BUSI 4410 [0.5 credit]**Responsible Business Analytics**

Values in Technology, Data Governance, Data Anonymization and its limits, Ethical issues in HR and Talent Analytics, Disinformation, Misinformation, and Fake News, Bias & Fairness, Privacy, consent, and surveillance, Algorithm Colonialism, Legal Frameworks, The Nerd revolution.

Prerequisite(s): Fourth-year standing, BUSI 2401, and BUSI 4601.

Lecture 3 hours a week.

BUSI 4414 [0.5 credit]**Capstone in Business Analytics**

This is a capstone course for the Business Analytics concentration. The objective of this course is to be the concentration's culminating course allowing students to undertake a major BA project, while refining their knowledge by examining a set of advanced/specialized topics.

Prerequisite(s): Fourth-year standing and BUSI 2401.

Lecture 3 hours a week.

BUSI 4500 [0.5 credit]**Advanced Corporate Finance**

An in-depth examination of some of the major theoretical issues in corporate finance. This course requires analyses and presentations of both articles from the finance literature and case studies.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year

standing, BUSI 3500, BUSI 3502, BUSI 3512 (with a grade of C- or higher in each), and STAT 2602 or STAT 2607 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4502 [0.5 credit]**Portfolio Management**

Analysis of investment requirements for individuals and institutional investors: liquidity, risk and return; portfolio design, construction, management and control; performance measurement; capital market theory.

Prerequisite(s): fourth-year standing,

BUSI 3500, BUSI 3502, and BUSI 3512 (with a grade of C- or higher in each), and STAT 2602 or STAT 2607 (with a grade of C- or higher).

Lecture three hours a week.

BUSI 4503 [0.5 credit]**Applied Portfolio Management**

Participants of the Sprott Student Investment Fund will be exposed to equity research, analysis, valuation, and portfolio composition. The course allows fund members to fully understand stock selection and fund management, and expose them to the methods and techniques used by industry.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 3502 and permission of the Sprott School of Business.

Workshops three hours a week.

BUSI 4504 [0.5 credit]**International Finance**

Management of corporate finance as it is affected by the requirements of international business. Issues related to international acquisitions, global investments, volatile exchange rates and hedging techniques. Role of international markets in financing corporate activity. Precludes additional credit for BUSI 3504 (no longer offered) and BUSI 3505 (no longer offered).

Prerequisite(s): BUSI 2505 with a grade of C- or higher.

Lecture three hours a week.

BUSI 4505 [0.5 credit]**Global Financial Markets and Institutions**

Comprehensive view of the world's financial markets and institutions. The primary focus will be on the purpose and practice of financial institutions, and the specifics of the financial instruments available to the firm and investor.

Prerequisite(s): BUSI 2505 (with a grade of C+ or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4510 [0.5 credit]**Mergers and Acquisitions**

The theory and practice of mergers and acquisitions; the best ways to analyze, design and implement mergers and acquisitions transactions. A highly practical planning-based approach to managing the acquisition process will be employed.

Prerequisite(s): BUSI 3500 and BUSI 3502 (with a grade of C- or higher in each), and STAT 2602 or STAT 2607 (with a grade of C- or higher in each).

Lecture three hours per week.

BUSI 4511 [0.5 credit]**Fixed Income Analysis**

Valuation of fixed income securities and interest rate derivatives including bonds, mortgage- and asset-based securities. Analytic tools used in bond portfolio and interest rate risk management including yield curve construction, duration and convexity, and term structure models.

Prerequisite(s): BUSI 3502 and BUSI 3512 (with a grade of C- or higher in each), and STAT 2602 or STAT 2607 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4515 [0.5 credit]**Micro Finance**

Theory and practice of microfinance, its achievements and current challenges; basic skills needed to manage microfinance institutions. The future of microfinance and of financing for development in general. A mix of cases and lectures will be used.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing and enrollment in the Global Financial Management and Systems concentration in the BIB, BUSI 2505 (with a grade of C+ or higher), and STAT 2601 or STAT 2606 (with a grade of C- or higher in each).

Also offered at the graduate level, with different requirements, as FINA 5515, for which additional credit is precluded.

Lecture three hours a week.

BUSI 4601 [0.5 credit]**Business Ethics**

Use of ethical reasoning to analyze business decisions. The ethical content of these decisions. The role of ethics in business situations. Practice in ethical reasoning. Major ethical systems.

Precludes additional credit for BUSI 4705.

Prerequisite(s): fourth-year standing B.Com. Note that B.Com. concentration in International Business students require BUSI 4705.

Lectures three hours a week.

BUSI 4607 [0.5 credit]**Management of Technology and Innovation**

Integration of technology and strategy; design of technological strategy; development of new business around new technology; and management of corporate research and development, including pre-competitive consortia.

Prerequisite(s): third-year standing, and BUSI 2204 or BUSI 2208 (with a grade of C- or higher in each).

Lecture three hours a week.

BUSI 4608 [0.5 credit]**Canadian Business History**

The place of business in Canadian society, economics and politics. The internal dynamics of Canadian business (organization, strategy, the rise of the manager), and its external implications (competition, foreign investment, business- government relations).

Also listed as HIST 3205.

Prerequisite(s): fourth-year standing in B.Com. or B.I.B.

Lectures three hours a week.

BUSI 4609 [0.5 credit]**Strategic Management**

Analysis and evaluation of the organization's corporate and business strategies; integration and synthesis of knowledge acquired in the program by application of acquired functional skills to strategic decision making. Precludes additional credit for BUSI 3629, BUSI 4709.

Prerequisite(s): fourth-year standing in all B.Com. and successful completion of all 2000- and 3000- level courses in the Major requirement. Note that B.Com. concentration in International Business students require BUSI 4709.

Lectures three hours a week.

BUSI 4704 [0.5 credit]**The Business Environment in Europe**

The economic, political, legal, and cultural environment for doing business in the European Union and other regions in Europe. Patterns of foreign trade and investment, market characteristics, science and technology, regulation and European integration, and business culture.

Also listed as EURL 4704.

Precludes additional credit for EURL 4006 (no longer offered), BUSI 4604 (no longer offered).

Prerequisite(s): third-year standing.

Seminar three hours a week.

BUSI 4705 [0.5 credit]**Ethics and Cross-cultural Interaction**

Perceptions and behaviors that characterize interactions among individuals from various cultural backgrounds, with emphasis on ethical issues that may arise when business crosses cultural boundaries. Various systems, both organizational and individual, for dealing with contrasting expectations are discussed.

Precludes additional credit for BUSI 4601.

Prerequisite(s): fourth-year standing in B. Com. (International Business Concentration) or B.I.B., and BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 4706 [0.5 credit]**International Human Resource Management**

Theoretical and process issues in the recruitment, selection, training, evaluation and repatriation of personnel in multi-country organizations. Issues are examined from the perspective of organizations, expatriates and local employees of multinational firms.

Prerequisite(s): third-year standing, BUSI 3102, and one of BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 4707 [0.5 credit]**Regionalism and Globalization**

Trends in globalization versus supra- and sub-national regionalism. Role of international institutions (e.g. OECD, WTO). Strategy adaptation and integration within and across trade blocs (e.g. NAFTA, EU, Mercosur, ASEAN). Strategies for sub-national markets with similarities across different countries.

Prerequisite(s): third-year standing in B.Com., B.I.B., or Minor in Business, and BUSI 2701 or BUSI 2702.

Lectures three hours a week.

BUSI 4708 [0.5 credit]**International Expansion and Operations**

Internationalization process. Methods of international expansion including exporting, greenfield investment, acquisition, joint venture, and licensing. Theories of international market selection, investment location, and market service.

Prerequisite(s): fourth-year standing, and BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 4709 [0.5 credit]**Strategic Management for International Business**

Development and implementation of strategies within and across international markets. Emphasis on developing strategic perspectives that incorporate the environment, the state of the industry, and the capabilities of the firm. Integrates skills, concepts and theories learned in functional areas.

Precludes additional credit for BUSI 3629, BUSI 4609.

Prerequisite(s): fourth-year standing in B.Com.

(International Business Concentration) or B.I.B., and successful completion of all 2000- and 3000-level courses in the Major requirement.

Lectures three hours a week, tutorial one hour a week.

BUSI 4710 [0.5 credit]**International New Ventures**

Challenges facing entrepreneurs in the creation and growth of competitive knowledge-based new international ventures or 'born globals'. Identification of opportunities abroad, strategies and logistics, sourcing, international deal making and business models.

Prerequisite(s): third-year standing, and BUSI 2702 or BUSI 3703.

Lecture three hours a week.

BUSI 4717 [0.5 credit]**Managing Globalization in Emerging Economies**

Critical examination of the managerial and institutional issues of globalization from the perspectives of emerging economies. Indigenous and international institutions' role in the evolution of a competitive and inclusive global economy and society. Discerning lessons of experience for newly globalizing societies.

Precludes additional credit for BUSI 4902 (no longer offered).

Prerequisite(s): fourth year standing in B.Com, BIB, or Minor in Business, ECON 1001 and ECON 1002 (or ECON 1000).

Lectures three hours a week.

BUSI 4719 [0.5 credit]**Practicum in International Business**

Students will engage in an approved international experience, abroad or within Canada (can include SSCG), that fosters the development of a global mindset. This experience will allow students to integrate and apply the material learned in previous International Business courses.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3701, BUSI 3702.

Prerequisite(s): third-year standing in B.Com. International Business concentration and permission of the Spratt School of Business.

BUSI 4800 [0.5 credit]**Spratt Student Consulting II**

An experiential work environment in which students interact with real clients as a consultant. Various types of projects are possible depending on the company and their goals/needs. Companies may be internal (i.e. Carleton, Spratt), or external (i.e. not for profit, for profit, start-ups, entrepreneurs).

Includes: Experiential Learning Activity

Prerequisite(s): Permission of the Spratt School of Business.

Also offered at the graduate level, with different requirements, as BUSI 5997, for which additional credit is precluded.

Significant industry/project/service consultancy exposure.

BUSI 4810 [0.5 credit]**Practicum in Business Creation**

Students apply concepts and engage in groups to implement the design of an entrepreneurship project per their business plan developed in BUSI 3820. The projects provide opportunities for experiential learning.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 3820.

Lectures three hours per week.

BUSI 4901 [0.5 credit]**Topics in Business I**

A selected topics course may be offered. Topics may vary. Consult the School's website for available topics and prerequisite information. Eligibility for this course to serve as an option for specific concentrations is to be established by the School.

Prerequisite(s): Vary based on section. Please refer to sprott.carleton.ca/registration for section specific prerequisites.

Lecture three hours a week.

BUSI 4902 [0.5 credit]**Topics in Business II**

A selected topics course may be offered. Topics may vary. Consult the School's website for available topics and prerequisite information. Eligibility for this course to serve as an option for specific concentrations is to be established by the School.

Prerequisite(s): Vary based on section. Please refer to sprott.carleton.ca/registration for section specific prerequisites.

Lecture three hours a week.

BUSI 4904 [1.0 credit]**Directed Studies I**

Reading course on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): fourth-year standing in B.Com. or B.I.B. and permission of the School of Business.

BUSI 4905 [0.5 credit]**Directed Studies II**

Reading course on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): fourth-year standing in B.Com. or B.I.B. and permission of the School of Business.

BUSI 4906 [1.0 credit]**Research Project for Business**

Provides students with opportunity to conduct research in their area of interest and present the research in an undergraduate thesis format. Conducted under the supervision of a faculty advisor from Spratt, with the specific deliverable determined by Supervisor and student, and approved by Spratt School.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Com. or B.I.B. and permission of the School of Business.

BUSI 4995 [0.0 credit]**Employability Passport IV**

An advanced course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 3995.

Participation in employability events and initiatives throughout the year.

BUSI 4996 [0.0 credit]**Employability Passport BIB IV**

An advanced course in the knowledge and tools required for a career in Business.

Includes: Experiential Learning Activity

Prerequisite(s): BUSI 3700.

Participation in employability events and initiatives throughout the year.

BUSI 4997 [0.0 credit]**Employability Passport BIB IV**

An advanced course in the knowledge and tools required for a career in Business.

Prerequisite(s): BUSI 3996 and BUSI 3997.

Canadian Studies

This section presents the requirements for programs in:

- Canadian Studies B.A. Honours
- Canadian Studies B.A. Combined Honours
- Indigenous Studies B.A. Combined Honours
- Canadian Studies B.A.
- Minor in Canadian Studies
- Minor in Indigenous Studies
- Minor in Heritage and Conservation
- Minor in Québec Studies
- Mention Français: Canadian Studies Honours
- Mention Français: Canadian Studies Combined Honours
- Mention Français: Canadian Studies B.A.

Program Requirements

Canadian Studies

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

1. 1.5 credits in:	1.5
CDNS 1001 [0.5]	Introduction to the Study of Canada
CDNS 1101 [0.5]	Power, Places and Stories in/of Odawang/Ottawa
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters
2. 1.5 credits in:	1.5
CDNS 2000 [0.5]	Debating Canada
CDNS 2001 [0.5]	Canada and Global Issues
CDNS 2002 [0.5]	Language, Culture, and Power
3. 1.0 credit in:	1.0
CDNS 3000 [0.5]	Situating Research in Indigenous Studies and Canadian Studies
CDNS 3020 [0.5]	Practicing Research in Indigenous Studies and Canadian Studies
4. 0.5 credit in CDNS or INDG at the 2000-level	0.5
5. 1.0 credit in CDNS or INDG at the 3000-level	1.0
6. 1.0 credit in CDNS or INDG at the 4000-level	1.0
7. 3.5 credits from the list of Approved Canadian Studies or Indigenous Studies Electives below	3.5
B. Credits Not Included in the Major CGPA (10.0 credits)	
8. 6.0 credits not in CDNS or INDG	6.0

9. 1.0 credit in language instruction in any language except English offered through the University	1.0
10. 3.0 credits in free electives	3.0
Total Credits	20.0

Canadian Studies

B.A. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 1.5 credit in:	1.5
CDNS 1001 [0.5]	Introduction to the Study of Canada
CDNS 1101 [0.5]	Power, Places and Stories in/of Odawang/Ottawa
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters
2. 1.5 credits in:	1.5
CDNS 2000 [0.5]	Debating Canada
CDNS 2001 [0.5]	Canada and Global Issues
CDNS 2002 [0.5]	Language, Culture, and Power
3. 1.0 credit in:	1.0
CDNS 3000 [0.5]	Situating Research in Indigenous Studies and Canadian Studies
CDNS 3020 [0.5]	Practicing Research in Indigenous Studies and Canadian Studies
4. 0.5 credit in CDNS or INDG at the 2000-level	0.5
5. 0.5 credit in CDNS or INDG at the 3000-level	0.5
6. 0.5 credit in CDNS or INDG at the 4000-level	0.5
7. 1.5 credits from the list of Approved Canadian Studies or Indigenous Studies Electives below	1.5
B. Additional Requirements (13.0 credits)	13.0
8. The requirements of the other discipline must be fulfilled	
9. The School requires students to complete 1.0 credit in language instruction in any language except English offered through the University	
10. Sufficient free electives to achieve a total of 20.0 credits for the program	
Total Credits	20.0

Indigenous Studies

B.A. Combined Honours (20.0 Credits)

A. Credits Included in the Indigenous Studies Major (7.0 credits)

1. 1.0 credit in:	1.0
INDG 1010 [0.5]	Introduction to Indigenous & INDG 1011 [0.5] Peoplehood Studies
	Introduction to Indigenous-Settler Encounters
INDG 1000 [1.0]	Introduction to Indigenous Studies
2. 1.5 credits in:	1.5
INDG 2011 [0.5]	Contemporary Indigenous Studies
INDG 2015 [0.5]	Indigenous Ecological Ways of Knowing
INDG 2020 [0.5]	Decolonizing Gender, Sex, and Sexuality
3. 1.0 credit in:	1.0
INDG 3001 [0.5]	Indigenous Governance
INDG 3015 [0.5]	Indigenous Ecological Ways of Knowing and the Academy
4. 1.0 credit in:	1.0
INDG 4001 [0.5]	Indigeneity in the City
INDG 4011 [0.5]	Indigenous Representations

5. 1.5 credits from the list of Approved INDG electives	1.5
6. 1.0 credit at the 4000-level from the list of Approved INDG electives	1.0

B. Additional Requirements (13.0 credits) 13.0

7. The requirements for Combined Honours in the other discipline must be satisfied
8. Sufficient free electives to achieve a total of 20.0 credits for the program

Total Credits 20.0

Canadian Studies

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 1.5 credit in: 1.5

CDNS 1001 [0.5]	Introduction to the Study of Canada
CDNS 1101 [0.5]	Power, Places and Stories in/of Odawang/Ottawa
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters

2. 1.5 credits in: 1.5

CDNS 2000 [0.5]	Debating Canada
CDNS 2001 [0.5]	Canada and Global Issues
CDNS 2002 [0.5]	Language, Culture, and Power

3. 1.0 credit from CDNS or INDG 3000-level courses 1.0

4. 1.0 credit at the 3000-level, from the list of Approved Canadian Studies or Indigenous Studies Electives below 1.0

5. 2.0 credits from the list of Approved Canadian Studies or Indigenous Studies Electives below 2.0

B. Credits Not included in the Major CGPA (8.0 credits)

6. 1.0 credit in language instruction in any language except English offered through the University. 1.0

7. 5.0 credits in electives not in CDNS or INDG 5.0

8. 2.0 credits in free elective (may be CDNS or INDG) 2.0

Total Credits 15.0

Minor in Canadian Studies (4.0 credits)

The Minor in Canadian Studies is open to all undergraduate degree students not in Canadian Studies programs.

Requirements:

1. 1.0 credit from: 1.0

CDNS 1001 [0.5]	Introduction to the Study of Canada
CDNS 1101 [0.5]	Power, Places and Stories in/of Odawang/Ottawa
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters

2. 1.0 credit from: 1.0

CDNS 2000 [0.5]	Debating Canada
CDNS 2001 [0.5]	Canada and Global Issues
CDNS 2002 [0.5]	Language, Culture, and Power

3. 1.0 credit from CDNS or INDG at the 3000- or 4000-level 1.0

4. 1.0 credit from the list of approved Canadian Studies or Indigenous Studies Electives below 1.0

Total Credits 4.0

Minor in Indigenous Studies (4.0 credits)

The Minor in Indigenous Studies is open to all undergraduate degree students.

Requirements:

1. 1.0 credit in: 1.0

INDG 1010 [0.5]	Introduction to Indigenous Peoplehood Studies
-----------------	---

INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters
-----------------	---

2. 1.0 credit from: 1.0

INDG 2011 [0.5]	Contemporary Indigenous Studies
-----------------	---------------------------------

INDG 2012 [0.5]	Anishinaabe Studies
-----------------	---------------------

INDG 2013 [0.5]	Haudenosaunee Studies
-----------------	-----------------------

INDG 2015 [0.5]	Indigenous Ecological Ways of Knowing
-----------------	---------------------------------------

INDG 2020 [0.5]	Decolonizing Gender, Sex, and Sexuality
-----------------	---

3. 1.0 credit from: 1.0

INDG 3001 [0.5]	Indigenous Governance
-----------------	-----------------------

INDG 3011 [0.5]	Indigenous Rights, Resistance, and Resurgence
-----------------	---

INDG 3015 [0.5]	Indigenous Ecological Ways of Knowing and the Academy
-----------------	---

INDG 3901 [0.5]	Selected Topics in Indigenous Studies
-----------------	---------------------------------------

INDG 4001 [0.5]	Indigeneity in the City
-----------------	-------------------------

INDG 4011 [0.5]	Indigenous Representations
-----------------	----------------------------

INDG 4015 [0.5]	Land as a Relation
-----------------	--------------------

INDG 4020 [0.5]	Practicum
-----------------	-----------

INDG 4905 [0.5]	Directed Studies I
-----------------	--------------------

4. 1.0 credit from the list of approved Indigenous Studies Electives 1.0

5. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Minor in Heritage and Conservation (4.0 credits)

The Minor in Heritage and Conservation is open to all undergraduate degree students.

Requirements

1. 2.0 credits from: 2.0

CDNS 1101 [0.5]	Power, Places and Stories in/of Odawang/Ottawa
-----------------	--

CDNS 2400 [0.5]	Heritage Places and Practices in Canada
-----------------	---

CDNS 3700 [0.5]	Constructing and Contesting Memory in Canada
-----------------	--

CDNS 4400 [0.5]	Space, Landscape and Identity in Canada
-----------------	---

CDNS 4403 [0.5]	Heritage Conservation and Sustainability in Canada
-----------------	--

2. 2.0 credits in Approved Heritage Conservation Electives 2.0

Total Credits 4.0

Approved Heritage Conservation Electives

African Studies

AFRI 3004 [0.5]	The African City
-----------------	------------------

AFRI 3005 [0.5]	African Migrations and Diasporas

Mention : Français

Students who wish to qualify for the *Mention : Français* notation in Canadian Studies may do so by fulfilling the requirements listed below, in consultation with the Undergraduate Supervisor. Courses taken for the *Mention : Français* notation may be used to fulfill the Canadian Studies B.A. or the Canadian Studies B.A. Combined Honours program requirements.

Courses taught in French at the University of Ottawa or at another university and which are approved by the Undergraduate Supervisor may be used to satisfy *Mention : Français* requirements. Students who wish to enrol in University of Ottawa courses for this purpose must do so through the University of Ottawa Exchange Agreement. To enroll in courses in French at another university, a Letter of Permission is required from the Registrar's Office.

Mention Français: Canadian Studies Honours (4.0 credits)

To graduate with the notation *Mention : Français*, Honours and Combined Honours students must include the following courses in their degree program:

1. 1.0 credit in the advanced study of the French language	1.0
2. 1.0 credit in French-Canadian culture and heritage such as:	1.0
FREN 2202 [0.5]	Introduction aux études littéraires 1
& FREN 2203 [0.5]	Introduction aux études littéraires 2
FREN 2401 [1.0]	Introduction à la linguistique française

or a course in another appropriate discipline, given in French, which is approved by the Undergraduate Supervisor. Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor

3. 1.0 credit on a Canadian subject at the 2000- or 3000-level, taught in French, in any appropriate discipline. For Carleton University courses that may be used to fulfill this requirement, consult the list of Approved Canadian Studies Electives (below). Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor. 1.0

4. 1.0 credit on a Canadian subject at the 4000-level, taught in French, including either: 1.0

CDNS 4903 [0.5] Études dirigées I
or CDNS 4904 [0] Études dirigées II

or a directed studies, tutorial, research paper, or course in any appropriate discipline.

Total Credits 4.0

Notes:

- All written work must be submitted in French. Note that directed studies, tutorials, and research papers are weighted differently in various departments. Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor.

Mention Français: Canadian Studies Combined Honours (4.0 credits)

To graduate with the notation *Mention : Français*, Combined Honours students must include the following courses in their degree program:

1. 1.0 credit in the advanced study of the French language 1.0

2. 1.0 credit in French-Canadian culture and heritage such as: 1.0

FREN 2202 [0.5] Introduction aux études littéraires 1 & FREN 2203 [0.5] Introduction aux études littéraires 2

FREN 2401 [1.0] Introduction à la linguistique française

or a course in another appropriate discipline, given in French, which is approved by the Undergraduate Supervisor. Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor

3. 1.0 credit on a Canadian subject at the 2000- or 3000-level, taught in French, in any appropriate discipline. For Carleton University courses that may be used to fulfill this requirement, consult the list of Approved Canadian Studies Electives (below). Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor. 1.0

4. 1.0 credit on a Canadian subject at the 4000-level, taught in French, including either: 1.0

CDNS 4903 [0.5] Études dirigées I
or CDNS 4904 [0] Études dirigées II

or a directed studies, tutorial, research paper, or course in any appropriate discipline.

Total Credits 4.0

Notes:

- All written work must be submitted in French. Note that directed studies, tutorials, and research papers are weighted differently in various departments. Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor.

2. Combined Honours program students must meet *Mention : Français* requirements of both disciplines.

Mention Français: Canadian Studies B.A. (3.0 credits)

To graduate with the notation *Mention : Français*, B.A. students must include the following courses in their degree program:

1. 1.0 credit in the advanced study of the French language 1.0

2. 1.0 credit in French-Canadian culture and heritage such as: 1.0

FREN 2202 [0.5] Introduction aux études littéraires 1 & FREN 2203 [0.5] Introduction aux études littéraires 2

FREN 2401 [1.0] Introduction à la linguistique française

or a course in another appropriate discipline, given in French, which is approved by the Undergraduate Supervisor. Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor

3. 1.0 credit on a Canadian subject at the 2000- or 3000-level, taught in French, in any appropriate discipline. For Carleton University courses that may be used to fulfill this requirement, consult the list below of Approved Canadian Studies Electives. Courses from the University of Ottawa or another university must be approved by the Undergraduate Supervisor. 1.0

Total Credits 3.0

Approved Canadian Studies Electives

The following courses are deemed by the School of Indigenous and Canadian Studies to have significant Canadian content and can be included where appropriate as part of a Canadian Studies degree. Access to these courses is not guaranteed and may depend on space availability and the satisfaction of other requirements such as course prerequisites.

Carleton courses not on this list may be applied as approved Canadian Studies electives, but they must be approved by the Undergraduate Supervisor. Students taking courses at the University of Ottawa should consult with the Undergraduate Supervisor to gain approval for substituting them as approved Canadian Studies electives.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EARR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, EARTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAMP, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Canadian Studies (CDNS) Courses

CDNS 1001 [0.5 credit]

Introduction to the Study of Canada

Introduction to interdisciplinary Canadian Studies. Topics may include: Canadian, Québécois and Indigenous lenses; colonialism, migration, settlement; gender, racialization and sexuality; social movements; place, space, and nation; and political economy and culture. May include field trips.

Precludes additional credit for CDNS 1000 (no longer offered).

Lectures/groups three hours a week.

CDNS 1101 [0.5 credit]

Power, Places and Stories in/of Odawang/Ottawa

Exploration of Odawang/Ottawa as a settler-colonial border city built on unceded Algonquin territory and tensions between the national, global and local in Odawang/Ottawa. May include field trips.

Lecture/groups three hours a week.

CDNS 2000 [0.5 credit]

Debating Canada

Exploration of debates about Canada. Topics may include: Indigenous dispossession, genocide, capitalism, resource extraction; racism; patriarchal oppression; inequality; multiculturalism; and the politics of location, language and memory.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2001 [0.5 credit]

Canada and Global Issues

Examination of the role of the Canadian state and other actors in addressing global issues. Topics may include: human rights; refugees and migrant workers; peacekeeping; climate change; humanitarian assistance; Indigenous rights; and global health.

Precludes additional credit for CDNS 1102 (no longer offered).

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2002 [0.5 credit]

Language, Culture, and Power

Study of the relationship between language and power, politics, identity and culture in Canada. Consideration is given to: language policies; non-official and official language minorities; and factors of region, class and social mobility.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2210 [0.5 credit]

Introduction to the Study of Culture in Canada

Examination of key cultural myths, diverse genres, spaces, institutions, practices and critical approaches in Canada.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2300 [0.5 credit]

Nationalism and Multiculturalism in Canada

Examination of nationalism, colonialism, racialization, ethnicity, multiculturalism and questions of belonging, citizenship and inequality in contemporary and historical Canada.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2301 [0.5 credit]

Immigrants, Migrants and Diasporas

Study of historical and contemporary Canadian immigration and emigration issues. Topics may include:

dynamics of diasporic communities in Canada and Québec; Canadians abroad; and issues of citizenship and belonging.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2302 [0.5 credit]

Land, Water, Capitalism

Examination of politics and economics of land, water, and power. Topics may include: the study of labour, migrant workers, capitalist extraction; environmental racism and health; and Indigenous dispossession and resistance.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2400 [0.5 credit]

Heritage Places and Practices in Canada

An examination of heritage as the built environment, cultural landscapes, and intangible heritage. Topics may include: decolonizing memory, identity and place; heritage histories, policies, values and stakeholders; emerging issues such as climate change, mass tourism and urban development.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

CDNS 2510 [0.5 credit]

Memory & History in QC

Pivotal moments, important debates and crises, cultural institutions and practices, the politics of history and memory, and contemporary issues in Québec.

Precludes additional credit for CDNS 2511, FINS 2510 (no longer offered), FINS 2511 (no longer offered).

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours per week.

CDNS 3000 [0.5 credit]**Situating Research in Indigenous Studies and Canadian Studies**

An examination of the underlying research design and methods of selected works for Indigenous Studies and for Canadian Studies in order to reflect on the political, ethical and intellectual consequences, possibilities and limitations of a variety of disciplinary and interdisciplinary research practices.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3020 [0.5 credit]**Practicing Research in Indigenous Studies and Canadian Studies**

Experiential engagement with disciplinary, interdisciplinary and creative research theory and practice. Approaches may include: mixed methods; autoethnography; research-creation; collaboration; and community-based research.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3400 [0.5 credit]**Feminist and Queer Canadas**

An examination of the dynamics of feminist and queer social movements and activism. Topics may include: challenges to the regulation of bodies and sexualities; the normalization of patriarchal violence and inequality; access and recognition; and intersectionality.

Precludes additional credit for WGST 3400 (no longer offered).

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3550 [0.5 credit]**Diversity in Québec and Francophone Canada**

The study of the historical, cultural, social, and political diversity of French-speaking Canada. Topics may include: Francophone diasporic communities; multiculturalism, interculturalism; (settler) colonialism; and the politics of culture and language.

Precludes additional credit for CDNS 2500, FINS 3550 (no longer offered).

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3560 [0.5 credit]**Black Studies in Canada**

Theories and methods of Black Studies in Canada.

Topics may include: the examination of regional, national, transnational histories; structures of anti-Blackness; racial capitalism; and identities, experiences and cultures of Black Canada.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3570 [0.5 credit]**Racialization and Resistance**

Deconstructing the category of 'race' and understanding the experiences and impacts of racialization and systemic racism in Canada and Québec. Topics may include: inequality, exploitation, poverty, profiling, incarceration; cultures of resistance; decolonizing anti-racist movements; and anti-racism as critique and affirmation.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3620 [0.5 credit]**Canada-US Relations**

An examination the Canada-US relationship, including contemporary policy issues that define that relationship.

Topics covered may include: the economy; culture; defence; foreign policy; diplomacy; transnational struggles; and borderlands and the context of Turtle Island.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3700 [0.5 credit]**Constructing and Contesting Memory in Canada**

An exploration of conflicts about memory and commemoration in Canada, including: monuments and heritage sites; cultural heritage and artistic expressions; the media; education; language and cultural revitalization; and the politics of memory and forgetting.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 3901 [0.5 credit]**Selected Topics in Canadian Studies**

Study of a specific topic or area related to Canadian Studies. Topics vary from year to year.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4011 [0.5 credit]**Activism in Odawang/Ottawa**

Examination of struggles and activism in and about Ottawa/Odawang.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4012 [0.5 credit]**Settler Colonialism on Turtle Island**

Exploration of the theories, practices, and history of settler colonialism on Turtle Island. Topics may include: racialization; settlement and migration; white supremacy; heteropatriarchy; land and Indigenous relations; and contemporary struggles and decolonization.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4020 [0.5 credit]**Injury, Memory, and Redress in Canada**

Examination of the politics of redress and (re)conciliation in Canada. Topics include the ways in which historic wrongs, trauma and injury are (re)imagined and memorialized.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4400 [0.5 credit]**Space, Landscape and Identity in Canada**

Explorations of cultural landscapes and competing constructions of space. Topics may include: settler-colonial space-making; whiteness and space; diasporic space; geographies of gender and sexuality; and different understandings of nature/culture.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4403 [0.5 credit]**Heritage Conservation and Sustainability in Canada**

Theory, principles, practices and policy of heritage conservation in Canada and globally. Focus on heritage conservation and its connections with environmental, social, and economic sustainability.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Also offered at the graduate level, with different requirements, as CDNS 5403, for which additional credit is precluded.

Seminar three hours a week.

CDNS 4500 [0.5 credit]**Global Canada**

Examining Canada's place and activities on the global stage. Topics may include: Canadian multinationals; Canadian foreign policy, cultural diplomacy, and corporate globalization; advocacy for Indigenous, environmental, women's, refugees' and children's rights; racial capitalism and im/migration; security; and resistances to the global. Precludes additional credit for CDNS 3301 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4510 [0.5 credit]**Special Topics in Québec Studies**

Examination of a specific topic or area related to the study of Québec. Topics vary from year to year.

Precludes additional credit for CDNS 3510 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4800 [1.0 credit]**Internship Practicum**

Practicum placements are available in institutional settings, primarily in the Ottawa area. Students must meet regularly with the academic evaluator and submit a final written report. A maximum of 1.0 practicum credits may be taken in fulfillment of Canadian Studies requirements.

Includes: Experiential Learning Activity

Precludes additional credit for CDNS 3800, CDNS 3801, CDNS 3802 and CDNS 3803.

Prerequisite(s): permission of the School and fourth-year Honours standing in an Indigenous and Canadian Studies program.

CDNS 4801 [0.5 credit]**Internship/Practicum**

Practicum placements are available in institutional settings, primarily in the Ottawa area. Students must meet regularly with the academic evaluator and submit a final written report. A maximum of 1.0 practicum credits may be taken in fulfillment of Canadian Studies requirements.

Includes: Experiential Learning Activity

Precludes additional credit for CDNS 3800, CDNS 3801, CDNS 3802 and CDNS 3803.

Prerequisite(s): permission of the School and fourth-year Honours standing in an Indigenous and Canadian Studies program.

CDNS 4802 [0.5 credit]**Internship/Practicum**

Practicum placements are available in institutional settings, primarily in the Ottawa area. Students must meet regularly with the academic evaluator and submit a final written report. A maximum of 1.0 practicum credits may be taken in fulfillment of Canadian Studies requirements.

Includes: Experiential Learning Activity

Precludes additional credit for CDNS 3800, CDNS 3801, CDNS 3802 and CDNS 3803.

Prerequisite(s): permission of the School and fourth year Honours standing in an Indigenous and Canadian Studies program.

CDNS 4901 [0.5 credit]**Selected Topics in Canadian Studies**

Study of a specific topic or area related to Canadian Studies. Topics vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

CDNS 4902 [0.5 credit]**Selected Topics in Canadian Studies**

Study of a specific topic or area related to Canadian Studies. Topics vary from year to year.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

CDNS 4903 [0.5 credit]**Études dirigées I**

Cours facultatif offert seulement aux étudiants de quatrième année Honours en Études canadiennes (Mention : Français). Ce cours comprend des lectures dirigées et des travaux écrits dans un domaine relié aux Études canadiennes.

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

CDNS 4904 [0.5 credit]**Études dirigées II**

Cours facultatif offert seulement aux étudiants de quatrième année Honours en Études canadiennes (Mention : Français). Ce cours comprend des lectures dirigées et des travaux écrits dans un domaine relié aux Études canadiennes.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

CDNS 4905 [0.5 credit]**Directed Studies I**

An optional course normally restricted to fourth-year Honours students in Canadian Studies and to Qualifying-year Graduate students. Includes supervised reading and written work in a Canadian Studies area.

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

CDNS 4906 [0.5 credit]**Directed Studies II**

An optional course normally restricted to fourth-year Honours students in Canadian Studies and to Qualifying-year graduate students. Includes supervised reading and written work in a Canadian Studies area.

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

CDNS 4907 [1.0 credit]**Directed Studies III**

An optional course normally restricted to fourth-year Honours students in Canadian Studies and to Qualifying-year graduate students. Includes supervised reading and written work in a Canadian Studies area.

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Indigenous Studies (INDG) Courses**INDG 1000 [1.0 credit]****Introduction to Indigenous Studies**

Survey of historical and contemporary issues relating to Indigenous peoples in Canada. Cultural traditions and the social interactions between Indigenous and non-Indigenous societies are approached from an interdisciplinary perspective.

Precludes additional credit for INDG 1010 and INDG 1011. Online only.

INDG 1010 [0.5 credit]**Introduction to Indigenous Peoplehood Studies**

This course begins by looking at Creation Stories of different Indigenous peoples and builds to discuss Indigenous worldviews, ways of living, ecological relationships, inter-Indigenous relations and diplomacy among Indigenous peoples. Course materials are rooted in self-situated and collective understandings of Indigenous peoples.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 1011 [0.5 credit]**Introduction to Indigenous-Settler Encounters**

An interdisciplinary examination of the history of relations between different Indigenous peoples and settler populations from first meetings to the mid-20th century.

Topics vary by year, but may include diplomatic relations, trade, spirituality and religion, military alliances, policy, education.

Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 2011 [0.5 credit]**Contemporary Indigenous Studies**

Indigenous and non-Indigenous perspectives on issues since the 1960s. Topics include: contemporary explorations of treaty relationship and governance, cultural appropriation, identity politics, urban Aboriginality and contemporary social and cultural issues.

Precludes additional credit for CDNS 2100 and CDNS 2011.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lectures/groups three hours a week.

INDG 2012 [0.5 credit]**Anishinaabe Studies**

In-depth look at the Anishinaabe peoples. Topics may include: Anishinaabe creation stories, migration, the clan system, worldviews; oral, written, and recorded history; treaties, contemporary events, ecological knowing, cultural production, relations with settler-colonies and other nations, self-governance, diplomatic relations.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups three hours a week.

INDG 2013 [0.5 credit]**Haudenosaunee Studies**

Focuses on the Haudenosaunee from the founding of the Confederacy to present. Discussion of the culture, language, and structure of Haudenosaunee society, the Kaienerekowa (Great Law of Peace) and the Code of Handsome Lake, symbolism, and contemporary issues, including the impact of Euro-Canadian government policies.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2015 [0.5 credit]**Indigenous Ecological Ways of Knowing**

Indigenous peoples' relationships with the non-human world in both historical and contemporary contexts. Topics may include: the origins of Indigenous ecological ways of knowing, Indigenous languages, collective stewardship, water, land, and challenges to maintaining traditional knowledge.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2020 [0.5 credit]**Decolonizing Gender, Sex, and Sexuality**

Effects of colonization in unbalancing Indigenous peoples' lives through the imposition of constructions of gender, sex, and sexuality, and the ways that Indigenous peoples are working to restore balance to their families and communities. Topics vary by year.

Prerequisite(s): second-year standing or permission of the School of Indigenous and Canadian Studies.

Lecture/groups, three hours a week.

INDG 2709 [0.5 credit]**Indigenous Drama**

A study of dramatic literatures and theatre practice from Indigenous theatre makers, including playwrights, directors and other practitioners.

Also listed as ENGL 2709.

Prerequisite(s): second-year standing or permission of the School.

Lecture three hours per week

INDG 3001 [0.5 credit]**Indigenous Governance**

An examination and discussion of different Indigenous forms of governance. Topics will vary by year and may include: Indigenous ways of knowing and forms of governance, community leadership, diplomatic relations, and struggles for self-determination.

Precludes additional credit for INDG 3000 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3011 [0.5 credit]**Indigenous Rights, Resistance, and Resurgence**

Indigenous approaches to restoring balance within their nations. Topics include: direct action; political organizing; land claims; rights, courts, and legal action; everyday acts of resistance and resurgence such as petitioning, social media, arts-based movements, and community initiatives.

Includes: Experiential Learning Activity

Precludes additional credit for INDG 3010 (no longer offered).

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3015 [0.5 credit]**Indigenous Ecological Ways of Knowing and the Academy**

The relationship between Indigenous traditional ecological knowledges and the academy. Topics include: linguistic barriers, tensions in diffuse ways of knowing, research ethics with respect to Indigenous traditional knowledge, and working with knowledge holders.

Prerequisite(s): third-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 3901 [0.5 credit]**Selected Topics in Indigenous Studies**

Topics vary from year to year.

Prerequisite(s): third- or fourth-year standing, or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4001 [0.5 credit]**Indigeneity in the City**

This course begins with an examination of the relationship between Indigenous peoples and the construction of cities and urban space. Culminates in the undertaking of research projects that directly link students to the urban Indigenous community in Ottawa.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4011 [0.5 credit]**Indigenous Representations**

Through an examination of instances of Indigenous misrepresentation, students will explore how Indigenous peoples have used cultural production in various forms (such as literature, film, television, visual arts, music, performance) to put forth their own visions of their peoples, worldviews, and lives.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours a week.

INDG 4015 [0.5 credit]**Land as a Relation**

This is an intensive 14-day field course that brings students together with knowledge holders on the land. The connections between Indigenous ways of knowing, the land, Indigenous languages, and the land's non-human inhabitants, will be explored. Locations and course fee varies by year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Fourteen-day field course.

INDG 4020 [0.5 credit]

Practicum

Students will learn to apply their knowledge of topics in Indigenous Studies with a local organization whose mandate involves working with and/or for Indigenous peoples. To be arranged in consultation with the Program Coordinator.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

INDG 4901 [0.5 credit]

Selected Topics in Indigenous Studies

Topics vary from year to year.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Seminar three hours per week.

INDG 4905 [0.5 credit]

Directed Studies I

An optional course normally restricted to fourth-year Honours students in Canadian Studies or Indigenous Studies and to Qualifying-year Graduate students.

Includes supervised reading and written work in an Indigenous Studies area.

Prerequisite(s): fourth-year standing or permission of the School of Indigenous and Canadian Studies.

Certificate in Nunavut Public Service Studies (C.N.P.S.S.)

This section presents the requirements for programs in:

- Certificate in Nunavut Public Service Studies
C.N.P.S.S.

Program Requirements

Certificate in Nunavut Public Service Studies C.N.P.S.S. (5.0 credits)

Requirements:

1. 1.0 credit in:		1.0
PADM 1501 [0.5]	Public Administration in Nunavut	
PADM 1502 [0.5]	Management of Federal-Territorial Relations	
2. 1.0 credit in:		1.0
ENGL 1002 [0.5]	Writing and Language I	
ENGL 1003 [0.5]	Writing and Language II	
3. 1.0 credit in:		1.0
BUSI 1001 [0.5]	Principles of Financial Accounting	
BUSI 2101 [0.5]	Organizational Behaviour	
4. 1.0 credit in:		1.0
ECON 1001 [0.5]	Introduction to Microeconomics	
ECON 1002 [0.5]	Introduction to Macroeconomics	
5. 0.5 credit in:		0.5
HIST 1010 [0.5]	History of Northern Canada	
6. 0.5 credit in:		0.5
PSCI 1100 [0.5]	Democracy in Theory and Practice	
Total Credits		5.0

Regulations

See the Academic Regulations of the University section of this Calendar.

This Certificate program is designed primarily for prospective or practicing public employees in Nunavut who seek special training in public service subjects at the undergraduate level.

Courses taken for the Certificate may be credited towards a Bachelor of Arts degree. A transfer student from the Certificate program into the Bachelor of Arts program normally will be required to take at least 10.0 further credits. At least 5.0 of the credits required for the degree must be completed after awarding of the Certificate.

Academic Standing

A candidate for the Certificate must obtain a grade of C or higher in at least half of the credits taken at Carleton University for the Certificate.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Certificate

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*) with a grade of 60 percent or higher. For applicants whose first language is not English, the requirement of 4U English can also be met under the conditions outlined in the section "English Language Requirements" in the Admissions Requirements and Procedures section of this Calendar. Special consideration will be extended to other applicants under Mature Applicant regulations (see Mature and Special Admissions, in the Admissions Regulations and Procedures section of this Calendar).

Candidates may be admitted with advanced standing, but must take at least 3.0 credits for the Certificate from Carleton University.

Certificate in Science and Policy

This section presents the requirements for programs in:

- Certificate in Science and Policy

Certificate in Science and Policy (5.0 credits)

May be taken following successful completion of a college diploma (or equivalent) or a university degree in any discipline with a minimum average grade of B. Can also be completed concurrently with any undergraduate degree after completing a minimum of 4.0 credits with a minimum CGPA of 7.00.

Graduation

A candidate for the Certificate in Science and Policy (CSCP) must obtain a grade of C or higher in all courses taken at Carleton University under the CSCP program.

Requirements

1. 1.5 credits in:	1.5
ISAP 2001 [0.5] Foundations in Critical Inquiry	
PAPM 1001 [0.5] Policy: Analysis, Implementation, and Evaluation	
PSCI 2003 [0.5] Canadian Political Institutions	
2. 0.5 credit in ISCI 1001 for students in a non-science program or any 1000-level Approved Science course for students in a science or engineering program	0.5
3. 1.5 credits in:	1.5
ISAP 3003 [0.5] Science Communication	
ISAP 3004 [0.5] Science Policy	
PADM 4220 [0.5] Regulation and Public Policy or LAWS 3005 [0.5] Law and Regulation	
4. 0.5 credit in:	0.5
ISAP 3002 [0.5] Applications in Interdisciplinary Research	
5. 0.5 credit in Science Approved Electives for students in a non-science program or Public Affairs Approved Electives for students in a science or engineering program	0.5
6. 0.5 credit in Science or Public Affairs Approved Electives	0.5
Total Credits	5.0

Certificate in Science Communication

This section presents the requirements for programs in:

- Certificate in Science Communication

Certificate in Science Communication (5.0 credits)

May be taken concurrently with an Honours degree within the Faculty of Science, Faculty of Public Affairs, or the Faculty of Arts and Social Science, with completion of a minimum of 4.0 credits, and a minimum CGPA of 10.0. Enrollment is limited.

Graduation

A candidate for the Certificate in Science Communication must obtain a grade of C or higher in all courses taken

at Carleton University under the Certificate in Science Communication program.

Requirements

1. 0.5 credit in any 1000-level approved Science course	0.5
2. 0.5 credit in any Faculty of Science course	0.5
3. 1.5 credits in:	1.5
COMS 1001 [0.5] Foundations in Communication and Media Studies	
ISAP 2001 [0.5] Foundations in Critical Inquiry	
JOUR 1001 [0.5] Foundations: Journalism in Context or JOUR 1003 [0.5] Discovering Journalism: Traditional Tales to Tweets	
4. 1.0 credit in:	1.0
COMS 2500 [0.5] Communication and Science	
ISAP 3003 [0.5] Science Communication	
5. 0.5 credit from:	0.5
BIOL 1105 [0.5] Biological Methods, Analysis and Interpretation	
COMS 3412 [0.5] Communication and Health	
COMS 4407 [0.5] Communication and Critical Data Studies

7. 0.0 credit in:	

JOUR 4999/ ISAP 4999 [0.0]	Science Communication Certificate Professional Development Workshop
-------------------------------	---

Total Credits **5.0**

Note: For **item 5** and **item 6**, any directed study, research essay, thesis or project must be on an approved topic related to science communication.

Chemistry

This section presents the requirements for programs in:

- Chemistry B.Sc. Honours
- Chemistry with Concentration in Chemical Toxicology B.Sc. Honours
- Chemistry with Concentration in Nanotechnology B.Sc. Honours
- Chemistry B.Sc.
- Chemistry and Earth Sciences B.Sc. Combined Honours
- Chemistry and Physics B.Sc. Combined Honours
- Minor in Chemistry

Graduation Requirements

In addition to the requirements listed below, students must satisfy:

1. the University regulations (see *the Academic Regulations of the University* section of this Calendar),
2. the common regulations applying to all B.Sc. programs including those relating to Science Continuation and Breadth requirements (see *the Academic Regulations for the Bachelor of Science Degree*),

Students should consult with the Department when planning their program and selecting courses.

Program Requirements

Chemistry

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 6.5 credits in:	6.5
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry
CHEM 3100 [0.5]	Physical Chemistry II
CHEM 3101 [0.5]	Quantum Chemistry
CHEM 3201 [0.5]	Advanced Organic Chemistry I
CHEM 3503 [0.5]	Inorganic Chemistry I
CHEM 3504 [0.5]	Inorganic Chemistry II
2. 1.0 credit from:	1.0
CHEM 4907 [1.0]	Honours Essay and Research Proposal
CHEM 4908 [1.0]	Research Project and Seminar

3. 1.0 credit from:	1.0
CHEM 3106 [0.5]	Computational Chemistry Methods Laboratory
CHEM 3107 [0.5]	Experimental Methods in Nanoscience
CHEM 3205 [0.5]	Experimental Organic Chemistry
CHEM 3305 [0.5]	Advanced Analytical Chemistry Laboratory
4. 0.5 credit in:	0.5
CHEM 3401 [0.5]	Physical Aspects of Biochemistry (or any BIOC course)
5. 1.0 credit in CHEM at the 4000 level, or 0.5 credit in CHEM at the 4000 level and:	1.0
BIOC 3102 [0.5]	General Biochemistry II
6. 0.5 credit in CHEM at the 3000 or 4000 level	0.5
B. Credits Not Included in the Major CGPA (9.5 credits)	
7. 2.0 credits in:	2.0
MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1107 [0.5]	Linear Algebra I
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
or MATH 2007 [0.5]	Elementary Calculus II
MATH 2008 [0.5]	Intermediate Calculus
8. 1.0 credit from:	1.0
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
& PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
& PHYS 1008 [0.5]	Elementary University Physics II
9. 0.5 credit in Science Continuation (not CHEM)	0.5
10. 1.0 credit in Science Faculty Electives at the 1000 level	1.0
11. 2.0 credits in Science Faculty Electives or Science Continuation Courses	2.0
12. 0.5 credit in:	0.5
NSCI 1000 [0.5]	Seminar in Science (or approved courses outside the faculties of Science and Engineering and Design)
13. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000 if not used above)	1.5
14. 1.0 credit in free elective.	1.0
Total Credits	20.0

Chemistry

with Concentration in Chemical Toxicology

B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.5 credits)

1. 10.0 credits in:	10.0
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry

CHEM 2800 [0.5]	Foundations for Environmental Chemistry	
BIOL 2200 [0.5]	Cellular Biochemistry	
CHEM 3100 [0.5]	Physical Chemistry II	
CHEM 3201 [0.5]	Advanced Organic Chemistry I	
CHEM 3503 [0.5]	Inorganic Chemistry I	
BIOC 3101 [0.5]	General Biochemistry I	
CHEM 3800 [0.5]	The Chemistry of Environmental Pollutants	
FOOD 4103 [0.5]	Food Safety Risk Assessment	
CHEM 4305 [0.5]	Environmental Chemistry and Toxicology	
BIOC 4708 [0.5]	Principles of Toxicology	
CHEM 4908 [1.0]	Research Project and Seminar	
or CHEM 4907 [1.0]	100 hours Essay and Research Proposal	
2. 0.5 credits from:		0.5
CHEM 3205 [0.5]	Experimental Organic Chemistry	
CHEM 3305 [0.5]	Advanced Analytical Chemistry Laboratory	
BIOC 3103 [0.5]	Practical Biochemistry I	
3. 1.0 credit in CHEM or BIOC at the 3000 or 4000 level		1.0
B. Credits Not Included in the Major CGPA (8.5 credits)		
4. 1.5 credits in:		1.5
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1107 [0.5]	Linear Algebra I	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
or MATH 2007 [0.5]	Elementary Calculus II	
5. 1.0 credit from:		1.0
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics	
	Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
6. 1.0 credit in:		1.0
BIOL 1103 [0.5]	Foundations of Biology I	
BIOL 1104 [0.5]	Foundations of Biology II	
7. 0.5 credits in:		0.5
FOOD 2004 [0.5]	Scientific Communication in Food Science	
8. 1.5 credits in Science Continuation Courses (not CHEM)		1.5
9. 2.0 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000, if not used above)		2.0
10. 1.0 credit in free electives		1.0
Total Credits		20.0

Chemistry with Concentration in Nanotechnology B.Sc. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 9.0 credits in:		9.0
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
CHEM 2103 [0.5]	Physical Chemistry I	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	

CHEM 2302 [0.5]	Analytical Chemistry I	
CHEM 2303 [0.5]	Analytical Chemistry II	
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry	
CHEM 3100 [0.5]	Physical Chemistry II	
CHEM 3101 [0.5]	Quantum Chemistry	
CHEM 3107 [0.5]	Experimental Methods in Nanoscience	
CHEM 3201 [0.5]	Advanced Organic Chemistry I	
CHEM 3503 [0.5]	Inorganic Chemistry I	
CHEM 3600 [0.5]	Introduction to Nanotechnology	
CHEM 4103 [0.5]	Surface Chemistry and Nanostructures	
CHEM 4104 [0.5]	Physical Methods of Nanotechnology	
CHEM 4908 [1.0]	Research Project and Seminar	
2. 1.0 credit from:		1.0

CHEM 3106 [0.5]	Computational Chemistry Methods Laboratory	
CHEM 3205 [0.5]	Experimental Organic Chemistry	
CHEM 3305 [0.5]	Advanced Analytical Chemistry Laboratory	
CHEM 3504 [0.5]	Inorganic Chemistry II	
3. 0.5 credit in:		0.5
CHEM 3401 [0.5]	Physical Aspects of Biochemistry (or any BIOC course)	

B. Credits Not Included in the Major CGPA (9.5 credits)

4. 2.0 credits in:		2.0
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1107 [0.5]	Linear Algebra I	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
or MATH 2007 [0.5]	Elementary Calculus II	
MATH 2008 [0.5]	Intermediate Calculus	
5. 1.0 credit from:		1.0
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics	
	Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
6. 0.5 credit in Science Continuation (not CHEM)		0.5
7. 1.0 credit in Science Faculty Electives at the 1000 level		1.0
8. 2.0 credits in Science Faculty Electives or Science Continuation Courses		2.0
9. 0.5 credit in NSCI 1000 or approved courses outside the faculties of Science and Engineering and Design		0.5
10. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000, if not used above)		1.5
11. 1.0 credit in free electives.		1.0
Total Credits		20.0

Chemistry B.Sc. (15.0 credits)

A. Credits Included in the Major CGPA (6.0 credits)

1. 5.0 credits in:		5.0
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	

CHEM 2103 [0.5]	Physical Chemistry I	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	
CHEM 2302 [0.5]	Analytical Chemistry I	
CHEM 2303 [0.5]	Analytical Chemistry II	
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry	
CHEM 3100 [0.5]	Physical Chemistry II	
CHEM 3101 [0.5]	Quantum Chemistry	
2. 0.5 credit from:		0.5
CHEM 3106 [0.5]	Computational Chemistry Methods Laboratory	
CHEM 3205 [0.5]	Experimental Organic Chemistry	
CHEM 3305 [0.5]	Advanced Analytical Chemistry Laboratory	
CHEM 3503 [0.5]	Inorganic Chemistry I	
CHEM 3107 [0.5]	Experimental Methods in Nanoscience	
3. 0.5 credit in CHEM at the 3000-level		0.5
B. Credits Not Included in the Major CGPA (9.0 credits)		
4. 2.0 credits in:		2.0
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1107 [0.5]	Linear Algebra I	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
or MATH 2007 [0.5]	Elementary Calculus II	
MATH 2008 [0.5]	Intermediate Calculus	
5. 1.0 credit from:		1.0
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics	
	Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
6. 0.5 credit in Science Continuation (not CHEM)		0.5
7. 1.0 credit in Science Faculty Electives at the 1000 level		1.0
8. 1.5 credit in Science Faculty Electives or Science Continuation Courses		1.5
9. 0.5 credit in NSCI 1000 or approved courses outside the faculties of Science and Engineering and Design		0.5
10. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design (may include NSCI 1000, if not used above)		1.5
11. 1.0 credit in free electives.		1.0
Total Credits		15.0

Chemistry and Earth Sciences

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.5 credits)

1. 4.0 credits in:		4.0
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
CHEM 2103 [0.5]	Physical Chemistry I	
CHEM 2302 [0.5]	Analytical Chemistry I	
CHEM 2303 [0.5]	Analytical Chemistry II	
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry	
CHEM 3100 [0.5]	Physical Chemistry II	

CHEM 3503 [0.5]	Inorganic Chemistry I	
2. 1.0 credit in CHEM at the 4000-level		1.0
3. 1.0 credit in:		1.0
ERTH 1006 [0.5]	Exploring Planet Earth	
ERTH 1009 [0.5]	The Earth System Through Time	
4. 3.0 credits in:		3.0
ERTH 2102 [0.5]	Mineralogy to Petrology	
ERTH 2104 [0.5]	Igneous Systems, Geochemistry and Processes	
ERTH 2105 [0.5]	Geodynamics	
ERTH 2314 [0.5]	Sedimentation and Stratigraphy	
ERTH 2406 [0.5]	Geology and Map Interpretation	
ERTH 2802 [0.5]	Field Geology I	
5. 0.5 credit from:		0.5
ERTH 3203 [0.5]	Sedimentology	
ERTH 3206 [0.5]	Sedimentary Depositional Systems (See Note, below)	
6. 2.0 credits in:		2.0
ERTH 3003 [0.5]	Geochemistry and Geochronology	
ERTH 3204 [0.5]	Mineral Deposits	
ERTH 3207 [0.5]	Metamorphic Petrology and Processes	
ERTH 3806 [0.5]	Structural Geology	
7. 1.0 credit in EARTH at the 4000-level		1.0
8. 1.0 credit from:		1.0
CHEM 4907 [1.0]	Honours Essay and Research Proposal	
CHEM 4908 [1.0]	Research Project and Seminar	
ERTH 4908 [1.0]	Honours Thesis	
ERTH 4909 [0.5]	Research in Earth Sciences (and 0.5 credit in EARTH at the 4000-level)	
B. Credits Not Included in the Major CGPA (6.5 credits)		
9. 1.0 credit in:		1.0
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1107 [0.5]	Linear Algebra I	
10. 0.5 credit from:		0.5
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 2007 [0.5]	Elementary Calculus II	
11. 0.5 credit in:		0.5
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
12. 0.5 credit in:		0.5
ERTH 2004 [0.5]	Maps, Satellites and the Geospatial Revolution	
13. 1.0 credit from:		1.0
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics	
	Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
14. 0.5 credit in:		0.5
BIOL 1104 [0.5]	Foundations of Biology II	
15. 0.5 credit in Science Faculty Electives (not CHEM or EARTH)		0.5
16. 0.5 credit in:		0.5

NSCI 1000 [0.5]	Seminar in Science (or approved course outside the faculties of Science and Engineering and Design)	
17. 1.5 credits in	approved courses outside the faculties of Science and Engineering and Design	1.5

Total Credits **20.0**

Note: for **Item 5** above, EARTH 3203 is required if prerequisite conditions are met.

Chemistry and Physics

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.0 credits)

1. 1.0 credit from: 1.0

PHYS 1001 [0.5] Foundations of Physics I
& PHYS 1002 [0.5] Foundations of Physics II (recommended)

PHYS 1003 [0.5] Introductory Mechanics and
& PHYS 1004 [0.5] Thermodynamics
Introductory Electromagnetism and
Wave Motion

PHYS 1007 [0.5] Elementary University Physics I
& PHYS 1008 [0.5] Elementary University Physics II (with an average grade of B- or higher)

2. 3.0 credits in: 3.0

PHYS 2202 [0.5] Wave Motion and Optics

PHYS 2305 [0.5] Electricity and Magnetism

PHYS 2604 [0.5] Modern Physics I

PHYS 3007 [0.5] Third Year Physics Laboratory:
Selected Experiments and
Seminars

PHYS 3701 [0.5] Elements of Quantum Mechanics

PHYS 3807 [0.5] Mathematical Physics I

3. 1.5 credits from: 1.5

PHYS 3308 [0.5] Electromagnetism

PHYS 3606 [0.5] Modern Physics II

PHYS 3802 [0.5] Advanced Dynamics

PHYS 4707 [0.5] Introduction to Quantum Mechanics I

4. 0.5 credit in PHYS at the 4000 level 0.5

5. 5.0 credits in: 5.0

CHEM 1001 [0.5] General Chemistry I

CHEM 1002 [0.5] General Chemistry II

CHEM 2103 [0.5] Physical Chemistry I

CHEM 2203 [0.5] Organic Chemistry I

CHEM 2204 [0.5] Organic Chemistry II

CHEM 2501 [0.5] Introduction to Inorganic and
Bioinorganic Chemistry

CHEM 3100 [0.5] Physical Chemistry II

CHEM 3102 [0.5] Methods of Computational
Chemistry

CHEM 3503 [0.5] Inorganic Chemistry I

CHEM 4102 [0.5] Advanced Topics in Physical
Chemistry II

6. 0.5 credit from: 0.5

CHEM 3106 [0.5] Computational Chemistry Methods
Laboratory

CHEM 3107 [0.5] Experimental Methods in
Nanoscience

7. 0.5 credit in CHEM at the 4000 level 0.5

8. 1.0 credit from: 1.0

CHEM 4908 [1.0] Research Project and Seminar

PHYS 4909 [1.0] Fourth-Year Project

PHYS 4907 plus 0.5 credit in PHYS at the 4000 level

PHYS 4908 plus 0.5 credit in PHYS at the 4000 level

B. Credits Not Included in the Major CGPA (7.0 credits)

9. 3.0 credits in: 3.0

MATH 1004 [0.5] Calculus for Engineering or Physics

MATH 1005 [0.5] Differential Equations and Infinite
Series for Engineering or Physics

MATH 1104 [0.5] Linear Algebra for Engineering or
Science

MATH 2004 [0.5] Multivariable Calculus for
Engineering or Physics

STAT 3502 [0.5] Probability and Statistics

MATH 3705 [0.5] Mathematical Methods I

10. 0.5 credit from: 0.5

COMP 1005 [0.5] Introduction to Computer Science I

ECOR 1606 [0.5] Problem Solving and Computers

11. 0.5 credit from: 0.5

MATH 3800 [0.5] Mathematical Modeling and
Computational Methods

ECOR 2606 [0.5] Numerical Methods

12. 0.5 credit from: 0.5

NSCI 1000 [0.5] Seminar in Science

Approved courses outside the faculties of Science and
Engineering and Design

13. 1.5 credits in approved courses outside the faculties
of Science and Engineering and Design (may include
NSCI 1000, if not used above) 1.5

14. 1.0 credit in free electives. 1.0

Total Credits **20.0**

Minor in Chemistry (4.0 credits)

The Minor in Chemistry is available to degree students registered in programs other than those associated with the Department of Chemistry.

Requirements

1. 1.0 credit from: 1.0

CHEM 1001 [0.5] General Chemistry I
& CHEM 1002 [0.5] General Chemistry II

or

CHEM 1005 [0.5] Elementary Chemistry I
& CHEM 1006 [0.5] Elementary Chemistry II

with a grade of B- or higher in CHEM 1006

2. 3.0 credits in Chemistry at 2000-level or higher 3.0

3. The remaining requirements of the major discipline(s)
and degree must be satisfied.

Total Credits **4.0**

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the university regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

- 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in Science Continuation courses in each of the two majors;**
- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

- 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received fewer than 10.0 transfer credits; or,
- 1.0 credit in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received 10.0 or more transfer credits.

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program within the B.Sc. Degree

To transfer to a program within the B.Sc. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.10 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrolment limitations, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is meeting the minimum CGPAs described in Section 3.1.9 of the *Academic Regulations of the University*, as well as being subject to any specific requirements of the intended Minor,

Concentration, or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of Experimental Science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry	
BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering
Biology	
BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology
Chemistry	
CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry
Earth Sciences	
ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology
Food Sciences	
FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology
Geography	
GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties
Neuroscience	
NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars
PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)
BIOL (Biology) Biochemistry students may use BIOL 2005 only as a free elective.

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5] Education Research in Biology
CHEM 1003 [0.5] The Chemistry of Food, Health and Drugs

CHEM 1004 [0.5] Drugs and the Human Body

CHEM 1007 [0.5] Chemistry of Art and Artifacts

ERTH 1010 [0.5] Our Dynamic Planet Earth

ERTH 1011 [0.5] Evolution of the Earth

ERTH 2415 [0.5] Natural Disasters

ISCI 1001 [0.5] Introduction to the Environment

ISCI 2000 [0.5] Natural Laws

ISCI 2002 [0.5] Human Impacts on the Environment

MATH 0107 [0.5] Algebra and Geometry

PHYS 1901 [0.5] Planetary Astronomy

PHYS 1902 [0.5] From our Star to the Cosmos

PHYS 1905 [0.5] Physics Behind Everyday Life

PHYS 2903 [0.5] Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5] Introduction to Computational Thinking for Arts and Social Science Students

MATH 0005 [0.5] Precalculus: Functions and Graphs

MATH 0006 [0.5] Precalculus: Trigonometric Functions and Complex Numbers

MATH 1009 [0.5] Mathematics for Business

MATH 1119 [0.5] Linear Algebra: with Applications to Business

MATH 1401 [0.5] Elementary Mathematics for Economics I

MATH 1402 [0.5] Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic

performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op

option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Honours Chemistry: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

B.Sc. Honours Chemistry students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course: CHEM 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	*W/S	Winter	S
Summer	**O/W	Summer	*W	Summer	O/W	Summer	O/W		

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite

averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience and Biology, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions, and two of Biology, Chemistry, Earth and Space Sciences, or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics, and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics, Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

B.Sc. Major and B.Sc.

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science, or Physics (Calculus

and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Chemistry (CHEM) Courses

CHEM 0999 [0.0 credit]

Chemistry Matters

CHEM 1001 [0.5 credit]

General Chemistry I

This maths-intensive course covers introduction to periodicity, gas laws, equilibrium, bonding, electrochemistry, and organic chemistry. This is a specialist course for students intending to take second year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1005, CHEM 1101.

Prerequisite(s): Ontario 4U/M in Chemistry or equivalent. Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1002 [0.5 credit]

General Chemistry II

This maths-intensive course covers an introduction to solution chemistry, acids and bases, thermodynamics, and kinetics. Specialist course for students intending to take second year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1006.

Prerequisite(s): CHEM 1005 with a minimum grade of B-, or CHEM 1001.

Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1003 [0.5 credit]

The Chemistry of Food, Health and Drugs

Aspects of chemistry relating to food, food additives, drugs (illicit and beneficial) and their relation to metabolism and health. Topics may include: proteins, carbohydrates, fats, vitamins, cofactors, enzymes, steroids, electrolyte and pH balance, trace elements. Available only as a free option for Science students.

Prerequisite(s): a course in Chemistry (e.g. Ontario Grade 11).

Lectures three hours a week.

CHEM 1004 [0.5 credit]

Drugs and the Human Body

No science background required. Topics include drug origins, laws, metabolism and dependence, pharmaceutical industry, over the counter medications, placebo effect, antibiotics, pain killers, stimulants, alcohol, marijuana, hallucinogens, birth control and steroids.

