Prerequisite(s): completion of first year of any B.Eng. program.

Lectures three hours a week and a laboratory three hours a week.

ERTH 2407 [0.5 credit] Structural Geology

Structures and deformation of earth materials. Topics include stress, strain, folding and faulting. Includes: Experiential Learning Activity Precludes additional credit for ERTH 3806 (no longer offered).

Prerequisite(s): ERTH 1002 and ERTH 2102. Lecture three hours a week and a laboratory 3 hours a week.

ERTH 2415 [0.5 credit] Natural Disasters

Physical characteristics and causes of natural disasters of geological origin such as volcanic eruptions, earthquakes, tsunami, landslides, hurricanes and meteor impacts. Discussion on historical perspective, societal impact and mitigation strategies. Emphasis on Canadian case histories.

Precludes additional credit for ERTH 1003 (no longer offered).

Prerequisite(s): second-year standing in any degree program. With the exception of the Minor in Earth Sciences, available as a free elective only in any B.Sc. program, including Earth Sciences.

Lectures three hours a week.

ERTH 2419 [0.5 credit] On the Origin of Planets

Origin and evolution of all planetary objects in the solar system. Topics include the geology of comets, asteroids, the terrestrial planets and rocky moons, Earth's formation and early evolution, ocean worlds, the search for exoplanets and detection of extraterrestrial life. Lectures three hours a week.

ERTH 2420 [0.5 credit]

UNESCO World Geoparks and Geoheritage

Development of the geologic sciences and enhanced knowledge of the Earth and its history through the lens of inspiring and extraordinary global geological sites that have contributed significantly to science and culture. Lectures three hours a week.

ERTH 2421 [0.5 credit] A Geologic Tour of the National Parks of North America

An introduction to the geology of North America's National parks, the ultimate awe-inspiring educational experience, and how these parks collectively tell the story of the processes that have shaped the continent. Lectures three hours a week.

ERTH 2422 [0.5 credit]

Drivers of Climate Change through Geological Time

A survey of Earth's 4.5-billion-year climate history, focusing on the use of geologic data to understand the drivers of climate change and their impact on the development of the lithosphere, hydrosphere, atmosphere, and biosphere. Course includes experiential learning assignments.

Includes: Experiential Learning Activity
Precludes additional credit for ERTH 2402.
Lecture three hours per week; also includes additional
online synchronous/asynchronous experiential learning
practicum.

ERTH 2802 [0.5 credit] Field Geology I

Field analysis using geological, geophysical and computational methods leading to the interpretation of the origins of geological features and processes.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2314 and ERTH 2407 and

permission of the department.

Field work for two weeks off campus. A supplementary fee will apply.

ERTH 3004 [0.5 credit] Igneous Petrology

Origins and evolution of igneous rocks through partial melting, crystallization, degassing, and assimilation of host rocks. Phase diagrams and classification schemes will be used to provide systematic tools for the description and interpretation of igneous rocks.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 2104 (no longer

offered).

Prerequisite(s): ERTH 2102.

Lecture three hours per week, a laboratory three hours

per week.

ERTH 3111 [0.5 credit]

Vertebrate Evolution: Mammals, Reptiles, and Birds

Evolution of mammals, reptiles and birds. Emphasis on surveying amniote diversity, and the origin of key amniote transformations, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as BIOL 3111.

Prerequisite(s): ERTH 1002 or BIOL 2001.

Lectures two hours a week and a laboratory three hours a

week.

ERTH 3112 [0.5 credit]

Vertebrate Evolution: Fish and Amphibians

Evolution of fish and amphibians. Emphasis on surveying fish and amphibian diversity, and the origin of key transformations of these groups, as evidenced by the fossil record.

Includes: Experiential Learning Activity

Also listed as BIOL 3112.

Prerequisite(s): ERTH 1002 or BIOL 2001.

Lectures two hours a week and a laboratory three hours a

week.

ERTH 3113 [0.5 credit] Geology of Human Origins

The origin and evolution of our species from geological, biological and cultural perspectives. The course traces human ancestry from our primate roots through time and changing environments, and explores controversies, frauds, and misperceptions.

Prerequisite(s): any 1000 or 2000 level Earth Sciences or Biology course.

Lectures three hours per week.

ERTH 3114 [0.5 credit]

Evolution of Mammals, Reptiles and Birds

Evolution of mammals, reptiles and birds. Emphasis on surveying amniote diversity, and the origin of key amniote transformations, as evidences by the fossil record. Precludes additional credit for ERTH 3111 and BIOL 3111. Prerequisite(s): any 1000- or 2000-level Earth Sciences or Biology course.

Lectures two hours per week.

ERTH 3115 [0.5 credit] Evolution of Fish and Amphibians

Evolution of fish and amphibians. Emphasis on surveying fish and amphibian diversity and the origin of key transformations of these groups, as evidenced by the fossil record.

Precludes additional credit for ERTH 3112 and BIOL 3112.

Prerequisite(s): any 1000- or 2000-level Earth Sciences or Biology course.

Lectures two hours per week.

ERTH 3204 [0.5 credit] Mineral Deposits

Analysis and interpretation of the geological and geochemical processes responsible for mineral deposit genesis in a global context.

Includes: Experiential Learning Activity
Prerequisite(s): ERTH 2102 and ERTH 2106.

Lectures two hours and a laboratory three hours a week.

ERTH 3205 [0.5 credit] Physical Hydrogeology

Principles of deep- to shallow fluid flow within the Earth's crust, and introduction to the exploration, development and management of groundwater as a global resource.

Includes: Experiential Learning Activity
Prerequisite(s): ERTH 1002 or GEOG 2013.

Lecture three hours a week and a laboratory three hours a week.

ERTH 3207 [0.5 credit]

Metamorphic Petrology and Processes

Genesis of metamorphic rocks as determined from field, petrographic and geochemical data.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 3202 (no longer offered).

Prerequisite(s): ERTH 2102.

Lectures two hours a week, a laboratory three hours a week and a field excursion.

ERTH 3405 [0.5 credit] **Geophysical Methods**

An introduction to the tools of applied geophysics including seismology, electrical, magnetic, and gravitational surveying methods.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 2405 (no longer

offered).

Prerequisite(s): ERTH 2105.

Lecture two hours a week and a laboratory three hours a

week.

ERTH 3703 [0.5 credit]

Isotope geochemistry and geochronology

This course looks at stable and radiogenic isotope systematics applied to different Earth environments. Students will delve into geochronological techniques and their applications, and apply the principles of elemental and isotopic fractionation to investigate several geological processes.

Includes: Experiential Learning Activity

Precludes additional credit for ERTH 4803 (no longer

offered).

Prerequisite(s): ERTH 2106.

Lecture 1.5 hours per week, a laboratory three hours per week.

ERTH 3999 [0.0 credit] **Co-operative Work Term**

Includes: Experiential Learning Activity

ERTH 4003 [0.5 credit]

Directed Studies in Earth Sciences

One or more projects involving at least 15 days field and/ or laboratory research, not related to thesis research. Assessment based on written reports and an oral presentation. Expenses for long-distance travel are borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in any B.Sc. Hons. or

Combined Hons. program in Earth Sciences.

Schedule to be arranged.

ERTH 4004 [0.5 credit]

Special Topics in Earth Sciences

Field, laboratory or literature research, not related to thesis research. Assessment based on written reports and an oral presentation. Expenses for travel are borne by the student.

Prerequisite(s): fourth-year standing in any B.Sc. Hons. or Combined Hons. program in Earth Sciences. Major CGPA 8.5 or higher at time of registration for the course. Schedule to be arranged.

ERTH 4006 [0.5 credit]

Field Environmental Geobiology

Exploration of the relationship between micro- and macroecological and evolutionary processes and the Earth's physical and chemical environment. Paleobiology and evolutionary ecology in the context of paleoceanography, paleolimnology and/or paleoclimatology. Will include one or two weeks of field based instruction with costs borne by student.

Prerequisite(s): 2nd year standing in a Faculty of Science program and permission of the Department. Field work off campus.

ERTH 4007 [0.5 credit]

Evolutionary Developmental Paleobiology

This course explores the mechanistic basis of organismic evolution from genetic, morphogenetic and epigenetic perspectives, within a phylogenetic context of living and extinct vertebrates.

Includes: Experiential Learning Activity Precludes additional credit for BIOL 4007. Prerequisite(s): ERTH 2312 or BIOL 2001, and BIOL 2104.

Lectures or seminars three hours per week.

ERTH 4008 [0.5 credit]

Topics in Paleobiology and Evolution

This multidisciplinary seminar course investigates various topics in paleobiology, paleoecology and evolutionary theory.

Prerequisite(s): 3rd year standing in any Faculty of Science program.

Lectures and seminar discussion, three hours per week

ERTH 4107 [0.5 credit] Geotechnical Mechanics

Soil composition and soil classification. Soil properties, compaction, seepage and permeability. Concepts of pore water pressure, capillary pressure and hydraulic head. Principle of effective stress, stress-deformation and strength characteristics of soils, consolidation, stress distribution with soils, and settlement. Laboratory testing. Includes: Experiential Learning Activity

Also listed as CIVE 3208. Prerequisite(s): ERTH 3405.

Lectures three hours a week, laboratory three hours

alternate weeks.

ERTH 4206 [0.5 credit]

Contaminant and Remediation Hydrogeology

Geochemical and physical processes controlling contaminant release, migration, and fate in groundwater along with the processes and techniques used for contaminant mitigation and remediation. Examples will include organic and inorganic contaminants in a variety of settings.

Includes: Experiential Learning Activity
Prerequisite(s): ERTH 2106 and ERTH 3205.
Lectures three hours per week and a laboratory three hours per week.

ERTH 4209 [0.5 credit] Mineral Exploration Field Geology

Introduction to the essentials of conducting geological mapping campaign in the Canadian Shield in a field area that has seen considerable industry exploration for volcanogenic massive sulfide mineralization. Activities include outcrop and trench mapping, strain analysis, interpretation of geophysical data, drilling proposals, report writing.

Includes: Experiential Learning Activity
Precludes additional credit for ERTH 3209.
Prerequisite(s): ERTH 2407 or ERTH 3004 and

ERTH 3207.

Field work for two weeks off-campus. A supplementary fee will apply.

ERTH 4302 [0.5 credit]

Frozen Earth: Unveiling the Snowball Earth Catastrophe

Discover how icy cataclysms shaped our planet through Earth's most extreme climate event: Snowball Earth! We will explore this theory's origins, examine compelling geologic and geochemical evidence, and dive into topics such as glacial sedimentology, the carbon cycle, evolution, and more on this thrilling adventure.

Prerequisite(s): ERTH 2314 or permission of the department.

Lectures three hours per week.

ERTH 4305 [0.5 credit]

Advanced Sedimentary Geology and Earth History

The origin, composition and diagenesis of sedimentary rocks throughout Earth history. Study of modern and ancient sedimentary systems; development of facies models; petrographic and geochemical analysis of sedimentary rocks.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 2314.

Lecture two hours a week and a laboratory three hours a

week.

ERTH 4507 [0.5 credit] Advanced Petrology

Analysis of the physical and chemical conditions, rockforming processes, as well as the tectonic settings, that control the formation of different rock types. May include one to two weeks of field-based instruction, with costs borne by the student.

Includes: Experiential Learning Activity

Prerequisite(s): ERTH 3207.

Field excursions, lectures or seminars three hours per week

ERTH 4801 [0.5 credit] Physics of the Earth

The physical properties of the solid Earth. Gravitational, magnetic and palaeomagnetic fields; seismology and earthquake occurrence; heat flow and thermal history. Geodynamic processes.

Prerequisite(s): ERTH 3405.

Also offered at the graduate level, with different requirements, as ERTH 5701, for which additional credit is precluded.

Lectures three hours a week.

ERTH 4807 [0.5 credit] Field Geology II

Field camp integrating advanced field, theory and experimental data. Assessment is based on reports, seminars, and oral examinations. Part of the cost is borne by the student. Departmental funding assistance is available for only one 4000-level field course per student.

Includes: Experiential Learning Activity

Prerequisite(s): completion of the third-year Earth Sciences course requirements and permission of the Department. A supplementary fee will apply.

Field work off campus.

ERTH 4808 [0.5 credit]

Vertebrate Paleontology Field Camp

Field camp extends the student's vertebrate paleontological knowledge by integrating field, theory, and experimental data. Assessment based on written reports and seminars. Part of the cost is borne by the student. Departmental funding assistance is available for only one 4000-level field course per student.

Includes: Experiential Learning Activity
Prerequisite(s): ERTH 3111 or ERTH 3112, and
ERTH 3113. A Major CGPA of 8.5 or higher and
permission of the department. This course is only available
to Undergraduate students enrolled in the BSc Earth
Sciences with concentration in Vertebrate Paleontology
and Paleoecology Honours program.

Field work for two weeks off campus. A supplementary fee will apply.

Overview of the main natural hazards (such as floods.

ERTH 4815 [0.5 credit] Natural Hazards in Canada

landslides, forest fires, earthquakes) and severe weather phenomena (such as ice storms, hail, tornadoes) in the Canadian environment. Risk of catastrophic events and their impact on society and infrastructure. Prerequisite(s): third-year standing in earth science programs or permission of the department. Also offered at the graduate level, with different requirements, as ERTH 5215 and IPIS 5505, for which additional credit is precluded. Lectures three hours a week.

ERTH 4908 [1.0 credit] Honours Thesis

Independent studies. Requires prior written approval of a topic from a supervisor and the course co-ordinator. Oral and written proposal, progress and defence reports are required.

Includes: Experiential Learning Activity
Precludes additional credit for ERTH 4909, ERTH 4910
(no longer offered).

Prerequisite(s): restricted to B.Sc. Honours and Combined Honours ERTH programs. Major CGPA 8.5 or higher at time of registration for the course.

ERTH 4909 [0.5 credit] Research in Earth Sciences

Understanding research methods, data interpretation and presentation, through readings, seminars and-or laboratory projects related to a topic selected by the student with approval of a faculty advisor. Includes: Experiential Learning Activity Precludes additional credit for ERTH 4908, ERTH 4910 (no longer offered).

Prerequisite(s): restricted to B.Sc. Honours and Combined Honours Earth Sciences programs.

Economics (ECON)

Economics (ECON) Courses

ECON 0005 [0.5 credit]

Preparatory Mathematics for Economics

Review of elementary mathematics in preparation for undergraduate economics curriculum. Topics covered include manipulation of algebraic expressions, solving equations, working with inequalities, functions, and graphical visualization of magnitudes and relationships. Students will engage in problem-solving exercises in the context of basic economic applications.

Precludes additional credit for Not recommended for students who have successfully completed: Grade 12 Mathematics - Advanced Functions, or an equivalent High School functions course, or an equivalent university-level course, such as MATH 0005.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or equivalent. Restricted to B.Econ students or permission of the Department.

Lectures three hours a week, tutorial one hour a week.

ECON 1000 [1.0 credit] Introduction to Economics

An introduction to the major tools and policy problems of economics. Economic analysis is applied to a variety of contemporary problems such as pollution, poverty, the control of monopoly, unemployment, inflation, and international economic problems.

Precludes additional credit for ECON 1001, ECON 1002, and FYSM 1003.

Lectures three hours a week, discussion groups one hour a week.

ECON 1001 [0.5 credit]

Introduction to Microeconomics

An introduction to the major tools and policy problems of microeconomics. Economic analysis is applied to a variety of contemporary issues such as taxation, pollution, wage determination, poverty, market power, and international trade.

Precludes additional credit for FYSM 1003.

Lectures three hours a week, discussion groups one hour a week.

ECON 1002 [0.5 credit] Introduction to Macroeconomics

An introduction to the major tools and policy problems of macroeconomics. Economic analysis is applied to a variety of contemporary problems such as: saving, investment and interest rates; unemployment; money and inflation; exchange rates; fiscal and monetary policy. Precludes additional credit for FYSM 1003.

Lectures three hours a week, discussion groups one hour a week.

ECON 1401 [0.5 credit]

Elementary Mathematics for Economics I

Elementary mathematical tools required for economic analysis: Topics include linear and non-linear functions (cost, revenue, profit, demand and supply), matrices, and mathematics of finance and growth, graphing economic magnitudes, applied algebra, solving systems of linear equations. In class participation in solving practice problems is emphasized.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201, MATH 1007, MATH 1009, MATH 1104, MATH 1107, MATH 1119, MATH 1052, MATH 1152, MATH 1401.

Prerequisite(s): Ontario Grade-12 U Advanced Functions, or ECON 0005 with a minimum grade of C- or higher, or MATH 0005 with a minimum grade of C- or higher, or equivalent; and ECON 1001 or FYSM 1003, which may be taken concurrently with ECON 1401.

Lectures three hours a week, tutorials one hour a week.

ECON 1402 [0.5 credit]

Elementary Mathematics for Economics II

Elementary methods of calculus for economic analysis: Topics include derivatives of univariate functions, partial derivatives of multivariate functions, concavity and convexity, elasticity, and optimization (profit and utility maximization and cost minimization subject to a budget constraint). In class participation in solving practice problems is emphasized.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1201, BIT 1200, MATH 1007, MATH 1104, MATH 1107, MATH 1119, MATH 1052, MATH 1152, MATH 1402.

Prerequisite(s): ECON 1001 or FYSM 1003 with a grade of C- or higher, and ECON 1401 or MATH 1401 with a grade of C- or higher.

Lectures three hours a week, tutorials one hour a week.

ECON 2001 [0.5 credit]

Intermediate Microeconomics for Non-Mathematical Majors

The main topics in microeconomic theory presented in a relatively non-technical manner (e.g., without requiring the knowledge of calculus) with illustrations of their applications. Not open to students in any Economics, B.Com., B.C.S., B.Eng., B.I.D., B.I.T., B.I.B., B.Math., or B.Sc. program.

Precludes additional credit for ECON 2009, ECON 2020, and ECON 3020.

Prerequisite(s): ECON 1001 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 2009 [0.5 credit] Managerial Economics

An economic analysis of managerial decision-making. Elements of production and cost; price and output determination under perfectly and imperfectly competitive market structures; the role of information; topics in business strategy; and the impact of government intervention.

Precludes additional credit for ECON 2001 and ECON 2020. Not open to students in any Bachelor of Economics program.

Prerequisite(s): ECON 1001 or FYSM 1003 with a grade of C- or higher; MATH 1009 (or equivalent) with a grade of C- or higher.

Lectures three hours a week, tutorials one and half hours a week.

ECON 2020 [0.5 credit]

Intermediate Microeconomics I: Producers and Market Structure

Theory of the firm: elements of production and cost; input allocation, pricing, and firm behaviour under perfectly and imperfectly competitive market structures; the role of information; game theory and public policy, including basic competition policy.

Precludes additional credit for ECON 2001 and ECON 2009.

Prerequisite(s): ECON 1001 or FYSM 1003 with a grade of C- or higher; ECON 1401(with a grade of C- or higher) and ECON 1402, (or equivalent department-approved MATH course pair with a grade of C- or higher in each). May be taken concurrently with ECON 1402. Lectures three hours a week, tutorials one and a half hours a week.

ECON 2101 [0.5 credit]

Intermediate Macroeconomics for Non-Mathematical Majors

The main topics in macroeconomic theory presented in a relatively non-technical manner (e.g., without requiring the knowledge of calculus) with illustrations of their application. Not open to students in any Economics, B.Com., B.C.S., B.Eng., B.I.D., B.I.T., B.Math., or B.Sc. program.

Precludes additional credit for ECON 2102, ECON 2103 (no longer offered), ECON 3102.

Prerequisite(s): ECON 1002 or FYSM 1003, or permission of the Department.

Lectures three hours a week.

ECON 2102 [0.5 credit] Intermediate Macroeconomics I

An introduction to the macroeconomic modeling of output in the short and long run, and to fixed-price models of the closed and open economy over the business cycle. Policy prescriptions in relation to the business cycle are analysed.

Precludes additional credit for ECON 2101.

Prerequisite(s): ECON 1002 or FYSM 1003 with a grade of C- or higher; ECON 1401 (with a grade of C- or higher) and ECON 1402, (or equivalent department-approved MATH course pair). May be taken concurrently with ECON 1402.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2210 [0.5 credit]

Introductory Statistics for Economics

Basic statistical methods for the study of economics. Topics include descriptive statistics, elementary probability theory, sampling distributions, estimation and hypothesis testing for one and two population parameters. Precludes additional credit for BIT 2000, BIT 2009, DATA 1517, ENST 2006, GEOG 2006, STAT 2507, STAT 2601, STAT 2606, and STAT 3502. Prerequisite(s): ECON 1401 (with a grade of C- or higher) and ECON 1402, (or equivalent department-approved MATH course pair). May be taken concurrently with ECON 1402.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 2708 [0.5 credit] Applied Data Analysis

An introduction to concepts and tools for using various forms of data to study applied economic problems. Topics may include identifying relevant datasets, collecting and cleaning both research-ready and user-assembled data sets, data visualization, and summary statistics. Includes: Experiential Learning Activity Prerequisite(s): ECON 1401 and ECON 1402, with a grade of C- or higher (or an equivalent department-approved MATH course pair with a grade of C- or higher in each); and ECON 2210 (or equivalent), with a grade of C+ or higher.

Lectures three hours a week, tutorial 1.5 hours a week.

ECON 2900 [0.5 credit]

Professional Practice of Economics

Development of skills used by professional economists, including writing professional documents such as policy briefs and memos, data visualization, communication of economic ideas in non-technical terms, presentation skills, and team-based problem solving.

Includes: Experiential Learning Activity
Precludes additional credit for ECON 3920 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002 or FYSM 1003 with a grade of C- or higher, and ECON 1401 and ECON 1402 with a grade of C- or higher in each, (or equivalent department approved MATH course pair with a grade of C- or higher in each), and ECON 2210 (or equivalent) with a grade of C- or higher. Seminars three hours a week.

ECON 3001 [0.5 credit]

Mathematical Methods of Economics

Constrained optimization via Lagrange and Kuhn-Tucker conditions; implicit functions and implicit differentiation; comparative static methods applied to models such as utility maximization and least-cost production; homogeneous functions; concave and convex functions; compounding and exponential functions; economic models involving integration; differential equations.

Prerequisite(s): ECON 1001 or FYSM 1003 with a grade of C- or higher; and ECON 1401 and ECON 1402 with a grade of C- or higher in each, (or an equivalent department-approved MATH course pair with a grade of C- or higher in each); and a combined grade point average in ECON 1401 and ECON 1402 of 6.50 or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3020 [0.5 credit]

Intermediate Microeconomics II: Consumers and General Equilibrium

Theory of consumer choice and demand; applications to intertemporal choice, labour supply, and/or choice under uncertainty; welfare analysis; general equilibrium theory; externalities and the role of government.

Precludes additional credit for ECON 2001 and ECON 2030 (no longer offered).

Prerequisite(s): ECON 2020 with a grade of C- or higher or ECON 2009 with a grade of C+ or higher, and ECON 1401 and ECON 1402 with a grade of C- or higher, (or equivalent department-approved MATH course pair with a grade of C- or higher in each).

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3050 [0.5 credit] Introduction to Financial Economics

Major theories underlying financial economics: arbitrage, market efficiency, Fisher's separation theorem. Topics include: impact of cyclical fluctuations on consumption, investment, and financial decisions of consumers/firms, monetary policy and interest rate determination, loans for durables, mortgage loans, bond/stock valuation, investment-decision criteria, risk-return trade-offs, cost-of-capital analysis.

Prerequisite(s): ECON 1001 and ECON 1002 each with a grade of C- or higher, or FYSM 1003 with a grade of C- or higher, ECON 1401 and ECON 1402, (or equivalent department-approved MATH course pair with a grade of C- or higher in each), and one of (BUSI 1001, BUSI 1002, BUSI 1003, or BUSI 1005) with a grade of C- or higher. Lectures three hours a week.

ECON 3102 [0.5 credit]

Intermediate Macroeconomics II

An extension of macroeconomic modeling to the dynamics of wage-price adjustment in the intermediate and long run, to the theoretical foundations of basic macroeconomic relationships, and to contemporary policy issues arising in relation to the business cycle and long-run growth.

Precludes additional credit for ECON 2101, ECON 2103 (no longer offered).

Prerequisite(s): ECON 2102 with a grade of C- or higher, ECON 1001 with a grade of C- or higher, and ECON 1401 and ECON 1402 with a grade of C- or higher, (or equivalent department-approved MATH course pair with a grade of C- or higher in each).

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3201 [0.5 credit]

Economic Thought and Policy in Canada

An account of the interrelationship between economic theories expounded in Canada and their issue in national policy.

Prerequisite(s): an introductory course in one of the social sciences or Canadian history.

Lectures three hours a week.

ECON 3210 [0.5 credit] Introductory Econometrics

Topics include correlation, simple and multiple linear regression, and an introduction to statistical computing using an econometrics package. Emphasis on understanding appropriate methods and their properties, as distinct from their formal theoretical development. Empirical applications.

Precludes additional credit for STAT 2509, STAT 2607, ECON 2220 (no longer offered).

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 1401 and ECON 1402 with a grade of C- or higher (or an equivalent department approved MATH course pair with a grade of C- or higher in each), or permission of the Department.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3220 [0.5 credit] Canadian Economic History

A survey of Canadian economic history from the sixteenth century to the present.

Also listed as HIST 3220.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003.

ECON 3230 [0.5 credit]

Selected Topics in Economic History

An examination of the economic development of North America or Europe or other possible selected sets of countries. Countries examined vary from year to year. Also listed as HIST 3230.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003, or permission of the Department. Lectures three hours a week.

ECON 3300 [0.5 credit] **Public Policy Toward Business**

The interaction of government and business in the Canadian economy. Reasons for government involvement in selected public policy areas. Topics covered may include competition policy, regulation of firms by boards and commissions, environmental regulation, and public enterprise.

Prerequisite(s): ECON 1001 or FYSM 1003. Lectures three hours a week.

ECON 3360 [0.5 credit] **Introduction to Labour Economics**

Basic principles of labour economics including market, institutional, and sociological forces. Technology and labour demand, wage systems, human capital, internal wage structure, market discrimination, female labour-force entry, wage-price spiral, household labour supply, and wage determination.

Prerequisite(s): ECON 1001 and ECON 1002, or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3370 [0.5 credit] The Economics of Migration

An introduction to the economic aspects of migration. Topics include, among others: the economics of migration within countries; the economics of host country integration of immigrants; the impact of immigration on outcomes in the host country; the impacts of emigration on the home country.

Prerequisite(s): ECON 1001 or FYSM 1003. Lectures three hours a week.

ECON 3380 [0.5 credit]

The Economics of Gender and Ethnicity

The impact of gender and ethnicity on labour-market outcomes. Topics may include: employment, work, earnings, and poverty; discrimination and policy responses; immigration; the economics of the household; gender and development; micro-credit; labour standards. Prerequisite(s): ECON 1001 or FYSM 1003. Lectures three hours a week.

ECON 3400 [0.5 credit]

History of Economic Thought

The development of economic ideas from ancient times to the modern era. The course will explore contributions of key economic thinkers and examine the evolution of concepts, such as, value, markets, and the role of government in shaping economic policy. Prerequisite(s): ECON 1001 and ECON 1002 or FYSM 1003.

Lectures: Three hours a week

ECON 3403 [0.5 credit]

Introduction to Public Economics: Expenditures

The role and nature of the government sector in the economy, the theory of public goods, the equity and efficiency effects of public expenditures, voting rules and fiscal politics, techniques of public expenditure analysis, and intergovernmental fiscal relations.

Prerequisite(s): ECON 1001 and ECON 1002 or ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3405 [0.5 credit]

Introduction to Public Economics: Taxation

The role and nature of the government sector in the economy, principles of taxation, tax equity, incidence and excess burden of taxes, structure of taxes in the economy, role of personal, corporate, sales and wealth taxes, fiscal stabilization policy, and the economics of public debt. Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3450 [0.5 credit]

Political Economy in the Modern State

An examination of the role of government in the economy, with emphasis on alternate forms of social coordination and the advantages and disadvantages of each form in the Canadian system.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003.

Lectures three hours a week.

ECON 3460 [0.5 credit]

Introduction to Health Economics

Preclusion: credit will not be given if taken concurrently with or after ECON 4460.

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

ECON 3508 [0.5 credit]

Introduction to Economic Development

A discussion of the principles of economic development. Application to the problems of the developing countries. Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3509 [0.5 credit]

Development Planning and Project Evaluation

An introduction to the tools used in the planning and evaluation of development projects. Topics include the theory, application, strengths and limitations of cost-benefit analysis and competing approaches, and an examination of project evaluation techniques.

Prerequisite(s): ECON 1001 or FYSM 1003.

Lectures three hours a week.

ECON 3510 [0.5 credit]

African Economic Development

Domestic and international aspects of development problems and policies in the African context. Topics may include human resource development, growth and poverty reduction, domestic resource mobilization, the implications of ethnic diversity, governance, and institutions, and issues of trade, investment, aid, migration, and health.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003.

Lectures three hours a week.

ECON 3601 [0.5 credit] Introduction to International Trade

An extension of the basic principles of economics to international trade. Topics covered include the theory of international specialization, tariffs and other barriers to trade, trade liberalization and economic integration, international movements of labour and capital, trade and development.

Precludes additional credit for ECON 3600 (no longer offered).

Prerequisite(s): ECON 1001 or ECON 1000 or FYSM 1003.

Lectures three hours a week.

ECON 3602 [0.5 credit]

International Monetary Problems

A discussion of the theory and institutions of the international monetary system, and the related balance of payments problems of nation states.

Precludes additional credit for ECON 3600 (no longer offered).

Prerequisite(s): ECON 1001 and ECON 1002, or

ECON 1000 or FYSM 1003. Lectures three hours a week.

ECON 3607 [0.5 credit]

Monetary and Financial Institutions

The behaviour of financial intermediaries and institutions such as the Bank of Canada, banks and trust companies, and regulatory bodies such as the Canada Deposit Insurance Corporation and the Superintendent of Financial Institutions.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003.

Lectures three hours a week.

ECON 3706 [0.5 credit] Applied Econometrics

Introduction to applied econometric methods with emphasis on the use of the regression model for empirical research. Real-world examples are used extensively to illustrate key concepts. Hands-on computer exercises are an integral part of the course.

Includes: Experiential Learning Activity
Prerequisite(s): ECON 1001 and ECON 1002, or
FYSM 1003, ECON 2210 (or equivalent) with a grade of
C- or higher, and ECON 3210 (or equivalent) with a grade
of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 3803 [0.5 credit]

The Economics of Natural Resources

The application of economic analysis to questions concerning natural-resource use, management and conservation, as well as market failures and environmental effects. Policy problems relating to natural resources are discussed.

Prerequisite(s): ECON 1001 or FYSM 1003. Lectures three hours a week.

ECON 3804 [0.5 credit] Environmental Economics

Microeconomic analysis of environmental issues. Frameworks for measuring environmental costs and benefits. The efficiency of alternative pollution control policies. Applications include air and water pollution and global environmental problems such as ozone depletion and global warming.

Prerequisite(s): ECON 1001 or FYSM 1003. Lectures three hours a week.

ECON 3807 [0.5 credit]

European Economic Integration

A discussion of the theories of free trade areas and customs, monetary, and economic unions, and the related historical experience of Europe. Topics include: currency area and the euro, coordination of fiscal policy and the EU budget, common agricultural policy, labour mobility, and regional policy.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003.

Lectures three hours a week.

ECON 3808 [0.5 credit]

The Economics of Transition

The transition from state ownership and central planning to mixed ownership structure with resource allocation by market mechanisms. "Classical socialism" is criticized and the processes of transition in countries of Central and Eastern Europe, the former Soviet Union, and Asia are compared.

Prerequisite(s): ECON 1001 or FYSM 1003.

Lectures three hours a week.

ECON 3820 [0.5 credit]

Topics in Canadian Economic Policy

Economic analysis applied to selected policy areas, issues or institutions. One or more of the following topics may be dealt with: decision-making by bureaucratic institutions, policy problems arising from poverty, the economics of natural resources and pollution, urban economics.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003.

Lectures three hours a week.

ECON 3840 [0.5 credit] An Economic Analysis of Law

An introduction to the application of economic principles and methodology to a variety of legal problems with emphasis on the theory of property rights and the allocation of resources.

Prerequisite(s): ECON 1001 or FYSM 1003.

Lectures three hours a week.

ECON 3850 [0.5 credit]

Economics of Information and the Media

An introduction to the economics of information and the media, with a focus on the analysis of production and distribution of information, the application of theory to selected communications-media industries in Canada, and the analysis of existing Canadian policies.

Prerequisite(s): ECON 1001 or ECON 1000 or

FYSM 1003.

Lectures three hours a week.

ECON 3856 [0.5 credit]

Housing Economics

Examination of housing markets, housing finance, and government housing policy using the tools of microeconomics. Models of demand, supply, and market equilibrium emphasizing the special characteristics of housing, including heterogeneity, durability, and spatial fixity. Relationships to other goods and markets and the wider macroeconomy.

Prerequisite(s): ECON 1001 or FYSM 1003.

Lectures three hours a week.

ECON 3860 [0.5 credit] Agricultural Economics

An examination of the agricultural industry in the national economy and in low-income societies, with emphasis on the working out of the basic forces that determine supply and demand for the industry, and the functional distribution of income among the factors of production.

Prerequisite(s): ECON 1001 or FYSM 1003.

Lectures three hours a week.

ECON 3870 [0.5 credit]

Comparative Economic Systems

Analysis of the structure, institutions, and performance of alternative economic systems, including capitalism, socialism, and communism. Selected countries are studied as examples of these systems.

Prerequisite(s): ECON 1001 or FYSM 1003.

Lectures three hours a week.

ECON 3878 [0.5 credit]

Contemporary Economic Issues

Content may vary from year to year and is announced in advance of the registration period.

Lectures and/or seminars three hours a week.

ECON 3880 [0.5 credit]

Special Studies in Economics

Content may vary from year to year and is announced in advance of the registration period.

Prerequisite(s): ECON 1001 and ECON 1002, or FYSM 1003.

Lectures and/or seminars three hours a week.

ECON 3900 [0.5 credit]

Research Methods in Economics

The process of doing basic research in economics: development of the research proposal, finding and critically evaluating relevant literature, model development, methods for locating and collecting economic data, analytical methods, and writing mechanics. This course has a strong practical focus.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 3020 with a grade of C+ or higher, ECON 3102 with a grade of C+ or higher, ECON 2210 (or equivalent) with a grade of C- or higher, and ECON 3210 (or equivalent) with a grade of C+ or higher.

Seminars three hours a week.

ECON 3999 [0.0 credit] Co-operative Work Term

Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Honours Economics or Applied Economics Co-operative Education option, satisfactory completion of the Co-op preparation classes offered by the Co-operative Education Office, and permission of the Department.

ECON 4001 [0.5 credit]

Mathematical Analysis in Economics

Analysis and algebra: set theory, sequences and series, quadratic forms, separation and fixed-point theorems. Static optimization: the Weierstrass, Lagrange, and Kuhn-Tucker theorems; convexity and quasi-convexity; the envelope theorem. Dynamic optimization: the Maximum Principle and Bellman's equation. Applications of these tools to economic theory.

Prerequisite(s): ECON 3001 with a grade of C+ or higher. Lectures three hours a week, tutorials one and a half hours a week.

ECON 4002 [0.5 credit] Statistical Analysis in Economics

Probability: including conditional probability, random variables and distributions, unconditional and conditional expectations. Distributions: including special distributions and their properties, and sampling distributions of estimators. Nonparametric methods and limit theorems; stochastic processes; simulation and bootstrap methods. Applications of these tools to economic theory. Precludes additional credit for STAT 3508 and STAT 3558.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C+ or higher, and ECON 3210 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4004 [0.5 credit]

Operations Research: Linear Programming Models

Linear programming, duality, sensitivity analysis, transportation and network problems. Both theory and a wide range of applications are studied.

Precludes additional credit for BUSI 2300 (no longer offered), MATH 3801, and SYSC 3200.

Prerequisite(s): ECON 1402 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4005 [0.5 credit]

Operations Research: Stochastic Models

Dynamic programming, inventory models, queuing, simulation, and non-linear programming. Prerequisite(s): ECON 1402 (or equivalent) with a grade of C- or higher, and ECON 2210 (or equivalent) or STAT 2605 or STAT 3502 with a grade of C- or higher. Lectures three hours a week.

ECON 4020 [0.5 credit]

Advanced Microeconomic Theory

Advanced theory of individual economic behaviour in production, consumption, and general equilibrium. Elementary tools of mathematics are employed in the exposition of most topics.

Prerequisite(s): ECON 2020 (or ECON 2009) and ECON 3020 (or equivalent) each with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 3210 (or ECON equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4020.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4021 [0.5 credit]

Advanced Macroeconomic Theory

An introduction to advanced macroeconomic models. Topics may include analysis of business cycles, inflation, unemployment, economic growth, fiscal and monetary policy, consumption decisions of households, and investment decisions of firms.

Prerequisite(s): ECON 2102 with a grade of C+ or higher; ECON 3102 (or equivalent) with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 3210 (or ECON equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4021.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4026 [0.5 credit] **Macroeconomic Dynamics**

Dynamic models as applied to topics such as economic growth, business cycles, consumption, investment, inflation, and real-financial linkages. Empirical and/or policy issues may also be discussed.

Prerequisite(s): ECON 2102 with a grade of C+ or higher; ECON 3102 (or equivalent) with a grade of C+ or higher; ECON 3001 (or MATH 2000 or MATH 2004) with a grade of C+ or higher; and ECON 3210 (or ECON equivalent, or STAT 2605 or STAT 3502), which may be taken concurrently with ECON 4026.

Lectures three hours a week.

ECON 4030 [0.5 credit]

Economics of Uncertainty and Information

Uncertainty, imperfect information, and asymmetric information in the allocation of resources and the performance of markets. Applications to insurance and financial markets are emphasized.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher and ECON 3210 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4051 [0.5 credit] **Financial Asset Pricing**

Factors that drive security prices and models that attempt to account for aspects of security returns, including the generic arbitrage pricing model, the capital asset pricing model (CAPM), the consumption CAPM, and the intertemporal CAPM.

Precludes additional credit for BUSI 3500.

Prerequisite(s): ECON 3050 with a grade of C- or higher, and ECON 3210 (or equivalent) with a grade of C- or

Lectures three hours a week.

ECON 4052 [0.5 credit] **Corporate Financial Economics**

Optimization and corporate finance. Corporate governance and managerial compensation. Capital structure and the Modigliani-Miller theorem. Agency theory and asymmetric information. The issue of equity, debt, and other securities. Dividend policy. Investment and capital budgeting, NPV, and real options.

Precludes additional credit for BUSI 3500 and BUSI 3502. Prerequisite(s): ECON 3050 with a grade of C- or higher, and ECON 3020 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4053 [0.5 credit] **Financial Market Modeling**

The modeling of the evolution of prices in (near) efficient markets and the evaluation of functions of these prices such as guarantees, options, warrants, futures, and other types of derivatives. Arrow-Debreu state-contingent claims. Notions of complete and incomplete markets. Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher and ECON 3001 with a grade of C- or higher. Lectures three hours a week.

ECON 4057 [0.5 credit] **Behavioural Financial Economics**

Market efficiency and the limits of arbitrage. Heuristics and biases identified by behavioural decision theorists and their effect on the behaviour of managers and investors. Behavioural theories of market trading volume and asset prices. Behavioural approaches to corporate financial economics problems.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher, and ECON 3050 or BUSI 2501 or BUSI 2505 with a grade of C- or higher.

Lectures three hours a week.

ECON 4109 [0.5 credit] **Experimental Economics**

An introduction to the use of and insights gained from both laboratory- and field-type experimental methods in economic research. Topics include analysis of individual rationality, performance of markets, and design of economic systems. In-class experiments are an integral part of the course.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher and ECON 3210 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4120 [0.5 credit] Strategy and Behaviour

Intersection of modern game theory and behavioral economics. Students will learn about (bounded) rationality and analyze strategic situations by applying concepts such as rationalizability and equilibrium. Applications to market behavior, institutional design, and policy interventions will be discussed.

Prerequisite(s): ECON 2020 (or ECON 2009) and ECON 3020 or ECON 2030 (no longer offered) each with a grade of C+ or higher; and ECON 2210 (or equivalent, or STAT 2507 or STAT 2606 or STAT 3502).

ECON 4230 [0.5 credit]

Economic History

The application of economic theory and quantitative techniques to selected topics in economic history, which may include historical patterns of growth and welfare, nineteenth-century globalization, technological change, the development of agriculture, industrialization, the Great Depression, and the origins of central banks.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher, ECON 3102 (or equivalent) with a grade of C- or higher, and ECON 3210 (or equivalent) with a grade of C- or higher.

Also offered at the graduate level, with different requirements, as ECON 5230., for which additional credit is precluded.

Lectures three hours a week.

ECON 4301 [0.5 credit]

Market Structure and Firm Behaviour

Various theoretical and empirical studies of firm and market organization with emphasis on the pricing, advertising, investment and locational behaviour of firms in imperfectly competitive markets.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4302 [0.5 credit] Competition and Regulatory Policy

Public policies relating to competition and regulation. Topics may include: Ramsey pricing, peak-load pricing, cross-subsidization, access pricing (ECPR), multi-part pricing and price discrimination, predatory and targeted pricing, vertical restrictions, traditional regulation (including rate-of-return regulation), incentive regulation (including price caps), and the political economy of regulation. Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4360 [0.5 credit]

Labour Economics

The application of price theory to the labour market. Topics include models of labour supply and labour demand, human capital and the economics of education, and unions and their impact on the labour market. Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher, and ECON 3210 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4404 [0.5 credit]

Public Economics: Taxation

A discussion of the theory of taxation and an examination of empirical attempts to quantify the theory. Some topics of current interest, such as the redistribution of income in Canada and tax reform, are examined.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4407 [0.5 credit] Project Evaluation

Techniques and problems in the evaluation of public and private projects. Examination of alternative approaches to public decision-making including cost-benefit analysis, cost-effectiveness analysis, and multiple-objective frameworks. Case studies of projects in various areas such as natural resources, the environment, human resources, public services, and transportation.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher and ECON 3210 (or equivalent), or STAT 2605 or STAT 3502 with a grade of C- or higher. Lectures three hours a week.

ECON 4460 [0.5 credit] Health Economics

Economic analysis of the organization, financing, and utilization of health-care services. Topics include supply and demand of health care, the impact of private and social health insurance on demand, and policy issues in the provision of health care in Canada.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher, and ECON 3210 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4507 [0.5 credit] The Economics of Development

An examination of some theoretical approaches to the economics of development, together with analysis of some economic policy issues of a largely internal character, such as intersectoral investment allocation, income distribution, unemployment, and investment in human development. Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher and ECON 3102 (or equivalent) with a grade of C- or higher.

ECON 4508 [0.5 credit]

International Aspects of Economic Development

An analysis of the international economic policy problems of development in Asia, Africa and Latin America, focusing on international trade, direct foreign investment, technological transfer, regional integration, debt and development financing, and international migration. Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher and ECON 3102 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4601 [0.5 credit]

International Trade Theory and Policy

International trade theory and its implications for economic policy. Topics such as determinants of trade and specialization, gains from trade and commercial policy, international factor mobility, growth and development. Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4602 [0.5 credit]

International Monetary Theory and Policy

International monetary theory and its implications for economic policy. Topics such as sources of disequilibrium and adjustment in the balance of payments under fixed versus flexible exchange rates, international capital movements, and international monetary reform.

Prerequisite(s): ECON 3102 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4700 [0.5 credit] Measurement Economics

National accounting and index numbers. Topics may include: the measurement of output and income, capital and depreciation, productivity, employment and unemployment, poverty and inequality, household production, pollution and resource depletion, and the balance of payments; price indexes; standard-of-living indexes; and international comparisons.

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C- or higher, ECON 3102 (or equivalent) with a grade of C- or higher, and ECON 3210 (or equivalent) with a grade of C- or higher.

Lectures three hours a week.

ECON 4706 [0.5 credit]

Econometrics I

An introduction to econometric theory and analysis of the classical normal linear regression model. Topics include estimation methods, hypothesis testing, multicollinearity, indicator variables, heteroscedasticity, and an introduction to time-series methods.

Prerequisite(s): ECON 2210 (or equivalent) with a grade of C+ or higher, and ECON 3210 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week, tutorials one and a half hours a week.

ECON 4707 [0.5 credit]

Econometrics II

An extension of ECON 4706. Topics include model specification, diagnostic checks, qualitative and limited dependent variables, panel data, and simultaneous equations models.

Prerequisite(s): ECON 4706 with a grade of C+ or higher, or STAT 3503 with a grade of C+ or higher. Lectures three hours a week.

ECON 4708 [0.5 credit]

Economic Data Science - Analytics

An introduction to methods of statistical and machine learning analytics for economic analysis. Tools relevant for both small and large data sets will be covered. Topics may include approaches to classification, dimension reduction strategies, and prediction models and tools.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 2708 with a grade of C+ or higher; and ECON 3210 (or equivalent) with a grade of C+ or higher.

Lectures three hours a week.

ECON 4709 [0.5 credit]

Economic Data Science - Applications

Application of data science and machine learning methods to real-world economic problems. Students will apply their data science knowledge in hands-on projects to answer topical research questions. This course has a strong practical focus.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 4708 with a grade of C+ or higher. Lectures three hours a week.

ECON 4713 [0.5 credit]

Time-Series Econometrics

An introduction to the basic concepts and tools of timeseries econometrics. Topics include stationary and nonstationary time series, identification, estimation and forecasting, unit root testing, cointegration analysis, errorcorrection models and ARCH models, together with relevant economic applications.

Precludes additional credit for STAT 4603. Prerequisite(s): ECON 4706 with a grade of C- or higher, or STAT 3503 with a grade of C- or higher. Lectures three hours a week.

ECON 4880 [0.5 credit] **Special Topics in Economics**

Advanced topics of interest to upper-year Economics students. Topics may vary from year to year and are announced in advance of the registration period.

Includes: Experiential Learning Activity

Prerequisite(s): ECON 3020 (or equivalent) with a grade of C+ or higher: ECON 3102 (or equivalent) with a grade of C+ or higher; and ECON 3706 or ECON 4706, which may be taken concurrently with ECON 4880 or may be waived by permission of the Department. Lectures and/or seminars three hours a week.

ECON 4903 [0.5 credit] **Tutorial in Economics**

An additional tutorial in economics may be taken subsequent to, or concurrently with ECON 4905. Prerequisite(s): permission of the Department.

ECON 4904 [0.5 credit] **Tutorial in Economics**

An additional tutorial in economics may be taken subsequent to, or concurrently with, ECON 4905. Prerequisite(s): permission of the Department.

ECON 4905 [0.5 credit] **Honours Capstone Seminar**

The development of individual research projects in suitable economics topic areas with the exchange of results at each stage through in-class discussions and written and oral reports and culminating in a major research paper by each course registrant. Includes: Experiential Learning Activity Prerequisite(s): ECON 2900 with a grade of C+ or higher, ECON 3900 with a grade of C+ or higher, and registration in an Honours Economics program. Seminars three hours a week.

ECON 4908 [1.0 credit] **Honours Essay**

Students taking Honours in Economics or Applied Economics may write an Honours essay during their final year. This essay counts for one credit. Students work under an individual faculty adviser. Includes: Experiential Learning Activity

Prerequisite(s): permission of the Department.

ECON 4990 [0.5 credit]

Research and Writing in Economics

Development of fundamental research and writing skills pertinent to the discipline of economics. Writing summary reviews of economics texts of increasing sophistication; writing up empirical and/or theoretical results of increasing complexity.

Prerequisite(s): registration in the Post-Baccalaureate Diploma in Economics program and/or permission of the Department.

Seminars three hours a week, tutorials one and a half hours a week.

Electronics (ELEC)

Electronics (ELEC) Courses

ELEC 2501 [0.5 credit]

Circuits and Signals

Properties of signals. Basic circuit elements: voltage and current sources. Kirchhoff's laws, linearity, superposition. Thevenin and Norton's theorems. Circuit simplification. AC steady-state analysis: impedance, admittance, phasors, frequency response. Transient response of RL and RC circuits: form of response, initial and final conditions. RLC circuits: resonance.

Includes: Experiential Learning Activity Precludes additional credit for ELEC 3605.

Prerequisite(s): MATH 1005 (may be taken concurrently) and (PHYS 1004 or PHYS 1002), and second-year status in Engineering.

Lectures three hours a week, laboratory and problem analysis three hours a week.

ELEC 2507 [0.5 credit]

Electronics I

Qualitative semiconductor physics, leading to the diode equation. Diode applications. Operational amplifiers and their application in feedback configurations including active filters. Introduction to bipolar transistors and MOSFETs, analysis of biasing circuits. Transistor applications including small signal amplifiers.

Includes: Experiential Learning Activity

Precludes additional credit for OSS 2006, PLT 2006 (no

longer offered).

Prerequisite(s): MATH 1005, ELEC 2501, and second-

year status in Engineering.

Lectures three hours a week, laboratory and problem

analysis three hours a week.

ELEC 2602 [0.5 credit]

Electric Machines and Power

Modeling and analysis of basic electric power systems. Single-phase and three-phase circuits: real and reactive power, per-phase analysis, power factor correction. Electro-mechanical energy conversion: operation, characteristics and analysis of transformers, DC-, induction-, and synchronous electric machines. Motor and generator operation.

Includes: Experiential Learning Activity

Prerequisite(s): PHYS 1004 and ELEC 2501, and second-

year status in Engineering.

Lectures 3 hours per week. Laboratory and problem analysis 3 hours per week alternate weeks.

ELEC 2607 [0.5 credit] Switching Circuits

Boolean algebra, gate, combinatorial circuits. DeMorgan notation, sum-of-product and product-of-sum forms. Logic arrays, PLAs and PALs. Flip-flops, latches, sequential circuits, state graphs and state minimization. Counters and controllers. Hazards. Asynchronous sequential circuits, race free assignment, realization.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 2310.

Prerequisite(s): PHYS 1004 or PHYS 1002 and second-

year status in Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 3105 [0.5 credit] Electromagnetic Fields

Vector calculus: gradient, divergence, curl, integration of vector fields. Electrostatics, magnetostatics. Boundary conditions. Poisson's and Laplace's equations: method of images, separation of variables, iterative method. Electric and magnetic properties of matter. Magnetic circuits. Lorentz force. Motional emf, electromagnetic induction. Maxwell's equations.

Includes: Experiential Learning Activity
Prerequisite(s): MATH 1005, MATH 2004, and
(PHYS 1004 or PHYS 1002), and second-year status in
Engineering.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 3500 [0.5 credit] Digital Electronics

Digital circuit design using verilog and logic synthesis, the electronic properties of logic gates, electrical interfacing between logic families, asynchronous to synchronous interfacing, clock distribution and timing, VLSI design options. Students implement substantial circuits with field-programmable gate arrays.

Includes: Experiential Learning Activity
Prerequisite(s): ELEC 2507 and ELEC 2607.
Lectures three hours a week, laboratory three hours a week.

ELEC 3508 [0.5 credit] Power Electronics

Power semiconductor devices: Thyristor, GTO, IGBT, SiC, GaN. Converter circuits: controlled AC to DC rectifiers, choppers, DC to AC inverters, AC voltage controllers. Protection of conversion circuits. Applications to high-efficiency control of electric machines and electromechanical energy conversion devices. Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2507 and ELEC 2602. Lectures three hours per week, laboratories/problem analysis three hours per week.

ELEC 3509 [0.5 credit] Electronics II

Introduction to semiconductor devices and ICs. DC, AC and switching properties of BJTs. Linear amplifiers; bandwidth considerations; two-port analysis. Large signal amplifiers; power amplifiers; transformerless circuits. Feedback and operational amplifiers; gain, sensitivity, distortion and stability. Filter design. Oscillators. Includes: Experiential Learning Activity

Precludes additional credit for: ELEC 3509 may not be taken for credit by students in the Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering programs.

Prerequisite(s): ELEC 2507.

Lectures three hours a week, laboratory three hours a week

ELEC 3602 [0.5 credit] Electrical Power Systems

The electric power system. Components: power transformers and connections, transmission lines. Analysis: balanced and unbalanced three-phase systems, symmetrical components, load flow, FACTS. Operation: frequency and voltage control, steady state and transient stability, fault protection. Distribution systems: utility, residential, commercial. Electrical safety: code, grounding/bonding.

Also listed as ELEC 4602. Prerequisite(s): ELEC 2602.

Lectures three hours a week, problem analysis two hours a week.

ELEC 3605 [0.5 credit] Electrical Engineering

DC circuits: elements, sources, analysis. Single phase AC circuits: phasors, RLC circuits, real and reactive power, impedance, network analysis, three phase systems. Power transformers. DC motors: operation and characteristics. AC motors: single phase and three phase. Precludes additional credit for ELEC 2501. Prerequisite(s): MATH 1005 and (PHYS 1004 or PHYS 1002), and second-year status in Engineering. Lectures three hours a week, problem analysis 1.5 hours a week.

ELEC 3907 [0.5 credit] Engineering Project

Student teams work on open-ended projects based on previously acquired knowledge. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, a series of project reports, and oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2507, ELEC 2607, third year status in Engineering, and enrolment in the Electrical Engineering or Engineering Physics program.

Lecture two hours per week, laboratory six hours per week.

ELEC 3908 [0.5 credit] Physical Electronics

Fundamentals of device physics and operation of the pn junction, bipolar transistor and MOSFET. Basic integrated circuit processing and application to diodes, BJTs and MOSFETs. Correlation between processing, structure, operation and modeling. Consideration of parasitic and small-geometry effects, reliability and process variation.

Includes: Experiential Learning Activity
Precludes additional credit for ELEC 4705.

Prerequisite(s): ELEC 2507.

Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 3909 [0.5 credit] Electromagnetic Waves

Maxwell's equations and EM wave solutions. Polarization. Poynting vector. EM waves in dielectrics and conductors; skin depth. Reflection and refraction. Standing waves. Fresnel relations, Brewster angle. Transmission lines. Line termination, basic impedance matching and transformation. Smith charts. Introduction to guided waves; slab waveguide.

Includes: Experiential Learning Activity
Precludes additional credit for PHYS 3308.
Prerequisite(s): ELEC 3105 or permission of the
Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

ELEC 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

ELEC 4502 [0.5 credit]

Microwave Circuits

Introduction to microwave semiconductor devices, microwave passive components, microwave integrated circuit technology, and microwave circuit measurements. Basic network theory and scattering matrix description of circuits. Design of matching networks, filters, amplifiers and oscillators at microwave frequencies.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 4503; may be taken concurrently. Lectures three hours a week, laboratory three hours

alternate weeks.

ELEC 4503 [0.5 credit]

Radio Frequency Lines and Antennas

Introduction to distributed circuits, travelling and standing waves, reflection coefficient, SWR, impedance transformation, Smith charts. Introduction to transmission lines; coaxial, rectangular waveguide, resonators, optical fibers. Introduction to antennas; gain, directivity, effective area. Introduction to linear arrays.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3909.

Lectures three hours a week, laboratory three hours

alternate weeks.

ELEC 4504 [0.5 credit]

Avionics Systems

Electromagnetic spectrum. Air data sensing, display. Communications systems. Navigation and landing systems; ground-based, inertial and satellite systems. Airborne radar. Guidance, control for aircraft, autopilots; stability augmentation; active control; sensor requirements; display techniques. Aircraft power systems. Safety systems. Vehicle/systems integration, certification. Precludes additional credit for AERO 4504. Prerequisite(s): fourth-year status in Engineering. Not open to students in Electrical Engineering, Computer Systems Engineering, Engineering Physics or Communications Engineering.

ELEC 4505 [0.5 credit] Telecommunication Circuits

A course of study of the commonly used circuit components in modern telecommunication systems. Both analog and digital systems are included. The design of the hardware is emphasized. Examples are drawn from broadcasting, telephony and satellite systems. Includes: Experiential Learning Activity Prerequisite(s): ELEC 3509 and (SYSC 3501 or SYSC 3503).

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4506 [0.5 credit]

Computer-Aided Design of Circuits and Systems

Basic principles of Computer-Aided Design tools used for analysis and design of communication circuits and systems. Frequency and time-domain analysis. Noise and distortion analysis. Transmission line effects. Sensitivity analysis and circuit performance optimization. Digital simulation.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year status in Engineering.
Lectures three hours a week, laboratory three hours
alternate weeks.

ELEC 4509 [0.5 credit] Communication Links

Thermal noise, intermodulation, 1dB compression, dynamic-range, SNR, noise-figure, noise temperature, antenna gain, EIRP, G/T. Wireless: Earth's bulge, Fresnel clearance, path-loss, rainfall, receiver threshold, multipath, diversity. Fiber: loss, dispersion, lasers, PIN detectors. Satellite: GEO, link calculations, FDMA, TDMA, satellite tracking, spherical trigonometry, antenna pointing, LEO. Prerequisite(s): fourth-year status in Engineering or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

ELEC 4600 [0.5 credit] Radar and Navigation

Surveillance radar: radar equation, minimum detectable signal, pulse integration, cross-section fluctuations, PRF, range ambiguities, staggered PRF. MTI radars: coherent operation, delay Line cancellers, FFT. Radio navigation: lines of position, NDB, VOR, DME, ILS. GPS: orbits, pseudo-ranges, position determination, GDOP, ionosphere. Geoide, coordinate frames.

Prerequisite(s): fourth-year status in Engineering or permission of the Department.

Lectures three hours a week, problem analysis 3 hours alternate weeks.

ELEC 4601 [0.5 credit] Microprocessor Systems

Interfacing aspects in microprocessor systems. Microprocessors and bus structures, internal architecture, instruction set and pin functions. Memory interfacing, input-output, interrupts, direct memory accesses, special processors and multiprocessor systems. Includes: Experiential Learning Activity Precludes additional credit for COMP 3006 (no longer offered), SYSC 3320, SYSC 3601. Prerequisite(s): ELEC 2607 and one of SYSC 2003 or SYSC 3003 (no longer offered) or SYSC 3006 or permission of the Department.

Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4602 [0.5 credit] Electrical Power Systems

The electric power system. Components: power transformers and connections, transmission lines. Analysis: balanced and unbalanced three-phase systems, symmetrical components, load flow, FACTS. Operation: frequency and voltage control, steady state and transient stability, fault protection. Distribution systems: utility, residential, commercial. Electrical safety: code, grounding/bonding.

Also listed as ELEC 3602. Prerequisite(s): ELEC 2602.

Lectures three hours a week, problem analysis two hours a week.

ELEC 4609 [0.5 credit]

Integrated Circuit Design and Fabrication

Introduction to nMOS IC design: static logic gates, noise margin, transmission gates, factors influencing switching speed, dynamic logic, input protection, output buffers, circuit simulation with SPICE. Laboratory work includes design and layout of a simple nMOS IC that is fabricated and returned for testing.

Includes: Experiential Learning Activity
Prerequisite(s): ELEC 3500 or ELEC 3908.
Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4700 [0.5 credit]

The Physics and Modeling of Advanced Devices and Technologies

Fabrication, operation and modeling of advanced devices for information technology. Topics: physics of materials, quantum mechanics of solids, optical transitions, physical analysis and models for state-of-the-art electronic/optical technologies and materials. Technologies: MOS and III-V based transistors, solid-state optical devices, MEMS and nano-technology based devices.

Prerequisite(s): ELEC 3908.

Lectures three hours a week, problem analysis two hours alternate weeks.

ELEC 4702 [0.5 credit] Fiber Optic Communications

Fundamentals of optoelectronics with application to fiber optic communications. Optical fibre: modes, losses, dispersion, splices, coupling to sources. Optical sources: LEDs, laser diodes. Optical detectors: photoconductor, pin and avalanche photodiodes. Optical receiver design. Fiber optic communications systems: intensity modulation/direct detection; coherent homodyne or heterodyne detection. Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3908 and ELEC 3909.
Lectures three hours a week, laboratory three hours alternate weeks.

ELEC 4703 [0.5 credit]

Solar Cells

Semiconductor band structure, photogeneration, the solar spectrum. Detailed analysis of monocrystalline silicon solar cells. Solar cells based on thin film materials: amorphous silicon, III-V materials, organics, titania-dye cells. Cells for concentrator systems. Photovoltaic power systems. Solar cells for building envelopes.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 2501 and ELEC 2507 and fourthyear status in Sustainable and Renewable Energy Engineering, or ELEC 2501 and ELEC 2507 and fourthyear status in Engineering with permission of the instructor.

Lectures three hours per week, laboratories/problem analysis three hours alternate weeks.

ELEC 4704 [0.5 credit]

Nanoscale Technology and Devices

Engineering at the nanoscale. Quantum confinement and the effect of scale. Analysis tools: microscopy, spectroscopy. Fabrication: thin films, nanoparticles, nanotubes, graphene, organics. Structures and properties: quantum wells, nanocrystals, nanostructuring. Applications and devices: electronics, optoelectronics, photonics. Includes: Experiential Learning Activity
Prerequisite(s): ELEC 3908, ELEC 3909.
Lectures three hours a week, problem analysis 1.5 hours a week.

ELEC 4705 [0.5 credit]

Electronic Materials, Devices and Transmission Media

Review of fundamental quantum mechanics, tunneling, quantization, solid-state theory, conductors, semiconductors, superconductors, insulators, and optical properties. Devices used in modern high speed electronic and communication systems: transistors, lasers, photodiodes, fiber optics, Josephson junctions. Nanotechnology and quantum applications.

Prerequisite(s): ELEC 3908. Lectures three hours a week.

ELEC 4706 [0.5 credit]

High-Speed Electronics: Circuits and Systems

Challenges faced in designing high-speed electronic circuits and systems. Fundamentals of high-speed Tx/Rx architectures including: timing and HDL, PLL/DLL, Tx drivers, interface to photonic components, channel modelling, Rx channel, choice of modulation, equalization, clock and data recovery. VHDL hardware and CAD software laboratories.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3500.

Lectures three hours a week, laboratory three hours a week

ELEC 4707 [0.5 credit]

Analog Integrated Electronics

Emphasis on integration of analog signal processing techniques in monolithic IC technology. Continuous active filter design. MOS IC technology. OP amp design. Basic sampled data concepts; Z-transform analysis, switched capacitor filters. Noise aspects. Bipolar technology: radio frequency IC design.

Includes: Experiential Learning Activity

Prerequisite(s): ELEC 3509.

Lectures three hours a week, laboratory and problem

analysis three hours alternate weeks.

ELEC 4708 [0.5 credit]

Advanced Digital Integrated Circuit Design

Advanced Verilog, test benches. VLSI design based on CMOS technology, characteristics of CMOS logic circuits, cell libraries, building blocks, structured design, testing, Computer-Aided Design tools. Laboratory emphasis on design synthesis from Verilog.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering and

ELEC 3500 or permission of the Department.

Lectures three hours a week, laboratory and problem

analysis three hours alternate weeks.

ELEC 4709 [0.5 credit] Integrated Sensors

Overview of sensor technologies with emphasis on devices suitable for integration with silicon integrated circuits. Sensor design and fabrication principles including signal conditioning; discussion of automotive, biomedical, and other instrumentation applications.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering.
Lectures three hours a week, laboratory and problem

analysis three hours alternate weeks.

ELEC 4906 [0.5 credit] Special Topics

At the discretion of the Engineering Faculty Board, a course dealing with selected advanced topics of interest to students in Biomedical and Electrical, Communications, Computer Systems, Electrical and Software Engineering and Engineering Physics may be offered.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year status in Engineering. Lectures three hours a week, laboratory and problem analysis three hours alternate weeks.

ELEC 4907 [1.0 credit] Engineering Project

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in a major design project. Lectures are devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): (ELEC 3907 or SYSC 3010) and fourth-

year status in Engineering.

ELEC 4908 [1.0 credit] Engineering Physics Project

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in a major design project approved for Engineering Physics. Lectures devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and comprehensive final report are required.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year status in Engineering. Certain projects may have additional prerequisites or corequisites.

Engineering Core (ECOR)

Engineering Core (ECOR) Courses

ECOR 1010 [0.5 credit]

Introduction to Engineering

Technology, society and the environment. Graphical design communication: sketching, graphical projections; CAD. Managing data: statistical methods; spreadsheets. Design analysis: matrix programming software; symbolic computer algebra systems. Design process: proposals; reports; presentations; reporting software. Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1000 (no longer offered), ECOR 1034, ECOR 1047, ECOR 1054. Lectures four hours per week, laboratories two hours per week.

ECOR 1031 [0.5 credit]

Programming and Data Management

Software development as an engineering discipline, modern programming language. Syntax and semantics. Tracing and visualizing program execution. Style and documentation. Testing and debugging. Binary number system. Container data types for data management. Introduction to designing and implementing numerical algorithms. Modules. Data files. Incremental, iterative development.

Includes: Experiential Learning Activity Precludes additional credit for COMP 1005. COMP 1405. ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, SYSC 1005.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1032 [0.5 credit] **Circuits and Mechatronics**

Electrical circuit fundamentals: resistance, capacitance, inductance, voltage and current sources, Ohm's law, nodal analysis, mesh analysis, source transformation, superposition. Components for mechatronics: filters, operational amplifiers, digital logic gates and combinatorial circuits, analog to digital converters, sensors, actuators. simple control schemes. Project in microcontrollerembedded mechatronic system:.

Includes: Experiential Learning Activity Precludes additional credit for ECOR 1043, ECOR 1044, and ECOR 1052.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1033 [0.5 credit]

Statics

Force vectors, Dot product. Forces components and resultants. Particle equilibrium. Moments. Cross product. 2D Truss analysis. Centre of gravity and centroids. Rigid body equilibrium. 2D Frames and machines. Internal loads at a point.

Includes: Experiential Learning Activity Precludes additional credit for ECOR 1045, ECOR 1046, ECOR 1053, ECOR 1101.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1034 [0.5 credit] **Dynamics**

Kinematics and Kinetics of a particle. Position velocity and acceleration using cartesian path and polar coordinates. Force and Acceleration. Mechanical work and energy conservation of energy. Principle of impulse and momentum, conservation of momentum. Systems of particles. Harmonic motion. Design Project on Projectile

Includes: Experiential Learning Activity Precludes additional credit for ECOR 1047, ECOR 1048, ECOR 1054, ECOR 1101, ECOR 1010. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours

ECOR 1041 [0.25 credit] **Computation and Programming**

Software development as an engineering discipline, using a modern programming language. Language syntax and semantics. Tracing and visualizing program execution. Program style and documentation. Testing and debugging tools and techniques. Binary number system to represent data in a computer.

Precludes additional credit for COMP 1005, COMP 1405, ECOR 1051, ECOR 1606, SYSC 1005, ECOR 1031, Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1042 [0.25 credit] **Data Management**

Software development using container data types (sequences, sets, maps) for data management. Modules. Data files. Incremental, iterative development of programs. Introduction to designing and implementing numerical algorithms.

Precludes additional credit for COMP 1005, COMP 1405, ECOR 1051, ECOR 1606, SYSC 1005, ECOR 1031. Prerequisite(s): ECOR 1041 with a minimum grade of C- and MATH 1004 (may be taken concurrently). This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures three hours per week, laboratories three hours per week.

ECOR 1043 [0.25 credit]

Circuits

Electrical Quantities (Voltage, Charge, Current, Power). Conservation of charge and energy. Mathematical models of simple devices. Elementary circuit theory for passive elements. Thévenin's and superposition theorem. Signal filtering and amplification. Time and frequency domain. Circuit design and simulation.

Precludes additional credit for ECOR 1052, ECOR 1032. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1044 [0.25 credit]

Mechatronics

Mechatronics applications. Analog to digital signal conversion. Control systems and PID controllers. Input devices, including sensors. Data collection and processing. Output devices, including displays, actuators, and motors. Project design and economics. Environmental Impact of mechatronics engineering. System failures and failsafe design.

Precludes additional credit for ECOR 1052, ECOR 1032. Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Recommended background: ECOR 1041 and ECOR 1043.

Lectures three hours per week, laboratories three hours per week.

ECOR 1045 [0.25 credit]

Statics

Cartesian vector representation of forces. Components of forces. Particle equilibrium and free body diagrams. Moments and cross product. Centre of gravity and centroids. Rigid body equilibrium.

Precludes additional credit for ECOR 1053, ECOR 1101, ECOR 1033.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1046 [0.25 credit]

Mechanics

2D truss analysis (method of joints/sections). Normal stress/strain and shear stress/strain. 2D frames and machines. Internal loads - normal, shear and moment at a point. Shear and moment diagrams. Precludes additional credit for ECOR 1053, ECOR 1033. Prerequisite(s): This course may not be taken

concurrently with ESLA 1300 or ESLA 1500.

Recommended background: ECOR 1045. Lectures three hours per week, laboratories three hours

per week.

ECOR 1047 [0.25 credit]

Visual Communication

Graphs and sketches, flow charts, block diagrams. Visual presentation, projection and perspectives of objects. 3D sketching. Free hand drawing. Reading engineering drawings and schematics. Introduction to scaling, dimensioning and tolerancing. Introduction to CAD.

Precludes additional credit for ECOR 1054, ECOR 1010, ECOR 1034.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1048 [0.25 credit]

Dynamics

Kinematics and kinetics of a particle. Principle of work and energy. Conservation of energy, conservative forces, potential energy. Principles of impulse and momentum, conservation of momentum for a system of particles. Precludes additional credit for ECOR 1054, ECOR 1101, ECOR 1034.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Recommended background: ECOR 1045. Lectures three hours per week, laboratories three hours per week.

ECOR 1051 [0.5 credit]

Fundamentals of Engineering I

Software development as an engineering discipline, using a modern programming language. Tracing and visualization of program execution. Testing and debugging. Data management: digital representation of numbers; numerical algorithms; storing data in files; container data types: sequences, sets, maps. Includes: Experiential Learning Activity Precludes additional credit for COMP 1005, COMP 1405, ECOR 1031, ECOR 1041, ECOR 1042, ECOR 1606, SYSC 1005.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

ECOR 1052 [0.5 credit]

Fundamentals of Engineering II

Electrical Quantities. Conservation of mass and energy. Mathematical models of simple devices. Elementary circuit theory for passive elements. Signal filtering and amplification. Time and frequency domain. Circuit design and simulation. Digital and analog signals. Mechatronics applications. Output devices. System failures and failsafe design.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1032, ECOR 1043, ECOR 1044

Prerequisite(s): ECOR 1051 (may be taken concurrently). Lectures three hours per week, laboratories three hours per week.

ECOR 1053 [0.5 credit]

Fundamentals of Engineering III

Components of forces. Particle equilibrium and free body diagrams. Moments and cross product. Centre of gravity and centroids. Rigid body equilibrium. 2D Truss analysis (method of joints/sections). Normal stress/strain and Shear stress/strain. 2D frames and machines.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1045, ECOR 1046,

ECOR 1033, ECOR 1101.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500. Lectures three hours per week, laboratories three hours per week.

por wook.

ECOR 1054 [0.5 credit]

Fundamentals of Engineering IV

Engineering drawings and schematics. Graphs and sketches, flow charts, block diagrams. Computer#assisted design. Kinematics/Kinetics of a particle. Principles of work and energy. The Engineering Profession and Act. Organization and time management. Project management. Business, entrepreneurship and intellectual property. Includes: Experiential Learning Activity Precludes additional credit for ECOR 1010, ECOR 1034,

Precludes additional credit for ECOR 1010, ECOR 1034, ECOR 1047, ECOR 1048.

Prerequisite(s): ECOR 1053 (may be taken concurrently). Lectures three hours per week, laboratories three hours per week.

ECOR 1055 [0.0 credit]

Introduction to Engineering Disciplines I

Overview of professional activities oriented to the student's discipline of study: Architectural Conservation and Sustainability. Civil and Environmental. Aerospace and Mechanical. Electrical. Engineering Physics. Computer Systems, Communications and Software. Biomedical (Electrical and Mechanical). Sustainable and Renewable Energy. Graded SAT/UNS.

Prerequisite(s): This course may not be taken concurrently with ESLA 1300 or ESLA 1500.

Lectures 1.5 hours per week.

ECOR 1056 [0.0 credit]

Introduction to Engineering Disciplines II

Selected lectures designed to provide students with exposure to the breadth of Engineering disciplines. Graded SAT/UNS.

Online course.

ECOR 1057 [0.0 credit] Engineering Profession

Professional Engineers Act. Engineering documentation. History of the profession. Engineering practice: system life cycle, practice within the discipline, designing with others. Health and safety. Engineering Ethics, Equity and Diversity. Introduction to engineering law: Business, Entrepreneurship and Intellectual Property. Graded SAT/UNS.

Online course

ECOR 1101 [0.5 credit]

Mechanics I

Introduction to mechanics. Scalars and vectors. Concurrent forces: resultant and components. Statics of particles. Moments and couples. Force system resultants. Rigid body equilibrium. Frames and machines. Internal forces. Kinematics and kinetics of particles. Conservation theorems: work-energy; impulse-momentum. Centroids and centres of gravity.

Includes: Experiential Learning Activity

Precludes additional credit for ECOR 1033, ECOR 1034, ECOR 1045, ECOR 1048, ECOR 1053.

Prerequisite(s): MATH 1004 and MATH 1104.

Lectures three hours a week, tutorials and problem

analysis three hours a week.

ECOR 1606 [0.5 credit]

Problem Solving and Computers

Introduction to engineering problem solving. Defining and modeling problems, designing algorithmic solutions, using procedural programming, selection and iteration constructs, functions, arrays, converting algorithms to a program, testing and debugging. Program style, documentation, reliability. Applications to engineering problems; may include numerical methods, sorting and searching.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 1005, SYSC 1100
(no longer offered), SYSC 1102 (no longer offered),
COMP 1005, COMP 1405, ECOR 1031, ECOR 1041,
ECOR 1042, ECOR 1051.

Lectures three hours a week, laboratory three hours a week.

ECOR 2050 [0.5 credit]

Design and Analysis of Engineering Experiments

Statistics and the design of engineering experiments. Basic exploratory data analysis. Central limit theorem. Hypothesis testing: t-test, chi-square test, type-I and type-II errors, multiple-comparison problem. Statistical bias. Design of experiments: randomization, blocking and replication, randomized blocking designs, factorial design. Statistical software packages.

Includes: Experiential Learning Activity
Prerequisite(s): 2nd Year Status in Engineering.
Lectures three hours a week, problem analysis and laboratory three hours a week.

ECOR 2606 [0.5 credit] Numerical Methods

Numerical algorithms and tools for engineering and problem solving. Sources of error and error propagation, solution of systems of linear equations, curve fitting, polynomial interpolation and splines, numerical differentiation and integration, root finding, solution of differential equations. Software tools.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 2606 (no longer offered).

Prerequisite(s): MATH 1005 and (ECOR 1606 or SYSC 1005) and (ECOR 1010 or ELEC 1908). Lectures three hours a week, laboratory one hour a week.

ECOR 2995 [0.0 credit] Engineering Portfolio

Students will be asked to reflect on their skills, strengths and weaknesses as preparation for the professional practice course. Engineering students must submit samples of their writing and communications (including, for example, laboratory reports and professional memos). Online

ECOR 3800 [0.5 credit] Engineering Economics

Introduction to engineering economics; cash flow calculations; methods of comparison of alternatives; structural analysis; replacement analysis; public projects; depreciation and income tax; effects of inflation; sensitivity analysis; break-even analysis; decision making under risk and uncertainty.

Prerequisite(s): third-year status in Engineering or (second-year status in Engineering and permission of the department).

Lectures three hours a week.

ECOR 4907 [1.0 credit]

Multidisciplinary Engineering Project

Student teams develop professional-level experience by applying, honing, integrating, and extending previously acquired knowledge in an approved major multidisciplinary engineering design project. Lectures devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and comprehensive final report are required.

Includes: Experiential Learning Activity
Precludes additional credit for ACSE 4918, CIVE 4918,
ELEC 4907, ELEC 4908, ENVE 4918, MAAE 4907,
SREE 4907, SYSC 4907, SYSC 4917, SYSC 4927, SYSC 4937.

Prerequisite(s): (ECOR 3800 or SYSC 4106), fourth-year status in Engineering and Permission of the faculty.

ECOR 4995 [0.5 credit] Professional Practice

Presentations by faculty and external lecturers on the Professional Engineers Act, professional ethics and responsibilities, practice within the discipline and its relationship with other disciplines and to society, health and safety, environmental stewardship, principles and practice of sustainable development. Communication skills are emphasized.

Precludes additional credit for MAAE 4905, CIVE 4905, SYSC 3905 or ELEC 3905 (all no longer offered). Prerequisite(s): ECOR 2995 and fourth-year status in Engineering.

English (ENGL)

English (ENGL) Courses

ENGL 1002 [0.5 credit] Writing and Language I

The first half of an introduction to the principles, styles, and structures of effective writing, including essay writing. Course offered only in Nunavut as part of Certificate in Nunavut Public Service Studies Program.

Includes: Experiential Learning Activity Precludes additional credit for ENGL 1005 (no longer

Lectures and workshop three hours a week.

ENGL 1003 [0.5 credit] Writing and Language II

The second half of an introduction to the principles, styles, and structures of effective writing, including essay writing. Course offered only in Nunavut as part of Certificate in Nunavut Public Service Studies Program.

Includes: Experiential Learning Activity

Precludes additional credit for ENGL 1005 (no longer offered).

Prerequisite(s): ENGL 1002.

Lectures and workshop three hours a week.

ENGL 1008 [0.5 credit]

English Grammar: Fundamentals

A practical and intensive overview of English grammar designed for students who want to improve their understanding of grammar for their own writing and reading. This is not an ESL course. Lectures three hours a week.

ENGL 1009 [0.5 credit] Literature in Global Context

Introduction to the study of literature from a global perspective. Students will be exposed to writers from various locations and to methods for studying literature across national boundaries.

Lecture three hours a week.

ENGL 1010 [0.5 credit] Writing Essays about Literature

An intensive writing course focusing on the formulation and construction of a literary essay. Precludes additional credit for ENGL 1020. Lectures three hours a week.

Research and Theory in Workplace Writing

Study of contemporary research and theory (1980s to present) in writing in workplace settings. Consideration of how writing is used in accomplishing work, how novices learn to write effectively, and what the implications are for pedagogy.

Includes: Experiential Learning Activity

Also listed as ALDS 3402.

Prerequisite(s): third-year standing or permission of the

instructor.

Lectures three hours a week.

ENGL 3910 [0.5 credit]

From English Degree to Career

This experiential-learning course prepares students in English for their transition into the workplace. Project-based activities (including readings and research) and guest speakers will teach students to identify, develop, and apply the skills and knowledge gained from a degree in English studies.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in an English Major

program or permission of the department. Lectures and workshops three hours a week.

ENGL 3911 [0.5 credit]

Cultural Studies

This course explores cultural expression across diverse media, theorizing culture as a form of struggle that shapes material conditions, fuels knowledge production, and informs lived experience.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3915 [0.5 credit] Special Topics in Writing

An intermediate workshop that involves regular creative writing assignments and practical criticism based on this work. Topics will vary. Yearly special topics can be found at carleton.ca/english/.

Includes: Experiential Learning Activity
Prerequisite(s): a grade of B+ or higher in one of:
ENGL 2901, ENGL 2903, ENGL 2915; or departmental permission.

Workshop three hours a week.

ENGL 3916 [0.5 credit] Spoken Word Poetry Workshop

This intermediate-level workshop-based course explores traditions of spoken word poetry while requiring students to create and perform their own spoken word poems.

Includes: Experiential Learning Activity

Also listed as AFRI 3916.

Prerequisite(s): a grade of B+ or higher in one of: ENGL 2901, ENGL 2903, ENGL 2915; or departmental permission.

Workshops three hours a week.

ENGL 3920 [0.5 credit]

Literary Ecological Fieldwork

This interdisciplinary, experiential fieldwork course brings together literature, culture, and ecology studies. At least 50% of class periods will be devoted to short field work excursions in the Ottawa region. These excursions will be complemented by classroom discussion time. Field trip fees will apply.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the department.

Field work and lectures three hours a week.

ENGL 3930 [0.5 credit]

Topics in Decolonization and Migration II

An intermediate study of literature, culture, and research in the context of topics such as empire and decolonization, diaspora, migration and globalization, race, and ethnicity. Themes, authors, and geographical and temporal focus will vary.

Prerequisite(s): Third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3940 [0.5 credit] Studies in Diaspora Lit.

A study of diaspora literatures and cultures.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3960 [0.5 credit]

Studies in Indigenous Literature

A study of Indigenous literatures and cultures.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3965 [0.5 credit] Intro to Postcolonial Theory

A survey of major concepts and key figures in postcolonial

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3972 [0.5 credit]

Studies in Postcolonial Literature

A study of postcolonial literatures and cultures. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

ENGL 3999 [0.0 credit] **Co-operative Work Term**

Includes: Experiential Learning Activity

ENGL 4001 [0.5 credit] Studies in Poetry

A study of a selected topic in poetry.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4003 [0.5 credit] Studies in the Novel

A study of a selected topic in the novel.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4004 [0.5 credit]

Writing and Knowledge-Making in the Professions

The role of writing in constructing knowledge in the professions, as viewed from contemporary socio-cultural perspectives. Consideration of how the goals, values, and assumptions of different professions shape their writing in distinctive ways and what implications this holds for theory, research, and practice.

Includes: Experiential Learning Activity

Also listed as ALDS 4404.

Prerequisite(s): third-year standing or permission of the

instructor.

Seminars three hours a week.

ENGL 4005 [0.5 credit]

Studies in Literary Theory

Study of a selected topic in literary theory and criticism. Precludes additional credit for ENGL 4000 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4105 [0.5 credit]

Old English

Studies in Old English literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language.

Also listed as LING 4805.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

ENGL 4115 [0.5 credit]

Culture and the Text

Topics will vary from year to year.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4125 [0.5 credit]

Digital Culture and the Text I

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year. Also listed as DIGH 4002.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the Department.

Seminar or lecture three hours a week.

ENGL 4135 [0.5 credit] Studies in Publishing

Topics will vary from year to year.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4139 [0.5 credit]

Editing a Literary Magazine

In this experiential learning course students will work collaboratively to design, edit, produce, and publicize issues of a Carleton University literary magazine in digital and/or print formats.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing or permission of the Department.

Workshop three hours a week.

ENGL 4145 [0.5 credit]

Digital Culture and the Text II

A study of new developments in digital media and culture, and how they affect our understanding of literary modes, genres and textuality, including notions of authorship and reading strategies. Topics will vary from year to year. Also listed as DIGH 4003.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the Department.

Seminar or lecture three hours a week.

ENGL 4155 [0.5 credit]

Studies in Digital Humanities

A study of current issues and debates in the Digital Humanities.

Also listed as DIGH 4001.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the English Department.

Seminar or lecture three hours a week.

ENGL 4208 [0.5 credit]

Studies in Medieval Literature

A study of a selected topic in Medieval literature; requires previous experience reading medieval English.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4301 [0.5 credit]

Studies in Renaissance Literature

A study of a selected topic in Renaissance literature. Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4401 [0.5 credit]

Studies in 18th-Century Literature

A study of a selected topic in Restoration or 18th-century literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4404 [0.5 credit]

Digital Humanities Workshop

This workshop will provide students with the opportunity to complete an individual or collaborative capstone project in the Digital Humanities.

Includes: Experiential Learning Activity

Also listed as DIGH 4004.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the English Department.

Workshop three hours a week.

ENGL 4405 [0.5 credit]

Digital Humanities Practicum

Practical experience gained by working on projects under the supervision of the staff of a participating public- or private-sector institution or organization, including a final written assignment or equivalent project. A maximum of 1.0 practicum credit may be applied towards degree requirements.

Includes: Experiential Learning Activity

Also listed as DIGH 4005.

Prerequisite(s): ENGL 2401 and fourth-year standing, or permission of the English Department.

Practicum.

ENGL 4500 [0.5 credit] Studies in Romanticism

A study of a selected topic, 1770-1830.

Precludes additional credit for ENGL 4407 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

ENGL 4515 [0.5 credit]

Teaching Writing in School and the Workplace

Introduction to approaches for teaching writing in elementary and secondary school, in university, and in the workplace, with a focus on socio-cultural theories of language and learning. Discussion of applications of these approaches to classroom and workplace teaching.

Includes: Experiential Learning Activity

Also listed as ALDS 4405.

Prerequisite(s): third-year standing, or permission of the instructor.

Seminar three hours a week.

ENGL 4550 [0.5 credit] Studies in Victorian Literature

A study of a selected topic in 19th-century British literature, 1830-1900.

Precludes additional credit for ENGL 4501 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4600 [0.5 credit] The Great Russian Novel

A study of masterpieces of the Russian tradition, to be selected from among works by writers such as Tolstoy, Dostoevsky, Gogol, Turgenev, Bely, Bulgakov, and Nabokov. All novels will be read in English translation. Also listed as EURR 4103.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4601 [0.5 credit]

Studies in Contemporary Poetry

A comparative and transnational approach to 20th- and 21st -century poetry.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4605 [0.5 credit] Theatre Production Seminar

This course offers students advanced engagement with the theory and application of theatrical crafts and includes participation in a writing, acting, or technical capacity on a class production.

Includes: Experiential Learning Activity

Prerequisite(s): ENGL 3904 or permission of the

department.

Seminar three hours a week.

ENGL 4607 [0.5 credit]

Studies in 20th- and 21st-century Literature

A study of a selected topic in literature of the 20th and 21st century.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4609 [0.5 credit] **Global Stages and Theories**

An advanced study of dramatic texts from transnational, postcolonial, or European contexts. This course will offer sustained attention to specific theatre traditions, theatrical practice, and interpretation of texts. Topics and points of emphasis vary from year to year.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4708 [0.5 credit]

Studies in American Literature I

A study of a selected topic in American literature. Prerequisite(s): fourth-year standing or permission of the

Seminar or lecture three hours a week.

ENGL 4709 [0.5 credit]

department.

Studies in American Literature II

A study of a selected topic in American literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4802 [0.5 credit]

Race, Ethnicity and Canadian Lit.

A study of Canadian literature that engages with notions of race and ethnicity.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4806 [0.5 credit] Studies in Canadian Literature I

A study of a selected topic in Canadian literature.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4807 [0.5 credit]

Studies in Canadian Literature II

A study of a selected topic in Canadian literature.

Prerequisite(s): fourth-year standing or permission of the department.

ENGL 4908 [1.0 credit] **Independent Study**

Independent research and writing, under the supervision of English faculty, requiring an essay of approximately 10,000 words. A written proposal outlining the project must be submitted to the undergraduate supervisor by July 31. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in English with a CGPA of 10.0 in English courses, and permission of the undergraduate supervisor.

ENGL 4909 [0.5 credit]

Writing and Knowledge-Making in the Disciplines

The role of writing in constructing knowledge in academic disciplines, as viewed from contemporary socio-cultural perspectives. Consideration of how the goals, values, and assumptions of different disciplines shape their writing in distinctive ways and what implications this holds for pedagogy.

Includes: Experiential Learning Activity Also listed as ALDS 4403.

Precludes additional credit for LALS 5406 (no longer offered) or ALDS 5602 (no longer offered) or LALS 5602 (no longer offered).

Prerequisite(s): third-year standing or permission of the instructor.

Lectures three hours a week.

ENGL 4910 [0.5 credit] **Independent Creative Writing Project**

Independent creative writing, supervised by a Departmental faculty member, resulting in a poetry manuscript (10-15 poems), a one-act play, a 10,000-word novella, or two short stories. A proposal, coordinated with the faculty supervisor, must be submitted to the Undergraduate Supervisor by July 31. Includes: Experiential Learning Activity

Prerequisite(s): completion of required credits for the Creative Writing Concentration, fourth-year Honours standing in English with a CGPA of 10.00 in English courses, and permission of the Undergraduate Supervisor in conjunction with the faculty supervisor.

ENGL 4915 [0.5 credit] Advanced Writing Workshop

An advanced workshop involving regular assignments in creative writing and practical criticism based on this work. Topics will vary.

Includes: Experiential Learning Activity Prerequisite(s): a grade of B+ or higher in one of: ENGL 3902, ENGL 3903, ENGL 3906, ENGL 3915, ENGL 3916: or departmental permission.

Workshop three hours a week.

ENGL 4947 [0.5 credit]

Issues in Diaspora Literature

A study of a selected topic in diaspora literature and culture.

Precludes additional credit for ENGL 4907 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4950 [0.5 credit]

Topics in Postcolonial and Diaspora Lit. and Theory

A study of a selected topic in postcolonial and/or diaspora literatures and theories. Themes, authors, and geographical and temporal focus will vary.

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4960 [0.5 credit]

Indigenous Literatures I

A study of the literatures produced by Indigenous storytellers and writers, with a focus on the oral tradition and life writing.

Precludes additional credit for ENGL 4808 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4961 [0.5 credit] Indigenous Literatures II

A study of the contemporary period of Indigenous literature, examining the historical and mythic influences on the literature.

Precludes additional credit for ENGL 4808 and ENGL 4809 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

ENGL 4975 [0.5 credit] **Issues in Postcolonial Theory**

A study of a selected issue in postcolonial and/or diaspora

theory.

Prerequisite(s): fourth-year standing or permission of the department.

ENGL 4976 [0.5 credit] Issues in Postcolonial Literature

A study of a selected topic in postcolonial literature and culture.

Precludes additional credit for ENGL 4906 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

English as a Second Language (ESLA)

English as a Second Language (ESLA) Courses ESLA 1300 [1.0 credit]

Introductory English as a Second Language for Academic Purposes

For students with little or no experience with academic English. Introduction to integrated language strategies, critical thinking, and basic research techniques for success at university. Attendance and participation are compulsory.

Includes: Experiential Learning Activity
Prerequisite(s): placement by an approved English
language proficiency test, as determined by the School.
Not open to native speakers of English.

Six hours a week (one term), plus a two-hour weekly lab.

ESLA 1500 [1.0 credit]

Intermediate English as a Second Language for Academic Purposes

For students with moderate experience with academic English. Development and application of academic language conventions, critical thinking and research strategies for success at university. Attendance and participation are compulsory.

Prerequisite(s): grade of C or higher in ESLA 1300 or placement by an approved English language proficiency test, as determined by the School. Not open to native speakers of English.

Six hours a week (one term).

ESLA 1900 [1.0 credit]

Advanced English as a Second Language for Academic Purposes

For students needing further refinement of academic English. Analysis and synthesis of academic texts and consolidation of academic language and research practices. Attendance and participation are compulsory. Prerequisite(s): grade of C+ or higher in ESLA 1500 or placement by an approved English language proficiency test, as determined by the School. Not open to native speakers of English.

Six hours a week (one term).

ESLA 2000 [0.5 credit]

English Language Development for Specific Purposes

-1

For students in designated programs. Designed primarily for students whose first language is not English. Topics to be determined.

Prerequisite(s): permission of the School.

Three hours a week.

ESLA 3000 [0.5 credit]

English Language Development for Specific Purposes

For students in designated programs. Designed primarily for students whose first language is not English. Topics to be determined.

Prerequisite(s): permission of the School.

Three hours a week.

Environmental and Climate Humanities (EACH)

Environmental and Climate Humanities (EACH) Courses

EACH 2000 [0.5 credit]

Introduction to the Environmental and Climate Humanities

An overview of approaches to environmental and climate change issues in the Humanities. Drawing on a range of disciplinary perspectives, students will engage with material depicting climate change and environmental topics, as well as develop research and communication strategies.

Prerequisite(s): second-year standing.

Seminar three hours a week.

EACH 4000 [0.5 credit] Seminar in the Environmental and Climate Humanities

A capstone seminar designed to refine analytic and research skills related to environmental and climate humanities and to provide students with the opportunity to engage in a research or community engagement project, either individually or in groups. Topics vary from year to year

Includes: Experiential Learning Activity

Prerequisite(s): EACH 2000 and third-year standing.

Seminar three hours a week.

Environmental Engineering (ENVE)

Environmental Engineering (ENVE) Courses ENVE 1001 [0.5 credit]

Architecture and the Environment

Impacts of the environment on architecture; deterioration, freeze/thaw, solar heat, air pollution, moisture; Impacts of architecture on the environment; ecologic footprint, energy consumption, air quality, waste generation; designing with the environment; renewable energy, effective siting and landscape, passive solar energy, natural lighting, energy efficiency.

Also listed as ACSE 2001, ARCH 1222.

Lectures three hours a week, problem analysis one and a half hours a week.

ENVE 2001 [0.5 credit]

Process Analysis for Environmental Engineering

Material and energy balances for reacting and nonreacting systems. Applications in mining, metallurgy, pulp and paper, power generation, energy utilization. Emissions to the environment per unit product or service generated. Introduction to life cycle analysis, comparative products and processes.

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent, and MAAE 2400 (may be taken concurrently), and second-year status in Engineering.

Lectures two hours a week, problem analysis three hours a week.

ENVE 2002 [0.5 credit] Microbiology

The biology of the Bacteria, Archaea, Viruses and Protozoans, from the fundamentals of cell chemistry, molecular biology, structure and function, to their involvement in ecological and industrial processes and human disease.

Also listed as BIOL 2303.

Prerequisite(s): BIOL 1103 or CHEM 1002 or CHEM 1101 or equivalent.

Lectures three hours a week.

ENVE 3001 [0.5 credit]

Water Treatment Principles and Design

Theoretical aspects of unit operations for water treatment with design applications. Topics include water characteristics and contaminants, coagulation, flocculation, sedimentation, filtration, adsorption, ion exchange, membrane processes, disinfection and disinfection by-products, and management of water treatment residuals. Laboratory procedures: settling operations, filtration, aeration, and adsorption.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 3002.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 3002 [0.5 credit]

Environmental Engineering Systems Modeling

Engineered systems for pollution abatement; chemical reaction engineering; reaction kinetics and rate data analysis; design and modeling of reactors; single and multiple reactions; ideal and nonideal reactors; single and multi-parameter models; biochemical reaction engineering; process control. Laboratory procedures: reactor systems performance: Batch, CSTR and PFR.

Includes: Experiential Learning Activity

Prerequisite(s): CHEM 1002 or CHEM 1101, MATH 2004 (or concurrent), and second-year status in Engineering. Additional recommended background: ENVE 2001. Lectures three hours a week, problem analysis 2 hours a week, laboratory 1.5 hours alternate weeks.

ENVE 3003 [0.5 credit] Water Resources Engineering

A quantitative analysis of natural water systems and the development of these systems as a resource. Components of the hydrologic cycle. Quantitative analysis of stream flow. Probability concepts in water resources. Reservoir design and operation. Hydraulic properties and availability of groundwater. Storm water management. Also listed as GEOG 4103.

Prerequisite(s): third-year status in Engineering. Lectures three hours a week, problem analysis one hour a week.

ENVE 3004 [0.5 credit] Contaminant and Pollutant Transport in the Environment

Physical phenomenon governing the transport of contaminants in the environment: diffusion, advection, dispersion, sorption, interphase transfer. Derivation and application of transport equations in air, surface and groundwater pollution; analytical and numerical solutions. Equilibrium partitioning of contaminants among air, water, sediment, and biota.

Prerequisite(s): CHEM 1002 or CHEM 1101 or equivalent; ENVE 3002.

Lectures three hours a week, problem analysis one hour a week

ENVE 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

ENVE 4002 [0.5 credit]

Environmental Geotechnical Engineering

Landfill design; hydrogeologic principles, water budget, landfill liners, geosynthetics, landfill covers, quality control/quality assurance, clay leachate interaction, composite liner design and leak detection. Landfill operation, maintenance and monitoring. Case studies of landfill design and performance. Geotechnical design of environmental control and containment systems. Prerequisite(s): ENVE 3004, CIVE 3208.

Also offered at the graduate level, with different requirements, as ENVE 5201/EVG 7201, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week

ENVE 4003 [0.5 credit]

Air Pollution and Emissions Control

Air pollutants, classification, sources, and effects. Ambient air quality objectives and monitoring. Pollutant formation mechanisms in combustion. Major pollutant categories and control methods. Indoor air quality. Laboratory procedures: emissions from boilers and IC engines, particulate size distribution and control, IAQ parameters.

Includes: Experiential Learning Activity
Prerequisite(s): MAAE 2400 and fourth-year status in
Engineering or permission of the department.
Also offered at the graduate level, with different
requirements, as ENVE 5101/EVG 7101, for which
additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 4005 [0.5 credit]

Wastewater Treatment Principles and Design

Theoretical aspects of unit operations and processes for wastewater treatment with design applications. Topics include wastewater characteristics, flow rates, primary treatment, chemical unit processes, biological treatment processes, advanced wastewater treatment, disinfection, biosolids treatment and disposal. Laboratory procedures: activated sludge, anaerobic growth, chemical precipitation, disinfection.

Includes: Experiential Learning Activity
Prerequisite(s): ENVE 3001, ENVE 3002.
Also offered at the graduate level, with different requirements, as ENVE 5008, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week, laboratory three hours alternate weeks.

ENVE 4006 [0.5 credit] Contaminant Hydrogeology

Theory of flow through porous media. Site investigation: geology, hydrology and chemistry. Contaminant transport. Unsaturated and multiphase flow. Numerical modeling. Site remediation and remediation technologies.

Prerequisite(s): ENVE 3004 and MAAE 2300. Additional recommended background: ENVE 3003.

Also offered at the graduate level, with different requirements, as ENVE 5301/EVG 7301, for which additional credit is precluded.

Lectures three hours a week, problem analysis one and a half hours a week.

ENVE 4101 [0.5 credit] Waste Management

Municipal, hazardous, and mine waste management. Waste composition and potential impacts, collection and transport, recycling and reuse, biological and thermal treatments, isolation. Integrated waste management

Prerequisite(s): ENVE 3001, ENVE 3002 and ENVE 3004.

Also offered at the graduate level, with different requirements, as ENVE 5203/EVG 5203, for which additional credit is precluded.

Lectures three hours a week, problem analysis one hour a week.

ENVE 4104 [0.5 credit]

Environmental Planning and Impact Assessment

Canada and U.S. environmental regulations. Framework for Environmental Impact Assessment, survey techniques for impact assessment and EIA review process. Case studies of selected engineering projects. Environmental planning, management of residuals and environmental standards. Risk assessment, policy development and decision-making. Fault-tree analysis.

Includes: Experiential Learning Activity
Prerequisite(s): ENVE 3004 and fourth-year status in
Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

ENVE 4105 [0.5 credit] **Green Building Design**

Concepts, calculations, modeling; design of green buildings and their components; sustainable sites and landscaping; passive design; building envelope; building materials; daylighting; heating, cooling, and ventilation; building-integrated renewable energy systems; indoor environmental quality; overview of building standards and codes.

Also listed as ACSE 3105.

Prerequisite(s): Third-year status in B.Eng. in Architectural Conservation and Sustainability Engineering. Civil Engineering, or Environmental Engineering or fourthyear standing in B.A.S. concentration in Conservation and Sustainability.

Lectures three hours a week, problem analysis one and a half hours per week.

ENVE 4106 [0.5 credit] **Indoor Environmental Quality**

Indoor environmental quality (air quality, thermal, visual, and acoustic comfort); physical and chemical parameters for characterization. Types and sources of indoor air pollution and discomfort; measurement techniques. Heating, ventilation, air conditioning, lighting practices and issues. Modelling of and design for indoor environmental

Also listed as ACSE 4106.

Prerequisite(s): fourth year status in B.Eng. Architectural Conservation and Sustainability Engineering or B.Eng. Environmental Engineering or fourth year standing in B.A.S. concentration in Conservation and Sustainability. Also offered at the graduate level, with different requirements, as ENVE 5104, for which additional credit is precluded.

Lectures three hours a week, laboratory three hours alternate weeks.

ENVE 4107 [0.5 credit] Building Services Engineering

This course provides details on how buildings are designed and operated. The materials provide foundational knowledge to understand building services: mechanical, electrical, plumbing systems with associated controls.

Also listed as ACSE 4107.

Prerequisite(s): CIVE 3209 and ENVE 4105. Lecture three hours per week, problem analysis three hours every other week.

ENVE 4200 [0.5 credit] Climate Change and Engineering

Survey of the physical science of climate change, impacts on the built environment, and climate adaptation in engineering. Greenhouse gases, global warming, paleoclimatology, and Earth system responses. Climate change impacts on structural, water, transportation, and energy systems. Climate vulnerability assessment, examples of design adaptation.

Prerequisite(s): Fourth-year status in Engineering. Also offered at the graduate level, with different requirements, as ENVE 5200, for which additional credit is precluded.

Lecture three hours per week, problem analysis three hours every other week.

ENVE 4907 [1.0 credit] Engineering Research Project

A research project in engineering analysis, design or development carried out by individual students or small teams, for an opportunity to develop initiative, selfreliance, creative ability and engineering judgment and is normally intended for students with high CGPAs and an interest in graduate studies.

Includes: Experiential Learning Activity Precludes additional credit for ENVE 4917. Prerequisite(s): fourth-year status in Engineering and permission of the department.

ENVE 4917 [0.5 credit] Undergraduate Directed Study

Student carries out a study, analysis, and solution of an engineering problem which results in a written final report. Carried out under close supervision of a faculty member. Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity Precludes additional credit for ENVE 4907. Prerequisite(s): permission of the Department and completion of, or concurrent registration in, ENVE 4918. Self study.

ENVE 4918 [1.0 credit] Design Project

Teams of students develop professional level experience through a design project that incorporates fundamentals acquired in previous mathematics, science, engineering, and complementary studies courses. A final report and oral presentations are required.

Includes: Experiential Learning Activity

Precludes additional credit for ACSE 4918, CIVE 4918. Prerequisite(s): ECOR 3800 and fourth-year Status in Engineering. Certain projects may have additional requirements.

Lectures two hours alternate weeks, problem analysis three hours a week.

Environmental Science (ENSC)

Environmental Science (ENSC) Courses ENSC 1500 [0.5 credit]

Environmental Science Seminar

The purpose and nature of the program; society's view on the natural and human-modified environment; major environmental issues and their scientific aspects; preparation and presentation of paper and seminars. Includes: Experiential Learning Activity

Prerequisite(s): enrolment in the Environmental Science program.

Lectures, seminars and workshops four hours a week.

ENSC 2000 [0.5 credit] Environmental Science Field Methods

A field-based course introducing students to practical methods in environmental science. Topics will include earth sciences, geography, biology, and chemistry related aspects of environmental sciences and will focus on quantitative techniques to assess environmental impacts and management. A supplementary fee will apply. Includes: Experiential Learning Activity Prerequisite(s): ERTH 1002 and BIOL 1004 or BIOL 1104,

Prerequisite(s): ERTH 1002 and BIOL 1004 or BIOL 110 CHEM 1001 and CHEM 1002 and permission of the Institute.

Field trips, lectures and workshops, seven hours per week (delivered on a single day and on up to two mandatory weekend trips).

ENSC 2001 [0.5 credit]

Earth Resources and Natural Hazards: Environmental Impacts

Environmental impact of mineral, energy and water resource exploitation and impact of hazardous Earth processes such as volcanic eruptions, earthquakes and others: their prediction and mitigation.

Lectures three hours per week.

ENSC 2002 [0.5 credit]

Methods and Analysis in Environmental Science

Study and application of qualitative and quantitative techniques in environmental science, including study design, data collection and assembly, database manipulation, data analysis, and critically evaluating scientific information.

Includes: Experiential Learning Activity
Prerequisite(s): STAT 2507 or permission from the
Institute.

Lectures and seminars three hours a week.

ENSC 3000 [0.5 credit]

Environmental Science and Management: Theory and Practice

Theoretical and practical perspectives related to environmental science and management; Emphasis on real-world problems associated with human activities and development of solutions in natural and built environments; Hands-on experience with environmental monitoring and restoration. A supplementary fee will apply.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing in Environmental
Science or permission of the Institute.
Field trips, lectures and workshops, 7 hours per week
(delivered on a single day).

ENSC 3002 [0.5 credit] Applied Data Analysis

Data analysis strategies to tackle real-world, wicked problems. Includes a hands-on applied environmental data science project with a variety of partners. Topics include: obtaining and working with data, exploring causal relationships, data ethics, communicating data, and moving from data to information to action.

Includes: Experiential Learning Activity Also listed as ISAP 3001. Prerequisite(s): STAT 2507. Lecture three hours per week.

ENSC 3106 [0.5 credit]

Aquatic Science and Management

Fundamentals of aquatic science. The physical, chemical, and biotic aspects of lake, river, and estuary systems including human impacts, management and conservation. Includes: Experiential Learning Activity

Also listed as GEOG 3106.

Prerequisite(s): third-year standing and a second year science or engineering course. lectures, three hours per week

ENSC 3509 [0.5 credit]

Group Research in Environmental Science

Major project relating to an issue involving environmental science; effective methods of team research and presentation of group work. May include field work during class time or on weekends.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing in the Honours
Environmental Science program or permission of the
Institute.

Lectures, seminars and workshops three hours a week.

ENSC 3700 [0.5 credit]

Topics in Environmental Science

Specific topics of current interest. Topics may vary from year to year.

Prerequisite(s): Third year standing in the Environmental Science program or permission of the Institute.

ENSC 3906 [0.5 credit]

Project Planning for Environmental Research

Independent or group study on the fundamentals of scientific investigation, which may include use of literature, learning of research techniques, and development of a research proposal, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work. Includes: Experiential Learning Activity

Prerequisite(s): Good standing in third year Environmental

Science and permission of the Institute.

