Interdisciplinary Science and Practice (ISAP)

**Interdisciplinary Science and Practice (ISAP) Courses**

**ISAP 1000 [0.5 credit]**  
**Seminar in Science**  
Cross-disciplinary survey of current issues in science, providing new science students with an orientation to the study of science at the university level. Structured around seminars, oral and written presentations. Lectures and tutorials three hours a week.  
Includes: Experiential Learning Activity  
Also listed as NSCI 1000.  
Precludes additional credit for ISAP 1001.  
Prerequisite(s): Restricted to students in the first year of B.Sc. programs or B.A. Biology programs. Lectures and tutorials three hours a week.

**ISAP 1001 [0.5 credit]**  
**Introduction to Interdisciplinary Science**  
What is interdisciplinarity and what are the challenges and opportunities of collaboration within and across disciplines in science and beyond? Topics include types of biases, public datasets and science communication.  
Lectures and discussion three hours per week.

**ISAP 1002 [0.5 credit]**  
**Seminar in Interdisciplinary Science**  
Exploring the role of interdisciplinarity in discovery and innovation, and discussion of selected issues facing society and the role of science. Topics include finding information, collaboration and science communication tools.  
Prerequisite(s): ISAP 1001.  
Seminar three hours per week.

**ISAP 2000 [0.5 credit]**  
**Seminar in Science II**  
Cross-disciplinary survey of current issues in science, with a focus on applying interdisciplinary approaches to solving scientific problems. Structured around seminars, oral and written presentations. Focus on EDI, community outreach, and experiential learning.  
Includes: Experiential Learning Activity  
Also listed as NSCI 2000.  
Prerequisite(s): Second year standing in B.Sc. programs or B.A. Biology programs or permission of the Institute.  
Lecture, seminar, or workshops three hours a week.

**ISAP 2001 [0.5 credit]**  
**Foundations in Critical Inquiry**  
What is science and the scientific method? Topics include the scientific method, credible sources of information, knowledge gaps, the impact of scientific discoveries, and discussion of their local and global implications.  
Includes: Experiential Learning Activity  
Prerequisite(s): ISAP 1002 or permission of the Institute.  
Lecture and seminar three hours per week.

**ISAP 2002 [0.5 credit]**  
**Research Principles for Interdisciplinary Science**  
Exploring how research is conducted. Topics include publicly available databases, the role of communication in research, stakeholders and participants, and the process of identifying knowledge gaps and developing research questions.  
Prerequisite(s): ISAP 2001 or permission of the Institute.  
Lecture three hours per week.

**ISAP 3001 [0.5 credit]**  
**Principles and Applications in Data Analysis**  
Development of strategies for obtaining and analyzing data. Topics include: survey of publicly available science-data resources; identification of coincidental, correlational and causal relationships; statistical data-analysis techniques; concepts of risk and error propagation in measured and calculated values. Applications in the physical and biological sciences.  
Includes: Experiential Learning Activity  
Prerequisite(s): ISAP 2002 and STAT 2507 or permission of the Institute.  
Lecture and seminar three hours per week.

**ISAP 3002 [0.5 credit]**  
**Applications in Interdisciplinary Research**  
Application of skills from Interdisciplinary Science and Practice (ISAP) courses to develop a research proposal. Topics include: research ethics; identification of stakeholders; inclusive consultation, collaboration and dissemination strategies.  
Prerequisite(s): ISAP 3001 or permission of the Institute.  
Lecture and seminar three hours per week.

**ISAP 3003 [0.5 credit]**  
**Science Communication**  
How is science perceived and how has science been communicated? Students will use case studies to assess examples of science communication with varying outcomes. Topics include the principles of effective science communication, the range of tools available, and knowing the audience.  
Includes: Experiential Learning Activity  
Prerequisite(s): ISAP 2002 or permission of the Institute.  
Lecture and seminar three hours per week.
ISAP 3004 [0.5 credit]  
**Science Policy**  
Exploration of how science-related policy is developed and the impact of policy on science. Topics include policy frameworks, stakeholder roles, power relationships, commercialization and the funding of science.  
Prerequisite(s): ISAP 3003 or permission of the Institute.  
Lecture and seminar three hours per week.