Students in Science programs may use this course only as a free elective.

Lectures three hours a week.

CHEM 1005 [0.5 credit]

Elementary Chemistry I

Introduction to stoichiometry, periodicity, gas laws, equilibrium, bonding, and organic chemistry with emphasis on examples of relevance to the life sciences. For students who lack the prerequisite for CHEM 1001 or who are not intending to take upper year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1001, CHEM 1101.

Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1006 [0.5 credit]**Elementary Chemistry II**

Introduction to solution chemistry, acids and bases, thermodynamics, and kinetics, with emphasis on examples of relevance to the life sciences. For students who lack the prerequisite for CHEM 1002 or who are not intending to take upper year chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1002.

Prerequisite(s): CHEM 1001 or CHEM 1005.

Lectures and tutorial four hours a week, laboratory three hours every other week.

CHEM 1007 [0.5 credit]**Chemistry of Art and Artifacts**

The chemistry of arts and artifacts created throughout the ages (Paleolithic, Neolithic, Bronze, Iron, Middle and Modern) will be examined. Basic chemical principles will be explored and reviewed when required. Students in Science programs may use this course only as a free elective.

Lectures three hours a week.

CHEM 1101 [0.5 credit]**Chemistry for Engineering Students**

Topics include stoichiometry, atomic and molecular structure, thermodynamics and chemical equilibrium, acid-base chemistry, carbon dioxide in water, alkalinity, precipitation, electrochemistry, kinetics and basic organic chemistry. Laboratory component emphasizes techniques and methods of basic experimental chemistry.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 1000 (no longer offered), CHEM 1001, and CHEM 1005.

Prerequisite(s): Ontario 4U/M in Chemistry or equivalent.

Lectures three hours a week, laboratory three hours every other week.

CHEM 2103 [0.5 credit]**Physical Chemistry I**

Basic principles of thermodynamics. Development of the laws of thermodynamics, enthalpy, entropy and free energy, and their applications to phase equilibria, electrochemistry, and kinetics. Brief introduction to quantum mechanics.

Includes: Experiential Learning Activity

Precludes additional credit for BIOC 2300, CHEM 2101 (no longer offered) and CHEM 2102 (no longer offered).

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002, MATH 1004, MATH 1107, PHYS 1007 and PHYS 1008 or PHYS 1003 and PHYS 1004.

Lectures three hours a week, problems one hour a week, laboratory three hours a week.

CHEM 2203 [0.5 credit]**Organic Chemistry I**

Structure, organization, and scope of organic chemistry including molecular structures of well-known and important organic chemicals, types of chemical reactions, and spectroscopic methods used in identification. Training in the handling and purification of organic compounds, organic chemical reactions, and the use of infrared spectroscopy.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 2207.

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002.

Lectures three hours a week and laboratory three hours a week.

CHEM 2204 [0.5 credit]**Organic Chemistry II**

Further discussion of chemical bonding in organic compounds, nomenclature, stereochemistry, and a systematic coverage of the chemical reactions of organic functional groups. Laboratory experience in organic chemical reactions, use of infrared spectroscopy and other techniques to determine the structure of unknown organic compounds.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 2208 and CHEM 2206.

Prerequisite(s): CHEM 2203.

Lectures three hours a week and laboratory three hours a week.

CHEM 2207 [0.5 credit]**Introduction to Organic Chemistry I**

Structure, organization, and scope of organic chemistry, including molecular structures of well-known and important organic chemicals, types of chemical reactions, and spectroscopic methods used in identification.

Precludes additional credit for CHEM 2203.

Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002.

Lectures three hours a week.

CHEM 2208 [0.5 credit]**Introduction to Organic Chemistry II**

Further discussion of the chemical bonding in organic compounds, nomenclature, stereochemistry, and a systematic coverage of chemical reactions of the organic functional groups.

Precludes additional credit for CHEM 2204 and CHEM 2206.

Prerequisite(s): CHEM 2207 or CHEM 2203.

Lectures three hours a week.

CHEM 2302 [0.5 credit]**Analytical Chemistry I**

Introduction to quality assurance measures, calibration strategies and the fundamentals of solution-based analytical measurement processes. Qualitative and quantitative analysis using potentiometric and electrolysis techniques including ion selective electrodes, coulometry, amperometry and voltammetry. Redox, acid/base and EDTA titrations in the context of various buffer systems. Includes: Experiential Learning Activity
Precludes additional credit for CHEM 2300.
Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002 or CHEM 1101 and (MATH 1007 or MATH 1004).
Lectures three hours a week, laboratory three hours a week.

CHEM 2303 [0.5 credit]**Analytical Chemistry II**

Spectrophotometric analysis using Uv-Vis, fluorescence and FTIR instrumentation. Modern separation methods including CE, GC and LC. Recent techniques and applications using mass spectrometry. Applications of all of the above to real-world analysis including the advancement of environmental, biochemistry and health-related research. Includes: Experiential Learning Activity
Precludes additional credit for CHEM 2300 and CHEM 2301.
Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002, or CHEM 1101, and (MATH 1007 or MATH 1004).
Lectures three hours a week, laboratory three hours a week.

CHEM 2400 [0.5 credit]**Independent Research I**

Students carry out a laboratory research project under the supervision of a faculty member from the Department of Chemistry. A research report must be submitted by the last day of classes for evaluation by the Chair and Faculty supervisor. Includes: Experiential Learning Activity
Prerequisite(s): restricted to Honours students having second-year standing in a Chemistry program with an overall CGPA of 10.0 or higher, and approval of the Chair and a Faculty supervisor.
Laboratory research for at least three hours a week over two terms.

CHEM 2501 [0.5 credit]**Introduction to Inorganic and Bioinorganic Chemistry**

The basic concepts of inorganic chemistry, including the origins of elemental properties, simple theories of bonding, intermolecular forces, main group and transition metal chemistry, coordination chemistry. Inorganic ions in biochemistry, including ion transport and storage, oxygen carriers and hydrolases, redox proteins. Precludes additional credit for CHEM 3506.
Prerequisite(s): CHEM 1006 with a minimum grade of B-, or CHEM 1002.
Lectures three hours a week, tutorial one hour a week.

CHEM 2800 [0.5 credit]**Foundations for Environmental Chemistry**

A basis of chemistry needed to understand the environment: composition of the atmosphere and natural waters; equilibrium; surface properties; kinetics and spectroscopy; physical and chemical properties of chemicals in the environment. Limited enrolment course. Priority is given to students in Environmental Science/Engineering. Includes: Experiential Learning Activity
Prerequisite(s): CHEM 1006 with a minimum grade of B- or CHEM 1002, or CHEM 1101, (MATH 1007 or MATH 1004).
Lectures three hours a week, laboratory three hours a week.

CHEM 3100 [0.5 credit]**Physical Chemistry II**

Further development of thermodynamic equations and their applications to mass changes, chemical potential, chemical equilibria, transport properties and advanced phase equilibria. Use of partial differentials and development of Maxwell's relations will also be covered. Includes: Experiential Learning Activity
Precludes additional credit for CHEM 2102.
Prerequisite(s): CHEM 2103 or BIOC 2300, and MATH 1005 or MATH 2007.
Lectures three hours a week, problems one hour a week, laboratory three hours a week.

CHEM 3101 [0.5 credit]**Quantum Chemistry**

Classical equations of motion, harmonic oscillator, diatomic and polyatomic molecules, molecular mechanics, quantum mechanics, Schrödinger equation and wave functions, vibrational spectra, hydrogen atom, quantum numbers, electronic spectra, bonding in small molecules. Includes: Experiential Learning Activity
Prerequisite(s): CHEM 2103, MATH 2007 and MATH 2008.
Lectures three hours a week, tutorial one hour per week.

CHEM 3102 [0.5 credit]**Methods of Computational Chemistry**

Molecular orbital theory of organic and inorganic chemistry. Applications of computational chemistry to chemical bonding, aromaticity, molecular spectra. Semi-empirical and ab initio electronic structure theory. Comparison of theoretical methods used to obtain molecular properties. Introduction to statistical thermodynamics.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 3101 or PHYS 3701.

Lectures and problems three hours a week.

CHEM 3106 [0.5 credit]**Computational Chemistry Methods Laboratory**

Industry-standard quantum chemistry software is used for Hartree-Fock, density functional, and post Hartree-Fock correlation calculations. Results are applied to problems in molecular structure, thermodynamics, vibrational spectroscopy, and kinetics. The UNIX operating system, Bourne-shell programming, and Python scripting are also introduced.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 3102 (may be taken concurrently).

Laboratory three hours a week.

CHEM 3107 [0.5 credit]**Experimental Methods in Nanoscience**

Thin film production and characterization, scanning electron microscopy, synthesis of metal nanoparticles and particle size determination, computational modeling of nanostructures.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 3100.

Laboratory four hours a week.

CHEM 3201 [0.5 credit]**Advanced Organic Chemistry I**

Instrumental methods for determining organic structures. Selected organic reactions with emphasis on mechanisms and reactive intermediates.

Prerequisite(s): CHEM 2204 or CHEM 2206 or CHEM 2208.

Lectures three hours a week, tutorial one and a half hours per week.

CHEM 3202 [0.5 credit]**Advanced Organic Chemistry II**

Continued mechanistic survey of additional organic reactions with emphasis on synthetic usefulness and stereochemistry. Interspersed with selected topics such as instrumental methods, photochemistry, literature of organic chemistry, natural and synthetic polymers, heterocycles, terpenes and alkaloids.

Prerequisite(s): CHEM 3201 or equivalent.

Lectures three hours a week, tutorial one and a half hours per week.

CHEM 3205 [0.5 credit]**Experimental Organic Chemistry**

A laboratory-based course including advanced concepts and techniques in organic synthesis, structure determination, and the rates and mechanisms of reactions. Students are responsible for literature surveys, acquisition of theoretical background, and design of experimental procedures.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 2204 or CHEM 2206 and CHEM 3201.

Laboratory four hours a week.

CHEM 3305 [0.5 credit]**Advanced Analytical Chemistry Laboratory**

Advanced instrumentally based techniques of analysis. Emphasis on identification and quantitation of low-level contaminants in environmental matrices using chromatographic and spectroscopic methods, including sampling, cleanup, measurement and reporting of results.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 2302 or CHEM 2303.

Laboratory four hours a week.

CHEM 3400 [0.5 credit]**Independent Research II**

Students carry out a laboratory research project supervised by a Chemistry faculty member. A research report must be submitted by the last day of classes for evaluation by the Chair and Faculty supervisor; expectations of student performance and evaluation exceed that of CHEM 2400.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to Honours students having third-year standing in a Chemistry program with an overall CGPA of 10.0 or higher, and approval of the Chair and a Faculty supervisor.

Laboratory research for at least three hours a week over two terms.

CHEM 3401 [0.5 credit]**Physical Aspects of Biochemistry**

Chemistry, structure and function of nucleic acids, proteins, carbohydrates, and lipids. Thermodynamics of biological systems, chemical mechanisms and organic transformations. Intended for Chemistry Majors.

Precludes additional credit for BIOC 2200, BIOL 2200, and BIOC 3101.

Prerequisite(s): CHEM 2103 and CHEM 2204.

Lectures three hours a week.

CHEM 3503 [0.5 credit]**Inorganic Chemistry I**

Symmetry, identification of Raman and infrared active vibrations, symmetry-adapted molecular orbital theory of polyatomic molecules, electron deficient bonding, bonding in coordination complexes, solid state bonding, ionic lattices. Laboratory will introduce the student to a range of synthetic techniques and physical methods of characterization.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 3507.

Prerequisite(s): CHEM 2501.

Lectures three hours a week, tutorial one hour a week and laboratory four hours a week.

CHEM 3504 [0.5 credit]**Inorganic Chemistry II**

Physical properties of coordination complexes, ligand substitutions and electron transfer reaction mechanisms, organometallic chemistry: bonding, nomenclature and catalysis. Laboratory will introduce the student to a range of synthetic techniques and physical methods of characterization.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 3508.

Prerequisite(s): CHEM 3503.

Lectures three hours a week, tutorial one hour a week and laboratory four hours a week.

CHEM 3507 [0.5 credit]**General Inorganic Chemistry I**

Symmetry, identification of Raman and infrared active vibrations, symmetry-adapted molecular orbital theory of polyatomic molecules, electron deficient bonding, bonding in coordination complexes, solid state bonding, ionic lattices.

Precludes additional credit for CHEM 3503.

Prerequisite(s): CHEM 2501.

Lectures three hours a week, tutorial one hour a week.

CHEM 3508 [0.5 credit]**General Inorganic Chemistry II**

Physical properties of coordination complexes, ligand substitutions and electron transfer reaction mechanisms, organometallic chemistry: bonding, nomenclature and catalysis.

Precludes additional credit for CHEM 3504.

Prerequisite(s): CHEM 3503 or CHEM 3507.

Lectures three hours a week, tutorial one hour a week.

CHEM 3600 [0.5 credit]**Introduction to Nanotechnology**

Nanoscale units, bulk vs. nanoproperties, electrons, atoms and ions, metals, band structure, electrical conduction, biosystems, molecular devices, quantum mechanics and optics, tools for measuring nanostructures. Production of nanostructures: self assembly, nanoscale crystal growth, polymerization. Applications to sensors, magnets, electronics, drug delivery. Toxicology of nanostructures.

Prerequisite(s): CHEM 3100.

Lectures three hours a week.

CHEM 3700 [0.5 credit]**Industrial Applications of Chemistry**

Uses of chemistry in a number of industries: fertilizers, electrochemical, metallurgical, petrochemical, pulp and paper, plastics, pharmaceutical. Interaction of chemistry with economic, political, engineering, environmental, health, legal considerations. Guest lecturers.

Prerequisite(s): (BIOC 2300 or CHEM 2103) and one of CHEM 2207 or CHEM 2203.

Lecture three hours a week.

CHEM 3800 [0.5 credit]**The Chemistry of Environmental Pollutants**

Inorganic and organic environmental pollutants: their toxicology, production, use pattern and known effects on the environment. Aspects of risk and regulation. Chemistry involved in water and sewage treatment.

Prerequisite(s): CHEM 2207 or CHEM 2203 or CHEM 2800.

Lectures three hours a week.

CHEM 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

CHEM 4100 [0.5 credit]**Advanced Topics in Physical Chemistry I**

Principles of Group Theory as applied to Chemistry. Point groups, character tables, symmetry orbitals, molecular orbitals, aromaticity, allowed and forbidden reactions, sandwich complexes. Selection rules in spectroscopy, molecular vibrations.

Prerequisite(s): CHEM 3102.

CHEM 4102 [0.5 credit]**Advanced Topics in Physical Chemistry II**

Statistical thermodynamics, energy states, equilibrium, partition functions for diatomic molecules. Chemical kinetics: rate laws, solution of differential equations, transition state theory, bimolecular reactions in gases and in solution, chain reactions, catalysis, atmospheric chemical reactions and photochemistry.

Prerequisite(s): CHEM 3102.

Lectures and seminars three hours a week.

CHEM 4103 [0.5 credit]**Surface Chemistry and Nanostructures**

Surface structure, thermodynamics and kinetics, specifically regarding adsorption/desorption and high vacuum models. Nanoscale structures and their formation, reactivity and characterization. Thin films, carbon nanotubes, self-assembled monolayers and supramolecular aggregates.

Prerequisite(s): CHEM 3600 and CHEM 3107.

Also offered at the graduate level, with different requirements, as CHEM 5108, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4104 [0.5 credit]**Physical Methods of Nanotechnology**

An overview of methods used in nanotechnology. Principles of scanning probe techniques ranging from surface physics to biology. State of the art methods to create nanostructures for future applications in areas such as nanolithography, nanoelectronics, nano-optics, data storage and bio-analytical nanosystems.

Prerequisite(s): CHEM 3600 and CHEM 3107.

Lectures three hours a week.

CHEM 4201 [0.5 credit]**Macromolecular Nanotechnology**

Biological and synthetic macromolecules related to nanoscale phenomena. Challenges and opportunities associated with natural and synthetic polymers on the nanoscale. Molecular recognition, self-assembled nanostructures, scaffolds and templates, functional nanomaterials, amphiphilic architectures, nanocomposites, and nanomachines. Applications to sensing, biomaterials, drug delivery, and polymer based devices.

Prerequisite(s): CHEM 3600 or permission of the department.

Also offered at the graduate level, with different requirements, as CHEM 5207, CHEM 5208, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4202 [0.5 credit]**Advanced Topics in Organic Chemistry I**

Topics include 2-dimensional ^1H and ^{13}C NMR spectroscopy and structure determination of complex organic molecules.

Prerequisite(s): CHEM 3201.

Also offered at the graduate level, with different requirements, as CHEM 5407, for which additional credit is precluded.

CHEM 4203 [0.5 credit]**Synthetic Organic Chemistry**

The application of reactions to the synthesis of organic molecules. Emphasis on design of synthetic sequences, new reagents, and stereoselectivity. Topics include advanced methods for synthesis and reactions of alkenes, carbonyls, and enolates, functional group interconversion, oxidation and reduction, protecting groups, rearrangements, and metal-catalyzed cross-coupling.

Prerequisite(s): CHEM 3201 and CHEM 3202.

Lectures and seminars three hours a week.

CHEM 4204 [0.5 credit]**Organic Polymer Chemistry**

Introduction to basic principles of polymer chemistry, industrial and synthetic polymers, different types of polymerization and polymer characterization. Study of commodity plastics, engineering thermoplastics, and specialty polymers, with emphasis on their synthesis.

Prerequisite(s): CHEM 3201 or equivalent.

Also offered at the graduate level, with different requirements, as CHEM 5406, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4205 [0.5 credit]**Reactivity and Mechanism in Organic Chemistry**

The application of frontier molecular orbital theory (HOMO-LUMO interactions) to organic reactions, including thermal and photochemical cycloadditions of pi-systems (including 1,3-dipoles) and rearrangements. Reactions of radicals and carbenes; conformational analysis, stereochemical effects, and methods for the determination of reaction mechanisms.

Prerequisite(s): CHEM 3202 and CHEM 3503 (may be taken concurrently).

Lectures and seminars three hours a week.

CHEM 4206 [0.5 credit]**Natural Products Chemistry**

A survey of the major classes of natural products with respect to their structural elucidation, synthesis, biosynthesis and bioactivity, with emphasis on compounds that have medicinal importance.

Prerequisite(s): CHEM 3201 and CHEM 3202.

Lectures and seminars three hours a week.

CHEM 4301 [0.5 credit]**Advanced Topics in Analytical Chemistry I**

Analytical chemistry of trace and ultratrace elements/compounds. Special requirements for quantitative determination by various instrumental methods. Control of contamination and blanks. Analytical method development to improve selectivity, sensitivity and detection limit. Strength and limitations of each instrument. Optimization of all operating parameters.

Prerequisite(s): CHEM 2103 and one of CHEM 2302 or CHEM 2303.

Also offered at the graduate level, with different requirements, as CHEM 5607, for which additional credit is precluded.

Lectures and seminars three hours a week.

CHEM 4302 [0.5 credit]**Advanced Topics in Analytical Chemistry II**

Solutions and separations in analytical chemistry. Stability of aqueous solutions of standards and samples. Complex formation, multi-step and competing equilibria and their application to the design of selective methods of separation and determination. Electroanalytical techniques. Electroanalytical chemistry of aqueous solutions. Phase equilibria and solvent extraction. Prerequisite(s): CHEM 2103 and one of CHEM 2302 or CHEM 2303.

Lectures and seminars three hours a week.

CHEM 4304 [0.5 credit]**Advanced Applications In Mass Spectrometry**

Detailed breakdown of the physical, electrical and chemical operation of mass spectrometers. Applications in MS ranging from the analysis of small molecules to large biological macromolecules. Descriptions of the use of mass spectrometry in industry as well as commercial opportunities in the field.

Prerequisite(s): CHEM 2103 or BIOC 2300, and one of CHEM 2302 or CHEM 2303.

Also offered at the graduate level, with different requirements, as CHEM 5109, for which additional credit is precluded.

Lectures and seminars three hours a week.

CHEM 4305 [0.5 credit]**Environmental Chemistry and Toxicology**

Overview of environmental chemistry and toxicology principles including chemical sources, fate, and effects in the environment. Examining organic reactions occurring in abiotic environments and biological systems, and studying aspects of toxicant disposition and biotransformation. Emphasis on contemporary problems in human health and the environment.

Prerequisite(s): CHEM 2203 or CHEM 2207, and CHEM 2800 or CHEM 2103, or BIOC 3101 or permission of the department.

Also offered at the graduate level, with different requirements, as CHEM 5606, for which additional credit is precluded.

Lectures three hours a week.

CHEM 4406 [0.5 credit]**Pharmaceutical Drug Design**

Important elements of rational drug design. Ligand-receptor interactions, structure-activity relationships, molecular modeling of pharmacophores, structure and mechanism-based approaches to drug design. Enzyme inhibition in chemotherapy and design of anti-viral drugs. Includes: Experiential Learning Activity

Prerequisite(s): CHEM 2103 and (CHEM 2203 or CHEM 2207), BIOC 3101 and (BIOC 3102 or BIOC 3008). Lectures and laboratory five hours a week.

CHEM 4407 [0.5 credit]**Polymer Modeling**

Polymer architectures; Flexible and rigid rod polymers; Rotational isomeric states (RIS); Molecular mechanics, Ramachandran Map, Helix parameters; internal and external parameters; regular and random coil structures; molecular dynamics; calculation of end-to-end distance, NMR chemical shifts; conformational entropy and properties.

Prerequisite(s): MATH 1107 and CHEM 2204 or permission of the department.

Lectures three hours per week.

CHEM 4502 [0.5 credit]**Radiochemistry**

A study of nuclear stability and decay; chemical studies of nuclear phenomena. Applications of radioactivity.

Prerequisite(s): CHEM 2302, CHEM 2303, and CHEM 3100, or permission of the Department.

Also offered at the graduate level, with different requirements, as CHEM 5905, for which additional credit is precluded.

Lectures and seminars three hours a week.

CHEM 4503 [0.5 credit]**Advanced Topics in Inorganic Chemistry I**

A quantitative basis for ligand field theory; unreal and real wavefunctions of d-orbitals; derivation of the energies of d-orbitals using variational principle, secular determinants, and ligand field operators; the effect of ligand field on free ion term symbols, wavefunction descriptions of terms symbols; applications.

Prerequisite(s): CHEM 3504 and CHEM 3101.

Lectures three hours a week.

CHEM 4504 [0.5 credit]**Advanced Topics in Inorganic Chemistry II**

Reactivity of inorganic coordination compounds.

Thermodynamic and kinetic factors affecting reactivity. Industrial and biochemical processes catalyzed by metal coordination compounds. Experimental methodologies, data analysis and rate law evaluation used to obtain reaction mechanisms leading to improved methods of catalysis.

Prerequisite(s): CHEM 3504 or equivalent.

Lectures three hours a week.

CHEM 4505 [0.5 credit]**Application of Physical Methods to Electron Transfer Chemistry**

Spectroscopic techniques (i.e. UV-visible NIR, IR, EPR) and electrochemistry methods that are used to study photochemical and thermal intermolecular and intramolecular electron transfer in transition metal complexes are presented. Electron transfer theory and redox-active (non-innocent) ligands are discussed.

Prerequisite(s): CHEM 3504.

Lectures three hours a week.

CHEM 4700 [0.5 credit]**Special Topics in Chemistry**

A topic of current interest in any branch of chemistry. Only one special topics course may be presented for credit.

Prerequisite(s): permission of the Department.

CHEM 4800 [0.5 credit]**Atmospheric Chemistry**

Properties of natural atmospheric constituents; biogeochemical cycles involving gases; chemical reactions in the atmosphere; anthropogenic atmospheric pollutants (e.g., chlorofluorocarbons, sulphur and nitrogen oxides, photochemical smog sources and effects on the biosphere. Relation between the structure of molecules and their spectral and reactive properties.

Prerequisite(s): CHEM 2103 or CHEM 2800.

Lectures three hours a week.

CHEM 4907 [1.0 credit]**Honours Essay and Research Proposal**

Students conduct an independent research study using library resources, and prepare a critical review and study proposal on a topic approved by a faculty supervisor. A written report and oral poster presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 4908, FOOD 4907 and FOOD 4908.

Prerequisite(s): fourth year standing in an Honours Chemistry program and permission of the department.

CHEM 4908 [1.0 credit]**Research Project and Seminar**

Senior students in Honours Chemistry carry out a research project under the direction of one of the members of the Department. A written report and an oral presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for CHEM 4907, FOOD 4907 and FOOD 4908.

Prerequisite(s): any two of CHEM 3106, CHEM 3107, CHEM 3205, CHEM 3305 and CHEM 3504 and permission of the department.

Laboratory and associated work equivalent to at least eight hours a week for two terms.

Childhood and Youth Studies

This section presents the requirements for programs in:

- Childhood and Youth Studies B.A. Honours
- Childhood and Youth Studies B.A.

Childhood and Youth Studies**B.A. Honours (20.0 credits)****Requirements:****A. Credits Included in the Major CGPA (8.0 credits)**

1. 1.0 credits in:	1.0
CHST 1003 [1.0]	Introduction to Childhood and Youth Studies
2. 1.0 credits in:	1.0

CHST 2001 [0.5]	Experiential Learning in Childhood and Youth Studies	
CHST 2003 [0.5]	Introduction to Research Methods in Childhood and Youth Studies	
3. 1.5 credits in:		1.5
CHST 3103 [0.5]	Critical Approaches to Child Development	
CHST 3302 [0.5]	Children, Policy, and Practice	
CHST 3303 [0.5]	Children's Rights	
4. 1.0 credit from:		1.0
CHST 3000 [0.5]	Conceptualizing Adolescence in Childhood and Youth Studies	
CHST 3201 [0.5]	Children's Knowledges, Cultures, and Representations	
CHST 3202 [0.5]	Reconceptualizing Early Childhood Education and Care	
CHST 3306 [0.5]	Nature, Childhood and Youth	
5. 1.0 credit from:		1.0
CHST 3002 [0.5]	Special Topics in Child Studies	
CHST 3203 [0.5]	Youth Culture and Activism	
CHST 3304 [0.5]	Disability and Childhood: Transnational Perspectives	
CHST 4003 [0.5]	History of 'The African Child'	
CHST 4004 [0.5]	Theories of Inclusion in Childhood and Youth Education	
HIST 3115 [0.5]	Childhood and Youth in History	
SOCI 3300 [0.5]	Studies in the Sociology of Education	
6. 1.0 credit from:		1.0
CHST 3204 [0.5]	Literary Representations of Childhood and Youth	
CHST 3205 [0.5]	Race, Childhood, and Youth	
CHST 3305 [0.5]	Childhood and Youth in Indigenous Contexts	
CHST 4001 [0.5]	Advanced Topics in Child Studies	
CHST 4102 [0.5]	Queer and Trans Youth	
CHST 4101 [0.5]	Children, Youth, and Popular Culture	
SOCI 3045 [0.5]	Children and Childhood in a Globalized World	
7. 1.5 credits from:		1.5
CHST 3101 [0.5]	Research Seminar	
& CHST 4908 [1.0]	Honours Research Project	
Or		
	1.5 credits CHST courses at the 3000 or 4000 level, which may include:	
CHST 3904 [1.0]	Service-Learning in Community Settings	
B. Credits Not Included in the Major CGPA (12.0 credits)		
8. 8.0 credits in electives not in CHST		8.0
9. 4.0 credits in free electives		4.0
Total Credits		20.0

Notes:

1. Registration in the Honours Research Project requires a Major CGPA of at least 10.0.

Childhood and Youth Studies B.A. (15.0 credits)

Requirements

A. Credits Included in the Major CGPA (6.0 credits)

1. 1.0 credits in:		1.0
CHST 1003 [1.0]	Introduction to Childhood and Youth Studies	
2. 1.0 credit in:		1.0
CHST 2001 [0.5]	Experiential Learning in Childhood and Youth Studies	
CHST 2003 [0.5]	Introduction to Research Methods in Childhood and Youth Studies	
3. 1.5 credits in:		1.5
CHST 3103 [0.5]	Critical Approaches to Child Development	
CHST 3302 [0.5]	Children, Policy, and Practice	
CHST 3303 [0.5]	Children's Rights	
4. 1.0 credit from:		1.0
CHST 3000 [0.5]	Conceptualizing Adolescence in Childhood and Youth Studies	
CHST 3201 [0.5]	Children's Knowledges, Cultures, and Representations	
CHST 3202 [0.5]	Reconceptualizing Early Childhood Education and Care	
CHST 3306 [0.5]	Nature, Childhood and Youth	
5. 1.5 credit from:		1.5
CHST 3002 [0.5]	Special Topics in Child Studies	
CHST 3203 [0.5]	Youth Culture and Activism	
CHST 3204 [0.5]	Literary Representations of Childhood and Youth	
CHST 3205 [0.5]	Race, Childhood, and Youth	
CHST 3304 [0.5]	Disability and Childhood: Transnational Perspectives	
CHST 3305 [0.5]	Childhood and Youth in Indigenous Contexts	
CHST 3904 [1.0]	Service-Learning in Community Settings	
HIST 3115 [0.5]	Childhood and Youth in History	
SOCI 3045 [0.5]	Children and Childhood in a Globalized World	
SOCI 3300 [0.5]	Studies in the Sociology of Education	

B. Credits Not Included in the Major CGPA (9.0 credits)

6. 6.0 credits in electives not in CHST	6.0
7. 3.0 credits in free electives	3.0
Total Credits	15.0

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM

and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial

Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Childhood and Youth Studies (CHST) Courses

CHST 1003 [1.0 credit]

Introduction to Childhood and Youth Studies

An introduction to multiple approaches to studying childhood and youth through a diverse range of historical periods and cultural contexts. Students will apply an interdisciplinary lens to explore the ways that children and youth have been discussed, researched, and understood. Precludes additional credit for CHST 1000 (no longer offered), CHST 1002 (no longer offered). Lecture and discussion groups three hours a week.

CHST 2001 [0.5 credit]

Experiential Learning in Childhood and Youth Studies

An examination of the philosophies, purposes, methods, techniques, and issues of childhood and youth studies through engagement with children and youth in campus and community settings. Students will make connections to theoretical and curriculum frameworks and current debates and perspectives.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in Childhood and Youth Studies.

Lecture and discussion three hours a week.

CHST 2003 [0.5 credit]**Introduction to Research Methods in Childhood and Youth Studies**

An introduction to the foundations of research involving children and youth. Students will learn research paradigms and strategies for designing and conducting research with children and young people. Ethical considerations and the involvement of children as co-researchers will be emphasized.

Precludes additional credit for CHST 2000 (no longer offered).

Prerequisite(s): second-year standing in Childhood and Youth Studies.

Lectures and discussion groups three hours a week.

CHST 2011 [0.5 credit]**Children's Literature**

Introduction to the critical study of children's literature.

Also listed as ENGL 2011.

Precludes additional credit for ENGL 2006 (no longer offered).

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

CHST 3000 [0.5 credit]**Conceptualizing Adolescence in Childhood and Youth Studies**

A comprehensive interdisciplinary overview of key issues, research, and theoretical developments in the study of childhood and youth. Students will explore the different and often conflicting conceptualizations of adolescence and examine youth theories and their implications.

Prerequisite(s): Third year standing in Childhood and Youth Studies.

Lectures three hours a week.

CHST 3002 [0.5 credit]**Special Topics in Child Studies**

Analysis of selected topics relevant to theory, research, and practice involving children and youth. The choice of topics will vary from year to year. Students should consult with the Institute regarding the topic offered.

Prerequisite(s): Third-year standing in Childhood and Youth Studies, or permission of the department.

Lectures three hours a week.

CHST 3101 [0.5 credit]**Research Seminar**

This seminar is designed for students who wish to complete an Honours research project in their 4th year. Students will select a topic of study, investigate methodological and ethical considerations, and implement the key steps involved in designing rigorous research projects in diverse settings.

Precludes additional credit for CHST 3100 (no longer offered).

Prerequisite(s): CHST 2003 or CHST 2000 (no longer offered), and third-year standing in Childhood and Youth Studies.

Seminar three hours a week.

CHST 3103 [0.5 credit]**Critical Approaches to Child Development**

A critical examination of philosophical, ideological, and discursive perspectives on childhood and youth. Students will analyze normative constructs reproduced in developmental discourses and research, particularly concerning gender, racism, disability, and oppressive practices.

Precludes additional credit for CHST 3001 (no longer offered).

Prerequisite(s): Third-year standing in Childhood and Youth Studies.

Lecture three hours a week.

CHST 3201 [0.5 credit]**Children's Knowledges, Cultures, and Representations**

An analysis of the ways children construct social relations through cultures and systems of representations. Students will investigate how children's knowledges and identities are constructed through their relationships with the world and develop theoretical and practical approaches for working with children from diverse cultures.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Seminar three hours a week.

CHST 3202 [0.5 credit]**Reconceptualizing Early Childhood Education and Care**

A study of historical, contemporary, global, and local conversations about the professional field of early childhood education and care and its diverse practices and contexts. Topics may include reconciliation, anti-racist pedagogies, asset-based practices, inclusiveness, caring in context, and critical reflection.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Lecture and discussion groups three hours a week.

CHST 3203 [0.5 credit]**Youth Culture and Activism**

An exploration of youth cultures and participation in local, national, and global contexts. Students will examine youth engagement and advocacy, including definitions of citizenship, theories of resistance, the construction of "youth" as a social category, and the impact of technology and social media.

Prerequisite(s): Third-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 3204 [0.5 credit]**Literary Representations of Childhood and Youth**

An examination of the ways in which childhood, children, and youth have been represented in creative literature (fiction, poetry, drama, and/or creative nonfiction).

Also listed as ENGL 3204.

Prerequisite(s): third-year standing, or permission of the department.

Seminar three hours a week.

CHST 3205 [0.5 credit]**Race, Childhood, and Youth**

An examination of historical and contemporary issues, debates, and methodologies pertaining to the studies of race, ethnicities, and racialization in childhood and youth studies. Students will also theorize the intersectionality of race, racism, racialization, racial and ethnic formations, nationalism, and colonialism in a contemporary context.

Prerequisite(s): third-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 3302 [0.5 credit]**Children, Policy, and Practice**

An introduction to the concepts of policy and practice and how these are influenced by history, economy, geography, and culture. Topics may include provincial, national, and international economic, social, and educational policies concerning children and youth.

Precludes additional credit for CHST 4000 (no longer offered).

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Lecture three hours a week.

CHST 3303 [0.5 credit]**Children's Rights**

This course examines children's rights from a range of historical, cultural, and global perspectives. Topics may include the rights for Indigenous children, children with disabilities, female, trans and queer children, children in armed conflict and refugees in Canada and transnational contexts.

Also listed as HUMR 3303.

Precludes additional credit for CHST 3901 (no longer offered).

Prerequisite(s): third-year standing in Childhood and Youth Studies.

Lecture three hours a week.

CHST 3304 [0.5 credit]**Disability and Childhood: Transnational Perspectives**

Drawing on theory and research in disabled children's childhood studies, sociology of childhood, disability studies, and girlhood studies, this course examines the discursive and material constructions of disabled youth and childhood in transnational contexts in relation to emerging neo-colonial, neo-imperialist, and neo-liberal ideologies.

Also listed as DBST 3304.

Prerequisite(s): third-year standing in Childhood and Youth Studies or Disability Studies, or permission of the department.

Lecture three hours a week.

CHST 3305 [0.5 credit]**Childhood and Youth in Indigenous Contexts**

An introduction to indigenous perspectives and contexts, both historical and contemporary, in relation to practice with Indigenous children, youth, families, and communities. Students will explore critical theory and necessary protocols for respectful entry into child and youth care practice within Indigenous contexts.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Childhood and Youth Studies or Indigenous Studies, or permission of the department.

Seminar three hours a week.

CHST 3306 [0.5 credit]**Nature, Childhood and Youth**

In this course, students will learn about the different ways in which human-nature relationships have been conceptualized in the interdisciplinary literature; the evidence base pointing to the power of nature as teacher of foundational life-skills; and current approaches to nature-based learning.

Precludes additional credit for CHST 3002 taken in Fall 2021, Winter or Summer 2022.

Prerequisite(s): Third-year standing in Childhood and Youth Studies, or permission of the department.

Lectures three hours a week.

CHST 3904 [1.0 credit]**Service-Learning in Community Settings**

Students will learn to apply their knowledge pertaining to children and youth to a policy- or practice-oriented work environment. Students will complete a term paper and other assignments documenting gains in experiential knowledge. Graded SAT/UNS.

Includes: Experiential Learning Activity

Prerequisite(s): students with third- or fourth-year standing in Childhood and Youth Studies may apply to the Undergraduate Advisor for permission.

Field placement six hours per week in a community setting, and regular class forum.

CHST 4001 [0.5 credit]**Advanced Topics in Child Studies**

In-depth analysis of theoretical, empirical, and applied topics related to children and youth in Canada and/or internationally. Topics may include poverty and social inequality, child and youth health, social media and social change. This course is repeatable when the topic changes.

Prerequisite(s): fourth-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 4003 [0.5 credit]**History of 'The African Child'**

Students will analyze the history of the figure of 'the African child' using a range of visual, sources from colonial officials, anthropologists, historians, advertisers, charity and development workers, and African children themselves.

Includes: Experiential Learning Activity

Also listed as AFRI 4003.

Precludes additional credit for CHST 4001 if taken in 2014-15.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

CHST 4004 [0.5 credit]**Theories of Inclusion in Childhood and Youth Education**

An examination of the ways that educational discourses construct and perpetuate marginalization of disadvantaged individuals across historical, political, and educational contexts. Students will explore inclusive and exclusive approaches to education and care and how these discursive and material conditions shape the learning experiences of children.

Prerequisite(s): third-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 4101 [0.5 credit]**Children, Youth, and Popular Culture**

A critical examination how popular culture, including consumer culture and digital media, mediates the identities, aspirations, and experiences of children and youth. Students will engage in critical dialogue about media culture and ideology and use cultural production to explore counter-narratives to problematic media representations.

Prerequisite(s): fourth-year standing in Childhood and Youth Studies, or permission of the department.

Seminar three hours a week.

CHST 4102 [0.5 credit]**Queer and Trans Youth**

An examination of the ways that queer and trans youth have been conceptualized in research, media, literature, policy, and education. A range of multimedia sources will be used to explore the ways queer and trans youth are using language to render themselves intelligible.

Prerequisite(s): fourth-year standing in Childhood and Youth Studies or Women's and Gender Studies, or permission of the department.

Seminar three hours a week.

CHST 4900 [0.5 credit]**Independent Study**

A reading or research course for students who wish to investigate a particular topic of interest within Childhood and Youth Studies. Students may not take more than one credit of Independent Study in their total program.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in Childhood and Youth Studies and IIS Co-Director approval.

CHST 4908 [1.0 credit]**Honours Research Project**

Interdisciplinary research project for students in the Honours Research Project stream. Projects will be completed under the supervision of a CHST faculty member. Students must contact the CHST Program Advisor to request approval to register in this course.

Includes: Experiential Learning Activity

Prerequisite(s): CHST 3101, fourth-year standing in Childhood and Youth Studies with a Major CGPA of 10.0 or higher, and permission of the CHST Program Advisor.

Cognitive Science

This section presents the requirements for programs in:

- Cognitive Science with Concentration in Philosophical and Conceptual Issues Bachelor of Cognitive Science Honours
- Cognitive Science with Concentration in Language and Linguistics Bachelor of Cognitive Science Honours
- Cognitive Science with Concentration in the Biological Foundations of Cognition Bachelor of Cognitive Science Honours
- Cognitive Science with Concentration in Cognition and Psychology Bachelor of Cognitive Science Honours
- Cognitive Science with Concentration in Cognition and Computation Bachelor of Cognitive Science Honours
- Cognitive Science Bachelor of Cognitive Science
- Post-Baccalaureate Diploma in Cognitive Science

Program Requirements**Cognitive Science with Concentration in Philosophical and Conceptual Issues****Bachelor of Cognitive Science Honours (20.0 credits)****A. Credits Included in the Major CGPA (15.5 credits)**

1. 1.0 credit from:	1.0
CGSC 1001 [0.5] Mysteries of the Mind	

FYSM 1607 [1.0]	Cognitive Science: Thinking and Knowing	
PHIL 1301 [0.5]	Mind, World, and Knowledge	
2. 1.0 credit in:		1.0
CGSC 2001 [0.5]	Theories in Cognitive Science	
CGSC 2002 [0.5]	Methods in Cognitive Science	
3. 1.0 credit in:		1.0
CGSC at the 3000-level or above		
4. 0.5 credit from:		0.5
CGSC 1005 [0.5]	Computational Methods in Cognitive Science	
COMP 1005 [0.5]	Introduction to Computer Science I	
5. 0.5 credit in:		0.5

Post-Baccalaureate Diploma in Cognitive Science (4.0 credits)

Admission to this program requires the permission of the Department of Cognitive Science. Normally, students are required to have completed an undergraduate degree with a minimum B average or higher to be admitted. Applications will be reviewed on a case-by-case basis.

Requirements:		
1. 0.5 credit from:		0.5
CGSC 2001 [0.5]	Theories in Cognitive Science	
CGSC 2002 [0.5]	Methods in Cognitive Science	
2. 1.0 credit in:		1.0
CGSC 3601 [0.5]	Artificial Intelligence and Cognitive Science	
CGSC 3908 [0.5]	Honours Seminar in Cognitive Science	
3. 1.5 credits in CGSC at the 3000-level or above		1.5
4. 1.0 credits from:		1.0
CGSC 4908 [1.0]	Honours Thesis	
CGSC 4909 [1.0]	Honours Project	
Total Credits		4.0

Regulations

In addition to the program requirements listed in this section, students must satisfy the academic regulations of the university, and the faculty regulations for the Bachelor of Cognitive Science.

Academic Regulations and Requirements for the Bachelor of Cognitive Science Degree

The regulations presented below apply to all Bachelor of Cognitive Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.Cog.Sc. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM (one 1.0-credit FYSM or two 0.5-credit FYSMs) and can only register in a FYSM while they have first-year standing in their B.Cog.Sc. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as

a Second Language (ESLA) credit are not permitted to register in a FYSM.

Change of Program Within the B.Cog.Sc. Degree

Students may transfer to a program within the B.Cog.Sc. degree. Applicants must normally be *Eligible to Continue* (EC) in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*. Other applications for change of program will be considered on their merits; students may be admitted to the new program if they are *Eligible to Continue* (EC) or on *Academic Warning* (AW).

Applications to declare or change programs within the B.Cog.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program or into a program element or option is subject to any enrolment limitations, specific program, program element or option requirements, as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may apply to the Registrar's Office to be admitted to a minor, concentration or specialization during their first or subsequent years of study. Acceptance into a minor, concentration or specialization is subject to any specific requirements of the intended Minor, Concentration or Specialization as published in the relevant Calendar entry. Acceptance into a Concentration, or Specialization requires the student to be meeting the minimum CGPAs defined in Section 3.1.9 Changes of Program and Degree, in the *Academic Regulations of the University*.

Mention : français

Students registered in the B.Cog.Sc. may earn the notation *Mention : français* by completing part of their requirements in French and by demonstrating a knowledge of the history and culture of French Canada. The general requirements are listed below.

Students in the B.Cog.Sc. Honours program must present:

1. 1.0 credit in the French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level and 1.0 credit at the 4000-level taken in French. These credits may come from any of Philosophy, Psychology, Computer Science, Linguistics, Neuroscience, or Cognitive Science, without restriction.

Students in the B.Cog.Sc. program must present:

1. 1.0 credit in the French language;
2. 1.0 credit devoted to the history and culture of French Canada
3. 1.0 credit at the 2000- or 3000-level taken in French. This credit may come from any of Philosophy, Psychology, Computer Science, Linguistics, Neuroscience, or Cognitive Science, without restriction.

Courses taught in French (Item 3, above) may be taken at Carleton, at the University of Ottawa on the Exchange

Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on Exchange or Letter of Permission.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process

operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Cognitive Science Honours: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the Bachelor of Cognitive Science program;

2. Obtained and maintained an overall CGPA of 8.50 or higher;
3. Successfully completed CGSC 2001.

Bachelor of Cognitive Science Honours students must successfully complete three (3) work terms to obtain the Co-op designation.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Cognitive Science (B.Cog.Sci.) (Honours)
- Bachelor of Cognitive Science (B.Cog.Sci)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

The cut-off average for admission will be set annually and will normally be above the minimum requirement.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*. Advanced standing will be granted only for those subjects that are assessed as being appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option
Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Cognitive Science Honours;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and**

Procedures section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Diploma

- **Post-Baccalaureate Diploma in Cognitive Science**

Admission to this program requires the permission of the Department of Cognitive Science. Normally, students are required to have completed an undergraduate degree with a minimum B average or higher to be admitted. Applications will be reviewed on a case-by-case basis.

Cognitive Science (CGSC) Courses

CGSC 1001 [0.5 credit]

Mysteries of the Mind

Challenges faced in understanding the mind, and some of the approaches cognitive science has brought to bear on them. Topics may include the nature of knowledge, how we learn, the extent to which human thinking is rational, biases in thinking, and evolutionary influences on cognition.

Lectures three hours per week.

CGSC 1005 [0.5 credit]

Computational Methods in Cognitive Science

Introduction to computational methods, with an emphasis on programming. Topics and assignments will focus on applications in cognitive science. No prior computing experience required.

Includes: Experiential Learning Activity

Lecture three hours and tutorial one and a half hours a week.

CGSC 2001 [0.5 credit]

Theories in Cognitive Science

An integrated background of the discipline of Cognitive Science, with an historical overview (1940's onward) and examination of the extent to which the discipline has assimilated the collective knowledge of contributing disciplines (e.g., psychology, philosophy, linguistics, artificial intelligence and neuroscience).

Prerequisite(s): second-year standing and FYSM 1607 or CGSC 1001, or permission of the Department.

Lectures three hours a week.

CGSC 2002 [0.5 credit]**Methods in Cognitive Science**

Selected topics in cognitive science covered from the perspectives of psychology, computer science, linguistics, philosophy, and other related disciplines. Students may be required to complete independent research projects.

Includes: Experiential Learning Activity

Prerequisite(s): CGSC 1001 or FYSM 1607, second year standing, or permission of the Department. Restricted to students enrolled in B.Cog.Sc. programs.
Seminars and tutorials six hours per week.

CGSC 3004 [0.5 credit]**Philosophy and Cognitive Science**

An examination of the significance and role of philosophy in cognitive science. Topics may include: philosophical methods for studying the mind, prospects for naturalizing consciousness and intentionality, assessing competing models of the mind.

Prerequisite(s): CGSC 2001 and PHIL 2501, and third-year standing.

Seminar three hours per week.

CGSC 3201 [0.5 credit]**Cognitive Processes**

An examination of research findings on cognitive processes. Topics may include attention, speech perception, memory, intelligence, reasoning, learning, working memory, reading, and mathematics.

Prerequisite(s): third-year standing, and CGSC 2001 or PSYC 2700.

Seminar three hours per week.

CGSC 3301 [0.5 credit]**Language and Cognitive Science**

Issues related to language and cognitive science are examined through a detailed consideration of selected topics.

Prerequisite(s): third-year standing, and CGSC 2001.

Seminar three hours per week.

CGSC 3501 [0.5 credit]**Cognitive Neuroscience**

Issues related to the role of cognitive neuroscience research in cognitive science are examined through a detailed consideration of selected topics.

Prerequisite(s): third-year standing and CGSC 2001.

Seminar, three hours per week.

CGSC 3601 [0.5 credit]**Artificial Intelligence and Cognitive Science**

An introduction to the contribution of artificial intelligence and computer modeling of cognitive processes to cognitive science.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 4001.

Prerequisite(s): third-year standing and CGSC 2002 and (CGSC 1005 or COMP 1005). Restricted to students enrolled in B.Cog.Sc. Honours.

Seminars and labs six hours per week.

CGSC 3704 [0.5 credit]**Cognitive Science and the Digital Humanities**

Exploration of the roles of human and artificial cognition in the digital humanities. Topics may include virtual and augmented reality as applied to the humanities, cognitive issues in hypertext and hypermedia; linguistic and philosophical considerations in digital media, cognitive narratology, and artificial intelligence.

Also listed as DIGH 3704.

Prerequisite(s): CGSC 1001; CGSC 2001 or DIGH 2001; and third-year standing.

Seminar three hours per week.

CGSC 3908 [0.5 credit]**Honours Seminar in Cognitive Science**

Major theories and empirical approaches within Cognitive Science are examined through a detailed consideration of selected topics. Students are required to complete independent research projects to prepare for their fourth-year honours theses.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 3001 (no longer offered) and CGSC 3002 (no longer offered).

Prerequisite(s): third year standing, CGSC 2001 and CGSC 2002, and enrolment in B. Cog. Sc. Honours with a CGPA in the major requirements of 8.0.

Seminars and tutorials six hours per week.

CGSC 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

CGSC 4601 [0.5 credit]**Cognitive Modelling in Cognitive Science**

Introduction to the field of cognitive modelling. Different modelling systems and how to evaluate them against human data; how to create cognitive models using the ACT-R cognitive architecture.

Prerequisite(s): third year standing, CGSC 2001, and (CGSC 1005 or COMP 1005).

Also offered at the graduate level, with different requirements, as CGSC 5601, for which additional credit is precluded.

Seminar three hours per week, tutorial one and a half hours per week.

CGSC 4801 [0.5 credit]**Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest.

Normally students may not offer more than one credit of independent study in their total program (including independent study credits taken through other departments).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and permission of the Department.

CGSC 4802 [0.5 credit]

Independent Study

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally students may not offer more than one credit of independent study in their total program (including independent study credits taken through other departments).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing and permission of the Department.

CGSC 4900 [0.5 credit]

Special Topics in Cognitive Science

The topic of this course will vary from year to year. Students may register in more than one section of CGSC 4900 but may register in each section only once. Prerequisite(s): each section will have its own prerequisites and permission of the department if is required.

Seminar three hours per week.

CGSC 4908 [1.0 credit]

Honours Thesis

Interdisciplinary thesis. In developing a thesis, students must consult the Undergraduate Supervisor. Only the Undergraduate Supervisor can assign a supervisor or grant approval to register in this course. Faculty regulations governing Honours Research Essays and Honours Theses apply.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 4909.

Prerequisite(s): fourth year standing, CGSC 3908, and enrolment in B.Cog.Sc. Honours with a major CGPA of 8.0.

CGSC 4909 [1.0 credit]

Honours Project

Interdisciplinary project. Students engage in one or more group research projects.

Includes: Experiential Learning Activity

Precludes additional credit for CGSC 4908.

Prerequisite(s): 4th year standing, enrolment in B. Cog. Sc. Honours.

Seminar

Communication and Media Studies

This section presents the requirements for programs in:

- Communication and Media Studies B.Co.M.S. Honours
- Communication and Media Studies B.Co.M.S. Combined Honours
- Communication and Media Studies B.Co.M.S.
- Specialization in Global Media and Communication B.G.In.S. Honours
- Stream in Global Media and Communication B.G.In.S.
- Minor in Communication and Media Studies
- Journalism and Communication and Media Studies B.J. Combined Honours

- Communication and Media Studies B.A. Combined Honours

Program Requirements

Communication and Media Studies

B.Co.M.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits):

1. 1.0 credit from:		1.0
COMS 1001 [0.5]	Foundations in Communication and Media Studies	
COMS 1002 [0.5]	Current Issues in Communication and Media	
JOUR 1001 [0.5]	Foundations: Journalism in Context	
JOUR 1002 [0.5]	Foundations: Practicing Journalism in a Diverse Society	
2. 1.0 credit in:		1.0
COMS 2003 [0.5]	Theoretical Foundations in Communication and Media Studies	
COMS 2004 [0.5]	Introduction to Communication Research	
3. 1.5 credits in:		1.5
COMS 3001 [0.5]	Quantitative Research in Communication	
COMS 3002 [0.5]	Qualitative Research in Communication	
COMS 3500 [0.5]	Current Issues in Communication and Media Theory	
4. 2.5 credits from	the following, including at least 1.0 credit at the 3000-level:	2.5
FYSM 1217 [0.5]	Selected Topics in Communication and Media Studies	
COMS 2200 [0.5]	Big Data and Society	
COMS 2300 [0.5]	Communication as Propaganda	
COMS 2400 [0.5]	Climate Change and Communication	
COMS 2500 [0.5]	Communication and Science	
COMS 2501 [0.5]	Media Law	
COMS 2504 [0.5]	Language and Communication	
COMS 2600 [0.5]	Communication and Culture	
COMS 2700 [0.5]	Global Media and Communication	
COMS 3100 [0.5]	Introduction to Political Management	
COMS 3108 [0.5]	Media Industries and the Network Society	
COMS 3109 [0.5]	Communication, Culture and Identity	
COMS 3110 [0.5]	Comic Books and Graphic Novels	
COMS 3111 [0.5]	Racism and Digital Media	
COMS 3302 [0.5]	Political Communication	
COMS 3308 [0.5]	Critical Studies in Advertising and Consumer Culture	
COMS 3310 [0.5]	Critical Perspectives of Public Relations	
COMS 3311 [0.5]	Media and Communication in Regional Contexts	
COMS 3400 [0.5]	Ethical Controversies in Media and Communication	
COMS 3401 [0.5]	Communications Regulation in Canada	

COMS 3403 [0.5]	Communication, Technology and Culture	
COMS 3404 [0.5]	Music Industries	
COMS 3406 [0.5]	Media Audiences and Users	
COMS 3407 [0.5]	Comparative Media Studies	
COMS 3410 [0.5]	Visual Media and Communication	
COMS 3411 [0.5]	Media and Social Activism	
COMS 3412 [0.5]	Communication and Health	
COMS 3800 [0.5]	Special Topic in Communication and Media Studies	
5. 2.5 credits from:		2.5
COMS 4001 [0.5]	Sport and/as Media	
COMS 4002 [0.5]	Media Fandom	
COMS 4004 [0.5]	Communication and Discourse	
COMS 4305 [0.5]	Media and Religion	
COMS 4306 [0.5]	Media and Conflict	
COMS 4311 [0.5]	Environmental Communication	
COMS 4312 [0.5]	Crisis and Risk Communication	
COMS 4313 [0.5]	Screen Studies	
COMS 4315 [0.5]	Communication and the Built Environment	
COMS 4316 [0.5]	Indigenous Media in Global Contexts	
COMS 4317 [0.5]	Digital Media and Global Network Society	
COMS 4337 [0.5]	Communication and Public Affairs Strategies	
COMS 4401 [0.5]	Global Internet Policy and Governance	
COMS 4403 [0.5]	Digital Media Industries	
COMS 4405 [0.5]	The Networked Self	
COMS 4406 [0.5]	Open Government and Communication	
COMS 4407 [0.5]	Communication and Critical Data Studies	
COMS 4408 [0.5]	Creative Work	
COMS 4410 [0.5]	Mobile Media	
COMS 4411 [0.5]	Algorithmic Culture	
COMS 4412 [0.5]	Game Studies	
COMS 4507 [0.5]	Professional Communication Research	
COMS 4602 [0.5]	Children, Youth and Media	
COMS 4603 [0.5]	Diaspora and Communication	
COMS 4604 [0.5]	Media, Gender and Sexuality	
COMS 4605 [0.5]	Media, Race and Ethnicity	
COMS 4606 [0.5]	Global Media and Popular Culture	
COMS 4607 [0.5]	Communication and Food	
COMS 4608 [0.5]	Sound Studies	
COMS 4800 [0.5]	Special Topic in Communication and Media Studies	
COMS 4908 [1.0]	Honours Research Essay	
6. 0.5 credit from:		0.5
COMS 4501 [0.5]	Digital Media Production	
COMS 4502 [0.5]	Storytelling in the Digital Age	
COMS 4503 [0.5]	Visualizing Social Media: Hashtags, keywords, & conversations	
COMS 4504 [0.5]	Engaging the Public: Stakeholders, participation & consultation	
COMS 4505 [0.5]	Professional Writing and Speaking	

COMS 4506 [0.5] Event Management and Community Partnerships

B. Credits Not Included in the Major CGPA (11.0 credits):

7. 8.0 credits in electives not in Communication and Media Studies	8.0
8. 3.0 credits in free electives	3.0
Total Credits	20.0

Communication and Media Studies

B.Co.M.S. Combined Honours (20.0 credits)

Students already admitted to the B.Co.M.S. may register for a combined honours degree in Communication and Media Studies and any other discipline offered within the B.A. Honours degree as a Combined Honours.

A. Credits Included in the Communication Studies Major CGPA (7.0 credits)

1. 1.0 credit from:	1.0
COMS 1001 [0.5] Foundations in Communication and Media Studies	
COMS 1002 [0.5] Current Issues in Communication and Media	
JOUR 1001 [0.5] Foundations: Journalism in Context	
JOUR 1002 [0.5] Foundations: Practicing Journalism in a Diverse Society	
2. 1.0 credit in:	1.0
COMS 2003 [0.5] Theoretical Foundations in Communication and Media Studies	
COMS 2004 [0.5] Introduction to Communication Research	
3. 1.5 credits in:	1.5
COMS 3001 [0.5] Quantitative Research in Communication	
COMS 3002 [0.5] Qualitative Research in Communication	
COMS 3500 [0.5] Current Issues in Communication and Media Theory	
4. 1.5 credits from the following, including at least 0.5 credit at the 3000-level:	1.5
FYSM 1217 [0.5] Selected Topics in Communication and Media Studies	
COMS 2200 [0.5] Big Data and Society	
COMS 2300 [0.5] Communication as Propaganda

COMS 4908 [1.0]	Honours Research Essay

B. Additional Requirements (13.0 credits) 13.0

6. The requirements from the other discipline must be satisfied

7. Sufficient credits in free electives to total 20.0 credits for the program.

Total Credits 20.0

Communication and Media Studies

B.Co.M.S. (15.0 credits)

The B.Co.M.S. is for students in second year or above who have been previously in the B.Co.M.S. Honours.

A. Credits Included in the Major CGPA (6.0 credits):

1. 1.0 credit from: 1.0

COMS 1001 [0.5] Foundations in Communication and Media Studies

COMS 1002 [0.5] Current Issues in Communication and Media

JOUR 1001 [0.5] Foundations: Journalism in Context

JOUR 1002 [0.5] Foundations: Practicing Journalism in a Diverse Society

2. 1.0 credit in: 1.0

COMS 2003 [0.5] Theoretical Foundations in Communication and Media Studies

COMS 2004 [0.5] Introduction to Communication Research

3. 1.5 credits in: 1.5

COMS 3001 [0.5] Quantitative Research in Communication

COMS 3002 [0.5] Qualitative Research in Communication

COMS 3500 [0.5] Current Issues in Communication and Media Theory

4. 2.5 credits from the following, including at least 1.0 credit at the 3000 level: 2.5

FYSM 1217 [0.5] Selected Topics in Communication and Media Studies

COMS 2200 [0.5] Big Data and Society

COMS 2300 [0.5] Communication as Propaganda

COMS 2400 [0.5] Climate Change and Communication

COMS 2500 [0.5] Communication and Science

COMS 2501 [0.5] Media Law

COMS 2504 [0.5] Language and Communication

COMS 2600 [0.5] Communication and Culture

COMS 2700 [0.5] Global Media and Communication

COMS 3100 [0.5] Introduction to Political Management

C. Additional Requirements (5.0 credits)		
7.a. 0.5 credit from:		0.5
HIST 1301 [0.5]	Conflict and Change in Early Canadian History	
HIST 1302 [0.5]	Rethinking Modern Canadian History	
HIST 2301 [0.5]	Canadian Political History	
HIST 2304 [1.0]	Social and Cultural History of Canada (See Item 8 below)	
HIST 2311 [0.5]	Environmental History of Canada	
b. 0.5 credit from:		0.5
INDG 1010 [0.5]	Introduction to Indigenous Peoplehood Studies	
INDG 1011 [0.5]	Introduction to Indigenous-Settler Encounters	
INDG 2011 [0.5]	Contemporary Indigenous Studies	
8. Approved electives to make up a total of 20.0 credits. Students who take HIST 2304 to fulfill Item 7a will have 0.5 credits less to complete.		4.0
Total Credits		20.0

Communication and Media Studies

B.A. Combined Honours (20.0 credits)

Students enrolled in a single discipline within a B.A. Honours program may add Communication and Media Studies as a second discipline within a B.A. Combined Honours. Communication and Media Studies course requirements for the B.A. Combined Honours are the same as those for the B.Co.M.S. Combined Honours.

Regulations

The regulations presented in this section apply to all Bachelor of Communication Studies (B.Co.M.S.) programs.

In addition to program requirements, B.Co.M.S. students must satisfy the Academic Regulations of the University, and the same Breadth requirements that apply to students enrolled in B.A. programs, described below. Students should consult with the School of Journalism and Communication when selecting courses and planning their program.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree.

The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new

program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process

operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Communication and Media Studies Honours: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the Bachelor of Communication and Media Studies Honours program;
2. Obtained and maintained an overall CGPA of 9.00 or higher.

Bachelor of Communication and Media Studies Honours students must successfully complete three (3) work terms to obtain the Co-op designation.

Work Term Course: COMS 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite

averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- Bachelor of Communication and Media Studies (B.Co.M.S.) (Honours)
- Bachelor of Communication and Media Studies (B.Co.M.S.)

Admission Requirements

First Year

B. Co.M.S. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

B. Co.M.S.

Access to the B.Co.M.S. degree is limited to B.Co.M.S. (Honours) students who apply to transfer.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Communication and Media Studies (Honours);
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Communication and Media Studies (COMS) Courses

COMS 1001 [0.5 credit]

Foundations in Communication and Media Studies

An exploration of past and present media, patterns of change, and key approaches to their study.

Includes: Experiential Learning Activity

Precludes additional credit for COMS 1000, COMM 1101.

Lecture and discussion groups.

COMS 1002 [0.5 credit]

Current Issues in Communication and Media

An exploration of communication and media in relation to contemporary political, technological and cultural issues, with a focus on Canada.

Includes: Experiential Learning Activity

Precludes additional credit for COMS 1000, COMM 1101.

Lecture and discussion groups.

COMS 2003 [0.5 credit]

Theoretical Foundations in Communication and Media Studies

The development of communication theory in the context of major social, economic and cultural periods and events. Emphasis on the central debates and traditions that have shaped and defined the field.

Precludes additional credit for COMM 2101 (no longer offered) and COMM 2100 (no longer offered).

Prerequisite(s): COMS 1001 and COMS 1002, or JOUR 1001 and JOUR 1002, and second-year standing in Communication and Media Studies (including BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures and discussion groups three hours a week

COMS 2004 [0.5 credit]

Introduction to Communication Research

Introduction to the scientific method as interpreted through major traditions in Communication and Media Studies. The course addresses the relationship between theory and evidence, research design, ethics and data management.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 2000 (no longer offered), COMM 2001 (no longer offered).

Prerequisite(s): COMS 1001 and COMS 1002, or JOUR 1001 and JOUR 1002, and second year standing in Communication and Media Studies (including BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

COMS 2200 [0.5 credit]

Big Data and Society

How big data and small data shape society. Databases as a form of media. Topics may include: data policy and regulation, the politics and ethics of big data, data and decision-making, and data as discourse.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year standing or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2300 [0.5 credit]**Communication as Propaganda**

How business, government, and civil society actors have used media messages to persuade, influence, and manipulate the public. The impacts of propaganda on individuals and society, the roles of different media technologies in facilitating propaganda, and public resistance to propaganda.

Precludes additional credit for COMM 2301 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002 or PAPM 1000, and second-year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2400 [0.5 credit]**Climate Change and Communication**

The class examines the role of communication in shaping the relationship of climate change, science, politics, popular culture, social movements, technology, and societal transformation.

Prerequisite(s): Second year standing and enrollment in Communication and Media Studies or permission from the School of Journalism and Communication.

Lecture, three hours a week

COMS 2500 [0.5 credit]**Communication and Science**

How expert knowledge (particularly scientific, medical, and technical) is communicated in the public realm. Topics may include scientific advances and new technologies, health risks, environmental/ climate change, and cultural/ ideological positioning of science.

Prerequisite(s): second-year standing or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2501 [0.5 credit]**Media Law**

A survey of laws that affect the Canadian media including the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common-law limitations on freedoms of the press, including publication bans, libel and contempt of court.

Also listed as JOUR 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002 or PAPM 1000, and second-year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lecture three hours a week.

COMS 2504 [0.5 credit]**Language and Communication**

Some of the central topics in the study of language and communication as pursued by linguists and philosophers, including the nature of meaning, the connections between language, communication and cognition, and language as a social activity.

Also listed as PHIL 2504, LING 2504.

Precludes additional credit for COMM 2504 (no longer offered).

Prerequisite(s): second-year standing.

Lectures three hours a week.

COMS 2600 [0.5 credit]**Communication and Culture**

An introduction to the major industries, institutions, regulatory frameworks and key organizations responsible for cultural production in Canada.

Precludes additional credit for COMM 2401 (no longer offered), COMM 2601 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002, and second-year standing in Communication and Media Studies, or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 2700 [0.5 credit]**Global Media and Communication**

An introduction to global media and communication, with an emphasis on debates about media power and expansion, digitalization, technology transfer, and societal implications/changes. Students will investigate historical and contemporary contexts of global and transnational communication through a variety of approaches and perspectives.

Precludes additional credit for COMM 3405/JOUR 3405 (no longer offered).

Prerequisite(s): COMS 1001 or COMS 1002 or JOUR 1001 or JOUR 1002, and second-year standing in Communication and Media Studies (including BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3001 [0.5 credit]**Quantitative Research in Communication**

An introduction to basic statistical methods in media and communication studies.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3001 (no longer offered).

Prerequisite(s): COMS 2004 and third-year standing in Communication and Media Studies, or third-year standing in BPAPM- or BGIInS-related specializations and streams, or permission of the School of Journalism and Communication.

Lecture and lab three hours a week.

COMS 3002 [0.5 credit]**Qualitative Research in Communication**

An introduction to interpretive methods in media and communication studies.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3002 (no longer offered).