ENSC 3999 [0.0 credit] Co-operative Work Term

Practical experience for students enrolled in the Cooperative Option. To receive course credit a student must receive satisfactory evaluations from their work term employer. Written reports describing the work term project will be required. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): registration in the Environmental Science Co-operative Option and permission of the Institute. Fourmonth work term.

ENSC 4001 [0.5 credit]

Environmental Science Practicum

Experience working in the environmental science sector, applying academic training to practical environmental issues. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Environmental

Science program.

practicum

ENSC 4002 [0.5 credit] Environmental Decisions

The regulatory and scientific aspects of environmental management decisions, including risk analysis and mitigation, managing chronic and acute environmental impacts, and conservation of species and landscapes. Students will use real-world case studies to learn traditional and cutting-edge decision-making tools. Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in any B.Sc. program or permission of the Institute.

Workshops three hours per week.

ENSC 4003 [0.5 credit]

Food Systems and the Environment

This course explores issues of food systems and their sustainability. We will discuss aspects of food systems, including production, distribution, consumption, waste management, and their impact on communities and the environment.

Includes: Experiential Learning Activity
Prerequisite(s): third year standing in B.Sc. or B.HSc.
program or permission of the Institute.
Lecture three hours per week.

ENSC 4005 [0.5 credit]

Environmental Solutions and Sustainability Science

Focus on conceptualization and application of different knowledges and knowledge systems to complex, interdisciplinary real-world problems through an environmental lens. Development of skills and mindset needed to generate creative solutions that will be embraced by diverse publics and decision makers. Includes: Experiential Learning Activity

Precludes additional credit for ENSC 4700A if taken in Winter term 2021 or Winter term 2022.

Prerequisite(s): Third year standing in B.Sc. programs in Environmental Science, Interdisciplinary Science and Practice, Earth Science, Biology, and Geography and B.A. programs in Biology and Geography, or permission of the Institute.

Lecture, seminar, or workshops three hours a week.

ENSC 4700 [0.5 credit]

Topics in Environmental Science

Prerequisite(s): third-year standing in the Environmental Science program or permission of the Institute. Lectures and discussion three hours a week.

ENSC 4901 [0.5 credit] Directed Projects

Independent or group study, for fourth-year students to explore a particular project, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work. Includes: Experiential Learning Activity Prerequisite(s): permission of the Institute. Students normally may not offer more than 1.0 credit of Directed Special Studies in their program.

ENSC 4906 [1.0 credit] Honours Research Project

NEUR 4908.

An independent investigation into an aspect of environmental science supervised by a member of the faculty. Approval of the topic and the research schedule must be obtained from the project supervisor and the course coordinator before the last date for registration. Includes: Experiential Learning Activity Prerequisite(s): fourth-year standing in the Honours Environmental Science program, a major CGPA 8.0 and permission of the Institute. independent study

ENSC 4909 [1.0 credit] Translational Approach to Indigenous Community Wellness

This course involves co-developing an Indigenous

community-led process or product that addresses a current and specific mental health issue. Involves working in interdisciplinary groups with a community partner. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity Also listed as ISAP 4909, MPAD 4906, NEUR 4906. Precludes additional credit for ENSC 4906, ISAP 4906, ISAP 4907, ISAP 4908, NEUR 4905, NEUR 4907,

Prerequisite(s): Fourth-year standing with a minimum Major CGPA of 10.0 in the Honours Environmental Science program and permission of the instructor. Seminars or workshops three hours a week. A field trip to the partner community is typically required.

Environmental Studies (ENST)

Environmental Studies (ENST) Courses ENST 1000 [0.5 credit] Introduction to Environmental and Climate Change Studies

A critical introduction to the scholarly field of environmental studies, with an emphasis on society-environment entanglements. It is designed to engage with environmental and climate change issues. Possible themes include population, scarcity, institutions, commons, risks, hazards, markets, political economy, and the social construction of nature.

Precludes additional credit for FYSM 1100 and ENST 1001 (no longer offered).

Lecture two hours and workshops/tutorials one hour weekly.

ENST 1020 [0.5 credit] People, Places and Environments

Introduction to human geography. Examination of relationships between people, communities, society and the natural environment at local to global scales. Population change, cultural patterns, and historical, economic, political and environmental forces, including climate change, that shape human activity and experiences from place to place.

Includes: Experiential Learning Activity Also listed as GEOG 1020.

Lectures two hours a week and tutorial one hour a week.

ENST 2000 [0.5 credit] Environmental Justice

Contemporary and foundational theories, practice and praxis of environmental justice in Canadian and comparative settings. Combine and communicate about aspects of the physical, built and social environments to understand how uneven conditions develop. Strategies and ideas to move towards greater equity and good environmental relationships.

Prerequisite(s): second-year standing in the Environmental Studies program or permission of the Department. Lecture two hours a week, discussion one hour a week.

ENST 2001 [0.5 credit]

Sustainable Futures: Environmental Challenges and Solutions

Individual and collective responses to pressing environmental problems, such as climate change. Innovative ways in which the environment can be protected and restored, taking into consideration socioeconomic, political and cultural factors. Topics include environmental lifestyles, sustainable communities, food systems, environmental design, and political activism.

Includes: Experiential Learning Activity
Prerequisite(s): second-year standing in the
Environmental Studies program or permission of the
Department.

Lectures, seminars and field work three hours a week.

ENST 2005 [0.5 credit] Introduction to Qualitative Research

Introduction to the research process, from generating questions through to reporting results. Topics include intensive and extensive research approaches; the use of surveys, interviews and other data collection methods; the analysis of qualitative information; and the ethical dimensions of doing research with people and communities.

Includes: Experiential Learning Activity Also listed as GEOG 2005.

Prerequisite(s): 1.0 credit in GEOG or ENST at the 1000-level and second-year standing, or permission of the Department.

Lectures two hours a week, workshop two hours a week.

ENST 2006 [0.5 credit] Introduction to Quantitative Research

Introduction to solving problems using descriptive and inferential statistical methods. Graphical and numerical tools to describe distributions. Probability, sampling and estimates, and hypothesis testing. Fundamentals of spatial statistics and analysis.

Includes: Experiential Learning Activity Also listed as GEOG 2006.

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), DATA 1517, ECON 2210, NEUR 2002, PSCI 2702, STAT 2507, STAT 2601, STAT 2606.

Lectures two hours a week, laboratory two hours a week.

ENST 2500 [0.5 credit]

Climate Change: Social Science Perspectives

An introduction to climate change as a political, economic and socio-cultural phenomenon, including the political-economic and world-historical causes of anthropogenic greenhouse gas emissions; variations in impact and vulnerability; climate justice and other political movements; global mitigation and adaptation strategies; and proposals for radical systemic change.

Includes: Experiential Learning Activity

Also listed as GEOG 2500.

Prerequisite(s): second-year standing or permission of the department.

Lectures two hours a week, discussion groups one hour a week.

ENST 3000 [0.5 credit] Nature, Environment and Society

Overview of social science perspectives analyzing the relationship of nature and society. Examination of environmental problems, responses, and potential solutions through the study of concepts, theories, and research drawn from a range of scholarly approaches to environmental and climate change studies.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing in Environmental
Studies or permission of the department.
Lecture and discussion three hours a week.

ENST 3022 [0.5 credit]

Environmental and Natural Resources

Exploration of complexity, dynamics, uncertainty and equity issues underpinning environmental and resource issues; review and appraisal of selected contemporary methods to assess and manage environmental and natural resources.

Includes: Experiential Learning Activity Also listed as GEOG 3022.

Prerequisite(s): third-year standing in Geography or Environmental Studies or BGInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

ENST 3500 [0.5 credit]

Climate Justice and Action: Organizing for a Just, Equitable and Sustainable World

Exploration of how communities and movements fight the climate crisis and build alternative futures. It combines critical theory with hands-on learning to examine the collective actions and organizing strategies through which social movements tackle the systemic factors shaping climate change and its uneven impacts.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

ENST 3900 [0.5 credit] Honours Field Course

Field research, with a focus on data collection methods, analysis and presentation of findings. Design and conduct research that links the human and biophysical environment. Topics may change from year to year. Includes: Experiential Learning Activity Also listed as GEOG 3000.

Precludes additional credit for ENST 2900 (no longer offered).

Prerequisite(s): GEOG 2005/ ENST 2005 and GEOG 2006/ ENST 2006, third-year Honours standing in Environmental Studies, Geomatics, or Geography, or permission of the Department.

Normally consists of a multi-day field excursion in the Ottawa region. A supplementary charge may apply. Consult the department regarding course details.

ENST 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

ENST 4000 [0.5 credit]

Environmental and Climate Change Studies Seminar

An advanced seminar designed to provide a capstone experience that builds upon and applies the analytical skills and interdisciplinary knowledge acquired in the Environmental Studies program. Topics vary year to year and by course section (see departmental website). Includes: Experiential Learning Activity Prerequisite(s): Registration is restricted to students eligible for fourth-year standing in the B.A. (Environmental Studies) Honours program. Seminar three hours per week.

ENST 4001 [0.5 credit]

Environmental Studies Practicum I

Students apply their knowledge and research skills and gain experience through field placements in government, the private sector, non-government organisations and with community organisations in the environmental field. Includes: Experiential Learning Activity

Prerequisite(s): registration is restricted to students eligible for fourth-year standing in the B.A. (Environmental Studies) Honours program, and permission of the Environmental Studies Co-ordinator.

ENST 4002 [0.5 credit]

Environmental Studies Practicum II

Students apply their knowledge and research skills and gain experience through field placements in government, the private sector, non-government organisations and with community organisations in the environmental field. Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the fourth year of the Environmental Studies Honours program, and permission of the Environmental Studies Co-ordinator.

ENST 4004 [0.5 credit]

Environmental Impact Assessment

Principles, scope and purpose of environmental impact assessment, from conceptual and methodological points of view; range of environmental issues, with emphasis on Canadian case studies.

Includes: Experiential Learning Activity

Also listed as GEOG 4004.

Prerequisite(s): GEOG 3022 or ENST 3022, and fourthyear Honours standing in Geography or Environmental Studies or Environmental Science, or permission of the Department.

Lectures and seminars three hours per week.

ENST 4005 [0.5 credit]

Directed Studies in Environmental Studies

Students pursue their interest in a selected theme in environmental studies on a tutorial basis with a faculty member.

Prerequisite(s): permission of the Department.

ENST 4006 [0.5 credit] Environmental Policy Analysis

Critical examination of the creation, implementation and effectiveness of government policies related to environmental issues. Emphasis on perspectives, actors, institutions and social and economic relationships affecting policy responses to these issues, and on tools for analyzing the implications of specific policy choices. Prerequisite(s): fourth-year Honours standing in Environmental Studies, Geography, or permission of the Department.

Seminar three hours per week.

ENST 4007 [0.5 credit]

Special Topics in Geography and Environmental Studies

Selected topics in geography and/or environmental studies.

Also listed as GEOG 4007.

Precludes additional credit for GEOG 4006 (no longer offered).

Prerequisite(s): fourth-year Honours standing in the Department or permission of the Department. Seminar three hours per week.

ENST 4022 [0.5 credit]

Seminar in People, Resources, and Environmental Change

A selected topic or field of inquiry concerning natural resource use and environmental change.

Also listed as GEOG 4022.

Prerequisite(s): GEOG 3022 or ENST 3022 and fourthyear Honours standing in Geography or Environmental Studies or BGInS Specialization in Globalization and Environment, or permission of the Department. Seminar three hours per week.

ENST 4050 [0.5 credit]

Environmental and Geographic Education

Selected theoretical and applied issues concerning environmental and geographic education.
Also listed as GEOG 4050.

Prerequisite(s): Third-year honours standing in Geography or Environmental Studies, or permission of the Department.

Seminar three hours per week.

ENST 4400 [0.5 credit]

Field Studies

Field observation and methodology in a selected region, special topic or contemporary problem; on an individual or group basis.

Includes: Experiential Learning Activity

Also listed as GEOG 4000.

Prerequisite(s): third-year Honours standing and

permission of the Department.

Hours to be arranged.

ENST 4450 [0.5 credit]

Community-Engaged Research

Working in partnership with local organizations, students apply their geographical knowledge to conduct community-engaged research. Student projects will generate outputs for community partners. Research topics vary year to year.

Includes: Experiential Learning Activity

Also listed as GEOG 4450.

department.

Lectures, discussion and project work three hours a week.

ENST 4906 [1.0 credit] Honours Research Project

An independent investigation into a select aspect of environmental studies, supervised by a faculty member. Possible outcomes might include: workshops, audiovisual productions, lay publications, and field projects accompanied by an essay demonstrating the student's capacity to critically reflect on the research project. Includes: Experiential Learning Activity Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4909, GEOM 4909, GEOG 4906, GEOM 4906, and ENST 4907. Prerequisite(s): fourth-year Honours standing in Environmental Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

ENST 4907 [1.0 credit] Honours Research Essay

Interdisciplinary research essay on an environmental issue, carried out in consultation with a faculty supervisor. The student must consult with the undergraduate student advisor in selecting a project and a supervisor.

Includes: Experiential Learning Activity

Precludes additional credit for ENST 4906, GEOG 4909, GEOM 4909, GEOG 4904/GEOM 4904 (no longer

offered), GEOG 4906 and GEOM 4906.

Prerequisite(s): fourth-year Honours standing in Environmental Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

European, Russian and Eurasian Studies (EURR)

European and Russian Studies (EURR) Courses EURR 1001 [0.5 credit]

Introduction to European and Russian Studies

An introduction to the study of Europe and Russia, including aspects of the histories, societies, cultures, and politics of the region.

Includes: Experiential Learning Activity Lectures/groups three hours a week.

EURR 2010 [0.5 credit]

European, Russian and Eurasian Politics, Society and International Affairs

An interdisciplinary examination of the domestic issues facing the countries of Europe, Russia and Eurasia and the position of these countries in a global context, including geopolitical, economic, security and human dimensions.

Precludes additional credit for EURR 2001 (no longer offered), EURR 2002 (no longer offered).

Prerequisite(s): second year standing.

Lecture and discussion three hours a week.

EURR 3010 [0.5 credit]

Europe, Russia and Eurasia Beyond Borders: Literature and Culture

An exploration of the cultural borders and boundaries of contemporary Europe, Russia and Eurasia. Using literary and visual texts, the course explores issues such as migration, cultural and political borders and their transcendence, cultural responses to authoritarianism, the Cold War and its afterlives, and memory.

Also listed as ENGL 3020.

Precludes additional credit for EURR 3001 (no longer offered), EURR 3002 (no longer offered). Prerequisite(s): second year standing.

Lecture and discussion three hours a week.

EURR 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity
Prerequisite(s): registration in the B.A. European
and Russian Studies (Honours) Co-operative option,
completion of the Co-op preparation classes offered by the
Co-op Office and permission of the Institute.

EURR 4002 [0.5 credit]

Post-Soviet States and Societies

The relationship between social forces and state structures at both the national and local levels in the USSR and the post-Soviet states.

Also listed as PSCI 4502.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5002, PSCI 5110, for which additional credit is precluded.

Seminar three hours a week.

EURR 4008 [0.5 credit]

Nationalism in Russia and Eurasia

Ethnic basis of nationalism in the region. Ethnic politics and trends.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5008, for which additional credit is precluded.

Seminar three hours a week.

EURR 4100 [0.5 credit]

Nation-Building in Central and Eastern Europe

Processes of nation building in the region examined in terms of a particular country, or set of countries. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or

permission of the Institute.

Also offered at the graduate level, with different

Also offered at the graduate level, with different requirements, as EURR 5100, for which additional credit is precluded.

Seminar three hours a week.

EURR 4101 [0.5 credit]

The Balkans in Transition - 1918 to 1989

The seminar uses the concept of transition to understand the Balkan encounter with modernity and Europe. Key periods to be examined include the interwar era and the period of communist rule, with an emphasis on political, social and economic themes.

Also listed as HIST 4605.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.
Seminar three hours a week.

EURR 4102 [0.5 credit] The Balkans since 1989

Selected topics in Balkan politics and society since the collapse of communism in 1989, focusing on the democratic transition and the EU accession process. The legacies of communist rule, democratization and the many national questions that still exist in the region.

Also listed as PSCI 4507.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4103 [0.5 credit] The Great Russian Novel

A study of masterpieces of prose fiction from the Golden Age of Russian literature. Readings will be chosen from writers such as Turgenev, Tolstoy, Dostoevsky, Gogol, and/or others. All texts will be studied in English translation.

Also listed as ENGL 4600.

Prerequisite(s): Third-year standing.

Lecture three hours a week.

EURR 4104 [0.5 credit]

European Integration and European Security

Issues related to the formation of supra-national decisionmaking structures in Europe.

Includes: Experiential Learning Activity

Also listed as PSCI 4608.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5104, for which additional credit is precluded.

Seminar three hours a week.

EURR 4106 [0.5 credit]

Selected Topics in European Integration Studies

Selected topics related to European integration in the post-World War II period.

Also listed as PSCI 4609.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4107 [0.5 credit]

Russia's Regional and Global Ambitions

Domestic conditions in Russia from 2000 to the present and the framing of Russia's foreign policy and strategic objectives towards the former Soviet republics and other key global actors, including the United States, the European Union, NATO and China.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or

permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5107, for which additional credit is precluded.

Seminar three hours a week.

EURR 4201 [0.5 credit]

Special Topics in European Studies

A seminar focusing on selected topics related to Europe. Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4202 [0.5 credit]

Special Topics in Russian and Eurasian Studies

A seminar focusing on selected topics related to Russia and neighbouring countries.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5202, for which additional credit is precluded.

Seminar three hours a week.

EURR 4204 [0.5 credit]

Central Europe, Past and Present

Evolution and current status of Central Europe from periods of foreign control in the late nineteenth and twentieth centuries to independent statehood, with emphasis on national accommodations and conflicts. Also listed as HIST 4604.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5204, for which additional credit is precluded.

Seminar three hours a week.

EURR 4205 [0.5 credit]

Politics of Identity in Europe and the Russian Area

The relationships between political transformation, identity-building, ethnicity, and gender politics in post-communist states, considered in comparison with select countries in Central and/or Western Europe.

Includes: Experiential Learning Activity

Also listed as PSCI 4501.

Prerequisite(s): Fourth-year Honours standing or permission of the Department and one of PSCI 2101, PSCI 2102, PSCI 2500, PSCI 3208, PSCI 3209, PSCI 3500. PSCI 3502.

Seminar three hours a week.

EURR 4206 [0.5 credit] Internship and Applied Policy Skills

A seminar accompanying an unpaid internship placement to develop workplace and applied policy skills. Relating applied experience to academic literature. Writing skills for an applied policy setting. Internship placement: 12 days over I2 weeks.

Includes: Experiential Learning Activity
Prerequisite(s): open only to fourth-year EURUS B.A.
Honours students with a minimum B+ average and
placement in an internship position in the same semester
or in the previous semester (based on a competitive
application process).

Also offered at the graduate level, with different requirements, as EURR 5301, for which additional credit is precluded.

Seminar: six three-hour seminar sessions.

EURR 4207 [0.5 credit] Politics of Central Eurasia

Examination of the Caucasus and Central Asia, from Chechnya to former Soviet republics of the region, Afghanistan and Chinese Turkestan. Interests of Russia, China, and the United States. Emphasis on underdevelopment, oil and gas, terrorism, Islam. Includes: Experiential Learning Activity

Also listed as PSCI 4503.

Prerequisite(s): fourth year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4208 [0.5 credit]

Foreign Policies of Soviet Successor States

The foreign policies of the USSR and of Russia and selected other successor states, with special emphasis on the search for a new security order.

Also listed as PSCI 4601.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Seminar three hours a week.

EURR 4209 [0.5 credit]

Politics of the Caucasus and Caspian Basin

Examination of the South Caucasus (Azerbaijan, Georgia, Armenia), the Russian-held North Caucasus, including Chechnya, and relations with Iran. Emphasis on state and society, oil and gas, transregional communications, interests of western powers, ethnic relations.

Includes: Experiential Learning Activity

Also listed as PSCI 4504.

Prerequisite(s): fourth-year Honours standing or

permission of the Institute. Seminar three hours a week.

EURR 4302 [0.5 credit] EU Summer Study Abroad

This course is open only to students in approved summer study options in Europe, particularly the EU Study Tour. Includes: Experiential Learning Activity Prerequisite(s): approval of the Institute. Also offered at the graduate level, with different requirements, as EURR 5302, for which additional credit is precluded.

EURR 4303 [0.5 credit]

Contemporary Europe: From Postwar to the European Union

History of contemporary Europe from 1945 to present covering both eastern and western halves of the continent and including social, cultural, political, and economic dimensions.

Includes: Experiential Learning Activity

Also listed as HIST 4606.

Prerequisite(s): fourth-year Honours standing or

permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5303, for which additional credit is

precluded. Seminar three hours a week.

EURR 4304 [0.5 credit]

Europe and International Migration

Europe's role in international migration. Topics to be discussed may include migration and mobility as both assets and challenges for sending, transit, and destination countries, changing geographies of migration, inclusion and exclusion, political mobilization, and responses of European states and other actors.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5304, for which additional credit is precluded.

Seminar three hours a week.

EURR 4305 [0.5 credit]

Imperial Russia and the Russian Revolution

Examination of the expansion and downfall of tsarist Russia from the eighteenth century to the revolutionary era and the establishment of Bolshevik rule. Topics include the relationship between the monarchy and subject peoples, social and economic change, and daily life.

Includes: Experiential Learning Activity

Also listed as HIST 4607.

Precludes additional credit for EURR 4203. Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5305, for which additional credit is precluded.

Seminar three hours a week.

EURR 4306 [0.5 credit]

The Soviet Union: Power and Culture

Examination of the rise of the Soviet Union to a global power and subsequent tensions that promoted its collapse. The course will analyze Stalinism, the Second World War, the Thaw, and Brezhnev and Gorbachev eras through the lens of the USSR's citizens.

Includes: Experiential Learning Activity

Also listed as HIST 4608.

Precludes additional credit for EURR 4203.

Prerequisite(s): fourth-year Honours standing or permission of the Institute.

Also offered at the graduate level, with different requirements, as EURR 5306, for which additional credit is precluded.

Seminar three hours a week.

EURR 4704 [0.5 credit]

The Business Environment in Europe

The economic, political, legal, and cultural environment for doing business in the European Union and other regions in Europe. Patterns of foreign trade and investment, market characteristics, science and technology, regulation and European integration, and business culture.

Also listed as BUSI 4704.

Precludes additional credit for EURR 4006 (no longer offered), BUSI 4604 (no longer offered).

Prerequisite(s): third-year standing.

Seminar three hours a week.

EURR 4901 [0.5 credit]

Tutorial in European and Russian Studies

Tutorials or reading courses on selected topics may be arranged with the permission of the Institute and agreement of the instructor.

Prerequisite(s): permission of the Institute.

EURR 4908 [1.0 credit]

Honours Essay

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by the supervisor and a second reader. Students should consult with the Supervisor of Undergraduate Studies regarding the topic and supervisor. Institute's Honours Essay guidelines apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, a CGPA of 9.00 or higher in courses qualifying for credit in European and Russian Studies, and permission of the Institute.

Film Studies (FILM)

Film Studies (FILM) Courses

FILM 1101 [0.5 credit]

Introduction to Film Studies

Introduction to the study of film that emphasizes problems and methods of film analysis through the study of various types of films. Topics relating to the filmmaker, film genre, and film history are covered through a focus on questions of style and technique.

Precludes additional credit for FILM 1120, FILM 1000 (no longer offered), and FYSM 1510.

Lecture and screening three hours a week, discussion one hour a week.

FILM 1120 [0.5 credit] Seminar in Film Studies

A seminar in the study of film that emphasizes problems and methods of film analysis through the study of a variety of types of films.

Precludes additional credit for FILM 1101, FILM 1000 (no longer offered) and FYSM 1510.

Prerequisite(s): enrolment in a Film Studies major. Lecture and screening three hours a week, discussion one hour a week.

FILM 2001 [0.5 credit] Film Theory and Analysis I

Introduction to major film theories and analytical practices. The objective of this course is to familiarize students with the main theories and methods of analysis that have been developed for the study of film.

Precludes additional credit for FILM 2000 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120 and second-year standing; or permission of the Discipline.

Lecture and screening three hours a week, seminar one hour a week.

FILM 2002 [0.5 credit]

Film Theory and Analysis II

Building on the skills acquired in FILM 2001, this course considers specific debates in film theory, and provides students with advanced methods for film analysis. Precludes additional credit for FILM 2000 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, and FILM 2001, and second-year standing; or permission of the Discipline. Lecture and screening three hours a week, seminar one hour a week.

FILM 2101 [0.5 credit]

The Film Industry

The organization of the production, distribution and exhibition practices of various film industries. May include an examination of the relationship between a national film industry and its television industry.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2106 [0.5 credit]

The Documentary

An examination of the work of individual filmmakers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered. Also listed as JOUR 2106.

Precludes additional credit for FILM 2105 (no longer offered), JOUR 2105 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2201 [0.5 credit]

National Cinema

This course examines the film production of specific countries in order to determine the themes, the styles, and the character of a national cinema.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2202 [0.5 credit]

Japanese Cinema

Various practices and movements in the history of Japanese cinema, ranging from the silent era to the current digital age.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2203 [0.5 credit] Scandinavian Cinema

The development of cinema culture and film production in the Scandinavian countries, from the golden age of Scandinavian silent cinema to contemporary Nordic noir. Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2204 [0.5 credit]

Indigenous Cinema and Media

A critical examination of films and other audiovisual media created by Indigenous artists, such as independent films, genre films, documentaries, web series, installations, and video games.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Department.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2206 [0.5 credit]

Canadian Cinema

A critical examination of Canadian cinema and media and how it relates to other aspects of Canadian culture. Precludes additional credit for FILM 2207 (no longer offered), FILM 2208 (no longer offered), FILM 2209 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120 or second-year standing; or permission of the Discipline.

Lecture and screening three hours a week, seminar one hour a week.

FILM 2401 [0.5 credit]

Authorship in Film and Media

A detailed study of the themes, the characteristic style, development and influence of one or more directors. Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2601 [0.5 credit]

Film Genres

This course examines questions of generic form, drawing examples from world cinema.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2606 [0.5 credit]

History of World Cinema I

Historical survey of world cinema primarily from 1895 to 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as ENGL 2600.

Precludes additional credit for FILM 2608 and ENGL 2608 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, and secondyear standing, or permission of the discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2607 [0.5 credit]

History of World Cinema II

Historical survey of world cinema primarily since 1945, examining the forms, structures and stylistic conventions of various periods and nations.

Also listed as ENGL 2601.

Precludes additional credit for FILM 2608 and ENGL 2608 (no longer offered).

Prerequisite(s): FILM 2606 or ENGL 2600 or permission of the discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 2801 [0.5 credit]

Film and Media Practice I

Introduction to the basic principles of film and media practice. Emphasis may change from year to year, focusing alternately on narrative, experimental, animation or documentary techniques. This course is intended for Film Studies majors only.

Includes: Experiential Learning Activity
Prerequisite(s): FILM 1101 or FILM 1120.
Lecture/workshops four hours a week.

FILM 2809 [0.5 credit]

The Video Game

Introduction to the video game as a popular media form, an emerging aesthetic, and a social and cultural practice. Topics include: history of video games; game form; game industry; narrative; art and design; interactivity; theories of play.

Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3105 [0.5 credit]

Questions of Documentary Practice

Theoretical implications of documentary film and documentary television practice.

Also listed as JOUR 3105.

Prerequisite(s): 1.0 credit in FILM at the 2000-level and third-year standing, or permission of the Discipline. Lecture and screening three hours a week, lecture one hour a week.

FILM 3206 [0.5 credit]

Special Topics in American Cinema

Studies in various aspects of American cinema with emphasis on historical and critical issues. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3209 [0.5 credit]

Special Topics in Canadian Cinema

Studies in various aspects of Canadian cinema. The course offerings may change from year to year. Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3301 [0.5 credit]

Special Topics in Cinema, Gender, and Sexuality

A study of special topics in gender and cinema with emphasis on critical and historical questions. The course offerings may change from year to year.

Prerequisite(s): 1.0 credit in FILM at the 2000-level and third-year standing, or permission of the Discipline. Lecture and screening three hours a week, lecture one hour a week.

FILM 3402 [0.5 credit]

Film Music

The use of music in film, from the silent era to the present day. Techniques, styles and theory of film music through the examination of selected scenes.

Also listed as MUSI 3402.

Lectures three hours a week, screening two hours a week.

FILM 3506 [0.5 credit]

Special Topics in Film Theory

Building on the skills acquired in FILM 2000, this course provides a critical study of advanced film theories. The course offerings may change from year to year. Topics may include aesthetics, ideological criticism, film and philosophy, and theories of technology and historiography. Precludes additional credit for FILM 3505 (no longer offered).

Prerequisite(s): FILM 2001 and FILM 2002 and third-year standing; or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3601 [0.5 credit] Contemporary Québec Cinema

Critical reflection on notable filmmakers, formal and thematic trends, dominant social and political issues, and diverse cultural perspectives in Québec cinema during the 21stcentury, including the film movement known as the Québec New Wave (Renouveau du cinéma québécois). French language ability not required.

Prerequisite(s): 1.0 credit in FILM and third-year standing or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3608 [0.5 credit] Special Topics in Film History

Special studies of aspects of the history of world cinema. The course offerings may change from year to year. Topics may include the examination of film movements, styles and genres, and/or comparative study of national, regional and/or world-wide trends.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3609 [0.5 credit]

African Cinema

Major figures and movements in African cinema around such categories as the colonial, the anti-colonial, the postcolonial, the diasporic, the continental, race, Afrofuturism, and world cinema, interrogating in the process the very category of "African cinema".

Also listed as AFRI 3609.

Prerequisite(s): 1.0 credit in FILM and third year standing or permission of instructor.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3701 [0.5 credit]

Special Topics in Animation, Video, and Experimental Film

A study of special topics in animation, video or experimental film. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3800 [0.5 credit]

Film/Video Archival or Curatorial Practice

Consideration of topics in film/video archival or curatorial practice, including questions related to cultural policy, exhibition, conservation, and interrelationship of media. Students are expected to bear all travel and other costs arising from required visits to local facilities.

Includes: Experiential Learning Activity

Precludes additional credit for FILM 4800 (no longer offered).

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3801 [0.5 credit] Film and Media Practice II

Practical and conceptual approaches to film studies from the point of view of film and media practice. Emphasis may change from year to year, focusing alternately on narrative, experimental, animation or documentary techniques.

Includes: Experiential Learning Activity
Prerequisite(s): FILM 2001 and FILM 2801.
Lecture/workshops four hours a week.

FILM 3808 [0.5 credit] Cinema and Technology

The technological development of cinema. Topics may include advances in sound and colour processes, digital effects, exhibition technologies and new media.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3809 [0.5 credit] Analyzing Digital Media

History, aesthetics, and theories of digital media and culture. Key concepts in digital media studies, including: digital cinema, interactive documentaries, viral videos, web series, emerging immersive platforms.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3810 [0.5 credit] Sound in Film and Media

Questions related to sound in film and media such as: how is sound used to create narratives and emotions? How does sound affect our experience of actual and fictional worlds?.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3901 [0.5 credit] Special Topics in Film Studies

Special topics and issues not ordinarily treated in the third-year course program. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 2000 level, and third-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

FILM 3902 [0.5 credit] Screenwriting Workshop

An intermediate workshop involving regular assignments in writing for film.

Includes: Experiential Learning Activity Also listed as ENGL 3902.

Prerequisite(s): a grade of B+ or higher in one of: ENGL 2901, ENGL 2903, ENGL 2915; or departmental permission.

Workshop three hours a week.

FILM 4001 [0.5 credit]

Research and Critical Methodologies

Study of various methodologies for critical, theoretical and historical research in film studies.

Precludes additional credit for FILM 4000 (no longer offered).

Prerequisite(s): FILM 2002, 1.0 credit in FILM at the 3000-level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture two hours a week.

FILM 4002 [0.5 credit]

Special Topics in Moving Image Culture

Special aspects of the audio-visual cultures of the late nineteenth and twentieth centuries. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Seminar three hours a week.

FILM 4201 [0.5 credit]

Special Topics in National Cinemas

A study of a special topic in national cinema. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4203 [0.5 credit]

Film Festivals and World Cinema

Theoretical and critical study of the film festival as a phenomenon shaping our understanding of film culture, institutions, history and forms. Issues examined may include festivals as sites of cultural legitimation; as spectacle; their political economy; curation/programming; case studies of film festivals around the world. Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4301 [0.5 credit]

Special Topics in Film and Philosophy

Special topics in philosophical approaches to the study of film, and an examination of the relations between film theory and philosophical aesthetics. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Also offered at the graduate level, with different requirements, as FILM 5109, for which additional credit is precluded.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4401 [0.5 credit]

Special Topics in Film Authorship

A study of questions of authorship in the cinema, concentrating on one or more filmmakers. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4501 [0.5 credit] Special Topics in Film Theory

A study of a special topics in film theory. The course offerings may change from year to year.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Lecture and screening three hours a week, seminar two hours a week.

FILM 4805 [0.5 credit] Practicum in Film and Film Studies

Practical experience through working on specific projects under the supervision of staff at a museum, gallery, archive, or production company in the Ottawa area. A maximum of 0.5 credit Film Studies practica courses may be offered in fulfilment of Film Studies requirements. Graded SAT/UNS.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year Honours standing in Film
Studies, a CGPA of 9.00 or higher in Film Studies, and
permission of the Discipline.

FILM 4901 [0.5 credit] Special Topic

Selected topics in film studies not ordinarily available in the regular course program. The choice of topic or topics will vary at least every two years and will be announced well in advance of the registration period.

Prerequisite(s): FILM 1101 or FILM 1120, 1.0 credit in FILM at the 3000 level, and fourth-year standing, or permission of the Discipline.

Screening three hours a week, seminar two hours a week.

FILM 4904 [0.5 credit] Independent Study

For students who wish to study a specific topic. Proposed projects must be approved by the Program Committee. Written request outlining the project must be submitted by the first day of the term. An essay is the usual assignment.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year Honours standing in Film
Studies and a CGPA of 10.00 or higher in Film Studies.
Unscheduled.

First Year Seminar (FYSM)

First Year Seminar (FYSM) Courses

FYSM 1000 [1.0 credit]

Special Topics in Arts and Social Sciences

Special topics in arts and social sciences. Topics offered may vary from year to year and will be announced in advance of the registration period.

Seminar and discussion three hours per week.

FYSM 1001 [0.5 credit] Special Topics in Arts and Social Sciences (.5 credits)

Special topics in arts and social sciences (.5 credits). Topics may vary from year to year and will be announced in advance of registration period.

Seminar and discussion three hours per week

FYSM 1003 [1.0 credit] Introduction to Economics

An introduction to the major tools and policy problems of economics. Economic analysis is applied to a variety of contemporary problems such as pollution, poverty, the control of monopoly, unemployment, inflation and international economic problems.

Precludes additional credit for ECON 1000, ECON 1001, and ECON 1002.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B. Econ. or B.G.In.S. program. This course is an intensive version of ECON 1000 geared to students seeking a more in-depth and interactive introduction to economics.

Seminars three hours a week, tutorials one hour a week.

FYSM 1004 [1.0 credit]

Reading Literatures and Cultures

Introduction to active literary reading skills, focusing on at least three literary genres including poetry, prose, and drama, with attention to literary, social, historical, and political contexts. This course is writing attentive. Strongly recommended for English majors. Consult English Department website for annual topics. Precludes additional credit for ENGL 1000 (no longer offered), ENGL 1100, ENGL 1200, ENGL 1300, ENGL 1400, ENGL 1600, and ENGL 1700.

Prerequisite(s): Normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1101 [1.0 credit] Location is Everything

Where we live affects who we are. The role of geographic location and environment, from the local to global scale, on human perception, behaviour, and well-being. How factors such as globalization, disease, inequality, and climate change affect our lives and the places where we live.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1104 [1.0 credit]

Human Rights: Issues and Investigations

Arguments that have been used to defend differing positions on rights issues, past and present. The validity of contending arguments; social factors influencing widespread acceptance of popular views.

Includes: Experiential Learning Activity

Precludes additional credit for HRSJ 1001, HUMR 1001 (no longer offered).

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar and discussion groups three hours a week.

FYSM 1105 [1.0 credit] Reading the Web

Academic writing and study skills through examination of the literacy and social interaction required for various media. Reading and writing on and for the Web and other forms of computer-mediated communications and cooperative work compared with writing for academic purposes.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1106 [1.0 credit]

Issues in Classics

An investigation of important issues relating to the Greek and Roman worlds. Themes will be drawn from literature, history, art, religion and social life. All texts are in English. Precludes additional credit for CLCV 1000 (no longer offered).

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1107 [1.0 credit] Social Justice and the City

Struggles over social and economic inequality in the city, and their relationship to processes of urbanization and global change. Theories and case studies explaining how urban lives and form are shaped by social movements and urban politics. Broad introduction to critical urban geography.

Includes: Experiential Learning Activity

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1108 [0.5 credit] Sustainable Environments

The causes and consequences of environmental change, including climate change; emphasis on the interactions of nature and human behaviour. Ways in which the environment can be protected and restored. Environmental issues that affect our own communities. Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1204 [1.0 credit] Language and Identity

The creation and expression of social identities through language: gender, age, ethnic and social background. Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Lectures three hours a week.

FYSM 1205 [1.0 credit]

Language and Power

The role of language in maintaining and contesting power relations in domains such as the media, education, advertising, and politics. How meanings are made and exchanged through language in different situations. Precludes additional credit for ALDS 2705.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Lectures three hours a week.

FYSM 1210 [0.5 credit] Special Topics in Philosophy

Selected topics in the study of philosophy. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Philosophy.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B. Econ., or B.G.In.S. program.

Seminars three hours per week.

FYSM 1211 [0.5 credit] Looking at Philosophy

An examination of the following: What is logical thinking? Does God exist? Are values relative? Do we have responsibilities? What is a just society? Do we have free will? What is the mind? What is the nature of reality?. Precludes additional credit for FYSM 1208 (no longer offered), PHIL 1000 and PHIL 1100. Seminars three hours per week.

FYSM 1212 [0.5 credit]

Contemporary Moral, Social, and Religious Issues

Philosophical problems associated with such topical issues as feminist, critical race and disability theories; atheism vs. theism; the meaning of life; moral relativism vs. moral objectivism; egoistic vs. non-egoistic ethics; euthanasia, abortion, capital punishment and environmental ethics; legal paternalism; freedom of the will.

Precludes additional credit for FYSM 1209 (no longer offered), PHIL 1500, PHIL 1550.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours per week.

FYSM 1217 [0.5 credit] Selected Topics in Communication and Media Studies

Introductory communication and media studies seminar. Topics offered may vary from year to year and will be announced in advance of the registration period by the Communication and Media Studies program. Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program. (This course is not the equivalent of COMS 1000).

Seminar three hours a week.

FYSM 1300 [1.0 credit] History of Philosophy

The major figures and developments in philosophy from the early Greeks to the present. A primarily descriptive and comparative approach, through critical reasoning is included for comprehending philosophic development. Provides a background from which to understand the philosophical aspects of other disciplines.

Precludes additional credit for PHIL 1600.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1306 [1.0 credit] Diversity in Psychological World Views

Theories, research and applications of psychology from the perspective of different cultures and sub-cultures. The validity of psychology across society; how it defines and changes people, and how it reflects and engineers particular social values and norms.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S program.

Seminars three hours a week.

FYSM 1307 [1.0 credit] Psychology and Criminal Justice

Theories, research, and practical applications of psychology to the criminal justice system. Topics may include eyewitness testimony, prediction of violence, classification and rehabilitation of offenders, victim studies, and judicial decision making.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S program.

Seminars three hours a week.

FYSM 1308 [1.0 credit] Motivating Humans

The psychology of human motivation. Everyday concepts such as laziness in relation to diverse theories and explanations of motivation such as drive-reduction, sociobiology, personal goals, self-actualization and spiritual awareness.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S program.

Seminars three hours a week.

FYSM 1310 [1.0 credit] Selected Topics in Psychology

Psychology is the scientific study of our thoughts, feelings and behavior. Course examines a selected topic in psychology. The specific topic will vary from year to year and will be announced in advance of the registration period.

Prerequisite(s): normally restricted to students entering the first year of a B.A, B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1400 [1.0 credit]

Cognition: A Scientific Exploration of the Mind

Theories, research, and applications of Cognitive Psychology. Research projects will familiarize students with the scientific method used to study pattern recognition, attention, memory, language and thinking. Prerequisite(s): normally restricted to students entering the first year of a B.A, B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1401 [1.0 credit] Multiculturalism in Canada

Issues relating to the development of and interaction among cultural communities, with major emphasis on the realities of "doing multiculturalism in Canada." Research teams; organized seminars with volunteers from Canadian cultural and community groups.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1402 [1.0 credit]

Issues in Feminist Social Transformation

Emphasis on the development of writing, research and analytical skills through the intensive examination of selected topics in women's studies (e.g. popular culture, media, representation and identity, communications, women's writing, motherhood, sexuality, health, technology, law, politics). Specific themes will vary from year to year.

Precludes additional credit for WGST 1808.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1405 [1.0 credit] Doing History

Exploration of an historical topic in a small-class setting. Emphasis on historical thinking, writing, and analysis through the investigation of a specific historical problem. Strongly recommended for History Majors. Consult History Department website for annual topics. (Field will depend on topic).

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1406 [1.0 credit]

How Ottawa Works: Exploring National Institutions

The fundamental political, judicial and administrative institutions that made Canada a unique nation. Students will learn how government institutions are dealing with preservation and maintenance of Canadian cultural and social values.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1409 [1.0 credit] Social Change in Canada

Interdisciplinary analysis of social change and how people change Canada, through an examination of movements like environmentalism, feminism, peace, and antiracism. Examination of broader efforts to reshape Canadian society, including culture-jamming and change through popular culture.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1410 [1.0 credit] Canadian Popular Culture

Introduction to sites and genres of popular culture in Canada and their intersections with race, gender, sexuality, diaspora, whiteness, regionalism, class and economics.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1450 [1.0 credit]

Indigenous Reclamation and Resurgence

Introductory seminar emphasizing the reclamation of Indigenous philosophical, cultural, artistic and spiritual traditions. Indigenous resurgence is examined through the integration of ways of being rooted in pre-colonial worldviews.

Includes: Experiential Learning Activity

Prerequisite(s): enrolment in the Indigenous Enriched

Support Program.

Seminar three hours a week

FYSM 1501 [1.0 credit] The Study of Religions

Inquiries into the nature of religion and its interpretation, or a specific religious theme or a period of religious history. Specific topics will vary from year to year.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1502 [1.0 credit] Selected Topics in Legal Studies

Two-term seminar on selected topics in legal studies. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Law and Legal Studies.

Precludes additional credit for FYSM 1512.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1503 [1.0 credit]

Contemporary Culture in Everyday Life

The role of contemporary cultural forms in everyday life. Focus on the culture/power relationship with attention to the ways that popular forms such as television, film, music, and tourism facilitate or work against the cultural and economic interests of different societal groups. Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1504 [1.0 credit]

Society and the Designed Environment

Inquiry into the relation between human societies and the material environment which they inhabit and use. Focus is on the ways in which groups create the environments in which they live and the ways in which those environments influence and reproduce the groups.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1505 [1.0 credit] Introduction to Applied Sociology

Survey of the historic and contemporary contributions of Sociology to various applied fields, which may include official statistics, policy studies, consumer research, and workplace management. Focus on the philosophical, professional, and ethical distinctions between scholarly and applied sociology.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1506 [1.0 credit]

Topics in the Study of Societies

Introductory seminar emphasizing the development of writing, research and analytical skills through the intensive examination of selected topics in the study of historic and contemporary societies.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1508 [1.0 credit] Stress, Coping and Well-being

How do you cope with stress? We live in a stressful world, and how we cope has implications for our happiness and well-being. We will examine theory and research on how stress affects our lives, how people cope, and what it means to be well-adjusted.

Prerequisite(s): normally restricted to students entering the first year of a B.A, B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S program.

Seminars three hours a week.

FYSM 1509 [1.0 credit]

Special Studies in Art History, Film Studies and/or Music

Topics and focus to be determined on a yearly basis. Precludes additional credit for FILM 1511.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1510 [1.0 credit]

Moving Image and Sound

Introduction to the discipline of film studies through an examination of mise-en-scène, editing, cinematography, and sound in a selection of important films. Emphasis on the critical vocabulary needed for analysis of motion pictures and other audiovisual media.

Precludes additional credit for FILM 1000, FILM 1101, FILM 1120.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Lecture and screening three hours a week.

FYSM 1511 [0.5 credit]

Special Studies in Art History, Film Studies and/or Music

Topics and focus to be determined on a yearly basis. Includes: Experiential Learning Activity

Precludes additional credit for FYSM 1509.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1512 [0.5 credit]

Selected Topics in Legal Studies

One-term seminar on selected topics in legal studies. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Law and Legal Studies.

Precludes additional credit for FYSM 1502.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1602 [1.0 credit]

Selected Topics in Political Science

Selected topics in politics and governance. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1603 [1.0 credit]

Full-Year Seminar in European and Russian Studies

Topics offered may vary from year to year and will be announced in advance of the registration period by the Institute of European, Russian, and Eurasian Studies. Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1604 [0.5 credit]

Cognitive Science: Understanding the Mind

Interdisciplinary examination of discoveries in linguistics, psychology, philosophy, and computer science concerning the question "What is cognition"? Issues may include the mind-brain controversy, the role of language in thought, and artificial versus natural intelligence.

Precludes additional credit for FYSM 1607.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Classes and seminars three hours a week.

FYSM 1607 [1.0 credit]

Cognitive Science: Thinking and Knowing

Interdisciplinary examination of discoveries in linguistics, psychology, philosophy, and computer science concerning the question "What is cognition"? Issues may include the mind-brain controversy, the role of language in thought, and artificial versus natural intelligence.

Precludes additional credit for FYSM 1604.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Classes and seminars three hours a week.

FYSM 1608 [1.0 credit]

Selected Topics in Economics

Content of this course may vary from year to year and will be announced in advance of the registration period by the Department of Economics.

Prerequisite(s): normally restricted to students entering the first year of a B.Econ., B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1609 [1.0 credit]

Integrated Studies in Public Affairs and Management

An integrated multidisciplinary exploration of a topic of interest to disciplines within the Faculty of Public Affairs offering Bachelor of Arts programs.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Lecture one and a half hours a week, seminar two hours a

FYSM 1610 [1.0 credit]

Understanding Environmental Discourse

An examination of how language and other symbol systems are used to portray and make arguments about ecology and the global environment, with a particular focus on climate change.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminars three hours a week.

FYSM 1611 [0.5 credit]

One-Term Seminar in Political Science

One-term seminar on selected topics in politics and governance. Topics offered may vary from year to year and will be announced in advance of the registration period by the Department of Political Science. Precludes additional credit for FYSM 1602.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1614 [0.5 credit]

One-Term Seminar in European and Russian Studies

Topics offered may vary from year to year and will be announced in advance of the registration period by the Institute of European, Russian, and Eurasian Studies. Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1700 [0.5 credit]

Connecting Academics to Careers in Public Affairs

An introduction to public affairs work and working life, and the development of skills and opportunities for students to plan their university courses and programs of study to connect to a career in public affairs.

Seminar three hours a week.

FYSM 1900 [1.0 credit]

Selected Topics In the Study of Academic Discourses

Introductory seminar emphasizing the development of academic writing, research and analytical skills through the intensive examination of a selected topic in the instructor's field of expertise. Specific topics vary from section to section each year.

Includes: Experiential Learning Activity

Prerequisite(s): enrolment in the Enriched Support

Program.

Seminar three hours a week.

FYSM 1901 [1.0 credit] Selected Topics in African Studies

Selected topics in the study of Africa. Topics offered may vary from year to year and will be announced in advance of the registration period by the Institute of African Studies.

Prerequisite(s): normally restricted to students entering the first year of a B.A., B.Cog.Sc., B.Co.M.S., B.Econ. or B.G.In.S. program.

Seminar three hours a week.

FYSM 1908 [0.5 credit]

One-Term Seminar in Economics

Content of this course may vary from year to year and will be announced in advance of the registration period by the Department of Economics.

Prerequisite(s): normally restricted to students entering the first year of a B.Econ., B.A., B.Cog.Sc., B.Co.M.S., B. Econ. or B.G.In.S. program.

Seminars three hours a week.

Food Science (FOOD)

Food Science (FOOD) Courses

FOOD 1001 [0.5 credit]

Introduction to Food Science

Overview of the food industry. Production, processing, product development, packaging, chemistry, analysis, microbiology. Elements risk assessment, policy making and regulation.

Lectures three hours a week.

FOOD 2001 [0.5 credit]

Principles of Nutrition

Roles of nutrients, lipids, proteins, carbohydrates, fluids and electrolytes. Digestion, absorption, transport, energy metabolism. Disorders including diabetes, cardiovascular disease and osteoporosis. Nutrition through the life cycle. Prerequisite(s): CHEM 1002, BIOL 1103.

Lectures three hours a week.

FOOD 2002 [0.5 credit]

Food Processing

Principles of major techniques used in food processing and preservation. Processing of specific food groups including cereals, oilseeds, dairy, beverages and frozen foods. Effects of processing on physico-chemical, rheological, and sensory characteristics. Role of research and development in food industry.

Prerequisite(s): FOOD 1001. Lectures three hours a week.

FOOD 2003 [0.5 credit]

Regulation of the Canadian Food Industry

Regulation of the Canadian food industry including regulators, regulatory powers, the process of enacting laws/regulation and food safety requirements. Food composition, standardization, advertising, labeling, packaging, ingredients, additives, and fortification requirements. Inspection, enforcement and compliance powers and policies.

Prerequisite(s): Second year standing. Lectures three hours per week.

FOOD 2004 [0.5 credit]

Scientific Communication in Food Science

Principles of effective scientific communication for scientific and non-scientific audiences. Applicable to laboratory reports, literature reviews, posters, presentations, and briefing notes.

Includes: Experiential Learning Activity
Prerequisite(s): FOOD 1001 or second-year standing in Food Science or Chemistry.

Workshop four hours a week.

FOOD 3001 [0.5 credit] Food Chemistry

Chemistry of the major components of foods such as proteins, lipids, carbohydrates and of the minor components such as enzymes, vitamins and various additives and their relationships to food stability and degradation.

Includes: Experiential Learning Activity
Prerequisite(s): FOOD 1001, FOOD 2001, CHEM 2204,
PLOC 2200

Lectures three hours a week and laboratory three hours a week.

FOOD 3002 [0.5 credit]

Food Analysis

In-depth principles and practices of food proximate analysis. Introductory concepts of food adulteration and detection. Major techniques such as chromatography, colorimetry, spectroscopy, rheology. Includes: Experiential Learning Activity Prerequisite(s): FOOD 3001.

Lectures three hours a week, laboratory three hours a week.

FOOD 3003 [0.5 credit] Food Packaging and Shelf Life

An introduction to the materials used for food packaging, including their chemical and physical characteristics. Interactions of these materials with food products, and their effects on shelf life of food.

Prerequisite(s): FOOD 2002. Lectures three hours a week.

FOOD 3005 [0.5 credit] Food Microbiology

Foodborne diseases, microbial growth and survival, food spoilage, food fermentation. Techniques for detecting and quantifying microorganisms in foods.

Includes: Experiential Learning Activity

Prerequisite(s): FOOD 1001, FOOD 2001, BIOL 2303. Lectures three hours a week, laboratory three hours a week.

FOOD 3006 [0.5 credit]

Upcycling and Sustainable Food Systems

Food processing and upcycling in the context of sustainable food systems. Case studies to assess social, economic, and environmental impacts of food processing and upcycling on communities and the food industry. Transdisciplinary perspectives to propose a food rescue product.

Includes: Experiential Learning Activity
Prerequisite(s): third year standing in a BSc or BHSc

program.

Workshop 3 hours a week.

FOOD 3999 [0.0 credit] Co-operative Work Term

Provides practical experience for students enrolled in the Co-operative option. Students must receive satisfactory evaluations from their work term employer. Written and oral reports will be required. Graded as Sat or Uns. Includes: Experiential Learning Activity

Prerequisite(s): Registration in the Food Science
Co-operative Education option and permission of the Department.

Work term.

FOOD 4001 [0.5 credit]

Food Quality Control

Factors affecting quality

Factors affecting quality in manufacturing and processing of foods and principles of quality control and quality assurance. Sampling plans and statistical methods. Applications of physical, chemical, biological and microbiological tests in quality control. Quality systems and standards.

Prerequisite(s): FOOD 2002, FOOD 2003, and third or fourth year standing.

Also offered at the graduate level, with different requirements, as FOOD 5104, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4002 [0.5 credit]

Analysis of Food Contaminants
Official methods to identify food con

Official methods to identify food contaminants and adulterated foods. Includes agricultural chemicals, veterinary drugs, toxins, metals, and allergens. Interpretation of results in the context of current Canadian and international food safety regulations.

Includes: Experiential Learning Activity
Prerequisite(s): BIOC 3101 or CHEM 3205 or
CHEM 3305, and third or fourth year standing.
Laboratory four hours per week, tutorial one hour a week.

FOOD 4102 [0.5 credit]

Current Issues in Canadian Food Governance, Regulation and Policy

Focus on the ever-changing and evolving issues in Canadian food governance, regulation and policy. Topical food safety, governance, policies, enforcement, trade and import/export issues and developments.

Prerequisite(s): FOOD 2003, and third or fourth year standing.

Lectures three hours a week.

FOOD 4103 [0.5 credit] Food Safety Risk Assessment

The role of risk management in providing science-based approaches to solving food safety problems. Risk management models and practical applications in critical risk management. An examination of actual risk assessments. Risk communication is addressed. Prerequisite(s): BIOC 3101, and third or fourth-year standing.

Lectures three hours a week.

FOOD 4201 [0.5 credit]

Advanced Nutrition and Metabolism

Metabolism of macronutrients in the human body. Detailed catabolic and anabolic reactions of carbohydrates, lipids and proteins. Regulatory control points in healthy and diseased states. Discussion of the literature pertaining to nutrition, metabolism and chronic disease.

Prerequisite(s): FOOD 2001, BIOC 3101 and fourth year standing.

Also offered at the graduate level, with different requirements, as FOOD 5101, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4202 [0.5 credit] Micronutrients and Health

Use of scientific literature to examine human metabolism of vitamins and minerals and associated diseases throughout the life cycle. Development of advanced scientific literacy skills, with an emphasis on systematic reviews.

Prerequisite(s): BIOC 2200 or BIOL 2200 and third- or fourth-year standing.

Lectures three hours a week.

FOOD 4203 [0.5 credit]

Functional Foods and Natural Health Products

Study of the bioactive components of functional foods and natural health products, for the improvement of health and nutrition. Sources and chemistry of bioactives, mechanisms of actions, process technology, efficacy and safety. Role of research and development in industry in commercialization of new products.

Prerequisite(s): BIOC 2200 or BIOL 2200 or BIOL 2201, and third or fourth year standing.

Also offered at the graduate level, with different requirements, as FOOD 5105, for which additional credit is precluded.

Lectures three hours a week.

FOOD 4905 [1.0 credit] Food Science Honours Workshop

Active learning in areas that include information literacy, critical evaluation of scientific literature, written and oral communication, evaluation and interpretation of results, statistics and data management. Emphasizes transferable skills that are most appropriate for non-research career paths.

Includes: Experiential Learning Activity
Precludes additional credit for FOOD 4907, FOOD 4908.
Prerequisite(s): Fourth-year standing in Food Science and a minimum of 1.5 credits in FOOD at the 3000 level.
Workshop three hours a week.

FOOD 4907 [1.0 credit]

Food Science Honours Essay and Research Proposal

Students conduct an independent research study using library resources, and prepare a critical review and study proposal on a topic approved by a faculty supervisor. A written report and an oral poster presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity
Precludes additional credit for FOOD 4905, FOOD 4908,
CHEM 4907 and CHEM 4908.

Prerequisite(s): Fourth-year standing in the Food Science program, a minimum of 1.5 credits in FOOD at the 3000 level, minimum Major CGPA of 8.0, and permission of the department.

FOOD 4908 [1.0 credit]

Food Science Research Project

Students in Food Science carry out a research project under the direction of a faculty member. A written report and an oral presentation of the work are required before a grade can be assigned.

Includes: Experiential Learning Activity

Precludes additional credit for FOOD 4905, FOOD 4907, CHEM 4907 and CHEM 4908.

Prerequisite(s): Fourth-year standing in the Food Science program, a minimum of 1.5 credits in FOOD at the 3000 level, minimum Major CGPA of 8.0, and permission of the department.

Laboratory and associated work equivalent to at least eight hours per week for two terms.

French (FREN)

French (FREN) Courses

French Placement for Language Students

Students who have not previously taken a course in the French Department must complete the Placement Test on Carleton Central before registering, as per instructions received through their Carleton e-mail account. Students should note that they cannot go backward in a sequence of levels in language courses.

Students desiring a French credit to satisfy the language requirement of their department or school should consult that department or school.

FREN 1001 [1.0 credit]

French 1

This course is designed for absolute beginners in the language. Classes use audio-visual methods, and emphasis is given to the spoken language. Introduction to reading and writing. Compulsory attendance. Limited enrolment. No auditors. Oral interaction required. Prerequisite(s): placement test on Carleton Central before registering.

Lecture three hours a week.

FREN 1002 [1.0 credit]

French 2

Taught in French for students who had exposure to French but have difficulty using it in day-to-day communication. Emphasis on oral expression and comprehension; development of reading and writing skills. Presentations, interviews, cultural activities, grammar. Compulsory attendance, participation. Limited enrolment. No auditors. Oral interaction required.

Prerequisite(s): Grade of C or higher in FREN 1001 or placement test on Carleton Central before registering. Lecture three hours a week.

FREN 1050 [0.5 credit]

Le français en classe et dans le monde

The development of written and oral communication skills, as well as research and study skills, through an introduction to the diversity of the French language and francophone literatures and cultures. Conducted in French with some workshops in English.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering. Restricted to students in first and second year. Seminars three hours per week.

FREN 1100 [1.0 credit] French 3

Taught in French, Emphasis on speaking, listening. reading and writing skills. Oral presentations, discussions, interviews, reading of novels and magazine articles, listening activities, grammar exercises, compositions. Attendance and participation are compulsory. Limited enrolment. No auditors. Oral interaction required. Precludes additional credit for FREN 1110. Prerequisite(s): Grade of C or higher in FREN 1002 or placement test on Carleton Central before registering. Lecture three hours a week.

FREN 1110 [1.0 credit]

French 3: Writing

Taught in French. For students with high oral proficiency and low intermediate writing skills. Improvement of spelling, grammar, sentence-structure, and vocabulary. Study of the processes involved in the production of a variety of texts. Use of references. Self-correction. Limited enrolment. No auditors. Oral interaction required. Precludes additional credit for FREN 1100. Prerequisite(s): Grade of C or higher in FREN 1002 or placement test on Carleton Central before registering. Lecture three hours a week.

FREN 2100 [1.0 credit] French 4

Taught in French. For non-francophone students. Advanced speaking, listening, reading and writing skills. Advanced level reading from various sources, including literary texts. Grammar exercises, essays, oral presentations. Attendance and participation are compulsory. Limited enrolment. No auditors. Oral interaction required.

Precludes additional credit for FREN 2110. Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before reaisterina.

Lectures three hours a week.

FREN 2110 [1.0 credit]

French 4: Writing

Taught in French. For students with intermediate French writing skills. Refinement of spelling, grammar, sentence-structure and vocabulary; accuracy and textual organization. Essay-writing. Use and referencing of various sources. Self-correction. Attendance and participation compulsory. Limited enrolment. No auditors. Oral interaction required.

Precludes additional credit for FREN 2100. Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering.

Lectures three hours a week.

FREN 2202 [0.5 credit]

Introduction aux études littéraires: œuvres françaises et francophones

Survol historique des littératures d'expression française: principaux auteurs, grands mouvements, évolution des genres. Initiation aux méthodes et notions d'analyse littéraire.

Precludes additional credit for FREN 2201.

Prerequisite(s): FREN 1100 or FREN 1110 with a grade of C or higher or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2203 [0.5 credit]

Introduction aux études littéraires: œuvres québécoises et canadiennes

Survol historique des littératures d'expression française au Québec et au Canada: principaux auteurs, grands mouvements, évolution des genres. Initiation aux méthodes et notions d'analyse littéraire.

Precludes additional credit for FREN 2201.

Prerequisite(s): FREN 1100 or FREN 1110 with a grade of C or higher or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2401 [1.0 credit]

Introduction à la linguistique française

Étude de la structure et du fonctionnement du système linguistique à travers l'analyse de données du français (de France et du Canada). La construction du sens, des sons au discours; code oral et écrit.

Prerequisite(s): FREN 1100 or FREN 1110 with a grade of C or higher or permission of the Department. This course may be taken concurrently with FREN 2100 or FREN 2110.

Cours trois heures par semaine.

FREN 2701 [0.5 credit]

Travaux pratiques en français oral

Travaux pratiques pour développer l'aisance et la fluidité dans l'expression orale. This course is not suitable for francophones or students returning from exchange. No auditors.

Prerequisite(s): Grade of C or higher in FREN 1100 or FREN 1110 or placement test on Carleton Central before registering.

Cours trois heures par semaine.

FREN 3050 [0.5 credit] Compétences critiques

Initiation aux techniques et pratiques de la réflexion universitaire : documentation (bibliothèque, bases de données, bibliographies critiques), lecture (analyse, synthèse et évaluation critique de textes de savoir) et réflexion (cadre théorique, méthode d'analyse, pratique du discours raisonné).

Prerequisite(s): FREN 2202, FREN 2203 and FREN 2401, or permission of the Department.
Cours trois heures par semaine.

FREN 3060 [0.5 credit]

Perfectionnement de la grammaire par la pratique

Analyse et pratique réfléchie des formes de la grammaire dans le discours: Structures des phrases, marques d'accord, concordance des temps, prépositions et compléments, homonymie et homographie, faux amis et anglicismes. Développement des techniques efficaces d'autocorrection et maîtrise d'outils informatisés. Prerequisite(s): FREN 2202 and FREN 2203 or FREN 2401, or permission of the Department. Cours trois heures par semaine.

FREN 3212 [0.5 credit]

Des manuscrits aux belles-lettres : de la littérature médiévale à l'humanisme

Étude d'une sélection de textes, tirés de divers genres, permettant d'explorer les origines de la littérature française : oralité et écriture; chansons de geste; courtoisie; récits de voyages; littérature de la cour; humanisme. Différentes approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3213 [0.5 credit]

Du Baroque aux Lumières

Étude des 17e et 18e siècles : raison et universalisme, encyclopédisme, construction et représentation de l'altérité, colonialisme et esclavagisme. Analyse d'importants développements littéraires : essai et conte philosophiques, théâtre et critique sociale, évolution du discours romanesque. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3214 [0.5 credit]

Révolutions, avant-gardes et ruptures : du 19e siècle aux années 1950

Étude de quelques grands mouvements ayant rythmé la vie des lettres francophones : romantisme, réalisme, naturalisme, symbolisme, surréalisme, modernisme.

La littérature de la décolonisation et l'émergence de la littérature canadienne-française. Analyse des genres et de leur évolution. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3215 [0.5 credit]

Les ères du soupçon : contemporanéités de la littérature

Études des principales orientations définissant les littératures francophones contemporaines depuis la fin de la Seconde Guerre mondiale : littérature engagée, existentialisme, nouveau roman. Littérature du Québec et du Canada français. Littératures postcoloniales, émergentes, transnationales. Approches théoriques du texte littéraire.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3216 [0.5 credit] Problématique littéraire

Étude approfondie d'une problématique dans le champ des études littéraires. Lectures critiques, réflexion théorique et études d'œuvres littéraires. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.
Cours trois heures par semaine.

FREN 3217 [0.5 credit] Oeuvre et auteur-e(s)

Étude approfondie d'un(e) auteur(e) ou groupe d'auteur(e)s et de leur œuvre. Lectures critiques, théoriques et littéraires. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes. Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department. Cours trois heures par semaine.

FREN 3218 [0.5 credit] Genre et mouvement

Étude approfondie d'un genre ou mouvement littéraire.
Conditions d'émergence (contextes: historique, social, artistique, etc). Textes théoriques et manifestes.
Principaux représentants. Influence (continuations, ruptures). Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department. Cours trois heures par semaine.

FREN 3219 [0.5 credit]

Littératures canadiennes de langue française

Étude approfondie d'un(e) auteur(e) ou groupe d'auteur(e)s canadien(ne)s et de leurs œuvres de langue française. Lectures critiques, théoriques et littéraires. Contenu variable selon les années: consulter le site web du département de français. Repeatable for credit when topic changes.

Prerequisite(s): FREN 2202 and FREN 2203 or permission of the Department.

Cours trois heures par semaine.

FREN 3251 [0.5 credit]

Introduction aux méthodes d'analyse littéraire

Présentation et application de diverses approches théoriques du texte littéraire ou étude approfondie d'une approche théorique particulière (analyses structurelles, méthodes d'interprétation, contextualisation sociohistorique, poétique, etc.).

Prerequisite(s): FREN 2202 and FREN 2203, or permission of the Department.
Cours trois heures par semaine.

FREN 3310 [0.5 credit] Sujet choisi en français

Étude d'un thème particulier en français et études francophones. Le contenu varie selon l'année : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): one FREN course at the 2000-level, or permission of the Department. Cours trois heures par semaine.

FREN 3411 [0.5 credit]

Phonétique et phonologie du français

Étude empirique et théorique des éléments et systèmes phonétiques et phonologiques du français. Processus segmentaux et suprasegmentaux, structures syllabiques et prosodiques. Problèmes classiques de la phonologie française.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3412 [0.5 credit] Morphologie du français

Étude de la forme des unités lexicales et grammaticales du français et de leur portée signifiante. Analyse du système flexionnel du français et des mécanismes de formation des mots.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3413 [0.5 credit] Syntaxe du français

Études de la structure et des composantes de la phrase: mots et syntagmes. Analyse syntaxique de la phrase simple et complexe. Modèle hiérarchique de l'organisation de la phrase.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3414 [0.5 credit]

Sociolinguistique du français

Le français, une réalité hétérogène. Approche variationniste, qualitative et quantitative, de l'étude du français dans ses dimensions dialectales, sociales et stylistiques. Variations intra-individuelles et entre individus. Facteurs externes de la variation interne du français. Diversités du français.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3415 [0.5 credit]

Histoire du français

Évolution interne de l'histoire du français et de ses influences externes. De sa naissance, présumée et réelle, à ses états actuels. Les langues contributrices. Contacts linguistiques. Dynamiques du changement linguistique. Véhicularisation et vernacularisation. Idéologies de la langue française.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3416 [0.5 credit]

Le français dans le monde

Présentation des variétés de français parlé dans le monde, principalement à l'extérieur du Canada. Étude des aspects historiques et sociopolitiques de la diffusion du français. Analyse des traits linguistiques propres aux variétés. Colonisation, créolisation, emprunt linguistique, variation régionale, aménagement linguistique. Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3417 [0.5 credit]

Le français au Canada

Présentation des variétés de français parlé au Canada. Étude des aspects historiques et sociopolitiques de l'implantation du français en Nouvelle-France. Variétés laurentienne et acadienne. Analyse des traits linguistiques. Enjeux sociolinguistiques. Contact des langues, bilinguisme, minorités linguistiques.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3451 [0.5 credit]

Thème en linguistique

Étude d'un thème particulier en linguistique française. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2401 or permission of the Department.

Cours trois heures par semaine.

FREN 3511 [0.5 credit]

Expression écrite et traduction

Perfectionnement de l'expression écrite au moyen d'un apprentissage appliqué de la traduction.

Analyses des principales interférences syntaxiques, sémantiques et discursives entre le français et l'anglais. Approfondissement des pratiques de textualisation: cohérence et cohésion, idiomatisation, registres, paraphrase, considérations stylistiques, etc. Approche privilégiant le texte pragmatique.

Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.

Cours trois heures par semaine.

FREN 3701 [0.5 credit]

Français oral

Techniques avancées d'expression orale. This course is not suitable for francophones. This course is suitable for students returning from exchange. No auditors. Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.

Cours trois heures par semaine.

FREN 3702 [0.5 credit]

Français écrit

Techniques avancées d'expression écrite. No auditors. Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.

Cours trois heures par semaine.

FREN 3900 [0.5 credit]

Apprentissage et enseignement du français langue seconde

Initiation aux études des programmes au Canada et ailleurs. Processus d'acquisition des habiletés d'expression et de compréhension. Survol des théories passées et actuelles. Appréciation et critique de pratiques pédagogiques.

Prerequisite(s): one FREN course at the 2000-level, or permission of the Department.

Cours trois heures par semaine.

FREN 3999 [0.0 credit] **Co-operative Work Term**

Includes: Experiential Learning Activity

FREN 4060 [0.5 credit]

Projet de recherche supervisé

Développement d'un projet individuel supervisé en littérature ou en linguistique, amorcé dans un cours antérieur de 4e année. Raffinement de l'expression et des idées. Présentation publique des résultats.

Prerequisite(s): fourth-year standing in the BA Honours in French, FREN 3050 and one FREN course at the 4th year level.

Unscheduled

FREN 4212 [0.5 credit]

Littératures francophones

Analyse de problématiques liées à la francophonie littéraire. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5212, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4213 [0.5 credit]

Littérature québécoise et canadienne d'expression francaise

Étude approfondie portant sur un ou plusieurs aspects des littératures d'expression française au Canada. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5213, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4214 [0.5 credit] Genre et mouvement

Étude approfondie d'un thème, d'un mouvement, d'un genre dans le champ littéraire. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5214, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4215 [0.5 credit]

Problématiques contemporaines

Étude de guestions contemporaines dans le domaine littéraire. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5215, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4300 [0.5 credit]

Experiential Learning in French and Francophone Studies

Thème choisi en langue, littérature ou linguistique. Application des habiletés linguistiques en contexte francophone. Le thème et le lieu peut varier d'une année à l'autre, consulter le site du Département de français pour plus de détails.

Includes: Experiential Learning Activity Prerequisite(s): FREN 2202 and FREN 2203, or FREN 2401, depending on the topic, and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5501, for which additional credit is precluded.

FREN 4301 [0.5 credit]

Experiential learning: Séminaire d'été à Québec

Exploration de la ville de Québec, de sa portée historique et culturelle et de l'importance de sa littérature. Applications des habiletés linguistiques en contexte, visites, discussions et réflexions.

Includes: Experiential Learning Activity

Precludes additional credit for FREN 4300 if taken before 2022.

Prerequisite(s): FREN 2202, FREN 2203 and FREN 3050, or permission of the Department. Also offered at the graduate level, with different requirements, as FREN 5502, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4412 [0.5 credit]

Diversité du français

Études des variétés du français, dans ses dimensions spatiales. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4413 [0.5 credit] Diachronie du français

Étude du français, dans ses dimensions historiques. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4414 [0.5 credit] Analyse du français

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the department.

Also offered at the graduate level, with different

requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4415 [0.5 credit]

Variation du français

Étude des variations internes de la langue, dans ses dimensions orales et écrites. Contenu variable selon les années : consulter le site web du département de français. Repeatable for credit when the topic changes.

Also listed as LING 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Cours trois heures par semaine.

FREN 4511 [0.5 credit]

Traduction: méthodologie et pratique

Initiation à différents principes et approches méthodologiques de la traduction. Analyse de texte appliquée à la traduction, repérage raisonné des difficultés, typologie des fautes de traduction, étude de divers procédés, documentation, terminologie et révision. Approche privilégiant une typologie textuelle variée. Prerequisite(s): FREN 3511 or permission of the Department.

Cours trois heures par semaine.

FREN 4801 [1.0 credit]

Tutorial A

Special topics in an aspect of French studies under the supervision of a faculty member. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration. Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FREN 4802 [0.5 credit] Tutorial B

Special topics in an aspect of French studies under the supervision of a faculty member. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration. Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FREN 4900 [0.5 credit]

Thème choisi en apprentissage et enseignement du français langue seconde

Approfondissement de considérations théoriques et pratiques reliées à l'enseignement et l'apprentissage du français comme langue seconde. Analyse de composantes pédagogiques générales et en contexte, applications didactiques. Évaluation, critères et standards. Le contenu précis de ce cours varie selon les années. Consulter le site Web.

Prerequisite(s): fourth-year standing or permission of the Department.

Cours trois heures par semaine.

French Interdisciplinary Studies (FINS)

French Interdisciplinary Studies (FINS) Courses

These courses are intended to meet the needs of a broad range of students who are interested in expanding their knowledge of the French-language presence in other disciplines, or in improving their passive knowledge of written and spoken French (reading and listening) with a view to applying this knowledge in other disciplines.

Some FINS courses are offered with English as the language of instruction.

French Placement for Language Students

Students who have not previously taken a course in the French Department must complete the Placement Test on Carleton Central before registering as per instructions received through their Carleton e-mail account. Students should note that they cannot go backward in a sequence of levels in language courses. Students desiring a French credit to satisfy the language requirement of their department or school.

FINS 2105 [0.5 credit] French Reading I

Development of reading skills in French, especially relating to academic texts. Basic French grammar and vocabulary. Given in English. Not recommended for first-year students. No auditors. Course may be taken concurrently with FREN 1001 or FREN 1002.

Prerequisite(s): placement test on Carleton Central or permission of the Department.

Offered online, asynchronous, weekly progression.

FINS 2205 [0.5 credit] Oral Comprehension I

Training in basic comprehension of spoken French, through the study of selected and edited video and audio material. Oral documents in French; analyses, discussion, reporting and testing in English. No auditors.

Prerequisite(s): permission of the Department.

FINS 2511 [0.5 credit]

Introduction à la société et à la culture québécoises (version française)

Ce cours exclusivement en ligne permettra de découvrir et d'analyser des référents dominants de la trame historique du Québec de même que les débats entourant l'identité et le nationalisme et les relations avec le Canada anglais.

Also listed as CDNS 2510/FINS 2510 (in English), CDNS 2511

Precludes additional credit for CDNS 2510 and FINS 2510

Prerequisite(s): niveau de deuxième année ou permission de L'École d'études canadiennes.

Exclusivement en ligne. Équivalent d'un cours de trois heures par semaine, accessible toute la semaine.

FINS 3105 [0.5 credit] French Reading II

Reading knowledge for academic purposes. Advanced reading strategies. Individual reading in the student's specialization. Given in English. Not recommended for first-year students. No auditors. Course may be taken concurrently with FREN 1100.

Prerequisite(s): placement test on Carleton Central or FINS 2105 or permission of the Department.

Offered online, asynchronous, weekly progression.

FINS 3205 [0.5 credit] Oral Comprehension II

Advanced training and practice in the comprehension of authentic oral materials in French. Individual assignments in the student's specialization. Oral documents in French; analysis, discussion, reporting and testing in English and French. No auditors.

Prerequisite(s): FINS 2205 or permission of the Department.

FINS 3405 [0.5 credit]

French for Special or Professional Purposes I

Topics may vary from year to year. Consult the Web site. Prerequisite(s): permission of the Department.

FINS 3406 [0.5 credit]

French for Special or Professional Purposes II

Topics may vary from year to year. Consult the Web site. Prerequisite(s): permission of the Department.

FINS 3407 [0.5 credit]

French for Special or Professional Purposes III

Topics may vary from year to year. Consult the Web site. Prerequisite(s): permission of the Department.

FINS 3801 [0.5 credit] Selected Topics in French A

Students may take a third-year course offered in the Department of French while submitting course work in English. This course does not count towards any degree program in French.

Prerequisite(s): third-year standing and permission of the Department.

Hours to be determined.

FINS 4801 [0.5 credit] Selected Topics in French A

Students may take a fourth- or fifth-year special topic seminar offered in the Department of French while submitting written work in English. This course does not count towards credit in any degree program in French. Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

FINS 4802 [0.5 credit] Selected Topics in French B

Students may take a fourth- or fifth-year special topic seminar offered in the Department of French while submitting written work in English. This course does not count towards credit in any degree program in French. Prerequisite(s): fourth-year standing or permission of the Department.

Hours to be determined.

Geography (GEOG)

Geography (GEOG) Courses

4000-level courses are normally restricted to students with fourth-year Honours standing. However, students with third-year standing may take 4000-level courses provided they have the necessary prerequisites, a Geography CGPA of 6.50 or better, and permission of the Department.

GEOG 1010 [0.5 credit] Global Environmental Systems

Principles, processes and interactions in the Earth's environment emphasizing the flow of energy and matter within global systems. Atmospheric and oceanic processes, earth surface processes and biogeochemical cycling. Case studies on the interaction between human activity and the natural environment.

Includes: Experiential Learning Activity

Lectures three hours a week, laboratory two hours a week.

GEOG 1020 [0.5 credit]

People, Places and Environments

Introduction to human geography. Examination of relationships between people, communities, society and the natural environment at local to global scales. Population change, cultural patterns, and historical, economic, political and environmental forces, including climate change, that shape human activity and experiences from place to place.

Includes: Experiential Learning Activity

Also listed as ENST 1020.

Lectures two hours a week and tutorial one hour a week.

GEOG 1023 [0.5 credit]

Introduction to Cities and Urbanization

Geographies of urban experience, development, and change across an urbanizing planet. Historical and contemporary urbanization processes, patterns, and issues in and between cities and regions. The role of urbanization in producing and responding to climate change.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 2400 (no longer offered).

Lectures two hours per week and tutorials one hour per week.

GEOG 2005 [0.5 credit] Introduction to Qualitative Research

Introduction to the research process, from generating questions to reporting results. Topics include intensive and extensive research approaches; the use of surveys, interviews and other data collection methods; the analysis of qualitative information; and the ethical dimensions of doing research with people and communities.

Includes: Experiential Learning Activity

Also listed as ENST 2005.

Prerequisite(s): 1.0 credit in GEOG or ENST at the 1000-level and second-year standing, or permission of the Department.

Lectures two hours a week, workshop two hours a week.

GEOG 2006 [0.5 credit] Introduction to Quantitative Research

Introduction to solving problems using descriptive and inferential statistical methods. Graphical and numerical tools to describe distributions. Probability, sampling and estimates, and hypothesis testing. Fundamentals of spatial statistics and analysis.

Includes: Experiential Learning Activity

Also listed as ENST 2006.

Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), DATA 1517, ECON 2210, NEUR 2002, PSCI 2702, STAT 2507, STAT 2601, STAT 2606.

Lectures two hours a week, laboratory two hours a week.

GEOG 2013 [0.5 credit]

Weather and Water

Introduction to climate, weather and the hydrological cycle. Physical properties of the atmosphere, radiation and energy balances, global circulation, atmospheric moisture and precipitation, weather systems and forecasting, mechanisms of anthropogenic climate change. Includes: Experiential Learning Activity

Prerequisite(s): GEOG 1010 or ERTH 1002 or ISCI 1001. Lectures three hours a week, laboratory three hours a week.

GEOG 2014 [0.5 credit] The Earth's Surface

Introduction to geomorphology. Weathering, slope and fluvial processes within drainage basins, and glacial and periglacial processes.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 1010 or ERTH 1002 or ISCI 1001. Lectures three hours a week, laboratory three hours a week

GEOG 2020 [0.5 credit] Ecosystems of Canada

Introduction to world biomes and in-depth analysis of the characteristics and distribution of Canada's major ecosystems including the boreal forest, temperate forest, tundra, grasslands, wetlands, and aquatic environments; Current issues in ecosystem science and conservation such as climate change, agricultural management, forestry and urban ecology.

Prerequisite(s): GEOG 1010 or ERTH 1002 or ERTH 1004 or ISCI 1001.

Lectures three hours a week.

GEOG 2023 [0.5 credit]

Cities, Inequality and Urban Change

Geographical perspectives on the uneven power relationships and politics that shape urban lives and urban space. Key topics may include housing and segregation, planning for sustainable cities, urban social movements, urban inequality and changing livelihoods.

Includes: Experiential Learning Activity

Precludes additional credit for GEOG 2400 (no longer offered).

Prerequisite(s): GEOG 1023, or second-year standing, or permission of the department.

Lectures two hours per week and tutorials one hour per week.

GEOG 2200 [0.5 credit] Global Connections

Globalization and global environmental change as linked processes. Geographical analysis of economic, cultural, political, and climate change transformations acting at global, national and local scales. Choices and constraints underlying economic, social and environmental sustainability.

Prerequisite(s): second-year standing or permission of the Department.

Lectures three hours a week.

GEOG 2300 [0.5 credit] Space, Place and Culture

Introduction to social and cultural geography, including how theories of space, place, landscape, power, and knowledge can be used to understand the geographic dimensions of social and cultural life. Topics include culture and identity, migration and transnationalism, nature, gender, sexuality, race, colonialism, consumption, and work

Prerequisite(s): second-year standing or permission of the Department.

Lectures two hours a week, discussion one hour a week.

GEOG 2500 [0.5 credit]

Climate Change: Social Science Perspectives

An introduction to climate change as a political, economic and socio-cultural phenomenon, including the political-economic and world-historical causes of anthropogenic greenhouse gas emissions; variations in impact and vulnerability; climate justice and other political movements; global mitigation and adaptation strategies; and proposals for radical systemic change.

Includes: Experiential Learning Activity

Also listed as ENST 2500.

Prerequisite(s): second-year standing or permission of the Department.

Lectures two hours a week, discussion groups one hour a week.

GEOG 2600 [0.5 credit] Geography Behind the Headlines

Exploration of the geographical backgrounds to selected issues of current public interest, through geography's perspective of integrating human and physical environments. Issues selected will be structured from the global through the national/regional to the local, identifying the interdependencies among the scales. Lecture three hours a week.

GEOG 3000 [0.5 credit]

Honours Field Course

Field research, with a focus on data collection methods, analysis and presentation of findings. Design and conduct research that links the human and biophysical environment. Topics may change from year to year. Includes: Experiential Learning Activity Also listed as ENST 3900.

Precludes additional credit for ENST 2900 (no longer offered).

Prerequisite(s): GEOG 2005/ENST 2005 and GEOG 2006/ENST 2006, third-year Honours standing in Geography, Geomatics or Environmental Studies, or permission of the Department.

Normally consists of a multi-day field excursion in the Ottawa region. A supplementary charge may apply. Consult the department regarding course details.

GEOG 3001 [0.5 credit] Doing Qualitative Research

Theory and methods used in qualitative approaches to research in human geography; hands-on experience and discussion of beliefs and claims underlying scholarly work. Ethical and practical dilemmas confronting researchers. Gathering and interpreting qualitative information; representing knowledge.

Includes: Experiential Learning Activity
Prerequisite(s): GEOG 2005 or ENST 2005.
Lecture and discussion three hours per week.

GEOG 3003 [0.5 credit] Quantitative Geography

Quantitative methods used in geographical research: multiple correlation and regression, principal component/ factor analysis, spatial statistics, cluster analysis, and a review of other selected techniques. Computer-based analysis.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2006 or ENST 2006 or STAT 2507

or permission of the Department.

Lecture two hours a week, laboratory two hours a week.

GEOG 3009 [0.5 credit]

Special Topics in Human Geography

Selected topics concerning human geography not usually included in regular course offerings. Topic varies from year to year. Students should check with the Department for more information.

Precludes additional credit for GEOG 2505 (no longer offered).

Prerequisite(s): GEOG 1020 or ENST 1020 and third-year standing, or permission of the Department.

Lecture three hours per week.

GEOG 3010 [0.5 credit]

Field Methods in Physical Geography

Field and laboratory approaches, methodologies and techniques in physical geography. Field projects will be undertaken to collect data for analysis, evaluation and presentation.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2006 or ENST 2006 or STAT 2507 and GEOG 2013 or GEOG 2014 or permission of the Department.

Normally consists of a multi-day field camp, including lodging, during Fall or Winter Break, and regular classroom meetings. A supplementary charge will apply.

GEOG 3021 [0.5 credit]

Geographies of Culture and Identity

Examination of culture, identity and place over time in different contexts; how colonialism, globalization and other processes have shaped societies; geographies of identity, including gender, ethnicity, race and nationality; relationships between cultural groups and their natural surroundings and impacts of climate change.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2300 and third-year standing, or permission of the Department. Lecture three hours a week.

GEOG 3022 [0.5 credit]

Environmental and Natural Resources

Exploration of complexity, dynamics, uncertainty and equity issues underpinning environmental and resource issues; review and appraisal of selected contemporary methods to assess and manage environmental and natural resources.

Includes: Experiential Learning Activity

Also listed as ENST 3022.

Prerequisite(s): third-year standing in Geography or Environmental Studies or BGInS Specialization/Stream in Globalization and Environment or permission of the Department.

Lecture three hours a week.

GEOG 3023 [0.5 credit] Cities in a Global World

Introduces the study of cities as "systems of cities", the political economy of linkages between urban places located unevenly in space, and "cities as systems". Case studies of socio-cultural, political and economic relations within biophysical and built environments.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2023 and third-year standing, or permission of the department.

Lecture and discussion three hours a week.

GEOG 3024 [0.5 credit]

Understanding Globalization

Geographical analysis of processes of globalization: theoretical frameworks, historical context and contemporary challenges.

Prerequisite(s): GEOG 2200 and third-year standing, or permission of the Department.

Lecture three hours a week.

GEOG 3025 [0.5 credit]

Geographies of Selected Regions

Geographical analysis of key questions facing a selected region of the world. Attention will focus on selected topics within one or more regions and their related global context.

Prerequisite(s): third-year standing in a B.A. program or BGInS Specialization/Stream in Globalization and Environment or permission of the Department. Lecture three hours a week.

GEOG 3026 [0.5 credit]

Topics in the Geography of Canada

Selected topic concerning the geography of Canada. Topic varies from year to year.

Precludes additional credit for GEOG 2505 [no longer offered].

Prerequisite(s): GEOG 1020 or ENST 1020 and secondyear standing, or permission of the Department. Lecture three hours a week.

GEOG 3030 [0.5 credit] Regional Field Excursion

Guided and independent geographic field research, with a focus on data collection methods, and analysis and presentation of findings. Consists of an excursion outside of the Ottawa region. A supplementary charge may apply. Includes: Experiential Learning Activity

Prerequisite(s): third-year Honours standing in Geography or BGInS Specialization in Globalization and Environment or permission of the Department.

A seven- to ten-day field excursion.

GEOG 3102 [0.5 credit]

Geomorphology

Geomorphological agents of landscape change at the Earth's surface, emphasizing the role of water, ice and wind in erosion and deposition; use of geomorphic indicators in studies of environmental and climate change. A supplementary charge may apply.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2014 and third-year standing, or

permission of the Department.

Lectures two hours a week, laboratory two hours a week, one field excursion.

GEOG 3103 [0.5 credit] Watershed Hydrology

Principles of watershed hydrology and climate change impacts on renewable freshwater resources, emphasizing the physical mechanisms of runoff generation, groundwater flow, soil water movement, evapotranspiration and snowmelt.

Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or permission of the Department.

Lectures three hours a week, laboratory two hours a week

GEOG 3104 [0.5 credit]

Principles of Biogeography

Contemporary and past controls on distribution of plants and animals at global, regional and local scales; significance of these distributions.

Includes: Experiential Learning Activity

Also listed as BIOL 3608.

Prerequisite(s): GEOG 1010 or BIOL 2600, or permission of the Department

of the Department.

Lectures, laboratory, and fieldwork five hours a week.

GEOG 3105 [0.5 credit] Climate and Atmospheric Change

The global climate system, with emphasis on global change variability over the historical and modern periods; the changing composition of the atmosphere and its impact on climate; analysis and interpretation of climatic and atmospheric data; modeling of climate systems. Includes: Experiential Learning Activity

Prerequisite(s): GEOG 2013 or permission of the Department.

Lecture two hours a week, laboratory two hours a week.

GEOG 3106 [0.5 credit]

Aquatic Science and Management

Fundamentals of aquatic science. The physical, chemical, and biotic aspects of lake, river, and estuary ecosystems in different geographic contexts. The impacts of climate and environmental changes on aquatic ecosystems and management and conservation actions to conserve and restore these ecosystems.

Includes: Experiential Learning Activity

Also listed as ENSC 3106.

Prerequisite(s): third-year standing and a second-year

science or engineering course. Lectures three hours per week.

GEOG 3108 [0.5 credit]

Soil Properties

The physical, chemical and biological properties of soils and how these impact soil-water relationships, soil quality, soil fertility, soil biology and soil classification, among other topics. Examines the role of soils in food production and climate change.

Includes: Experiential Learning Activity
Prerequisite(s): GEOG 2013 or GEOG 2014 or
permission of the Department.

Lectures and laboratory five hours a week.

GEOG 3206 [0.5 credit]

Health, Environment, and Society

Explores the nexus between geography and human health, including climate change impacts on disease, mental and physical health, and inequity; relationships between colonization, modernization, identity, ideologies, and the environment; population health and health behaviour; social determinants of global health inequality and possibilities for change.

Prerequisite(s): third-year standing. Lectures three hours a week.

GEOG 3209 [0.5 credit]

Sustainability and Environment in the South

Analysis of the relationships between people and environment in selected regions in the South (Africa, Asia, Latin America). Emphasis on sustainable livelihoods and local action in relation to climate change and broader socioeconomic and political processes. Regions selected vary from year to year.

Prerequisite(s): third-year standing and ENST 2000 or ENST 2001 or GEOG 2200 or GEOG 2300 or permission of the Department.

Lecture and discussion three hours a week.

GEOG 3404 [0.5 credit]

Geographies of Economic Development

Geographical approaches to economic development and difference at local, regional, and global scales. Critical historical, cultural, social, political, economic, and environmental perspectives on 'development', including theories of the state, colonial power, development institutions, and climate change. Spatial dynamics and environmental impacts of economic activity. Prerequisite(s): GEOG 2200 or permission of the Department.

Lectures three hours a week.

GEOG 3501 [0.5 credit]

Geographies of the Canadian North

Key issues in contemporary northern Canada, including land and jurisdiction, wildlife, resource extraction, economic development, culture, geopolitics, health, and climate change. Historical geography and physical characteristics of the region.

Prerequisite(s): third-year standing or permission of the Department.

Lectures three hours a week.

GEOG 3700 [0.5 credit] Population Geography

The distributional aspects of population attributes; areal patterns of population characteristics and their spatial variations associated with differences in the nature of places; migratory movements within the framework of spatial models of interactions between locations.

Prerequisite(s): GEOG 2200 or GEOG 2300, or permission of the Department.

Lectures three hours a week.

GEOG 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

GEOG 4000 [0.5 credit] Field Studies

Field observation and methodology in a selected region; individual or group basis.

Includes: Experiential Learning Activity

Also listed as ENST 4400.

Prerequisite(s): third-year Honours standing and

permission of the Department.

Hours to be arranged.

GEOG 4004 [0.5 credit]

Environmental Impact Assessment

Principles, scope and purpose of environmental impact assessment, from conceptual and methodological points of view; range of environmental issues, with emphasis on Canadian case studies.

Includes: Experiential Learning Activity

Also listed as ENST 4004.

Prerequisite(s): GEOG 3022 or ENST 3022, and fourthyear Honours standing in Geography or Environmental Studies or Environmental Science, or permission of the Department.

Lectures and seminars three hours a week.

GEOG 4005 [0.5 credit]

Directed Studies in Geography

Students pursue their interest in a selected theme in geography on a tutorial basis with a member of the Department.

Prerequisite(s): permission of the Department.

GEOG 4007 [0.5 credit]

Special Topics in Geography and Environmental Studies

Selected topics in geography and/or environmental studies.

Also listed as ENST 4007.

Precludes additional credit for GEOG 4006. Prerequisite(s): fourth-year Honours standing in the Department of permission of the Department.

Seminar three hours per week.

GEOG 4013 [0.5 credit] Cold Region Hydrology

An examination of cold region hydrologic processes via experimental and observational studies emphasizing arctic, sub-arctic and northern boreal landscapes experiencing rapid climate change.

Prerequisite(s): GEOG 3103. Lecture three hours a week.

GEOG 4017 [0.5 credit] Global Biogeochemical Cycles

Processes that control the fluxes and reservoirs of biologically active chemical constituents on land, in the atmosphere, and in the oceans. Climate change impacts on global carbon and nitrogen cycles and their feedbacks on the climate system.

Prerequisite(s): GEOG 3108 or permission of the Department.

Lectures three hours a week.

GEOG 4021 [0.5 credit]

Seminar in Culture, Identity and Place

Selected topic or field of inquiry concerning the geographic dimensions of culture, identity and place. Prerequisite(s): GEOG 3021 and fourth-year Honours standing in Geography or permission of the Department. Seminar three hours a week.

GEOG 4022 [0.5 credit]

Seminar in People, Resources and Environmental Change

A selected topic or field of inquiry concerning natural resource use and environmental change.

Also listed as ENST 4022.

Prerequisite(s): GEOG 3022 or ENST 3022 and fourthyear Honours standing in Geography or Environmental Studies or BGInS Specialization in Globalization and Environment or permission of the Department. Seminar three hours a week.

GEOG 4023 [0.5 credit]

Seminar in Special Topics on the City

A selected topic or field of inquiry concerning urban geography.

Prerequisite(s): GEOG 3023 and fourth-year Honours standing in Geography or Environmental Studies or BGInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours per week.

GEOG 4024 [0.5 credit] Seminar in Globalization

A selected issue or topic related to globalization. Prerequisite(s): GEOG 3024 and fourth-year Honours standing in Geography or BGInS Specialization in Globalization and Environment or permission of the Department.

Seminar three hours week.

GEOG 4040 [0.5 credit] Geographic Thought

Major intellectual issues and debates in the development of contemporary human geography, including history of geographic thought, geographic responses to social and political movements and debates, and geographic engagement with contemporary critical theory.

Prerequisite(s): fourth-year Honours standing in Geography or permission of the Department.

Seminar three hours per week.

GEOG 4050 [0.5 credit]

Environmental and Geographic Education

Selected theoretical and applied issues concerning environmental and geographic education.

Also listed as ENST 4050.

Prerequisite(s): third-year Honours standing in Geography or Environmental Studies, or permission of the Department.

GEOG 4101 [0.5 credit]

Two Million Years of Environmental Change

Multidisciplinary scientific study of the changes in the physical environment of the Earth during the last two million years and methods of studying recent Earth history, with focus on current research.

Includes: Experiential Learning Activity

Prerequisite(s): third year standing in a B.Sc. program, or a third year Science Geography Elective or a third year ERTH course, or permission of the Department. Note: GEOG 3105 is recommended.

Lectures three hours a week.

GEOG 4103 [0.5 credit] Water Resources Engineering

A quantitative analysis of natural water systems and the development of these systems as a resource. Components of the hydrologic cycle. Quantitative analysis of stream flow. Probability concepts in water resources. Reservoir design and operation. Availability of groundwater. Storm water management. Also listed as ENVE 3003.

Prerequisite(s): permission of the Department.

Recommended background: MAAE 2300. Lectures three hours a week, problem analysis one hour a week.

GEOG 4104 [0.5 credit] Microclimatology

The formation of microclimates near the Earth's surface. Discussion and demonstration of techniques used to measure and monitor microclimates. Microclimate impacts on forest, crop and animal production, hydrology, urban heat islands, and the impacts of climate change. Prerequisite(s): GEOG 2013 or permission of the Department.

Lectures three hours a week.

GEOG 4108 [0.5 credit] Permafrost

Understanding permafrost processes and phenomena and how they respond to climate change. Topics include the distribution, development, and degradation of permafrost; interactions between atmosphere, snow, and ground; the thermal and hydrologic regime of permafrost terrain; landforms in permafrost regions; geotechnical consideration in northern construction.

Prerequisite(s): GEOG 3108 or permission of the Department.

Lectures three hours a week.

GEOG 4304 [0.5 credit]

Transportation Engineering and Planning

Transportation and the socio-economic environment; modal and intermodal systems and components; vehicle motion; human factors, system and facility design; traffic flow; capacity analysis; planning methodology; environmental impacts; evaluation methods. Precludes additional credit for CIVE 3304.

Prerequisite(s): third-year standing, or permission of the Department.

Lectures three hours a week, problem analysis three hours alternate weeks.

GEOG 4323 [0.5 credit] Urban and Regional Planning

History, theories, and practice of urban planning, as well as the policies, plans, and programs developed and implemented in diverse communities. Course topics may include the integration of community development and social planning, urban design, transportation and infrastructure, and environmental management. Includes: Experiential Learning Activity Prerequisite(s): GEOG 3023 and fourth-year standing in Geography or Environmental Studies, or permission of the

Lectures three hours per week.

GEOG 4406 [0.5 credit] Practicum I

department.

Students apply their knowledge and research skills and gain experience through field placements in government, the private sector, non-government organisations and with community organisations in the environmental field.

Includes: Experiential Learning Activity

Also listed as GEOM 4406.

Prerequisite(s): fourth-year Honours standing in Geography or Geomatics and permission of the Department.

Field placement one day a week.

GEOG 4408 [0.5 credit]

Practicum II

Students apply their knowledge and research skills and gain experience through field placements in government, the private sector, non-government organisations and with community organisations in the environmental field.

Includes: Experiential Learning Activity

Also listed as GEOM 4408.

Prerequisite(s): fourth-year Honours standing in Geography or Geomatics and permission of the Department.

Field placement of one day a week.

GEOG 4450 [0.5 credit]

Community-Engaged Research

Working in partnership with local organizations, students apply their geographical knowledge to conduct community-engaged research. Student projects will generate outputs for community partners. Research topics vary year to year.

Includes: Experiential Learning Activity

Also listed as ENST 4450.

Prerequisite(s): fourth-year standing, or permission of the

department.

Lectures, discussion and project work three hours a week.

GEOG 4906 [1.0 credit] Honours Research Project

A research project based on a modeling, laboratory or field problem. The project is supervised by a member of the department and a written thesis and poster must be submitted.

Includes: Experiential Learning Activity
Precludes additional credit for GEOG 4904/GEOM
4904 (no longer offered), GEOM 4906, GEOG 4909,
GEOM 4909, ENST 4906, and ENST 4907.
Prerequisite(s): fourth-year Honours standing in B.Sc.
Geography, and an approved research topic and adviser.
Hours to be arranged with faculty adviser.

GEOG 4909 [1.0 credit] Honours Research Thesis

Independent design and implementation of a research project leading to the submission of a research thesis. Students work with an individual faculty adviser. The subject for research is decided upon in consultation with the supervisor.

Includes: Experiential Learning Activity
Precludes additional credit for GEOG 4904/GEOM
4904 (no longer offered), GEOG 4906, GEOM 4906,
GEOM 4909, ENST 4906, and ENST 4907.
Prerequisite(s): fourth-year Honours standing in B.A.
Geography or B.Globalization and International Studies, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.
Hours to be arranged with faculty adviser.

Geomatics (GEOM)

Geomatics (GEOM) Courses

GEOM 1004 [0.5 credit]

Maps, Satellites and the Geospatial Revolution

Introduction to the creation and use of maps using a variety of geospatial tools to better understand and resolve physical, social and environmental problems. Overview of geomatics (cartography and map design, geographic information systems, GPS, remote sensing).

Includes: Experiential Learning Activity

Also listed as ERTH 2004.

Precludes additional credit for GEOM 2004 (no longer

Lectures and laboratory, four hours a week.

GEOM 2005 [0.5 credit] Introduction to Geospatial Programming

Computer programming for geomatics students focusing on storage, manipulation, management, visualization and analysis of geospatial data; Essential coding concepts and best practices including variables, loops, and conditional statements; programmatic handling of raster and vector data structures; batch geoprocessing and map production; GIS tool customization.

Includes: Experiential Learning Activity Lectures and laboratory, four hours per week.

GEOM 2007 [0.5 credit]

Vector GIS: Points, Lines and Polygons

Storage, visualization, manipulation and analysis of vector geospatial data. Vector geoprocessing including buffering, overlays and topological analysis; feature classification and cartographic representation; managing coordinate reference systems for vector layers; selected applications of vector GIS such as urban planning, environmental and resource management and socio-economic mapping. Includes: Experiential Learning Activity

Prerequisite(s): GEOM 1004 or permission of the

Prerequisite(s): GEOM 1004 or permission of the Department.

Lectures and laboratory, four hours a week.

GEOM 2008 [0.5 credit] Raster GIS: Pixels and Grids

Storage, visualization, manipulation, and analysis of gridded geospatial data; 3D visualization; digital terrain analysis; interpolation and filtering; raster geoprocessing and projections; selected topics and applications in raster GIS such as least-cost path analysis, natural hazard assessment, pollution mapping and hotspot analysis for population geography.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 1004 or permission of the

Department.

Lectures and laboratory, four hours per week.

GEOM 3002 [0.5 credit]

Introduction to Remote Sensing

Principles and methods of remote sensing; visual interpretation of air photos and satellite imagery; digital image processing, analysis and classification for thematic mapping; introduction to various active and passive remote sensing imagery types such as optical, hyperspectral, RADAR and LiDAR.

Includes: Experiential Learning Activity

permission of the Department.

Lectures two hours a week, laboratory two hours a week.

GEOM 3005 [0.5 credit] Geospatial Analysis

An advanced course in geospatial analysis theory and practice; geoprocessing; geo-visualization; geostatistics; spatial modelling; working with spatio-temporal data structures; advanced site-suitability and network analysis; intermediate GIS tool customization.

Includes: Experiential Learning Activity
Prerequisite(s): GEOM 2007 and GEOM 2008.
Lecture and laboratories five hours a week.

GEOM 3007 [0.5 credit] Cartographic Theory and Design

Principles of and issues in cartography, cartographic communication and map design; practical aspects of cartographic representation using multimedia and online/interactive mapping.

Includes: Experiential Learning Activity
Prerequisite(s): GEOM 2007 or GEOM 2008 or
permission of the Department.

Lectures and laboratory four hours a week.

GEOM 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

GEOM 4001 [0.5 credit] Special Topics in Geomatics

A seminar focusing on selected topics in geomatics including advanced theory and/or application. Includes: Experiential Learning Activity Prerequisite(s): fourth-year Honours standing in Geomatics or permission of the department. Laboratory or seminar three hours a week.

GEOM 4003 [0.5 credit]

Remote Sensing of the Environment

Advanced image enhancement; land cover classification for thematic mapping; biophysical modeling; applications in resources, environment, and urban mapping.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3002 and Honours standing, or permission of the Department.

Lectures two hours a week, laboratory two hours a week.

GEOM 4005 [0.5 credit]

Directed Studies in Geomatics

Students pursue their interest in a selected theme in Geomatics on a tutorial basis with a member of the Department.

Prerequisite(s): permission of the Department.

GEOM 4008 [0.5 credit]

Advanced Topics in Geographic Information Systems

Advanced methods and techniques in GIS applications including: positional and attribute error analysis, multiple criteria decision making, interpolation, elevation modeling and ortho-imaging, and spatial pattern measurement.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 3005 and Honours standing. Lectures two hours a week, laboratory two hours a week.

GEOM 4009 [0.5 credit]

Custom Geomatics Applications

Development and implementation of custom geomatics applications and workflows using programming and various geoprocessing tools. Project design, application development, GIS automation and documentation.

Includes: Experiential Learning Activity

Prerequisite(s): GEOM 2005 and (GEOM 3002 or GEOM 3005 or GEOM 3007), or permission of the department.

Workshop three hours a week.

GEOM 4406 [0.5 credit]

Practicum I

Students apply their knowledge and research skills and gain experience through field placements in government, the private sector, non-government organisations and with community organisations in the environmental field.

Includes: Experiential Learning Activity

Also listed as GEOG 4406.

Prerequisite(s): fourth-year Honours standing in Geomatics or Geography and permission of the Department.

Field placement one day a week.

GEOM 4408 [0.5 credit]

Practicum II

Students apply their knowledge and research skills and gain experience through field placements in government, the private sector, non-government organisations and with community organisations in the environmental field. Includes: Experiential Learning Activity Also listed as GEOG 4408.

Prerequisite(s): fourth-year Honours standing in Geomatics or Geography and permission of the

Department.

Field placement one day a week.

GEOM 4906 [1.0 credit] Honours Research Project

Candidates for B.Sc. with Concentration in Geomatics undertake a research project within their area of specialization. The project is supervised by a member of the department and a written report must be submitted. The candidate may be examined orally on the report. Includes: Experiential Learning Activity Precludes additional credit for GEOG 4904/GEOM 4904 (no longer offered), GEOG 4906, GEOG 4909, GEOM 4909, ENST 4906, and ENST 4907. Prerequisite(s): fourth-year Honours standing in BSc Geomatics, and an approved research topic and adviser. Hours to be arranged with faculty adviser.

GEOM 4909 [1.0 credit] Honours Research Thesis

Independent design and implementation of a research project leading to the submission of a research thesis. Students work with an individual faculty adviser. The subject for research is decided upon in consultation with the supervisor.

Includes: Experiential Learning Activity Precludes additional credit for GEOG 4904 / GEOM 4904 (no longer offered), GEOG 4906, GEOM 4906, GEOG 4909, ENST 4906 and ENST 4907. Prerequisite(s): fourth-year Honours standing in B.A.

Geomatics, a minimum CGPA of 9.00 in the major or permission of the Department, and an approved research topic and adviser.