ISAP 3700 [0.5 credit]  
**Topics in Interdisciplinary Science**  
Specific topics of current interest. Topics may vary from year to year.  
Includes: Experiential Learning Activity  
Prerequisite(s): Second year standing in the Interdisciplinary Science and Practice program or permission of the Institute.  
Seminar/workshop three hours per week.

ISAP 3999 [0.0 credit]  
**Co-operative Work Term**  
Includes: Experiential Learning Activity

ISAP 4700 [0.5 credit]  
**Topics in Interdisciplinary Science**  
Specific topics of current interest. Topics may vary from year to year.  
Includes: Experiential Learning Activity  
Prerequisite(s): Third year standing in the Interdisciplinary Science and Practice program or permission of the Institute.  
Seminar three hours per week.

ISAP 4901 [0.5 credit]  
**Directed Studies**  
Independent or group study, open to third- and fourth-year students to explore a particular topic, in consultation with a Faculty supervisor. May include directed reading, written assignments, tutorials, laboratory or field work.  
Includes: Experiential Learning Activity  
Prerequisite(s): third-year standing in the Interdisciplinary Science and Practice (ISAP) program and permission of the instructor.

ISAP 4906 [1.0 credit]  
**Capstone Course - Group Research Project**  
Students will collaborate on a project that addresses a real-world issue in a team environment. Focus includes: design and completion of a research project; development of communication, critical inquiry, data analysis and research skills; and the opportunity to develop initiative, creativity and self-reliance.  
Includes: Experiential Learning Activity  
Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program and permission of the Institute.  
Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4907 [1.0 credit]  
**Capstone Course - Research Essay**  
A substantial, independent essay or research proposal-based critical review and research proposal, using library, database and/or bioinformatic resources, under the direct supervision of the instructor. Topics include identification and critical review of resources, development of writing skills and formulation of research question and strategy.  
Includes: Experiential Learning Activity  
Precludes additional credit for ISAP 4906, ISAP 4908.  
Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program or permission of the Institute.  
Lecture, seminar and workshop four hours per week, as scheduled by the instructor.

ISAP 4908 [1.0 credit]  
**Capstone Course - Individual Research Project**  
An independent research project under the direct supervision of a faculty adviser. Evaluation is based on a written thesis and a poster presentation.  
Includes: Experiential Learning Activity  
Precludes additional credit for ISAP 4906, ISAP 4907.  
Prerequisite(s): fourth-year standing in the Interdisciplinary Science and Practice (ISAP) Honours program, a major CGPA of 9.0 or higher, and permission of the Institute.  
Lectures and discussion as scheduled by the course coordinator; other hours as arranged with the faculty advisor.
ISAP 4909 [1.0 credit]
Translational Approach to Indigenous Community Wellness
This course involves co-developing an Indigenous community-led process or product that addresses a current and specific mental health issue. Involves working in interdisciplinary groups with a community partner. Includes: Experiential Learning Activity
Also listed as ENSC 4909, MPAD 4906, NEUR 4906. Precludes additional credit for ENSC 4906, ISAP 4906, ISAP 4907, ISAP 4908, NEUR 4906, NEUR 4907, NEUR 4908.
Prerequisite(s): Fourth-year standing with a minimum Major CGPA of 10.0 in the Interdisciplinary Science and Practice (ISAP) Honours program and permission of the instructor.
Seminars or workshops three hours a week. A field trip to the partner community is typically required.

ISAP 4999 [0.0 credit]
Science Communication Certificate Professional Development Workshop
A one-day workshop providing practical skills development for becoming an effective science communicator. Topics for discussion will include defining the audience and framing of information, reviews of effective science communication, career opportunities for science communicators, and one-to-one analysis of participants writing skills. Graded SAT/UNS.
Includes: Experiential Learning Activity
Also listed as JOUR 4999.
Prerequisite(s): This course is restricted to students enrolled in the Certificate of Science Communication, and who have completed at least 2.0 credits towards the certificate, including one of COMS 2500 or ISAP 3003.
A one-day workshop