Prerequisite(s): COMS 2004 and third-year standing in Communication and Media Studies, or third-year standing in BPAPM- or BGIInS-related specializations and streams, or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

COMS 3100 [0.5 credit]**Introduction to Political Management**

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as POLM 3000, PSCI 3410.

Precludes additional credit for COMM 3100 (no longer offered).

Prerequisite(s): third-year standing.

Lectures three hours a week.

COMS 3108 [0.5 credit]**Media Industries and the Network Society**

Examines the theoretical frameworks and major issues and debates relating to media industries and institutions in Canada and internationally.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3108 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3109 [0.5 credit]**Communication, Culture and Identity**

Examines the relationship between media, communication, and identity categories. The course explores identity formation as a cultural phenomenon including questions of race, ethnicity, gender, class, and sexuality.

Precludes additional credit for COMM 3109 (no longer offered).

Prerequisite(s): third-year standing and enrollment in Communication and Media Studies (including BGIInS related specializations and streams) or in the Minor in Critical Race Studies, or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3110 [0.5 credit]**Comic Books and Graphic Novels**

The history, political economy, and culture of comics as a distinct medium of communication, and the relationship between comic book publishing and other cultural industries.

Prerequisite(s): Third year standing and enrollment in Communication and Media Studies or permission from the School of Journalism and Communication.

Lecture, three hours a week

COMS 3111 [0.5 credit]**Racism and Digital Media**

Explores the historical, social, and systemic underpinnings of racism in relation to digital media. The course considers the emergence of digital media and its impact on racism. Students will learn about several relations, from World War II computers, to Web 2.0, to activism, and more.

Prerequisite(s): Third year standing in Communication and Media Studies or permission from the School of Journalism and Communication.

Lecture, three hours a week

COMS 3302 [0.5 credit]**Political Communication**

Examines the relationship between various kinds of communication and political activity in a variety of contexts. Case studies will be drawn from speeches, political campaigns, and debates, using a variety of media forms, from photographs to web sites.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3302 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3308 [0.5 credit]**Critical Studies in Advertising and Consumer Culture**

A critical analysis of major constructs and basic mechanisms of advertising, social marketing and other aspects of consumer culture. The course examines the social, political-economic and cultural implications of consumer culture.

Precludes additional credit for COMM 3301 (no longer offered) and COMM 3308 (no longer offered).

Prerequisite(s): third-year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures and discussion groups three hours a week.

COMS 3310 [0.5 credit]**Critical Perspectives of Public Relations**

A critical examination of key aspects of public relations, including histories of PR, media representations of PR, gender and public relations, and the role of PR in business, politics and civil society.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4304 (no longer offered).

Prerequisite(s): third-year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3311 [0.5 credit]**Media and Communication in Regional Contexts**

Provides a historical overview of the development of media technologies, and an understanding of the place of media within the political, regulatory, and legal activities of different international regions (e.g., Europe, Asia, Africa, Latin America, etc.).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3400 [0.5 credit]**Ethical Controversies in Media and Communication**

Explores ethical problems and controversies relating to research in media and communication. Focuses on rights and responsibilities of researchers and practitioners as relates to media consumers, producers, and professional communicators in an age when communication circulates quickly within and across borders and other boundaries.

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM and BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3401 [0.5 credit]**Communications Regulation in Canada**

Examines historical and contemporary issues in the regulation of communication practices and institutions in Canada.

Precludes additional credit for COMM 3401 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3403 [0.5 credit]**Communication, Technology and Culture**

Examines the relationship between communication technology and society, including factors that contribute to changes in the collection, storage and distribution of information and their cultural implications.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 3403 (no longer offered).

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lecture three hours a week.

COMS 3404 [0.5 credit]**Music Industries**

An introduction to the structure and history of the music industries.

Also listed as MUSI 3403.

Precludes additional credit for COMM 3404 (no longer offered).

Prerequisite(s): second year standing.

Lectures three hours a week.

COMS 3406 [0.5 credit]**Media Audiences and Users**

Examines the role of audiences in contemporary media industries. Topics include history of audience studies, ratings and the audience commodity, active audience theory, and media fandom.

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3407 [0.5 credit]**Comparative Media Studies**

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as JOUR 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): Third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3410 [0.5 credit]**Visual Media and Communication**

Examines the central importance of visual imagery in contemporary media, culture and everyday life. Draws connections between historical/contemporary explanations of 'the visual,' and how texts and technologies reflect the context and cultural values of the environments that produce them, and the challenges for regulation.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3411 [0.5 credit]**Media and Social Activism**

Examines links between media and activism through the lens of past and present social movements and protest events. Addresses leading theories that help conceptualize various types of activist movements, with a focus on the role of media in shaping activist identity and political opportunity.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3412 [0.5 credit]**Communication and Health**

The concept of health as a sociocultural phenomenon; the many ways that health issues are communicated, defined, represented, and framed.

Prerequisite(s): third year standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 3500 [0.5 credit]**Current Issues in Communication and Media Theory**

Examines theoretical debates and issues facing the field of Communication and Media Studies today.

Precludes additional credit for COMM 2101, COMM 2102 (no longer offered).

Prerequisite(s): COMS 2003 and third-year standing in Communication and Media Studies (including BGIInS related specializations and streams), or permission of the School of Journalism and Communication.

Lectures and discussion groups three hours a week.

COMS 3800 [0.5 credit]**Special Topic in Communication and Media Studies**

A selected topic not ordinarily treated in the regular course program. The choice of topic varies from year to year. Check with the Communication and Media Studies program regarding the topic offered.

Prerequisite(s): third-year standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lecture three hours a week.

COMS 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

COMS 4001 [0.5 credit]**Sport and/as Media**

A critical exploration of the culture and political economy of sport including cultural norms and questions of representation in and around sports across an array of media.

Prerequisite(s): Fourth year Honours standing in Communication and Media Studies or permission from the School of Journalism and Communication.

Seminar, 3 hours a week

COMS 4002 [0.5 credit]**Media Fandom**

Examines media fans as audiences. Topics may include fan cultures, digital fandom, identity, and audience labour.

Prerequisite(s): Fourth year Honours standing in Communication and Media Studies or permission from the School of Journalism and Communication.

Recommended: COMS 3406: Media Audiences and Users.

Seminar, 3 hours a week

COMS 4004 [0.5 credit]**Communication and Discourse**

Examines the development of theory and methods related to discourse and its use in the analysis of images and texts.

Precludes additional credit for COMM 4004 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4305 [0.5 credit]**Media and Religion**

Critical examination of the ways religion mediates communicative practices, engages with media technologies, and is mediated in mainstream or popular culture. Topics may include: secularization and post-secularization; the politics of representation; religious organizations as communicative actors; fundamentalism.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4306 [0.5 credit]**Media and Conflict**

Media representations of conflict such as war and terrorism, and how they influence the collective imagination.

Precludes additional credit for COMM 4306 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4311 [0.5 credit]**Environmental Communication**

Examines environmental, animal, and earth observing media and pays special attention to the production of visual materials. The course explores the influence of media systems on the production, dissemination, and meaning of environmental observations and looks at sites of contemporary environmental contention.

Prerequisite(s): fourth-year Honours standing and enrollment in Communication and Media Studies or in the Minor in Environmental and Climate Humanities, or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4312 [0.5 credit]**Crisis and Risk Communication**

Examines crises and risks from the perspective of communication. The course explores the role of various media in shaping risk perceptions and constructions of crisis, the politics of crisis and risk management, symbolic dimensions in crisis construction, and ethical dilemmas.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4313 [0.5 credit]**Screen Studies**

Issues in the past, present and future of film, television and related media. Screens are examined as media that represent and shape values and culture, as technologies that are produced and purchased, and as objects that are regulated through policy.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4315 [0.5 credit]**Communication and the Built Environment**

How communication occurs in conjunction with the built environment, with special attention to cultural artefacts such as houses, schools, factories, prisons, office buildings, roads, parks, and the urban (and suburban) environment. Various models, theories, and philosophies of the built environment are considered.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4316 [0.5 credit]**Indigenous Media in Global Contexts**

Overview of Indigenous global media exploring film and film festivals, television networks, media arts, and the Internet. We will discuss struggles over mediated self-representation as well as debates over what constitutes Indigenous media relating to aesthetics, community affiliation, and identity.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4317 [0.5 credit]**Digital Media and Global Network Society**

A critical and analytical understanding of the way digital media are reshaping society and are shaped by societal structures and forces; on the implications of digital media on various aspects of social life globally, including culture, politics, law, privacy, journalism, and collective organizing/social movements.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth year Honours standing in Communication and Media Studies (including BPAPM and BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4337 [0.5 credit]**Communication and Public Affairs Strategies**

This hands-on course teaches students how to develop, design, and execute a public affairs strategy. Emphasis on understanding the interaction between public institutions and stakeholders and how effective public affairs strategies can be designed to help organizations achieve goals through public or opinion leader persuasion.

Includes: Experiential Learning Activity

Also listed as PAPM 4000.

Prerequisite(s): fourth-year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4401 [0.5 credit]**Global Internet Policy and Governance**

Public interest and policy battles over critical internet resources and implications for development of the internet, citizens' rights and freedoms, the economy, and democratic culture; common carriage, privacy, security and surveillance, access, speech rights, and diversity of information sources.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4401 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM and BGLnS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4403 [0.5 credit]**Digital Media Industries**

Key approaches to the study of media as industries and how economics, markets and technologies intersect with social choices, politics and power to shape how decisions are made about the design, ownership, organization and control of media.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4403 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4405 [0.5 credit]**The Networked Self**

How notions of identity are changing as we conduct our lives through networked media and communication such as social media, online search, the Internet of Things, and wearable devices. Subjectivity, personhood, posthumanism, algorithmic control, and privacy.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4406 [0.5 credit]**Open Government and Communication**

The contemporary open government movement; how communication can be used to improve governance and to foster a more collaborative relationship between governments and citizens. Access to information, the challenges of open data, expectations of transparency, and models of citizen engagement/consultation.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year Honours standing in Communication and Media Studies (including BPAPM and BGLnS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4407 [0.5 credit]**Communication and Critical Data Studies**

Theoretical perspectives, ethical problems, and contemporary issues relevant to communication and data studies. Students will critically examine the rise of 'big data' and 'datafication' as socio-technical phenomena that have become a crucial part of our communication landscape.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4408 [0.5 credit]**Creative Work**

Contemporary trends affecting creative work in cultural industries. How careers in the arts, culture and media are increasingly desirable as a way for individual workers to find personal fulfillment and as a means of reinvigorating post-industrial economies.

Prerequisite(s): fourth-year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4410 [0.5 credit]**Mobile Media**

Critical examination of the history, development, and expansion of mobile media and its impact on culture, connectivity, and practice; locative media practices, geo-coding, wireless communication, mobile technologies, and user experience in everyday life.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4411 [0.5 credit]**Algorithmic Culture**

The ways in which computerized algorithms engage in the traditional work of culture: the sorting, classifying, and hierarchizing of people, places, objects, and ideas to produce new habits of thought, conduct, expression, and material outcomes.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4412 [0.5 credit]**Game Studies**

Games as media. The history of gaming and mediated play in terms of technology and form, industry, labour, gender and subcultural practice.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BPAPM related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4501 [0.5 credit]**Digital Media Production**

This workshop introduces practice-based tools and techniques relevant in contemporary professional communication, such as basic web development, podcasting, and digital photography.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4502 [0.5 credit]**Storytelling in the Digital Age**

In this workshop students learn to write compelling stories for the digital age. They engage with examples of great storytelling across print and online platforms, from magazines and newspapers to blogs and podcasts, to gain a deeper understanding of what makes some stories stand out.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4503 [0.5 credit]**Visualizing Social Media: Hashtags, keywords, & conversations**

This workshop introduces a range of methods and practices in data mining and analytics. Techniques include data and text mining, data analysis (including sentiment and social network analysis), data visualization and modeling. Opportunity to work with analytics and mapping software on students' own projects.

Includes: Experiential Learning Activity

Prerequisite(s): COMS 3001 and fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4504 [0.5 credit]**Engaging the Public: Stakeholders, participation & consultation**

This workshop introduces the challenges of conceptualizing and conducting public consultations. This includes audience or participant selection, a range of consultation techniques and formats, marketing and communication, analysis, as well as an awareness of policies and regulations governing consultations.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4505 [0.5 credit]**Professional Writing and Speaking**

In this workshop students develop skills in professional written communication, such as press releases, blogs, op-eds, policy briefs, and speeches. Students will also hone their public speaking skills presenting their written work in different formats.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4506 [0.5 credit]**Event Management and Community Partnerships**

This workshop introduces the stages of event management for potential community partners. This includes conceptualization, marketing and sponsorships, production and financing, to risk management.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in B.Co.M.S. Honours and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4507 [0.5 credit]**Professional Communication Research**

Students will work in a team-based environment to carry out empirical research in support of current faculty-led projects. In addition to learning advanced research techniques, students will develop project management and collaborative research skills.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4000 (no longer offered), COMM 4002 (no longer offered), COMS 4006 (no longer offered).

Prerequisite(s): COMS 3001 or COMS 3002, and fourth-year Honours standing in Communication and Media Studies (including BPAPM related specializations), and permission of the School of Journalism and Communication.

Workshop three hours a week.

COMS 4602 [0.5 credit]**Children, Youth and Media**

Historical and contemporary ways in which children and youth relate to the media and popular culture.

Precludes additional credit for COMM 4602 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4603 [0.5 credit]**Diaspora and Communication**

The impact of various forms of diasporic communication on the shaping of contemporary national and international society.

Precludes additional credit for COMM 4603 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4604 [0.5 credit]**Media, Gender and Sexuality**

Critical examination of the intersection of media and gender, including constructions of femininity, masculinity, and other issues of sexuality.

Precludes additional credit for COMM 3601 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4605 [0.5 credit]**Media, Race and Ethnicity**

Critical examination of how issues of race and ethnicity intersect with contemporary media.

Precludes additional credit for COMM 3602 (no longer offered).

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4606 [0.5 credit]**Global Media and Popular Culture**

Key theories and concepts that have shaped the study of global media and its impact on popular cultures around the world.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies (including BGIInS related specializations), or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4607 [0.5 credit]**Communication and Food**

Food in and as communication. Food and identity, food and culture, food environments, food systems, food politics, and food and community development.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4608 [0.5 credit]**Sound Studies**

How hearing and listening practices have changed over time, and the role of sound technology in shaping our understanding of each other, our world, and ourselves.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies, or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4800 [0.5 credit]**Special Topic in Communication and Media Studies**

A selected topic not ordinarily treated in the regular course program. The choice of topic varies from year to year. Check with the Communication and Media Studies program regarding the topic offered.

Prerequisite(s): fourth year Honours standing in Communication and Media Studies or permission of the School of Journalism and Communication.

Lectures three hours a week.

COMS 4908 [1.0 credit]**Honours Research Essay**

The Honours Research Essay (HRE) provides eligible students with an opportunity to complete an independent research essay under the supervision of a faculty member.

The HRE must be completed over two consecutive academic terms, beginning in the fall term.

Includes: Experiential Learning Activity

Precludes additional credit for COMM 4908 (no longer offered).

Prerequisite(s): fourth year honours standing in Communication and Media Studies (including BGIInS related specializations), with a CGPA of 10.0 or higher, or permission of the Undergraduate Supervisor.

Unscheduled.

Community Engagement (Minor)

This section presents the requirements for programs in:

- Minor in Community Engagement

Minor in Community Engagement (4.0 credits)

This minor is open to all undergraduate degree students in any program. Students in any Sociology or Anthropology major should select courses carefully if they wish to use courses from the major in their minor. Such students should always consult the department.

Requirements:

1. 0.5 credit from: 0.5

ANTH 2180 [0.5]	Foundations in Community Engagement	
SOCI 2180 [0.5]	Foundations in Community Engagement	
2. 0.5 credit from:		0.5
ANTH 4171 [0.5]	Community Engagement Capstone	
SOCI 4171 [0.5]	Community Engagement Capstone	
3. 1.0 credit from	Engaging the Community courses:	1.0
AFRI 3900 [0.5]	Placement	
ANTH 4000 [0.5]	Field Placement in Anthropology	
ANTH 4100 [0.5]	Ethnographic Field Course	
ARTH 3701 [0.5]	Art and Architecture on Site	
ARTH 4701 [0.5]	Art and Architecture on Site	
CDNS 1101 [0.5]	Power, Places and Stories in/of Odawang/Ottawa	
CDNS 4800 [1.0]	Internship Practicum	
CRCJ 3901 [1.0]	Practicum in Criminology I	
CRCJ 3902 [1.0]	Practicum in Criminology II	
DIGH 4005 [0.5]	Digital Humanities Practicum	
ENST 4450 [0.5]	Community-Engaged Research	
GEOG 3030 [0.5]	Regional Field Excursion	
GEOG 4000 [0.5]	Field Studies	
GEOG 4450 [0.5]	Community-Engaged Research	
GINS 3100 [0.5]	Global and International Group Project

			5. The remaining requirements of the major discipline(s) and degree must be satisfied.
		Total Credits	4.0

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Continuation Evaluation (see the Academic Regulations of the University section of this Calendar).

Computer Science

This section presents the requirements for programs in:

- Computer Science B.C.S. Honours
- Computer Science Industrial Applications Internship Option B.C.S. Honours
- Computer Science Algorithms Stream B.C.S. Honours
- Computer Science Artificial Intelligence and Machine Learning Stream B.C.S. Honours
- Computer Science Management and Business Systems Stream B.C.S. Honours
- Computer Science Software Engineering Stream B.C.S. Honours
- Computer Science Computer and Internet Security Stream B.C.S. Honours
- Computer Science Computer Game Development Stream B.C.S. Honours
- Computer Science B.C.S. Major
- Computer Science and Mathematics: Concentration in Computing Theory and Numerical Methods B. Math. Combined Honours
- Computer Science and Mathematics: Concentration in Statistics and Computing B. Math. Combined Honours
- Minor in Computer Science

Program Requirements

Course Categories

The following categories of courses are used in defining the program requirements in Computer Science.

Computer Science (COMP)

In addition to the courses with subject code COMP, the following courses offered by the Faculty of Engineering and Design are relevant to the B.C.S. program and the Combined Honours programs. These courses are counted as Computer Science credits in B.C.S., Minor in Computer Science, and Combined Honours program requirements:

SYSC 3303 [0.5]	Real-Time Concurrent Systems
SYSC 4005 [0.5]	Discrete Simulation/Modeling
SYSC 4106 [0.5]	The Software Economy and Project Management
SYSC 4507 [0.5]	Computer Systems Architecture

Breadth Electives

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, the Sprott School of Business and the Faculty of Science except for courses in COMP, MATH, STAT and the Prohibited Courses category.

Natural Science Electives

This category is defined with the B.Math. programs. See the Course Categories section on the Mathematics Program page of this Calendar for details.

Prohibited Courses

The following courses cannot be used for credit in the B.C.S., the Computer Science Minor, or any Combined Computer Science program:

BUSI 2402 [0.5]	Business Applications Development
BUSI 3400 [0.5]	Database Design
CGSC 1005 [0.5]	Computational Methods in Cognitive Science
COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
ECON 1401/ MATH 1401 [0.5]	Elementary Mathematics for Economics I
ECON 1402/ MATH 1402 [0.5]	Elementary Mathematics for Economics II
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business

all 0000-level MATH courses

and all courses in BIT, IMD, IRM, MPAD, NET, OSS, PLT and ITEC except for the following: BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201, BIT 2000, BIT 2004, BIT 2005, BIT 2007, BIT 2100, BIT 2300.

Bachelor of Computer Science Honours Bachelor of Computer Science Honours Streams

B.C.S. Honours students may either register in the B.C.S. Honours degree below, or in one of the B.C.S. Honours streams that follow.

Computer Science

B.C.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (9.0 credits)

1. 6.5 credits in:	6.5
COMP 1405 [0.5]	Introduction to Computer Science I
COMP 1406 [0.5]	Introduction to Computer Science II
COMP 1805 [0.5]	Discrete Structures I
COMP 2401 [0.5]	Introduction to Systems Programming
COMP 2402 [0.5]	Abstract Data Types and Algorithms
COMP 2404 [0.5]	Introduction to Software Engineering
COMP 2406 [0.5]	Fundamentals of Web Applications
COMP 2804 [0.5]	Discrete Structures II
COMP 3000 [0.5]	Operating Systems
COMP 3004 [0.5]	Object-Oriented Software Engineering
COMP 3005 [0.5]	Database Management Systems
COMP 3007 [0.5]	Programming Paradigms
COMP 3804 [0.5]	Design and Analysis of Algorithms I
2. 0.5 credit in COMP at the 2000-level or above	0.5
3. 2.0 credits in:	2.0

COMP 4905 [0.5] and 1.5 credits in COMP at the 4000-level, or	
COMP 4906 [1.0] and 1.0 credit in COMP at the 4000-level, or	
2.0 credits in COMP at the 4000-level	
B. Credits Not Included in the Major CGPA (11.0 credits)	
4. 1.5 credits from:	1.5
MATH 1007 [0.5] Elementary Calculus I	
MATH 1104 [0.5] Linear Algebra for Engineering or Science	
0.5 credit in MATH at the 2000-level or above	
5. 0.5 credit in:	0.5
STAT 2507 [0.5] Introduction to Statistical Modeling I	
6. 5.0 credits in Breadth Electives	5.0
7. 4.0 credits in free electives.	4.0
Total Credits	20.0

Computer Science

Industrial Applications Internship Option

B.C.S. Honours (20.0 credits)

Registration in the internship option is by permission of the School only

A. Credits Included in the Major CGPA (13.0 credits)

1. 10.5 credits in:	10.5
COMP 1405 [0.5] Introduction to Computer Science I	
COMP 1406 [0.5] Introduction to Computer Science II	
COMP 1805 [0.5] Discrete Structures I	
COMP 1910 [0.5] Internship	
COMP 1911 [0.5] Internship	
COMP 2401 [0.5] Introduction to Systems Programming	
COMP 2402 [0.5] Abstract Data Types and Algorithms	
COMP 2404 [0.5] Introduction to Software Engineering	
COMP 2406 [0.5] Fundamentals of Web Applications	
COMP 2804 [0.5] Discrete Structures II	
COMP 2910 [0.5] Internship	
COMP 2911 [0.5] Internship	
COMP 3000 [0.5] Operating Systems	
COMP 3004 [0.5] Object-Oriented Software Engineering	
COMP 3005 [0.5] Database Management Systems	
COMP 3007 [0.5] Programming Paradigms	
COMP 3804 [0.5] Design and Analysis of Algorithms I	
COMP 3910 [0.5] Internship	
COMP 3911 [0.5] Internship	
COMP 4910 [0.5] Internship	
COMP 4911 [0.5] Internship	
2. 0.5 credit in COMP at the 2000-level or above	0.5
3. 2.0 credits in:	2.0
COMP 4905 [0.5] and 1.5 credits in COMP at the 4000-level, or	
COMP 4906 [1.0] and 1.0 credit in COMP at the 4000-level, or	
2.0 credits in COMP at the 4000-level	

B. Credits Not Included in the Major CGPA (7.0 credits)

4. 1.5 credits from:	1.5
MATH 1007 [0.5] Elementary Calculus I	
MATH 1104 [0.5] Linear Algebra for Engineering or Science	
0.5 credit in MATH at the 2000-level or above	
5. 0.5 credit in:	0.5
STAT 2507 [0.5] Introduction to Statistical Modeling I	
6. 5.0 credits in Breadth Electives	5.0
Total Credits	20.0

Computer Science

Algorithms Stream

B.C.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (10.0 credits)

Minor in Computer Science (4.0 credits)

Only students pursuing an undergraduate program requiring at least 20.0 credits to graduate and who have completed at least 4.0 credits toward their degree with a minimum Overall CGPA of 7.0 may be admitted to the Minor in Computer Science, except for the following:

- Bioinformatics B.Sc. Honours
- Cognitive Science with Concentration in Cognition and Computation Bachelor of Cognitive Science Honours
- Computational Biochemistry B.Sc. Honours

- Computer Science B.C.S. Honours, including all streams
- Computer Science and Mathematics: Concentration in Computing Theory and Numerical Methods B.Math. Combined Honours
- Computer Science and Mathematics: Concentration in Statistics and Computing B.Math. Combined Honours
- Computer Systems Engineering Bachelor of Engineering
- Economics B.Econ. Honours with Concentration in Computational Analysis
- Information Resource Management B.I.T.
- Interactive Multimedia and Design B.I.T.
- Linguistics with a Concentration in Linguistic Theory (Computer Science) B.Sc. Honours
- Linguistics with a Concentration in Psycholinguistics and Communication Disorders (Computer Science) B.Sc. Honours
- Network Technology B.I.T.
- Optical Systems and Sensors B.I.T.
- Software Engineering Bachelor of Engineering

Enrolment is limited. Students who are required to leave the Minor due to a low Minor CGPA may not return to the Minor at any subsequent date.

Requirements

1. 2.5 credits in:	2.5
COMP 1005 [0.5] Introduction to Computer Science I	
COMP 1006 [0.5] Introduction to Computer Science II	
COMP 2401 [0.5] Introduction to Systems Programming	
COMP 2402 [0.5] Abstract Data Types and Algorithms	
COMP 2404 [0.5] Introduction to Software Engineering	
2. 1.0 credit from:	1.0
COMP 1805 [0.5] Discrete Structures I (and/or COMP at the 2000-level or above)	
3. 0.5 credit in COMP at the 3000-level or above	0.5
4. Course equivalencies and transfer credits can be used for at most 2.0 credits of the minor; the remaining 2.0 credits must be courses listed in the COMP section of this Calendar	
5. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Regulations

In addition to the program requirements described here, students must satisfy the University regulations common to all undergraduate students (see the *Academic Regulations of the University* section of this Calendar).

Students should consult with the School when planning their program and selecting courses.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The

summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Computer Science Honours and Major: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. A major CGPA of 8.00 or higher and an overall CGPA of 8.00 or higher;

- Successfully completed 3.0 required credits in Computer Science, including one of COMP 2402 or COMP 2404;
- Registered as a full-time student in the Bachelor of Computer Science program (2.0 credits).

Bachelor of Computer Science Honours and Major students must successfully complete four (4) work terms to obtain the Co-op designation.

Co-op Work Term Course: COMP 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	W	Fall	S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	W	Winter	S
Summer	**O	Summer	W	Summer	W	Summer	W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite

averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Computer Science (B.C.S.) (Honours)
- Bachelor of Computer Science (B.C.S.) (Major)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent, including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions, and Calculus and Vectors.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Students must typically present a minimum CGPA of 7.00 (B-) in order to be considered for admission. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected. Students will not receive credit for courses graded below C-.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

- meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
- be registered as a full-time student in the Bachelor of Computer Science Honours program;
- be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Computer Science (COMP) Courses

Notes:

- Some of the following Computer Science courses are cross-listed from other parts of the Calendar. In every such case, only one course is actually offered and the two numbers are alternate identifiers for this single course. Students in the B.C.S. program should register in such a course under the Computer Science (COMP) number.

COMP 0999 [0.0 credit]

COMP Matters

COMP 1001 [0.5 credit]**Introduction to Computational Thinking for Arts and Social Science Students**

An introduction to computational thinking and its applications to the arts and social sciences. Students will gain computational thinking skills by exploring data representation, basic programming concepts, a selection of algorithms, and advanced usage of software packages for the arts and social sciences.

Precludes additional credit for COMP 1004 (no longer offered). This course cannot be taken for credit by students in Business, Engineering, Computer Science, Mathematics or Science.

Lectures three hours a week.

COMP 1005 [0.5 credit]**Introduction to Computer Science I**

Introduction to computer science and programming. Topics include: algorithm design; control structures; variables and types; linear collections; functions; debugging and testing. Special attention is given to procedural programming in a modern language, computational thinking skills, and problem decomposition.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1400, CGSC 1005, COMP 1405, ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, ITEC 1400, ITEC 1401, SYSC 1005.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1006 [0.5 credit]**Introduction to Computer Science II**

A second course in programming emphasizing problem solving and computational thinking in an object-oriented language. Topics include abstraction, mutable data structures, methods, inheritance, polymorphism, recursion, program efficiency, testing and debugging.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2400, BUSI 2402, COMP 1406, ITEC 2400, ITEC 2401, SYSC 2004.

Prerequisite(s): COMP 1005 or COMP 1405.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1008 [0.5 credit]**Math for Game Programmers**

Math for building 3D games. Points, vectors, normals. Dot and cross products. Transformations and inverses in left- and right-handed systems. Uses for controlling objects, cameras, and texture manipulation. Bounding boxes, planes, frustums for collision detection and visibility, fast billboard techniques, point and sphere sweeping. Quaternions.

Prerequisite(s): one Grade 12 university preparation mathematics course.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1405 [0.5 credit]**Introduction to Computer Science I**

Introduction to computer science and programming, for computer science students. Topics include: algorithm design; control structures; variables and types; linear collections; functions; debugging and testing. Special attention is given to procedural programming in a modern language, computational thinking skills, and problem decomposition.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1400, CGSC 1005, COMP 1005, ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, ITEC 1400, ITEC 1401, SYSC 1005.

Prerequisite(s): restricted to students registered in the B.C.S. program, combined Honours in Computer Science and Mathematics, Honours Computer Mathematics, and Honours Computer Statistics.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1406 [0.5 credit]**Introduction to Computer Science II**

A second course in programming for BCS students, emphasizing problem solving and computational thinking in an object-oriented language. Topics include abstraction, mutable data structures, methods, inheritance, polymorphism, recursion, program efficiency, testing and debugging.

Precludes additional credit for BIT 2400, BUSI 2402, COMP 1006, ITEC 2400, ITEC 2401, SYSC 2004.

Prerequisite(s): COMP 1005 or COMP 1405. Restricted to students registered in the B.C.S. program, combined Honours in Computer Science and Mathematics, Honours Computer Mathematics, and Honours Computer Statistics. Lectures three hours a week, tutorial one and a half hours a week.

COMP 1501 [0.5 credit]**Introduction to Computer Game Design**

Introduction to game design and prototyping. Topics include: formal theories of fun; the mechanics-dynamics-aesthetics framework; game economies; game balance; statistical tools for analyzing game mechanics; game settings; and storytelling. Special attention is given to the attributes of games and what makes a game fun.

Prerequisite(s): COMP 1005 or COMP 1405.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 1601 [0.5 credit]**Introduction to Mobile Application Development**

Introduction to developing mobile applications using the Mac OS X platform. Topics include: the Objective-C programming language; development tools; framework API's; and the Quartz graphic system. Extensive practical experience with development for Apple mobile devices such as the iPhone.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1005 or COMP 1405.

Lecture/lab four hours a week.

COMP 1805 [0.5 credit]**Discrete Structures I**

Introduction to discrete mathematics and discrete structures. Topics include: propositional logic, predicate calculus, set theory, complexity of algorithms, mathematical reasoning and proof techniques, recurrences, induction, finite automata and graph theory. Material is illustrated through examples from computing.

Includes: Experiential Learning Activity

Precludes additional credit for MATH 1800.

Prerequisite(s): one Grade 12 university preparation mathematics course.

Lectures three hours a week, tutorial one hour a week.

COMP 1910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. This course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): Permission of the School and registration in internship option.

COMP 1911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the BCS.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1910 and registration in internship option.

COMP 2109 [0.5 credit]**Introduction to Security and Privacy**

A tour of Internet security and privacy. Societal impacts and case studies. Topics from: protection goals of stakeholders; history of public key cryptography; programming languages and security; security engineering and testing; cybercrime and malware; Internet privacy and anonymity; government surveillance; regulation; ethics; blockchain applications.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1406 with a minimum grade of C-, and COMP 2401 with a minimum grade of C-.

Lectures three hours a week.

COMP 2401 [0.5 credit]**Introduction to Systems Programming**

Introduction to system-level programming with fundamental OS concepts, procedures, primitive data types, user-defined types. Topics may include process management, memory management, process coordination and synchronization, inter-process communication, file systems, networking, pointers, heap and stack memory management, and system/library calls.

Precludes additional credit for SYSC 2006.

Prerequisite(s): (COMP 1006 or COMP 1406 or SYSC 2004) with a minimum grade of C-.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 2402 [0.5 credit]**Abstract Data Types and Algorithms**

Introduction to the design and implementation of abstract data types and to complexity analysis of data structures.

Topics include: stacks, queues, lists, trees and graphs.

Special attention is given to abstraction, interface specification and hierarchical design using an object-oriented programming language.

Precludes additional credit for SYSC 2100.

Prerequisite(s): (COMP 1006 or COMP 1406 or SYSC 2004) with a minimum grade of C-.

Lectures three hours a week.

COMP 2404 [0.5 credit]**Introduction to Software Engineering**

Introduction to object-oriented software development, with emphasis on the design and implementation of maintainable, reusable software. Topics include abstraction, modularity, encapsulation, and an introduction to design patterns.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3010, SYSC 3110.

Prerequisite(s): COMP 2401 with a minimum grade of C-.

Lectures three hours a week, tutorial one and a half hours a week.

COMP 2406 [0.5 credit]**Fundamentals of Web Applications**

Introduction to Internet application development; emphasis on computer science fundamentals of technologies underlying web applications. Topics include: scripting and functional languages, language-based virtual machines, database query languages, remote procedure calls over the Internet, and performance and security concerns in modern distributed applications.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4504.

Prerequisite(s): (COMP 1006 or COMP 1406 or SYSC 2004) with a minimum grade of C-.

Lectures three hours a week and tutorial one and a half hours a week.

COMP 2501 [0.5 credit]**Computer Game Design and Development**

Introduction to the practical development of computer games and engine architecture. Topics include: vector and matrix operations; coordinate systems and transformations; physical simulation; collision detection; AI; path planning; hardware-accelerated real-time rendering. Special attention is given to implementation of real-time rendering in a low-level language.
Includes: Experiential Learning Activity
Prerequisite(s): COMP 1501, COMP 2401 with a minimum grade of C-, and MATH 1104.
Lectures three hours a week, tutorial one and a half hours a week.

COMP 2601 [0.5 credit]**Mobile Applications**

Development of applications for mobile environments taking advantage of gesture-based input and using location and presence services. Topics include introduction to low-level network services and mobile platforms, description of architectural patterns, principles of mobile development and interaction styles for network service usage.
Includes: Experiential Learning Activity
Prerequisite(s): COMP 1601.
Lecture/lab four hours a week.

COMP 2801 [0.5 credit]**Introduction to Robotics**

A course on programming simulated mobile robots with various sensors such as wheel encoders, distance sensors, cameras, compasses, accelerometers, and laser range finders. Topics include: programming robot behaviour; performing position estimation; implementing algorithms related to navigation, mapping, path planning, area coverage, and localization.
Includes: Experiential Learning Activity
Precludes additional credit for COMP 1807 (no longer offered).
Prerequisite(s): (COMP 1006 or COMP 1406 or SYSC 2004) with a minimum grade of C-.
Lab four hours a week.

COMP 2804 [0.5 credit]**Discrete Structures II**

A second course in discrete mathematics and discrete structures. Topics include: counting, sequences and sums, discrete probability, basic statistics, recurrence relations, randomized algorithms. Material is illustrated through examples from computing.
Prerequisite(s): COMP 1805 with a minimum grade of C-, or permission of the School of Computer Science for those in Combined Honours in Computer Science and Mathematics.
Lectures three hours a week.

COMP 2910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.
Includes: Experiential Learning Activity
Prerequisite(s): COMP 1911 and registration in internship option.

COMP 2911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the BCS.
Includes: Experiential Learning Activity
Prerequisite(s): COMP 2910 and registration in internship option.

COMP 3000 [0.5 credit]**Operating Systems**

Operating system implementation course stressing fundamental issues in design and how they relate to modern computer architectures. Assignments involve the modification and extension of a multitasking operating system.
Includes: Experiential Learning Activity
Precludes additional credit for SYSC 4001.
Prerequisite(s): COMP 2401 with a minimum grade of C- and (COMP 2402 or SYSC 2100).
Lectures three hours a week, tutorial one and a half hours a week.

COMP 3002 [0.5 credit]**Compiler Construction**

The structure, organization and design of the phases of a compiler are considered: lexical translators, syntactical translators, scope handlers, type checkers, code generators and optimizers. Components of a compiler will be implemented.
Prerequisite(s): (COMP 2402 or SYSC 2100).
Lectures three hours a week.

COMP 3004 [0.5 credit]**Object-Oriented Software Engineering**

Development of object-oriented software systems: theory and practice. Topics include: Computer ethics, software development processes, requirement specification, class and scenario modeling, state modeling, UML, design patterns, traceability. Students are to complete a team project.
Includes: Experiential Learning Activity
Precludes additional credit for SYSC 3020, SYSC 3120, SYSC 4120.
Prerequisite(s): COMP 2401 with a minimum grade of C-, (COMP 2404 or SYSC 3010 or SYSC 3110) with a minimum grade of C-, and (COMP 2406 or SYSC 4504).
Lectures three hours a week.

COMP 3005 [0.5 credit]**Database Management Systems**

Introduces students to concepts of database management systems, database design and file structures. Topics include: entity-relationship modeling and object oriented database design, data models (relational, network and object oriented), the relational algebra, SQL, normalization theory, physical data organization, object oriented databases and OQL.

Precludes additional credit for BUSI 3400.

Prerequisite(s): COMP 1805 with a minimum grade of C-, and either COMP 2402 or (SYSC 2004 and SYSC 2100).

Lectures three hours a week.

COMP 3007 [0.5 credit]**Programming Paradigms**

An introduction to alternative programming paradigms such as functional, constraint-based, concurrent, and logic programming.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3101.

Prerequisite(s): COMP 1805 with a minimum grade of C-, and either COMP 2402 or (SYSC 2004 and SYSC 2100).

Lectures three hours a week.

COMP 3008 [0.5 credit]**Human-Computer Interaction**

Fundamentals of the underlying theories, design principles, development and evaluation practices of human-computer interaction (HCI). Topics may include: theories of interaction, user interface frameworks, desktop, web, mobile, and immersive applications, usability inspection and testing methods, and qualitative and quantitative approaches to HCI research.

Prerequisite(s): (COMP 2404 or SYSC 3010 or SYSC 3110) and (COMP 2406 or SYSC 4504).

Lectures three hours a week.

COMP 3009 [0.5 credit]**Computer Graphics**

An overview of computer graphics covering rendering, modeling, and animation. Topics include geometric primitives and modeling; image formation algorithms such as ray tracing and the Z-buffer; lighting, shading, and texture; and introduction to physics-based animation and character animation.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 2401 with a minimum grade of C-, (COMP 2402 or SYSC 2100), MATH 1007, and MATH 1104.

Lectures/lab four hours a week.

COMP 3105 [0.5 credit]**Introduction to Machine Learning**

An introduction to methods for automated learning of relationships on the basis of empirical data. Includes topics in supervised and unsupervised machine learning and deeper knowledge of several algorithms of each type and their applications. Evaluation and quantification of performance of ML systems.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4105 (no longer offered), SYSC 4415.

Prerequisite(s): (COMP 2402 or SYSC 2100) and (2404 or SYSC 3010 or SYSC 3110) and COMP 2804 and (MATH 1104 or MATH 1107).

Lectures three hours a week.

COMP 3106 [0.5 credit]**Introduction to Artificial Intelligence**

Principles and tools used in Artificial Intelligence. Fundamentals of Knowledge Representation and Reinforcement Learning and Nature-Based computing. Methods for non-adversarial problem solving including non-exhaustive and heuristic-based strategies for searching the state space. Methods for adversarial problem solving, modeled as two-person and multi-person games.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4106 (no longer offered).

Prerequisite(s): (COMP 2402 or SYSC 2100) and (COMP 2404 or SYSC 3010 or SYSC 3110) and COMP 2804.

Lectures three hours a week.

COMP 3109 [0.5 credit]**Applied Cryptography and Authentication**

Practical aspects of cryptography. Topics include: stream and block ciphers; modes of operation; hash functions; message and user authentication; authenticated key establishment protocols; random number generation; entropy; proof of knowledge; secret sharing; key distribution; pitfalls deploying public-key encryption and digital signatures.

Precludes additional credit for COMP 4109 (no longer offered).

Prerequisite(s): (COMP 2402 or SYSC 2100) and COMP 2804.

Lectures three hours a week.

COMP 3203 [0.5 credit]**Principles of Computer Networks**

This is an introductory course to the field of Network Computing. Topics include: Protocol Architectures and Internetworking, Types of Networks, Communication Protocols, End-System and Network Traffic Management, Structure of Routing and Congestion Control.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4602.

Prerequisite(s): COMP 2401 with a minimum grade of C-, and (COMP 2402 or SYSC 2100).

Lectures three hours a week.

COMP 3301 [0.5 credit]**Technical Writing for Computer Science**

Technical communication for computer science majors, concentrating on writing scientific papers and technical reports. Principles of clarity and precision in writing and communication. Practical exercises and readings from recent technical publications will be used.

Prerequisite(s): (COMP 2402 or SYSC 2100) and (COMP 2404 or SYSC 3010 or SYSC 3110).

Lectures three hours a week.

COMP 3308 [0.5 credit]**Bioinformatics**

This practical interdisciplinary course will provide a broad overview of bioinformatics in which computer science and mathematics are applied to solve problems in molecular biology. Topics include gene prediction, sequence alignment, phylogeny, molecular interactions, macromolecular structure prediction and biological databases.

Includes: Experiential Learning Activity

Also listed as BIOC 3008 and BIOL 3008.

Prerequisite(s): BIOC 2200 or BIOL 2200, or BIOL 2201, or permission of the Biochemistry Institute.

Lecture two hours a week, computer workshop three hours a week.

COMP 3400 [0.5 credit]**Computational Logic and Automated Reasoning**

Applications of formal logic in computer science. Symbolic logics such as classical predicate calculus are used to represent domain knowledge, to model computational problems and to solve them by means of automated reasoners. Applications include artificial intelligence, software engineering, data management and hardware verification.

Prerequisite(s): COMP 2804.

Lectures three hours a week.

COMP 3501 [0.5 credit]**Foundations of Game Programming and Computer Graphics**

The theory and practice of 3D graphics for computer games. Topics include: vectors and quaternions; hierarchical transformations; camera and perspective; hardware-accelerated real-time rendering; texture and texture mapping; illumination; and particle systems.

Additional topics may include rigid-body motion, character animation, shadows, and screen-space special effects.

Prerequisite(s): (COMP 2402 or SYSC 2100) and (COMP 2404 or SYSC 3010 or SYSC 3110) and COMP 2501.

Lectures three hours a week.

COMP 3801 [0.5 credit]**Algorithms for Modern Data Sets**

Algorithm design techniques for modern data sets arising in, for example, data mining, web analytics, epidemic spreads, search engines and social networks. Topics may include: data mining, hashing, streaming, clustering, recommendation systems, link analysis, dimensionality reduction, online, social networking, game theoretic and probabilistic algorithms.

Prerequisite(s): COMP 2804 with a minimum grade of B+. Lecture three hours a week.

COMP 3803 [0.5 credit]**Introduction to Theory of Computation**

Theoretical aspects of computer science. Topics include: formal languages and automata theory, computability theory.

Precludes additional credit for COMP 2805 (no longer offered).

Prerequisite(s): COMP 2804.

Lectures three hours a week.

COMP 3804 [0.5 credit]**Design and Analysis of Algorithms I**

An introduction to the design and analysis of algorithms. Topics include: divide-and-conquer, dynamic programming, linear programming, greedy algorithms, graph algorithms, NP-completeness.

Also listed as MATH 3804.

Prerequisite(s): (COMP 2402 or SYSC 2100) and either COMP 2804 or (MATH 2007 and MATH 2108).

Lectures and tutorials three to four and a half hours a week.

COMP 3805 [0.5 credit]**Discrete Structures and Applications (Honours)**

Enumeration: inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes. Designs and finite geometries. Symmetry and counting.

Also listed as MATH 3855.

Precludes additional credit for MATH 3805 (no longer offered) and MATH 3825.

Prerequisite(s): MATH 2100 or a grade of B or higher in MATH 2108 or MATH 3101.

Lectures three hours a week and one hour tutorial.

COMP 3807 [0.5 credit]**Mathematical Software**

Incorporation of basic numerical methods into efficient, reliable software. The course includes examination of existing software systems, e.g. linear systems, non-linear systems, optimization, or differential equations.

Includes: Experiential Learning Activity

Also listed as MATH 3807.

Prerequisite(s): A grade of C- or higher in COMP 3806 or MATH 3806.

COMP 3910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 2911 and registration in internship option.

COMP 3911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 3910 and registration in internship option.

COMP 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

COMP 4000 [0.5 credit]**Distributed Operating Systems**

An advanced course emphasizing the principles of distributed operating systems including networking protocols, distributed file systems, remote IPC mechanisms, graphical user interfaces, load balancing, and process migration. Case studies include current "standards" as well as novel systems under development.

Includes: Experiential Learning Activity

Prerequisite(s): (COMP 3000 or SYSC 4001) and (COMP 3203 or SYSC 4602).

Lectures three hours a week.

COMP 4001 [0.5 credit]**Distributed Computing**

Overview of distributed computing. Topics include: computational models, communication complexity, design and analysis of distributed algorithms and protocols, fault-tolerant protocols, synchronous computations. Applications may include: communication in data networks, control in distributed system (e.g., election, distributed mutual exclusion), manipulation of distributed data (e.g., ranking).

Prerequisite(s): COMP 1805 with a minimum grade of C-, COMP 2401 with a minimum grade of C-, and (COMP 2406 or SYSC 4504).

Lectures three hours a week.

COMP 4002 [0.5 credit]**Real-Time 3D Game Engines**

The design and implementation of game engines for real-time 3D games including topics such as camera control, environmental effects, articulated models, terrain, vegetation, collision detection, particles, emitters, triggers, portals, waypoints, mirrors, and shadows.

Prerequisite(s): COMP 2404 or SYSC 3010 or SYSC 3110.

Lectures three hours a week.

COMP 4003 [0.5 credit]**Transaction Processing Systems**

Concepts and architectures of transaction processing systems and on-line transaction processing, with emphasis on data integration systems. Transaction properties and models, embedded-SQL, active rules, consistency maintenance, serializability, concurrency control, recovery, data integration systems and federated databases, introduction to transactions in web services and workflow systems.

Prerequisite(s): (COMP 2404 or SYSC 3010 or SYSC 3110) and COMP 3005.

Lectures three hours a week.

COMP 4004 [0.5 credit]**Software Quality Assurance**

Introduction to the theory and practice of Software Quality Assurance. Topics include: equivalence partitioning, test-driven testing, unit testing patterns, refactoring, software metrics, requirements engineering, scenario modeling and acceptance testing, model-based testing, state machine testing, software testing theory and tools.

Precludes additional credit for SYSC 4101.

Prerequisite(s): COMP 3004.

Lectures three hours a week.

COMP 4009 [0.5 credit]**Programming for Clusters and Multi-Core Processors**

Introduction to parallel architectures, programming languages and algorithms for processor clusters and multi-core processors. Distributed memory architectures, cluster computing, message passing parallel programming, multi-core processors, shared memory parallel programming, use of thread libraries, parallel performance analysis.

Prerequisite(s): (COMP 2402 or SYSC 2100) and (COMP 2404 or SYSC 3010 or SYSC 3110) and COMP 2804.

Lectures three hours a week.

COMP 4102 [0.5 credit]**Computer Vision**

The basic ideas and techniques of computer vision. The central theme is reconstructing 3D models from 2D images. Topics include: image formation, image feature extraction, camera models, camera calibration, structure from motion, stereo, recognition, augmented reality, image searching.

Prerequisite(s): (COMP 2404 or SYSC 3010 or SYSC 3110) and (MATH 1104 or MATH 1107).

Lectures three hours a week.

COMP 4107 [0.5 credit]**Neural Networks**

An introduction to neural networks and deep learning. Theory and application of Neural Networks to problems in machine learning. Various network architectures will be discussed. Methods for improving optimization and generalization of neural networks. Neural networks for unsupervised learning.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 5206.

Prerequisite(s): COMP 3105 and (MATH 1104 or MATH 1107).

Lectures three hours a week.

COMP 4108 [0.5 credit]**Computer Systems Security**

Information security in computer and communications systems. Topics include: design principles; operating system security and access control; web and software security; malicious software, security infrastructure; secure email; network authentication; firewalls; intrusion detection; IP security; network attacks; wireless security.

Precludes additional credit for SYSC 4810.

Prerequisite(s): (COMP 3000 or SYSC 4001) and

COMP 3109.

Lectures three hours a week.

COMP 4111 [0.5 credit]**Data Management for Business Intelligence**

Application of computational techniques to support business activities, such as decision making, business understanding, data analysis, business process automation, learning from data, producing and using data-centric business models, ontology-based data access and integration, data quality assessment and cleaning and use of contextual data.

Prerequisite(s): COMP 3005.

Also offered at the graduate level, with different requirements, as COMP 5111, for which additional credit is precluded.

Lectures three hours a week.

COMP 4202 [0.5 credit]**Computational Aspects of Geographic Information Systems**

Through recent advances in navigation systems, mobile devices, and new software such as Mapquest and Google Earth, GIS is becoming increasingly important and exciting from a CS perspective. This course lays the algorithmic foundations to understand, use and further this technology.

Prerequisite(s): COMP 3804 or MATH 3804.

Also offered at the graduate level, with different requirements, as COMP 5204, for which additional credit is precluded.

Lecture three hours a week.

COMP 4203 [0.5 credit]**Wireless Networks and Security**

An introduction to wireless networks covering both networking issues and security aspects of modern wireless environments. Fundamentals of mobile LANs, ad hoc, sensor networks, secure routing, searching, clustering, multicasting, localization, mobile IP/TCP, confidentiality, key establishment, authentication, broadcasting, RFIDs, and rogue attacks.

Prerequisite(s): COMP 3203 or SYSC 4602.

Lectures three hours a week.

COMP 4206 [0.5 credit]**Evolving Information Networks**

Convergence of social and technological networks. Interplay between information content, entities creating it and technologies supporting it. Structure and analysis of such networks, models abstracting their properties, techniques link analysis, search, mechanism design, power laws, cascading, clustering and connections with work in social sciences.

Prerequisite(s): COMP 1805, (COMP 2401 with a minimum grade of C-) and (COMP 2406 or SYSC 4504).

Also offered at the graduate level, with different requirements, as COMP 5310, for which additional credit is precluded.

Lecture three hours a week.

COMP 4308 [0.5 credit]**Computational Systems Biology**

Modeling and simulation of metabolic and regulatory networks towards understanding complex and highly dynamic cellular systems. Biotechnological applications include metabolic engineering, synthetic biology, and drug discovery.

Includes: Experiential Learning Activity

Also listed as BIOC 4008.

Prerequisite(s): BIOC 3101 or permission of the Biochemistry Institute.

Lecture one and a half hours per week, workshop one and a half hours per week.

COMP 4501 [0.5 credit]**Advanced Facilities for Real-Time Games**

A practical course on the design and implementation of modern game engines and advanced facilities provided by these engines. Such facilities include systems for rendering 3D scenes; simulating physics; playing animations; game AI; and enabling multi-player games. Students will undertake a significant game development project.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 3501.

Lectures three hours a week.

COMP 4601 [0.5 credit]**Intelligent Web-based Information Systems**

Introduction to the principles and practice of creation, delivery and analysis of multimedia content in web-based systems. Topics include analysis of webs of documents, social network analysis, recommender systems and problems of trust, reputation and influence in e-commerce systems.

Includes: Experiential Learning Activity

Prerequisite(s): (COMP 2404 or SYSC 3010 or SYSC 3110) and (COMP 2406 or COMP 2601 or SYSC 4504).

Lecture/lab four hours a week.

COMP 4602 [0.5 credit]**Social Networking**

Introduction to virtual communities, overlay networks and social networking. Topics include architectural principles for heterogeneous social networking platforms, trust and reputation as social concepts, agent-based computing, and extraction of trends and patterns from information exchanged between community members.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3601 (no longer offered).

Prerequisite(s): ((COMP 2404 or SYSC 3010 or SYSC 3110) and (COMP 2406 or SYSC 4504)) or COMP 2601.

Lectures/labs four hours per week.

COMP 4701 [0.5 credit]**Computing, Society, and Ethics**

This course examines ethical questions raised by computing technologies - both motivated by recent developments and through the lens of fiction. Students will identify possible ethical issues in future technologies and use formal ethics frameworks to evaluate the merits and pitfalls of different solutions.

Includes: Experiential Learning Activity

Prerequisite(s): Any two of the following: COMP 3004, COMP 3005, COMP 3008, COMP 3105, COMP 3106, COMP 3109, COMP 3308, COMP 3804.

Lectures three hours a week.

COMP 4803 [0.5 credit]**Computable Functions**

Recursive functions and computability, algorithms, Church's thesis, Turing machines, computational logic, NP-completeness.

Also listed as MATH 4803.

Prerequisite(s): MATH 2100 or COMP 3805 or permission of the School.

COMP 4804 [0.5 credit]**Design and Analysis of Algorithms II**

A second course on the design and analysis of algorithms. Topics include: advanced recurrence relations, algebraic complexity, advanced graph algorithms, amortized analysis, algorithms for NP-complete problems, randomized algorithms.

Prerequisite(s): COMP 3804 or MATH 3804.

Lectures three hours a week.

COMP 4805 [0.5 credit]**Theory of Automata**

Finite automata and regular expressions, properties of regular sets, context-free grammars, pushdown automata, deterministic context-free languages. Turing machines, the Chomsky hierarchy. Undecidability, intractable problems.

Also listed as MATH 4805.

Precludes additional credit for MATH 5605.

Prerequisite(s): COMP 3805 or MATH 3106 or MATH 3158 (or MATH 3100) or permission of the School.

Lectures three hours a week.

COMP 4806 [0.5 credit]**Numerical Linear Algebra**

Study of matrix inversion techniques; techniques of finding eigenvalues and eigenvectors, solution of systems of linear equations; direct and indirect methods, their comparison and error analysis; applications in optimization and other areas.

Also listed as MATH 4806.

Prerequisite(s): MATH 2152 or MATH 1102 (no longer offered) or MATH 2107; and MATH 2000 and COMP 3806, or permission of the School.

Lectures three hours a week.

COMP 4900 [0.5 credit]**Advanced Topics in Computer Science**

Selected topics in Computer Science offered by members of the School of Computer Science.

Prerequisite(s): permission of the School of Computer Science.

Lectures three hours a week and up to three hours of tutorials a week.

COMP 4901 [0.5 credit]**Directed Studies**

Independent study under the supervision of a member of the School of Computer Science, open only to students in the B.C.S. program. Students are required to obtain their supervisor's written approval prior to registration and are limited to two such courses in their program.

Prerequisite(s): permission of the School of Computer Science.

COMP 4905 [0.5 credit]**Honours Project**

Under the supervision of a faculty member, Honours students complete a major Computer Science project in fourth year. Permission to register is granted once an approved project proposal is submitted to the Department. See deadlines and details on the School web site.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4906.

Prerequisite(s): registration in the B.C.S. Honours program or one of the Combined Computer Science Honours programs and permission of the School of Computer Science.

COMP 4906 [1.0 credit]**Honours Thesis**

An independent research project under the direct supervision of a faculty advisor. Permission to register is granted once an approved project proposal is submitted to the School of Computer Science. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4905.

Prerequisite(s): fourth-year standing in a B.C.S. Honours program with a minimum CGPA of 9.0 in the major and permission of the School of Computer Science.

COMP 4910 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 3911 and registration in internship option.

COMP 4911 [0.5 credit]**Internship**

The internship exposes students to industrial software development via placement in a local enterprise. The course may only be taken by students participating in one of the School's industrial partnerships and can only be used as a free elective in the B.C.S.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 4910 and registration in internship option.

Criminology and Criminal Justice

This section presents the requirements for programs in:

- CCJ with Concentration in Law B.A. Honours
- CCJ with Concentration in Psychology B.A. Honours
- CCJ with Concentration in Sociology B.A. Honours
- CCJ with Concentration in Law B.A.
- CCJ with Concentration in Psychology B.A.
- CCJ with Concentration in Sociology B.A.
- Minor in Criminology & Criminal Justice

Program Requirements**Criminology and Criminal Justice****B.A. Honours**

Students in the B.A. Honours program choose to follow one of the three following concentrations. The selection must take place before second year status is achieved.

CCJ with Concentration in Law**B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (13.5 credits)**

1. 1.5 credit in:		1.5
CRCJ 1000 [0.5]	Introduction to Criminology and Criminal Justice	
CRCJ 2100 [0.5]	Criminological Theories	
CRCJ 2200 [0.5]	Contemporary Issues in Criminology & Criminal Justice	
2. 2.5 credits in:		2.5
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
LAWS 2908 [0.5]	Methodological Approaches in Legal Studies 1	
3. 0.5 credit in LAWS at the 2000-level or higher		0.5
4. 1.5 credits in LAWS at the 3000-level or higher		1.5
5. 2.0 credits in:		2.0
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
PSYC 2400 [0.5]	Introduction to Forensic Psychology	
PSYC 3402 [0.5]	Criminal Behaviour	
6. 1.0 credit from:		1.0
SOCI 1001 [0.5]	Introduction to Sociology I	
SOCI 1002 [0.5]	Introduction to Sociology II	
SOCI 1003 [1.0]	Introduction to Sociological Perspectives	
7. 1.0 credit in:		1.0
SOCI 2450 [0.5]	Crime and Society	
SOCI 3410 [0.5]	Studies in Criminal Justice	
8. 1.0 credit in:		1.0
CRCJ 3001 [0.5]	Quantitative Methods in Criminology	
CRCJ 3002 [0.5]	Qualitative Methods in Criminology	
9. 1.5 credit in CRCJ or approved CCJ electives at the 3000-level or higher		1.5
10. 1.0 credit in CRCJ or approved CCJ electives at the 4000-level		1.0
B. Credits Not Included in the Major CGPA (6.5 credits)		
11. 5.0 credits in electives, not in Approved CCJ electives		5.0
12. 1.5 credits in free electives		1.5
Total Credits		20.0

Notes for all concentrations:

1. See note entitled **Maximum Number of CCJ Credits** in the Regulations tab above, regarding the maximum permissible Criminology credits for your program.

CCJ with Concentration in Psychology

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits)

1. 1.5 credit in:		1.5
CRCJ 1000 [0.5]	Introduction to Criminology and Criminal Justice	
CRCJ 2100 [0.5]	Criminological Theories	
CRCJ 2200 [0.5]	Contemporary Issues in Criminology & Criminal Justice	
2. 2.0 credits in:		2.0
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
3. 2.0 credits in:		2.0
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
PSYC 2400 [0.5]	Introduction to Forensic Psychology	
PSYC 3402 [0.5]	Criminal Behaviour	
4. 1.0 credit in:		1.0
PSYC 2001 [0.5]	Introduction to Research Methods in Psychology	
PSYC 2002 [0.5]	Introduction to Statistics in Psychology	
5. 0.5 credit in PSYC at the 2000-level or higher		0.5
6. 0.5 credit in PSYC at the 3000-level or higher		0.5
7. 1.0 credit from:		1.0
SOCI 1001 [0.5]	Introduction to Sociology I	
SOCI 1002 [0.5]	Introduction to Sociology II	
SOCI 1003 [1.0]	Introduction to Sociological Perspectives	
8. 1.0 credit in:		1.0
SOCI 2450 [0.5]	Crime and Society	
SOCI 3410 [0.5]	Studies in Criminal Justice	
9. 0.5 credit in:		0.5
CRCJ 3002 [0.5]	Qualitative Methods in Criminology	
10. 1.5 credit in CRCJ or Approved CCJ Electives at the 3000-level or higher		1.5
11. 1.0 credit in CRCJ or Approved CCJ Electives at the 4000-level		1.0
B. Credits Not Included in the Major CGPA (7.5 credits)		
12. 5.0 credits in electives, not in Approved CCJ Electives		5.0
13. 2.5 credits in free electives		2.5
Total Credits		20.0

Notes for all Concentrations:

- See note entitled **Maximum Number of CCJ Credits** in the Regulations tab above, regarding the maximum permissible Criminology credits for your program.

CCJ with Concentration in Sociology

B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.0 credits)

1. 1.5 credit in:		1.5
CRCJ 1000 [0.5]	Introduction to Criminology and Criminal Justice	
CRCJ 2100 [0.5]	Criminological Theories	

CRCJ 2200 [0.5] Contemporary Issues in Criminology & Criminal Justice

2. 2.0 credits in:		2.0
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
3. 2.0 credits in:		2.0
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
PSYC 2400 [0.5]	Introduction to Forensic Psychology	
PSYC 3402 [0.5]	Criminal Behaviour	
4. 1.0 credit from:		1.0
SOCI 1001 [0.5]	Introduction to Sociology I	
SOCI 1002 [0.5]	Introduction to Sociology II	
SOCI 1003 [1.0]	Introduction to Sociological Perspectives	
5. 2.0 credits in:		2.0
SOCI 2000 [0.5]	Foundations of Sociological Inquiry	
SOCI 2001 [0.5]	Introduction to Qualitative Research Methods	
SOCI 2450 [0.5]	Crime and Society	
SOCI 3410 [0.5]	Studies in Criminal Justice	
6. 0.5 credit in SOCI at the 2000-level or higher		0.5
7. 1.0 credit in SOCI at the 3000-level or higher		1.0
8. 0.5 credit in:		0.5
CRCJ 3001 [0.5]	Quantitative Methods in Criminology	
9. 1.5 credit in CRCJ or Approved CCJ Electives at the 3000-level or higher		1.5
10. 1.0 credit in CRCJ or Approved CCJ Electives at the 4000-level		1.0
B. Credits Not Included in the Major CGPA (7.0 credits)		
11. 5.0 credits in electives, not in Approved CCJ Electives		5.0
12. 2.0 credits in free electives		2.0
Total Credits		20.0

Notes for all Concentrations:

- See note entitled **Maximum Number of CCJ Credits** in the Regulations tab above, regarding the maximum permissible Criminology credits for your program.

Program Requirements for Criminology and Criminal Justice

B.A.

Students in the B.A. program choose to follow one of the three following concentrations. The selection must take place before second year status is achieved.

CCJ with Concentration in Law

B.A. (15.0 credits)

A. Credits Included in the Major CGPA (10.5 credits)

1. 1.5 credit in:		1.5
CRCJ 1000 [0.5]	Introduction to Criminology and Criminal Justice	
CRCJ 2100 [0.5]	Criminological Theories	

CRCJ 2200 [0.5]	Contemporary Issues in Criminology & Criminal Justice	
2. 2.5 credits in:		2.5
LAWS 1001 [0.5]	Introduction to Legal Studies 1	
LAWS 1002 [0.5]	Introduction to Legal Studies 2	
LAWS 2301 [0.5]	Criminal Justice System	
LAWS 2302 [0.5]	Criminal Law	
LAWS 2908 [0.5]	Methodological Approaches in Legal Studies 1	
3. 1.0 credits in LAWS at the 2000-level or higher		1.0
4. 2.0 credits in:		2.0
PSYC 1001 [0.5]	Introduction to Psychology I	
PSYC 1002 [0.5]	Introduction to Psychology II	
PSYC 2400 [0.5]	Introduction to Forensic Psychology	
PSYC 3402 [0.5]	Criminal Behaviour	
5. 1.0 credit from:		1.0
SOCI 1001 [0.5]	Introduction to Sociology I	
SOCI 1002 [0.5]	Introduction to Sociology II	
SOCI 1003 [1.0]	Introduction to Sociological Perspectives	
6. 1.0 credit in:		1.0
SOCI 2450 [0.5]	Crime and Society	
SOCI 3410 [0.5]	Studies in Criminal Justice	
7. 1.5 credit in CRCJ or approved CCJ Electives at the 3000-level		1.5
B. Credits Not Included in the Major CGPA (4.5 credits)		
8. 2.5 credits in electives, not in Approved CCJ electives		2.5
9. 2.0 credits in free electives		2.0
Total Credits		15.0

Notes for all concentrations:

1. See note entitled **Maximum Number of CCJ Credits** in the Regulations tab above, regarding the maximum permissible Criminology credits for your program.

**CCJ with Concentration in Psychology
B.A. (15.0 credits)**

A. Credits Included in the Major CGPA (11.0 credits)		
1. 1.5 credit in:		1.5
CRCJ 1000 [0.5]	Introduction to Criminology and Criminal Justice

SOCI 3420 [0.5]	Studies in Gender and Criminal Justice
SOCI 3450 [0.5]	Studies in Law Enforcement
SOCI 4410 [0.5]	Advanced Studies in Criminology
SOCI 4702 [0.5]	Special Topic in Criminal Justice and Social Policy

Notes

- The total number of Criminology and Criminal Justice courses in the B.A. and B.A. (Honours) program may not exceed 12.5 (B.A.) and 15.0 (B.A. Honours). Consult the Institute if clarification is required.
- Students may request permission to offer courses towards the Major which are not listed as electives, including those offered by the Criminal Justice and Social Policy Summer School, as well as special topics courses offered from time to time by the Institute or Departments of Law, Psychology and Sociology.

Students should consult the Institute for a listing of courses approved as alternative electives.

Regulations

In addition to the program requirements described here, students must satisfy:

1. the University regulations (see the *Academic Regulations of the University* section of this Calendar),
2. the common regulations applying to all B.A. students. The B.A. Breadth requirement is waived for students in Criminology and Criminal Justice.

Students should consult with the Institute when selecting courses and planning their program.

Maximum Number of CCJ Credits

The total number of Criminology and Criminal Justice credits in the B.A. and B.A. (Honours) program may not exceed 12.5 (B.A.) and 15.0 (B.A. Honours). This is the sum of credits used in the Major and Concentration PLUS free electives chosen from the list of Approved CCJ electives. Consult the Institute if clarification is required.

Field Placement Practicum

The Field Placement Practicum (CRCJ 3901 [1.0] Practicum in Criminology I) is offered at the 3000-level to students in CCJ programs. Students complete a 1.0 (or 2.0) credit Field Placement Practicum course during the fall/winter session. To be eligible for the Practicum students must have completed at least 9.0 credits by May 1, including all of the 1000- and 2000-level requirements in the Major CGPA. Enrollment is restricted. A floating cutoff will be used to identify the students with the highest Major CGPA over those required courses, who may then receive permission to register for the Field Placement. Allocation of Field Placements will be determined by the Field Placement Coordinator.