Hours to be arranged with faculty adviser.

German (GERM)

German (GERM) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to

complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

GERM 1010 [0.5 credit] First-Year German I

For students with no knowledge of German. Oral skills. reading and writing. Compulsory attendance. Includes: Experiential Learning Activity Precludes additional credit for GERM 1110. Four hours a week.

GERM 1020 [0.5 credit] First-Year German II

Continuation of first-year German. Oral skills, reading and writing. Compulsory attendance. Includes: Experiential Learning Activity Precludes additional credit for GERM 1110. Prerequisite(s): grade of C or higher in GERM 1010, or permission of the School. Four hours a week.

GERM 1110 [1.0 credit] Intensive First-Year German

For students with no knowledge of German. Oral skills, reading and writing. Compulsory attendance. Includes: Experiential Learning Activity Precludes additional credit for GERM 1010 and GERM 1020.

Eight hours a week (one term).

GERM 2000 [0.5 credit] Reading in German I

For students with no prior knowledge of German who would like to develop the skills to read a variety of German texts, including passages from scholarly journals, reports, online newspaper or magazine articles. Includes: Experiential Learning Activity

Three hours a week.

GERM 2010 [0.5 credit] Second-Year German I

Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity Precludes additional credit for GERM 2110. Prerequisite(s): grade of C or higher in GERM 1020, GERM 1110, or permission of the School.

Four hours a week.

GERM 2020 [0.5 credit] Second-Year German II

Continuation of second-year German. Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Includes: Experiential Learning Activity

Precludes additional credit for GERM 2110.

Prerequisite(s): grade of C or higher in GER

Prerequisite(s): grade of C or higher in GERM 2010, or

permission of the School. Four hours a week.

GERM 2110 [1.0 credit]

Intensive Second-Year German

Further study of German to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for GERM 2010 and

GERM 2020.

Prerequisite(s): grade of C or higher in GERM 1020,

GERM 1110, or permission of the School.

Eight hours a week (one term).

GERM 3000 [0.5 credit] Reading in German II

A continuation of Reading in German I. Further development of reading skills in German.

Includes: Experiential Learning Activity

Prerequisite(s): grade of C or higher in GERM 2000 or permission of the School.

Three hours a week.

GERM 3010 [0.5 credit] Third-Year German I

Continuation of the study of German to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for GERM 3110.

Prerequisite(s): grade of C or higher in GERM 2020,

GERM 2110, or permission of the School.

Three hours a week

GERM 3020 [0.5 credit] Third-Year German II

Continuation of third-year German to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for GERM 3110.

Prerequisite(s): grade of C or higher in GERM 3010, or

permission of the School.

Three hours a week

GERM 3110 [1.0 credit] Intensive Third-Year German

Continuation of the study of German to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for GERM 3010 and
GERM 3020.

Prerequisite(s): grade of C or higher in GERM 2020, GERM 2110, or permission of the School. Six hours a week (one term).

GERM 4010 [0.5 credit] Fourth-Year German I

Advanced spoken and written German with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for GERM 4110.
Prerequisite(s): grade of C or higher in GERM 3020,
GERM 3110, or permission of the School.
Three hours a week

GERM 4020 [0.5 credit] Fourth-Year German II

Continuation of fourth-year German. Advanced spoken and written German with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for GERM 4110.
Prerequisite(s): grade of C or higher in GERM 4010, or permission of the School.

Three hours a week

GERM 4110 [1.0 credit] Intensive Fourth-Year German

Advanced spoken and written German with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for GERM 4010 and
GERM 4020.

Prerequisite(s): grade of C or higher in GERM 3110, or permission of the School. Six hours a week (one term).

GERM 4215 [0.5 credit]

German for Specific Purposes

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Includes: Experiential Learning Activity
Prerequisite(s): grade of C or higher in GERM 4110, or permission of the School.

Three hours per week.

GERM 4380 [0.5 credit]

Topics in German-speaking Cultures

Selected topics in German-speaking cultures and societies. Development of advanced language skills. Includes: Experiential Learning Activity Prerequisite(s): grade of C or higher in GERM 4110, or permission of the School.

Three hours per week.

GERM 4900 [1.0 credit]

Independent Study

Research in a topic in German language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity
Prerequisite(s): third- or fourth-year standing in the
Minor in German, grade of C or higher in GERM 4110 or
equivalent, or permission of the School.

GERM 4901 [0.5 credit] Independent Study

Research in a topic in German language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity
Prerequisite(s): third- or fourth-year standing in the
Minor in German, grade of C or higher in GERM 4110 or
equivalent, or permission of the School.

Global and International Studies (GINS)

Global and International Studies (GINS) Courses GINS 1000 [0.5 credit]

Global History

Introduction to political, social, cultural, economic and military developments in global and international history. Lectures two hours a week, tutorials one hour a week.

GINS 1010 [0.5 credit] International Law and Politics

Introduction to the evolution of the international system, including the rise of the state, sovereignty, and the challenge of international cooperation. The role of international law in addressing global issues such as human rights, security and trade.

Lectures two hours a week, tutorials one hour a week.

GINS 1020 [0.5 credit]

Ethnography, Globalization and Culture

Introduction to the intersection of globalization processes with social and cultural diversity as examined through ethnography and ethnographic methods. Topics may include cultural survival, growing economic inequality, ecological vulnerabilities, health practices, human rights, and shifting racialized, gendered, religious, ethnic, and national identities.

Lectures two hours a week, tutorials one hour a week.

GINS 1100 [0.5 credit] Global Development

Introduction to key questions and issues in development studies, taught from an inter-disciplinary perspective. Lectures two hours a week, tutorials one hour a week.

GINS 1300 [0.0 credit]

International Experience Requirement Preparation

This mandatory course introduces BGInS students to the International Experience Requirement (IER) and to the various policies and procedures associated with it. Graded SAT/UNS.

Prerequisite(s): first-year standing in BGInS. Online course.

GINS 2000 [0.5 credit] Ethics and Globalization

Introduction to global ethical issues, focusing on alternative lines of ethical argument. Topics may include poverty and unequal development, climate change, war and terrorism, reparations for colonialism and slavery, international relief services, ill effects of globalization, trafficking and forced labour, democracy and global governance.

Prerequisite(s): Second-year standing. Lectures two hours a week, tutorials one hour a week.

GINS 2010 [0.5 credit]

Globalization and International Economic Issues

An introduction to the world economy, international trade and finance, and economic development. Social and economic implications for both rich and poor countries of lowered barriers to the international flows of goods, services, capital, labour, and information in the age of globalization.

Prerequisite(s): Second-year standing.

Lectures two hours a week, tutorials one hour a week.

GINS 2020 [0.5 credit] Global Literatures

A study of the global dynamics of the contemporary literary imagination and literary production; literature as cultural practice; the politics of literary circulation; the politics of language and translation.

Prerequisite(s): Second-year standing.

Lectures two hours a week, tutorials one hour a week.

GINS 3010 [0.5 credit] Global and International Theory

Advanced analysis of global and international theories from a variety of perspectives, including realism, liberalism, postmodernism, constructivism, post-structuralism, literary and critical approaches.

Prerequisite(s): third-year standing in B.G.In.S.

Lectures three hours a week.

GINS 3020 [0.5 credit] Places, Boundaries, Movements and Global Environmental Change

Examination of the relationship between individual places and global social and environmental processes. The changing nature of regions, states and political boundaries in the context of political and economic globalization and international migration. Social science perspectives on climate change vulnerability, adaptation and mitigation. Prerequisite(s): third-year standing in B.G.In.S. Lectures three hours a week.

GINS 3100 [0.5 credit]

Global & International Experiential Learning Course

Students work on a project related to Global and International Experiential learning. Sessions are devoted to discussing project- related issues and student presentations. Course design may vary according to the professor's instructions. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity Prerequisite(s): third-year standing.

Discussion and project work, three hours per week.

GINS 3300 [0.5 credit]

Global and International Studies Abroad: Selected Topics

Based at a partner university around the world, and taught by a Carleton faculty member, the course will include lectures, seminars, guest speakers, field visits and group research projects to examine a topic in global and international studies. Topic and location will change annually.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and approval by the

BGInS Program Director.
Three week intensive course.

GINS 3910 [0.5 credit] BGInS International Placement

Placement for six weeks with a global and international focus

Includes: Experiential Learning Activity

Precludes additional credit for GINS 3900 (no longer offered)

Prerequisite(s): third-year standing in BGINS.

GINS 3911 [1.0 credit] BGInS International Placement

Placement for twelve weeks with a global and international focus.

Includes: Experiential Learning Activity

Precludes additional credit for GINS 3901 (no longer offered)

Prerequisite(s): third-year standing in BGInS.

GINS 3930 [0.5 credit] Carleton International Placement

Placement for six weeks with a global and international focus for students outside of the BGInS Program. Graded Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3701, IPAF 3900 (no longer offered).

Prerequisite(s): Third-year standing and minimum CGPA of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 3931 [1.0 credit]

Carleton International Placement

Placement for twelve weeks with a global and international focus for students outside of the BGInS Program.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 3702, IPAF 3901 (no

longer offered).

Prerequisite(s): Third-year standing and minimum CGPA

of 9.0.

Placement hours to be negotiated with on-site placement supervisor. Required assignments and due dates will be set by the course instructor at Carleton University.

GINS 3999 [0.0 credit] **Co-operative Work Term**

Includes: Experiential Learning Activity

GINS 4090 [0.5 credit]

Honours Seminar in Global and International Studies

Examination of key debates in global and international studies from a variety of disciplinary and interdisciplinary perspectives. Integration of knowledge from different areas of emphasis in global studies. A major research paper is required that undertakes to focus theoretical insight on practical concerns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S.

Seminar three hours a week.

GINS 4900 [0.5 credit]

Tutorial in Global and International Studies

A tutorial on selected topics in which seminars are not available.

Prerequisite(s): fourth-year Honours standing in B.G.In.S. and permission of the Program Director.

GINS 4908 [1.0 credit] **Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. B.G.In.S. regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in B.G.In.S. with a CGPA of 9.00 or higher, or permission of the

Program Director.

Greek (GREK)

Greek (GREK) Courses

GREK 1005 [0.5 credit] Introduction to Greek I

A course for beginners in ancient Greek, designed to give students a grasp of basic grammatical forms and vocabulary (with reference to English derivatives) through the reading of continuous Greek.

Includes: Experiential Learning Activity Lectures and tutorials four hours a week.

GREK 1006 [0.5 credit] Introduction to Greek II

A course for students with some previous knowledge of the language: study of grammatical forms and constructions; acquisition of reading skills. Includes: Experiential Learning Activity Prerequisite(s): GREK 1005 or equivalent. Lectures and tutorials four hours a week.

GREK 2200 [0.5 credit] Intermediate Greek I

Further study of the language; introduction to the reading of ancient Greek authors.

Includes: Experiential Learning Activity Precludes additional credit for GREK 2001. Prerequisite(s): GREK 1006 or equivalent.

Tutorials three hours a week.

GREK 2201 [0.5 credit] Intermediate Greek II

Continued study of the language; reading of selected prose and poetry by ancient Greek authors; development of translation skills.

Precludes additional credit for GREK 2001. Prerequisite(s): GREK 2200 or equivalent.

Tutorials three hours a week.

GREK 3900 [0.5 credit] Advanced Greek I

Reading and critical discussion of selections from ancient

Prerequisite(s): GREK 2200, GREK 2201 or equivalent. Tutorials three hours a week.

GREK 3901 [0.5 credit] Advanced Greek II

Reading and critical discussion of selections from ancient

Prerequisite(s): GREK 2200, GREK 2201 or equivalent. Tutorials three hours a week.

GREK 4900 [0.5 credit] **Directed Study**

GREK 4901 [0.5 credit] Directed Study

Health Sciences (HLTH)

Health Sciences (HLTH) Courses

HLTH 1000 [0.5 credit]

Fundamentals of Health

Introduction to what comprises a healthy body and mind, and what leads to illness and disease. Biomedical, psychosocial, and epidemiological approaches to current issues in the field of health. Policy and cultural/environmental contexts.

Includes: Experiential Learning Activity Precludes additional credit for HLTH 1001.

Lectures three hours a week and group one hour a week.

HLTH 1001 [0.5 credit] Principles of Health I

Health and illness will be considered from an interdisciplinary perspective, including biomedical, cultural, psychosocial and environmental.

Precludes additional credit for HLTH 1000.

Lecture three hours a week.

HLTH 1002 [0.5 credit] Health Science Communication

Introduction to using library, database and/or bioinformatics resources to develop informed verbal, nonverbal and written communication within the context of healthcare, public health and health research. Concepts in ethical scholarship, proper use of sources and plagiarism will be introduced.

Lecture three hours a week.

HLTH 2001 [0.5 credit] Health Research Methods and Skills

An introduction to quantitative and qualitative methods and designs in health sciences research. Basic research skills will also be provided, including regulatory aspects of conducting research, information literacy skills, evaluating published research and other sources of evidence in the digital age.

Includes: Experiential Learning Activity
Prerequisite(s): HLTH 1000 or HLTH 1001.
Lecture three hours a week, lab/workshop two hours a week.

HLTH 2002 [0.5 credit]

Molecular and Cellular Pathology

Introduction to the causes, natural history, and pathophysiology of common human diseases of various organ systems. Diseases related to structural and functional changes at the molecular, cellular and organ level.

Includes: Experiential Learning Activity
Prerequisite(s): HLTH 1000 and BIOL 1103 or

HLTH 2020.

Lecture three hours a week.

HLTH 2003 [0.5 credit] Social Determinants of Health

Overview of the social determinants of health, ranging from early life experiences, poverty, social status, migration, and the physical environment. The relation between social determinants and environmental vulnerabilities, health behaviours, illness prevalence, treatment outcomes, and access to health care. Prerequisite(s): HLTH 1000 or HLTH 1001. Lecture three hours a week.

HLTH 2004 [0.5 credit] Microbiology and Virology

Introduction to the pathogenic microorganisms, including fungal, bacterial, viral and prion. Biochemical, genetic, pathological and epidemiological aspects in the human context; their interaction with host defense systems and strategies for antibiotic and vaccine development.

Includes: Experiential Learning Activity

Precludes additional credit for BIOL 2303, HLTH 2024 and HLTH 3301 (no longer offered).

Prerequisite(s): HLTH 1000 and BIOL 1103 or permission of the department.

Lecture three hours a week, and laboratory four hours a week.

HLTH 2020 [0.5 credit] Principles of Health II

An overview of the history of medicine, its relationship to society, medical and health terminology, introduction to organ systems, diseases, illnesses and their diagnoses, current events in health and medicine.

Prerequisite(s): HLTH 1001 or permission of the department.

HLTH 2024 [0.5 credit] Microbiology and Virology

Introduction to pathogenic microorganisms, including fugal, bacterial, viral and prion. Biochemical, genetic, pathological and epidemiological aspects in the human context: their interaction with host defense systems and strategies for antibiotic and vaccine development. Precludes additional credit for HLTH 2004 and BIOL 2303.

Prerequisite(s): HLTH 1001 or permission of the department - Not for Health Sciences major students. Lecture

HLTH 2901 [0.5 credit] Independent Study

Independent study, open to second year and above. Students can explore a particular health-related topic in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity Prerequisite(s): Second year standing and above. Independent study

HLTH 3101 [0.5 credit] **Global Health**

Overview of issues in global health with focus on low- and middle-income countries. Key indicators and determinants of global health, implementation and evaluation of global programs, challenges of research and interventions in under served areas, and key players in addressing global health issues.

Prerequisite(s): HLTH 2001 and HLTH 2003, or permission of the department.

Lecture and seminar, three hours per week.

HLTH 3102 [0.5 credit] Indigenous Health in a Global World

The health conditions of Indigenous peoples in different regions of the world; social and biological factors that contribute to greater risk and poor health; strategies of Indigenous peoples to restore health to their peoples. Prerequisite(s): HLTH 2001 and HLTH 2003, or permission of the department.

Lecture and seminar three hours per week.

HLTH 3103 [0.5 credit]

Health Policy and Canada's Health Care System

The history of Canada's health care system. The model of financing and intergovernmental responsibilities. Current and emerging policy debates facing our health care system, and the role of scientific evidence in decisionmaking and policy development.

Prerequisite(s): HLTH 1000 or HLTH 1001, or permission of the department.

Lecture and seminar three hours per week.

HLTH 3104 [0.5 credit]

Regulatory Issues and Human Health

The general principles of health regulatory policies in Canada. The role of scientific evidence in developing legislation and regulations at different levels, including probable levels of risk, standards of evidence, costbenefit analysis, ethical considerations, psychosocial factors influencing risk management and compliance, and evolving technologies.

Prerequisite(s): HLTH 1000 or HLTH 1001, or permission of the department.

Lecture and seminar three hours a week.

HLTH 3201 [0.5 credit] **Epidemiology**

Basic concepts of epidemiologic study designs and measures; inferences that are fundamental to the identification of causes and prevalence of diseases. Specialized issues within epidemiology including geneenvironment interactions and the clustering of specific disease phenotypes.

Includes: Experiential Learning Activity Precludes additional credit for NEUR 3003. Prerequisite(s): STAT 2507 and HLTH 2001, or permission of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 3302 [0.5 credit]

Immunity and Immune-Related Disorders

Basic processes relevant to the immune system; the relationship between immune activity and functioning as related to the development of particular pathologies, such as virally-related illness, autoimmune disorders, inflammatory illnesses, and interactions with social and economic factors that promote immune-related disturbances.

Includes: Experiential Learning Activity Prerequisite(s): HLTH 2002 and BIOL 2200 or permission of the department.

Lecture three hours a week, laboratory four hours a week. Labs require regular participation outside of the scheduled

HLTH 3303 [0.5 credit]

Molecular and Cellular Pathology II

Advanced concepts in cell signaling and function, cell injury and death, tissue structure and wound healing and repair. This course will integrate genetic, biochemical and physiological mechanisms that contribute to health and disease.

Includes: Experiential Learning Activity Prerequisite(s): HLTH 2002.

Lecture three hours a week, lab four hours a week.

HLTH 3322 [0.5 credit]

Immunity and Immune Related Disorders

Basic processes relevant to the immune system; the relationship between immune activity and functioning as related to the development of particular pathologies, such as virally-related illness, autoimmune disorders, inflammatory illnesses and interactions with social and economic factors that promote immune-related disturbances. Non-Health Science Majors only. Also listed as HLTH 3302.

Prerequisite(s): HLTH 2002 and BIOL 2200, or permission of the department. Not open to Health Science students. Lecture 3 hours a week.

HLTH 3401 [0.5 credit] Diseases of Childhood

Epidemiological, psychological and physiological basis for disease in childhood and adolescence. Topics will be discussed from a global and Canadian perspective and include the medicalization of these diseases.

Includes: Experiential Learning Activity

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

or the department.

Lecture three hours a week.

HLTH 3402 [0.5 credit] Diseases of Aging

Aging is accompanied by increased illness related to cardiovascular, immune and neurodegenerative processes. This course assesses the fundamental mechanisms that determine these pathological conditions. Molecular mechanisms and psychosocial determinants; intervention and therapeutic strategies.

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of department.

Lecture three hours a week.

HLTH 3403 [0.5 credit] Gender and Health

The role of gender on psychosocial and biological mechanisms that alter the course of disease and treatment; health issues unique to women (e.g., reproductive and maternal health); the role of gender across cultures.

Prerequisite(s): HLTH 2002 and HLTH 2003, or permission of the department.

Lecture and seminar three hours a week.

HLTH 3404 [0.5 credit]

Psychosocial and Biological Interactions in Health

The psychosocial and biological mechanisms that interact to influence health outcomes. Cultural, political, socioeconomic, and psychological factors that can impact the biological mechanisms underlying both mental and physical health; epigenetic and genetic alterations; implications for psychosocial interventions.

Precludes additional credit for HLTH 4402 (no longer offered).

Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture and seminar three hours a week.

HLTH 3503 [0.5 credit] Disability and Chronic Health Conditions

An interdisciplinary view of disability and chronic health conditions, including risk factors, prevalence, and the trajectory of such conditions. Functional impact based on life stage. Strategies for health promotion, prevention, accommodations, treatment, and rehabilitation. Prerequisite(s): HLTH 2002 and HLTH 2003 or permission of the department.

Lecture three hours a week.

HLTH 3901 [0.5 credit]

Emerging Issues in Health Sciences I

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses, and for skills development including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing and above in the
BHSc program, an overall CGPA of at least 8.5 and
permission of the Department of Health Sciences.
Seminars three hours a week.

HLTH 3902 [0.5 credit] Emerging Issues in Health Sciences II

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing and above in the
BHSc program, an overall CGPA of at least 8.5 and
permission of the Department of Health Sciences.
Seminars three hours a week.

HLTH 3903 [0.5 credit]

Emerging Issues in Health Sciences III

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing and above in the
BHSc program, an overall CGPA of at least 8.5 and
permission of the Department of Health Sciences.
Seminars three hours a week.

HLTH 3904 [0.5 credit]

Emerging Issues in Health Sciences IV

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing and above in the
BHSc program, an overall CGPA of at least 8.5 and
permission of the Department of Health Sciences.
Seminars three hours a week.

HLTH 3905 [0.5 credit]

Emerging Issues in Health Sciences V

These courses enable students to develop an understanding of the current state of research and practice in Health Sciences. They provide the opportunity to bring together knowledge from other courses and for skills development, including teamwork, communication and critical thinking.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing and above in the
BHSc program, an overall CGPA of at least 8.5 and
permission of the Department of Health Sciences.
Seminars three hours a week.

HLTH 4101 [0.5 credit] Global Health Governance

Contemporary issues and debates in global health governance and effects on health monitoring and outcomes at individual and population levels. Historical patterns of global health, its regulatory framework, principal coordinating mechanisms and emerging challenges, and implications of globalization and international trade policies.

Prerequisite(s): HLTH 3101, or permission of the department.

Lecture and seminar three hours per week.

HLTH 4102 [0.5 credit] New Health Technologies

Overview of new and emerging health technologies, including medical and assistive devices, diagnostics and screening, genetics, reproduction, tissue regeneration, imaging, and health informatics. Health technology assessment methods and issues. Regulatory, ethical and social implications; considerations in the developing world.

Prerequisite(s): HLTH 1000 or HLTH 1001 and third-year standing or higher, or permission of the department. Also offered at the graduate level, with different requirements, as HLTH 5350, for which additional credit is precluded.

Lecture and seminar three hours a week.

HLTH 4201 [0.5 credit] Applied Health Statistics

Statistics concepts and procedures used in the analysis of health data; techniques commonly used to analyze data collected from different types of epidemiological and experimental study designs; how to interpret and present statistical findings.

Includes: Experiential Learning Activity
Prerequisite(s): HLTH 3201 and STAT 2507 or permission
of the department.

Lecture three hours a week, lab/workshop two hours a week.

HLTH 4202 [0.5 credit]

Health Program Evaluation Tools and Methods

Introduction to concepts, principles and processes of evaluating health care programs and interventions. Methodological tools including needs assessment, project management skills, use of health information management databases. Issues in communication with stakeholders, including change management and decision making. Prerequisite(s): HLTH 2001 and STAT 2507 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4301 [0.5 credit] Pandemics and Infectious Disease

Factors that influence disease processes, including viruses, bacteria, protozoa, fungi and infectious agents, how these agents come to have the effects that they do in a given individual, how they spread within and how to limit their spread.

Prerequisite(s): HLTH 2004 and HLTH 3302 or permission of the department.

HLTH 4302 [0.5 credit]

Inflammatory and Endocrine Factors in Diseases

Inflammatory and hormonal processes and their relevance to disease states. Immune-related disorders, heart disease and stroke, metabolic syndrome, diabetes, psychiatric conditions, and neurodegenerative disorders. The contribution of psychosocial and genetic factors to diseases.

Prerequisite(s): HLTH 3302 or BIOL 4200 or permission of the department.

Lecture three hours a week.

HLTH 4303 [0.5 credit]

Fundamentals in Pharmacology and Toxicology

Introduction to pharmacological principles, xenobiotics and their interactions within living systems. Topics include biological mechanisms of action of xenobiotics on macromolecules, cells and their effects on various organ systems. Social, legal and governmental policies will be discussed.

Prerequisite(s): HLTH 3303 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4304 [0.5 credit] Host-Pathogen Interactions

Advanced cellular and molecular mechanisms governing host-pathogen interactions and their contribution to disease. Exploration of immune signaling and recognition, virulence factors, antimicrobial resistance and research techniques used in this field.

Prerequisite(s): HLTH 2004 and HLTH 3302 or permission of the department.

Also offered at the graduate level, with different requirements, as HLTH 5403, for which additional credit is precluded.

Seminar three hours per week.

HLTH 4401 [0.5 credit]

Maternal and Perinatal Determinants of Health

The integrated genetic, physiologic and environmental events occurring in early life that impact pregnancy, fetal/infant development and disease risk throughout the lifecourse, with a focus on the mechanisms driving these events.

Prerequisite(s): HLTH 2003 and HLTH 3302 or permission of the department.

Lecture three hours a week.

HLTH 4502 [0.5 credit] Disabilities and Disorders Related to Sensory Nervous System

Congenital and acquired disabilities related to sensory organs and processes, including visual and hearing impairments, vestibular and balance disorders, reflex problems, and others. Interdisciplinary approach to causes, mechanisms, accessibility, accommodations and interventions.

Includes: Experiential Learning Activity

Precludes additional credit for HLTH 3501 (no longer offered).

Prerequisite(s): Either 1) HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306), or 2) NEUR 3206, or 3) permission of the department.

Lecture three hours a week, workshop two hours a week.

HLTH 4503 [0.5 credit]

Trauma-related Disability and Impairments

Biomedical and psychosocial factors associated with trauma-related illnesses, stressors, injuries and disabilities, including traumatic brain injury, spinal cord injury, fractures, amputations, burns, post-traumatic stress disorder, and others. Short- and long-term considerations for care and rehabilitation.

Precludes additional credit for HLTH 3502 (no longer offered).

Prerequisite(s): HLTH 3503 and (BIOL 2005 or BIOL 3305 or BIOL 3306) or permission of the department. Lecture three hours a week.

HLTH 4601 [0.5 credit]

Environmental Pollution and Health

Introduction to environmental and occupational health; detection, assessment, management and mitigation of chemical, physical and biological hazards.

Prerequisite(s): HLTH 3104 or permission of the department.

Lecture and seminar three hours a week.

HLTH 4701 [0.5 credit] Knowledge Translation

The application of knowledge translation in the formulation of policy and the development of skills required to maximize the impact of scientific findings through real world programs and policies and communication skills for diverse audiences.

Prerequisite(s): fourth-year standing and permission of the Department of Health Science and permission of the instructor

Also offered at the graduate level, with different requirements, as HLTH 5300, for which additional credit is precluded.

HLTH 4901 [0.5 credit] Directed Studies in Health

Independent study, open to third- and fourth-year students to explore a particular health related topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in the B.H.Sc. program, in addition to permission of the Faculty supervisor and the Department of Health Sciences.

HLTH 4906 [1.0 credit]

Capstone course - Research Essay

Independent critical review and research proposal on a health- related topic, using library, database and/or bioinformatics resources, under the supervision of the course instructor. Seminar topics include identification and critical review of resources, development of scientific writing skills, and formulation of health science-related research.

Includes: Experiential Learning Activity
Precludes additional credit for HLTH 4907, HLTH 4908
(no longer offered), HLTH 4909, HLTH 4910.
Prerequisite(s): fourth-year standing in the B.H.Sc.
Honours and permission of the Department of Health Sciences.

Lecture/seminar three hours a week.

HLTH 4907 [1.0 credit]

Capstone Course - Group Research Project

A collaborative project on a health related topic. Students, working together as a team, will complete a research project and develop communication and research skills under the supervision of the faculty supervisor. Evaluation will be based on a written report and oral presentation. Includes: Experiential Learning Activity Precludes additional credit for HLTH 4906, HLTH 4908 (no longer offered), HLTH 4909, HLTH 4910. Prerequisite(s): fourth-year standing in the B.H.Sc. Honours program, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 9.0, and permission of the Faculty supervisor and the Department of Health Sciences.

Seminars three hours a week as scheduled by the course instructor; other hours as arranged with the Faculty Adviser.

HLTH 4909 [1.0 credit] Capstone Course – Field Placement and Research Project

Field placement providing practical experience in a health-related field. Placements may be in institutional or community settings, governmental or non-governmental organizations. Sites may vary each year. Evaluation based on a written report and an oral presentation.

on a written report and an oral presentation. Includes: Experiential Learning Activity Precludes additional credit for HLTH 4906, HLTH 4907, HLTH 4908 (no longer offered), HLTH 4910. Prerequisite(s): fourth-year standing in B.H.Sc. Honours; and one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905; and a minimum Overall and Major CGPA of 9.0; and permission of the Department of Health Sciences.

Schedules may vary depending on the field placement site, but students are required to spend a minimum of eight hours per week on-site and attend required seminars as arranged by the course instructor.

HLTH 4910 [1.0 credit] Honours Individual Research Thesis

An independent health related research project under the direct supervision of a faculty member. Evaluation will be based on a written thesis and oral poster presentation (oral or poster).

Includes: Experiential Learning Activity
Precludes additional credit for HLTH 4906, HLTH 4907,
HLTH 4908, HLTH 4909.

Prerequisite(s): fourth-year standing in B.Sc. Honours Health Sciences, one of HLTH 3901, HLTH 3902, HLTH 3903, HLTH 3904 or HLTH 3905, a major CGPA of at least 10.0, and permission of the Faculty advisor and the Department of Health Sciences. Permission will depend, in part, on capacity, such that meeting the minimum requirements does not guarantee enrollment in this research thesis course.

History (HIST)

History (HIST) Courses

Please note: not all of the following courses are offered in a given year. Consult the public class schedule at Carleton Central for the most up-to-date offerings. For further details concerning courses, see the departmental website at carleton.ca/history.

4000-level History **seminars** have limited enrolment. Priority in enrolment is given to students in History Honours and Combined Honours programs.

Topics in 4000-level History **seminars** change from year to year. Current topics are posted on the department's website at carleton.ca/history

HIST 1003 [0.5 credit]

Empire, War, and Revolution in Europe, 1850-1939

Examination of Europe from the mid-nineteenth century through the 1930s. Emphasis on how nation-building, empire, war, and revolution transformed Europe's politics, culture, society, and relationship to the world. Provides context for understanding contemporary Europe. (Field b). Precludes additional credit for HIST 1002 (no longer offered).

Lectures/groups three hours a week.

HIST 1004 [0.5 credit] Europe in War; Cold War

Examination of Europe from the Second World War through the Cold War and beyond. Topics may include wartime occupation regimes and resistance movements; the Holocaust; Cold War divisions and memory cultures; decolonization and migration; youth cultures and protest; and the collapse of communist regimes.

Precludes additional credit for HIST 1002 (no longer offered).

Lectures/groups three hours a week.

HIST 1010 [0.5 credit] History of Northern Canada

A historical introduction to northern Canada from precontact times to the present. Open only to students in the Nunavut Public Administration certificate program. (Field c).

HIST 1301 [0.5 credit]

Conflict and Change in Early Canadian History

This course explores how colonialism and conflict altered peoples, cultures, and places in what came to be called Canada from pre-contact to the first age of industrialization. Course covers subjects including imperialism, Indigenous-settler relations, slavery, migration, and government, providing context for contemporary issues.(Field c).

Precludes additional credit for HIST 1300 (no longer offered).

Lectures/groups three hours a week.

HIST 1302 [0.5 credit]

Rethinking Modern Canadian History

This course explores how major political, economic, legal, social, and cultural changes shaped modern-day Canada from the late 1800s to the present. It provides context for contemporary issues, including colonialism, redress, reconciliation, race relations, migration and urbanization, globalization, technology, and the environment. (Field c). Precludes additional credit for HIST 1300 (no longer offered).

Lectures/groups three hours a week.

HIST 1701 [0.5 credit]

History of the Global South, 1400-1850

This course follows the global community from 1400 to the mid-nineteenth century exploring how global connections, movements and trends have shaped our world. Emphasis on the non-western world. (Field a or d). Precludes additional credit for HIST 1707 (no longer offered).

Lectures/groups three hours a week.

HIST 1702 [0.5 credit]

History of the Global South, 1850 to the present

This course follows the global community from the midnineteenth century to the present exploring how global connections, movements and trends have shaped our world. Emphasis on the non-western world. (Field a or d). Precludes additional credit for HIST 1707 (no longer offered).

Lectures/groups three hours a week.

HIST 1900 [0.5 credit] Topics in History

A lecture course on a special topic, theme, or period. Topic varies from year to year. (Field will depend on topic).

Lectures/groups three hours a week.

HIST 1901 [0.5 credit] History of Sport

This course critically analyzes the evolution of sport from antiquity to the present. The course examines how sport reflects and shapes political and socio-economic processes and what it tells us about class, gender, race, nationalism, imperialism, doping and the cult of celebrity. (Field e).

Lectures/groups three hours a week.

HIST 2003 [0.5 credit]

The Early Medieval World: 300-1000

The history of medieval global societies across Europe, Asia and Africa from the fourth to the tenth century as an 'Age of Experiment' – fragmenting, transforming and diversifying politics, culture and religion. Students will read a wide range of medieval sources in translation. (Field a). Precludes additional credit for HIST 2000, HIST 2001, and HIST 2002 (no longer offered).

Lectures/groups three hours a week.

HIST 2004 [0.5 credit]

The Late Medieval World: 1000-1500

HIST 3708 [0.5 credit] Reformation Europe

A history of the Protestant and Catholic Reformations of the sixteenth century, with special emphasis on the theological disputes of the protagonists and the impact of these disputes on the social, political and cultural developments of the era. (Field a).

Also listed as RELI 3220.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3710 [0.5 credit]

Themes in Caribbean History

Key themes in the making of the Caribbean. Topics may include slavery and emancipation, Indian and Chinese migration, colonialism, the independence movement, and race relations. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

HIST 3712 [0.5 credit]

Mexico: Aztecs to Narcos

An examination of the social and cultural history of Mexico from indigenous cultures to the problems of the 20th century. Themes include the continuities of indigenous structures, national identity, wars and political violence, and gender. (Field d).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year

standing and 1.0 credit in history. Lectures three hours a week.

HIST 3713 [0.5 credit]

Gender and Sexuality in Latin America

An exploration of gender and sexualities in Latin America from the pre-conquest period to the end of the twentieth century. (Field d or e).

Precludes additional credit for HIST 3705 and HIST 3707 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3714 [0.5 credit]

The Holocaust: Historical and Religious Dimensions

Introduction to the historical and religious dimensions of the Holocaust. The foundations, perpetration and consequences of the Nazi Final Solution through primary sources including survivor testimony will be examined. (field b).

Also listed as RELI 3140.

Prerequisite(s): a 2000-level History course or third-year standing and 1.0 credit in History.

Lectures three hours a week.

HIST 3715 [0.5 credit]

Themes in South Asian History

Key themes in South Asian history. Topics may include the Mughal empire, the British colonial era, the creation and development of states in India, Pakistan, Bangladesh, and Sri Lanka, and various 20th century historical phenomenon. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3717 [0.5 credit]

Gender and Sexuality in Africa

An exploration of gender and sexualities in Africa from the beginning of colonial rule until the beginning of the 21st century. (Field d or e).

Precludes additional credit for HIST 3711 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3720 [0.5 credit] The Soviet Union, 1917-1991

Explores Russian history before, during, and after the world's first Marxist revolution, focusing on ideology, society, and control: how ordinary people thrived and suffered in this regime, supported and resisted it, and built their lives and communities amid various degrees of unfreedom.

Precludes additional credit for HIST 2600 (no longer offered).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history. Lectures three hours a week.

HIST 3805 [0.5 credit]

China since the Xinhai [1911] Revolution

This class is an intensive introduction to the main political, socio-economic and foreign policy/security aspects of China's evolution from Republicanism through Maoism to "socialism with Chinese characteristics in the new era," as represented by Sun Yat-sen/Chiang Kai-shek, Mao Zedong, Deng Xiaoping; Xi Jinping, respectively. Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3806 [0.5 credit] Japan Since 1945

A political, intellectual and economic history of Japan in the twentieth century, concentrating on the period since the end of the Pacific War. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3807 [0.5 credit] **Practicum in History**

An historical research project in a museum or public institution in the Ottawa area conducted under the supervision of the external institution and the History Department. Work includes reading, reports, and meetings. Students should be prepared to devote one day a week to the project.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in a History program, a CGPA of 9.00 or better in history courses, and permission of the Department.

HIST 3809 [0.5 credit]

Historical Representations

An examination of how historical narratives have been produced in relation to sites of public memory. The public presentation of history through a wide range of themes, which may include museum exhibits, commemorations and popular culture. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year

standing and 1.0 credit in history. Lectures three hours a week.

HIST 3810 [0.5 credit] Historical Theory

An examination of a wide range of theoretical approaches to history, and a critical reflection on history as a discipline.

Prerequisite(s): HIST 2809 or permission of the Department.

Lectures two hours a week and one hour discussion group.

HIST 3812 [0.5 credit] Digital History

The digital representation of history, exploring the approaches, issues, and methods of working in this environment. Topics may include gaming, virtual environments, digital research tools, public digital history. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3812.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3813 [0.5 credit]

Problems in Global and Transnational Histories

Historical encounters across geographical regions and ways in which historians studied them. Categories of "national," "international," "transnational," "world," and "global" history will be evaluated. Themes include: imperialism, postcolonialism, the environment, migration, trade, religion, the body, war, culture, disease. (Field d or e).

Includes: Experiential Learning Activity

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history including at least 0.5 credit in Field d courses (Asia, Africa, the Caribbean, and Latin America).

Lectures three hours a week.

HIST 3814 [0.5 credit] Crafting Digital History

This course applies the creative use of information and media/computing technologies to address the digital cultural heritage issues of public historians, archaeologists, and anthropologists. Topics may include webscraping, data mining, designing and implementing research databases, and visual storytelling of those results. (Field e).

Includes: Experiential Learning Activity

Also listed as DIGH 3814.

Precludes additional credit for HIST 3907 Section "B" offered in winter 2015 and HIST 3907 Section "O" offered in winter 2016.

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week or online.

HIST 3815 [0.5 credit] Group Practicum

A class-based group historical research project done in collaboration with an external institution under the supervision of the institution and the Department. Work includes readings, reports, and meetings. Students should be prepared to devote one full day per week to the project. (Field e).

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in a History program and permission of the Department.

HIST 3820 [0.5 credit]

Explorations in Historical Theory

Taking a specific historical topic as its focus, this course examines how historians have applied a wide range of theoretical approaches in order to understand and interpret that topic's historical significance. Topics will vary.

Prerequisite(s): HIST 2809, or permission of the unit. Lectures two hours a week and one hour discussion group.

HIST 3902 [0.5 credit] Topics in European History

A lecture course on a special topic in European history. Topic varies from year to year. (Field will depend on topic.).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history. Lectures three hours a week.

HIST 3903 [0.5 credit] Topics in Canadian History

A lecture course on a special topic in Canadian history. Topic varies from year to year. (Field c). Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history. Lectures three hours a week.

HIST 3904 [0.5 credit] Topics in U.S. History

A lecture course on a special topic in United States history. Topic varies from year to year. (Field c). Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history. Lectures three hours a week.

HIST 3905 [0.5 credit]

Topics in International History

A lecture course on a special topic in international political or economic history. Topic varies from year to year. (Field b).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3906 [0.5 credit] Topics in World History

A lecture course on a special topic in African, Asian, Caribbean, or Latin American history. Topic varies from year to year. (Field d).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3907 [0.5 credit]

Transnational Topic

A lecture course on a special topic that takes a transnational approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3908 [0.5 credit]

Thematic Topic

A lecture course on a special topic that takes a thematic approach to history. Course content will vary from year to year. (Field e).

Prerequisite(s): a 2000-level history course or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3909 [0.5 credit] Topic in Public History

A lecture course on a special topic, theme, or period in public history. Topic varies from year to year. (Field e). Prerequisite(s): a 2000-level history course, or third-year standing and 1.0 credit in history.

Lectures three hours a week.

HIST 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

HIST 4006 [1.0 credit]

Seminar in Medieval History

An examination of a selected problem in the history of medieval Europe.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4007 [0.5 credit] Medieval History

Selected topic in Medieval History. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4100 [1.0 credit]

Seminar in Early Modern European History

A study of a selected problem in the history of Europe during the early modern period.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4101 [0.5 credit] Early Modern European History

Selected topic in the history of Europe during the early modern period. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4200 [1.0 credit]

Seminar in European History

Examination of a selected problem or period in the history of Continental Europe.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

HIST 4201 [0.5 credit] Modern European History

Selected topic in the history of Europe. The particular topic will be specified each year it is offered. Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4210 [0.5 credit] Topics in Ancient History

Intended for Honours students in History and Classics who should normally be in their third- or fourth-year. Also listed as CLCV 4210.

Precludes additional credit for CLCV 4209, HIST 4209 (no longer offered).

Prerequisite(s): CLCV 2902 (HIST 2902) and CLCV 2903 (HIST 2903) or CLCV 2904 (HIST 2904) and CLCV 2905 (HIST 2905) or CLCV 3201 (HIST 3009) or CLCV 3202 (HIST 3101) or permission of the Department.

Seminar three hours a week.

HIST 4302 [1.0 credit] Canada: Ideas & Culture

A seminar on ideas, culture, and society in Canada. Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4303 [0.5 credit] Society and Culture in Canada

A 0.5 credit seminar course that examines a selected topic on ideas, culture, and society in Canada. The particular topic will be specified each year it is offered. Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4304 [1.0 credit] Canada: Politics & Society

A seminar on politics and society in Canada. Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4305 [0.5 credit] Political History in Canada

A 0.5 credit seminar course that examines a selected topic on politics and society in Canada. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourth-

year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4400 [1.0 credit] Seminar in U.S. History

An examination of a selected problem or period in the history of the United States.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4401 [0.5 credit] United States History

A 0.5 credit seminar course that examines a selected topic in the history of the United States. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4500 [1.0 credit] Seminar in British History

An explanation of a selected problem or period in the history of Great Britain.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4501 [0.5 credit] British History

An explanation of a selected problem or period in the history of Great Britain.

Includes: Experiential Learning Activity

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

HIST 4505 [1.0 credit]

Seminar in Women's and Gender History

A seminar on the history of women and gender. The particular approach, themes, and historical period will be specified each year.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4506 [0.5 credit]

Gender, Sexuality and Women's History

A 0.5 credit seminar course that examines a selected topic on the history of women and gender. The particular topic will be specified each year it is offered. Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4600 [1.0 credit] Seminar in Russian History

An examination of a selected problem or period in the history of Imperial or post-Imperial Russia. Prerequisite(s): HIST 3810 or HIST 3820, fourth-

year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4604 [0.5 credit] Central Europe, Past and Present

Evolution and current status of Central Europe from periods of foreign control in the late nineteenth and twentieth centuries to independent statehood. Particular emphasis will be placed on national accommodations and conflicts.

Also listed as EURR 4204.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department. Seminar three hours a week.

HIST 4605 [0.5 credit]

The Balkans in Transition - 1918 to 1989

The seminar uses the concept of transition to understand the Balkan encounter with modernity and Europe. Key periods to be examined include the interwar era and the period of communist rule, with an emphasis on political, social and economic themes.

Also listed as EURR 4101.

Prerequisite(s): Fourth-year standing and one of PSCI 3208, PSCI 3209; or permission of the Department. Seminar three hours a week.

HIST 4606 [0.5 credit]

Contemporary Europe: From Postwar to the European Union

History of contemporary Europe from 1945 to present covering both eastern and western halves of the continent and including social, cultural, political, and economic dimensions.

Includes: Experiential Learning Activity

Also listed as EURR 4303.

Prerequisite(s): HIST 3810, fourth-year standing in Honours History or permission of the Department.

Seminars three hours a week.

HIST 4607 [0.5 credit]

Imperial Russia and the Russian Revolution

Examination of the expansion and downfall of tsarist Russia from the eighteenth century to the revolutionary era and the establishment of Bolshevik rule. Topics include the relationship between the monarchy and subject peoples, social and economic change, and daily life.

Includes: Experiential Learning Activity

Also listed as EURR 4305.

Also offered at the graduate level, with different requirements, as HIST 5607, for which additional credit is precluded.

Seminar three hours a week.

HIST 4608 [0.5 credit] The Soviet Union

Examination of the rise of the Soviet Union to a global power and subsequent tensions that promoted its collapse. The course will analyze Stalinism, the Second World War, the Thaw, and Brezhnev and Gorbachev eras through the lens of the USSR's citizens.

Includes: Experiential Learning Activity

Also listed as EURR 4306.

Also offered at the graduate level, with different requirements, as HIST 5608, for which additional credit is precluded.

Seminar three hours a week.

HIST 4700 [1.0 credit] Seminar in World History

An examination of a selected problem or period in the history of Asia, Africa, the Caribbean or Latin America. Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

HIST 4701 [0.5 credit]

African History

A 0.5 credit seminar course that examines a selected topic in the history of Africa. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4702 [0.5 credit] South Asian History

A 0.5 credit seminar course that examines a selected topic in the history of South Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4703 [0.5 credit] The Global South

A 0.5 credit seminar course that examines a selected topic in the history of the Global South. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4704 [0.5 credit] Caribbean and Latin American History

A 0.5 credit seminar course that examines a selected topic in Caribbean and Latin American history. The particular topic will be specified each year it is offered. Prerequisite(s): HIST 3810 or HIST 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4705 [0.5 credit] Asian History

A 0.5 credit seminar course that examines a selected topic in the history of Asia. The particular topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4802 [1.0 credit]

Seminar in International History

An examination of a selected problem or period in the history of international relations.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4805 [1.0 credit]

Seminar on a Transnational or Thematic Topic

A seminar on a transnational or thematic topic. The particular topic will be specified each year.

Prerequisite(s): HIST 3810 or 3820, fourth-year standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4806 [0.5 credit]

Global, Transnational, or Thematic History

Selected topic in global and transnational history or on a thematic topic in history. The topic will be specified each year it is offered.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4910 [1.0 credit] Honours Research Project

A piece of original historical research conducted independently under the supervision of a faculty member and presented as either a research paper, a documentary film, or a web-based project. Does not count toward the 4th-year seminar requirement.

Includes: Experiential Learning Activity

Precludes additional credit for HIST 4908, HIST 4909 (no longer offered).

Prerequisite(s): fourth-year Honours standing with a minimum GPA of 9.0 (B+) in History courses, a faculty supervisor, a topic and mode of presentation approved by the faculty supervisor, and permission of the Undergraduate Supervisor.

HIST 4915 [0.5 credit]

Topics in History

Intended for Honours students in History. Topics will vary from year to year.

Prerequisite(s): HIST 3810 or HIST 3820, fourthyear standing in Honours History or permission of the Department.

Seminar three hours a week.

HIST 4916 [0.5 credit] Topic in Public History

Topic varies from year to year.

Prerequisite(s): HIST 3809, HIST 3810, or HIST 3820, fourth-year standing in Honours History, or permission of the Department.

Seminar three hours a week.

HIST 4917 [0.5 credit] Directed Study

Independent study of an historical topic or theme under the supervision of a faculty member. A course outline specifying readings, assignments, and name of faculty member must be submitted to the Undergraduate Supervisor during the first week of the semester. Prerequisite(s): Fourth-year standing in History, minimum History GPA of 9.0, a faculty supervisor, and permission of the Undergraduate Supervisor.

A program of supervised reading and preparation of written work in an area not covered by an existing seminar.

HIST 4920 [1.0 credit] Seminar in Public History

Topic varies from year to year.

Prerequisite(s): HIST 3809, HIST 3810, or HIST 3820, fourth-year standing Honours History, or permission of the Department.

Seminar three hours a week.

Human Rights and Social Justice (HRSJ)

Human Rights and Social Justice (HRSJ) Courses

HRSJ 1101 [0.5 credit]

Introduction to Human Rights & Social Justice

Human rights and social justice from an interdisciplinary perspective. Topics include the foundations of rights, roots of inequality and oppression, Indigenous rights, structural violence based on race, gender, sexuality and ableism, State and corporate power, economic exploitation, the environment and rights, warfare, torture, and social movements.

Includes: Experiential Learning Activity
Precludes additional credit for FYSM 1104, HUMR 1001
(no longer offered).

Lecture and discussion groups/tutorials three hours a week.

HRSJ 1102 [0.5 credit]

Critical Issues in Social Justice Activism

A critical study of social justice approaches and concepts to examine political and social struggles, resistance, and activism in historical and contemporary contexts. Emphasis is placed on the connection between social justice approaches and human rights as tools in activist work.

Includes: Experiential Learning Activity
Precludes additional credit for FYSM 1104.
Lectures and discussion groups/tutorials three hours a

HRSJ 2001 [0.5 credit]

Human Rights: Theories and Foundations

Historical overview of the theoretical and philosophical approaches underlying the human rights and social justice movements. Includes Experiential learning activity. Includes: Experiential Learning Activity

Precludes additional credit for HUMR 2001 (no longer

Prerequisite(s): second-year standing.
Lectures and discussion groups/tutorials three hours a

HRSJ 2102 [0.5 credit]

week.

Sexuality, Gender, and Security

Historical and contemporary analysis of surveillance, security, and regulation of sexuality, race, class, and gender. Students will critically examine how 'subversives' were created through discourse and administrative logics such as policy and law.

Includes: Experiential Learning Activity

Also listed as SXST 2102.

Precludes additional credit for HUMR 2102 (no longer offered).

Prerequisite(s): second year standing or permission from the Institute.

Lectures and discussions three hours a week.

HRSJ 2202 [0.5 credit]

Power Relations and Human Rights

The study of power from a critical, transnational perspective; the impact on human rights of different forms and modalities of power, including those emanating from the state and corporations and those implicated in socioeconomic and other hierarchical relations.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 2202 (no longer offered).

Prerequisite(s): second-year standing.

Lectures and discussion groups/tutorials three hours a week.

HRSJ 2301 [0.5 credit]

Human Rights and Sexualities

An examination of human rights discourses, sexualities, and gender identities from an intersectional approach. Also listed as SXST 2301.

Precludes additional credit for HUMR 2301 (no longer offered).

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

HRSJ 2401 [0.5 credit] Political Repression

This course examines the impacts of political repression on survivors and strategies used to overcome imprisonment, torture, surveillance, migration, etc. Includes: Experiential Learning Activity

Precludes additional credit for HUMR 2401 (no longer

offered).

Prerequisite(s): second-year standing. Lectures and discussion groups three hours a week.

HRSJ 2502 [0.5 credit] Social and Political Movements

An exploration of historical and/or contemporary social movements that challenge and transform laws or legal regimes, cultural and educational institutions, and political regimes or governments.

Precludes additional credit for HUMR 2502 (no longer offered).

Prerequisite(s): Second-year standing.

Lectures and discussion groups three hours a week.

HRSJ 3001 [0.5 credit]

Special Topics in Human Rights and Social Justice

An advanced seminar on current topics covering human rights and social justice issues. This course features a detailed study of a special topic in any area of Human Rights & Social Justice. Topics and themes will vary from year to year.

Precludes additional credit for HUMR 3001 (no longer offered).

Prerequisite(s): third-year standing. Lectures three hours a week.

HRSJ 3002 [0.5 credit] Right to the City

"The right to the city" as an emerging focus of advocacy and analysis in urban movements for social justice focused on the local and transnational dimensions of the "right to the city" movement.

Precludes additional credit for HUMR 3001 if taken prior to 2013-14, HUMR 3002 (no longer offered).

Prerequisite(s): third-year standing.

Lectures three hours a week.

HRSJ 3202 [0.5 credit]

Human Rights and Resistance

This course problematizes human rights paradigms and critically examines the limitations of the political within liberal democracies. Bringing together theory and politics, alternative approaches to activism are explored. Topics may include struggles grounded in radical democracy, anti-capitalism, and social justice perspectives. Precludes additional credit for HUMR 3202 (no longer offered).

Prerequisite(s): third-year standing. Lectures three hours a week.

HRSJ 3301 [0.5 credit] Structural Racism

The forms and effects of systemic race-based human rights abuses. Topics may include racial capitalism, immigration and refugee policies and practices, antiapartheid regimes, racial profiling, the racial politics of "nationhood" and armed conflict, civil rights and resistance movements in differing cultural contexts.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 3301 (no longer offered).

Prerequisite(s): third-year standing.

Seminar and discussion groups three hours a week.

HRSJ 3302 [0.5 credit] Culture, Religion, and Gender Rights

The impact of cultural and religious traditions on gender, race, ethnicity and sexuality. Topics may include debates related to power dynamics, historical issues, geopolitics, and cultural relativism.

Precludes additional credit for HUMR 3302 (no longer offered).

Prerequisite(s): third-year standing. Lectures three hours a week.

HRSJ 3303 [0.5 credit] Children's Rights

This course examines children's rights from a range of historical, cultural, and global perspectives. Topics may include the rights of Indigenous children, disabled children, female, trans, non-binary, and queer children, children in armed conflict and refugees in Canada and transnational contexts.

Includes: Experiential Learning Activity

Also listed as CHST 3303.

Precludes additional credit for CHST 3901 (no longer

offered), HUMR 3303 (no longer offered).

Prerequisite(s): third-year standing.

Lectures and discussion groups three hours a week.

HRSJ 3304 [0.5 credit]

Disability Rights

A critical approach to the study of disability rights that explores the intersections of disability with race, sexuality, gender, colonialism, 'health', and other discourses.

Precludes additional credit for HUMR 4303 (no longer offered), HUMR 3304 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week.

HRSJ 3305 [0.5 credit] Anti-Black Racism

The course examines conceptual linkages between race, racism and anti-black racism and how anti-Blackness racial prejudice is rooted in Black people's experience of enslavement and colonization.

Precludes additional credit for HUMR 3305 (no longer offered).

Prerequisite(s): third-year standing.

Lecture three hours a week

HRSJ 3401 [0.5 credit]

Histories of Persecution and Genocide

Case studies in persecution and/or genocide in different cultural contexts. The social, political, and legal conditions that have enabled the institutional or state-sanctioned persecution of targeted groups, and the circumstances that had an impact on their decline.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 3401 (no longer offered).

Prerequisite(s): third-year standing.

Lectures three hours a week.

HRSJ 3501 [0.5 credit]

Social, Economic and Cultural Rights

The development of social, economic and cultural rights, including rights to housing, healthcare, education and employment. Topics may include the international geopolitics of the historical tension between these rights and civil and political rights.

Precludes additional credit for HUMR 3501 (no longer offered).

Prerequisite(s): third-year standing. Lectures three hours a week.

HRSJ 3503 [0.5 credit]

Global Environmental Justice

Overview of critical debates on environmental issues from a global social justice perspective. Topics may include corporate mining, food sovereignty, poverty, economic exploitation, Indigenous cosmologies and environmental justice, militarization and environmental degradation, privatization of water and climate change.

Precludes additional credit for HUMR 3503 (no longer offered).

Prerequisite(s): third-year standing.

Lectures and discussion groups three hours a week.

HRSJ 3504 [0.5 credit]

Public Health and Human Rights

Through a social-scientific analysis of AIDS, this course explores HIV/AIDS as a case study for understanding the politics of public health. Students will critically interrogate the authority of science and explore avenues for democratizing biomedicine and public health policy in various national and policy contexts.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 3001 Section "A" if taken in 2013-14 and 2014-15, HUMR 3504 (no longer offered)

Prerequisite(s): third-year standing. Lectures three hours a week.

HRSJ 3999 [0.0 credit] Co-operative Work Term

Upon completion of each work term, the student must submit to the Institute of Interdisciplinary Studies a written report on the work performed. Graded SAT or UNS. Includes: Experiential Learning Activity Prerequisite(s): Registration in the Co-operative Education Option, and permission of the Institute of Interdisciplinary Studies.

HRSJ 4201 [0.5 credit] Citizenship and Human Rights

The relationship between citizenship and human rights; how large groups of people, including non-citizens and refugees, are excluded from entitlements to rights. Why human rights rest on citizenship, and with what implications.

Precludes additional credit for HUMR 4201 (no longer offered).

Prerequisite(s): fourth-year standing. Seminar three hours a week.

HRSJ 4302 [0.5 credit]

Transgender Human Rights

Critical analyses of human rights through an examination of transgender subjectivities. The systemic erasure of trans people within society and the struggles of some activists to normalize trans identities.

Precludes additional credit for HUMR 4302 (no longer offered).

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HRSJ 4305 [0.5 credit] Disability and Social Justice

An intersectional national/transnational approach to social justice issues such as poverty/exploitation, labour, representation, decolonization, race/racism, sexuality and gender from a critical disability studies perspective. Precludes additional credit for HUMR 4305 (no longer offered).

Prerequisite(s): fourth-year standing in Human Rights and Social Justice or Disability Studies.

Seminar three hours a week.

HRSJ 4401 [0.5 credit]

Gender, Citizenship and Social Justice in a Transnational World

This seminar critically engages with transnational, gendered, classed, and racialized discursive practices of citizenship, human rights, the geopolitics of knowledge and processes of dehumanization through the lenses of decolonial social justice.

Precludes additional credit for HUMR 4401 (no longer offered).

Prerequisite(s): fourth-year standing. Seminar three hours a week.

HRSJ 4404 [0.5 credit]

Rights of Refugees and Displaced Persons

Contemporary issues concerning the rights of refugees and displaced persons, from social, political, and legal perspectives; Canadian and international dimensions of these issues.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 4404 (no longer offered).

Prerequisite(s): fourth-year standing.

Seminar and discussion groups three hours a week.

HRSJ 4405 [0.5 credit]

Digital Dis-information and Human Rights

The course examines the phenomenon of disinformation or 'fake news' in the era of digital technology, its intent and links to structures of power and oppression, and its impacts on human rights and the social justice.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 4405 (no longer offered).

Prerequisite(s): fourth-year standing. Seminar three hours a week.

HRSJ 4406 [0.5 credit]

Artificial Intelligence and Human Rights

The course sets Al's promise and impacts in terms of democratizing access to knowledge and unleashing scientific progress against vital societal risks and fault-lines it generates and human rights failures and social injustices it creates, and the distribution of burdens and benefits in society.

Includes: Experiential Learning Activity Precludes additional credit for None.

Prerequisite(s): None.

Also offered at the graduate level, with different requirements, as None., for which additional credit is precluded.

Seminar

HRSJ 4409 [0.5 credit]

Counter-terrorism and Human Rights

Examines policies and strategies states and international organizations use to combat global terrorism and the challenges these initiatives pose to the international human rights regime, democratic norms, and social justice.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 4409 (no longer offered).

Prerequisite(s): fourth-year standing.

Seminar and discussion groups three hours a week.

HRSJ 4502 [0.5 credit]

Global Indigenous Knowledges and Movements

Indigenous Peoples contributions to world knowledge through community resistance, social movements and scholarship. How processes of corporate globalization impact Indigenous Peoples lives as an ongoing process of normalizing a reconfigured modern coloniality of power. Precludes additional credit for HUMR 4502 (no longer offered).

Prerequisite(s): fourth-year standing. Seminar three hours a week.

HRSJ 4504 [0.5 credit]

Black Health

The course examines conceptual linkages between race, racism and anti-black racism and how anti-Blackness racial prejudice is rooted in Black people's experience of enslavement and colonization.

Precludes additional credit for HUMR 4504 (no longer offered).

Prerequisite(s): fourth-year standing. Seminar three hours a week

HRSJ 4505 [0.5 credit] **Precarity in Labour and Work**

This course explores how precarious employment and labour arises: the nature and forms of precariousness: how race, citizenship, gender, religion, and location impact precarity; the link between labor and social movements; and types of political and economic initiatives in response to the deepening precarity.

Precludes additional credit for HUMR 4505 (no longer

Prerequisite(s): fourth-year standing. Seminar three hours a week.

HRSJ 4602 [0.5 credit] Is Religious Freedom a Human Right?

Legal, theoretical, and theological interconnec⊖ons between religion and human rights. Evaluation of concepts including religious freedom, secularism, public sphere, accommodaOon and neutrality.Examination of religion and culture, interdependence of legal and religious perspectives, boundaries of religion and state, and religious compulsion. Use of case studies. Also listed as LAWS 4602, RELI 4602.

Precludes additional credit for HUMR 4602 (no longer offered).

Prerequisite(s): fourth-year standing. Seminars three hours a week.

HRSJ 4905 [0.5 credit] **Practicum Placement in Human Rights**

This course provides students with the opportunity to spend one day per week (6-8 hours) working and learning at a human rights-related government, research or advocacy organization. A written report is required at the end of the placement. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 4905 (no longer offered).

Prerequisite(s): fourth-year standing in Human Rights and Social Justice or permission of the Institute. Students MUST submit an application and obtain approval before registering in the practicum.

HRSJ 4907 [0.5 credit] Special Topic in Human Rights

This course features a detailed study of a special topic in any area of Human Rights. Topics and themes will vary from year to year.

Precludes additional credit for HUMR 4907 (no longer offered).

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

HRSJ 4908 [0.5 credit] **Independent Study**

Essays and/or examinations based on a bibliography constructed by the student in consultation with an instructor.

Includes: Experiential Learning Activity

Precludes additional credit for HUMR 4908 (no longer offered).

Prerequisite(s): Normally restricted to students with at least 3.0 credits of Human Rights courses with at least a CGPA of 9.0 or better in Human Rights courses and permission of the Institute.

Humanities (HUMS)

Humanities (HUMS) Courses

HUMS 1000 [1.0 credit]

Foundational Myths and Histories

Recurring symbols in myth, epic and ritual representing the relation between the sacred and the profane, the origin of the cosmos, the basis of community, and formative human experiences. Primary sources drawn from ancient India and China, Mesopotamia, the Hebrew Bible, and Indigenous cultures.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 1200 [0.5 credit]

Humanities and Classical Civilization

The ideas which animated ancient Greek and Roman civilization and which influenced later western cultural movements through a reading of literary, historical, and philosophical works. Authors include Homer, Herodotus, Thucydides, the Greek Tragedians, Plato, Vergil, and Cicero.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 1300 [0.5 credit]

Classical Literature and Its Reception

The study of different types of ancient literature and the reception of Classical works in later periods. A focus on writing a research essay.

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 1500 [0.5 credit]

Introduction to the Humanities: Five Books that Changed the World

A reading-intensive course on five influential books from Antiquity to the present day. Works may include the Bible, the Bhagavad Gita, Homer's Odyssey, Plato's Republic, Dante's Inferno, Machiavelli's The Prince, Shakespeare's Hamlet, Mary Shelley's Frankenstein, Nietzsche's Beyond Good and Evil, Marx's Communist Manifesto. Prerequisite(s): enrolment in a degree program in the

Frerequisite(s): enrolment in a degree program in the Faculty of Arts and Social Sciences, or the Faculty of Public Affairs. Students enrolled in the BHum. program are not eligible to register in this course.

Lecture three hours per week.

HUMS 2000 [1.0 credit] Reason and Revelation

The origins of philosophy in ancient Greece and its pursuit in the medieval West, with special attention to knowledge, happiness, and love. Readings include works by Plato, Aristotle, Plotinus, Augustine, Boethius, Aquinas, and Dante.

Prerequisite(s): HUMS 1000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 2101 [0.5 credit]

Art from Antiquity to the Medieval World

A chronological and thematic survey of the Arts from the earliest times to ca. 1400.

Precludes additional credit for HUMS 4101 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 2102 [0.5 credit] Modern European Art 1527-2000

A chronological and thematic survey of the Arts from the sixteenth to the twenty-first century.

Precludes additional credit for HUMS 4101 (no longer offered) and HUMS 3101 (no longer offered).

Prerequisite(s): HUMS 2101 and restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3000 [1.0 credit] Culture and Imagination

Major forms of literary, artistic, and philosophical expression from 1500-1800. Sources drawn from renaissance humanism, reformation theology, enlightenment and romantic philosophy. Prerequisite(s): HUMS 2000 and enrolment in the Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half hours a week.

HUMS 3102 [0.5 credit] Western Music 1000-1850

Introduction to basic theory, harmony, history and interpretation of Western music including the Medieval, Renaissance, Baroque, Classical and early Romantic periods.

Includes: Experiential Learning Activity
Precludes additional credit for HUMS 4102 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 3103 [0.5 credit] Western Music 1850-2000

Western music from the mid-nineteenth century to the present with emphasis on the seminal contributions of Liszt, Wagner, Mahler, Debussy, Stravinsky, Schönberg and others.

Includes: Experiential Learning Activity
Precludes additional credit for HUMS 4102 (no longer

Prerequisite(s): HUMS 3102 and restricted to students in the Bachelor of Humanities program.

Lecture three hours a week.

HUMS 3200 [1.0 credit] European Literature

Major movements and works from Dante's Divine Comedy through Voltaire's Candide. Themes include the New Humanism vs. old Chivalry in the Renaissance and Baroque periods; the rise of the modern novel and drama; reason, nature, and the Enlightenment project.

Also listed as ENGL 3201.

Prerequisite(s): HUMS 2000 and third-year standing in the Bachelor of Humanities program. English students should have third-year standing with a GPA of B or above. Lectures three hours a week.

HUMS 3500 [0.5 credit]

Ancient and Medieval Intellectual History

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from Archaic Greece to the High Middle Ages.

Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor. Lectures three hours a week.

HUMS 3550 [0.5 credit]

Renaissance and Early Modern Intellectual History

Examination of some of the major philosophical, religious, political, artistic, and/or literary ideas, works, and movements from the Early Renaissance to 1800. Prerequisite(s): third-year standing in the Bachelor of Humanities program, or permission of the instructor. Lectures three hours a week.

HUMS 3800 [0.5 credit] **Humanities in Context**

Designed for students studying humanities, this travel course explores art, literature, politics, philosophy, architecture, religions, and cultures in their historical and contemporary contexts in a particular geographic locale. Travel destinations and themes vary from year to year. Includes: Experiential Learning Activity Prerequisite(s): 2.0 credits in HUMS and permission of the department. Permission of the unit is required to

repeat this course. Hours to be arranged.

HUMS 4000 [1.0 credit]

Politics, Modernity and the Common Good

Modern and post-modern ways of thinking and doing, including revolutionary new ideas in politics, philosophy, culture, economics, and international relations. Thinkers considered include Arendt, Foucault, Hegel, Heidegger, Hobbes, Kant, Marx, Nietzsche, Polanyi, Rousseau, Said, and Taylor.

Includes: Experiential Learning Activity

Prerequisite(s): HUMS3000 and enrolment in the

Bachelor of Humanities program.

Lectures three hours a week and tutorials one and a half

hours a week.

HUMS 4001 [0.5 credit]

Directed Studies in the Humanities

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of

Humanities program.

HUMS 4002 [0.5 credit]

Directed Studies in the Humanities

A course for independent study and writing, under the supervision of a College designated faculty member. This course involves supervised readings and written essays. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program and Good Standing in the program.

HUMS 4103 [0.5 credit]

Science in the Modern World

An introduction to the major scientific ideas of our time (such as Big Bang theory, molecular genetics, evolution, atomic structure), and the impact of technology on society (e.g. global warming, pollution, genetically modified foods, viral infections).

Includes: Experiential Learning Activity Precludes additional credit for HUMS 4100 (no longer

Prerequisite(s): restricted to students in the Bachelor of Humanities program.

Lectures three hours a week.

HUMS 4500 [0.5 credit] **Modern Intellectual History**

Examination of some of the major ideas and ideologies from 1800 to the present, including romanticism, liberalism, nationalism, symbolism, socialism, Freudianism, communism, feminism, and postmodernism. Includes: Experiential Learning Activity Precludes additional credit for HUMS 4104. Prerequisite(s): restricted to students in the Bachelor of

Humanities program. Lectures three hours a week.

HUMS 4901 [0.5 credit]

Research Seminar: Antiquity to the Middle Ages

An interdisciplinary seminar on a selected topic in the humanities from Antiquity to the Middle Ages. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of

Humanities program.

Seminar three hours a week.

HUMS 4902 [0.5 credit]

Research Seminar: Renaissance to Enlightenment

An interdisciplinary seminar on a selected topic in the humanities from the Renaissance to the Enlightenment. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of

Humanities program.

Seminar three hours a week.

HUMS 4903 [0.5 credit]

Research Seminar: Romanticism to the Present

An interdisciplinary seminar on a selected topic in the humanities from Romanticism to the present. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Humanities program.

Seminar three hours a week.

HUMS 4904 [0.5 credit]

Research Seminar: Non-Western Traditions

An interdisciplinary seminar on a selected topic in the humanities as expressed in aboriginal and Non-Western cultures. The topic will vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of

Humanities program.

Seminar three hours a week.

Indigenous Studies (INDG)

Indigenous Studies (INDG) Courses

INDG 1000 [1.0 credit]

Introduction to Indigenous Studies

Survey of historical and contemporary issues relating to Indigenous peoples in Canada. Cultural traditions and the social interactions between Indigenous and non-Indigenous societies are approached from an interdisciplinary perspective.

Precludes additional credit for INDG 1010 and INDG 1011.

Online only.

INDG 1010 [0.5 credit] Indigenous Ways of Knowing

This course centers Indigenous Creation Stories in relation to systems of power. Discussing Indigenous worldviews, knowledge making, ways of living, ecological relationships, and inter-Indigenous relations and diplomacy. Course materials are rooted in self-situated and collective understandings of Indigenous peoples. Precludes additional credit for INDG 1000.

Lectures/discussion groups three hours a week.

INDG 1011 [0.5 credit]

Introduction to Indigenous-Settler Encounters

Interdisciplinary and critical engagement with the term "encounter" between various Indigenous communities and settler populations. Topic areas vary by year: introduction to Indigeneity across multiple geographies, cultural and literary practices, gender and the state, race, racialization, racism, place and space, food sovereignty, and education. Precludes additional credit for INDG 1000.

Lecture/groups, three hours a week.

INDG 2011 [0.5 credit] Critical Indigenous Studies

This survey course introduces students to core concepts and analytics in Critical Indigenous Studies. Topics include land, pedagogies, relationalities, resurgence, decolonization, Indigenous feminisms and Indigiqueer Studies

Precludes additional credit for CDNS 2100 and CDNS 2011.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lectures/groups three hours a week.

INDG 2012 [0.5 credit] Anishinaabe Ontologies

Grounded in the ontologies and place-making practices of the Anishinaabe peoples, topics may include Creation stories, migration and displacement, the clan system, worldviews, oral, written, and recorded history, treaties, knowledges, cultural production, self-governance, and diplomatic relations.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lecture/groups three hours a week.

INDG 2013 [0.5 credit] Haudenosaunee Ontologies

Grounded in the Kaienerekowa (Way of Peace), this course focuses on Haudenosaunee ontologies from the founding of the Confederacy to present. Discussion of the cultures, languages, written and recorded histories, and socio-political structures of Haudenosaunee.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lecture/groups, three hours a week.

INDG 2014 [0.5 credit] Inuit Ontologies

Grounded in the ontologies and place-making practices of the Inuit, topics may include: Creation stories, migration and displacement, kinship, worldviews; oral, written, and recorded histories; lands and waters; land claims agreements, knowledges, cultural production, self-governance, diplomatic relations.

Lectures/groups three hours a week.

INDG 2015 [0.5 credit]

Indigenous Relationalities, Kinships, and Knowledges

Overview of Indigenous peoples' temporal, spatial, and social relationalities, kinship networks, and knowledge systems. Topics may include Indigenous cosmologies, knowledges, languages, water, land, and re-framing human and non-human relationships.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lecture/groups, three hours a week.

INDG 2016 [0.5 credit]

Indigenous Resistance in Canada

Indigenous approaches to self-determination and nationhood. Topics include direct action; political organizing; land claims; rights, courts, and legal action; everyday acts of resistance such as petitioning, social media, arts-based movements, and community initiatives. Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lectures/groups three hours a week.

INDG 2017 [0.5 credit] Global Indigenous Studies

Introduction to Global Indigenous struggles, communities, resistances, and cross-border alliances. Topics may include: Canada's implication in global imperialism and environmental exploitation, specificity of race and racialization in various contexts, cisheteropatriarchy, global resistance movements, displacement, migration, and diaspora.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lectures/groups three hours a week

INDG 2020 [0.5 credit]

Indigenous Feminisms: Perspectives on Gender, Sex, and Sexualities

Indigenous articulations of gender, sex, and sexualities. This may include a focus on specific embodied roles and responsibilities within Indigenous communities, individual and collective identities, gender-based violence and resistances, and complex relationships between external and lateral systems of power and privilege.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lecture/groups, three hours a week.

INDG 2302 [0.5 credit] Land, Water, Capitalism

Examination of politics and economics of land, waters and power. Topics may include: the study of labour, migrant workers, capitalist extraction; environmental racism and health; and Indigenous dispossession and resistance. Also listed as CDNS 2302.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lectures/groups three hours a week.

INDG 2709 [0.5 credit] Indigenous Drama

A study of dramatic literatures and theatre practice from Indigenous theatre makers, including playwrights, directors and other practitioners.

Also listed as ENGL 2709.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lecture three hours per week

INDG 3001 [0.5 credit] Indigenous Sovereignties

A gendered examination and discussion of Indigenous sovereignties. Topics will vary by year and may include: Indigenous ways of knowing, governance systems, embodied legal orders, community leadership, diplomatic relations, and struggles for self-determination. Precludes additional credit for INDG 3000 (no longer offered).

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Seminar three hours per week.

INDG 3012 [0.5 credit] Indigenous Futurity Praxis

Challenging notions of past, present, future, this course engages with media, cultural objects, and practices that imagine and enact alternate futures. Students will produce community-oriented research drawing on Indigenous knowledge making. Topics include: speculative fiction, bead work, visual art practices, and social media. Prerequisite(s): third-year standing or permission of the Indigenous Studies program.

Seminar three hours per week.

INDG 3015 [0.5 credit]

Indigenous Cosmologies

This course will provide an overview of diverse Indigenous cosmologies and perspectives on land, water, atmospheres, and more-than-human beings and ethical ways of working with these knowledges. We will draw on Indigenous knowledge from nations/societies/communities around the globe.

Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Seminar three hours per week.

INDG 3018 [0.5 credit] Metis Ontologies

An exploration of the development of Metis culture and communities in the late 18th century. Metis identity will be examined within a socio-cultural context and students will learn about the significance of kinship and stories as ways of maintaining Metis culture, Nationhood and Sovereignty. Prerequisite(s): second-year standing or permission of the Indigenous Studies program.

Lecture/groups, three hours a week.

INDG 3901 [0.5 credit] Selected Topics in Indigenous Studies

Topics vary from year to year.

 $\label{precond-year} Prerequisite(s): second-year standing, or permission of the Indigenous Studies program.$

Seminar three hours per week.

INDG 4001 [0.5 credit] Indigenous Urbanisms

This course discusses urban spaces as Indigenous places and foregrounds theories and practices of Indigenous city making. Topics may include unsettling the urban, Indigenous place-making, the built environment and infrastructures, and decolonial articulations of towns and cities.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing or permission of the
Indigenous Studies program.
Seminar three hours per week.

INDG 4005 [0.5 credit] Visual Storytelling in Indigenous Art

This course discusses urban spaces as Indigenous places and foregrounds theories and practices of Indigenous city making. Topics may include unsettling the urban, Indigenous place-making, the built environment, and infrastructures, and decolonial articulations of towns and cities.

Prerequisite(s): third-year standing or permission of the Indigenous Studies program.
Seminar three hours per week.

INDG 4011 [0.5 credit] Indigenous Representations

Students will study how Indigenous peoples have used cultural production in various forms (such as literature, film, television, visual arts, music, performance) to put forth their own visions of their peoples, worldviews, and lives.

Seminar three hours a week.

INDG 4012 [0.5 credit] Resistance and Healing in Contemporary Indigenous Art

This seminar offers an examination of how Indigenous artists have formulated a politicized discourse of resistance through their artistic expressions to prompt transformative and decolonizing healing within communities. This course includes readings, analysis of diverse forms of art, and critical analysis of art exhibitions. Prerequisite(s): third-year standing or permission of the Indigenous Studies program.

Seminar three hours a week.

INDG 4015 [0.5 credit] Land as a Relation

This course is offered in partnership with Kitigan Zibi Anishinabeg and reflects critical kinships enacted between Algonquin Anishinabeg, the land and non-human relatives. We spend one week in the community in an immersive environment learning about language, sovereignty, land caretaking, berry picking, and other topics.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or permission of the Indigenous Studies program.

Fourteen-day field course.

INDG 4020 [0.5 credit] Practicum

Students will apply their knowledge with a local organization whose mandate involves working with and/ or for Indigenous peoples. Restricted to students in the INDG major. To be arranged in consultation with the Undergraduate Supervisor.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the Indigenous Studies program.

INDG 4105 [0.5 credit] Comparative Indigenous Knowledge and Entrepreneurship

Past and contemporary interconnections between Indigenous knowledge and entrepreneurship on a comparative basis. Distinguishing features of Indigenous entrepreneurship from traditional entrepreneurship such as its focus on community, connection to the land, and the role of women.

Also listed as AFRI 4005. Prerequisite(s): Third-year standing. Seminar three hours a week.

INDG 4901 [0.5 credit] Selected Topics in Indigenous Studies

Topics vary from year to year.

Prerequisite(s): third-year standing or permission of the Indigenous Studies program.

Seminar three hours per week.

INDG 4905 [0.5 credit] Directed Studies I

An optional course normally restricted to fourth-year Honours students in Canadian Studies or Indigenous Studies and to Qualifying-year Graduate students. Includes supervised reading and written work in an Indigenous Studies area.

Prerequisite(s): fourth-year standing or permission of the Indigenous Studies program.

Industrial Design (IDES)

Industrial Design (IDES) Courses

IDES 1000 [0.5 credit]

Theory and History of Design

The theoretical and historical background of industrial design and design; disciplinary foundations and interdisciplinary connections; methodological aspects and economic and social contexts: contemporary scenarios in design; technological innovation and manufacturing processes.

Also listed as ARCH 2006. Lectures three hours a week.

IDES 1001 [0.5 credit]

Industrial Design Analysis

Principles of comparative product design analysis covering marketing and sales, manufacturing techniques and materials, ambiance and qualities of the object/context relationship, and design analysis from the perspective of the designer, the end-user and the environment.

Includes: Experiential Learning Activity

Also listed as ARCH 2101.

Prerequisite(s): IDES 1000 or ARCH 2006.

Lectures three hours a week.

IDES 1300 [0.5 credit] Projects IA

An introduction to the skills and processes of industrial design including drawing and sketching as an aid to design, basics of line, shape, ideation, and visualization, product drawing, presentation techniques, basic model making, studio equipment and practices, introduction to the design process.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1000 (may be taken concurrently).

Studio and lectures six hours a week.

IDES 1301 [0.5 credit] **Proiects IB**

Aspects of industrial design theory and practice, specifically those dealing with principles of product development, fundamentals of form and colour and case studies. Students will explore the design process with emphasis on creative problem-solving techniques and visual communication in design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1300.

Studio and lectures six hours a week.

IDES 2101 [0.5 credit] Design for Manufacturing A

Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. Influences and role of assembly, finishing, production tooling, and costing.

Includes: Experiential Learning Activity Prerequisite(s): IDES 1001, IDES 1301.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2102 [0.5 credit] Design for Manufacturing B

Continuation of IDES 2101. Transformation techniques applied to manufacturing materials. Part-design requirements and cost factors for manufacturing processes. The influences and role of assembly, finishing, production tooling, costing are addressed.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2101 or permission of the School of

Industrial Design.

Lecture and tutorials three hours a week, laboratory three hours a week.

IDES 2104 [0.5 credit] Computer Applications A

Provides industrial design students with working knowledge of design related 2D computer applications, such as graphic manipulation, illustration software, and 2D Computer-Aided Design (CAD). Labs and projects are oriented towards building a foundation in software and group work skills for studio courses.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1301.

Lecture and tutorials three hours a week.

IDES 2105 [0.5 credit] Computer Applications B

Provides industrial design students with working knowledge of design related three-dimensional (3D) computer applications, such as solid and surface modelling computer-aided design (CAD) software. Labs and projects are oriented towards building a foundation in software and group work skills for studio courses.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2104.

Lecture and tutorials three hours a week.

IDES 2205 [0.5 credit]

Sensory Aspects of Design for User Experience

An exploration of multi-sensory qualities derived from and designed into products to optimize product-interaction experiences. Visual, tactile, auditory, and other related sensory aspects of design and design principles that contribute to the product multi-sensory characteristics while adding meaning and emotional value.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 2203 (no longer offered).

Prerequisite(s): IDES 1001 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 2300 [0.5 credit] Projects IIA

Principles of design sketching used in the industrial design process. Topics include: sketching as a tool for problem definition; idea exploration and form development; rendering techniques and the communication of design concepts; basic physical prototyping and modeling-making techniques.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 1001 and IDES 1301, or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2302 [0.5 credit] Projects IIB

Introduction to the design principles associated with adapting products to an existing product semantic. Topics covered: principles of design, product semantics, design analysis, design synthesis, design evaluation, and modeling techniques. The design project(s) explore some or all of the design principles covered in the lectures. Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 2600 [0.5 credit]

Human Factors/Ergonomics in Design

Foundation course in human factors/ergonomics providing an overview of physical and cognitive considerations in product design and related design fields. Anthropometrics, biomechanical considerations, cognition, social interaction, and emotional interaction are introduced in relation to supporting user experience, health and safety, performance and productivity.

Includes: Experiential Learning Activity

Prerequisite(s): PSYC 1001 and PSYC 1002, or PSYC

1000.

Lectures and discussion three hours a week.

IDES 3104 [0.5 credit] Exhibition Design

Exhibition design is explored through lectures, case studies, field trips and guest lectures. Students participate in exercises and apply design skills to a variety of exhibition design realms. Introduces students to the potential of the built environment for exploring a range of diverse exhibit applications.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3105 [0.5 credit]

Visual Communication and Package Design

A survey of visual communication and package design principles relevant to industrial designers. Product/brand definition and corporate identity through package design.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lectures and tutorials three hours a week.

IDES 3106 [0.5 credit]

Advanced Computer Applications

Examination of complex product geometry utilizing 3D computer applications. Topics include spline, surface and solids construction, surface verification tools, and rendering tools and techniques. Workflow, robust design, reverse design techniques and 3D printing will be explored through exercises.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2105. Third or Fourth Year standing or permission of the School of Industrial Design.

Lecture and tutorials three hours a week.

IDES 3107 [0.5 credit] Design and Sustainability

Explores the industrial designer's role in creating more environmentally and socially responsible products. Addresses imperatives and drivers for integrating sustainability into products. Includes: sustainable design strategies, strategies and tools, sustainable design business case, circular economy model for designed products, and case studies.

Includes: Experiential Learning Activity

Prerequisite(s): IDES IDES 2302 and Third or Fourth Year standing or permission of the School of Industrial Design. Lectures and tutorials three hours a week.

IDES 3202 [0.5 credit]

Advanced Studies in Form and Colour

Students may continue the research and study encountered in IDES 2205, IDES 2300 and IDES 2302 by doing advanced research in the phenomena of form and/ or colour and their communicative functions in products. Directed Study.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Lecture and tutorials three hours a week.

IDES 3302 [0.5 credit]

Projects IIIB

Introduction to the principles of innovation as found in industrial design. Invention, innovation, entrepreneurship, basic mechanisms. The design project(s) explore some or all of the design principles covered in the lectures. Includes: Experiential Learning Activity

Precludes additional credit for IDES 3301 (no longer

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 3305 [0.5 credit]

Special Studies

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 and Third or Fourth Year standing or permission of the School of Industrial Design. Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3306 [0.5 credit] **Special Studies**

Special Industrial Design Studies deal with specific projects, which may differ from year to year depending on the availability of specialists in a particular field or study opportunities as they present themselves.

Prerequisite(s): IDES 2302 and Third or Fourth Year standing or permission of the School of Industrial Design. Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 3310 [0.5 credit]

Projects IIIA

Introduction to the design principles associated with the evaluation and re-design of an existing product. Topics include: user/machine relationship, component packaging, and manufacturability. The design project(s) explore some or all of the design principles covered in the lectures. Includes: Experiential Learning Activity

Precludes additional credit for IDES 3300 (no longer offered).

Prerequisite(s): IDES 2302 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 3502 [0.5 credit]

Contextual Nature of Products

Cultural subjects which have an influence on contemporary industrial design. The perspective of the course is anthropological: the context and cultural relevance of industrial design.

Prerequisite(s): IDES 1000 (ARCH 2006) and Third or Fourth year standing.

Lectures and tutorials three hours a week.

IDES 3601 [0.5 credit] Research for Design

Basic design research techniques to foster design exploration. Methods focus on understanding context and user experience to produce meaningful, actionable insights and design opportunities. Processes include qualitative and quantitative research, as well as creative and evaluative research with people. Teamwork and collaboration are explored.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2600 and Third or Fourth Year Standing.

Lectures or laboratory three hours a week.

IDES 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

IDES 4001 [0.5 credit] **Industrial Design Seminar**

Topics vary yearly and address key contemporary industrial design issues. There is a focus on writing, discussion, and debate. Students organize a seminar with design professionals and other community experts including student and professional presentations, interaction, and discussion.

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Seminar three hours a week.

IDES 4002 [0.5 credit] Professional Practice

The organizational aspects of consultancies and client responsibilities within the framework of corporate management. Topics include: the form of contracts for consultancy, determination of fees, legal implications, patents and copyrights. Guest lecturers.

Precludes additional credit for IDES 3503 (no longer offered).

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Lectures and discussion three hours a week.

IDES 4101 [0.5 credit]

Adv. Studies in Manufacturing

Advanced manufacturing concepts and workflows are examined through a series of workshops and minor projects utilizing state-of-the-art equipment.

Includes: Experiential Learning Activity
Prerequisite(s): IDES 2101 and IDES 2102.
Lectures or laboratory three hours a week.

IDES 4200 [0.5 credit]

Form Organization

Using form organization as a tool to design, the definition and prescription of monolithic solids by means of an abstract system; making and verifying materialized approximations of such solids.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 2300 and IDES 2302 or permission

of the School of Industrial Design.

Lectures, tutorials and laboratory six hours a week.

IDES 4301 [0.5 credit] Minor Projects

Advanced skills-based course that enhances student experience in novel, experimental processes and techniques in design. Workshop-style activities and short projects focus on increasing skill competence and versatility in a variety of fields. Emphasis on time management and the ability to work independently.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week.

IDES 4305 [0.5 credit]

Special Studies

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves. Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4306 [0.5 credit] Special Studies

Like the third-year Special Industrial Design Studies, those of fourth year deal with specific projects, which may differ each year depending on the availability of specialists among the faculty of the School of Industrial Design or on particular opportunities as they present themselves. Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Lectures, tutorials, laboratory and studio three hours a week or equivalent.

IDES 4310 [1.5 credit] Capstone Project

Application of design principles in a comprehensive design project. Problem area should be product-oriented and of sufficient complexity. Normally undertaken in consultation with off-campus organizations and/or industry. Supervised by faculty and/or sessional members.

Includes: Experiential Learning Activity

Precludes additional credit for IDES 4300 (no longer offered).

Prerequisite(s): IDES 3302 or permission of the School of Industrial Design.

Studio and lectures six hours a week in Fall and twelve hours a week in Winter.

IDES 4400 [0.5 credit] Internship Field Report

Work experience related to industrial design. Following the internship period, normally 12 weeks, a comprehensive report describing observations and insights will be submitted. Graded Sat or Uns.

Includes: Experiential Learning Activity

Prerequisite(s): IDES 3300 or IDES 3310 or permission of the School of Industrial Design.

Tutorial hours arranged.

Information Resource Management (IRM)

Information Resource Management (IRM) Courses

IRM 1002 [0.5 credit]

Reference and Information Services

Introduction to the theory and techniques needed to conduct reference interviews and interpret reference queries. Students learn to select and use general reference sources such as dictionaries, encyclopedias, directories, bibliographies, periodical indexes, almanacs, and handbooks in print, and electronic formats.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1003 [0.5 credit]

Collections management

Introduction to the principals of collections management including techniques and procedures for selecting, ordering and receiving library materials, accounting, collection development and automated acquisitions. Students also learn policies and procedures required for circulation, document delivery and interlibrary loans. Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1004 [0.5 credit] Reader's Advisory Services

Students become familiar with fiction and non-fiction materials available to various categories of clients and learn how to market them. In addition, students further develop through various assignments their researching, writing, speaking, listening and communication skills. Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 1005 [0.5 credit] Web Interface Development

Combining graphics, text, audio and video to develop websites on an individual basis and in groups, using latest versions of HyperText Markup Language(HTML), Cascading Style Sheets (CSS), JavaScript and data interchange formats such as Extensible Markup Language(XML) and JavaScript Object Notation(JSON). Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

IRM 1006 [0.5 credit]

Subject Analysis and Indexing

Students learn the basic theory of subject analysis and indexing methods used to provide access to library materials and literature. Practical instruction makes use of thesauri, as well as standard subject heading lists, such as Sears and Library of Congress.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hour a week.

IRM 1007 [0.5 credit] Cataloguing

The catalogue is the main finding aid to the collection of the library. Students learn the basic principles and concepts of international standards used to describe library materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 1001 (no longer

Prerequisite(s): restricted to students in the B.I.T. program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 1008 [0.5 credit]

Introduction to Information Resource Management

Students develop understanding of the concepts of information retrieval, creation, evaluation, organization and client service. Knowledge of legal and ethical implications of information and current trends in the field is studied. Through in-class lectures and hands-on activities, students gain an overview of the field.

Precludes additional credit for IRM 1000 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 2002 [0.5 credit]

Legal and Business Information

Students develop skills in planning and executing information searches and evaluating print and electronic resources. Students learn to locate information on selected topics, compile subject-specific annotated bibliographies and instruct library clients in the use of specialized materials and databases.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1002.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 2003 [0.5 credit] Classification

How to interpret and apply Dewey Decimal and Library of Congress Classification systems. Also includes analysis of the subject content of materials, building notation, using tables, shelf-listing techniques and creating unique book numbers.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1006.

Lectures two hours a week, tutorial/laboratory one hour a week

IRM 2004 [0.5 credit]

Information Management and Digital Preservation

Essentials of information management in an organization including the life cycle management of files in paper and the electronic environment. This course will also cover contemporary issues in information management and digital preservation.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 1008.

Lectures two hours a week, tutorial/laboratory one hour a

week.

IRM 2005 [0.5 credit] Advanced Cataloguing

Libraries purchase and provide access to a wide variety of print and electronic resources. Building on work done in IRM 1007, students learn to interpret international cataloguing standards to describe more complex materials. In-class exercises, lectures and practical experience help students apply these cataloguing standards.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 2001 (no longer

offered).

Prerequisite(s): IRM 1007.

Lectures two hours a week, tutorial/laboratory two hours a

week.

IRM 2006 [0.5 credit] Data Visualization

Web-based data visualization techniques and systems. Good design practices for visualization, tools for visualization of data from a variety of fields, and programming of interactive web-based visualizations focusing on JavaScript, CSS, and related libraries.

Includes: Experiential Learning Activity

Also listed as ITEC 2100.

Prerequisite(s): IRM 1005 and BIT 1400.

Lectures/labs five hours a week.

IRM 3001 [0.5 credit]

Scientific and Medical Information

Students enhance their knowledge of print and electronic reference sources in science and technology. Students learn to compile specialized subject-specific bibliographies and assignments provide training in the use of science and technology reference sources.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 2002.

Lectures two hours a week, tutorial/laboratory two hours a

IRM 3003 [0.5 credit]

Legal Issues in Information Resource Management

In-depth analysis and assessment of copyright and other forms of intellectual property. Legal issues related to information technology. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, Charter and human rights issues, and security.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree

orogram.

Lectures three hours a week.

IRM 3004 [0.5 credit] Project management

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of information management using case studies.

Includes: Experiential Learning Activity

resource management program.

Lectures two hours a week, tutorial/laboratory two hours a week.

IRM 3006 [0.5 credit]

Data Analysis and Research Methodology

Introduction to the logic and design of research. Qualitative and quantitative research methodology with emphasis on the application and interpretation of statistical techniques for data analysis. May include, but are not limited to, bivariate and multivariate analysis, distribution analysis, visual data analysis, market basket analysis.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3002 (no longer

offered).

Prerequisite(s): BIT 2009 or equivalent.

Lectures three hours a week.

IRM 3007 [0.5 credit] Practicum for IRM

Students will design and complete a project related to information management under the supervision of a faculty member or librarian. This course provides the opportunity to apply knowledge gained in previous courses.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Information resource management program.

Tutorial/laboratory eight hours a week.

IRM 3008 [0.5 credit] Metadata for IRM

Students develop an understanding of key metadata schema and apply standards to describe range of digital resources. The metadata schemes include focus on Dublin Core (DC) and MODS with select coverage of specialist schema. Through in-class lectures and hands-on activities, students apply metadata schemes.

Includes: Experiential Learning Activity

Precludes additional credit for IRM 3000 (no longer

offered).

Prerequisite(s): IRM 2005.

Lectures two hours a week, tutorial/laboratory two hours a

week.

IRM 4000 [0.5 credit] Library Software

Using skills and knowledge of automated systems already developed in introductory courses, students learn the theory and receive the hands-on practice needed to use library databases. A component on choosing and comparing library software is included.

Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree

program.

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4001 [0.5 credit]

Archives and Special Collections

Principles and methods used by archivists and record managers in organizing their collections for better access and retrieval. Students also learn aspects of physical bibliography, the book trade, preservation and conservation of books and how to exhibit such material. Includes: Experiential Learning Activity

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

IRM 4002 [0.5 credit] Network Technology

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Lectures two hours a week, tutorial/laboratory one hour a week.

IRM 4004 [0.5 credit]

Applied Machine Learning and Big Data Analytics

Introduction to Machine Learning and Big Data Analytics. Topics include: Association Rule Mining, Classification, Clustering, Linear and Logistic Regression, Distributed File System, Batch and Stream Data Processing, and other related. Applications on other domains such as multimedia, networks, finance, and/or business.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3006. Lectures three hours a week.

IRM 4005 [0.5 credit] Introduction to Deep Learning

Introduction to classification and regression. Optimization, vectorization, gradient descent, cost, loss and activation functions. Introduction and basics to AI, Artificial Neural Networks, forward and backward propagation, Multi Layer Perceptron, and other types of Deep Neural Network models, their applications in multimedia, networks, finance, etc.

Includes: Experiential Learning Activity

Also listed as OSS 4005.

Prerequisite(s): BIT 2009 and BIT 2400.

Lectures three hours a week.

IRM 4900 [1.0 credit] IRM Capstone Project

Student-initiated project developed in association with a project supervisor and external information resource management advisor. Project is supported by a written report, seminar discussions and final presentation. All proposals must be approved by the IRM Program Project Committee.

Includes: Experiential Learning Activity

Prerequisite(s): IRM 3004, IRM 3007 or LIB 2030 and LIB 2047 and fourth year standing in the IRM program.

Tutorial hours arranged.

Information Technology (BIT)

Information Technology (BIT) Courses BIT 1000 [0.5 credit] Mathematics I for NET

Tailored for students in the Network Technology program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1100, BIT 1200,
ECON 1401, ECON 1402, MATH 1002, MATH 1004,
MATH 1007, MATH 1009, MATH 1052, MATH 1401,
MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1001 [0.5 credit] Mathematics II for NET

Tailored for students in the Network Technology program, this course covers systems of linear equations, vector space of n-tuples, subspaces and bases, matrix transformations, kernel, range, matrix algebra and determinants, inner products and orthogonality, eigenvalues, diagonalization and applications. Includes: Experiential Learning Activity Precludes additional credit for BIT 1101, BIT 1201, ECON 1401, ECON 1402, MATH 1104, MATH 1107, MATH 1119, MATH 1152, MATH 1401, MATH 1402. Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1002 [0.5 credit] Physics for Information Technology I

An introductory course on energy, thermodynamics, sound and electromagnetic waves, optics, and modern physics. Practical skills are learned in the laboratory, which is a required part of the course.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 1203, PHYS 1001,

PHYS 1003, PHYS 1007, PHYS 1107.

Prerequisite(s): BIT 1100.

Lectures three hours a week, tutorial three hours/

laboratory three hours alternate weeks.

BIT 1006 [0.5 credit]

Achieving Success in Changing Environments

Students explore the possibilities ahead, assess their own aptitudes and strengths, and apply critical thinking and decision-making tools to help resolve some of the important issues in our complex society with its competing interests.

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week.

BIT 1007 [0.5 credit] Physics for NET

An introductory course on energy, electrical networks (AC and DC circuits, resistance, impedance, capacitance), electrostatics (electric fields, static electricity), electromagnetism, electromagnetic waves, optics, and other topics in modern physics. Practical skills are learned in the laboratory, which is a required part of the course. Precludes additional credit for BIT 1003 (no longer offered), BIT 1204, PHYS 1002, PHYS 1004, PHYS 1008, PHYS 1108.

Prerequisite(s): BIT 1000,Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial three hours/ laboratory three hours alternate weeks

BIT 1100 [0.5 credit] Mathematics I for IMD

Tailored for students in the Interactive Multimedia Design program, this course covers basic concepts in functions (polynomials, exponential, logarithmic) and introduces concepts of limits, derivatives and rules of differentiation, applications of differentiation (max-min problems, curve sketching) and integration.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1000, BIT 1200,
ECON 1401, ECON 1402, MATH 1002, MATH 1004,
MATH 1007, MATH 1009, MATH 1052, MATH 1401,
MATH 1402.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1101 [0.5 credit] Mathematics II for IMD

Tailored for students in the Interactive MultiMedia
Design program, this course covers systems of linear
equations, vector space of n-tuples, subspaces and bases,
matrix transformations, kernel, range, matrix algebra
and determinants, inner products and orthogonality,
eigenvalues, diagonalization and applications.
Includes: Experiential Learning Activity
Precludes additional credit for BIT 1001, BIT 1201,
ECON 1401, ECON 1402, MATH 1104, MATH 1107,
MATH 1119, MATH 1152, MATH 1401, MATH 1402.
Lectures three hours a week, tutorial and laboratory one
hour a week.

BIT 1200 [0.5 credit] Calculus

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1000, BIT 1100, MATH 1002, MATH 1004, MATH 1007, MATH 1009, MATH 1052, MATH 1401/ECON 1401, MATH 1402/ECON 1402.
Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent. Restricted to students in the B.I.T. degree program. Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 1201 [0.5 credit] Linear Algebra

Systems of linear equations; vector space of n-tuples, subspaces and bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product. Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications. Note: MATH 1119 is not an acceptable substitute for BIT 1201.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1001, BIT 1101, MATH
1102, MATH 1104, MATH 1107, MATH 1119, MATH 1152,
MATH 1401/ECON 1401, MATH 1402/ECON 1402.
Prerequisite(s): Ontario Grade 12 Mathematics: Advanced
Functions, or MATH 0005, or equivalent, or permission
of the School. restricted to students in the B.I.T. degree
program.

Lectures three hours a week, tutorial and laboratory one hour a week.

BIT 1203 [0.5 credit] Newtonian Physics

Mechanics, properties of matter, thermodynamics. Applications chosen in part from the life sciences. Includes: Experiential Learning Activity Precludes additional credit for BIT 1002, PHYS 1001, PHYS 1003, PHYS 1007, PHYS 1107. Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent; or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 or BIT 1200 (may be taken concurrently); or (iii) permission of the Department.Restricted to students in the B.I.T. degree program.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1204 [0.5 credit]

Electromagnetism & Modern Physics

Electricity and magnetism, DC and AC circuits, wave motion and light. Elements of modern physics. Applications chosen in part from the life sciences. Includes: Experiential Learning Activity Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, PHYS 1002, PHYS 1004, PHYS 1008, PHYS 1108.

Prerequisite(s): BIT 1203 or PHYS 1001 or PHYS 1003 or PHYS 1007 or permission of the Department. Restricted to students in the B.I.T. degree program.

Lectures three hours a week, laboratory or tutorial three hours a week.

BIT 1400 [0.5 credit]

Introduction to Programming and Problem Solving

Introduction to basic concepts of procedural programming and algorithm design in C. Topics include: basic variables, functions, operators, program control with iteration and conditionals, I/O operations, text and file processing, structures, arrays, pointers, debugging, algorithmic thinking and pseudocode, computer architecture, operating systems, and libraries.

Includes: Experiential Learning Activity
Precludes additional credit for COMP 1005, COMP 1405, ITEC 1400, ITEC 1401.

Prerequisite(s): Restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory three hours a week.

BIT 2000 [0.5 credit] Probability for Technology

This course covers data analysis, introduction to probability theory, some standard discrete and continuous distributions and their application to interval estimation and significance testing, computational aspects of statistics. Includes: Experiential Learning Activity

Precludes additional credit for BIT 2009, DATA 1517, ECON 2210, ENST 2006, GEOG 2006, STAT 2507, STAT 2606, STAT 3502.

Prerequisite(s): restricted to students in the BIT degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 2001 [0.5 credit] Introduction to Business

An overview of the most fundamental business functions. The management of people, human resources, marketing, accounting and finances, business law and operations. Includes: Experiential Learning Activity

Precludes additional credit for BUSI 1800.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures: three hours a week.

BIT 2002 [0.5 credit] Marketing in the IT sector

Basic problems and practices in marketing. Marketing strategies, planning, packaging, branding and promotion at the level of the individual firm; distribution channels. Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2204.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week.

BIT 2006 [0.5 credit] Elective

Students must choose from among a list of approved Electives at Algonquin College.

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, or as arranged.

BIT 2008 [0.5 credit] Multimedia Data Management

Concepts and fundamentals of database systems. Design of relational databases, normalisation, referential integrity, structured query language (SQL), server-side scripting, organisation of multimedia content, dynamic page loading, storage and compression of media, media network considerations, digital watermarking and rights management.

Includes: Experiential Learning Activity
Precludes additional credit for ITEC 2000, IMD 2000 (no longer offered), IRM 2000 (no longer offered).
Prerequisite(s): BIT 1400 and IMD 1005 or IRM 1005.
Lecture three hours a week, tutorial/laboratory two hours a week

BIT 2009 [0.5 credit] Statistics for Technology

This course covers statistical data analysis with an emphasis on hypothesis testing including parametric tests (e.g., t-tests, ANOVA) and non-parametric tests (e.g., Kruskal-Wallis, Friedman, chi-square), correlation and linear regression. Provides an introduction to probability theory and distributions (e.g. binomial, normal). Includes: Experiential Learning Activity Precludes additional credit for BIT 2000, DATA 1517, ECON 2210, ENST 2006, GEOG 2006, STAT 2507, STAT 2606, and STAT 3502.

Prerequisite(s): Restricted to students in the BIT degree program.

Lectures three hours a week, tutorial/laboratory one hour a week.

BIT 2010 [0.5 credit]

Differential Equations & Multivariate Calculus

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.

Prerequisite(s): BIT 1200.

Lectures three hours a week, tutorial one hour a week.

BIT 2400 [0.5 credit] Intermediate Programming

Introduction to object-oriented programming and algorithm design in C++. Topics include code and data encapsulation using classes and objects, inheritance, polymorphism, object-oriented design, data and code abstraction, program efficiency, user interface objects, event-driven systems, and an introduction to linked-lists and searching.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 1006, COMP 1406,

ITEC 2400, ITEC 2401.

Prerequisite(s): BIT 1400. Restricted to students in the

B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory three

hours a week.

BIT 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

BIT 4000 [0.5 credit] Directed Studies

Independent study under the supervision of a member of the School of Information Technology, open only to students in the B.I.T. program. Students are required to obtain their supervisor's written approval prior to registration and are limited to one such course in their program.

Includes: Experiential Learning Activity

Prerequisite(s): permission of the School of Information

Technology.

BIT 4001 [0.5 credit]

Special Topics in Information Technology

Topics not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Prerequisite(s): third-year standing in the BIT Program or permission of the department.

Lecture three hours a week.

Interactive Multimedia and Design (IMD)

Interactive Multimedia and Design (IMD) Courses IMD 1000 [0.5 credit]

Introduction to Interactive Multimedia Design

Introduction to interactive multimedia and design, focused on the production and processes of animation, visual fx, game design and development, web design and development, and user experience/interfaces. Topics include: mark-up languages, design process/ problem-solving tools, human-centered design, product development, ethics, and copyright and intellectual property.

Includes: Experiential Learning Activity
Precludes additional credit for ITEC 1100.

Prerequisite(s): Restricted to students in the B.I.T. degree

program.

Lecture three hours a week.

IMD 1001 [0.5 credit] Visual Communication

Visual communication techniques commonly used to draft concepts and ideas to support scripts for film, animation, HCI, and/or game development. Topics include: storyboarding, composition, vanishing point, line quality, visual timing, perspective, depth of field, body language and life drawing. A digital drawing tablet is required.

Includes: Experiential Learning Activity Prerequisite(s): IMD 1000 and IMD 1002.

Workshop three hours a week.

IMD 1002 [0.5 credit] Visual Dynamics

Fundamentals of composition with emphasis on realistic rendering. Students learn how to execute thumbnails and design comprehensives. Topics include illustration, type, colour, texture, proximity and unity, alignment, repetition and continuity, contrast, size relationships, balance, rhythm, negative space, cropping and view selection. Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1004 [0.5 credit] Design Processes

Design fundamentals using industry standard software techniques and workflow are explored. Topics include: gestalt principles, grids systems, colour, texture, raster and vector image production, and typography. Students design for publication to output such as Web, print, and electronic book formats. Required digital drawing tablet.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Workshop three hours a week.

