

# Natural Science (NSCI)

---

## **Natural Science (NSCI) Courses**

### **NSCI 1000 [0.5 credit]**

#### **Seminar in Science**

Cross-disciplinary survey of current issues in science, providing new science students with an orientation to the study of science at the university level. Structured around seminars, oral and written presentations.

Prerequisite(s): Restricted to students in the first year of B.Sc. programs or B.A. Biology programs.

Lectures and tutorials three hours a week.

### **NSCI 2000 [0.5 credit]**

#### **Seminar in Science II**

Cross-disciplinary survey of current issues in science, with a focus on applying interdisciplinary approaches to solving scientific problems. Structured around seminars, oral and written presentations. Focus on EDI, community outreach, and experiential learning.

Includes: Experiential Learning Activity

Prerequisite(s): Second year standing in B.Sc. programs or B.A. Biology programs or permission of the Institute.

Lecture, Seminar, or workshops three hours a week

### **NSCI 4901 [1.0 credit]**

#### **Science Journalism Independent Project**

Students will work with a health or life science research group and deliver an in-depth narrative on the relevant scientific research, lab dynamics and results.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Journalism and at least 3.5 credits completed in the concentration in Health Science, or permission of the School of Journalism and Communication.