Students wishing to register for a Field Placement Practicum must apply to the Institute no later than **May 1** of their second year. Applications are available at carleton.ca/criminology after January 1. If granted permission, students will then register in CRCJ 3901 [1.0] Practicum in Criminology I during registration. Students in the B.A. Honours program may receive permission to complete a 2.0 credit placement, in which case they will also register in CRCJ 3902 [1.0] Practicum in Criminology II.

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-

year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew, Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Architecture, Biology, Chemistry, Computer Science, Earth Sciences, Engineering, Environmental Science, Food Science and Nutrition, Health Sciences, Industrial Design, Information Resource Management, Information

Technology (BIT), Information Technology (ITEC), Interactive Multimedia and Design, Mathematics, Neuroscience, Network Technology, Optical Systems and Sensors, Photonics, Statistics, Physics, and Technology, Society, Environment.

Subject codes: ACSE, AERO, ARCC, ARCH, ARCN, ARCS, ARCU, BIOC, BIOL, BIT, CHEM, CIVE, CMPS, COMP, ECOR, ELEC, ENSC, ENVE, ERTH, FOOD, HLTH, IDES, IMD, IRM, ISCI, ISCS, ISYS, ITEC, MAAE, MATH, MECH, NET, NEUR, NSCI, OSS, PHYS, PLT, SREE, STAT, SYSC, TSES

Breadth Area 4: Social Sciences

Anthropology, Business, Cognitive Science, Criminology and Criminal Justice, Economics, Environmental Studies, Geography, Geomatics, Global and International Studies, Global Politics, Interdisciplinary Public Affairs, International Affairs, Law, Migration and Diaspora Studies, Political Management, Political Science, Psychology, Public Administration, Public Affairs and Policy Management, Social Work, Sociology/Anthropology, Sociology

Subject codes: ANTH, BUSI, CGSC, CRCJ, ECON, ENST, GEOG, GEOM, GINS, GPOL, INAF, IPAF, LAWS, MGDS, PADM, PAPM, POLM, PSCI, PSYC, SOCI, SOWK

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

B.A. Honours Criminology and Criminal Justice

Admission to Criminology and Criminal Justice (CCJ) with advanced standing and transfer within the B.A. to CCJ by change of major is limited. Students require a minimum overall CGPA of 7.50 and will be admitted to the Honours program. Access to the CCJ B.A. degree is limited to CCJ B.A. Honours registered students who apply to transfer and to graduates of the Algonquin College Police Foundations program.

Criminology and Criminal Justice (CRCJ) Courses

CRCJ 1000 [0.5 credit]

Introduction to Criminology and Criminal Justice

Overview of the field, including the foundational approaches of criminology and criminal justice, crime as an object of study; criminal law and criminality in Canada; (neo) classical, aetiological and social reaction perspectives; alternative criminologies. Lectures/tutorials three hours a week.

CRCJ 2100 [0.5 credit]

Criminological Theories

Comprehensive survey of the plurality of criminological theories, from phrenology to contemporary theories concerned with issues related to crime and punishment. Students are encouraged to develop critical and reflexive thinking on various criminological issues and theories. Prerequisite(s): CRCJ 1000 and second-year standing. Lectures three hours per week.

CRCJ 2200 [0.5 credit]

Contemporary Issues in Criminology & Criminal Justice

Survey of contemporary criminological and criminal justice issues, ranging from criminalization, crime prevention, and surveillance strategies to debates about the criminal justice system, punishment, and reintegration. Specific topics will vary from year to year. Prerequisite(s): CRCJ 1000 and second-year standing. Lecture three hours per week.

CRCJ 3001 [0.5 credit]

Quantitative Methods in Criminology

Methods used conducting quantitative research. Topics include measuring and manipulating variables, reliability, validity, sampling, experimental, quasi-experimental designs and ethics. Prerequisite(s): CRCJ 1000 and third-year standing in the B.A Honours program in Criminology and Criminal Justice. Lectures and seminar three hours a week, laboratory one hour a week.

CRCJ 3002 [0.5 credit]**Qualitative Methods in Criminology**

Methods used conducting qualitative research. Topics include field research, interviewing, ethnographic research, content analysis and ethics.

Includes: Experiential Learning Activity

Prerequisite(s): CRCJ 1000 and third-year standing in the B.A Honours program in Criminology and Criminal Justice.

Lectures and seminar three hours a week, laboratory one hour a week.

CRCJ 3100 [0.5 credit]**Policing (in)Security**

Theories and case studies addressing contemporary efforts to police the world of (in)securities. Emphasis on Canadian dynamics within these broader transformations.

Prerequisite(s): CRCJ 1000, third-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute.

Lecture and discussion three hours per week.

CRCJ 3110 [0.5 credit]**Policing and Public Health**

This interdisciplinary course introduces students to myriad ways in which the practices of Canadian public health authorities are intertwined with police and the criminal legal system. Students can expect interactive class activities and guest lecturers.

Includes: Experiential Learning Activity

Prerequisite(s): CRCJ 1000, third-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute.

Lecture and discussion three hours per week.

CRCJ 3200 [0.5 credit]**Indigeneity, Coloniality, and Crime**

This course explores issues related to Indigenous peoples, the criminal justice system and community with an emphasis on Indigenous scholarship and perspectives on criminology and crime.

Prerequisite(s): CRCJ 1000, INDG 1010, or INDG 1011, third year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute.

Lecture and discussion three hours per week.

CRCJ 3201 [0.5 credit]**Special Criminological Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): CRCJ 1000, third-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute.

Lectures three hours per week.

CRCJ 3202 [0.5 credit]**Special Criminological Topics**

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): CRCJ 1000, third-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute.

Lectures three hours per week.

CRCJ 3901 [1.0 credit]**Practicum in Criminology I**

Through a field placement in an agency setting, students are provided the opportunity to obtain practical involvement in various aspects of criminal justice. In the seminar class, discussions, presentations and assignments integrate applied, theoretical and empirical knowledge. CRCJ 3901 may not be repeated.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing in a B.A. in Criminology and Criminal Justice, including all of the 1000- and 2000- level requirements in the Major CGPA, and permission of the Institute.

Field placement eight hours a week, seminar three hours a week.

CRCJ 3902 [1.0 credit]**Practicum in Criminology II**

Through a field placement in an agency setting, students are provided the opportunity to obtain practical involvement in various aspects of criminal justice. In the seminar class, discussions, presentations and assignments integrate applied, theoretical and empirical knowledge. CRCJ 3902 may not be repeated.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year Honours standing in Criminology and Criminal Justice, including all of the 1000- and 2000- level requirements in the Major CGPA, and permission of the Institute.

Field placement eight hours a week, seminar three hours a week.

CRCJ 4001 [0.5 credit]**Special Topics in Criminology**

Examination of a special topic in criminology. Topics to be announced in advance of registration each year.

Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute.

Seminar three hours per week.

CRCJ 4002 [0.5 credit]**Special Topics in Criminology**

Examination of a special topic in criminology. Topics to be announced in advance of registration each year.

Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute.

Seminar three hours per week.

CRCJ 4100 [0.5 credit]**Psychology of the Jury**

This course will explore the jury system in Canada and other countries. Jury selection, deliberation, and instructions will be discussed, in addition to a number of legal and extra-legal influences on jury decision-making. Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute. Seminar three hours per week.

CRCJ 4110 [0.5 credit]**Race and the Criminal Justice System in Canada**

A participatory class that explores debates regarding issues of racial bias and systemic racism in the Canadian criminal justice system. Students can expect class activities, documentary viewings, and guest lecturers from the field.

Prerequisite(s): CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute. Seminar three hours per week.

CRCJ 4200 [0.5 credit]**Policing Sex**

This seminar explores the policing of consensual sexual practices, paying particular attention to the theorization of consent, harm, liberation and agency in a sexual and legal context.

Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute. Seminar three hours per week.

CRCJ 4300 [0.5 credit]**Social Control**

Introduction to social control from early theorizations linking social control to the genesis of the self, to preoccupations with the sorting of humans and the guiding of their conducts, including contemporary engagements with moralization, penal intensification, sovereign exceptionality, and immigration control.

Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute. Seminar three hours per week.

CRCJ 4400 [0.5 credit]**Crime, Emotions, and The Senses**

This course examines the relationship between sensations, emotions, affect, crime, criminalization, social control, and penalty. It questions the rational/emotional binary and investigates how shame, humiliation, fear, panic, pain, pleasure, disgust, empathy and revenge, relate to offender motivation, criminalization, victimization, adjudication, and punishment.

Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute. Seminar three hours per week.

CRCJ 4500 [0.5 credit]**Art of (in)Justice**

A participatory class that explores how social and artist movements engage with issues of justice and injustice. Features group work, some off-campus classes during course hours, guest speakers.

Includes: Experiential Learning Activity
Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute. Seminar three hours per week.

CRCJ 4600 [0.5 credit]**Sociologies of Punishment**

This introductory seminar on the sociology of punishment proposes an overview of theoretical perspectives animating its contemporary forms. This overview prepares the ground for a survey of contemporary scholarship and issues in the sociology of punishment.

Prerequisite(s): CRCJ 1000, CRCJ 2100, fourth-year standing, and enrollment in a B.A. or Minor in Criminology and Criminal Justice, or by permission of the Institute. Seminar three hours per week.

CRCJ 4908 [1.0 credit]**Honours Thesis**

A research project conducted under the direct supervision of a faculty adviser from Criminology and Criminal Justice, Psychology, Law or Sociology. Mandatory workshops and symposiums are scheduled during the year.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the B.A. Honours program in Criminology and Criminal Justice with a CGPA of 10.00 or better in the Major and permission of the Institute.

Workshops and symposiums as scheduled.

CRCJ 4910 [0.5 credit]**Independent Study in Criminology and Criminal Justice**

A reading or research course conducted under the supervision of a faculty advisor from Criminology and Criminal Justice, Psychology, Law or Sociology. Students may not include more than 1.0 credit of independent study in their total program.

Prerequisite(s): fourth-year standing in the B.A. Honours program in Criminology and Criminal Justice and permission of the Institute.

CRCJ 4920 [0.5 credit]**Independent Study in Criminology and Criminal Justice**

A reading or research course conducted under the supervision of a faculty advisor from Criminology and Criminal Justice, Psychology, Law or Sociology. Students may not include more than 1.0 credit of independent study in their total program.

Prerequisite(s): fourth-year standing in the B.A. Honours program in Criminology and Criminal Justice and permission of the Institute.

Critical Race Studies (Minor)

Program Requirements

Minor in Critical Race Studies (4.0 credits)

This minor is available to all undergraduate degree students.

Requirements:

1. 1.0 credit from:		1.0
FYSM 1402 [1.0]	Issues in Women's and Gender Studies	
WGST 1808 [1.0]	Introduction to Feminist Social Transformation	
2. 0.5 credit in:		0.5
CRST 2001 [0.5]	Introduction to Critical Race Studies	
3. 1.0 credits in CRST or CRST-approved electives at the 2000-level or higher		1.0
4. 1.5 credits in CRST or CRST-approved electives at the 3000-level or higher		1.5
5. The remaining credits of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Notes:

Other courses may be substituted for the credits specified in item 3 and 4, when material on critical race is central to the course. Such substitutions must be individually approved by the Institute of Women's and Gender Studies. Students are encouraged to consult course descriptions of Special Topics courses.

Approved Critical Race Studies Electives

Note: access to these courses is not guaranteed, and may depend on space availability and the satisfaction of other requirements such as course prerequisites.

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Continuation Evaluation (see the Academic Regulations of the University section of this Calendar).

Critical Race Studies (CRST) Courses

CRST 2001 [0.5 credit]

Introduction to Critical Race Studies

Foundations and central tenets of critical race theory, its interdisciplinary debates, applications, and evolutions. Historical roots of oppression, white settler-colonialism, understanding of privilege and power, social construction of race, socio-political conditions producing systemic and institutional racism, intersections with sexism, homophobia, transphobia, classism, and ableism. Includes: Experiential Learning Activity
Prerequisite(s): Second year standing.
Lectures and discussion three hours a week.

CRST 3812 [0.5 credit]

Interdisciplinary Topics in Critical Race Studies

An interdisciplinary analysis of one or more topics in critical race studies. The topics of this course will vary from year to year and are announced in advance of registration. Includes: Experiential Learning Activity
Prerequisite(s): Third year standing and WGST 1808 or FYSM 1402 or permission of the Institute of Women's and Gender Studies.
Lectures three hours per week. This course is repeatable when the topic changes.

CRST 4001 [0.5 credit]

Advanced Critical Race Studies

Interdisciplinary seminar on race, colonialism and feminisms including theories of racial and cultural difference, structures of privilege and power, and forms of resistance. Intersectional theoretical approaches to anti-colonial and feminist analyses of racial subjugation, and engagements with Black, Indigenous and women of colour feminisms. Includes: Experiential Learning Activity
Prerequisite(s): Fourth-year standing and 1.0 credit in Women's and Gender Studies or permission of the Institute of Women's and Gender Studies.
Seminar three hours per week.

Digital Humanities

Program Requirements

Minor in Digital Humanities (4.0 credits)

Open to all undergraduate students.

Requirements:

1. 1.0 credit in:		1.0
DIGH 2001/ ENGL 2400 [0.5]	Introduction to Digital Humanities	
DIGH 2002/ ENGL 2401 [0.5]	Digital Humanities: Theory and Method	
2. 2.0 credits from:		2.0
DIGH 2035/ SOCI 2035 [0.5]	Technology, Culture and Society	
DIGH 2705/ SOCI 2705 [0.5]	Popular Culture in the Digital Age	
DIGH 3001/ ENGL 3401 [0.5]	The Book in the Digital Age

DIGH 4005/ ENGL 4405 [0.5]	Digital Humanities Practicum	
HIST 4302 [1.0]	Canada: Ideas & Culture	
3. 1.0 credit in approved electives at the 1000 level or higher		1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.		
Total Credits		4.0

Digital Humanities Electives

Applied Linguistics and Discourse Studies

ALDS 3701 [0.5] Corpus Linguistics

Greek and Roman Studies

CLCV 2305 [1.0] Ancient Science and Technology

Computer Science

COMP 1001 [0.5] Introduction to Computational Thinking for Arts and Social Science Students

Communication & Media Studies

COMS 2200 [0.5] Big Data and Society

English

ENGL 2100 [0.5] Topics in Popular Culture

ENGL 2107 [0.5] Science Fiction

Digital Humanities

DIGH 3001 [0.5] The Book in the Digital Age

DIGH 4001 [0.5] Studies in Digital Humanities

DIGH 4002 [0.5] Digital Culture and the Text I

DIGH 4003 [0.5] Digital Culture and the Text II

DIGH 4004 [0.5] Digital Humanities Workshop

DIGH 4005 [0.5] Digital Humanities Practicum

Film Studies

FILM 4901 [0.5] Special Topic

Geography and Environmental Studies

GEOM 1004 [0.5] Maps, Satellites and the Geospatial Revolution

GEOM 2007 [0.5] Vector GIS: Points, Lines and Polygons

History

HIST 3812 [0.5] Digital History

HIST 4006 [1.0] Seminar in Medieval History

HIST 4805 [1.0] Seminar on a Transnational or Thematic Topic

Music

MUSI 3603 [0.5] Computer Music Techniques

Philosophy

PHIL 2106 [0.5] Information Ethics

Political Science

PSCI 3406 [0.5] Public Affairs and Media Strategies

PSCI 4003 [0.5] Politics and the Media

Sociology

SOCI 2035 [0.5] Technology, Culture and Society

SOCI 2705 [0.5] Popular Culture in the Digital Age

Systems and Computer Engineering

SYSC 1005 [0.5] Introduction to Software Development

SYSC 2001 [0.5] Computer Systems Foundations

Technology, Society, Environment Studies

TSES 3001 [0.5] Technology-Society Interactions

TSES 4005 [0.5] Information Technology and Society

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Continuation Evaluation (see the Academic Regulations of the University section of this Calendar).

Digital Humanities (DIGH) Courses

DIGH 2001 [0.5 credit]

Introduction to Digital Humanities

An introduction to the principal debates in and approaches to the Digital Humanities.

Also listed as ENGL 2400.

Prerequisite(s): second-year standing or permission of the College of Humanities.

Lecture three hours a week.

DIGH 2002 [0.5 credit]

Digital Humanities: Theory and Method

A multidisciplinary survey of core theories, methodologies and tools within the Digital Humanities. Assignments will include collaborative work and applied projects.

Includes: Experiential Learning Activity

Also listed as ENGL 2401.

Prerequisite(s): second-year standing or permission of the College of Humanities.

Lecture and workshop three hours a week.

DIGH 2035 [0.5 credit]

Technology, Culture and Society

Principal theories and methods used by Science and Technology Studies (STS) scholars to examine the social and cultural shaping of technology. The substantive focus of the course is on the design, development, production, diffusion, consumption and use of technology.

Also listed as SOCI 2035.

Precludes additional credit for SOCI 2400.

Prerequisite(s): SOCI 1001 and SOCI 1002, or ANTH 1001 or ANTH 1002.

Lectures/discussion groups three hours a week.

DIGH 2700 [0.5 credit]

Special Topics in Digital Humanities

Content of this course may vary from year to year. Please check departmental website for information on the topic.

Lecture 3 hours per week.

DIGH 2705 [0.5 credit]**Popular Culture in the Digital Age**

An examination of various approaches to analyzing digital media and their role in the production and consumption of contemporary cultural forms and practices. Students will reflect upon their use of digital media and the influence they have on their lives and popular culture, more generally.

Also listed as SOCI 2705.

Prerequisite(s): SOCI 1001 and SOCI 1002, or ANTH 1001 or ANTH 1002.

Lecture/discussion groups three hours a week.

DIGH 3001 [0.5 credit]**The Book in the Digital Age**

A multidisciplinary course focused on the social, economic and political dimensions of the book in its manuscript, print and digital forms.

Also listed as ENGL 3401.

Prerequisite(s): third-year standing, or permission of the College of Humanities.

Lecture three hours a week.

DIGH 3035 [0.5 credit]**Science, Culture and Society: Social Studies of Science**

Principal theories and methods used by Science and Technology Studies scholars to examine the social construction of scientific knowledge. Topics may include the demarcation of science from non-science, the relationship between experts and laypersons, and the study of scientific controversies.

Also listed as SOCI 3035, ANTH 3035.

Prerequisite(s): DIGH 2035 or SOCI 2035 and third-year standing.

Lecture three hours a week.

DIGH 3700 [0.5 credit]**Special Topics in Digital Humanities**

Content of this course may vary from year to year. Please check departmental website for information on the topic.

Lecture 3 hours per week.

DIGH 3704 [0.5 credit]**Cognitive Science and the Digital Humanities**

Exploration of the roles of human and artificial cognition in the digital humanities. Topics may include virtual and augmented reality as applied to the humanities, cognitive issues in hypertext and hypermedia; linguistic and philosophical considerations in digital media, cognitive narratology, and artificial intelligence.

Also listed as CGSC 3704.

Prerequisite(s): CGSC 1001; CGSC 2001 or DIGH 2001; and third-year standing.

Seminar three hours per week.

DIGH 3812 [0.5 credit]**Digital History**

The digital representation of history, exploring the approaches, issues, and methods of working in this environment. Topics may include gaming, virtual environments, digital research tools, public digital history. (Field e).

Includes: Experiential Learning Activity

Also listed as HIST 3812.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lecture three hours a week.

DIGH 3814 [0.5 credit]**Crafting Digital History**

This course applies the creative use of information and media/computing technologies to address the digital cultural heritage issues of public historians, archaeologists, and anthropologists. Topics may include webscraping, data mining, designing and implementing research databases, and visual storytelling of those results. (Field e).

Includes: Experiential Learning Activity

Also listed as HIST 3814.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

DIGH 4001 [0.5 credit]**Studies in Digital Humanities**

A study of current issues and debates in Digital Humanities.

Also listed as ENGL 4155.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Seminar or lecture three hours a week.

DIGH 4002 [0.5 credit]**Digital Culture and the Text I**

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year.

Also listed as ENGL 4125.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Seminar or lecture three hours a week.

DIGH 4003 [0.5 credit]**Digital Culture and the Text II**

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year.

Also listed as ENGL 4145.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Seminar or lecture three hours a week.

DIGH 4004 [0.5 credit]**Digital Humanities Workshop**

This workshop will provide students with the opportunity to complete an individual or collaborative capstone project in the Digital Humanities.

Includes: Experiential Learning Activity

Also listed as ENGL 4404.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Workshop three hours a week.

DIGH 4005 [0.5 credit]**Digital Humanities Practicum**

Practical experience gained by working on projects under the supervision of the staff of a participating public- or private-sector institution or organization, including a final written assignment or equivalent project. A maximum of 1.0 practicum credit may be applied towards degree requirements.

Includes: Experiential Learning Activity

Also listed as ENGL 4405.

Prerequisite(s): DIGH 2002 and fourth-year standing, or permission of the College of Humanities.

Practicum.

Disability Studies (Minor)

Program Requirements**Minor in Disability Studies (4.0 credits)**

Open to all undergraduate degree students.

Requirements:

1. 2.0 credits in:	2.0
WGST 1808 [1.0] Introduction to Feminist Social Transformation	
or FYSM 1402 [1.0] Issues in Women's and Gender Studies	
DBST 2001 [0.5] Disabling Society	
DBST 3001 [0.5] Disability Studies: Policy and Activism	
2. 1.0 credit from:	1.0
CHST 3304/ DBST 3304 [0.5] Disability and Childhood: Transnational Perspectives	
DBST 3002 [0.5] Critical Mad Studies	
HUMR 3304 [0.5] Disability Rights	
SOCI 3060/ DBST 3060 [0.5] Critical Disability Studies	
SOWK 4300 [0.5] Social Work and Persons with Disabilities	
SXST 3103 [0.5] Sexuality and Disability	
3. 1.0 credits in DBST or Approved Disability Studies Electives	1.0
4. The remaining requirements of the major discipline(s) and degree must be satisfied.	
Total Credits	4.0

Notes

1. Courses used to fulfill Items 2 and 3 above must be from more than one discipline.
2. Other courses may be substituted for the credits specified in Items 2 and 3, when material on disability is central to the course. Such substitutions must be

individually approved by the Pauline Jewett Institute of Women's and Gender Studies. Students are encouraged to consult course descriptions of Special Topics courses.

Approved Disability Studies Electives

Note: access to these courses is not guaranteed, and may depend on space availability and the satisfaction of other requirements such as course prerequisites.

APPROVED DISABILITY STUDIES ELECTIVES**Anthropology**

ANTH 3310 [0.5]	Studies in Medical Anthropology
ANTH 4780 [0.5]	Anthropology of Personhood

Critical Race Studies

CRST 2001 [0.5]	Introduction to Critical Race Studies
CRST 3812 [0.5]	Interdisciplinary Topics in Critical Race Studies
CRST 4001 [0.5]	Advanced Critical Race Studies

First Year Seminars (FYSM)

FYSM 1504 [1.0]	Society and the Designed Environment
-----------------	--------------------------------------

History

HIST 3515 [0.5]	Madness in Modern Times
-----------------	-------------------------

Human Rights

HUMR 3504 [0.5]	Public Health and Human Rights
HUMR 4305 [0.5]	Disability and Social Justice

Law

LAWS 3503 [0.5]	Equality and Discrimination
LAWS 3508 [0.5]	Health Law
LAWS 4503 [0.5]	Law, Disability and Society

Psychology

PSYC 2301 [0.5]	Introduction to Health Psychology
PSYC 2500 [0.5]	Foundations of Developmental Psychology

Public Administration

PADM 4221 [0.5]	Health Policy in Canada
PADM 4817 [0.5]	Health Policy in Developing Countries

Sexuality Studies

SXST 2101 [0.5]	Sexuality Studies: A Critical Introduction
SXST 2102 [0.5]	Sexuality, Gender, and Security
SXST 3103 [0.5]	Sexuality and Disability
SXST 3104 [0.5]	Transnational Sexualities
SXST 3106 [0.5]	Queer(ing) Archives
SXST 3812 [0.5]	Interdisciplinary Topics in Sexuality Studies
SXST 4101 [0.5]	Interdisciplinary Studies of Sexuality
SXST 4102 [0.5]	Queer Theory
SXST 4103 [0.5]	Politics of Kink
SXST 4104 [0.5]	Sexuality and Political Economy
SXST 4105 [0.5]	Queer Ecologies
SXST 4106 [0.5]	Queer Aesthetics: Affect, Cultural Production, Sexuality

Social Work

SOWK 4300 [0.5]	Social Work and Persons with Disabilities
-----------------	---

Sociology

SOCI 2050 [0.5]	Sociology of Health
SOCI 3050 [0.5]	Studies in the Sociology of Health
SOCI 3056 [0.5]	Women and Health

Technology, Society, Environment Studies

-----------------	---------------------------------

Women's and Gender Studies

WGST 2801 [0.5]	Activism, Feminisms, and Social Justice
WGST 2803 [0.5]	Body Matters: The Politics of Bodies
WGST 2810 [0.5]	Sex For Sale
WGST 2811 [0.5]	Masculinities
WGST 2812 [0.5]	Selected Topics in Women's and Gender Studies
WGST 2814 [0.5]	Gender, Sexuality and Cultural Production
WGST 3803 [0.5]	Feminisms and Transnationalism
WGST 3807 [0.5]	Gendered Violence
WGST 3812 [0.5]	Selected Topics in Women's and Gender Studies
WGST 4060 [0.5]	African Feminisms
WGST 4812 [0.5]	Selected Topics in Women's and Gender Studies

Regulations

In addition to the requirements listed here, students must satisfy:

1. the University regulations including the process of Academic Continuation Evaluation (see the Academic Regulations of the University section of this Calendar).

Disability Studies (DBST) Courses

DBST 1001 [0.5 credit]

Introduction to Disability Studies

Challenging negative stereotypes of disability by allowing students the opportunity to explore disability through many different venues including history, theory, culture, ethics, policy and disability rights. Reframing disability from personal tragedy to issues of oppression, access, inclusion and equality.

Lectures and discussion groups three hours per week.

DBST 2001 [0.5 credit]

Disabling Society

Interdisciplinary approach to the debates and theories that challenge the normative values, knowledge sources, and cultural representations of disablement in society.

Prerequisite(s): Second-year standing.

Lecture and discussion three hours a week.

DBST 3001 [0.5 credit]

Disability Studies: Policy and Activism

The complex legal, policy and discursive frameworks that shape the lives of persons with disability and the history of the emergence of the disability rights movement as a scholarly and activist challenge to, and renegotiation of, those frameworks.

Includes: Experiential Learning Activity

Precludes additional credit for DBST 4001 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week.

DBST 3002 [0.5 credit]

Critical Mad Studies

A critical examination of the psy-disciplines, sanist beliefs and practices, and dominant mental health discourses in Canada and globally through mad-identified people's experiences, stories, and scholarship.

Includes: Experiential Learning Activity

Prerequisite(s): Third year standing and WGST 1808 or FYSM 1402 or permission of the Institute of Women's and Gender Studies.

Lecture three hours per week.

DBST 3060 [0.5 credit]

Critical Disability Studies

Course engages contemporary disability theory, culture, and activism to consider bodily difference and its relation to the workings of power and social control, accessibility, normalization, ableism, and medicalization. Students will gain an understanding of the contemporary debates, theories, and methodologies of critical disability studies. Also listed as SOCI 3060.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lectures three hours a week.

DBST 3301 [0.5 credit]

Introduction to Deaf Studies

A critical introduction to Deaf community and culture as they relate to a social model of disability, to ethnicity, and to issues of diversity and inclusion. Discourse analysis of research and policy in education for Deaf students from early childhood and beyond.

Also listed as ALDS 3301.

Precludes additional credit for ALDS 3903A if taken in Winter term 2016 or Winter term 2018, and ALDS 4906A if taken in Fall term 2016.

Prerequisite(s): third-year standing in Linguistics or Applied Linguistics and Discourse Studies or enrolment in the Minor in Disability Studies.

Seminars three hours a week.

DBST 3304 [0.5 credit]**Disability and Childhood: Transnational Perspectives**

Drawing on theory and research in disabled children's childhood studies, sociology of childhood, disability studies, and girlhood studies, this course examines the discursive and material constructions of disabled youth and childhood in transnational contexts in relation to emerging neo-colonial, neo-imperialist, and neo-liberal ideologies.

Also listed as CHST 3304.

Prerequisite(s): third-year standing in Childhood and Youth Studies or Disability Studies.

Lecture three hours a week.

DBST 3812 [0.5 credit]**Interdisciplinary Topics in Disability Studies**

An interdisciplinary analysis of one or more topics in critical disability studies. The topics of this course will vary from year to year and are announced in advance of registration.

Includes: Experiential Learning Activity

Prerequisite(s): Third year standing and WGST 1808 or FYSM 1402 or permission of the Institute of Women's and Gender Studies.

Lectures three hours per week. This course is repeatable when the topic changes.

DBST 3900 [0.5 credit]**Independent Study**

Essays, discussions, and/or examinations based on a bibliography constructed by the student in consultation with an instructor.

Prerequisite(s): third or fourth-year standing in the Disability Studies Minor and a CGPA of 9.0 or higher.

DBST 4812 [0.5 credit]**Interdisciplinary Topics in Disability Studies**

An interdisciplinary analysis of one or more topics in critical disability studies.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth year standing and WGST 1808 or FYSM 1402 OR permission of the Institute of Women's and Gender Studies.

Seminar three hours per week. This course is repeatable when the topic changes.

Earth Sciences

This section presents the requirements for programs in:

- Earth Sciences B.Sc. Honours
- Earth Sciences with Concentration in Finance: Resource Valuation B.Sc. Honours
- Earth Sciences with Concentration in Resource Economics B.Sc. Honours
- Earth Sciences with Concentration in Vertebrate Paleontology and Paleoecology B.Sc. Honours
- Earth Sciences with Concentration in Geophysics B.Sc. Honours
- Earth Sciences B.Sc. Major
- Earth Sciences B.Sc.

- Earth Sciences and Physical Geography B.Sc. Combined Honours
- Biology and Earth Sciences B.Sc. Combined Honours
- Chemistry and Earth Sciences B.Sc. Combined Honours
- Minor in Earth Sciences: Earth Resources and Processes

Program Requirements

Course Categories for Earth Sciences Programs

The program descriptions below make use of the following course categories that are defined in the *Academic Regulations for the Bachelor of Science Degree* section of this Calendar.

- Science Faculty Electives
- Advanced Science Faculty Electives
- Science Continuation Courses
- Science Geography
- Science Psychology
- Approved Courses Outside the Faculties of Science and Engineering and Design
- Free Elective

Earth Sciences

B.Sc. Honours (20.0 credits)**A. Credits Included in the Major CGPA (11.0 credits)**

1. 1.0 credit in:		1.0
ERTH 1006 [0.5]	Exploring Planet Earth	
ERTH 1009 [0.5]	The Earth System Through Time	
2. 3.5 credits in:		3.5
ERTH 2102 [0.5]	Mineralogy to Petrology	
ERTH 2104 [0.5]	Igneous Systems, Geochemistry and Processes	
ERTH 2105 [0.5]	Geodynamics	
ERTH 2312 [0.5]	Paleontology	
ERTH 2314 [0.5]	Sedimentation and Stratigraphy	
ERTH 2406 [0.5]	Geology and Map Interpretation	
ERTH 2802 [0.5]	Field Geology I	
3. 0.5 credit from:		0.5
ERTH 3203 [0.5]	Sedimentology	
ERTH 3206 [0.5]	Sedimentary Depositional Systems (See Note, below)	
4. 3.0 credits in:		3.0
ERTH 3003 [0.5]	Geochemistry and Geochronology	
ERTH 3204 [0.5]	Mineral Deposits	
ERTH 3205 [0.5]	Physical Hydrogeology	
ERTH 3207 [0.5]	Metamorphic Petrology and Processes	
ERTH 3405 [0.5]	Geophysical Methods	
ERTH 3806 [0.5]	Structural Geology (See Note, below)	
5. 2.0 credits in EARTH at the 4000-level		2.0
6. 1.0 credit from:		1.0
ERTH 4908 [1.0]	Honours Thesis	
ERTH 4909 [0.5] and 0.5 credit in EARTH at the 4000 level		
B. Credits Not Included in the Major CGPA (9.0 credits)		
7. 1.0 credit in:		1.0

MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
8. 1.0 credit from:		1.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
9. 1.0 credit in:		1.0
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
10. 0.5 credit in:		0.5
BIOL 1104 [0.5]	Foundations of Biology II	
11. 0.5 credit in:		0.5
COMP 1005 [0.5]	Introduction to Computer Science I	
12. 0.5 credit in:		0.5
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
13. 0.5 credit in:		0.5
ERTH 2004 [0.5]	Maps, Satellites and the Geospatial Revolution	
14. 1.0 credit in	Science Continuation Courses (not EARTH)	1.0
15. 0.5 credit in:		0.5
NSCI 1000 [0.5]	Seminar in Science (or approved courses outside the faculties of Science and Engineering and Design)	
16. 1.5 credits in	approved courses outside the faculties of Science and Engineering and Design	1.5
17. 1.0 credit in	free electives.	1.0
Total Credits		20.0

Note:

- For Items 14-17, students admitted to the Minor in Business should substitute the requirements for the Minor. See the Business section of this Calendar.

Earth Sciences with Concentration in Finance: Resource Valuation

B.Sc. Honours (21.0 credits)

A. Credits included in the Major CGPA (10.5 credits)

1. 1.0 credit in:		1.0
ERTH 1006 [0.5]	Exploring Planet Earth	
ERTH 1009 [0.5]	The Earth System Through Time	
2. 3.0 credits in:		3.0
ERTH 2102 [0.5]	Mineralogy to Petrology	
ERTH 2104 [0.5]	Igneous Systems, Geochemistry and Processes	
ERTH 2105 [0.5]	Geodynamics	
ERTH 2314 [0.5]	Sedimentation and Stratigraphy	
ERTH 2406 [0.5]	Geology and Map Interpretation	
ERTH 2802 [0.5]	Field Geology I	
3. 0.5 credit from:		0.5
ERTH 3203 [0.5]	Sedimentology	
ERTH 3206 [0.5]	Sedimentary Depositional Systems (See Note, below)	
4. 3.0 credits in:		3.0
ERTH 3003 [0.5]	Geochemistry and Geochronology	
ERTH 3204 [0.5]	Mineral Deposits	
ERTH 3205 [0.5]	Physical Hydrogeology	

ERTH 3207 [0.5]	Metamorphic Petrology and Processes	
ERTH 3405 [0.5]	Geophysical Methods	
ERTH 3806 [0.5]	Structural Geology (See Note, below)	
5. 0.5 credit in:		0.5
ERTH 4303 [0.5]	Resources of a Finite Earth	
6. 1.5 credits in	ERTH at the 4000-level	1.5
7. 1.0 credit from:		1.0
ERTH 4909 [0.5]	Research in Earth Sciences and 0.5 credit in EARTH at the 4000-level	
OR		
ERTH 4910 [1.0]	Honours Thesis in Resource Evaluation	
B. Credits Not Included in the Major CGPA (10.5 credits)		
8. 1.0 credit in:		1.0
MATH 1007 [0.5]	Elementary Calculus I	
MATH 1107 [0.5]	Linear Algebra I	
9. 1.0 credit from:		1.0
CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
10. 0.5 credit in:		0.5
PHYS 1007 [0.5]	Elementary University Physics I	
11. 0.5 credit from:		0.5
BIOL 1104 [0.5]	Foundations of Biology II	
COMP 1005 [0.5]	Introduction to Computer Science I	
12. 0.5 credit in:		0.5
ERTH 2004 [0.5]	Maps, Satellites and the Geospatial Revolution	
13. 1.0 credit from:		1.0
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
& STAT 2509 [0.5]	Introduction to Statistical Modeling II	
14. 1.5 credit in:		1.5
ECON 1001 [0.5]	Introduction to Microeconomics	
& ECON 1002 [0.5]	Introduction to Macroeconomics	
ECON 2009 [0.5]	Managerial Economics	
15. 3.5 credits in:		3.5
BUSI 1001 [0.5]	Principles of Financial Accounting	
BUSI 1002 [0.5]	Management Accounting	
BUSI 2504 [0.5]	Business Finance I	
BUSI 2505 [0.5]	Business Finance II	
BUSI 3500 [0.5]	Applied Corporate Finance	
BUSI 3502 [0.5]	Investments	
BUSI 3512 [0.5]	Derivatives	
16. 1.0 credit from:		1.0
ECON 3803 [0.5]	The Economics of Natural Resources	
BUSI 4500 [0.5]	Advanced Corporate Finance	
BUSI 4510 [0.5]	Mergers and Acquisitions	
Total Credits		21.0

CHEM 1001 [0.5]	General Chemistry I	
& CHEM 1002 [0.5]	General Chemistry II	
CHEM 1005 [0.5]	Elementary Chemistry I	
& CHEM 1006 [0.5]	Elementary Chemistry II	
11. 1.0 credit in:		1.0
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
12. 0.5 credit in:		0.5
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
13. 0.5 credit in:		0.5
COMP 1005 [0.5]	Introduction to Computer Science I	
14. 1.0 credit in	Science Continuation courses	1.0
15. 2.0 credits in	Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)	2.0
16. 1.0 credit in	free electives	1.0
Total Credits		20.0

Chemistry and Earth Sciences

B.Sc. Combined Honours (20.0 credits)

A. Credits Included in the Major CGPA (13.5 credits)

1. 4.0 credits in:		4.0
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
CHEM 2103 [0.5]	Physical Chemistry I	
CHEM 2302 [0.5]	Analytical Chemistry I	
CHEM 2303 [0.5]	Analytical Chemistry II	
CHEM 2501 [0.5]	Introduction to Inorganic and Bioinorganic Chemistry	
CHEM 3100 [0.5]	Physical Chemistry II	
CHEM 3503 [0.5]	Inorganic Chemistry I	
2. 1.0 credit in	CHEM at the 4000-level	1.0
3. 1.0 credit in:		1.0
ERTH 1006 [0.5]	Exploring Planet Earth	
ERTH 1009 [0.5]	The Earth System Through Time	
4. 3.0 credits in:		3.0
ERTH 2102 [0.5]	Mineralogy to Petrology	
ERTH 2104 [0.5]	Igneous Systems, Geochemistry and Processes	
ERTH 2105 [0.5]	Geodynamics	
ERTH 2314 [0.5]	Sedimentation and Stratigraphy	
ERTH 2406 [0.5]	Geology and Map Interpretation	

ERTH 2802 [0.5]	Field Geology I	
5. 0.5 credit from:		0.5
ERTH 3203 [0.5]	Sedimentology	
ERTH 3206 [0.5]	Sedimentary Depositional Systems (See Note, below)	
6. 2.0 credits in:		2.0
ERTH 3003 [0.5]	Geochemistry and Geochronology	
ERTH 3204 [0.5]	Mineral Deposits	
ERTH 3207 [0.5]	Metamorphic Petrology and Processes	
ERTH 3806 [0.5]	Structural Geology	
7. 1.0 credit in EARTH at the 4000-level		1.0
8. 1.0 credit from:		1.0
CHEM 4907 [1.0]	Honours Essay and Research Proposal	
CHEM 4908 [1.0]	Research Project and Seminar	
ERTH 4908 [1.0]	Honours Thesis	
ERTH 4909 [0.5]	Research in Earth Sciences (and 0.5 credit in EARTH at the 4000- level)	
B. Credits Not Included in the Major CGPA (6.5 credits)		
9. 1.0 credit in:		1.0
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1107 [0.5]	Linear Algebra I	
10. 0.5 credit from:		0.5
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 2007 [0.5]	Elementary Calculus II	
11. 0.5 credit in:		0.5
STAT 2507 [0.5]	Introduction to Statistical Modeling I	
12. 0.5 credit in:		0.5
ERTH 2004 [0.5]	Maps, Satellites and the Geospatial Revolution	
13. 1.0 credit from:		1.0
PHYS 1003 [0.5]	Introductory Mechanics and	
& PHYS 1004 [0.5]	Thermodynamics Introductory Electromagnetism and Wave Motion	
PHYS 1007 [0.5]	Elementary University Physics I	
& PHYS 1008 [0.5]	Elementary University Physics II	
14. 0.5 credit in:		0.5
BIOL 1104 [0.5]	Foundations of Biology II	
15. 0.5 credit in Science Faculty Electives (not CHEM or EARTH)		0.5
16. 0.5 credit in:		0.5
NSCI 1000 [0.5]	Seminar in Science (or approved course outside the faculties of Science and Engineering and Design)	
17. 1.5 credits in approved courses outside the faculties of Science and Engineering and Design		1.5
Total Credits		20.0

Note: for Item 5 above, EARTH 3203 is required if prerequisite conditions are met.

Minor in Earth Sciences: Earth Resources and Processes (4.0 credits)

The Minor is available to students registered in degree programs other than those offered by the Department of Earth Sciences.

Requirements

1. 1.0 credit in:		1.0
ERTH 1006 [0.5]	Exploring Planet Earth	
ERTH 1009 [0.5]	The Earth System Through Time	
2. 2.5 credits from:		2.5
ERTH 2012 [0.5]	Planet Hollywood	
ERTH 2312 [0.5]	Paleontology	
ERTH 2314 [0.5]	Sedimentation and Stratigraphy	
ERTH 2401 [0.5]	Dinosaurs	
ERTH 2402 [0.5]	Climate Change: An Earth Sciences Perspective	
ERTH 2403 [0.5]	Introduction to Oceanography	
ERTH 2415 [0.5]	Natural Disasters	
ERTH 2419 [0.5]	On the Origin of Planets	
ERTH 3113 [0.5]	Geology of Human Origins	
ERTH 3206 [0.5]	Sedimentary Depositional Systems	
3. 0.5 credit in:		0.5
ERTH 4303 [0.5]	Resources of a Finite Earth	

Total Credits **4.0**

Regulations

In addition to program requirements described here, students must satisfy:

1. the University regulations (see the *Academic Regulations of the University* section of this Calendar),
2. the Faculty regulations applying to all B.Sc. students including those relating to Science Continuation and Breadth requirements.

Students should consult with the department, school or committee responsible for their program when planning their program and selecting courses.

B.Sc. Regulations

The regulations presented in this section apply to all Bachelor of Science programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see the *Academic Regulations of the University* section of this Calendar).

Breadth Requirement for the B.Sc.

Students in a Bachelor of Science program must present the following credits at graduation:

1. 2.0 credits in Science Continuation courses not in the major discipline; **students completing a double major are considered to have completed this requirement providing they have 2.0 credits in Science Continuation courses in each of the two majors;**
2. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000)

In most cases, the requirements for individual B.Sc. programs, as stated in this Calendar, contain these requirements, explicitly or implicitly.

Students admitted to B.Sc. programs by transfer from another institution must present at graduation (whether taken at Carleton or elsewhere):

1. 2.0 credits in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received fewer than 10.0 transfer credits; or,
2. 1.0 credit in courses outside of the faculties of Science and Engineering and Design (may include NSCI 1000) if the student received 10.0 or more transfer credits.

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program within the B.Sc. Degree

To transfer to a program within the B.Sc. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.10 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.Sc. degree must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrolment limitations, and/or specific program, program element or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is meeting the minimum CGPAs described in Section 3.1.9 of the *Academic Regulations of the University*, as well as being subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry.

Experimental Science Requirement

Students in a B.Sc. degree program must present at graduation at least two full credits of Experimental Science chosen from two different departments or institutes from the list below:

Approved Experimental Science Courses

Biochemistry

BIOC 2200 [0.5]	Cellular Biochemistry
BIOC 4001 [0.5]	Methods in Biochemistry
BIOC 4201 [0.5]	Advanced Cell Culture and Tissue Engineering

Biology

BIOL 1103 [0.5]	Foundations of Biology I
BIOL 1104 [0.5]	Foundations of Biology II
BIOL 2001 [0.5]	Animals: Form and Function
BIOL 2002 [0.5]	Plants: Form and Function
BIOL 2104 [0.5]	Introductory Genetics
BIOL 2200 [0.5]	Cellular Biochemistry
BIOL 2600 [0.5]	Ecology

Chemistry

CHEM 1001 [0.5]	General Chemistry I
CHEM 1002 [0.5]	General Chemistry II
CHEM 1005 [0.5]	Elementary Chemistry I
CHEM 1006 [0.5]	Elementary Chemistry II
CHEM 2103 [0.5]	Physical Chemistry I
CHEM 2203 [0.5]	Organic Chemistry I
CHEM 2204 [0.5]	Organic Chemistry II
CHEM 2302 [0.5]	Analytical Chemistry I
CHEM 2303 [0.5]	Analytical Chemistry II
CHEM 2800 [0.5]	Foundations for Environmental Chemistry

Earth Sciences

ERTH 1006 [0.5]	Exploring Planet Earth
ERTH 1009 [0.5]	The Earth System Through Time
ERTH 2102 [0.5]	Mineralogy to Petrology
ERTH 2404 [0.5]	Engineering Geoscience
ERTH 2802 [0.5]	Field Geology I
ERTH 3111 [0.5]	Vertebrate Evolution: Mammals, Reptiles, and Birds
ERTH 3112 [0.5]	Vertebrate Evolution: Fish and Amphibians
ERTH 3204 [0.5]	Mineral Deposits
ERTH 3205 [0.5]	Physical Hydrogeology
ERTH 3806 [0.5]	Structural Geology

Food Sciences

FOOD 3001 [0.5]	Food Chemistry
FOOD 3002 [0.5]	Food Analysis
FOOD 3005 [0.5]	Food Microbiology

Geography

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 3108 [0.5]	Soil Properties

Neuroscience

NEUR 3206 [0.5]	Sensory and Motor Neuroscience
NEUR 3207 [0.5]	Systems Neuroscience
NEUR 4600 [0.5]	Advanced Lab in Neuroanatomy

Physics

PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II
PHYS 1003 [0.5]	Introductory Mechanics and Thermodynamics
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion
PHYS 1007 [0.5]	Elementary University Physics I
PHYS 1008 [0.5]	Elementary University Physics II
PHYS 2202 [0.5]	Wave Motion and Optics
PHYS 2604 [0.5]	Modern Physics I
PHYS 3007 [0.5]	Third Year Physics Laboratory: Selected Experiments and Seminars

PHYS 3606 [0.5]	Modern Physics II
PHYS 3608 [0.5]	Modern Applied Physics

Course Categories for B.Sc. Programs

Science Geography Courses

GEOG 1010 [0.5]	Global Environmental Systems
GEOG 2006 [0.5]	Introduction to Quantitative Research
GEOG 2013 [0.5]	Weather and Water
GEOG 2014 [0.5]	The Earth's Surface
GEOG 3003 [0.5]	Quantitative Geography
GEOG 3010 [0.5]	Field Methods in Physical Geography
GEOG 3102 [0.5]	Geomorphology
GEOG 3103 [0.5]	Watershed Hydrology
GEOG 3104 [0.5]	Principles of Biogeography
GEOG 3105 [0.5]	Climate and Atmospheric Change
GEOG 3106 [0.5]	Aquatic Science and Management
GEOG 3108 [0.5]	Soil Properties
GEOG 4000 [0.5]	Field Studies
GEOG 4005 [0.5]	Directed Studies in Geography
GEOG 4013 [0.5]	Cold Region Hydrology
GEOG 4017 [0.5]	Global Biogeochemical Cycles
GEOG 4101 [0.5]	Two Million Years of Environmental Change
GEOG 4103 [0.5]	Water Resources Engineering
GEOG 4104 [0.5]	Microclimatology
GEOG 4108 [0.5]	Permafrost

Science Psychology Courses

PSYC 2001 [0.5]	Introduction to Research Methods in Psychology
PSYC 2002 [0.5]	Introduction to Statistics in Psychology
PSYC 2700 [0.5]	Introduction to Cognitive Psychology
PSYC 3000 [1.0]	Design and Analysis in Psychological Research
PSYC 3506 [0.5]	Cognitive Development
PSYC 3700 [1.0]	Cognition (Honours Seminar)
PSYC 3702 [0.5]	Perception
PSYC 2307 [0.5]	Human Neuropsychology I
PSYC 3307 [0.5]	Human Neuropsychology II

Science Continuation Courses

A course at the 2000 level or above may be used as a Science Continuation credit in a B.Sc. program if it is not in the student's major discipline, and is chosen from the following:

BIOC (Biochemistry)

BIOL (Biology) Biochemistry students may use BIOL 2005 only as a free elective.

CHEM (Chemistry)

COMP (Computer Science) A maximum of two half-credits at the 1000-level in COMP, excluding COMP 1001 may be used as Science Continuation credits.

ERTH (Earth Sciences), except ERTH 2415 which may be used only as a free elective for any B.Sc. program. Students in Earth Sciences programs may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering. Students wishing to register in Engineering courses must obtain the permission of the Faculty of Engineering and Design.

ENSC (Environmental Science)

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Sciences)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics), except PHYS 2903

Science Geography Courses (see list above)

Science Psychology Courses (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) except TSES 2305. Biology students may use these courses only as free electives. Integrated Science and Environmental Science students may include these courses in their programs but may not count them as part of the Science Sequence.

Science Faculty Electives

Science Faculty Electives are courses at the 1000-4000 level chosen from:

BIOC (Biochemistry)

BIOL (Biology) Biology & Biochemistry students may use BIOL 1010 and BIOL 2005 only as free electives

CHEM (Chemistry) except CHEM 1003, CHEM 1004 and CHEM 1007

COMP (Computer Science) except COMP 1001

ERTH (Earth Sciences) except ERTH 1010, ERTH 1011 and ERTH 2415. Earth Sciences students may use ERTH 2401, ERTH 2402, and ERTH 2403 only as free electives.

Engineering

ENSC 2001

FOOD (Food Science and Nutrition)

GEOM (Geomatics)

HLTH (Health Science)

ISAP (Interdisciplinary Science Practice)

MATH (Mathematics)

NEUR (Neuroscience)

PHYS (Physics) except PHYS 1901, PHYS 1902, PHYS 1905, PHYS 2903

Science Geography (see list above)

Science Psychology (see list above)

STAT (Statistics)

TSES (Technology, Society, Environment) Biology students may use these courses only as free electives.

Advanced Science Faculty Electives

Advanced Science Faculty Electives are courses at the 2000-4000 level chosen from the Science Faculty Electives list above.

Approved Courses Outside the Faculties of Science and Engineering and Design (may include NSCI 1000)

All courses offered by the Faculty of Arts and Social Sciences, the Faculty of Public Affairs, and the Sprott School of Business are approved as Arts or Social Sciences courses EXCEPT FOR: All Science Geography courses (see list above), all Geomatics (GEOM) courses, all Science Psychology courses (see list above). NSCI 1000 may be used as an Approved Course Outside the Faculties of Science and Engineering and Design.

Free Electives

Any course is allowable as a Free Elective providing it is not prohibited (see below). Students are expected to comply with prerequisite requirements and enrolment restrictions for all courses as published in this Calendar.

Courses Allowable Only as Free Electives in any B.Sc. Program

BIOL 4810 [0.5]	Education Research in Biology
CHEM 1003 [0.5]	The Chemistry of Food, Health and Drugs
CHEM 1004 [0.5]	Drugs and the Human Body
CHEM 1007 [0.5]	Chemistry of Art and Artifacts
ERTH 1010 [0.5]	Our Dynamic Planet Earth
ERTH 1011 [0.5]	Evolution of the Earth
ERTH 2415 [0.5]	Natural Disasters
ISCI 1001 [0.5]	Introduction to the Environment
ISCI 2000 [0.5]	Natural Laws
ISCI 2002 [0.5]	Human Impacts on the Environment
MATH 0107 [0.5]	Algebra and Geometry
PHYS 1901 [0.5]	Planetary Astronomy
PHYS 1902 [0.5]	From our Star to the Cosmos
PHYS 1905 [0.5]	Physics Behind Everyday Life
PHYS 2903 [0.5]	Physics Towards the Future

Prohibited Courses

The following courses are not acceptable for credit in any B.Sc. program:

COMP 1001 [0.5]	Introduction to Computational Thinking for Arts and Social Science Students
MATH 0005 [0.5]	Precalculus: Functions and Graphs
MATH 0006 [0.5]	Precalculus: Trigonometric Functions and Complex Numbers
MATH 1009 [0.5]	Mathematics for Business
MATH 1119 [0.5]	Linear Algebra: with Applications to Business
MATH 1401 [0.5]	Elementary Mathematics for Economics I
MATH 1402 [0.5]	Elementary Mathematics for Economics II

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.Sc. Honours Earth Sciences: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Completion of 5.0 or more credits at Carleton University;
2. Registered as a full-time student in the Bachelor of Science Honours degree program;
3. Obtained and maintained a major CGPA of 8.0 or higher and an overall CGPA of 6.50 or higher

B.Sc. Honours Earth Sciences students must successfully complete three (3) work terms to obtain the co-op designation.

Work Term Course: EARTH 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern
Fall	S	Fall	S	Fall	S	Fall	*W/S	Fall	S
Winter	S	Winter	S	Winter	S	Winter	*W/S	Winter	S
Summer	**O/W	Summer	*W	Summer	O/W	Summer	O/W		

Legend

S: Study

W: Work

O: Optional

* indicates recommended work study pattern

** student finds own employer for this work-term.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degrees

- B.Sc. (Honours)
- B.Sc. (Major)
- B.Sc.

Admission Requirements

B. Sc. Honours

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. For most programs including Biochemistry, Bioinformatics, Biotechnology, Chemistry, Combined Honours in Biology and Physics, Chemistry and Physics, Computational Biochemistry, Food Science, Nanoscience, Neuroscience and Biology, Neuroscience and Mental Health, and Psychology, the six 4U or M courses must include Advanced Functions, and two of Biology, Chemistry, Earth and Space Sciences, or Physics. (Calculus and Vectors is strongly recommended).

Specific Honours Admission Requirements

For the Honours programs in Earth Sciences, Environmental Science, Geomatics, Interdisciplinary Science and Practice, and Physical Geography, Calculus and Vectors may be substituted for Advanced Functions.

For the Honours programs in Physics and Applied Physics, and for double Honours in Mathematics and Physics, Calculus and Vectors is required in addition to Advanced Functions and one of 4U Physics, Chemistry, Biology, or Earth and Space Sciences. For all programs in Physics, 4U Physics is strongly recommended.

For Honours in Psychology, a 4U course in English is recommended.

For Honours in Environmental Science, a 4U course in Biology and Chemistry is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects deemed appropriate for the program and stream selected.

B.Sc. Major and B.Sc.

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include Advanced Functions and two of Calculus and Vectors, Biology, Chemistry, Earth and Space Science, or Physics (Calculus and Vectors is strongly recommended). For the B.Sc. Major in Physics, 4U Physics is strongly recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be *Eligible to Continue* (EC) in their year level. Advanced

standing will be granted only for those subjects deemed appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Science Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Note that meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Earth Sciences (ERTH) Courses

ERTH 1006 [0.5 credit]

Exploring Planet Earth

Origin of the Earth, concepts of geological time, and exploration of the interaction and duration of geological processes that shape the surface to deep interior of our planet, the climate, and formation of rocks and earth resources.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 1001 (no longer offered), ERTH 1010, ERTH 2404.

Prerequisite(s): a 4U/M level in Advanced Functions and at least one of Biology, Chemistry, Earth and Space Sciences or Physics are recommended. This course is for students who are enrolled in the Faculty of Science. Lectures three hours a week, a laboratory three hours a week, and a field excursion.

ERTH 1009 [0.5 credit]

The Earth System Through Time

Origin and co-evolution of Earth and life over its 4.56 billion year history. Connections between plate tectonics, rock formation, climate and global change. Early marine life, colonization of land, mass extinctions, and the use of fossils for interpreting past ecosystems.

Includes: Experiential Learning Activity

Precludes additional credit for GEOL 1008 (no longer offered), ERTH 1011.

Prerequisite(s): This course is for students who are enrolled in the Faculty of Science.

Lectures three hours a week, a laboratory three hours a week.

ERTH 1010 [0.5 credit]

Our Dynamic Planet Earth

Origin of the Earth, concepts of geological time, and exploration of the interaction and duration of geological processes that shape the surface to deep interior of our planet, the climate, and formation of rocks and earth resources.

Precludes additional credit for ERTH 1001 (no longer offered) and ERTH 1006.

Prerequisite(s): a 4U/M level in Advanced Functions and at least one of Biology, Chemistry, Earth and Space Sciences or Physics are recommended. This course is for students who are not enrolled in the Faculty of Science. Lectures three hours a week.

ERTH 1011 [0.5 credit]

Evolution of the Earth

Origin and co-evolution of Earth and life over its 4.56 billion year history. Connections between plate tectonics, rock formation, climate and global change. Early marine life, colonization of land, mass extinctions and the use of fossils for interpreting past ecosystems.

Precludes additional credit for GEOL 1008 (no longer offered) and ERTH 1009.

Prerequisite(s): a 4U/M level in Advanced Functions and at least one of Biology, Chemistry, Earth and Space Sciences or Physics are recommended; ERTH 1010 is normally taken prior to this course. This course is for students who are not enrolled in the Faculty of Science. Lectures three hours a week.

ERTH 2004 [0.5 credit]

Maps, Satellites and the Geospatial Revolution

Introduction to the creation and use of maps using a variety of geospatial tools to better understand and resolve physical, social and environmental problems. Overview of geomatics (cartography and map design, geographic information systems, GPS, remote sensing). Also listed as GEOM 1004.

Precludes additional credit for GEOM 2004 (no longer offered).

Lectures and laboratory, four hours a week.

ERTH 2012 [0.5 credit]

Planet Hollywood

Earth Science concepts and content portrayed in Hollywood films are sometimes accurate but more frequently misrepresented. This course will examine popular Hollywood films to critically evaluate the Earth Science concepts and content that they present and directly compare them to the actual science.

Online modules, bi-weekly film screenings and discussions four hours per week.

ERTH 2102 [0.5 credit]**Mineralogy to Petrology**

Chemical, optical and crystallographic properties of common rock-forming minerals, with introduction to common mineral assemblages of igneous, sedimentary, and metamorphic rocks.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3202 (no longer offered).

Prerequisite(s): ERTH 1006 and (ERTH 1009 or GEOG 2013) and (CHEM 1001 or CHEM 1005) and (CHEM 1002 or CHEM 1006) and (MATH 1004 or MATH 1007) and (MATH 1104 or MATH 1107).

Lectures two hours a week and laboratory three hours a week.

ERTH 2104 [0.5 credit]**Igneous Systems, Geochemistry and Processes**

The sources and magmatic evolution of volcanic and plutonic rocks systems, with emphasis on geochemical, mineralogical, and textural characteristics, and relations to igneous processes.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3202 (no longer offered).

Prerequisite(s): (CHEM 1001 or CHEM 1005) and (CHEM 1002 or CHEM 1006), (MATH 1004 or MATH 1007), (MATH 1104 or MATH 1107) and ERTH 2102.

Lectures three hours a week, laboratory three hours a week and a field excursion.

ERTH 2105 [0.5 credit]**Geodynamics**

The structure, composition, and rheological properties of the Earth: lithosphere, mantle and core. Plate tectonics and its relation to geophysical fields, driving mechanisms, and processes at plate boundaries and in plate interiors.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3805 (no longer offered).

Prerequisite(s): ERTH 1006 and (ERTH 1009 or GEOG 2013).

Lectures two hours a week and a laboratory three hours a week.

ERTH 2312 [0.5 credit]**Paleontology**

Introduction to macrofossil and microfossil groups, their paleoenvironmental significance, and principles of evolutionary paleoecology.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 2316, GEOL 2301 (no longer offered) and GEOL 2306 (no longer offered).

Prerequisite(s): ERTH 1006 and (ERTH 1009 or GEOG 2013).

Lectures two hours a week and a laboratory three hours a week.

ERTH 2314 [0.5 credit]**Sedimentation and Stratigraphy**

Origin of sediments and their transport, distribution, and primary structures; processes of sediment-to-rock transformation; spatial patterns; controls of stratigraphy; methods of correlation.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 2318.

Prerequisite(s): ERTH 1006 and (ERTH 1009 or GEOG 2013).

Lectures three hours a week and a laboratory three hours a week.

ERTH 2316 [0.5 credit]**Paleoecology**

Introduction to macrofossil and microfossil groups, their paleoenvironmental significance, and principles of evolutionary paleoecology.

Precludes additional credit for ERTH 2312. Not available for credit in B.Sc. Earth Sciences programs.

Prerequisite(s): ERTH 1006 and ERTH 1009. Priority given to students in the Minor in Earth Sciences.

Lectures two hours a week.

ERTH 2318 [0.5 credit]**Sedimentology**

Origin of sediments and their transport, distribution, and primary structures; processes of sediment-to-rock transformation; spatial patterns; controls of stratigraphy and methods of correlation.

Precludes additional credit for ERTH 2314. Not available for credit in B.Sc. Earth Sciences programs.

Prerequisite(s): ERTH 1006 and ERTH 1009. Priority given to students in the Minor in Earth Sciences.

Lectures three hours a week.

ERTH 2401 [0.5 credit]**Dinosaurs**

A general introduction to dinosaurs, their place in evolution, their social behaviour, the Mesozoic landscape and extinction theories.

Lectures three hours a week.

ERTH 2402 [0.5 credit]**Climate Change: An Earth Sciences Perspective**

An exploration of the often dramatic climate changes that have occurred through earth history from a geological perspective, emphasizing the history of earth climates, geological causes of climate change and impact that rapid climate change has had on the biosphere.

Lectures three hours a week.

ERTH 2403 [0.5 credit]**Introduction to Oceanography**

An environmental approach to understanding the oceans; introducing the physical and biological aspects of oceanography, marine resources and marine pollution.

Precludes additional credit for ERTH 3206.

Lectures three hours per week.

ERTH 2404 [0.5 credit]**Engineering Geoscience**

Applications of the basic concepts of geology, earth materials and earth processes to practical engineering and environmental science. Topics include rock and soil mechanics, slope stability, hydrogeology, geological hazards, and site investigations. Overview of related geophysical methods.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 2414 (no longer offered) and ERTH 1006.

Prerequisite(s): completion of first year of any B.Eng. program.

Lectures three hours a week and a laboratory three hours a week.

ERTH 2406 [0.5 credit]**Geology and Map Interpretation**

Analysis and interpretation of geological features and processes using rocks, maps and cross sections.

Introduction to computational methods.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2102 and ERTH 2004.

Lectures two hours a week and a laboratory three hours a week.

ERTH 2415 [0.5 credit]**Natural Disasters**

Physical characteristics and causes of natural disasters of geological origin such as volcanic eruptions, earthquakes, tsunamis, landslides, hurricanes and meteor impacts.

Discussion on historical perspective, societal impact and mitigation strategies. Emphasis on Canadian case histories.

Precludes additional credit for ERTH 1003 (no longer offered).

Prerequisite(s): second-year standing in any degree program. With the exception of the Minor in Earth Sciences, available as a free elective only in any B.Sc. program, including Earth Sciences.

Lectures three hours a week.

ERTH 2419 [0.5 credit]**On the Origin of Planets**

Origin and evolution of all planetary objects in the solar system. Topics include the geology of comets, asteroids, the terrestrial planets and rocky moons, Earth's formation and early evolution, ocean worlds, the search for exoplanets and detection of extraterrestrial life.

Lectures three hours a week.

ERTH 2802 [0.5 credit]**Field Geology I**

Field analysis using geological, geophysical and computational methods leading to the interpretation of the origins of geological features and processes.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2406 and permission of the department.

Field work for two weeks off campus. A supplementary fee will apply.

ERTH 3002 [0.5 credit]**Gemology**

Gemstones including their physical and chemical properties, geological formation and geographic occurrence. Introduction to gemological laboratory methods.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2102.

Lectures two hours a week and laboratory two hours a week.

ERTH 3003 [0.5 credit]**Geochemistry and Geochronology**

Geochemical composition of reservoirs from the deep Earth to surface environments. Use of geochemistry and isotope geochemistry to track geological processes. Introduction to a variety of scientific dating methods (geochronology).

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 2101 (no longer offered).

Prerequisite(s): ERTH 2102, ERTH 2104 and ERTH 2105.

Lecture three hours a week and a laboratory two hours a week.

ERTH 3111 [0.5 credit]**Vertebrate Evolution: Mammals, Reptiles, and Birds**

Evolution of mammals, reptiles and birds. Emphasis on surveying amniote diversity, and the origin of key amniote transformations, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as BIOL 3111.

Prerequisite(s): ERTH 1009 or BIOL 2001, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

ERTH 3112 [0.5 credit]**Vertebrate Evolution: Fish and Amphibians**

Evolution of fish and amphibians. Emphasis on surveying fish and amphibian diversity, and the origin of key transformations of these groups, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as BIOL 3112.

Prerequisite(s): ERTH 1009 or BIOL 2001, or permission of the department.

Lectures two hours a week and a laboratory three hours a week.

ERTH 3113 [0.5 credit]**Geology of Human Origins**

The origin and evolution of our species from geological, biological and cultural perspectives. The course traces human ancestry from our primate roots through time and changing environments, and explores controversies, frauds, and misperceptions.

Prerequisite(s): any 1000 or 2000 level Earth Sciences or Biology course.

Lectures three hours per week.

ERTH 3203 [0.5 credit]**Sedimentology**

A 10-day field study of modern and ancient sedimentary and ecological systems and their stratigraphy in a geological region outside of the Ottawa area. Subsequent in-class seminars examine significant changes in sedimentary environments through Earth's history. A supplementary fee will apply.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 3201 (no longer offered).

Prerequisite(s): EARTH 2314, enrolment in one of the EARTH Honours, Combined Honours or Major programs, a 2000-level CGPA of 8.0 and permission of the Department.

Ten-day off-campus field course.

ERTH 3204 [0.5 credit]**Mineral Deposits**

Analysis and interpretation of the geological and geochemical processes responsible for mineral deposit genesis in a global context.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2104.

Lectures and laboratory five hours a week.