IMD 1005 [0.5 credit] Web Development

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid xHTML, cascading style sheets (CSS), JavaScript and XML structures. Includes: Experiential Learning Activity Precludes additional credit for ITEC 1005. Workshop five hours a week.

IMD 2003 [0.5 credit] **Audio and Video**

The creation, production and editing of audio and video for multimedia applications. Topics include single camera recording and capture techniques through to postproduction editing. Emphasis is placed on production and operation skills while adhering to industry standard costs and deadlines.

Includes: Experiential Learning Activity Prerequisite(s): IMD 1000 and IMD 1002.

Workshop four hours a week.

IMD 2006 [0.5 credit]

Introduction to Game Design and Development

Basic concepts in the design and development of computer games, including: fundamentals of production cycle, genres, gameplay and game mechanics, story and character development, level design, artificial intelligence for games, game user interface, and common development tools.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400 and second-year standing in the

IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 2007 [0.5 credit] Intro to 3D Animation

Introduction to the basics of 3D computer animation. Topics include: introduction of 3D animation packages, 12 Principles of Animation, character design, character animation (walking/locomotion, motion, and poses), softbody animation (shape interpolation and facial animation), and acting for animators.

Includes: Experiential Learning Activity

Precludes additional credit for IMD 2005 (no longer offered).

Prerequisite(s): BIT 1002 and second-year standing in the IMD program.

Lecture/workshop three hours a week.

IMD 2900 [1.0 credit] **Design Studio 1**

Advanced practical studio-based sessions focused on project management. Topics include: project management styles, team collaboration techniques, prototyping, project and content management, marketing, and testing/ validation. The studio emphasizes the management of web design and development projects.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the IMD program.

Studio/lecture eight hours a week.

IMD 3002 [0.5 credit] 3D Computer Graphics

Technical aspects of 3D computer graphics. Homogeneous transformations, viewing pipeline, cinematography, modeling techniques (explicit and implicit), scene composition, level of detail methods, advanced lighting techniques (BRDF, IBL, subsurfacescattering), 2D/3D texturing, local/global illumination. rendering methods, and shaders.

Includes: Experiential Learning Activity Prerequisite(s): BIT 1101, BIT 2400 and IMD 3900. Lectures three hours a week, tutorial/laboratory two hours per week.

IMD 3004 [0.5 credit]

Human Computer Interaction and Design

Introduction to concepts centered on Human-Computer Interaction from hardware and software perspectives. Topics include design principles, usability principles and engineering, solving user-centred problems, device interaction, and graphical user interface design (2D and 3D interfaces).

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2009 and third-year standing in the IMD program.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 3005 [0.5 credit] **Sensor-Based Interaction**

Development of interactive applications that connect the physical and virtual space. Topics include using external devices and sensor hardware, sensing objects and people, gestural input, computer vision, processing of live audio input, and networked software and devices.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400.

Lecture/ workshop four hours a week.

IMD 3006 [0.5 credit]

Software Design for Multimedia Applications

Provides students with knowledge and expertise to design and develop complex software systems and programs for common multimedia applications. Topics include: data structures, system and requirement analysis, component identification, common design patterns, and working with reusable components.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400.

Lecture three hours a week, tutorial/laboratory two hours

a week.

IMD 3900 [1.0 credit] Design Studio 2

Intermediate practical studio sessions covering the creative aspects of 3D graphics and animation. Topics include: environment and character modeling, texturing, using bump/displacement maps, advanced materials, 3D cameras, various lighting, keyframe animation, and rendering methods.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 2007 and third-year standing in the

IMD program.

Studio/lecture eight hours a week.

IMD 3901 [1.0 credit] Design Studio 3

Studio-based course focuses on interdisciplinary group work, and the use of reality-based/ natural-based interfaces for multiuser interaction, understanding social and environmental context in physical design, basic networking, advanced sound design, and haptic feedback.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program,

IMD 2900 and IMD 3005.

Studio/lecture eight hours a week.

IMD 4002 [0.5 credit] Technology and Culture

An examination of the relationship between communication technology and society. The course examines the factors that contribute to changes in the collection, storage and distribution of information and the cultural implications of these changes.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the IMD program.

Seminar three hours a week.

IMD 4005 [0.5 credit]

Advanced Topics in Multimedia

Advanced topics in multimedia industry not ordinarily treated in the regular course program due to their contemporary subject matter. The choice of topics varies from year to year.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the IMD program.

Lecture three hours a week.

IMD 4006 [0.5 credit]

Advanced Game Design and Development

Provides students with knowledge and expertise to design and develop professional computer games with advanced and novel features. Topics include: game feel, game analysis techniques, prototyping & playtesting, inclusive/accessible design, interaction design, simulations in games, procedural content generation, and game research.

Includes: Experiential Learning Activity
Prerequisite(s): BIT 1100, IMD 2006 and IMD 3002.
Lecture three hours a week, tutorial/laboratory two hours a week

IMD 4008 [0.5 credit]

Mobile User Interface Design and Development

Design, development, and evaluation of user interfaces for mobile applications. Topics include: user-centered design methods and develop mobile applications employing the various input and output capabilities available on mobiles, e.g., multi-touch, device motion/rotation, video/audio capture, vibration.

Includes: Experiential Learning Activity Prerequisite(s): IMD 3004 and IMD 3006.

Lecture three hours a week, tutorial/laboratory two hours a week.

IMD 4901 [1.5 credit] IMD Capstone Project

Student-initiated digital media project, under the supervision of a project advisor, consisting of complete end-to-end production, from design to final product. Development will be assessed via design documents, project plans, progress presentations, culminating in a final exposition in front of a panel of industry experts. Includes: Experiential Learning Activity Prerequisite(s): IMD 2900, IMD 3004, IMD 3900, IMD 3901 and fourth-year standing in the IMD program. Tutorial hours arranged.

Network Technology (NET)

Network Technology (NET) Courses

NET 1001 [0.5 credit]

Computer Technology Basics

Construction and function of PCs. Introduces technical concepts and terminology relating to system boards, system busses, input/output devices, memory, microprocessors and peripherals. Interaction of software and hardware; data storage; performance issues.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a

NET 1002 [0.5 credit] Networking Fundamentals

Foundation knowledge for computer networks and communications. Topics include basic network design, layered communications models, IP addressing and subnets, and industry standards for networking media and protocols, with an emphasis on TCP/IP protocol suite and Ethernet environments.

Includes: Experiential Learning Activity

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 1006 [0.5 credit] Routing and Switching

Introduction to routing and switching concepts including, static and dynamic routing, trunking and VLANs, Topics include configuring routers and switches and resolving common configuration and reachability issues.

Includes: Experiential Learning Activity

Prerequisite(s): NET 1002.

Lecture three hours a week, tutorial/laboratory three hours a week.

NET 2000 [0.5 credit] Intermediate Networking

Architecture, components and operations of routers and switches in Enterprise networks. Topics include configuration and troubleshooting of OSPF, including Multiarea, redundancy, NAT and troubleshooting techniques. Includes: Experiential Learning Activity

Prerequisite(s): NET 1006.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 2007 [0.5 credit]

Basics of Transmission Systems

Introduction to the fundamentals of information transmissions systems used in physical layer of the Internet. Covers time- and frequency-domain concepts, digital and analog transmission, signal encoding, sampling, modulation, demodulation, error detection and correction. Examples: DSL, Cable modem, and wireless LAN. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity

Prerequisite(s): BIT 1001 and BIT 1007. Lectures three hours a week, tutorial/laboratory three

hours a week.

NET 2008 [0.5 credit]

DevOps

Exposure to unifying software development (Dev) and software operation (Ops). Use of Python to monitor and automate network management tasks.

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory three hours a week.

NET 2010 [0.5 credit]

Desktop and Server Environments I

Using Linux and Windows Server, study of the basic features such as file system, system utilities, memory management, boot process troubleshooting and UI customizations. Client-Server architecture is examined with a focus on basic Server configuration and administration. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity

Precludes additional credit for NET 2002 (no longer offered).

Prerequisite(s): NET 1001.

Lecture two hours a week, tutorial/laboratory two hours a

NET 2011 [0.5 credit]

Desktop and Server Environments II

Using Unix and Linux Operating systems, study of the command line and network Server operating environments. Configuring Services and Protocols such as DNS, NTP, SSH, SMB, SMTP, POP3, IMAP, HTTP, and DHCP. Basic Server security using firewalls is also introduced. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity Precludes additional credit for NET 2003 (no longer

offered). Prerequisite(s): NET 2010.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 2012 [0.5 credit]

Networking Technologies and Automation

Enterprise technologies and QoS mechanisms used for networks access. Topics include virtualization, and automation concepts. Software-defined networking, controller-based architectures and how application programming interfaces (APIs) enable network automation.

Includes: Experiential Learning Activity

Precludes additional credit for NET 2001 (no longer

offered).

Prerequisite(s): NET 2000.

Lectures three hours a week, tutorial/laboratory two hours

NET 2013 [0.5 credit]

Computer Systems Foundations

Introduction to the design and implementation of digital circuits and microprocessors. Topics include: binary numbers and arithmetic, fundamentals of boolean algebra, combinational circuits, sequential circuits, computer architecture and organization: CPU, cache, memory, input/ output, bus structures, interrupts, computer arithmetic, CPU assembly instruction sets.

Includes: Experiential Learning Activity

Precludes additional credit for NET 1004 (no longer offered), PLT 1007 (no longer offered), NET 2009 (no longer offered), PLT 2009 (no longer offered), OSS 2009. Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 3000 [0.5 credit]

Database Concepts and SQL

Concepts and fundamentals of relational database systems. Students learn how to design relational databases starting from a conceptual data model, following accepted logical and physical design principles. Topics include normalisation, referential integrity, SQL, DDL and SQL DML & DBC and data extraction/ filtering techniques.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the Networking program.

Lecture two hours a week, tutorial/laboratory two hours a week.

NET 3001 [0.5 credit] Real-time Systems

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as OSS 3001. Prerequisite(s): NET 2013.

Lectures three hours a week, tutorial/laboratory two hours

a week.

NET 3004 [0.5 credit] **Data Structures**

Specification and design of abstract data types and their implementation as stacks, gueues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion. re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as OSS 3004.

Precludes additional credit for PLT 3010 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3006 [0.5 credit]

Network Management and Machine Learning

Key network management models, protocols, and standards (such as SNMP, NETCONF, NetFlow). Introduction to machine learning (topics may include decision trees, numerical computations for learning, deep feedforward networks, etc.) and its application in network management. Security issues in networking management. Includes: Experiential Learning Activity

Prerequisite(s): BIT 2000, NET 3000 and NET 3004. Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3007 [0.5 credit] **Network Security**

Basics of network security. Students are introduced to the goals of IT security, common threats and countermeasures including firewalls, intrusion detection and prevention systems (IDPS) and virtual private networks. Several operating environments will be studied as examples. Also includes a section on computer ethics.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2012.

Lectures two hours a week, tutorial/laboratory three hours a week.

NET 3008 [0.5 credit]

Advanced Network Routing

Routing IP at the enterprise level, within and between, autonomous systems. Advanced control and optimization of routing protocols and manipulation of traffic paths with multiple routing protocols. Working knowledge of Internet reachability via BGP.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2012.

Lectures three hours a week, tutorial/laboratory three

hours a week.

NET 3010 [0.5 credit] Web Programming

Architectures, protocols, and languages used to develop dynamic Web content, including Hypertext Markup and Hypertext Formatting Languages (HTML, XML, CSS), Universal Resource Identifiers (URI), and the Hypertext Transport Protocol (HTTP). JavaScript and PHP are used to model cross-platform web programming.

Includes: Experiential Learning Activity Prerequisite(s): BIT 2400, NET 3000.

Lectures three hours a week, tutorial/laboratory two hours

a week.

NET 3011 [0.5 credit]

Advanced Network Switching

VLANs and inter-VLAN routing in a multilayer switched environment. Variants of STP and the use of related enhancements. Techniques for network redundancy and load balancing. Securing a switched infrastructure. Architectures and techniques for delivering converged traffic in an enterprise environment.

Includes: Experiential Learning Activity

Prerequisite(s): NET 2012.

Lectures three hours a week, tutorial/laboratory three

hours a week.

NET 3012 [0.5 credit] IP Architectures and Solutions

An exploration of various deployment options that can be implemented atop an IP network core. The focus is on technologies including MPLS and Segment Routing that serve to enhance IP service delivery and connectivity leveraging the IP infrastructure. Includes Layer 2 and 3 tunneling techniques.

Includes: Experiential Learning Activity

Prerequisite(s): NET 3008.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 3900 [0.5 credit] **Wireless Networks**

Design and configuration of Wi-Fi networks as used in commercial and enterprise venues. Topics include 802.11 family of protocols, wireless transmission, RF design, security methods and protocols, and system design. Topologies include campus, bridge and remote access. Includes: Experiential Learning Activity

Prerequisite(s): NET 2007.

Lectures two hours a week, tutorial/laboratory three hours a week.

NET 4000 [0.5 credit]

Emerging Network Technologies

Overview of technologies, protocols and techniques related to Information Technology networking that are either in their early stage of adoption or are not yet mainstream (i.e. beta or prototype stage). Focus will vary from year to year to reflect the evolutionary nature of this domain.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5110, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4001 [0.5 credit] Network Simulation

Introduction to discrete event simulation and network modeling; fundamental stochastic models for networking; introduction to queueing theory; random numbers; analysis of simulation data; confidence intervals. Use of different software tools to plan and perform simulations.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2000.

Also offered at the graduate level, with different requirements, as ITEC 5113, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4005 [0.5 credit] Networked Applications

Architectures for computing in modern data networks that adopt the Internet architecture. Topics covered include socket programming, RPC and RMI. Client-server and peer-to-peer models. Emerging application architectures.

Includes: Experiential Learning Activity Prerequisite(s): NET 3004 and NET 3010. Also offered at the graduate level, with different requirements, as ITEC 5114, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4007 [0.5 credit] Multimedia Networking

Audio and video compression. H.261, JPEG, MPEG and DVI. Accessing audio and video from a web server. Real Time Streaming Protocol (RTSP). Multimedia operating systems. Multimedia database. Network support for multimedia applications. Multimedia synchronization. Includes: Experiential Learning Activity Prerequisite(s): fourth-year standing in Networking

Prerequisite(s): fourth-year standing in Networking program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5111, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4009 [0.5 credit]

Troubleshooting IP Networks

Integrates planned maintenance and troubleshooting techniques, including, tools, applications and formalized methodologies. Study of issues in focused areas (such as routed vs. switched environments, addressing services, performance, security, VPN), culminating in problem resolution throughout a complex enterprise network. Includes: Experiential Learning Activity Prerequisite(s): NET 3011, NET 3008. Lectures three hours a week, tutorial/laboratory three hours a week.

NET 4010 [0.5 credit] Secure Mobile Networking

The concept, principle and rationale of mobile networking. Mobile network architecture, protocols, mobility management, routing and mobile TCP/IP; Security challenges, vulnerabilities and threats in mobile networks; Security defense techniques and countermeasures in mobile networks.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in Networking
program or permission of the instructor.

Also offered at the graduate level, with different requirements, as ITEC 5112, for which additional credit is precluded.

Lectures three hours a week, tutorial/laboratory one hour a week.

NET 4011 [0.5 credit]

Advanced Topics in Network Security

Understanding classes of advanced attacks. Building secure networks. Adversarial Machine Learning. Security in clouds, virtualized networks, and IoT. Understanding impact of OS and software security issues. Security in next generation networks such as 5G.

Prerequisite(s): NET 3007.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4012 [0.5 credit]

Cloud Computing and Virtualization

The basics of cloud computing and its driving technology behind: virtualization. Topics include how virtual machines and containers are deployed and orchestrated; how various resources and networks are virtualized and managed; hypervisor technology; virtual network management and micro-segmentation; cloud service provisioning; cloud security.

Includes: Experiential Learning Activity Prerequisite(s): NET 2013 and NET 3006.

Lectures three hours a week, tutorial/laboratory two hours a week.

NET 4901 [1.0 credit] NET Capstone Project

This course provides the opportunity to apply knowledge gained in previous courses towards the design and implementation of a major Networking related project. Working in teams or as individuals under the direction of faculty members, students undertake projects internally or in collaboration with industry.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Networking program.

Tutorial hours arranged.

Optical Systems and Sensors (OSS)

Optical Systems and Senors (OSS) Courses OSS 1002 [0.5 credit]

Photonics and Optoelectronics Applications

Survey of the history and future of photonics. Photonics benefits and impact on technology and society. Emerging applications of photonics in industry and commercial products. The forces (business, social, political, economic, technical, and educational) that influence the development, adoption and success or failure of technologies.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 1002 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 1003 [0.5 credit]

Optics/Optical Fibers (Principles)

Principles of optics, optical fiber, waveguides and handson experience with optical components. Optical fiber manufacturing and variety of industrial applications. Topics covered include: optical sources, detectors, fiber modes and mode-coupling, couplers, multiplexers, optical amplifiers, physical layer of optical networks, dispersion and nonlinear effects management.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1003 (no longer offered).

Prerequisite(s): OSS 1006.

Lectures two hours a week, tutorial/laboratory two hours a week

OSS 1005 [0.5 credit] Introduction to Optics

Physics of waves, optics and light propagation through lectures and lab experiments. Geometrical optics, refraction and reflection, interference, diffraction and polarization, thin lens equation, laser beams, Michelson interferometer, birefringence, and Abbe theory of imaging. Electromagnetic spectrum, quantum nature of light, photons, and photoelectric effect.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1005 (no longer offered).

Prerequisite(s): BIT 1203, restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory three hours a week.

OSS 1006 [0.5 credit]

Introduction to Automation and Simulation

Introduction to basic programming in both the Matlab and Labview environments. Program development, basic structures (loops, control structures), I/O, data visualization and graphing will be covered. Students will learn to use Labview to develop basic applications and model simple physical systems with Matlab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 1006 (no longer offered).

Prerequisite(s): restricted to students in the B.I.T. degree program.

Lectures two hour a week, tutorial/laboratory two hours a week.

OSS 2001 [0.5 credit]

Fundamentals of Light Sources

Introduction to incoherent light sources and lasers. Lasers operation, energy levels, quantum mechanics basics. Pumping/excitation, population inversion, laser cavity design, gain and loss, and characteristics of laser emission. An extensive lab manual of relevant experiments, variety of lasers, spectrometers, and detection equipment will be used.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2001 (no longer offered).

Prerequisite(s): BIT 1201. Restricted to students in the BIT degree program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2002 [0.5 credit]

Optical Communication Networks I

Adaptive Optical Communication Networks with 10Gb/s-200Gb/s Packet-Optical Platforms and WaveServers, OTN, flexible WaveLogic Photonics, ROADM, SONET/SDH, programmable network, optimized mapping techniques, optical carriers (OC-n/STM-m). Extensive hands-on experience using state-of-the-art Optophotonics Lab to work on OAM&P, facility/equipment, synchronization, bandwidth management, performance monitoring and other functionalities.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2002 (no longer offered).

Prerequisite(s): OSS 1003.

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 2003 [0.5 credit] Laser Systems

Laser theory, devices and systems. Safety procedures, laser power supplies, and laser system applications. Solid state, gas, and other types of lasers. Basic material processing, micro machining, bio/medical, and military applications will be covered. Hands-on experience with advanced laser equipment in lab.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 2003 (no longer offered).

Prerequisite(s): OSS 2001 or PLT 2001 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week

OSS 2005 [0.5 credit]

Circuits and Signals

Students learn properties of electricity and measurement techniques. Topics covered include RMS, average, applied, peak-to-peak and instantaneous values. Lab experiments deal with RC and RL circuits and LC filters. RLC circuits, and series and parallel resonance are also covered.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 2005 (no longer offered).

Prerequisite(s): BIT 1204 or PHYS 1004 or PHYS 1002. Restricted to students in the BIT degree program. Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2006 [0.5 credit] Integrated Circuits

Fundamentals of logic circuitry in digital systems are studied including basic logic gates, Boolean algebra, signal decoding, logic circuit design, flip-flop circuits, timers and counters. The proper use of semi-conductor components is demonstrated through the use of laboratory experiments.

Includes: Experiential Learning Activity
Precludes additional credit for ELEC 2507, PLT 2006 (no longer offered).

Prerequisite(s): OSS 2005 or PLT 2005 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory and problem analysis three hours a week.

OSS 2008 [0.5 credit] Manufacturing Photonics Components

Manufacturing techniques and methods used to produce photonics components and devices/systems. Micro assembly, adhesives, optical tests and measurement, lean manufacturing and quality control standards (Telcordia). Laboratory exposure to optical component production processes: grinding, polishing, coating, mounting, tolerance and accuracy.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 2008 (no longer offered).

Prerequisite(s): OSS 1002 or PLT 1002 (no longer offered). Restricted to students in the B.I.T. degree program.

Lectures two hours a week, laboratory two hours a week.

OSS 2009 [0.5 credit]

Microcontrollers for Sensing Applications

Microcontrollers study, emphasizing on their applications in sensing systems. Topics include microcontroller architecture, instruction sets, sensor interfacing, and programming techniques-Python for embedded programming; brief introduction to assembly and machine language. Students gain practical experience for real-world applications in automation and embedded systems development.

Includes: Experiential Learning Activity
Precludes additional credit for NET 1004 (no longer offered), NET 2013, PLT 1007 (no longer offered), PLT 2009 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 2010 [0.5 credit] Signals and Systems

This course provides a solid theoretical foundation for the analysis and processing of experimental data, and real-time experimental control methods. Topics include various properties of signals and systems, convolution, the Fourier transform, sampling theorem, z-transform, spectral analysis, filter design, and system identification. Includes: Experiential Learning Activity

Precludes additional credit for PLT 2010 (no longer offered).

Prerequisite(s): BIT 1200 and BIT 1201. Restricted to students in the B.I.T. degree program. Lectures three hours a week, tutorial one hour a week.

OSS 3000 [0.5 credit] Optical Communication Networks II

Operation, management and maintenance of metro/long-haul optical network elements and systems. Hands-on skills using GUI, Transaction Language One (TL1), optical network management to perform: alarm provisioning, line and path protection switching, security, data communications management, optical network backup and restore, load upgrade and installation management. Includes: Experiential Learning Activity

Precludes additional credit for PLT 3000 (no longer offered).

Prerequisite(s): OSS 2002.

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3001 [0.5 credit] Real-time Systems

Principles of event-driven systems, review of computer organization; parallel and serial interfaces; programmable timer; I/O methods; polling and interrupts. Real-time kernels. Critical design consideration: concurrency, dead lock, synchronization. Maintaining and improving system performance. Programming exercises in low and high level languages.

Includes: Experiential Learning Activity

Also listed as NET 3001.

Precludes additional credit for PLT 3002 (no longer offered).

Prerequisite(s): OSS 2009 or PLT 2009 (no longer offered).

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 3002 [0.5 credit]

Design of Optical Components and Systems

Optical ray-tracing for analysing systems of sources, lenses, mirrors, prisms, fibers, diffractive elements, MEMS. Zemax® fundamentals, pupils, aspherics, non-sequential tracing, aberrations, image metrics, optimization/merit functions. Applications: imaging, illumination, lasers. Trade-offs, mechanical constraints, tolerances and cost. Physical optics modeling of bean propagation. Near-field diffraction and waveguides. Includes: Experiential Learning Activity Precludes additional credit for PLT 3004 (no longer offered).

Prerequisite(s): OSS 1003 or PLT 1003 (no longer offered).

Lectures two hours a week, tutorial/laboratory three hours a week.

OSS 3003 [0.5 credit]

Fundamentals of Electromagnetics

Review of basic vector calculus followed by an introduction to electrostatics and magnetostatics. Maxwell's equations and EM wave solutions. EM waves in dielectrics media, reflection, refraction, Fresnel relations and Brewster angle. Introduction to guided waves emphasizing slab waveguides.

Includes: Experiential Learning Activity Precludes additional credit for PLT 3003 (no longer offered).

Prerequisite(s): BIT 1204 and BIT 2010. Lecture and tutorial three hours a week.

OSS 3004 [0.5 credit] Data Structures

Specification and design of abstract data types and their implementation as stacks, queues, trees, tables and graphs. Common and useful examples. Parsing and finite state machines. Analysis of algorithms, recursion, re-entrance. Special focus: abstraction, interface specification and hierarchical design using object-oriented programming.

Includes: Experiential Learning Activity

Also listed as NET 3004.

Precludes additional credit for PLT 3010 (no longer offered)

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial/laboratory two hours

OSS 3009 [0.5 credit] Project Management

Identification, selection, initiation, and organization of projects. Risk assessment, budget issues, communication, project scheduling, performance monitoring and control. Emphasis on practical techniques related to the field of photonics using case studies.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 3009 (no longer offered)

Prerequisite(s): third year standing in the Optical Systems and Sensors program.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 3012 [0.5 credit] Digital Signal Processing

Operations-related topics including: sampling/ reconstruction of continuous time signals, Fourier and Z-transforms, Discrete Fourier Transform (DFT), Fast Fourier Transform (FFT). Examination of other time and frequency domain techniques for designing and applying infinite impulse response (IIR) and finite impulse response (FIR) digital filters.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 3012 (no

Precludes additional credit for PLT 3012 (no longer offered).

Prerequisite(s): OSS 2010 or PLT 2010 (no longer offered).

Lectures three hours a week, tutorial one hour a week.

OSS 3013 [0.5 credit]

Software Design for Optical Systems and Sensors

Provides students with knowledge and expertise to design and develop complex software systems and programs for common optical systems and sensors using Python. Topics include: system and requirement analysis, algorithms, component identification, common design patterns, and working with reusable components. Includes: Experiential Learning Activity

Precludes additional credit for PLT 3013 (no longer offered).

Prerequisite(s): BIT 2400.

Lectures three hours a week, tutorial two hours a week.

OSS 3014 [0.5 credit]

Optical Waves, Waveguides, and Sensors

Analysis of guided-wave propagation and sensors. Topics include Maxwell's time-dependent wave equations, dielectric waveguides (slab, planar, segmented, rib, strip), optical fibres (modes, dispersion relations, propagation in dispersive media, nonlinear fibres), beam propagation methods, free space beam propagation, waveguide devices, and study of sensors technology.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 3014 (no longer

offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4001 [0.5 credit]

Optoelectronic Devices and Smart Sensor Systems

This course delves deep into advanced opto-electronics devices, sensing systems, emphasizing emerging technologies. Topics: semiconductors, semiconductor lasers, detectors, photovoltaics, fiber sensors, amplifiers, and modulation. It integrates smart sensor systems and optical sensors with algorithms for analysis in various applications. Students participate in hands-on laboratory experiences.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 4001 (no longer offered)

Prerequisite(s): OSS 2009 and OSS3013.

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4004 [0.5 credit]

Medical Imaging and Biosensors

Biological and medical photonics. Effect of light on biological systems, medical imaging, medical treatments, biological research and bio/medical applications. Laser manipulation of cells, laser surgery, and photo-therapy. Biophotonic lab experiments with scanning confocal microscopes, endoscopes, DNA scanners. Includes: Experiential Learning Activity

Precludes additional credit for PLT 4004 (no longer

offered).

Prerequisite(s): OSS 3003 or PLT 3003 (no longer offered).

Lectures two hours a week, tutorial/laboratory two hours a week.

OSS 4005 [0.5 credit]

Introduction to Deep Learning

Introduction to classification and regression. Optimization, vectorization, gradient descent, cost, loss and activation functions. Introduction and basics to AI, Artificial Neural Networks, forward and backward propagation, Multi Layer Perceptron, and other types of Deep Neural Network models, their applications in multimedia, networks, finance, etc.

Includes: Experiential Learning Activity Also listed as IRM 4005.

Prerequisite(s): BIT 2000 and BIT 2400.

Lectures three hours a week.

OSS 4006 [0.5 credit] Image Processing

Developing and evaluating algorithms for extracting the necessary information signals. Topics include filter design, fast transforms, adaptive filters, spectrum estimation and modeling, sensor array processing, image processing, motion estimation from images, applications in biomed, computer-aided tomography, image restoration, robotic vision, and pattern recognition.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 4006 (no longer offered).

Prerequisite(s): BIT 2400 and OSS 3012.

Lectures three hours a week, tutorial/laboratory two hours a week.

OSS 4008 [0.5 credit]

Remote Sensing

Introduction to the basics of remote sensing, characteristics of remote sensors, and applications. Topics include: image acquisition and data collection, LIDAR sensors and platforms and derived digital products, imagery analysis, topographic mapping, and 3D modeling of urban infrastructure for autonomous vehicles.

Includes: Experiential Learning Activity

Precludes additional credit for PLT 4008 (no longer offered)

Prerequisite(s): OSS 3014 or PLT 3014 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4009 [0.5 credit] Computer Vision

Introduction to topics in computer vision, including: fundamentals of image formation, camera imaging geometry, f camera models, camera calibration, structure from motion, feature detection and matching, depth and stereo, image stabilization, image classification, automated alignment, scene understanding, recognition, and image searching.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 4009 (no longer offered).

Prerequisite(s): OSS 4006 or PLT 4006 (no longer offered).

Lectures three hours a week, tutorial two hours a week.

OSS 4900 [1.0 credit] OSS Capstone Project

Research project develops students' ability to direct own learning and pursue advanced study in variety of subjects. Select topic, perform literature search, theoretical background, preliminary measurements, calculations, and design. Present findings in a preliminary thesis. Encourage writing technical papers. Research opportunities with industry and academia.

Includes: Experiential Learning Activity
Precludes additional credit for PLT 4900 (no longer
offered)

Prerequisite(s): fourth-year standing.

Tutorial hours arranged.

Information Technology (ITEC)

Information Technology (ITEC) Courses

ITEC 1005 [0.5 credit] Web Development

Introduction to Web development. Combining graphics, text, audio, and video to create Web sites; developing different, major working Web sites on an individual basis and in groups, using valid HTML5, cascading style sheets (CSS3), JavaScript and XML structures.

Precludes additional credit for IMD 1005.

Lectures and tutorials five hours a week.

ITEC 1100 [0.5 credit]

Introduction to Interactive Media Design

Introduction to interactive multimedia and design, focused on the production and processes of animation, visual fx, game design and development, web design and development, and user experience/interfaces. Topics include: mark-up languages, design process/ problem-solving tools, human-centered design, product development, ethics, and copyright and intellectual property.

Precludes additional credit for IMD 1000. Prerequisite(s): For students not enrolled in CSIT programs.

Lectures three hours a week.

ITEC 1400 [0.5 credit]

Introduction to Programming and Problem Solving

Introduction to basic concepts of procedural programming and algorithm design in C. Topics include: basic variables, functions, operators, program control with iteration and conditionals, I/O operations, text and file processing, structures, arrays, pointers, debugging, algorithmic thinking and pseudocode, computer architecture, operating systems, and libraries.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1400, COMP 1005,
COMP 1405. ITEC 1401.

Lectures/tutorials six hours a week.

ITEC 1401 [0.5 credit]

Introduction to Scripting and Problem Solving

Introduction to basic concepts of object-oriented scripting and algorithm design in Python. Topics include: basic variables, functions, operators, program control with iteration and conditionals, I/O operations, text and file processing, arrays, tuples, lists, debugging, algorithms and pseudocode, computer architecture, operating systems, and libraries.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1400, COMP 1005,
COMP 1405, ITEC 1400.

Lectures/tutorials six hours a week.

ITEC 2000 [0.5 credit]

Multimedia Data Management

Issues involving the back-end organization of information focusing on databases and database design, server-side scripting, the structured query language (SQL), digital rights management, and watermarking. Precludes additional credit for BIT 2008, IRM 2000 (no

longer offered), IMD 2000 (no longer offered).

Prerequisite(s): BIT 1400 or ITEC 1400 or ITEC 1401 and IMD 1005 or IRM 1005 or ITEC 1005.

Lectures and tutorials five hours a week.

ITEC 2100 [0.5 credit] **Data Visualization**

Web-based data visualization techniques and systems. Good design practices for visualization, tools for visualization of data from a variety of fields, and programming of interactive web-based visualizations focusing on JavaScript, CSS, and related libraries. Includes: Experiential Learning Activity Also listed as IRM 2006.

Prerequisite(s): ITEC 1005 and ITEC 1400 or ITEC 1401. Lectures/labs five hours a week.

ITEC 2400 [0.5 credit] **Intermediate Programming**

Introduction to object-oriented programming and algorithm design in C++. Topics include code and data encapsulation using classes and objects, inheritance, polymorphism, object-oriented design, data and code abstraction, program efficiency, user interface objects, event-driven systems, and an introduction to linked-lists and searching.

Includes: Experiential Learning Activity

Precludes additional credit for BIT 2400, COMP 1006,

COMP 1406, ITEC 2401. Prerequisite(s): ITEC 1400.

Lectures three hours a week, tutorial three hours a week.

ITEC 2401 [0.5 credit] Intermediate Scripting

Introduction to advanced object-oriented scripting and algorithm design in Python. Topics include class design and encapsulation, inheritance, polymorphism, objectoriented design, data and code abstraction, program efficiency, user interface objects, event-driven systems, and an introduction to linked-lists, sorting, and searching. Includes: Experiential Learning Activity Precludes additional credit for BIT 2400, COMP 1006, COMP 1406, ITEC 2400. Prerequisite(s): ITEC 1401.

ITEC 3100 [0.5 credit] **Immersive Storytelling**

The craft of digital storytelling, creating compelling online and game-engine packages. Using a variety of narrative formats, interactive tools, and digital content, including blogs and RSS feeds, developing an in-depth story using leading edge technologies and techniques. Includes: Experiential Learning Activity Prerequisite(s): MPAD 2004 or CCDP 3003. Workshop three hours a week.

ITEC 4007 [0.5 credit]

Dynamics and Physics-Based Animation

This course deals with the essentials of physics-based animations and dynamics: topics include basics of animation mechanics, collision detection, particle systems, and dynamic systems (cloth, fluid, and hair). Includes: Experiential Learning Activity Precludes additional credit for IMD 4007 (no longer offered).

Prerequisite(s): BIT 1100 and IMD 3002 or equivalent. Lecture three hours a week, tutorial two hours a week.

ITEC 4009 [0.5 credit]

Rigging and Advanced Character Animation

This course covers the elements of rigging and advanced character animation; topics include the basics of forwards/ inverse kinematics, controls, and weighting, essentials of human and creature rigging, retargeting, face and body motion capture, and motion studies for advanced keyframe animation.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3002 and IMD 3900 or equivalent. Lectures three hours a week, tutorial two hours a week.

ITEC 4010 [0.5 credit]

Visual Effects and Compositing

This course covers the essentials of Visual FX and compositing, topics include camera setups (motion control systems), set issues, match-moving, image-based lighting, chroma-keying and object extraction, colour correction, 2D tracking, and rotoscoping.

Includes: Experiential Learning Activity Prerequisite(s): IMD 3002 or equivalent.

Lecture three hours a week, tutorial two hours a week.

Lectures/tutorials six hours a week.

ITEC 4011 [0.5 credit]

Artificial Intelligence for Digital Media

This course covers the basics of artificial intelligence in games and animation, including behaviour and crowd systems (e.g. boids, reciprocal velocity obstacles, social forces, agent-based modelling, cellular automata), path finding and route planning, as well as procedural animation systems.

Includes: Experiential Learning Activity

Prerequisite(s): BIT 2400 or ITEC 2400 or ITEC 2401 or

equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4012 [0.5 credit]

Web Application Frameworks

A detailed look at web application frameworks, focusing client and server-side frameworks that enable more advanced user interactions, including configuration, understanding functionality, and develop with them effectively.

Includes: Experiential Learning Activity Prerequisite(s): IMD 1005 or ITEC 1005.

Lecture three hours a week, tutorial two hours a week.

ITEC 4014 [0.5 credit]

User Experience Design and Accessibility

User experience (UX) of interactive systems, including product and service design, usability and UX research. Emphasis on accessibility, with topics including creating accessible systems for users with a range of abilities, accessibility standards, and validation of designs in a practical context.

Includes: Experiential Learning Activity Prerequisite(s): IMD 3004 or MPAD 1002.

Lecture three hours a week, tutorial two hours a week.

ITEC 4015 [0.5 credit]

Designing and Producing Sound

Introduces the concepts of digital audio & music specifically how it relates to digital media (games, film, mobile, etc). Topics include, digital audio recording, multitrack production and mixing, foley effects, signal processing for effect, time & spatial variations, and studio recording.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing in any degree

program.

Lecture three hours a week.

ITEC 4016 [0.5 credit]

Virtual and Augmented Reality

Design, development, and evaluation of virtual and augmented reality systems. Topics include VR/AR history, applications, hardware (display and input devices), software, interaction techniques for navigation, selection, manipulation, human factors, and empirical validation. Projects will use modern 3D game engines and VR/AR devices.

Includes: Experiential Learning Activity Prerequisite(s): IMD 2006 or ITEC 3100.

Lecture three hours a week, tutorial two hours a week.

ITEC 4017 [0.5 credit]

Photo and Non-Photo-Realistic Rendering

This course deals with physically-based rendering methods and techniques in the global illumination field; topics include the rendering equation, ray and path tracing, radiosity rendering, photon mapping, final gather methods, materials and shaders, as well taking a look at non-photo-realistic rendering.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing in any degree

program.

Lecture three hours a week, tutorial two hours a week.

ITEC 4018 [0.5 credit]

GPU Programming and Real-Time Rendering

This course deals with the programming of the Graphics Processing Unit (GPU); topics include real-time rendering, shaders, and other advanced programming techniques that utilise single-instruction / multiple thread parallel processing units.

Includes: Experiential Learning Activity Prerequisite(s): BIT 2400 or equivalent.

Lecture three hours a week, tutorial two hours a week.

ITEC 4019 [0.5 credit]

Directing and Cinematography for Digital Storytelling

This course covers the basics of being a director in a digital storytelling environment, including the basics of direction, dealing with actors, following scripts, and dealing with elements of cinematography; including lighting, cameras, shade, and shadow.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing in any degree program.

Lecture three hours a week, tutorial two hours a week.

ITEC 4020 [0.5 credit]

Environment and Architectural Modelling

The course deals with the creation, development, and use of assets for digital environments; with specific focus on the workflows associated with scene construction and architectural modelling for a variety of real-time and nonreal-time systems.

Includes: Experiential Learning Activity

Prerequisite(s): Third-year standing in any degree

program.

Studio five hours a week.

ITEC 4021 [0.5 credit]

Empirical Research Methods in HCI

Advanced quantitative methods and conducting controlled user studies, statistically analyzing and reporting results in a research paper. Topics include history of empirical HCI, experiment design, hypothesis testing, interaction models, and scientific writing. Students complete a termlong research project.

Includes: Experiential Learning Activity

Prerequisite(s): IMD 3004 or 4th year standing in the

BMPD program.

Also offered at the graduate level, with different requirements, as ITEC 5209, for which additional credit is precluded.

Lecture three hours a week.

Integrated Science (INSC)

Integrated Science (INSC) Courses

INSC 3907 [0.5 credit]

Topics in Integrated Science

Assignment(s) reviewing current research topics. Prerequisite(s): at least 0.5 credit at the 3000-level or higher (may be taken concurrently) and permission of the Institute Director.

INSC 3909 [0.5 credit] **Independent Study**

The student, under the supervision of a faculty member. prepares a study in the focus areas of the student's program. Prior to or immediately upon registration, the student must consult with the ISI Director for topic approval and course regulations.

Includes: Experiential Learning Activity

Prerequisite(s): at least 0.5 credit at the 3000-level or higher (may be taken concurrently) and permission of the Institute Director.

INSC 4907 [1.0 credit]

Honours Essay and Research Proposal

A review of current research, and a research proposal, under the supervision of a faculty advisor. (Note: the research project is not actually carried out.) Graded on the literature review, the research proposal, and an oral defense. The student arranges for a faculty advisor. Includes: Experiential Learning Activity Precludes additional credit for INSC 4908 [1.0]. Prerequisite(s): fourth-year standing in Honours

Integrated Science and permission of the Institute.

INSC 4908 [1.0 credit] **Honours Project**

Under the supervision of a faculty adviser, the student carries out a research project in the IS areas of study. Prior to or immediately upon registration, the student must consult with the ISI Director for topic approval and course regulations.

Includes: Experiential Learning Activity Precludes additional credit for INSC 4907 [1.0]. Prerequisite(s): permission of the Institute Director.

Interdisciplinary Public Affairs (IPAF)

Interdisciplinary Public Affairs (IPAF) Courses IPAF 1001 [0.5 credit]

Investigations in Public Affairs

An introductory course emphasizing the development of writing, research, and analytical skills through the concentrated investigation of selected topics in Public Affairs. Topics will be offered by various Departments within the Faculty of Public Affairs. Topics may vary from year to year.

Prerequisite(s): permission of the Department within the Faculty of Public Affairs.

Seminar three hours per week.

IPAF 2000 [0.5 credit]

Quantitative Approaches to Policy Analysis

Related approaches to collecting, interpreting, and presenting quantitative information in the context of specific public policy issues such as immigration, globalization, discrimination, health care, and the environment. Development of fundamental logical, numerical, and statistical skills.

Prerequisite(s): Not open to students in any B.Com., B.C.S., B.Eng., B.I.B., B.I.D., B.Math., or B.Sc. program. Lectures three hours a week, tutorials one and half hours a week.

IPAF 2800 [0.5 credit]

Selected Topics in Public Affairs

Specialized topics in the area of public affairs. Topics vary from year to year and are posted at carleton.ca/fpa in advance of the registration period.

Prerequisite(s): Normally restricted to students in the second year of a B.P.A.P.M., B.G.In.S., B.Econ, B.J., B.Co.M.S., B.S.W., or B.A. program in the Faculty of Public Affairs.

Lecture three hours per week

IPAF 3800 [0.5 credit] Selected Topics in Public Affairs

Specialized topics in the area of public affairs. Topics vary from year to year and are posted at carleton.ca/fpa in advance of the registration period.

Prerequisite(s): Normally restricted to students in the third year of a B.P.A.P.M., B.G.In.S., B.Econ, B.J., B.Co.M.S., B.S.W., or B.A. program in the Faculty of Public Affairs. Lecture three hours per week.

IPAF 4800 [0.5 credit] Selected Topics in Public Affairs

Seminar on a specialized topic in the area of public affairs. Topics will vary from year to year and are posted at carleton.ca/fpa in advance of the registration period. Prerequisite(s): fourth-year Honours standing or permission of the instructor. Seminar three hours per week.

IPAF 4900 [0.5 credit] Research Experience Course

This course gives students an opportunity to participate in a research project designed by a faculty member. Students gain work experience, learn new materials, and acquire research-oriented skills. Course expectations, learning outcomes and evaluation criteria are established by the supervising faculty member.

Includes: Experiential Learning Activity

Prerequisite(s): third year honours standing, GPA of 9.5

and permission of department.

Interdisciplinary Science (ISCI)

Interdisciplinary Science (ISCI) Courses ISCI 1001 [0.5 credit]

Introduction to the Environment

The nature of the biosphere: scientific bases of important environmental issues; evolution of life; properties and dynamics of populations and ecosystems; biodiversity; introduction to identification skills: sustainability of renewable resources, including food. Not acceptable for credit in a Bachelor of Science program.

Precludes additional credit for ISCI 1000.

Prerequisite(s): a knowledge of Grade 10 advanced level Mathematics will be assumed.

Lectures/demonstrations three hours a week and project assignments.

ISCI 2000 [0.5 credit]

Natural Laws

Fundamental concepts and their environmental application for the non-science student: properties of atoms and molecules, chemical reactions, nuclear processes, mechanics, thermodynamics, electricity and magnetism; applications to energy production and consumption.

Precludes additional credit for ISCI 1002 (no longer offered). Not acceptable for credit in a Bachelor of Science

Prerequisite(s): ISCI 1001 or GEOG 1010 or permission of the Institute.

Lecture/demonstrations three hours a week, a one-hour tutorial a week, and project assignments.

ISCI 2002 [0.5 credit]

Human Impacts on the Environment

Air and water pollution; global climatic change; waste management; industrial chemicals; sources and uses of energy; nuclear energy and radiation; risk assessment of technological hazards. Acceptable only as a free elective in a Bachelor of Science program.

Prerequisite(s): ISCI 2000 or ISCI 1002 or two experimental science grade 12 U/M courses or one first year university experimental science credit.

Lectures/demonstrations three hours a week and project assignments.

Interdisciplinary Science and Practice (ISAP)

Interdisciplinary Science and Practice (ISAP) Courses

ISAP 1000 [0.5 credit] Seminar in Science

Interdisciplinary survey of current issues in science. Students will develop knowledge and skills in scientific inquiry, critical thinking, and communication. Structured around seminars, oral, and written presentations. Lectures and workshop three hours a week.

Precludes additional credit for ISAP 1001 or NSCI 1000 (no longer offered).

Lectures and workshop, three hours a week.

ISAP 1001 [0.5 credit]

Introduction to Interdisciplinary Science

Interdisciplinary survey of current issues in science, focusing on the challenges and opportunities for collaboration across scientific disciplines and beyond. Students will develop knowledge and skills in scientific inquiry, critical thinking, and communication, including an introduction to applied data science.

Precludes additional credit for ISAP 1000 and NSCI 1000 (no longer offered).

Lectures and discussion three hours per week.

ISAP 1002 [0.5 credit]

Seminar in Interdisciplinary Science

Exploring the role of interdisciplinarity in discovery and innovation, and discussion of selected issues facing society and the role of science. Topics include finding information, collaboration and science communication tools.

Seminar three hours per week.

ISAP 2000 [0.5 credit] Seminar in Science II

Survey of current issues in science, with a focus on applying interdisciplinary approaches to solving scientific problems. Structured around seminars, oral and written presentations. Focus on Equity, diversity and inclusion, community outreach, and experiential learning. Includes: Experiential Learning Activity

Precludes additional credit for NSCI 2000 (no longer

offered).

Prerequisite(s): Second year standing.

Lecture three hours a week

ISAP 2001 [0.5 credit] Foundations in Critical Inquiry

What is science and the scientific method? Topics include the scientific method, credible sources of information, knowledge gaps, the impact of scientific discoveries, and discussion of their local and global implications.

Includes: Experiential Learning Activity Prerequisite(s): Second year standing.

Lecture, three hours per week.

ISAP 2002 [0.5 credit]

Research Principles for Interdisciplinary Science

Exploring how research is conducted. Topics include publicly available databases, the role of communication in research, stakeholders and participants, and the process of identifying knowledge gaps and developing research questions.

Prerequisite(s): Second year standing. Lecture three hours per week.

ISAP 3001 [0.5 credit] Applied Data Analysis

Data analysis strategies to tackle real-world, wicked problems. Includes a hands-on applied environmental data science project with a variety of partners. Topics include: obtaining and working with data, exploring causal relationships, data ethics, communicating data, and moving from data to information to action.

Includes: Experiential Learning Activity

Also listed as ENSC 3002. Prerequisite(s): STAT 2507. Lecture, three hours per week.

ISAP 3002 [0.5 credit]

Applications in Interdisciplinary Research

Application of skills from Interdisciplinary Science and Practice (ISAP) courses to develop a research proposal. Topics include: research ethics; identification of stakeholders; inclusive consultation, collaboration and dissemination strategies.

Prerequisite(s): Third year standing. Lecture three hours per week.

ISAP 3003 [0.5 credit] Science Communication

How is science perceived and how has science been communicated? Students will use case studies to assess examples of science communication with varying outcomes. Topics include the principles of effective science communication, the range of tools available, and knowing the audience.

Includes: Experiential Learning Activity Prerequisite(s): Third year standing. Lecture three hours per week.

ISAP 3004 [0.5 credit] Science Policy

Exploration of how science-related policy is developed and the impact of policy on science. Topics include policy frameworks, stakeholder roles, power relationships, commercialization and the funding of science. Prerequisite(s): Third year standing.

Prerequisite(s): Third year standing Lecture three hours per week.

ISAP 3700 [0.5 credit]

Topics in Interdisciplinary Science

Specific topics of current interest. Topics may vary from year to year.

Includes: Experiential Learning Activity
Prerequisite(s): Second year standing in the
Interdisciplinary Science and Practice program or
permission of the Institute.

Seminar/workshop three hours per week.

ISAP 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

ISAP 4004 [0.5 credit] Museum Science

The integral role of science in museums will be explored. Topics include: science is communicated in museums, scientific research taking place at museums, and the science behind preservation and conservation. Students will engage with museum experts.

Includes: Experiential Learning Activity Prerequisite(s): Third year standing.

Field trips, lectures and seminar, three hours a week.

ISAP 4700 [0.5 credit]

Topics in Interdisciplinary Science

Specific topics of current interest. Topics may vary from year to year.

Includes: Experiential Learning Activity

Prerequisite(s): Third year standing in the Interdisciplinary Science and Practice program or permission of the

Institute.

Seminar three hours per week.

ISAP 4901 [0.5 credit]

Directed Studies

Independent or group study, open to third- and fourth-year students to explore a particular topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the Interdisciplinary Science and Practice (ISAP) program and permission of the instructor.

ISAP 4906 [1.0 credit]

Capstone Course - Group Research Project

Students will collaborate on a project that addresses a real-world issue in a team environment. Focus includes: design and completion of a research project; development of communication, critical inquiry, data analysis and research skills; and the opportunity to develop initiative, creativity and self-reliance.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4907, ISAP 4908.

Prerequisite(s): fourth-year standing in the

Interdisciplinary Science and Practice (ISAP) Honours program and permission of the Institute.

Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4907 [1.0 credit]

Capstone Course - Research Essay

A substantial, independent essay or research proposalbased critical review and research proposal, using library, database and/or bioinformatic resources, under the direct supervision of the instructor. Topics include identification and critical review of resources, development of writing skills and formulation of research question and strategy. Includes: Experiential Learning Activity Precludes additional credit for ISAP 4906, ISAP 4908.

Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program or permission of the Institute.

Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4908 [1.0 credit]

Capstone Course - Individual Research Project

An independent research project under the direct supervision of a faculty adviser. Evaluation is based on a written thesis and a poster presentation.

Includes: Experiential Learning Activity

Precludes additional credit for ISAP 4906, ISAP 4907.

Prerequisite(s): fourth-year standing in the

Interdisciplinary Science and Practice (ISAP) Honours program, a major CGPA of 9.0 or higher, and permission of the Institute.

Lectures and discussion as scheduled by the course coordinator; other hours as arranged with the faculty advisor.

ISAP 4909 [1.0 credit]

Translational Approach to Indigenous Community Wellness

This course involves co-developing an Indigenous community-led process or product that addresses a current and specific mental health issue. Involves working in interdisciplinary groups with a community partner. Includes: Experiential Learning Activity

Also listed as ENSC 4909, MPAD 4906, NEUR 4906. Precludes additional credit for ENSC 4906, ISAP 4906, ISAP 4907, ISAP 4908, NEUR 4906, NEUR 4907, NEUR 4908.

Prerequisite(s): Fourth-year standing with a minimum Major CGPA of 10.0 in the Interdisciplinary Science and Practice (ISAP) Honours program and permission of the instructor.

Seminars or workshops three hours a week. A field trip to the partner community is typically required.

ISAP 4999 [0.0 credit]

Science Communication Certificate Professional Development Workshop

A one-day workshop providing practical skills development for becoming an effective science communicator. Topics for discussion will include defining the audience and framing of information, reviews of effective science communication, career opportunities for science communicators, and one-to-one analysis of participants writing skills. Graded SAT/UNS.

Includes: Experiential Learning Activity Also listed as JOUR 4999.

Prerequisite(s): This course is restricted to students enrolled in the Certificate of Science Communication, and who have completed at least 2.0 credits towards the certificate, including one of COMS 2500 or ISAP 3003. A one-day workshop

Interdisciplinary Studies (DIST)

Directed Interdisciplinary Studies (DIST) Courses DIST 3901 [0.5 credit]

Themes in Interdisciplinary Inquiry

Examination of topics of interest to a number of disciplines, along with various methods and styles of thought used to study them. Students will synthesize the various perspectives. Open only to students in Directed Interdisciplinary Studies and Child Studies.

Prerequisite(s): third-year standing in Child Studies or Directed Interdisciplinary Studies.

Seminar three hours a week.

DIST 3902 [0.5 credit]

Selected Topics in Interdisciplinary Studies

An examination of one or more interdisciplinary topics selected by faculty to present interdisciplinary thought and research not available elsewhere in the university curriculum.

Prerequisite(s): third-year standing or permission of the Institute.

Seminar three hours a week.

DIST 4901 [0.5 credit] Directed Reading

Individual or small-group tutorial related to the theme of a Directed Interdisciplinary Studies program. Written permission from the Director of Interdisciplinary Studies is required before registering; please contact the DIS administrator.

Prerequisite(s): for Directed Interdisciplinary Studies students with fourth year Honours standing and a CGPA of 9.00 or better or permission of the Institute.

DIST 4902 [0.5 credit] Directed Reading

Individual or small-group tutorial related to the theme of a Directed Interdisciplinary Studies program. Written permission from the Director of Interdisciplinary Studies is required before registering; please contact the DIS administrator.

Prerequisite(s): for Directed Interdisciplinary Studies students with fourth year Honours standing and a CGPA of 9.00 or better or permission of the Institute.

DIST 4904 [0.5 credit]

Selected Topics in Interdisciplinary Studies

An examination of one or more interdisciplinary topics selected by faculty to present interdisciplinary thought and research not available elsewhere in the university curriculum.

Prerequisite(s): fourth-year standing or permission of the Institute.

DIST 4905 [0.5 credit]

Directed Interdisciplinary Studies Fieldwork I

Fieldwork related to the theme of a Directed Interdisciplinary Studies program. A proposal with a fieldwork research question and a supervisor must be approved prior to registration. A paper relating the fieldwork to the student's DIS program must be submitted. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Directed Interdisciplinary Studies or permission of the Institute.

DIST 4906 [0.5 credit]

Directed Interdisciplinary Studies Fieldwork II

Fieldwork related to the theme of a Directed Interdisciplinary Studies program. A proposal with a fieldwork research question and a supervisor must be approved prior to registration. A paper relating the fieldwork to the student's DIS program must be submitted. Graded as Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Directed Interdisciplinary Studies or permission of the Institute.

DIST 4907 [0.5 credit]

Honours Essay

Interdisciplinary research project designed to develop research and writing skills. Topics must be approved by the Program Coordinator also charged with marking the essay.

Includes: Experiential Learning Activity Prerequisite(s): fourth year standing.

DIST 4908 [1.0 credit] Honours Project

Interdisciplinary project for Honours Directed Interdisciplinary Studies students. In selecting a project, students must consult with the D.I.S. Program Coordinator. Students will work closely with a supervisor. Approval from the Program Coordinator to register for this course is necessary.

Includes: Experiential Learning Activity

Prerequisite(s): fourth year standing in the B.A. Honours Directed Interdisciplinary Studies program and a 9.0 CGPA or higher.

International Affairs (INAF)

International Affairs (INAF) Courses

INAF 3001 [0.5 credit]

Understanding Policy in a Global Context

Analysis of international policy processes relevant to governments, non-governmental organizations, international organizations and multinational corporations, drawing upon theories of international relations, political science, law and economics. Emphasis on analytical and normative aspects of public policy processes in international relations.

Prerequisite(s): third-year standing in the B.P.A.P.M. program and registration in the International Studies Specialization.

Lectures or seminars three hours per week.

INAF 3002 [0.5 credit] Applied Policy in a Global Context

Applications of policy analysis to specific international problems with an emphasis on institutions, multiple levels of governance, the role of non-governmental actors, and complex interconnected policy issues. Cases are drawn from international problems such as security, economics, development, the environment, migration, and health. Prerequisite(s): third-year standing in the B.P.A.P.M. program and registration in the International Studies Specialization, and successful completion of INAF 3001. Lectures or seminars three hours per week.

INAF 4101 [0.5 credit]

Topics in Conflict and Conflict Management

An interdisciplinary course examining selected issues and policies in the area of conflict and conflict management. Topics include subjects such as sources and causes of conflict, conflict mediation, and peacekeeping and peacebuilding.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the International Relations and Conflict Concentration of the International Policy Studies Specialization, or permission from Kroeger College and NPSIA.

Lecture or seminar three hours per week.

INAF 4201 [0.5 credit]

Topics in Security and Intelligence

An interdisciplinary course examining selected issues and policies in the area of security and intelligence. Topics include subjects such as intelligence oversight and privacy, comparative defence and security policy, terrorism, and counterterrorism.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the Security and Intelligence Concentration of the International Policy Studies Specialization or permission from Kroeger College and NPSIA

Lecture or seminar three hours per week.

INAF 4301 [0.5 credit]

Topics in Rights and Human Development

An interdisciplinary course examining selected issues and policies in the area of rights and human development. Topics include subjects such as food security, access to water, income distribution and inequality, health and education.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the Rights and Human Development Concentration of the Development Policy Studies Specialization, or permission from Kroeger College and NPSIA.

Lecture or seminar three hours per week.

INAF 4401 [0.5 credit]

Topics in Global Economic Relations

An interdisciplinary course examining selected issues and policies in the area of globalization and global economic relations. Topics include trade and development, multinationals and corporate social responsibility, debt and finance, intellectual property, and migration.

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program and registration in the Global Economic Relations Concentration of the Development Policy Studies Specialization, or permission from Kroeger College and

Lecture or seminar three hours per week.

NPSIA.

Italian (ITAL) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

ITAL 1010 [0.5 credit] First-Year Italian I

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for ITAL 1110. Four hours a week.

ITAL 1020 [0.5 credit]

First-Year Italian II

Continuation of first-year Italian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for ITAL 1110.

Prerequisite(s): grade of C or higher in ITAL 1010, or permission of the School.

Four hours a week.

ITAL 1110 [1.0 credit] Intensive First-Year Italian

For students with no knowledge of Italian. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for ITAL 1010 and ITAL 1020. Eight hours a week (one term).

ITAL 2010 [0.5 credit] Second-Year Italian I

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for ITAL 2110. Prerequisite(s): grade of C or higher in ITAL 1020 or ITAL 1110, or permission of the School. Four hours a week.

ITAL 2020 [0.5 credit] Second-Year Italian II

Continuation of second-year Italian. Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ITAL 2110.

Prerequisite(s): grade of C or higher in ITAL 2010, or permission of the School.

Four hours a week.

ITAL 2110 [1.0 credit]

Intensive Second-Year Italian

Further study of Italian to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for ITAL 2010 or ITAL 2020.

Prerequisite(s): grade of C or higher in ITAL 1020, ITAL 1110, or permission of the School.

Eight hours a week (one term).

ITAL 3010 [0.5 credit]

Third-Year Italian I

Further study of Italian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Includes: Experiential Learning Activity
Precludes additional credit for ITAL 3110.
Prerequisite(s): grade of C or higher in ITAL 2020,
ITAL 2110, or permission of the School.

Three hours a week

ITAL 3020 [0.5 credit] Third-Year Italian II

Continuation of third-year Italian. Further study of Italian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Includes: Experiential Learning Activity Precludes additional credit for ITAL 3110.

Prerequisite(s): grade of C or higher in ITAL 3010 or permission of the School.

Three hours a week

ITAL 3110 [1.0 credit] Intensive Third-Year Italian

Further study of Italian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for ITAL 3010 and ITAL 3020. Prerequisite(s): grade of C or higher in ITAL 2020 or ITAL 2110, or permission of the School.

Six hours a week (one term).

ITAL 4010 [0.5 credit] Fourth-Year Italian I

Advanced spoken and written Italian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity Precludes additional credit for ITAL 4110.

Prerequisite(s): grade of C or higher in ITAL 3020,

ITAL 3110 or permission from the School.

Three hours a week

ITAL 4020 [0.5 credit] Fourth-Year Italian II

Continuation of fourth-year Italian. Advanced spoken and written Italian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity Precludes additional credit for ITAL 4110.

Prerequisite(s): grade of C or higher in ITAL 4010 or

permission from the School.

Three hours a week

ITAL 4110 [1.0 credit] Intensive Fourth-Year Italian

Advanced spoken and written Italian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Precludes additional credit for ITAL 4010 and ITAL 4020. Prerequisite(s): grade of C or higher in ITAL 3110, or permission of the School.

Six hours a week (one term).

ITAL 4900 [1.0 credit] Independent Study

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity
Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

ITAL 4901 [0.5 credit] Independent Study

Research in a topic in Italian language, literature or linguistics under the supervision of a member of the School

Includes: Experiential Learning Activity
Prerequisite(s): third- or fourth-year standing in the Minor in Italian, grade of C or higher in ITAL 3110 or equivalent, or permission of the School.

Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, a grade of C or higher in JAPA 4020 or equivalent, or permission of the School.

JAPA 4901 [0.5 credit] **Independent Study**

Research in a topic in Japanese language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing and enrolment in the Minor in Japanese, a grade of C or higher in JAPA 4020 or equivalent, or permission of the School.

Journalism (JOUR)

Journalism (JOUR) Courses

JOUR 1001 [0.5 credit]

Foundations: Journalism in Context

Charting evolution of journalism in the West from roots as community creator to guardian of democracy, including greatest scoops and worst misdeeds. From ancient newssharing to 21st Century digital journalism, surveying ethical, political, economic and technological contexts that shaped news media as institutions/industries.

Includes: Experiential Learning Activity Precludes additional credit for JOUR 1102.

Prerequisite(s): Open to all programs, with priority to BJ students.

Lectures and discussion three hours a week.

JOUR 1002 [0.5 credit]

Foundations: Practicing Journalism in a Diverse Society

Introduces students to concepts, issues and challenges in the contemporary Canadian media environment that shapes their professional role as practicing journalists. Also provides students with initial opportunity to practice basic writing, editing and reporting skills in preparation for professional online journalism, media or fact-driven fields. Includes: Experiential Learning Activity

Precludes additional credit for JOUR 1103.

Prerequisite(s): Registration in the BJ or BJHUM program or the minor in News Media and Information.

Lectures and discussion three hours a week.

JOUR 1004 [0.5 credit]

Special Topic

Examination of a topic in journalism not covered in depth in other courses.

Lecture two hours a week, discussion one hour a week.

JOUR 1101 [0.5 credit] Indigenous Storytelling

Storytelling is a traditional method used in Indigenous cultures that teaches cultural beliefs, values, customs, history, and ways of life. In this course, storytelling will be the foundation for experiential/holistic learning and relationship-building. You'll examine how Indigenous storytelling traditions intersect and contrast with Western iournalism.

Prerequisite(s): Enrolment in Journalism in Indigenous Communities Certificate program.

Combination of in-person intensives and online classes.

JOUR 1102 [0.5 credit] Foundations of Journalism

This course introduces you to the context, concepts, issues and challenges in contemporary Canadian media that will shape your professional role as practicing journalist. You'll examine the state of the media, advocacy, social media and ethics, plus discuss Indigenous representation in the mainstream media.

Precludes additional credit for JOUR 1001.

Prerequisite(s): Enrolment in Certificate in Journalism in Indigenous Communities program.

Online, biweekly classes, 6 hours per week.

JOUR 1103 [0.5 credit]

Fundamentals of Journalism

Learn how to think and work like a journalist in this course. You'll receive detailed feedback, mentoring from experienced journalist-instructors and teaching assistants. You'll build skills in interviewing, writing, storytelling, editing and ethics while covering wide scope of topics in your Indigenous community.

Precludes additional credit for JOUR 1002.

Prerequisite(s): Enrolment in Certificate in Journalism in Indigenous Communities program.

Online, biweekly classes, 6 hours per week.

JOUR 1104 [0.5 credit]

Introduction to Audio Journalism

Radio is a popular media format in Indigenous communities. In this intensive workshop course, you will learn to pitch stories, report from the field, write conversationally, record voice and natural sound, edit audio files and produce compelling audio reports, radio newscasts and podcasts.

Includes: Experiential Learning Activity

Prerequisite(s): Enrolment in Journalism in Indigenous Communities Certificate program and JOUR 1102 and

JOUR 1103.

In-person intensive, 3 hours per week.

JOUR 1105 [0.5 credit] Digital and Photojournalism

Further development of your digital journalism skills. Students will receive instruction in online reporting and publishing, as well as learn the fundamentals of news storytelling through smartphone photography, including how to find visually newsworthy stories, and the ethics of photojournalism in Indigenous settings.

Includes: Experiential Learning Activity

Prerequisite(s): Enrolment in Journalism in Indigenous Communities Certificate program and JOUR 1102 and JOUR 1103.

Online, biweekly classes, 6 hours per week.

JOUR 1106 [0.5 credit]

Entrepreneurial Journalism

Beginning with freelancer's toolkit, you'll learn to compete in a workforce that increasingly values an entrepreneurial mindset. You'll be trained to find and sell real stories and grow your brand. You'll explore innovative ways to reach audiences, fund your career as media professional. Prerequisite(s): Enrolment in Journalism in Indigenous Communities Certificate program and JOUR 1102 and JOUR 1103.

Online, biweekly classes, 6 hours per week.

JOUR 1107 [1.0 credit] Internships

During a two-week internship in a news or media organization, you'll have an opportunity to apply what you learned in the classroom to actual day-to-day work of reporting, writing, and producing news for an audience. Evaluations and student reflections round out the internship experience.

Includes: Experiential Learning Activity Prerequisite(s): Enrolment in Journalism in Indigenous Communities Certificate program and JOUR 1102 and JOUR 1103.

In-person intensive

JOUR 1108 [0.5 credit]

Introduction to Video Journalism

Pictures are powerful, and this is where you'll learn how to handle them. As you master visual literacy skills, you'll report, shoot and edit video stories. You'll work "live" in studio and from field, producing range of material using smartphones and DSLR cameras.

Includes: Experiential Learning Activity

Prerequisite(s): Enrolment in Journalism in Indigenous Communities Certificate program and JOUR 1102 and JOUR 1103.

In-person intensive.

JOUR 2003 [0.5 credit]

Delivering Journalism: Innovators v. Imposters

Activists, imposters and innovators increasingly crowd in on traditional journalism's role of presenting reliable news and fair discussion. How is public awareness now shaped – and misshaped – and how must journalism reshape, update and defend its borders to serve communities better?

Prerequisite(s): JOUR 1001, JOUR 1002, or permission of the School of Journalism and Communication.

Lecture and discussion three hours a week.

JOUR 2106 [0.5 credit]

The Documentary

Examination of the work of individual film makers, of documentary styles and of organizations and institutions in the context of the history of documentary film making, including documentaries made for television. Non-fiction films other than documentaries may be considered. Also listed as FILM 2106.

Precludes additional credit for JOUR 2105, FILM 2105. Prerequisite(s): FILM 1101 or FILM 1120, or second-year standing, or permission of the Discipline.

Lecture and screening three hours a week, lecture one hour a week.

JOUR 2201 [1.0 credit] Fundamentals of Reporting

Intro to techniques journalists use gathering information quickly, accurately and ethically, to present reports and features in clear, engaging ways. Newsroom exercises provide experience in reporting, writing, editing, using digital tools, including audio editing software, spreadsheets, digital cameras, social media and emerging web-based digital tools.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the Bachelor of Journalism program. Lectures, discussion and practicum six hours a week.

JOUR 2203 [0.5 credit]

Civics for Journalists

This course offers an overview of key public institutions and civil society organizations in Canada to prepare aspiring journalists to effectively and critically engage with these actors in generating important and illuminating coverage of public affairs.

Also listed as MPAD 3002.

Prerequisite(s): JOUR 1001 and JOUR 1002 and second year standing in the BJ program or BJHUM program or the minor in News Media and Information.

Lectures and discussion three hours a week.

JOUR 2501 [0.5 credit] Media Law

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, MPAD 2501.

Precludes additional credit for COMM 2501 (no longer offered).

Prerequisite(s): JOUR 1001, JOUR 1002, COMS 1001, COMS 1002, or enrollment in the Minor in News Media and Information, or enrollment in the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management, or permission of the School of Journalism and Communication.

Lectures and discussion three hours a week.

JOUR 3105 [0.5 credit]

Questions of Documentary Practice

Theoretical implications of documentary film and documentary television practice.

Also listed as FILM 3105.

Prerequisite(s): 1.0 credit in Film Studies at the 2000-level, or permission of the School.

JOUR 3207 [0.5 credit] Audio Journalism

In this workshop students will build on the principles and practices of audio journalism to produce stories and audio in various formats suitable for radio and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity
Prerequisite(s): JOUR 2201, JOUR 2202, and
JOUR 2501 with a grade of C or higher in each.

Lectures and labs six hours a week.

JOUR 3208 [0.5 credit]

Video Journalism

In this workshop students will build on the principles and practices of video journalism to produce stories and video in various formats suitable for television and digital publication. Note: JOUR 3207 and JOUR 3208 may not be taken in the same term.

Includes: Experiential Learning Activity
Prerequisite(s): JOUR 2201, JOUR 2202, and
JOUR 2501 with a grade of C or higher in each.
Lectures and labs six hours a week.

JOUR 3225 [0.5 credit] Reporting in Depth

Long-form journalistic writing skills development; techniques for thorough investigation of timely public issues. Study of outstanding feature and investigative writing examples. Students will pursue their own reporting projects.

Includes: Experiential Learning Activity
Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each. Lectures and practicum three hours a week.

JOUR 3235 [0.5 credit] Digital Journalism

Further development of digital journalism skills. Students will produce journalism for online audiences using formats including written and spoken language, still and moving images.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 3205 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202, and JOUR 2501 with a grade of C or higher in each. Lectures and labs three hours a week.

JOUR 3300 [0.5 credit] Media Ethics in a Digital World

Ethical issues related to production and dissemination of news and other forms of content as they relate to digital environments. Different approaches to ethical decision-making and their application in contemporary settings. Also listed as MPAD 3300.

Precludes additional credit for JOUR 3215 (no longer offered).

Prerequisite(s): JOUR 2201, JOUR 2202 and JOUR 2501 with a grade of C or higher in each, or JOUR 2003 and JOUR 2501 with a grade of C or higher in each and enrollment in the Minor in News Media and Information. Lectures three hours a week.

JOUR 3400 [0.5 credit]

Selected Topic in Journalism

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism or permission of the School of Journalism and Communication.

Seminar three hours a week.

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3402 [0.5 credit]

Selected Topic in Journalism

Examination of a topic in journalism not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

Seminar three hours a week.

JOUR 3407 [0.5 credit] Comparative Media Studies

The comparative study of one or more media organizations and/or types of media content with reference to their operation, audiences, and impacts.

Also listed as COMS 3407.

Precludes additional credit for COMM 3407 (no longer offered).

Prerequisite(s): third-year standing in B.J. Hons. or permission of the School of Journalism and Communication.

JOUR 4001 [0.5 credit]

Journalism Now - and Next

Changes occurring in the media, in the public's relationship with the media and how journalists and news organizations respond. Practical issues and challenges in the professional life of a journalist.

Also listed as MPAD 4001.

Precludes additional credit for JOUR 4000 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Journalism or in the Bachelor of Media Production and Design, or fourth-year standing and enrollment in the Minor in News Media and Information, or fourth-year standing in the Strategic Public Opinion stream of the Communication and Policy Studies specialization of the Bachelor of Public Affairs and Policy Management. Lectures and discussion three hours a week.

JOUR 4003 [0.5 credit]

The Digital Hub: Advanced Multimedia

A workshop designed to give students instruction in digital reporting and publishing as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3235 with a grade of C or higher

and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5003, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4004 [0.5 credit]

The Digital Hub: Advanced Audio

A workshop designed to give students instruction in audio journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity
Precludes additional credit for JOUR 4206 (no longer offered)

Prerequisite(s): JOUR 3207 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5004, for which additional credit is precluded.

Workshops averaging eight hours per week.

JOUR 4005 [0.5 credit]

The Digital Hub: Advanced Video

A workshop designed to give students instruction in video journalism as they produce stories from across the city and beyond.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4207 (no longer offered).

Prerequisite(s): JOUR 3208 with a grade of C or higher and fourth-year standing in B.J. Hons.

Also offered at the graduate level, with different requirements, as JOUR 5005, for which additional credit is precluded.

Workshops averaging eight hours a week.

JOUR 4100 [0.5 credit]

Special Topic

Examination of a topic in journalism not covered in depth in other courses. Seminar three hours a week. Seminar three hours a week.

JOUR 4101 [0.5 credit] Special Topic

An examination of a topic in journalism not covered in depth in other courses. Topics may vary from year to year. Seminar three hours a week.

JOUR 4300 [0.5 credit]

Specialized Journalism: Special Topic

Examination of a topic not covered in depth in other specialized journalism courses. Topics may vary from year to year. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism.

Also listed as MPAD 4300.

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5300, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4301 [0.5 credit]

Specialized Journalism: Business and the Markets

Core skills development for business journalism: reading financial documents, covering activities of corporations, functioning of stock and other markets, trade policy and the broader economy, focus on contemporary business news and local publicly-traded companies. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5301, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4302 [0.5 credit]

Specialized Journalism: Business and Canadian Society

The intersection between business and public policy, from climate change to taxation, pensions, labour and corporate social responsibility. What business does and how the media covers it. Emphasis on explanatory/ analytical reporting, production of a related data project as an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5302, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4303 [0.5 credit]

Specialized Journalism: Health and Science

The culture of health science research and major trends; key challenges confronting researchers and health science journalists around the world. Emphasis on explanatory/analytical reporting, production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5303, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4304 [0.5 credit]

Specialized Journalism: Environment and Science

Major trends and research culture in climate and environmental sciences, focusing on key global concerns. Issues facing researchers and journalists. Focus on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School

Also offered at the graduate level, with different requirements, as JOUR 5304, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4305 [0.5 credit]

Specialized Journalism: Canada and the U.S.

Exploration of the unique issues in Canada-U.S. relations, from diplomacy to trade. Emphasis on explanatory/ analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5315, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4306 [0.5 credit]

Specialized Journalism: Canada and the World

Diplomacy, war, terrorism, migration, the international economy, development and other issues of interest to journalists who want to write about Canada and international affairs. Emphasis on explanatory/analytical reporting; production of an extended work of journalism. Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Hons. or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5306, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4308 [0.5 credit]

Specialized Journalism: Sports and Sport Culture

Workshop equipping students with the skills to move beyond the clichés of sports writing and live event coverage. Emphasis on explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5308, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4309 [0.5 credit]

Specialized Journalism: Arts and Culture

Students are introduced to arts and culture journalism, exploring issues and trends that are key to understanding and covering the arts and related cultural policy in Canada. Emphasis on explanatory/analytical reporting, culminating in an extended work of journalism. Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5309, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4311 [0.5 credit]

Specialized Journalism: Justice and The Supreme Court

Examination of the Supreme Court of Canada, and the role of journalists in covering it. Students attend hearings and gain insight into the court's role in the making and shaping of Canada. Emphasis on explanatory/analytical reporting; production of an extended work of journalism. Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing in B.J. Honours or permission of the School.

Also offered at the graduate level, with different requirements, as JOUR 5311, for which additional credit is precluded.

Lectures, discussion and seminars three hours a week.

JOUR 4313 [0.5 credit]

Specialized Journalism: Reporting in Indigenous Communities

Working in teams to produce multimedia news stories from Indigenous communities in the city of Ottawa and Ottawa Valley region, students will be challenged to confront misrepresentation in the news media and learn to consider new strategies and ethical frameworks for covering Indigenous Peoples.

Includes: Experiential Learning Activity
Also offered at the graduate level, with different
requirements, as JOUR 5313, for which additional credit is
precluded.

3 hours per week

JOUR 4314 [0.5 credit]

Specialized Journalism: Parliament, Policy and the Press

This seminar course is designed to make students familiar with the way government works; how political parties function within the overall political system; how policies are formulated and implemented; and most importantly, how to report on all of these processes, institutions and events. Prerequisite(s): Third or Fourth year B.J. Honours standing, or permission of the School. Also offered at the graduate level, with different requirements, as JOUR 5314.. for which additional credit

is precluded.
3 hours per week.

JOUR 4400 [0.5 credit]

Professional Skills: Special Topic

Examination of a topic in journalism not covered in depth in other courses.

Includes: Experiential Learning Activity

Prerequisite(s): third- or fourth-year standing in B.J.

Honours or permission of the School.

Seminar three hours a week.

JOUR 4401 [0.5 credit]

Professional Skills: Data Storytelling

Instruction in telling stories from data. Focus on searching for, analyzing and mapping data, turning numbers into powerful narratives.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4402 [0.5 credit]

Professional Skills: Longform Writing

Instruction in longform story production. Focus on researching and writing, including the art and craft of writing for magazines.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4208 (no longer

offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4403 [0.5 credit]

Professional Skills: Strategic Communication

Workshop pairing student teams with non-profit groups that are in need of strategic communication advice. Instruction in planning and implementation.

Includes: Experiential Learning Activity

Also listed as MPAD 4403.

Precludes additional credit for JOUR 4208 (no longer

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year standing.

Also offered at the graduate level, with different requirements, as JOUR 5508, for which additional credit is precluded.

Lecture and practicum three hours a week.

JOUR 4404 [0.5 credit]

Professional Skills: Freelancing for Media Professionals

Workshop preparing students to compete in a market that values the skills and mindset of entrepreneurial media workers.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher

and fourth-year standing.

Lecture and practicum three hours a week.

JOUR 4500 [0.5 credit]

Investigating Journalism: Special Topic

Examination of a topic in journalism not covered in depth in other courses.

Also listed as MPAD 4500.

 $\label{pre-equisite} Pre-equisite(s): third- or fourth-year standing in B.J.$

Honours or permission of the School.

Seminar three hours a week.

JOUR 4501 [0.5 credit]

Investigating Journalism: Gender, Identity and Inequality

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis. Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations. Includes: Experiential Learning Activity

Also listed as MPAD 4501.

Precludes additional credit for JOUR 4307 (no longer

offered).

Prerequisite(s): third- or fourth-year standing in B.J. Hons. or permission of the School.

Seminar three hours a week.

JOUR 4502 [0.5 credit]

Investigating Journalism: Journalism and Conflict

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as MPAD 4502.

permission of the School. Seminar three hours a week.

JOUR 4504 [0.5 credit]

Investigating Journalism: The Media and International Development

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda?. Includes: Experiential Learning Activity

includes. Experiential Learning Activi

Also listed as MPAD 4504.

Prerequisite(s): third-year standing in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information, or permission of the School of Journalism and Communication.

JOUR 4505 [1.0 credit]

Investigating Journalism: The Power and Politics of Government

In-depth exploration of Canada's government, public policy and politics; parliamentary debate and committee hearings. Explanatory/analytical reporting; production of an extended work of journalism.

Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4201 (no longer

offered).

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4506 [0.5 credit]

Investigating Journalism: Trauma-Informed **Journalism**

Journalists often swoop in at the most difficult moments of a person's life- aftermath of violent incident/catastrophe, tragic death of loved one, or culmination of painful criminal trial. Students will be prepared for ethical, practical and emotional challenges of reporting accurately, sensitively to traumatic events.

Includes: Experiential Learning Activity

3 hours per week

JOUR 4507 [0.5 credit]

Investigating Journalism: History of Black Journalism

Charts the development of Canada's Black press from its beginnings in the 1850s to present day. The course explores the role Canada's Black press has played in Black communities and considers how Black media outlets have covered the most significant stories of the day. Prerequisite(s): Third or Fourth-year B.J. Honours standing, or permission of the school. 3 hours per week.

JOUR 4508 [0.5 credit]

Investigating Journalism: Inclusive Reporting in **Practice**

Students will learn strategies for inclusive journalism through practical application, focusing on diversity, inclusion, and belonging in Canadian media. Learn to identify biases, self-reflection, and apply inclusive reporting techniques. Write stories that foster belonging, reflect diverse voices, and report with respect, care and cultural awareness.

Includes: Experiential Learning Activity

Prerequisite(s): JOUR 3225 with a grade of C or higher and fourth-year B.J. Honours standing, or permission of the School.

Seminar three hours a week.

JOUR 4900 [1.0 credit]

Honours Tutorial

Students analyze some major achievements in contemporary journalism, through individual or group research. Students also have the opportunity to acquire background and experience in the managerial aspects and production of print and broadcast journalism. Prerequisite(s): fourth-year B.J. (Honours) standing.

JOUR 4999 [0.0 credit]

Science Communication Certificate Professional Development Workshop

A one-day workshop providing practical skills development for becoming an effective science communicator. Topics for discussion will include defining the audience and framing of information, reviews of effective science communication, career opportunities for science communicators, and one-to-one analysis of participants writing skills. Graded SAT/UNS.

Also listed as ISAP 4999.

Prerequisite(s): This course is restricted to students enrolled in the Certificate of Science Communication, and who have completed at least 2.0 credits towards the certificate, including one of COMS 2500 or ISAP 3003. A one-day workshop

Korean (KORE)

Korean (KORE) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

KORE 1010 [0.5 credit] First-Year Korean I

For students with no knowledge of Korean. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for LANG 1010, when the language of instruction was Korean. Four hours a week.

KORE 1020 [0.5 credit]

First-Year Korean II

Continuation of first-year Korean. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for LANG 1020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1010, or in LANG 1010 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2010 [0.5 credit] Second-Year Korean I

Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for LANG 2010, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 1020, or in LANG 1020 (when the language of instruction was Korean), or permission of the School.

Four hours a week.

KORE 2020 [0.5 credit] Second-Year Korean II

Continuation of second-year Korean. Further study of Korean to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2020, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 2010, or in LANG 2010 (when the language of instruction was Korean in Fall 2016), or permission of the School.

Four hours a week.

KORE 3010 [0.5 credit] Third-Year Korean I

Continuation of the study of Korean to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009 (when the language of instruction was Korean).

Prerequisite(s): grade of C or higher in KORE 2020 or LANG 2020 (if taken in winter 2017), or permission of the School.

Seminar three hours a week.

KORE 3020 [0.5 credit] Third-Year Korean II

Continuation of third-year Korean. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for LING 3009, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 3010 or LING 3009 (if taken in Fall 2018), or permission of the School.

Seminar three hours a week.

KORE 4010 [0.5 credit] Fourth-Year Korean I

Development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and

in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for LING 3009, when the language of instruction was Korean.

Prerequisite(s): grade of C or higher in KORE 3020 or LING 3009 (if taken in Winter 2019), or permission of the School.

Seminar three hours a week.

KORE 4020 [0.5 credit] Fourth-Year Korean II

Continuation of Fourth-Year Korean. Further development of speaking and writing abilities more complex than those used in daily communication. Development of language use for specific purposes and in specific contexts such as the academic, business and technical domains. Compulsory attendance.

Prerequisite(s): grade of C or higher in KORE 4010, or permission of the School.

Seminar three hours a week.

Language Studies (LANG)

Language Studies (LANG) Courses Placement for Language Students

Note: a placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

LANG 1010 [0.5 credit]

Introduction to a Language I

Introductory study of a selected language. Oral skills; basic reading and writing skills. The language taught will vary from year to year. Compulsory attendance.

Precludes additional credit for LANG 1110 (when offered in the same language).

Seminars four hours a week.

LANG 1020 [0.5 credit]

Introduction to a Language II

Continuation of LANG 1010. Oral skills; basic reading and writing skills. Compulsory attendance.

Precludes additional credit for LANG 1110 (when offered in the same language).

Prerequisite(s): grade of C or higher in LANG 1010, or permission of the School.

Seminars four hours a week.

LANG 1110 [1.0 credit]

Intensive Introduction to a Language

Introductory study of a selected language. Oral skills; basic reading and writing skills. The language taught will vary from year to year. Compulsory attendance. Precludes additional credit for LANG 1010 and LANG 1020, when taken in the same language. Seminar eight hours a week (one term).

LANG 2010 [0.5 credit] Second-Year Language I

Further study of a selected language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2110, LANG 2900, when taken in the same language.

Prerequisite(s): grade of C or higher in LANG 1020 or LANG 1110, or permission of the School.

Four hours a week.

LANG 2020 [0.5 credit] Second-Year Language II

Continuation of second-year of a selected language. Further study of this language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for LANG 2900, LANG 2110 (when offered in the same language).

Prerequisite(s): grade of C or higher in LANG 2010 or permission of the School.

Four hours a week.

LANG 2110 [1.0 credit]

Continuing Intensive Study of a Language

Further study of a selected language to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. The language taught will vary from year to year. Compulsory attendance.

Precludes additional credit for LANG 2900, LANG 2010 and LANG 2020 (when offered in the same language). Prerequisite(s): grade of C or higher in LANG 1020 or LANG 1110, or permission of the School.

Seminars eight hours a week (one term).

LANG 2900 [1.0 credit]

Supervised Autonomous Language Learning

Supervised autonomous language learning in a language for which second-year instruction is not available. Guidance in compiling a language portfolio (oral and written skills) to document competence equivalent to completion of the 2020 level. Setting learning objectives, selecting materials, developing methods, strategies and learning tools.

Precludes additional credit for LANG 2010, LANG 2020, LANG 2110 (when offered in the same language). Prerequisite(s): grade of C or higher in LANG 1020 or LANG 1110, and permission of the School.

Latin (LATN)

Latin (LATN) Courses

LATN 1005 [0.5 credit]

Introduction to Latin I

A course for beginners in Latin, designed to give students a grasp of basic grammatical forms and vocabulary (with reference to English derivatives) through the reading of continuous Latin.

Includes: Experiential Learning Activity
Lectures and practice periods four hours a week.

LATN 1006 [0.5 credit] Introduction to Latin II

A course for students with some previous knowledge of the language: study of grammatical forms and constructions; acquisition of reading skills.
Includes: Experiential Learning Activity
Prerequisite(s): LATN 1005 or equivalent.

Lectures and practice periods four hours a week.

LATN 2200 [0.5 credit] Intermediate Latin I

Further study of the language; introduction to the reading of Latin authors.

Includes: Experiential Learning Activity
Precludes additional credit for LATN 2001.
Prerequisite(s): LATN 1006 or equivalent.

Tutorials three hours a week.

LATN 2201 [0.5 credit]

Intermediate Latin II

Continued study of the language; reading of selected prose and poetry by Latin authors; development of translation skills.

Precludes additional credit for LATN 2001. Prerequisite(s): LATN 2200 or equivalent.

Tutorials three hours a week.

LATN 3900 [0.5 credit] Advanced Latin I

Reading and critical discussion of selections from Latin poetry.

Prerequisite(s): LATN 2200, LATN 2201 or equivalent. Tutorials three hours a week.

LATN 3901 [0.5 credit] **Advanced Latin II**

Reading and critical discussion of selections from Latin prose.

Prerequisite(s): LATN 2200, LATN 2201 or equivalent. Tutorials three hours a week.

LATN 4900 [0.5 credit] **Directed Study**

LATN 4901 [0.5 credit] **Directed Study**

Latin American and Caribbean Studies (LACS)

Latin American and Caribbean Studies (LACS) Courses

Introduction to legal rules and theoretical approaches for critically understanding the creation, interpretation and enforcement of those rules; the role of judges, juries, lawyers, and lay persons; adjudication and alternative dispute resolution; relationship of law with social change and justice; challenges of access to justice. Lectures and discussion three hours a week.

LAWS 2105 [0.5 credit]

Social Justice and Human Rights

Theories and practices of law and social justice. Issues examined may include: civil democracy and repression; global governance and the rule of law; democratic movements and social power; human rights instruments, regimes and remedies; armed conflict; and humanitarian intervention.

Prerequisite(s): 1.0 credit from LAWS 1001 and LAWS 1002, or HRSJ 1101 and HRSJ 1102, or PAPM 1001 and PSCI 2003.
Lectures three hours a week.

LAWS 2201 [0.5 credit] Persons and Property

Origins and scope of the concept of person in law and how concepts of legal personality change over time. Origins and scope of the concept of property and how concepts of property change over time. Prerequisite(s): LAWS 1001 and LAWS 1002. Lectures three hours a week.

LAWS 2202 [0.5 credit]

Obligations

The concepts employed by the law for creating and enforcing legal obligations between persons within society, including contract, tort, fiduciary obligation and restitution. Consideration is given to the role of persons and the role of the state in ordering private legal obligations. Prerequisite(s): LAWS 1001 and LAWS 1002. Lectures three hours a week.

LAWS 2301 [0.5 credit] Criminal Justice System

The institutional and social production of criminal law in Canada. Processes, personnel, and agencies. The role of discretion. The accused and the place of the victim. Issues in sentencing and punishment. Particular attention to racialization, Indigenous experiences, and discrimination in the operations of criminal law.

Prerequisite(s): LAWS 1001 and LAWS 1002. Lectures three hours a week.

LAWS 2302 [0.5 credit] Criminal Law

The legal and social dimensions of criminal liability and responsibility in Canada, including issues and problems surrounding mens rea, actus reus, and the attachment of liability. Excuses and justifications, the Canadian Criminal Code and the role of the Charter in the criminal legal system.

Prerequisite(s): LAWS 1001 and LAWS 1002. Lectures three hours a week.

LAWS 2501 [0.5 credit] Law, State and Constitution

Law relating to the state, society and the constitution, with a focus on the historical framework, federalism, and constitutional reform in Canada.

Prerequisite(s): 1.0 credit from LAWS 1001 and

Prerequisite(s): 1.0 credit from LAWS 1001 and LAWS 1002 or PAPM 1001 and PSCI 2003. Lectures three hours a week.

LAWS 2502 [0.5 credit] Law, State and Citizen

Law relating to the state and its relationship to individuals and groups in society, with a focus on the administrative process, basic values and the Charter.

Prerequisite(s): 1.0 credit from LAWS 1001 and LAWS 1002 or PAPM 1001 and PSCI 2003.

Lectures three hours a week.

LAWS 2601 [0.5 credit] Public International Law

Examination of the role of law in contemporary international relations. Nature, history and sources of international law; international personality of states; status of international organizations and individuals; creation and effect of international obligations; importance and functions of law in the settlement of international disputes. Prerequisite(s): 1.0 credit from LAWS 1001 and LAWS 1002 or PAPM 1001 and PSCI 2003. Lectures three hours a week.

LAWS 2908 [0.5 credit]

Methodological Approaches in Legal Studies 1

Introduction to the legal research process and analysis of legal methodology; finding and analyzing primary and secondary legal sources. Students are strongly encouraged to take this course in the second year of their program.

Includes: Experiential Learning Activity
Prerequisite(s): LAWS 1001 and LAWS 1002.
Lectures and tutorials three hours a week.

LAWS 3001 [0.5 credit] Women and the Legal Process

Lectures three hours a week.

How the legal process has affected the status of women. Areas of concentration within the Canadian context include the criminal law, citizenship and immigration, education, employment, and welfare and social services. Prerequisite(s): 1.0 credit in LAWS at the 2000 level.

LAWS 3003 [0.5 credit]

Contracts

The enforcement of promises and agreements; basic doctrines and underlying principles of the law of contract are studied from formation of the contract to remedies for breach of contract; role of contract for economic and social purposes is also considered.

Prerequisite(s): LAWS 2202 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3005 [0.5 credit] Law and Regulation

Definitions and goals of regulation; contemporary theories and debates about legal and non-legal approaches to regulation. Approaches studied may include market mechanisms, public agency regulation, self-regulation and governance in co-operation with associations in civil society.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.

Lectures three hours a week.

LAWS 3006 [0.5 credit] Alternative Dispute Resolution

Introduction to theories and practices of alternative dispute resolution, including, negotiation, mediation, arbitration, and restorative justice; contrasts with formal litigation; issues of social and legal control; critiques grounded in critical theories; application to contemporary issues and disputes.

Prerequisite(s): (LAWS 1001 and LAWS 1002) and (1.0 credit in LAWS at the 2000 level or 0.5 credit in LAWS at the 2000 level and BUSI 2601).

Lectures three hours a week.

LAWS 3101 [0.5 credit]

Philosophy of Law: The Nature of Law

The concept of law, leading theories of law and related concepts such as rules and obligations, power and authority, coercion, and justice.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3103 [0.5 credit]

Law, Culture, and the Humanities: A Foundation

Themes, approaches and debates in the field of law, culture and the humanities. Primary materials considered may include theoretical writings/cultural criticism/literary texts/films/video/photography and music. These texts present different modes and means of inquiring into the assumptions and aspirations that we ascribe to law. Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3104 [0.5 credit]

Critical Theory for Legal Studies: An Introduction

Introduction to the general contours of critical theory as it pertains to law and legal studies. The course will introduce key concepts and controversies in the field, identify specific theoretical debates, and consider what conceptual consequences follow from the elaboration of specific positions or arguments.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3201 [0.5 credit] Business Enterprise Frameworks

Forms of carrying on business activity: proprietorships, partnerships, corporations and Crown entities. The rights and obligations of such business enterprises both internally and in relation with other persons. The relationship between legal form and economic function. The role of state intervention.

Prerequisite(s): LAWS 2201 and LAWS 2202. Lectures three hours a week.

LAWS 3202 [0.5 credit] Intellectual Property

Critical assessment of copyright, patents, trademarks, trade secrets and other forms of intellectual property; regulation and governance of information technology including self-regulation, standard setting, licensing, competition policy and international dimensions.

Prerequisite(s): 1.0 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502.

Lectures three hours a week.

LAWS 3205 [0.5 credit]

Consumer Law

Need for consumer protection in the provision of goods and services; traditional legal protection by statute and common law; legislative responses to consumer pressures; judicial response in recent Canadian, English and American law; reform of consumer law.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3206 [0.5 credit] Banking Law

The law relating to banks and banking; the nature of the legal relationship created; legal rights and duties of the parties involved. Consumer and corporate aspects of banking (including computerization and electronic funds transfers); regulations of banking.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

LAWS 3207 [0.5 credit] International Transactions

Topics may include: the international sale of goods, finance of transnational transactions, international carriage of goods, insurance, agency and trading houses; other forms of trade, e.g., counter-trade, foreign investment; settlement of international disputes by litigation and arbitration.

Prerequisite(s): (LAWS 2202 or BUSI 2601) and 0.5 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3208 [0.5 credit] International Trade Regulation

International regulation of trade and investment through bilateral, regional and multilateral treaties and agreements. Topics may include: WTO, NAFTA, the EU, UNCTAD, intergovernmental commodity agreements, dispute settlement.

Prerequisite(s): (0.5 credit from LAWS 2202, LAWS 2501, LAWS 2601, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3305 [0.5 credit] Crime and State in History

The history of the relationship between the criminal law system and society. Changing issues in the criminal law and the nature of institutional responses, covering medieval to early nineteenth-century England and nineteenth to early twentieth-century Canada. Also listed as HIST 3305.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level, or 0.5 credit in LAWS at the 2000 level and 0.5 credit in HIST at the 2000 level.

Lectures three hours a week.

LAWS 3306 [0.5 credit]

Crime, Law, Process and Politics

Criminal law process in Canada; structure and use of the process examined for fairness, defects, and possible reform initiatives. Issues concerning Indigeneity, gender, race and class bias in the implementation and application of the criminal law.

Prerequisite(s): LAWS 2301 and LAWS 2302. Lectures three hours a week.

LAWS 3307 [0.5 credit] Youth and Criminal Law

A review of the Youth Criminal Justice Act within the framework of the Canadian justice system, with particular emphasis on historical and philosophical developments and objectives. Current topics include: constitutional issues, procedure, confessions, transfers, sentencing options, alternative measures, reviews, and possible amendments.

Prerequisite(s): LAWS 2301 and LAWS 2302. Lectures three hours a week.

LAWS 3308 [0.5 credit] Punishment and the Law

This course explores justifications and practices of punishment and social control from a socio-legal perspective. Rationalizations and justifications for punishment are considered. Different forms of punishment and control within the law will be examined as well as different theoretical perspectives of punishment. Prerequisite(s): LAWS 2301 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3309 [0.5 credit] Public and Private Policing

An examination of the foundations, politics, deployments and legal context of public and private policing. Theoretical and strategic themes related to corporate and state surveillance and security provision are analyzed in the context of class, race, and gender in contemporary and historical context.

Prerequisite(s): LAWS 2301 and LAWS 2302. Lectures three hours a week.

LAWS 3310 [0.5 credit] Race and Law

This course explores theorizations and intersections of race and law in legal studies. Particular attention to case studies, institutional, structural, and systemic racism, the currency of "race" in legal categories and in the work of legal actors in multiple areas of law.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3401 [0.5 credit] Employment Law

Legal regulation of the employment relationship; its contractual basis; defining employment; rights and duties of employees and employers; termination of employment; statutory regulation through employment standards legislation, human rights codes, workers' compensation acts, occupational health and safety and related statutes. Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

LAWS 3405 [0.5 credit]

Labour Law

Role of law in industrial relations; effect of law on collective bargaining relationships; recognition of bargaining agent; regulation of bargaining; administration of the collective agreement; methods of conflict resolution. Prerequisite(s): (0.5 credit from LAWS 2201, LAWS 2202, LAWS 2501, LAWS 2502, BUSI 2601) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3500 [0.5 credit] Constitutional Law

An investigation of the Canadian constitution. Sovereignty, the nature and units of executive, legislative, and judicial power in Canada as interpreted by the courts. The distribution of powers under the Canadian constitution, including an investigation of contemporary problems of federalism. Problems of judicial review. Prerequisite(s): (LAWS 2501 or PSCI 2003) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3501 [0.5 credit] Law in the Information Society

Legal responses to challenges of the information society. Topics may include privacy, surveillance and monitoring, access to information, freedom of expression, control of objectionable content, Charter and human rights issues, and security.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3502 [0.5 credit]

Regulating Freedom of Expression in Canada

The claimed relationship between freedom of expression and Canadian democracy, including the historical development of the right and various limits on it, and the regulatory structures governing contemporary media, criminalized and commercial expression, and use of media in the courtroom.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3503 [0.5 credit] Equality and Discrimination

Human rights issues and law in Canada; history and present day experiences of discrimination; critical exploration of laws effectiveness in responding to discrimination; meaning(s) of equality and discrimination; focus on Human Rights Codes - interpretation, administration, enforcement with some reference to s.15 of the Charter.

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3504 [0.5 credit] Law and Aboriginal Peoples

The legal situation of aboriginal peoples in Canada. Topics include status, aboriginal rights, treaties, legislative jurisdiction and the constitutional framework, aboriginal claims, and self-government. Comparative references to aboriginal policy in other countries.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3506 [0.5 credit] Administrative Law

Structure and procedure of Canadian administrative authorities; policy, statutory and judicial environments in which they operate. Topics include techniques for implementing public policy and structuring public authorities; statutory interpretation; procedural safeguards; exercise of statutory discretion; reconciling efficiency and fairness.

Prerequisite(s): LAWS 2502 and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3508 [0.5 credit]

Health Law

Legal/ethical issues in health care regulation. Topics may include: regulation of health professions; economics of health care; informed consent/choice; regulation of drugs, devices and research; medical malpractice and other liability; mental health issues; patient/client records. Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3509 [0.5 credit]

Selected Topics in The Charter of Rights

Selected issues in the Canadian Charter of Rights and Freedoms. The topics of this course may vary from year to year, and are announced in advance of registration. Prerequisite(s): (0.5 Credit from LAWS 2105, LAWS 2201, LAWS 2302, LAWS 2502) and 0.5 credit in LAWS at the 2000 level.

Lectures three hours a week.

LAWS 3602 [0.5 credit] International Human Rights

An introduction to the law, theory, and historical context of international human rights. The course examines key doctrinal, theoretical, political, and institutional elements of international human rights law, past and present debates about human rights practices and politics.

Precludes additional credit for LAWS 4604 (no longer offered).

Prerequisite(s): (0.5 credit from LAWS 2105, LAWS 2502, LAWS 2601 or HRSJ 2001) and 0.5 credit in LAWS at the 2000 level or PAPM 1001 and PSCI 2003.

LAWS 3604 [0.5 credit] International Organizations

Nature, character, legal status and jurisdiction of intergovernmental international organizations. Rights and duties of states arising from membership in international organizations. Distinction between international and supranational institutions. United Nations system, selected subsidiary organs, and specialized agencies; nongovernmental organizations at times of crisis. Prerequisite(s): LAWS 2601 and 0.5 credit in LAWS at the 2000 level or PAPM 1001 and PSCI 2003. Lectures three hours a week.

LAWS 3800 [0.5 credit] Environmental Law

Introduction to theories and practices of environment law, including, international, administrative, civil, criminal, constitutional, and Indigenous aspects; enforcement, compliance, litigation, and law reform; political and socioeconomic aspects; market-based and rights-based approaches; environmental justice; critiques grounded in critical theories.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3804 [0.5 credit] Law of the Family

Legal framework surrounding the family and family relationships in Canadian society. Topics include marriage and cohabitation, matrimonial support, custody and access, and dissolution of marriage. State interventions through law; law and change in family structures; equality issues; dispute resolution processes.

Also listed as SOWK 3804.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

LAWS 3903 [0.5 credit] Special Topics in Legal Studies

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000 level. Lectures three hours a week.

LAWS 3904 [0.5 credit] Special Topics in Legal Studies

The topics of this course may vary from year to year, and are announced in advance of registration.

Prerequisite(s): 1.0 credit in LAWS at the 2000-level. Lectures three hours a week.

LAWS 3908 [0.5 credit]

Methodological Approaches in Legal Studies 2

Advanced approaches to interdisciplinary research and analysis in law and legal studies. Methodological approaches considered will vary by section, and may include theoretical, quantitative, qualitative, literary, or historical approaches.

Prerequisite(s): LAWS 2908 and third-year Honours standing. Honours students are strongly encouraged to take this course in the third year of their program. Lectures three hours a week.

LAWS 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity
Prerequisite(s): registration in the B.A. Honours
(concentration in Business Law or concentration in Law,
Policy and Government) Cooperative Program, completion
of Co-op preparation classes offered by the Co-op office
and permission of the Department.

LAWS 4001 [0.5 credit] Law, Family and Gender

Relationship between family law and ideology of the family, gender roles and the reproduction of family structures. Social ramifications of family law; potential for family law reform as an agency of social change. Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3001 or LAWS 3804, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4002 [0.5 credit] Feminist Theories of Law

The literature comprising feminist perspectives on law; theoretical bases of these perspectives; place of feminist theories within other critiques of law; significance of different feminist theories for equality theory and law reform strategies; unique contributions of the various perspectives.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4006 [0.5 credit] Religion and State in Canada

Legal nature of the interaction of religion and state within an historical framework. Emphasis on Canada after the Charter of Rights and Freedoms and on religious pluralism and resistance to state intervention in religion. Interdisciplinary readings drawn from legal, historical and theological sources.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

LAWS 4100 [0.5 credit] Modern Legal Theory

Realist and post-realist legal scholarship; emphasis on Canadian, American and British approaches. Topics include the Canadian treatise tradition, American legal realism, empirical approaches to legal problems, the sociological movement in law, critical and Canadian feminist legal scholarship, Marxian theories of law, normative economic theory.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4101 [0.5 credit]

Contemporary Justice Theories

Selected major contemporary theories of justice such as those associated with Rawls, Walzer, and Habermas, with emphasis on both their procedural and substantive elements and their concrete ramifications for law, policy and political practice.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourthyear Honours standing.

Seminars three hours a week.

LAWS 4102 [0.5 credit] Controversies in Rights Theory

This course examines selected controversies in rights theories, practices, and/or historiography. Illustrative questions may include: Are rights universal or culturally relative? Can rights be justified after the demise of natural rights philosophy? Do rights undermine difference? Do communities benefit from a rights-based culture?. Prerequisite(s): LAWS 2908 or PAPM 3000 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4105 [0.5 credit] Global Justice Theory

Selected theories of global justice as they pertain to legality, which may include questions such as the justice of military force and just war theory, global social justice and global inequality, sovereignty and cosmopolitan conceptions of justice, demands for global democracy and human rights.

Prerequisite(s): LAWS 2105, LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4106 [0.5 credit]

Law and Violence

Examination of how law defines, justifies, and addresses individual, collective and state violence: contemporary and historical case studies; theoretical inquiries into the relationship between law, legality and different forms of violence.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourthyear Honours standing.

Seminars three hours a week.

LAWS 4107 [0.5 credit] Law in Modern Society

Sociological and legal theory accounts of the changing role and function of law in modern society with particular reference to advanced capitalist societies. Topics include: the welfare state and the use of regulatory law; juridification and legalization; counter-trends, deregulation, informalism, legal pluralism.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4200 [0.5 credit]

Selected Topics in International Economic Law

Selected topics in international economic law. May include: the legal regulation of international economic activity; methods of dispute settlement; standardization and development of an autonomous international trade law; and selected conventions and institutions governing international economic law.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3207 or LAWS 3208, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4202 [0.5 credit]

Accountability of Management

Role, function, and legal regulation of persons managing business enterprises. Status, social responsibility, fiduciary obligations and rights. Control and accountability of managers, obligations owed to the enterprise unit itself, constitutional rights of members, standards imposed by statutory regulation.

Prerequisite(s): LAWS 2908, LAWS 3201 and fourth-year Honours standing.

LAWS 4204 [0.5 credit]

Legal Issues in eCommerce

An examination of selected legal topics relevant to the conduct of electronic commerce. Topics include types of regulation, government support, jurisdiction challenges, contract disputes and consumer protection. Court and alternative dispute resolution policy of Domain Names challenges are also included.

Prerequisite(s): LAWS 2908, LAWS 2201, LAWS 2202 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4209 [0.5 credit] Selected Topics in Business Law

Examination of a selected advanced topic in business law. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 2201 or LAWS 2202, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4302 [0.5 credit] Regulation of Corporate Crime

Legal, policy and theoretical perspectives on the regulation of corporate crime. Nature and causes of corporate crime. Selected case studies on the role of the state in regulating corporate behaviour. Failure of the criminal justice system to respond to corporate crime. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4303 [0.5 credit] Drugs, The User and The State

This course explores the state's attempts to control drugs and drug users by exploring different aspects of national and international drug control. The Canadian experience of drug control, viewed from different perspectives, will be explored within a broader socio-legal context. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and

fourth-year Honours standing. Seminars three hours a week.

LAWS 4304 [0.5 credit] Policing and Social Surveillance

Theoretical consideration of the emergence and transformation of "policing" activities through an examination of law and changes in social relations, with special attention to the myriad agencies involved in contemporary security provision. Evolving notions of risk, surveillance, the state, and the private-public dichotomy. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002, and 0.5 credit from LAWS 2301 or LAWS 2302, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4305 [0.5 credit] Criminal Justice Reform

Social transformation and criminal justice reform. Theoretical and practical reasons for the use of criminal law as an instrument of social control. Specific reform initiatives and processes. Alternate responses to social problems.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4306 [0.5 credit]

Selected Topics in Criminal Law Issues

Selected issues and problems in the area of criminal law. The topics may vary from year to year depending on demand and interest and are announced in advance of registration.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4307 [0.5 credit] Medical Criminal Law Issues

Legal-medical issues, conflicts and relationships in the field of social control. Topics include mental disorder and criminal liability, diversion of offenders to civil commitment in hospital, insanity, automatism, fitness to stand trial, prediction of dangerousness, regulation of psychoactive drugs.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4308 [0.5 credit] Sentencing

Theories of sentencing, current sentencing laws and practices, perceptions of sentencing. Data on sentencing practice across Canada. Reforms in other jurisdictions. Critical review of the Canadian Sentencing Commission. Multidisciplinary approach using research and theory in law, criminology, social psychology and sociology. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

LAWS 4309 [0.5 credit] State Security and Dissent

Historical and contemporary analysis of legal responses of Canadian governments to dissent, political opposition, insurrection, etc. Includes trial of political offences (treason, sedition, riot), national security measures (War Measures/Emergencies Act, Official Secrets Act), and other special powers (police, labour, immigration, parliamentary privilege, etc.).

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and 0.5 credit from LAWS 3305, LAWS 3503, LAWS 3509, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4311 [0.5 credit] Human Rights in Canadian Prisons

Correctional law in the Canadian criminal justice system; competing objectives of punishment and rehabilitation in the context of respect for the rule of law and human rights; protection of human rights of prisoners in Canada and in in international and comparative contexts.

Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4402 [0.5 credit] Employment Dispute Resolution

Theory and practice of dispute resolution in employment relations; analysis of such techniques as negotiation, grievance and interest arbitration, mediation, investigation and litigation applied to a range of employment disputes such as collective agreements, termination of employment, discrimination, harassment, occupational health and safety,.

Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3006, LAWS 3401, LAWS 3405, and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4503 [0.5 credit] Law, Disability and Society

Exploration of the ways in which law promotes or hinders the inclusion of disabled persons in society. Consideration of different theories of 'disability' and the creation of barriers faced by disabled persons. Topics may include barriers affecting education, employment, transportation, benefits, and life/death decisions.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4504 [0.5 credit] Indigenous Criminal Justice

Indigenous peoples and the administration of Canadian criminal justice including policing, courts, corrections and aftercare. Content and effects of past and present policies, processes and laws. Alternatives such as self-government and self-determination; potential approaches to an appropriate justice system for Indigenous peoples. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4510 [0.5 credit]

Selected Topics in Law, Policy and Government

Examination of a selected advanced topic in the area of law, policy and government. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2501, LAWS 2502, LAWS 2908 and fourth-year Honours standing.
Seminars three hours a week.

LAWS 4601 [0.5 credit]

Transnational Law and Human Rights

Examination of the role of law in addressing human rights issues that transcend traditional categories of domestic and international law; the potential and limits of law in addressing human rights issues; the growth of transnational approaches to law and human rights. Prerequisite(s): LAWS 2908, 0.5 credit from LAWS 3503 or LAWS 3602, and fourth-year Honours standing. Seminars three hours a week.

LAWS 4602 [0.5 credit]

Is Religious Freedom a Human Right?

Legal, theoretical, and theological interconnections between religion and human rights. Evaluation of concepts including religious freedom, secularism, public sphere, accommodation and neutrality. Examination of religion and culture, interdependence of legal and religious perspectives, boundaries of religion and state, and religious compulsion. Use of case studies.

Also listed as HRSJ 4602, RELI 4602.

Prerequisite(s): LAWS 2908, LAWS 3602, and fourth-year Honours standing.

LAWS 4603 [0.5 credit]

Transitional Justice

Legal and ethical responses to human rights violations in the transition to democracy. Dilemmas of the rule of law; truth and reconciliation; prosecution and punishment; amnesty; retribution and revenge; restorative justice; administrative remedy; reparations; International case studies. Theoretical arguments about justice in context of country.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourthyear Honours standing.

Seminars three hours a week.

LAWS 4605 [0.5 credit]

Selected Topics in International Law

Topics vary from year to year and are announced in advance. May include transnational environmental issues; the international law of armed conflict, peacekeeping and neutrality; the law of international treaties and transnational agreements; state responsibility under international law.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4606 [0.5 credit]

International Law of Armed Conflict

UN Charter prohibition of the use of force. Exceptional, permissible uses of armed force. Role of Security Council in determining legality of armed intervention. Collective security, peacemaking, peacekeeping, neutrality, prohibited means of warfare. Humanitarian International Law, Geneva Red Cross Conventions, war crimes, International Criminal Court.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4607 [0.5 credit] Immigration and Refugee Law

Immigrants and refugees; demographics; Canadian, international and human rights law and policy. The Canadian Immigration Act. Legal and social problems including entry and removal, family reunion, citizenship, remedies, the rights of clandestine migrants; settlement rights; non-discrimination; asylum; a nation's right to determine membership.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2502 and fourth-year Honours standing. Seminars three hours a week.

LAWS 4610 [0.5 credit]

Selected Topics in Transnational Law and Human Rights

Examination of a selected advanced topic in the area of transnational law and human rights. The topics of this course may vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 or PAPM 3000, LAWS 2601 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4702 [0.5 credit]

Special Topic in Criminal Justice and Social Policy

Examination of a selected topic in criminal justice and social policy. Topics to be announced.

Also listed as SOWK 4702 and SOCI 4702.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4800 [0.5 credit]

Environment and Social Justice

The potential of environmental law to protect the environment and people while promoting opportunities for informed participation in environmental decision making by groups traditionally excluded from these processes; contemporary issues of social justice raised by legal regulation of the environment.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4801 [0.5 credit] Risk and the Legal Process

Application of risk assessment and management in various legal arenas including insurance, liability and tort, litigation management, environmental protection, and sentencing and parole.

Prerequisite(s): LAWS 2908 or PAPM 3000 and fourthyear Honours standing.

Seminars three hours a week.

LAWS 4802 [0.5 credit] Criminal Jury Trials

Critical analysis of the criminal jury system including its history and context, the role of the judge, jury dynamics and jury composition. Perspectives and roles of the accused, victims, police, defence counsel, Crown attorney, judges, juries, media, politicians and the public. Prerequisite(s): LAWS 2908, CRCJ 3001, or CRCJ 3002 and LAWS 2301, LAWS 2302 and fourth-year Honours standing.

LAWS 4901 [0.5 credit]

Tutorial in Law

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department). Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor. Independent work 7-10 hours per week. Regular meetings

with supervisor (bi-weekly).

LAWS 4902 [0.5 credit] **Tutorial in Law**

Tutorials or reading courses conducted under the supervision of a faculty member of the Department of Law on a selected topic in which advanced courses are not available (guidelines are posted by the Department). Prerequisite(s): LAWS 3908, fourth-year Honours standing, written acceptance by a faculty member and permission of the Undergraduate Supervisor. Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

LAWS 4903 [0.5 credit]

Advanced Special Topics in Legal Studies

The topics of this course vary from year to year and are announced in advance of registration. Prerequisite(s): LAWS 2908 and fourth-year Honours

Seminars three hours a week.

LAWS 4904 [0.5 credit]

Advanced Special Topics in Legal Studies

The topics of this course vary from year to year and are announced in advance of registration.

Prerequisite(s): LAWS 2908 and fourth-year Honours standing.

Seminars three hours a week.

LAWS 4905 [1.0 credit]

Full-Year Service Learning Placement

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity Precludes additional credit for LAWS 4906, LAWS 4907. Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization. Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4906 [0.5 credit] Service Learning Placement

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity Precludes additional credit for LAWS 4905 (1.0 credit). Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization. Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4907 [0.5 credit] Service Learning Placement

This course gives students the opportunity to work with an organization whose focus relates to law. Participating students must identify a host organization and a faculty member to provide supervision (guidelines are posted by the Department).

Includes: Experiential Learning Activity Precludes additional credit for LAWS 4905 (1.0 credit). Prerequisite(s): LAWS 2908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher, written acceptance by a faculty member, permission of the Undergraduate Supervisor and the host organization. Work at placement site 7-10 hours per week. Regular weekly meetings with on-site supervisor or faculty supervisor.

LAWS 4908 [1.0 credit] **Honours Paper**

Students in the BA Honours Law program may write an Honours paper under the supervision of a faculty member of the Department of Law (guidelines are posted by the Department). Students intending to undertake graduate studies are encouraged to complete an Honours paper. Includes: Experiential Learning Activity Prerequisite(s): LAWS 3908, fourth-year Honours standing in Law with a Law GPA of 9.00 or higher and written acceptance by a faculty member. Independent work 7-10 hours per week. Regular meetings with supervisor (bi-weekly).

Linguistics (LING)

Linguistics (LING) Courses

LING 1001 [0.5 credit]

Introduction to Linguistics I

Nature of language and linguistic knowledge. Formal description and analysis of language: phonetics, phonology, morphology, syntax and semantics. Lecture and tutorial three hours a week.

LING 1002 [0.5 credit]

Introduction to Linguistics II

Survey of topics in linguistics: language change, sociolinguistics, language acquisition and processing. May include language typology, language contact and writing systems.

Prerequisite(s): LING 1001 (may be taken concurrently). Lectures three hours a week.

LING 1100 [0.5 credit]

The Mysteries of Language

This course explores some intriguing mysteries of language - whether it is unique to humans, how children master its complexities so easily, how the brain handles language, how languages are born and die. These questions lead us to interesting discoveries about the human mind.

Lectures three hours a week.

LING 2005 [0.5 credit]

Linguistic Analysis

Phonological, morphological and syntactic analysis of linguistic data. Coursework consists primarily of practical exercises in data analysis.

Includes: Experiential Learning Activity

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2007 [0.5 credit]

Phonetics

Description of speech sounds; transcription systems; articulation; acoustics of speech sounds; perception of speech sounds; cross-linguistic diversity and phonetic universals; the role of phonetics in grammar.

Includes: Experiential Learning Activity

Precludes additional credit for LING 2001 (no longer offered).

Prerequisite(s): LING 1001.

Lecture and tutorial three hours a week.

LING 2504 [0.5 credit]

Language and Communication

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. Topics include: the nature of meaning; the connections between language, communication and cognition; language as a social activity.

Also listed as PHIL 2504, COMS 2504. Prerequisite(s): second-year standing.

Lectures three hours a week.

LING 2604 [0.5 credit]

Communication Differences and Disabilities I

A survey course highlighting a variety of communication differences and disabilities. Specific topics vary from year to year but typically will include speech, language, fluency and hearing differences and disabilities.

Also listed as ALDS 2604.

Prerequisite(s): LING 1001 and second year standing, or permission of the instructor.

Lectures three hours a week.

LING 2802 [0.5 credit]

History of the English Language

A historical study of the English language, its structure, variety, and cultural contexts, with an introduction to grammatical terminology and constructions.

Also listed as ENGL 2105.

Prerequisite(s): second-year standing or permission of the department.

Lectures three hours a week.

LING 3004 [0.5 credit]

Syntax I

Introduction to syntactic theory. Representation and analysis of sentence structure, syntactic relations and syntactic dependencies. Testing of grammatical hypotheses.

Includes: Experiential Learning Activity

Prerequisite(s): LING 2005.

Lecture and tutorial three hours a week.

LING 3005 [0.5 credit]

Morphology I

Introduction to word structure and morphological theory. Topics include inflectional and derivational morphology, morphological processes, and interaction of morphology with phonology and syntax.

Includes: Experiential Learning Activity Prerequisite(s): LING 2005 and LING 2007.

Lectures three hours a week.

LING 3007 [0.5 credit]

Phonology I

The sound-systems of languages, analysis of phonological structure; generative phonology; phonological rules and derivations; cross-linguistic diversity and universals; segmental phonology; stress;

Includes: Experiential Learning Activity

Precludes additional credit for LING 3002 (no longer offered).

Prerequisite(s): LING 2001 (no longer offered) or LING 2007.

Lecture and tutorial three hours a week.

LING 3009 [0.5 credit]

Special Topic in Linguistics

Selected topics in general linguistics not ordinarily treated in the regular course program. Contents of the course vary from year to year.

Lectures and discussion three hours per week.

LING 3504 [0.5 credit]

Pragmatics

The study of language in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as PHIL 3504.

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/COMS 2504/LING 2504 or PHIL 3506, or LING 3505 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3505 [0.5 credit]

Semantics

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics. Also listed as PHIL 3506.

Prerequisite(s): third-year standing, and one of LING 1001, PHIL 2001, PHIL 2504/LING 2504/ COMS 2504 or PHIL 3504/LING 3504, or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Lectures three hours a week.

LING 3601 [0.5 credit]

Language Processing and the Brain

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as PSYC 3709.

Prerequisite(s): LING 1001 or PSYC 2700 and secondyear standing, or permission of the instructor.

Lectures three hours a week.

LING 3603 [0.5 credit] Child Language

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as PSYC 3508.

Prerequisite(s): LING 1001 and second-year standing, or permission of the instructor.

Lectures three hours a week.

LING 3604 [0.5 credit]

Communication Differences and Disabilities II

An in-depth examination of select topics in the field of communication differences and disabilities. An emphasis is placed on theoretical accounts of specific differences and disabilities and the cross-linguistic evidence for these accounts. Specific topics may vary from year to year. Also listed as ALDS 3604.

Prerequisite(s): LING 1001 and one of ALDS 2604 or LING 2604.

Lectures three hours a week.

LING 3701 [0.5 credit]

Corpus Linguistics

Computer-assisted analysis of electronic collections of naturally occurring language. Applications in such areas as language variation, grammar, lexicology, phraseology, translation, and learner language.

Includes: Experiential Learning Activity

Also listed as ALDS 3701.

Prerequisite(s): third-year standing in Applied Linguistics and Discourse Studies, or in Linguistics, or enrolment in the CTESL program, or permission of the instructor. Lectures three hours a week.

LING 3702 [0.5 credit] Sociolinguistics

The place of language within society; bilingual and multilingual communities; language, social mobility and social stratification; sociolinguistic factors in language change.

Also listed as ALDS 3202.

Precludes additional credit for ALDS 2701 (no longer offered).

Prerequisite(s): ALDS 1001 and third-year standing. Lecture three hours a week.

LING 3801 [0.5 credit]

Structure of a Specific Language

Description and analysis of the structure of a specific language applying phonology, morphology, syntax, and semantics. Language to be studied will be announced in advance by the School.

Prerequisite(s): LING 2001 (no longer offered) or LING 2005 or LING 2007.

Lectures three hours a week.

LING 3810 [0.5 credit] Historical Linguistics I

Language change; sound change; analogy; the comparative method; internal reconstruction; the philological method; historical linguistics and pre-history; language change and theories of grammar.

Precludes additional credit for LING 3101 (no longer offered).

Prerequisite(s): LING 2007. Lectures three hours a week.

LING 3811 [0.5 credit]

Language Typology and Universals

Cross-linguistic survey of syntactic and morphological patterns found in the languages of the world. Typological classification and identification of language universals. Includes: Experiential Learning Activity

Precludes additional credit for LING 3001 (no longer

offered).

Prerequisite(s): LING 2005. Lectures three hours a week.

LING 3900 [1.0 credit] Independent Study

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity
Prerequisite(s): permission of the instructor.

LING 3901 [0.5 credit] Independent Study

Research under the supervision of a member of the School. Normally available only to third- and fourth-year students in Linguistics.

Includes: Experiential Learning Activity Prerequisite(s): permission of the instructor.

LING 4004 [0.5 credit]

Syntax II

Advanced topics in syntax.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4002 (no longer

offered).

Prerequisite(s): LING 3004 and third-year standing.

Seminars three hours a week.

LING 4005 [0.5 credit] Morphology II

Advanced topics in morphology. Includes: Experiential Learning Activity

Prerequisite(s): LING 3005 and third-year standing.

Seminars three hours a week.

LING 4007 [0.5 credit] Phonology II

Advanced topics in phonology.

Includes: Experiential Learning Activity

Precludes additional credit for LING 4001 (no longer

offered).

Prerequisite(s): LING 3007, and third-year standing.

Seminars three hours a week.

LING 4009 [0.5 credit]

Special Topic in Linguistics

Examination of a topic or more specialized area in linguistics or language study. Topic to be announced.

Repeatable for credit when the topic changes.

Prerequisite(s): third- or fourth-year standing in Linguistics or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5009, for which additional credit is precluded.

Seminars three hours a week.

LING 4412 [0.5 credit] Diversité du français

Études des variétés du français, dans ses dimensions spatiales. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4412.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5412 and LING 5412, for which additional credit is precluded.

Seminars three hours a week.

LING 4413 [0.5 credit] Diachronie du français

Étude du français, dans ses dimensions historiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. The course is taught in French, but students will submit written assignments in English. Also listed as FREN 4413.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5413 and LING 5413, for which additional credit is precluded.

Seminars three hours a week.

LING 4414 [0.5 credit] Analyse du français

Étude du français, dans ses dimensions morphologiques, syntaxiques ou phonologiques. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students will submit written assignments in English.

Also listed as FREN 4414.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5414 and LING 5414, for which additional credit is precluded.

Seminars three hours a week.

LING 4415 [0.5 credit] Variation du français

Étude des variations internes de la langue, dans des dimensions orales/écrites. Le contenu précis de ce cours varie selon les années. Consulter le site web du Département de français pour obtenir les détails. Course is taught in French, but students submit assignments in English.

Also listed as FREN 4415.

Prerequisite(s): FREN 2401 and FREN 3050, or permission of the Department.

Also offered at the graduate level, with different requirements, as FREN 5415 and LING 5415, for which additional credit is precluded.

Seminars three hours a week.

LING 4505 [0.5 credit]

Formal Semantics

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Includes: Experiential Learning Activity

Also listed as PHIL 4505.

Prerequisite(s): LING 3505 or PHIL 3506, and third-year standing, or permission of the Department of Philosophy or School of Linguistics and Language Studies. Seminars three hours a week.

LING 4510 [0.5 credit] Lexical Semantics

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Includes: Experiential Learning Activity

Also listed as PHIL 4055.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506, and third-year standing.

Also offered at the graduate level, with different requirements, as LING 5510, for which additional credit is precluded.

Seminar three hours a week.

LING 4601 [0.5 credit]

Cognitive Neuroscience of Language

Further study of psychological and neurolinguistic mechanisms of adult language processing. May include topics from first language acquisition.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3601 or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5601, for which additional credit is precluded.

Seminars three hours a week.

LING 4603 [0.5 credit] First Language Acquisition

Advanced topics in language acquisition and development and the relative contributions of the environment, cognitive development, and inborn knowledge.

Includes: Experiential Learning Activity
Prerequisite(s): LING 1001 and LING 3603.
Also offered at the graduate level, with different requirements, as LING 5603, for which additional credit is precluded.

LING 4604 [0.5 credit]

Practicum in Speech Language Pathology

Through field placements, students pursue personal learning objectives related to speech-language pathology, with a focus on the clinical application of knowledge gained in the Psycholinguistics and Communication Differences concentration.

Includes: Experiential Learning Activity

Prerequisite(s): LING 3604, fourth-year Honours standing in B.A. or B.Sc. in Linguistics with a Concentration in Psycholinguistics and Communication Disorders with a CGPA of 10.0 in the major, and permission from the School of Linguistics and Language Studies.

Field placement one day a week.

LING 4605 [0.5 credit]

Psycholinguistic Research Methods

Experimental methodologies used in current psycholinguistic studies. Topics include experimental design and techniques, descriptive statistics, and interpreting and reporting research findings. Includes: Experiential Learning Activity Precludes additional credit for LING 4009 Section "A" (2015-16 and 2016-17) and LING 4009 Section "B" (2013-14) and LING 4009 Section "C" (2017-18). Prerequisite(s): third- or fourth-year standing and LING 3601, or permission of the instructor. Also offered at the graduate level, with different requirements, as LING 5605, for which additional credit is precluded.

Seminar three hours a week.

LING 4606 [0.5 credit]

Statistics for Language Research

Application of statistical procedures to analysis of language data and to problems of measurement in experimental linguistics, applied linguistics, psycholinguistics, and related fields.

Includes: Experiential Learning Activity

Also listed as ALDS 4606.

Precludes additional credit for ALDS 4906/LING 4009 Section "B" if taken Winter 2015 or Winter 2016. Prerequisite(s): Third-year standing in Linguistics or Applied Linguistics and Discourse Studies or Cognitive Science, or permission of the instructor.

Also offered at the graduate level, with different requirements, as LING 5606 and ALDS 5604, for which additional credit is precluded.

Seminar three hours a week.

LING 4801 [0.5 credit] **Linguistic Field Methods**

With a language consultant, students discover the phonological, morphological, and syntactic structures of the target language using linguistic elicitation. Language will vary from year to year, but will normally be a non-European language. Language documentation, data management, ethical issues surrounding research in Indigenous communities.

Includes: Experiential Learning Activity Prerequisite(s): LING 2005 and LING 2007. Also offered at the graduate level, with different requirements, as ALDS 5801, for which additional credit is precluded.

Lectures three hours a week.

LING 4802 [0.5 credit]

Historical Linguistics: English

A theory-intensive course that will study the development of English starting with Proto-Indo-European progressing through Common Germanic to the stages of English itself. Topics include phonological sound changes, phonemic inventories, and morphological and syntactic typology. Precludes additional credit for LING 4101 (no longer

Prerequisite(s): LING 2005 and LING 2007, and one of LING 3005. LING 3810 or LING 3811.

Also offered at the graduate level, with different requirements, as LING 5802, ENGL 5101., for which additional credit is precluded.

Seminars three hours a week.

LING 4805 [0.5 credit] **Old English**

Studies in Old English literature and its cultural and historical contexts. Instruction in grammar to facilitate reading knowledge of the Old English language. Also listed as ENGL 4105.

Precludes additional credit for ENGL 3102 (no longer offered).

Prerequisite(s): fourth-year standing or permission of the department.

Seminar or lecture three hours a week.

LING 4900 [1.0 credit] **Independent Study in Linguistics**

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics. Prerequisite(s): permission of the instructor.

LING 4901 [0.5 credit]

Independent Study in Linguistics

Permits fourth-year Honours students to pursue their interests in a selected area of linguistics.

Prerequisite(s): permission of the instructor.

LING 4905 [1.0 credit]

Honours Project in Experimental Linguistics

Students choose existing study in linguistic literature, replicate the study, present findings, compare to original study. Practical experience gathering and preparing materials, running experiments, analyzing data, interpreting findings; real, important contributions to the field of linguistics via replication studies (as mandated by the scientific method).

Includes: Experiential Learning Activity
Precludes additional credit for LING 4910.
Prerequisite(s): fourth-year Honours standing in
Linguistics, with a Major CGPA of 9.0, and permission of
the instructor.
Unscheduled.

LING 4910 [1.0 credit] Honours Thesis in Linguistics

A thesis project selected in consultation with the School and carried out under the direction of a faculty supervisor. Includes: Experiential Learning Activity
Precludes additional credit for LING 4905.
Prerequisite(s): fourth-year Honours standing in
Linguistics with a CGPA of 10.0 in the major; one of
LING 3004, LING 3007, LING 3505, or LING 3601; and permission of the instructor.

Mathematics (MATH)

Mathematics (MATH) Courses

Note:

• See also the course listings under Statistics (STAT) in this Calendar.

Prerequisites for First-year Mathematics Courses in B.Math. Programs

Students who do not have the required Ontario Grade 12 Mathematics courses or equivalents may take MATH 0005 Precalculus: Functions and Graphs and MATH 0006 Precalculus: Trigonometric Functions and Complex Numbers in lieu of Advanced Functions, MATH 0107 Algebra and Geometry in lieu of the algebra component of Calculus and Vectors. These 0000-level mathematics courses serve as alternate prerequisites for MATH 1052 Calculus and Introductory Analysis I and MATH 1152 Introductory Algebra I. These courses would be in addition to the minimum 15.0 credits required for B.Math programs, or 20.0 credits required for B.Math Honours programs.

MATH 0005 [0.5 credit]

Precalculus: Functions and Graphs

Review of algebraic manipulations. Polynomials: the remainder theorem, and the factor theorem; graphing. Real and Complex roots. Absolute values. Inequalities. Functions, including composition of functions, and Inverse functions. Logarithmic and exponential functions. Not available for degree credit for students who have successfully completed: Grade 12 Mathematics - Advanced Functions, or an equivalent High School functions course.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 0006 [0.5 credit]

Precalculus: Trigonometric Functions and Complex Numbers

Angles and the unit circle, radian measure. Definitions of trigonometric functions. Fundamental relations, Law of Sines and Cosines. Analytic trigonometry, graphs, inverse functions. Trigonometric identities and equations. Applications in science and engineering. Complex numbers in polar form, de Moivre's Theorem, n-th roots of complex numbers.

Prerequisite(s): Grade 11 Functions (University/College Preparation), or MATH 0005, or equivalent. Lectures three hours a week, tutorial one hour a week.

MATH 0009 [0.5 credit] Calculus and Vectors

Limits and continuity. Differentiation rules. Trigonometric, logarithmic, and exponential functions, and their derivatives. Curve sketching. Optimization problems. Introduction to vectors. Dot and cross products. Projections. Equations of lines and planes. Intersection points and distances between points, lines, and planes. Precludes additional credit for MATH 0007. Prerequisite(s): Grade 12 Mathematics (Advanced

Prerequisite(s): Grade 12 Mathematics (Advanced Functions); or both MATH 0005 and MATH 0006; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 0107 [0.5 credit] Algebra and Geometry

Vectors in the plane and in 3-space. Linear combinations and linear independence. Equations of lines and planes in space. Solution of systems of linear equations. Proofs by induction. Binomial Theorem. Logic.

Prerequisite(s): Grade 11 Functions (University/College Preparation) or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1004 [0.5 credit]

Calculus for Engineering or Physics

Limits. Differentiation of the elementary functions. Rules of differentiation. Inverse trigonometric functions. Applications of differentiation: max-min problems, curve sketching, approximations. Definite and indefinite integrals, techniques of integration. Applications to areas and volumes.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1007, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005 and MATH 0006, or equivalent. Restricted to students in the Faculty of Engineering, or in certain B.Sc. and B.A.S. programs where specified. Lectures three hours a week, tutorial one hour a week.

MATH 1005 [0.5 credit] Differential Equations and Infinite Series for Engineering or Physics

First-order differential equations. Second-order linear equations with constant coefficients, undetermined coefficients, variation of parameters. Sequences and series, convergence tests, estimation of sums. Power series, Taylor series, remainders. Fourier series. Precludes additional credit for BIT 2004 (no longer offered), BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 2007, MATH 2052, and MATH 2404.

Prerequisite(s): i) MATH 1004; and ii) MATH 1104 (or MATH 1107), either previously or concurrently; or equivalents; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 1007 [0.5 credit] Elementary Calculus I

Limits. Differentiation of the elementary functions, including trigonometric functions. Rules of differentiation. Applications of differentiation: max-min problems, curve sketching, approximations. Introduction to integration: definite and indefinite integrals, areas under curves, fundamental theorem of calculus.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1052.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions; or MATH 0005 and MATH 0006; or equivalent. Lectures three hours a week, tutorial one hour a week.

MATH 1009 [0.5 credit] Mathematics for Business

An introductory course of mathematics for business. Thorough review of basic arithmetic and algebra. Elementary functions, their graphs, properties and applications in business models. Limits. Derivatives of elementary functions. Systems of linear equations/inequalities. Geometric series.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, BUSI 1705 (no longer offered), MATH 1401/ ECON 1401, MATH 1052. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D. Prerequisite(s): Restricted to B.Com. and B.I.B students. Lectures three hours a week, tutorial one hour a week.

MATH 1052 [0.5 credit]

Calculus and Introductory Analysis I

Properties of the real numbers. Limits. Sequences and series. Elementary functions. Continuity. Derivatives. Extreme values. Mean Value Theorem. L'Hospital's rules. Antiderivatives. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1000, BIT 1100, BIT 1200, MATH 1002 (no longer offered), MATH 1004, MATH 1007, MATH 1009, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005 and MATH 0006 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and one half hours a week.

MATH 1104 [0.5 credit]

Linear Algebra for Engineering or Science

Systems of linear equations. Matrix algebra.

Determinants. Invertible matrix theorem. Cramer's rule.

Vector space R^n; subspaces, bases. Eigenvalues,
diagonalization. Linear transformations, kernel, range.

Complex numbers (including De Moivre's theorem). Inner
product spaces and orthogonality. Applications.

Precludes additional credit for BIT 1001, BIT 1101,
BIT 1201, MATH 1102 (no longer offered), MATH 1107,
MATH 1119, MATH 1401/ECON 1401, MATH 1402/
ECON 1402, MATH 1152. Note: MATH 1119 is not an
acceptable substitute for MATH 1104.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced
Functions, or MATH 0005, or equivalent, or permission

Functions, or MATH 0005, or equivalent, or permission of the School. Restricted to students in the Faculty of Engineering, the School of Computer Science, or in certain B.Sc. and B.A.S. programs where specified. Lectures three hours a week and tutorial one hour a week.

MATH 1107 [0.5 credit]

Linear Algebra I

Systems of linear equations; vector space of n-tuples, subspaces, bases; matrix transformations, kernel, range; matrix algebra and determinants. Dot product. Complex numbers (including de Moivre's Theorem, and n-th roots). Eigenvalues, diagonalization and applications. Note: MATH 1119 is not an acceptable substitute for MATH 1107.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week and tutorial one hour a week.

MATH 1119 [0.5 credit]

Linear Algebra: with Applications to Business

Introduction to systems of linear equations, geometric interpretation in two and three dimensions, introduction to matrices, vector addition and scalar multiplication, linear dependence, matrix operations, rank, inversion, invertible matrix theorem, determinants. Use of illustrative examples related to business.

Precludes additional credit for , but is not an acceptable substitute for: BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107. BUSI 1704 (no longer offered), MATH 1109 (no longer offered), MATH 1401/ECON 1401, MATH 1402/ECON 1402, MATH 1152. This course is not acceptable for (substitute) credit in any of the following degree programs: B.Math., and also B.Sc., B.C.S., B.Eng., B.I.D.

Prerequisite(s): Ontario Grade 12 Mathematics of Data Management; or Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 1152 [0.5 credit] Introductory Algebra I

Properties of numbers. Modular arithmetic. Fields, including complex numbers and finite fields. Vector spaces. Matrix algebra. Solutions of linear systems. Linear dependence. Spanning sets. Bases. Subspaces. The rank-nullity theorem. Linear transformations. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 1001, BIT 1101, BIT 1201, MATH 1102 (no longer offered), MATH 1104, MATH 1107, MATH 1119, MATH 1401/ECON 1401, MATH 1402/ECON 1402.

Prerequisite(s): i) Grade 12 Mathematics: Advanced Functions, and Grade 12 Mathematics: Calculus and Vectors, with grades of at least 75% in each; or MATH 0005, MATH 0006, and MATH 0107 with grades of at least B in each; or equivalents; and ii) MATH 1800 (may be taken concurrently); or permission of the School of Mathematics and Statistics.

Lectures three hours a week, tutorial one and a half hours a week.

MATH 1401 [0.5 credit]

Elementary Mathematics for Economics I

Functional relations: functional forms and error terms. Graphing economic magnitudes: scatter diagrams, timeseries graphs, functional relationships. Applied calculus: mechanics of differentiation and integration, elasticity, consumer/producer surplus. Applied algebra: solving systems of linear equations and Keynesian national-income analysis. Problem solving approaches. Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201, ECON 1401, MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1117, MATH 1119, MATH 1152.

Prerequisite(s): Ontario Grade 12 U Advanced Functions, or MATH 0005, or equivalent; and ECON 1000 or FYSM 1003, which may be taken concurrently with MATH 1401/ECON 1401.

MATH 1402 [0.5 credit]

Elementary Mathematics for Economics II

Calculus: including partial differentiation, definite and indefinite integrals, techniques of integration, and unconstrained optimization. Vectors and matrices: scalar multiplication, inner product, linear dependence, matrix operations, rank, invertible matrix theorem, and determinants. Economic applications such as profit maximization, comparative statics, and the Leontief inputoutput model.

Precludes additional credit for BIT 1000, BIT 1001, BIT 1100, BIT 1101, BIT 1200, BIT 1201, ECON 1402, MATH 1007, MATH 1009, MATH 1052, MATH 1104, MATH 1107, MATH 1119, MATH 1152.

Prerequisite(s): ECON 1000 or FYSM 1003 with a grade of C- or higher, and ECON 1401/MATH 1401 with a grade of C- or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 1800 [0.5 credit]

Introduction to Mathematical Reasoning

Elementary logic, propositional and predicate calculus, quantifiers, sets and functions, bijections and elementary counting, the concept of infinity, relations, well ordering and induction. The practice of mathematical proof in elementary number theory and combinatorics.

Precludes additional credit for MATH 1805/COMP 1805.

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced Functions, or MATH 0005, or equivalent.

Lectures three hours a week, tutorial one hour a week.

MATH 1805 [0.5 credit] Discrete Structures I

Introduction to discrete mathematics and discrete structures. Topics include: propositional logic, predicate calculus, set theory, complexity of algorithms, mathematical reasoning and proof techniques, recurrences, induction, finite automata and graph theory. Material is illustrated through examples from computing. Includes: Experiential Learning Activity Precludes additional credit for MATH 1800. Prerequisite(s): one Grade 12 university preparation Mathematics course; and one of: COMP 1005 or or COMP 1405 or SYSC 1100 (which may be taken concurrently).

Lectures three hours a week, tutorial one hour a week.

MATH 2000 [1.0 credit]

Multivariable Calculus and Fundamentals of Analysis

Higher dimensional calculus, chain rule, gradient, line and multiple integrals with applications. Use of implicit and inverse function theorems. Real number axioms, limits, continuous functions, differentiability, infinite series, uniform convergence, the Riemann integral. Precludes additional credit for BIT 2005 (no longer offered), MATH 2004, MATH 2008, and MATH 3009. Prerequisite(s): i) MATH 2052 with a grade of C+ or higher, or (MATH 2007 or MATH 1005 with a grade of B+ or higher and permission of the School); and ii) MATH 2152 with a grade of C+ or higher, or MATH 1107 or MATH 1104 with a grade of B+ or higher; and iii) MATH 1800 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 2004 [0.5 credit]

Multivariable Calculus for Engineering or Physics

Curves and surfaces. Polar, cylindrical and spherical coordinates. Partial derivatives, gradients, extrema and Lagrange multipliers. Exact differentials. Multiple integrals over rectangular and general regions. Integrals over surfaces. Line integrals. Vector differential operators. Green's Theorem, Stokes' theorem, Divergence Theorem. Applications.

Precludes additional credit for BIT 2005, MATH 2000, and MATH 2008.

Prerequisite(s): i) MATH 1005 or MATH 2007; and ii) MATH 1104 or MATH 1107; or permission of the School. Restricted to students in the Faculty of Engineering, or in certain B.Sc. programs where specified.

Lectures three hours a week, tutorial one hour a week.

MATH 2007 [0.5 credit] Elementary Calculus II

Techniques of integration, improper integrals. Polar coordinates, parametric equations. Indeterminate forms, sequences and series, Taylor's formula and series. Precludes additional credit for BIT 2007 (no longer offered), MATH 1002 (no longer offered), MATH 1005, MATH 2052.

Prerequisite(s): i) MATH 1004, or a grade of C- or higher in MATH 1007; or MATH 1052 and permission of the School.

MATH 2008 [0.5 credit] Intermediate Calculus

Partial differentiation, chain rule, gradient, line and multiple integrals with applications, transformations of multiple integrals.

Precludes additional credit for BIT 2005 (no longer offered), MATH 2000, and MATH 2004. Prerequisite(s): one of MATH 1005, MATH 2052, or MATH 2007, and one of MATH 1104, MATH 1107, or MATH 1152.

Lectures three hours a week and one hour tutorial.

MATH 2052 [0.5 credit]

Calculus and Introductory Analysis II

Definite, indefinite integrals, Improper integrals, The fundamental theorem of calculus. An introduction to differential equations. Sequences and series of functions. Power series. Taylor's formulae. Uniform convergence. An emphasis is placed on proofs and theory.

Precludes additional credit for BIT 2007, MATH 1002 (no longer offered), MATH 1005, MATH 2007.

Prerequisite(s): (i) MATH1052 with a grade of C- or higher or (MATH1007 or MATH1004 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School. Lectures three hours a week, tutorial one and one half hours a week.

MATH 2100 [1.0 credit]

Algebra

Introduction to group theory: permutation groups, Lagrange's theorem, normal subgroups, homomorphism theorems. Introduction to ring theory: ring of polynomials, integral domains, ideals, homomorphism theorems. Hermitian forms, spectral theorem for normal operators, bilinear and quadratic forms, classical groups. Precludes additional credit for MATH 2108 and MATH 3101.

Prerequisite(s): i) MATH 2152 with a grade of C+ or higher, or (MATH 2107 with a grade of B+ or higher and permission of the School); and ii) MATH 1800 with a grade of C+ or higher; or permission of the School. Lectures three hours a week, tutorial one hour a week.

MATH 2107 [0.5 credit]

Linear Algebra II

Finite-dimensional vector spaces (over R and C), subspaces, linear independence and bases. Linear transformations and matrices. Inner product spaces (over R and C): Orthonormal bases, Eigenvalues and diagonalization. Bilinear and quadratic forms; principal axis theorem.

Precludes additional credit for MATH 1102 (no longer offered), MATH 2152.

Prerequisite(s): i) MATH 1104, or a grade of C- or higher in MATH 1107 or MATH 1109; and ii) a grade of C- or higher in MATH 1007 or equivalent; or MATH 1152 and permission of the School. Note: in item i), MATH 1119 is NOT acceptable as a substitute for MATH 1109. Lectures three hours a week and one hour tutorial.

MATH 2108 [0.5 credit] Abstract Algebra I

Sets and relations, number theory, group theory, ring theory, cardinal numbers.

Precludes additional credit for MATH 3101 and MATH 2100.

Prerequisite(s): i) MATH 2152 or MATH 2107; and ii) MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or COMP 1805; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 2152 [0.5 credit] Introductory Algebra II

Linear transformations. Determinants. Eigenvalues and eigenspaces. Diagonalization and other canonical forms. Inner products. An emphasis is placed on proofs and theory.

Precludes additional credit for MATH 1102 (no longer offered) and MATH 2107.

Prerequisite(s): (i) MATH1152 with a grade of C- or higher or (MATH1107 or MATH1104 with a grade of B+ or higher and permission of the School), and (ii) MATH1800 with a grade of C+ or higher; or permission of the School. Lectures three hours a week, tutorial one and a half hours a week

MATH 2210 [0.5 credit] Introduction to Geometry

An introduction to classical geometry; Euclidean plane geometry; plane tiling; polytopes in three and four dimensions; curved surfaces; Euler characteristic. This course is intended for a general audience, and is available to B.Math. students for credit only as a free elective. Prerequisite(s): Grade 12 Mathematics and second-year standing.

MATH 2404 [0.5 credit] Ordinary Differential Equations I

First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for BIT 2004 (no longer offered), MATH 1005, MATH 2454.

Prerequisite(s): MATH 2052 and MATH 1152 (or MATH 1107 and MATH 2007).

Lectures three hours a week and one hour tutorial.

MATH 2454 [0.5 credit] Ordinary Differential Equations (Honours)

Existence and uniqueness theorems. First-order equations, linear second- and higher-order equations, linear systems, stability of second-order systems.

Precludes additional credit for MATH 2404, BIT 2004 (no longer offered).

Prerequisite(s): MATH 2052 or MATH 2007 or MATH 1005 with a grade of C+ or higher, and MATH 2152 or MATH 2107 with a grade of C+ or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 2800 [0.5 credit]

Discrete Mathematics and Algorithms

An introduction to discrete mathematics and algorithms in the context of the computational sciences. Basic number theory and counting methods, algorithms for strings, trees and sequences. Applications to DNA and protein sequencing problems. Analysis and complexity of algorithms.

Also listed as CMPS 2800.

Precludes additional credit for Only one of MATH 1805/ COMP 1805 or MATH 2800/CMPS 2800 may count for credit in a B.Math. program.

Prerequisite(s): COMP 1006 and at least one of MATH 1007, MATH 1107, or STAT 2507. Lectures three hours a week.

MATH 2907 [0.5 credit] Directed Studies (Honours)

Available only to Honours students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3001 [0.5 credit] Real Analysis I (Honours)

Metric spaces and their topologies, continuous maps, completeness, compactness, connectedness, introduction to Banach spaces.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or (MATH 3009 and MATH 1800) each with a grade of B or higher, and permission of the instructor; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3002 [0.5 credit] Real Analysis II (Honours)

Function spaces, pointwise and uniform convergence, Weierstrass approximation theorem, Lebesgue measure and Lebesgue integral on the real line, Hilbert space, Fourier series.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3003 [0.5 credit]

Advanced Differential Calculus (Honours)

Review of multivariable differentiation and integration. Vector fields, differential forms and exterior algebra. Introduction to manifolds and tangent bundles. Stokes' Theorem. Applications such as differential equations and the calculus of variations.

Prerequisite(s): MATH 3001 with a grade of C- or higher, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3007 [0.5 credit] Functions of a Complex Variable

Analytic functions, contour integration, residue calculus, conformal mapping. Intended for non-engineering students.

Precludes additional credit for MATH 3057 and PHYS 3807.

Prerequisite(s): one of MATH 2004, MATH 2008 or MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3008 [0.5 credit] Ordinary Differential Equations (Honours)

Analytic ordinary differential equations: series solutions of ordinary differential equations about ordinary and regular singular points. Asymptotic solutions. Sturm-Liouville theory. Bessel and Legendre functions. Fourier series. Precludes additional credit for MATH 3404 and PHYS 3808.

Prerequisite(s): i) MATH 2000 with a grade of C- or higher, or (MATH 3009 with a grade of B or higher, and permission of the instructor); and ii) MATH 2454 with a grade of C- or higher, or (MATH 2404 with a grade of B or higher, and permission of the instructor).

Lectures three hours a week and one hour tutorial.

MATH 3009 [0.5 credit] Introductory Analysis

The real number system, sequences and series, functions of a single real variable, derivatives, the definite integral, uniform convergence.

Precludes additional credit for MATH 2000.

Prerequisite(s): one of MATH 2004, MATH 2008, MATH 2009, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3057 [0.5 credit]

Functions of a Complex Variable (Honours)

Analytic functions, contour integration, residue calculus, conformal mappings.

Precludes additional credit for MATH 3007 and PHYS 3807.

Prerequisite(s): MATH 2000 with a grade of C- or higher; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3101 [0.5 credit]

Algebraic Structures with Computer Applications

Introduction to algebraic structures: groups, rings, fields, lattices, and Boolean algebras; with applications of interest to students in Computer Science. This course may not be used to meet the 3000-level course requirements in any B.Math or B.Math Honours program in Mathematics and Statistics.

Precludes additional credit for MATH 2108 and MATH 2100.

Prerequisite(s): i) MATH 2107 or MATH 2152; and ii) either COMP 1805 or MATH 1800 (MATH 1800 may be taken concurrently, with permission of the School); or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3106 [0.5 credit]

Introduction to Group Theory (Honours)

Homomorphism theorems; groups acting on sets; permutation groups and groups of matrices; Sylow theory for finite groups; finitely generated abelian groups; generators and relations; applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School. Lectures three hours a week, tutorial one hour a week.

MATH 3107 [0.5 credit]

Linear Algebra III

Similarity and unitary triangularization of matrices. Direct methods of solving a system of linear equations. Iterative techniques. Bounds for eigenvalues. Power method and deflation techniques of approximation. Emphasis is primarily on computational aspects.

Prerequisite(s): i) a grade of C- or higher in MATH 2152 or MATH 2107; and ii) credit in MATH 2052 or MATH 2007; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3108 [0.5 credit] Abstract Algebra II

Groups and rings. Permutations. Finite symmetry groups. Polynomials, unique factorization domains. Quotient rings, ideals. Field extensions, finite fields. Polynomial equations. Geometric constructions - three famous problems: duplication of the cube, trisection of an arbitrary angle, quadrature of the circle.

Precludes additional credit for MATH 3106 and MATH 3158.

Prerequisite(s): MATH 2108, or permission of the School. Lectures three hours a week and one hour tutorial.

MATH 3158 [0.5 credit] Rings and Fields (Honours)

Rings, integral domains, Euclidean and principal ideal domains, fields, polynomial rings over a field, algebraic extensions of fields, the fundamental theorem of Galois theory, finite fields, applications.

Precludes additional credit for MATH 3108.

Prerequisite(s): MATH 2100 with a grade of C- or higher, or (MATH 2108 or MATH 3101 with a grade of B or higher and MATH 1800 with a grade of B or higher and permission of the instructor), or permission of the School. Lectures three hours a week, tutorial one hour a week.

MATH 3206 [0.5 credit] Plane Projective Geometry

Axioms of Desarguesian geometry, principle of duality; projectivities, perspectivities, and the fundamental theorem; collineations (homologies and elations); correlations (polarities and conics); algebraic model; projective curves; introduction to finite projective planes. Precludes additional credit for MATH 3256.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101

Lectures three hours a week and one hour tutorial.

MATH 3210 [0.5 credit] Euclidean and Non-Euclidean Geometry

Euclidean isometry and similarity groups; geometry of

circles; inversion; hyperbolic geometry: Poincare disk model of the hyperbolic plane.

Precludes additional credit for MATH 3205.

Prerequisite(s): MATH 2100 or MATH 2108 or MATH 3101.

MATH 3306 [0.5 credit]

Elements of Set Theory (Honours)

Axioms of set theory. Development of the systems of natural numbers and the real numbers. Axiom of choice, Zorn's lemma, well-ordering. The Schröder-Bernstein theorem, cardinal numbers, ordinal numbers, transfinite induction, cardinal and ordinal arithmetics.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B or higher; and MATH 1800 with a grade of B or higher; and permission of the instructor); or permission of the School. Lectures three hours a week and one hour tutorial.

MATH 3355 [0.5 credit]

Number Theory and Applications (Honours)

Congruences, distribution of primes, arithmetic functions, primitive roots, quadratic residues, quadratic reciprocity law, continued fractions, Diophantine equations, and applications: public key cryptography, primality testing and factoring in relation to cryptography.

Precludes additional credit for MATH 3809.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101 with a grade of B- or higher; and permission of the instructor); or permission of the School.

Lectures three hours a week, tutorial one hour a week.

MATH 3404 [0.5 credit] Ordinary Differential Equations II

Series solutions of ordinary differential equations of second order about regular singular points; asymptotic solutions. Systems of ordinary differential equations of first order; matrix methods. Existence and uniqueness theorems. Nonlinear autonomous systems of order 2; qualitative theory. Numerical solutions of ordinary differential equations.

Precludes additional credit for MATH 3008. Prerequisite(s): MATH 2404, MATH 2008; and MATH 2152 or MATH 2107.

Lectures three hours a week and one hour tutorial.

MATH 3705 [0.5 credit] Mathematical Methods I

Laplace transforms, series solutions of ordinary differential equations, the Frobenius method. Fourier series and Fourier transforms, solutions of partial differential equations of mathematical physics, boundary value problems, applications.

Precludes additional credit for PHYS 3808. This course may be taken for credit as a 3000-level Honours Mathematics course by students in any Honours program in the School of Mathematics and Statistics.

Prerequisite(s): i) MATH 1005 or MATH 2404, and ii) MATH 2004 or MATH 2008 or MATH 2009; or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3800 [0.5 credit]

Mathematical Modeling and Computational Methods

Design and analysis of mathematical models for problems in science. Computational methods, including function evaluation, interpolation, solution of linear equations, root finding, integration, solution of differential equations, Fourier series and Monte Carlo methods.

Includes: Experiential Learning Activity

Also listed as CMPS 3800.

Precludes additional credit for MATH 3806/COMP 3806. Prerequisite(s): i) MATH 1107 or MATH 1104; ii) MATH 1005 or MATH 2007; and iii) knowledge of a computer language.

Lectures three hours a week, laboratory one hour a week.

MATH 3801 [0.5 credit]

Linear Programming

Systems of linear inequalities, formulation of linear programming problems, geometric method, the simplex method, duality theory, complementary slackness, sensitivity analysis, branch-and-bound method and cutting plane method for integer linear programming, applications and extensions.

Precludes additional credit for ECON 4004, SYSC 3200. Prerequisite(s): MATH 2152 or MATH 2107, or permission of the School.

Lectures three hours a week and one hour tutorial.

MATH 3802 [0.5 credit] Combinatorial Optimization

Network flow problems, network simplex method, maxflow min-cut problem, integral polyhedra, minimumweight spanning tree problem, maximum matching problem, maximum stable set problem, introduction to approximation algorithms.

Prerequisite(s): MATH 3801 or permission of the School. Lectures three hours a week, tutorial one hour a week.

MATH 3804 [0.5 credit] Design and Analysis of Algorithms I

An introduction to the design and analysis of algorithms. Topics include: recurrence relations, sorting and searching, divide-and-conquer, dynamic programming, greedy algorithms, NP-completeness.

Also listed as COMP 3804.

Prerequisite(s): i) one of COMP 2402 or SYSC 2100; and ii) one of COMP 2804 or MATH 3855 or MATH 3825 or COMP 3805.

Lectures and tutorials three to four and a half hours a week

MATH 3806 [0.5 credit] **Numerical Analysis (Honours)**

Elementary discussion of error, polynomial interpolation, quadrature, linear systems of equations and matrix inversion, non-linear equations, difference equations and ordinary differential equations. Implementation of numerical methods using a computer language. Includes: Experiential Learning Activity Precludes additional credit for MATH 3800. Prerequisite(s): i) MATH 2000 with a grade of C- or higher; and ii) MATH 1152 with a grade of C- or higher, or (MATH 1107 or MATH 1104 with a grade of B or higher and permission of the instructor).

Lectures three hours a week, laboratory one hour a week.

MATH 3807 [0.5 credit] **Mathematical Software (Honours)**

Implementation of numerical methods using numerical software packages. Development of scientific and/ or operations research applications using application programming interfaces of numerical or optimization libraries. Functional programming for data analysis and machine learning. Experience working with Python, C++, or Java is essential.

Includes: Experiential Learning Activity

Also listed as COMP 3807.

Prerequisite(s): A grade of C- or higher in MATH 3806 or COMP 3806.

Lectures three hours a week, laboratory one hour a week.

MATH 3808 [0.5 credit]

Mathematical Analyses of Games of Chance

This course covers mathematics used in the modern casino gaming industry. The topics include probabilities, odds, house advantages, variance and risks, optimal strategies, random walks and gambler's ruin, and gaming revenue estimation. Examples are taken from various games such as Roulette, Blackjack, and Poker. Prerequisite(s): one of STAT 2655, STAT 2605, STAT 2507, STAT 2606, STAT 3502, or MATH 3825 or MATH 3855.

Lectures three hours a week, tutorial one hour a week.

MATH 3809 [0.5 credit]

Introduction to Number Theory and Cryptography

Congruences, distribution of primes, general cryptographic systems, public key cryptographic systems and authentification using number theory, primality testing and factoring in relation to cryptography, continued fractions and Diophantine equations.

Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100; knowledge of a computer language.

Lectures three hours a week and one hour tutorial.

MATH 3819 [0.5 credit] Modern Computer Algebra

Algorithms for multiplication, division, greatest common divisors and factorization over the integers, finite fields and polynomial rings. Basic tools include modular arithmetic, discrete Fourier transform. Chinese remainder theorem. Newton iteration, and Hensel techniques. Some properties of finite fields and applications to cryptography. Includes: Experiential Learning Activity Prerequisite(s): MATH 2108 or MATH 3101 or MATH 2100, COMP 1005 or equivalent; or permission of

the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

MATH 3825 [0.5 credit] **Discrete Structures and Applications**

Enumeration: elementary methods, inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory and algorithms: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes.

Precludes additional credit for MATH 3805 (no longer offered), and MATH 3855 and COMP 3805. Prerequisite(s): MATH 2108 or MATH 3101. Lectures three hours a week, tutorial one hour a week.

MATH 3855 [0.5 credit]

Discrete Structures and Applications (Honours)

Enumeration: inclusion and exclusion, recurrence relations, generating functions and applications. Graph theory: connectivity, planarity, Hamilton paths and Euler trails. Error-correcting codes. Designs and finite geometries. Symmetry and counting.

Also listed as COMP 3805.

Precludes additional credit for MATH 3805 (no longer offered) and MATH 3825.

Prerequisite(s): MATH 2100 with a grade of C- or higher; or (MATH 2108 or MATH 3101) with a grade of B or higher.

Lectures three hours a week, tutorial one hour a week.

MATH 3907 [0.5 credit] **Directed Studies**

Available only to students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

MATH 3999 [0.0 credit]

Co-operative Work Term Report (Honours)

On completion of each work term, the student must submit to the School of Mathematics and Statistics a written report on the work performed. Graded Sat or Uns. Includes: Experiential Learning Activity

Prerequisite(s): registration in the Co-operative Education Option of an Honours program offered by the School of Mathematics and Statistics, and permission of the School.

MATH 4002 [0.5 credit] Fourier Analysis (Honours)

Fourier series, Fourier integrals; introduction to harmonic analysis on locally compact abelian groups, Plancherel Theorem, Pontryagin duality; selected applications. Prerequisite(s): MATH 3001 or permission of the School. Lectures three hours a week.

MATH 4003 [0.5 credit] Functional Analysis (Honours)

Banach spaces and bounded linear operators, Hahn-Banach extension and separation, dual spaces, bounded inverse theorems, uniform boundedness principle, applications. Compact operators.

Prerequisite(s): MATH 4007 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5008, for which additional credit is precluded.

Lectures three hours a week.

MATH 4007 [0.5 credit]

Measure and Integration Theory (Honours)

Lebesgue measure and integration on the real line; sigma algebras and measures; integration theory; Lp spaces; Fubini's theorem; decomposition theorems and Radon-Nikodym derivatives.

Prerequisite(s): MATH 3001 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5007, for which additional credit is precluded.

Lectures three hours a week.

MATH 4102 [0.5 credit]

Group Representations and Applications (Honours)

An introduction to the group representations and character theory, with selected applications.

Prerequisite(s): MATH 3106, or a grade of B or higher in MATH 3108.

Also offered at the graduate level, with different requirements, as MATH 5102, for which additional credit is precluded.

Lectures three hours a week.

MATH 4105 [0.5 credit]

Rings and Modules (Honours)

Fundamental concepts in rings and modules, structure theorems, applications.

Prerequisite(s): MATH 3158 or permission of the School. Lectures three hours a week.

MATH 4106 [0.5 credit] Group Theory (Honours)

Fundamental principles as applied to abelian, nilpotent, solvable, free and finite groups; representations.

Prerequisite(s): MATH 3106 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5106, for which additional credit is precluded.

Lectures three hours a week.

MATH 4107 [0.5 credit]

Commutative Algebra (Honours)

Fields, including algebraic and transcendental extensions, Galois theory, valuation theory; Noetherian commutative rings, including Noether decomposition theorem and localization.

Prerequisite(s): MATH 3158 or permission of the School. Lectures three hours a week.

MATH 4108 [0.5 credit]

Homological Algebra and Category Theory (Honours)

Axioms of set theory; categories, functors, natural transformations; free, projective, injective and flat modules; tensor products and homology functors, derived functors; dimension theory.

Prerequisite(s): MATH 3158 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5108, for which additional credit is precluded.

Lectures three hours a week.

MATH 4109 [0.5 credit] Fields and Coding Theory (Honours)

Introduction to field theory, emphasizing the structure of finite fields, primitive elements and irreducible polynomials. The influence of computational problems will be considered. Theory and applications of error-correcting codes: algebraic codes, convolution codes, decoding algorithms, and analysis of code performance.

Prerequisite(s): MATH 2100, or MATH 3101 or MATH 2108 or equivalent; or permission of the School.

Lectures three hours a week.

MATH 4205 [0.5 credit]

Introduction to General Topology (Honours)

Topological spaces, maps, subspaces, product and identification topologies, separation axioms, compactness, connectedness.

Prerequisite(s): MATH 3001 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5205, for which additional credit is precluded.

Lectures three hours a week.

MATH 4206 [0.5 credit]

Introduction to Algebraic Topology (Honours)

An introduction to homotopy theory. Topics include the fundamental group, covering spaces and the classification of two-dimensional manifolds.

Prerequisite(s): MATH 3106 and MATH 4205; or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5206, for which additional credit is

Lectures three hours a week.

MATH 4207 [0.5 credit]

Foundations of Geometry (Honours)

A study of at least one modern axiom system of Euclidean and non-Euclidean geometry, embedding of hyperbolic and Euclidean geometries in the projective plane, groups of motions, models of non-Euclidean geometry. Prerequisite(s): MATH 3106 (may be taken concurrently) or permission of the School.

Lectures three hours a week.

MATH 4208 [0.5 credit]

Introduction to Differentiable Manifolds (Honours)

Introduction to differentiable manifolds: Riemannian manifolds; vector fields and parallel transport; geodesics; differential forms on a manifold; covariant derivative; Betti

Prerequisite(s): MATH 3002 or permission of the School. Lectures three hours a week.

MATH 4305 [0.5 credit]

Analytic Number Theory (Honours)

Dirichlet series, characters, Zeta-functions, prime number theorem, Dirichlet's theorem on primes in arithmetic progressions, binary quadratic forms.

Prerequisite(s): MATH 3057 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5305, for which additional credit is precluded.

Lectures three hours a week.

MATH 4306 [0.5 credit]

Algebraic Number Theory (Honours)

Algebraic number fields, bases, algebraic integers, integral bases, arithmetic in algebraic number fields, ideal theory, class number.

Prerequisite(s): MATH 3158 (may be taken concurrently) or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5306, for which additional credit is precluded.

Lectures three hours a week.

MATH 4600 [0.5 credit]

Case Studies in Operations Research (Honours)

Applications of the principles of Operations Research to practical problems in business, management, and science. Students present at least one case and analyze cases in the published literature. Cases may also be presented by visiting practitioners.

Includes: Experiential Learning Activity

Precludes additional credit for Students in Honours Mathematics/Statistics programs may only take course as a free option.

Prerequisite(s): STAT 2509 (or STAT 2559) and MATH 3801; or permission of the School. Seminars three hours a week.

MATH 4700 [0.5 credit]

Partial Differential Equations (Honours)

First-order partial differential equations. Classification of second-order linear partial differential equations: the diffusion equation, wave equation and Laplace's equation; separation of variables; Fourier and Laplace transform methods for the solution of initial/boundary value problems; Green's functions.

Prerequisite(s): MATH 3057 and one of MATH 3008 or MATH 3705, or permission of the School. Lectures three hours a week.

MATH 4701 [0.5 credit]

Topics in Differential Equations (Honours)

Topics in the theory and application of differential equations; for example, hyperbolic systems, fluid dynamics, nonlinear wave equations, optimal mass transport, control theory, calculus of variations. Prerequisite(s): i) MATH 3008; and ii) one of MATH 3001 or MATH 3057; or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5407, for which additional credit is precluded.

Lectures three hours a week.

MATH 4703 [0.5 credit] Dynamical Systems (Honours)

Basic concepts of dynamical systems. Vector formulation for systems. Theory of autonomous systems in one, two and higher dimensions. Limit sets, stability. Phase plane, qualitative interpretation, limit cycles and attractors. Parametric dependence, bifurcations and chaos. Applications.

Prerequisite(s): MATH 3001 and MATH 3008 or permission of the School. Lectures three hours a week.

MATH 4708 [0.5 credit] Asymptotic Methods of Applied Mathematics (Honours)

Asymptotic series: properties, matching, application to differential equations. Asymptotic expansion of integrals: elementary methods, methods of Laplace, stationary phase and steepest descent, Watson's lemma, Riemann-Lebesgue lemma. Perturbation methods: regular and singular perturbation for differential equations, multiple scale analysis, boundary layer theory, WKB theory. Prerequisite(s): MATH 3057 and at least one of MATH 3008 or MATH 3705, or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5408, for which additional credit is precluded.

Lectures three hours a week.

MATH 4801 [0.5 credit] Topics in Combinatorics (Honours)

An in-depth study of one or more topics from: generating functions, Polya's theory of counting, block designs, coding theory, partially ordered sets and Ramsey theory. Prerequisite(s): MATH 2100 and MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4802 [0.5 credit]

Introduction to Mathematical Logic (Honours)

Symbolic logic, propositional and predicate calculi, set theory and model theory, completeness.

Prerequisite(s): MATH 2100 or permission of the School. Lectures three hours a week.

MATH 4803 [0.5 credit] Computable Functions (Honours)

Recursive functions and computability, algorithms, Church's thesis, Turing machines, computational logic, NP-completeness.

Also listed as COMP 4803.

Prerequisite(s): MATH 2100 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4805 [0.5 credit]

Theory of Automata (Honours)

Finite automata and regular expressions, properties of regular sets, context-free grammars, pushdown automata, deterministic context-free languages. Turing machines, the Chomsky hierarchy. Undecidability, intractable problems. Also listed as COMP 4805.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5605, for which additional credit is precluded.

Lectures three hours a week.

MATH 4806 [0.5 credit] Numerical Linear Algebra (Honours)

Matrix computations, conditioning/stability, direct methods for linear systems, classical iterative methods: Jacobi, Gauss-Seidel; modern iterative methods, Arnoldi decomposition, GMRES and other Krylov subspace-based methods for sparse and structured matrices; numerical solution of eigenvalue problems, implementation using suitable programming language, application to differential equations/optimization problems.

Also listed as COMP 4806.

Prerequisite(s): MATH 2152 or MATH 2107; MATH 2000 and MATH 3806; or permission of the School. Lectures three hours a week.

MATH 4807 [0.5 credit] Game Theory (Honours)

One-player games, two-player zero-sum games, multi-player games, games in normal form, games in extensive form, utility theory, Nash equilibrium and Nash arbitration scheme, games in characteristic function form, cooperative solutions, dominations, stable sets, core, Shapley value, applications of game theory. Prerequisite(s): MATH 3801 or permission of the School. Also offered at the graduate level, with different requirements, as MATH 5607, for which additional credit is precluded.

Lectures three hours a week.

MATH 4808 [0.5 credit]

Graph Theory and Algorithms (Honours)

Paths, circuits, Eulerian and Hamiltonian graphs, connectivity, colouring problems, matching, Ramsey theory, network flows.

Prerequisite(s): MATH 3106 or MATH 3158 or MATH 3855 or permission of the School.

Lectures three hours a week.

MATH 4809 [0.5 credit]

Mathematical Cryptography (Honours)

Topics covered include: a general survey of public key cryptography; classical applications of finite fields and number theory; relevant background in geometry and algebraic curves; computational issues concerning elliptic curves; elliptic curve cryptosystems; security issues. Prerequisite(s): MATH 3158, or permission of the School. Lectures three hours a week.

MATH 4811 [0.5 credit]

Combinatorial Design Theory (Honours)

Existence and construction of combinatorial designs: finite geometries, pairwise balanced designs, balanced incomplete block designs, Steiner triple systems, symmetric designs, PBD closure, latin squares, transversal designs, and applications to information theory.

Prerequisite(s): MATH 3855, or permission of the School. Lectures three hours a week.

MATH 4816 [0.5 credit] Numerical Analysis for Differential Equations (Honours)

Floating point arithmetic; numerical solution of ODEs; finite difference methods for PDEs; stability, accuracy and convergence: von Neumann analysis, CFL condition, Lax Theorem. Finite element methods: boundary value problems and elliptic PDEs. Spectral and pseudo-spectral methods.

Prerequisite(s): MATH 2454 and MATH 3806, or permission of the School.

Also offered at the graduate level, with different requirements, as MATH 5806, for which additional credit is precluded.

Lectures three hours a week.

MATH 4821 [0.5 credit]

Quantum Computing (Honours)

Space of quantum bits; entanglement. Observables in quantum mechanics. Density matrix and Schmidt decomposition. Quantum cryptography. Classical and quantum logic gates. Quantum Fourier transform. Shor's quantum algorithm for factorization of integers. Precludes additional credit for COMP 4114. Prerequisite(s): MATH 2152 (or MATH 2107) with a grade of C+ or better, and permission of the School. Also offered at the graduate level, with different requirements, as MATH 5821, for which additional credit is precluded.

Lectures three hours a week.

MATH 4822 [0.5 credit]

Wavelets and Digital Signal Processing (Honours)

Lossless compression methods. Discrete Fourier transform and Fourier-based compression methods. JPEG and MPEG. Wavelet analysis. Digital filters and discrete wavelet transform. Daubechies wavelets. Wavelet compression.

Prerequisite(s): MATH 2152 (or MATH 2107) with a grade of C+ or better, and permission of the School. Also offered at the graduate level, with different requirements, as MATH 5822, for which additional credit is precluded.

Lectures three hours a week.

MATH 4905 [0.5 credit] Honours Project (Honours)

Consists of a written report on some approved topic or topics in the field of mathematics, together with a short lecture on the report.

Includes: Experiential Learning Activity

Prerequisite(s): B.Math.(Honours) students only.

MATH 4907 [0.5 credit] Directed Studies (Honours)

Prerequisite(s): B.Math.(Honours) students only.

Mechanical Engineering (MECH)

Mechanical Engineering (MECH) Courses MECH 3002 [0.5 credit]

Machine Design and Practice

The design of mechanical machine elements is studied from theoretical and practical points of view. Topics covered include: design factors, fatigue, and discrete machine elements. Problem analysis emphasizes the application to practical mechanical engineering problems. Includes: Experiential Learning Activity Prerequisite(s): MAAE 2001 and MAAE 3202.

Prerequisite(s): MAAE 2001 and MAAE 3202.
Lectures three hours a week, problem analysis three hours a week.

MECH 3310 [0.5 credit] Biofluid Mechanics

Applications of fundamental fluid mechanics to human circulatory and respiratory systems. Basic viscous flow theory including: blood flow in the heart and large arteries, air flow in extra-thoracic (nose-mouth throat) airways and lungs

Includes: Experiential Learning Activity
Prerequisite(s): MATH 2004 and MAAE 2300.
Lectures three hours per week, laboratories or tutorials
three hours per week.

MECH 3700 [0.5 credit] Principles of Manufacturing

Manufacturing processes, materials. Casting: solidification and heat flow theory, defect formation, casting design. Metal forming: elementary plasticity theory, plastic failure criteria, force and work calculations. Bulk and sheet forming. Joining: heat flow and defect formation, residual stresses. Machining theory and methods. Hardening: diffusion, wear resistance.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours a week, problem analysis and laboratories three hours a week on alternate weeks.

MECH 3710 [0.5 credit]

Biomaterials

Materials used in biomedical applications: metals, polymers, ceramics and composites. Material response and degradation. Properties of biologic materials; bone, cartilage, soft tissue. Materials selection for biocompatibility.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2700.

Lectures three hours per week, laboratories and problem analysis three hours per week.

MECH 4003 [0.5 credit] Mechanical Systems Design

Design of mechanical systems: establishing design criteria, conceptual design, design economics, value analysis, synthesis and optimization. Mechanical elements/systems: gear and flexible drive systems, fluid power systems. These elements are utilized in group design projects.

Includes: Experiential Learning Activity

Prerequisite(s): MECH 3002 and fourth-year status in

Engineering.

Lectures three hours a week, problem analysis three

hours a week.

MECH 4006 [0.5 credit] Vehicle Engineering I

The course emphasizes the engineering and design principles of road transport vehicles. Topics to be covered include: performance characteristics, handling behaviour and ride quality of road vehicles.

Prerequisite(s): MAAE 3004 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4007 [0.5 credit] Vehicle Engineering II

Engineering and design principles of off-road vehicles and air cushion technology. Topics include: mechanics of vehicle-terrain interaction - terramechanics, performance characteristics of off-road vehicles, steering of tracked vehicles, air cushion systems and their performance, applications of air cushion technology to transportation. Prerequisite(s): MAAE 3004 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4013 [0.5 credit] Biomedical Device Design

Medical Devices: the industry and its regulation. Design methodologies. Examination of specific medical devices: surgical equipment, orthopedic devices, rehabilitation engineering, life support, artificial organs. Case studies. Includes: Experiential Learning Activity
Prerequisite(s): MECH 3710, MAAE 3202, and MECH 4210 and fourth-year status in Engineering. Lectures three hours per week, laboratories or tutorial three hours per week.

MECH 4101 [0.5 credit] Mechanics of Deformable Solids

Course extends the student's ability in design and stress analysis. Topics include: introductory continuum mechanics, theory of elasticity, stress function approach, Lamé and Mitchell problems, stress concentrations, thermoelasticity and plasticity.

Prerequisite(s): MAAE 3202 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4102 [0.5 credit] Corrosion and Corrosion Control

Introduction to corrosion. Corrosion mechanisms. Thermodynamics of corrosion. Electro-chemical kinetics of corrosion. Corrosion: types, prevention, control, testing, monitoring and inspection techniques. Corrosion in specific metals (eg. Fe, Ni, Ti and Al). Corrosion issues in specific industries: power generation and chemical processing industries.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4103 [0.5 credit]

Fatigue and Fracture Analysis

Elastic and elasto-plastic fracture mechanics. Fatigue design methods, fatigue crack initiation and growth Paris law and strain-life methods. Fatigue testing, scatter, mean stress effects and notches. Welded and built up structures. real load histories and corrosion fatique. Damage tolerant design and fracture control plans.

Prerequisite(s): MAAE 3202 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4104 [0.5 credit] **Vibration Analysis**

Free and forced vibrations of one and two degree-offreedom systems. Vibration measurement and isolation. Numerical methods for multi-degree-of-freedom systems. Modal analysis techniques. Dynamic vibration absorbers. Shaft whirling. Vibration of continuous systems: bars, plates, beams and shafts. Energy methods. Holzer

Prerequisite(s): MAAE 3004 and fourth-year status in Engineering or by permission of the department. Lectures three hours per week.

MECH 4105 [0.5 credit]

Introduction to Nuclear Engineering

Atomic theory, nuclear physics, radioactivity, photoelectric effect, mass defect, binding energy, nuclides, neutron diffusion and moderation. Reactor theory, kinetics, control. Reactor types, reactor poisoning, xenon oscillations. Reactor materials, corrosion, fuel and fuel cycle. Nuclear medicine. Radiation protection, reactor safety fundamentals.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4106 [0.5 credit] **Nuclear Power Plant Design**

Elements of design, basic design, and new generation of nuclear reactors. Major systems of CANDU reactor and its safety principles. Balance of Plant Systems. Licensing requirements for design (IAEA, CNSC and USNRC regulations). Analytical/computer codes in safety assessments and design.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department. Lectures three hours per week.

MECH 4107 [0.5 credit] **Internal Combustion Engines**

This course explores the design process of an internal combustion engine including: Internal Aerodynamics, Combustion, Rotating and Reciprocating Components, Structures, Control Systems, Manufacturing and Testing Methods. Students will design/optimize an engine component utilizing industry standard Ricardo Wave simulation software.

Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Lecture three hours per week.

MECH 4210 [0.5 credit] **Biomechanics**

The biomechanics of biological systems; muscles and movement, nerves and motor control. Measurements of motion, strain and neural signals. The hand and manipulation; locomotion and the leg.

Includes: Experiential Learning Activity

Prerequisite(s): MAAE 2101 and fourth-year status in Engineering.

Lectures three hours per week, laboratories or tutorials three hours per week.

MECH 4305 [0.5 credit]

Fluid Machinery

Types of machines. Similarity: performance parameters; characteristics; cavitation. Velocity triangles. Euler equation: impulse and reaction. Radial pumps and compressors: analysis, design and operation. Axial pumps and compressors: cascade and blade-element methods; staging; off-design performance; stall and surge. Axial turbines. Current design practice.

Prerequisite(s): (MAAE 3300 or MECH 3310) and fourthyear status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4401 [0.5 credit] **Power Plant Analysis**

Criteria of merit; selection of power plant for transportation and power generation applications; interrelation among mechanical, thermodynamic and aerodynamic design processes; jet propulsion, turbojets and turbofans; alternative proposals for vehicular power plant; combined cycle applications.

Precludes additional credit for AERO 4402. Prerequisite(s): MAAE 2400 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4403 [0.5 credit] Power Generation Systems

Energy sources and resources. Basic elements of power generation. Hydro-electric, fossil-fuel, fissile-fuel power plants. Geothermal, solar and wind power plants. Economic and environmental considerations. Energy storage. Future power needs.

Precludes additional credit for SREE 4001.

Prerequisite(s): MAAE 2300 and MAAE 2400 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4406 [0.5 credit] Heat Transfer

Mechanisms of heat transfer: fundamentals and solutions. Steady and transient conduction: solution and numerical and electrical analog techniques. Convective heat transfer: free and forced convection for laminar and turbulent flows; heat exchangers. Heat transfer between black and grey surfaces, radiation shields, gas radiation, radiation interchange.

Precludes additional credit for AERO 4446.
Prerequisite(s): MAAE 2400 and (MAAE 3300, MECH 3310, or (ENVE 3001 and permission of the Department of Mechanical and Aerospace Engineering)) and fourth-year status in Engineering.
Lectures three hours a week. Problem analysis and laboratories three hours a week.

MECH 4407 [0.5 credit] Heating and Air Conditioning

Environmental demands for residential, commercial and industrial systems. Methods of altering and controlling environment. Air distribution. Refrigeration methods, equipment and controls. Integrated year-round air-conditioning and heating systems; heat pumps. Cooling load and air-conditioning calculations. Thermal radiation control. Component matching. System analysis and design.

Prerequisite(s): MAAE 2400 and fourth-year status in Engineering or by permission of the department. Lectures three hours a week.

MECH 4408 [0.5 credit]

Thermofluids and Energy Systems Design

Integration of fluid mechanics, thermodynamics, and heat transfer for design of energy conversion systems. Chemical kinetics and mass transfer. Efficient combustion, fuel cells and batteries. Efficient operation and design of engines, power generators, boilers, furnaces, incinerators, and co-generation systems. Emerging energy systems. Prerequisite(s): MAAE 3400 and fourth-year status in Engineering.

Lectures three hours per week.

MECH 4501 [0.5 credit] State Space Modeling and Control

Review of matrices. Geometric structure and dynamics of linear systems. Controllability and observability. Pole placement design of controllers and observers. Design of regulator and servo systems. Transmission zeros. Eigenstructure assignment. Relationship to frequency or classical control techniques. Computer solutions using MATLAB. Applications.

Precludes additional credit for SYSC 5502. Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourthyear status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4503 [0.5 credit] An Introduction to Robotics

History of robotics and typical applications. Robotic actuators and sensors. Kinematics of manipulators, inverse kinematics, differential relationships and the Jacobian. Manipulator dynamics. Trajectory generation and path planning. Robot control and performance evaluation. Force control and compliance. Applications in manufacturing and other industries.

Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourthyear status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4604 [0.5 credit] Finite Element Methods

Finite element methodology with emphasis on applications to stress analysis, heat transfer and fluid flow using the simplest one- and two-dimensional elements. Direct equilibrium, variational and Galerkin formulations. Computer programs and practical applications. Higher order elements.

Prerequisite(s): MAAE 3202 and fourth-year status in Engineering or by permission of department. Lectures three hours a week.

MECH 4704 [0.5 credit] Integrated Manufacturing - CIMS

Overview of the topics essential to CIMS including integration of design and assembly techniques, numerical analysis, statistical process control and related production technologies within the manufacturing enterprise. Prerequisite(s): Fourth-year status in Engineering or by permission of the department.

Also offered at the graduate level, with different requirements, as MECH 5704, for which additional credit is precluded.

Lectures three hours a week.

MECH 4705 [0.5 credit] CAD/CAM

Introduction to contemporary computer aided design and manufacturing (CAD/CAM) Topics covered include mathematical representation, solid modeling, drafting, mechanical assembly mechanism design, (CNC) machining. Current issues such as CAD data exchange standards, rapid prototyping, concurrent engineering, and design for X (DFX) are also discussed.

Prerequisite(s): (AERO 2001 or MAAE 2001) and fourthyear status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4805 [0.5 credit] Measurement and Data Systems

Experimental data, accuracy and uncertainty analysis. Analog systems. Sensors. Signal conditioning. Op-Amps, instrumentation amplifiers, charge amplifiers, filters. Digital techniques. Encoders, A/D D/A converters. Data acquisition using microcomputers. Hardware and software considerations. Interfacing. Applications to measurement of motion, strain, force/torque, pressure, fluid flow, temperature.

Precludes additional credit for ELEC 4805.

Prerequisite(s): ECOR 2050 and fourth-year status in Engineering or by permission of the department.

Lectures three hours a week.

MECH 4806 [0.5 credit] Mechatronics

Introduction to the integration of mechanical, electronic and software components to build mechatronic devices. Mechanical and electrical systems modeling, simulation and implementation. Basic automation and computer requirements. Design tools and examples of mechatronic applications.

Prerequisite(s): (MAAE 3500 or SYSC 4505) and fourthyear status in Engineering or by permission of the department.

Lectures three hours per week.

Mechanical and Aerospace Engineering (MAAE)

Mechanical and Aerospace Engineering (MAAE) Courses

MAAE 2001 [0.5 credit] Engineering Graphical Design

Engineering drawing techniques; fits and tolerances; working drawings; fasteners. Elementary descriptive geometry; true length, true view, and intersection of geometric entities; developments. Assignments will make extensive use of Computer-Aided Design (CAD) and will include the production of detail and assembly drawings from actual physical models.

Includes: Experiential Learning Activity

Also listed as AERO 2001.

Prerequisite(s): Second-year status in Engineering. Lectures and tutorials two hours a week, laboratory four hours a week.

MAAE 2101 [0.5 credit] Engineering Dynamics

Review of kinematics and kinetics of particles: rectilinear and curvilinear motions; Newton's second law; energy and momentum methods. Kinematics and kinetics of rigid bodies: plane motion of rigid bodies; forces and accelerations; energy and momentum methods. Includes: Experiential Learning Activity Precludes additional credit for CIVE 2101. Prerequisite(s): Second-year status in Engineering. Lectures three hours a week, problem analysis three hours a week.

MAAE 2202 [0.5 credit] Mechanics of Solids I

Review of Principles of Statics; friction problems; Concepts of stress and strain at a point; statically determinate and indeterminate stress systems; torsion of circular sections; bending moment and shear force diagrams; stresses and deflections in bending; buckling instability.

Includes: Experiential Learning Activity
Precludes additional credit for CIVE 2200.
Prerequisite(s): Second-year status in Engineering.
Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 2203 [0.5 credit] Mechanics of Solids

Covers the essentials of solids for machine design, failure theories and stress concentrations.
Includes: Experiential Learning Activity
Prerequisite(s): second-year status in Engineering.
Lectures three hours a week, laboratory three hours alternate weeks.

MAAE 2300 [0.5 credit]

Fluid Mechanics I

Fluid properties. Units. Kinematics, dynamics of fluid motion: concepts of streamline, control volume, steady and one-dimensional flows; continuity, Euler, Bernoulli, steady flow energy, momentum, moment of momentum equations; applications. Fluid statics; pressure distribution in fluid at rest; hydrostatic forces on plane and curved surfaces; buoyancy.

Includes: Experiential Learning Activity
Prerequisite(s): Second-year status in Engineering.
Lectures three hours a week, laboratory and problem analysis three hours a week.

MAAE 2400 [0.5 credit]

Thermodynamics and Heat Transfer

Basic concepts of thermodynamics: temperature, work, heat, internal energy and enthalpy. First law for closed and steady-flow open systems. Thermodynamic properties of pure substances; changes of phase; equation of state. Second law: entropy. Simple power and refrigeration cycles. Introduction to heat transfer: conduction, convection, radiation.

Includes: Experiential Learning Activity
Prerequisite(s): Second-year status in Engineering.
Lectures three hours a week, laboratory and problem analysis three hours a week.

MAAE 2401 [0.5 credit]

Mechatronics Thermodynamics and Heat Transfer

Basic concepts of thermodynamics: temperature, work, heat, internal energy and enthalpy. First law for closed and steady-flow open systems. Properties of pure substances. Second law: entropy. Simple power and refrigeration cycles. Introduction to heat transfer: conduction, convection, radiation. Heat exchangers and heat sinks.

Includes: Experiential Learning Activity
Prerequisite(s): Second-year status in Engineering.
Lectures three hours a week, laboratory and problem analysis three hours a week.

MAAE 2700 [0.5 credit] Engineering Materials

Materials (metals, alloys, polymers) in engineering service; relationship of interatomic bonding, crystal structure and defect structure (vacancies, dislocations) to material properties; polymers, phase diagrams and alloys; microstructure control (heat treatment) and mechanical properties; material failure; corrosion.

Includes: Experiential Learning Activity
Precludes additional credit for CIVE 2700.
Prerequisite(s): Second-year status in Engineering.
Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3004 [0.5 credit] Dynamics of Machinery

Kinematic and dynamic analysis of mechanisms and machines. Mechanism force analysis. Static and dynamic balancing. Kinematic and dynamic analysis of cams. Free and forced vibration of single-degree-of-freedom systems. Introduction to multibody dynamics.

Includes: Experiential Learning Activity
Prerequisite(s): MAAE 2101 and MATH 1005.
Lectures three hours a week, problem analysis and laboratories two hours a week.

MAAE 3202 [0.5 credit] Mechanics of Solids II

Stress and strain transformations: torsion of non-circular sections; unsymmetric bending and shear centre; energy methods; complex stresses and criteria of yielding; elementary theory of elasticity; axisymmetric deformations.

Includes: Experiential Learning Activity
Precludes additional credit for CIVE 3202.
Prerequisite(s): MAAE 2202 and MATH 1005 (co-req).
Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3300 [0.5 credit]

Fluid Mechanics II

Review of control volume analysis. Dimensional analysis and similitude. Compressible flow: isentropic flow relations, flow in ducts and nozzles, effects of friction and heat transfer, normal and oblique shocks, two-dimensional isentropic expansion. Viscous flow theory: hydrodynamic lubrication and introduction to boundary layers. Includes: Experiential Learning Activity Prerequisite(s): MATH 2004 and MAAE 2300.

Prerequisite(s): MATH 2004 and MAAE 2300. Lectures three hours a week, problem analysis and laboratory three hours a week.

MAAE 3400 [0.5 credit] Applied Thermodynamics

Gas and vapour power cycles: reheat, regeneration, combined gas/vapour cycles, cogeneration. Heat pump and refrigeration cycles: vapour compression cycles, absorption refrigeration and gas refrigeration. Mixtures of perfect gases and vapours: psychometry and combustion. Principles of turbomachinery.

Includes: Experiential Learning Activity
Prerequisite(s): MATH 1005 and MAAE 2400.
Lectures three hours a week, problem analysis and laboratories three hours a week.

MAAE 3500 [0.5 credit] **Feedback Control Systems**

Introduction to the linear feedback control. Analysis and design of classical control systems. Stability and the Routh-Hurwitz criteria. Time and frequency domain performance criteria, robustness and sensitivity. Root locus, Bode and Nyquist design techniques. Control system components and industrial process automation. Includes: Experiential Learning Activity

Precludes additional credit for MAAE 4500 (no longer offered), SYSC 4505.

Prerequisite(s): MATH 3705 and (SYSC 3600 or SYSC 3610).

Lectures three hours a week, problem analysis and laboratories three hours a week.

MAAE 3505 [0.5 credit]

Mechatronics I

Introduction to mechatronics systems. Lectures, labs, assignments, and a semester-long project to develop a mechatronics system and program microcontrollers. Includes: Experiential Learning Activity Prerequisite(s): ELEC 3508, ELEC 4709, MAAE 3002.

Lectures three hours a week, laboratory three hours a week.

MAAE 3999 [0.0 credit] **Co-operative Work Term**

Includes: Experiential Learning Activity

MAAE 4102 [0.5 credit]

Materials: Strength and Fracture

Analysis and prevention of failures in metals; plasticity analysis and plastic collapse: micro-mechanisms of fracture, conditions leading to crack growth and transition temperature effects, fracture mechanics, fatigue, environmentally assisted cracking, non-destructive evaluation and testing.

Prerequisite(s): MAAE 2202 and MAAE 2700 and fourthvear status in Engineering. Lectures three hours a week.

MAAE 4706 [0.5 credit]

Mechatronics II

Advanced topics in mechatronics, including a semesterlong project to develop a fully integrated mechatronic system.

Includes: Experiential Learning Activity Prerequisite(s): MAAE 3505.

Lectures three hours a week, laboratory three hours a week.

MAAE 4902 [0.5 credit]

Special Topics: Mechanical and Aerospace

Engineering

Selected advanced topics of interest to Aerospace and Mechanical Engineering students, subject to the discretion of the Faculty of Engineering and Design. Prerequisite(s): permission of the Department. Lecture three hours a week.

MAAE 4903 [0.5 credit]

Special Topics: Mech & Aero Eng.

At the discretion of the Faculty, a course may be offered that deals with selected advanced topics of interest to Aerospace and Mechanical Engineering students. Prerequisite(s): permission of the Department. Lecture three hours a week.

MAAE 4904 [0.5 credit]

Special Topics: Mechanical and Aerospace Engineering

Selected advanced topics of interest to Aerospace and Mechanical Engineering students, subject to the discretion of the Faculty of Engineering and Design. Prerequisite(s): permission of department. Lectures three hours a week.

MAAE 4906 [0.5 credit]

Special Topics: Mech and Aero Eng.

At the discretion of the Faculty, a course may be offered that deals with selected advanced topics of interest to Aerospace and Mechanical Engineering students. Prerequisite(s): permission of the Department.

MAAE 4907 [1.0 credit] **Engineering Design Project**

Team project in the design of an aerospace, biomedical, mechanical, or sustainable energy system. Opportunity to develop initiative, engineering judgement, self-reliance, and creativity in a team environment. Results submitted in a comprehensive report as well as through formal oral presentations.

Includes: Experiential Learning Activity Prerequisite(s): Fourth-year status in engineering and (completion of or concurrent registration in AERO 4003, AERO 4842, MECH 4003, MECH 4013, or SREE 4001, or permission of Department). Certain projects may have additional prerequisites.

MAAE 4917 [0.5 credit] Undergraduate Directed Study

Study, analysis, and solution of an engineering problem. Results presented in the form of a written report. Carried out under the close supervision of a faculty member. Intended for students interested in pursuing graduate studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity
Prerequisite(s): permission of the Department and
completion of, or concurrent registration in, MAAE 4907.

Media Production and Design (MPAD)

Media Production and Design (MPAD) Courses MPAD 1001 [0.5 credit]

Introduction to Storytelling: The Context

Theories, origins and evolution of story within society as the digital age shapes the way we construct and consume narratives. How stories are conceived through words, sound and images, and how they resonate with and influence audiences.

Lectures three hours a week.

MPAD 1002 [0.5 credit] Introduction to Storytelling: The Practice

Finding and telling stories in engaging ways using interactive digital mediums. Assignments build basic skills that may include research, interviewing, writing, storytelling, prototyping, editing, and ethics while focussing on how to structure and develop a fact-based digital media project for dissemination.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1001. Workshop three hours a week.

MPAD 2001 [0.5 credit] Basics of Visual Communication I

Introducing visual storytelling through an array of print, digital, and /or interactive media. Students will explore concepts such as visual literacy, rules of composition, and iconography while learning industry-standard software and tools.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002.
Workshop three hours a week.

MPAD 2002 [0.5 credit] Basics of Visual Communication II

This course expands on the concepts introduced in MPAD 2001 while introducing additional visual storytelling theories and skills. Students will explore how visual storytelling is incorporated within multimedia projects using a wide range of techniques and tools.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2001. Workshop three hours a week.

MPAD 2003 [0.5 credit] Introductory Data Storytelling

Governments use data for tracking. Numbers guide public policy and can become powerful and important stories. Students will gain a theoretical understanding of the promise and pitfalls of data availability alongside the practical skills needed for powerful data-based storytelling.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002. Workshop three hours a week.

MPAD 2004 [0.5 credit] Writing for Media

Honing of essential writing skills while building on students' baseline capabilities. Coursework is based on the principle that the best way to improve technique is through regular writing and editing, supported by constructive critiques.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 1002. Workshop three hours a week.

MPAD 2501 [0.5 credit] Media Law

A survey of laws that affect the Canadian media. Specific areas include the development of freedom of expression, the Charter of Rights and Freedoms, and statutory and common law limitations on freedoms of the press, including publication bans, libel and contempt of court. Also listed as COMS 2501, JOUR 2501.

Prerequisite(s): Second-year standing in the Bachelor of Media Production and Design program.

Lectures three hours a week.

MPAD 3000 [0.5 credit] Directed Studies

Directed Studies on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): Third year standing in Media Production and Design or permission from the School of Journalism and Communication.

Unscheduled.

MPAD 3001 [0.5 credit] Storytelling and Social Media

Exploring the different ways social media platforms can be used to tell stories. Through production and/or critiquing of social media content and trends students will learn about social media's impact and how they can be responsible digital citizens.

Includes: Experiential Learning Activity

Prerequisite(s): MPAD 2004. Lecture three hours a week.

MPAD 3002 [0.5 credit] Civics for Journalists

This course offers an overview of key public institutions and civil society organizations in Canada to prepare aspiring journalists to effectively and critically engage with these actors in generating important and illuminating coverage of public affairs.

Also listed as JOUR 2203.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design or the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information.

Lectures three hours a week.

MPAD 3003 [0.5 credit] Minor Design Project

Drawing on the theory and case studies presented in the fall, students will create a multimedia project involving the various development stages that will be employed in the final-year capstone project, including research, project management and/or community engagement.

Includes: Experiential Learning Activity Prerequisite(s): MPAD 2004 and MPAD 3002.

Workshop three hours a week.

MPAD 3300 [0.5 credit] Media Ethics in a Digital World

An examination of ethical issues relating to production of news and other forms of information content, particularly as they relate to digital environments. Discussion of various approaches to ethical decision-making, application in contemporary settings.

Also listed as JOUR 3300. Prerequisite(s): MPAD 2501. Lectures three hours a week.

MPAD 3501 [0.5 credit] Internet and Big Data Law

The legal use of big data to create content and analyze information. Who owns data; privacy and security implications within a legal landscape fraught with legal concerns and policy challenges.

Prerequisite(s): JOUR 2501 or MPAD 2501 and third-year standing in the Bachelor of Media Production and Design or in the Bachelor of Journalism, or third-year standing and enrollment in the Minor in News Media and Information. Lectures three hours a week.

MPAD 3600 [0.5 credit] Special Topic

Examination of a topic in storytelling and media not covered in depth in other courses.

Prerequisite(s): third-year standing in the Bachelor of Media Production and Design program.

Lecture three hours a week.

MPAD 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity Prerequisite(s): MPAD 2002.

MPAD 4000 [1.0 credit] Capstone Project

Student groups work in collaboration with partner organizations from the community to develop capstone projects beginning with story development and planning, completion of a story design document including project description, research, key vistas and sketches/ storyboards. Group presentations lead to final media project in second term.

Includes: Experiential Learning Activity
Prerequisite(s): MPAD 2002, MPAD 3003, ITEC 2100,
ITEC 2400 and fourth-year standing in the Bachelor of
Media Production and Design program.

MPAD 4001 [0.5 credit] Media Industries Now and Next

Changes in the media, the public's relationship with the media and how journalists, news organizations and other media players respond. Practical issues and challenges in the professional life of an information producer.

Also listed as JOUR 4001.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program. Lectures and discussions three hours a week.

MPAD 4200 [0.5 credit]

Freelance Media Survival Skills

Preparation for freelancing to publications and production houses. Resumes, finding potential buyers, interviews, establishing and marketing an individual as a business. Pitching stories, ideas and services.

Prerequisite(s): MPAD 2004 and fourth-year standing in the Bachelor of Media Production and Design program. Lectures three hours a week.

MPAD 4300 [0.5 credit]

Special Topic

Students will choose a topic from a list of journalism options, to be announced each year.

Also listed as JOUR 4300.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4400 [0.5 credit]

Directed Studies

Directed study on select topics. Students interested in pursuing this course need to contact a faculty member to discuss a proposed directed study.

Prerequisite(s): Third year standing in Media Production and Design or permission from the School of Journalism and Communication.

Unscheduled.

MPAD 4403 [0.5 credit]

Professional Skills: Strategic Communication

Workshop pairing student teams with non-profit groups that are in need of strategic communication advice. Instruction in planning and implementation.

Includes: Experiential Learning Activity

Also listed as JOUR 4403.

Prerequisite(s): MPAD 2004 and fourth year standing. Lecture and practicum three hours a week.

MPAD 4500 [0.5 credit] Special Topic

Examination of a topic in storytelling and media not covered in depth in other courses.

Also listed as JOUR 4500.

Prerequisite(s): Fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4501 [0.5 credit]

Gender, Identity and Inequality

How social concepts of gender, identity and inequality influence journalism. Theoretical and textual analysis. Historical and contemporary case studies from mainstream and alternative media exploring journalistic expression, professional practices, status and expectations, and cultural representations.

Includes: Experiential Learning Activity

Also listed as JOUR 4501.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4502 [0.5 credit]

Journalism and Conflict

For as long as there has been conflict between peoples, there have been those who bear witness and recount their observations. This course examines journalism and conflict with an emphasis on journalistic perspectives but also through discussion of interdisciplinary literature and academic research.

Includes: Experiential Learning Activity

Also listed as JOUR 4502.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4503 [0.5 credit]

Journalism, Indigenous Peoples and Canada

Students will explore how journalism in Canada has been associated with colonialism, be challenged to confront misrepresentation in the news media, and learn to consider new strategies and ethical frameworks for covering Indigenous people in the era of reconciliation. Includes: Experiential Learning Activity

Precludes additional credit for JOUR 4503 (no longer offered).

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program. Seminar three hours a week.

MPAD 4504 [0.5 credit]

The Media and International Development

A critical examination of the use of journalism as an instrument of international development, historically and currently. To what extent have these efforts been successful? On what grounds are they justified? In what regard have they been instruments of propaganda. Includes: Experiential Learning Activity

Also listed as IOUD 4504

Also listed as JOUR 4504.

Prerequisite(s): fourth-year standing in the Bachelor of Media Production and Design program.

Seminar three hours a week.

MPAD 4906 [1.0 credit]

Capstone Projects: Translational Approach to Indigenous Community Wellness

This course involves co-developing an Indigenous community-led process or product that addresses a current and specific mental health issue with students from other departments at Carleton University. Involves working in interdisciplinary groups with a community partner. This course may be taken instead of MPAD 4000.

Includes: Experiential Learning Activity Also listed as ENSC 4909, ISAP 4909, NEUR 4906. Precludes additional credit for ENSC 4906. ISAP 4906.

ISAP 4907, ISAP 4908, NEUR 4905, NEUR 4907, NEUR 4908.

Prerequisite(s): MPAD 2002, MPAD 3003, ITEC 2100, ITEC 2400 and fourth-year standing in the Bachelor of Media production and Design program.

Seminars or workshops three hours a week. A field trip to the partner community is typically required.

Medieval and Early Modern Studies (MEMS)

Medieval and Early Modern Studies (MEMS) Courses

MEMS 2001 [0.5 credit]

Discovering the Medieval and Early Modern Past

An introduction to the Late Antique, Medieval and Early Modern worlds. Organized thematically, students will be introduced to interdisciplinary exploration of core topics. Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

MEMS 3001 [0.5 credit]

Researching the Medieval and Early Modern Past

Continued interdisciplinary study of the Late Antique, Medieval and Early Modern worlds, with a focus on how to develop a deeper analysis of the core topics examined in MEMS 2001.

Prerequisite(s): MEMS 2001, or permission of the Program Coordinator.

Lectures three hours a week.

Migration and Diaspora Studies (MGDS)

Migration and Diaspora Studies (MGDS) Courses MGDS 2000 [0.5 credit]

Global Migration and Transnationalism

Introduction to the social, cultural, economic and political implications of the movement of people with a multidisciplinary and multiscale approach to topics such as migration and immigration, diaspora identities, global culture, and transnationalism.

Prerequisite(s): second-year standing. Lecture and discussion three hours a week.

MGDS 4900 [0.5 credit]

Special Topics in Migration and Diaspora Studies

Advanced topics in Migration and Diaspora Studies. Topics vary from term to term.

Prerequisite(s): Fourth-year standing or permission of the department.

Also offered at the graduate level, with different requirements, as MGDS 5900, for which additional credit is precluded.

Seminar three hours a week

Music (MUSI)

Music (MUSI) Courses

Note: the majority of courses are open to non-Majors; students are advised to consult the Discipline. Priority is given to Music students.

MUSI 1003 [0.5 credit] **Understanding Music**

Through musical examples drawn from diverse cultures and historical periods, students develop the ability to describe and analyze different aspects of music and deepen their appreciation of music as a cultural experience. No credit for students in B.Mus, B.A. Honours Music or B.A. Music.

Lectures three hours a week.

MUSI 1020 [1.0 credit] **Thinking About Music**

Introduction to issues and methods in the study of music, explored through case studies drawing from a wide range of musics (including Western art music, global music traditions, popular music, and jazz). Includes an introduction to writing and research about music. Precludes additional credit for MUSI 1000 (no longer offered), MUSI 1001 (no longer offered), MUSI 1002 (no longer offered).

Prerequisite(s): First-year enrollment in a music program (B.Mus, Music BA Honours, Music BA Combined Honours, Music BA, Minor in Music, Certificate in Carillon Studies). Lectures two hours a week. Tutorials 1 hour a week.

MUSI 1107 [0.5 credit]

Elementary Materials of Music

An introduction to the rudiments of music and aural training. Successful completion of this course will fulfill the prerequisite for entry into MUSI 1700.

Lectures three hours a week.

MUSI 1700 [0.5 credit] **Foundations of Music Theory**

An introduction to the organizational principles underlying tonal music including intervals, scales, rhythm, metre, chords, counterpoint, form, cadences, and harmonic progressions.

Prerequisite(s): MUSI 1107, or permission of the Discipline.

Lectures three hours a week.

MUSI 1701 [0.5 credit] **Tonal Music Literacy**

A study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period, with emphasis on the development of analytical and written skills of diatonic music.

Prerequisite(s): MUSI 1700 or permission of the Discipline.

Lectures three hours a week.

MUSI 1711 [0.5 credit] Applied Rhythmic Training I

A study of the rhythm of selected classical, popular, and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity Prerequisite(s): permission of the Discipline. Lectures and workshops three hours a week.

MUSI 1720 [0.5 credit] **Vocal Musicianship**

A study of aural training and musicianship through group and individual singing of selected classical, popular, and world musics.

Includes: Experiential Learning Activity Precludes additional credit for MUSI 1710 (no longer

offered).

Prerequisite(s): permission of the Discipline. Lectures and workshops three hours a week.

MUSI 1900 [0.5 credit] Performance I

Individual vocal or instrumental instruction in classical, traditional or popular idioms, in addition to individual performances and group class instruction. Includes: Experiential Learning Activity Prerequisite(s): audition and enrolment in the B.Mus. program; first-year standing or permission of the Discipline.

MUSI 1901 [0.5 credit] Performance II

Individual vocal or instrumental instruction in classical, traditional or popular idioms, in addition to individual performances and group class instruction. Includes: Experiential Learning Activity Prerequisite(s): MUSI 1900 and enrolment in the B.Mus. program; first-year standing or permission of the Discipline.

MUSI 1914 [0.0 credit]

Ensemble I

Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 1915 [0.0 credit]

Ensemble II

A continuation of MUSI 1914. Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): first-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week

throughout either the fall or winter term and participation in concerts.

MUSI 2005 [0.5 credit] **Jazz History**

A survey of jazz styles from their roots in pre-twentiethcentury music to contemporary jazz idioms. Among others, areas may include New Orleans jazz, swing, bebop, cool jazz, free jazz, Latin jazz, and fusion. Precludes additional credit for MUSI 2205.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 2007 [0.5 credit] Popular Music 1945-1980

History and style of popular musics (primarily in North America and the UK) from the mid-1940s to the 1980s. Among others, areas may include early rock 'n' roll, British blues, soul, country, psychedelia, punk, heavy metal, disco, and hip hop.

Precludes additional credit for MUSI 2207, MUSI 2208, MUSI 2209.

Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 2008 [0.5 credit] Music of the World's Peoples

A survey of musical practices from various regions of the world, with an emphasis on the sociocultural contexts in which those musics are created and performed.

Includes: Experiential Learning Activity Precludes additional credit for MUSI 2300. Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 2009 [0.5 credit]

Music of Asia

A comparative and analytical study of music in Asia, including India, China, Korea, Indonesia, Japan, and the Arabic world, through an examination of the music, musical instruments and theoretical systems. Precludes additional credit for MUSI 2301. Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 2102 [0.5 credit]

Music in an Age of Spectacle, Commerce, and Colonization

The Baroque (1600-1750) was simultaneously shaped by absolutist regimes, competing religions, and an emerging public sphere. Music and culture from Monteverdi to Bach and Handel are investigated in the contexts of power, (geo)politics, religion, aesthetics, gender, socioeconomics, dissemination, genre, and compositional practices.

Precludes additional credit for MUSI 2001. Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 2103 [0.5 credit]

Music in an Age of Order, Invention, and Revolution

Peace and revolution, faith and secularism, noble privilege and bourgeois commerce: fundamental contradictions underlying the creative work of Mozart, Havdn, and Beethoven. This course studies their compositions—operas, sacred works, symphonies, chamber music—within the political, social and cultural institutions of their times (ca. 1730-1815). Precludes additional credit for MUSI 2002, MUSI 2108. Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 2108 [0.5 credit] Western Art Music 1750-1900

Introduction to Western art music of the Classical and Romantic periods. Major musical genres, compositional practices, and cultural contexts are investigated through examinations of representative works. Precludes additional credit for MUSI 1001 (no longer offered), MUSI 2103, MUSI 3408, Prerequisite(s): Second-year standing. Lectures three hours a week.

MUSI 2203 [0.5 credit] Music in Canada

Through an examination of selected genres, practices and creators, this course explores the ways that music participates in shaping complex and often conflicting ideas about nation, place, and identity in Canada. Precludes additional credit for MUSI 2006 (no longer offered), MUSI 3006, MUSI 3103 (no longer offered). Prerequisite(s): Second-year standing. Lectures three hours a week.

MUSI 2601 [0.5 credit]

Orchestration and Instrumentation

Introduction to the fundamentals of effective and professional arranging. All aspects of the various instruments of the orchestra and matters having to do with the practicalities of orchestration for both small and large ensembles, and accepted professional standards of score presentation.

Prerequisite(s): MUSI 1701 and MUSI 1711, or permission of the instructor.

Lecture three hours a week.

MUSI 2602 [0.5 credit] Composition I

Introduction to theories and technicalities involved in original creative writing through the preparation of individual assignments; based in the practice of recent music in the Western Classical tradition while allowing for the music of other Western styles and traditions to be addressed.

Includes: Experiential Learning Activity
Prerequisite(s): MUSI 1701 and MUSI 1711, or
permission of the instructor. MUSI 2601 is recommended.

Lectures and workshops three hours a week.

MUSI 2605 [0.5 credit] Choral Conducting

Introduction to the special stylistic features of choral music from the Renaissance to the present as well as to a variety of practical techniques (vocal production, gesture, conducting patterns, diction, etc.).

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus.

program or permission of the instructor.

Lectures three hours a week.

MUSI 2607 [0.5 credit] Digital Music Literacy

Introduction to music theories and approaches with a focus on knowledge of digital music practices. This course embraces a variety of musical styles and traditions, and introduces students to Digital Audio Workstations, sound synthesis, analytical techniques of sound, and related concepts.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2609 (no longer

offered).

Prerequisite(s): MUSI 1700 and enrolment in the BMus or BA Music program, or permission of the instructor.

Lectures three hours a week.

MUSI 2608 [0.5 credit]

Fundamentals of Electronic Music Production

Theory and practice of electronic music creation, focusing on audio editing, synthesis, sampling, beat-making, signal processing, and sound design, using a variety of professional-grade software packages.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 2603 (no longer offered).

Prerequisite(s): MUSI 2607 and enrolment in the BMus or BA Music program, or permission of the instructor. Lectures three hours a week, plus individual studio time.