ERTH 3205 [0.5 credit]**Physical Hydrogeology**

Principles of deep- to shallow fluid flow within the Earth's crust, and introduction to the exploration, development and management of groundwater as a global resource.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 1006 and (ERTH 1009 or GEOG 2013).

Lecture three hours a week and a laboratory three hours a week.

ERTH 3206 [0.5 credit]**Sedimentary Depositional Systems**

Application of sedimentary facies in class and local field-based settings to interpret modern and ancient depositional environments and stratigraphic succession related to climatic and oceanographic influences.

Subsequent in-class seminars examine significant changes in sedimentary environments through Earth's history.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 3208 (no longer offered).

Prerequisite(s): EARTH 2314.

Field and class based instruction, 6 hours a week.

ERTH 3207 [0.5 credit]**Metamorphic Petrology and Processes**

Genesis of metamorphic rocks as determined from field, petrographic and geochemical data.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 3202 (no longer offered).

Prerequisite(s): EARTH 2104.

Lectures two hours a week, a laboratory three hours a week and a field excursion.

ERTH 3405 [0.5 credit]**Geophysical Methods**

An introduction to the tools of applied geophysics including seismology, electrical, magnetic, and gravitational surveying methods.

Includes: Experiential Learning Activity

Precludes additional credit for EARTH 2405 (no longer offered).

Prerequisite(s): EARTH 2105.

Lecture two hours a week and a laboratory three hours a week.

ERTH 3806 [0.5 credit]**Structural Geology**

Structures and deformational processes in a variety of crustal settings. Applications to geological engineering and mineral and petroleum exploration.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2105 and EARTH 2406.

Lecture two hours a week and a laboratory three hours a week.

ERTH 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ERTH 4003 [0.5 credit]**Directed Studies in Geology**

One or more projects involving at least 15 days field and/or laboratory research, not related to thesis research.

Assessment based on written reports and an oral presentation. Expenses for long-distance travel are borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in any B.Sc. Hons. or Combined Hons. program in Earth Sciences.

Schedule to be arranged.

ERTH 4004 [0.5 credit]**Special Topics in Earth Sciences**

Field, laboratory or literature research, not related to thesis research. Assessment based on written reports and an oral presentation. Expenses for travel are borne by the student.

Prerequisite(s): fourth-year standing in any B.Sc. Hons. or Combined Hons. program in Earth Sciences. Major CGPA 8.5 or higher at time of registration for the course.

Schedule to be arranged.

ERTH 4005 [0.5 credit]**Micropaleontology**

Paleoecological and biostratigraphic significance, and evolutionary history of marine and freshwater microorganisms.

Includes: Experiential Learning Activity

Prerequisite(s): EARTH 2312.

Lectures, seminars and/or laboratory five hours a week.

ERTH 4006 [0.5 credit]**Geobiology**

Exploration of the relationship between micro- and macro-evolutionary processes and the Earth's physical and chemical environment. Paleobiology and evolutionary ecology in the context of paleoceanography, paleolimnology and paleoclimatology. May include one or two weeks of field based instruction with costs borne by the student.

Prerequisite(s): ERTH 2312.

Field excursions in addition to lectures or seminars three hours a week.

ERTH 4007 [0.5 credit]**Evolutionary Developmental Paleobiology**

This course explores the mechanistic basis of organismic evolution from genetic, morphogenetic and epigenetic perspectives, within a phylogenetic context of living and extinct vertebrates.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2312 or BIOL 2001, and BIOL 2104.

Lectures or seminars three hours per week.

ERTH 4107 [0.5 credit]**Geotechnical Mechanics**

Soil composition and soil classification. Soil properties, compaction, seepage and permeability. Concepts of pore water pressure, capillary pressure and hydraulic head. Principle of effective stress, stress-deformation and strength characteristics of soils, consolidation, stress distribution with soils, and settlement. Laboratory testing.

Includes: Experiential Learning Activity

Also listed as CIVE 3208.

Prerequisite(s): ERTH 2406 and ERTH 3405.

Lectures three hours a week, laboratory three hours alternate weeks.

ERTH 4206 [0.5 credit]**Contaminant and Remediation Hydrogeology**

Geochemical and physical processes controlling contaminant release, migration, and fate in groundwater along with the processes and techniques used for contaminant mitigation and remediation. Examples will include organic and inorganic contaminants in a variety of settings.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3003 and ERTH 3205.

Lectures and seminars three hours per week.

ERTH 4209 [0.5 credit]**Mineral Exploration Field Geology**

Introduction to the essentials of conducting geological mapping campaign in the Canadian Shield in a field area that has seen considerable industry exploration for volcanogenic massive sulfide mineralization. Activities include outcrop and trench mapping, strain analysis, interpretation of geophysical data, drilling proposals, report writing.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3209.

Prerequisite(s): ERTH 2104, ERTH 3207, ERTH 3806.

Field work for two weeks off-campus. A supplementary fee will apply.

ERTH 4303 [0.5 credit]**Resources of a Finite Earth**

Earth's resources: where they occur, how they are concentrated, how they are extracted and used, how human exploitation of natural resources affects the environment, and the limits to growth imposed by finite supplies of natural resources.

Prerequisite(s): third-year standing in any degree program.

Lectures three hours a week.

ERTH 4305 [0.5 credit]**Carbonate Sedimentology**

The origin, composition and diagenesis of carbonate rocks. Study of modern and ancient platform systems; development of facies models; petrographic and geochemical analysis of limestones and dolostones.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3203 or ERTH 3206.

Lecture two hours a week and a laboratory three hours a week.

ERTH 4306 [0.5 credit]**Resource Basin Analysis**

Surface and subsurface geological and geophysical techniques used to define the distribution and origin of geological basins, the architecture of basin fill, and characterize the distribution of water, petroleum and mineral resources.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3203 or ERTH 3206, ERTH 3205, and ERTH 3806.

Lectures, seminars and laboratory five hours a week.

ERTH 4402 [0.5 credit]**Structural Geology**

A study of the structural evolution of mountain belts, with emphasis on field methods.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3806.

Lectures, seminars and laboratory five hours a week.

ERTH 4403 [0.5 credit]**Tectonic Evolution of Canada**

Geologic evolution of Canada focusing on geological styles and tectonic processes of Archean cratons, Proterozoic and Phanerozoic orogenic belts.

Prerequisite(s): ERTH 3806.

Lectures and seminars three hours a week.

ERTH 4504 [0.5 credit]**Advanced Igneous Petrology**

Volcanology, petrology, mineralogy and geochemistry of igneous rocks and their tectonic setting. May include one to two weeks of field-based instruction with costs borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3003.

Field excursions in addition to lectures or seminars three hours per week.

ERTH 4507 [0.5 credit]**Advanced Metamorphic Petrology**

Introduction to the quantitative analysis of pressure-temperature-time trajectories and rock-forming processes during metamorphic petrogenesis; may include one or two weeks of field-based instruction, with costs borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2802 and ERTH 3207.

Field excursions, lectures, or seminars three hours per week.

ERTH 4707 [0.5 credit]**Engineering Seismology**

Seismological topics with engineering applications. Characterization of seismicity and seismic sources (areas and faults). Seismic hazard analysis. Empirical and theoretical modeling of strong ground motion in time and frequency domains.

Prerequisite(s): (MATH 1004 or MATH 1007), (MATH 1104 or MATH 1107), STAT 2507 and ERTH 3405 or permission of the department.

Also offered at the graduate level, with different requirements, as ERTH 5707, for which additional credit is precluded.

Lectures three hours a week.

ERTH 4801 [0.5 credit]**Physics of the Earth**

The physical properties of the solid Earth. Gravitational, magnetic and palaeomagnetic fields; seismology and earthquake occurrence; heat flow and thermal history. Geodynamic processes.

Prerequisite(s): ERTH 3405.

Also offered at the graduate level, with different requirements, as ERTH 5701, for which additional credit is precluded.

Lectures three hours a week.

ERTH 4803 [0.5 credit]**Radiogenic Isotope Geology**

Use of radiogenic isotope systems to understand the differentiation history and evolution of large-scale isotopic reservoirs. Data, models and interpretations behind our present day knowledge and understanding of the Earth's history. Assessment of geochronological results and interpretations.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3003.

Also offered at the graduate level, with different requirements, as ERTH 5609, for which additional credit is precluded.

Lectures, seminars or laboratories three hours per week.

ERTH 4804 [0.5 credit]**Exploration Geophysics**

Application of geophysical methods to explore for petroleum and mineral resources, with emphasis on seismic and electromagnetic methods. Case histories illustrate the concepts.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3405.

Lectures and laboratories five hours per week.

ERTH 4807 [0.5 credit]**Field Geology II**

Field camp integrating advanced field, theory and experimental data. Assessment is based on reports, seminars, and oral examinations. Part of the cost is borne by the student. Departmental funding assistance is available for only one 4000-level field course per student.

Includes: Experiential Learning Activity

Prerequisite(s): completion of the third-year Earth Sciences course requirements and permission of the Department. A supplementary fee will apply.

Field work off campus.

ERTH 4808 [0.5 credit]**Vertebrate Paleontology Field Camp**

Field camp extends the student's vertebrate paleontological knowledge by integrating field, theory, and experimental data. Assessment based on written reports and seminars. Part of the cost is borne by the student.

Departmental funding assistance is available for only one 4000-level field course per student.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3111 or ERTH 3112, and

ERTH 3113. A Major CGPA of 8.5 or higher and permission of the department is required at the time of registration.

Field work for two weeks off campus. A supplementary fee will apply.

ERTH 4815 [0.5 credit]**Natural Hazards in Canada**

Overview of the main natural hazards (such as floods, landslides, forest fires, earthquakes) and severe weather phenomena (such as ice storms, hail, tornadoes) in the Canadian environment. Risk of catastrophic events and their impact on society and infrastructure.

Prerequisite(s): third-year standing in earth science programs or permission of the department.

Also offered at the graduate level, with different requirements, as ERTH 5215 and IPIS 5505, for which additional credit is precluded.

Lectures three hours a week.

ERTH 4820 [0.5 credit]**Research Methods in Earth Sciences**

Research approaches, methodologies and resources in Earth Sciences; analytical methods in Earth Sciences; data acquisition, evaluation and interpretation; principles and strategies of scientific and professional writing; and communication of results.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Earth Sciences programs.

Lectures, seminars, or laboratories three hours a week.

May also include visits to other research institutes or workshops with visiting instructors.

ERTH 4908 [1.0 credit]**Honours Thesis**

Independent studies. Requires prior written approval of a topic from a supervisor and the course co-ordinator. Oral and written proposal, progress and defence reports are required.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 4909, ERTH 4910.

Prerequisite(s): restricted to B.Sc. Honours and Combined Honours ERTH programs. Major CGPA 8.5 or higher at time of registration for the course.

ERTH 4909 [0.5 credit]**Research in Earth Sciences**

Understanding research methods, data interpretation and presentation, through readings, seminars and-or laboratory projects related to a topic selected by the student with approval of a faculty advisor.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 4908, ERTH 4910.

Prerequisite(s): restricted to B.Sc. Honours and Combined Honours Earth Sciences programs.

ERTH 4910 [1.0 credit]**Honours Thesis in Resource Evaluation**

Independent studies: Analysis and interpretation of geological, environmental and/or financial data to determine economic value of a natural resource, and its viability for sustainable development. Requires approval of the supervisor and course coordinator. Oral and written proposal, progress and defence reports are required.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 4908 and ERTH 4909.

Prerequisite(s): Restricted to B.Sc. Honours in Earth Sciences with Concentration in Finance: Resource Valuation. Major CGPA 8.5 or higher at time of registration for the course.

Economics

This section presents the requirements for programs in:

- Economics B.Econ. Honours
- Economics B.Econ. Honours with Concentration
- Economics B. Econ. Honours with Concentrations
- Concentration in Computational Analysis
- Concentration in Development
- Concentration in Economic Data Science
- Concentration in Economic Theory
- Concentration in Financial Economics
- Concentration in International Political Economy
- Concentration in Natural Resources, Environment, and Economy
- Concentration in Mathematics and Quantitative Economics
- Economics B.Econ. Combined Honours
- Economics B.A. Honours Combined
- Economics B.Econ.
- Specialization in International Economic Policy B.G.In.S. Honours
- Stream in International Economic Policy B.G.In.S.
- Minor in Economics
- Minor in Industrial Economics
- Post-Baccalaureate Diploma in Economics

Program Requirements**Economics****B.Econ. Honours (20.0 credits)****A. Credits Included in the Major CGPA (10.5 credits)**

1. 6.5 credits in:	6.5
ECON 1001 [0.5] Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1.0] Introduction to Economics	
ECON 1401/ MATH 1401 [0.5] Elementary Mathematics for Economics I	
ECON 1402/ MATH 1402 [0.5] Elementary Mathematics for Economics II	
ECON 2020 [0.5] Intermediate Microeconomics I: Producers and Market Structure	

ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium	
ECON 2102 [0.5]	Intermediate Macroeconomics I	
ECON 2103 [0.5]	Intermediate Macroeconomics II	
ECON 2210 [0.5]	Introductory Statistics for Economics	
ECON 2220 [0.5]	Introductory Econometrics	
ECON 3900 [0.5]	Research Methods in Economics	
ECON 3920 [0.5]	Professional Practice of Economics	
ECON 4905 [0.5]	Honours Capstone Seminar (see Note 1 below)	
2. 2.0 credits in ECON at the 3000 level		2.0
3. 2.0 credits in ECON at the 4000 level		2.0
B. Credits Not Included in the Major CGPA (9.5 credits)		
4. 5.0 credits in electives not in ECON		5.0
5. 4.5 credits in free electives		4.5
Total Credits		20.0

Note: ECON 4908 [1.0] Honours Essay may be written by students with Overall and Major CGPAs of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may replace the ECON 4905 requirement together with an ECON elective requirement. Qualified students who choose to pursue the Honours essay pathway must first complete an Honours essay prospectus to the satisfaction of both their advisor and the Undergraduate Supervisor. See The Honours Essay guidelines maintained by the Department for further details.

Economics

B. Econ. Honours with Concentration (20.0 credits)

A. Credits Included in the Major CGPA (12.5 credits)

1. 6.5 credits in:		6.5
ECON 1001 [0.5]	Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1.0] Introduction to Economics	
ECON 1401/ MATH 1401 [0.5]	Elementary Mathematics for Economics I	
ECON 1402/ MATH 1402 [0.5]	Elementary Mathematics for Economics II	
ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure	
ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium	
ECON 2102 [0.5]	Intermediate Macroeconomics I	
ECON 2103 [0.5]	Intermediate Macroeconomics II	
ECON 2210 [0.5]	Introductory Statistics for Economics	
ECON 2220 [0.5]	Introductory Econometrics	
ECON 3900 [0.5]	Research Methods in Economics	
ECON 3920 [0.5]	Professional Practice of Economics	
ECON 4905 [0.5]	Honours Capstone Seminar (see Note 1 below)	
2. One of the concentrations described after the Economics B.Econ. Honours with Concentrations program below, also included in the Major CGPA		4.0
3. 1.0 credit in ECON at the 3000 level		1.0

4. 1.0 credit in ECON at the 4000 level		1.0
B. Credits Not Included in the Major CGPA (7.5 credits)		
5. 4.0 credits in electives not in ECON		4.0
6. 3.5 credits in free electives.		3.5
Total Credits		20.0

Note:

An Honours essay, ECON 4908 [1.0], may be written by students with Overall and Major CGPAs of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may replace both the ECON 4905 requirement and a 0.5-credit 4000 level ECON elective requirement. Qualified students who choose to pursue the Honours essay pathway must first complete an Honours essay prospectus to the satisfaction of both their advisor and the Undergraduate Supervisor. See The Honours Essay Guidelines maintained by the Department for further details.

Economics

B. Econ. Honours with Concentrations (20.0 credits)

A. Credits Included in the Major CGPA (14.5 credits)

1. 6.5 credits in:		6.5
ECON 1001 [0.5]	Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1.0] Introduction to Economics	
ECON 1401/ MATH 1401 [0.5]	Elementary Mathematics for Economics I	
ECON 1402/ MATH 1402 [0.5]	Elementary Mathematics for Economics II	
ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure	
ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium	
ECON 2102 [0.5]	Intermediate Macroeconomics I	
ECON 2103 [0.5]	Intermediate Macroeconomics II	
ECON 2210 [0.5]	Introductory Statistics for Economics	
ECON 2220 [0.5]	Introductory Econometrics	
ECON 3900 [0.5]	Research Methods in Economics	
ECON 3920 [0.5]	Professional Practice of Economics	
ECON 4905 [0.5]	Honours Capstone Seminar (see Note, below)	
2. Two of the concentrations described below, also included in the Major CGPA		8.0
B. Credits Not Included in the Major CGPA (5.5 credits)		
3. 3.0 credits in electives not in ECON		3.0
4. 2.5 credits in free electives.		2.5
Total Credits		20.0

Note: an Honours essay, ECON 4908 [1.0], may be written by students with Overall and Major CGPAs of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may replace both the ECON 4905 requirement and a 0.5 credit free elective requirement. Qualified students who choose to pursue the Honours essay pathway must first complete an Honours essay prospectus to the satisfaction of both their advisor and the Undergraduate Supervisor. See The Honours Essay

Guidelines maintained by the Department for further details.

Concentration in Computational Analysis (4.0 credits)

2a. 1.0 credit in:	1.0
COMP 1005 [0.5] Introduction to Computer Science I	
COMP 1006 [0.5] Introduction to Computer Science II (See Note 1 below)	
2b. 2.0 credits in:	2.0
COMP 2401 [0.5] Introduction to Systems Programming	
COMP 2402 [0.5] Abstract Data Types and Algorithms	
COMP 1805 [0.5] Discrete Structures I (see Note 2 below)	
COMP 2804 [0.5] Discrete Structures II	
2c. 1.0 credit from:	1.0
COMP 2404 [0.5] Introduction to Software Engineering	
COMP 3005 [0.5] Database Management Systems	
COMP 4111 [0.5] Data Management for Business Intelligence	
COMP 4003 [0.5] Transaction Processing Systems	
COMP 3803 [0.5] Introduction to Theory of Computation	
COMP 3804 [0.5] Design and Analysis of Algorithms I	
COMP 3801 [0.5] Algorithms for Modern Data Sets	
Total Credits	4.0

Notes:

- For Item 2a of the Concentration in Computational Analysis, COMP 1405 may replace COMP 1005 and COMP 1406 may replace COMP 1006.
- COMP 1805 in the Concentration in Computational Analysis is not required if precluded course MATH 1800 is required by another component of the student's program, such as the Concentration in Mathematics and Quantitative Economics, in which case an additional 0.5 credit in COMP is required from the list of electives in Item 2c.

Concentration in Development (4.0 credits)

2a. 3.0 credits in:	3.0
ECON 3508 [0.5] Introduction to Economic Development	
ECON 3509 [0.5] Development Planning and Project Evaluation	
ECON 4507 [0.5] The Economics of Development	
ECON 4508 [0.5] International Aspects of Economic Development	
PSCI 2102 [0.5] Comparative Politics of the Global South	
PSCI 4104 [0.5] Development in the Global South - Theory and Practice	
2b. 1.0 credit from:	1.0
ECON 3220 [0.5] Canadian Economic History	
ECON 3230 [0.5] Selected Topics in Economic History	
ECON 3510 [0.5] African Economic Development	

ECON 3808 [0.5] The Economics of Transition	
ECON 3870 [0.5] Comparative Economic Systems	
PSCI 4105 [0.5] Selected Problems in Development in the Global South	
PSCI 4409 [0.5] Issues in Development Management	
Total Credits	4.0

Concentration in Economic Data Science (4.0 credits)

2a. 1.5 credits in:	1.5
BUSI 2400 [0.5] Foundations of Information Systems	
COMP 1005 [0.5] Introduction to Computer Science I	
ECON 2708 [0.5] Applied Data Analysis	
2b. 2.0 credits in:	2.0
ECON 4002 [0.5] Statistical Analysis in Economics	
ECON 4706 [0.5] Econometrics I	
ECON 4708 [0.5] Economic Data Science - Analytics	
ECON 4709 [0.5] Economic Data Science - Applications	
2c. 0.5 credit from:	0.5
BUSI 4406 [0.5] Business Analytics	
BUSI 4408 [0.5] Social Analytics	
ECON 4707 [0.5] Econometrics II	
ECON 4713 [0.5] Time-Series Econometrics	
ECON 4880 [0.5] Special Topics in Economics	
Total Credits	4.0

Concentration in Economic Theory (4.0 credits)

2a. 3.0 credits in: Core Theory	3.0
ECON 3001 [0.5] Mathematical Methods of Economics	
ECON 4001 [0.5] Mathematical Analysis in Economics	
ECON 4002 [0.5] Statistical Analysis in Economics	
ECON 4020 [0.5] Advanced Microeconomic Theory	
ECON 4021 [0.5] Advanced Macroeconomic Theory	
ECON 4706 [0.5] Econometrics I	
2b. 1.0 credit in:	1.0
ECON at the 4000 level	
Total Credits	4.0

Concentration in Financial Economics (4.0 credits)

2a. 1.0 credit in:	1.0
BUSI 1001 [0.5] Principles of Financial Accounting	
BUSI 1002 [0.5] Management Accounting (See Note 1 below)	
2b. 1.5 credits from:	1.5
ECON 3050 [0.5] Introduction to Financial Economics	
ECON 4051 [0.5] Financial Asset Pricing	
ECON 4052 [0.5] Corporate Financial Economics	
or	
BUSI 3500 [0.5] Applied Corporate Finance	
BUSI 3502 [0.5] Investments	
BUSI 3512 [0.5] Derivatives (see Note 2, below)	

2c. 1.5 credits from:	1.5
ECON 3602 [0.5] International Monetary Problems or ECON 4602 [0.5] International Monetary Theory and Policy	
ECON 3607 [0.5] Monetary and Financial Institutions	
ECON 4053 [0.5] Financial Market Modeling	
ECON 4056 [0.5] Insurance Economics	
ECON 4057 [0.5] Behavioural Financial Economics	
PSCI 4805 [0.5] Political Economy of Global Money and Finance	
BUSI 2504 [0.5] & BUSI 2505 [0.5] and one of: BUSI 4500 [0.5], BUSI 4502 [0.5] (see Note 3, below)	
Total Credits	4.0

Notes

- For Item **2a** of the Concentration in Financial Economics, BUSI 1004 [0.5] may replace BUSI 1001 [0.5] and BUSI 1005 [0.5] may replace BUSI 1002 [0.5].
- For Item **2b** of the Concentration in Financial Economics, students taking BUSI 3500 [0.5], BUSI 3502 [0.5] and BUSI 3512 [0.5] must meet all required prerequisites for these courses as stated in the Undergraduate Calendar description at the time of registration.
- For Item **2c** of the Concentration in Financial Economics, BUSI 2504 [0.5] and BUSI 2505 [0.5] may not count for credit inside the major without also including either BUSI 4500 [0.5] or BUSI 4502 [0.5].

Concentration in International Political Economy (4.0 credits)

2a. 2.0 credits in:	2.0
ECON 4601 [0.5] International Trade Theory and Policy	
ECON 4602 [0.5] International Monetary Theory and Policy	
PSCI 2602 [0.5] International Relations: Global Political Economy	
PSCI 4603 [0.5] Analysis of International Political Economy	
2b. 1.0 credit from:	1.0
ECON 3807 [0.5] European Economic Integration or PSCI 3207 [0.5] The Government and Politics of European Integration	
PSCI 3204 [0.5] Politics of Latin America or PSCI 3205 [0.5] Mexican Politics	
PSCI 3600 [0.5] International Institutions	
PSCI 3703 [0.5] Governing in the Global Economy	
PSCI 3802 [0.5] Globalization and Human Rights or ANTH 3027 [0.5] Studies in Globalization and Human Rights or SOCI 3027 [0.5] Globalization and Human Rights	
2c. 1.0 credit from:	1.0
ECON 4508 [0.5] International Aspects of Economic Development	
PSCI 4207 [0.5] Globalization, Adjustment and Democracy in Africa	
PSCI 4500 [0.5] Gender and Globalization	
PSCI 4604 [0.5] Selected Problems in International Political Economy	

PSCI 4805 [0.5] Political Economy of Global Money and Finance	
Total Credits	4.0
Concentration in Natural Resources, Environment, and Economy (4.0 credits)	
2a. 3.0 credits in:	3.0
ECON 3803 [0.5] The Economics of Natural Resources	
ECON 3804 [0.5] Environmental Economics	
GEOG 2200 [0.5] Global Connections	
GEOG 2300 [0.5] Space, Place and Culture	
GEOG 3022 [0.5] Environmental and Natural Resources	
PSCI 3801 [0.5] Environmental Politics	
2b. 0.5 credit from:	0.5
ECON 4407 [0.5] Project Evaluation	
GEOG 4004 [0.5] Environmental Impact Assessment	
TSES 4001 [0.5] Technology and Society: Risk	
2c. 0.5 credit from:	0.5
ERTH 4303 [0.5] Resources of a Finite Earth	
GEOG 3209 [0.5] Sustainability and Environment in the South	
GEOG 4022 [0.5] Seminar in People, Resources and Environmental Change	
PSCI 4808 [0.5] Global Environmental Politics	
TSES 3002 [0.5] Energy and Sustainability	
Total Credits	4.0

Concentration in Mathematics and Quantitative Economics (4.0 credits)

2a. 1.5 credits in:	1.5
MATH 1800 [0.5] Introduction to Mathematical Reasoning	
MATH 2052 [0.5] Calculus and Introductory Analysis II	
MATH 2152 [0.5] Introductory Algebra II (See Notes 1-4, below)	
2b. 1.0 credit from:	1.0
MATH 2000 [1.0] Multivariable Calculus and Fundamentals of Analysis (See Note 5, below)	
2c. 1.0 credit from:	1.0
MATH 2108 [0.5] Abstract Algebra I	
MATH 2404 [0.5] Ordinary Differential Equations I or MATH 2454 [0.5] Ordinary Differential Equations (Honours)	
MATH 3001 [0.5] Real Analysis I (Honours)	
MATH 3007 [0.5] Functions of a Complex Variable or MATH 3057 [0.5] Functions of a Complex Variable (Honours)	
MATH 3107 [0.5] Linear Algebra III	
MATH 3705 [0.5] Mathematical Methods I	
MATH 3800 [0.5] Mathematical Modeling and Computational Methods or MATH 3806 [0.5] Numerical Analysis (Honours) (See Note 6, below)	
2d. 0.5 credit from:	0.5
ECON 4004 [0.5] Operations Research I or MATH 3801 [0.5] Linear Programming	

ECON 4005 [0.5]	Operations Research II
ECON 4700 [0.5]	Measurement Economics
MATH 4007 [0.5]	Measure and Integration Theory (Honours)
MATH 4205 [0.5]	Introduction to General Topology (Honours)
(See Note 7, below)	
Total Credits	4.0

Notes:

- Students enrolled in the Concentration in Mathematics and Quantitative Economics must replace ECON 1401 [0.5] and ECON 1402 [0.5] in Item 1 of the B.Econ. Honours with Concentration(s) program requirements with either (i) MATH 1052 [0.5] and MATH 1152 [0.5], or (ii) MATH 1007 [0.5] and MATH 1107 [0.5]. Students who intend to take MATH 2000 [1.0] are strongly recommended to choose option (i). Please note that MATH 2000 is a prerequisite to upper year MATH courses such as MATH 3001 [0.5].
- Students who have completed MATH 1004 [0.5] and MATH 1104 [0.5] can replace ECON 1401 [0.5] and ECON 1402 [0.5] in Item 1 of the B.Econ. Honours with Concentration(s) program requirements.
- MATH 2007 [0.5] may replace MATH 2052 [0.5]. Students who intend to take MATH 2000 [1.0] are strongly recommended to take MATH 2052 [0.5].
- MATH 2107 Linear Algebra II may replace MATH 2152 [0.5]. Students who intend to take MATH 2000 [1.0] are strongly recommended to take MATH 2152 [0.5].
- MATH 2008 [0.5] may replace MATH 2000 [1.0]. In this case, the credit requirement under Item 2b will be reduced from 1.0 credit to 0.5 credit, and the credit requirement under Item 2c will be increased from 1.0 credit to 1.5 credit.
- Students interested in other 3000 level MATH courses not listed under requirement 2c, may seek permission from the Department of Economics to have these courses count towards this requirement.
- Students interested in other 4000 level MATH courses not listed under requirement 2d, may seek permission from the Department of Economics to have these courses count towards this requirement.

Economics

B.Econ. Combined Honours (20.0 credits)

Students admitted to the Bachelor of Economics may register for a Combined Bachelor of Economics and any other discipline in which a B.A. Combined program is available.

A. Credits Included in the Economics Major CGPA (7.5 credits)

1. 6.5 credits in:	6.5
ECON 1001 [0.5]	Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1.0] Introduction to Economics
ECON 1401/ MATH 1401 [0.5]	Elementary Mathematics for Economics I
ECON 1402/ MATH 1402 [0.5]	Elementary Mathematics for Economics II

ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure
ECON 2030 [0.5]	Intermediate Microeconomics II: Consumers and General Equilibrium
ECON 2102 [0.5]	Intermediate Macroeconomics I
ECON 2103 [0.5]	Intermediate Macroeconomics II
ECON 2210 [0.5]	Introductory Statistics for Economics
ECON 2220 [0.5]	Introductory Econometrics
ECON 3900 [0.5]	Research Methods in Economics
ECON 3920 [0.5]	Professional Practice of Economics
ECON 4905 [0.5]	Honours Capstone Seminar (see Note 1 below)
2. 1.0 credit in ECON at the 3000 or 4000 level	1.0
B. Additional Requirements (12.5 credits)	12.5
3. The requirements for Combined Honours in the other discipline must be satisfied	
4. Sufficient credits in free electives to make 20.0 credits for the degree.	
Total Credits	20.0

Note: ECON 4908 [1.0] Honours Essay, may be written by students with Overall and Major CGPAs of 9.50 or higher. In cases where a grade of B- or higher is earned on this essay, it may replace the ECON 4905 requirement together with an ECON elective requirement. Qualified students who choose to pursue the Honours essay stream must first complete an Honours essay prospectus to the satisfaction of both their advisor and the Undergraduate Supervisor. See The Honours Essay guidelines maintained by the Department for further details.

Economics

B.A. Honours Combined (20.0 credits)

Students already enrolled in a B.A. discipline may add Economics as an additional discipline under the B.A. Combined Honours. Economics course requirements for the B.A. Combined Honours are the same as those listed under the B.Econ. Combined Honours, above.

Economics

B.Econ. (15.0 credits)

A. Credits Included in the Major CGPA (7.0 credits)

1. 3.5 credits in:	3.5
ECON 1001 [0.5]	Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1.0] Introduction to Economics
ECON 1401/ MATH 1401 [0.5]	Elementary Mathematics for Economics I
ECON 1402/ MATH 1402 [0.5]	Elementary Mathematics for Economics II
ECON 2020 [0.5]	Intermediate Microeconomics I: Producers and Market Structure
ECON 2102 [0.5]	Intermediate Macroeconomics I
ECON 2210 [0.5]	Introductory Statistics for Economics
2. 3.5 credits in ECON at the 2000 level or higher	3.5
B. Credits Not Included in the Major CGPA (8.0 credits)	
3. 6.0 credits in electives not in ECON	6.0

4. 2.0 credits in free electives. 2.0

Total Credits 15.0

Specialization in International Economic Policy B.G.In.S. Honours (20.0 credits)

A. Credits Included in the Major CGPA (12.0 credits)

1. 4.5 credits in: Core Courses 4.5

GINS 1000 [0.5] Global History

GINS 1010 [0.5] International Law and Politics

GINS 1020 [0.5] Ethnography, Globalization and Culture

GINS 2000 [0.5] Ethics and Globalization

GINS 2010 [0.5] Globalization and International Economic Issues

GINS 2020 [0.5] Global Literatures

GINS 3010 [0.5] Global and International Theory

GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change

GINS 4090 [0.5] Honours Seminar in Global and International Studies

2. 0.0 credit in: International Experience Requirement Preparation

GINS 1300 [0.0] International Experience Requirement Preparation

3. 7.5 credits in: the Specialization

a. 1.0 credit in: Foundations 1.0

ECON 1001 [0.5] Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics

or

FYSM 1003 [1.0] Introduction to Economics

b. 0.5 credit in: Microeconomics 0.5

ECON 2001 [0.5] Intermediate Microeconomics for Non-Mathematical Majors

or ECON 2009 [0.5] Managerial Economics

or ECON 2020 [0.5] Intermediate Microeconomics I: Producers and Market Structure

c. 0.5 credit in: Macroeconomics 0.5

ECON 2101 [0.5] Intermediate Macroeconomics for Non-Mathematical Majors

or ECON 2102 [0.5] Intermediate Macroeconomics I

d. 0.5 credit in: Research Methodologies 0.5

IPAF 2000 [0.5] Quantitative Approaches to Policy Analysis

or ECON 2210 [0.5] Introductory Statistics for Economics

e. 2.0 credits in: International and Public Economics 2.0

ECON 3403 [0.5] Introduction to Public Economics: Expenditures

ECON 3405 [0.5] Introduction to Public Economics: Taxation

ECON 3601 [0.5] Introduction to International Trade

ECON 3602 [0.5] International Monetary Problems

f. 3.0 credits from: International Economic Policy 3.0

ECON 3370 [0.5] The Economics of Migration

ECON 3508 [0.5] Introduction to Economic Development

ECON 3509 [0.5] Development Planning and Project Evaluation

ECON 3510 [0.5] African Economic Development

ECON 3803 [0.5] The Economics of Natural Resources

ECON 3804 [0.5] Environmental Economics

ECON 3807 [0.5] European Economic Integration

ECON 3808 [0.5] The Economics of Transition

ECON 3860 [0.5] Agricultural Economics

ECON 3870 [0.5] Comparative Economic Systems

Note: To meet the prerequisite requirements for ECON 2009, ECON 2020, ECON 2102, and ECON 2210, students must have obtained a grade of C- or higher in ECON 1401 or MATH 1009 and a grade of C- or higher in FYSM 1003 or ECON 1000 or equivalent.

B. Credits Not Included in the Major CGPA (8.0 credits)

4. 8.0 credits in: Free Electives 8.0

C. Additional Requirements

5. The International Experience requirement must be met.

6. The Language requirement must be met.

Total Credits 20.0

Stream in International Economic Policy B.G.In.S. (15.0 credits)

A. Credits Included in the Major CGPA (8.0 credits)

1. 4.0 credits in: Core Courses 4.0

GINS 1000 [0.5] Global History

GINS 1010 [0.5] International Law and Politics

GINS 1020 [0.5] Ethnography, Globalization and Culture

GINS 2000 [0.5] Ethics and Globalization

GINS 2010 [0.5] Globalization and International Economic Issues

GINS 2020 [0.5] Global Literatures

GINS 3010 [0.5] Global and International Theory

GINS 3020 [0.5] Places, Boundaries, Movements and Global Environmental Change

2. 4.0 credits from: the Stream 4.0

a. Foundations

ECON 1001 [0.5] Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics

or FYSM 1003 [1.0] Introduction to Economics

b. Microeconomics

ECON 2001 [0.5] Intermediate Microeconomics for Non-Mathematical Majors

or ECON 2009 [0.5] Managerial Economics

or ECON 2020 [0.5] Intermediate Microeconomics I: Producers and Market Structure

c. Macroeconomics

ECON 2101 [0.5] Intermediate Macroeconomics for Non-Mathematical Majors

or ECON 2102 [0.5] Intermediate Macroeconomics I

d. Research Methodologies

IPAF 2000 [0.5] Quantitative Approaches to Policy Analysis

or ECON 2210 [0.5] Introductory Statistics for Economics

e. International Economic Policy

ECON 3403 [0.5] Introduction to Public Economics: Expenditures

ECON 3405 [0.5] Introduction to Public Economics: Taxation

ECON 3508 [0.5]	Introduction to Economic Development	
ECON 3509 [0.5]	Development Planning and Project Evaluation	
ECON 3510 [0.5]	African Economic Development	
ECON 3601 [0.5]	Introduction to International Trade	
ECON 3602 [0.5]	International Monetary Problems	
ECON 3803 [0.5]	The Economics of Natural Resources	
ECON 3804 [0.5]	Environmental Economics	
ECON 3807 [0.5]	European Economic Integration	
ECON 3808 [0.5]	The Economics of Transition	
ECON 3860 [0.5]	Agricultural Economics	
ECON 3870 [0.5]	Comparative Economic Systems	

Note: To meet the prerequisite requirements for ECON 2009, ECON 2020, ECON 2102, and ECON 2210, students must have obtained a grade of C- or higher in ECON 1401 or MATH 1009 and a grade of C- or higher in FYSM 1003 or ECON 1000 or equivalent

B. Credits Not Included in the Major CGPA (7.0 credits)

3. 7.0 credits in: Free Electives 7.0

C. Additional Requirements

4. The Language requirement must be met.

Total Credits 15.0

Minor in Economics (4.0 credits)

Open to all undergraduate degree students not pursuing a Major in Economics or the B.G.In.S. Specialization or Stream in International Economic Policy.

Requirements:

1. 1.0 credit in: 1.0

ECON 1001 [0.5] Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics or FYSM 1003 [1.0] Introduction to Economics

2. 0.5 credit in: 0.5

ECON 2001 [0.5] Intermediate Microeconomics for Non-Mathematical Majors or ECON 2009 [0.5] Managerial Economics or ECON 2020 [0.5] Intermediate Microeconomics I: Producers and Market Structure

3. 0.5 credit in: 0.5

ECON 2101 [0.5] Intermediate Macroeconomics for Non-Mathematical Majors or ECON 2102 [0.5] Intermediate Macroeconomics I

4. 0.5 credit in: 0.5

ECON at the 2000 level or higher, or IPAF 2000 [0.5]

5. 1.5 credits in ECON at the 2000 level or higher 1.5

6. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Minor in Industrial Economics (4.0 credits)

Open to all B.Eng. students and other undergraduate degree students not pursuing a Major in Economics who have successfully completed ECOR 3800 and SYSC 3200 while registered in a B.Eng. program.

Requirements:

1. 1.0 credit in: 1.0

ECON 1001 [0.5] Introduction to Microeconomics & ECON 1002 [0.5] Introduction to Macroeconomics

2. 0.5 credit in: 0.5

ECON 2009 [0.5] Managerial Economics or ECON 2020 [0.5] Intermediate Microeconomics I: Producers and Market Structure

3. 1.5 credits from: 1.5

ECON 2030 [0.5] Intermediate Microeconomics II: Consumers and General Equilibrium

ECON 3300 [0.5] Public Policy Toward Business

ECON 3360 [0.5] Introduction to Labour Economics

ECON 3365 [0.5] Introduction to Industrial Relations

ECON 3509 [0.5] Development Planning and Project Evaluation

ECON 3804 [0.5] Environmental Economics

ECON 3864 [0.5] Transportation Economics

ECON 4005 [0.5] Operations Research II

ECON 4020 [0.5] Advanced Microeconomic Theory

ECON 4301 [0.5] Market Structure and Firm Behaviour

ECON 4309 [0.5] Applied Industrial Economics

ECON 4407 [0.5] Project Evaluation

4. 1.0 credit in: 1.0

ECOR 3800 [0.5] Engineering Economics

SYSC 3200 [0.5] Industrial Engineering

5. The remaining requirements of the major discipline(s) and degree must be satisfied.

Total Credits 4.0

Post-Baccalaureate Diploma in Economics (4.0 credits)

Admission to this program requires the permission of the Department of Economics.

Requirements:

1. 3.0 credits in: 3.0

ECON 4001 [0.5] Mathematical Analysis in Economics

ECON 4002 [0.5] Statistical Analysis in Economics

ECON 4020 [0.5] Advanced Microeconomic Theory

ECON 4021 [0.5] Advanced Macroeconomic Theory

ECON 4706 [0.5] Econometrics I

ECON 4990 [0.5] Research and Writing in Economics

2. 1.0 credit in electives approved by the Department, normally in economics at the 4000 level but may include ESLA 1906 and/or ECON 3001. 1.0

Total Credits 4.0

Bachelor of Economics Regulations

The regulations presented in this section apply to all Bachelor of Economics (B.Econ.) programs.

In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.Econ. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0

credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.Econ. program. Students who have completed the Enriched Support Program (ESP) or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

0000-Level Courses

Students in B.Econ. programs may not count any 0000-level Mathematics courses for credit toward their degree. Such students may, however, be required to take one or more of these courses to replace missing program prerequisites in which case the courses will be set aside as “no credit for degree” (NCD).

Access to Economics Courses

To meet the prerequisite requirements for most 2000-level Economics courses, students must have obtained a grade of C- or higher in ECON 1401 and a grade of C- or higher in FYSM 1003 [1.0] or ECON 1000 [1.0] or, equivalently, an average grade of C- or higher in ECON 1001 and ECON 1002, one or both of which have been transferred from another university.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database.

Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Economics Honours: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the second year of the Bachelor of Economics Honours program
2. A major CGPA of 8.00 or higher and an overall CGPA of 8.00 or higher;
3. Successfully completed all required first- and second-year courses before beginning the first work term.

To obtain the co-op designation in Bachelor of Economics, students must successfully complete three (3) work terms.

Work Term Report Course: ECON 3999

Work/Study Pattern:

Year 1		Year 2		Year 3		Year 4		Year 5	
Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern	Term	Pattern

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Economics (B.Econ.) (Honours)
- Bachelor of Economics (B.Econ.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*) and 4U Advanced Functions (or equivalent). MATH 0005 taken at Carleton with a minimum grade of C- also satisfies the Advanced Functions requirement.

Applicants who do not present with Advanced Functions or MATH 0005 may be admitted conditionally with the requirement that they complete MATH 0005 with a minimum grade of C- in their first term of study in the degree in order to be eligible to continue.

Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and stream selected.

Co-op Option

Direct Admission to the First Year of the Co-op Option
Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;

2. be registered as a full-time student in a Bachelor of Economics Honours program;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the *Co-operative Education Regulations* section of this Calendar.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Diploma

• Post-Baccalaureate Diploma in Economics

To be eligible for admission to the Post-Baccalaureate Diploma in Economics students must normally have:

1. an undergraduate degree with a GPA of 9.0 or higher, preferably with honours,
2. successfully completed university-level introductory (micro- and macro-) economics, calculus, and linear algebra with a grade of C+ or higher in each, and
3. permission of the Department of Economics.

Students may be granted advanced standing to a maximum of 1.0 credit. Advanced standing does not negate the 3.0 credit residency requirement.

Note: students who already hold an honours undergraduate degree in economics are encouraged to apply for admission to graduate programs in economics through the Graduate Admissions web site at graduate.carleton.ca.

Economics (ECON) Courses

ECON 1000 [1.0 credit]

Introduction to Economics

An introduction to the major tools and policy problems of economics. Economic analysis is applied to a variety of contemporary problems such as pollution, poverty, the control of monopoly, unemployment, inflation, and international economic problems.

Precludes additional credit for ECON 1001, ECON 1002, and FYSM 1003.

Lectures three hours a week, discussion groups one hour a week.

ECON 1001 [0.5 credit]

Introduction to Microeconomics

An introduction to the major tools and policy problems of microeconomics. Economic analysis is applied to a variety of contemporary issues such as taxation, pollution, wage determination, poverty, market power, and international trade.

Precludes additional credit for ECON 1000 and FYSM 1003.

Lectures three hours a week, discussion groups one hour a week.

ECON 1002 [0.5 credit]

Introduction to Macroeconomics

An introduction to the major tools and policy problems of macroeconomics. Economic analysis is applied to a variety of contemporary problems such as: saving, investment and interest rates; unemployment; money and inflation; exchange rates; fiscal and monetary policy.

Precludes additional credit for ECON 1000 and FYSM 1003.

Lectures three hours a week, discussion groups one hour a week.

ECON 1401 [0.5 credit]

Elementary Mathematics for Economics I

Functional relations: functional forms and error terms. Graphing economic magnitudes: scatter diagrams, time-series graphs, functional relationships. Applied calculus: mechanics of differentiation and integration, elasticity, consumer/producer surplus. Applied algebra: solving systems of linear equations and Keynesian national-income analysis. Problem solving approaches.

Also listed as MATH 1401.
Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201, MATH 1007, MATH 1009, MATH 1104, MATH 1107, MATH 1119, MATH 1052, MATH 1152.

Prerequisite(s): Ontario Grade-12 U Advanced Functions, or MATH 0005, or equivalent; and ECON 1001 or ECON 1000 or FYSM 1003, which may be taken concurrently with ECON 1401.

Lectures three hours a week, tutorials one hour a week.

ECON 1402 [0.5 credit]**Elementary Mathematics for Economics II**

Calculus: including partial differentiation, definite and indefinite integrals, techniques of integration, and unconstrained optimization. Vectors and matrices: scalar multiplication, inner product, linear dependence, matrix operations, rank, invertible matrix theorem, and determinants. Economic applications such as profit maximization, comparative statics, and the Leontief input-output model.

Also listed as MATH 1402.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1201, BIT 1200, MATH 1007, MATH 1009, MATH 1104, MATH 1107, MATH 1119, MATH 1052, MATH 1152.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher, and ECON 1401 or MATH 1401 with a grade of C- or higher.

Lectures three hours a week, tutorials one hour a week.

ECON 2001 [0.5 credit]**Intermediate Microeconomics for Non-Mathematical Majors**

The main topics in microeconomic theory presented in a relatively non-technical manner (e.g., without the requiring knowledge of calculus) with illustrations of their applications. Not open to students in any Economics, B.Com., B.C.S., B.Eng., B.I.D., B.I.B., B.Math., or B.Sc. program.

Precludes additional credit for ECON 2002 (no longer offered), ECON 2003 (no longer offered), ECON 2009, ECON 2020, and ECON 2030.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 2009 [0.5 credit]**Managerial Economics**

An economic analysis of managerial decision-making. Elements of production and cost; price and output determination under perfectly and imperfectly competitive market structures; the role of information; topics in business strategy; and the impact of government intervention. Not open to students in any Economics program.

Precludes additional credit for ECON 2001, ECON 2002 (no longer offered), ECON 2003 (no longer offered), and ECON 2020.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher; MATH 1009 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and half hours a week.

ECON 2020 [0.5 credit]**Intermediate Microeconomics I: Producers and Market Structure**

Theory of the firm: elements of production and cost; input allocation, pricing, and firm behaviour under perfectly and imperfectly competitive market structures; the role of information; game theory and public policy, including basic competition policy.

Precludes additional credit for ECON 2001, ECON 2002 (no longer offered), ECON 2003 (no longer offered), and ECON 2009.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher; ECON 1401/MATH 1401 (with a grade of C- or higher) and ECON 1402/MATH 1402, or equivalent department-approved MATH course pair. May be taken concurrently with ECON 1402/MATH 1402.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2030 [0.5 credit]**Intermediate Microeconomics II: Consumers and General Equilibrium**

Theory of consumer choice and demand; applications to intertemporal choice, labour supply, and/or choice under uncertainty; welfare analysis; general equilibrium theory; externalities and the role of government.

Precludes additional credit for ECON 2001, ECON 2002 (no longer offered), and ECON 2003 (no longer offered).

Prerequisite(s): ECON 2020 with a grade of C- or higher or ECON 2009 with a grade of C+ or higher, and ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2101 [0.5 credit]**Intermediate Macroeconomics for Non-Mathematical Majors**

The main topics in macroeconomic theory presented in a relatively non-technical manner (e.g., without the requiring knowledge of calculus) with illustrations of their application. Not open to students in any Economics, B.Com., B.C.S., B.Eng., B.I.D., B.Math., or B.Sc. program.

Precludes additional credit for ECON 2102 and ECON 2103.

Prerequisite(s): ECON 1002 or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 2102 [0.5 credit]**Intermediate Macroeconomics I**

An introduction to the macroeconomic modeling of output in the short and long run, and to fixed-price models of the closed and open economy over the business cycle. Policy prescriptions in relation to the business cycle are analysed.

Precludes additional credit for ECON 2101.

Prerequisite(s): ECON 1002 or ECON 1000 or FYSM 1003 with a grade of C- or higher; ECON 1401/MATH 1401 (with a grade of C- or higher) and ECON 1402/MATH 1402, or equivalent department-approved MATH course pair. May be taken concurrently with ECON 1402/MATH 1402.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2103 [0.5 credit]**Intermediate Macroeconomics II**

An extension of macroeconomic modeling to the dynamics of wage-price adjustment in the intermediate and long run, to the theoretical foundations of basic macroeconomic relationships, and to contemporary policy issues arising in relation to the business cycle and long-run growth.

Precludes additional credit for ECON 2101.

Prerequisite(s): ECON 2102 with a grade of C- or higher, ECON 1001 with a grade of C- or higher, and ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2210 [0.5 credit]**Introductory Statistics for Economics**

Basic statistical methods for the study of economics.

Topics include descriptive statistics, elementary probability theory, sampling distributions, estimation and hypothesis testing for one and two population parameters.

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), ECON 2200 (no longer offered), ECON 2201 (no longer offered), STAT 2507, STAT 2606, and STAT 3502.

Prerequisite(s): ECON 1401/MATH 1401 (with a grade of C- or higher) and ECON 1402/MATH 1402, or equivalent department-approved MATH course pair. May be taken concurrently with ECON 1402/MATH 1402.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2220 [0.5 credit]**Introductory Econometrics**

Topics include correlation, simple and multiple linear regression, and an introduction to statistical computing using an econometrics package. Emphasis on understanding appropriate methods and their properties, as distinct from their formal theoretical development. Empirical applications.

Precludes additional credit for ECON 2200 (no longer offered), ECON 2202 (no longer offered), STAT 2509, and STAT 2607.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2708 [0.5 credit]**Applied Data Analysis**

An introduction to concepts and tools for using various forms of data to study applied economic problems. Topics may include identifying relevant datasets, collecting and cleaning both research-ready and user-assembled data sets, data visualization, and summary statistics.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 1005 or COMP 1405 or ECOR 1606, or equivalent, with a grade of C- or higher; and ECON/MATH 1402, with a grade of C- or higher (or an equivalent department-approved MATH course pair with a grade of C- or higher in each); and ECON 2210 (or equivalent), with a grade of C+ or higher.

Lectures three hours a week, tutorial 1.5 hours a week.

ECON 3001 [0.5 credit]**Mathematical Methods of Economics**

Constrained optimization via Lagrange and Kuhn-Tucker conditions; implicit functions and implicit differentiation; comparative static methods applied to models such as utility maximization and least-cost production; homogeneous functions; concave and convex functions; compounding and exponential functions; economic models involving integration; differential equations.

Precludes additional credit for ECON 2400 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003 with a grade of C- or higher; and ECON 1401 and ECON 1402 (or equivalent) with a grade of C- or higher in each and a combined grade point average in ECON 1401 and ECON 1402 of 6.50 or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3050 [0.5 credit]**Introduction to Financial Economics**

The major theories and basic tools used to address modern financial economic issues. Topics may include time value of money, bond and stock valuation, investment criteria, capital budgeting, the risk-return tradeoff, options and option valuation, cost of capital, and the fundamentals of international corporate finance.

Precludes additional credit for BUSI 2503, BUSI 2504, ECON 2504 (no longer offered), BUSI 2505, and ECON 2505 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002 each with a grade of C- or higher, or ECON 1000 or FYSM 1003 with a grade of C- or higher, and ECON/MATH 1402 (or approved equivalent pair of first year math courses) with a grade of C- or higher, and BUSI 1002 or BUSI 1005 with a grade of C- or higher.

Lectures three hours a week.

ECON 3201 [0.5 credit]**Economic Thought and Policy in Canada**

An account of the interrelationship between economic theories expounded in Canada and their issue in national policy.

Precludes additional credit for ECON 3404 (no longer offered).

Prerequisite(s): an introductory course in one of the social sciences or Canadian history.

Lectures three hours a week.

ECON 3220 [0.5 credit]**Canadian Economic History**

A survey of Canadian economic history from the sixteenth century to the present.

Also listed as HIST 3220.

Precludes additional credit for ECON 2305 or HIST 2305 (no longer offered), ECON 3203 (no longer offered), ECON 3202 or HIST 3203 (no longer offered), and ECON 3207 or HIST 3204 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3230 [0.5 credit]**Selected Topics in Economic History**

An examination of the economic development of North America or Europe or other possible selected sets of countries. Countries examined vary from year to year.

Also listed as HIST 3230.

Precludes additional credit for ECON 3005 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 3300 [0.5 credit]**Public Policy Toward Business**

The interaction of government and business in the Canadian economy. Reasons for government involvement in selected public policy areas. Topics covered may include competition policy, regulation of firms by boards and commissions, environmental regulation, and public enterprise.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3360 [0.5 credit]**Introduction to Labour Economics**

Basic principles of labour economics including market, institutional, and sociological forces. Technology and labour demand, wage systems, human capital, internal wage structure, market discrimination, female labour-force entry, wage-price spiral, household labour supply, and wage determination.

Precludes additional credit for ECON 3506 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4305 (no longer offered) or ECON 4306 (no longer offered) or ECON 4360.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3365 [0.5 credit]**Introduction to Industrial Relations**

An introduction to industrial relations covering such topics as: industrial relations systems, the functioning of trade unions, collective bargaining in Canada, and Canadian public policy in industrial relations.

Precludes additional credit for BUSI 3107 (no longer offered) and ECON 3507 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4365 or ECON 4605 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3370 [0.5 credit]**The Economics of Migration**

An introduction to the economic aspects of migration. Topics include, among others: the economics of migration within countries; the economics of host country integration of immigrants; the impact of immigration on outcomes in the host country; the impacts of emigration on the home country.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3380 [0.5 credit]**The Economics of Gender and Ethnicity**

The impact of gender and ethnicity on labour-market outcomes. Topics may include: employment, work, earnings, and poverty; discrimination and policy responses; immigration; the economics of the household; gender and development; micro-credit; labour standards. Precludes additional credit for ECON 3100 (no longer offered) and ECON 3810 (no longer offered). Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3403 [0.5 credit]**Introduction to Public Economics: Expenditures**

The role and nature of the government sector in the economy, the theory of public goods, the equity and efficiency effects of public expenditures, voting rules and fiscal politics, techniques of public expenditure analysis, and intergovernmental fiscal relations. Precludes additional credit for ECON 3003 (no longer offered) and ECON 3408 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4402 (no longer offered) or ECON 4403. Prerequisite(s): ECON 1001 and ECON 1002 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3405 [0.5 credit]**Introduction to Public Economics: Taxation**

The role and nature of the government sector in the economy, principles of taxation, tax equity, incidence and excess burden of taxes, structure of taxes in the economy, role of personal, corporate, sales and wealth taxes, fiscal stabilization policy, and the economics of public debt. Precludes additional credit for ECON 3003 (no longer offered) and ECON 3407 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4401 (no longer offered) or ECON 4404. Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3420 [0.5 credit]**Economic Theories of Federalism**

Economic dimensions of federalism, with reference to Canadian experience. Issues include: fiscal federalism; impact of federal economic policies on provincial economies; decentralization possibilities for fiscal and economic development policies; and consequences of policies such as provincial trade barriers and impediments to factor flows. Precludes additional credit for ECON 3206 (no longer offered). Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3450 [0.5 credit]**Political Economy in the Modern State**

An examination of the role of government in the economy, with emphasis on alternate forms of social coordination and the advantages and disadvantages of each form in the Canadian system. Precludes additional credit for ECON 3305 (no longer offered). Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3460 [0.5 credit]**Introduction to Health Economics**

Health as an economic good: demand and need; supply and cost. Public health and personal health care. Alternative health-care delivery systems: financing, performance, quality, and cost effectiveness. Preclusion: credit will not be given if taken concurrently with or after ECON 4460. Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3508 [0.5 credit]**Introduction to Economic Development**

A discussion of the principles of economic development. Application to the problems of the developing countries. Precludes additional credit for ECON 3603 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4507. Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3509 [0.5 credit]**Development Planning and Project Evaluation**

An introduction to the tools used in the planning and evaluation of development projects. Topics include the theory, application, strengths and limitations of cost-benefit analysis and competing approaches, and an examination of project evaluation techniques. Precludes additional credit for ECON 3604 (no longer offered). Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3510 [0.5 credit]**African Economic Development**

Domestic and international aspects of development problems and policies in the African context. Topics may include human resource development, growth and poverty reduction, domestic resource mobilization, the implications of ethnic diversity, governance, and institutions, and issues of trade, investment, aid, migration, and health. Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3600 [0.5 credit]**Introduction to International Economics**

A discussion of theory and policy in international trade and finance. Intended for students planning to take only 0.5 credit in international economics at the 3000-level.

Precludes additional credit for ECON 3601 and ECON 3602. Credit will not be given if taken concurrently with or after ECON 4601 or ECON 4602.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 3601 [0.5 credit]**Introduction to International Trade**

An extension of the basic principles of economics to international trade. Topics covered include the theory of international specialization, tariffs and other barriers to trade, trade liberalization and economic integration, international movements of labour and capital, trade and development.

Precludes additional credit for ECON 3600. Credit will not be given if taken concurrently with or after ECON 4601.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3602 [0.5 credit]**International Monetary Problems**

A discussion of the theory and institutions of the international monetary system, and the related balance of payments problems of nation states.

Precludes additional credit for ECON 3600. Credit will not be given if taken concurrently with or after ECON 4602.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3607 [0.5 credit]**Monetary and Financial Institutions**

The behaviour of financial intermediaries and institutions such as the Bank of Canada, banks and trust companies, and regulatory bodies such as the Canada Deposit Insurance Corporation and the Superintendent of Financial Institutions.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3706 [0.5 credit]**Applied Econometrics**

Introduction to applied econometric methods with emphasis on the use of the regression model for empirical research. Real-world examples are used extensively to illustrate key concepts. Hands-on computer exercises are an integral part of the course.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3801 [0.5 credit]**Regional Economics**

Unequal distribution of economic activity between spatially defined regions. The pattern in Canada since World War II and the outlook for the future is evaluated, considering "natural" adjustment mechanisms and policy tools.

Precludes additional credit for ECON 3401 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3803 [0.5 credit]**The Economics of Natural Resources**

The application of economic analysis to questions concerning natural-resource use, management and conservation, as well as market failures and environmental effects. Policy problems relating to natural resources are discussed.

Precludes additional credit for ECON 3805 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3804 [0.5 credit]**Environmental Economics**

Microeconomic analysis of environmental issues.

Frameworks for measuring environmental costs and benefits. The efficiency of alternative pollution control policies. Applications include air and water pollution and global environmental problems such as ozone depletion and global warming.

Precludes additional credit for ECON 3806 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3807 [0.5 credit]**European Economic Integration**

A discussion of the theories of free trade areas and customs, monetary, and economic unions, and the related historical experience of Europe. Topics include: currency area and the euro, coordination of fiscal policy and the EU budget, common agricultural policy, labour mobility, and regional policy.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3808 [0.5 credit]**The Economics of Transition**

The transition from state ownership and central planning to mixed ownership structure with resource allocation by market mechanisms. "Classical socialism" is criticized and the processes of transition in countries of Central and Eastern Europe, the former Soviet Union, and Asia are compared.

Precludes additional credit for ECON 3700 (no longer offered), ECON 3701 (no longer offered), and ECON 3702 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3820 [0.5 credit]**Topics in Canadian Economic Policy**

Economic analysis applied to selected policy areas, issues or institutions. One or more of the following topics may be dealt with: decision-making by bureaucratic institutions, policy problems arising from poverty, the economics of natural resources and pollution, urban economics.

Precludes additional credit for ECON 3800 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3840 [0.5 credit]**An Economic Analysis of Law**

An introduction to the application of economic principles and methodology to a variety of legal problems with emphasis on the theory of property rights and the allocation of resources.

Precludes additional credit for ECON 3204 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3850 [0.5 credit]**Economics of Information and the Media**

An introduction to the economics of information and the media, with a focus on the analysis of production and distribution of information, the application of theory to selected communications-media industries in Canada, and the analysis of existing Canadian policies.

Precludes additional credit for ECON 3200 (no longer offered). Credit will not be given if taken concurrently with or after ECON 4205 (no longer offered) or ECON 4850.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3856 [0.5 credit]**Housing Economics**

Examination of housing markets, housing finance, and government housing policy using the tools of microeconomics. Models of demand, supply, and market equilibrium emphasizing the special characteristics of housing, including heterogeneity, durability, and spatial fixity. Relationships to other goods and markets and the wider macroeconomy.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3860 [0.5 credit]**Agricultural Economics**

An examination of the agricultural industry in the national economy and in low-income societies, with emphasis on the working out of the basic forces that determine supply and demand for the industry, and the functional distribution of income among the factors of production.

Precludes additional credit for ECON 3406 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3864 [0.5 credit]**Transportation Economics**

Factors affecting demand for and supply of transportation services; demand elasticities and cost structures of various modes of transport; transportation service pricing. Topics may include transport demand forecasting, transportation investment and project appraisal, and the role of transport in economic development.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3870 [0.5 credit]**Comparative Economic Systems**

Analysis of the structure, institutions, and performance of alternative economic systems, including capitalism, socialism, and communism. Selected countries are studied as examples of these systems.

Precludes additional credit for ECON 4806 (no longer offered) and ECON 4807 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3878 [0.5 credit]**Contemporary Economic Issues**

Content may vary from year to year and is announced in advance of the registration period.

Lectures and/or seminars three hours a week.

ECON 3880 [0.5 credit]**Special Studies in Economics**

Content may vary from year to year and is announced in advance of the registration period.

Precludes additional credit for ECON 3402 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003.

Lectures and/or seminars three hours a week.

ECON 3900 [0.5 credit]**Research Methods in Economics**

The process of doing basic research in economics: development of the research proposal, finding and critically evaluating relevant literature, model development, methods for locating and collecting economic data, analytical methods, and writing mechanics. This course has a strong practical focus.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2030 with a grade of C+ or higher, ECON 2103 with a grade of C+ or higher, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Seminars three hours a week.

ECON 3920 [0.5 credit]**Professional Practice of Economics**

Development of skills used by professional economists, including writing professional documents such as policy briefs and memos, data visualization, communication of economic ideas in non-technical terms, presentation skills, and team-based problem solving.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2030 with a grade of C+ or higher, ECON 2103 with a grade of C+ or higher, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Seminars three hours a week.

ECON 3999 [0.0 credit]**Co-operative Work Term**

Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Honours Economics or Applied Economics Co-operative Education option, satisfactory completion of the Co-op preparation classes offered by the Co-operative Education Office, and permission of the Department.

ECON 4001 [0.5 credit]**Mathematical Analysis in Economics**

Analysis and algebra: set theory, sequences and series, quadratic forms, separation and fixed-point theorems. Static optimization: the Weierstrass, Lagrange, and Kuhn-Tucker theorems; convexity and quasi-convexity; the envelope theorem. Dynamic optimization: the Maximum Principle and Bellman's equation. Applications of these tools to economic theory.

Prerequisite(s): ECON 3001 with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4002 [0.5 credit]**Statistical Analysis in Economics**

Probability: including conditional probability, random variables and distributions, unconditional and conditional expectations. Distributions: including special distributions and their properties, and sampling distributions of estimators. Nonparametric methods and limit theorems; stochastic processes; simulation and bootstrap methods. Applications of these tools to economic theory.

Precludes additional credit for STAT 3500 (no longer offered), STAT 3508, and STAT 3558.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C+ or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4004 [0.5 credit]**Operations Research I**

Linear programming, duality, sensitivity analysis, transportation and network problems. Both theory and a wide range of applications are studied.

Precludes additional credit for BUSI 2300 (no longer offered), MATH 3801, and SYSC 3200.

Prerequisite(s): ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4005 [0.5 credit]**Operations Research II**

Dynamic programming, inventory models, queuing, simulation, and non-linear programming.

Prerequisite(s): ECON 1402 (or equivalent) with a grade of C- or higher, and ECON 2210 (or equivalent) or STAT 2605 or STAT 3502 with a grade of C- or higher.

Lectures three hours a week.

ECON 4020 [0.5 credit]**Advanced Microeconomic Theory**

Advanced theory of individual economic behaviour in production, consumption, and general equilibrium. Elementary tools of mathematics are employed in the exposition of most topics.

Precludes additional credit for ECON 4200 (no longer offered).

Prerequisite(s): ECON 2020 (or ECON 2009) and ECON 2030 each with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4020.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4021 [0.5 credit]**Advanced Macroeconomic Theory**

An introduction to advanced macroeconomic models. Topics may include analysis of business cycles, inflation, unemployment, economic growth, fiscal and monetary policy, consumption decisions of households, and investment decisions of firms.

Precludes additional credit for ECON 4201 (no longer offered).

Prerequisite(s): ECON 2102 with a grade of C+ or higher; ECON 2103 with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4021.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4025 [0.5 credit]**Game Theory and Economics**

Analysis of strategic behaviour using methods of modern game theory. Topics include extensive-form and strategic-form representation of games, and solution concepts for games of complete and incomplete information such as Nash equilibrium, subgame perfect equilibrium, and perfect Bayesian equilibrium. Economic applications will be presented.

Prerequisite(s): ECON 2020 (or ECON 2009) and ECON 2030 each with a grade of C+ or higher or ECON 2002 (no longer offered) and ECON 2003 (no longer offered) each with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2210 (or equivalent, or STAT 2507 or STAT 2606 or STAT 3502), which may be taken concurrently with ECON 4025.

Lectures three hours a week.

ECON 4026 [0.5 credit]**Macroeconomic Dynamics**

Dynamic models as applied to topics such as economic growth, business cycles, consumption, investment, inflation, and real-financial linkages. Empirical and/or policy issues may also be discussed.

Prerequisite(s): ECON 2102 with a grade of C+ or higher; ECON 2103 with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4026.

Lectures three hours a week.

ECON 4030 [0.5 credit]**Economics of Uncertainty and Information**

Uncertainty, imperfect information, and asymmetric information in the allocation of resources and the performance of markets and alternative coordinating mechanisms.

Precludes additional credit for ECON 4006 (no longer offered) and ECON 4260 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4051 [0.5 credit]**Financial Asset Pricing**

Factors that drive security prices and models that attempt to account for aspects of security returns, including the generic arbitrage pricing model, the capital asset pricing model (CAPM), the consumption CAPM, and the intertemporal CAPM.