MUSI 2700 [0.5 credit] Western Art Music Theory

A continuation of the study of the harmonic, melodic, rhythmic and formal structures of music of the common-practice period and early twentieth century, with emphasis on chromaticism and the development of analytical and written skills.

Prerequisite(s): MUSI 1701 or permission of the instructor. Lectures three hours a week.

MUSI 2701 [0.5 credit]

Popular Music Practice

A study of the rhythmic, melodic, harmonic and formal structures of popular musics.

Prerequisite(s): MUSI 1700 or permission of the instructor. Lectures three hours a week.

MUSI 2703 [0.5 credit] Practical Keyboard Skills

A practical study of rhythm, harmony and melody on the keyboard, with an emphasis on vocal and instrumental accompaniment and the development of improvisation skills in a variety of styles.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1701 or permission of the instructor.

Labs three hours a week.

MUSI 2710 [0.5 credit] Aural Training

A continuation of the study of ear training, sight singing, and basic keyboard skills in relation to classical and popular musics, with emphasis on melodic, harmonic, and formal structures.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1710, MUSI 1720, or permission of

the instructor.

Lectures three hours a week.

MUSI 2711 [0.5 credit] Applied Rhythmic Training II

A continuation of the study of the rhythm of commonpractice and world musics, with emphasis on applied performance, movement, and dictation.

Includes: Experiential Learning Activity Prerequisite(s): MUSI 1700, MUSI 1711.

Lectures and workshops three hours per week.

MUSI 2900 [0.5 credit]

Performance III

A continuation of MUSI 1901.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 1901 with a C+ or higher, or

permission of the Discipline.

MUSI 2901 [0.5 credit] **Performance IV**

A continuation of MUSI 2900.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and MUSI 2900 with a B- or higher, or permission

of the Discipline.

MUSI 2914 [0.0 credit]

Ensemble III

A continuation of MUSI 1915. Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director. Ensemble work approximately two hours a week through either the fall or winter term, and participation in concerts.

MUSI 2915 [0.0 credit]

Ensemble IV

A continuation of MUSI 2914. Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity Prerequisite(s): second-year standing in the B.Mus. program and permission of the Ensemble Director. Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

MUSI 3000 [0.5 credit]

Careers in Music

An introduction to building a career in music and musicadjacent disciplines. Topics include finances; issues in freelance work and private teaching; overview of recording arts; collaboration with other disciplines; and graduate school and other specialized study. Culminates in the creation of an individualized professional portfolio. Prerequisite(s): second-year standing.

Lectures and workshops three hours per week.

MUSI 3006 [0.5 credit] **Popular Music Before 1945**

Selected aspects of the development of popular musics (primarily in North American and the UK) from their roots in the nineteenth century until the mid-1940s. Among others, areas may include blues, country, ragtime and other early commercial dance musics, Tin Pan Alley, and musical theatre.

Precludes additional credit for MUSI 2006 (no longer offered), MUSI 2203.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3104 [0.5 credit]

Popular Musics of Canada

A survey of popular musics in Canada from early colonial times to the present. The course will consider a wide range of musical styles and genres, along with related cultural and historical issues.

Precludes additional credit for MUSI 3100.

Prerequisite(s): second-vear standing.

Lectures three hours a week.

MUSI 3106 [0.5 credit] Popular Musics of the World

Through a series of case studies, this course examines the impacts of various socio-historical phenomena, including globalization, colonialism and technology on popular music practice and consumption in global contexts.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3107 [0.5 credit] Classical Indian Music

An introduction to the history and theory of classical Indian music including ragas, instruments, rhythm and improvisation.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing, or permission of

the instructor.

Lectures three hours a week.

MUSI 3108 [0.5 credit]

Musics of the Middle East and North Africa

An examination of various musics, devotional traditions, and shifting cultural and art movements in the region, resulting from processes of globalization, political change, and technological innovation. Course sessions will include close and critical discussion of selected texts, audio-visual examples, and ethnomusicological documentary films. Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3200 [0.5 credit]

Special Topics

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3201 [0.5 credit] Special Topics

Courses focusing on one selected aspect of music, in the area of musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 3205 [0.5 credit]

Specialized Academic Studies

Course designed for BMus or BA Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course content is planned with a Faculty Supervisor, and instruction is one-on-one.

Prerequisite(s): Proposal, permission of the Program, and a minimum GPA of 9.0 in Music.

Individual instruction.

MUSI 3206 [0.5 credit]

Specialized Performance Studies

Course designed for BMus Honours students who have acquired an extensive background through performance. Course content is planned with the Supervisor of Performance Studies, and instruction is one-on-one. Prerequisite(s): Proposal, permission of the Program, and a minimum GPA of 9.0 in Music.

MUSI 3301 [0.5 credit]

Music, Religion, and Spiritual Practices

Through various case studies, this course considers the role music plays in selected religions and spiritual practices.

Also listed as RELI 3301.

Prerequisite(s): second-year standing.

Seminars three hours a week.

MUSI 3302 [0.5 credit] Music and Gender I

The role of gender in the theory and practice of music in western and non-western cultures.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3303 [0.5 credit]

Principles and Practices of Music Therapy

Literature, practice and theory of music therapy. The use of music (improvisation, the voice, and reception) with various populations, including children and adults with special needs, people in long term care, people with neurological disorders, and in palliative care. Prerequisite(s): second-year standing or permission of the instructor.

Lectures three hours a week.

MUSI 3400 [0.5 credit] A History of Opera before 1800

A survey of the development of opera from the beginnings to about 1800. The major monuments of Italian, French, German and English opera, by such composers as Monteverdi, Cavalli, Scarlatti, Purcell, Lully, Gluck, Rameau, Mozart and Haydn.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3401 [0.5 credit] A History of Opera from 1800 to 1945

A study of romantic and contemporary opera through an examination of selected works from Weber's Der Freischütz to Britten's Peter Grimes, including an investigation of national styles from Wagnerian music drama and Italian verismo to Russian realism and German expressionism.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3402 [0.5 credit]

Film Music

The use of music in film, from the silent era to the present day, studying the techniques, styles and theory of film music through the examination of selected scenes.

Also listed as FILM 3402.

Prerequisite(s): second-year standing.

Lectures three hours a week, screening two hours a week.

MUSI 3403 [0.5 credit]

Music Industries

An introduction to the structure and history of the music industries.

Also listed as COMS 3404.

Prerequisite(s): second-year standing.

Lectures three hours a week.

MUSI 3405 [0.5 credit]

Musical Theatre

A survey of the styles, works, and artists of the musical theatre genre as well as the artistic elements that comprise musical theatre.

Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 3406 [0.5 credit]

Instrumental Music: Music for Orchestra

Origins and development of orchestral music from its beginnings as an independent form in the 18th century to the present. Major symphonies and symphonic poems by composers like Haydn, Beethoven, Liszt, Brahms, Strauss, and Shostakovich. Brief examination of concerto and ballet music.

Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 3407 [0.5 credit]

Instrumental Music: Chamber Music

History of chamber music and the cultural contexts within which it rose to prominence in Europe and North America in the 18th, 19th and 20th centuries. Genres by representative composers including the sonata, duos, trios, quartets, quintets, sextets, divertimenti, and works for small chamber orchestra.

Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 3408 [0.5 credit] Music in an Age of Passio

Music in an Age of Passion, Imagination, and Iconoclasm

This course examines European art music of the nineteenth century, a revolutionary period of socio-political change when inspiration, subjectivity, radical idealism, expressive intensity, cultural nationalism, and the primacy of the individual creative voice were held up as primary aesthetic ideals.

Precludes additional credit for MUSI 2108.

Prerequisite(s): Third-year standing or permission of the instructor.

Seminars three hours a week.

MUSI 3409 [0.5 credit]

Music in an Age of Tumult, Innovation, and Pluralism

A study of western art music of the 20th century. Musical works, compositional techniques and performance practices are examined in the context of musical innovation, social change, political upheaval, and stylistic pluralism in a rapidly changing "modern" world. Prerequisite(s): Third-year standing or permission of the instructor.

Seminars three hours a week.

MUSI 3602 [0.5 credit]

Composition II

Designed to enable students to develop abilities in the writing of original music. The study and appreciation of modern and contemporary styles and techniques are encouraged.

Includes: Experiential Learning Activity
Precludes additional credit for MUSI 3600 (no longer offered).

Prerequisite(s): MUSI 2601, MUSI 2602, and MUSI 2700, or permission of the instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 3603 [0.5 credit] Computer Music Techniques

An introduction to the techniques of sound synthesis primarily through practical experience at the digital synthesizer and computer. The basics of machine operations, software and computer applications to composition and synthesis. Enrolment is limited. Includes: Experiential Learning Activity Prerequisite(s): second-year standing, MUSI 2608 and enrolment in the BMus or BA Music program, or permission of the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3604 [0.5 credit] Computer Music Projects

Examination of the various applications of digital equipment through the realization of original projects. Students may focus on studio composition, software development or analytic research. Appropriate compositional techniques and problem solving strategies are also discussed. Enrolment is limited.

Includes: Experiential Learning Activity
Prerequisite(s): second-year standing, and either MUSI
2603 (no longer offered) or MUSI 2608, or permission of
the instructor.

Lectures three hours a week, plus individual studio time.

MUSI 3605 [0.5 credit] Instrumental Conducting

Introduction to the practice of conducting Instrumental music from the Classical era to the present as well as to a variety of practical techniques (rehearsal techniques, gesture, conducting patterns, score study, etc.). Includes: Experiential Learning Activity Prerequisite(s): second-year standing in the B.Mus. program or permission of the instructor.

MUSI 3606 [0.5 credit]

Live Sound

Theoretical, practical and technical requirements of audio production in live settings are explored through lectures, demonstrations and workshops. Students develop skills in critical listening, pre-production planning, microphone selection and placement, signal routing, audio processing, monitoring and mixing for live event venues. Prior experience not required.

Includes: Experiential Learning Activity Lectures and workshops three hours a week.

MUSI 3700 [0.5 credit] Seminar in Theory and Analysis

Selected topic in music theory. Topics will change yearly and may include: methods of music analysis, analysis of selected works, styles and structures of common practice or post common practice period, music, modal, tonal, or post-tonal counterpoint, history of music theory. Precludes additional credit for MUSI 3500.

Prerequisite(s): MUSI 2700 or permission of the instructor.

Seminars three hours a week.

MUSI 3701 [0.5 credit] **Jazz Styles and Structures**

Techniques of arranging and composition for small and large ensembles will be studied through the examination of selected works drawn from the jazz repertoire. Works will be selected for stylistic and theoretical analysis, for exercises in aural recognition, and for arranging purposes.

Includes: Experiential Learning Activity Precludes additional credit for MUSI 4203 (taken in 1994-95) or MUSI 4204 (taken in 1995-96). Prerequisite(s): MUSI 2701 or permission of the instructor.

Workshops three hours a week.

MUSI 3702 [0.5 credit] Introduction to Physics and Psychoacoustics of Music

Basic topics in physics and psychoacoustics, with an emphasis on those concepts that are most useful for music performance, analysis, composition, and musicology.

Prerequisite(s): second-year standing. Lectures three hours a week.

MUSI 3703 [0.5 credit]

Improvisation in Theory and Practice

Selected forms of improvisation from diverse musical and cultural traditions. In addition to weekly seminar meetings, the class will engage in experiential forms of learning by actively improvising in a weekly performance-oriented seminar

Includes: Experiential Learning Activity Prerequisite(s): third-year standing.

Discussion and performance seminars three hours a

MUSI 3710 [0.5 credit] **Global Music Theories**

A continuation of the study of aural skills, theory and analysis that focuses on global traditions in musicianship and musical practices.

Includes: Experiential Learning Activity

Prerequisite(s): MUSI 1700, MUSI 2710 and MUSI 2711,

or permission of the instructor.

Lectures and workshops three hours per week.

MUSI 3900 [0.5 credit] Performance V

A continuation of MUSI 2901. Includes: Experiential Learning Activity Prerequisite(s): third-year standing in B. Mus. and MUSI 2901 with a B- or higher, or permission of the Discipline.

MUSI 3901 [0.5 credit] Performance VI

A continuation of MUSI 3900.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and MUSI 3900 with a B- or higher, or permission of the

Discipline.

MUSI 3914 [0.0 credit] **Ensemble V**

A continuation of MUSI 2915. Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program and permission of the Ensemble Director.

Ensemble work approximately two hours a week

throughout either the fall or winter term and participation in concerts.

MUSI 3915 [0.0 credit]

Ensemble VI

A continuation of MUSI 3914. Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in the B.Mus. program

and permission of the Ensemble Director.

Ensemble work approximately two hours a week throughout either the fall or winter term and participation in concerts.

concents.

MUSI 4000 [0.5 credit] Performance VII

This is an optional performance course for B.Mus. students with high academic standing.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4900, MUSI 4901,

MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus.,

MUSI 3901, A- or higher average in second- and third-year MUSI performance courses, and permission of the Music performance supervisor.

Individual instruction.

MUSI 4001 [0.5 credit] Performance VIII

This is an optional performance course for B.Mus. students with high academic standing. Includes: Experiential Learning Activity Precludes additional credit for MUSI 4002, MUSI 4003, MUSI 4900 (no longer offered), MUSI 4901, MUSI 4907. Prerequisite(s): fourth-year standing in B.Mus. standing, MUSI 4000 with A- or higher, and permission of the Music performance supervisor. Individual instruction.

MUSI 4002 [0.5 credit] Graduating Demo Recording

A graduation recording of substantial duration arranged in consultation with the discipline. A proposal must be submitted one week before the last day for course changes. All recording costs must be borne by the student.

Includes: Experiential Learning Activity
Precludes additional credit for MUSI 4001, MUSI 4003,
MUSI 4900 (no longer offered), MUSI 4901 (no longer

offered), MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus.,

MUSI 4000 with a grade of A- or higher, and permission of both the relevant associate music instructor and the music performance supervisor.

Individual instruction.

MUSI 4003 [0.5 credit] Graduating Recital

Public recital arranged in consultation with the Supervisor of Performance and Practical Studies. An outline of the program must be submitted one week before the last day for course changes.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 4001, MUSI 4002,

MUSI 4900, MUSI 4901, MUSI 4907.

Prerequisite(s): fourth-year standing in B.Mus., MUSI 4000 with A- or higher, and permission of both the relevant associate music instructor and the Music performance supervisor.

Individual instruction.

MUSI 4005 [0.5 credit] Issues in Jazz Studies

An examination of key issues in the study of jazz including history/historiography, gender, genre, race, politics, identity and performance.

Prerequisite(s): MUSI 2005 and third-year standing.

MUSI 4006 [0.5 credit] Issues in the Study of Popular Music

An introduction to current issues in the study of popular music. The course will be organized around a series of case studies.

Prerequisite(s): Third-year standing, and at least one of MUSI 2005 or MUSI 2007.

Seminars three hours a week.

MUSI 4007 [0.5 credit] The Composer in Context

Examination of the life and music of a selected composer, and the historical, social, cultural, and political factors that shaped the context within which they worked. Focus on history, biography, musical style and analysis.

Prerequisite(s): Fourth-year standing or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4102 [0.5 credit]

Ethnomusicology in Theory and Practice

In this course students learn and apply research methods common to ethnomusicological research, developing an individual ethnographic project that draws on critical contemporary theories in ethnomusicology.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing, or permission of the instructor.

Seminars three hours a week.

MUSI 4103 [0.5 credit]

Music, Migration and Diaspora in Canada

Critical analyses of diversity and multiculturalism narratives in Canada and the ways that settler-colonialism influenced and continues to inform music creation and expression. Various case studies examine the diversity of musics found in Canada and the ways that music facilitates belonging and/or exclusion to community. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5015, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4104 [0.5 credit]

First Peoples Music in Canada

This course examines the role of Indigenous music and musicians in various contemporary issues and priorities for First Peoples in Canada, including political activism, language and cultural maintenance and revitalization, environmental justice and the land, reconciliation and decolonization.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5016, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4105 [0.5 credit] Study of Musics in Africa

This course explores musics in Africa, engaging with issues of colonialism, ownership and copyright, politics and protest, social change, and global relationships. Prerequisite(s): third year standing, or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4200 [0.5 credit]

Special Topics

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. The course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4201 [0.5 credit]

Special Topics

Courses focusing on one selected aspect of music, in the area of either musicology, theory or composition. Course offerings change from year to year.

Prerequisite(s): permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4205 [0.5 credit]

Specialized Academic Studies

Course designed for BMus or BA Music Honours students who have acquired an extensive background through courses in theory, musicology, or composition. Course content is planned with a Faculty Supervisor, and instruction is one-on-one.

Prerequisite(s): Proposal, permission of the Program, and a minimum GPA of 9.0 in Music.

Individual instruction.

MUSI 4206 [0.5 credit]

Specialized Performance Studies

Course designed for BMus Honours students who have acquired an extensive background through performance. Course content is planned with the Supervisor of Performance Studies, and instruction is one-on-one. Prerequisite(s): Proposal, permission of the Program, and a minimum GPA of 9.0 in Music. Individual instruction.

MUSI 4209 [1.0 credit] Specialized Academic Studies

A course designed for BMus or BA Music Honours students who have acquired an extensive background through courses in theory, musicology or composition. Course content is planned with a Faculty Supervisor, and instruction is one-on-one.

Prerequisite(s): Proposal, permission of the Program, and a minimum GPA of 9.0 in Music.

MUSI 4304 [0.5 credit] Music and Globalization

Examining music's role in the multifaceted and complex processes of globalization. Drawing on case studies of "world musics", this course explores how sound and music negotiate histories of post/colonialism, cultural and economic imperialism, and constructions of sameness and difference in "world music" contexts.

Prerequisite(s): fourth-year standing or permission of the instructor.

Also offered at the graduate level, with different requirements, as MUSI 5017, for which additional credit is precluded.

Seminars three hours a week.

MUSI 4306 [0.5 credit]

Music and Wellbeing in a Global Context

An examination of the ways in which music contributes to mental, social and physical wellbeing throughout the world, drawing from the fields of neuroscience, medical ethnomusicology, community music and cross-cultural studies.

Prerequisite(s): fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4307 [0.5 credit]

Music in an Age of Power, Plague, and Courtly Love

The music of the "dark ages" is illuminated in the context of politics, spectacle, devotion, celebration, compositional process, manuscript culture, dissemination, musical notation, plague, and courtly love. "Medievalism" is examined as an aesthetic of the era (ca. 400-1400) and as reinterpreted in our modern world.

Prerequisite(s): Fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4308 [0.5 credit]

Music in an Age of Devotion, Seduction, and Rebirth

This course brings to life the Renaissance (1400-1600), when music played a vital role in lavish courts, grand cathedrals, and vibrant cities. Madrigals, masses, and motets are examined in the context of politics, religion, gender, manuscript and print culture, rhetoric, art, and architecture.

Prerequisite(s): Fourth-year standing or permission of the instructor.

Seminar three hours a week.

MUSI 4602 [0.5 credit] Composition III

A continuation of MUSI 3602, focusing on the development of creative individual approaches to music composition.

Includes: Experiential Learning Activity

Precludes additional credit for MUSI 3600 (no longer

offered).

Prerequisite(s): MUSI 3602, or permission of the

instructor.

Lectures, workshops, and individual consultations three hours a week.

MUSI 4700 [0.5 credit]

Advanced Seminar in Theory and Analysis

A study of a selected topic in music theory. Topics will change yearly and may include: methods of music analysis; analysis of selected works; styles and structures of common practice or post common practice period music; modal, tonal, or post-tonal counterpoint; history of music theory.

Prerequisite(s): MUSI 2700 or permission of the instructor. Seminars three hours a week.

MUSI 4701 [0.5 credit] Introduction to Jazz Arranging

The art of arranging for small and large jazz ensembles is introduced through analysis of recordings by artists such as Duke Ellington, Fletcher Henderson, Count Basie, Rob McConnell, and Maria Schneider. Topics may include 2-, 3-, and 4-voice writing in a jazz idiom.

Prerequisite(s): MUSI 3701 or permission of the instructor. Seminars three hours a week.

MUSI 4702 [0.5 credit]

Topics in Music Perception and Cognition

Selected advanced topics in the perception and cognition of music. Where appropriate, emphasis will be placed upon areas of overlap between psychological research and issues in aesthetics and cultural theory.

Prerequisite(s): third-year standing and MUSI 3702, or permission of the department.

Seminars three hours a week.

MUSI 4704 [0.5 credit]

Tonal Counterpoint

This course deals with the development of writing skills and knowledge of counterpoint as manifest in the Baroque era. Topics may include invention, canon, fugue, dance forms, the compositional language of J. S. Bach, and contrapuntal techniques in the late 18th century and beyond.

Prerequisite(s): MUSI 2700, or permission of the instructor.

Lectures and seminars three hours a week.

MUSI 4705 [0.5 credit]

Post-Tonal Theory and Analysis

Fundamentals of post-tonal music theory and analysis. Neo-tonal, atonal, twelve-tone and third-stream jazz. Students will develop the critical skills to understand these theoretical tools and be conversant with some of the aesthetic precepts associated with them.

Prerequisite(s): MUSI 2700 or permission of the instructor. Lectures and seminars three hours a week.

MUSI 4800 [0.5 credit] Practicum in Music

Practical experience in music-specific projects such as recording studios, librarianship, research, multimedia, etc. at local institutions. Placements are planned with the Practica Supervisor and a proposal is required. A maximum of one credit of practicum may be offered in fulfillment of Music requirements.

Includes: Experiential Learning Activity

Prerequisite(s): BMus or BA Music Honours students with third or fourth-year standing and minimum 9.0 CGPA.

MUSI 4906 [1.0 credit] Honours Portfolio in Composition

The course requires the composition of an original work of substantial proportions, with an accompanying analytical paper. Course content is planned with a Faculty Supervisor, and instruction is one-on-one.

Includes: Experiential Learning Activity Precludes additional credit for MUSI 4600.

Prerequisite(s): Fourth -year standing, MUSI 3602,

proposal, permission of the Program.

MUSI 4908 [1.0 credit] Honours Essay in Musicology

An Honours research essay of approximately 50 pages. Course content is planned with a Faculty Supervisor, and instruction is one-on-one.

Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing, minimum 10.0 CGPA, proposal, and permission of the Program.

MUSI 4909 [1.0 credit] Portfolio in New Media

The course requires the creation of an original work (or works) of substantial proportions using applications in the electronic studios. A high level of independence and originality will be required. Course content is planned with a Faculty Supervisor, and instruction is one-on-one. Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year standing, proposal, and permission of the Program.

MUSI 4914 [0.0 credit] Ensemble VII

A continuation of MUSI 3915. Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the B.Mus.
program and permission of the Ensemble Director.
Ensemble work approximately two hours a week
throughout either the fall or winter term and participation in
concerts.

MUSI 4915 [0.0 credit] Ensemble VIII

A continuation of MUSI 4914. Participation in a vocal or instrumental ensemble, by arrangement with the Supervisor of Performance and Practical Studies. Graded Sat/Uns.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year standing in the B.Mus.
program and permission of the Ensemble Director.
Ensemble work approximately two hours a week
throughout either the fall or winter term participation in
concerts.

Natural Science (NSCI)

Natural Science (NSCI) Courses

NSCI 4901 [1.0 credit]

Science Journalism Independent Project

Students will work with a health or life science research group and deliver an in-depth narrative on the relevant scientific research, lab dynamics and results.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Journalism and at least 3.5 credits completed in the concentration in Health Science, or permission of the School of Journalism and Communication.

Neuroscience (NEUR)

Neuroscience (NEUR) Courses

NEUR 1202 [0.5 credit]

Neuroscience of Mental Health and Psychiatric Disease

Clinical symptoms of psychiatric disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive and anxiety disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, and substance use disorders.

Precludes additional credit for NEUR 1201 (no longer offered).

Lecture three hours a week.

NEUR 1203 [0.5 credit]

Neuroscience of Mental Health and Neurological Disease

Clinical symptoms of neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Lectures three hours a week.

NEUR 2001 [0.5 credit]

Introduction to Research Methods in Neuroscience

A general introduction to research process within neuroscience. Topics covered include research strategies. methods, and techniques; basic descriptive statistics; research communication; and responsible scientific conduct.

Precludes additional credit for PSYC 2000 and PSYC 2001.

Prerequisite(s): second-vear standing.

Lecture three hours a week.

NEUR 2002 [0.5 credit]

Introduction to Statistics in Neuroscience

A general introduction to statistical techniques employed within contemporary neuroscience. Topics covered include basic data analysis using descriptive and inferential statistics (t-tests, ANOVA, correlation, chi-square). Precludes additional credit for ENST 2006, GEOG 2006, PSYC 2002.

Prerequisite(s): PSYC 2001 or NEUR 2001. Lectures three hours a week, online labs/tutorials.

NEUR 2003 [0.5 credit]

Introduction to Techniques in Neuroscience

Introduction to common techniques used in neuroscience research. Brain imaging, animal behaviour, electrophysiology, immunohistochemistry and microscopy, genomics, transgenics, cell culture, and DSM-IV-based clinical assessment.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203. Lectures three hours a week.

NEUR 2004 [0.5 credit]

Fundamentals of Scientific Writing in Neuroscience

Introduction to various forms of scientific writing appropriate to neuroscience, with a focus in fundamental skills in scientific writing.

Includes: Experiential Learning Activity

Prerequisite(s): second-year standing in a Neuroscience program and one of NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and workshops three hours a week.

NEUR 2201 [0.5 credit]

Cellular and Molecular Neuroscience

Core principles in cellular and molecular neuroscience, including signal transmission along and between neurons, ion channels and transporters, intracellular signaling pathways, and regulation of gene expression. Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered). Prerequisite(s): Either NEUR 1201 and NEUR 1203, or NEUR 1202 and NEUR 1203, or both BIOL 1103 and BIOL 1104.

Lectures three hours a week, online labs.

NEUR 2202 [0.5 credit]

Neurodevelopment and Plasticity

Core principles in nervous system development from embryogenesis to plasticity in the adult brain. Topics include neural induction, neurogenesis, apoptosis, neuronal migration and axon growth, synaptogenesis and synaptic pruning both under normal conditions and in psychopathology.

Precludes additional credit for PSYC 3200 (no longer offered) and NEUR 3200 (no longer offered).

Prerequisite(s): NEUR 2201.

Lectures three hours a week, online labs.

NEUR 2801 [0.5 credit]

Neuroscience and Creativity

Abnormal brain function associated with mental illness or substance abuse has been commonly depicted in or been the inspiration for important cultural works including movies, music, paintings and literature. The neurobiological basis of creativity in individuals with and without mental illness.

Prerequisite(s): one of PSYC 1001, NEUR 1201, NEUR 1202 or NEUR 1203.

Lectures and seminars three hours a week.

NEUR 3001 [0.5 credit]

Data Analysis in Neuroscience I

Introducing various software for analyzing neuroscience data. Dealing with real data, drawing graphs, application of descriptive and inferential statistics through the general linear model, assumptions of parametric tests, robust statistics, confidence intervals, correlations, use of appropriate statistical methods and interpretation of results.

Includes: Experiential Learning Activity Prerequisite(s): PSYC 2001 and PSYC 2002, or NEUR 2001 and NEUR 2002.

Lectures three hours a week, online labs/workshops.

NEUR 3002 [0.5 credit]

Data Analysis in Neuroscience II

Use of software for analyzing neuroscience data. Statistical techniques typically include nonparametric tests, t tests, and various forms of both ANOVA and regression including robust statistical tests, with a focus on the practical application of appropriate statistical methods and interpretation of results.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3001.

Lectures three hours a week, online labs/workshops.

NEUR 3003 [0.5 credit] Epidemiology in Neuroscience

Introduction to the principles and methods of epidemiology, study designs, measures of effect, sources of error, confounding, bias, internal and external validity, and causality. The course also will provide an overview of the epidemiological features, and risk factors for common neurological disorders.

Precludes additional credit for HLTH 3201.

Prerequisite(s): NEUR 2002. Lectures three hours a week.

NEUR 3203 [0.5 credit] Field Course in Animal Behaviour

Offered in the Department of Biology as BIOL 3605. Only those modules dealing with animal behaviour topics may be offered for Neuroscience credit.

Includes: Experiential Learning Activity

Also listed as BIOL 3605.

Precludes additional credit for PSYC 3203. Prerequisite(s): permission of the department.

NEUR 3204 [0.5 credit] Neuropharmacology

Overview of chemical neurotransmission and key neurotransmitter systems. A description of licit and illicit drugs covering topics that range from historical perspectives to pharmacology to mechanisms of action in the brain. Discussion of neurochemical basis of psychiatric diseases including anxiety, depression and schizophrenia. Precludes additional credit for PSYC 3204 (no longer offered).

Prerequisite(s): NEUR 2200 or NEUR 2201. Lectures and seminars three hours a week.

NEUR 3206 [0.5 credit]

Sensory and Motor Neuroscience

Exploration of major topics in sensory processing and motor control, with a focus on underlying mechanisms and neurobiological principles. Topics include all sensory systems (such as vision, somatosensation and audition) plus motor system components including lower and upper motor neurons, basal ganglia, and cerebellum.

Includes: Experiential Learning Activity

Precludes additional credit for PSYC 3200 (no longer offered), NEUR 3200 (no longer offered), PSYC 3202 (no longer offered) and NEUR 3202 (no longer offered). Prerequisite(s): NEUR 1201 or both NEUR 1202 and NEUR 1203, and either NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week, laboratory four hours a week

NEUR 3207 [0.5 credit] Systems Neuroscience

Neural systems underlying complex behaviours including emotion, motivation, and sleep, and the role of association cortices in brain function.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 3200 (no longer offered) and PSYC 3200 (no longer offered).

Prerequisite(s): NEUR 3206.

Lectures three hours a week, laboratory four hours a week.

NEUR 3301 [0.5 credit] Genetics of Mental Health

Most common mental health diseases have a genetic component. By focusing on specific diseases, this course will discuss how disease susceptibility genes are identified, and describe the genetic, genomic and epigenetic mechanisms through which DNA alterations can predispose to disease.

Prerequisite(s): BIOL 2104 or BIOL 2107, and NEUR 2200 or NEUR 2201.

Lectures three hours a week.

NEUR 3303 [0.5 credit] The Neuroscience of Consciousness

Consciousness remains one of the least understood aspects of the nervous system. This course explores neural mechanisms underlying consciousness, changes in consciousness associated with sleep, coma, vegetative states, drugs, and other stimuli, and considers the evolutionary basis of consciousness, and its relationship with awareness.

Prerequisite(s): NEUR 2200 or NEUR 2202. Lectures three hours a week.

NEUR 3304 [0.5 credit]

Hormones and Behaviour

The effects of hormones throughout life at all levels of the nervous system. The role of hormones in mediating behaviours that are both basic (feeding, reproduction and social interactions) and complex (motivation, emotion, learning and memory).

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3401 [0.5 credit]

Environmental Toxins and Mental Health

Exposure to environmental toxins from the air, water or food can interfere with neuronal function, alter neurodevelopment, and damage the brain. This course will explore associations between toxins and diseases such as Parkinson's disease, multiple sclerosis and depression, focusing on mechanisms underlying development of pathology.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3402 [0.5 credit]

Impact of Lifestyle and Social Interactions on Mental Health

Healthy lifestyle choices and positive social interactions can reduce the incidence of pathological conditions such as depression, obesity, cardiovascular disease and impaired immunity. This course focuses on psychosocial and neurobiological mechanisms that underlie the relationship between lifestyle, social interactions and health.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3403 [0.5 credit] Stress and Mental Health

Stressful events can have profound repercussions on physical and psychological well-being. This course examines the psychosocial and biological processes by which stressors predispose to both physical (immune-related disorders, diabetes, heart disease) and psychological (acute stress disorder, posttraumatic stress disorder, depression, anxiety) pathologies.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3501 [0.5 credit] Neurodegeneration and Aging

Perspectives on aging and neurodegeneration from psychosocial and neuroscience points of view. How factors including TBI, stroke and alcohol make the brain vulnerable and contribute to neurodegeneration. Clinical overview of Alzheimer's, Parkinson's, Huntington's and ALS and the underlying pathology that differentiates these diseases.

Prerequisite(s): NEUR 2200 or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3502 [0.5 credit]

Neurodevelopmental Determinants of Mental Health

Development of the human brain, the generation and differentiation of the various cell types, and the formation of the vast network of neural connections. How neurodevelopmental dysregulation can result in pathologies including dyslexia, ADHD, schizophrenia and autism

Prerequisite(s): NEUR 2200, or both NEUR 2201 and NEUR 2202.

Lectures three hours a week.

NEUR 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

NEUR 4001 [0.5 credit]

Special Topics in Neuroscience

Each section of NEUR 4001 deals with a different topic. Topics change yearly. Students may register in more than one section of NEUR 4001 but can register in each section only once.

Prerequisite(s): NEUR 3200, or NEUR 3204 and NEUR 3206 and NEUR 3207, or permission of the Department.

Lectures three hours a week.

NEUR 4002 [0.5 credit]

Systematic Reviews and Meta-Analyses

Introduction to the methods used in conducting systematic reviews and meta-analyses. Topics include: conducting literature searches, extracting relevant literature, assessing quality of studies, synthesizing findings across studies, and the statistical methods used to carry out a meta-analysis.

Includes: Experiential Learning Activity
Precludes additional credit for NEUR 4904.
Prerequisite(s): NEUR 3003 or both NEUR 3001 and
NEUR 3002.

Also offered at the graduate level, with different requirements, as NEUR 5203, for which additional credit is precluded.

Lecture three hours a week.

NEUR 4003 [0.5 credit] Knowledge Mobilization

Knowledge mobilization concepts, tools, and frameworks, the challenges and value of translational research, and processes involved in integrated knowledge mobilization. Skills to maximize research impacts will be developed. Includes: Experiential Learning Activity Prerequisite(s): fourth year standing in a Neuroscience program OR permission of the department. Also offered at the graduate level, with different requirements, as NEUR 5801, for which additional credit is precluded.

Includes: Experiential Learning Activity

NEUR 4200 [0.5 credit]

Seminar on Current Advances in Neuroscience

Headline research in neuroscience. Topics may include technical and conceptual advances, ethical issues, medical improvement, and social impacts of neuroscience research.

Precludes additional credit for PSYC 4200 (no longer offered).

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.

Seminar three hours a week.

NEUR 4202 [0.5 credit]

Seminar on Current Research in Neuroscience and Psychiatric Disease

Recent research in clinical neuroscience including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include depressive disorders, schizophrenia, autism, ADHD, anorexia, narcolepsy, substance abuse, and personality disorders.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207. Seminar three hours a week.

NEUR 4203 [0.5 credit]

Seminar on Current Research in Neuroscience and Clinical Neurology

Recent research in neurological disease, including biological, developmental, experiential and environmental factors that contribute to disease. Topics may include stroke, multiple sclerosis, migraine, seizure disorder, Parkinson's disease, ALS, chronic pain, Alzheimer's disease and concussion.

Prerequisite(s): fourth year standing and one of NEUR 3200, NEUR 3206 or NEUR 3207.
Seminars three hours a week.

NEUR 4301 [0.5 credit]

Neurobiology of Energy Homeostasis

Focus on neuroanatomical and molecular mechanisms underlying how mammals adapt to changes and challenges in the environment. Topics include regulation of feeding, energy expenditure, water balance, and temperature regulation.

Prerequisite(s): NEUR 3304. Lectures three hours a week.

NEUR 4302 [0.5 credit] Sex and the Brain

Neurobiological processes behind reproductive behaviours in various animal species including humans. Evaluation of data concerning neurobiological differences between sexes, biological determinants of sexual orientation, and relating to neurobiology of sex disorders. Precludes additional credit for NEUR 3302 (no longer offered).

Prerequisite(s): NEUR 3304. Lectures three hours a week

NEUR 4303 [0.5 credit] Indigenous Health & Mental Health

The physical and mental health issues of Indigenous people in the context of the cultural, environmental, developmental and biological factors that contribute to comorbid conditions and greater risk and resilience. Prerequisite(s): 3rd year standing or above. Lectures three hours a week.

NEUR 4305 [0.5 credit] Immune-Brain Interactions

Communication between the brain and the immune system; messengers mediating the interaction. How disturbances of immune-brain signaling can lead to disease (multiple sclerosis, Parkinson's) and to changes in mood and cognition.

Precludes additional credit for NEUR 3305 (no longer offered).

Prerequisite(s): NEUR 3200 or NEUR 3207. Lectures three hours a week.

NEUR 4306 [0.5 credit]

The Neural Basis of Addiction

How substance and behavioural addictions impact neural function to ultimately lead to the neuropathology of addiction in vulnerable populations. Contemporary neurobiological theories of addiction will also be addressed.

Precludes additional credit for NEUR 3306.

Prerequisite(s): NEUR 3204. Lecture three hours a week.

NEUR 4600 [0.5 credit] Advanced Lab in Neuroanatomy

Advanced experiential learning in neuroanatomy, histology and microscopy.

Includes: Experiential Learning Activity

Prerequisite(s): NEUR 3200 or both NEUR 3206 and NEUR 3207, fourth-year standing in a Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.

Laboratory/tutorials four hours per week.

NEUR 4801 [0.5 credit]

Neuroethics

Ethical issues of key importance to current neurobiological research. Topics may include the use of animals in research, stem cell research, genetic diagnosis and gene therapy, neuroimaging, and the effect on identity and autonomy of manipulations such as psychopharmaceuticals and psychosurgery. Prerequisite(s): NEUR 3200 or both NEUR 3206 and NEUR 3207.

Lectures and seminars three hours a week.

NEUR 4900 [0.5 credit] Independent Study

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally students may not offer more than one credit of independent study in their total program. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth- year standing and permission of the Department.

NEUR 4904 [1.0 credit]

Honours Research Thesis in Systematic Reviews or Meta-Analyses

An independent systematic review or meta-analyses undertaken under the direct supervision of a faculty advisor typically from the Department of Neuroscience. Includes: Experiential Learning Activity
Precludes additional credit for NEUR 4002, NEUR 4905, NEUR 4906, NEUR 4907, NEUR 4908, NEUR 5203.
Prerequisite(s): NEUR 3003 or both NEUR 3001 and NEUR 3002 and fourth-year standing in an Honours Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department.
Colloquia three hours a week.

NEUR 4905 [1.0 credit] Honours Workshop

The course will focus on active learning in areas that include written and oral communication, evaluation and interpretation of results, statistics and data management, emphasizing transferable skills that will be most appropriate for non-research career paths. Includes: Experiential Learning Activity Precludes additional credit for NEUR 4906, NEUR 4907 and NEUR 4908.

Prerequisite(s): fourth-year standing in an Honours Neuroscience program and permission of the Department. Lectures and seminars three hours a week, and colloquia three hours a week.

NEUR 4906 [1.0 credit]

Translational Approach to Indigenous Community Wellness

This course involves co-developing an Indigenous community-led process or product that addresses a current and specific mental health issue. Involves working in interdisciplinary groups with a community partner. Includes: Experiential Learning Activity
Also listed as ENSC 4909, ISAP 4909, MPAD 4906.
Precludes additional credit for ENSC 4906, ISAP 4906, ISAP 4907, ISAP 4908, NEUR 4905, NEUR 4907, NEUR 4908.

Prerequisite(s): Fourth-year standing with a minimum Major CGPA of 10.0 and a grade of A- or higher in one of NEUR 3401, NEUR 3402 or NEUR 3403 and permission of instructor. Prior completion of NEUR 4303 recommended.

Seminars or workshops three hours a week. A field trip to the partner community is typically required.

NEUR 4907 [1.0 credit]

Honours Essay and Research Proposal

An independent essay based critical review and research proposal on a topic in neuroscience, using library resources, under the direct supervision of a Faculty advisor. Evaluation is based on a written report. Includes: Experiential Learning Activity Precludes additional credit for NEUR 4905, NEUR 4906 and NEUR 4908.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum Major CGPA of 9.0 and permission of the Department. Colloquia three hours a week.

NEUR 4908 [1.0 credit] Honours Research Thesis

An independent research project undertaken under the direct supervision of a faculty advisor typically from the Department of Neuroscience. Evaluation is based on a written report and poster.

Includes: Experiential Learning Activity

Precludes additional credit for NEUR 4905, NEUR 4906

and NEUR 4907.

Prerequisite(s): NEUR 3200, or both NEUR 3206 and NEUR 3207, and fourth-year standing in an Honours Neuroscience program, a minimum Major CGPA of 10.0 and permission of the Department. Colloquia three hours a week.

Philosophy (PHIL)

Philosophy (PHIL) Courses

PHIL 1000 [0.5 credit]

philosophy.

Introductory Philosophy: Fields, Figures and Problems

What is metaphysics? Who was Socrates? What is Freedom? This introduction sketches many branches of philosophy and the important problems associated with each. It introduces great philosophers, present and past, and traces enduring philosophical themes.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211, PHIL 1100. This course is not

suitable for students with previous formal study of

PHIL 1100 [1.0 credit] Looking at Philosophy

Introduction to philosophy: the nature of logical thinking; the existence of God; the objectivity of values; the meaning of life; free will, determinism and responsibility; the relation between mind and body; immortality; the possibility of knowledge. This course is not intended for Majors.

Precludes additional credit for FYSM 1208 (no longer offered), FYSM 1211 and PHIL 1000. Lectures three hours a week.

PHIL 1200 [0.5 credit] The Meaning of Life

An introduction to concerns expressed by the perennial philosophical question, "What is the meaning of life?" Students will be familiarized with the major philosophical approaches to life's meaning through a consideration of various contemporary and late modern works in the philosophy of life.

Lectures three hours a week.

PHIL 1301 [0.5 credit] Mind, World, and Knowledge

Introduction to a variety of philosophical works, including contemporary, on such topics as: the nature of being, the mental, the external, consciousness, perception, experience, meaning, truth, the nature of knowledge, scientific understanding, and how language and thought represent the world.

Precludes additional credit for PHIL 1006 (no longer offered), PHIL 1501 (no longer offered). Lectures three hours per week.

PHIL 1500 [1.0 credit]

Contemporary Moral, Social and Religious Issues

Moral theories, atheism or theism, feminism, and free will. Moral arguments concerning abortion, affirmative action, racism, human rights, children's rights, world hunger, capital punishment, euthanasia, censorship, pornography, legal paternalism, animal rights and environmental protection.

Precludes additional credit for FYSM 1209 and PHIL 1550.

PHIL 1550 [0.5 credit]

Introduction to Ethics and Social Issues

An introduction to understanding, assessing, and formulating ethical arguments concerning controversial issues. Particular issues studied may include, world hunger, capital punishment, terrorism, euthanasia, abortion, pornography and hate speech, animal rights, the environment, and topics in theories of race, gender and disability.

Precludes additional credit for FYSM 1212 and PHIL 1500.

Lectures three hours a week.

PHIL 1610 [0.5 credit] Great Philosophical Ideas. Part 1

Major figures and developments in philosophy from the early Greeks to the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments. Precludes additional credit for FYSM 1300, PHIL 1600. Lectures three hours a week.

PHIL 1620 [0.5 credit] Great Philosophical Ideas, Part 2

Major figures and developments in philosophy after the year 1400. Descriptive and comparative approach, providing an understanding of the place of philosophers in the history of thought. Appreciation of critical reasoning is included for comprehending philosophical developments. Precludes additional credit for FYSM 1300, PHIL 1600. Lectures three hours a week.

PHIL 1700 [0.5 credit] Philosophy of Love and Sex

A survey of philosophical classics, on themes of romantic love, self-love, altruistic love, sexuality, eroticism and the passion/reason dichotomy, from Plato's Symposium to Foucault's History of Sexuality; and an examination of related contemporary issues in light of these perspectives. Lectures three hours a week.

PHIL 2001 [0.5 credit] Introduction to Logic

An introduction to the techniques and philosophical implications of formal logic with emphasis on translation of expressions into symbolic form, testing for logical correctness, the formulation and application of rules of inference, and the relation between logic and language. Open to first-year students.

Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2003 [0.5 credit] Critical Thinking

Assessment of reasoning and the development of cogent patterns of thinking. Reference to formal logic is minimal. Practice in criticizing examples of reasoning and in formulating one's own reasons correctly and clearly. Open to first-year students.

Lectures three hours a week.

PHIL 2005 [1.0 credit]

Ancient Philosophy: The Search for Wisdom

An exploration of ancient philosophy as a search for wisdom and happiness from its Presocratic beginnings in Greece to its development in the Hellenistic world and Imperial Rome. Emphasis on philosophy as a contemplative activity and as a way of life. Also listed as CLCV 2105.

Precludes additional credit for PHIL 2006, CLCV 2006, PHIL 2007, CLCV 2007 (no longer offered). Prerequisite(s): 0.5 credit in PHIL, or second-year standing.

Lectures three hours a week.

PHIL 2010 [0.5 credit] Issues in Theoretical Philosophy

Issues drawn from epistemology, metaphysics, philosophy of mind, philosophy of language, and related fields will be examined through careful study of significant philosophical texts after 1900, along with some ensuing debates. Prerequisite(s): enrolment in Honours or Combined Honours Philosophy programs, or in philosophy, Ethics, and Public Affairs, or permission of the Department. Lectures and discussion three hours a week.

PHIL 2020 [0.5 credit] Issues in Practical Philosophy

Issues drawn from ethics, social and political philosophy, and related fields will be examined through careful study of significant philosophical texts , along with some ensuing debates.

Includes: Experiential Learning Activity
Prerequisite(s): enrolment in Honours or Combined
Honours Philosophy programs, or in philosophy, Ethics,
and Public Affairs, or permission of the Department.
Lectures and discussion three hours a week.

PHIL 2101 [0.5 credit] History of Ethics

An introduction to ethical theories through a study of some of the major figures in moral philosophy, such as Aristotle, Hume, Kant and Mill.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

PHIL 2103 [0.5 credit]

Philosophy of Human Rights

Philosophical introduction to human rights sources, concepts, justifications, consequences, and challenges to them. Evolution of selected human rights as a) demands made in political struggles; b) declarations supported by moral or political principles and arguments; c) codes ratified and implemented by governments and international organizations.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2106 [0.5 credit] Information Ethics

An exploration of ethical issues that arise in the Age of Information. Topics to be discussed may include technology, surveillance and privacy, social media and privacy, social media and cognitive bias, bias in algorithms, AI ethics, intellectual property, and freedom of expression and assembly.

Precludes additional credit for PHIL 2104 (no longer offered).

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2120 [0.5 credit] Philosophy of Technology

Philosophical investigations of the nature of technology and the influence it has on our relationships with others, the natural world, and ourselves. Key themes may include the relation between technology and science and the role of technology in personal identity, social justice, and wellbeing.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2201 [0.5 credit] Introduction to Marxist Philosophy

The evolution of Marx's social and political views in the setting of 18 th - and 19 th - century anarchism, liberalism and conservatism. Themes of humanism, freedom, rights, the state, democracy, alienation, and inequality, primarily as they develop into the theory of historical materialism. Precludes additional credit for PHIL 2200.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2202 [0.5 credit] Topics in Marxist Philosophy

The dialectical materialism of Marx, Engels, and Lenin is compared with traditional materialist, idealist, and mechanist philosophy. Marxist views on issues such as equality, ethical objectivity, human well-being, matter and mind, the existence of God, knowledge versus skepticism, freedom of the will, and justice.

Precludes additional credit for PHIL 2200.

Prerequisite(s): PHIL 2201 or 0.5 credit in the history of philosophy at the 2000-level or above.

Lectures three hours a week.

PHIL 2301 [0.5 credit]

Introduction to the Philosophy of Science

Philosophical issues arising out of the attempt to understand the world scientifically. Topics may include: scientific methodology, revolution, observation, explanation, causation, induction, reduction, the difference between natural and social scientific understanding, realism, instrumentalism, constructivism.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2306 [0.5 credit] Philosophy and Feminism

A study of philosophical issues arising from feminism. The course includes discussions of the historical roots of feminism, the role of reason and emotion, key concepts such as oppression, sexism, equality and difference, feminism and philosophies of race and of disability, and selected moral/political issues.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2307 [0.5 credit] Gender and Philosophy

Topics may include gender and sex in the history of philosophy, intersections between the politics and theories of gender, sexuality, and race, the place of the body in philosophical theory, the influence of gender and sex on science/social science, and queer/trans issues and politics.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2320 [0.5 credit]

Children, Literature, and Philosophy

An exploration of issues at the nexus of philosophy, children's literature, and childhood studies. Topics may include an examination of children's books and young adult literature through a philosophical lens, as well as a critical examination of the "philosophy with children" movement.

Includes: Experiential Learning Activity

Prerequisite(s): 0.5 credit in philosophy or second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 2330 [0.5 credit]

Happiness, Well-being, and the Good Life

A philosophical exploration of what makes a good human life. Topics may include the role of happiness, well-being, and flourishing in a good life, the relations between these aspects, and the extent to which they depend on luck and social considerations.

Lectures three hours a week.

PHIL 2340 [0.5 credit]

Philosophy and Popular Culture

Philosophy is all around us, it permeates culture. This course explores philosophical questions through the lens of popular culture. The material used may include films, shows, music, novels, video games, advertising, comic books, and so on.

Lectures three hours a week.

PHIL 2380 [0.5 credit]

Introduction to Environmental Ethics

Major questions in environmental ethics: How should human beings view their relationship to the rest of nature? Is responsible stewardship of the environment compatible with current technology? Must future generations be protected? Do animals, other life forms, endangered species, ecosystems and/or the biosphere have value/ riahts?.

Precludes additional credit for PHIL 1804. Lectures three hours a week.

PHIL 2401 [0.5 credit]

Ethics of Artificial Intelligence

Al and robotic technologies raise pressing ethical issues. Topics discussed may include big data and privacy, the 'black box' problem and bias, human-Al interaction, automation and responsibility, Al codes of ethics, the moral status of AI, and potential risks to humanity posed by superintelligence.

Prerequisite(s): 0.5 credit in PHIL, or second year standing.

Lecture three hours a week.

PHIL 2405 [0.5 credit]

Philosophy of the Paranormal

Examination of claims, concepts, theories and methods in parapsychology. Their scientific character and the relation of paranormal phenomena to philosophical issues such as survival of death, human nature, time, space, causality and perception.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 2408 [0.5 credit] **Bioethics**

Ethical and political issues in medicine, public health, biotechnology, and the life sciences. Topics may include reproductive ethics, research on human subjects, animal research and treatment, justice and health care, physicianpatient relationships, death and the end of life, and genetic engineering.

Precludes additional credit for PHIL 3408.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week. Tutorials may be offered in selected terms.

PHIL 2501 [0.5 credit] **Introduction to Philosophy of Mind**

An introduction to major philosophical issues concerning human cognition. Topics may include: the relation of mind to body, knowledge of other minds, the relation of mental states to personhood and personal identity, mental illness, consciousness, intentionality, action, mental realism. Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

PHIL 2504 [0.5 credit] Language and Communication

Some of the central topics in the study of language and communication as pursued by linguists and philosophers. The nature of meaning; the connections between

language, communication and cognition; language as a social activity.

Also listed as COMS 2504, LING 2504.

Precludes additional credit for COMM 2800, LALS 2504, LALS 2800 and PHIL 2800.

Prerequisite(s): second-year standing.

PHIL 2520 [0.5 credit]

Introduction to Philosophical Logic

An introduction to features of rational thinking activity, its expression, and its relation to the world, focusing on such topics as predication, truth, negation, necessity, entailment, logical form, or quantification.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2540 [0.5 credit]

Personal Identity and the Self

Philosophical perspectives on personal identity, the self, and the underlying issue of the relationship of the mind to the body. Both philosophical and psychological concepts of identity are discussed, as are related issues such as memory, introspection, and self-knowledge.

Precludes additional credit for PHIL 2502.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2550 [0.5 credit] Moral Psychology

An examination of psychological underpinnings of morality, focusing on studies at the intersection of philosophy, psychiatry, and psychology.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2601 [0.5 credit] Philosophy of Religion

A study of philosophical issues arising from religion. Topics may include: arguments for and against the existence of God, religious experience, death and the afterlife, miracles, God and evil, the relationship between religion and science, and the relationship between religion and ethics.

Also listed as RELI 2738.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 2700 [0.5 credit] Asian Philosophy

An examination of South Asian and East Asian philosophical texts, from the period of the Upanishads and early Buddhism in India to modern philosophical movements. Historical sources may include Hindu, Buddhist, Jain, Confucian or Taoist texts, with a focus on metaphysical, epistemological or ethical themes. Prerequisite(s): second-year standing.

Lectures three hours a week. May be offered as an online course in selected terms.

PHIL 2807 [0.5 credit] Philosophy of Art

Philosophical approaches to the study of art. Topics such as: the nature of art and artistic value; representation and symbolism in art; art and artifice; art and the emotions; art, culture and ideology; post-structuralism and art; theories of creativity; relationship between artworks and audiences. Also listed as ARTH 2807.

Lecture three hours a week.

PHIL 2901 [0.5 credit] Truth and Propaganda

Ancient and modern techniques of persuasion from analytical, ethical and jurisprudential perspectives. Objectivity and bias, advertising and public relations ethics, the viability of democracy in the light of pressures on and within the modern mass media.

Precludes additional credit for PHIL 2900 (no longer offered).

Prerequisite(s): 0.5 credit in PHIL or second-year standing.

Lectures three hours per week.

PHIL 3000 [0.5 credit] Topics in Ancient Philosophy

A study of philosophers, texts, problems and issues in ancient philosophy, generally with a focus on Plato and Aristotle.

Also listed as CLCV 3011.

Prerequisite(s): 0.5 credit in philosophy and second-year standing, or permission of the department.

Lectures three hours a week.

PHIL 3001 [0.5 credit] Early Greek Philosophy

A study of the pre-Socratic Greek philosophers and of the Sophists and Socrates.

Also listed as CLCV 3001.

Prerequisite(s): CLCV 2105 or PHIL 2005 or permission of the Department.

Lectures three hours a week.

PHIL 3002 [0.5 credit] 17th Century Philosophy

European philosophy of the 17 th century. Representative works of writers such as Francis Bacon, Descartes, Spinoza, Leibniz, and Locke.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

PHIL 3003 [0.5 credit] **18th Century Philosophy**

European philosophy of the 18 th century. Representative works of writers such as Berkeley, Hume, and Kant. Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures three hours a week.

PHIL 3005 [0.5 credit] 19th Century Philosophy

European philosophy in the 19 th century. May include Hegel, Marx, Schopenhauer, Kierkegaard, Nietzsche, Mill. Precludes additional credit for PHIL 3007.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the Department.

Lectures three hours a week.

PHIL 3009 [0.5 credit]

Topics in European Philosophy

A study of philosophers, texts, problems and issues in any period of European philosophy.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3010 [0.5 credit]

Special Topics in Global Philosophical Traditions

A study of philosophers, texts, and doctrines beyond the Western tradition. Traditions covered will vary but may include Asian, African, Muslim or Indigenous philosophy, possibly with critical comparison to Western counterparts. Precludes additional credit for PHIL 2004.

Prerequisite(s): 0.5 credit in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3102 [0.5 credit]

Philosophy of Law: The Logic of Law

Legal reasoning and analysis of concepts of particular significance to the law, including justice, rights and duties, liability, punishment, ownership and possession. Also listed as LAWS 3102.

Prerequisite(s): 0.5 credit in philosophy or permission of the Department.

Lectures three hours a week.

PHIL 3104 [0.5 credit] The Roots of Analytic Philosophy

In the context of the work of such writers as Frege and Bradley, a discussion of early philosophical works of Russell, Moore and Wittgenstein. In addition some early representatives of positivism and pragmatism may be examined.

Prerequisite(s): 0.5 credit in philosophy and second-year standing in a philosophy program, or permission of the department.

Lectures and seminar three hours a week.

PHIL 3140 [0.5 credit] **Epistemology**

Fundamental issues concerning the relation between evidence, rationality, and knowledge. Topics may include: skepticism, the nature of belief, the structure of justification, the relative contributions of reason and sense experience to knowledge, innate knowledge, the problem of induction, and the knowledge of other minds. Precludes additional credit for PHIL 2300.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program or permission of the department.

PHIL 3150 [0.5 credit] Metaphysics

Philosophical issues concerning the fundamental nature of being. Topics may include: time and temporality, space, substance, universals/particulars, identity, causation, freedom/determinism, the nature of norms.

Precludes additional credit for PHIL 2302.

Prerequisite(s): 0.5 credit in philosophy and third-year standing in a philosophy program, or permission of the department.

PHIL 3301 [0.5 credit]

Issues in the Philosophy of Science

Selected topic(s) in the philosophy of science, such as its relationship to values, or in the philosophy of a particular science (such as philosophy of mathematics, philosophy of physics, philosophy of biology, and philosophy of the social sciences).

Prerequisite(s): PHIL 2301 or permission of the department.

PHIL 3306 [0.5 credit] Symbolic Logic

A review of the basic techniques of propositional and predicate logic. Natural deduction and consistency trees. Soundness and completeness. Alternative semantics. Extensions to basic logic: identity, modal logic with possible world semantics, three valued systems, deontic logic.

Precludes additional credit for PHIL 3305. Prerequisite(s): PHIL 2001 or permission of the Department.

Lectures three hours a week.

PHIL 3320 [0.5 credit] Contemporary Ethical Theory

Critical study of modern ethical theories, their views on the nature of morality and the justification of moral claims. Topics may include utilitarianism, libertarianism, communitarianism, egoism, neo-Kantianism, virtue ethics, social contract ethics, feminist ethics, and moral rights. Precludes additional credit for PHIL 2102.

Prerequisite(s): PHIL 2020 or PHIL 2101 or permission of the department.

Lectures three hours a week.

PHIL 3330 [0.5 credit]

Topics in History of Social and Political Philosophy

A critical examination of selected topics and perspectives in the history of social and political philosophy.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year

standing.
Lectures three hours a week.

PHIL 3340 [0.5 credit]

Topics in Contemporary Social and Political Philosophy

A critical examination of some contemporary approaches to topics in social and political philosophy, such as liberalism, feminism, contractarianism, Marxism, libertarianism, and communitarianism.

Precludes additional credit for PHIL 3300.

Prerequisite(s): a course in philosophy or second-year standing.

Lectures three hours a week.

PHIL 3350 [0.5 credit]

Philosophy, Ethics, and Public Affairs

Advanced study of a set of public policy issues, a particular theory or group of theories, or a particular philosopher, concerning philosophical and ethical aspects of public affairs.

Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3360 [0.5 credit]

Philosophy, Economics, and Public Policy

The course explores issues at the intersection of philosophy and economics, with a special focus on socially and politically relevant issues. Topics may include: efficiency, cooperation, equity and distributive justice, commodification and the moral limits of markets. Prerequisite(s): third-year standing or permission of the department.

Lectures three hours a week.

PHIL 3380 [0.5 credit] Environments, Technology and Values

Advanced treatment of ethical issues concerning technologies and environments, including: sustainable development, women and the environment, biological diversity, intrinsic or natural value or rights of non-humans, humans' relation to the rest of the natural world, obligations to future generations, liberty versus equality. Precludes additional credit for PHIL 2804.

Prerequisite(s): PHIL 1804 or PHIL 2380 and third-year standing, or permission of the Department. Lectures three hours a week.

PHIL 3450 [0.5 credit] Topics in Aesthetics

Topics may include theories of aesthetic norms and valuation from ancient Greece onward, or applications of aesthetic theory to various genres of art.

Precludes additional credit for PHIL 2400, PHIL 3400, PHIL 3401, and PHIL 3402.

Prerequisite(s): At least 0.5 credit in philosophy, or HUMS 1000, or ARTH 2807, or permission of the Department.

Seminar two hours a week.

PHIL 3501 [0.5 credit] Philosophy of Cognitive Science

Philosophical issues arising from cognitive science. Topics may include: the proper methodology for studying the mind, the very possibility of a "science of mind", the computer model of the mind and reactions to it. Prerequisite(s): PHIL 2501 or PHIL 2502 or second-year standing in Cognitive Science, or permission of the department.

PHIL 3502 [0.5 credit] Mind and Action

Philosophical thought concerning the relation between mentality and agency. Topics may include: the relation between belief, desire, and behaviour; rationality and normativity; representing and doing; subjectivity and intersubjectivity; physical and psychological laws; mental causation. Authors may include: Wittgenstein, Heidegger, Ryle, Sellars, Anscombe, Davidson, Taylor, McDowell. Prerequisite(s): PHIL 2501 or PHIL 2502, or permission of the Department.

PHIL 3503 [0.5 credit] Artificial Intelligence: Philosophical and Ethical Issues

Topics examined through the lens of philosophy and cognitive science may include humans' obligations towards AI, sentient AI, implications of AI for models of cognition, designing ethical AI systems, implications of using AI in healthcare, and social inequality and job displacement related to AI.

Also listed as CGSC 3603.

Prerequisite(s): CGSC 2001 or PHIL 2501 and third-year standing in Cognitive Science or Philosophy. Seminar 3 hours per week.

PHIL 3504 [0.5 credit] Pragmatics

The study of language use in its conversational and cultural contexts. Topics include: conversational implicature; deixis; the semantics-pragmatics boundary; speaker's reference; speech acts. May include cross-cultural pragmatics.

Also listed as LING 3504.

Precludes additional credit for LALS 2800 [1.0], LALS 3504, MCOM 2800 [1.0], MCOM 3504 and PHIL 2800 [1.0].

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/ LING 3505/PHIL 3506; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3506 [0.5 credit] Semantics

Study of language meaning. Lexical meaning and meanings of larger linguistic expressions, including nominal units, verbal units, and sentences. Meaning relationships between utterances. Relationship between linguistic meaning (semantics) and contextual meaning (pragmatics). Basic formal treatments of semantics. Also listed as LING 3505.

Precludes additional credit for LALS 3505.

Prerequisite(s): third-year standing, and one of LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/ LING/COMM/MCOM 2504 or PHIL/LALS/LING 3504; or permission of the Department of Philosophy or School of Linguistics and Applied Language Studies.

Lectures three hours a week.

PHIL 3530 [0.5 credit] Philosophy of Language

An intensive introduction to philosophy of language. Topics may include meaning, reference and truth, speech acts, the nature of concepts, language learning, metaphor, compositionality, context-sensitivity.

Prerequisite(s): third-year standing, and one of FYSM 1206, LALS 1000, LALS 1001, LING 1001, PHIL 2001, PHIL/LALS/LING/COMM/MCOM 2504 or LALS/LING 3504 or LALS/LING 3505/PHIL 3506; or permission of the department.

Lectures three hours a week.

PHIL 3540 [0.5 credit] Philosophy of Emotions

Emotions are central to human experience and widely studied in philosophy and science. In order to better understand them and their role in our lives, this course explores philosophical questions about emotions as they arise in philosophy of mind and cognitive science, ethics, and aesthetics.

Prerequisite(s): PHIL 2501, or permission of the department.

Lectures three hours a week.

PHIL 3901 [0.5 credit] Independent Study

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3902 [0.5 credit] Independent Study

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3903 [0.5 credit] Independent Study

Essays and/or examinations based on a list of readings provided by the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3906 [0.5 credit] Independent Study

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3907 [0.5 credit] Independent Study

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 3908 [0.5 credit] Independent Study

Essays and/or examinations based on a bibliography constructed by the student in consultation with the instructor.

Prerequisite(s): normally restricted to students with at least 3.0 credits in philosophy and with high standing in philosophy courses and permission of the Department.

PHIL 4003 [0.5 credit]

Seminar in philosophy Before the Modern Period

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4004 [0.5 credit]

Seminar in philosophy Before the Modern Period

Detailed study of selected philosophers or issues in philosophy before the modern period.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4005 [0.5 credit] Seminar in Modern Philosophy

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4006 [0.5 credit] Seminar in Modern Philosophy

Detailed study of selected philosophers or issues in modern philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5600, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4007 [0.5 credit]

Seminar in Contemporary Philosophy

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4008 [0.5 credit]

Seminar in Contemporary Philosophy

Detailed study of selected philosophers or issues in contemporary philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5500, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4055 [0.5 credit]

Lexical Semantics

Study of the meaning of words. Topics may include lexical decomposition, meaning variation, lexical relations, and lexical aspect.

Also listed as LING 4510.

Precludes additional credit for LING 4055 (no longer offered).

Prerequisite(s): LING 3505 or PHIL 3506. Also offered at the graduate level, with different requirements, as LING 5510 and PHIL 5660, for which additional credit is precluded.

Seminars three hours a week.

PHIL 4100 [0.5 credit] **Special Topic**

Detailed study of a special topic in philosophy. Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5000, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4210 [0.5 credit]

Seminar in Philosophy of Language or Linguistics

Detailed study of selected issues or the work of selected philosophers in philosophy of language or on philosophical topics in linguistics.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4220 [0.5 credit]

Seminar in philosophy of Mind or Cognition

Detailed study of selected issues or the work of selected philosophers in philosophy of mind or philosophical aspects of cognition.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the

Also offered at the graduate level, with different requirements, as PHIL 5200, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4230 [0.5 credit]

Seminar in Metaphysics, Epistemology, or Philosophy of Science

Detailed study of selected issues or the work of selected philosophers in metaphysics, epistemology, or philosophy of science.

Prerequisite(s): eligibility for fourth year standing in a Philosophy Honours programme or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5250, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4300 [0.5 credit]

Seminar in Ethical Theory or Meta-Ethics

Detailed study of selected issues pertaining to ethical theory or issues of meta-ethics such as realism, relativism, moral knowledge.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5300, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4320 [0.5 credit]

Seminar in Ethics or Moral Philosophy

Detailed study of selected issues in ethics or moral philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4330 [0.5 credit]

Seminar in Social or Political Philosophy

Detailed study of selected issues in social or political philosophy.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Also offered at the graduate level, with different requirements, as PHIL 5350, for which additional credit is precluded.

Seminar three hours a week.

PHIL 4403 [0.5 credit]

Special Topic in Applied Ethics

Detailed study of a special topic in applied ethics. Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4404 [0.5 credit]

Special Topic in Applied Ethics

Detailed study of a special topic in applied ethics. Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4405 [0.5 credit]

Special Topic in Aesthetics or Philosophy of Art

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4406 [0.5 credit]

Special Topic in Aesthetics or Philosophy of Art

Detailed study of a special issue or a single author in aesthetics and/or philosophy of art.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4407 [0.5 credit]

Special Topic in Philosophy of Law

Detailed study of a special topic in philosophy of law. Also listed as LAWS 4103.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4408 [0.5 credit]

Special Topic in Philosophy of Law

Detailed study of a special topic in philosophy of law. Also listed as LAWS 4104.

Prerequisite(s): eligibility for fourth-year standing in a Law or Philosophy Honours program or permission of either Department.

Seminars three hours a week.

PHIL 4503 [0.5 credit]

Special Topic in Philosophy of Computing

Detailed study of a special topic in philosophy of computing

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4504 [0.5 credit]

Special Topic in Philosophy of Computing

Detailed study of a special topic in philosophy of computing.

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4505 [0.5 credit]

Formal Semantics

Advanced topics in compositional semantics and its interfaces. Topics may include: logic, semantic types, lambda calculus, intentional contexts, possible world semantics, interfaces with syntax and pragmatics quantification, anaphora, presupposition, implicatures, scope and binding, and model theory.

Also listed as LING 4505.

Precludes additional credit for LALS 4507 (no longer offered).

Prerequisite(s): LALS 3505 or LING 3505 or PHIL 3506 or permission of the Department of Philosophy or School of Linguistics and Language Studies.

Seminars three hours a week.

PHIL 4603 [0.5 credit]

Special Topic in Feminist Philosophy

Detailed study of a special topic in feminist philosophy. Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4604 [0.5 credit]

Special Topic in Feminist Philosophy

Detailed study of a special topic in feminist philosophy. Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4606 [0.5 credit]

Special Topic in Continental Philosophy

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4607 [0.5 credit]

Special Topic in Continental Philosophy

Prerequisite(s): eligibility for fourth-year standing in philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4701 [0.5 credit]

Special Topic in Logic

Detailed study of a special topic in Logic. Prerequisite(s): eligibility for fourth-year standing in

a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4702 [0.5 credit] Special Topic in Logic

Detailed study of a special topic in Logic.

Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4703 [0.5 credit]

Special Topic in Philosophical Logic

Detailed study of a special topic in Philosophical Logic. Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4704 [0.5 credit]

Special Topic in Philosophical Logic

Detailed study of a special topic in Philosophical Logic. Prerequisite(s): eligibility for fourth-year standing in a Philosophy Honours program or permission of the Department.

Seminar two hours a week.

PHIL 4900 [1.0 credit]

Tutorial

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4901 [0.5 credit]

Tutorial

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4902 [0.5 credit]

Tutorial

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

Tutorial

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4904 [0.5 credit]

Tutorial

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

PHIL 4906 [0.5 credit]

Tutorial

Prerequisite(s): permission of the Department. Note: Students who wish to enrol in a tutorial course must consult the Undergraduate Supervisor, before registration.

Physics (PHYS)

Physics (PHYS) Courses

PHYS 1001 [0.5 credit] Foundations of Physics I

This calculus-based course on classical mechanics covers kinematics, dynamics, gravitation, and oscillatory motion. This is a specialist course for students intending to take further courses in physics.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1002, BIT 1203,
PHYS 1003, PHYS 1007, PHYS 1107.

Prerequisite(s): Grade 12 Mathematics: Advanced Functions and Grade 12 Mathematics: Calculus and Vectors or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently); or permission of the Physics Department. Grade 12 Physics is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1002 [0.5 credit] Foundations of Physics II

An introduction to electricity, magnetism, electromagnetic fields, and wave motion. This is a specialist course for students intending to take further courses in physics. Includes: Experiential Learning Activity
Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1004, PHYS 1008, PHYS 1108.

Prerequisite(s): PHYS 1001, or PHYS 1003, or PHYS 1007 with a grade of B-; MATH 1004 or MATH 1002 (may be taken concurrently) or MATH 2052 (may be taken concurrently); or permission of the Department. Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1003 [0.5 credit]

Introductory Mechanics and Thermodynamics

Mechanics, gravitation, oscillations, and thermodynamics. The application of calculus to solve problems in these areas of physics is introduced. This course is intended for students in the physical sciences and engineering. Includes: Experiential Learning Activity Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1007, PHYS 1107.

Prerequisite(s): Grade 12 Physics or equivalent, plus Grade 12 Mathematics: Advanced Functions or equivalent, plus one of MATH 1004 or MATH 1002 or MATH 1052 (the MATH course may be taken concurrently). Note that Grade 12 Mathematics: Calculus and Vectors is strongly recommended.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1004 [0.5 credit]

Introductory Electromagnetism and Wave Motion

This calculus-based course introduces potential energy, work, electricity, magnetism, oscillations and waves. Includes: Experiential Learning Activity
Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1008, PHYS 1108.

Prerequisite(s): MATH 1004, ECOR 1101 or ECOR 1053 or (ECOR 1045 and ECOR 1048) or (ECOR 1033 and ECOR 1034)(the ECOR courses may be taken concurrently) or PHYS 1001 or PHYS 1003 or PHYS 1007 (a grade of at least B- is required for PHYS 1007), or permission of the Department.

Lectures three hours a week, laboratory or tutorial three hours a week.

PHYS 1007 [0.5 credit] Elementary University Physics I

Mechanics, properties of matter, thermodynamics. Applications chosen in part from the life sciences. For students who lack the prerequisites for PHYS 1001 or PHYS 1003, or who do not intend to take upper-year courses in physics.

Includes: Experiential Learning Activity
Precludes additional credit for BIT 1002, BIT 1203,
PHYS 1001, PHYS 1003, PHYS 1107.
Prerequisite(s): (i) Grade 12 Mathematics: Advanced
Functions or equivalent, or MATH 0107 (may be taken
concurrently): or (ii) Grade 12 Mathematics: Calculus

Functions or equivalent, or MATH 0107 (may be taken concurrently); or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007 (may be taken concurrently; or (iii) permission of the Physics Department.

Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1008 [0.5 credit]

Elementary University Physics II

Electricity and magnetism, DC and AC circuits, wave motion and light. Elements of modern physics. Applications chosen in part from the life sciences. Includes: Experiential Learning Activity Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1004, PHYS 1108.

Prerequisite(s): PHYS 1001 or PHYS 1003 or PHYS 1007.

Lectures three hours a week, laboratory or tutorial three hours per week.

PHYS 1107 [0.5 credit] **Introductory University Physics I**

Mechanics, properties of matter, thermodynamics. Applications chosen in part from the life sciences. For students who lack the prerequisites for PHYS 1001 or PHYS 1003, or who do not intend to take upper-year courses in physics.

Precludes additional credit for BIT 1002, BIT 1203, PHYS 1001, PHYS 1003, PHYS 1007.

Prerequisite(s): (i) Grade 12 Mathematics: Advanced Functions or equivalent, or MATH 0107 (may be taken concurrently); or (ii) Grade 12 Mathematics: Calculus and Vectors or equivalent, or MATH 1007(may be taken concurrently; or (iii) permission of the Physics Department.

Lectures three hours a week.

PHYS 1108 [0.5 credit] **Introductory University Physics II**

Electricity and magnetism, DC and AC circuits, wave motion and light. Elements of modern physics. Applications chosen in part from the life sciences. Precludes additional credit for BIT 1003 (no longer offered), BIT 1007, BIT 1204, PHYS 1002, PHYS 1004, PHYS 1008.

Prerequisite(s): PHYS 1001 or PHYS 1003 or PHYS 1007 or PHYS 1107.

Lectures three hours a week.

PHYS 1901 [0.5 credit] **Planetary Astronomy**

Description of the known stellar, galactic and extragalactic systems together with the instruments used to study them. Modern ideas concerning the structure, origin and evolution of our own planet. Formation of the Moon -Earth system. Study of the planets in our solar system. Precludes additional credit for PHYS 2203. Lectures two and one-half hours a week.

PHYS 1902 [0.5 credit]

From our Star to the Cosmos

Starting with the Sun, the course studies its composition and source of power, then compares our Sun with the other stars in the galaxy and beyond. Modern ideas concerning the structure, origin and evolution of the universe, pulsars and supernovae are examined. Precludes additional credit for PHYS 2203. Lectures two and one-half hours a week.

PHYS 1905 [0.5 credit]

Physics Behind Everyday Life

Examination of the physics behind everyday life. Topics may include transportation, sports, weather and climate, electricity, and sustainable energy. No science background is required. Faculty of Science students may only take this course as a free elective.

Includes: Experiential Learning Activity Online Course.

PHYS 2004 [0.5 credit] **Modern Physics for Engineers**

Introduction to aspects of modern physics relevant to engineering. Thermal radiation. Concepts of relativistic kinematics. Wave-particle duality. Photoelectric effect, Compton scattering. Bohr theory of the hydrogen atom. Optical and x-ray spectra, lasers. Nuclear physics and applications.

Precludes additional credit for PHYS 2604 and PHYS 2605.

Prerequisite(s): PHYS 1002 or PHYS 1004 or PHYS 1008 with a grade of B- or better, plus MATH 1004 and MATH 1104 or equivalent. Restricted to B.Eng. students not in the Engineering Physics program. Students in programs other than B.Eng. must obtain permission of the Department.

Lectures three hours a week.

PHYS 2007 [0.5 credit] Second Year Physics Laboratory: Selected

Experiments and Seminars

Students complete a number of experiments selected from classical physics and geometric optics, modern physics, etc. Seminars on relevant experimental topics will be included. Includes: Experiential Learning Activity. Includes: Experiential Learning Activity Prerequisite(s): PHYS 1002, or PHYS 1004 (PHYS 1008 is also acceptable provided a minimum average grade of B- is presented). Six hours a week.

PHYS 2101 [0.5 credit]

Mechanics and Properties of Matter

Equations of motion for a single particle. Harmonic oscillation. Noninertial reference frames. Orbits in a central force field. Motion of systems of particles and of rigid bodies. Introduction to special relativity. Laboratory experiments in classical mechanics and properties of matter.

Includes: Experiential Learning Activity
Prerequisite(s): PHYS 1001 and PHYS 1002, or
PHYS 1003 and PHYS 1004, alternatively PHYS 1007
and PHYS 1008 with an overall average of B- or better;
MATH 1004 and MATH 1104, or MATH 1002 and MATH
1102.

Lectures three hours a week, laboratory three hours a week, tutorials (optional) once a week.

PHYS 2202 [0.5 credit] Wave Motion and Optics

Geometrical optics. Types of waves, vibrating string and the classical wave equation. General solutions for traveling waves. Superposition and interference, coherence, wave packets, waves in 2 and 3 dimensions. Propagation of electromagnetic waves. Light and physical optics, oscillator model for dispersion, diffraction, polarization, and refraction.

Includes: Experiential Learning Activity
Prerequisite(s): PHYS 1001 and PHYS 1002, or
PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008
are also acceptable provided a minimum average grade
of B- is presented); plus MATH 1104 or MATH 1102 or
MATH 2152, and MATH 2004 or MATH 2000 (MATH 2000
may be taken concurrently).

Lectures three hours a week, laboratory three hours a week.

PHYS 2203 [0.5 credit] Astronomy

The observational basis of astronomy. The history of astronomy, properties of light, solar system observations and stellar astronomy.

Precludes additional credit for PHYS 1901 and PHYS 1902.

Prerequisite(s): PHYS 1002 or PHYS 1004 or permission of the department. PHYS 1008 with a grade of B- or better may also be used if MATH 1004 or MATH 1007 or MATH 1002 or MATH 2052 have been successfully completed. Lectures three hours a week.

PHYS 2212 [0.5 credit]

Wave Mechanics and Thermodynamics

Types of waves and the classical wave equation, wave functions in 2 and 3 dimensions, reflection and refraction, superposition of waves, polarization, interference, diffraction, coherence, wave packets. Temperature and thermodynamic equilibrium, heat, work and first law of thermodynamics, entropy and second law of thermodynamics.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1004 and MATH 1104 or MATH 1102 or MATH 2152, and MATH 2004 or MATH 2000 (MATH 2000 or MATH 2004 may be taken concurrently).

Lectures three hours a week

PHYS 2305 [0.5 credit] Electricity and Magnetism

Electrostatic field and potential, Gauss' law. Properties of conductors. Magnetic effects from currents. Motion of charges in electric and magnetic fields. Energy in electric and magnetic fields. Electromagnetic induction. Maxwell's equations in vacuum using vector differential and integral calculus.

Prerequisite(s): PHYS 1001, PHYS 1002, or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or higher; MATH 2004 or MATH 2000 (MATH 2000 may be taken concurrently). Lectures three hours a week.

PHYS 2306 [0.5 credit]

Physics of Electrical and Electronic Measurements I

D.C. and A.C. circuit theory. Resonant circuits. Basic measuring devices, the oscilloscope; impedances, bandwidth, noise; vacuum tubes, transistors, useful approximations for circuit design; feedback, amplifiers, oscillators; operational circuits; digital circuits. Lectures emphasize the physical basis of instrument design. Laboratory emphasizes modern digital instrumentation. Includes: Experiential Learning Activity Prerequisite(s): PHYS 1001, PHYS 1002 or PHYS 1003 and PHYS 1004, alternatively PHYS 1007 and PHYS 1008 with an overall grade of B- or better. Lectures three hours a week, laboratory three hours a week.

PHYS 2401 [0.5 credit]

Thermal Physics

Introduction to thermodynamics and statistical mechanics. Temperature and thermodynamic equilibrium. Work, internal energy and heat; first law. Kinetic theory of gases. Basic probability theory. Microscopic states and entropy. Absolute temperature, reversibility and the second law of thermodynamics. Thermodynamic processes and applications.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004, (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B-); plus MATH 1004 and MATH 1104 or MATH 1002 (no longer offered) and MATH 1102 (no longer offered), or MATH 2052 and MATH 2152. Lectures three hours a week.

PHYS 2604 [0.5 credit] Modern Physics I

The course is designed to provide a logical transition from classical to modern physics. Special relativity. Rutherford scattering, atomic models. Thermal radiation. Photoelectric effect, Compton scattering. Bohr theory of the hydrogen atom. Atomic energy states, optical spectra, lasers. Xrays. Radioactivity. Quantum Mechanics. Includes: Experiential Learning Activity Precludes additional credit for PHYS 2004 and PHYS 2605.

Prerequisite(s): PHYS 1001 and PHYS 1002. or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1004 and MATH 1104, or MATH 1002 (no longer offered) and MATH 1102 (no longer offered) or MATH 2052 and MATH 2152.

Lectures three hours a week, laboratory three hours a week.

PHYS 2605 [0.5 credit] Modern Physics I

The course is designed to provide a logical transition from classical to modern physics. Special relativity. Rutherford scattering, atomic models. Thermal radiation. Photoelectric effect, Compton scattering. Bohr theory of the hydrogen atom. Atomic energy states, optical spectra, lasers. X-

rays. Radioactivity.

Precludes additional credit for PHYS 2004 and PHYS 2604.

Prerequisite(s): PHYS 1001 and PHYS 1002, or PHYS 1003 and PHYS 1004 (PHYS 1007 and PHYS 1008 are also acceptable provided a minimum average grade of B- is presented); plus MATH 1004 and MATH 1104, or MATH 1002 (no longer offered) and MATH 1102 (no longer offered) or MATH 2052 and MATH 2152.

PHYS 2801 [0.5 credit]

Computational Methods in Physics

Introduction to computational methods in physics. Software platforms and programming languages. Data formats and structures, histograms, and data visualization. Probability distributions, fitting/parameter estimation. function minimization. Interpretation and treatment of uncertainties. Introduction to machine learning and classification.

Prerequisite(s): PHYS 1001 or PHYS 1003 or PHYS 1007, and COMP 1005.

Lectures three hours a week.

PHYS 2903 [0.5 credit] **Physics Towards the Future**

From classical phenomena to aspects of modern physics and recent advances. Topics may include light and colour, music and sound, cell phones, the galaxy and beyond. No science background is required. Faculty of Science students may only take this course as a free elective. Includes: Experiential Learning Activity Prerequisite(s): second-year standing. Online course.

PHYS 3007 [0.5 credit]

Third Year Physics Laboratory: Selected Experiments and Seminars

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity Precludes additional credit for PHYS 3008, PHYS 3009. Prerequisite(s): PHYS 2007, or PHYS 2202 and PHYS 2604, or permission of the Department. Six hours a week.

PHYS 3008 [0.5 credit]

Third Year Physics Laboratory: Selected Experiments and Workshop

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given. Includes: Experiential Learning Activity Precludes additional credit for PHYS 3007, PHYS 3009. Prerequisite(s): PHYS 2007, or PHYS 2202 and PHYS 2604, or permission of the department. Six hours a week.

Lecture 3 hours per week.

PHYS 3009 [0.5 credit]

Third Year Physics Laboratory: Selected Experiments and Seminars with Observational Astronomy

Students complete a small number of experiments selected from astronomy, astrophysics, modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. At least one astronomy/astrophysics related experiment is required. An exercise on literature searches and student seminars on experimental and numerical methods are included.

Includes: Experiential Learning Activity
Precludes additional credit for PHYS 3007, PHYS 3008.
Prerequisite(s): PHYS 2007, or PHYS 2202 and
PHYS 2604, and PHYS 2203, or permission of the
Department.
Six hours a week.

PHYS 3207 [0.5 credit] Topics in Biophysics

Introduction to biophysics. Random motion of molecules and diffusion; viscosity and the circulatory system; laws of thermodynamics and physical forces responsible for chemical reactions, molecular self-assembly and recognition; enzyme kinetics and molecular machines; nerve impulse and its propagation.

Prerequisite(s): PHYS 2212, or PHYS 2604, or permission of the Department.

Lectures three hours a week, tutorial or seminar one hour a week.

PHYS 3308 [0.5 credit] Electromagnetism

Electrostatics feld and magnetostatics in the presence of matter. Solving Laplace's and Poisson's equations. Multipole expansions. Vector potential. Faraday's laws of induction; Maxwell's equations in matter. Waves in vacuum and dielectric media, guided waves.

Precludes additional credit for ELEC 3909.

Prerequisite(s): PHYS 2305, MATH 2004 or MATH 2008, and MATH 3705, or permission of the Department. Lectures three hours a week.

PHYS 3402 [0.5 credit] Heat and Thermodynamics

Zeroth, First, Second and Third Laws of Thermodynamics; enthalpy, Helmholtz and Gibbs functions and the Maxwell relations; phase transitions; thermodynamics of magnetism; cryogenics cooling by Joule-Thompson effect, adiabatic expansion of a gas, adiabatic demagnetization, helium dilution refrigeration; black body radiation; negative temperatures. Prerequisite(s): PHYS 2101 and PHYS 2305, MATH 2007, MATH 2008, MATH 2107 and MATH 2401 or permission of the Department. Lectures three hours a week.

PHYS 3606 [0.5 credit] Modern Physics II

Elements of condensed matter physics, semiconductors, superconductivity. Elements of nuclear physics, fission, fusion, power generation. Introduction to particle physics. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging.

Includes: Experiential Learning Activity Also listed as PHYS 3608.

Prerequisite(s): PHYS 2007 and PHYS 2605, or PHYS 2604, and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory two hours a week.

PHYS 3608 [0.5 credit] Modern Applied Physics

Elements of condensed matter physics, semiconductors, superconductivity. Modern optics. Elements of nuclear physics, fission, fusion, power generation. Ionizing radiation: production, interactions, detection. Medical physics: radiation biophysics, cancer therapy, imaging. Includes: Experiential Learning Activity Also listed as PHYS 3606.

Prerequisite(s): PHYS 2007 and PHYS 2605, or PHYS 2604, and PHYS 3701, or permission of the Department.

Lectures three hours a week, laboratory three hours a week.

PHYS 3701 [0.5 credit] Elements of Quantum Mechanics

Analysis of interference experiments with waves and particles; fundamental concepts of quantum mechanics, Schrödinger equation; angular momentum, atomic beams; hydrogen atom; atomic and molecular spectroscopy; Pauli principle; simple applications in the physics of elementary particles.

Precludes additional credit for PHYS 3705.

Prerequisite(s): PHYS 2605 or PHYS 2604, MATH 2000

[1.0] (may be taken concurrently), or MATH 2004 or

MATH 2008, and MATH 3705 (may be taken concurrently),
or permission of the Department.

Lectures three hours a week.

PHYS 3705 [0.5 credit]

Introduction to Quantum Systems

This course is aimed at Computer Science and other students interested in developing a foundational understanding of quantum systems. Topics include: postulates of quantum mechanics, Hilbert space and observables, qubits, 2 state systems, entanglement, Schrodinger equation, 1D potentials, tunnelling, EPR paradox.

Precludes additional credit for PHYS 3701.

Prerequisite(s): (MATH 1004 or MATH 1007) and (MATH 1104 or MATH 1107).

Lectures three hours a week

PHYS 3801 [0.5 credit] Classical Mechanics

Introduction to Lagrangian and Hamiltonian mechanics: Poisson brackets, tensors and dyadics; rigid body rotations: introductory fluid mechanics coupled systems and normal coordinates; relativistic dynamics.

Prerequisite(s): PHYS 2101, PHYS 2202, PHYS 2305, MATH 2007, MATH 2008, MATH 2107, MATH 2401 or permission of the Department.

Lectures three hours a week.

PHYS 3802 [0.5 credit] Advanced Dynamics

Equations of motion for a single particle. Oscillatory Motion. Lagrangian and Hamiltonian formulations of mechanics. Central force motion. Motion of systems of particles and of rigid bodies.

Prerequisite(s): PHYS 2305 and MATH 2004, or permission of the Department.

Lectures three hours a week.

PHYS 3807 [0.5 credit] Mathematical Physics I

Boundary Value problems involving curvilinear coordinates; spherical harmonics, Bessel functions, Green's functions. Functions of a complex variable: analytic functions, contour integration, residue calculus. Precludes additional credit for MATH 3007 or MATH 3057. Prerequisite(s): ELEC 2501 or PHYS 2305, MATH 2004, MATH 3705 or permission of the Department. Lectures three hours a week, tutorial one hour a week.

PHYS 3808 [0.5 credit] Mathematical Physics II

Solution of second-order total differential equations by Frobenius' method. Sturm-Liouville theory. Special functions: Legendre, Bessel. Hermite, Laguerre and associated functions. Partial differential equations: method of separation of variables, eigenfunctions and eigenvalues and eigenfunction expansions. Green's function techniques for solving inhomogeneous partial differential equations.

Precludes additional credit for MATH 3004, MATH 3008, MATH 3705, and PHYS 3806.

Prerequisite(s): PHYS 3807 or MATH 3007 or permission of the Department.

Lectures three hours a week.

PHYS 3999 [0.0 credit] Co-operative Work Term Report

Provides practical experience for students enrolled in the Co-operative option. Students must receive satisfactory evaluations from their work term employer. Written and oral reports will be required. Graded as Sat or Uns. Includes: Experiential Learning Activity

Prerequisite(s): registration in the Physics Co-operative education option and permission of the Department.

PHYS 4007 [0.5 credit] Fourth-Year Physics Laboratory: Selected Experiments and Seminars

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. An exercise on literature searches and student seminars on experimental and numerical methods are included. Includes: Experiential Learning Activity Prerequisite(s): PHYS 3606 (or PHYS 3608) and registration in the Engineering Physics program.

registration in the Engineering Physics progra Laboratory, six hours a week.

PHYS 4008 [0.5 credit] Fourth-Year Physics Laboratory: Selected Experiments and Workshop

Students complete a small number of experiments selected from modern optics, holography, atomic physics, nuclear spectroscopy, radiation, etc. Instruction on instrumentation building techniques will be given. Includes: Experiential Learning Activity Prerequisite(s): PHYS 3007.

Six hours a week.

PHYS 4201 [0.5 credit] Astrophysics

Stellar evolution, including stellar modeling, main sequence stars, red giants and the end states of stars such as neutron stars and black holes. Galactic structure and dynamics. Neutrino astrophysics.

Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently).

Also offered at the graduate level, with different requirements, as PHYS 5401, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4202 [0.5 credit] Cosmology

Observational evidence for the Big Bang. Cosmological space-time, expansion dynamics and contents of the universe. Physical processes in the expanding universe, inflation, nucleosynthesis, the cosmic microwave background, dark matter, and dark energy. Prerequisite(s): PHYS 3701, PHYS 3606 or PHYS 3608, and PHYS 2401 or PHYS 4409, or permission of the Department. (PHYS 3606 or PHYS 3608 and PHYS 4409 may be taken concurrently).

Also offered at the graduate level, with different requirements, as PHYS 5402, for which additional credit is precluded.

Lectures three hours per week.

PHYS 4203 [0.5 credit]

Physical Applications of Fourier Analysis

Fourier transform, convolution. Sampling theorem. Applications to imaging: descriptors of spatial resolution, filtering. Correlation, noise power. Discrete Fourier transform, FFT. Filtering of noisy signals. Image reconstruction in computed tomography and magnetic resonance. Laplace transform. Integral transforms, application to boundary value problems. Prerequisite(s): MATH 3705, or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5313, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4208 [0.5 credit] Modern Optics

Electromagnetic wave propagation; reflection, refraction; Gaussian beams, guided waves. Laser theory: stimulated emission, cavity optics, modes, gain and bandwidth; atomic and molecular lasers. Mode locking, Q switching. Diffraction theory, coherence, Fourier optics, holography, laser applications. Optical communication systems, nonlinear effects: devices, fibre sensors, integrated optics. Prerequisite(s): PHYS 2212 or PHYS 2202, PHYS 3606 (or PHYS 3608), and PHYS 3308 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5318, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4307 [0.5 credit] Electromagnetic Radiation

Electromagnetic wave propagation in a vacuum, dielectrics, conductors, and ionized gases, reflection, refraction, polarization at the plane boundary between two media; waveguide and transmission line propagation; dipole and quadrupole radiation fields; antenna systems. Electromagnetic mass, radiation pressure. Tensor notation, transformation of the electromagnetic fields. Prerequisite(s): PHYS 3308, PHYS 3801, PHYS 3807 and PHYS 3808 (except for Mathematics and Physics Double Honours students), or permission of the Department. Lectures three hours a week.

PHYS 4407 [0.5 credit] Statistical Physics

Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics are derived, and applied in appropriate physical situations. Fluctuations. Kinetics and transport processes, including the Boltzmann transport equation and some of its applications.

Prerequisite(s): PHYS 3402, PHYS 2602 or PHYS 3601, PHYS 3701 or PHYS 3602, PHYS 4707 (may be taken concurrently); or permission of the Department. Lectures three hours a week.

PHYS 4409 [0.5 credit]

Thermodynamics and Statistical Physics

The three Laws of Thermodynamics, enthalpy, Helmholtz and Gibbs functions. Equilibrium statistical mechanics and its relation to thermodynamics. Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics.

Precludes additional credit for PHYS 3402 and PHYS 4407.

Prerequisite(s): PHYS 3701 (may be taken concurrently), MATH 2004 and MATH 3705, or permission of the Department.

PHYS 4508 [0.5 credit] Solid State Physics

An introduction to solid state physics. Topics include crystal structure, phonons and lattice vibrations, conductors, semiconductors, insulators and superconductivity.

Prerequisite(s): PHYS 3606 or PHYS 3608, and PHYS 3701, or permission of the Department. Lectures three hours a week.

PHYS 4602 [0.5 credit] Physics of Elementary Particles

Standard Model. Properties of leptons, quarks, hadrons. Fundamental interactions: photon, gluons, W/Z bosons. Higgs boson. Conservation laws, invariance principles, quantum numbers. Decay rates and scattering cross-sections. Quantum electrodynamics and chromodynamics. Resonances. Weak interactions, CKM matrix, parity and CP violation. Neutrino masses and oscillations. Future directions.

Prerequisite(s): PHYS 4707 or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5602, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4608 [0.5 credit] Nuclear Physics

Ground state properties of nuclei. Nuclear models, binding energy, properties of excited nuclei. Alpha, beta and gamma decay. Passage of radiation through matter, detectors. Nuclear reactions, cross sections, fission, fusion. Elements of neutron physics.

Prerequisite(s): PHYS 3606 or PHYS 3608 or permission of the Department.

Lectures three hours a week.

PHYS 4707 [0.5 credit]

Introduction to Quantum Mechanics I

The basic interpretative postulates of quantum mechanics; applications of wave mechanics and operator methods to various quantum mechanical systems; quantum mechanical treatment of angular momentum. Prerequisite(s): PHYS 3701 and PHYS 3807 or equivalent, or permission of the Department. Lectures three hours a week.

PHYS 4708 [0.5 credit] Introduction to Quantum Mechanics II

Scattering theory and application; bound state problems; approximation methods.

Prerequisite(s): PHYS 4707 or permission of the Department.

Lectures three hours a week.

PHYS 4804 [0.5 credit]

Introduction to General Relativity

Special relativity using tensor analysis. Curved spacetime with physics applications which may include the solar system, stars, black holes and gravitational waves. Introduction to differential geometry and Einstein's field equations.

Prerequisite(s): PHYS 3802 or equivalent, or permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5804, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4807 [0.5 credit]

Statistical Data Analysis Techniques for Physics

Computational methods used in analysis of experimental data. Introduction to probability and random variables. Monte Carlo methods for simulation of random processes. Statistical methods for parameter estimation and hypothesis tests. Confidence intervals. Multivariate data classification. Unfolding methods. Examples primarily from particle and medical physics.

Prerequisite(s): third year standing in a physics program and an ability to program in Python, Java, C or C++, and permission of the Department.

Also offered at the graduate level, with different requirements, as PHYS 5002, for which additional credit is precluded.

Lectures three hours a week.

PHYS 4901 [0.5 credit] Special Topics in Physics

Each year, at the direction of the Department, a course on a special topic may be offered.

Prerequisite(s): permission of the Department.

PHYS 4907 [0.5 credit] Fourth-Year Project

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written midterm progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Fall term only.

PHYS 4908 [0.5 credit] Fourth-Year Project

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written midterm progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the Department.

Project. Winter term only.

PHYS 4909 [1.0 credit] Fourth-Year Project

Advanced projects of an experimental or theoretical nature with an orientation towards research. A written midterm progress report is required and also a written and oral report at the conclusion of the project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in an Honours Physics program or equivalent, and permission of the

Department. Project

Political Management (POLM)

Political Management (POLM) Courses POLM 3000 [0.5 credit]

Introduction to Political Management

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as COMS 3100, PSCI 3410.

Precludes additional credit for COMM 3100 (no longer offered).

Prerequisite(s): third-year standing. Lecture three hours a week.

POLM 4010 [0.5 credit] Polling and Opinion Research

The different elements of opinion research such as opinion measurement, questionnaire design, interviewing, data analysis and interpretation, and how this helps understand the process by which citizens make decisions about political issues.

Prerequisite(s): POLM 3000.

Also offered at the graduate level, with different requirements, as POLM 5010, for which additional credit is precluded.

Seminar three hours a week.

POLM 4012 [0.5 credit]

Advocacy and Government Relations in Canada

Through applied exercises, case studies and a project with an external organization, students will build knowledge and skills required for advocacy and government relations in the private and voluntary sectors. Prerequisite(s): POLM 3000.

Also offered at the graduate level, with different requirements, as POLM 5012, for which additional credit is precluded.

Seminar three hours per week

Political Science (PSCI)

Political Science (PSCI) Courses

PSCI 1100 [0.5 credit]

Democracy in Theory and Practice

Introduction to modern political ideas such as liberty, equality, the rule of law, representation, participation (including gender aspects), the impact of these ideas on political and policy making institutions in Canada; other countries may be examined. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000 (no longer offered), PSCI 1001 (no longer offered), and PSCI 1003 (no longer offered).

Lectures two hours a week, tutorials one hour a week.

PSCI 1200 [0.5 credit] Politics in the World

Compares politics in selected states and world regions, including political institutions and cultures, development, public policy making, and gender. Global issues and international relations among states, international organizations, and other actors. Basic research and academic writing skills.

Precludes additional credit for PSCI 1000 (no longer offered), PSCI 1002, GPOL 1000 (no longer offered) and GPOL 1500 (no longer offered).

Lectures two hours a week, tutorials one hour a week.

PSCI 1500 [0.5 credit] Technology, Nature, Power

Social media, self-driving cars, genetic manipulation: technology is transforming both the human experience and the natural world. This course explores interactions among technological change, the evolution of social and political order, and the transformation of the environment (for example, with climate change).

Lectures two hours a week.

PSCI 1501 [0.5 credit] Politics of Migration

Introduction to concepts and theories that help explain the complex phenomenon of human migration, including the social and political relevance of different types of migration to Canada and in other regions and the political responses to migration and mobility today.

Lectures two hours a week, tutorials one hour a week.

PSCI 2002 [0.5 credit] Canadian Politics and Society

An examination of the cultural, social, and economic context of Canadian politics, including interest groups and social movements, regionalism, language, ethnicity, and gender.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2003 [0.5 credit]

Institutions and Power in Canadian Politics

An examination of Canadian political institutions, including federalism, Parliament, the constitution, political parties and the electoral system.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2101 [0.5 credit]

Comparative Politics of the Global North

Domestic politics in states of the Global North.

Comparison of political and economic regimes, political institutions, actors, political processes and cultures, and patterns of public policy making.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2102 [0.5 credit]

Comparative Politics of the Global South

Introduction to domestic politics in post-colonial and developing states of the Global South. Topics may include nationalism, authoritarianism, economic development, revolution, democratization, and the politics of gender, religion, and ethnicity.

Includes: Experiential Learning Activity Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2200 [0.5 credit]

Introduction to U.S. Politics

An examination of several important aspects of the U.S. political system, including separation of powers, checks and balances, and federalism.

Includes: Experiential Learning Activity Prerequisite(s): second-year standing.

Lectures two hours a week, tutorial one hour a week.

PSCI 2301 [0.5 credit]

History of Political Thought I

Study of the foundations of democracy, law, and political regimes, within a broader reflection on virtue and the good life in Western classical political thought. Course may include texts by Sophocles, Thucydides, Plato, Aristotle, Augustine, Aquinas, de Pizan, and others.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2302 [0.5 credit]

History of Political Thought II

Study of the emergence, transformations, uses, and meanings of modern political concepts such as liberty, legitimacy, equality, rights, sovereignty, authority, and the state through the interpretation of Western political thinkers such as Machiavelli, Hobbes, Locke, Rousseau, Hume, Wollstonecraft, Marx, Mill and others. Prerequisite(s): PSCI 2301 or permission of the department.

Lectures two hours a week, tutorials one hour a week.

PSCI 2401 [0.5 credit] Public Affairs Analysis

Introduction to central concepts and processes involved in public affairs. Exploration of public issues, policy approaches and decision-making structures using theoretical, empirical and applied approaches. Precludes additional credit for PSCI 2400 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2500 [0.5 credit] Gender and Politics

Introduction to gender and politics of diversity, including how feminist activism and organizing finds expression in the political process and structures of representation such as political parties, legislatures and the state.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2601 [0.5 credit]

International Relations: Global Politics

Introduction to theories, concepts and issues in global politics. Topics may include conflict and intervention, peace and security, international institutions, norms and ethics, human rights, gender, culture, and globalization. Precludes additional credit for GPOL 1000 (no longer offered), GPOL 1500 (no longer offered).

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2602 [0.5 credit]

International Relations: Global Political Economy

Introduction to the international political economy. Topics may include contemporary changes in the global political economy, multinational corporations, foreign economic policy, global and regional economic institutions, environmental issues, international development and relations between rich and poor countries.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2701 [0.5 credit]

How to Do Research in Political Science

This course focuses on key elements of the research process, including how to ask questions and find answers using ethically informed research design. Students learn to develop a research proposal, and how to critically analyze and write evidence-informed arguments.

Prerequisite(s): second-year standing.

Lectures two hours a week, tutorials one hour a week.

PSCI 2702 [0.5 credit]

A Statistical Toolkit for Political Scientists

The interpretation and application of statistical techniques for data analysis in the study of politics.

Includes: Experiential Learning Activity

Precludes additional credit for ENST 2006, GEOG 2006.

Prerequisite(s): PSCI 2701 or permission of the

Department.

Lectures two hours a week, tutorials one hour a week.

PSCI 3004 [0.5 credit]

Political Parties and Elections in Canada

The evolution of the party system, the growth of major and minor party movements and the electoral process in Canada.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3005 [0.5 credit]

Ontario Government and Politics

A survey of the political process and political institutions in Ontario.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3006 [0.5 credit]

Social Power in Canadian Politics

The role of social forces in the Canadian political process, including interest groups, social movements, elites and classes.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3007 [0.5 credit]

Constitutional Politics in Canada

The politics of the Canadian constitution. Particular attention to historical and contemporary constitutional reform

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3013 [0.5 credit]

Indigenous Politics of Turtle Island

Indigenous lived experience in North America, understanding that Indigenous people are active political agents influencing policies and narratives. The course is organized around case studies focused on the social determinants of health, such as income, housing, and social inclusion.

Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3100 [0.5 credit]

Politics of Development in Africa

The historical background of African independence, and contemporary struggle for democracy and economic development in Africa.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3101 [0.5 credit]

Conflict and Security in Africa

African conflict and security dynamics, analyzing civil war, communal disputes, and political violence. Topics include state fragility, climate change's impact, human rights, gender dimensions in peacebuilding, along with regional and international responses to conflict and insecurity. Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3102 [0.5 credit]

Politics of Development of China

The evolving structures and processes of government in (greater) China with particular emphasis on politics in the People's Republic of China and secondary emphasis on Taiwan and Hong Kong.

Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3103 [0.5 credit]

State, Society and Economy in Northeast Asia

The relationship between government structures, society and the economy in Northeast Asia with particular emphasis on Japan and Korea.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3104 [1.0 credit] Politics in Cent/Eastern Euro

PSCI 3105 [0.5 credit]

Imperialism and Decolonization

Ideologies and practices of European/Western efforts to control Asia, Africa, and Latin America and resistance to them. Topics include the complexities of imperial control and colonial relationships, race and racism, economic impacts, and decolonization.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3107 [0.5 credit]

The Causes of War

Alternate theories of the causes of war. Such alternate perspectives as biological, social and comparative historical approaches, including the results of peace research activities of the past two decades. Prerequisite(s): Third-year standing and PSCI 2601. Lectures three hours a week.

PSCI 3108 [0.5 credit] Politics of Popular Culture

Examines political themes in popular culture. Cultural media may include film, literature, television, music, cartoons/comics, and the news media. Political themes may include war, ethnicity, nationalism, revolution, citizenship, gender and sexuality. Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3109 [0.5 credit] The Politics of Law and Morality

Politics of moral regulation in Canada, the United States and other jurisdictions. The treatment in law and public policy of such human rights issues as: capital punishment, sexual orientation, euthanasia, abortion, new reproductive technologies, racial discrimination, religious and equality

Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003 or PSCI 2101. Lectures three hours a week.

PSCI 3110 [0.5 credit] China in the Global South

China's role in the Global South, analyzing its impact in Africa, the Middle East, Asia, and Latin America through theoretically nuanced and empirically informed comparative analyses as well as the role of local and global responses.

Prerequisite(s): Third-year standing. Lectures three hours a week.

PSCI 3200 [0.5 credit] **U.S. Constitutional Politics**

The central role played by the U.S. Constitution in the country's political life, from the Framers to current controversies. Includes issues of race, class and gender. Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3203 [0.5 credit]

Government and Politics in the Middle East

The evolution and functioning of political systems in the Middle East region, with emphasis on the problems of political stability, the impact of the West, the role of Islam, and war and peace.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3204 [0.5 credit] **Politics of Latin America**

An overview of the evolution of Latin American political systems, including the impact of the European conquest, democratization, economic liberalization, state-civil society relations, gender politics, revolutionary movements, and relations with the United States.

Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3205 [0.5 credit] Mexican Politics

An introduction to the politics, society and economy of Mexico. Topics include processes of democratization and economic liberalization, human rights, the environment, the role of women, labour, and indigenous peoples, and social policy. Special emphasis on Mexico's role in the North American political economy.

Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3206 [0.5 credit] European Democracies

A comparative examination of select controversies over democracy in specific European countries, considered within the context of 20th century historical trends, as well as contemporary political debates.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3207 [0.5 credit]

Politics of the European Union

The process of European integration; the European Union and its institutions; core EU policies, challenges to the integration process (e.g. democratic legitimacy, enlargement); theories of European integration. Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3208 [0.5 credit]

Politics in Russia and Ukraine: Power and Contestation

Political development in post-Soviet Russia and Ukraine, including examination of the complicated relationship between the two states. Historical perspectives, institutional context (including federalism) and comparative insights.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3209 [0.5 credit]

Reconstruction and Transformation in Europe and Eurasia

The politics of dramatic political changes, such as revolution, secession, constitutional revision, and systemic reform. The course will include selected historical and comparative cases from Central and Eastern Europe and the former Soviet Union.

Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3210 [0.5 credit] Electoral Politics in the U.S.

An overview of specific aspects of U.S. electoral politics, including presidential and congressional elections, incumbency, the two-party system, campaign spending limits, the role of the media, and voter turnout. Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3300 [0.5 credit] Politics and Literature

A study of imaginative prose in which political ideas and/or political settings dominate. Literature as political communication, the impact of literature upon politics, the peculiar value of literature in the study of politics and its shortcomings.

Prerequisite(s): third-year standing. Lectures three hours a week.

Introduction to feminist philosophical responses to sexism, taking into consideration the different waves of feminist discourse. Topics may include the concept of gender; women's diversity and its implications; 'intersectionality'; gender, capitalism and the family; and new approaches to feminist knowledge and feminist agency.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3307 [0.5 credit] Politics of Human Rights

Politics of human rights in its historical and cultural context, including: early liberal theories of natural rights; utilitarian and Marxist critiques; contemporary rights debates; different generations of rights; feminism and women's rights; cultural relativism; state sovereignty; and, problems of implementation and enforcement.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3309 [0.5 credit] Modern Ideologies

A survey of ideologies, mainly since 1900, including some of nationalism, utopian socialism, communism, fascism, populism, environmentalism and feminism.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3310 [0.5 credit] Global Indigenous Politics

An overview of regional and international Indigenous politics with case studies from the Americas, Europe, Asia, the Pacific; Africa. Topics include colonization, state formation, decolonial and postcolonial theories, Indigenous movements, the role of the United Nations, land rights, environment, self-determination, development, gender, and sexuality.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3311 [0.5 credit] History of Muslim Political Thought

A survey of political thought among Muslims, tracing the emergence and influence of juridical, philosophical and administrative approaches to politics on Muslim civilization.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3312 [0.5 credit]

Enlightenment Political Thought

Major Enlightenment thinkers and major themes of Enlightenment political thought. Topics may include reason, religion, toleration, liberty, equality, the foundations of political authority, autonomy, morals, taste, progress, history or commerce.

Prerequisite(s): third-year standing. Lecture three hours a week.

PSCI 3313 [0.5 credit]

Contemporary Approaches to Political Inquiry

Overview of debates around fundamental concepts in the social sciences and how theorists have understood them. Introduction to different paradigms and approaches. which may include positivism, Weberian ideal types, naturalism, pragmatism, social realism, critical rationalism, genealogy, structuralism, phenomenology, hermeneutics, deconstruction, and discourse analysis.

Precludes additional credit for PSCI 4308 (no longer offered). PSCI 4309 (no longer offered).

Prerequisite(s): third-year standing and (PSCI 2301 and PSCI 2302), or permission of the Department. Lecture three hours a week

PSCI 3402 [0.5 credit] Canadian Public Policy

Policy communities and policy networks in Canada with particular attention paid to policy issues, the political environment, policy instruments, impact and outcomes. Includes: Experiential Learning Activity Prerequisite(s): third-year standing and one of PSCI 2002, PSCI 2003, PSCI 2401, or PAPM 2000 (no longer offered).

Lectures three hours a week.

PSCI 3405 [0.5 credit] Comparative Public Policy Analysis

The formation and impact of public policy: a variety of political systems as well as a variety of policy areas. Emphasis on developing skills for the analysis of policy formation and impact.

Prerequisite(s): Third-year standing and one of PSCI 2101, PSCI 2401, or PAPM 2001 and PAPM 2002. Lectures three hours a week.

PSCI 3406 [0.5 credit]

Public Affairs and Media Strategies

The public affairs and issue management strategies of corporations, government departments, and other institutions in Canada from a comparative perspective. Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3407 [0.5 credit]

Public Opinion and Public Policy

Theories about the origins and dynamics of public opinion, the ways in which public opinion influences government policy and decision-making, and how decision-makers are able to shape public opinion. Prerequisite(s): PSCI 2701 and PSCI 2702. Lectures three hours a week.

PSCI 3410 [0.5 credit]

Introduction to Political Management

Introduction to the field of political management. The institutional, legislative and ethical context in which party strategists, campaign managers, pollsters, lobbyists and civil society operate. Related administrative and communications skills.

Also listed as POLM 3000 and COMS 3100.

Prerequisite(s): third-year standing. Lecture three hours a week.

PSCI 3411 [0.5 credit]

Data Analysis for Governance: Formal Approaches and Practical Realities

Finding and using data to make, manage and evaluate public policy. Emphasis is on developing data analysis skills, and using and applying substantive theories by working on projects with real-world applications. Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2701 and PSCI 2702. Lectures, discussions, presentations; three hours a week.

PSCI 3502 [0.5 credit]

Gender and Politics: Global South

A contemporary approach to the role of gender in political systems of the South. Topics may include gender and development, human rights, social policies, globalization, state-civil society relations, political participation and citizenship.

Prerequisite(s): Third-year standing. Lectures three hours a week.

Drawing on theories of international relations, political economy, and public policy-making, this course examines the global, national and local politics of food production and distribution. Topics include food security, free trade versus fair trade, the environmental sustainability of food systems, food sovereignty and food aid.

Prerequisite(s): third-year standing or permission of the Department.

Lecture three hours a week.

PSCI 3700 [0.5 credit]

Government and Politics of South Asia

Patterns of colonialism, evolving political regimes and issues in development and foreign policy in the countries of South Asia, including India, Pakistan, Bangladesh, Sri Lanka, and other member states of SAARC.

Prerequisite(s): Third-year standing.

Lectures three hours a week.

PSCI 3702 [0.5 credit]

The Politics of Israel/Palestine

Contested dynamics in and regarding Israel and Palestine, including the development of Zionism, the Nakba, diaspora identities, human rights activism, and debates over analytical frameworks such as settler colonialism, competing nationalisms, and apartheid. Includes: Experiential Learning Activity Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3703 [0.5 credit] Governing in the Global Economy

The main approaches and policy issues in the political economy of advanced industrialized states. The relationship between state and market and the ways in which national states have responded to the pressures of governing in an increasingly interdependent global economy.

Prerequisite(s): Third-year standing and PSCI 2602. Lectures three hours a week.

PSCI 3801 [0.5 credit] Environmental Politics

Environmental issues in contemporary political argument. Topics include: environmental movements and green parties, environmental ethics and animal rights, economic approaches to environmental management, the politics of sustainable development, and the international politics of the environment.

Prerequisite(s): third-year standing. Lectures three hours a week.

PSCI 3802 [0.5 credit] Globalization and Human Rights

An examination of the various dimensions and meanings of globalization and its relationship with human rights. The main emphasis will be on the implications of the emerging global economy for economic, social, political and cultural rights.

Also listed as SOCI 3027, ANTH 3027. Prerequisite(s): Third-year standing and one of: PSCI 2601, PSCI 2602, LAWS 2105, PHIL 2103 or (ANTH 1001 and ANTH 1002), or (SOCI 1001 and SOCI 1002).

PSCI 3805 [0.5 credit] Politics of Race

The meaning, sources and practice of racialism, as well as efforts to combat it, in a comparative context. Case studies will include South Africa, the United States, and Canada.

Includes: Experiential Learning Activity Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3809 [0.5 credit]

Selected Topics in Political Science

A lecture course on a selected contemporary topic in Political Science. Topic may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): third-year standing.

Lectures three hours a week.

PSCI 3905 [1.5 credit]

Washington Center Internship

One-term internship at The Washington Center in D.C.; options in American politics, international affairs, and other areas. Evaluation by Washington Center faculty, but governed by Carleton University Political Science Department regulations. Graded Sat or Uns.

Includes: Experiential Learning Activity
Prerequisite(s): selection to The Washing

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210 and permission of the department.

PSCI 3906 [1.0 credit]

Ottawa Experience Placement, Two Terms

The student placement provides an opportunity to work with an organization whose focus relates to politics over a full academic year. Students complete career-related assignments, maintain a placement log and complete a research paper related to their placement.

Includes: Experiential Learning Activity
Precludes additional credit for GPOL 3100 (no longer offered), PSCI 3907, the Washington Internship.
Prerequisite(s): Third-year Honours standing with a minimum Political Science CGPA of 9.0 or permission of

the Department.

Placement, three hours a week

PSCI 3907 [0.5 credit]

Ottawa Experience Placement, One Term

The student placement provides an opportunity to work with an organization whose focus relates to politics over one academic term. Students complete a career-related assignment, maintain a placement log and complete a research paper related to their placement.

Includes: Experiential Learning Activity

Precludes additional credit for GPOL 3100 (no longer offered), PSCI 3906, the Washington Internship.

Prerequisite(s): third-year Honours standing with a minimum Political Science CGPA of 9.0 or permission of the Department.

Placement, 3 hours a week.

PSCI 3908 [0.5 credit] Summer Field Research Course

Field course outside of the Ottawa region, potentially outside Canada, with opportunities for research and/or community engagement. A supplementary charge may apply.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing in Political Science or

GPOL, or permission of the Department.

PSCI 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

PSCI 4003 [0.5 credit] Politics and the Media

The role of the mass media in the Canadian political system from a comparative perspective.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week

PSCI 4004 [0.5 credit] Sport and Politics

A seminar on the relationship between sport and politics, topics covered may include: Canadian sport policy and public administration; sport and social inclusion with a focus on sex, gender, Indigeneity, race, and class; sport and nation-building; sport and social-protest; and, sport and international relations.

Prerequisite(s): fourth-year Honours standing or permission of the department.
Seminar three hours a week.

PSCI 4005 [0.5 credit] Canadian Federalism

The evolution and contemporary operation of the Canadian federal system; the social, political, economic, and structural features underlying its operational performance, resilience in crisis, and potential for adaptation.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2003 or PSCI 2101.

Also offered at the graduate level, with different requirements, as PSCI 5101., for which additional credit is precluded.

Seminar three hours a week.

PSCI 4006 [0.5 credit]

Legislatures and Representation in Canada

The role of Parliament and of the individual M.P. in terms of policy making, party discipline, and differing conceptions of representation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5006, for which additional credit is precluded.

Seminar three hours per week.

PSCI 4008 [0.5 credit]

National Security and Intelligence in the Modern State

The state's response to foreign espionage, alleged subversion, terrorism, and counterintelligence. Major focus on the Canadian experience, but with extensive use of materials chronicling the practices of KGB, CIA, BIS, ASIO, MOSSAD, etc.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4009 [0.5 credit] Quebec Politics

Society, culture, economy and politics in Quebec. Special attention to the politically relevant changes since 1960 and the central place of Quebec within the Canadian federation.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week

PSCI 4010 [0.5 credit]

Executive Power in Canadian Politics

Consideration of prime ministers, premiers, cabinet ministers and senior public service leadership in Canadian politics and government.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5010, for which additional credit is precluded.

PSCI 4103 [0.5 credit]

The Modern State

A survey of recent thinking about the state in western societies drawing on perspectives such as those of feminists, Marxists, Weberians, poststructuralists and others. Topics may include: the rise of the modern state, economic governance, the public sphere, citizenship, sovereignty and territoriality.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4104 [0.5 credit]

Development in the Global South - Theory and Practice

Different theoretical approaches to the concept of development in the Global South and their relevance for selected countries in Latin America, Africa and Asia. Prerequisite(s): fourth-year Honours standing or permission of the Department. Seminar three hours a week.

PSCI 4105 [0.5 credit] Selected Problems in Development in the Global South

Topics may include global issues of trade, finance and production, changing patterns of foreign aid, and the role of microfinance, mining, non-governmental organizations, migration, anti-poverty programs and activism in promoting development.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4107 [0.5 credit]

Political Participation in Canada

The causes and implications of political participation by individuals with special reference to Canada. Topics include citizen participation in campaign and party organizations, political protest movements, interest groups, and community associations.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 2700, or (PSCI 2701 and PSCI 2702).

Seminar three hours a week.

PSCI 4109 [0.5 credit]

The Politics of the Canadian Charter of Rights and Freedoms

The genesis and impact of the Charter of Rights and Freedoms. Particular emphasis on the politics of aboriginal, language, and equality rights. Prerequisite(s): fourth-year Honours standing or permission of the Department. Seminar three hours a week.

PSCI 4203 [0.5 credit]

Southern Africa After Apartheid

The pathology of apartheid, the reasons for its end, and prospects for democratization and development in Southern Africa in the era of globalization.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5203, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4204 [0.5 credit] Fighting for Votes

Election campaign dynamics and election outcomes, with emphasis on the strategies and actions of voters, parties, and candidates. Attention to concepts of representation, accountability, and legitimacy.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2003, PSCI 2101, PSCI 2102, or (PSCI 2701 and PSCI 2702). Also offered at the graduate level, with different requirements, as PSCI 5204., for which additional credit is precluded.

Seminar three hours a week.

PSCI 4206 [0.5 credit]

Indigenous Activism on Turtle Island: Take that, colonialism!

Issues of governance regarding the original peoples of Canada, Mexico and the United States since the European invasion. Contemporary movements for restoration of cultural, political, socio-economic, land and self-governance rights, emphasizing domestic and international strategies.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2002, PSCI 2003, PSCI 2101, PSCI 2102, PSCI 3013, or PSCI 3205.

Also offered at the graduate level, with different requirements, as PSCI 5100., for which additional credit is precluded.

Seminar three hours a week.

PSCI 4207 [0.5 credit]

Globalization, Adjustment and Democracy in Africa

The nature of global pressures in Africa, as states go through political and economic change.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5107, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4209 [0.5 credit]

Westminster Democracies: Parliaments, Parties and Elections

Examination of party and parliamentary democracy in the five principal Anglophone parliamentary democracies: Australia, Canada, Ireland, New Zealand and the United Kingdom. Consideration is given to the effects of different electoral systems and institutional arrangements on electoral politics, political participation, and party organization.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2003, PSCI 2101, or PSCI 2102.

Seminar three hours a week.

PSCI 4210 [0.5 credit]

Political Identity through Graphic Novels

Examination of the sources and dynamics of political identity through the medium of graphic novels and graphic memoirs. Themes may include collective memory, genocide, prostitution, violent conflict, civil rights, race and ethnicity, revolution, Indigenous issues, mental health, and gender and sexuality.

Prerequisite(s): fourth year standing or permission of the Department.

Seminar three hours a week.

PSCI 4211 [0.5 credit]

Op-Ed Writing and Social Media as Political Engagement

The art and craft of political opinion writing and socialmedia engagement. An examination of contemporary online activism, interpersonal and collective online dynamics, and an imparting of the skills required for persuasive and well-researched op-ed writing. Prerequisite(s): fourth-year Honours standing or permission of the Department. Seminar three hours a week.

PSCI 4302 [0.5 credit]

Political Thought in the Modern Muslim Middle East

Contemporary secular and religious responses to the challenges of modernity. Readings include writings of Arab, Turkish, and Iranian intellectuals.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of (PSCI 2301 and PSCI 2302) or PSCI 3311.

Also offered at the graduate level, with different requirements, as PSCI 5305, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4303 [0.5 credit]

Genealogies of Politics and Governance

Examination of Foucault's genealogical method for doing critical studies of politics and governance. Topics may include governmentality, sovereignty, biopolitics, neoliberalism, citizenship, and colonialism. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different

Also offered at the graduate level, with different requirements, as PSCI 5303 and SOCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4311 [0.5 credit]

Political Theories of Democracy and Empire

An exploration of how ancient and modern conceptions of empire differ and how the pursuit of empire abroad can undermine good government at home.

Prerequisite(s): Fourth-year Honours standing and (PSCI 2301 and PSCI 2302), or permission of the Department.

Seminar three hours a week.

PSCI 4315 [0.5 credit] Politics and the Study of History

An exploration of the relationship between history and politics. Will examine different forms of history and historical writing, competing conceptions of how to interpret the past, and different accounts of how history is implicated in political judgment and understanding politics. Prerequisite(s): Fourth-year Honours standing.

PSCI 4316 [0.5 credit]

Contemporary Political Theory

Examines major currents and themes in continental political thought since the early twentieth century. These may include existentialist, Critical Theory, feminist, and poststructural approaches in relation to topics, such as crises of modernity, (post-) modern reconfigurations of power, and perspectives for democracy.

Prerequisite(s): Fourth-year Honours standing and (PSCI 2301 and PSCI 2302) or permission of the Department.

Seminar three hours a week.

PSCI 4318 [0.5 credit]

Concepts of Political Community I

Critical survey of concepts of political community, including the common good, justice, citizenship, leadership, democracy, and legitimacy, from ancient, modern, and contemporary political theory.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5308, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4319 [0.5 credit]

Concepts of Political Community II

A continued critical survey of concepts of political community, including the common good, justice, citizenship, statesmanship, democracy, and legitimacy, from ancient, modern, and contemporary political theory. Prerequisite(s): fourth-year Honours standing or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5309, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4400 [0.5 credit]

Socio-Technical Change and Public Policy Design

Joint implications of contemporary science, technology and demographics for the design of public policy. The main emphasis of the course will be general patterns of change and design relating to public policy. Includes: Experiential Learning Activity Prerequisite(s): fourth-year Honours standing or permission of the Department. Seminar three hours a week.

PSCI 4403 [0.5 credit]

Reproductive Rights Policy in North America

The interaction between social movements, legislatures and courts in formulating reproductive rights policy in Canada, the U.S. and Mexico.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or

permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5407, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4404 [0.5 credit]

The Design and Evolution of Public Institutions

An examination of the emergence, development and collapse of institutional collective action in a broad historical framework, with attention to probable future scenarios for change. Readings are taken from anthropology, economics, history and empirical political theory.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year Honours standing or
permission of the Department.
Seminar three hours a week.

PSCI 4407 [0.5 credit]

Public Policy: Content and Creation

The content and creation of public policy. Focus on the explanation, prediction and design of policy. Perspectives and examples are drawn from a variety of frameworks and from both Canadian and non-Canadian contexts. Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2401, PSCI 3402, PSCI 3405, PSCI 3409, or PAPM 2001 and PAPM 2002.

Seminar three hours a week.

PSCI 4408 [0.5 credit]

Public Affairs Management and Analysis

Theories and practice in the management of public affairs, including the environment and administration of the public sector, public opinion, and public communications. Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminars three hours a week.

PSCI 4500 [0.5 credit] Gender and Globalization

How globalization affects women's involvement in politics and how they organize to conceptualize and pursue gender justice in official politics; grass roots projects and cultural transformations; ideology; stand-alone movements; and mixed-sex movements like nationalism and democratization.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2101, PSCI 2102, PSCI 2601, PSCI 2602, PSCI 2500, PSCI 3500, PSCI 3502.

Seminars three hours a week.

PSCI 4501 [0.5 credit]

Politics of Identity in Europe and the Russian Area

The relationships between political transformation, identity-building, ethnicity, and gender politics in post-communist states, considered in comparison with select countries in Central and/or Western Europe.

Includes: Experiential Learning Activity

Also listed as EURR 4205.

Prerequisite(s): Fourth-year Honours standing or permission of the Department and one of PSCI 2101, PSCI 2102, PSCI 2500, PSCI 3208, PSCI 3209, PSCI 3500, PSCI 3502.

Seminar three hours a week.

PSCI 4502 [0.5 credit]

Post-Soviet States and Societies

The relationship between social forces and state structures at both the national and local levels in the USSR and the post-communist states.

Also listed as EURR 4002.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 3208, PSCI 3209.

Seminar three hours a week.

PSCI 4503 [0.5 credit] Politics of Central Eurasia

Examination of the Caucasus and Central Asia, from Chechnya to former Soviet republics of the region, Afghanistan and Chinese Turkestan. Interests of Russia, China, and the United States. Emphasis on underdevelopment, oil and gas, terrorism, Islam. Includes: Experiential Learning Activity

Also listed as EURR 4207.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4504 [0.5 credit]

Politics of the Caucasus and Caspian Basin

Examination of the South Caucasus (Azerbaijan, Georgia, Armenia), the Russian-held North Caucasus, including Chechnya, and relations with Iran. Emphasis on state and society, oil and gas, transregional communications, interests of western powers, ethnic relations.

Includes: Experiential Learning Activity

Also listed as EURR 4209.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4505 [0.5 credit]

Transitions to Democracy

A comparative analysis of processes of democratization. Diverse theoretical approaches to understanding the timing, causes, nature, and limitations of democratization. Examples from Europe and Russia, Latin America, Africa, and Asia.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2102, PSCI 3100, PSCI 3204, PSCI 3208, PSCI 3209, PSCI 3500. PSCI 3502.

Seminar three hours a week.

PSCI 4506 [0.5 credit]

Women, Power and Political Representation

An examination of women's participation in contemporary electoral politics, including as voters, legislators, and political leaders. Specific attention is given to research on intersectionality.

Includes: Experiential Learning Activity
Prerequisite(s): Fourth-year Honours standing or
permission of the Department.
Seminar three hours a week.

PSCI 4507 [0.5 credit] The Balkans since 1989

Selected topics in Balkan politics and society since the collapse of communism in 1989, focusing on the democratic transition and the EU accession process. The legacies of communist rule, democratization and the many national questions that still exist in the region.

Also listed as EURR 4102.

Prerequisite(s): fourth year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4601 [0.5 credit]

Foreign Policies of Soviet Successor States

The foreign policies of the USSR and of Russia and selected other successor states, with special emphasis on the search for a new security order.

Also listed as EURR 4208.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2102, PSCI 2601, PSCI 2602, PSCI 3107, PSCI 3208, PSCI 3209, PSCI 3600, PSCI 3603, PSCI 3703. Seminar three hours a week.

PSCI 4603 [0.5 credit]

Analysis of International Political Economy

Various theoretical approaches to the study of the international political economy, with a focus on historical development and changing international structures. Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2602, PSCI 3600, or PSCI 3703.

Seminar three hours a week.

PSCI 4604 [0.5 credit]

Selected Problems in International Political Economy

Contemporary problems and issues in the international political economy, with particular attention given to advanced industrial countries.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2602, PSCI 3600, or PSCI 3703.

Seminar three hours a week.

PSCI 4605 [0.5 credit] Gender in International Relations

Analysis of feminist approaches to international relations. Substantive issues include the role of women in war and militarization, the gender dimensions of global political economy and gender issues in international development. Prerequisite(s): Fourth-year Honours standing or permission of the Department and one of PSCI 2601, PSCI 2602, PSCI 3500, PSCI 3303 or PSCI 3502. Seminars three hours a week.

PSCI 4606 [0.5 credit] American Foreign Policy

The sources, trends and conflicting interpretations of the international roles of the United States since World War II. Foreign policy machinery and processes assessed in terms of the relative importance of perceptions, ideology, self-interest, and domestic and foreign pressures. Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2101, PSCI 2601, PSCI 2602, PSCI 3200, PSCI 3603, PSCI 3703.

Seminar three hours a week.

PSCI 4607 [0.5 credit] **Politics of North America**

A seminar examining the evolving relationship between Canada, the United States and Mexico, including political, economic, social, environmental and defence aspects. Includes: Experiential Learning Activity Precludes additional credit for PSCI 5607. Prerequisite(s): fourth-year Honours standing or permission of the Department. Seminar three hours a week.

PSCI 4608 [0.5 credit]

European Integration and European Security

A seminar focusing on issues related to the formation of supra-national decision-making structures in Europe. Includes: Experiential Learning Activity Also listed as EURR 4104.

Prerequisite(s): fourth-year Honours standing or permission of the department.

Also offered at the graduate level, with different requirements, as PSCI 5608, and as EURR 4104/5104, for which additional credit is precluded. Seminar three hours a week.

PSCI 4609 [0.5 credit]

Selected Topics in European Integration Studies

A seminar focusing on selected topics related to European integration in the post-World War II period. Also listed as EURR 4106.

Prerequisite(s): fourth-year Honours standing or permission of the department. Seminar three hours a week.

PSCI 4610 [0.5 credit] **Politics of Migration Management**

Seminar course that critically engages with innovative policies and instruments under the umbrella of 'migration management', and the proliferation of actors (states, international organizations, NGOs, private companies etc) involved in shaping and contributing to migration governance.

Prerequisite(s): fourth-year Honours standing or permission of the department. Seminar three hours a week.

PSCI 4611 [0.5 credit]

Africa's International Relations

Africa's international relations, analyzing interactions between states, the continent and the world, and Africa's diaspora considering history, theories, and current issues. Topics include diplomacy, security, political economy. and global governance. Includes: Experiential Learning Activity.

Includes: Experiential Learning Activity Prerequisite(s): Fourth-year Honours standing. Also offered at the graduate level, with different requirements, as PSCI 5600., for which additional credit is precluded.

Seminars three hours a week.

PSCI 4699 [0.5 credit] **Capstone Seminar in Global Politics**

Advanced seminar on a topic in global or comparative politics, applying theories and knowledge gained in previous courses in the Global Politics Specialization. Prerequisite(s): fourth-year standing in BGInS Global Politics Specialization.

PSCI 4701 [0.5 credit] Intermediate Polimetrics for Micro Data

Research designs and statistical techniques primarily used in analyzing survey data. Selected topics may vary from year to year. Students doing Honours papers based on micro data are advised to take this course. Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2700 or (PSCI 2701 and PSCI 2702), or permission of the Department. Also offered at the graduate level, with different requirements, as PSCI 5701, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4702 [0.5 credit]

Intermediate Research Methods for Applied Political Science

Applied methods for policy, politics and public affairs. Primarily quantitative, but may have qualitative elements. Includes: Experiential Learning Activity Prerequisite(s): PSCI 2700 or (PSCI 2701 and PSCI 2702), or permission of the Department. Also offered at the graduate level, with different requirements, as PSCI 5702, for which additional credit is precluded.

Seminar three hours a week.

PSCI 4800 [0.5 credit]

Advanced International Relations Theory

Close reading and analysis of theoretical research in the academic discipline of International Relations; may include analysis of methodology, normative and critical theory, and key theoretical concepts such as anarchy, sovereignty, power, inequality, coloniality, security, gender.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2601, PSCI 2602, PSCI 3601.

Seminar three hours a week.

PSCI 4801 [0.5 credit]

Selected Problems in Global Politics

The application of international relations theories to specific global problems, both historical and contemporary. Selected issues may focus on one or more of conflict analysis, terrorism, the environment, migration, globalization and global civil society.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2601, PSCI 2602, PSCI 3107, PSCI 3600, PSCI 3601, PSCI 3603, and PSCI 3703.

Seminar three hours a week.

PSCI 4803 [0.5 credit]

Foreign Policies of Major East Asian Powers

The foreign policies of the East Asian powers, with special attention to China and Japan; an analysis of the domestic sources of policy, capabilities, interests, decision-making processes and foreign relations.

Prerequisite(s): Fourth-year Honours standing or permission of the Department, and one of PSCI 2102, PSCI 2601, PSCI 2602, PSCI 3102, or PSCI 3103. Seminar three hours a week.

PSCI 4805 [0.5 credit] Global Money Rules

An exploration of the organization of the global monetary and financial system. Issues covered include the relationship between global finance and the state, the politics of world money, and the problems associated with regulating internationally-active financial institutions. Includes: Experiential Learning Activity

Prerequisite(s): Fourth-year Honours standing and one of PSCI 2602, PSCI 3600, or PSCI 3703, or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5802, for which additional credit is precluded.

Seminars three hours a week.

PSCI 4806 [0.5 credit] NATO and World Order

NATO as a political and military alliance. NATO and 21st century threats. Security roles for the E.U. Broader translatlantic security issues.

Prerequisite(s): Fourth-year Honours standing and one of PSCI 2601, PSCI 3603, or PSCI 3607, or permission of the Department.

Also offered at the graduate level, with different requirements, as PSCI 5803., for which additional credit is precluded.

Seminars three hours a week.

PSCI 4807 [0.5 credit]

Politics of Citizenship and Migration

How flows of people -- migrants, temporary workers and refugees -- challenge state sovereignty, citizenship and belonging. Emphasis on role of the state, supranational structures and international organizations in migration and mobility.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year Honours standing or
permission of the Department.
Seminar three hours a week.

PSCI 4808 [0.5 credit] Global Environmental Politics

Global politics of transboundary environmental issues such as biodiversity protection, climate change and desertification. The perspectives, actors, institutions and economic relationships affecting international policy responses to these issues.

Prerequisite(s): fourth-year Honours standing or permission of the Department, and one of PSCI 2401, PSCI 2601, PSCI 2602, or PSCI 3801. Seminar three hours a week.

PSCI 4809 [0.5 credit]

Honours Seminar on a Selected Topic in Political Science

A seminar on a selected contemporary topic in Political Science. Topic may vary from year to year and will be announced in advance of the registration period by the Department of Political Science.

Prerequisite(s): fourth-year Honours standing or permission of the Department.
Seminar three hours a week.

PSCI 4811 [0.5 credit] International Security and Terrorism

Conventional approaches to international security; international security in the post-Cold War era; theories and debates on terrorism, its causes and types, and its impact on contemporary global security.

Prerequisite(s): fourth-year Honours standing or permission of the Department.

Seminar three hours a week.

PSCI 4817 [0.5 credit]

International Politics of Forced Migration

The relationship between international politics and the causes, consequences and responses to forced migration, internal displacement and refugees. Seminars and case studies are used to examine the evolution of the global refugee regime and the challenges it faces today. Includes: Experiential Learning Activity Prerequisite(s): fourth-year Honours standing or permission of the Department. Seminar three hours a week.

PSCI 4819 [0.5 credit] Latin America and the World

Latin America's changing relations with states. international institutions and non-state actors in the Global North and South. Topics may include security, South-South cooperation, trade, investment and transnational migration and drug trafficking.

Also listed as LACS 4819.

Prerequisite(s): fourth year standing or permission from the Department.

Seminar three hours a week.

PSCI 4901 [0.5 credit] Tutorial in a Selected Field

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4902 [0.5 credit] Tutorial in a Selected Field

Tutorials or reading courses on selected topics in which seminars are not available.

Prerequisite(s): permission of the Department and agreement of an instructor.

Tutorial hours arranged.

PSCI 4905 [0.5 credit] Washington Center Seminar I

A seminar offered by The Washington Center, governed by Carleton regulations, and co-ordinated by Carleton's Department of Political Science.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210.

Seminar three hours a week.

PSCI 4906 [0.5 credit] **Washington Center Seminar II**

A seminar offered by The Washington Center, governed by Carleton regulations, and co-ordinated by Carleton's Department of Political Science.

Includes: Experiential Learning Activity

Prerequisite(s): selection to The Washington Center Internship Program and one of PSCI 2200, PSCI 3200, or PSCI 3210.

Seminar three hours a week.

PSCI 4908 [1.0 credit] **Honours Research Essay**

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. Students are responsible for locating a faculty member willing to supervise the essay. Departmental regulations

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year Honours standing in Political Science with a Political Science CGPA of 9.00 or better, or permission of the Supervisor of Undergraduate Studies.

Portuguese (PORT)

Portuguese (PORT) Courses **Placement for Language Students**

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

PORT 1010 [0.5 credit] First-Year Portuguese I

For students with no knowledge of Portuguese. Oral skills; basic reading and writing skills. Compulsory attendance. Precludes additional credit for PORT 1110. Four hours a week.

PORT 1020 [0.5 credit]

First-Year Portuguese II

Continuation of first-year Portuguese. Oral skills; basic reading and writing skills. Compulsory attendance. Precludes additional credit for PORT 1110.

Prerequisite(s): grade of C or higher in PORT 1010 or permission of the School.

Four hours a week.

PORT 1110 [1.0 credit]

Intensive First-Year Portuguese

For students with no knowledge of Portuguese. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for PORT 1010 and PORT 1020.

Eight hours a week (one term).

PORT 2110 [1.0 credit]

Intensive Second-Year Portuguese

Further study of Portuguese to reach a more advanced level of ability in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Prerequisite(s): grade of C or higher in PORT 1110 or PORT 1020, or permission of the School. Eight hours a week (one term).

PORT 3110 [1.0 credit] Intensive Third-Year Portuguese

Continuation of the study of Portuguese to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Prerequisite(s): grade of C or higher in PORT 2110, or permission of the School.

Six hours a week (one term).

PORT 4110 [1.0 credit] Intensive Fourth-Year Portuguese

Advanced spoken and written Portuguese with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Prerequisite(s): grade of C or higher in PORT 3110, or permission of the School.

Six hours a week (one term).

Psychology (PSYC)

Psychology (PSYC) Courses

PSYC 1001 [0.5 credit]

Introduction to Psychology I

A survey of topics associated with psychology's role as a natural science, including neuroscience, cognition, and learning.

Precludes additional credit for PSYC 1000.

Lecture three hours a week.

PSYC 1002 [0.5 credit]

Introduction to Psychology II

A survey of topics associated with psychology's role as a social science, including social psychology, personality, clinical psychology, and mental health.

Precludes additional credit for PSYC 1000.

Prerequisite(s): PSYC 1001. Lecture three hours a week.

PSYC 2001 [0.5 credit]

Introduction to Research Methods in Psychology

A general introduction to research methodologies employed within contemporary psychology. Topics covered include research designs (experimental, quasi-experimental) and techniques (observations, surveys), basic descriptive statistics, and how to interpret and report research findings.

Precludes additional credit for NEUR 2001 and PSYC 2000 (no longer offered).

Prerequisite(s): PSYC 1001 and PSYC 1002.

Lecture three hours a week. May include laboratories.

PSYC 2002 [0.5 credit]

Introduction to Statistics in Psychology

A general introduction to statistical techniques employed within contemporary psychology. Topics include basic data analysis using descriptive and inferential statistics (t-tests, ANOVA, correlation, chi-square).

Precludes additional credit for NEUR 2002.

Prerequisite(s): PSYC 2001.

Lecture three hours a week. May include laboratories.

PSYC 2100 [0.5 credit] Introduction to Social Psychology

Introduction to social psychology, including a survey of theories, issues, methods, and findings. This course will explore how social situations may influence people's thoughts, feelings, and behaviours. Topics may include social cognition, self-knowledge, persuasion, interpersonal attraction, aggression, and prosocial behaviour.

Precludes additional credit for SOCI 2150.

Prerequisite(s): PSYC 1001 and PSYC 1002.

PSYC 2301 [0.5 credit]

Introduction to Health Psychology

Introduction to health psychology, including a survey of theories, issues, methods, and findings. Using a multidisciplinary approach, topics may include the reciprocal interactions among physical health and illness, and psychological factors, including emotional well-being, coping and appraisal processes.

Precludes additional credit for PSYC 3406. Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 2307 [0.5 credit] Human Neuropsychology I

Introduction to study of brain-behaviour relationships, including a survey of theories, issues, methods, and findings. Topics may include basic anatomy and physiology of the human nervous system, including sensory and motor functions. Neural basis of language, perception, emotion, learning, memory, decision making and social cognition.

Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 2400 [0.5 credit] Introduction to Forensic Psychology

Introduction to forensic psychology, including a survey of theories, issues, methods, and findings. Topics covered may include development of offending, eyewitness testimony, victim studies, risk assessment, offender rehabilitation, offender classification, and police studies. Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 2500 [0.5 credit]

Foundations of Developmental Psychology

Introduction to developmental psychology, including a survey of theories, issues, methods, and findings. Topics may include biological underpinnings and genetics, as well as selected aspects of language, cognitive, moral, emotional, and social development.

Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 2600 [0.5 credit]

Introduction to the Study of Personality

Introduction to the study of personality, including a survey of theories, issues, methods, and findings. Explores the factors that contribute to people's personality and influence how they interact with others. Topics may include traits, motives, the self, physiology, the unconscious, relationships, stress and coping.

Prerequisite(s): PSYC 1001 and PSYC 1002.

PSYC 2700 [0.5 credit]

Introduction to Cognitive Psychology

Introduction to cognitive processes, including a survey of theories, issues, methods and findings. Topics covered may include pattern recognition, attention, imagery, learning (animal and human), memory, language, and thinking.

Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 2801 [0.5 credit]

Organizational Psychology I

Introduction to the study of organizational psychology, including a survey of theories, issues, methods, and findings. Examines individual and group behaviour in organizational settings. Topics may include understanding work-related attitudes, behaviour, motivation, and stress, personnel selection, personality in the workplace, organizational justice, and leadership.

Precludes additional credit for PSYC 3105, PSYC 3803 (no longer offered).

Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours per week.

PSYC 3000 [1.0 credit]

Design and Analysis in Psychological Research

Techniques in data analysis, probability, sampling distributions, and procedures of estimation. Topics include classical, Bayesian, and distribution free approaches to hypothesis testing, linear regression and curve fitting, and analysis of variance methods in experimental design. Techniques are applied with appropriate statistical software (e.g., SPSS, Excel).

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing, PSYC 2001, and
PSYC 2002.

Lectures and tutorial four hours a week.

PSYC 3001 [0.5 credit] Psychological Testing

An introduction to theory and issues pertaining to psychological tests. Topics include the creation, assessment, scoring, and interpretation of results across different testing formats (questionnaires, surveys, structured interviews, performance-based measurements). Classical and modern techniques will be incorporated. Students will apply psychological testing theory through assignments.

Prerequisite(s): PSYC 2001 and PSYC 2002. Lectures three hours a week.

PSYC 3100 [1.0 credit]

Social Psychology (Honours Seminar)

An introduction to theory and research in social psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis. Includes: Experiential Learning Activity Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2100, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the

Seminars and laboratories six hours a week.

PSYC 3104 [0.5 credit]

Department.

Intergroup Relations: The Psychology of Conflict and Violence

In-depth coverage of the social psychology of relations within and between large societal groups. Topics may include social identity, stereotyping, prejudice, and intergroup emotions, with emphasis on their role in promoting conflict and paths to pro-social intergroup relations.

Also listed as SOWK 3103.

Precludes additional credit for PSYC 3103 (no longer offered).

Prerequisite(s): PSYC 2100. Lectures three hours per week.

PSYC 3106 [0.5 credit] Close Relationships

A consideration of relationship science, with a focus on social psychological theory and empirical approaches to the study of close relationships such as dating and marital relationships, and friendships. Topics may include relationship initiation, relationship maintenance, and coping with the dissolution of relationships.

Prerequisite(s): PSYC 2100. Lectures three hours per week.

PSYC 3300 [1.0 credit] Health (Honours Seminar)

An applied introduction to theory and research in health psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis. Includes: Experiential Learning Activity Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2301, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3301 [0.5 credit]

Sport and Performance Psychology

How psychological processes influence outcomes across sport and performance environments. Topics may include self-confidence, goal-setting, arousal regulation, imagery, group dynamics, burnout, injury recovery, and how person and situational factors affect the pursuit of excellence. Prerequisite(s): one of PSYC 2100, PSYC 2301, PSYC 2500, PSYC 2600. Lectures three hours a week.

PSYC 3302 [0.5 credit] Positive Psychology

A review of theoretical, historical, and empirical scholarship in positive psychology. Drawing widely across traditional sub-disciplines, content focuses on human strengths, well-being, resilience, and virtue to understand internal, external, and developmental contributors to health and happiness.

Prerequisite(s): one of PSYC 2100, PSYC 2301, PSYC 2500, PSYC 2600. Lectures three hours a week.

PSYC 3305 [0.5 credit]

Psychology of Climate Change

An examination of the role that psychological research plays in understanding people's feelings, thoughts, and behaviour in relation to climate change and its associated problems. Strategies and interventions that help people cope with climate change and promote eco-friendly behaviour will also be discussed.

Precludes additional credit for PSYC 4335 (no longer offered).

Prerequisite(s): 0.5 credit in PSYC at the 2000-level. Lecture or seminars three hours a week.

PSYC 3307 [0.5 credit] Human Neuropsychology II

Cortical metabolism and research methods for assessment of cortical function, neuropsychological testing in the context of neurological, psychiatric and cognitive disorders caused by nervous system damage or genetic anomaly.

Precludes additional credit for PSYC 3207 (no longer offered).

Prerequisite(s): PSYC 2307. Lectures three hours a week.

PSYC 3400 [1.0 credit]

Forensic Psychology (Honours Seminar)

An applied introduction to theory and research in forensic psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis. Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2400, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3402 [0.5 credit] Criminal Behaviour

A review of theoretical and empirical research in the study of criminal behaviour. Examination of offender assessment and classification, prevalence and types of offenders, and effectiveness of offender treatment including understanding specific populations of offenders such as Indigenous offenders, women offenders and violent offenders.

Prerequisite(s): PSYC 2400. Lectures three hours a week.

PSYC 3403 [0.5 credit] Addiction

Neurobiological and social bases of drug and behavioural addictions. Contemporary theoretical approaches to addiction; approaches to current prevention and treatment.

Prerequisite(s): one of PSYC 2301, PSYC 2307, PSYC 2400.

Lectures three hours a week.

PSYC 3404 [0.5 credit] Police Psychology

Critical examination of theory and empirical research in the area of police psychology. Topics covered may include police culture, police selection, police suicide, police personality, stress debriefing, fitness evaluations, police training, crisis negotiations, and investigative techniques. Precludes additional credit for PSYC 4402 (no longer offered).

Prerequisite(s): PSYC 2400. Lectures three hours per week.

PSYC 3405 [0.5 credit]

Psychology of Motivation and Emotion

This course will explore motivational and emotional factors involved in human behaviour emphasizing various perspectives, theories, and research pertaining to physiological, cognitive, and social needs. Topics may include what factors motivates people, how motivation changes over time, and how one person can motivate another individual.

Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 3500 [1.0 credit]

Developmental Psychology (Honours Seminar)

An introduction to theory and research in developmental psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis. Includes: Experiential Learning Activity Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2500, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3505 [0.5 credit] Exceptional Children

An overview of childhood exceptionalities including intellectual differences, communication disorders, sensory and physical impairments, developmental and behavioural problems.

Prerequisite(s): PSYC 2500. Lectures three hours a week.

PSYC 3506 [0.5 credit] Cognitive Development

Human cognitive development is examined with a focus on memory, thinking and language through the life span. Topics may include perceptual and language development, emergent literacy, development of strategies and development of reading and arithmetic skills. Prerequisite(s): PSYC 2500 or PSYC 2700. Lectures three hours a week.

PSYC 3507 [0.5 credit] Social Development

Development of the individual with a focus on social cognition and social behaviour. Topics may include the role of temperament in development, parental roles, siblings and peers in social/emotional development, development of prosocial and aggressive behaviour, moral development and development of self and other understanding.

Prerequisite(s): PSYC 2500. Lectures three hours a week.

PSYC 3508 [0.5 credit]

Child Language

Milestones associated with the development of grammatical, pragmatic and metalinguistic competence from birth to about age ten, and the relative contributions of the environment, cognitive development and inborn knowledge to this development.

Includes: Experiential Learning Activity

Also listed as LING 3603.

Precludes additional credit for LALS 2603 (no longer offered).

Prerequisite(s): LING 1001 and second-year standing, or permission of the instructor.

Lectures three hours per week.

PSYC 3509 [0.5 credit]

Adolescence and Emerging Adulthood

The physical, cognitive, social and moral development of adolescents and emerging adults in multiple contexts including family, peers, media and culture. Major theories and contemporary issues and concerns.

Prerequisite(s): PSYC 2500. Lectures three hours a week.

PSYC 3511 [0.5 credit] Psychology of Aging

An introduction to the psychology of aging, including applying the lifespan approach to theories, issues, and methods used to study the aging process. Behavioral and neurobiological aspects of healthy aging and dementia. Other topics may include sensory processes, personality, interpersonal relationships, bereavement, and mental health.

Prerequisite(s): One of PSYC 2500, PSYC 2307, or PSYC 2700.

Lectures three hours a week.

PSYC 3600 [1.0 credit] Personality (Honours Seminar)

An introduction to theory and research in personality psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis. Includes: Experiential Learning Activity

Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2600, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the Department.

Seminars and laboratories six hours a week.

PSYC 3603 [0.5 credit] Psychology of Women

An examination of theories and research regarding the similarities and differences in women's and men's psychological processes. Psychological issues relevant to women (e.g., women's health concerns, women's sexuality, violence toward women and children) will be examined as well as feminist and traditional research methods.

Prerequisite(s): one of PSYC 2100, PSYC 2500, PSYC 2600.

Lectures three hours a week.

PSYC 3604 [0.5 credit]

Clinical Psychology and Mental Illness

History of the concept of mental illness. Theory and selected research dealing with the nature and etiology of mental illness.

Prerequisite(s): PSYC 2301, PSYC 2500 or PSYC 2600. Lectures three hours a week.

PSYC 3700 [1.0 credit] Cognition (Honours Seminar)

An introduction to theory and research in cognitive psychology. Activities include reading and assessing the appropriate literature, designing studies and experiments, conducting data analyses, and producing APA style reports. Research ethics and graduate studies are also addressed. Taught in preparation of fourth year thesis. Includes: Experiential Learning Activity Prerequisite(s): PSYC 2001, PSYC 2002, PSYC 2700, third-year Honours standing in Psychology with a CGPA of 9.0 or higher in the major and permission of the

Seminars and laboratories six hours a week.

PSYC 3702 [0.5 credit] Perception

Department.

Introduction to theory, research methods and principles associated with the study of perceptual processes. Examples of how perceptual principles can be applied to solve problems in communications, transportation, medicine, industrial design, manufacturing, marketing, food and beverage industries (flavoring, blending, and scenting, etc.).

Precludes additional credit for NEUR 3202. Prerequisite(s): PSYC 1001 and PSYC 1002. Lectures three hours a week.

PSYC 3709 [0.5 credit]

Language Processing and the Brain

Introduction to adult language processing and neurolinguistics. Psychological processes underlying speech production and perception, word recognition and sentence processing. Biological foundation and neuro-cognitive mechanisms of language. Experimental techniques and methodologies of current psycholinguistic studies.

Includes: Experiential Learning Activity

Also listed as LING 3601.

Precludes additional credit for LALS 2601 and LALS 3601

(no longer offered).

Prerequisite(s): LALS 1000 or LALS 1001 or LING 1001 or PSYC 2700 and second-year standing, or permission of the instructor.

Lectures three hours a week.

PSYC 3710 [0.5 credit]

Introduction to Human Factors

Theoretical foundation, philosophy and practical application of techniques for analyzing from a psychological perspective how people interact with designed environments. A major goal is to determine how these environments should be designed to suit human capabilities.

Precludes additional credit for PSYC 2800 (no longer offered).

Prerequisite(s): PSYC 2001 and PSYC 2002.

Lecture three hours a week.

PSYC 3801 [0.5 credit]

Organizational Psychology II

Advanced coverage of the current theory and practices in Organizational Psychology. Selected topics may include workplace socialization, job attitudes, deviant work behaviours, leadership, teams and group dynamics, workrelated stress and health, and organizational change and development.

Prerequisite(s): PSYC 2801. Lectures three hours per week.

PSYC 3802 [0.5 credit] Transition to Career

Within the context of an active learning environment, examines traditional and current models in career psychology. Topics may include the concepts of change and transitions, self-assessments, vocational psychology, and workplace onboarding. Students will examine their personal and professional transition from university to the work world.

Includes: Experiential Learning Activity Prerequisite(s): third or fourth year standing in

Psvchologv.

Lectures three hours a week.

PSYC 3901 [0.5 credit] Practicum in Psychology

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues. Includes: Experiential Learning Activity Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3902 [0.5 credit] Practicum in Psychology

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues. Includes: Experiential Learning Activity Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3905 [1.0 credit] Practicum in Psychology

Experiential learning in psychology via field placement. Students pursue personal learning outcomes focused on the application of psychology within the community. Assignments promote ongoing reflection and the sharing of what has been learned with colleagues. Includes: Experiential Learning Activity

Prerequisite(s): Third- or fourth-year standing in Psychology with a CGPA of 7.0 or higher in the major and permission of the Department.

PSYC 3999 [0.0 credit] Co-operative Work Term

Co-operative Work Term. Includes: Experiential Learning Activity Work Term.

PSYC 4001 [0.5 credit] Special Topics in Psychology

Each section of PSYC 4001 deals with a different topic. Topics change yearly. Students may register in more than one section of PSYC 4001 but can register in each section only once.

Prerequisite(s): each section will have its own. Lectures or seminars three hours a week.

PSYC 4003 [0.5 credit]

Origins of Modern Psychology

An overview of the evolution of psychology, with an emphasis on psychology as a specialized area of knowledge and practice in the late-nineteenth and twentieth centuries. Topics covered may include the history of a particular period, content area, or cultural context.

Precludes additional credit for PSYC 2003. Prerequisite(s): third or fourth-year standing in a Psychology Honours program.

Lectures or seminars three hours per week.

PSYC 4100 [0.5 credit]

Advanced Topics in Social Psychology

In-depth exploration of theoretical and empirical issues related to selected topics in Social psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2100. Lectures or seminars three hours a week.

PSYC 4235 [0.5 credit] Psychology of Climate Change

An examination of the role that psychological research plays in understanding people's feelings, thoughts, and behaviour in relation to climate change and its associated problems. Strategies and interventions that help people cope with climate change and promote eco-friendly behaviour will also be discussed.

Prerequisite(s): third or fourth-year standing and one PSYC at the 2000-level.

Lectures or seminars three hours a week.

PSYC 4301 [0.5 credit]

Advanced Topics in Health Psychology

In-depth exploration of theoretical and empirical issues related to selected topics in health psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2301. Lectures or seminars three hours a week.

PSYC 4330 [1.0 credit]

Community Mental Health and Well-Being

An examination of theory, research, and the practice of approaches to support peers and their well-being. Students will apply the concepts learned during the seminars in field placements.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year Honours standing in
Psychology, Mental Health and Well-Being Stream.
Seminar three hours per week.

PSYC 4333 [0.5 credit]

Clinical Psychology: Assessment and Intervention

An advanced seminar on clinical psychology and mental health. Students will learn about frequently used treatment modalities and common factors across treatments.

Research methodology and recent advances dealing with a variety of common mental disorders will also be reviewed and discussed.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year Honours standing in
Psychology and PSYC 3604.

Lecture or seminar three hours per week.

PSYC 4400 [0.5 credit]

Advanced Topics in Forensic Psychology

In-depth exploration of theoretical and empirical issues related to selected topics in Forensic psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2400. Lectures or seminars three hours a week.

PSYC 4403 [0.5 credit] Gender and Crime

This course explores the role of gender in understanding, preventing, and treating adult and youthful criminal conduct. The course operates from a psychological and developmental perspective seeking to examine individual differences in female perpetrated criminal conduct across the life span.

Prerequisite(s): fourth-year standing and PSYC 3402. Lectures or seminars three hours a week.

PSYC 4404 [0.5 credit] Sex Offenders

Theory and research concerning the etiology and maintenance of sexual offending; assessment, treatment, and management of sex offenders. Introduction to fundamental issues and controversies in the area. Prerequisite(s): third- or fourth-year standing, PSYC 2400, and PSYC 3402.

Lectures or seminars three hours a week.

PSYC 4410 [0.5 credit] Children and the Law

This course will explore psychological factors affecting child witnesses and victims as they interact within the criminal justice system. The course will survey the intersection of psychology and law within the areas of eyewitness memory, police procedures, and the criminal justice system.

Prerequisite(s): fourth-year standing, and PSYC 2400 or PSYC 2500.

Lectures or seminars three hours a week.

PSYC 4411 [1.0 credit]

Cold Case Investigations

Forensic science, criminal justice, psychology, and investigative techniques equip students with knowledge and practical skills required to tackle unsolved crimes. Expert academics and practitioners will present in the first semester, and in the second semester students actively participate in solving an unsolved cold case.

Includes: Experiential Learning Activity Precludes additional credit for None.

Prerequisite(s): Major CGPA of 10.0 (A-) in Psychology;

Fourth-Year Standing.

Also offered at the graduate level, with different requirements, as PSYC 5029., for which additional credit is precluded.

Lectures and Experimental Learning Activity.

PSYC 4500 [0.5 credit]

Advanced Topics in Developmental Psychology

In-depth exploration of theoretical and empirical issues related to selected topics in developmental psychology. The specific content for this course will vary from year to

Prerequisite(s): fourth-year standing, and one of PSYC 3500, PSYC 3505, PSYC 3506, PSYC 3507, PSYC 3509.

Lectures or seminars three hours a week.

PSYC 4600 [0.5 credit]

Advanced Topics in Personality Psychology

In-depth exploration of theoretical and empirical issues related to selected topics in personality psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing and PSYC 2600. Lectures or seminars three hours a week.

PSYC 4700 [0.5 credit]

Advanced Topics in Cognitive Psychology

In-depth exploration of theoretical and empirical issues related to selected topics in cognitive psychology. The specific content for this course will vary from year to year. Prerequisite(s): fourth-year standing, and PSYC 2700. Lectures or seminars three hours a week.

PSYC 4801 [0.5 credit] Occupational Health Psychology

The application of psychological knowledge to enhance employee physical and mental health, safety and wellbeing, and more broadly, to enrich organizational life. Students will be able to learn and analyze critically the relevant methodological, theoretical, and empirical Occupational Health Psychology literature. Prerequisite(s): third or fourth-year standing and one of PSYC 2100, PSYC 2301, PSYC 2801. Lectures or seminars three hours a week.

PSYC 4802 [0.5 credit]

Advanced Topics in Organizational Psychology

In-depth exploration of theoretical and empirical issues related to selected topics in organizational psychology. The specific content for this course will vary from year to vear.

Prerequisite(s): fourth-year standing and PSYC 2801. Lectures or seminars three hours a week.

PSYC 4900 [0.5 credit] **Independent Study**

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally, students may not include more than one credit of independent study in their total program. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in Psychology and permission of the Department. Mentored work.

PSYC 4902 [0.5 credit] Independent Study

A reading or research course for selected students who wish to investigate a particular topic of interest. Normally, students may not include more than one credit of independent study in their total program. Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in Psychology and permission of the Department. Mentored work.

PSYC 4907 [1.0 credit]

Thesis for B.Sc. with Honours in Psychology

A thesis supervised by a Faculty Adviser. Students review the appropriate literature, contribute to the design of a study or experiment, conduct data analyses, and produce an APA style written report. Students may also present a research poster at the Psychology Undergraduate Research Event.

Includes: Experiential Learning Activity Precludes additional credit for PSYC 4906 (no longer

Prerequisite(s): fourth-year Honours standing in Psychology with a major CGPA of 10.0, PSYC 3000; one of PSYC 3100, PSYC 3300, PSYC 3400, PSYC 3500, PSYC 3600, PSYC 3700 or PSYC 3805; and permission of the Department.

Lectures during the fall term given by the course instructor and mentored work arranged by the Faculty Adviser.

PSYC 4908 [1.0 credit]

Thesis for B.A. with Honours in Psychology

A thesis supervised by a Faculty Adviser. Students review the appropriate literature, contribute to the design of a study or experiment, conduct data analyses, and produce an APA style written report. Students may also present a research poster at the Psychology Undergraduate Research Event.

Includes: Experiential Learning Activity
Precludes additional credit for PSYC 4905 (no longer

Prerequisite(s): fourth-year Honours standing in Psychology with a major CGPA of 10.0, PSYC 3000; one of PSYC 3100, PSYC 3300, PSYC 3400, PSYC 3500, PSYC 3600, PSYC 3700, PSYC 3805; and permission of the Department.

Lectures during the fall term given by the course instructor and mentored work arranged by the Faculty Adviser.

PSYC 4909 [1.0 credit]

Project for B.Sc. with Honours in Psychology

Within an active learning environment, students develop oral presentations and written documents that may include annotated bibliographies, essays, and presentation slides. They must also present a research poster at the Psychology Undergraduate Research Event. Students select an area of psychological research of interest to them.

Includes: Experiential Learning Activity
Precludes additional credit for PSYC 4906 (no longer offered), PSYC 4907, and PSYC 4908.

Prerequisite(s): fourth-year standing in B.Sc. (Honours) in Psychology, and PSYC 3000.

Seminars three hours a week.

PSYC 4910 [1.0 credit]

Project for B.A. with Honours in Psychology

Within an active learning environment, students develop oral presentations and written documents that may include annotated bibliographies, essays, and presentation slides. They must also present a research poster at the Psychology Undergraduate Research Event. Students select an area of psychological research of interest to them.

Includes: Experiential Learning Activity
Precludes additional credit for PSYC 4905 (no longer offered), PSYC 4907 and PSYC 4908.

Prerequisite(s): fourth-year standing in B.A (Honours) in Psychology, and PSYC 3000.

Seminars three hours a week.

Public Administration (PADM)

Public Administration (PADM) Courses

PADM 1501 [0.5 credit]

Public Administration in Nunavut

An introduction to the theoretical, constitutional and practical basis of public administration in Nunavut. Normally offered in Nunavut.

Prerequisite(s): enrolment in the Certificate for Nunavut Public Service Studies.

PADM 1502 [0.5 credit]

Management of Federal-Territorial Relations

Introduction to managing the relationship between the territorial and federal governments, with examples drawn from Nunavut, the Northwest Territories and Yukon practices. Normally offered in Nunavut.

Prerequisite(s): enrolment in the Certificate for Nunavut Public Service Studies and successful completion of PSCI 1002 and PADM 1501.

PADM 3105 [0.5 credit]

Management in the Public Sector

Consideration of constraints and opportunities of publicsector management, including government at all levels and para-statal organizations. Topics may include the accountability regimes, features of the human resource management context, administration of information and material resources, responsibilities and relationships of managers towards citizens.

Prerequisite(s): third-year standing in the B.P.A.P.M. program.

Seminar three hours a week.

PADM 4213 [0.5 credit] Gender and Public Policy

Policy and policy-making as they pertain to gender relations within the state and in society. The negative and positive effects of public policy on gender relations in the family and the labour market.

Precludes additional credit for PADM 4701, PADM 5701. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5213, for which additional credit is precluded.

PADM 4214 [0.5 credit]

Budgetary Policy in the Public Sector

Selected aspects of the expenditure and revenue budget and budgetary process at all levels of government. Critical review of actual budgets and budgetary processes. Precludes additional credit for PADM 5103. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M.

Also offered at the graduate level, with different requirements, as PADM 5214, for which additional credit is precluded.

PADM 4220 [0.5 credit] Regulation and Public Policy

Political, economic, legal, and organizational theories of regulation in the Canadian and comparative context. Processes and consequences of regulatory practice in selected Canadian public policy fields.

Precludes additional credit for PADM 5002.

Prerequisite(s): fourth-year standing in the Public Policy.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5220, for which additional credit is precluded.

PADM 4221 [0.5 credit] Health Policy in Canada

Canadian health policies and programs set in a comparative political-economic and institutional context. Precludes additional credit for PADM 4009, PADM 5009. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5221, for which additional credit is precluded.

PADM 4224 [0.5 credit] Aboriginal Policy

Canadian policies and programs on aboriginal peoples and aboriginal peoples' own policies as nations set in a comparative political-economic and institutional context. Precludes additional credit for PADM 4806, PADM 5806. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5224, for which additional credit is precluded.

PADM 4226 [0.5 credit]

Tax Policy

Canadian tax policies set in a comparative politicaleconomic and institutional context.

Precludes additional credit for PADM 4509, PADM 5509. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5226, for which additional credit is precluded.

PADM 4227 [0.5 credit]

Education Policy

Canadian policies and programs in education set in a comparative political-economic and institutional context. Precludes additional credit for PADM 4809, PADM 5809. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5227, for which additional credit is precluded.

PADM 4228 [0.5 credit]

Social Policy

The nature and historical development of social programs in capitalist countries, with particular focus on Canada. The course will concentrate on developing a critical understanding of the social forces shaping these programs.

Precludes additional credit for PADM 4604, PADM 5604. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program

Also offered at the graduate level, with different requirements, as PADM 5228, for which additional credit is precluded.

PADM 4230 [0.5 credit] Ethics for Public Policy

The development and application of ethical theories to examine not simply what governments could do, but what they should do on the basis of consequences, principles, or motivations. Applications could include policies affecting climate change, inequality, end of life, privacy, use of force.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5230, for which additional credit is precluded.

Seminar three hours a week.

PADM 4320 [0.5 credit] Ethics for Public Policy

Development and application of ethical theories to examine what governments should do, taking into account the outcomes, principles, or motivations of public policies and policy-making. Applications could include policies affecting climate change, income inequality, end of life, privacy, restitution, use of force.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5230, for which additional credit is precluded.

PADM 4611 [0.5 credit]

Science and Technology Policies

Theory and practice regarding governmental policies for science and technology, and the use of scientific knowledge in the policy and regulatory processes of government. Concerns regarding the ethical issues and the transparency of science in government. Precludes additional credit for PADM 5400.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5611, for which additional credit is precluded.

PADM 4612 [0.5 credit] Industrial Policy, Innovation and Sustainable Production

An examination of sustainable production theory and key drivers, barriers and opportunities influencing innovation in industrial systems and processes. The relationship of public policies and industry practices are explored in a number of sectors.

Precludes additional credit for PADM 4600, PADM 5600. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5612, for which additional credit is precluded.

PADM 4615 [0.5 credit] Politics and Policy of Energy in Canada

The dilemmas associated with energy policy in Canada. Economic, social and environmental dimensions of energy decision making; Canadian issues within the contexts of a changing international scene and long term energy transitions.

Precludes additional credit for PADM 5515. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5615, for which additional credit is precluded.

PADM 4616 [0.5 credit] Environmental Policy

Canadian environmental policies and programs in a comparative political-economic and institutional context. Precludes additional credit for PADM 4008, PADM 5008. Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as PADM 5616, for which additional credit is precluded.

PADM 4817 [0.5 credit]

Health Policy in Developing Countries

Debates regarding health policy in the developing world, in the context of the global health sector reform movement, trade and intellectual property regimes, and strategies of corporate and NGO actors. Issues of gender, class and the determinants of health.

Prerequisite(s): fourth-year standing in the Public Policy and Administration Specialization of the B.P.A.P.M. program.

Also offered at the graduate level, with different requirements, as IDMG 5617/PADM 5817, for which additional credit is precluded.

Public Affairs and Policy Management (PAPM)

Public Affairs and Policy Management (PAPM) Courses

PAPM 1001 [0.5 credit]

Policy: Analysis, Implementation, and Evaluation

The processes of policy-making, implementation and evaluation. Forces that shape policy deliberations and alternative tools for managing policy action and policy evaluation. Theoretical approaches to understanding the origins of policy, and methods by which programs are designed and assessed.

Includes: Experiential Learning Activity Precludes additional credit for PAPM 2000.

Lecture two hours a week, discussion one hour per week.

PAPM 2001 [0.5 credit]

Foundations of Public Policy: Political Thought

Theoretical, philosophical and ethical foundations for the study of public affairs and policy management. Drawing from classic and contemporary texts in political philosophy and theory, students consider issues relating to the nature of democracy, civic society and social organizations, the public, public affairs, public interest.

Precludes additional credit for PAPM 1000.

Prerequisite(s): PAPM 1001, PSCI 2003, and second-year standing.

Lecture two hours a week, discussion one hour a week.

PAPM 2002 [0.5 credit]

Foundations of Public Policy: Economic Thought

An examination of the history of economic thought, the context in which it developed, and its influence on public policy, from ancient to classical, neoclassical, and Keynesian approaches. Will also include a discussion of critical approaches such as Marxist, feminist, racial capitalist thought.

Precludes additional credit for PAPM 1000.

Prerequisite(s): PAPM 1001, PSCI 2003, and second-year standing.

Lecture two hours a week, discussion one hour a week.

PAPM 3000 [0.5 credit]

Policy Research

An examination of the research strategies and techniques relevant to policy analysis and evaluation. Using the case study method, the role of research and research organizations in the policy process is discussed. The issue of ethical dilemmas in policy research is also considered. Includes: Experiential Learning Activity

Prerequisite(s): PSCI 2701 and PSCI 2702, or COMM 2001, or ECON 2201 and ECON 2202 and Good Standing in the Bachelor of Public Affairs and Policy Management program.

Lecture and discussion three hours a week.

PAPM 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

PAPM 4000 [0.5 credit] Capstone Seminar in Public Affairs and Policy Management

Policy workshop focusing on the application of public affairs analysis to develop problem solving and research skills. Seminar is policy-focused and organized by area of Specialization in the program. Students, working in small groups, examine concrete policy problems, actual or simulated, in specific institutional contexts.

Includes: Experiential Learning Activity
Prerequisite(s): PAPM 3000 and Good Standing in
the Bachelor of Public Affairs and Policy Management
program.

Seminar three hours a week.

PAPM 4099 [0.5 credit] Policy Seminar

Students address a specific policy problem or problems, in interaction with local, national or international policy experts or practitioners. Emphasis on policy analysis, research, and communication skills.

Includes: Experiential Learning Activity

Prerequisite(s): PAPM 3000. Seminar three hours per week.

PAPM 4100 [0.5 credit]

Special Topics in Public Affairs and Policy Management

Analysis of selected issues in public affairs and policy management not ordinarily treated in the regular course program. The choice of topics will vary from year to year. Students should consult with the College regarding the topic offered.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the B.P.A.P.M. program or permission of the Kroeger College.

Seminar three hours per week.

PAPM 4908 [1.0 credit] Honours Research Essav

Individual research project resulting in a major essay, completed under the supervision of a faculty member and evaluated by both the supervisor and an appointed reader. Students are responsible for locating a faculty member willing to supervise the essay. Departmental regulations apply.

Includes: Experiential Learning Activity

Prerequisite(s): PAPM 3000 and fourth-year standing in the Bachelor of Public Affairs and Policy Management program with a Major CGPA or 9.0 or better, or permission of the Director of the Public Affairs and Policy Management program.

Religion (RELI)

Religion (RELI) Courses

Language courses RELI 1010 [1.0] Elementary Language Tutorial, RELI 2010 [1.0] Intermediate Language Tutorial and RELI 3010 [1.0] Advanced Language Tutorial are intended for students specializing in a particular religious tradition. They are offered according to the availability of members of the Discipline. Courses taken at the 2000-level or above will be mainly independent study under the supervision of a member of the Discipline. Students interested in taking these courses should consult the Coordinator.

RELI 1010 [1.0 credit]

Elementary Language Tutorial

Elementary study of the language required for studying a religious tradition.

Precludes additional credit for RELI 1902 (no longer offered).

Prerequisite(s): Major/Minor in Religion or permission of the department.

Tutorial two hours a week.

RELI 1710 [0.5 credit]

Judaism, Christianity, Islam

A survey of the history, beliefs and practices of these major religious traditions.

Includes: Experiential Learning Activity

Precludes additional credit for RELI 1000 (no longer offered)

Lecture three hours a week.

RELI 1712 [0.5 credit]

Religions of South and East Asia

A survey of the history, beliefs, and practices of South and East Asian religious traditions, including Hinduism, Buddhism, Jainism, Sikhism, Daoism, Confucianism, and Shinto.

Precludes additional credit for RELI 1715 (no longer offered), RELI 1716 (no longer offered).

Lecture three hours per week.

RELI 1731 [0.5 credit] Religion and Culture

Interpreting how religion is represented and expressed by great works of literature, film, art, music, and popular culture. Topics include myth and ritual, community and identity, body and sexuality, sacred space, creativity and imagination.

Precludes additional credit for RELI 1205 (no longer offered), RELI 1206 (no longer offered), RELI 1402 (no longer offered), and RELI 2002 (no longer offered). Lecture three hours a week.

RELI 1741 [0.5 credit]

Global Religions: Identity and Community

An introduction to major issues in the study of religion in global contexts, drawing on historical and contemporary examples.

Lecture three hours a week.

RELI 2010 [1.0 credit]

Intermediate Language Tutorial

Intermediate study of the language required for studying a religious tradition. Restricted to students registered in a Religion program.

Precludes additional credit for RELI 2902 (no longer offered).

Prerequisite(s): RELI 1902 (no longer offered) or RELI 1010 or permission of the department. Tutorial two hours a week.

RELI 2110 [0.5 credit]

Judaism

The history of Judaism and the Jewish people from the Second Temple until the present day. The organization, basic beliefs, social and ethical practices of the Jews and Judaism.

Precludes additional credit for RELI 1008 (no longer offered) and RELI 2508 (no longer offered). Lecture three hours a week.

RELI 2121 [0.5 credit]

Hebrew Bible

An introduction to the foundational text for Abrahamic religions that places its various literary genres, theologies, myths and histories within a larger ancient Near Eastern context. All texts in English translation.

Precludes additional credit for RELI 3505C taught in 2007-2008.

Lecture three hours a week.

RELI 2200 [0.5 credit]

Christianity

An introduction to the history, beliefs, traditions, practices, and diversity of Christianity from its beginnings to the present day.

Lecture three hours per week.

RELI 2220 [0.5 credit]

Early Christianity

Introduction to the critical study of the writings of the New Testament with discussion of their Hellenistic and Jewish background, the historical Jesus, Paul and his letters, and historical and sociological explanations for the rise of the early church and interpretation of its writings.

Precludes additional credit for RELI 1003 (no longer offered), RELI 1200 (no longer offered) and RELI 2207 (no longer offered).

Lecture three hours a week.

RELI 2230 [0.5 credit] Global Christianity

Survey of recent and current Christian movements around the world, both by region and thematically, with emphasis on institutions and networks that connect Christian communities across national boundaries. Special consideration is given to the cultural and political capacities of such Christian communities and networks. Lecture three hours a week.

RELI 2310 [0.5 credit]

Islam

The study of Muslim religious tradition and investigation of its organization, basic beliefs, social and ethical principles and practices.

Precludes additional credit for RELI 1009 (no longer offered) and RELI 2509 (no longer offered). Lecture three hours a week.

RELI 2330 [0.5 credit]

The Qur'an

An examination of the Qur'an's content, form, style, central themes, canonization, and classical and contemporary interpretive traditions. All texts are in English.

Prerequisite(s): second-year standing or approval from the department.

Lecture three hours a week.

RELI 2410 [0.5 credit]

Buddhism

Basic beliefs and practices of the Buddhist tradition and a brief survey of its development and transformations in India, Sri Lanka, Southeast Asia, Tibet, China and Japan. Lecture three hours a week.

RELI 2510 [0.5 credit]

Hinduism

Basic beliefs, practices, and social structures of the Hindu tradition as reflected in Hindu scriptures, myths and symbols, and philosophical schools. Lecture three hours a week.

RELI 2535 [0.5 credit] Religion and Gender

An exploration of issues related to gender and religion in historical and contemporary contexts.

Lectures three hours a week.

RELI 2600 [0.5 credit] Religions of China

Survey of the origins, development, and diffusion of Chinese religious traditions, including Confucianism, Daoism, Chinese Buddhism and popular religion(s). Includes: Experiential Learning Activity Lecture three hours a week.

RELI 2710 [1.0 credit]

Maccabees to Muhammad

The early history, literature and ideas of Judaism, Christianity and Islam from 200 BCE to 750 CE. Precludes additional credit for RELI 2208 (no longer offered).

Prerequisite(s): restricted to students in the Bachelor of Humanities & Religion program or by approval of the department.

Lecture three hours per week.

RELI 2711 [0.5 credit] Love and Its Myths

An exploration of love as expressed in religious literatures and religious practices.

Lectures three hours a week.

RELI 2712 [0.5 credit] Religious Diversity of Canada

An historical survey emphasizing the interactions of various religious traditions in Canada, including indigenous religions, Christian missionary and colonial traditions, immigrant and global diaspora religions. Precludes additional credit for RELI 2307 Section A (2007-2008).

Lectures three hours a week.

RELI 2713 [0.5 credit]

Mystical and Contemplative Traditions

An historical and functional study of mystical experiences in their religious contexts, relying on examples from selected traditions such as the Christian, Buddhist, Hindu, Jewish and Muslim.

Precludes additional credit for RELI 2300 (no longer offered).

Lecture three hours a week.

RELI 2720 [0.5 credit]

Indigenous Religions of Canada

Religions of Inuit, First Nations and Métis peoples, past and present. Considerations include concepts of tradition, syncretism and "creative ritual." Primary sources may include textual, visual and oral materials. Course may include fieldwork, as well as in-class presentations by community elders.

Includes: Experiential Learning Activity Lecture three hours a week.

RELI 2732 [0.5 credit] Death and Afterlife

The meaning of death and afterlife in some religious traditions and secular philosophies with emphasis on the Hindu teaching of the immortal soul; the Hebraic idea of collective survival; the Christian doctrine of resurrection of the body; the Buddhist conception of no-soul and nirvana. Precludes additional credit for RELI 2308 (no longer offered).

Lecture three hours a week.

RELI 2735 [0.5 credit] Greek Religion

A study of religion in ancient Greece.

Also listed as CLCV 2103.

Precludes additional credit for CLCV 2102 (no longer offered), RELI 2734 (no longer offered), RELI 2102 (no longer offered).

Lecture three hours a week.

RELI 2736 [0.5 credit] Religion and Society

Cross-cultural survey of religious institutions, focusing on theories and methodologies in the study of religion. Topics may include myth, totemism, cults, ritual, belief systems, altered states of consciousness, new religious and/or new age movements and the relationship of religion with other social institutions and processes.

Includes: Experiential Learning Activity

Also listed as ANTH 2550.

Lectures and workshop three hours a week.

RELI 2737 [0.5 credit]

Roman Religion

A study of religion in ancient Rome.

Also listed as CLCV 2104.

Precludes additional credit for CLCV 2102 (no longer offered) and RELI 2734 (no longer offered) and RELI 2102 (no longer offered).

Lecture three hours a week.

RELI 2738 [0.5 credit] Philosophy of Religion

A study of philosophical issues arising from religion. Topics may include: arguments for and against the existence of God, religious experience, death and the afterlife, miracles, God and evil, the relationship between religion and science, and the relationship between religion and ethics.

Also listed as PHIL 2601.

Prerequisite(s): a course in philosophy or second-year standing.

RELI 2741 [0.5 credit]

Big Questions in Religious Studies

In this Inquiry course, students will be introduced to a specific topic in Religious Studies (e.g., ritual, narrative, space) and develop a research project related to it. Focus on fostering intellectual curiosity and developing practical skills of reading, writing and research fundamentals. Precludes additional credit for RELI 2002 (no longer offered), RELI 1205 (no longer offered), and RELI 1402 (no longer offered).

Seminar three hours per week.

RELI 2800 [0.5 credit] Indigenous Traditions

This course illuminates a recent category of "World Religions" by examining cases from all five continents, as well as in diaspora (e.g., Brazilian Candomblé, Roma/ Sinti religion). Considerations include the study of minority religions, religion in oral cultures, myth & ritual studies, colonialism, globalization.

Precludes additional credit for RELI 1720 (no longer offered).

Lecture three hours per week.

RELI 2810 [0.5 credit]

Special Topics in Religion and Popular Culture

Examination of interactions between religion and popular culture in the form of music, film, video games, literature, and other media. Topic and focus will vary year to year; please check departmental website for information. May be repeated for credit when the topic changes. Includes: Experiential Learning Activity Lecture three hours per week.

RELI 2811 [0.5 credit]

Religions and the Environment

Attitudes in the major world religions to nature and the environment and recent responses by religious traditions to ecological degradation and crisis. Includes examination of religious sensibilities expressed in environmentalism. Precludes additional credit for RELI 3710 (no longer offered).

Lecture three hours per week.

RELI 2840 [0.5 credit]

Topics in Religion

Content of this course may vary from year to year. Please check departmental website for information on the topic. Precludes additional credit for repeated topics. Lecture three hours a week.

RELI 3000 [0.5 credit] Religion and Public Life

This course examines some aspects of the intersection between religion(s) and public life, broadly construed, including social, economic, political, institutional aspects, either in the contemporary world or focused on a particular historical period.

Seminar three hours per week.

RELI 3010 [1.0 credit]

Advanced Language Tutorial

Advanced study of the language required for studying a religious tradition.

Precludes additional credit for RELI 3902 (no longer offered).

Prerequisite(s): RELI 2902 (no longer offered) or RELI 2010 or permission of the department.

Tutorial two hours a week.

RELI 3101 [0.5 credit]

Special Topics in Religions and the Body

Discussion of the embodiment of religious ideas in life, law, and practice, for example in food consumption, gender ideologies, sexuality, adornment, and death rituals. Topic will vary year to year; please check departmental website for information. May be repeated for credit when the topic changes.

Precludes additional credit for RELI 3130 (no longer offered), RELI 3131 (no longer offered), RELI 3331 (no longer offered), RELI 3734 (no longer offered). Lecture three hours a week.

RELI 3140 [0.5 credit]

The Holocaust: Historical and Religious Dimensions

Introduction to the historical and religious dimensions of the Holocaust. The foundations, perpetration and consequences of the Nazi Final Solution through primary sources including survivor testimony will be examined. Also listed as HIST 3714.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3142 [0.5 credit]

Antisemitism, Then and Now

An examination of the long history of antisemitism to understand how historical forms of antisemitism have endured into the present and evolved over time. A variety of texts, images, media representations, and oral histories will be explored using methodologies from history and religious studies.

Also listed as HIST 3122.

RELI 3220 [0.5 credit]

Reformation Europe

A history of the Protestant and Catholic Reformations of the sixteenth century, with emphasis on the theological disputes of the protagonists and the impact of these disputes on the social, political and cultural developments of the era.

Also listed as HIST 3708.

Precludes additional credit for RELI 3708 (no longer offered)

Prerequisite(s): 0.5 credit at the 2000-level in HIST or third-year standing.

Lecture three hours a week.

RELI 3230 [0.5 credit]

Jesus of Nazareth

A study of the historical records of the life of Jesus, the methods used to interpret them, and the resulting images of Jesus.

Prerequisite(s): RELI 2220 or permission of the department.

Lectures three hours a week.

RELI 3231 [0.5 credit]

Paul of Tarsus

The social, religious, and historical context of Paul, the communities he founded, and the letters he wrote to them.

Prerequisite(s): RELI 2220 or permission of the department.

Lecture three hours a week.

RELI 3232 [0.5 credit] Christian Discipline

An historical survey of key Christian thought and practices at the individual and collective level. Topics may include self-discipline, body discipline, monastic discipline, church discipline and social discipline.

Precludes additional credit for RELI 3302 Section "A" taught in 2007-2008.

Prerequisite(s): third-year standing or permission of the department.

RELI 3250 [0.5 credit]

Evangelical Christianity in Social-Historical Perspective

The development of some protestant Christianities in relation to material factors, such as colonialism, industrial or consumer capitalism, imperialism, and in relation to major ideological trends, such as nationalism, economic or political liberalism and atheism.

Lecture three hours a week.

RELI 3301 [0.5 credit]

Music, Religion, and Spiritual Practices

Through various case studies, this course considers the role music plays in selected religions and spiritual practices.

Also listed as MUSI 3301.

Prerequisite(s): second-year standing.

Seminars three hours a week.

RELI 3330 [0.5 credit]

Sufism

An introduction to the main practical and theoretical dimensions of Islam's mystical tradition as seen through the life and work of its key representatives.

Prerequisite(s): second year standing or permission of the department.

Lecture three hours a week.

RELI 3333 [0.5 credit]

Topics in Magic, Witchcraft, and the Occult

Studies in issues related to magic, witchcraft and/or the occult in various historical, religious, and cultural contexts. Includes: Experiential Learning Activity

Prerequisite(s): third-year standing, or permission of the department.

Lectures 3 hours a week.

RELI 3340 [0.5 credit]

The Life and Image of Muhammad

Overview of the life and teaching of the Prophet Muhammad, and the most salient motifs and features of Muslim devotion to him.

Prerequisite(s): RELI 1710 or RELI 2310 or permission of the department.

Lecture three hours a week.

RELI 3360 [0.5 credit]

Special Topics in Islamic Texts & Narratives

A focus on post-Qur'anic Islamic literature and interpretive traditions (e.g. tafsir, hadith); texts and topics will vary from year to year; please check departmental website for information. May be repeated for credit when the topic changes.

Prerequisite(s): RELI 2310 or RELI 2330.

Lecture three hours per week.

RELI 3420 [0.5 credit] Early Buddhism

An exploration of the development of early Buddhist philosophy, psychology, religious texts, and practices. Precludes additional credit for RELI 3215(no longer offered).

Prerequisite(s): RELI 2106 (no longer offered), second year standing or permission of the department. Lectures three hours a week.

RELI 3422 [0.5 credit] Buddhism Beyond India

This course explores a variety of topics associated with the development and transmission of Mahayana Buddhism throughout Asia, including scripture and narrative, ritual and practice, and art and architecture. Precludes additional credit for RELI 3217(no longer offered).

Prerequisite(s): RELI 2106 (no longer offered) or permission of the department.

Lecture three hours a week.

RELI 3520 [0.5 credit] Early Hinduism

A historical survey of Hinduism from the Vedic era to the development of devotional Hinduism. Vedic religion and developments in early Hindu Philosophy and sectarian Hinduism.

Prerequisite(s): Second year standing.

Lecture three hours a week.

RELI 3522 [0.5 credit]

Modern Hinduism

A survey of major developments in Hinduism since the period of colonial British rule. The development of "reform" Hinduism in the 18th and 19th centuries, and the emergence of Hindu nationalist movements in the 20th century.

Precludes additional credit for RELI 3007 (no longer offered).

Lecture three hours a week.

RELI 3722 [0.5 credit] Religion and Violence

This course examines "religious violence" from past and present, from the large (state violence) to the small (self-harm), and in between (communal violence, intimate partner violence), and asks why only some violence is commonly deemed religious and only some religion is commonly deemed violent.

Prerequisite(s): third-year standing or permission of the department.

Lecture three hours a week.

RELI 3732 [0.5 credit] Studies in Greek Art

A study of period or theme in the art and archaeology of Ancient Greece. Topics may vary from year to year. Also listed as ARTH 3102, CLCV 3306.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat. Lecture three hours a week.

RELI 3733 [0.5 credit] Studies in Roman Art

A study of a period or theme in the art and archaeology of the ancient Romans. Topics may vary from year to year. Also listed as ARTH 3105, CLCV 3307.

Prerequisite(s): second-year standing or permission of the unit. Permission of the unit required to repeat. Lecture three hours a week.

RELI 3741 [0.5 credit]

Classical Approaches to Religion

Examination of reflection on the nature and origin of religion from the ancient world up to key figures and founders of the discipline of the systematic, critical, and scientific study of religion in the nineteenth and early twentieth century.

Prerequisite(s): second-year standing. Lecture three hours per week.

RELI 3840 [0.5 credit] Special Topics in Religion

Content of this course may vary from year to year. Please check departmental website for information on the topic. Precludes additional credit for Permission of the unit is required to repeat this course.

Lecture three hours a week.

RELI 3850 [0.5 credit] Topics in the Study of Religion Abroad

This travel course explores religion in its historical and/or contemporary contexts in a particular geographic locale. Travel destinations, religious traditions studied, course content, and themes vary from year to year. Prerequisite(s): third year standing and 1.0 credit of study in the area related to the year's topic religion, and permission of the department. Permission of the department is required to repeat this course. Hours to be arranged. Costs associated with the course are borne by the student.

RELI 4602 [0.5 credit]

Is Religious Freedom a Human Right?

Legal, theoretical, and theological interconnections between religion and human rights. Evaluation of concepts including religious freedom, secularism, public sphere, accommodation and neutrality. Examination of religion and culture, interdependence of legal and religious perspectives, boundaries of religion and state, and religious compulsion. Use of case studies.

Also listed as HRSJ 4602, LAWS 4602.

Prerequisite(s): LAWS 2908, LAWS 3602, and fourth-year Honours standing.

Seminar three hours a week.

RELI 4741 [0.5 credit]

Contemporary Issues in the Study of Religion

This course engages with the real world implications of late twentieth and twenty-first century scholarship on religion with a focus on applied learning and developing employable skills that facilitate transition from academia to a career. Highly recommended for students considering graduate school.

Includes: Experiential Learning Activity

 $\label{preconstraint} Prerequisite(s): fourth-year standing or permission of the$

department.

Seminar three hours per week.

RELI 4840 [0.5 credit]

Tutorial

A tutorial on a topic in religious studies. Contents of the tutorial to be arranged with the supervising faculty member

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program and permission of the department.

RELI 4850 [0.5 credit] Seminar in the Study of Religion

Content of this course may vary from year to year. Please consult the departmental website for information on the topic.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program, or permission of the department. Also offered at the graduate level, with different requirements, as RELI 5850, for which additional credit is precluded.

Seminar three hours a week.

RELI 4860 [0.5 credit]

Religion and Public Life: Community-Engaged Learning

Critical reflection on the theme of religion and public life as evidenced in today's Ottawa. Experiential learning via a 30-hour placement, contextualized through readings and in-class sessions (in weeks 3, 6, 12), and culminating in a reflective final project.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in BA Honours or BA Combined Honours Religion program, and 10.0 Major CGPA, and 1.0 credit in the area in which the practicum will take place, and permission of the Department. Field placement with weekly synchronous check-ins.

RELI 4990 [1.0 credit] Honours Research Essay

Honours research paper (approx. 40 pages) is due on the last day of winter term classes. Written proposal due to the Proposal Board on the first day of fall term classes. Please consult department document for full requirements and information.

Includes: Experiential Learning Activity

Precludes additional credit for RELI 4908 (no longer

offered) and RELI 4909 (no longer offered).

Prerequisite(s): fourth-year standing in the Honours B.A. Religion program and permission of the department.

Russian (RUSS)

Russian (RUSS) Courses

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

RUSS 1010 [0.5 credit] First-Year Russian I

For students with no knowledge of Russian. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for RUSS 1110.

Four hours a week.

RUSS 1020 [0.5 credit] First-Year Russian II

Continuation of first-year Russian. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for RUSS 1110.

Prerequisite(s): grade of C or higher in RUSS 1010, or permission of the School.

Four hours a week.

RUSS 1110 [1.0 credit] Intensive First-Year Russian

For students with no knowledge of Russian. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for RUSS 1010 and RUSS 1020.

Eight hours a week (one term).

RUSS 2010 [0.5 credit] Second-Year Russian I

Further study of Russian to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Prerequisite(s): grade of C or higher in RUSS 1020 or RUSS 1110, or permission of the School.

Four hours a week.

RUSS 2020 [0.5 credit] Second-Year Russian II

Continuation of second-year Russian. Further study of Russian to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 2010, or permission of the School.

Four hours a week.

RUSS 3010 [0.5 credit] Third-Year Russian I

Further study of Russian to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for RUSS 3015 and RUSS 3025.

Prerequisite(s): grade of C or higher in RUSS 2020, or permission of the School.

Three hours a week.

RUSS 3015 [0.5 credit] Russian for Heritage Speakers I

For students who have attained Russian language proficiency in informal settings or who completed elementary school in a Russian speaking country. The course builds literacy skills, formalizes grammar awareness, and develops writing and reading language skills in a formal academic setting.

Precludes additional credit for all 1000 through 3000 level Russian courses, with the exception of RUSS 3025. Prerequisite(s): Permission of the School. Online.

RUSS 3020 [0.5 credit] Third-Year Russian II

Continuation of third-year Russian. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Precludes additional credit for RUSS 3015 and RUSS 3025.

Prerequisite(s): grade of C or higher in RUSS 3010, or permission of the School.

Three hours a week.

RUSS 3025 [0.5 credit] Russian for Heritage Speakers II

Further study of Russian to enhance students' literacy skills and formalize grammar awareness in a formal academic setting. Emphasis on the use of formal and academic language in oral and written form: further development of writing and reading skills. Precludes additional credit for all 1000 through 3000 level Russian courses, with the exception of RUSS 3015. Prerequisite(s): grade of C or higher in RUSS 3015, or permission of the School. Online.

RUSS 4010 [0.5 credit] Fourth-Year Russian I

Advanced spoken and written Russian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 3020. RUSS 3025, or permission of the School.

Three hours a week.

RUSS 4020 [0.5 credit] Fourth-Year Russian II

Continuation of fourth-year Russian. Advanced spoken and written Russian with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Prerequisite(s): grade of C or higher in RUSS 4010, or permission of the School.

Three hours a week.

RUSS 4115 [0.5 credit] **Russian for Social Studies**

Russian language skills for translation of modern history and social science texts from Russian into English, with an emphasis on syntax. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for Russian translation offered under EURR 4901.

Prerequisite(s): permission of the School. Not open to students with native-like Russian proficiency. Three hours a week.

RUSS 4120 [0.5 credit] Russian for Research

Russian language skills for conducting research in modern history and social sciences, with an emphasis on practice and theory of translation from Russian into English. Compulsory attendance.

Includes: Experiential Learning Activity

Precludes additional credit for Russian translation offered under EURR 4902 (no longer offered).

Prerequisite(s): grade of C in RUSS 4115, or permission of the School. Not open to students with native-like Russian proficiency.

Three hours a week.

RUSS 4900 [1.0 credit] Independent Study

Research in a topic in Russian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity
Prerequisite(s): third- or fourth-year standing and
enrolment in the Minor in Russian, grade of C or higher in

RUSS 3020 or equivalent, or permission of the School.

RUSS 4901 [0.5 credit] Independent Study

Research in a topic in Russian language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity
Prerequisite(s): third- or fourth-year standing and
enrolment in the Minor in Russian, grade of C or higher in
RUSS 3020, or equivalent, or permission of the School.

Sexuality Studies (SXST)

Sexuality Studies (SXST) Courses

SXST 2101 [0.5 credit]

Sexuality Studies: A Critical Introduction

While sexuality is often considered the most private and 'natural' of personal concerns, it is saturated with issues of social power, historical change, and public politics. This course offers a critical introduction to interdisciplinary studies of sexuality, focusing on history, theory, and cultural practice.

Includes: Experiential Learning Activity
Precludes additional credit for DIST 2101 (no longer offered).

Prerequisite(s): second-year standing or permission of the Institute.

Lectures and discussion groups three hours a week.

SXST 2102 [0.5 credit]

Sexuality, Gender, and Security

Historical and contemporary analysis of surveillance, security, and regulation of sexuality, race, class, and gender. Students will critically examine how 'subversives' were created through discourse and administrative logics such as policy and law.

Includes: Experiential Learning Activity

Also listed as HUMR 2102.

Prerequisite(s): second year standing. Lectures and discussions three hours a week.

SXST 2301 [0.5 credit]

Human Rights and Sexualities

An examination of human rights discourses, sexualities, and gender identities from an intersectional approach. Also listed as HRSJ 2301.

Prerequisite(s): second-year standing.

Lectures and discussion groups three hours a week.

SXST 3103 [0.5 credit] Sexuality and Disability

Exploration of ways that embodied categories of sex and gender, as well as desire are mediated through mainstream and alternative discourses of disability. Topics may include: crip theory, mental health issues, and LGBTQ sexualities.

Prerequisite(s): third-year standing or permission of the Institute.

Lecture three hours a week.

SXST 3104 [0.5 credit]

Transnational Sexualities

Students analyze sex, gender and sexuality as power relations within, and between nation-states comprising the Global North and South, as well as new knowledge created through national border crossings. Topics may include: Orientialism, colonialization, and diasporic identities.

Prerequisite(s): third-year standing and SXST 2101. Lecture three hours a week.

SXST 3106 [0.5 credit] Queer(ing) Archives

Examination of the archival turn in historical and theoretical perspective with an emphasis on sexuality, race, and gender as subjectivities in queer, trans, and colonial archives.

Also listed as HIST 3102.

Prerequisite(s): third-year standing.

Seminar three hours a week.

SXST 3812 [0.5 credit]

Interdisciplinary Topics in Sexuality Studies

An interdisciplinary analysis of one or more topics in sexuality studies. The topics of this course will vary year to year and are announced in advance of registration.

Includes: Experiential Learning Activity

Prerequisite(s): Third year standing and SXST 2101 OR permission of the Institute of Women's and Gender Studies.

Lecture three hours per week. This course is repeatable as long as each topic is different.

SXST 4101 [0.5 credit]

Interdisciplinary Studies of Sexuality

A study of selected issues in sexuality studies considered from an interdisciplinary perspective. The course may focus on any one, or combination of, sexuality studies in relation to history, theory, and/or cultural practice. Includes: Experiential Learning Activity

Precludes additional credit for DIST 4101 (no longer offered)

Prerequisite(s): SXST 2101 and fourth-year standing. Seminar three hours a week.

SXST 4102 [0.5 credit]

Queer Theory

A critical approach to gender and sexuality by engaging in key debates and texts in the field of queer theory and studies.

Prerequisite(s): SXST 2101 and fourth-year standing. Also offered at the graduate level, with different requirements, as WGST 5102, for which additional credit is precluded.

Seminar three hours a week.

SXST 4103 [0.5 credit] Politics of Kink

This seminar analyzes critically the existence and regulation of non-normative sexual attitudes, behaviours and practices. Topics may include: non-monogamy, sadomasochism, pornography.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SXST 4104 [0.5 credit] Sexuality and Political Economy

An interdisciplinary and intersectional approach to issues in the area of Sexuality Studies focusing on socio-economic relations (e.g. class location, consumption) and the ways they mediate sex, gender, and sexual subject formation and governance. SXST 4101.

Includes: Experiential Learning Activity Prerequisite(s): fourth year standing.

Seminar three hours a week.

SXST 4105 [0.5 credit]

Queer Ecologies

Students engage with debates within sexuality studies and transgender studies regarding the interwoven relationships between gender, race, indigeneity, desire, bodies and ecological politics. Topics may include: climate change, gendered and sexualized landscapes, and speciesism.

Prerequisite(s): fourth-year standing or by permission of the department.

Seminar three hours a week.

SXST 4106 [0.5 credit]

Queer Aesthetics: Affect, Cultural Production, Sexuality

Critical examination of affective economies made in and through LGBTQ cultural production. Drawing from feminist, queer, trans and queer of colour critique, students will consider how queer affect, sentiment and emotions uniquely circulate in art and aesthetic objects.

Prerequisite(s): fourth-year standing or permission of the Institute.

Seminar three hours a week.

Social Work (SOWK)

Social Work (SOWK) Courses

SOWK 1001 [0.5 credit]

Introduction to Social Welfare

Explores definitions of social welfare and the structure of the Canadian welfare state; evolution and devolution of the welfare state in Canada; social welfare and its relationship to social work, social change, and social justice. Lecture three hours a week.

SOWK 1002 [0.5 credit] Introduction to Social Work

Introduction to the profession of social work; evolution of the social work profession in Canada; social work knowledge, values and skills. Explores professional and regulatory social work bodies and international linkages. Lectures three hours a week.

SOWK 2001 [0.5 credit]

Structural Analysis and Social Work

Evolution of structural social work, theories and critiques of structural social work and contemporary issues and challenges.

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only. Lecture three hours a week.

SOWK 2005 [0.5 credit]

Values and Ethics for Social Work

Focuses on knowledge and skills for ethical decision-making in social work; understanding social work values and ethics, accountability and the professional use of self. Includes: Experiential Learning Activity
Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only.
Lecture three hours a week.

SOWK 2100 [0.5 credit]

The Political Economy of the Social Welfare State

Political economic theories as lenses for structural analysis of social problems and policies affecting social work practice in Canada.

Prerequisite(s): SOWK 1001 and SOWK 1002 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 2202 [0.5 credit]

Introduction to Social Work Practice with Individuals and Families

Understand and develop skills required for working with individuals and families; active listening; use of self; engagement; rapport-building; interviewing and interventions; empathy; interpersonal and professional collaboration; supervision.

Includes: Experiential Learning Activity
Prerequisite(s): SOWK 1001 and SOWK 1002. For
Bachelor of Social Work students only.
Lecture three hours a week.

SOWK 2203 [0.5 credit]

Introduction to Social Work Practice with Groups and Communities

Introduces students to theory and practice skills for group work and community work; structural social work with groups and communities.

Prerequisite(s): SOWK 1001 and SOWK 1002. For Bachelor of Social Work students only. Lecture three hours a week.

SOWK 2301 [0.5 credit] Working with Children and Youth

Preventative and protective social work intervention with children and youth. Issues addressed include child neglect, abuse and violence in the context of family; organizational mandate and social political contexts. Programs and services for children and youth. Lecture three hours a week.

SOWK 3001 [0.5 credit]

Introduction to Research Methods in Social Work

Research methods used in social work; research paradigms; quantitative and qualitative analysis in social work and social welfare; stages in conducting research. Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3002 [0.5 credit]

Introduction to Statistical Analysis in Social Work

Fundamentals of statistical analysis; descriptive and inferential statistics and their use in social work research. Statistical tests including Chi-Square, t-tests, correlations and simple linear regressions.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3100 [0.5 credit]

Social Policy and Administration

Understanding the welfare state and social policy in Canada; exploring issues in administration including program design and implementation; understanding and developing skills in policy-making and policy analysis. Canadian focus; recognition of the distinctiveness of social policy in Quebec.

Prerequisite(s): SOWK 2100 and third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3206 [0.5 credit]

Community Development and Social Change in an International Context

Introduction to theories, models and methods of community organizing as a strategy for social change in an international context.

Prerequisite(s): SOWK 1001 and SOWK 1002; or PAPM 1001 and PSCI 2003, or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3207 [0.5 credit]

Human Rights Practice in Civil Society

Examines the advocacy role and capacity of organizations in civil society to increase popular participation in promoting and protecting human rights; includes transnational and national non-governmental organizations, grassroots movements, community organizations, and virtual or Internet-based organizations. Prerequisite(s): SOWK 1001 and SOWK 1002 or PAPM 1000 or HRSJ 1001 or permission of the School of Social Work

SOWK 3400 [0.5 credit]

Special Topics in Social Work

Theory, policy or direct practice topics not covered in the regular course program. Choice of topics varies from year to year

Prerequisite(s): SOWK 1001 and SOWK 1002 or permission of the School of Social Work.

Lecture three hours a week.

SOWK 3600 [2.0 credits]

Practicum I

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor. Graded SAT/UNS.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3601, SOWK 3602. Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be Eligible to Continue (EC) in the BSW program and have a 6.00 CGPA in the Social Work major, including in the term of application.

352 hours in the practicum setting over the fall and winter terms and compulsory practicum seminars.

SOWK 3601 [2.0 credits]

Practicum I

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor. Graded SAT/UNS.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3600, SOWK 3602. Prerequisite(s): Third-year standing upon admission into the BSW program, SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be Eligible to Continue (EC) and have a 6.00 CGPA in the Social Work major, including in the term of application, and must be newly admitted into the BSW program.

352 hours in the practicum setting over the winter term and compulsory practicum seminars.

SOWK 3602 [2.0 credits]

Practicum I

Focus on integrating theory and practice in an approved community setting supervised by a field supervisor. Limited enrolment subject to discretion of Practicum Coordinator. Graded as SAT/UNS.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 3601, SOWK 3600. Prerequisite(s): SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, and permission of the School of Social Work. Student must be Eligible to Continue (EC) in the BSW program and have a 6.00 CGPA in the Social Work major, including in the term of application. 352 hours in the practicum setting in the fall term and compulsory practicum seminars.

SOWK 3804 [0.5 credit]

Law of the Family

Legal framework surrounding the family and family relationships in Canadian society. Topics include marriage and cohabitation, matrimonial support, custody and access, and dissolution of marriage. State interventions through law; law and change in family structures; equality issues; dispute resolution processes.

Also listed as LAWS 3804.

Prerequisite(s): LAWS 2201 and LAWS 2202.

Lectures three hours a week.

SOWK 4000 [0.5 credit] Social Work and Indigenous Peoples

Social work in partnership with Indigenous peoples in Canada; impact of the past on current relationships; rebuilding through dialogue and respect; understanding Indigenous social work.

Prerequisite(s): third-year standing in Bachelor of Social Work.

Lecture three hours each week.

SOWK 4001 [0.5 credit]

Advanced Social Work Practice with Individuals and Families

Advanced theory, methods, techniques, and skills for direct social work practice with individuals and families; individual and family assessments, treatment planning, intervention skills, and evaluation.

Includes: Experiential Learning Activity

Prerequisite(s): SOWK 2202 and fourth-year standing in

the Bachelor of Social Work. Seminar three hours a week.

SOWK 4002 [0.5 credit]

Advanced Social Work Practice with Groups

Advanced theory, methods, techniques, and skills for social work with groups; knowledge of group work and various group formats; and social work interventions in group process.

Prerequisite(s): SOWK 2203 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4003 [0.5 credit]

Advanced Social Work Practice with Communities

Advanced theory, methods, techniques and skills for engaging in community-based practice. Politics and challenges of social work community organizing and strategies and skills for community work.

Prerequisite(s): SOWK 2203 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4004 [0.5 credit]

Social Policy Development and Practice

Social policy development processes in government and non-governmental agencies; refining skills in evaluating and critiquing processes of policy formation; role of lobbying and social activism.

Prerequisite(s): SOWK 3100 and fourth-year standing in the Bachelor of Social Work.

Seminar three hours a week.

SOWK 4103 [0.5 credit]

Practice and Policy in Immigration

History of immigration policies in Canada; direct practice with immigrants and refugees; diaspora, settlement and integration issues; immigrants and refugee women; intergenerational family relations; resources and community organizing.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4204 [0.5 credit] Social Work and Aging

Social perspectives on aging with focus on models of practice that contribute to the independence of elderly people. Social programs and policies, such as social insurance, social services, housing, public health and health care. Social, psychological and political issues related to independence in later life.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4209 [0.5 credit]

Special Topics in Direct Social Work Practice

Theory and knowledge development of direct practice topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4210 [0.5 credit]

Special Topics in Direct Social Work Practice

Theory and knowledge development of direct practice topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4211 [0.5 credit]

Special Topics in Social Policy

Theory and knowledge development of social policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): SOWK 3100 and third year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4213 [0.5 credit]

Special Topics in Social Work

Theory and knowledge development of a combination of practice and policy topics not in the regular course program. Topics may vary from year to year.

Prerequisite(s): third-year standing or permission of the School of Social Work.

Lecture three hours a week.

SOWK 4300 [0.5 credit]

Social Work and Persons with Disabilities

Social work theory and practice with persons with disabilities. Structural analysis of theory, models, policies and practices; disability rights; critical analysis of medical model and ableism.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4301 [0.5 credit]

Racialization and Social Work

Social work and racialization; racism and consequences; critical analysis of cultural formations, difference, and identities; critical examination of whiteness and privilege. Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4302 [0.5 credit]

Poverty and Social Welfare Policy

Social work analysis of theories of poverty and economic inequality; labour force participation; poverty and wealth and income distribution in Canada and international comparisons; Canadian social policies and poverty. Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

Lecture three hours a week.

SOWK 4303 [0.5 credit]

Gender and Sexuality

Social work and social, political, institutional and economic relations shaping everyday experiences of gender and sexuality and implications for contemporary social work.

Prerequisite(s): fourth-year standing in the Bachelor of Social Work.

SOWK 4600 [2.0 credits]

Practicum II

Development, application, testing and integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or in social administration and policy. Graded SAT/UNS.

Includes: Experiential Learning Activity

Precludes additional credit for SOWK 4601, SOWK 4602. Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, and permission of the School of Social Work. Student must be Eligible to Continue (EC) in the BSW program and have a 6.00 CGPA in the Social Work major, including in the term of application.

352 hours in the practicum setting in the fall or summer term and compulsory practicum seminars.

SOWK 4601 [1.0 credit] Practicum IIA

Development, application, testing, and integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or social administration and policy. Part-time practicum must be taken consecutively with SOWK 4602. Graded SAT/UNS. Includes: Experiential Learning Activity Precludes additional credit for SOWK 4600. Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, and permission of the School of Social Work. Student must be Eligible to Continue (EC) in the BSW program and have a 6.00 CGPA in the Social Work major, including in

176 hours in the practicum setting and compulsory practicum seminars.

SOWK 4602 [1.0 credit]

the term of application.

Practicum IIB

Development, application, testing, and integration of knowledge, theory and skills in practice with individuals, families, groups and communities, in research or social administration and policy. Part-time practicum must be taken consecutively with SOWK 4601. Graded SAT/UNS. Includes: Experiential Learning Activity Precludes additional credit for SOWK 4600. Prerequisite(s): third-year standing in the BSW program; SOWK 2001, SOWK 2005, SOWK 2100, SOWK 2202, SOWK 2203, SOWK 3100; SOWK 3600 or 3601 or 3602, SOWK 4601 and permission of the School of Social Work. Student must be Eligible to Continue (EC) in the BSW program and have a 6.00 CGPA in the Social Work major, including in the term of application.