Precludes additional credit for BUSI 3500, ECON 3500 (no longer offered), BUSI 3502, ECON 3502 (no longer offered).

Prerequisite(s): ECON 3050 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4052 [0.5 credit]**Corporate Financial Economics**

Optimization and corporate finance. Corporate governance and managerial compensation. Capital structure and the Modigliani-Miller theorem. Agency theory and asymmetric information. The issue of equity, debt, and other securities. Dividend policy. Investment and capital budgeting, NPV, and real options.

Precludes additional credit for BUSI 3500 (or ECON 3500, no longer offered) and BUSI 3502 (or ECON 3502, no longer offered).

Prerequisite(s): ECON 3050 with a grade of C- or higher, and ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4053 [0.5 credit]**Financial Market Modeling**

The modeling of the evolution of prices in (near) efficient markets and the evaluation of functions of these prices such as guarantees, options, warrants, futures, and other types of derivatives. Arrow-Debreu state-contingent claims. Notions of complete and incomplete markets. Precludes additional credit for ECON 4100 (no longer offered) and ECON 4504 (no longer offered). Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 3001 with a grade of C- or higher. Lectures three hours a week.

ECON 4056 [0.5 credit]**Insurance Economics**

The theory of insurance founded on probability and decision theory. The optimal design of insurance policies from a risk-sharing and an information economics perspective. Principal-agent problems including adverse selection, asymmetric information, and moral hazard with implications for insurance. The interaction between insurance and other markets. Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 (or equivalent) with a grade of C- or higher. Lectures three hours a week.

ECON 4057 [0.5 credit]**Behavioural Financial Economics**

Market efficiency and the limits of arbitrage. Heuristics and biases identified by behavioural decision theorists and their effect on the behaviour of managers and investors. Behavioural theories of market trading volume and asset prices. Behavioural approaches to corporate financial economics problems. Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 3050 with a grade of C- or higher. Lectures three hours a week.

ECON 4108 [0.5 credit]**Behavioural Economics**

Major factors underlying economic behaviour, including various views of the role of rationality in economic analyses of individual decision-making and institutional design and a detailed treatment of behavioural heuristics and biases and their implications for nudging techniques that aim to improve economic outcomes. Prerequisite(s): ECON 2030 with a grade of C- or higher. Lectures three hours a week.

ECON 4109 [0.5 credit]**Experimental Economics**

An introduction to the use of and insights gained from both laboratory- and field-type experimental methods in economic research. Topics include analysis of individual rationality, performance of markets, and design of economic systems. In-class experiments are an integral part of the course. Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 with a grade of C- or higher. Lectures three hours a week.

ECON 4209 [0.5 credit]**Selected Topics in the History of Economic Thought**

The development of economic thought through time in relation to selected economic problems. Precludes additional credit for ECON 4105 (no longer offered). Prerequisite(s): ECON 2030 with a grade of C+ or higher or ECON 2003 (no longer offered) with a grade of C+ or higher, and ECON 2103 with a grade of C+ or higher. Also offered at the graduate level, with different requirements, as ECON 5209, for which additional credit is precluded. Lectures and/or seminars three hours a week.

ECON 4230 [0.5 credit]**Economic History**

The application of economic theory and quantitative techniques to selected topics in economic history, which may include historical patterns of growth and welfare, nineteenth-century globalization, technological change, the development of agriculture, industrialization, the Great Depression, and the origins of central banks. Prerequisite(s): ECON 2030 with a grade of C- or higher, ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher. Also offered at the graduate level, with different requirements, as ECON 5230, for which additional credit is precluded. Lectures three hours a week.

ECON 4301 [0.5 credit]**Market Structure and Firm Behaviour**

Various theoretical and empirical studies of firm and market organization with emphasis on the pricing, advertising, investment and locational behaviour of firms in imperfectly competitive markets. Precludes additional credit for ECON 4300 (no longer offered). Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher. Lectures three hours a week.

ECON 4302 [0.5 credit]**Competition and Regulatory Policy**

Public policies relating to competition and regulation. Topics may include: Ramsey pricing, peak-load pricing, cross-subsidization, access pricing (ECPR), multi-part pricing and price discrimination, predatory and targeted pricing, vertical restrictions, traditional regulation (including rate-of-return regulation), incentive regulation (including price caps), and the political economy of regulation. Precludes additional credit for ECON 4300 (no longer offered). Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher. Lectures three hours a week.

ECON 4309 [0.5 credit]**Applied Industrial Economics**

The empirical application of microeconomics, with special emphasis on the Canadian economy. Topics include: consumer demand, firm production and investment, and industrial and trade structure.

Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502) with a grade of C- or higher.

Lectures three hours a week.

ECON 4360 [0.5 credit]**Labour Economics**

The application of price theory to the labour market. Topics include models of labour supply and labour demand, human capital and the economics of education, and unions and their impact on the labour market.

Precludes additional credit for ECON 4305 (no longer offered) and ECON 4306 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4365 [0.5 credit]**Industrial Relations**

Economic analysis of selected industrial relations and labour market policy problems. Topics include unionization, strike activity, the economics of occupational health and safety, pension policy, and the impact of new technology on the labour market.

Precludes additional credit for ECON 4605 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4403 [0.5 credit]**Public Economics: Expenditures**

A discussion of the theory of government expenditures and an examination of empirical attempts to quantify the theory. Examination of current topics such as expenditures and grants in the Canadian federation.

Precludes additional credit for ECON 4402 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4404 [0.5 credit]**Public Economics: Taxation**

A discussion of the theory of taxation and an examination of empirical attempts to quantify the theory. Some topics of current interest, such as the redistribution of income in Canada and tax reform, are examined.

Precludes additional credit for ECON 4401 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4407 [0.5 credit]**Project Evaluation**

Techniques and problems in the evaluation of public and private projects. Examination of alternative approaches to public decision-making including cost-benefit analysis, cost-effectiveness analysis, and multiple-objective frameworks. Case studies of projects in various areas such as natural resources, the environment, human resources, public services, and transportation.

Prerequisite(s): ECON 2030 with a grade of C- or higher and ECON 2220 (or equivalent, or STAT 2605 or STAT 3502) with a grade of C- or higher.

Lectures three hours a week.

ECON 4460 [0.5 credit]**Health Economics**

Economic analysis of the organization, financing, and utilization of health-care services. Topics include supply and demand of health care, the impact of private and social health insurance on demand, and policy issues in the provision of health care in Canada.

Prerequisite(s): ECON 2030 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4507 [0.5 credit]**The Economics of Development**

An examination of some theoretical approaches to the economics of development, together with analysis of some economic policy issues of a largely internal character, such as intersectoral investment allocation, income distribution, unemployment, and investment in human development.

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 2103 with a grade of C- or higher.

Lectures three hours a week.

ECON 4508 [0.5 credit]**International Aspects of Economic Development**

An analysis of the international economic policy problems of development in Asia, Africa and Latin America, focusing on international trade, direct foreign investment, technological transfer, regional integration, debt and development financing, and international migration.

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher, and ECON 2103 with a grade of C- or higher.

Lectures three hours a week.

ECON 4601 [0.5 credit]**International Trade Theory and Policy**

International trade theory and its implications for economic policy. Topics such as determinants of trade and specialization, gains from trade and commercial policy, international factor mobility, growth and development.

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4602 [0.5 credit]**International Monetary Theory and Policy**

International monetary theory and its implications for economic policy. Topics such as sources of disequilibrium and adjustment in the balance of payments under fixed versus flexible exchange rates, international capital movements, and international monetary reform.

Prerequisite(s): ECON 2103 with a grade of C- or higher.

Lectures three hours a week.

ECON 4670 [0.5 credit]**Monetary Theory and Policy**

The role of money and the monetary system in determining income, employment, and price level; techniques of monetary policy; the relationship between monetary and fiscal policy.

Precludes additional credit for ECON 4607 (no longer offered) and ECON 4608 (no longer offered).

Prerequisite(s): ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4700 [0.5 credit]**Measurement Economics**

National accounting and index numbers. Topics may include: the measurement of output and income, capital and depreciation, productivity, employment and unemployment, poverty and inequality, household production, pollution and resource depletion, and the balance of payments; price indexes; standard-of-living indexes; and international comparisons.

Prerequisite(s): ECON 2030 with a grade of C- or higher, ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4706 [0.5 credit]**Econometrics I**

An introduction to econometric theory and analysis of the classical normal linear regression model. Topics include estimation methods, hypothesis testing, multicollinearity, indicator variables, heteroscedasticity, and an introduction to time-series methods.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C+ or higher, and ECON 2220 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4707 [0.5 credit]**Econometrics II**

An extension of ECON 4706. Topics include model specification, diagnostic checks, qualitative and limited dependent variables, panel data, and simultaneous equations models.

Prerequisite(s): ECON 4706 with a grade of C+ or higher, or STAT 3503 with a grade of C+ or higher.

Lectures three hours a week.

ECON 4708 [0.5 credit]**Economic Data Science - Analytics**

An introduction to methods of statistical and machine learning analytics for economic analysis. Tools relevant for both small and large data sets will be covered. Topics may include approaches to classification, dimension reduction strategies, and prediction models and tools.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2708 with a grade of C+ or higher; and ECON 4706 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week.

ECON 4709 [0.5 credit]**Economic Data Science - Applications**

Application of data science and machine learning methods to real-world economic problems. Students will apply their data science knowledge in hands-on projects to answer topical research questions. This course has a strong practical focus.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 4708 with a grade of C+ or higher.

Lectures three hours a week.

ECON 4713 [0.5 credit]**Time-Series Econometrics**

An introduction to the basic concepts and tools of time-series econometrics. Topics include stationary and non-stationary time series, identification, estimation and forecasting, unit root testing, cointegration analysis, error-correction models and ARCH models, together with relevant economic applications.

Precludes additional credit for ECON 4803 (no longer offered) and STAT 4603.

Prerequisite(s): ECON 4706 with a grade of C- or higher, or STAT 3503 with a grade of C- or higher.

Lectures three hours a week.

ECON 4714 [0.5 credit]**Advanced Topics in Applied Econometrics**

Advanced coverage of one or more areas of current interest in applied econometrics. An empirical research project may be required.

Includes: Experiential Learning Activity

Precludes additional credit for ECON 4804 (no longer offered).

Prerequisite(s): ECON 4706 with a grade of C+ or higher; and ECON 4707, which may be taken concurrently with ECON 4714.

Lectures three hours a week.

ECON 4800 [0.5 credit]**Spatial Economics**

Spatial dimensions of economic activity and organization. Theories of urban agglomeration effects, transport costs, forward and backward linkages, and associated spatial dynamics; empirical analysis of spatial economic clusters; effects of globalization and economic growth on the spatial structure of production and the associated policy response.

Prerequisite(s): ECON 2030 with a grade of C- or higher, ECON 2103 with a grade of C- or higher, and ECON 2220 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4850 [0.5 credit]**Advanced Economics of Information and Media**

The economics of information production, its distribution through broadcasting, publishing or the Internet, its exchange through telephone and e-mail networks, and its use in private and public organizations. An analysis of telecommunications, broadcasting, copyright, privacy, and Internet policy.

Precludes additional credit for ECON 4205 (no longer offered).

Prerequisite(s): ECON 2030 with a grade of C- or higher or ECON 2003 (no longer offered) with a grade of C- or higher.

Lectures three hours a week.

ECON 4880 [0.5 credit]**Special Topics in Economics**

Selected advanced topics of interest to upper-year Honours Economics and Applied Economics students. Topics may vary from year to year and are announced in advance of the registration period.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2030 with a grade of C+ or higher or ECON 2003 (no longer offered) with a grade of C+ or higher; ECON 2103 with a grade of C+ or higher; and ECON 3706 or ECON 4706, which may be taken concurrently with ECON 4880 or may be waived by permission of the Department.

Lectures and/or seminars three hours a week.

ECON 4903 [0.5 credit]**Tutorial in Economics**

An additional tutorial in economics may be taken subsequent to, or concurrently with, ECON 4890 (no longer offered) or ECON 4901 (no longer offered) or ECON 4902 (no longer offered) or ECON 4905.

Prerequisite(s): permission of the Department.

ECON 4904 [0.5 credit]**Tutorial in Economics**

An additional tutorial in economics may be taken subsequent to, or concurrently with, ECON 4890 (no longer offered) or ECON 4901 (no longer offered) or ECON 4902 (no longer offered) or ECON 4905.

Prerequisite(s): permission of the Department.

ECON 4905 [0.5 credit]**Honours Capstone Seminar**

The development of individual research projects in suitable economics topic areas with the exchange of results at each stage through in-class discussions and written and oral reports and culminating in a major research paper by each course registrant.

Includes: Experiential Learning Activity

Precludes additional credit for ECON 4890, ECON 4900 (no longer offered), ECON 4901, and ECON 4902.

Prerequisite(s): ECON 3900 with a grade of C+ or higher, ECON 3920 with a grade of C+ or higher, and registration in an Honours Economics program.

Seminars three hours a week.

ECON 4908 [1.0 credit]**Honours Essay**

Students taking Honours in Economics or Applied Economics may write an Honours essay during their final year. This essay counts for one credit. Students work under an individual faculty adviser.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Department.

ECON 4990 [0.5 credit]**Research and Writing in Economics**

Development of fundamental research and writing skills pertinent to the discipline of economics. Writing summary reviews of economics texts of increasing sophistication; writing up empirical and/or theoretical results of increasing complexity.

Prerequisite(s): registration in the Post-Baccalaureate Diploma in Economics program and/or permission of the Department.

Seminars three hours a week, tutorials one and a half hours a week.

Engineering

This section presents the requirements for programs in:

- Aerospace Engineering - Bachelor of Engineering Stream A: Aerodynamics, Propulsion and Vehicle Performance
- Aerospace Engineering - Bachelor of Engineering Stream B: Aerospace Structures, Systems and Vehicle Design
- Aerospace Engineering - Bachelor of Engineering Stream C: Aerospace Electronics and Systems
- Aerospace Engineering - Bachelor of Engineering Stream D: Space Systems Design
- Architectural Conservation and Sustainability Engineering - Bachelor of Engineering
- Architectural Conservation and Sustainability Engineering - Bachelor of Engineering Stream A: Structural
- Architectural Conservation and Sustainability Engineering - Bachelor of Engineering Stream B: Environmental
- Biomedical and Electrical Engineering Bachelor of Engineering

- Biomedical and Mechanical Engineering Bachelor of Engineering
- Civil Engineering Bachelor of Engineering
- Communications Engineering Bachelor of Engineering
- Computer Systems Engineering Bachelor of Engineering
- Electrical Engineering Bachelor of Engineering
- Engineering Physics Bachelor of Engineering
- Environmental Engineering Bachelor of Engineering
- Mechanical Engineering Bachelor of Engineering
- Software Engineering Bachelor of Engineering
- Sustainable and Renewable Energy Stream A: Smart Technologies for Power Generation and Distribution Bachelor of Engineering
- Sustainable and Renewable Energy Stream B: Efficient Energy Generation and Conversion Bachelor of Engineering

Program Requirements

Course Categories for Engineering Programs

The following categories of courses are used in defining the programs.

Basic Science Electives

Courses in this classification must be chosen from among those listed as acceptable for the current academic year. The list is published annually on the engineering academic support website: carleton.ca/engineering/uas. The list will change from year to year and only courses on the list valid in the year the course is taken, or courses for which formal approval of the Faculty has been obtained can be used as credit toward an engineering degree. Courses not on the list may be used to fulfill a Basic Science elective requirement with the permission of the Faculty of Engineering and Design and provided all other specified course requirements are met. Note that access to courses on the list is not guaranteed and may depend on space availability and the satisfaction of other requirements including, for example, course prerequisites.

Complementary Studies Electives

Courses in this classification must be chosen from among those listed as acceptable for the current academic year. The list is published annually on the engineering academic support website: carleton.ca/engineering/uas. The list will change from year to year and only courses on the list valid in the year the course is taken, or courses for which formal approval of the Faculty has been obtained can be used as credit toward an engineering degree. English as a Second Language courses are not acceptable for use as Complementary Studies electives in any engineering program. Courses not on the list may be used to fulfill a Complementary Studies elective requirement with the permission of the Faculty of Engineering and Design and provided all other specified course requirements are met. Registration in CUOL or online course sections is not acceptable. Note that access to courses on the list is not guaranteed and may depend on space availability and the satisfaction of other requirements including, for example, course prerequisites.

Communications Electives for Communications Engineering

ELEC 4503 [0.5]	Radio Frequency Lines and Antennas
ELEC 4505 [0.5]	Telecommunication Circuits
ELEC 4506 [0.5]	Computer-Aided Design of Circuits and Systems
ELEC 4509 [0.5]	Communication Links
ELEC 4702 [0.5]	Fiber Optic Communications
SYSC 4607 [0.5]	Wireless Communications

Computer Science Electives for Software Engineering

The list of computer science (COMP) electives for software engineering degree is published annually on the engineering academic support website: carleton.ca/engineering/uas. The list will change from year to year and only courses on the list valid in the year the course is taken, or courses for which formal approval of the Faculty has been obtained, can be used as credit toward the Software Engineering degree.

Aerospace Engineering Bachelor of Engineering

Students in Aerospace Engineering must satisfy the requirements for one of the following streams:

Aerospace Engineering - Bachelor of Engineering Stream A: Aerodynamics, Propulsion and Vehicle Performance (21.0 credits)

First Year

1. a) 4.0 credits in:	4.0
CHEM 1101 [0.5]	Chemistry for Engineering Students
ECOR 1041 [0.25]	Computation and Programming
ECOR 1042 [0.25]	Data Management
ECOR 1043 [0.25]	Circuits
ECOR 1044 [0.25]	Mechatronics
ECOR 1045 [0.25]	Statics
ECOR 1046 [0.25]	Mechanics
ECOR 1047 [0.25]	Visual Communication
ECOR 1048 [0.25]	Dynamics
MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1104 [0.5]	Linear Algebra for Engineering or Science
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I	
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II	
ECOR 1057 [0.0]	Engineering Profession	
2. 0.5 credit in	Complementary Studies Electives	0.5
3. 0.5 credit in	Basic Science Electives	0.5

Second Year

4. a) 5.0 credits in:	5.0
AERO 2001 [0.5]	Aerospace Engineering Graphical Design

ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments
ELEC 3605 [0.5]	Electrical Engineering
MAAE 2101 [0.5]	Engineering Dynamics
MAAE 2202 [0.5]	Mechanics of Solids I
MAAE 2300 [0.5]	Fluid Mechanics I
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer
MAAE 2700 [0.5]	Engineering Materials
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio
-----------------	-----------------------

Third Year

5. 5.5 credits in: 5.5

AERO 3002 [0.5]	Aerospace Design and Practice
AERO 3700 [0.5]	Aerospace Materials
CCDP 2100 [0.5]	Communication Skills for Engineering Students
ECOR 3800 [0.5]	Engineering Economics
MAAE 3004 [0.5]	Dynamics of Machinery
MAAE 3202 [0.5]	Mechanics of Solids II
MAAE 3300 [0.5]	Fluid Mechanics II
MAAE 3400 [0.5]	Applied Thermodynamics
MAAE 3500 [0.5]	Feedback Control Systems
MATH 3705 [0.5]	Mathematical Methods I
SYSC 3600 [0.5]	Systems and Simulation

Fourth Year

6. 3.5 credits from: 3.5

AERO 4003 [0.5]	Aerospace Systems Design
AERO 4302 [0.5]	Aerodynamics and Heat Transfer
AERO 4306 [0.5]	Aerospace Vehicle Performance
AERO 4308 [0.5]	Aircraft Stability and Control
MAAE 4907 [1.0]	Engineering Design Project
ECOR 4995 [0.5]	Professional Practice

7. 1.0 credit in 4000-level Mechanical and Aerospace Engineering (MAAE, AERO, or MECH) 1.0

8. 0.5 credit from: 0.5

AERO 4402 [0.5]	Aerospace Propulsion
AERO 4442 [0.5]	Transatmospheric and Spacecraft Propulsion
AERO 4607 [0.5]	Rotorcraft Aerodynamics and Performance

9. 0.5 credit in Complementary Studies Electives 0.5

Total Credits 21.0

Aerospace Engineering - Bachelor of Engineering Stream B: Aerospace Structures, Systems and Vehicle Design (21.0 credits)

First year

1. a) 4.0 credits in: 4.0

CHEM 1101 [0.5]	Chemistry for Engineering Students
ECOR 1041 [0.25]	Computation and Programming
ECOR 1042 [0.25]	Data Management
ECOR 1043 [0.25]	Circuits
ECOR 1044 [0.25]	Mechatronics

ECOR 1045 [0.25]	Statics
ECOR 1046 [0.25]	Mechanics
ECOR 1047 [0.25]	Visual Communication
ECOR 1048 [0.25]	Dynamics
MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1104 [0.5]	Linear Algebra for Engineering or Science
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II
ECOR 1057 [0.0]	Engineering Profession

2. 0.5 credit in Complementary Studies Electives 0.5

3. 0.5 credit in Basic Science Electives 0.5

Second year

4. a) 5.0 credits in: 5.0

AERO 2001 [0.5]	Aerospace Engineering Graphical Design
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments
ELEC 3605 [0.5]	Electrical Engineering
MAAE 2101 [0.5]	Engineering Dynamics
MAAE 2202 [0.5]	Mechanics of Solids I
MAAE 2300 [0.5]	Fluid Mechanics I
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer
MAAE 2700 [0.5]	Engineering Materials
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio
-----------------	-----------------------

Third year

5. 5.5 credits in: 5.5

AERO 3002 [0.5]	Aerospace Design and Practice
AERO 3101 [0.5]	Lightweight Structures
AERO 3700 [0.5]	Aerospace Materials
CCDP 2100 [0.5]	Communication Skills for Engineering Students
ECOR 3800 [0.5]	Engineering Economics
MAAE 3004 [0.5]	Dynamics of Machinery
MAAE 3202 [0.5]	Mechanics of Solids II
MAAE 3300 [0.5]	Fluid Mechanics II
MAAE 3500 [0.5]	Feedback Control Systems
MATH 3705 [0.5]	Mathematical Methods I
SYSC 3600 [0.5]	Systems and Simulation

Fourth year

6. 3.5 credits in: 3.5

AERO 4003 [0.5]	Aerospace Systems Design
AERO 4602 [0.5]	Introductory Aeroelasticity
AERO 4608 [0.5]	Composite Materials
ECOR 4995 [0.5]	Professional Practice
MAAE 4102 [0.5]	Materials: Strength and Fracture

MAAE 4907 [1.0]	Engineering Design Project	
7. 1.0 credits in	4000-level Mechanical and Aerospace Engineering (MAAE, AERO, or MECH)	1.0
8. 0.5 credits from		0.5
AERO 4609 [0.5]	Joining of Materials	
MECH 4103 [0.5]	Fatigue and Fracture Analysis	
MECH 4104 [0.5]	Vibration Analysis	
MECH 4604 [0.5]	Finite Element Methods	
9. 0.5 credit in	Complementary Studies Electives	0.5
Total Credits		21.0

Aerospace Engineering - Bachelor of Engineering Stream C: Aerospace Electronics and Systems (21.0 credits)

First year

1. a) 4.0 credits in:		4.0
CHEM 1101 [0.5]	Chemistry for Engineering Students	
ECOR 1041 [0.25]	Computation and Programming	
ECOR 1042 [0.25]	Data Management	
ECOR 1043 [0.25]	Circuits	
ECOR 1044 [0.25]	Mechatronics	
ECOR 1045 [0.25]	Statics	
ECOR 1046 [0.25]	Mechanics	
ECOR 1047 [0.25]	Visual Communication	
ECOR 1048 [0.25]	Dynamics	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I	
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II	
ECOR 1057 [0.0]	Engineering Profession	
2. 0.5 credit in	Complementary Studies Electives	0.5
3. 0.5 credit in	Basic Science Elective	0.5

Second year

4. a) 5.0 credits in:		5.0
AERO 2001 [0.5]	Aerospace Engineering Graphical Design	
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments	
ELEC 2501 [0.5]	Circuits and Signals	
ELEC 2507 [0.5]	Electronics I	
ELEC 2607 [0.5]	Switching Circuits	
MAAE 2101 [0.5]	Engineering Dynamics	
MAAE 2202 [0.5]	Mechanics of Solids I	
MAAE 2700 [0.5]	Engineering Materials	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio	
-----------------	-----------------------	--

Third year

5. 5.5 credits in:		5.5
AERO 3002 [0.5]	Aerospace Design and Practice	
CCDP 2100 [0.5]	Communication Skills for Engineering Students	
ECOR 3800 [0.5]	Engineering Economics	
ELEC 3105 [0.5]	Electromagnetic Fields	
ELEC 3500 [0.5]	Digital Electronics	
ELEC 3509 [0.5]	Electronics II	
ELEC 3909 [0.5]	Electromagnetic Waves	
MAAE 2300 [0.5]	Fluid Mechanics I	
MAAE 3500 [0.5]	Feedback Control Systems	
MATH 3705 [0.5]	Mathematical Methods I	
SYSC 3600 [0.5]	Systems and Simulation	

Fourth year

6. 3.5 credits in:		3.5
AERO 4003 [0.5]	Aerospace Systems Design	
AERO 4504 [0.5]	Avionics Systems	
ECOR 4995 [0.5]	Professional Practice	
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer	
MAAE 4907 [1.0]	Engineering Design Project	
SYSC 3501 [0.5]	Communication Theory	
7. 1.5 credits from:	4000-level AERO, MAAE or MECH, or	1.5
AERO 3240 [0.5]	Orbital Mechanics	
AERO 3841 [0.5]	Spacecraft Design I	
ELEC 4502 [0.5]	Microwave Circuits	
ELEC 4503 [0.5]	Radio Frequency Lines and Antennas	
ELEC 4505 [0.5]	Telecommunication Circuits	
ELEC 4506 [0.5]	Computer-Aided Design of Circuits and Systems	
ELEC 4509 [0.5]	Communication Links	
ELEC 4600 [0.5]	Radar and Navigation	
ELEC 4609 [0.5]	Integrated Circuit Design and Fabrication	
ELEC 4703 [0.5]	Solar Cells	
ELEC 4706 [0.5]	High-Speed Electronics: Circuits and Systems	
ELEC 4707 [0.5]	Analog Integrated Electronics	
ELEC 4708 [0.5]	Advanced Digital Integrated Circuit Design	
ELEC 4709 [0.5]	Integrated Sensors	
SYSC 4205 [0.5]	Image Processing for Medical Applications	
SYSC 4600 [0.5]	Digital Communications	
SYSC 4607 [0.5]	Wireless Communications	
8. 0.5 credit in	Complementary Studies Electives	0.5
Total Credits		21.0

Aerospace Engineering - Bachelor of Engineering Stream D: Space Systems Design (21.0 credits)

First year

1. a) 4.0 credits in:		4.0
CHEM 1101 [0.5]	Chemistry for Engineering Students	
ECOR 1041 [0.25]	Computation and Programming	
ECOR 1042 [0.25]	Data Management	
ECOR 1043 [0.25]	Circuits	

ECOR 1044 [0.25]	Mechatronics	
ECOR 1045 [0.25]	Statics	
ECOR 1046 [0.25]	Mechanics	
ECOR 1047 [0.25]	Visual Communication	
ECOR 1048 [0.25]	Dynamics	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I	
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II	
ECOR 1057 [0.0]	Engineering Profession	

- 2. 0.5 credit in** Complementary Studies Electives 0.5
3. 0.5 credit in Basic Science Electives 0.5

Second year

- 4. a) 4.5 credits in:** 4.5

AERO 2001 [0.5]	Aerospace Engineering Graphical Design	
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments	
MAAE 2101 [0.5]	Engineering Dynamics	
MAAE 2202 [0.5]	Mechanics of Solids I	
MAAE 2300 [0.5]	Fluid Mechanics I	
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer	
MAAE 2700 [0.5]	Engineering Materials	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio	
-----------------	-----------------------	--

- 5. 0.5 credit in** Complementary Studies Electives 0.5

Third year

- 6. 5.5 credits in:** 5.5

AERO 3002 [0.5]	Aerospace Design and Practice	
AERO 3240 [0.5]	Orbital Mechanics	
AERO 3841 [0.5]	Spacecraft Design I	
CCDP 2100 [0.5]	Communication Skills for Engineering Students	
ECOR 3800 [0.5]	Engineering Economics	
ELEC 3909 [0.5]	Electromagnetic Waves	
MAAE 3004 [0.5]	Dynamics of Machinery	
MAAE 3300 [0.5]	Fluid Mechanics II	
MAAE 3500 [0.5]	Feedback Control Systems	
MATH 3705 [0.5]	Mathematical Methods I	
SYSC 3600 [0.5]	Systems and Simulation	

Fourth year

- 7. 4.0 credits in:** 4.0

AERO 4442 [0.5]	Transatmospheric and Spacecraft Propulsion	
AERO 4446 [0.5]	Heat Transfer for Aerospace Applications	

AERO 4540 [0.5]	Spacecraft Attitude Dynamics and Control	
AERO 4842 [0.5]	Spacecraft Design II	
ECOR 4995 [0.5]	Professional Practice	
ELEC 4509 [0.5]	Communication Links	
MAAE 4907 [1.0]	Engineering Design Project	

- 8. 1.5 credits from** 4000-level MAAE, AERO or MECH, 1.5
or AERO 3101, AERO 3700, ELEC 4503, ELEC 4600, ELEC 4709

Total Credits **21.0**

Architectural Conservation and Sustainability Engineering - Bachelor of Engineering (21.5 credits)

First year

- 1. a) 4.5 credits in:** 4.5

ARCH 1000 [0.5]	Introduction to Architecture	
CHEM 1101 [0.5]	Chemistry for Engineering Students	
ECOR 1041 [0.25]	Computation and Programming	
ECOR 1042 [0.25]	Data Management	
ECOR 1043 [0.25]	Circuits	
ECOR 1044 [0.25]	Mechatronics	
ECOR 1045 [0.25]	Statics	
ECOR 1046 [0.25]	Mechanics	
ECOR 1047 [0.25]	Visual Communication	
ECOR 1048 [0.25]	Dynamics	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I	
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II	
ECOR 1057 [0.0]	Engineering Profession	

- 2. 0.5 credit in** Basic Science Electives 0.5

Second year

- 3. a) 5.5 credits in:** 5.5

ARCC 2202 [0.5]	Architectural Technology 1	
CCDP 2100 [0.5]	Communication Skills for Engineering Students	
CDNS 2400 [0.5]	Heritage Places and Practices in Canada	
CIVE 2200 [0.5]	Mechanics of Solids I	
CIVE 2700 [0.5]	Civil Engineering Materials	
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments	
ENVE 1001 [0.5]	Architecture and the Environment	
MAAE 2300 [0.5]	Fluid Mechanics I	
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio	
Third year		
4. 5.5 credits in:		5.5
ACSE 3201 [0.5]	Introduction to Building Performance Simulation	
ARCC 2203 [0.5]	Architectural Technology 3	
ENVE 4105 [0.5]	Green Building Design	
CIVE 3203 [0.5]	Introduction to Structural Analysis	
CIVE 3204 [0.5]	Introduction to Structural Design	
CIVE 3205 [0.5]	Design of Structural Steel Components	
CIVE 3206 [0.5]	Design of Reinforced Concrete Components	
CIVE 3207 [0.5]	Historic Site Recording and Assessment	
CIVE 3209 [0.5]	Building Science	
CIVE 4202 [0.5]	Wood Engineering	
ECOR 3800 [0.5]	Engineering Economics	
Fourth year		
5. 4.0 credits in:		4.0
ACSE 4101 [0.5]	Introduction to Structural Assessment of Historic Masonry Buildings	
ARCH 4200 [0.5]	Architectural Conservation Philosophy and Ethics	
CIVE 4601 [0.5]	Building Pathology and Rehabilitation	
CIVE 4918 [1.0]	Design Project	
ECOR 4995 [0.5]	Professional Practice	
ENVE 4106 [0.5]	Indoor Environmental Quality	
ENVE 4107 [0.5]	Building Services Engineering	
6. 1.5 credits from:		1.5
CIVE 3202 [0.5]	Mechanics of Solids II	
CIVE 3208 [0.5]	Geotechnical Mechanics	
CIVE 4200 [0.5]	Matrix Analysis of Framed Structures	
CIVE 4201 [0.5]	Finite Element Methods in Civil Engineering	
CIVE 4302 [0.5]	Reinforced and Prestressed Concrete Design	
CIVE 4303 [0.5]	Urban Planning	
CIVE 4307 [0.5]	Municipal Hydraulics	
CIVE 4308 [0.5]	Behaviour and Design of Steel Structures	
CIVE 4400 [0.5]	Construction/Project Management	
CIVE 4403 [0.5]	Masonry Design	
CIVE 4407 [0.5]	Municipal Engineering	
CIVE 4500 [0.5]	Computer Methods in Civil Engineering	
CIVE 4614 [0.5]	Building Fire Safety	
CIVE 4907 [1.0]	Engineering Research Project	
CIVE 4917 [0.5]	Undergraduate Directed Study	
ENVE 3003 [0.5]	Water Resources Engineering	
ENVE 4003 [0.5]	Air Pollution and Emissions Control	
ENVE 4200 [0.5]	Climate Change and Engineering	
MECH 4407 [0.5]	Heating and Air Conditioning	

SREE 4002 [0.5]	Modelling and Analysis of Energy Systems: Risk, Reliability, and Economics	
Total Credits		21.5

Note: Students admitted starting from fall 2019 are not eligible to select either the Structural or Environmental stream of the program.

Architectural Conservation and Sustainability Engineering Bachelor of Engineering

Architectural Conservation and Sustainability Engineering students with an admission and catalog term prior fall 2019 must satisfy the requirements for one of the following streams:

Architectural Conservation and Sustainability Engineering - Bachelor of Engineering Stream A: Structural (22.0 credits)

First year		
1. 5.5 credits in:		5.5
ARCH 1000 [0.5]	Introduction to Architecture	
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
ECOR 1010 [0.5]	Introduction to Engineering	
ECOR 1101 [0.5]	Mechanics I	
ECOR 1606 [0.5]	Problem Solving and Computers	
ENVE 1001 [0.5]	Architecture and the Environment	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
Second year		
2. 5.5 credits in:		5.5
ARCC 2202 [0.5]	Architectural Technology 1	
CCDP 2100 [0.5]	Communication Skills for Engineering Students	
CDNS 2400 [0.5]	Heritage Places and Practices in Canada	
CIVE 2004 [0.5]	GIS, Surveying, CAD and BIM	
CIVE 2200 [0.5]	Mechanics of Solids I	
CIVE 2700 [0.5]	Civil Engineering Materials	
ECOR 2606 [0.5]	Numerical Methods	
ENVE 2001 [0.5]	Process Analysis for Environmental Engineering	
MAAE 2300 [0.5]	Fluid Mechanics I	
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
Third year		
3. 5.5 credits in:		5.5
ARCC 2203 [0.5]	Architectural Technology 3	
ARCC 3202 [0.5]	Architectural Technology 4	
CIVE 3202 [0.5]	Mechanics of Solids II	
CIVE 3203 [0.5]	Introduction to Structural Analysis	

CIVE 3204 [0.5]	Introduction to Structural Design	
CIVE 3205 [0.5]	Design of Structural Steel Components	
CIVE 3206 [0.5]	Design of Reinforced Concrete Components	
CIVE 3207 [0.5]	Historic Site Recording and Assessment	
CIVE 3209 [0.5]	Building Science	
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments	
ECOR 3800 [0.5]	Engineering Economics	
Fourth year		
4. 4.0 credits in:		4.0
ARCH 4200 [0.5]	Architectural Conservation Philosophy and Ethics	
CIVE 4202 [0.5]	Wood Engineering	
CIVE 4601 [0.5]	Building Pathology and Rehabilitation	
CIVE 4918 [1.0]	Design Project	
ECOR 4995 [0.5]	Professional Practice	
ENVE 4105 [0.5]	Green Building Design	
ENVE 4106 [0.5]	Indoor Environmental Quality	
5. 1.5 credits from:		1.5
CIVE 4200 [0.5]	Matrix Analysis of Framed Structures	
CIVE 4201 [0.5]	Finite Element Methods in Civil Engineering	
CIVE 4302 [0.5]	Reinforced and Prestressed Concrete Design	
CIVE 4303 [0.5]	Urban Planning	
CIVE 4308 [0.5]	Behaviour and Design of Steel Structures	
CIVE 4400 [0.5]	Construction/Project Management	
CIVE 4403 [0.5]	Masonry Design	
CIVE 4500 [0.5]	Computer Methods in Civil Engineering	
CIVE 4614 [0.5]	Building Fire Safety	
CIVE 4917 [0.5]	Undergraduate Directed Study	
ENVE 4003 [0.5]	Air Pollution and Emissions Control	
MECH 4407 [0.5]	Heating and Air Conditioning	
SREE 4002 [0.5]	Modelling and Analysis of Energy Systems: Risk, Reliability, and Economics	
(See Note 2, below)		
Total Credits		22.0

Notes:

- For **Item 1** and students transferring into Architectural Conservation and Sustainability Engineering (Structural or Environmental Stream), students in good academic standing and who have successfully completed CHEM 1101 while registered in another engineering program may replace CHEM 1001 and CHEM 1002 with CHEM 1101 plus one 0.5 credit course from the Basic Science Electives list.
- For Item 5 in the Structural Stream, CIVE 4907 may replace 1.0 credit.

Architectural Conservation and Sustainability Engineering - Bachelor of Engineering Stream B: Environmental (22.0 credits)

First year

1. 5.5 credits in:		5.5
ARCH 1000 [0.5]	Introduction to Architecture	
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
ECOR 1010 [0.5]	Introduction to Engineering	
ECOR 1101 [0.5]	Mechanics I	
ECOR 1606 [0.5]	Problem Solving and Computers	
ENVE 1001 [0.5]	Architecture and the Environment	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	

Second year

2. 5.5 credits in:		5.5
ARCC 2202 [0.5]	Architectural Technology 1	
CCDP 2100 [0.5]	Communication Skills for Engineering Students	
CDNS 2400 [0.5]	Heritage Places and Practices in Canada	
CIVE 2004 [0.5]	GIS, Surveying, CAD and BIM	
CIVE 2200 [0.5]	Mechanics of Solids I	
CIVE 2700 [0.5]	Civil Engineering Materials	
ECOR 2606 [0.5]	Numerical Methods	
ENVE 2001 [0.5]	Process Analysis for Environmental Engineering	
MAAE 2300 [0.5]	Fluid Mechanics I	
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	

Third year

3. 5.5 credits in:		5.5
ARCC 2203 [0.5]	Architectural Technology 3	
ARCC 3202 [0.5]	Architectural Technology 4	
CIVE 3204 [0.5]	Introduction to Structural Design	
CIVE 3207 [0.5]	Historic Site Recording and Assessment	
CIVE 3209 [0.5]	Building Science	
CIVE 4307 [0.5]	Municipal Hydraulics	
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments	
ECOR 3800 [0.5]	Engineering Economics	
ENVE 3001 [0.5]	Water Treatment Principles and Design	
ENVE 3002 [0.5]	Environmental Engineering Systems Modeling	
ENVE 3004 [0.5]	Contaminant and Pollutant Transport in the Environment	

Fourth year

4. 5.0 credits in:		5.0
ARCH 4200 [0.5]	Architectural Conservation Philosophy and Ethics	

CIVE 4601 [0.5]	Building Pathology and Rehabilitation	
ECOR 4995 [0.5]	Professional Practice	
ENVE 4005 [0.5]	Wastewater Treatment Principles and Design	
ENVE 4101 [0.5]	Waste Management	
ENVE 4104 [0.5]	Environmental Planning and Impact Assessment	
ENVE 4105 [0.5]	Green Building Design	
ENVE 4106 [0.5]	Indoor Environmental Quality	
ENVE 4918 [1.0]	Design Project	
5. 0.5 credit from:		0.5
CIVE 4201 [0.5]	Finite Element Methods in Civil Engineering	
CIVE 4303 [0.5]	Urban Planning	
CIVE 4400 [0.5]	Construction/Project Management	
CIVE 4500 [0.5]	Computer Methods in Civil Engineering	
ENVE 3003 [0.5]	Water Resources Engineering	
ENVE 4003 [0.5]	Air Pollution and Emissions Control	
ENVE 4917 [0.5]	Undergraduate Directed Study	
MECH 4401 [0.5]	Power Plant Analysis	
MECH 4403 [0.5]	Power Generation Systems	
MECH 4406 [0.5]	Heat Transfer	
MECH 4407 [0.5]	Heating and Air Conditioning	
SREE 4002 [0.5]	Modelling and Analysis of Energy Systems: Risk, Reliability, and Economics	
Total Credits		22.0

Notes:

- For **Item 1** and students transferring into Architectural Conservation and Sustainability Engineering (Structural or Environmental Stream), students in good academic standing and who have successfully completed CHEM 1101 while registered in another engineering program may replace CHEM 1001 and CHEM 1002 with CHEM 1101 plus one 0.5 credit course from the Basic Science Electives list.

Biomedical and Electrical Engineering Bachelor of Engineering (21.0 credits)

First year

1. a) 4.5 credits in:		4.5
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
ECOR 1041 [0.25]	Computation and Programming	
ECOR 1042 [0.25]	Data Management	
ECOR 1043 [0.25]	Circuits	
ECOR 1044 [0.25]	Mechatronics	
ECOR 1045 [0.25]	Statics	
ECOR 1046 [0.25]	Mechanics	
ECOR 1047 [0.25]	Visual Communication	
ECOR 1048 [0.25]	Dynamics	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:		
ECOR 1055 [0.0]	Introduction to Engineering Disciplines I	
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II	
ECOR 1057 [0.0]	Engineering Profession	
2. 0.5 credit in	Complementary Studies Electives.	0.5
Second year		
3. a) 5.0 credits in:		5.0
BIOL 1103 [0.5]	Foundations of Biology I	
CCDP 2100 [0.5]	Communication Skills for Engineering Students	
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments	
ELEC 2501 [0.5]	Circuits and Signals	
ELEC 2507 [0.5]	Electronics I	
ELEC 2607 [0.5]	Switching Circuits	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
SYSC 2006 [0.5]	Foundations of Imperative Programming	
SYSC 2510 [0.5]	Probability, Statistics and Random Processes for Engineers	
b) Successful completion of		
ECOR 2995 [0.0]	Engineering Portfolio	
Third year		
4. 4.5 credits in:		4.5
ELEC 3105 [0.5]	Electromagnetic Fields	
ELEC 3500 [0.5]	Digital Electronics	
ELEC 3909 [0.5]	Electromagnetic Waves	
SYSC 3006 [0.5]	Computer Organization	
SYSC 3203 [0.5]	Bioelectrical Systems	
SYSC 3501 [0.5]	Communication Theory	
SYSC 3610 [0.5]	Biomedical Systems, Modeling, and Control	
SYSC 4201 [0.5]	Ethics, Research Methods and Standards for Biomedical Engineering	
ECOR 3800 [0.5]	Engineering Economics	
5. 0.5 credit from:		0.5
BIOL 1104 [0.5]	Foundations of Biology II	
BIOL 2005 [0.5]	Human Biology	
BIOL 2201 [0.5]	Cell Biology and Biochemistry	
BIOL 2303 [0.5]	Microbiology	
BIOL 3306 [0.5]	Human Anatomy and Physiology	
BIOL 4309 [0.5]	Studies in Human Performance	
BIOL 4319 [0.5]	Studies in Exercise Physiology	
CHEM 2203 [0.5]	Organic Chemistry I	
CHEM 2204 [0.5]	Organic Chemistry II	
OR (with permission of the department)		
0.5 credit in BIOL, BIOC or CHEM		
6. 0.5 credit from:		0.5
ELEC 3908 [0.5]	Physical Electronics	
SYSC 2004 [0.5]	Object-Oriented Software Development	

SYSC 2010 [0.5]	Programming Project	
Fourth year		
7. 2.0 credits in:		2.0
ECOR 4995 [0.5]	Professional Practice	
ELEC 4601 [0.5]	Microprocessor Systems	
SYSC 4203 [0.5]	Bioinstrumentation and Signals	
SYSC 4405 [0.5]	Digital Signal Processing	
8. 1.0 credit in:		1.0
SYSC 4907 [1.0]	Engineering Project	
9. 0.5 credit from the list in Item 5		0.5
10. 1.0 credit from:		1.0
ELEC 4709 [0.5]	Integrated Sensors	
SYSC 4202 [0.5]	Clinical Engineering	
SYSC 4205 [0.5]	Image Processing for Medical Applications	
OR		
0.5 credit in BIOM at the 5000 level		
11. 0.5 credit from SYSC or ELEC course at the 3000 level or above		0.5
OR		
0.5 credit in BIOM at the 5000 level		
12. 0.5 credit in Complementary Studies Electives.		0.5
Total Credits		21.0

Biomedical and Mechanical Engineering Bachelor of Engineering (21.0 credits)

First year

1. a) 4.5. credits in:		4.5
CHEM 1001 [0.5]	General Chemistry I	
CHEM 1002 [0.5]	General Chemistry II	
ECOR 1041 [0.25]	Computation and Programming	
ECOR 1042 [0.25]	Data Management	
ECOR 1043 [0.25]	Circuits	
ECOR 1044 [0.25]	Mechatronics	
ECOR 1045 [0.25]	Statics	
ECOR 1046 [0.25]	Mechanics	
ECOR 1047 [0.25]	Visual Communication	
ECOR 1048 [0.25]	Dynamics	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I	
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II	
ECOR 1057 [0.0]	Engineering Profession	

2. 0.5 credit in Complementary Studies Electives		0.5
---	--	------------

Second year

3. a) 4.5 credits in:		4.5
BIOL 1103 [0.5]	Foundations of Biology I	
MAAE 2001 [0.5]	Engineering Graphical Design	
MAAE 2101 [0.5]	Engineering Dynamics	
MAAE 2202 [0.5]	Mechanics of Solids I	

MAAE 2300 [0.5]	Fluid Mechanics I	
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer	
MAAE 2700 [0.5]	Engineering Materials	
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics	
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics	
b) Successful completion of		
ECOR 2995 [0.0]	Engineering Portfolio	
4. 0.5 credit in Complementary Studies Electives		0.5

Third year

5. 6.0 credits in:		6.0
CCDP 2100 [0.5]	Communication Skills for Engineering Students	
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments	
ECOR 3800 [0.5]	Engineering Economics

7. 2.0 credits from:		2.0
ACSE 4101 [0.5]	Introduction to Structural Assessment of Historic Masonry Buildings	
CIVE 4200 [0.5]	Matrix Analysis of Framed Structures	
CIVE 4201 [0.5]	Finite Element Methods in Civil Engineering	
CIVE 4202 [0.5]	Wood Engineering	
CIVE 4301 [0.5]	Foundation Engineering	
CIVE 4302 [0.5]	Reinforced and Prestressed Concrete Design	
CIVE 4303 [0.5]	Urban Planning	
CIVE 4307 [0.5]	Municipal Hydraulics	
CIVE 4308 [0.5]	Behaviour and Design of Steel Structures	
CIVE 4403 [0.5]	Masonry Design	
CIVE 4500 [0.5]	Computer Methods in Civil Engineering	
CIVE 4614 [0.5]	Building Fire Safety	
CIVE 4907 [1.0]	Engineering Research Project	
CIVE 4917 [0.5]	Undergraduate Directed Study	
ENVE 3003 [0.5]	Water Resources Engineering	
ENVE 4105 [0.5]	Green Building Design	
ENVE 4200 [0.5]	Climate Change and Engineering	
Total Credits		21.0

Communications Engineering Bachelor of Engineering (21.0 credits)

First year

1. a) 4.0 credits in:		4.0
CHEM 1101 [0.5]	Chemistry for Engineering Students	
ECOR 1041 [0.25]	Computation and Programming	
ECOR 1042 [0.25]	Data Management	
ECOR 1043 [0.25]	Circuits	
ECOR 1044 [0.25]	Mechatronics	
ECOR 1045 [0.25]	Statics	
ECOR 1046 [0.25]	Mechanics	
ECOR 1047 [0.25]	Visual Communication	
ECOR 1048 [0.25]	Dynamics	
MATH 1004 [0.5]	Calculus for Engineering or Physics	
MATH 1104 [0.5]	Linear Algebra for Engineering or Science	
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion	
b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:		
ECOR 1055 [0.0]	Introduction to Engineering Disciplines I	
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II	
ECOR 1057 [0.0]	Engineering Profession	
2. 0.5 credit in	Basic Science Electives	0.5
3. 0.5 credit in	Complementary Studies Electives	0.5
Second year		
4. a) 5.0 credits in:		5.0

CCDP 2100 [0.5]	Communication Skills for Engineering Students
ELEC 2501 [0.5]	Circuits and Signals
ELEC 2507 [0.5]	Electronics I
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics
SYSC 2004 [0.5]	Object-Oriented Software Development
SYSC 2006 [0.5]	Foundations of Imperative Programming
SYSC 2310 [0.5]	Introduction to Digital Systems
SYSC 2320 [0.5]	Introduction to Computer Organization and Architecture
SYSC 2510 [0.5]	Probability, Statistics and Random Processes for Engineers

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio
-----------------	-----------------------

Third year

5. 5.0 credits in: 5.0

ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments
ECOR 3800 [0.5]	Engineering Economics
ELEC 3509 [0.5]	Electronics II
ELEC 3909 [0.5]	Electromagnetic Waves
SYSC 3310 [0.5]	Introduction to Real-Time Systems
SYSC 3500 [0.5]	Signals and Systems
SYSC 3503 [0.5]	Communication Theory II
SYSC 4502 [0.5]	Communications Software
SYSC 4504 [0.5]	Fundamentals of Web Development
SYSC 4602 [0.5]	Computer Communications

Fourth year

6. 3.5 credits in: 3.5

ECOR 4995 [0.5]	Professional Practice
SYSC 4405 [0.5]	Digital Signal Processing
SYSC 4604 [0.5]	Digital Communication Theory
SYSC 4607 [0.5]	Wireless Communications
SYSC 4700 [0.5]	Telecommunications Engineering
SYSC 4701 [0.5]	Communications Systems Lab
SYSC 4810 [0.5]	Introduction to Network and Software Security

7. 1.0 credit from: 1.0

SYSC 4907 [1.0]	Engineering Project
-----------------	---------------------

8. 1.0 credit from: 1.0

SYSC 2010 [0.5]	Programming Project
-----------------	---------------------

or SYSC or ELEC at the 3000 level or above (may include 1.0 credit in SYSC at the 5000 level)

9. 0.5 credit in Complementary Studies Electives 0.5

Total Credits 21.0

Computer Systems Engineering Bachelor of Engineering (21.0 credits)

First year

1. a) 4.0 credits in: 4.0

CHEM 1101 [0.5]	Chemistry for Engineering Students
ECOR 1041 [0.25]	Computation and Programming
ECOR 1042 [0.25]	Data Management

ECOR 1043 [0.25]	Circuits
ECOR 1044 [0.25]	Mechatronics
ECOR 1045 [0.25]	Statics
ECOR 1046 [0.25]	Mechanics
ECOR 1047 [0.25]	Visual Communication
ECOR 1048 [0.25]	Dynamics
MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1104 [0.5]	Linear Algebra for Engineering or Science
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II
ECOR 1057 [0.0]	Engineering Profession

2. 0.5 credit in Basic Science Electives 0.5

3. 0.5 credit in Complementary Studies Electives 0.5

Second year

4. a) 5.0 credits in: 5.0

CCDP 2100 [0.5]	Communication Skills for Engineering Students
ELEC 2501 [0.5]	Circuits and Signals
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics
SYSC 2004 [0.5]	Object-Oriented Software Development
SYSC 2006 [0.5]	Foundations of Imperative Programming
SYSC 2100 [0.5]	Algorithms and Data Structures
SYSC 2310 [0.5]	Introduction to Digital Systems
SYSC 2320 [0.5]	Introduction to Computer Organization and Architecture
SYSC 2510 [0.5]	Probability, Statistics and Random Processes for Engineers

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio
-----------------	-----------------------

Third year

5. 5.5 credits in: 5.5

ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments
ECOR 3800 [0.5]	Engineering Economics
ELEC 2507 [0.5]	Electronics I
SYSC 3010 [0.5]	Computer Systems Development Project
SYSC 3020 [0.5]	Introduction to Software Engineering
SYSC 3303 [0.5]	Real-Time Concurrent Systems
SYSC 3310 [0.5]	Introduction to Real-Time Systems
SYSC 3320 [0.5]	Computer Systems Design
SYSC 3501 [0.5]	Communication Theory
SYSC 3600 [0.5]	Systems and Simulation
SYSC 4001 [0.5]	Operating Systems

Fourth year

6. 2.5 credits in:	2.5
ECOR 4995 [0.5] Professional Practice	
SYSC 4310 [0.5] Computer Systems Architecture	
SYSC 4602 [0.5] Computer Communications	
SYSC 4805 [0.5] Computer Systems Design Lab	
SYSC 4810 [0.5] Introduction to Network and Software Security	
7. 1.0 credit from:	1.0
SYSC 4907 [1.0] Engineering Project (if supervisor is in Systems and Computer Engineering)	
ELEC 4907 [1.0] Engineering Project (if supervisor is in Electronics)	
8. 1.5 credits from:	1.5
MECH 4503 [0.5] An Introduction to Robotics	
or SYSC or ELEC at the 3000 level or above (may include 1.0 credit in SYSC at the 5000 level)	
9. 0.5 credit in Complementary Studies Electives	0.5
Total Credits	21.0

Electrical Engineering Bachelor of Engineering (21.0 credits)

First year

1. a) 4.0 credits in:	4.0
CHEM 1101 [0.5] Chemistry for Engineering Students	
ECOR 1041 [0.25] Computation and Programming	
ECOR 1042 [0.25] Data Management	
ECOR 1043 [0.25] Circuits	
ECOR 1044 [0.25] Mechatronics	
ECOR 1045 [0.25] Statics	
ECOR 1046 [0.25] Mechanics	
ECOR 1047 [0.25] Visual Communication	
ECOR 1048 [0.25] Dynamics	
MATH 1004 [0.5] Calculus for Engineering or Physics	
MATH 1104 [0.5] Linear Algebra for Engineering or Science	
PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion	

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0] Introduction to Engineering Disciplines I	
ECOR 1056 [0.0] Introduction to Engineering Disciplines II	
ECOR 1057 [0.0] Engineering Profession	
2. 0.5 credit in Complementary Studies Electives	0.5
3. 0.5 credit in Basic Science Electives	0.5

Second year

4. a) 5.0 credits in:	5.0
CCDP 2100 [0.5] Communication Skills for Engineering Students	
ELEC 2501 [0.5] Circuits and Signals	
ELEC 2507 [0.5] Electronics I	
ELEC 2602 [0.5] Electric Machines and Power	
ELEC 2607 [0.5] Switching Circuits	
MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics	

MATH 2004 [0.5] Multivariable Calculus for Engineering or Physics	
MATH 3705 [0.5] Mathematical Methods I	
SYSC 2004 [0.5] Object-Oriented Software Development	
SYSC 2006 [0.5] Foundations of Imperative Programming	
b) Successful completion of	
ECOR 2995 [0.0] Engineering Portfolio	

Third year

5. 5.5 credits in:	5.5
ECOR 2050 [0.5] Design and Analysis of Engineering Experiments	
ECOR 3800 [0.5] Engineering Economics	
ELEC 3105 [0.5] Electromagnetic Fields	
ELEC 3500 [0.5] Digital Electronics	
ELEC 3509 [0.5] Electronics II	
ELEC 3907 [0.5] Engineering Project	
ELEC 3908 [0.5] Physical Electronics	
ELEC 3909 [0.5] Electromagnetic Waves	
SYSC 3006 [0.5] Computer Organization	
SYSC 3501 [0.5] Communication Theory	
SYSC 3600 [0.5] Systems and Simulation	

Fourth year

6. 1.5 credits in:	1.5
ECOR 4995 [0.5] Professional Practice	
ELEC 4601 [0.5] Microprocessor Systems	
SYSC 4505 [0.5] Automatic Control Systems I	
7. 1.0 credit from:	1.0
ELEC 4907 [1.0] Engineering Project (if supervisor is in Electronics)	
SYSC 4907 [1.0] Engineering Project (if supervisor is in Systems and Computer Engineering)	
8. 2.0 credits from:	2.0
MECH 4503 [0.5] An Introduction to Robotics	
SYSC 3020 [0.5] Introduction to Software Engineering	
SYSC 3200 [0.5] Industrial Engineering	
ELEC 3508 [0.5] Power Electronics	
or ELEC OR SYSC at the 4000 level	
9. 0.5 credit from:	0.5
Basic Science Electives, or	
ENVE, CIVE, IDES, MAAE, AERO, MECH at the 2000 level or above, or	
MECH 4503 [0.5] An Introduction to Robotics	
SYSC 3020 [0.5] Introduction to Software Engineering	
SYSC 3200 [0.5] Industrial Engineering	
or any ELEC or SYSC at the 4000 level	
10. 0.5 credit in Complementary Studies Electives	0.5
Total Credits	21.0

Engineering Physics Bachelor of Engineering (21.0 credits)

First year

1. a) 4.5 credits in:	4.5
CHEM 1101 [0.5] Chemistry for Engineering Students	

ECOR 1041 [0.25]	Computation and Programming
ECOR 1042 [0.25]	Data Management
ECOR 1043 [0.25]	Circuits
ECOR 1044 [0.25]	Mechatronics
ECOR 1045 [0.25]	Statics
ECOR 1046 [0.25]	Mechanics
ECOR 1047 [0.25]	Visual Communication
ECOR 1048 [0.25]	Dynamics
MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1104 [0.5]	Linear Algebra for Engineering or Science
PHYS 1001 [0.5]	Foundations of Physics I
PHYS 1002 [0.5]	Foundations of Physics II

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0] Introduction to Engineering Disciplines I

ECOR 1056 [0.0] Introduction to Engineering Disciplines II

ECOR 1057 [0.0] Engineering Profession

2. 0.5 credit in Complementary Studies Electives 0.5

Second year

3. a) 5.5 credits in: 5.5

ELEC 2501 [0.5] Circuits and Signals

ELEC 2507 [0.5] Electronics I

MAAE 2400 [0.5] Thermodynamics and Heat Transfer

MATH 1005 [0.5] Differential Equations and Infinite Series for Engineering or Physics

MATH 2004 [0.5] Multivariable Calculus for Engineering or Physics

MATH 3705 [0.5] Mathematical Methods I

PHYS 2202 [0.5] Wave Motion and Optics

PHYS 2604 [0.5] Modern Physics I

SYSC 2004 [0.5] Object-Oriented Software Development

SYSC 2006 [0.5] Foundations of Imperative Programming

CCDP 2100 [0.5] Communication Skills for Engineering Students

b) Successful completion of

ECOR 2995 [0.0] Engineering Portfolio

Third year

4. 5.5 credits in: 5.5

ECOR 2050 [0.5] Design and Analysis of Engineering Experiments

ECOR 3800 [0.5] Engineering Economics

ELEC 2607 [0.5] Switching Circuits

ELEC 3105 [0.5] Electromagnetic Fields

ELEC 3907 [0.5] Engineering Project

ELEC 3908 [0.5] Physical Electronics

ELEC 3909 [0.5] Electromagnetic Waves

PHYS 3606 [0.5] Modern Physics II

PHYS 3701 [0.5] Elements of Quantum Mechanics

PHYS 3807 [0.5] Mathematical Physics I

SYSC 3600 [0.5] Systems and Simulation

Fourth year

5. 3.5 credits in: 3.5

ECOR 4995 [0.5] Professional Practice

ELEC 3500 [0.5] Digital Electronics

ELEC 3509 [0.5] Electronics II

ELEC 4908 [1.0] Engineering Physics Project

PHYS 4007 [0.5] Fourth-Year Physics Laboratory: Selected Experiments and Seminars

PHYS 4707 [0.5] Introduction to Quantum Mechanics I

6. 0.5 credit from: 0.5

PHYS 4203 [0.5] Physical Applications of Fourier Analysis

PHYS 4208 [0.5] Modern Optics

PHYS 4409 [0.5] Thermodynamics and Statistical Physics

PHYS 4508 [0.5] Solid State Physics

PHYS 4708 [0.5] Introduction to Quantum Mechanics II

PHYS 4807 [0.5] Statistical Data Analysis Techniques for Physics

7. 0.5 credit in ELEC at the 4000 level excluding: ELEC 4504, ELEC 4600, ELEC 4703, and ELEC 4705 0.5

8. 0.5 credit in Complementary Studies Electives 0.5

Total Credits 21.0

Environmental Engineering

Bachelor of Engineering (21.0 credits)

First year

1. a) 4.5 credits in: 4.5

CHEM 1001 [0.5] General Chemistry I

CHEM 1002 [0.5] General Chemistry II

ECOR 1041 [0.25] Computation and Programming

ECOR 1042 [0.25] Data Management

ECOR 1043 [0.25] Circuits

ECOR 1044 [0.25] Mechatronics

ECOR 1045 [0.25] Statics

ECOR 1046 [0.25] Mechanics

ECOR 1047 [0.25] Visual Communication

ECOR 1048 [0.25] Dynamics

MATH 1004 [0.5] Calculus for Engineering or Physics

MATH 1104 [0.5] Linear Algebra for Engineering or Science

PHYS 1004 [0.5] Introductory Electromagnetism and Wave Motion

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0] Introduction to Engineering Disciplines I

ECOR 1056 [0.0] Introduction to Engineering Disciplines II

ECOR 1057 [0.0] Engineering Profession

2. 0.5 credit in Complementary Studies Electives 0.5

Second year

3. a) 5.0 credits in: 5.0

BIOL 1103 [0.5] Foundations of Biology I

BIOL 1104 [0.5] Foundations of Biology II

CHEM 2800 [0.5] Foundations for Environmental Chemistry

CIVE 2200 [0.5]	Mechanics of Solids I
ENVE 2001 [0.5]	Process Analysis for Environmental Engineering
ERTH 2404 [0.5]	Engineering Geoscience
MAAE 2300 [0.5]	Fluid Mechanics I
MAAE 2400 [0.5]	Thermodynamics and Heat Transfer
MATH 1005 [0.5]	Differential Equations and Infinite Series for Engineering or Physics
MATH 2004 [0.5]	Multivariable Calculus for Engineering or Physics

b) Successful completion of

ECOR 2995 [0.0]	Engineering Portfolio
-----------------	-----------------------

Third year

4. 5.5 credits in: 5.5

CDDP 2100 [0.5]	Communication Skills for Engineering Students
CHEM 3800 [0.5]	The Chemistry of Environmental Pollutants
CIVE 2700 [0.5]	Civil Engineering Materials
CIVE 3208 [0.5]	Geotechnical Mechanics
CIVE 4307 [0.5]	Municipal Hydraulics
ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments
ECOR 3800 [0.5]	Engineering Economics
ENVE 3001 [0.5]	Water Treatment Principles and Design
ENVE 3002 [0.5]	Environmental Engineering Systems Modeling
ENVE 3003 [0.5]	Water Resources Engineering
ENVE 3004 [0.5]	Contaminant and Pollutant Transport in the Environment

Fourth year

5. 4.0 credits in: 4.0

ECOR 4995 [0.5]	Professional Practice
ENVE 4003 [0.5]	Air Pollution and Emissions Control
ENVE 4005 [0.5]	Wastewater Treatment Principles and Design
ENVE 4006 [0.5]	Contaminant Hydrogeology
ENVE 4101 [0.5]	Waste Management
ENVE 4104 [0.5]	Environmental Planning and Impact Assessment
ENVE 4918 [1.0]	Design Project

6. 1.0 credit from: 1.0

CIVE 3304 [0.5]	Transportation Engineering and Planning
CIVE 4208 [0.5]	Geotechnical Engineering
CIVE 4301 [0.5]	Foundation Engineering
CIVE 4303 [0.5]	Urban Planning
CIVE 4400 [0.5]	Construction/Project Management
ENVE 4002 [0.5]	Environmental Geotechnical Engineering
ENVE 4105 [0.5]	Green Building Design
ENVE 4106 [0.5]	Indoor Environmental Quality
ENVE 4200 [0.5]	Climate Change and Engineering
ENVE 4907 [1.0]	Engineering Research Project
ENVE 4917 [0.5]	Undergraduate Directed Study
MECH 4401 [0.5]	Power Plant Analysis
MECH 4403 [0.5]	Power Generation Systems

MECH 4406 [0.5]	Heat Transfer
MECH 4407 [0.5]	Heating and Air Conditioning
SYSC 3200 [0.5]	Industrial Engineering
SREE 3001 [0.5]	Sustainable and Renewable Energy Sources
SREE 4002 [0.5]	Modelling and Analysis of Energy Systems: Risk, Reliability, and Economics

7. 0.5 credit in Complementary Studies Electives 0.5

Total Credits 21.0

Mechanical Engineering Bachelor of Engineering (21.0 credits)

First year

1. a) 4.0 credits in: 4.0

CHEM 1101 [0.5]	Chemistry for Engineering Students
ECOR 1041 [0.25]	Computation and Programming
ECOR 1042 [0.25]	Data Management
ECOR 1043 [0.25]	Circuits
ECOR 1044 [0.25]	Mechatronics
ECOR 1045 [0.25]	Statics
ECOR 1046 [0.25]	Mechanics
ECOR 1047 [0.25]	Visual Communication
ECOR 1048 [0.25]	Dynamics
MATH 1004 [0.5]	Calculus for Engineering or Physics
MATH 1104 [0.5]	Linear Algebra for Engineering or Science
PHYS 1004 [0.5]	Introductory Electromagnetism and Wave Motion

b) The Introduction to Engineering Disciplines requirement must be met through the successful completion of:

ECOR 1055 [0.0]	Introduction to Engineering Disciplines I
ECOR 1056 [0.0]	Introduction to Engineering Disciplines II
ECOR 1057 [0.0]	Engineering Profession

2. 0.5 credit in Complementary Studies Electives 0.5

3. 0.5 credit in Basic Science Electives 0.5

Second year

4. a) 5.0 credits in: 5.0

ECOR 2050 [0.5]	Design and Analysis of Engineering Experiments
ELEC 3605 [0.5]	Electrical Engineering
MAAE 2001 [0.5]	Engineering Graphical Design
MAAE 2101 [0.5]	Engineering Dynamics

Total Credits 21.0

Regulations

The regulations presented in this section apply to all Bachelor of Engineering programs.

Academic Continuation Evaluation

In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (see Section 3.2

Academic Progression, in the *Academic Regulations of the University*), with the following additions and amendments:

1. In Engineering programs, all credits are included in the Major CGPA, making it identical to the Overall CGPA.
2. Students who are not assigned the status *Eligible to Continue* (EC) or *Academic Warning* (AW) will be required to leave the degree with either the status *Continue in Alternate* (CA) or *Dismissed from Program* (DP).

Graduation

Students in Engineering programs are covered by the common University regulations regarding graduation, with the following additions and amendments.

1. Students entering an Engineering program with Advanced Standing will receive transfer credit for at most ten of the credits required for their program.
2. To be eligible for graduation, the most recent grade in every course used to meet the requirements of the Bachelor of Engineering degree must be a passing grade.

Course Load

Regulations regarding Course Load and Overload can be found in the *Academic Regulations of the University* section of this Calendar. The normal course load in Engineering is defined as the number of credits required in the student's program for the current year status of the students. Since the programs in Engineering require more than 20.0 credits in total, the normal course load is more than 5.0 credits in some years of the program. Registration in more than this number of credits constitutes an overload.

Co-operative Education Programs

All Engineering programs are available with or without participation in the Co-operative Education option.

Year Status Prerequisites

Year Status in Engineering is used in some course prerequisites to limit access to only those students who have sufficient preparation. In particular, students will not have access to second, third or fourth year engineering, science or mathematics courses until they have achieved second year status. Similarly, to take some specific engineering, science and mathematics courses in third or fourth year, that year status must be achieved. For additional information on prerequisites, see the individual course descriptions.

2nd year status: Students may not continue into 2000-level (or higher) engineering courses unless all the following requirements are met:

1. Successful completion of all ECOR 1040 series of courses with a minimum grade of C-;
2. Successful completion of MATH 1004, MATH 1104, CHEM 1101 (or CHEM 1001 and CHEM 1002), and PHYS 1004 (or PHYS 1001 and PHYS 1002);
3. Successful completion of all English as a Second Language Requirements, and any additional requirements as determined in the admission process.

Students may not continue into 3000-level (or higher) engineering courses until they complete all first-year requirements (including ECOR 1055, ECOR 1056, and ECOR 1057).

3rd year status: Students may not take courses with third-year status in Engineering as a prerequisite until successful completion of all first-year requirements and at least 4.0 credits from the second-year requirements of their current program.

4th year status: Students may not take courses with fourth-year status in Engineering as a prerequisite until successful completion of all second-year requirements and at least 3.5 credits from the third-year requirements of their current program.

Time Limit

The Bachelor of Engineering degree must be completed within eight calendar years of initial registration. Students who do not complete their program requirements within this limit will be given the status *Continue in Alternate (CA)*.

Academic Appeals

The Engineering Committee on Admission and Studies handles all academic appeals.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

Bachelor of Engineering: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered as a full-time student in the Engineering program
2. An overall CGPA of 8.00 or higher;
3. Successfully completed all required first and second year courses before beginning the first work term;
4. Students must be eligible for third-year standing when they return for a study term after their first work placement.

Students in all Bachelor of Engineering concentrations must successfully complete four (4) work terms to obtain the co-op designation.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average

required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Degree

- Bachelor of Engineering (B. Eng.)

Admission Requirements

First Year

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include four prerequisite 4U courses: Advanced Functions, Chemistry, Physics, and one of Calculus and Vectors (recommended), or Biology, or Earth and Space Science. Although it is not an admission requirement, at least one 4U course in either English or French is recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Successful applicants will have individual academic subjects, completed with grades of C- or higher, evaluated for academic standing, provided the academic work has been completed at another university or degree-granting college, or in another degree program at Carleton University.

Co-op Option

Direct Admission to the First Year of the Co-op Option
Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Engineering degree;
3. be eligible for work in Canada (for off-campus work placements).

Meeting the above entrance requirements only establishes eligibility for admission to the program. Enrolment in the co-op option may be limited at the discretion of the department.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are described in the Co-operative Education Regulations section of this Calendar.

Aerospace Engineering (AERO) Courses

AERO 2001 [0.5 credit]

Aerospace Engineering Graphical Design

Engineering drawing techniques; fits and tolerances; working drawings; fasteners. Elementary descriptive geometry; true length, true view, and intersection of geometric entities; developments. Aerospace-specific CAD (Computer-Aided Design) assignments including production of detail and assembly drawings from actual aerospace physical models.

Includes: Experiential Learning Activity

Also listed as MAAE 2001.

Prerequisite(s): Second-year status in Engineering.

Lectures and tutorials two hours a week, laboratory four hours a week.

AERO 3002 [0.5 credit]

Aerospace Design and Practice

Design approach and phases. Design integration. Influence of mission and other requirements on vehicle configuration. Trade-off studies, sizing and configuration layout. Flight vehicle loads, velocity-load factor diagram. Structural design: overall philosophy, role in design process, methods. Basic orbital mechanics; launch vehicle sizing.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2001 and third-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

AERO 3101 [0.5 credit]

Lightweight Structures

Structural concepts; theory of elasticity; bending, torsion and shear in thin-walled beams having single or multi-cell sections; work and energy principles; deformation and force analysis of advanced structures, including stiffened thin-wall panels; finite element methods. Stability and buckling of thin-walled structures.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 3202.

Lectures three hours a week; problem analysis one hour a week.

AERO 3240 [0.5 credit]

Orbital Mechanics

Review of translational kinematics and dynamics. Keplerian two-body problem: Kepler's laws, orbital elements, orbit determination. Orbital perturbations: oblateness of the Earth, atmospheric drag. Orbital maneuvers and interplanetary flights. Advanced topics.

Prerequisite(s): MAAE 2101.

Lectures three hours per week, tutorial one hour per week.

AERO 3700 [0.5 credit]

Aerospace Materials

Properties, behaviour and manufacturing methods for metals, polymers and ceramics used in aerospace applications. Specialty alloys for gas turbines. Properties and manufacture of aerospace composites. Behaviour of materials in space.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours a week; problem analysis one hour a week.

AERO 3841 [0.5 credit]

Spacecraft Design I

Design of spacecraft and spacecraft subsystems with emphasis on mission requirements and current design methods: spacecraft configuration, payload, structural, attitude control, thermal, power, and other related subsystems. Spacecraft integration and testing.

Includes: Experiential Learning Activity

Prerequisite(s): AERO 3240.

Lectures three hours a week, tutorials or laboratories three hours per week.

AERO 4003 [0.5 credit]

Aerospace Systems Design

Stress and deflection analysis; fatigue, safe life, damage tolerant design. Propulsion systems integration; landing gear; control and other subsystems. Mechanical component design. Airworthiness regulations and certification procedures. Weight and cost estimation and control. System reliability. Design studies of aircraft or spacecraft components.

Includes: Experiential Learning Activity

Prerequisite(s): AERO 3002 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

AERO 4009 [0.5 credit]

Aviation Management and Certification

Product development, quality control. Strategic organizational analysis and design. Airworthiness, type certification and planning, delegation of authority, airplane flight manual. Aerospace system design and safety.

Prerequisite(s): fourth-year status in Engineering or permission of the department.

Lectures three hours per week.

AERO 4300 [0.5 credit]

Acoustics and Noise Control

Behaviour of compressible fluids, sound waves and properties of sound sources; measurement of sound; human perception of sound; prediction methods based on energy considerations; sound propagation in realistic environments: outdoors, rooms, ducts; absorption and transmission loss, noise control; case studies.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 3004 and (MAAE 3300 or MECH 3310) and fourth-year status in Engineering or by permission of department.

Lectures three hours a week.

AERO 4302 [0.5 credit]**Aerodynamics and Heat Transfer**

Differential equations of motion. Viscous and inviscid regions. Potential flow: superposition; thin airfoils; finite wings; compressibility corrections. Viscous flow: thin shear layer approximation; laminar layers; transition; turbulence modeling. Convective heat transfer: free versus forced convection; energy and energy integral equations; turbulent diffusion.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 3300 or MECH 3310.

Also offered at the graduate level, with different requirements, as MECH 5000, for which additional credit is precluded.

Lectures three hours a week, problem analysis two hours a week.

AERO 4304 [0.5 credit]**Computational Fluid Dynamics**

Governing equations of fluid motion (full & simplified). Discretization based on finite difference, finite volume, and finite element methods. Explicit and implicit integration schemes. Numerical stability. Numerical solutions of the Navier-Stokes equations: RANS, LES and DNS. Turbulence modeling. Programming-based assignments (convection/diffusion).

Prerequisite(s): (MAAE 3300 or MECH 3310), completion of or concurrent registration in AERO 4302 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

AERO 4306 [0.5 credit]**Aerospace Vehicle Performance**

Morphology of aircraft and spacecraft. Performance analysis of fixed wing aircraft: drag estimation, propulsion, take-off, climb and landing, endurance, payload/range, manoeuvres; operational economics. Performance analysis of rotor craft: rotor-blade motion, hovering and vertical ascent, forward flight, and autorotation. Rocket propulsion; escape velocity; orbital dynamics.

Prerequisite(s): (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4308 [0.5 credit]**Aircraft Stability and Control**

Static stability and control: equilibrium requirements; longitudinal stability requirements; neutral points; manoeuvring flight; control forces and control requirements; lateral static stability certification requirements. Dynamic stability: axis systems; governing equations; phugoid and short period modes; lateral dynamic modes. Closed-loop control.

Prerequisite(s): MAAE 3500 and fourth-year status in Engineering.

Also offered at the graduate level, with different requirements, as MECH 5101, for which additional credit is precluded.

Lectures three hours a week.

AERO 4402 [0.5 credit]**Aerospace Propulsion**

Propulsion requirements, effects of Mach Number, altitude, and application; basic propeller theory; propeller, turboshaft, turbojet, turbofan and rocket; cycle analysis and optimization for gas turbine power plant; inter-relationships between thermodynamic, aerodynamic and mechanical designs; rocket propulsion; selection of aeroengines.

Precludes additional credit for MECH 4401.

Prerequisite(s): MAAE 2400, (MAAE 3300 or MECH 3310), and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

AERO 4442 [0.5 credit]**Transatmospheric and Spacecraft Propulsion**

Planetary/interplanetary environments and effects. Launch and spacecraft propulsion: liquid/solid/hybrid rockets, ram/scramjets, combined cycle engines, electrothermal, electromagnetic, electrostatic, nuclear, and propellantless propulsion. Trajectory analysis, multi-staging, separation dynamics. Advanced engine concepts.

Prerequisite(s): MAAE 2400, (MAAE 3300 OR MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4446 [0.5 credit]**Heat Transfer for Aerospace Applications**

Fundamentals of heat transfer with emphasis on aerospace systems design. Conduction, convection and radiation modes of heat transfer. Radiation exchange between surfaces and view factors. Radiation in spacecraft thermal control. High speed flight and reentry heating.

Precludes additional credit for MECH 4406.

Prerequisite(s): MAAE 2400 and (MAAE 3300 or MECH 3310) and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4504 [0.5 credit]**Avionics Systems**

RF engineering concepts. Aviation communication systems. Relative and absolute navigation; landing systems. Radar systems; weather radar. Aircraft systems integration; databus standards; electrical systems; power generation and distribution. Safety critical software. Electromagnetic compatibility and interference. Regulations and certification of avionic systems.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 4504.

Prerequisite(s): 4th year status in Engineering. Not open to students in Electrical Engineering, Computer Systems Engineering, Engineering Physics or Communications Engineering.

Lectures three hours a week.

AERO 4540 [0.5 credit]**Spacecraft Attitude Dynamics and Control**

Rigid body dynamics. The dynamic behavior of spacecraft. Environmental torques. The design of attitude control systems. Gravity gradient, spin, and dual spin stabilization. Attitude manoeuvres. The design of automatic control systems. Impacts of attitude stabilization techniques on mission performance.

Prerequisite(s): AERO 3240 and MAAE 3500 and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4602 [0.5 credit]**Introductory Aeroelasticity**

Review of structural behaviour of lifting surface elements; structural dynamics, Laplace Transforms, dynamic stability; modal analysis; flutter, Theodorsen's theory; flutter of a typical section; wing flutter, T-tail flutter, propeller whirl flutter; gust response; buffeting, limit cycle flutter.

Prerequisite(s): (MAAE 3300 or MECH 3310) and SYSC 3600 and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4607 [0.5 credit]**Rotorcraft Aerodynamics and Performance**

Rotorcraft history and fundamentals. Momentum theory: hover, axial climb and descent, autorotation, forward flight, momentum theory for coaxial and tandem rotors. Blade element analysis. Rotor airfoil aerodynamics. Rotor blade dynamics and trim. Helicopter performance, height-velocity curves, conceptual design. High-speed rotorcraft.

Prerequisite(s): MAAE 3004 and (MAAE 3300 or MECH 3310) and fourth-year status in Engineering or by permission of the department.

Lectures three hours per week.

AERO 4608 [0.5 credit]**Composite Materials**

Reinforcing mechanisms in composite materials; material properties. Strength and elastic constants of unidirectional composites; failure criteria. Analysis of laminated plates; bending and eigenvalue problems. Environmental effects and durability. Damage tolerance. Design of composite structures.

Prerequisite(s): MAAE 2202 and fourth-year status in Engineering.

Lectures three hours a week.

AERO 4609 [0.5 credit]**Joining of Materials**

Design for joining: base material and component geometry. Selection of joining method and filler material; Adhesive bonding; Soldering; Brazing; Diffusion bonding; Resistance welding; Fusion welding (GTAW, EB, laser and plasma arc); Friction welding; NDE. Emphasis on Aerospace materials and applications.

Prerequisite(s): MAAE 2700 and fourth-year status in Engineering or by permission of the department.

Lectures three hours per week.

AERO 4842 [0.5 credit]**Spacecraft Design II**

System view of spacecraft. Requirements definition. Spacecraft payloads (remote sensing, imaging systems, astronomy instrumentation etc.). Exploration missions. Implications for systems and missions. Space system design case studies.

Includes: Experiential Learning Activity

Precludes additional credit for AERO 4802 (no longer offered).

Prerequisite(s): AERO 3841 and fourth-year status in Engineering.

Lectures three hours a week, tutorials or laboratories one hour per week.

Civil Engineering (CIVE) Courses**CIVE 2004 [0.5 credit]****GIS, Surveying, CAD and BIM**

Engineering geometry and spatial graphics. Fundamentals of surveys. Digital surveying tools; total station, GPS. Computer-Aided Drafting (CAD). Geographic Information Systems (GIS). Spatial referencing. Building Information Modelling (BIM). Integrated design using digital tools. Field exercises using software to process and evaluate spatial data.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year status in Engineering or (GEOM 1004 for students in BSc in Geomatics).

Lectures three hours a week, problem analysis and laboratories three hours a week.

CIVE 2005 [0.5 credit]**Architectural Technology 2**

Technical issues involved in architectural design of buildings from ancient times to the present. Technological innovation and materials related to structural developments, and the organization and design of structures. Basic concepts of calculus, equilibrium, and mechanics of materials.

Precludes additional credit for Not eligible for use for Bachelor of Engineering degree requirements.

Prerequisite(s): ARCC 2202.

Lectures three hours a week, laboratory three hours a week.

CIVE 2101 [0.5 credit]**Engineering Mechanics**

Virtual work. Friction. Relative motion of particles. Kinematics of a rigid body: translation, rotation; general plane motion; absolute and relative motion. Kinetics of a rigid body: equations of motion; work-energy; impulse-momentum; conservation of momentum and energy.

Conservative forces and potential energy.

Precludes additional credit for MAAE 2101.

Prerequisite(s): MATH 1004, MATH 1104 and second-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

CIVE 2200 [0.5 credit]**Mechanics of Solids I**

Stress and strain. Stress-strain relationship: Hooke's law. Torsion of circular shafts. Bending moment and shear force distribution. Flexural stresses. Deflection. Shear stress in beams. Stresses in thin-walled cylinders. Transformation of 2D stress and strain: Mohr's circle. Buckling of columns.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 2202.

Prerequisite(s): MATH 1004 and second-year status in Engineering for B.Eng. or CIVE 2005 for B.A.S. with Concentration in Conservation and Sustainability.

Lectures three hours a week, problem analysis and laboratory three hours a week.

CIVE 2700 [0.5 credit]**Civil Engineering Materials**

Introduction to material science. Structure of atoms. Crystallography. Crystal Imperfections. Characteristics, behaviour and use of Civil Engineering materials: steel, concrete, asphalt, wood, polymers, composites. Specifications. Physical, chemical and mechanical properties. Quality control and material tests. Fatigue. Corrosion. Applications in construction and rehabilitation of structures.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 2700.

Prerequisite(s): second year status for students in an Engineering program or second year standing in a B.A.S. major in Conservation and Sustainability.

Lectures three hours a week, problem analysis and laboratory three hours a week.

CIVE 3202 [0.5 credit]**Mechanics of Solids II**

Shear flow. Definition of shear centre, Saint Venant and warping torsional constants. Behaviour, governing differential equations and solutions for torsion, beam-columns, lateral torsional buckling of doubly symmetric beams, axially loaded doubly symmetric, singly symmetric and asymmetric columns. Failure criterion, fatigue and fracture.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 3202.

Prerequisite(s): CIVE 2200.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

CIVE 3203 [0.5 credit]**Introduction to Structural Analysis**

Concepts and assumptions for structural analysis: framed structures; joints; supports; compatibility and equilibrium; stability and determinacy; generalized forces and displacements. Principle of Virtual Work: unknown force calculations; influence lines. Complementary Virtual Work: displacement calculations, indeterminate analysis. Introduction to the Stiffness Method of Analysis.

Prerequisite(s): CIVE 2200 and MATH 1004.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3204 [0.5 credit]**Introduction to Structural Design**

Building systems and structural form. Design Philosophy and design process. Limit states design. National Building Code of Canada. Determination of dead, live, snow, wind, and earthquake loads.

Prerequisite(s): CIVE 2200.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3205 [0.5 credit]**Design of Structural Steel Components**

Introduction to CAN/CSA - S16, design and behaviour concepts; shear lag, block shear, local plate buckling, lateral torsional buckling, instantaneous centre, inelastic strength and stability. Design of tension members, axially loaded columns, beams, beam-columns, simple bolted and welded connections.

Prerequisite(s): CIVE 2200 and CIVE 2700.

Recommended prerequisite: CIVE 3204.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3206 [0.5 credit]**Design of Reinforced Concrete Components**

Introduction to CAN/CSA - A23.3; design and behaviour concepts; flexural analysis at service loads; shear, bond, Whitney stress block, under, over reinforced behaviour, ultimate strength. Flexural design of singly reinforced, doubly reinforced T-beams, one-way slabs. Shear design for beams. One-way, two-way slab systems, columns.

Prerequisite(s): CIVE 2200 and CIVE 2700.

Recommended prerequisite: CIVE 3204.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3207 [0.5 credit]**Historic Site Recording and Assessment**

Methods of heritage documentation including hand recording, photography, rectified photography, total station, gps, photogrammetry, and laser scanning. Non-destructive testing techniques; environmental assessment tools for determining air quality and energy efficiency. Multidisciplinary teams for all project work.

Includes: Experiential Learning Activity

Also listed as ARCN 4100.

Prerequisite(s): third-year status in B.Eng. in Architectural Conservation and Sustainability Engineering.

Lectures three hours a week, lab or field work two hours a week.

CIVE 3208 [0.5 credit]**Geotechnical Mechanics**

Soil composition and soil classification. Soil properties, compaction, seepage and permeability. Concepts of pore water pressure, capillary pressure and hydraulic head. Principle of effective stress, stress-deformation and strength characteristics of soils, consolidation, stress distribution with soils, and settlement. Laboratory testing.

Includes: Experiential Learning Activity

Also listed as EARTH 4107.

Prerequisite(s): third-year status in Engineering, or permission of the department. Additional recommended background: EARTH 2404 or equivalent.

Lectures three hours a week, laboratory three hours alternate weeks.

CIVE 3209 [0.5 credit]**Building Science**

Building envelope design and analysis; applied heat transfer and moisture transport; solar radiation; hygrothermal modelling; control of rain, air, vapour, and heat; materials for wall, window, curtain wall, roof, and foundation systems; building envelope retrofit case studies; building code; envelope construction.

Prerequisite(s): MAAE2400 and third-year status in B.Eng. Architectural Conservation and Sustainability Engineering or in Civil Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3304 [0.5 credit]**Transportation Engineering and Planning**

Transportation and the socio-economic environment; modal and intermodal systems and components; vehicle motion, human factors, system and facility design; traffic flow; capacity analysis; planning methodology; environmental impacts; evaluation methods.

Also listed as GEOG 4304.

Prerequisite(s): third-year status in Engineering, or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

CIVE 4200 [0.5 credit]**Matrix Analysis of Framed Structures**

Review of basic structural concepts. Betti's law and applications. Matrix flexibility method, flexibility influence coefficients. Development of stiffness influence coefficients. Stiffness method of analysis: beams; plane trusses and frames; space trusses and frames. Introduction to the finite element method.

Prerequisite(s): CIVE 3203.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4201 [0.5 credit]**Finite Element Methods in Civil Engineering**

Introduction to the theory and application of finite element methods. The relationship with virtual work, Rayleigh-Ritz, system of linear equations, polynomial interpolation, numerical integration, and theory of elasticity is explored. Isoparametric formulations of structural and plane elements are examined. Geotechnical and nonlinear problems are introduced.

Prerequisite(s): CIVE 2200 and fourth year status in engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4202 [0.5 credit]**Wood Engineering**

Structural design in timber. Properties, anatomy of wood, wood products, factors affecting strength and behaviour, strength evaluation and testing. Design of columns, beams and beam-columns. Design of trusses, frames, glulam structures, plywood components, formwork, foundations, connections and connectors. Inspection, maintenance and repair.

Prerequisite(s): CIVE 2200, CIVE 2700 and third-year status in B.Eng.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4208 [0.5 credit]**Geotechnical Engineering**

Strength of soils, steady state seepage, flownets and piping. Stress distribution in soils. Earth pressures: at rest, active and passive. Design of flexible and rigid retaining structures. Stability of excavations, slopes and embankments. Settlement of foundations. Bearing capacity of footings.

Prerequisite(s): CIVE 3208.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4209 [0.5 credit]**Highway Engineering**

Highway planning; highway location and geometric design; traffic engineering; highway capacity; soil classifications; subgrade and base materials; highway drainage; frost action; structural design of rigid and flexible pavements; highway economics and finance; maintenance and rehabilitation.

Prerequisite(s): Fourth year status in engineering.

Recommended prerequisites: CIVE 2004, CIVE 3304 and CIVE 3208.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4301 [0.5 credit]**Foundation Engineering**

A critical study of the theories in soil mechanics and their application to the solution of geotechnical engineering problems. Field investigations, laboratory and field testing, shallow foundations, special footings, mat foundations, pile foundations and excavations. Discussion of new methods and current research.

Prerequisite(s): CIVE 4208.

Lectures three hours a week, laboratory three hours alternate weeks.

CIVE 4302 [0.5 credit]**Reinforced and Prestressed Concrete Design**

Reinforced concrete shear and torsion design. Two-way slab design by Direct Design and Equivalent Frame Method. Behaviour and design of slender reinforced concrete columns. Prestressed concrete concepts; flexural analysis and design; shear design; anchorage zone design; deflection and prestress loss determination.

Prerequisite(s): CIVE 3202, CIVE 3203 and CIVE 3206.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4303 [0.5 credit]**Urban Planning**

A systematic approach to urban planning; urban sprawl; data collection; forecasting; standards; space requirements; land use; zoning; transportation; land development; site selection; land capability; layout; evaluation; housing; urban renewal and new towns.

Prerequisite(s): fourth-year status in Engineering, second-year standing in B.A.S. (Urbanism), or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4307 [0.5 credit]**Municipal Hydraulics**

Fluid flow fundamentals. Hydraulics of pipe systems. Open channel flow. Prediction of sanitary and storm sewage, flow rates. Design of water distribution systems, culverts, sanitary and storm sewers. Pumps and measuring devices. Hydraulic and flow control structures.

Prerequisite(s): MAAE 2300.

Lectures three hours a week, problem analysis one and a half hours a week.

CIVE 4308 [0.5 credit]**Behaviour and Design of Steel Structures**

Behaviour and design of open web steel joists, steel and composite decks, composite beams and columns, stud girders, and plate girders. Design of moment connections, base plates and anchor bolts, and bracing connections. Stability of rigid and braced frames. Design for lateral load effects.

Prerequisite(s): CIVE 3205 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4400 [0.5 credit]**Construction/Project Management**

Systems approach to project planning and control. Analysis of alternative network planning methods: CPM, precedence and PERT; planning procedure; computer techniques and estimating; physical, economic and financial feasibility; implementation feedback and control; case studies.

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4403 [0.5 credit]**Masonry Design**

Introduction to structural design in masonry. Properties of masonry materials and assemblages. Behaviour and design of beams, walls and columns. Selected topics including veneer wall systems, differential movement, workmanship, specifications, inspection, maintenance and repair. Lowrise and highrise building design.

Prerequisite(s): CIVE 3204, CIVE 3206 and fourth-year status in Engineering or permission of the Department.

Also offered at the graduate level, with different requirements, as CIVE 5200, for which additional credit is precluded.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4407 [0.5 credit]**Municipal Engineering**

Introduction to fundamentals of municipal engineering.

Water quality: physical, chemical and biological parameters. Water treatment: softening mixing, flocculation, sedimentation, filtration, disinfection, fluoridation. Biological processes. Wastewater treatment: primary, secondary and tertiary treatment. Sludge disposal and wastewater reuse. Solid waste management.

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, problem analysis one and a half hours a week

CIVE 4500 [0.5 credit]**Computer Methods in Civil Engineering**

Advanced software development for Civil Engineering applications. Examples may be chosen from surveying, transportation, geotechnical and/or structural engineering. Software technologies include object-oriented programming, data base management, Internet-based applications and graphical user interfaces.

Prerequisite(s): Fourth-year status in Engineering.

Also offered at the graduate level, with different requirements, as CIVE 5602, for which additional credit is precluded.

Lectures three hours a week, problem analysis three hours alternate weeks.

CIVE 4601 [0.5 credit]**Building Pathology and Rehabilitation**

Deterioration mechanisms for concrete, timber, steel and masonry structures. Identification of design deficiencies; criteria for selection and design of rehabilitation systems. Design techniques to reduce deterioration in new construction and historical structures.

Includes: Experiential Learning Activity

Also listed as ARCN 4200.

Prerequisite(s): CIVE 3207 and fourth-year status in B.Eng. in Architectural Conservation and Sustainability Engineering.

Lectures three hours a week, lab/field work two hours a week.

CIVE 4614 [0.5 credit]**Building Fire Safety**

Understanding fire-structure interaction and the concepts of fire severity and resistance; behaviour of steel, concrete, and timber buildings exposed to fires; compartment fire dynamics; correlations and computer models to predict fire dynamics; fire retardants; laboratory-scale fire experiments; performance-based approach for building fire safety design.

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering, or permission of the Department.

Lectures three hours a week, problem analysis and laboratories one and one-half hours per week.

CIVE 4907 [1.0 credit]**Engineering Research Project**

A research project in engineering analysis, design or development carried out by individual students or small teams, for an opportunity to develop initiative, self-reliance, creative ability and engineering judgment and is normally intended for students with high CGPAs and an interest in graduate studies.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 4917.

Prerequisite(s): fourth-year status in Engineering and permission of the department.

CIVE 4917 [0.5 credit]**Undergraduate Directed Study**

Student carries out a study, analysis, and solution of an engineering problem which results in a written final report. Carried out under close supervision of a faculty member. Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 4907.

Prerequisite(s): permission of the Department and completion of, or concurrent registration in, CIVE 4918. Self study.

CIVE 4918 [1.0 credit]**Design Project**

Teams of students develop professional level experience through a design project that incorporates fundamentals acquired in previous mathematics, science, engineering, and complementary studies courses. A final report and oral presentations are required.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 3800 and fourth-year status in Engineering. Certain projects may have additional requirements.

Lectures two hours alternate weeks, problem analysis three hours a week.

Electronics (ELEC) Courses**ELEC 2501 [0.5 credit]****Circuits and Signals**

Properties of signals. Basic circuit elements: voltage and current sources. Kirchhoff's laws, linearity, superposition. Thevenin and Norton's theorems. Circuit simplification. AC steady-state analysis: impedance, admittance, phasors, frequency response. Transient response of RL and RC circuits: form of response, initial and final conditions. RLC circuits: resonance.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 3605.

Prerequisite(s): MATH 1005 (may be taken concurrently) and (PHYS 1004 or PHYS 1002), and second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

ELEC 2507 [0.5 credit]**Electronics I**

Qualitative semiconductor physics, leading to the diode equation. Diode applications. Operational amplifiers and their application in feedback configurations including active filters. Introduction to bipolar transistors and MOSFETs, analysis of biasing circuits. Transistor applications including small signal amplifiers.

Includes: Experiential Learning Activity

Precludes additional credit for OSS 2006, PLT 2006 (no longer offered).

Prerequisite(s): MATH 1005, ELEC 2501, and second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

ELEC 2602 [0.5 credit]**Electric Machines and Power**

Modeling and analysis of basic electric power systems. Single-phase and three-phase circuits: real and reactive power, per-phase analysis, power factor correction. Electro-mechanical energy conversion: operation, characteristics and analysis of transformers, DC-, induction-, and synchronous electric machines. Motor and generator operation.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1004 and ELEC 2501, and second-year status in Engineering.

Lectures 3 hours per week. Laboratory and problem analysis 3 hours per week alternate weeks.

ELEC 2607 [0.5 credit]**Switching Circuits**

Boolean algebra, gate, combinatorial circuits. DeMorgan notation, sum-of-product and product-of-sum forms. Logic arrays, PLAs and PALs. Flip-flops, latches, sequential circuits, state graphs and state minimization. Counters and controllers. Hazards. Asynchronous sequential circuits, race free assignment, realization.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2310.

Prerequisite(s): PHYS 1004 or PHYS 1002 and second-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 3105 [0.5 credit]**Electromagnetic Fields**

Vector calculus: gradient, divergence, curl, integration of vector fields. Electrostatics, magnetostatics. Boundary conditions. Poisson's and Laplace's equations: method of images, separation of variables, iterative method. Electric and magnetic properties of matter. Magnetic circuits. Lorentz force. Motional emf, electromagnetic induction. Maxwell's equations.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005, MATH 2004, and (PHYS 1004 or PHYS 1002), and second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 3500 [0.5 credit]**Digital Electronics**

Digital circuit design using verilog and logic synthesis, the electronic properties of logic gates, electrical interfacing between logic families, asynchronous to synchronous interfacing, clock distribution and timing, VLSI design options. Students implement substantial circuits with field-programmable gate arrays.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2507 and ELEC 2607.

Lectures three hours a week, laboratory three hours a week.

ELEC 3508 [0.5 credit]**Power Electronics**

Power semiconductor devices: Thyristor, GTO, IGBT, SiC, GaN. Converter circuits: controlled AC to DC rectifiers, choppers, DC to AC inverters, AC voltage controllers. Protection of conversion circuits. Applications to high-efficiency control of electric machines and electromechanical energy conversion devices.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2507 and ELEC 2602.

Lectures three hours per week, laboratories/problem analysis three hours per week.

ELEC 3509 [0.5 credit]**Electronics II**

Introduction to semiconductor devices and ICs. DC, AC and switching properties of BJTs. Linear amplifiers; bandwidth considerations; two-port analysis. Large signal amplifiers; power amplifiers; transformerless circuits. Feedback and operational amplifiers; gain, sensitivity, distortion and stability. Filter design. Oscillators.

Includes: Experiential Learning Activity

Precludes additional credit for : ELEC 3509 may not be taken for credit by students in the Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering programs.

Prerequisite(s): ELEC 2507.

Lectures three hours a week, laboratory three hours a week.

ELEC 3605 [0.5 credit]**Electrical Engineering**

DC circuits: elements, sources, analysis. Single phase AC circuits: phasors, RLC circuits, real and reactive power, impedance, network analysis, three phase systems. Power transformers. DC motors: operation and characteristics. AC motors: single phase and three phase.

Precludes additional credit for ELEC 2501.

Prerequisite(s): MATH 1005 and (PHYS 1004 or PHYS 1002), and second-year status in Engineering.

Lectures three hours a week, problem analysis 1.5 hours a week.

ELEC 3907 [0.5 credit]**Engineering Project**

Student teams work on open-ended projects based on previously acquired knowledge. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, a series of project reports, and oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2507, ELEC 2607, third year status in Engineering, and enrolment in the Electrical Engineering or Engineering Physics program.

Lecture two hours per week, laboratory six hours per week.

ELEC 3908 [0.5 credit]**Physical Electronics**

Fundamentals of device physics and operation of the pn junction, bipolar transistor and MOSFET. Basic integrated circuit processing and application to diodes, BJTs and MOSFETs. Correlation between processing, structure, operation and modeling. Consideration of parasitic and small-geometry effects, reliability and process variation.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 4705.

Prerequisite(s): ELEC 2507.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 3909 [0.5 credit]**Electromagnetic Waves**

Maxwell's equations and EM wave solutions. Polarization. Poynting vector. EM waves in dielectrics and conductors; skin depth. Reflection and refraction. Standing waves. Fresnel relations, Brewster angle. Transmission lines. Line termination, basic impedance matching and transformation. Smith charts. Introduction to guided waves; slab waveguide.

Includes: Experiential Learning Activity

Precludes additional credit for PHYS 3308.

Prerequisite(s): ELEC 3105 or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

ELEC 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ELEC 4502 [0.5 credit]**Microwave Circuits**

Introduction to microwave semiconductor devices, microwave passive components, microwave integrated circuit technology, and microwave circuit measurements. Basic network theory and scattering matrix description of circuits. Design of matching networks, filters, amplifiers and oscillators at microwave frequencies.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 4503; may be taken concurrently.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4503 [0.5 credit]**Radio Frequency Lines and Antennas**

Introduction to distributed circuits, travelling and standing waves, reflection coefficient, SWR, impedance transformation, Smith charts. Introduction to transmission lines; coaxial, rectangular waveguide, resonators, optical fibers. Introduction to antennas; gain, directivity, effective area. Introduction to linear arrays.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3909.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4504 [0.5 credit]**Avionics Systems**

Electromagnetic spectrum. Air data sensing, display. Communications systems. Navigation and landing systems; ground-based, inertial and satellite systems. Airborne radar. Guidance, control for aircraft, autopilots; stability augmentation; active control; sensor requirements; display techniques. Aircraft power systems. Safety systems. Vehicle/systems integration, certification. Precludes additional credit for AERO 4504.

Prerequisite(s): fourth-year status in Engineering.

Not open to students in Electrical Engineering, Computer Systems Engineering, Engineering Physics or Communications Engineering.

Lecture three hours a week.

ELEC 4505 [0.5 credit]**Telecommunication Circuits**

A course of study of the commonly used circuit components in modern telecommunication systems. Both analog and digital systems are included. The design of the hardware is emphasized. Examples are drawn from broadcasting, telephony and satellite systems.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3509 and (SYSC 3501 or SYSC 3503).

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4506 [0.5 credit]**Computer-Aided Design of Circuits and Systems**

Basic principles of Computer-Aided Design tools used for analysis and design of communication circuits and systems. Frequency and time-domain analysis. Noise and distortion analysis. Transmission line effects. Sensitivity analysis and circuit performance optimization. Digital simulation.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4509 [0.5 credit]**Communication Links**

Fundamentals; decibel, intermodulation, 1dB compression, dynamic range, SNR, noise figure, noise temperature, antenna gain, EIRP, G/T. Line-of-sight links; receiver, diversity, fade margin. Satellite links; link calculations, multiple accessing, earth stations. Fiber links, fiber types, sources, detectors, systems.

Prerequisite(s): fourth-year status in Engineering or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

ELEC 4600 [0.5 credit]**Radar and Navigation**

Radar: operation, minimum detectable signal, propagation effects. Surveillance Radars: Moving Target indicator and Pulse Doppler operation. Radio Navigation: pulsed and CW operation. Operational systems: Loran C., VOR/DME, TACAN, Global Positioning system. Inertial Navigation. Navigation Co-ordinate Systems. Techniques for determining best estimates of position.

Prerequisite(s): fourth-year status in Engineering or permission of the Department.

Lectures three hours a week, problem analysis 3 hours alternate weeks.

ELEC 4601 [0.5 credit]**Microprocessor Systems**

Interfacing aspects in microprocessor systems.

Microprocessors and bus structures, internal architecture, instruction set and pin functions. Memory interfacing, input-output, interrupts, direct memory accesses, special processors and multiprocessor systems.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3006 (no longer offered), SYSC 3320, SYSC 3601.

Prerequisite(s): ELEC 2607 and one of SYSC 2003 or SYSC 3003 (no longer offered) or SYSC 3006 or permission of the Department.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4602 [0.5 credit]**Electrical Power Systems**

The electric power system. Components: power transformers and connections, transmission lines.

Analysis: balanced and unbalanced three-phase systems, symmetrical components, load flow, FACTS. Operation: frequency and voltage control, steady state and transient stability, fault protection. Distribution systems: utility, residential, commercial. Electrical safety: code, grounding/bonding.

Prerequisite(s): ELEC 2602.

Lectures three hours a week, problem analysis two hours a week.

ELEC 4609 [0.5 credit]**Integrated Circuit Design and Fabrication**

Introduction to nMOS IC design: static logic gates, noise margin, transmission gates, factors influencing switching speed, dynamic logic, input protection, output buffers, circuit simulation with SPICE. Laboratory work includes design and layout of a simple nMOS IC that is fabricated and returned for testing.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3500 or ELEC 3908.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4700 [0.5 credit]**The Physics and Modeling of Advanced Devices and Technologies**

Fabrication, operation and modeling of advanced devices for information technology. Topics: physics of materials, quantum mechanics of solids, optical transitions, physical analysis and models for state-of-the-art electronic/optical technologies and materials. Technologies: MOS and III-V based transistors, solid-state optical devices, MEMS and nano-technology based devices.

Prerequisite(s): ELEC 3908.

Lectures three hours a week, problem analysis two hours alternate weeks.

ELEC 4702 [0.5 credit]**Fiber Optic Communications**

Fundamentals of optoelectronics with application to fiber optic communications. Optical fibre: modes, losses, dispersion, splices, coupling to sources. Optical sources: LEDs, laser diodes. Optical detectors: photoconductor, pin and avalanche photodiodes. Optical receiver design. Fiber optic communications systems: intensity modulation/direct detection; coherent homodyne or heterodyne detection.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3908 and ELEC 3909.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4703 [0.5 credit]**Solar Cells**

Semiconductor band structure, photogeneration, the solar spectrum. Detailed analysis of monocrystalline silicon solar cells. Solar cells based on thin film materials: amorphous silicon, III-V materials, organics, titania-dye cells. Cells for concentrator systems. Photovoltaic power systems. Solar cells for building envelopes.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2501 and ELEC 2507 and fourth-year status in Sustainable and Renewable Energy Engineering, or ELEC 2501 and ELEC 2507 and fourth-year status in Engineering with permission of the instructor.

Lectures three hours per week, laboratories/problem analysis three hours alternate weeks.

ELEC 4704 [0.5 credit]**Nanoscale Technology and Devices**

Engineering at the nanoscale. Quantum confinement and the effect of scale. Analysis tools: microscopy, spectroscopy. Fabrication: thin films, nanoparticles, nanotubes, graphene, organics. Structures and properties: quantum wells, nanocrystals, nanostructuring. Applications and devices: electronics, optoelectronics, photonics.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3908, ELEC 3909.

Lectures three hours a week, problem analysis 1.5 hours a week.

ELEC 4705 [0.5 credit]**Electronic Materials, Devices and Transmission Media**

Review of solid-state theory, conductors, semiconductors, superconductors, insulators, and optical and magnetic properties. Devices used in modern high speed electronic and communication systems: transistors, lasers, photodiodes, fiber optics, Josephson junctions. Implications of material properties on fabrication and operation of devices and circuits.

Precludes additional credit for ELEC 3908.

Prerequisite(s): fourth-year status in Engineering. Not available for credit to students in Electrical Engineering or Engineering Physics.

Lectures three hours a week.

ELEC 4706 [0.5 credit]**High-Speed Electronics: Circuits and Systems**

Challenges faced in designing high-speed electronic circuits and systems. Fundamentals of high-speed Tx/Rx architectures including: timing and HDL, PLL/DLL, Tx drivers, interface to photonic components, channel modelling, Rx channel, choice of modulation, equalization, clock and data recovery. VHDL hardware and CAD software laboratories.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3500.

Lectures three hours a week, laboratory three hours a week.

ELEC 4707 [0.5 credit]**Analog Integrated Electronics**

Emphasis on integration of analog signal processing techniques in monolithic IC technology. Continuous active filter design. MOS IC technology. OP amp design. Basic sampled data concepts; Z-transform analysis, switched capacitor filters. Noise aspects. Bipolar technology: radio frequency IC design.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3509.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4708 [0.5 credit]**Advanced Digital Integrated Circuit Design**

Advanced Verilog, test benches. VLSI design based on CMOS technology, characteristics of CMOS logic circuits, cell libraries, building blocks, structured design, testing, Computer-Aided Design tools. Laboratory emphasis on design synthesis from Verilog.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering and ELEC 3500 or permission of the Department.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4709 [0.5 credit]**Integrated Sensors**

Overview of sensor technologies with emphasis on devices suitable for integration with silicon integrated circuits. Sensor design and fabrication principles including signal conditioning; discussion of automotive, biomedical, and other instrumentation applications.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4906 [0.5 credit]**Special Topics**

At the discretion of the Engineering Faculty Board, a course dealing with selected advanced topics of interest to students in Biomedical and Electrical, Communications, Computer Systems, Electrical and Software Engineering and Engineering Physics may be offered.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4907 [1.0 credit]**Engineering Project**

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in a major design project. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): (ELEC 3907 or SYSC 3010), ECOR 3800, and fourth-year status in Engineering.

ELEC 4908 [1.0 credit]**Engineering Physics Project**

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in a major design project approved for Engineering Physics. Lectures devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 3800, and fourth-year status in Engineering. Certain projects may have additional prerequisites or corequisites.

Engineering Core (ECOR) Courses

ECOR 1010 [0.5 credit]

Introduction to Engineering

Technology, society and the environment. Graphical design communication: sketching, graphical projections; CAD. Managing data: statistical methods; spreadsheets. Design analysis: matrix programming software; symbolic computer algebra systems. Design process: proposals; reports; presentations; reporting software.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1000 (no longer offered), ECOR 1047, ECOR 1054.

Lectures four hours per week, laboratories two hours per week.

ECOR 1041 [0.25 credit]

Computation and Programming

Software development as an engineering discipline, using a modern programming language. Language syntax and semantics. Tracing and visualizing program execution. Program style and documentation. Testing and debugging tools and techniques. Binary number system to represent data in a computer.

Precludes additional credit for COMP 1005, COMP 1405, ECOR 1051, ECOR 1606, SYSC 1005.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1042 [0.25 credit]

Data Management

Software development using container data types (sequences, sets, maps) for data management. Modules. Data files. Incremental, iterative development of programs. Introduction to designing and implementing numerical algorithms.

Precludes additional credit for COMP 1005, COMP 1405, ECOR 1051, ECOR 1606, SYSC 1005.

Prerequisite(s): ECOR 1041 with a minimum grade of C- and MATH 1004 (may be taken concurrently). This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1043 [0.25 credit]

Circuits

Electrical Quantities (Voltage, Charge, Current, Power). Conservation of charge and energy. Mathematical models of simple devices. Elementary circuit theory for passive elements. Thévenin's and superposition theorem. Signal filtering and amplification. Time and frequency domain. Circuit design and simulation.

Precludes additional credit for ECOR 1052.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1044 [0.25 credit]

Mechatronics

Mechatronics applications. Analog to digital signal conversion. Control systems and PID controllers. Input devices, including sensors. Data collection and processing. Output devices, including displays, actuators, and motors. Project design and economics. Environmental Impact of mechatronics engineering. System failures and failsafe design.

Precludes additional credit for ECOR 1052.

Prerequisite(s): ECOR 1041 with a minimum grade of C- and ECOR 1043 with a minimum grade of C-. This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1045 [0.25 credit]

Statics

Cartesian vector representation of forces. Components of forces. Particle equilibrium and free body diagrams. Moments and cross product. Centre of gravity and centroids. Rigid body equilibrium.

Precludes additional credit for ECOR 1053, ECOR 1101.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1046 [0.25 credit]

Mechanics

2D truss analysis (method of joints/sections). Normal stress/strain and shear stress/strain. 2D frames and machines. Internal loads - normal, shear and moment at a point. Shear and moment diagrams.

Precludes additional credit for ECOR 1053.

Prerequisite(s): ECOR 1045 with a minimum grade of C-. This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1047 [0.25 credit]

Visual Communication

Graphs and sketches, flow charts, block diagrams. Visual presentation, projection and perspectives of objects. 3D sketching. Free hand drawing. Reading engineering drawings and schematics. Introduction to scaling, dimensioning and tolerancing. Introduction to CAD.

Precludes additional credit for ECOR 1054, ECOR 1010.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1048 [0.25 credit]**Dynamics**

Kinematics and kinetics of a particle. Principle of work and energy. Conservation of energy, conservative forces, potential energy. Principles of impulse and momentum, conservation of momentum for a system of particles. Precludes additional credit for ECOR 1054, ECOR 1101. Prerequisite(s): ECOR 1045 with a minimum grade of C-. This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1051 [0.5 credit]**Fundamentals of Engineering I**

Software development as an engineering discipline, using a modern programming language. Tracing and visualization of program execution. Testing and debugging. Data management: digital representation of numbers; numerical algorithms; storing data in files; container data types: sequences, sets, maps. Includes: Experiential Learning Activity Precludes additional credit for COMP 1005, COMP 1405, ECOR 1041, ECOR 1042, ECOR 1606, SYSC 1005. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1052 [0.5 credit]**Fundamentals of Engineering II**

Electrical Quantities. Conservation of mass and energy. Mathematical models of simple devices. Elementary circuit theory for passive elements. Signal filtering and amplification. Time and frequency domain. Circuit design and simulation. Digital and analog signals. Mechatronics applications. Output devices. System failures and failsafe design. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1043, ECOR 1044. Prerequisite(s): ECOR 1051 (may be taken concurrently). Lectures three hours per week, laboratories three hours per week.

ECOR 1053 [0.5 credit]**Fundamentals of Engineering III**

Components of forces. Particle equilibrium and free body diagrams. Moments and cross product. Centre of gravity and centroids. Rigid body equilibrium. 2D Truss analysis (method of joints/sections). Normal stress/strain and Shear stress/strain. 2D frames and machines. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1045, ECOR 1046, ECOR 1101. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1054 [0.5 credit]**Fundamentals of Engineering IV**

Engineering drawings and schematics. Graphs and sketches, flow charts, block diagrams. Computer-assisted design. Kinematics/Kinetics of a particle. Principles of work and energy. The Engineering Profession and Act. Organization and time management. Project management. Business, entrepreneurship and intellectual property. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1010, ECOR 1047, ECOR 1048. Prerequisite(s): ECOR 1053 (may be taken concurrently). Lectures three hours per week, laboratories three hours per week.

ECOR 1055 [0.0 credit]**Introduction to Engineering Disciplines I**

Overview of professional activities oriented to the student's discipline of study: Architectural Conservation and Sustainability. Civil and Environmental. Aerospace and Mechanical. Electrical. Engineering Physics. Computer Systems, Communications and Software. Biomedical (Electrical and Mechanical). Sustainable and Renewable Energy. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures 1.5 hours per week.

ECOR 1056 [0.0 credit]**Introduction to Engineering Disciplines II**

Selected lectures designed to provide students with exposure to the breadth of Engineering disciplines. Online course.

ECOR 1057 [0.0 credit]**Engineering Profession**

Professional Engineers Act. Engineering documentation. History of the profession. Engineering practice: system life cycle, practice within the discipline, designing with others. Health and safety. Engineering Ethics, Equity and Diversity. Introduction to engineering law : Business, Entrepreneurship and Intellectual Property. Online course

ECOR 1101 [0.5 credit]**Mechanics I**

Introduction to mechanics. Scalars and vectors. Concurrent forces: resultant and components. Statics of particles. Moments and couples. Force system resultants. Rigid body equilibrium. Frames and machines. Internal forces. Kinematics and kinetics of particles. Conservation theorems: work-energy; impulse-momentum. Centroids and centres of gravity. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1045, ECOR 1048, ECOR 1053. Prerequisite(s): MATH 1004 and MATH 1104. Lectures three hours a week, tutorials and problem analysis three hours a week.

ECOR 1606 [0.5 credit]**Problem Solving and Computers**

Introduction to engineering problem solving. Defining and modeling problems, designing algorithmic solutions, using procedural programming, selection and iteration constructs, functions, arrays, converting algorithms to a program, testing and debugging. Program style, documentation, reliability. Applications to engineering problems; may include numerical methods, sorting and searching.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 1005, SYSC 1100 (no longer offered), SYSC 1102 (no longer offered), COMP 1005, COMP 1405, ECOR 1041, ECOR 1042, ECOR 1051.

Lectures three hours a week, laboratory three hours a week.

ECOR 2050 [0.5 credit]**Design and Analysis of Engineering Experiments**

Statistics and the design of engineering experiments. Basic exploratory data analysis. Central limit theorem. Hypothesis testing: t-test, chi-square test, type-I and type-II errors, multiple-comparison problem. Statistical bias. Design of experiments: randomization, blocking and replication, randomized blocking designs, factorial design. Statistical software packages.

Includes: Experiential Learning Activity

Prerequisite(s): 2nd Year Status in Engineering.

Lectures three hours a week, problem analysis and laboratory three hours a week.

ECOR 2606 [0.5 credit]**Numerical Methods**

Numerical algorithms and tools for engineering and problem solving. Sources of error and error propagation, solution of systems of linear equations, curve fitting, polynomial interpolation and splines, numerical differentiation and integration, root finding, solution of differential equations. Software tools.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2606 (no longer offered).

Prerequisite(s): MATH 1005 and (ECOR 1606 or SYSC 1005) and (ECOR 1010 or ELEC 1908).

Lectures three hours a week, laboratory one hour a week.

ECOR 2995 [0.0 credit]**Engineering Portfolio**

Students will be asked to reflect on their skills, strengths and weaknesses as preparation for the professional practice course. Engineering students must submit samples of their writing and communications (including, for example, laboratory reports and professional memos).

Online

ECOR 3800 [0.5 credit]**Engineering Economics**

Introduction to engineering economics; cash flow calculations; methods of comparison of alternatives; structural analysis; replacement analysis; public projects; depreciation and income tax; effects of inflation; sensitivity analysis; break-even analysis; decision making under risk and uncertainty.

Prerequisite(s): third-year status in Engineering or (ECOR 1051, ECOR 1052, ECOR 1053 and ECOR 1054).

Lectures three hours a week.

ECOR 4907 [1.0 credit]**Multidisciplinary Engineering Project**

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in an approved major multidisciplinary engineering design project. Lectures devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and comprehensive final report are required.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 4918, ELEC 4907, ELEC 4908, ENVE 4918, MAAE 4907, SREE 4907, SYSC 4907, SYSC 4917, SYSC 4927, SYSC 4937.

Prerequisite(s): (ECOR 3800 or SYSC 4106), fourth-year status in Engineering and Permission of the faculty.

ECOR 4995 [0.5 credit]**Professional Practice**

Presentations by faculty and external lecturers on the Professional Engineers Act, professional ethics and responsibilities, practice within the discipline and its relationship with other disciplines and to society, health and safety, environmental stewardship, principles and practice of sustainable development. Communication skills are emphasized.

Precludes additional credit for MAAE 4905, CIVE 4905, SYSC 3905 or ELEC 3905 (all no longer offered).

Prerequisite(s): ECOR 2995 and fourth-year status in Engineering.

Lectures three hours a week.

Environmental Engineering (ENVE) Courses**ENVE 1001 [0.5 credit]****Architecture and the Environment**

Impacts of the environment on architecture; deterioration, freeze/thaw, solar heat, air pollution, moisture; Impacts of architecture on the environment; ecologic footprint, energy consumption, air quality, waste generation; designing with the environment; renewable energy, effective siting and landscape, passive solar energy, natural lighting, energy efficiency.

Lectures three hours a week, problem analysis one and a half hours a week.

ENVE 2001 [0.5 credit]**Process Analysis for Environmental Engineering**

Material and energy balances for reacting and non-reacting systems. Applications in mining, metallurgy, pulp and paper, power generation, energy utilization. Emissions to the environment per unit product or service generated. Introduction to life cycle analysis, comparative products and processes.

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent, and MAAE 2400 (may be taken concurrently), and second-year status in Engineering.

Lectures two hours a week, problem analysis three hours a week.

ENVE 2002 [0.5 credit]**Microbiology**

The biology of the Bacteria, Archaea, Viruses and Protozoans, from the fundamentals of cell chemistry, molecular biology, structure and function, to their involvement in ecological and industrial processes and human disease.

Also listed as BIOL 2303.

Prerequisite(s): BIOL 1103 or CHEM 1002 or CHEM 1101 or equivalent.

Lectures three hours a week.

ENVE 3001 [0.5 credit]**Water Treatment Principles and Design**

Theoretical aspects of unit operations for water treatment with design applications. Topics include water characteristics and contaminants, coagulation, flocculation, sedimentation, filtration, adsorption, ion exchange, membrane processes, disinfection and disinfection by-products, and management of water treatment residuals. Laboratory procedures: settling operations, filtration, aeration, and adsorption.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 3002.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 3002 [0.5 credit]**Environmental Engineering Systems Modeling**

Engineered systems for pollution abatement; chemical reaction engineering; reaction kinetics and rate data analysis; design and modeling of reactors; single and multiple reactions; ideal and nonideal reactors; single and multi-parameter models; biochemical reaction engineering; process control. Laboratory procedures: reactor systems performance: Batch, CSTR and PFR.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent and MATH 2004, and second-year status in Engineering. Additional recommended background: ENVE 2001.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 3003 [0.5 credit]**Water Resources Engineering**

A quantitative analysis of natural water systems and the development of these systems as a resource. Components of the hydrologic cycle. Quantitative analysis of stream flow. Probability concepts in water resources. Reservoir design and operation. Hydraulic properties and availability of groundwater. Storm water management.

Also listed as GEOG 4103.

Prerequisite(s): third-year status in Engineering.

Lectures three hours a week, problem analysis one hour a week.

ENVE 3004 [0.5 credit]**Contaminant and Pollutant Transport in the Environment**

Physical phenomenon governing the transport of contaminants in the environment: diffusion, advection, dispersion, sorption, interphase transfer. Derivation and application of transport equations in air, surface and groundwater pollution; analytical and numerical solutions. Equilibrium partitioning of contaminants among air, water, sediment, and biota.

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent; ENVE 3002.

Lectures three hours a week, problem analysis one hour a week.

ENVE 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

ENVE 4002 [0.5 credit]**Environmental Geotechnical Engineering**

Landfill design; hydrogeologic principles, water budget, landfill liners, geosynthetics, landfill covers, quality control/quality assurance, clay leachate interaction, composite liner design and leak detection. Landfill operation, maintenance and monitoring. Case studies of landfill design and performance. Geotechnical design of environmental control and containment systems.

Prerequisite(s): ENVE 3004, CIVE 3208.

Also offered at the graduate level, with different requirements, as ENVE 5201/EVG 7201, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week.

ENVE 4003 [0.5 credit]**Air Pollution and Emissions Control**

Air pollutants, classification, sources, and effects. Ambient air quality objectives and monitoring. Pollutant formation mechanisms in combustion. Major pollutant categories and control methods. Indoor air quality. Laboratory procedures: emissions from boilers and IC engines, particulate size distribution and control, IAQ parameters.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering or permission of the department.

Also offered at the graduate level, with different requirements, as ENVE 5101/EVG 7101, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 4005 [0.5 credit]**Wastewater Treatment Principles and Design**

Theoretical aspects of unit operations and processes for wastewater treatment with design applications. Topics include wastewater characteristics, flow rates, primary treatment, chemical unit processes, biological treatment processes, advanced wastewater treatment, disinfection, biosolids treatment and disposal. Laboratory procedures: activated sludge, anaerobic growth, chemical precipitation, disinfection.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 3001, ENVE 3002.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 4006 [0.5 credit]**Contaminant Hydrogeology**

Theory of flow through porous media. Site investigation: geology, hydrology and chemistry. Contaminant transport. Unsaturated and multiphase flow. Numerical modeling. Site remediation and remediation technologies.

Prerequisite(s): ENVE 3004 and MAAE 2300. Additional recommended background: ENVE 3003.

Also offered at the graduate level, with different requirements, as ENVE 5301/EVG 7301, for which additional credit is precluded.

Lectures three hours a week, problem analysis one and a half hours a week.

ENVE 4101 [0.5 credit]**Waste Management**

Municipal, hazardous, and mine waste management. Waste composition and potential impacts, collection and transport, recycling and reuse, biological and thermal treatments, isolation. Integrated waste management planning.

Prerequisite(s): ENVE 3001, ENVE 3002 and ENVE 3004.

Also offered at the graduate level, with different requirements, as ENVE 5203/EVG 5203, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week.

ENVE 4104 [0.5 credit]**Environmental Planning and Impact Assessment**

Canada and U.S. environmental regulations. Framework for Environmental Impact Assessment, survey techniques for impact assessment and EIA review process. Case studies of selected engineering projects. Environmental planning, management of residuals and environmental standards. Risk assessment, policy development and decision-making. Fault-tree analysis.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 3004 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

ENVE 4105 [0.5 credit]**Green Building Design**

Concepts, calculations, modeling; design of green buildings and their components; sustainable sites and landscaping; passive design; building envelope; building materials; daylighting; heating, cooling, and ventilation; building-integrated renewable energy systems; indoor environmental quality; overview of building standards and codes.

Prerequisite(s): Third-year status in B.Eng. in Architectural Conservation and Sustainability Engineering, Civil Engineering, or Environmental Engineering or fourth-year standing in B.A.S. concentration in Conservation and Sustainability.

Lectures three hours a week, problem analysis one and a half hours per week.

ENVE 4106 [0.5 credit]**Indoor Environmental Quality**

Indoor environmental quality (air quality, thermal, visual, and acoustic comfort); physical and chemical parameters for characterization. Types and sources of indoor air pollution and discomfort; measurement techniques. Heating, ventilation, air conditioning, lighting practices and issues. Modelling of and design for indoor environmental quality.

Prerequisite(s): fourth year status in B.Eng. Architectural Conservation and Sustainability Engineering or B.Eng. Environmental Engineering or fourth year standing in B.A.S. concentration in Conservation and Sustainability.

Also offered at the graduate level, with different requirements, as ENVE 5104, for which additional credit is precluded.

Lectures three hours a week, problem analysis and laboratory three hours alternate weeks.

ENVE 4107 [0.5 credit]**Building Services Engineering**

This course provides details on how buildings are designed and operated. The materials provide foundational knowledge to understand building services: mechanical, electrical, plumbing systems with associated controls.

Prerequisite(s): CIVE 3209, ENVE 4105 (may be taken concurrently).

Lecture three hours per week, problem analysis three hours every other week.

ENVE 4200 [0.5 credit]**Climate Change and Engineering**

Survey of the physical science of climate change, impacts on the built environment, and climate adaptation in engineering. Greenhouse gases, global warming, paleoclimatology, and Earth system responses. Climate change impacts on structural, water, transportation, and energy systems. Climate vulnerability assessment, examples of design adaptation.

Prerequisite(s): Fourth-year status in Engineering.

Also offered at the graduate level, with different requirements, as ENVE 5200, for which additional credit is precluded.

Lecture three hours per week, problem analysis three hours every other week.

ENVE 4907 [1.0 credit]**Engineering Research Project**

A research project in engineering analysis, design or development carried out by individual students or small teams, for an opportunity to develop initiative, self-reliance, creative ability and engineering judgment and is normally intended for students with high CGPAs and an interest in graduate studies.

Includes: Experiential Learning Activity

Precludes additional credit for ENVE 4917.

Prerequisite(s): fourth-year status in Engineering and permission of the department.

ENVE 4917 [0.5 credit]**Undergraduate Directed Study**

Student carries out a study, analysis, and solution of an engineering problem which results in a written final report. Carried out under close supervision of a faculty member. Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity

Precludes additional credit for ENVE 4907.

Prerequisite(s): permission of the Department and completion of, or concurrent registration in, ENVE 4918. Self study.

ENVE 4918 [1.0 credit]**Design Project**

Teams of students develop professional level experience through a design project that incorporates fundamentals acquired in previous mathematics, science, engineering, and complementary studies courses. A final report and oral presentations are required.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 3800 and fourth-year Status in Engineering. Certain projects may have additional requirements.

Lectures two hours alternate weeks, problem analysis three hours a week.

Mechanical Engineering (MECH) Courses**MECH 3002 [0.5 credit]****Machine Design and Practice**

The design of mechanical machine elements is studied from theoretical and practical points of view. Topics covered include: design factors, fatigue, and discrete machine elements. Problem analysis emphasizes the application to practical mechanical engineering problems.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2001 and MAAE 3202.

Lectures three hours a week, problem analysis three hours a week.

MECH 3310 [0.5 credit]**Biofluid Mechanics**

Applications of fundamental fluid mechanics to human circulatory and respiratory systems. Basic viscous flow theory including: blood flow in the heart and large arteries, air flow in extra-thoracic (nose-mouth throat) airways and lungs.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 2004 and MAAE 2300.

Lectures three hours per week, laboratories or tutorials three hours per week.

MECH 3700 [0.5 credit]**Principles of Manufacturing**

Manufacturing processes, materials. Casting: solidification and heat flow theory, defect formation, casting design.

Metal forming: elementary plasticity theory, plastic failure criteria, force and work calculations. Bulk and sheet forming. Joining: heat flow and defect formation, residual stresses. Machining theory and methods. Hardening: diffusion, wear resistance.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours a week, problem analysis and laboratories three hours a week on alternate weeks.

MECH 3710 [0.5 credit]**Biomaterials**

Materials used in biomedical applications: metals, polymers, ceramics and composites. Material response and degradation. Properties of biologic materials; bone, cartilage, soft tissue. Materials selection for biocompatibility.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours per week, laboratories and problem analysis three hours per week.

MECH 4003 [0.5 credit]**Mechanical Systems Design**

Design of mechanical systems: establishing design criteria, conceptual design, design economics, value analysis, synthesis and optimization. Mechanical elements/systems: gear and flexible drive systems, fluid power systems. These elements are utilized in group design projects.

Includes: Experiential Learning Activity

Prerequisite(s): MECH 3002 and fourth-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

MECH 4006 [0.5 credit]**Vehicle Engineering I**

The course emphasizes the engineering and design principles of road transport vehicles. Topics to be covered include: performance characteristics, handling behaviour and ride quality of road vehicles.

Prerequisite(s): MAAE 3004 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4007 [0.5 credit]**Vehicle Engineering II**

Engineering and design principles of off-road vehicles and air cushion technology. Topics include: mechanics of vehicle-terrain interaction - terramechanics, performance characteristics of off-road vehicles, steering of tracked vehicles, air cushion systems and their performance, applications of air cushion technology to transportation.

Prerequisite(s): MAAE 3004 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4013 [0.5 credit]**Biomedical Device Design**

Medical Devices: the industry and its regulation. Design methodologies. Examination of specific medical devices: surgical equipment, orthopedic devices, rehabilitation engineering, life support, artificial organs. Case studies.

Includes: Experiential Learning Activity

Prerequisite(s): MECH 3710, MAAE 3202, and MECH 4210 and fourth-year status in Engineering.

Lectures three hours per week, laboratories or tutorial three hours per week.

MECH 4101 [0.5 credit]**Mechanics of Deformable Solids**

Course extends the student's ability in design and stress analysis. Topics include: introductory continuum mechanics, theory of elasticity, stress function approach, Lamé and Mitchell problems, stress concentrations, thermoelasticity and plasticity.

Prerequisite(s): MAAE 3202 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4102 [0.5 credit]**Corrosion and Corrosion Control**

Introduction to corrosion. Corrosion mechanisms. Thermodynamics of corrosion. Electro-chemical kinetics of corrosion. Corrosion: types, prevention, control, testing, monitoring and inspection techniques. Corrosion in specific metals (eg. Fe, Ni, Ti and Al). Corrosion issues in specific industries: power generation and chemical processing industries.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4103 [0.5 credit]**Fatigue and Fracture Analysis**

Elastic and elasto-plastic fracture mechanics. Fatigue design methods, fatigue crack initiation and growth Paris law and strain-life methods. Fatigue testing, scatter, mean stress effects and notches. Welded and built up structures, real load histories and corrosion fatigue. Damage tolerant design and fracture control plans.

Prerequisite(s): MAAE 3202 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4104 [0.5 credit]**Vibration Analysis**

Free and forced vibrations of one and two degree-of-freedom systems. Vibration measurement and isolation. Numerical methods for multi-degree-of-freedom systems. Modal analysis techniques. Dynamic vibration absorbers. Shaft whirling. Vibration of continuous systems: bars, plates, beams and shafts. Energy methods. Holzer method.

Prerequisite(s): MAAE 3004 and fourth-year status in Engineering or by permission of the department.

Lectures three hours per week.