SOWK 4702 [0.5 credit]

Special topic in Criminal Justice and Social Policy

Selected topic in criminal justice and social policy. Topics announced in advance. Part of the Summer School in Criminal Justice and Social Policy and offered by the Department of Sociology.

Also listed as LAWS 4702, SOCI 4702.

Prerequisite(s): fourth-year Honours standing or permission of the School of Social Work.

SOWK 4908 [1.0 credit]

Honours Essay

Research essay under supervision of accredited faculty member. Project may be in the form of case study, historical study or other form that meets the approval of faculty advisor.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in the Bachelor of Social Work and permission of the School of Social Work.

Sociology (SOCI)

Sociology (SOCI) Courses

SOCI 1001 [0.5 credit]

Introduction to Sociology I

Introduction to the discipline of sociology; theory, methods, history; key thinkers, concepts and disciplinary subfields in sociology; issues and problems in contemporary society. Emphasis on the everyday world of lived experience and social relations. Topics may include class, gender, sexuality, racialization, culture, social interaction.

Includes: Experiential Learning Activity
Precludes additional credit for SOCI 1003.
Lectures/discussion groups three hours a week.

SOCI 1002 [0.5 credit] Introduction to Sociology II

This course will further explore and expand upon the key thinkers, concepts and disciplinary subfields in sociology. The focus of analysis will shift from the everyday world to social institutions and structural processes. Topics may include globalization, education, media, health, social movements, colonialism, urbanization.

Includes: Experiential Learning Activity

Precludes additional credit for SOCI 1003, SOCI 1005.

Prerequisite(s): SOCI 1001.

Lectures/discussion groups three hours a week.

176 hours in the practicum setting.

SOCI 1003 [1.0 credit]

Introduction to Sociological Perspectives

Introduction to the discipline of sociology; theory, methods and history; key thinkers, concepts and disciplinary subfields in sociology; issues and problems in contemporary society.

Precludes additional credit for SOCI 1001 and SOCI 1002.

Lectures/discussion groups three hours a week.

SOCI 1005 [0.5 credit]

Sociology for Bachelor of Commerce Students

The origins of sociology, why sociology matters, and how it is practiced. Concepts such as class, race, ethnicity, gender, sexual orientation, work, organization, and social movements help students develop their sociological 'eye' for thinking critically about society and their place within it. Precludes additional credit for SOCI 1002.

Prerequisite(s): restricted to B.Com. students. Lecture three hours a week.

SOCI 2000 [0.5 credit]

Foundations of Sociological Inquiry

Introduction to sociological inquiry through the study of sociological approaches to knowledge, the relationship of theory to methods, introduction to different methodological traditions including their epistemological foundations, value and limitations. Students will acquire foundational academic skills.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours per week.

SOCI 2001 [0.5 credit]

Introduction to Qualitative Research Methods

Introduction to theory and practice of qualitative research methods involving human participants: research design; ethics; data analysis; data generation methods. Methods may include: qualitative interviewing, ethnography, oral history, focus groups, observation. Additional topics may include: historical development/debates in qualitative research/key historical studies.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 2000.

Lectures/discussion groups or labs three hours a week.

SOCI 2005 [1.0 credit]

Histories of Sociological Thought

Traces theoretical traditions in sociological thought, situating traditions within historical, social and intellectual contexts. At least four of the following will be covered: orientalism, imperialism, colonialism; capitalism, social organization, rationalization; subject formation, identity; self and the everyday; work and leisure; and, social change and revolution.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2010 [0.5 credit]

Critical Approaches to Economic Inequality

Theoretical and empirical examination of economic inequalities in Canada. Topics may include the experience of economic marginalization, how economic inequality is reproduced, how economic inequalities intersect with other forces, such as gender and racialized inequality, and struggles to transform the economic organisation of society.

Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or
SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.
Lectures/discussion groups three hours a week.

SOCI 2020 [0.5 credit] Race and Ethnicity

Introduction to some of the recent theoretical literature and research on the issues of race, racism and ethnicity. Concepts, controversies and definitions dealing with race and ethnicity from the Canadian context and internationally.

Also listed as ANTH 2020.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours a week.

SOCI 2030 [0.5 credit] Work, Industry and Occupations

An analysis of work practices and settings in societies. Topics of interest include the development of industrial and postindustrial societies; the experience of work, the structuring of work in organizations and in the society; conflict, resistance and labour relations, and the impact of new technologies.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2035 [0.5 credit]

Technology, Culture and Society

Introduction to the principal theories and methods used by Science and Technology Studies (STS) scholars to examine the social and cultural shaping of technology. The substantive focus of the course is on the design, development, production, diffusion, consumption and use of technology.

Also listed as DIGH 2035.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours a week.

SOCI 2040 [0.5 credit] Food. Culture and Society

The sociological analysis of food and eating. The relationship between food and identity; the development of social movements organized around food; and more generally, on practices relating to the production, preparation, and consumption of food.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2043 [0.5 credit] Sociology of the Family

How do we conceptualize the family? How has family changed over history? What are the diverse realities of families today? This course examines different family forms, relations and dynamics, emphasizing the relationship between family and larger social forces, such as gender, immigration or class.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2045 [0.5 credit] Gender and Society

How gender and gender relations play out in everyday lives, and how people resist, reproduce, or reinforce gender norms. Considers how gender shapes experiences of family, school, work, media, relationships, bodies, violence, etc. Canadian and global cases are examined. Includes: Experiential Learning Activity

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours a week.

SOCI 2050 [0.5 credit] Sociology of Health

Critical approaches to understanding health, illness and healthcare and how social, cultural, political and economic factors affect our health, our experiences with illness, and our encounters with healthcare systems.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2060 [0.5 credit]

Girlhood in Contemporary Contexts: Anthropological and Sociological Perspectives

Drawing on anthropological and sociological approaches, students will explore girls' lives in diverse cultural, political, economic, and social contexts. Topics may include: movement and migration, education, media, imaging and humanitarianism, consumerism, agency and activism, health, and violence.

Also listed as ANTH 2060.

Prerequisite(s): second year standing or permission of the instructor.

Two hour lecture plus one hour tutorial per week.

SOCI 2080 [0.5 credit]

Humans/Animals: the More-than-Human in Social Research

Examination of relationships between humans and animals in the sociological and broader social studies canon, including: multispecies ethnography, the role of the 'more than human' in Indigenous legal orders, posthumanist and STS theory, relationships between humans and animals and other non-human entities in the Anthropocene.

Also listed as ANTH 2080.

Lecture/discussion groups three hours per week.

SOCI 2150 [0.5 credit] Social Psychology

Theoretical and empirical consideration of society and the individual. Topics include the public realm, situations, roles and interpersonal relations. Beliefs, attitudes, interests and opinions, leadership and decision making, conformity, coercion and compromise may be also examined. Precludes additional credit for PSYC 2100. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours a week.

SOCI 2160 [0.5 credit] War and Society

Sociological theory and research on large-scale conflict. How society and culture shape warfare through processes of socialization, bureaucratization, and ideological representation. Social impacts of war in terms of gender, race and ethnicity, class relations, and cultural values. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours a week.

SOCI 2170 [0.5 credit]

Foundations in Social Justice

Introduction to the study of social justice and the theorization of social justice sociology. Critical examination of resistance to oppression, social movements and solidarity both in Canada and transnationally. Exploration of the relationship between the university and community-based action.

Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or
SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.
Lectures/discussion groups three hours a week.

SOCI 2180 [0.5 credit]

Foundations in Community Engagement

Study of theoretical debates and practical applications relating to community engagement with a focus on Canadian examples. Exploration of the contested and complex meanings of community engagement in and between diverse communities, public institutions, non-profit sector and private enterprise with an emphasis on social justice.

Includes: Experiential Learning Activity

Also listed as ANTH 2180.

Prerequisite(s): Second year standing or permission of

instructor.

Lecture, discussion and project work three hours a week.

SOCI 2445 [0.5 credit] Sociology of Deviance

The construction of deviant behaviour and the consequences of such construction for both deviant and conforming persons. Emphasis upon deviance as a normal and necessary result of the socio-cultural processes resulting from, and affecting the activities of a viable society.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2450 [0.5 credit] Crime and Society

Social reactions to crime, criminalization processes, and the criminal justice system, and their intersection with power relations and social inequalities.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2702 [0.5 credit] Power and Social Change

An investigation of power and culture, with a focus on how ordinary people contribute to social change. Topics may include activism, leisure, consumption, identity, fashion, sexuality, tourism, health, pollution and work. Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours a week.

SOCI 2705 [0.5 credit] Popular Culture in the Digital Age

An examination of various approaches to analyzing digital media and their role in the production and consumption of contemporary cultural forms and practices. Students will reflect upon their use of digital media and the influence they have on their lives and popular culture, more generally.

Also listed as DIGH 2705.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002. Lectures/discussion groups three hours a week.

SOCI 2810 [0.5 credit] Special Topics in Sociology

Special topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2820 [0.5 credit] Special Topics in Sociology

Special topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002.

Lectures/discussion groups three hours a week.

SOCI 2910 [0.5 credit] Course-Related Tutorials in Sociology

Consult the Department for information.

SOCI 2920 [0.5 credit]
Course-Related Tutorials in Sociology
Consult the Department for information.

SOCI 3000 [0.5 credit]

Descriptive Statistics in Social Research

The conceptual foundations of descriptive statistics and applications of these statistics using software (SPSS or Stata) to analyze and interpret social science data. Topics include frequency distributions, graphs, measures of central tendency and dispersion, measures of association. bivariate regression, and introduction to multivariate statistics.

Includes: Experiential Learning Activity Prerequisite(s): SOCI 2000 and third-year standing. Lectures/computer labs three hours a week.

SOCI 3002 [0.5 credit]

Inferential Statistics in Social Research

Inferential statistics and hypotheses testing used in social science research. Topics may include relationship between samples and population, methods of sample selection, central limit theorem, confidence levels and confidence intervals, overview of selected hypothesis tests, multivariate data analysis and multiple regression analysis.

Includes: Experiential Learning Activity

Prerequisite(s): SOCI 3000 or CRCJ 3001 and third-year

Lectures/computer labs three hours a week.

SOCI 3004 [0.5 credit]

Qualitative Research: Approaches and Strategies

Specialized examination of select strategies or approaches to qualitative research. Topics may include: advanced application of research design involving human participants; historical research methods; textual/ document-based research; visual sociologies; critical methodologies (such as feminist or decolonizing methods).

Includes: Experiential Learning Activity Prerequisite(s): SOCI 2001 and third-year standing. Lectures/computer labs three hours per week.

SOCI 3006 [0.5 credit]

Thinking the Social: Theories and Approaches

Examination of a select sociological tradition or thinker, or theoretically intensive study of a sociological area. Consult the department for topics offered.

Precludes additional credit for SOCI 3005 (no longer offered).

Prerequisite(s): SOCI 2005 and third-year standing. Lectures/discussion groups three hours a week.

SOCI 3010 [0.5 credit]

Power, Oppression and Resistance

What makes inequalities so persistent? Theoretical and empirical examination of the intersection of social inequalities in Canada and globally, including class, gender, race and ethnicity and age; study of resistance to structures and cultures of inequalities. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3019 [0.5 credit]

Sociology of International Migration

This course draws from global and interdisciplinary theoretical perspectives to examine primarily though not exclusively Canadian immigration policy and the socio-historical forces shaping policy, migration patterns, permanent, temporary and circular migration, the experiences of immigrants, refugees and migrants; and diasporic and transnational communities and identities. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours per week.

SOCI 3020 [0.5 credit] Studies in Race and Ethnicity

Race, racism and ethnicity in Canada and internationally. Critical perspectives on race and ethnicity, which intersect with other social relations. Racism, Eurocentrism, Orientalism, nationalism, colonialism, international migration, citizenship, and diasporic cultures. Also listed as ANTH 3020.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and thirdyear standing.

Lecture three hours a week.

SOCI 3027 [0.5 credit] Globalization and Human Rights

Examination of the various dimensions and meanings of globalization and its relationship with human rights, with emphasis on the implications of the emerging global economy for economic, social, political and cultural rights. Also listed as ANTH 3027, PSCI 3802.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and thirdvear standing.

SOCI 3030 [0.5 credit]

Studies in Work, Industry and Occupations: Authority and Expertise

The nature and place of expert knowledge in societies. The development of the practices and organization of the professions and their relation to social stratification, the state, patriarchy and gender; the systematic development of knowledge in societies.

Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or
SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and thirdvear standing.

Lecture three hours a week.

SOCI 3035 [0.5 credit]

Science, Culture and Society: Social Studies of Science

Principal theories and methods used by Science and Technology Studies scholars to examine the social construction of scientific knowledge. Topics may include the demarcation of science from non-science, the relationship between experts and laypersons, and the study of scientific controversies.

Also listed as ANTH 3035.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3038 [0.5 credit] Studies in Urban Sociology

Issues related to people and the urban environment, including the historical process of urbanization, rural-urban transition, the diffusion of urban values and life styles, contemporary urban problems such as urban renewal, pollution and the pressures of the urban environment on social institutions.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3040 [0.5 credit] Studies in the Sociology of Gender

Sociological and feminist perspectives; applied understandings of gender, gender relations; women's and men's lives in contemporary Canadian society and in historical and cross-cultural terms. Multiple intersections between gender, race, ethnicity, class and sexuality. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3044 [0.5 credit]

Sociology of Sex and Sexuality

Key concepts of sex, sexuality, gender, eroticism and pleasure. The history of sex and sexuality. The regulation of sexual relations and practices. Social movements relating to sexuality, gender identities and sexual equality. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3045 [0.5 credit]

Children and Childhood in a Globalized World

A socio-historical and cross-cultural exploration of constructions, deconstructions, and the experience of childhood in Canada and internationally. Compulsory schooling, child labour, protection and regulation in law, the commodification and equalization of childhood, children's social movements, and the emergence of children's rights discourses.

Also listed as ANTH 3045.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3050 [0.5 credit] Studies in the Sociology of Health

Current theory and research on health, disease and social responses to health issues. Topics include population differences incidence and prevalence of morbidity and mortality, access to care and government health policy. Focus upon cultural definitions of health and their consequences for health promotion practices. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3055 [0.5 credit] Studies in Addictions

Survey of alcohol and other drug use in cross-cultural and sub-group perspectives. Relationships between culture, social structure and patterns of use of psychoactive substances. Topics may include: substance use and the life cycle; gender and psychoactive substances; problem and non-problem use.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

SOCI 3056 [0.5 credit]

Women and Health

Women's health issues and how they relate to social, political and economic factors. The intersection of gender, ethnicity, class, sexual orientation and able-bodiedness with women's health.

Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or
SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and thirdyear standing.

Seminar 3 hours per week.

SOCI 3060 [0.5 credit] Critical Disability Studies

Course engages contemporary disability theory, culture, and activism to consider bodily difference and its relation to the workings of power and social control, accessibility, normalization, ableism, and medicalization. Students will gain an understanding of the contemporary debates, theories, and methodologies of critical disability studies. Also listed as DBST 3060.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lectures three hours a week.

SOCI 3150 [0.5 credit] Sociology of Rightwing Populism

This course will make sense of Trumpism and other rightwing populisms by interrogating their sociological backgrounds and histories. Students will learn to recognize the systems and structures that make populist leaders possible, and how trends in North America relate to far-right movements elsewhere.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3160 [0.5 credit] Political Violence

Sociological examination of political violence. Theoretical analysis of violence as social action that is historically situated and shaped by cultural and economic forces; the relationship between political violence and identity, nation/nationalism, modernity and globalisation.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third year standing.

Lectures three hours a week.

SOCI 3170 [0.5 credit] Social Justice in Action

Current debates in social justice theory and practice. The course includes substantial engagement with community actors, including activists and advocates as guest speakers. Students will be exposed to social justice principles applied in the community through a variety of approaches.

Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or
SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and thirdyear standing.

Lecture three hours a week.

SOCI 3210 [0.5 credit] Special Topics in Sociology

Special topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3220 [0.5 credit] Special Topics in Sociology

Special topics in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3300 [0.5 credit] Studies in the Sociology of Education

Critical analysis of selected work in educational sociology. Topics may include sociological theories of education, school ethnography, contemporary educational policy and practice. Note: Topic will vary in keeping with the interests of students and instructor.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

SOCI 3410 [0.5 credit]

Studies in Criminal Justice

Developments in criminal justice are examined in the context of broader social issues. Particular emphasis will be placed on contemporary developments in criminal justice institutions, programs and practices.

Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or
SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and thirdyear standing.

Lecture three hours a week.

SOCI 3420 [0.5 credit]

Studies in Gender and Criminal Justice

An overview of current issues related to women as both perpetrators and victims of crime and the Canadian criminal justice system's response to them. Topics may include woman abuse, sexual assault, and federally sentenced women.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3430 [0.5 credit]

Studies in Collective Action and Social Movements

What is a social movement? How do sociologists distinguish between social movements and revolutions? What factors influence social movement development? What do they look like? Theoretical and empirical study of the relationship between social movements and social change.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3480 [0.5 credit]

Law and Social Regulation

A study of sociological theories of law as well as the nature of legal institutions. Impacts of legal regulation on various social institutions and on processes of social debate and conflict.

Precludes additional credit for LAWS 3106 (no longer offered).

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0], or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3570 [0.5 credit]

Studies in Art, Culture and Society

Aesthetic practices and institutions. Production and reception of diverse art forms (visual, musical, corporeal, etc.) in various sociocultural contexts. Institutions dedicated to supporting such practices (e.g., museums, theatres, festivals, rituals) are examined through a range of theoretical perspectives.

Also listed as ANTH 3570.

Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and third-vear standing.

Lecture three hours a week.

SOCI 3710 [0.5 credit]

Introduction to Cultural Studies

Research and theory in the interdisciplinary area of Cultural Studies. Contemporary cultural change in the advanced industrialized societies and its impact on everyday life.

Includes: Experiential Learning Activity
Prerequisite(s): SOCI 1001 and SOCI 1002, or
SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and thirdyear standing.

Lecture three hours a week.

SOCI 3805 [0.5 credit] Studies in Population

Historical and current debates on population growth. Historical declines in fertility and mortality from an international perspective. Contemporary demographic issues such as low fertility, longevity revolution, population aging, inequalities in health, migration and refugees. Prerequisite(s): SOCI 1001 and SOCI 1002, or SOCI 1003 [1.0]; or ANTH 1001, or ANTH 1002, and third-year standing.

Lecture three hours a week.

SOCI 3910 [0.5 credit]

Course-Related Tutorials in Sociology

Consult the Department for information, as departmental permission is required.

SOCI 3920 [0.5 credit]

Course-Related Tutorials in Sociology

Consult the Department for information, as departmental permission is required.

SOCI 3950 [0.5 credit]

Practicum Placement in Sociology

This course provides students with the opportunity to apply academic skills and knowledge while working within a sociology-related organization. Placements are organized with support from a co-ordinator. Includes: Experiential Learning Activity Also listed as ANTH 3950.

Prerequisite(s): third-year standing in Sociology with a GPA of 9.00 or higher and permission of the course instructor. [Students who do not meet the GPA requirement will be considered on a case-by-case basis.1. Placement six to eight hours a week.

SOCI 3999 [0.0 credit] **Co-operative Work Term**

Includes: Experiential Learning Activity

SOCI 4002 [0.5 credit] **Advanced Studies in Sociological Theory**

Close study of the works of an author, tendency, or school of thought in theoretical sociology. Topic will vary in keeping with interests of the students and instructor. Prerequisite(s): SOCI 3006 and fourth-year standing. Seminar three hours a week.

SOCI 4003 [0.5 credit]

Advanced Studies in Qualitative Research

In-depth study into selected issues in qualitative research design, implementation and data analysis. Topics covered may include participant observation, ethnomethodology, ethnography, grounded theory, discourse analysis, narrative analysis, textual analysis, and document analysis. Intersections between epistemologies and methodologies.

Prerequisite(s): SOCI 3004 and fourth-year standing. Seminar three hours a week.

SOCI 4009 [0.5 credit]

Advanced Studies in Quantitative Research

Study of specific quantitative methodological issues. Focus may be on one or two of the following topics: quantitative research design, sampling techniques, survey research methods and various statistical research methods including OLS and logistic regression. Prerequisite(s): SOCI 3002 and fourth-year standing. Seminar/lab three hours a week.

SOCI 4020 [0.5 credit]

Advanced Studies in Race and Ethnicity

Selected topics in race and ethnicity in an international context. Specific topics will vary according to instructors' research interests.

Also listed as ANTH 4020.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4039 [0.5 credit]

Women in Contemporary Middle East Societies

Socio-economic, political and cultural realities of Middle Eastern women with focus on their lived experiences. voices and stories. Focus on women in Palestine/Israel with consideration of other Middle Eastern women. Prerequisite(s): fourth-year standing. Seminar three hours a week.

SOCI 4040 [0.5 credit]

Feminist Sociology of Intersectionality

Theoretical and empirical examination of gender relations and gendered inequality with emphasis on the complex intersection of gender with race, ethnicity, religion, class, sexuality, (dis)ability and other relations of power in feminist scholarship, social justice movements, law and

Prerequisite(s): fourth-year standing. Seminar three hours a week.

SOCI 4043 [0.5 credit] Families in the 21st Century

Examination of contemporary family forms including single-parent-, blended/step-, LGBTQ- and common-law families. Topics may include theoretical perspectives: reproductive technologies; globalization; migration; interracial families: cohabitation: separation/divorce: motherhood/fatherhood; childcare/domestic labour; children/youth; intergenerational relations; social class/ poverty; family policies and family law. Prerequisite(s): fourth-year standing. Seminar three hours a week.

SOCI 4050 [0.5 credit]

Ethical Issues in Health and Healthcare

A study of the diverse ethical frameworks that inform and interrogate health, healthcare, and biomedicine. Potential topics include: history of bioethics; critical bioethics; ethics of care; health inequities; Indigenous healthcare; human enhancement; novel genetic technologies; ageing; vaccine politics.

Also listed as ANTH 4050. Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4160 [0.5 credit]

War, Terrorism and State Terrorism

Critical theoretical and empirical analysis of violent political conflict. Examination of transformations and continuities of war, terrorism and state terrorism; modalities of political violence, such as torture or disappearance; responses to violent conflict; and the representation and construction of political violence. Prerequisite(s): fourth-year standing. Seminar three hours a week.

SOCI 4170 [0.5 credit] Community-Engaged Sociology

Students will apply their sociological education working with community organizations in small teams to research issues and advocate for positive social change. Each team's project will include public education, sociological analysis and creating a tangible product for the partner organization.

Includes: Experiential Learning Activity

Prerequisite(s): third-year or fourth-year standing, or permission from the instructor of SOCI 4170.

Lectures, discussion and project work three hours a week.

SOCI 4171 [0.5 credit]

Community Engagement Capstone

Students in the capstone will reflect on their engagement experiences and advance their critical understanding of community through a series of in-class activities and readings. Students will produce a public-facing artifact (e.g., blog, podcast, video) related to their experiences, potentially in collaboration with community partners. Includes: Experiential Learning Activity

Also listed as ANTH 4171.

Prerequisite(s): SOCI 2180 and fourth year standing or permission of the instructor.

Lecture, discussion and project work three hours a week.

SOCI 4200 [0.5 credit] War, Security and Citizenship

Critical theoretical and multidisciplinary examination of violent conflict, security and citizenship. How wars produce a variety of abject and new subjects, create and reproduce citizenship hierarchies, and expand and contract citizenship entitlements.

Also listed as ANTH 4200.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4410 [0.5 credit] Advanced Studies in Criminology

Crime, criminal justice, social processes relating to the implementation of criminal justice policy, or other aspects of criminality and deviance.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4480 [0.5 credit]

Advanced Studies in the Sociology of Law

Contemporary debates about the role of law in society focusing on the potential and limits of law as a vehicle of social transformation.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4700 [0.5 credit]

Honours Capstone Seminar

Students carry out a small-scale research project to hone transferable skills acquired over the course of the degree programme.

Includes: Experiential Learning Activity Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4702 [0.5 credit]

Special Topic in Criminal Justice and Social Policy

Examination of a selected topic in criminal justice and social policy. Topics to be announced.
Also listed as LAWS 4702, SOWK 4702.
Prerequisite(s): fourth-year standing.

Seminars three hours a week.

SOCI 4730 [0.5 credit]

Colonialism and Post-Colonialism

Comparative ethnographic and historical approaches to colonialism including topics such as the formation of colonial regimes, colonial governmentality, servile labour systems, missionization, anti-colonial resistance, cultural hybridization and post-colonial memory. Exploration of debates over the relation between colonialism and the production of social scientific knowledge.

Also listed as ANTH 4730.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4810 [0.5 credit]

Advanced Studies in Social Policy

An examination of sociological research and social intervention.

Includes: Experiential Learning Activity Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4850 [0.5 credit]

Contemporary Problems in Sociology

Selected problems in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

SOCI 4860 [0.5 credit]

Contemporary Problems in Sociology

Selected problems in sociology not ordinarily treated in the regular course program. The choice of topics varies from year to year. Students should check with the Department regarding the topic offered. Prerequisite(s): fourth-year standing. Seminar three hours a week.

SOCI 4900 [1.0 credit] **Honours Thesis**

An independent research project under the supervision of a faculty member. Seminar supports students through each stage of the research process: development of a research question, designing the project, crafting a proposal, carrying out data generation and analysis, and writing the final thesis.

Includes: Experiential Learning Activity Prerequisite(s): fourth-year standing in the Sociology B.A. Honours with a CGPA of 9.00 or higher in the Major or by permission of the instructor. Students are strongly encouraged to locate a faculty member to supervise their Honours Thesis prior to the start of this course. Seminars on a bi-weekly basis (three hours).

SOCI 4910 [0.5 credit] **Tutorial in Sociology**

Consult the Department for information.

SOCI 4920 [0.5 credit] **Tutorial in Sociology**

Consult the Department for information.

Placement for Language Students

Note: A placement test is required for students who have previous training and/or experience, but who have not taken a course in this language at Carleton. For details, please consult carleton.ca/slals/modern-languages and follow the placement test instructions before registering.

Students who are found to be registered in an inappropriate level of the course will be deregistered following assessment by their instructor (and/or the Director of the School). It is crucial for students to complete the placement test in a manner that truly demonstrates their language proficiency.

Students should note that they cannot go backward in a sequence of levels in language courses.

SPAN 1010 [0.5 credit] First-Year Spanish I

For students with no knowledge of Spanish. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for SPAN 1110. Four hours a week.

SPAN 1020 [0.5 credit] First-Year Spanish II

Continuation of first-year Spanish. Oral skills, reading and writing. Compulsory attendance.

Precludes additional credit for SPAN 1110.

Prerequisite(s): grade of C or higher in SPAN 1010, or permission of the School.

Four hours a week.

SPAN 1110 [1.0 credit]

Intensive First-Year Spanish

For students with no knowledge of Spanish. Oral skills, reading and writing. Compulsory attendance. Precludes additional credit for SPAN 1010 or SPAN 1020. Eight hours a week (one term).

SPAN 2010 [0.5 credit] Second-Year Spanish I

Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for SPAN 2110. Prerequisite(s): grade of C or higher in SPAN 1020, SPAN 1110, or permission of the School. Four hours a week.

SPAN 2020 [0.5 credit] Second-Year Spanish II

Continuation of second-year Spanish. Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance.

Precludes additional credit for SPAN 2110.

Prerequisite(s): grade of C or higher in SPAN 2010, or permission of the School.

Four hours a week.

SPAN 2110 [1.0 credit] **Intensive Second-Year Spanish**

Further study of Spanish to reach a more advanced level of proficiency in a range of situations. Equal emphasis on oral and written language. Compulsory attendance. Precludes additional credit for SPAN 2010, SPAN 2020. Prerequisite(s): grade of C or higher in SPAN 1020, SPAN 1110, or permission of the School. Eight hours a week (one term).

SPAN 3010 [0.5 credit] Third-Year Spanish I

Continuation of the study of Spanish to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for SPAN 3110. Prerequisite(s): grade of C or higher in SPAN 2020, SPAN 2110, or permission of the School.

Three hours a week.

SPAN 3020 [0.5 credit] Third-Year Spanish II

Continuation of third-year Spanish. Progress toward a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance. Precludes additional credit for SPAN 3110. Prerequisite(s): grade of C or higher in SPAN 3010 or permission of the School.

Three hours a week.

SPAN 3110 [1.0 credit] Intensive Third-Year Spanish

Continuation of the study of Spanish to reach a more advanced level, including the ability to handle authentic materials and primary texts required for academic studies. Compulsory attendance.

Precludes additional credit for SPAN 3010, SPAN 3020. Prerequisite(s): grade of C or higher in SPAN 2020, SPAN 2110, or permission of the School. Six hours a week (one term).

SPAN 3220 [0.5 credit] Introduction to Spanish Linguistics

Introduction to principles of linguistic analysis, illustrated through Spanish. Sound systems, word structures and sentence structures of Spanish. Basic principles of language variation and change, as evidenced in the development of Spanish. Linguistic aspects of bilingualism as manifested in Spanish/English bilinguals.

Prerequisite(s): SPAN 3020 or SPAN 3110 or permission of the School.

Three hours a week.

SPAN 4010 [0.5 credit] Fourth-Year Spanish I

Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Precludes additional credit for SPAN 4110, SPAN 4015, SPAN 4025.

Prerequisite(s): grade of C or higher in SPAN 3020, SPAN 3110, or permission of the School.

Three hours a week.

SPAN 4015 [0.5 credit]

Spanish for Heritage Speakers I

For students who have attained Spanish language proficiency in informal settings. This course formalizes grammar awareness, enhances literacy skills, and develops existing language abilities in a formal academic setting.

Precludes additional credit for all SPAN courses numbered 4110 and below, except SPAN 4025.

Prerequisite(s): permission of the School. Online.

SPAN 4020 [0.5 credit] Fourth-Year Spanish II

Continuation of fourth-year Spanish. Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Precludes additional credit for SPAN 4110, SPAN 4015, SPAN 4025.

Prerequisite(s): grade of C or higher in SPAN 4010, or permission of the School.

Three hours a week.

SPAN 4025 [0.5 credit] Spanish for Heritage Speakers II

For students who have started to develop existing Spanish language abilities in a formal academic setting. This course enhances students' written expression while building on advanced knowledge of Spanish grammar and vocabulary.

Precludes additional credit for all SPAN courses numbered 4110 and below, with the exception of SPAN 4015. Prerequisite(s): SPAN 4015 or permission of the School. Online.

SPAN 4110 [1.0 credit] Intensive Fourth-Year Spanish

Advanced spoken and written Spanish with intensive practice in aural comprehension and speaking in a range of situations and contexts, in reading and in composition in a range of modes and genres. Metalinguistic study. Compulsory attendance.

Includes: Experiential Learning Activity Precludes additional credit for SPAN 4010 and SPAN 4020.

Prerequisite(s): grade of C or higher in SPAN 3020, SPAN 3110, or permission of the School. Six hours a week (one term).

SPAN 4215 [0.5 credit]

Spanish for Specific Purposes

Development of language use for specific purposes in contexts such as the academic, business and technical domains.

Includes: Experiential Learning Activity Prerequisite(s): grade of C or higher in SPAN 4020 or SPAN 4110, or permission of the School.

Three hours a week.

SPAN 4320 [0.5 credit]

Topics in Spanish Linguistics

Selected topic in Spanish linguistics. Includes: Experiential Learning Activity Prerequisite(s): LING 1001 or SPAN 3220, and grade of C or higher in SPAN 4020 or SPAN 4110, or permission of the School.

Three hours a week.

SPAN 4380 [0.5 credit]

Topics in Spanish-speaking Cultures

Selected topics in Spanish-speaking cultures and societies. Development of advanced language skills. Includes: Experiential Learning Activity Prerequisite(s): grade of C or higher in SPAN 4020 or SPAN 4110, or permission of the School. Three hours per week.

SPAN 4900 [1.0 credit]

Independent Study

Research in a topic in Spanish language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in the Minor in Spanish, grade of C or higher in SPAN 4020 or SPAN 4110 or equivalent, or permission of the School.

SPAN 4901 [0.5 credit] **Independent Study**

Research in a topic in Spanish language, literature or linguistics under the supervision of a member of the School.

Includes: Experiential Learning Activity Prerequisite(s): third- or fourth-year standing in the Minor in Spanish, grade of C or higher in SPAN 4020 or SPAN 4110 or equivalent, or permission of the School.

Statistics (STAT)

Statistics (STAT) Courses

STAT 1500 [0.5 credit]

Introduction to Statistical Computing

Basics of programming in R and introduction to statistical software; generating statistical plots; computing descriptive statistics; performing basic statistical procedures: fundamentals of numerical analysis: optimization; generating random numbers, performing simple simulations and simulation-based inference. Includes: Experiential Learning Activity

Prerequisite(s): Ontario Grade 12 Mathematics: Advanced

Functions, or MATH 0005, or equivalent.

Lectures three hours a week, laboratory one hour a week.

STAT 2507 [0.5 credit]

Introduction to Statistical Modeling I

A data-driven introduction to statistics. Basic descriptive statistics, introduction to probability theory, random variables, discrete and continuous distributions, contingency tables, sampling distributions, distribution of sample mean, Central Limit Theorem, interval estimation and hypothesis testing. A statistical software package will be used.

Includes: Experiential Learning Activity Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), DATA 1517, ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2601, STAT 2606, and STAT 3502. May not be counted for credit in any program if taken after successful completion of STAT 2559. Prerequisite(s): an Ontario Grade 12 universitypreparation Mathematics or equivalent, or permission of the School of Mathematics and Statistics. Lectures three hours a week, laboratory one hour a week.

STAT 2509 [0.5 credit]

Introduction to Statistical Modeling II

A data-driven approach to statistical modeling. Basics of experimental design, analysis of variance, simple linear regression and correlation, nonparametric procedures. A statistical software package will be used.

Includes: Experiential Learning Activity Precludes additional credit for DATA 1519, ECON 2202, ECON 2220 (no longer offered), ECON 3210, STAT 2602, STAT 2607.

Prerequisite(s): STAT 2507 or STAT 2601 or STAT 2606 or STAT 3502; or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 2559 [0.5 credit]

Basics of Statistical Modeling (Honours)

Estimation and hypothesis testing for one and two samples, analysis of categorical data, basics of experimental design, analysis of variance, simple linear regression and correlation. Nonparametric procedures. A statistical software package will be used. Includes: Experiential Learning Activity Precludes additional credit for DATA 1519. Prerequisite(s): STAT 2655 or permission of the School. Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 2601 [0.5 credit] Business Statistics

Introduction to statistical computing, descriptive statistics, probability concepts, interval estimation and hypothesis testing, categorical data analysis. Introduction to simple regression, multiple regression, and time series. Emphasis on the development of an ability to interpret results of statistical analyses with applications from business. Includes: Experiential Learning Activity Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), DATA 1517, ECON 2201 (no longer offered), ECON 2210, ENST 2006, GEOG 2006, STAT 2507, STAT 2606 (no longer offered) and STAT 3502.

Prerequisite(s): MATH 1009. Restricted to B.Com. and B.I.B students.

Lectures three hours a week and laboratory one hour a week.

STAT 2602 [0.5 credit] Statistical Models for Business Analytics and Finance

Analysis of variance, multiple regression (including polynomial regression), logistic and Poisson regression, probit models, time series (including decomposition into components, exponential smoothing, model diagnostics and ARIMA models), Monte Carlo simulation.

Includes: Experiential Learning Activity
Precludes additional credit for DATA 1519, ECON 2220
(no longer offered), STAT 2607 (no longer offered).

Prerequisite(s): STAT 2601.

Lectures three hours a week and laboratory one hour a week.

STAT 2605 [0.5 credit] Probability Models

Basic probability; discrete random variables with focus on binomial and Poisson random variables; continuous random variables, transformation theorem, simulating continuous random variables; exponential random variable, normal random variable, sums of random variables, central limit theorem. Elements of Markov chains, and introduction to Poisson processes. Precludes additional credit for STAT 2655 and STAT 3502.

Prerequisite(s): MATH 1007 or MATH 1004 or MATH 1002 (no longer offered) or MATH 1052, and MATH 1104 or MATH 1107 or MATH 1102 (no longer offered) or MATH 1152. Restricted to students in Bachelor of Computer Science and Bachelor of Mathematics in Computer Mathematics.

Lectures three hours a week, tutorial one hour a week.

STAT 2655 [0.5 credit] Introduction to Probability with Applications (Honours)

Probability axioms, basic combinatorial analysis, conditional probability and independence, discrete and continuous random variables, joint and conditional distributions, expectation and moments, probability and moment generating functions, Chebyshev's inequality and weak law of large numbers, central limit theorem, sampling distributions, simulation and applications to descriptive statistics.

Precludes additional credit for STAT 2605.

Prerequisite(s): MATH 2052 with a grade of C+ or higher or MATH 2007 or MATH 1005 with a grade of B+ or higher; and MATH 2152 with a grade of C+ or higher or MATH 2107 with a grade of B+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 2660 [0.5 credit] Mathematics for Finance (Honours)

Interest rates, growth of money, discount functions, yield rates, time value of money, annuities, cash flows and portfolios, loans, mortgages, bonds, immunization, swaps, hedging and investment strategies, stocks and financial markets, arbitrage.

Prerequisite(s): i) one of MATH 2052 or MATH 2007 or MATH 1005, grade of C+ or higher; and ii) one of MATH 1152 or MATH 1107 or MATH 1104, grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 2907 [0.5 credit] Directed Studies (Honours)

Available only to Honours students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

STAT 3210 [0.5 credit]

Inferential Data Science Foundations I

Theoretical foundations to data science using open source software. Empirical distribution functions, point estimation, interval estimation, tests of hypotheses, maximum likelihood and method of moments. Formal tools are developed, and concepts are demonstrated using simulation. Abstract concepts are made concrete through visualization and numerical computation.

Precludes additional credit for STAT 3508, STAT 3558. Prerequisite(s): MATH 2007 (or MATH 1005 or MATH 2052); and DATA 2500; and DATA 2519 (or STAT 2509 or STAT 2559).

Lectures three hours a week, laboratory one hour a week.

STAT 3502 [0.5 credit] **Probability and Statistics**

Axioms of probability; conditional probability and independence; random variables; distributions: binomial, Poisson, hypergeometric, normal, gamma; central limit theorem; sampling distributions; point estimation: maximum likelihood, method of moments; confidence intervals; testing of hypotheses: one and two populations; engineering applications: acceptance sampling, control charts, reliability.

Includes: Experiential Learning Activity Precludes additional credit for BIT 2000, BIT 2009, BIT 2100 (no longer offered), BIT 2300 (no longer offered), DATA 1517, ECON 2201 (no longer offered), ECON 2210, STAT 2507, STAT 2605, STAT 2601, and STAT 2606. Prerequisite(s): MATH 2004 and enrolment in the Faculty of Engineering or B.Sc. programs of the Department of Physics [except Double Honours Mathematics and Physics].

Lectures three hours a week and one hour laboratory.

STAT 3503 [0.5 credit] **Regression Analysis**

Review of simple and multiple regression with matrices, Gauss-Markov theorem, polynomial regression, indicator variables, residual analysis, weighted least squares, variable selection techniques, nonlinear regression, correlation analysis and autocorrelation. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity Precludes additional credit for STAT 3553. Prerequisite(s): i) STAT 2509 or STAT 2602 or STAT 2607 or ECON 2202 or equivalent; and ii) MATH 1152 or MATH 1107 or MATH 1119 or equivalent; or permission of

Lectures three hours a week and one hour laboratory.

STAT 3504 [0.5 credit]

Analysis of Variance and Experimental Design

Single and multifactor analysis of variance, orthogonal contrasts and multiple comparisons, analysis of covariance; nested, crossed and repeated measures designs: completely randomized, randomized block, Latin squares, factorial experiments, related topics. Computer packages are used for statistical analyses.

Includes: Experiential Learning Activity Precludes additional credit for STAT 4504.

Prerequisite(s): STAT 3503 or permission of the School. Lectures three hours a week and one hour laboratory.

STAT 3506 [0.5 credit]

Stochastic Processes and Applications (Honours)

Conditional probability and conditional expectation: Stochastic modeling; discrete time Markov chains including classification of states, stationary and limiting distributions; exponential distribution and the Poisson processes; queueing models; applications to computer systems, operations research and social sciences. Prerequisite(s): STAT 2655 with a grade of C- or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3507 [0.5 credit] Sampling Methodology

The sample survey as a vehicle for information collection in government, business, scientific and social agencies. Topics include: planning a survey, questionnaire design, simple random, stratified, systematic and cluster sampling designs, estimation methods, problem of non-response, related topics.

Includes: Experiential Learning Activity Prerequisite(s): one of: STAT 2507, STAT 2509, STAT 2601, STAT 2602, STAT 2606, STAT 2607, ECON 2201, ECON 2202, ECON 2210, or equivalent; or permission of the School.

Lectures three hours a week and one hour laboratory.

STAT 3508 [0.5 credit] **Elements of Probability Theory**

Discrete and continuous distributions, moment-generating functions, marginal and conditional distributions, transformation theory, limiting distributions. Precludes additional credit for ECON 4002, STAT 3210, STAT 3558 and STAT 3608.

Prerequisite(s): i) MATH 2008 (or MATH 2004 or MATH 2009); and ii) one of STAT 2507, STAT2601, STAT 2606, ECON 2200, or ECON 2201 or permission of the School. Lectures three hours a week, tutorial one hour a week.

STAT 3509 [0.5 credit] Mathematical Statistics

Point and interval estimation, sufficient statistics, hypothesis testing, chi-square tests with enumeration data.

Precludes additional credit for STAT 3559, STAT 4321. Prerequisite(s): STAT 3508 or permission of the School. Lectures three hours a week, tutorial one hour a week.

STAT 3553 [0.5 credit] Regression Modeling (Honours)

Linear regression - theory, methods and application(s). Normal distribution theory. Hypothesis tests and confidence intervals. Model selection. Model diagnostics. Introduction to weighted least squares and generalized linear models.

Includes: Experiential Learning Activity Precludes additional credit for STAT 3503.

Prerequisite(s): i) STAT 2559 with a grade of C- or higher, or STAT 2509 with a grade of B or higher, or DATA 1519 with a grade of C or higher; and ii) a grade of C- or higher in MATH 1152 or MATH 1107 or MATH 1104; or permission from the School of Mathematics and Statistics. Lectures three hours a week, laboratory one hour a week.

STAT 3558 [0.5 credit] Elements of Probability Theory (Honours)

Random variables and moment-generating functions, concepts of conditioning and correlation; laws of large numbers, central limit theorem; multivariate normal distribution; distributions of functions of random variables, sampling distributions, order statistics.

Precludes additional credit for ECON 4002, STAT 3210, STAT 3508 and STAT 3608.

Prerequisite(s): i) STAT 2655 with a grade of C- or higher; and ii) MATH 2000 with a grade of C- or higher, or (a grade of C+ or higher in MATH 2008 or MATH 2004, and permission of the instructor); or permission of the School. Lectures three hours a week, tutorial one hour a week.

STAT 3559 [0.5 credit] Mathematical Statistics (Honours)

Empirical distribution functions, Monte Carlo methods, elements of decision theory, point estimation, interval estimation, tests of hypotheses, robustness, nonparametric methods.

Precludes additional credit for STAT 3509, STAT 4321. Prerequisite(s): STAT 3558 with a grade of C- or higher; or (STAT 3508 with a grade of B or higher, and permission of the instructor); or permission of the School. Lectures three hours a week, tutorial one hour a week.

STAT 3660 [0.5 credit] Actuarial Mathematics I

Severity, frequency models, loss models, risk measures, value at risk, stochastic processes, Poisson process, characteristics of actuarial models, creating new univariate distributions, heavy-tailed distributions, mixed distributions, coverage modifications.

Prerequisite(s): STAT 2655, or permission from the school.

Lectures three hours a week, tutorial one hour a week.

STAT 3661 [0.5 credit] Life Contingent Risk Modelling I

Introduction to life insurance; traditional and modern insurance contracts; underwriting; premiums; present value random variable; force of mortality; life tables; insurance benefits; annuities; premium calculation, reserves.

Prerequisite(s): STAT 2660 and STAT 3660, or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 3907 [0.5 credit] Directed Studies

Available only to students whose program requires a 0.5 credit not offered by the School of Mathematics and Statistics.

STAT 3999 [0.0 credit] Co-operative Work Term

Includes: Experiential Learning Activity

STAT 4321 [0.5 credit] Inferential Data Science Foundations II

Inferential data science tools extending to big data using open-source software. Asymptotic properties of likelihoods, parametric and non-parametric approaches, bootstrap, jackknife estimation, frequentist and Bayesian perspectives. Formal tools are developed. Concepts are demonstrated using simulation. Abstract concepts are made concrete through visualization and numerical computation.

Precludes additional credit for STAT 3509 or STAT 3559. Prerequisite(s): STAT 3210.

Lectures three hours a week, laboratory one hour a week.

STAT 4322 [0.5 credit] Learning from Big Data

A data-first tour of advanced statistical models. Focus will be on a series of large real world forecasting and prediction competitions. Tools and workflows for statistical modelling are explored.

Prerequisite(s): DATA 3500 and STAT 3210. Lectures three hours a week, laboratory one hour a week.

STAT 4500 [0.5 credit]

Parametric Estimation (Honours)

Preliminaries on probability theory; exact and asymptotic sampling distributions; unbiasedness, consistency, efficiency, sufficiency and completeness; properties of maximum likelihood estimators; least squares estimation of location and scale parameters based on order statistics and sample quantiles; Best Asymptotically Normal (BAN) estimators.

Prerequisite(s): STAT 3559 or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5600, for which additional credit is precluded.

Lectures three hours a week.

STAT 4501 [0.5 credit] Probability Theory (Honours)

Introduction to probability, characteristic functions, probability distributions, limit theorems.

Prerequisite(s): STAT 3506 and STAT 3558 or permission of the School.

Lectures three hours a week.

STAT 4502 [0.5 credit] Survey Sampling (Honours)

Basic concepts in sampling from finite populations; simple random sampling; stratified sampling; choice of sampling unit; cluster and systematic sampling; introduction to multistage sampling; ratio estimation; sampling with unequal probabilities and with replacement; replicated sampling; related topics.

Prerequisite(s): i) STAT 2559 or STAT 2509; and ii) either STAT 3559, or a grade of C + or better in STAT 3509; or permission of the School.

Lectures three hours a week.

STAT 4503 [0.5 credit]

Applied Multivariate Analysis (Honours)

Selected topics in regression and correlation nonlinear models. Multivariate statistical methods, principal components, factor analysis, multivariate analysis of variance, discriminant analysis, canonical correlation, analysis of categorical data.

Prerequisite(s): STAT 3553 or (STAT 3509 and STAT 3503) or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5509, for which additional credit is precluded.

Lectures three hours a week.

STAT 4504 [0.5 credit] Statistical Design and Analysis of Experiments (Honours)

An extension of the designs discussed in STAT 2559 to include analysis of the completely randomized design, designs with more than one blocking variable, incomplete block designs, fractional factorial designs, multiple comparisons; and response surface methods. Includes: Experiential Learning Activity
Precludes additional credit for STAT 3504 and ECON 4706. PSYC 3000 is precluded for additional credit for students registered in a Mathematics program.
Prerequisite(s): STAT 3553 or STAT 3503; or permission of the School of Mathematics and Statistics.
Lectures three hours a week, laboratory one hour a week.

STAT 4506 [0.5 credit] Nonparametric Statistics (Honours)

Classical nonparametric techniques; nonparametric density estimation; nonparametric regression analysis: kernel estimators, orthogonal series estimators, smoothing splines; estimation of statistical functionals; nonparametric bootstrap; jackknife; elements of high dimensional statistical inference; multiple testing and false discovery. Statistical software will be used.

Prerequisite(s): STAT 3559 or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5516, for which additional credit is precluded.

Lectures three hours a week.

STAT 4507 [0.5 credit] Statistical Inference (Honours)

Sufficient statistics, simple and composite hypotheses, most powerful and similar region test, distribution-free tests, confidence intervals, goodness-of-fit and likelihood ratio tests, large sample theory, Bayesian and likelihood methods, sequential tests.

Prerequisite(s): STAT 4500 or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5501, for which additional credit is precluded.

Lectures three hours a week.

STAT 4508 [0.5 credit] Stochastic Models (Honours)

Review of discrete Markov chains and Poisson processes; continuous time Markov chains; pure jump Markov processes, and birth and death processes including the Q-matrix approach; the Kolmogorov equations; renewal theory; introduction to Brownian motion; queueing theory.

Prerequisite(s): STAT 3506 or permission of the School. Also offered at the graduate level, with different requirements, as STAT 5701, for which additional credit is precluded.

Lectures three hours a week.

STAT 4509 [0.5 credit]

Advanced Mathematical Modeling (Honours)

Real-life situations in the physical, social, and life sciences are often modeled using mathematical tools. This course will examine various models and techniques used in their analysis, e.g., matrix procedures in connection with population models. Students will use a computer package to obtain numerical results.

Prerequisite(s): i) MATH 2454 and STAT 2655 (or MATH 2404 and STAT 2605) and ii) STAT 3506; or permission of the School.

Also offered at the graduate level, with different requirements, as STAT 5601, for which additional credit is precluded.

Lectures three hours a week.

STAT 4555 [0.5 credit] Monte Carlo Simulation (Honours)

Basic ideas and algorithms of Monte Carlo; simulation of basic stochastic processes. Brownian motion and the Poisson process, applications to financial modelling, queueing theory. Output analysis; variance reduction. Markov chain Monte Carlo methods; Gibbs sampling, simulated annealing and Metropolis-Hastings samplers with applications.

Includes: Experiential Learning Activity Precludes additional credit for STAT 3555 (no longer offered).

Prerequisite(s): STAT 3558, or a grade of B or higher in STAT 3508, or permission of the School.

Lectures three hours a week, tutorial/laboratory one hour a week.

STAT 4601 [0.5 credit] Data Mining I (Honours)

Data visualization; knowledge discovery in datasets; unsupervised learning: clustering algorithms; dimension reduction; supervised learning: pattern recognition, smoothing techniques, classification. Computer software will be used.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503 or MATH 3806, or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4603 [0.5 credit]

Time Series and Forecasting (Honours)

Time series regression. Nonstationary and stationary time series models. Nonseasonal and seasonal time series models. ARIMA (Box-Jenkins) models. Smoothing methods. Parameter estimation, model identification, diagnostic checking. Forecasting techniques. A statistical software package will be used.

Includes: Experiential Learning Activity
Precludes additional credit for ECON 4713.

Prerequisite(s): STAT 3553 or STAT 3503, or permission of the School.

Lectures three hours a week.

STAT 4604 [0.5 credit] Statistical Computing (Honours)

Statistical computing techniques, pseudo-random number generation, tests for randomness, numerical algorithms in statistics; optimization techniques; environments for data analysis, efficient programming techniques; statistics with mainstream software.

Includes: Experiential Learning Activity

Prerequisite(s): STAT 3553 or STAT 3503 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4607 [0.5 credit]

Bayesian Statistical Analysis (Honours)

Probability basics for Bayesian statistics. Bayesian inference for simple exponential families. Markov Chain Monte Carlo for posterior inference. Empirical Bayes. Hierarchical Bayes. Bayesian inference for the multivariate normal model. Bayesian linear regression. More advanced topics may be included. Computer software will be used. Includes: Experiential Learning Activity Prerequisite(s): STAT 3553 or permission of the School.

Lectures three hours a week, laboratory one hour a week.

STAT 4660 [0.5 credit]

Actuarial Mathematics II

Empirical models, complete data, grouped data, credibility theory, failure time, accuracy, kernel estimation, goodness of fit tests, Bayesian analysis, inference for loss models, frequentist estimation, model selection.

Prerequisite(s): STAT 3660 with C+ or higher, or permission of the school.

Lectures three hours a week, tutorial one hour a week.

STAT 4661 [0.5 credit]

Life Contingent Risk Modelling II

Policy values; multiple state models; formulae for probability; Markov multiple state models; pension mathematics; yield curves; interest rate risk; emerging costs for life insurance; equity linked insurance; deterministic and stochastic pricing; reserving, participating, and universal life insurance.

Precludes additional credit for STAT 3662 (no longer offered).

Prerequisite(s): STAT 3661 with a grade of C+ or higher; or permission of the School.

Lectures three hours a week, tutorial one hour a week.

STAT 4905 [0.5 credit] Honours Project (Honours)

Consists of a written report on some approved topic or topics in the field of statistics, together with a short lecture on the report.

Includes: Experiential Learning Activity
Prerequisite(s): B.Math.(Honours) or B.Data Science
(Honours) students only.

STAT 4907 [0.5 credit] Directed Studies (Honours)

Prerequisite(s): B.Math.(Honours) students only.

Sustainable and Renewable Energy (SREE)

Sustainable and Renewable Energy (SREE) Courses

SREE 1000 [0.0 credit]

Introduction to Sustainable Energy

The concept of energy sustainability. Energy-economy system. Global energy trends, the next 100 years. Energy reserves and resources. Primary and secondary clean energy. Energy use, efficiency and renewables. Energy and the environment/climate change. Sustainable energy choices and policies.

Prerequisite(s): registration in Sustainable and Renewable Energy Engineering.

Lectures one hour per week.

SREE 3001 [0.5 credit]

Sustainable and Renewable Energy Sources

Primary energy sources and their associated fundamental physics of conversion. Renewables: wind, large hydro, solar radiation, solar thermal. Fossil and biofuels.

Nuclear. Climate science: the carbon cycle and the role of anthropogenic GHG emissions in climate warming.

Terrestrial, thermodynamic and electrical limitations.

Includes: Experiential Learning Activity

Prerequisite(s): ENVE 2001 and MAAE 2300 and (ELEC 2602 or fourth-year status in Environmental Engineering).

Lectures three hours per week, laboratories/problem analysis one hour per week.

SREE 3002 [0.5 credit] Electrical Distribution Systems

Electricity Distribution: topology, load characteristics, load prediction, voltage regulation, power flow, power loss, capacitors, state estimation, system reliability, system protection. Distribution Automation: components and architectures, communication systems. Distributed Generation: guides and regulations, microgrids, case study.

Includes: Experiential Learning Activity
Prerequisite(s): SREE 3001 and (ELEC 2602 or
ELEC 3605).

Lectures three hours per week, laboratories three hours per week alternate weeks.

SREE 3003 [0.5 credit]

Sustainable and Renewable Electricity Generation

Power system structures; photovoltaic cell: model, current#voltage curves, maximum power point tracking, grid connection; grid connection of wind generator; DC# AC and AC#DC converter simulation and analysis; energy storage classification; battery: equivalent circuit model, charging and discharging; renewable generation; feed#in tariff program.

Includes: Experiential Learning Activity Prerequisite(s): SREE 3001 and (ELEC 2602 or ELEC 3605).

Lectures three hours per week, laboratories three hours per week alternate weeks.

SREE 4001 [0.5 credit] **Efficient Energy Conversion**

Sustainable large-scale power generation. Geothermal, solar thermal, hydrogen power plants. Thermal grids and thermal energy storage. Environmental and economic aspects of power generation. Impacts of intermittent power generation. Sizing of wind, solar PV, run-of-river hydro, and offshore power plants. Current and future energy network topologies.

Includes: Experiential Learning Activity Precludes additional credit for MECH 4403. Prerequisite(s): MAAE 2300, MAAE 2400 and fourth year status in Sustainable & Renewable Energy Engineering. Lectures three hours per week, laboratories/problem analysis three hours per week.

SREE 4002 [0.5 credit]

Modelling and Analysis of Energy Systems: Risk, Reliability, and Economics

Energy technologies exist within a context of economic, policy, and behavioral choices that affect their adoption. This course will introduce engineering methods for analyzing risk, uncertainty, and system-level decisionmaking. We will investigate criteria that affect energy systems: reliability, resilience, economics, financing, health, and environmental impacts.

Prerequisite(s): fourth-year status in Engineering. Lectures three hours per week.

SREE 4907 [1.0 credit] **Energy Engineering Project**

Student teams develop professional-level experience by applying, honing, integrating and extending previously acquired knowledge in a major design project. Lectures

are devoted to discussing project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity Prerequisite(s): SREE 3002 and SREE 3003, and fourth-year status in Sustainable and Renewable Energy Engineering. Certain projects may have additional prerequisites or corequisites.

Systems and Computer Engineering (SYSC)

Systems and Computer Engineering (SYSC) Courses

Note: the Departments of Systems and Computer Engineering and Electronics offer courses in: Biomedical and Electrical Engineering, Communications Engineering, Computer Systems Engineering, Electrical Engineering, Software Engineering and Engineering Physics.

SYSC 1005 [0.5 credit] **Introduction to Software Development**

Software development as an engineering discipline, using a modern programming language, Language syntax. Algorithm design. Tracing and visualizing program execution. Testing and debugging. Program style, documentation, reliability. Lab projects are drawn from a variety of application domains: digital image manipulation, computer games, robotics.

Includes: Experiential Learning Activity Precludes additional credit for ECOR 1031, ECOR 1041, ECOR 1042, ECOR 1051, ECOR 1606, SYSC 1100 (no longer offered), COMP 1005 and COMP 1405. Lectures three hours a week, laboratory three hours a week.

SYSC 1006 [0.5 credit]

Foundations of Imperative Programming

The imperative programming paradigm: assignment and state, types and variables, static and dynamic typing. Memory management and object lifetimes: static allocation, automatic allocation in activation frames, dynamic allocation. Function argument passing. Recursion. Data structures: dynamic arrays, linked lists, hash tables. Encapsulation and information hiding. Includes: Experiential Learning Activity Also listed as SYSC 2006.

Precludes additional credit for COMP 2401, SYSC 4006. Prerequisite(s): ECOR 1031 or (ECOR1041 and ECOR 1042), all with a minimum grade of C-. Lectures three hours a week, laboratory two hours a week.

SYSC 2001 [0.5 credit] **Computer Systems Foundations**

Computer architecture and organization: CPU, cache, memory, input/output, bus structures, interrupts; computer arithmetic: integer and floating point; CPU: instruction sets, addressing modes, instruction encoding. Input/output: programmed, interrupt-driven, block-oriented. Examples from several modern processor families.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 2320, SYSC 3006. Prerequisite(s): ECOR 1606 or SYSC 1005. Additional recommended background: SYSC 2006. Lectures three hours a week, laboratory two hours a week.

SYSC 2003 [0.5 credit] Introductory Real-Time Systems

Principles of event-driven systems. Review of computer organization. Assemblers and linkers. Development of embedded applications. Programming external interfaces, programmable timer. Input/output methods: polling, interrupts. Real-time issues: concurrency, mutual exclusion, buffering. Introduction to concurrent processes. Includes: Experiential Learning Activity Precludes additional credit for SYSC 3006 and SYSC 3310.

Prerequisite(s): SYSC 2001 and SYSC 2006. Lectures three hours a week, laboratory two hours a week

SYSC 2004 [0.5 credit] Object-Oriented Software Development

Designing and implementing small-scale programs as communities of collaborating objects, using a dynamically-typed or statically-typed programming language. Fundamental concepts: classes, objects, encapsulation, information hiding, inheritance, polymorphism. Iterative, incremental development and test-driven development. Includes: Experiential Learning Activity Precludes additional credit for COMP 1006 and COMP 1406.

Prerequisite(s): SYSC 1006 or SYSC 2006 or permission of the department, and second-year status in Engineering. Lectures three hours a week, laboratory two hours a week.

SYSC 2006 [0.5 credit]

Foundations of Imperative Programming

The imperative programming paradigm: assignment and state, types and variables, static and dynamic typing. Memory management and object lifetimes: static allocation, automatic allocation in activation frames, dynamic allocation. Function argument passing. Recursion. Data structures: dynamic arrays, linked lists, hash tables. Encapsulation and information hiding. Includes: Experiential Learning Activity Also listed as SYSC 1006.

Precludes additional credit for COMP 2401, SYSC 4006. Prerequisite(s): Second-year status in Engineering. Lectures three hours a week, laboratory two hours a week.

SYSC 2010 [0.5 credit] Programming Project

Programming, testing, and debugging of small teambased software projects that use data from sensors to display results graphically. Modern programming tools: frameworks, libraries, version control, package management, tool chains. Sensors, signal acquisition, display, and basic filtering. Introductory network programming.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 3010, SYSC 3110.
Prerequisite(s): 2nd year status in Biomedical and
Electrical Engineering or Communications Engineering.
Lectures three hours a week, laboratory three hours a week.

SYSC 2100 [0.5 credit] Algorithms and Data Structures

Thorough coverage of fundamental abstract collections: stacks, queues, lists, priority queues, dictionaries, sets, graphs. Data structures: review of arrays and linked lists; trees, heaps, hash tables. Specification, design, implementation of collections, complexity analysis of operations. Sorting algorithms.

Includes: Experiential Learning Activity
Precludes additional credit for COMP 2402.
Prerequisite(s): (SYSC 1006 or SYSC 2006) with
a minimum grade of C-, and second-year status in
Engineering.

Lectures three hours a week, laboratory two hours a week, problem analysis one hour alternate weeks.

SYSC 2310 [0.5 credit] Introduction to Digital Systems

Number systems: binary, decimal, hexadecimal. Digital representation of information. Computer arithmetic: integer, floating point, fixed point. Boolean logic, realization as basic digital circuits. Applications: simple memory circuits, synchronous sequential circuits for computer systems. Finite state machines, state graphs, counters, adders. Asynchronous sequential circuits. Races. Includes: Experiential Learning Activity
Precludes additional credit for ELEC 2607.
Prerequisite(s): Enrolment in Computer Systems
Engineering, Communications Engineering, or Software engineering, and second-year status in Engineering. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 2320 [0.5 credit] Introduction to Computer Organization and Architecture

Computer organization: processor, memory, input/output, system bus. Microarchitecture. Instruction set architecture. Assembly language programming: addressing modes, instruction encoding, execution. Assembler. Simple digital I/O, programmable timer. Input/output methods: polling, hardware interrupts.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 2001 and
SYSC 3006.

Prerequisite(s): SYSC 2310 or ELEC 2607, and secondyear status in Engineering.

Lectures three hours a week, laboratory three hours a

SYSC 2510 [0.5 credit] Probability, Statistics and Random Processes for Engineers

Discrete and continuous random variables. Joint and conditional probabilities, independence, sums of random variables. Expectation, moments, laws of large numbers. Introduction to statistics. Stochastic processes, stationarity, additive white Gaussian noise, Poisson processes. Markov processes, transition probabilities and rates, birth death processes, introduction to queueing theory.

Includes: Experiential Learning Activity
Prerequisite(s): MATH 1004 and MATH 1104, and
second-year status in Engineering.
Lectures three hours a week, laboratory three hours

Lectures three hours a week, laboratory three hou alternate weeks.

SYSC 3006 [0.5 credit] Computer Organization

Computer organization: processor, memory, input/ output, system bus. Number systems: binary, decimal, hexadecimal. Assembly language programming: representation of data, instruction encoding, execution. Devices: keyboard, programmable timer, parallel interface. Input/output methods: polling, hardware/software interrupts.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 2320.
Prerequisite(s): (SYSC 1006 or SYSC 2006) and (SYSC 2310 or ELEC 2607).

Lectures three hours a week, laboratory three hours a week.

SYSC 3010 [0.5 credit]

Computer Systems Development Project

Development of expertise in designing, implementing and testing industrial-quality embedded systems through team projects. Applying modern programming languages, system design practices, current development processes (refactoring, iterative and incremental development) as well as current team-management tools (communication, version control) to medium-scale projects.

Includes: Experiential Learning Activity
Precludes additional credit for COMP 2404, SYSC 2010,
SYSC 2101 (no longer offered), and SYSC 3110.
Prerequisite(s): SYSC 2100 and either SYSC 2003 or
SYSC 3310 (may be taken concurrently), and enrolment in
Computer Systems Engineering.

Lectures two hours a week, laboratory three hours a week.

SYSC 3020 [0.5 credit]

Introduction to Software Engineering

Introduction to software engineering principles, software development life-cycles. Modelling in software engineering. Current techniques, notations, methods, processes and tools used in software engineering. UML modelling. Introduction to software quality, software verification and validation, software testing.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 3120, SYSC 4120
and COMP 3004.

Prerequisite(s): SYSC 2004.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3101 [0.5 credit] Programming Languages

Principles underlying different kinds of programming languages (procedural, functional, logic programming) and their semantics. Overview of machinery needed for language support (compilers, interpreters and run-time systems).

Includes: Experiential Learning Activity
Precludes additional credit for COMP 3007.
Prerequisite(s): SYSC 2004.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3110 [0.5 credit]

Software Development Project

Development of expertise in designing, implementing and testing maintainable, reusable software through team projects. Applying modern programming languages, design patterns, frameworks, UML and modern development processes (detection of olfactible source code defects, refactoring, iterative and incremental development, version control techniques) to medium-scale projects.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 2404, SYSC 2010,

SYSC 2101 and SYSC 3010.

Prerequisite(s): SYSC 2004 and SYSC 2100, and

enrolment in Software Engineering.

Lectures two hours a week, laboratory three hours a

week.

SYSC 3120 [0.5 credit]

Software Requirements Engineering

Current techniques, notations, methods, processes and tools used in Requirements Engineering. Requirements elicitation, negotiation, modeling requirements, management, validation. Skills needed for Requirements Engineering and the many disciplines on which it draws. Requirements analysis: domain modeling, modeling object interactions; UML modeling. Introduction to software development processes.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 3020 and COMP 3004.

Prerequisite(s): SYSC 2004 and enrolment in Software Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3200 [0.5 credit] Industrial Engineering

Techniques of operations research for decision-making in complex engineering systems. Linear programming, network models, PERT, integer programming, dynamic programming, queuing systems and inventory models. Problem solving is emphasized.

Includes: Experiential Learning Activity

Precludes additional credit for BUSI 2300, ECON 4004, or

MATH 3801.

Prerequisite(s): MATH 1004 and MATH 1104, and

second-year status in Engineering.

Lectures three hours a week, laboratory/problem analysis one and a half hours per week.

SYSC 3203 [0.5 credit] Bioelectrical Systems

Biomedical transducers, sensors, and biomedical actuators. Amplifier designs: inverting, noninverting, differential, and bioinstrumentation. Differentiators, integrators, and rectifiers. Oscillators and timers. Filter design. Sampling and quantization. Electrical machines. Electrical safety.

Includes: Experiential Learning Activity
Prerequisite(s): MATH 1005 and (ELEC 2507 or
ELEC 3605), and enrolment in Biomedical and Electrical
Engineering or Biomedical and Mechanical Engineering,
and second-year status in Engineering.
Lectures three hours a week, laboratory three hours a
week.

SYSC 3303 [0.5 credit]

Real-Time Concurrent Systems

Principles and practice of a systems engineering approach to the development of software for real-time, concurrent, distributed systems. Designing to achieve concurrency, performance, and robustness, using visual notations. Converting designs into programs. Introduction to hard real-time systems. Team project.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 3313.

Prerequisite(s): For students in the Faculty of Engineering and Design: SYSC 2004 and SYSC 4001. For students in Computer Science: COMP 2401, COMP 2402, and COMP 3000.

Lectures three hours a week, laboratory two hours a week.

SYSC 3310 [0.5 credit] Introduction to Real-Time Systems

Principles of event-driven systems. Microcontroller organization. Development of embedded applications. Programming external interfaces, programmable timer. Input/output methods: polling, interrupts. Real-time issues: concurrency, mutual exclusion, buffering. Introduction to concurrent processes.

Includes: Experiential Learning Activity
Prerequisite(s): (SYSC 1006 or SYSC 2006) with a
minimum grade of C- and (SYSC 2320 or SYSC 3006).
Lectures three hours a week, laboratory two hours a
week.

SYSC 3313 [0.5 credit]

Real-Time Embedded Systems

Principles and practice of a systems engineering approach to the development of software for real-time, concurrent, distributed systems. Designing to achieve concurrency, performance, and robustness, using modern software engineering principles. Converting designs into programs targeting embedded systems. Team project. Includes: Experiential Learning Activity Precludes additional credit for SYSC 3303. Prerequisite(s): SYSC 3310 and SYSC 4001 and third-year status in Computer Systems Engineering, or permission of the Department. Lectures three hours a week, laboratory two hours a

week.

SYSC 3320 [0.5 credit] **Computer Systems Design**

System on Chip based computer system design, including internal organization, direct memory access, floatingpoint units. HDL and FPGAs. Interfacing and high-level systems design. Input/output interfaces, including serial communication protocols.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 3601 and ELEC 4601.

Prerequisite(s): SYSC 3310 and third year status in Computer Systems Engineering, or permission of the Department.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3500 [0.5 credit] Signals and Systems

Signals: energy and power signals, discrete-time and continuous. Linear systems and convolution. Fourier Transform; complex Fourier series; signal spectral properties and bandwidth. Laplace transform and transient analysis. Transfer functions, block diagrams. Baseband and passband signals, with applications to communications systems.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 3600 and SYSC 3610.

Prerequisite(s): MATH 1005 and enrolment in Communications Engineering, and second-year status in Engineering.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 3501 [0.5 credit] **Communication Theory**

Review of signals, linear systems and Fourier theory; signal bandwidth and spectra; digital waveform coding; introduction to analog and digital modulation systems; synchronization: characterization and effects of noise: link budgets; communications media and circuits; applications to current communications systems.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 3503. Prerequisite(s): SYSC 3600 or SYSC 3610. Lectures three hours a week, laboratory three hours

alternate weeks.

SYSC 3503 [0.5 credit] **Communication Theory II**

Amplitude Modulation. Frequency Modulation. Performance of AM and FM in noise. Communication channels, channel models, noise sources, noise models. Digital modulation: ASK, FSK, PSK. Optimal reception, probability of error on the AWGN channel. Includes: Experiential Learning Activity Precludes additional credit for SYSC 3501 or SYSC 4600.

Prerequisite(s): SYSC 3500 and (STAT 2605 or SYSC 2510).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3512 [0.5 credit] **Computer Communications**

Layered network architectures, TCP/IP suite, circuit switching, packet switching. Physical media, data transmission, multiplexing. Data link controls, MAC protocols, random access, polling, IEEE 802 standards. Bridges, switched Ethernet, VLANs. Routing algorithms, Internet routing protocols, datagram networks, virtual circuit networks. Transport protocols.

Includes: Experiential Learning Activity Also listed as SYSC 4602.

Precludes additional credit for COMP 3203.

Prerequisite(s): ECOR 2050 or SYSC 2510 or STAT 2605 or STAT 3502 (may be taken concurrently), and thirdyear status in Biomedical and Electrical, Electrical, Communications, Computer Systems, Software, or Sustainable and Renewable Energy Engineering. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3522 [0.5 credit]

Communications Software Laboratory

Project-oriented experience in the design of communication systems to meet user and system requirements. Lectures on various network architectures and layered protocols and programming; teletraffic analysis and traffic engineering; system specification and design: requirements analysis, solution alternatives, evaluation of alternative technologies, design, costing, implementation, testing.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 4502, SYSC 4701. Prerequisite(s): (SYSC 1006 or SYSC 2006) with a minimum grade of C-, and (SYSC 3512 or SYSC 4602). Lectures three hours a week, laboratory four hours alternate weeks.

SYSC 3600 [0.5 credit] **Systems and Simulation**

Properties of linear systems. Linear dynamic models of engineering systems. Applications of the Laplace transform. Transfer functions. Block diagrams. Frequency and time response. System simulation with digital computers.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 3500 or SYSC 3610.

Prerequisite(s): MATH 1005 and second-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 3601 [0.5 credit] **Microprocessor Systems**

Microprocessor-based system design for different microprocessor families. Microprocessors: internal organization, instruction sets, address generation, pinouts, bus cycles, signalling waveforms. Interfacing memory and I/O devices. Interrupt structures, direct memory access. Floating point coprocessors. System bus standards. Introduction to DSPs.

Includes: Experiential Learning Activity Precludes additional credit for SYSC 3320 or ELEC 4601.

Prerequisite(s): ELEC 2607, and SYSC 2003 or permission of the department. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 3610 [0.5 credit]

Biomedical Systems, Modeling, and Control

Properties of linear systems. Linear dynamic models of biomedical systems. Biomedical application of the Laplace transforms. Transfer functions. Block diagram. Frequency and time response. Feedback, control, and stability. Biomedical systems modeling and control. Includes: Experiential Learning Activity Precludes additional credit for SYSC 3500 or SYSC 3600.

Prerequisite(s): MATH 1005 and enrolment in Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering, and second-year status in Engineering. Lectures three hours a week, laboratory three hours a week.

SYSC 3999 [0.0 credit] **Co-operative Work Term**

Includes: Experiential Learning Activity

SYSC 4001 [0.5 credit] **Operating Systems**

Introduction to operating system principles. Processes and threads. CPU scheduling. Managing concurrency: mutual exclusion and synchronization, deadlock and starvation. Managing memory and input/output. Concurrent programming, including interprocess communication in distributed systems. Includes: Experiential Learning Activity Precludes additional credit for COMP 3000. Prerequisite(s): (SYSC 1006 and SYSC 2006) with a minimum grade of C-.

Lectures three hours a week, laboratory three hours a week.

SYSC 4005 [0.5 credit] Discrete Simulation/Modeling

Simulation as a problem solving tool. Random variable generation, general discrete simulation procedure: event table and statistical gathering. Analyses of simulation data: point and interval estimation. Confidence intervals. Overview of modeling, simulation, and problem solving using SIMSCRIPT, MODSIM, and other languages. Includes: Experiential Learning Activity Prerequisite(s): (ECOR 2050 or SYSC 2510 or STAT 2605 or STAT 3502) and fourth-year status in Engineering, or permission of the Department. Also offered at the graduate level, with different requirements, as SYSC 5001, for which additional credit is precluded.

Lectures three hours a week, laboratory one hour a week.

SYSC 4006 [0.5 credit]

Introduction to Systems Programming

Introduction to C programming: Data types, flow control, functions, arrays, pointers, and arithmetic, logical and bitwise operators. Memory models, collections. Low-level I/O. Build pipeline (version control, make, preprocessing, compiling, linking) in Linux. Testing and debugging. Precludes additional credit for SYSC 1006, SYSC 2006. Prerequisite(s): Third-year status in Engineering, or enrollment in the M.Eng. Program in Electrical & Computer Engineering.

Lectures three hours a week.

SYSC 4101 [0.5 credit] Software Validation

Techniques for the systematic testing of software systems. Software validation and verification, software debugging, quality assurance, measurement and prediction of software reliability. Emphasis on the treatment of these topics in the context of real-time and distributed systems.

Includes: Experiential Learning Activity
Precludes additional credit for COMP 4004.
Prerequisite(s): SYSC 3120 or SYSC 3020.

Lectures three hours a week, laboratory/problem analysis three hours a week.

SYSC 4102 [0.5 credit] Performance Engineering

Techniques based on measurements and models, for predicting and evaluating the performance of computer systems. Instrumentation. Simple queueing models and approximations. Techniques for modifying software designs to improve performance.

Includes: Experiential Learning Activity
Prerequisite(s): (ECOR 2050 or STAT 3502) and
SYSC 4001.

Also offered at the graduate level, with different requirements, as SYSC 5101, for which additional credit is precluded.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4106 [0.5 credit]

The Software Economy and Project Management

Introduction to software project management and economics; Return on software investments; Software life cycle; Work breakdown structure, scheduling and planning; Risk analysis and management; Product size and cost estimation; Earn value management; Statistical process control; Managing project team and process improvement; Bidding and contract types.

Prerequisite(s): SYSC 3120 (may be taken concurrently) and third-year status in Software Engineering or COMP 3004 and enrolment in the Bachelor of Computer Science.

Lectures three hours a week.

SYSC 4111 [0.5 credit]

Formal Methods in Software Engineering

Introduction to formal methods in software engineering with coverage of propositional and first-order logic (syntax, semantics, proof theory), formal specification languages, bounded analysis and validation, formal specification tools, and model checking with finite-state machines, temporal logic, and model checking tools.

Prerequisite(s): COMP 1805, SYSC 3120, and SYSC 4001.

Lectures three hours a week.

SYSC 4120 [0.5 credit]

Software Architecture and Design

Introduction and importance of software architectures and software system design in software engineering. Current techniques, modeling notations, methods, processes and tools used in software architecture and system design. Software architectures, architectural patterns, design patterns, software qualities, software reuse.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 3004, SYSC 3020

and SYSC 4800 (no longer offered).

Prerequisite(s): SYSC 3120.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4130 [0.5 credit] Human Computer Interaction

User-centric design, evaluation, and implementation of interactive computing systems. Topics include: designing, prototyping, implementing, and evaluating user-facing systems and interfaces; data gathering, analysis, and interpretation; persuasive design; dark patterns; accessibility; design for security and privacy.

Precludes additional credit for COMP 3008.

Prerequisite(s): SYSC 3020 or SYSC 3120.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 4201 [0.5 credit]

Ethics, Research Methods and Standards for Biomedical Engineering

Ethical theories, ethical decision-making, biomedical research ethics: informed consent, confidentiality, privacy, research ethics boards; research methods: hypothesis formulation, data collection, sampling bias, experimental design, statistical literacy; regulations for design, manufacture, certification of medical devices; impact of technology and research (social, political, financial).

Includes: Experiential Learning Activity

Prerequisite(s): ECOR 2050 and third-year status in Biomedical and Electrical Engineering or Biomedical and Mechanical Engineering.

Lectures three hours a week, problem analysis one and a half hours per week.

SYSC 4202 [0.5 credit] Clinical Engineering

Overview of the Canadian health care system; brief examples of other countries; clinical engineering and the management of technologies in industrialized and in developing countries; safety, reliability, quality assurance; introduction to biomedical sensor technologies; applications of telemedicine; impact of technology on health care.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year status in Biomedical and
Electrical or Biomedical and Mechanical Engineering.
Also offered at the graduate level, with different
requirements, as BIOM 5406, for which additional credit is
precluded.

Lectures three hours a week, problem analysis three hours alternate weeks.

SYSC 4203 [0.5 credit] Bioinstrumentation and Signals

Bioinstrumentation and biological signals; instrumentation systems, electrical safety, and biocompatibility; bioelectric signals; biopotential electrodes: material properties, selection; data acquisition; signal processing; biomedical imaging technologies; bioamplifier systems performance and characteristics; major physiological systems and associated measurements.

Includes: Experiential Learning Activity
Prerequisite(s): SYSC 3610 and (ELEC 3605 or
SYSC 3203) and fourth-year status in Biomedical and
Electrical Engineering or fourth-year status in Biomedical
and Mechanical Engineering.

Lectures three hours a week, laboratory/problem analysis three hours a week.

SYSC 4205 [0.5 credit]

Image Processing for Medical Applications

Two-dimensional signals, filters, and Fourier transforms. Image acquisition, sampling, quantization and representation. Image perception. Digital and film cameras. Medical imaging technologies. Image processing operations: histogram, convolution, morphological, segmentation, registration. Image compression and formats.

Includes: Experiential Learning Activity

Prerequisite(s): MATH 1005 and fourth-year status in

Engineering.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4206 [0.5 credit] Surgical Robotics

Surgical robotic system architecture, forward and inverse kinematics of articulated robot arms, force and position control, unilateral and bilateral teleoperation of surgical robots, haptics and force feedback, instrumentation, image-guided surgery, design and implementation of robotic systems for minimally invasive surgery. Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3600 or SYSC 3610, and fourth-year status in Engineering.

Lectures three hours a week, laboratory three hours a week.

SYSC 4310 [0.5 credit]

Computer Systems Architecture

Evolution of computer systems architecture to improve performance, including memory hierarchy, hardware accelerators, and thread level parallelism. Advanced computer architecture topics such as instruction level parallelism, superscalar, out-of-order execution, speculative execution, multicore, many-core, heterogeneous systems, and virtualization.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 4507.

Prerequisite(s): SYSC 3320, and enrolment in Computer Systems Engineering.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4320 [0.5 credit]

Case Studies in Computer Systems

Examples of several modern computer systems are presented in a computer systems context: system objectives, software and hardware components, interactions. The case studies present computer systems trends emerging in practice.

Prerequisite(s): SYSC 4310, and enrolment in Computer Systems Engineering.

Lectures three hours a week, problem analysis one hour a week

SYSC 4405 [0.5 credit] Digital Signal Processing

Discrete time signal and system representation: time domain, z-transform, frequency domain. Sampling theorem. Digital filters: design, response, implementation, computer-aided design. Spectral analysis: the discrete Fourier transform and the FFT. Applications of digital signal processing.

Includes: Experiential Learning Activity
Prerequisite(s): SYSC 3500 or SYSC 3600 or
SYSC 3610.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4415 [0.5 credit]

Introduction to Machine Learning

Introduction to supervised and unsupervised machine learning (ML), including deeper knowledge of several algorithms of each type. Evaluation and quantification of predictive performance of ML systems. Use of one or more ML development environments.

Precludes additional credit for COMP 3105, COMP 4105 (no longer offered).

Prerequisite(s): (ECOR 2050 or STAT 3502 or STAT 2605 or SYSC 2510), (SYSC 1006 or SYSC 2006) with a minimum grade of C-, and third-year status in Engineering.

Lectures three hours a week, problem analysis one hour a week

SYSC 4416 [0.5 credit]

Artificial Intelligence in Engineering

Fundamental ideas and techniques underlying the design of intelligent computer systems. Topics include intelligent agents, problem solving by searching, uncertain knowledge and reasoning, introduction to machine learning, and selected AI applications. A special focus is given to engineering use cases and applications of AI. Precludes additional credit for COMP 3106. Prerequisite(s): (ECOR 2050 or STAT 3502 or STAT 2605 or SYSC 2510), (SYSC 1006 or SYSC 2006), and thirdyear status in Engineering.

Lectures three hours a week, laboratory/problem analysis one hour per week.

SYSC 4502 [0.5 credit] Communications Software

Communications software architectures, protocols and operating systems. Application layer protocols, APIs and socket programming. P2P algorithms, network virtualization, SDN. Reliable data transfer algorithms, FSM, MSC. Network security. Multimedia applications, RTSP, CDN, DASH, RTP, RTCP. Packet scheduling algorithms, DiffServ, IntServ, RSVP. Traffic classification, cross-layer optimization.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 3522.
Prerequisite(s): (SYSC 1006 or SYSC 2006) with a
minimum grade of C-, and SYSC 4602.
Lectures three hours a week, problem analysis three
hours alternate weeks.

SYSC 4504 [0.5 credit]

Fundamentals of Web Development

WWW architecture, web servers and browsers, core protocols. Web pages, their structure, interpretation and internal representation. Client-side and server-side programming. Data representation. Interfacing with databases and other server-side services. Cookies, state management, and privacy issues. Security. Web services. Includes: Experiential Learning Activity Precludes additional credit for COMP 2406. Prerequisite(s): SYSC 2004. Additional recommended background: SYSC 4602 or SYSC 3303. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4505 [0.5 credit] Automatic Control Systems I

Review of Laplace transform techniques. Effects of feedback: frequency response, pole-zero positions. Compensation: root locus, Bode plots. State variables: formulation, solution of linear systems, examples of simple second-order non-linear systems. Discrete time systems: z-transforms. Signal reconstruction.

Includes: Experiential Learning Activity
Precludes additional credit for MAAE 3500, MAAE 4500
(no longer offered).

Prerequisite(s): MATH 2004 and (SYSC 3500 or SYSC 3600 or SYSC 3610).

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4507 [0.5 credit]

Computer Systems Architecture

Evolution of computer systems architecture, influences of changing technology, techniques to improve performance, memory hierarchy, hardware accelerators. Instruction level parallelism, pipelining, vector processing, superscalar, out of order execution, speculative execution. Thread level parallelism, multi-core, many-core, heterogeneous systems. Evolution of architectures for specific application domains.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 4310.
Prerequisite(s): ELEC 2607 and (SYSC 2001 or SYSC 3006).

Lectures three hours a week, laboratory/problem analysis one hour a week.

SYSC 4511 [0.5 credit]

Digital Wireless Communication

Band-limited communication systems, orthogonal frequency division multiplexing; multiple-access techniques (TDMA, FDMA, CSMA, OFDMA); wireless channel models (pathloss, fading, multipath); MIMO systems and diversity; introduction to information theory (entropy, differential entropy, AMI, capacity); source coding; block codes and error detection; convolutional codes and error correction.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4600, SYSC 4604,

SYSC 4607.

Prerequisite(s): SYSC 3501 and ECOR 2050. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4600 [0.5 credit] Digital Communications

Probability theory, signal representation. Baseband data transmission: Nyquist criterion, optimal receiver, error probability. Digital modulation, performance. Synchronization. Introduction to information theory. Error detection and correction. OFDM. Applications to current digital wired and wireless communications systems. Includes: Experiential Learning Activity Precludes additional credit for SYSC 3503, SYSC 4511, SYSC 4604.

Prerequisite(s): SYSC 3501 and ECOR 2050. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4602 [0.5 credit] Computer Communications

Layered network architectures, TCP/IP suite, circuit switching, packet switching. Physical media, data transmission, multiplexing. Data link controls, MAC protocols, random access, polling, IEEE 802 standards. Bridges, switched Ethernet, VLANs. Routing algorithms, Internet routing protocols, datagram networks, virtual circuit networks. Transport protocols.

Includes: Experiential Learning Activity

Also listed as SYSC 3512.

Precludes additional credit for COMP 3203.

Prerequisite(s): ECOR 2050 or SYSC 2510 or STAT 2605 or STAT 3502 (may be taken concurrently), and third-year status in Biomedical and Electrical, Electrical, Communications, Computer Systems, Software, or Sustainable and Renewable Energy Engineering. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4604 [0.5 credit]

Digital Communication Theory

Introduction to information theory, source coding and data compression, Error control coding, Trellis coded modulation, advanced topics of current interest: spread spectrum; digital wireless communications.

Includes: Experiential Learning Activity

Precludes additional credit for SYSC 4511, SYSC 4600.

Prerequisite(s): SYSC 3503.

Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4607 [0.5 credit] Wireless Communications

Wireless radio channel characterization, diversity, equalization; cellular architecture, multiple access principles, spread spectrum systems, radio resource management; examples from modern wireless systems, networks, and standards, including cellular networks, WLANs, ad hoc networks, and satellite systems. Includes: Experiential Learning Activity Precludes additional credit for SYSC 4511. Prerequisite(s): SYSC 3501 or SYSC 3503. Lectures three hours a week, laboratory three hours alternate weeks.

SYSC 4700 [0.5 credit]

Topics in Communications Networks

Contemporary and emerging topics in communications networks and technologies. Communications as a national and international infrastructure. Systems view of network architecture and management: transmission, access, interference, routing, softwarization, virtualization, security. Regulations and standards. Examples include cellular 5G/6G, Wi-Fi, terrestrial, optical, aerial, and satellite networks.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3501 or SYSC 3503, and fourth-year status in Engineering.

Lectures three hours a week, laboratory/problem analysis three hours alternate weeks.

SYSC 4701 [0.5 credit] Communications Systems Lab

Project-oriented level experience in the design of communication systems to meet user requirements. Lectures on teletraffic analysis; system specification and design: requirements analysis, solution alternatives, evaluation of alternative technologies, design, costing, implementation, test.

Includes: Experiential Learning Activity
Precludes additional credit for SYSC 3522.
Prerequisite(s): SYSC 4602 and Fourth-year status
in Communications Engineering or permission of the

department.
Lectures two hours a week, laboratory four hours a week.

SYSC 4709 [0.5 credit] Industrial Automation

Introduction to automation and digitalization, Ladder logic, PLC, Sensors and actuators (Monitor/measurement), Ladder Diagrams, Pneumatics, Fluid Power, Pumps and Actuators, Open and closed systems, accumulators, regeneration, counterbalancing, pilot-operated systems, Coolers and heat exchangers, reservoirs, and sequencing, Hydraulic diagrams, design, control, and implementation of full systems.

Includes: Experiential Learning Activity
Prerequisite(s): fourth-year status in Engineering.
Lectures three hours a week, laboratory three hours
alternate weeks.

SYSC 4805 [0.5 credit] Computer Systems Design Lab

Project-oriented experience in the design of embedded computer systems. Lectures will discuss practical aspects related to the design and development of embedded systems, starting from sensor data acquisition and processing to decision systems, testing and embedded-system based project management, with practical application examples.

Includes: Experiential Learning Activity

Prerequisite(s): SYSC 3310 and enrolment in Computer

Systems Engineering.

Lectures two hours a week, laboratory four hours a week.

SYSC 4806 [0.5 credit] Software Engineering Lab

Applying the full spectrum of engineering and programming knowledge acquired in the program through team projects in the laboratory. Practice in doing presentations and reviews. Lectures will discuss software engineering issues as they relate to the projects, from a mature point of view.

Includes: Experiential Learning Activity
Prerequisite(s): COMP 3005, SYSC 3110

Prerequisite(s): COMP 3005, SYSC 3110, and enrolment in Software Engineering, or permission of the department. Lectures two hours a week, laboratory four hours a week.

SYSC 4810 [0.5 credit]

Introduction to Network and Software Security

Fundamental concepts, terminologies, and theories of computer security; principles underlying common security controls; various types of threats and attacks on networks and software systems, how they work, and controls for dealing with them; security risk assessment and management; legal and ethical aspects of computer security.

Includes: Experiential Learning Activity

Precludes additional credit for COMP 4108, CSEC 3108. Prerequisite(s): fourth-year status in Communications,

Computer Systems or Software Engineering.

Lectures three hours a week, problem analysis one and a half hours a week.

SYSC 4906 [0.5 credit] Special Topics

At the discretion of the Department, a course dealing with selected advanced topics of interest to students in Biomedical and Electrical, Communications, Computer Systems, Electrical, Software Engineering, and Engineering Physics may be offered.

Prerequisite(s): permission of the Department.

SYSC 4907 [1.0 credit] Engineering Project

Student teams develop professional-level experience by applying previously acquired knowledge to a major design project. Lectures discuss project-related issues and student presentations. A project proposal, interim report, oral presentations, and a comprehensive final report are required.

Includes: Experiential Learning Activity
Prerequisite(s): Fourth-year status in Engineering. Certain projects may have additional prerequisites.

SYSC 4918 [0.5 credit] Undergraduate Directed Study

Study, analysis, and solution of an engineering problem. Results presented in the form of a written report. Carried out under the close supervision of a faculty member. Intended for students interested in pursuing independent studies. Requires supervising faculty member and proposal from student.

Includes: Experiential Learning Activity
Prerequisite(s): Permission of the department and
completion of, or concurrent registration in, one of
SYSC 4907, ELEC 4907, or ECOR 4907.
Directed study.

Technology, Society, Environment Studies (TSES)

Technology, Society, Environment (TSES) Courses

TSES 2006 [0.5 credit] Ecology and Culture

Cultural adaptations to the environment are set within globalization processes. New symbolic, historical and political ecologies arise out of the hubris of classical models. The advocacy role of applied ecological anthropology and the consequences of Western cultures' adaptive capacities will be examined.

Prerequisite(s): second year standing or equivalent. Lectures three hours a week.

TSES 2305 [1.0 credit]

Ancient Science and Technology

Development of science and technology in the ancient world and their practical application. The craftsman and artisan in society; the attitude of intellectuals to science and manual labour. Effects of the institution of slavery. Suitable for students with no previous knowledge of Greece or Rome.

Also listed as CLCV 2305.

Prerequisite(s): second-year standing or equivalent. Lectures two hours a week.

TSES 3001 [0.5 credit]

Technology-Society Interactions

Ethical issues in introducing technology; historical review of technology and human development; effects on society of medical and communications technologies; automation and its effects on society, especially work; impact of technology on international affairs, especially through multinational enterprises. Guest lectures. Includes: Experiential Learning Activity

Precludes additional credit for TSES 3000 and TSES 3500.

1323 3300.

Prerequisite(s): at least second-year standing. Lectures and workshops three hours per week.

TSES 3002 [0.5 credit] Energy and Sustainability

History of energy use by humans; utilization of renewable energy sources; energy and agriculture; energy and mineral resources; options for electricity generation; nuclear energy; risks of accidents in large systems, e.g. nuclear plants, hydroelectric dams. Guest lectures. Includes: Experiential Learning Activity
Precludes additional credit for TSES 3000 and TSES 3500.

Prerequisite(s): at least second-year standing. Lectures and workshops three hours per week.

TSES 3500 [0.5 credit] Interactions in Industrial Society

Ethical issues involving technology; effects on society of automation, medical and communications technologies; technology and international affairs; energy use by humans; renewable energy sources; energy in agriculture and mineral extraction; electricity generation; nuclear energy; accidents in large systems, e.g. nuclear plants and hydroelectric dams.

Precludes additional credit for TSES 3001, TSES 3002 and TSES 3000.

Prerequisite(s): at least second-year standing. Lectures three hours per week for both terms.

TSES 4001 [0.5 credit]

Technology and Society: Risk

Examines the complex practice of evaluating technology's impact on society and the environment; risk analysis; cost-benefit analysis; technology regulation; retrospective project assessment; necessary aspects of assessment and assessment examples. Guest lecturers. Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent

Prerequisite(s): third-year standing or equivalent. Lectures and workshops three hours a week.

TSES 4002 [0.5 credit]

Technology and Society: Forecasting

Methods used for forecasting technological and social change; technological and social change portrayed in literature; science fiction factors involved in such change. Guest lecturers.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing or equivalent.
Lectures and workshops three hours a week.

TSES 4003 [0.5 credit]

Technology and Society: Innovation

Technological and social innovation, especially in Canada: historical examples; the relation of innovation to economic development; analysis of the steps involved; effect on employment; impediments and incentives. Guest lecturers.

Prerequisite(s): third-year standing or equivalent. Lectures and seminars three hours a week.

TSES 4005 [0.5 credit]

Information Technology and Society

Investigation of the human and social impacts of electronic information and communication on our working, educational, and personal lives from various disciplinary perspectives; problem issues and competing values in the creation, manipulation, dissemination, and control of information are identified; resolution initiatives encouraged. Guest lecturers.

Prerequisite(s): third-year standing or equivalent. Lectures and seminars three hours a week.

TSES 4006 [0.5 credit]

Technology and Society: Work

Explores the relationship between technology, employment and the individual; work organizations; employment restructuring; rural/urban split; the impact of information technologies; demographic impacts and globalization; Canadian issues and public policy explored. Guest lecturers.

Includes: Experiential Learning Activity
Prerequisite(s): third-year standing or equivalent.
Lectures and workshops three hours a week.

TSES 4007 [0.5 credit] Product Life Cycle Analysis

Life cycle analysis of products and processes, from resource extraction through design and use to waste management or recycling; social and environmental implications of product design and use; how we value material objects and the environment; consumerism; evolution of design. Guest lectures.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing or equivalent. Lectures and workshops three hours a week.

TSES 4008 [0.5 credit]

Environmentally Harmonious Lifestyles

Brief history of humans as part of the ecosystem; religious and ethical views; current degree of ecosystem disturbance by industrial society; innovations in products and services furthering the sustainability of the ecosystem, emphasis on the Canadian context. Guest lecturers and a major project.

Prerequisite(s): third-year standing or equivalent. Lectures and seminars three hours a week.

TSES 4009 [0.5 credit]

Special Topics

Reading course for students who wish to investigate a particular topic relevant to TSES.

Prerequisite(s): third-year standing or equivalent and permission of the Chair of TSE.

TSES 4010 [0.5 credit]

Special Topics

Specific topics of current interest. Topics may vary from vear to vear.

Prerequisite(s): third-year standing or equivalent. Lectures three hours a week.

TSES 4011 [0.5 credit]

Technology and Society: Development

Created in collaboration with Engineers Without Borders Carleton, the course explores appropriate ways of meeting technological needs of communities. Uses Canadian and African case studies to examine how capacity building has a greater impact than simple delivery of technological goods.

Prerequisite(s): third-year standing or equivalent. Lectures three hours a week.

TSES 4012 [0.5 credit]

Science and Fiction: Creating Tomorrow

Scenarios are used to speculate about the planned future. Science fiction and speculative fiction project ideas about imagined futures. Using readings from scenarios, speculative fiction and science fiction the course explores the mutual shaping of fiction, science and technology. Prerequisite(s): third-year standing or equivalent.

TSES 4014 [0.5 credit] Technology-Society: Time

Time is a universal human experience, but it presents some profound mysteries. It governs our behaviour on personal, societal and cultural levels. This course will bring together experts from physics, sociology, philosophy, biology, literature and psychology to illuminate our understanding.

Prerequisite(s): third-year standing or equivalent. Lectures three hours a week.

Women's and Gender Studies (WGST)

Women's and Gender Studies (WGST) Courses WGST 1808 [1.0 credit]

Introduction to Feminist Social Transformation

Overview of intersectional feminist debates as well as historical and contemporary theoretical traditions in gender and sexuality studies, critical race studies, and disability studies. Topics include the social construction of femininity, masculinity, and other identifications; Indigenous, decolonial, and transnational feminisms. Includes: Experiential Learning Activity

Precludes additional credit for FYSM 1402. Lectures and discussion three hours a week.

WGST 2800 [0.5 credit] Intersectional Identities

Critical examination of the multiple intersections between gender, as a relation of power and social identity, as these intersect with (neo)colonialism, racism, poverty, ableism and heterosexism in a globalized world.

Includes: Experiential Learning Activity

Prerequisite(s): one of WGST 1808, HRSJ 1001,

FYSM 1402, or permission of the Institute of Women's and Gender Studies.

Lectures and discussion three hours a week.

WGST 2801 [0.5 credit]

Activism, Feminisms, and Social Justice

A comparative, interdisciplinary examination of feminist activism in the modern era. A range of perspectives and materials are used to examine the objectives, scope, and impact of feminists' efforts to effect social and political change in different historical, cultural, and national settings.

Includes: Experiential Learning Activity
Prerequisite(s): second-year standing.
Lectures and discussion three hours a week.

WGST 2803 [0.5 credit]

Body Matters: The Politics of Bodies

Introduction to feminist studies of globalization and politics of bodies. Globalization of ideas, cultures, economics and politics, movement of bodies, bodies as spaces for disrupting norms of sex, gender, race, class, ability, sexuality, embodiment and embodied resistance in a globalized world.

Prerequisite(s): second-year standing. Lectures and discussion three hours a week.

WGST 2810 [0.5 credit]

Sex For Sale

Explores feminist perspectives on the sex industry, critically analyzing various legal approaches to regulation and the social meanings assigned to sex work.

Includes: Experiential Learning Activity

Prerequisite(s): Second year standing and WGST 1808 or

FYSM 1402.

Lecture and discussion three hours per week.

WGST 2811 [0.5 credit]

Masculinities Theoretical ex

Theoretical, experiential, cultural and policy issues around masculinities studies. The complexities of masculinities; the intersections of feminist and masculinity studies. Topics may include hegemonic, racialized, homosexual, and Other(ed) masculinities. Feminist theories and transnational perspectives frame course content and discussions.

Prerequisite(s): second-year standing. Lectures and discussion three hours a week.

WGST 2812 [0.5 credit]

Selected Topics in Women's and Gender Studies

An interdisciplinary analysis of one or more topics in women's and gender studies.

Includes: Experiential Learning Activity Prerequisite(s): second-year standing.

Lectures and discussion three hours a week. This course

is repeatable when the topic changes.

WGST 2814 [0.5 credit]

Gender, Sexuality and Cultural Production

How gender and cultural (re)production (literature, visual/performing arts, social media) and consumption articulate, circulate, and transform each other within economic, political, and social contexts. Emphasis on role, object, processes, and representations.

Prerequisite(s): second-year standing. Lectures and discussion three hours a week.

WGST 3001 [0.5 credit]

Theory and Research in Feminist Social Transformation

Interdisciplinary and intersectional approach introducing students to contemporary feminist, Indigenous, decolonial, and transnational theories, issues, conflicts, methodologies, and critiques of prevailing approaches to the construction of knowledge. Themes include, feminist epistemology, ontology, knowledge, and ethics in feminist research.

Includes: Experiential Learning Activity
Precludes additional credit for WGST 3809 (no longer offered), WGST 3810 (no longer offered).

Prerequisite(s): Third-year standing and 1.0 credit in

WGST or permission of the Institute.

Lecture three hours a week.

WGST 3803 [0.5 credit] Feminisms and Transnationalism

Feminist analyses of the diversity of transnational experiences around rights, health, education, motherhood, fathering, work, social media and technological change, among others. Topics may include: migration, environment, wars/conflicts, neocolonialism, diaspora, human trafficking, refugee issues and displaced populations.

Prerequisite(s): third-year standing, and 1.0 credit in WGST; or permission of the Institute.

WGST 3806 [0.5 credit] Girlhoods

The emerging discipline of girlhood studies; social and cultural constructions of girlhood and categories of difference. Topics may include the commercialization of girlhood, popular culture and girls, negotiating identities, violence, sexualities, agency and activism in a globalizing world

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute.
Lecture three hours a week.

WGST 3807 [0.5 credit]

Gendered Violence

Theories, concepts and contexts of the complex manifestations of gendered violence in the lives of women, men and children globally.

Precludes additional credit for WGST 3005 Section "A", if taken in Winter 2012 and WGST 3005 Section "A" if taken in Fall 2009.

Prerequisite(s): third-year standing and 1.0 credit in WGST or permission of the Institute.

Lecture three hours a week.

WGST 3812 [0.5 credit]

Selected Topics in Women's and Gender Studies

An interdisciplinary analysis of one or more topics in women's and gender studies.

Includes: Experiential Learning Activity

Prerequisite(s): third-year standing and 1.0 credit in

WGST.

Lecture three hours a week.

WGST 4003 [0.5 credit] Traversing Feminisms

Interdisciplinary overview of key historical concepts and issues in Women's and Gender Studies in areas of theory, epistemology, and research design. This course is designed for students pursuing research/studies in WGST, DBST, CRST, and/or SXST who have not taken any courses in our institute.

Includes: Experiential Learning Activity
Prerequisite(s): permission of the Institute.
Also offered at the graduate level, with different
requirements, as WGST 5003, for which additional credit
is precluded.

Seminar three hours a week.

WGST 4060 [0.5 credit] African Feminisms

African feminisms as theoretical interventions and as political practice, and as diverse forms. Gender as a marker of power: status, hierarchy, social capability, and as a system of distribution of resources, responsibilities and solidarities.

Includes: Experiential Learning Activity

Also listed as AFRI 4060.

Prerequisite(s): Fourth year standing and WGST 1808 or

FYSM 1402 OR permission of the Institute.

Seminar three hours per week.

WGST 4302 [0.5 credit] Transgender Human Rights

Critical analyses of human rights through an examination of transgender subjectivities. The systemic erasure of trans people within society and the struggles of some activists to normalize trans identities.

Also listed as HRSJ 4302.

Prerequisite(s): fourth-year standing.

Seminar three hours a week.

WGST 4800 [0.5 credit]

Women's and Gender Studies Practicum

Experience in research through a combination of classroom seminars and a field placement. Each project will be negotiated individually as a contract between the student, instructor and institutional partner.

Includes: Experiential Learning Activity

Precludes additional credit for WGST 4903 (no longer offered).

Prerequisite(s): Fourth year standing and WGST 3001 with a minimum 6.5 CGPA in B.A. Hons. Women's and Gender Studies program or permission of the Institute. Also offered at the graduate level, with different requirements, as WGST 5920, for which additional credit is precluded.

WGST 4801 [1.0 credit]

Women's and Gender Studies Practicum

Experience in applied feminisms through a combination of classroom seminars and internship. Each project will be negotiated individually as a contract between the student, instructor and institutional partner. Students must complete both the in-class and the internship portion of the course. Includes: Experiential Learning Activity

Precludes additional credit for WGST 4800, WGST 4903 and WGST 4904 (no longer offered).

Prerequisite(s): Fourth year standing and WGST 3001 with a minimum 6.5 CGPA in B.A. Hons. Women's and Gender Studies program or permission of the Institute. Also offered at the graduate level, with different requirements, as WGST 5920, for which additional credit is precluded.

This full-credit course is offered intensively in one term.

WGST 4811 [1.0 credit]

Honours Research Project in Women's and Gender Studies

Students will undertake a major research project on some aspect of women's and gender studies under the supervision of a faculty member.

Includes: Experiential Learning Activity

Prerequisite(s): A major CGPA of at least 11.00, plus WGST 3809 and WGST 3810 OR WGST 3001 and fourth-year standing in B.A. Hons. Women's and Gender Studies program, or permission of the Institute.

WGST 4812 [0.5 credit]

Selected Topics in Women's and Gender Studies

Includes: Experiential Learning Activity Prerequisite(s): fourth-year standing and 1.0 credit in Women's and Gender Studies or permission of the Institute of Women's and Gender Studies. Seminar three hours a week. This course is repeatable when the topic changes.

WGST 4814 [0.5 credit] **Independent Study**

Reading or research course supervised by a faculty member. Written proposal approved by the supervisor must be submitted before last day of course changes. Normally, only 0.5 credit of independent study may be counted in the program.

Includes: Experiential Learning Activity

Prerequisite(s): fourth-year standing in a Women's and Gender Studies program or permission of the Institute.

Copyright Compliance

Carleton University is committed to compliance in all copyright matters. Noncompliance is a violation of the Canadian Copyright Act. In addition to any actions that might be taken by any copyright owner or its licensing agent, the University will take steps against any breach of this policy. See http://www.library.carleton.ca/copyright/ for guidelines on copyright compliance.