MECH 4105 [0.5 credit]**Introduction to Nuclear Engineering**

Atomic theory, nuclear physics, radioactivity, photoelectric effect, mass defect, binding energy, nuclides, neutron diffusion and moderation. Reactor theory, kinetics, control. Reactor types, reactor poisoning, xenon oscillations. Reactor materials, corrosion, fuel and fuel cycle. Nuclear medicine. Radiation protection, reactor safety fundamentals.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4106 [0.5 credit]**Nuclear Power Plant Design**

Elements of design, basic design, and new generation of nuclear reactors. Major systems of CANDU reactor and its safety principles. Balance of Plant Systems. Licensing requirements for design (IAEA, CNSC and USNRC regulations). Analytical/computer codes in safety assessments and design.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Lectures three hours per week.

MECH 4107 [0.5 credit]**Internal Combustion Engines**

This course explores the design process of an internal combustion engine including: Internal Aerodynamics, Combustion, Rotating and Reciprocating Components, Structures, Control Systems, Manufacturing and Testing Methods. Students will design/optimize an engine component utilizing industry standard Ricardo Wave simulation software.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Lecture three hours per week.

MECH 4210 [0.5 credit]**Biomechanics**

The biomechanics of biological systems; muscles and movement, nerves and motor control. Measurements of motion, strain and neural signals. The hand and manipulation; locomotion and the leg.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2101 and fourth-year status in Engineering.

Lectures three hours per week, laboratories or tutorials three hours per week.

MECH 4305 [0.5 credit]**Fluid Machinery**

Types of machines. Similarity: performance parameters; characteristics; cavitation. Velocity triangles. Euler equation: impulse and reaction. Radial pumps and compressors: analysis, design and operation. Axial pumps and compressors: cascade and blade-element methods; staging; off-design performance; stall and surge. Axial turbines. Current design practice.

Prerequisite(s): (MAAE 3300 or MECH 3310) and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4401 [0.5 credit]**Power Plant Analysis**

Criteria of merit; selection of power plant for transportation and power generation applications; interrelation among mechanical, thermodynamic and aerodynamic design processes; jet propulsion, turbojets and turbofans; alternative proposals for vehicular power plant; combined cycle applications.

Precludes additional credit for AERO 4402.

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4403 [0.5 credit]**Power Generation Systems**

Energy sources and resources. Basic elements of power generation. Hydro-electric, fossil-fuel, fissile-fuel power plants. Geothermal, solar and wind power plants. Economic and environmental considerations. Energy storage. Future power needs.

Includes: Experiential Learning Activity

Precludes additional credit for SREE 4001.

Prerequisite(s): MAAE 2300 and MAAE 2400 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week and problem analysis three hours per week.

MECH 4406 [0.5 credit]**Heat Transfer**

Mechanisms of heat transfer: fundamentals and solutions. Steady and transient conduction: solution and numerical and electrical analog techniques. Convective heat transfer: free and forced convection for laminar and turbulent flows; heat exchangers. Heat transfer between black and grey surfaces, radiation shields, gas radiation, radiation interchange.

Precludes additional credit for AERO 4446.

Prerequisite(s): MAAE 2400 and (MAAE 3300, MECH 3310, or (ENVE 3001 and permission of the Department of Mechanical and Aerospace Engineering)) and fourth-year status in Engineering.

Lectures three hours a week. Problem analysis and laboratories three hours a week.

MECH 4407 [0.5 credit]**Heating and Air Conditioning**

Environmental demands for residential, commercial and industrial systems. Methods of altering and controlling environment. Air distribution. Refrigeration methods, equipment and controls. Integrated year-round air-conditioning and heating systems; heat pumps. Cooling load and air-conditioning calculations. Thermal radiation control. Component matching. System analysis and design.

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4408 [0.5 credit]**Thermofluids and Energy Systems Design**

Integration of fluid mechanics, thermodynamics, and heat transfer for design of energy conversion systems. Chemical kinetics and mass transfer. Efficient combustion, fuel cells and batteries. Efficient operation and design of engines, power generators, boilers, furnaces, incinerators, and co-generation systems. Emerging energy systems. Prerequisite(s): MAAE 3400 and fourth-year status in Engineering. Lectures three hours per week.

MECH 4501 [0.5 credit]**State Space Modeling and Control**

Review of matrices. Geometric structure and dynamics of linear systems. Controllability and observability. Pole placement design of controllers and observers. Design of regulator and servo systems. Transmission zeros. Eigenstructure assignment. Relationship to frequency or classical control techniques. Computer solutions using MATLAB. Applications. Precludes additional credit for SYSC 5502. Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4503 [0.5 credit]**An Introduction to Robotics**

History of robotics and typical applications. Robotic actuators and sensors. Kinematics of manipulators, inverse kinematics, differential relationships and the Jacobian. Manipulator dynamics. Trajectory generation and path planning. Robot control and performance evaluation. Force control and compliance. Applications in manufacturing and other industries. Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4604 [0.5 credit]**Finite Element Methods**

Finite element methodology with emphasis on applications to stress analysis, heat transfer and fluid flow using the simplest one- and two-dimensional elements. Direct equilibrium, variational and Galerkin formulations. Computer programs and practical applications. Higher order elements. Prerequisite(s): MAAE 3202 and fourth-year status in Engineering or by permission of department. Lectures three hours a week.

MECH 4704 [0.5 credit]**Integrated Manufacturing - CIMS**

Overview of the topics essential to CIMS including integration of design and assembly techniques, numerical analysis, statistical process control and related production technologies within the manufacturing enterprise. Prerequisite(s): Fourth-year status in Engineering or by permission of the department. Also offered at the graduate level, with different requirements, as MECH 5704, for which additional credit is precluded. Lectures three hours a week.

MECH 4705 [0.5 credit]**CAD/CAM**

Introduction to contemporary computer aided design and manufacturing (CAD/CAM) Topics covered include mathematical representation, solid modeling, drafting, mechanical assembly mechanism design, (CNC) machining. Current issues such as CAD data exchange standards, rapid prototyping, concurrent engineering, and design for X (DFX) are also discussed. Prerequisite(s): MAAE 2001 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4805 [0.5 credit]**Measurement and Data Systems**

Experimental data, accuracy and uncertainty analysis. Analog systems. Sensors. Signal conditioning. Op-Amps, instrumentation amplifiers, charge amplifiers, filters. Digital techniques. Encoders, A/D D/A converters. Data acquisition using microcomputers. Hardware and software considerations. Interfacing. Applications to measurement of motion, strain, force/torque, pressure, fluid flow, temperature. Precludes additional credit for ELEC 4805. Prerequisite(s): ECOR 2050 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4806 [0.5 credit]**Mechatronics**

Introduction to the integration of mechanical, electronic and software components to build mechatronic devices. Mechanical and electrical systems modeling, simulation and implementation. Basic automation and computer requirements. Design tools and examples of mechatronic applications. Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourth-year status in Engineering or by permission of the department. Lectures three hours per week.

Mechanical and Aerospace Engineering (MAAE) Courses

MAAE 2001 [0.5 credit]

Engineering Graphical Design

Engineering drawing techniques; fits and tolerances; working drawings; fasteners. Elementary descriptive geometry; true length, true view, and intersection of geometric entities; developments. Assignments will make extensive use of Computer-Aided Design (CAD) and will include the production of detail and assembly drawings from actual physical models.

Includes: Experiential Learning Activity

Also listed as AERO 2001.

Prerequisite(s): Second-year status in Engineering.

Lectures and tutorials two hours a week, laboratory four hours a week.

MAAE 2101 [0.5 credit]

Engineering Dynamics

Review of kinematics and kinetics of particles: rectilinear and curvilinear motions; Newton's second law; energy and momentum methods. Kinematics and kinetics of rigid bodies: plane motion of rigid bodies; forces and accelerations; energy and momentum methods.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 2101.

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, problem analysis three hours a week.

MAAE 2202 [0.5 credit]

Mechanics of Solids I

Review of Principles of Statics; friction problems; Concepts of stress and strain at a point; statically determinate and indeterminate stress systems; torsion of circular sections; bending moment and shear force diagrams; stresses and deflections in bending; buckling instability.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 2200.

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 2300 [0.5 credit]

Fluid Mechanics I

Fluid properties. Units. Kinematics, dynamics of fluid motion: concepts of streamline, control volume, steady and one-dimensional flows; continuity, Euler, Bernoulli, steady flow energy, momentum, moment of momentum equations; applications. Fluid statics; pressure distribution in fluid at rest; hydrostatic forces on plane and curved surfaces; buoyancy.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

MAAE 2400 [0.5 credit]

Thermodynamics and Heat Transfer

Basic concepts of thermodynamics: temperature, work, heat, internal energy and enthalpy. First law for closed and steady-flow open systems. Thermodynamic properties of pure substances; changes of phase; equation of state. Second law: entropy. Simple power and refrigeration cycles. Introduction to heat transfer: conduction, convection, radiation.

Includes: Experiential Learning Activity

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

MAAE 2700 [0.5 credit]

Engineering Materials

Materials (metals, alloys, polymers) in engineering service; relationship of interatomic bonding, crystal structure and defect structure (vacancies, dislocations) to material properties; polymers, phase diagrams and alloys; microstructure control (heat treatment) and mechanical properties; material failure; corrosion.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 2700.

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3004 [0.5 credit]

Dynamics of Machinery

Kinematic and dynamic analysis of mechanisms and machines. Mechanism force analysis. Static and dynamic balancing. Kinematic and dynamic analysis of cams. Free and forced vibration of single-degree-of-freedom systems. Introduction to multibody dynamics.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2101 and MATH 1005.

Lectures three hours a week, problem analysis and laboratories two hours a week.

MAAE 3202 [0.5 credit]

Mechanics of Solids II

Stress and strain transformations: torsion of non-circular sections; unsymmetric bending and shear centre; energy methods; complex stresses and criteria of yielding; elementary theory of elasticity; axisymmetric deformations.

Includes: Experiential Learning Activity

Precludes additional credit for CIVE 3202.

Prerequisite(s): MAAE 2202 and MATH 1005 (co-req).

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3300 [0.5 credit]**Fluid Mechanics II**

Review of control volume analysis. Dimensional analysis and similitude. Compressible flow: isentropic flow relations, flow in ducts and nozzles, effects of friction and heat transfer, normal and oblique shocks, two-dimensional isentropic expansion. Viscous flow theory: hydrodynamic lubrication and introduction to boundary layers.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 2004 and MAAE 2300.

Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3400 [0.5 credit]**Applied Thermodynamics**

Gas and vapour power cycles: reheat, regeneration, combined gas/vapour cycles, cogeneration. Heat pump and refrigeration cycles: vapour compression cycles, absorption refrigeration and gas refrigeration. Mixtures of perfect gases and vapours: psychrometry and combustion. Principles of turbomachinery.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005 and MAAE 2400.

Lectures three hours a week, problem analysis and laboratories three hours a week.

MAAE 3500 [0.5 credit]**Feedback Control Systems**

Introduction to the linear feedback control. Analysis and design of classical control systems. Stability and the Routh-Hurwitz criteria. Time and frequency domain performance criteria, robustness and sensitivity. Root locus, Bode and Nyquist design techniques. Control system components and industrial process automation.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 4500 (no longer offered), SYSC 4505.

Prerequisite(s): MATH 3705 and (SYSC 3600 or SYSC 3610).

Lectures three hours a week, problem analysis and laboratories three hours a week.

MAAE 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

MAAE 4102 [0.5 credit]**Materials: Strength and Fracture**

Analysis and prevention of failures in metals; plasticity analysis and plastic collapse; micro-mechanisms of fracture, conditions leading to crack growth and transition temperature effects, fracture mechanics, fatigue, environmentally assisted cracking, non-destructive evaluation and testing.

Prerequisite(s): MAAE 2202 and MAAE 2700 and fourth-year status in Engineering.

Lectures three hours a week.

MAAE 4902 [0.5 credit]**Special Topics: Mechanical and Aerospace Engineering**

Selected advanced topics of interest to Aerospace and Mechanical Engineering students, subject to the discretion of the Faculty of Engineering and Design.

Prerequisite(s): permission of the Department.

Lecture three hours a week.

MAAE 4903 [0.5 credit]**Special Topics: Mech & Aero Eng.**

At the discretion of the Faculty, a course may be offered that deals with selected advanced topics of interest to Aerospace and Mechanical Engineering students.

Prerequisite(s): permission of the Department.

Lecture three hours a week.

MAAE 4904 [0.5 credit]**Special Topics: Mechanical and Aerospace Engineering**

Selected advanced topics of interest to Aerospace and Mechanical Engineering students, subject to the discretion of the Faculty of Engineering and Design.

Prerequisite(s): permission of department.

Lectures three hours a week.

MAAE 4906 [0.5 credit]**Special Topics: Mech and Aero Eng.**

At the discretion of the Faculty, a course may be offered that deals with selected advanced topics of interest to Aerospace and Mechanical Engineering students.

Prerequisite(s): permission of the Department.

MAAE 4907 [1.0 credit]**Engineering Design Project**

Team project in the design of an aerospace, biomedical, mechanical, or sustainable energy system. Opportunity to develop initiative, engineering judgement, self-reliance, and creativity in a team environment. Results submitted in a comprehensive report as well as through formal oral presentations.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year status in engineering and (completion of or concurrent registration in AERO 4003, AERO 4842, MECH 4003, MECH 4013, or SREE 4001, or permission of Department). Certain projects may have additional prerequisites.

MAAE 4917 [0.5 credit]**Undergraduate Directed Study**

Study, analysis, and solution of an engineering problem. Results presented in the form of a written report. Carried out under the close supervision of a faculty member. Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the Department and completion of, or concurrent registration in, MAAE 4907.

Sustainable and Renewable Energy (SREE) Courses

SREE 1000 [0.0 credit]

Introduction to Sustainable Energy

The concept of energy sustainability. Energy-economy system. Global energy trends, the next 100 years. Energy reserves and resources. Primary and secondary clean energy. Energy use, efficiency and renewables. Energy and the environment/climate change. Sustainable energy choices and policies.

Prerequisite(s): registration in Sustainable and Renewable Energy Engineering.

Lectures one hour per week.

SREE 3001 [0.5 credit]

Sustainable and Renewable Energy Sources

Primary energy sources and their associated fundamental physics of conversion. Renewables: wind, large hydro, solar radiation, solar thermal. Fossil and biofuels.

Nuclear. Climate science: the carbon cycle and the role of anthropogenic GHG emissions in climate warming.

Terrestrial, thermodynamic and electrical limitations.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 2001 and MAAE 2300 and (ELEC 2602 or ELEC 3605 or fourth-year status in Environmental Engineering).

Lectures three hours per week, laboratories/problem analysis one hour per week.

SREE 3002 [0.5 credit]

Electrical Distribution Systems

Electricity Distribution: topology, load characteristics, load prediction, voltage regulation, power flow, power loss, capacitors, state estimation, system reliability, system protection. Distribution Automation: components and architectures, communication systems. Distributed Generation: guides and regulations, microgrids, case study.

Includes: Experiential Learning Activity

Prerequisite(s): SREE 3001 and (ELEC 2602 or ELEC 3605).

Lectures three hours per week, laboratories three hours per week alternate weeks.

SREE 3003 [0.5 credit]

Sustainable and Renewable Electricity Generation

Power system structures; photovoltaic cell: model, current#voltage curves, maximum power point tracking, grid connection; grid connection of wind generator; DC# AC and AC#DC converter simulation and analysis; energy storage classification; battery: equivalent circuit model, charging and discharging; renewable generation; feed#in tariff program.

Includes: Experiential Learning Activity

Prerequisite(s): SREE 3001 and (ELEC 2602 or ELEC 3605).

Lectures three hours per week, laboratories three hours per week alternate weeks.

SREE 4001 [0.5 credit]

Efficient Energy Conversion

Sustainable large-scale power generation. Geothermal, solar thermal, hydrogen power plants. Thermal grids and thermal energy storage. Environmental and economic aspects of power generation. Impacts of intermittent power generation. Sizing of wind, solar PV, run-of-river hydro, and offshore power plants. Current and future energy network topologies.

Includes: Experiential Learning Activity

Precludes additional credit for MECH 4403.

Prerequisite(s): MAAE 2300, MAAE 2400 and fourth year status in Sustainable & Renewable Energy Engineering.

Lectures three hours per week, laboratories/problem analysis three hours per week.

SREE 4002 [0.5 credit]

Modelling and Analysis of Energy Systems: Risk, Reliability, and Economics

Energy technologies exist within a context of economic, policy, and behavioral choices that affect their adoption.

This course will introduce engineering methods for analyzing risk, uncertainty, and system-level decision-

making. We will investigate criteria that affect energy systems: reliability, resilience, economics, financing,

health, and environmental impacts.

Prerequisite(s): fourth-year status in Engineering.

Lectures three hours per week.

SREE 4907 [1.0 credit]

Energy Engineering Project

Student teams develop professional-level experience by applying, honing, integrating and extending previously acquired knowledge in a major design project. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 3800, SREE 3002 and SREE 3003, and fourth-year status in Sustainable and Renewable Energy Engineering. Certain projects may have additional prerequisites or corequisites.

Systems and Computer Engineering (SYSC) Courses

Note: the Departments of Systems and Computer Engineering and Electronics offer courses in: Biomedical and Electrical Engineering, Communications Engineering, Computer Systems Engineering, Electrical Engineering, Software Engineering and Engineering Physics.

SYSC 1005 [0.5 credit]**Introduction to Software Development**

Software development as an engineering discipline, using a modern programming language, Language syntax. Algorithm design. Tracing and visualizing program execution. Testing and debugging. Program style, documentation, reliability. Lab projects are drawn from a variety of application domains: digital image manipulation, computer games, robotics.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, SYSC 1100 (no longer offered), COMP 1005 and COMP 1405.

Lectures three hours a week, laboratory three hours a week.

SYSC 2001 [0.5 credit]**Computer Systems Foundations**

Computer architecture and organization: CPU, cache, memory, input/output, bus structures, interrupts; computer arithmetic: integer and floating point; CPU: instruction sets, addressing modes, instruction encoding. Input/output: programmed, interrupt-driven, block-oriented. Examples from several modern processor families.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2320, SYSC 3006.

Prerequisite(s): ECOR 1606 or SYSC 1005. Additional recommended background: SYSC 2006.

Lectures three hours a week, laboratory two hours a week.

SYSC 2003 [0.5 credit]**Introductory Real-Time Systems**

Principles of event-driven systems. Review of computer organization. Assemblers and linkers. Development of embedded applications. Programming external interfaces, programmable timer. Input/output methods: polling, interrupts. Real-time issues: concurrency, mutual exclusion, buffering. Introduction to concurrent processes.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3006 and SYSC 3310.

Prerequisite(s): SYSC 2001 and SYSC 2006.

Lectures three hours a week, laboratory two hours a week.

SYSC 2004 [0.5 credit]**Object-Oriented Software Development**

Designing and implementing small-scale programs as communities of collaborating objects, using a dynamically-typed or statically-typed programming language.

Fundamental concepts: classes, objects, encapsulation, information hiding, inheritance, polymorphism. Iterative, incremental development and test-driven development.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 1101, COMP 1006 and COMP 1406.

Prerequisite(s): SYSC 2006 or permission of the department, and second-year status in Engineering.

Lectures three hours a week, laboratory two hours a week.

SYSC 2006 [0.5 credit]**Foundations of Imperative Programming**

The imperative programming paradigm: assignment and state, types and variables, static and dynamic typing. Memory management and object lifetimes: static allocation, automatic allocation in activation frames, dynamic allocation. Function argument passing. Recursion. Data structures: dynamic arrays, linked lists. Encapsulation and information hiding.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2401, SYSC 4006.

Prerequisite(s): Second-year status in Engineering.

Lectures three hours a week, laboratory two hours a week.

SYSC 2010 [0.5 credit]**Programming Project**

Programming, testing, and debugging of small team-based software projects that use data from sensors to display results graphically. Modern programming tools: frameworks, libraries, version control, package management, tool chains. Sensors, signal acquisition, display, and basic filtering. Introductory network programming.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3010, SYSC 3110.

Prerequisite(s): 2nd year status in Biomedical and Electrical Engineering or Communications Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 2100 [0.5 credit]**Algorithms and Data Structures**

Thorough coverage of fundamental abstract collections: stacks, queues, lists, priority queues, dictionaries, sets, graphs. Data structures: review of arrays and linked lists; trees, heaps, hash tables. Specification, design, implementation of collections, complexity analysis of operations. Sorting algorithms.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2002 (no longer offered) and COMP 2402.

Prerequisite(s): SYSC 2006 with a minimum grade of C-, and second-year status in Engineering.

Lectures three hours a week, laboratory two hours a week.

SYSC 2310 [0.5 credit]**Introduction to Digital Systems**

Number systems: binary, decimal, hexadecimal. Digital representation of information. Computer arithmetic: integer, floating point, fixed point. Boolean logic, realization as basic digital circuits. Applications: simple memory circuits, synchronous sequential circuits for computer systems. Finite state machines, state graphs, counters, adders. Asynchronous sequential circuits. Races.

Includes: Experiential Learning Activity

Precludes additional credit for ELEC 2607.

Prerequisite(s): Enrolment in Computer Systems Engineering, Communications Engineering, or Software engineering, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 2320 [0.5 credit]**Introduction to Computer Organization and Architecture**

Computer organization: processor, memory, input/output, system bus. Microarchitecture. Instruction set architecture. Assembly language programming: addressing modes, instruction encoding, execution. Assembler. Simple digital I/O, programmable timer. Input/output methods: polling, hardware interrupts.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2001 and SYSC 3006.

Prerequisite(s): SYSC 2310 or ELEC 2607, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 2510 [0.5 credit]**Probability, Statistics and Random Processes for Engineers**

Discrete and continuous random variables. Joint and conditional probabilities, independence, sums of random variables. Expectation, moments, laws of large numbers. Introduction to statistics. Stochastic processes, stationarity, additive white Gaussian noise, Poisson processes. Markov processes, transition probabilities and rates, birth death processes, introduction to queueing theory.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1004 and MATH 1104, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3006 [0.5 credit]**Computer Organization**

Computer organization: processor, memory, input/output, system bus. Number systems: binary, decimal, hexadecimal. Assembly language programming: representation of data, instruction encoding, execution. Devices: keyboard, programmable timer, parallel interface. Input/output methods: polling, hardware/software interrupts.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2001, SYSC 2003, SYSC 2320 and SYSC 3310. May not be taken for credit by students in Computer Systems Engineering, Communications Engineering, or Software Engineering.

Prerequisite(s): SYSC 2006 and ELEC 2607.

Lectures three hours a week, laboratory two hours a week.

SYSC 3010 [0.5 credit]**Computer Systems Development Project**

Development of expertise in designing, implementing and testing industrial-quality embedded systems through team projects. Applying modern programming languages, system design practices, current development processes (refactoring, iterative and incremental development) as well as current team-management tools (communication, version control) to medium-scale projects.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2404, SYSC 2010, SYSC 2101 (no longer offered), and SYSC 3110.

Prerequisite(s): SYSC 2100 and either SYSC 2003 or SYSC 3310 (may be taken concurrently), and enrolment in Computer Systems Engineering.

Lectures two hours a week, laboratory three hours a week.

SYSC 3020 [0.5 credit]**Introduction to Software Engineering**

Introduction to software engineering principles, software development life-cycles. Modelling in software engineering. Current techniques, notations, methods, processes and tools used in software engineering. UML modelling. Introduction to software quality, software verification and validation, software testing.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3100, SYSC 3120, SYSC 4120 and COMP 3004.

Prerequisite(s): SYSC 2004 and (SYSC 2006 or SYSC 2002).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3101 [0.5 credit]**Programming Languages**

Principles underlying different kinds of programming languages (procedural, functional, logic programming) and their semantics. Overview of machinery needed for language support (compilers, interpreters and run-time systems).

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3007.

Prerequisite(s): SYSC 2004.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3110 [0.5 credit]**Software Development Project**

Development of expertise in designing, implementing and testing maintainable, reusable software through team projects. Applying modern programming languages, design patterns, frameworks, UML and modern development processes (detection of olfactible source code defects, refactoring, iterative and incremental development, version control techniques) to medium-scale projects.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2404, SYSC 2010, SYSC 2101 and SYSC 3010.

Prerequisite(s): SYSC 2004 and SYSC 2100, and enrolment in Software Engineering.

Lectures two hours a week, laboratory three hours a week.

SYSC 3120 [0.5 credit]**Software Requirements Engineering**

Current techniques, notations, methods, processes and tools used in Requirements Engineering. Requirements elicitation, negotiation, modeling requirements, management, validation. Skills needed for Requirements Engineering and the many disciplines on which it draws. Requirements analysis: domain modeling, modeling object interactions; UML modeling. Introduction to software development processes.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3020 and COMP 3004.

Prerequisite(s): SYSC 2004 and enrolment in Software Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3200 [0.5 credit]**Industrial Engineering**

Techniques of operations research for decision-making in complex engineering systems. Linear programming, network models, PERT, integer programming, dynamic programming, queuing systems and inventory models. Problem solving is emphasized.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2300, ECON 4004, or MATH 3801.

Prerequisite(s): MATH 1004 and MATH 1104, and second-year status in Engineering.

Lectures three hours a week, laboratory/problem analysis one and a half hours per week.

SYSC 3203 [0.5 credit]**Bioelectrical Systems**

Biomedical transducers, sensors, and biomedical actuators. Amplifier designs: inverting, noninverting, differential, and bioinstrumentation. Differentiators, integrators, and rectifiers. Oscillators and timers. Filter design. Sampling and quantization. Electrical machines. Electrical safety.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005 and (ELEC 2507 or ELEC 3605), and enrolment in Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 3303 [0.5 credit]**Real-Time Concurrent Systems**

Principles and practice of a systems engineering approach to the development of software for real-time, concurrent, distributed systems. Designing to achieve concurrency, performance, and robustness, using visual notations. Converting designs into programs. Introduction to hard real-time systems. Team project.

Includes: Experiential Learning Activity

Prerequisite(s): for students in the Faculty of Engineering and Design: (SYSC 2003 or SYSC 3310) and SYSC 2004. For students in Computer Science: COMP 2401 and COMP 2402.

Lectures three hours a week, laboratory two hours a week.

SYSC 3310 [0.5 credit]**Introduction to Real-Time Systems**

Principles of event-driven systems. Microcontroller organization. Development of embedded applications. Programming external interfaces, programmable timer. Input/output methods: polling, interrupts. Real-time issues: concurrency, mutual exclusion, buffering. Introduction to concurrent processes.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 2003, SYSC 3006.

Prerequisite(s): SYSC 2006 with a minimum grade of C- and SYSC 2320.

Lectures three hours a week, laboratory two hours a week.

SYSC 3320 [0.5 credit]**Computer Systems Design**

System on Chip (SoC)-based computer system design. SoC internal organization. Cache memory. Interfacing: external memory, hardware subsystems. Direct memory access. Floating point units. Introduction to field programmable gate arrays.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3601 and ELEC 4601.

Prerequisite(s): SYSC 3310 and third year status in Computer Systems Engineering, or permission of the Department.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3500 [0.5 credit]**Signals and Systems**

Signals: energy and power signals, discrete-time and continuous. Linear systems and convolution. Fourier Transform; complex Fourier series; signal spectral properties and bandwidth. Laplace transform and transient analysis. Transfer functions, block diagrams. Baseband and passband signals, with applications to communications systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3600 and SYSC 3610.

Prerequisite(s): MATH 1005 and enrolment in Communications Engineering, and second-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 3501 [0.5 credit]**Communication Theory**

Review of signals, linear systems and Fourier theory; signal bandwidth and spectra; digital waveform coding; introduction to analog and digital modulation systems; synchronization; characterization and effects of noise; link budgets; communications media and circuits; applications to current communications systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3503.

Prerequisite(s): SYSC 3600 or SYSC 3610.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3503 [0.5 credit]**Communication Theory II**

Amplitude Modulation. Frequency Modulation. Performance of AM and FM in noise. Communication channels, channel models, noise sources, noise models. Digital modulation: ASK, FSK, PSK. Optimal reception, probability of error on the AWGN channel.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3501 or SYSC 4600.

Prerequisite(s): SYSC 3500 and (STAT 2605 or SYSC 2510).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3600 [0.5 credit]**Systems and Simulation**

Properties of linear systems. Linear dynamic models of engineering systems. Applications of the Laplace transform. Transfer functions. Block diagrams. Frequency and time response. System simulation with digital computers.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3500 or SYSC 3610.

Prerequisite(s): MATH 1005 and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 3601 [0.5 credit]**Microprocessor Systems**

Microprocessor-based system design for different microprocessor families. Microprocessors: internal organization, instruction sets, address generation, pin-outs, bus cycles, signalling waveforms. Interfacing memory and I/O devices. Interrupt structures, direct memory access. Floating point coprocessors. System bus standards. Introduction to DSPs.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3320 or ELEC 4601.

Prerequisite(s): ELEC 2607, and SYSC 2003 or permission of the department.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3610 [0.5 credit]**Biomedical Systems, Modeling, and Control**

Properties of linear systems. Linear dynamic models of biomedical systems. Biomedical application of the Laplace transforms. Transfer functions. Block diagram. Frequency and time response. Feedback, control, and stability. Biomedical systems modeling and control.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3500 or SYSC 3600.

Prerequisite(s): MATH 1005 and enrolment in Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering, and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 3999 [0.0 credit]**Co-operative Work Term**

Includes: Experiential Learning Activity

SYSC 4001 [0.5 credit]**Operating Systems**

Introduction to operating system principles. Processes and threads. CPU scheduling. Managing concurrency: mutual exclusion and synchronization, deadlock and starvation. Managing memory and input/output. Concurrent programming, including interprocess communication in distributed systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3001 and COMP 3000.

Prerequisite(s): SYSC 2006 with a minimum grade of C-.

Lectures three hours a week, laboratory three hours a week.

SYSC 4005 [0.5 credit]**Discrete Simulation/Modeling**

Simulation as a problem solving tool. Random variable generation, general discrete simulation procedure: event table and statistical gathering. Analyses of simulation data: point and interval estimation. Confidence intervals. Overview of modeling, simulation, and problem solving using SIMSCRIPT, MODSIM, and other languages.

Includes: Experiential Learning Activity

Prerequisite(s): (ECOR 2050 or SYSC 2510 or STAT 2605 or STAT 3502) and fourth-year status in Engineering, or permission of the Department.

Also offered at the graduate level, with different requirements, as SYSC 5001, for which additional credit is precluded.

Lectures three hours a week, laboratory one hour a week.

SYSC 4006 [0.5 credit]**Introduction to Systems Programming**

Introduction to C programming: Data types, flow control, functions, arrays, pointers, and arithmetic, logical and bitwise operators. Memory models, collections. Low-level I/O. Build pipeline (version control, make, preprocessing, compiling, linking) in Linux. Testing and debugging.

Precludes additional credit for SYSC 2006.

Prerequisite(s): Third-year status in Engineering, or enrollment in the M.Eng. Program in Electrical & Computer Engineering.

Lectures three hours a week.

SYSC 4101 [0.5 credit]**Software Validation**

Techniques for the systematic testing of software systems. Software validation and verification, software debugging, quality assurance, measurement and prediction of software reliability. Emphasis on the treatment of these topics in the context of real-time and distributed systems.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4004.

Prerequisite(s): SYSC 3120 or SYSC 3020.

Lectures three hours a week, laboratory/problem analysis three hours a week.

SYSC 4102 [0.5 credit]**Performance Engineering**

Techniques based on measurements and models, for predicting and evaluating the performance of computer systems. Instrumentation. Simple queueing models and approximations. Techniques for modifying software designs to improve performance.

Includes: Experiential Learning Activity

Prerequisite(s): (ECOR 2050 or STAT 3502) and SYSC 4001.

Also offered at the graduate level, with different requirements, as SYSC 5101, for which additional credit is precluded.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4106 [0.5 credit]**The Software Economy and Project Management**

Introduction to software project management and economics; Return on software investments; Software life cycle; Work breakdown structure, scheduling and planning; Risk analysis and management; Product size and cost estimation; Earn value management; Statistical process control; Managing project team and process improvement; Bidding and contract types.

Prerequisite(s): SYSC 3120 (may be taken concurrently) and third-year status in Software Engineering or COMP 3004 and enrolment in the Bachelor of Computer Science.

Lectures three hours a week.

SYSC 4111 [0.5 credit]**Formal Methods in Software Engineering**

Introduction to formal methods in software engineering with coverage of propositional and first-order logic (syntax, semantics, proof theory), formal specification languages, bounded analysis and validation, formal specification tools, and model checking with finite-state machines, temporal logic, and model checking tools.

Prerequisite(s): COMP 1805, SYSC 3120, and SYSC 4001.

Lectures three hours a week.

SYSC 4120 [0.5 credit]**Software Architecture and Design**

Introduction and importance of software architectures and software system design in software engineering. Current techniques, modeling notations, methods, processes and tools used in software architecture and system design. Software architectures, architectural patterns, design patterns, software qualities, software reuse.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3004, SYSC 3020 and SYSC 4800 (no longer offered).

Prerequisite(s): SYSC 3120.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4201 [0.5 credit]**Ethics, Research Methods and Standards for Biomedical Engineering**

Ethical theories, ethical decision-making, biomedical research ethics: informed consent, confidentiality, privacy, research ethics boards; research methods: hypothesis formulation, data collection, sampling bias, experimental design, statistical literacy; regulations for design, manufacture, certification of medical devices; impact of technology and research (social, political, financial).

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3605 or SYSC 3203.

Lectures three hours a week, problem analysis one and a half hours per week.

SYSC 4202 [0.5 credit]**Clinical Engineering**

Overview of the Canadian health care system; brief examples of other countries; clinical engineering and the management of technologies in industrialized and in developing countries; safety, reliability, quality assurance; introduction to biomedical sensor technologies; applications of telemedicine; impact of technology on health care.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Biomedical and Electrical or Biomedical and Mechanical Engineering.

Also offered at the graduate level, with different requirements, as BIOM 5406, for which additional credit is precluded.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 4203 [0.5 credit]**Bioinstrumentation and Signals**

Bioinstrumentation and biological signals; instrumentation systems, electrical safety, and biocompatibility; bioelectric signals; biopotential electrodes: material properties, selection; data acquisition; signal processing; biomedical imaging technologies; bioamplifier systems performance and characteristics; major physiological systems and associated measurements.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3610 and (ELEC 3605 or SYSC 3203) and fourth-year status in Biomedical and Electrical Engineering or fourth-year status in Biomedical and Mechanical Engineering.

Lectures three hours a week, laboratory/problem analysis three hours a week.

SYSC 4205 [0.5 credit]**Image Processing for Medical Applications**

Two-dimensional signals, filters, and Fourier transforms. Image acquisition, sampling, quantization and representation. Image perception. Digital and film cameras. Medical imaging technologies. Image processing operations: histogram, convolution, morphological, segmentation, registration. Image compression and formats.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005 and fourth-year status in Engineering.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4310 [0.5 credit]**Computer Systems Architecture**

Evolution of computer systems architecture to improve performance. Memory hierarchy, hardware accelerators. Instruction level parallelism, pipelining, vector processing, superscalar, out-of-order execution, speculative execution. Thread level parallelism, multi-core, many-core, heterogeneous systems. Processor-level interconnect bus, non-uniform memory access. Application-oriented architectures. Virtualization.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4507.

Prerequisite(s): SYSC 3320, and enrolment in Computer Systems Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4320 [0.5 credit]**Case Studies in Computer Systems**

Examples of several modern computer systems are presented in a computer systems context: system objectives, software and hardware components, interactions. The case studies present computer systems trends emerging in practice.

Prerequisite(s): SYSC 4310, and enrolment in Computer Systems Engineering.

Lectures three hours a week, problem analysis one hour a week.

SYSC 4405 [0.5 credit]**Digital Signal Processing**

Discrete time signal and system representation: time domain, z-transform, frequency domain. Sampling theorem. Digital filters: design, response, implementation, computer-aided design. Spectral analysis: the discrete Fourier transform and the FFT. Applications of digital signal processing.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3500 or SYSC 3600 or SYSC 3610.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4415 [0.5 credit]**Introduction to Machine Learning**

Introduction to supervised and unsupervised machine learning (ML), including deeper knowledge of several algorithms of each type. Evaluation and quantification of predictive performance of ML systems. Use of one or more ML development environments.

Precludes additional credit for COMP 3105, COMP 4105 (no longer offered).

Prerequisite(s): (ECOR 2050 or STAT 3502 or STAT 2605 or SYSC 2510), SYSC 2006 (with a minimum grade of C-), and third-year status in Engineering.

Lectures three hours a week, problem analysis one hour a week.

SYSC 4502 [0.5 credit]**Communications Software**

Communications software architectures, protocols and operating systems. Application layer protocols, APIs and socket programming. P2P algorithms, network virtualization, SDN. Reliable data transfer algorithms, FSM, MSC. Network security. Multimedia applications, RTSP, CDN, DASH, RTP, RTCP. Packet scheduling algorithms, DiffServ, IntServ, RSVP. Traffic classification, cross-layer optimization.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 2004 and SYSC 4602.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 4504 [0.5 credit]**Fundamentals of Web Development**

WWW architecture, web servers and browsers, core protocols. Web pages, their structure, interpretation and internal representation. Client-side and server-side programming. Data representation. Interfacing with databases and other server-side services. Cookies, state management, and privacy issues. Security. Web services.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2406.

Prerequisite(s): SYSC 2004. Additional recommended background: SYSC 4602 or SYSC 3303.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4505 [0.5 credit]**Automatic Control Systems I**

Review of Laplace transform techniques. Effects of feedback: frequency response, pole-zero positions. Compensation: root locus, Bode plots. State variables: formulation, solution of linear systems, examples of simple second-order non-linear systems. Discrete time systems: z-transforms. Signal reconstruction.

Includes: Experiential Learning Activity

Precludes additional credit for MAAE 3500, MAAE 4500 (no longer offered).

Prerequisite(s): MATH 2004 and (SYSC 3500 or SYSC 3600 or SYSC 3610).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4507 [0.5 credit]**Computer Systems Architecture**

Evolution of computer systems architecture, influences of changing technology, techniques to improve performance, memory hierarchy, hardware accelerators. Instruction level parallelism, pipelining, vector processing, superscalar, out of order execution, speculative execution. Thread level parallelism, multi-core, many-core, heterogeneous systems. Evolution of architectures for specific application domains.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4310.

Prerequisite(s): ELEC 2607 and (SYSC 2001 or SYSC 3006).

Lectures three hours a week, laboratory/problem analysis one hour a week.

SYSC 4600 [0.5 credit]**Digital Communications**

Review of probability, random variables, signal representation. Baseband data transmission: Nyquist criterion, equalization, optimal receiver, error probability. Digital modulation, performance. Synchronization. Introduction to information theory. Error detection and correction. Spread spectrum. Applications to current digital wired and wireless communications systems.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 3503 and SYSC 4604.

Prerequisite(s): SYSC 3501 and STAT 3502.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4602 [0.5 credit]**Computer Communications**

Layered network architectures, TCP/IP suite, circuit switching, packet switching. Physical media, data transmission, multiplexing. Data link controls, MAC protocols, random access, polling, IEEE 802 standards. Bridges, switched Ethernet, VLANs. Routing algorithms, Internet routing protocols, datagram networks, virtual circuit networks. Transport protocols.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3203.

Prerequisite(s): ECOR 2050 or SYSC 2510 or STAT 2605 or STAT 3502 (may be taken concurrently), and third-year status in Biomedical and Electrical, Electrical, Communications, Computer Systems, Software, or Sustainable and Renewable Energy Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4604 [0.5 credit]**Digital Communication Theory**

Introduction to information theory, source coding and data compression, Error control coding, Trellis coded modulation, advanced topics of current interest: spread spectrum; digital wireless communications.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4600.

Prerequisite(s): SYSC 3503.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4607 [0.5 credit]**Wireless Communications**

Wireless radio channel characterization, diversity, equalization; cellular architecture, multiple access principles, spread spectrum systems, radio resource management; examples from modern wireless systems, networks, and standards, including cellular networks, WLANs, ad hoc networks, and satellite systems.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3501 or SYSC 3503.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4700 [0.5 credit]**Telecommunications Engineering**

Telecommunications as a national and international infrastructure. Systems view of network architecture: transmission, access, switching, multiplexing, signalling, and teletraffic. Network planning, management, security and control. Role of government, regulation and competition. Current telecommunications network evolution.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Electrical, Computer Systems or Communications Engineering, and (SYSC 3501 or SYSC 3503).

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4701 [0.5 credit]**Communications Systems Lab**

Project-oriented level experience in the design of communication systems to meet user requirements. Lectures on queuing theory and teletraffic analysis; system specification and design: requirements analysis, solution alternatives, evaluation of alternative technologies, design, costing, implementation, test.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Communications Engineering or permission of the department.

Lectures two hours a week, laboratory four hours a week.

SYSC 4805 [0.5 credit]**Computer Systems Design Lab**

Project-oriented experience in the design of embedded computer systems. Lectures will discuss practical aspects related to the design and development of embedded systems, starting from sensor data acquisition and processing to decision systems, testing and embedded-system based project management, with practical application examples.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3320 or SYSC 3601, and enrolment in Computer Systems Engineering.

Lectures two hours a week, laboratory four hours a week.

SYSC 4806 [0.5 credit]**Software Engineering Lab**

Applying the full spectrum of engineering and programming knowledge acquired in the program through team projects in the laboratory. Practice in doing presentations and reviews. Lectures will discuss software engineering issues as they relate to the projects, from a mature point of view.

Includes: Experiential Learning Activity

Prerequisite(s): COMP 3005, SYSC 3110, and enrolment in Software Engineering, or permission of the department.

Lectures two hours a week, laboratory four hours a week.

SYSC 4810 [0.5 credit]**Introduction to Network and Software Security**

Fundamental concepts, terminologies, and theories of computer security; principles underlying common security controls; various types of threats and attacks on networks and software systems, how they work, and controls for dealing with them; security risk assessment and management; legal and ethical aspects of computer security.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4108.

Prerequisite(s): fourth-year status in Communications, Computer Systems or Software Engineering.

Lectures three hours a week, problem analysis one and a half hours a week.

SYSC 4906 [0.5 credit]**Special Topics**

At the discretion of the Department, a course dealing with selected advanced topics of interest to students in Biomedical and Electrical, Communications, Computer Systems, Electrical, Software Engineering, and Engineering Physics may be offered.

Prerequisite(s): permission of the Department.

SYSC 4907 [1.0 credit]**Engineering Project**

Student teams develop professional-level experience by applying previously acquired knowledge to a major design project. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year status in Engineering. Certain projects may have additional prerequisites.

SYSC 4917 [1.0 credit]**Biomedical Engineering Project**

Student teams develop professional-level experience by applying previously acquired knowledge to a major design project in biomedical engineering. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year status in Biomedical and Electrical Engineering. Certain projects may have additional prerequisites.

SYSC 4927 [1.0 credit]**Software Engineering Project**

Student teams gain professional-level experience by applying and extending previously acquired knowledge in a major design project in software engineering. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Software Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites.

Lecture one hour a week, laboratory seven hours a week.

SYSC 4937 [1.0 credit]**Communications Engineering Project**

Student teams gain professional-level experience by applying and extending previously acquired knowledge in a major design project in communications engineering. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Communications Engineering and ECOR 4995 (may be taken concurrently). Certain projects may have additional prerequisites.

Lecture one hour a week, laboratory seven hours a week.

English

This section presents the requirements for programs in:

- English B.A. Honours
- English with Concentration in Creative Writing B.A. Honours

- English with Concentration in Drama Studies B.A. Honours
- English B.A. Combined Honours
- English B.A.
- Specialization in Global Literatures B. G. In. S. Honours
- Stream in Global Literatures B.G.In.S.
- Minor in Drama Studies
- Minor in English Language and Literature
- Minor in Professional Writing
- Certificate in Professional Writing
- Post-Baccalaureate Diploma in Professional Writing

Program Requirements**English****B.A. Honours (20.0 credits)****A. Credits Included in the Major CGPA (10.0 credits)**

1. 1.0 credit from:		1.0
FYSM 1004 [1.0]	Reading Literatures and Cultures	
or		
ENGL 1010 [0.5]	Writing Essays about Literature	
and one from:		
ENGL 1009 [0.5]	Literature in Global Context	
ENGL 1100 [0.5]	Literature, Law, and Criminality	
ENGL 1200 [0.5]	Literature, Science, and Technology	
ENGL 1300 [0.5]	Literature, Psychology, and the Mind	
ENGL 1400 [0.5]	Literature, Art, and Culture	
ENGL 1600 [0.5]	Literature and Magic	
ENGL 1700 [0.5]	Climate Change and the Humanities	
2. 2.0 credits in:		2.0
ENGL 2802 [1.0]	Indigenous and Canadian Literatures	
ENGL 3106 [1.0]	Theories and Critical Practices	
3. 2.0 credits in:		2.0
ENGL 2301 [0.5]	Literatures and Cultures 500-1500	
ENGL 2302 [0.5]	Literatures and Cultures 1500-1700	
ENGL 3500 [0.5]	Literatures and Cultures 1700-1900	
ENGL 3501 [0.5]	Literatures and Cultures 1900-Now	
4. 1.0 credit in:		1.0
ENGL 2920 [0.5]	Topics in Decolonization and Migration I	
ENGL 3930 [0.5]	Topics in Decolonization and Migration II	
5. 0.5 credit from:		0.5
ENGL 3910 [0.5]	From Degree to Career	
ENGL 3911 [0.5]	Cultural Studies	
6. 0.5 credit in:		0.5
ENGL 4950 [0.5]	Topics in Postcolonial and Diaspora Lit. and Theory	
7. 0.5 credit in ENGL at the 3000-level		0.5
8. 1.5 credits in ENGL at the 4000-level		1.5
9. 1.0 credit in ENGL		1.0

B. Credits Not Included in the Major CGPA (10.0 credits)

10. 8.0 credits in electives not in ENGL	8.0
11. 2.0 credits in free electives	2.0
Total Credits	20.0

English with Concentration in Creative Writing B.A. Honours (20.0 credits)

A. Credits Included in the Major CGPA (11.0 credits)

1. 1.0 credit from:	1.0
FYSM 1004 [1.0] Reading Literatures and Cultures	
or	
ENGL 1010 [0.5] Writing Essays about Literature	
and one from:	
ENGL 1009 [0.5] Literature in Global Context	
ENGL 1100 [0.5] Literature, Law, and Criminality	
ENGL 1200 [0.5] Literature, Science, and Technology	
ENGL 1300 [0.5] Literature, Psychology, and the Mind	
ENGL 1400 [0.5] Literature, Art, and Culture

ALDS 4414/ ENGL 4414 [0.5]	Professional Writing I	
ALDS 4415/ ENGL 4415 [0.5]	Professional Writing II	
3. 1.0 credit from:		1.0
ALDS 3401/ ENGL 3908 [0.5]	Research and Theory in Academic Writing	
ALDS 4403/ ENGL 4909 [0.5]	Writing and Knowledge-Making in the Disciplines	
ALDS 4405/ ENGL 4515 [0.5]	Teaching Writing in School and the Workplace	
Total Credits		5.0

B.A. Regulations

The regulations presented below apply to all Bachelor of Arts programs. In addition to the requirements presented here, students must satisfy the University regulations common to all undergraduate students including the process of Academic Continuation Evaluation (consult the *Academic Regulations of the University* section of this Calendar).

First-Year Seminars

B.A. degree students are strongly encouraged to include a First-Year Seminar (FYSM) during their first 4.0 credits of registration. Students are limited to 1.0 credit in FYSM and can only register in a FYSM while they have first-year standing in their B.A. program. Students who have completed the Enriched Support Program (ESP), the Indigenous Enriched Support Program (IESP), or who are required to take a minimum of one English as a Second Language (ESLA) credit are not permitted to register in a FYSM.

Breadth Requirement

Among the credits presented at graduation, students in both the B.A. and the B.A. Honours degrees and B.Co.M.S. are required to include 3.0 breadth credits, which must include 1.0 credit in three of the four breadth areas identified below. Credits that fulfil requirements in the Major, Minor, Concentration, Specialization, or Stream may also be used to fulfil the Breadth Requirement.

Students admitted with a completed university degree are exempt from breadth requirements.

Students in the following interdisciplinary programs are exempt from the B.A. breadth requirement.

- African Studies
- Criminology and Criminal Justice
- Environmental Studies
- Human Rights
- Human Rights and Social Justice

Breadth Area 1: Culture and Communication

American Sign Language, Art History, Art and Culture, Communication and Media Studies, Comparative Literary Studies, Digital Humanities, English, Film Studies, French, Journalism, Media Production and Design, Music, Performance in Public Sphere, and Languages (Arabic, English as a Second Language, German, Greek, Hebrew,

Indigenous Languages, Italian, Japanese, Korean, Latin, Mandarin, Portuguese, Russian, Spanish)

Subject codes: ARAB, ARTH, ASLA, CHIN, CLST, COMS, DIGH, ENGL, ESLA, FILM, FINS, FREN, GERM, GREK, HEBR, ITAL, JAPA, JOUR, KORE, LANG, LATN, MPAD, MUSI, PIPS, PORT, RUSS, SPAN

Breadth Area 2: Humanities

African Studies, Applied Linguistics and Discourse Studies, Archaeology, Canadian Studies, Child Studies, Classical Civilization, Critical Race Studies, Directed Interdisciplinary Studies, Disability Studies, Environmental and Climate Humanities, European and Russian Studies, History, Human Rights, Humanities, Indigenous Studies, Latin American and Caribbean Studies, Linguistics, Medieval and Early Modern Studies, Philosophy, Religion, Sexuality Studies, South Asian Studies, and Women's and Gender Studies.

Subject codes: AFRI, ALDS, ARCY, CDNS, CHST, CLCV, CRST, DBST, DIST, EACH, EURR, HIST, HUMR, HUMS, INDG, LACS, LING, MEMS, PHIL, RELI, SAST, SXST, WGST

Breadth Area 3: Science, Engineering, and Design

Declared and Undeclared Students

Degree students are considered "Undeclared" if they have been admitted to a degree, but have not yet selected and been accepted into a program within that degree. The status "Undeclared" is available only in the B.A. and B.Sc. degrees. Undeclared students must apply to enter a program upon or before completing 3.5 credits.

Change of Program Within the B.A. Degree

To transfer to a program within the B.A. degree, applicants must normally be *Eligible to Continue* (EC) in the new program, by meeting the CGPA thresholds described in Section 3.1.9 of the *Academic Regulations of the University*.

Applications to declare or change programs within the B.A. degree online must be made online through Carleton Central by completing a Change of Program Elements (COPE) application form within the published deadlines. Acceptance into a program, or into a program element or option, is subject to any enrollment limitations, as well as specific program, program element, or option requirements as published in the relevant Calendar entry.

Minors, Concentrations, and Specializations

Students may add a Minor, Concentration, or Specialization by completing a Change of Program Elements (COPE) application form online through Carleton Central. Acceptance into a Minor, Concentration, or Specialization normally requires that the student be *Eligible to Continue* (EC) and is subject to any specific requirements of the intended Minor, Concentration, or Specialization as published in the relevant Calendar entry and in Section 3.1.9 of the *Academic Regulations of the University*.

Mention : français

Students registered in certain B.A. programs may earn the diploma notation *Mention : français* by completing part of their program requirements in French, and by demonstrating knowledge of the history and culture of French Canada. The general requirements are listed below. For more specific details, consult the departmental program entries.

Students in a B.A. Honours program must present:

1. 1.0 credit in French language;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Honours discipline taken in French; and
4. 1.0 credit at the 4000-level in the Honours discipline taken in French.

Students in a B.A. program must present:

1. 1.0 credit in advanced French;
2. 1.0 credit devoted to the history and culture of French Canada;
3. 1.0 credit at the 2000- or 3000-level in the Major discipline taken in French.

Students in Combined Honours programs must fulfil the *Mention : français* requirement in both disciplines.

Courses taught in French (Items 3 and 4, above) may be taken at Carleton, at the University of Ottawa on the Exchange Agreement, or at a francophone university on a Letter of Permission. Students planning to take courses on exchange or on a Letter of Permission should take careful note of the residence requirement for a minimum number of Carleton courses in their programs. Consult

the *Academic Regulations of the University* section of this Calendar for information regarding study on exchange or Letter of Permission.

Regulations

Post-Baccalaureate Diploma

In addition to the requirements presented here, students must satisfy the University regulations (see the Academic Regulations of the University section of this Calendar).

Definition

A post-baccalaureate diploma is defined as a stand-alone undergraduate credential intended to:

- qualify a candidate for consideration for entry into a master's program, or
- bring a candidate who already possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline, or
- provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas, or
- provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Program Requirements

- A post-baccalaureate diploma is normally constituted of a minimum of 3.0 credits to a maximum of 5.0 credits of advanced undergraduate courses.
- A minimum of 3.0 residency credits counting toward the post-baccalaureate diploma.

English as a Second Language Requirement

In addition to the program requirements, completion of English as a Second Language (ESLA) courses may be required from the following sequence: ESLA 1300, ESLA 1500, ESLA 1900, ESLA 1905. No credits from this sequence will be counted toward the post-baccalaureate diploma.

Continuation

All post-baccalaureate diploma students are expected to complete their diploma requirements within two calendar years after the date of initial registration. After this period student may be withdrawn.

Graduation

- A candidate for a post-baccalaureate diploma must have an overall CGPA of at least 6.5 to graduate.
- A candidate for a post-baccalaureate diploma must obtain a grade of C- or higher in each course taken in fulfillment of the program requirements.
- Students should consult with the Department, School or Institute when planning their diploma and selecting courses.

Co-operative Education

For more information about how to apply for the Co-op program and how the Co-op program works please visit the Co-op website.

All students participating in the Co-op program are governed by the Undergraduate Co-operative Education Policy.

Undergraduate Co-operative Education Policy

Admission Requirements

Students can apply to Co-op in one of two ways: directly from high school, or after beginning a degree program at Carleton.

If a student applies to a degree program with a Co-op option from high school, their university grades will be reviewed two terms to one year prior to their first work term to ensure they meet the academic requirements after their first or second year of study. The time at which the evaluation takes place depends on the program of study. Students will automatically receive an admission decision via their Carleton email account.

Students who did not request Co-op at the time they applied to Carleton can request Co-op after they begin their university studies. To view application instructions and deadlines, please visit carleton.ca/co-op.

To be admitted to Co-op, a student must successfully complete 5.0 or more credits that count towards their degree, meet the minimum CGPA requirement(s) for the student's Co-op option, and fulfil any specified course prerequisites. To see the unique admission and continuation requirements for each Co-op option, please refer to the specific degree programs listed in the Undergraduate Calendar.

Participation Requirements

COOP 1000

Once a student has been given admission or continuation confirmation to the co-op option s/he must complete and pass COOP 1000 (a mandatory online 0.0 credit course). Students will have access to this course a minimum of two terms prior to their first work term and will be notified when to register.

Communication with the Co-op Office

Students must maintain contact with the co-op office during their job search and while on a work term. All email communication will be conducted via the students' Carleton email account.

Employment

Although every effort is made to ensure a sufficient number of job postings for all students enrolled in the co-op option of their degree program, no guarantee of employment can be made. Carleton's co-op program operates a competitive job search process and is dependent upon current market conditions. Academic performance, skills, motivation, maturity, attitude and potential will determine whether a student is offered a job. It is the student's responsibility to actively conduct a job search in addition to participation in the job search process operated by the co-op office. Once a student accepts a co-op job offer (verbally or written), his/her job search will end and access to co-op jobs will be removed for that term. Students that do not successfully obtain a co-op work term are expected to continue with their academic studies. The

summer term is the exception to this rule. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Federal Government of Canada.

Registering in Co-op Courses

Students will be registered in a Co-op Work Term course while at work. The number of Co-op Work Term courses that a student is registered in is dependent upon the number of four-month work terms that a student accepts.

While on a co-op work term students may take a maximum of 0.5 credit throughout each four-month co-op work term. Courses must be scheduled outside of regular working hours.

Students must be registered as full-time before they begin their co-op job search (2.0 credits). All co-op work terms must be completed before the beginning of the final academic term. Students may not finish their degree on a co-op work term.

Work Term Assessment and Evaluation

To obtain a Satisfactory grade for the co-op work term students must have:

1. A satisfactory work term evaluation by the co-op employer;
2. A satisfactory grade on the work term report.

Students must submit a work term report at the completion of each four-month work term. Reports are due on the 16th of April, August, and December and students are notified of due dates through their Carleton email account.

Workplace performance will be assessed by the workplace supervisor. Should a student receive an unsatisfactory rating from their co-op employer, an investigation by the co-op program manager will be undertaken. An unsatisfactory employer evaluation does not preclude a student from achieving an overall satisfactory rating for the work term.

Graduation with the Co-op Designation

In order to graduate with the co-op designation, students must satisfy all requirements for their degree program in addition to the requirements according to each co-op program (i.e. successful completion of three or four work terms).

Note: Participation in the co-op option will add up to one additional year for a student to complete their degree program.

Voluntary Withdrawal from the Co-op Option

Students may withdraw from the co-op option of their degree program during a study term ONLY. Students at work may not withdraw from the work term or the co-op option until s/he has completed the requirements of the work term.

Students are eligible to continue in their regular academic program provided that they meet the academic standards required for continuation.

Involuntary or Required Withdrawal from the Co-op Option

Students may be required to withdraw from the co-op option of their degree program for one or any of the following reasons:

1. Failure to achieve a grade of SAT in COOP 1000
2. Failure to pay all co-op related fees
3. Failure to actively participate in the job search process
4. Failure to attend all interviews for positions to which the student has applied
5. Declining more than one job offer during the job search process
6. Continuing a job search after accepting a co-op position
7. Dismissal from a work term by the co-op employer
8. Leaving a work term without approval by the Co-op manager
9. Receipt of an unsatisfactory work term evaluation
10. Submission of an unsatisfactory work term report

Standing and Appeals

The Co-op and Career Services office administers the regulations and procedures that are applicable to all co-op program options. All instances of a student's failure during a work term or other issues directly related to their participation in the co-op option will be reported to the academic department.

Any decision made by the Co-op and Career Services office can be appealed via the normal appeal process within the University.

International Students

All International Students are required to possess a Co-op Work Permit issued by Immigration, Refugees and Citizenship Canada before they can begin working. It is illegal to work in Canada without the proper authorization. Students will be provided with a letter of support to accompany their application. Students must submit their application for their permit before being permitted to view and apply for jobs on the Co-op Services database. Confirmation of a position will not be approved until a student can confirm they have received their permit. Students are advised to discuss the application process and requirements with the International Student Services Office.

B.A. Honours English: Co-op Admission and Continuation Requirements

- Maintain full-time status in each study term (2.0 credits);
- Be eligible to work in Canada (for off-campus work)
- Have successfully completed COOP 1000 [0.0]

In addition to the following:

1. Registered in the B.A. Honours English program;
2. Obtained and maintained an overall CGPA of 9.0 or higher at the end of second year of academic study

3. Obtained and maintained an overall CGPA of 8.0 or higher and a major CGPA of 9.0 or higher by the end of third year of academic study

Students in B.A. Honours English must successfully complete three (3) work terms to obtain the Co-op designation.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admissions Information

Admission requirements are based on the Ontario High School System. Prospective students can view the admission requirements through the Admissions website at admissions.carleton.ca. The overall average required for admission is determined each year on a program-by-program basis. Holding the minimum admission requirements only establishes eligibility for consideration; higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. All programs have limited enrolment and admission is not guaranteed. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Consult admissions.carleton.ca for further details.

Note: If a course is listed as *recommended*, it is not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Admission Requirements

Degrees

- Bachelor of Arts (B.A.) (Honours)
- Bachelor of Arts (B.A.)

First Year

For B.A. and B.A. (Honours)

The Ontario Secondary School Diploma (OSSD) or equivalent including a minimum of six 4U or M courses. The six 4U or M courses must include a 4U course in English (or *anglais*). Applicants submitting an English language test to satisfy the requirements of the English Language Proficiency section of this Calendar may use that test to also satisfy the 4U English prerequisite requirement.

Biology

For the major in Biology in the B.A. program, in addition to the 4U English, a 4U course in Chemistry is required. Advanced Functions, and Calculus and Vectors are recommended.

Advanced Standing

Applications for admission beyond first year will be assessed on their merits. Applicants must normally be Eligible to Continue in their year level, in addition to meeting the CGPA thresholds described in Section 3.1.9 of the Academic Regulations of the University. Advanced standing will be granted only for those subjects assessed as being appropriate for the program and the stream selected.

Co-op Option

Direct Admission to the 1st Year of the Co-op Option

Co-op is available for the following Majors in the B.A. (Honours) degree: Anthropology, English, Environmental Studies, European and Russian Studies, French, Geography, Geomatics, History, Law, Political Science, Psychology, Sociology.

Applicants must:

1. meet the required overall admission cut-off average and prerequisite course average. These averages may be higher than the stated minimum requirements;
2. be registered as a full-time student in the Bachelor of Arts Honours with one of the majors listed above;
3. be eligible to work in Canada (for off-campus work placements).

Meeting the above requirements only establishes eligibility for admission to the program. The prevailing job market may limit enrolment in the co-op option. Students should also note that hiring priority is given to Canadian citizens for co-op positions in the Public Service Commission.

Note: continuation requirements for students previously admitted to the co-op option and admission requirements for the co-op option after beginning the program are

described in the Co-operative Education Regulations section of this Calendar.

Advanced Standing

B.A. and B.A. (Honours) Program

Applications for admission to the second or subsequent years will be assessed on their merits. Advanced standing will be granted only for those courses that are determined to be appropriate.

Admissions Information

Admission Requirements are for the 2022-23 year only, and are based on the Ontario High School System. Holding the minimum admission requirements only establishes eligibility for consideration. The cut-off averages for admission may be considerably higher than the minimum. See also the **General Admission and Procedures** section of this Calendar. An overall average of at least 70% is normally required to be considered for admission. Some programs may also require specific course prerequisites and prerequisite averages and/or supplementary admission portfolios. Higher averages are required for admission to programs for which the demand for places by qualified applicants exceeds the number of places available. The overall average required for admission is determined each year on a program by program basis. Consult admissions.carleton.ca for further details.

Note: Courses listed as *recommended* are not mandatory for admission. Students who do not follow the recommendations will not be disadvantaged in the admission process.

Diploma

- **Post-Baccalaureate Diploma in Professional Writing**

To be eligible for admission to the Post-Baccalaureate Diploma in Professional Writing students must normally present an honours undergraduate degree with a GPA of 8.0 or higher.

English (ENGL) Courses

ENGL 1002 [0.5 credit] Writing and Language I

The first half of an introduction to the principles, styles, and structures of effective writing, including essay writing. Course offered only in Nunavut as part of Certificate in Nunavut Public Service Studies Program.

Includes: Experiential Learning Activity
Precludes additional credit for ENGL 1005 (no longer offered).

Lectures and workshop three hours a week.

ENGL 1003 [0.5 credit] Writing and Language II

The second half of an introduction to the principles, styles, and structures of effective writing, including essay writing. Course offered only in Nunavut as part of Certificate in Nunavut Public Service Studies Program.

Includes: Experiential Learning Activity
Precludes additional credit for ENGL 1005 (no longer offered).

Prerequisite(s): ENGL 1002.

Lectures and workshop three hours a week.

ENGL 1008 [0.5 credit] English Grammar: Fundamentals

A practical and intensive overview of English grammar designed for students who want to improve their understanding of grammar for their own writing and reading. This is not an ESL course.

Lectures three hours a week.

ENGL 1009 [0.5 credit] Literature in Global Context

Introduction to the study of literature from a global perspective. Students will be exposed to writers from various locations and to methods for studying literature across national boundaries.

Lecture three hours a week.

ENGL 1010 [0.5 credit] Writing Essays about Literature

An intensive writing course focusing on the formulation and construction of a literary essay.

Precludes additional credit for ENGL 1020.

Lectures three hours a week.

ENGL 1020 [0.5 credit] Effective Writing

The rhetorical principles, skills, and structures necessary for the kind of writing done at the university level. Clear and effective composition as a mode of research, discovery, analysis, and persuasion. Students pursuing the English major or minor should take ENGL 1010 instead of ENGL 1020.

Precludes additional credit for ENGL 1010.

Lectures three hours a week.

ENGL 1100 [0.5 credit] Literature, Law, and Criminality

An introductory course whose readings focus on the intersections between literature, law, and criminality. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1200, ENGL 1300, ENGL 1400, ENGL 1600, ENGL 1700, FYSM 1004.

Lecture three hours a week.

ENGL 1200 [0.5 credit]**Literature, Science, and Technology**

An introductory course whose readings focus on the intersections between literature, science, and technology. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1300, ENGL 1400, ENGL 1600, ENGL 1700, FYSM 1004.

Lectures three hours a week.

ENGL 1300 [0.5 credit]**Literature, Psychology, and the Mind**

An introductory course whose readings focus on the intersections between literature, psychology, and the mind. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1400, ENGL 1600, ENGL 1700, FYSM 1004.

Lectures three hours a week.

ENGL 1400 [0.5 credit]**Literature, Art, and Culture**

An introductory course whose readings focus on the intersections between literature, art, and culture. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1300, ENGL 1600, ENGL 1700, FYSM 1004.

Lectures three hours a week.

ENGL 1500 [0.5 credit]**Introduction to Creative Writing**

An introduction to the practice of creative writing, focusing on poetry, the short story, creative non-fiction, and drama. Emphasis is also placed on contextualizing creative writing as an academic discipline, a mode of self-expression, and a professional industry.

Includes: Experiential Learning Activity

Lectures and workshops three hours a week.

ENGL 1600 [0.5 credit]**Literature and Magic**

An introductory course whose readings focus on the intersections between literature and magic. Topics will vary. Consult the English Department website for the current topic.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1300, ENGL 1400, ENGL 1700, FYSM 1004.

Lecture three hours a week.

ENGL 1609 [0.5 credit]**Introduction to Drama Studies**

An introduction to drama studies, combining attention to theatre history, conventions, and devices, with attention to theatrical practice, and interpretation of selected dramatic texts. Students will develop a vocabulary for speaking and writing with confidence about theatrical productions, theatre practice, and dramatic texts.

Lecture three hours a week.

ENGL 1700 [0.5 credit]**Climate Change and the Humanities**

An introduction to literature and culture in the context of the environmental humanities and climate change.

Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1300, ENGL 1400, ENGL 1600, FYSM 1004.
